

Torrens to Darlington

Ground Investigation Works

The Torrens to Darlington (T2D) Project is the final 10.5 km section of South Australia's world-class multi-billion dollar North-South Corridor. In the coming weeks the Department for Infrastructure and Transport will be undertaking ground investigations in your area as part of the early works for the next stage of the Project. This will help us to develop a comprehensive picture of the underlying soil and ground water conditions along the South Road corridor.

Location and timing

We will be carrying out investigations in the south western corner of Kegworth Reserve, Melrose Park. Investigations works are expected to take one day and occur sometime between Thursday 27 January and Friday 4 February and will be carried out between 7am and 6pm. In the event that these works need to be rescheduled due to weather conditions or other circumstances outside of our control, we will advise you as soon as we have details.

No Traffic restrictions

- Driveway access at locations adjacent to the works will be maintained for the duration.

What to expect

During works you may notice additional ground and traffic management personnel and equipment within the area. Some disturbances can be expected such as noise, dust and vibration.

Keeping you informed

If you have any questions or concerns and would like to speak to a member of our project team, please do not hesitate to contact us on 1300 951 145 or northsouthcorridor@sa.gov.au
