Key Outback and Rural Routes Overlay [Access - On-Site Queuing]
PO 2.1

Key Outback and Rural Routes Overlay [Access - Location (Spacing) - Existing Access Points]
PO 3.1

Key Outback and Rural Routes Overlay [Access - Location (Spacing) - New Access Points]
PO 4.1

Key Outback and Rural Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Key Outback and Rural Routes Overlay [Access - Mud and Debris]
PO 6.1

Key Outback and Rural Routes Overlay [Access - Stormwater]
PO 7.1

Key Outback and Rural Routes Overlay [Building on Road Reserve]
PO 8.1

Key Outback and Rural Routes Overlay [Public Road Junctions]
PO 9.1

Key Railway Crossings Overlay [Access, Design and Function]
PO 1.1

Limited Dwelling Overlay
PO 1.1

Local Heritage Place Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7

Local Heritage Place Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

Local Heritage Place Overlay [Conservation Works]
PO 7.1

Major Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Major Urban Transport Routes Overlay [Access - On-Site Queuing]
PO 2.1

Major Urban Transport Routes Overlay [Access – Location (Spacing) - Existing Access Points]
PO 3.1

Major Urban Transport Routes Overlay [Access – Location (Spacing) – New Access Points]
PO 4.1

Major Urban Transport Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Major Urban Transport Routes Overlay [Access - Mud and Debris]
PO 6.1

Major Urban Transport Routes Overlay [Access - Stormwater]
PO 7.1

Major Urban Transport Routes Overlay [Building on Road Reserve]
PO 8.1

Major Urban Transport Routes Overlay [Public Road Junctions]
PO 9.1

Major Urban Transport Routes Overlay [Corner Cut-Offs]
PO 10.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Water Quality]
PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Wastewater]
PO 2.3, PO 2.4

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Landscapes and Natural Features]
PO 4.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Water Quality]
PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Wastewater]
PO 2.4, PO 2.5

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Landscapes and Natural Features]
PO 4.1

Native Vegetation Overlay [Environmental Protection]
PO 1.1, PO 1.2, PO 1.4

Noise and Air Emissions Overlay [Siting and Design]
PO 1.1, PO 1.2, PO 1.3

Non-Stop Corridors Overlay [Non-Stop Corridor Overlay]
PO 1.1

Resource Extraction Protection Area Overlay [Protection of Strategic Resources]
PO 1.1

River Murray Flood Plain Protection Area Overlay [Wastewater]
PO 2.1

River Murray Flood Plain Protection Area Overlay [Built Form and Character]
PO 5.1, PO 5.3

River Murray Flood Plain Protection Area Overlay [Flood Resilience]
PO 6.1, PO 6.2, PO 6.3

River Murray Flood Plain Protection Area Overlay [Environmental Protection]
PO 7.1, PO 7.2, PO 7.3

River Murray Flood Plain Protection Area Overlay [Access]
PO 8.1, PO 8.2, PO 8.3

Scenic Quality Overlay [Land Use and Intensity]
PO 1.1

Scenic Quality Overlay [Built Form and Character]
PO 2.1

Scenic Quality Overlay [Landscaping]
PO 3.1

Scenic Quality Overlay [Earthworks]
PO 4.1

Significant Interface Management Overlay [Land Use and Intensity]
PO 1.1

Significant Landscape Protection Overlay [Land Use and Intensity]
PO 1.1

Significant Landscape Protection Overlay [Built Form and Character]
PO 2.1, PO 2.2

Significant Landscape Protection Overlay [Landscaping]
PO 3.1

Significant Landscape Protection Overlay [Earthworks]
PO 4.1

State Heritage Area Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5

State Heritage Area Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

State Heritage Area Overlay [Conservation Works]
PO 7.1

State Heritage Place Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7

State Heritage Place Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

State Heritage Place Overlay [Conservation Works]
PO 7.1

State Significant Native Vegetation Areas Overlay [Environmental Protection]
PO 1.1

Stormwater Management Overlay
PO 1.1

Traffic Generating Development Overlay [Traffic Generating Development]
PO 1.1, PO 1.2, PO 1.3

Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Urban Transport Routes Overlay [Access - On-Site Queuing]
PO 2.1

Urban Transport Routes Overlay [Access - (Location Spacing) - Existing Access Point]
PO 3.1

Urban Transport Routes Overlay [Access – Location (Spacing) – New Access Points]
PO 4.1

Urban Transport Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Urban Transport Routes Overlay [Access – Mud and Debris]
PO 6.1

Urban Transport Routes Overlay [Access - Stormwater]
PO 7.1

Urban Transport Routes Overlay [Building on Road Reserve]
PO 8.1

Urban Transport Routes Overlay [Public Road Junctions]
PO 9.1

Urban Transport Routes Overlay [Corner Cut-Offs]
PO 10.1

Urban Tree Canopy Overlay
PO 1.1

| All other Code Assessed Development | All | All | All | Any relevant Overlay: All |

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

| Class of Development | Exclusions |
|---|---|
| Industry | Light industry |
| Shop | Any of the following:<br><br>(a) shop with a gross leasable floor area less than 4000m$^2$<br>(b) shop that is a restaurant. |

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

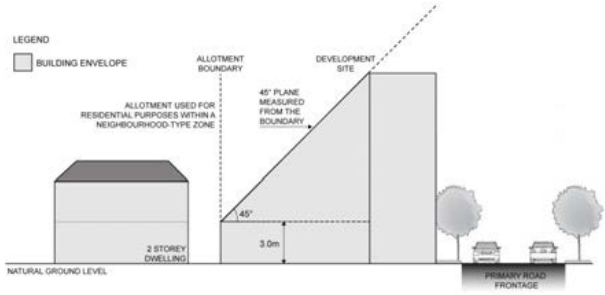
| Class of Development<br>(Column A) | Exceptions<br>(Column B) |
|---|---|
| 1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development. | None specified. |
| 2. Any kind of development where the site of the development is **not** adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone. | Except any of the following:<br>1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)<br>2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building). |
| 3. Any development involving any of the following (or of any combination of any of the following):<br>(a) advertisement<br>(b) child care facility<br>(c) co-living<br>(d) dwelling<br>(e) residential flat building<br>(f) retirement facility<br>(g) student accommodation<br>(h) supported accommodation. | Except development that:<br>1. exceeds the maximum building height specified in Urban Corridor (Boulevard) DTS/DPF 3.1<br>or<br>2. does not satisfy Urban Corridor (Boulevard) DTS/DPF 4.1<br>or<br>3. involves the construction of a building of 4 or more building levels and the site of the development is:<br>(a) adjacent land to a neighbourhood-type zone<br>and<br>(b) adjoins an allotment containing an existing low-rise building used for residential purposes. |
| 4. Any development involving any of the following (or of any combination of any of the following):<br>(a) consulting room<br>(b) office<br>(c) shop. | Except development that:<br>1. exceeds the maximum building height specified in Urban Corridor (Boulevard) DTS/DPF 3.1<br>or<br>2. does not satisfy Urban Corridor (Boulevard) DTS/DPF 1.2<br>or<br>3. does not satisfy Urban Corridor (Boulevard) DTS/DPF 4.1<br>or<br>4. involves the construction of a building of 4 or more building levels and the site of the development is:<br>(a) adjacent land to a neighbourhood-type zone<br>and<br>(b) adjoins an allotment containing an existing low-rise building used for residential purposes. |
| 5. Any development involving any of the following (or of any combination of any of the following):<br>(a) air handling unit, air conditioning system or exhaust fan<br>(b) carport<br>(c) deck<br>(d) fence<br>(e) internal building works<br>(f) land division<br>(g) outbuilding<br>(h) pergola<br>(i) private bushfire shelter<br>(j) replacement building<br>(k) retaining wall<br>(l) shade sail<br>(m) solar photovoltaic panels (roof mounted)<br>(n) swimming pool or spa pool and associated swimming pool safety features<br>(o) tree damaging activity<br>(p) verandah<br>(q) water tank. | None specified. |
| 6. Demolition. | Except any of the following:<br>1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)<br>2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building). |
| 7. Railway line. | Except where located outside of a rail corridor or rail reserve. |

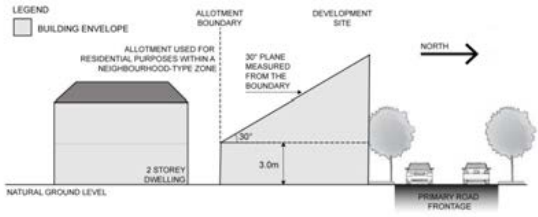
| Placement of Notices - Exemptions for Performance Assessed Development |
|---|
| None specified. |

| Placement of Notices - Exemptions for Restricted Development |
|---|
| None specified. |

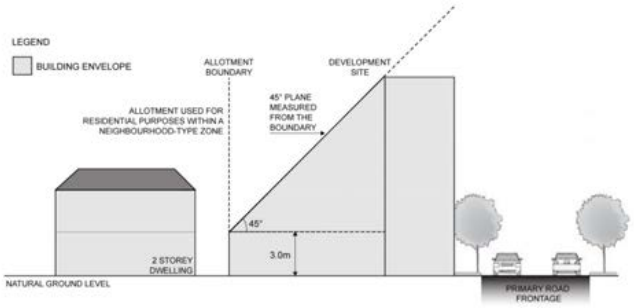
## Urban Corridor (Business) Zone

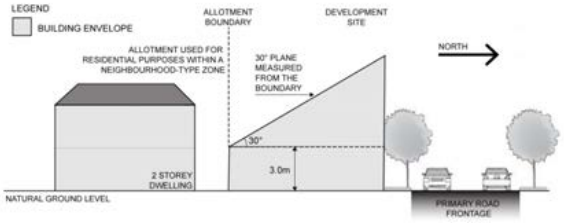
### Assessment Provisions (AP)





Desired Outcome (DO)





| Desired Outcome | |
|---|---|
| DO 1 | A medium rise mixed use zone with a strong focus on employment, which accommodates a diverse range of commercial and light industrial land uses together with compatible medium density residential development oriented towards a primary road corridor (e.g., a State maintained road or a road with similar attributes). |
| DO 2 | Residential development that provides a pleasant amenity for residents without diminishing business opportunities on adjacent land. |

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Land Use and Intensity | |
| PO 1.1<br>A diverse range of employment land uses, educational and community facilities in conjunction with residential accommodation. | DTS/DPF 1.1<br>Development comprises one or more of the following:<br>(a) Advertisement<br>(b) Child care facility<br>(c) Co-living<br>(d) Consulting Room<br>(e) Dwelling<br>(f) Educational Facility<br>(g) Hotel<br>(h) Licensed Premises<br>(i) Light Industry<br>(j) Office<br>(k) Residential Flat Building<br>(l) Retail Fuel Outlet<br>(m) Retirement Facility<br>(n) Service Trade Premises<br>(o) Shop |

| | |
|---|---|
| | (p) Store<br>(q) Student Accommodation<br>(r) Supported Accommodation<br>(s) Tourist Accommodation<br>(t) Warehouse |
| PO 1.2<br>A range of small- to medium- scale non-residential uses, services and facilities such as shops, offices and consulting rooms that meet the day to day needs of the local community. | DTS/DPF 1.2<br>Shop, office or consulting room uses not exceeding a maximum gross leasable floor area of 500m$^2$ in a single building. |
| PO 1.3<br>Development of non-residential uses such as educational facilities, child care facilities, health and welfare services to service the local community as well as a wider catchment. | DTS/DPF 1.3<br>None are applicable. |
| PO 1.4<br>Dwellings primarily developed in conjunction with non-residential uses to support local business, activities and contribute to making the primary street frontage and pedestrian thoroughfares safe, walkable, comfortable, pleasant and vibrant places. | DTS/DPF 1.4<br>Dwellings developed in conjunction with non-residential uses sited:<br>(a) at upper levels of buildings with non-residential uses located at ground level<br>or<br>(b) behind non-residential uses on the same allotment. |
| PO 1.5<br>Ground floor uses positively contribute to an active primary street frontage. | DTS/DPF 1.5<br>Shop, office, or consulting room uses located on the ground floor level of mixed use buildings fronting the primary street frontage. |
| PO 1.6<br>Changes in the use of land encourage the efficient reuse of premises to support local access to a range of services compatible to the locality. | DTS/DPF 1.6<br>Provided off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number, a change of use involving either of the following:<br>(a) from residential to office or consulting room on the ground or first floor of a building<br>(b) from residential to shop less than 250 m$^2$ on the ground floor of a building. |
| PO 1.7<br>Residential accommodation sited and designed to not impede ongoing operations of existing commercial activity. | DTS/DPF 1.7<br>None are applicable. |
| Built Form and Character | |
| PO 2.1<br>Buildings are adaptable and flexible to suit a range residential and non-residential of land uses. | DTS/DPF 2.1<br>The ground floor of buildings contains a minimum floor to ceiling height of 3.5m. |
| PO 2.2<br>Buildings designed to create visual connection between the public realm and ground level interior, to ensure an active interface with the primary road corridor (e.g., a State maintained road or a road with similar attributes) and maximise passive surveillance. | DTS/DPF 2.2<br>Minimum 50% of the ground floor primary frontage of buildings are visually permeable, transparent or clear glazed. |
| PO 2.3<br>Buildings setback from the primary street boundaries contribute to the consistent established streetscape, except in locations where no setback is desired to achieve a more prominent, strongly defined, and continuous built form presence to the primary street frontage. | DTS/DPF 2.3<br>Buildings setback from the primary street boundary:<br>(a) not less than:<br>**Minimum Primary Street Setback**<br>Minimum primary street setback is 0m<br>Minimum primary street setback is 2m<br>Minimum primary street setback is 3m<br>Or<br>(b) where no value is returned in DTS/DPF 2.3(a), in accordance with the following table:<br>**Development Context** / **Minimum setback**<br>There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building. — The average setback of the existing buildings.<br>There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site. — The setback of the existing building.<br>There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site. — (a) Where the existing building shares the same primary street frontage – the setback of the existing building<br>(b) Where the existing building has a different primary street frontage - no DTS/DPF is applicable<br>In instances where DTS/DPF 2.3 (a) or (b) do not apply, then none are applicable and the relevant development cannot be classified as deemed-to-satisfy.<br>For the purposes of **DTS/DPF 2.3 (a) and (b):**<br>(a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback<br>(b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table |
| PO 2.4<br>Buildings set back from secondary street boundaries to contribute to a consistent established streetscape. | DTS/DPF 2.4<br>Building walls setback from a secondary street frontage of not less than 2m. |
| PO 2.5<br>Buildings set back from rear boundaries (other than street boundaries) to minimise impacts on neighbouring properties, including access to natural sunlight and ventilation. | DTS/DPF 2.5<br>Building walls setback from rear boundaries as follows:<br>(a) 5m or more where the subject land directly abuts an allotment of a different zone<br>or<br>(b) 3m or more in all other cases, except where the development abuts the wall of an existing or simultaneously constructed building on the adjoining land. |
| PO 2.6<br>Buildings are:<br>(a) sited on side boundaries for parts of the building located towards the front part of the allotment to achieve a continuity of street façade to the street<br>(b) setback from side boundaries for parts of the building located behind the street facing elements, to enable building separation to provide access to natural ventilation and sunlight. | DTS/DPF 2.6<br>Building walls with no window/s or balcony/s fronting the boundary, setback from side boundaries as follows:<br>(a) no minimum on the boundary within the first 18m from the front property boundary for any building level<br>(b) no minimum for remaining length for ground level only<br>(c) 2m for 1st level and above for building parts more than 18m from the front property boundary. |
| PO 2.7<br>Buildings set back from street boundaries (in the case of rear access ways) to provide adequate manoeuvrability for vehicles. | DTS/DPF 2.7<br>Building walls setback from the rear access way:<br>(a) no requirement where the access way is not less than 6.5m wide<br>or<br>(b) where the access way is less than 6.5m wide, the distance equal to the additional width required to make the access way at least 6.5m wide. |
| Building Height | |
| PO 3.1<br>Building height is consistent with the form expressed in the *Maximum Building Height (Levels) Technical and Numeric Variation layer* and the *Maximum Building Height (Metres) Technical and Numeric Variation layer* or positively responds to the local context including the site's frontage, depth, and adjacent primary road corridor (e.g., a State maintained road or a road with similar attributes) or street width. | DTS/DPF 3.1<br>Except where a Concept Plan specifies otherwise, development does not exceed the following building height(s):<br>**Maximum Building Height (Levels)**<br>Maximum building height is 2 levels<br>Maximum building height is 4 levels<br>Maximum building height is 5 levels<br>Maximum building height is 6 levels<br>**Maximum Building Height (Metres)**<br>Maximum building height is 15m<br>Maximum building height is 16.5m |

| | |
|---|---|
| | **Maximum Building Height (Metres)**<br>Maximum building height is 18.5m<br>Maximum building height is 22m<br>Maximum building height is 24.5m<br><br>In relation to DTS/DPF 3.1, in instances where:<br><br>(a) more than one value is returned in the same field, refer to the *Maximum Building Height (Levels) Technical and Numeric Variation* layer or *Maximum Building Height (Metres) Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development<br>(b) only one value is returned (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other<br>(c) no value is returned (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy. |
| PO 3.2<br><br>Buildings designed to achieve optimal height and floor space yields. | DTS/DPF 3.2<br><br>New development is not less that the following building height:<br><br>**Minimum Building Height (Levels)**<br>Minimum building height is 2 levels<br>Minimum building height is 3 levels<br>Minimum building height is 4 levels<br><br>In relation to DTS/DPF 3.2, in instances where:<br><br>(a) more than one value is returned in the same field, refer to the *Minimum Building Height (Levels) Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development<br>(b) no value is returned (i.e. there is a blank field), then there is no minimum building height and DTS/DPF 3.2 is met. |
| Interface Height | |
| PO 4.1<br><br>Buildings mitigate impacts of building massing on residential development within a neighbourhood-type zone. | DTS/DPF 4.1<br><br>**Interface Height**<br><br>Buildings constructed within a building envelope provided by a:<br><br>(a) 45 degree plane measured from a height of 3 metres above natural ground level at the boundary of the allotment where abutting a residential use, or where the allotment is separated by a road less than 6.5 metres in width measured from the residential allotment boundary, within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary):<br><br><br><br><br>(b) in relation to a southern boundary, 30 degree plane grading north, measured from a height of 3m above natural ground at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a street boundary):<br><br><br><br><br>Buildings constructed within a building envelope provided by a 45 degree plane measured from a height of 3 metres above natural ground level at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a street boundary): |

| | |
|---|---|
| | **Interface Height**<br><br><br>Buildings constructed within a building envelope provided by a 30 degree plane measured from a height of 3m above natural ground level at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a street boundary):<br><br> |
| PO 4.2<br>Buildings on an allotment fronting a road that is not the primary road corridor (e.g., a State maintained road or a road with similar attributes) and where land on the opposite side of the road is within a neighbourhood-type zone, provides an orderly transition to the built form scale envisaged in the adjacent zone to complement the streetscape character. | DTS/DPF 4.2<br>None are applicable. |
| Significant Development Sites | |
| PO 5.1<br>Consolidation of significant development sites (a site with a frontage over 25m to a primary road corridor (e.g., a State maintained road or a road with similar attributes) and over 2500m$^2$ in area, which may include one or more allotments) to achieve increased development yield provided that off-site impacts can be managed and broader community benefit is achieved in terms of design quality, community services, affordable housing provision, retirement facility and supported accommodation provision, or sustainability features. | DTS/DPF 5.1<br>Development on significant development sites up to 30% above the maximum building height specified in DTS/DPF 3.1 (rounded to the nearest whole number) where it satisfies (a), (b), (c) or (d):<br>(a) incorporates the retention, conservation and reuse of a building which is a listed heritage place or an existing built form and context that positively contributes to the character of the local area<br>(b) includes more than 15% of dwellings as affordable housing<br>(c) is for the purpose of a retirement facility or supported accommodation<br>(d) includes at least:<br>(i) three of the following:<br>A. high quality open space that is universally accessible and is directly connected to, and well integrated with, public realm areas of the street<br>B. high quality, safe and secure, universally accessible pedestrian linkages that connect through the development site<br>C. active uses are located on the public street frontages of the building, with any above ground car parking located behind<br>D. a range of dwelling types that includes at least 10% of 3+ bedroom apartments;<br>E. a child care centre<br>and<br>(ii) three of the following:<br>A. a communal useable garden integrated with the design of the building that covers the majority of a rooftop area supported by services that ensure ongoing maintenance<br>B. living landscaped vertical surfaces of at least 50m$^2$ supported by services that ensure ongoing maintenance<br>C. passive heating and cooling design elements including solar shading integrated into the building<br>D. higher amenity through provision of private open space in excess of minimum requirements by 25% for at least 50% of dwellings. |
| PO 5.2<br>Development on a significant development site (a site with a frontage to a primary road corridor (e.g., a State maintained road or a road with similar attributes) and over 2500m$^2$ which may include one or more allotments) designed to minimise impacts on residential uses in adjacent zones with regard to intensity of use, overshadowing, massing and building proportions. | DTS/DPF 5.2<br>Development that satisfies all of the following:<br>(a) is constructed within zone's Interface Building Height provision as specified DTS/DPF 4.1<br>(b) locates non-residential activities and higher density elements towards the primary road corridor (e.g., a State maintained road or a road with similar attributes)<br>(c) locates taller building elements towards the primary road corridor (e.g., a State maintained road or a road with similar attributes). |
| Movement, parking and access | |
| PO 6.1<br>Development does not result in additional crossovers on the primary street frontage, except where rationalising existing crossovers on consolidated sites and is designed to minimise conflicts with pedestrians and cyclists and minimise disruption to the continuity of built form. | DTS/DPF 6.1<br>Vehicular access to be provided:<br>(a) via side streets or rear lanes provided there is no negative impact on residential amenity within the zone and in adjacent zones<br>or<br>(b) where it consolidates or replaces existing crossovers. |
| Advertisements | |
| PO 7.1<br>Freestanding advertisements identify the associated business without creating a visually dominant element within the streetscape. | DTS/DPF 7.1<br>Freestanding advertisements:<br>(a) do not exceed 6m in height<br>and |

| | |
|---|---|
| | (b) do not have a sign face that exceeds 4m$^2$ per side. |
| Concept Plans | |
| PO 8.1<br>Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure. | DTS/DPF 8.1<br>The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:<br>**Description**<br>Concept Plan 135 - Thebarton<br>Concept Plan 177 - Prospect Lifestyle Precinct<br>In relation to DTS/DPF 8.1, in instances where:<br>(a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.<br>(b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 8.1 is met. |

