**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
<b>Industry</b>	Light Industry
<b>Shop</b>	Any of the following: <ul style="list-style-type: none"> <li>(a) shop located in the Main Street Subzone</li> <li>(b) shop located in the Urban Neighbourhood Retail Subzone</li> <li>(c) shop with a gross leasable floor area less than 2000m<sup>2</sup></li> <li>(d) shop that is a restaurant.</li> </ul>

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any kind of development where the site of the development is <b>not</b> adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.	Except any of the following: <ul style="list-style-type: none"> <li>1. the demolition of a State or Local Heritage Place</li> <li>2. the demolition of a building (except an ancillary building) in a Historic Area Overlay</li> </ul>

<p>3. Any development involving any of the following (or of any combination of any of the following):</p> <ul style="list-style-type: none"> <li>(a) advertisement</li> <li>(b) air handling unit, air conditioning system or exhaust fan</li> <li>(c) dwelling</li> <li>(d) dwelling addition</li> <li>(e) pre-school</li> <li>(f) residential flat building</li> <li>(g) retirement facility</li> <li>(h) shade sail</li> <li>(i) solar photovoltaic panels (roof mounted)</li> <li>(j) student accommodation</li> <li>(k) supported accommodation</li> <li>(l) swimming pool or spa pool</li> <li>(m) tourist accommodation</li> <li>(n) water tank.</li> </ul>	<p>Except development that exceeds the maximum building height specified in Urban Neighbourhood DTS/DPF 2.2 or does not satisfy Urban Neighbourhood DTS/DPF 3.1.</p>
<p>4. Any development involving any of the following (or of any combination of any of the following):</p> <ul style="list-style-type: none"> <li>(a) consulting room</li> <li>(b) office</li> <li>(c) shop.</li> </ul>	<p>Except development that exceeds the maximum building height specified in Urban Neighbourhood DTS/DPF 2.2 or does not satisfy any of the following:</p> <ol style="list-style-type: none"> <li>1. Urban Neighbourhood DTS/DPF 1.6</li> <li>2. Urban Neighbourhood DTS/DPF 3.1.</li> </ol>
<p>5. Any development involving any of the following (or of any combination of any of the following):</p> <ul style="list-style-type: none"> <li>(a) internal building works</li> <li>(b) replacement building</li> <li>(c) temporary accommodation in an area affected by bushfire</li> <li>(d) tree damaging activity.</li> </ul>	<p>None specified.</p>
<p>6. Demolition.</p>	<p>Except any of the following:</p> <ol style="list-style-type: none"> <li>1. the demolition of a State or Local Heritage Place</li> <li>2. the demolition of a building (except an ancillary building) in a Historic Area Overlay.</li> </ol>

**Placement of Notices - Exemptions for Performance Assessed Development**

None specified.

**Placement of Notices - Exemptions for Restricted Development**

None specified.

**Main Street Subzone**

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A shopping, entertainment and commercial main street supported by medium to high density residential development.
DO 2	A fine-grained public realm with safe, walkable and vibrant streets created by mixed use buildings with non-residential uses at ground level and a visually consistent street rhythm informed by local context and narrow tenancy footprints.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
<p>PO 1.1</p> <p>Retail, office, entertainment and recreation related uses supplemented by other businesses providing a range of goods and services to the local community and the surrounding district.</p>	<p>DTS/DPF 1.1</p> <p>None are applicable</p>

PO 1.2 Land uses promote movement and activity during daytime and evening hours, including shops, restaurants, small scale licensed premises, educational, community and cultural facilities, and visitor and residential accommodation.	DTS/DPF 1.2 None are applicable.
PO 1.3 Dwellings developed in conjunction with non-residential uses to support business, entertainment and recreational activities and positively contribute to making the main street locality and pedestrian thoroughfares safe, walkable, comfortable, pleasant and lively places.	DTS/DPF 1.3 Dwellings developed in conjunction with non-residential uses sited:  (a) at upper levels of buildings with non-residential uses located at ground level or (b) behind non-residential uses on the same allotment.
PO 1.4 Development of well-designed diverse medium to high density accommodation options, including dwellings, supported accommodation, student accommodation, and short term accommodation, either as part of a mixed use development or wholly residential development.	DTS/DPF 1.4 None are applicable.
Built Form and Character	
PO 2.1 Ground level uses contribute to a safe, walkable and vibrant main street.	DTS/DPF 2.1 Shop, office, or consulting room uses located on the ground floor level of buildings.
PO 2.2 Buildings designed to create visual connection between the public realm and ground level interior, positively contribute to passive surveillance of the public realm, have an active interface with the main street and contribute to the fine-grain character and retail function of the street.	DTS/DPF 2.2 The ground floor primary frontage of buildings provides at least 60% of the street frontage as an entry / foyer or display window to a shop or other community or commercial use that provides pedestrian interest and activation.
PO 2.3 Buildings are adaptable and flexible to suit a range of residential and non-residential land uses.	DTS/DPF 2.3 The ground floor of buildings contains a minimum floor to ceiling height of 3.5m.
PO 2.4 Buildings with no set-backs from the main street boundary to achieve a continuity of built form frontage to the main street, with the occasional section of building set back to create outdoor dining areas, visually interesting building entrances and intimate but vibrant spaces.	DTS/DPF 2.4 None are applicable.
PO 2.5 Vehicle parking and ancillary buildings and structures (including garages, carports and outbuildings) located behind buildings away from the primary main street frontage and designed to minimise negative impacts on the main street rhythm and activation.	DTS/DPF 2.5 None are applicable.

**Urban Neighbourhood Retail Subzone**

Assessment Provisions (AP)

Desired Outcomes (DO)

Desired Outcome	
DO 1	Additional neighbourhood-scale shopping, business, entertainment and recreation facilities to provide a focus for business and community life and most daily and weekly shopping needs of the community.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Retail, office, entertainment and recreation related uses supplemented by other businesses providing a range of goods and services to the community.	DTS/DPF 1.1 Shops not exceeding a maximum gross leasable floor area of:  (a) 5500m <sup>2</sup> within the whole subzone area in West Lakes (b) 2000m <sup>2</sup> within the whole subzone area in Bedford Park (Laffer's Triangle).

**Urban Renewal Neighbourhood Zone**

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Housing and other land uses which no longer meet community preferences are replaced with new diverse housing options. Housing density increases, taking advantage of well-located urban land. Employment and community services will improve access to jobs, goods and services without compromising residential amenity.

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
<p>PO 1.1</p> <p>Predominantly residential development with complementary non-residential uses that support an active, convenient, and walkable urban neighbourhood.</p>	<p>DTS/DPF 1.1</p> <p>Development comprises one or more of the following:</p> <ul style="list-style-type: none"> <li>(a) Ancillary accommodation</li> <li>(b) Community facility</li> <li>(c) Consulting room</li> <li>(d) Dwelling</li> <li>(e) Educational establishment</li> <li>(f) Office</li> <li>(g) Place of Worship</li> <li>(h) Pre-school</li> <li>(i) Recreation area</li> <li>(j) Residential flat building</li> <li>(k) Retirement facility</li> <li>(l) Shop</li> <li>(m) Student accommodation</li> <li>(n) Supported accommodation.</li> </ul>
<p>PO 1.2</p> <p>Commercial activities improve community access to services are of a scale and type to maintain residential amenity.</p>	<p>DTS/DPF 1.2</p> <p>A shop, consulting room or office (or any combination thereof) satisfies (a) or (b):</p> <ul style="list-style-type: none"> <li>(a) it is located on the same allotment and in conjunction with a dwelling where all the following are satisfied:                             <ul style="list-style-type: none"> <li>(i) does not exceed 50m<sup>2</sup> gross leasable floor area</li> <li>(ii) does not involve the display of goods in a window or about the dwelling or its curtilage</li> </ul> </li> <li>(b) where located outside of an Activity Centre, does not exceed 250m<sup>2</sup> in gross leasable floor area.</li> </ul>
<p>PO 1.3</p> <p>Non-residential development located and designed to improve community accessibility to services, primarily in the form of:</p> <ul style="list-style-type: none"> <li>(a) small-scale commercial uses such as offices, shops and consulting rooms</li> <li>(b) community services such as educational establishments, community centres, places of worship, pre-schools and other health and welfare services</li> <li>(c) services and facilities ancillary to the function or operation of supported accommodation or retirement facilities</li> <li>(d) open space and recreation facilities.</li> </ul>	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>
<p>PO 1.4</p> <p>Expansion of existing community services such as educational establishments, community facilities and pre-schools in a manner which complements the scale of development envisaged by the desired outcome for the neighbourhood.</p>	<p>DTS/DPF 1.4</p> <p>Alteration of or addition to existing educational establishments, community facilities or pre-schools where:</p> <ul style="list-style-type: none"> <li>(a) set back at least 3m from any boundary shared with a residential land use</li> <li>(b) building height not exceeding 1 building level</li> <li>(c) the total floor area of the building does not exceed 150% of the total floor area prior to the addition/alteration</li> <li>(d) development satisfies Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.</li> </ul>
<p>PO 1.5</p> <p>Non-residential development sited and designed to complement the residential character and amenity of the neighbourhood.</p>	<p>DTS/DPF 1.5</p> <p>None are applicable.</p>
<p>PO 1.6</p> <p>Expansion of existing community services such as educational establishments, community facilities and pre-schools in a manner which complements the scale of development envisaged by the desired outcome for the neighbourhood.</p>	<p>DTS/DPF 1.6</p> <p>Alteration of or addition to existing educational establishments, community facilities or pre-schools where:</p> <ul style="list-style-type: none"> <li>(a) set back at least 3m from any boundary shared with a residential land use</li> <li>(b) building height not exceeding 1 building level</li> <li>(c) the total floor area of the building not exceeding 150% of the total floor area prior to the addition/alteration</li> <li>(d) off-street vehicular parking exists or will be provided in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas</li> </ul>

	the nearest whole number.																							
Building Height																								
<p>PO 2.1</p> <p>Buildings generally 2-3 levels with taller buildings located on sites that are a suitable size and dimension to manage massing and impacts on adjoining residential development.</p>	<p>DTS/DPF 2.1</p> <p>Building height (excluding garages, carports and outbuildings) is no greater than:</p> <p>(a) the following:</p> <table border="1"> <thead> <tr> <th style="text-align: center;">Maximum Building Height (Metres)</th> </tr> </thead> <tbody> <tr><td>Maximum building height is 7m</td></tr> <tr><td>Maximum building height is 8m</td></tr> <tr><td>Maximum building height is 8.5m</td></tr> <tr><td>Maximum building height is 9m</td></tr> <tr><td>Maximum building height is 11.5m</td></tr> <tr><td>Maximum building height is 12.5m</td></tr> <tr><td>Maximum building height is 14m</td></tr> <tr><td>Maximum building height is 15m</td></tr> <tr><td>Maximum building height is 16.5m</td></tr> <tr><td>Maximum building height is 18.5m</td></tr> <tr><td>Maximum building height is 22m</td></tr> <tr><td>Maximum building height is 32.5m</td></tr> <tr><td>Maximum building height is 10.5m</td></tr> <tr><td>Maximum building height is 20.5m</td></tr> <tr> <th style="text-align: center;">Maximum Building Height (Levels)</th> </tr> <tr><td>Maximum building height is 2 levels</td></tr> <tr><td>Maximum building height is 3 levels</td></tr> <tr><td>Maximum building height is 4 levels</td></tr> <tr><td>Maximum building height is 5 levels</td></tr> <tr><td>Maximum building height is 6 levels</td></tr> <tr><td>Maximum building height is 9 levels</td></tr> <tr><td>Maximum building height is 10 levels</td></tr> </tbody> </table> <p>(b) in all other cases (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)):</p> <p>(i) 4 building levels and 15m where the site:</p> <p style="margin-left: 40px;">A. is at least 1200m<sup>2</sup> in area and</p> <p style="margin-left: 40px;">B. has a frontage of 35 metres</p> <p style="margin-left: 40px;">or</p> <p>(ii) 3 building levels and 12m in all other circumstances.</p> <p>In relation to DTS/DPF 2.1, in instances where:</p> <p>(c) more than one value is returned in the same field, refer to the <i>Maximum Building Height (Levels) Technical and Numeric Variation layer and Maximum Building Height (Metres) Technical and Numeric Variation layer</i> in the SA planning database to determine the applicable value relevant to the site of the proposed development</p> <p>(d) only one value is returned for DTS/DPF 2.1(a) (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other.</p>	Maximum Building Height (Metres)	Maximum building height is 7m	Maximum building height is 8m	Maximum building height is 8.5m	Maximum building height is 9m	Maximum building height is 11.5m	Maximum building height is 12.5m	Maximum building height is 14m	Maximum building height is 15m	Maximum building height is 16.5m	Maximum building height is 18.5m	Maximum building height is 22m	Maximum building height is 32.5m	Maximum building height is 10.5m	Maximum building height is 20.5m	Maximum Building Height (Levels)	Maximum building height is 2 levels	Maximum building height is 3 levels	Maximum building height is 4 levels	Maximum building height is 5 levels	Maximum building height is 6 levels	Maximum building height is 9 levels	Maximum building height is 10 levels

<150	10%										
150-200	15%										
201-450	20%										
>450	25%										

PO 10.2  
 Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements or result in over-development of the site.

DTS/DPF 10.2  
 Ancillary buildings and structures do not result in:

- (a) less private open space than specified in Design in Urban Areas Table 1 - Private Open Space
- (b) less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.

**Table 1 - Accepted Development Classification**

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: <ul style="list-style-type: none"> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The item will be installed on or within an existing building</li> <li>2. The item being installed does not encroach on a public street or affect the ability of the building to resist the spread of fire</li> <li>3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.</li> </ol>
Brush fence Except where any of the following apply: <ul style="list-style-type: none"> <li>• Hazards (Flooding) Overlay</li> <li>• Historic Area Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• Ramsar Wetlands Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The fence is formed (wholly or partially) from brush</li> <li>2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels)</li> <li>3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved)</li> <li>4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.</li> </ol>
Building work on railway land Except where any of the following apply: <ul style="list-style-type: none"> <li>• Coastal Areas Overlay</li> <li>• Hazards (Acid Sulfate Soils) Overlay</li> <li>• Local Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. Building work is associated with a railway</li> <li>2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017)</li> <li>3. It is required for the conduct or maintenance of railway activities</li> <li>4. It does not involve the clearance of native vegetation</li> </ol>

<ul style="list-style-type: none"> <li>• Significant Landscape Protection Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<p>5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.</p>										
<p><b>Carport</b> Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Future Local Road Widening Overlay</li> <li>• Future Road Widening Overlay</li> <li>• Historic Area Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i></li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</li> <li>3. It is ancillary to a dwelling erected on the site</li> <li>4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary</li> <li>5. Total floor area - does not exceed 40m<sup>2</sup></li> <li>6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end)</li> <li>7. Building height - does not exceed 5m</li> <li>8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11.5m unless:             <ol style="list-style-type: none"> <li>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</li> <li>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</li> </ol> </li> <li>9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street):             <ol style="list-style-type: none"> <li>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</li> <li>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</li> </ol> </li> <li>10. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</li> <li>11. The carport is located so that vehicle access:             <ol style="list-style-type: none"> <li>(a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or</li> <li>(b) is not obtained from a State Maintained Road, and will use a driveway that:                 <ol style="list-style-type: none"> <li>(i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing;</li> <li>(ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;</li> <li>(iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average</li> <li>(iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access</li> <li>(v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site</li> </ol> </li> </ol> </li> <li>12. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour</li> <li>13. Does not involve the clearance of native vegetation</li> <li>14. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:             <ol style="list-style-type: none"> <li>(a) a total area as determined by the following table:                 <table border="1" data-bbox="868 1570 1554 1883"> <thead> <tr> <th>Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m<sup>2</sup>)</th> <th>Minimum percentage of site</th> </tr> </thead> <tbody> <tr> <td>&lt;150</td> <td>10%</td> </tr> <tr> <td>150-200</td> <td>15%</td> </tr> <tr> <td>201-450</td> <td>20%</td> </tr> <tr> <td>&gt;450</td> <td>25%</td> </tr> </tbody> </table> </li> <li>(b) the amount of existing soft landscaping prior to the development occurring.</li> </ol> </li> </ol>	Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Minimum percentage of site	<150	10%	150-200	15%	201-450	20%	>450	25%
Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Minimum percentage of site										
<150	10%										
150-200	15%										
201-450	20%										
>450	25%										
<p><b>Internal building work</b> Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. There will be no increase in the total floor area of the building</li> <li>2. Other than where located within the Historic Area Overlay there will be no alteration to the external appearance of the building to any significant degree.</li> <li>3. There will be no alteration to the external appearance of the building where located within the Historic Area overlay.</li> </ol>										
<p><b>Outbuilding</b> Except where any of the following apply:</p>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i></li> </ol>										

- Coastal Areas Overlay
- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Flooding) Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
3. It is detached from and ancillary to a dwelling erected on the site.
4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary
5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)
6. Total floor area - does not exceed 40m<sup>2</sup>
7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)
8. Building height - does not exceed 5m
9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless:
  - (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
  - (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):
  - (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
  - (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure
11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)
12. If the outbuilding is a garage, it is located so that vehicle access:
  - (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
  - (b) is not obtained from a State Maintained Road, and will use a driveway that:
    - (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing;
    - (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;
    - (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
    - (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access
    - (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site
13. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour
14. Does not involve-
  - (a) excavation exceeding a vertical height of 1m; or
  - (b) filling exceeding a vertical height of 1m,

and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m.

15. Does not involve the clearance of native vegetation
16. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
17. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
  - (a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

- (b) the amount of existing soft landscaping prior to the development occurring.

Partial demolition of a building or structure  
Except where any of the following apply:

- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay

None

<ul style="list-style-type: none"> <li>State Heritage Place Overlay</li> </ul>											
<p>Private bushfire shelter Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>Coastal Areas Overlay</li> <li>Future Local Road Widening Overlay</li> <li>Future Road Widening Overlay</li> <li>Hazards (Acid Sulfate Soils) Overlay</li> <li>Hazards (Flooding) Overlay</li> <li>Local Heritage Place Overlay</li> <li>River Murray Flood Plain Protection Area Overlay</li> <li>Significant Landscape Protection Overlay</li> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i></li> <li>The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</li> <li>Primary street setback - at least as far back as the building to which it is ancillary</li> <li>Secondary street setback - at least 900mm from the boundary of the allotment</li> <li>At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place)</li> <li>Does not involve the clearance of native vegetation.</li> </ol>										
<p>Shade sail Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>Future Local Road Widening Overlay</li> <li>Future Road Widening Overlay</li> <li>Historic Area Overlay</li> <li>Local Heritage Place Overlay</li> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i></li> <li>The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</li> <li>Shade sail consists of permeable material</li> <li>The total area of the sail does not exceed 40m<sup>2</sup></li> <li>No part of the shade sail will be:             <ol style="list-style-type: none"> <li>3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment</li> <li>5m above ground or floor level (depending on where it is situated) within any other part of the allotment</li> </ol> </li> <li>Primary street setback - at least as far back as the building line of the building to which it is ancillary</li> <li>If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11.5m</li> <li>In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary</li> <li>Does not involve the clearance of native vegetation</li> <li>The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas</li> <li>Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:             <ol style="list-style-type: none"> <li>a total area as determined by the following table:                 <table border="1" data-bbox="868 1093 1551 1406"> <thead> <tr> <th>Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m<sup>2</sup>)</th> <th>Minimum percentage of site</th> </tr> </thead> <tbody> <tr> <td>&lt;150</td> <td>10%</td> </tr> <tr> <td>150-200</td> <td>15%</td> </tr> <tr> <td>201-450</td> <td>20%</td> </tr> <tr> <td>&gt;450</td> <td>25%</td> </tr> </tbody> </table> </li> <li>the amount of existing soft landscaping prior to the development occurring.</li> </ol> </li> </ol>	Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Minimum percentage of site	<150	10%	150-200	15%	201-450	20%	>450	25%

<p>Solar photovoltaic panels (roof mounted) Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>Local Heritage Place Overlay</li> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i></li> <li>Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof</li> <li>Panels and associated components do not overhang any part of the roof</li> <li>Does not apply to a system with a generating capacity of more than 5MW that is to be connected to the State's power system</li> <li>If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.</li> </ol>										
<p>Swimming pool or spa pool Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>Coastal Areas Overlay</li> <li>Future Local Road Widening Overlay</li> <li>Future Road Widening Overlay</li> <li>Hazards (Acid Sulfate Soils) Overlay</li> <li>Hazards (Flooding) Overlay</li> <li>Historic Area Overlay</li> <li>Local Heritage Place Overlay</li> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i></li> <li>The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</li> <li>It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted;</li> <li>Allotment boundary setback - not less than 1m</li> <li>Primary street setback - at least as far back as the building line of the building to which it is ancillary</li> <li>Location of filtration system from a dwelling on an adjoining allotment:             <ol style="list-style-type: none"> <li>not less than 5m where the filtration system is located inside a solid structure that will have material impact on the transmission of noise</li> <li>not less than 12m in any other case.</li> </ol> </li> <li>Does not involve the clearance of native vegetation</li> <li>The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas</li> </ol>										

9. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:  
 (a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

- (b) the amount of existing soft landscaping prior to the development occurring.

Verandah  
 Except where any of the following apply:

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
3. It is ancillary to a dwelling erected on the site
4. Primary street setback - as far back as the building line of the building to which it is ancillary
5. Total floor area - does not exceed 40m<sup>2</sup>
6. Post height - does not exceed 3m measured from natural ground level
7. Building height - does not exceed 5m
8. Length - does not exceed 11.5m if any part of the structure abuts or is situated on a boundary of the allotment
9. Does not involve the clearance of native vegetation
10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

- (a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

- (b) the amount of existing soft landscaping prior to the development occurring.

Water tank (above ground)  
 Except where any of the following apply:

- Historic Area Overlay
- Local Heritage Place Overlay
- Ramsar Wetlands Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
3. The tank is part of a roof drainage system
4. Total floor area - not exceeding 15m<sup>2</sup>
5. The tank is located wholly above ground
6. Tank height - does not exceed 4m above natural ground level
7. Primary street setback - at least as far back as the building line of the building to which it is ancillary
8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour
9. Does not involve the clearance of native vegetation
10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

- (a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

- (b) the amount of existing soft landscaping prior to the development occurring.

Water tank (underground)  
 Except where any of the following apply:

- Coastal Areas Overlay
- Hazards (Acid Sulfate Soils) Overlay
- Ramsar Wetlands Overlay

1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
2. The tank (including any associated pump) is located wholly below the level of the ground
3. Does not involve the clearance of native vegetation.

**Table 2 - Deemed-to-Satisfy Development Classification**

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone <small>(applies only in the area affected by the Subzone)</small>	Overlay <small>(applies only in the area affected by the Overlay)</small>

**Table 3 - Applicable Policies for Performance Assessed Development**

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Class of	Applicable Policies
----------	---------------------

Development	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions

Shop

Any of the following:

- (a) shop with a gross leasable floor area less than 1000m<sup>2</sup>
- (b) shop that is a restaurant.

### Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

#### Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. All development undertaken by: <ul style="list-style-type: none"> <li>(a) the South Australian Housing Trust either individually or jointly with other persons or bodies or</li> <li>(b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust.</li> </ul>	Except development involving any of the following: <ul style="list-style-type: none"> <li>1. residential flat building(s) of 3 storeys or greater</li> <li>2. the demolition of a State or Local Heritage Place</li> <li>3. the demolition of a building (except an ancillary building) in a Historic Area Overlay.</li> </ul>
3. Any development involving any of the following (or of any combination of any of the following): <ul style="list-style-type: none"> <li>(a) air handling unit, air conditioning system or exhaust fan</li> <li>(b) ancillary accommodation</li> <li>(c) building work on railway land</li> <li>(d) carport</li> <li>(e) deck</li> <li>(f) dwelling</li> <li>(g) dwelling addition</li> <li>(h) fence</li> <li>(i) outbuilding</li> <li>(j) pergola</li> <li>(k) private bushfire shelter</li> <li>(l) residential flat building</li> <li>(m) retaining wall</li> <li>(n) retirement facility</li> <li>(o) shade sail</li> <li>(p) solar photovoltaic panels (roof mounted)</li> <li>(q) student accommodation</li> <li>(r) supported accommodation</li> <li>(s) swimming pool or spa pool</li> <li>(t) verandah</li> <li>(u) water tank.</li> </ul>	Except development that: <ul style="list-style-type: none"> <li>1. exceeds the maximum building height specified in Urban Renewal Neighbourhood Zone DTS/DPF 2.1 or</li> <li>2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and:                             <ul style="list-style-type: none"> <li>(a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or</li> <li>(b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).</li> </ul> </li> </ul>
4. Alteration of or addition to any of the following (or of any combination of any of the following): <ul style="list-style-type: none"> <li>(a) community facility</li> <li>(b) educational establishment</li> <li>(c) pre-school.</li> </ul>	Except development that does not satisfy Urban Renewal Neighbourhood Zone DTS/DPF 1.6.
5. Any development involving any of the following (or of any combination of any of the following): <ul style="list-style-type: none"> <li>(a) consulting room</li> <li>(b) office</li> <li>(c) shop.</li> </ul>	Except development that: <ul style="list-style-type: none"> <li>1. exceeds the maximum building height specified in Urban Renewal Neighbourhood Zone DTS/DPF 2.1 or</li> <li>2. does not satisfy Urban Renewal Neighbourhood Zone DTS/DPF 1.2 or</li> <li>3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and:                             <ul style="list-style-type: none"> <li>(a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or</li> <li>(b) the height of the proposed wall (or post height) exceeds 3m measured from the top of</li> </ul> </li> </ul>

	footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
6. Any development involving any of the following (or of any combination of any of the following): (a) internal building works (b) land division (c) recreation area (d) replacement building (e) temporary accommodation in an area affected by bushfire (f) tree damaging activity.	None specified.
7. Demolition.	Except any of the following: 1. the demolition of a State or Local Heritage Place 2. the demolition of a building (except an ancillary building) in a Historic Area Overlay.

**Placement of Notices - Exemptions for Performance Assessed Development**

None specified.

**Placement of Notices - Exemptions for Restricted Development**

None specified.

**Mixed Use Transition Subzone**

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development accommodating a range of business, commercial, warehousing and light industrial uses enabling the transition of the area to mixed use development, compatible with residential development.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
PO 1.1 Redevelopment and transition of the area towards mixed development including, residential, supported by a mix of compatible uses including light industry, service trade, motor repair and other compatible businesses servicing the local community that do not produce objectionable emissions.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Dwelling (b) Entertainment venue (c) Licenced premises (d) Hotel (e) Consulting room (f) Indoor recreation facility (g) Light industry (h) Motor repair station (i) Office (j) Place of worship (k) Research facility (l) Retail fuel outlet (m) Service trade premises (n) Shop (o) Store (p) Tourist accommodation (q) Training facility
PO 1.2 Non-residential development involving the expansion, alteration or replacement of an existing industry or activity adjacent to a sensitive receiver or zone, and where current adverse impacts exist, only occur where adverse impacts are minimised in accordance the with <i>Environment Protection Act 1993</i> requirements.	DTS/DPF 1.2 None are applicable.

<p>PO 1.3</p> <p>Residential development and other sensitive development only occur where adverse impacts from nearby industries and activities are minimised in accordance with the <i>Environment Protection Act 1993</i> requirements.</p>	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>
<p>PO 1.4</p> <p>Shops, other than bulky goods outlets, provide a local convenience service to meet the day to day needs of the local community and surrounding businesses as well as support the sale of products made on-site as a supplement to a business activity to enhance local job opportunities.</p>	<p>DTS/DPF 1.4</p> <p>Shop comprising any of the following:</p> <ul style="list-style-type: none"> <li>(a) shop with a gross leasable floor area up to 500m<sup>2</sup></li> <li>(b) shop in the form of a bulky goods outlet</li> <li>(c) shop that is ancillary to and located on the same allotment as a light industry.</li> </ul>
Land Division	
<p>PO 2.1</p> <p>Sensitive uses and sensitive receivers are:</p> <ul style="list-style-type: none"> <li>(a) located away from areas which may be subject to unacceptable noise, dust, odour or other emissions</li> </ul> <p>or</p> <ul style="list-style-type: none"> <li>(b) able to adequately mitigate impacts of noise, dust, odour or other emissions through design techniques such as: <ul style="list-style-type: none"> <li>(i) locating residential accommodation, the greatest distance practicable from the industry</li> <li>(ii) locating buildings containing less non-sensitive receivers between the industry and sensitive receivers</li> <li>(iii) placing rooms more sensitive to air, noise and odour impacts (e.g. bedrooms) further away from the industry</li> </ul> </li> </ul> <p>or</p> <ul style="list-style-type: none"> <li>(iv) providing private or common open space adjacent a building facade that shields the space from impacts of the industry.</li> </ul>	<p>DTS/DPF 2.1</p> <p>Development does not incorporate any of the following (including alterations and additions which increase the floor area of buildings accommodating the following by 10% or more):</p> <ul style="list-style-type: none"> <li>(a) land division creating one or more additional allotments for residential purposes</li> <li>(b) dwelling</li> <li>(c) residential flat building</li> <li>(d) tourist accommodation</li> <li>(e) boarding home</li> <li>(f) dormitory style accommodation</li> <li>(g) Workers' accommodation</li> <li>(h) student accommodation</li> <li>(i) pre-school</li> <li>(j) educational establishment</li> <li>(k) retirement village</li> <li>(l) supported accommodation</li> <li>(m) residential park</li> <li>(n) hospital.</li> </ul>

**Landscape Transition Subzone**

Assessment Provisions (AP)

Desired Outcome (DO)

<b>Desired Outcome</b>	
<b>DO 1</b>	Development in an open landscaped setting.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

<b>Performance Outcome</b>	<b>Deemed-to-Satisfy Criteria / Designated Performance Feature</b>
Built Form and Siting	
<p>PO 1.1</p> <p>Building footprints consistent with the character and pattern of the prevailing open landscaped character of the neighbourhood.</p>	<p>DTS/DPF 1.1</p> <p>The development does not result in a site coverage exceeding 50%.</p>
<p>PO 1.2</p> <p>Development incorporates deep soil zones for the retention or provision of large trees to contribute to a well landscaped setting.</p>	<p>DTS/DPF 1.2</p> <p>At least 15% of a site incorporates deep soil zone areas.</p>
Site Dimensions and Land Division	
<p>PO 2.1</p> <p>Allotments/sites created for residential purposes primarily accommodating medium density residential development, with lower density at the interface with a different neighbourhood zone.</p>	<p>DTS/DPF 2.1</p> <p>Allotments/sites for residential purposes accord with the following:</p> <ul style="list-style-type: none"> <li>(a) Site areas (or allotment areas in the case of land division) are not less than: <ul style="list-style-type: none"> <li>(i) 180m<sup>2</sup>, or 100m<sup>2</sup> on an allotment &gt;2000m<sup>2</sup>, for a dwelling</li> <li>(ii) 120m<sup>2</sup>, or 80m<sup>2</sup> on an allotment &gt;2000m<sup>2</sup>, for each dwelling in a residential flat building</li> <li>(iii) 300m<sup>2</sup> for a dwelling (including in a residential flat building) in areas where the Maximum Building Height (Levels) Technical and Numeric Variation specifies a maximum building height of 2 levels.</li> </ul> </li> <li>(b) Site frontages (or allotment frontage in the case of land division) are not less than): <ul style="list-style-type: none"> <li>(i) 8m for a dwelling</li> <li>(ii) 20m for a residential flat building</li> </ul> </li> </ul>

**Waterfront Neighbourhood Zone**

Assessment Provisions (AP)

Desired Outcome (DO)

## Desired Outcome

DO 1	A diverse range of housing which takes advantage of waterfront locations. Development enhances public access to waterfront areas. Dual aspect allotments incorporate designs to enhance the streetscape.
------	--

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
<p>PO 1.1</p> <p>Residential development and supporting services and facilities make waterfront neighbourhoods a convenient place to live.</p>	<p>DTS/DPF 1.1</p> <p>Development comprises one or more of the following:</p> <ul style="list-style-type: none"> <li>(a) Ancillary accommodation</li> <li>(b) Community facility</li> <li>(c) Dwelling</li> <li>(d) Educational establishment</li> <li>(e) Jetty, pontoon or boat berth (or any combination thereof)</li> <li>(f) Marina</li> <li>(g) Office</li> <li>(h) Place of Worship</li> <li>(i) Pre-school</li> <li>(j) Recreation area</li> <li>(k) Residential flat building</li> <li>(l) Retirement facility</li> <li>(m) Shop</li> <li>(n) Supported accommodation</li> <li>(o) Tourist accommodation</li> </ul>
<p>PO 1.2</p> <p>Marinas include constructed waterways, mooring facilities, pontoons and small jetties to accommodate recreational activities and mooring of small boats associated with residential allotments.</p>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
<p>PO 1.3</p> <p>Non-residential development located and designed to improve community accessibility to services, primarily in the form of:</p> <ul style="list-style-type: none"> <li>(a) small-scale commercial uses such as offices, consulting rooms and shops</li> <li>(b) community services such as educational establishments, community centres, places of worship, pre-schools, and other health and welfare services</li> <li>(c) services and facilities ancillary to the function or operation of supported accommodation or retirement facilities</li> <li>(d) open space and recreation facilities.</li> </ul>	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>
<p>PO 1.4</p> <p>Non-residential development is compatible with the waterfront character and amenity of a neighbourhood.</p>	<p>DTS/DPF 1.4</p> <p>None are applicable.</p>
<p>PO 1.5</p> <p>Commercial activities improve community access to services and activate waterfront areas are of a scale and type to maintain residential amenity.</p>	<p>DTS/DPF 1.5</p> <p>A shop, consulting room or office (or any combination thereof) satisfies any one of the following:</p> <ul style="list-style-type: none"> <li>(a) it is located on the same allotment and in conjunction with a dwelling, and all the following are satisfied:                             <ul style="list-style-type: none"> <li>(i) does not exceed 50m<sup>2</sup> gross leasable floor area</li> <li>(ii) does not involve the display of goods in a window or about the dwelling or its curtilage</li> </ul> </li> <li>(b) it reinstates a former shop, consulting room or office in an existing building (or portion of a building) and at least one of the following is satisfied:                             <ul style="list-style-type: none"> <li>(i) the building is a State or Local Heritage Place</li> <li>(ii) is in conjunction with a dwelling and there is no increase in the gross leasable floor area previously used for non-residential purposes</li> </ul> </li> <li>(c) it is located more than 500m from an Activity Centre and satisfies one of the following:                             <ul style="list-style-type: none"> <li>(i) does not exceed 100m<sup>2</sup> gross leasable floor area (individually or combined, in a single building) where the site does not have a frontage to a State Maintained Road</li> <li>(ii) does not exceed 200m<sup>2</sup> gross leasable floor area (individually or combined, in a single building) where the site has a frontage to a State Maintained Road</li> </ul> </li> <li>(d) the development site abuts an Activity Centre and all the following are satisfied:                             <ul style="list-style-type: none"> <li>(i) it does not exceed 200m<sup>2</sup> gross leasable floor area (in a single building)</li> <li>(ii) the proposed development will not result in the combined gross leasable floor area of all buildings used as a shop, office or consulting room (existing and proposed) or an combination thereof abutting the Activity Centre in this zone exceeding the</li> </ul> </li> </ul>

	<p>lesser of the following:</p> <p>A. 50% of the gross leasable floor area within the Activity Centre</p> <p>B. 1000m<sup>2</sup>.</p> <p>(e) the development is located within the ground level of a mixed use building with frontage to a waterfront or coastal reserve and does not exceed 250m<sup>2</sup> gross leasable floor area.</p>
--	---

<p>PO 1.6</p> <p>Expansion of existing community services such as educational establishments, community facilities and pre-schools in a manner which complements the scale of development envisaged by the desired outcome for the neighbourhood.</p>	<p>DTS/DPF 1.6</p> <p>Alteration of or addition to existing educational establishments, community facilities or pre-schools where:</p> <p>(a) set back at least 3m from any boundary shared with a residential land use</p> <p>(b) building height not exceeding 1 building level</p> <p>(c) the total floor area of the building not exceeding 150% of the total floor area prior to the addition/alteration</p> <p>(d) off-street vehicular parking exists or will be provided in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.</p>
---	--

Site Dimensions and Land Division

<p>PO 2.1</p> <p>Allotments/sites created for residential purposes are of suitable size and dimension to accommodate the anticipated dwelling form and remain compatible with the pattern of development in a waterfront neighbourhood.</p>	<p>DTS/DPF 2.1</p> <p>Development will not result in more than 1 dwelling on an existing allotment</p> <p>or</p> <p>Allotments/sites for residential purposes accord with the following:</p> <p>(a) site areas (or allotment areas in the case of land division) are not less than the following (average site area per dwelling, including common areas, applies for group dwellings or dwellings within a residential flat building):</p> <table border="1"> <thead> <tr> <th>Minimum Site Area</th> </tr> </thead> <tbody> <tr> <td>Minimum site area for a detached dwelling is 250 sqm; Minimum site area for a detached dwelling is 350 sqm; semi-detached dwelling is 350 sqm; row dwelling is 350 sqm; group dwelling is 350 sqm; residential flat building is 350 sqm																									
Minimum site area for a detached dwelling is 390 sqm; semi-detached dwelling is 270 sqm; row dwelling is 200 sqm; group dwelling is 275 sqm; residential flat building is 250 sqm																									
Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 350 sqm; row dwelling is 300 sqm; group dwelling is 400 sqm; residential flat building is 300 sqm																									
Minimum site area is 2,000 sqm																									
Minimum site area is 2 ha																									
Minimum site area is 7,500 sqm																									
Minimum Frontage																									
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 10m; row dwelling is 10m; group dwelling is 18m; residential flat building is 18m																									
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 9m; row dwelling is 7m; group dwelling is 18m; residential flat building is 18m																									
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 9m; row dwelling is 8m; group dwelling is 20m; residential flat building is 20m																									
Minimum frontage for a detached dwelling is 4m; semi-detached dwelling is 4m; row dwelling is 4m; group dwelling is 4m; residential flat building is 6m																									
Minimum frontage for a detached dwelling is 5m; semi-detached dwelling is 5m; row dwelling is 5m; group dwelling is 5m; residential flat building is 5m																									
Minimum frontage for a detached dwelling is 8m; semi-detached dwelling is 8m; row dwelling is 7m; group dwelling is 16m; residential flat building is 16m																									
Minimum frontage for a detached dwelling is 8m; semi-detached dwelling is 8m; row dwelling is 8m; group dwelling is 16m; residential flat building is 16m																									
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 8m; row dwelling is 7m; group dwelling is 15m; residential flat building is 15m																									
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 9m; row dwelling is 9m																									

	<p style="text-align: center;"><b>Minimum Frontage</b></p> <p>7m; group dwelling is 15m</p> <p>Minimum frontage is 25m</p> <p>In relation to DTS/DPF 2.1, in instances where:</p> <ul style="list-style-type: none"> <li>(c) more than one value is returned in the same field, refer to the <i>Minimum Frontage Technical and Numeric Variation layer</i> or <i>Minimum Site Area Technical and Numeric Variation layer</i> in the SA planning database to determine the applicable value relevant to the site of the proposed development</li> <li>(d) no value is returned in (a) or (b) (i.e. there is a blank field or relevant dwelling type is not listed), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy.</li> </ul>										
<p>PO 2.2</p> <p>Development creating new allotments/sites in conjunction with retention of an existing dwelling ensures the site of the existing dwelling remains fit for purpose.</p>	<p>DTS/DPF 2.2</p> <p>Where the site of a dwelling does not comprise an entire allotment:</p> <ul style="list-style-type: none"> <li>(a) The balance of the allotment accords with site area and frontage requirements specified in DTS/DPF 2.1</li> <li>(b) If there is an existing dwelling on the allotment that will remain on the allotment after completion of the development, it will not contravene: <ul style="list-style-type: none"> <li>(i) Private open space requirements specified in Design in Urban Areas Table 1 - Private Open Space</li> <li>(ii) Car parking requirements specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.</li> </ul> </li> </ul>										
Site Coverage											
<p>PO 3.1</p> <p>Building footprints consistent with the character of a waterfront neighbourhood and limited to:</p> <ul style="list-style-type: none"> <li>(a) allow sufficient space around buildings to limit visual impact</li> <li>(b) provide an attractive outlook</li> <li>(c) provide access to light and ventilation</li> <li>(d) on sites with a dual frontage, to maximise use of available land.</li> </ul>	<p>DTS/DPF 3.1</p> <p>The development does not result in site coverage exceeding:</p> <ul style="list-style-type: none"> <li>(a) on sites 300m<sup>2</sup> or less and with a dual frontage to the waterfront and a public street, 80%.</li> <li>(b) in all other cases, 60%.</li> </ul>										
Building Height											
<p>PO 4.1</p> <p>Building height is consistent with the form expressed in any relevant Maximum Building Height Levels Technical and Numeric Variation and Maximum Building Height Metres Technical and Numeric Variation, and is otherwise generally low rise, or complements the height of nearby buildings.</p>	<p>DTS/DPF 4.1</p> <p>Building height (excluding garages, carports and outbuildings) is no greater than:</p> <ul style="list-style-type: none"> <li>(a) the following: <table border="1" data-bbox="804 1223 1554 1547"> <thead> <tr> <th style="text-align: center;">Maximum Building Height (Metres)</th> </tr> </thead> <tbody> <tr><td>Maximum building height is 8m</td></tr> <tr><td>Maximum building height is 8.5m</td></tr> <tr><td>Maximum building height is 9m</td></tr> <tr><td>Maximum building height is 12m</td></tr> <tr><td>Maximum building height is 7.5m</td></tr> <tr><td>Maximum building height is 10.5m</td></tr> <tr> <th style="text-align: center;">Maximum Building Height (Levels)</th> </tr> <tr><td>Maximum building height is 2 levels</td></tr> <tr><td>Maximum building height is 3 levels</td></tr> </tbody> </table> </li> <li>(b) in all other cases (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)) - 2 building levels up to a height of 9m.</li> </ul> <p>In relation to DTS/DPF 4.1, in instances where:</p> <ul style="list-style-type: none"> <li>(c) more than one value is returned in the same field, refer to the <i>Maximum Building Height (Levels) Technical and Numeric Variation layer</i> and <i>Maximum Building Height (Metres) Technical and Numeric Variation layer</i> in the SA planning database to determine the applicable value relevant to the site of the proposed development</li> <li>(d) only one value is returned for DTS/DPF 4.1(a) (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other.</li> </ul>	Maximum Building Height (Metres)	Maximum building height is 8m	Maximum building height is 8.5m	Maximum building height is 9m	Maximum building height is 12m	Maximum building height is 7.5m	Maximum building height is 10.5m	Maximum Building Height (Levels)	Maximum building height is 2 levels	Maximum building height is 3 levels
Maximum Building Height (Metres)											
Maximum building height is 8m											
Maximum building height is 8.5m											
Maximum building height is 9m											
Maximum building height is 12m											
Maximum building height is 7.5m											
Maximum building height is 10.5m											
Maximum Building Height (Levels)											
Maximum building height is 2 levels											
Maximum building height is 3 levels											
Primary Street Setback											
<p>PO 5.1</p> <p>Buildings are setback from primary street boundaries to contribute to the existing/emerging pattern of street setbacks in the streetscape and the waterfront environment.</p>	<p>DTS/DPF 5.1</p> <p>Other than development on allotments/sites with dual frontage to both a waterfront and a public road, the building line of buildings set back from the primary street boundary:</p> <ul style="list-style-type: none"> <li>(a) at least the average setback to the building line of existing buildings on adjoining sites which face the same primary street (including those buildings that would adjoin the site if not separated by a public road or a vacant allotment)</li> <li>(b) where there is only one existing building on adjoining sites which face the same primary street (including those that would adjoin if not separated by a public road or a vacant allotment), not less than the setback to the building line of that building or</li> <li>(c) not less than 5m where no building exists on an adjoining site with the same primary street</li> </ul>										

	frontage.
Secondary Street Setback	
<p>PO 6.1</p> <p>Buildings are set back from secondary street boundaries to achieve separation between building walls and public streets and contribute to a suburban streetscape character.</p>	<p>DTS/DPF 6.1</p> <p>Building walls are set back from the boundary of the allotment with a secondary street frontage at least:</p> <p>(a) at least 900mm</p> <p>or</p> <p>(b) if a dwelling on any adjoining allotment is closer to the secondary street than 900mm, at least the distance of that dwelling from the boundary with the secondary street</p> <p>whichever is less.</p>
Boundary Walls	
<p>PO 7.1</p> <p>Dwelling boundary walls are limited in height and length to manage visual and overshadowing impacts on adjoining properties.</p>	<p>DTS/DPF 7.1</p> <p>Except where the dwelling is located on a central site within a row dwelling or terrace arrangement, side boundary walls occur only on one side boundary and satisfy (a) or (b):</p> <p>(a) side boundary walls adjoin or abut a boundary wall of a building on adjoining land for the same, or lesser length and height</p> <p>(b) side boundary walls do not:</p> <p>(i) exceed 3m in height from the top of footings</p> <p>(ii) exceed 11.5m in length</p> <p>(iii) when combined with other walls on the boundary of the subject development site, exceed a maximum 45% of the length of the boundary</p> <p>(iv) encroach within 3 metres of any other existing or proposed boundary walls on the subject land.</p>
<p>PO 7.2</p> <p>Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings consistent with a suburban streetscape character.</p>	<p>DTS/DPF 7.2</p> <p>Dwelling walls in a semi-detached, row or terrace arrangement are setback at least 900mm from side boundaries shared with allotments outside the development site.</p>
Side boundary setback	
<p>PO 8.1</p> <p>Building walls are set back from side boundaries to provide:</p> <p>(a) separation between dwellings in a way that contributes to a suburban character</p> <p>and</p> <p>(b) access to natural light and ventilation for neighbours.</p>	<p>DTS/DPF 8.1</p> <p>Other than walls located on a side boundary, building walls are set back from side boundaries:</p> <p>(a) at least 900mm where the wall height is up to 3m</p> <p>(b) other than for a wall facing a southern side boundary, at least 900mm plus 1/3 of the wall height above 3m</p> <p>and</p> <p>(c) at least 1900mm plus 1/3 of the wall height above 3m for walls facing a southern side boundary.</p>
Rear boundary setback	
<p>PO 9.1</p> <p>Dwelling walls are set back from rear boundaries to provide:</p> <p>(a) separation between dwellings in a way that contributes to a suburban character</p> <p>(b) access to natural light and ventilation for neighbours</p> <p>(c) private open space</p> <p>(d) space for landscaping and vegetation</p> <p>(e) a consistent character when viewed from a waterfront.</p>	<p>DTS/DPF 9.1</p> <p>Dwelling walls are set back from the rear boundary at least:</p> <p>(a) where the rear boundary fronts a waterfront, no less than the average rear setback of any existing dwellings on adjoining allotments.</p> <p>(b) where the rear boundary adjoins a laneway - 0m</p> <p>(c) In all other cases:</p> <p>(i) if the size of the site is less than 301 square metres—</p> <p>A. 3m in relation to the ground floor of the dwelling</p> <p>B. 5m in relation to any other building level of the dwelling</p> <p>(ii) if the size of the site is 301 square metres or more—</p> <p>A. 4m in relation to the ground floor of the dwelling</p> <p>B. 6m in relation to any other building level of the dwelling.</p>
Concept Plans	
<p>PO 10.1</p> <p>Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.</p>	<p>DTS/DPF 10.1</p> <p>The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:</p> <p>In relation to DTS/DPF 10.1, in instances where:</p> <p>(a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.</p> <p>(b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 10.1 is met.</p>
Built form and character	

<p>PO 11.1</p> <p>Dwellings on sites with frontages to both a public street and a waterfront designed to address both frontages.</p>	<p>DTS/DPF 11.1</p> <p>Development is not located on a site/allotment with frontage to a waterfront.</p>										
<p>PO 11.2</p> <p>Service areas associated with dwellings such as open storage and clothes drying screened from public view.</p>	<p>DTS/DPF 11.2</p> <p>None are applicable.</p>										
<p>PO 11.3</p> <p>Development set back from waterfronts to establish a consistent character that includes soft landscaping along coastal/riverine frontages.</p>	<p>DTS/DPF 11.3</p> <p>None are applicable.</p>										
<p>Ancillary buildings and structures</p>											
<p>PO 12.1</p> <p>Outbuildings designed and sited to mitigate their visibility from the waterfront.</p>	<p>DTS/DPF 12.1</p> <p>Outbuildings are not located between the main building and waterfront boundary on a site/allotment with frontage to a waterfront.</p>										
<p>PO 12.2</p> <p>Residential ancillary buildings and structures are sited and designed to not detract from the streetscape or appearance of buildings on the site or neighbouring properties.</p>	<p>DTS/DPF 12.2</p> <p>Ancillary buildings:</p> <ul style="list-style-type: none"> <li>(a) are ancillary to a dwelling erected on the same site</li> <li>(b) have a floor area not exceeding 60m<sup>2</sup></li> <li>(c) are not constructed, added to or altered so that any part is situated:             <ul style="list-style-type: none"> <li>(i) in front of any part of the building line of the dwelling to which it is ancillary or</li> <li>(ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads)</li> </ul> </li> <li>(d) in the case of a garage or carport, the garage or carport:             <ul style="list-style-type: none"> <li>(i) is set back at least 5.5m from the boundary of the primary street</li> <li>(ii) when facing a primary street or secondary street, has a total door / opening not exceeding:                 <ul style="list-style-type: none"> <li>A. for dwellings of single building level - 7m in width or 50% of the site frontage, whichever is the lesser</li> <li>B. for dwellings comprising two or more building levels at the building line fronting the same public street - 7m in width</li> </ul> </li> </ul> </li> <li>(e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless:             <ul style="list-style-type: none"> <li>(i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and</li> <li>(ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</li> </ul> </li> <li>(f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary</li> <li>(g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure</li> <li>(h) have a wall height or post height not exceeding 3m (and not including a gable end)</li> <li>(i) have a roof height where no part of the roof is more than 5m above the natural ground level</li> <li>(j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour</li> <li>(k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less:</li> <li>(i) a total area as determined by the following table:             <table border="1" data-bbox="868 1585 1551 1899" style="margin-left: 20px;"> <thead> <tr> <th style="background-color: #003366; color: white;">Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m<sup>2</sup>)</th> <th style="background-color: #003366; color: white;">Minimum percentage of site</th> </tr> </thead> <tbody> <tr> <td>&lt;150</td> <td>10%</td> </tr> <tr> <td>150-200</td> <td>15%</td> </tr> <tr> <td>201-450</td> <td>20%</td> </tr> <tr> <td>&gt;450</td> <td>25%</td> </tr> </tbody> </table> </li> <li>(ii) the amount of existing soft landscaping prior to the development occurring.</li> </ul>	Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Minimum percentage of site	<150	10%	150-200	15%	201-450	20%	>450	25%
Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Minimum percentage of site										
<150	10%										
150-200	15%										
201-450	20%										
>450	25%										
<p>PO 12.3</p> <p>Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements and do not result in over-development of the site.</p>	<p>DTS/DPF 12.3</p> <p>Ancillary buildings and structures do not result in:</p> <ul style="list-style-type: none"> <li>(a) less private open space than specified in Design Table 1 - Private Open Space</li> <li>(b) less car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.</li> </ul>										

<p>PO 13.1 Advertisements identify the associated business activity, and do not detract from the residential character of the locality.</p>	<p>DTS/DPF 13.1 Advertisements relating to a lawful business activity associated with a residential use do not exceed 0.3m<sup>2</sup> and mounted flush with a wall or fence.</p>
---	--

**Table 1 - Accepted Development Classification**

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
<p>Air handling unit, air conditioning system or exhaust fan Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>Local Heritage Place Overlay</li> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>The item will be installed on or within an existing dwelling.</li> <li>The item being installed does not encroach on a public street.</li> <li>If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.</li> </ol>
<p>Brush fence Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>Hazards (Flooding) Overlay</li> <li>Historic Area Overlay</li> <li>Local Heritage Place Overlay</li> <li>Ramsar Wetlands Overlay</li> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>The fence is formed (wholly or partially) from brush</li> <li>The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels)</li> <li>The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved)</li> <li>The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.</li> </ol>
<p>Building work on railway land Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>Coastal Areas Overlay</li> <li>Hazards (Acid Sulfate Soils) Overlay</li> <li>Local Heritage Place Overlay</li> <li>Significant Landscape Protection Overlay</li> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>Building work is associated with a railway</li> <li>It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017)</li> <li>It is required for the conduct or maintenance of railway activities</li> <li>It does not involve the clearance of native vegetation</li> <li>The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.</li> </ol>
<p>Carport Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>Future Local Road Widening Overlay</li> <li>Future Road Widening Overlay</li> <li>Historic Area Overlay</li> <li>Local Heritage Place Overlay</li> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i></li> <li>The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</li> <li>It is ancillary to a dwelling erected on the site</li> <li>Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary</li> <li>Total floor area - does not exceed 40m<sup>2</sup></li> <li>Post height - does not exceed 3m measured from natural ground level (and not including a gable end)</li> <li>Building height - does not exceed 5m</li> <li>If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11.5m unless:             <ol style="list-style-type: none"> <li>a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</li> <li>the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</li> </ol> </li> <li>If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street):             <ol style="list-style-type: none"> <li>it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</li> <li>it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</li> </ol> </li> <li>Site coverage does not exceed:             <ol style="list-style-type: none"> <li>on sites 300m<sup>2</sup> or less and with a dual frontage to the waterfront and a public street, 80%</li> <li>in all other cases, 60%.</li> </ol> </li> <li>Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</li> <li>The carport is located so that vehicle access:             <ol style="list-style-type: none"> <li>is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or</li> <li>is not obtained from a State Maintained Road, and will use a driveway that:                 <ol style="list-style-type: none"> <li>is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing;</li> <li>will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;</li> <li>is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average</li> <li>is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered carport</li> </ol> </li> </ol> </li> </ol>

	<p>parking space for which it provides vehicle access</p> <p>(v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site</p> <p>13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour</p> <p>14. Does not involve the clearance of native vegetation</p> <p>15. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:</p> <p>(a) a total area as determined by the following table:</p> <table border="1" data-bbox="868 378 1551 692"> <thead> <tr> <th>Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m<sup>2</sup>)</th> <th>Minimum percentage of site</th> </tr> </thead> <tbody> <tr> <td>&lt;150</td> <td>10%</td> </tr> <tr> <td>150-200</td> <td>15%</td> </tr> <tr> <td>201-450</td> <td>20%</td> </tr> <tr> <td>&gt;450</td> <td>25%</td> </tr> </tbody> </table> <p>(b) the amount of existing soft landscaping prior to the development occurring.</p>	Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Minimum percentage of site	<150	10%	150-200	15%	201-450	20%	>450	25%

**Table 2 - Deemed-to-Satisfy Development Classification**

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone <small>(applies only in the area affected by the Subzone)</small>	Overlay <small>(applies only in the area affected by the Overlay)</small>

**Table 3 - Applicable Policies for Performance Assessed Development**

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone <small>(applies only in the area affected by the Subzone)</small>	Overlay <small>(applies only in the area affected by the Overlay)</small>
Ancillary accommodation	Land Use and Intensity PO 1.1  Site Coverage PO 3.1  Built form and character PO 11.1, PO 11.2, PO 11.3  Ancillary buildings and structures PO 12.1, PO 12.2, PO 12.3	Clearance from Overhead Powerlines PO 1.1  Design in Urban Areas [All Development [Earthworks and sloping land]] PO 8.1  Infrastructure and Renewable Energy Facilities [Wastewater Services] PO 12.2  Transport, Access and Parking [Corner Cut-Offs] PO 10.1	None	Aircraft Noise Exposure Overlay [Land Use and Intensity] PO 1.1  Aircraft Noise Exposure Overlay [Built Form] PO 2.1  Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] PO 1.1  Airport Building Heights (Regulated) Overlay [Built Form] PO 1.1  Building Near Airfields Overlay PO 1.3  Character Area Overlay [All Development] PO 1.1  Character Area Overlay [Built Form] PO 2.1, PO 2.2, PO 2.3, PO 2.4, PO 2.5  Character Area Overlay [Ancillary Development] PO 4.1, PO 4.2

Character Area Overlay [Context and Streetscape Amenity]  
PO 6.1, PO 6.2

Character Preservation District Overlay [Built Form and Character]  
PO 2.1, PO 2.2, PO 2.3

Character Preservation District Overlay [Built Form and Character in the Rural Area]  
PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.5, PO 3.6

Character Preservation District Overlay [Earthworks]  
PO 4.1

Coastal Areas Overlay [Hazard Risk Minimisation]  
PO 2.1, PO 2.2, PO 2.3, PO 2.4, PO 2.5

Coastal Areas Overlay [Coast Protection Works]

All other Code Assessed Development	All	All	All	Any relevant Overlay: All

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following:  (a) shop with a gross leasable floor area less than 1000m <sup>2</sup> (b) shop that is a restaurant.

