Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

| Class of Development | Exclusions |
|----------------------|--|
| Industry | Light Industry |
| Shop | Any of the following: <ul style="list-style-type: none"> (a) shop located in the Main Street Subzone (b) shop located in the Urban Neighbourhood Retail Subzone (c) shop with a gross leasable floor area less than 2000m² (d) shop that is a restaurant. |

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

A class of development listed in Column A is excluded from notification provided that it does not fall within a corresponding exclusion prescribed in Column B. In instances where development falls within multiple classes within Column A, each clause is to be read independently such that if a development is excluded from notification by any clause, it is, for the purposes of notification excluded irrespective of any other clause.

| Class of Development (Column A) | Exceptions (Column B) |
|--|---|
| 1. A kind of development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development. | None specified. |
| 2. Any kind of development where the site of the development is not adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone. | Except any of the following: <ul style="list-style-type: none"> 1. the demolition of a State or Local Heritage Place 2. the demolition of a building (except an ancillary building) in a Historic Area Overlay. |
| 3. Any development involving any of the following (or of any combination of any of the following): <ul style="list-style-type: none"> (a) advertisement (b) air handling unit, air conditioning system or exhaust fan (c) dwelling (d) dwelling addition | Except development that exceeds the maximum building height specified in Urban Neighbourhood DTS/DPF 2.2 or does not satisfy Urban Neighbourhood DTS/DPF 3.1. |

| | |
|---|---|
| <ul style="list-style-type: none"> (e) pre-school (f) residential flat building (g) retirement facility (h) shade sail (i) solar photovoltaic panels (roof mounted) (j) student accommodation (k) supported accommodation (l) swimming pool or spa pool (m) tourist accommodation (n) water tank. | |
| <p>4. Any development involving any of the following (or of any combination of any of the following):</p> <ul style="list-style-type: none"> (a) consulting room (b) office (c) shop. | <p>Except development that exceeds the maximum building height specified in Urban Neighbourhood DTS/DPF 2.2 or does not satisfy any of the following:</p> <ol style="list-style-type: none"> 1. Urban Neighbourhood DTS/DPF 1.6 2. Urban Neighbourhood DTS/DPF 3.1. |
| <p>5. Any development involving any of the following (or of any combination of any of the following):</p> <ul style="list-style-type: none"> (a) internal building works (b) replacement building (c) temporary accommodation in an area affected by bushfire (d) tree damaging activity. | <p>None specified.</p> |
| <p>6. Demolition.</p> | <p>Except any of the following:</p> <ol style="list-style-type: none"> 1. the demolition of a State or Local Heritage Place 2. the demolition of a building (except an ancillary building) in a Historic Area Overlay. |

Placement of Notices - Exemptions for Performance Assessed Development

None specified.

Placement of Notices - Exemptions for Restricted Development

None specified.

Main Street Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|-----------------|---|
| DO 1 | A shopping, entertainment and commercial main street supported by medium to high density residential development. |
| DO 2 | A fine-grained public realm with safe, walkable and vibrant streets created by mixed use buildings with non-residential uses at ground level and a visually consistent street rhythm informed by local context and narrow tenancy footprints. |

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|--|---|
| Land Use and Intensity | |
| <p>PO 1.1</p> <p>Retail, office, entertainment and recreation related uses supplemented by other businesses providing a range of goods and services to the local community and the surrounding district.</p> | <p>DTS/DPF 1.1</p> <p>None are applicable</p> |
| <p>PO 1.2</p> <p>Land uses promote movement and activity during daytime and evening hours, including shops, restaurants, small scale licensed premises, educational, community and cultural facilities, and visitor and residential accommodation.</p> | <p>DTS/DPF 1.2</p> <p>None are applicable.</p> |
| <p>PO 1.3</p> | <p>DTS/DPF 1.3</p> |

| | |
|---|---|
| Dwellings developed in conjunction with non-residential uses to support business, entertainment and recreational activities and positively contribute to making the main street locality and pedestrian thoroughfares safe, walkable, comfortable, pleasant and lively places. | Dwellings developed in conjunction with non-residential uses sited: <ul style="list-style-type: none"> (a) at upper levels of buildings with non-residential uses located at ground level or (b) behind non-residential uses on the same allotment. |
| PO 1.4 Development of well-designed diverse medium to high density accommodation options, including dwellings, supported accommodation, student accommodation, and short term accommodation, either as part of a mixed use development or wholly residential development. | DTS/DPF 1.4 None are applicable. |
| Built Form and Character | |
| PO 2.1 Ground level uses contribute to a safe, walkable and vibrant main street. | DTS/DPF 2.1 Shop, office, or consulting room uses located on the ground floor level of buildings. |
| PO 2.2 Buildings designed to create visual connection between the public realm and ground level interior, positively contribute to passive surveillance of the public realm, have an active interface with the main street and contribute to the fine-grain character and retail function of the street. | DTS/DPF 2.2 The ground floor primary frontage of buildings provides at least 60% of the street frontage as an entry / foyer or display window to a shop or other community or commercial use that provides pedestrian interest and activation. |
| PO 2.3 Buildings are adaptable and flexible to suit a range of residential and non-residential land uses. | DTS/DPF 2.3 The ground floor of buildings contains a minimum floor to ceiling height of 3.5m. |
| PO 2.4 Buildings with no set-backs from the main street boundary to achieve a continuity of built form frontage to the main street, with the occasional section of building set back to create outdoor dining areas, visually interesting building entrances and intimate but vibrant spaces. | DTS/DPF 2.4 None are applicable. |
| PO 2.5 Vehicle parking and ancillary buildings and structures (including garages, carports and outbuildings) located behind buildings away from the primary main street frontage and designed to minimise negative impacts on the main street rhythm and activation. | DTS/DPF 2.5 None are applicable. |

Urban Neighbourhood Retail Subzone

Assessment Provisions (AP)

Desired Outcomes (DO)

| Desired Outcome | |
|------------------------|--|
| DO 1 | Additional neighbourhood-scale shopping, business, entertainment and recreation facilities to provide a focus for business and community life and most daily and weekly shopping needs of the community. |

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|--|--|
| Land Use and Intensity | |
| PO 1.1 Retail, office, entertainment and recreation related uses supplemented by other businesses providing a range of goods and services to the community. | DTS/DPF 1.1 Shops not exceeding a maximum gross leasable floor area of: <ul style="list-style-type: none"> (a) 5500m² within the whole subzone area in West Lakes (b) 2000m² within the whole subzone area in Bedford Park (Laffer's Triangle). |

Urban Renewal Neighbourhood Zone

Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|------------------------|---|
| DO 1 | Housing and other land uses which no longer meet community preferences are replaced with new diverse housing options. Housing density increases, taking advantage of well-located urban land. Employment and community services will improve access to jobs, goods and services without compromising residential amenity. |

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |

Table 1 - Accepted Development Classification

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

| Class of Development | Accepted Development Classification Criteria |
|---|--|
| <p>Air handling unit, air conditioning system or exhaust fan</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay | <ol style="list-style-type: none"> 1. The item will be installed on or within an existing building 2. The item being installed does not encroach on a public street or affect the ability of the building to resist the spread of fire 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street. |
| <p>Brush fence</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay | <ol style="list-style-type: none"> 1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas. |
| <p>Building work on railway land</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay | <ol style="list-style-type: none"> 1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas. |
| <p>Carport</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay | <ol style="list-style-type: none"> 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i> 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary |

- State Heritage Place Overlay

- Total floor area - does not exceed 40m²
- Post height - does not exceed 3m measured from natural ground level (and not including a gable end)
- Building height - does not exceed 5m
- If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11.5m unless:
 - a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
 - the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
- If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street):
 - it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
 - it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure
- Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)
- The carport is located so that vehicle access:
 - is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
 - is not obtained from a State Maintained Road, and will use a driveway that:
 - is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing;
 - will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;
 - is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
 - is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access
 - if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site
- If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour
- Does not involve the clearance of native vegetation
- Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
 - a total area as determined by the following table:

| Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m ²) | Minimum percentage of site |
|--|----------------------------|
| <150 | 10% |
| 150-200 | 15% |
| 201-450 | 20% |
| >450 | 25% |

- the amount of existing soft landscaping prior to the development occurring.

Internal building work
Except where any of the following apply:

- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

- There will be no increase in the total floor area of the building
- Other than where located within the Historic Area Overlay there will be no alteration to the external appearance of the building to any significant degree.
- There will be no alteration to the external appearance of the building where located within the Historic Area overlay.

Outbuilding
Except where any of the following apply:

- Coastal Areas Overlay
- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Flooding) Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

- The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
- The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
- It is detached from and ancillary to a dwelling erected on the site.
- Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary
- Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)
- Total floor area - does not exceed 40m²
- Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)
- Building height - does not exceed 5m

9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless:
 - (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
 - (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):
 - (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
 - (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure
11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)
12. If the outbuilding is a garage, it is located so that vehicle access:
 - (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
 - (b) is not obtained from a State Maintained Road, and will use a driveway that:
 - (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing;
 - (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;
 - (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
 - (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access
 - (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site
13. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour
14. Does not involve-
 - (a) excavation exceeding a vertical height of 1m; or
 - (b) filling exceeding a vertical height of 1m,

and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m.
15. Does not involve the clearance of native vegetation
16. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
17. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
 - (a) a total area as determined by the following table:

| Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m ²) | Minimum percentage of site |
|--|----------------------------|
| <150 | 10% |
| 150-200 | 15% |
| 201-450 | 20% |
| >450 | 25% |
 - (b) the amount of existing soft landscaping prior to the development occurring.

Partial demolition of a building or structure
Except where any of the following apply:

- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

None

Private bushfire shelter

Except where any of the following apply:

- Coastal Areas Overlay
- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Acid Sulfate Soils) Overlay
- Hazards (Flooding) Overlay
- Local Heritage Place Overlay
- River Murray Flood Plain Protection Area Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
3. Primary street setback - at least as far back as the building to which it is ancillary
4. Secondary street setback - at least 900mm from the boundary of the allotment
5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place)
6. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

| Class of Development | Deemed-to-Satisfy Development Classification Criteria | | | |
|---|--|---|--|--|
| | Zone | General Development Policies | Subzone <small>(applies only in the area affected by the Subzone)</small> | Overlay <small>(applies only in the area affected by the Overlay)</small> |

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

| Class of | Applicable Policies |
|----------|---------------------|
|----------|---------------------|

| Development | Zone | General Development Policies | Subzone (applies only in the area affected by the Subzone) | Overlay (applies only in the area affected by the Overlay) |
|-------------------------|---|---|--|--|

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

| Class of Development | Exclusions |
|----------------------|---|
| Shop | Any of the following: (a) shop with a gross leasable floor area less than 1000m ² |

(b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

A class of development listed in Column A is excluded from notification provided that it does not fall within a corresponding exclusion prescribed in Column B. In instances where development falls within multiple classes within Column A, each clause is to be read independently such that if a development is excluded from notification by any clause, it is, for the purposes of notification excluded irrespective of any other clause.

| Class of Development (Column A) | Exceptions (Column B) |
|--|--|
| 1. A kind of development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development. | None specified. |
| 2. All development undertaken by: (a) the South Australian Housing Trust either individually or jointly with other persons or bodies or (b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust. | Except development involving any of the following: 1. residential flat building(s) of 3 storeys or greater 2. the demolition of a State or Local Heritage Place 3. the demolition of a building (except an ancillary building) in a Historic Area Overlay. |
| 3. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) ancillary accommodation (c) building work on railway land (d) carport (e) deck (f) dwelling (g) dwelling addition (h) fence (i) outbuilding (j) pergola (k) private bushfire shelter (l) residential flat building (m) retaining wall (n) retirement facility (o) shade sail (p) solar photovoltaic panels (roof mounted) (q) student accommodation (r) supported accommodation (s) swimming pool or spa pool (t) verandah (u) water tank. | Except development that: 1. exceeds the maximum building height specified in Urban Renewal Neighbourhood Zone DTS/DPF 2.1 or 2. involves a building wall (or structure) that is proposed to be situated on a side boundary (not being a boundary with a primary street or secondary street) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment). |
| 4. Alteration of or addition to any of the following (or of any combination of any of the following): (a) community facility (b) educational establishment (c) pre-school. | Except development that does not satisfy Urban Renewal Neighbourhood Zone DTS/DPF 1.6. |
| 5. Any development involving any of the following (or of any combination of any of the following): (a) consulting room (b) office (c) shop. | Except development that: 1. exceeds the maximum building height specified in Urban Renewal Neighbourhood Zone DTS/DPF 2.1 or 2. does not satisfy Urban Renewal Neighbourhood Zone DTS/DPF 1.2 or 3. involves a building wall (or structure) that is proposed to be situated on a side boundary (not being a boundary with a primary street or secondary street) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment). |
| 6. Any development involving any of the following (or of any combination of any of the following): (a) internal building works (b) land division | None specified. |

| | |
|---|--|
| <ul style="list-style-type: none"> (c) recreation area (d) replacement building (e) temporary accommodation in an area affected by bushfire (f) tree damaging activity. | |
|---|--|

| | |
|----------------|--|
| 7. Demolition. | <p>Except any of the following:</p> <ol style="list-style-type: none"> 1. the demolition of a State or Local Heritage Place 2. the demolition of a building (except an ancillary building) in a Historic Area Overlay. |
|----------------|--|

Placement of Notices - Exemptions for Performance Assessed Development

None specified.

Placement of Notices - Exemptions for Restricted Development

None specified.

Mixed Use Transition Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|-----------------|---|
| DO 1 | Development accommodating a range of business, commercial, warehousing and light industrial uses enabling the transition of the area to mixed use development, compatible with residential development. |

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|--|
| Land Use | |
| <p>PO 1.1</p> <p>Redevelopment and transition of the area towards mixed development including, residential, supported by a mix of compatible uses including light industry, service trade, motor repair and other compatible businesses servicing the local community that do not produce objectionable emissions.</p> | <p>DTS/DPF 1.1</p> <p>Development comprises one or more of the following:</p> <ul style="list-style-type: none"> (a) Dwelling (b) Entertainment venue (c) Licenced premises (d) Hotel (e) Consulting room (f) Indoor recreation facility (g) Light industry (h) Motor repair station (i) Office (j) Place of worship (k) Research facility (l) Retail fuel outlet (m) Service trade premises (n) Shop (o) Store (p) Tourist accommodation (q) Training facility |
| <p>PO 1.2</p> <p>Non-residential development involving the expansion, alteration or replacement of an existing industry or activity adjacent to a sensitive receiver or zone, and where current adverse impacts exist, only occur where adverse impacts are minimised in accordance the with <i>Environment Protection Act 1993</i> requirements.</p> | <p>DTS/DPF 1.2</p> <p>None are applicable.</p> |
| <p>PO 1.3</p> <p>Residential development and other sensitive development only occur where adverse impacts from nearby industries and activities are minimised in accordance with the <i>Environment Protection Act 1993</i> requirements.</p> | <p>DTS/DPF 1.3</p> <p>None are applicable.</p> |
| <p>PO 1.4</p> | <p>DTS/DPF 1.4</p> |

| | |
|--|---|
| <p>Shops, other than bulky goods outlets, provide a local convenience service to meet the day to day needs of the local community and surrounding businesses as well as support the sale of products made on-site as a supplement to a business activity to enhance local job opportunities.</p> | <p>Shop comprising any of the following:</p> <ul style="list-style-type: none"> (a) shop with a gross leasable floor area up to 500m² (b) shop in the form of a bulky goods outlet (c) shop that is ancillary to and located on the same allotment as a light industry. |
|--|---|

Land Division

| | |

Performance Outcome

Deemed-to-Satisfy Criteria / Designated Performance Feature

Built Form and Siting

| | |
|---|---|
| <p>PO 1.1</p> <p>Building footprints consistent with the character and pattern of the prevailing open landscaped character of the neighbourhood.</p> | <p>DTS/DPF 1.1</p> <p>The development does not result in a site coverage exceeding 50%.</p> |
| <p>PO 1.2</p> <p>Development incorporates deep soil zones for the retention or provision of large trees to contribute to a well landscaped setting.</p> | <p>DTS/DPF 1.2</p> <p>At least 15% of a site incorporates deep soil zone areas.</p> |

Site Dimensions and Land Division

| | |
|---|--|
| <p>PO 2.1</p> <p>Allotments/sites created for residential purposes primarily accommodating medium density residential development, with lower density at the interface with a different neighbourhood zone.</p> | <p>DTS/DPF 2.1</p> <p>Allotments/sites for residential purposes accord with the following:</p> <ul style="list-style-type: none"> (a) Site areas (or allotment areas in the case of land division) are not less than: <ul style="list-style-type: none"> (i) 180m², or 100m² on an allotment >2000m², for a dwelling (ii) 120m², or 80m² on an allotment >2000m², for each dwelling in a residential flat building (iii) 300m² for a dwelling (including in a residential flat building) in areas where the Maximum Building Height (Levels) Technical and Numeric Variation specifies a maximum building height of 2 levels. (b) Site frontages (or allotment frontage in the case of land division) are not less than: <ul style="list-style-type: none"> (i) 8m for a dwelling (ii) 20m for a residential flat building |
|---|--|

Waterfront Neighbourhood Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome

| | |
|------|--|
| DO 1 | A diverse range of housing which takes advantage of waterfront locations. Development enhances public access to waterfront areas. Dual aspect allotments incorporate designs to enhance the streetscape. |
|------|--|

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|--|
| Land Use and Intensity | |
| <p>PO 1.1</p> <p>Residential development and supporting services and facilities make waterfront neighbourhoods a convenient place to live.</p> | <p>DTS/DPF 1.1</p> <p>Development comprises one or more of the following:</p> <ul style="list-style-type: none"> (a) Ancillary accommodation (b) Community facility (c) Dwelling (d) Educational establishment (e) Jetty, pontoon or boat berth (or any combination thereof) (f) Marina (g) Office (h) Place of Worship (i) Pre-school (j) Recreation area (k) Residential flat building (l) Retirement facility (m) Shop (n) Supported accommodation (o) Tourist accommodation |
| <p>PO 1.2</p> <p>Marinas include constructed waterways, mooring facilities, pontoons and small jetties to accommodate recreational activities and mooring of small boats associated with residential allotments.</p> | <p>DTS/DPF 1.2</p> <p>None are applicable.</p> |
| <p>PO 1.3</p> <p>Non-residential development located and designed to improve community accessibility to services, primarily in the form of:</p> <ul style="list-style-type: none"> (a) small-scale commercial uses such as offices, consulting rooms and shops (b) community services such as educational establishments, community centres, places of worship, pre-schools, and other health and welfare services (c) services and facilities ancillary to the function or operation of supported accommodation or retirement facilities (d) open space and recreation facilities. | <p>DTS/DPF 1.3</p> <p>None are applicable.</p> |
| <p>PO 1.4</p> <p>Non-residential development is compatible with the waterfront character and amenity of a neighbourhood.</p> | <p>DTS/DPF 1.4</p> <p>None are applicable.</p> |
| <p>PO 1.5</p> <p>Commercial activities improve community access to services and activate waterfront areas are of a scale and type to maintain residential amenity.</p> | <p>DTS/DPF 1.5</p> <p>A shop, consulting room or office (or any combination thereof) satisfies any one of the following:</p> <ul style="list-style-type: none"> (a) it is located on the same allotment and in conjunction with a dwelling, and all the following are satisfied: <ul style="list-style-type: none"> (i) does not exceed 50m² gross leasable floor area (ii) does not involve the display of goods in a window or about the dwelling or its curtilage (b) it reinstates a former shop, consulting room or office in an existing building (or portion of a building) and at least one of the following is satisfied: <ul style="list-style-type: none"> (i) the building is a State or Local Heritage Place (ii) is in conjunction with a dwelling and there is no increase in the gross leasable floor area previously used for non-residential purposes (c) it is located more than 500m from an Activity Centre and satisfies one of the following: <ul style="list-style-type: none"> (i) does not exceed 100m² gross leasable floor area (individually or combined, in a single building) where the site does not have a frontage to a State Maintained Road (ii) does not exceed 200m² gross leasable floor area (individually or combined, in a single building) where the site has a frontage to a State Maintained Road (d) the development site abuts an Activity Centre and all the following are satisfied: <ul style="list-style-type: none"> (i) it does not exceed 200m² gross leasable floor area (in a single building) (ii) the proposed development will not result in the combined gross leasable floor area of all buildings used as a shop, office or consulting room (existing and proposed) or an combination thereof abutting the Activity Centre in this zone exceeding the lesser of the following: <ul style="list-style-type: none"> A. 50% of the gross leasable floor area within the Activity Centre B. 1000m². (e) the development is located within the ground level of a mixed use building with frontage to a waterfront or coastal reserve and does not exceed 250m² gross leasable floor area. |

PO 1.6
Expansion of existing community services such as educational establishments, community facilities and pre-schools in a manner which complements the scale of development envisaged by the desired outcome for the neighbourhood.

DTS/DPF 1.6
Alteration of or addition to existing educational establishments, community facilities or pre-schools where:

- (a) set back at least 3m from any boundary shared with a residential land use
- (b) building height not exceeding 1 building level
- (c) the total floor area of the building not exceeding 150% of the total floor area prior to the addition/alteration
- (d) off-street vehicular parking exists or will be provided in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.

Site Dimensions and Land Division

PO 2.1
Allotments/sites created for residential purposes are of suitable size and dimension to accommodate the anticipated dwelling form and remain compatible with the pattern of development in a waterfront neighbourhood.

DTS/DPF 2.1
Development will not result in more than 1 dwelling on an existing allotment
or
Allotments/sites for residential purposes accord with the following:

- (a) site areas (or allotment areas in the case of land division) are not less than the following (average site area per dwelling, including common areas, applies for group dwellings or dwellings within a residential flat building):

| Minimum Site Area |
|---|
| Minimum site area for a detached dwelling is 250 sqm; semi-detached dwelling is 250 sqm; row dwelling is 200 sqm; group dwelling is 200 sqm; residential flat building is 200 sqm |
| Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 200 sqm; row dwelling is 180 sqm; group dwelling is 200 sqm; residential flat building is 150 sqm |
| Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 220 sqm; row dwelling is 180 sqm; group dwelling is 275 sqm; residential flat building is 200 sqm |
| Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 250 sqm; row dwelling is 200 sqm; group dwelling is 200 sqm; residential flat building is 200 sqm |
| Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 300 sqm; row dwelling is 200 sqm; group dwelling is 300 sqm |
| Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 300 sqm; row dwelling is 300 sqm; group dwelling is 300 sqm; residential flat building is 300 sqm |
| Minimum site area for a detached dwelling is 350 sqm; semi-detached dwelling is 250 sqm; row dwelling is 180 sqm; group dwelling is 250 sqm; residential flat building is 180 sqm |
| Minimum site area for a detached dwelling is 350 sqm; semi-detached dwelling is 350 sqm; row dwelling is 350 sqm; group dwelling is 350 sqm; residential flat building is 350 sqm |
| Minimum site area for a detached dwelling is 390 sqm; semi-detached dwelling is 270 sqm; row dwelling is 200 sqm; group dwelling is 275 sqm; residential flat building is 250 sqm |
| Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 350 sqm; row dwelling is 300 sqm; group dwelling is 400 sqm; residential flat building is 300 sqm |
| Minimum site area is 2,000 sqm |
| Minimum site area is 2 ha |

- (b) site frontages (or allotment frontages in the case of land division) are not less than:

| Minimum Frontage |
|--|
| Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 10m; row dwelling is 10m; group dwelling is 18m; residential flat building is 18m |
| Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 9m; row dwelling is 7m; group dwelling is 18m; residential flat building is 18m |
| Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 9m; row dwelling is 8m; group dwelling is 20m; residential flat building is 20m |
| Minimum frontage for a detached dwelling is 4m; semi-detached dwelling is 4m; row dwelling is 4m; group dwelling is 4m; residential flat building is 6m |
| Minimum frontage for a detached dwelling is 5m; semi-detached dwelling is 5m; row dwelling is 5m; group dwelling is 5m; residential flat building is 5m |
| Minimum frontage for a detached dwelling is 8m; semi-detached dwelling is 8m; row dwelling is 7m; group dwelling is 16m; residential flat building is 16m |
| Minimum frontage for a detached dwelling is 8m; semi-detached dwelling is 8m; row dwelling is 8m; group dwelling is 16m; residential flat building is 16m |
| Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 8m; row dwelling is 7m; group dwelling is 15m; residential flat building is 15m |
| Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 9m; row dwelling is 7m; group dwelling is 15m |
| Minimum frontage is 25m |

In relation to DTS/DPF 2.1, in instances where:

- (c) more than one value is returned in the same field, refer to the *Minimum Frontage Technical and Numeric Variation layer* or *Minimum Site Area Technical and Numeric Variation layer* in the SA planning database to determine the applicable value relevant to the site of the proposed development
- (d) no value is returned in (a) or (b) (i.e. there is a blank field or relevant dwelling type is not

| | listed), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy. | | | | | | | | | | |
|--|---|----------------------------------|-------------------------------|---------------------------------|-------------------------------|--------------------------------|---------------------------------|----------------------------------|----------------------------------|-------------------------------------|-------------------------------------|
| <p>PO 2.2</p> <p>Development creating new allotments/sites in conjunction with retention of an existing dwelling ensures the site of the existing dwelling remains fit for purpose.</p> | <p>DTS/DPF 2.2</p> <p>Where the site of a dwelling does not comprise an entire allotment:</p> <ul style="list-style-type: none"> (a) The balance of the allotment accords with site area and frontage requirements specified in DTS/DPF 2.1 (b) If there is an existing dwelling on the allotment that will remain on the allotment after completion of the development, it will not contravene: <ul style="list-style-type: none"> (i) Private open space requirements specified in Design in Urban Areas Table 1 - Private Open Space (ii) Car parking requirements specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number. | | | | | | | | | | |
| Site Coverage | | | | | | | | | | | |
| <p>PO 3.1</p> <p>Building footprints consistent with the character of a waterfront neighbourhood and limited to:</p> <ul style="list-style-type: none"> (a) allow sufficient space around buildings to limit visual impact (b) provide an attractive outlook (c) provide access to light and ventilation (d) on sites with a dual frontage, to maximise use of available land. | <p>DTS/DPF 3.1</p> <p>The development does not result in site coverage exceeding:</p> <ul style="list-style-type: none"> (a) on sites 300m² or less and with a dual frontage to the waterfront and a public street, 80%. (b) in all other cases, 60%. | | | | | | | | | | |
| Building Height | | | | | | | | | | | |
| <p>PO 4.1</p> <p>Building height is consistent with the form expressed in any relevant Maximum Building Height Levels Technical and Numeric Variation and Maximum Building Height Metres Technical and Numeric Variation, and is otherwise generally low rise, or complements the height of nearby buildings.</p> | <p>DTS/DPF 4.1</p> <p>Building height (excluding garages, carports and outbuildings) is no greater than:</p> <ul style="list-style-type: none"> (a) the following: <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: center;">Maximum Building Height (Metres)</th> </tr> </thead> <tbody> <tr> <td>Maximum building height is 8m</td> </tr> <tr> <td>Maximum building height is 8.5m</td> </tr> <tr> <td>Maximum building height is 9m</td> </tr> <tr> <td>Maximum building height is 12m</td> </tr> <tr> <td>Maximum building height is 7.5m</td> </tr> <tr> <td>Maximum building height is 10.5m</td> </tr> <tr> <th style="text-align: center;">Maximum Building Height (Levels)</th> </tr> <tr> <td>Maximum building height is 2 levels</td> </tr> <tr> <td>Maximum building height is 3 levels</td> </tr> </tbody> </table> (b) in all other cases (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)) - 2 building levels up to a height of 9m. <p>In relation to DTS/DPF 4.1, in instances where:</p> <ul style="list-style-type: none"> (c) more than one value is returned in the same field, refer to the <i>Maximum Building Height (Levels) Technical and Numeric Variation layer</i> and <i>Maximum Building Height (Metres) Technical and Numeric Variation layer</i> in the SA planning database to determine the applicable value relevant to the site of the proposed development (d) only one value is returned for DTS/DPF 4.1(a) (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other. | Maximum Building Height (Metres) | Maximum building height is 8m | Maximum building height is 8.5m | Maximum building height is 9m | Maximum building height is 12m | Maximum building height is 7.5m | Maximum building height is 10.5m | Maximum Building Height (Levels) | Maximum building height is 2 levels | Maximum building height is 3 levels |
| Maximum Building Height (Metres) | | | | | | | | | | | |
| Maximum building height is 8m | | | | | | | | | | | |
| Maximum building height is 8.5m | | | | | | | | | | | |
| Maximum building height is 9m | | | | | | | | | | | |
| Maximum building height is 12m | | | | | | | | | | | |
| Maximum building height is 7.5m | | | | | | | | | | | |
| Maximum building height is 10.5m | | | | | | | | | | | |
| Maximum Building Height (Levels) | | | | | | | | | | | |
| Maximum building height is 2 levels | | | | | | | | | | | |
| Maximum building height is 3 levels | | | | | | | | | | | |
| Primary Street Setback | | | | | | | | | | | |
| <p>PO 5.1</p> <p>Buildings are setback from primary street boundaries to contribute to the existing/emerging pattern of street setbacks in the streetscape and the waterfront environment.</p> | <p>DTS/DPF 5.1</p> <p>Other than development on allotments/sites with dual frontage to both a waterfront and a public road, the building line of buildings set back from the primary street boundary:</p> <ul style="list-style-type: none"> (a) at least the average setback to the building line of existing buildings on adjoining sites which face the same primary street (including those buildings that would adjoin the site if not separated by a public road or a vacant allotment) (b) where there is only one existing building on adjoining sites which face the same primary street (including those that would adjoin if not separated by a public road or a vacant allotment), not less than the setback to the building line of that building or (c) not less than 5m where no building exists on an adjoining site with the same primary street frontage. | | | | | | | | | | |
| Secondary Street Setback | | | | | | | | | | | |
| <p>PO 6.1</p> <p>Buildings are set back from secondary street boundaries to achieve separation between building walls and public streets and contribute to a suburban streetscape character.</p> | <p>DTS/DPF 6.1</p> <p>Building walls are set back from the boundary of the allotment with a secondary street frontage at least:</p> <ul style="list-style-type: none"> (a) at least 900mm <p style="text-align: center;">or</p> | | | | | | | | | | |

| | |
|---|--|
| | (b) if a dwelling on any adjoining allotment is closer to the secondary street than 900mm, at least the distance of that dwelling from the boundary with the secondary street whichever is less. |
| Boundary Walls | |
| PO 7.1 Dwelling boundary walls are limited in height and length to manage visual and overshadowing impacts on adjoining properties. | DTS/DPF 7.1 Except where the dwelling is located on a central site within a row dwelling or terrace arrangement, side boundary walls occur only on one side boundary and satisfy (a) or (b): (a) side boundary walls adjoin or abut a boundary wall of a building on adjoining land for the same, or lesser length and height (b) side boundary walls do not: (i) exceed 3m in height from the top of footings (ii) exceed 11.5m in length (iii) when combined with other walls on the boundary of the subject development site, exceed a maximum 45% of the length of the boundary (iv) encroach within 3 metres of any other existing or proposed boundary walls on the subject land. |
| PO 7.2 Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings consistent with a suburban streetscape character. | DTS/DPF 7.2 Dwelling walls in a semi-detached, row or terrace arrangement are setback at least 900mm from side boundaries shared with allotments outside the development site. |
| Side boundary setback | |
| PO 8.1 Building walls are set back from side boundaries to provide: (a) separation between dwellings in a way that contributes to a suburban character and (b) access to natural light and ventilation for neighbours. | DTS/DPF 8.1 Other than walls located on a side boundary, building walls are set back from side boundaries: (a) at least 900mm where the wall height is up to 3m (b) other than for a wall facing a southern side boundary, at least 900mm plus 1/3 of the wall height above 3m and (c) at least 1900mm plus 1/3 of the wall height above 3m for walls facing a southern side boundary. |
| Rear boundary setback | |
| PO 9.1 Dwelling walls are set back from rear boundaries to provide: (a) separation between dwellings in a way that contributes to a suburban character (b) access to natural light and ventilation for neighbours (c) private open space (d) space for landscaping and vegetation (e) a consistent character when viewed from a waterfront. | DTS/DPF 9.1 Dwelling walls are set back from the rear boundary at least: (a) where the rear boundary fronts a waterfront, no less than the average rear setback of any existing dwellings on adjoining allotments. (b) where the rear boundary adjoins a laneway - 0m (c) In all other cases: (i) if the size of the site is less than 301 square metres— A. 3m in relation to the ground floor of the dwelling B. 5m in relation to any other building level of the dwelling (ii) if the size of the site is 301 square metres or more— A. 4m in relation to the ground floor of the dwelling B. 6m in relation to any other building level of the dwelling. |
| Concept Plans | |
| PO 10.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure. | DTS/DPF 10.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: In relation to DTS/DPF 10.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 10.1 is met. |
| Built form and character | |
| PO 11.1 Dwellings on sites with frontages to both a public street and a waterfront designed to address both frontages. | DTS/DPF 11.1 Development is not located on a site/allotment with frontage to a waterfront. |
| PO 11.2 Service areas associated with dwellings such as open storage and clothes drying screened from public view. | DTS/DPF 11.2 None are applicable. |
| PO 11.3 Development set back from waterfronts to establish a consistent character that includes soft | DTS/DPF 11.3 None are applicable. |

| landscaping along coastal/riverine frontages. | | | | | | | | | | | |
|---|--|--|----------------------------|------|-----|---------|-----|---------|-----|------|-----|
| Ancillary buildings and structures | | | | | | | | | | | |
| PO 12.1 Outbuildings designed and sited to mitigate their visibility from the waterfront. | DTS/DPF 12.1 Outbuildings are not located between the main building and waterfront boundary on a site/allotment with frontage to a waterfront. | | | | | | | | | | |
| PO 12.2 Residential ancillary buildings and structures are sited and designed to not detract from the streetscape or appearance of buildings on the site or neighbouring properties. | <p>DTS/DPF 12.2</p> <p>Ancillary buildings:</p> <ul style="list-style-type: none"> (a) are ancillary to a dwelling erected on the same site (b) have a floor area not exceeding 60m² (c) are not constructed, added to or altered so that any part is situated: <ul style="list-style-type: none"> (i) in front of any part of the building line of the dwelling to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: <ul style="list-style-type: none"> (i) is set back at least 5.5m from the boundary of the primary street (ii) when facing a primary street or secondary street, has a total door / opening not exceeding: <ul style="list-style-type: none"> A. for dwellings of single building level - 7m in width or 50% of the site frontage, whichever is the lesser B. for dwellings comprising two or more building levels at the building line fronting the same public street - 7m in width (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless: <ul style="list-style-type: none"> (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure (h) have a wall height (or post height) not exceeding 3m (i) have a roof height where no part of the roof is more than 5m above the natural ground level (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour (k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less: <ul style="list-style-type: none"> (i) a total area as determined by the following table: <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="background-color: #003366; color: white;">Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m²)</th> <th style="background-color: #003366; color: white;">Minimum percentage of site</th> </tr> </thead> <tbody> <tr> <td><150</td> <td>10%</td> </tr> <tr> <td>150-200</td> <td>15%</td> </tr> <tr> <td>201-450</td> <td>20%</td> </tr> <tr> <td>>450</td> <td>25%</td> </tr> </tbody> </table> (ii) the amount of existing soft landscaping prior to the development occurring. | Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m ²) | Minimum percentage of site | <150 | 10% | 150-200 | 15% | 201-450 | 20% | >450 | 25% |
| Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m ²) | Minimum percentage of site | | | | | | | | | | |
| <150 | 10% | | | | | | | | | | |
| 150-200 | 15% | | | | | | | | | | |
| 201-450 | 20% | | | | | | | | | | |
| >450 | 25% | | | | | | | | | | |
| PO 12.3 Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements and do not result in over-development of the site. | <p>DTS/DPF 12.3</p> <p>Ancillary buildings and structures do not result in:</p> <ul style="list-style-type: none"> (a) less private open space than specified in Design Table 1 - Private Open Space (b) less car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number. | | | | | | | | | | |
| Advertisements | | | | | | | | | | | |
| PO 13.1 Advertisements identify the associated business activity, and do not detract from the residential character of the locality. | DTS/DPF 13.1 Advertisements relating to a lawful business activity associated with a residential use do not exceed 0.3m ² and mounted flush with a wall or fence. | | | | | | | | | | |

Table 1 - Accepted Development Classification

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

| | |
|-----------------------------|---|
| Class of Development | Accepted Development Classification Criteria |
|-----------------------------|---|

| | |
|--|--|
| <p>Air handling unit, air conditioning system or exhaust fan Except where any of the following apply:</p> <ul style="list-style-type: none"> Local Heritage Place Overlay State Heritage Area Overlay State Heritage Place Overlay | <ol style="list-style-type: none"> The item will be installed on or within an existing dwelling. The item being installed does not encroach on a public street. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street. |
| <p>Brush fence Except where any of the following apply:</p> <ul style="list-style-type: none"> Hazards (Flooding) Overlay Historic Area Overlay Local Heritage Place Overlay Ramsar Wetlands Overlay State Heritage Area Overlay State Heritage Place Overlay | <ol style="list-style-type: none"> The fence is formed (wholly or partially) from brush The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas. |
| <p>Building work on railway land Except where any of the following apply:</p> <ul style="list-style-type: none"> Coastal Areas Overlay Hazards (Acid Sulfate Soils) Overlay Local Heritage Place Overlay Significant Landscape Protection Overlay State Heritage Area Overlay State Heritage Place Overlay | <ol style="list-style-type: none"> Building work is associated with a railway It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) It is required for the conduct or maintenance of railway activities It does not involve the clearance of native vegetation The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas. |
| <p>Carport Except where any of the following apply:</p> <ul style="list-style-type: none"> Future Local Road Widening Overlay Future Road Widening Overlay Historic Area Overlay Local Heritage Place Overlay State Heritage Area Overlay State Heritage Place Overlay | <ol style="list-style-type: none"> The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i> The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system It is ancillary to a dwelling erected on the site Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary Total floor area - does not exceed 40m² Post height - does not exceed 3m measured from natural ground level (and not including a gable end) Building height - does not exceed 5m If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11.5m unless: <ol style="list-style-type: none"> a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street): <ol style="list-style-type: none"> it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure Site coverage does not exceed: <ol style="list-style-type: none"> on sites 300m² or less and with a dual frontage to the waterfront and a public street, 80% in all other cases, 60%. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) The carport is located so that vehicle access: <ol style="list-style-type: none"> is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or is not obtained from a State Maintained Road, and will use a driveway that: <ol style="list-style-type: none"> is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour Does not involve the clearance of native vegetation Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: <ol style="list-style-type: none"> a total area as determined by the following table: |

| Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m ²) | Minimum percentage of site |
|--|----------------------------|
| <150 | 10% |
| 150-200 | 15% |
| 201-450 | 20% |
| >450 | 25% |

(b) the amount of existing soft landscaping prior to the development occurring.

Internal building work
Except where any of the following apply:

- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. There will be no increase in the total floor area of the building
2. Other than where located within the Historic Area Overlay there will be no alteration to the external appearance of the building to any significant degree
3. There will be no alteration to the external appearance of the building where located within the Historic Area Overlay.

Outbuilding
Except where any of the following apply:

- Coastal Areas Overlay
- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Flooding) Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
3. It is detached from and ancillary to a dwelling erected on the site.
4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary
5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)
6. Total floor area - does not exceed 40m²
7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)
8. Building height - does not exceed 5m
9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless:
 - (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
 - (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):
 - (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
 - (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure
11. Site coverage does not exceed:
 - (a) on sites 300m² or less and with a dual frontage to the waterfront and a public street, 80%.
 - (b) in all other cases, 60%.
12. Door opening for vehicle access facing a street frontage - does not exceed, in total 7m in width or 50% of the width of the allotment frontage (whichever lesser)
13. If the outbuilding is a garage, it is located so that vehicle access:
 - (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
 - (b) is not obtained from a State maintained Road, and will use a driveway that:
 - (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing;
 - (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;
 - (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
 - (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access
 - (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site
14. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour
15. Does not involve-
 - (a) excavation exceeding a vertical height of 1m; or
 - (b) filling exceeding a vertical height of 1m,

and, if the development involves both excavation and filling, the total combined excavation

and filling must not exceed a vertical height of 2m.

- 16. Does not involve the clearance of native vegetation
- 17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
- 18. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
 - (a) a total area as determined by the following table:

| Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m ²) | Minimum percentage of site |
|--|----------------------------|
| <150 | 10% |
| 150-200 | 15% |
| 201-450 | 20% |
| >450 | 25% |

- (b) the amount of existing soft landscaping prior to the development occurring.

Partial demolition of a building or structure
Except where any of the following apply:

- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

None

Private bushfire shelter
Except where any of the following apply:

- Coastal Areas Overlay
- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Acid Sulfate Soils) Overlay
- Hazards (Flooding) Overlay
- Local Heritage Place Overlay
- River Murray Flood Plain Protection Area Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

- 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
- 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
- 3. Primary street setback - at least as far back as the building to which it is ancillary
- 4. Secondary street setback - at least 900mm from the boundary of the allotment
- 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place)
- 6. Does not involve the clearance of native vegetation.

Shade sail
Except where any of the following apply:

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- Ramsar Wetlands Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

- 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
- 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
- 3. Shade sail consists of permeable material
- 4. The total area of the sail - does not exceed 40m²
- 5. No part of the shade sail will be:
 - (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment
 - (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment
- 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary
- 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11.5m
- 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary
- 9. Does not involve the clearance of native vegetation
- 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
- 11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
 - (a) a total area as determined by the following table:

| Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m ²) | Minimum percentage of site |
|--|----------------------------|
| <150 | 10% |
| 150-200 | 15% |
| 201-450 | 20% |
| >450 | 25% |

- (b) the amount of existing soft landscaping prior to the development occurring.

| <p>Solar photovoltaic panels (roof mounted) Except where any of the following apply:</p> <ul style="list-style-type: none"> Local Heritage Place Overlay State Heritage Area Overlay State Heritage Place Overlay | <ol style="list-style-type: none"> The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i> Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof Panels and associated components do not overhang any part of the roof Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street. | | | | | | | | | | |

Water tank (above ground)

Except where any of the following apply:

- Historic Area Overlay
- Local Heritage Place Overlay
- Ramsar Wetlands Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
3. The tank is part of a roof drainage system
4. Total floor area - not exceeding 15m²
5. The tank is located wholly above ground
6. Tank height - does not exceed 4m above natural ground level
7. Primary street setback - at least as far back as the building line of the building to which it is ancillary
8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour
9. Does not involve the clearance of native vegetation
10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
 - (a) a total area as determined by the following table:

| Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m ²) | Minimum percentage of site |
|--|----------------------------|
| <150 | 10% |
| 150-200 | 15% |
| 201-450 | 20% |
| >450 | 25% |

- (b) the amount of existing soft landscaping prior to the development occurring.

