

Park 'n' Ride Facility at Torrens Park

Project Update

We are building a new Park 'n' Ride facility at the Torrens Park railway station

The State Government has committed \$7 million to deliver the project in Torrens Park, which will improve access to public transport and enhance the overall experience for station users.

Increased public transport patronage

Safer and more accessible journeys

Supports sustainable transport choices

Key features proposed as part of the project include:

- A new sealed car park with approximately 38 parking spaces, including two accessible parking bays
- New accessible ramp to Torrens Park railway station
- Access provided from Belair Road, with pedestrian crossing improvements at the Blythewood Road intersection
- Installation of lighting and CCTV

➔

- A secure bike storage cage to support active travel and multi-modal commuting
- New tree planting and landscaping

Community Information Sessions

Feedback is now open on the proposed design and we invite local residents, businesses and station users to review the proposed design and share their feedback, questions and concerns.

There are a number of ways to get involved and have your say, including:

- Attending a community information session
- Completing the online survey
- Reviewing project information online
- Contacting the project team directly with questions or feedback

We are holding community information sessions at the **Mitcham Community Centre, 242 Belair Road, Lower Mitcham**, at the dates and times listed below:

- **Session 1:** Wednesday, 26 August 2026, 5pm-7pm
- **Session 2:** Sunday 30 August 2026, 10am-12pm

These sessions provide an opportunity to:

- View the updated concept design
- Speak directly with members of the project team
- Learn about the proposed works, project benefits and anticipated timeframes
- Ask questions and seek clarification about the project

The information sessions are being held to keep the community informed as the project progresses and to ensure stakeholders have access to the latest project information.

Community members who are unable to attend an information session will be able to access project information online and contact the project team directly with any questions or feedback.

