

Princes Highway Upgrade

Defect Remediation Work

Improving long term safety and efficiency for all road users

We are delivering infrastructure upgrades on the Princes Highway, from Meningie to the South Australian/Victorian border. These upgrades are jointly funded by the Australian and South Australian governments (80:20).

What's happening

Earlier this year we identified a number of defects at multiple locations along Princes Highway. In collaboration with our contractor, Acciona, we are now undertaking defect remediation works between Meningie and Kangaroo Flat Road, Wandilo.

Works will commence on the overtaking lanes approximately 9kms north of Millicent. The location of subsequent works will be communicated through onsite signage. The majority of remediation works will be completed by late December 2024.

To ensure quality, the remediation works will be undertaken in two stages on the Hatherleigh overtaking lanes, the overtaking lanes 15km northwest of Mount Gambier and the eastbound overtaking lane 9kms northwest of Mount Gambier. The first stage of works will be complete in late December 2024. Crews will return to finalise these sections in February 2025. There will be no traffic restrictions in place during the break in works. Advance notice will be provided prior to the commencement of the final stage of works in February 2025.

When

Wednesday, 6 November 2024 to March 2025, weather permitting

Hours of work

Monday to Friday

6:30am to 6pm

Saturday

6:30am to 1:30pm

Where

Multiple locations along the Princes Highway, between Meningie and Kangaroo Flat Road, Wandilo

How this affects you

The Princes Highway will remain open to all vehicles at all times.

To keep everyone safe and ensure these works can be completed as quickly as possible there will be changes to traffic conditions throughout the work areas while works are in progress.

During work hours the Princes Highway will be reduced to a single lane where works are being undertaken. Traffic signage and traffic controllers will be in place to guide motorists through work areas.

Speed restrictions will be in place throughout work areas, including outside of working hours where required, until late December 2024, weather permitting.

We appreciate that works along the Princes Highway have been ongoing for an extended period of time and apologise for any inconvenience caused. We would like to thank you for your patience and understanding while these critical upgrade works are undertaken.

For the latest road information, visit www.traffic.sa.gov.au

Once complete, these works will support South Australia's regional economic growth, improve access for high productivity freight movements, provide upgrades to regional road networks for improved accessibility and community connectivity, enhance opportunities for regional tourism in South Australia and improve long term safety and efficiency for all road users.
