

# Main North Road Pavement Rehabilitation

## Night Works Notification

Works are required to remediate the intersection of Main North Road to enhance the road surface and improve safety for all road users.

### What's happening:

General maintenance activities, including asphalt resurfacing, will be undertaken along Main North Road, South of the intersection with Grand Junction Road, to improve driveability.

### How this affects you:

To keep everyone safe while we undertake these works, speed and lane restrictions will be required. During working hours all roads approaching the intersection will be reduced to a single lane.

Please follow onsite traffic signage and follow the direction of traffic controllers while works are in progress. Pedestrians and cyclists might also need to use a different path during the works; however, signs will show you where to go.

During the works, there will be some noisy disruptions from time to time, but we'll do our best to keep the noise to a minimum. You might also notice some odours, which is normal during asphalt work. Bus stops in the area may be affected for a short time. Please pay attention to the signs at the bus stops and check the latest updates at [adelaidemetro.com.au](https://www.adelaidemetro.com.au) for more information.

Outside of working hours, speed restrictions will need to remain in place, until completion.

For any traffic management queries during the night work hours please contact the Department's contractor, **Topcoat Asphalt on 0408 806 770**