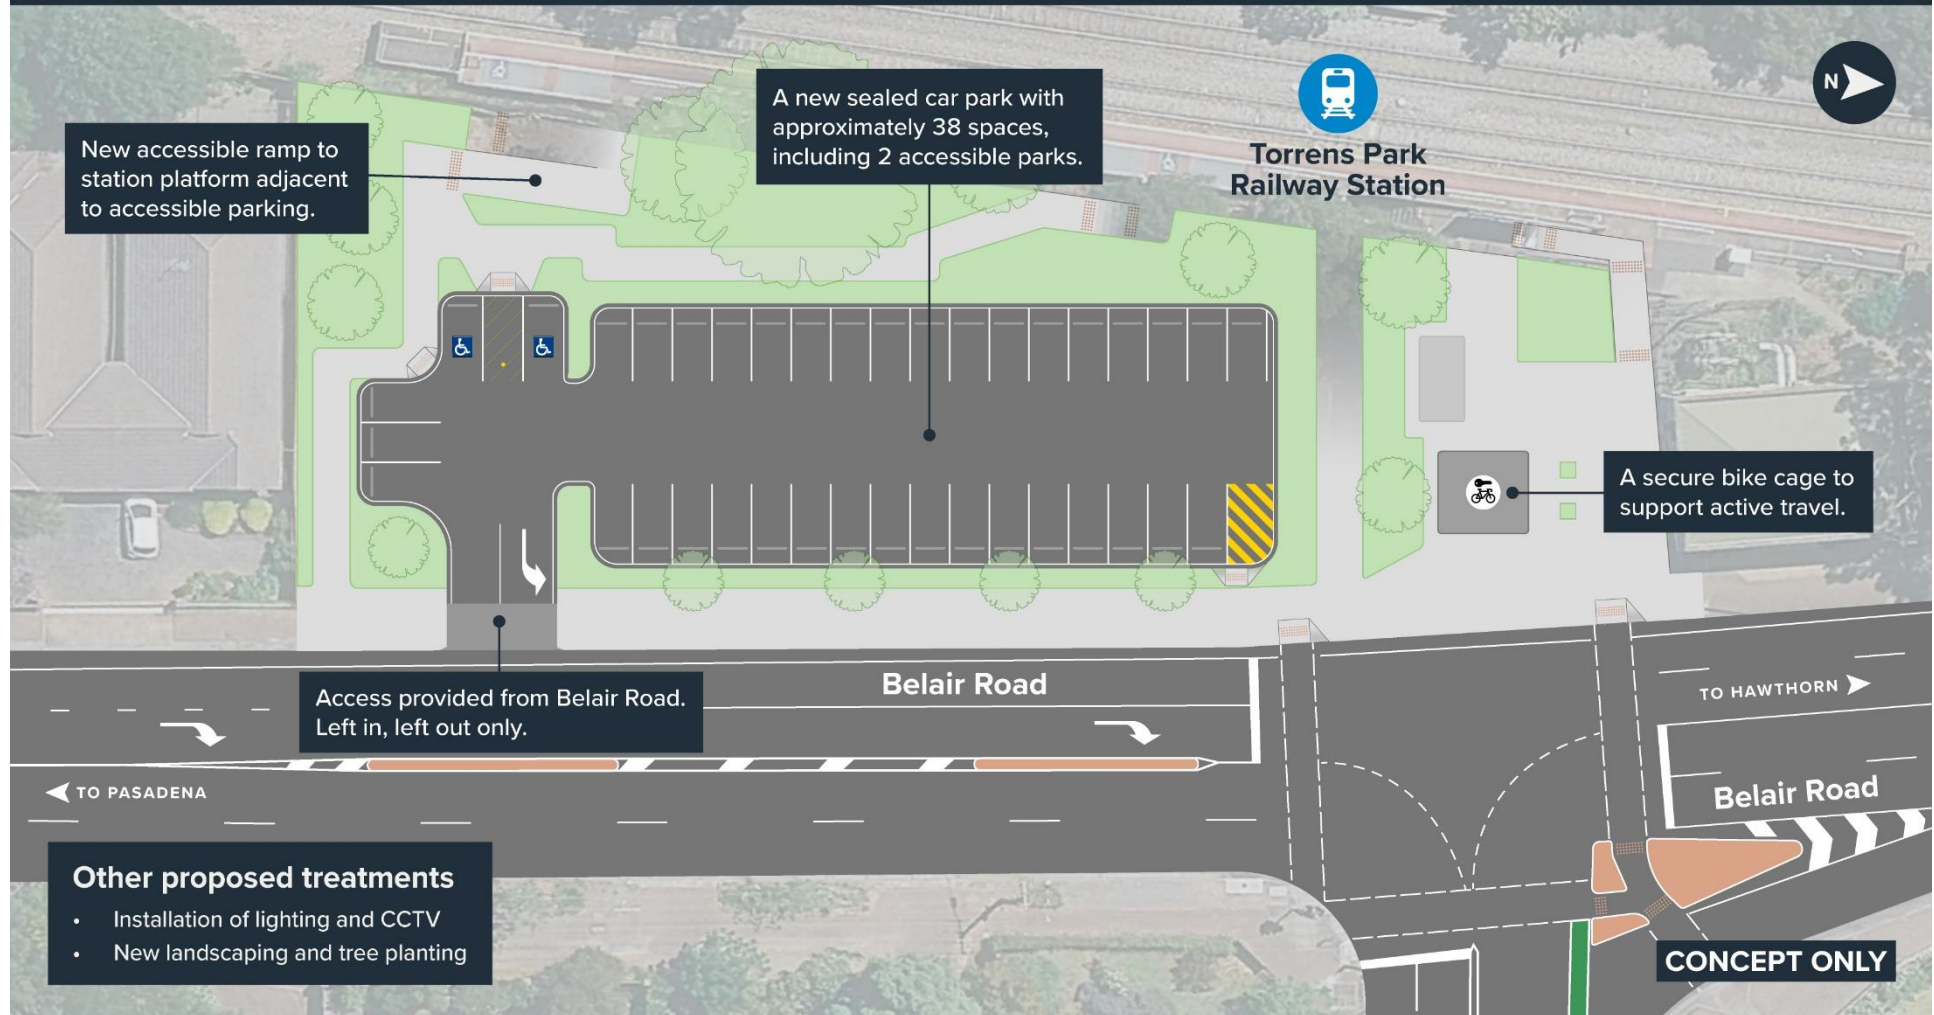

Subscribe on the website below to stay informed about the project and receive future updates.
