

Gawler Rail Electrification Project

Commercial Road level crossing temporary closure

As part of the Gawler Rail Electrification Project, the Commercial Road level crossing will be temporarily closed to undertake overhead wiring works.

Location: works will be undertaken within the rail corridor between Nurlutta and Salisbury railway stations. To ensure the works can be undertaken safely, the Commercial Road level crossing will be temporarily closed while works are carried out.

When: works will be undertaken at night to minimise the impact to traffic during peak times. Hours of work are:

- Wednesday, 16 June 10pm to 6am Thursday, 17 June 2021
- Thursday, 17 June 10pm to 6am Friday, 18 June 2021

The crossing will also be closed at these times.

Traffic management and detours: Detours will be in place to direct motorists to alternative crossing points via Bagster Road and Salisbury Highway (refer to map). Speed restrictions will also apply. Please observe signage, speed restrictions and traffic controllers.

Access to residential properties and businesses will be maintained at all times. Pedestrians will be assisted to cross by staff on site (if safe to do so) or directed to the nearest safe crossing point.

Please plan ahead, allow extra time and take care when travelling through the area.

What you can expect: construction plant and equipment including wiring trucks, elevated working platforms and other construction vehicles will be used on site. As work crews move along the railway line, some noise can be expected from construction machinery. Every effort will be made to minimise disruption to residents and businesses during these works as much as is practically possible.
