**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Industry	Light industry
Shop	Any of the following: (a) shop with a gross leasable floor area less than or equal to 1000m <sup>2</sup> (b) shop within the Urban Corridor Living Retail Subzone (c) shop that is a Restaurant

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development	Exceptions
----------------------	------------

(Column A)	(Column B)
Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
Any kind of development where the site of the development is <b>not</b> adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.	Except any of the following: <ol style="list-style-type: none"> <li>1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)</li> <li>2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).</li> </ol>
Any development involving any of the following (or of any combination of any of the following): <ul style="list-style-type: none"> <li>) advertisement</li> <li>) child care facility</li> <li>) dwelling</li> <li>) residential flat building</li> <li>) student accommodation</li> <li>) supported accommodation.</li> </ul>	Except development that: <ol style="list-style-type: none"> <li>1. exceeds the maximum building height specified in Urban Corridor (Living) DTS/DPF 3.1 or</li> <li>2. does not satisfy Urban Corridor (Living) DTS/DPF 4.1 or</li> <li>3. involves the construction of a building of 4 or more building levels and the site of the development is:                             <ol style="list-style-type: none"> <li>(a) adjacent land to a neighbourhood-type zone and</li> <li>(b) adjoins an allotment containing an existing low-rise building used for residential purposes.</li> </ol> </li> </ol>
Any development involving any of the following (or of any combination of any of the following): <ul style="list-style-type: none"> <li>) consulting room</li> <li>) office</li> <li>) shop.</li> </ul>	Except development that: <ol style="list-style-type: none"> <li>1. exceeds the maximum building height specified in Urban Corridor (Living) DTS/DPF 3.1 or</li> <li>2. does not satisfy Urban Corridor (Living) DTS/DPF 1.2 or</li> <li>3. does not satisfy Urban Corridor (Living) DTS/DPF 4.1 or</li> <li>4. involves the construction of a building of 4 or more building levels and the site of the development is:                             <ol style="list-style-type: none"> <li>(a) adjacent land to a neighbourhood-type zone and</li> <li>(b) adjoins an allotment containing an existing low-rise building used for residential purposes.</li> </ol> </li> </ol>
Any development involving any of the following (or of any combination of any of the following): <ul style="list-style-type: none"> <li>) air handling unit, air conditioning system or exhaust fan</li> <li>) carport</li> <li>) deck</li> <li>) fence</li> <li>) internal building works</li> <li>) land division</li> <li>) outbuilding</li> <li>) pergola</li> <li>) private bushfire shelter</li> <li>) replacement building</li> <li>) retaining wall</li> <li>) shade sail</li> <li>) solar photovoltaic panels (roof mounted)</li> <li>) swimming pool or spa pool and associated swimming pool safety features</li> <li>) tree damaging activity</li> <li>) verandah</li> <li>) water tank.</li> </ul>	None specified.
Demolition.	Except any of the following: <ol style="list-style-type: none"> <li>1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)</li> <li>2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).</li> </ol>
Railway line.	Except where located outside of a rail corridor or rail reserve.

**Placement of Notices - Exemptions for Performance Assessed Development**

None specified.

**Placement of Notices - Exemptions for Restricted Development**

None specified.

### Urban Corridor Living Retail Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO1	Additional neighbourhood-scale shopping, business, entertainment and recreation facilities to provide a focus for business and community life and most daily and weekly shopping needs of the community.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Retail, office, entertainment and recreation related uses supplemented by other businesses providing a range of goods and services to the community as part of a mixed use development.	DTS/DPF 1.1 Shops, offices or consulting room uses exceeding a maximum gross leasable floor area of 500m <sup>2</sup> where integrated with residential development and comprise a range of tenancies.

### Urban Corridor (Main Street) Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A safe, walkable and vibrant shopping, entertainment and commercial main street precinct with an active day and evening economy supported by medium density residential development.
DO 2	Built form positively contributing to: <ul style="list-style-type: none"> <li>(a) a streetscape that is visually interesting at human-scale comprising articulated buildings with a high level of fenestration and balconies oriented towards the street</li> <li>(b) a fine-grain public realm comprising buildings with active frontages that are designed to reinforce the street rhythm, that consider the facades, articulation and massing of existing buildings and any spaces between them, and provide narrow tenancy footprints at ground level.</li> </ul>

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 A vibrant mix of land uses adding to the vitality of the area and extending activities outside shop hours including restaurants, educational, community and cultural facilities and visitor and residential accommodation.	DTS/DPF 1.1 Development comprises one or more of the following: <ul style="list-style-type: none"> <li>(a) Advertisement</li> <li>(b) Child Care Facility</li> <li>(c) Consulting Room</li> <li>(d) Dwelling</li> <li>(e) Hotel</li> <li>(f) Educational Facility</li> <li>(g) Licensed Premises</li> <li>(h) Office</li> <li>(i) Residential Flat Building</li> <li>(j) Retirement Facility</li> <li>(k) Shop</li> <li>(l) Student Accommodation</li> <li>(m) Supported Accommodation</li> <li>(n) Tourist Accommodation</li> </ul>
PO 1.2 Retail, office, entertainment and recreation related uses that provide a range of goods and services to the local community and the surrounding district.	DTS/DPF 1.2 None are applicable.
PO 1.3	DTS/DPF 1.3

<p>Ground floor uses contribute to a safe, active and vibrant main street.</p>	<p>Shop, office, or consulting room uses located on the ground floor level of buildings fronting the primary street frontage.</p>
<p>PO 1.4</p> <p>Dwellings developed in conjunction with non-residential uses to support business, entertainment and recreational activities that contribute to making the main street locality and pedestrian thoroughfares safe, walkable, comfortable, pleasant and vibrant places. (a)</p> <p>(b)</p>	<p>DTS/DPF 1.4</p> <p>Dwellings developed in conjunction with non-residential uses, and sited:</p> <p>at upper levels of buildings with non-residential uses located at ground level</p> <p>or</p> <p>behind non-residential uses on the same allotment.</p>
<p>PO 1.5</p> <p>Development of diverse medium density accommodation options either as part of a mixed use development or wholly residential development.</p>	<p>DTS/DPF 1.5</p> <p>None are applicable.</p>
<p>PO 1.6</p> <p>Land uses promote movement and activity during daylight and evening hours, including restaurants, educational, health, community and cultural facilities, and visitor and residential accommodation.</p>	<p>DTS/DPF 1.6</p> <p>None are applicable.</p>
<p>PO 1.7</p> <p>Changes in the use of land encourage the efficient reuse of commercial premises to maintain and enhance vibrancy within activity centres.</p>	<p>DTS/DPF 1.7</p> <p>A change of use to a shop, office, consulting room or any combination of these uses where all of the following are achieved:</p> <ul style="list-style-type: none"> <li>(a) the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses;</li> <li>(b) if the proposed change of use is for a shop that primarily involves the handling and sale of foodstuffs, areas used for the storage and collection of refuse are sited at least 10 metres from the site of a dwelling (other than a dwelling directly associated with the proposed shop)</li> <li>(c) if the proposed change of use is for a shop that primarily involves heating and cooking of foodstuffs in a commercial kitchen and is within 30 metres of any neighbourhood-type zone boundary or a dwelling (other than a dwelling directly associated with the proposed shop), an exhaust duct and stack (chimney) exists or is capable of being installed for discharging exhaust emissions</li> <li>(d) if the change in use involves a gross leasable floor area greater than 250m<sup>2</sup> and has direct frontage to an arterial road, it achieves either (i) or (ii): <ul style="list-style-type: none"> <li>(i) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) is from a road that is not an arterial road</li> <li>(ii) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared</li> </ul> </li> <li>(e) off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number, except in any of the following circumstances: <ul style="list-style-type: none"> <li>(i) the building is a local heritage place</li> <li>(ii) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made); or</li> <li>(iii) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.</li> </ul> </li> </ul>
<p>Built Form and Character</p>	
<p>PO 2.1</p> <p>Buildings sensitively frame the main street and public spaces, provide overall visual relief from building height and mass, and maintain a human scale for pedestrians.</p> <p>(a)</p> <p>(b)</p>	<p>DTS/DPF 2.1</p> <p>Buildings:</p> <ul style="list-style-type: none"> <li>(a) include a clearly defined podium or street wall with a maximum building height of 2 building levels or 8m, or higher where it matches the existing street wall of adjoining buildings</li> <li>(b) have levels above the defined podium or street wall setback a minimum of 2m from that wall.</li> </ul>
<p>PO 2.2</p> <p>Buildings and structures designed to complement and respond to the established fine-grained main street character by:</p> <p>ensuring the verandah profile and materials of construction are consistent with and positively respond to adjacent traditional main street buildings</p> <p>complementing the traditional shop-front elements, such as narrow buildings and tenancy footprints, with frequently repeated frontages, and clear-glazed narrow shop front displays above raised display levels [base stall boards] and recessed entries.</p>	<p>DTS/DPF 2.2</p> <p>None are applicable.</p>
<p>PO 2.3</p> <p>Buildings designed to create visual connection between the public realm and ground level interior, to ensure an active interface with the main street and maximise passive surveillance.</p>	<p>DTS/DPF 2.3</p> <p>The ground floor primary frontage of buildings provides at least 60% of the street frontage as an entry / foyer or display window to a shop or other community or commercial use that provides pedestrian interest and activation.</p>
<p>PO 2.4</p> <p>Buildings provide a high amenity pedestrian environment by providing shelter and shade</p>	<p>DTS/DPF 2.4</p> <p>Buildings that provide a continuity of verandahs, canopies, awnings or other pedestrian</p>

over footpaths.	shelters to contribute to pedestrian comfort.																				
<p>PO 2.5</p> <p>Buildings are adaptable and flexible to accommodate a range of residential and non-residential land uses on the ground floor.</p>	<p>DTS/DPF 2.5</p> <p>The ground floor of buildings contains a minimum floor to ceiling height of 3.5m.</p>																				
<p>PO 2.6</p> <p>Buildings sited on the primary street boundary to achieve a continuity of built form frontage to the main street, with the occasional section of building set back to create outdoor dining areas, visually interesting building entrances and intimate but vibrant spaces.</p>	<p>DTS/DPF 2.6</p> <p>Buildings with a 0m setback from the primary street boundary, with the exception of minor setbacks to accommodate outdoor dining areas.</p>																				
<p>PO 2.7</p> <p>Buildings with no setback from the secondary street boundary to contribute to a consistent established streetscape.</p>	<p>DTS/DPF 2.7</p> <p>Buildings with a 0m setback from the secondary street boundary.</p>																				
<p>PO 2.8</p> <p>Buildings with no side boundaries setback to achieve a continuity of street façade to the main street.</p>	<p>DTS/DPF 2.8</p> <p>Buildings with a 0m setback from the side boundary.</p>																				
<p>PO 2.9</p> <p>Buildings set back from rear boundaries (other than street boundaries) to minimise negative impacts on neighbouring properties, including access to natural sunlight and ventilation.</p> <p>(a)</p> <p>(b)</p>	<p>DTS/DPF 2.9</p> <p>Buildings setback from rear boundaries as follows:</p> <p>5m or more where the subject land directly abuts an allotment of a different zone or</p> <p>3m or more in all other cases, except where the development abuts the wall of an existing or simultaneously constructed building on the adjoining land.</p>																				
<p>PO 2.10</p> <p>Buildings set back from street boundaries (in the case of rear access ways) to provide adequate manoeuvrability for vehicles.</p> <p>(a)</p> <p>(b)</p>	<p>DTS/DPF 2.10</p> <p>Buildings setback from the rear access way:</p> <p>no requirement where the access way is not less than 6.5m wide or</p> <p>where the access way is less than 6.5m wide, the distance equal to the additional width required to make the access way at least 6.5m wide.</p>																				
Building Height																					
<p>PO 3.1</p> <p>Building height is consistent with the form expressed in the <i>Maximum Building Height (Levels) Technical and Numeric Variation layer</i> and the <i>Maximum Building Height (Metres) Technical and Numeric Variation layer</i> or positively responds to the local context including the site's frontage, depth, and adjacent primary road corridor (e.g., a State maintained road or a road with similar attributes) or street width.</p>	<p>DTS/DPF 3.1</p> <p>Except where a Concept Plan specifies otherwise, development does not exceed the following building height(s):</p> <table border="1" data-bbox="802 1126 1554 1720"> <thead> <tr> <th colspan="2" style="text-align: center;">Maximum Building Height (Levels)</th> </tr> </thead> <tbody> <tr><td>Maximum building height is 2 levels</td></tr> <tr><td>Maximum building height is 3 levels</td></tr> <tr><td>Maximum building height is 4 levels</td></tr> <tr><td>Maximum building height is 5 levels</td></tr> <tr><td>Maximum building height is 6 levels</td></tr> <tr><td>Maximum building height is 7 levels</td></tr> <tr> <th colspan="2" style="text-align: center;">Maximum Building Height (Metres)</th> </tr> <tr><td>Maximum building height is 8m</td></tr> <tr><td>Maximum building height is 11.5m</td></tr> <tr><td>Maximum building height is 12.5m</td></tr> <tr><td>Maximum building height is 15m</td></tr> <tr><td>Maximum building height is 16.5m</td></tr> <tr><td>Maximum building height is 18m</td></tr> <tr><td>Maximum building height is 18.5m</td></tr> <tr><td>Maximum building height is 22m</td></tr> <tr><td>Maximum building height is 24.5m</td></tr> <tr><td>Maximum building height is 25.5m</td></tr> </tbody> </table> <p>In relation to DTS/DPF 3.1, in instances where:</p> <p>(a) more than one value is returned in the same field, refer to the <i>Maximum Building Height (Levels) Technical and Numeric Variation layer</i> or <i>Maximum Building Height (Metres) Technical and Numeric Variation layer</i> in the SA planning database to determine the applicable value relevant to the site of the proposed development</p> <p>(b) only one value is returned (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other</p> <p>(c) no value is returned (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy.</p>	Maximum Building Height (Levels)		Maximum building height is 2 levels	Maximum building height is 3 levels	Maximum building height is 4 levels	Maximum building height is 5 levels	Maximum building height is 6 levels	Maximum building height is 7 levels	Maximum Building Height (Metres)		Maximum building height is 8m	Maximum building height is 11.5m	Maximum building height is 12.5m	Maximum building height is 15m	Maximum building height is 16.5m	Maximum building height is 18m	Maximum building height is 18.5m	Maximum building height is 22m	Maximum building height is 24.5m	Maximum building height is 25.5m
Maximum Building Height (Levels)																					
Maximum building height is 2 levels																					
Maximum building height is 3 levels																					
Maximum building height is 4 levels																					
Maximum building height is 5 levels																					
Maximum building height is 6 levels																					
Maximum building height is 7 levels																					
Maximum Building Height (Metres)																					
Maximum building height is 8m																					
Maximum building height is 11.5m																					
Maximum building height is 12.5m																					
Maximum building height is 15m																					
Maximum building height is 16.5m																					
Maximum building height is 18m																					
Maximum building height is 18.5m																					
Maximum building height is 22m																					
Maximum building height is 24.5m																					
Maximum building height is 25.5m																					
<p>PO 3.2</p> <p>Buildings designed to achieve optimal height and floor space yields, and maintain traditional main street form.</p>	<p>DTS/DPF 3.2</p> <p>New development is not less than the following building height:</p> <table border="1" data-bbox="802 2112 1554 2206"> <thead> <tr> <th colspan="2" style="text-align: center;">Minimum Building Height (Levels)</th> </tr> </thead> <tbody> <tr><td>Minimum building height is 2 levels</td></tr> <tr><td>Minimum building height is 3 levels</td></tr> </tbody> </table>	Minimum Building Height (Levels)		Minimum building height is 2 levels	Minimum building height is 3 levels																
Minimum Building Height (Levels)																					
Minimum building height is 2 levels																					
Minimum building height is 3 levels																					

In relation to DTS/DPF 3.2, in instances where:

- (a) more than one value is returned in the same field, refer to the *Minimum Building Height (Levels) Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development
- (b) no value is returned (i.e. there is a blank field), then there is no minimum building height and DTS/DPF 3.2 is met.

Interface Height

PO 4.1

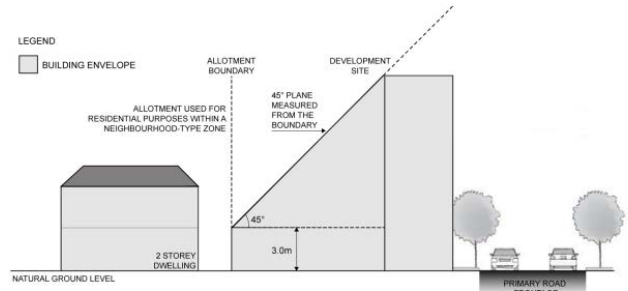

Buildings mitigate impacts of building massing on residential development within a neighbourhood-type zone.

DTS/DPF 4.1

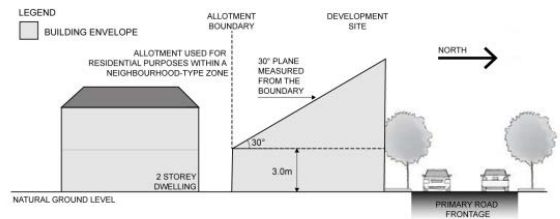

**Interface Height**

Buildings constructed within a building envelope provided by a:

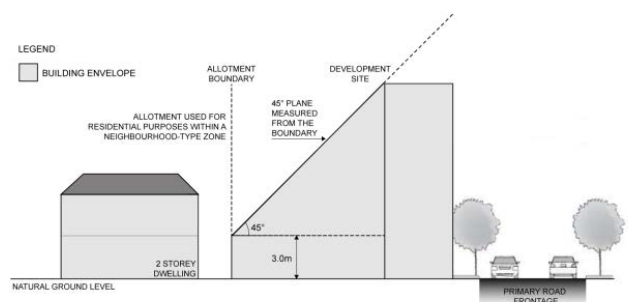

- (a) 45 degree plane measured from a height of 3 metres above natural ground level at the boundary of the allotment where abutting a residential use, or where the allotment is separated by a road less than 6.5 metres in width measured from the residential allotment boundary, within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary):

- (b) in relation to a southern boundary, 30 degree plane grading north, measured from a height of 3m above natural ground at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a street boundary):

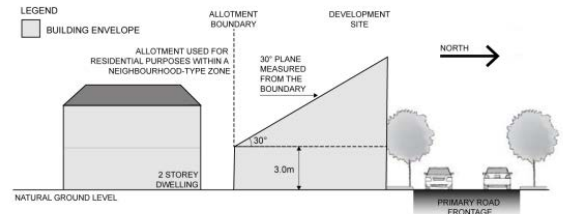

Buildings constructed within a building envelope provided by a 45 degree plane measured from a height of 3 metres above natural ground level at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a street boundary):

**Interface Height**

Buildings constructed within a building envelope provided by a 30 degree plane measured from a height of 3m above natural ground level at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a street boundary):

PO 4.2  
Buildings on an allotment fronting a road that is not the primary road corridor (e.g., a State maintained road or a road with similar attributes) and where land on the opposite side of the road is within a neighbourhood-type zone, provides an orderly transition to the built form scale envisaged in the adjacent zone to complement the streetscape character.

DTS/DPF 4.2  
None are applicable.

Significant Development Sites

PO 5.1  
Consolidation of significant development sites (a site with a frontage over 25m to a primary road corridor (e.g., a State maintained road or a road with similar attributes) and over 1500m<sup>2</sup> in area, which may include one or more allotments) to achieve increased development yield, provided that off-site impacts can be managed and broader community benefit is achieved in terms of design quality, community services, affordable housing provision, or sustainability features.

DTS/DPF 5.1  
Development on significant development sites (a site with a frontage over 25m to a primary road corridor (e.g., a State maintained road or a road with similar attributes) and over 1500m<sup>2</sup> in area, which may include one or more allotments) up to 30% above the maximum building height specified in DTS/DPF 3.1 (rounded to the nearest whole number) where it:

- (a) incorporates the retention, conservation and reuse of a building which is a listed heritage place or an existing built form and context that positively contributes to the character of the local area
- (b) includes more than 15% of dwellings as affordable housing or
- (c) includes at least:
  - (i) three of the following:
    - A. high quality open space that is universally accessible and is directly connected to, and well integrated with, public realm areas of the street
    - B. high quality, safe and secure, universally accessible pedestrian linkages that connect through the development site
    - C. active uses are located on the public street frontages of the building, with any above ground car parking located behind
    - D. a range of dwelling types that includes at least 10% of 3+ bedroom apartments;
    - E. a child care centre.
  - (ii) three of the following:
    - A. a communal useable garden integrated with the design of the building that covers the majority of a rooftop area supported by services that ensure ongoing maintenance;
    - B. living landscaped vertical surfaces of at least 50m<sup>2</sup> supported by services that ensure ongoing maintenance
    - C. passive heating and cooling design elements including solar shading integrated into the building
    - D. higher amenity through provision of private open space in excess of minimum requirements by 25% for at least 50% of dwellings.

PO 5.2  
Development on a significant development site (a site with a frontage over 25m to a primary road corridor (e.g., a State maintained road or a road with similar attributes) and over 1500m<sup>2</sup> in area, which may include one or more allotments) designed to minimise impacts on residential uses in adjacent zones with regard to intensity of use, overshadowing, massing and building proportions.

DTS/DPF 5.2  
Development on a significant development site (a site with a frontage over 25m to a primary road corridor (e.g., a State maintained road or a road with similar attributes) and over 1500m<sup>2</sup> in area, which may include one or more allotments) that:

- (a) is constructed within the zone's Interface Building Height provision as specified DTS/DPF 4.1
- (b) locates non-residential activities and higher density elements towards the primary road corridor (e.g., a State maintained road or a road with similar attributes)
- (c) locates taller building elements towards the primary road corridor (e.g., a State maintained road or a road with similar attributes).

Movement, parking and access

PO 6.1

DTS/DPF 6.1

<p>Development does not result in additional crossovers on the main street, except where rationalising existing crossovers on consolidated sites and is designed to minimise conflicts with pedestrians and cyclists and minimise disruption to the continuity of built form. (a)</p> <p>(b)</p>	<p>Vehicular access to be provided:</p> <p>via side streets or rear lanes provided there is no negative impact on residential amenity within the zone and in adjacent zones</p> <p>or</p> <p>where it consolidates or replaces existing crossovers.</p>
<p>PO 6.2</p> <p>Development is designed to ensure car parking is located to avoid negative impacts on the main street rhythm and activation.</p>	<p>DTS/DPF 6.2</p> <p>Vehicle parking garages located behind buildings away from the primary main street frontage.</p>
<p>Advertisements</p>	
<p>PO 7.1</p> <p>Advertisements are sited and designed to achieve an overall consistency of appearance along individual street frontages.</p>	<p>DTS/DPF 7.1</p> <p>None are applicable.</p>
<p>PO 7.2</p> <p>Freestanding advertisements:</p> <p>identify the associated business(es) (a)</p> <p>are of a size that is commensurate with the scale of the centre and the street frontage (b)</p> <p>avoid visual clutter</p> <p>positively respond to the context without dominating the locality</p> <p>are sited and designed to not detract from the main street character.</p>	<p>DTS/DPF 7.2</p> <p>Freestanding advertisements:</p> <p>do not exceed 8m in height, the adjacent building wall height, or the zone's height allowance (whichever is the lesser)</p> <p>do not have a sign face that exceeds 6m2 per side.</p>
<p>Concept Plans</p>	
<p>PO 8.1</p> <p>Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure. (a)</p> <p>(b)</p>	<p>DTS/DPF 8.1</p> <p>The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:</p> <p>In relation to DTS/DPF 8.1, in instances where:</p> <p>one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.</p> <p>in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 8.1 is met.</p>

**Table 1 - Accepted Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
<p>Building alterations</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>Local Heritage Place Overlay</li> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>The alteration does not:                     <ol style="list-style-type: none"> <li>increase the floor area of the building</li> <li>exceed the existing wall height</li> <li>exceed the existing overall building height</li> <li>alter the roof profile</li> <li>alter an approved privacy screening arrangement or window treatment</li> </ol> </li> <li>Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.</li> </ol>
<p>Consulting room</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>Local Heritage Place Overlay</li> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	<p>A change of use to a shop (except where it involves handling and sale of foodstuffs, the heating and cooking of foodstuffs in a commercial kitchen, or a restaurant), office, consulting room or any combination of these uses where all of the following are achieved:</p> <ol style="list-style-type: none"> <li>the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses</li> <li>if the change in use involves a gross leasable floor area greater than 250m2 and has direct frontage to an arterial road, it achieves:                     <ol style="list-style-type: none"> <li>the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road</li> </ol> <p>or</p> <ol style="list-style-type: none"> <li>the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared</li> </ol> </li> <li>off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking [Vehicle Parking Rates]: DTS 5.1 to the nearest whole number, except where:</li> </ol>

	<ul style="list-style-type: none"> <li>(a) the building is a local heritage place</li> <li>or</li> <li>(b) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made)</li> <li>or</li> <li>(c) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.</li> </ul>
<p>Office Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<p>A change of use to a shop (except where it involves handling and sale of foodstuffs, the heating and cooking of foodstuffs in a commercial kitchen, or a restaurant), office, consulting room or any combination of these uses where all of the following are achieved:</p> <ul style="list-style-type: none"> <li>1. the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses</li> <li>2. if the change in use involves a gross leasable floor area greater than 250m<sup>2</sup> and has direct frontage to an arterial road, it achieves: <ul style="list-style-type: none"> <li>(a) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road</li> <li>or</li> <li>(b) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared</li> </ul> </li> <li>3. off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking [Vehicle Parking Rates]: DTS 5.1 to the nearest whole number, except where: <ul style="list-style-type: none"> <li>(a) the building is a local heritage place</li> <li>or</li> <li>(b) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made)</li> <li>or</li> <li>(c) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.</li> </ul> </li> </ul>
<p>Partial demolition of a building or structure Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Historic Area Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<p>None</p>
<p>Shade sail Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Future Local Road Widening Overlay</li> <li>• Future Road Widening Overlay</li> <li>• Historic Area Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ul style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i></li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</li> <li>3. Shade sail consists of permeable material</li> <li>4. The total area of the sail does not exceed 40m<sup>2</sup></li> <li>5. No part of the shade sail will be: <ul style="list-style-type: none"> <li>(a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment</li> <li>(b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment</li> </ul> </li> <li>6. Primary street setback - at least as far back as the building line of the building to which it is ancillary</li> <li>7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m</li> <li>8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary</li> <li>9. Does not involve the clearance of native vegetation</li> <li>10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas</li> <li>11. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay</li> <li>12. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.</li> </ul>

<p>Shop Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>Local Heritage Place Overlay</li> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	<p>A change of use to a shop (except where it involves handling and sale of foodstuffs, the heating and cooking of foodstuffs in a commercial kitchen, or a restaurant), office, consulting room or any combination of these uses where all of the following are achieved:</p> <ol style="list-style-type: none"> <li>the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses</li> <li>if the change in use involves a gross leasable floor area greater than 250m<sup>2</sup> and has direct frontage to an arterial road, it achieves:             <ol style="list-style-type: none"> <li>the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road</li> <li>or</li> <li>the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared</li> </ol> </li> <li>off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking [Vehicle Parking Rates]: DTS 5.1 to the nearest whole number, except where:             <ol style="list-style-type: none"> <li>the building is a local heritage place</li> <li>or</li> <li>the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made)</li> <li>or</li> <li>the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.</li> </ol> </li> </ol>
<p>Solar photovoltaic panels (roof mounted) Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>Local Heritage Place Overlay</li> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i></li> <li>Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof</li> <li>Panels and associated components do not overhang any part of the roof</li> <li>Does not apply to a system with a generating capacity of more than 5MW that is to be connected to the State's power system</li> <li>If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.</li> </ol>
<p>Water tank (underground) Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>Coastal Areas Overlay</li> <li>Hazards (Acid Sulfate Soils) Overlay</li> <li>Ramsar Wetlands Overlay</li> </ul>	<ol style="list-style-type: none"> <li>The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</li> <li>The tank (including any associated pump) is located wholly below the level of the ground</li> <li>Does not involve the clearance of native vegetation</li> <li>It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay</li> <li>It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.</li> </ol>

**Table 2 - Deemed-to-Satisfy Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
<p>Advertisement</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Character Preservation District Overlay</li> <li>• Heritage Adjacency Overlay</li> <li>• Historic Area Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• Non-stop Corridor Overlay</li> <li>• Significant Landscape Protection Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	None	<p>Advertisements [Appearance] DTS/DPF 1.1, DTS/DPF 1.2, DTS/DPF 1.3, DTS/DPF 1.4</p> <p>Advertisements [Proliferation of Advertisements] DTS/DPF 2.3</p> <p>Advertisements [Advertising Content] DTS/DPF 3.1</p> <p>Advertisements [Amenity Impacts] DTS/DPF 4.1</p> <p>Advertisements [Safety] DTS/DPF 5.1, DTS/DPF 5.2, DTS/DPF 5.3, DTS/DPF 5.4, DTS/DPF 5.5, DTS/DPF 5.6</p> <p>Clearance from Overhead Powerlines DTS/DPF 1.1</p> <p>Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.2</p>	None	<p>Advertising Near Signalised Intersections Overlay [Advertisements Near Signalised Intersections] DTS/DPF 1.1</p> <p>Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1</p> <p>Airport Building Heights (Regulated) Overlay [Built Form] DTS/DPF 1.1</p> <p>Building Near Airfields Overlay DTS/DPF 1.3</p> <p>Defence Aviation Area Overlay [Built Form] DTS/DPF 1.1</p> <p>Future Road Widening Overlay [Future Road Widening] DTS/DPF 1.1</p> <p>Gateway Overlay [Advertisements] DTS/DPF 4.1</p> <p>Tunnel Protection Overlay [Excavation and Ground Intruding Activity] DTS/DPF 2.1</p> <p>Tunnel Protection Overlay [Land Use and Intensity] DTS/DPF 1.1</p> <p>State Significant Native Vegetation Areas Overlay [Environmental Protection] DTS/DPF 1.1</p> <p>Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1</p>
<p>Consulting room</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	Land Use and Intensity DTS/DPF 1.7	None	None	<p>Tunnel Protection Overlay [Excavation and Ground Intruding Activity] DTS/DPF 2.1</p> <p>Tunnel Protection Overlay [Land Use and Intensity] DTS/DPF 1.1</p>

**Table 3 - Applicable Policies for Performance Assessed Development**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone <small>(applies only in the area affected by the Subzone)</small>	Overlay <small>(applies only in the area affected by the Overlay)</small>

Gateway Overlay [Landscaping] PO 3.1, PO 3.2, PO 3.3, PO 3.4
Hazards (Acid Sulfate Soils) Overlay [Land Use and Intensity] PO 1.1
Hazards (Bushfire - General Risk) Overlay [Siting] PO 1.1
Hazards (Bushfire - General Risk) Overlay [Built Form] PO 2.1
Hazards (Bushfire - General Risk) Overlay [Habitable Buildings] PO 3.1, PO 3.2, PO 3.3
Hazards (Bushfire - General Risk) Overlay [Vehicle Access - Roads, Driveways and Fire Tracks] PO 5.1, PO 5.2, PO 5.3
Hazards (Bushfire - High Risk) Overlay [Land Use] PO 1.1
Hazards (Bushfire - High Risk) Overlay [Siting] PO 2.1
Hazards (Bushfire - High Risk) Overlay [Built Form] PO 3.1, PO 3.2
Hazards (Bushfire - High Risk) Overlay [Habitable Buildings] PO 4.1, PO 4.2, PO 4.3
Hazards (Bushfire - High Risk) Overlay [Vehicle Access - Roads, Driveways and Fire Tracks] PO 6.1, PO 6.2, PO 6.3
Hazards (Bushfire - Medium Risk) Overlay [Siting] PO 1.1
Hazards (Bushfire - Medium Risk) Overlay [Built Form] PO 2.1, PO 2.2
Hazards (Bushfire - Medium Risk) Overlay [Habitable Buildings] PO 3.1, PO 3.2, PO 3.3
Hazards (Bushfire - Medium Risk) Overlay [Vehicle Access - Roads, Driveways and Fire Tracks] PO 5.1, PO 5.2, PO 5.3
Hazards (Bushfire - Outback) Overlay [Habitable Buildings] PO 1.1
Hazards (Bushfire - Outback) Overlay [Vehicle Access - Roads and Driveways] PO 2.1, PO 2.2
Hazards (Bushfire - Regional) Overlay [Siting] PO 1.1
Hazards (Bushfire - Regional) Overlay [Built Form] PO 2.1, PO 2.2
Hazards (Bushfire - Regional) Overlay [Vehicle Access - Roads and Driveways] PO 5.1, PO 5.2, PO 5.3
Hazards (Flooding) Overlay [Flood Resilience] PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.5

Hazards (Flooding) Overlay [Environmental Protection] PO 4.1, PO 4.2
Hazards (Flooding) Overlay [Site Earthworks] PO 5.1, PO 5.2
Hazards (Flooding) Overlay [Access] PO 6.1, PO 6.2
Hazards (Flooding - General) Overlay [Flood Resilience] PO 2.1
Hazards (Flooding - Evidence Required) Overlay [Flood Resilience] PO 1.1
Heritage Adjacency Overlay [Built Form] PO 1.1
Historic Area Overlay [All Development] PO 1.1
Historic Area Overlay [Built Form] PO 2.1, PO 2.2, PO 2.3, PO 2.4, PO 2.5
Historic Area Overlay [Alterations and additions] PO 3.1, PO 3.2
Historic Area Overlay [Context and Streetscape Amenity] PO 6.1, PO 6.2
Historic Area Overlay [Ruins] PO 8.1
Historic Shipwrecks Overlay [General] PO 1.1
Interface Management Overlay [Land Use and Intensity] PO 1.1
Key Outback and Rural Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)] PO 1.1
Key Outback and Rural Routes Overlay [Access - On-Site Queuing] PO 2.1
Key Outback and Rural Routes Overlay [Access - Location (Spacing) - Existing Access Points] PO 3.1
Key Outback and Rural Routes Overlay [Access - Location (Spacing) - New Access Points] PO 4.1
Key Outback and Rural Routes Overlay [Access - Location (Sight Lines)] PO 5.1
Key Outback and Rural Routes Overlay [Access - Mud and Debris] PO 6.1
Key Outback and Rural Routes Overlay [Access - Stormwater] PO 7.1
Key Outback and Rural Routes Overlay [Building on Road Reserve] PO 8.1
Key Outback and Rural Routes Overlay [Public Road Junctions] PO 9.1
Key Railway Crossings Overlay [Access, Design and Function] PO 1.1

Limited Dwelling Overlay PO 1.1
Local Heritage Place Overlay [Built Form] PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7
Local Heritage Place Overlay [Alterations and Additions] PO 2.1, PO 2.2
Local Heritage Place Overlay [Landscape Context and Streetscape Amenity] PO 5.1
Local Heritage Place Overlay [Conservation Works] PO 7.1
Major Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)] PO 1.1
Major Urban Transport Routes Overlay [Access - On-Site Queuing] PO 2.1
Major Urban Transport Routes Overlay [Access - Location (Spacing) - Existing Access Points] PO 3.1
Major Urban Transport Routes Overlay [Access - Location (Spacing) - New Access Points] PO 4.1
Major Urban Transport Routes Overlay [Access - Location (Sight Lines)] PO 5.1
Major Urban Transport Routes Overlay [Access - Mud and Debris] PO 6.1
Major Urban Transport Routes Overlay [Access - Stormwater] PO 7.1
Major Urban Transport Routes Overlay [Building on Road Reserve] PO 8.1
Major Urban Transport Routes Overlay [Public Road Junctions] PO 9.1
Major Urban Transport Routes Overlay [Corner Cut-Offs] PO 10.1
Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Water Quality] PO 1.1
Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Wastewater] PO 2.2, PO 2.3, PO 2.4
Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Stormwater] PO 3.1, PO 3.2, PO 3.3, PO 3.9
Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Landscapes and Natural Features] PO 4.1
Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Water Quality] PO 1.1
Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Wastewater] PO 2.1, PO 2.4, PO 2.5

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Stormwater]  
PO 3.1, PO 3.2, PO 3.3, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Landscapes and Natural Features]  
PO 4.1

Native Vegetation Overlay [Environmental Protection]  
PO 1.1, PO 1.2, PO 1.4

Non-Stop Corridors Overlay [Non-Stop Corridor Overlay]  
PO 1.1

Resource Extraction Protection Area Overlay [Protection of Strategic Resources]  
PO 1.1

River Murray Flood Plain Protection Area Overlay [Wastewater]  
PO 2.1

River Murray Flood Plain Protection Area Overlay [Built Form and Character]  
PO 5.1, PO 5.3

River Murray Flood Plain Protection Area Overlay [Flood Resilience]  
PO 6.1, PO 6.2, PO 6.3

River Murray Flood Plain Protection Area Overlay [Environmental Protection]  
PO 7.1, PO 7.2, PO 7.3

River Murray Flood Plain Protection Area Overlay [Access]  
PO 8.1, PO 8.2, PO 8.3

Scenic Quality Overlay [Land Use and Intensity]  
PO 1.1

Scenic Quality Overlay [Built Form and Character]  
PO 2.1

Scenic Quality Overlay [Landscaping]  
PO 3.1

Scenic Quality Overlay [Earthworks]  
PO 4.1

Significant Interface Management Overlay [Land Use and Intensity]  
PO 1.1

Significant Landscape Protection Overlay [Land Use and Intensity]  
PO 1.1

Significant Landscape Protection Overlay [Built Form and Character]  
PO 2.1, PO 2.2

Significant Landscape Protection Overlay [Landscaping]  
PO 3.1

Significant Landscape Protection Overlay [Earthworks]  
PO 4.1

State Heritage Area Overlay [Built Form]  
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5

State Heritage Area Overlay [Alterations and Additions]  
PO 2.1, PO 2.2

State Heritage Area Overlay [Landscape Context and Streetscape Amenity]  
PO 5.1

State Heritage Area Overlay  
[Conservation Works]  
PO 7.1

State Heritage Place Overlay [Built Form]  
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7

State Heritage Place Overlay [Alterations and Additions]  
PO 2.1, PO 2.2

State Heritage Place Overlay [Landscape Context and Streetscape Amenity]  
PO 5.1

State Heritage Place Overlay [Conservation Works]  
PO 7.1

State Significant Native Vegetation Areas Overlay [Environmental Protection]  
PO 1.1

Stormwater Management Overlay  
PO 1.1

Traffic Generating Development Overlay [Traffic Generating Development]  
PO 1.1, PO 1.2, PO 1.3

Tunnel Protection Overlay [Land Use and Intensity]  
PO 1.1

Tunnel Protection Overlay [Excavation and Ground Intruding Activity]  
PO 2.1

Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]  
PO 1.1

Urban Transport Routes Overlay [Access - On-Site Queuing]  
PO 2.1

Urban Transport Routes Overlay [Access - (Location Spacing) - Existing Access Point]  
PO 3.1

Urban Transport Routes Overlay [Access - Location (Spacing) - New Access Points]  
PO 4.1

Urban Transport Routes Overlay [Access - Location (Sight Lines)]  
PO 5.1

Urban Transport Routes Overlay [Access - Mud and Debris]  
PO 6.1

Urban Transport Routes Overlay [Access - Stormwater]  
PO 7.1

Urban Transport Routes Overlay [Building on Road Reserve]  
PO 8.1

Urban Transport Routes Overlay [Public Road Junctions]  
PO 9.1

Urban Transport Routes Overlay [Corner Cut-Offs]  
PO 10.1

Urban Tree Canopy Overlay  
PO 1.1

				Water Resources Overlay [Water Catchment] PO 1.1, PO 1.2, PO 1.5, PO 1.6, PO 1.7, PO 1.8

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Industry	Light industry

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development	Exceptions
----------------------	------------

(Column A)	(Column B)
Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
Any kind of development where the site of the development is <b>not</b> adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.	Except any of the following: <ol style="list-style-type: none"> <li>1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)</li> <li>2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).</li> </ol>
Any development involving any of the following (or of any combination of any of the following): <ul style="list-style-type: none"> <li>) advertisement</li> <li>) dwelling</li> <li>) office</li> <li>) residential flat building</li> <li>) shop.</li> </ul>	Except development that: <ol style="list-style-type: none"> <li>1. exceeds the maximum building height specified in Urban Corridor (Main Street) DTS/DPF 3.1 or</li> <li>2. does not satisfy Urban Corridor (Main Street) DTS/DPF 4.1 or</li> <li>3. involves the construction of a building of 4 or more building levels and the site of the development is:                             <ol style="list-style-type: none"> <li>(a) adjacent land to a neighbourhood-type zone and</li> <li>(b) adjoins an allotment containing an existing low-rise building used for residential purposes.</li> </ol> </li> </ol>
Any development involving any of the following (or of any combination of any of the following): <ul style="list-style-type: none"> <li>) air handling unit, air conditioning system or exhaust fan</li> <li>) carport</li> <li>) deck</li> <li>) fence</li> <li>) internal building works</li> <li>) land division</li> <li>) outbuilding</li> <li>) pergola</li> <li>) private bushfire shelter</li> <li>) replacement building</li> <li>) retaining wall</li> <li>) shade sail</li> <li>) solar photovoltaic panels (roof mounted)</li> <li>) swimming pool or spa pool and associated swimming pool safety features</li> <li>) tree damaging activity</li> <li>) verandah</li> <li>) water tank.</li> </ul>	None specified.
Any development involving any of the following (or of any combination of any of the following) within the Tunnel Protection Overlay: <ul style="list-style-type: none"> <li>) storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres</li> <li>) temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres</li> <li>) excavation or ground intruding activity at a depth greater than 2.5 metres below the regulated surface level.</li> </ul>	Except where not undertaken by the Crown, a Council or an essential infrastructure provider.
Demolition.	Except any of the following: <ol style="list-style-type: none"> <li>1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)</li> <li>2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).</li> </ol>
Railway line.	Except where located outside of a rail corridor or rail reserve.

**Placement of Notices - Exemptions for Performance Assessed Development**

None specified.

**Placement of Notices - Exemptions for Restricted Development**

None specified.

