

Wynn Vale Drive and Bridge Road Junction Upgrade

Works update

We are upgrading the junction of Wynn Vale Drive and Bridge Road in Gulfview Heights

This forms part of the State Government's election commitments to upgrade, or investigate potential upgrades, in the northern suburbs.

What's happening

Works on the junction of Wynn Vale Drive and Bridge Road are progressing well. To safely facilitate the next stage of works, traffic restrictions on Melville Road are required. These works will be undertaken during the school holidays to minimise traffic impacts.

How this affects you

Works to install upgraded stormwater infrastructure across Melville Road will be undertaken from **Sunday 28 September 2025 for approximately 2 weeks**, weather permitting.

Work will be undertaken at night, with some minor activity occurring during the daytime work hours. During these works, Melville Road will be closed at the junction of Bridge Road with local detours in place.

Some noise disturbance may be experienced, we will keep noise to a minimum wherever possible. You might also notice some odours which is normal during asphalt work.

Access to properties will be maintained with advance notice to be provided if there is a need to temporarily restrict driveway access.

Signage will be in place to safely direct road users and pedestrians.

We would like to thank the community for your patience during these important works.

When

From Sunday 28 September 2025 for approximately two weeks, weather permitting