**Table 1 - Accepted Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

| Class of Development | Accepted Development Classification Criteria |
|---|---|
| Building alterations<br>Except where any of the following apply:<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The alteration does not:<br>(a) increase the floor area of the building<br>(b) exceed the existing wall height<br>(c) exceed the existing overall building height<br>(d) alter the roof profile<br>(e) alter an approved privacy screening arrangement or window treatment<br>(f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.<br>2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm. |
| Building work on railway land<br>Except where any of the following apply:<br>• Coastal Areas Overlay<br>• Hazards (Acid Sulfate Soils) Overlay<br>• Local Heritage Place Overlay<br>• Significant Landscape Protection Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. Building work is associated with a railway<br>2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017)<br>3. It is required for the conduct or maintenance of railway activities<br>4. It does not involve the clearance of native vegetation<br>5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas |
| Carport<br>Except where any of the following apply:<br>• Future Local Road Widening Overlay<br>• Future Road Widening Overlay<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.<br>3. It is ancillary to a dwelling erected on the site.<br>4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary.<br>5. Total floor area - does not exceed 40m$^2$.<br>6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end).<br>7. Building height - does not exceed 5m.<br>8. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11m unless:<br>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and<br>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.<br>9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):<br>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and<br>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.<br>10. The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment.<br>11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser).<br>12. The carport is located so that vehicle access:<br>(a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or<br>(b) is not obtained from a State maintained road, and will use a driveway that:<br>(i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;<br>(ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;<br>(iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average<br>(iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access<br>(v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site.<br>13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour.<br>14. Does not involve the clearance of native vegetation. |
| Outbuilding<br>Except where any of the following apply:<br>• Coastal Areas Overlay<br>• Future Local Road Widening Overlay<br>• Future Road Widening Overlay<br>• Hazards (Flooding) Overlay<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• Significant Landscape Protection Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system<br>3. It is detached from and ancillary to a dwelling erected on the site.<br>4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary<br>5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)<br>6. Total floor area - does not exceed 40m$^2$<br>7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)<br>8. Building height - does not exceed 5m<br>9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless:<br>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and<br>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent<br>10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):<br>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and<br>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure<br>11. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%<br>12. If the outbuilding is a garage – door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)<br>13. If the outbuilding is a garage, it is located so that vehicle access:<br>(a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or<br>(b) is not obtained from a State maintained road, and will use a driveway that:<br>(i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing;<br>(ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;<br>(iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average<br>(iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access<br>(v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site<br>14. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour<br>15. Does not involve-<br>(a) excavation exceeding a vertical height of 1m; or<br>(b) filling exceeding a vertical height of 1m,<br>and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m.<br>16. Does not involve the clearance of native vegetation<br>17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas. |
| Partial demolition of a building or structure<br>Except where any of the following apply: | None. |

| | |
|---|---|
| • Historic Area Overlay<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | |
| Shade sail<br>Except where any of the following apply:<br>• Future Local Road Widening Overlay<br>• Future Road Widening Overlay<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.<br>3. Shade sail consists of permeable material.<br>4. The total area of the sail - does not exceed 40m$^2$.<br>5. No part of the shade sail will be:<br>(a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment<br>(b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment.<br>6. Primary street setback - at least as far back as the building line of the building to which it is ancillary.<br>7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m.<br>8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.<br>9. Does not involve the clearance of native vegetation.<br>10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas. |
| Solar photovoltaic panels (roof mounted)<br>Except where any of the following apply:<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.<br>2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof.<br>3. Panels and associated components do not overhang any part of the roof.<br>4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.<br>5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street. |
| Verandah<br>Except where any of the following apply:<br>• Future Local Road Widening Overlay<br>• Future Road Widening Overlay<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system<br>3. It is ancillary to a dwelling erected on the site<br>4. Primary street setback - as far back as the building line of the building to which it is ancillary<br>5. Total floor area - does not exceed 40m$^2$<br>6. Post height - does not exceed 3m measured from natural ground level<br>7. Building height - does not exceed 5m<br>8. Length - does not exceed 11m if any part of the structure abuts or is situated on a boundary of the allotment<br>9. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%<br>10. Does not involve the clearance of native vegetation. |
| Water tank (above ground)<br>Except where any of the following apply:<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• Ramsar Wetlands Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.<br>3. The tank is part of a roof drainage system.<br>4. Total floor area - not exceeding 15m$^2$.<br>5. The tank is located wholly above ground.<br>6. Tank height - does not exceed 4m above natural ground level.<br>7. Primary street setback - at least as far back as the building line of the building to which it is ancillary.<br>8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour.<br>9. Does not involve the clearance of native vegetation. |
| Water tank (underground)<br>Except where any of the following apply:<br>• Coastal Areas Overlay<br>• Hazards (Acid Sulfate Soils) Overlay<br>• Ramsar Wetlands Overlay | 1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.<br>2. The tank (including any associated pump) is located wholly below the level of the ground.<br>3. Does not involve the clearance of native vegetation. |

**Table 2 - Deemed-to-Satisfy Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

| Class of Development | Deemed-to-Satisfy Development Classification Criteria | | | |
|---|---|---|---|---|
| | Zone | General Development Policies | Subzone<br>(applies only in the area affected by the Subzone) | Overlay<br>(applies only in the area affected by the Overlay) |
| Advertisement<br>Except where any of the following apply:<br>• Character Preservation District Overlay<br>• Heritage Adjacency Overlay<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• Non-stop Corridor Overlay<br>• Significant Landscape Protection Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | None | Advertisements [Appearance]<br>DTS/DPF 1.1, DTS/DPF 1.2, DTS/DPF 1.3, DTS/DPF 1.4<br><br>Advertisements [Proliferation of Advertisements]<br>DTS/DPF 2.3<br><br>Advertisements [Advertising Content]<br>DTS/DPF 3.1<br><br>Advertisements [Amenity Impacts]<br>DTS/DPF 4.1<br><br>Advertisements [Safety]<br>DTS/DPF 5.1, DTS/DPF 5.2, DTS/DPF 5.3, DTS/DPF 5.4, DTS/DPF 5.5, DTS/DPF 5.6<br><br>Clearance from Overhead Powerlines<br>DTS/DPF 1.1<br><br>Infrastructure and Renewable Energy Facilities [Wastewater Services]<br>DTS/DPF 12.2 | None | Advertising Near Signalised Intersections Overlay [Advertisements Near Signalised Intersections]<br>DTS/DPF 1.1<br><br>Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form]<br>DTS/DPF 1.1<br><br>Airport Building Heights (Regulated) Overlay [Built Form]<br>DTS/DPF 1.1<br><br>Building Near Airfields Overlay<br>DTS/DPF 1.3<br><br>Defence Aviation Area Overlay [Built Form]<br>DTS/DPF 1.1<br><br>Future Road Widening Overlay [Future Road Widening]<br>DTS/DPF 1.1<br><br>Gateway Overlay [Advertisements]<br>DTS/DPF 4.1<br><br>Native Vegetation Overlay [Environmental Protection]<br>DTS/DPF 1.1<br><br>State Significant Native Vegetation Areas Overlay [Environmental Protection]<br>DTS/DPF 1.1 |

**Table 3 - Applicable Policies for Performance Assessed Development**

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

| Class of Development | Applicable Policies | | | |

PO 1.1

Hazards (Bushfire - General Risk) Overlay [Siting]
PO 1.1

Hazards (Bushfire - General Risk) Overlay [Built Form]
PO 2.1

Hazards (Bushfire - General Risk) Overlay [Habitable Buildings]
PO 3.1, PO 3.2, PO 3.3

Hazards (Bushfire - General Risk) Overlay [Vehicle Access – Roads, Driveways and Fire Tracks]
PO 5.2, PO 5.3

Hazards (Bushfire - High Risk) Overlay [Land Use]
PO 1.1

Hazards (Bushfire - High Risk) Overlay [Siting]
PO 2.1

Hazards (Bushfire - High Risk) Overlay [Built Form]
PO 3.1

Hazards (Bushfire - High Risk) Overlay [Habitable Buildings]
PO 4.1, PO 4.2, PO 4.3

Hazards (Bushfire - High Risk) Overlay [Vehicle Access – Roads, Driveways and Fire Tracks]
PO 6.2, PO 6.3

Hazards (Bushfire - Medium Risk) Overlay [Siting]
PO 1.1

Hazards (Bushfire - Medium Risk) Overlay [Built Form]
PO 2.1

Hazards (Bushfire - Medium Risk) Overlay [Habitable Buildings]
PO 3.1, PO 3.2, PO 3.3

Hazards (Bushfire - Medium Risk) Overlay [Vehicle Access - Roads, Driveways and Fire Tracks]
PO 5.2, PO 5.3

Hazards (Bushfire - Outback) Overlay [Habitable Buildings]
PO 1.1

Hazards (Bushfire - Outback) Overlay [Vehicle Access - Roads and Driveways]
PO 2.2

Hazards (Bushfire - Regional) Overlay [Siting]
PO 1.1

Hazards (Bushfire - Regional) Overlay [Built Form]
PO 2.1, PO 2.2

Hazards (Bushfire - Regional) Overlay [Habitable Buildings]
PO 3.1, PO 3.2, PO 3.3

Hazards (Bushfire - Regional) Overlay [Vehicle Access -Roads and Driveways]
PO 5.1, PO 5.2, PO 5.3

Hazards (Flooding) Overlay [Flood Resilience]
PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.5

Hazards (Flooding) Overlay [Environmental Protection]
PO 4.2

Hazards (Flooding) Overlay [Site Earthworks]
PO 5.1, PO 5.2

Hazards (Flooding) Overlay [Access]
PO 6.1, PO 6.2

Hazards (Flooding – General) Overlay [Flood Resilience]
PO 2.1

Hazards (Flooding - Evidence Required) Overlay [Flood Resilience]
PO 1.1

Heritage Adjacency Overlay [Built Form]
PO 1.1

Historic Area Overlay [All Development]
PO 1.1

Historic Area Overlay [Built Form]
PO 2.1, PO 2.2, PO 2.3, PO 2.4, PO 2.5

Historic Area Overlay [Context and Streetscape Amenity]
PO 6.1, PO 6.2

Historic Area Overlay [Ruins]
PO 8.1

Historic Shipwrecks Overlay [General]
PO 1.1

Interface Management Overlay [Land Use and Intensity]
PO 1.1

Key Outback and Rural Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Key Outback and Rural Routes Overlay [Access - On-Site Queuing]
PO 2.1

Key Outback and Rural Routes Overlay [Access - Location (Spacing) - Existing Access Points]
PO 3.1

Key Outback and Rural Routes Overlay [Access - Location (Spacing) - New Access Points]
PO 4.1

Key Outback and Rural Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Key Outback and Rural Routes Overlay [Access - Mud and Debris]
PO 6.1

Key Outback and Rural Routes Overlay [Access - Stormwater]
PO 7.1

Key Outback and Rural Routes Overlay [Building on Road Reserve]
PO 8.1

Key Outback and Rural Routes Overlay [Public Road Junctions]
PO 9.1

Key Railway Crossings Overlay [Access, Design and Function]
PO 1.1

Local Heritage Place Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7

Local Heritage Place Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

Local Heritage Place Overlay [Conservation Works]
PO 7.1

Major Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Major Urban Transport Routes Overlay [Access - On-Site Queuing]
PO 2.1

Major Urban Transport Routes Overlay [Access – Location (Spacing) - Existing Access Points]
PO 3.1

Major Urban Transport Routes Overlay [Access – Location (Spacing) – New Access Points]
PO 4.1

Major Urban Transport Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Major Urban Transport Routes Overlay [Access - Mud and Debris]
PO 6.1

Major Urban Transport Routes Overlay [Access - Stormwater]
PO 7.1

Major Urban Transport Routes Overlay [Building on Road Reserve]
PO 8.1

Major Urban Transport Routes Overlay [Public Road Junctions]
PO 9.1

Major Urban Transport Routes Overlay [Corner Cut-Offs]
PO 10.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Water Quality]
PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Wastewater]
PO 2.2, PO 2.3, PO 2.4

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Landscapes and Natural Features]
PO 4.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Water Quality]
PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Wastewater]
PO 2.1, PO 2.4, PO 2.5

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Landscapes and Natural Features]
PO 4.1

Native Vegetation Overlay [Environmental Protection]
PO 1.1, PO 1.2, PO 1.4

Noise and Air Emissions Overlay [Siting and Design]
PO 1.1, PO 1.2, PO 1.3

Non-Stop Corridors Overlay [Non-Stop Corridor Overlay]
PO 1.1

Resource Extraction Protection Area Overlay [Protection of Strategic Resources]
PO 1.1

River Murray Flood Plain Protection Area Overlay [Built Form and Character]
PO 5.1, PO 5.3

River Murray Flood Plain Protection Area Overlay [Flood Resilience]
PO 6.1, PO 6.2

River Murray Flood Plain Protection Area Overlay [Environmental Protection]
PO 7.1, PO 7.2, PO 7.3

River Murray Flood Plain Protection Area Overlay [Access]
PO 8.1, PO 8.2, PO 8.3

Significant Interface Management Overlay [Land Use and Intensity]
PO 1.1

Significant Landscape Protection Overlay [Land Use and Intensity]
PO 1.1

Significant Landscape Protection Overlay [Built Form and Character]
PO 2.1, PO 2.2

Significant Landscape Protection Overlay [Landscaping]
PO 3.1

Significant Landscape Protection Overlay [Earthworks]
PO 4.1

State Heritage Area Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5

State Heritage Area Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Landscapes and Natural Features]
PO 4.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Water Quality]
PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Wastewater]
PO 2.4, PO 2.5

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Landscapes and Natural Features]
PO 4.1

Native Vegetation Overlay [Environmental Protection]
PO 1.1, PO 1.2, PO 1.4

Noise and Air Emissions Overlay [Siting and Design]
PO 1.1, PO 1.2, PO 1.3

Non-Stop Corridors Overlay [Non-Stop Corridor Overlay]
PO 1.1

Resource Extraction Protection Area Overlay [Protection of Strategic Resources]
PO 1.1

River Murray Flood Plain Protection Area Overlay [Wastewater]
PO 2.1

River Murray Flood Plain Protection Area Overlay [Built Form and Character]
PO 5.1, PO 5.3

River Murray Flood Plain Protection Area Overlay [Flood Resilience]
PO 6.1, PO 6.2, PO 6.3

River Murray Flood Plain Protection Area Overlay [Environmental Protection]
PO 7.1, PO 7.2, PO 7.3

River Murray Flood Plain Protection Area Overlay [Access]
PO 8.1, PO 8.2, PO 8.3

Scenic Quality Overlay [Land Use and Intensity]
PO 1.1

Scenic Quality Overlay [Built Form and Character]
PO 2.1

Scenic Quality Overlay [Landscaping]
PO 3.1

Scenic Quality Overlay [Earthworks]
PO 4.1

Significant Interface Management Overlay [Land Use and Intensity]
PO 1.1

Significant Landscape Protection Overlay [Land Use and Intensity]
PO 1.1

Significant Landscape Protection Overlay [Built Form and Character]
PO 2.1, PO 2.2

Significant Landscape Protection Overlay [Landscaping]
PO 3.1

Significant Landscape Protection Overlay [Earthworks]
PO 4.1

State Heritage Area Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5

State Heritage Area Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

State Heritage Area Overlay [Conservation Works]
PO 7.1

State Heritage Place Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7

State Heritage Place Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

State Heritage Place Overlay [Conservation Works]
PO 7.1

State Significant Native Vegetation Areas Overlay [Environmental Protection]
PO 1.1

Stormwater Management Overlay
PO 1.1

Traffic Generating Development Overlay [Traffic Generating Development]
PO 1.1, PO 1.2, PO 1.3

PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7

Local Heritage Place Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

Local Heritage Place Overlay [Conservation Works]
PO 7.1

Major Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Major Urban Transport Routes Overlay [Access - On-Site Queuing]
PO 2.1

Major Urban Transport Routes Overlay [Access – Location (Spacing) - Existing Access Points]
PO 3.1

Major Urban Transport Routes Overlay [Access – Location (Spacing) – New Access Points]
PO 4.1

Major Urban Transport Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Major Urban Transport Routes Overlay [Access - Mud and Debris]
PO 6.1

Major Urban Transport Routes Overlay [Access - Stormwater]
PO 7.1

Major Urban Transport Routes Overlay [Building on Road Reserve]
PO 8.1

Major Urban Transport Routes Overlay [Public Road Junctions]
PO 9.1

Major Urban Transport Routes Overlay [Corner Cut-Offs]
PO 10.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Water Quality]
PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Wastewater]
PO 2.1, PO 2.2, PO 2.3, PO 2.4

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Landscapes and Natural Features]
PO 4.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Water Quality]
PO 1.1

Design in Urban Areas [Residential Development - Medium and High Rise (including serviced apartments) [Residential amenity in multi-level buildings]]
PO 28.1, PO 28.2, PO 28.3, PO 28.4, PO 28.5, PO 28.6, PO 28.7

Design in Urban Areas [Residential Development - Medium and High Rise (including serviced apartments) [Dwelling Configuration]]
PO 29.1, PO 29.2

Design in Urban Areas [Residential Development - Medium and High Rise (including serviced apartments) [Common Areas]]
PO 30.1

Design in Urban Areas [Co-located Housing, Group Dwellings, Residential Flat Buildings, Co-living and Battle axe Development [Amenity]]
PO 31.1, PO 31.2, PO 31.3, PO 31.4

Design in Urban Areas [Co-located Housing, Group Dwellings, Residential Flat Buildings, Co-living and Battle axe Development [Car parking, access and manoeuvrability]]
PO 33.1, PO 33.2, PO 33.3, PO 33.4, PO 33.5

Design in Urban Areas [Co-located Housing, Group Dwellings, Residential Flat Buildings, Co-living and Battle axe Development [Soft landscaping]]
PO 34.1, PO 34.2

Design in Urban Areas [Co-located Housing, Group Dwellings, Residential Flat Buildings, Co-living and Battle axe Development [Site Facilities / Waste Storage]]
PO 35.1, PO 35.2, PO 35.3, PO 35.4, PO 35.5, PO 35.6

Design in Urban Areas [Co-located Housing, Group Dwellings, Residential Flat Buildings, Co-living and Battle axe Development [Water sensitive urban design]]
PO 36.1, PO 36.2

Design in Urban Areas [Supported Accommodation and retirement facilities [Student Accommodation]]
PO 41.1, PO 41.2, PO 41.3, PO 41.4, PO 41.5