Water tank (underground)

Except where any of the following apply:

- Coastal Areas Overlay
- Hazards (Acid Sulfate Soils) Overlay
- Ramsar Wetlands Overlay

1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
2. The tank (including any associated pump) is located wholly below the level of the ground
3. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

| Class of Development | Deemed-to-Satisfy Development Classification Criteria | | | |
|---|---|--|--|--|
| | Zone | General Development Policies | Subzone <small>(applies only in the area affected by the Subzone)</small> | Overlay <small>(applies only in the area affected by the Overlay)</small> |

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

| Class of Development | Applicable Policies | | | |

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

| Class of Development | Exclusions |
|----------------------|---|
| Shop | Any of the following: (a) shop with a gross leasable floor area less than 1000m ² (b) shop that is a restaurant. |

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

A class of development listed in Column A is excluded from notification provided that it does not fall within a corresponding exclusion prescribed in Column B. In instances where development falls within multiple classes within Column A, each clause is to be read independently such that if a development is excluded from notification by any clause, it is, for the purposes of notification excluded irrespective of any other clause.

| Class of Development (Column A) | Exceptions (Column B) |
|--|--|
| 1. A kind of development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development. | None specified. |
| 2. All development undertaken by: (a) the South Australian Housing Trust either individually or jointly with other persons or bodies or (b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust. | Except development involving any of the following: 1. residential flat building(s) of 3 or more building levels 2. the demolition of a State or Local Heritage Place 3. the demolition of a building (except an ancillary building) in a Historic Area Overlay. |
| 3. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) ancillary accommodation (c) building work on railway land (d) carport (e) deck (f) dwelling (g) dwelling addition (h) fence (i) jetty, pontoon or boat berth (or any combination thereof) (j) outbuilding (k) pergola (l) private bushfire shelter (m) residential flat building (n) retaining wall (o) shade sail (p) solar photovoltaic panels (roof mounted) (q) swimming pool or spa pool (r) verandah (s) water tank. | Except development that: 1. exceeds the maximum building height specified in Waterfront Neighbourhood Zone DTS/DPF 4.1 or 2. involves a building wall (or structure) that is proposed to be situated on a side boundary (not being a boundary with a primary street or secondary street) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment). |
| 4. Any development involving any of the following (or of any combination of any of the following): (a) consulting room (b) office (c) shop. | Except development that: 1. exceeds the maximum building height specified in Waterfront Neighbourhood Zone DTS/DPF 4.1 or 2. does not satisfy Waterfront Neighbourhood Zone DTS/DPF 1.5 or 3. involves a building wall (or structure) that is proposed to be situated on a side boundary (not being a boundary with a primary street or secondary street) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or |

| | |
|---|--|
| | (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment). |
| 5. Any development involving any of the following (or of any combination of any of the following): (a) internal building works (b) land division (c) recreation area (d) replacement building (e) temporary accommodation in an area affected by bushfire (f) tree damaging activity. | None specified. |
| 6. Demolition. | Except any of the following: 1. the demolition of a State or Local Heritage Place 2. the demolition of a building (except an ancillary building) in a Historic Area Overlay. |

Placement of Notices - Exemptions for Performance Assessed Development

None specified.

Placement of Notices - Exemptions for Restricted Development

None specified.

Workers' Settlement Zone

Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|-----------------|--|
| DO 1 | Appropriately designed and located accommodation for seasonal and short-term workers in rural areas that minimises environmental and social impacts. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|--|--|
| Land Use and Intensity | |
| PO 1.1 Development is limited to workers' accommodation and ancillary land uses that support the day to day needs of workers. | DTS/DPF 1.1 Development comprises one or more of the following: (a) a dwelling (manager's house) (b) amenity block (including shower, toilet and laundry facilities) in association with and ancillary to the workers' accommodation (c) dwelling addition (d) recreational facility in association with and ancillary to the workers' accommodation (e) office in association with and ancillary to the workers' accommodation (f) shop in association with and ancillary to the workers' accommodation (g) workers' accommodation. |
| PO 1.2 Shops, primarily in the form of a restaurant, associated with and ancillary to Workers' accommodation enhance the amenity of the zone for those workers. | DTS/DPF 1.2 Shops located on the same site as workers' accommodation meets one of the following: (a) it has a gross leasable floor area not exceeding 100m ² (b) it is a restaurant. |
| PO 1.3 Office associated with and ancillary to Workers' accommodation supports the management and administrative aspects of the accommodation. | DTS/DPF 1.3 Office is ancillary to and located on the same site as Workers' accommodation. |
| PO 1.4 Development provides space adjacent to and around habitable buildings to accommodate areas for parking of vehicles, storage of waste, landscaping, recreation areas, swimming pool/spa and | DTS/DPF 1.4 The total roofed area of all existing and proposed buildings on the site will not exceed 60%. |

| | |
|---|---|
| similar facilities to enhance the amenity for resident workers. | |
| PO 1.5 Workers' accommodation is established in association with major industrial, mining, agricultural and business activities to support and facilitate economic activity. | DTS/DPF 1.5 Workers' accommodation is constructed by the principal operator of the relevant business or authorised agent thereof. |
| PO 1.6 A dwelling in the form of a manager or caretaker residence associated with and ancillary to Workers' accommodation provides for the efficient management, maintenance and support of residents. | DTS/DPF 1.6 A dwelling is: (a) ancillary to and located on the same allotment or within the same lease area as the workers' accommodation (b) has a demonstrated connection with workers' accommodation (c) will not result in more than one dwelling being located on an allotment or lease area used for workers' accommodation. |
| Land Division | |
| PO 2.1 Land division is designed to: (a) minimise fire risk danger to occupants of buildings and firefighting personnel (b) minimise the potential risk of damage to buildings and other property during a bushfire (c) ensure each allotment contains a suitable building envelope that is located away from any vegetation that would pose an unacceptable risk in the event of bushfire. | DTS/DPF 2.1 None are applicable. |
| Built Form and Character | |
| PO 3.1 Buildings and recreational facilities are set back from internal roads to accommodate vehicular movements and contribute to the safety of workers and visitors. | DTS/DPF 3.1 Buildings and recreational facilities are set back at least 1 metre from an internal road. |
| PO 3.2 Buildings are set back from public roads to mitigate impacts on the streetscape. | DTS/DPF 3.2 Buildings are set back at least 2m from a public road. |
| PO 3.3 Buildings and recreational areas are set back from the boundary of the zone to minimise impacts on neighbouring properties and enhance local amenity. | DTS/DPF 3.3 Buildings are set back at least 2 metres from the zone boundary. |
| PO 3.4 Buildings use materials and finishes to complement the landscape and mitigate the effects of glare on adjacent land users. | DTS/DPF 3.4 Buildings are clad in, or a combination of: (a) materials other than sheet metal (b) sheet metal pre-colour treated or painted in a non-reflective colour. |
| Landscaping | |
| PO 4.1 Landscaping is provided along public roads and thoroughfares, zone boundaries and the perimeter of common vehicle parking areas to enhance the visual appearance of development. | DTS/DPF 4.1 Other than to accommodate a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land, a landscaped area is provided within the development site in accordance with the following: (a) at least 1.5m wide along any boundary on the perimeter of the zone fronting a public road or thoroughfare (b) at least 1m wide around the perimeter of any shared vehicle parking area. |
| PO 4.2 Development incorporates areas for landscaping to enhance the overall amenity of the site and locality. | DTS/DPF 4.2 Landscape areas comprise: (a) not less than 10 percent of the site area (b) a dimension of at least 1m. |
| Concept Plans | |
| PO 5.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure. | DTS/DPF 5.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: In relation to DTS/DPF 5.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 5.1 is met. |

Table 1 - Accepted Development Classification

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

| Class of Development | Accepted Development Classification Criteria |
|--|---|
| <p>Air handling unit, air conditioning system or exhaust fan Except where any of the following apply:</p> <ul style="list-style-type: none"> • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay | <ol style="list-style-type: none"> 1. The item will be installed on or within an existing dwelling. 2. The item being installed does not encroach on a public street. 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street. |
| <p>Building work on railway land Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay • Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay | <ol style="list-style-type: none"> 1. Building work is associated with a railway. 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017). 3. It is required for the conduct or maintenance of railway activities. 4. It does not involve the clearance of native vegetation. |
| <p>Carport Except where any of the following apply:</p> <ul style="list-style-type: none"> • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay | <ol style="list-style-type: none"> 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 40m². 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end). 7. Building height - does not exceed 5m. 8. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11m unless: <ol style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): <ol style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 10. The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment. 11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser). 12. The carport is located so that vehicle access: <ol style="list-style-type: none"> (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State maintained road, and will use a driveway that: <ol style="list-style-type: none"> (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site. 13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour. 14. Does not involve the clearance of native vegetation. |
| <p>Internal building work Except where any of the following apply:</p> <ul style="list-style-type: none"> • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay | <ol style="list-style-type: none"> 1. There will be no increase in the total floor area of the building 2. Other than where located within the Historic Area Overlay there will be no alteration to the external appearance of the building to any significant degree. 3. There will be no alteration to the external appearance of the building where located within the Historic Area overlay. |
| <p>Outbuilding Except where any of the following apply:</p> | <ol style="list-style-type: none"> 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>. |

| | |
|---|--|
| <ul style="list-style-type: none"> • Coastal Areas Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay | <ol style="list-style-type: none"> 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads). 6. Total floor area - does not exceed 40m². 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end). 8. Building height - does not exceed 5m. 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless: <ol style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): <ol style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 11. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%. 12. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): <ol style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. 13. If the outbuilding is a garage, it is located so that vehicle access: <ol style="list-style-type: none"> (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: <ol style="list-style-type: none"> (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site 14. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour. 15. Does not involve- <ol style="list-style-type: none"> (a) excavation exceeding a vertical height of 1 metre; or (b) filling exceeding a vertical height of 1 metre, <p>and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres.</p> 16. Does not involve the clearance of native vegetation. |
| <p>Partial demolition of a building or structure Except where any of the following apply:</p> <ul style="list-style-type: none"> • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay | <p>None</p> |
| <p>Shade sail Except where any of the following apply:</p> <ul style="list-style-type: none"> • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay | <ol style="list-style-type: none"> 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. Shade sail consists of permeable material. 4. The total area of the sail - does not exceed 40m². 5. No part of the shade sail will be: <ol style="list-style-type: none"> (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment. |

| | |
|---|---|
| | <ol style="list-style-type: none"> 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m. 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary. 9. Does not involve the clearance of native vegetation. |
| <p>Solar photovoltaic panels (roof mounted) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay | <ol style="list-style-type: none"> 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>. 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof. 3. Panels and associated components do not overhang any part of the roof. 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system. 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street. |
| <p>Swimming pool or spa pool Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay | <ol style="list-style-type: none"> 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted. 4. Allotment boundary setback - not less than 1m. 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 6. Location of filtration system from a dwelling on an adjoining allotment: <ol style="list-style-type: none"> (a) not less than 5m where the filtration system is located inside a solid structure that will have material impact on the transmission of noise; or (b) not less than 12m in any other case. 7. Does not involve the clearance of native vegetation. |
| <p>Water tank (above ground) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay | <ol style="list-style-type: none"> 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. The tank is part of a roof drainage system. 4. Total floor area - not exceeding 15m². 5. The tank is located wholly above ground. 6. Tank height - does not exceed 4m above natural ground level. 7. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour. 9. Does not involve the clearance of native vegetation |
| <p>Water tank (underground)</p> | <ol style="list-style-type: none"> 1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 2. The tank (including any associated pump) is located wholly below the level of the ground. 3. Does not involve the clearance of native vegetation. |

Table 2 - Deemed-to-Satisfy Development Classification

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

| Class of Development | Deemed-to-Satisfy Development Classification Criteria | | | |
|----------------------|--|--|--|--|
| | Zone | General Development Policies | Subzone <small>(applies only in the area affected by the Subzone)</small> | Overlay <small>(applies only in the area affected by the Overlay)</small> |

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

| Class of Development | Applicable Policies | | | |
|----------------------|--|--|--|---|
| | Zone | General Development Policies | Subzone <small>(applies only in the area affected by the Subzone)</small> | Overlay <small>(applies only in the area affected by the Overlay)</small> |

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

| Class of Development | Exclusions |
|----------------------|---|
| Shop | Any of the following: (a) shop with a gross leasable floor area less than 1000m ² (b) shop that is a restaurant. |

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

A class of development listed in Column A is excluded from notification provided that it does not fall within a corresponding exclusion prescribed in Column B. In instances where development falls within multiple classes within Column A, each clause is to be read independently such that if a development is excluded from notification by any clause, it is, for the purposes of notification excluded irrespective of any other clause.

| Class of Development (Column A) | Exceptions (Column B) |
|--|--------------------------|
| 1. A kind of development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development. | None specified. |
| 2. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) amenities block (c) building work on railway land (d) internal building works (e) carport (f) deck (g) dwelling (h) dwelling addition (i) office (j) outbuilding (k) pergola (l) replacement building (m) shade sail (n) shop (o) solar photovoltaic panels (roof mounted) | None specified. |

- (p) swimming pool or spa pool
- (q) temporary accommodation in an area affected by bushfire
- (r) tree damaging activity
- (s) workers accommodation
- (t) water tank.

3. Demolition.

Except any of the following:

1. the demolition of a State or Local Heritage Place
2. the demolition of a building (except an ancillary building) in a Historic Area Overlay.

Placement of Notices - Exemptions for Performance Assessed Development

None specified

Placement of Notices - Exemptions for Restricted Development

None specified

Part 3 - Overlays

Provision of a safe road environment by reducing driver distraction at key points of conflict on the road.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|--|
| Advertisements Near Signalised Intersections | |
| <p>PO 1.1</p> <p>Advertising near signalised intersections does not cause unreasonable distraction to road users through illumination, flashing lights, or moving or changing displays or messages.</p> | <p>DTS/DPF 1.1</p> <p>Advertising:</p> <ul style="list-style-type: none"> (a) is not illuminated (b) does not incorporate a moving or changing display or message (c) does not incorporate a flashing light(s). |

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---------------------------|--|---|
| <p>Advertisement or advertising hoarding that:</p> <ul style="list-style-type: none"> (a) is within 100m of a: <ul style="list-style-type: none"> (i) signalised intersection or (ii) signalised pedestrian crossing and (b) will: <ul style="list-style-type: none"> (i) be internally illuminated or (ii) incorporate a moving or changing display or message or (iii) incorporate a flashing light. | Commissioner of Highways. | To provide expert technical assessment on potential risks relating to pedestrian and road safety which may arise from advertisements near intersections. | Development of a class to which Schedule 9 clause 3 item 21 of the Planning, Development and Infrastructure (General) Regulations 2017 applies. |

Affordable Housing Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|-----------------|--|
| DO 1 | Affordable housing is integrated with residential and mixed use development. |
| DO 2 | Affordable housing caters for a variety of household structures. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|--|
| Land Division | |
| <p>PO 1.1</p> <p>Development comprising 20 or more dwellings / allotments incorporates affordable housing.</p> | <p>DTS/DPF 1.1</p> <p>Development results in 0-19 additional allotments / dwellings.</p> |
| <p>PO 1.2</p> <p>Development comprising 20 or more dwellings or residential allotments provides housing suited to a range of incomes including households with low to moderate incomes.</p> | <p>DTS/DPF 1.2</p> <p>Development comprising 20 or more dwellings / or residential allotments includes a minimum of 15% affordable housing except where:</p> <ul style="list-style-type: none"> (a) it can be demonstrated that any shortfall in affordable housing has been provided in a previous stage of development or (b) it can be demonstrated that any shortfall in affordable housing will be accommodated in a subsequent stage or stages of development. |

| | |
|--|--|
| PO 1.3 Affordable housing is distributed throughout the development to avoid an overconcentration. | DTS/DPF 1.3 None are applicable. |
| Built Form and Character | |
| PO 2.1 Affordable housing is designed to complement the design and character of residential development within the locality. | DTS/DPF 2.1 None are applicable. |
| Affordable Housing Incentives | |
| PO 3.1 To support the provision of affordable housing, minimum allotment sizes may be reduced below the minimum allotment size specified in a zone while providing allotments of a suitable size and dimension to accommodate dwellings with a high standard of occupant amenity. | DTS/DPF 3.1 The minimum site area specified for a dwelling can be reduced by up to 20%, or the maximum density per hectare increased by up to 20%, where it is to be used to accommodate affordable housing except where the development is located within the Character Area Overlay or Historic Area Overlay. |
| PO 3.2 To support the provision of affordable housing, building heights may be increased above the maximum specified in a zone. | DTS/DPF 3.2 Where a building incorporates dwellings above ground level and includes at least 15% affordable housing, the maximum building height specified in any relevant zone policy can be increased by 1 building level in the: <ul style="list-style-type: none"> (a) Business Neighbourhood Zone (b) City Living Zone (c) Established Neighbourhood Zone (d) General Neighbourhood Zone (e) Hills Neighbourhood Zone (f) Housing Diversity Neighbourhood Zone (g) Neighbourhood Zone (h) Master Planned Neighbourhood Zone (i) Master Planned Renewal Zone (j) Master Planned Township Zone (k) Rural Neighbourhood Zone (l) Suburban Business Zone (m) Suburban Neighbourhood Zone (n) Township Neighbourhood Zone (o) Township Zone (p) Urban Renewal Neighbourhood Zone (q) Waterfront Neighbourhood Zone and up to 30% in any other zone, except where: <ul style="list-style-type: none"> (a) the development is located within the Character Area Overlay or Historic Area Overlay or (b) other height incentives already apply to the development. |
| Movement and Car Parking | |
| PO 4.1 Sufficient car parking is provided to meet the needs of occupants of affordable housing. | DTS/DPF 4.1 Dwellings constituting affordable housing are provided with car parking in accordance with the following: <ul style="list-style-type: none"> (a) 0.3 carparks per dwelling within a building which incorporates dwellings located above ground level within either: <ul style="list-style-type: none"> (i) 200 metres of any section of road reserve along which a bus service operates as a high frequency public transit service⁽²⁾ (ii) is within 400 metres of a bus interchange⁽¹⁾ (iii) is within 400 metres of an O-Bahn interchange⁽¹⁾ (iv) is within 400 metres of a passenger rail station⁽¹⁾ (v) is within 400 metres of a passenger tram station⁽¹⁾ (vi) is within 400 metres of the Adelaide Parklands. or (b) 1 carpark per dwelling for any other dwelling. <p>[NOTE(S): (1) Measured from an area that contains any platform(s), shelter(s) or stop(s) where people congregate for the purpose waiting to board a bus, tram or train, but does not include areas used for the parking of vehicles. (2) A high frequency public transit service is a route serviced every 15 minutes between 7.30am and 6.30pm Monday to Friday and every 30 minutes at night, Saturday, Sunday and public holidays until 10pm.]</p> |

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|--|--|-----------------------------|---------------------|
| Development for the purposes of the provision of affordable housing (applying the criteria | Minister responsible for administering the <i>South Australian</i> | To provide direction on the | 4167 Development |

| | | | |
|--|---------------------------------|--|---|
| determined under regulation 4 of the <i>South Australian Housing Trust Regulations 2010</i>). | <i>Housing Trust Act 1995</i> . | conditions required to secure the provision of dwellings or allotments for affordable housing. | of a class to which Schedule 9 clause 3 item 20 of the Planning, Development and Infrastructure (General) Regulations 2017 applies. |
|--|---------------------------------|--|---|

Aircraft Noise Exposure Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|-----------------|---|
| DO 1 | Development sensitive to aircraft noise is designed and located to manage noise intrusion to reduce land use conflict and protect human health. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|--|--|
| Land Use and Intensity | |
| PO 1.1 Buildings that accommodate activities sensitive to aircraft noise are designed and located to minimise aircraft noise intrusion and provide appropriate interior acoustic amenity. | DTS/DPF 1.1 Buildings accommodating sensitive receivers are not located within an area having an ANEF value of 30 or more. |
| Built Form | |
| PO 2.1 Additions to buildings involving the addition or extension of habitable rooms are designed and located to minimise aircraft noise intrusion and provide appropriate interior acoustic amenity. | DTS/DPF 2.1 Dwelling additions involving the addition or extension of habitable rooms: (a) do not result in an increase in the total floor area of the existing dwelling by greater than 50 percent (b) do not occur in areas having an ANEF value of 30 or more. |
| Land Division | |
| PO 3.1 Land division does not increase the number of allotments used for sensitive receivers in areas adversely affected by aircraft noise to mitigate community exposure to potential adverse environmental and amenity impacts generated by aircraft movements. | DTS/DPF 3.1 Land division: (a) within an area having an ANEF value of less than 30 or (b) within an area having an ANEF value of 30 or more and: (i) does not result in any additional allotments or (ii) none of the allotments will accommodate a sensitive receiver. |

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---------------------------------|---------------|---------------------|---------------------|
| None | None | None | None |

Airport Building Heights (Aircraft Landing Areas) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome

| | |
|------|--|
| DO 1 | Management of potential impacts of buildings on the operational and safety requirements of aircraft landing areas. |
|------|--|

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome

Deemed-to-Satisfy Criteria / Designated Performance Feature

| Built Form | |
|--|---|
| PO 1.1 Building height does not pose a hazard to the operation of an aircraft landing area. | DTS/DPF 1.1 The distance from any part of a runway centreline to the closest point of the building is greater than 30 times building height. |

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

| None | None | None | None |

Airport Building Heights (Regulated) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome

| | |
|------|---|
| DO 1 | Management of potential impacts of buildings and generated emissions to maintain operational and safety requirements of registered and certified commercial and military airfields, airports, airstrips and helicopter landing sites. |
|------|---|

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome

Deemed-to-Satisfy Criteria / Designated Performance Feature

| Built Form | |
|--|---|
| PO 1.1 Building height does not pose a hazard to the operation of a certified or registered aerodrome. | DTS/DPF 1.1 Buildings are located outside the area identified as 'All structures' (no height limit is prescribed) and do not exceed the height specified in the Airport Building Heights (Regulated) Overlay which applies to the subject site as shown on the SA Property and Planning Atlas. In instances where more than one value applies to the site, the lowest value relevant to the site of the proposed development is applicable. |
| PO 1.2 Exhaust stacks are designed and sited to minimise plume impacts on aircraft movements associated with a certified or registered aerodrome. | DTS/DPF 1.2 Development does not include exhaust stacks. |

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---|---|--|
| Any of the following classes of development: (a) building located in an area identified as 'All structures' (no height limit is prescribed) or will exceed the height specified in the <i>Airport Building Heights (Regulated) Overlay</i> (b) building comprising exhaust stacks that generates plumes, or may cause plumes to be generated, above a height specified in the <i>Airport Building Heights (Regulated) Overlay</i> . | The airport-operator company for the relevant airport within the meaning of the <i>Airports Act 1996</i> of the Commonwealth or, if there is no airport-operator company, the Secretary of the Minister responsible for the administration of the <i>Airports Act 1996</i> of the Commonwealth. | To provide expert assessment and direction to the relevant authority on potential impacts on the safety and operation of aviation activities. | Development of a class to which Schedule 9 clause 3 item 1 of the Planning, Development and Infrastructure (General) Regulations 2017 applies. |

Building Near Airfields Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|-----------------|---|
| DO 1 | Maintain the operational and safety requirements of certified commercial and military airfields, airports, airstrips and helicopter landing sites through management of non-residential lighting, turbulence and activities that may attract or result in the congregation of wildlife. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|--|
| <p>PO 1.1</p> <p>Outdoor lighting associated with a non-residential use does not pose a hazard to commercial or military aircraft operations.</p> | <p>DTS/DPF 1.1</p> <p>Development:</p> <ul style="list-style-type: none"> (a) primarily or wholly for residential purposes (b) for non-residential purposes that does not incorporate outdoor floodlighting. |
| <p>PO 1.2</p> <p>Development likely to attract or result in the congregation of wildlife is adequately separated from airfields to minimise the potential for aircraft wildlife strike.</p> | <p>DTS/DPF 1.2</p> <p>All development except where it comprises one or more of the following located not less than 3km from the boundaries of an airport used by commercial or military aircraft:</p> <ul style="list-style-type: none"> (a) food packing/processing plant (b) horticulture (c) intensive animal husbandry (d) showground (e) waste management facility (f) waste transfer station (g) wetland (h) wildlife sanctuary. |
| <p>PO 1.3</p> <p>Buildings are adequately separated from runways and other take-off and landing facilities within certified or registered aerodromes to minimise the potential for building-generated turbulence and windshear that may pose a safety hazard to aircraft flight movement.</p> | <p>DTS/DPF 1.3</p> <p>The distance from any part of a runway centreline to the closest point of the building is not less than 35 times the building height.</p> |

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---------------------------------|---------------|---------------------|---------------------|
| None | None | None | None |

Character Area Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|-----------------|--|
| DO 1 | Valued streetscape characteristics and development patterns are reinforced through contextually responsive development, design and adaptive reuse that responds to the attributes expressed in the Character Area Statement. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---------------------|---|
|---------------------|---|

Performance Feature

All Development

| | |
|--|-------------------------------------|
| PO 1.1 All development is undertaken having consideration to the valued attributes expressed in the Character Area Statement. | DTS/DPF 1.1 None are applicable. |
|--|-------------------------------------|

Built Form

| | |
|--|-------------------------------------|
| PO 2.1 The form of new buildings and structures that are visible from the public realm are consistent with the valued streetscape characteristics of the character area. | DTS/DPF 2.1 None are applicable. |
| PO 2.2 Development is consistent with the prevailing building and wall heights in the character area. | DTS/DPF 2.2 None are applicable. |
| PO 2.3 Design and architectural detailing of street-facing buildings (including but not limited to roof pitch and form, openings, chimneys and verandahs) are consistent with the prevailing characteristics in the character area. | DTS/DPF 2.3 None are applicable. |
| PO 2.4 Development is consistent with the prevailing front and side boundary setback pattern in the character area. | DTS/DPF 2.4 None are applicable. |
| PO 2.5 Materials are either consistent with or complement those within the character area. | DTS/DPF 2.5 None are applicable. |

Alterations and Additions

| | |
|--|---|
| PO 3.1 Additions and alterations do not adversely impact on the streetscape character. | DTS/DPF 3.1 Additions and alterations: (a) are fully contained within the roof space of a building with no external alterations made to the building elevation facing the primary street or (b) meet all of the following: (i) do not include any development forward of the front façade building line (ii) any side or rear extensions are no closer to the side boundary than the existing building (iii) do not involve the construction or alteration of a second or subsequent building level. |
| PO 3.2 Adaptive reuse and revitalisation of buildings to retain local character consistent with the Character Area Statement. | DTS/DPF 3.2 None are applicable. |

Ancillary Development

| | |
|--|-------------------------------------|
| PO 4.1 Ancillary development, including carports, outbuildings and garages, complements the character of the area and associated building(s). | DTS/DPF 4.1 None are applicable. |
| PO 4.2 Ancillary development, including carports, outbuildings and garages, is located behind the building line of the principal building(s). | DTS/DPF 4.2 None are applicable. |
| PO 4.3 Advertising and advertising hoardings are located and designed to complement the building, be unobtrusive, be below the parapet line, not conceal or obstruct significant architectural elements and detailing, or dominate the building or its setting. | DTS/DPF 4.3 None are applicable. |
| PO 4.4 Fencing and gates closer to a street boundary (other than a laneway) than the elevation of the associated building are consistent with the traditional period, style and form of the of the associated building. | DTS/DPF 4.4 None are applicable. |

Land Division

| | |
|---|-------------------------------------|
| PO 5.1 Land division creates allotments that are: (a) compatible with the surrounding pattern of subdivision in the character area (b) of a dimension to accommodate buildings of a bulk and scale that reflect existing buildings and setbacks in the character area. | DTS/DPF 5.1 None are applicable. |
|---|-------------------------------------|

| | |
|---|--|
| <p>PO 6.1</p> <p>The width of driveways and other vehicle access ways are consistent with the prevalent width of existing driveways in the character area.</p> | <p>DTS/DPF 6.1</p> <p>None are applicable.</p> |
| <p>PO 6.2</p> <p>Development maintains the valued landscape pattern and characteristics that contribute to the character area, except where they compromise safety, create nuisance, or impact adversely on existing buildings or infrastructure.</p> | <p>DTS/DPF 6.2</p> <p>None are applicable.</p> |

Character Area Statements

Glenelg Character Area Statement (HoB-C4)

The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.

The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.

| | |
|---|---|
| Eras, themes and context | 1840s - 1930s. Earliest period of settlement of South Australia. Subdivision in 1839 by Light Finnis and Co. Growth period in 1920s associated with increase in holidaymaking and leisure pursuits. |
| Allotments, subdivision and built form patterns | Uniform street layout, an extension of the original Glenelg Village set out in 1839 by Colonel William Light. Rear laneways to service dwellings on Gordon and Rose Streets, and buildings on Brighton Road. Range allotment sizes. Medium to very large frontages. Small setbacks. Side setbacks provide visual spacing between dwellings. Consistency of setbacks in streetscapes. |
| Architectural styles, detailing and built form features | Early symmetrical and asymmetrical cottages of low scale and simple form with restrained detailing. Mid-Victorian Period cottages and villas (symmetrical and asymmetrical), semi-detached cottages and row dwellings with detailing typical of the era including verandahs, cast iron lacework, hipped and gable roof forms, plaster and render mouldings. Inter-War buildings, mostly Bungalows. Low scale to medium, relatively small dimensions and basic building details. Many dwellings without vehicle garaging. Garages, carports and outbuildings, where they exist, are low in scale and simple in form. They are located unobtrusively, to the rear of dwellings or the principal building on the site or, alternatively to the side and well-setback from the front façade. Rectilinear plan forms. High degree of modulation and articulation. Low scale. Steep roof pitches in the order of 30 to 40 degrees (slightly lower on Inter-War buildings). Short roof spans. Hip and gable roof forms. |

| | Residential Character Area Statement (MiMu-C1) | |
| | <p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p> | |
| | Eras, themes and context | Buildings of interest reflecting the original development of the town. |
| | Allotments, subdivision and built form patterns | Early subdivision south of Victoria Street, between the cliff face and east of Walker and Berryman Avenue. Larger allotments reflecting the original subdivision pattern. Wide street frontages and generous setbacks to boundaries. |

| Statement# | Statement | |
|------------|---|---|
| MiMuC1 | Architectural styles, detailing and built form features | Provision of mainly detached dwellings with some semi-detached dwellings. |
| | Building height | Buildings up to two storeys in height. |
| | Materials | Original or otherwise complementary materials, colours and finishes. |
| | Fencing | [Not stated] |
| | Setting, landscaping, streetscape and public realm features | Landscaping to soften development. |
| | Representative Buildings | [Not identified] |

Character Areas affecting City of Norwood, Payneham and St Peters

| Evandale/Maylands/Stepney Character Area Statement (NPSP-C1) | | |
|---|--|--|
| <p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p> | | |
| Eras, themes and context | Pre-1940. | Primarily low-scale and low density residential. Detached (including battleaxe in Maylands, Evandale and Payneham), semi-detached and group dwellings. |
| Allotments, subdivision and built form patterns | Original, pre-1940s land division patterns. | Setbacks from boundaries creating space between dwellings. |
| Architectural styles, detailing and built form features | Traditional pre-1940s roof forms, eaves, front verandah treatments, window proportions. | Semi-detached dwellings often presenting as single dwellings. |
| Building height | Single storey, with some two storey to the rear of buildings (with single storey appearance to primary street frontage). | |
| Materials | Varied, traditional materials. | |
| Fencing | Low, open-style fencing that allows connectivity to the street. | Front fencing and side fencing (between the front of a dwelling and the street) and landscaping are important components of streetscape character. Some more solid forms of fencing along arterial roads. |
| Setting, landscaping, streetscape and public realm features | Vehicle garaging, driveways and front fences are not dominant streetscape elements. | In most areas mature street tree plantings provide an overall visual coherence to the streets. Soft front landscaping, including trees. Some limited advertising and signage which complements scale and architecture of associated buildings. |
| Representative Buildings | | [Not identified] |

| Hackney Character Area Statement (NPSP-C2) | | |
|---|---|--|
| <p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p> | | |
| Eras, themes and context | Pre- 1940. | Primarily low-scale and low density residential. Detached, semi-detached, group and row dwellings. Residential flat buildings. |
| Allotments, subdivision and built form patterns | Original, pre-1940s land division patterns. | Small areas of Hackney located along the southern side of Richmond Street and between Hackney Road and St Peters College. Existing development comprises a mix of compact and large allotments with a number of Local Heritage Places, pre-1940s dwellings and multi-unit sites. |
| Architectural styles, detailing and built form features | Traditional pre-1940s roof forms, eaves, front verandah treatments, window proportions. | |

| Statement# | Statement | |
|------------|---|---|
| NPSPC2 | | Semi-detached dwellings often presenting as single dwellings. |
| | Building height | Two storey along Hackney Road. In other locations, single storey, with some two storey to the rear of buildings (with single storey appearance to primary street frontage). |
| | Materials | Varied, traditional materials. |
| | Fencing | Low, open-style fencing that allows connectivity to the street. Front fencing and side fencing (between the front of a dwelling and the street) and landscaping are important components of streetscape character. Some more solid forms of fencing along arterial roads. |
| | Setting, landscaping, streetscape and public realm features | Vehicle garaging, driveways and front fences are not dominant streetscape elements. In most areas mature street tree plantings provide an overall visual coherence to the streets. Soft front landscaping, including trees. Some limited advertising and signage which complements scale and architecture of associated buildings. |

| | | |
|--|---|--|
| | Residential Character (Norwood) Area Statement (NPSP-C6) | |
| | <p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p> | |
| | Eras, themes and context | Residential. Detached (including battleaxe), semi-detached, row and group dwellings. Residential flat buildings. Although the built form character throughout Norwood is relatively varied, there remains a strong theme associated with the original built form, which includes a significant number of Local Heritage Places and buildings constructed before 1940. |

| Statement# | Statement | |
|------------|---|--|
| NPSPC6 | Allotments, subdivision and built form patterns | <p>Rectilinear pattern of wide tree-lined major streets, intersected by narrow minor streets, with various eras of development overlaid. Broad mix of allotment sizes and a diversity of residential accommodation options.</p> <p>The regular street grid pattern and the high level of vegetation, including mature street trees and landscaped gardens, are elements that assist in unifying the various eras of built form development in Norwood.</p> |
| | Architectural styles, detailing and built form features | <p>Traditional pre-1940s roof forms, eaves, front verandah treatments, window proportions.</p> <p>A mix of housing styles, including workers cottages, bungalows and villas and a variety of post war dwellings, including walk-up flats, townhouses and a range of contemporary detached, attached and group housing styles. This has, over the years, established a broad mix of allotment sizes and provided a diversity of residential accommodation options, including affordable housing.</p> <p>Some undercroft or underground garages along western side of Osmond Terrace.</p> <p>Semi-detached dwellings often presenting as single dwellings.</p> |
| | Building height | Generally single storey streetscape appearance. |
| | Materials | Varied, traditional materials. |
| | Fencing | <p>Low, open-style fencing that allows connectivity to the street.</p> <p>Front fencing and side fencing (between the front of a dwelling and the street) and landscaping are important components of streetscape character.</p> <p>Some more solid forms of fencing along arterial roads.</p> |
| | Setting, landscaping, streetscape and public realm features | <p>Distinct rectilinear pattern of wide tree-lined major streets, intersected by narrow minor streets.</p> <p>Some limited advertising and signage which complements scale and architecture of associated buildings.</p> |
| | Representative Buildings | [Not identified] |

Character Areas affecting City of Playford

| | | |
|--------------------------|---|---|
| PlayC1 | Elizabeth South Character Area Statement (Play-C1) | |
| | <p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p> | |
| | Eras, themes and context | Late 1950s to early 1960s. |
| | Allotments, subdivision and built form patterns | <p>First stage of the post war planned Garden City north of Adelaide.</p> <p>Layout and land division pattern involving irregular allotment shapes and curvilinear street pattern, typical of the planning and construction of Trust development in the late 1950s and early 1960s.</p> <p>Large proportion of open space as parks and gardens.</p> <p>Parks and mature trees in the landscape road reserve make a significant contribution to the character and amenity of the area.</p> <p>Rectangular allotment shapes in varying sizes. Some allotments have been amalgamated to make way for residential flat buildings and units. Generally large front setbacks. Side setbacks provide visual spacing between dwellings.</p> |
| | Architectural styles, detailing and built form features | <p>Small scale, simplified building forms consistent with South Australian Housing Trust development of the late 1950s early 1960s.</p> <p>Single storey semi-detached and detached buildings. Dwellings being of brick and concrete block construction with varying stylistic treatments. Many dwellings without vehicle garaging.</p> <p>Garages, carports and outbuildings, where they exist, are low in scale and simple in form. Rectilinear plan forms. Low scale. Hipped roof forms.</p> |
| | Building heights | Predominantly single storey. |
| | Materials | Consistent with the materials used in the late 1950s to early 1960s period. Brick or rendered finishes. Corrugated iron roofing. Consistent, original windows dimensions facing the street. Main entrance incorporated into front elevation. |
| | Fencing | Where fencing exists, it is predominantly in the form of low style open fencing along the primary road frontage. Corrugated iron fencing evident to side and rear boundaries. |
| | Setting, landscaping, streetscape and public realm features | <p>Low scale suburban feel, within proximity to the open spaces.</p> <p>Strong sense of uniformity of buildings.</p> |
| Representative Buildings | [Not identified] | |

| | Buildings | |
| Character Areas affecting City of Prospect | | |
| PrC1 | Suburban Neighbourhood 1 Character Area Statement (Pr-C1) | |
| | <p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p> | |
| | Eras, themes and context | Late 19th and Early 20th centuries residential. Limited post-1950s residential. Very low density and primarily detached dwellings. |
| | Allotments, subdivision and built form patterns | Original land division patterns following grid type street pattern and displaying rectangular, rectilinear allotments. Spacious allotments. Large allotment frontages. Large front setbacks. Street facing front dwelling facades. Large spaces around and between dwellings including generous and asymmetrical (one side larger than the other) side setbacks between dwellings. Typically two storey dwellings display consistent side boundary setbacks between building levels. |
| | Architectural styles, detailing and built form features | <p>Majority bungalows and villas of a significant scale.</p> <p>Pitched roofs with their vertical proportion similar to wall height and typically around 25 to 49 degree pitch.</p> <p>Prominent front verandahs of bull-nose or concave design.</p> <p>Moderate front façade detailing and articulation (wall off-sets, verandahs and deep eaves) with walls with a solid to void ratio of greater than 1:1 and fenestrations showing a vertical prominence.</p> |
| | Building height | <p>Primarily single storey presentation to the street with two storey components sited behind.</p> <p>1 to 2 storey dwellings with vertical proportions consistent with traditional dwellings (wall height at least 3 metres and no more than 3.6 metres for single storey and up to 7 metres for two storeys.</p> <p>Large scale buildings in context with large to very large allotments and frontages.</p> |
| | Materials | <p>Stone, brick and rendered finishes.</p> <p>Detailing around doors, windows, wall edges and gables.</p> <p>Limited colour palette for the majority of building façade (sandstone to reds; bluestone and grey tones) with colour highlights in the detailing.</p> |
| | Fencing | Front fences forward of the building are of an open style and low in height (to 1.2 metres high). Fencing style associated with dwelling style and era of development. Some more solid fencing of standard height along major roads. |
| | Setting, landscaping, streetscape and public realm features | <p>Leafy public realm that visually dominates or supports the built form.</p> <p>Extensively landscaped front yards with mature vegetation/tree canopy. Minimal hard and artificial surfaces. Mature vegetation in public realm. Garages and carports are designed and sited to be subordinate to the main dwelling. Access points are narrow and consolidated.</p> |

| PrC3 | Suburban Neighbourhood 3 Character Area Statement (Pr-C3) | |
| | The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements. | |
| | These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area. | |
| | The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table. | |
| | Eras, themes and context | Early 20th century residential. Some examples of residential infill comprising units, conventional and recent dwellings. Primarily low density and low scale residential including various dwelling types. |
| | Allotments, subdivision and built form patterns | Original land division patterns following grid type street pattern and displaying rectangular, rectilinear allotments. Moderate sized allotments. Moderate to compact allotment frontages. Street facing front dwelling facades. Moderate to compact asymmetrical spaces between dwellings providing physical and visual separation between dwellings. Typically two storey dwellings to display consistent side boundary setbacks between building levels. |
| | Architectural styles, detailing and built form features | Many bungalows with some cottages, Tudor and art deco housing. Pitched roofs with the vertical proportion similar to wall height and typically around 25 to 49 degree pitch. Front verandahs with façade detailing and moderate articulation (wall off-sets, verandahs and deep eaves) walls with a solid to void ratio of greater than 1:1 and fenestrations showing a vertical prominence. |
| | Building height | Primarily single storey presentation to the street with two storey components sited behind. Predominantly 1 storey dwellings with vertical proportions consistent with traditional dwellings (at least 3 metres and no more than 3.6 metres in wall height). Moderate to compact scale in context with low rise development, allotment size and frontages. |
| | Materials | Stone, brick and rendered finishes and durable materials. Detailing around doors, windows, wall edges and gables. Limited palette for the majority of building façade and roof areas with colour highlights in the detailing (sandstone to reds; bluestone and grey tones) with complementary colour highlights in the detailing. |
| Fencing | Front fences forward of the building are of an open style and low in height (to 1.2 metres high). Style associated with dwelling style and era of development. Some more solid fencing of standard height along major roads. | |
| Setting, landscaping, streetscape and public realm features | Leafy public realm that supports the built form. Landscaped front yards with mature vegetation/tree canopy. Minimal hard and artificial surfaces. Leafy garden suburb character and maintaining visual separation between houses. Garages and carports are designed and sited to be subordinate to the main dwelling. Access points are narrow and consolidated. | |

| Character Area affecting District Council of Tatiara | |
| Mundulla Character Area Statement (TatC1) | |
| The Character Area Overlays identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements. | |
| These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area. | |
| The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table. | |

| Statement# | Statement | |
|------------|---|--|
| TatC1 | Eras, themes and context | Pre-1950. |
| | Allotments, subdivision and built form patterns | Original land division, large allotments. Buildings sited regularly and facing towards street frontages. |
| | Architectural styles, detailing and built form features | Consistent roof pitches. Unity of design and scale. |
| | Building height | Consistent, low scale. |
| | Materials | Earthen colours. Materials consistent with pre-1950s buildings. |
| | Fencing | Informal fencing. |
| | Setting, landscaping, streetscape and public realm features | Individual and stands of trees, stone culverts, drainage and footpath system add to character of townscape. Informal street furniture, lighting, footpaths, road surface treatments, kerbing and guttering. Surrounded by well vegetated parklands and grazing land. Uncluttered appearance. Advertisements of traditional styles and scale consistent with the era. |

