**Table 2 - Deemed-to-Satisfy Development Classification**

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

**Table 3 - Applicable Policies for Performance Assessed Development**

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
<b>Industry</b>	Light industry
<b>Shop</b>	Any of the following: <ul style="list-style-type: none"> <li>(a) shop with a gross leasable floor area less than 1000m<sup>2</sup></li> <li>(b) shop located within the Rehabilitation Subzone</li> <li>(c) shop located within the Repatriation Subzone</li> <li>(d) shop located within the Flinders Subzone</li> <li>(e) shop located within the Activity Node Subzone</li> <li>(f) shop that is a restaurant.</li> </ul>

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

Class of Development (Column A)	Exceptions (Column B)

**Table 2 - Deemed-to-Satisfy Development Classification**

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

**Table 3 - Applicable Policies for Performance Assessed Development**

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Industry	Light industry

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any kind of development where the site of the development is <b>not</b> adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.	Except any of the following: <ol style="list-style-type: none"> <li>the demolition of a State or Local Heritage Place</li> <li>the demolition of a building (except an ancillary building) in a Historic Area Overlay.</li> </ol>

Desired Outcome (DO)

Desired Outcome	
DO 1	A business and innovation precinct that includes a range of emerging businesses which have low level off-site impacts. Residential development within the area is subordinate to employment uses and generally includes medium-density housing designed to complement and not prejudice the operation of existing businesses.
DO 2	A zone characterised by low-rise buildings with additional height in well serviced and accessible locations.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
<p>PO 1.1</p> <p>Shops, office, consulting room, low-impact industry and other non-residential uses are supported by a variety of compact, medium density housing and accommodation types.</p>	<p>DTS/DPF 1.1</p> <p>Development comprises one or more of the following:</p> <ul style="list-style-type: none"> <li>(a) Consulting room</li> <li>(b) Dwelling</li> <li>(c) Institutional facility</li> <li>(d) Light industry</li> <li>(e) Motor repair station</li> <li>(f) Office</li> <li>(g) Residential flat building</li> <li>(h) Retail fuel outlet</li> <li>(i) Service trade premises</li> <li>(j) Shop</li> <li>(k) Store</li> <li>(l) Warehouse</li> </ul>
<p>PO 1.2</p> <p>Retail, business and commercial development is of a scale that provides a local convenience service without undermining the vibrancy and function of zones primarily intended to accommodate such development.</p>	<p>DTS/DPF 1.2</p> <p>Shops, offices and consulting rooms do not exceed 500m<sup>2</sup> in gross leasable floor area.</p>
<p>PO 1.3</p> <p>Compact, medium density residential development does not prejudice the operation of non-residential activity within the zone.</p>	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>
<p>PO 1.4</p> <p>Changes in the use of land between similar businesses encourages the efficient reuse of commercial premises and supports continued local access to a range of services compatible to the locality.</p>	<p>DTS/DPF 1.4</p> <p>A change of use to a shop, office or consulting room or any combination of these uses where all of the following are achieved:</p> <ul style="list-style-type: none"> <li>(a) the area to be occupied by the proposed development is in an existing building and is currently used as a shop, office, consulting room or any combination of these uses</li> <li>(b) if the proposed the change in use is for a shop:                             <ul style="list-style-type: none"> <li>(i) the total gross leasable floor area of the shop will not exceed 500m<sup>2</sup></li> <li>(ii) if primarily involving the handling and sale of foodstuffs, areas used for the storage and collection of refuse are sited at least 10m from the site of a dwelling (other than a dwelling directly associated with the proposed shop)</li> <li>(iii) if primarily involving heating and cooking of foodstuffs in a commercial kitchen and is within 30m of any residential allotment within a neighbourhood-type zone boundary or a dwelling (other than a dwelling directly associated with the proposed shop), an exhaust duct and stack (chimney) exists or is capable of being installed for discharging exhaust emissions</li> </ul> </li> <li>(c) off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number, except where:                             <ul style="list-style-type: none"> <li>(i) the required contribution will be made into a relevant car parking offset 2959</li> </ul> </li> </ul>

scheme (other than where a relevant contribution has previously been made) or  
 (ii) the building is a local heritage place.

Built Form and Character

**PO 2.1**  
 Building scale and design complement surrounding built form, streetscapes and local character.

**PO 2.2**  
 Development with high visual and environmental amenity, particularly along arterial roads and the boundaries of adjoining zones is primarily intended to accommodate sensitive receivers.