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. All development undertaken by: (a) the South Australian Housing Trust either individually or jointly with other persons or bodies or (b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust.	Except development involving any of the following:  1. residential flat building(s) of 3 or more building levels 2. the demolition of a State or Local Heritage Place 3. the demolition of a building (except an ancillary building) in a Historic Area Overlay.
3. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) ancillary accommodation (c) building work on railway land (d) carport (e) deck	Except development that:  1. exceeds the maximum building height specified in Waterfront Neighbourhood Zone DTS/DPF 4.1 or 2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded

<ul style="list-style-type: none"> <li>(f) dwelling</li> <li>(g) dwelling addition</li> <li>(h) fence</li> <li>(i) jetty, pontoon or boat berth (or any combination thereof)</li> <li>(j) outbuilding</li> <li>(k) pergola</li> <li>(l) private bushfire shelter</li> <li>(m) residential flat building</li> <li>(n) retaining wall</li> <li>(o) shade sail</li> <li>(p) solar photovoltaic panels (roof mounted)</li> <li>(q) swimming pool or spa pool</li> <li>(r) verandah</li> <li>(s) water tank.</li> </ul>	<p>boundary) and:</p> <ul style="list-style-type: none"> <li>(a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or</li> <li>(b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).</li> </ul>
<p>4. <p>6. Demolition.</p>	<p>Except any of the following:</p> <ol style="list-style-type: none"> <li>1. the demolition of a State or Local Heritage Place</li> <li>2. the demolition of a building (except an ancillary building) in a Historic Area Overlay.</li> </ol>

**Placement of Notices - Exemptions for Performance Assessed Development**

None specified.

**Placement of Notices - Exemptions for Restricted Development**

None specified.

**Workers' Settlement Zone**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Appropriately designed and located accommodation for seasonal and short-term workers in rural areas that minimises environmental and social impacts.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

		Performance Feature
Land Use and Intensity		
PO 1.1 Development is limited to workers' accommodation and ancillary land uses that support the day to day needs of workers.	DTS/DPF 1.1 Development comprises one or more of the following:  (a) a dwelling (manager's house) (b) amenity block (including shower, toilet and laundry facilities) in association with and ancillary to the workers' accommodation (c) dwelling addition (d) recreational facility in association with and ancillary to the workers' accommodation (e) office in association with and ancillary to the workers' accommodation (f) shop in association with and ancillary to the workers' accommodation (g) workers' accommodation.	
PO 1.2 Shops, primarily in the form of a restaurant, associated with and ancillary to Workers' accommodation enhance the amenity of the zone for those workers.	DTS/DPF 1.2 Shops located on the same site as workers' accommodation meets one of the following:  (a) it has a gross leasable floor area not exceeding 100m <sup>2</sup> (b) it is a restaurant.	
PO 1.3 Office associated with and ancillary to Workers' accommodation supports the management and administrative aspects of the accommodation.	DTS/DPF 1.3 Office is ancillary to and located on the same site as Workers' accommodation.	
PO 1.4 Development provides space adjacent to and around habitable buildings to accommodate areas for parking of vehicles, storage of waste, landscaping, recreation areas, swimming pool/spa and similar facilities to enhance the amenity for resident workers.	DTS/DPF 1.4 The total roofed area of all existing and proposed buildings on the site will not exceed 60%.	
PO 1.5 Workers' accommodation is established in association with major industrial, mining, agricultural and business activities to support and facilitate economic activity.	DTS/DPF 1.5 Workers' accommodation is constructed by the principal operator of the relevant business or authorised agent thereof.	
PO 1.6 A dwelling in the form of a manager or caretaker residence associated with and ancillary to Workers' accommodation provides for the efficient management, maintenance and support of residents.	DTS/DPF 1.6 A dwelling is:  (a) ancillary to and located on the same allotment or within the same lease area as the workers' accommodation (b) has a demonstrated connection with workers' accommodation (c) will not result in more than one dwelling being located on an allotment or lease area used for workers' accommodation.	
Land Division		
PO 2.1 Land division is designed to:  (a) minimise fire risk danger to occupants of buildings and firefighting personnel (b) minimise the potential risk of damage to buildings and other property during a bushfire (c) ensure each allotment contains a suitable building envelope that is located away from any vegetation that would pose an unacceptable risk in the event of bushfire.	DTS/DPF 2.1 None are applicable.	
Built Form and Character		
PO 3.1 Buildings and recreational facilities are set back from internal roads to accommodate vehicular movements and contribute to the safety of workers and visitors.	DTS/DPF 3.1 Buildings and recreational facilities are set back at least 1 metre from an internal road.	
PO 3.2 Buildings are set back from public roads to mitigate impacts on the streetscape.	DTS/DPF 3.2 Buildings are set back at least 2m from a public road.	
PO 3.3 Buildings and recreational areas are set back from the boundary of the zone to minimise impacts on neighbouring properties and enhance local amenity.	DTS/DPF 3.3 Buildings are set back at least 2 metres from the zone boundary.	
PO 3.4 Buildings use materials and finishes to complement the landscape and mitigate the effects of glare on adjacent land users.	DTS/DPF 3.4 Buildings are clad in, or a combination of:  (a) materials other than sheet metal (b) sheet metal pre-colour treated or painted in a non-reflective colour.	
Landscaping		
PO 4.1 Landscaping is provided along public roads and thoroughfares, zone boundaries and the perimeter of common vehicle parking areas to enhance the visual appearance of development.	DTS/DPF 4.1 Other than to accommodate a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land, a	

	landscaped area is provided within the development site in accordance with the following: <ul style="list-style-type: none"> <li>(a) at least 1.5m wide along any boundary on the perimeter of the zone fronting a public road or thoroughfare</li> <li>(b) at least 1m wide around the perimeter of any shared vehicle parking area.</li> </ul>
PO 4.2 Development incorporates areas for landscaping to enhance the overall amenity of the site and locality.	DTS/DPF 4.2 Landscape areas comprise: <ul style="list-style-type: none"> <li>(a) not less than 10 percent of the site area</li> <li>(b) a dimension of at least 1m.</li> </ul>
Concept Plans	
PO 5.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 5.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:  In relation to DTS/DPF 5.1, in instances where: <ul style="list-style-type: none"> <li>(a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.</li> <li>(b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 5.1 is met.</li> </ul>

**Table 1 - Accepted Development Classification**

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: <ul style="list-style-type: none"> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The item will be installed on or within an existing dwelling.</li> <li>2. The item being installed does not encroach on a public street.</li> <li>3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.</li> </ol>
Building work on railway land Except where any of the following apply: <ul style="list-style-type: none"> <li>• Coastal Areas Overlay</li> <li>• Hazards (Acid Sulfate Soils) Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay</li> <li>• Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay</li> <li>• Significant Landscape Protection Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. Building work is associated with a railway.</li> <li>2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017).</li> <li>3. It is required for the conduct or maintenance of railway activities.</li> <li>4. It does not involve the clearance of native vegetation.</li> </ol>
Carport Except where any of the following apply: <ul style="list-style-type: none"> <li>• Future Local Road Widening Overlay</li> <li>• Future Road Widening Overlay</li> <li>• Historic Area Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>3. It is ancillary to a dwelling erected on the site.</li> <li>4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary.</li> <li>5. Total floor area - does not exceed 40m<sup>2</sup>.</li> <li>6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end).</li> <li>7. Building height - does not exceed 5m.</li> <li>8. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11m unless:                             <ul style="list-style-type: none"> <li>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</li> <li>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.</li> </ul> </li> <li>9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):                             <ul style="list-style-type: none"> <li>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</li> <li>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.</li> </ul> </li> <li>10. The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment.</li> <li>11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser).</li> <li>12. The carport is located so that vehicle access:                             <ul style="list-style-type: none"> <li>(a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the</li> </ul> </li> </ol>

	<p>division of land; or</p> <p>(b) is not obtained from a State maintained road, and will use a driveway that:</p> <ul style="list-style-type: none"> <li>(i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;</li> <li>(ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;</li> <li>(iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average</li> <li>(iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access</li> <li>(v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site.</li> </ul> <p>13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour.</p> <p>14. Does not involve the clearance of native vegetation.</p>
<p>Internal building work Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. There will be no increase in the total floor area of the building</li> <li>2. Other than where located within the Historic Area Overlay there will be no alteration to the external appearance of the building to any significant degree.</li> <li>3. There will be no alteration to the external appearance of the building where located within the Historic Area overlay.</li> </ol>
<p>Outbuilding Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Coastal Areas Overlay</li> <li>• Future Road Widening Overlay</li> <li>• Hazards (Flooding) Overlay</li> <li>• Historic Area Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• Significant Landscape Protection Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>3. It is detached from and ancillary to a dwelling erected on the site.</li> <li>4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary.</li> <li>5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads).</li> <li>6. Total floor area - does not exceed 40m<sup>2</sup>.</li> <li>7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end).</li> <li>8. Building height - does not exceed 5m.</li> <li>9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless:             <ul style="list-style-type: none"> <li>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</li> <li>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.</li> </ul> </li> <li>10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):             <ul style="list-style-type: none"> <li>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</li> <li>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.</li> </ul> </li> <li>11. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%.</li> <li>12. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):             <ul style="list-style-type: none"> <li>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</li> <li>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.</li> </ul> </li> <li>13. If the outbuilding is a garage, it is located so that vehicle access:             <ul style="list-style-type: none"> <li>(a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or</li> <li>(b) is not obtained from a State Maintained Road, and will use a driveway that:                     <ul style="list-style-type: none"> <li>(i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;</li> <li>(ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;</li> <li>(iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average</li> <li>(iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access</li> <li>(v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of</li> </ul> </li> </ul> </li> </ol>

	<p>the allotment / site</p> <p>14. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour.</p> <p>15. Does not involve-</p> <ul style="list-style-type: none"> <li>(a) excavation exceeding a vertical height of 1 metre; or</li> <li>(b) filling exceeding a vertical height of 1 metre,</li> </ul> <p>and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres.</p> <p>16. Does not involve the clearance of native vegetation.</p>
<p>Partial demolition of a building or structure Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Historic Area Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<p>None</p>
<p>Shade sail Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Future Local Road Widening Overlay</li> <li>• Future Road Widening Overlay</li> <li>• Historic Area Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>3. Shade sail consists of permeable material.</li> <li>4. The total area of the sail - does not exceed 40m<sup>2</sup>.</li> <li>5. No part of the shade sail will be: <ul style="list-style-type: none"> <li>(a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment</li> <li>(b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment.</li> </ul> </li> <li>6. Primary street setback - at least as far back as the building line of the building to which it is ancillary.</li> <li>7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m.</li> <li>8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.</li> <li>9. Does not involve the clearance of native vegetation.</li> </ol>
<p>Solar photovoltaic panels (roof mounted) Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof.</li> <li>3. Panels and associated components do not overhang any part of the roof.</li> <li>4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.</li> <li>5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.</li> </ol>
<p>Swimming pool or spa pool Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Coastal Areas Overlay</li> <li>• Future Local Road Widening Overlay</li> <li>• Future Road Widening Overlay</li> <li>• Hazards (Acid Sulfate Soils) Overlay</li> <li>• Hazards (Flooding) Overlay</li> <li>• Historic Area Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted.</li> <li>4. Allotment boundary setback - not less than 1m.</li> <li>5. Primary street setback - at least as far back as the building line of the building to which it is ancillary.</li> <li>6. Location of filtration system from a dwelling on an adjoining allotment: <ul style="list-style-type: none"> <li>(a) not less than 5m where the filtration system is located inside a solid structure that will have material impact on the transmission of noise; or</li> <li>(b) not less than 12m in any other case.</li> </ul> </li> <li>7. Does not involve the clearance of native vegetation.</li> </ol>
<p>Water tank (above ground) Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>3. The tank is part of a roof drainage system.</li> <li>4. Total floor area - not exceeding 15m<sup>2</sup>.</li> <li>5. The tank is located wholly above ground.</li> <li>6. Tank height - does not exceed 4m above natural ground level.</li> <li>7. Primary street setback - at least as far back as the building line of the building to which it is ancillary.</li> <li>8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour.</li> <li>9. Does not involve the clearance of native vegetation</li> </ol>
<p>Water tank (underground)</p>	<ol style="list-style-type: none"> <li>1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> </ol>

2. The tank (including any associated pump) is located wholly below the level of the ground.
3. Does not involve the clearance of native vegetation.

**Table 2 - Deemed-to-Satisfy Development Classification**

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone <small>(applies only in the area affected by the Subzone)</small>	Overlay <small>(applies only in the area affected by the Overlay)</small>
Amenities block	<p>Land Use and Intensity DTS/DPF 1.1, DTS/DPF 1.4</p> <p>Built Form and Character DTS/DPF 3.1, DTS/DPF 3.2, DTS/DPF 3.3, DTS/DPF 3.4</p> <p>Landscaping DTS/DPF 4.1, DTS/DPF 4.2</p> <p>Concept Plans DTS/DPF 5.1</p>	<p>Clearance from Overhead Powerlines DTS/DPF 1.1</p> <p>Design [All development [Earthworks and sloping land]] DTS/DPF 8.1</p> <p>Infrastructure and Renewable Energy Facilities [Water Supply] DTS/DPF 11.1</p> <p>Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.1, DTS/DPF 12.2</p>	None	<p>Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1</p> <p>Building Near Airfields Overlay DTS/DPF 1.1</p> <p>Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1</p>
Carport	<p>Land Use and Intensity DTS/DPF 1.4</p> <p>Built Form and Character DTS/DPF 3.1, DTS/DPF 3.2, DTS/DPF 3.3, DTS/DPF 3.4</p>	<p>Clearance from Overhead Powerlines DTS/DPF 1.1</p> <p>Design [All development [Earthworks and sloping land]] DTS/DPF 8.1</p> <p>Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.2</p> <p>Transport, Access and Parking [Vehicle Access] DTS/DPF 3.1, DTS/DPF 3.5</p>	None	<p>Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1</p> <p>Key Outback and Rural Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)] DTS/DPF 1.1</p> <p>Key Outback and Rural Routes Overlay [Access - On-Site Queuing] DTS/DPF 2.1</p> <p>Key Outback and Rural Routes Overlay [Access - Existing Access Points] DTS/DPF 3.1</p> <p>Key Outback and Rural Routes Overlay [Access - Location (Spacing)] DTS/DPF 4.1</p> <p>Key Outback and Rural Routes Overlay [Access - Location (Sight Lines)] DTS/DPF 5.1</p> <p>Key Outback and Rural Routes Overlay [Access - Mud and Debris] DTS/DPF 6.1</p> <p>Key Outback and Rural Routes Overlay [Access - Stormwater] DTS/DPF 7.1</p> <p>Key Outback and Rural Routes Overlay [Public Road Junctions] DTS/DPF 8.1</p> <p>Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1</p>

**Table 3 - Applicable Policies for Performance Assessed Development**

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone <small>(applies only in the area affected by the Subzone)</small>	Overlay <small>(applies only in the area affected by the Overlay)</small>
Carpport	Land Use and Intensity PO 1.4  Built Form and Character PO 3.1, PO 3.2, PO 3.3, PO 3.4	Clearance from Overhead Powerlines PO 1.1  Design [All development [Earthworks and sloping land]] PO 8.1  Infrastructure and Renewable Energy Facilities [Wastewater Services] PO 12.2  Transport, Access and Parking [Vehicle Access] PO 3.1, PO 3.5	None	Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] PO 1.1  Airport Building Heights (Regulated) Overlay [Built Form] PO 1.1  Key Outback and Rural Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)] PO 1.1  Key Outback and Rural Routes Overlay [Access - On-Site Queuing] PO 2.1  Key Outback and Rural Routes Overlay [Access - Existing Access Points] PO 3.1  Key Outback and Rural Routes Overlay [Access - Location (Spacing)] PO 4.1  Key Outback and Rural Routes Overlay [Access - Location (Sight Lines)] PO 5.1  Key Outback and Rural Routes Overlay [Access - Mud and Debris] PO 6.1  Key Outback and Rural Routes Overlay [Access - Stormwater] PO 7.1  Key Outback and Rural Routes Overlay [Public Road Junctions] PO 8.1  Native Vegetation Overlay [Environmental Protection] PO 1.1, PO 1.2, PO 1.4

All other Code Assessed Development	All	All	All	Any relevant Overlay: All

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	<p>Any of the following:</p> <ul style="list-style-type: none"> <li>(a) shop with a gross leasable floor area less than 1000m<sup>2</sup></li> <li>(b) shop that is a restaurant.</li> </ul>

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) amenities block (c) building work on railway land (d) internal building works (e) carport (f) deck (g) dwelling (h) dwelling addition (i) office (j) outbuilding (k) pergola (l) replacement building (m) shade sail (n) shop (o) solar photovoltaic panels (roof mounted) (p) swimming pool or spa pool (q) temporary accommodation in an area affected by bushfire (r) tree damaging activity (s) workers accommodation (t) water tank.	None specified.
3. Demolition.	Except any of the following:  1. the demolition of a State or Local Heritage Place 2. the demolition of a building (except an ancillary building) in a Historic Area Overlay.

**Placement of Notices - Exemptions for Performance Assessed Development**

None specified

**Placement of Notices - Exemptions for Restricted Development**

None specified

**Part 3 - Overlays**

**Adelaide Dolphin Sanctuary Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Protection of the Adelaide Dolphin Sanctuary dolphin population and their habitat.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
PO 1.1	DTS/DPF 1.1

Development avoids or minimises harm to habitat, and the functioning of ecosystems that support the dolphin population.	None are applicable.
PO 1.2 Development does not result in the disruption of critical dolphin behaviours such as breeding, feeding, resting and movement.	DTS/DPF 1.2 None are applicable.
PO 1.3 Stormwater runoff is disposed of in a manner that avoids pollution or other detrimental impacts to the Adelaide Dolphin Sanctuary.	DTS/DPF 1.3 None are applicable.

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Advertising Near Signalised Intersections Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Provision of a safe road environment by reducing driver distraction at key points of conflict on the road.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Advertisements Near Signalised Intersections	
PO 1.1 Advertising near signalised intersections does not cause unreasonable distraction to road users through illumination, flashing lights, or moving or changing displays or messages.	DTS/DPF 1.1 Advertising:  (a) is not illuminated (b) does not incorporate a moving or changing display or message (c) does not incorporate a flashing light(s).

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Advertisement or advertising hoarding that:  (a) is within 100m of a: (i) signalised intersection or (ii) signalised pedestrian crossing and  (b) will: (i) be internally illuminated or (ii) incorporate a moving or changing display or message or (iii) incorporate a flashing light.	Commissioner of Highways.	To provide expert technical assessment on potential risks relating to pedestrian and road safety which may arise from advertisements near intersections.	Development of a class to which Schedule 9 clause 3 item 21 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

**Affordable Housing Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Affordable housing is integrated with residential and mixed use development.
DO 2	Affordable housing caters for a variety of household structures.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Division	
PO 1.1 Development comprising 20 or more dwellings / allotments incorporates affordable housing.	DTS/DPF 1.1 Development results in 0-19 additional allotments / dwellings.
PO 1.2 Development comprising 20 or more dwellings or residential allotments provides housing suited to a range of incomes including households with low to moderate incomes.	DTS/DPF 1.2 Development comprising 20 or more dwellings / or residential allotments includes a minimum of 15% affordable housing except where: <ul style="list-style-type: none"> <li>(a) it can be demonstrated that any shortfall in affordable housing has been provided in a previous stage of development or</li> <li>(b) it can be demonstrated that any shortfall in affordable housing will be accommodated in a subsequent stage or stages of development.</li> </ul>
PO 1.3 Affordable housing is distributed throughout the development to avoid an overconcentration.	DTS/DPF 1.3 None are applicable.
Built Form and Character	
PO 2.1 Affordable housing is designed to complement the design and character of residential development within the locality.	DTS/DPF 2.1 None are applicable.
Affordable Housing Incentives	
PO 3.1 To support the provision of affordable housing, minimum allotment sizes may be reduced below the minimum allotment size specified in a zone while providing allotments of a suitable size and dimension to accommodate dwellings with a high standard of occupant amenity.	DTS/DPF 3.1 The minimum site area specified for a dwelling can be reduced by up to 20%, or the maximum density per hectare increased by up to 20%, where it is to be used to accommodate affordable housing except where the development is located within the Character Area Overlay or Historic Area Overlay.
PO 3.2 To support the provision of affordable housing, building heights may be increased above the maximum specified in a zone.	DTS/DPF 3.2 Where a building incorporates dwellings above ground level and includes at least 15% affordable housing, the maximum building height specified in any relevant zone policy can be increased by 1 building level in the: <ul style="list-style-type: none"> <li>(a) Business Neighbourhood Zone</li> <li>(b) City Living Zone</li> <li>(c) Established Neighbourhood Zone</li> <li>(d) General Neighbourhood Zone</li> <li>(e) Hills Neighbourhood Zone</li> <li>(f) Housing Diversity Neighbourhood Zone</li> <li>(g) Neighbourhood Zone</li> <li>(h) Master Planned Neighbourhood Zone</li> <li>(i) Master Planned Renewal Zone</li> <li>(j) Master Planned Township Zone</li> <li>(k) Rural Neighbourhood Zone</li> <li>(l) Suburban Business Zone</li> <li>(m) Suburban Neighbourhood Zone</li> <li>(n) Township Neighbourhood Zone</li> <li>(o) Township Zone</li> <li>(p) Urban Renewal Neighbourhood Zone</li> <li>(q) Waterfront Neighbourhood Zone</li> </ul> and up to 30% in any other zone, except where: <ul style="list-style-type: none"> <li>(a) the development is located within the Character Area Overlay or Historic Area Overlay or</li> <li>(b) other height incentives already apply to the development.</li> </ul>

Movement and Car Parking	
<p>PO 4.1</p> <p>Sufficient car parking is provided to meet the needs of occupants of affordable housing.</p>	<p>DTS/DPF 4.1</p> <p>Dwellings constituting affordable housing are provided with car parking in accordance with the following:</p> <p>(a) 0.3 carpark per dwelling within a building which incorporates dwellings located above ground level within either:</p> <ul style="list-style-type: none"> <li>(i) 200 metres of any section of road reserve along which a bus service operates as a high frequency public transit service<sup>(2)</sup></li> <li>(ii) is within 400 metres of a bus interchange<sup>(1)</sup></li> <li>(iii) is within 400 metres of an O-Bahn interchange<sup>(1)</sup></li> <li>(iv) is within 400 metres of a passenger rail station<sup>(1)</sup></li> <li>(v) is within 400 metres of a passenger tram station<sup>(1)</sup></li> <li>(vi) is within 400 metres of the Adelaide Parklands.</li> </ul> <p>or</p> <p>(b) 1 carpark per dwelling for any other dwelling.</p> <p>[NOTE(S): (1) Measured from an area that contains any platform(s), shelter(s) or stop(s) where people congregate for the purpose waiting to board a bus, tram or train, but does not include areas used for the parking of vehicles. (2) A high frequency public transit service is a route serviced every 15 minutes between 7.30am and 6.30pm Monday to Friday and every 30 minutes at night, Saturday, Sunday and public holidays until 10pm.]</p>

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Development for the purposes of the provision of affordable housing (applying the criteria determined under regulation 4 of the <i>South Australian Housing Trust Regulations 2010</i> ).	Minister responsible for administering the <i>South Australian Housing Trust Act 1995</i> .	To provide direction on the conditions required to secure the provision of dwellings or allotments for affordable housing.	Development of a class to which Schedule 9 clause 3 item 20 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

**Aircraft Noise Exposure Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Development sensitive to aircraft noise is designed and located to manage noise intrusion to reduce land use conflict and protect human health.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
<p>PO 1.1</p> <p>Buildings that accommodate activities sensitive to aircraft noise are designed and located to minimise aircraft noise intrusion and provide appropriate interior acoustic amenity.</p>	<p>DTS/DPF 1.1</p> <p>Buildings accommodating sensitive receivers are not located within an area having an ANEF value of 30 or more.</p>
Built Form	
<p>PO 2.1</p> <p>Additions to buildings involving the addition or extension of habitable rooms are designed and located to minimise aircraft noise intrusion and provide appropriate interior acoustic amenity.</p>	<p>DTS/DPF 2.1</p> <p>Dwelling additions involving the addition or extension of habitable rooms:</p>

	(a) do not result in an increase in the total floor area of the existing dwelling by greater than 50 percent (b) do not occur in areas having an ANEF value of 30 or more.
Land Division	
PO 3.1 Land division does not increase the number of allotments used for sensitive receivers in areas adversely affected by aircraft noise to mitigate community exposure to potential adverse environmental and amenity impacts generated by aircraft movements.	DTS/DPF 3.1 Land division: (a) within an area having an ANEF value of less than 30 or (b) within an area having an ANEF value of 30 or more and: (i) does not result in any additional allotments or (ii) none of the allotments will accommodate a sensitive receiver.

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Airport Building Heights (Aircraft Landing Areas) Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Management of potential impacts of buildings on the operational and safety requirements of aircraft landing areas.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Built Form	
PO 1.1 Building height does not pose a hazard to the operation of an aircraft landing area.	DTS/DPF 1.1 The distance from any part of a runway centreline to the closest point of the building is greater than 30 times building height.

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Airport Building Heights (Regulated) Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Management of potential impacts of buildings and generated emissions to maintain operational and safety requirements of registered and certified commercial and military airfields, airports, airstrips and helicopter landing sites.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Built Form	
PO 1.1 Building height does not pose a hazard to the operation of a certified or registered aerodrome.	DTS/DPF 1.1 Buildings are located outside the area identified as 'All structures' (no height limit is prescribed) and do not exceed the height specified in the Airport Building Heights (Regulated) Overlay which applies to the subject site as shown on the SA Property and Planning Atlas.  In instances where more than one value applies to the site, the lowest value relevant to the site of the proposed development is applicable.
PO 1.2 Exhaust stacks are designed and sited to minimise plume impacts on aircraft movements associated with a certified or registered aerodrome.	DTS/DPF 1.2 Development does not include exhaust stacks.

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Any of the following classes of development:  (a) building located in an area identified as 'All structures' (no height limit is prescribed) or will exceed the height specified in the <i>Airport Building Heights (Regulated) Overlay</i> (b) building comprising exhaust stacks that generates plumes, or may cause plumes to be generated, above a height specified in the <i>Airport Building Heights (Regulated) Overlay</i> .	The airport-operator company for the relevant airport within the meaning of the <i>Airports Act 1996</i> of the Commonwealth or, if there is no airport-operator company, the Secretary of the Minister responsible for the administration of the <i>Airports Act 1996</i> of the Commonwealth.	To provide expert assessment and direction to the relevant authority on potential impacts on the safety and operation of aviation activities.	Development of a class to which Schedule 9 clause 3 item 1 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

**Building Near Airfields Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Maintain the operational and safety requirements of certified commercial and military airfields, airports, airstrips and helicopter landing sites through management of non-residential lighting, turbulence and activities that may attract or result in the congregation of wildlife.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
PO 1.1 Outdoor lighting associated with a non-residential use does not pose a hazard to commercial or military aircraft operations.	DTS/DPF 1.1 Development:  (a) primarily or wholly for residential purposes (b) for non-residential purposes that does not incorporate outdoor floodlighting.
PO 1.2 Development likely to attract or result in the congregation of wildlife is adequately separated from airfields to minimise the potential for aircraft wildlife strike.	DTS/DPF 1.2 All development except where it comprises one or more of the following located not less than 3km from the boundaries of an airport used by commercial or military aircraft:  (a) food packing/processing plant (b) horticulture (c) intensive animal husbandry (d) showground (e) waste management facility (f) waste transfer station (g) wetland (h) wildlife sanctuary.
PO 1.3	DTS/DPF 1.3

Buildings are adequately separated from runways and other take-off and landing facilities within certified or registered aerodromes to minimise the potential for building-generated turbulence and windshear that may pose a safety hazard to aircraft flight movement.

The distance from any part of a runway centreline to the closest point of the building is not less than 35 times the building height.

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Character Area Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Valued streetscape characteristics and development patterns are reinforced through contextually responsive development, design and adaptive reuse that responds to the attributes expressed in the Character Area Statement.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
All Development	
PO 1.1 All development is undertaken having consideration to the valued attributes expressed in the Character Area Statement.	DTS/DPF 1.1 None are applicable.
Built Form	
PO 2.1 The form of new buildings and structures that are visible from the public realm are consistent with the valued streetscape characteristics of the character area.	DTS/DPF 2.1 None are applicable.
PO 2.2 Development is consistent with the prevailing building and wall heights in the character area.	DTS/DPF 2.2 None are applicable.
PO 2.3 Design and architectural detailing of street-facing buildings (including but not limited to roof pitch and form, openings, chimneys and verandahs) are consistent with the prevailing characteristics in the character area.	DTS/DPF 2.3 None are applicable.
PO 2.4 Development is consistent with the prevailing front and side boundary setback pattern in the character area.	DTS/DPF 2.4 None are applicable.
PO 2.5 Materials are either consistent with or complement those within the character area.	DTS/DPF 2.5 None are applicable.
Alterations and Additions	
PO 3.1 Additions and alterations do not adversely impact on the streetscape character.	DTS/DPF 3.1 Additions and alterations:  (a) are fully contained within the roof space of a building with no external alterations made to the building elevation facing the primary street or (b) meet all of the following: (i) do not include any development forward of the front façade building line (ii) any side or rear extensions are no closer to the side boundary than the existing building (iii) do not involve the construction or alteration of a second or subsequent building level.

PO 3.2 Adaptive reuse and revitalisation of buildings to retain local character consistent with the Character Area Statement.	DTS/DPF 3.2 None are applicable.
Ancillary Development	
PO 4.1 Ancillary development, including carports, outbuildings and garages, complements the character of the area and associated building(s).	DTS/DPF 4.1 None are applicable.
PO 4.2 Ancillary development, including carports, outbuildings and garages, is located behind the building line of the principal building(s).	DTS/DPF 4.2 None are applicable.
PO 4.3 Advertising and advertising hoardings are located and designed to complement the building, be unobtrusive, be below the parapet line, not conceal or obstruct significant architectural elements and detailing, or dominate the building or its setting.	DTS/DPF 4.3 None are applicable.
PO 4.4 Fencing and gates closer to a street boundary (other than a laneway) than the elevation of the associated building are consistent with the traditional period, style and form of the of the associated building.	DTS/DPF 4.4 None are applicable.
Land Division	
PO 5.1 Land division creates allotments that are:  (a) compatible with the surrounding pattern of subdivision in the character area (b) of a dimension to accommodate buildings of a bulk and scale that reflect existing buildings and setbacks in the character area.	DTS/DPF 5.1 None are applicable.
Context and Streetscape Amenity	
PO 6.1 The width of driveways and other vehicle access ways are consistent with the prevalent width of existing driveways in the character area.	DTS/DPF 6.1 None are applicable.
PO 6.2 Development maintains the valued landscape pattern and characteristics that contribute to the character area, except where they compromise safety, create nuisance, or impact adversely on existing buildings or infrastructure.	DTS/DPF 6.2 None are applicable.

In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	Pre-1950.
	Allotments, subdivision and built form patterns	Grid pattern.
	Architectural styles, detailing and built form features	Mixture of housing styles of relatively modern design.
	Building height	Generally single storey detached dwellings.
	Materials	[Not stated]
	Fencing	[Not stated]
	Setting, landscaping, streetscape and public realm features	"Traditional" verge treatments exist in the main street (front boundary, footpath, street trees and gutter).
Representative Buildings	[Not identified]	

	<b>Angaston Character Area Statement (Baro-C3)</b>	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
Eras, themes and context	Late 1800s.	
	1920s, second wave of prosperity for Angaston in the 20th Century.	

Statement#	Statement	
BaroC3	Allotments, subdivision and built form patterns	[Not stated]
	Architectural styles, detailing and built form features	Residences in 1879-80. Residences of the 1920s.
	Building height	[Not stated]
	Materials	Local stone.
	Fencing	[Not stated]
	Setting, landscaping, streetscape and public realm features	Tree lined streets, attractive gardens, varied topography, coprosma hedges in front of some houses (retaining early post and wire fence structures), mature gums along the creek, and cypress hedges to many 1920s dwellings.
	Representative Buildings	Identified - refer to SA planning database.

**Character Areas affecting City of Campbelltown**

Poet's Corner, Tranmere Character Area Statement (Cam-C1)		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
Eras, themes and context	Residential.	
Allotments, subdivision and built form patterns	Low site coverage, large front and side building set-backs from property boundaries. Substantial allotment widths, consistent pattern of driveway access from the street to garaging and large landscaped open spaces.  Detached dwellings at low densities.	
Architectural styles, detailing and built form features	Villas and inter-war bungalows on large allotments with wide frontages, set within well-established landscaped gardens and streets.  Consistent roof forms and pitches.  Garages, carports and outbuildings are low in scale and generally located to the rear of dwellings or to the side, well set back from the front facade.	
Building height	Predominantly one storey buildings, with attic or loft spaces contained within the roof form, or two storey additions to the rear of dwellings.	
Materials	Red brick, stone and masonry building materials. Roofs of terracotta tiles or red painted corrugated iron.	
Fencing	Low, open fencing to 1 metre in height, providing views to the built form. Low picket fencing, solid brush fencing, stone or masonry materials, wire and creepers, and hedges.  Some high masonry fences specifically along Magill and Glynburn Roads.	
Setting, landscaping, streetscape and public realm features	Avenues of street tree planting make an important contribution to the landscape character and visual amenity. Generally single width driveways, located to protect mature street trees.  Lawns and vegetated gardens.	
Representative Buildings	Identified - refer to SA planning database.	

**Character Areas affecting Clare and Gilbert Valleys Council**

Auburn Character Area Statement (CGV-C1)		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
Eras, themes and context	Buildings constructed in the 19 <sup>th</sup> century.	
Allotments, subdivision and built form patterns	Original land division pattern, street layout and setback patterns.	
Architectural styles, detailing and built form features	Verandahs. Original architectural styles.	
Building height	1-2 storeys, with 2 storey buildings generally for retail and civic uses.	
Materials	[Not stated]	

Statement#	Statement	
	Fencing	Front fences and gates of timber pickets, pier and plinth masonry, wrought iron, brush or masonry not exceeding 1.2m.
	Setting, landscaping, streetscape and public realm features	Established trees. Residential amenity.
	Representative Buildings	Identified - refer to SA planning database.

**Character Areas affecting Mid Murray Council**

Residential Character Area Statement (MiMu-C1)		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
MiMuC1	Eras, themes and context	Buildings of interest reflecting the original development of the town.
	Allotments, subdivision and built form patterns	Early subdivision south of Victoria Street, between the cliff face and east of Walker and Berryman Avenue. Larger allotments reflecting the original subdivision pattern. Wide street frontages and generous setbacks to boundaries.
	Architectural styles, detailing and built form features	Provision of mainly detached dwellings with some semi-detached dwellings.
	Building height	Buildings up to two storeys in height.
	Materials	Original or otherwise complementary materials, colours and finishes.
	Fencing	[Not stated]
	Setting, landscaping, streetscape and public realm features	Landscaping to soften development.
	Representative Buildings	[Not identified]

**Character Areas affecting City of Mitcham**

Plains Character Area Statement (Mit-C1)		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
	Eras, themes and context	Mix of pre-war, inter-war and post-war housing of a low density detached nature comprising symmetrical cottages, villas, bungalows, Tudor, art deco and austerity.
	Allotments, subdivision and built form patterns	Established traditional grid neighbourhoods, with a high presence of pre-1940s housing stock. Consistent allotment pattern, frontage widths and setbacks of buildings to streets and to each other creating a strong rhythm and pattern of development. Consistent pattern of side setbacks, which are generally larger on one side of allotments. Low site coverage supporting strong landscaped settings and space that frame and give context to dwelling forms. Absence of row dwellings and residential flat buildings.
	Architectural styles, detailing and built form features	Single storey detached dwellings at low densities with regular large front and side setbacks. Intact pattern of setbacks and spacings between buildings. Prominence of gables and verandahs which are reflective of the building types in these areas. The use of parapets to front facades

Statement#	Statement
MitC1	<p>are a rarely visible built form element in the area's established streetscape character.</p> <p>Roof forms consist of gabled, hipped and Dutch gable at pitches that reflect the prevailing building size, style and era.</p> <p>High solid to void ratios within building facades.</p> <p>Garaging is a minor built form element and subordinate to the principal dwelling form when viewed from the streetscape.</p> <p>Garaging is in the form of single garages situated to the side of dwellings, setback behind the front building line and comprising wall heights and roof forms that are lower than the associated dwelling.</p>
	<p>Building height</p> <p>Single storey appearance with second storeys typically not visible from the street and characteristically integrated within the roof form or behind roof ridges.</p>
	<p>Materials</p> <p>Building materials consist of traditional housing materials such as brick, stone and rendered masonry finishes to walls and tile or corrugated metal roofs.</p> <p>Dwelling facades display a range of materiality and finishes producing a richness of textures and colour schemes.</p>
	<p>Fencing</p> <p>Low and open fencing styles consisting of timber picket, post and wire, low stone or brick structures or hedges.</p> <p>Limited use of high solid fencing except along railway or arterial road alignments.</p>
	<p>Setting, landscaping, streetscape and public realm features</p> <p>Important contribution of front yards, landscaping and street trees to overall character of the area.</p> <p>Front yards are generously landscaped spaces with a high proportion of vegetation to paved surfaces.</p> <p>Driveways are aligned to side boundaries and are of single width.</p> <p>Existing street trees and road verges form important streetscape features that contribute to the public realm appearance producing a pattern of plantings protected by isolating driveway entranceway and crossover locations.</p>
	<p>Representative Buildings</p> <p style="text-align: right;"><i>[Not identified]</i></p>

MitC2	<p><b>Springfield Character Area Statement (Mit-C2)</b></p> <p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>
	<p>Eras, themes and context</p> <p>1930s to present.</p> <p>Pre and post war housing stock as well as contemporary housing styles.</p> <p>Sense of grandeur and spaciousness.</p>
	<p>Allotments, subdivision and built form patterns</p> <p>Intact original subdivision pattern.</p> <p>Winding road network that follows land form and results in irregular shaped allotments.</p> <p>Detached dwellings on very large allotments and very wide frontages which contribute to sense of spaciousness and scale.</p> <p>Absence of row dwellings and residential flat buildings.</p> <p>Buildings are set back very large distances from street frontages and side boundaries. Consistent pattern of side setbacks, which are generally larger on one side of allotments.</p> <p>Low site coverage of buildings across large sites.</p> <p>Strong landscape setting for buildings, particularly in front yards and between buildings, contributes to sense of grandeur.</p>
	<p>Architectural styles, detailing and built form features</p> <p>Eclectic mix of housing stock, styles and architectural features.</p> <p>High quality materials, finishes and detailing associated with grand homes and mansions.</p> <p>Increasing gradient of slopes to the east of the Area promotes split level designs and undercroft garaging formats.</p>
	<p>Building height</p> <p>Predominantly buildings of up to two storeys, with three storeys where cut into sloping sites (incorporating undercroft garaging).</p>
	<p>Materials</p> <p>Brick, stone, rendered masonry finishes to walls.</p> <p>Tiles or metal roofing.</p> <p>High solid to void ratio to facades.</p> <p>Visible retaining walls typically stone or rendered in material.</p>
<p>Fencing</p> <p>Diversity of fencing treatments and styles.</p>	

Statement#	Statement
	Solid fencing above 1 metre and walls screened with dense landscaping along the street frontage.
Setting, landscaping, streetscape and public realm features	<p>A mixture of mature Eucalypt and exotic street trees provide an overall visual coherence to the public realm.</p> <p>Retaining walls to street frontages on high side of street, with raised front gardens above.</p> <p>Formal garden settings with mature trees are an important element in established character.</p>
Representative Buildings	<i>[Not identified]</i>

<b>Hills Character Area Statement (Mit-C3)</b>	
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>	
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>	
<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
Eras, themes and context	Low density spacious setting with detached dwellings on large sites within natural vegetated settings with very few other housing types.
Allotments, subdivision and built form patterns	<p>Variations in land forms, including some steeply sloping locations, produce curvilinear road patterns and irregular shaped allotments in terms of size and frontage widths.</p> <p>Land slope leads to a variety of front setbacks and informs dwelling orientation and height relative to the street. Side setbacks are generally larger on one side of allotments.</p> <p>Simple housing forms of a single and two storey nature (including spilt level) that respond to land form.</p> <p>Garaging typically to side of dwelling or as an undercroft structure. Garaging is only forward of dwellings on steeply sloping sites and is in the form of standalone simple open structures.</p> <p>Row dwellings, group dwellings and residential flat buildings are not representative of the predominant built form in the area.</p>
Architectural styles, detailing and built form features	<p>The area's built form exhibits a sense of spaciousness due to limited site coverage and generous front and side setbacks.</p> <p>Development responds to land form and does so in a way that blends with landscape character by minimising cut and fill and vegetation clearance.</p> <p>Where visible to the street, large differences in levels between dwellings and roadways are battered and landscaped.</p> <p>Where parking structures are forward of building lines, they are of an open form and low roof profile.</p>
Building height	<p>Low profile roof forms and pitches reflect the land form are a common feature.</p> <p>One and two storeys typically responding to the land form.</p>
Materials	<p>Building materials, colours and finishes assist in blending and receding buildings into the natural landscape character rather than openly contrasting and drawing attention to buildings.</p> <p>Predominantly darker subdued natural earthy tones for wall and roof materials. Lighter or paler colour complement the surrounding landscape in their tone.</p> <p>Highly reflective and bright, vivid colour finishes to walls and roof materials, such as stark white or similar are rarely found in the area.</p>
Fencing	<p>No presence of front fencing forward of the building line is a characteristic of the area, and in limited cases where front fencing is present, it is low or open in nature.</p> <p>The area features retaining walls that are mostly screened or are natural in form using mainly stone or natural rock, with walls being low in height, terraced and set well back from boundaries and providing landscaped space.</p> <p>High concrete sleeper walls are not a part of the built form streetscape.</p>
Setting, landscaping, streetscape and public realm features	<p>Strong landscape character attributes derive from extensive retention of native vegetation on sites, between buildings and within informal road verges. The presence of vegetation on sites, is a defining feature of the area.</p> <p>Streets retain an open, often spacious setting characterised by spaces between buildings which contain landscaping.</p> <p>Driveways on sloping sites meander within front yards of dwellings, with minimal cut and fill of the land surface, and feature landscaping on their edges.</p>
Representative Buildings	<i>[Not identified]</i>

NPSPC6	<b>Residential Character (Norwood) Area Statement (NPSP-C6)</b>	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>	
	<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
Eras, themes and context	Residential. Detached (including battleaxe), semi-detached, row and group dwellings. Residential flat buildings.	<p>Although the built form character throughout Norwood is relatively varied, there remains a strong theme associated with the original built form, which includes a significant number of Local Heritage Places and buildings constructed before 1940.</p>
Allotments, subdivision and built form patterns	Rectilinear pattern of wide tree-lined major streets, intersected by narrow minor streets, with various eras of development overlaid.	<p>Broad mix of allotment sizes and a diversity of residential accommodation options.</p> <p>The regular street grid pattern and the high level of vegetation, including mature street trees and landscaped gardens, are elements that assist in unifying the various eras of built form development in Norwood.</p>
Architectural styles, detailing and built form features	Traditional pre-1940s roof forms, eaves, front verandah treatments, window proportions.	<p>A mix of housing styles, including workers cottages, bungalows and villas and a variety of post war dwellings, including walk-up flats, townhouses and a range of contemporary detached, attached and group housing styles. This has, over the years, established a broad mix of allotment sizes and provided a diversity of residential accommodation options, including affordable housing.</p> <p>Some undercroft or underground garages along western side of Osmond Terrace.</p> <p>Semi-detached dwellings often presenting as single dwellings.</p>
Building height	Generally single storey streetscape appearance.	
Materials	Varied, traditional materials.	

Statement#	Statement	
	Fencing	<p>Low, open-style fencing that allows connectivity to the street.</p> <p>Front fencing and side fencing (between the front of a dwelling and the street) and landscaping are important components of streetscape character.</p> <p>Some more solid forms of fencing along arterial roads.</p>
	Setting, landscaping, streetscape and public realm features	<p>Distinct rectilinear pattern of wide tree-lined major streets, intersected by narrow minor streets.</p> <p>Some limited advertising and signage which complements scale and architecture of associated buildings.</p>

**Character Areas affecting City of Playford**

Elizabeth South Character Area Statement (Play-C1)		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
Eras, themes and context	Late 1950s to early 1960s.	
Allotments, subdivision and built form patterns	<p>First stage of the post war planned Garden City north of Adelaide.</p> <p>Layout and land division pattern involving irregular allotment shapes and curvilinear street pattern, typical of the planning and construction of Trust development in the late 1950s and early 1960s.</p> <p>Large proportion of open space as parks and gardens.</p> <p>Parks and mature trees in the landscape road reserve make a significant contribution to the character and amenity of the area.</p> <p>Rectangular allotment shapes in varying sizes. Some allotments have been amalgamated to make way for residential flat buildings and units. Generally large front setbacks. Side setbacks provide visual spacing between dwellings.</p>	
Architectural styles, detailing and built form features	<p>Small scale, simplified building forms consistent with South Australian Housing Trust development of the late 1950s early 1960s.</p> <p>Single storey semi-detached and detached buildings. Dwellings being of brick and concrete block construction with varying stylistic treatments. Many dwellings without vehicle garaging.</p> <p>Garages, carports and outbuildings, where they exist, are low in scale and simple in form. Rectilinear plan forms. Low scale. Hipped roof forms.</p>	
Building heights	Predominantly single storey.	
Materials	Consistent with the materials used in the late 1950s to early 1960s period. Brick or rendered finishes. Corrugated iron roofing. Consistent, original windows dimensions facing the street. Main entrance incorporated into front elevation.	
Fencing	Where fencing exists, it is predominantly in the form of low style open fencing along the primary road frontage. Corrugated iron fencing evident to side and rear boundaries.	
Setting, landscaping, streetscape and public realm features	<p>Low scale suburban feel, within proximity to the open spaces.</p> <p>Strong sense of uniformity of buildings.</p>	
Representative Buildings	[Not identified]	

**Character Areas affecting City of Port Adelaide Enfield**

Enfield Character Area Statement (PAe-C1)		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
Eras, themes and context	1900s - 1950s built development.	
Allotments, subdivision and built form patterns	"Garden suburb" street pattern and modified grid. Generous allotment sizes with wide frontages and substantial rear gardens. Consistent front set-backs.	
Architectural styles, detailing and built	The area is large and features a wide variety of housing styles including bungalows, villas, Tudors, art deco, inter-war, cottages and mansions generally built before the 1940s.	

