

Torrens to Darlington

Demolition Works

The Torrens to Darlington (T2D) Project is the final 10.5 km section of South Australia's world-class multi-billion dollar North-South Corridor.

In the coming weeks we will be undertaking demolition works of the Logistics Control Centre (LCC) building at 1284 South Road, Tonsley, as this land will form part of the southern laydown area for the construction of the southern tunnels.

Location and timing

Works are expected to commence the week beginning Monday 7 February 2022 and continue for approximately 12 weeks, weather permitting. They will be carried out between 7am and 7pm, Monday to Saturday (inclusive).

If these works need to be rescheduled due to weather conditions or other circumstances outside of our control, we will advise you as soon as practicable. We will advise of any interruptions to services during these works. Every effort will be made to minimise disruption as much as is practically possible.

These works will not impact Bedford Medical Centre.

What we'll be doing

The project will be dismantling the vacant LCC Building and associated computer room, removing materials from site, and securing the land ready for the next stage of construction. Works will include:

- implementing environmental controls including dust suppression
- using controlled methods to demolish structures, supporting structures/foundations and hardstand areas
- the safe removal of asbestos by a licensed asbestos contractor in accordance with the EPA Guidelines
- preparing materials for transport to appropriate disposal facilities.

What to expect

There will be no traffic restrictions during these works. However, during works you may notice additional ground and traffic management personnel and equipment within the area.

Some disturbances can be expected such as noise, dust and vibration associated with the demolition and removal of structural elements, supporting foundations and hardstand areas.

Keeping you informed

If you have any questions or concerns and would like to speak to a member of our project team, please do not hesitate to contact us on 1300 951 145 or T2D@sa.gov.au
