

**Work Safe.
Be Safe.**

Traffic Management

- Protect traffic controllers from live traffic.
- Install physical protection between worksite and live traffic.
- Undertake risk assessment where not practical to install physical protection, to ensure safety of personnel.
- Use of accredited work zone traffic management personnel to set up traffic control devices.
- Use relevant traffic guidance devices in good clean condition.
- Monitor effectiveness of traffic guidance devices.
- Minimum of two documented inspections per shift of traffic management control setup.

To support safe working practices further information and resources are available.
