

Victor Harbor Road Safety Improvements - Project Update

Hindmarsh Tiers, Virgin Road, and Brookman Road

The Australian and South Australian governments have committed \$15 million (80:20 basis) for safety upgrades on Victor Harbor Road as part of the \$810 million Fleurieu Connections projects.

These upgrades include the intersection of Hindmarsh Tiers Road and Virgin Road and the junction of Brookman Road.

What's happening

The Hindmarsh Tiers Road and Virgin Road intersection upgrade will include:

- a dedicated right turn lane into Hindmarsh Tiers Road from Victor Harbor Road;
- a dedicated right turn lane into Virgin Road from Victor Harbor Road;
- re-profiling of the intersection to improve line of sight;
- pavement construction and surfacing; and
- new surfacing and line markings.

The Brookman Road junction upgrade will include:

- greater offset of the left turn lane from Victor Harbor Road into Brookman Road to ensure vehicles exiting Brookman Road have a clearer line of sight; and
- new wide centre line treatment along Victor Harbor Road.

Concept plans for the upgrades are included in this update.

When

Late 2024 until mid - 2025

Hours of work

Monday to Saturday

Day Works: 7am – 5pm

Night Works: 7pm – 7am

Where

Intersection of Hindmarsh Tiers Road, Virgin Road and Victor Harbor Road.

Junction of Victor Harbor Road and Brookman Road.

Government of South Australia

Department for Infrastructure and Transport

BUILDING AUSTRALIA

How this affects you

When we undertake these works, speed and lane restrictions will be in place. Access to properties will be maintained throughout the works wherever possible, with advance notice provided if there is a need to temporarily restrict driveway access.

Some noise disturbance can be expected at times while these works are completed, however the work will be managed to minimise disturbance to nearby residents.