Design in Urban Areas [Laneway Development [Infrastructure and Access]]
PO 44.1

Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form]
PO 1.1

Airport Building Heights (Regulated) Overlay [Built Form]
PO 1.1

Building Near Airfields Overlay
PO 1.3

Character Area Overlay [All Development]
PO 1.1

Character Area Overlay [Built Form]
PO 2.1, PO 2.2, PO 2.3, PO 2.4, PO 2.5

Character Area Overlay [Context and Streetscape Amenity]
PO 6.1, PO 6.2

Coastal Areas Overlay [Hazard Risk Minimisation]
PO 2.1, PO 2.2, PO 2.3, PO 2.4, PO 2.5

Coastal Areas Overlay [Coast Protection Works]
PO 3.1, PO 3.2

Coastal Areas Overlay [Environment Protection]
PO 4.1, PO 4.2, PO 4.3, PO 4.4, PO 4.5, PO 4.6, PO 4.7

Coastal Areas Overlay [Access]
PO 5.1, PO 5.2, PO 5.4

Coastal Flooding Overlay
PO 1.1

Defence Aviation Area Overlay [Built Form]
PO 1.1

Design Overlay [General]
PO 1.1

Future Local Road Widening Overlay [Future Road Widening]
PO 1.1

Future Road Widening Overlay [Future Road Widening]
PO 1.1

Gas and Liquid Petroleum Pipelines Overlay [Land Use and Intensity]
PO 1.1

Gas and Liquid Petroleum Pipelines (Facilities) Overlay [Safety]
PO 1.1

Gateway Overlay [Built Form and Character]
PO 1.1, PO 1.2, PO 1.3

Gateway Overlay [Landscaping]
PO 3.1, PO 3.2, PO 3.3, PO 3.4

Hazards (Acid Sulfate Soils) Overlay [Land Use and Intensity]
PO 1.1

Hazards (Bushfire - General Risk) Overlay [Siting]
PO 1.1

Hazards (Bushfire - General Risk) Overlay [Built Form]
PO 2.1

Hazards (Bushfire - General Risk) Overlay [Habitable Buildings]
PO 3.1, PO 3.2, PO 3.3

Hazards (Bushfire - General Risk) Overlay [Vehicle Access – Roads, Driveways and Fire Tracks]
PO 5.2, PO 5.3

Hazards (Bushfire - High Risk) Overlay [Land Use]
PO 1.1

Hazards (Bushfire - High Risk) Overlay [Siting]
PO 2.1

Hazards (Bushfire - High Risk) Overlay [Built Form]
PO 3.1

Hazards (Bushfire - High Risk) Overlay [Habitable Buildings]
PO 4.1, PO 4.2, PO 4.3

Hazards (Bushfire - High Risk) Overlay [Vehicle Access – Roads, Driveways and Fire Tracks]
PO 6.2, PO 6.3

Hazards (Bushfire - Medium Risk) Overlay [Siting]
PO 1.1

Hazards (Bushfire - Medium Risk) Overlay [Built Form]
PO 2.1

Hazards (Bushfire - Medium Risk) Overlay [Habitable Buildings]
PO 3.1, PO 3.2, PO 3.3

Hazards (Bushfire - Medium Risk) Overlay [Vehicle Access - Roads, Driveways and Fire Tracks]
PO 5.2, PO 5.3

Hazards (Bushfire - Outback) Overlay [Habitable Buildings]
PO 1.1

Hazards (Bushfire - Outback) Overlay [Vehicle Access - Roads and Driveways]
PO 2.2

Hazards (Bushfire - Regional) Overlay [Siting]
PO 1.1

Hazards (Bushfire - Regional) Overlay [Built Form]
PO 2.1

Hazards (Bushfire - Regional) Overlay [Habitable Buildings]
PO 3.1, PO 3.2, PO 3.3

Hazards (Bushfire - Regional) Overlay [Vehicle Access -Roads and Driveways]
PO 5.2, PO 5.3

Hazards (Flooding) Overlay [Flood Resilience]
PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.5

Hazards (Flooding) Overlay [Environmental Protection]
PO 4.2

Hazards (Flooding) Overlay [Site Earthworks]
PO 5.1, PO 5.2

Hazards (Flooding) Overlay [Access]
PO 6.1, PO 6.2

Infrastructure and Renewable Energy Facilities [Water Supply]
PO 11.2

Infrastructure and Renewable Energy Facilities [Wastewater Services]
PO 12.1, PO 12.2

Interface between Land Uses [General Land Use Compatibility]
PO 1.1

Interface between Land Uses [Overshadowing]
PO 3.1, PO 3.2, PO 3.3

Interface between Land Uses [Activities Generating Noise or Vibration]
PO 4.3, PO 4.4

Site Contamination
PO 1.1

Transport, Access and Parking [Sightlines]
PO 2.1, PO 2.2

Transport, Access and Parking [Vehicle Access]
PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.5, PO 3.7

Transport, Access and Parking [Access for People with Disabilities]
PO 4.1

Transport, Access and Parking [Vehicle Parking Rates]
PO 5.1

Transport, Access and Parking [Vehicle Parking Areas]
PO 6.1, PO 6.2

Transport, Access and Parking [Bicycle Parking in Designated Areas]
PO 9.1, PO 9.2

Transport, Access and Parking [Corner Cut-Offs]
PO 10.1

Hazards (Flooding – General) Overlay [Flood Resilience]
PO 2.1

Hazards (Flooding - Evidence Required) Overlay [Flood Resilience]
PO 1.1

Heritage Adjacency Overlay [Built Form]
PO 1.1

Historic Area Overlay [All Development]
PO 1.1

Historic Area Overlay [Built Form]
PO 2.1, PO 2.2, PO 2.3, PO 2.4, PO 2.5

Historic Area Overlay [Context and Streetscape Amenity]
PO 6.1, PO 6.2

Historic Area Overlay [Ruins]
PO 8.1

Historic Shipwrecks Overlay [General]
PO 1.1

Interface Management Overlay [Land Use and Intensity]
PO 1.1

Key Railway Crossings Overlay [Access, Design and Function]
PO 1.1

Local Heritage Place Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7

Local Heritage Place Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

Local Heritage Place Overlay [Conservation Works]
PO 7.1

Major Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Major Urban Transport Routes Overlay [Access - On-Site Queuing]
PO 2.1

Major Urban Transport Routes Overlay [Access – Location (Spacing) - Existing Access Points]
PO 3.1

Major Urban Transport Routes Overlay [Access – Location (Spacing) – New Access Points]
PO 4.1

Major Urban Transport Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Major Urban Transport Routes Overlay [Access - Mud and Debris]
PO 6.1

Major Urban Transport Routes Overlay [Access - Stormwater]
PO 7.1

Major Urban Transport Routes Overlay [Building on Road Reserve]
PO 8.1

Major Urban Transport Routes Overlay [Public Road Junctions]
PO 9.1

Major Urban Transport Routes Overlay [Corner Cut-Offs]
PO 10.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Water Quality]
PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Wastewater]
PO 2.2, PO 2.3, PO 2.4

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Landscapes and Natural Features]
PO 4.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Water Quality]
PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Wastewater]
PO 2.1, PO 2.4, PO 2.5

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Landscapes and Natural Features]
PO 4.1

Noise and Air Emissions Overlay [Siting and Design]
PO 1.1, PO 1.2, PO 1.3

Non-Stop Corridors Overlay [Non-Stop Corridor Overlay]
PO 1.1

Resource Extraction Protection Area Overlay [Protection of Strategic Resources]
PO 1.1

Significant Interface Management Overlay [Land Use and Intensity]
PO 1.1

State Heritage Area Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5

State Heritage Area Overlay [Landscape Context and Streetscape Amenity]

| All other Code Assessed Development | All | All | All | Any relevant Overlay: All |

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

| Class of Development | Exclusions |
|---|---|
| Industry | Light industry |
| Shop | Any of the following:<br><br>(a) shop with a gross leasable floor area less than 2000m$^2$<br>(b) shop located within the Urban Corridor Business Retail Subzone<br>(c) shop that is a restaurant |

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

| Class of Development<br>(Column A) | Exceptions<br>(Column B) |
|---|---|

| | |
|---|---|
| 1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development. | None specified. |
| 2. Any kind of development where the site of the development is **not** adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone. | Except any of the following:<br>1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)<br>2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building). |
| 3. Any development involving any of the following (or of any combination of any of the following):<br>(a) advertisement<br>(b) child care facility<br>(c) co-living<br>(d) dwelling<br>(e) residential flat building<br>(f) retirement facility<br>(g) student accommodation<br>(h) supported accommodation. | Except development that:<br>1. exceeds the maximum building height specified in Urban Corridor (Business) DTS/DPF 3.1<br>or<br>2. does not satisfy Urban Corridor (Business) DTS/DPF 4.1<br>or<br>3. involves the construction of a building of 4 or more building levels and the site of the development is:<br>(a) adjacent land to a neighbourhood-type zone<br>and<br>(b) adjoins an allotment containing an existing low-rise building used for residential purposes. |
| 4. Any development involving any of the following (or of any combination of any of the following):<br>(a) consulting room<br>(b) office<br>(c) shop. | Except development that:<br>1. exceeds the maximum building height specified in Urban Corridor (Business) DTS/DPF 3.1<br>or<br>2. does not satisfy Urban Corridor (Business) DTS/DPF 1.2<br>or<br>3. does not satisfy Urban Corridor (Business) DTS/DPF 4.1<br>or<br>4. involves the construction of a building of 4 or more building levels and the site of the development is:<br>(a) adjacent land to a neighbourhood-type zone<br>and<br>(b) adjoins an allotment containing an existing low-rise building used for residential purposes. |
| 5. Any development involving any of the following (or of any combination of any of the following):<br>(a) air handling unit, air conditioning system or exhaust fan<br>(b) carport<br>(c) deck<br>(d) fence<br>(e) internal building works<br>(f) land division<br>(g) outbuilding<br>(h) pergola<br>(i) private bushfire shelter<br>(j) replacement building<br>(k) retaining wall<br>(l) shade sail<br>(m) solar photovoltaic panels (roof mounted)<br>(n) swimming pool or spa pool and associated swimming pool safety features<br>(o) tree damaging activity<br>(p) verandah<br>(q) water tank. | None specified. |
| 6. Demolition. | Except any of the following:<br>1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)<br>2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building). |
| 7. Railway line. | Except where located outside of a rail corridor or rail reserve. |

| **Placement of Notices - Exemptions for Performance Assessed Development** |
|---|
| None specified. |

| **Placement of Notices - Exemptions for Restricted Development** |
|---|
| None specified. |

### Urban Corridor Business Retail Subzone

Assessment Provisions

Desired Outcome (DO)

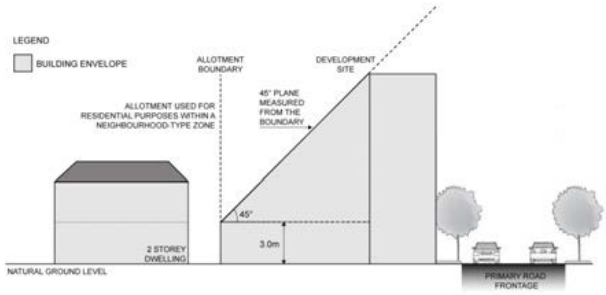
| Desired Outcome | |
|---|---|
| DO1 | Additional neighbourhood-scale shopping, business, entertainment and recreation facilities to provide a focus for business and community life and most daily and weekly shopping needs of the community. |

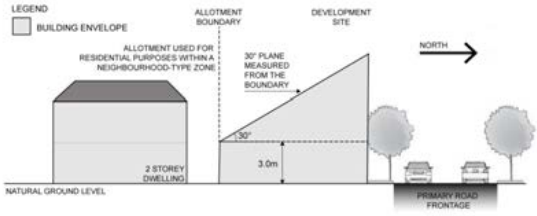
Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

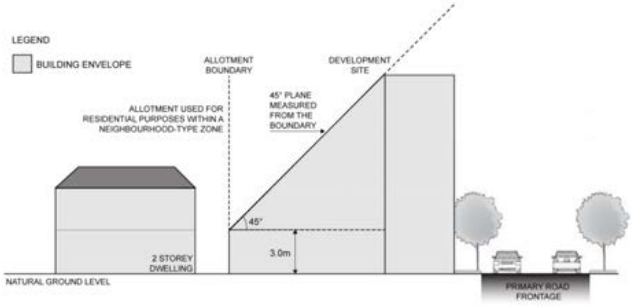
| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Land Use and Intensity | |
| PO 1.1<br>Retail, office, entertainment and recreation related uses supplemented by other businesses providing a range of goods and services to the community. | DTS/DPF 1.1<br>Shop, office or consulting room uses not exceeding a maximum gross leasable floor area of 2000m2 in a single building. |

### Urban Corridor (Living) Zone

#### Assessment Provisions (AP)







Desired Outcome (DO)

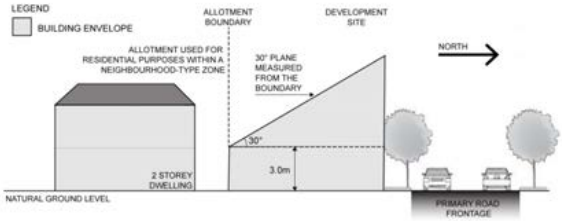
| Desired Outcome | |
|---|---|
| DO 1 | A mixed use area with a strong residential focus that provides a diverse range of medium density housing options primarily in multi-level medium rise buildings supported by compatible non-residential land uses oriented towards a primary road corridor (e.g., a State maintained road or a road with similar attributes), high frequency public transport route, activity centre or significant open space. |
| DO 2 | Non-residential activities that enhance convenient day to day living for nearby residents and encourage small group and intimate social gatherings that is contextually appropriate to a compact residential amenity. |

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Land Use and Intensity | |
| PO 1.1<br>A vibrant mix of land uses adding to the vitality of the area and extend activities outside shop hours including restaurants, educational, community and cultural facilities and visitor and residential accommodation. | DTS/DPF 1.1<br>Development comprises one or more of the following:<br>(a) Advertisement<br>(b) Child care facility<br>(c) Co-living<br>(d) Consulting Room<br>(e) Dwelling<br>(f) Educational Facility |

| | |
|---|---|
| | (g) Office<br>(h) Retirement Facility<br>(i) Shop<br>(j) Student Accommodation<br>(k) Supported Accommodation<br>(l) Tourist Accommodation |
| PO 1.2<br><br>A range of small to medium scale non-residential uses, services and facilities such as shops, offices and consulting rooms that meet the day to day needs for the local community. | DTS/DPF 1.2<br><br>Shop, office, or consulting room uses not exceeding a maximum gross leasable floor area of 500m$^2$. |
| PO 1.3<br><br>Development of diverse medium density accommodation options either as part of a mixed use development or wholly residential development. | DTS/DPF 1.3<br><br>None are applicable. |
| PO 1.4<br><br>Changes in the use of land encourage the efficient reuse of premises to support local access to a range of services compatible to the locality. | DTS/DPF 1.4<br><br>Provided off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number, a change of use involving either of the following:<br><br>(a) from residential to office or consulting room on the ground or first floor of a building<br>(b) from residential to shop less than 250 m$^2$ on the ground floor of a building. |
| Built Form and Character | |
| PO 2.1<br><br>Buildings positively contribute to a continuous framing of the primary road corridor (e.g., a State maintained road or a road with similar attributes) and public realm, and provide visual relief from building scale and massing from the ground level public realm. | DTS/DPF 2.1<br><br>Buildings:<br><br>(a) include a clearly defined podium or street wall with a maximum building height of 2 building levels or 8m in height and<br>(b) have levels above the defined podium or street wall setback a minimum of 2m from that wall. |
| PO 2.2<br><br>Buildings setback from the primary street boundaries are consistent with the established streetscape, except in locations where no setback is desired to achieve a more prominent, strongly defined, and continuous built form presence to the primary street frontage. | DTS/DPF 2.2<br><br>Buildings setback from the primary street boundary:<br><br>(a) not less than:<br><br>**Minimum Primary Street Setback**<br>Minimum primary street setback is 0m<br>Minimum primary street setback is 2m<br>Minimum primary street setback is 3m<br>Minimum primary street setback is 4m<br>Minimum primary street setback is 6m<br><br>Or<br><br>(b) where no value is returned in DTS/DPF 2.2(a), in accordance with the following table:<br><br>**Development Context** / **Minimum setback**<br>There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building. — The average setback of the existing buildings.<br>There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site. — The setback of the existing building.<br>There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site. — (a) Where the existing building shares the same primary street frontage – the setback of the existing building<br>(b) Where the existing building has a different primary street frontage - no DTS/DPF is applicable<br><br>In instances where DTS/DPF 2.2 (a) or (b) do not apply, then none are applicable and the relevant development cannot be classified as deemed-to-satisfy.<br><br>For the purposes of **DTS/DPF 2.2 (a) and (b):**<br><br>(a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback<br>(b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table |
| PO 2.3<br><br>Buildings set back from secondary street boundaries to contribute to a consistent established streetscape. | DTS/DPF 2.3<br><br>Building walls setback from a secondary street frontage not less than 2m. |
| PO 2.4<br><br>Buildings are:<br><br>(a) sited on side boundaries for parts of the building located towards the front part of the allotment to achieve a continuity of street façade to the street<br>(b) setback from side boundaries for parts of the building located behind the street facing elements, to enable building separation to provide access to natural ventilation and sunlight. | DTS/DPF 2.4<br><br>Building walls with no window/s or balcony/s fronting the boundary, setback from side boundaries in accordance with all of the following:<br><br>(a) no minimum on the boundary, within the first 18m from the front property boundary for any building level<br>(b) no minimum for remaining length for ground level only<br>(c) 2m or more for 1st level and above for building parts more than 18m from the front property boundary. |
| PO 2.5<br><br>Buildings set back from rear boundaries (other than street boundaries) to:<br><br>(a) minimise negative impacts on neighbouring properties, including access to natural sunlight and ventilation<br>(b) provide open space recreational opportunities<br>(c) provide space for landscaping and vegetation. | DTS/DPF 2.5<br><br>Building walls setback from rear boundaries in accordance with all of the following:<br><br>(a) 5m or more where the subject land directly abuts an allotment of a different zone<br>(b) 3m or more in all other cases, except where the development abuts the wall of an existing or simultaneously constructed building on the adjoining land. |
| PO 2.6<br><br>Buildings set back from street boundaries (in the case of rear access ways) to provide adequate manoeuvrability for vehicles. | DTS/DPF 2.6<br><br>Building walls setback from the rear access way:<br><br>(a) no requirement where the access way is not less than 6.5m wide<br>or<br>(b) where the access way is less than 6.5m wide, the distance equal to the additional width required to make the access way at least 6.5m wide. |
| Building Height | |
| PO 3.1<br><br>Building height is consistent with the form expressed in the *Maximum Building Height (Levels) Technical and Numeric Variation layer and the Maximum Building Height (Metres) Technical and Numeric Variation layer* or positively responds to the local context including the site's frontage, depth, and adjacent primary road corridor (e.g., a State maintained road or a road with similar attributes) or street width. | DTS/DPF 3.1<br><br>Except where a Concept Plan specifies otherwise, development does not exceed the following building height(s):<br><br>**Maximum Building Height (Levels)**<br>Maximum building height is 3 levels<br>Maximum building height is 4 levels<br>Maximum building height is 6 levels<br>Maximum building height is 8 levels<br>Maximum building height is 20 levels<br>**Maximum Building Height (Metres)**<br>Maximum building height is 11.5m<br>Maximum building height is 12.5m<br>Maximum building height is 15m<br>Maximum building height is 16.5m<br>Maximum building height is 22m<br>Maximum building height is 24.5m<br>Maximum building height is 29m<br>Maximum building height is 73m<br><br>In relation to DTS/DPF 3.1, in instances where: |

| | |
|---|---|
| | (a) more than one value is returned, refer to the *Maximum Building Height (Levels) Technical and Numeric Variation layer or Maximum Building Height (Metres) Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development<br>(b) only one value is returned (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other<br>(c) no value is returned (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy. |
| PO 3.2<br><br>Buildings designed to achieve optimal height and floor space yields, and maintain traditional main street form. | DTS/DPF 3.2<br><br>New development is not less that the following building height:<br><br>**Minimum Building Height (Levels)**<br>Minimum building height is 1 level<br>Minimum building height is 2 levels<br>Minimum building height is 3 levels<br><br>In relation to DTS/DPF 3.2, in instances where:<br><br>(a) more than one value is returned, refer to the *Minimum Building Height (Levels) Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development<br>(b) no value is returned (i.e. there is a blank field), then there is no minimum building height and DTS/DPF 3.2 is met. |
| Interface Height | |
| PO 4.1<br><br>Buildings mitigate impacts of building massing on residential development within a neighbourhood-type zone. | DTS/DPF 4.1<br><br>**Interface Height**<br><br>Buildings constructed within a building envelope provided by a:<br><br>(a) 45 degree plane measured from a height of 3 metres above natural ground level at the boundary of the allotment where abutting a residential use, or where the allotment is separated by a road less than 6.5 metres in width measured from the residential allotment boundary, within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary):<br><br><br><br><br>(b) in relation to a southern boundary, 30 degree plane grading north, measured from a height of 3m above natural ground at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a street boundary):<br><br><br><br><br>Buildings constructed within a building envelope provided by a 45 degree plane measured from a height of 3 metres above natural ground level at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a street boundary):<br><br><br> |