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	<p>A mixed use area that:</p> <ul style="list-style-type: none"> <li>(a) provides a flexible policy framework for the redevelopment of urban areas in close proximity to high frequency public transport corridors or adjacent primary road corridors that have the potential to become activity generators</li> <li>(b) provides for the high-quality design and integration of buildings and public realm in mixed use areas with walkable urban form, excellent provision for walking and cycling and active street frontages that encourage social interaction, positively contribute to public safety and vibrancy and promote active movement and public transport use</li> <li>(c) provides a concentration of mixed use activity close to community focal points, such as a high frequency fixed transit stop, activity centre or high quality open space</li> <li>(d) provides adaptable and flexible buildings that can accommodate changes in land use and respond to changing economic and social conditions and advances in technology</li> <li>(e) transitions to a reduced scale and intensity at the zone boundary to maintain the amenity of residential properties located within adjoining zones.</li> </ul>

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
<p>PO 1.1</p> <p>Development of medium and high density accommodation types for living, including dwellings, supported accommodation, student accommodation, short term accommodation, either as part of a mixed use development or wholly residential development.</p>	<p>DTS/DPF 1.1</p> <p>Development comprises one or more of the following:</p> <ul style="list-style-type: none"> <li>(a) Advertisement</li> <li>(b) Carport</li> <li>(c) Child Care Facility</li> <li>(d) Consulting Room</li> <li>(e) Dwelling</li> <li>(f) Educational Facility</li> <li>(g) Hotel</li> <li>(h) Licensed Premises</li> <li>(i) Light Industry</li> <li>(j) Office</li> <li>(k) Outbuilding</li> <li>(l) Residential Flat Building</li> <li>(m) Retirement Facility</li> <li>(n) Shop</li> <li>(o) Student Accommodation</li> <li>(p) Supported Accommodation</li> <li>(q) Tourist Accommodation</li> </ul>
<p>PO 1.2</p> <p>Development of diverse medium density accommodation, and high density accommodation in specified locations (locations where 7 or more building levels is envisaged), either as part of a mixed use development or wholly residential development.</p>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
<p>PO 1.3</p> <p>Light industrial and commercial uses (including high technology and research based activity) where compatible with adjoining uses.</p>	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>
<p>PO 1.4</p> <p>Co-locate close to public transport land uses that generate high levels of pedestrian activity, encourage public transport use and provide opportunities for multi-purpose trips.</p>	<p>DTS/DPF 1.4</p> <p>None are applicable.</p>
<p>PO 1.5</p> <p>In clusters of non-residential development, provide high-quality, inclusive and integrated public realm, including open spaces, sport and recreation facilities, and places that serve as hubs for communal activity.</p>	<p>DTS/DPF 1.5</p> <p>None are applicable.</p>
<p>PO 1.6</p> <p>Shops, offices and consulting rooms services and facilities to meet the needs of the local community.</p>	<p>DTS/DPF 1.6</p> <p>Except where a Main Street Subzone or Urban Neighbourhood Retail Subzone applies, shops, offices or consulting room uses not exceeding a maximum gross leasable floor area of 500m<sup>2</sup> for individual tenancies and 1000m<sup>2</sup> in a single building.</p>
<p>PO 1.7</p> <p>Larger scale shops, offices, and consulting rooms primarily clustered together to provide a focus for services and facilities.</p>	<p>DTS/DPF 1.7</p> <p>None are applicable.</p>
Built Form and Character	
<p>PO 2.1</p>	<p>DTS/DPF 2.1</p>

<p>Development positively contributes to creating activity nodes around high-frequency public transport stops/stations and multi-modal transport interchanges, encourages public transport use and positively contributes to a fine-grain streetscape that provides a safe, comfortable, vibrant and walkable public realm at ground level.</p>	<p>None are applicable.</p>																							
<p>PO 2.2</p> <p>Building height is consistent with the form expressed in the <i>Maximum Building Height (Levels) Technical and Numeric Variation layer</i> and the <i>Maximum Building Height (Metres) Technical and Numeric Variation layer</i> or positively responds to the local context including the site's frontage, depth, and adjacent primary street width.</p>	<p>DTS/DPF 2.2</p> <p>Except where a Concept Plan specifies otherwise, development does not exceed the following building height(s):</p> <table border="1" data-bbox="802 320 1554 1016"> <thead> <tr> <th colspan="2">Maximum Building Height (Levels)</th> </tr> </thead> <tbody> <tr><td>Maximum building height is 3 levels</td></tr> <tr><td>Maximum building height is 4 levels</td></tr> <tr><td>Maximum building height is 5 levels</td></tr> <tr><td>Maximum building height is 6 levels</td></tr> <tr><td>Maximum building height is 8 levels</td></tr> <tr><td>Maximum building height is 10 levels</td></tr> <tr><td>Maximum building height is 12 levels</td></tr> <tr> <th colspan="2">Maximum Building Height (Metres)</th> </tr> <tr><td>Maximum building height is 12m</td></tr> <tr><td>Maximum building height is 12.5m</td></tr> <tr><td>Maximum building height is 13.5m</td></tr> <tr><td>Maximum building height is 16.5m</td></tr> <tr><td>Maximum building height is 18.5m</td></tr> <tr><td>Maximum building height is 24.5m</td></tr> <tr><td>Maximum building height is 32.5m</td></tr> <tr><td>Maximum building height is 43m</td></tr> <tr><td>Maximum building height is 20.5m</td></tr> <tr><td>Maximum building height is 28.5m</td></tr> <tr><td>Maximum building height is 40.5m</td></tr> <tr><td>Maximum building height is 48.5m</td></tr> </tbody> </table> <p>In relation to DTS/DPF 2.2, in instances where:</p> <ul style="list-style-type: none"> <li>(a) more than one value is returned in the same field, refer to the <i>Maximum Building Height (Levels) Technical and Numeric Variation layer</i> or <i>Maximum Building Height (Metres) Technical and Numeric Variation layer</i> in the SA planning database to determine the applicable value relevant to the site of the proposed development</li> <li>(b) only one value is returned (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other</li> <li>(c) no value is returned (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy.</li> </ul>	Maximum Building Height (Levels)		Maximum building height is 3 levels	Maximum building height is 4 levels	Maximum building height is 5 levels	Maximum building height is 6 levels	Maximum building height is 8 levels	Maximum building height is 10 levels	Maximum building height is 12 levels	Maximum Building Height (Metres)		Maximum building height is 12m	Maximum building height is 12.5m	Maximum building height is 13.5m	Maximum building height is 16.5m	Maximum building height is 18.5m	Maximum building height is 24.5m	Maximum building height is 32.5m	Maximum building height is 43m	Maximum building height is 20.5m	Maximum building height is 28.5m	Maximum building height is 40.5m	Maximum building height is 48.5m

Development Context	Minimum setback																							
There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building.	The average setback of the existing buildings.																							
There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site.	The setback of the existing building.																							
There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site.	<ul style="list-style-type: none"> <li>(a) Where the existing building shares the same primary street frontage - the setback of the existing building</li> <li>(b) Where the existing building has a different primary street frontage - 0m</li> </ul>																							
There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building.	0m																							

	<p>For the purposes of <b>DTS/DPF 2.5:</b></p> <p>(a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback</p> <p>(b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table</p>
<p>PO 2.6</p> <p>Buildings set back from secondary street boundaries in a manner compatible with the emerging streetscape pattern.</p>	<p>DTS/DPF 2.6</p> <p>Building walls setback from the secondary street frontage in accordance with either of the following:</p> <p>(a) no minimum where adjoining allotments are vacant or</p> <p>(b) the average of the setback of the existing building on each adjoining site fronting the same street.</p>
<p>PO 2.7</p> <p>Buildings set back from rear boundaries (other than street boundaries) to:</p> <p>minimise impacts on properties in neighbouring zones maximise intensity of development within the zone.</p>	<p>DTS/DPF 2.7</p> <p>Building walls setback from the rear boundaries as follows:</p> <p>(a) 5m or more where the subject land directly abuts an allotment of a different zone or</p> <p>(b) 0 metres in all other cases.</p>
<p>PO 2.8</p> <p>Buildings set back from side boundaries (other than street boundaries) to:</p> <p>reduce impacts of building bulk on adjoining properties provide adequate direct sun and ventilation to the building and open spaces minimise the extent of overlooking and resultant loss of privacy on adjoining properties minimise the extent of overshadowing on adjoining properties.</p>	<p>DTS/DPF 2.8</p> <p>Building walls setback from the side boundaries the average of the setback of the existing building on each adjoining site fronting the same street.</p>
<p>PO 2.9</p> <p>Buildings set back from street boundaries (in the case of rear access ways) to provide adequate manoeuvrability for vehicles.</p>	<p>DTS/DPF 2.9</p> <p>Building walls setback from the rear access way:</p> <p>(a) no requirement where the access way is not less than 6.5m wide or</p> <p>(b) where the access way is less than 6.5m wide, the distance equal to the additional width required to make the access way at least 6.5m wide.</p>

Interface Height

PO 3.1

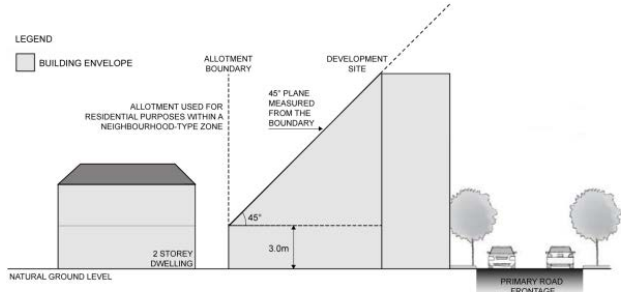

Buildings mitigate visual impacts of building massing on residential development within a neighbourhood-type zone.

DTS/DPF 3.1

**Interface Height**

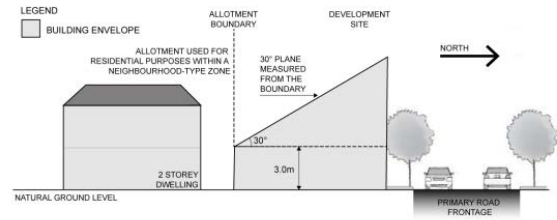

Buildings constructed within a building envelope provided by a:

(a) 45 degree plane measured from a height of 3 metres above natural ground level at the boundary of the allotment where abutting a residential use, or where the allotment is separated by a road less than 6.5 metres in width measured from the residential allotment boundary, within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary):

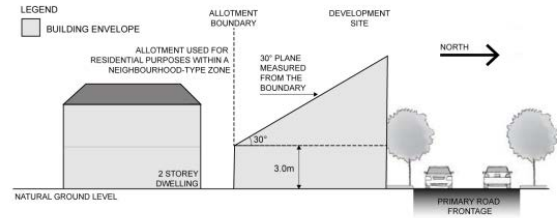

(b) in relation to a southern boundary, 30 degree plane grading north, measured from a height of 3m above natural ground at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a street boundary):

**Interface Height**

Buildings constructed within a building envelope provided by a 30 degree plane measured from a height of 3m above natural ground level at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a street boundary):

PO 3.2  
Development that manages the interface with a low-rise neighbourhood-type zone by incorporating less dense, low-rise residential land uses at the interface, and avoiding land uses or intensity of land uses that adversely affect residential amenity.

DTS/DPF 3.2  
None are applicable.

Site Dimensions and Land Division

PO 4.1  
Where appropriate, a street grid pattern is provided in mixed use areas to maintain clear sightlines, improve public safety and legibility within the public realm, and ensure walkability and connectivity are maximised.

DTS/DPF 4.1  
None are applicable.

Movement, parking and access

PO 5.1  
Where practicable, buildings provide vehicle access via a side street or rear lane access way that is designed to:

- (a) provide space between buildings that reduces building mass and creates a more visually diverse public realm
- (b) minimises conflicts with pedestrians and cyclists

achieve active frontages at a lower intensity than the primary street frontage.

DTS/DPF 5.1  
Vehicular access to be provided:

- via side streets or rear lanes provided there is no negative impact on residential amenity within the zone and in adjacent zones
- or
- where it consolidates or replaces existing crossovers.

Concept Plans

PO 6.1  
Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code.

DTS/DPF 6.1  
The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:

Description
Concept Plan 5 - Bowden Urban Village
Concept Plan 34 - Bowden-Brompton
Concept Plan 3 - Mount Barker and Littlehampton
Concept Plan 89 - Tonsley
Concept Plan 86 - Edwardstown

Description	
	Concept Plan 94 - Old Reynella
	Concept Plan 112 - West Lakes
	Concept Plan 111 - St Clair
	Concept Plan 109 - Seaton
	Concept Plan 115 - Morphetteville
	In relation to DTS/DPF 6.1, in instances where:
(a)	one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.
(b)	in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 6.1 is met.

**Table 1 - Accepted Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: <ul style="list-style-type: none"> <li>Local Heritage Place Overlay</li> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>The item will be installed on or within an existing building</li> <li>The item being installed does not encroach on a public street or affect the ability of the building to resist the spread of fire</li> <li>If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.</li> </ol>
Building alterations Except where any of the following apply: <ul style="list-style-type: none"> <li>Local Heritage Place Overlay</li> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>The alteration does not:                             <ol style="list-style-type: none"> <li>increase the floor area of the building</li> <li>exceed the existing wall height</li> <li>exceed the existing overall building height</li> <li>alter the roof profile</li> <li>alter an approved privacy screening arrangement or window treatment</li> </ol> </li> <li>Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.</li> </ol>
Partial demolition of a building or structure Except where any of the following apply: <ul style="list-style-type: none"> <li>Historic Area Overlay</li> <li>Local Heritage Place Overlay</li> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	None
Shade sail Except where any of the following apply: <ul style="list-style-type: none"> <li>Future Local Road Widening Overlay</li> <li>Future Road Widening Overlay</li> <li>Historic Area Overlay</li> <li>Local Heritage Place Overlay</li> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>Shade sail consists of permeable material.</li> <li>The total area of the sail does not exceed 40m<sup>2</sup>.</li> <li>No part of the shade sail will be:                             <ol style="list-style-type: none"> <li>3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment</li> <li>5m above ground or floor level (depending on where it is situated) within any other part of the allotment.</li> </ol> </li> <li>Primary street setback - at least as far back as the building line of the building to which it is ancillary.</li> <li>If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m.</li> <li>In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.</li> <li>Does not involve the clearance of native vegetation.</li> <li>The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas</li> <li>It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay</li> <li>It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.</li> </ol>

<p>Solar photovoltaic panels (roof mounted) Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof.</li> <li>3. Panels and associated components do not overhang any part of the roof.</li> <li>4. Does not apply to a system with a generating capacity of more than 5MW that is to be connected to the State's power system.</li> <li>5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.</li> </ol>
<p>Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Future Local Road Widening Overlay</li> <li>• Future Road Widening Overlay</li> <li>• Hazards (Flooding) Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted.</li> <li>4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature).</li> <li>5. Primary street setback - at least as far back as the building line of the building to which it is ancillary.</li> <li>6. Location of filtration system from a dwelling on an adjoining allotment:             <ol style="list-style-type: none"> <li>(a) not less than 5m where the filtration system is located inside a solid structure that will have material impact on the transmission of noise; or</li> <li>(b) not less than 12m in any other case.</li> </ol> </li> <li>7. Does not involve the clearance of native vegetation.</li> <li>8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas</li> <li>9. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay</li> <li>10. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.</li> </ol>
<p>Water tank (underground) Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Coastal Areas Overlay</li> <li>• Hazards (Acid Sulfate Soils) Overlay</li> <li>• Ramsar Wetlands Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</li> <li>2. The tank (including any associated pump) is located wholly below the level of the ground</li> <li>3. Does not involve the clearance of native vegetation</li> <li>4. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay</li> <li>5. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.</li> </ol>

**Table 2 - Deemed-to-Satisfy Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone <small>(applies only in the area affected by the Subzone)</small>	Overlay <small>(applies only in the area affected by the Overlay)</small>

**Table 3 - Applicable Policies for Performance Assessed Development**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Class of Development	Applicable Policies

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Industry	Light industry
Shop	Any of the following:  (a) shop located in the Main Street Subzone (b) shop located in the Urban Neighbourhood Retail Subzone (c) shop with a gross leasable floor area less than 2000m <sup>2</sup> (d) shop that is a restaurant.

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
Any kind of development where the site of the development is <b>not</b> adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.	Except any of the following: <ol style="list-style-type: none"> <li>1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)</li> <li>2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).</li> </ol>
Any development involving any of the following (or of any combination of any of the following): <ul style="list-style-type: none"> <li>) advertisement</li> <li>) child care facility</li> <li>) dwelling</li> <li>) dwelling addition</li> <li>) residential flat building</li> <li>) retirement facility</li> <li>) student accommodation</li> <li>) supported accommodation</li> <li>) tourist accommodation.</li> </ul>	Except development that exceeds the maximum building height specified in Urban Neighbourhood DTS/DPF 2.2 or does not satisfy Urban Neighbourhood DTS/DPF 3.1.
Any development involving any of the following (or of any combination of any of the following): <ul style="list-style-type: none"> <li>) consulting room</li> <li>) office</li> <li>) shop.</li> </ul>	Except development that exceeds the maximum building height specified in Urban Neighbourhood DTS/DPF 2.2 or does not satisfy any of the following: <ol style="list-style-type: none"> <li>1. Urban Neighbourhood DTS/DPF 1.6</li> <li>2. Urban Neighbourhood DTS/DPF 3.1.</li> </ol>
Any development involving any of the following (or of any combination of any of the following): <ul style="list-style-type: none"> <li>) air handling unit, air conditioning system or exhaust fan</li> <li>) carport</li> <li>) deck</li> <li>) fence</li> <li>) internal building works</li> <li>) land division</li> <li>) outbuilding</li> <li>) pergola</li> <li>) private bushfire shelter</li> <li>) replacement building</li> <li>) retaining wall</li> <li>) shade sail</li> <li>) solar photovoltaic panels (roof mounted)</li> <li>) swimming pool or spa pool and associated swimming pool safety features</li> <li>) temporary accommodation in an area affected by bushfire</li> <li>) tree damaging activity</li> <li>) verandah</li> <li>) water tank.</li> </ul>	None specified.
Any development involving any of the following (or of any combination of any of the following) within the Tunnel Protection Overlay: <ul style="list-style-type: none"> <li>) storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres</li> <li>) temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres</li> <li>) excavation or ground intruding activity at a depth greater than 2.5 metres below the regulated surface level.</li> </ul>	Except where not undertaken by the Crown, a Council or an essential infrastructure provider.
Demolition.	Except any of the following: <ol style="list-style-type: none"> <li>1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)</li> </ol>

	2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
Railway line.	Except where located outside of a rail corridor or rail reserve.

**Placement of Notices - Exemptions for Performance Assessed Development**

None specified.

**Placement of Notices - Exemptions for Restricted Development**

None specified.

**Main Street Subzone**

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A shopping, entertainment and commercial main street supported by medium to high density residential development.
DO 2	A fine-grained public realm with safe, walkable and vibrant streets created by mixed use buildings with non-residential uses at ground level and a visually consistent street rhythm informed by local context and narrow tenancy footprints.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Retail, office, entertainment and recreation related uses supplemented by other businesses providing a range of goods and services to the local community and the surrounding district.	DTS/DPF 1.1 None are applicable
PO 1.2 Land uses promote movement and activity during daytime and evening hours, including shops, restaurants, small scale licensed premises, educational, community and cultural facilities, and visitor and residential accommodation.	DTS/DPF 1.2 None are applicable.
PO 1.3 Dwellings developed in conjunction with non-residential uses to support business, entertainment and recreational activities and positively contribute to making the main street locality and pedestrian thoroughfares safe, walkable, comfortable, pleasant and lively place(s) (b)	DTS/DPF 1.3 Dwellings developed in conjunction with non-residential uses sited: at upper levels of buildings with non-residential uses located at ground level or behind non-residential uses on the same allotment.
PO 1.4 Development of well-designed diverse medium to high density accommodation options, including dwellings, supported accommodation, student accommodation, and short term accommodation, either as part of a mixed use development or wholly residential development.	DTS/DPF 1.4 None are applicable.
Built Form and Character	
PO 2.1 Ground level uses contribute to a safe, walkable and vibrant main street.	DTS/DPF 2.1 Shop, office, or consulting room uses located on the ground floor level of buildings.
PO 2.2 Buildings designed to create visual connection between the public realm and ground level interior, positively contribute to passive surveillance of the public realm, have an active interface with the main street and contribute to the fine-grain character and retail function of the street.	DTS/DPF 2.2 The ground floor primary frontage of buildings provides at least 60% of the street frontage as an entry / foyer or display window to a shop or other community or commercial use that provides pedestrian interest and activation.
PO 2.3 Buildings are adaptable and flexible to suit a range of residential and non-residential land uses.	DTS/DPF 2.3 The ground floor of buildings contains a minimum floor to ceiling height of 3.5m.
PO 2.4 Buildings with no set-backs from the main street boundary to achieve a continuity of built	DTS/DPF 2.4 None are applicable.

form frontage to the main street, with the occasional section of building set back to create outdoor dining areas, visually interesting building entrances and intimate but vibrant spaces.	
PO 2.5 Vehicle parking and ancillary buildings and structures (including garages, carports and outbuildings) located behind buildings away from the primary main street frontage and designed to minimise negative impacts on the main street rhythm and activation.	DTS/DPF 2.5 None are applicable.

**Urban Neighbourhood Retail Subzone**

Assessment Provisions (AP)

Desired Outcomes (DO)

Desired Outcome	
DO 1	Additional neighbourhood-scale shopping, business, entertainment and recreation facilities to provide a focus for business and community life and most daily and weekly shopping needs of the community.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Retail, office, entertainment and recreation related uses supplemented by other businesses providing a range of goods and services to the community.	DTS/DPF 1.1 Shops not exceeding a maximum gross leasable floor area of:  (a) 5500m <sup>2</sup> within the whole subzone area in West Lakes (b) 2000m <sup>2</sup> within the whole subzone area in Bedford Park (Laffer's Triangle).

**Urban Renewal Neighbourhood Zone**

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Housing and other land uses which no longer meet community preferences are replaced with new diverse housing options. Housing density increases, taking advantage of well-located urban land. Employment and community services will improve access to jobs, goods and services without compromising residential amenity.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Predominantly residential development with complementary non-residential uses that support an active, convenient, and walkable urban neighbourhood.	DTS/DPF 1.1 Development comprises one or more of the following:  (a) Ancillary accommodation (b) Child care facility (c) Community facility (d) Consulting room (e) Dwelling (f) Educational facility (g) Office (h) Place of Worship (i) Recreation area (j) Residential flat building (k) Retirement facility (l) Shop (m) Student accommodation (n) Supported accommodation.
PO 1.2 Commercial activities improve community access to services are of a scale and type to	DTS/DPF 1.2 A shop, consulting room or office (or any combination thereof) satisfies (a) or (b):

<p>maintain residential amenity.</p>	<p>(a) it is located on the same allotment and in conjunction with a dwelling where all the following are satisfied:</p> <p>(i) does not exceed 50m<sup>2</sup> gross leasable floor area</p> <p>(ii) does not involve the display of goods in a window or about the dwelling or its curtilage</p> <p>(b) where located outside of an Activity Centre, does not exceed 250m<sup>2</sup> in gross leasable floor area.</p>																					
<p>PO 1.3</p> <p>Non-residential development located and designed to improve community accessibility to services, primarily in the form of:</p> <p>small-scale commercial uses such as offices, shops and consulting rooms</p> <p>community services such as educational facilities, community centres, places of worship, child care facilities and other health and welfare services</p> <p>services and facilities ancillary to the function or operation of supported accommodation or retirement facilities</p> <p>open space and recreation facilities.</p>	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>																					
<p>PO 1.4</p> <p>Expansion of existing community services such as educational facilities, community facilities and child care facilities in a manner which complements the scale of development envisaged by the desired outcome for the neighbourhood.</p>	<p>DTS/DPF 1.4</p> <p>Alteration of or addition to existing educational facilities, community facilities or child care facilities where:</p> <p>(a) set back at least 3m from any boundary shared with a residential land use</p> <p>(b) building height not exceeding 1 building level</p> <p>(c) the total floor area of the building does not exceed 150% of the total floor area prior to the addition/alteration</p> <p>(d) development satisfies Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.</p>																					
<p>PO 1.5</p> <p>Non-residential development sited and designed to complement the residential character and amenity of the neighbourhood.</p>	<p>DTS/DPF 1.5</p> <p>None are applicable.</p>																					
<p>PO 1.6</p> <p>Expansion of existing community services such as educational facilities, community facilities and child care facilities in a manner which complements the scale of development envisaged by the desired outcome for the neighbourhood.</p>	<p>DTS/DPF 1.6</p> <p>Alteration of or addition to existing educational facilities, community facilities or child care facilities where:</p> <p>(a) set back at least 3m from any boundary shared with a residential land use</p> <p>(b) building height not exceeding 1 building level</p> <p>(c) the total floor area of the building not exceeding 150% of the total floor area prior to the addition/alteration</p> <p>(d) off-street vehicular parking exists or will be provided in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.</p>																					
<p>Building Height</p>																						
<p>PO 2.1</p> <p>Buildings generally 2-3 levels with taller buildings located on sites that are a suitable size and dimension to manage massing and impacts on adjoining residential development.</p>	<p>DTS/DPF 2.1</p> <p>Building height (excluding garages, carports and outbuildings) is no greater than:</p> <p>(a) the following:</p> <table border="1" data-bbox="802 1496 1554 2190"> <thead> <tr> <th style="text-align: center;">Maximum Building Height (Metres)</th> </tr> </thead> <tbody> <tr><td>Maximum building height is 7m</td></tr> <tr><td>Maximum building height is 8m</td></tr> <tr><td>Maximum building height is 8.5m</td></tr> <tr><td>Maximum building height is 9m</td></tr> <tr><td>Maximum building height is 11.5m</td></tr> <tr><td>Maximum building height is 12.5m</td></tr> <tr><td>Maximum building height is 14m</td></tr> <tr><td>Maximum building height is 15m</td></tr> <tr><td>Maximum building height is 16.5m</td></tr> <tr><td>Maximum building height is 18.5m</td></tr> <tr><td>Maximum building height is 22m</td></tr> <tr><td>Maximum building height is 32.5m</td></tr> <tr><td>Maximum building height is 10.5m</td></tr> <tr><td>Maximum building height is 20.5m</td></tr> <tr> <th style="text-align: center;">Maximum Building Height (Levels)</th> </tr> <tr><td>Maximum building height is 2 levels</td></tr> <tr><td>Maximum building height is 3 levels</td></tr> <tr><td>Maximum building height is 4 levels</td></tr> <tr><td>Maximum building height is 5 levels</td></tr> <tr><td>Maximum building height is 6 levels</td></tr> </tbody> </table>	Maximum Building Height (Metres)	Maximum building height is 7m	Maximum building height is 8m	Maximum building height is 8.5m	Maximum building height is 9m	Maximum building height is 11.5m	Maximum building height is 12.5m	Maximum building height is 14m	Maximum building height is 15m	Maximum building height is 16.5m	Maximum building height is 18.5m	Maximum building height is 22m	Maximum building height is 32.5m	Maximum building height is 10.5m	Maximum building height is 20.5m	Maximum Building Height (Levels)	Maximum building height is 2 levels	Maximum building height is 3 levels	Maximum building height is 4 levels	Maximum building height is 5 levels	Maximum building height is 6 levels
Maximum Building Height (Metres)

Maximum building height is 8.5m																						
Maximum building height is 9m																						
Maximum building height is 11.5m																						
Maximum building height is 12.5m																						
Maximum building height is 14m																						
Maximum building height is 15m																						
Maximum building height is 16.5m																						
Maximum building height is 18.5m																						
Maximum building height is 22m																						
Maximum building height is 32.5m																						
Maximum building height is 10.5m																						
Maximum building height is 20.5m																						
Maximum Building Height (Levels)																						
Maximum building height is 2 levels																						
Maximum building height is 3 levels																						
Maximum building height is 4 levels																						
Maximum building height is 5 levels																						
Maximum building height is 6 levels																						

<b>Maximum Building Height (Levels)</b>							
	Maximum building height is 9 levels						
	Maximum building height is 10 levels						
(b)	in all other cases (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels));						
(i)	4 building levels and 15m where the site:						
A.	is at least 1200m <sup>2</sup> in area						
	and						
B.	has a frontage of 35 metres						
	or						
(ii)	3 building levels and 12m in all other circumstances.						
	In relation to DTS/DPF 2.1, in instances where:						
(c)	more than one value is returned in the same field, refer to the <i>Maximum Building Height (Levels) Technical and Numeric Variation layer and Maximum Building Height (Metres) Technical and Numeric Variation layer</i> in the SA planning database to determine the applicable value relevant to the site of the proposed development						
(d)	only one value is returned for DTS/DPF 2.1(a) (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other.						
PO 2.2	DTS/DPF 2.2						
Buildings on an allotment at the interface with a different neighbourhood-type zone are sited and designed to provide an orderly transition to the built form scale envisaged in that zone to mitigate impacts on adjacent residential uses.	None are applicable.						
Primary Street Setback							
PO 3.1	DTS/DPF 3.1						
Buildings are set back from primary street boundaries to contribute to the existing/emerging pattern of street setbacks in the streetscape and integrate development with public open space.	Buildings setback from the primary street boundary in accordance with the following table:						
	<table border="1"> <thead> <tr> <th style="text-align: left;">Development Context</th> <th style="text-align: left;">Minimum setback</th> </tr> </thead> <tbody> <tr> <td>Where the allotment adjoins a public reserve greater than 2000m<sup>2</sup> (including where the allotment would adjoin a reserve if not separated by a public road), the dwelling faces that reserve and access is provided to the rear of the allotment.</td> <td>1.5m</td> </tr> <tr> <td>In all other cases.</td> <td>3m</td> </tr> </tbody> </table>	Development Context	Minimum setback	Where the allotment adjoins a public reserve greater than 2000m <sup>2</sup> (including where the allotment would adjoin a reserve if not separated by a public road), the dwelling faces that reserve and access is provided to the rear of the allotment.	1.5m	In all other cases.	3m
Development Context	Minimum setback						
Where the allotment adjoins a public reserve greater than 2000m <sup>2</sup> (including where the allotment would adjoin a reserve if not separated by a public road), the dwelling faces that reserve and access is provided to the rear of the allotment.	1.5m						
In all other cases.	3m						
	For the purposes of <b>DTS/DPF 3.1</b> :						
(a)	the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback						
(b)	any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table						
Secondary Street Setback							
PO 4.1	DTS/DPF 4.1						
Buildings are set back from secondary street boundaries to achieve a pattern of separation between building walls and public streets and reinforce a streetscape character.	Building walls are set back at least 900mm from the boundary of the allotment with the secondary street frontage.						
Boundary Walls							
PO 5.1	DTS/DPF 5.1						
Walls on boundaries are limited in height and length to manage visual and overshadowing impacts on adjoining properties.	Except where the building is a dwelling and is located on a central site within a row dwelling or terrace arrangement, side boundary walls occur only on one side boundary and satisfy (a) or (b) below:						
(a)	side boundary walls adjoin or abut a boundary wall of a building on adjoining land for the same or lesser length and height						
(b)	side boundary walls do not:						
(i)	exceed 3m in wall height						
(ii)	exceed 11.5 metres in length						
(iii)	when combined with other walls on the boundary of the subject development site, exceed a maximum 45% of the length of the boundary						
(iv)	encroach within 3 metres of any other existing or proposed boundary walls on the subject land						
PO 5.2	DTS/DPF 5.2						
Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings consistent with a suburban streetscape character.	Dwelling walls in a semi-detached, row or terrace arrangement are setback at least 900mm from side boundaries shared with allotments outside the development site.						
Side Boundary Setback							
PO 6.1	DTS/DPF 6.1						
Buildings are set back from side boundaries to provide:	Building walls not sited on side boundaries are set back from side boundaries in accordance with the following:						

separation between buildings to minimise visual impact access to natural light and ventilation for neighbours.	(a) (b)	where the wall height does not exceed 3m - at least 900mm where the wall height exceeds 3m - at least 900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings.								
Rear Boundary Setback										
PO 7.1 Buildings are set back from rear boundaries to provide: separation between buildings to minimise visual impact access to natural light and ventilation for neighbours open space recreational opportunities space for landscaping and vegetation.	(a) (b) (c)	DTS/DPF 7.1 Building walls are set back from the rear boundary at least: 3m for the first building level or 0m where the rear boundary abuts a laneway 5m for any second building level 5m plus any increase in wall height over 7m for buildings of 3 building levels and above.								
Site Dimensions and Land Division										
PO 8.1 Allotments/sites created for residential purposes accommodate a diverse range of medium density housing.		DTS/DPF 8.1 Development will not result in more than 1 dwelling on an existing allotment or Allotments/sites for residential purposes achieve a net density of up to 70 dwellings per hectare.								
PO 8.2 High density residential development located on sites of a suitable size and dimension to achieve a high standard of amenity for occupants and neighbours.		DTS/DPF 8.2 Development with a net residential density over 70 dwellings per hectare on sites with a minimum area of 1200m <sup>2</sup> and minimum frontage width of 35m.								
Concept Plans										
PO 9.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	(a) (b)	DTS/DPF 9.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: <table border="1" data-bbox="805 963 1551 1227"> <thead> <tr> <th data-bbox="805 963 1551 990" style="text-align: center;">Description</th> </tr> </thead> <tbody> <tr> <td data-bbox="805 990 1551 1021">Concept Plan 4 - Minda Incorporated Brighton Campus - North Brighton</td> </tr> <tr> <td data-bbox="805 1021 1551 1052">Concept Plan 89 - Tonsley</td> </tr> <tr> <td data-bbox="805 1052 1551 1084">Concept Plan 97 - Underdale</td> </tr> <tr> <td data-bbox="805 1084 1551 1115">Concept Plan 116 - Everard Park</td> </tr> <tr> <td data-bbox="805 1115 1551 1146">Concept Plan 127 - Kidman Park</td> </tr> <tr> <td data-bbox="805 1146 1551 1178">Concept Plan 141 - West Lakes</td> </tr> <tr> <td data-bbox="805 1178 1551 1209">Concept Plan 121 - Kilkenny</td> </tr> </tbody> </table> In relation to DTS/DPF 9.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 9.1 is met.	Description	Concept Plan 4 - Minda Incorporated Brighton Campus - North Brighton	Concept Plan 89 - Tonsley	Concept Plan 97 - Underdale	Concept Plan 116 - Everard Park	Concept Plan 127 - Kidman Park	Concept Plan 141 - West Lakes	Concept Plan 121 - Kilkenny

**Table 1 - Accepted Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
<p>Air handling unit, air conditioning system or exhaust fan</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>Local Heritage Place Overlay</li> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>The item will be installed on or within an existing building</li> <li>The item being installed does not encroach on a public street or affect the ability of the building to resist the spread of fire</li> <li>If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.</li> </ol>

<p>Brush fence Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Hazards (Flooding) Overlay</li> <li>• Historic Area Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• Ramsar Wetlands Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The fence is formed (wholly or partially) from brush</li> <li>2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels)</li> <li>3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved)</li> <li>4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.</li> </ol>						
<p>Building alterations Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The alteration does not: <ol style="list-style-type: none"> <li>(a) increase the floor area of the building</li> <li>(b) exceed the existing wall height</li> <li>(c) exceed the existing overall building height</li> <li>(d) alter the roof profile</li> <li>(e) alter an approved privacy screening arrangement or window treatment</li> </ol> </li> <li>2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.</li> </ol>						
<p>Building work on railway land Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Coastal Areas Overlay</li> <li>• Hazards (Acid Sulfate Soils) Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• Significant Landscape Protection Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. Building work is associated with a railway</li> <li>2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017)</li> <li>3. It is required for the conduct or maintenance of railway activities</li> <li>4. It does not involve the clearance of native vegetation</li> <li>5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.</li> </ol>						
<p>Carport Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Future Local Road Widening Overlay</li> <li>• Future Road Widening Overlay</li> <li>• Historic Area Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i></li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</li> <li>3. It is ancillary to a dwelling erected on the site</li> <li>4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary</li> <li>5. Total floor area - does not exceed 40m<sup>2</sup></li> <li>6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end)</li> <li>7. Building height - does not exceed 5m</li> <li>8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11.5m unless: <ol style="list-style-type: none"> <li>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</li> <li>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</li> </ol> </li> <li>9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street): <ol style="list-style-type: none"> <li>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</li> <li>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</li> </ol> </li> <li>10. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</li> <li>11. The carport is located so that vehicle access: <ol style="list-style-type: none"> <li>(a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or</li> <li>(b) is not obtained from a State Maintained Road, and will use a driveway that: <ol style="list-style-type: none"> <li>(i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing;</li> <li>(ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;</li> <li>(iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average</li> <li>(iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access</li> <li>(v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site</li> </ol> </li> </ol> </li> <li>12. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour</li> <li>13. Does not involve the clearance of native vegetation</li> <li>14. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: <ol style="list-style-type: none"> <li>(a) a total area as determined by the following table:</li> </ol> </li> </ol>						
	<table border="1"> <thead> <tr> <th>Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m<sup>2</sup>)</th> <th>Minimum percentage of site</th> </tr> </thead> <tbody> <tr> <td>&lt;150</td> <td>10%</td> </tr> <tr> <td>150-200</td> <td>15%</td> </tr> </tbody> </table> <p style="text-align: right;">4299</p>	Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Minimum percentage of site	<150	10%	150-200	15%

Does not involve the clearance of native vegetation</li> </ol>										

8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
9. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
  - (a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

- (b) the amount of existing soft landscaping prior to the development occurring.

Verandah  
 Except where any of the following apply:

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
3. It is ancillary to a dwelling erected on the site
4. Primary street setback - as far back as the building line of the building to which it is ancillary
5. Total floor area - does not exceed 40m<sup>2</sup>
6. Post height - does not exceed 3m measured from natural ground level
7. Building height - does not exceed 5m
8. Length - does not exceed 11.5m if any part of the structure abuts or is situated on a boundary of the allotment
9. Does not involve the clearance of native vegetation
10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
  - (a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

- (b) the amount of existing soft landscaping prior to the development occurring.

Water tank (above ground)  
 Except where any of the following apply:

- Historic Area Overlay
- Local Heritage Place Overlay
- Ramsar Wetlands Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
3. The tank is part of a roof drainage system
4. Total floor area - not exceeding 15m<sup>2</sup>
5. The tank is located wholly above ground
6. Tank height - does not exceed 4m above natural ground level
7. Primary street setback - at least as far back as the building line of the building to which it is ancillary
8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour
9. Does not involve the clearance of native vegetation
10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
  - (a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

- (b) the amount of existing soft landscaping prior to the development occurring.

<p>Water tank (underground) Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Coastal Areas Overlay</li> <li>• Hazards (Acid Sulfate Soils) Overlay</li> <li>• Ramsar Wetlands Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. **Table 2 - Deemed-to-Satisfy Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone <small>(applies only in the area affected by the Subzone)</small>	Overlay <small>(applies only in the area affected by the Overlay)</small>

**Table 3 - Applicable Policies for Performance Assessed Development**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone <small>(applies only in the area affected by the Subzone)</small>	Overlay <small>(applies only in the area affected by the Overlay)</small>

All other Code Assessed Development	All	All	All	Any relevant Overlay: All

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Dwelling	Any of the following: (a) Dwelling not located in the Kilkenny Subzone (b) Dwelling located in the Kilkenny Subzone that does not exceed the maximum building height specified in Urban Renewal Neighbourhood Zone DTS/DPF 2.1 or any relevant Concept Plan.
Residential flat building	Any of the following: (a) Residential Flat Building not located in the Kilkenny Subzone (b) Residential Flat Building located in the Kilkenny Subzone that does not exceed the maximum building height specified in Urban Renewal Neighbourhood Zone DTS/DPF 2.1 or any relevant Concept Plan.
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m <sup>2</sup> (b) shop that is a restaurant.

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
------------------------------------	--------------------------

<p>Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.</p>	<p>None specified.</p>
<p>All development undertaken by:</p> <ul style="list-style-type: none"> <li>) the South Australian Housing Trust either individually or jointly with other persons or bodies or</li> <li>) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust.</li> </ul>	<p>Except development involving any of the following:</p> <ol style="list-style-type: none"> <li>1. residential flat building(s) of 3 or more building levels</li> <li>2. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)</li> <li>3. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).</li> <li>4. a dwelling(s) or residential flat building(s) that is situated within both the Interface Management Overlay and the Kilkenny Subzone.</li> </ol>
<p>Any development involving any of the following (or of any combination of any of the following) where <b>not</b> located in the Kilkenny Subzone:</p> <ul style="list-style-type: none"> <li>) ancillary accommodation</li> <li>) dwelling</li> <li>) dwelling addition</li> <li>) residential flat building</li> <li>) retirement facility</li> <li>) student accommodation</li> <li>) supported accommodation.</li> </ul>	<p>Except development that:</p> <ol style="list-style-type: none"> <li>1. exceeds the maximum building height specified in Urban Renewal Neighbourhood Zone DTS/DPF 2.1 or</li> <li>2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and:             <ol style="list-style-type: none"> <li>(a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or</li> <li>(b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).</li> </ol> </li> </ol>
<p>Any development involving any of the following (or of any combination of any of the following) where located in the Kilkenny Subzone:</p> <ul style="list-style-type: none"> <li>) ancillary accommodation</li> <li>) dwelling</li> <li>) dwelling addition</li> <li>) residential flat building</li> <li>) retirement facility</li> <li>) student accommodation</li> <li>) supported accommodation.</li> </ul>	<p>Except development that:</p> <ol style="list-style-type: none"> <li>1. exceeds the maximum building height specified in Urban Renewal Neighbourhood Zone DTS/DPF 2.1 or</li> <li>2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and:             <ol style="list-style-type: none"> <li>(a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or</li> <li>(b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).</li> </ol> </li> <li>3. involves a dwelling(s) or residential flat building(s) that is situated within both the Interface Management Overlay and the Kilkenny Subzone.</li> </ol>
<p>Alteration of or addition to any of the following (or of any combination of any of the following):</p> <ul style="list-style-type: none"> <li>) child care facility</li> <li>) community facility</li> <li>) educational facility.</li> </ul>	<p>Except development that does not satisfy Urban Renewal Neighbourhood Zone DTS/DPF 1.6.</p>
<p>Any development involving any of the following (or of any combination of any of the following):</p> <ul style="list-style-type: none"> <li>) consulting room</li> <li>) office</li> <li>) shop.</li> </ul>	<p>Except development that:</p> <ol style="list-style-type: none"> <li>1. exceeds the maximum building height specified in Urban Renewal Neighbourhood Zone DTS/DPF 2.1 or</li> <li>2. does not satisfy Urban Renewal Neighbourhood Zone DTS/DPF 1.2 or</li> <li>3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and:             <ol style="list-style-type: none"> <li>(a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or</li> <li>(b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).</li> </ol> </li> </ol>
<p>Any development involving any of the following (or of any combination of any of the following):</p> <ul style="list-style-type: none"> <li>) air handling unit, air conditioning system or exhaust fan</li> <li>) carport</li> <li>) deck</li> <li>) fence</li> <li>) internal building works</li> <li>) land division</li> <li>) outbuilding</li> <li>) pergola</li> <li>) private bushfire shelter</li> <li>) recreation area</li> <li>) replacement building</li> <li>) retaining wall</li> <li>) shade sail</li> </ul>	<p>None specified.</p>

- ) solar photovoltaic panels (roof mounted)
- ) swimming pool or spa pool and associated swimming pool safety features
- ) temporary accommodation in an area affected by bushfire
- ) tree damaging activity
- ) verandah
- ) water tank.

Demolition.

Except any of the following:

1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)
2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).

Railway line.

Except where located outside of a rail corridor or rail reserve.

**Placement of Notices - Exemptions for Performance Assessed Development**

None specified.

**Placement of Notices - Exemptions for Restricted Development**

None specified.