**DTS/DPF 2.1**  
 None are applicable.

**DTS/DPF 2.2**  
 None are applicable.

Building height and setbacks

**PO 3.1**  
 Buildings are generally of low-rise construction, with taller buildings positioned towards the centre of the zone and away from any adjoining neighbourhood-type zone to positively contribute to the built form character of a locality.

**DTS/DPF 3.1**  
 Building height (excluding garages, carports and outbuildings) is no greater than:

(a) the following:

Maximum Building Height (Metres)
Maximum building height is 6m
Maximum building height is 8.5m
Maximum building height is 9m
Maximum building height is 15m

Maximum Building Height (Levels)
Maximum building height is 1 level
Maximum building height is 2 levels
Maximum building height is 3 levels
Maximum building height is 4 levels

(b) in all other cases (ie there is a blank field for both values):

- (i) 2 building levels or 9m where the development is located adjoining a different zone that primarily envisages residential development
- (ii) 3 building levels or 12m in all other cases.

In relation to DTS/DPF 3.1, in instances where:

(c) more than one value is returned in the same field:

- (i) for the purpose of DTS/DPF 3.1(a), refer to the Maximum Building Height (Metres) Technical and Numeric Variation layer or Maximum Building Height (Levels) Technical and Numeric Variation layer in the SA planning database to determine the applicable value relevant to the site of the proposed development
- (ii) only one value is returned for DTS/DPF 3.1(a), (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other.

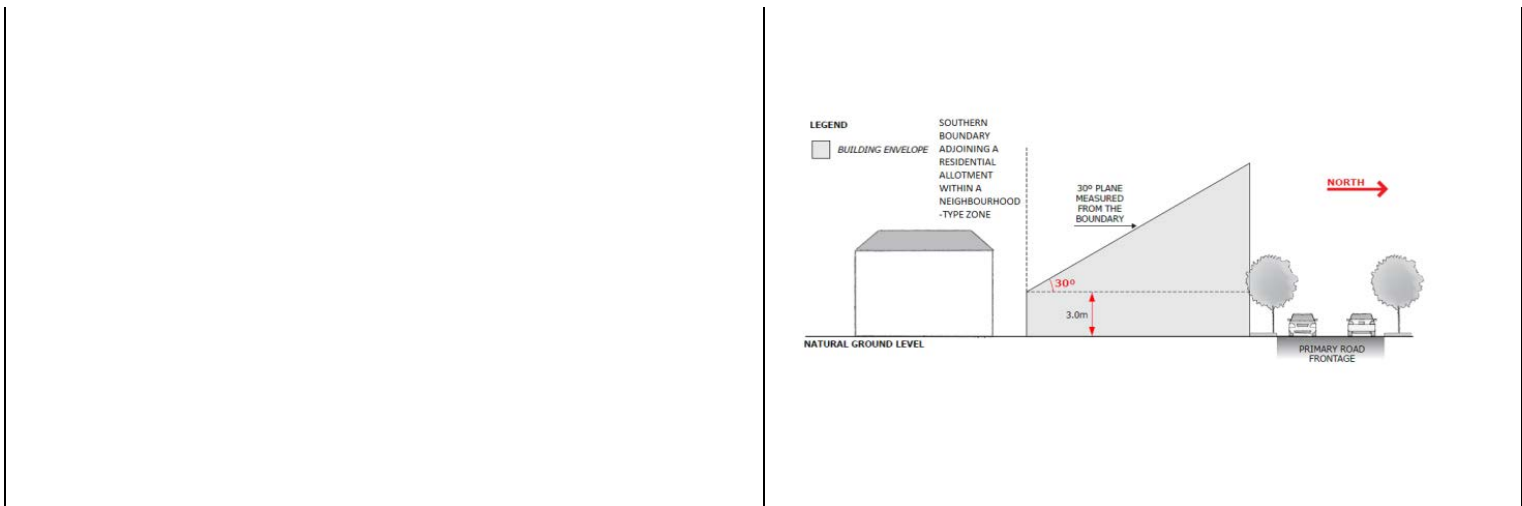

**PO 3.2**  
 Buildings mitigate visual impacts of building massing on residential development within a neighbourhood-type zone.

