Grange Road, Holbrooks Road and East Avenue intersection upgrade

Landscaping Fact Sheet

We're upgrading the Holbrooks Road and East Avenue intersection to make it easier for you to cross Grange Road.

Landscape plan

As part of the project, new landscaping will be planted within the project area, incorporating approximately 80 semi-mature trees and over 870 shrubs.

Once established, the new landscaping will increase footpath shade, street appeal and enhance local biodiversity.

The landscape design and plant selection will complement the local biodiversity, assisted by careful selection of trees and shrubs suitable to the area.

Please see over the page for examples of tree and shrub selection and a concept landscape plan.

Landscaping works will commence later in the year and continue until project completion, expected in late 2025, weather permitting.

Tree and shrub selection (examples shown at maturity – species may vary)

Angophora costata

Common name: Smooth-Barked Apple

Mature size h: 12m x w:10m

Corymbia eximia "Nana"

Common name: Dwarf Yellow Bloodwood

Mature size h: 7m x w: 6m

Jacaranda mimosifolia

Common name: Blue Jacaranda

Mature size h: 10m x w: 8m

Corymbia maculata

Common name: Spotted Gum

Mature size h: 22m x w: 10m

Dianella revoluta var revoluta

Common name: Black-anther lilly

Mature size h: 0.6 m x w: 1m

Dianella tasmanica 'TasRed'

Common name: Native Flax

Mature size h: 0.4 m x w: 0.4 m

Lomandra longifolia 'Tanika'

Common name: Mat Rush

Mature size h: 0.5m x w: 0.6m

Poa labillardieri

Common name: Tussock-grass

Mature size h: 0.9m x w: 1m