Character Areas affecting City of Victor Harbor

| | | |
|-------|---|---|
| VIHC1 | Burke Street Character Area Statement (VIH-C1) | |
| | <p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p> | |
| | Eras, themes and context | Consistent low scale detached dwellings, primarily constructed after World War 1 to the later part of the 19th Century (mid 1800s to 1930s). Early settlement, consolidation and growth of residential development. |
| | Allotments, subdivision and built form patterns | Original street layout including rear access lanes and local roads. Curvilinear street with relatively large allotments roughly perpendicular to the street, most with rear laneway access. |
| | Architectural styles, detailing and built form features | Mix of small mid-1800s detached cottages of early Vernacular style, symmetrical and asymmetrical cottages and villas of the mid to late 1800s with Victorian stylistic influences, early 1900s cottages and villas with Federation stylistic influences, Inter-War bungalows. Church and Hall with late Victorian Gothic stylistic influences located at the bend in the road are landmarks. Adjacent to the Church is a Manse built in the Inter-War period with Georgian Revival stylistic influences. Rectilinear plan form. Buildings are typically two or more pavilions rather than a single mass. Steeply-pitched roof forms, typically 35 to 40 degrees on 1800s and early 1900s era buildings and slightly lower on Inter-War buildings, reflecting traditional architectural styles and building methods. Short roof spans, minimising roof bulk. Concave, bullnose and straight-pitched verandahs on front and sometimes side facades reduce the bulk and scale and add visual interest. Lean-to forms are common. Fine-grain detail in elements such as plinths, string courses, projecting sills. High solid to void ratio. Vertical proportions in windows and doors. |
| | Building height | Single storey, low scale and simple in form. |
| | Materials | Limestone walls. Red brick or rendered quoin work and details. Timber joinery including window frames, door frames, doors, fascias, bargeboards and verandah posts. Corrugated iron or corrugated steel roofing. Variation in materials assists in breaking down bulk and scale and adds visual interest. |
| | Fencing | Low, open style construction front fencing (1.2 metres or less) associated with the traditional period and style of building, and providing views to the building. Low timber pickets, post and rails, pier and plinth masonry or wrought iron. Rear and side fencing behind building line up to 1.8 metres, corrugated iron. |
| | Setting, landscaping, streetscape and public realm features | Established garden settings. Varied, small front and side setbacks. Landscaped verges. Garages and carports are sited behind dwellings, accessed from rear laneways or well set back from the front of dwellings. |
| | Representative Buildings | [Not identified] |

Character Areas affecting Town of Walkerville

| | | |
|-------------|---|--|
| | Gilberton Character Area Statement (Walk-C1) | |
| | <p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p> | |
| | Eras, themes and context | Various eras of development that map out the developmental progress of the Walkerville Township, from the late 1870s to early 1900s. |
| Allotments, | Predominantly low density detached dwellings on allotments that are medium in width and of a range of sizes. | |

| Statement# | Statement | |
|------------|---|---|
| WalkC1 | subdivision and built form patterns | Some semi-detached and group dwellings on larger allotments. |
| | Architectural styles, detailing and built form features | The historic built form exhibits a mixture of architectural styles from the late 1800s and early 1900s. Edwardian villas alongside Victorian cottages pepper the locality providing a significant narrative that reflects the contemporaneous construction styles. |
| | Building height | Predominantly single storey. Two storey additions to the rear of buildings or within the roof space. |
| | Materials | Residences within this area vary in material application. Residences mostly constructed in locally sourced sandstone or bluestone, corrugated galvanised iron roofs and verandahs with cast iron lacework. |
| | Fencing | Original fencing with bluestone plinths and cast iron fence railings above. Low front fencing. |
| | Setting, landscaping, streetscape and public realm features | There is a reasonably well established pattern of development, with regular spacing between buildings, front setbacks and roof pitches. The landscape setting is an important element of the area, with generally open, well vegetated streetscapes through a combination of public and private plantings and low fencing forward each dwelling. |
| | Representative Buildings | [Not identified] |

Character Areas affecting City of West Torrens

| | | |
|---|---|---|
| WeToC1 | Ashford Character Area Statement (WeTo-C1) | |
| | The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements. | |
| | These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area. | |
| | The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table. | |
| | Eras, themes and context | 1920s - 1940s |
| | Allotments, subdivision and built form patterns | Strong uniformity of allotment pattern. Low to very low density site areas. Wide street frontages. Medium sized detached dwellings on substantial allotments. |
| | Architectural styles, detailing and built form features | Predominantly Tudor and Bungalow dwellings. Articulated hip and gable roofs. Verandahs / porticos. Verandahs as continuation of main roof structure. Additions are generally located to the rear of the dwelling. |
| | Building height | Generally single storey. Second storey within the roof space. |
| | Materials | Brick. Painted brick. Stone. Rendered masonry. Corrugated pre-coloured or galvanised iron sheeting. Tiled roofs. Timber windows. |
| Fencing | Low fencing facilitating views of the dwelling. Post and rail with woven wire. Low level stone or masonry. Timber picket. | |
| Setting, landscaping, streetscape and public realm features | Strong uniformity of layout and buildings. Carports and garages are behind the main face of dwellings. Consistent side and rear setbacks, large private yards. Generous traditional well-maintained gardens. Tree lined streets. | |

|---|--|----------------|
| WeToC2 | Cowandilla / Mile End West Character Area Statement (WeTo-C2) | |
| | The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements. | |
| | These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area. | |
| | The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table. | |
| | Eras, themes and context | 1920s - 1940's |
| Allotments, subdivision and built form patterns | Strong uniformity of allotment pattern. Low to very low density site areas. Narrow and deep allotments. Detached and semi-detached dwellings on substantial allotments. | |
| Architectural styles, detailing and built form features | Predominantly Californian and State Bank Bungalows with some examples of Spanish Mission; Dutch Colonial dwellings; Detached and semi-detached federation cottages/villas; Victorian era cottages/villas; and Early inter-war dwellings. Gable and Dutch gable roofs with hips. Verandahs / porticos. Additions are generally located to the rear of the dwelling. | |
| Building height | Generally single storey. Second storey generally within the roof space or otherwise designed to complement single storey character. | |

Character Areas affecting Whyalla City Council

| Whyalla Character Area Statement (Wh-C1) | | |
|---|--|--|
| <p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p> | | |
| Eras, themes and context | 1900 - 1940. Developed in the first 40 years of Whyalla up until the 1940's. Illustrates the increasing prosperity of the city from the small corrugated or rendered masonry cottages to the substantial stone bungalow dwellings constructed by BHP for their senior staff at the steelworks. | |
| Allotments, subdivision and built form patterns | Pattern of division in predominantly quarter acre lots, generous roads and road reserves with ample provision for on street parking and street planting. | |
| Architectural styles, detailing and built form features | Colonial Cottages with half-hipped roofs, rendered masonry walls with open verandahs the width of the dwelling, symmetrical fronted dwellings with return verandahs and Bungalow dwellings dominate the architectural style of the dwellings. | |
| Building height | [Not stated] | |
| Materials | Corrugated iron, rendered masonry and BHP stone (including stone coins) and BHP brick are the predominant construction materials with corrugated iron roofs. | |
| Fencing | Simple low picket or low rendered masonry, low open fencing or hedging. | |
| Setting, landscaping, streetscape and public realm features | Pedestrian and cycle connection to the foreshore, Ada Ryan Gardens and Hummock Hill. | |
| Representative Buildings | [Not identified] | |

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |

Character Preservation District Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

| | |
|------|--|
| DO 1 | Recognise, protect and enhance the special character of Character Preservation Districts. |
| DO 2 | The long term use of land outside of townships for primary production and associated value adding enterprises is assured and promoted. |

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|--|--|
| Land Use and Intensity | |
| PO 1.1 Land division is undertaken in accordance with Section 8 of the <i>Character Preservation (Barossa Valley) Act 2012</i> and Section 8 of the <i>Character Preservation (McLaren Vale) Act 2012</i> . | DTS/DPF 1.1 None are applicable. |
| PO 1.2 Residential development located in townships to reinforce settlement patterns within the district and support the continuation of primary production on land outside townships. | DTS/DPF 1.2 Residential development located within designated township areas of the Character Preservation District Overlay. |
| Built Form and Character | |
| PO 2.1 Development occurring at the edge of townships is sympathetic to the rural landscape and reinforces a clear transition between townships and rural landscape through measures including: <ul style="list-style-type: none"> (a) being of a low scale (b) orientating residential development towards the rural area (c) ensuring visual separation from the rural area through landscaping and road reserves. | DTS/DPF 2.1 None are applicable. |
| PO 2.2 Development contributes to and maintains the historic identity and character of townships through appropriate: <ul style="list-style-type: none"> (a) form (b) scale (c) siting (d) design (e) landscaping. | DTS/DPF 2.2 None are applicable. |
| PO 2.3 Adaptive re-use of rural structures and historic and/or character buildings supports their preservation and ongoing contribution to the landscape. | DTS/DPF 2.3 None are applicable. |
| Built Form and Character in the Rural Area | |
| PO 3.1 Preservation of existing natural features including topography, watercourses and mature trees. | DTS/DPF 3.1 None are applicable. |
| PO 3.2 Buildings and structures do not interrupt views of the skyline through measures including being sited below ridge lines. | DTS/DPF 3.2 None are applicable. |
| PO 3.3 Buildings and structures harmonise with the natural features of the landscape and reinforce the rural character through the use of muted, neutral, non-reflective landscape colours on external surfaces. | DTS/DPF 3.3 None are applicable. |
| PO 3.4 Large buildings and structures are sited and oriented to minimise their visual bulk, particularly if close to roads or in open settings where there are no other buildings or mature trees in close proximity. | DTS/DPF 3.4 None are applicable. |
| PO 3.5 Buildings and structures are grouped to create compact clusters well set back from public roads. | DTS/DPF 3.5 None are applicable. |
| PO 3.6 Development mitigates the need for long, steep access roads that require excessive grading or removal of vegetation. | DTS/DPF 3.6 None are applicable. |
| Earthworks | |
| PO 4.1 Excavation and filling of land is limited to that associated with: <ul style="list-style-type: none"> (a) minimising the visual impact of buildings or structures or | DTS/DPF 4.1 Excavation and/or filling of land is: <ul style="list-style-type: none"> (a) no greater than 1.5 metres from natural ground level (b) only undertaken in order to reduce the visual impact of buildings or structures or to construct water storage facilities. |

(a) construction of water storage facilities.

Procedural Matters (PM)

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |

Coastal Areas Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|-----------------|---|
| DO 1 | The natural coastal environment (including environmentally important features such as mangroves, wetlands, saltmarsh, sand dunes, cliff tops, native vegetation, wildlife habitat, shore and estuarine areas) is conserved and enhanced. |
| DO 2 | Provision is made for natural coastal processes; and recognition is given to current and future coastal hazards including sea level rise, flooding, erosion and dune drift to avoid the need, now and in the future, for public expenditure on protection of the environment and development. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature | | | | | | | | | | | | |
|---|---|----------------------------------|--|---|--|---|---|---|--|--|--|--|--|
| Land Division | | | | | | | | | | | | | |
| <p>PO 1.1</p> <p>Land is divided only if it or the subsequent development and use of the land will not adversely affect the environmental values or ability of the land or adjoining land to adapt to changing coastal processes.</p> | <p>DTS/DPF 1.1</p> <p>Land division for minor adjustment of allotment boundaries removes an anomaly in the current boundaries with respect to the location of buildings or structures.</p> | | | | | | | | | | | | |
| <p>PO 1.2</p> <p>Land is not divided unless a layout is achieved whereby roads, parking areas and development sites for each allotment are at least 0.3m above the standard sea flood risk level, unless the land has, or can be provided with, appropriate and acceptable coastal protection measures.</p> | <p>DTS/DPF 1.2</p> <p>None are applicable.</p> | | | | | | | | | | | | |
| <p>PO 1.3</p> <p>Other than small-scale infill land division in a predominantly urban zone, land division adjacent to the coast incorporates an existing or proposed public reserve (not including a road or erosion buffer) of a size adequate to provide for natural coastal processes, public access and recreation.</p> | <p>DTS/DPF 1.3</p> <p>None are applicable.</p> | | | | | | | | | | | | |
| Hazard Risk Minimisation | | | | | | | | | | | | | |
| <p>PO 2.1</p> <p>Buildings sited over tidal water or that are not capable of being raised or protected by flood protection measures in the future are protected against the standard sea flood risk level and 1m of sea level rise.</p> | <p>DTS/DPF 2.1</p> <p>Building floor levels are at least 1.25m above the standard sea flood risk level.</p> | | | | | | | | | | | | |

| <p>PO 2.3</p> <p>Development will not create or aggravate coastal erosion or require coast protection works that cause or aggravate coastal erosion.</p> | <p>DTS/DPF 2.3</p> <p>None are applicable.</p> |
| <p>PO 2.4</p> <p>Development is set back a sufficient distance from the coast to provide an erosion buffer in addition to a public reserve that will allow for at least 100 years of coastal retreat for single buildings or small-scale developments, or 200 years of coastal retreat for large scale developments unless:</p> <ul style="list-style-type: none"> (a) the development incorporates appropriate private coastal protection measures to protect it from anticipated erosion or (b) there are formal commitments to protect the existing or proposed public reserve and development from anticipated coastal erosion. | <p>DTS/DPF 2.4</p> <p>None are applicable.</p> |
| <p>PO 2.5</p> <p>Additions or alterations to, or replacement of, a dwelling do not increase the risk of effects from natural coastal processes such as flooding, sea-level rise, sand drift and erosion.</p> | <p>DTS/DPF 2.5</p> <p>None are applicable.</p> |

| | |
|---|---|
| PO 3.1 Development avoids the need for coast protection works through measures such as setbacks to protect development from coastal erosion, sea or stormwater flooding, sand drift or other coastal processes. | DTS/DPF 3.1 None are applicable. |
| PO 3.2 Development does not compromise the structural integrity of any sea wall or levee bank or the ability to maintain, modify or upgrade any sea wall or levee bank. | DTS/DPF 3.2 None are applicable. |
| PO 3.3 Unavoidable coast protection works are the subject of binding agreements to cover the cost of future construction, operation, maintenance and management measures and will not: (a) have an adverse effect on coastal ecology, processes, conservation, public access and amenity (b) require commitment of public resources including land (c) present an unacceptable risk of failure relative to potential hazard resulting from failure. | DTS/DPF 3.3 None are applicable. |
| Environment Protection | |
| PO 4.1 Development will not unreasonably affect the marine and onshore coastal environment by pollution, erosion, damage or depletion of physical or biological resources; interference with natural coastal processes; or the introduction of and spread of marine pests or any other means. | DTS/DPF 4.1 None are applicable. |
| PO 4.2 Development avoids delicate or environmentally sensitive coastal areas such as sand dunes, cliff tops, estuaries, wetlands or substantially intact strata of native vegetation. | DTS/DPF 4.2 None are applicable. |
| PO 4.3 Development allows for ecological and natural landform adjustment to changing climatic conditions and sea levels, by allowing landward migration of dunes, coastal wetlands, mangrove and samphire areas. | DTS/DPF 4.3 None are applicable. |
| PO 4.4 Development avoids, or in built up areas minimises, impacts on important habitat areas that support the nesting, breeding and movement/migration patterns of fauna, including threatened shorebirds. | DTS/DPF 4.4 None are applicable. |
| PO 4.5 Development is designed so that wastewater is disposed of in a manner that avoids pollution or other detrimental impacts on the marine and on-shore environment of coastal areas. | DTS/DPF 4.5 Development is connected, or will be connected, to an approved common wastewater disposal service with the capacity to meet the requirements of the development or on-site wastewater systems set back a minimum of 100m from the Mean High Water Mark at spring tide. |
| PO 4.6 Development is designed so that stormwater runoff is disposed of in a manner that avoids pollution or other detrimental impacts on the marine and on-shore environment of coastal areas. | DTS/DPF 4.6 None are applicable. |
| PO 4.7 Development involving the removal of shell grit, cobbles or sand, other than for coastal protection works purposes, is not undertaken. | DTS/DPF 4.7 Development does not involve the removal of shell grit or sand. |
| Access | |
| PO 5.1 Development maintains or enhances appropriate public access to and along the foreshore. | DTS/DPF 5.1 None are applicable. |
| PO 5.2 Public access through sensitive coastal landforms, particularly sand dunes, wetlands and cliffs, is restricted to defined pedestrian paths and constructed to minimise adverse environmental impact. | DTS/DPF 5.2 None are applicable. |
| PO 5.3 Access roads to the coast, lookouts and places of interest: (a) do not detract from the amenity or the environment (b) are designed for slow-moving traffic (c) are minimised in number. | DTS/DPF 5.3 None are applicable. |
| PO 5.4 Development on land adjoining a coastal reserve is sited and designed to be compatible with the purpose, management and amenity of the reserve and to prevent inappropriate access to or use of the reserve. | DTS/DPF 5.4 None are applicable. |

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|--|-------------------------|---|--|
| <p>Except where the development is, in the opinion of the relevant authority, minor in nature and would not warrant a referral when considering the purpose of the referral, the following:</p> <ul style="list-style-type: none"> (a) excavation and/or filling where the total volume of material excavated and/or filled exceeds 9m³ (b) dwellings and habitable buildings that: <ul style="list-style-type: none"> (i) do not meet DTS/DPF 2.2 or (ii) are within 100m of the mean high water mark (c) other than within a Rural Settlement Zone: <ul style="list-style-type: none"> (i) buildings with a floor area greater than 60m² or (ii) tourist accommodation, including a caravan park or (iii) division of land that would create 1 or more additional allotments (d) off-shore structures (e) coast protection works (f) infrastructure within 100m landward of the mean high water mark. | Coast Protection Board. | <p>To provide expert assessment and direction to the relevant authority on:</p> <ul style="list-style-type: none"> • the risk to development from current and future coastal hazards (including sea-level rise, coastal flooding, erosion, dune drift and acid sulfate soils); • coast protection works; • potential impacts from development on public access and the coastal environment (including important coastal features). | Development of a class to which Schedule 9 clause 3 item 3 of the Planning, Development and Infrastructure (General) Regulations 2017 applies. |

Coastal Flooding Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|-----------------|---|
| DO 1 | Recognition of coastal flood hazards to avoid the need, now and in the future, for public expenditure on protection of the environment and development. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

In instances where no value is specified (i.e. there is a blank field):

- (a) finished ground levels allow for sea level rise by being raised 300mm or more above the standard sea flood risk level
- (b) finished floor levels are 550mm or more above the standard sea flood risk level
- (c) practical measures can be implemented to provide future protection against an additional sea level rise of 700mm plus an allowance to accommodate 100 years of land subsidence.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---------------------------------|---------------|---------------------|---------------------|
| None | None | None | None |

Defence Aviation Area Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|-----------------|--|
| DO 1 | Management of potential impacts of buildings on the operational and safety requirements of Defence Aviation Areas. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|--|
| Built Form | |
| PO 1.1 Building height does not pose a hazard to the operations of Defence Aviation Areas. | DTS/DPF 1.1 Building height does not exceed the relevant height specified by the <i>Defence Aviation Area Overlay</i> . |
| PO 1.2 | DTS/DPF 1.2 |

Exhaust stacks are designed and sited to minimise plume impacts on aircraft movements associated with Defence Aviation Areas.

Development does not include exhaust stacks.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---------------------------------|---------------|---------------------|---------------------|
| None | None | None | None |

Design Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|-----------------|--|
| DO 1 | Development positively contributes to the liveability, durability and sustainability of the built environment through high-quality design. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|--|---|
| General | |
| PO 1.1 Medium to high rise buildings and state significant development demonstrate high quality design. | DTS/DPF 1.1 None are applicable. |

Procedural Matters (PM)

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|--|---|---|
| <p>Except where the development comprises a variation to an application that has previously:</p> <ul style="list-style-type: none"> (a) been referred to the Government Architect or Associate Government Architect or (b) been given development authorisation under the <i>Planning, Design and Infrastructure Act 2016</i> or <i>Development Act 1993</i> <p>any of the following classes of development:</p> <ul style="list-style-type: none"> (a) development within the area of the overlay located within the Corporation of the City of Adelaide where the total amount to be applied to any work, when all stages of the development are completed, exceeds \$10,000,000 (b) development within the area of the overlay located within the City of Port Adelaide Enfield where the total amount to be applied to any work, when all stages of the development are completed, exceeds \$3 000 000 (c) development within all other areas of the overlay that involves the erection or construction of a building that exceeds 4 building levels. | Government Architect or Associate Government Architect | To provide expert design advice to the relevant authority on how the development: <ul style="list-style-type: none"> (a) responds to its surrounding context and contributes to the quality and character of a place (b) contributes to inclusiveness, connectivity, and universal design of the built environment (c) enables buildings and places that are fit for purpose, adaptable and long-lasting (d) adds value by positively contributing to places and communities (e) optimises performance and public benefit (f) supports sustainable and environmentally responsible development. | Development of a class to which Schedule 9 clause 3 item 22 of the Planning, Development and Infrastructure (General) Regulations 2017 applies. |

Dwelling Excision Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome |
|-----------------|
|-----------------|

| | |
|------|--|
| DO 1 | Creation of allotments to accommodate existing habitable dwellings in primary production areas is limited to avoid undermining primary production. |
|------|--|

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|--|--|
| Land Division | |
| <p>PO 1.1</p> <p>Land division creating an additional allotment to accommodate an existing dwelling does not undermine the role of primary production areas by being limited and designed to achieve the following:</p> <ul style="list-style-type: none"> (a) accommodate a dwelling that has had a long term association with primary production on the same allotment (b) contain the excised dwelling within an allotment capable of providing a suitable rural residential amenity (c) maintain all other land (ie land outside the allotment containing the excised dwelling) in suitably sized allotments to support primary production (d) no other dwelling has been excised from the primary production allotment. | <p>DTS/DPF 1.1</p> <p>Land division satisfies all the following:</p> <ul style="list-style-type: none"> (a) no other dwelling has previously been excised from the allotment by creating an additional allotment (b) it does not create more than one additional allotment where the resultant allotments satisfy (i) and (ii): <ul style="list-style-type: none"> (i) one allotment will contain a single existing lawful dwelling that existed prior to 1 December 2011 and meets all of the following: <ul style="list-style-type: none"> A. no allotment boundary is closer than 40m to an existing dwelling B. the allotment is no less than 1 hectare and no greater than 4 hectares in area C. if the allotment is of a battle-axe configuration, the driveway 'handle' is no more than 50 metres in length (ii) any other allotment has an area not less than that identified in the Minimum Site Area Technical and Numeric Variation layer in the SA planning database. |

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---------------------------------|---------------|---------------------|---------------------|
| None | None | None | None |

Environment and Food Production Areas Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|-----------------|---|
| DO 1 | Protection of valuable rural, landscape, environmental and food production areas from urban encroachment. |

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| <p>PO 1.1</p> <p>Land division undertaken in accordance with Section 7 of the <i>Planning, Development and Infrastructure Act 2016</i>.</p> | <p>DTS/DPF 1.1</p> <p>None are applicable.</p> |

Procedural Matters (PM)

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

| Other than where all deemed-to-satisfy criteria for all policies relevant to this referral | Commissioner of Highways. | To provide expert technical assessment and | Development |

are met, development (including the division of land) that is within or may encroach within a Future Road Widening Area.

direction to the relevant authority on the safe and efficient operation and management of all roads relevant to the Commissioner of Highways as described in the Planning and Design Code.

of a class to which Schedule 9 clause 3 item 4 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

Gas and Liquid Petroleum Pipelines Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|-----------------|--|
| DO 1 | Management of risk to public safety, the environment and security of energy supply from the encroachment of development on strategic gas and liquid petroleum pipelines. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|--|
| Land Use and Intensity | |
| <p>PO 1.1</p> <p>Community exposure to a potential hazard from the failure of a gas or liquid petroleum pipeline is mitigated by locating development that may accommodate or result in large congregations of people, buildings for housing and / or caring for vulnerable people and community facilities outside areas that pose an unacceptable risk to protect life.</p> | <p>DTS/DPF 1.1</p> <p>Development satisfies one of the following:</p> <p>(a) it does not comprise:</p> <ul style="list-style-type: none"> (i) caravan and tourist park (ii) educational establishment (iii) buildings comprising 3 or more building levels (iv) land division creating allotments under 1ha for residential purposes (except where the existing allotment is less than 1ha) (v) prison (vi) pre-school (vii) residential park (viii) retirement facility (ix) student accommodation (x) supported accommodation (xi) shop or shops with a gross leasable floor area of 1000m² or greater (xii) tourist accommodation (xiii) stadium <p>(b) a class of development referred to in part (a), or any combination thereof, which will occur in accordance with an agreement under section 123 of the <i>Planning, Development and Infrastructure Act, 2016</i></p> |
| <p>PO 1.2</p> <p>Emergency service and major community health related facilities are located outside areas where a gas or liquid petroleum pipeline failure may disrupt ongoing operations to maintain the response capacity in the event of an emergency.</p> | <p>DTS/DPF 1.2</p> <p>Development does not comprise any of the following:</p> <p>(a) emergency services facility</p> <p>(b) hospital.</p> |
| <p>PO 1.3</p> <p>Development involving the manufacture, collection, handling or bulk storage of flammable, explosive, or otherwise hazardous materials is located and designed to avoid escalating the potential for and effects of a gas or liquid petroleum pipeline failure.</p> | <p>DTS/DPF 1.3</p> <p>Development satisfies one of the following:</p> <p>(a) it does not comprise:</p> <ul style="list-style-type: none"> (i) general industry (ii) special industry (iii) landfill (iv) renewable energy facility (v) electricity substation (vi) fuel depot (vii) retail fuel outlet (viii) store (ix) warehouse (x) waste treatment facility <p>(b) a class of development referred to in part (a), or any combination thereof, which will occur in accordance with an agreement under section 123 of the <i>Planning, Development and Infrastructure Act, 2016</i></p> |

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---|--|---|
| Except where the development is, in the opinion of the relevant authority, minor in nature and would not warrant a referral when considering the purpose of the referral, a class of development that does not satisfy Gas and Liquid Petroleum Pipelines Overlay DTS/DPF 1.1, 1.2 and 1.3. | The Chief Executive of the Department of the Minister responsible for administering the <i>Petroleum and Geothermal Energy Act 2000</i> . | To provide expert assessment and direction to the relevant authority in relation to: <ul style="list-style-type: none"> (a) potential safety issues relating to development or (b) the potential for development to adversely impact upon the lawful continued operation of strategic infrastructure (gas and liquid petroleum pipelines). | Development of a class to which Schedule 9 clause 3 item 9B of the Planning, Development and Infrastructure (General) Regulations 2017 applies. |

Gas and Liquid Petroleum Pipelines (Facilities) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|-----------------|--|
| DO 1 | Management of risk to public safety, the environment and security of energy supply from the encroachment of development on gas and liquid petroleum pipeline facilities. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|--|--|
| Safety | |
| PO 1.1 Development (including land division) does not present a risk to public health and safety due to any of the following: <ul style="list-style-type: none"> (a) continuous noise associated with pipeline facilities used for energy transportation that exceeds the Environment Protection (Noise) Policy (b) potential for occasional noise associated with high pressure venting. | DTS/DPF 1.1 Development (including land division creating additional allotments for such purposes) comprises one or more of the following: <ul style="list-style-type: none"> (a) open space (b) roadways (c) a class of development that will occur in accordance with an agreement under section 123 of the <i>Planning, Development and Infrastructure Act, 2016</i> (d) a dwelling or ancillary building/structure on an allotment approved for residential purposes. |

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---|--|---|
| Except where the development is, in the opinion of the relevant authority, minor in nature and would not warrant a referral when considering the purpose of the referral, a class of development that does not satisfy Overlay DTS/DPF 1.1. | The Chief Executive of the Department of the Minister responsible for administering the <i>Petroleum and Geothermal Energy Act 2000</i> . | To provide expert assessment and direction to the relevant authority in relation to: <ul style="list-style-type: none"> (a) potential safety issues relating to development or (b) the potential for development to adversely impact upon the lawful continued operation of strategic infrastructure (gas and liquid petroleum pipelines). | Development of a class to which Schedule 9 clause 3 item 9B of the Planning, Development and Infrastructure (General) Regulations 2017 applies. |

Gateway Overlay

Assessment Provisions (AP)

| Desired Outcome | |
|-----------------|---|
| DO 1 | The visual amenity and streetscape appeal along prominent entrances into towns, tourist and historic precincts, activity centres and main streets is maintained and improved through the careful siting of buildings and other activities in a well landscaped setting. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|--|
| Built Form and Character | |
| PO 1.1 Buildings are set back from main roads to support a consistent high-quality streetscape character where the prominence of larger buildings is appropriately mitigated. | DTS/DPF 1.1 Buildings are set back at least the height of the building and no less than 10m from arterial and main roads and highways, whichever is the greater. |
| PO 1.2 Building are set back from side boundaries to moderate the appearance of buildings and enhance the outlook from arterial and main roads and highways. | DTS/DPF 1.2 None are applicable. |
| PO 1.3 The main facade of principal buildings facing arterial and main roads and highways incorporate articulation and various materials to promote a high standard of building design and external appearance. | DTS/DPF 1.3 None are applicable. |
| Landscape Amenity | |
| PO 2.1 Ancillary buildings including carports, outbuildings and garages, other minor structures, waste storage bins and outdoor storage areas are sited to reduce visual clutter and untidiness from arterial and main roads and highways. | DTS/DPF 2.1 Ancillary buildings including carports, outbuildings and garages, other minor structures, waste storage bins and outdoor storage areas are located in a manner to satisfy one of the following: (a) behind principal building(s) facing arterial and main roads and highways (b) behind the building line of principal building(s) and obscured from public view from arterial and main roads and highways by solid fencing or landscaping. |
| Landscaping | |
| PO 3.1 Development incorporates generous landscaping areas along the frontage to arterial roads and highways to enhance visual amenity and complement associated buildings. | DTS/DPF 3.1 None are applicable. |
| PO 3.2 Existing mature on-site vegetation is retained and incorporated into landscape and parking areas to enhance the appearance of land and buildings. | DTS/DPF 3.2 None are applicable. |
| PO 3.3 Development incorporates generous landscaping areas along the frontage to arterial roads and landscaped using a combination of high crown evergreen trees, low shrubs and groundcovers to enhance visual amenity and complement the associated buildings. | DTS/DPF 3.3 None are applicable. |
| PO 3.4 Vehicle parking areas are located and designed to enhance the streetscape setting by: (a) being located to the side or rear of buildings facing arterial and main roads and highways (b) incorporating landscaping, including trees, to break up large parking areas. | DTS/DPF 3.4 None are applicable. |
| Advertisements | |
| PO 4.1 Advertisements along arterial and main roads, and highways are consistent in height, size and design to support a cohesive and uniform appearance in gateway locations without dominating the streetscape. | DTS/DPF 4.1 Advertisements meet all the following: (a) will not result in more than 1 advertisement per allotment (b) will not exceed 5m in height (c) do not exceed 3m ² per advertising face (d) are not internally illuminated (e) are not animated, flash or move in any way. |

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory |

| | | | Reference |
|------|------|------|-----------|
| None | None | None | None |

Hazards (Acid Sulfate Soils) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|-----------------|--|
| DO 1 | Development is located and undertaken to minimise disturbance of potential or actual acid sulfate soils and / or the release of acid drainage. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|--|---|
| Land Use and Intensity | |
| PO 1.1 Development that involves excavation or a change to a water table where potential or actual acid sulfate soils are present is undertaken to minimise soil disturbance or drainage; prevent or minimise oxidation; and contain and treat any acid drainage to prevent harm or damage to the environment, primary production, buildings, structures and infrastructure or public health. | DTS/DPF 1.1 Development does not involve or cause: (a) excavation of land (b) change to a water table. |

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---------------------------------|---------------|---------------------|---------------------|
| None | None | None | None |

Hazards (Bushfire - General Risk) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|-----------------|--|
| DO 1 | Development, including land division responds to the general level of bushfire risk by siting and designing buildings in a manner that mitigates the threat and impact of bushfires on life and property taking into account the increased frequency and intensity of bushfires as a result of climate change. |
| DO 2 | To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Siting | |
| PO 1.1 Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain. | DTS/DPF 1.1 None are applicable. |
| Built Form | |
| PO 2.1 Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the | DTS/DPF 2.1 None are applicable. |

| | |
|---|--|
| <p>building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts.</p> | |
| <p>PO 2.2 Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and Workers' accommodation) in the event of bushfire.</p> | <p>DTS/DPF 2.2 Outbuildings and other ancillary structures are sited no closer than 6m from the habitable building.</p> |
| <p>Habitable Buildings</p> | |
| <p>PO 3.1 To minimise the threat, impact and exposure to bushfires on life and property, residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments away from steep slopes.</p> | <p>DTS/DPF 3.1 None are applicable.</p> |
| <p>PO 3.2 Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited away from vegetated areas that pose an unacceptable bushfire risk.</p> | <p>DTS/DPF 3.2 Residential and tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zone(s) in accordance with (a) and (b):</p> <ul style="list-style-type: none"> (a) the asset protection zone has a minimum width of at least: <ul style="list-style-type: none"> (i) 50 metres to unmanaged grasslands (ii) 100 metres to hazardous bushland vegetation (b) the asset protection zone is contained wholly within the allotment of the development. |
| <p>PO 3.3 Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) has a dedicated area available that is capable of accommodating a bushfire protection system comprising firefighting equipment and water supply in accordance with <i>Ministerial Building Standard MBS 008 - Designated bushfire prone areas - additional requirements</i>.</p> | <p>DTS/DPF 3.3 None are applicable.</p> |
| <p>Land Division</p> | |
| <p>PO 4.1 Land division is designed and incorporates measures to minimise the danger of fire hazard to residents and occupants of buildings, and to protect buildings and property from physical damage in the event of a bushfire.</p> | <p>DTS/DPF 4.1 None are applicable.</p> |
| <p>PO 4.2 Land division is designed to provide a continuous street pattern to facilitate the safe movement and evacuation of emergency vehicles, residents, occupants and visitors.</p> | <p>DTS/DPF 4.2 None are applicable.</p> |
| <p>PO 4.3 Where 10 or more new allotments are proposed, land division includes at least two separate and safe exit points to enable multiple avenues of evacuation in the event of a bushfire.</p> | <p>DTS/DPF 4.3 None are applicable.</p> |
| <p>PO 4.4 Land division incorporates perimeter roads of adequate design in conjunction with bushfire buffer zones to achieve adequate separation between residential allotments and areas of unacceptable bushfire risk and to support safe access for the purposes of fire-fighting.</p> | <p>DTS/DPF 4.4 None are applicable.</p> |
| <p>Vehicle Access – Roads, Driveways and Fire Tracks</p> | |
| <p>PO 5.1 Roads are designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> (a) access, operation and evacuation of fire-fighting vehicles and emergency personnel (b) evacuation of residents, occupants and visitors. | <p>DTS/DPF 5.1 Roads:</p> <ul style="list-style-type: none"> (a) are constructed with a formed, all-weather surface (b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road (c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road (d) have a minimum formed road width of 6m (e) provide overhead clearance of not less than 4m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1) (f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2) (g) incorporating cul-de-sac endings or dead end roads do not exceed 200m in length and the end of the road has either: <ul style="list-style-type: none"> (i) a turning area with a minimum formed surface radius of 12.5m (Figure 3) or (ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 4) (h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes. |
| <p>PO 5.2</p> | <p>DTS/DPF 5.2</p> |

Access to habitable buildings is designed and constructed to facilitate the safe and effective:

- (a) access, operation and evacuation of fire-fighting vehicles and emergency personnel
- (b) evacuation of residents, occupants and visitors

Access is in accordance with (a) or (b):

- (a) a clear and unobstructed vehicle or pedestrian pathway of not greater than 60 metres in length is available between the most distant part of the habitable building and the nearest part of a formed public access road
- (b) driveways:
 - (i) do not exceed 600m in length
 - (ii) are constructed with a formed, all-weather surface
 - (iii) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8)
 - (iv) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway
 - (v) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the driveway
 - (vi) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 1)
 - (vii) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 5)
 - (viii) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 1)
 - (ix) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)
 - (x) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by using a 'U' shaped drive through design or by incorporating at the end of the driveway either:
 - A. a loop road around the building
 - B. a turning area with a minimum radius of 12.5m (Figure 3)
 - C. a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 4)
 - (xi) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.

PO 5.3
Development does not rely on fire tracks as means of evacuation or access for fire-fighting purposes unless there are no safe alternatives available.

DTS/DPF 5.3
None are applicable.