| | |
|---|---|
| | **Interface Height**<br>Buildings constructed within a building envelope provided by a 30 degree plane measured from a height of 3m above natural ground level at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a street boundary):<br><br> |
| PO 4.2<br>Buildings on an allotment fronting a road that is not the primary road corridor (e.g., a State maintained road or a road with similar attributes) and where land on the opposite side of the road is within a neighbourhood-type zone, provides an orderly transition to the built form scale envisaged in the adjacent zone to complement the streetscape character. | DTS/DPF 4.2<br>None are applicable. |
| Significant Development Sites | |
| PO 5.1<br>Consolidation of significant development sites (a site with a frontage over 25m to a primary road corridor (e.g., a State maintained road or a road with similar attributes) and over 2500m$^2$ in area, which may include one or more allotments) to achieve increased development yield provided that off-site impacts can be managed and broader community benefit is achieved in terms of design quality, community services, affordable housing provision, retirement facility and supported accommodation provision, or sustainability features. | DTS/DPF 5.1<br>Development on significant development sites up to 30% above the maximum building height specified in DTS/DPF 3.1 (rounded to the nearest whole number) where it satisfies (a), (b), (c) or (d):<br>(a) incorporates the retention, conservation and reuse of a building which is a listed heritage place or an existing built form and context that positively contributes to the character of the local area<br>(b) includes more than 15% of dwellings as affordable housing<br>(c) is for the purpose of a retirement facility or supported accommodation<br>(d) includes at least:<br>(i) three of the following:<br>A. high quality open space that is universally accessible and is directly connected to, and well integrated with, public realm areas of the street<br>B. high quality, safe and secure, universally accessible pedestrian linkages that connect through the development site<br>C. active uses are located on the public street frontages of the building, with any above ground car parking located behind<br>D. a range of dwelling types that includes at least 10% of 3+ bedroom apartments<br>E. a child care centre.<br>and<br>(ii) three of the following:<br>A. a communal useable garden integrated with the design of the building that covers the majority of a rooftop area supported by services that ensure ongoing maintenance;<br>B. living landscaped vertical surfaces of at least 50m$^2$ supported by services that ensure ongoing maintenance;<br>C. passive heating and cooling design elements including solar shading integrated into the building;<br>D. higher amenity through provision of private open space in excess of minimum requirements by 25% for at least 50% of dwellings. |
| PO 5.2<br>Development on a significant development site (a site with a frontage over 25m to a primary road corridor (e.g., a State maintained road or a road with similar attributes) and over 2500m$^2$ in area, which may include one or more allotments) designed to minimise impacts on residential uses in adjacent zones with regard to intensity of use, overshadowing, massing and building proportions. | DTS/DPF 5.2<br>Development that satisfies all of the following:<br>(a) is constructed within zone's Interface Building Height provision as specified DTS/DPF 4.1<br>(b) locates non-residential activities and higher density elements towards the primary road corridor (e.g., a State maintained road or a road with similar attributes)<br>(c) locates taller building elements towards the primary road corridor (e.g., a State maintained road or a road with similar attributes). |
| Movement, parking and access | |
| PO 6.1<br>Development does not result in additional crossovers on the primary street frontage, except where rationalising existing crossovers on consolidated sites and is designed to minimise conflicts with pedestrians and cyclists and minimise disruption to the continuity of built form. | DTS/DPF 6.1<br>Vehicular access to be provided:<br>(a) via side streets or rear lanes provided there is no negative impact on residential amenity within the zone and in adjacent zones<br>or<br>(b) where it consolidates or replaces existing crossovers. |
| PO 6.2<br>Development is designed to ensure car parking is located avoid negative impacts on the primary street frontage streetscape. | DTS/DPF 6.2<br>Vehicle parking garages located behind buildings away from the primary main street frontage. |
| Advertisements | |
| PO 7.1<br>Freestanding advertisements identify the associated business without creating a visually dominant element within the streetscape. | DTS/DPF 7.1<br>Freestanding advertisements:<br>(a) do not exceed 6m in height above natural ground level<br>and<br>(b) do not have a face that exceeds 4m$^2$ per side. |
| Concept Plans | |
| PO 8.1<br>Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure. | DTS/DPF 8.1<br>The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:<br>**Description**<br>Concept Plan 24 - Glenside<br>Concept Plan 110 - Forestville<br>In relation to DTS/DPF 8.1, in instances where:<br>(a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.<br>(b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 8.1 is met. |

**Table 1 - Accepted Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

| Class of Development | Accepted Development Classification Criteria |
|---|---|
| Brush fence<br>Except where any of the following apply: | 1. The fence is formed (wholly or partially) from brush |

| | |
|---|---|
| • Hazards (Flooding) Overlay<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• Ramsar Wetlands Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 2. The fence does not exceed 2.1 metres in height (measured from the lower of the 2 adjoining finished ground levels)<br>3. The fence does not exceed 1 m in height within 6 m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved)<br>4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas. |
| Building alterations<br>Except where any of the following apply:<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The alteration does not:<br>(a) increase the floor area of the building<br>(b) exceed the existing wall height<br>(c) exceed the existing overall building height<br>(d) alter the roof profile<br>(e) alter an approved privacy screening arrangement or window treatment<br>(f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.<br>2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm. |
| Building work on railway land<br>Except where any of the following apply:<br>• Coastal Areas Overlay<br>• Hazards (Acid Sulfate Soils) Overlay<br>• Local Heritage Place Overlay<br>• Significant Landscape Protection Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. Building work is associated with a railway<br>2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017)<br>3. It is required for the conduct or maintenance of railway activities<br>4. It does not involve the clearance of native vegetation<br>5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas |
| Carport<br>Except where any of the following apply:<br>• Future Local Road Widening Overlay<br>• Future Road Widening Overlay<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system<br>3. It is ancillary to a dwelling erected on the site<br>4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary<br>5. Total floor area - does not exceed 40m$^2$<br>6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end)<br>7. Building height - does not exceed 5m<br>8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11m unless:<br>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and<br>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent<br>9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street):<br>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and<br>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure<br>10. The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment<br>11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)<br>12. The carport is located so that vehicle access:<br>(a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or<br>(b) is not obtained from a State maintained road, and will use a driveway that:<br>(i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;<br>(ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;<br>(iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average<br>(iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access<br>(v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site<br>13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour<br>14. Does not involve the clearance of native vegetation. |
| Outbuilding<br>Except where any of the following apply:<br>• Coastal Areas Overlay<br>• Future Local Road Widening Overlay<br>• Future Road Widening Overlay<br>• Hazards (Flooding) Overlay<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• Significant Landscape Protection Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.<br>3. It is detached from and ancillary to a dwelling erected on the site.<br>4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary.<br>5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads).<br>6. Total floor area - does not exceed 40m$^2$.<br>7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end).<br>8. Building height - does not exceed 5m.<br>9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless:<br>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and<br>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.<br>10. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%.<br>11. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):<br>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and<br>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.<br>12. If the outbuilding is a garage, it is located so that vehicle access:<br>(a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or<br>(b) is not obtained from a State maintained road, and will use a driveway that:<br>(i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;<br>(ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;<br>(iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average<br>(iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access<br>(v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site<br>13. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour.<br>14. Does not involve-<br>(a) excavation exceeding a vertical height of 1 metre; or<br>(b) filling exceeding a vertical height of 1 metre,<br>and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres.<br>15. Does not involve the clearance of native vegetation.<br>16. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas |
| Partial demolition of a building or structure<br>Except where any of the following apply:<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | None |
| Shade sail<br>Except where any of the following apply:<br>• Future Local Road Widening Overlay<br>• Future Road Widening Overlay<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system<br>3. Shade sail consists of permeable material<br>4. The total area of the sail - does not exceed 40m$^2$<br>5. No part of the shade sail will be:<br>(a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment<br>(b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment<br>6. Primary street setback - at least as far back as the building line of the building to which it is ancillary<br>7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m<br>8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.<br>9. Does not involve the clearance of native vegetation<br>10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas. |
| Solar photovoltaic panels (roof mounted)<br>Except where any of the following apply: | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996* |

| | |
|---|---|
| • Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof<br>3. Panels and associated components do not overhang any part of the roof<br>4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system<br>5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street. |
| Swimming pool or spa pool and associated swimming pool safety features<br>Except where any of the following apply:<br>• Future Local Road Widening Overlay<br>• Future Road Widening Overlay<br>• Hazards (Flooding) Overlay<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.<br>3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted.<br>4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature).<br>5. Primary street setback - at least as far back as the building line of the building to which it is ancillary.<br>6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment:<br>(a) not less than 5m where the filtration system is located inside a solid acoustic structure; or<br>(b) not less than 12m in any other case.<br>7. Does not involve the clearance of native vegetation.<br>8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas. |
| Verandah<br>Except where any of the following apply:<br>• Future Local Road Widening Overlay<br>• Future Road Widening Overlay<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.<br>3. It is ancillary to a dwelling erected on the site.<br>4. Primary street setback - as far back as the building line of the building to which it is ancillary.<br>5. Total floor area - does not exceed 40m$^2$.<br>6. Post height - does not exceed 3m measured from natural ground level.<br>7. Building height - does not exceed 5m.<br>8. Length - does not exceed 11m if any part of the structure abuts or is situated on a boundary of the allotment.<br>9. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%.<br>10. Does not involve the clearance of native vegetation. |
| Water tank (above ground)<br>Except where any of the following apply:<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• Ramsar Wetlands Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.<br>3. The tank is part of a roof drainage system.<br>4. Total floor area - not exceeding 15m$^2$.<br>5. The tank is located wholly above ground.<br>6. Tank height - does not exceed 4m above natural ground level.<br>7. Primary street setback - at least as far back as the building line of the building to which it is ancillary.<br>8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour.<br>9. Does not involve the clearance of native vegetation. |
| Water tank (underground)<br>Except where any of the following apply:<br>• Coastal Areas Overlay<br>• Hazards (Acid Sulfate Soils) Overlay<br>• Ramsar Wetlands Overlay | 1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.<br>2. The tank (including any associated pump) is located wholly below the level of the ground.<br>3. Does not involve the clearance of native vegetation. |

**Table 2 - Deemed-to-Satisfy Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

| Class of Development | Deemed-to-Satisfy Development Classification Criteria | | | |
|---|---|---|---|---|
| | Zone | General Development Policies | Subzone<br>(applies only in the area affected by the Subzone) | Overlay<br>(applies only in the area affected by the Overlay) |

**Table 3 - Applicable Policies for Performance Assessed Development**

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

| Class of Development | Applicable Policies | | | |
|---|---|---|---|---|
| | Zone | General Development Policies | Subzone<br>(applies only in the area affected by the Subzone) | Overlay<br>(applies only in the area affected by the Overlay) |

Transport, Access and Parking [Sightlines]
PO 2.1, PO 2.2

Transport, Access and Parking [Vehicle Access]
PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.5, PO 3.6, PO 3.7, PO 3.8, PO 3.9

Transport, Access and Parking [Access for People with Disabilities]
PO 4.1

Transport, Access and Parking [Vehicle Parking Rates]
PO 5.1

Transport, Access and Parking [Vehicle Parking Areas]
PO 6.1, PO 6.2, PO 6.3, PO 6.4, PO 6.5, PO 6.6

Transport, Access and Parking [Undercroft and Below Ground Garaging and Parking of Vehicles]
PO 7.1

Transport, Access and Parking [Bicycle Parking in Designated Areas]
PO 9.1, PO 9.2, PO 9.3

Transport, Access and Parking [Corner Cut-Offs]
PO 10.1

Hazards (Bushfire - High Risk) Overlay [Vehicle Access – Roads, Driveways and Fire Tracks]
PO 6.1, PO 6.2, PO 6.3

Hazards (Bushfire - Medium Risk) Overlay [Siting]
PO 1.1

Hazards (Bushfire - Medium Risk) Overlay [Built Form]
PO 2.1, PO 2.2

Hazards (Bushfire - Medium Risk) Overlay [Vehicle Access - Roads, Driveways and Fire Tracks]
PO 5.1, PO 5.2, PO 5.3

Hazards (Bushfire - Outback) Overlay [Vehicle Access - Roads and Driveways]
PO 2.1, PO 2.2

Hazards (Bushfire - Regional) Overlay [Siting]
PO 1.1

Hazards (Bushfire - Regional) Overlay [Built Form]
PO 2.1, PO 2.2

Hazards (Bushfire - Regional) Overlay [Vehicle Access -Roads and Driveways]
PO 5.1, PO 5.2, PO 5.3

Hazards (Flooding) Overlay [Flood Resilience]
PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.5

Hazards (Flooding) Overlay [Environmental Protection]
PO 4.2

Hazards (Flooding) Overlay [Site Earthworks]
PO 5.1, PO 5.2

Hazards (Flooding) Overlay [Access]
PO 6.1, PO 6.2

Hazards (Flooding – General) Overlay [Flood Resilience]
PO 2.1

Hazards (Flooding – General) Overlay [Environmental Protection]
PO 3.1

Hazards (Flooding - Evidence Required) Overlay [Flood Resilience]
PO 1.1

Heritage Adjacency Overlay [Built Form]
PO 1.1

Historic Area Overlay [All Development]
PO 1.1

Historic Area Overlay [Built Form]
PO 2.1, PO 2.2, PO 2.3, PO 2.4, PO 2.5

Historic Area Overlay [Context and Streetscape Amenity]
PO 6.1, PO 6.2

Historic Area Overlay [Ruins]
PO 8.1

Historic Shipwrecks Overlay [General]
PO 1.1

Interface Management Overlay [Land Use and Intensity]
PO 1.1

Key Outback and Rural Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Key Outback and Rural Routes Overlay [Access - On-Site Queuing]
PO 2.1

Key Outback and Rural Routes Overlay [Access - Location (Spacing) - Existing Access Points]
PO 3.1

Key Outback and Rural Routes Overlay [Access - Location (Spacing) - New Access Points]
PO 4.1

Key Outback and Rural Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Key Outback and Rural Routes Overlay [Access - Mud and Debris]
PO 6.1

Key Outback and Rural Routes Overlay [Access - Stormwater]
PO 7.1

Key Outback and Rural Routes Overlay [Building on Road Reserve]
PO 8.1

Key Outback and Rural Routes Overlay [Public Road Junctions]
PO 9.1

Key Railway Crossings Overlay [Access, Design and Function]
PO 1.1

Limited Dwelling Overlay
PO 1.1

Local Heritage Place Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7

Local Heritage Place Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

Local Heritage Place Overlay [Conservation Works]
PO 7.1

Major Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Major Urban Transport Routes Overlay [Access - On-Site Queuing]
PO 2.1

Major Urban Transport Routes Overlay [Access – Location (Spacing) - Existing Access Points]
PO 3.1

Major Urban Transport Routes Overlay [Access – Location (Spacing) – New Access Points]
PO 4.1

Major Urban Transport Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Major Urban Transport Routes Overlay [Access - Mud and Debris]
PO 6.1

Major Urban Transport Routes Overlay [Access - Stormwater]
PO 7.1

Major Urban Transport Routes Overlay [Building on Road Reserve]
PO 8.1

Major Urban Transport Routes Overlay [Public Road Junctions]
PO 9.1

Major Urban Transport Routes Overlay [Corner Cut-Offs]
PO 10.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Water Quality]
PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Wastewater]
PO 2.1, PO 2.2, PO 2.3, PO 2.4

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Landscapes and Natural Features]
PO 4.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Water Quality]
PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Wastewater]
PO 2.1, PO 2.3, PO 2.4, PO 2.5

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Landscapes and Natural Features]
PO 4.1

Native Vegetation Overlay [Environmental Protection]
PO 1.1, PO 1.2, PO 1.4

Non-Stop Corridors Overlay [Non-Stop Corridor Overlay]
PO 1.1

Resource Extraction Protection Area Overlay [Protection of Strategic Resources]
PO 1.1

River Murray Flood Plain Protection Area Overlay [Wastewater]
PO 2.1

River Murray Flood Plain Protection Area Overlay [Built Form and Character]
PO 5.1, PO 5.3

River Murray Flood Plain Protection Area Overlay [Flood Resilience]
PO 6.1, PO 6.2

River Murray Flood Plain Protection Area Overlay [Environmental Protection]
PO 7.1, PO 7.2, PO 7.3

River Murray Flood Plain Protection Area Overlay [Access]
PO 8.1, PO 8.2, PO 8.3

Scenic Quality Overlay [Land Use and Intensity]
PO 1.1

Scenic Quality Overlay [Built Form and Character]
PO 2.1

Scenic Quality Overlay [Landscaping]
PO 3.1

Scenic Quality Overlay [Earthworks]
PO 4.1

Significant Interface Management Overlay [Land Use and Intensity]
PO 1.1

Significant Landscape Protection Overlay [Land Use and Intensity]
PO 1.1

Significant Landscape Protection Overlay [Built Form and Character]
PO 2.1, PO 2.2

Significant Landscape Protection Overlay [Landscaping]
PO 3.1

Significant Landscape Protection Overlay [Earthworks]
PO 4.1

State Heritage Area Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5

State Heritage Area Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

State Heritage Area Overlay [Conservation Works]
PO 7.1

State Heritage Place Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7

State Heritage Place Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

State Heritage Place Overlay [Conservation Works]
PO 7.1

State Significant Native Vegetation Areas Overlay [Environmental Protection]
PO 1.1

Stormwater Management Overlay
PO 1.1

Traffic Generating Development Overlay [Traffic Generating Development]
PO 1.1, PO 1.2, PO 1.3

Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

PO 1.1

Historic Area Overlay [All Development]
PO 1.1

Historic Area Overlay [Built Form]
PO 2.1, PO 2.2, PO 2.3, PO 2.4, PO 2.5

Historic Area Overlay [Context and Streetscape Amenity]
PO 6.1, PO 6.2

Historic Area Overlay [Ruins]
PO 8.1

Historic Shipwrecks Overlay [General]
PO 1.1

Interface Management Overlay [Land Use and Intensity]
PO 1.1

Key Outback and Rural Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Key Outback and Rural Routes Overlay [Access - On-Site Queuing]
PO 2.1

Key Outback and Rural Routes Overlay [Access - Location (Spacing) - Existing Access Points]
PO 3.1

Key Outback and Rural Routes Overlay [Access - Location (Spacing) - New Access Points]
PO 4.1

Key Outback and Rural Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Key Outback and Rural Routes Overlay [Access - Mud and Debris]
PO 6.1

Key Outback and Rural Routes Overlay [Access - Stormwater]
PO 7.1

Key Outback and Rural Routes Overlay [Building on Road Reserve]
PO 8.1

Key Outback and Rural Routes Overlay [Public Road Junctions]
PO 9.1

Key Railway Crossings Overlay [Access, Design and Function]
PO 1.1

Limited Dwelling Overlay
PO 1.1

Local Heritage Place Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7

Local Heritage Place Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

Local Heritage Place Overlay [Conservation Works]
PO 7.1

Major Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Major Urban Transport Routes Overlay [Access - On-Site Queuing]
PO 2.1

Major Urban Transport Routes Overlay [Access – Location (Spacing) - Existing Access Points]
PO 3.1

Major Urban Transport Routes Overlay [Access – Location (Spacing) – New Access Points]
PO 4.1

Major Urban Transport Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Major Urban Transport Routes Overlay [Access - Mud and Debris]
PO 6.1

Major Urban Transport Routes Overlay [Access - Stormwater]
PO 7.1

Major Urban Transport Routes Overlay [Building on Road Reserve]
PO 8.1

Major Urban Transport Routes Overlay [Public Road Junctions]
PO 9.1

Major Urban Transport Routes Overlay [Corner Cut-Offs]
PO 10.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Water Quality]
PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Wastewater]
PO 2.2, PO 2.3, PO 2.4

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Landscapes and Natural Features]
PO 4.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Water Quality]
PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Wastewater]
PO 2.1, PO 2.4, PO 2.5

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Landscapes and Natural Features]
PO 4.1

