

# Grand Junction, Hampstead and Briens Road Intersection Upgrade

## Night Works Notification

The Department for Infrastructure and Transport (the Department) is continuing works on the upgrade to the intersection of Grand Junction Road, Hampstead Road and Briens Road to improve travel times, connectivity, capacity and safety for all users. The \$19 million project is jointly funded (50:50) by the South Australian and Australian governments.

While the majority of works are being undertaken during the day, some night works are required to ensure the works can be undertaken safely and efficiently.

**Night works will occur from Friday, 2 July 2021 to Monday, 19 July 2021, weather permitting.**

Hours of works are between **7pm and 6am, Monday to Sunday. A respite night, where no works are undertaken, will be provided each week throughout these works.**

Works will be undertaken in stages on the south western and south eastern corners of the intersection and will include relocation of underground services, installation of new road lighting, construction of new footpaths, and laying of new asphalt.

Some noise disturbance can be expected at times while these works are completed, however the work will be managed to minimise disturbance to nearby residents and businesses as much as practically possible.

There will be a detour in place for Heavy Vehicles only, the intersection will remain open to all other vehicles with speed and lane restrictions in place.

Please plan ahead and allow extra travel time, take extra care when workers are on site. Observe speed limits, lane restrictions and traffic controllers when travelling through the area. Access to properties will be maintained throughout the works, and every effort will be made to minimise impacts to surrounding properties and road users.

Public transport services will remain operational however, bus stops may require temporary relocation. Advance notice of any temporary changes will be provided at the bus stops and on the Adelaide Metro website [www.adelaidemetro.com.au](http://www.adelaidemetro.com.au).

Some temporary pedestrian detours will be in place around the works site and pedestrians are advised to follow directional signage.

WHAT MATTERS**

Pedestrians and cyclists are advised to take care when travelling through the area. For safety reasons there may be some restricted access. Where required, signage will be in place to direct pedestrians and cyclists to alternative access and/or detours. Every effort will be made to minimise impacts to the community.

Advance notice of future night works will be provided as works progress.

The Department appreciates your patience and cooperation whilst these important works are undertaken.

## Further information

To find out more about the project or register for future updates, please contact the project team at the following:
