

Upper Yorke Road Safety Upgrades

Kulpara to Arthurton

We are delivering critical road safety upgrades to Upper Yorke Road between Kulpara and Arthurton. These works are jointly funded by the Australian (50%) and South Australian (50%) governments as part of the \$168 million National Road Safety Program over 3 years.

What's happening:

We are undertaking safety upgrades at various locations on this section of Upper Yorke Road. Works will include:

- pavement rehabilitation
- shoulder sealing
- safety barrier installation
- some vegetation management

These upgrades will deliver improvements to freight movements, support regional economic growth and improve safety for all road users.

How this affects you:

To do this work safely we'll have speed and lane restrictions in place in work areas. Please plan your trips, be cautious around workers, and follow the speed limits and signs. Outside of work hours speed restrictions will remain in place subject to onsite conditions.

You will still be able to access businesses and homes. If we need to limit access, we'll let property owners know ahead of time.