Native Vegetation Overlay [Environmental Protection]
PO 1.1, PO 1.2, PO 1.4

Noise and Air Emissions Overlay [Siting and Design]
PO 1.1, PO 1.2, PO 1.3

Non-Stop Corridors Overlay [Non-Stop Corridor Overlay]
PO 1.1

Resource Extraction Protection Area Overlay [Protection of Strategic Resources]
PO 1.1

River Murray Flood Plain Protection Area Overlay [Wastewater]
PO 2.1

River Murray Flood Plain Protection Area Overlay [Built Form and Character]
PO 5.1, PO 5.3

River Murray Flood Plain Protection Area Overlay [Flood Resilience]
PO 6.1, PO 6.2, PO 6.3

River Murray Flood Plain Protection Area Overlay [Environmental Protection]
PO 7.1, PO 7.2, PO 7.3

River Murray Flood Plain Protection Area Overlay [Access]
PO 8.1, PO 8.2, PO 8.3

Scenic Quality Overlay [Land Use and Intensity]
PO 1.1

Scenic Quality Overlay [Built Form and Character]
PO 2.1

Scenic Quality Overlay [Landscaping]
PO 3.1

Scenic Quality Overlay [Earthworks]
PO 4.1

Significant Interface Management Overlay [Land Use and Intensity]
PO 1.1

Significant Landscape Protection Overlay [Land Use and Intensity]
PO 1.1

Significant Landscape Protection Overlay [Built Form and Character]
PO 2.1, PO 2.2

Significant Landscape Protection Overlay [Landscaping]
PO 3.1

Significant Landscape Protection Overlay [Earthworks]
PO 4.1

State Heritage Area Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5

State Heritage Area Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

State Heritage Area Overlay [Conservation Works]
PO 7.1

State Heritage Place Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7

State Heritage Place Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

State Heritage Place Overlay [Conservation Works]
PO 7.1

State Significant Native Vegetation Areas Overlay [Environmental Protection]
PO 1.1

Stormwater Management Overlay
PO 1.1

Traffic Generating Development Overlay [Traffic Generating Development]
PO 1.1, PO 1.2, PO 1.3

Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Urban Transport Routes Overlay [Access - On-Site Queuing]
PO 2.1

Urban Transport Routes Overlay [Access - (Location Spacing) - Existing Access Point]
PO 3.1

Urban Transport Routes Overlay [Access – Location (Spacing) – New Access Points]
PO 4.1

Urban Transport Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Urban Transport Routes Overlay [Access – Mud and Debris]
PO 6.1

Urban Transport Routes Overlay [Access - Stormwater]
PO 7.1

Urban Transport Routes Overlay [Building on Road Reserve]
PO 8.1

Urban Transport Routes Overlay [Public Road Junctions]
PO 9.1

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

| Class of Development | Exclusions |
|---|---|
| Industry | Light industry |
| Residential flat building | Any of the following:<br><br>(a) residential flat building not located within the Concept Plan Boundary of Concept Plan 24 – Glenside<br>(b) residential flat building that:<br>(i) is located within the Concept Plan Boundary of Concept Plan 24 – Glenside and<br>(ii) does not exceed 20 building levels or 73m in building height |
| Shop | Any of the following:<br><br>(a) shop with a gross leasable floor area less than or equal to 1000m$^2$<br>(b) shop within the Urban Corridor Living Retail Subzone<br>(c) shop that is a Restaurant |

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

| Class of Development<br>(Column A) | Exceptions<br>(Column B) |
|---|---|
| 1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development. | None specified. |
| 2. Any kind of development where the site of the development is **not** adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone. | Except any of the following:<br>1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)<br>2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building). |
| 3. Any development involving any of the following (or of any combination of any of the following):<br>(a) advertisement<br>(b) child care facility<br>(c) co-living<br>(d) dwelling<br>(e) residential flat building<br>(f) student accommodation<br>(g) supported accommodation. | Except development that:<br>1. exceeds the maximum building height specified in Urban Corridor (Living) DTS/DPF 3.1<br>or<br>2. does not satisfy Urban Corridor (Living) DTS/DPF 4.1<br>or<br>3. involves the construction of a building of 4 or more building levels and the site of the development is:<br>(a) adjacent land to a neighbourhood-type zone<br>and<br>(b) adjoins an allotment containing an existing low-rise building used for residential purposes. |
| 4. Any development involving any of the following (or of any combination of any of the following):<br>(a) consulting room<br>(b) office<br>(c) shop. | Except development that:<br>1. exceeds the maximum building height specified in Urban Corridor (Living) DTS/DPF 3.1<br>or<br>2. does not satisfy Urban Corridor (Living) DTS/DPF 1.2<br>or<br>3. does not satisfy Urban Corridor (Living) DTS/DPF 4.1<br>or<br>4. involves the construction of a building of 4 or more building levels and the site of the development is:<br>(a) adjacent land to a neighbourhood-type zone<br>and<br>(b) adjoins an allotment containing an existing low-rise building used for residential purposes. |
| 5. Any development involving any of the following (or of any combination of any of the following):<br>(a) air handling unit, air conditioning system or exhaust fan<br>(b) carport<br>(c) deck<br>(d) fence<br>(e) internal building works<br>(f) land division<br>(g) outbuilding<br>(h) pergola<br>(i) private bushfire shelter<br>(j) replacement building<br>(k) retaining wall<br>(l) shade sail<br>(m) solar photovoltaic panels (roof mounted)<br>(n) swimming pool or spa pool and associated swimming pool safety features<br>(o) tree damaging activity<br>(p) verandah<br>(q) water tank. | None specified. |
| 6. Demolition. | Except any of the following:<br>1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)<br>2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building). |
| 7. Railway line. | Except where located outside of a rail corridor or rail reserve. |
| **Placement of Notices - Exemptions for Performance Assessed Development** | |
| None specified. | |
| **Placement of Notices - Exemptions for Restricted Development** | |
| None specified. | |

**Urban Corridor Living Retail Subzone**

Assessment Provisions (AP)

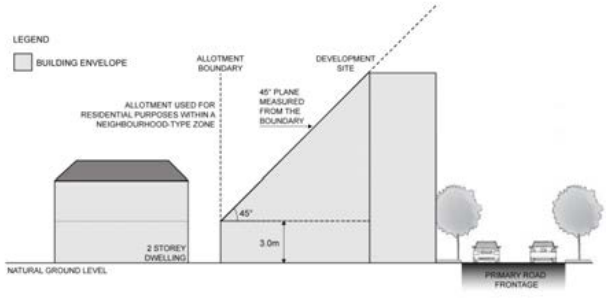
Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO1 | Additional neighbourhood-scale shopping, business, entertainment and recreation facilities to provide a focus for business and community life and most daily and weekly shopping needs of the community. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

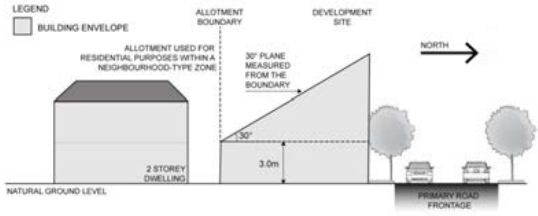
| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Land Use and Intensity | |
| PO 1.1<br>Retail, office, entertainment and recreation related uses supplemented by other businesses providing a range of goods and services to the community as part of a mixed use development. | DTS/DPF 1.1<br>Shops, offices or consulting room uses exceeding a maximum gross leasable floor area of 500m$^2$ where integrated with residential development and comprise a range of tenancies. |

**Urban Corridor (Main Street) Zone**



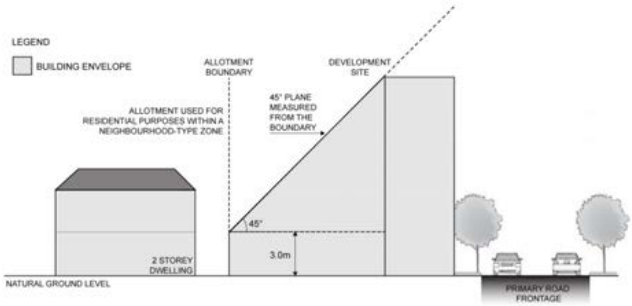
**Assessment Provisions (AP)**

Desired Outcome (DO)



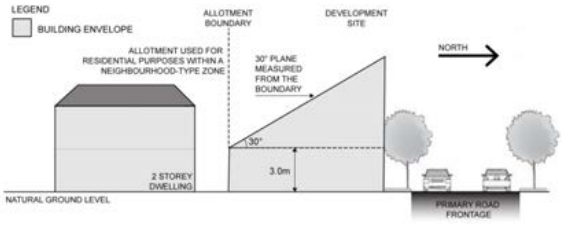
| Desired Outcome | |
|---|---|
| DO 1 | A safe, walkable and vibrant shopping, entertainment and commercial main street precinct with an active day and evening economy supported by medium density residential development. |
| DO 2 | Built form positively contributing to:<br>(a) a streetscape that is visually interesting at human-scale comprising articulated buildings with a high level of fenestration and balconies oriented towards the street<br>(b) a fine-grain public realm comprising buildings with active frontages that are designed to reinforce the street rhythm, that consider the facades, articulation and massing of existing buildings and any spaces between them, and provide narrow tenancy footprints at ground level. |

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria



| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Land Use and Intensity | |
| PO 1.1<br>A vibrant mix of land uses adding to the vitality of the area and extending activities outside shop hours including restaurants, educational, community and cultural facilities and visitor and residential accommodation. | DTS/DPF 1.1<br>Development comprises one or more of the following:<br>(a) Advertisement<br>(b) Child Care Facility<br>(c) Co-living<br>(d) Consulting Room<br>(e) Dwelling<br>(f) Hotel<br>(g) Educational Facility<br>(h) Licensed Premises<br>(i) Office<br>(j) Residential Flat Building<br>(k) Retirement Facility<br>(l) Shop<br>(m) Student Accommodation<br>(n) Supported Accommodation<br>(o) Tourist Accommodation |
| PO 1.2<br>Retail, office, entertainment and recreation related uses that provide a range of goods and services to the local community and the surrounding district. | DTS/DPF 1.2<br>None are applicable. |
| PO 1.3<br>Ground floor uses contribute to a safe, active and vibrant main street. | DTS/DPF 1.3<br>Shop, office, or consulting room uses located on the ground floor level of buildings fronting the primary street frontage. |
| PO 1.4<br>Dwellings developed in conjunction with non-residential uses to support business, entertainment and recreational activities that contribute to making the main street locality and pedestrian thoroughfares safe, walkable, comfortable, pleasant and vibrant places. | DTS/DPF 1.4<br>Dwellings developed in conjunction with non-residential uses, and sited:<br>(a) at upper levels of buildings with non-residential uses located at ground level<br>or<br>(b) behind non-residential uses on the same allotment. |
| PO 1.5<br>Development of diverse medium density accommodation options either as part of a mixed use development or wholly residential development. | DTS/DPF 1.5<br>None are applicable. |
| PO 1.6<br>Land uses promote movement and activity during daylight and evening hours, including restaurants, educational, health, community and cultural facilities, and visitor and residential accommodation. | DTS/DPF 1.6<br>None are applicable. |
| PO 1.7<br>Changes in the use of land encourage the efficient reuse of commercial premises to maintain and enhance vibrancy within activity centres. | DTS/DPF 1.7<br>A change of use to a shop, office, consulting room or any combination of these uses where all of the following are achieved:<br>(a) the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses;<br>(b) if the proposed change of use is for a shop that primarily involves the handling and sale of foodstuffs, areas used for the storage and collection of refuse are sited at least 10 metres from the site of a dwelling (other than a dwelling directly associated with the proposed shop)<br>(c) if the proposed change of use is for a shop that primarily involves heating and cooking of foodstuffs in a commercial kitchen and is within 30 metres of any neighbourhood-type zone boundary or a dwelling (other than a dwelling directly associated with the proposed shop), an exhaust duct and stack (chimney) exists or is capable of being installed for discharging exhaust emissions<br>(d) if the change in use involves a gross leasable floor area greater than 250m$^2$ and has direct frontage to an arterial road, it achieves either (i) or (ii):<br>(i) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) is from a road that is not an arterial road<br>(ii) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared<br>(e) off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number, except in any of the following circumstances:<br>(i) the building is a local heritage place<br>(ii) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made); or<br>(iii) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared. |
| Built Form and Character | |
| PO 2.1<br>Buildings sensitively frame the main street and public spaces, provide overall visual relief from building height and mass, and maintain a human scale for pedestrians. | DTS/DPF 2.1<br>Buildings:<br>(a) include a clearly defined podium or street wall with a maximum building height of 2 building levels or 8m, or higher where it matches the existing street wall of adjoining buildings<br>and<br>(b) have levels above the defined podium or street wall setback a minimum of 2m from that wall. |
| PO 2.2<br>Buildings and structures designed to complement and respond to the established fine-grained main street character by:<br>(a) ensuring the verandah profile and materials of construction are consistent with and positively respond to adjacent traditional main street buildings<br>(b) complementing the traditional shop-front elements, such as narrow buildings and tenancy footprints, with frequently repeated frontages, and clear-glazed narrow shop front displays above raised display levels [base stall boards] and recessed entries. | DTS/DPF 2.2<br>None are applicable. |
| PO 2.3<br>Buildings designed to create visual connection between the public realm and ground level interior, to ensure an active interface with the main street and maximise passive surveillance. | DTS/DPF 2.3<br>The ground floor primary frontage of buildings provides at least 60% of the street frontage as an entry / foyer or display window to a shop or other community or commercial use that provides pedestrian interest and activation. |
| PO 2.4<br>Buildings provide a high amenity pedestrian environment by providing shelter and shade over footpaths. | DTS/DPF 2.4<br>Buildings that provide a continuity of verandahs, canopies, awnings or other pedestrian shelters to contribute to pedestrian comfort. |
| PO 2.5<br>Buildings are adaptable and flexible to accommodate a range of residential and non-residential land uses on the ground floor. | DTS/DPF 2.5<br>The ground floor of buildings contains a minimum floor to ceiling height of 3.5m. |
| PO 2.6<br>Buildings sited on the primary street boundary to achieve a continuity of built form frontage to the main street, with the occasional section of building set back to create outdoor dining areas, visually interesting building entrances and intimate but vibrant spaces. | DTS/DPF 2.6<br>Buildings with a 0m setback from the primary street boundary, with the exception of minor setbacks to accommodate outdoor dining areas. |
| PO 2.7<br>Buildings with no setback from the secondary street boundary to contribute to a consistent established streetscape. | DTS/DPF 2.7<br>Buildings with a 0m setback from the secondary street boundary. |
| PO 2.8<br>Buildings with no side boundaries setback to achieve a continuity of street façade to the main street. | DTS/DPF 2.8<br>Buildings with a 0m setback from the side boundary. |
| PO 2.9 | DTS/DPF 2.9 |

| | |
|---|---|
| Buildings set back from rear boundaries (other than street boundaries) to minimise negative impacts on neighbouring properties, including access to natural sunlight and ventilation. | Buildings setback from rear boundaries as follows:<br>(a) 5m or more where the subject land directly abuts an allotment of a different zone<br>or<br>(b) 3m or more in all other cases, except where the development abuts the wall of an existing or simultaneously constructed building on the adjoining land. |
| PO 2.10<br>Buildings set back from street boundaries (in the case of rear access ways) to provide adequate manoeuvrability for vehicles. | DTS/DPF 2.10<br>Buildings setback from the rear access way:<br>(a) no requirement where the access way is not less than 6.5m wide<br>or<br>(b) where the access way is less than 6.5m wide, the distance equal to the additional width required to make the access way at least 6.5m wide. |
| Building Height | |
| PO 3.1<br>Building height is consistent with the form expressed in the *Maximum Building Height (Levels) Technical and Numeric Variation layer* and the *Maximum Building Height (Metres) Technical and Numeric Variation layer* or positively responds to the local context including the site's frontage, depth, and adjacent primary road corridor (e.g., a State maintained road or a road with similar attributes) or street width. | DTS/DPF 3.1<br>Except where a Concept Plan specifies otherwise, development does not exceed the following building height(s):<br>**Maximum Building Height (Levels)**<br>Maximum building height is 2 levels<br>Maximum building height is 3 levels<br>Maximum building height is 4 levels<br>Maximum building height is 5 levels<br>Maximum building height is 6 levels<br>Maximum building height is 7 levels<br>**Maximum Building Height (Metres)**<br>Maximum building height is 8m<br>Maximum building height is 11.5m<br>Maximum building height is 12.5m<br>Maximum building height is 15m<br>Maximum building height is 16.5m<br>Maximum building height is 18m<br>Maximum building height is 18.5m<br>Maximum building height is 22m<br>Maximum building height is 24.5m<br>Maximum building height is 25.5m<br>In relation to DTS/DPF 3.1, in instances where:<br>(a) more than one value is returned in the same field, refer to the *Maximum Building Height (Levels) Technical and Numeric Variation layer* or *Maximum Building Height (Metres) Technical and Numeric Variation layer* in the SA planning database to determine the applicable value relevant to the site of the proposed development<br>(b) only one value is returned (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other<br>(c) no value is returned (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy. |
| PO 3.2<br>Buildings designed to achieve optimal height and floor space yields, and maintain traditional main street form. | DTS/DPF 3.2<br>New development is not less that the following building height:<br>**Minimum Building Height (Levels)**<br>Minimum building height is 2 levels<br>Minimum building height is 3 levels<br>In relation to DTS/DPF 3.2, in instances where:<br>(a) more than one value is returned in the same field, refer to the *Minimum Building Height (Levels) Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development<br>(b) no value is returned (i.e. there is a blank field), then there is no minimum building height and DTS/DPF 3.2 is met. |
| Interface Height | |
| PO 4.1<br>Buildings mitigate impacts of building massing on residential development within a neighbourhood-type zone. | DTS/DPF 4.1<br>**Interface Height**<br>Buildings constructed within a building envelope provided by a:<br>(a) 45 degree plane measured from a height of 3 metres above natural ground level at the boundary of the allotment where abutting a residential use, or where the allotment is separated by a road less than 6.5 metres in width measured from the residential allotment boundary, within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary):<br><br><br>(b) in relation to a southern boundary, 30 degree plane grading north, measured from a height of 3m above natural ground at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a street boundary): |



**Interface Height**

Buildings constructed within a building envelope provided by a 45 degree plane measured from a height of 3 metres above natural ground level at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a street boundary):

Buildings constructed within a building envelope provided by a 30 degree plane measured from a height of 3m above natural ground level at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a street boundary):

PO 4.2

Buildings on an allotment fronting a road that is not the primary road corridor (e.g., a State maintained road or a road with similar attributes) and where land on the opposite side of the road is within a neighbourhood-type zone, provides an orderly transition to the built form scale envisaged in the adjacent zone to complement the streetscape character.

DTS/DPF 4.2

None are applicable.

Significant Development Sites

PO 5.1

Consolidation of significant development sites (a site with a frontage over 25m to a primary road corridor (e.g., a State maintained road or a road with similar attributes) and over 1500m$^2$ in area, which may include one or more allotments) to achieve increased development yield, provided that off-site impacts can be managed and broader community benefit is achieved in terms of design quality, community services, affordable housing provision, retirement facility or supported accommodation provision, or sustainability features.

