

# Hahndorf Township Improvements and Access Upgrade

## Works Notification – Maintenance works on River Road and Strathalbyn Road

The Department for Infrastructure and Transport (the Department) will be undertaking maintenance works on River Road and Strathalbyn Road.

**These works will commence this week and include vegetation management, shoulder sealing and fixing of localised pavement failures.**

To safely undertake these works, temporary lane restrictions will be in place adjacent the scheduled work zones. Speed restrictions will be in place on approach to and through the worksite where works are scheduled.

Please plan ahead, allow extra travel time and take extra care when workers are on site. Observe speed limits, lane restrictions and traffic controllers when travelling through the area.

Pedestrians and cyclists are advised to take care when travelling through the area.

Access to local businesses and residences in the area will be maintained at all times.

Some noise disturbance can be expected at times while these works are completed, however, the works will be managed to minimise disturbance to nearby residents and businesses, as much as practically possible.

### Vegetation management

We have been reviewing trees and vegetation along the roads and advise that there will need to be some trimming required to ensure there are no encroachments of the roadway. These works will also improve vehicle sight lines when travelling along River Road and Strathalbyn Road for accessing properties and side roads.

Where impacts cannot be avoided, all care and consideration will be taken and vegetation management will be carefully supervised by a fauna specialist and an arborist.

Any impacts will be managed and offset in accordance with legislative requirements and the Department's guidelines.

## Traffic surveys

On Wednesday, 6 September 2023, the Department commenced collection of traffic data including number and type of vehicles on several roads in the Adelaide Hills.

These roads are already general access routes and are available for heavy vehicle use (up to 19 metres in length).

The Department appreciates your patience and cooperation whilst these important works are undertaken.