Statement#	Statement	
PAdEC1	form features	<p>There is also a significant stock of quality dwellings built between 1940 and 1950 that augment the pre 1940s dwellings and make an important contribution to the character of the area.</p> <p>There is a notable concentration of bungalows in the western portion of the area and this style is a defining feature in this part of the area.</p>
	Building height	Single storey.
	Materials	Materials consistent with the style of building and era of its original construction.
	Fencing	<p>Low and/or open consistent with the style and era of construction of the building it is associated with.</p> <p>Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms.</p> <p>Fences associated with houses from the 1920s including capped timber palings, post and wire or woven wire fences.</p>
	Setting, landscaping, streetscape and public realm features	<p>The 1920s street pattern in this area is distinctive and reflects the garden suburb approach to town planning and subdivision.</p> <p>It results in wide nature strips and reserves that together with mature, well landscaped gardens create road verges which contribute to an open and high quality residential character.</p>
	Representative Buildings	<i>[Not identified]</i>

PAdEC2	<p><b>Glanville (East of Carlisle) Character Area Statement (PAdE-C2)</b></p>	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>	
	<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	1860s - 1920s built development.
	Allotments, subdivision and built form patterns	The allotment pattern is shaped to accommodate the alignments of Carlisle Street and Causeway Road. Small allotment sizes with narrow frontages. Dwellings are built close to streets.
	Architectural styles, detailing and built form features	Housing styles include cottages, villas, inter-war and bungalows with cottages being the predominant and key defining feature in the area.
	Building height	Single storey.
	Materials	Materials consistent with the style of building and era of its original construction.
Fencing	<p>Low and/or open consistent with the style and era of construction of the building it is associated with.</p> <p>Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms. Fences associated with houses from the 1920s including capped timber palings, post and wire or woven wire fences.</p>	
Setting, landscaping, streetscape and public realm features	<p>The area is nestled in to the north west of the Jervis Street bridge and contains many old workers' cottages. These are particularly prevalent in the area bound by Sutherland Street, Connor Street, Hart Street and Carlisle Street.</p> <p>The area's simple low rise housing is strongly counterpointed by the modern, multi -storey Port Adelaide waterfront development to the east of the Outer Harbour rail line and provides an important representation of the early settlement and historical development of Port Adelaide.</p>	
Representative Buildings	<i>[Not identified]</i>	

	<p><b>Largs / Largs North Character Area Statement (PAdE-C3)</b></p>	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>	
	<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
Eras, themes and context	1900s - 1960s built development.	
Allotments, subdivision and built form patterns	<p>Grid pattern with predominately east -west running streets with the long axes of allotments running north-south. Allotments fronting Lady Gowrie Drive and Military Road configured with their long axes running east-west so that buildings address these roads. A high degree of consistency in front setbacks.</p> <p>Regular and generous rectangular allotments with wide frontages.</p>	
Architectural styles,	Wide range of housing styles including bungalows, villas, inter-war, Tudors, cottages and art deco. There is a strong concentration of pre 1940s built form	

Statement#	Statement	
PAAdEC3	detailing and built form features	
	Building height	Predominately single storey but some two storey along parts of the Lady Gowrie Drive frontage.
	Materials	Materials consistent with the style of building and era of its original construction.
	Fencing	<p>Low and/or open consistent with the style and era of construction of the building it is associated with.</p> <p>Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms. Fences associated with houses from the 1920s including capped timber palings, post and wire or woven wire fences.</p> <p>Original hedges retained, restored and where appropriate, extended, (utilizing the same species of planting currently in existence) as an alternative to constructed fences.</p>
	Setting, landscaping, streetscape and public realm features	<p>The southern boundary of this area adjoins the Semaphore/Largs Historic Area. It abuts the coast and contains a significant number of dwellings built during the period from 1915-1940.</p> <p>It has a strong relationship with the coast and features tree lined streets with footpaths on both sides that provide vistas and ready walking access to the foreshore and beach.</p> <p>Wide allotment frontages with generous spacing between driveways make a significant contribution to the walkability of these footpaths and the character of the area.</p> <p>An imposing stand of Norfolk Island pines along Lady Gowrie Drive is a key feature of the area.</p>

<b>Rosewater Character Area Statement (PAAdE-C4)</b>		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>		
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>		
<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
Eras, themes and context	1900s - 1940s built development.	
Allotments, subdivision and built form patterns	Grid pattern distorted by the alignment of Newcastle Street. Small allotments with narrow frontages. Front setbacks are consistent on a street by street basis.	
Architectural styles, detailing and built form features	A variety of housing styles but cottages, villas and bungalows are the principle styles.	
Building height	Single storey.	
Materials	Materials of existing buildings retained where practicable and missing elements reinstated consistent with the style of building and era of its original construction.	
Fencing	Low and/or open consistent with the style and era of construction of the building it is associated with. Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms. Fences associated with houses from the 1920s including capped timber palings, post and wire or woven wire fences.	
Setting, landscaping, streetscape and public realm features	Newcastle Street is a well landscaped road that provides the main access into this area. It features well established avenue tree planting that includes plane trees and jacarandas. Simple, single storey, historic detached dwellings built on allotments with consistent widths laid out in a grid pattern, and the adjacent Mt Carmel school and the reserve to the north west, combine to establish a country town like character.

**Character Areas affecting City of Prospect**

<b>Suburban Neighbourhood 1 Character Area Statement (Pr-C1)</b>		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>		
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>		
<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
Eras, themes and context	Late 19th and Early 20th centuries residential. Limited post-1950s residential. Very low density and primarily detached dwellings.	
Allotments, subdivision and built	Original land division patterns following grid type street pattern and displaying rectangular, rectilinear allotments. Spacious allotments. Large allotment frontages. Large front setbacks. Street facing front dwelling facades. Large spaces around and between dwellings including generous and asymmetrical (one side lapppg	

Statement#	Statement	
PrC1	form patterns	than the other) side setbacks between dwellings. Typically two storey dwellings display consistent side boundary setbacks between building levels.
	Architectural styles, detailing and built form features	<p>Majority bungalows and villas of a significant scale.</p> <p>Pitched roofs with their vertical proportion similar to wall height and typically around 25 to 49 degree pitch.</p> <p>Prominent front verandahs of bull-nose or concave design.</p> <p>Moderate front façade detailing and articulation (wall off-sets, verandahs and deep eaves) with walls with a solid to void ratio of greater than 1:1 and fenestrations showing a vertical prominence.</p>
	Building height	<p>Primarily single storey presentation to the street with two storey components sited behind.</p> <p>1 to 2 storey dwellings with vertical proportions consistent with traditional dwellings (wall height at least 3 metres and no more than 3.6 metres for single storey and up to 7 metres for two storeys.</p> <p>Large scale buildings in context with large to very large allotments and frontages.</p>
	Materials	<p>Stone, brick and rendered finishes.</p> <p>Detailing around doors, windows, wall edges and gables.</p> <p>Limited colour palette for the majority of building façade (sandstone to reds; bluestone and grey tones) with colour highlights in the detailing.</p>
	Fencing	Front fences forward of the building are of an open style and low in height (to 1.2 metres high). Fencing style associated with dwelling style and era of development. Some more solid fencing of standard height along major roads.
	Setting, landscaping, streetscape and public realm features	<p>Leafy public realm that visually dominates or supports the built form.</p> <p>Extensively landscaped front yards with mature vegetation/tree canopy. Minimal hard and artificial surfaces. Mature vegetation in public realm. Garages and carports are designed and sited to be subordinate to the main dwelling. Access points are narrow and consolidated.</p>
	Representative Buildings	<i>[Not identified]</i>

PrC2	<b>Suburban Neighbourhood 2 Character Area Statement (Pr-C2)</b>	
	The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	
	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	Late 19th and Early 20th centuries residential. Limited post-1950s infill residential. Primarily low density and low scale residential, including detached, semi-detached and row dwellings.
	Allotments, subdivision and built form patterns	<p>Original land division patterns following grid type street pattern and displaying rectangular, rectilinear allotments. Large allotments. Large allotment frontages. Large front setbacks along with reasonable side setbacks. Street facing front dwelling facades.</p> <p>Moderate spaces around dwellings including asymmetrical (one side larger than the other) side setbacks between dwellings. Typically two storey dwellings to display consistent side boundary setbacks between building levels.</p>
	Architectural styles, detailing and built form features	<p>Mainly single storey detached bungalows, cottages and villas.</p> <p>Pitched roofs with the vertical proportion similar to wall height and typically around 25 to 49 degree pitch.</p> <p>Front verandahs (with bull-nose or concave design) with façade detailing and moderate articulation. Moderate front façade detailing and articulation (wall off-sets, verandahs and deep eaves) with walls with a solid to void ratio of greater than 1:1 and fenestrations showing a vertical prominence.</p>
	Building height	<p>Primarily single storey presentation to the street with any two storey components sited behind.</p> <p>Predominantly 1 storey dwellings with vertical proportions consistent with traditional dwellings at least 3 metres and no more than 3.6 metres in wall height for single storey and up to 7 metres for two storeys.</p> <p>Moderate scale in context with low rise development, allotment size and frontages.</p>
Materials	<p>Stone, brick and rendered finishes.</p> <p>Detailing around doors, windows, wall edges and gables</p> <p>Limited colour palette for the majority of building façade and roof areas (sandstone to reds; bluestone and grey tones) with complementary colour highlights in the detailing.</p>	
Fencing	Front fences forward of the building are of an open style and low in height (to 1.2 metres high). Style associated with dwelling style and era of development. Some more solid fencing of standard height along major roads.	
Setting, landscaping, streetscape and public realm features	<p>Leafy public realm that supports the built form. Garages and carports are designed and sited to be subordinate to the main dwelling. Access points are narrow and consolidated.</p> <p>Well landscaped front yards with mature vegetation/tree canopy. Minimal hard and artificial surfaces. Front and side garden landscaping. Leafy, garden suburb character and visual separation between houses.</p>	

Statement#	Statement	
	Representative Buildings	<i>[Not identified]</i>
PrC3	<p><b>Suburban Neighbourhood 3 Character Area Statement (Pr-C3)</b></p> <p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	Early 20th century residential. Some examples of residential infill comprising units, conventional and recent dwellings. Primarily low density and low scale residential including various dwelling types.
	Allotments, subdivision and built form patterns	Original land division patterns following grid type street pattern and displaying rectangular, rectilinear allotments. Moderate sized allotments. Moderate to compact allotment frontages. Street facing front dwelling facades.  Moderate to compact asymmetrical spaces between dwellings providing physical and visual separation between dwellings. Typically two storey dwellings to display consistent side boundary setbacks between building levels.
	Architectural styles, detailing and built form features	Many bungalows with some cottages, Tudor and art deco housing.  Pitched roofs with the vertical proportion similar to wall height and typically around 25 to 49 degree pitch.  Front verandahs with façade detailing and moderate articulation (wall off-sets, verandahs and deep eaves) walls with a solid to void ratio of greater than 1:1 and fenestrations showing a vertical prominence.
	Building height	Primarily single storey presentation to the street with two storey components sited behind.  Predominantly 1 storey dwellings with vertical proportions consistent with traditional dwellings (at least 3 metres and no more than 3.6 metres in wall height).  Moderate to compact scale in context with low rise development, allotment size and frontages.
	Materials	Stone, brick and rendered finishes and durable materials.  Detailing around doors, windows, wall edges and gables.  Limited palette for the majority of building façade and roof areas with colour highlights in the detailing (sandstone to reds; bluestone and grey tones) with complementary colour highlights in the detailing.
	Fencing	Front fences forward of the building are of an open style and low in height (to 1.2 metres high). Style associated with dwelling style and era of development. Some more solid fencing of standard height along major roads.
	Setting, landscaping, streetscape and public realm features	Leafy public realm that supports the built form.  Landscaped front yards with mature vegetation/tree canopy. Minimal hard and artificial surfaces. Leafy garden suburb character and maintaining visual separation between houses. Garages and carports are designed and sited to be subordinate to the main dwelling. Access points are narrow and consolidated.
	Representative Buildings	<i>[Not identified]</i>

**Character Area affecting District Council of Tatiara**

TatC1	<p><b>Mundulla Character Area Statement (TatC1)</b></p> <p>The Character Area Overlays identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	Pre-1950.
	Allotments, subdivision and built form patterns	Original land division, large allotments. Buildings sited regularly and facing towards street frontages.
	Architectural styles, detailing and built form features	Consistent roof pitches. Unity of design and scale.
	Building height	Consistent, low scale.
	Materials	Earthen colours. Materials consistent with pre-1950s buildings.
	Fencing	Informal fencing.
	Setting, landscaping, streetscape and public realm features	Individual and stands of trees, stone culverts, drainage and footpath system add to character of townscape.

Statement#	Statement
	Informal street furniture, lighting, footpaths, road surface treatments, kerbing and guttering. Surrounded by well vegetated parklands and grazing land. Uncluttered appearance. Advertisements of traditional styles and scale consistent with the era.
Representative Buildings	[Not identified]

**Character Areas affecting City of Victor Harbor**

ViHC1	<b>Burke Street Character Area Statement (ViH-C1)</b>	
	The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	
	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	Consistent low scale detached dwellings, primarily constructed after World War 1 to the later part of the 19th Century (mid 1800s to 1930s). Early settlement, consolidation and growth of residential development.
	Allotments, subdivision and built form patterns	Original street layout including rear access lanes and local roads. Curvilinear street with relatively large allotments roughly perpendicular to the street, most with rear laneway access.
	Architectural styles, detailing and built form features	Mix of small mid-1800s detached cottages of early Vernacular style, symmetrical and asymmetrical cottages and villas of the mid to late 1800s with Victorian stylistic influences, early 1900s cottages and villas with Federation stylistic influences, Inter-War bungalows. Church and Hall with late Victorian Gothic stylistic influences. Rectilinear plan form. Buildings are typically two or more pavilions rather than a single mass. Steeply-pitched roof forms, typically 35 to 40 degrees on 1800s and early 1900s era buildings and slightly lower on Inter-War buildings, reflecting traditional architectural styles and building methods. Short roof spans, minimising roof bulk. Concave, bullnose and straight-pitched verandahs on front and sometimes side facades reduce the bulk and scale and add visual interest. Lean-to forms are common. Fine-grain detail in elements such as plinths, string courses, projecting sills. High solid to void ratio. Vertical proportions in windows and doors.
	Building height	Single storey, low scale and simple in form.
	Materials	Limestone walls. Red brick or rendered quoin work and details. Timber joinery including window frames, door frames, doors, fascias, bargeboards and verandah posts. Corrugated iron or corrugated steel roofing. Variation in materials assists in breaking down bulk and scale and adds visual interest.
	Fencing	Low, open style construction front fencing (1.2 metres or less) associated with the traditional period and style of building, and providing views to the building. Low timber pickets, post and rails, pier and plinth masonry or wrought iron. Rear and side fencing behind building line up to 1.8 metres, corrugated iron.
Setting, landscaping, streetscape and public realm features	Established garden settings. Varied, small front and side setbacks. Landscaped verges.  Garages and carports are sited behind dwellings, accessed from rear laneways or well set back from the front of dwellings.	
Representative Buildings	[Not identified]	

**Character Areas affecting Town of Walkerville**

WalkC1	<b>Gilberton Character Area Statement (Walk-C1)</b>	
	The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	
	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	Various eras of development that map out the developmental progress of the Walkerville Township, from the late 1870s to early 1900s.
	Allotments, subdivision and built form patterns	Predominantly low density detached dwellings on allotments that are medium in width and of a range of sizes.  Some semi-detached and group dwellings on larger allotments.
	Architectural styles, detailing and built form features	The historic built form exhibits a mixture of architectural styles from the late 1800s and early 1900s. Edwardian villas alongside Victorian cottages pepper the locality providing a significant narrative that reflects the contemporaneous construction styles.
	Building height	Predominantly single storey. Two storey additions to the rear of buildings or within the roof space.
Materials	Residences within this area vary in material application. Residences mostly constructed in locally sourced sandstone or bluestone, corrugated galvanised iron roofs and verandahs with cast iron lacework.	
Fencing	Original fencing with bluestone plinths and cast iron fence railings above. Low front fencing.	
Setting, landscaping, streetscape and public realm features	There is a reasonably well established pattern of development, with regular spacing between buildings, front setbacks and roof pitches.  The landscape setting is an important element of the area, with generally open, well vegetated streetscapes through a combination of public and private plantings and low fencing forward each dwelling.

**Character Areas affecting City of West Torrens**

Statement#	Statement	
WeToC1	<b>Ashford Character Area Statement (WeTo-C1)</b>	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	1920s - 1940s
	Allotments, subdivision and built form patterns	Strong uniformity of allotment pattern. Low to very low density site areas. Wide street frontages. Medium sized detached dwellings on substantial allotments.
	Architectural styles, detailing and built form features	Predominantly Tudor and Bungalow dwellings. Articulated hip and gable roofs. Verandahs / porticos. Verandahs as continuation of main roof structure. Additions are generally located to the rear of the dwelling.
	Building height	Generally single storey. Second storey within the roof space.
	Materials	Brick. Painted brick. Stone. Rendered masonry. Corrugated pre-coloured or galvanised iron sheeting. Tiled roofs. Timber windows.
	Fencing	Low fencing facilitating views of the dwelling. Post and rail with woven wire. Low level stone or masonry. Timber picket.
	Setting, landscaping, streetscape and public realm features	Strong uniformity of layout and buildings. Carports and garages are behind the main face of dwellings. Consistent side and rear setbacks, large private yards. Generous traditional well-maintained gardens. Tree lined streets.

The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.		
Eras, themes and context	1950s - 1970s.	
Allotments, subdivision and built form patterns	Low density site areas. Wide street frontages. Strong uniformity of allotment patterns. Detached dwellings on relatively square allotments.	
Architectural styles,	Predominantly Art deco dwellings. Pitched roofs with eaves. Verandahs / porticos.	

Statement#	Statement	
WeToC5	detailing and built form features	
	Building height	Single storey. Discreetly integrated two storey elements within roof space.
	Materials	Brick. Face stone. Corrugated pre-coloured or galvanised iron sheeting. Tiled roofs. Timber windows. Feature stone chimneys.
	Fencing	No front fences. Side fences are no further forward than the building line.
	Setting, landscaping, streetscape and public realm features	Consistent front setbacks. Carports and garages are behind the main face of dwellings. Generous well-maintained gardens.
	Representative Buildings	<i>[Not identified]</i>

WeToC6	<b>Thebarton Character Area Statement (WeTo-C6)</b>	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>	
	<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	1890s - 1940s.
	Allotments, subdivision and built form patterns	Medium to very low density site areas. Subdivision consistent with allotment pattern in the immediate locality. Detached, semi-detached and row dwellings on substantial allotments.
	Architectural styles, detailing and built form features	Predominantly detached and semi-detached Victorian and Federation villas/cottages and Bungalow style dwellings with examples of Single fronted cottages; Row dwellings; and Tudor style dwellings. Hip, gable and Dutch gable roofs. Verandahs / porticos. Additions are generally located to the rear of the dwelling.
	Building height	Generally single storey. Second storey within the roof space.
	Materials	Brick. Painted brick. Stone. Corrugated pre-coloured or galvanised iron sheeting. Timber windows. Timber verandah posts. Timber filigree. Red brick chimneys.
Fencing	Low fencing facilitating views of the dwelling. Post and rail with woven wire. Low level stone or masonry. Timber picket.	
Setting, landscaping, streetscape and public realm features	Front setbacks small to medium front and side setbacks. Large rear setbacks provide sense of space. Low site coverage. Carports and garages are behind the main face of dwellings. Well established tree lined streets. Narrow frontages (east of South Road). Vehicle access generally via rear laneways.	
Representative Buildings	<i>[Not identified]</i>	

WeToC7	<b>Torrensvile Character Area Statement (WeTo-C7)</b>	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>	
	<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	1890s - 1940s.
	Allotments, subdivision and built form patterns	Low to very low density site areas. Wide frontages. Commercial development along Henley Beach Road on smaller/ narrower allotments. Detached and semi-detached dwellings on substantial allotments.
	Architectural styles, detailing and built form features	Predominantly Victorian and Federation Villas, Tudor and Bungalow style dwellings with examples of Row cottages; Single fronted cottages; Spanish Mission dwellings; and Parapeted shopfronts. Strong uniformity of layout and buildings. Hip, gable and Dutch gable roofs. Integrated and complementary verandahs / porticos. Additions are generally located to the rear of the dwelling.
	Building height	Generally single storey. Second storey within the roof space.
Materials	Brick. Painted brick. Stone. Rendered masonry. Corrugated pre-coloured or galvanised iron sheeting. Timber windows. Brick chimneys.	
Fencing	Low fencing facilitating views of the dwelling. Post and rail with woven wire. Low level stone or masonry. Timber picket.	
Setting, landscaping, streetscape and public realm features	Large front and side setbacks. Consistent rear setbacks, large private yards. Carports and garages are behind the main face of dwellings. Traditional well-maintained gardens. Tree lined streets. Vehicle access has been design and located to preserve existing street trees.

**Character Areas affecting Whyalla City Council**

Whyalla Character Area Statement (Wh-C1)		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
Eras, themes and context	1900 - 1940. Developed in the first 40 years of Whyalla up until the 1940's. Illustrates the increasing prosperity of the city from the small corrugated or rendered masonry cottages to the substantial stone bungalow dwellings constructed by BHP for their senior staff at the steelworks.	
Allotments, subdivision and built form patterns	Pattern of division in predominantly quarter acre lots, generous roads and road reserves with ample provision for on street parking and street planting.	
Architectural styles, detailing and built form features	Colonial Cottages with half-hipped roofs, rendered masonry walls with open verandahs the width of the dwelling, symmetrical fronted dwellings with return verandahs and Bungalow dwellings dominate the architectural style of the dwellings.	
Building height	[Not stated]	
Materials	Corrugated iron, rendered masonry and BHP stone (including stone coins) and BHP brick are the predominant construction materials with corrugated iron roofs.	
Fencing	Simple low picket or low rendered masonry, low open fencing or hedging.	
Setting, landscaping, streetscape and public realm features	Pedestrian and cycle connection to the foreshore, Ada Ryan Gardens and Hummock Hill.	
Representative Buildings	[Not identified]	

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Character Preservation District Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Recognise, protect and enhance the special character of Character Preservation Districts.
DO 2	The long term use of land outside of townships for primary production and associated value adding enterprises is assured and promoted.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Land division is undertaken in accordance with Section 8 of the <i>Character Preservation (Barossa Valley) Act 2012</i> and Section 8 of the <i>Character Preservation (McLaren Vale) Act 2012</i> .	DTS/DPF 1.1 None are applicable.

PO 1.2 Residential development located in townships to reinforce settlement patterns within the district and support the continuation of primary production on land outside townships.	DTS/DPF 1.2 Residential development located within designated township areas of the Character Preservation District Overlay.
Built Form and Character	
PO 2.1 Development occurring at the edge of townships is sympathetic to the rural landscape and reinforces a clear transition between townships and rural landscape through measures including:  (a) being of a low scale (b) orientating residential development towards the rural area (c) ensuring visual separation from the rural area through landscaping and road reserves.	DTS/DPF 2.1 None are applicable.
PO 2.2 Development contributes to and maintains the historic identity and character of townships through appropriate:  (a) form (b) scale (c) siting (d) design (e) landscaping.	DTS/DPF 2.2 None are applicable.
PO 2.3 Adaptive re-use of rural structures and historic and/or character buildings supports their preservation and ongoing contribution to the landscape.	DTS/DPF 2.3 None are applicable.
Built Form and Character in the Rural Area	
PO 3.1 Preservation of existing natural features including topography, watercourses and mature trees.	DTS/DPF 3.1 None are applicable.
PO 3.2 Buildings and structures do not interrupt views of the skyline through measures including being sited below ridge lines.	DTS/DPF 3.2 None are applicable.
PO 3.3 Buildings and structures harmonise with the natural features of the landscape and reinforce the rural character through the use of muted, neutral, non-reflective landscape colours on external surfaces.	DTS/DPF 3.3 None are applicable.
PO 3.4 Large buildings and structures are sited and oriented to minimise their visual bulk, particularly if close to roads or in open settings where there are no other buildings or mature trees in close proximity.	DTS/DPF 3.4 None are applicable.
PO 3.5 Buildings and structures are grouped to create compact clusters well set back from public roads.	DTS/DPF 3.5 None are applicable.
PO 3.6 Development mitigates the need for long, steep access roads that require excessive grading or removal of vegetation.	DTS/DPF 3.6 None are applicable.
Earthworks	
PO 4.1 Excavation and filling of land is limited to that associated with:  (a) minimising the visual impact of buildings or structures  or  (a) construction of water storage facilities.	DTS/DPF 4.1 Excavation and/or filling of land is:  (a) no greater than 1.5 metres from natural ground level (b) only undertaken in order to reduce the visual impact of buildings or structures or to construct water storage facilities.

**Procedural Matters (PM)**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	The natural coastal environment (including environmentally important features such as mangroves, wetlands, saltmarsh, sand dunes, cliff tops, native vegetation, wildlife habitat, shore and estuarine areas) is conserved and enhanced.
DO 2	Provision is made for natural coastal processes; and recognition is given to current and future coastal hazards including sea level rise, flooding, erosion and dune drift to avoid the need, now and in the future, for public expenditure on protection of the environment and development.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature																									
Land Division																										
<p>PO 1.1</p> <p>Land is divided only if it or the subsequent development and use of the land will not adversely affect the environmental values or ability of the land or adjoining land to adapt to changing coastal processes.</p>	<p>DTS/DPF 1.1</p> <p>Land division for minor adjustment of allotment boundaries removes an anomaly in the current boundaries with respect to the location of buildings or structures.</p>																									
<p>PO 1.2</p> <p>Land is not divided unless a layout is achieved whereby roads, parking areas and development sites for each allotment are at least 0.3m above the standard sea flood risk level, unless the land has, or can be provided with, appropriate and acceptable coastal protection measures.</p>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>																									
<p>PO 1.3</p> <p>Other than small-scale infill land division in a predominantly urban zone, land division adjacent to the coast incorporates an existing or proposed public reserve (not including a road or erosion buffer) of a size adequate to provide for natural coastal processes, public access and recreation.</p>	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>																									
Hazard Risk Minimisation																										
<p>PO 2.1</p> <p>Buildings sited over tidal water or that are not capable of being raised or protected by flood protection measures in the future are protected against the standard sea flood risk level and 1m of sea level rise.</p>	<p>DTS/DPF 2.1</p> <p>Building floor levels are at least 1.25m above the standard sea flood risk level.</p>																									
<p>PO 2.2</p> <p>Development, including associated roads and parking areas, but not minor structures unlikely to be adversely affected by flooding, is protected from the standard sea flood risk level and 1m of sea level rise.</p>	<p>DTS/DPF 2.2</p> <p>Development incorporates finished ground and floor levels not less than:</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: center;">Finished Ground and Floor Levels</th> </tr> </thead> <tbody> <tr><td>Minimum finished floor level is 2.6m AHD</td></tr> <tr><td>Minimum finished floor level is 20.4m AHD</td></tr> <tr><td>Minimum finished floor level is 3m AHD</td></tr> <tr><td>Minimum finished floor level is 3.45m AHD</td></tr> <tr><td>Minimum finished floor level is 4.15m AHD</td></tr> <tr><td>Minimum finished floor level is 4.35m AHD</td></tr> <tr><td>Minimum finished floor level is 5.3m AHD</td></tr> <tr><td>Minimum finished ground level is 1.7m AHD; Minimum finished floor level is 1.95m AHD</td></tr> <tr><td>Minimum finished ground level is 1.75m AHD; Minimum finished floor level is 2m AHD</td></tr> <tr><td>Minimum finished ground level is 1.85m AHD; Minimum finished floor level is 2.1m AHD</td></tr> <tr><td>Minimum finished ground level is 1.9m AHD; Minimum finished floor level is 2.15m AHD</td></tr> <tr><td>Minimum finished ground level is 2.2m AHD; Minimum finished floor level is 2.45m AHD</td></tr> <tr><td>Minimum finished ground level is 2.3m AHD; Minimum finished floor level is 2.55m AHD</td></tr> <tr><td>Minimum finished ground level is 2.3m AHD; Minimum finished floor level is 2.6m AHD</td></tr> <tr><td>Minimum finished ground level is 2.4m AHD</td></tr> <tr><td>Minimum finished ground level is 2.4m AHD; Minimum finished floor level is 2.65m AHD</td></tr> <tr><td>Minimum finished ground level is 2.45m AHD; Minimum finished floor level is 2.7m AHD</td></tr> <tr><td>Minimum finished ground level is 2.5m AHD; Minimum finished floor level is 2.65m AHD</td></tr> <tr><td>Minimum finished ground level is 2.5m AHD; Minimum finished floor level is 2.7m AHD</td></tr> <tr><td>Minimum finished ground level is 2.5m AHD; Minimum finished floor level is 2.75m AHD</td></tr> <tr><td>Minimum finished ground level is 2.55m AHD; Minimum finished floor level is 2.8m AHD</td></tr> <tr><td>Minimum finished ground level is 2.6m AHD; Minimum finished floor level is 2.85m AHD</td></tr> <tr><td>Minimum finished ground level is 2.6m AHD; Minimum finished floor level is 2.86m AHD</td></tr> <tr><td>Minimum finished ground level is 2.65m AHD; Minimum finished floor level is 2.9m AHD</td></tr> </tbody> </table>	Finished Ground and Floor Levels	Minimum finished floor level is 2.6m AHD	Minimum finished floor level is 20.4m AHD	Minimum finished floor level is 3m AHD	Minimum finished floor level is 3.45m AHD	Minimum finished floor level is 4.15m AHD	Minimum finished floor level is 4.35m AHD	Minimum finished floor level is 5.3m AHD	Minimum finished ground level is 1.7m AHD; Minimum finished floor level is 1.95m AHD	Minimum finished ground level is 1.75m AHD; Minimum finished floor level is 2m AHD	Minimum finished ground level is 1.85m AHD; Minimum finished floor level is 2.1m AHD	Minimum finished ground level is 1.9m AHD; Minimum finished floor level is 2.15m AHD	Minimum finished ground level is 2.2m AHD; Minimum finished floor level is 2.45m AHD	Minimum finished ground level is 2.3m AHD; Minimum finished floor level is 2.55m AHD	Minimum finished ground level is 2.3m AHD; Minimum finished floor level is 2.6m AHD	Minimum finished ground level is 2.4m AHD	Minimum finished ground level is 2.4m AHD; Minimum finished floor level is 2.65m AHD	Minimum finished ground level is 2.45m AHD; Minimum finished floor level is 2.7m AHD	Minimum finished ground level is 2.5m AHD; Minimum finished floor level is 2.65m AHD	Minimum finished ground level is 2.5m AHD; Minimum finished floor level is 2.7m AHD	Minimum finished ground level is 2.5m AHD; Minimum finished floor level is 2.75m AHD	Minimum finished ground level is 2.55m AHD; Minimum finished floor level is 2.8m AHD	Minimum finished ground level is 2.6m AHD; Minimum finished floor level is 2.85m AHD	Minimum finished ground level is 2.6m AHD; Minimum finished floor level is 2.86m AHD	Minimum finished ground level is 2.65m AHD; Minimum finished floor level is 2.9m AHD

Minimum finished ground level is 3.05m AHD; Minimum finished floor level is 3.3m AHD	
Minimum finished ground level is 3.8m AHD; Minimum finished floor level is 4.05m AHD	
	In instances where no value is specified (i.e. there is a blank field): <ul style="list-style-type: none"> <li>(a) finished ground levels allow for sea level rise by being raised 0.3m or more above the standard sea flood risk level</li> <li>(b) finished floor levels are 0.55m or more above the standard sea flood risk level</li> <li>(c) practical measures can be implemented to provide future protection against an additional sea level rise of 0.7m plus an allowance to accommodate 100 years of land subsidence.</li> </ul>
PO 2.3 Development will not create or aggravate coastal erosion or require coast protection works that cause or aggravate coastal erosion.	DTS/DPF 2.3 None are applicable.
PO 2.4 Development is set back a sufficient distance from the coast to provide an erosion buffer in addition to a public reserve that will allow for at least 100 years of coastal retreat for single buildings or small-scale developments, or 200 years of coastal retreat for large scale developments unless: <ul style="list-style-type: none"> <li>(a) the development incorporates appropriate private coastal protection measures to protect it from anticipated erosion</li> <li>or</li> <li>(b) there are formal commitments to protect the existing or proposed public reserve and development from anticipated coastal erosion.</li> </ul>	DTS/DPF 2.4 None are applicable.
PO 2.5 Additions or alterations to, or replacement of, a dwelling do not increase the risk of effects from natural coastal processes such as flooding, sea-level rise, sand drift and erosion.	DTS/DPF 2.5 None are applicable.
Coast Protection Works	
PO 3.1 Development avoids the need for coast protection works through measures such as setbacks to protect development from coastal erosion, sea or stormwater flooding, sand drift or other coastal processes.	DTS/DPF 3.1 None are applicable.
PO 3.2 Development does not compromise the structural integrity of any sea wall or levee bank or the ability to maintain, modify or upgrade any sea wall or levee bank.	DTS/DPF 3.2 None are applicable.
PO 3.3 Unavoidable coast protection works are the subject of binding agreements to cover the cost of future construction, operation, maintenance and management measures and will not: <ul style="list-style-type: none"> <li>(a) have an adverse effect on coastal ecology, processes, conservation, public access and amenity</li> </ul>	DTS/DPF 3.3 None are applicable.

(b) require commitment of public resources including land (c) present an unacceptable risk of failure relative to potential hazard resulting from failure.	
Environment Protection	
PO 4.1 Development will not unreasonably affect the marine and onshore coastal environment by pollution, erosion, damage or depletion of physical or biological resources; interference with natural coastal processes; or the introduction of and spread of marine pests or any other means.	DTS/DPF 4.1 None are applicable.
PO 4.2 Development avoids delicate or environmentally sensitive coastal areas such as sand dunes, cliff tops, estuaries, wetlands or substantially intact strata of native vegetation.	DTS/DPF 4.2 None are applicable.
PO 4.3 Development allows for ecological and natural landform adjustment to changing climatic conditions and sea levels, by allowing landward migration of dunes, coastal wetlands, mangrove and samphire areas.	DTS/DPF 4.3 None are applicable.
PO 4.4 Development avoids, or in built up areas minimises, impacts on important habitat areas that support the nesting, breeding and movement/migration patterns of fauna, including threatened shorebirds.	DTS/DPF 4.4 None are applicable.
PO 4.5 Development is designed so that wastewater is disposed of in a manner that avoids pollution or other detrimental impacts on the marine and on-shore environment of coastal areas.	DTS/DPF 4.5 Development is connected, or will be connected, to an approved common wastewater disposal service with the capacity to meet the requirements of the development or on-site wastewater systems set back a minimum of 100m from the Mean High Water Mark at spring tide.
PO 4.6 Development is designed so that stormwater runoff is disposed of in a manner that avoids pollution or other detrimental impacts on the marine and on-shore environment of coastal areas.	DTS/DPF 4.6 None are applicable.
PO 4.7 Development involving the removal of shell grit, cobbles or sand, other than for coastal protection works purposes, is not undertaken.	DTS/DPF 4.7 Development does not involve the removal of shell grit or sand.
Access	
PO 5.1 Development maintains or enhances appropriate public access to and along the foreshore.	DTS/DPF 5.1 None are applicable.
PO 5.2 Public access through sensitive coastal landforms, particularly sand dunes, wetlands and cliffs, is restricted to defined pedestrian paths and constructed to minimise adverse environmental impact.	DTS/DPF 5.2 None are applicable.
PO 5.3 Access roads to the coast, lookouts and places of interest:  (a) do not detract from the amenity or the environment (b) are designed for slow-moving traffic (c) are minimised in number.	DTS/DPF 5.3 None are applicable.
PO 5.4 Development on land adjoining a coastal reserve is sited and designed to be compatible with the purpose, management and amenity of the reserve and to prevent inappropriate access to or use of the reserve.	DTS/DPF 5.4 None are applicable.

### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Except where the development is, in the opinion of the relevant authority, minor in nature and would not warrant a referral when considering the purpose of the referral, the following:</p> <p>(a) excavation and/or filling where the total volume of material excavated and/or filled exceeds 9m<sup>3</sup></p> <p>(b) dwellings and habitable buildings that:</p> <p style="margin-left: 20px;">(i) do not meet DTS/DPF 2.2 or</p> <p style="margin-left: 20px;">(ii) are within 100m of the mean high water mark</p> <p>(c) other than within a Rural Settlement Zone:</p> <p style="margin-left: 20px;">(i) buildings with a floor area greater than 60m<sup>2</sup></p>	Coast Protection Board.	<p>To provide expert assessment and direction to the relevant authority on:</p> <ul style="list-style-type: none"> <li>• the risk to development from current and future coastal hazards (including sea-level rise, coastal flooding, erosion, dune drift and acid sulfate soils);</li> <li>• coast protection works;</li> <li>• potential impacts from development on public access and the coastal environment (including important coastal features).</li> </ul>	Development of a class to which Schedule 9 clause 3 item 3 of the Planning, Development and Infrastructure (General) Regulations 2017 applies. 4210

or (ii) tourist accommodation, including a caravan park or (iii) division of land that would create 1 or more additional allotments  (d) off-shore structures (e) coast protection works (f) infrastructure within 100m landward of the mean high water mark.

Finished Ground and Floor Levels
Minimum finished ground level is 3.5m AHD; Minimum finished floor level is 3.75m AHD
Minimum finished ground level is 3.55m AHD; Minimum finished floor level is 3.8m AHD
Minimum finished ground level is 3.6m AHD; Minimum finished floor level is 3.85m AHD
Minimum finished ground level is 3.65m AHD; Minimum finished floor level is 3.9m AHD
Minimum finished ground level is 3.7m AHD; Minimum finished floor level is 3.95m AHD
Minimum finished ground level is 3.75m AHD; Minimum finished floor level is 4m AHD
Minimum finished ground level is 3m AHD; Minimum finished floor level is 3.25m AHD
Minimum finished ground level is 4m AHD; Minimum finished floor level is 4.25m AHD
Minimum finished ground level is 2.05m AHD; Minimum finished floor level is 2.3m AHD
Minimum finished ground level is 2.8m AHD; Minimum finished floor level is 3.05m AHD
Minimum finished ground level is 3.05m AHD; Minimum finished floor level is 3.3m AHD
Minimum finished ground level is 3.8m AHD; Minimum finished floor level is 4.05m AHD

In instances where no value is specified (i.e. there is a blank field):

- finished ground levels allow for sea level rise by being raised 300mm or more above the standard sea flood risk level
- finished floor levels are 550mm or more above the standard sea flood risk level
- practical measures can be implemented to provide future protection against an additional sea level rise of 700mm plus an allowance to accommodate 100 years of land subsidence.

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Defence Aviation Area Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Management of potential impacts of buildings on the operational and safety requirements of Defence Aviation Areas.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Built Form	
PO 1.1 Building height does not pose a hazard to the operations of Defence Aviation Areas.	DTS/DPF 1.1 Building height does not exceed the relevant height specified by the <i>Defence Aviation Area Overlay</i> .
PO 1.2 Exhaust stacks are designed and sited to minimise plume impacts on aircraft movements associated with Defence Aviation Areas.	DTS/DPF 1.2 Development does not include exhaust stacks.

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Design Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Development positively contributes to the liveability, durability and sustainability of the built environment through high-quality design.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
General	
PO 1.1 Medium to high rise buildings and state significant development demonstrate high quality design.	DTS/DPF 1.1 None are applicable.

**Procedural Matters (PM)**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Except where the development comprises a variation to an application that has previously:</p> <ul style="list-style-type: none"> <li>(a) been referred to the Government Architect or Associate Government Architect or</li> <li>(b) been given development authorisation under the <i>Planning, Design and Infrastructure Act 2016</i> or <i>Development Act 1993</i></li> </ul> <p>any of the following classes of development:</p> <ul style="list-style-type: none"> <li>(a) development within the area of the overlay located within the Corporation of the City of Adelaide where the total amount to be applied to any work, when all stages of the development are completed, exceeds \$10,000,000</li> <li>(b) development within the area of the overlay located within the City of Port Adelaide Enfield where the total amount to be applied to any work, when all stages of the development are completed, exceeds \$3 000 000</li> <li>(c) development within all other areas of the overlay that involves the erection or construction of a building that exceeds 4 building levels.</li> </ul>	Government Architect or Associate Government Architect	<p>To provide expert design advice to the relevant authority on how the development:</p> <ul style="list-style-type: none"> <li>(a) responds to its surrounding context and contributes to the quality and character of a place</li> <li>(b) contributes to inclusiveness, connectivity, and universal design of the built environment</li> <li>(c) enables buildings and places that are fit for purpose, adaptable and long-lasting</li> <li>(d) adds value by positively contributing to places and communities</li> <li>(e) optimises performance and public benefit</li> <li>(f) supports sustainable and environmentally responsible development.</li> </ul>	Development of a class to which Schedule 9 clause 3 item 22 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

**Dwelling Excision Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Creation of allotments to accommodate existing habitable dwellings in primary production areas is limited to avoid undermining primary production.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Division	
PO 1.1 Land division creating an additional allotment to accommodate an existing dwelling does not undermine the role of primary production areas by being limited and designed to achieve the following:	<p>DTS/DPF 1.1 Land division satisfies all the following:</p> <ul style="list-style-type: none"> <li>(a) no other dwelling has previously been excised from the allotment by creating an additional allotment</li> </ul>

<p>(a) accommodate a dwelling that has had a long term association with primary production on the same allotment</p> <p>(b) contain the excised dwelling within an allotment capable of providing a suitable rural residential amenity</p> <p>(c) maintain all other land (ie land outside the allotment containing the excised dwelling) in suitably sized allotments to support primary production</p> <p>(d) no other dwelling has been excised from the primary production allotment.</p>	<p>(b) it does not create more than one additional allotment where the resultant allotments satisfy (i) and (ii):</p> <p>(i) one allotment will contain a single existing lawful dwelling that existed prior to 1 December 2011 and meets all of the following:</p> <p>A. no allotment boundary is closer than 40m to an existing dwelling</p> <p>B. the allotment is no less than 1 hectare and no greater than 4 hectares in area</p> <p>C. if the allotment is of a battle-axe configuration, the driveway 'handle' is no more than 50 metres in length</p> <p>(ii) any other allotment has an area not less than that identified in the Minimum Site Area Technical and Numeric Variation layer in the SA planning database.</p>

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Future Local Road Widening Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Development consistent with and will not compromise efficient delivery of future road widening requirements of local roads.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Future Road Widening	
PO 1.1 Development does not compromise or is located and designed to minimise its impact on future road widening requirements.	DTS/DPF 1.1 Development does not involve building work, or building work is located wholly outside land within the following distance from the primary street frontage.

Minimum Future Local Road Widening Setback
Minimum future local road widening setback is 10.5m
Minimum future local road widening setback is 11m
Minimum future local road widening setback is 12.5m
Minimum future local road widening setback is 12.9m
Minimum future local road widening setback is 13m
Minimum future local road widening setback is 14m
Minimum future local road widening setback is 16.5m
Minimum future local road widening setback is 18m
Minimum future local road widening setback is 5m
Minimum future local road widening setback is 8m
Minimum future local road widening setback is 9.5m

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Future Road Widening Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Development which is consistent with and will not compromise efficient delivery of future road widening requirements.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Future Road Widening	
PO 1.1 Development does not compromise or is located and designed to minimise its impact on future road widening requirements.	DTS/DPF 1.1 Development does not involve building work, or building work is located wholly outside the land subject to the 6m Consent Area, the C Type Requirement or the Strip Requirement of the Metropolitan Adelaide Road Widening Plan.

**Procedural Matters (PM)**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Other than where all deemed-to-satisfy criteria for all policies relevant to this referral are met, development (including the division of land) that is within or may encroach within a Future Road Widening Area.	Commissioner of Highways.	To provide expert technical assessment and direction to the relevant authority on the safe and efficient operation and management of all roads relevant to the Commissioner of Highways as described in the Planning and Design Code.	Development of a class to which Schedule 9 clause 3 item 4 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

**Gas and Liquid Petroleum Pipelines Overlay**

**Assessment Provisions (AP)**

Desired Outcome	
DO 1	Management of risk to public safety, the environment and security of energy supply from the encroachment of development on strategic gas and liquid petroleum pipelines.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
<p>PO 1.1</p> <p>Community exposure to a potential hazard from the failure of a gas or liquid petroleum pipeline is mitigated by locating development that may accommodate or result in large congregations of people, buildings for housing and / or caring for vulnerable people and community facilities outside areas that pose an unacceptable risk to protect life.</p>	<p>DTS/DPF 1.1</p> <p>Development satisfies one of the following:</p> <p>(a) it does not comprise:</p> <ul style="list-style-type: none"> <li>(i) caravan and tourist park</li> <li>(ii) educational establishment</li> <li>(iii) buildings comprising 3 or more building levels</li> <li>(iv) land division creating allotments under 1ha for residential purposes (except where the existing allotment is less than 1ha)</li> <li>(v) prison</li> <li>(vi) pre-school</li> <li>(vii) residential park</li> <li>(viii) retirement facility</li> <li>(ix) student accommodation</li> <li>(x) supported accommodation</li> <li>(xi) shop or shops with a gross leasable floor area of 1000m<sup>2</sup> or greater</li> <li>(xii) tourist accommodation</li> <li>(xiii) stadium</li> </ul> <p>(b) a class of development referred to in part (a), or any combination thereof, which will occur in accordance with an agreement under section 123 of the <i>Planning, Development and Infrastructure Act, 2016</i></p>
<p>PO 1.2</p> <p>Emergency service and major community health related facilities are located outside areas where a gas or liquid petroleum pipeline failure may disrupt ongoing operations to maintain the response capacity in the event of an emergency.</p>	<p>DTS/DPF 1.2</p> <p>Development does not comprise any of the following:</p> <p>(a) emergency services facility</p> <p>(b) hospital.</p>
<p>PO 1.3</p> <p>Development involving the manufacture, collection, handling or bulk storage of flammable, explosive, or otherwise hazardous materials is located and designed to avoid escalating the potential for and effects of a gas or liquid petroleum pipeline failure.</p>	<p>DTS/DPF 1.3</p> <p>Development satisfies one of the following:</p> <p>(a) it does not comprise:</p> <ul style="list-style-type: none"> <li>(i) general industry</li> <li>(ii) special industry</li> <li>(iii) landfill</li> <li>(iv) renewable energy facility</li> <li>(v) electricity substation</li> <li>(vi) fuel depot</li> <li>(vii) retail fuel outlet</li> <li>(viii) store</li> <li>(ix) warehouse</li> <li>(x) waste treatment facility</li> </ul> <p>(b) a class of development referred to in part (a), or any combination thereof, which will occur in accordance with an agreement under section 123 of the <i>Planning, Development and Infrastructure Act, 2016</i></p>

### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Except where the development is, in the opinion of the relevant authority, minor in nature and would not warrant a referral when considering the purpose of the referral, a class of development that does not satisfy Gas and Liquid Petroleum Pipelines Overlay DTS/DPF 1.1, 1.2 and 1.3.	The Chief Executive of the Department of the Minister responsible for administering the <i>Petroleum and Geothermal Energy Act 2000</i> .	To provide expert assessment and direction to the relevant authority in relation to:  (a) potential safety issues relating to	Development of a class to which Schedule 9

development or	clause 3 item 9B of the Planning, Development and Infrastructure (General) Regulations 2017 applies.
(b) the potential for development to adversely impact upon the lawful continued operation of strategic infrastructure (gas and liquid petroleum pipelines).	

### Gas and Liquid Petroleum Pipelines (Facilities) Overlay

#### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Management of risk to public safety, the environment and security of energy supply from the encroachment of development on gas and liquid petroleum pipeline facilities.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Safety	
<p>PO 1.1</p> <p>Development (including land division) does not present a risk to public health and safety due to any of the following:</p> <ul style="list-style-type: none"> <li>(a) continuous noise associated with pipeline facilities used for energy transportation that exceeds the Environment Protection (Noise) Policy</li> <li>(b) potential for occasional noise associated with high pressure venting.</li> </ul>	<p>DTS/DPF 1.1</p> <p>Development (including land division creating additional allotments for such purposes) comprises one or more of the following:</p> <ul style="list-style-type: none"> <li>(a) open space</li> <li>(b) roadways</li> <li>(c) a class of development that will occur in accordance with an agreement under section 123 of the <i>Planning, Development and Infrastructure Act, 2016</i></li> <li>(d) a dwelling or ancillary building/structure on an allotment approved for residential purposes.</li> </ul>

#### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Except where the development is, in the opinion of the relevant authority, minor in nature and would not warrant a referral when considering the purpose of the referral, a class of development that does not satisfy Overlay DTS/DPF 1.1.	The Chief Executive of the Department of the Minister responsible for administering the Petroleum and Geothermal Energy Act 2000.	To provide expert assessment and direction to the relevant authority in relation to: <ul style="list-style-type: none"> <li>(a) potential safety issues relating to development or</li> <li>(b) the potential for development to adversely impact upon the lawful continued operation of strategic infrastructure (gas and liquid petroleum pipelines).</li> </ul>	Development of a class to which Schedule 9 clause 3 item 9B of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

### Gateway Overlay

#### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	The visual amenity and streetscape appeal along prominent entrances into towns, tourist and historic precincts, activity centres and main streets is maintained and improved through the careful siting of buildings and other activities in a well landscaped setting.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Built Form and Character	
<p>PO 1.1</p> <p>Buildings are set back from main roads to support a consistent high-quality streetscape character where the prominence of larger buildings is appropriately mitigated.</p>	<p>DTS/DPF 1.1</p> <p>Buildings are set back at least the height of the building and no less than 10m from arterial and main roads and highways, whichever is the greater.</p>
<p>PO 1.2</p> <p>Building are set back from side boundaries to moderate the appearance of buildings and enhance the outlook from arterial and main roads and highways.</p>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
<p>PO 1.3</p> <p>The main facade of principal buildings facing arterial and main roads and highways incorporate articulation and various materials to promote a high standard of building design and external appearance.</p>	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>
Landscape Amenity	
<p>PO 2.1</p> <p>Ancillary buildings including carports, outbuildings and garages, other minor structures, waste storage bins and outdoor storage areas are sited to reduce visual clutter and untidiness from arterial and main roads and highways.</p>	<p>DTS/DPF 2.1</p> <p>Ancillary buildings including carports, outbuildings and garages, other minor structures, waste storage bins and outdoor storage areas are located in a manner to satisfy one of the following:</p> <ul style="list-style-type: none"> <li>(a) behind principal building(s) facing arterial and main roads and highways</li> <li>(b) behind the building line of principal building(s) and obscured from public view from arterial and main roads and highways by solid fencing or landscaping.</li> </ul>
Landscaping	
<p>PO 3.1</p> <p>Development incorporates generous landscaping areas along the frontage to arterial roads and highways to enhance visual amenity and complement associated buildings.</p>	<p>DTS/DPF 3.1</p> <p>None are applicable.</p>
<p>PO 3.2</p> <p>Existing mature on-site vegetation is retained and incorporated into landscape and parking areas to enhance the appearance of land and buildings.</p>	<p>DTS/DPF 3.2</p> <p>None are applicable.</p>
<p>PO 3.3</p> <p>Development incorporates generous landscaping areas along the frontage to arterial roads and landscaped using a combination of high crown evergreen trees, low shrubs and groundcovers to enhance visual amenity and complement the associated buildings.</p>	<p>DTS/DPF 3.3</p> <p>None are applicable.</p>
<p>PO 3.4</p> <p>Vehicle parking areas are located and designed to enhance the streetscape setting by:</p> <ul style="list-style-type: none"> <li>(a) being located to the side or rear of buildings facing arterial and main roads and highways</li> <li>(b) incorporating landscaping, including trees, to break up large parking areas.</li> </ul>	<p>DTS/DPF 3.4</p> <p>None are applicable.</p>
Advertisements	
<p>PO 4.1</p> <p>Advertisements along arterial and main roads, and highways are consistent in height, size and design to support a cohesive and uniform appearance in gateway locations without dominating the streetscape.</p>	<p>DTS/DPF 4.1</p> <p>Advertisements meet all the following:</p> <ul style="list-style-type: none"> <li>(a) will not result in more than 1 advertisement per allotment</li> <li>(b) will not exceed 5m in height</li> <li>(c) do not exceed 3m<sup>2</sup> per advertising face</li> <li>(d) are not internally illuminated</li> <li>(e) are not animated, flash or move in any way.</li> </ul>

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Hazards (Acid Sulfate Soils) Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Development is located and undertaken to minimise disturbance of potential or actual acid sulfate soils and / or the release of acid drainage.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development that involves excavation or a change to a water table where potential or actual acid sulfate soils are present is undertaken to minimise soil disturbance or drainage; prevent or minimise oxidation; and contain and treat any acid drainage to prevent harm or damage to the environment, primary production, buildings, structures and infrastructure or public health.	DTS/DPF 1.1 Development does not involve or cause:  (a) excavation of land (b) change to a water table.