**Mixed Use Transition Subzone**

Assessment Provisions (AP)

Desired Outcome (DO)

**Desired Outcome**

DO 1	Development accommodating a range of business, commercial, warehousing and light industrial uses enabling the transition of the area to mixed use development, compatible with residential development.
------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

**Performance Outcome**

**Deemed-to-Satisfy Criteria / Designated Performance Feature**

Land Use

<p>PO 1.1</p> <p>Redevelopment and transition of the area towards mixed development including, residential, supported by a mix of compatible uses including light industry, service trade, motor repair and other compatible businesses servicing the local community that do not produce objectionable emissions.</p>	<p>DTS/DPF 1.1</p> <p>Development comprises one or more of the following:</p> <ul style="list-style-type: none"> <li>(a) Dwelling</li> <li>(b) Entertainment venue</li> <li>(c) Licenced premises</li> <li>(d) Hotel</li> <li>(e) Consulting room</li> <li>(f) Indoor recreation facility</li> <li>(g) Light industry</li> <li>(h) Motor repair station</li> <li>(i) Office</li> <li>(j) Place of worship</li> <li>(k) Research facility</li> <li>(l) Retail fuel outlet</li> <li>(m) Service trade premises</li> <li>(n) Shop</li> <li>(o) Store</li> <li>(p) Tourist accommodation</li> <li>(q) Training facility</li> </ul>
<p>PO 1.2</p> <p>Non-residential development involving the expansion, alteration or replacement of an existing industry or activity adjacent to a sensitive receiver or zone, and where current adverse impacts exist, only occur where adverse impacts are minimised in accordance the with <i>Environment Protection Act 1993</i> requirements.</p>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
<p>PO 1.3</p> <p>Residential development and other sensitive development only occur where adverse impacts from nearby industries and activities are minimised in accordance with the <i>Environment</i></p>	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>

Protection Act 1993 requirements.	
PO 1.4 Shops, other than bulky goods outlets, provide a local convenience service to meet the day to day needs of the local community and surrounding businesses as well as support the sale of products made on-site as a supplement to a business activity to enhance local job opportunities.	DTS/DPF 1.4 Shop comprising any of the following: (a) shop with a gross leasable floor area up to 500m <sup>2</sup> (b) shop in the form of a bulky goods outlet (c) shop that is ancillary to and located on the same allotment as a light industry.
Land Division	
PO 2.1 Sensitive uses and sensitive receivers are:  located away from areas which may be subject to unacceptable noise, dust, odour or other emissions  or  able to adequately mitigate impacts of noise, dust, odour or other emissions through design techniques such as: locating residential accommodation, the greatest distance practicable from the industry locating buildings containing less non-sensitive receivers between the industry and sensitive receivers placing rooms more sensitive to air, noise and odour impacts (e.g. bedrooms) further away from the industry or providing private or common open space adjacent a building facade that shields the space from impacts of the industry.	DTS/DPF 2.1 Development does not incorporate any of the following (including alterations and additions which increase the floor area of buildings accommodating the following by 10% or more): (a) land division creating one or more additional allotments for residential purposes (b) dwelling (c) residential flat building (d) tourist accommodation (e) boarding home (f) dormitory style accommodation (g) Workers' accommodation (h) student accommodation (i) child care facility (j) educational facility (k) retirement village (l) supported accommodation (m) residential park (n) hospital.

### Landscape Transition Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development in an open landscaped setting.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Built Form and Siting	
PO 1.1 Building footprints consistent with the character and pattern of the prevailing open landscaped character of the neighbourhood.	DTS/DPF 1.1 The development does not result in a site coverage exceeding 50%.
PO 1.2 Development incorporates deep soil zones for the retention or provision of large trees to contribute to a well landscaped setting.	DTS/DPF 1.2 At least 15% of a site incorporates deep soil zone areas.
Site Dimensions and Land Division	
PO 2.1 Allotments/sites created for residential purposes primarily accommodating medium density residential development, with lower density at the interface with a different neighbourhood zone.	DTS/DPF 2.1 Allotments/sites for residential purposes accord with the following:  (a) Site areas (or allotment areas in the case of land division) are not less than: (i) 180m <sup>2</sup> , or 100m <sup>2</sup> on an allotment >2000m <sup>2</sup> , for a dwelling (ii) 120m <sup>2</sup> , or 80m <sup>2</sup> on an allotment >2000m <sup>2</sup> , for each dwelling in a residential flat building (iii) 300m <sup>2</sup> for a dwelling (including in a residential flat building) in areas where the Maximum Building Height (Levels) Technical and Numeric Variation specifies a maximum building height of 2 levels.  (b) Site frontages (or allotment frontage in the case of land division) are not less than: (i) 8m for a dwelling (ii) 20m for a residential flat building

### Kilkenny Subzone

Assessment provisions (AP)

Desired Outcome (DO)

### Desired Outcome

DO 1	Sensitive receivers coexist with and do not undermine the viability of existing state-significant employment generating land uses in the adjacent Strategic Employment Zone.
------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
PO 1.1 Sensitive receivers are designed and sited to be shielded from noise emitted by proximate lawfully existing employment generating land uses.	DTS/DPF 1.1 None are applicable.
PO 1.2 Development incorporating a sensitive receiver locates private open space (including ground level courtyards and balconies), common open space and outdoor play areas within education establishments and pre-schools away from noise emitted by proximate lawfully existing employment generating land uses.	DTS/DPF 1.2 None are applicable.

### Waterfront Neighbourhood Zone

#### Assessment Provisions (AP)

Desired Outcome (DO)

### Desired Outcome

DO 1	A diverse range of housing which takes advantage of waterfront locations. Development enhances public access to waterfront areas. Dual aspect allotments incorporate designs to enhance the streetscape.
------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Residential development and supporting services and facilities make waterfront neighbourhoods a convenient place to live.	DTS/DPF 1.1 Development comprises one or more of the following:  (a) Ancillary accommodation (b) Child care facility (c) Community facility (d) Dwelling (e) Educational facility (f) Jetty, pontoon or boat berth (or any combination thereof) (g) Marina (h) Office (i) Place of Worship (j) Recreation area (k) Residential flat building (l) Retirement facility (m) Shop (n) Supported accommodation (o) Tourist accommodation
PO 1.2 Marinas include constructed waterways, mooring facilities, pontoons and small jetties to accommodate recreational activities and mooring of small boats associated with residential allotments.	DTS/DPF 1.2 None are applicable.
PO 1.3 Non-residential development located and designed to improve community accessibility to services, primarily in the form of:  ) small-scale commercial uses such as offices, consulting rooms and shops ) community services such as educational facilities, community centres, places of worship, child care facilities and other health and welfare services ) services and facilities ancillary to the function or operation of supported accommodation or retirement facilities ) open space and recreation facilities.	DTS/DPF 1.3 None are applicable.
PO 1.4	DTS/DPF 1.4

<p>Non-residential development is compatible with the waterfront character and amenity of a neighbourhood.</p>	<p>None are applicable.</p>																								
<p>PO 1.5</p> <p>Commercial activities improve community access to services and activate waterfront areas are of a scale and type to maintain residential amenity.</p>	<p>DTS/DPF 1.5</p> <p>A shop, consulting room or office (or any combination thereof) satisfies any one of the following:</p> <ul style="list-style-type: none"> <li>(a) it is located on the same allotment and in conjunction with a dwelling, and all the following are satisfied: <ul style="list-style-type: none"> <li>(i) does not exceed 50m<sup>2</sup> gross leasable floor area</li> <li>(ii) does not involve the display of goods in a window or about the dwelling or its curtilage</li> </ul> </li> <li>(b) it reinstates a former shop, consulting room or office in an existing building (or portion of a building) and at least one of the following is satisfied: <ul style="list-style-type: none"> <li>(i) the building is a State or Local Heritage Place</li> <li>(ii) is in conjunction with a dwelling and there is no increase in the gross leasable floor area previously used for non-residential purposes</li> </ul> </li> <li>(c) it is located more than 500m from an Activity Centre and satisfies one of the following: <ul style="list-style-type: none"> <li>(i) does not exceed 100m<sup>2</sup> gross leasable floor area (individually or combined, in a single building) where the site does not have a frontage to a State Maintained Road</li> <li>(ii) does not exceed 200m<sup>2</sup> gross leasable floor area (individually or combined, in a single building) where the site has a frontage to a State Maintained Road</li> </ul> </li> <li>(d) the development site abuts an Activity Centre and all the following are satisfied: <ul style="list-style-type: none"> <li>(i) it does not exceed 200m<sup>2</sup> gross leasable floor area (in a single building)</li> <li>(ii) the proposed development will not result in the combined gross leasable floor area of all buildings used as a shop, office or consulting room (existing and proposed) or an combination thereof abutting the Activity Centre in this zone exceeding the lesser of the following: <ul style="list-style-type: none"> <li>A. 50% of the gross leasable floor area within the Activity Centre</li> <li>B. 1000m<sup>2</sup>.</li> </ul> </li> </ul> </li> <li>(e) the development is located within the ground level of a mixed use building with frontage to a waterfront or coastal reserve and does not exceed 250m<sup>2</sup> gross leasable floor area.</li> </ul>

	Maximum building height is 2 levels																												
	Maximum building height is 3 levels																												

	In relation to DTS/DPF 4.1, in instances where:
(c)	more than one value is returned in the same field, refer to the <i>Maximum Building Height (Levels) Technical and Numeric Variation layer and Maximum Building Height (Metres) Technical and Numeric Variation layer</i> in the SA planning database to determine the applicable value relevant to the site of the proposed development
(d)	only one value is returned for DTS/DPF 4.1(a) (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other.

Primary Street Setback

PO 5.1 Buildings are setback from primary street boundaries to contribute to the existing/emerging pattern of street setbacks in the streetscape and the waterfront environment.	DTS/DPF 5.1 Buildings setback from the primary street boundary in accordance with the following table:										
	<table border="1"> <thead> <tr> <th>Development Context</th> <th>Minimum setback</th> </tr> </thead> <tbody> <tr> <td>There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building.</td> <td>The average setback of the existing buildings.</td> </tr> <tr> <td>There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site.</td> <td>The setback of the existing building.</td> </tr> <tr> <td>There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site.</td> <td>                     (a) Where the existing building shares the same primary street frontage – the setback of the existing building                      (b) Where the existing building has a different primary street frontage - 5m                 </td> </tr> <tr> <td>There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building.</td> <td>5m</td> </tr> </tbody> </table>	Development Context	Minimum setback	There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building.	The average setback of the existing buildings.	There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site.	The setback of the existing building.	There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site.	(a) Where the existing building shares the same primary street frontage – the setback of the existing building (b) Where the existing building has a different primary street frontage - 5m	There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building.	5m
Development Context	Minimum setback										
There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building.	The average setback of the existing buildings.										
There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site.	The setback of the existing building.										
There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site.	(a) Where the existing building shares the same primary street frontage – the setback of the existing building (b) Where the existing building has a different primary street frontage - 5m										
There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building.	5m										
	<p>For the purposes of <b>DTS/DPF 5.1:</b></p> <p>(a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback</p> <p>(b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table</p>										

Secondary Street Setback

PO 6.1 Buildings are set back from secondary street boundaries to achieve separation between building walls and public streets and contribute to a suburban streetscape character.	DTS/DPF 6.1 Building walls are set back from the boundary of the allotment with a secondary street frontage at least:
	<p>(a) at least 900mm</p> <p>or</p> <p>(b) if a building (except for ancillary buildings and structures) on any adjoining allotment is closer to the secondary street than 900mm, at least the distance of that building from the boundary with the secondary street.'</p>

Boundary Walls

PO 7.1 Walls on boundaries are limited in height and length to manage visual and overshadowing impacts on adjoining properties.	DTS/DPF 7.1 Except where the building is a dwelling and is located on a central site within a row dwelling or terrace arrangement, side boundary walls occur only on one side boundary and satisfy (a) or (b) below:
	<p>(a) side boundary walls adjoin or abut a boundary wall of a building on adjoining land for the same, or lesser length and height</p> <p>(b) side boundary walls do not:</p> <p>(i) exceed 3m in wall height</p> <p>(ii) exceed 11.5m in length</p> <p>(iii) when combined with other walls on the boundary of the subject development site, exceed a maximum 45% of the length of the boundary</p> <p>(iv) encroach within 3 metres of any other existing or proposed boundary walls on the subject land.</p>
PO 7.2 Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings consistent with a suburban streetscape character.	DTS/DPF 7.2 Dwelling walls in a semi-detached, row or terrace arrangement are setback at least 900mm from side boundaries shared with allotments outside the development site.

Side boundary setback

PO 8.1	DTS/DPF 8.1
--------	-------------

<p>Building walls are set back from side boundaries to provide:</p> <ul style="list-style-type: none"> <li>) separation between buildings in a way that contributes to a suburban character and</li> <li>) access to natural light and ventilation for neighbours.</li> </ul>	<p>Other than walls located on a side boundary, building walls are set back from side boundaries in accordance with the following:</p> <ul style="list-style-type: none"> <li>(a) where the wall height does not exceed 3m - at least 900mm</li> <li>(b) for a wall that is not south facing and the wall height exceeds 3m - at least 900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings</li> <li>(c) for a wall that is south facing and the wall height exceeds 3m - at least 1.9m from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings.</li> </ul>		
<p>Rear boundary setback</p>			
<p>PO 9.1</p> <p>Building walls (except for ancillary buildings and structures) are set back from rear boundaries to provide:</p> <ul style="list-style-type: none"> <li>separation between buildings in a way that contributes to a suburban character</li> <li>access to natural light and ventilation for neighbours</li> <li>private open space</li> <li>space for landscaping and vegetation</li> <li>a consistent character when viewed from a waterfront.</li> </ul>	<p>DTS/DPF 9.1</p> <p>Building walls (except for ancillary buildings and structures) are set back from the rear boundary at least:</p> <ul style="list-style-type: none"> <li>(a) where the rear boundary fronts a waterfront, no less than the average rear setback of any existing building (except for ancillary buildings and structures) on adjoining allotments.</li> <li>(b) where the rear boundary adjoins a laneway - 0m</li> <li>(c) In all other cases:             <ul style="list-style-type: none"> <li>(i) if the size of the site is less than 301 square metres—                 <ul style="list-style-type: none"> <li>A. 3m in relation to the ground floor of the building</li> <li>B. 5m in relation to any other building level of the building</li> </ul> </li> <li>(ii) if the size of the site is 301 square metres or more—                 <ul style="list-style-type: none"> <li>A. 4m in relation to the ground floor of the building</li> <li>B. 6m in relation to any other building level of the building.</li> </ul> </li> </ul> </li> </ul>		
<p>Concept Plans</p>			
<p>PO 10.1</p> <p>Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.</p>	<p>DTS/DPF 10.1</p> <p>The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:</p> <table border="1" data-bbox="802 898 1554 958"> <thead> <tr> <th style="text-align: center;">Description</th> </tr> </thead> <tbody> <tr> <td style="text-align: center;">Concept Plan 141 - West Lakes</td> </tr> </tbody> </table> <p>In relation to DTS/DPF 10.1, in instances where:</p> <ul style="list-style-type: none"> <li>(a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.</li> <li>(b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 10.1 is met.</li> </ul>	Description	Concept Plan 141 - West Lakes
Description			
Concept Plan 141 - West Lakes			
<p>Built form and character</p>			
<p>PO 11.1</p> <p>Dwellings on sites with frontages to both a public street and a waterfront designed to address both frontages.</p>	<p>DTS/DPF 11.1</p> <p>Development is not located on a site/allotment with frontage to a waterfront.</p>		
<p>PO 11.2</p> <p>Service areas associated with dwellings such as open storage and clothes drying screened from public view.</p>	<p>DTS/DPF 11.2</p> <p>None are applicable.</p>		
<p>PO 11.3</p> <p>Development set back from waterfronts to establish a consistent character that includes soft landscaping along coastal/riverine frontages.</p>	<p>DTS/DPF 11.3</p> <p>None are applicable.</p>		
<p>Ancillary buildings and structures</p>			
<p>PO 12.1</p> <p>Outbuildings designed and sited to mitigate their visibility from the waterfront.</p>	<p>DTS/DPF 12.1</p> <p>Outbuildings are not located between the main building and waterfront boundary on a site/allotment with frontage to a waterfront.</p>		
<p>PO 12.2</p> <p>Residential ancillary buildings and structures are sited and designed to not detract from the streetscape or appearance of buildings on the site or neighbouring properties.</p>	<p>DTS/DPF 12.2</p> <p>Ancillary buildings:</p> <ul style="list-style-type: none"> <li>(a) are ancillary to a dwelling erected on the same site</li> <li>(b) have a floor area not exceeding 60m<sup>2</sup></li> <li>(c) are not constructed, added to or altered so that any part is situated:             <ul style="list-style-type: none"> <li>(i) in front of any part of the building line of the dwelling to which it is ancillary or</li> <li>(ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads)</li> </ul> </li> <li>(d) in the case of a garage or carport, the garage or carport:             <ul style="list-style-type: none"> <li>(i) is set back at least 5.5m from the boundary of the primary street</li> <li>(ii) when facing a primary street or secondary street, has a total door / opening not exceeding:                 <ul style="list-style-type: none"> <li>A. for dwellings of single building level - 7m in width or 50% of the site frontage, whichever is the lesser</li> <li>B. for dwellings comprising two or more building levels at the building line fronting the same public street - 7m in width</li> </ul> </li> </ul> </li> </ul>		

	<p>(e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless:</p> <p>(i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and</p> <p>(ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</p> <p>(f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary</p> <p>(g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure</p> <p>(h) have a wall height or post height not exceeding 3m above natural ground level (and not including a gable end)</p> <p>(i) have a roof height where no part of the roof is more than 5m above the natural ground level</p> <p>(j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour</p> <p>(k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less:</p> <p>(i) a total area as determined by the following table:</p> <table border="1" data-bbox="802 544 1552 857"> <thead> <tr> <th>Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m<sup>2</sup>)</th> <th>Minimum percentage of site</th> </tr> </thead> <tbody> <tr> <td>&lt;150</td> <td>10%</td> </tr> <tr> <td>150-200</td> <td>15%</td> </tr> <tr> <td>201-450</td> <td>20%</td> </tr> <tr> <td>&gt;450</td> <td>25%</td> </tr> </tbody> </table> <p>(ii) the amount of existing soft landscaping prior to the development occurring.</p>	Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Minimum percentage of site	<150	10%	150-200	15%	201-450	20%	>450	25%

Advertisements											
<p>PO 13.1</p> <p>Advertisements identify the associated business activity, and do not detract from the residential character of the locality.</p>	<p>DTS/DPF 13.1</p> <p>Advertisements relating to a lawful business activity associated with a residential use do not exceed 0.3m<sup>2</sup> and mounted flush with a wall or fence.</p>										

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
<p>Air handling unit, air conditioning system or exhaust fan Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The item will be installed on or within an existing dwelling.</li> <li>2. The item being installed does not encroach on a public street.</li> <li>3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.</li> </ol>
<p>Brush fence Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Hazards (Flooding) Overlay</li> <li>• Historic Area Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• Ramsar Wetlands Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The fence is formed (wholly or partially) from brush</li> <li>2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels)</li> <li>3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved)</li> <li>4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.</li> </ol>
<p>Building alterations Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The alteration does not:                     <ol style="list-style-type: none"> <li>(a) increase the floor area of the building</li> <li>(b) exceed the existing wall height</li> <li>(c) exceed the existing overall building height</li> <li>(d) alter the roof profile</li> <li>(e) alter an approved privacy screening arrangement or window treatment</li> </ol> </li> <li>2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.</li> </ol>
<p>Building work on railway land Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Coastal Areas Overlay</li> <li>• Hazards (Acid Sulfate Soils) Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• Significant Landscape Protection Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. Building work is associated with a railway</li> <li>2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017)</li> <li>3. It is required for the conduct or maintenance of railway activities</li> <li>4. It does not involve the clearance of native vegetation</li> <li>5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.</li> </ol>
<p>Carport Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Future Local Road Widening Overlay</li> <li>• Future Road Widening Overlay</li> <li>• Historic Area Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i></li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</li> <li>3. It is ancillary to a dwelling erected on the site</li> <li>4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary</li> <li>5. Total floor area - does not exceed 40m<sup>2</sup></li> <li>6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end)</li> <li>7. Building height - does not exceed 5m</li> <li>8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11.5m unless:                     <ol style="list-style-type: none"> <li>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</li> <li>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</li> </ol> </li> <li>9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street):                     <ol style="list-style-type: none"> <li>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</li> <li>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</li> </ol> </li> <li>10. Site coverage does not exceed:                     <ol style="list-style-type: none"> <li>(a) on sites 300m<sup>2</sup> or less and with a dual frontage to the waterfront and a public street, 80%</li> <li>(b) in all other cases, 60%.</li> </ol> </li> <li>11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</li> <li>12. The carport is located so that vehicle access:                     <ol style="list-style-type: none"> <li>(a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or</li> <li>(b) is not obtained from a State Maintained Road, and will use a driveway that:                             <ol style="list-style-type: none"> <li>(i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing;</li> <li>(ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;</li> <li>(iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average</li> </ol> </li> </ol> </li> </ol>

- (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access
- (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site
- 13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour
- 14. Does not involve the clearance of native vegetation
- 15. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
- (a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

- (b) the amount of existing soft landscaping prior to the development occurring.

**Outbuilding**

Except where any of the following apply:

- Coastal Areas Overlay
- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Flooding) Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
3. It is detached from and ancillary to a dwelling erected on the site.
4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary
5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)
6. Total floor area - does not exceed 40m<sup>2</sup>
7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)
8. Building height - does not exceed 5m
9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless:
  - (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
  - (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):
  - (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
  - (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure
11. Site coverage does not exceed:
  - (a) on sites 300m<sup>2</sup> or less and with a dual frontage to the waterfront and a public street, 80%.
  - (b) in all other cases, 60%.
12. Door opening for vehicle access facing a street frontage - does not exceed, in total 7m in width or 50% of the width of the allotment frontage (whichever lesser)
13. If the outbuilding is a garage, it is located so that vehicle access:
  - (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
  - (b) is not obtained from a State maintained Road, and will use a driveway that:
    - (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing;
    - (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;
    - (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
    - (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access
    - (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site
14. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour
15. Does not involve-
  - (a) excavation exceeding a vertical height of 1m; or
  - (b) filling exceeding a vertical height of 1m, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m.
16. Does not involve the clearance of native vegetation
17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas

	<p>18. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:</p> <p>(a) a total area as determined by the following table:</p> <table border="1" data-bbox="802 129 1552 450"> <thead> <tr> <th>Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m<sup>2</sup>)</th> <th>Minimum percentage of site</th> </tr> </thead> <tbody> <tr> <td>&lt;150</td> <td>10%</td> </tr> <tr> <td>150-200</td> <td>15%</td> </tr> <tr> <td>201-450</td> <td>20%</td> </tr> <tr> <td>&gt;450</td> <td>25%</td> </tr> </tbody> </table> <p>(b) the amount of existing soft landscaping prior to the development occurring.</p>	Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Minimum percentage of site	<150	10%	150-200	15%	201-450	20%	>450	25%

<p>Water tank (above ground) Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Historic Area Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• Ramsar Wetlands Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i></li> <li>The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</li> <li>The tank is part of a roof drainage system</li> <li>Total floor area - not exceeding 15m<sup>2</sup></li> <li>The tank is located wholly above ground</li> <li>Tank height - does not exceed 4m above natural ground level</li> </ol>										

7. Primary street setback - at least as far back as the building line of the building to which it is ancillary
8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour
9. Does not involve the clearance of native vegetation
10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
  - (a)

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

- (b) the amount of existing soft landscaping prior to the development occurring.

Water tank (underground)  
Except where any of the following apply:

- Coastal Areas Overlay
- Hazards (Acid Sulfate Soils) Overlay
- Ramsar Wetlands Overlay

1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
2. The tank (including any associated pump) is located wholly below the level of the ground
3. Does not involve the clearance of native vegetation.

**Table 2 - Deemed-to-Satisfy Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)

**Table 3 - Applicable Policies for Performance Assessed Development**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Class of Development	Applicable Policies

All other Code Assessed Development	All	All	All	Any relevant Overlay: All

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following:  (a) shop with a gross leasable floor area less than 1000m <sup>2</sup> (b) shop that is a restaurant.

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
All development undertaken by: ) the South Australian Housing Trust either individually or jointly with other persons or bodies or ) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust.	Except development involving any of the following:  1. residential flat building(s) of 3 or more building levels 2. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 3. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
Any development involving any of the following (or of any combination of any of the following): ) ancillary accommodation ) dwelling ) dwelling addition ) jetty, pontoon or boat berth (or any combination thereof) ) residential flat building.	Except development that:  1. exceeds the maximum building height specified in Waterfront Neighbourhood Zone DTS/DPF 4.1 or 2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).

<p>Any development involving any of the following (or of any combination of any of the following):</p> <ul style="list-style-type: none"> <li>) consulting room</li> <li>) office</li> <li>) shop.</li> </ul>	<p>Except development that:</p> <ol style="list-style-type: none"> <li>1. exceeds the maximum building height specified in Waterfront Neighbourhood Zone DTS/DPF 4.1 or</li> <li>2. does not satisfy Waterfront Neighbourhood Zone DTS/DPF 1.5 or</li> <li>3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and:             <ol style="list-style-type: none"> <li>(a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or</li> <li>(b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).</li> </ol> </li> </ol>
<p>Any development involving any of the following (or of any combination of any of the following):</p> <ul style="list-style-type: none"> <li>) air handling unit, air conditioning system or exhaust fan</li> <li>) carport</li> <li>) deck</li> <li>) fence</li> <li>) internal building works</li> <li>) land division</li> <li>) outbuilding</li> <li>) pergola</li> <li>) private bushfire shelter</li> <li>) recreation area</li> <li>) replacement building</li> <li>) retaining wall</li> <li>) shade sail</li> <li>) solar photovoltaic panels (roof mounted)</li> <li>) swimming pool or spa pool and associated swimming pool safety features</li> <li>) temporary accommodation in an area affected by bushfire</li> <li>) tree damaging activity</li> <li>) verandah</li> <li>) water tank.</li> </ul>	<p>None specified.</p>
<p>Demolition.</p>	<p>Except any of the following:</p> <ol style="list-style-type: none"> <li>1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)</li> <li>2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).</li> </ol>
<p>Railway line.</p>	<p>Except where located outside of a rail corridor or rail reserve.</p>
<p><b>Placement of Notices - Exemptions for Performance Assessed Development</b></p>	
<p>None specified.</p>	
<p><b>Placement of Notices - Exemptions for Restricted Development</b></p>	
<p>None specified.</p>	

## Workers' Settlement Zone

### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Appropriately designed and located accommodation for seasonal and short-term workers in rural areas that minimises environmental and social impacts.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	

<p>PO 1.1</p> <p>Development is limited to workers' accommodation and ancillary land uses that support the day to day needs of workers.</p> <p>(a) (b) (c) (d) (e) (f) (g)</p>	<p>DTS/DPF 1.1</p> <p>Development comprises one or more of the following:</p> <p>a dwelling (manager's house) amenity block (including shower, toilet and laundry facilities) in association with and ancillary to the workers' accommodation dwelling addition recreational facility in association with and ancillary to the workers' accommodation office in association with and ancillary to the workers' accommodation shop in association with and ancillary to the workers' accommodation workers' accommodation.</p>
<p>PO 1.2</p> <p>Shops, primarily in the form of a restaurant, associated with and ancillary to Workers' accommodation enhance the amenity of the zone for those workers.</p> <p>(a) (b)</p>	<p>DTS/DPF 1.2</p> <p>Shops located on the same site as workers' accommodation meets one of the following:</p> <p>it has a gross leasable floor area not exceeding 100m<sup>2</sup> it is a restaurant.</p>
<p>PO 1.3</p> <p>Office associated with and ancillary to Workers' accommodation supports the management and administrative aspects of the accommodation.</p>	<p>DTS/DPF 1.3</p> <p>Office is ancillary to and located on the same site as Workers' accommodation.</p>
<p>PO 1.4</p> <p>Development provides space adjacent to and around habitable buildings to accommodate areas for parking of vehicles, storage of waste, landscaping, recreation areas, swimming pool/spa and similar facilities to enhance the amenity for resident workers.</p>	<p>DTS/DPF 1.4</p> <p>The total roofed area of all existing and proposed buildings on the site will not exceed 60%.</p>
<p>PO 1.5</p> <p>Workers' accommodation is established in association with major industrial, mining, agricultural and business activities to support and facilitate economic activity.</p>	<p>DTS/DPF 1.5</p> <p>Workers' accommodation is constructed by the principal operator of the relevant business or authorised agent thereof.</p>
<p>PO 1.6</p> <p>A dwelling in the form of a manager or caretaker residence associated with and ancillary to Workers' accommodation provides for the efficient management, maintenance and support of residents.</p> <p>(a) (b) (c)</p>	<p>DTS/DPF 1.6</p> <p>A dwelling is:</p> <p>ancillary to and located on the same allotment or within the same lease area as the workers' accommodation has a demonstrated connection with workers' accommodation will not result in more than one dwelling being located on an allotment or lease area used for workers' accommodation.</p>
<p>Land Division</p>	
<p>PO 2.1</p> <p>Land division is designed to:</p> <p>minimise fire risk danger to occupants of buildings and firefighting personnel minimise the potential risk of damage to buildings and other property during a bushfire ensure each allotment contains a suitable building envelope that is located away from any vegetation that would pose an unacceptable risk in the event of bushfire.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
<p>Built Form and Character</p>	
<p>PO 3.1</p> <p>Buildings and recreational facilities are set back from internal roads to accommodate vehicular movements and contribute to the safety of workers and visitors.</p>	<p>DTS/DPF 3.1</p> <p>Buildings and recreational facilities are set back at least 1 metre from an internal road.</p>
<p>PO 3.2</p> <p>Buildings are set back from public roads to mitigate impacts on the streetscape.</p>	<p>DTS/DPF 3.2</p> <p>Buildings are set back at least 2m from a public road.</p>
<p>PO 3.3</p> <p>Buildings and recreational areas are set back from the boundary of the zone to minimise impacts on neighbouring properties and enhance local amenity.</p>	<p>DTS/DPF 3.3</p> <p>Buildings are set back at least 2 metres from the zone boundary.</p>
<p>PO 3.4</p> <p>Buildings use materials and finishes to complement the landscape and mitigate the effects of glare on adjacent land users.</p> <p>(a) (b)</p>	<p>DTS/DPF 3.4</p> <p>Buildings are clad in, or a combination of:</p> <p>materials other than sheet metal sheet metal pre-colour treated or painted in a non-reflective colour.</p>
<p>Landscaping</p>	
<p>PO 4.1</p> <p>Landscaping is provided along public roads and thoroughfares, zone boundaries and the perimeter of common vehicle parking areas to enhance the visual appearance of development.</p>	<p>DTS/DPF 4.1</p> <p>Other than to accommodate a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land, a landscaped area is provided within the development site in accordance with the following:</p>

	(a)	at least 1.5m wide along any boundary on the perimeter of the zone fronting a public road or thoroughfare
	(b)	at least 1m wide around the perimeter of any shared vehicle parking area.
PO 4.2 Development incorporates areas for landscaping to enhance the overall amenity of the site and locality.		DTS/DPF 4.2 Landscape areas comprise:
	(a)	not less than 10 percent of the site area
	(b)	a dimension of at least 1m.
Concept Plans		
PO 5.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.		DTS/DPF 5.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:  In relation to DTS/DPF 5.1, in instances where:
	(a)	one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.
	(b)	in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 5.1 is met.

**Table 1 - Accepted Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: <ul style="list-style-type: none"><li>Local Heritage Place Overlay</li><li>State Heritage Area Overlay</li><li>State Heritage Place Overlay</li></ul>	<ol style="list-style-type: none"> <li>The item will be installed on or within an existing dwelling.</li> <li>The item being installed does not encroach on a public street.</li> <li>If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.</li> </ol>
Building alterations Except where any of the following apply: <ul style="list-style-type: none"><li>Local Heritage Place Overlay</li><li>State Heritage Area Overlay</li><li>State Heritage Place Overlay</li></ul>	<ol style="list-style-type: none"> <li>The alteration does not:                             <ol style="list-style-type: none"> <li>increase the floor area of the building</li> <li>exceed the existing wall height</li> <li>exceed the existing overall building height</li> <li>alter the roof profile</li> <li>alter an approved privacy screening arrangement or window treatment</li> </ol> </li> <li>Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.</li> </ol>
Building work on railway land Except where any of the following apply: <ul style="list-style-type: none"><li>Coastal Areas Overlay</li><li>Hazards (Acid Sulfate Soils) Overlay</li><li>Local Heritage Place Overlay</li><li>Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay</li><li>Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay</li><li>Significant Landscape Protection Overlay</li><li>State Heritage Area Overlay</li><li>State Heritage Place Overlay</li></ul>	<ol style="list-style-type: none"> <li>Building work is associated with a railway.</li> <li>It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017).</li> <li>It is required for the conduct or maintenance of railway activities.</li> <li>It does not involve the clearance of native vegetation.</li> </ol>
Carport Except where any of the following apply: <ul style="list-style-type: none"><li>Future Local Road Widening Overlay</li><li>Future Road Widening Overlay</li><li>Historic Area Overlay</li><li>Local Heritage Place Overlay</li><li>State Heritage Area Overlay</li><li>State Heritage Place Overlay</li></ul>	<ol style="list-style-type: none"> <li>The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>It is ancillary to a dwelling erected on the site.</li> <li>Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary.</li> <li>Total floor area - does not exceed 40m<sup>2</sup>.</li> <li>Post height - does not exceed 3m measured from natural ground level (and not including a gable end).</li> <li>Building height - does not exceed 5m.</li> <li>If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11m unless:                             <ol style="list-style-type: none"> <li>a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</li> <li>the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.</li> </ol> </li> <li>If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</li> </ol>

	<ol style="list-style-type: none"> <li>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</li> <li>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.</li> <li>10. The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment.</li> <li>11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser).</li> <li>12. The carport is located so that vehicle access:             <ol style="list-style-type: none"> <li>(a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or</li> <li>(b) is not obtained from a State maintained road, and will use a driveway that:                 <ol style="list-style-type: none"> <li>(i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;</li> <li>(ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;</li> <li>(iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average</li> <li>(iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access</li> <li>(v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site.</li> </ol> </li> </ol> </li> <li>13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour.</li> <li>14. Does not involve the clearance of native vegetation.</li> </ol>
<p>Outbuilding Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Coastal Areas Overlay</li> <li>• Future Road Widening Overlay</li> <li>• Hazards (Flooding) Overlay</li> <li>• Historic Area Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• Significant Landscape Protection Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>3. It is detached from and ancillary to a dwelling erected on the site.</li> <li>4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary.</li> <li>5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads).</li> <li>6. Total floor area - does not exceed 40m<sup>2</sup>.</li> <li>7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end).</li> <li>8. Building height - does not exceed 5m.</li> <li>9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless:             <ol style="list-style-type: none"> <li>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</li> <li>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.</li> </ol> </li> <li>10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):             <ol style="list-style-type: none"> <li>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</li> <li>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.</li> </ol> </li> <li>11. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%.</li> <li>12. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):             <ol style="list-style-type: none"> <li>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</li> <li>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.</li> </ol> </li> <li>13. If the outbuilding is a garage, it is located so that vehicle access:             <ol style="list-style-type: none"> <li>(a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or</li> <li>(b) is not obtained from a State Maintained Road, and will use a driveway that:                 <ol style="list-style-type: none"> <li>(i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;</li> <li>(ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;</li> <li>(iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average</li> <li>(iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access</li> <li>(v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site</li> </ol> </li> </ol> </li> <li>14. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour.</li> <li>15. Does not involve-             <ol style="list-style-type: none"> <li>(a) excavation exceeding a vertical height of 1 metre; or</li> </ol> </li> </ol>

	<p>(b) filling exceeding a vertical height of 1 metre, and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres.</p> <p>16. Does not involve the clearance of native vegetation.</p>
<p>Partial demolition of a building or structure Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Historic Area Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<p>None</p>
<p>Shade sail Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Future Local Road Widening Overlay</li> <li>• Future Road Widening Overlay</li> <li>• Historic Area Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>3. Shade sail consists of permeable material.</li> <li>4. The total area of the sail - does not exceed 40m<sup>2</sup>.</li> <li>5. No part of the shade sail will be:             <ol style="list-style-type: none"> <li>(a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment</li> <li>(b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment.</li> </ol> </li> <li>6. Primary street setback - at least as far back as the building line of the building to which it is ancillary.</li> <li>7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m.</li> <li>8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.</li> <li>9. Does not involve the clearance of native vegetation.</li> </ol>
<p>Solar photovoltaic panels (roof mounted) Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof.</li> <li>3. Panels and associated components do not overhang any part of the roof.</li> <li>4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.</li> <li>5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.</li> </ol>
<p>Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Future Local Road Widening Overlay</li> <li>• Future Road Widening Overlay</li> <li>• Hazards (Flooding) Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted.</li> <li>4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature).</li> <li>5. Primary street setback - at least as far back as the building line of the building to which it is ancillary.</li> <li>6. Location of filtration system from a dwelling on an adjoining allotment:             <ol style="list-style-type: none"> <li>(a) not less than 5m where the filtration system is located inside a solid structure that will have material impact on the transmission of noise; or</li> <li>(b) not less than 12m in any other case.</li> </ol> </li> <li>7. Does not involve the clearance of native vegetation.</li> </ol>
<p>Water tank (above ground) Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>3. The tank is part of a roof drainage system.</li> <li>4. Total floor area - not exceeding 15m<sup>2</sup>.</li> <li>5. The tank is located wholly above ground.</li> <li>6. Tank height - does not exceed 4m above natural ground level.</li> <li>7. Primary street setback - at least as far back as the building line of the building to which it is ancillary.</li> <li>8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour.</li> <li>9. Does not involve the clearance of native vegetation</li> </ol>
<p>Water tank (underground)</p>	<ol style="list-style-type: none"> <li>1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>2. The tank (including any associated pump) is located wholly below the level of the ground.</li> <li>3. Does not involve the clearance of native vegetation.</li> </ol>

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)

**Table 3 - Applicable Policies for Performance Assessed Development**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m <sup>2</sup> (b) shop that is a restaurant.

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
Any development involving any of the following (or of any combination of any of the following): ) air handling unit, air conditioning system or exhaust fan ) amenities block ) carport ) deck ) dwelling ) dwelling addition ) fence ) internal building works land division office ) outbuilding pergola ) private bushfire shelter ) replacement building ) retaining wall ) shade sail ) shop ) solar photovoltaic panels (roof mounted) ) swimming pool or spa pool and associated swimming pool safety features ) temporary accommodation in an area affected by bushfire ) tree damaging activity ) verandah ) workers accommodation ) water tank.	None specified.
Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)

	2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
--	-----------------------------------------------------------------------------------------------------------------------

Railway line.	Except where located outside of a rail corridor or rail reserve.
---------------	------------------------------------------------------------------

**Placement of Notices - Exemptions for Performance Assessed Development**

None specified

**Placement of Notices - Exemptions for Restricted Development**

None specified

**Part 3 - Overlays**

**Adelaide Dolphin Sanctuary Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Protection of the Adelaide Dolphin Sanctuary dolphin population and their habitat.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
PO 1.1 Development avoids or minimises harm to habitat, and the functioning of ecosystems that support the dolphin population.	DTS/DPF 1.1 None are applicable.
PO 1.2 Development does not result in the disruption of critical dolphin behaviours such as breeding, feeding, resting and movement.	DTS/DPF 1.2 None are applicable.
PO 1.3 Stormwater runoff is disposed of in a manner that avoids pollution or other detrimental impacts to the Adelaide Dolphin Sanctuary.	DTS/DPF 1.3 None are applicable.

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Advertising Near Signalised Intersections Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Provision of a safe road environment by reducing driver distraction at key points of conflict on the road.

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Advertisements Near Signalised Intersections	
PO 1.1 Advertising near signalised intersections does not cause unreasonable distraction to road users through illumination, flashing lights, or moving or changing displays or messages.	DTS/DPF 1.1 Advertising: (a) is not illuminated (b) does not incorporate a moving or changing display or message (c) does not incorporate a flashing light(s).

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Advertisement or advertising hoarding that: ) is within 100m of a: signalised intersection or ) signalised pedestrian crossing and ) will: be internally illuminated or ) incorporate a moving or changing display or message or i) incorporate a flashing light.	Commissioner of Highways.	To provide expert technical assessment on potential risks relating to pedestrian and road safety which may arise from advertisements near intersections.	Development of a class to which Schedule 9 clause 3 item 21 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

**Affordable Housing Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Affordable housing is integrated with residential and mixed use development.
DO 2	Affordable housing caters for a variety of household structures.

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Division	
PO 1.1 Development comprising 20 or more dwellings / allotments incorporates affordable housing.	DTS/DPF 1.1 Development results in 0-19 additional allotments / dwellings.
PO 1.2 Development comprising 20 or more dwellings or residential allotments provides housing suited to a range of incomes including households with low to moderate incomes.	DTS/DPF 1.2 Development comprising 20 or more dwellings / or residential allotments includes a minimum of 15% affordable housing except where: (a) it can be demonstrated that any shortfall in affordable housing has been provided in a previous stage of development or (b) it can be demonstrated that any shortfall in affordable housing will be accommodated in a subsequent stage or stages of development.
PO 1.3 Affordable housing is distributed throughout the development to avoid an overconcentration.	DTS/DPF 1.3 None are applicable.
Built Form and Character	

<p>PO 2.1</p> <p>Affordable housing is designed to complement the design and character of residential development within the locality.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
<p>Affordable Housing Incentives</p>	
<p>PO 3.1</p> <p>To support the provision of affordable housing, minimum allotment sizes may be reduced below the minimum allotment size specified in a zone while providing allotments of a suitable size and dimension to accommodate dwellings with a high standard of occupant amenity.</p>	<p>DTS/DPF 3.1</p> <p>The minimum site area specified for a dwelling can be reduced by up to 20%, or the maximum density per hectare increased by up to 20%, where it is to be used to accommodate affordable housing except where the development is located within the Character Area Overlay or Historic Area Overlay.</p>
<p>PO 3.2</p> <p>To support the provision of affordable housing, building heights may be increased above the maximum specified in a zone.</p>	<p>DTS/DPF 3.2</p> <p>Where a building incorporates dwellings above ground level and includes at least 15% affordable housing, the maximum building height specified in any relevant zone policy can be increased by 1 building level in the:</p> <ul style="list-style-type: none"> <li>(a) Business Neighbourhood Zone</li> <li>(b) City Living Zone</li> <li>(c) Established Neighbourhood Zone</li> <li>(d) General Neighbourhood Zone</li> <li>(e) Hills Neighbourhood Zone</li> <li>(f) Housing Diversity Neighbourhood Zone</li> <li>(g) Neighbourhood Zone</li> <li>(h) Master Planned Neighbourhood Zone</li> <li>(i) Master Planned Renewal Zone</li> <li>(j) Master Planned Township Zone</li> <li>(k) Rural Neighbourhood Zone</li> <li>(l) Suburban Business Zone</li> <li>(m) Suburban Neighbourhood Zone</li> <li>(n) Township Neighbourhood Zone</li> <li>(o) Township Zone</li> <li>(p) Urban Renewal Neighbourhood Zone</li> <li>(q) Waterfront Neighbourhood Zone</li> </ul> <p>and up to 30% in any other zone, except where:</p> <ul style="list-style-type: none"> <li>(a) the development is located within the Character Area Overlay or Historic Area Overlay or</li> <li>(b) other height incentives already apply to the development.</li> </ul>
<p>Movement and Car Parking</p>	
<p>PO 4.1</p> <p>Sufficient car parking is provided to meet the needs of occupants of affordable housing.</p>	<p>DTS/DPF 4.1</p> <p>Dwellings constituting affordable housing are provided with car parking in accordance with the following:</p> <ul style="list-style-type: none"> <li>(a) 0.3 carparks per dwelling within a building which incorporates dwellings located above ground level within either: <ul style="list-style-type: none"> <li>(i) 200 metres of any section of road reserve along which a bus service operates as a high frequency public transit service<sup>(2)</sup></li> <li>(ii) is within 400 metres of a bus interchange<sup>(1)</sup></li> <li>(iii) is within 400 metres of an O-Bahn interchange<sup>(1)</sup></li> <li>(iv) is within 400 metres of a passenger rail station<sup>(1)</sup></li> <li>(v) is within 400 metres of a passenger tram station<sup>(1)</sup></li> <li>(vi) is within 400 metres of the Adelaide Parklands.</li> </ul> </li> <li>or</li> <li>(b) 1 carpark per dwelling for any other dwelling.</li> </ul> <p>[NOTE(S): (1) Measured from an area that contains any platform(s), shelter(s) or stop(s) where people congregate for the purpose waiting to board a bus, tram or train, but does not include areas used for the parking of vehicles. (2) A high frequency public transit service is a route serviced every 15 minutes between 7.30am and 6.30pm Monday to Friday and every 30 minutes at night, Saturday, Sunday and public holidays until 10pm.]</p>

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Except where the applicant for the development is the South Australian Housing Authority (or an agent acting on behalf of the South Australian Housing Authority), residential development or land division (other than an excluded land division):</p>	<p>Minister responsible for administering the <i>South Australian Housing Trust Act 1995</i>.</p>	<p>To provide direction on the conditions required to secure the provision of dwellings or</p>	<p>Development of a class to which Schedule 9</p>

<p>) that comprises 20 or more dwellings or residential allotments and is described in the application documentation as intending to provide affordable housing or</p> <p>) that is described in the application documentation as intending to provide affordable housing and the applicant is seeking to access one or more of the planning concessions outlined in the Affordable Housing Overlay DTS/DPF 3.1, 3.2 or 4.1 or</p> <p>) that is described in the application documentation as intending to include affordable housing of any number of dwellings or residential allotments</p>		<p>allotments for affordable housing.</p>	<p>clause 3 item 20 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>

## Aircraft Noise Exposure Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development sensitive to aircraft noise is designed and located to manage noise intrusion to reduce land use conflict and protect human health.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
<p>PO 1.1</p> <p>Buildings that accommodate activities sensitive to aircraft noise are designed and located to minimise aircraft noise intrusion and provide appropriate interior acoustic amenity.</p>	<p>DTS/DPF 1.1</p> <p>Buildings accommodating sensitive receivers are not located within an area having an ANEF value of 30 or more.</p>
Built Form	
<p>PO 2.1</p> <p>Additions to buildings involving the addition or extension of habitable rooms are designed and located to minimise aircraft noise intrusion and provide appropriate interior acoustic amenity.</p> <p>(a)</p> <p>(b)</p>	<p>DTS/DPF 2.1</p> <p>Dwelling additions involving the addition or extension of habitable rooms:</p> <p>do not result in an increase in the total floor area of the existing dwelling by greater than 50 percent</p> <p>do not occur in areas having an ANEF value of 30 or more.</p>
Land Division	
<p>PO 3.1</p> <p>Land division does not increase the number of allotments used for sensitive receivers in areas adversely affected by aircraft noise to mitigate community exposure to potential adverse environmental and amenity impacts generated by aircraft movements.</p> <p>(a)</p> <p>(b)</p> <p>(i)</p> <p>(ii)</p>	<p>DTS/DPF 3.1</p> <p>Land division:</p> <p>within an area having an ANEF value of less than 30 or</p> <p>within an area having an ANEF value or 30 or more and:</p> <p>does not result in any additional allotments or</p> <p>none of the allotments will accommodate a sensitive receiver.</p>

### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

## Airport Building Heights (Aircraft Landing Areas) Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Management of potential impacts of buildings on the operational and safety requirements of aircraft landing areas.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Built Form	
PO 1.1 Building height does not pose a hazard to the operation of an aircraft landing area.	DTS/DPF 1.1 The distance from any part of a runway centreline to the closest point of the building is greater than 30 times building height.

