Things you need to know:

- Works will involve trenching within the rail corridor to install underground services for the new signalling system.
- Construction of concrete footings for the installation of overhead wiring structures.
- The installation of steel overhead wiring masts as well as fencing and vegetation management works.
- Local traffic management, including some speed restrictions and temporary restrictions to street parking, adjacent the work areas may be required in your area, so please follow signage.
- Site set up may include a small amenity block at various locations within the rail corridor. These will be removed at the conclusion of the works program.
- Access to residential properties and businesses will be maintained at all times.
- The Project Team will provide more detailed information about each work area as they are planned.
- Further line closures may be required throughout the project, please register with Adelaide Metro for up to date bus replacement information www.adelaidemetro.com.au

Every effort will be made to minimise noise and disruption to nearby residents and businesses during the works.