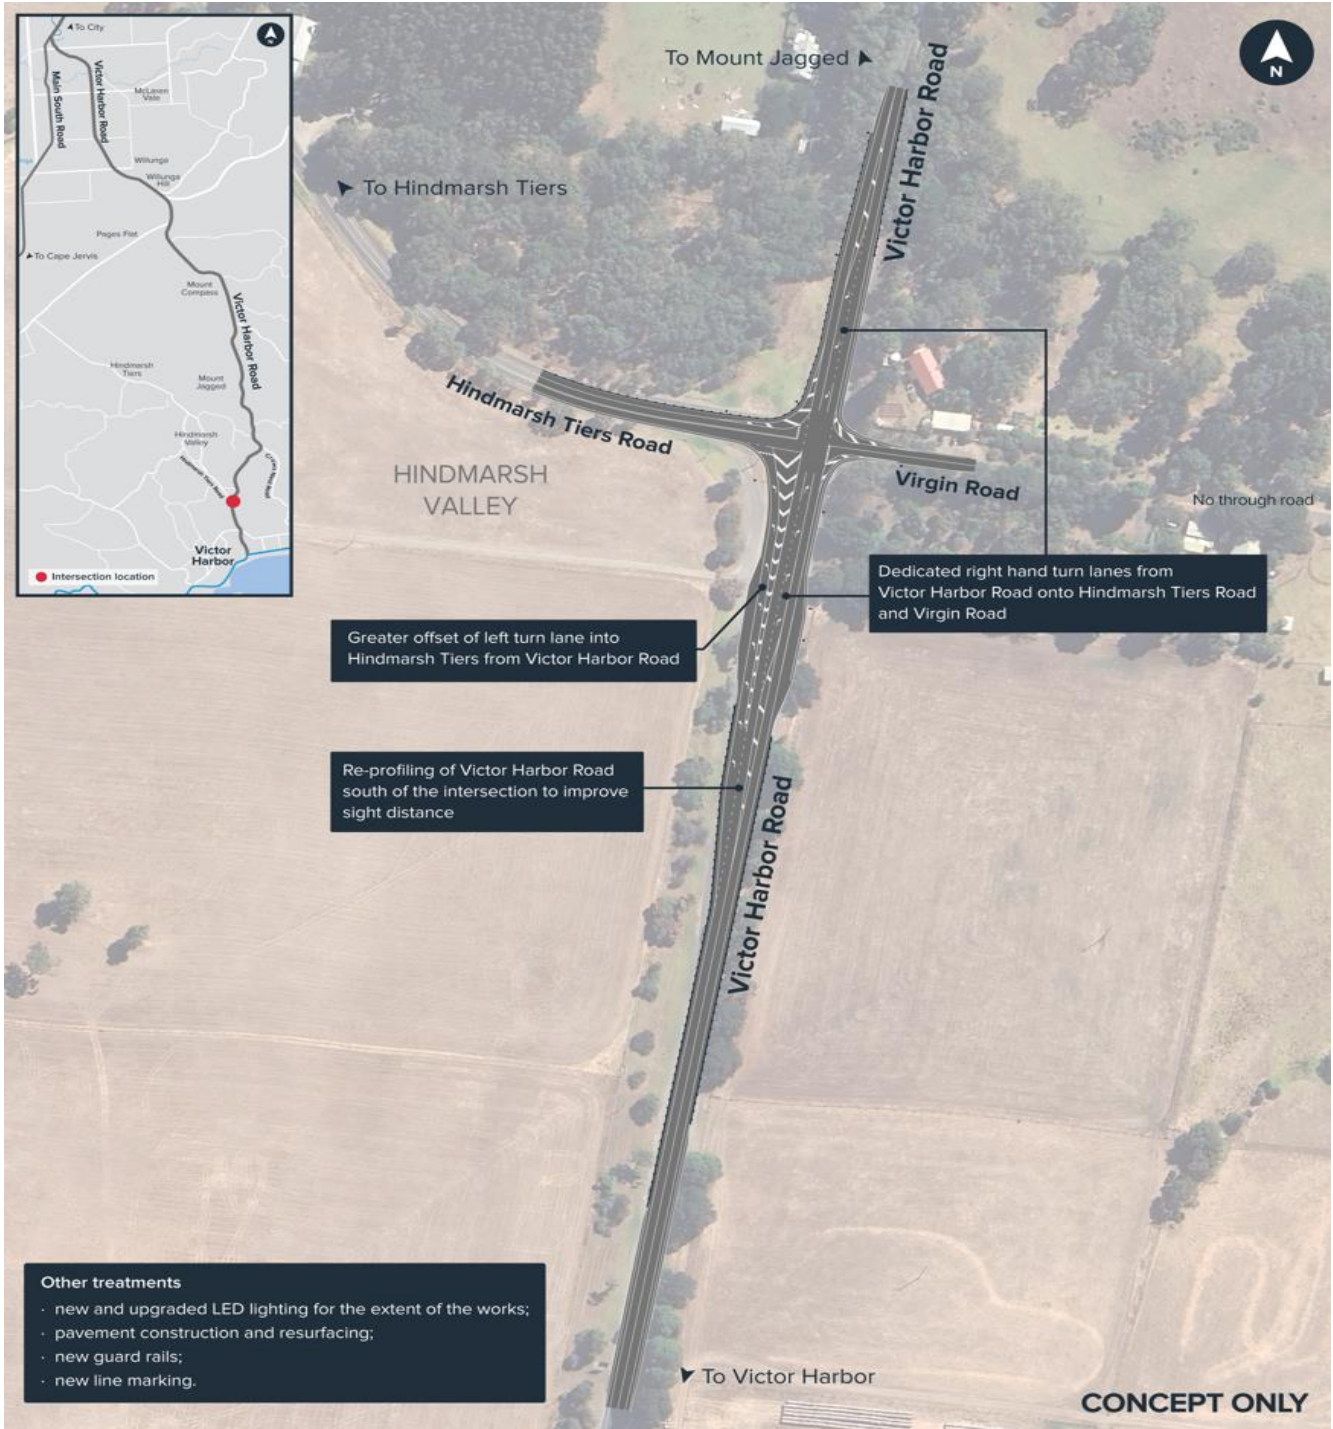

Further details will be shared closer to the beginning of construction.

To allow us to deliver the intersection upgrade, some vegetation removals are required. Every effort has been made to minimise the impact to vegetation wherever possible. Please refer to vegetation fact sheet on the website for more detail.
