

Russell Street, Main Road and Sheoak Road junctions Upgrade

Works notice

We are upgrading the Russell Street, Main Road and Sheoak Road junctions to increase capacity across the road network and improve road safety for all users.

What's happening:

As part of the new junction upgrade, SA Power Networks will be upgrading their electrical infrastructure along Russell Street, Main Road and Sheoak Road within the project area.

How this affects you:

The majority of these works will be undertaken during the day, between Monday 29 April and Sunday 30 June 2024, from 10am to 3pm, weather permitting. To minimise impact to road users, some of these works will be undertaken at night, see side bar for night works details.

To safely undertake these works, Elliot Avenue at the corner of Main Road will be closed intermittently during working hours. Local access will be maintained via Price Avenue. Pedestrian access will be maintained at all times.

Please follow local signage and traffic controller instructions. Observe speed limits and lane restrictions when travelling through the area.

Please plan ahead and expect some delays.

Some noise disturbance can be expected at times while these works are completed, however the work will be managed to minimise disturbance to nearby residents and businesses as much as practically possible.

SA Power Networks will advise separately of any potential interruptions to services during these works.