**DTS/DPF 3.2**  
 Buildings constructed within a building envelope provided by a 45 degree plane measured from a height of 3m above natural ground level at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary, or where this boundary is the primary street boundary)

The diagram illustrates a building envelope defined by a 45-degree plane. The plane starts at a height of 3.0m above the natural ground level at the allotment boundary. The diagram shows a residential allotment within a neighbourhood-type zone, with a primary road frontage to the right. A legend indicates the building envelope is shaded grey. The 45-degree plane is measured from the boundary, and the 3.0m height is indicated by a red arrow.

**PO 3.3**  
 Buildings mitigate overshadowing of residential development within a neighbourhood-type zone.

**DTS/DPF 3.3**  
 Buildings on sites with a southern boundary adjoining an allotment used for residential purposes within a neighbourhood-type zone are constructed within a building envelope provided by a 30 degree plane grading north measured from a height of 3m above natural ground level at the southern boundary, as shown in the following diagram

**Table 2 - Deemed-to-Satisfy Development Classification**

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

**Table 3 - Applicable Policies for Performance Assessed Development**

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following:  (a) shop with a gross leasable floor area less than 1000m <sup>2</sup> (b) shop that is a restaurant.

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

PO 3.2

Buildings mitigate visual impacts of building massing on residential development within a neighbourhood-type zone.

DTS/DPF 3.2

Buildings constructed within a building envelope provided by a 45 degree plane measured from a height of 3 metres above natural ground level at the boundary of an allotment used for residential purposes in a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary or where this boundary is the primary street boundary):

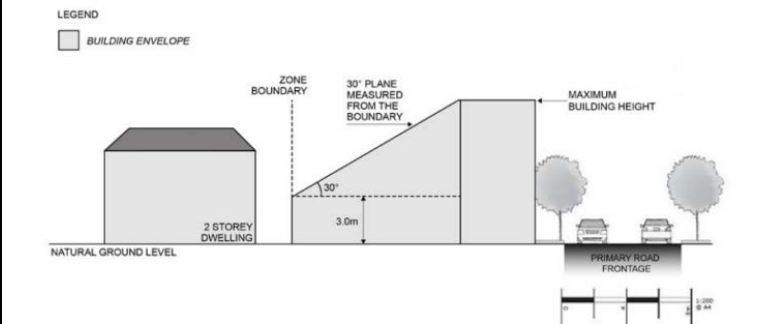

PO 3.3

Buildings mitigate overshadowing of residential development within a neighbourhood-type zone.

DTS/DPF 3.3

Buildings on sites with a southern boundary adjoining an allotment used for residential purposes in a neighbourhood-type zone are constructed within a building envelope provided by a 30 degree plane grading north measured from a height of 3m above natural ground level at the southern boundary, as shown in the following diagram:

PO 3.4

Buildings with no setbacks from road boundaries achieve a continuity of street façade to the main street, but with sections of building set back to create outdoor dining areas, visually interesting building entrances and intimate, active spaces.

DTS/DPF 3.4

None are applicable.

PO 3.5

Buildings with no setback from side boundaries achieve a continuity of street façade to the

PO 3.6 Buildings that are set back from rear boundaries (other than street boundaries) minimise impacts on neighbouring properties, including access to natural light and ventilation.	DTS/DPF 3.6 Buildings are set back a minimum 3 metres from rear boundaries where the subject land directly abuts an allotment of a different zone, except where the development abuts the wall of an existing or simultaneously constructed building on the adjoining land.		
PO 3.7 Buildings are set back from rear access ways to provide adequate manoeuvrability for vehicles.	DTS/DPF 3.7 Buildings are set back from the rear access way have:  (a) no requirement where the access way is 6.5m or more wide or (b) where the access way is less than 6.5m wide, the distance equal to the additional width required to make the access way at least 6.5m wide.		
PO 3.8 Buildings on an allotment fronting a road that is not a State maintained road, and where land on the opposite side of the road is within a neighbourhood-type zone, provides an orderly transition to the built form scale envisaged in the adjacent zone to complement the streetscape character.	DTS/DPF 3.8 None are applicable.		
Traffic, parking and access			
PO 4.1 Development minimises the need for vehicle crossovers on the main street to reduce conflicts with pedestrians and avoid disruption to the continuity of built form.	DTS/DPF 4.1 None are applicable.		
PO 4.2 Vehicle parking is located behind buildings away from the primary main street frontage and is designed to minimise its impacts on residential amenity.	DTS/DPF 4.2 Vehicle parking areas are located behind the building line of the associated building.		
Advertisements			
PO 5.1 Advertisements are sited and designed to achieve an overall consistency of appearance along individual street frontages.	DTS/DPF 5.1 None are applicable.		
PO 5.2 Freestanding advertisements:  (a) identify the associated business(es) (b) are of a size that is commensurate with the scale of the centre and the street frontage (c) avoid visual clutter (d) positively respond to the context without dominating the locality (e) are sited and designed to not detract from the main street character.	DTS/DPF 5.2 Freestanding advertisements:  (a) do not exceed 8m in height, the adjacent building wall height, or the zone's height allowance (whichever is the lesser) (b) do not have a sign face that exceeds 6m <sup>2</sup> per side.