DTS/DPF 5.1

Development on significant development sites (a site with a frontage over 25m to a primary road corridor (e.g., a State maintained road or a road with similar attributes) and over 1500m$^2$ in area, which may include one or more allotments) up to 30% above the maximum building height specified in DTS/DPF 3.1 (rounded to the nearest whole number) where it satisfies (a), (b), (c) or (d):

(a) incorporates the retention, conservation and reuse of a building which is a listed heritage place or an existing built form and context that positively contributes to the character of the local area
(b) includes more than 15% of dwellings as affordable housing
(c) is for the purposes of supported accommodation or retirement facility
(d) includes at least:
  (i) three of the following:
    A. high quality open space that is universally accessible and is directly connected to, and well integrated with, public realm areas of the street
    B. high quality, safe and secure, universally accessible pedestrian linkages that connect through the development site
    C. active uses are located on the public street frontages of the building, with any above ground car parking located behind
    D. a range of dwelling types that includes at least 10% of 3+ bedroom apartments;

| | |
|---|---|
| | E. a child care centre.<br>and<br>(ii) three of the following:<br>A. a communal useable garden integrated with the design of the building that covers the majority of a rooftop area supported by services that ensure ongoing maintenance;<br>B. living landscaped vertical surfaces of at least 50m2 supported by services that ensure ongoing maintenance<br>C. passive heating and cooling design elements including solar shading integrated into the building<br>D. higher amenity through provision of private open space in excess of minimum requirements by 25% for at least 50% of dwellings. |
| PO 5.2<br>Development on a significant development site (a site with a frontage over 25m to a primary road corridor (e.g., a State maintained road or a road with similar attributes) and over 1500m$^2$ in area, which may include one or more allotments) designed to minimise impacts on residential uses in adjacent zones with regard to intensity of use, overshadowing, massing and building proportions. | DTS/DPF 5.2<br>Development on a significant development site (a site with a frontage over 25m to a primary road corridor (e.g., a State maintained road or a road with similar attributes) and over 1500m$^2$ in area, which may include one or more allotments) that satisfies all of the following:<br>(a) is constructed within the zone's Interface Building Height provision as specified DTS/DPF 4.1<br>(b) locates non-residential activities and higher density elements towards the primary road corridor (e.g., a State maintained road or a road with similar attributes)<br>(c) locates taller building elements towards the primary road corridor (e.g., a State maintained road or a road with similar attributes). |
| Movement, parking and access | |
| PO 6.1<br>Development does not result in additional crossovers on the main street, except where rationalising existing crossovers on consolidated sites and is designed to minimise conflicts with pedestrians and cyclists and minimise disruption to the continuity of built form. | DTS/DPF 6.1<br>Vehicular access to be provided:<br>(a) via side streets or rear lanes provided there is no negative impact on residential amenity within the zone and in adjacent zones<br>or<br>(b) where it consolidates or replaces existing crossovers. |
| PO 6.2<br>Development is designed to ensure car parking is located to avoid negative impacts on the main street rhythm and activation. | DTS/DPF 6.2<br>Vehicle parking garages located behind buildings away from the primary main street frontage. |
| Advertisements | |
| PO 7.1<br>Advertisements are sited and designed to achieve an overall consistency of appearance along individual street frontages. | DTS/DPF 7.1<br>None are applicable. |
| PO 7.2<br>Freestanding advertisements:<br>(a) identify the associated business(es)<br>(b) are of a size that is commensurate with the scale of the centre and the street frontage<br>(c) avoid visual clutter<br>(d) positively respond to the context without dominating the locality<br>(e) are sited and designed to not detract from the main street character. | DTS/DPF 7.2<br>Freestanding advertisements:<br>(a) do not exceed 8m in height, the adjacent building wall height, or the zone's height allowance (whichever is the lesser)<br>and<br>(b) do not have a sign face that exceeds 6m$^2$ per side. |
| Concept Plans | |
| PO 8.1<br>Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure. | DTS/DPF 8.1<br>The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:<br>In relation to DTS/DPF 8.1, in instances where:<br>(a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.<br>(b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 8.1 is met. |

**Table 1 - Accepted Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

| Class of Development | Accepted Development Classification Criteria |
|---|---|
| Building alterations<br>Except where any of the following apply:<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The alteration does not:<br>(a) increase the floor area of the building<br>(b) exceed the existing wall height<br>(c) exceed the existing overall building height<br>(d) alter the roof profile<br>(e) alter an approved privacy screening arrangement or window treatment<br>(f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.<br>2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm. |
| Consulting room<br>Except where any of the following apply:<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | A change of use to a shop (except where it involves handling and sale of foodstuffs, the heating and cooking of foodstuffs in a commercial kitchen, or a restaurant), office, consulting room or any combination of these uses where all of the following are achieved:<br>1. the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses<br>2. if the change in use involves a gross leasable floor area greater than 250m2 and has direct frontage to an arterial road, it achieves:<br>(a) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road<br>or<br>(b) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared<br>3. off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking [Vehicle Parking Rates]: DTS 5.1 to the nearest whole number, except where:<br>(a) the building is a local heritage place<br>or<br>(b) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made)<br>or<br>(c) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared. |
| Office<br>Except where any of the following apply:<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | A change of use to a shop (except where it involves handling and sale of foodstuffs, the heating and cooking of foodstuffs in a commercial kitchen, or a restaurant), office, consulting room or any combination of these uses where all of the following are achieved:<br>1. the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses<br>2. if the change in use involves a gross leasable floor area greater than 250m2 and has direct frontage to an arterial road, it achieves:<br>(a) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road<br>or<br>(b) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared<br>3. off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking [Vehicle Parking Rates]: DTS 5.1 to the nearest whole number, except where:<br>(a) the building is a local heritage place<br>or<br>(b) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made) |

| | |
|---|---|
| | or<br><br>(c) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared. |
| Partial demolition of a building or structure<br>Except where any of the following apply:<br><br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | None |
| Shade sail<br>Except where any of the following apply:<br><br>• Future Local Road Widening Overlay<br>• Future Road Widening Overlay<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system<br>3. Shade sail consists of permeable material<br>4. The total area of the sail does not exceed 40m$^2$<br>5. No part of the shade sail will be:<br>(a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment<br>(b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment<br>6. Primary street setback - at least as far back as the building line of the building to which it is ancillary<br>7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m<br>8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary<br>9. Does not involve the clearance of native vegetation<br>10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas<br>11. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay<br>12. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay. |
| Shop<br>Except where any of the following apply:<br><br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | A change of use to a shop (except where it involves handling and sale of foodstuffs, the heating and cooking of foodstuffs in a commercial kitchen, or a restaurant), office, consulting room or any combination of these uses where all of the following are achieved:<br><br>1. the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses<br>2. if the change in use involves a gross leasable floor area greater than 250m2 and has direct frontage to an arterial road, it achieves:<br>(a) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road<br><br>or<br><br>(b) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared<br>3. off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking [Vehicle Parking Rates]: DTS 5.1 to the nearest whole number, except where:<br>(a) the building is a local heritage place<br><br>or<br><br>(b) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made)<br><br>or<br><br>(c) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared. |
| Solar photovoltaic panels (roof mounted)<br>Except where any of the following apply:<br><br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*<br>2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof<br>3. Panels and associated components do not overhang any part of the roof<br>4. Does not apply to a system with a generating capacity of more than 5MW that is to be connected to the State's power system<br>5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street. |
| Water tank (underground)<br>Except where any of the following apply:<br><br>• Coastal Areas Overlay<br>• Hazards (Acid Sulfate Soils) Overlay<br>• Ramsar Wetlands Overlay | 1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system<br>2. The tank (including any associated pump) is located wholly below the level of the ground<br>3. Does not involve the clearance of native vegetation<br>4. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay<br>5. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay. |

**Table 2 - Deemed-to-Satisfy Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

| Class of Development | Deemed-to-Satisfy Development Classification Criteria | | | |
|---|---|---|---|---|
| | Zone | General Development Policies | Subzone<br>(applies only in the area affected by the Subzone) | Overlay<br>(applies only in the area affected by the Overlay) |

**Table 3 - Applicable Policies for Performance Assessed Development**

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

| Class of Development | Applicable Policies | | | |
|---|---|---|---|---|
| | Zone | General Development Policies | Subzone<br>(applies only in the area affected by the Subzone) | Overlay<br>(applies only in the area affected by the Overlay) |
| Advertisement | Advertisements<br>PO 7.1, PO 7.2 | Advertisements [Appearance]<br>PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5<br><br>Advertisements [Proliferation of Advertisements]<br>PO 2.1, PO 2.2, PO 2.3<br><br>Advertisements [Advertising Content]<br>PO 3.1<br><br>Advertisements [Amenity Impacts]<br>PO 4.1<br><br>Advertisements [Safety]<br>PO 5.1, PO 5.2, PO 5.3, PO 5.4, PO 5.5, PO 5.6<br><br>Clearance from Overhead Powerlines<br>PO 1.1<br><br>Infrastructure and Renewable Energy Facilities [Wastewater Services]<br>PO 12.2 | None | Advertising Near Signalised Intersections Overlay [Advertisements Near Signalised Intersections]<br>PO 1.1<br><br>Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form]<br>PO 1.1<br><br>Airport Building Heights (Regulated) Overlay [Built Form]<br>PO 1.1<br><br>Building Near Airfields Overlay<br>PO 1.3<br><br>Character Area Overlay [All Development]<br>PO 1.1<br><br>Character Area Overlay [Built Form]<br>PO 2.1, PO 2.2, PO 2.5<br><br>Character Area Overlay [Ancillary Development]<br>PO 4.3<br><br>Character Area Overlay [Context and Streetscape Amenity]<br>PO 6.2<br><br>Character Preservation District Overlay [Built Form and Character]<br>PO 2.1, PO 2.2, PO 2.3<br><br>Character Preservation District Overlay [Built Form and Character in the Rural Area]<br>PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.5<br><br>Character Preservation District Overlay [Earthworks]<br>PO 4.1<br><br>Coastal Flooding Overlay<br>PO 1.1<br><br>Defence Aviation Area Overlay [Built Form]<br>PO 1.1<br><br>Future Local Road Widening Overlay [Future Road Widening]<br>PO 1.1<br><br>Future Road Widening Overlay [Future Road Widening]<br>PO 1.1<br><br>Gateway Overlay [Advertisements]<br>PO 4.1<br><br>Hazards (Flooding) Overlay [Flood Resilience]<br>PO 3.1, PO 3.2, PO 3.3<br><br>Hazards (Flooding) Overlay [Environmental Protection]<br>PO 4.2<br><br>Heritage Adjacency Overlay [Built Form]<br>PO 1.1<br><br>Historic Area Overlay [All Development]<br>PO 1.1<br><br>Historic Area Overlay [Built Form]<br>PO 2.1, PO 2.2, PO 2.3, PO 2.5<br><br>Historic Area Overlay [Ancillary development]<br>PO 4.3<br><br>Historic Area Overlay [Context and Streetscape Amenity]<br>PO 6.2<br><br>Historic Area Overlay [Ruins]<br>PO 8.1<br><br>Local Heritage Place Overlay [Built Form]<br>PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7<br><br>Local Heritage Place Overlay [Alterations and Additions]<br>PO 2.1, PO 2.2<br><br>Local Heritage Place Overlay [Ancillary Development]<br>PO 3.3<br><br>Native Vegetation Overlay [Environmental Protection]<br>PO 1.1, PO 1.2, PO 1.4<br><br>Non-Stop Corridors Overlay [Non-Stop Corridor Overlay]<br>PO 1.1<br><br>Scenic Quality Overlay [Land Use and Intensity]<br>PO 1.1<br><br>Scenic Quality Overlay [Built Form and Character]<br>PO 2.1<br><br>Significant Landscape Protection Overlay [Land Use and Intensity]<br>PO 1.1<br><br>Significant Landscape Protection Overlay [Built Form and Character]<br>PO 2.1, PO 2.2 |

PO 1.1, PO 1.2, PO 1.3

Gateway Overlay [Landscaping]
PO 3.1, PO 3.2, PO 3.3, PO 3.4

Hazards (Acid Sulfate Soils) Overlay [Land Use and Intensity]
PO 1.1

Hazards (Bushfire - General Risk) Overlay [Siting]
PO 1.1

Hazards (Bushfire - General Risk) Overlay [Built Form]
PO 2.1

Hazards (Bushfire - General Risk) Overlay [Habitable Buildings]
PO 3.1, PO 3.2, PO 3.3

Hazards (Bushfire - General Risk) Overlay [Vehicle Access – Roads, Driveways and Fire Tracks]
PO 5.2, PO 5.3

Hazards (Bushfire - High Risk) Overlay [Land Use]
PO 1.1

Hazards (Bushfire - High Risk) Overlay [Siting]
PO 2.1

Hazards (Bushfire - High Risk) Overlay [Built Form]
PO 3.1

Hazards (Bushfire - High Risk) Overlay [Habitable Buildings]
PO 4.1, PO 4.2, PO 4.3

Hazards (Bushfire - High Risk) Overlay [Vehicle Access – Roads, Driveways and Fire Tracks]
PO 6.2, PO 6.3

Hazards (Bushfire - Medium Risk) Overlay [Siting]
PO 1.1

Hazards (Bushfire - Medium Risk) Overlay [Built Form]
PO 2.1

Hazards (Bushfire - Medium Risk) Overlay [Habitable Buildings]
PO 3.1, PO 3.2, PO 3.3

Hazards (Bushfire - Medium Risk) Overlay [Vehicle Access - Roads, Driveways and Fire Tracks]
PO 5.2, PO 5.3

Hazards (Bushfire - Outback) Overlay [Habitable Buildings]
PO 1.1

Hazards (Bushfire - Outback) Overlay [Vehicle Access - Roads and Driveways]
PO 2.2

Hazards (Bushfire - Regional) Overlay [Siting]
PO 1.1

Hazards (Bushfire - Regional) Overlay [Built Form]
PO 2.1

Hazards (Bushfire - Regional) Overlay [Habitable Buildings]
PO 3.1, PO 3.2, PO 3.3

Hazards (Bushfire - Regional) Overlay [Vehicle Access -Roads and Driveways]
PO 5.2, PO 5.3

Hazards (Flooding) Overlay [Flood Resilience]
PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.5

Hazards (Flooding) Overlay [Environmental Protection]
PO 4.2

Hazards (Flooding) Overlay [Site Earthworks]
PO 5.1, PO 5.2

Hazards (Flooding) Overlay [Access]
PO 6.1, PO 6.2

Hazards (Flooding – General) Overlay [Flood Resilience]
PO 2.1

Hazards (Flooding - Evidence Required) Overlay [Flood Resilience]
PO 1.1

Heritage Adjacency Overlay [Built Form]
PO 1.1

Historic Area Overlay [All Development]
PO 1.1

Historic Area Overlay [Built Form]
PO 2.1, PO 2.2, PO 2.3, PO 2.4, PO 2.5

Historic Area Overlay [Context and Streetscape Amenity]
PO 6.1, PO 6.2

Historic Area Overlay [Ruins]
PO 8.1

Historic Shipwrecks Overlay [General]
PO 1.1

Interface Management Overlay [Land Use and Intensity]
PO 1.1

Key Outback and Rural Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Key Outback and Rural Routes Overlay [Access - On-Site Queuing]
PO 2.1

Key Outback and Rural Routes Overlay [Access - Location (Spacing) - Existing Access Points]
PO 3.1

Key Outback and Rural Routes Overlay [Access - Location (Spacing) - New Access Points]
PO 4.1

Key Outback and Rural Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Key Outback and Rural Routes Overlay [Access - Mud and Debris]
PO 6.1

Key Outback and Rural Routes Overlay [Access - Stormwater]
PO 7.1

Key Outback and Rural Routes Overlay [Building on Road Reserve]
PO 8.1

Key Outback and Rural Routes Overlay [Public Road Junctions]
PO 9.1

Key Railway Crossings Overlay [Access, Design and Function]
PO 1.1

Limited Dwelling Overlay
PO 1.1

Local Heritage Place Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7

Local Heritage Place Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

Local Heritage Place Overlay [Conservation Works]
PO 7.1

Major Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Major Urban Transport Routes Overlay [Access - On-Site Queuing]
PO 2.1

Major Urban Transport Routes Overlay [Access – Location (Spacing) - Existing Access Points]
PO 3.1

Major Urban Transport Routes Overlay [Access – Location (Spacing) – New Access Points]
PO 4.1

Major Urban Transport Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Major Urban Transport Routes Overlay [Access - Mud and Debris]
PO 6.1

Major Urban Transport Routes Overlay [Access - Stormwater]
PO 7.1

Major Urban Transport Routes Overlay [Building on Road Reserve]
PO 8.1

Major Urban Transport Routes Overlay [Public Road Junctions]
PO 9.1

Major Urban Transport Routes Overlay [Corner Cut-Offs]
PO 10.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Water Quality]
PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Wastewater]
PO 2.3, PO 2.4

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Landscapes and Natural Features]
PO 4.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Water Quality]
PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Wastewater]
PO 2.4, PO 2.5

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Landscapes and Natural Features]
PO 4.1

Native Vegetation Overlay [Environmental Protection]
PO 1.1, PO 1.2, PO 1.4

Noise and Air Emissions Overlay [Siting and Design]
PO 1.1, PO 1.2, PO 1.3

Non-Stop Corridors Overlay [Non-Stop Corridor Overlay]
PO 1.1

Resource Extraction Protection Area Overlay [Protection of Strategic Resources]
PO 1.1

River Murray Flood Plain Protection Area Overlay [Wastewater]
PO 2.1

River Murray Flood Plain Protection Area Overlay [Built Form and Character]
PO 5.1, PO 5.3

River Murray Flood Plain Protection Area Overlay [Flood Resilience]
PO 6.1, PO 6.2, PO 6.3

River Murray Flood Plain Protection Area Overlay [Environmental Protection]
PO 7.1, PO 7.2, PO 7.3

River Murray Flood Plain Protection Area Overlay [Access]
PO 8.1, PO 8.2, PO 8.3

Scenic Quality Overlay [Land Use and Intensity]
PO 1.1

Scenic Quality Overlay [Built Form and Character]
PO 2.1

Scenic Quality Overlay [Landscaping]
PO 3.1

Scenic Quality Overlay [Earthworks]
PO 4.1

Significant Interface Management Overlay [Land Use and Intensity]
PO 1.1

Significant Landscape Protection Overlay [Land Use and Intensity]
PO 1.1

PO 1.1

Design in Urban Areas [Co-located Housing, Group Dwellings, Residential Flat Buildings, Co-living and Battle axe Development [Soft landscaping]]
PO 34.1, PO 34.2

Design in Urban Areas [Co-located Housing, Group Dwellings, Residential Flat Buildings, Co-living and Battle axe Development [Site Facilities / Waste Storage]]
PO 35.1, PO 35.2, PO 35.3, PO 35.4, PO 35.5, PO 35.6

Design in Urban Areas [Co-located Housing, Group Dwellings, Residential Flat Buildings, Co-living and Battle axe Development [Water sensitive urban design]]
PO 36.1, PO 36.2

Design in Urban Areas [Laneway Development [Infrastructure and Access]]
PO 44.1

Infrastructure and Renewable Energy Facilities [Water Supply]
PO 11.2

Infrastructure and Renewable Energy Facilities [Wastewater Services]
PO 12.1, PO 12.2

Interface between Land Uses [General Land Use Compatibility]
PO 1.1

Interface between Land Uses [Overshadowing]
PO 3.1, PO 3.2, PO 3.3

Interface between Land Uses [Activities Generating Noise or Vibration]
PO 4.3, PO 4.4

Site Contamination
PO 1.1

Transport, Access and Parking [Sightlines]
PO 2.1, PO 2.2

Transport, Access and Parking [Vehicle Access]
PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.5, PO 3.7

Transport, Access and Parking [Access for People with Disabilities]
PO 4.1

Transport, Access and Parking [Vehicle Parking Rates]
PO 5.1

Transport, Access and Parking [Vehicle Parking Areas]
PO 6.1, PO 6.2

Transport, Access and Parking [Bicycle Parking in Designated Areas]
PO 9.1, PO 9.2, PO 9.3

Transport, Access and Parking [Corner Cut-Offs]
PO 10.1

Hazards (Bushfire - Medium Risk) Overlay [Built Form]
PO 2.1

Hazards (Bushfire - Medium Risk) Overlay [Habitable Buildings]
PO 3.1, PO 3.2, PO 3.3

Hazards (Bushfire - Medium Risk) Overlay [Vehicle Access - Roads, Driveways and Fire Tracks]
PO 5.2, PO 5.3

Hazards (Bushfire - Outback) Overlay [Habitable Buildings]
PO 1.1

Hazards (Bushfire - Outback) Overlay [Vehicle Access - Roads and Driveways]
PO 2.2

Hazards (Bushfire - Regional) Overlay [Siting]
PO 1.1

Hazards (Bushfire - Regional) Overlay [Built Form]
PO 2.1, PO 2.2

Hazards (Bushfire - Regional) Overlay [Habitable Buildings]
PO 3.1, PO 3.2, PO 3.3

Hazards (Bushfire - Regional) Overlay [Vehicle Access -Roads and Driveways]
PO 5.1, PO 5.2, PO 5.3

Hazards (Flooding) Overlay [Flood Resilience]
PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.5

Hazards (Flooding) Overlay [Environmental Protection]
PO 4.2

Hazards (Flooding) Overlay [Site Earthworks]
PO 5.1, PO 5.2

Hazards (Flooding) Overlay [Access]
PO 6.1, PO 6.2

Hazards (Flooding – General) Overlay [Flood Resilience]
PO 2.1

Hazards (Flooding - Evidence Required) Overlay [Flood Resilience]
PO 1.1

Heritage Adjacency Overlay [Built Form]
PO 1.1

Historic Area Overlay [All Development]
PO 1.1

Historic Area Overlay [Built Form]
PO 2.1, PO 2.2, PO 2.3, PO 2.4, PO 2.5

Historic Area Overlay [Context and Streetscape Amenity]
PO 6.1, PO 6.2

Historic Area Overlay [Ruins]
PO 8.1

Historic Shipwrecks Overlay [General]
PO 1.1

Interface Management Overlay [Land Use and Intensity]
PO 1.1

Key Outback and Rural Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Key Outback and Rural Routes Overlay [Access - On-Site Queuing]
PO 2.1