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Hazards (Bushfire - General Risk) Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Development, including land division responds to the general level of bushfire risk by siting and designing buildings in a manner that mitigates the threat and impact of bushfires on life and property taking into account the increased frequency and intensity of bushfires as a result of climate change.
DO 2	To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Siting	
PO 1.1 Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain.	DTS/DPF 1.1 None are applicable.
Built Form	
PO 2.1 Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts.	DTS/DPF 2.1 None are applicable.
PO 2.2 Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and Workers' accommodation) in the event of bushfire.	DTS/DPF 2.2 Outbuildings and other ancillary structures are sited no closer than 6m from the habitable building.
Habitable Buildings	
PO 3.1	DTS/DPF 3.1

<p>To minimise the threat, impact and exposure to bushfires on life and property, residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments away from steep slopes.</p>	<p>None are applicable.</p>
<p>PO 3.2 Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited away from vegetated areas that pose an unacceptable bushfire risk.</p>	<p>DTS/DPF 3.2 Residential and tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zone(s) in accordance with (a) and (b):</p> <ul style="list-style-type: none"> <li>(a) the asset protection zone has a minimum width of at least: <ul style="list-style-type: none"> <li>(i) 50 metres to unmanaged grasslands</li> <li>(ii) 100 metres to hazardous bushland vegetation</li> </ul> </li> <li>(b) the asset protection zone is contained wholly within the allotment of the development.</li> </ul>
<p>PO 3.3 Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) has a dedicated area available that is capable of accommodating a bushfire protection system comprising firefighting equipment and water supply in accordance with <i>Ministerial Building Standard MBS 008 - Designated bushfire prone areas - additional requirements</i>.</p>	<p>DTS/DPF 3.3 None are applicable.</p>
<p>Land Division</p>	
<p>PO 4.1 Land division is designed and incorporates measures to minimise the danger of fire hazard to residents and occupants of buildings, and to protect buildings and property from physical damage in the event of a bushfire.</p>	<p>DTS/DPF 4.1 None are applicable.</p>
<p>PO 4.2 Land division is designed to provide a continuous street pattern to facilitate the safe movement and evacuation of emergency vehicles, residents, occupants and visitors.</p>	<p>DTS/DPF 4.2 None are applicable.</p>
<p>PO 4.3 Where 10 or more new allotments are proposed, land division includes at least two separate and safe exit points to enable multiple avenues of evacuation in the event of a bushfire.</p>	<p>DTS/DPF 4.3 None are applicable.</p>
<p>PO 4.4 Land division incorporates perimeter roads of adequate design in conjunction with bushfire buffer zones to achieve adequate separation between residential allotments and areas of unacceptable bushfire risk and to support safe access for the purposes of fire-fighting.</p>	<p>DTS/DPF 4.4 None are applicable.</p>
<p>Vehicle Access – Roads, Driveways and Fire Tracks</p>	
<p>PO 5.1 Roads are designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> <li>(a) access, operation and evacuation of fire-fighting vehicles and emergency personnel</li> <li>(b) evacuation of residents, occupants and visitors.</li> </ul>	<p>DTS/DPF 5.1 Roads:</p> <ul style="list-style-type: none"> <li>(a) are constructed with a formed, all-weather surface</li> <li>(b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road</li> <li>(c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road</li> <li>(d) have a minimum formed road width of 6m</li> <li>(e) provide overhead clearance of not less than 4m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1)</li> <li>(f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)</li> <li>(g) incorporating cul-de-sac endings or dead end roads do not exceed 200m in length and the end of the road has either: <ul style="list-style-type: none"> <li>(i) a turning area with a minimum formed surface radius of 12.5m (Figure 3)</li> <li>or</li> <li>(ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 4)</li> </ul> </li> <li>(h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</li> </ul>
<p>PO 5.2 Access to habitable buildings is designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> <li>(a) access, operation and evacuation of fire-fighting vehicles and emergency personnel</li> <li>(b) evacuation of residents, occupants and visitors</li> </ul>	<p>DTS/DPF 5.2 Access is in accordance with (a) or (b):</p> <ul style="list-style-type: none"> <li>(a) a clear and unobstructed vehicle or pedestrian pathway of not greater than 60 metres in length is available between the most distant part of the habitable building and the nearest part of a formed public access road</li> <li>(b) driveways: <ul style="list-style-type: none"> <li>(i) do not exceed 600m in length</li> <li>(ii) are constructed with a formed, all-weather surface</li> <li>(iii) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8)</li> <li>(iv) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the</li> </ul> </li> </ul>

	<p>driveway</p> <ul style="list-style-type: none"> <li>(v) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the driveway</li> <li>(vi) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 1)</li> <li>(vii) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 5)</li> <li>(viii) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 1)</li> <li>(ix) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)</li> <li>(x) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by using a 'U' shaped drive through design or by incorporating at the end of the driveway either:             <ul style="list-style-type: none"> <li>A. a loop road around the building</li> <li>B. a turning area with a minimum radius of 12.5m (Figure 3)</li> <li>C. a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 4)</li> </ul> </li> <li>(xi) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</li> </ul>
<p>PO 5.3 Development does not rely on fire tracks as means of evacuation or access for fire-fighting purposes unless there are no safe alternatives available.</p>	<p>DTS/DPF 5.3 None are applicable.</p>

**Procedural Matters (PM) - Referrals**

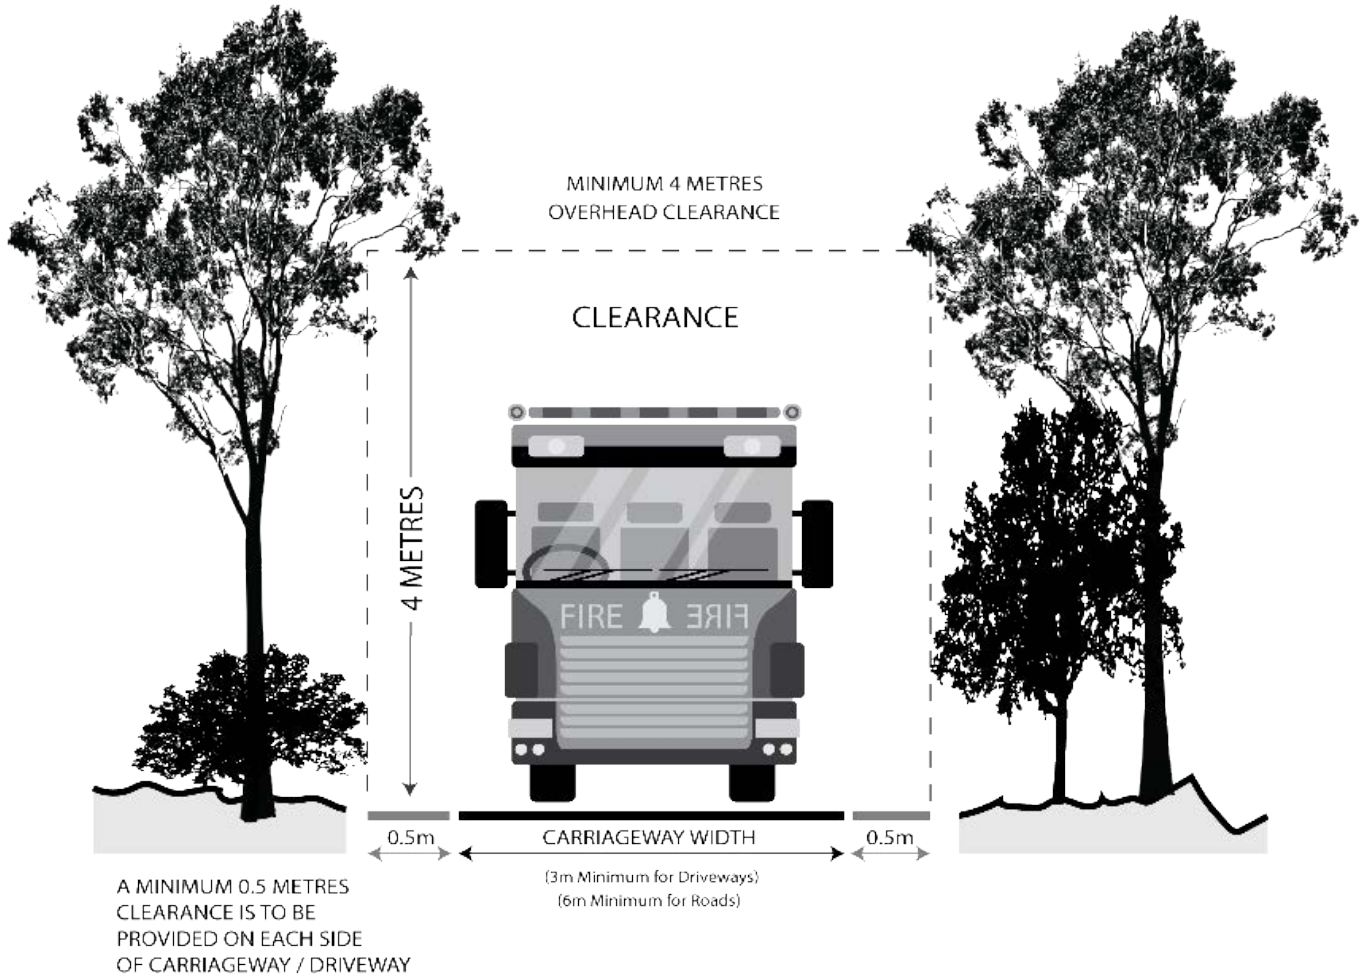

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Hazards (Bushfire - High Risk) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

## Desired Outcome

DO 1	<p>Development, including land division is sited and designed to minimise the threat and impact of bushfires on life and property with regard to the following risks:</p> <ul style="list-style-type: none"> <li>(a) potential for uncontrolled bushfire events taking into account the increased frequency and intensity of bushfires as a result of climate change</li> <li>(b) high levels and exposure to ember attack</li> <li>(c) impact from burning debris</li> <li>(d) radiant heat</li> <li>(e) likelihood and direct exposure to flames from a fire front.</li> </ul>
DO 2	Activities that increase the number of people living and working in the area or where evacuation would be difficult is sited away from areas of unacceptable bushfire risk.
DO 3	To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
<p>PO 1.1</p> <p>Development that significantly increases the potential for fire outbreak as a result of the spontaneous combustion of materials, spark generation or through the magnification and reflection of light is not located in areas of unacceptable bushfire risk.</p>	<p>DTS/DPF 1.1</p> <p>None are applicable.</p>
<p>PO 1.2</p> <p>Pre-schools, educational establishments, hospitals, retirement and supported accommodation are sited away from areas of unacceptable bushfire risk and locations that:</p> <ul style="list-style-type: none"> <li>(a) are remote from or require extended periods of travel to reach safer locations</li> <li>(b) don't have a safe path of travel to safer locations.</li> </ul>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
Siting	
<p>PO 2.1</p> <p>Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
Built Form	
<p>PO 3.1</p> <p>Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts.</p>	<p>DTS/DPF 3.1</p> <p>None are applicable.</p>
<p>PO 3.2</p> <p>Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and Workers' accommodation) in the event of bushfire.</p>	<p>DTS/DPF 3.2</p> <p>Outbuildings and other ancillary structures are sited no closer than 6m from the habitable building.</p>
Habitable Buildings	
<p>PO 4.1</p> <p>To minimise the threat, impact and potential exposure to bushfires on life and property, residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments away from steep slopes.</p>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>
<p>PO 4.2</p> <p>Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited away from vegetated areas that pose an unacceptable bushfire risk.</p>	<p>DTS/DPF 4.2</p> <p>Residential and tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zone(s) in accordance with (a) and (b):</p> <ul style="list-style-type: none"> <li>(a) the asset protection zone has a minimum width of at least:                             <ul style="list-style-type: none"> <li>(i) 50 metres to unmanaged grasslands</li> <li>(ii) 100 metres to hazardous bushland vegetation</li> </ul> </li> <li>(b) the asset protection zone is contained wholly within the allotment of the development.</li> </ul>
<p>PO 4.3</p> <p>Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) has a dedicated area available that:</p>	<p>DTS/DPF 4.3</p> <p>None are applicable.</p>

<p>(a) is capable of accommodating a bushfire protection system comprising firefighting equipment and water supply in accordance with <i>Ministerial Building Standard MBS 008 - Designated bushfire prone areas - additional requirements</i></p> <p>(b) includes the provision of an all-weather hardstand area in a location that:</p> <ul style="list-style-type: none"> <li>(i) allows fire-fighting vehicles to safely access the dedicated water supply and exit the site in a forward direction</li> <li>(ii) is no further than 6 metres from the dedicated water supply outlet(s) where required.</li> </ul>	
Land Division	
<p>PO 5.1</p> <p>Land division for residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is limited to those areas specifically set aside for these uses.</p>	<p>DTS/DPF 5.1</p> <p>None are applicable.</p>
<p>PO 5.2</p> <p>Land division is designed and incorporates measures to minimise the danger of fire hazard to residents and occupants of buildings, and to protect buildings and property from physical damage in the event of a bushfire.</p>	<p>DTS/DPF 5.2</p> <p>None are applicable.</p>
<p>PO 5.3</p> <p>Land division is designed to provide a continuous street pattern (avoiding the use of dead end roads/cul-de-sac road design) to facilitate the safe movement and evacuation of emergency vehicles, residents, occupants and visitors. Where cul-de-sac / dead end roads are proposed, an alternative emergency evacuation route is provided.</p>	<p>DTS/DPF 5.3</p> <p>None are applicable.</p>
<p>PO 5.4</p> <p>Where 10 or more new allotments are proposed, land division includes at least two separate and safe exit points to enable multiple avenues of evacuation in the event of a bushfire.</p>	<p>DTS/DPF 5.4</p> <p>None are applicable.</p>
<p>PO 5.5</p> <p>Land division provides sufficient space for future asset protection zones and incorporates perimeter roads of adequate design in conjunction with bushfire buffer zones to achieve adequate separation between residential allotments and areas of unacceptable bushfire risk and to support safe access for the purposes of fire-fighting.</p>	<p>DTS/DPF 5.5</p> <p>None are applicable.</p>
Vehicle Access –Roads, Driveways and Fire Tracks	
<p>PO 6.1</p> <p>Roads are designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> <li>(a) access, operation and evacuation of fire-fighting vehicles and emergency personnel</li> <li>(b) evacuation of residents, occupants and visitors.</li> </ul>	<p>DTS/DPF 6.1</p> <p>Roads:</p> <ul style="list-style-type: none"> <li>(a) are constructed with a formed, all-weather surface</li> <li>(b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road</li> <li>(c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road</li> <li>(d) have a minimum formed road width of 6m</li> <li>(e) provide overhead clearance of not less than 4.0m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1)</li> <li>(f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)</li> <li>(g) incorporating cul-de-sac endings or dead end roads are provided within an alternative evacuation route and do not exceed 200m in length and the end of the road has either: <ul style="list-style-type: none"> <li>(i) a turning area with a minimum formed surface radius of 12.5m (Figure 3) or</li> <li>(ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 4)</li> </ul> </li> <li>(h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</li> </ul>
<p>PO 6.2</p> <p>Access to habitable buildings is designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> <li>(a) use, operation and evacuation of fire-fighting and emergency personnel</li> <li>(b) evacuation of residents, occupants and visitors.</li> </ul>	<p>DTS/DPF 6.2</p> <p>Access is in accordance with (a) or (b):</p> <ul style="list-style-type: none"> <li>(a) a clear and unobstructed vehicle or pedestrian pathway of not greater than 60 metres in length is available between the most distant part of the habitable building and the nearest part of a formed public access road</li> <li>(b) driveways: <ul style="list-style-type: none"> <li>(i) do not exceed 600m in length</li> <li>(ii) are constructed with a formed, all-weather surface</li> <li>(iii) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8)</li> <li>(iv) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway</li> <li>(v) have a crossfall of not more than 6 degrees (1-in-9.5) at any point along the driveway</li> <li>(vi) have a minimum formed width of 3m (4m where the gradient of the driveway is</li> </ul> </li> </ul>

	<p>steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 1)</p> <ul style="list-style-type: none"> <li>(vii) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 5)</li> <li>(viii) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 1)</li> <li>(ix) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)</li> <li>(x) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by using a 'U' shaped drive through design or by incorporating at the end of the driveway either:             <ul style="list-style-type: none"> <li>A. a loop road around the building or</li> <li>B. a turning area with a minimum radius of 12.5m (Figure 3) or</li> <li>C. a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 4)</li> </ul> </li> <li>(xi) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</li> </ul>
<p>PO 6.3</p> <p>Development does not rely on fire tracks as means of evacuation or access for fire-fighting purposes unless there are no safe alternatives available.</p>	<p>DTS/DPF 6.3</p> <p>None are applicable.</p>

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Except if a <b>relevant certificate</b> accompanies the application for planning consent in respect of the development, any of the following classes of development (including alterations and additions which increase the floor area of such buildings by 10% or more):</p> <ul style="list-style-type: none"> <li>(a) land division creating one or more additional allotments</li> <li>(b) dwelling</li> <li>(c) ancillary accommodation</li> <li>(d) residential flat building</li> <li>(e) tourist accommodation</li> <li>(f) boarding home</li> <li>(g) dormitory style accommodation</li> <li>(h) workers' accommodation</li> <li>(i) student accommodation</li> <li>(j) pre-school</li> <li>(k) educational establishment</li> <li>(l) retirement village</li> <li>(m) supported accommodation</li> <li>(n) residential park</li> <li>(o) hospital</li> <li>(p) camp ground.</li> </ul>	<p>South Australian Country Fire Service.</p>	<p>To provide expert assessment and direction to the relevant authority on the potential impacts of bushfire on the development.</p>	<p>Development of a class to which Schedule 9 clause 3 item 2 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>

Hazards (Bushfire - Medium Risk) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

## Desired Outcome

DO 1	Development, including land division responds to the medium level of bushfire risk and potential for ember attack and radiant heat by siting and designing buildings in a manner that mitigates the threat and impact of bushfires on life and property taking into account the increased frequency and intensity of bushfires as a result of climate change.
DO 2	To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Siting	
PO 1.1 Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain.	DTS/DPF 1.1 None are applicable.
Built Form	
PO 2.1 Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts.	DTS/DPF 2.1 None are applicable.
PO 2.2 Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and Workers' accommodation) in the event of bushfire.	DTS/DPF 2.2 Outbuildings and other ancillary structures are sited no closer than 6m from the habitable building.
Habitable Buildings	
PO 3.1 To minimise the threat, impact and potential exposure to bushfires on life and property, residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments away from steep slopes.	DTS/DPF 3.1 None are applicable.
PO 3.2 Residential, tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited away from vegetated areas that pose an unacceptable bushfire risk.	DTS/DPF 3.2 Residential, tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zone(s) in accordance with (a) and (b):  (a) the asset protection zone has a minimum width of at least: (i) 50 metres to unmanaged grasslands (ii) 100 metres to hazardous bushland vegetation  (b) the asset protection zone is contained wholly within the allotment of the development.
PO 3.3 Residential, tourist accommodation and habitable buildings for vulnerable communities, (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation), has a dedicated area available that is capable of accommodating a bushfire protection system comprising firefighting equipment and water supply in accordance with <i>Ministerial Building Standard MBS 008 - Designated bushfire prone areas - additional requirements</i> .	DTS/DPF 3.3 None are applicable.
Land Division	
PO 4.1 Land division is designed and incorporates measures to minimise the danger of fire hazard to residents and occupants of buildings, and to protect buildings and property from physical damage in the event of a bushfire.	DTS/DPF 4.1 None are applicable.
PO 4.2 Land division is designed to provide a continuous street pattern to facilitate the safe movement and evacuation of emergency vehicles, residents, occupants and visitors.	DTS/DPF 4.2 None are applicable.
PO 4.3 Where 10 or more new allotments are proposed, land division includes at least two separate and safe exit points to enable multiple avenues of evacuation in the event of a bushfire.	DTS/DPF 4.3 None are applicable.
PO 4.4 Land division incorporates perimeter roads of adequate design in conjunction with bushfire buffer zones to achieve adequate separation between residential allotments and areas of unacceptable	DTS/DPF 4.4 None are applicable.

bushfire risk and to support safe access for the purposes of fire-fighting.	
Vehicle Access - Roads, Driveways and Fire Tracks	
<p>PO 5.1</p> <p>Roads are designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> <li>(a) access, operation and evacuation of fire-fighting vehicles and emergency personnel</li> <li>(b) evacuation of residents, occupants and visitors.</li> </ul>	<p>DTS/DPF 5.1</p> <p>Roads:</p> <ul style="list-style-type: none"> <li>(a) are constructed with a formed, all-weather surface</li> <li>(b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road</li> <li>(c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road</li> <li>(d) have a minimum formed road width of 6m</li> <li>(e) provide overhead clearance of not less than 4.0m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1)</li> <li>(f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)</li> <li>(g) incorporating cul-de-sac endings or dead end roads do not exceed 200m in length and the end of the road has either:                             <ul style="list-style-type: none"> <li>(i) a turning area with a minimum formed surface radius of 12.5m (Figure 3) or</li> <li>(ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 4)</li> </ul> </li> <li>(h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</li> </ul>
<p>PO 5.2</p> <p>Access to habitable buildings is designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> <li>(a) access, operation and evacuation of fire-fighting vehicles and emergency personnel</li> <li>(b) evacuation of residents, occupants and visitors.</li> </ul>	<p>DTS/DPF 5.2</p> <p>Access is in accordance with (a) or (b):</p> <ul style="list-style-type: none"> <li>(a) a clear and unobstructed vehicle or pedestrian pathway of not greater than 60 metres in length is available between the most distant part of the habitable building and the nearest part of a formed public access road</li> <li>(b) driveways:                             <ul style="list-style-type: none"> <li>(i) do not exceed 600m in length</li> <li>(ii) are constructed with a formed, all-weather surface</li> <li>(iii) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8)</li> <li>(iv) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway</li> <li>(v) have a crossfall of not more than 6 degrees (1-in-9.5) at any point along the driveway</li> <li>(vi) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 1)</li> <li>(vii) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 5)</li> <li>(viii) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 1)</li> <li>(ix) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)</li> <li>(x) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by using a 'U' shaped drive through design or by incorporating at the end of the driveway either:                                     <ul style="list-style-type: none"> <li>A. a loop road around the building or</li> <li>B. a turning area with a minimum radius of 12.5m (Figure 3) or</li> <li>C. a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 4)</li> </ul> </li> <li>(xi) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</li> </ul> </li> </ul>
<p>PO 5.3</p> <p>Development does not rely on fire tracks as means of evacuation or access for fire-fighting purposes unless there are no safe alternatives available.</p>	<p>DTS/DPF 5.3</p> <p>None are applicable.</p>

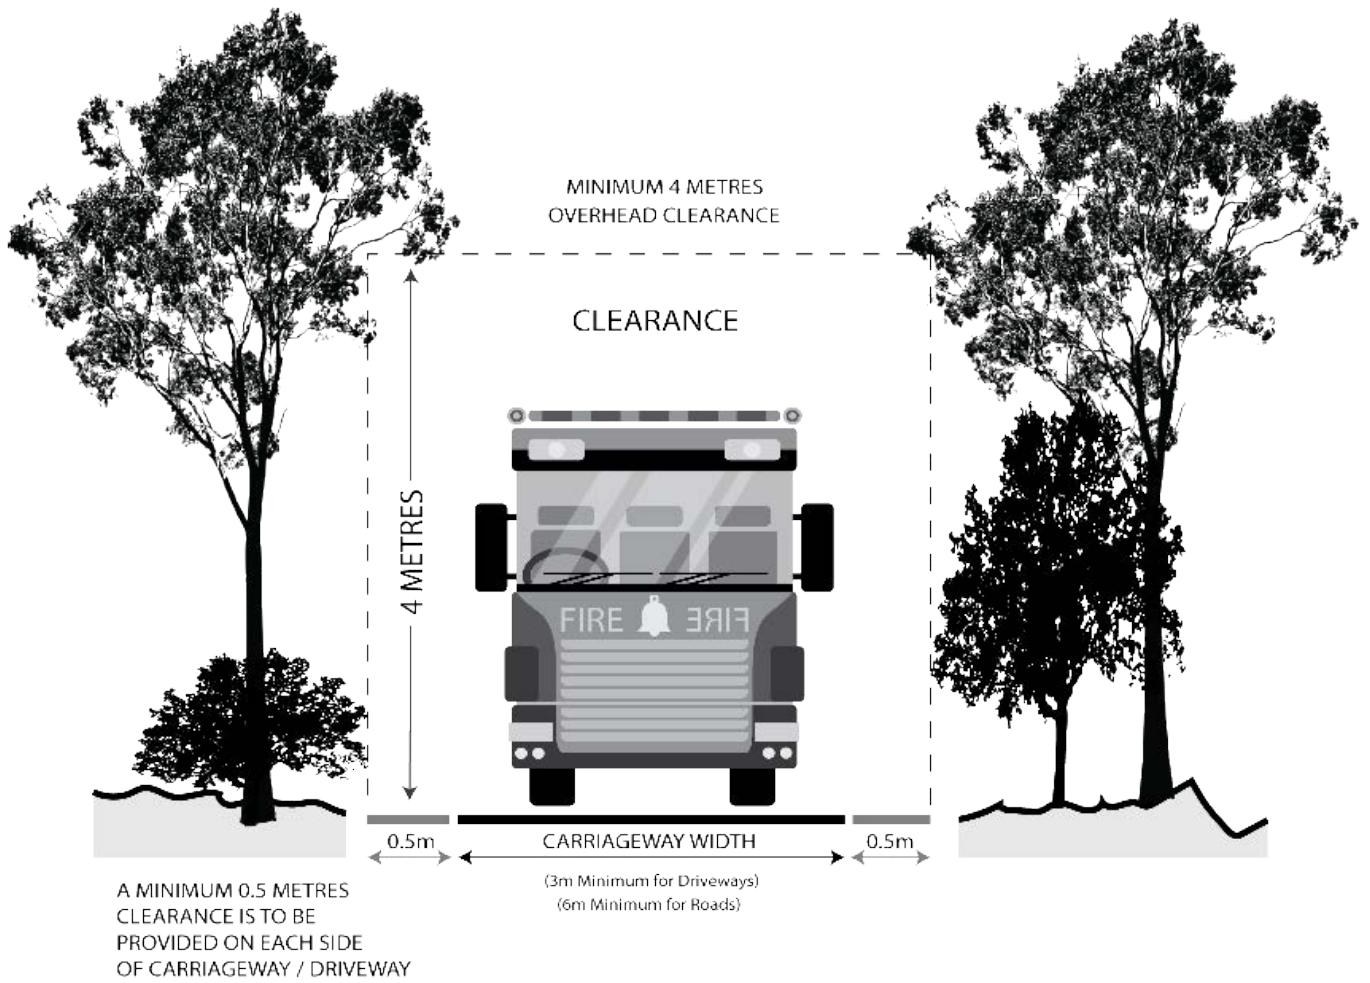

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference

## Hazards (Bushfire - Outback) Overlay

## Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development is located to minimise the threat and impact of bushfires on life and property taking into account the increased frequency and intensity of bushfires as a result of climate change.
DO 2	To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Habitable Buildings	
<p>PO 1.1</p> <p>Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain.</p>	<p>DTS/DPF 1.1</p> <p>Residential and tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zones(s) in accordance with (a) and (b):</p> <ul style="list-style-type: none"> <li>(a) the asset protection zone has a minimum width of at least 50 metres</li> <li>(b) the asset protection zone is contained wholly within the allotment of the development.</li> </ul>
Vehicle Access - Roads and Driveways	
<p>PO 2.1</p> <p>Roads are designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> <li>(a) access, operation and evacuation of fire-fighting vehicles and emergency personnel</li> <li>(b) evacuation of residents, occupants and visitors</li> </ul>	<p>DTS/DPF 2.1</p> <p>Roads:</p> <ul style="list-style-type: none"> <li>(a) are constructed with a formed, all-weather surface</li> <li>(b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road</li> <li>(c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road</li> <li>(d) have a minimum formed road width of 6m</li> <li>(e) provide overhead clearance of not less than 4m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1)</li> <li>(f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)</li> <li>(g) incorporating cul-de-sac endings or dead end roads do not exceed 200m in length and the end of the road has either:                             <ul style="list-style-type: none"> <li>(i) a turning area with a minimum formed surface radius of 12.5m (Figure 3)</li> </ul> </li> </ul>

Hazards (Bushfire - Regional) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

## Desired Outcome

DO 1	Development, including land division responds to the relevant level of bushfire risk and is sited and designed to mitigate the threat and impact of bushfires on life and property taking into account the increased frequency and intensity of bushfires as a result of climate change.
DO 2	To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Siting	
PO 1.1 Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain.	DTS/DPF 1.1 None are applicable.
Built Form	
PO 2.1 Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts.	DTS/DPF 2.1 None are applicable.
PO 2.2 Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) in the event of bushfire.	DTS/DPF 2.2 Outbuildings and other ancillary structures are sited no closer than 6m from the habitable building.
Habitable Buildings	
PO 3.1 To minimise the threat, impact and exposure to bushfires on life and property, residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments away from steep slopes.	DTS/DPF 3.1 None are applicable.
PO 3.2 Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers accommodation) is sited away from vegetated areas that pose an unacceptable bushfire risk.	DTS/DPF 3.2 Residential and tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zone(s) in accordance with (a) and (b):  (a) the asset protection zone has a minimum width of at least: (i) 50 metres to unmanaged grasslands (ii) 100 metres to hazardous bushland vegetation  (b) the asset protection zone is contained wholly within the allotment of the development.
PO 3.3 Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) has a dedicated and accessible water supply available at all times for fire-fighting purposes.	DTS/DPF 3.3 Development has a dedicated water supply available at all times for fire-fighting purposes:  (a) comprising a minimum of 5000 litres (b) positioned in an accessible location and accompanied with necessary equipment to allow occupants to minimise the spread of bushfire to the habitable building(s).
Land Division	
PO 4.1 Land division is designed to and incorporates measures to minimise the danger of fire hazard to residents and occupants of buildings, and to protect buildings and property from physical damage in the event of a bushfire.	DTS/DPF 4.1 None are applicable.
PO 4.2 Land division designed to provide a continuous street pattern to facilitate the safe movement and evacuation of emergency vehicles, residents, occupants and visitors.	DTS/DPF 4.2 None are applicable.
PO 4.3 Where 10 or more new allotments are proposed, land division includes at least two separate and safe exit points to enable multiple avenues of evacuation in the event of a bushfire.	DTS/DPF 4.3 None are applicable.
PO 4.4 Land division incorporates perimeter roads of adequate design in conjunction with bushfire buffer zones to achieve adequate separation between residential allotments and areas of unacceptable	DTS/DPF 4.4 None are applicable.

bushfire risk and to support safe access for the purposes of fire-fighting.	
Vehicle Access -Roads and Driveways	
<p>PO 5.1</p> <p>Roads are designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> <li>(a) access, operation and evacuation of fire-fighting vehicles and emergency personnel</li> <li>(b) evacuation of residents, occupants and visitors.</li> </ul>	<p>DTS/DPF 5.1</p> <p>Roads:</p> <ul style="list-style-type: none"> <li>(a) are constructed with a formed, all-weather surface</li> <li>(b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road</li> <li>(c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road</li> <li>(d) have a minimum formed road width of 6m</li> <li>(e) provide overhead clearance of not less than 4.0m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1)</li> <li>(f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)</li> <li>(g) incorporating cul-de-sac endings or dead end roads do not exceed 200m in length and the end of the road has either: <ul style="list-style-type: none"> <li>(i) a turning area with a minimum formed surface radius of 12.5m (Figure 3) or</li> <li>(ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 4)</li> </ul> </li> <li>(h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</li> </ul>
<p>PO 5.2</p> <p>Access to habitable buildings is designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> <li>(a) access, operation and evacuation of fire-fighting vehicles and emergency personnel</li> <li>(b) evacuation of residents, occupants and visitors.</li> </ul>	<p>DTS/DPF 5.2</p> <p>Access is in accordance with (a) or (b):</p> <ul style="list-style-type: none"> <li>(a) a clear and unobstructed vehicle or pedestrian pathway of not greater than 60 metres in length is available between the most distant part of the habitable building and the nearest part of a formed public access road</li> <li>(b) driveways: <ul style="list-style-type: none"> <li>(i) do not exceed 600m in length</li> <li>(ii) are constructed with a formed, all-weather surface</li> <li>(iii) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8)</li> <li>(iv) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway</li> <li>(v) have a crossfall of not more than 6 degrees (1-in-9.5) at any point along the driveway</li> <li>(vi) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 1)</li> <li>(vii) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 5)</li> <li>(viii) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 1)</li> <li>(ix) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)</li> <li>(x) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by using a 'U' shaped drive through design or by incorporating at the end of the driveway either: <ul style="list-style-type: none"> <li>A. a loop road around the building or</li> <li>B. a turning area with a minimum radius of 12.5m (Figure 3) or</li> <li>C. a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 4)</li> </ul> </li> <li>(xi) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</li> </ul> </li> </ul>
<p>PO 5.3</p> <p>Development does not rely on fire tracks as means of evacuation or access for fire-fighting purposes unless there are no safe alternatives available.</p>	<p>DTS/DPF 5.3</p> <p>None are applicable.</p>

## Hazards (Flooding) Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Impacts on people, property, infrastructure and the environment from high flood risk are minimised by retaining areas free from development, and minimising intensification where development has occurred.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Division	
PO 1.1 Land division is limited to areas where the consequences to buildings and safety are low and can be readily managed or overcome.	DTS/DPF 1.1 None are applicable.
Land Use	
PO 2.1 Development sited and designed to minimise exposure of people and property to unacceptable flood risk.	DTS/DPF 2.1 None are applicable.
PO 2.2 Buildings housing vulnerable people, community services facilities, key infrastructure and emergency services are sited away from flood prone areas to enable uninterrupted operation of services and reduce likelihood of entrapment.	DTS/DPF 2.2 Pre-schools, educational establishments, retirement and supported accommodation, emergency services facilities, hospitals and prisons are not located within the Overlay area.
Flood Resilience	
PO 3.1 Development avoids the need for flood protection works.	DTS/DPF 3.1 None are applicable.
PO 3.2 Development does not cause unacceptable impacts on any adjoining property by the diversion of flood waters or an increase in flood velocity or flood level.	DTS/DPF 3.2 None are applicable.
PO 3.3 Development does not impede the flow of floodwaters through the allotment or the surrounding land,	DTS/DPF 3.3 None are applicable.

	or cause an unacceptable loss of flood storage.	
PO 3.4	Development avoids frequently flooded or high velocity areas, other than where it is part of a flood mitigation scheme to reduce flood impact.	DTS/DPF 3.4 Other than a recreation area, development is located outside of the 5% AEP principal flow path.
PO 3.5	Buildings are sited, designed and constructed to prevent the entry of floodwaters in a 1% AEP flood event where the entry of floodwaters is likely to result in undue damage to, or compromise ongoing activities within, buildings.	DTS/DPF 3.5 Buildings comprise one of the following:  (a) a porch or portico with at least 2 open sides (b) a verandah with at least 3 open sides (c) a carport or outbuilding with at least 2 open sides (whichever elevations face the direction of the flow) (d) any post construction with open sides (e) a building with a finished floor level that is at least 300mm above the height of a 1% AEP flood event.
PO 3.6	Fences do not unreasonably impede floodwaters.	DTS/DPF 3.6 A post and wire fence (other than a chain mesh fence).
Environmental Protection		
PO 4.1	Buildings and structures used either partly or wholly to contain or store hazardous materials are designed to prevent spills or leaks leaving the confines of the building during a 1% AEP flood event to avoid potential environmental harm.	DTS/DPF 4.1 Development involving the storage or disposal of hazardous materials is wholly located outside of the 1% AEP flood plain or flow path.
PO 4.2	Development does not create or aggravate the potential for erosion or siltation or lead to the destruction of vegetation during a flood.	DTS/DPF 4.2 None are applicable.
Site Earthworks		
PO 5.1	The depth and extent of filling required to raise the finished floor level of a building does not cause unacceptable impact on any adjoining property by diversion of flood waters, an increase in flood velocity or flood level, or an unacceptable loss of flood storage.	DTS/DPF 5.1 None are applicable.
PO 5.2	Driveways, access tracks and parking areas are designed and constructed to minimise excavation and filling.	DTS/DPF 5.2 Filling for ancillary purposes:  (a) does not exceed 300mm above existing ground level (b) is no more than 5m wide.
Access		
PO 6.1	Development does not occur on land:  (a) from which evacuation to areas not vulnerable to flood risk is not possible during a 1% AEP flood event (b) which cannot be accessed by emergency services vehicles or essential utility service vehicles during a 1% AEP flood event.	DTS/DPF 6.1 None are applicable.
PO 6.2	Access driveways and tracks to significant development (i.e. dwellings, places of work, etc.) consist of a safe, all-weather trafficable surface that is accessible during a 1% AEP flood event.	DTS/DPF 6.2 None are applicable.

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Hazards (Flooding – General) Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

<b>Desired Outcome</b>
DO 1

Impacts on people, property, infrastructure and the environment from general flood risk are minimised through the appropriate siting and design of development.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature																																															
Land Use																																																
<p>PO 1.1</p> <p>Buildings housing vulnerable people, community services facilities, key infrastructure and emergency services are sited away from flood areas enable uninterrupted operation of services and reduce likelihood of entrapment.</p>	<p>DTS/DPF 1.1</p> <p>Pre-schools, educational establishments, retirement and supported accommodation, emergency services facilities, hospitals and prisons located outside the 1% AEP flood event.</p>																																															
Flood Resilience

Finished Ground and Floor Levels	
	Minimum finished ground level is 3m AHD; Minimum finished floor level is 3.25m AHD
	Minimum finished ground level is 4m AHD; Minimum finished floor level is 4.25m AHD
	Minimum finished ground level is 2.05m AHD; Minimum finished floor level is 2.3m AHD
	Minimum finished ground level is 2.8m AHD; Minimum finished floor level is 3.05m AHD
	Minimum finished ground level is 3.05m AHD; Minimum finished floor level is 3.3m AHD
	Minimum finished ground level is 3.8m AHD; Minimum finished floor level is 4.05m AHD
In instances where no finished floor level value is specified, a building incorporates a finished floor level at least 300mm above the height of a 1% AEP flood event.	

Environmental Protection	
PO 3.1 Buildings and structures used either partly or wholly to contain or store hazardous materials are designed to prevent spills or leaks leaving the confines of the building during a 1% AEP flood event to avoid potential environmental harm.	DTS/DPF 3.1 Development involving the storage or disposal of hazardous materials is wholly located outside of the 1% AEP flood plain or flow path.

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Hazards (Flooding - Evidence Required) Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Development adopts a precautionary approach to mitigate potential impacts on people, property, infrastructure and the environment from potential flood risk through the appropriate siting and design of development.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Flood Resilience	
PO 1.1 Development is sited, designed and constructed to minimise the risk of entry of potential floodwaters where the entry of flood waters is likely to result in undue damage to or compromise ongoing activities within buildings.	DTS/DPF 1.1 Habitable buildings, commercial and industrial buildings, and buildings used for animal keeping incorporate a finished floor level at least 300mm above:  (a) the highest point of top of kerb of the primary street or (b) the highest point of natural ground level at the primary street boundary where there is no kerb
Environmental Protection	
PO 2.1 Buildings and structures used either partly or wholly to contain or store hazardous materials are designed to prevent spills or leaks leaving the confines of the building.	DTS/DPF 2.1 Development does not involve the storage of hazardous materials.

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Heritage Adjacency Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

## Desired Outcome

DO 1	Development adjacent to State and Local Heritage Places maintains the heritage and cultural values of those Places.
------	---

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

### Performance Outcome

### Deemed-to-Satisfy Criteria / Designated Performance Feature

Built Form

PO 1.1 Development adjacent to a State or Local Heritage Place does not dominate, encroach on or unduly impact on the setting of the Place.	DTS/DPF 1.1 None are applicable.
--	-------------------------------------

Land Division

PO 2.1 Land division adjacent to a State or Local Heritage Place creates allotments that are of a size and dimension that enables the siting and setbacks of new buildings from allotment boundaries so that they do not dominate, encroach or unduly impact on the setting of the Place.	DTS/DPF 2.1 None are applicable.
--	-------------------------------------

#### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Development that may materially affect the context of a State Heritage Place.	Minister responsible for the administration of the <i>Heritage Places Act 1993</i> .	To provide expert assessment and direction to the relevant authority on the potential impacts of development adjacent State Heritage Places.	Development of a class to which Schedule 9 clause 3 item 17 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

#### Historic Area Overlay

#### Assessment Provisions (AP)

Desired Outcome (DO)

## Desired Outcome

DO 1	Historic themes and characteristics are reinforced through conservation and contextually responsive development, design and adaptive reuse that responds to existing coherent patterns of land division, site configuration, streetscapes, building siting and built scale, form and features as exhibited in the Historic Area and expressed in the Historic Area Statement.
------	---

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

### Performance Outcome

### Deemed-to-Satisfy Criteria / Designated Performance Feature

All Development

PO 1.1 All development is undertaken having consideration to the historic streetscapes and built form as expressed in the Historic Area Statement.	DTS/DPF 1.1 None are applicable.
---	-------------------------------------

Built Form

PO 2.1	DTS/DPF 2.1
--------	-------------

The form and scale of new buildings and structures that are visible from the public realm are consistent with the prevailing historic characteristics of the historic area.	None are applicable.
PO 2.2 Development is consistent with the prevailing building and wall heights in the historic area.	DTS/DPF 2.2 None are applicable.
PO 2.3 Design and architectural detailing of street-facing buildings (including but not limited to roof pitch and form, openings, chimneys and verandahs) complement the prevailing characteristics in the historic area.	DTS/DPF 2.3 None are applicable.
PO 2.4 Development is consistent with the prevailing front and side boundary setback pattern in the historic area.	DTS/DPF 2.4 None are applicable.
PO 2.5 Materials are either consistent with or complement those within the historic area.	DTS/DPF 2.5 None are applicable.
Alterations and additions	
PO 3.1 Alterations and additions complement the subject building, employ a contextual design approach and are sited to ensure they do not dominate the primary façade.	DTS/DPF 3.1 Alterations and additions are fully contained within the roof space of an existing building with no external alterations made to the building elevation facing the primary street.
PO 3.2 Adaptive reuse and revitalisation of buildings to support retention consistent with the Historic Area Statement.	DTS/DPF 3.2 None are applicable.
Ancillary development	
PO 4.1 Ancillary development, including carports, outbuildings and garages, complements the historic character of the area and associated buildings.	DTS/DPF 4.1 None are applicable.
PO 4.2 Ancillary development, including carports, outbuildings and garages, is located behind the building line of the principal building(s) and does not dominate the building or its setting.	DTS/DPF 4.2 None are applicable.
PO 4.3 Advertising and advertising hoardings are located and designed to complement the building, be unobtrusive, be below the parapet line, not conceal or obstruct significant architectural elements and detailing, or dominate the building or its setting.	DTS/DPF 4.3 None are applicable.
PO 4.4 Fencing and gates closer to a street boundary (other than a laneway) than the elevation of the associated building are consistent with the traditional period, style and form of the associated building.	DTS/DPF 4.4 None are applicable.
Land Division	
PO 5.1 Land division creates allotments that are:  (a) compatible with the surrounding pattern of subdivision in the historic area (b) of a dimension to accommodate buildings of a bulk and scale that reflect existing buildings and setbacks in the historic area	DTS/DPF 5.1 None are applicable.
Context and Streetscape Amenity	
PO 6.1 The width of driveways and other vehicle access ways are consistent with the prevailing width of existing driveways of the historic area.	DTS/DPF 6.1 None are applicable.
PO 6.2 Development maintains the valued landscape patterns and characteristics that contribute to the historic area, except where they compromise safety, create nuisance, or impact adversely on buildings or infrastructure.	DTS/DPF 6.2 None are applicable.
Demolition	
PO 7.1 Buildings and structures, or features thereof, that demonstrate the historic characteristics as expressed in the Historic Area Statement are not demolished, unless:  (a) the front elevation of the building has been substantially altered and cannot be reasonably restored in a manner consistent with the building's original style or (b) the structural integrity or safe condition of the original building is beyond reasonable repair.	DTS/DPF 7.1 None are applicable.

PO 7.2 Partial demolition of a building where that portion to be demolished does not contribute to the historic character of the streetscape.	DTS/DPF 7.2 None are applicable.
PO 7.3 Buildings or elements of buildings that do not conform with the values described in the Historic Area Statement may be demolished.	DTS/DPF 7.3 None are applicable.
Ruins	
PO 8.1 Development conserves and complements features and ruins associated with former activities of significance.	DTS/DPF 8.1 None are applicable.