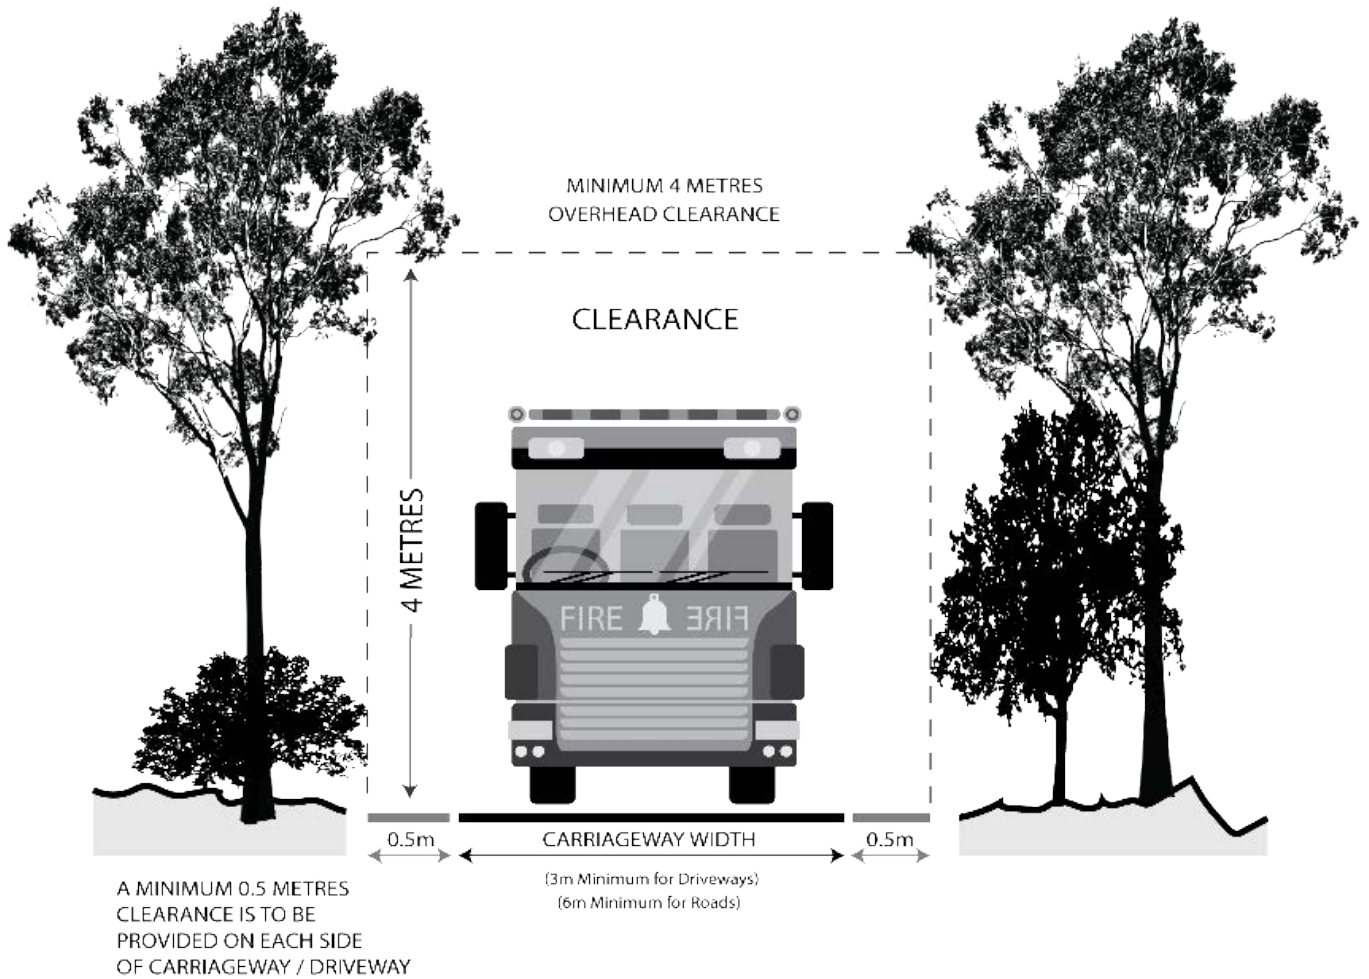

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---------------------------------|---------------|---------------------|---------------------|
| None | None | None | None |

Hazards (Bushfire - High Risk) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome

| | |
|------|---|
| DO 1 | Development, including land division is sited and designed to minimise the threat and impact of bushfires on life and property with regard to the following risks: <ul style="list-style-type: none"> (a) potential for uncontrolled bushfire events taking into account the increased frequency and intensity of bushfires as a result of climate change (b) high levels and exposure to ember attack (c) impact from burning debris (d) radiant heat (e) likelihood and direct exposure to flames from a fire front. |
| DO 2 | Activities that increase the number of people living and working in the area or where evacuation would be difficult is sited away from areas of unacceptable bushfire risk. |
| DO 3 | To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|--|
| Land Use | |
| PO 1.1 Development that significantly increases the potential for fire outbreak as a result of the spontaneous combustion of materials, spark generation or through the magnification and reflection of light is not located in areas of unacceptable bushfire risk. | DTS/DPF 1.1 None are applicable. |
| PO 1.2 Pre-schools, educational establishments, hospitals, retirement and supported accommodation are sited away from areas of unacceptable bushfire risk and locations that: <ul style="list-style-type: none"> (a) are remote from or require extended periods of travel to reach safer locations (b) don't have a safe path of travel to safer locations. | DTS/DPF 1.2 None are applicable. |
| Siting | |
| PO 2.1 Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain. | DTS/DPF 2.1 None are applicable. |
| Built Form | |
| PO 3.1 Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts. | DTS/DPF 3.1 None are applicable. |
| PO 3.2 Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and Workers' accommodation) in the event of bushfire. | DTS/DPF 3.2 Outbuildings and other ancillary structures are sited no closer than 6m from the habitable building. |
| Habitable Buildings | |
| PO 4.1 To minimise the threat, impact and potential exposure to bushfires on life and property, residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments away from steep slopes. | DTS/DPF 4.1 None are applicable. |
| PO 4.2 Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited away from vegetated areas that pose an unacceptable bushfire risk. | DTS/DPF 4.2 Residential and tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zone(s) in accordance with (a) and (b): <ul style="list-style-type: none"> (a) the asset protection zone has a minimum width of at least: <ul style="list-style-type: none"> (i) 50 metres to unmanaged grasslands (ii) 100 metres to hazardous bushland vegetation (b) the asset protection zone is contained wholly within the allotment of the development. |
| PO 4.3 Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) has a dedicated area available that: | DTS/DPF 4.3 None are applicable. |

| | |
|--|--|
| <p>(a) is capable of accommodating a bushfire protection system comprising firefighting equipment and water supply in accordance with <i>Ministerial Building Standard MBS 008 - Designated bushfire prone areas - additional requirements</i></p> <p>(b) includes the provision of an all-weather hardstand area in a location that:</p> <ul style="list-style-type: none"> (i) allows fire-fighting vehicles to safely access the dedicated water supply and exit the site in a forward direction (ii) is no further than 6 metres from the dedicated water supply outlet(s) where required. | |
|--|--|

Land Division

| | |
|---|--|
| <p>PO 5.2</p> <p>Land division is designed and incorporates measures to minimise the danger of fire hazard to residents and occupants of buildings, and to protect buildings and property from physical damage in the event of a bushfire.</p> | <p>PO 5.1</p> <p>Land division for residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is limited to those areas specifically set aside for these uses.</p> |
| <p>DTS/DPF 5.1</p> <p>None are applicable.</p> | <p>DTS/DPF 5.2</p> <p>None are applicable.</p> |
| <p>PO 5.3</p> <p>Land division is designed to provide a continuous street pattern (avoiding the use of dead end roads/cul-de-sac road design) to facilitate the safe movement and evacuation of emergency vehicles, residents, occupants and visitors. Where cul-de-sac / dead end roads are proposed, an alternative emergency evacuation route is provided.</p> | <p>DTS/DPF 5.3</p> <p>None are applicable.</p> |
| <p>PO 5.4</p> <p>Where 10 or more new allotments are proposed, land division includes at least two separate and safe exit points to enable multiple avenues of evacuation in the event of a bushfire.</p> | <p>DTS/DPF 5.4</p> <p>None are applicable.</p> |
| <p>PO 5.5</p> <p>Land division provides sufficient space for future asset protection zones and incorporates perimeter roads of adequate design in conjunction with bushfire buffer zones to achieve adequate separation between residential allotments and areas of unacceptable bushfire risk and to support safe access for the purposes of fire-fighting.</p> | <p>DTS/DPF 5.5</p> <p>None are applicable.</p> |

Vehicle Access –Roads, Driveways and Fire Tracks

| | |
|--|--|
| <p>PO 6.1</p> <p>Roads are designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> (a) access, operation and evacuation of fire-fighting vehicles and emergency personnel (b) evacuation of residents, occupants and visitors. | <p>DTS/DPF 6.1</p> <p>Roads:</p> <ul style="list-style-type: none"> (a) are constructed with a formed, all-weather surface (b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road (c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road (d) have a minimum formed road width of 6m (e) provide overhead clearance of not less than 4.0m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1) (f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2) (g) incorporating cul-de-sac endings or dead end roads are provided within an alternative evacuation route and do not exceed 200m in length and the end of the road has either: <ul style="list-style-type: none"> (i) a turning area with a minimum formed surface radius of 12.5m (Figure 3) or (ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 4) (h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes. |
|--|--|

| | |
|---|---|
| <p>PO 6.2</p> <p>Access to habitable buildings is designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> (a) use, operation and evacuation of fire-fighting and emergency personnel (b) evacuation of residents, occupants and visitors. | <p>DTS/DPF 6.2</p> <p>Access is in accordance with (a) or (b):</p> <ul style="list-style-type: none"> (a) a clear and unobstructed vehicle or pedestrian pathway of not greater than 60 metres in length is available between the most distant part of the habitable building and the nearest part of a formed public access road (b) driveways: <ul style="list-style-type: none"> (i) do not exceed 600m in length (ii) are constructed with a formed, all-weather surface (iii) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8) (iv) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway (v) have a crossfall of not more than 6 degrees (1-in-9.5) at any point along the driveway (vi) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 1) |
|---|---|

| | |
|--|---|

Hazards (Bushfire - Medium Risk) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome

| | |
|------|---|
| DO 1 | Development, including land division responds to the medium level of bushfire risk and potential for ember attack and radiant heat by siting and designing buildings in a manner that mitigates the threat and impact of bushfires on life and property taking into account the increased frequency and intensity of bushfires as a result of climate change. |
| DO 2 | To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|--|
| Siting | |
| PO 1.1 Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain. | DTS/DPF 1.1 None are applicable. |
| Built Form | |
| PO 2.1 Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts. | DTS/DPF 2.1 None are applicable. |
| PO 2.2 Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and Workers' accommodation) in the event of bushfire. | DTS/DPF 2.2 Outbuildings and other ancillary structures are sited no closer than 6m from the habitable building. |
| Habitable Buildings | |
| PO 3.1 To minimise the threat, impact and potential exposure to bushfires on life and property, residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments away from steep slopes. | DTS/DPF 3.1 None are applicable. |
| PO 3.2 Residential, tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited away from vegetated areas that pose an unacceptable bushfire risk. | DTS/DPF 3.2 Residential, tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zone(s) in accordance with (a) and (b): (a) the asset protection zone has a minimum width of at least: (i) 50 metres to unmanaged grasslands (ii) 100 metres to hazardous bushland vegetation (b) the asset protection zone is contained wholly within the allotment of the development. |
| PO 3.3 Residential, tourist accommodation and habitable buildings for vulnerable communities, (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation), has a dedicated area available that is capable of accommodating a bushfire protection system comprising firefighting equipment and water supply in accordance with <i>Ministerial Building Standard MBS 008 - Designated bushfire prone areas - additional requirements</i> . | DTS/DPF 3.3 None are applicable. |
| Land Division | |
| PO 4.1 Land division is designed and incorporates measures to minimise the danger of fire hazard to residents and occupants of buildings, and to protect buildings and property from physical damage in the event of a bushfire. | DTS/DPF 4.1 None are applicable. |

Roads and Driveway Design

Figure 2 - Road and Driveway Curves

Curves to allow fire trucks to turn into the track without having to back-up several times - minimum external radius of 12.5m.

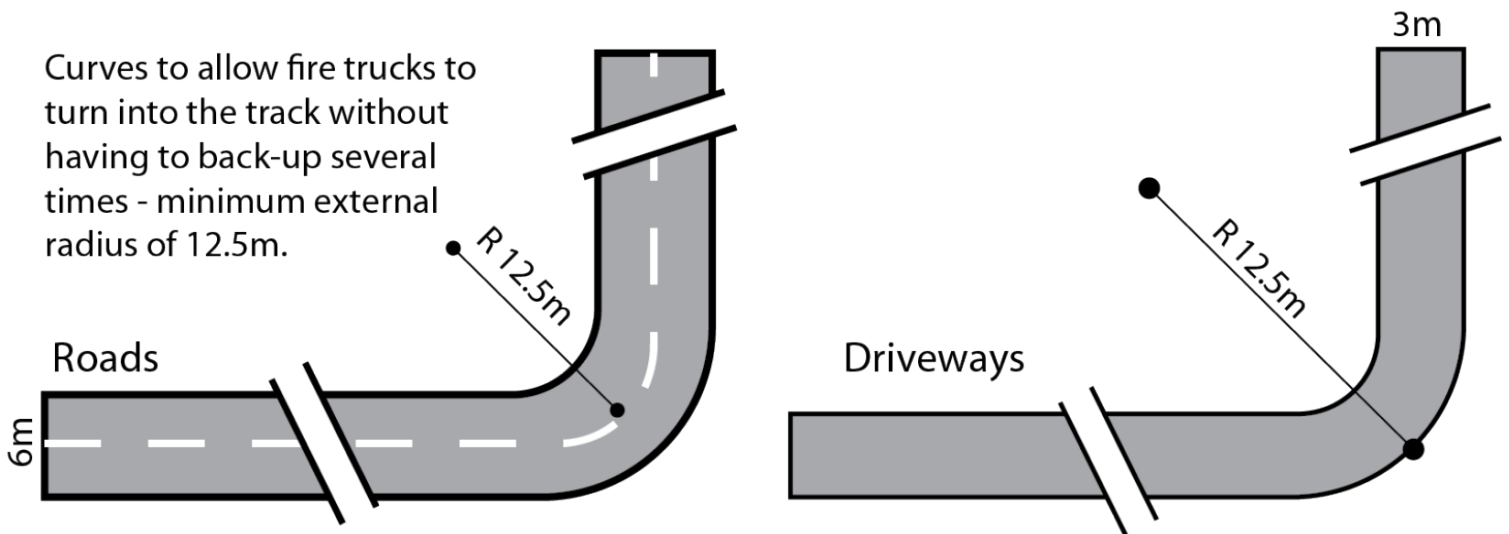

Figure 3 - Full Circle Turning Area

Fire truck turning area -
minimum radius 12.5m

Figure 4 - 'T' or 'Y' Shaped Turning Head

"T" shaped turning area
for fire trucks to reverse
into so they can turn
around
- minimum length 11m.

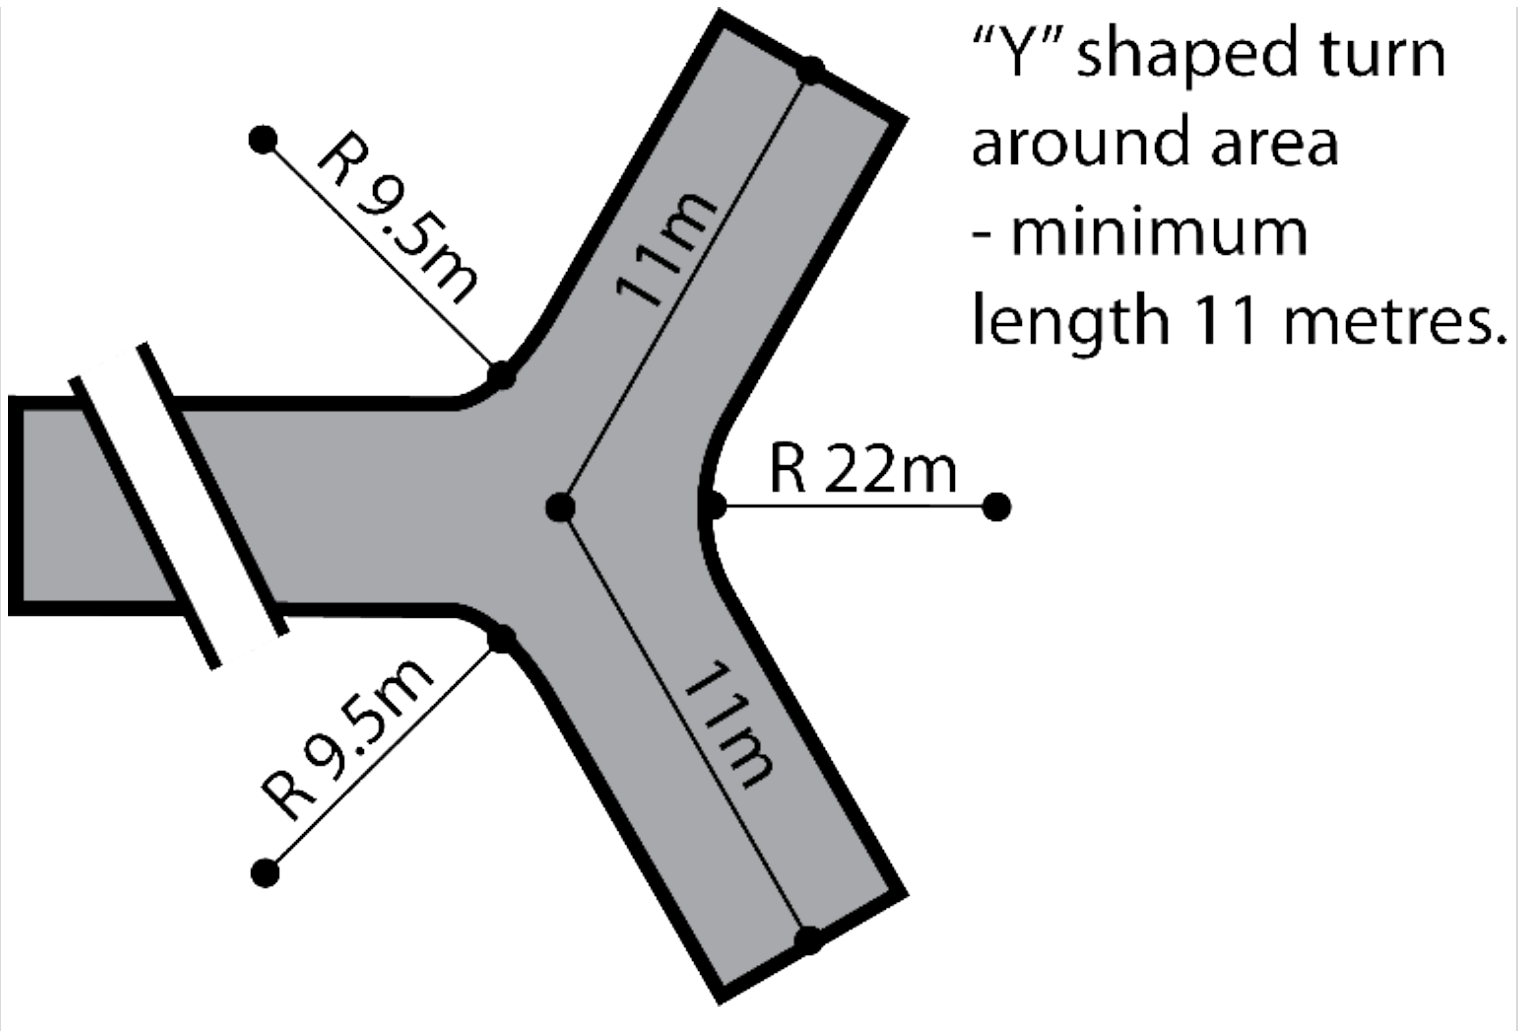

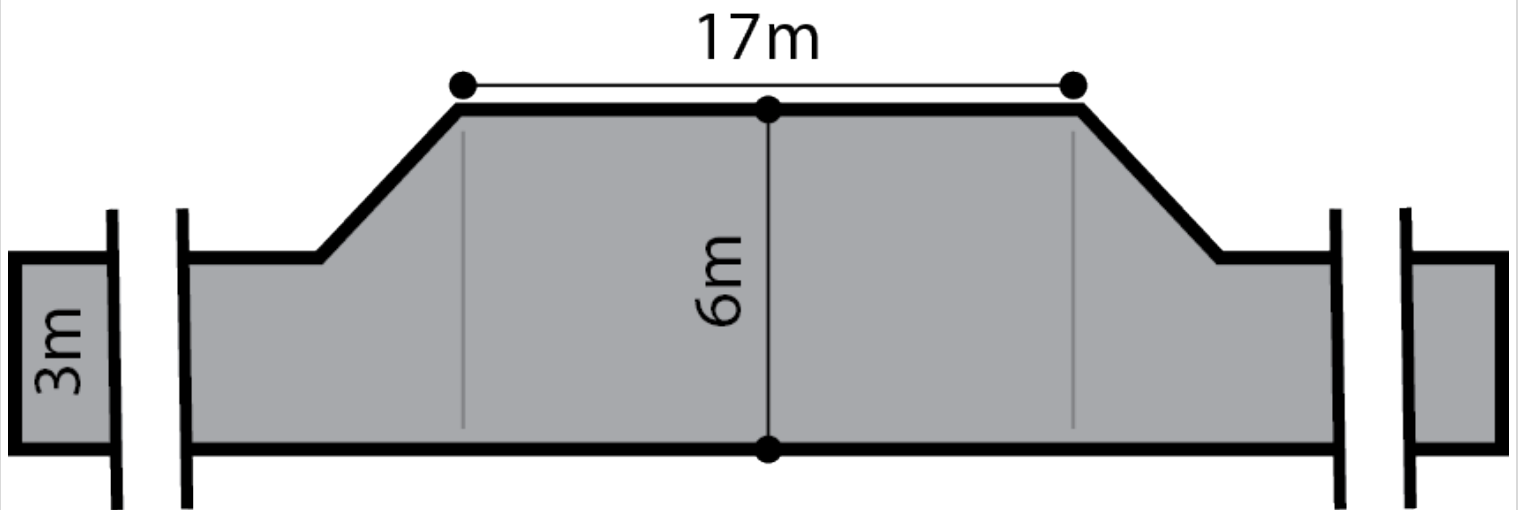

Figure 5 - Driveway Passing Bays

Passing bay for fire trucks - minimum width 6 metres, minimum length 17 metres.

Hazards (Bushfire - Regional) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome

| | |
|------|--|
| DO 1 | Development, including land division responds to the relevant level of bushfire risk and is sited and designed to mitigate the threat and impact of bushfires on life and property taking into account the increased frequency and intensity of bushfires as a result of climate change. |
| DO 2 | To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Siting | |
| PO 1.1 Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain. | DTS/DPF 1.1 None are applicable. |
| Built Form | |
| PO 2.1 Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts. | DTS/DPF 2.1 None are applicable. |
| PO 2.2 Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) in the event of bushfire. | DTS/DPF 2.2 Outbuildings and other ancillary structures are sited no closer than 6m from the habitable building. |
| Habitable Buildings | |
| PO 3.1 To minimise the threat, impact and exposure to bushfires on life and property, residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments away from steep slopes. | DTS/DPF 3.1 None are applicable. |
| PO 3.2 Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited away from vegetated areas that pose an unacceptable bushfire risk. | DTS/DPF 3.2 Residential and tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zone(s) in accordance with (a) and (b): (a) the asset protection zone has a minimum width of at least: (i) 50 metres to unmanaged grasslands (ii) 100 metres to hazardous bushland vegetation (b) the asset protection zone is contained wholly within the allotment of the development. |
| PO 3.3 Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) has a dedicated and accessible water supply available at all times for fire-fighting purposes. | DTS/DPF 3.3 Development has a dedicated water supply available at all times for fire-fighting purposes: (a) comprising a minimum of 5000 litres (b) positioned in an accessible location and accompanied with necessary equipment to allow occupants to minimise the spread of bushfire to the habitable building(s). |
| Land Division | |
| PO 4.1 Land division is designed to and incorporates measures to minimise the danger of fire hazard to residents and occupants of buildings, and to protect buildings and property from physical damage in the event of a bushfire. | DTS/DPF 4.1 None are applicable. |
| PO 4.2 Land division designed to provide a continuous street pattern to facilitate the safe movement and evacuation of emergency vehicles, residents, occupants and visitors. | DTS/DPF 4.2 None are applicable. |
| PO 4.3 Where 10 or more new allotments are proposed, land division includes at least two separate and safe exit points to enable multiple avenues of evacuation in the event of a bushfire. | DTS/DPF 4.3 None are applicable. |
| PO 4.4 Land division incorporates perimeter roads of adequate design in conjunction with bushfire buffer zones to achieve adequate separation between residential allotments and areas of unacceptable bushfire risk and to support safe access for the purposes of fire-fighting. | DTS/DPF 4.4 None are applicable. |

| | |
|---|--|
| <p>PO 5.1</p> <p>Roads are designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> (a) access, operation and evacuation of fire-fighting vehicles and emergency personnel (b) evacuation of residents, occupants and visitors. | <p>DTS/DPF 5.1</p> <p>Roads:</p> <ul style="list-style-type: none"> (a) are constructed with a formed, all-weather surface (b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road (c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road (d) have a minimum formed road width of 6m (e) provide overhead clearance of not less than 4.0m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1) (f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2) (g) incorporating cul-de-sac endings or dead end roads do not exceed 200m in length and the end of the road has either: <ul style="list-style-type: none"> (i) a turning area with a minimum formed surface radius of 12.5m (Figure 3) or (ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 4) (h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes. |
| <p>PO 5.2</p> <p>Access to habitable buildings is designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> (a) access, operation and evacuation of fire-fighting vehicles and emergency personnel (b) evacuation of residents, occupants and visitors. | <p>DTS/DPF 5.2</p> <p>Access is in accordance with (a) or (b):</p> <ul style="list-style-type: none"> (a) a clear and unobstructed vehicle or pedestrian pathway of not greater than 60 metres in length is available between the most distant part of the habitable building and the nearest part of a formed public access road (b) driveways: <ul style="list-style-type: none"> (i) do not exceed 600m in length (ii) are constructed with a formed, all-weather surface (iii) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8) (iv) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway (v) have a crossfall of not more than 6 degrees (1-in-9.5) at any point along the driveway (vi) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 1) (vii) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 5) (viii) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 1) (ix) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 2) (x) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by using a 'U' shaped drive through design or by incorporating at the end of the driveway either: <ul style="list-style-type: none"> A. a loop road around the building or B. a turning area with a minimum radius of 12.5m (Figure 3) or C. a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 4) (xi) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes. |
| <p>PO 5.3</p> <p>Development does not rely on fire tracks as means of evacuation or access for fire-fighting purposes unless there are no safe alternatives available.</p> | <p>DTS/DPF 5.3</p> <p>None are applicable.</p> |

Procedural Matters (PM) - Referrals

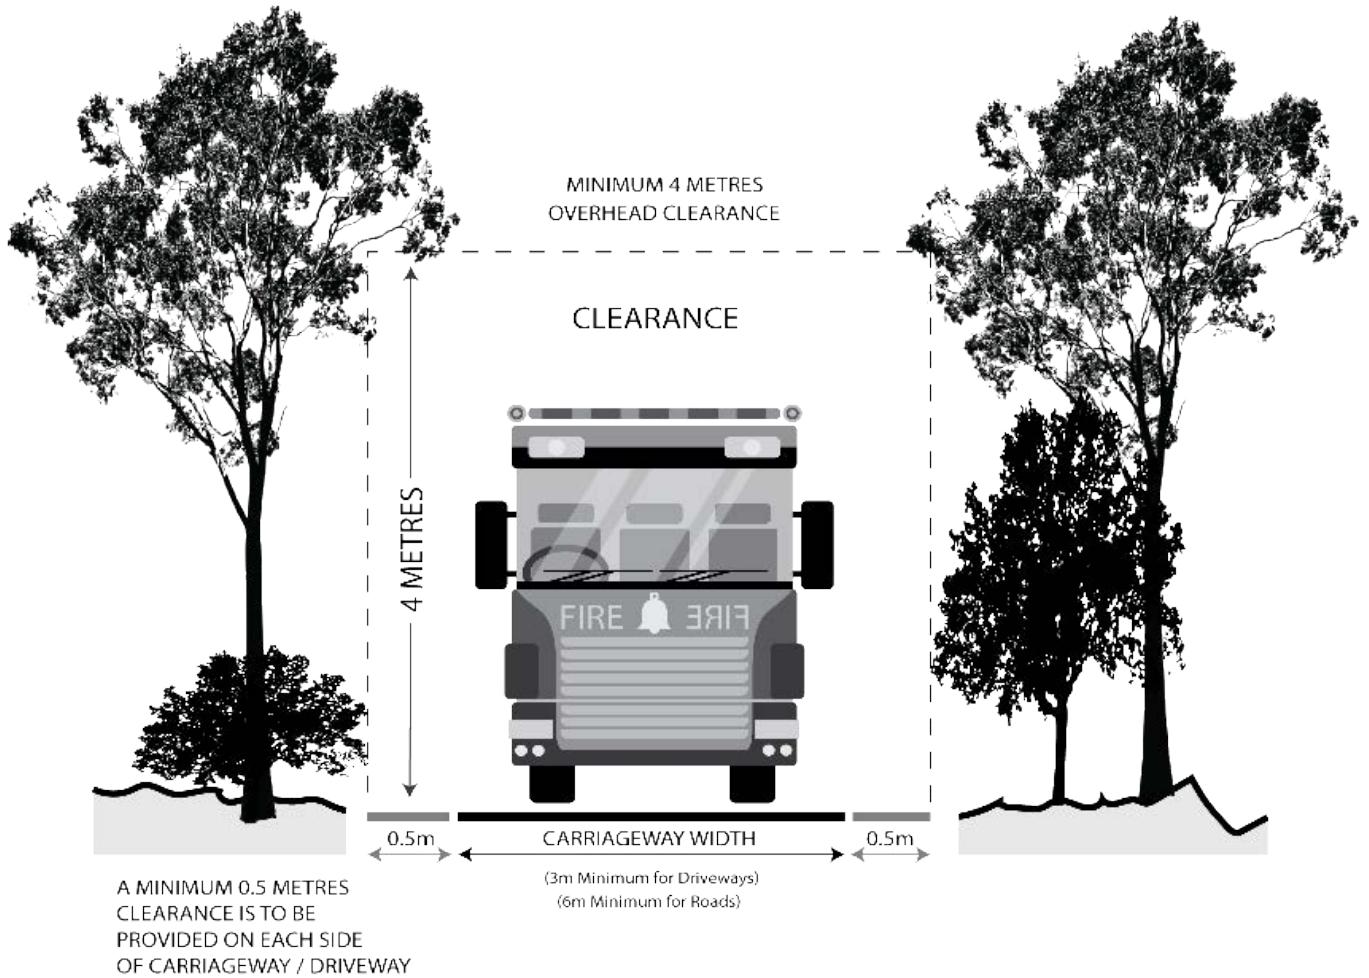

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Hazards (Flooding) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|-----------------|---|
| DO 1 | Impacts on people, property, infrastructure and the environment from high flood risk are minimised by retaining areas free from development, and minimising intensification where development has occurred. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|--|---|
| Land Division | |
| PO 1.1 Land division is limited to areas where the consequences to buildings and safety are low and can be readily managed or overcome. | DTS/DPF 1.1 None are applicable. |
| Land Use | |
| PO 2.1 Development sited and designed to minimise exposure of people and property to unacceptable flood risk. | DTS/DPF 2.1 None are applicable. |
| PO 2.2 Buildings housing vulnerable people, community services facilities, key infrastructure and emergency services are sited away from flood prone areas to enable uninterrupted operation of services and reduce likelihood of entrapment. | DTS/DPF 2.2 Pre-schools, educational establishments, retirement and supported accommodation, emergency services facilities, hospitals and prisons are not located within the Overlay area. |
| Flood Resilience | |
| PO 3.1 Development avoids the need for flood protection works. | DTS/DPF 3.1 None are applicable. |
| PO 3.2 Development does not cause unacceptable impacts on any adjoining property by the diversion of flood waters or an increase in flood velocity or flood level. | DTS/DPF 3.2 None are applicable. |
| PO 3.3 Development does not impede the flow of floodwaters through the allotment or the surrounding land. | DTS/DPF 3.3 None are applicable. |

| | | |
|--------------------------|--|--|
| | or cause an unacceptable loss of flood storage. | |
| PO 3.4 | Development avoids frequently flooded or high velocity areas, other than where it is part of a flood mitigation scheme to reduce flood impact. | DTS/DPF 3.4 Other than a recreation area, development is located outside of the 5% AEP principal flow path. |
| PO 3.5 | Buildings are sited, designed and constructed to prevent the entry of floodwaters in a 1% AEP flood event where the entry of floodwaters is likely to result in undue damage to, or compromise ongoing activities within, buildings. | DTS/DPF 3.5 Buildings comprise one of the following: (a) a porch or portico with at least 2 open sides (b) a verandah with at least 3 open sides (c) a carport or outbuilding with at least 2 open sides (whichever elevations face the direction of the flow) (d) any post construction with open sides (e) a building with a finished floor level that is at least 300mm above the height of a 1% AEP flood event. |
| PO 3.6 | Fences do not unreasonably impede floodwaters. | DTS/DPF 3.6 A post and wire fence (other than a chain mesh fence). |
| Environmental Protection | | |
| PO 4.1 | Buildings and structures used either partly or wholly to contain or store hazardous materials are designed to prevent spills or leaks leaving the confines of the building during a 1% AEP flood event to avoid potential environmental harm. | DTS/DPF 4.1 Development involving the storage or disposal of hazardous materials is wholly located outside of the 1% AEP flood plain or flow path. |
| PO 4.2 | Development does not create or aggravate the potential for erosion or siltation or lead to the destruction of vegetation during a flood. | DTS/DPF 4.2 None are applicable. |
| Site Earthworks | | |
| PO 5.1 | The depth and extent of filling required to raise the finished floor level of a building does not cause unacceptable impact on any adjoining property by diversion of flood waters, an increase in flood velocity or flood level, or an unacceptable loss of flood storage. | DTS/DPF 5.1 None are applicable. |
| PO 5.2 | Driveways, access tracks and parking areas are designed and constructed to minimise excavation and filling. | DTS/DPF 5.2 Filling for ancillary purposes: (a) does not exceed 300mm above existing ground level (b) is no more than 5m wide. |
| Access | | |
| PO 6.1 | Development does not occur on land: (a) from which evacuation to areas not vulnerable to flood risk is not possible during a 1% AEP flood event (b) which cannot be accessed by emergency services vehicles or essential utility service vehicles during a 1% AEP flood event. | DTS/DPF 6.1 None are applicable. |
| PO 6.2 | Access driveways and tracks to significant development (i.e. dwellings, places of work, etc.) consist of a safe, all-weather trafficable surface that is accessible during a 1% AEP flood event. | DTS/DPF 6.2 None are applicable. |

| Finished Ground and Floor Levels | |
|--|--|
| | Minimum finished ground level is 4m AHD; Minimum finished floor level is 4.25m AHD |
| | Minimum finished ground level is 2.05m AHD; Minimum finished floor level is 2.3m AHD |
| | Minimum finished ground level is 2.8m AHD; Minimum finished floor level is 3.05m AHD |
| | Minimum finished ground level is 3.05m AHD; Minimum finished floor level is 3.3m AHD |
| | Minimum finished ground level is 3.8m AHD; Minimum finished floor level is 4.05m AHD |
| In instances where no finished floor level value is specified, a building incorporates a finished floor level at least 300mm above the height of a 1% AEP flood event. | |

| Environmental Protection | |
|---|---|
| PO 3.1 Buildings and structures used either partly or wholly to contain or store hazardous materials are designed to prevent spills or leaks leaving the confines of the building during a 1% AEP flood event to avoid potential environmental harm. | DTS/DPF 3.1 Development involving the storage or disposal of hazardous materials is wholly located outside of the 1% AEP flood plain or flow path. |

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---------------------------------|---------------|---------------------|---------------------|
| None | None | None | None |

Hazards (Flooding - Evidence Required) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|------------------------|---|
| DO 1 | Development adopts a precautionary approach to mitigate potential impacts on people, property, infrastructure and the environment from potential flood risk through the appropriate siting and design of development. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Flood Resilience | |
| PO 1.1 Development is sited, designed and constructed to minimise the risk of entry of potential floodwaters where the entry of flood waters is likely to result in undue damage to or compromise ongoing activities within buildings. | DTS/DPF 1.1 Habitable buildings, commercial and industrial buildings, and buildings used for animal keeping incorporate a finished floor level at least 300mm above: <ul style="list-style-type: none"> (a) the highest point of top of kerb of the primary street or (b) the highest point of natural ground level at the primary street boundary where there is no kerb |
| Environmental Protection | |
| PO 2.1 Buildings and structures used either partly or wholly to contain or store hazardous materials are designed to prevent spills or leaks leaving the confines of the building. | DTS/DPF 2.1 Development does not involve the storage of hazardous materials. |

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---------------------------------|---------------|---------------------|---------------------|
| None | None | None | None |

Heritage Adjacency Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome

| | |
|------|---|
| DO 1 | Development adjacent to State and Local Heritage Places maintains the heritage and cultural values of those Places. |
|------|---|

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome

Deemed-to-Satisfy Criteria / Designated Performance Feature

Built Form

| | |
|--|-------------------------------------|
| PO 1.1 Development adjacent to a State or Local Heritage Place does not dominate, encroach on or unduly impact on the setting of the Place. | DTS/DPF 1.1 None are applicable. |
|--|-------------------------------------|

Land Division

| | |
|--|-------------------------------------|
| PO 2.1 Land division adjacent to a State or Local Heritage Place creates allotments that are of a size and dimension that enables the siting and setbacks of new buildings from allotment boundaries so that they do not dominate, encroach or unduly impact on the setting of the Place. | DTS/DPF 2.1 None are applicable. |
|--|-------------------------------------|

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|--|--|---|
| Development that may materially affect the context of a State Heritage Place. | Minister responsible for the administration of the <i>Heritage Places Act 1993</i> . | To provide expert assessment and direction to the relevant authority on the potential impacts of development adjacent State Heritage Places. | Development of a class to which Schedule 9 clause 3 item 17 of the Planning, Development and Infrastructure (General) Regulations 2017 applies. |

Historic Area Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome

| | |
|------|---|
| DO 1 | Historic themes and characteristics are reinforced through conservation and contextually responsive development, design and adaptive reuse that responds to existing coherent patterns of land division, site configuration, streetscapes, building siting and built scale, form and features as exhibited in the Historic Area and expressed in the Historic Area Statement. |
|------|---|

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome

Deemed-to-Satisfy Criteria / Designated Performance Feature

All Development

| | |
|---|-------------------------------------|
| PO 1.1 All development is undertaken having consideration to the historic streetscapes and built form as expressed in the Historic Area Statement. | DTS/DPF 1.1 None are applicable. |
|---|-------------------------------------|

Built Form

| | | |
|---|-------------------------------------|------|
| PO 2.1 The form and scale of new buildings and structures that are visible from the public realm are | DTS/DPF 2.1 None are applicable. | 4240 |
|---|-------------------------------------|------|

| | | |
|---------------------------------|--|---|
| | consistent with the prevailing historic characteristics of the historic area. | |
| PO 2.2 | Development is consistent with the prevailing building and wall heights in the historic area. | DTS/DPF 2.2 None are applicable. |
| PO 2.3 | Design and architectural detailing of street-facing buildings (including but not limited to roof pitch and form, openings, chimneys and verandahs) complement the prevailing characteristics in the historic area. | DTS/DPF 2.3 None are applicable. |
| PO 2.4 | Development is consistent with the prevailing front and side boundary setback pattern in the historic area. | DTS/DPF 2.4 None are applicable. |
| PO 2.5 | Materials are either consistent with or complement those within the historic area. | DTS/DPF 2.5 None are applicable. |
| Alterations and additions | | |
| PO 3.1 | Alterations and additions complement the subject building, employ a contextual design approach and are sited to ensure they do not dominate the primary façade. | DTS/DPF 3.1 Alterations and additions are fully contained within the roof space of an existing building with no external alterations made to the building elevation facing the primary street. |
| PO 3.2 | Adaptive reuse and revitalisation of buildings to support retention consistent with the Historic Area Statement. | DTS/DPF 3.2 None are applicable. |
| Ancillary development | | |
| PO 4.1 | Ancillary development, including carports, outbuildings and garages, complements the historic character of the area and associated buildings. | DTS/DPF 4.1 None are applicable. |
| PO 4.2 | Ancillary development, including carports, outbuildings and garages, is located behind the building line of the principal building(s) and does not dominate the building or its setting. | DTS/DPF 4.2 None are applicable. |
| PO 4.3 | Advertising and advertising hoardings are located and designed to complement the building, be unobtrusive, be below the parapet line, not conceal or obstruct significant architectural elements and detailing, or dominate the building or its setting. | DTS/DPF 4.3 None are applicable. |
| PO 4.4 | Fencing and gates closer to a street boundary (other than a laneway) than the elevation of the associated building are consistent with the traditional period, style and form of the associated building. | DTS/DPF 4.4 None are applicable. |
| Land Division | | |
| PO 5.1 | Land division creates allotments that are: (a) compatible with the surrounding pattern of subdivision in the historic area (b) of a dimension to accommodate buildings of a bulk and scale that reflect existing buildings and setbacks in the historic area | DTS/DPF 5.1 None are applicable. |
| Context and Streetscape Amenity | | |
| PO 6.1 | The width of driveways and other vehicle access ways are consistent with the prevailing width of existing driveways of the historic area. | DTS/DPF 6.1 None are applicable. |
| PO 6.2 | Development maintains the valued landscape patterns and characteristics that contribute to the historic area, except where they compromise safety, create nuisance, or impact adversely on buildings or infrastructure. | DTS/DPF 6.2 None are applicable. |
| Demolition | | |
| PO 7.1 | Buildings and structures, or features thereof, that demonstrate the historic characteristics as expressed in the Historic Area Statement are not demolished, unless: (a) the front elevation of the building has been substantially altered and cannot be reasonably restored in a manner consistent with the building's original style or (b) the structural integrity or safe condition of the original building is beyond reasonable repair. | DTS/DPF 7.1 None are applicable. |

| | |
|--|-------------------------------------|
| PO 7.2 Partial demolition of a building where that portion to be demolished does not contribute to the historic character of the streetscape. | DTS/DPF 7.2 None are applicable. |
| PO 7.3 Buildings or elements of buildings that do not conform with the values described in the Historic Area Statement may be demolished. | DTS/DPF 7.3 None are applicable. |

North Adelaide Childers East Historic Area Statement (Adel2)

The Historic Area Overlays identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

| | |
|---|---|
| Eras, themes and context | <p>1837 to 1901 - Victorian period.</p> <p>1901 to 1910 - Edwardian period.</p> <p>1920's to 1942 - Inter-war period.</p> <p>Mansions; historic low and medium density detached and semi-detached residential development such as typical cottages and terrace houses.</p> |
| Allotments, subdivision and built form patterns | <p>Range of subdivision patterns including large allotments together with low and medium density residential development on narrow frontages.</p> <p><u>Childers Street</u></p> <p>Consistently sited row cottages on north side. Varying setbacks on south side.</p> <p><u>Gover Street</u></p> <p>Generous scale and siting of heritage placed on south side (west of Mansfield Street).</p> <p><u>Jeffcott Street</u></p> <p>North of Childers Street, consistent and intensive built form edge to the eastern frontage sited on or close to the primary street frontage. South of Childers Street, buildings sited close to the primary street frontage.</p> <p><u>Barton Terrace West</u></p> <p>Cohesive edge along Barton Terrace West.</p> |
| Architectural styles, detailing and built form features | <p>Victorian housing consisting of single fronted, symmetrically fronted, and asymmetrically fronted houses, some with bay fronted projections; contains vertically proportioned window and door surrounds highlighted with moulded render or brick dressings with roofs that are generally hipped in form, with the asymmetrical style, gable ended or hipped roof to the projecting bay, concave or convex verandah roof and four panelled doors with fanlights and often sidelights.</p> <p>Edwardian housing with prominent strapped gables and detailing, tall brick chimneys, verandahs incorporated under the main pitch of the roof verandahs with a convex (or bullnose) profile.</p> <p>Inter-War Housing consisting of bungalows incorporating a broad spreading roof and verandah with typical masonry columns supporting verandah elements and the expansive two storey version was often known as a Gentlemen's Bungalow; and Tudor Revival style displaying steeply pitched roofs with half-timber gable ends and variations of the verandah porch treatments.</p> |

| Statement# | Statement | |
|------------|-----------------|--|
| Adel2 | | <p>Elegant and finely detailed mansions; Large Villas set on large allotments.</p> <p><u>Childers Street</u></p> <p>Victorian, Edwardian and Inter-war housing.</p> <p>Single storey Local Heritage Places, including consistently sited single-storey row cottages, detached cottages and the occasional terrace house with narrow frontages on the northern side and on the southern side, detached and attached cottages with varying set-backs.</p> <p>Continuity of verandahs and parapets and roof profiles.</p> <p>Single storey detached or semi-detached cottages on the southern side.</p> <p><u>Gover Street</u></p> <p>Victorian and Edwardian housing.</p> <p>Primarily single storey detached dwellings.</p> <p>Generous scale and siting patterns of Heritage Places to the southern side of street west of Mansfield Street.</p> <p><u>Jeffcott Street</u></p> <p>Diversity of traditional dwelling types reflecting the different stages of early Victorian residential development.</p> <p>Low scale row dwellings (north of Childers Street).</p> <p>Larger detached bay window and gable-fronted villas on individual sites</p> <p>Continuity of roof and verandah profiles north of Childers Street.</p> <p><u>Barton Terrace West</u></p> <p>Highly modified character.</p> <p>Victorian and Edwardian housing.</p> <p>One or two storey detached or semi-detached dwellings.</p> <p><u>Hack Street</u></p> <p>Intimate character derived from Victorian single storey detached cottages.</p> <p>Single width car parking.</p> <p><u>Mansfield Street</u></p> <p>Single storey detached, semi-detached and row cottages.</p> |
| | Building height | <p>Low scale, one and two storey residential.</p> <p>Single storey in appearance along the Childers Street, Gover Street, Jeffcott Street, Hack Street and Mansfield Street frontages.</p> |
| | Materials | <p><u>Victorian Houses</u></p> <p>Bluestone, limestone or sandstone, with brick or rubble side and rear walls.</p> <p>Timber framed windows and doors.</p> <p>Cast iron or timber posts to the verandahs elaborated with moulded capitals and trim, and widely used cast iron brackets and frieze decoration.</p> <p>Fencing consisting of masonry base and piers with cast iron panels or railings, timber railing, timber picket fencing for smaller houses.</p> <p><u>Edwardian Houses</u></p> <p>Face brick walling with decorative brick detailing, ashlar stone with brick dressings or moulded render or 'rock face' sandstone (or freestone) for wall material.</p> <p>Unglazed terracotta Marseilles roof tiles, corrugated iron roof cladding.</p> |

| Statement# | Statement | |
|---|-----------|--|
| | | <p>Timber framed windows and doors. Windows often grouped and doors often divided into three or four horizontal panels.</p> <p>Masonry fencing with cast iron palisade, or timber (picket).</p> <p><u>Inter-War Houses</u></p> <p>Australian-made Wunderlich roof tiles.</p> <p>Timber joinery with some use of metal framed windows.</p> <p>Typically low masonry walls, built from materials matching the main building.</p> |
| Fencing | | <p>Low, open front fencing (including secondary streets to the main façade of the building) associated with the traditional period and style of the building up to 1.2 metres, allowing views to the building. Rear and side boundary fences (behind main building façade) to 2 metres, and 1.8 metres on corner sites.</p> <p>Front fences of stone and cast iron, brick, stone or rendered pillars and plinths, timber or well detailed masonry.</p> <p>Brick, rendered masonry and timber side fences on secondary street frontages.</p> <p>Rear and side fences (behind main face of building) of corrugated metal sheeting.</p> |
| Setting, landscaping, streetscape and public realm features | | <p>Tall trees at the intersection of Barton Terrace West and Jeffcott Street create an imposing 'gateway' to this major entrance to North Adelaide and complement the character of existing street tree planting.</p> <p>Street trees and high quality paving and landscaping.</p> <p>Existing vehicle access points along Barton Terrace West.</p> <p><u>Hack Street</u></p> <p>Intimate character of narrow streets.</p> |