Key Outback and Rural Routes Overlay [Access - Location (Spacing) - Existing Access Points]
PO 3.1

Key Outback and Rural Routes Overlay [Access - Location (Spacing) - New Access Points]
PO 4.1

Key Outback and Rural Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Key Outback and Rural Routes Overlay [Access - Mud and Debris]
PO 6.1

Key Outback and Rural Routes Overlay [Access - Stormwater]
PO 7.1

Key Outback and Rural Routes Overlay [Building on Road Reserve]
PO 8.1

Key Outback and Rural Routes Overlay [Public Road Junctions]
PO 9.1

Key Railway Crossings Overlay [Access, Design and Function]
PO 1.1

Local Heritage Place Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7

Local Heritage Place Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

Local Heritage Place Overlay [Conservation Works]
PO 7.1

Major Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Major Urban Transport Routes Overlay [Access - On-Site Queuing]
PO 2.1

Major Urban Transport Routes Overlay [Access – Location (Spacing) - Existing Access Points]
PO 3.1

Major Urban Transport Routes Overlay [Access – Location (Spacing) – New Access Points]
PO 4.1

Major Urban Transport Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Major Urban Transport Routes Overlay [Access - Mud and Debris]
PO 6.1

Major Urban Transport Routes Overlay [Access - Stormwater]
PO 7.1

Major Urban Transport Routes Overlay [Building on Road Reserve]
PO 8.1

Major Urban Transport Routes Overlay [Public Road Junctions]
PO 9.1

Major Urban Transport Routes Overlay [Corner Cut-Offs]
PO 10.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Water Quality]
PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Wastewater]
PO 2.2, PO 2.3, PO 2.4

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Landscapes and Natural Features]
PO 4.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Water Quality]
PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Wastewater]
PO 2.1, PO 2.4, PO 2.5

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Landscapes and Natural Features]
PO 4.1

Native Vegetation Overlay [Environmental Protection]
PO 1.1, PO 1.2, PO 1.4

Noise and Air Emissions Overlay [Siting and Design]
PO 1.1, PO 1.2, PO 1.3

Non-Stop Corridors Overlay [Non-Stop Corridor Overlay]
PO 1.1

Resource Extraction Protection Area Overlay [Protection of Strategic Resources]
PO 1.1

River Murray Flood Plain Protection Area Overlay [Built Form and Character]
PO 5.1, PO 5.3

River Murray Flood Plain Protection Area Overlay [Flood Resilience]
PO 6.1, PO 6.2

River Murray Flood Plain Protection Area Overlay [Environmental Protection]
PO 7.1, PO 7.2, PO 7.3

River Murray Flood Plain Protection Area Overlay [Access]
PO 8.1, PO 8.2, PO 8.3

Significant Interface Management Overlay [Land Use and Intensity]
PO 1.1

Significant Landscape Protection Overlay [Land Use and Intensity]
PO 1.1

Significant Landscape Protection Overlay [Built Form and Character]
PO 2.1, PO 2.2

Significant Landscape Protection Overlay [Landscaping]
PO 3.1

Significant Landscape Protection Overlay [Earthworks]
PO 4.1

State Heritage Area Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5

State Heritage Area Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

State Heritage Area Overlay [Conservation Works]
PO 7.1

State Heritage Place Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7

State Heritage Place Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

State Heritage Place Overlay [Conservation Works]
PO 7.1

State Significant Native Vegetation Areas Overlay [Environmental Protection]
PO 1.1

Stormwater Management Overlay
PO 1.1

Traffic Generating Development Overlay [Traffic Generating Development]
PO 1.1, PO 1.2, PO 1.3

Tunnel Protection Overlay [Land Use and Intensity]
PO 1.1

Tunnel Protection Overlay [Excavation and Ground Intruding Activity]
PO 2.1

Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Urban Transport Routes Overlay [Access - On-Site Queuing]
PO 2.1

Urban Transport Routes Overlay [Access - (Location Spacing) - Existing Access Point]
PO 3.1

Urban Transport Routes Overlay [Access – Location (Spacing) – New Access Points]
PO 4.1

PO 6.1, PO 6.2, PO 6.3, PO 6.4, PO 6.5, PO 6.6

Transport, Access and Parking [Undercroft and Below Ground Garaging and Parking of Vehicles]
PO 7.1

Transport, Access and Parking [Bicycle Parking in Designated Areas]
PO 9.1, PO 9.2, PO 9.3

Transport, Access and Parking [Corner Cut-Offs]
PO 10.1

Hazards (Bushfire - High Risk) Overlay [Vehicle Access – Roads, Driveways and Fire Tracks]
PO 6.1, PO 6.2, PO 6.3

Hazards (Bushfire - Medium Risk) Overlay [Siting]
PO 1.1

Hazards (Bushfire - Medium Risk) Overlay [Built Form]
PO 2.1, PO 2.2

Hazards (Bushfire - Medium Risk) Overlay [Vehicle Access - Roads, Driveways and Fire Tracks]
PO 5.1, PO 5.2, PO 5.3

Hazards (Bushfire - Outback) Overlay [Vehicle Access - Roads and Driveways]
PO 2.1, PO 2.2

Hazards (Bushfire - Regional) Overlay [Siting]
PO 1.1

Hazards (Bushfire - Regional) Overlay [Built Form]
PO 2.1, PO 2.2

Hazards (Bushfire - Regional) Overlay [Vehicle Access -Roads and Driveways]
PO 5.1, PO 5.2, PO 5.3

Hazards (Flooding) Overlay [Flood Resilience]
PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.5

Hazards (Flooding) Overlay [Environmental Protection]
PO 4.1, PO 4.2

Hazards (Flooding) Overlay [Site Earthworks]
PO 5.1, PO 5.2

Hazards (Flooding) Overlay [Access]
PO 6.1, PO 6.2

Hazards (Flooding – General) Overlay [Flood Resilience]
PO 2.1

Hazards (Flooding – General) Overlay [Environmental Protection]
PO 3.1

Hazards (Flooding - Evidence Required) Overlay [Flood Resilience]
PO 1.1

Heritage Adjacency Overlay [Built Form]
PO 1.1

Historic Area Overlay [All Development]
PO 1.1

Historic Area Overlay [Built Form]
PO 2.1, PO 2.2, PO 2.3, PO 2.4, PO 2.5

Historic Area Overlay [Context and Streetscape Amenity]
PO 6.1, PO 6.2

Historic Area Overlay [Ruins]
PO 8.1

Historic Shipwrecks Overlay [General]
PO 1.1

Key Outback and Rural Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Key Outback and Rural Routes Overlay [Access - On-Site Queuing]
PO 2.1

Key Outback and Rural Routes Overlay [Access - Location (Spacing) - Existing Access Points]
PO 3.1

Key Outback and Rural Routes Overlay [Access - Location (Spacing) - New Access Points]
PO 4.1

Key Outback and Rural Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Key Outback and Rural Routes Overlay [Access - Mud and Debris]
PO 6.1

Key Outback and Rural Routes Overlay [Access - Stormwater]
PO 7.1

Key Outback and Rural Routes Overlay [Building on Road Reserve]
PO 8.1

Key Outback and Rural Routes Overlay [Public Road Junctions]
PO 9.1

Key Railway Crossings Overlay [Access, Design and Function]
PO 1.1

Limited Dwelling Overlay
PO 1.1

Local Heritage Place Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7

Local Heritage Place Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

Local Heritage Place Overlay [Conservation Works]
PO 7.1

Major Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Major Urban Transport Routes Overlay [Access - On-Site Queuing]
PO 2.1

Major Urban Transport Routes Overlay [Access – Location (Spacing) - Existing Access Points]
PO 3.1

Major Urban Transport Routes Overlay [Access – Location (Spacing) – New Access Points]
PO 4.1

Major Urban Transport Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Major Urban Transport Routes Overlay [Access - Mud and Debris]
PO 6.1

Major Urban Transport Routes Overlay [Access - Stormwater]
PO 7.1

Major Urban Transport Routes Overlay [Building on Road Reserve]
PO 8.1

Major Urban Transport Routes Overlay [Public Road Junctions]
PO 9.1

Major Urban Transport Routes Overlay [Corner Cut-Offs]
PO 10.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Water Quality]
PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Wastewater]
PO 2.1, PO 2.2, PO 2.3, PO 2.4

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Landscapes and Natural Features]
PO 4.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Water Quality]
PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Wastewater]
PO 2.1, PO 2.3, PO 2.4, PO 2.5

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Landscapes and Natural Features]
PO 4.1

Native Vegetation Overlay [Environmental Protection]
PO 1.1, PO 1.2, PO 1.4

Non-Stop Corridors Overlay [Non-Stop Corridor Overlay]
PO 1.1

Resource Extraction Protection Area Overlay [Protection of Strategic Resources]
PO 1.1

River Murray Flood Plain Protection Area Overlay [Wastewater]
PO 2.1

River Murray Flood Plain Protection Area Overlay [Built Form and Character]
PO 5.1, PO 5.3

River Murray Flood Plain Protection Area Overlay [Flood Resilience]
PO 6.1, PO 6.2

River Murray Flood Plain Protection Area Overlay [Environmental Protection]
PO 7.1, PO 7.2, PO 7.3

River Murray Flood Plain Protection Area Overlay [Access]
PO 8.1, PO 8.2, PO 8.3

Scenic Quality Overlay [Land Use and Intensity]
PO 1.1

Scenic Quality Overlay [Built Form and Character]
PO 2.1

Scenic Quality Overlay [Landscaping]
PO 3.1

Scenic Quality Overlay [Earthworks]
PO 4.1

Significant Interface Management Overlay [Land Use and Intensity]
PO 1.1

Significant Landscape Protection Overlay [Land Use and Intensity]

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

| Class of Development | Exclusions |
|---|---|
| Industry | Light industry |

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

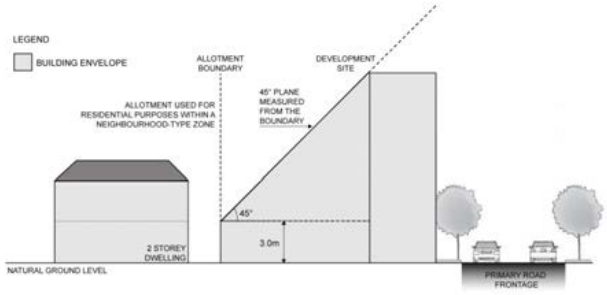
Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

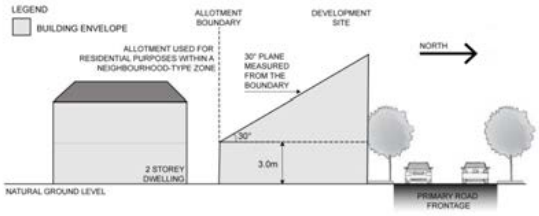
A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

| **Class of Development**<br>**(Column A)** | **Exceptions**<br>**(Column B)** |
|---|---|
| 1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development. | None specified. |
| 2. Any kind of development where the site of the development is **not** adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone. | Except any of the following:<br>1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)<br>2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building). |
| 3. Any development involving any of the following (or of any combination of any of the following):<br>(a) advertisement<br>(b) co-living<br>(c) dwelling<br>(d) office<br>(e) residential flat building<br>(f) shop. | Except development that:<br>1. exceeds the maximum building height specified in Urban Corridor (Main Street) DTS/DPF 3.1<br>or<br>2. does not satisfy Urban Corridor (Main Street) DTS/DPF 4.1<br>or<br>3. involves the construction of a building of 4 or more building levels and the site of the development is:<br>(a) adjacent land to a neighbourhood-type zone<br>and<br>(b) adjoins an allotment containing an existing low-rise building used for residential purposes. |
| 4. Any development involving any of the following (or of any combination of any of the following):<br>(a) air handling unit, air conditioning system or exhaust fan<br>(b) carport<br>(c) deck<br>(d) fence<br>(e) internal building works<br>(f) land division<br>(g) outbuilding<br>(h) pergola<br>(i) private bushfire shelter<br>(j) replacement building<br>(k) retaining wall<br>(l) shade sail<br>(m) solar photovoltaic panels (roof mounted)<br>(n) swimming pool or spa pool and associated swimming pool safety features<br>(o) tree damaging activity<br>(p) verandah<br>(q) water tank. | None specified. |
| 5. Any development involving any of the following (or of any combination of any of the following) within the Tunnel Protection Overlay:<br>(a) storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres<br>(b) temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres<br>(c) excavation or ground intruding activity at a depth greater than 2.5 metres below the regulated surface level. | Except where not undertaken by the Crown, a Council or an essential infrastructure provider. |
| 6. Demolition. | Except any of the following:<br>1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)<br>2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building). |
| 7. Railway line. | Except where located outside of a rail corridor or rail reserve. |
| **Placement of Notices - Exemptions for Performance Assessed Development** | |
| None specified. | |
| **Placement of Notices - Exemptions for Restricted Development** | |
| None specified. | |

## Urban Neighbourhood Zone

**Assessment Provisions (AP)**





Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | A mixed use area that:<br>(a) provides a flexible policy framework for the redevelopment of urban areas in close proximity to high frequency public transport corridors or adjacent primary road corridors that have the potential to become activity generators<br>(b) provides for the high-quality design and integration of buildings and public realm in mixed use areas with walkable urban form, excellent provision for walking and cycling and active street frontages that encourage social interaction, positively contribute to public safety and vibrancy and promote active movement and public transport use<br>(c) provides a concentration of mixed use activity close to community focal points, such as a high frequency fixed transit stop, activity centre or high quality open space<br>(d) provides adaptable and flexible buildings that can accommodate changes in land use and respond to changing economic and social conditions and advances in technology<br>(e) transitions to a reduced scale and intensity at the zone boundary to maintain the amenity of residential properties located within adjoining zones. |

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Land Use and Intensity | |
| PO 1.1<br>Development of medium and high density accommodation types for living, including dwellings, supported accommodation, student accommodation, short term accommodation, either as part of a mixed use development or wholly residential development. | DTS/DPF 1.1<br>Development comprises one or more of the following:<br>(a) Advertisement<br>(b) Carport |

| | |
|---|---|
| | (c) Child Care Facility<br>(d) Co-living<br>(e) Consulting Room<br>(f) Dwelling<br>(g) Educational Facility<br>(h) Hotel<br>(i) Licensed Premises<br>(j) Light Industry<br>(k) Office<br>(l) Outbuilding<br>(m) Residential Flat Building<br>(n) Retirement Facility<br>(o) Shop<br>(p) Student Accommodation<br>(q) Supported Accommodation<br>(r) Tourist Accommodation |
| PO 1.2<br>Development of diverse medium density accommodation, and high density accommodation in specified locations (locations where 7 or more building levels is envisaged), either as part of a mixed use development or wholly residential development. | DTS/DPF 1.2<br>None are applicable. |
| PO 1.3<br>Light industrial and commercial uses (including high technology and research based activity) where compatible with adjoining uses. | DTS/DPF 1.3<br>None are applicable. |
| PO 1.4<br>Co-locate close to public transport land uses that generate high levels of pedestrian activity, encourage public transport use and provide opportunities for multi-purpose trips. | DTS/DPF 1.4<br>None are applicable. |
| PO 1.5<br>In clusters of non-residential development, provide high-quality, inclusive and integrated public realm, including open spaces, sport and recreation facilities, and places that serve as hubs for communal activity. | DTS/DPF 1.5<br>None are applicable. |
| PO 1.6<br>Shops, offices and consulting rooms services and facilities to meet the needs of the local community. | DTS/DPF 1.6<br>Except where a Mixed Use Subzone, Main Street Subzone or Urban Neighbourhood Retail Subzone applies, shops, offices or consulting room uses not exceeding a maximum gross leasable floor area of 500m$^2$ for individual tenancies and 1000m$^2$ in a single building. |
| PO 1.7<br>Larger scale shops, offices, and consulting rooms primarily clustered together to provide a focus for services and facilities. | DTS/DPF 1.7<br>None are applicable. |
| Built Form and Character | |
| PO 2.1<br>Development positively contributes to creating activity nodes around high-frequency public transport stops/stations and multi-modal transport interchanges, encourages public transport use and positively contributes to a fine-grain streetscape that provides a safe, comfortable, vibrant and walkable public realm at ground level. | DTS/DPF 2.1<br>None are applicable. |
| PO 2.2<br>Building height is consistent with the form expressed in the *Maximum Building Height (Levels) Technical and Numeric Variation layer* and the *Maximum Building Height (Metres) Technical and Numeric Variation layer* or positively responds to the local context including the site's frontage, depth, and adjacent primary street width. | DTS/DPF 2.2<br>Except where a Concept Plan specifies otherwise, development does not exceed the following building height(s):<br>**Maximum Building Height (Levels)**<br>Maximum building height is 3 levels<br>Maximum building height is 4 levels<br>Maximum building height is 5 levels<br>Maximum building height is 6 levels<br>Maximum building height is 8 levels<br>Maximum building height is 10 levels<br>Maximum building height is 12 levels<br>Maximum building height is 15 levels<br>**Maximum Building Height (Metres)**<br>Maximum building height is 12m<br>Maximum building height is 12.5m<br>Maximum building height is 13.5m<br>Maximum building height is 15m<br>Maximum building height is 16.5m<br>Maximum building height is 18.5m<br>Maximum building height is 24.5m<br>Maximum building height is 32.5m<br>Maximum building height is 43m<br>Maximum building height is 20.5m<br>Maximum building height is 28.5m<br>Maximum building height is 40.5m<br>Maximum building height is 48.5m<br>In relation to DTS/DPF 2.2, in instances where:<br>(a) more than one value is returned in the same field, refer to the *Maximum Building Height (Levels) Technical and Numeric Variation layer* or *Maximum Building Height (Metres) Technical and Numeric Variation layer* in the SA planning database to determine the applicable value relevant to the site of the proposed development<br>(b) only one value is returned (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other<br>(c) no value is returned (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy. |
| PO 2.3<br>Buildings are designed to be adaptable and flexible to suit a range of land uses, including retail, office and residential, without the need for significant change to the building. | DTS/DPF 2.3<br>The ground floor of buildings contains a minimum floor to ceiling height of 3.5m. |
| PO 2.4<br>Buildings designed to create visual connection between the public realm and ground level interior, promote an active human-scale interface with the primary road / public transport corridor and open space and maximise passive surveillance. | DTS/DPF 2.4<br>Not less than 50% of the ground floor primary frontage of buildings are visually permeable, transparent or clear glazed. |
| PO 2.5<br>Buildings set back from the primary street boundaries consistent with the existing/emerging streetscape. | DTS/DPF 2.5<br>Buildings setback from the primary street boundary in accordance with the following table:<br>**Development Context** / **Minimum setback**<br>There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building. — The average setback of the existing buildings.<br>There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site. — The setback of the existing building.<br>There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site. — (a) Where the existing building shares the same primary street frontage – the setback of the existing building; (b) Where the existing building has a different primary street frontage – 0m<br>There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building. — 0m<br>For the purposes of **DTS/DPF 2.5:**<br>(a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback<br>(b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table |

