12.4 Contractor update

12.4.1 Bridge Construction

MA presented a brief update on works to date.

12.4.2 Road Works

MA presented a brief update on works to date.

12.4.3 Noise Attenuation

BA reported that of 30 residents 3 remaining to consult.

12.4.4 Public Art

BA outlined the process for selection. 9 artists have been invited to submit an Expression of Interest. On 18th April the Port River Expressway Public Art Committee will meet to short list three artists to submit a Design Brief.

12.5 Community Relations update

12.5.1 Landscape Display

BA tabled the Landscape Display. Example attached.

12.5.2 Art Competition – Constructive Art

AC reported that the Constructive Art competition closes on the 24th April. Abigroup is sponsoring the prize money and the winners will be announced at the Port Festival on 29th April. Thankyou to John Ford for assistance.

12.6 Opening Regime

12.6.1 Update on Opening Regime Forums.

KP reported that 2 forums have been held.

There are constraints on the opening times with respect to queue sizes and the interface between marine, road and rail demands. Traffic counts are being undertaken.

CM raised an issue regarding the potential conflict between the queue space for marine users and with vessels exiting Dock 2 (eg Tugs). **ACTION:** CM to provide details to KP and SW.

12.6.2 Update of Opening Regime Communications

AC tabled the draft 'Port River Expressway Bridge Clearance Levels & Tide Datum' postcard for comment; with feedback to AC by 16/4/07. This will be a DL postcard for mariners to keep on their vessels.

BC introduced Fran Whittingham and Mike O'Reilly. FW and MO'R are developing the communication strategy for the Opening regime. This strategy incorporates community education, identifying issues, stakeholder identification, developing key messages, developing information dissemination strategy, PR, crisis management,

maintenance protocols, bridge opening event, rigorous approvals processes. The strategy is in development phase. It will then undergo approvals with DTEI; then implementation. The opening event is proposed 2-3 weeks prior to the opening (approx November 2007).

12.7 Round Table

SW updated the LeFevre Peninsula Project. Road works are soon to commence at the Wills St / Elder Road and Jetty Road /Elder Road intersections. The bicycle track at Veitch Road is 80% complete. The laying of rail at Veitch Road is also 80% complete.

JC queried the South Road / Hanson Road rail siding. BC confirmed it is going ahead; from 1 May the closure will be in effect between South Road and Railway Terrace.

JF received 1 dust complaint. JF queried the current PR materials for the project. The opening of the bridges can only be viewed from the water and that current PR materials are misleading. **ACTION:** DTEI to clarify the PR materials with respect to viewing platforms for viewing the opening mechanism and available walkways.

MG consultation is underway on the 'Port Centre Renewal Project' that addresses the removal of freight traffic from the Port centre.

AM queried the opening regime. Will the bridges open if there are no boats queuing? KP confirmed that if there are no boats, the bridges do not open.

12.8 Other Business

12.8.1 Next Meeting end of May, to be confirmed.