North Adelaide Carclew Historic Area Statement (Adel5)

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

| | |
|--------------------------|---|
| Eras, themes and context | <p>1837 to 1901 - Victorian period.</p> <p>1901 to 1920s - Edwardian period.</p> <p>1920s to 1942 - Inter-war period.</p> |
|--------------------------|---|

| Statement# | Statement | |
|------------|--|--|
| | | <p>1950 plus - Post War Period.</p> <p>Residential development with intact and generally cohesive townscapes of nineteenth and twentieth century detached houses set in landscaped grounds and imposing two-storey terrace houses.</p> |
| | <p>Allotments, subdivision and built form patterns</p> | <p><u>Strangways Terrace</u></p> <p>Large allotments.</p> <p><u>Ward Street (east of Jeffcott Street)</u></p> <p>Setback established by Heritage Places.</p> <p><u>Ward Street (west of Jeffcott Street) (south side)</u></p> <p>Intimate development pattern.</p> <p>Low density; close grouping of smaller detached cottages of local heritage value located on or near the street to the southern frontage.</p> <p><u>Jeffcott Street</u></p> <p>Dwellings sited close to the street frontage.</p> |
| | <p>Architectural styles, detailing and built form features</p> | <p>Victorian housing consisting of single fronted, symmetrically fronted, and asymmetrically fronted houses, some with bay fronted projections; contains vertically proportioned window and door surrounds highlighted with moulded render or brick dressings with roofs that are generally hipped in form, with the asymmetrical style, gable ended or hipped roof to the projecting bay, concave or convex verandah roof and four panelled doors with fanlights and often sidelights.</p> <p>Edwardian housing with prominent strapped gables and detailing, tall brick chimneys, verandahs incorporated under the main pitch of the roof verandahs with a convex (or bullnose) profile.</p> <p>Inter-War Housing consisting of Bungalows incorporating a broad spreading roof and verandah with typical masonry columns supporting verandah elements and the expansive two storey version was often known as a Gentlemen's Bungalow; and Tudor Revival style displaying steeply pitched roofs with half-timber gable ends and variations of the verandah porch treatments.</p> <p>Post War Housing consisting of Old English and Georgian Revival styles. The Old English Revival style uses elements that reference some Elizabethan/Tudor architectural details, steeply pitched roof form and tall chimneys. The Georgian Revival style displays symmetrical elevation with rendered or brick walls, fanlight above central entrance door, hipped roof form and classically derived proportions and details. This style had no verandah but often displayed an entrance portico. Post-war International Style are generally cubiform with flat roofs, large areas of glass in smooth masonry walls and cantilevered elements and recessed porch areas were typical of the style.</p> <p>Nineteenth and twentieth century detached houses.</p> <p><u>Montefiore Hill, Palmer Place and Brougham Place</u></p> <p>Victorian, Edwardian, Inter-war and Post-war housing.</p> <p>Unique historic townscapes derived from the setting of prominent heritage places and large, generously proportioned mansions set in landscaped grounds, with articulation and modelling with intricate detailing and ornamentation and exhibiting variations in architectural style. Ancillary buildings are subordinate to heritage places and setback from the principal road frontages.</p> <p><u>Strangways Terrace</u></p> <p>Imposing large detached Victorian Villas to the western part of the Terrace.</p> <p>Cohesive detached houses, consistency of masonry facades, vertically proportioned windows, pitched roofs, verandahs and porches within a landscaped setting.</p> |

| Statement# | Statement | |
|------------|-----------------|--|
| Adel5 | | <p>Detached and semi-detached dwellings.</p> <p><u>Jeffcott Street</u></p> <p>Victorian, Edwardian and Inter-war housing.</p> <p>North of Ward Street the residential character is derived from the low scale and close grouping of small cottages and row dwellings sited close to the street frontage.</p> <p>South of Ward Street, the townscape character is derived from detached residences, institutional buildings and a large contemporary apartment building.</p> <p>Articulated masonry facades, gable frontages, pitched roofs, verandahs and cast iron decoration.</p> <p><u>Ward Street (east of Jeffcott Street)</u></p> <p>Victorian, Edwardian and Inter-war housing.</p> <p>Detached and semi-detached dwellings and residential flat buildings.</p> <p><u>Ward Street (west of Jeffcott Street)</u></p> <p>Single-storey detached residences of consistent architectural style, form and siting.</p> <p>Plain or articulated gabled frontages with a high proportion of solid to void in the composition of facades of these existing dwellings.</p> <p>Prominence of early limestone walls and outbuildings.</p> |
| | Building height | <p>Low scale.</p> <p><i>Note: Concept Plan.</i></p> |
| | Materials | <p><u>Victorian Houses</u></p> <p>Bluestone, limestone or sandstone, with brick or rubble side and rear walls.</p> <p>Timber framed windows and doors.</p> <p>Cast iron or timber posts to the verandahs elaborated with moulded capitals and trim, and widely used cast iron brackets and frieze decoration.</p> <p>Fencing consisting of masonry base and piers with cast iron panels or railings, timber railing, timber picket fencing for smaller houses.</p> <p><u>Edwardian Houses</u></p> <p>Face brick walling with decorative brick detailing, ashlar stone with brick dressings or moulded render or 'rock face' sandstone (or freestone) for wall material.</p> <p>Unglazed terracotta Marseilles roof tiles, corrugated iron roof cladding.</p> <p>Timber framed windows and doors. Windows often grouped and doors often divided into three or four horizontal panels.</p> <p>Masonry fencing with cast iron palisade, or timber (picket).</p> <p><u>Inter-War Houses</u></p> <p>Australian-made Wunderlich roof tiles, face brick and rendered masonry.</p> <p>Timber joinery with some use of metal framed windows.</p> <p><u>Post War Housing</u></p> <p>Old English Revival style displays brick or white rendered walls.</p> <p>Georgian Revival style displays rendered or brick walls.</p> <p>International Style displays large areas of glass and smooth masonry walls.</p> <p>Traditional materials. Stone and brick. Masonry facades with cast iron decoration.</p> |

| Statement# | Statement | |

North Adelaide Margaret Street Historic Area Statement (Adel7)

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

| | |
|---|--|
| Eras, themes and context | <p>1837 to 1901 - Victorian period</p> <p>1901 to 1920s - Edwardian period</p> <p>1920's to 1942 - Inter-war period</p> <p>One of the most historically intact residential areas in South Australia.</p> |
| Allotments, subdivision and built form patterns | <p>Continuous built form edge in an historic landscape.</p> <p><u>Gover Street</u></p> <p>Regular pattern of Heritage Places addressing the principal road frontage with a consistent building setback from the street.</p> <p><u>Tynte Street</u></p> <p>Buildings set close to the street frontage west of Margaret Street.</p> <p>Buildings with deeper setbacks east of Margaret Street.</p> <p>Buildings about the street frontage on the intersection of Tynte and Margaret Street.</p> <p><u>Archer Street</u></p> <p>Buildings situated close to the street frontage.</p> <p><u>Ward Street</u></p> <p>Individual dwellings set close to the street.</p> |

| Statement# | Statement |
|---|--|
| | <p><u>Beviss Street</u></p> <p>Consistently sited.</p> <p><u>Curtis Street</u></p> <p>Buildings built close to the street frontage.</p> <p><u>Murray Street</u></p> <p>Closely sited semi-detached cottages.</p> |
| <p>Adel7</p> <p>Architectural styles, detailing and built form features</p> | <p>Victorian housing consisting of single fronted, symmetrically fronted, and asymmetrically fronted houses, some with bay fronted projections; contains vertically proportioned window and door surrounds highlighted with moulded render or brick dressings with roofs that are generally hipped in form, with the asymmetrical style, gable ended or hipped roof to the projecting bay, concave or convex verandah roof and four panelled doors with fanlights and often sidelights.</p> <p>Edwardian housing with prominent strapped gables and detailing, tall brick chimneys, verandahs incorporated under the main pitch of the roof verandahs with a convex (or bullnose) profile.</p> <p>Inter-War housing consisting of bungalows incorporating a broad spreading roof and verandah with typical masonry columns supporting verandah elements and the expansive two storey version was often known as a Gentlemen's Bungalow; and Tudor Revival style displaying steeply pitched roofs with half-timber gable ends and variations of the verandah porch treatments.</p> <p>Continuous built form edge in an historic streetscape.</p> <p>Verandahs or balconies over footpaths are not characteristic to the area, other than on existing non-residential corner buildings.</p> <p><u>Gover Street</u></p> <p>Victorian and Edwardian housing.</p> <p>Detached, semi-detached dwellings and residential flat buildings.</p> <p>Consistent building set-back from the street of Heritage places.</p> <p>Appearance of detached or semi-detached dwellings or residential flat buildings on southern side.</p> <p><u>Tynte Street</u></p> <p>Victorian, Edwardian and Inter-war housing. Non-residential buildings larger in scale and frontage.</p> <p>Mix of dwellings characterised by more generous landscaped grounds and deeper setbacks east of Margaret Street.</p> <p>West of Margaret Street, a mixture of dwellings up to two storeys set close to the street frontage.</p> <p>Two storey buildings built to the street adjacent the Tynte and Margarate Streets intersection.</p> <p><u>Archer Street</u></p> <p>Victorian terrace housing, Victorian institutional buildings, a former traditional corner hotel and Victorian detached houses situated close to the street frontage.</p> <p>One and two storey dwellings.</p> <p><u>Ward Street</u></p> <p>Victorian, Edwardian and Inter-war housing.</p> <p>Single-storey detached cottages.</p> <p>Individual dwellings set close to the street and a cohesive built form character with sympathetic interpretation of traditional residential forms.</p> <p><u>Ralston Street</u></p> <p>Victorian single-storey semi-detached dwellings.</p> <p>Edwardian historic houses of brick construction to the eastern side of the street.</p> <p>Varying scale, siting and character to the western side of the street.</p> <p><u>Beviss Street</u></p> <p>Consistent sited, Victorian detached and semi-detached single-storey cottages.</p> <p><u>Curtis Street</u></p> <p>Consistent townscape of Victorian detached and semi-detached nineteenth century houses built close to the street frontage.</p> <p><u>Murray Street</u></p> <p>Victorian style row housing built in the form of closely sited semi-detached pairs.</p> <p>Consistent roof forms and verandahs contribute to the cohesive townscape.</p> <p>Almost exclusively comprised of Local Heritage Places.</p> |

North Adelaide Women's and Children's Historic Area Statement (Adel10)

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

| | |
|--|--|
| <p>Eras, themes and context</p> | <p>Traditional institutional buildings including Angus Building and Alan Campbell Building at the Women's and Children's Hospital, the Anglican Church Offices, Former dwellings at Memorial Hospital ('The Avenues' and 'Leahurst') and the Cathedral Hotel.</p> <p>North Adelaide retains strong physical evidence of the historical stages of the development of the colony, most particularly the typical 1850s to 1880s village type settlement pattern, with shops and other services. Until 1856, Kermode Street was the 'High Street' of North Adelaide.</p> |
| <p>Allotments, subdivision and built form patterns</p> | <p><u>King William Street</u></p> <p>Cohesive buildings reinforce the setback pattern established by Heritage Places.</p> <p><u>Sir Edwin Smith Drive (South of Kermode) and Pennington Terrace.</u></p> <p>Buildings reinforce the setback pattern established by Heritage Places.</p> <p><u>Kermode Street</u></p> <p>Buildings that reinforce one of the first local main streets of North Adelaide.</p> |

| Statement# | Statement | |
|------------|---|--|
| Adel10 | Architectural styles, detailing and built form features | Traditional institutional architecture, including State Heritage Places. |
| | Building height | Low scale Heritage Places on King William Street, Sir Edwin Smith Drive (South of Kermode) and Pennington Terrace. Buildings enable the visual prominence of the St Peter's Anglican Cathedral to be seen from the Adelaide Park Lands (Park 11, Park 12, and Park 25). |
| | Materials | Traditional materials reflecting the architectural styles of the Heritage Places. Cast iron fence and stone walling along Sir Edwin Smith Avenue and Pennington Terrace |
| | Fencing | Low, open front fencing (including secondary streets to the main façade of the building) associated with the traditional period and style of the building up to 1.2 metres, allowing views to the building. Rear and side boundary fences (behind main building façade) to 2 metres, and 1.8 metres on corner sites. |
| | Setting, landscaping, streetscape and public realm features | St Peter's Cathedral, dating from 1869, is a major landmark and visually dominates this area which is characterised by large institutional buildings. High degree of pedestrian amenity and shelter provided by street trees and on-site landscaping. Visually interesting streetscapes. <u>High quality urban realm that supports cultural and community services within the locality. Landscaping and open space breaks up building mass and provides amenity.</u> Pedestrian comfort is supported by a high quality public realm and limited vehicle access from King William Road and Sir Edwin Smith Drive and Kermode Street. Park Land frontages including to the Cross of Sacrifice, Brougham Gardens and Peace Park. |

| <p>North Adelaide Stanley Historic Area Statement (Adel11)</p> | |
| <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> | |
| <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> | |
| <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | |
| <p>Eras, themes and context</p> | <p>Low density residential with a distinctive and cohesive character derived from large nineteenth and early twentieth century dwellings and other low density detached and semi-detached dwellings in a variety of forms and styles. Brougham Place Uniting Church has visual prominence.</p> |
| <p>Allotments, subdivision and built form patterns</p> | <p>Built form edge to Brougham Gardens and the Park Lands along Brougham Place. <u>Stanley Street (southern side) and Brougham Place (where it is a visual continuation of Stanley Street)</u> Close subdivision pattern west of New Street. <u>Kingston Terrace</u> Consistent setbacks established by Heritage Places.</p> |
| <p>Architectural styles, detailing and built form features</p> | <p>Victorian housing that is single fronted, symmetrically fronted, and asymmetrically fronted houses, some with bay fronted projections; contains vertically proportioned window and door surrounds highlighted with moulded render or brick dressings with roofs that are generally hipped in form, with the asymmetrical style, gable ended or hipped roof to the projecting bay, concave or convex form verandah roof and four panelled doors with fanlights and often sidelights. Edwardian housing with prominent strapped gables and detailing, tall brick chimneys, verandahs incorporated under the main pitch of the roof verandahs with a convex (or bullnose) profile. Georgian Revival housing displays symmetrical elevation with rendered or brick walls, fanlight above central entrance door, hipped roof form and generally classically derived proportions and details. This style had no verandah but often displayed an entrance portico. Large nineteenth and early twentieth century dwellings comprising more substantial Victorian, Edwardian and 1920s</p> |

| Statement# | Statement | |
|------------|-----------------|--|
| | | <p>Georgian Revival villas, and other low density detached and semi-detached dwellings in a variety of forms and styles.</p> <p>Buildings on Stanley Street, Kingston Terrace and Brougham Place are defined by the landfall and escarpment. Development takes advantage of the landfall by providing semi-basement floors.</p> <p><u>Kingston Terrace</u></p> <p>Victorian and Inter-war housing.</p> <p>Large one and two storey detached residences on individual allotments set close to the street with a Park Lands frontage.</p> <p>Towards Lefevre Terrace: Imposing rear elevations of two storey mansions with frontages to Stanley Street.</p> <p>Modelled and articulated, constructed of masonry, with a high proportion of solid to void in the composition of facades and often feature verandahs and balconies.</p> <p><u>Stanley Street (northern side)</u></p> <p>Victorian, Edwardian and Inter-war.</p> <p>Two large mansions set well back from the northern frontage on elevated ground above Stanley Street and large detached and semi-detached residences.</p> <p><u>Stanley Street (southern side) and Brougham Place (where it is a visual continuation of Stanley Street)</u></p> <p>Victorian, Edwardian and Inter-war.</p> <p>Two-storey residences on the southern frontage presenting a single-storey appearance to Stanley Street and Brougham Place due to sloping topography.</p> <p>Consistent set-back of stone Victorian villas typified by rich detailing and cast-iron ornamentation west of New Street.</p> <p>Detached or semi-detached dwellings presenting as single storey to the street frontage.</p> <p><u>Brougham Place (western boundary)</u></p> <p>Imposing and finely detailed Brougham Place Uniting Church with its dominant central tower.</p> <p>Low scaled St Ann's College buildings which step down the Brougham Place frontage reflecting the topography of the locality.</p> |
| Adel11 | Building height | <p>Low scale dwellings and buildings that enable views of the City from Stanley Street and Brougham Place.</p> <p><u>Stanley Street (southern side) and Brougham Place (where it is a visual continuation of Stanley Street)</u></p> <p>Single storey to the street frontage.</p> |
| | Materials | <p><u>Stanley Street (southern side) and Brougham Place (where it is a visual continuation of Stanley Street)</u></p> <p>Stone with rich detailing and cast iron west of New Street.</p> <p><u>Victorian Houses</u></p> <p>Bluestone, limestone or sandstone, with brick or rubble side and rear walls.</p> <p>Timber framed windows and doors.</p> <p>Cast iron or timber posts to the verandahs elaborated with moulded capitals and trim, and widely used cast iron brackets and frieze decoration.</p> <p>Masonry base and piers with cast iron panels or railings, timber railing, timber picket fencing for smaller houses.</p> <p><u>Edwardian Houses</u></p> <p>Face brick walling with decorative brick detailing, ashlar stone with brick dressings or moulded render or 'rock face' sandstone (or freestone) for wall material.</p> |

| Statement# | Statement | |
|--|-----------|---|
| | | <p>Unglazed terracotta Marseilles roof tiles, corrugated iron roof cladding.</p> <p>Timber framed windows and doors. Windows often grouped and doors often divided into three or four horizontal panels.</p> <p>Masonry fencing with cast or wrought iron palisade, or timber.</p> <p><u>Georgian Revival Houses</u></p> <p>The Georgian Revival style displays symmetrical elevation with rendered or brick walls, fanlight above central entrance door, hipped roof form and generally classically derived proportions and details. This style had no verandah but often displayed an entrance portico.</p> <p>Masonry fencing (brick and /or dressed stone or rendered) and may include cast or wrought iron palisade and gates.</p> |
| Fencing | | <p>Low, open front fencing (including secondary streets to the main façade of the building) associated with the traditional period and style of the building up to 1.2 metres, allowing views to the building. Rear and side boundary fences (behind main building façade) to 2 metres, and 1.8 metres on corner sites.</p> <p><u>Stanley Street (southern side) and Brougham Place (where it is a visual continuation of Stanley Street).</u></p> <p>Stone and cast iron ornamental boundary fencing along street frontage west of New Street.</p> |
| Setting, landscaping, streetscape and public realm features | | <p>Views of the City from Stanley Street and Brougham Place.</p> <p>Landscape qualities of public and private open space.</p> <p>Vistas to the Park Lands, Brougham Place and the eastern end of Stanley Street.</p> <p>Street trees, avenue planting and other landscaping and a high standard of paving to the public realm.</p> <p>Landmark significance of the Brougham Place Uniting Church.</p> <p>The topography is characterised by the North Adelaide scarp, a steep rise from Melbourne Street to Stanley Street, below which the area is relatively flat, towards the River Torrens. The ridge of the scarp along Kingston Terrace/Stanley Street and the frontages to the Park Lands provided for prestigious residential addresses. The higher concentration of small cottages in the lower section below the scarp reflects the early subdivision of these Town Acres into estates providing workers housing following the establishment of local manufacturing industries such as the Lion Brewery. The creation of the road through Brougham Place in the 1860s and the introduction of horse drawn trams along Melbourne Street in 1878 gave this section of North Adelaide closer links with the rest of the City and made the area an attractive location for workers to live.</p> <p>Vehicle access is via minor streets, side and rear lanes. Vehicle access points have been designed and located to maintain historic kerbing and trees.</p> |

North Adelaide Finnis Historic Area Statement (Adel13)

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

| | |
|---|---|
| Eras, themes and context | <p>Low scale residential character.</p> <p>Victorian Houses (1870s to 1890s) on Finnis Street.</p> <p>Victorian Houses (1870s to 1890s) and Post War Dickson Platten buildings date from 1968 - 71 (Kathleen Lumley College) on MacKinnon Parade. Victorian (1870s to 1890s) and Edwardian houses (1900 to 1920s) on Brougham Place.</p> |
| Allotments, subdivision and built form patterns | <p>Distinctive built form edge between the Park Lands and Lower North Adelaide.</p> <p>Buildings reinforce the setback pattern established by Heritage Places.</p> |
| Architectural styles, detailing and built form features | <p><u>Victorian Dwellings</u></p> <p>Single or two storey houses built in a variety of sizes and scale.</p> <p>Single fronted, symmetrically fronted, and asymmetrically fronted houses, some with bay fronted projections.</p> <p>Vertically proportioned window and door surrounds highlighted with moulded render or brick dressings.</p> <p>Roofs generally hipped in form, with the asymmetrical style, gable ended or hipped roof to the projecting bay.</p> <p>Concave or convex form verandah roof.</p> <p>Four panelled doors with fanlights and often sidelights.</p> <p><u>Edwardian Houses</u></p> <p>Prominent strapped gables and detailing, tall brick chimneys, and verandahs incorporated under the main pitch of the roof.</p> <p>Verandahs with convex (or bullnose) profile.</p> <p><u>Finnis Street (north side)</u></p> <p>Victorian dwellings.</p> <p>Consistent siting and scale of the Victorian and Edwardian villas and, towards the eastern part, the terraces and cottages.</p> <p><u>Finnis Street (south side)</u></p> <p>Detached and semi-detached Victorian dwellings.</p> <p><u>Brougham Place</u></p> <p>Victorian and Edwardian dwellings.</p> <p>Large detached dwellings set within spacious landscaped open space.</p> <p><u>McKinnon Parade</u></p> <p><u>Victoria dwellings and Post war buildings.</u></p> <p>Dwellings proving a Park Land edge within landscaped open space.</p> |

| Statement# | Statement | |
|------------|---|---|
| | Building height | <p>Low scale.</p> <p><u>Finniss Street</u></p> <p>Single storey, or presenting as single storey on the southern side.</p> <p><u>MacKinnon Parade</u></p> <p>One to two storeys to the street and up to 4 storeys on the Kathleen Lumley site.</p> |
| | Materials | <p><u>Victorian Houses</u></p> <p>Bluestone, limestone or sandstone, with brick or rubble side and rear walls.</p> <p>Timber framed windows and doors.</p> <p>Cast iron or timber posts to the verandahs elaborated with moulded capitals and trim, and widely used cast iron brackets and frieze decoration.</p> <p>Masonry base and piers with cast iron panels or railings, timber railing, timber picket fencing for smaller houses.</p> <p><u>Edwardian Houses</u></p> <p>Face brick walling with decorative brick detailing, ashlar stone with brick dressings or moulded render or 'rock face' sandstone (or freestone) was used the wall material.</p> <p>Masonry fencing with cast iron palisade, or timber.</p> |
| | Fencing | <p>Low, open front fencing (including secondary streets to the main façade of the building) associated with the traditional period and style of the building up to 1.2 metres, allowing views to the building. Rear and side boundary fences (behind main building façade) to 2 metres, and 1.8 metres on corner sites.</p> |
| | Setting, landscaping, streetscape and public realm features | <p>Landscape qualities, dwellings adjacent Park Lands and the established avenue planting in Finniss Street and MacKinnon Parade. Avenue planting in Finniss Street and MacKinnon Parade.</p> <p>Park Lands.</p> <p>Prominence of the British Hotel with its fine detailing and cantilevered balcony.</p> <p>Visual prominence of the State Heritage Place of Kathleen Lumley College.</p> <p>Visual prominence to Brougham Place Uniting Church.</p> <p>Vehicle access is via minor streets, side and rear lanes. Vehicle access points have been designed and located to maintain historic kerbing and trees.</p> |

Historic Areas Affecting Adelaide Hills Council

| Mylor Historic Area Statement (AdHi1) | | |
|---|--|--|
| <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | | |
| Eras, themes and context | 1880 to late 1890s. Commercial centre. Workingmen's Block movement. | |
| Allotments, subdivision and built form patterns | Uniform rectangular allotments fronting the main street. Large site areas. Large street frontages. Varying front setbacks (residential development has generous setbacks with commercial/retail development located closer to the front boundary to address the main street). Varying side setbacks, with limited boundary development. | |
| Architectural styles, detailing and built form features | 1890s commercial buildings interspersed with a variety of civic and residential buildings. | |
| Building height | Generally small scale, single storey construction with the exception of the larger public buildings such as the Uniting Church and the former Institute building. | |
| Materials | Consistent with the materials associated with the architectural styles of the subject building and streetscape. Random coursed and rubble stone. Rendered stone. Brick and rendered quoins. Hipped and gabled roofs. Raked and bullnose verandahs supported with timber posts and masonry pillars. Corrugated iron roofs. External finishes non-reflective incorporating a natural autumnal palate. | |
| Fencing | Front fences of pickets, post and wire and masonry (exposed or rendered brickwork or stonework) often obscured by hedges or other plantings, to a height of 1200 millimetres. | |
| Setting, landscaping, streetscape and public realm features | <p>Rustic character. The township is enclosed on three sides by highly valued remnant vegetation within the Mylor Parklands. Leslie Creek and Aldgate Creek meander through the township before joining up with the Onkaparinga River to the south. The main entrance to Mylor from the north is marked by bridge crossings over Leslie and Aldgate Creeks, the war memorial and views to an avenue of deciduous trees which define the centre of the township. Views of the historic building within the primary school.</p> <p>Other important views along Strathalbyn Road include the heritage buildings containing the general store and rural supplies establishment which defines the southern entry to the township. Wide landscaped verge that incorporates an avenue of trees along Strathalbyn road accentuates the historic built form.</p> <p>Vehicular access at the rear of allotments fronting Strathalbyn Road.</p> | |
| Representative Buildings | [Not identified] | |

| Stirling - Ayres Hill Road Historic Area Statement (AdHi2) | | |
|---|---|--|
| <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | | |
| Eras, themes and context | Mid to late 1880s residential. | |
| Allotments, subdivision and built form patterns | Large blocks of land. Larger houses on large, well vegetated grounds. Dwellings set well back from the street boundary. Smaller subordinate buildings located closer to the street boundary. | |
| Architectural styles, detailing and built form features | The architectural style of the buildings varies with their date of construction. | |
| Building height | Building height to 9 metres. Original scale of buildings. | |
| Materials | Consistent with the materials associated with the architectural style of the subject building. Random, coursed and dressed stone. Rendered stone. Brick, stone and rendered quoins. String courses. Hipped and gabled roofs. Dormer windows. Raked verandahs supported with timber posts and masonry pillars. Corrugated iron roofs. Decorative cast iron features. Brick and stone chimneys. | |

| Statement# | Statement |
|---|---|
| | Stone Porticos. Decorative and ornate timber bargeboards. External finishes non-reflective and utilise natural colours. |
| Fencing | Front fencing of pickets, post and wire and masonry (exposed or rendered brickwork or stonework) often obscured by hedges or other plantings, with varying heights to between 1200-1800 millimetres. |
| Setting, landscaping, streetscape and public realm features | <p>'Secluded' nature of houses, in most cases set well back on their blocks, hidden behind the gardens and hedges.</p> <p>Streetscape is dominated by tree plantings and fencing behind which can be seen the larger trees and shrubs of the gardens. The lower section of the road (from Laurel Road to the roundabout near St Catherine's) is winding and bordered by hedges and trees. The upper portion of the road is straight and reveals a wider footpath margin than the lower section, adding to the feeling of privacy of the houses.</p> <p>Wide footpath verges which are of a rustic nature.</p> <p>Row and avenue plantings of exotic trees in the road verges.</p> |

Strathalbyn Centre - Township Main Street and Community Facilities Historic Area Statement (Alex2)

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

| | |
|--------------------------|---|
| Eras, themes and context | <p>1860s - 1910s settlement period. Residential, small commercial, institutional and civic buildings.</p> <p>Dawson (Commercial Road / Dawson Street, Catherine Street, Rankine Street, South Terrace, Donald Terrace, Albyn Terrace)</p> |
|--------------------------|---|

| Statement# | Statement | |
|------------|---|---|
| Alex2 | | <p>The River Angas and the associated Soldiers Memorial Gardens is a key element within this area, reflecting the rising civic consciousness of the residents of Strathalbyn as the town prospered through the 1870's-90's. Dawson Street and Albyn Terrace contain many notable early examples of commercial buildings which reflect the enterprise and success of these residents.</p> <p><u>High Street (High Street, Grey Street, Swale Street, Sunter Street, Alfred Place)</u></p> <p>An historic predominantly commercial area with buildings ranging from early settlement, through a period of expansion in the late 1860's to about 1910.</p> |
| | Allotments, subdivision and built form patterns | <p><u>Dawson</u></p> <p>Large, rectangular allotments with large frontage. No front setback to commercial properties. Typically small front setback to residential properties. Buildings parallel to street. Minimal side setbacks often with no driveways or vehicle access.</p> <p><u>High Street</u></p> <p>Large, rectangular allotments with large frontage. No front setback to commercial properties. Typically minimal to no front setback to residential properties. Buildings parallel to street. Minimal side setbacks often with no driveways or vehicle access.</p> |
| | Architectural styles, detailing and built form features | <p>High solid to void (window & door opening) ratio.</p> <p>Commercial properties typically parapeted or hipped and gabled with verandahs overhanging footpaths.</p> <p>Residential properties simple double fronted early settler residences and homesteads hipped and gabled roofs of 27-35 degrees pitch with separate verandah.</p> <p>Carports and garages generally to the rear of allotments and not attached to dwellings.</p> |
| | Building height | Commercial and residential single storey with external wall heights 3.8-4.1m and ceilings of at least 3m. Two storey grand, civic or historic commercial activities. |
| | Materials | Sandstone and limestone with red brick quoins predominantly. Corrugated (mostly galvanised) roofing. Institutional and grand civic buildings rendered quoins and features. Distinct absence of contemporary materials. |
| | Fencing | Timber post and rail (local variation diamond style), timber post and cyclone mesh up to 1.2m in height at front and 1.8m on side boundaries. Pickets to verandahs at street line. |
| | Setting, landscaping, streetscape and public realm features | Rural open streetscape character. Some early stone and terracotta kerbing remain. Traditional street tree planting such as Ash trees. Wide streets in original layout connecting to traditional parks/gardens reinforcing rural character and scenic views. Limited use of signage, where present it incorporates simple fonts consistent with the era with no internal illumination. |

| Baro3 | Bethany Historic Area Statement (Baro3) | |
|-------|---|---|
| | <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> | |
| | <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> | |
| | <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | |
| | Eras, themes and context | Established in 1842 - one of the earliest substantial German settlements in the Barossa. |
| | Allotments, subdivision and built form patterns | Subdivided according to the hufendorf principle of long strips. Houses built close to the road with long narrow allotments stretching out behind, together with significant timber structures, particularly farm buildings either close to the road or behind the farm houses. |
| | Architectural styles, detailing and built form features | Early houses dating from the 1850s and the 1860s, many of which retain layouts and construction techniques clearly indicating their German origin. |
| | Building height | <i>[Not stated]</i> |
| | Materials | <i>[Not stated]</i> |
| | Fencing | <i>[Not stated]</i> |
| | Setting, landscaping, streetscape and public realm features | <p>The Herberge Christi Lutheran Church and the cemetery in the eastern end of the settlement form a dominant element.</p> <p>Vegetation and landscaping located within the public realm and mature street tree plantings lining the road, together with the mature gardens associated with the early dwellings. The Tanunda Creek, the Bethany Reserve and the creek crossing at Bethany Road are also important to the character of the settlement.</p> |
| | Representative Buildings | Identified - refer to SA planning database. |

| Baro4 | Krondorf Historic Area Statement (Baro4) | |
|-------|---|---|
| | <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> | |
| | <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> | |
| | <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | |
| | Eras, themes and context | Established in 1847. First plan of division 1877. |
| | Allotments, subdivision and built form patterns | Division of land undertaken to the hufendorf arrangement. Linear nature. |
| | Architectural styles, detailing and built form features | Early farm complexes and buildings indicative of its early date of settlement. |
| | Building height | <i>[Not stated]</i> |
| | Materials | Pioneer building techniques and specifically German traditions in construction. Significant stone and timber structures, particularly farm sheds. |
| | Fencing | <i>[Not stated]</i> |
| | Setting, landscaping, streetscape and public realm features | Buildings close to the road alignment. Zum Kripplein Christi Church ("Manger of Christ") forms a dominant building in the middle of the settlement. |
| | Representative Buildings | Identified - refer to SA planning database. |

Historic Areas affecting City of Burnside

| | | |
|---------|---|--|
| Bur1 | Rose Park Historic Area Statement (Bur1) | |
| | <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | |
| | Eras, themes and context | 1880 - 1917 Victorian and Federation. 1918 - 1940 Post WW1. |
| | Allotments, subdivision and built form patterns | Traditional rectangular grid pattern. Generally large site areas. Generally large street frontage widths large. Large front of dwelling setback. Vehicular access from rear lanes of many dwellings. |
| | Architectural styles, detailing and built form features | Late 19th Century and early 20th Century dwellings with forms, scale and detailing reflective of the era Villas and cottages in bluestone, freestone and/or brick. Many substantial dwellings as well as some more modest, unornamented dwellings . Brick quoinwork common. Hip and gable roof forms with pitches above 25 degrees. Various porch and verandah styles including return verandahs ranging from modest to generous proportions either projecting or as a continuation of the main roof structure. Garages and carports are located behind the main façade of dwellings. Visible chimneys. |
| | Building height | Predominantly single storey. Upper storey elements are integrated sympathetically into the dwelling design and generally not visible from street. |
| | Materials | Wall materials consistent with era of original construction including bluestone, freestone, sandstone and brickwork. Pitched roofs in galvanised iron sheet or terracotta tiles. Some original slate tiles. Retention of original materials and finishes and unpainted masonry. |
| Fencing | Typical of the era of historic development. Low and/or open fencing forward of the main building façade. Maximum height to 1.2m. Timber picket or dowelling. Masonry and cast iron palisade. Some substantial hedging. | |

| Statement# | Statement | |
|------------|---|---|
| | Setting, landscaping, streetscape and public realm features | Substantial avenues, trees and gardens. Significant front landscaped gardens. Modest verges containing single line of streets trees. Double row of mature trees planted along Alexandra Avenue and Prescott Terrace as a war memorial. Area includes school, churches, mews cottages and other community facilities. |
| | Representative Buildings | Identified - refer to SA planning database. |

| Fencing | | Low front fencing, typically picket fencing and low masonry walls or combination thereof. |
| Setting, landscaping, streetscape and public realm features | | Small to some generous variable setbacks from the street. Some dwellings parallel with angled side boundaries. |
| Representative Buildings | | Identified - refer to SA planning database. |

| Brompton Park Historic Area Statement (ChSt3) | | |
|--|--|---|
| The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. | | |
| These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. | | |
| The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table. | | |
| Eras, themes and context | | 1870s to 1890s. Victorian era. |
| Allotments, subdivision and built form patterns | | Very narrow, long allotments. |
| Architectural styles, detailing and built form features | | Single storey, detached and attached, single and double fronted workers' cottages. Typically, small span steeply pitched gable and hipped 'M' roofs facing the street with ridge perpendicular or parallel to the street. Separate verandah to higher front wall or parapet. |
| Building height | | Single storey with ceiling heights at least 3m. |
| Materials | | Bluestone and sandstone front walls, and red brick sidewalls. Render to verandah piers, banding and parapets. Corrugated steel roofing in galvanised or paint finish. OG guttering in galvanised or paint finish. Painted timber to window frames, doors and roof trim. Chimneys; brick or painted render. |
| Fencing | | Low front fencing, typically picket fencing and low masonry walls or combination thereof. |
| Setting, landscaping, streetscape and public realm features | | Small setbacks from the street. Narrow streets with minimal on-site car parking. Original shopfronts and hotels to street corners. Some industrial buildings constructed to street frontages. |
| Representative Buildings | | Identified - refer to SA planning database. |

| Blight Street, Ridleyton Historic Area Statement (ChSt4) | | |
|--|--|--|
| The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. | | |
| These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. | | |
| The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table. | | |
| Eras, themes and context | | From 1939. Early SA Housing Trust. |
| Allotments, subdivision and built form patterns | | Regular rectangular allotments with generous frontage and depth, central shared boundary and small side boundary setbacks. |

| Statement# | Statement | |
|--------------------------|---|--|
| ChSt4 | | driveways. |
| | Architectural styles, detailing and built form features | Single storey, 'early modern' style, typically semi-detached (duplex). Symmetrical frontage to duplex. Variable pattern of duplexes in street. Vertical proportions to windows. Hipped and gabled roofs, with porch a continuation of main roof or separate and awnings over front door and windows. Some projecting hipped roofs. Shallow roof pitch of 20 degrees maximum. |
| | Building height | Single storey with ceiling heights around 2.7m - 3m. |
| | Materials | Red brick, protruding courses, painted and rendered sections, generally ay high level to walls. Corrugated steel and tiled roofing. Porches either corrugated steel or curved flat concrete canopies. Timber framed sunshade awnings with corrugated iron sheet roof. Red brick chimneys. Painted timber framed window frames, doors and roof trim. |
| | Fencing | Low open cyclone wire fencing or low tubular steel fencing. |
| | Setting, landscaping, streetscape and public realm features | Medium to large front setbacks. Generous setting to each side of duplex. |
| Representative Buildings | Identified - refer to SA planning database. | |

| ChSt5 | Bell Street, Pennington Historic Area Statement (ChSt5) | |
| | The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. | |
| | These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. | |
| | The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table. | |
| | Eras, themes and context | From 1938. Early SA Housing Trust. |
| | Allotments, subdivision and built form patterns | Layout reflects 'Garden Suburb' design concept, generally with shared central boundary and side boundary setbacks for driveways. Strong urban focal points in Sinclair Square and Tulloch Avenue. Regular rectangular allotments with generous frontage and depth central shared boundary and side boundary setbacks for driveways. |
| Architectural styles, detailing and built form features | Austere, with late modern style, typically semi-detached (duplex). Symmetrical frontage to duplex. Variable pattern of duplexes in street. Vertical proportions to windows. Hipped and gable roof forms with porches continuous to main roof and separate awnings over windows. Some projecting hipped roofs. Shallow roof pitch of 20 degrees maximum. | |
| Building height | Single storey with ceiling heights around 2.7m - 3m. | |
| Materials | Red brick walls with protruding courses, painted and rendered sections, generally at high level to walls. Corrugated steel roofing and terracotta tile roofing (Bell Street). Porches either corrugated steel or curved flat concrete canopies. Timber framed sunshade awnings with corrugated iron sheet roof. Red brick chimneys. Painted timber framed window frames, doors and roof trim. | |

| Statement# | Statement | |
|------------|---|---|
| | Fencing | Low open cyclone wire fencing or low tubular steel fencing. |
| | Setting, landscaping, streetscape and public realm features | Medium to large front setbacks. Generous setting to each side of duplex. |