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Airport Building Heights (Regulated) Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Management of potential impacts of buildings and generated emissions to maintain operational and safety requirements of registered and certified commercial and military airfields, airports, airstrips and helicopter landing sites.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Built Form	
PO 1.1 Building height does not pose a hazard to the operation of a certified or registered aerodrome.	DTS/DPF 1.1 Buildings are located outside the area identified as 'All structures' (no height limit is prescribed) and do not exceed the height specified in the Airport Building Heights (Regulated) Overlay which applies to the subject site as shown on the SA Property and Planning Atlas.  In instances where more than one value applies to the site, the lowest value relevant to the site of the proposed development is applicable.
PO 1.2 Exhaust stacks are designed and sited to minimise plume impacts on aircraft movements associated with a certified or registered aerodrome.	DTS/DPF 1.2 Development does not include exhaust stacks.

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Any of the following classes of development:  building located in an area identified as 'All structures' (no height limit is prescribed) or will exceed the height specified in the <i>Airport Building Heights (Regulated) Overlay</i> building comprising exhaust stacks that generates plumes, or may cause plumes to be generated, above a height specified in the <i>Airport Building Heights (Regulated) Overlay</i> .	The airport-operator company for the relevant airport within the meaning of the <i>Airports Act 1996</i> of the Commonwealth or, if there is no airport-operator company, the Secretary of the Minister responsible for the administration of the <i>Airports Act 1996</i> of the Commonwealth.	To provide expert assessment and direction to the relevant authority on potential impacts on the safety and operation of aviation activities.	Development of a class to which Schedule 9 clause 3 item 1 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

**Building Near Airfields Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Maintain the operational and safety requirements of certified commercial and military airfields, airports, airstrips and helicopter landing sites through management of non-residential lighting, turbulence and activities that may attract or result in the congregation of wildlife.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
PO 1.1 Outdoor lighting associated with a non-residential use does not pose a hazard to commercial or military aircraft operations.	DTS/DPF 1.1 Development: (a) primarily or wholly for residential purposes (b) for non-residential purposes that does not incorporate outdoor floodlighting.
PO 1.2 Development likely to attract or result in the congregation of wildlife is adequately separated from airfields to minimise the potential for aircraft wildlife strike.	DTS/DPF 1.2 All development except where it comprises one or more of the following located not less than 3km from the boundaries of an airport used by commercial or military aircraft: (a) food packing/processing plant (b) horticulture (c) intensive animal husbandry (d) showground (e) waste management facility (f) waste transfer station (g) wetland (h) wildlife sanctuary.
PO 1.3 Buildings are adequately separated from runways and other take-off and landing facilities within certified or registered aerodromes to minimise the potential for building-generated turbulence and windshear that may pose a safety hazard to aircraft flight movement.	DTS/DPF 1.3 The distance from any part of a runway centreline to the closest point of the building is not less than 35 times the building height.

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Character Area Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Valued streetscape characteristics and development patterns are reinforced through contextually responsive development, design and adaptive reuse that responds to the attributes expressed in the Character Area Statement.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
All Development	
PO 1.1 All development is undertaken having consideration to the valued attributes expressed in the Character Area Statement.	DTS/DPF 1.1 None are applicable.

Built Form	
<p>PO 2.1</p> <p>The form of new buildings and structures that are visible from the public realm are consistent with the valued streetscape characteristics of the character area.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
<p>PO 2.2</p> <p>Development is consistent with the prevailing building and wall heights in the character area.</p>	<p>DTS/DPF 2.2</p> <p>None are applicable.</p>
<p>PO 2.3</p> <p>Design and architectural detailing of street-facing buildings (including but not limited to roof pitch and form, openings, chimneys and verandahs) are consistent with the prevailing characteristics in the character area.</p>	<p>DTS/DPF 2.3</p> <p>None are applicable.</p>
<p>PO 2.4</p> <p>Development is consistent with the prevailing front and side boundary setback pattern in the character area.</p>	<p>DTS/DPF 2.4</p> <p>None are applicable.</p>
<p>PO 2.5</p> <p>Materials are either consistent with or complement those within the character area.</p>	<p>DTS/DPF 2.5</p> <p>None are applicable.</p>
Alterations and Additions	
<p>PO 3.1</p> <p>Additions and alterations do not adversely impact on the streetscape character.</p>	<p>DTS/DPF 3.1</p> <p>Additions and alterations:</p> <ul style="list-style-type: none"> <li>(a) are fully contained within the roof space of a building with no external alterations made to the building elevation facing the primary street or</li> <li>(b) meet all of the following:                             <ul style="list-style-type: none"> <li>(i) do not include any development forward of the front façade building line</li> <li>(ii) any side or rear extensions are no closer to the side boundary than the existing building</li> <li>(iii) do not involve the construction or alteration of a second or subsequent building level.</li> </ul> </li> </ul>
<p>PO 3.2</p> <p>Adaptive reuse and revitalisation of buildings to retain local character consistent with the Character Area Statement.</p>	<p>DTS/DPF 3.2</p> <p>None are applicable.</p>
Ancillary Development	
<p>PO 4.1</p> <p>Ancillary development, including carports, outbuildings and garages, complements the character of the area and associated building(s).</p>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>
<p>PO 4.2</p> <p>Ancillary development, including carports, outbuildings and garages, is located behind the building line of the principal building(s).</p>	<p>DTS/DPF 4.2</p> <p>None are applicable.</p>
<p>PO 4.3</p> <p>Advertising and advertising hoardings are located and designed to complement the building, be unobtrusive, be below the parapet line, not conceal or obstruct significant architectural elements and detailing, or dominate the building or its setting.</p>	<p>DTS/DPF 4.3</p> <p>None are applicable.</p>
<p>PO 4.4</p> <p>Fencing and gates closer to a street boundary (other than a laneway) than the elevation of the associated building are consistent with the traditional period, style and form of the of the associated building.</p>	<p>DTS/DPF 4.4</p> <p>None are applicable.</p>
Land Division	
<p>PO 5.1</p> <p>Land division creates allotments that are:</p> <ul style="list-style-type: none"> <li>compatible with the surrounding pattern of subdivision in the character area</li> <li>of a dimension to accommodate buildings of a bulk and scale that reflect existing buildings and setbacks in the character area.</li> </ul>	<p>DTS/DPF 5.1</p> <p>None are applicable.</p>
Context and Streetscape Amenity	
<p>PO 6.1</p> <p>The width of driveways and other vehicle access ways are consistent with the prevalent width of existing driveways in the character area.</p>	<p>DTS/DPF 6.1</p> <p>None are applicable.</p>
<p>PO 6.2</p> <p>Development maintains the valued landscape pattern and characteristics that contribute to the character area, except where they compromise safety, create nuisance, or impact adversely on existing buildings or infrastructure.</p>	<p>DTS/DPF 6.2</p> <p>None are applicable.</p>

Character Area Statements

Statement#	Statement	
BaroC2	Eras, themes and context	Pre-1950.
	Allotments, subdivision and built form patterns	Grid pattern.
	Architectural styles, detailing and built form features	Mixture of housing styles of relatively modern design.
	Building height	Generally single storey detached dwellings.
	Materials	[Not stated]
	Fencing	[Not stated]
	Setting, landscaping, streetscape and public realm features	'Traditional' verge treatments exist in the main street (front boundary, footpath, street trees and gutter).
	Representative Buildings	[Not identified]

BaroC3	<p><b>Angaston Character Area Statement (Baro-C3)</b></p> <p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	Late 1800s. 1920s, second wave of prosperity for Angaston in the 20th Century.
	Allotments, subdivision and built form patterns	[Not stated]
	Architectural styles, detailing and built form features	Residences in 1879-80. Residences of the 1920s.
	Building height	[Not stated]
	Materials	Local stone.
	Fencing	[Not stated]
	Setting, landscaping, streetscape and public realm features	Tree lined streets, attractive gardens, varied topography, coprosma hedges in front of some houses (retaining early post and wire fence structures), mature gums along the creek, and cypress hedges to many 1920s dwellings.
Representative Buildings	Identified - refer to SA planning database.	

**Character Areas affecting City of Campbelltown**

CamC1	<p><b>Poet's Corner, Tranmere Character Area Statement (Cam-C1)</b></p> <p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	Residential.
	Allotments, subdivision and built form patterns	Low site coverage, large front and side building set-backs from property boundaries. Substantial allotment widths, consistent pattern of driveway access from the street to garaging and large landscaped open spaces. Detached dwellings at low densities.
	Architectural styles, detailing and built form features	Villas and inter-war bungalows on large allotments with wide frontages, set within well-established landscaped gardens and streets. Consistent roof forms and pitches. Garages, carports and outbuildings are low in scale and generally located to the rear of dwellings or to the side, well set back from the front facade.
	Building height	Predominantly one storey buildings, with attic or loft spaces contained within the roof form, or two storey additions to the rear of dwellings.
	Materials	Red brick, stone and masonry building materials. Roofs of terracotta tiles or red painted corrugated iron.
	Fencing	Low, open fencing to 1 metre in height, providing views to the built form. Low picket fencing, solid brush fencing, stone or masonry materials, wire and creepers, and hedges. Some high masonry fences specifically along Magill and Glynburn Roads.

Statement#	Statement	
	Setting, landscaping, streetscape and public realm features	Avenues of street tree planting make an important contribution to the landscape character and visual amenity. Generally single width driveways, located to protect mature street trees.  Lawns and vegetated gardens.
	Representative Buildings	Identified - refer to SA planning database.

**Character Areas affecting Clare and Gilbert Valleys Council**

CGVC1	<b>Auburn Character Area Statement (CGV-C1)</b>	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>	
	<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	Buildings constructed in the 19 <sup>th</sup> century.
	Allotments, subdivision and built form patterns	Original land division pattern, street layout and setback patterns.
	Architectural styles, detailing and built form features	Verandahs. Original architectural styles.
	Building height	1-2 storeys, with 2 storey buildings generally for retail and civic uses.
	Materials	<i>[Not stated]</i>
	Fencing	Front fences and gates of timber pickets, pier and plinth masonry, wrought iron, brush or masonry not exceeding 1.2m.
Setting, landscaping, streetscape and public realm features	Established trees. Residential amenity.	
Representative Buildings	Identified - refer to SA planning database.	

**Character Areas affecting City of Holdfast Bay**

HoBC1	<b>Seacliff Character Area Statement (HoB-C1)</b>	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>	
	<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
Eras, themes and context	1880s to 1920s west of the railway line.  1930s to 1960s east of the railway line.	
Allotments, subdivision and built form patterns	19 <sup>th</sup> century rectilinear road pattern, with small allotment sizes.  Large allotments and frontages.  Narrow streets, limited street trees.  Reduced setbacks.  Varied front setbacks.  Side setbacks provide visual spacing between dwellings.	
Architectural styles, detailing and built form features	Range of architectural styles.  Still some remaining examples of bungalows west of the railway line.  Influence of Spanish Mission style architecture.  Rectilinear plan forms.  High degree of modulation and articulation.  Low scale.  Steep roof pitches in the order of 25 to 35 degrees.	

Statement#	Statement	
		Short roof spans. Hip and gable roof forms. Deep verandahs and porches. Fine-grain detail in elements such as plinths, string courses, projecting sills. High solid to void ratio. Vertical proportions in windows and doors.
	Building height	Single storey.
	Materials	Red and cream brick. Stone. Render. Corrugated iron roofing. Terra cotta tile roofing. Varied building materials across the area.
	Fencing	Fencing associated with the era and style of the building, and providing views to the building.
	Setting, landscaping, streetscape and public realm features	Railway line is a significant feature, with associated landscape corridor. Sloping landform. Coastal views.
	Representative Buildings	<i>[Not identified]</i>

HoBC2	<b>Brighton Character Area Statement (HoB-C2)</b>	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	1900s to 1930s.
	Allotments, subdivision and built form patterns	Medium to large sized allotments. Linear and curvilinear street layout adjacent Dunluce Castle. Large allotment sizes and frontages. Large front setbacks. Small side setbacks, including driveway access down one side of the site and a small setback from the non-driveway side boundary.
Architectural styles, detailing and built form features	Federation style dwellings. Inter-War style dwellings including: Tudor Revival, Californian bungalow, Art Deco, Some Spanish mission. Some Post-War Austerity and Conventional style dwellings. Rectilinear plan forms. High degree of modulation and articulation. Low scale. Steep roof pitches in the order of 25 to 35 degrees. Short roof spans. Hip and gable roof forms. Deep verandahs and porches. Fine-grain detail in elements such as plinths, string courses, projecting sills. High solid to void ratio. Vertical proportions in windows and doors. Garages, carports and outbuildings are low in scale and generally located unobtrusively to the rear of dwellings or to the side, well set back from the front facade.	

Statement#	Statement	
	Building height	Single storey.
	Materials	Corrugated iron or terracotta tile roofing. Brick, stone, timber and part-rendered finishes. Fenestration, doorways, windows, eaves and roof forms generally dark in colour.
	Fencing	Fencing associated with the era and style of the building, and providing views to the building. Woven wire. Low masonry with geometric steel. Low masonry (stepped). Brush fencing up to 1.4m in height with either rolled or metal capping.
	Setting, landscaping, streetscape and public realm features	Heavily landscaped settings, mature trees. Mature and uniform street tree settings on Linwood and Athelney Streets. Outlook toward a row of heritage listed Eucalyptus trees on Alfreda Street. Heritage listed Dunluce Castle.
	Representative Buildings	<i>[Not identified]</i>
HoBC3	<b>Glenelg East Character Area Statement (HoB-C3)</b>	
	The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	
	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	1900s to 1930s.
Allotments, subdivision and built form patterns	Medium to large sized allotments. Garden suburb street layout, centred around Da Costa Park in the area south of the tramway, and Sandison reserve north of the tramway. Original subdivisions of Helmsdale, Grovne and Dunleath. Predominantly large allotment sizes and frontages south of the tramway, larger allotment sizes and frontages north of the tramway. Large front setbacks. Small side setbacks on one side, smaller on the other.	
Architectural styles, detailing and built form features	Federation style dwellings. Inter-War style dwellings including: Tudor Revival, Californian bungalow, Art Deco, Some Spanish mission. Some Post-War Austerity and Conventional style dwellings. Rectilinear plan forms. High degree of modulation and articulation. Low scale. Steep roof pitches in the order of 25 to 35 degrees. Short roof spans. Hip and gable roof forms. Deep verandahs and porches. Fine-grain detail in elements such as plinths, string courses, projecting sills. High solid to void ratio. Vertical proportions in windows and doors. Garages, carports and outbuildings are low in scale and generally located unobtrusively to the rear of dwellings or to the side, well set back from the front facade.	
Building height	Single storey.	
Materials	Consistent with the materials used in the 1920s to 1930s period. Corrugated iron or terracotta tile roofing. Brick, sandstone, and stucco and part-rendered finishes. Roofing, facades and fenestration in natural red brick and terracotta colouration. Timber joinery including fascia, barges, window frames, door frames and doors. Timber strapping on Inter-War dwelling gables.	

Statement#	Statement	
	Fencing	<p>Fencing associated with the era and style of the building, and providing views to the building.</p> <p>Woven wire. Low masonry with geometric steel. Low masonry (stepped). Cyclone wire and steel or timber frame.</p> <p>Brush fencing up to 1.4m in height with either rolled or metal capping.</p>
	Setting, landscaping, streetscape and public realm features	<p>Centred around Da Costa Park historic area, and its associated built form and open space.</p> <p>Glenelg Tramway and linear reserve between Maxwell and Dunbar Terraces.</p> <p>Norfolk Island pines and other mature street trees throughout.</p>
	Representative Buildings	<i>[Not identified]</i>
HoBC4	<p><b>Glenelg Character Area Statement (HoB-C4)</b></p>	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	<p>1840s - 1930s.</p> <p>Earliest period of settlement of South Australia.</p> <p>Subdivision in 1839 by Light Finnis and Co.</p> <p>Growth period in 1920s associated with increase in holidaymaking and leisure pursuits.</p>
	Allotments, subdivision and built form patterns	<p>Uniform street layout, an extension of the original Glenelg Village set out in 1839 by Colonel William Light.</p> <p>Rear laneways to service dwellings on Gordon and Rose Streets, and buildings on Brighton Road.</p> <p>Range allotment sizes.</p> <p>Medium to very large frontages.</p> <p>Small setbacks.</p> <p>Side setbacks provide visual spacing between dwellings.</p> <p>Consistency of setbacks in streetscapes.</p>
	Architectural styles, detailing and built form features	<p>Early symmetrical and asymmetrical cottages of low scale and simple form with restrained detailing.</p> <p>Mid-Victorian Period cottages and villas (symmetrical and asymmetrical), semi-detached cottages and row dwellings with detailing typical of the era including verandahs, cast iron lacework, hipped and gable roof forms, plaster and render mouldings.</p> <p>Inter-War buildings, mostly Bungalows.</p> <p>Low scale to medium, relatively small dimensions and basic building details.</p> <p>Many dwellings without vehicle garaging.</p> <p>Garages, carports and outbuildings, where they exist, are low in scale and simple in form. They are located unobtrusively, to the rear of dwellings or the principal building on the site or, alternatively to the side and well-setback from the front façade.</p> <p>Rectilinear plan forms.</p> <p>High degree of modulation and articulation.</p> <p>Low scale.</p> <p>Steep roof pitches in the order of 30 to 40 degrees (slightly lower on Inter-War buildings).</p> <p>Short roof spans.</p> <p>Hip and gable roof forms.</p> <p>Concave, bullnose and straight-pitched verandahs.</p> <p>Fine-grain detail in elements such as plinths, string courses, projecting sills.</p> <p>High solid to void ratio.</p> <p>Vertical proportions in windows and doors.</p> <p>Garages, carports and outbuildings are low in scale and generally located unobtrusively to the rear of dwellings or to the side, well set back from the front facade.</p>
Building height	Predominantly single storey but some two storey.	
Materials	Consistent with the materials used in the 1840s to 1930s period. Bluestone or sandstone walls (unpainted).	

Statement#	Statement	
		Some brick. Brick or rendered quoin work and plinths. Corrugated iron roofing. Timber joinery including verandah posts and framing, fascia, barges, window frames, door frames and doors.
	Fencing	Fencing associated with the era and style of the building, and providing views to the building. Timber picket, timber dowel, timber paling. Hedging. Low masonry plinth with cast iron or wrought iron in a traditional arrangement. Woven wire or low masonry with or without geometric steel for Inter-war buildings. Cyclone wire and steel or timber frame.
	Setting, landscaping, streetscape and public realm features	Clearly defined setbacks and uniform front landscaping.
	Representative Buildings	<i>[Not identified]</i>

**Glennelg North (West of Tapleys Hill Road) Character Area Statement (HoB-C5)**

The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.

The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.

Eras, themes and context	1850s to 1920s.
Allotments, subdivision and built form patterns	Rectangular allotment shapes in varying sizes. Some allotments have been amalgamated to make way for residential flat buildings and units. Mix of front setback patterns, with older dwellings having small front setbacks, and later dwellings set further back from the street. Generally small front setbacks. Side setbacks provide visual spacing between dwellings.
Architectural styles, detailing and built form features	Small scale, simplified building forms. Single storey detached and semi-detached villas. Single storey detached cottages. Early symmetrical and asymmetrical cottages of low scale and simple form with restrained detailing. Mid-Victorian Period cottages and villas (symmetrical and asymmetrical), semi-detached cottages and row dwellings with detailing typical of the era including verandahs, cast iron lacework, hipped and gable roof forms, plaster and render mouldings. Some Inter-War buildings, mostly Tudor style. Many dwellings without vehicle garaging. Garages, carports and outbuildings, where they exist, are low in scale and simple in form. They are located unobtrusively, to the rear of dwellings or the principal building on the site or, alternatively to the side and well-setback from the front façade. Rectilinear plan forms. High degree of modulation and articulation. Low scale. Steep roof pitches in the order of 30 to 40 degrees (slightly lower on Inter-War buildings). Short roof spans. Hip and gable roof forms. Concave, bullnose and straight-pitched verandahs. Fine-grain detail in elements such as plinths, string courses, projecting sills. High solid to void ratio. Vertical proportions in windows and doors.

HoBC5

Statement#	Statement	
	Building height	Predominantly single storey but some two storey.
	Materials	Consistent with the materials used in the 1840s to 1920s period. Bluestone or sandstone walls. Corrugated iron roofing. Timber joinery including verandah posts and framing, fascia, barges, window frames, door frames and doors.
	Fencing	Fencing associated with the era and style of the building, and providing views to the building. Timber picket, timber dowel, timber paling. Hedging. Low masonry plinth with cast iron or wrought iron in a traditional arrangement. Woven wire or low masonry with or without geometric steel for Inter-war buildings.
	Setting, landscaping, streetscape and public realm features	Small suburban feel, within proximity to the open spaces of the Patawalonga Reserve. Strong sense of uniformity of buildings in some areas.
	Representative Buildings	<i>[Not identified]</i>

**Gleneig North (East of Tapleys Hill Road) Character Area Statement (HoB-C6)**

The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.

The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.

Eras, themes and context	1880s to 1920s.
Allotments, subdivision and built form patterns	Orderly subdivision pattern. Originally subdivided in 1841. Range of allotment sizes with wide frontages. Smaller allotment sizes with rear laneways between Alison and Bagshaw Streets. Medium front setbacks. Side setbacks provide visual spacing between dwellings.
Architectural styles, detailing and built form features	Larger scale single storey detached dwellings. Bungalow style dwellings with large front and side boundary setbacks. Examples of smaller scale dwellings between Alison and Bagshaw Streets. Early symmetrical and asymmetrical cottages of low scale and simple form with restrained detailing. Mid-Victorian Period cottages and villas (symmetrical and asymmetrical), semi-detached cottages and row dwellings with detailing typical of the era including verandahs, cast iron lacework, hipped and gable roof forms, plaster and render mouldings. Some Inter-War buildings, mostly Tudor style. Many dwellings without vehicle garaging. Rectilinear plan forms. High degree of modulation and articulation. Low scale. Steep roof pitches in the order of 30 to 40 degrees (slightly lower on Inter-War buildings). Short roof spans. Hip and gable roof forms. Concave, bullnose and straight-pitched verandahs. Fine-grain detail in elements such as plinths, string courses, projecting sills. High solid to void ratio. Vertical proportions in windows and doors. Garages, carports and outbuildings, where they exist, are low in scale and simple in form. They are located unobtrusively, to the rear of dwellings or the principal building on the site or, alternatively to the side and well-setback from the front façade.
Building height	Predominantly single storey but some two storey.
Materials	Consistent with the materials used in the 1840s to 1920s period.

HoBC6

Statement#	Statement
	Sandstone and red brick facades. Corrugated iron roofing. Timber joinery including verandah posts and framing, fascia, barges, window frames, door frames and doors.
Fencing	Fencing associated with the era and style of the building, and providing views to the building. Timber picket, timber dowel, timber paling. Hedging. Low masonry plinth with cast iron or wrought iron in a traditional arrangement. Woven wire or low masonry with or without geometric steel for Inter-war buildings.
Setting, landscaping, streetscape and public realm features	Combination of wide, open streetscapes, and more relatively narrow laneways. Frontages on MacFarlane and Bagshaw Streets facing the Old Gum Tree Reserve. St Leonard's Primary School is a significant presence to the locality.
Representative Buildings	<i>[Not identified]</i>

**Character Areas affecting City of Marion**

MarC1	<b>Edwardstown, Glandore, Glengowrie and Plympton Park Character Area Statement (Mar-C1)</b>	
	The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	
	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	1920s to 1950.
	Allotments, subdivision and built form patterns	Conventional grid type pattern of streets. Large allotments. Predominantly detached dwellings. Some examples of semi-detached dwellings in Glandore and Glengowrie.
	Architectural styles, detailing and built form features	Single storey detached dwellings. Occasional single storey semi-detached dwellings. Mixture of Bungalow, Art Deco, Spanish Mission, Tudor. Articulated roof forms (gable, Dutch gable, hips). Chimneys, projecting front verandahs, porches, porticos. Garages and carports located behind main face of dwelling.
	Building height	Single storey. 2nd storey in roofline.
	Materials	Timber frame windows. External walls constructed of mixture of red brick, painted brick, stone and rendered masonry. Roofing - galvanised iron/replaced with colorbond, terracotta tiles.
	Fencing	Low height - rendered masonry, timber picket, post and wire, tubular.
Setting, landscaping, streetscape and public realm features	Tree lined streets. Well maintained traditional gardens. Mature vegetation in private properties. Low scale dwellings. Housing well setback from street.

**Character Areas affecting City of Mitcham**

	<p><b>Plains Character Area Statement (Mit-C1)</b></p>
--	--------------------------------------------------------

Statement#	Statement	
MitC1	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	<p>Mix of pre-war, inter-war and post-war housing of a low density detached nature comprising symmetrical cottages, villas, bungalows, Tudor, art deco and austerity.</p>
	Allotments, subdivision and built form patterns	<p>Established traditional grid neighbourhoods, with a high presence of pre-1940s housing stock.</p> <p>Consistent allotment pattern, frontage widths and setbacks of buildings to streets and to each other creating a strong rhythm and pattern of development. Consistent pattern of side setbacks, which are generally larger on one side of allotments.</p> <p>Low site coverage supporting strong landscaped settings and space that frame and give context to dwelling forms.</p> <p>Absence of row dwellings and residential flat buildings.</p>
	Architectural styles, detailing and built form features	<p>Single storey detached dwellings at low densities with regular large front and side setbacks.</p> <p>Intact pattern of setbacks and spacings between buildings.</p> <p>Prominence of gables and verandahs which are reflective of the building types in these areas. The use of parapets to front facades are a rarely visible built form element in the area's established streetscape character.</p> <p>Roof forms consist of gabled, hipped and Dutch gable at pitches that reflect the prevailing building size, style and era.</p> <p>High solid to void ratios within building facades.</p> <p>Garaging is a minor built form element and subordinate to the principal dwelling form when viewed from the streetscape.</p> <p>Garaging is in the form of single garages situated to the side of dwellings, setback behind the front building line and comprising wall heights and roof forms that are lower than the associated dwelling.</p>
	Building height	<p>Single storey appearance with second storeys typically not visible from the street and characteristically integrated within the roof form or behind roof ridges.</p>
	Materials	<p>Building materials consist of traditional housing materials such as brick, stone and rendered masonry finishes to walls and tile or corrugated metal roofs.</p> <p>Dwelling facades display a range of materiality and finishes producing a richness of textures and colour schemes.</p>
	Fencing	<p>Low and open fencing styles consisting of timber picket, post and wire, low stone or brick structures or hedges.</p> <p>Limited use of high solid fencing except along railway or arterial road alignments.</p>
	Setting, landscaping, streetscape and public realm features	<p>Important contribution of front yards, landscaping and street trees to overall character of the area.</p> <p>Front yards are generously landscaped spaces with a high proportion of vegetation to paved surfaces.</p> <p>Driveways are aligned to side boundaries and are of single width.</p> <p>Existing street trees and road verges form important streetscape features that contribute to the public realm appearance producing a pattern of plantings protected by isolating driveway entranceway and crossover locations.</p>
	Representative Buildings	<p style="text-align: center;"><i>[Not identified]</i></p>

<p><b>Springfield Character Area Statement (Mit-C2)</b></p>	
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
Eras, themes and context	<p>1930s to present.</p> <p>Pre and post war housing stock as well as contemporary housing styles.</p> <p>Sense of grandeur and spaciousness.</p>
Allotments, subdivision and built form patterns	<p>Intact original subdivision pattern.</p> <p>Winding road network that follows land form and results in irregular shaped allotments.</p> <p>Detached dwellings on very large allotments and very wide frontages which contribute to sense of spaciousness and scale.</p> <p>Absence of row dwellings and residential flat buildings.</p> <p>Buildings are set back very large distances from street frontages and side boundaries. Consistent pattern of side setbacks.</p>

Statement#	Statement	
MitC2		<p>which are generally larger on one side of allotments.</p> <p>Low site coverage of buildings across large sites.</p> <p>Strong landscape setting for buildings, particularly in front yards and between buildings, contributes to sense of grandeur.</p>
	Architectural styles, detailing and built form features	<p>Eclectic mix of housing stock, styles and architectural features.</p> <p>High quality materials, finishes and detailing associated with grand homes and mansions.</p> <p>Increasing gradient of slopes to the east of the Area promotes split level designs and undercroft garaging formats.</p>
	Building height	Predominantly buildings of up to two storeys, with three storeys where cut into sloping sites (incorporating undercroft garaging).
	Materials	<p>Brick, stone, rendered masonry finishes to walls.</p> <p>Tiles or metal roofing.</p> <p>High solid to void ratio to facades.</p> <p>Visible retaining walls typically stone or rendered in material.</p>
	Fencing	<p>Diversity of fencing treatments and styles.</p> <p>Solid fencing above 1 metre and walls screened with dense landscaping along the street frontage.</p>
	Setting, landscaping, streetscape and public realm features	<p>A mixture of mature Eucalypt and exotic street trees provide an overall visual coherence to the public realm.</p> <p>Retaining walls to street frontages on high side of street, with raised front gardens above.</p> <p>Formal garden settings with mature trees are an important element in established character.</p>
	Representative Buildings	<i>[Not identified]</i>

<p><b>Hills Character Area Statement (Mit-C3)</b></p>		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>		
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>		
<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
MitC3	Eras, themes and context	Low density spacious setting with detached dwellings on large sites within natural vegetated settings with very few other housing types.
	Allotments, subdivision and built form patterns	<p>Variations in land forms, including some steeply sloping locations, produce curvilinear road patterns and irregular shaped allotments in terms of size and frontage widths.</p> <p>Land slope leads to a variety of front setbacks and informs dwelling orientation and height relative to the street. Side setbacks are generally larger on one side of allotments.</p> <p>Simple housing forms of a single and two storey nature (including spilt level) that respond to land form.</p> <p>Garaging typically to side of dwelling or as an undercroft structure. Garaging is only forward of dwellings on steeply sloping sites and is in the form of standalone simple open structures.</p> <p>Row dwellings, group dwellings and residential flat buildings are not representative of the predominant built form in the area.</p>
	Architectural styles, detailing and built form features	<p>The area's built form exhibits a sense of spaciousness due to limited site coverage and generous front and side setbacks.</p> <p>Development responds to land form and does so in a way that blends with landscape character by minimising cut and fill and vegetation clearance.</p> <p>Where visible to the street, large differences in levels between dwellings and roadways are battered and landscaped.</p> <p>Where parking structures are forward of building lines, they are of an open form and low roof profile.</p>
	Building height	<p>Low profile roof forms and pitches reflect the land form are a common feature.</p> <p>One and two storeys typically responding to the land form.</p>
	Materials	<p>Building materials, colours and finishes assist in blending and receding buildings into the natural landscape character rather than openly contrasting and drawing attention to buildings.</p> <p>Predominantly darker subdued natural earthy tones for wall and roof materials. Lighter or paler colour complement the surrounding landscape in their tone.</p> <p>Highly reflective and bright, vivid colour finishes to walls and roof materials, such as stark white or similar are rarely found in the area.</p>

Statement#	Statement	
	Fencing	<p>No presence of front fencing forward of the building line is a characteristic of the area, and in limited cases where front fencing is present, it is low or open in nature.</p> <p>The area features retaining walls that are mostly screened or are natural in form using mainly stone or natural rock, with walls being low in height, terraced and set well back from boundaries and providing landscaped space.</p> <p>High concrete sleeper walls are not a part of the built form streetscape.</p>
	Setting, landscaping, streetscape and public realm features	<p>Strong landscape character attributes derive from extensive retention of native vegetation on sites, between buildings and within informal road verges. The presence of vegetation on sites, is a defining feature of the area.</p> <p>Streets retain an open, often spacious setting characterised by spaces between buildings which contain landscaping.</p> <p>Driveways on sloping sites meander within front yards of dwellings, with minimal cut and fill of the land surface, and feature landscaping on their edges.</p>
	Representative Buildings	<i>[Not identified]</i>

**Character Areas affecting City of Norwood, Payneham and St Peters**

<b>Evandale/Maylands/Stepney Character Area Statement (NPSP-C1)</b>		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>		
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>		
<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
NPSPC1	Eras, themes and context	<p>Pre-1940.</p> <p>Primarily low-scale and low density residential. Detached (including battleaxe in Maylands, Evandale and Payneham), semi-detached and group dwellings.</p>
	Allotments, subdivision and built form patterns	<p>Original, pre-1940s land division patterns.</p> <p>Setbacks from boundaries creating space between dwellings.</p>
	Architectural styles, detailing and built form features	<p>Traditional pre-1940s roof forms, eaves, front verandah treatments, window proportions.</p> <p>Semi-detached dwellings often presenting as single dwellings.</p>
	Building height	<p>Single storey, with some two storey to the rear of buildings (with single storey appearance to primary street frontage).</p>
	Materials	<p>Varied, traditional materials.</p>
	Fencing	<p>Low, open-style fencing that allows connectivity to the street.</p> <p>Front fencing and side fencing (between the front of a dwelling and the street) and landscaping are important components of streetscape character.</p> <p>Some more solid forms of fencing along arterial roads.</p>
	Setting, landscaping, streetscape and public realm features	<p>Vehicle garaging, driveways and front fences are not dominant streetscape elements.</p> <p>In most areas mature street tree plantings provide an overall visual coherence to the streets.</p> <p>Soft front landscaping, including trees.</p> <p>Some limited advertising and signage which complements scale and architecture of associated buildings.</p>
	Representative Buildings	<i>[Not identified]</i>

<b>Hackney Character Area Statement (NPSP-C2)</b>		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>		
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>		
<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
NPSPC1	Eras, themes and context	<p>Pre- 1940.</p> <p>Primarily low-scale and low density residential. Detached, semi-detached, group and row dwellings. Residential flat buildings.</p>
	Allotments, subdivision and built form patterns	<p>Original, pre-1940s land division patterns.</p> <p>Small areas of Hackney located along the southern side of Richmond Street and between Hackney Road and St Peters College. Existing development comprises a mix of compact and large allotments with a number of Local Heritage Places, pre-1940s dwellings and multi-unit sites.</p>
	Architectural styles, detailing and built form	<p>Traditional pre-1940s roof forms, eaves, front verandah treatments, window proportions.</p>

Statement#	Statement	
NPSPC2	features	Semi-detached dwellings often presenting as single dwellings.
	Building height	Two storey along Hackney Road.  In other locations, single storey, with some two storey to the rear of buildings (with single storey appearance to primary street frontage).
	Materials	Varied, traditional materials.
	Fencing	Low, open-style fencing that allows connectivity to the street.  Front fencing and side fencing (between the front of a dwelling and the street) and landscaping are important components of streetscape character.  Some more solid forms of fencing along arterial roads.
	Setting, landscaping, streetscape and public realm features	Vehicle garaging, driveways and front fences are not dominant streetscape elements.  In most areas mature street tree plantings provide an overall visual coherence to the streets.  Soft front landscaping, including trees.  Some limited advertising and signage which complements scale and architecture of associated buildings.
	Representative Buildings	<i>[Not identified]</i>

<b>Heathpool/Marryatville Character Area Statement (NPSP-C3)</b>		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>		
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>		
<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
NPSPC3	Eras, themes and context	Pre-1940.  Primarily low-scale and low density residential. Detached (including battleaxe in Marryatville east and west of Clapton Road), semi-detached and group dwellings. Residential flat buildings in Marryatville east and west of Clapton Road.
	Allotments, subdivision and built form patterns	Original, pre-1940s land division patterns.
	Architectural styles, detailing and built form features	Traditional pre-1940s roof forms, eaves, front verandah treatments, window proportions.  Semi-detached dwellings often presenting as single dwellings.
	Building height	Single storey, with some two storey to the rear of buildings (with single storey appearance to primary street frontage).
	Materials	Varied, traditional materials.
	Fencing	Low, open-style fencing that allows connectivity to the street.  Front fencing and side fencing (between the front of a dwelling and the street) and landscaping are important components of streetscape character.  Some more solid forms of fencing along arterial roads.
	Setting, landscaping, streetscape and public realm features	Vehicle garaging, driveways and front fences are not dominant streetscape elements.  In most areas mature street tree plantings provide an overall visual coherence to the streets.  Soft front landscaping, including trees.  Some limited advertising and signage which complements scale and architecture of associated buildings.
	Representative Buildings	<i>[Not identified]</i>

<b>St Peters/Joslin/Royston Park Character Area Statement (NPSP-C4)</b>		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>		
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>		
<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
	Eras, themes and context	Pre-1940.  Primarily low-scale and low density residential. Detached dwellings. Semi-detached dwellings in St Peters and College Park.
	Allotments, subdivision and built form patterns	Original, pre-1940s land division patterns.
	Architectural styles, detailing and built form	Traditional pre-1940s roof forms, eaves, front verandah treatments, window proportions.

Statement#	Statement	
NPSPC4	features	Semi-detached dwellings often presenting as single dwellings.
	Building height	Single storey, with some two storey to the rear of buildings (with single storey appearance to primary street frontage).
	Materials	Varied, traditional materials.
	Fencing	Low, open-style fencing that allows connectivity to the street.  Front fencing and side fencing (between the front of a dwelling and the street) and landscaping are important components of streetscape character.  Some more solid forms of fencing along arterial roads.
	Setting, landscaping, streetscape and public realm features	Vehicle garaging, driveways and front fences are not dominant streetscape elements.  In most areas mature street tree plantings provide an overall visual coherence to the streets.  Soft front landscaping, including trees.  Some limited advertising and signage which complements scale and architecture of associated buildings.
	Representative Buildings	<i>[Not identified]</i>

<b>Trinity Gardens/St Morris Character Area Statement (NPSP-C5)</b>		
The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.		
These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.		
The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.		
NPSPC5	Eras, themes and context	Pre-1940.  Primarily low-scale and low density residential. Detached (including battleaxe in some locations), semi-detached dwellings. Group dwellings in St Morris.
	Allotments, subdivision and built form patterns	Original, pre-1940s land division patterns.
	Architectural styles, detailing and built form features	Traditional pre-1940s roof forms, eaves, front verandah treatments, window proportions.  Semi-detached dwellings often presenting as single dwellings.
	Building height	Single storey.
	Materials	Varied, traditional materials.
	Fencing	Low, open-style fencing that allows connectivity to the street.  Front fencing and side fencing (between the front of a dwelling and the street) and landscaping are important components of streetscape character.  Some more solid forms of fencing along arterial roads.
	Setting, landscaping, streetscape and public realm features	Vehicle garaging, driveways and front fences are not dominant streetscape elements.  In most areas mature street tree plantings provide an overall visual coherence to the streets.  Soft front landscaping, including trees.  Some limited advertising and signage which complements scale and architecture of associated buildings.

<b>Residential Character (Norwood) Area Statement (NPSP-C6)</b>		
The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.		
These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.		
The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.		
	Eras, themes and context	Residential. Detached (including battleaxe), semi-detached, row and group dwellings. Residential flat buildings.  Although the built form character throughout Norwood is relatively varied, there remains a strong theme associated with the original built form, which includes a significant number of Local Heritage Places and buildings constructed before 1940.
	Allotments, subdivision and built form patterns	Rectilinear pattern of wide tree-lined major streets, intersected by narrow minor streets, with various eras of development overlaid. Broad mix of allotment sizes and a diversity of residential accommodation options.  The regular street grid pattern and the high level of vegetation, including mature street trees and landscaped gardens, are elements that assist in unifying the various eras of built form development in Norwood.

