

Cross Road and Fullarton Road Intersection Upgrade

Night Works Update

The Australian and South Australian governments have jointly funded (50:50) \$61 million to upgrade the Cross Road and Fullarton Road intersection. Once complete, the upgrade will improve travel times and road safety, increase intersection capacity and enhance network reliability.

Construction of the upgraded intersection is almost complete, with finishing works scheduled for completion late September 2023, weather permitting.

During ongoing finishing works, **the intersection will remain open to traffic at all times**. Temporary speed and lane restrictions will be in place in the vicinity. While the majority of these works are continuing during the day, some night works are required to ensure the works can be undertaken safely and efficiently.

Night works

Night works for line-marking, service access cover readjustments and defect rectification works will continue to be undertaken intermittently in various locations through and around the intersection.

These night works will continue until late September 2023, weather permitting between the hours of 7pm and 6am, Sunday to Thursday as required.

The project site compound on Euston Avenue will be demobilised in mid-October 2023.

Please take extra care when workers are on site and observe speed limits, lane restrictions and traffic controllers when travelling through the area.

Access to properties will be maintained throughout these works, however the project team will contact individual property owners if driveway access is to be temporarily affected by the works.

Some noise disturbance can be expected at times while these works are completed, however the work will be managed to minimise disturbance to nearby residents and businesses as much as practically possible. This includes scheduling intrusive works early evening where possible.

Thank you

We would like to sincerely thank the local community, particularly residents around the intersection, for your patience and understanding during works to upgrade the intersection.

Further information

For more information or provide feedback on the project, please contact the project team via phone on 1800 271 168, by email to DIT.CrossFullarton@sa.gov.au or by visiting www.dit.sa.gov.au/cross_fullarton

Kind regards,