| ChSt6 | Croydon / West Croydon (North east of the railway line) Historic Area Statement (ChSt6) | |
| | <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | |
| | Eras, themes and context | 1890s - 1910s. 1910s - 1940s (west of Brown Street, north of Herbert Road). |
| | Allotments, subdivision and built form patterns | Very regular, consistent and long, rectangular allotments, with generous widths. Some combined shops and dwelling buildings to Rosetta and Elizabeth Street. Generous allotments facing Railway line. |
| | Architectural styles, detailing and built form features | Detached dwellings on generous allotments. Edwardian to early Federation. Post-Edwardian villas along Day Terrace. Early bungalow styles, including some Queen Anne, Tudor and Art Deco styles in latter period areas. A number of more substantial buildings, particularly fronting the railway line. Combined shop/dwellings and rows of shops (Elizabeth Street, Rosetta Street). Hipped, gable and Dutch-gable (gambrel) roofs, 'M' roofs with ridge parallel to street and separate verandahs. Some verandahs continuous with main roof line. Typical bungalow verandahs as low height gable frontage. Generous roof planes and eaves overhangs to bungalows. |
| | Building height | Single storey with generous ceiling and external wall heights of at least 3m. |
| | Materials | Bluestone, sandstone and redbrick, quoins and window surrounds. Red brick and rendered chimneys. Bungalows have rendered or brick piers and low walling to verandahs with some tapered piers. Corrugated steel and terracotta (latter period) roofing. Painted timber window frames, doors and roof trim. Vertical proportioned timber windows with double sliding sashes. Some elaborate decorative elements including painted timber fretwork, cast iron lacework to verandahs, finials, cover battens to gables and decorative barges. |
| | Fencing | Woven wire fences with painted timber posts. Painted timber picket fencing reflecting era of associated dwelling. Low masonry fencing with simple masonry piers, sometimes with simple iron and steel infill panels (from hume iron to tubular steel variations). |
| | Setting, landscaping, streetscape and public realm features | Medium to large front setbacks, typically set in mature gardens Typically tree lined streets particularly Day Terrace with railway line in treed setting. Generous side setbacks. |
| Representative Buildings | Identified - refer to SA planning database. | |

| | | |

| ChSt8 | <p>Allenby Gardens Historic Area Statement (ChSt8)</p> | |
| | <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> | |
| | <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> | |
| | <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | |
| | Eras, themes and context | 1920s - 1930s. |
| | Allotments, subdivision and built form patterns | Very regular and consistent rectangular allotments, with large widths. Some angular allotments due to street pattern and subdivision layout between main roads abounding area. |
| Architectural styles, detailing and built form features | Late Edwardian, Federation and bungalow styles. Smaller number of Queen Anne and Tudor style houses. Mainly detached housing. Hipped, gable and Dutch gable roofs with decorative gable panelling and timber trim. Ridge lines that are mainly perpendicular or parallel to street frontage. Federation verandahs continuous with main roof. Some projecting gable forms to street. Low height bungalow style gables. | |
| Building height | Single storey with ceiling heights at least 3m. | |

| Statement# | Statement | |
|------------|---|--|
| | Materials | Terracotta tiles and corrugated steel roofing. Red brick and sandstone walls; some render. Red brick and render chimney. |
| | Fencing | Typically, low masonry fencing, sometimes with steel inserts. Woven wire fences with painted timber posts. Painted timber picket fencing reflecting era of associated dwelling. |
| | Setting, landscaping, streetscape and public realm features | Cohesive pattern of established detached dwellings with garden settings Medium front setbacks. Tree lined streets. Coombe Road is the natural focus of the area, and includes a school complex of a similar period to surrounding housing. |
| | Representative Buildings | Identified - refer to SA planning database. |

| ChSt9 | Pre-World War One Pennington West Historic Area Statement (ChSt9) | |
| | The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. | |
| | These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. | |
| | The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table. | |
| | Eras, themes and context | 1900s to 1920s, some 1940s/50s eastern side. Edwardian/Federation/early Bungalow. |
| | Allotments, subdivision and built form patterns | Uniform allotment size and street layout. Typically large frontages with deep allotments. |
| | Architectural styles, detailing and built form features | Edwardian, Federation and early bungalows. Predominantly detached. Typical symmetrical frontage with return verandahs on corner allotments. Vertical proportion windows to earlier housing with typical wider and lower bungalow proportion windows. Steeply pitched Hipped, gable and Dutch gable (gambrel). Some 'M' Roof with ridge parallel to street. Some verandahs continuous with main roof. Some detached verandahs with typically bullnose profile. Generous simple roof planes to bungalow style with less steep roof. Low height wide bungalow verandahs. |
| | Building height | Single storey with ceiling heights and external walls to at least 3.5m. |
| | Materials | Red brick, sandstone and render walling. Render or brick chimneys. Some pressed metal wall cladding on the fronts. Some corrugated iron or small fluted iron cladding on the side walls. Terracotta tile and corrugated iron roofing and verandahs. Painted timber window frames, doors and roof trim. Ornate cast iron to verandahs. Turned painted timber verandah posts. |
| | Fencing | Typically, low masonry, timber picket or wire mesh with timber post fencing. Woven wire fences with painted timber posts. Painted timber picket fencing reflecting era of associated dwelling. Low small fluted metal fencing with painted timber trim. |
| Setting, landscaping, streetscape and public realm features | Medium to large front setbacks. Helen Street with Mt Carmel School as strong focal point. | |
| Representative Buildings | Identified - refer to SA planning database. | |

| Woodville South Historic Area Statement (ChSt12) | |
|--|---|
| The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. | |
| These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. | |
| The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table. | |
| Eras, themes and context | 1910s to 1940s. |
| Allotments, subdivision and built form patterns | Substantial allotments with uniformity of layout and buildings, particularly in the 'Glen' Streets and Angus Street. Predominantly large frontages. |
| Architectural styles, detailing and built form features | Predominantly bungalows with one wide verandah and Tudors with two main gables and central porch. Some Spanish Mission, Dutch Gable and Art Deco houses. Predominantly detached. Steep pitched gables associated with Tudor housing and Dutch Gables. Some villa/bungalow hybrid gables. Gable porches. Bungalow style verandahs with low height pitching point. Some verandah roofs continuous with main roof (bungalow and Spanish Mission). Some flat roofed verandahs set behind arched parapet verandah (Spanish Mission). Tall chimneys. |
| Building height | Single storey with ceiling heights at least 3m. Bungalow and Spanish Mission typically of lower wall appearance to the street, with broad frontage. |
| Materials | Freestone, red brick, stucco and baked or glazed brick. Exposed ornate timber work. Terracotta tiles and some galvanised corrugated iron roofs. Tapered and straight masonry piers and low walls to verandahs of bungalows, some with rendered capping to brickwork or rendered masonry. Painted timber battens (Tudor curved) to painted panel gables of Tudor and Bungalow. |

| Statement# | Statement | |
|---|-----------|---|
| | | Painted timber framed window frames, door frames and roof trim. |
| Fencing | | Fencing generally low brick, stucco or wire and mostly integral with the design of the house. Some painted timber fencing with pickets or woven wire. |
| Setting, landscaping, streetscape and public realm features | | Tree lined streets, well maintained gardens, abundant with mature vegetation. Main-focus the landscaped Woodville Oval complex. Buildings fronting Woodville Oval on Oval Avenue and Cedar Avenue are of a larger scale with wider allotments, particularly on corner allotments with 'Glen' Streets. |
| Representative Buildings | | Identified - refer to SA planning database. |

| ChSt13 | Kilkenny Historic Area Statement (ChSt13) | |
|---|---|--|
| | <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | |
| Eras, themes and context | | 1850s to 1950s. Predominant era is 1920s to 1930s in the north and 1910s to 1920s in the south. |
| Allotments, subdivision and built form patterns | | Typically regular and consistent rectangular allotments, typically very wide. Narrow allotments to Wilpena Terrace, Arkaba Road and Mundulla Street. |
| Architectural styles, detailing and built form features | | Single front cottages. Edwardian and post-Edwardian cottages in the south. Federation and bungalow houses in the north. Small group of Victorian former shops located at the southern end of Wilpena Terrace reflecting the original main street of Kilkenny. High-quality 1930s houses on large allotments at the northern end Predominantly detached and some attached housing. Semi-Detached dwellings to Wilpena Terrace west of Mundulla Street. Small scale hipped, gable and louvre roofs typically with ridge line perpendicular to the street. Some 'M' roofs with ridge line parallel to the street. Relatively steeper roof pitch. Generous Bungalow roofing with simple roof plane and generous overhangs. Some federation verandahs continuous with main roof. Some separate bullnose verandahs lower than main wall height. Some central gable to verandah with finial. |
| Building height | | Single storey with ceiling heights at least 3m. Some traditional two storey. |
| Materials | | Freestone and red brick side walls. Red brick quoins. Rendered walling, tapered piers to bungalow verandahs and parapets. Corrugated iron and terracotta tile roofs. Brick or render chimneys with some decoration. Painted timber frame windows and doors with painted timber roof trim. |
| Fencing | | Typically, low masonry sometimes with steel inserts, timber picket or wire mesh with timber post fencing. |
| Setting, landscaping, streetscape and public realm features | | Medium to large front setbacks. Shop and attached dwelling a strong characteristic in Wilpena Terrace with corner shops and verandahs over footpaths. Some dwellings and former shops constructed closer to front boundaries, especially if located on a corner allotment. |
| Representative Buildings | | Identified - refer to SA planning database. |

Grange Historic Area Statement (ChSt19)

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

Hindmarsh Place Historic Area Statement (ChSt20)

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

| | |
|---|--|
| Eras, themes and context | 1860s - 1930s. |
| Allotments, subdivision and built form patterns | Uniform small allotments interspersed with larger allotments. |
| Architectural styles, detailing and built form features | <p>Single storey attached and detached cottages, row dwellings, former fire station, former Christian Chapel, former municipal hall, former brewery, Victorian churches.</p> <p>Steeply pitched gable and hipped roofs facing the street, with various separate verandah form and saw-tooth design (former brewery).</p> |

| Statement# | Statement | |
|------------|---|--|
| ChSt20 | | Steeple and bell tower. Some parapet walling. |
| | Building height | Typically, single storey with ceiling heights at least 3m. Industrial and former church buildings with substantial ceiling and wall heights. |
| | Materials | Rendered masonry, red brick, bluestone, limestone and sandstone walls. Decorative brickwork detailing to windows and doors. Corrugated galvanised steel roofing. Painted decorative timber posts and fascia elements. |
| | Fencing | Substantial rendered masonry with brick capping, and cast iron infill fences and gates. |
| | Setting, landscaping, streetscape and public realm features | Small setbacks from the street. |
| | Representative Buildings | Identified - refer to SA planning database. |
| | | |

| ChSt21 | Hindmarsh District Centre Historic Area Statement (ChSt21) | |
|---|--|---|
| | The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. | |
| | These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. | |
| | The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table. | |
| | Eras, themes and context | 1840s to 1930s. |
| | Allotments, subdivision and built form patterns | Narrow fronted with deep allotments facing Port Road. Wider allotments to Manton and Milner Street. |
| | Architectural styles, detailing and built form features | Narrow fronted two-storey built form interspersed with some narrow fronted single storey of intimate scale. Generous verandahs over footpaths, balconies and parapets with some decorative elements including pediments. Some detached single and two storey residential buildings to Ormond Street. Occasional upper level balconies. Vertically proportioned elements with high solid to void ratio, particularly at upper levels. Substantial church buildings. Decorative parapets to street frontages and returns. Steeply pitched hipped roofs visible behind parapets, with separate, wide verandahs across frontage. Some gable forms including simple cottage form to Milner Street. |
| | Building height | Single and two-storey built form with ceiling heights that vary from 3m through to substantial church buildings. |
| | Materials | Limestone, bluestone, sandstone, face red brick walls and rendered walls. Use of brick and rendered quoins. Corrugated galvanised steel roofing. Decorative cast iron posts and balustrades. Painted timber posts and fascia elements. |
| | Fencing | Built form typically to the street with verandahs over public realm. Some rendered masonry fencing with cast iron infill. |
| Setting, landscaping, streetscape and public realm features | Historic heart of the Hindmarsh Village and the principal area for a range of retail, business, ecclesiastic and office uses. | |
| Representative Buildings | Identified - refer to SA planning database. | |

|--------------------------|--|--|
| COCO11 | The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table. | |
| | Eras, themes and context | 19 th century historic main street with a mix of civic, commercial and retail activities. |
| | Allotments, subdivision and built form patterns | Traditional grid. |
| | Architectural styles, detailing and built form features | Two-storey stone buildings exhibiting refined detailing, ornate roof elements and a high-level of craftsmanship are of particular value. Extensive glazing and double-hung doors and windows in street facing frontages of non-residential buildings. Windows emphasised by framing. Symmetrical fronted and vertically proportioned dwellings. Hipped roof forms with pitches between 30-45 degrees. Sloping verandahs overhang footpaths to the street and are connected to shops. |
| | Building height | Predominantly single storey where residential or retail. Two storeys associated with grand, civic or commercial activities (town hall, hotels). |
| | Materials | Local stone, masonry, corrugated iron roofing, stone and timber-framed windows and doors, timber verandah posts and brick chimneys. |
| | Fencing | Timber and stone fences not exceeding 1.2m. |
| | Setting, landscaping, streetscape and public realm features | Wide streets, a prominent central public square framed by significant public buildings and limited landscaping. Buildings square to and on street alignments. Minimal breaks between buildings except where access to the rear of a site is provided. Dwellings are consistently set back further from the street. |
| Representative Buildings | [Not identified] | |

Historic Areas affecting The Flinders Ranges Council

| | | |
|---|--|--|
| FLRA1 | Quorn Historic Area Statement (FIRa1) | |
| | The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. | |
| | These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. | |
| | The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table. | |
| | Eras, themes and context | Turn of the 19 th century. Civic, commercial and retail. Railway. |
| | Allotments, subdivision and built form patterns | Traditional grid. |
| | Architectural styles, detailing and built form features | Villas and double fronted cottages. Railway buildings and railway architecture. Verandahs provided over footpaths. Heritage-style signage. |
| | Building height | Single storey. Two storeys associated with grand, civic or commercial activities. |
| | Materials | Local stone, masonry and corrugated iron. |
| Fencing | Open fencing no more than 1.2m. | |
| Setting, landscaping, streetscape and public realm features | Buildings square to and on the street alignment. Buildings not on street alignment surrounded by gardens/landscaping. Minimal breaks between buildings other than where there has been an existing access to the rear of the site. Wide streets and verges, grassed median strips and tree lined streets. | |

Historic Areas affecting Town of Gawler

| | | |
|--|--|--|
| | Gawler East Historic Area Statement (Ga1) | |
| | The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. | |
| | These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. | |
| The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table. | | |
| Eras, themes and context | 1850-1940; residential and local scale retail. | |
| Allotments, subdivision and built | The Area is divided into two sections by Lyndoch Road. Large allotments with large dwellings and gardens exist along High Street and Duffield Street. Smaller allotments exist along Lyndoch Road. Traditional grid north of Lyndoch Road. Allotments typically are of consistent width and depth, rectangular in shape | |

| Statement# | Statement | |
|------------|---|--|
| Ga1 | form patterns | orthogonal to the street layout apart from some dwellings facing Lyndoch Road on the north side, which have an angled front boundary. The pattern of streets stem from orthogonal junctions with Lyndoch Road and rising ground. |
| | Architectural styles, detailing and built form features | <p>Victorian and Turn-of-the-Century Villas/Mansions. Nineteenth century double fronted symmetrical cottages; parapet end gables a feature. Bungalows with some Inter War. Roof pitches in the order of 27 degrees and 35 degrees. Stone walls and stone outbuildings.</p> <p>Steeply pitched hipped and simple gable roofs of small and large scale. Large roofs typically gambrel in form with additional central gables and villa style projecting gable. Smaller early roof forms with ridge parallel to the street. Separate, generous verandahs to the street of bullnose, straight and concave form. Some return verandahs and some central entrance gable. Some verandahs continuous with main roof. Shallower pitched bungalow roof forms with simple generous roof planes and overhangs. Wide bungalow style verandahs with masonry supports and low plinth walls.</p> |
| | Materials | Sandstone/Limestone with red brick quoins. Ornate render. Corrugated profile roofing. Vertically proportioned painted timber window frames and doors. Painted timber cover battens. Decorative brick, stone or rendered chimneys. Cast iron decoration and painted timber detailing to verandahs. |
| | Building height | <p>Single storey forms generally influenced by site topography.</p> <p>Buildings on low side of streets appear as single storey with double level to rear, particularly in north west of area.</p> <p>Buildings on high side of street appear as double storey or elevated single storey with verandahs occurring on high plinth and central access steps.</p> |
| | Fencing | Low open style fencing which includes masonry pier and plinth fence with decorative open infill. Low masonry walls up to 1.2 metres. Timber picket fences. Hedges. Stone walls on front boundaries are important features. |
| | Setting, landscaping, streetscape and public realm features | Important entrance to Gawler from east with significant north to south connecting streets such as Duffield and East. Unique angled street layout north of Lyndoch Road with Edith and Blanch Street connected by Short Street. North western edge defined by Railway Line. A portion of the west side faces Pioneer Park; some small scale mixed use to Union Street. North to south streets generally run with contours of land with high and low side. Generous front and side setbacks. Landscaped setting derived from generous gardens with substantial trees and wide tree-lined streets. Surfaces consistent with the footpaths and streets. Views to and from the area. |
| | Representative Buildings | Identified - refer to SA planning database. |

| Gawler South Historic Area Statement (Ga2) | |
|---|--|
| <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | |
| Eras, themes and context | 1860 to 1950 including bungalows and Austerity. |
| Allotments, subdivision and built form patterns | Generous allotments typically on flat land with some variations in topography towards Dead Man's Pass and river. Grid pattern intersected by Twelfth Street that shifts direction at Adelaide Road. Oblique street intersections and prominent irregular corner allotments as follows: Unique and variable Street pattern defined by Railway line, Adelaide Road, Racecourse, Gawler River and Town Centre. Eighteenth to twenty second street run east to west. First, Second and Fourth Streets run parallel with the northern Adelaide Road and join with Adelaide Road at an angle. Fifth, Seventh, Third and Sixth Streets connect to each side of Adelaide Road. Thirteenth, Fourteenth and Fifteenth Street and Eighth Streets angled to River. Smaller allotments to Ninth and Tenth Streets. Gawler Terrace defined by Dead Man's Pass. |
| Architectural styles, detailing and built form features | <p>Detached double-fronted villas. Semi-detached and row cottages. Some Federation and Bungalow style dwellings. Some Inter War and Austerity. Verandahs and parapets. Substantial stone or masonry villas surrounded by generous gardens and landscaping.</p> <p>Traditional railway structures associated with the Gawler Railway Station including workshops, stores and industrial buildings and small.</p> <p>Roof pitches in the order of 27 degrees and 35 degrees. 'M' Roof form and gambrel roof found in 13th and 14th street vicinity. Gambrel roof forms to villas. Simple, small span cottage style roofs generally evident. Parapets to cottages.</p> <p>Separate verandahs including but not limited to generous sweeping concave style. Some verandahs continuous with main roof.</p> |
| Building Height | Single storey with some elevated housing in Eighth Street and Gawler Terrace, featuring substantial setbacks and elevated verandahs. Wall heights in the order of 3.6 metres above floor level. |
| Materials | Stone and limestone walling with red brick quoins. Some bluestone. Corrugated iron roof sheeting to verandahs and roofs. Red brick or render chimneys. Ornate brick detailing to gables and gable vents. Cast iron lacework to verandahs; typically simple timber details. Painted timber window frames, doors, roof trim and modest decorative treatments such as finials. |
| Fencing | Low masonry walling. Low open style fencing which includes masonry pier and plinth fence with decorative open sections of up to 1.2 metres in total height. Painted timber picket fencing. Some woven wire fencing with painted timber posts. |
| Setting, landscaping, streetscape and public realm features | Detached dwellings on generous wide and deep allotments. Generous front and side setbacks. Some early cottages with very substantial setbacks. The strong visual axis to the Railway Station buildings provided by Nineteenth Street. Boulevard style and character of Nineteenth Street derived from buildings positioned close to and square to the road frontage and designed to directly address the street. Corner sites where the grid is interrupted accommodating prominent buildings whose built form and side elevations are of equal importance to the façade. Established gardens with substantial front and side setbacks. Wide tree lined streets particularly Eighteenth Street, which incorporates gravel verges and remnant bluestone/slate kerbing to define bitumen. Night Cart lanes alignment and widths. |
| Representative Buildings | Identified - refer to SA planning database. |

Separate verandah forms with bull nose, simple pitch and concave. | Building height | Single storey typically apart from the Willaston Hotel. Wall heights generally up to 3.5 to 4m on elevated sites. | Materials | Stone external walls with brick quoins and some ornate render detail. Painted timber supports to verandahs with modest decorated timber treatments. Stone, brick and render chimneys. | Fencing | Low to medium height masonry walling some of which are retaining walls. Some open timber picket or rural style fencing. | Setting, landscaping, streetscape and public realm features | Definition of the main street achieved through stone walling to front boundaries, verandahs close to and over front boundaries, and shop fronts. Buildings and allotments typically orthogonal to main street. Strong sense of arrival in defined separate village from Gawler achieved through rising land, road junctions, river and bridge. | | |
| | Eras, themes and context | 1848 to 1940. Early Victorian through to Bungalow style. Intimate frontage commercial and retail with early to more recent residential in prominent locations. Substantial rear stone outbuildings and stone walling sometimes sharing a central dividing wall. Changing land use from early residential buildings to commercial uses, with minimal alteration to remnant residential character. Some prominent dwellings that retain a substantial land holding and visual prominence in the overall historic streetscape and main street appearance. | | | | | | | | | | | | | | | |
| | Allotments, subdivision and built form patterns | Variable allotment sizes in a main street setting ranging from long and relatively narrow through to large. Area includes the important forked junction of Main North Road and Redbanks Road and the angled allotments that result from the road pattern. Rising ground from the Willaston Bridge northwards. The topography and physical limits of river, bridge and major road junction to the north retain the Willaston Township as a distinct and identifiable size. | | | | | | | | | | | | | | | |
| | Architectural styles, detailing and built form features | Several wide shop and row shop frontages with front verandahs over footpath. Small scale shops with parapet walling above shopfront and separate verandahs, either over footpath or close to street frontage. Large dwellings with small to generous setbacks from street frontage, with separate concave, simple monopitch and bull nose verandahs. Early symmetrical cottages, generally elevated from the street frontage with minimal to generous setbacks, parapet end walls and small span simple gable roof forms with parapet ends. Traditional stone outbuildings and remnant walling at the rear or side of sites. Variety of roof forms ranging from simple small span gable through to longer span hipped gambrel and 'M' Roofs with some villa styles. Separate verandah forms with bull nose, simple pitch and concave. | | | | | | | | | | | | | | | |

Maturin Road Historic Area Statement (HoB2)

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

| | |
|---|---|
| Eras, themes and context | 1920s or 30s. |
| Allotments, subdivision and built form patterns | <p>Original subdivision of The Olives and Bromley.</p> <p>Allotments on southwest end were subdivided in 1886 and 1912.</p> <p>Mixed allotment sizes with large frontages.</p> <p>Substantial building setbacks.</p> <p>Large front setbacks.</p> <p>Side setbacks provide visual spacing between dwellings.</p> |
| Architectural styles, detailing and built form features | <p>Typical 1890s to early 20th Century dwellings.</p> <p>Victorian dwellings.</p> <p>Inter-War dwelling styles including Bungalow, Tudor, Art Deco and Mediterranean.</p> <p>Rectilinear plan forms.</p> <p>High degree of modulation and articulation.</p> <p>Low scale.</p> <p>Steep roof pitches in the order of 30 to 40 degrees (slightly lower on Inter-War buildings).</p> |

| Statement# | Statement | |
|------------|---|--|
| HoB2 | | <p>Short roof spans.</p> <p>Hip and gable roof forms.</p> <p>Deep verandahs and porches.</p> <p>Fine-grain detail in elements such as plinths, string courses, projecting sills.</p> <p>High solid to void ratio.</p> <p>Vertical proportions in windows and doors.</p> <p>Garages, carports and outbuildings, where they exist, are low in scale and simple in form. They are located unobtrusively, to the rear of dwellings or the principal building on the site or, alternatively to the side and well-setback from the front façade.</p> |
| | Building height | Single storey and two storey (some in-roof or partly in-roof). |
| | Materials | <p>Consistent with the materials used in the 1880s to 1930s period.</p> <p>Sandstone, red brick, rendered facades.</p> <p>Corrugated iron and terracotta tiled roofing.</p> <p>Timber joinery including verandah posts and framing, fascia, barges, window frames, door frames and doors.</p> <p>Timber strapping on Inter-War dwelling gables.</p> |
| | Fencing | <p>Fencing associated with the era and style of the building, and providing views to the building.</p> <p>Timber picket, timber dowel, timber paling.</p> <p>Hedging.</p> <p>Low masonry plinth with cast iron or wrought iron in a traditional arrangement.</p> <p>Woven wire or low masonry with or without geometric steel for Inter-war buildings.</p> |
| | Setting, landscaping, streetscape and public realm features | <p>Narrow street.</p> <p>Well-established garden settings.</p> <p>Lack of street planting due to the narrow width of Maturin Road.</p> <p>The Olives is a significant State Heritage Place on Olive Street.</p> |
| | Representative Buildings | Identified - refer to SA planning database. |

| <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> | | |
| <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | | |
| Eras, themes and context | <p>1923 subdivision.</p> <p>1920s - 1930s dwellings.</p> | |
| Allotments, subdivision and built form patterns | <p>Subdivision is indicative of 1920s town planning with angled, diagonal streets centred radially around a central park or reserve.</p> <p>Garden city theory in practice.</p> <p>The pattern of the subdivision and the arrangement and size of individual allotments remains largely unaltered.</p> <p>Large allotments with large frontages.</p> <p>Consistent, large front setbacks.</p> <p>Side setbacks provide visual spacing between dwellings.</p> | |
| Architectural styles, detailing and built form features | <p>Inter-War style dwellings including Tudor Revival, Californian bungalow, Art Deco, and some Spanish mission.</p> <p>Rectilinear plan forms.</p> <p>High degree of modulation and articulation.</p> <p>Low scale.</p> <p>Steep roof pitches in the order of 25 to 35 degrees.</p> <p>Short roof spans.</p> <p>Hip and gable roof forms.</p> | |

| Statement# | Statement | |
|------------|---|--|
| HoB3 | | <p>Deep verandahs and porches.</p> <p>Fine-grain detail in elements such as plinths, string courses, projecting sills.</p> <p>High solid to void ratio.</p> <p>Vertical proportions in windows and doors.</p> <p>Garages, carports and outbuildings, where they exist, are low in scale and simple in form. They are located unobtrusively, to the rear of dwellings or the principal building on the site or, alternatively to the side and well-setback from the front façade.</p> |
| | Building height | Single storey. |
| | Materials | <p>Consistent with the materials used in the 1920s to 1930s period.</p> <p>Terracotta tiled and corrugated iron roofing.</p> <p>Brick, sandstone, and stucco and part-rendered finishes.</p> <p>Roofing, facades and fenestration in natural red brick and terracotta colouration.</p> <p>Timber joinery including fascia, barges, window frames, door frames and doors.</p> <p>Timber strapping on Inter-War dwelling gables.</p> |
| | Fencing | <p>Fencing associated with the era and style of the building, and providing views to the building.</p> <p>Woven wire.</p> <p>Low masonry with geometric steel.</p> <p>Low masonry (stepped).</p> <p>Low masonry fencing (often stepped).</p> <p>Low Rock face sandstone.</p> <p>Hedging.</p> |
| | Setting, landscaping, streetscape and public realm features | <p>Centred around Da Costa Park, with its triangular landscaped area and mature trees.</p> <p>Relatively wide streets.</p> |
| | Representative Buildings | Identified - refer to SA planning database. |

New Glenelg Historic Area Statement (HoB4)

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

| | |
|---|---|
| Eras, themes and context | <p>Subdivided in 1850.</p> <p>Buildings 1860s - 1900s and 1920s - 1930s.</p> <p>Most intense development occurred in 1870s and 1880s.</p> <p>Further development in 1920s - 1930s (Interwar period).</p> |
| Allotments, subdivision and built form patterns | <p>Varying allotment sizes and street width. Larger allotment sizes in some areas to the west along Broadway, Robert Street and South Esplanade. Smaller allotment sizes are predominant throughout the Bath Street area, and between Hastings and Moseley Streets.</p> <p>Uniform, large allotment sizes and large frontages along Penzance and Partridge Streets. Front setbacks vary from street to street across the area. Front setbacks are however consistent along individual streetscapes. Side setbacks provide visual spacing between dwellings.</p> |
| Architectural styles, detailing and built form features | <p>All domestic architectural types from the 1870s to 1880s, from the largest of seaside mansions (e.g. South Esplanade) to the humblest of workers cottages (e.g. John Street).</p> <p>Late Victorian to early 20th Century Period architecture.</p> <p>Early symmetrical and asymmetrical cottages of low scale and simple form with restrained detailing.</p> <p>Mid-Victorian Period cottages and villas (symmetrical and asymmetrical), semi-detached cottages and row dwellings with detailing typical of the era including verandahs, cast iron lacework, hipped and gable roof forms, plaster and render mouldings.</p> <p>Inter-War buildings, mostly Bungalows.</p> <p>Many dwellings without vehicle garaging.</p> <p>Garages, carports and outbuildings, where they exist, are low in scale and simple in form. They are located unobtrusively, to the rear of dwellings or the principal building on the site or, alternatively to the side and well-setback from the front façade.</p> |

| Statement# | Statement | |
|------------|---|--|
| HoB4 | | Rectilinear plan forms. High degree of modulation and articulation. Low scale. Steep roof pitches in the order of 30 to 40 degrees (slightly lower on Inter-War buildings). Short roof spans. Hip and gable roof forms. Concave, bullnose and straight-pitched verandahs. Fine-grain detail in elements such as plinths, string courses, projecting sills. High solid to void ratio. Vertical proportions in windows and doors. |
| | Building height | Predominantly single storey. |
| | Materials | Consistent with the materials used in the 1840s to 1920s period. Sandstone, bluestone and brick. Corrugated iron and tiled roofing. Timber joinery including verandah posts and framing, fascia, barges, window frames, door frames and doors. Timber strapping on Inter-War dwelling gables. |
| | Fencing | Fencing associated with the era and style of the building, and providing views to the building. Timber picket, timber dowel, timber paling. Hedging. Low masonry plinth with cast iron or wrought iron in a traditional arrangement. Woven wire or low masonry with or without geometric steel for Inter-war buildings. |
| | Setting, landscaping, streetscape and public realm features | Norfolk Island pines throughout. Mature oak street trees along Moseley Street. Vistas over the ocean to the west of the Historic Area. |
| | Representative Buildings | Identified - refer to SA planning database. |

Historic Areas affecting City of Marion

| Worthing Mine Historic Area Statement (Mar1) | | |
|---|--|--|
| <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | | |
| Eras, themes and context | 1850/51. Structures and workings associated with Worthing Mine site. | |
| Allotments, subdivision and built form patterns | Sited in the steep valley of the Field River. | |
| Architectural styles, detailing and built form features | Mine, Chimney and Pump House/Engine House associated with copper mining (oldest surviving Cornish Engine House in Australia). | |
| Building height | <i>[Not stated]</i> | |
| Materials | Random rubble with timber lintels. | |
| Fencing | <i>[Not stated]</i> | |
| Setting, landscaping, streetscape and public realm features | Sited in the steep valley of the Field River amongst undulating grassland. Recent housing development is located to the north, west and east of the site (200m plus in distance). Views to the Worthing Mine are available from parts of the adjacent residential areas. | |
| Representative Buildings | <i>[Not identified]</i> | |

Historic Areas affecting City of Mitcham

| Residential (Central Plains) Historic Area Statement (Mit1) | | |
|---|--|--|
| <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | | |
| Eras, themes and context | Early 20th century dwellings. | |
| Allotments, subdivision and built form patterns | Substantial rectangular blocks. Substantial consistently wide and deep rectangular blocks that retains the historic pattern of land division. Consistent generous spacing between dwellings. | |

| Statement# | Statement | |
|------------|---|--|
| Mit1 | Architectural styles, detailing and built form features | <p>Predominance of Queen Anne style villas and bungalow style dwellings. A number of early villas.</p> <p>Steeply pitched hipped and gable roof forms including smaller scale corner gable to return verandah villas.</p> <p>Separate typically bull nose verandah with some a continuation of the main roof form.</p> <p>Return verandahs particularly at corner allotments.</p> <p>Bungalows with slightly shallower roof pitch, simple generous roof plane facing the street with main ridge typically parallel to street.</p> <p>Wide Bungalow verandahs with tapered or upright masonry support piers and low infill walling.</p> <p>Timber framed and iron clad awnings to windows.</p> <p>Tudor roof forms generally steeper with two main projecting gables and smaller gable porch over main entrance.</p> |
| | Building height | <p>Predominately single storey with external wall height of 3-3.5 metres.</p> <p>Second storey development located within the roof space or to rear of dwellings.</p> |
| | Materials | <p>Original materials, finishes and profiles of building elements.</p> <p>External walls of sandstone, rendered masonry, face brick</p> <p>Decorative wall treatments such as rendered, or brick quoins and low plinths defined by cant brick set out.</p> <p>Painted timber cover battens to gables and roof trim.</p> <p>Painted decorative timber to verandahs and finials to gables.</p> <p>Verandahs supported on timber posts with some on painted masonry pillars.</p> <p>Roofs of corrugated galvanised iron cladding or terracotta tiles.</p> <p>Original unpainted plaster, brickwork, stonework or other masonry preserved unpainted.</p> <p>Decorated face brick or rendered masonry chimneys.</p> <p>Painted metal gutters to D or OG profile and round painted metal downpipes.</p> <p>Painted timber window frames and doors.</p> |
| | Fencing | <p>Typically fences reflect the era of the dwelling. Low masonry plinth and post, wrought iron, brush, timber woven with wire, painted timber picket. Height of 1.2m. Rear and side boundary fences located behind the front dwelling alignment 1.8m in height in corrugated profile metal.</p> |
| | Setting, landscaping, streetscape and public realm features | <p>Regularly planted tree lined verges.</p> <p>Established front gardens.</p> <p>Consistent setback of buildings.</p> |
| | Representative Buildings | <p>Identified - refer to SA planning database.</p> |

| Adey Road Historic Area Statement (Mit2) | |
|---|--|
| <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> | |
| <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> | |
| <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | |
| Eras, themes and context | <p>1879 subdivision with predominance of buildings built between 1881-1920.</p> |
| Allotments, subdivision and built form patterns | <p>Traditional pattern and scale of low density, rectangular allotments associated with the original subdivision for the purpose of detached dwellings.</p> <p>Variable width to allotments.</p> <p>East side is orthogonal to Adey Road. West side has angled side boundaries to Adey Road.</p> |
| Architectural styles, detailing and built form features | <p>Detached dwellings of simple, modest, small scale with symmetrical early stone and brick villas.</p> <p>Victorian Regency and Edwardian to smaller and later bungalows.</p> <p>Gambrel roof typically with short ridge parallel to street, with projecting gable.</p> <p>Simple 'M' Roof with ridge parallel to street.</p> <p>Federation style verandahs continuous with main roof.</p> <p>Separate verandahs attached to main wall of varying profiles.</p> <p>Some bungalow influence roof forms and verandahs with masonry support piers and low plinth wall.</p> |

| Statement# | Statement | |
|------------|---|---|
| Mit2 | Building height | <p>Predominantly single storey with external wall height of 3 - 3.5 metres.</p> <p>Second storey development located within the roof space or to rear of dwellings behind ridgeline of roof. Second storey windows with total length less than 30 percent of total roof length along each elevation.</p> |
| | Materials | <p>Original materials, finishes and profiles of building elements.</p> <p>External walls incorporating sandstone, red brick, render.</p> <p>Roof in corrugated metal cladding.</p> <p>Render with some ornate detail to window surrounds.</p> <p>Simple painted timber detail and roof trim.</p> <p>Painted timber window frames and doors.</p> <p>Simple and modestly detailed timber posts to verandah.</p> <p>Red brick or render chimneys, some tapered in height with some ornate detailing.</p> <p>Some ornate painted timber barge boards and finials.</p> <p>Most original unpainted plaster, brickwork, stonework or other masonry is preserved unpainted.</p> |
| | Fencing | <p>Low and/or open fencing, typically in the form of hedges, woven wire, timber picket or low stone walls reflecting and the traditional period, style and form of the associated building.</p> <p>Generally, no more than 1.2m in height.</p> <p>Rear and side boundary fences located behind the front dwelling alignment no more than 1.8 metres in height.</p> |
| | Setting, landscaping, streetscape and public realm features | <p>Minimal driveway widths with established front gardens dominant, including mature vegetation.</p> <p>Sense of space between buildings.</p> <p>Sloping land with minimal alteration to the land form.</p> <p>Bowling Club provides focal point and sense of Place.</p> <p>Traditional dwelling pattern located parallel to front boundaries.</p> |
| | Representative Buildings | <p><i>[Not identified]</i></p> |

| | | |
|---|---|---|
| Mit3 | <p>Belair Village Historic Area Statement (Mit3)</p> | |
| | <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> | |
| | <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> | |
| | <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | |
| | Eras, themes and context | <p>1880-1900 (built form) original township of Belair developed around the railway. Village / residential character with an evident railway theme and rural character and the development of an old township.</p> |
| Allotments, subdivision and built form patterns | <p>Historic land division pattern, demonstrating a diverse array of allotments of varying sizes and shapes resulting from the change to rural character brought about through the introduction of the railway.</p> <p>A diverse mix of residential, education and commercial buildings with a cohesive style and generous setting.</p> | |
| Architectural styles, detailing and built form features | <p>Mix of development including, churches, school, local shop, and concrete water tower. Clusters of substantial villas (4-6 rooms) with return verandahs to both sides of Sheoak Road.</p> <p>Long linear buildings constructed along the Sheoak Road ridge and generally oriented facing Sheoak Road, resulting in a variable but cohesive pattern of buildings.</p> <p>Traditional steeply pitched hipped and gabled roof forms and some projecting gables, typical of the Victorian era.</p> <p>Ridges tend to be parallel to the street.</p> <p>Separate verandahs of bullnose, straight monopitch or concave profile supported on painted timber posts.</p> | |
| Building height | <p>Predominantly single storey with generally substantial external wall height up to 3.5 metres.</p> | |
| Materials | <p>Original or otherwise complementary materials, colours and finishes, including stone, rendered masonry, face brick, corrugated iron and timber board.</p> <p>Original verandah detailing including paving, posts and decoration.</p> <p>External walls of sandstone or limestone.</p> <p>Red brick quoins.</p> | |

| Statement# | Statement |
|---|--|
| | <p>Corrugated sheet roofing in painted or galvanised finish.</p> <p>Vertically proportioned painted timber window and door frames.</p> <p>Decorative brick and rendered chimneys.</p> |
| Fencing | <p>Open rural style fencing using timber posts with draw wire.</p> <p>Hedges define property boundaries.</p> <p>Front fences and gates that reflect the traditional period, style and form of the associated building.</p> <p>Open rural style Front fences and gates that are a maximum of 1.2 metres in height to a maximum of 1.5 metres if wrought iron, brush, timber and/or wire or woven mesh style.</p> |
| Setting, landscaping, streetscape and public realm features | <p>Village character with an evident railway theme and historic Residential character.</p> <p>Historic views of open railway side in a treed setting.</p> <p>The Village area retains much of its original character and integrity, with a railway theme evident in various places of state heritage, local heritage and other buildings of historic character.</p> <p>There are many prominent intact historic buildings and features within it and the streetscapes, townscape and landscapes created by these historic features.</p> <p>Central bitumen roadway with gravel verge and no kerb or guttering Street trees to Sheoak Road.</p> <p>Gravel driveway entrances to properties.</p> |
| Representative Buildings | <p>Identified - refer to SA planning database.</p> |

Historic Areas affecting Mount Barker District Council

| Callington Historic Area Statement (MtB1) | |
|---|--|
| <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | |
| Eras, themes and context | <p>1849. Small compact historic mining township defined by the Bremer River.</p> <p>Buildings and structures predominantly dating from the 19th Century reflecting mining history.</p> |
| Allotments, subdivision and built form patterns | <p>Unique often unbuilt grid street layout.</p> <p>Regular and repeated pattern of long narrow allotments arranged to west of Bremer River.</p> |
| Architectural styles, detailing and built form features | <p>Early stone dwellings and outbuildings, shops, hotels and churches.</p> <p>Compact, intact and rustic collection of small scale, single storeyed, detached and semi-detached buildings and structures dating predominantly from the 19th century.</p> <p>Pioneer building techniques and materials typical of a former mining settlement.</p> <p>Parapet walls to end gables.</p> <p>Symmetrical frontages and separate verandas.</p> <p>Hipped and gable roof forms with ridge typically parallel to the street.</p> <p>Some simple skillion roof forms set behind a parapet.</p> <p>Barrel vaulted roofs.</p> <p>Separate verandahs with concave profile.</p> |
| Building height | External wall height varies from 3 to 4 metres. |
| Materials | <p>Stone external walls.</p> <p>Brick quoins.</p> <p>Some rendered walling.</p> <p>Corrugated profile sheet roofing often over original timber shingles.</p> <p>Painted timber window frames and doors.</p> <p>Painted timber verandah posts with some ornate decoration.</p> <p>Brick, render or stone chimneys.</p> |
| Fencing | <p>Low stone walling to front and side boundaries.</p> <p>Hardwood post and wire mesh or cyclone mesh.</p> <p>Some timber picket fencing.</p> <p>Metal posts with metal rails, wire or mesh infill varieties evident within the area.</p> |
| Setting, landscaping, streetscape and public realm features | <p>Footpaths and verges unmade Street furniture unadorned.</p> <p>Bridge entrance and rise from river provides sense of place.</p> |
| Representative Buildings | Identified - refer to SA planning database. |

Echunga Historic Area Statement (MtB4)

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

MtB4

| | |
|---|---|
| Eras, themes and context | 1849 - 1940. Commercial buildings including single storey shops, ecclesiastical, civic, former post office and hotel. Some rural structures including outbuildings. Some former shops being converted to dwelling. Single storeyed detached and semi-detached dwellings. Small cottages on large allotments. |
| Allotments, subdivision and built form patterns | Shopfronts close to footpath. Generous setbacks to north-eastern side of Adelaide Road. Consistent, deep allotments. |
| Architectural styles, detailing and built form features | Verandahs and porches up to and over footpath. Small scale, single storeyed detached and semi-detached built form of early European settlements. Structures reflecting early local production. Parapets to shop fronts. Symmetrical and asymmetric frontages. Separate verandahs. Hipped and gabled roofs. Ridge typically parallel to street for residential dwellings. Parapet ends and gable roof for shops. |
| Building height | External wall height of 3 to 4 metres for residential dwellings. |
| Materials | Stone external walls. Brick quoins. Corrugated profile roof sheeting. Painted timber window frames and doors. Painted timber verandah posts. Brick, render or stone chimneys. Fibre cement sheeting to parapets (e.g. Echunga Memorial Institute). |
| Fencing | Hardwood post and wire mesh or cyclone mesh. |