Statement#	Statement	
NPSPC6	Architectural styles, detailing and built form features	<p>Traditional pre-1940s roof forms, eaves, front verandah treatments, window proportions.</p> <p>A mix of housing styles, including workers cottages, bungalows and villas and a variety of post war dwellings, including walk-up flats, townhouses and a range of contemporary detached, attached and group housing styles. This has, over the years, established a broad mix of allotment sizes and provided a diversity of residential accommodation options, including affordable housing.</p> <p>Some undercroft or underground garages along western side of Osmond Terrace.</p> <p>Semi-detached dwellings often presenting as single dwellings.</p>
	Building height	Generally single storey streetscape appearance.
	Materials	Varied, traditional materials.
	Fencing	<p>Low, open-style fencing that allows connectivity to the street.</p> <p>Front fencing and side fencing (between the front of a dwelling and the street) and landscaping are important components of streetscape character.</p> <p>Some more solid forms of fencing along arterial roads.</p>
	Setting, landscaping, streetscape and public realm features	<p>Distinct rectilinear pattern of wide tree-lined major streets, intersected by narrow minor streets.</p> <p>Some limited advertising and signage which complements scale and architecture of associated buildings.</p>
	Representative Buildings	<i>[Not identified]</i>

**Character Areas affecting City of Playford**

PlayC1	<p><b>Elizabeth South Character Area Statement (Play-C1)</b></p>	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>	
	<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	Late 1950s to early 1960s.
	Allotments, subdivision and built form patterns	<p>First stage of the post war planned Garden City north of Adelaide.</p> <p>Layout and land division pattern involving irregular allotment shapes and curvilinear street pattern, typical of the planning and construction of Trust development in the late 1950s and early 1960s.</p> <p>Large proportion of open space as parks and gardens.</p> <p>Parks and mature trees in the landscape road reserve make a significant contribution to the character and amenity of the area.</p> <p>Rectangular allotment shapes in varying sizes. Some allotments have been amalgamated to make way for residential flat buildings and units. Generally large front setbacks. Side setbacks provide visual spacing between dwellings.</p>
	Architectural styles, detailing and built form features	<p>Small scale, simplified building forms consistent with South Australian Housing Trust development of the late 1950s early 1960s.</p> <p>Single storey semi-detached and detached buildings. Dwellings being of brick and concrete block construction with varying stylistic treatments. Many dwellings without vehicle garaging.</p> <p>Garages, carports and outbuildings, where they exist, are low in scale and simple in form. Rectilinear plan forms. Low scale. Hipped roof forms.</p>
	Building heights	Predominantly single storey.
	Materials	Consistent with the materials used in the late 1950s to early 1960s period. Brick or rendered finishes. Corrugated iron roofing. Consistent, original windows dimensions facing the street. Main entrance incorporated into front elevation.
Fencing	Where fencing exists, it is predominantly in the form of low style open fencing along the primary road frontage. Corrugated iron fencing evident to side and rear boundaries.	
Setting, landscaping, streetscape and public realm features	<p>Low scale suburban feel, within proximity to the open spaces.</p> <p>Strong sense of uniformity of buildings.</p>	
Representative Buildings	<i>[Not identified]</i>	

**Character Areas affecting City of Port Adelaide Enfield**

	<p><b>Enfield Character Area Statement (PAde-C1)</b></p>
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>

Statement#	Statement	
PAdEC1	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	1900s - 1950s built development.
	Allotments, subdivision and built form patterns	"Garden suburb' street pattern and modified grid. Generous allotment sizes with wide frontages and substantial rear gardens. Consistent front setbacks.
	Architectural styles, detailing and built form features	<p>The area is large and features a wide variety of housing styles including bungalows, villas, Tudors, art deco, inter-war, cottages and mansions generally built before the 1940s.</p> <p>There is also a significant stock of quality dwellings built between 1940 and 1950 that augment the pre 1940s dwellings and make an important contribution to the character of the area.</p> <p>There is a notable concentration of bungalows in the western portion of the area and this style is a defining feature in this part of the area.</p>
	Building height	Single storey.
	Materials	Materials consistent with the style of building and era of its original construction.
	Fencing	<p>Low and/or open consistent with the style and era of construction of the building it is associated with.</p> <p>Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms.</p> <p>Fences associated with houses from the 1920s including capped timber palings, post and wire or woven wire fences.</p>
	Setting, landscaping, streetscape and public realm features	<p>The 1920s street pattern in this area is distinctive and reflects the garden suburb approach to town planning and subdivision.</p> <p>It results in wide nature strips and reserves that together with mature, well landscaped gardens create road verges which contribute to an open and high quality residential character.</p>
	Representative Buildings	<i>[Not identified]</i>

PAdEC2	<b>Glanville (East of Carlisle) Character Area Statement (PAdE-C2)</b>	
	The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	
	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	1860s - 1920s built development.
	Allotments, subdivision and built form patterns	The allotment pattern is shaped to accommodate the alignments of Carlisle Street and Causeway Road. Small allotment sizes with narrow frontages. Dwellings are built close to streets.
	Architectural styles, detailing and built form features	Housing styles include cottages, villas, inter-war and bungalows with cottages being the predominant and key defining feature in the area.
	Building height	Single storey.
	Materials	Materials consistent with the style of building and era of its original construction.
Fencing	<p>Low and/or open consistent with the style and era of construction of the building it is associated with.</p> <p>Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms. Fences associated with houses from the 1920s including capped timber palings, post and wire or woven wire fences.</p>	
Setting, landscaping, streetscape and public realm features	<p>The area is nestled in to the north west of the Jervis Street bridge and contains many old workers' cottages. These are particularly prevalent in the area bound by Sutherland Street, Connor Street, Hart Street and Carlisle Street.</p> <p>The area's simple low rise housing is strongly counterpointed by the modern, multi -storey Port Adelaide waterfront development to the east of the Outer Harbour rail line and provides an important representation of the early settlement and historical development of Port Adelaide.</p>	
Representative Buildings	<i>[Not identified]</i>	

	<b>Largs / Largs North Character Area Statement (PAdE-C3)</b>	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
Eras, themes and	1900s - 1960s built development.	

Statement#	Statement	
PADEC3	context	
	Allotments, subdivision and built form patterns	<p>Grid pattern with predominately east-west running streets with the long axes of allotments running north-south. Allotments fronting Lady Gowrie Drive and Military Road configured with their long axes running east-west so that buildings address these roads. A high degree of consistency in front setbacks.</p> <p>Regular and generous rectangular allotments with wide frontages.</p>
	Architectural styles, detailing and built form features	<p>Wide range of housing styles including bungalows, villas, inter-war, Tudors, cottages and art deco. There is a strong concentration of pre 1940s built form.</p>
	Building height	<p>Predominately single storey but some two storey along parts of the Lady Gowrie Drive frontage.</p>
	Materials	<p>Materials consistent with the style of building and era of its original construction.</p>
	Fencing	<p>Low and/or open consistent with the style and era of construction of the building it is associated with.</p> <p>Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms. Fences associated with houses from the 1920s including capped timber palings, post and wire or woven wire fences.</p> <p>Original hedges retained, restored and where appropriate, extended, (utilizing the same species of planting currently in existence) as an alternative to constructed fences.</p>
	Setting, landscaping, streetscape and public realm features	<p>The southern boundary of this area adjoins the Semaphore/Largs Historic Area. It abuts the coast and contains a significant number of dwellings built during the period from 1915-1940.</p> <p>It has a strong relationship with the coast and features tree lined streets with footpaths on both sides that provide vistas and ready walking access to the foreshore and beach.</p> <p>Wide allotment frontages with generous spacing between driveways make a significant contribution to the walkability of these footpaths and the character of the area.</p> <p>An imposing stand of Norfolk Island pines along Lady Gowrie Drive is a key feature of the area.</p>
	Representative Buildings	<p style="text-align: center;"><i>[Not identified]</i></p>

PADEC4	<p><b>Rosewater Character Area Statement (PADE-C4)</b></p>	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>	
	<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	<p>1900s - 1940s built development.</p>
	Allotments, subdivision and built form patterns	<p>Grid pattern distorted by the alignment of Newcastle Street. Small allotments with narrow frontages. Front setbacks are consistent on a street by street basis.</p>
	Architectural styles, detailing and built form features	<p>A variety of housing styles but cottages, villas and bungalows are the principle styles.</p>
	Building height	<p>Single storey.</p>
Materials	<p>Materials of existing buildings retained where practicable and missing elements reinstated consistent with the style of building and era of its original construction.</p>	
Fencing	<p>Low and/or open consistent with the style and era of construction of the building it is associated with. Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms. Fences associated with houses from the 1920s including capped timber palings, post and wire or woven wire fences.</p>	
Setting, landscaping, streetscape and public realm features	<p>Newcastle Street is a well landscaped road that provides the main access into this area. It features well established avenue tree planting that includes plane trees and jacarandas. Simple, single storey, historic detached dwellings built on allotments with consistent widths laid out in a grid pattern, and the adjacent Mt Carmel school and the reserve to the north west, combine to establish a country town like character.</p>	
Representative Buildings	<p style="text-align: center;"><i>[Not identified]</i></p>	

**Character Areas affecting City of Prospect**

	<p><b>Suburban Neighbourhood 1 Character Area Statement (Pr-C1)</b></p> <p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>
--	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Statement#	Statement	
PrC1	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	Late 19th and Early 20th centuries residential. Limited post-1950s residential. Very low density and primarily detached dwellings.
	Allotments, subdivision and built form patterns	Original land division patterns following grid type street pattern and displaying rectangular, rectilinear allotments. Spacious allotments. Large allotment frontages. Large front setbacks. Street facing front dwelling facades. Large spaces around and between dwellings including generous and asymmetrical (one side larger than the other) side setbacks between dwellings. Typically two storey dwellings display consistent side boundary setbacks between building levels.
	Architectural styles, detailing and built form features	Majority bungalows and villas of a significant scale.  Pitched roofs with their vertical proportion similar to wall height and typically around 25 to 49 degree pitch.  Prominent front verandahs of bull-nose or concave design.  Moderate front façade detailing and articulation (wall off-sets, verandahs and deep eaves) with walls with a solid to void ratio of greater than 1:1 and fenestrations showing a vertical prominence.
	Building height	Primarily single storey presentation to the street with two storey components sited behind.  1 to 2 storey dwellings with vertical proportions consistent with traditional dwellings (wall height at least 3 metres and no more than 3.6 metres for single storey and up to 7 metres for two storeys.  Large scale buildings in context with large to very large allotments and frontages.
	Materials	Stone, brick and rendered finishes.  Detailing around doors, windows, wall edges and gables.  Limited colour palette for the majority of building façade (sandstone to reds; bluestone and grey tones) with colour highlights in the detailing.
	Fencing	Front fences forward of the building are of an open style and low in height (to 1.2 metres high). Fencing style associated with dwelling style and era of development. Some more solid fencing of standard height along major roads.
	Setting, landscaping, streetscape and public realm features	Leafy public realm that visually dominates or supports the built form.  Extensively landscaped front yards with mature vegetation/tree canopy. Minimal hard and artificial surfaces. Mature vegetation in public realm. Garages and carports are designed and sited to be subordinate to the main dwelling. Access points are narrow and consolidated.
Representative Buildings	<i>[Not identified]</i>	

<b>Suburban Neighbourhood 2 Character Area Statement (Pr-C2)</b>		
The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.		
These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.		
The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.		
PrC2	Eras, themes and context	Late 19th and Early 20th centuries residential. Limited post-1950s infill residential. Primarily low density and low scale residential, including detached, semi-detached and row dwellings.
	Allotments, subdivision and built form patterns	Original land division patterns following grid type street pattern and displaying rectangular, rectilinear allotments. Large allotments. Large allotment frontages. Large front setbacks along with reasonable side setbacks. Street facing front dwelling facades.  Moderate spaces around dwellings including asymmetrical (one side larger than the other) side setbacks between dwellings. Typically two storey dwellings to display consistent side boundary setbacks between building levels.
	Architectural styles, detailing and built form features	Mainly single storey detached bungalows, cottages and villas.  Pitched roofs with the vertical proportion similar to wall height and typically around 25 to 49 degree pitch.  Front verandahs (with bull-nose or concave design) with façade detailing and moderate articulation. Moderate front façade detailing and articulation (wall off-sets, verandahs and deep eaves) with walls with a solid to void ratio of greater than 1:1 and fenestrations showing a vertical prominence.
	Building height	Primarily single storey presentation to the street with any two storey components sited behind.  Predominantly 1 storey dwellings with vertical proportions consistent with traditional dwellings at least 3 metres and no more than 3.6 metres in wall height for single storey and up to 7 metres for two storeys.  Moderate scale in context with low rise development, allotment size and frontages.
	Materials	Stone, brick and rendered finishes.  Detailing around doors, windows, wall edges and gables  Limited colour palette for the majority of building façade and roof areas (sandstone to reds; bluestone and grey tones) with complementary colour highlights in the detailing.
	Fencing	Front fences forward of the building are of an open style and low in height (to 1.2 metres high). Style associated with dwelling style and era of development. Some more solid fencing of standard height along major roads.

Statement#	Statement	
	Setting, landscaping, streetscape and public realm features	Leafy public realm that supports the built form. Garages and carports are designed and sited to be subordinate to the main dwelling. Access points are narrow and consolidated.  Well landscaped front yards with mature vegetation/tree canopy. Minimal hard and artificial surfaces. Front and side garden landscaping. Leafy, garden suburb character and visual separation between houses.
Representative Buildings	<i>[Not identified]</i>	

<b>Suburban Neighbourhood 3 Character Area Statement (Pr-C3)</b>		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
PrC3	Eras, themes and context	Early 20th century residential. Some examples of residential infill comprising units, conventional and recent dwellings. Primarily low density and low scale residential including various dwelling types.
	Allotments, subdivision and built form patterns	Original land division patterns following grid type street pattern and displaying rectangular, rectilinear allotments. Moderate sized allotments. Moderate to compact allotment frontages. Street facing front dwelling facades.  Moderate to compact asymmetrical spaces between dwellings providing physical and visual separation between dwellings. Typically two storey dwellings to display consistent side boundary setbacks between building levels.
	Architectural styles, detailing and built form features	Many bungalows with some cottages, Tudor and art deco housing.  Pitched roofs with the vertical proportion similar to wall height and typically around 25 to 49 degree pitch.  Front verandahs with façade detailing and moderate articulation (wall off-sets, verandahs and deep eaves) walls with a solid to void ratio of greater than 1:1 and fenestrations showing a vertical prominence.
	Building height	Primarily single storey presentation to the street with two storey components sited behind.  Predominantly 1 storey dwellings with vertical proportions consistent with traditional dwellings (at least 3 metres and no more than 3.6 metres in wall height).  Moderate to compact scale in context with low rise development, allotment size and frontages.
	Materials	Stone, brick and rendered finishes and durable materials.  Detailing around doors, windows, wall edges and gables.  Limited palette for the majority of building façade and roof areas with colour highlights in the detailing (sandstone to reds; bluestone and grey tones) with complementary colour highlights in the detailing.
	Fencing	Front fences forward of the building are of an open style and low in height (to 1.2 metres high). Style associated with dwelling style and era of development. Some more solid fencing of standard height along major roads.
	Setting, landscaping, streetscape and public realm features	Leafy public realm that supports the built form.  Landscaped front yards with mature vegetation/tree canopy. Minimal hard and artificial surfaces. Leafy garden suburb character and maintaining visual separation between houses. Garages and carports are designed and sited to be subordinate to the main dwelling. Access points are narrow and consolidated.
	Representative Buildings	<i>[Not identified]</i>

**Character Area affecting District Council of Tatiara**

<b>Mundulla Character Area Statement (TatC1)</b>		
<p>The Character Area Overlays identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
TatC1	Eras, themes and context	Pre-1950.
	Allotments, subdivision and built form patterns	Original land division, large allotments. Buildings sited regularly and facing towards street frontages.
	Architectural styles, detailing and built form features	Consistent roof pitches. Unity of design and scale.
	Building height	Consistent, low scale.
	Materials	Earthen colours. Materials consistent with pre-1950s buildings.

Statement#	Statement	
	Fencing	Informal fencing.
	Setting, landscaping, streetscape and public realm features	Individual and stands of trees, stone culverts, drainage and footpath system add to character of townscape. Informal street furniture, lighting, footpaths, road surface treatments, kerbing and guttering. Surrounded by well vegetated parklands and grazing land. Uncluttered appearance. Advertisements of traditional styles and scale consistent with the era.
	Representative Buildings	[Not identified]

**Character Areas affecting City of Victor Harbor**

<b>Burke Street Character Area Statement (VIH-C1)</b>		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
VIHC1	Eras, themes and context	Consistent low scale detached dwellings, primarily constructed after World War 1 to the later part of the 19th Century (mid 1800s to 1930s). Early settlement, consolidation and growth of residential development.
	Allotments, subdivision and built form patterns	Original street layout including rear access lanes and local roads. Curvilinear street with relatively large allotments roughly perpendicular to the street, most with rear laneway access.
	Architectural styles, detailing and built form features	Mix of small mid-1800s detached cottages of early Vernacular style, symmetrical and asymmetrical cottages and villas of the mid to late 1800s with Victorian stylistic influences, early 1900s cottages and villas with Federation stylistic influences, Inter-War bungalows. Church and Hall with late Victorian Gothic stylistic influences located at the bend in the road are landmarks. Adjacent to the Church is a Manse built in the Inter-War period with Georgian Revival stylistic influences. Rectilinear plan form. Buildings are typically two or more pavilions rather than a single mass. Steeply-pitched roof forms, typically 35 to 40 degrees on 1800s and early 1900s era buildings and slightly lower on Inter-War buildings, reflecting traditional architectural styles and building methods. Short roof spans, minimising roof bulk. Concave, bullnose and straight-pitched verandahs on front and sometimes side facades reduce the bulk and scale and add visual interest. Lean-to forms are common. Fine-grain detail in elements such as plinths, string courses, projecting sills. High solid to void ratio. Vertical proportions in windows and doors.
	Building height	Single storey, low scale and simple in form.
	Materials	Limestone walls. Red brick or rendered quoin work and details. Timber joinery including window frames, door frames, doors, fascias, bargeboards and verandah posts. Corrugated iron or corrugated steel roofing. Variation in materials assists in breaking down bulk and scale and adds visual interest.
	Fencing	Low, open style construction front fencing (1.2 metres or less) associated with the traditional period and style of building, and providing views to the building. Low timber pickets, post and rails, pier and plinth masonry or wrought iron. Rear and side fencing behind building line up to 1.8 metres, corrugated iron.
	Setting, landscaping, streetscape and public realm features	Established garden settings. Varied, small front and side setbacks. Landscaped verges. Garages and carports are sited behind dwellings, accessed from rear laneways or well set back from the front of dwellings.
	Representative Buildings	[Not identified]

**Character Areas affecting Town of Walkerville**

<b>Gilberton Character Area Statement (Walk-C1)</b>		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
WalkC1	Eras, themes and context	Various eras of development that map out the developmental progress of the Walkerville Township, from the late 1870s to early 1900s.
	Allotments, subdivision and built form patterns	Predominantly low density detached dwellings on allotments that are medium in width and of a range of sizes. Some semi-detached and group dwellings on larger allotments.
	Architectural styles, detailing and built form features	The historic built form exhibits a mixture of architectural styles from the late 1800s and early 1900s. Edwardian villas alongside Victorian cottages pepper the locality providing a significant narrative that reflects the contemporaneous construction styles.
	Building height	Predominantly single storey. Two storey additions to the rear of buildings or within the roof space.
	Materials	Residences within this area vary in material application. Residences mostly constructed in locally sourced sandstone or bluestone, corrugated galvanised iron roofs and verandahs with cast iron lacework.

Statement#	Statement	
	Fencing	Original fencing with bluestone plinths and cast iron fence railings above. Low front fencing.
	Setting, landscaping, streetscape and public realm features	There is a reasonably well established pattern of development, with regular spacing between buildings, front setbacks and roof pitches. The landscape setting is an important element of the area, with generally open, well vegetated streetscapes through a combination of public and private plantings and low fencing forward each dwelling.

**Character Areas affecting City of West Torrens**

WeToC1	<b>Ashford Character Area Statement (WeTo-C1)</b>	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	1920s - 1940s
	Allotments, subdivision and built form patterns	Strong uniformity of allotment pattern. Low to very low density site areas. Wide street frontages. Medium sized detached dwellings on substantial allotments.
	Architectural styles, detailing and built form features	Predominantly Tudor and Bungalow dwellings. Articulated hip and gable roofs. Verandahs / porticos. Verandahs as continuation of main roof structure. Additions are generally located to the rear of the dwelling.
	Building height	Generally single storey. Second storey within the roof space.
	Materials	Brick. Painted brick. Stone. Rendered masonry. Corrugated pre-coloured or galvanised iron sheeting. Tiled roofs. Timber windows.
	Fencing	Low fencing facilitating views of the dwelling. Post and rail with woven wire. Low level stone or masonry. Timber picket.
	Setting, landscaping, streetscape and public realm features	Strong uniformity of layout and buildings. Carports and garages are behind the main face of dwellings. Consistent side and rear setbacks, large private yards. Generous traditional well-maintained gardens. Tree lined streets.

WeToC2	<b>Cowandilla / Mile End West Character Area Statement (WeTo-C2)</b>	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	1920s - 1940.'s
	Allotments, subdivision and built form patterns	Strong uniformity of allotment pattern. Low to very low density site areas. Narrow and deep allotments. Detached and semi-detached dwellings on substantial allotments.
	Architectural styles, detailing and built form features	Predominantly Californian and State Bank Bungalows with some examples of Spanish Mission; Dutch Colonial dwellings; Detached and semi-detached federation cottages/villas; Victorian era cottages/villas; and Early inter-war dwellings. Gable and Dutch gable roofs with hips. Verandahs / porticos. Additions are generally located to the rear of the dwelling.
	Building height	Generally single storey. Second storey generally within the roof space or otherwise designed to complement single storey character.
	Materials	Brick. Painted brick. Stone. Rendered masonry. Corrugated pre-coloured or galvanised iron sheeting. Timber windows. Brick/red brick chimneys.
	Fencing	Low fencing facilitating views of the dwelling. Post and rail with woven wire. Low level stone or masonry. Timber picket.
	Setting, landscaping, streetscape and public realm features	Strong uniformity of layout and buildings. Consistent side and rear setbacks, large private yards. Carports and garages are behind the main face of dwellings. Generous traditional well-maintained gardens. Tree lined streets.

In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>
	Eras, themes and context
Allotments, subdivision and built form patterns	Low density site areas. Wide street frontages. Strong uniformity of allotment patterns. Detached dwellings on relatively square allotments.

Statement#	Statement	
WeToC5	Architectural styles, detailing and built form features	Predominantly Art deco dwellings. Pitched roofs with eaves. Verandahs / porticos.
	Building height	Single storey. Discreetly integrated two storey elements within roof space.
	Materials	Brick. Face stone. Corrugated pre-coloured or galvanised iron sheeting. Tiled roofs. Timber windows. Feature stone chimneys.
	Fencing	No front fences. Side fences are no further forward than the building line.
	Setting, landscaping, streetscape and public realm features	Consistent front setbacks. Carports and garages are behind the main face of dwellings. Generous well-maintained gardens.
	Representative Buildings	<i>[Not identified]</i>
WeToC6	<p><b>Thebarton Character Area Statement (WeTo-C6)</b></p>	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>	
	<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	1890s - 1940s.
	Allotments, subdivision and built form patterns	Medium to very low density site areas. Subdivision consistent with allotment pattern in the immediate locality. Detached, semi-detached and row dwellings on substantial allotments.
	Architectural styles, detailing and built form features	Predominantly detached and semi-detached Victorian and Federation villas/cottages and Bungalow style dwellings with examples of Single fronted cottages; Row dwellings; and Tudor style dwellings. Hip, gable and Dutch gable roofs. Verandahs / porticos. Additions are generally located to the rear of the dwelling.
	Building height	Generally single storey. Second storey within the roof space.
	Materials	Brick. Painted brick. Stone. Corrugated pre-coloured or galvanised iron sheeting. Timber windows. Timber verandah posts. Timber filigree. Red brick chimneys.
Fencing	Low fencing facilitating views of the dwelling. Post and rail with woven wire. Low level stone or masonry. Timber picket.	
Setting, landscaping, streetscape and public realm features	Front setbacks small to medium front and side setbacks. Large rear setbacks provide sense of space. Low site coverage. Carports and garages are behind the main face of dwellings. Well established tree lined streets. Narrow frontages (east of South Road). Vehicle access generally via rear laneways.	
Representative Buildings	<i>[Not identified]</i>	
WeToC7	<p><b>Torrensville Character Area Statement (WeTo-C7)</b></p>	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. **Character Areas affecting Whyalla City Council**

Whyalla Character Area Statement (Wh-C1)		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
Eras, themes and context	1900 - 1940. Developed in the first 40 years of Whyalla up until the 1940's. Illustrates the increasing prosperity of the city from the small corrugated or rendered masonry cottages to the substantial stone bungalow dwellings constructed by BHP for their senior staff at the steelworks.	
Allotments, subdivision and built form patterns	Pattern of division in predominantly quarter acre lots, generous roads and road reserves with ample provision for on street parking and street planting.	
Architectural styles, detailing and built form features	Colonial Cottages with half-hipped roofs, rendered masonry walls with open verandahs the width of the dwelling, symmetrical fronted dwellings with return verandahs and Bungalow dwellings dominate the architectural style of the dwellings.	
Building height	[Not stated]	
Materials	Corrugated iron, rendered masonry and BHP stone (including stone coins) and BHP brick are the predominant construction materials with corrugated iron roofs.	
Fencing	Simple low picket or low rendered masonry, low open fencing or hedging.	
Setting, landscaping, streetscape and public realm features	Pedestrian and cycle connection to the foreshore, Ada Ryan Gardens and Hummock Hill.	
Representative Buildings	[Not identified]	

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Character Preservation District Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Recognise, protect and enhance the special character of Character Preservation Districts.
DO 2	The long term use of land outside of townships for primary production and associated value adding enterprises is assured and promoted.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Land division is undertaken in accordance with Section 8 of the <i>Character Preservation (Barossa Valley) Act 2012</i> and Section 8 of the <i>Character Preservation (McLaren Vale) Act 2012</i> .	DTS/DPF 1.1 None are applicable.
PO 1.2	DTS/DPF 1.2 4566

Residential development located in townships to reinforce settlement patterns within the district and support the continuation of primary production on land outside townships.	Residential development located within designated township areas of the Character Preservation District Overlay.
Built Form and Character	
<p>PO 2.1</p> <p>Development occurring at the edge of townships is sympathetic to the rural landscape and reinforces a clear transition between townships and rural landscape through measures including:</p> <p>being of a low scale orientating residential development towards the rural area ensuring visual separation from the rural area through landscaping and road reserves.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
<p>PO 2.2</p> <p>Development contributes to and maintains the historic identity and character of townships through appropriate:</p> <p>form scale siting design landscaping.</p>	<p>DTS/DPF 2.2</p> <p>None are applicable.</p>
<p>PO 2.3</p> <p>Adaptive re-use of rural structures and historic and/or character buildings supports their preservation and ongoing contribution to the landscape.</p>	<p>DTS/DPF 2.3</p> <p>None are applicable.</p>
Built Form and Character in the Rural Area	
<p>PO 3.1</p> <p>Preservation of existing natural features including topography, watercourses and mature trees.</p>	<p>DTS/DPF 3.1</p> <p>None are applicable.</p>
<p>PO 3.2</p> <p>Buildings and structures do not interrupt views of the skyline through measures including being sited below ridge lines.</p>	<p>DTS/DPF 3.2</p> <p>None are applicable.</p>
<p>PO 3.3</p> <p>Buildings and structures harmonise with the natural features of the landscape and reinforce the rural character through the use of muted, neutral, non-reflective landscape colours on external surfaces.</p>	<p>DTS/DPF 3.3</p> <p>None are applicable.</p>
<p>PO 3.4</p> <p>Large buildings and structures are sited and oriented to minimise their visual bulk, particularly if close to roads or in open settings where there are no other buildings or mature trees in close proximity.</p>	<p>DTS/DPF 3.4</p> <p>None are applicable.</p>
<p>PO 3.5</p> <p>Buildings and structures are grouped to create compact clusters well set back from public roads.</p>	<p>DTS/DPF 3.5</p> <p>None are applicable.</p>
<p>PO 3.6</p> <p>Development mitigates the need for long, steep access roads that require excessive grading or removal of vegetation.</p>	<p>DTS/DPF 3.6</p> <p>None are applicable.</p>
Earthworks	
<p>PO 4.1</p> <p>Excavation and filling of land is limited to that associated with:</p> <p>minimising the visual impact of buildings or structures</p> <p>or</p> <p>construction of water storage facilities.</p>	<p>DTS/DPF 4.1</p> <p>Excavation and/or filling of land is:</p> <p>(a) no greater than 1.5 metres from natural ground level</p> <p>(b) only undertaken in order to reduce the visual impact of buildings or structures or to construct water storage facilities.</p>

**Procedural Matters (PM)**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

## Coastal Areas Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	The natural coastal environment (including environmentally important features such as mangroves, wetlands, saltmarsh, sand dunes, cliff tops, native vegetation, wildlife habitat, shore and estuarine areas) is conserved and enhanced.
DO 2	Provision is made for natural coastal processes; and recognition is given to current and future coastal hazards including sea level rise, flooding, erosion and dune drift to avoid the need, now and in the future, for public expenditure on protection of the environment and development.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature																							
Land Division																								
PO 1.1 Land is divided only if it or the subsequent development and use of the land will not adversely affect the environmental values or ability of the land or adjoining land to adapt to changing coastal processes.	DTS/DPF 1.1 Land division for minor adjustment of allotment boundaries removes an anomaly in the current boundaries with respect to the location of buildings or structures.																							
PO 1.2 Land is not divided unless a layout is achieved whereby roads, parking areas and development sites for each allotment are at least 0.3m above the standard sea flood risk level, unless the land has, or can be provided with, appropriate and acceptable coastal protection measures.	DTS/DPF 1.2 None are applicable.																							
PO 1.3 Other than small-scale infill land division in a predominantly urban zone, land division adjacent to the coast incorporates an existing or proposed public reserve (not including a road or erosion buffer) of a size adequate to provide for natural coastal processes, public access and recreation.	DTS/DPF 1.3 None are applicable.																							
Hazard Risk Minimisation																								
PO 2.1 Buildings sited over tidal water or that are not capable of being raised or protected by flood protection measures in the future are protected against the standard sea flood risk level and 1m of sea level rise.	DTS/DPF 2.1 Building floor levels are at least 1.25m above the standard sea flood risk level.																							
PO 2.2 Development, including associated roads and parking areas, but not minor structures unlikely to be adversely affected by flooding, is protected from the standard sea flood risk level and 1m of sea level rise.	DTS/DPF 2.2 Development incorporates finished ground and floor levels not less than: <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: center;">Finished Ground and Floor Levels</th> </tr> </thead> <tbody> <tr><td>Minimum finished floor level is 2.6m AHD</td></tr> <tr><td>Minimum finished floor level is 20.4m AHD</td></tr> <tr><td>Minimum finished floor level is 3m AHD</td></tr> <tr><td>Minimum finished floor level is 3.45m AHD</td></tr> <tr><td>Minimum finished floor level is 4.15m AHD</td></tr> <tr><td>Minimum finished floor level is 4.35m AHD</td></tr> <tr><td>Minimum finished floor level is 5.3m AHD</td></tr> <tr><td>Minimum finished ground level is 1.7m AHD; Minimum finished floor level is 1.95m AHD</td></tr> <tr><td>Minimum finished ground level is 1.75m AHD; Minimum finished floor level is 2m AHD</td></tr> <tr><td>Minimum finished ground level is 1.85m AHD; Minimum finished floor level is 2.1m AHD</td></tr> <tr><td>Minimum finished ground level is 1.9m AHD; Minimum finished floor level is 2.15m AHD</td></tr> <tr><td>Minimum finished ground level is 2.2m AHD; Minimum finished floor level is 2.45m AHD</td></tr> <tr><td>Minimum finished ground level is 2.3m AHD; Minimum finished floor level is 2.55m AHD</td></tr> <tr><td>Minimum finished ground level is 2.3m AHD; Minimum finished floor level is 2.6m AHD</td></tr> <tr><td>Minimum finished ground level is 2.4m AHD</td></tr> <tr><td>Minimum finished ground level is 2.4m AHD; Minimum finished floor level is 2.65m AHD</td></tr> <tr><td>Minimum finished ground level is 2.45m AHD; Minimum finished floor level is 2.7m AHD</td></tr> <tr><td>Minimum finished ground level is 2.5m AHD; Minimum finished floor level is 2.65m AHD</td></tr> <tr><td>Minimum finished ground level is 2.5m AHD; Minimum finished floor level is 2.7m AHD</td></tr> <tr><td>Minimum finished ground level is 2.5m AHD; Minimum finished floor level is 2.75m AHD</td></tr> <tr><td>Minimum finished ground level is 2.55m AHD; Minimum finished floor level is 2.8m AHD</td></tr> <tr><td>Minimum finished ground level is 2.6m AHD; Minimum finished floor level is 2.85m AHD</td></tr> </tbody> </table>	Finished Ground and Floor Levels	Minimum finished floor level is 2.6m AHD	Minimum finished floor level is 20.4m AHD	Minimum finished floor level is 3m AHD	Minimum finished floor level is 3.45m AHD	Minimum finished floor level is 4.15m AHD	Minimum finished floor level is 4.35m AHD	Minimum finished floor level is 5.3m AHD	Minimum finished ground level is 1.7m AHD; Minimum finished floor level is 1.95m AHD	Minimum finished ground level is 1.75m AHD; Minimum finished floor level is 2m AHD	Minimum finished ground level is 1.85m AHD; Minimum finished floor level is 2.1m AHD	Minimum finished ground level is 1.9m AHD; Minimum finished floor level is 2.15m AHD	Minimum finished ground level is 2.2m AHD; Minimum finished floor level is 2.45m AHD	Minimum finished ground level is 2.3m AHD; Minimum finished floor level is 2.55m AHD	Minimum finished ground level is 2.3m AHD; Minimum finished floor level is 2.6m AHD	Minimum finished ground level is 2.4m AHD	Minimum finished ground level is 2.4m AHD; Minimum finished floor level is 2.65m AHD	Minimum finished ground level is 2.45m AHD; Minimum finished floor level is 2.7m AHD	Minimum finished ground level is 2.5m AHD; Minimum finished floor level is 2.65m AHD	Minimum finished ground level is 2.5m AHD; Minimum finished floor level is 2.7m AHD	Minimum finished ground level is 2.5m AHD; Minimum finished floor level is 2.75m AHD	Minimum finished ground level is 2.55m AHD; Minimum finished floor level is 2.8m AHD	Minimum finished ground level is 2.6m AHD; Minimum finished floor level is 2.85m AHD

In instances where no value is specified (i.e. there is a blank field):	
(a) finished ground levels allow for sea level rise by being raised 0.3m or more above the standard sea flood risk level	
(b) finished floor levels are 0.55m or more above the standard sea flood risk level	
(c) practical measures can be implemented to provide future protection against an additional sea level rise of 0.7m plus an allowance to accommodate 100 years of land subsidence.	

PO 2.3  
 Development will not create or aggravate coastal erosion or require coast protection works that cause or aggravate coastal erosion.

DTS/DPF 2.3  
 None are applicable.

<p>PO 2.4</p> <p>Development is set back a sufficient distance from the coast to provide an erosion buffer in addition to a public reserve that will allow for at least 100 years of coastal retreat for single buildings or small-scale developments, or 200 years of coastal retreat for large scale developments unless:</p> <ul style="list-style-type: none"> <li>) the development incorporates appropriate private coastal protection measures to protect it from anticipated erosion</li> <li>or</li> <li>) there are formal commitments to protect the existing or proposed public reserve and development from anticipated coastal erosion.</li> </ul>	<p>DTS/DPF 2.4</p> <p>None are applicable.</p>
<p>PO 2.5</p> <p>Additions or alterations to, or replacement of, a dwelling do not increase the risk of effects from natural coastal processes such as flooding, sea-level rise, sand drift and erosion.</p>	<p>DTS/DPF 2.5</p> <p>None are applicable.</p>
<p>Coast Protection Works</p>	
<p>PO 3.1</p> <p>Development avoids the need for coast protection works through measures such as setbacks to protect development from coastal erosion, sea or stormwater flooding, sand drift or other coastal processes.</p>	<p>DTS/DPF 3.1</p> <p>None are applicable.</p>
<p>PO 3.2</p> <p>Development does not compromise the structural integrity of any sea wall or levee bank or the ability to maintain, modify or upgrade any sea wall or levee bank.</p>	<p>DTS/DPF 3.2</p> <p>None are applicable.</p>
<p>PO 3.3</p> <p>Unavoidable coast protection works are the subject of binding agreements to cover the cost of future construction, operation, maintenance and management measures and will not:</p> <ul style="list-style-type: none"> <li>) have an adverse effect on coastal ecology, processes, conservation, public access and amenity</li> <li>) require commitment of public resources including land</li> <li>) present an unacceptable risk of failure relative to potential hazard resulting from failure.</li> </ul>	<p>DTS/DPF 3.3</p> <p>None are applicable.</p>
<p>Environment Protection</p>	
<p>PO 4.1</p> <p>Development will not unreasonably affect the marine and onshore coastal environment by pollution, erosion, damage or depletion of physical or biological resources; interference with natural coastal processes; or the introduction of and spread of marine pests and diseases or any other means.</p>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>
<p>PO 4.2</p> <p>Development avoids delicate or environmentally sensitive coastal areas such as sand dunes, cliff tops, estuaries, wetlands or substantially intact strata of native vegetation.</p>	<p>DTS/DPF 4.2</p> <p>None are applicable.</p>
<p>PO 4.3</p> <p>Development allows for ecological and natural landform adjustment to changing climatic conditions and sea levels, by allowing landward migration of dunes, coastal wetlands, mangrove and samphire areas.</p>	<p>DTS/DPF 4.3</p> <p>None are applicable.</p>
<p>PO 4.4</p> <p>Development avoids, or in built up areas minimises, impacts on important habitat areas that support the nesting, breeding and movement/migration patterns of fauna, including threatened shorebirds.</p>	<p>DTS/DPF 4.4</p> <p>None are applicable.</p>
<p>PO 4.5</p> <p>Development is designed so that wastewater is disposed of in a manner that avoids pollution or other detrimental impacts on the marine and on-shore environment of coastal areas.</p>	<p>DTS/DPF 4.5</p> <p>Development is connected, or will be connected, to an approved common wastewater disposal service with the capacity to meet the requirements of the development or on-site wastewater systems set back a minimum of 100m from the Mean High Water Mark at spring tide.</p>
<p>PO 4.6</p> <p>Development is designed so that stormwater runoff is disposed of in a manner that avoids pollution or other detrimental impacts on the marine and on-shore environment of coastal areas.</p>	<p>DTS/DPF 4.6</p> <p>None are applicable.</p>
<p>PO 4.7</p> <p>Development involving the removal of shell grit, cobbles or sand, other than for coastal protection works purposes, is not undertaken.</p>	<p>DTS/DPF 4.7</p> <p>Development does not involve the removal of shell grit, cobbles or sand.</p>
<p>Access</p>	
<p>PO 5.1</p> <p>Development maintains or enhances appropriate public access to and along the foreshore.</p>	<p>DTS/DPF 5.1</p> <p>None are applicable.</p>
<p>PO 5.2</p>	<p>DTS/DPF 5.2</p>

Public access through sensitive coastal landforms, particularly sand dunes, wetlands and cliffs, is restricted to defined pedestrian paths and constructed to minimise adverse environmental impact.	None are applicable.
PO 5.3 Access roads to the coast, lookouts and places of interest:  do not detract from the amenity or the environment are designed for slow-moving traffic are minimised in number.	DTS/DPF 5.3  None are applicable.
PO 5.4 Development on land adjoining a coastal reserve is sited and designed to be compatible with the purpose, management and amenity of the reserve and to prevent inappropriate access to or use of the reserve.	DTS/DPF 5.4  None are applicable.

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Except where the development is, in the opinion of the relevant authority, minor in nature and would not warrant a referral when considering the purpose of the referral, the following:</p> <ul style="list-style-type: none"> <li>) excavation and/or filling where the total volume of material excavated and/or filled exceeds 9m<sup>3</sup></li> <li>) dwellings and habitable buildings that: do not meet DTS/DPF 2.2 or</li> <li>) are within 100m of the mean high water mark</li> <li>) other than within a Rural Settlement Zone: buildings with a floor area greater than 60m<sup>2</sup> or</li> <li>) tourist accommodation, including a caravan park or</li> <li>i) division of land that would create 1 or more additional allotments</li> <li>) off-shore structures</li> <li>) coast protection works infrastructure within 100m landward of the mean high water mark.</li> </ul>	Coast Protection Board.	<p>To provide expert assessment and direction to the relevant authority on:</p> <ul style="list-style-type: none"> <li>• the risk to development from current and future coastal hazards (including sea-level rise, coastal flooding, erosion, dune drift and acid sulfate soils);</li> <li>• coast protection works;</li> <li>• potential impacts from development on public access and the coastal environment (including important coastal features).</li> </ul>	Development of a class to which Schedule 9 clause 3 item 3 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

**Coastal Flooding Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Recognition of coastal flood hazards to avoid the need, now and in the future, for public expenditure on protection of the environment and development.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature

None	None	None	None

### Future Road Widening Overlay

#### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development which is consistent with and will not compromise efficient delivery of future road widening requirements.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Future Road Widening	
PO 1.1 Development does not compromise or is located and designed to minimise its impact on future road widening requirements.	DTS/DPF 1.1 Development does not involve building work, or building work is located wholly outside the land subject to the 6m Consent Area, the C Type Requirement or the Strip Requirement of the Metropolitan Adelaide Road Widening Plan.