Concept Plans			
PO 7.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 7.1 The site of the development is wholly located outside any relevant Concept Plan boundary. **Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions':

Class of Development	Exclusions
Industry	Light industry

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

Class of Development (Column A)	Exceptions (Column B)

Secondary Street Setback						
PO 6.1 Buildings are set back from secondary street boundaries (not being a rear laneway) to maintain a pattern of separation between buildings and public streets and reinforce streetscape character.	DTS/DPF 6.1 Building walls are set back at least 900mm from the boundary of the allotment with the secondary street frontage, or if a dwelling on any adjoining allotment is closer to the secondary street than 900mm, the distance of that dwelling from the boundary with the secondary street (being, if relevant, the lesser of the 2 distances).					
Boundary Walls						
PO 7.1 Dwelling boundary walls are limited in height and length to manage visual and overshadowing impacts on adjoining properties.	DTS/DPF 7.1 Except where the dwelling is located on a central site within a row dwelling or terrace arrangement, side boundary walls occur only on one side boundary and satisfy (a) or (b):  (a) side boundary walls adjoin or abut a boundary wall of a building on adjoining land for the same or lesser length and height (b) side boundary walls do not: (i) exceed 3m in height from the top of footings (ii) exceed 11.5m in length (iii) when combined with other walls on the boundary of the subject development site, exceed a maximum 45% of the length of the boundary (iv) encroach within 3 metres of any other existing or proposed boundary walls on the subject land.					
PO 7.2 Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings consistent with a low density suburban streetscape character.	DTS/DPF 7.2 Dwelling walls in a semi-detached, row or terrace arrangement are setback from side boundaries shared with allotments outside the development site at least the minimum distance identified in DTS/DPF 8.1.					
Side Boundary Setback						
PO 8.1 Buildings are set back from side boundaries to provide:  (a) separation between dwellings in a way that complements the character of the locality (b) access to natural light and ventilation for neighbours.	DTS/DPF 8.1 Other than walls located on a side boundaries, building walls are set back from side boundaries:  (a) at least 900mm where the wall is up to 3m measured from the top of the footings (b) other than for a wall facing a southern side boundary, at least 900mm plus 1/3 of the wall height above 3m (c) at least 1.9m plus 1/3 of the wall height above 3m for walls facing a southern side boundary.					
Rear Boundary Setback						
PO 9.1 Buildings are set back from rear boundaries to provide:  (a) separation between dwellings in a way that complements the established character of the locality (b) access to natural light and ventilation for neighbours (c) private open space (d) space for landscaping and vegetation.	DTS/DPF 9.1 Dwelling walls are set back from the rear boundary at least: (a) if the size of the site is less than 301 square metres— (i) 3m in relation to the ground floor of the dwelling (ii) 5m in relation to any other building level of the dwelling (b) if the size of the site is 301 square metres or more— (i) 4m in relation to the ground floor of the dwelling (ii) 6m in relation to any other building level of the dwelling.					
Concept Plans						
PO 10.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure. - (b) have a floor area not exceeding 60m<sup>2</sup>
- (c) are not constructed, added to or altered so that any part is situated:
  - (i) in front of any part of the building line of the dwelling to which it is ancillary or
  - (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads)
- (d) in the case of a garage or carport, the garage or carport:
  - (i) is set back at least 5.5m from the boundary of the primary street
  - (ii) when facing a primary street or secondary street, has a total door / opening not exceeding:
    - A. for dwellings of single building level - 7m in width or 50% of the site frontage, whichever is the lesser

  - (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and
  - (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent

**Table 2 - Deemed-to-Satisfy Development Classification**

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

**Table 3 - Applicable Policies for Performance Assessed Development**

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

**Table 2 - Deemed-to-Satisfy Development Classification**

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

**Table 3 - Applicable Policies for Performance Assessed Development**

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

**Table 2 - Deemed-to-Satisfy Development Classification**

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

**Table 3 - Applicable Policies for Performance Assessed Development**

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following:  (a) shop with a gross leasable floor area less than 1000m <sup>2</sup> (b) shop that is a restaurant.