Paddys Hill, Mount Barker Historic Area Statement (MtB13)

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

| | |
|---|---|
| Eras, themes and context | 1848. Detached dwellings of early European settlements. A visual landmark of the eastern landscaped boundary of the town. Area represents religious beliefs including places of study, worship and burial in a landscaped setting. |
| Allotments, subdivision and built form patterns | Open landscape. Varying allotment sizes. |
| Architectural styles, detailing and built form features | Early stone dwellings. Single and double storeyed detached villas dating predominantly from the late 19 th and early 20 th century. Symmetrical frontages. |

| Statement# | Statement | |
|------------|---|--|
| MtB13 | | Separate verandahs or as continuation of main roof. Hipped and gable roof forms with ridge typically parallel to the street. Verandahs with bullnose, concave or monopitch form. |
| | Building height | Single storeyed dwellings external wall height varies from 3 to 4 metres. Double storeyed dwellings external wall height varies from 6 to 8 metres. |
| | Materials | Stone external walls. Brick quoins. Corrugated profile sheet roofing. Painted timber window frames and doors. Painted timber verandah posts with some ornate decoration. Brick, render or stone chimneys. |
| | Fencing | Timber post and rail. Timber posts and woven wire mesh. |
| | Setting, landscaping, streetscape and public realm features | Vegetated landscape setting. Mature eucalypts along Paddys Hill Road, Springs Road, Dutton Road, Railway Place and Daddow Road. |
| | Representative Buildings | Identified - refer to SA planning database. |

| | | |

| <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> | | |
| <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | | |
| MtB14 | Eras, themes and context | Mid to late 19th and early 20th Century. Dwellings associated with pioneer families and development of the district. Indicative of boom period from late 1880's to early 1900's. Adjacent to the Hahndorf State Heritage Area. |
| | Allotments, subdivision and built form patterns | Large detached dwellings. Substantial gardens with interspersed view to the rural hinterland Generous setbacks of building from the main road. Linear residential development along the main arterial road to Adelaide. |
| Architectural styles, detailing and built form features | Late 19 th and early 20 th century stone villas, cottages and bungalows. Some early Germanic influence buildings. Predominantly single storeyed, detached and semidetached buildings and structures. Some double storeyed buildings. Symmetrical frontages to villas and cottages. Asymmetrical frontages to bungalows and some villas. Pioneer building techniques and materials. Parapet walls to end gables. | |
| Building height | External wall heights varies from 3 to 8 metres. | |
| Materials | Stone external walls. Some brick external walls. Some rendered walling. Corrugated profile sheet roofing. Painted timber window frames and doors. | |

| Statement# | Statement | |
|---|-----------|---|
| | | Painted timber verandah posts with some ornate decoration. Brick, render or stone chimneys. |
| Fencing | | Timber picket fence. Hedging to street front. Low masonry. |
| Setting, landscaping, streetscape and public realm features | | Open landscaping indicative of traditional rural entrance to township. Mature deciduous street trees. Predominantly unmade verges and footpaths. Street furniture unadorned. |
| Representative Buildings | | <i>[Not identified]</i> |

| Pine Avenue, Hahndorf Historic Area Statement (MtB15) | | |
|--|--|--|
| The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. | | |
| These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. | | |
| The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table. | | |
| Eras, themes and context | | Interwar. Single storeyed, detached built form of Interwar developments. Structures reflect continuing prosperity of the town well into the mid-20 th century. Adjacent to the Hahndorf State Heritage Area. |
| Allotments, subdivision and built form patterns | | Long allotments typically orthogonal to the street. Substantial curtilage around existing dwellings. Generous setbacks between dwellings and to the street. |
| Architectural styles, detailing and built form features | | Late 19 th century and late 20 th century stone villas and bungalows. Intact collection of single storeyed, detached and semidetached buildings. Symmetrical and asymmetric frontages. Some sun-rooms within verandah roof. Masonry columns or half columns. Hipped and gable roof forms. Projected front gables. Separate verandahs or as a continuation of the main roof. |
| Building height | | External wall height varies from 3 to 4 metres. |
| Materials | | Dressed stone / ashlar. Brick quoins. Corrugated profile sheet roofing. Painted timber window frames and doors. Brick, render or stone chimneys. |
| Fencing | | Low masonry. Timber picket. |
| Setting, landscaping, streetscape and public realm features | | Mature deciduous street trees. Generous setbacks and street trees provide sense of second entrance into rural township. |
| Representative Buildings | | <i>[Not identified]</i> |

|---|---|--|
| <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | | |
| Eras, themes and context | Institutional and residential. Development from period of settlement up to and including the 1920s. | |
| Allotments, subdivision and built form patterns | Generally narrow roads with residential buildings exhibiting minimal street set-backs. Large allotments along Elizabeth Street and Penola Road. Allotment sizes ranging from large to small. | |
| Architectural styles, detailing and built form features | Significant institutional buildings include the Wesley Church and Hall, both of which are State heritage places, and the St Andrews Church and spire, which is a dominant element of the area. | |
| Building height | Predominantly single storey, with two storey additions within roof space to rear of buildings. | |
| Materials | Construction and materials reflecting traditional period and style. | |
| Fencing | Original fences constructed of Mount Gambier stone, dolomite, scoria, basalt or flint, limestone retaining walls. Front fences forward of the dwelling reflecting the traditional period, style and form of the associated building. | |
| Setting, landscaping, streetscape and public realm features | Significant Institutional buildings. Many residences are located at the top of the hill, taking advantage of fine views over the city to the south. | |
| Representative Buildings | Identified - refer to SA planning database. | |

| Vansittart Park Historic Area Statement (MtG5) | | |
|---|---|--|
| <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | | |
| Eras, themes and context | 1880s-1920s. | |
| Allotments, subdivision and built form patterns | Adjoining the St Andrews Historic Area, the Vansittart Park area contains uniform residential allotments on a grid pattern. There has been a small number of infill type developments in the area to date. However, the area remains predominantly dwellings on large regular shaped allotments. Generally large, consistent frontages. Predominantly large, consistent allotments. The Vansittart Park provides a sporting ground (with associated amenities) and large open garden areas. | |
| Architectural styles, detailing and built form features | Villa, federation and bungalow style dwellings. | |
| Building height | Predominantly single storey, with two storey additions within roof space to rear of buildings. | |
| Materials | Construction and materials reflecting traditional period and style. | |
| Fencing | Original fences constructed of Mount Gambier stone, dolomite, scoria, basalt or flint, limestone retaining walls. | |

| Statement# | Statement |
|---|---|
| | Front fences forward of the dwelling reflecting the traditional period, style and form of the associated building. |
| Setting, landscaping, streetscape and public realm features | Well landscaped Vansittart Park and the topography of the area adds interest. Streets are not excessively wide by comparison to other areas of Mount Gambier. |
| Representative Buildings | Identified - refer to SA planning database. |

In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> | |

| Statement# | Statement | |
|--------------------------|--|---|
| NALU1 | The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table. | |
| | Eras, themes and context | 1870s to 1890s and turn of the 20 th century. |
| | Allotments, subdivision and built form patterns | Small allotments. |
| | Architectural styles, detailing and built form features | Single- and double- fronted detached cottages (typically involving two rooms). |
| | Building height | Single storey. |
| | Materials | Local stone, fibro-sheet and weatherboard, corrugated iron and patterned sheet metal. |
| | Fencing | Open fencing predominantly wire and picket style no more than 1.2 metres. |
| | Setting, landscaping, streetscape and public realm features | Buildings positioned close to street frontages, landscaped front gardens and wide grassed verges. |
| Representative Buildings | [Not identified] | |

Historic Areas affecting City of Norwood, Payneham and St Peters

| | | |
|-------|---|---|
| NPSP1 | College Park Historic Area Statement (NPSP1) | |
| | <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | |
| | Eras, themes and context | Subdivision during the 1870s with dwellings built between 1870s and 1920s. Detached dwellings. |
| | Allotments, subdivision and built form patterns | <p>Consistent pattern of prestigious single-storey detached dwellings on very large, spacious allotments fronting wide, tree-lined streets. Very low density.</p> <p>Side and rear setbacks providing large separation distances between dwellings.</p> |
| | Architectural styles, detailing and built form features | <p>Double fronted, symmetrical and asymmetrical dwellings; East Adelaide Investment Company dwellings; Larger villas and mansions; Victorian villas; Edwardian Queen Anne and Art Nouveau.</p> <p>The double fronted, symmetrical and asymmetrical dwellings in the College Park Policy Area are an elegant larger version of the simple colonial cottage with the addition of a projecting wing (in the case of the asymmetrical dwelling), a more elaborate verandah and increased detailing in plaster and render work around openings. The pitch and size of the roof makes this an important design element. The external walls are generally constructed of bluestone or dressed and coursed sandstone. Verandahs along the front elevation are another important element of both the double fronted symmetrical and asymmetrical dwelling.</p> |
| | Building height | Single storey, two storey in some locations. |
| | Materials | <p>External walls made of bluestone or dressed and coursed sandstone. Stone, brick and rendered masonry.</p> <p>Traditional colours and materials.</p> |
| | Fencing | <p>Low, open front fencing (including secondary streets to the main façade of building) associated with the traditional period and style of the building up to 1.2m (masonry), 1.5m (wrought iron, timber and wire) and 2m (masonry pillars) in height, allowing views to dwelling.</p> <p>Timber picket, timber dowelling, masonry and cast iron palisade, or</p> <p>corrugated iron or mini orb within timber framing for cottages, villas and other dwellings built during the Victorian period; or timber picket, timber paling or woven crimped wire; or corrugated iron or mini orb within timber framing for Edwardian dwellings.</p> <p>Side and rear fences are in traditional materials, such as timber, corrugated iron or well detailed masonry. Side fences along street corners continue the detailing of the front fence to the house alignment, solid fencing beyond this point in traditional materials.</p> |
| | Setting, landscaping, streetscape and public realm features | <p>Dwellings have sizeable setbacks from all boundaries and are typically set in large landscaped grounds with front boundaries defined by fencing of various styles.</p> <p>Open landscape character to front garden, which enhances dwelling and streetscape quality.</p> <p>Wide streets lined with mature trees.</p> |
| | Representative Buildings | Identified - refer to SA planning database. |

| NPSP20 | The Avenues Historic Area Statement (NPSP20) | |
| | <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | |
| | Eras, themes and context | Late 1870s and 1900, 1900s and the 1920s, and inter-war. Detached dwellings. |
| | Allotments, subdivision and built form patterns | Historic streetscape created by the regularity of the avenues and the development patterns that have formed around them. Primary dwelling frontages to streets, not lanes. |
| | Architectural styles, detailing and built form features | Predominantly single-storey, detached, late Victorian Italianate villas of reasonably substantial proportions. Elsewhere - the consistent styles of detached late Victorian Italianate villas of reasonably substantial proportions. Double fronted asymmetrical dwellings are the most common dwelling type, although there are a range of symmetrical dwellings, East Adelaide Company dwellings and some larger villas and mansions. The double fronted symmetrical and asymmetrical dwellings are an elegant, larger version of the simple colonial cottage with the addition of a projecting wing (in the case of the asymmetrical dwelling), a more elaborate verandah and increased detailing in plaster and render work around openings. The pitch and size of the roof makes this an important design element. Verandahs along the front elevation are another important element of both the double fronted symmetrical and asymmetrical dwelling. Some Edwardian style housing (such as Queen Anne and Art Nouveau styles), generally located within the later subdivided areas or on blocks which were re-subdivided from larger allotments. Joslin portion of this Policy Area - reflects general character, some of the dwelling stock, particularly towards the Lambert Road boundary, graduates into the 1920s style of housing, introducing with it a component of inter-war housing such as bungalows. |
| | Building height | Predominantly single-storey, up to two storeys in some locations. |
| | Materials | Bluestone or sandstone dressed and coursed. |
| | Fencing | Low, open fencing that reflects the period and style of the dwellings. Front fencing (including any secondary street frontage up to the alignment to the fain face of the dwelling) generally low in height up to 1.2m (masonry), 1.5m (wrought iron, brush, timber and or wire or woven mesh) and 2m (masonry pillars), allowing views to dwelling. Timber picket, timber dowelling, masonry and cast iron palisade, or corrugated iron or mini orb within timber framing for cottages, villas and other dwellings built during the Victorian period. Timber picket, timber pailing, woven crimped wire, or corrugated iron or mini orb within timber framing for Edwardian dwellings. Timber pailing, wire mesh and timber or tube framing, woven crimped wire, or masonry with galvanised steel ribbon for bungalows, Tudors and inter-war dwellings. Side and rear fences in traditional materials such as timber, corrugated iron or well-detailed masonry. |
| | Setting, landscaping, streetscape and public realm features | Landscaping around a dwelling, particularly in the front garden, is an important design element. In St Peters, wide tree lined streets, with mature street trees and rear lanes used for vehicular access and garages |
| | Representative Buildings | Identified - refer to SA planning database. |

| NPSP21 | Eras, themes and context | Late 19th Century and early 20th Century. Buildings primarily originally constructed as dwellings but now used for a range of land uses, including office, consulting rooms, residential, tourist and other accommodation. |
| | Allotments, subdivision and built form patterns | <i>[Not stated]</i> |
| | Architectural styles, detailing and built form features | Grand scale late 19th Century and early 20th Century mansions set well back from the Dequetteville Terrace frontage. Two detached single-storey buildings (large former dwelling and a bungalow-style dwelling) in established garden settings. |
| | Building height | Up to three storeys. |
| | Materials | <i>[Not stated]</i> |
| | Fencing | <i>[Not stated]</i> |
| | Setting, landscaping, streetscape and public realm features | Vehicular movement is dominated by Dequetteville Terrace, which provides primary access for delivery, service, visitors and residents' vehicles, in preference to access via the adjoining residential area. One of the few remaining sections of Adelaide City Parkland frontage developed in the late 19th and early 20th centuries, which is still substantially intact. |
| | Representative Buildings | <i>[Not identified]</i> |

|--------|---|---|
| NPSP22 | Kensington (Mixed Use) Historic Area Statement (NPSP22) | |
| | <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | |
| | Eras, themes and context | Pre 1890s, Victorian and post 1918 period. Offices, consulting rooms and residential dwellings generally utilising historic buildings, with new residential apartments and townhouses. |
| | Allotments, subdivision and built form patterns | <i>[Not stated]</i> |
| | Architectural styles, detailing and built form features | Early buildings of pise, stone or brick construction. Larger Victorian-styled brick and stone buildings. Federation era brick and stone buildings. Bungalow-styled buildings of the post-1918 period. |
| | Building height | Up to two storeys. |
| | Materials | Pise, stone or brick construction. Unpainted brickwork, stonework and original corrugated iron roofing material. |
| | Fencing | <i>[Not stated]</i> |
| | Setting, landscaping, streetscape and public realm features | Existing character created by buildings and settings which reflect the principal historic development periods of the urban village of Kensington. Vehicular movement is dominated by The Parade which abuts the northern edge of the policy area. This frontage provides primary access for delivery, service, visitors' and residents' vehicles, in preference to access via the adjoining residential area, except where vehicular access to sites with frontages to Hill Street, Shipsters Road, Bowen Street and Phillips Street is provided from those streets. |
| | Representative Buildings | Identified - refer to SA planning database. |

|--|---|--|
| | Payneham Road Historic Area Statement (NPSP23) | |
| | <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> | |

| Statement# | Statement | |
|---|--|---|
| NPSP23 | The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table. | |
| | Eras, themes and context | 1870s and 1880s, early 1900s, and post-World War II. Offices, consulting rooms and residential dwellings generally utilising historic buildings, with new residential apartments and townhouses. Mixed business strip, shops, administrative, shop/dwellings, civic and institutional buildings. Local commercial activities. Shopping facilities north of St Peters Street. |
| | Allotments, subdivision and built form patterns | Minimal set back from the Payneham Road frontage. |
| | Architectural styles, detailing and built form features | Valued architectural elements fronting Payneham Road including verandahs, façade treatments (including windows and entrances), shopfront detailing and roof and parapets. Street-level coherence across signage, canopies, shopfronts and overhanging fabric of buildings such as cornices. |
| | Building height | Single and two -storey. |
| | Materials | Original materials and finishes including unpainted brickwork, stonework and corrugated iron roofing. |
| | Fencing | <i>[Not stated]</i> |
| | Setting, landscaping, streetscape and public realm features | Vehicular movement is dominated by Payneham Road, which provides primary access for delivery, service and visitors vehicles. Access and car parking is generally shared. Car parking is generally located to the rear of buildings, or otherwise sensitively located. |
| | Representative Buildings | Identified - refer to SA planning database. |
| NPSP24 | Portrush Road Historic Area Statement (NPSP24) | |
| | The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. | |
| | These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. | |
| | The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table. | |
| | Eras, themes and context | 1880s and 1890s. Offices, consulting rooms and residential dwellings generally utilising historic buildings. |
| | Allotments, subdivision and built form patterns | Consistent setbacks. |
| | Architectural styles, detailing and built form features | Valued architectural elements fronting Portrush Road including verandahs, original openings (i.e. doors and windows) in external walls, roof form and pitch and façade treatments. Residential character. The historically significant Funeral Parlour on Portrush Road, Payneham. |
| | Building height | Single storey. |
| | Materials | <i>[Not stated]</i> |
| Fencing | <i>[Not stated]</i> | |
| Setting, landscaping, streetscape and public realm features | Vehicular movement is dominated by Portrush Road, which provides primary access for delivery, service and visitors vehicles. Car parking is generally located to the rear of buildings. | |
| Representative Buildings | Identified - refer to SA planning database. | |
| | The Parade / Fullarton Road Historic Area Statement (NPSP25) | |
| | The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. | |
| | These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. | |
| | The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table. | |
| Eras, themes and context | Pre 1890s (Victorian). Offices, consulting rooms and residential dwellings, generally utilising historic buildings, with new residential apartments and townhouses. | |
| Allotments, subdivision and built form patterns | <i>[Not stated]</i> | |
| Architectural styles, detailing and built form features | Victorian villas, large two storey mansion buildings, double-fronted houses and groups of two storey row houses. | |

| Statement# | Statement | |
|------------|---|---|
| NPSP25 | | Consistent set-backs. Buildings which address Fullarton Road and The Parade have deep set-backs. |
| | Building height | Generally up to two storeys. |
| | Materials | Sandstone or bluestone. |
| | Fencing | <i>[Not stated]</i> |
| | Setting, landscaping, streetscape and public realm features | <p>Vehicular movement is dominated by The Parade, Fullarton Road, Rundle Street and Little Dew Street, which provides primary access for delivery, service, visitors' and residents' vehicles, in preference to access via the adjoining residential areas.</p> <p>Well established garden settings.</p> <p>High standard of landscaping incorporating large trees which reinforce the leafy avenue character of these roads.</p> |
| | Representative Buildings | <i>[Not identified]</i> |

Historic Areas affecting City of Onkaparinga

| | | |
|-----------|---|---|
| Onka1 | <p>Clarendon Historic Area Statement (Onka1)</p> | |
| | <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | |
| | Eras, themes and context | <p>1840s - 1890s.</p> <p>Early European survey and settlement in the regional areas around Adelaide; Pastoralism, Agriculture, Viticulture, Tertiary Industries, Communications, Road Transport, Water Catchment and Supply, Social Services, Religion, Education, Law and Order, Local Government.</p> |
| | Allotments, subdivision and built form patterns | <p>Township allotments set out from the main road (Grants Gully Road) which winds its way along the floor of a valley and Turners Gully Road.</p> <p>Relatively large allotments, typical of a country township. Allotment sizes increase out from the centre of the township, emphasising the semi-rural environment.</p> <p>Substantial space between buildings.</p> <p>Buildings are sited relatively close to front boundaries and each other in the centre of the township but front and side setbacks increase as distance from the town centre increases. This pattern of development contributes to the sense of space and rural/country township character.</p> <p>Building frontages are parallel to streets becoming more random out from the centre of the township.</p> <p>Dwellings with frontage to Turners Gully Road and/or Clarendon Road sited on the lower slopes of hillsides or within the valley floor.</p> |
| | Architectural styles, detailing and built form features | <p>Double-fronted cottages, villas, asymmetrical cottages and attached shop-dwellings with Victorian stylistic influences.</p> <p>Agriculture and viticulture related structures such as winery buildings, farmhouses and barns.</p> <p>Public buildings such as police station, courthouse, school, former institute building (hall) with Victorian Gothic and similar styles of the Victorian era. Churches and cemeteries. Hotel, general store and shops. Transport related structures such as bridges.</p> <p>War memorial.</p> <p>Roof types: M - shaped, gable, hipped, concave or straight-pitched veranda, steeply-pitched, typically 30 to 40 degrees, reflecting traditional architectural styles and building methods</p> <p>short roof spans</p> <p>Rectilinear plan form. Low-scale. High solid-to-void ratio. Typically two or more pavilions rather than a single mass. Concave and straight-pitched verandas on front and sometimes side facades reduce bulk and scale and add visual interest. Lean-to forms are common and break down bulk and scale. Vertical proportions in windows and doors. Fine-grain detail in elements such as plinths, string courses, projecting sills</p> |
| | Building height | <p>Predominantly single-storey. Single-storey residential buildings with some two-storey or part two-storey dwellings.</p> <p>Typical proportions of Victorian-era cottages with wall heights of around 3.3 to 3.6 metres and ridge heights of around 5.0 to 5.5 metres.</p> <p>Tall single-storey churches and institutional and public buildings that are generally exceptions and landmarks that punctuate the streetscape and stand out because of their difference in scale.</p> |
| Materials | <p>Masonry - random rubble, roughly-coursed stone, unpainted local bluestone, sandstone, some with brick or rendered quoin work</p> <p>Roof - slate or corrugated iron</p> <p>Timber joinery including window frames, door frames, doors, fascias, bargeboards and veranda posts</p> <p>Consistent with the materials used in the 1840s-1890s buildings within the township.</p> | |

| Statement# | Statement | |
|---|-----------|--|
| | | Unobtrusive, natural colours. |
| Fencing | | <p>Picket fence. Woven wire. Timber post-and-rail or post-and-wire</p> <p>Low (approximately 1.2 metres in height) sandstone rubble. Original front fences associated with era and style of building, which maintain views of the building from the public realm. Rear and side boundary fencing often corrugated galvanised iron up to 1.8 metres in height.</p> |
| Setting, landscaping, streetscape and public realm features | | <p>Lineal township laid out along a narrow valley floor.</p> <p>Township located within a steeply-sided valley and a hillside, rural setting.</p> <p>Narrow streets.</p> <p>The reservoir and the Onkaparinga River.</p> <p>Mature landscape environment where well-established trees and vegetation reinforce the country township character and emphasise the space between buildings.</p> <p>Village or rural township character.</p> <p>Vistas and views into and out of the township are important.</p> |
| Representative Buildings | | Identified - refer to SA planning database. |

| Architectural styles, detailing and built form features | <p>Mid-to-late 1800s stone buildings. Informal inter-war holiday and fishing shacks. Post-war holiday houses. Recent dwellings that draw on the traditional form and scale.</p> <p>Informality in the appearance of many buildings arising from additions over time and variety in use of materials. Rectilinear plan form. Low-scale. Typically two or more pavilions rather than a single mass. High solid-to-void ratio. Concave and straight-pitched verandas on front and sometimes side facades reduce bulk and scale and add visual interest. Lean-to forms are common and break down bulk and scale. Vertical proportions in windows and doors. Fine-grain detail in elements such as plinths, string courses, projecting sills.</p> <p>Roof types: gable. Hipped. Steeply-pitched, typically 30 to 40 degrees, reflecting traditional architectural styles and building methods. Short roof spans.</p> | |
| Building height | <p>Predominantly single-storey, some two-storey (but well-modulated). Single-storey has typical proportions of Victorian-era cottages with wall heights of around 3.3 to 3.6 metres and ridge heights of around 5.0 to 5.5 metres. Larger former hotel is a landmark.</p> | |
| Materials | <p>Masonry - limestone, sandstone, weatherboard, some rendered masonry - random rubble.</p> <p>Quoins - rendered, brick.</p> | |

| Statement# | Statement | |
|---|-----------|---|
| | | Roof - corrugated iron, slate, dark grey. Timber joinery including window frames, door frames, doors, fascias, bargeboards and veranda posts. |
| Fencing | | Picket. Post-and-rail. Post-and-wire. Hedges. Randomly-laid limestone up to 1.2 metres high. Original front fences associated with era and style of building, which maintain views of the building from the public realm. Rear and side boundary fencing often corrugated galvanised iron up to 1.8 metres in height. |
| Setting, landscaping, streetscape and public realm features | | Established trees - mature Aleppo Pines, Norfolk Island Pines, Casuarinas. Informal streetscapes often lined with established trees and shrubs. |
| Representative Buildings | | <i>[Not identified]</i> |

|---|--|---|
| Onka6 | Aldinga Historic Area Statement (Onka6) | |
| | The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. | |
| | These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. | |
| | The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table. | |
| | Eras, themes and context | 1850s - 1920s. Early European survey and settlement in the regional areas around Adelaide; Agriculture, Tertiary Industries, Communications, Road Transport, Social Services, Religion, Leisure Pursuits, Holidaymaking. |
| | Allotments, subdivision and built form patterns | Village centred on the intersection of Old Coach Road and Port Road. Large allotments perpendicular to the roads. Allotment sizes increase out from the centre of the township, emphasising the semi-rural environment. Substantial space between buildings. Buildings are sited relatively close to front boundaries and each other in the centre of the township but front and side setbacks increase as distance from the town centre increases. This pattern of development contributes to the sense of space and rural/country township character. Building frontages are parallel to streets becoming more random out from the centre of the township. Based on gridiron pattern. Views of the hills to the east down public streets. |
| | Architectural styles, detailing and built form features | Mid-to-late 1800s stone buildings with Victorian stylistic influences. Double-fronted cottages, villas, asymmetrical cottages and attached shop-dwellings with Victorian stylistic influences. Hotel, former Temperance Inn, former Institute building (hall) and church are landmarks. Rectilinear plan form. Low-scale. High solid-to-void ratio. Typically two or more pavilions rather than a single mass. Concave, bullnose and straight-pitched verandas on front and sometimes side facades reduce bulk and scale and add visual interest. Lean-to forms are common and break down bulk and scale. Vertical proportions in windows and doors. Fine-grain detail in elements such as plinths, string courses, projecting sills. Roof types: gable, hipped. Steeply-pitched, typically 30 to 40 degrees, reflecting traditional architectural styles and building methods. Short roof spans. |
| | Building height | Predominantly single-storey. Typical proportions of Victorian-era cottages with wall heights of around 3.3 to 3.6 metres and ridge heights of around 5.0 to 5.5 metres. Larger hotel and former school building are landmarks. |
| | Materials | Masonry - limestone, sandstone - random rubble. Quoins - rendered, brick. Roof - corrugated iron, Willunga slate. Timber joinery including window frames, door frames, doors, fascias, bargeboards and veranda posts. |
| | Fencing | Picket. Post-and-rail. Post-and-wire. Hedges. Randomly-laid limestone up to 1.2 metres high. |
| Setting, landscaping, streetscape and public realm features | Established trees - mature Aleppo Pines, Norfolk Island Pines, Casuarinas. | |

| | Willunga Historic Area Statement (Onka7) | |
| | The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. | |
| | These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. | |

| Statement# | Statement | |
|--------------------------|--|--|
| Onka7 | The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table. | |
| | Eras, themes and context | Predominantly 1840s - 1900. Early settlement; Agriculture, Slate Quarrying. |
| | Allotments, subdivision and built form patterns | <p>Original subdivision in the late 1830s. Second subdivision of southern part of the township in 1857.</p> <p>Laid out around High Street, the main thoroughfare through the town, which cuts diagonally through the original subdivision.</p> <p>Allotments perpendicular to High Street in centre of township.</p> <p>Grid pattern with allotments perpendicular to streets in southern section of township.</p> <p>Original allotments of around half an acre.</p> <p>Subsequent land division has occurred, but allotments remain relatively large.</p> <p>Early buildings line High street and the road out of Willunga to Aldinga and McLaren Vale.</p> <p>Rectilinear.</p> <p>Buildings aligned parallel to boundaries.</p> |
| | Architectural styles, detailing and built form features | <p>Simple, vernacular cottages. Mid-to-late 1800s stone buildings with Victorian stylistic influences. Double-fronted cottages, villas and asymmetrical cottages with Victorian stylistic influences. Shops and shop/dwellings with Victorian stylistic influences. Churches and cemeteries. Public buildings such as police station, courthouse, school, former post and telegraph office, post office, former Institute building (hall). Three hotels. Transport-related structures such as bridges.</p> <p>Rectilinear plan form. Low-scale. High solid-to-void ratio. Typically two or more pavilions rather than a single mass. Concave, bullnose and straight-pitched verandas on front and sometimes side facades reduce bulk and scale and add visual interest. Lean-to forms are common and break down bulk and scale. Vertical proportions in windows and doors. Fine-grain detail in elements such as plinths, string courses, projecting sills.</p> <p>Roof types: hipped. Gable. Steeply-pitched, typically 30 to 40 degrees, reflecting traditional architectural styles and building methods. Short roof spans.</p> |
| | Building height | <p>Variation in the size and sophistication of buildings, from humble cottages to two-storey dwellings and institutional or public buildings. Predominantly single-storey. Typical proportions of Victorian-era cottages with wall heights of around 3.3 to 3.6 metres and ridge heights of around 5.0 to 5.5 metres.</p> <p>Smaller vernacular cottages. Hotels, former post and telegraph office, former police station and courthouse and former Institute (hall) are landmarks.</p> |
| | Materials | <p>Masonry - local sandstone, pug-with-lime render, some local brick - random rubble, squared.</p> <p>Quoins - stone, rendered, brick.</p> <p>Roof - corrugated iron, Willunga slate.</p> <p>Timber joinery including window frames, door frames, doors, fascias, bargeboards and veranda posts.</p> <p>Consistent with the materials used in the 1840s-1900s buildings within the township.</p> |
| | Fencing | Picket. Post-and-rail. Post-and-wire. Slate post-and-wire. Hedges. Randomly-laid stone up to 1.2 metres high. Original front fences associated with era and style of building, which maintain views of the building from the public realm. Rear and side boundary fencing often corrugated galvanised iron up to 1.8 metres in height. |
| | Setting, landscaping, streetscape and public realm features | Commercial and residential buildings indicative of the town's early settlement phase in the mid-1800s. Landmark two-storey buildings in High Street. Range of buildings and uses reflecting the composition of the town's community and enterprise. Town's foothill topography features creek lines. Substantial remnant gum trees. High degree of mature landscaping. |

| | <p>Semaphore / Largs Historic Area Statement (PAdE3)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> | | | | | | | | | | | | | | | | |

| Statement# | Statement | |
|--------------------------|--|---|
| PAdE3 | The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table. | |
| | Eras, themes and context | 1860's - 1940's built development. |
| | Allotments, subdivision and built form patterns | Grid pattern with predominately east-west running streets with the long axes of allotments running north-south. Allotments fronting the Esplanade and Military Road configured with their long axes running east-west so that buildings address these roads. Consistent front setbacks for each street but setbacks varying between streets. Varied allotment sizes. |
| | Architectural styles, detailing and built form features | Wide range of housing styles from all periods of development of Semaphore and Largs including villas, bungalows, workers row cottages, terraces, rows, mansions and Tudors. Early timber and masonry houses. |
| | Building height | Predominately single storey but scattered two storey and a small amount of three storey along parts of the Esplanade frontage. |
| | Materials | Materials consistent with the style of building and era of its original construction. Timber and masonry housing. |
| | Fencing | Low and/or open consistent with the style and era of construction of the building it is associated with. Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms. Fences associated with houses from the 1920s including capped timber palings, post and wire or woven wire fences. |
| | Setting, landscaping, streetscape and public realm features | A continuous run of high quality residential buildings set among mature Norfolk Island Pines along the Esplanade. The low scale of the Esplanade set against the open view of the sea opposite contains individual houses of historical and architectural importance built as seaside residences. An important sub-precinct along Military Road running from Fort Glanville through to Largs containing high quality public and private buildings. A concentration of early houses around Newman Street and Blackler Street associated with the development of Semaphore during the 1860s. Pockets of mature street planting providing important settings for these early houses, particularly along the Esplanade, Union Street, Clare Street, Hall Street and others. |

| Mainstreet Historic Area Statement (PAdE4) | | |
| The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. | | |
| These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. | | |
| The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table. | | |
| PAdE4 | Eras, themes and context | 1850's - 1940's built development. |
| | Allotments, subdivision and built form patterns | Focused around Commercial Road, St Vincent Street, Dale Street and Church Place. Allotments configured with their long axes running perpendicular to these roads. Allotments sizes vary to accommodate retail and commercial uses. Commercial buildings generally built to road frontages. |
| | Architectural styles, detailing and built form features | Commercial buildings featuring a fine grain fabric of small scale tenancies with narrow frontages. The extensive use of balconies and verandahs over footpaths. |
| | Building height | Predominately single and two storey with a small number three and four storey buildings to the east of Commercial Road. |
| | Materials | Materials consistent with the style of building and era of its original construction. |
| | Fencing | <i>[Not stated]</i> |
| | Setting, landscaping, streetscape and public realm features | The area is a commercial and retail focus. It acts as a buffer and an approach area to the Port Adelaide State Heritage Area noting that the boundary around the Port Adelaide State Heritage Area is relatively arbitrary and the Main street Policy Area contains some buildings that are of equal significance to buildings within the Port Adelaide State Heritage Area. It features a large number of early buildings, many of which have housed the same continuous functions since the time of their construction. The State Heritage listed St Paul's Church is a prominent building in the area and provides a land mark along a major view corridor from the Nelson St Bridge. Similarly, the State Heritage listed Uniting Church off Commercial Road is an important landmark and southern gateway to this area. The area contains a number of State Heritage places and many Local Heritage places. |

| | | |
|--|--------------------------|------------------------------------|
| Woolstores Historic Area Statement (PAdE5) | | |
| The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. | | |
| These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. | | |
| The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table. | | |
| | Eras, themes and context | 1880's - 1940's built development. |

| Statement# | Statement | |
|---|---|--|
| PAdE5 | Allotments, subdivision and built form patterns | Modified grid pattern with St Vincent Street and Bedford Street providing the main access roads into and out of this area. The southern and western boundaries of the grid are radiused by Brock Street and Barlow Street. The northern boundary is defined by Santo Parade, the northern side of which was previously an extension of Dock 1 and provided the woolstores with convenient access to cargo vessels. Woolstores and commercial buildings generally built to road frontages. Cottages close to and facing the road frontage. Medium to large allotment sizes. |
| | Architectural styles, detailing and built form features | Large purpose designed woolstores and warehouses featuring strong and robust built forms with parapet walls and saw tooth roofs. Simple, single storey workers cottages. |
| | Building height | Large masonry woolstores buildings ranging from single to four storeys. Single storey former workers cottages. |
| | Materials | Masonry and corrugated iron feature strongly and are key defining materials. Materials consistent with the style of building and era of its original construction. |
| | Fencing | <i>[Not stated]</i> |
| | Setting, landscaping, streetscape and public realm features | A key characteristic of this area is the compact group of large, well detailed warehouses associated with the wool export trade and located close to the dockside. The woolstores buildings are highly visible and prominent from eastern approaches into the Port Adelaide Regional Centre, particularly from Perkins Drive. The unimpeded visibility and prominence of these buildings is important. The area also contains a collection of primarily corrugated iron houses, mainly located between Aberdeen and Crozier Streets south of Brock Street. Some are identified as Local Heritage Places, dating from 1900 to 1920, which served as worker's housing for the nearby woolstores. These surviving houses are a remnant of a more consistent low scale residential area which contrasted visually with the adjacent imposing woolstores. |
| | Representative Buildings | Identified - refer to SA planning database. |
| Semaphore Road Historic Area Statement (PAdE6) | | |
| <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | | |
| PAdE6 | Eras, themes and context | 1870's - 1920's built development. Semaphore Road developed as a substantial commercial centre after the establishment of a railway line from Port Adelaide to Semaphore Jetty in 1878 and a subsequent increase in residential population in the area requiring goods and services. |
| | Allotments, subdivision and built form patterns | <p>Semaphore Road is a wide east west road that in this area runs from Causeway Road to the Esplanade.</p> <p>Allotments are orientated so that buildings address Semaphore Road. Allotment sizes vary to accommodate a range of retail and commercial uses.</p> <p>Retail and commercial buildings built to and addressing the Semaphore Road frontage.</p> |
| | Architectural styles, detailing and built form features | A variety of Government, institutional and commercial buildings including simple single storey shops with verandahs and parapet walls. Many of these shops retain post-supported verandahs over the footpath. There are pockets of well-preserved historic residential development featuring mansions, villas and cottages. |
| | Building height | Predominately single storey and two storey. |
| | Materials | Materials consistent with the style of building and era of its original construction. |
| | Fencing | <p>None for retail and commercial buildings.</p> <p>Low and/or open consistent with the style and era of construction of the building it is associated with.</p> <p>Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms.</p> |
| | Setting, landscaping, streetscape and public realm features | <p>A popular main street that links Semaphore and Port Adelaide and provides a pleasant environment for both seaside holiday makers and residents.</p> <p>The seaward end of Semaphore Road retains strong evidence of Semaphore's original function as a transport and communications station for the early South Australian colony from 1850 onwards. The Time Ball Tower, Customs Boarding Station and the early Post Office building remain as an indication of these early services. The development of the Semaphore Town Hall, now the Library, and the RSL Hall continued the provision of community facilities, and these developed in association with the commercial areas of Semaphore road further to the east. This area is an important reminder of Semaphore's early prominence in the development of Port Adelaide and the State.</p> <p>A generous public foreshore provides a popular recreation area and the backdrop and view to the western end of Semaphore Road.</p> <p>The road is wide and features pedestrian areas, paving, upper canopy trees and low lying shrubs located in the median and verge, seating and public art. It is a well-established retail and commercial area that provides cafes, restaurants, shops, hotels, churches, a cinema and a range of other facilities.</p> <p>Many well maintained commercial and residential buildings from the 1880s to the 1920s remain in the area. There are many Local Heritage listed places along the length of the road and a number of State Heritage listed places in the western portion of the area.</p> |
| Representative Buildings | Identified - refer to SA planning database. | |