**North Adelaide Childers East Historic Area Statement (AdeI2)**

The Historic Area Overlays identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

Eras, themes and context	<p>1837 to 1901 - Victorian period.</p> <p>1901 to 1910 - Edwardian period.</p> <p>1920's to 1942 - Inter-war period.</p> <p>Mansions; historic low and medium density detached and semi-detached residential development such as typical cottages and terrace houses.</p>
Allotments, subdivision and built form patterns	<p>Range of subdivision patterns including large allotments together with low and medium density residential development on narrow frontages.</p> <p><u>Childers Street</u></p> <p>Consistently sited row cottages on north side. Varying setbacks on south side.</p> <p><u>Gover Street</u></p> <p>Generous scale and siting of heritage placed on south side (west of Mansfield Street).</p> <p><u>Jeffcott Street</u></p> <p>North of Childers Street, consistent and intensive built form edge to the eastern frontage sited on or close to the primary street frontage. South of Childers Street, buildings sited close to the primary street frontage.</p> <p><u>Barton Terrace West</u></p> <p>Cohesive edge along Barton Terrace West.</p>
Architectural styles, detailing and built form features	<p>Victorian housing consisting of single fronted, symmetrically fronted, and asymmetrically fronted houses, some with bay fronted projections; contains vertically proportioned window and door surrounds highlighted with moulded render or brick dressings with roofs that are generally hipped in form, with the asymmetrical style, gable ended or hipped roof to the projecting bay, concave or convex verandah roof and four panelled doors with fanlights and often sidelights.</p> <p>Edwardian housing with prominent strapped gables and detailing, tall brick chimneys, verandahs incorporated under the main pitch of the roof verandahs with a convex (or bullnose) profile.</p> <p>Inter-War Housing consisting of bungalows incorporating a broad spreading roof and verandah with typical masonry columns supporting verandah elements and the expansive two storey version was often known as a Gentlemen's Bungalow; and Tudor Revival style displaying steeply pitched roofs with half-timber gable ends and variations of</p>

**North Adelaide Wellington Square Historic Area Statement (Adel3)**

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

Eras, themes and context	<p>1837 to 1901 - Victorian period.</p> <p>1920's to 1942 - Inter-war period.</p> <p>Residential development. Important historical public space.</p>
Allotments, subdivision and built form patterns	<p>Cohesive built form edge to the Square. Buildings sited close to side boundaries. Building set-back and subdivision pattern established by Heritage Places.</p>
Architectural styles, detailing and built form features	<p>Victorian housing consisting of single fronted, symmetrically fronted, and asymmetrically fronted houses, some with bay fronted projections; contains vertically proportioned window and door surrounds highlighted with moulded render or brick dressings with roofs that are generally hipped in form, with the asymmetrical style, gable ended or hipped roof to the projecting bay, concave or convex verandah roof and four panelled doors with fanlights and often sidelights.</p> <p>Inter-War Housing consisting of Bungalows incorporating a broad spreading roof and verandah with typical masonry columns supporting verandah elements and the expansive two storey version was often known as a Gentlemen's Bungalow; and Tudor Revival style displaying steeply pitched roofs with half-timber gable ends and variations of the verandah porch treatments.</p>

Statement#	Statement	
Adel3		<p>Historic built form comprising large, single storey Local Heritage places and one or two storey State Heritage places. Townscape is contiguous with and complementary to the townscape character of the major streets which lead into the Square.</p> <p>Detached and semi-detached Victorian and Inter-war housing.</p> <p>Balconies over footpaths are not characteristic to the square.</p>
	Building height	Single and two storey.
	Materials	<p><u>Victorian Houses</u></p> <p>Bluestone, limestone or sandstone, with brick or rubble side and rear walls.</p> <p>Timber framed windows and doors.</p> <p>Cast iron or timber posts to the verandahs elaborated with moulded capitals and trim, and widely used cast iron brackets and frieze decoration.</p> <p>Fencing consisting of masonry base and piers with cast iron panels or railings, timber railing, timber picket fencing for smaller houses.</p> <p><u>Inter-War Houses</u></p> <p>Australian-made Wunderlich roof tiles, face brick and rendered masonry.</p> <p>Timber joinery with some use of metal framed windows.</p>
	Fencing	<p>Low, open front fencing (including secondary streets to the main façade of the building) associated with the traditional period and style of the building up to 1.2 metres, allowing views to the building. Rear and side boundary fences (behind main building façade) to 2 metres, and 1.8 metres on corner sites.</p> <p>Front fences of stone and cast iron, brick, stone or rendered pillars and plinths, timber or well detailed masonry.</p> <p>Brick, rendered masonry and timber side fences on secondary street frontages.</p> <p>Rear and side fences (behind main face of building) of corrugated metal sheeting.</p>
	Setting, landscaping, streetscape and public realm features	<p>Landscaping, paving, planting lighting and street furniture contribute to the informal character and unity of Wellington Square. Pedestrian paths and informal recreation areas provide attractive and safe shelter and seating. Predominantly no vehicle access on the Wellington Square frontage.</p>
	Representative Buildings	<i>[Not identified]</i>

<b>North Adelaide Tynte Historic Area Statement (Adel4)</b>	
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
<p>Eras, themes and context</p>	<p>1837 to 1901 - Victorian period.</p> <p>1920's to 1942 - Inter-war period.</p> <p>Low and medium density residential development characterised by a range of dwelling types as well as community facilities; Formal and dignified historic character derived from traditional community uses such as the post office, library, hotel, church and kindergarten.</p>
<p>Allotments, subdivision and built form patterns</p>	<i>[Not stated]</i>
<p>Architectural styles, detailing and built form features</p>	<p>Victorian housing consisting of single fronted, symmetrically fronted, and asymmetrically fronted houses, some with bay fronted projections; contains vertically proportioned window and door surrounds highlighted with moulded render or brick dressings with roofs that are generally hipped in form, with the asymmetrical style, gable ended or hipped roof to the projecting bay, concave</p>

Statement#	Statement	
Adel4		<p>convex verandah roof and four panelled doors with fanlights and often sidelights.</p> <p>Inter-War housing consisting of bungalows incorporating a broad spreading roof and verandah with typical masonry columns supporting verandah elements and the expansive two storey version was often known as a Gentlemen's Bungalow; and Tudor Revival style displaying steeply pitched roofs with half-timber gable ends and variations of the verandah porch treatments.</p> <p>Variety of detached dwelling types. Intimate scale and siting of historic built form. Specific below by street.</p> <p><u>Tynte Street</u></p> <p>Victorian and Inter-war housing.</p> <p>Dignified, quality public buildings.</p> <p>Verandahs and balconies established across footpaths where street trees allow.</p> <p>Buildings on or sited close to the street frontage.</p> <p><u>Mansfield Street</u></p> <p>Victorian and Inter-war housing.</p> <p>Low scale cohesive historic patterns of development along street frontage.</p> <p><u>Wellington Square</u></p> <p>Victorian and Inter-war housing.</p> <p>Low scale historic built form around perimeter of square.</p> <p><u>Gover Street</u></p> <p>Historic detached dwellings of a generous scale and siting.</p>
	Building height	<p>One and two storeys.</p> <p>Intimate scale of Tynte and Archer Streets derived by historic and established built form.</p> <p><i>Note: Concept Plan.</i></p>
	Materials	<p><u>Victorian Houses</u></p> <p>Bluestone, limestone or sandstone, with brick or rubble side and rear walls.</p> <p>Timber framed windows and doors.</p> <p>Cast iron or timber posts to the verandahs elaborated with moulded capitals and trim, and widely used cast iron brackets and frieze decoration.</p> <p>Fencing consisting of masonry base and piers with cast iron panels or railings, timber railing, timber picket fencing for smaller houses.</p> <p><u>Inter-War Houses</u></p> <p>Australian-made Wunderlich roof tiles, face brick and rendered masonry.</p> <p>Timber joinery with some use of metal framed windows.</p>
	Fencing	<p>Low, open front fencing (including secondary streets to the main façade of the building) associated with the traditional period and style of the building up to 1.2 metres, allowing views to the building. Rear and side boundary fences (behind main building façade) to 2 metres, and 1.8 metres on corner sites.</p> <p>Front fences of stone and cast iron, brick, stone or rendered pillars and plinths, timber or well detailed masonry.</p> <p>Brick, rendered masonry and timber side fences on secondary street frontages.</p> <p>Rear and side fences (behind main face of building) of corrugated metal sheeting.</p>
	Setting, landscaping, streetscape and public realm features	<p>Wide tree-lined streets. Wide footpaths. Quality landscaping, paving and street furniture that reflects its historic context. Views to prominent landmark buildings of Bishops Court and Carclew.</p>
	Representative Buildings	<p style="text-align: right;"><i>[Not identified]</i></p>
	<p><b>North Adelaide Carclew Historic Area Statement (Adel5)</b></p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	<p>1837 to 1901 - Victorian period.</p> <p>1901 to 1920s - Edwardian period.</p>

Statement#	Statement
	<p>1920s to 1942 - Inter-war period.</p> <p>1950 plus - Post War Period.</p> <p>Residential development with intact and generally cohesive townscapes of nineteenth and twentieth century detached houses set in landscaped grounds and imposing two-storey terrace houses.</p>
Allotments, subdivision and built form patterns	<p><u>Strangways Terrace</u></p> <p>Large allotments.</p> <p><u>Ward Street (east of Jeffcott Street)</u></p> <p>Setback established by Heritage Places.</p> <p><u>Ward Street (west of Jeffcott Street) (south side)</u></p> <p>Intimate development pattern.</p> <p>Low density; close grouping of smaller detached cottages of local heritage value located on or near the street to the southern frontage.</p> <p><u>Jeffcott Street</u></p> <p>Dwellings sited close to the street frontage.</p>
Architectural styles, detailing and built form features	<p>Victorian housing consisting of single fronted, symmetrically fronted, and asymmetrically fronted houses, some with bay fronted projections; contains vertically proportioned window and door surrounds highlighted with moulded render or brick dressings with roofs that are generally hipped in form, with the asymmetrical style, gable ended or hipped roof to the projecting bay, concave or convex verandah roof and four panelled doors with fanlights and often sidelights.</p> <p>Edwardian housing with prominent strapped gables and detailing, tall brick chimneys, verandahs incorporated under the main pitch of the roof verandahs with a convex (or bullnose) profile.</p> <p>Inter-War Housing consisting of Bungalows incorporating a broad spreading roof and verandah with typical masonry columns supporting verandah elements and the expansive two storey version was often known as a Gentlemen's Bungalow; and Tudor Revival style displaying steeply pitched roofs with half-timber gable ends and variations of the verandah porch treatments.</p> <p>Post War Housing consisting of Old English and Georgian Revival styles. The Old English Revival style uses elements that reference some Elizabethan/Tudor architectural details, steeply pitched roof form and tall chimneys. The Georgian Revival style displays symmetrical elevation with rendered or brick walls, fanlight above central entrance door, hipped roof form and classically derived proportions and details. This style had no verandah but often displayed an entrance portico. Post-war International Style are generally cubiform with flat roofs, large areas of glass in smooth masonry walls and cantilevered elements and recessed porch areas were typical of the style.</p> <p>Nineteenth and twentieth century detached houses.</p> <p><u>Montefiore Hill, Palmer Place and Brougham Place</u></p> <p>Victorian, Edwardian, Inter-war and Post-war housing.</p> <p>Unique historic townscapes derived from the setting of prominent heritage places and large, generously proportioned mansions set in landscaped grounds, with articulation and modelling with intricate detailing and ornamentation and exhibiting variations in architectural style. Ancillary buildings are subordinate to heritage places and setback from the principal road frontages.</p> <p><u>Strangways Terrace</u></p> <p>Imposing large detached Victorian Villas to the western part of the Terrace.</p> <p>Cohesive detached houses, consistency of masonry facades, vertically proportioned windows, pitched roofs</p>

**North Adelaide Women's and Children's Historic Area Statement (Adel10)**

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

Eras, themes and context	<p>Traditional institutional buildings including Angus Building and Alan Campbell Building at the Women's and Children's Hospital, the Anglican Church Offices, Former dwellings at Memorial Hospital ('The Avenues' and 'Leahurst') and the Cathedral Hotel.</p> <p>North Adelaide retains strong physical evidence of the historical stages of the development of the colony, most particularly the typical 1850s to 1880s village type settlement pattern, with shops and other services. Until 1856, Kermode Street was the 'High Street' of North Adelaide.</p>
Allotments, subdivision and built form patterns	<p><u>King William Street</u></p> <p>Cohesive buildings reinforce the setback pattern established by Heritage Places.</p> <p><u>Sir Edwin Smith Drive (South of Kermode) and Pennington Terrace.</u></p>

Statement#	Statement	
Adel10		<p>Buildings reinforce the setback pattern established by Heritage Places.</p> <p><u>Kermode Street</u></p> <p>Buildings that reinforce one of the first local main streets of North Adelaide.</p>
	Architectural styles, detailing and built form features	Traditional institutional architecture, including State Heritage Places.
	Building height	<p>Low scale Heritage Places on King William Street, Sir Edwin Smith Drive (South of Kermode) and Pennington Terrace.</p> <p>Buildings enable the visual prominence of the St Peter's Anglican Cathedral to be seen from the Adelaide Park Lands (Park 11, Park 12, and Park 25).</p>
	Materials	<p>Traditional materials reflecting the architectural styles of the Heritage Places.</p> <p>Cast iron fence and stone walling along Sir Edwin Smith Avenue and Pennington Terrace</p>
	Fencing	Low, open front fencing (including secondary streets to the main façade of the building) associated with the traditional period and style of the building up to 1.2 metres, allowing views to the building. Rear and side boundary fences (behind main building façade) to 2 metres, and 1.8 metres on corner sites.
	Setting, landscaping, streetscape and public realm features	<p>St Peter's Cathedral, dating from 1869, is a major landmark and visually dominates this area which is characterised by large institutional buildings.</p> <p>High degree of pedestrian amenity and shelter provided by street trees and on-site landscaping.</p> <p>Visually interesting streetscapes.</p> <p><u>High quality urban realm that supports cultural and community services within the locality.</u> Landscaping and open space breaks up building mass and provides amenity.</p> <p>Pedestrian comfort is supported by a high quality public realm and limited vehicle access from King William Road and Sir Edwin Smith Drive and Kermode Street.</p> <p>Park Land frontages including to the Cross of Sacrifice, Brougham Gardens and Peace Park.</p>

<b>North Adelaide Stanley Historic Area Statement (Adel11)</b>	
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context	<p>Low density residential with a distinctive and cohesive character derived from large nineteenth and early twentieth century dwellings and other low density detached and semi-detached dwellings in a variety of forms and styles.</p> <p>Brougham Place Uniting Church has visual prominence.</p>
Allotments, subdivision and built form patterns	<p>Built form edge to Brougham Gardens and the Park Lands along Brougham Place.</p> <p><u>Stanley Street (southern side) and Brougham Place (where it is a visual continuation of Stanley Street)</u></p> <p>Close subdivision pattern west of New Street.</p> <p><u>Kingston Terrace</u></p> <p>Consistent setbacks established by Heritage Places.</p>
Architectural styles, detailing and built form features	<p>Victorian housing that is single fronted, symmetrically fronted, and asymmetrically fronted houses, some with bay fronted projections; contains vertically proportioned window and door surrounds highlighted with moulded render or brick dressings with roofs that are generally hipped in form, with the asymmetrical style, gable ended or hipped roof to the projecting bay, concave or convex form verandah roof and four panelled doors with fanlights and often sidelights.</p> <p>Edwardian housing with prominent strapped gables and detailing, tall brick chimneys, verandahs incorporated under the main pitch of the roof verandahs with a convex (or bullnose) profile.</p> <p>Georgian Revival housing displays symmetrical elevation with rendered or brick walls, fanlight above central entrance</p>

Statement#	Statement	
		<p>door, hipped roof form and generally classically derived proportions and details. This style had no verandah but often displayed an entrance portico.</p> <p>Large nineteenth and early twentieth century dwellings comprising more substantial Victorian, Edwardian and Georgian Revival villas, and other low density detached and semi-detached dwellings in a variety of forms and styles.</p> <p>Buildings on Stanley Street, Kingston Terrace and Brougham Place are defined by the landfall and escarpment. Development takes advantage of the landfall by providing semi-basement floors.</p> <p><u>Kingston Terrace</u></p> <p>Victorian and Inter-war housing.</p> <p>Large one and two storey detached residences on individual allotments set close to the street with a Park Lands frontage.</p> <p>Towards Lefevre Terrace: Imposing rear elevations of two storey mansions with frontages to Stanley Street.</p> <p>Modelled and articulated, constructed of masonry, with a high proportion of solid to void in the composition of facades and often feature verandahs and balconies.</p> <p><u>Stanley Street (northern side)</u></p> <p>Victorian, Edwardian and Inter-war.</p> <p>Two large mansions set well back from the northern frontage on elevated ground above Stanley Street and large detached and semi-detached residences.</p> <p><u>Stanley Street (southern side) and Brougham Place (where it is a visual continuation of Stanley Street)</u></p> <p>Victorian, Edwardian and Inter-war.</p> <p>Two-storey residences on the southern frontage presenting a single-storey appearance to Stanley Street and Brougham Place due to sloping topography.</p> <p>Consistent set-back of stone Victorian villas typified by rich detailing and cast-iron ornamentation west of New Street.</p> <p>Detached or semi-detached dwellings presenting as single storey to the street frontage.</p> <p><u>Brougham Place (western boundary)</u></p> <p>Imposing and finely detailed Brougham Place Uniting Church with its dominant central tower.</p> <p>Low scaled St Ann's College buildings which step down the Brougham Place frontage reflecting the topography of the locality.</p>
Adel11	Building height	<p>Low scale dwellings and buildings that enable views of the City from Stanley Street and Brougham Place.</p> <p><u>Stanley Street (southern side) and Brougham Place (where it is a visual continuation of Stanley Street)</u></p> <p>Single storey to the street frontage.</p>
	Materials	<p><u>Stanley Street (southern side) and Brougham Place (where it is a visual continuation of Stanley Street)</u></p> <p>Stone with rich detailing and cast iron west of New Street.</p> <p><u>Victorian Houses</u></p> <p>Bluestone, limestone or sandstone, with brick or rubble side and rear walls.</p> <p>Timber framed windows and doors.</p> <p>Cast iron or timber posts to the verandahs elaborated with moulded capitals and trim, and widely used cast iron brackets and frieze decoration.</p> <p>Masonry base and piers with cast iron panels or railings, timber railing, timber picket fencing for smaller houses.</p>

Statement#	Statement	
		<p><u>Edwardian Houses</u></p> <p>Face brick walling with decorative brick detailing, ashlar stone with brick dressings or moulded render or 'rock face' sandstone (or freestone) for wall material.</p> <p>Unglazed terracotta Marseilles roof tiles, corrugated iron roof cladding.</p> <p>Timber framed windows and doors. Windows often grouped and doors often divided into three or four horizontal panels.</p> <p>Masonry fencing with cast or wrought iron palisade, or timber.</p> <p><u>Georgian Revival Houses</u></p> <p>The Georgian Revival style displays symmetrical elevation with rendered or brick walls, fanlight above central entrance door, hipped roof form and generally classically derived proportions and details. This style had no verandah but often displayed an entrance portico.</p> <p>Masonry fencing (brick and /or dressed stone or rendered) and may include cast or wrought iron palisade and gates.</p>
Fencing		<p>Low, open front fencing (including secondary streets to the main façade of the building) associated with the traditional period and style of the building up to 1.2 metres, allowing views to the building. Rear and side boundary fences (behind main building façade) to 2 metres, and 1.8 metres on corner sites.</p> <p><u>Stanley Street (southern side) and Brougham Place (where it is a visual continuation of Stanley Street).</u></p> <p>Stone and cast iron ornamental boundary fencing along street frontage west of New Street.</p>
Setting, landscaping, streetscape and public realm features		<p>Views of the City from Stanley Street and Brougham Place.</p> <p>Landscape qualities of public and private open space.</p> <p>Vistas to the Park Lands, Brougham Place and the eastern end of Stanley Street.</p> <p>Street trees, avenue planting and other landscaping and a high standard of paving to the public realm.</p> <p>Landmark significance of the Brougham Place Uniting Church.</p> <p>The topography is characterised by the North Adelaide scarp, a steep rise from Melbourne Street to Stanley Street, below which the area is relatively flat, towards the River Torrens. The ridge of the scarp along Kingston Terrace/Stanley Street and the frontages to the Park Lands provided for prestigious residential addresses. The higher concentration of small cottages in the lower section below the scarp reflects the early subdivision of these Town Acres into estates providing workers housing following the establishment of local manufacturing industries such as the Lion Brewery. The creation of the road through Brougham Place in the 1860s and the introduction of horse drawn trams along Melbourne Street in 1878 gave this section of North Adelaide closer links with the rest of the City and made the area an attractive location for workers to live.</p> <p>Vehicle access is via minor streets, side and rear lanes. Vehicle access points have been designed and located to maintain historic kerbing and trees.</p>
Representative Buildings		<p><i>[Not identified]</i></p>

**North Adelaide Kentish Arms Historic Area Statement (Adel12)**

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

Statement#	Statement
	<p>Eras, themes and context</p> <p>Residential area reflecting the townscapes of large nineteenth and early twentieth century.</p> <p>1837 to 1901 - Victorian period.</p> <p>1901 to 1920s - Edwardian period.</p>
	<p>Allotments, subdivision and built form patterns</p> <p>Strong residential built form edge to the Park Lands and Mann Terrace with regular siting and pattern of building addressing principal road frontage.</p> <p><u>Stanley Street (south side), East and West Pallant Streets</u></p> <p>Closely sited single-storey buildings.</p> <p><u>Stanley Street (north side)</u></p> <p>Close siting of buildings.</p>
	<p>Architectural styles, detailing and built form features</p> <p><u>Victorian Dwellings</u></p> <p>Single or two storey houses built in a variety of sizes and scale.</p> <p>Single fronted, symmetrically fronted, and asymmetrically fronted houses, some with bay fronted projections.</p> <p>Vertically proportioned window and door surrounds highlighted with moulded render or brick dressings.</p> <p>Roofs generally hipped in form, with the asymmetrical style, gable ended or hipped roof to the projecting bay.</p> <p>Concave or convex form verandah roof</p> <p>Four panelled doors with fanlights and often sidelights.</p> <p>Fencing consisting of masonry base and piers with cast iron panels or railings, timber railing, timber picket fencing for smaller houses.</p> <p><u>Edwardian dwellings</u></p> <p>Prominent strapped gables and detailing, tall brick chimneys, and verandahs incorporated under the main pitch of the roof.</p> <p>Verandahs with convex (or bullnose) profile.</p> <p>Masonry fencing with cast iron palisade, or timber.</p> <p><u>Stanley Street (south side), East and West Pallant Streets - Victorian and Inter-war dwellings.</u></p> <p>Adelaide's earliest residential buildings.</p> <p><u>Stanley Street (north side)</u></p> <p>Victorian and Edwardian dwellings.</p> <p>Cohesive, single-storey detached, semi-detached and row housing of the Victorian and Edwardian periods with verandahs along the street frontages and hipped roofs or parapets to front facades.</p> <p><u>Sussex Street</u></p> <p>Victorian and Edwardian dwellings.</p> <p>Early German settler cottages and Victorian row dwellings.</p> <p>Sections of small scale, closely sited and cohesive development to the eastern and western end.</p> <p>Early settler cottages on the northern side and Victorian row houses on the southern side.</p> <p><u>Kingston Terrace</u></p> <p>Victorian dwellings.</p> <p>A mixture of single-storey row housing and detached and semi-detached houses of the late Victorian to Edwardian periods from Jerningham Street to Francis Street (west), with more recent detached houses and contemporary three storey town houses.</p>

Statement#	Statement
Adel12	<p>A diversity of architectural styles and housing types which present a cohesive townscape.</p> <p><u>Jerningham Street</u></p> <p>Victorian dwellings.</p> <p>Single storey nineteenth century detached and semi-detached dwellings.</p> <p><u>MacKinnon Parade</u></p> <p>East of Dunn Street has detached and semi-detached houses of similar scale and design that are of identified heritage value.</p> <p>West of Dunn Street has eroded streetscape pattern.</p> <p><u>Mann Terrace</u></p> <p>Victorian dwellings.</p> <p>A group of identical villas. The articulated and gabled facades, pitched roof profiles and verandahs create a highly cohesive character.</p> <p>South of Melbourne Street the townscape comprises a group of identical villas, all of local heritage value. The articulated and gabled facades, pitched roof profiles and verandahs create a highly cohesive character.</p> <p>North of Melbourne Street there is also a cohesive townscape established by closely developed detached and semi-detached dwellings most of which have local heritage value and a regular building set-back from the street.</p> <p><u>Hart Street</u></p> <p>Victorian dwellings.</p> <p>Cohesive and intense built form consisting of detached stone cottages of a consistent scale, built form character and siting with masonry construction, fenestration, pitched roofs and verandahs.</p> <p><u>Bower Street/Provost Street</u></p> <p>Victorian dwellings.</p> <p>Small detached cottages and row dwellings set on or close to the street.</p> <p><u>Arthur Street</u></p> <p>Victorian and Edwardian dwellings.</p> <p>Low scale character.</p>
Building height	<p>Buildings up to two storeys in Jerningham Street, Stanley Street, MacKinnon Parade, Sussex Street, Hart, Street and East and West Pallant Streets, presenting as single storey to the street. Single storey on Kingston Terrace between Fuller Street and Francis Street (west).</p>
Materials	<p><u>Victorian Houses</u></p> <p>Bluestone, limestone or sandstone, with brick or rubble side and rear walls.</p> <p>Timber framed windows and doors.</p> <p>Cast iron or timber posts to the verandahs elaborated with moulded capitals and trim, and widely used cast iron brackets and frieze decoration.</p> <p>Masonry base and piers with cast iron panels or railings, timber railing, timber picket fencing for smaller houses</p> <p><u>Edwardian Houses</u></p> <p>Face brick walling with decorative brick detailing, ashlar stone with brick dressings or moulded render or 'rock face' sandstone (or freestone) for wall material.</p> <p>Unglazed terracotta Marseilles roof tiles, corrugated iron roof cladding.</p>

Statement#	Statement
	<p>Timber framed windows and doors. Windows often grouped and doors often divided into three or four horizontal panels.</p> <p>Masonry fencing with cast iron palisade, or timber (picket).</p>
Fencing	<p>Low, open front fencing (including secondary streets to the main façade of the building) associated with the traditional period and style of the building up to 1.2 metres, allowing views to the building. Rear and side boundary fences (behind main building façade) to 2 metres, and 1.8 metres on corner sites.</p>
Setting, landscaping, streetscape and public realm features	<p>Landscape qualities of public and private open space.</p> <p>Pedestrian amenity and shelter provided by street trees, other landscaping and a high standard of paving within the public realm. Vehicle access is via minor streets, side and rear lanes. Vehicle access points have been designed and located to maintain historic kerbing and trees.</p> <p>Vehicle access to row dwellings is provided from laneways and minor streets. Car parking is located behind buildings on the frontages to Kingston Terrace, Mann Terrace, MacKinnon Parade, Melbourne Street and Sussex Street. Car parking is located behind or beside buildings on the Stanley Street and Jerningham Street frontages.</p>
Representative Buildings	<p>[Not identified]</p>

<p><b>North Adelaide Finnis Historic Area Statement (Adel13)</b></p>	
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
<p>Eras, themes and context</p>	<p>Low scale residential character.</p> <p>Victorian Houses (1870s to 1890s) on Finnis Street.</p> <p>Victorian Houses (1870s to 1890s) and Post War Dickson Platten buildings date from 1968 - 71 (Kathleen Lumley College) on MacKinnon Parade. Victorian (1870s to 1890s) and Edwardian houses (1900 to 1920s) on Brougham Place.</p>

**Adelaide Historic Area Statement (Adel14)**

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

Eras, themes and context	<p>Cultural and historic evidence of the creation of the colony and the consolidation of early settlement in Adelaide.</p> <p>1837 to 1901 - Victorian period.</p> <p>1901 to 1920s - Edwardian period.</p> <p>1920's to 1942 - Inter-war period.</p> <p>Broad range of residential stock, from nearby grand villas / mansions on South and East Terraces overlooking the Park Lands (1870-1880) to humble cottages lining the smaller street.</p>
Allotments, subdivision and built form patterns	<p>Subdivision of town acres in the south-east into a network of streets and lanes.</p> <p><u>Ada Street</u></p> <p>Close development pattern of residences.</p> <p><u>Carrington Street (east of Marion Street)</u></p> <p>Consistent setback of Heritage Places.</p>

Statement#	Statement
	<p><u>Carrington Street (west of Marion Street)</u></p> <p>Close siting.</p> <p><u>Corryton Street (north of Halifax Street)</u></p> <p>-Single-storey semi-detached and detached cottages sited close to the street frontage.</p> <p><u>Castle Street</u></p> <p>Closely sited to the street with narrow frontages.</p> <p><u>Gilles Street</u></p> <p>Close pattern of development.</p> <p>East of St John Street is a more open subdivision pattern.</p> <p><u>Gladstone Street</u></p> <p>Sited close to the street frontage.</p> <p><u>Halifax Street (east of Hutt Street)</u></p> <p>-Single-storey detached and semi-detached cottages of a consistent built form character and the occasional terrace house.</p> <p>St John's Church is a prominent landmark.</p> <p><u>Halifax Street (west of Hutt Street)</u></p> <p>Single-storey attached and detached cottages, a large bay window residence and a two-storey Victorian former corner shop.</p> <p><u>Kate Court</u></p> <p>Dwellings sited close to the street frontage.</p> <p><u>Marion Street</u>-Close grouping of 19th century small semi-detached and detached cottages and row cottages.</p> <p><u>McLaren Street and Regent Street South</u></p> <p>Closely sited, single-storey cottages and row houses.</p> <p><u>Royal Avenue</u></p> <p>Close pattern of development.</p> <p><u>St. John Street</u></p> <p>The north east townscape is dominated by the substantial scale and richly detailed character of St John's Church, Meeting Hall and Rectory. Western frontage - group of consistently sited dwellings. Eastern frontage - small group of narrow fronted cottages.</p> <p><u>Tomsey Street</u></p> <p>Single-storey semi-detached and detached cottages.</p>
<p>Adel14</p>	<p>Architectural styles, detailing and built form features</p> <p><u>Ada Street</u></p> <p>A variety of dwellings, including row cottages, small semi-detached cottages and detached bay window cottages make up this historic townscape.</p> <p>A sense of intimacy and enclosure is derived from the narrowness of the street.</p> <p>Consistent pitched roof profiles, verandahs, fenestration and material.</p> <p><u>Carrington Street (east of Marion Street)</u></p> <p>Comprises single-storey detached, semi-detached and row cottages, terrace houses and contemporary attached dwellings.</p> <p>Vertically proportioned openings, pitched roofs and verandahs.</p> <p><u>Carrington Street (west of Marion Street)</u></p> <p>Single-storey cottages, row cottages, and terrace houses with historic window proportions, pitched roof profiles, verandah.</p> <p><u>Castle Street</u></p> <p>Small semi-detached and detached cottages and the single terrace with verandahs along the street and pitched roofs.</p> <p><u>Corryton Street (north of Halifax Street)</u></p> <p>Single-storey semi-detached and detached cottages sited close to the street frontage establishing a rhythm of narrow dwelling facades, fenestration, pitched roof profiles and verandahs.</p> <p><u>Corryton Street (south of Halifax Street)</u></p> <p>Long single-storey row of cottages, with a horizontal emphasis created by the common roof, verandah profiles.</p>

Statement#	Statement
	<p><u>Gilles Street</u></p> <p>Intimate attached and detached cottages with consistent fenestration, pitched roof profiles and verandah styles.</p> <p>Large detached residences set in landscaped ground east of John Street.</p> <p>Variety of architectural forms.</p> <p><u>Gladstone Street</u></p> <p>Single-storey row and semi-detached cottages sited close to the street frontage. Intimacy and sense of enclosure from horizontal form of dwellings.</p> <p><u>Halifax Street (east of Hutt Street)</u></p> <p>Detached and semi-detached cottages and the occasional terrace house, sited close to the street frontage with minimal side boundary set-backs and having consistency of window proportions, the high proportion of solid to void, pitched roof profiles and verandahs.</p> <p>St John's Church is a prominent landmark.</p> <p><u>Halifax Street (west of Hutt Street)</u></p> <p>Attached and detached cottages, a large bay window residence and a two-storey Victorian former corner shop.</p> <p><u>Kate Court</u></p> <p>Semi-detached cottages, detached gable-fronted cottages and terrace house sited close to the street frontage, with consistent window proportions, roof forms and verandah styles.</p> <p><u>Marion Street</u></p> <p>Close grouping of 19th century small semi-detached and detached cottages and row cottages with low front parapet line and consistent roof and verandah forms.</p> <p><u>McLaren Street and Regent Street South</u></p> <p>Closely sited cottages and row houses with vertically proportioned openings and the consistent form of pitched roofs and verandahs.</p> <p><u>Royal Avenue</u></p> <p>Cottages and villas.</p> <p><u>St. John Street</u></p> <p>Substantial scale and richly detailed character of St John's Church, Meeting Hall and Rectory.</p> <p>Consistently sited, gable-fronted villas to western frontage.</p> <p>Small group of narrow fronted cottages on the eastern frontage.</p> <p><u>Tomsey Street</u></p> <p>Semi-detached and detached cottages.</p>
Building height	Low scale.
Materials	<p><u>Victorian Houses</u></p> <p>Bluestone, limestone or sandstone, with brick or rubble side and rear walls.</p> <p>Timber framed windows and doors.</p> <p>Cast iron or timber posts to the verandahs elaborated with moulded capitals and trim, and widely used cast iron brackets and frieze decoration.</p> <p>Masonry base and piers with cast iron panels or railings, timber railing, timber picket fencing for smaller houses.</p> <p><u>Edwardian Houses</u></p> <p>Face brick walling with decorative brick detailing, ashlar stone with brick dressings or moulded render or 'rock face' sandstone (or freestone) for wall material.</p> <p>Unglazed terracotta Marseilles roof tiles, corrugated iron roof cladding.</p> <p>Timber framed windows and doors. Windows often grouped and doors often divided into three or four horizontal panels.</p> <p>Masonry fencing with cast iron palisade, or timber.</p> <p><u>Inter-War Houses</u></p> <p>Australian-made Wunderlich roof tiles.</p> <p>Timber joinery with some use of metal framed windows.</p> <p>Typically low masonry fencing, built from materials matching the main building.</p>
Fencing	Low, open front fencing (including secondary streets to the main façade of the building) associated with the traditional period 4280

Statement#	Statement
	<p>style of the building up to 1.2 metres, allowing views to the building. Rear and side boundary fences (behind main building façade) to 2 metres, and 1.8 metres on corner sites.</p> <p>Front fences of stone and cast iron, brick, stone or rendered pillars and plinths, timber or well detailed masonry.</p> <p>Brick, rendered masonry and timber side fences on secondary street frontages.</p> <p>Rear and side fences (behind main face of building) of corrugated metal sheeting.</p> <p><u>Corryton Street (south of Halifax Street)</u></p> <p>Continuous picket fencing.</p>
Setting, landscaping, streetscape and public realm features	<p>A sense of intimacy and enclosure to Ada, Gladstone, McLaren, Streets, and Regent Street South.</p> <p>Landmark qualities of St John's Church, Meeting Hall and Rectory.</p> <p>Landscaped open space with significant vegetation. Public and private open spaces incorporating landscaping to street frontages. Vehicle access is via minor streets, side and rear lanes. Vehicle access points have been designed and located to maintain historic kerbing and significant trees.</p>
Representative Buildings	<i>[Not identified]</i>

**Historic Areas Affecting Adelaide Hills Council**

<b>Mylor Historic Area Statement (AdHi1)</b>	
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context	1880 to late 1890s. Commercial centre. Workingmen's Block movement.
Allotments, subdivision and built form patterns	Uniform rectangular allotments fronting the main street. Large site areas. Large street frontages. Varying front setbacks (residential development has generous setbacks with commercial/retail development located closer to the front boundary to address the main street). Varying side setbacks, with limited boundary development.
Architectural styles, detailing and built form features	1890s commercial buildings interspersed with a variety of civic and residential buildings.
Building height	Generally small scale, single storey construction with the exception of the larger public buildings such as the Uniting Church and the former Institute building.
Materials	Consistent with the materials associated with the architectural styles of the subject building and streetscape. Random coursed and rubble stone. Rendered stone. Brick and rendered quoins. Hipped and gabled roofs. Raked and bullnose verandahs supported with timber posts and masonry pillars. Corrugated iron roofs. External finishes non-reflective incorporating a natural autumnal palette.
Fencing	Front fences of pickets, post and wire and masonry (exposed or rendered brickwork or stonework) often obscured by hedges or other plantings, to a height of 1200 millimetres.
Setting, landscaping, streetscape and public realm features	<p>Rustic character. The township is enclosed on three sides by highly valued remnant vegetation within the Mylor Parklands. Leslie Creek and Aldgate Creek meander through the township before joining up with the Onkaparinga River to the south. The main entrance to Mylor from the north is marked by bridge crossings over Leslie and Aldgate Creeks, the war memorial and views to an avenue of deciduous trees which define the centre of the township. Views of the historic building within the primary school.</p> <p>Other important views along Strathalbyn Road include the heritage buildings containing the general store and rural supplies establishment which defines the southern entry to the township. Wide landscaped verge that incorporates an avenue of trees along Strathalbyn road accentuates the historic built form.</p> <p>Vehicular access at the rear of allotments fronting Strathalbyn Road.</p>

<b>Stirling - Ayres Hill Road Historic Area Statement (AdHi2)</b>	
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context	Mid to late 1880s residential.
Allotments, subdivision and built form patterns	Large blocks of land. Larger houses on large, well vegetated grounds. Dwellings set well back from the street boundary. Smaller subordinate buildings located closer to the street boundary.

Statement#	Statement	
AdHi2	Architectural styles, detailing and built form features	The architectural style of the buildings varies with their date of construction.
	Building height	Building height to 9 metres. Original scale of buildings.
	Materials	Consistent with the materials associated with the architectural style of the subject building. Random, coursed and dressed stone. Rendered stone. Brick, stone and rendered quoins. String courses. Hipped and gabled roofs. Dormer windows. Raked verandahs supported with timber posts and masonry pillars. Corrugated iron roofs. Decorative cast iron features. Brick and stone chimneys. Stone Porticos. Decorative and ornate timber bargeboards. External finishes non-reflective and utilise natural colours.
	Fencing	Front fencing of pickets, post and wire and masonry (exposed or rendered brickwork or stonework) often obscured by hedges or other plantings, with varying heights to between 1200-1800 millimetres.
	Setting, landscaping, streetscape and public realm features	<p>'Secluded' nature of houses, in most cases set well back on their blocks, hidden behind the gardens and hedges.</p> <p>Streetscape is dominated by tree plantings and fencing behind which can be seen the larger trees and shrubs of the gardens. The lower section of the road (from Laurel Road to the roundabout near St Catherine's) is winding and bordered by hedges and trees. The upper portion of the road is straight and reveals a wider footpath margin than the lower section, adding to the feeling of privacy of the houses.</p> <p>Wide footpath verges which are of a rustic nature.</p> <p>Row and avenue plantings of exotic trees in the road verges.</p>

AdHi3	<b>Woodside Historic Area Statement (AdHi3)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Late 1880s.
	Allotments, subdivision and built form patterns	Original grid subdivision pattern. Uniform rectangular allotments.
	Architectural styles, detailing and built form features	The predominant character is single storey detached dwellings with an eclectic mix of European architecture set in large landscaped surrounds, interspersed with buildings including workers cottages and churches, at times built to the front boundary. The architectural style of the buildings varies with their date of construction.
	Building height	Primarily single storey detached buildings.
	Materials	Consistent with the materials associated with the architectural styles of the subject building and streetscape. Random coursed and rubble stone. Rendered stone. Brick and rendered quoins. Hipped and gabled roofs. Raked verandahs supported with timber posts and masonry pillars. Corrugated iron roofs. External finishes non-reflective and utilise natural colours.
	Fencing	Front fencing of pickets, post and wire, and masonry (exposed or rendered brickwork or stonework), with maximum heights ranging from 1000 of 1200 millimetres.
	Setting, landscaping, streetscape and public realm features	Relatively narrow streets, typically featuring box-style kerb and gutters, do not often have footpaths.

**Historic Areas affecting Alexandrina Council**

	<b>Strathalbyn Suburban Neighbourhood Historic Area Statement (Alex1)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context	<p><b>Northern (Manse Road, Melville Lane, Taylors Lane, Melville Street, Harriet Street and North Parade)</b></p> <p>1860s-1910s. Symmetrical double-fronted early settler cottages and simple workers accommodation.</p> <p>Centred on North Parade, the area was initially subdivided in 1856 and was developed to contain a mixture of functions ranging from an early butcher's shop, to a school, a hospital and a Rechabite Hall and residences.</p> <p>The early commercial and institutional functions have declined over time and the area is now mainly residential.</p> <p><b>Western (Sandegrove Road, King Street, Coronation Road)</b></p> <p>1910s. Symmetrical double-fronted cottages and early Bungalow era dwellings.</p>	

Statement#	Statement
	<p>The Western area is important in the overall character of Strathalbyn as it reflects the period at the turn of the century which was one of consolidation and prosperity for the town. The specific residential character of the area derives from the consistent character of the circa 1910 residences, which display typical characteristics of domestic architecture at the time.</p> <p><u>Central (East Terrace, Murray Street, North Parade, Grey Street, Chapel Street, Rowe Street, Commercial Road, West Terrace, Jeff Street, Wallbank Street, Mill Street)</u></p> <p>1860s - 1950.s. Symmetrical double-fronted cottages and early Bungalow era dwellings.</p> <p>The Central area represents the predominantly residential area within the bounds of the original town boundary following, North Parade, East Terrace, South Terrace and West Terrace. The area also includes church landmarks to the east of the town centre on Murray and Chapel Streets.</p>
Alex1	<p>Allotments, subdivision and built form patterns</p> <p><u>Northern</u></p> <p>Large allotments and setbacks. Medium- to large front setbacks. Buildings parallel to street. Buildings typically located asymmetrically on allotments, allowing for access to rear of blocks on one side. This subdivision has a less regular layout, in part due to path of Middle Creek which borders the area on the north and east.</p> <p><u>Western</u></p> <p>Large allotments and setbacks. Consistent medium- to large front setbacks. Buildings parallel to street. Buildings typically located symmetrically on allotments with very wide side setbacks.</p> <p><u>Central</u></p> <p>Large allotments and setbacks. Buildings parallel to street. Buildings typically located asymmetrically on allotments, allowing for access to rear of blocks on one side.</p>
Alex1	<p>Architectural styles, detailing and built form features</p> <p><u>Western and Northern</u></p> <p>Symmetrical stone double fronted cottages with some early bungalow styles. Predominantly hipped roofs of 27-35 degree pitch with detached verandah (concave, convex and bullnosed) set 300mm below main building gutter. High solid to void (window &amp; door opening) ratio.</p> <p>Carports and sheds generally to the rear of allotments and not attached to dwellings.</p> <p><u>Central</u></p> <p>Stone double fronted cottages with some early bungalow styles. Predominantly hipped roofs of 27-35 degree pitch with verandahs. High solid to void (window &amp; door opening) ratio.</p> <p>Carports and sheds generally to the rear of allotments and not attached to dwellings.</p>
	<p>Building height</p> <p>Single storey with external wall heights generally 3.8-4.1m and ceilings at least 3.</p>
	<p>Materials</p> <p>Sandstone and limestone with red brick quoins predominantly. Corrugated (mostly galvanised) roofing.</p>
Alex1	<p>Fencing</p> <p><u>Northern</u></p> <p>Timber post and rail (local variation diamond style), low masonry, timber post and cyclone mesh, rural post and wire fencing to a height of 1.2m at front and 1.8m on side boundaries.</p> <p><u>Western</u></p> <p>Hedges, brush, pickets, low masonry and cyclone mesh, rural post and wire fencing to a height of 1.2m at front and 1.8m on side boundaries.</p> <p><u>Central</u></p> <p>Timber post and rail (local variation diamond style), hedges, low masonry, timber post and cyclone mesh, rural post and wire fencing to a height of 1.2m at front and 1.8m on side boundaries.</p>
Alex1	<p>Setting, landscaping, streetscape and public realm features</p> <p>Limited use of signage, where present it incorporates simple fonts consistent with the era with no internal illumination.</p> <p><u>Northern</u></p> <p>Heavily vegetated, rural character, especially to Taylors Lane and Melville Street.</p> <p><u>Western</u></p> <p>Newly formed footpaths with planted verges and street trees.</p> <p><u>Central</u></p> <p>Rural character, wide streets and footpaths with regular street trees.</p>
	<p>Representative Buildings</p> <p>Identified - refer to SA planning database.</p>
<p><b>Strathalbyn Centre - Township Main Street and Community Facilities Historic Area Statement (Alex2)</b></p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. From the late 19th century to the present day, Goolwa's main focus has been as a tourist township, but the industrial historic legacy of earlier times which includes former breweries, sawmill, shipyards, the wharf area, the Goolwa Patent Slip and iron works and flour mill.</p> <p>The Goolwa Historic Area is a residential area known as 'Little Scotland' adjoining the State Heritage Area to the north and bounded by the railway line to the south.</p>	
	Allotments, subdivision and built form patterns	Small narrow allotments, with many dwellings built over two allotments giving appearance of larger frontages. Buildings parallel to street. Minimal side setbacks, often no driveways or vehicle access.	
	Architectural styles, detailing and built form features	<p>Small humble workers' cottages. Gabled, hipped and parapeted roofs at 30-40 degree pitches. Separate verandah roof across frontage typical. High solid to void (window and door opening) ratio.</p> <p>Carports and garages generally to the rear of allotments and not attached to dwellings.</p>	
	Building height	Single storey with external wall heights 3.8 - 4.1m and ceilings of at least 3m.	
	Materials	Stone, rendered masonry, weatherboard walls. Corrugated roofing. Distinct absence of contemporary materials.	
	Fencing	Low picket fences or timber post and rails often at verandah line, up to 1.2m high.	
Setting, landscaping, streetscape and public realm features	Intimate village, narrow streets with minimal or no footpaths. Limited use of signage, where present it incorporates simple fonts consistent with the era with no internal illumination.

**Historic Areas affecting The Barossa Council**

<b>Angaston Centre Historic Area Statement (Baro1)</b>		
The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.		
These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.		
The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.		
Baro1	Eras, themes and context	Early settlement in 1850s and 1860s. 19th and early 20th Century buildings and streetscapes.
	Allotments, subdivision and built form patterns	Original development and subdivision pattern, especially in the vicinity of Hannay Crescent including the cemetery allotment.
	Architectural styles, detailing and built form features	Banks, churches and hotels along Murray Street. Early post-supported verandas along sections of Murray Street.
	Building height	Two storeys.
	Materials	<i>[Not stated]</i>
	Fencing	<i>[Not stated]</i>
	Setting, landscaping, streetscape and public realm features	Significant visual backdrop formed by the hills, cemetery and stone walling when viewed from the Hannay Crescent area and Murray Street.  The configuration of Murray Street with a bend at the Sturt Street junction provides interesting vistas east and west along the street.  A vista is evident along Washington Street towards the Town Hall. Marble walling in front of the former Station Masters Residence, and former animal pound walls on the railway land.  Along Murray Street, the paddock like nature of the land adjoining the creek bank links with the residential surrounds and, in association with the Murray Street park and rural backdrop, creates an attractive setting.  Mature landscaping, deciduous street trees, Moreton Bay Fig trees, English Elm and the grouping of deciduous trees adjacent to the Laucke Mill on Murray Street.
	Representative Buildings	Identified - refer to SA planning database.

<b>Angaston Residential Historic Area Statement (Baro2)</b>		
The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.		
These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.		
The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.		
Baro2	Eras, themes and context	Late 1800s.  1920s, second wave of prosperity for Angaston in the 20th Century.
	Allotments, subdivision and built form patterns	<i>[Not stated]</i>
	Architectural styles, detailing and built form features	Substantial residences in 1879-80.  Residences of the 1920s.

Statement#	Statement	
	Building height	[Not stated]
	Materials	Local stone.
	Fencing	[Not stated]
	Setting, landscaping, streetscape and public realm features	Tree lined streets, attractive gardens, varied topography, mature white cedars along Schilling Street, coprosma hedges in front of some houses (retaining early post and wire fence structures), mature ficus at the base of Dean Street, mature gums along the creek, and cypress hedges to many 1920s dwellings.  Angas Recreation Park forms an important element located within the residential area. The park between Dean Street and Hill Street and Angaston Children's Reserve provides an open area for community use.
	Representative Buildings	Identified - refer to SA planning database.

Statement#	Statement	
Baro3	<b>Bethany Historic Area Statement (Baro3)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Established in 1842 - one of the earliest substantial German settlements in the Barossa.
	Allotments, subdivision and built form patterns	Subdivided according to the hufendorf principle of long strips. Houses built close to the road with long narrow allotments stretching out behind, together with significant timber structures, particularly farm buildings either close to the road or behind the farm houses.
	Architectural styles, detailing and built form features	Early houses dating from the 1850s and the 1860s, many of which retain layouts and construction techniques clearly indicating their German origin.
	Building height	[Not stated]
	Materials	[Not stated]
	Fencing	[Not stated]
	Setting, landscaping, streetscape and public realm features	The Herberge Christi Lutheran Church and the cemetery in the eastern end of the settlement form a dominant element.  Vegetation and landscaping located within the public realm and mature street tree plantings lining the road, together with the mature gardens associated with the early dwellings. The Tanunda Creek, the Bethany Reserve and the creek crossing at Bethany Road are also important to the character of the settlement.
	Representative Buildings	Identified - refer to SA planning database.

Statement#	Statement	
Baro4	<b>Krondorf Historic Area Statement (Baro4)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Established in 1847. First plan of division 1877.
	Allotments, subdivision and built form patterns	Division of land undertaken to the hufendorf arrangement. Linear nature.
	Architectural styles, detailing and built form features	Early farm complexes and buildings indicative of its early date of settlement.
	Building height	[Not stated]
	Materials	Pioneer building techniques and specifically German traditions in construction. Significant stone and timber structures, particularly farm sheds.
	Fencing	[Not stated]
	Setting, landscaping, streetscape and public realm features	Buildings close to the road alignment. Zum Kripplein Christi Church ("Manger of Christ") forms a dominant building in the middle of the settlement.
	Representative Buildings	Identified - refer to SA planning database.

Rose Park Historic Area Statement (Bur1)		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Eras, themes and context	1880 - 1917 Victorian and Federation.  1918 - 1940 Post WW1.	
Allotments, subdivision and built form patterns	Traditional rectangular grid pattern. Generally large site areas. Generally large street frontage widths large. Large front of dwelling setback. Vehicular access from rear lanes of many dwellings.	
Architectural styles, detailing and built form features	Late 19th Century and early 20th Century dwellings with forms, scale and detailing reflective of the era  Villas and cottages in bluestone, freestone and/or brick.  Many substantial dwellings as well as some more modest, unornamented dwellings .  Brick quoinwork common.  Hip and gable roof forms with pitches above 25 degrees.  Various porch and verandah styles including return verandahs ranging from modest to generous proportions either projecting or as a continuation of the main roof structure.  Garages and carports are located behind the main façade of dwellings.  Visible chimneys.	
Building height	Predominantly single storey.  Upper storey elements are integrated sympathetically into the dwelling design and generally not visible from street.	

Statement#	Statement	
	Materials	Wall materials consistent with era of original construction including bluestone, freestone, sandstone and brickwork.  Pitched roofs in galvanised iron sheet or terracotta tiles.  Some original slate tiles.  Retention of original materials and finishes and unpainted masonry.
	Fencing	Typical of the era of historic development. Low and/or open fencing forward of the main building façade. Maximum height to 1.2m. Timber picket or dowelling. Masonry and cast iron palisade. Some substantial hedging.
	Setting, landscaping, streetscape and public realm features	Substantial avenues, trees and gardens. Significant front landscaped gardens. Modest verges containing single line of streets trees. Double row of mature trees planted along Alexandra Avenue and Prescott Terrace as a war memorial.  Area includes school, churches, mews cottages and other community facilities.
	Representative Buildings	Identified - refer to SA planning database.

Bur2	Eastwood Historic Area Statement (Bur2)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Majority 1870 - 1917 Victorian and Federation.  Few 1917 - 1940 Post WW1.
	Allotments, subdivision and built form patterns	Narrow allotments of varying widths.  Closely spaced small early dwellings and narrow streets.  Minimal front set-backs. Many with front verandah built to front boundary.  Minimal side set-backs.
	Architectural styles, detailing and built form features	Late 19th Century single fronted cottages, semi-detached and row dwellings.  Modest double fronted detached cottages and villas. Few Interwar dwellings.  Forms, scale and detailing reflective of the era.  Hip and gable roof forms with pitches above 25 degrees.
	Building height	Single storey.
	Materials	Wall materials consistent with era of original construction including bluestone, freestone, sandstone and brickwork.  Pitched roofs in galvanised iron sheet.  Retention of original materials and finishes and unpainted masonry.
	Fencing	Typical of the era of historic development.  Low and/or open fencing forward of the main building façade. Maximum height to 1.2m.  Timber picket or dowelling.  Simple masonry and cast iron palisade, or simple wrought iron.  Corrugated iron or mini orb within timber framing.
	Setting, landscaping, streetscape and public realm features	Narrow streets.  Boundaries positioned close to street with narrow footpaths.  Street trees penetrating footpath adjacent kerb.  Pocket park.
	Representative Buildings	Identified - refer to SA planning database.

	Wootoona Terrace Historic Area Statement (Bur3)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	

Statement#	Statement	
Bur3	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Majority 1918 - 1940 Post WW1.  Few 1912 - 1914 Federation.
	Allotments, subdivision and built form patterns	Single street intersected by side streets at 90 degree.  Large site areas.  Large street frontage widths.  Generous front set-backs.  Consistent side set-backs.
	Architectural styles, detailing and built form features	A range of early 20th Century international styles including Bungalows, Tudors and early English residential architecture.  Large dwellings of generous proportions.  Forms, scale and detailing reflective of the era.  Hip and gable roof forms with pitches above 25 degrees.  Various porch and verandah styles including return verandahs, usually of generous proportions, either projecting or as a continuation of the main roof structure.
	Building height	Mix of single storey and double story. Two storeys associated with grand residences.  Upper storey elements are integrated sympathetically into the dwelling design.
	Materials	Wall materials consistent with era of original construction including bluestone, freestone, sandstone and brickwork.  Roofs in galvanised iron sheet or terracotta tiles.  Retention of original materials and finishes and unpainted masonry.
	Fencing	Typical of the era of historic development.  Low and/or open fencing forward of the main building façade. Maximum height to 1.2m.  Often including masonry pillars as entry statements constructed in stone or brick matching dwelling façade.  Heavily vegetated. Some substantial hedging.
	Setting, landscaping, streetscape and public realm features	Wide verges.  Substantial trees on public and private land.  Expansive allotments, street frontages and gardens.  Significant front landscaped gardens.
	Representative Buildings	Identified - refer to SA planning database.

<b>Beulah Park Historic Area Statement (Bur4)</b>		
The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.		
These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.		
The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.		
	Eras, themes and context	Majority 1880 - 1917 Victorian and Federation.  Few 1918 - 1940 Interwar.
	Allotments, subdivision and built form patterns	Traditional rectangular grid pattern with narrow streets.  Narrow allotments of varying widths with closely spaced small early dwellings.  Minimal front set-backs to single fronted cottages.  Larger setbacks for larger allotments, in context with prevailing historic street pattern.
	Architectural styles, detailing and built form features	Predominantly late 19th Century villas and cottages and some early 20th Century villas and bungalows.  Single fronted workers cottages, row housing and semidetached dwellings.  Modest double fronted villas, cottages and bungalows.  Forms, scale and detailing reflective of the era.  Hip and gable roof forms with pitches above 25 degrees.

Statement#	Statement	
Bur4	Building height	Single storey.
	Materials	Wall materials consistent with era of original construction including brickwork and stone. Pitched roofs in galvanised iron sheet. Some original terracotta or slate tiles. Retention of original materials and finishes and unpainted masonry.
	Fencing	Typical of the era of historic development. Low and/or open front fences. Maximum height to 1.2. Timber picket or dowelling. Simple masonry and cast iron palisade. Corrugated iron or mini orb within timber framing.
	Setting, landscaping, streetscape and public realm features	Narrow streets. Boundaries positioned close to street with narrow footpaths. Street trees penetrating footpath adjacent kerb.

**Historic Areas affecting City of Charles Sturt**

<b>Bowden / Brompton Historic Area Statement (ChSt1)</b>		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>		
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>		
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
ChSt1	Eras, themes and context	1850s to early 1900s. Victorian era with an intimate and small-scale character.
	Allotments, subdivision and built form patterns	Small, long narrow allotments.
	Architectural styles, detailing and built form features	Single storey, detached and attached, single and double fronted workers' cottages. Some parapet walling to street with visible side return. Shop and dwelling typically on street corners. Early commercial and industrial buildings. Detached and semi-detached bungalow dwellings with wide verandahs, austerity and later townhouses.
	Building height	Single storey with ceiling heights at least 3m. Industrial scale walls of up to 5m.
	Materials	Red brick and bluestone walls and piers. Render to verandah piers, banding and parapets. Corrugated steel roofing in galvanised or paint finish. OG guttering in galvanised or paint finish. Painted timber to window frames, doors and roof trim. Chimneys; brick or painted render. Typically, small span steeply pitched gable and hipped 'M' roofs facing the street with ridge perpendicular or parallel to the street. Separate verandah to higher front wall or parapet.
	Fencing	Low front fencing, typically picket fencing and low masonry walls or combination thereof.
	Setting, landscaping, streetscape and public realm features	Small setbacks from the street. Narrow streets with minimal on site car parking. Original shopfronts to street corners. Industrial buildings constructed to street frontages.
	Representative Buildings	Identified - refer to SA planning database.

<b>Ovingham Historic Area Statement (ChSt2)</b>		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>		
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>		
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
	Eras, themes and context	1850s to 1900s. 1930s to 1940s. 1970s to 1980s (SA Housing Trust).
	Allotments, subdivision and built form patterns	Small narrow lots, often on strongly sloping sites. Allotment shape and size variable and angled to suit strongly sloping sites and street pattern including Albert Turnbull Reserve.
	Architectural styles, detailing and built form features	Single storey, detached and attached, single and double fronted workers' cottages.

