

Augusta Highway Upgrades

Augusta Highway junction upgrades at Venning Road and Clements Road

The Department for Infrastructure and Transport (the Department) is delivering infrastructure upgrades between Port Wakefield and Port Augusta to improve safety, connectivity and freight efficiency. These upgrades form part of the \$190 million Princes Highway Corridor Upgrade program jointly funded (80:20) by the Australian and South Australian governments.

As part of the program, the Department is upgrading the Augusta Highway junctions at Venning Road and Clements Road.

Works for each junction will include:

- road widening to improve safety for turning vehicles;
- road resurfacing for the extent of the works;
- installation of raised road reflective markers;
- new road lighting around the junctions; and
- installation of audio tactile line marking.

These works are expected to commence on Monday, 5 June 2023, with completion early 2024, weather permitting. Works will be undertaken Monday to Friday, from 7am to 5:30pm. Some works may also be required on Saturdays. **No works will be undertaken on Sundays.**

To safely undertake these works traffic will be reduced to a single lane, intermittently as required. Temporary traffic signals will be in place to control the direction of traffic on Augusta Highway. These traffic conditions will be in place at both junctions on Augusta Highway. Speed restrictions will also be in place throughout the work area. Please see map overleaf for details.

Outside of working hours, the highway will open to traffic in each direction with temporary speed restrictions in place. Road users are asked to please plan ahead, expect delays, allow extra travel time and take extra care when workers are on site. Observe speed limits, lane restrictions and traffic controllers when travelling through the area.

Access to properties will be maintained during the works wherever possible, with advance notice provided if there is a need to temporarily restrict driveway access.

Some noise disturbance can be expected at times while these works are completed, however the work will be managed to minimise disturbance as much as practically possible. Every effort will be made to minimise impacts to the community.

We appreciate your cooperation and patience while these important works are undertaken.
