

Payneham Road and O.G. Road Junction Upgrade

Dear Resident / Business Owner

The Department of Planning, Transport and Infrastructure (DPTI) is upgrading the junction at Payneham and O.G. roads, Felixstow. The project will improve road safety, traffic efficiency and access for cyclists at this location.

Safety will be improved at the intersection through infrastructure upgrades and the provision of additional right turn controls on Payneham Road, assisting the reduction of right turn crashes at this location.

Construction commenced on Wednesday, 9 October 2019, with the completion expected mid-2020, weather permitting.

Works will occur as a combination of day and night works throughout construction, commencing with day works only until Saturday 19 October. Day works will generally occur between 7am and 4.30pm, Monday to Saturday and night works will generally occur between 7pm and 7am, from Sunday evening to Saturday morning each week. There will be no works between Christmas and the New Year.

Planned works will include:

- provision of an additional right turn lane from Payneham Road to O.G Road
- widening of the left turn lane from Payneham Road to O.G. Road
- extension and widening of the left turn lane from O.G. Road to Payneham Road
- widening of Payneham Road
- installation of new traffic signal infrastructure
- new road lighting
- installation of new medians and pedestrian islands

Access to properties will be maintained throughout the works wherever possible. Advance notice will be provided if there is a need to temporarily restrict driveway access.

Lane and speed restrictions will be in place during these works. Road users are advised to follow the direction of traffic management staff and observe signage. Roadside signage will be in place to alert motorists to traffic changes.

Works will be managed to minimise disturbance to local residents, however some noise can be expected.