Statement#	Statement	
ChSt2		Bungalows and Austerity houses.  Some early SA Housing Trust stock.  Typically gable and hipped roofs facing the street, with separate verandah form.  Generous roof planes and eaves overhangs to bungalows.  Low wide bungalow style overhang verandah or gable.
	Building height	Single storey with ceiling heights at least 3m.
	Materials	Bluestone, sandstone and pressed metal/corrugated walls.  Chimneys; brick or painted render.  Red brick walls, chimneys and piers.  Render to verandah piers, chimneys and banding.  Corrugated steel roofing in galvanised or paint finish.  OG guttering in galvanised or paint finish.  Painted timber to window frames, doors and roof trim.
	Fencing	Low front fencing, typically picket fencing and low masonry walls or combination thereof.
	Setting, landscaping, streetscape and public realm features	Small to some generous variable setbacks from the street.  Some dwellings parallel with angled side boundaries.
	Representative Buildings	Identified - refer to SA planning database.
	ChSt3	<b>Brompton Park Historic Area Statement (ChSt3)</b>
The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.		
These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.		
The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.		
Eras, themes and context		1870s to 1890s.  Victorian era.
Allotments, subdivision and built form patterns		Very narrow, long allotments.
Architectural styles, detailing and built form features		Single storey, detached and attached, single and double fronted workers' cottages.  Typically, small span steeply pitched gable and hipped 'M' roofs facing the street with ridge perpendicular or parallel to the street.  Separate verandah to higher front wall or parapet.
Building height		Single storey with ceiling heights at least 3m.
Materials		Bluestone and sandstone front walls, and red brick sidewalls.  Render to verandah piers, banding and parapets.  Corrugated steel roofing in galvanised or paint finish.  OG guttering in galvanised or paint finish.  Painted timber to window frames, doors and roof trim.  Chimneys; brick or painted render.
Fencing		Low front fencing, typically picket fencing and low masonry walls or combination thereof.
Setting, landscaping, streetscape and public realm features	Small setbacks from the street.  Narrow streets with minimal on-site car parking.  Original shopfronts and hotels to street corners.  Some industrial buildings constructed to street frontages.	
Representative Buildings	Identified - refer to SA planning database.	
<b>Blight Street, Ridleyton Historic Area Statement (ChSt4)</b>		

Statement#	Statement	
ChSt4	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	<p>From 1939.</p> <p>Early SA Housing Trust.</p>
	Allotments, subdivision and built form patterns	<p>Regular rectangular allotments with generous frontage and depth, central shared boundary and small side boundary setbacks for driveways.</p>
	Architectural styles, detailing and built form features	<p>Single storey, 'early modern' style, typically semi-detached (duplex).</p> <p>Symmetrical frontage to duplex.</p> <p>Variable pattern of duplexes in street.</p> <p>Vertical proportions to windows.</p> <p>Hipped and gabled roofs, with porch a continuation of main roof or separate and awnings over front door and windows.</p> <p>Some projecting hipped roofs.</p> <p>Shallow roof pitch of 20 degrees maximum.</p>
	Building height	<p>Single storey with ceiling heights around 2.7m - 3m.</p>
	Materials	<p>Red brick, protruding courses, painted and rendered sections, generally ay high level to walls.</p> <p>Corrugated steel and tiled roofing.</p> <p>Porches either corrugated steel or curved flat concrete canopies.</p> <p>Timber framed sunshade awnings with corrugated iron sheet roof.</p> <p>Red brick chimneys.</p> <p>Painted timber framed window frames, doors and roof trim.</p>
	Fencing	<p>Low open cyclone wire fencing or low tubular steel fencing.</p>
	Setting, landscaping, streetscape and public realm features	<p>Medium to large front setbacks.</p> <p>Generous setting to each side of duplex.</p>
	Representative Buildings	<p>Identified - refer to SA planning database.</p>
ChSt5	<p><b>Bell Street, Pennington Historic Area Statement (ChSt5)</b></p>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	<p>From 1938.</p> <p>Early SA Housing Trust.</p>
	Allotments, subdivision and built form patterns	<p>Layout reflects 'Garden Suburb' design concept, generally with shared central boundary and side boundary setbacks for driveways.</p> <p>Strong urban focal points in Sinclair Square and Tulloch Avenue.</p> <p>Regular rectangular allotments with generous frontage and depth central shared boundary and side boundary setbacks for driveways.</p>
Architectural styles, detailing and built form features	<p>Austere, with late modern style, typically semi-detached (duplex).</p> <p>Symmetrical frontage to duplex.</p> <p>Variable pattern of duplexes in street.</p> <p>Vertical proportions to windows.</p> <p>Hipped and gable roof forms with porches continuous to main roof and separate awnings over windows.</p> <p>Some projecting hipped roofs.</p> <p>Shallow roof pitch of 20 degrees maximum.</p>	

Statement#	Statement	
	Building height	Single storey with ceiling heights around 2.7m - 3m.
	Materials	Red brick walls with protruding courses, painted and rendered sections, generally at high level to walls.  Corrugated steel roofing and terracotta tile roofing (Bell Street).  Porches either corrugated steel or curved flat concrete canopies.  Timber framed sunshade awnings with corrugated iron sheet roof.  Red brick chimneys.  Painted timber framed window frames, doors and roof trim.
	Fencing	Low open cyclone wire fencing or low tubular steel fencing.
	Setting, landscaping, streetscape and public realm features	Medium to large front setbacks.  Generous setting to each side of duplex.
	Representative Buildings	Identified - refer to SA planning database.
ChSt6	<b>Croydon / West Croydon (North east of the railway line) Historic Area Statement (ChSt6)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.  These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.  The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1890s - 1910s.  1910s - 1940s (west of Brown Street, north of Herbert Road).
	Allotments, subdivision and built form patterns	Very regular, consistent and long, rectangular allotments, with generous widths.  Some combined shops and dwelling buildings to Rosetta and Elizabeth Street.  Generous allotments facing Railway line.
	Architectural styles, detailing and built form features	Detached dwellings on generous allotments.  Edwardian to early Federation.  Post-Edwardian villas along Day Terrace.  Early bungalow styles, including some Queen Anne, Tudor and Art Deco styles in latter period areas.  A number of more substantial buildings, particularly fronting the railway line.  Combined shop/dwellings and rows of shops (Elizabeth Street, Rosetta Street).  Hipped, gable and Dutch-gable (gambrel) roofs, 'M' roofs with ridge parallel to street and separate verandahs.  Some verandahs continuous with main roof line.  Typical bungalow verandahs as low height gable frontage.  Generous roof planes and eaves overhangs to bungalows.
	Building height	Single storey with generous ceiling and external wall heights of at least 3m.
Materials	Bluestone, sandstone and redbrick, quoins and window surrounds.  Red brick and rendered chimneys.  Bungalows have rendered or brick piers and low walling to verandahs with some tapered piers.  Corrugated steel and terracotta (latter period) roofing.  Painted timber window frames, doors and roof trim.  Vertical proportioned timber windows with double sliding sashes.  Some elaborate decorative elements including painted timber fretwork, cast iron lacework to verandahs, finials, cover battens to gables and decorative barges.	
Fencing	Woven wire fences with painted timber posts.  Painted timber picket fencing reflecting era of associated dwelling.  Low masonry fencing with simple masonry piers, sometimes with simple iron and steel infill panels (from hume iron to tubular steel variations).	

Statement#	Statement	
	Setting, landscaping, streetscape and public realm features	Medium to large front setbacks, typically set in mature gardens  Typically tree lined streets particularly Day Terrace with railway line in treed setting.  Generous side setbacks.
	Representative Buildings	Identified - refer to SA planning database.

Statement#	Statement	
ChSt7	<p><b>Croydon / West Croydon (South west of the railway line) Historic Area Statement (ChSt7)</b></p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1890s - 1910s.  1940's bungalow style.
	Allotments, subdivision and built form patterns	Very regular and consistent rectangular allotments, with large widths.
	Architectural styles, detailing and built form features	Villas and symmetrical cottages, with some later, intrusive infill.  Some worker's cottages of earlier periods.  Some bungalow style.  Hipped and gable roofs, and separate verandahs.
	Building height	Single storey with ceiling heights at least 3m.
	Materials	Bluestone, sandstone and redbrick.  Corrugated steel roofing.  Ornate render surrounds to window.  Red brick and rendered chimneys.  Bungalows have rendered or brick piers and low walling to verandahs with some tapered piers.  Corrugated steel and terracotta (latter period) roofing.  Painted timber window frames, doors and roof trim.  Vertical proportioned timber windows with double sliding sashes.  Some ornate decorative elements including painted timber fretwork, cast iron lacework to verandahs, finials, cover battens to gables and decorative barges.
	Fencing	Low masonry and original cast-iron and hume metal fencing.  Woven wire fences with painted timber posts.  Painted timber picket fencing reflecting era of associated dwelling.
	Setting, landscaping, streetscape and public realm features	Medium front setbacks.  Plane Trees to Euston Terrace.
	Representative Buildings	Identified - refer to SA planning database.

Statement#	Statement	
	<p><b>Allenby Gardens Historic Area Statement (ChSt8)</b></p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1920s - 1930s.
	Allotments, subdivision and built form patterns	Very regular and consistent rectangular allotments, with large widths.  Some angular allotments due to street pattern and subdivision layout between main roads abounding area.
	Architectural styles, detailing and built form features	Late Edwardian, Federation and bungalow styles.  Smaller number of Queen Anne and Tudor style houses.

Statement#	Statement	
ChSt8		Mainly detached housing. Hipped, gable and Dutch gable roofs with decorative gable panelling and timber trim. Ridge lines that are mainly perpendicular or parallel to street frontage. Federation verandahs continuous with main roof. Some projecting gable forms to street. Low height bungalow style gables.
	Building height	Single storey with ceiling heights at least 3m.
	Materials	Terracotta tiles and corrugated steel roofing. Red brick and sandstone walls; some render. Red brick and render chimney.
	Fencing	Typically, low masonry fencing, sometimes with steel inserts. Woven wire fences with painted timber posts. Painted timber picket fencing reflecting era of associated dwelling.
	Setting, landscaping, streetscape and public realm features	Cohesive pattern of established detached dwellings with garden settings Medium front setbacks. Tree lined streets. Coombe Road is the natural focus of the area, and includes a school complex of a similar period to surrounding housing.
	Representative Buildings	Identified - refer to SA planning database.

<p><b>Pre-World War One Pennington West Historic Area Statement (ChSt9)</b></p>		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>		
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>		
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Eras, themes and context	1900s to 1920s, some 1940s/50s eastern side. Edwardian/Federation/early Bungalow.	
Allotments, subdivision and built form patterns	Uniform allotment size and street layout. Typically large frontages with deep allotments.	
Architectural styles, detailing and built form features	Edwardian, Federation and early bungalows. Predominantly detached. Typical symmetrical frontage with return verandahs on corner allotments. Vertical proportion windows to earlier housing with typical wider and lower bungalow proportion windows. Steeply pitched Hipped, gable and Dutch gable (gambrel). Some 'M' Roof with ridge parallel to street. Some verandahs continuous with main roof. Some detached verandahs with typically bullnose profile. Generous simple roof planes to bungalow style with less steep roof. Low height wide bungalow verandahs.	
Building height	Single storey with ceiling heights and external walls to at least 3.5m.	
Materials	Red brick, sandstone and render walling. Render or brick chimneys. Some pressed metal wall cladding on the fronts. Some corrugated iron or small fluted iron cladding on the side walls. Terracotta tile and corrugated iron roofing and verandahs. Painted timber window frames, doors and roof trim. Ornate cast iron to verandahs. Turned painted timber verandah posts.	

Statement#	Statement	
	Fencing	Typically, low masonry, timber picket or wire mesh with timber post fencing.  Woven wire fences with painted timber posts.  Painted timber picket fencing reflecting era of associated dwelling.  Low small fluted metal fencing with painted timber trim.
	Setting, landscaping, streetscape and public realm features	Medium to large front setbacks.  Helen Street with Mt Carmel School as strong focal point.
	Representative Buildings	Identified - refer to SA planning database.

ChSt10	<b>Pre-World War One West Hindmarsh Historic Area Statement (ChSt10)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1890s to 1910s.  1930 to 1940.
	Allotments, subdivision and built form patterns	Uniform allotment size and street layout. Typically large frontages.  Some narrow allotments (Albermarle Street).
	Architectural styles, detailing and built form features	Symmetrical cottages and villas.  Some single front cottages.  Edwardian, Federation and early bungalow periods.  Predominantly detached.  Hipped, gable, 'M' and louvre (gambrel) roofs.  Separate verandah of monopitch, concave and bullnose form.  Bungalow style verandah with generous width and low pitching height, with masonry piers and low wall.  Some original central verandah gable at entrance to symmetrical frontage.  Roof pitches vary from bungalow pitch of 20-25 degrees to steeper Edwardian pitch of up to 35 degrees.
	Building height	Single storey with ceiling and external wall heights at least 3m - 3.5m.
	Materials	Bluestone, sandstone and red brick walls with chimneys typical of era.  Rendered quoins and ornate surrounds to openings.  Corrugated iron roofs with verandahs.  Ornate painted timber to verandahs including fretwork and turned posts  Ornate cast iron lacework to verandahs.  Vertically proportioned windows with painted timber double-sash windows.  Square bungalow proportioned three vertical windows in painted timber.
	Fencing	Typically, low masonry sometimes with steel inserts, timber picket or wire mesh with timber post fencing.
	Setting, landscaping, streetscape and public realm features	Broad and some narrow tree-lined streets. Medium to large front setbacks. Historic setting of Glanton Street defined by former church Local Heritage Place as focal point.
	Representative Buildings	Identified - refer to SA planning database.

	<b>Welland Historic Area Statement (ChSt11)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1910s to 1940s.

Statement#	Statement	
ChSt11	Allotments, subdivision and built form patterns	<p>Very regular and consistent rectangular allotments, typically very wide.</p> <p>Narrow deep allotments to Frederick Street.</p>
	Architectural styles, detailing and built form features	<p>Late-Edwardian and Federation housing styles.</p> <p>Predominantly detached with some early semi-detached housing, some designed to look like one dwelling (Frederick Street).</p> <p>Early bungalows and 1940s Austerity houses.</p> <p>Some bungalow makeovers to earlier symmetrical dwellings.</p> <p>Hipped, gable and louvre roofs.</p> <p>Separate bull nose verandah typically to earlier dwellings.</p> <p>'M' roof forms with ridge parallel to street frontage.</p> <p>Generous simple bungalow roof planes at shallower pitch to earlier housing with lower height generous width verandah.</p> <p>Some verandahs continuous with main roof.</p>
	Building height	Single storey with ceiling and external wall heights at least 3m - 3.5m.
	Materials	<p>Red brick, bluestone and sandstone walls.</p> <p>Terracotta tiles, corrugated iron and decorative timber trim roofs.</p> <p>Painted metal gutters.</p> <p>Wall vents at high level between top of verandah and underside of gutter</p> <p>Red brick or render finish chimneys.</p> <p>Flat Cantilever concrete canopy sunshades with steel suspension.</p> <p>Ornate cast iron to some verandahs.</p> <p>Ornate decorative painted timber to some verandahs.</p> <p>Painted timber to window and door frames and timber roof trim.</p>
	Fencing	Typically, low masonry sometimes with steel inserts, timber picket or wire mesh with timber post fencing.
	Setting, landscaping, streetscape and public realm features	<p>Tree-lined streets.</p> <p>Large front setbacks.</p>
	Representative Buildings	Identified - refer to SA planning database.

<b>Woodville South Historic Area Statement (ChSt12)</b>	
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context	1910s to 1940s.
Allotments, subdivision and built form patterns	<p>Substantial allotments with uniformity of layout and buildings, particularly in the 'Glen' Streets and Angus Street.</p> <p>Predominantly large frontages.</p>
Architectural styles, detailing and built form features	<p>Predominantly bungalows with one wide verandah and Tudors with two main gables and central porch.</p> <p>Some Spanish Mission, Dutch Gable and Art Deco houses.</p> <p>Predominantly detached.</p> <p>Steep pitched gables associated with Tudor housing and Dutch Gables.</p> <p>Some villa/bungalow hybrid gables.</p> <p>Gable porches.</p> <p>Bungalow style verandahs with low height pitching point.</p> <p>Some verandah roofs continuous with main roof (bungalow and Spanish Mission).</p> <p>Some flat roofed verandahs set behind arched parapet verandah (Spanish Mission).</p>

Statement#	Statement
	Tall chimneys.
Building height	Single storey with ceiling heights at least 3m. Bungalow and Spanish Mission typically of lower wall appearance to the street, with broad frontage.
Materials	Freestone, red brick, stucco and baked or glazed brick. Exposed ornate timber work. Terracotta tiles and some galvanised corrugated iron roofs. Tapered and straight masonry piers and low walls to verandahs of bungalows, some with rendered capping to brickwork or rendered masonry. Painted timber battens (Tudor curved) to painted panel gables of Tudor and Bungalow. Painted timber framed window frames, door frames and roof trim.
Fencing	Fencing generally low brick, stucco or wire and mostly integral with the design of the house. Some painted timber fencing with pickets or woven wire.
Setting, landscaping, streetscape and public realm features	Tree lined streets, well maintained gardens, abundant with mature vegetation. Main-focus the landscaped Woodville Oval complex. Buildings fronting Woodville Oval on Oval Avenue and Cedar Avenue are of a larger scale with wider allotments, particularly on corner allotments with 'Glen' Streets.
Representative Buildings	Identified - refer to SA planning database.

Statement#	Statement	
		Painted timber posts and fascia elements.
Fencing		Built form typically to the street with verandahs over public realm.  Some rendered masonry fencing with cast iron infill.
Setting, landscaping, streetscape and public realm features		Historic heart of the Hindmarsh Village and the principal area for a range of retail, business, ecclesiastic and office uses.
Representative Buildings		Identified - refer to SA planning database.
ChSt22	<b>Henley Square Historic Area Statement (ChSt22)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1840s to 1920s.
	Allotments, subdivision and built form patterns	Traditional patterns of development incorporating verandahs, balconies and parapets clustered around Henley Square.
	Architectural styles, detailing and built form features	Substantial two-storey buildings with wide balconies and verandahs, some over footpaths.  Traditional single storey buildings with verandahs over footpaths.  Modern development including large expansive verandahs on the square.  Decorative parapets to the street and Henley Square facades.  Steeply pitched hipped and gable roof forms, with attached balconies and verandahs across frontage.  Skillion and curved (bull nose) verandah roof forms.
	Building height	Single and double storey buildings with ceiling heights at least 4.5m per floor giving an imposing character.
	Materials	Bluestone, sandstone, red brick walls and rendered walls.  Some corrugated iron walling.  Use of brick and rendered quoins, brick banding and other traditional decoration.  Imposing masonry pediments and gables with brick banding.  Corrugated steel roofing.  Decorative cast iron and painted timber verandahs and balconies.
	Fencing	Some low masonry walling.  Typically, open shop fronts with verandahs over public realm.
Setting, landscaping, streetscape and public realm features	Historic heart of Henley Beach and the principal area for a range of retail, business and entertainment uses.	
Representative Buildings	Identified - refer to SA planning database.	
	<b>Eighth Street, Bowden Historic Area Statement (ChSt23)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.		
Eras, themes and context	1860s - 1890s.	
Allotments, subdivision and built form patterns	Intimate scaled narrow fronted and regular rectangular allotment containing three pairs of semi-detached dwellings and one detached dwelling.	

Statement#	Statement	
ChSt23	Architectural styles, detailing and built form features	Single storey semi-detached dwellings and detached dwelling. Gable facing the street defining each semi-detached dwelling. Steeply pitched gable roofs facing the street. Skillion verandah roof forms or variable pitch.
	Building height	Single storey with ceiling heights around 3m. High solid to void ratio and vertically proportioned openings.
	Materials	Rendered masonry walls with attached front verandahs. Brick capping to parapets with some decoration. Corrugated steel roofing.
	Fencing	Traditional and some non-original low rendered masonry and timber picket fencing with occasional tubular-steel.
	Setting, landscaping, streetscape and public realm features	Small front wall setbacks with verandah forward of front wall.
	Representative Buildings	Identified - refer to SA planning database.

CGV1	<b>Auburn Historic Area Statement (CGV1)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.  These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.  The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Town centre as the original village of Auburn. Buildings constructed in the 19 <sup>th</sup> century.
	Allotments, subdivision and built form patterns	Original land division pattern, street layout and setback patterns.
	Architectural styles, detailing and built form features	Verandahs.
	Building height	1-2 storeys, with 2 storey buildings generally for retail and civic uses.
	Materials	[Not stated]
	Fencing	Front fences and gates of timber pickets, pier and plinth masonry, wrought iron, brush or masonry not exceeding 1.2m.
	Setting, landscaping, streetscape and public realm features	Wide streets and established trees contribute to a village setting.
Representative Buildings	Identified – refer to SA planning database.

Statement#	Statement																	
	Materials	Stone and limestone walling with red brick quoins. Some bluestone. Corrugated iron roof sheeting to verandahs and roofs. Red brick or render chimneys. Ornate brick detailing to gables and gable vents. Cast iron lacework to verandahs; typically simple timber details. Painted timber window frames, doors, roof trim and modest decorative treatments such as finials.																
	Fencing	Low masonry walling. Low open style fencing which includes masonry pier and plinth fence with decorative open sections of up to 1.2 metres in total height. Painted timber picket fencing. Some woven wire fencing with painted timber posts.																
	Setting, landscaping, streetscape and public realm features	Detached dwellings on generous wide and deep allotments. Generous front and side setbacks. Some early cottages with very substantial setbacks. The strong visual axis to the Railway Station buildings provided by Nineteenth Street. Boulevard style and character of Nineteenth Street derived from buildings positioned close to and square to the road frontage and designed to directly address the street. Corner sites where the grid is interrupted accommodating prominent buildings whose built form and side elevations are of equal importance to the façade. Established gardens with substantial front and side setbacks. Wide tree lined streets particularly Eighteenth Street, which incorporates gravel verges and remnant bluestone/slate kerbing to define bitumen. Night Cart lanes alignment and widths.

Statement#	Statement	
Ga4	Architectural styles, detailing and built form features	Several wide shop and row shop frontages with front verandahs over footpath. Small scale shops with parapet walling above shopfront and separate verandahs, either over footpath or close to street frontage. Large dwellings with small to generous setbacks from street frontage, with separate concave, simple monopitch and bull nose verandahs. Early symmetrical cottages, generally elevated from the street frontage with minimal to generous setbacks, parapet end walls and small span simple gable roof forms with parapet ends. Traditional stone outbuildings and remnant walling at the rear or side of sites. Variety of roof forms ranging from simple small span gable through to longer span hipped gambrel and 'M' Roofs with some villa styles. Separate verandah forms with bull nose, simple pitch and concave.
	Building height	Single storey typically apart from the Willaston Hotel. Wall heights generally up to 3.5 to 4m on elevated sites.
	Materials	Stone external walls with brick quoins and some ornate render detail. Painted timber supports to verandahs with modest decorated timber treatments. Stone, brick and render chimneys.
	Fencing	Low to medium height masonry walling some of which are retaining walls. Some open timber picket or rural style fencing.
	Setting, landscaping, streetscape and public realm features	Definition of the main street achieved through stone walling to front boundaries, verandahs close to and over front boundaries, and shop fronts. Buildings and allotments typically orthogonal to main street. Strong sense of arrival in defined separate village from Gawler achieved through rising land, road junctions, river and bridge.
	Representative Buildings	Identified - refer to SA planning database.
Ga5	<b>Redbanks Road, Willaston Historic Area Statement (Ga5)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1850 to 1940. Residential.
	Allotments, subdivision and built form patterns	Redbanks Road is on rising ground to the north west. Large allotments with greater width mainly to the lower side and narrower allotments to the high side. Allotment shapes and dwelling placement suit rising ground. Allotments are generally orthogonal to Redbanks Road resulting in a unique north west orientation for allotments.
	Architectural styles, detailing and built form features	<p>Victorian and turn-of-the-century villas and double fronted cottages with some small and substantial bungalow style.</p> <p>Typically larger span (front 4 rooms) hipped roof with gambrel.</p> <p>Some simple gable roof forms and 'M' roofs with ridge parallel to the street. Variety of separate verandahs including bullnose, double curve, concave and straight mono pitch. Roof pitch typically steep (27 to 35 degrees) with some shallower bungalow style roofs.</p>
	Building height	Single storey with wall heights in the order of 3.6m. Roof pitches in the order of 27 degrees to 35 degrees.
	Materials	Sandstone and limestone external walls of modest detail Corrugated iron roof sheeting. Painted timber window frames and doors, verandah posts and roof trim with modest embellishment. Red brick or rendered masonry chimneys.
	Fencing	Low stone walls and other open style fencing which includes woven wire with timber posts, picket and masonry pier and plinth fence with decorative open sections of up to 1.2 metres in total height. Stone walls and retaining walls due to rising ground.
	Setting, landscaping, streetscape and public realm features	Redbanks Road defined by walling and fending to street boundary with substantial gardens and street trees on the low (southern) side. Dwellings typically set back substantially from street frontage with generous spaces between Princess Park provides angled open space at angled junction of Redbanks Road with Princess Street. Slate kerbs.

Ga6	<b>Special Uses Historic Area Statement (Ga6)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1850 to 1910.
	Allotments, subdivision and built form patterns	Open space surrounded by grid layout adapted to the topography of the rising ground and confluence of rivers and railway line.
Architectural styles, detailing and built form features	<p>Some historic structures such as Gasworks, monuments, railway, showgrounds and bridges. Some more recent structures including recreation centre and smaller clubroom buildings associated with courts and pool.</p> <p>Gasworks has distinctive curved roof.</p>	

Statement#	Statement	
	Building height	Approximately 6 metres for larger structures.
	Materials	Sandstone and limestone external walls of modest detail. Corrugated iron roof sheeting. Bridge of steel and cast iron.
	Fencing	Typically no fencing or open fencing. Some solid metal fencing to Railway line at Showgrounds.
	Setting, landscaping, streetscape and public realm features	The topography and natural features of the locality including the path of the North and South Para Rivers. Public squares around the churches; terraces and parklands bordering the rivers.
	Representative Buildings	Identified - refer to SA planning database.

Town Centre Gawler South Historic Area Statement (Ga7)		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Eras, themes and context	1860 to 1910. Important residential area at change in direction of Adelaide Road from north to north east, interspersed with smaller shops that herald the southern entrance to Gawler with historic monument, park and church and former hall to each sides and former Council offices at Twelfth Street. Recent developments include the change of use for commercial or consulting purpose typically without alteration to the residential character.	
Allotments, subdivision and built form patterns	Wide and deep allotments orthogonal to Adelaide Road. Rear lane to south east side parallel to Adelaide Road typically used to access rear car parking areas.	
Architectural styles, detailing and built form features	Victorian and turn-of-the-century detached and semi-detached villas and double fronted cottages. Some semi-detached dwellings and detached villas incorporate distinctive ornate render and brick detailing to gables and verandahs. Other semi-detached dwellings, cottages and detached vials incorporate modest detailing. Few intrusive modern infill buildings. Semi-detached residential buildings with short span hipped or gable roof forms and rear lean-to roofs; ridge typically parallel to Adelaide Road with many projecting gables as paired bookends to each building. Larger span (front 4 rooms) hipped roof with gambrel or 'M' roof with ridge parallel to the street. Variety of separate verandahs including bullnose, double curve, concave and straight mono pitch. Roof pitch typically steep (27 to 35 degrees).	
Building height	Single storey with wall heights in the order of 3.5-4.0 metres.	
Materials	Sandstone and bluestone external walls. Red brick quoins, parapets, vents and parapets. Some decorative render. Painted timber window frames and doors. Chimneys in brick or render.	
Fencing	Low stone or rendered masonry walling. Open style fencing with masonry pier and plinth fence with decorative open sections of up to 1.2 metres in total height.	
Setting, landscaping, streetscape and public realm features	Generous front garden settings set behind low masonry walling with substantial trees and wide tree-lined streets. Slate kerbs. Car parking is generally to the rear.	
Representative Buildings	Identified - refer to SA planning database.	

Town Centre Light Historic Area Statement (Ga8)		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. Eras, themes and context	Planning undertaken by Light, Finnis and Co in 1839. Historic civic and commercial heart of Gawler.	
Allotments, subdivision and built form patterns	Long relatively narrow allotments that span between Murray Street and High Street to the east and Julian Terrace to the west (south of Walker Place). Intersection with streets, squares and other elements which comprise the original 1839 grid layout of Light, Finnis and Co. Linear form that is positioned on a strong north/south axis with rising ground from south to the north. Area defined by the angled Adelaide Road entrance and junction with Murray Street, Gawler Mill and bridge on the south and angled road junctions with Lyndoch Road and Cowan Street to the north, the eastern escarpment and the river (Julian Terrace and avenue of Moreton Bay Figs). Area includes Gawler Central Railway Station precinct on the north side and Murray Street south of Bridge Street towards Dead Man's Pass. Pioneer Park and McKinlay's Monument mark the Cowan Street junction.	
Architectural styles, detailing and built form features	<p>Substantial and ornate single and double storey buildings that demonstrate the importance of Gawler in the development of South Australia including civic and bank buildings, former church, hotels, former industrial buildings, terraces of shops, ground floor shop fronts and residential use above. Buildings constructed to the Murray Street frontage, some with generous verandahs and/or balconies to first floor over the footpath. Mostly narrow shopfronts contrasted by Essex House that demonstrates a rare consolidated wider shopfront to a single storey parapeted shop front.</p> <p>Hipped and gable roof forms, some with gambrel typically set behind parapet with some exceptions which feature eaves with ornate corbel supports. Ridges generally run perpendicular to main street with some exceptions.</p>	

Statement#	Statement	
	Building Height	Two storey up to 8-10 metres.
	Materials	External walls of bluestone, sandstone or render with brick or rendered parapets. Painted timber or cast iron verandah supports. Painted timber shopfronts and window frames. Brick and render or stone chimneys. Corrugated iron roofing and some terracotta tile.
	Fencing	Some low front walling to former Baptist Church. Masonry walls with cast iron to bank buildings and Rudall and Rudall. Cast iron to ANZ bank building.
	Setting, landscaping, streetscape and public realm features	Buildings generally constructed to street frontage with verandahs over footpath. Some exceptions include former Baptist Church and bank buildings set behind front walling. The topography and natural features of the locality including the rising ground at Church Hill and Gawler East (which flank either side of the Town Centre) and the form of the North and South Para Rivers and their confluence.  The public squares around the churches and the terraces and parklands bordering the rivers.  Views of the Gawler East escarpment from Bridge Street South.
	Representative Buildings	Identified - refer to SA planning database.

Willaston Historic Area Statement (Ga9)		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Ga9	Eras, themes and context	1848 to 1900. Residential with some former ecclesiastical use and form.
	Allotments, subdivision and built form patterns	Generous allotments typically orthogonal to the street with distinctive variation due to the number of angled intersecting streets. Recent residential infill development.
	Architectural styles, detailing and built form features	Detached villas and double fronted cottages with rare semi-detached. Roof pitches in the order of 27 degrees to 35 degrees. Simple gable roof with parapet ends to semi-detached; 'M' Roof and hipped roof with gambrel.
	Building Height	Single storey with wall heights in the order of 3 to 3.6 metres.
	Fencing	Low open style painted timber picket and wire fencing. Stone walls to lower land.
	Materials	Typically sandstone, limestone with brick trim and modest decoration. Painted timber window frames and doors verandah posts and roof trim. Brick, render or stone chimneys.
	Setting, landscaping, streetscape and public realm features	Landscaped setting derived from wide streets at a variety of angled intersections, substantial trees and expansive allotments. Slate kerbs.
	Representative Buildings	Identified - refer to SA planning database.

Glenelg Village Historic Area Statement (HoB1)		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Glenelg Village Historic Area Statement (HoB1)	Eras, themes and context	1840s-1860s.  1870s - 1900s.  1910s - 1930s.  Subdivision in 1839.  Growth period in 1920s associated with increase in holidaymaking and leisure pursuits.
	Allotments, subdivision and built form patterns	Orderly street layout, centred around the St Peters Anglican Church in Torrens Square.  Grid pattern of large allotments.  Subject to further land division over time but legibility of original pattern remains.  Consistent small front setbacks.

Statement#	Statement	
HoB1		Small side setbacks.
	Architectural styles, detailing and built form features	<p>Early symmetrical and asymmetrical cottages of low scale and simple form with restrained detailing.</p> <p>Mid-Victorian Period cottages and villas (symmetrical and asymmetrical), semi-detached cottages and row dwellings with detailing typical of the era including verandahs, cast iron lacework, hipped and gable roof forms, plaster and render mouldings.</p> <p>Inter-War buildings, mostly Bungalows.</p> <p>Low scale to medium, relatively small dimensions and basic building details.</p> <p>Many dwellings without vehicle garaging.</p> <p>Garages, carports and outbuildings, where they exist, are low in scale and simple in form. They are located unobtrusively, to the rear of dwellings or the principal building on the site or, alternatively to the side and well-setback from the front façade.</p> <p>Rectilinear plan forms.</p> <p>High degree of modulation and articulation.</p> <p>Low scale.</p> <p>Steep roof pitches in the order of 30 to 40 degrees (slightly lower on Inter-War buildings).</p> <p>Short roof spans.</p> <p>Hip and gable roof forms.</p> <p>Concave, bullnose and straight-pitched verandahs.</p> <p>Fine-grain detail in elements such as plinths, string courses, projecting sills.</p> <p>High solid to void ratio.</p> <p>Vertical proportions in windows and doors.</p>
	Building height	Predominantly single storey but some two storey.
	Materials	<p>Consistent with the materials used in the 1840s to 1930s period.</p> <p>Bluestone, sandstone, walls (unpainted).</p> <p>Some brick.</p> <p>Brick or rendered quoin work and plinths.</p> <p>Corrugated iron roofing.</p> <p>Timber joinery including verandah posts and framing, fascia, barges, window frames, door frames and doors.</p>
	Fencing	<p>Fencing associated with the era and style of the building, and providing views to the building.</p> <p>Timber picket, timber dowel, timber paling.</p> <p>Hedging.</p> <p>Low masonry plinth with cast iron or wrought iron in a traditional arrangement.</p> <p>Woven wire or low masonry with or without geometric steel for Inter-war buildings.</p>
	Setting, landscaping, streetscape and public realm features	<p>Well established streetscape character, with clearly defined setbacks and uniform front landscaping.</p> <p>Substantial Norfolk Island Pines along Augusta Street and Fig trees at Torrens Square.</p> <p>Vistas toward St Peters Anglican Church from Augusta and Nile Streets.</p>
	Representative Buildings	Identified - refer to SA planning database.
<p><b>Maturin Road Historic Area Statement (HoB2)</b></p>		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>		
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>		
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Eras, themes and context	1920s or 30s.	
Allotments, subdivision and built form patterns	<p>Original subdivision of The Olives and Bromley.</p> <p>Allotments on southwest end were subdivided in 1886 and 1912.</p> <p>Mixed allotment sizes with large frontages.</p>	

Statement#	Statement
HoB2	<p>Substantial building setbacks.</p> <p>Large front setbacks.</p> <p>Side setbacks provide visual spacing between dwellings.</p>
	<p>Architectural styles, detailing and built form features</p> <p>Typical 1890s to early 20th Century dwellings.</p> <p>Victorian dwellings.</p> <p>Inter-War dwelling styles including Bungalow, Tudor, Art Deco and Mediterranean.</p> <p>Rectilinear plan forms.</p> <p>High degree of modulation and articulation.</p> <p>Low scale.</p> <p>Steep roof pitches in the order of 30 to 40 degrees (slightly lower on Inter-War buildings).</p> <p>Short roof spans.</p> <p>Hip and gable roof forms.</p> <p>Deep verandahs and porches.</p> <p>Fine-grain detail in elements such as plinths, string courses, projecting sills.</p> <p>High solid to void ratio.</p> <p>Vertical proportions in windows and doors.</p> <p>Garages, carports and outbuildings, where they exist, are low in scale and simple in form. They are located unobtrusively, to the rear of dwellings or the principal building on the site or, alternatively to the side and well-setback from the front façade.</p>
	<p>Building height</p> <p>Single storey and two storey (some in-roof or partly in-roof).</p>
	<p>Materials</p> <p>Consistent with the materials used in the 1880s to 1930s period.</p> <p>Sandstone, red brick, rendered facades.</p> <p>Corrugated iron and terracotta tiled roofing.</p> <p>Timber joinery including verandah posts and framing, fascia, barges, window frames, door frames and doors.</p> <p>Timber strapping on Inter-War dwelling gables.</p>
	<p>Fencing</p> <p>Fencing associated with the era and style of the building, and providing views to the building.</p> <p>Timber picket, timber dowel, timber paling.</p> <p>Hedging.</p> <p>Low masonry plinth with cast iron or wrought iron in a traditional arrangement.</p> <p>Woven wire or low masonry with or without geometric steel for Inter-war buildings.</p>
	<p>Setting, landscaping, streetscape and public realm features</p> <p>Narrow street.</p> <p>Well-established garden settings.</p> <p>Lack of street planting due to the narrow width of Maturin Road.</p> <p>The Olives is a significant State Heritage Place on Olive Street.</p>
	<p>Representative Buildings</p> <p>Identified - refer to SA planning database.</p>

<p><b>Da Costa Park Historic Area Statement (HoB3)</b></p>	
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
<p>Eras, themes and context</p>	<p>1923 subdivision.</p> <p>1920s - 1930s dwellings.</p>
<p>Allotments, subdivision and built form patterns</p>	<p>Subdivision is indicative of 1920s town planning with angled, diagonal streets centred radially around a central park or reserve.</p> <p>Garden city theory in practice.</p> <p>The pattern of the subdivision and the arrangement and size of individual allotments remains largely unaltered.</p>

Statement#	Statement
HoB3	<p>Large allotments with large frontages.</p> <p>Consistent, large front setbacks.</p> <p>Side setbacks provide visual spacing between dwellings.</p>
	<p>Architectural styles, detailing and built form features</p> <p>Inter-War style dwellings including Tudor Revival, Californian bungalow, Art Deco, and some Spanish mission.</p> <p>Rectilinear plan forms.</p> <p>High degree of modulation and articulation.</p> <p>Low scale.</p> <p>Steep roof pitches in the order of 25 to 35 degrees.</p> <p>Short roof spans.</p> <p>Hip and gable roof forms.</p> <p>Deep verandahs and porches.</p> <p>Fine-grain detail in elements such as plinths, string courses, projecting sills.</p> <p>High solid to void ratio.</p> <p>Vertical proportions in windows and doors.</p> <p>Garages, carports and outbuildings, where they exist, are low in scale and simple in form. They are located unobtrusively, to the rear of dwellings or the principal building on the site or, alternatively to the side and well-setback from the front façade.</p>
	<p>Building height</p> <p>Single storey.</p>
	<p>Materials</p> <p>Consistent with the materials used in the 1920s to 1930s period.</p> <p>Terracotta tiled and corrugated iron roofing.</p> <p>Brick, sandstone, and stucco and part-rendered finishes.</p> <p>Roofing, facades and fenestration in natural red brick and terracotta colouration.</p> <p>Timber joinery including fascia, barges, window frames, door frames and doors.</p> <p>Timber strapping on Inter-War dwelling gables.</p>
	<p>Fencing</p> <p>Fencing associated with the era and style of the building, and providing views to the building.</p> <p>Woven wire.</p> <p>Low masonry with geometric steel.</p> <p>Low masonry (stepped).</p> <p>Low masonry fencing (often stepped).</p> <p>Low Rock face sandstone.</p> <p>Hedging.</p>
	<p>Setting, landscaping, streetscape and public realm features</p> <p>Centred around Da Costa Park, with its triangular landscaped area and mature trees.</p> <p>Relatively wide streets.</p>
	<p>Representative Buildings</p> <p>Identified - refer to SA planning database.</p>

<p><b>New Glenelg Historic Area Statement (HoB4)</b></p>	
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
<p>Eras, themes and context</p>	<p>Subdivided in 1850.</p> <p>Buildings 1860s - 1900s and 1920s - 1930s.</p> <p>Most intense development occurred in 1870s and 1880s.</p> <p>Further development in 1920s - 1930s (Interwar period).</p>
<p>Allotments, subdivision and built form patterns</p>	<p>Varying allotment sizes and street width. Larger allotment sizes in some areas to the west along Broadway, Robert Street and South Esplanade. Smaller allotment sizes are predominant throughout the Bath Street area, and between Hastings and Moseley Streets.</p> <p>Uniform, large allotment sizes and large frontages along Penzance and Partridge Streets. Front setbacks vary from street to street.</p>

Statement#	Statement	
HoB4		across the area. Front setbacks are however consistent along individual streetscapes. Side setbacks provide visual spacing between dwellings.
	Architectural styles, detailing and built form features	<p>All domestic architectural types from the 1870s to 1880s, from the largest of seaside mansions (e.g. South Esplanade) to the humblest of workers cottages (e.g. John Street).</p> <p>Late Victorian to early 20<sup>th</sup> Century Period architecture.</p> <p>Early symmetrical and asymmetrical cottages of low scale and simple form with restrained detailing.</p> <p>Mid-Victorian Period cottages and villas (symmetrical and asymmetrical), semi-detached cottages and row dwellings with detailing typical of the era including verandahs, cast iron lacework, hipped and gable roof forms, plaster and render mouldings.</p> <p>Inter-War buildings, mostly Bungalows.</p> <p>Many dwellings without vehicle garaging.</p> <p>Garages, carports and outbuildings, where they exist, are low in scale and simple in form. They are located unobtrusively, to the rear of dwellings or the principal building on the site or, alternatively to the side and well-setback from the front façade.</p> <p>Rectilinear plan forms.</p> <p>High degree of modulation and articulation.</p> <p>Low scale.</p> <p>Steep roof pitches in the order of 30 to 40 degrees (slightly lower on Inter-War buildings).</p> <p>Short roof spans.</p> <p>Hip and gable roof forms.</p> <p>Concave, bullnose and straight-pitched verandahs.</p> <p>Fine-grain detail in elements such as plinths, string courses, projecting sills.</p> <p>High solid to void ratio.</p> <p>Vertical proportions in windows and doors.</p>
	Building height	Predominantly single storey.
	Materials	<p>Consistent with the materials used in the 1840s to 1920s period.</p> <p>Sandstone, bluestone and brick. Corrugated iron and tiled roofing. Timber joinery including verandah posts and framing, fascia, barges, window frames, door frames and doors. Timber strapping on Inter-War dwelling gables.</p>
	Fencing	<p>Fencing associated with the era and style of the building, and providing views to the building.</p> <p>Timber picket, timber dowel, timber paling.</p> <p>Hedging.</p> <p>Low masonry plinth with cast iron or wrought iron in a traditional arrangement.</p> <p>Woven wire or low masonry with or without geometric steel for Inter-war buildings.</p>
	Setting, landscaping, streetscape and public realm features	<p>Norfolk Island pines throughout.</p> <p>Mature oak street trees along Moseley Street.</p> <p>Vistas over the ocean to the west of the Historic Area.</p>
	Representative Buildings	Identified - refer to SA planning database.

Lig1	<b>Daveyston Historic Area Statement (Lig1)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Early development C1850's in support of mining and trade and later development (C1870's) in support of agricultural pursuits.
	Allotments, subdivision and built form patterns	Large allotments characteristic of their rural setting and focused along the Old Sturt Highway.
	Architectural styles, detailing and built form features	A mix of both large and smaller homes of typical construction representing a range of periods.
	Building height	Single storey built scale to the streetscape.
	Materials	Consistent with the materials associated with the architectural styles of the subject building and streetscape.
	Fencing	Low, open fencing reflective of the architectural style of the subject building.
	Setting, landscaping, streetscape and public realm features	Rural setting with the presence of large mature trees and minimal front boundary setback commensurate to the undulating nature of the township.
	Representative Buildings	Identified - refer to SA planning database.

Lig2	<b>Freeling Historic Area Statement (Lig2)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Mixed era and style of development comprising early buildings dating from 1880's - 1920's aligned with early farming settlement and the townships reliance on the railway and later grand villas (C1910).
	Allotments, subdivision and built form patterns	Conventional land division pattern with a mix of allotment sizes.
	Architectural styles, detailing and built form features	<p>A mix of building types including stately and modest villas, single and double fronted cottages, interwar bungalows, galvanised iron homes, and symmetrical cottages representing a range of periods.</p> <p>Numerous prominent church buildings used for a range of worship and residential purposes.</p>
	Building height	Single storey built scale to the streetscape.
	Materials	Consistent with the materials associated with the architectural styles of the subject building and streetscape.
	Fencing	Low, open fencing reflective of the architectural style of the subject building.
	Setting, landscaping, streetscape and public realm features	<p>Wide streets and expansive allotments, generous siting characteristics and substantial gardens and trees.</p> <p>Areas of narrow streets and laneways and compact allotment layout.</p>
	Representative	Identified - refer to SA planning database.

**Belair Village Historic Area Statement (Mit3)**

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

<p>Eras, themes and context</p>	<p>1880-1900 (built form) original township of Belair developed around the railway. Village / residential character with an evident railway theme and rural character and the development of an old township.</p>
<p>Allotments, subdivision and built form patterns</p>	<p>Historic land division pattern, demonstrating a diverse array of allotments of varying sizes and shapes resulting from the change to rural character brought about through the introduction of the railway.</p> <p>A diverse mix of residential, education and commercial buildings with a cohesive style and generous setting.</p>

Statement#	Statement
Mit3	<p><b>Architectural styles, detailing and built form features</b></p> <p>Mix of development including, churches, school, local shop, and concrete water tower. Clusters of substantial villas (4-6 rooms) with return verandahs to both sides of Sheoak Road.</p> <p>Long linear buildings constructed along the Sheoak Road ridge and generally oriented facing Sheoak Road, resulting in a variable but cohesive pattern of buildings.</p> <p>Traditional steeply pitched hipped and gabled roof forms and some projecting gables, typical of the Victorian era.</p> <p>Ridges tend to be parallel to the street.</p> <p>Separate verandahs of bullnose, straight monopitch or concave profile supported on painted timber posts.</p>
	<p><b>Building height</b></p> <p>Predominantly single storey with generally substantial external wall height up to 3.5 metres.</p>
	<p><b>Materials</b></p> <p>Original or otherwise complementary materials, colours and finishes, including stone, rendered masonry, face brick, corrugated iron and timber board.</p> <p>Original verandah detailing including paving, posts and decoration.</p> <p>External walls of sandstone or limestone.</p> <p>Red brick quoins.</p> <p>Corrugated sheet roofing in painted or galvanised finish.</p> <p>Vertically proportioned painted timber window and door frames.</p> <p>Decorative brick and rendered chimneys.</p>
	<p><b>Fencing</b></p> <p>Open rural style fencing using timber posts with draw wire.</p> <p>Hedges define property boundaries.</p> <p>Front fences and gates that reflect the traditional period, style and form of the associated building.</p> <p>Open rural style Front fences and gates that are a maximum of 1.2 metres in height to a maximum of 1.5 metres if wrought iron, brush, timber and/or wire or woven mesh style.</p>
	<p><b>Setting, landscaping, streetscape and public realm features</b></p> <p>Village character with an evident railway theme and historic Residential character.</p> <p>Historic views of open railway side in a treed setting.</p> <p>The Village area retains much of its original character and integrity, with a railway theme evident in various places of state heritage, local heritage and other buildings of historic character.</p> <p>There are many prominent intact historic buildings and features within it and the streetscapes, townscape and landscapes created by these historic features.</p> <p>Central bitumen roadway with gravel verge and no kerb or guttering Street trees to Sheoak Road.</p> <p>Gravel driveway entrances to properties.</p>
	<p><b>Representative Buildings</b></p> <p>Identified - refer to SA planning database.</p>

<p><b>Mitcham Village Historic Area Statement (Mit4)</b></p>	
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
<p><b>Eras, themes and context</b></p>	<p>Village Setting - 1840.</p> <p>Core precinct of the village is readily identifiable and exhibits many of the original aspects of its early beginnings, including a range of single and cottage houses, commercial buildings, post office, bakery, shops, hotel and other public buildings.</p> <p>Historic buildings and features that contribute to the historic character including State and Local Heritage Places and other buildings displaying historic architectural features.</p>
<p><b>Allotments, subdivision and built form patterns</b></p>	<p>The village was laid out on the lines of an English village and contained traditional elements such as a village green and high street. Further subdivision has occurred since the date, however the majority of the original land division is intact.</p>
<p><b>Architectural styles, detailing and built form features</b></p>	<p>Single, semi-detached, row and cottage houses, commercial buildings, post office, bakery, shops, hotel and other public buildings.</p> <p>Intimate small scale and finely grained buildings.</p> <p>Hotel and Institute with tall gabled ornate rendered parapets.</p> <p>Modestly detailed parapet walling above verandahs to shopfronts and shops attached to dwellings, mostly over pavements.</p>
<p><b>Building height</b></p>	<p>Single storey with 3 to 3.5 metres ceiling height.</p>

Statement#	Statement	
Mt4	Materials	Consistent with the architectural era of the building.  Original unpainted brickwork or stonework.  Bluestone walling.  Corrugated profile roofing.  Painted timber window frames and doors.  Modest detailing to verandah posts and roof trim.  Brick, stone and rendered masonry chimneys.
	Fencing	Front fences and gates reflecting the traditional period, style and form of the associated building.  Generally timber picket, brush or wire Fence height typically no more than 1.2m.  Rear and side boundary fences located behind the front dwelling alignment no more than 1.8 metres in height with corrugated profile cladding.
	Setting, landscaping, streetscape and public realm features	Traditional village setting with village green reflecting a mix of uses. Unbuilt land adjoining Brownhill Creek of Aboriginal heritage significance.  Regular pattern of street trees.  Varied historic townscape views due to plan of village and open space.  Consistent building setbacks for dwellings.  Shops attached to dwellings, commercial and institutional buildings constructed to the front boundary.
	Representative Buildings	Identified - refer to SA planning database.

**Historic Areas affecting Mount Barker District Council**

<b>Callington Historic Area Statement (MtB1)</b>		
The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.		
These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.		
The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.		
Eras, themes and context	1849. Small compact historic mining township defined by the Bremer River.  Buildings and structures predominantly dating from the 19 <sup>th</sup> Century reflecting mining history.	
Allotments, subdivision and built form patterns	Unique often unbuilt grid street layout.  Regular and repeated pattern of long narrow allotments arranged to west of Bremer River.	
Architectural styles, detailing and built form features	Early stone dwellings and outbuildings, shops, hotels and churches.  Compact, intact and rustic collection of small scale, single storeyed, detached and semi-detached buildings and structures dating predominantly from the 19th century.  Pioneer building techniques and materials typical of a former mining settlement.  Parapet walls to end gables.  Symmetrical frontages and separate verandas.  Hipped and gable roof forms with ridge typically parallel to the street.  Some simple skillion roof forms set behind a parapet.  Barrel vaulted roofs.  Separate verandahs with concave profile.	
Building height	External wall height varies from 3 to 4 metres.	
Materials	Stone external walls.  Brick quoins.  Some rendered walling.  Corrugated profile sheet roofing often over original timber shingles.  Painted timber window frames and doors.  Painted timber verandah posts with some ornate decoration.	

MtB1

Statement#	Statement
	Brick, render or stone chimneys.
Fencing	Low stone walling to front and side boundaries. Hardwood post and wire mesh or cyclone mesh. Some timber picket fencing. Metal posts with metal rails, wire or mesh infill varieties evident within the area.
Setting, landscaping, streetscape and public realm features	Footpaths and verges unmade Street furniture unadorned. Bridge entrance and rise from river provides sense of place.
Representative Buildings	Identified - refer to SA planning database.

Eras, themes and	19th and early 20th Century.		

Statement#	Statement	
MIB3	context	Buildings and structures predominantly dating from the 19 <sup>th</sup> Century. Small, compact workers cottages and larger residential buildings.
	Allotments, subdivision and built form patterns	Allotment pattern reflective of the original land division pattern.
	Architectural styles, detailing and built form features	Early stone dwellings.  Compact, intact collection of small scale detached and semi-detached buildings dating predominantly from the 19 <sup>th</sup> and 20 <sup>th</sup> century.  Symmetrical frontages and separate verandahs.  Hipped and gabled roof forms with ridge typically parallel to the street  Some parapet walling.
	Building height	Single storey. External wall height varies from 3 to 4 metres.
	Materials	Stone external walls.  Brick quoins.  Corrugated profile sheet roofing.  Painted timber window frames and doors.  Painted timber verandah posts with some ornate decoration.  Brick or rendered chimneys.
	Fencing	Some timber picket fencing.  Hedges.  Low stone walling to front boundary.  Hardwood post and wire mesh or cyclone mesh.
	Setting, landscaping, streetscape and public realm features	Mature street trees. Street hedging. Some red brick pavers to footpath.
	Representative Buildings	Identified - refer to SA planning database.

