

Flagstaff Road Upgrade Project

Project Update

The Department for Infrastructure and Transport (the Department) is upgrading Flagstaff Road, between Hyland Avenue and Bonneyview Road. The South Australian government has committed \$32.9 million to deliver this program of work, which will improve travel times, capacity and safety for all users. The upgrade involves the installation of a fourth lane to make it a permanent two-way carriageway.

Over the coming weeks the following works will be undertaken:

- construction of a Shared Use Pedestrian Bridge and on road bicycle lane;
- installation of road lighting;
- installation of safety barriers;
- installation of an Intelligent Traffic System (ITS), a system that monitors traffic and road conditions;
- installation of drainage; and
- asphalt placement.

To safely facilitate these works, traffic will be shifted to eastern side of the road at **5:30am on Wednesday, 22 December 2021, weather permitting**. This will allow work to commence on the western side of the road. These new traffic arrangements will remain in place until early March 2022.

Please see the maps over the page for traffic, pedestrian, cyclist and local traffic access information.

Day works will also continue from Monday to Saturday, between 7am and 6pm. Flagstaff Road will remain open during day works, with speed and lane restrictions in place to safely undertake these works.

Some noise disturbance can be expected at times while these works are completed, however the work will be managed to minimise disturbance to nearby residents and businesses, as much as practically possible.

Some temporary pedestrian detours will be in place around the works site and pedestrians are advised to follow directional signage. Every effort will be made to minimise impacts to the community.

There is no change to public transport services. Access for emergency service vehicles will be maintained at all times during these works.

Access to properties will be maintained under all traffic conditions, with advance notice provided if there is a need to temporarily restrict driveway access.

Please plan ahead, allow extra travel time and take extra care when workers are on site. Observe speed limits, lane restrictions and traffic controllers when travelling through the area.

The Department appreciates your co-operation and patience while these important works are undertaken.

BUILDING
WHAT MATTERS

Upcoming traffic switch - new temporary arrangement from 5:30am Wednesday, 22 December 2021 until early March 2022, weather permitting.

Road users will be re-directed onto the newly constructed lane and the existing southbound lane, between Hyland Avenue and Bonneyview Road.

Access for pedestrians and cyclists during the traffic switch from 5:30am Wednesday, 22 December 2021 until early March 2022, weather permitting.
