

Brighton Road and Edwards Street Junction upgrade

Early works notice

The Australian and South Australian governments are upgrading the Brighton Road and Edwards Street junction at South Brighton.

This project will improve road safety and access through the junction for all road users and improve access to local businesses, especially during peak periods.

What's happening:

Following service relocation activities in late 2023, early works will be undertaken from Monday 26 February 2024.

How this affects you:

To do this work safely, temporary lane and speed restrictions will be in place.

Please plan your trips, be cautious around workers and observe signage.

The junction will remain open to traffic during these works with speed and lane restrictions in place.

More information about start of construction works will be shared shortly. To stay up to date as the project progresses, we encourage you to register to receive project updates via any of the below options.
