

Site Investigation Works

Cross Road, Urrbrae

We are undertaking site investigations at night to assist with ongoing investigations into heavy vehicle safety on the South Eastern Freeway.

What's happening:

Works will involve locating underground services on Cross Road on the approach to the Portrush Road/Cross Road/Glen Osmond Road intersection.

How this affects you:

There will be changes to traffic conditions to keep everyone safe. Speed and lane restrictions be in place during work hours, where required.

Please follow onsite signage and traffic controllers that will be in place to manage traffic flow and ensure motorists, cyclists and pedestrians can safely navigate around our work areas.

Outside of working hours, speed and lane restrictions will be removed. Access to properties and businesses in the area will be maintained at all times during works.
