

Torrens to Darlington

Ground Investigation Works

The Torrens to Darlington (T2D) Project is the final 10.5 km section of South Australia's world-class multi-billion dollar North-South Corridor. In the coming weeks the Department for Infrastructure and Transport will be undertaking ground investigations in your area as part of the early works for the next stage of the Project. This will help us to develop a comprehensive picture of the underlying soil and ground water conditions along the South Road corridor.

Location and timing

We will be carrying out investigations near 820 South Rd, Edwardstown (Cross Road off ramp).

Investigations works are expected to begin the week commencing **Monday 27 September** for approximately **eight days** and will be carried out between **8pm** and **6am**. We're working at night to minimise impacts on traffic and to ensure the safety of our workers.

In the event that these works need to be rescheduled due to weather conditions or other circumstances outside of our control, we will advise you as soon as we have details.

Traffic restrictions

- During the dates noted above, the (northbound) South Road off ramp to Cross Road will be subject to temporary traffic, parking and speed restrictions in the vicinity of the works. Local access will be maintained via a detour to Gertrude Street or Churchill Avenue.
- Signage will be in place to alert road users to the changes in traffic conditions, and road users are advised to take care when travelling through the area.

What to expect

During works you may notice additional ground and traffic management personnel and equipment within the area. Some disturbances can be expected such as noise, dust and vibration.

Keeping you informed

If you have any questions or concerns and would like to speak to a member of our project team, please don't hesitate to contact us on 1300 951 145 or northsouthcorridor@sa.gov.au