Historic Areas affecting City of Prospect

| | | |
|--------------------------|---|--|
| Pr1 | Fitzroy Terrace Historic Area Statement (Pr1) | |
| | <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | |
| | Eras, themes and context | Late 19th and Early 20th century mansion style housing. |
| | Allotments, subdivision and built form patterns | Very large spacious allotments with wide frontages. Sizable setbacks from all boundaries with sizable spaces between buildings. The established pattern of buildings sited away from allotment boundaries makes a significant contribution to the character. |
| | Architectural styles, detailing and built form features | Very large mansion style dwellings. Additions to the rear or side of dwellings. Range of designs with homogeneity derived from decorative front facades, pitched roofs, brick chimneys & front verandahs and building placement on allotments. |
| | Building height | Up to 2 storeys. |
| | Materials | Variety of materials and colour finishes with additional detailing around windows, doors and edges of walls. |
| | Fencing | Low open style to 1.2 metres high. Fencing that associated with the period and style of the dwelling. |
| | Setting, landscaping, streetscape and public realm features | Substantial well landscaped gardens with front yards that complement the style of the dwelling. Landscaping around dwellings. The spacious streetscape character of Fitzroy Terrace is created by the large allotments on which have been built a range of equally large residences. Garages and carports are designed and sited to be subordinate to the main dwelling. |
| Representative Buildings | Identified - refer to SA planning database. | |

| | | |
|-----------------------|---|--|
| | Clifton Street Historic Area Statement (Pr2) | |
| | <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | |
| | Eras, themes and context | Late 1870s, late 19th speculative housing by local builder James Trevail for middle class home buyers. |
| | Allotments, subdivision and built form patterns | Original subdivisions of 1881, 1882 and larger allotments of 1894-95 at western end of street (known as Prospect View at the time of sale). Consistent, large front setbacks. Large and small asymmetrical side setbacks to dwellings. The set-back and pattern of coverage creates a notable streetscape with vistas and views towards the west. |
| Architectural styles, | Consistent front verandahs with highly decorative cast iron and timber trim, hipped and gabled pitched roofs and brick chimneys. 1880s-1890s residential | |

| Statement# | Statement | |
|------------|--|---|
| Pr2 | detailing and built form features | designs along Clifton Street reflecting speculative subdivision. Double fronted cottages with central gable feature and front steps to raised finished floor levels to respond to the falling topography to the west. |
| | Building height | Single storey, moderate residential scale. Essentially single storey residences which take advantage of the sloping topography to the west. |
| | Materials | Stone walls and limited external colour palette with detailing around windows, doors and edges of walls. |
| | Fencing | Low open style to 1.2 metres high with mainly masonry and iron materials. |
| | Setting, landscaping, streetscape and public realm features | Homogenous streetscape of houses and associated buildings. Substantial well landscaped gardens with front yards that complement the style of the dwelling. Narrow verge with mature street trees. Garages and carports are designed and sited to be subordinate to the main dwelling. |
| | Representative Buildings | Identified - refer to SA planning database. |
| | | |
| Pr3 | Little Adelaide Historic Area Statement (Pr3) The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table. | |
| | Eras, themes and context | Little Adelaide Village formed in late 1839. The section was bought by John Bradford an agent for Adelaide Mechanics Land Company. Most of the current homes are dated from the 1870s to 1890s. |
| | Allotments, subdivision and built form patterns | Is centred on a triangle created by Main North Road, Carter Street, Highbury Street and Argyle Street. Narrow allotments of varying widths and narrow streets. Small setbacks from all boundaries with compact spaces between buildings. |
| | Architectural styles, detailing and built form features | Coherent pattern of small cottages with common features including pitched roofs, brick chimneys & front verandahs. Single fronted and attached cottages are predominant, mainly from 1870-1890s. The village retains a church, corner shops (former) and other buildings typical of early village settlement. |
| | Building height | Single storey. Compact small single fronted and attached cottages. |
| | Materials | Stone walls and limited external colour palette with detailing around windows, doors and edges of walls. Corrugated iron roofs. |
| | Fencing | Low open style to 1.2 metres high. Fencing associated with the period and style of the dwelling. |
| | Setting, landscaping, streetscape and public realm features | Small front yards and limited space between buildings. Public realm characterised by narrow street and verge with limited room for landscaping. Village atmosphere. Where present, garages and carports are designed and sited to be subordinate to the main dwelling. |
| | Representative Buildings | Identified - refer to SA planning database. |
| Pr4 | Whinham Street Historic Area Statement (Pr4) The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table. | |
| | Eras, themes and context | Late 19th century villas. |
| | Allotments, subdivision and built form patterns | Regular subdivision pattern. Consistent moderate street setbacks. Large and small asymmetrical side setbacks to dwellings. |
| | Architectural styles, detailing and built form features | Consistent front verandahs with highly decorative cast iron and timber trim, hipped and gabled pitched roofs and brick chimneys. 19th century villas with face stone walls and gable ends, verandahs with cast iron or timber trim, steeply pitched corrugated iron roofs and elaborate rendered trim to window surround. |

| Statement# | Statement | |
|------------|---|---|
| | Building height | Single storey, moderate residential scale. Additions are at the rear or side dwellings. |
| | Materials | Bluestone walls and limited external colour palette with detailing around windows, doors and edges of walls. |
| | Fencing | Low open style to 1.2 metres high which provides views to dwellings. Masonry and iron. Fencing associated with the period and style of the dwelling. |
| | Setting, landscaping, streetscape and public realm features | Substantial well landscaped gardens with front yards that complement the style of the dwelling. Narrow verge with mature street trees. Relative lack of high, solid fencing enables the principal elevation of the homes to be visible from the public realm. Homogenous streetscape of villas. Garages and carports are designed and sited to be subordinate to the main dwelling. |
| | Representative Buildings | Identified - refer to SA planning database. |

| | | |
|-----|---|---|
| Pr5 | Flora Terrace Historic Area Statement (Pr5) | |
| | <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | |
| | Eras, themes and context | Late 19th and early 20th centuries residential. Focus of commemoration of war service, civic activities and important sporting events. |
| | Allotments, subdivision and built form patterns | Regular subdivision pattern. Three separate land divisions between 1892 and 1923 - part of the Oxford subdivision of 1892 on south side of the Terrace with, part of St John's Wood South subdivision in 1909 on north side with larger allotments of and part of a 1923 division of the eastern end to the Memorial Gardens. Consistent setbacks. Large and small asymmetrical side setbacks to dwellings. |
| | Architectural styles, detailing and built form features | Range of designs with range homogeneity derived from decorative front facades (detailing around windows, doors verandahs & gables), pitched roofs, brick chimneys & front verandahs. Houses display style, form and detail of the relevant periods of historic development - 1892 to the 1920s. |
| | Building height | Single storey and large residential scale. |
| | Materials | Face stone and brick walls and corrugated iron or terra cotta roofs. |
| | Fencing | Low open style to 1.2 metres high. Fencing associated with the period and style of the dwelling. |
| | Setting, landscaping, streetscape and public realm features | Substantial front gardens. Very leafy streetscape. Civic and residential character. Strong visual axis between the Town Hall and the Memorial Gates to Prospect Oval. Garages and carports are designed and sited to be subordinate to the main dwelling. |
| | Representative Buildings | Identified - refer to SA planning database. |

| | | |
|-----------------------|---|---|
| | Martin Avenue Historic Area Statement (Pr6) | |
| | <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | |
| | Eras, themes and context | Inter-War residential. |
| | Allotments, subdivision and built form patterns | Large allotments. Regular generous front setbacks. Large and small asymmetrical side setbacks to dwellings. |
| Architectural styles, | Mix of bungalows, 'gentleman's residence' and Tudor homes. | |

| Statement# | Statement | |
|------------|---|---|
| Pr6 | detailing and built form features | Range of designs with homogeneity derived from decorative front facades, pitched roofs, brick chimneys & front verandahs. Additions to the side and rear of dwellings. |
| | Building height | Single to two storey and large residential scale. Two storey additions are within the roof space or to rear of buildings. |
| | Materials | Face stone and brick walls and terracotta tiled roofs, original finishes. |
| | Fencing | Low open style to 1.2 metres high. Fences comprising low masonry plinth with regularly spaced columns and iron above to a medium height. |
| | Setting, landscaping, streetscape and public realm features | Large, well landscaped front yards as an extension of a green and leafy streetscape with mature canopy over grassed verges. Street trees and wide grassed verges combine with the generous setbacks to contribute to the spacious appearance of the public realm. Garages and carports are designed and sited to be subordinate to the main dwelling. |
| | Representative Buildings | Identified - refer to SA planning database. |

| North Ovingham Historic Area Statement (Pr7) | | |
|---|--|--|
| <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | | |
| Eras, themes and context | Late 19th Century housing. 1877 - 1879. | |
| Allotments, subdivision and built form patterns | Small allotments subdivided in 1877 - 1879. Double fronted, narrow, deep allotments between Toronto Street and Cotton Street. Small setbacks from all boundaries with compact spaces between buildings. | |
| Architectural styles, detailing and built form features | Coherent pattern of small cottages with common features including pitched roofs, brick chimneys & front verandahs. Primarily double fronted cottages with central gable feature and front steps to raised finished floor levels to respond to the falling topography on individual allotments from east to west. Small symmetrically fronted or attached stone houses remain in Toronto Street and larger examples of similar style fronting Churchill Road. | |
| Building height | Single storey and small residential scale. | |
| Materials | Stone walls and steps facing stone and brick houses and attached cottages with verandahs, corrugated iron roofs. | |
| Fencing | Low open style to 1.2 metres high associated with the design of the dwelling and allows gardens to spill onto the street. | |
| Setting, landscaping, streetscape and public realm features | Small front yards and limited space between buildings. Public realm characterised by narrow street and verge and moderate canopy cover from semi-mature street trees. Mature gardens which spill onto the street, pleasant green streetscape. Intimate, small residential pocket. Where present, garages and carports are designed and sited to be subordinate to the main dwelling. | |

| Prospect Lanes Historic Area Statement (Pr8) | | |
|---|---|--|
| <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | | |
| Eras, themes and context | Reflects substantial areas of Prospect that were developed during the turn of the century (1880s to early 1900s) and constructing cottages and villa homes on higher areas overlooking Churchill Road and beyond. | |
| Allotments, subdivision and built form patterns | Regular subdivision pattern with consistent large frontages and site areas. The series of laneways that link the allotments are distinctive features within the sub division. Regular moderate front setbacks. Large and small asymmetrical side setbacks to dwellings. | |
| Architectural styles, detailing and built form features | Homogeneity derived from front facades with detailing around windows/doors/verandahs & gables, pitched roofs, brick chimneys & front verandahs. Cottages and villa homes on higher areas overlooking Churchill Road and beyond. Housing in the area displays a consistency of character reflecting the styles of domestic architecture at the turn of the century. Houses incorporate concave or bull-nosed verandahs and other typical detail and generally comprise face stone front walls, with brick or rendered quoins, and window and door dressings. | |
| Building height | Single storey. | |
| Materials | Stone walls and limited external colour palette with detailing around windows, doors and edges of walls. Corrugated iron roofs. | |
| Fencing | Low open style to 1.2 metres high. Fencing associated with the period and style of the dwelling. | |

| Statement# | Statement | |
|------------|--|--|
| | Setting, landscaping, streetscape and public realm features | Consistent moderate street setbacks. Large and small asymmetrical side setbacks to dwellings. Rear lane access, with primary streets having no access or access which has been designed and located to be subordinate to the main dwelling. |
| | Representative Buildings | <i>[Not identified]</i> |
| Pr9 | Highbury Historic Area Statement (Pr9) The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table. | |
| | Eras, themes and context | 1882 subdivision. Turn of the century residential development. The area is characterised by primarily detached housing reflecting styles of domestic architecture at the turn of the century. |
| | Allotments, subdivision and built form patterns | Regular subdivision pattern with consistent large frontages and site areas. Regular moderate front setbacks. Large and small asymmetrical side setbacks to dwellings. |
| | Architectural styles, detailing and built form features | Homogeneity derived from front facades with detailing around windows/doors/verandahs & gables, pitched roofs, brick chimneys & front verandahs. Characteristic design features such as bull-nosed verandahs, brick quoining, and stone front walls. |
| | Building height | Single storey and moderate residential scale. |
| | Materials | Stone walls and limited external colour palette with detailing around windows, doors and edges of walls. Corrugated iron roofs. |
| | Fencing | Low open style to 1.2 metres high, providing visibility to landscaped front yards and dwellings. |
| | Setting, landscaping, streetscape and public realm features | Well landscaped front yards as an extension of a green leafy streetscape. Garages and carports are designed and sited to be subordinate to the main dwelling. |
| | Representative Buildings | <i>[Not identified]</i> |
| Pr10 | Ballville/Gloucester Historic Area Statement (Pr10) The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table. | |
| | Eras, themes and context | Subdivided in 1878 by Henry Ball. Turn of century residential development. The area is characterised by primarily detached housing reflecting styles of domestic architecture at the turn of the century. |
| | Allotments, subdivision and built form patterns | Original subdivision with modest allotments with large frontages. Consistent moderate street setbacks. Large and small asymmetrical side setbacks to dwellings. |
| | Architectural styles, detailing and built form features | Primarily detached housing reflecting styles of domestic architecture at the turn of the century. Homogeneity derived from front facades with detailing around windows/doors/verandahs & gables, pitched roofs, brick chimneys & front verandahs. |
| | Building height | Single storey and moderate residential scale. |
| | Materials | Stone walls and limited external colour palette with detailing around windows, doors and edges of walls. Corrugated iron roofs. |
| | Fencing | Low open style to 1.2 metres high. Fencing associated with the period and style of the dwelling. |
| | Setting, landscaping, streetscape and public realm features | Limited landscaping and dominant built form from small front yards and narrow road verges. Gloucester Street has greener front yards and public realm. St Cuthbert's Anglican Church and its adjacent manse are prominent landmarks. Garages and carports are designed and sited to be subordinate to the main dwelling. |

| Eras, themes and context | Inter-War period housing. The area is predominated by bungalows to the east of Corbin Road and Tudor-style houses to the west. The majority of the original dwellings constructed prior to 1930 remain intact, with additions occurring over time either within the roof space or to the rear and side. | | | | | | | | | | | | | | | | |
| Allotments, subdivision and built form patterns | Regular subdivision pattern of generously sized allotments and wide frontages. Consistent large front and side setbacks. The area retains its original subdivision pattern, with regular sized allotments supporting residential development at a low density. | | | | | | | | | | | | | | | | |
| Architectural styles, detailing and built form features | Predominantly bungalows to the east of Corbin Road and Tudor-style houses to the west. Homogeneity derived from front facades with detailing around windows/doors/verandahs & gables, pitched roofs, brick chimneys & front verandahs. | | | | | | | | | | | | | | | | |
| Building height | Single storey and large residential scale. Two storey additions are within the roof space or to rear of buildings. | | | | | | | | | | | | | | | | |
| Materials | Stone and brick walls and limited external colour palette with detailing (including glazed bricks) around windows, doors and edges of walls and corrugated iron or terra cotta roofs. Consistent use of materials including rock faced stone and masonry, face red brick, terracotta roof tiles or corrugated iron, glazed bricks for trim and other details and materials typical of the housing of the Inter-War Period. | | | | | | | | | | | | | | | | |
| Fencing | Low open style (to 1.2 metres high). Fencing associated with the period and style of the dwelling. | | | | | | | | | | | | | | | | |
| Setting, landscaping, streetscape and public realm features | Large well landscaped front yards and tree lined streets above grassed verges. Minimal driveway and hard-surfaced areas. Consistent pattern of prestigious single storey detached dwellings on generous allotments fronting tree-lined street. Spacious and open feel. Garages and carports are designed and sited to be subordinate to the main dwelling. | | | | | | | | | | | | | | | | |

|---|---|
| Fencing | Local stone, hardwood palings and pickets, hardwood and woven wire, brush with round hardwood posts and hedges not exceeding 1.2m. |
| Setting, landscaping, streetscape and public realm features | Views and vistas of the entrance to the town centre along Main Road past Lake Fellmongery and Lake Charra. Views of the foreshore area adjacent Town Beach and streetscapes of historic buildings of Smillie Street and Mundy Terrace. Views across the area illustrate the importance of native vegetation and the distinct character of the roof designs of historic buildings. Historic buildings square to and often close to street alignments, particularly on Smillie Street. Minimal breaks between buildings except where access to the rear of a site is provided. Streets, verges and reserves in the public realm characterised by Lakestone kerbing, limestone cuttings, landmark trees (Norfolk Island Pines in particular) and native vegetation. Important public open space reserves that frame the township at Lannum Reserve, the Institute / Town Beach Foreshore, Royal Circus and the southern edge of Lake Butler. Each has a distinct landscape structure, planting character and historic quality. |

Historic Areas affecting Tatiara

| | | |
|---|--|--|
| TAT1 | Bordertown Historic Area Statement (Tat1) | |
| | The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. | |
| | These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. | |
| | The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table. | |
| | Eras, themes and context | 1910-1930. |
| | Allotments, subdivision and built form patterns | Traditional grid. Large allotments. |
| | Architectural styles, detailing and built form features | Federation-style houses with asymmetrical plans and multiple decorative gables. California bungalows with veranda pylons and gables extending to the veranda perimeter. Low-pitched roofs. |
| | Building height | Single storey. |
| | Materials | Rock-faced sandstone walls and terracotta tiled roofs. |
| Fencing | No fencing or open front fencing no more than 1.2m. | |
| Setting, landscaping, streetscape and public realm features | Rural setting. Landscaping surrounding dwellings. | |
| Representative Buildings | Identified – refer to SA planning database. | |

Historic Areas affecting City of Tea Tree Gully

| | | |
|-----------------|---|--|
| TTG1 | Tea Tree Gully Township Historic Area Statement (TTG1) | |
| | The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. | |
| | These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. | |
| | The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table. | |
| | Eras, themes and context | The village core of Tea Tree Gully. Mid to late 19th Century to early 20th Century. |
| | Allotments, subdivision and built form patterns | Traditional subdivision layout focussed on North East Road as the major approach route to the township in both directions. Allotments are varied in size and shape. Regular moderate front setbacks and small setbacks from side boundaries. Generally consistent siting and space between buildings. Sites address North East Road. |
| | Architectural styles, detailing and built form features | Colonial style flat facades articulated with post-supported verandas. Symmetrical designs with simple footprints. Roof forms are generally hipped or gable roofs with pitches between 30-40 degrees. A mix of buildings including detached dwellings, churches, row shops, a war memorial, former police station, institute building, hotel, former bakehouses, flour mill and winery. Tea Tree Gully museum and former council chambers building as State Heritage Places. Historic homestead relics and a stone retaining wall in Pine Park. |
| Building Height | Single storey, with the exception of the Old Flour Mill and Tea Tree Gully Museum. | |
| Materials | A combination of sandstone and bluestone construction with corners and window and door reveals formed with quoin work. Generally, all dwellings include corrugated roofs in galvanised or light to mid-tone greys, green or red. Unpainted stone / brick. Modern dwellings are consistent with the above materials, but also include a combination of raw brick, painted brick and rendered brick in natural, earthy colours. Timber windows. | |
| Fencing | Low, open fencing forward of the building line to height of 900mm. Associated with the traditional period, style and form of building. Hedges, timber picket, post and rail with woven wire, paling or railing, stone, rendered brick or block. | |

| Statement# | Statement | |
|------------|---|---|
| | Setting, landscaping, streetscape and public realm features | <p>Undulating and natural setting with minimal cut and fill, and extensive planting and landscaping.</p> <p>The Township provides for a visual transition between the rural landscape of the hills to the east and the suburban plains to the west.</p> <p>Angove's tower and cellar are recognised as landmark buildings and are important elements of the western gateway, including vistas of the tower.</p> <p>The North East Road entrance to Anstey Hill Recreation Park is also an important gateway and features historic building relics that line the entrance walk inside the park.</p> <p>The communal focal point is Haines Memorial Park, which features a European landscape theme surrounded by native street tree planting which illustrates the history of European settlement. Views to and from Haines Memorial park.</p> <p>Strong landscape setting dominated by undulating topography. Significant stands of native trees and intensively landscaped watercourse of Tea Tree Creek</p> <p>Discreet, low scale advertising comprising typefaces, colours, sizes and forms associated with the clear and simple styles used on the 19th and early 20th centuries, generally not illuminated.</p> |

| <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | | |
| | Eras, themes and context | 1870 to 1900 built development. |
| | Allotments, | Simple grid layout pattern, with longitudinal axis perpendicular to narrow roads. Regular modest allotments and wide site frontages. Prevailing and coherent |

| Statement# | Statement | |
|---|---|---|
| Un2 | subdivision and built form patterns | rhythm of building siting, street setbacks, side boundary setbacks, spacing between buildings and garden landscape setting. |
| | Architectural styles, detailing and built form features | Victorian double fronted, symmetrical and asymmetrical cottages. Complementary Victorian corner shops that are landmarks and features of the area. Hipped and gable roof forms, roof louvres, chimneys, open bullnose, concave or straight-pitch verandahs, feature ornamentation (plasterwork and ironwork), lattice work and associated front fences. Carports, garages and side additions are separate and recessed from the main building and façade, and are a minor, unobtrusive presence in the streetscape. |
| | Building height | Wall Height in the order of 3.5 metres. Total Roof Height in the order of 5.7 metres; and Roof Pitch in the order of 27 degrees and 35 degrees. Verandahs in the order of 2.1 metre fascia height and 3.0 metre pitching height. |
| | Materials | Sandstone. Bluestone. Timber joinery including window frames, door frames, doors, fascias, bargeboards and verandah posts. Brick quoins, occasionally rendered, around windows and doors. Brick or rendered string courses and plinths. Corrugated Iron roof cladding. |
| | Fencing | Typical of the historic character of the area, street and architectural style and materials of the associated building. Where forward of the front façade of the principle building, low in height, typically less than 1.0 metre but up to 1.2 metres. Larger sites and of more than 16 metres street frontage may include vertical elements up to 1.8 metres in total height. Open, see-through and maintaining an open streetscape presence of the associated building, including typical styles comprising: Timber picket, dowel or paling with top rail; Corrugated iron or mini orb or steel strap panels within timber framing and posts; Woven crimped wire, wire mesh on timber or galvanised steel tube framing; Simple masonry plinth (500mm) and widely spaced minimum numbers of piers with decorative see-through iron palisade or steel bar inserts; Stone, brick and/or stucco masonry low in height with wrought iron or steel bar inserts (typically geometric pattern); Hedges, with or without fencing. |
| | Setting, landscaping, streetscape and public realm features | Compact streetscape character, simple grid of short and narrow streets, narrow verges, modest street trees. Goodwood Estate of 1875 a rectangular section of 30 acres (12.1 hectares) with regular layout of standard modest properties, some local corner shops, adjacent to facilities and services along Goodwood Road and the notable bisection in north by tramway corridor. |
| | Representative Buildings | Identified - refer to SA planning database. |
| Un3 | Residential Compact Parkside St Ann's Estate Historic Area Statement (Un3) | |
| | <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | |
| | Eras, themes and context | 1860 to 1940 built development. |
| | Allotments, subdivision and built form patterns | Village initial layout and development in 1854. Tightly angled pattern of short and narrow streets. Prevailing and coherent rhythm of building siting, street setbacks, side boundary setbacks, spacing and garden landscape setting. Varied allotment sizes and site frontages reflective of the architectural era of the building. |
| | Architectural styles, detailing and built form features | Victorian and Turn-of-the-Century double fronted cottages and villas, single-fronted, attached and row cottages. Later complementary Inter-War styles, together with corner shop variations and institutional buildings, including school and church buildings. Hipped and gable roof forms, roof louvres, chimneys, open bullnose, concave or straight-pitch verandahs, feature ornamentation (plasterwork and ironwork), lattice work and associated front fences. Carports, garages and side additions are separate and recessed from the main building and façade, and are a minor, unobtrusive presence in the streetscape. |
| | Building height | Wall Height in the order of 3.3 to 3.5 metres, total Roof Height in the order of 5.7 metres; and Roof Pitch in the order of 27 degrees and 35 degrees. Verandahs in the order of 2.1 metre fascia height and 3.0 metre pitching height. |
| | Materials | Sandstone. Bluestone. Timber joinery including window frames, door frames, doors, fascias, bargeboards and verandah posts. Brick quoins, occasionally rendered, around windows and doors. Brick or rendered string courses and plinths. Rendered masonry. Corrugated Iron roof cladding. |
| | Fencing | Typical of the historic character of the area, street and architectural style and materials of the associated building. Where forward of the front façade of the principle building, low in height, typically less than 1.0 metre but up to 1.2 metres. | Residential Grand Unley Park Heywood Estate Historic Area Statement (Un9) | | |
|---|---|--|
| <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | | |
| Un9 | Eras, themes and context | 1860 to 1940's built development. |
| | Allotments, subdivision and built form patterns | Regular, very generous allotments and site frontages. Prevailing rhythm of building siting, street setbacks, side boundary setbacks, spacing between buildings and grand garden landscape setting. |
| | Architectural styles, detailing and built form features | Victorian Villas and Mansions. Turn-of-the-Century Villas and Mansions. Inter-War period Bungalows, particularly Gentleman's Bungalows. Tudor, particularly Gentleman's Tudors. Old English, Georgian Revival and other International Styles. Individualised by original architectural inspirations. Carports, garages and side additions are separate and recessed from the main building and façade, and are a minor, unobtrusive presence in the streetscape. |
| | Building height | Grand built scale and form of existing historic buildings. |
| | Materials | Consistent with the materials typically associated with the style and era of the dwelling. For example (but not limited to): stone with brick or rendered embellishments, iron roof and timber joinery for Victorian and Turn-of-the-Century; stone with brick embellishments, tiled roof and timber joinery for Bungalows; |

| Statement# | Statement | |
|---|-----------|---|
| | | brick with rendered embellishments, tiled roof and timber joinery and gable details for Tudors, brick or render with restrained detailing, flat roof forms and timber, steel and/or concrete features for International Styles. |
| Fencing | | Typical of the historic character of the area, street and architectural style and materials of the associated building. Where forward of the front façade of the principle building, low in height, typically less than 1.0 metre but up to 1.2 metres. Larger sites and of more than 16 metres street frontage may include vertical elements up to 1.8 metres in total height. Open, see-through and maintaining an open streetscape presence of the associated building, including typical styles comprising: Timber picket, dowel or paling with top rail; Corrugated iron or mini orb or steel strap panels within timber framing and posts; Woven crimped wire, wire mesh on timber or galvanised steel tube framing; Simple masonry plinth (500mm) and widely spaced minimum numbers of piers with decorative see-through iron palisade or steel bar inserts; Stone, brick and/or stucco masonry low in height with wrought iron or steel bar inserts (typically geometric pattern); hedges, with or without fencing. |
| Setting, landscaping, streetscape and public realm features | | Wide streets and verges. Avenues of substantial street trees. Expansive allotments, street frontages with substantial well landscaped gardens including trees. Heywood Park a key feature at junction of key axis of King William Road and Northgate Street. |
| Representative Buildings | | <i>[Not identified]</i> |

| Un10 | Residential Grand Myrtle Bank Historic Area Statement (Un10) | |
|---|--|---|
| | The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. | |
| | These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. | |
| | The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table. | |
| Eras, themes and context | | 1880 to 1940 built development. |
| Allotments, subdivision and built form patterns | | Generous, wide, long street. Regular, very generous allotments and site frontages. Prevailing and coherent rhythm of building siting, street setbacks, side boundary setbacks, spacing between buildings and garden landscape setting. |
| Architectural styles, detailing and built form features | | Victorian and Turn-of-the-Century grand villas. Inter-War era, primarily Bungalow but also Tudor, Art Deco, Mediterranean and complementary styles. Hipped and gable roof forms, chimneys, open verandahs, feature ornamentation (plasterwork, ironwork and timberwork), lattice work and associated front fences. Carports, garages and side additions are separate and recessed from the main building and façade, and are a minor, unobtrusive presence in the streetscape. |
| Building height | | Consistent and recognisable pattern of traditional building proportions including wall heights and widths of facades, and roof height, volumes and shapes, and verandahs associated with the identified architectural styles. |
| Materials | | Sandstone. Bluestone. Brick, including glazed brick, and stucco painted finishes. Rendered masonry. Timber joinery including window frames, door frames, doors, fascias, bargeboards and verandah posts. Brick quoins, occasionally rendered, around windows and doors. Brick or rendered string courses and plinths. Corrugated iron roof cladding. Tiled roof cladding on some post 1900s buildings. |
| Fencing | | Typical of the historic character of the area, street and architectural style and materials of the associated building. Where forward of the front façade of the principle building, low in height, typically less than 1.0 metre but up to 1.2 metres. Larger sites and of more than 16 metres street frontage may include vertical elements up to 1.8 metres in total height. Open, see-through and maintaining an open streetscape presence of the associated building, including typical styles comprising: Timber picket, dowel or paling with top rail; Corrugated iron or mini orb or steel strap panels within timber framing and posts; Woven crimped wire, wire mesh on timber or galvanised steel tube framing; Simple masonry plinth (500mm) and widely spaced minimum numbers of piers with decorative see-through iron palisade or steel bar inserts; Stone, brick and/or stucco masonry low in height with wrought iron or steel bar inserts (typically geometric pattern); hedges, with or without fencing. |
| Setting, landscaping, streetscape and public realm features | | Grand streetscape character. Generous wide street. Wide verges. Large street trees. |

| | The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table. | |
| Eras, themes and context | | 1900 to 1930's built development. |
| Allotments, subdivision and built form patterns | | Basic grid street layout around the central recreation feature of Goodwood Oval, but with long curvilinear and some truncated streets around the bisecting train lines previously laid in the 1870's. Spacious streetscape character of long, short and curved, wide, tree-lined streets. Generous allotments and site frontages. Prevailing and coherent rhythm of building siting, street setbacks, side boundary setbacks, spacing between buildings and garden landscape setting. |

| Statement# | Statement | |
|------------|---|---|
| Un11 | Architectural styles, detailing and built form features | Victorian and Turn-of-the-Century villa styles. Primarily distinctive Inter-War period bungalows, art deco, Tudor and complementary later styles. Hipped and gable roof forms, roof louvres, chimneys, open bullnose, concave or straight-pitch verandahs, feature ornamentation (plasterwork and ironwork), lattice work and associated front fences. Carports, garages and side additions are separate and recessed from the main building and façade, and are a minor, unobtrusive presence in the streetscape. |
| | Building height | Wall Height in the order of 3.6 metres. Total Roof Height in the order of 5.6 metres; and Roof Pitch in the order of 27 degrees and 35 degrees.-Verandahs, on earlier styles in the order of 2.1 metre fascia height and 3.0 metre pitching height, and on later styles incorporated as part of principle building main roof extension. |
| | Materials | Sandstone. Bluestone. Brick, including glazed brick, and stucco painted finishes. Rendered masonry. Timber joinery including window frames, door frames, doors, fascias, barges and verandah posts. Brick quoins, occasionally rendered, around windows and doors. Corrugated Iron roof cladding. Tiled roof cladding on later style buildings. |
| | Fencing | Typical of the historic character of the area, street and architectural style and materials of the associated building. Where forward of the front façade of the principle building, low in height, typically less than 1.0 metre but up to 1.2 metres. Larger sites and of more than 16 metres street frontage may include vertical elements up to 1.8 metres in total height. Open, see-through and maintaining an open streetscape presence of the associated building, including typical styles comprising: Timber picket, dowel or paling with top rail; Corrugated iron or mini orb or steel strap panels within timber framing and posts; Woven crimped wire, wire mesh on timber or galvanised steel tube framing; Simple masonry plinth (500mm) and widely spaced minimum numbers of piers with decorative see-through iron palisade or steel bar inserts; Stone, brick and/or stucco masonry low in height with wrought iron or steel bar inserts (typically geometric pattern); hedges, with or without fencing. |
| | Setting, landscaping, streetscape and public realm features | Spacious streetscape character. Simple grid of long, short and curved, wide, tree-lined streets. Large front gardens. Wide verges. Large street trees. |
| | Representative Buildings | <i>[Not identified]</i> |

| Residential Spacious Millswood Wooldridge Estate Historic Area Statement (Un12) | | |
|---|---|--|
| <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> | | |
| <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> | | |
| <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | | |
| Eras, themes and context | 1920 to 1940's built development. | |
| Allotments, subdivision and built form patterns | Short grid street layout of short, wide tree-lined streets. Generous allotments and site frontages. Prevailing and coherent rhythm of building siting, street setbacks, side boundary setbacks, spacing between buildings and garden landscape setting. | |
| Architectural styles, detailing and built form features | Central to this estate is the notable original homestead "Bella Vista" c1862. Late Inter-War period (between 1934 and 1940) in particular of bungalow, Tudor, art deco and complementary latter English domestic styles. Hipped and gable roof forms, roof louvres, chimneys, open bullnose, concave or straight-pitch verandahs, feature ornamentation (plasterwork and ironwork), lattice work and associated front fences. Carports, garages and side additions are separate and recessed from the main building and façade, and are a minor, unobtrusive presence in the streetscape. | |

In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | |
| | Eras, themes and context | 1880 to 1920 built development. |
| | Allotments, subdivision and built form patterns | Spacious streetscape character of regular grid layout (with axial views focussed on the central oval feature) of wide, tree-lined streets. Generous allotments and site frontages. Prevailing and coherent rhythm of building siting, street setbacks, side boundary setbacks, spacing between buildings and garden landscape setting. |
| | Architectural styles, detailing and built form features | Victorian and Turn-of-the-Century villas (asymmetrical and symmetrical), double-fronted cottages and limited complementary, Inter-war era, styles. More affluent, original owners developed some larger, amalgamated allotments in the southern areas of Malvern establishing grander residences and gardens. Hipped and gable roof forms, roof louvres, chimneys, open bullnose, concave or straight-pitch verandahs, feature ornamentation (plasterwork and ironwork), lattice work and associated front fences. Carports, garages and side additions are separate and recessed from the main building and façade, and are a minor, unobtrusive presence in the streetscape. |
| | Building height | Wall Height in the order of 3.6 metres. Total Roof Height in the order of 5.6 metres; and Roof Pitch in the order of 27 degrees and 35 degrees. Verandahs, on earlier styles in the order of 2.1 metre fascia height and 3.0 metre pitching height, and on later styles incorporated as part of principle building main roof extension. |
| | Materials | Sandstone. Bluestone. Timber joinery including window frames, door frames, doors, fascias, bargeboards and verandah posts. Brick quoins, occasionally rendered, around windows and doors. Brick or rendered string courses and plinths. Corrugated iron roof cladding. Tiled roof cladding on some post 1900s buildings. |
| | Fencing | Typical of the historic character of the area, street and architectural style and materials of the associated building. Where forward of the front façade of the principle building, low in height, typically less than 1.0 metre but up to 1.2 metres. | Building height | Wall Height in the order of 3.5 metres. Total Roof Height in the order of 5.7 metres; and Roof Pitch in the order of 27 degrees and 35 degrees. Verandahs in the order of 2.1 metre fascia height and 3.0 metre pitching height. Consistent and recognisable pattern of traditional building proportions including wall heights and widths of facades, and roof height, volumes and shapes associated with the identified architectural styles. | | | | | | | | |
| | | | | | | | | | |
| | | | | | | | | | |
| | | | | | | | | | |

| Statement# | Statement | |
|------------|---|---|
| | Materials | Sandstone. Bluestone. Timber joinery including window frames, door frames, doors, fascias, bargeboards and verandah posts. Brick quoins, occasionally rendered, around windows and doors. Brick or rendered string courses and plinths. Rendered masonry. Corrugated iron roof cladding. Tiled roof cladding on some post 1900s buildings. |
| | Fencing | Typical of the historic character of the area, street and architectural style and materials of the associated building. Where forward of the front façade of the principle building, low in height, typically less than 1.0 metre but up to 1.2 metres. Larger sites and of more than 16 metres street frontage may include vertical elements up to 1.8 metres in total height. Open, see-through and maintaining an open streetscape presence of the associated building, including typical styles comprising: Timber picket, dowel or paling with top rail; Corrugated iron or mini orb or steel strap panels within timber framing and posts; Woven crimped wire, wire mesh on timber or galvanised steel tube framing; Simple masonry plinth (500mm) and widely spaced minimum numbers of piers with decorative see-through iron palisade or steel bar inserts; Stone, brick and/or stucco masonry low in height with wrought iron or steel bar inserts (typically geometric pattern); hedges, with or without fencing. |
| | Setting, landscaping, streetscape and public realm features | Compact streetscape character. Simple grid of short and narrow streets. Narrow verges. Modest street trees. |

| Un28 | Residential Spacious Fullarton Roseberry Estate Historic Area Statement (Un28) | |
|------|---|---|
| | <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | |
| | Eras, themes and context | 1840 to 1940 built development. |
| | Allotments, subdivision and built form patterns | Spacious streetscape character of regular grid of short, wide, tree-lined streets. Regular, generous allotments and site frontages. Prevailing and coherent rhythm of building siting, street setbacks, side boundary setbacks, spacing between buildings and garden landscape setting. |
| | Architectural styles, detailing and built form features | Notable original homesteads include "Rosefield" c1842 and "Woodfield" c1883. Victorian and Turn-of-the-Century double fronted cottages and villas. Inter-War period primarily bungalows, and some unique Spanish mission and complementary later styles. Hipped and gable roof forms, roof louvres, chimneys, open bullnose, concave or straight-pitch verandahs, feature ornamentation (plasterwork and ironwork), lattice work and associated front fences. Carports, garages and side additions are separate and recessed from the main building and façade, and are a minor, unobtrusive presence in the streetscape. |
| | Building height | Wall Height in the order of 3.6 metres. Total Roof Height in the order of 5.6 metres; and Roof Pitch in the order of 27 degrees and 35 degrees. Verandahs, on earlier styles in the order of 2.1 metre fascia height and 3.0 metre pitching height, and on later styles incorporated as part of principle building main roof extension. |
| | Materials | Sandstone. Bluestone. Brick, including glazed brick. Rendered masonry. Timber joinery including window frames, door frames, doors, fascias, barges and verandah posts. Brick quoins, occasionally rendered, around windows and doors. Corrugated Iron roof cladding. Tiled roof cladding on some post 1900s buildings. |
| | Fencing | Typical of the historic character of the area, street and architectural style and materials of the associated building. Where forward of the front façade of the principle building, low in height, typically less than 1.0 metre but up to 1.2 metres. Larger sites and of more than 16 metres street frontage may include vertical elements up to 1.8 metres in total height. Open, see-through and maintaining an open streetscape presence of the associated building, including typical styles comprising: Timber picket, dowel or paling with top rail; Corrugated iron or mini orb or steel strap panels within timber framing and posts; Woven crimped wire, wire mesh on timber or galvanised steel tube framing; Simple masonry plinth (500mm) and widely spaced minimum numbers of piers with decorative see-through iron palisade or steel bar inserts; Stone, brick and/or stucco masonry low in height with wrought iron or steel bar inserts (typically geometric pattern); hedges, with or without fencing. |
| | Setting, landscaping, streetscape and public realm features | Spacious streetscape character from later 1921-1927 subdivision of original farms. Simple grid of short, wide, tree-lined streets. Large front gardens. Wide verges. Large street trees. Regular street-fronting dwelling format, primarily of detached dwellings, and complementary community buildings. |

| Historic Areas affecting City of Victor Harbor | |
|--|--|
| <p>Victor Harbor Town Centre Historic Area Statement (ViH1)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> | |
| Eras, themes and context | 1870s to 1890s era, a period of early development in Victor Harbor. 1920s to 1930s when Victor Harbor experienced a boom period as a holiday destination. |

| Statement# | Statement | |
|------------|---|---|
| ViH1 | Allotments, subdivision and built form patterns | Mostly grid pattern. The intersections of Ocean Street and Coral Street, Coral Street and Flinders Parade and the termination of the Railway Terrace at Warland Reserve are key elements of urban space within the area. No or minimal front and side setbacks. |
| | Architectural styles, detailing and built form features | Commercial premises in Ocean Street, institutional buildings in Coral Street and those supporting facilities associated with the terminus of the railway line along Railway Terrace. Late 1800s era shops (some with Inter-war additions), dwellings, shop/dwellings, town hall, institute/library, hotels, former banks, railway buildings and associated infrastructure. Victorian stylistic influences. Inter-War commercial and public buildings, some with Art-Deco and some with Stripped Classical stylistic influences. Low scale and simple form. Rectilinear plan form with steeply-pitched roof forms (typically 35 to 40 degrees) on 1800s and early 1900s era buildings, also comprising low-pitched roofs behind parapets on Inter-War buildings, reflecting traditional architectural styles and building methods. Short roof spans, minimising roof bulk. Concave, bullnose and straight-pitched verandahs on front and sometimes side facades reduce building bulk and scale and add visual interest. Lean-to forms are also common. Fine-grain detail in elements such as plinths, string courses, projecting sills. High solid to void ratio. Vertical proportions in windows and doors. |
| | Building height | Prevailing one to two storeys. One or two three storey buildings on Coral Street and Flinders Parade. |
| | Materials | Limestone walls, some rendered masonry. Red brick or rendered quoin work and detail. Timber joinery including window frames, door frames, doors, fascias, bargeboards and verandah posts. Corrugated iron or corrugated steel roofing. Variation in materials which assists in breaking down bulk and scale, adding visual interest. |
| | Fencing | Some timber picket fencing and corrugated iron fencing. |
| | Setting, landscaping, streetscape and public realm features | Commercial properties provide the main built form and are characteristically single or two-storey buildings aligning with the street boundary. Typically buildings are symmetrical in design with parapets, verandas and balconies over the footpath to further define the pedestrian nature of the area. The railway corridor with its associated buildings and infrastructure is a prominent landscape element. |

Historic Areas affecting Wakefield

| | | |
|---|--|---|
| WAKR1 | Edith Terrace / Wallace Street, Balaklava Historic Area Statement (WakR1) | |
| | The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. | |
| | These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. | |
| | The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table. | |
| | Eras, themes and context | 1875-1930. |
| | Allotments, subdivision and built form patterns | [Not stated] |
| | Architectural styles, detailing and built form features | Face stone walls dressed with quoins; stuccoed raised parapets and stucco 'neoclassical' styled decoration/ elements to commercial premises. Framed shopfront windows and doors. Steeply pitched roof forms. Verandahs provided over footpaths. |
| | Building height | Single storey. |
| | Materials | Local stone, masonry, stucco, red brick quoins, corrugated iron, timber framed windows and doors and brick chimneys. |
| Fencing | [Not stated] | |
| Setting, landscaping, streetscape and public realm features | Remnant 'Silent Cop' in intersection of two streets, locating the commercial centre of the town. Buildings square to and consistently set back from the street, creating a strong building line with little interruption. Minimal breaks between buildings except where access to the rear of a site is provided. | |
| Representative Buildings | [Not identified] | |

| WAKR18 | <p>Railway Terrace (West), Snowtown Historic Area Statement (WakR18)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p> <table border="1" data-bbox="135 1232 1560 1856"> <tr> <td data-bbox="135 1232 510 1299">Eras, themes and context</td> <td data-bbox="510 1232 1560 1299">1910-1920.</td> </tr> <tr> <td data-bbox="135 1299 510 1366">Allotments, subdivision and built form patterns</td> <td data-bbox="510 1299 1560 1366">[Not stated]</td> </tr> <tr> <td data-bbox="135 1366 510 1478">Architectural styles, detailing and built form features</td> <td data-bbox="510 1366 1560 1478">Dwellings with face stone walls with quoins or horizontal timber planking, vertically proportioned double-hung timber windows and timber entry doors, steeply pitched gable or half-gabled hipped roofs with chimneys and both integrated and separated front verandahs and porches.</td> </tr> <tr> <td data-bbox="135 1478 510 1545">Building height</td> <td data-bbox="510 1478 1560 1545">Single storey.</td> </tr> <tr> <td data-bbox="135 1545 510 1635">Materials</td> <td data-bbox="510 1545 1560 1635">Local stone, masonry, horizontal timber planking, red brick quoins, corrugated iron, timber-framed windows and doors and brick chimneys.</td> </tr> <tr> <td data-bbox="135 1635 510 1702">Fencing</td> <td data-bbox="510 1635 1560 1702">Timber and wire fences not exceeding 1.2m to Main Street and corrugated iron fencing to other boundaries.</td> </tr> <tr> <td data-bbox="135 1702 510 1792">Setting, landscaping, streetscape and public realm features</td> <td data-bbox="510 1702 1560 1792">Buildings sited centrally on allotments with consistent front and side setbacks.</td> </tr> <tr> <td data-bbox="135 1792 510 1856">Representative Buildings</td> <td data-bbox="510 1792 1560 1856">[Not identified]</td> </tr> </table> | Eras, themes and context | 1910-1920. | Allotments, subdivision and built form patterns | [Not stated] | Architectural styles, detailing and built form features | Dwellings with face stone walls with quoins or horizontal timber planking, vertically proportioned double-hung timber windows and timber entry doors, steeply pitched gable or half-gabled hipped roofs with chimneys and both integrated and separated front verandahs and porches. | Building height | Single storey. | Materials | Local stone, masonry, horizontal timber planking, red brick quoins, corrugated iron, timber-framed windows and doors and brick chimneys. | Fencing | Timber and wire fences not exceeding 1.2m to Main Street and corrugated iron fencing to other boundaries. | Setting, landscaping, streetscape and public realm features | Buildings sited centrally on allotments with consistent front and side setbacks. | Representative Buildings | [Not identified] |
