

Lobethal Freight Access Upgrade Project

Commencement of Works

Dear Resident/Business Owner

The Department of Planning, Transport and Infrastructure (DPTI) is upgrading approximately 34 kilometres of the road network between Palmer and Lobethal to enable South Australia's Restricted Access Vehicle (RAV) network to be extended from the existing Adelaide Hills freight route.

Works are scheduled to commence from **Monday 17 September 2018** and are expected to be **completed by late June 2019**, weather permitting, and will include:

- junction upgrades to enable Heavy Productivity Vehicles (HPV's) to undertake safe turning movements;
- upgrade of existing culverts and bridge structures;
- safety improvements including road widening, shoulder sealing, hazard protection and vegetation removal; and
- upgrading Slow Vehicle Turnouts

Works will be undertaken each week from **Monday to Saturday from 7am to 5:30pm** until the completion of the Project. No works will occur on the October long weekend or over the Christmas period from 22 December, 2018, until 14 January, 2019.

Works will commence with road curve widening on Terlinga Road between the townships of Mount Torrens and Tungkillo.

Access to properties will be maintained at all times throughout the works and every effort will be made to minimise impacts to surrounding properties and road users wherever possible.

All roads will remain open to traffic with lane and speed restrictions in place during these works as required. Road users are advised to follow the direction of traffic management staff and observe signage.

We appreciate your patience and cooperation whilst these important works are undertaken.
