

Tram Grade Separation Projects

Marion Road and Cross Road Level Crossing Removals

Upcoming works

The Australian and South Australian governments have jointly (50:50) funded \$400 million to remove the two-level crossings where the Glenelg tram line crosses Marion Road and Cross Road, Plympton.

As part of the project, the intersections at Marion Road and Cross Road and Marion Road and Anzac Highway will be upgraded to further relieve congestion and improve safety.

What's happening:

As part of our early works program, ground investigations and service relocations are continuing at multiple locations near the level crossings and intersections. Some investigations are also required in the rail corridor near the level crossings.

Investigations will occur at each location for a short period of time and will move progressively around the area. These investigations will help inform the detailed design.

Access to properties will be maintained during the works wherever possible. We will provide advance local notification for residents and businesses if access to your property is to be temporarily impacted.

Should works be required for long periods of time in a certain area, more specific advance notice will be provided.

Early works will continue until late 2024.

How this affects you:

Marion Road and Cross Road / Marion Road and Anzac Highway

To reduce impacts to road users, works at the intersections will primarily be undertaken at night. Some day works may also be required. Access to side roads from Marion Road, Cross Road and Anzac Highway will be closed intermittently for short periods of time, with local detours in place.

Onsite signage and traffic controllers will be in place to assist.

When

From Saturday 11 May until late July 2024, weather permitting.

Typical hours of operation

Night works

Sunday to Friday
7pm – 6am

Day works

Monday to Saturday
7am-5pm

Some works will occur on Sunday.

Where

Marion Road and Cross Road within the vicinity of the level crossings and intersection.

Marion Road and Anzac Highway within the vicinity of the intersection.

Local side roads Please see map overleaf.

Australian Government

Government of South Australia

Department for Infrastructure and Transport

Local side roads

To reduce impacts to residents, the majority of works on local side roads will be undertaken during the day. For safety reasons, some locations may require works at night. We will get in touch with you for any key night works activities.

What you need to do:

During these works there will be changes to traffic conditions to keep everyone safe.

Speed and lane restrictions will be in place while works are underway. Some short-term road closures and local detours will be required. Please follow traffic management directions and onsite signage. Outside of working hours, traffic will be fully reopened with all speed and lane restrictions removed.

During these works there may be some noise disruptions. We will do our best to minimise noise where possible.

Pedestrians and cyclists should take care when travelling through the area. For safety reasons, there may be some restricted access. Signage will be in place to direct you to alternative access and/or detours.

There will be no impacts to bus or tram stops or services as part of these works.
