

South Australian Regional Bridge Upgrades

Onkaparinga Valley Road, Balhannah

We are upgrading a series of bridges and culverts across regional South Australia to extend the service life of the structures and improve safety for road users.

What's happening:

Emergency asphalt replacement works are required on the temporary surface of the bridge over Junction Creek, on Onkaparinga Valley Road, near Bridge Street, Balhannah.

How this affects you:

To safely facilitate these works, a temporary closure of Onkaparinga Valley Road near Bridge Street, Balhannah in both directions will be required.

A temporary detour will be in place via Ilinga Avenue, Kurla Road and Junction Road. A separate detour will be in place for heavy vehicles. Please follow directional signage.

Please take extra care when workers are on site. Observe speed limits and traffic controllers when travelling through the area.