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

**Table 3 - Applicable Policies for Performance Assessed Development**

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Industry	Light Industry

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

Class of Development (Column A)	Exceptions (Column B)

Built Form and Character	
<p>PO 2.1</p> <p>Development complements adjacent development within the zone, and mitigates interface impacts on adjoining residential uses in neighbourhood-type zones, through appropriate building siting, scale and design.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>

Building height and setbacks	

PO 3.1  
Buildings are set back from primary and secondary street boundaries to contribute to the consistent established streetscape.

DTS/DPF 3.1  
Buildings are set back from road boundaries to align with buildings on adjoining land.

PO 3.2  
Building height is consistent with the form expressed in any relevant *Maximum Building Height Levels Technical and Numeric Variation* layer and *Maximum Building Height Metres Technical and Numeric Variation* layer, and otherwise generally of a low-rise that complements the established streetscape and local character.

DTS/DPF 3.2  
Building height is not greater than:

(a) the following:

Maximum Building Height (Metres)
Maximum building height is 8m
Maximum building height is 9m
Maximum building height is 15m

Maximum Building Height (Levels)
Maximum building height is 2 levels
Maximum building height is 3 levels

(b) in all other cases (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)) - 3 building levels up to a height of 12m.

In relation to DTS/DPF 3.2, in instances where:

(c) more than one value is returned in the same field for DTS/DPF 3.2(a), refer to the *Maximum Building Height (Metres) Technical and Numeric Variation* layer or *Maximum Building Height (Levels) Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development

(d) only one value is returned for DTS/DPF 3.2(a) (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other.

PO 3.3  
Buildings mitigate visual impacts of massing on residential development within a neighbourhood-type zone.

DTS/DPF 3.3  
Buildings are constructed within a building envelope provided by a 45 degree plane measured from a height of 3 metres above natural ground level at the boundary of an allotment used for residential purposes in a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary or where this boundary is the primary street boundary):

PO 3.4  
Buildings mitigate overshadowing of residential development within a neighbourhood-type zone.

DTS/DPF 3.4  
Buildings on sites with a southern boundary adjoining the allotment boundary of an allotment used for residential purposes in a neighbourhood-type zone are constructed within a building envelope provided by a 30 degree plane grading north measured from a height of 3m above natural ground level at the southern boundary, as shown in the following diagram:

<p>PO 3.5</p> <p>Buildings on an allotment fronting a road that is not a State maintained road, and where land on the opposite side of the road is within a neighbourhood-type zone, provides an orderly transition to the built form scale envisaged in the adjacent zone to complement the streetscape character.</p>	<p>DTS/DPF 3.5</p> <p>None are applicable.</p>								
Land division									
<p>PO 4.1</p> <p>Land division creates allotments that vary in size and are suitable for a variety of business and community facilities.</p>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>								
Advertisements									
<p>PO 5.1</p> <p>Advertisements are sited and designed to achieve an overall consistency of appearance along individual street frontages</p>	<p>DTS/DPF 5.1</p> <p>None are applicable.</p>								
<p>PO 5.2</p> <p>Freestanding advertisements:</p> <p>(a) identify the associated business(es)</p> <p>(b) are of a size that is commensurate with the scale of the centre and the street frontage</p> <p>(c) avoid visual clutter</p> <p>(d) positively respond to the context without dominating the locality.</p>	<p>DTS/DPF 5.2</p> <p>Freestanding advertisements:</p> <p>(a) do not exceed 5m in height, the adjacent building wall height, or the zone's height allowance (whichever is the lesser)</p> <p>(b) do not have a sign face that exceeds 4m<sup>2</sup> per side.</p>								
Concept Plans

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Industry	Light industry

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

Class of Development (Column A)	Exceptions (Column B)

**Table 2 - Deemed-to-Satisfy Development Classification**

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.