### Procedural Matters (PM)

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Other than where all deemed-to-satisfy criteria for all policies relevant to this referral are met, development (including the division of land) that is within or may encroach within a Future Road Widening Area.	Commissioner of Highways.	To provide expert technical assessment and direction to the relevant authority on the safe and efficient operation and management of all roads relevant to the Commissioner of Highways as described in the Planning and Design Code.	Development of a class to which Schedule 9 clause 3 item 4 of the Planning, Development and Infrastructure

## Gas and Liquid Petroleum Pipelines Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Management of risk to public safety, the environment and security of energy supply from the encroachment of development on strategic gas and liquid petroleum pipelines.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
<p>PO 1.1</p> <p>Community exposure to a potential hazard from the failure of a gas or liquid petroleum pipeline is mitigated by locating development that may accommodate or result in large congregations of people, buildings for housing and / or caring for vulnerable people and community facilities outside areas that pose an unacceptable risk to protect life.</p>	<p>DTS/DPF 1.1</p> <p>Development satisfies one of the following:</p> <p>it does not comprise:</p> <ul style="list-style-type: none"> <li>(i) child care facility</li> <li>(ii) caravan and tourist park</li> <li>(iii) educational facility</li> <li>(iv) buildings comprising 3 or more building levels</li> <li>(v) land division creating allotments under 1ha for residential purposes (except where the existing allotment is less than 1ha)</li> <li>(vi) prison</li> <li>(vii) residential park</li> <li>(viii) retirement facility</li> <li>(ix) student accommodation</li> <li>(x) supported accommodation</li> <li>(xi) shop or shops with a gross leasable floor area of 1000m<sup>2</sup> or greater</li> <li>(xii) tourist accommodation</li> <li>(xiii) stadium</li> </ul> <p>(b) a class of development referred to in part (a), or any combination thereof, which will occur in accordance with an agreement under section 123 of the <i>Planning, Development and Infrastructure Act, 2016</i></p>
<p>PO 1.2</p> <p>Emergency service and major community health related facilities are located outside areas where a gas or liquid petroleum pipeline failure may disrupt ongoing operations to maintain the response capacity in the event of an emergency.</p>	<p>DTS/DPF 1.2</p> <p>Development does not comprise any of the following:</p> <ul style="list-style-type: none"> <li>(a) emergency services facility</li> <li>(b) hospital.</li> </ul>
<p>PO 1.3</p> <p>Development involving the manufacture, collection, handling or bulk storage of flammable, explosive, or otherwise hazardous materials is located and designed to avoid escalating the potential for and effects of a gas or liquid petroleum pipeline failure.</p>	<p>DTS/DPF 1.3</p> <p>Development satisfies one of the following:</p> <p>it does not comprise:</p> <ul style="list-style-type: none"> <li>(i) general industry</li> <li>(ii) special industry</li> <li>(iii) landfill</li> <li>(iv) renewable energy facility</li> <li>(v) electricity substation</li> <li>(vi) fuel depot</li> <li>(vii) retail fuel outlet</li> <li>(viii) store</li> <li>(ix) warehouse</li> <li>(x) waste treatment facility</li> </ul> <p>(b) a class of development referred to in part (a), or any combination thereof, which will occur in accordance with an agreement under section 123 of the <i>Planning, Development and Infrastructure Act, 2016</i></p>

### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Except where the development is, in the opinion of the relevant authority, minor in nature and would not warrant a referral when considering the purpose of the referral, a class of development that does not satisfy Gas and Liquid Petroleum Pipelines Overlay DTS/DPF 1.1, 1.2 and 1.3.	The Chief Executive of the Department of the Minister responsible for administering the <i>Petroleum and Geothermal Energy Act 2000</i> .	To provide expert assessment and direction to the relevant authority in relation to:  (a) potential safety issues relating to development or (b) the potential for development to adversely impact upon the lawful continued operation of strategic infrastructure (gas and liquid petroleum pipelines).	Development of a class to which Schedule 9 clause 3 item 9B of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

## Gas and Liquid Petroleum Pipelines (Facilities) Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Management of risk to public safety, the environment and security of energy supply from the encroachment of development on gas and liquid petroleum pipeline facilities.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Safety	
PO 1.1 Development (including land division) does not present a risk to public health and safety due to any of the following:  continuous noise associated with pipeline facilities used for energy transportation that exceeds the Environment Protection (Commercial and Industrial Noise) Policy potential for occasional noise associated with high pressure venting.	DTS/DPF 1.1 Development (including land division creating additional allotments for such purposes) comprises one or more of the following:  (a) open space (b) roadways (c) a class of development that will occur in accordance with an agreement under section 123 of the <i>Planning, Development and Infrastructure Act, 2016</i> (d) a dwelling or ancillary building/structure on an allotment approved for residential purposes.

### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Except where the development is, in the opinion of the relevant authority, minor in nature and would not warrant a referral when considering the purpose of the referral, a class of development that does not satisfy Overlay DTS/DPF 1.1.	The Chief Executive of the Department of the Minister responsible for administering the <i>Petroleum and Geothermal Energy Act 2000</i> .	To provide expert assessment and direction to the relevant authority in relation to:  (a) potential safety issues relating to development or (b) the potential for development to adversely impact upon the lawful continued operation of strategic infrastructure (gas and liquid petroleum pipelines).	Development of a class to which Schedule 9 clause 3 item 9B of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

## Gateway Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	The visual amenity and streetscape appeal along prominent entrances into towns, tourist and historic precincts, activity centres and main streets is maintained and improved through the careful siting of buildings and other activities in a well landscaped setting.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Built Form and Character	
PO 1.1 Buildings are set back from main roads to support a consistent high-quality streetscape character where the prominence of larger buildings is appropriately mitigated.	DTS/DPF 1.1 Buildings are set back at least the height of the building and no less than 10m from arterial and main roads and highways, whichever is the greater.
PO 1.2 Building are set back from side boundaries to moderate the appearance of buildings and enhance the outlook from arterial and main roads and highways.	DTS/DPF 1.2 None are applicable.
PO 1.3 The main facade of principal buildings facing arterial and main roads and highways incorporate articulation and various materials to promote a high standard of building design and external appearance.	DTS/DPF 1.3 None are applicable.
Landscape Amenity	
PO 2.1 Ancillary buildings including carports, outbuildings and garages, other minor structures, waste storage bins and outdoor storage areas are sited to reduce visual clutter and untidiness from arterial and main roads and highways.	DTS/DPF 2.1 Ancillary buildings including carports, outbuildings and garages, other minor structures, waste storage bins and outdoor storage areas are located in a manner to satisfy one of the following:  (a) behind principal building(s) facing arterial and main roads and highways  (b) behind the building line of principal building(s) and obscured from public view from arterial and main roads and highways by solid fencing or landscaping.
Landscaping	
PO 3.1 Development incorporates generous landscaping areas along the frontage to arterial roads and highways to enhance visual amenity and complement associated buildings.	DTS/DPF 3.1 None are applicable.
PO 3.2 Existing mature on-site vegetation is retained and incorporated into landscape and parking areas to enhance the appearance of land and buildings.	DTS/DPF 3.2 None are applicable.
PO 3.3 Development incorporates generous landscaping areas along the frontage to arterial roads and landscaped using a combination of high crown evergreen trees, low shrubs and groundcovers to enhance visual amenity and complement the associated buildings.	DTS/DPF 3.3 None are applicable.
PO 3.4 Vehicle parking areas are located and designed to enhance the streetscape setting by:  ) being located to the side or rear of buildings facing arterial and main roads and highways ) incorporating landscaping, including trees, to break up large parking areas.	DTS/DPF 3.4 None are applicable.
Advertisements	
PO 4.1 Advertisements along arterial and main roads, and highways are consistent in height, size and design to support a cohesive and uniform appearance in gateway locations without dominating the streetscape.	DTS/DPF 4.1 Advertisements meet all the following:  (a) will not result in more than 1 advertisement per allotment (b) will not exceed 5m in height (c) do not exceed 3m <sup>2</sup> per advertising face (d) are not internally illuminated (e) are not animated, flash or move in any way.

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

### Hazards (Acid Sulfate Soils) Overlay

#### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development is located and undertaken to minimise disturbance of potential or actual acid sulfate soils and / or the release of acid drainage.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development that involves excavation or a change to a water table where potential or actual acid sulfate soils are present is undertaken to minimise soil disturbance or drainage; prevent or minimise oxidation; and contain and treat any acid drainage to prevent harm or damage to the environment, primary production, buildings, structures and infrastructure or public health.	DTS/DPF 1.1 Development does not involve or cause: excavation of land change to a water table.

#### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

### Hazards (Bushfire - General Risk) Overlay

#### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development, including land division responds to the general level of bushfire risk by siting and designing buildings in a manner that mitigates the threat and impact of bushfires on life and property taking into account the increased frequency and intensity of bushfires as a result of climate change.
DO 2	To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Siting	
PO 1.1 Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain.	DTS/DPF 1.1 None are applicable.
Built Form	
PO 2.1 Buildings and structures are designed and configured to reduce the impact of bushfire	DTS/DPF 2.1 None are applicable.

<p>through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts.</p>	
<p>PO 2.2 Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and Workers' accommodation) in the event of bushfire.</p>	<p>DTS/DPF 2.2 Outbuildings and other ancillary structures are sited no closer than 6m from the habitable building.</p>
<p>Habitable Buildings</p>	
<p>PO 3.1 To minimise the threat, impact and exposure to bushfires on life and property, residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments away from steep slopes.</p>	<p>DTS/DPF 3.1 None are applicable.</p>
<p>PO 3.2 Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited away from vegetated areas that pose an unacceptable bushfire risk.</p>	<p>DTS/DPF 3.2 Residential and tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zone(s) in accordance with (a) and (b):  the asset protection zone has a minimum width of at least: (i) 50 metres to unmanaged grasslands (ii) 100 metres to hazardous bushland vegetation (b) the asset protection zone is contained wholly within the allotment of the development.</p>
<p>PO 3.3 Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) has a dedicated area available that is capable of accommodating a bushfire protection system comprising firefighting equipment and water supply in accordance with <i>Ministerial Building Standard MBS 008 - Designated bushfire prone areas - additional requirements</i>.</p>	<p>DTS/DPF 3.3 None are applicable.</p>
<p>Land Division</p>	
<p>PO 4.1 Land division is designed and incorporates measures to minimise the danger of fire hazard to residents and occupants of buildings, and to protect buildings and property from physical damage in the event of a bushfire.</p>	<p>DTS/DPF 4.1 None are applicable.</p>
<p>PO 4.2 Land division is designed to provide a continuous street pattern to facilitate the safe movement and evacuation of emergency vehicles, residents, occupants and visitors.</p>	<p>DTS/DPF 4.2 None are applicable.</p>
<p>PO 4.3 Where 10 or more new allotments are proposed, land division includes at least two separate and safe exit points to enable multiple avenues of evacuation in the event of a bushfire.</p>	<p>DTS/DPF 4.3 None are applicable.</p>
<p>PO 4.4 Land division incorporates perimeter roads of adequate design in conjunction with bushfire buffer zones to achieve adequate separation between residential allotments and areas of unacceptable bushfire risk and to support safe access for the purposes of fire-fighting.</p>	<p>DTS/DPF 4.4 None are applicable.</p>
<p>Vehicle Access – Roads, Driveways and Fire Tracks</p>	
<p>PO 5.1 Roads are designed and constructed to facilitate the safe and effective:  access, operation and evacuation of fire-fighting vehicles and emergency personnel evacuation of residents, occupants and visitors.</p>	<p>DTS/DPF 5.1 Roads:  (a) are constructed with a formed, all-weather surface (b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road (c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road (d) have a minimum formed road width of 6m (e) provide overhead clearance of not less than 4m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1) (f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2) (g) incorporating cul-de-sac endings or dead end roads do not exceed 200m in length and the end of the road has either: (i) a turning area with a minimum formed surface radius of 12.5m (Figure 3) or (ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 4) (h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</p>
<p>PO 5.2</p>	<p>DTS/DPF 5.2</p>

<p>Access to habitable buildings is designed and constructed to facilitate the safe and effective: access, operation and evacuation of fire-fighting vehicles and emergency personnel evacuation of residents, occupants and visitors</p>	<p>Access is in accordance with (a) or (b):</p> <ul style="list-style-type: none"> <li>(a) a clear and unobstructed vehicle or pedestrian pathway of not greater than 60 metres in length is available between the most distant part of the habitable building and the nearest part of a formed public access road</li> <li>(b) driveways: <ul style="list-style-type: none"> <li>(i) do not exceed 600m in length</li> <li>(ii) are constructed with a formed, all-weather surface</li> <li>(iii) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8)</li> <li>(iv) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway</li> <li>(v) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the driveway</li> <li>(vi) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 1)</li> <li>(vii) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 5)</li> <li>(viii) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 1)</li> <li>(ix) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)</li> <li>(x) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by using a 'U' shaped drive through design or by incorporating at the end of the driveway either: <ul style="list-style-type: none"> <li>A. a loop road around the building</li> <li>B. a turning area with a minimum radius of 12.5m (Figure 3)</li> <li>C. a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 4)</li> </ul> </li> <li>(xi) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</li> </ul> </li> </ul>
<p>PO 5.3 Development does not rely on fire tracks as means of evacuation or access for fire-fighting purposes unless there are no safe alternatives available.</p>	<p>DTS/DPF 5.3 None are applicable.</p>

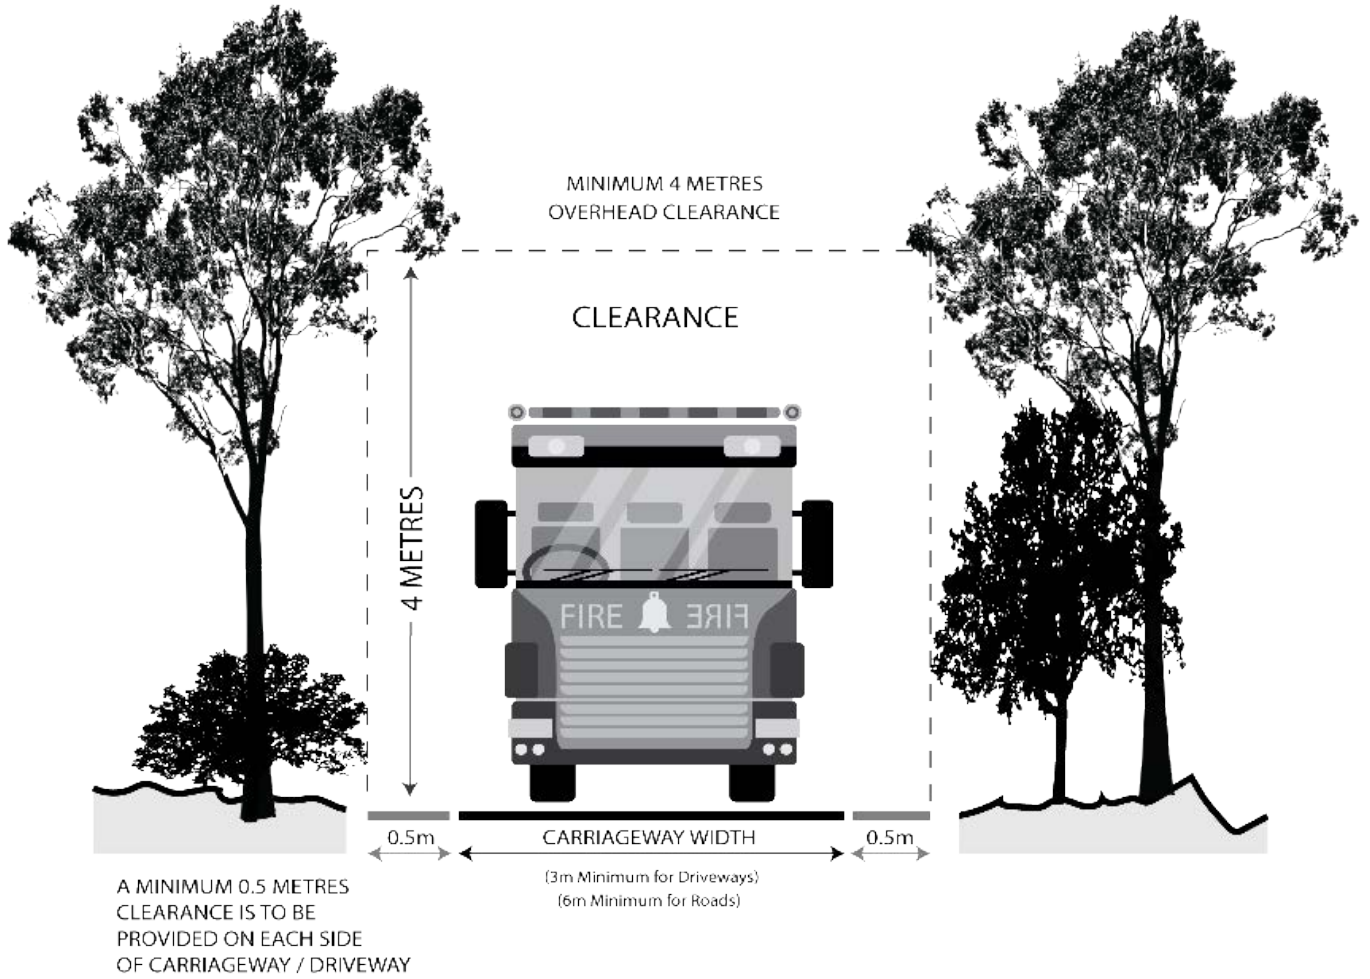

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Figures and Diagrams**

Land Division
Fire Appliance Clearances
Figure 1 - Overhead and Side Clearances

Roads and Driveway Design

Figure 2 - Road and Driveway Curves

Curves to allow fire trucks to turn into the track without having to back-up several times - minimum external radius of 12.5m.

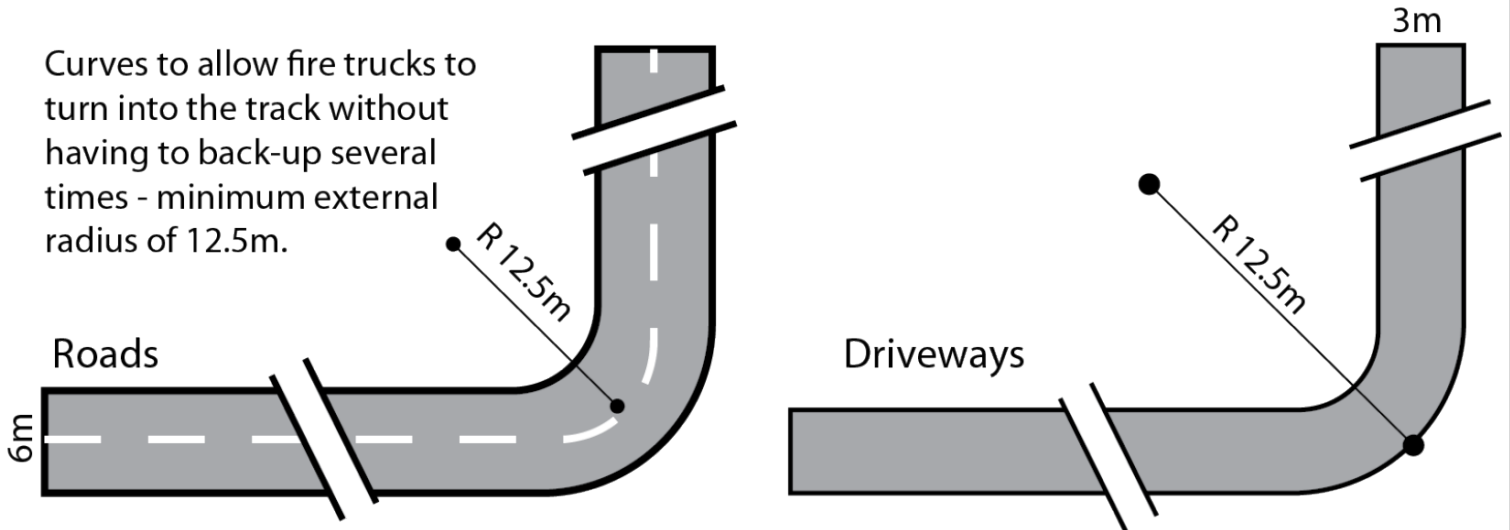

Figure 3 - Full Circle Turning Area

Fire truck turning area -  
minimum radius 12.5m

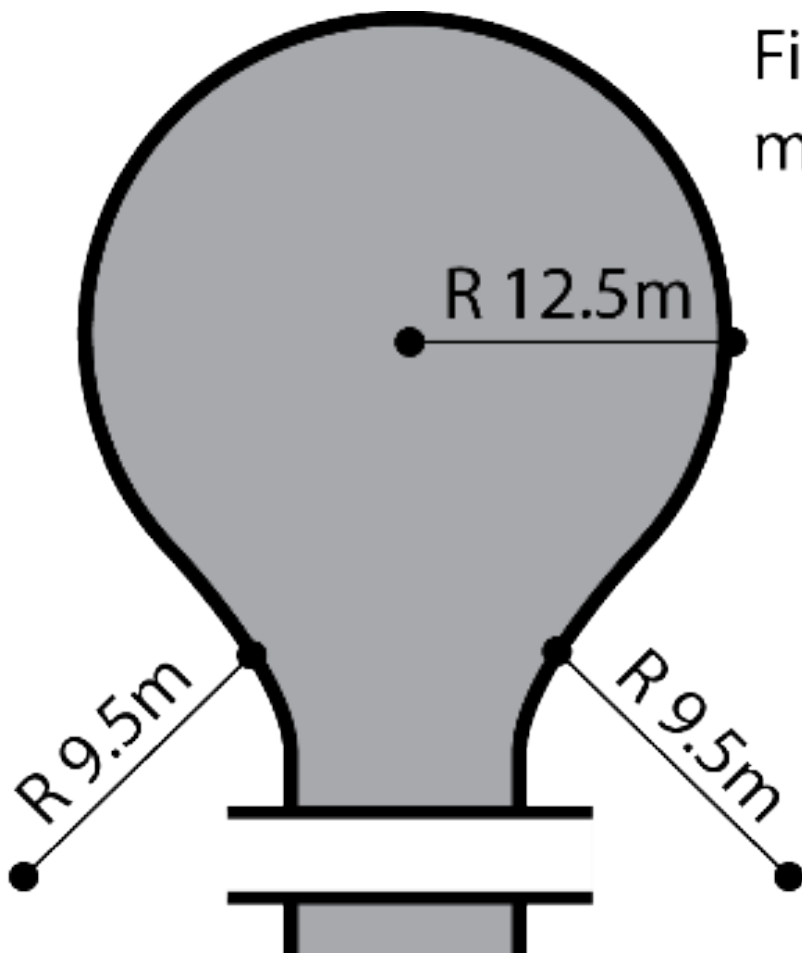

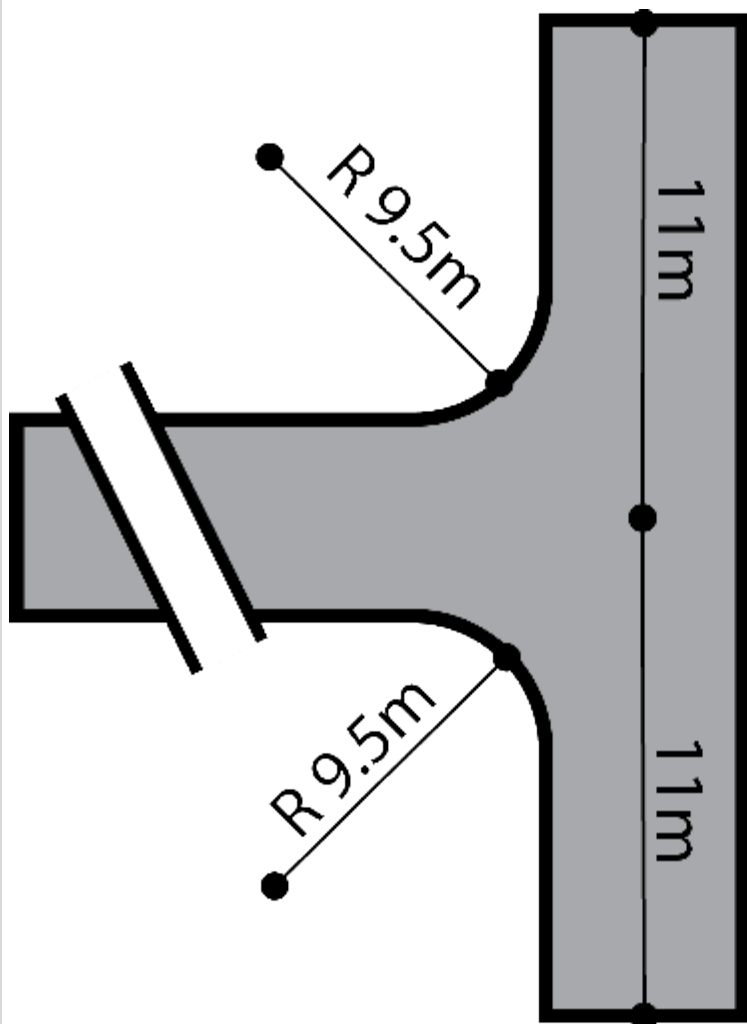

Figure 4 - 'T' or 'Y' Shaped Turning Head

"T" shaped turning area  
for fire trucks to reverse  
into so they can turn  
around  
- minimum length 11m.

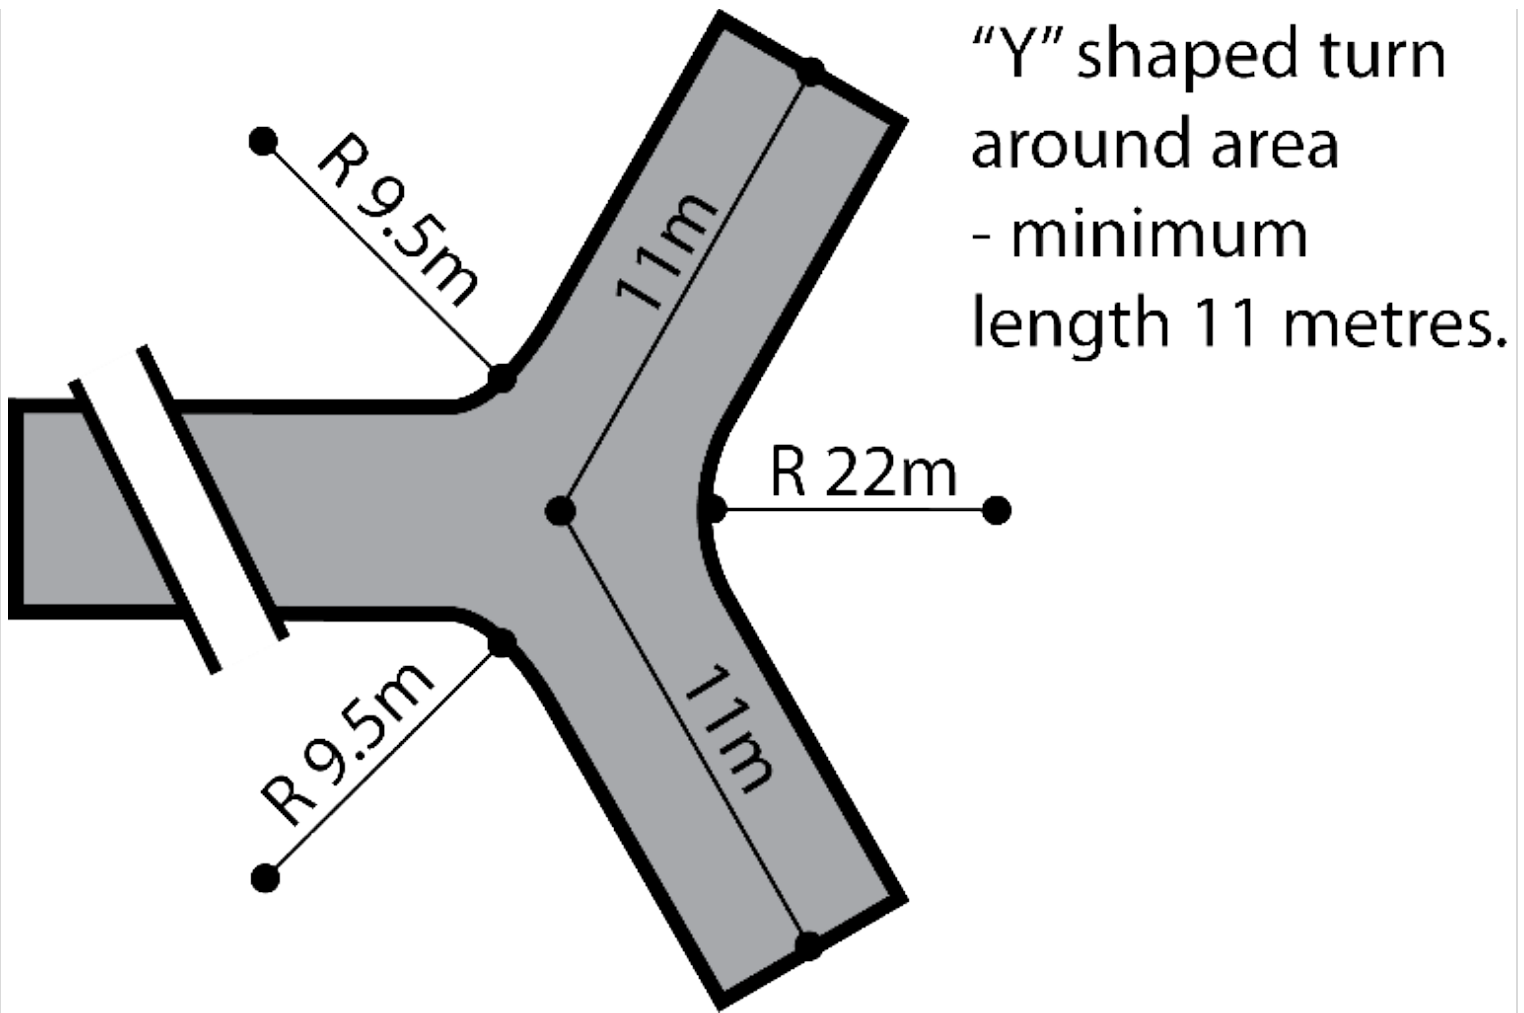

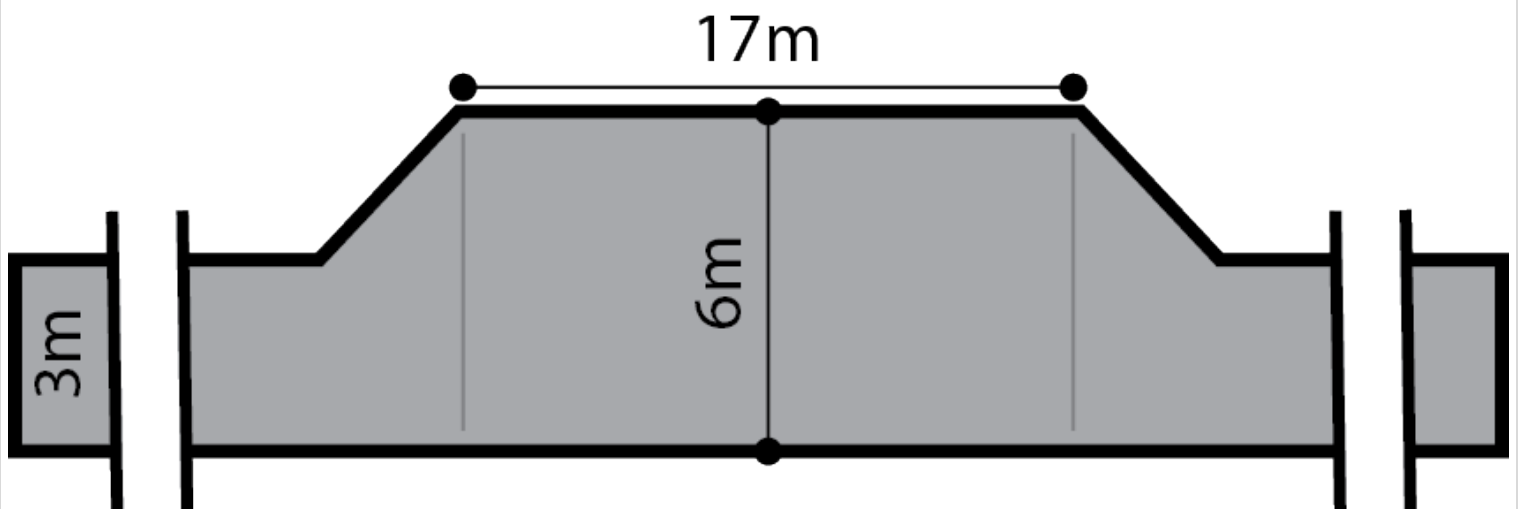

Figure 5 - Driveway Passing Bays

Passing bay for fire trucks - minimum width 6 metres, minimum length 17 metres.

Hazards (Bushfire - High Risk) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development, including land division is sited and designed to minimise the threat and impact of bushfires on life and property with regard to the following risks:  (a) potential for uncontrolled bushfire events taking into account the increased frequency and intensity of bushfires as a result of climate change (b) high levels and exposure to ember attack (c) impact from burning debris (d) radiant heat (e) likelihood and direct exposure to flames from a fire front.
DO 2	Activities that increase the number of people living and working in the area or where evacuation would be difficult is sited away from areas of unacceptable bushfire risk.
DO 3	To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
PO 1.1 Development that significantly increases the potential for fire outbreak as a result of the spontaneous combustion of materials, spark generation or through the magnification and reflection of light is not located in areas of unacceptable bushfire risk.	DTS/DPF 1.1 None are applicable.
PO 1.2 Child care facilities, educational facilities, hospitals, retirement and supported accommodation are sited away from areas of unacceptable bushfire risk and locations that:  are remote from or require extended periods of travel to reach safer locations don't have a safe path of travel to safer locations.	DTS/DPF 1.2 None are applicable.
Siting	
PO 2.1 Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain.	DTS/DPF 2.1 None are applicable.
Built Form	
PO 3.1 Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts.	DTS/DPF 3.1 None are applicable.
PO 3.2 Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and Workers' accommodation) in the event of bushfire.	DTS/DPF 3.2 Outbuildings and other ancillary structures are sited no closer than 6m from the habitable building.
Habitable Buildings	
PO 4.1 To minimise the threat, impact and potential exposure to bushfires on life and property, residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments away from steep slopes.	DTS/DPF 4.1 None are applicable.
PO 4.2 Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited away from vegetated areas that pose an unacceptable bushfire risk.	DTS/DPF 4.2 Residential and tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zone(s) in accordance with (a) and (b):  (a) the asset protection zone has a minimum width of at least: (i) 50 metres to unmanaged grasslands (ii) 100 metres to hazardous bushland vegetation (b) the asset protection zone is contained wholly within the allotment of the development.
PO 4.3 Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) has a dedicated area available that:	DTS/DPF 4.3 None are applicable.

<p>is capable of accommodating a bushfire protection system comprising firefighting equipment and water supply in accordance with <i>Ministerial Building Standard MBS 008 - Designated bushfire prone areas - additional requirements</i></p> <p>includes the provision of an all-weather hardstand area in a location that:</p> <ul style="list-style-type: none"> <li>allows fire-fighting vehicles to safely access the dedicated water supply and exit the site in a forward direction</li> <li>is no further than 6 metres from the dedicated water supply outlet(s) where required.</li> </ul>	
Land Division	
<p>PO 5.1</p> <p>Land division for residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is limited to those areas specifically set aside for these uses.</p>	<p>DTS/DPF 5.1</p> <p>None are applicable.</p>
<p>PO 5.2</p> <p>Land division is designed and incorporates measures to minimise the danger of fire hazard to residents and occupants of buildings, and to protect buildings and property from physical damage in the event of a bushfire.</p>	<p>DTS/DPF 5.2</p> <p>None are applicable.</p>
<p>PO 5.3</p> <p>Land division is designed to provide a continuous street pattern (avoiding the use of dead end roads/cul-de-sac road design) to facilitate the safe movement and evacuation of emergency vehicles, residents, occupants and visitors. Where cul-de-sac / dead end roads are proposed, an alternative emergency evacuation route is provided.</p>	<p>DTS/DPF 5.3</p> <p>None are applicable.</p>
<p>PO 5.4</p> <p>Where 10 or more new allotments are proposed, land division includes at least two separate and safe exit points to enable multiple avenues of evacuation in the event of a bushfire.</p>	<p>DTS/DPF 5.4</p> <p>None are applicable.</p>
<p>PO 5.5</p> <p>Land division provides sufficient space for future asset protection zones and incorporates perimeter roads of adequate design in conjunction with bushfire buffer zones to achieve adequate separation between residential allotments and areas of unacceptable bushfire risk and to support safe access for the purposes of fire-fighting.</p>	<p>DTS/DPF 5.5</p> <p>None are applicable.</p>
Vehicle Access –Roads, Driveways and Fire Tracks	
<p>PO 6.1</p> <p>Roads are designed and constructed to facilitate the safe and effective:</p> <p>access, operation and evacuation of fire-fighting vehicles and emergency personnel evacuation of residents, occupants and visitors.</p>	<p>DTS/DPF 6.1</p> <p>Roads:</p> <ul style="list-style-type: none"> <li>(a) are constructed with a formed, all-weather surface</li> <li>(b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road</li> <li>(c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road</li> <li>(d) have a minimum formed road width of 6m</li> <li>(e) provide overhead clearance of not less than 4.0m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1)</li> <li>(f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)</li> <li>(g) incorporating cul-de-sac endings or dead end roads are provided within an alternative evacuation route and do not exceed 200m in length and the end of the road has either:             <ul style="list-style-type: none"> <li>(i) a turning area with a minimum formed surface radius of 12.5m (Figure 3)</li> <li>or</li> <li>(ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 4)</li> </ul> </li> <li>(h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</li> </ul>
<p>PO 6.2</p> <p>Access to habitable buildings is designed and constructed to facilitate the safe and effective:</p> <p>use, operation and evacuation of fire-fighting and emergency personnel evacuation of residents, occupants and visitors.</p>	<p>DTS/DPF 6.2</p> <p>Access is in accordance with (a) or (b):</p> <ul style="list-style-type: none"> <li>(a) a clear and unobstructed vehicle or pedestrian pathway of not greater than 60 metres in length is available between the most distant part of the habitable building and the nearest part of a formed public access road</li> <li>(b) driveways:             <ul style="list-style-type: none"> <li>(i) do not exceed 600m in length</li> <li>(ii) are constructed with a formed, all-weather surface</li> <li>(iii) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8)</li> <li>(iv) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway</li> <li>(v) have a crossfall of not more than 6 degrees (1-in-9.5) at any point along the driveway</li> <li>(vi) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 1)</li> <li>(vii) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 5)</li> <li>(viii) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 1)</li> </ul> </li> </ul>

	<ul style="list-style-type: none"> <li>(ix) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)</li> <li>(x) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by using a 'U' shaped drive through design or by incorporating at the end of the driveway either:                             <ul style="list-style-type: none"> <li>A. a loop road around the building</li> <li>or</li> <li>B. a turning area with a minimum radius of 12.5m (Figure 3)</li> <li>or</li> <li>C. a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 4)</li> </ul> </li> <li>(xi) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</li> </ul>
PO 6.3 Development does not rely on fire tracks as means of evacuation or access for fire-fighting purposes unless there are no safe alternatives available.	DTS/DPF 6.3 None are applicable.

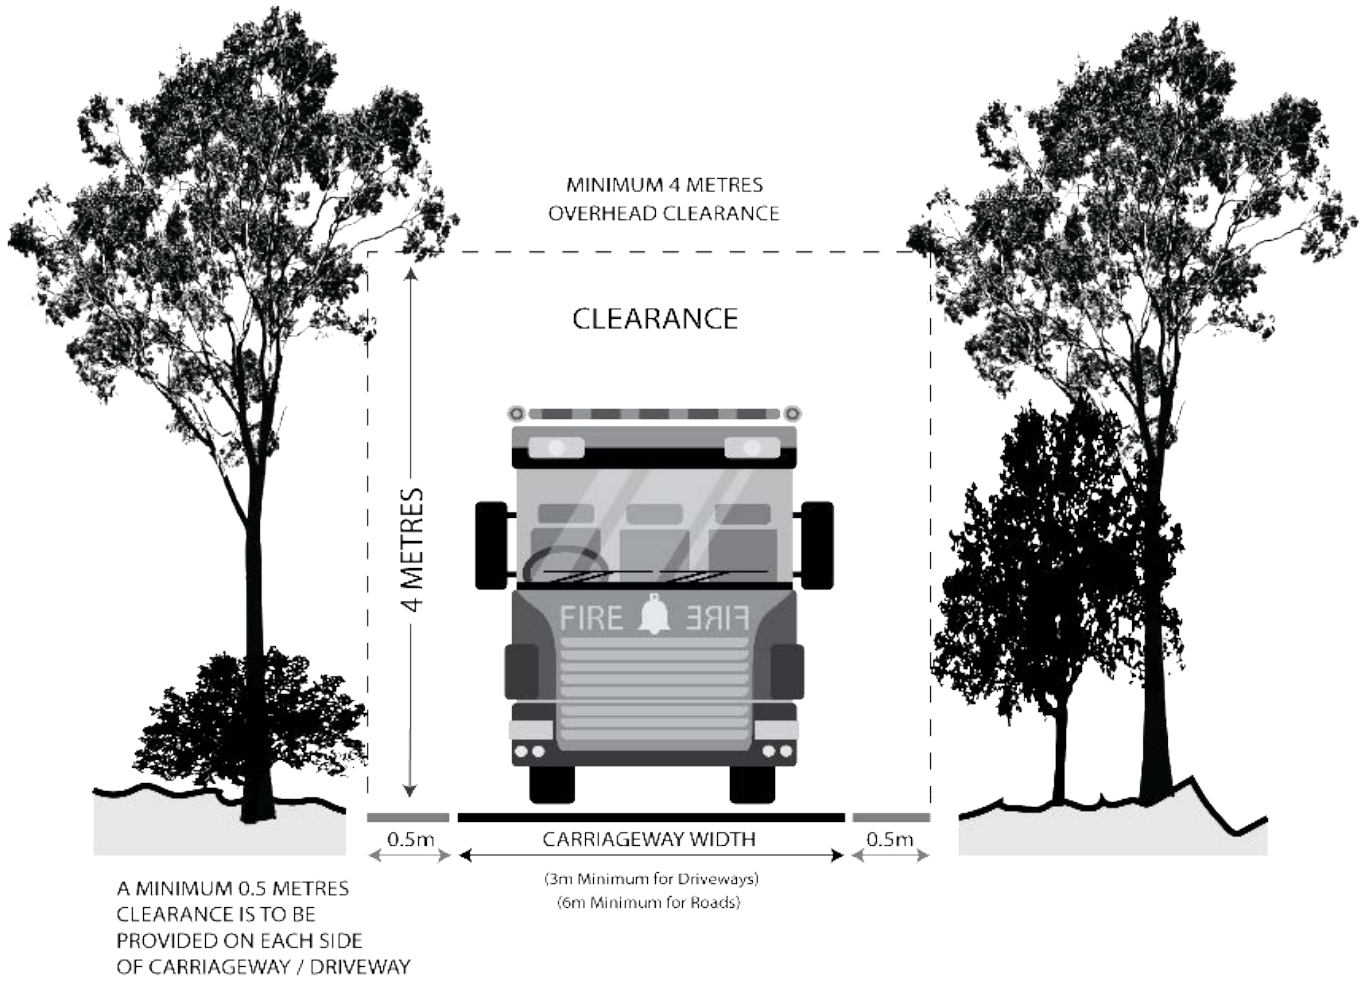

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Except if a <b>relevant certificate</b> accompanies the application for planning consent in respect of the development, any of the following classes of development (including alterations and additions which increase the floor area of such buildings by 10% or more):</p> <ul style="list-style-type: none"> <li>land division creating one or more additional allotments</li> <li>dwelling</li> <li>ancillary accommodation</li> <li>residential flat building</li> <li>tourist accommodation</li> <li>boarding home</li> <li>dormitory style accommodation</li> <li>workers' accommodation</li> <li>student accommodation</li> <li>child care facility</li> <li>educational facility</li> <li>retirement village</li> <li>supported accommodation</li> <li>residential park</li> <li>hospital</li> <li>camp ground.</li> </ul>	South Australian Country Fire Service.	To provide expert assessment and direction to the relevant authority on the potential impacts of bushfire on the development.	Development of a class to which Schedule 9 clause 3 item 2 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

Hazards (Bushfire - Medium Risk) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development, including land division responds to the medium level of bushfire risk and potential for ember attack and radiant heat by siting and designing buildings in a manner that mitigates the threat and impact of bushfires on life and property taking into account the increased frequency and intensity of bushfires as a result of climate change.
DO 2	To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Siting	
PO 1.1 Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain.	DTS/DPF 1.1 None are applicable.
Built Form	
PO 2.1 Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts.	DTS/DPF 2.1 None are applicable.
PO 2.2 Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and Workers' accommodation) in the event of bushfire.	DTS/DPF 2.2 Outbuildings and other ancillary structures are sited no closer than 6m from the habitable building.
Habitable Buildings	
PO 3.1 To minimise the threat, impact and potential exposure to bushfires on life and property, residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments away from steep slopes.	DTS/DPF 3.1 None are applicable.
PO 3.2 Residential, tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited away from vegetated areas that pose an unacceptable bushfire risk.	DTS/DPF 3.2 Residential, tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zone(s) in accordance with (a) and (b):  (a) the asset protection zone has a minimum width of at least: (i) 50 metres to unmanaged grasslands (ii) 100 metres to hazardous bushland vegetation (b) the asset protection zone is contained wholly within the allotment of the development.
PO 3.3 Residential, tourist accommodation and habitable buildings for vulnerable communities, (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation), has a dedicated area available that is capable of accommodating a bushfire protection system comprising firefighting equipment and water supply in accordance with <i>Ministerial Building Standard MBS 008 - Designated bushfire prone areas - additional requirements</i> .	DTS/DPF 3.3 None are applicable.
Land Division	
PO 4.1 Land division is designed and incorporates measures to minimise the danger of fire hazard to residents and occupants of buildings, and to protect buildings and property from physical damage in the event of a bushfire.	DTS/DPF 4.1 None are applicable.
PO 4.2 Land division is designed to provide a continuous street pattern to facilitate the safe movement and evacuation of emergency vehicles, residents, occupants and visitors.	DTS/DPF 4.2 None are applicable.
PO 4.3 Where 10 or more new allotments are proposed, land division includes at least two separate and safe exit points to enable multiple avenues of evacuation in the event of a bushfire.	DTS/DPF 4.3 None are applicable.
PO 4.4	DTS/DPF 4.4

Land division incorporates perimeter roads of adequate design in conjunction with bushfire buffer zones to achieve adequate separation between residential allotments and areas of unacceptable bushfire risk and to support safe access for the purposes of fire-fighting.	None are applicable.
Vehicle Access - Roads, Driveways and Fire Tracks	
<p>PO 5.1</p> <p>Roads are designed and constructed to facilitate the safe and effective: access, operation and evacuation of fire-fighting vehicles and emergency personnel evacuation of residents, occupants and visitors.</p>	<p>DTS/DPF 5.1</p> <p>Roads:</p> <ul style="list-style-type: none"> <li>(a) are constructed with a formed, all-weather surface</li> <li>(b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road</li> <li>(c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road</li> <li>(d) have a minimum formed road width of 6m</li> <li>(e) provide overhead clearance of not less than 4.0m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1)</li> <li>(f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)</li> <li>(g) incorporating cul-de-sac endings or dead end roads do not exceed 200m in length and the end of the road has either: <ul style="list-style-type: none"> <li>(i) a turning area with a minimum formed surface radius of 12.5m (Figure 3)</li> <li>or</li> <li>(ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 4)</li> </ul> </li> <li>(h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</li> </ul>
<p>PO 5.2</p> <p>Access to habitable buildings is designed and constructed to facilitate the safe and effective: access, operation and evacuation of fire-fighting vehicles and emergency personnel evacuation of residents, occupants and visitors.</p>	<p>DTS/DPF 5.2</p> <p>Access is in accordance with (a) or (b):</p> <ul style="list-style-type: none"> <li>(a) a clear and unobstructed vehicle or pedestrian pathway of not greater than 60 metres in length is available between the most distant part of the habitable building and the nearest part of a formed public access road</li> <li>(b) driveways: <ul style="list-style-type: none"> <li>(i) do not exceed 600m in length</li> <li>(ii) are constructed with a formed, all-weather surface</li> <li>(iii) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8)</li> <li>(iv) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway</li> <li>(v) have a crossfall of not more than 6 degrees (1-in-9.5) at any point along the driveway</li> <li>(vi) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 1)</li> <li>(vii) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 5)</li> <li>(viii) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 1)</li> <li>(ix) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)</li> <li>(x) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by using a 'U' shaped drive through design or by incorporating at the end of the driveway either: <ul style="list-style-type: none"> <li>A. a loop road around the building</li> <li>or</li> <li>B. a turning area with a minimum radius of 12.5m (Figure 3)</li> <li>or</li> <li>C. a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 4)</li> </ul> </li> <li>(xi) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</li> </ul> </li> </ul>
<p>PO 5.3</p> <p>Development does not rely on fire tracks as means of evacuation or access for fire-fighting purposes unless there are no safe alternatives available.</p>	<p>DTS/DPF 5.3</p> <p>None are applicable.</p>

**Procedural Matters (PM) - Referrals**

## Hazards (Bushfire - Outback) Overlay

### Assessment Provisions (AP)

#### Desired Outcome (DO)

Desired Outcome	
DO 1	Development is located to minimise the threat and impact of bushfires on life and property taking into account the increased frequency and intensity of bushfires as a result of climate change.
DO 2	To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger.

#### Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Habitable Buildings	
<p>PO 1.1</p> <p>Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain.</p>	<p>DTS/DPF 1.1</p> <p>Residential and tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zones(s) in accordance with (a) and (b):</p> <p>(a) the asset protection zone has a minimum width of at least 50 metres</p> <p>(b) the asset protection zone is contained wholly within the allotment of the development.</p>
Vehicle Access - Roads and Driveways	
<p>PO 2.1</p> <p>Roads are designed and constructed to facilitate the safe and effective: access, operation and evacuation of fire-fighting vehicles and emergency personnel evacuation of residents, occupants and visitors</p>	<p>DTS/DPF 2.1</p> <p>Roads:</p> <p>(a) are constructed with a formed, all-weather surface</p> <p>(b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road</p> <p>(c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road</p> <p>(d) have a minimum formed road width of 6m</p> <p>(e) provide overhead clearance of not less than 4m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1)</p> <p>(f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)</p> <p>(g) incorporating cul-de-sac endings or dead end roads do not exceed 200m in length and the end of the road has either:</p> <p>(i) a turning area with a minimum formed surface radius of 12.5m (Figure 3)</p> <p>or</p>

	(ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 4)
	(h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.
PO 2.2 Access to habitable buildings is designed and constructed to facilitate the safe and effective: access, operation and evacuation of fire-fighting and emergency personnel evacuation of residents, occupants and visitors.	DTS/DPF 2.2 Access is in accordance with (a) or (b):  (a) a clear and unobstructed vehicle or pedestrian pathway of not greater than 60 metres in length is available between the most distant part of the habitable building and the nearest part of a formed public access road  (b) driveways: (i) do not exceed 600m in length (ii) are constructed with a formed, all-weather surface (iii) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8) (iv) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway (v) have a crossfall of not more than 6 degrees (1-in-9.5) at any point along the driveway (vi) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 1) (vii) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 5) (viii) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 1) (ix) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 2) (x) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by using a 'U' shaped drive through design or by incorporating at the end of the driveway either: A. a loop road around the building or B. a turning area with a minimum radius of 12.5m (Figure 3) or C. a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 4) (xi) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.

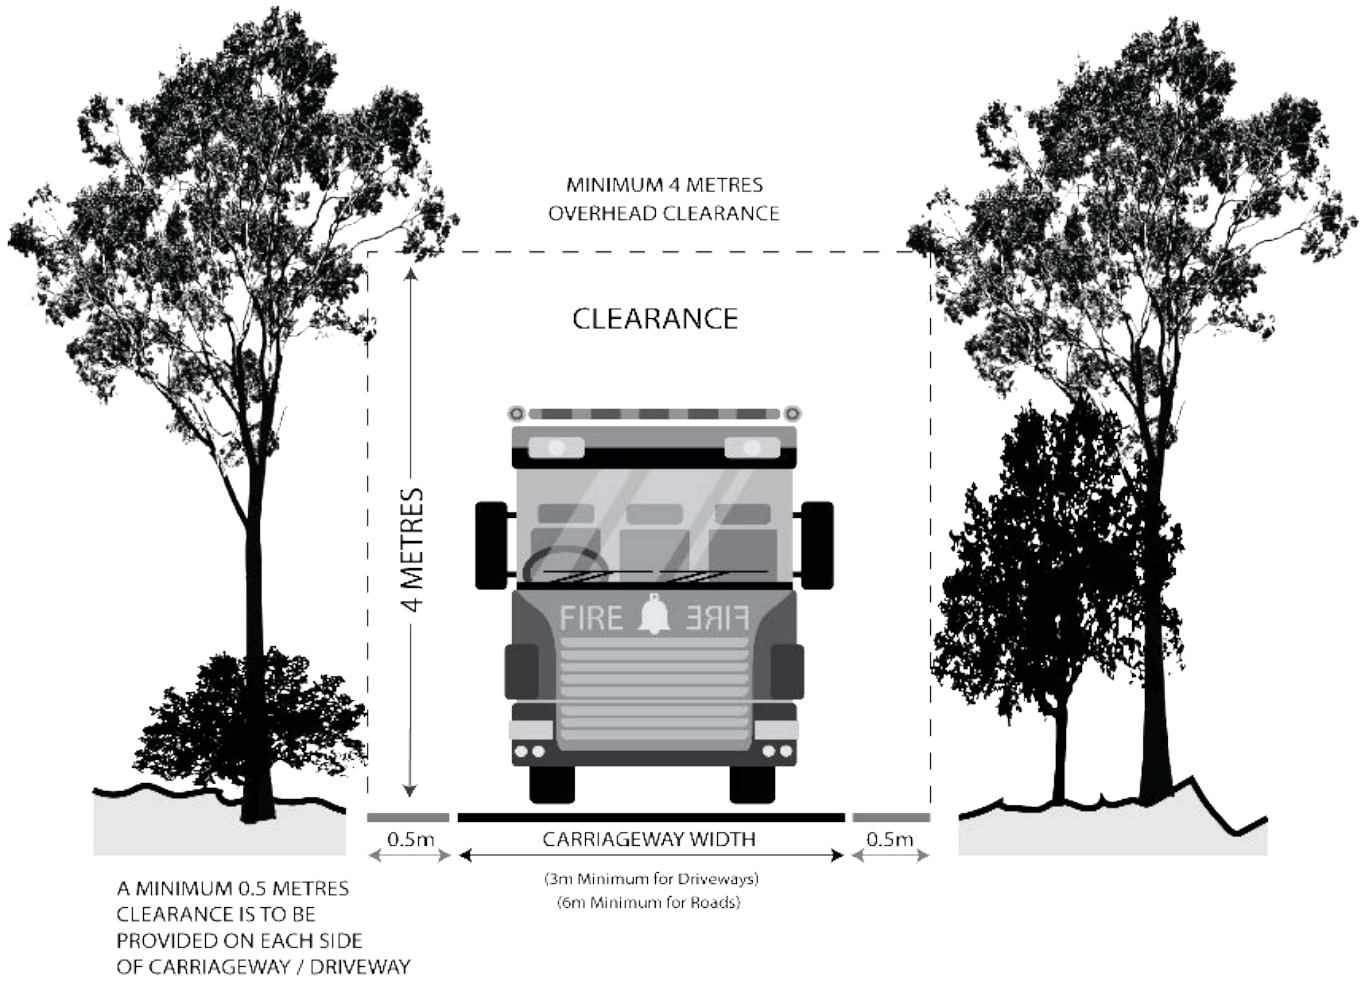

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Hazards (Bushfire - Regional) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development, including land division responds to the relevant level of bushfire risk and is sited and designed to mitigate the threat and impact of bushfires on life and property taking into account the increased frequency and intensity of bushfires as a result of climate change.
DO 2	To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Siting	
PO 1.1 Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain.	DTS/DPF 1.1 None are applicable.
Built Form	
PO 2.1 Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts.	DTS/DPF 2.1 None are applicable.
PO 2.2 Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) in the event of bushfire.	DTS/DPF 2.2 Outbuildings and other ancillary structures are sited no closer than 6m from the habitable building.
Habitable Buildings	
PO 3.1 To minimise the threat, impact and exposure to bushfires on life and property, residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments away from steep slopes.	DTS/DPF 3.1 None are applicable.
PO 3.2 Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited away from vegetated areas that pose an unacceptable bushfire risk.	DTS/DPF 3.2 Residential and tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zone(s) in accordance with (a) and (b): (a) the asset protection zone has a minimum width of at least: (i) 50 metres to unmanaged grasslands (ii) 100 metres to hazardous bushland vegetation (b) the asset protection zone is contained wholly within the allotment of the development.
PO 3.3 Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) has a dedicated and accessible water supply available at all times for fire-fighting purposes.	DTS/DPF 3.3 Development has a dedicated water supply available at all times for fire-fighting purposes: comprising a minimum of 5000 litres positioned in an accessible location and accompanied with necessary equipment to allow occupants to minimise the spread of bushfire to the habitable building(s).
Land Division	
PO 4.1 Land division is designed to and incorporates measures to minimise the danger of fire hazard to residents and occupants of buildings, and to protect buildings and property from physical damage in the event of a bushfire.	DTS/DPF 4.1 None are applicable.
PO 4.2 Land division designed to provide a continuous street pattern to facilitate the safe movement and evacuation of emergency vehicles, residents, occupants and visitors.	DTS/DPF 4.2 None are applicable.
PO 4.3 Where 10 or more new allotments are proposed, land division includes at least two separate and safe exit points to enable multiple avenues of evacuation in the event of a bushfire.	DTS/DPF 4.3 None are applicable.
PO 4.4 Land division incorporates perimeter roads of adequate design in conjunction with bushfire buffer zones to achieve adequate separation between residential allotments and areas of unacceptable bushfire risk and to support safe access for the purposes of fire-fighting.	DTS/DPF 4.4 None are applicable.

Vehicle Access -Roads and Driveways

<p>PO 5.1</p> <p>Roads are designed and constructed to facilitate the safe and effective: access, operation and evacuation of fire-fighting vehicles and emergency personnel evacuation of residents, occupants and visitors.</p>	<p>DTS/DPF 5.1</p> <p>Roads:</p> <ul style="list-style-type: none"> <li>(a) are constructed with a formed, all-weather surface</li> <li>(b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road</li> <li>(c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road</li> <li>(d) have a minimum formed road width of 6m</li> <li>(e) provide overhead clearance of not less than 4.0m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1)</li> <li>(f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)</li> <li>(g) incorporating cul-de-sac endings or dead end roads do not exceed 200m in length and the end of the road has either:             <ul style="list-style-type: none"> <li>(i) a turning area with a minimum formed surface radius of 12.5m (Figure 3) or</li> <li>(ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 4)</li> </ul> </li> <li>(h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</li> </ul>
<p>PO 5.2</p> <p>Access to habitable buildings is designed and constructed to facilitate the safe and effective: access, operation and evacuation of fire-fighting vehicles and emergency personnel evacuation of residents, occupants and visitors.</p>	<p>DTS/DPF 5.2</p> <p>Access is in accordance with (a) or (b):</p> <ul style="list-style-type: none"> <li>(a) a clear and unobstructed vehicle or pedestrian pathway of not greater than 60 metres in length is available between the most distant part of the habitable building and the nearest part of a formed public access road</li> <li>(b) driveways:             <ul style="list-style-type: none"> <li>(i) do not exceed 600m in length</li> <li>(ii) are constructed with a formed, all-weather surface</li> <li>(iii) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8)</li> <li>(iv) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway</li> <li>(v) have a crossfall of not more than 6 degrees (1-in-9.5) at any point along the driveway</li> <li>(vi) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 1)</li> <li>(vii) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 5)</li> <li>(viii) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 1)</li> <li>(ix) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)</li> <li>(x) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by using a 'U' shaped drive through design or by incorporating at the end of the driveway either:             <ul style="list-style-type: none"> <li>A. a loop road around the building or</li> <li>B. a turning area with a minimum radius of 12.5m (Figure 3) or</li> <li>C. a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 4)</li> </ul> </li> <li>(xi) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</li> </ul> </li> </ul>

Hazards (Bushfire - Urban Interface) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Urban neighbourhoods that adjoin areas of General, Medium and High Bushfire Risk:
(a)	allow access through to bushfire risk areas
(b)	are designed to protect life and property from the threat of bushfire and the dangers posed by ember attack
(c)	facilitate evacuation to areas safe from bushfire danger.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Division	
PO 1.1 Land division creating public roads or resulting in 10 or more new allotments is designed to make provision for emergency vehicle access through to the bushfire risk area.	DTS/DPF 1.1 Land division creates less than 10 allotments and/or does not involve the creation of public roads.
PO 1.2 Land division is designed to provide a continuous street pattern to facilitate the safe movement and evacuation of emergency vehicles, residents, occupants and visitors.	DTS/DPF 1.2 Land division does not involve the creation of public roads.
PO 1.3 Where 10 or more new allotments are proposed, land division includes at least two separate and safe exit points to enable multiple avenues of evacuation in the event of a bushfire.	DTS/DPF 1.3 Land division creates less than 10 allotments.
PO 1.4 Land division creating public roads or resulting in 10 or more new allotments incorporates perimeter roads of adequate design in conjunction with bushfire buffer zones to achieve adequate separation between residential allotments and areas of unacceptable bushfire risk and to support safe access for the purposes of fire-fighting.	DTS/DPF 1.4 Land division creates less than 10 allotments and/or does not involve the creation of public roads.
PO 1.5 Land division does not rely on fire tracks as means of evacuation or access for fire-fighting purposes unless there are no safe alternatives available.	DTS/DPF 1.5 Land division does not create or rely on fire tracks.
PO 1.6 Land division resulting in 10 or more new allotments and within 100m a Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire - Medium Risk) Overlay or Hazards (Bushfire - High Risk) Overlay is designed and incorporates measures to minimise the danger of fire hazard to residents and occupants of buildings, and to protect buildings and property from physical damage in the event of a bushfire.	DTS/DPF 1.6 Land division is not located within 100m of a Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire - Medium Risk) Overlay or Hazards (Bushfire - High Risk) Overlay or does not create 10 or more new allotments.
Vehicle Access - Roads, Driveways and Fire Tracks	
PO 2.1 Roads that are within 100 metres of a Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire - Medium Risk) Overlay or Hazards (Bushfire - High Risk) Overlay are designed and constructed to facilitate the safe and effective:  access, operation and evacuation of fire-fighting vehicles and emergency personnel evacuation of residents, occupants and visitors.	DTS/DPF 2.1 Any proposed new roads are not within 100m of a Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire - Medium Risk) Overlay or Hazards (Bushfire - High Risk) Overlay or  (a) are constructed with a formed, all-weather surface (b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road (c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road (d) have a minimum formed road width of 6m (e) provide overhead clearance of not less than 4.0m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1) (f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2) (g) incorporating cul-de-sac endings or dead end roads do not exceed 200m in length and the end of the road has either: (i) a turning area with a minimum formed surface radius of 12.5m (Figure 3) or (ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 4) (h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.

**Procedural Matters (PM) - Referrals**

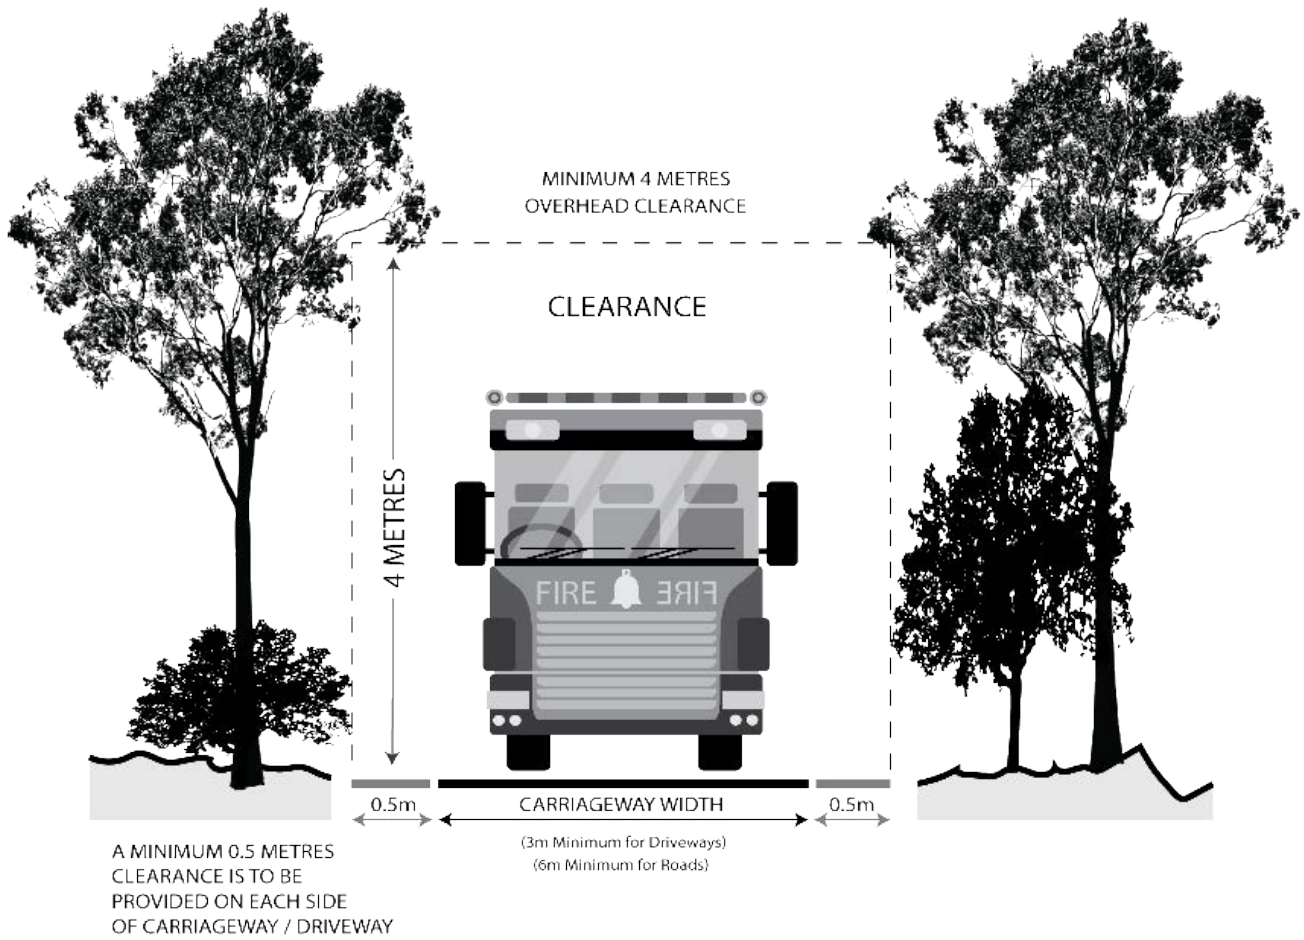

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Figures and Diagrams

Fire Engine and Appliance Clearances

Figure 1 - Overhead and Side Clearances

Roads and Driveway Design

Figure 2 - Road and Driveway Curves

Curves to allow fire trucks to turn into the track without having to back-up several times - minimum external radius of 12.5m.

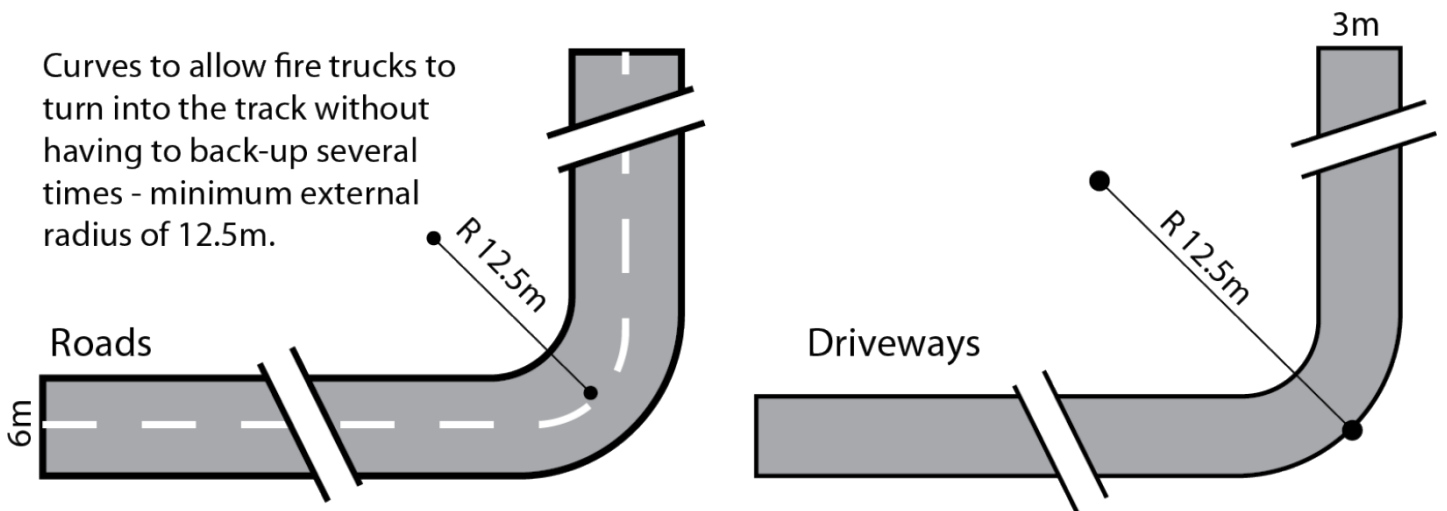

Figure 3 - Full Circle Turning Area

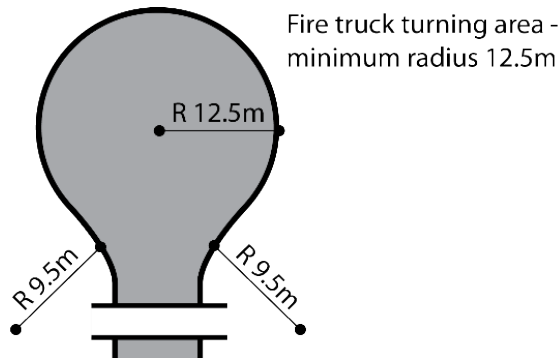

Figure 4 - 'T' or 'Y' Shaped Turning Head

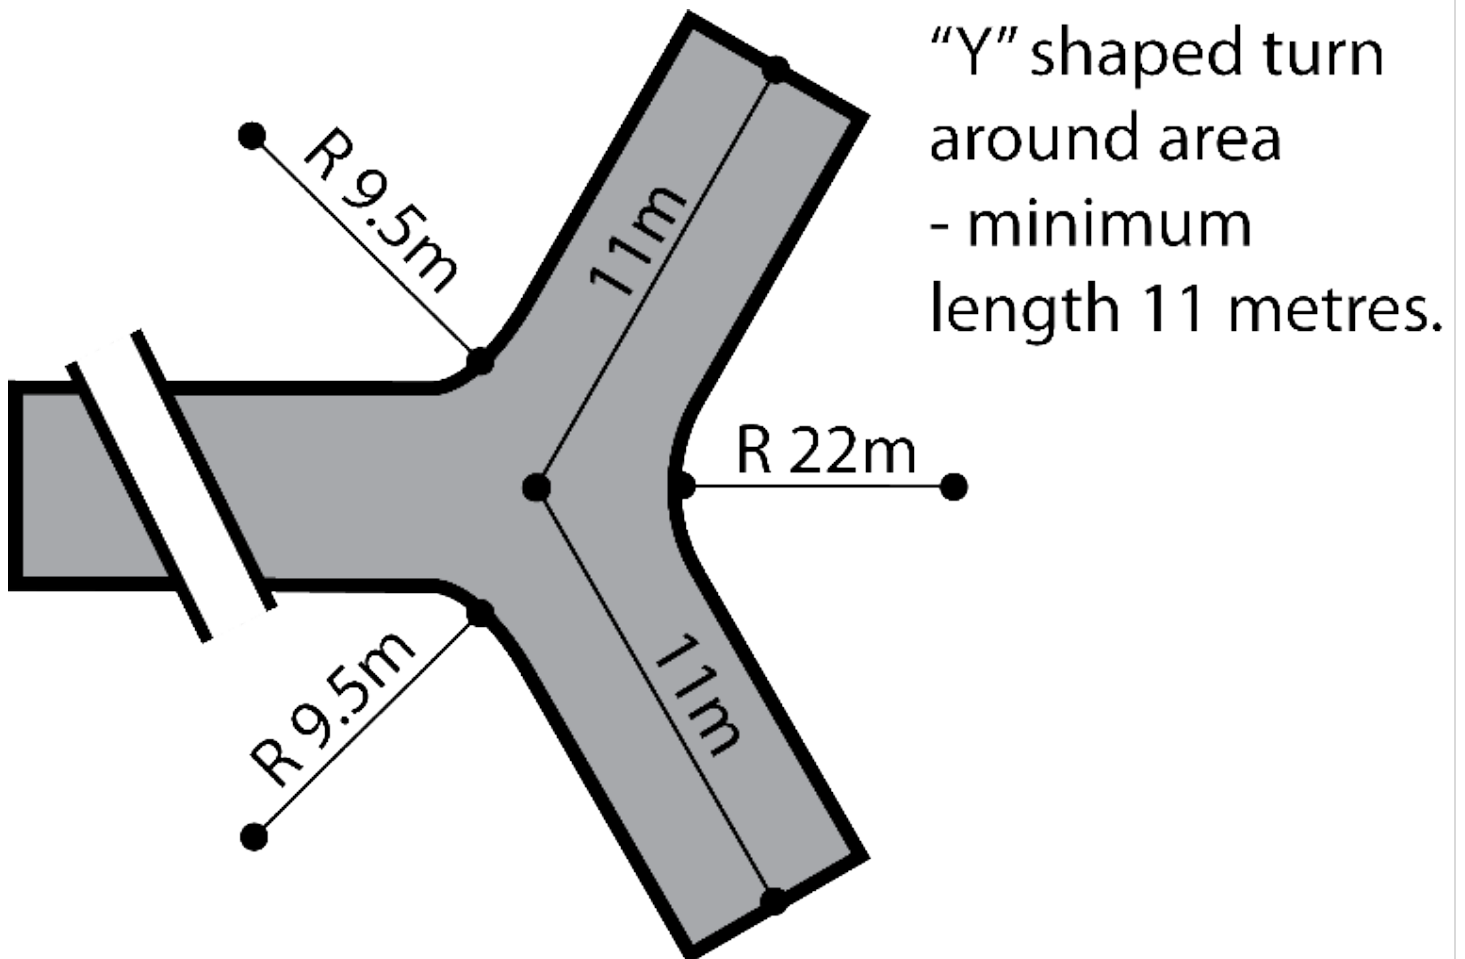

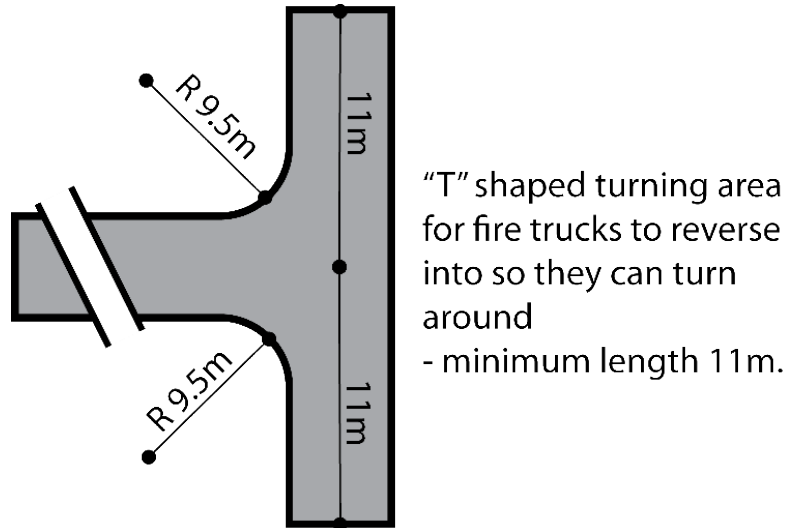

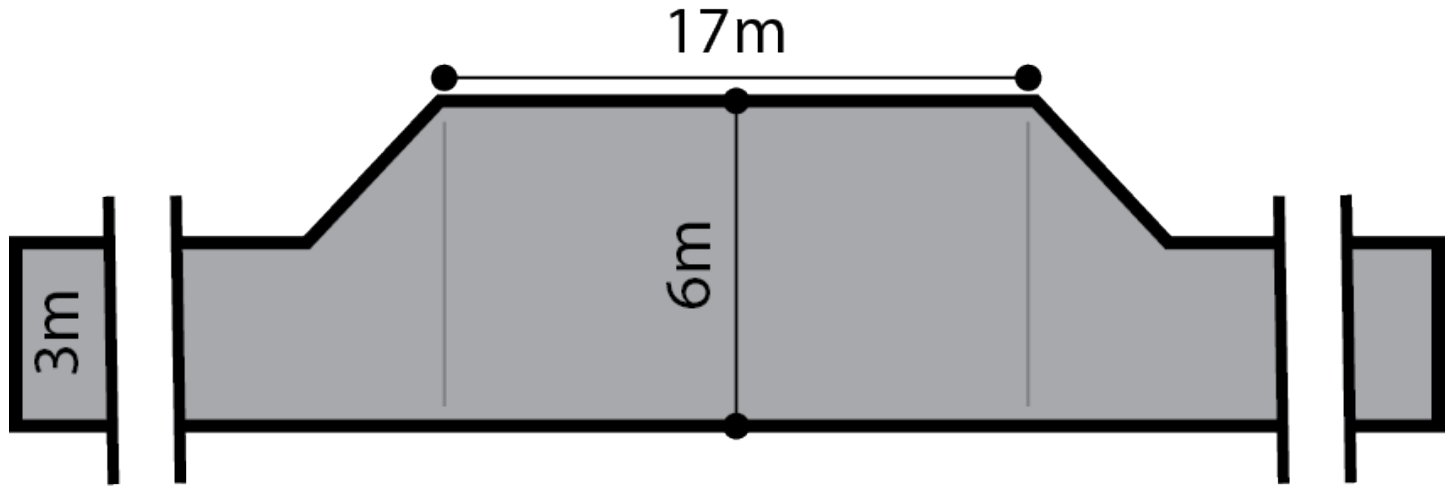

Figure 5 - Driveway Passing Bays

# Passing bay for fire trucks - minimum width 6 metres, minimum length 17 metres.

## Hazards (Flooding) Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Impacts on people, property, infrastructure and the environment from high flood risk are minimised by retaining areas free from development, and minimising intensification where development has occurred.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Division	
PO 1.1 Land division is limited to areas where the consequences to buildings and safety are low and can be readily managed or overcome.	DTS/DPF 1.1 None are applicable.
Land Use	
PO 2.1 Development sited and designed to minimise exposure of people and property to unacceptable flood risk.	DTS/DPF 2.1 None are applicable.
PO 2.2 Buildings housing vulnerable people, community services facilities, key infrastructure and emergency services are sited away from flood prone areas to enable uninterrupted operation of services and reduce likelihood of entrapment.	DTS/DPF 2.2 Child care facilities, educational facilities, retirement and supported accommodation, emergency services facilities, hospitals and prisons are not located within the Overlay area.
Flood Resilience	
PO 3.1 Development avoids the need for flood protection works.	DTS/DPF 3.1 None are applicable.
PO 3.2 Development does not cause unacceptable impacts on any adjoining property by the diversion of flood waters or an increase in flood velocity or flood level.	DTS/DPF 3.2 None are applicable.
PO 3.3 Development does not impede the flow of floodwaters through the allotment or the surrounding land, or cause an unacceptable loss of flood storage.	DTS/DPF 3.3 None are applicable.

PO 3.4 Development avoids frequently flooded or high velocity areas, other than where it is part of a flood mitigation scheme to reduce flood impact.	DTS/DPF 3.4 Other than a recreation area, development is located outside of the 5% AEP principal flow path.
PO 3.5 Buildings are sited, designed and constructed to prevent the entry of floodwaters in a 1% AEP flood event where the entry of floodwaters is likely to result in undue damage to, or compromise ongoing activities within, buildings.	DTS/DPF 3.5 Buildings comprise one of the following: (a) a porch or portico with at least 2 open sides (b) a verandah with at least 3 open sides (c) a carport or outbuilding with at least 2 open sides (whichever elevations face the direction of the flow) (d) any post construction with open sides (e) a building with a finished floor level that is at least 300mm above the height of a 1% AEP flood event.
PO 3.6 Fences do not unreasonably impede floodwaters.	DTS/DPF 3.6 A post and wire fence (other than a chain mesh fence).
Environmental Protection	
PO 4.1 Buildings and structures used either partly or wholly to contain or store hazardous materials are designed to prevent spills or leaks leaving the confines of the building during a 1% AEP flood event to avoid potential environmental harm.	DTS/DPF 4.1 Development involving the storage or disposal of hazardous materials is wholly located outside of the 1% AEP flood plain or flow path.
PO 4.2 Development does not create or aggravate the potential for erosion or siltation or lead to the destruction of vegetation during a flood.	DTS/DPF 4.2 None are applicable.
Site Earthworks	
PO 5.1 The depth and extent of filling required to raise the finished floor level of a building does not cause unacceptable impact on any adjoining property by diversion of flood waters, an increase in flood velocity or flood level, or an unacceptable loss of flood storage.	DTS/DPF 5.1 None are applicable.
PO 5.2 Driveways, access tracks and parking areas are designed and constructed to minimise excavation and filling.	DTS/DPF 5.2 Filling for ancillary purposes: (a) does not exceed 300mm above existing ground level (b) is no more than 5m wide.
Access	
PO 6.1 Development does not occur on land: ) from which evacuation to areas not vulnerable to flood risk is not possible during a 1% AEP flood event ) which cannot be accessed by emergency services vehicles or essential utility service vehicles during a 1% AEP flood event.	DTS/DPF 6.1 None are applicable.
PO 6.2 Access driveways and tracks to significant development (i.e. dwellings, places of work, etc.) consist of a safe, all-weather trafficable surface that is accessible during a 1% AEP flood event.	DTS/DPF 6.2 None are applicable.

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. In instances where no finished floor level value is specified, a building incorporates a finished floor level at least 300mm above the height of a 1% AEP flood event.	

Environmental Protection	
<p>PO 3.1</p> <p>Buildings and structures used either partly or wholly to contain or store hazardous materials are designed to prevent spills or leaks leaving the confines of the building during a 1% AEP flood event to avoid potential environmental harm.</p>	<p>DTS/DPF 3.1</p> <p>Development involving the storage or disposal of hazardous materials is wholly located outside of the 1% AEP flood plain or flow path.</p>

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Hazards (Flooding - Evidence Required) Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Development adopts a precautionary approach to mitigate potential impacts on people, property, infrastructure and the environment from potential flood risk through the appropriate siting and design of development.

Performance Outcome		Deemed-to-Satisfy Criteria / Designated Performance Feature	
Flood Resilience			
PO 1.1 Development is sited, designed and constructed to minimise the risk of entry of potential floodwaters where the entry of flood waters is likely to result in undue damage to or compromise ongoing activities within buildings.	(a) (b)	DTS/DPF 1.1 Habitable buildings, commercial and industrial buildings, and buildings used for animal keeping incorporate a finished floor level at least 300mm above: the highest point of top of kerb of the primary street or the highest point of natural ground level at the primary street boundary where there is no kerb	
Environmental Protection			
PO 2.1 Buildings and structures used either partly or wholly to contain or store hazardous materials are designed to prevent spills or leaks leaving the confines of the building.		DTS/DPF 2.1 Development does not involve the storage of hazardous materials.	

### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

### Heritage Adjacency Overlay

#### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development adjacent to State and Local Heritage Places maintains the heritage and cultural values of those Places.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome		Deemed-to-Satisfy Criteria / Designated Performance Feature	
Built Form			
PO 1.1 Development adjacent to a State or Local Heritage Place does not dominate, encroach on or unduly impact on the setting of the Place.		DTS/DPF 1.1 None are applicable.	
Land Division			
PO 2.1 Land division adjacent to a State or Local Heritage Place creates allotments that are of a size and dimension that enables the siting and setbacks of new buildings from allotment boundaries so that they do not dominate, encroach or unduly impact on the setting of the Place.		DTS/DPF 2.1 None are applicable.	

### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Development which in the opinion of the relevant authority materially affects the context within which the <b>State Heritage Place</b> is situated.	Minister responsible for the administration of the <i>Heritage Places Act 1993</i> .	To provide expert assessment and direction to the relevant authority on the potential impacts of development adjacent State Heritage Places.	Development of a class to which Schedule 9 clause 3 item 4616

## Historic Area Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Historic themes and characteristics are reinforced through conservation and contextually responsive development, design and adaptive reuse that responds to existing coherent patterns of land division, site configuration, streetscapes, building siting and built scale, form and features as exhibited in the Historic Area and expressed in the Historic Area Statement.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
All Development	
PO 1.1 All development is undertaken having consideration to the historic streetscapes and built form as expressed in the Historic Area Statement.	DTS/DPF 1.1 None are applicable.
Built Form	
PO 2.1 The form and scale of new buildings and structures that are visible from the public realm are consistent with the prevailing historic characteristics of the historic area.	DTS/DPF 2.1 None are applicable.
PO 2.2 Development is consistent with the prevailing building and wall heights in the historic area.	DTS/DPF 2.2 None are applicable.
PO 2.3 Design and architectural detailing of street-facing buildings (including but not limited to roof pitch and form, openings, chimneys and verandahs) complement the prevailing characteristics in the historic area.	DTS/DPF 2.3 None are applicable.
PO 2.4 Development is consistent with the prevailing front and side boundary setback pattern in the historic area.	DTS/DPF 2.4 None are applicable.
PO 2.5 Materials are either consistent with or complement those within the historic area.	DTS/DPF 2.5 None are applicable.
Alterations and additions	
PO 3.1 Alterations and additions complement the subject building, employ a contextual design approach and are sited to ensure they do not dominate the primary façade.	DTS/DPF 3.1 Alterations and additions are fully contained within the roof space of an existing building with no external alterations made to the building elevation facing the primary street.
PO 3.2 Adaptive reuse and revitalisation of buildings to support retention consistent with the Historic Area Statement.	DTS/DPF 3.2 None are applicable.
Ancillary development	
PO 4.1 Ancillary development, including carports, outbuildings and garages, complements the historic character of the area and associated buildings.	DTS/DPF 4.1 None are applicable.
PO 4.2 Ancillary development, including carports, outbuildings and garages, is located behind the building line of the principal building(s) and does not dominate the building or its setting.	DTS/DPF 4.2 None are applicable.

PO 4.3	Advertising and advertising hoardings are located and designed to complement the building, be unobtrusive, be below the parapet line, not conceal or obstruct significant architectural elements and detailing, or dominate the building or its setting.	DTS/DPF 4.3	None are applicable.
PO 4.4	Fencing and gates closer to a street boundary (other than a laneway) than the elevation of the associated building are consistent with the traditional period, style and form of the associated building.	DTS/DPF 4.4	None are applicable.
Land Division			
PO 5.1	Land division creates allotments that are:  <ul style="list-style-type: none"> <li>) compatible with the surrounding pattern of subdivision in the historic area</li> <li>) of a dimension to accommodate buildings of a bulk and scale that reflect existing buildings and setbacks in the historic area</li> </ul>	DTS/DPF 5.1	None are applicable.
Context and Streetscape Amenity			
PO 6.1	The width of driveways and other vehicle access ways are consistent with the prevailing width of existing driveways of the historic area.	DTS/DPF 6.1	None are applicable.
PO 6.2	Development maintains the valued landscape patterns and characteristics that contribute to the historic area, except where they compromise safety, create nuisance, or impact adversely on buildings or infrastructure.	DTS/DPF 6.2	None are applicable.
Demolition			
PO 7.1	Buildings and structures, or features thereof, that demonstrate the historic characteristics as expressed in the Historic Area Statement are not demolished, unless:  <ul style="list-style-type: none"> <li>) the front elevation of the building has been substantially altered and cannot be reasonably restored in a manner consistent with the building's original style</li> <li>or</li> <li>) the structural integrity or safe condition of the original building is beyond reasonable repair.</li> </ul>	DTS/DPF 7.1	None are applicable.
PO 7.2	Partial demolition of a building where that portion to be demolished does not contribute to the historic character of the streetscape.	DTS/DPF 7.2	None are applicable.
PO 7.3	Buildings or elements of buildings that do not conform with the values described in the Historic Area Statement may be demolished.	DTS/DPF 7.3	None are applicable.
Ruins			
PO 8.1	Development conserves and complements features and ruins associated with former activities of significance.	DTS/DPF 8.1	None are applicable.

