

Port Lincoln Intersection Safety Upgrade Project

Night Works

We are undertaking improvements to the Eyre Peninsula road network. These works are funded by the Australian and South Australian governments. This project includes upgrading four key intersections along Lincoln Highway through central Port Lincoln.

What's happening:

Pavement rehabilitation works will be undertaken along Lincoln Highway through central Port Lincoln from Flinders Highway to Mortlock Terrace, including the parking bays.

To minimise impacts, works will be carried out at night, and will move progressively around the work zone in the following order:

- Hallett Place, Light Street to Lewis Street
- Hallett Place, Lewis Street to Adelaide Place
- Liverpool Street, Adelaide Place to Bligh Street

How this affects you:

To do this work safely, speed and lane restrictions will be in place during work hours where works are occurring. Local detours for light vehicles will be required intermittently during working hours. Please follow traffic management directions and signage while works are in progress. Access for heavy vehicles will be maintained at all times.

During the works, there may be some noise and dust from time to time, but we'll do our best to keep the disruption to a minimum. You might also notice some odours, which is normal during asphalt work.

Pedestrians and cyclists, please be cautious when passing through work zones. Some areas might have limited access. We'll put up signs to guide you to other routes if needed. Some on-street carparking may also be restricted while works are underway. Outside of working hours these carparks will reopen.

When

From Friday 14 June 2024 to late July 2024, weather permitting

Hours of operation

Sunday to Friday between 6pm and 7am

Where

Between Flinders Highway and Mortlock Terrace, Port Lincoln.

Australian Government

Government of South Australia

Department for Infrastructure and Transport

Some property access will be temporarily impacted during the night works, but we will do our best to maintain access to businesses in the area. The project team will contact affected property owners, residents, and businesses directly in advance.

Speed restrictions will remain in place outside of working hours until line marking is fully complete, which is expected by late July 2024.

For any traffic management or access queries during night work hours please contact the Department's contractor, **McMahons Services on 0475 159 423**.
