

# Flagstaff Road Upgrade Project

## Night works and changed traffic conditions

The Department for Infrastructure and Transport (the Department) is upgrading Flagstaff Road, between Hyland Avenue and Bonneyview Road. The South Australian Government has committed \$32.9 million towards the project, which will improve travel times, capacity and safety for all users.

Over the coming weeks drainage works are continuing along the road alignment in addition to the installation of Intelligent Traffic Systems (to monitor traffic and road conditions), road lighting, and asphalt.

In order to minimise the impact to road users, these works will be undertaken each night **between Hyland Avenue and Bonneyview Road from 8pm to 5:30am, commencing Sunday, 24 October until Friday, 10 December 2021, weather permitting.**

### Night works and temporary road closures

Flagstaff Road will be temporarily closed to vehicles and cyclists, between Hyland Avenue and Bonneyview Road from 8pm. The road will re-open at 5:30am each morning. No works or road closures will occur on Saturday nights.

Local access, public transport and emergency services access will be maintained.

### Access arrangements during night works

To safely undertake these works, traffic detours, speed and lane restrictions will be in place during the works.

Local access to Hyland Avenue, Elly Court and properties from number 2 to 16 Flagstaff Road will be via the southbound lane of Flagstaff Road. Traffic coming from Marion Road and northbound from Main South Road will be required to use the U-turn facility located on Main South Road at Riverside Drive, Bedford Park.

Exit from Hyland Avenue, Elly Court and properties from number 2 to 16 Flagstaff Road for local traffic can also be via the northbound lane of Flagstaff Road.

Please see the maps over the page for traffic detour and local traffic access information.

Traffic management and signage will be in place to alert road users to changed traffic conditions. Please plan ahead, allow extra travel time and take extra care when workers are on site. Observe speed limits, lane restrictions and traffic controllers when travelling through the area.

Some noise disturbance can be expected at times while these works are completed, however the work will be managed to minimise disturbance to nearby residents and businesses, as much as practically possible.

There is no change to public transport services. Access for emergency service vehicles will be maintained at all times during these works.

BUILDING  
WHAT MATTERS

Local access to properties will be maintained at all times throughout the works wherever possible, with advance notice provided if there is a need to temporarily restrict driveway access.

The Department appreciates your co-operation and patience while these important works are undertaken.