<b>Echunga Historic Area Statement (MIB4)</b>		
The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.		
These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.		
The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.		
Eras, themes and context	1849 - 1940.  Commercial buildings including single storey shops, ecclesiastical, civic, former post office and hotel.  Some rural structures including outbuildings.  Some former shops being converted to dwelling.  Single storeyed detached and semi-detached dwellings.  Small cottages on large allotments.	
Allotments, subdivision and built form patterns	Shopfronts close to footpath.  Generous setbacks to north-eastern side of Adelaide Road.  Consistent, deep allotments.	
Architectural styles, detailing and built form features	Verandahs and porches up to and over footpath.  Small scale, single storeyed detached and semi-detached built form of early European settlements.  Structures reflecting early local production.  Parapets to shop fronts.  Symmetrical and asymmetric frontages.  Separate verandahs.	

Statement#	Statement
	<p>Hipped and gabled roofs.</p> <p>Ridge typically parallel to street for residential dwellings.</p> <p>Parapet ends and gable roof for shops.</p>
Building height	External wall height of 3 to 4 metres for residential dwellings.
Materials	<p>Stone external walls.</p> <p>Brick quoins.</p> <p>Corrugated profile roof sheeting.</p> <p>Painted timber window frames and doors.</p> <p>Painted timber verandah posts.</p> <p>Brick, render or stone chimneys.</p> <p>Fibre cement sheeting to parapets (e.g. Echunga Memorial Institute).</p>
Fencing	<p>Hardwood post and wire mesh or cyclone mesh.</p> <p>Some timber picket fencing.</p> <p>Metal posts with metal rails, wire or mesh infill varieties evident within the area.</p>
Setting, landscaping, streetscape and public realm features	Wide street. Evenly spaced deciduous street trees to north-eastern side. Verandahs and porches to footpath providing shelter for pedestrians.
Representative Buildings	Identified - refer to SA planning database.

**Littlehampton Historic Area Statement (MtB9)**

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

<p>Eras, themes and context</p>	<p>From 1857.</p> <p>Buildings and structures predominantly dating from the 19<sup>th</sup> century and early 20<sup>th</sup> century.</p> <p>Major service centre for rural hinterland.</p> <p>Buildings, structures and sites reflecting early local production and service provisions.</p>
<p>Allotments, subdivision and built form patterns</p>	<p>Long narrow allotments typically orthogonal to the street.</p> <p>Varying setbacks from street frontage.</p> <p>Elevated allotments to south side of Princes Highway.</p>
<p>Architectural styles, detailing and built form features</p>	<p>Early stone dwellings, outbuildings, shops, civic buildings and churches.</p> <p>Symmetrical or asymmetrical frontages.</p> <p>Single storeyed, detached built form.</p> <p>Early European settlements.</p> <p>Interwar bungalows.</p> <p>Hipped and gable roof forms.</p> <p>Separate verandahs with concave, bullnose or monopitch form.</p>

Statement#	Statement
MtB9	Verandahs as a continuation of the main roof Some parapets to shop fronts.
	Building height Dwelling external wall varies from 3 to 4 metres. Shops, civic and churches wall height varies.
	Materials Stone external walls. Brick external walls. Some rendered walling. Brick quoins. Corrugated profile sheet roofing. Painted timber window frames and doors. Painted timber verandah posts. Masonry and masonry half columns to verandahs. Brick, render or stone chimneys.
	Fencing Hedging to street fronts. Some timber picket fencing. Rendered masonry retaining walls.
	Setting, landscaping, streetscape and public realm features Mature indigenous and significant trees. Vegetated landscape. Shop verandahs providing amenity to pedestrians.
	Representative Buildings Identified - refer to SA planning database.

<b>Macclesfield Historic Area Statement (MtB10)</b>	
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context	<p>From 1840's and 19th Century. Buildings, sites and structures represent the town's service provision to the local farming district.</p> <p>19<sup>th</sup> century buildings associated with commercial and community services.</p>
Allotments, subdivision and built form patterns	<p>Laid out around a village green, Davenport Square by the Angas River. Regular and repeated pattern of allotments becoming denser to the northern end of Strathalbyn road.</p>
Architectural styles, detailing and built form features	<p>Early stone dwellings and outbuildings, shops and hotels.</p> <p>Small scale, single storeyed, detached buildings and structures dating predominantly from the 19<sup>th</sup> century.</p> <p>Parapet walls to shop fronts.</p> <p>Symmetrical frontages.</p> <p>Separate verandahs of a concave, monopitch or bullnose profile.</p> <p>Verandahs as a continuation of the main roof.</p>
Building height	<p>Dwelling external wall height 3 - 4 metres.</p>
MtB10	<p>Materials</p> <p>Stone external walls.</p> <p>Brick external walls.</p> <p>Brick quoins.</p> <p>Some rendered walling.</p> <p>Corrugated profile sheet roofing.</p> <p>Painted timber window frames and doors.</p> <p>Painted timber verandah posts with some ornate decoration.</p>
	<p>Brick, render or stone chimneys.</p>

Statement#	Statement	
	Fencing	Timber picket fencing. Low stone wall.
	Setting, landscaping, streetscape and public realm features	Mature street trees. Davenport square and Anglican Church provide sense of place. Views of significant buildings along Venables Street. Wide main street. Shop verandahs provide shelter amenity to pedestrians. Footpath and verge unmade to eastern side of Strathalbyn Road.
	Representative Buildings	Identified - refer to SA planning database.

MtB11	<b>Meadows Historic Area Statement (MtB11)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Unofficial subdivision in 1856. Official subdivision 1884. Buildings, structures and sites that represent the town's governmental, local production, community and commercial service provision role to the district. Buildings predominantly from the 19 <sup>th</sup> century and early 20 <sup>th</sup> century.
	Allotments, subdivision and built form patterns	Linear subdivision layout orthogonal to the street. Deep allotments.
	Architectural styles, detailing and built form features	Stone dwellings and shops. Brick or stone civic buildings and churches. Small scale, single storeyed, detached dwellings dating predominantly from the 19 <sup>th</sup> century and early 20 <sup>th</sup> century. Symmetrical 19 <sup>th</sup> and early 20 <sup>th</sup> century dwellings. Asymmetrical interwar dwellings and shops. Parapet ends to shop fronts. Hipped and gable roof forms. Separate verandahs with concave, bullnose or monopitch profile. Verandahs as a continuation of the main roof.
	Building height	Dwelling external wall height varies from 3 to 4 metres.
	Materials	Stone external walls. Brick external walls. Some rendered walling. Corrugated profile sheet roofing. Painted timber window frames and doors. Painted timber verandah posts. Masonry columns or half columns. Brick, render or stone chimneys.
	Fencing	Low masonry wall. Timber post and rail. Timber picket fence. No fence.
	Setting, landscaping, streetscape and	Memorial garden and council reserve along the creek provide sense of place. Mature deciduous street trees to both sides of road. Vegetated landscape.

**Historic Areas affecting City of Mount Gambier**

MtG1	<b>Bay Road Historic Area Statement (MtG1)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Development from period of settlement up to and including the 1920s.
	Allotments, subdivision and built form patterns	Generous allotment sizes. Extensive street and side boundary set-backs.
	Architectural styles, detailing and built form features	Large single storey houses with hipped and gabled galvanised iron roofs; and generous verandahs.
	Building height	Predominantly single storey, with two storey additions within roof space to rear of buildings.
	Materials	Varied building construction but generally comprising dolomite or limestone walling with quoins.
	Fencing	Original fences constructed of Mount Gambier stone, dolomite, scoria, basalt or flint, limestone retaining walls. Front fences forward of the dwelling reflecting the traditional period, style and form of the associated building.
Setting, landscaping, streetscape and public realm features	Well maintained, mature gardens that contribute to a pleasant, open streetscape. Streetscape improvements within the area have particular emphasis on Bay Road as the entry to the Volcanic Complex State Heritage Area.	
Representative Buildings	Identified - refer to SA planning database.	

MtG2	<b>Doughty Street and Wehl Street North Historic Area Statement (MtG2)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Development from period of settlement up to and including the 1920s.
	Allotments, subdivision and built form patterns	Generous allotments dominating the higher slopes, with substantial street and side boundary setbacks. Smaller allotments on the lower slopes.
	Architectural styles, detailing and built form features	Varied building styles from one street to another. Grand houses dominating the higher slopes. On the lower slopes, workman's cottages. Contemporary housing.
	Building height	Predominantly single storey, with two storey additions within roof space to rear of buildings.
Materials	Varied building construction and materials reflecting traditional period and style. Timber workman's cottages.	

Statement#	Statement																	
	Fencing	Original fences constructed of Mount Gambier stone, dolomite, scoria, basalt or flint, limestone retaining walls. Front fences forward of the dwelling reflecting the traditional period, style and form of the associated building.																
	Setting, landscaping, streetscape and public realm features	Characterised by steep topography with generous allotments sizes and well-maintained mature gardens.																
	Representative Buildings	Identified - refer to SA planning database.

**Historic Areas affecting Naracoorte Lucindale**

<b>Livingston Street, Naracoorte Historic Area Statement (NaLu1)</b>	
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context	1870s to 1890s and turn of the 20 <sup>th</sup> century.
Allotments, subdivision and built form patterns	Small allotments.
Architectural styles, detailing and built form features	Single- and double- fronted detached cottages (typically involving two rooms).
Building height	Single storey.
Materials	Local stone, fibro-sheet and weatherboard, corrugated iron and patterned sheet metal.
Fencing	Open fencing predominantly wire and picket style no more than 1.2 metres.
Setting, landscaping, streetscape and public realm features	Buildings positioned close to street frontages, landscaped front gardens and wide grassed verges.
Representative Buildings	[Not identified]

**Historic Areas affecting City of Norwood, Payneham and St Peters**

<b>College Park Historic Area Statement (NPSP1)</b>	
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context	Subdivision during the 1870s with dwellings built between 1870s and 1920s. Detached dwellings.
Allotments, subdivision and built form patterns	Consistent pattern of prestigious single-storey detached dwellings on very large, spacious allotments fronting wide, tree-lined streets. Very low density. Side and rear setbacks providing large separation distances between dwellings.
Architectural styles, detailing and built form features	Double fronted, symmetrical and asymmetrical dwellings; East Adelaide Investment Company dwellings; Larger villas and mansions; Victorian villas; Edwardian Queen Anne and Art Nouveau. The double fronted, symmetrical and asymmetrical dwellings in the College Park Policy Area are an elegant larger version of the simple colonial cottage with the addition of a projecting wing (in the case of the asymmetrical dwelling), a more elaborate verandah and increased detailing in plaster and render work around openings. The pitch and size of the roof makes this an important design element. The external walls are generally constructed of bluestone or dressed and coursed sandstone. Verandahs along the front elevation are another important element of both the double fronted symmetrical and asymmetrical dwelling.
Building height	Single storey, two storey in some locations.
Materials	External walls made of bluestone or dressed and coursed sandstone. Stone, brick and rendered masonry. Traditional colours and materials.

Statement#	Statement
Fencing	<p>Low, open front fencing (including secondary streets to the main façade of building) associated with the traditional period and style of the building up to 1.2m (masonry), 1.5m (wrought iron, timber and wire) and 2m (masonry pillars) in height, allowing views to dwelling.</p> <p>Timber picket, timber dowelling, masonry and cast iron palisade, or</p> <p>corrugated iron or mini orb within timber framing for cottages, villas and other dwellings built during the Victorian period; or timber picket, timber paling or woven crimped wire; or corrugated iron or mini orb within timber framing for Edwardian dwellings.</p> <p>Side and rear fences are in traditional materials, such as timber, corrugated iron or well detailed masonry. Side fences along street corners continue the detailing of the front fence to the house alignment, solid fencing beyond this point in traditional materials.</p>
Setting, landscaping, streetscape and public realm features	<p>Dwellings have sizeable setbacks from all boundaries and are typically set in large landscaped grounds with front boundaries defined by fencing of various styles.</p> <p>Open landscape character to front garden, which enhances dwelling and streetscape quality.</p> <p>Wide streets lined with mature trees.</p>
Representative Buildings	<p>Identified - refer to SA planning database.</p>

Statement#	Statement	
	Fencing	Front fencing (including any secondary street frontage up to the alignment to the fair face of the dwelling) generally low in height up to 1.2m, allowing views to building. Original design and materials, such as timber picket, timber dowelling or simple masonry and cast iron palisade.
	Setting, landscaping, streetscape and public realm features	Consistent pattern of narrow streets and rear service lanes. Rear lanes used for vehicular access and garages. Streets lined with mature exotic street trees. Landscaped gardens to sizeable allotments.
	Representative Buildings	Identified - refer to SA planning database.

NPSP4	<b>Joslin / Royston Park Historic Area Statement (NPSP4)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1900s-1930s. Detached dwellings.  Joslin/Royston Park Historic Area is divided into two separate locations:  the area around First and Second Avenue, north of Lambert Road, in the suburb of Royston Park, and the area centred around Fourth, Fifth and Sixth Avenues in the suburb of Joslin.
	Allotments, subdivision and built form patterns	Regular pattern of large allotments.
	Architectural styles, detailing and built form features	Single storey detached dwellings. Bungalows. Edwardian (such as Queen Anne) and Federation dwelling styles. Some Tudor style dwellings with a steeper roof pitch, tiled roof and heavy columns.
	Building height	Single-storey, two storeys in some locations.
	Materials	Stone dwelling walls and original joinery.
	Fencing	Front fencing (including any secondary street frontage up to the alignment to the fair face of the dwelling) generally low in height up to 1.2m (masonry), 1.5m (wrought iron, brush or timber and wire) and 2m (masonry pillars), allowing views to dwelling. Original design and materials, such as timber picket, timber dowelling, masonry and cast iron palisade, or corrugated iron or mini orb within timber framing for cottages, villas and other Victorian dwellings.  Timber picket, timber paling or woven crimped wire, or corrugated iron or mini orb within timber framing for Edwardian dwellings.  Timber paling, wire mesh and timber or tube framing, woven crimped wire, or masonry with galvanised steel ribbon for Bungalow and Tudor house styles.  Side and rear fences in traditional materials such as timber, corrugated iron or well-detailed masonry.
	Setting, landscaping, streetscape and public realm features	Area characterised by regularity of the wide, tree lined avenues.  Landscaped garden setting, particularly in front of dwelling; Streets lined with distinctive street trees.
	Representative Buildings	Identified - refer to SA planning database.

NPSP5	<b>Kensington 1 Historic Area Statement (NPSP5)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1838-1860; 1861-1880; 1881-1900; 1901-1915; 1916-1939.  Residential urban village characterised by buildings, settings street patterns and natural features. Range of dwelling types.
	Allotments, subdivision and built form patterns	Original historic pattern.
	Architectural styles, detailing and built form features	Larger Victorian-style brick and stone buildings, Federation era brick and stone buildings and bungalow-styled buildings of the post-1918 period.  Significant corner buildings contribute to the character.
	Building height	Up to two storeys.
	Materials	Pise, stone or brick.

Statement#	Statement	
	Fencing	Generally low, reflecting the traditional period, style and form of the associated building.
	Setting, landscaping, streetscape and public realm features	The unique diagonal street pattern of Kensington is an important part of its character.
	Representative Buildings	Identified - refer to SA planning database.

NPSP6	<b>Kensington 2 Historic Area Statement (NPSP6)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Dominant and historic institutional buildings of the St Joseph's Convent. Range of dwelling types.
	Allotments, subdivision and built form patterns	Original historic pattern.
	Architectural styles, detailing and built form features	St Joseph's Convent buildings.
	Building height	Up to two storeys.
	Materials	Stone, brick, natural coloured bagged render and/or brick as the main external finish to walls.
	Fencing	Generally low, reflecting the traditional period, style and form of the associated building.
	Setting, landscaping, streetscape and public realm features	Car parking and service areas are at the rear of buildings.
	Representative Buildings	<i>[Not identified]</i>

NPSP7	<b>Kent Town 1 Historic Area Statement (NPSP7)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Pre 1890 (Victorian) and 1890-1915 (turn-of-the-century), 1915-1940 (bungalows). Range of dwelling types.
	Allotments, subdivision and built form patterns	Original historic pattern with large scale villas. Smaller scale row houses and courtyard-style housing on Little Angas and Little Wakefield Street frontages.
	Architectural styles, detailing and built form features	Large-scale Victorian and turn-of-the-century villas set well back from the street frontage in mature garden settings together with other historic buildings including cottages and bungalows.
	Building height	Up to two storeys.
	Materials	Stone, brick, natural coloured bagged render and/or brick as the main external finish to walls.
	Fencing	Generally low, reflecting the traditional period, style and form of the associated building.
	Setting, landscaping, streetscape and public realm features	<i>[Not stated]</i>
	Representative Buildings	<i>[Not identified]</i>

	<b>Kent Town 2 Historic Area Statement (NPSP8)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	

Statement#	Statement	
NPSP8	Eras, themes and context	Pre-1920s. Range of dwelling types.
	Allotments, subdivision and built form patterns	Original historic pattern. Smaller scale row houses and courtyard-style housing on Dew Street frontage.
	Architectural styles, detailing and built form features	Double and single-fronted cottages.
	Building height	Up to two storeys.
	Materials	Bluestone or sandstone.
	Fencing	Generally low, reflecting the traditional period, style and form of the associated building.
	Setting, landscaping, streetscape and public realm features	Consistency of front set-backs, in particular, the row of double-fronted houses in Grenfell Street.
Representative Buildings	[Not identified]	

Marden (Broad Street / Pollock Avenue) Historic Area Statement (NPSP9)		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Eras, themes and context	Small group of dwellings, dating from 1910s. Detached dwellings. Semi-detached dwellings on Broad Street.	
Allotments, subdivision and built form patterns	Original historic pattern. Detached dwellings of modest proportions, set relatively close to Pollock Avenue. Mix of detached and semi-detached dwellings on Broad Street.	
Architectural styles, detailing and built form features	Detached dwellings of modest proportions. Features such as the typical bull-nose verandah and gable ends, which are elaborated with strapping or finials.	
Building height	Single-storey.	
Materials	Unpainted stone, corrugated iron roofing materials and joinery.	
Fencing	Low, open fencing that reflects the period and style of the dwellings. Front fencing (including any secondary street frontage up to the alignment to the main face of the dwelling) generally low in height up to 1.2m (masonry), 1.5m (wrought iron, timber and wire or woven mesh) and 2m (masonry pillars), allowing views to dwelling. Timber picket and paling, woven crimped wire, or corrugated iron or mini orb within timber framing. Side and rear fences in traditional materials such as timber, corrugated iron or well-detailed masonry.	
Setting, landscaping, streetscape and public realm features	Narrow street width, street plantings and footpath treatments of Pollock Avenue.	
Representative Buildings	Identified - refer to SA planning database.	

Maylands Historic Area Statement (NPSP10)		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Eras, themes and context	Late 1800s onwards. Detached and semi-detached dwellings.	
Allotments, subdivision and built form patterns	Similar to Stepney area but with greater percentage of larger allotments, with proportionately larger homes. Allotments of generous size. Original historic pattern.	
Architectural styles, detailing and built form features	Double-fronted detached villas and cottages of modest proportions with substantial established gardens. Single-fronted attached dwellings of sandstone and bluestone construction. Remaining corner shop structures.	

Statement#	Statement	
NPSP10		Verandahs along the primary frontage.
	Building height	Single-storey.
	Materials	Sandstone and bluestone.
	Fencing	<p>Low, open fencing that reflects the period and style of the dwellings. Front fencing (including any secondary street frontage up to the alignment to the main face of the dwelling) generally low in height up to 1.2m (masonry) or 1.5m (other materials), allowing views to dwelling.</p> <p>Timber picket, timber dowelling, masonry and cast iron palisade, or corrugated iron or mini orb within timber framing.</p> <p>Side and rear fences in traditional materials such as timber, corrugated iron or well-detailed masonry.</p>
	Setting, landscaping, streetscape and public realm features	<p>Relatively wide streets in the original subdivision layout. Landscaping around a dwelling, particularly in the front garden, is an important design element as it enhances the dwelling and adds to the appearance and quality of the streetscape.</p> <p>Street trees are present in most of the streets and make a solid contribution to the overall character.</p>
	Representative Buildings	Identified - refer to SA planning database.

NPSP11	<b>Norwood 1 Historic Area Statement (NPSP11)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	<p>Late 19th Century (pre 1920s).</p> <p>Residential. Range of dwelling types.</p>
	Allotments, subdivision and built form patterns	Original historic pattern. Consistent front setback patterns.
	Architectural styles, detailing and built form features	Single-fronted and double-fronted cottages.
	Building height	Up to two storeys.
	Materials	Bluestone, sandstone, pise or brick.
	Fencing	Generally low, reflecting the traditional period, style and form of the associated building.
Setting, landscaping, streetscape and public realm features	<i>[Not stated]</i>	
Representative Buildings	<i>[Not identified]</i>	

NPSP12	<b>Norwood 2 Historic Area Statement (NPSP12)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. 	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	<p>Late 19th Century and turn-of-the-century.</p> <p>Residential. Range of dwelling types.</p>
	Allotments, subdivision and built form patterns	Original historic pattern. Limited front and side setbacks.
	Architectural styles, detailing and built form features	Single-fronted, double-fronted, semi-detached and row cottages.
	Building height	Up to two storeys.
	Materials	Bluestone or sandstone with brick.
Fencing	Generally low, reflecting the traditional period, style and form of the associated building.	
Setting, landscaping, streetscape and public realm features	<i>[Not stated]</i>	
Representative Buildings	<i>[Not identified]</i>	

Statement#	Statement	
NPSP13	<b>Norwood 3 Historic Area Statement (NPSP13)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Pre 1890s (Victorian) and turn-of-the-century (pre 1920).
	Allotments, subdivision and built form patterns	Range of dwelling types.
	Architectural styles, detailing and built form features	Original historic pattern.
	Building height	Villas and double-fronted cottages.
	Materials	Prominent key heritage buildings e.g. St Bartholomew's Church.
Fencing	Up to two storeys.	
Setting, landscaping, streetscape and public realm features	Sandstone or bluestone with brick.	
Representative Buildings	Generally low, reflecting the traditional period, style and form of the associated building.	
	Set-back consistently with landscaped frontages.	
	[Not identified]	
NPSP14	<b>Norwood 4 Historic Area Statement (NPSP14)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Late 19th Century, early 20th Century and some later period dwellings (pre 1940).
	Allotments, subdivision and built form patterns	Range of dwelling types.
	Architectural styles, detailing and built form features	Original historic pattern.
	Building height	Front setbacks of varying depths in various streetscapes.
	Materials	Late 19th Century small-scale maisonettes and single and double-fronted cottages (mainly in Moulden, Clara, Bonney, Vernon and Foster Streets), early 20th Century villas (mainly in George and Queen Streets, the western side of Moulden Street and the western end of Prosser Avenue) and some later period bungalows, including Tudor-style bungalows mainly in the eastern part of Prosser Avenue but also in George Street).
Fencing	Up to two storeys.	
Setting, landscaping, streetscape and public realm features	Bluestone or sandstone and brick.	
Representative Buildings	[Not stated]	
	Dwellings generally have landscaped frontages.	
	[Not identified]	
	<b>Norwood 5 Historic Area Statement (NPSP15)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.		
The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.		
Eras, themes and context	1860 to 1920.	
	Range of dwelling types.	

Statement#	Statement	
NPSP15	Allotments, subdivision and built form patterns	<p>The consistency of the streetscapes of Willis and Colliver Streets, Montrose Avenue and the western side of Charles Street either side of the intersection with Montrose Avenue.</p> <p>Development of a more generous scale which fronts William Street.</p> <p>Overall topography relating to the alignment of First Creek through the area.</p>
	Architectural styles, detailing and built form features	<p>Single-fronted and double-fronted cottages, semi-detached cottages, other semi-detached dwellings, villas of various forms, and a mansion.</p> <p>Prominent remaining corner shop structures.</p>
	Building height	Up to two storeys.
	Materials	Bluestone or sandstone, often with the side and rear walls of brick or rubble, and incorporating hipped or gable-end roofs of corrugated iron together with verandahs typical of the era in which the respective buildings were constructed.
	Fencing	Generally low, reflecting the traditional period, style and form of the associated building.
	Setting, landscaping, streetscape and public realm features	<i>[Not stated]</i>
	Representative Buildings	<i>[Not identified]</i>
	NPSP16	<p><b>Payneham (Harcourt Road) Historic Area Statement (NPSP16)</b></p>
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>		
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>		
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Eras, themes and context		Early 1900s and 1918-30 (State Bank bungalows). Detached dwellings.
Allotments, subdivision and built form patterns		Medium sized allotments. Large frontages.
Architectural styles, detailing and built form features		<p>Early 1900s architectural housing styles in Harcourt Road - post Federation Villa style dwellings.</p> <p>State Bank bungalows in Kapunda Terrace.</p> <p>Local shop and attached dwelling at the junction of Harcourt Road and Kapunda Terrace.</p> <p>Original verandahs along the primary frontage.</p> <p>Well preserved housing stock, particularly in Harcourt Road.</p>
Building height		Single storey.
Materials		Unpainted stone, corrugated iron roofing materials and joinery.
Fencing		<p>Low, open fencing that reflects the period and style of the dwellings. Front fencing (including any secondary street frontage up to the alignment to the fair face of the dwelling) generally low in height up to 1.2m (masonry), 1.5m (wrought iron, timber and wire or woven mesh) and 2m (masonry pillars), allowing views to dwelling.</p> <p>Timber picket, timber dowelling, masonry and cast iron palisade, or corrugated iron or mini orb within timber framing for villas.</p> <p>Timber picket, timber pailing, woven crimped wire, or corrugated iron or mini orb within timber framing for Edwardian dwellings.</p> <p>Timber pailing, wire mesh and timber or tube framing, woven crimped wire, or masonry with galvanised steel ribbon for bungalows.</p> <p>Side and rear fences in traditional materials such as timber, corrugated iron or well-detailed masonry.</p>
Setting, landscaping, streetscape and public realm features	<p>The consistent early tree planting of mature natives species, including Lilly Pillys and Myrtles, particularly along Harcourt Avenue, will continue to define and unify the historic character of this street.</p> <p>Buildings located in garden setting.</p>

Statement#	Statement	
		allowing views to dwelling.  Timber picket, timber dowelling, masonry and cast iron palisade, or corrugated iron or mini orb within timber framing for cottages, villas and other dwellings built during the Victorian period.  Timber picket, timber pailing, woven crimped wire, or corrugated iron or mini orb within timber framing for Edwardian dwellings.  Timber pailing, wire mesh and timber or tube framing, woven crimped wire, or masonry with galvanised steel ribbon for bungalows, Tudors and inter-war dwellings.  Side and rear fences in traditional materials such as timber, corrugated iron or well-detailed masonry.
Setting, landscaping, streetscape and public realm features		Landscaping around a dwelling, particularly in the front garden, is an important design element.  In St Peters, wide tree lined streets, with mature street trees and rear lanes used for vehicular access and garages
Representative Buildings		Identified - refer to SA planning database.

<b>Dequetteville Terrace Historic Area Statement (NPSP21)</b>		
The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.		
These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.		
The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.		
NPSP21	Eras, themes and context	Late 19th Century and early 20th Century.  Buildings primarily originally constructed as dwellings but now used for a range of land uses, including office, consulting rooms, residential, tourist and other accommodation.
	Allotments, subdivision and built form patterns	<i>[Not stated]</i>
	Architectural styles, detailing and built form features	Grand scale late 19th Century and early 20th Century mansions set well back from the Dequetteville Terrace frontage.  Two detached single-storey buildings (large former dwelling and a bungalow-style dwelling) in established garden settings.
	Building height	Up to three storeys.
	Materials	<i>[Not stated]</i>
	Fencing	<i>[Not stated]</i>
	Setting, landscaping, streetscape and public realm features	Vehicular movement is dominated by Dequetteville Terrace, which provides primary access for delivery, service, visitors and residents' vehicles, in preference to access via the adjoining residential area.  One of the few remaining sections of Adelaide City Parkland frontage developed in the late 19th and early 20th centuries, which is still substantially intact.

<b>Kensington (Mixed Use) Historic Area Statement (NPSP22)</b>		
The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.		
These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.		
The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.		
	Eras, themes and context	Pre 1890s, Victorian and post 1918 period.  Offices, consulting rooms and residential dwellings generally utilising historic buildings, with new residential apartments and townhouses.
	Allotments, subdivision and built form patterns	<i>[Not stated]</i>
	Architectural styles, detailing and built form features	Early buildings of pise, stone or brick construction.  Larger Victorian-styled brick and stone buildings.

Statement#	Statement	
NPSP22		Federation era brick and stone buildings.  Bungalow-styled buildings of the post-1918 period.
	Building height	Up to two storeys.
	Materials	Pise, stone or brick construction. Unpainted brickwork, stonework and original corrugated iron roofing material.
	Fencing	<i>[Not stated]</i>
	Setting, landscaping, streetscape and public realm features	Existing character created by buildings and settings which reflect the principal historic development periods of the urban village of Kensington.  Vehicular movement is dominated by The Parade which abuts the northern edge of the policy area. This frontage provides primary access for delivery, service, visitors' and residents' vehicles, in preference to access via the adjoining residential area, except where vehicular access to sites with frontages to Hill Street, Shipsters Road, Bowen Street and Phillips Street is provided from those streets.
	Representative Buildings	Identified - refer to SA planning database.

NPSP23	<b>Payneham Road Historic Area Statement (NPSP23)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1870s and 1880s, early 1900s, and post-World War II.  Offices, consulting rooms and residential dwellings generally utilising historic buildings, with new residential apartments and townhouses. Mixed business strip, shops, administrative, shop/dwellings, civic and institutional buildings. Local commercial activities. Shopping facilities north of St Peters Street.
	Allotments, subdivision and built form patterns	Minimal set back from the Payneham Road frontage.
	Architectural styles, detailing and built form features	Valued architectural elements fronting Payneham Road including verandahs, façade treatments (including windows and entrances), shopfront detailing and roof and parapets.  Street-level coherence across signage, canopies, shopfronts and overhanging fabric of buildings such as cornices.
	Building height	Single and two -storey.
	Materials	Original materials and finishes including unpainted brickwork, stonework and corrugated iron roofing.
Fencing	<i>[Not stated]</i>	
Setting, landscaping, streetscape and public realm features	Vehicular movement is dominated by Payneham Road, which provides primary access for delivery, service and visitors vehicles. Access and car parking is generally shared. Car parking is generally located to the rear of buildings, or otherwise sensitively located.	
Representative Buildings	Identified - refer to SA planning database.	

NPSP24	<b>Portrush Road Historic Area Statement (NPSP24)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1880s and 1890s.  Offices, consulting rooms and residential dwellings generally utilising historic buildings.
	Allotments, subdivision and built form patterns	Consistent setbacks.
Architectural styles, detailing and built form features	Valued architectural elements fronting Portrush Road including verandahs, original openings (i.e. doors and windows) in external walls, roof form and pitch and façade treatments.  Residential character.  The historically significant Funeral Parlour on Portrush Road, Payneham.	
Building height	Single storey.	
Materials	<i>[Not stated]</i>	

Statement#	Statement	
	Fencing	[Not stated]
	Setting, landscaping, streetscape and public realm features	Vehicular movement is dominated by Portrush Road, which provides primary access for delivery, service and visitors vehicles. Car parking is generally located to the rear of buildings.
	Representative Buildings	Identified - refer to SA planning database.

NPSP25	<b>The Parade / Fullarton Road Historic Area Statement (NPSP25)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	<p>Pre 1890s (Victorian).</p> <p>Offices, consulting rooms and residential dwellings, generally utilising historic buildings, with new residential apartments and townhouses.</p>
	Allotments, subdivision and built form patterns	[Not stated]
	Architectural styles, detailing and built form features	<p>Victorian villas, large two storey mansion buildings, double-fronted houses and groups of two storey row houses.</p> <p>Consistent set-backs. Buildings which address Fullarton Road and The Parade have deep set-backs.</p>
	Building height	Generally up to two storeys.
	Materials	Sandstone or bluestone.
	Fencing	[Not stated]
	Setting, landscaping, streetscape and public realm features	<p>Vehicular movement is dominated by The Parade, Fullarton Road, Rundle Street and Little Dew Street, which provides primary access for delivery, service, visitors' and residents' vehicles, in preference to access via the adjoining residential areas.</p> <p>Well established garden settings.</p> <p>High standard of landscaping incorporating large trees which reinforce the leafy avenue character of these roads.</p>

<b>Historic Areas affecting City of Onkaparinga</b>		
<b>Clarendon Historic Area Statement (Onka1)</b>		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Eras, themes and context	<p>1840s - 1890s.</p> <p>Early European survey and settlement in the regional areas around Adelaide; Pastoralism, Agriculture, Viticulture, Tertiary Industries, Communications, Road Transport, Water Catchment and Supply, Social Services, Religion, Education, Law and Order, Local Government.</p>	
Allotments, subdivision and built form patterns	<p>Township allotments set out from the main road (Grants Gully Road) which winds its way along the floor of a valley and Turners Gully Road.</p> <p>Relatively large allotments, typical of a country township. Allotment sizes increase out from the centre of the township, emphasising the semi-rural environment.</p> <p>Substantial space between buildings.</p> <p>Buildings are sited relatively close to front boundaries and each other in the centre of the township but front and side setbacks increase as distance from the town centre increases. This pattern of development contributes to the sense of space and rural/country township character.</p> <p>Building frontages are parallel to streets becoming more random out from the centre of the township.</p> <p>Dwellings with frontage to Turners Gully Road and/or Clarendon Road sited on the lower slopes of hillsides or within the valley floor.</p>	
Architectural styles, detailing and built	Double-fronted cottages, villas, asymmetrical cottages and attached shop-dwellings with Victorian stylistic influences.	

Statement#	Statement	
Onka1	form features	<p>Agriculture and viticulture related structures such as winery buildings, farmhouses and barns.</p> <p>Public buildings such as police station, courthouse, school, former institute building (hall) with Victorian Gothic and similar styles of the Victorian era. Churches and cemeteries. Hotel, general store and shops. Transport related structures such as bridges.</p> <p>War memorial.</p> <p>Roof types: M - shaped, gable, hipped, concave or straight-pitched veranda, steeply-pitched, typically 30 to 40 degrees, reflecting traditional architectural styles and building methods</p> <p>short roof spans</p> <p>Rectilinear plan form. Low-scale. High solid-to-void ratio. Typically two or more pavilions rather than a single mass. Concave and straight-pitched verandas on front and sometimes side facades reduce bulk and scale and add visual interest. Lean-to forms are common and break down bulk and scale. Vertical proportions in windows and doors. Fine-grain detail in elements such as plinths, string courses, projecting sills</p>
	Building height	<p>Predominantly single-storey. Single-storey residential buildings with some two-storey or part two-storey dwellings.</p> <p>Typical proportions of Victorian-era cottages with wall heights of around 3.3 to 3.6 metres and ridge heights of around 5.0 to 5.5 metres.</p> <p>Tall single-storey churches and institutional and public buildings that are generally exceptions and landmarks that punctuate the streetscape and stand out because of their difference in scale.</p>
	Materials	<p>Masonry - random rubble, roughly-coursed stone, unpainted local bluestone, sandstone, some with brick or rendered quoin work</p> <p>Roof - slate or corrugated iron</p> <p>Timber joinery including window frames, door frames, doors, fascias, bargeboards and veranda posts</p> <p>Consistent with the materials used in the 1840s-1890s buildings within the township.</p> <p>Unobtrusive, natural colours.</p>
	Fencing	<p>Picket fence. Woven wire. Timber post-and-rail or post-and-wire</p> <p>Low (approximately 1.2 metres in height) sandstone rubble. Original front fences associated with era and style of building, which maintain views of the building from the public realm. Rear and side boundary fencing often corrugated galvanised iron up to 1.8 metres in height.</p>
	Setting, landscaping, streetscape and public realm features	<p>Lineal township laid out along a narrow valley floor.</p> <p>Township located within a steeply-sided valley and a hillside, rural setting.</p> <p>Narrow streets.</p> <p>The reservoir and the Onkaparinga River.</p> <p>Mature landscape environment where well-established trees and vegetation reinforce the country township character and emphasise the space between buildings.</p> <p>Village or rural township character.</p> <p>Vistas and views into and out of the township are important.</p>
	Representative Buildings	<p>Identified - refer to SA planning database.</p>

<p><b>Kangarilla Historic Area Statement (Onka2)</b></p>	
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>

	<p><b>Port Willunga Historic Area Statement (Onka5)</b></p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>
--	---

Statement#	Statement	
Onka5	Eras, themes and context	<p>1850s - 1930s.</p> <p>Early European survey and settlement in the regional areas around Adelaide; Agriculture, Tertiary Industries, Road Transport, Water Transport/Shipping, Social Services, Leisure Pursuits/Holidaymaking.</p>
	Allotments, subdivision and built form patterns	<p>Radiating layout from north-easterly point where Mindarie Street meets the original termination of William Street.</p> <p>Traditional grid pattern elsewhere.</p> <p>Based on gridiron pattern.</p> <p>Views of the hills to east down public streets.</p>
	Architectural styles, detailing and built form features	<p>Mid-to-late 1800s stone buildings. Informal inter-war holiday and fishing shacks. Post-war holiday houses. Recent dwellings that draw on the traditional form and scale.</p> <p>Informality in the appearance of many buildings arising from additions over time and variety in use of materials. Rectilinear plan form. Low-scale. Typically two or more pavilions rather than a single mass. High solid-to-void ratio. Concave and straight-pitched verandas on front and sometimes side facades reduce bulk and scale and add visual interest. Lean-to forms are common and break down bulk and scale. Vertical proportions in windows and doors. Fine-grain detail in elements such as plinths, string courses, projecting sills.</p> <p>Roof types: gable. Hipped. Steeply-pitched, typically 30 to 40 degrees, reflecting traditional architectural styles and building methods. Short roof spans.</p>
	Building height	<p>Predominantly single-storey, some two-storey (but well-modulated). Single-storey has typical proportions of Victorian-era cottages with wall heights of around 3.3 to 3.6 metres and ridge heights of around 5.0 to 5.5 metres. Larger former hotel is a landmark.</p>
	Materials	<p>Masonry - limestone, sandstone, weatherboard, some rendered masonry - random rubble.</p> <p>Quoins - rendered, brick.</p> <p>Roof - corrugated iron, slate, dark grey.</p> <p>Timber joinery including window frames, door frames, doors, fascias, bargeboards and veranda posts.</p>
	Fencing	<p>Picket. Post-and-rail. Post-and-wire. Hedges. Randomly-laid limestone up to 1.2 metres high. Original front fences associated with era and style of building, which maintain views of the building from the public realm. Rear and side boundary fencing often corrugated galvanised iron up to 1.8 metres in height.</p>
	Setting, landscaping, streetscape and public realm features	<p>Established trees - mature Aleppo Pines, Norfolk Island Pines, Casuarinas. Informal streetscapes often lined with established trees and shrubs.</p>
	Representative Buildings	<p>[Not identified]</p>

<p><b>Aldinga Historic Area Statement (Onka6)</b></p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Onka6	Eras, themes and context	<p>1850s - 1920s.</p> <p>Early European survey and settlement in the regional areas around Adelaide; Agriculture, Tertiary Industries, Communications, Road Transport, Social Services, Religion, Leisure Pursuits, Holidaymaking.</p>
	Allotments, subdivision and built form patterns	<p>Village centred on the intersection of Old Coach Road and Port Road.</p> <p>Large allotments perpendicular to the roads.</p> <p>Allotment sizes increase out from the centre of the township, emphasising the semi-rural environment.</p> <p>Substantial space between buildings.</p> <p>Buildings are sited relatively close to front boundaries and each other in the centre of the township but front and side setbacks increase as distance from the town centre increases. This pattern of development contributes to the sense of space and rural/country township character.</p> <p>Building frontages are parallel to streets becoming more random out from the centre of the township.</p> <p>Based on gridiron pattern.</p> <p>Views of the hills to the east down public streets.</p>
	Architectural styles, detailing and built form features	<p>Mid-to-late 1800s stone buildings with Victorian stylistic influences. Double-fronted cottages, villas, asymmetrical cottages and attached shop-dwellings with Victorian stylistic influences. Hotel, former Temperance Inn, former Institute building (hall) and church are landmarks.</p> <p>Rectilinear plan form. Low-scale. High solid-to-void ratio. Typically two or more pavilions rather than a single mass. Concave, bullnose and straight-pitched verandas on front and sometimes side facades reduce bulk and scale and add visual interest. Lean-to forms are common and break down bulk and scale. Vertical proportions in windows and doors. Fine-grain detail in elements such as plinths, string courses, projecting sills.</p> <p>Roof types: gable, hipped. Steeply-pitched, typically 30 to 40 degrees, reflecting traditional architectural styles and building methods. Short roof spans.</p>

Statement#	Statement
Building height	Predominantly single-storey. Typical proportions of Victorian-era cottages with wall heights of around 3.3 to 3.6 metres and ridge heights of around 5.0 to 5.5 metres. Larger hotel and former school building are landmarks.
Materials	Masonry - limestone, sandstone - random rubble.  Quoins - rendered, brick.  Roof - corrugated iron, Willunga slate.  Timber joinery including window frames, door frames, doors, fascias, bargeboards and veranda posts.
Fencing	Picket. Post-and-rail. Post-and-wire. Hedges. Randomly-laid limestone up to 1.2 metres high.
Setting, landscaping, streetscape and public realm features	Established trees - mature Aleppo Pines, Norfolk Island Pines, Casuarinas.

**Historic Areas affecting Peterborough**

	<b>Peterborough Historic Area Statement (Pet1)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context	Turn of 20 <sup>th</sup> century.	Civic, commercial and retail.
		Railways.

Statement#	Statement	
PET1	Allotments, subdivision and built form patterns	Traditional grid arranged around Main Street and the railway line.
	Architectural styles, detailing and built form features	Along Main Street and within the town centre, commercial buildings with traditional shopfronts, parapets and verandahs. Small, humble workers' accommodation, including single- and double- fronted cottages and row cottages. Villas. Traditional railway architecture including workshops and industrial buildings. Roof pitches between 30-45 degrees.
	Building height	Single storey with the exception of civic and hotel buildings and the Capitol Theatre .
	Materials	Local stone, masonry and corrugated iron.
	Fencing	Open fencing of a rural style not exceeding 1.2m.
	Setting, landscaping, streetscape and public realm features	Along Main Street and within the town centre, consistent setbacks and a strong building line with little interruption. Buildings square to the street. Visibility of the railway line. Dominance of the railways housing and administrative buildings within the railway reserve east of Hurlstone Street. Dominance of railway workshops and industrial buildings at the western end of the railway reserve. Dominance of religious buildings associated with three churches along Kitchener Street. Symmetry given to Main Street by trees where there is no built form. Definition and articulation of four corners created by hotel buildings. Wide streets with stone kerbing. Slate footpaths.
	Representative Buildings	Identified – refer to SA planning database.
PET2	<p><b>Yongala Township Historic Area Statement (Pet2)</b></p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Late 19 <sup>th</sup> and early 20 <sup>th</sup> century.
	Allotments, subdivision and built form patterns	Traditional grid land division pattern arranged around Main Street.
	Architectural styles, detailing and built form features	Along Main Street, traditional shopfronts with verandahs.
	Building height	Single storey with the exception of the Globe Hotel.
	Materials	Local stone, masonry and corrugated iron.
	Fencing	Open fencing of a rural style no more than 1.2m.
	Setting, landscaping, streetscape and public realm features	Silos and the Globe Hotel are landmark features. Consistent building setbacks from street frontages and the central unifying element of the grassed area on Main Street give the area cohesion.
Representative Buildings	[Not identified]	
<b>Historic Areas affecting City of Playford</b>		
	<p><b>One Tree Hill Historic Area Statement (Play1)</b></p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1860s - Uniting Church & Cemetery, Cottages. 1900s - Institute & War Memorial.
	Allotments, subdivision and built form patterns	Orderly allotment configuration fronting Black Top Road. Varying front setbacks. Generous side setbacks.
	Architectural styles, detailing and built form features	Early symmetrical cottages of low scale and simple form. Institutional/community period buildings featuring simple gable form. Rectilinear plan forms. Moderate degree of modulation and articulation. Steep roof pitches in the order of 30 to 40 degrees (slightly lower on domestic buildings. Short roof spans. Hip roof forms on domestic buildings. Gable roof form on institutional/community buildings. Short straight pitched verandahs on domestic buildings. Vertical proportions in windows and doors.

Statement#	Statement	
Play1	Building heights	Low scale single storey domestic buildings. Single storey institutional/community buildings.
	Materials	Consistent with the materials used in the 1860s to 1900s period. Institutional/community buildings featuring local stone face, walls unpainted. Private buildings featuring rendered and painted walls. Corrugated iron roofing. Timber joinery including verandah posts and framing, fascia, barges, window frames, door frames and doors.
	Fencing	Fencing associated with the era and style of the building. Low open style fencing. Low stone fence and iron gate to Uniting Church.
	Setting, landscaping, streetscape and public realm features	Well established streetscape character, with notable landscaping.

Alberton / Rosewater Historic Area Statement (PAdE1)		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Eras, themes and context	1860 - 1950 built development.	
Allotments, subdivision and built form patterns	Squares linked by wide streets. Modified grid pattern. Reasonably consistent allotment depths. Varied front setbacks.	
Architectural styles, detailing and built form features	Wide range of housing styles including villas, bungalows, cottages, terrace and rows.	
Materials	Materials consistent with the style of building and era of its original construction.	
Building height	Single storey.	
Fencing	Low and/or open consistent with the style and era of construction of the building it is associated with. Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms. Fences associated with 1920s including capped timber palings, post and wire or woven wire fences.	
Setting, landscaping, streetscape and public realm features	Pockets of important early houses in Queen Street and King Street, dating from the 1860s. Substantial Victorian stone and brick houses grouped around two squares, Company Square and St Patricks Square, with good examples of substantial corner villas. The Alberton station complex is an important feature in the area and contains the earliest railway station in South Australia and shops of a consistent design. The double line of trees along the railway line that divides the area and the established street trees, particularly, Plane trees, Ash trees, Jacarandas, White Cedars and some mature Canary Island Date Palms make an important contribution to the character of the area.	
Representative Buildings	Identified - refer to SA planning database.	

Exeter Historic Area Statement (PAdE2)		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Eras, themes and context	1860's - 1940's built development.	
Allotments, subdivision and built form patterns	Grid pattern with narrow north-south running streets with the long axes of allotments running east-west. Allotments fronting Harris St, Exmouth Road and Semaphore Road configured with their long axes running north-south so that buildings address those roads. Generally built close to street with small front setbacks.	

Statement#	Statement	
PAdE2	Architectural styles, detailing and built form features	Housing styles consisting of cottages, villas, bungalows, terraces and rows.
	Materials	Materials consistent with the style of building and era of its original construction.
	Building height	Predominately single storey but some scattered two storey.
	Fencing	Low and/or open consistent with the style and era of construction of the building it is associated with. Fences associated Victorian and Edwardian houses include pickets, paling, masonry and cast iron and other traditional fence forms. Fences associated with the 1920s including capped timber palings, post and wire or woven wire fences.
	Setting, landscaping, streetscape and public realm features	The early cottages and neighbourhood shops with verandahs extending over the footpath and the Cooperative Building Society in Denman Street provide a reminder of the local village character of this area, catering for the needs of residents whose main means of transport was walking. A collection of intact early buildings characterised by stone and brick residences, early timber houses and later corrugated iron houses all retaining original detailing. A second small residential pocket on the south side of Semaphore Road which also has a local village character with single storey brick and stone cottages and a two storey hotel and paired terrace.
	Representative Buildings	Identified - refer to SA planning database.

PAdE3	<b>Semaphore / Largs Historic Area Statement (PAdE3)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1860's - 1940's built development.
	Allotments, subdivision and built form patterns	Grid pattern with predominately east-west running streets with the long axes of allotments running north-south. Allotments fronting the Esplanade and Military Road configured with their long axes running east-west so that buildings address these roads. Consistent front setbacks for each street but setbacks varying between streets. Varied allotment sizes.
	Architectural styles, detailing and built form features	Wide range of housing styles from all periods of development of Semaphore and Largs including villas, bungalows, workers row cottages, terraces, rows, mansions and Tudors. Early timber and masonry houses.
	Building height	Predominately single storey but scattered two storey and a small amount of three storey along parts of the Esplanade frontage.
	Materials	Materials consistent with the style of building and era of its original construction. Timber and masonry housing.
Fencing	Low and/or open consistent with the style and era of construction of the building it is associated with. Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms. Fences associated with houses from the 1920s including capped timber palings, post and wire or woven wire fences.	
Setting, landscaping, streetscape and public realm features	A continuous run of high quality residential buildings set among mature Norfolk Island Pines along the Esplanade. The low scale of the Esplanade set against the open view of the sea opposite contains individual houses of historical and architectural importance built as seaside residences. An important sub-precinct along Military Road running from Fort Glanville through to Largs containing high quality public and private buildings. A concentration of early houses around Newman Street and Blackler Street associated with the development of Semaphore during the 1860s. Pockets of mature street planting providing important settings for these early houses, particularly along the Esplanade, Union Street, Clare Street, Hall Street and others.	
Representative Buildings	Identified - refer to SA planning database.	

PAdE4	<b>Mainstreet Historic Area Statement (PAdE4)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context	1850's - 1940's built development.	
Allotments, subdivision and built form patterns	Focused around Commercial Road, St Vincent Street, Dale Street and Church Place. Allotments configured with their long axes running perpendicular to these roads. Allotments sizes vary to accommodate retail and commercial uses. Commercial buildings generally built to road frontages.	
Architectural styles, detailing and built form features	Commercial buildings featuring a fine grain fabric of small scale tenancies with narrow frontages. The extensive use of balconies and verandahs over footpaths.	

Statement#	Statement	
	Building height	Predominately single and two storey with a small number three and four storey buildings to the east of Commercial Road.
	Materials	Materials consistent with the style of building and era of its original construction.
	Fencing	<i>[Not stated]</i>
	Setting, landscaping, streetscape and public realm features	The area is a commercial and retail focus. It acts as a buffer and an approach area to the Port Adelaide State Heritage Area noting that the boundary around the Port Adelaide State Heritage Area is relatively arbitrary and the Main street Policy Area contains some buildings that are of equal significance to buildings within the Port Adelaide State Heritage Area. It features a large number of early buildings, many of which have housed the same continuous functions since the time of their construction. The State Heritage listed St Paul's Church is a prominent building in the area and provides a land mark along a major view corridor from the Nelson St Bridge. Similarly, the State Heritage listed Uniting Church off Commercial Road is an important landmark and southern gateway to this area. The area contains a number of State Heritage places and many Local Heritage places.
	Representative Buildings	Identified - refer to SA planning database.

Woolstores Historic Area Statement (PAdE5)		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
PAdE5	Eras, themes and context	1880's - 1940's built development.
	Allotments, subdivision and built form patterns	Modified grid pattern with St Vincent Street and Bedford Street providing the main access roads into and out of this area. The southern and western boundaries of the grid are radiused by Brock Street and Barlow Street. The northern boundary is defined by Santo Parade, the northern side of which was previously an extension of Dock 1 and provided the woolstores with convenient access to cargo vessels. Woolstores and commercial buildings generally built to road frontages. Cottages close to and facing the road frontage. Medium to large allotment sizes.
	Architectural styles, detailing and built form features	Large purpose designed woolstores and warehouses featuring strong and robust built forms with parapet walls and saw tooth roofs. Simple, single storey workers cottages.
	Building height	Large masonry woolstores buildings ranging from single to four storeys. Single storey former workers cottages.
	Materials	Masonry and corrugated iron feature strongly and are key defining materials. Materials consistent with the style of building and era of its original construction.
	Fencing	<i>[Not stated]</i>
	Setting, landscaping, streetscape and public realm features	A key characteristic of this area is the compact group of large, well detailed warehouses associated with the wool export trade and located close to the dockside. The woolstores buildings are highly visible and prominent from eastern approaches into the Port Adelaide Regional Centre, particularly from Perkins Drive. The unimpeded visibility and prominence of these buildings is important. The area also contains a collection of primarily corrugated iron houses, mainly located between Aberdeen and Crozier Streets south of Brock Street. Some are identified as Local Heritage Places, dating from 1900 to 1920, which served as worker's housing for the nearby woolstores. These surviving houses are a remnant of a more consistent low scale residential area which contrasted visually with the adjacent imposing woolstores.
	Representative Buildings	Identified - refer to SA planning database.