**North Adelaide Childers East Historic Area Statement (Adel2)**

The Historic Area Overlays identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

<p>Eras, themes and context</p>	<p>1837 to 1901 - Victorian period.</p> <p>1901 to 1910 - Edwardian period.</p> <p>1920's to 1942 - Inter-war period.</p> <p>Mansions; historic low and medium density detached and semi-detached residential development such as typical cottages and terrace houses.</p>
---------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Statement#	Statement	
	<p>Allotments, subdivision and built form patterns</p>	<p>Range of subdivision patterns including large allotments together with low and medium density residential development on narrow frontages.</p> <p><u>Childers Street</u></p> <p>Consistently sited row cottages on north side. Varying setbacks on south side.</p> <p><u>Gover Street</u></p> <p>Generous scale and siting of heritage placed on south side (west of Mansfield Street).</p> <p><u>Jeffcott Street</u></p> <p>North of Childers Street, consistent and intensive built form edge to the eastern frontage sited on or close to the primary street frontage. South of Childers Street, buildings sited close to the primary street frontage.</p> <p><u>Barton Terrace West</u></p> <p>Cohesive edge along Barton Terrace West.</p>
<p>Adel2</p>	<p>Architectural styles, detailing and built form features</p>	<p>Victorian housing consisting of single fronted, symmetrically fronted, and asymmetrically fronted houses, some with bay fronted projections; contains vertically proportioned window and door surrounds highlighted with moulded render or brick dressings with roofs that are generally hipped in form, with the asymmetrical style, gable ended or hipped roof to the projecting bay, concave or convex verandah roof and four panelled doors with fanlights and often sidelights.</p> <p>Edwardian housing with prominent strapped gables and detailing, tall brick chimneys, verandahs incorporated under the main pitch of the roof verandahs with a convex (or bullnose) profile.</p> <p>Inter-War Housing consisting of bungalows incorporating a broad spreading roof and verandah with typical masonry columns supporting verandah elements and the expansive two storey version was often known as a Gentlemen's Bungalow; and Tudor Revival style displaying steeply pitched roofs with half-timber gable ends and variations of the verandah porch treatments.</p> <p>Elegant and finely detailed mansions; Large Villas set on large allotments.</p> <p><u>Childers Street</u></p> <p>Victorian, Edwardian and Inter-war housing.</p> <p>Single storey Local Heritage Places, including consistently sited single-storey row cottages, detached cottages and the occasional terrace house with narrow frontages on the northern side and on the southern side, detached and attached cottages with varying set-backs.</p> <p>Continuity of verandahs and parapets and roof profiles.</p> <p>Single storey detached or semi-detached cottages on the southern side.</p> <p><u>Gover Street</u></p> <p>Victorian and Edwardian housing.</p> <p>Primarily single storey detached dwellings.</p> <p>Generous scale and siting patterns of Heritage Places to the southern side of street west of Mansfield Street.</p> <p><u>Jeffcott Street</u></p> <p>Diversity of traditional dwelling types reflecting the different stages of early Victorian residential development.</p> <p>Low scale row dwellings (north of Childers Street).</p> <p>Larger detached bay window and gable-fronted villas on individual sites</p>

Statement#	Statement	
		<p>Continuity of roof and verandah profiles north of Childers Street.</p> <p><u>Barton Terrace West</u></p> <p>Highly modified character.</p> <p>Victorian and Edwardian housing.</p> <p>One or two storey detached or semi-detached dwellings.</p> <p><u>Hack Street</u></p> <p>Intimate character derived from Victorian single storey detached cottages.</p> <p>Single width car parking.</p> <p><u>Mansfield Street</u></p> <p>Single storey detached, semi-detached and row cottages.</p>
Building height		<p>Low scale, one and two storey residential.</p> <p>Single storey in appearance along the Childers Street, Gover Street, Jeffcott Street, Hack Street and Mansfield Street frontages.</p>
Materials		<p><u>Victorian Houses</u></p> <p>Bluestone, limestone or sandstone, with brick or rubble side and rear walls.</p> <p>Timber framed windows and doors.</p> <p>Cast iron or timber posts to the verandahs elaborated with moulded capitals and trim, and widely used cast iron brackets and frieze decoration.</p> <p>Fencing consisting of masonry base and piers with cast iron panels or railings, timber railing, timber picket fencing for smaller houses.</p> <p><u>Edwardian Houses</u></p> <p>Face brick walling with decorative brick detailing, ashlar stone with brick dressings or moulded render or 'rock face' sandstone (or freestone) for wall material.</p> <p>Unglazed terracotta Marseilles roof tiles, corrugated iron roof cladding.</p> <p>Timber framed windows and doors. Windows often grouped and doors often divided into three or four horizontal panels.</p> <p>Masonry fencing with cast iron palisade, or timber (picket).</p> <p><u>Inter-War Houses</u></p> <p>Australian-made Wunderlich roof tiles.</p> <p>Timber joinery with some use of metal framed windows.</p> <p>Typically low masonry walls, built from materials matching the main building.</p>
Fencing		<p>Low, open front fencing (including secondary streets to the main façade of the building) associated with the traditional period and style of the building up to 1.2 metres, allowing views to the building. Rear and side boundary fences (behind main building façade) to 2 metres, and 1.8 metres on corner sites.</p> <p>Front fences of stone and cast iron, brick, stone or rendered pillars and plinths, timber or well detailed masonry.</p> <p>Brick, rendered masonry and timber side fences on secondary street frontages.</p> <p>Rear and side fences (behind main face of building) of corrugated metal sheeting.</p>

Statement#	Statement	
	Setting, landscaping, streetscape and public realm features	<p>Tall trees at the intersection of Barton Terrace West and Jeffcott Street create an imposing 'gateway' to this major entrance to North Adelaide and complement the character of existing street tree planting.</p> <p>Street trees and high quality paving and landscaping.</p> <p>Existing vehicle access points along Barton Terrace West.</p> <p><u>Hack Street</u></p> <p>Intimate character of narrow streets.</p>
	Representative Buildings	<p>[Not identified]</p>
Adel3	<b>North Adelaide Wellington Square Historic Area Statement (Adel3)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context	<p>1837 to 1901 - Victorian period.</p> <p>1920's to 1942 - Inter-war period.</p> <p>Residential development. Important historical public space.</p>	
Allotments, subdivision and built form patterns	<p>Cohesive built form edge to the Square. Buildings sited close to side boundaries. Building set-back and subdivision pattern established by Heritage Places.</p>	
Architectural styles, detailing and built form features	<p>Victorian housing consisting of single fronted, symmetrically fronted, and asymmetrically fronted houses, some with bay fronted projections; contains vertically proportioned window and door surrounds highlighted with moulded render or brick dressings with roofs that are generally hipped in form, with the asymmetrical style, gable ended or hipped roof to the projecting bay, concave or convex verandah roof and four panelled doors with fanlights and often sidelights.</p> <p>Inter-War Housing consisting of Bungalows incorporating a broad spreading roof and verandah with typical masonry columns supporting verandah elements and the expansive two storey version was often known as a Gentlemen's Bungalow; and Tudor Revival style displaying steeply pitched roofs with half-timber gable ends and variations of the verandah porch treatments.</p> <p>Historic built form comprising large, single storey Local Heritage places and one or two storey State Heritage places. Townscape is contiguous with and complementary to the townscape character of the major streets which lead into the Square.</p> <p>Detached and semi-detached Victorian and Inter-war housing.</p> <p>Balconies over footpaths are not characteristic to the square.</p>	
Building height	<p>Single and two storey.</p>	
Materials	<p><u>Victorian Houses</u></p> <p>Bluestone, limestone or sandstone, with brick or rubble side and rear walls.</p> <p>Timber framed windows and doors.</p> <p>Cast iron or timber posts to the verandahs elaborated with moulded capitals and trim, and widely used cast iron brackets and frieze decoration.</p> <p>Fencing consisting of masonry base and piers with cast iron panels or railings, timber railing, timber picket fencing for smaller houses.</p> <p><u>Inter-War Houses</u></p> <p>Australian-made Wunderlich roof tiles, face brick and</p>

Representative Buildings		<p><i>[Not identified]</i></p>

**North Adelaide Carclew Historic Area Statement (Adel5)**

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

Eras, themes and context	<p>1837 to 1901 - Victorian period.</p> <p>1901 to 1920s - Edwardian period.</p> <p>1920s to 1942 - Inter-war period.</p> <p>1950 plus - Post War Period.</p> <p>Residential development with intact and generally cohesive townscapes of nineteenth and twentieth century detached houses set in landscaped grounds and imposing two-storey terrace houses.</p>
Allotments, subdivision and built form patterns	<p><u>Strangways Terrace</u></p> <p>Large allotments.</p> <p><u>Ward Street (east of Jeffcott Street)</u></p> <p>Setback established by Heritage Places.</p> <p><u>Ward Street (west of Jeffcott Street) (south side)</u></p> <p>Intimate development pattern.</p> <p>Low density; close grouping of smaller detached cottages of local heritage value located on or near the street to the southern frontage.</p> <p><u>Jeffcott Street</u></p> <p>Dwellings sited close to the street frontage.</p>
Architectural styles, detailing and built form features	<p>Victorian housing consisting of single fronted,</p>

Statement#	Statement
Adel5	<p>symmetrically fronted, and asymmetrically fronted houses, some with bay fronted projections; contains vertically proportioned window and door surrounds highlighted with moulded render or brick dressings with roofs that are generally hipped in form, with the asymmetrical style, gable ended or hipped roof to the projecting bay, concave or convex verandah roof and four panelled doors with fanlights and often sidelights.</p> <p>Edwardian housing with prominent strapped gables and detailing, tall brick chimneys, verandahs incorporated under the main pitch of the roof verandahs with a convex (or bullnose) profile.</p> <p>Inter-War Housing consisting of Bungalows incorporating a broad spreading roof and verandah with typical masonry columns supporting verandah elements and the expansive two storey version was often known as a Gentlemen's Bungalow; and Tudor Revival style displaying steeply pitched roofs with half-timber gable ends and variations of the verandah porch treatments.</p> <p>Post War Housing consisting of Old English and Georgian Revival styles. The Old English Revival style uses elements that reference some Elizabethan/Tudor architectural details, steeply pitched roof form and tall chimneys. The Georgian Revival style displays symmetrical elevation with rendered or brick walls, fanlight above central entrance door, hipped roof form and classically derived proportions and details. This style had no verandah but often displayed an entrance portico. Post-war International Style are generally cubiform with flat roofs, large areas of glass in smooth masonry walls and cantilevered elements and recessed porch areas were typical of the style.</p> <p>Nineteenth and twentieth century detached houses.</p> <p><u>Montefiore Hill, Palmer Place and Brougham Place</u></p> <p>Victorian, Edwardian, Inter-war and Post-war housing.</p> <p>Unique historic townscapes derived from the setting of prominent heritage places and large, generously proportioned mansions set in landscaped grounds, with articulation and modelling with intricate detailing and ornamentation and exhibiting variations in architectural style. Ancillary buildings are subordinate to heritage places and setback from the principal road frontages.</p> <p><u>Strangways Terrace</u></p> <p>Imposing large detached Victorian Villas to the western part of the Terrace.</p> <p>Cohesive detached houses, consistency of masonry facades, vertically proportioned windows, pitched roofs, verandahs and porches within a landscaped setting.</p> <p>Detached and semi-detached dwellings.</p> <p><u>Jeffcott Street</u></p> <p>Victorian, Edwardian and Inter-war housing.</p> <p>North of Ward Street the residential character is derived from the low scale and close grouping of small cottages and row dwellings sited close to the street frontage.</p> <p>South of Ward Street, the townscape character is derived from detached residences, institutional buildings and a large contemporary apartment building.</p> <p>Articulated masonry facades, gable frontages, pitched roofs, verandahs and cast iron decoration.</p> <p><u>Ward Street (east of Jeffcott Street)</u></p> <p>Victorian, Edwardian and Inter-war housing.</p> <p>Detached and semi-detached dwellings and residential flat buildings.</p> <p><u>Ward Street (west of Jeffcott Street)</u></p>

Statement#	Statement	
		<p>Single-storey detached residences of consistent architectural style, form and siting.</p> <p>Plain or articulated gabled frontages with a high proportion of solid to void in the composition of facades of these existing dwellings.</p> <p>Prominence of early limestone walls and outbuildings.</p>
	Building height	<p>Low scale.</p> <p><i>Note: Concept Plan.</i></p>
	Materials	<p><u>Victorian Houses</u></p> <p>Bluestone, limestone or sandstone, with brick or rubble side and rear walls.</p> <p>Timber framed windows and doors.</p> <p>Cast iron or timber posts to the verandahs elaborated with moulded capitals and trim, and widely used cast iron brackets and frieze decoration.</p> <p>Fencing consisting of masonry base and piers with cast iron panels or railings, timber railing, timber picket fencing for smaller houses.</p> <p><u>Edwardian Houses</u></p> <p>Face brick walling with decorative brick detailing, ashlar stone with brick dressings or moulded render or 'rock face' sandstone (or freestone) for wall material.</p> <p>Unglazed terracotta Marseilles roof tiles, corrugated iron roof cladding.</p> <p>Timber framed windows and doors. Windows often grouped and doors often divided into three or four horizontal panels.</p> <p>Masonry fencing with cast iron palisade, or timber (picket).</p> <p><u>Inter-War Houses</u></p> <p>Australian-made Wunderlich roof tiles, face brick and rendered masonry.</p> <p>Timber joinery with some use of metal framed windows.</p> <p><u>Post War Housing</u></p> <p>Old English Revival style displays brick or white rendered walls.</p> <p>Georgian Revival style displays rendered or brick walls.</p> <p>International Style displays large areas of glass and smooth masonry walls.</p> <p>Traditional materials. Stone and brick. Masonry facades with cast iron decoration.</p> <p><u>Montefiore Hill, Palmer Place and Brougham Place</u></p> <p>Stone and brick with intricate detailing and ornamentation.</p> <p><u>Jeffcott Street</u></p> <p>Masonry Facades and cast iron decoration.</p> <p>Ward Street (west of Jeffcott St) limestone walls and outbuildings.</p>
	Fencing	<p>Low, open front fencing (including secondary streets to the main façade of the building) associated with the traditional period and style of the building up to 1.2 metres, allowing views to the building. Rear and side boundary fences (behind main building façade) to 2 metres, and 1.8 metres on corner sites.</p> <p>Front fences of stone and cast iron, brick, stone or rendered pillars and plinths, timber or well detailed masonry.</p>

Statement#	Statement	
		<p>Brick, rendered masonry and timber side fences on secondary street frontages.</p> <p>Rear and side fences (behind main face of building) of corrugated metal sheeting.</p> <p>Boundary fencing to Jeffcott Street.</p>
Setting, landscaping, streetscape and public realm features		<p>High quality streetscapes and setting.</p> <p>Pleasant and attractive pedestrian environment with landscaping in public spaces that complements Palmer Gardens, Brougham Place and the Park Lands below Montefiore Hill.</p> <p>Vistas to major landmark buildings and roof forms, particularly in the vicinity of Bishops' Court where a distinctive silhouette is created by the juxtaposition of steeply pitched roof profiles, gables and tall narrow chimneys, and on Montefiore Hill by the distinctive roof forms of the prominent Carclew mansion. Dwellings set in landscaped grounds.</p> <p>Landscape setting and views to Heritage Places.</p>
Representative Buildings		<i>[Not identified]</i>
<p><b>North Adelaide Archer West Historic Area Statement (Adel6)</b></p>

<b>North Adelaide Women's and Children's Historic Area Statement (Adel10)</b>	
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context	<p>Traditional institutional buildings including Angus Building and Alan Campbell Building at the Women's and Children's Hospital, the Anglican Church Offices, Former dwellings at Memorial Hospital ('The Avenues' and 'Leahurst') and the Cathedral Hotel.</p> <p>North Adelaide retains strong physical evidence of the historical stages of the development of the colony, most particularly the typical 1850s to 1880s village type settlement pattern, with shops and other services. Until 1856, Kermode Street was the 'High Street' of North Adelaide.</p>
Allotments, subdivision and built form patterns	<p><u>King William Street</u></p> <p>Cohesive buildings reinforce the setback pattern established by Heritage Places.</p> <p><u>Sir Edwin Smith Drive (South of Kermode) and Pennington Terrace.</u></p> <p>Buildings reinforce the setback pattern established by Heritage Places.</p> <p><u>Kermode Street</u></p> <p>Buildings that reinforce one of the first local main streets of North Adelaide.</p>
Architectural styles, detailing and built form features	Traditional institutional architecture, including State Heritage Places.
Building height	Low scale Heritage Places on King William Street, Sir Edwin Smith Drive (South of Kermode) and Pennington Terrace.

Adel10

Statement#	Statement	
		Buildings enable the visual prominence of the St Peter's Anglican Cathedral to be seen from the Adelaide Park Lands (Park 11, Park 12, and Park 25).
Materials		Traditional materials reflecting the architectural styles of the Heritage Places.  Cast iron fence and stone walling along Sir Edwin Smith Avenue and Pennington Terrace
Fencing		Low, open front fencing (including secondary streets to the main façade of the building) associated with the traditional period and style of the building up to 1.2 metres, allowing views to the building. Rear and side boundary fences (behind main building façade) to 2 metres, and 1.8 metres on corner sites.
Setting, landscaping, streetscape and public realm features		St Peter's Cathedral, dating from 1869, is a major landmark and visually dominates this area which is characterised by large institutional buildings.  High degree of pedestrian amenity and shelter provided by street trees and on-site landscaping.  Visually interesting streetscapes.  <u>High quality urban realm that supports cultural and community services within the locality.</u> Landscaping and open space breaks up building mass <u>and provides amenity.</u>  Pedestrian comfort is supported by a high quality public realm and limited vehicle access from King William Road and Sir Edwin Smith Drive and Kermod Street.  Park Land frontages including to the Cross of Sacrifice, Brougham Gardens and Peace Park.

**North Adelaide Stanley Historic Area Statement (Adel11)**

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

Eras, themes and context	Low density residential with a distinctive and cohesive character derived from large nineteenth and early twentieth century dwellings and other low density detached and semi-detached dwellings in a variety of forms and styles.  Brougham Place Uniting Church has visual prominence.
Allotments, subdivision and built form patterns	Built form edge to Brougham Gardens and the Park Lands along Brougham Place.  <u>Stanley Street (southern side) and Brougham Place (where it is a visual continuation of Stanley Street)</u>  Close subdivision pattern west of New Street.  <u>Kingston Terrace</u>  Consistent setbacks established by Heritage Places.
Architectural styles, detailing and built form features	Victorian housing that is single fronted, symmetrically fronted, and asymmetrically fronted houses, some with bay fronted projections; contains vertically proportioned window and door surrounds highlighted with moulded render or brick dressings with roofs that are generally hipped in form, with the asymmetrical style, gable ended or hipped roof to the projecting bay, concave or convex form verandah roof and four panelled doors with fanlights and often sidelights.  Edwardian housing with prominent strapped gables and detailing, tall brick chimneys, verandahs incorporated under the main pitch of the roof verandahs with a convex (or bullnose) profile.  Georgian Revival housing displays symmetrical elevation with rendered or brick walls, fanlight above central entrance door, hipped roof form and generally classically derived proportions and details. This style had no verandah but often displayed an entrance portico.  Large nineteenth and early twentieth century dwellings comprising more substantial Victorian, Edwardian and Georgian Revival villas, and other low density detached and semi-detached dwellings in a variety of forms and styles.

Statement#	Statement	
Adel11		<p>Buildings on Stanley Street, Kingston Terrace and Brougham Place are defined by the landfall and escarpment. Development takes advantage of the landfall by providing semi-basement floors.</p> <p><u>Kingston Terrace</u></p> <p>Victorian and Inter-war housing.</p> <p>Large one and two storey detached residences on individual allotments set close to the street with a Park Lands frontage.</p> <p>Towards Lefevre Terrace: Imposing rear elevations of two storey mansions with frontages to Stanley Street.</p> <p>Modelled and articulated, constructed of masonry, with a high proportion of solid to void in the composition of facades and often feature verandahs and balconies.</p> <p><u>Stanley Street (northern side)</u></p> <p>Victorian, Edwardian and Inter-war.</p> <p>Two large mansions set well back from the northern frontage on elevated ground above Stanley Street and large detached and semi-detached residences.</p> <p><u>Stanley Street (southern side) and Brougham Place (where it is a visual continuation of Stanley Street)</u></p> <p>Victorian, Edwardian and Inter-war.</p> <p>Two-storey residences on the southern frontage presenting a single-storey appearance to Stanley Street and Brougham Place due to sloping topography.</p> <p>Consistent set-back of stone Victorian villas typified by rich detailing and cast-iron ornamentation west of New Street.</p> <p>Detached or semi-detached dwellings presenting as single storey to the street frontage.</p> <p><u>Brougham Place (western boundary)</u></p> <p>Imposing and finely detailed Brougham Place Uniting Church with its dominant central tower.</p> <p>Low scaled St Ann's College buildings which step down the Brougham Place frontage reflecting the topography of the locality.</p>
	Building height	<p>Low scale dwellings and buildings that enable views of the City from Stanley Street and Brougham Place.</p> <p><u>Stanley Street (southern side) and Brougham Place (where it is a visual continuation of Stanley Street)</u></p> <p>Single storey to the street frontage.</p>
	Materials	<p><u>Stanley Street (southern side) and Brougham Place (where it is a visual continuation of Stanley Street)</u></p> <p>Stone with rich detailing and cast iron west of New Street.</p> <p><u>Victorian Houses</u></p> <p>Bluestone, limestone or sandstone, with brick or rubble side and rear walls.</p> <p>Timber framed windows and doors.</p> <p>Cast iron or timber posts to the verandahs elaborated with moulded capitals and trim, and widely used cast iron brackets and frieze decoration.</p> <p>Masonry base and piers with cast iron panels or railings, timber railing, timber picket fencing for smaller houses.</p> <p><u>Edwardian Houses</u></p> <p>Face brick walling with decorative brick detailing, ashlar stone with brick dressings or moulded render or 'rock face' sandstone (or freestone) for wall material.</p>

Statement#	Statement	
		<p>Unglazed terracotta Marseilles roof tiles, corrugated iron roof cladding.</p> <p>Timber framed windows and doors. Windows often grouped and doors often divided into three or four horizontal panels.</p> <p>Masonry fencing with cast or wrought iron palisade, or timber.</p> <p><u>Georgian Revival Houses</u></p> <p>The Georgian Revival style displays symmetrical elevation with rendered or brick walls, fanlight above central entrance door, hipped roof form and generally classically derived proportions and details. This style had no verandah but often displayed an entrance portico.</p> <p>Masonry fencing (brick and /or dressed stone or rendered) and may include cast or wrought iron palisade and gates.</p>
	Fencing	<p>Low, open front fencing (including secondary streets to the main façade of the building) associated with the traditional period and style of the building up to 1.2 metres, allowing views to the building. Rear and side boundary fences (behind main building façade) to 2 metres, and 1.8 metres on corner sites.</p> <p><u>Stanley Street (southern side) and Brougham Place (where it is a visual continuation of Stanley Street).</u></p> <p>Stone and cast iron ornamental boundary fencing along street frontage west of New Street.</p>
	Setting, landscaping, streetscape and public realm features	<p>Views of the City from Stanley Street and Brougham Place.</p> <p>Landscape qualities of public and private open space.</p> <p>Vistas to the Park Lands, Brougham Place and the eastern end of Stanley Street.</p> <p>Street trees, avenue planting and other landscaping and a high standard of paving to the public realm.</p> <p>Landmark significance of the Brougham Place Uniting Church.</p> <p>The topography is characterised by the North Adelaide scarp, a steep rise from Melbourne Street to Stanley Street, below which the area is relatively flat, towards the River Torrens. The ridge of the scarp along Kingston Terrace/Stanley Street and the frontages to the Park Lands provided for prestigious residential addresses. The higher concentration of small cottages in the lower section below the scarp reflects the early subdivision of these Town Acres into estates providing workers housing following the establishment of local manufacturing industries such as the Lion Brewery. The creation of the road through Brougham Place in the 1860s and the introduction of horse drawn trams along Melbourne Street in 1878 gave this section of North Adelaide closer links with the rest of the City and made the area an attractive location for workers to live.</p> <p>Vehicle access is via minor streets, side and rear lanes. Vehicle access points have been designed and located to maintain historic kerbing and trees.</p>

**Adelaide Historic Area Statement (Adel14)**

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

Eras, themes and context	<p>Cultural and historic evidence of the creation of the colony and the consolidation of early settlement in Adelaide.</p> <p>1837 to 1901 - Victorian period.</p> <p>1901 to 1920s - Edwardian period.</p> <p>1920's to 1942 - Inter-war period.</p> <p>Broad range of residential stock, from nearby grand villas / mansions on South and East Terraces overlooking the Park Lands (1870-1880) to humble cottages lining the smaller street.</p>
Allotments, subdivision and built form patterns	<p>Subdivision of town acres in the south-east into a network of streets and lanes.</p> <p><u>Ada Street</u></p> <p>Close development pattern of residences.</p>

Statement#	Statement
	<p><u>Carrington Street (east of Marion Street)</u> Consistent setback of Heritage Places.</p> <p><u>Carrington Street (west of Marion Street)</u> Close siting.</p> <p><u>Corryton Street (north of Halifax Street)</u> -Single-storey semi-detached and detached cottages sited close to the street frontage.</p> <p><u>Castle Street</u> Closely sited to the street with narrow frontages.</p> <p><u>Gilles Street</u> Close pattern of development. East of St John Street is a more open subdivision pattern.</p> <p><u>Gladstone Street</u> Sited close to the street frontage.</p> <p><u>Halifax Street (east of Hutt Street)</u> -Single-storey detached and semi-detached cottages of a consistent built form character and the occasional terrace house. -St John's Church is a prominent landmark.</p> <p><u>Halifax Street (west of Hutt Street)</u> -Single-storey attached and detached cottages, a large bay window residence and a two-storey Victorian former corner shop.</p> <p><u>Kate Court</u> -Dwellings sited close to the street frontage.</p> <p><u>Marion Street</u>-Close grouping of 19th century small semi-detached and detached cottages and row cottages.</p> <p><u>McLaren Street and Regent Street South</u> -Closely sited, single-storey cottages and row houses.</p> <p><u>Royal Avenue</u> Close pattern of development.</p> <p><u>St. John Street</u> -The north east townscape is dominated by the substantial scale and richly detailed character of St John's Church, Meeting Hall and Rectory. Western frontage - group of consistently sited dwellings. Eastern frontage - small group of narrow fronted cottages.</p> <p><u>Tomsey Street</u> Single-storey semi-detached and detached cottages.</p>
<p>Architectural styles, detailing and built form features</p>	<p><u>Ada Street</u> A variety of dwellings, including row cottages, small semi-detached cottages and detached bay window cottages make up this historic townscape. A sense of intimacy and enclosure is derived from the narrowness of the street. Consistent pitched roof profiles, verandahs, fenestration and material.</p> <p><u>Carrington Street (east of Marion Street)</u> Comprises single-storey detached, semi-detached and row cottages, terrace houses and contemporary attached dwellings. Vertically proportioned openings, pitched roofs and verandahs.</p> <p><u>Carrington Street (west of Marion Street)</u> Single-storey cottages, row cottages, and terrace houses with historic window proportions, pitched roof profiles, verandah.</p> <p><u>Castle Street</u> Small semi-detached and detached cottages and the single terrace with verandahs along the street and pitched roofs.</p> <p><u>Corryton Street (north of Halifax Street)</u></p>

Statement#	Statement
Adel14	<p>Single-storey semi-detached and detached cottages sited close to the street frontage establishing a rhythm of narrow dwelling facades, fenestration, pitched roof profiles and verandahs.</p> <p><u>Corryton Street (south of Halifax Street)</u></p> <p>Long single-storey row of cottages, with a horizontal emphasis created by the common roof, verandah profiles.</p> <p><u>Gilles Street</u></p> <p>Intimate attached and detached cottages with consistent fenestration, pitched roof profiles and verandah styles.</p> <p>Large detached residences set in landscaped ground east of John Street.</p> <p>Variety of architectural forms.</p> <p><u>Gladstone Street</u></p> <p>Single-storey row and semi-detached cottages sited close to the street frontage. Intimacy and sense of enclosure from horizontal form of dwellings.</p> <p><u>Halifax Street (east of Hutt Street)</u></p> <p>Detached and semi-detached cottages and the occasional terrace house, sited close to the street frontage with minimal side boundary set-backs and having consistency of window proportions, the high proportion of solid to void, pitched roof profiles and verandahs.</p> <p>St John's Church is a prominent landmark.</p> <p><u>Halifax Street (west of Hutt Street)</u></p> <p>Attached and detached cottages, a large bay window residence and a two-storey Victorian former corner shop.</p> <p><u>Kate Court</u></p> <p>Semi-detached cottages, detached gable-fronted cottages and terrace house sited close to the street frontage, with consistent window proportions, roof forms and verandah styles.</p> <p><u>Marion Street</u></p> <p>Close grouping of 19th century small semi-detached and detached cottages and row cottages with low front parapet line and consistent roof and verandah forms.</p> <p><u>McLaren Street and Regent Street South</u></p> <p>Closely sited cottages and row houses with vertically proportioned openings and the consistent form of pitched roofs and verandahs.</p> <p><u>Royal Avenue</u></p> <p>Cottages and villas.</p> <p><u>St. John Street</u></p> <p>Substantial scale and richly detailed character of St John's Church, Meeting Hall and Rectory.</p> <p>Consistently sited, gable-fronted villas to western frontage.</p> <p>Small group of narrow fronted cottages on the eastern frontage.</p> <p><u>Tomsey Street</u></p> <p>Semi-detached and detached cottages.</p>
Building height	Low scale.
Materials	<p><u>Victorian Houses</u></p> <p>Bluestone, limestone or sandstone, with brick or rubble side and rear walls.</p> <p>Timber framed windows and doors.</p> <p>Cast iron or timber posts to the verandahs elaborated with moulded capitals and trim, and widely used cast iron brackets and frieze decoration.</p> <p>Masonry base and piers with cast iron panels or railings, timber railing, timber picket fencing for smaller houses.</p> <p><u>Edwardian Houses</u></p> <p>Face brick walling with decorative brick detailing, ashlar stone with brick dressings or moulded render or 'rock face' sandstone (or freestone) for wall material.</p> <p>Unglazed terracotta Marseilles roof tiles, corrugated iron roof cladding.</p> <p>Timber framed windows and doors. Windows often grouped and doors often divided into three or four horizontal panels.</p> <p>Masonry fencing with cast iron palisade, or timber.</p> <p><u>Inter-War Houses</u></p>

Statement#	Statement	
		Australian-made Wunderlich roof tiles.  Timber joinery with some use of metal framed windows.  Typically low masonry fencing, built from materials matching the main building.
Fencing		Low, open front fencing (including secondary streets to the main façade of the building) associated with the traditional period and style of the building up to 1.2 metres, allowing views to the building. Rear and side boundary fences (behind main building façade) to 2 metres, and 1.8 metres on corner sites.  Front fences of stone and cast iron, brick, stone or rendered pillars and plinths, timber or well detailed masonry.  Brick, rendered masonry and timber side fences on secondary street frontages.  Rear and side fences (behind main face of building) of corrugated metal sheeting.  <u>Corryton Street (south of Halifax Street)</u>  Continuous picket fencing.
Setting, landscaping, streetscape and public realm features		A sense of intimacy and enclosure to Ada, Gladstone, McLaren, Streets, and Regent Street South.  Landmark qualities of St John's Church, Meeting Hall and Rectory.  Landscaped open space with significant vegetation. Public and private open spaces incorporating landscaping to street frontages. Vehicle access is via minor streets, side and rear lanes. Vehicle access points have been designed and located to maintain historic kerbing and significant trees.

**Historic Areas Affecting Adelaide Hills Council**

<b>Mylor Historic Area Statement (AdHi1)</b>		
The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.  These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.  The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.		
Eras, themes and context		1880 to late 1890s. Commercial centre. Workingmen's Block movement.
Allotments, subdivision and built form patterns		Uniform rectangular allotments fronting the main street. Large site areas. Large street frontages. Varying front setbacks (residential development has generous setbacks with commercial/retail development located closer to the front boundary to address the main street). Varying side setbacks, with limited boundary development.
Architectural styles, detailing and built form features		1890s commercial buildings interspersed with a variety of civic and residential buildings.
Building height		Generally small scale, single storey construction with the exception of the larger public buildings such as the Uniting Church and the former Institute building.
Materials		Consistent with the materials associated with the architectural styles of the subject building and streetscape. Random coursed and rubble stone. Rendered stone. Brick and rendered quoins. Hipped and gabled roofs. Raked and bullnose verandahs supported with timber posts and masonry pillars. Corrugated iron roofs. External finishes non-reflective incorporating a natural autumnal palate.
Fencing		Front fences of pickets, post and wire and masonry (exposed or rendered brickwork or stonework) often obscured by hedges or other plantings, to a height of 1200 millimetres.
Setting, landscaping, streetscape and public realm features		Rustic character. The township is enclosed on three sides by highly valued remnant vegetation within the Mylor Parklands. Leslie Creek and Aldgate Creek meander through the township before joining up with the Onkaparinga River to the south. The main entrance to Mylor from the north is marked by bridge crossings over Leslie and Aldgate Creeks, the war memorial and views to an avenue of deciduous trees which define the centre of the township. Views of the historic building within the primary school.  Other important views along Strathalbyn Road include the heritage buildings containing the general store and rural supplies establishment which defines the southern entry to the township. Wide landscaped verge that incorporates an avenue of trees along Strathalbyn road accentuates the historic built form.  Vehicular access at the rear of allotments fronting Strathalbyn Road.

**Stirling - Ayres Hill Road Historic Area Statement (AdHi2)**

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.  These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.  The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.		
Eras, themes and context		Mid to late 1880s residential.

Statement#	Statement	
AdHi2	Allotments, subdivision and built form patterns	Large blocks of land. Larger houses on large, well vegetated grounds. Dwellings set well back from the street boundary. Smaller subordinate buildings located closer to the street boundary.
	Architectural styles, detailing and built form features	The architectural style of the buildings varies with their date of construction.
	Building height	Building height to 9 metres. Original scale of buildings.
	Materials	Consistent with the materials associated with the architectural style of the subject building. Random, coursed and dressed stone. Rendered stone. Brick, stone and rendered quoins. String courses. Hipped and gabled roofs. Dormer windows. Raked verandahs supported with timber posts and masonry pillars. Corrugated iron roofs. Decorative cast iron features. Brick and stone chimneys. Stone Porticos. Decorative and ornate timber bargeboards. External finishes non-reflective and utilise natural colours.
	Fencing	Front fencing of pickets, post and wire and masonry (exposed or rendered brickwork or stonework) often obscured by hedges or other plantings, with varying heights to between 1200-1800 millimetres.
	Setting, landscaping, streetscape and public realm features	<p>'Secluded' nature of houses, in most cases set well back on their blocks, hidden behind the gardens and hedges.</p> <p>Streetscape is dominated by tree plantings and fencing behind which can be seen the larger trees and shrubs of the gardens. The lower section of the road (from Laurel Road to the roundabout near St Catherine's) is winding and bordered by hedges and trees. The upper portion of the road is straight and reveals a wider footpath margin than the lower section, adding to the feeling of privacy of the houses.</p> <p>Wide footpath verges which are of a rustic nature.</p> <p>Row and avenue plantings of exotic trees in the road verges.</p>

AdHi3	<b>Woodside Historic Area Statement (AdHi3)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Late 1880s.
	Allotments, subdivision and built form patterns	Original grid subdivision pattern. Uniform rectangular allotments.
	Architectural styles, detailing and built form features	The predominant character is single storey detached dwellings with an eclectic mix of European architecture set in large landscaped surrounds, interspersed with buildings including workers cottages and churches, at times built to the front boundary. The architectural style of the buildings varies with their date of construction.
	Building height	Primarily single storey detached buildings.
	Materials	Consistent with the materials associated with the architectural styles of the subject building and streetscape. Random coursed and rubble stone. Rendered stone. Brick and rendered quoins. Hipped and gabled roofs. Raked verandahs supported with timber posts and masonry pillars. Corrugated iron roofs. External finishes non-reflective and utilise natural colours.
	Fencing	Front fencing of pickets, post and wire, and masonry (exposed or rendered brickwork or stonework), with maximum heights ranging from 1000 of 1200 millimetres.
Setting, landscaping, streetscape and public realm features	Relatively narrow streets, typically featuring box-style kerb and gutters, do not often have footpaths.

	<b>Strathalbyn Suburban Neighbourhood Historic Area Statement (Alex1)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context	<p><u>Northern (Manse Road, Melville Lane, Taylors Lane, Melville Street, Harriet Street and North Parade)</u></p> <p>1860s-1910s. Symmetrical double-fronted early settler cottages and simple workers accommodation.</p> <p>Centred on North Parade, the area was initially subdivided in 1856 and was developed to contain a mixture of functions ranging from an early butcher's shop, to a school, a hospital and a Rechabite Hall and residences.</p> <p>The early commercial and institutional functions have declined over time and the area is now mainly residential.</p>	

Statement#	Statement
	<p><u>Western (Sandegrove Road, King Street, Coronation Road)</u></p> <p>1910s. Symmetrical double-fronted cottages and early Bungalow era dwellings.</p> <p>The Western area is important in the overall character of Strathalbyn as it reflects the period at the turn of the century which was one of consolidation and prosperity for the town. The specific residential character of the area derives from the consistent character of the circa 1910 residences, which display typical characteristics of domestic architecture at the time.</p> <p><u>Central (East Terrace, Murray Street, North Parade, Grey Street, Chapel Street, Rowe Street, Commercial Road, West Terrace, Jeff Street, Wallbank Street, Mill Street)</u></p> <p>1860s - 1950.s. Symmetrical double-fronted cottages and early Bungalow era dwellings.</p> <p>The Central area represents the predominantly residential area within the bounds of the original town boundary following, North Parade, East Terrace, South Terrace and West Terrace. The area also includes church landmarks to the east of the town centre on Murray and Chapel Streets.</p>
Alex1	<p>Allotments, subdivision and built form patterns</p> <p><u>Northern</u></p> <p>Large allotments and setbacks. Medium- to large front setbacks. Buildings parallel to street. Buildings typically located asymmetrically on allotments, allowing for access to rear of blocks on one side. This subdivision has a less regular layout, in part due to path of Middle Creek which borders the area on the north and east.</p> <p><u>Western</u></p> <p>Large allotments and setbacks. Consistent medium- to large front setbacks. Buildings parallel to street. Buildings typically located symmetrically on allotments with very wide side setbacks.</p> <p><u>Central</u></p> <p>Large allotments and setbacks. Buildings parallel to street. Buildings typically located asymmetrically on allotments, allowing for access to rear of blocks on one side.</p>
	<p>Architectural styles, detailing and built form features</p> <p><u>Western and Northern</u></p> <p>Symmetrical stone double fronted cottages with some early bungalow styles. Predominantly hipped roofs of 27-35 degree pitch with detached verandah (concave, convex and bullnosed) set 300mm below main building gutter. High solid to void (window &amp; door opening) ratio.</p> <p>Carports and sheds generally to the rear of allotments and not attached to dwellings.</p> <p><u>Central</u></p> <p>Stone double fronted cottages with some early bungalow styles. Predominantly hipped roofs of 27-35 degree pitch with verandahs. High solid to void (window &amp; door opening) ratio.</p> <p>Carports and sheds generally to the rear of allotments and not attached to dwellings.</p>
	<p>Building height</p> <p>Single storey with external wall heights generally 3.8-4.1m and ceilings at least 3.</p>
	<p>Materials</p> <p>Sandstone and limestone with red brick quoins predominantly. Corrugated (mostly galvanised) roofing.</p>
	<p>Fencing</p> <p><u>Northern</u></p> <p>Timber post and rail (local variation diamond style), low masonry, timber post and cyclone mesh, rural post and wire fencing to a height of 1.2m at front and 1.8m on side boundaries.</p> <p><u>Western</u></p> <p>Hedges, brush, pickets, low masonry and cyclone mesh, rural post and wire fencing to a height of 1.2m at front and 1.8m on side boundaries.</p> <p><u>Central</u></p> <p>Timber post and rail (local variation diamond style), hedges, low masonry, timber post and cyclone mesh, rural post and wire fencing to a height of 1.2m at front and 1.8m on side boundaries.</p>
	<p>Setting, landscaping, streetscape and public realm features</p> <p>Limited use of signage, where present it incorporates simple fonts consistent with the era with no internal illumination.</p> <p><u>Northern</u></p> <p>Heavily vegetated, rural character, especially to Taylors Lane and Melville Street.</p> <p><u>Western</u></p> <p>Newly formed footpaths with planted verges and street trees.</p> <p><u>Central</u></p> <p>Rural character, wide streets and footpaths with regular street trees.</p>
	<p>Representative Buildings</p> <p>Identified - refer to SA planning database.</p>

Statement#	Statement	
	Setting, landscaping, streetscape and public realm features	Existing mature vegetation and boundary structures, such as walls and fences form an important landscape element. Open landscape surrounding the mill complex. Limited use of signage, where present it incorporates simple fonts consistent with the era with no internal illumination.
	Representative Buildings	<i>[Not identified]</i>
Alex4	<b>Goolwa Historic Area Statement (Alex4)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	<p>Between the 1850s and 1880s Goolwa developed as one of Australia’s most important river ports. Dwindling after the Morgan to Port Adelaide railway opened in 1878.</p> <p>Australia’s first railway, a single-track horse powered tramway (1854) extended from Goolwa to Victor Harbor in 1864 and later converted to steam and rail, now forms part of a major tourist attraction, the ‘Cockle Train’ trip.</p> <p>Residential development commenced with the settlement of Goolwa. From the late 19th century to the present day, Goolwa’s main focus has been as a tourist township, but the industrial historic legacy of earlier times which includes former breweries, sawmill, shipyards, the wharf area, the Goolwa Patent Slip and iron works and flour mill.</p> <p>The Goolwa Historic Area is a residential area known as ‘Little Scotland’ adjoining the State Heritage Area to the north and bounded by the railway line to the south.</p>
	Allotments, subdivision and built form patterns	Small narrow allotments, with many dwellings built over two allotments giving appearance of larger frontages. Buildings parallel to street. Minimal side setbacks, often no driveways or vehicle access.
	Architectural styles, detailing and built form features	<p>Small humble workers’ cottages. Gabled, hipped and parapeted roofs at 30-40 degree pitches. Separate verandah roof across frontage typical. High solid to void (window and door opening) ratio.</p> <p>Carports and garages generally to the rear of allotments and not attached to dwellings.</p>