Semaphore Road Historic Area Statement (PAdE6)		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
	Eras, themes and context	1870's - 1920's built development. Semaphore Road developed as a substantial commercial centre after the establishment of a railway line from Port Adelaide to Semaphore Jetty in 1878 and a subsequent increase in residential population in the area requiring goods and services.
	Allotments, subdivision and built form patterns	Semaphore Road is a wide east west road that in this area runs from Causeway Road to the Esplanade.  Allotments are orientated so that buildings address Semaphore Road. Allotment sizes vary to accommodate a range of retail and commercial uses.  Retail and commercial buildings built to and addressing the Semaphore Road frontage.
	Architectural styles, detailing and built form features	A variety of Government, institutional and commercial buildings including simple single storey shops with verandahs and parapet walls. Many of these shops retain post-supported verandahs over the footpath. There are pockets of well-preserved historic residential development featuring mansions, villas and cottages.
	Building height	Predominately single storey and two storey.
	Materials	Materials consistent with the style of building and era of its original construction.

Statement#	Statement	
PAdE6	Fencing	<p>None for retail and commercial buildings.</p> <p>Low and/or open consistent with the style and era of construction of the building it is associated with.</p> <p>Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms.</p>
	Setting, landscaping, streetscape and public realm features	<p>A popular main street that links Semaphore and Port Adelaide and provides a pleasant environment for both seaside holiday makers and residents.</p> <p>The seaward end of Semaphore Road retains strong evidence of Semaphore's original function as a transport and communications station for the early South Australian colony from 1850 onwards. The Time Ball Tower, Customs Boarding Station and the early Post Office building remain as an indication of these early services. The development of the Semaphore Town Hall, now the Library, and the RSL Hall continued the provision of community facilities, and these developed in association with the commercial areas of Semaphore road further to the east. This area is an important reminder of Semaphore's early prominence in the development of Port Adelaide and the State.</p> <p>A generous public foreshore provides a popular recreation area and the backdrop and view to the western end of Semaphore Road.</p> <p>The road is wide and features pedestrian areas, paving, upper canopy trees and low lying shrubs located in the median and verge, seating and public art. It is a well-established retail and commercial area that provides cafes, restaurants, shops, hotels, churches, a cinema and a range of other facilities.</p> <p>Many well maintained commercial and residential buildings from the 1880s to the 1920s remain in the area. There are many Local Heritage listed places along the length of the road and a number of State Heritage listed places in the western portion of the area.</p>
	Representative Buildings	Identified - refer to SA planning database.

PAdE7	<b>Jetty Road Historic Area Statement (PAdE7)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	<p>1870's - 1920's built development.</p> <p>The first subdivision of Largs was in 1873. The Largs Bay Land and Investment Company formed in 1881, constructed the jetty and built the Largs Pier Hotel by December of 1882.</p>
	Allotments, subdivision and built form patterns	<p>Allotments are orientated so that buildings have frontages to and address Jetty Road and the Esplanade. Generous rectangular allotments with wide frontages.</p> <p>Retail and commercial buildings built to and addressing road frontages.</p>
	Building height	Single storey and two storey except at the Jetty Road / Esplanade intersection where development is three storey.
	Architectural styles, detailing and built form features	A mix of architectural styles including simple, single storey shops with over footpath verandahs and parapet walls and a double storey terrace with residential development over ground floor shops.
Materials	Materials consistent with the style of building and era of its original construction.	
Fencing	None for retail and commercial buildings.	
Setting, landscaping, streetscape and public realm features	<p>Located at the seaward end of Jetty Road, this area has strong links to the foreshore and beach and is a popular area for local residents and visitors.</p> <p>The State Heritage listed Largs Pier Hotel of Victorian (Italianate) architecture is a landmark building. Defining the corner of the Esplanade and Jetty Road, the Hotel, with its arcaded facades presents a prominent entry to this area.</p> <p>The area also contains other early commercial and residential buildings including a former Post Office, two storey shops, and early housing. The latter includes a row of double storey terraces with small scale residential development located above shops.</p>	
Representative Buildings	<i>[Not identified]</i>	

**Historic Areas affecting Port Pirie Regional Council**

	<b>Port Pirie Historic Area Statement (PtPi1)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Eras, themes and context	Integral part of the Port Pirie Regional Centre. 19th and early 20th century.	
Allotments, subdivision and built	Buildings on Ellen Street and Alexander Street built to the allotment boundary.	

Statement#	Statement	
PtPi1	form patterns	Traditional allotment pattern, frontages and widths.
	Architectural styles, detailing and built form features	Traditional designs, roof forms and building features such as verandas, awnings and balconies.
	Building height	One and two storeys.
	Materials	Original or otherwise complementary materials, colours and finishes.
	Fencing	Front fences and gates associated with traditional period, style and form of the building, up to 1.2 m in height.
	Setting, landscaping, streetscape and public realm features	The distinctive historic character is created and enhanced by the interaction between built form, spaces, plantings and general street pattern within the area.
	Representative Buildings	Identified - refer to SA planning database.

PtPi2	<b>Crystal Brook Historic Area Statement (PtPi2)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Integral part of Crystal Brook Town Centre.
	Allotments, subdivision and built form patterns	Traditional allotment pattern, frontages and widths.
	Architectural styles, detailing and built form features	Traditional designs, roof forms and building features such as verandas, awnings and balconies.
	Building height	Predominantly single storey with two storey structures in suitable locations.
	Materials	Original or otherwise complementary materials, colours and finishes.
	Fencing	Front fences and gates associated with traditional period, style and form of the building, up to 1.2 m in height.
	Setting, landscaping, streetscape and public realm features	The distinctive historic character is created and enhanced by the interaction between built form, spaces, plantings and general street pattern within the area.
Representative Buildings	Identified - refer to SA planning database.	

**Historic Areas affecting City of Prospect**

Pr1	<b>Fitzroy Terrace Historic Area Statement (Pr1)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Late 19th and Early 20th century mansion style housing.
	Allotments, subdivision and built form patterns	Very large spacious allotments with wide frontages. Sizable setbacks from all boundaries with sizable spaces between buildings. The established pattern of buildings sited away from allotment boundaries makes a significant contribution to the character.
	Architectural styles, detailing and built form features	Very large mansion style dwellings. Additions to the rear or side of dwellings. Range of designs with homogeneity derived from decorative front facades, pitched roofs, brick chimneys & front verandahs and building placement on allotments.
	Building height	Up to 2 storeys.
	Materials	Variety of materials and colour finishes with additional detailing around windows, doors and edges of walls.
	Fencing	Low open style to 1.2 metres high.

Statement#	Statement																	
		Fencing that associated with the period and style of the dwelling.																
	Setting, landscaping, streetscape and public realm features	Substantial well landscaped gardens with front yards that complement the style of the dwelling. Landscaping around dwellings. The spacious streetscape character of Fitzroy Terrace is created by the large allotments on which have been built a range of equally large residences. Garages and carports are designed and sited to be subordinate to the main dwelling.																
	Representative Buildings	Identified - refer to SA planning database.																
Pr2	<p><b>Clifton Street Historic Area Statement (Pr2)</b></p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. Historic Areas affecting Robe	
	<p><b>Robe Historic Area Statement (Ro1)</b></p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>

Statement#	Statement
RO1	<p>Eras, themes and context</p> <p>19<sup>th</sup> century and early decades of 20<sup>th</sup> century.</p> <p>Shipping port, communication and administration township servicing pastoral development of the South East.</p>
	<p>Allotments, subdivision and built form patterns</p> <p>Topography shapes the setting of Robe and land division pattern. Royal Circus is a low knoll. It is a commemorative landmarks and a distinct road feature. There is a legible connection between Royal Circus, the sea wall / jetty abutment, the Customs House and the Post and Telegraph Office. Main Road, Victoria Street and Mundy Street form the main line of road to the port and the main street. The traditional street grid pattern extends either side of Victoria Street, to the coastal fore-dune and across the ridge to the south which overlooks and forms the backdrop to the township.</p> <p>Most of the original large square allotments have been subdivided but the pattern of historic buildings remains legible.</p>
	<p>Architectural styles, detailing and built form features</p> <p>Traditional stone commercial buildings with shopfronts, parapets and verandahs within the town centre. The variety rather than the consistency of traditional building forms is a distinct characteristic of Robe. Small workers' cottages on large allotments, often with low walls, hipped roofs spanning one or two rooms, casement windows and lime-washed or natural stone walls. Heritage listed community buildings (the primary school, churches and the Institute) are on prominent sites and remain as strong landmarks. Heritage-listed government buildings (the Post and Telegraph Office, Customs House and Court House) dominate Royal Circus. Massive stone chimneys are a characteristic feature of the historic buildings. Stone outbuildings are visible from public streets. Roof pitches between 25-35 degrees. Roofs with a high degree of articulation, steep pitches and small spans, provide a unique roofscape across Robe to Guichen Bay. Older buildings have casement windows. Later buildings have double-hung timber sash windows.</p>
	<p>Building height</p> <p>Two storey buildings along small section of Smillie Street, and hotels. Their built form combines double and single storey elements and verandahs, articulating their bulk and scale. Adjacent buildings differ in style, creating a varied rather than a consistent skyline. Other historic buildings generally single storey, with small span hipped roofs. Building floor levels are close to, step with or are built into, the slope of the land.</p>
	<p>Materials</p> <p>Local stone, limestone, rendered and bagged masonry with painted or lime wash finish. Painted timber weatherboard, painted timber joinery, trims, verandahs, barges and fascias. Galvanised and painted corrugated iron roofing. Some examples of slate and traditional flat metal roof tiles. Driveway materials are neutral in colour and pattern with natural finishes.</p>
	<p>Fencing</p> <p>Local stone, hardwood palings and pickets, hardwood and woven wire, brush with round hardwood posts and hedges not exceeding 1.2m.</p>
	<p>Setting, landscaping, streetscape and public realm features</p> <p>Views and vistas of the entrance to the town centre along Main Road past Lake Fellmongery and Lake Charra. Views of the foreshore area adjacent Town Beach and streetscapes of historic buildings of Smillie Street and Mundy Terrace. Views across the area illustrate the importance of native vegetation and the distinct character of the roof designs of historic buildings. Historic buildings square to and often close to street alignments, particularly on Smillie Street. Minimal breaks between buildings except where access to the rear of a site is provided. Streets, verges and reserves in the public realm characterised by Lakestone kerbing, limestone cuttings, landmark trees (Norfolk Island Pines in particular) and native vegetation. Important public open space reserves that frame the township at Lannum Reserve, the Institute / Town Beach Foreshore, Royal Circus and the southern edge of Lake Butler. Each has a distinct landscape structure, planting character and historic quality.</p>

Un2	<b>Residential Compact Goodwood Estate Historic Area Statement (Un2)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.  These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.  The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1870 to 1900 built development.
	Allotments, subdivision and built form patterns	Simple grid layout pattern, with longitudinal axis perpendicular to narrow roads. Regular modest allotments and wide site frontages. Prevailing and coherent rhythm of building siting, street setbacks, side boundary setbacks, spacing between buildings and garden landscape setting.
	Architectural styles, detailing and built form features	Victorian double fronted, symmetrical and asymmetrical cottages. Complementary Victorian corner shops that are landmarks and features of the area. Hipped and gable roof forms, roof louvres, chimneys, open bullnose, concave or straight-pitch verandahs, feature ornamentation (plasterwork and ironwork), lattice work and associated front fences. Carports, garages and side additions are separate and recessed from the main building and façade, and are a minor, unobtrusive presence in the streetscape.
	Building height	Wall Height in the order of 3.5 metres. Total Roof Height in the order of 5.7 metres; and Roof Pitch in the order of 27 degrees and 35 degrees. Verandahs in the order of 2.1 metre fascia height and 3.0 metre pitching height.
	Materials	Sandstone. Bluestone. Timber joinery including window frames, door frames, doors, fascias, bargeboards and verandah posts. Brick quoins, occasionally rendered, around windows and doors. Brick or rendered string courses and plinths. Corrugated Iron roof cladding.
	Fencing	Typical of the historic character of the area, street and architectural style and materials of the associated building. Where forward of the front façade of the principle building, low in height, typically less than 1.0 metre but up to 1.2 metres. Larger sites and of more than 16 metres street frontage may include vertical elements up to 1.8 metres in total height. Open, see-through and maintaining an open streetscape presence of the associated building, including typical styles comprising: Timber picket, dowel or paling with top rail; Corrugated iron or mini orb or steel strap panels within timber framing and posts; Woven crimped wire, wire mesh on timber or galvanised steel tube framing; Simple masonry plinth (500mm) and widely spaced minimum numbers of piers with decorative see-through iron palisade or steel bar inserts; Stone, brick and/or stucco masonry low in height with wrought iron or steel bar inserts (typically geometric pattern); Hedges, with or without fencing.
	Setting, landscaping, streetscape and public realm features	Compact streetscape character, simple grid of short and narrow streets, narrow verges, modest street trees. Goodwood Estate of 1875 a rectangular section of 30 acres (12.1 hectares) with regular layout of standard modest properties, some local corner shops, adjacent to facilities and services along Goodwood Road and the notable bisection in north by tramway corridor.
Representative Buildings	Identified - refer to SA planning database.

	<b>Residential Compact Parkside St Ann's Estate Historic Area Statement (Un3)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.  These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.  The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1860 to 1940 built development.
	Allotments, subdivision and built form patterns	Village initial layout and development in 1854. Tightly angled pattern of short and narrow streets. Prevailing and coherent rhythm of building siting, street setbacks, side boundary setbacks, spacing and garden landscape setting. Varied allotment sizes and site frontages reflective of the architectural era of the building.
Architectural styles, detailing and built form features	Victorian and Turn-of-the-Century double fronted cottages and villas, single-fronted, attached and row cottages. Later complementary Inter-War styles, together with corner shop variations and institutional buildings, including school and church buildings. Hipped and gable roof forms, roof louvres, chimneys, open bullnose, concave or straight-pitch verandahs, feature ornamentation (plasterwork and ironwork), lattice work and associated front fences. Carports, garage	

Statement#	Statement	
Un3		and side additions are separate and recessed from the main building and façade, and are a minor, unobtrusive presence in the streetscape.
	Building height	Wall Height in the order of 3.3 to 3.5 metres, total Roof Height in the order of 5.7 metres; and Roof Pitch in the order of 27 degrees and 35 degrees. Verandahs in the order of 2.1 metre fascia height and 3.0 metre pitching height.
	Materials	Sandstone. Bluestone. Timber joinery including window frames, door frames, doors, fascias, bargeboards and verandah posts. Brick quoins, occasionally rendered, around windows and doors. Brick or rendered string courses and plinths. Rendered masonry. Corrugated Iron roof cladding.
	Fencing	Typical of the historic character of the area, street and architectural style and materials of the associated building. Where forward of the front façade of the principle building, low in height, typically less than 1.0 metre but up to 1.2 metres. Larger sites and of more than 16 metres street frontage may include vertical elements up to 1.8 metres in total height. Open, see-through and maintaining an open streetscape presence of the associated building, including typical styles comprising: Timber picket, dowel or paling with top rail; Corrugated iron or mini orb or steel strap panels within timber framing and posts; Woven crimped wire, wire mesh on timber or galvanised steel tube framing; Simple masonry plinth (500mm) and widely spaced minimum numbers of piers with decorative see-through iron palisade or steel bar inserts; Stone, brick and/or stucco masonry low in height with wrought iron or steel bar inserts (typically geometric pattern); hedges, with or without fencing.
	Setting, landscaping, streetscape and public realm features	Early village township of 1854 on edge of Adelaide Parklands with an angular layout following alignment of arterial roads. Compact streetscape character. Tightly angled pattern of short and narrow streets. Narrow verges. Modest street trees.
	Representative Buildings	Identified - refer to SA planning database.

Residential Compact Forestville (North) Historic Area Statement (Un4)		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Eras, themes and context	1880 to 1930 built development.	
Allotments, subdivision and built form patterns	Simple grid layout pattern of roads, with longitudinal axis perpendicular to narrow roads. Regular large allotments and site frontages. Prevailing and coherent rhythm of building siting, street setbacks, side boundary setbacks, spacing between buildings and garden landscape setting.	
Architectural styles, detailing and built form features	Victorian and Turn-of-the-Century double-fronted, single-fronted as well as attached cottages. Victorian and Turn-of-the-Century symmetrical and asymmetrical villas. Inter-War Bungalows. Hipped and gable roof forms, chimneys, open verandahs, feature ornamentation (plasterwork, ironwork and timberwork), lattice work and associated front fences. Carports, garages and side additions are separate and recessed from the main building and façade, and are a minor, unobtrusive presence in the streetscape.	
Building height	Wall Height in the order of 3.5 metres. Total Roof Height in the order of 5.7 metres; and Roof Pitch in the order of 27 degrees and 35 degrees. Verandahs in the order of 2.1 metre fascia height and 3.0 metre pitching height. Consistent and recognisable pattern of traditional building proportions including wall heights and widths of facades, and roof height, volumes and shapes associated with the identified architectural styles.	
Materials	Sandstone. Bluestone. Timber joinery including window frames, door frames, doors, fascias, bargeboards and verandah posts. Brick quoins, occasionally rendered, around windows and doors. Brick or rendered string courses and plinths. Rendered masonry. Corrugated iron roof cladding. Tiled roof cladding on some post 1900s buildings.	
Fencing	Typical of the historic character of the area, street and architectural style and materials of the associated building. Where forward of the front façade of the principle building, low in height, typically less than 1.0 metre but up to 1.2 metres. Larger sites and of more than 16 metres street frontage may include vertical elements up to 1.8 metres in total height. Architectural styles, detailing and built form features	Victorian and Turn-of-the-Century double-fronted, single-fronted as well as attached cottages. Victorian and Turn-of-the-Century symmetrical and asymmetrical villas. Inter-War Bungalows. Hipped and gable roof forms, chimneys, open verandahs, feature ornamentation (plasterwork, ironwork and timberwork), lattice work and associated front fences. Carports, garages and side additions are separate and recessed from the main building and façade, and are a minor, unobtrusive presence in the streetscape.	Building height	Wall Height in the order of 3.5 metres. Total Roof Height in the order of 5.7 metres; and Roof Pitch in the order of 27 degrees and 35 degrees.  Verandahs in the order of 2.1 metre fascia height and 3.0 metre pitching height. Consistent and recognisable pattern of traditional building proportions including wall heights and widths of facades, and roof height, volumes and shapes associated with the identified architectural styles.	Materials	Sandstone. Bluestone. Timber joinery including window frames, door frames, doors, fascias, bargeboards and verandah posts. Brick quoins, occasionally rendered, around windows and doors. Brick or rendered string courses and plinths. Rendered masonry. Corrugated iron roof cladding. Tiled roof cladding on some post 1900s buildings.	Fencing	Typical of the historic character of the area, street and architectural style and materials of the associated building. Where forward of the front façade of the principle building, low in height, typically less than 1.0 metre but up to 1.2 metres. Larger sites and of more than 16 metres street frontage may include vertical elements up to 1.8 metres in total height. Open, see-through and maintaining an open streetscape presence of the associated building, including typical styles comprising: Timber picket, dowel or paling with top rail; Corrugated iron or mini orb or steel strap panels within timber framing and posts; Woven crimped wire, wire mesh on timber or galvanised steel tube framing; Simple masonry plinth (500mm) and widely spaced minimum numbers of piers with decorative see-through iron palisade or steel bar inserts; Stone, brick and/or stucco masonry low in height with wrought iron or steel bar inserts (typically geometric pattern); hedges, with or without fencing.	Setting, landscaping, streetscape and public realm features	Compact streetscape character. Simple grid of short and narrow streets. Narrow verges. Modest street trees.	Representative Buildings	<i>[Not identified]</i>
	Eras, themes and context	1880 to 1930 built development.															
	Allotments, subdivision and built form patterns	Simple grid layout pattern of roads, with longitudinal axis perpendicular to narrow roads. Regular large allotments and site frontages. Prevailing and coherent rhythm of building siting, street setbacks, side boundary setbacks, spacing between buildings and garden landscape setting.															
	Architectural styles, detailing and built form features	Victorian and Turn-of-the-Century double-fronted, single-fronted as well as attached cottages. Un9	<b>Residential Grand Unley Park Heywood Estate Historic Area Statement (Un9)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1860 to 1940's built development.
	Allotments, subdivision and built form patterns	Regular, very generous allotments and site frontages. Prevailing rhythm of building siting, street setbacks, side boundary setbacks, spacing between buildings and grand garden landscape setting.
	Architectural styles, detailing and built form features	Victorian Villas and Mansions. Turn-of-the-Century Villas and Mansions. Inter-War period Bungalows, particularly Gentleman's Bungalows. Tudor, particularly Gentleman's Tudors. Old English, Georgian Revival and other International Styles. Individualised by original architectural inspirations. Carports, garages and side additions are separate and recessed from the main building and façade, and are a minor, unobtrusive presence in the streetscape.
	Building height	Grand built scale and form of existing historic buildings.
	Materials	Consistent with the materials typically associated with the style and era of the dwelling. For example (but not limited to): stone with brick or rendered embellishments, iron roof and timber joinery for Victorian and Turn-of-the-Century; stone with brick embellishments, tiled roof and timber joinery for Bungalows; brick with rendered embellishments, tiled roof and timber joinery and gable details for Tudors, brick or render with restrained detailing, flat roof forms and timber, steel and/or concrete features for International Styles.
	Fencing	Typical of the historic character of the area, street and architectural style and materials of the associated building. Where forward of the front façade of the principle building, low in height, typically less than 1.0 metre but up to 1.2 metres. Larger sites and of more than 16 metres street frontage may include vertical elements up to 1.8 metres in total height. Open, see-through and maintaining an open streetscape presence of the associated building, including typical styles comprising: Timber picket, dowel or paling with top rail; Corrugated iron or mini orb or steel strap panels within timber framing and posts; Woven crimped wire, wire mesh on timber or galvanised steel tube framing; Simple masonry plinth (500mm) and widely spaced minimum numbers of piers with decorative see-through iron palisade or steel bar inserts; Stone, brick and/or stucco masonry low in height with wrought iron or steel bar inserts (typically geometric pattern); hedges, with or without fencing.
	Setting, landscaping, streetscape and public realm features	Wide streets and verges. Avenues of substantial street trees. Expansive allotments, street frontages with substantial well landscaped gardens including trees. Heywood Park a key feature at junction of key axis of King William Road and Northgate Street.
	Representative Buildings	<i>[Not identified]</i>

Un10	<b>Residential Grand Myrtle Bank Historic Area Statement (Un10)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. Un11	<b>Residential Spacious Millswood Page Estate Historic Area Statement (Un11)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1900 to 1930's built development.
	Allotments, subdivision and built form patterns	<p>Basic grid street layout around the central recreation feature of Goodwood Oval, but with long curvilinear and some truncated streets around the bisecting train lines previously laid in the 1870's. Spacious streetscape character of long, short and curved, wide, tree-lined streets.</p> <p>Generous allotments and site frontages. Prevailing and coherent rhythm of building siting, street setbacks, side boundary setbacks, spacing between buildings and garden landscape setting.</p>
	Architectural styles, detailing and built form features	Victorian and Turn-of-the-Century villa styles. Primarily distinctive Inter-War period bungalows, art deco, Tudor and complementary later styles. Hipped and gable roof forms, roof louvres, chimneys, open bullnose, concave or straight-pitch verandahs, feature ornamentation (plasterwork and ironwork), lattice work and associated front fences. Carports, garages and side additions are separate and recessed from the main building and façade, and are a minor, unobtrusive presence in the streetscape.
	Building height	Wall Height in the order of 3.6 metres. Total Roof Height in the order of 5.6 metres; and Roof Pitch in the order of 27 degrees and 35 degrees.-Verandahs, on earlier styles in the order of 2.1 metre fascia height and 3.0 metre pitching height, and on later styles incorporated as part of principle building main roof extension.
	Materials	Sandstone. Bluestone. Brick, including glazed brick, and stucco painted finishes. Rendered masonry. Timber joinery including window frames, door frames, doors, fascias, barges and verandah posts. Brick quoins, occasionally rendered, around windows and doors. Corrugated Iron roof cladding. Tiled roof cladding on later style buildings.
	Fencing	Typical of the historic character of the area, street and architectural style and materials of the associated building. Where forward of the front façade of the principle building, low in height, typically less than 1.0 metre but up to 1.2 metres. Larger sites and of more than 16 metres street frontage may include vertical elements up to 1.8 metres in total height. Open, see-through and maintaining an open streetscape presence of the associated building, including typical styles comprising: Timber picket, dowel or paling with top rail; Corrugated iron or mini orb or steel strap panels within timber framing and posts; Woven crimped wire, wire mesh on timber or galvanised steel tube framing; Simple masonry plinth (500mm) and widely spaced minimum numbers of piers with decorative see-through iron palisade or steel bar inserts; Stone, brick and/or stucco masonry low in height with wrought iron or steel bar inserts (typically geometric pattern); hedges, with or without fencing.
	Setting, landscaping, streetscape and public realm features	Spacious streetscape character. Simple grid of long, short and curved, wide, tree-lined streets. Large front gardens. Wide verges. Large street trees.

	Setting, landscaping, streetscape and public realm features	Spacious streetscape character. Simple grid of short, wide, tree-lined streets. Large front gardens. Wide verges. Large street trees.
	Representative Buildings	<i>[Not identified]</i>

<p><b>Residential Spacious Unley and Malvern Trimmer Estate Historic Area Statement (Un13)</b></p>		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>		
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>		
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Eras, themes and context	1880 to 1920 built development.	
Allotments, subdivision and built form patterns	Spacious streetscape character of regular grid layout (with axial views focussed on the central oval feature) of wide, tree-lined streets. Generous allotments and site frontages. Prevailing and coherent rhythm of building siting, street setbacks, side boundary setbacks, spacing between buildings and garden landscape setting.	
Architectural styles, detailing and built form features	Victorian and Turn-of-the-Century villas (asymmetrical and symmetrical), double-fronted cottages and limited complementary, Inter-war era, styles. More affluent, original owners developed some larger, amalgamated allotments in the southern areas of Malvern establishing grander residences and gardens. Hipped and gable roof forms, roof louvres, chimneys, open bullnose, concave or straight-pitch verandahs, feature ornamentation (plasterwork and ironwork), lattice work and associated front fences. Carports, garages and side additions are separate and recessed from the main building and façade, and are a minor, unobtrusive presence in the streetscape.	
Building height	Wall Height in the order of 3.6 metres. Total Roof Height in the order of 5.6 metres; and Roof Pitch in the order of 27 degrees and 35 degrees. Verandahs, on earlier styles in the order of 2.1 metre fascia height and 3.0 metre pitching height, and on later styles incorporated as part of principle building main roof extension.	
Materials	Sandstone. Bluestone. Timber joinery including window frames, door frames, doors, fascias, bargeboards and verandah posts. Brick quoins, occasionally rendered, around windows and doors. Brick or rendered string courses and plinths. Corrugated iron roof cladding. Tiled roof cladding on some post 1900s buildings.	
Fencing	Typical of the historic character of the area, street and architectural style and materials of the associated building. Where forward of the front façade of the principle building, low in height, typically less than 1.0 metre but up to 1.2 metres. Larger sites and of more than 16 metres street frontage may include vertical elements up to 1.8 metres in total height. Open, see-through and maintaining an open streetscape presence of the associated building, including typical styles comprising: Timber picket, dowel or paling with top rail; Corrugated iron or mini orb or steel strap panels within timber framing and posts; Woven crimped wire, wire mesh on timber or galvanised steel tube framing; Simple masonry plinth (500mm) and widely spaced minimum numbers of piers with decorative see-through iron palisade or steel bar inserts; Stone, brick and/or stucco masonry low in height with wrought iron or steel bar inserts (typically geometric pattern); hedges, with or without fencing.	
Setting, landscaping, streetscape and public realm features	Spacious streetscape character. Regular grid layout of wide tree-lined streets, with axial views along wide, tree-lined Cambridge Terrace and Oxford Street focussed on the central Unley Oval feature. Large front gardens. Wide verges. Large street trees.

Un25	<b>Residential Spacious Malvern Highgate Fullarton and Myrtle Bank (South) Historic Area Statement (Un25)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1880 to 1940 built development.
	Allotments, subdivision and built form patterns	Simple grid layout pattern, with longitudinal axis perpendicular to narrow roads. Regular large allotments and site frontages. Prevailing and coherent rhythm of building siting, street setbacks, side boundary setbacks, spacing between buildings and garden landscape setting.
	Architectural styles, detailing and built form features	Victorian. Turn-of-Century. Inter-War. Hipped and gable roof forms, roof louvres, chimneys, open verandahs, feature ornamentation, (plasterwork, ironwork and timberwork), latticework and associated front fences. Carports, garages and side additions are separate and recessed from the main building and façade, and are a minor, unobtrusive presence in the streetscape.
	Building height	Consistent scale and proportions of buildings including wall heights and roof designs to the streetscape.
	Materials	<p>Sandstone. Bluestone. Brick, including glazed brick .Rendered masonry.</p> <p>Timber joinery including window frames, door frames, doors, fascias, barges and verandah posts. Brick quoins, occasionally rendered, around windows and doors. Corrugated Iron roof cladding. Tiled roof cladding on some post 1900s buildings.</p>
	Fencing	<p>Typical of the historic character of the area, street and architectural style and materials of the associated building. Where forward of the front façade of the principle building, low in height, typically less than 1.0 metre but up to 1.2 metres. Larger sites and of more than 16 metres street frontage may include vertical elements up to 1.8 metres in total height. Un27	<b>Residential Compact Parkside (South) Historic Area Statement (Un27)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1880 to 1930 built development.
	Allotments, subdivision and built form patterns	Simple grid layout pattern of roads, with longitudinal axis perpendicular to narrow roads. Regular large allotment sizes and site frontages. Prevailing and coherent rhythm of building siting, street setbacks, side boundary setbacks, spacing between buildings and garden landscape setting.
	Architectural styles, detailing and built form features	Victorian and Turn-of-the-Century double-fronted, single-fronted as well as attached cottages. Victorian and Turn-of-the-Century symmetrical and asymmetrical villas. Inter-War Bungalows. Hipped and gable roof forms, chimneys, open verandahs, feature ornamentation (plasterwork, ironwork and timberwork), lattice work and associated front fences. Carports, garages and side additions are separate and recessed from the main building and façade, and are a minor, unobtrusive presence in the streetscape.
	Building height	Wall Height in the order of 3.5 metres. Total Roof Height in the order of 5.7 metres; and Roof Pitch in the order of 27 degrees and 35 degrees. Verandahs in the order of 2.1 metre fascia height and 3.0 metre pitching height. Consistent and recognisable pattern of traditional building proportions including wall heights and widths of facades, and roof height, volumes and shapes associated with the identified architectural styles.
Materials	Sandstone. Bluestone. Timber joinery including window frames, door frames, doors, fascias, bargeboards and verandah posts. Brick quoins, occasionally rendered, around windows and doors. Brick or rendered string courses and plinths. Rendered masonry. Corrugated iron roof cladding. Tiled roof cladding on some post 1900s buildings.	
Fencing	Typical of the historic character of the area, street and architectural style and materials of the associated building. Where forward of the front façade of the principle building, low in height, typically less than 1.0 metre but up to 1.2 metres. Larger sites and of more than 16 metres street frontage may include vertical elements up to 1.8 metres in total height. Open, see-through and maintaining an open streetscape presence of the associated building, including typical styles comprising: Timber picket, dowel or paling with top rail; Corrugated iron or mini orb or steel strap panels within timber framing and posts; Woven crimped wire, wire mesh on timber or galvanised steel tube framing; Simple masonry plinth (500mm) and widely spaced minimum numbers of piers with decorative see-through iron palisade or steel bar inserts; Stone, brick and/or stucco masonry low in height with wrought iron or steel bar inserts (typically geometric pattern); hedges, with or without fencing.	
Setting, landscaping, streetscape and public realm features	Compact streetscape character. Simple grid of short and narrow streets. Narrow verges. Modest street trees.	
Representative Buildings	<i>[Not identified]</i>	
	<b>Residential Spacious Fullarton Roseberry Estate Historic Area Statement (Un28)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1840 to 1940 built development.
Allotments, subdivision and built form patterns	Spacious streetscape character of regular grid of short, wide, tree-lined streets. Regular, generous allotments and site frontages. Prevailing and coherent rhythm of building siting, street setbacks, side boundary setbacks, spacing between buildings and garden landscape setting.	
Architectural styles, detailing and built form features	Notable original homesteads include "Rosefield" c1842 and "Woodfield" c1883. Victorian and Turn-of-the-Century double fronted cottages and villas. Inter-War period primarily bungalows, and some unique Spanish mission and complementary later styles. Hipped and gable roof forms, roof louvres, chimneys, open bullnose, concave or straight-pitch verandahs, feature ornamentation (plasterwork and ironwork), lattice work and associated front fences. Carports, garages and side additions are separate and recessed from the main building and façade, and are a minor, unobtrusive presence in the streetscape.	
Building height	Wall Height in the order of 3.6 metres. Total Roof Height in the order of 5.6 metres; and Roof Pitch in the order of 27 degrees and 35 degrees.	

Statement#	Statement
Un28	Verandahs, on earlier styles in the order of 2.1 metre fascia height and 3.0 metre pitching height, and on later styles incorporated as part of principle building main roof extension.
	<b>Materials</b> Sandstone. Bluestone. Brick, including glazed brick. Rendered masonry. Timber joinery including window frames, door frames, doors, fascias, barges and verandah posts. Brick quoins, occasionally rendered, around windows and doors. Corrugated Iron roof cladding. Tiled roof cladding on some post 1900s buildings.
	<b>Fencing</b> Typical of the historic character of the area, street and architectural style and materials of the associated building. Where forward of the front façade of the principle building, low in height, typically less than 1.0 metre but up to 1.2 metres. Larger sites and of more than 16 metres street frontage may include vertical elements up to 1.8 metres in total height. Open, see-through and maintaining an open streetscape presence of the associated building, including typical styles comprising: Timber picket, dowel or paling with top rail; Corrugated iron or mini orb or steel strap panels within timber framing and posts; Woven crimped wire, wire mesh on timber or galvanised steel tube framing; Simple masonry plinth (500mm) and widely spaced minimum numbers of piers with decorative see-through iron palisade or steel bar inserts; Stone, brick and/or stucco masonry low in height with wrought iron or steel bar inserts (typically geometric pattern); hedges, with or without fencing.
	<b>Setting, landscaping, streetscape and public realm features</b> Spacious streetscape character from later 1921-1927 subdivision of original farms. Simple grid of short, wide, tree-lined streets. Large front gardens. Wide verges. Large street trees. Regular street-fronting dwelling format, primarily of detached dwellings, and complementary community buildings.
	<b>Representative Buildings</b> Identified - refer to SA planning database.

**Historic Areas affecting City of Victor Harbor**

<b>Victor Harbor Town Centre Historic Area Statement (VIH1)</b>	
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
<b>Eras, themes and context</b>	<p>1870s to 1890s era, a period of early development in Victor Harbor.</p> <p>1920s to 1930s when Victor Harbor experienced a boom period as a holiday destination.</p>
<b>Allotments, subdivision and built form patterns</b>	<p>Mostly grid pattern.</p> <p>The intersections of Ocean Street and Coral Street, Coral Street and Flinders Parade and the termination of the Railway Terrace at Warland Reserve are key elements of urban space within the area. No or minimal front and side setbacks.</p>
<b>Architectural styles, detailing and built form features</b>	<p>Commercial premises in Ocean Street, institutional buildings in Coral Street and those supporting facilities associated with the terminus of the railway line along Railway Terrace.</p> <p>Late 1800s era shops (some with Inter-war additions), dwellings, shop/dwellings, town hall, institute/library, hotels, former banks, railway buildings and associated infrastructure. Victorian stylistic influences.</p> <p>Inter-War commercial and public buildings, some with Art-Deco and some with Stripped Classical stylistic influences.</p> <p>Low scale and simple form.</p> <p>Rectilinear plan form with steeply-pitched roof forms (typically 35 to 40 degrees) on 1800s and early 1900s era buildings, also comprising low-pitched roofs behind parapets on Inter-War buildings, reflecting traditional architectural styles and building methods. Short roof spans, minimising roof bulk. Concave, bullnose and straight-pitched verandahs on front and sometimes side facades reduce building bulk and scale and add visual interest. Lean-to forms are also common. Fine-grain detail in elements such as plinths, string courses, projecting sills. High solid to void ratio. Vertical proportions in windows and doors.</p>
<b>Building height</b>	Prevailing one to two storeys. One or two three storey buildings on Coral Street and Flinders Parade.
<b>Materials</b>	Limestone walls, some rendered masonry. Red brick or rendered quoin work and detail. Timber joinery including window frames, door frames, doors, fascias, bargeboards and verandah posts. Corrugated iron or corrugated steel roofing. Variation in materials which assists in breaking down bulk and scale, adding visual interest.
<b>Fencing</b>	Some timber picket fencing and corrugated iron fencing.
<b>Setting, landscaping, streetscape and public realm features</b>	Commercial properties provide the main built form and are characteristically single or two-storey buildings aligning with the street boundary. Typically buildings are symmetrical in design with parapets, verandas and balconies over the footpath to further define the pedestrian nature of the area. The railway corridor with its associated buildings and infrastructure is a prominent landscape element.

WAKR15	<p><b>Cooper / Mine Streets, Port Wakefield Historic Areas Statement (WakR15)</b></p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1850-1920.
	Allotments, subdivision and built form patterns	[Not stated]
	Architectural styles, detailing and built form features	Detached and attached cottages with symmetrical front facades, face stone walls with quoins, vertically proportioned double-hung windows and entry doors, exposed parapets, steeply pitched hipped roofs (some with half-gable ends), chimneys, bullnose and sloping low verandahs. Dwelling form typically incorporates two rooms with additional rooms to the rear under a lean-to roof but often stone in construction.
	Building height	Single storey.
	Materials	Local stone, masonry, red brick quoins, corrugated iron, timber-framed windows and doors.
	Fencing	Timber and wire fences not exceeding 1.2m to street frontages and corrugated iron fencing to other boundaries.

Statement#	Statement
	Setting, landscaping, streetscape and public realm features Buildings sited centrally on allotments with consistent front and side setbacks.
	Representative Buildings [Not identified]

Statement#	Statement	
WAKR18	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1910-1920.
	Allotments, subdivision and built form patterns	[Not stated]
	Architectural styles, detailing and built form features	Dwellings with face stone walls with quoins or horizontal timber planking, vertically proportioned double-hung timber windows and timber entry doors, steeply pitched gable or half-gabled hipped roofs with chimneys and both integrated and separated front verandahs and porches.
	Building height	Single storey.
	Materials	Local stone, masonry, horizontal timber planking, red brick quoins, corrugated iron, timber-framed windows and doors and brick chimneys.
	Fencing	Timber and wire fences not exceeding 1.2m to Main Street and corrugated iron fencing to other boundaries.
	Setting, landscaping, streetscape and public realm features	Buildings sited centrally on allotments with consistent front and side setbacks.
Representative Buildings	[Not identified]	

**Historic Areas affecting Town of Walkerville**

Walk1	<b>Church Terrace Locality Historic Area Statement (Walk1)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Various eras of development that map out the developmental progress of the Walkerville Township, from the late 1870s to late 1920s.
	Allotments, subdivision and built form patterns	Very-low density and low-density residential development, with predominantly detached dwellings on wide allotments. Detached dwellings on hammerhead allotments or group dwellings with shared access at the rear with wide street frontage. Very large allotments fronting Church Terrace and St Andrews Street, slightly smaller allotments within the remaining parts of the area.
	Architectural styles, detailing and built form features	Built form is varied, covering a range of architectural periods including early stone villas and brick cottages such as those in the Lansdowne Terrace, together with Victorian and Edwardian architecture and later bungalows and Tudor houses. This historic character has been partially eroded through the development of semi-detached dwellings and other dwellings of uncomplimentary design and siting, reducing the areas available for landscaping to along the front and side of dwellings.
	Building height	Generally single storey. Two storey additions to the rear of buildings or within the roof space and on larger sites with setbacks.
	Materials	Residences within this area vary in material application. Residences mostly constructed in locally sourced sandstone or bluestone, corrugated galvanised iron roofs and verandahs with cast iron lacework.
Fencing	Examples of original fencing with bluestone plinths and cast iron fence railings above remains. Low front fencing which provides some visibility to the historic built form, although brush fencing or solid pillars and plinths with open style inserts and gates appears in some locations.	
Setting, landscaping, streetscape and public realm features	Vegetation in private yards contributes positively to the overall visual amenity and street tree planting which includes Jacarandas, Golden Rain and Ash trees, particularly in Church Terrace and Devonshire Street also contributes positively to residential amenity.	
Representative Buildings	Identified - refer to SA planning database.	

	<b>Medindie Historic Area Statement (Walk2)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
Eras, themes and context	Very-low and low density residential. 19th Century and early 20th Century.	
Allotments, subdivision and built form patterns	Predominantly detached dwellings on large, wide allotments. Allotment sizes and building setbacks vary throughout the policy area, although there are patterns established in individual streets.	
Architectural styles, detailing and built	Range of architectural styles and dwelling types from the late 19th Century and early 20th Century periods including early Victorian, high Victorian, Edwardian, Classic Revival and large bungalows, all set within large landscaped garden settings that enhance the presentation of the dwellings.	

Statement#	Statement	
Walk2	form features	
	Building height	Predominantly single storey. Two storey additions to the rear of buildings or within the roof space with single storey appearance at the street. Two storey dwellings found on Robe Terrace and on larger sites with setbacks.
	Materials	Residences within this area vary in material application. Residences mostly constructed in locally sourced sandstone or bluestone, corrugated galvanised iron roofs and verandahs with cast iron lacework. Consistent early stone and brick dwellings on large sites with wide frontages to public roads.
	Fencing	There is a distinctive lack of high, solid fencing and/or the use of open design of large gates to access long driveways has enabled the principal elevation of the historic homes and landscaped grounds to be visible from the public roads.
	Setting, landscaping, streetscape and public realm features	Reasonably well established pattern of development, with regular spacing between buildings, front setbacks and roof pitches. Low-density residential development, with predominantly detached dwellings on allotments that are generous in width. Regular spacing between residential buildings that is primarily achieved through consistent setbacks from each side boundary. Formal avenues and regular spacing of street trees along road verges also make a positive contribution to the amenity of the area.
	Representative Buildings	Identified - refer to SA planning database.
Walk3	<b>Walkerville Terrace Historic Area Statement (Walk3)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Low-density residential development with predominantly detached dwellings. 19th Century and early 20th Century.
	Allotments, subdivision and built form patterns	Closely sited pattern of development, small allotments with narrow-to-medium frontages and intact historic character throughout the majority of the streets. Large frontages to Church Terrace (northern side) and Stephen Terrace, slightly smaller frontages elsewhere.
	Architectural styles, detailing and built form features	Range of architectural styles and dwelling types from the late 19th Century and early 20th Century. Existing dwellings are typically double or single fronted cottages, with simple detailing and modest sized rooms.
	Building height	Predominantly single storey. Two storey additions to the rear of buildings or within the roof space.
Materials	Residences within this area vary in material application. Residences were constructed in locally sourced sandstone or bluestone, corrugated galvanised iron roofs and verandahs with cast iron lacework. The locality exhibits consistent early stone and brick dwellings on large sites with wide frontages to public roads.	
Fencing	Low front fencing, such as picket fencing, or no front fencing at all. High solid fencing up to 2 metres in height on Stephen Terrace.	
Setting, landscaping, streetscape and public realm features	The locality exhibits regular spacing between residential buildings that is primarily achieved through consistent setbacks from each side boundary.	
Representative Buildings	Identified - refer to SA planning database.	
Walk4	<b>Gilberton North Historic Area Statement (Walk4)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Various eras of development that map out the developmental progress of the Walkerville Township, from the late 1870s to late 1920s. Proximity to Walkerville Terrace generally dictates more modest dwellings while grander architecturally designed residences exist on Walkerville Hill, capitalising on views to the Adelaide Hills.
	Allotments, subdivision and built form patterns	Predominantly low density detached dwellings on wide allotments of a range of sizes.
Architectural styles, detailing and built form features	Mixture of architectural styles from turn of the century to early 1900s. Established character of large detached dwellings on spacious allotments, well setback from all allotment boundaries. Pitched roofs and articulated roof forms are an important characteristic of the area.	
Building height	Predominantly single storey. Two storey additions to the rear of buildings or within the roof space.	
Materials	Residences within this area vary in material application. Residences mostly constructed in locally sourced sandstone or bluestone, corrugated galvanised iron roofs and verandahs with cast iron lacework.	

Statement#	Statement	
	Fencing	Front boundary fencing is open in design (including gates) with solid components limited to the base and pillars so as to provide views of the principle dwelling facade. Traditional materials, heights and designs.
	Setting, landscaping, streetscape and public realm features	There is a reasonably well established pattern of development, with regular spacing between buildings, front setbacks and roof pitches. Large street trees and generous garden settings visible from the primary street frontage.
	Representative Buildings	Identified - refer to SA planning database.

Walk5	<b>Gilberton South Historic Area Statement (Walk5)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Turn of the century to early 1900s. Modest, single storey cottages.
	Allotments, subdivision and built form patterns	Predominantly low density detached dwellings on wide allotments. Range of allotment sizes. Cottages on small allotments with narrow frontages adjacent the narrow residential streets.
	Architectural styles, detailing and built form features	Mixture of architectural styles from turn of the century to early 1900s. Larger Victorian-era villas, bungalows and Tudor dwellings on the more spacious allotments with frontage to Walkerville Terrace, Park Terrace and Stephen Terrace.
	Building height	Predominantly single storey. Two storey additions to the rear of buildings or within the roof space.
	Materials	Residences within this area vary in material application. Residences mostly constructed in locally sourced sandstone or bluestone, corrugated galvanised iron roofs and verandahs with cast iron lacework.
	Fencing	Low fences allowing view to houses, except on Walkerville and Stephen Terraces where there are higher fences.
	Setting, landscaping, streetscape and public realm features	There is a reasonably well established pattern of development, with regular spacing between buildings, front setbacks and roof pitches. Large street trees and generous garden settings visible from the primary street frontage.
Representative Buildings	Identified - refer to SA planning database.

**Historic Areas affecting District Council of Yankalilla**

Ya1	<p><b>Rapid Bay Historic Area Statement (Ya1)</b></p>		
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>		
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>		
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
	Eras, themes and context	<p>Rapid Bay is historically significant because of its connection with the first mainland landing by Colonel Light and his survey team in 1836 and has very strong connections and cultural significance for Aboriginal descendants being a popular fishing and summer occupation site, burial ground and Tjilbruke Dreaming site.</p> <p>1948-1949 (School added in 1950). Encompasses housing established by BHP as part of mining/quarrying operations to the west as well as historic buildings and items at the southern end of the town.</p> <p>Rapid Bay's built character and landscape setting reflects the influence of BHP's extractive industry, which was established during the 1940s with the establishment of a limestone quarry, crushers and loading jetty. Houses were built for employees. At the peak of construction homes were built for BHP by Fricker Bros using local stone and Wattle Flat bricks. A further 16 houses were built during 1949/50 on the eastern side of the township and the primary school officially opened in 1950. BHP stopped operations in June, 1962, and sold houses on the eastern side of Rapid Bay for private ownership. Adelaide Brighton Cement recommenced quarry operations in 1982, providing local jobs and stone products for the Highways Department, local councils and private contractors amounting to 12,000 tonnes annually. The operations have resulted in moving the shore line westward, as 30% of screenings were deposited in the area. Consequently the setting of the township with company housing divided by the Yattogolonga Creek and school oval, has a unique landscape setting and character.</p>	
	Allotments, subdivision and built form patterns	<p>Rapid Bay has two residential enclaves which are divided by Yattogolonga River and the town oval. The western section of the town is laid out around the main entrance road and comprises eighteen houses, a former general store and meeting hall. These are without individual subdivision allotments.</p> <p>The eastern section includes fifteen houses either side of Cygnet Place and the primary school. They are constructed on allotments of approximately the same size and are set back the same distance from the road. Allotment sizes provide narrower frontages at the end of the cul-de-sac.</p>	
	Architectural styles, detailing and built form features	<p>Semi bungalow in design with painted hipped corrugated roofs, simple and return verandahs, windows surrounds comprising painted concrete lintels and window sills. The 15 houses in Cygnet Place were designed using one of six house plans prepared by BHP Limited. They are either five or six room dwellings and some have sleep-outs attached.</p> <p>On the western side, company dwellings range from simple detached, hipped or gable roof designs to a row of larger stone and brick houses with expansive verandahs facing the sea and overlooking the coastal area.</p>	
	Building height	<p>All buildings in the township are of single storey, low scale character on generous allotments.</p>	
	Materials	<p>Materials used in housing construction include varying combinations of red brick, concrete brick and stone or limestone.</p>	
	Fencing	<p>There is a row of low rendered walls along the front of one group of allotments in Cygnet Place which overlook the sea, but all other allotments have wire mesh front fences and corrugated iron side and rear fences.</p>	
Setting, landscaping, streetscape and public realm features	<p>The streets are well treed, and although Norfolk Island pines are not the only species, they are the most dominant. The extension of the main entrance road which leads through the western residential area and then branches off towards the quarry is divided by a wide median strip in which Norfolk Island pines and pyramid trees have been planted alternately. About a third of the way along this street a road branches off towards the beach to provide access to the jetty, the foreshore caravan park and camping area and the eastern residential area. Trees have been planted along all these routes and the embankments along the roads have been planted with shrubs, flowers and ground cover.</p> <p>The mouth of the Yattagolina River, which is located near the junction of these three routes, is shallow and filled with reeds. The jetty and the quarry works dominate the western end of the beach.</p>		
Representative Buildings	<p>[Not identified]</p>		
<p><b>Randalsea Historic Area Statement (Ya2)</b></p>			
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>			
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>			
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>			
Eras, themes and context	<p>Established during the first phase of settlement (1836-1861). A sharp distinction is evident between the unformed groupings of buildings set within the township proper, and the bare hillsides surrounding the town.</p> <p>Randalsea comprises a small rural village founded in the 1836-1861 settlement period of SA around two industries- a steam mill and sawmilling. The historic significance of the village lies in the integrity, age and condition of the original buildings and landscape setting. The settlement's corner setting in Second Valley has been described as 'aesthetically one of the most pleasing heritage environments in South Australia'.</p>		

Statement#	Statement	
Ya2	Allotments, subdivision and built form patterns	Historic division pattern is maintained around the intersection of Main South Road and Finnis Vale Drive. A range of allotments of various configurations and sizes east and west of Main South Road.
	Architectural styles, detailing and built form features	A compact group of small scale, single storey cottages and buildings with randomly aligned frontages to the original road (Gamlen Place), with Randall's cottage and Palm House a former boarding house located west at a distance from the group. The Institute building, school house, school, and Florence's Guest House are higher set on the southern side of Finnis Vale Road. Leonard's Mill, with ancillary buildings is a visually dominant building on the eastern side of Main South Road. The former Mill is State Heritage listed.
	Building height	Predominantly single storey heights, in small scale buildings. The State Heritage listed Leonard's Mill provides a dominant element on the south-eastern side of Main South Road opposite Gamlen Place. Palm House presents a single storey appearance to Finnis Vale Drive but is two storey given the building is cut into the side of the slope that falls away from the road to the creek like north of the road.
	Materials	Dominant materials include stone walling, timber fenestration and entrances, slate flooring and corrugated iron roofing. More recent materials include colorbond roofing, mini-orb iron sheeting, brick and rendered surfaces. Evidence of early gum slab construction noted in outbuilding.
	Fencing	Minimal fencing retaining an open feel to the shared spatial arrangements of buildings and gardens. A section of existing stone walling on the southern side of the road intersection and some post and wire fencing maintains the informal and open spatial character of the village.
	Setting, landscaping, streetscape and public realm features	Randalsea is nestled at the bottom of the Paranaacooka River at its junction with a smaller tributary. A scattered collection of buildings are located along the valley floor, with trees and grazing land rising steeply behind to the ridge lines which form a contrasting rural backdrop. The public realm includes a creek side reserve and higher level park with walkway in the vicinity of a fenced War Memorial set higher than the Finnis Vale Road.