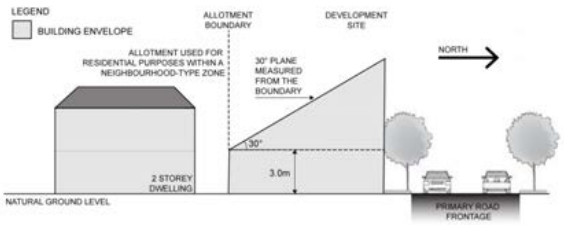
|---|---|
| PO 2.6<br>Buildings set back from secondary street boundaries in a manner compatible with the emerging streetscape pattern. | DTS/DPF 2.6<br>Building walls setback from the secondary street frontage in accordance with either of the following:<br>(a) no minimum where adjoining allotments are vacant<br>or<br>(b) the average of the setback of the existing building on each adjoining site fronting the same street. |
| PO 2.7<br>Buildings set back from rear boundaries (other than street boundaries) to:<br>(a) minimise impacts on properties in neighbouring zones<br>(b) maximise intensity of development within the zone. | DTS/DPF 2.7<br>Building walls setback from the rear boundaries as follows:<br>(a) 5m or more where the subject land directly abuts an allotment of a different zone<br>or<br>(b) 0 metres in all other cases. |
| PO 2.8<br>Buildings set back from side boundaries (other than street boundaries) to:<br>(a) reduce impacts of building bulk on adjoining properties<br>(b) provide adequate direct sun and ventilation to the building and open spaces<br>(c) minimise the extent of overlooking and resultant loss of privacy on adjoining properties<br>(d) minimise the extent of overshadowing on adjoining properties. | DTS/DPF 2.8<br>Building walls setback from the side boundaries the average of the setback of the existing building on each adjoining site fronting the same street. |
| PO 2.9<br>Buildings set back from street boundaries (in the case of rear access ways) to provide adequate manoeuvrability for vehicles. | DTS/DPF 2.9<br>Building walls setback from the rear access way:<br>(a) no requirement where the access way is not less than 6.5m wide<br>or<br>(b) where the access way is less than 6.5m wide, the distance equal to the additional width required to make the access way at least 6.5m wide. |
| Interface Height | |
| PO 3.1<br>Buildings mitigate visual impacts of building massing on residential development within a neighbourhood-type zone. | DTS/DPF 3.1<br>**Interface Height**<br>Buildings constructed within a building envelope provided by a:<br>(a) 45 degree plane measured from a height of 3 metres above natural ground level at the boundary of the allotment where abutting a residential use, or where the allotment is separated by a road less than 6.5 metres in width measured from the residential allotment boundary, within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary):<br><br><br>(b) in relation to a southern boundary, 30 degree plane grading north, measured from a height of 3m above natural ground at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a street boundary):<br><br><br>Buildings constructed within a building envelope provided by a 30 degree plane measured from a height of 3m above natural ground level at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a street boundary): |



| | |
|---|---|
| | **Interface Height**<br><br> |
| PO 3.2<br>Development that manages the interface with a low-rise neighbourhood-type zone by incorporating less dense, low-rise residential land uses at the interface, and avoiding land uses or intensity of land uses that adversely affect residential amenity. | DTS/DPF 3.2<br>None are applicable. |
| Site Dimensions and Land Division | |
| PO 4.1<br>Where appropriate, a street grid pattern is provided in mixed use areas to maintain clear sightlines, improve public safety and legibility within the public realm, and ensure walkability and connectivity are maximised. | DTS/DPF 4.1<br>None are applicable. |
| Movement, parking and access | |
| PO 5.1<br>Where practicable, buildings provide vehicle access via a side street or rear lane access way that is designed to:<br>(a) provide space between buildings that reduces building mass and creates a more visually diverse public realm<br>(b) minimises conflicts with pedestrians and cyclists<br>(c) achieve active frontages at a lower intensity than the primary street frontage. | DTS/DPF 5.1<br>Vehicular access to be provided:<br>(a) via side streets or rear lanes provided there is no negative impact on residential amenity within the zone and in adjacent zones<br>or<br>(b) where it consolidates or replaces existing crossovers. |
| Concept Plans | |
| PO 6.1<br>Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code. | DTS/DPF 6.1<br>The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:<br>**Description**<br>Concept Plan 5 - Bowden Urban Village<br>Concept Plan 34 - Bowden-Brompton<br>Concept Plan 3 - Mount Barker and Littlehampton<br>Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints<br>Concept Plan 89 - Tonsley<br>Concept Plan 86 - Edwardstown<br>Concept Plan 94 - Old Reynella<br>Concept Plan 112 - West Lakes<br>Concept Plan 111 - St Clair<br>Concept Plan 109 - Seaton<br>Concept Plan 115 - Morphetteville<br>Concept Plan 152 - Brompton Gasworks<br>Concept Plan 175 - Smithfield Regeneration<br>Concept Plan 176 - Port Stanvac<br>In relation to DTS/DPF 6.1, in instances where:<br>(a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.<br>(b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 6.1 is met. |

**Table 1 - Accepted Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

| Class of Development | Accepted Development Classification Criteria |
|---|---|
| Air handling unit, air conditioning system or exhaust fan<br>Except where any of the following apply:<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The item will be installed on or within an existing building<br>2. The item being installed does not encroach on a public street or affect the ability of the building to resist the spread of fire<br>3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street. |
| Building alterations<br>Except where any of the following apply:<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The alteration does not:<br>(a) increase the floor area of the building<br>(b) exceed the existing wall height<br>(c) exceed the existing overall building height<br>(d) alter the roof profile<br>(e) alter an approved privacy screening arrangement or window treatment<br>(f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.<br>2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm. |
| Partial demolition of a building or structure<br>Except where any of the following apply:<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | None |
| Shade sail<br>Except where any of the following apply:<br>• Future Local Road Widening Overlay<br>• Future Road Widening Overlay<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.<br>3. Shade sail consists of permeable material.<br>4. The total area of the sail does not exceed 40m$^2$.<br>5. No part of the shade sail will be:<br>(a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment<br>(b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment.<br>6. Primary street setback - at least as far back as the building line of the building to which it is ancillary.<br>7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m. |

| | |
|---|---|
| | 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.<br>9. Does not involve the clearance of native vegetation.<br>10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas<br>11. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay<br>12. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay. |
| Solar photovoltaic panels (roof mounted)<br>Except where any of the following apply:<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.<br>2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof.<br>3. Panels and associated components do not overhang any part of the roof.<br>4. Does not apply to a system with a generating capacity of more than 5MW that is to be connected to the State's power system.<br>5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street. |
| Swimming pool or spa pool and associated swimming pool safety features<br>Except where any of the following apply:<br>• Future Local Road Widening Overlay<br>• Future Road Widening Overlay<br>• Hazards (Flooding) Overlay<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.<br>3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted.<br>4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature).<br>5. Primary street setback - at least as far back as the building line of the building to which it is ancillary.<br>6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment:<br>(a) not less than 5m where the filtration system is located inside a solid acoustic structure; or<br>(b) not less than 12m in any other case.<br>7. Does not involve the clearance of native vegetation.<br>8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas<br>9. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay<br>10. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay. |
| Water tank (underground)<br>Except where any of the following apply:<br>• Coastal Areas Overlay<br>• Hazards (Acid Sulfate Soils) Overlay<br>• Ramsar Wetlands Overlay | 1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system<br>2. The tank (including any associated pump) is located wholly below the level of the ground<br>3. Does not involve the clearance of native vegetation<br>4. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay<br>5. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay. |

**Table 2 - Deemed-to-Satisfy Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

| Class of Development | Deemed-to-Satisfy Development Classification Criteria | | | |
|---|---|---|---|---|
| | Zone | General Development Policies | Subzone<br>(applies only in the area affected by the Subzone) | Overlay<br>(applies only in the area affected by the Overlay) |
| Advertisement<br>Except where any of the following apply:<br>• Character Preservation District Overlay<br>• Heritage Adjacency Overlay<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• Non-stop Corridor Overlay<br>• Significant Landscape Protection Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | None | Advertisements [Appearance]<br>DTS/DPF 1.1, DTS/DPF 1.2, DTS/DPF 1.3, DTS/DPF 1.4<br><br>Advertisements [Proliferation of Advertisements]<br>DTS/DPF 2.3<br><br>Advertisements [Advertising Content]<br>DTS/DPF 3.1<br><br>Advertisements [Amenity Impacts]<br>DTS/DPF 4.1<br><br>Advertisements [Safety]<br>DTS/DPF 5.1, DTS/DPF 5.2, DTS/DPF 5.3, DTS/DPF 5.4, DTS/DPF 5.5, DTS/DPF 5.6<br><br>Clearance from Overhead Powerlines<br>DTS/DPF 1.1<br><br>Infrastructure and Renewable Energy Facilities [Wastewater Services]<br>DTS/DPF 12.2 | Mixed Use Subzone [Advertising]<br>DTS/DPF 3.1 | Advertising Near Signalised Intersections Overlay [Advertisements Near Signalised Intersections]<br>DTS/DPF 1.1<br><br>Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form]<br>DTS/DPF 1.1<br><br>Airport Building Heights (Regulated) Overlay [Built Form]<br>DTS/DPF 1.1<br><br>Building Near Airfields Overlay<br>DTS/DPF 1.3<br><br>Defence Aviation Area Overlay [Built Form]<br>DTS/DPF 1.1<br><br>Future Road Widening Overlay [Future Road Widening]<br>DTS/DPF 1.1<br><br>Gateway Overlay [Advertisements]<br>DTS/DPF 4.1<br><br>Native Vegetation Overlay [Environmental Protection]<br>DTS/DPF 1.1<br><br>State Significant Native Vegetation Areas Overlay [Environmental Protection]<br>DTS/DPF 1.1<br><br>Tunnel Protection Overlay [Land Use and Intensity]<br>DTS/DPF 1.1<br><br>Tunnel Protection Overlay [Excavation and Ground Intruding Activity]<br>DTS/DPF 2.1 |

**Table 3 - Applicable Policies for Performance Assessed Development**

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

| Class of Development | Applicable Policies | | | |
|---|---|---|---|---|
| | Zone | General Development Policies | Subzone<br>(applies only in the area affected by the Subzone) | Overlay<br>(applies only in the area affected by the Overlay) |

Major Urban Transport Routes Overlay [Access - Mud and Debris]
PO 6.1

Major Urban Transport Routes Overlay [Access - Stormwater]
PO 7.1

Major Urban Transport Routes Overlay [Building on Road Reserve]
PO 8.1

Major Urban Transport Routes Overlay [Public Road Junctions]
PO 9.1

Major Urban Transport Routes Overlay [Corner Cut-Offs]
PO 10.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Water Quality]
PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Wastewater]
PO 2.2, PO 2.3, PO 2.4

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.5, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Landscapes and Natural Features]
PO 4.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Water Quality]
PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Wastewater]
PO 2.1, PO 2.4, PO 2.5

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.5, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Landscapes and Natural Features]
PO 4.1

Native Vegetation Overlay [Environmental Protection]
PO 1.1, PO 1.2, PO 1.4

Non-Stop Corridors Overlay [Non-Stop Corridor Overlay]
PO 1.1

Resource Extraction Protection Area Overlay [Protection of Strategic Resources]
PO 1.1

River Murray Flood Plain Protection Area Overlay [Wastewater]
PO 2.1

River Murray Flood Plain Protection Area Overlay [Built Form and Character]
PO 5.1, PO 5.3

River Murray Flood Plain Protection Area Overlay [Flood Resilience]
PO 6.1, PO 6.2, PO 6.3

River Murray Flood Plain Protection Area Overlay [Environmental Protection]
PO 7.1, PO 7.2, PO 7.3

River Murray Flood Plain Protection Area Overlay [Access]
PO 8.1, PO 8.2, PO 8.3

Scenic Quality Overlay [Land Use and Intensity]
PO 1.1

Scenic Quality Overlay [Built Form and Character]
PO 2.1

Scenic Quality Overlay [Landscaping]
PO 3.1

Scenic Quality Overlay [Earthworks]
PO 4.1

Significant Interface Management Overlay [Land Use and Intensity]
PO 1.2

Significant Landscape Protection Overlay [Land Use and Intensity]
PO 1.1

Significant Landscape Protection Overlay [Built Form and Character]
PO 2.1, PO 2.2

Significant Landscape Protection Overlay [Landscaping]
PO 3.1

Significant Landscape Protection Overlay [Earthworks]
PO 4.1

State Heritage Area Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5

State Heritage Area Overlay [Alterations and Additions]
PO 2.1, PO 2.2

State Heritage Area Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

State Heritage Area Overlay [Conservation Works]
PO 7.1

State Heritage Place Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7

State Heritage Place Overlay [Alterations and Additions]
PO 2.1, PO 2.2

State Heritage Place Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

State Heritage Place Overlay [Conservation Works]
PO 7.1

State Significant Native Vegetation Areas Overlay [Environmental Protection]
PO 1.1

Tunnel Protection Overlay [Land Use and Intensity]
PO 1.1

Tunnel Protection Overlay [Excavation and Ground Intruding Activity]
PO 2.1

Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Urban Transport Routes Overlay [Access - On-Site Queuing]
PO 2.1

Urban Transport Routes Overlay [Access - (Location Spacing) - Existing Access Point]
PO 3.1

Urban Transport Routes Overlay [Access – Location (Spacing) – New Access Points]
PO 4.1

Urban Transport Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Urban Transport Routes Overlay [Access – Mud and Debris]
PO 6.1

Urban Transport Routes Overlay [Access - Stormwater]
PO 7.1

Urban Transport Routes Overlay [Building on Road Reserve]
PO 8.1

Urban Transport Routes Overlay [Public Road Junctions]
PO 9.1

Urban Transport Routes Overlay [Corner Cut-Offs]
PO 10.1

Water Resources Overlay [Water Catchment]
PO 1.1, PO 1.2, PO 1.5, PO 1.6, PO 1.7, PO 1.8

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

| Class of Development | Exclusions |
|---|---|
| Dwelling | Any of the following:<br><br>(a) dwelling not located within the suburb of Forestville<br>(b) dwelling that:<br>(i) is located within the suburb of Forestville and<br>(ii) does not exceed 4 building levels or 15m in building height |
| Industry | Any of the following: |

| | |
|---|---|
| | (a) Light industry<br>(b) General industry in the Mixed Use Subzone |
| Residential flat building | Any of the following:<br><br>(a) residential flat building not located within the suburb of Forestville<br>(b) residential flat building that:<br>(i) is located within the suburb of Forestville and<br>(ii) does not exceed 4 building levels or 15m in building height |
| Shop | Any of the following:<br><br>(a) shop located in the Main Street Subzone<br>(b) shop located in the Urban Neighbourhood Retail Subzone<br>(c) shop with a gross leasable floor area less than 2000m$^2$ that is not within the suburb of Forestville<br>(d) shop that is a restaurant that is not within the suburb of Forestville<br>(e) shop that is:<br>(i) located within the suburb of Forestville and<br>(ii) satisfies all of the following:<br>A. it does not exceed 4 building levels or 15m in building height<br>B. has a gross leasable floor area less than 2000m$^2$ or is a restaurant.<br>(f) shop located in the Mixed Use Subzone. |
| Student Accommodation | Any of the following:<br><br>(a) student accommodation not located within the suburb of Forestville<br>(b) student accommodation that:<br>(i) is located within the suburb of Forestville and<br>(ii) does not exceed 4 building levels or 15m in building height |
| Tourist accommodation | Any of the following:<br><br>(a) tourist accommodation not located within the suburb of Forestville<br>(b) tourist accommodation that:<br>(i) is located within the suburb of Forestville and<br>(ii) does not exceed 4 building levels or 15m in building height |

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

| **Class of Development**<br>**(Column A)** | **Exceptions**<br>**(Column B)** |
|---|---|
| 1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development. | None specified. |
| 2. Any kind of development where the site of the development is **not** adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone. | Except any of the following:<br><br>1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)<br>2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building). |
| 3. Any development involving any of the following (or of any combination of any of the following):<br>(a) advertisement<br>(b) child care facility<br>(c) co-living<br>(d) dwelling<br>(e) dwelling addition<br>(f) residential flat building<br>(g) retirement facility<br>(h) student accommodation<br>(i) supported accommodation<br>(j) tourist accommodation. | Except development that exceeds the maximum building height specified in Urban Neighbourhood DTS/DPF 2.2 or does not satisfy Urban Neighbourhood DTS/DPF 3.1. |
| 4. Any development involving any of the following (or of any combination of any of the following):<br>(a) consulting room<br>(b) office<br>(c) shop. | Except development that exceeds the maximum building height specified in Urban Neighbourhood DTS/DPF 2.2 or does not satisfy any of the following:<br><br>1. Urban Neighbourhood DTS/DPF 1.6<br>2. Urban Neighbourhood DTS/DPF 3.1. |
| 5. Any development involving any of the following (or of any combination of any of the following):<br>(a) air handling unit, air conditioning system or exhaust fan<br>(b) carport<br>(c) deck<br>(d) fence<br>(e) internal building works<br>(f) land division<br>(g) outbuilding<br>(h) pergola<br>(i) private bushfire shelter<br>(j) replacement building<br>(k) retaining wall<br>(l) shade sail<br>(m) solar photovoltaic panels (roof mounted)<br>(n) swimming pool or spa pool and associated swimming pool safety features<br>(o) temporary accommodation in an area affected by bushfire<br>(p) tree damaging activity<br>(q) verandah<br>(r) water tank. | None specified. |
| 6. Any development involving any of the following (or of any combination of any of the following) within the Tunnel Protection Overlay:<br>(a) storage of materials, equipment or vehicles (whether temporary or permanent) over an area exceeding 100 square metres<br>(b) temporary stockpiling of soil, gravel, rock or other natural material over an area exceeding 100 square metres<br>(c) excavation or ground intruding activity at a depth greater than 2.5 metres below the regulated surface level. | Except where not undertaken by the Crown, a Council or an essential infrastructure provider. |

| | |
|---|---|
| 7. Any development involving any of the following (or of any combination of any of the following) within the Mixed Use Subzone:<br>(a) light industry<br>(b) general industry | Except development that exceeds the maximum building height specified in Urban Neighbourhood DTS/DPF 2.2 or does not satisfy any of the following:<br>1. Urban Neighbourhood DTS/DPF 3.1. |
| 8. Demolition. | Except any of the following:<br>1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)<br>2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building). |
| 9. Railway line. | Except where located outside of a rail corridor or rail reserve. |

| Placement of Notices - Exemptions for Performance Assessed Development |
|---|
| None specified. |

| Placement of Notices - Exemptions for Restricted Development |
|---|
| None specified. |

**Main Street Subzone**

Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | A shopping, entertainment and commercial main street supported by medium to high density residential development. |
| DO 2 | A fine-grained public realm with safe, walkable and vibrant streets created by mixed use buildings with non-residential uses at ground level and a visually consistent street rhythm informed by local context and narrow tenancy footprints. |

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Land Use and Intensity | |
| PO 1.1<br>Retail, office, entertainment and recreation related uses supplemented by other businesses providing a range of goods and services to the local community and the surrounding district. | DTS/DPF 1.1<br>None are applicable |
| PO 1.2<br>Land uses promote movement and activity during daytime and evening hours, including shops, restaurants, small scale licensed premises, educational, community and cultural facilities, and visitor and residential accommodation. | DTS/DPF 1.2<br>None are applicable. |
| PO 1.3<br>Dwellings developed in conjunction with non-residential uses to support business, entertainment and recreational activities and positively contribute to making the main street locality and pedestrian thoroughfares safe, walkable, comfortable, pleasant and lively places. | DTS/DPF 1.3<br>Dwellings developed in conjunction with non-residential uses sited:<br>(a) at upper levels of buildings with non-residential uses located at ground level<br>or<br>(b) behind non-residential uses on the same allotment. |
| PO 1.4<br>Development of well-designed diverse medium to high density accommodation options, including dwellings, supported accommodation, student accommodation, and short term accommodation, either as part of a mixed use development or wholly residential development. | DTS/DPF 1.4<br>None are applicable. |
| Built Form and Character | |
| PO 2.1<br>Ground level uses contribute to a safe, walkable and vibrant main street. | DTS/DPF 2.1<br>Shop, office, or consulting room uses located on the ground floor level of buildings. |
| PO 2.2<br>Buildings designed to create visual connection between the public realm and ground level interior, positively contribute to passive surveillance of the public realm, have an active interface with the main street and contribute to the fine-grain character and retail function of the street. | DTS/DPF 2.2<br>The ground floor primary frontage of buildings provides at least 60% of the street frontage as an entry / foyer or display window to a shop or other community or commercial use that provides pedestrian interest and activation. |
| PO 2.3<br>Buildings are adaptable and flexible to suit a range of residential and non-residential land uses. | DTS/DPF 2.3<br>The ground floor of buildings contains a minimum floor to ceiling height of 3.5m. |
| PO 2.4<br>Buildings with no set-backs from the main street boundary to achieve a continuity of built form frontage to the main street, with the occasional section of building set back to create outdoor dining areas, visually interesting building entrances and intimate but vibrant spaces. | DTS/DPF 2.4<br>None are applicable. |
| PO 2.5<br>Vehicle parking and ancillary buildings and structures (including garages, carports and outbuildings) located behind buildings away from the primary main street frontage and designed to minimise negative impacts on the main street rhythm and activation. | DTS/DPF 2.5<br>None are applicable. |

**Urban Neighbourhood Retail Subzone**

Assessment Provisions (AP)

Desired Outcomes (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Additional neighbourhood-scale shopping, business, entertainment and recreation facilities to provide a focus for business and community life and most daily and weekly shopping needs of the community. |

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Land Use and Intensity | |
| PO 1.1<br>Retail, office, entertainment and recreation related uses supplemented by other businesses providing a range of goods and services to the community. | DTS/DPF 1.1<br>Shops not exceeding a maximum gross leasable floor area of:<br>(a) 5500m$^2$ within the whole subzone area in West Lakes<br>(b) 2000m$^2$ within the whole subzone area in Bedford Park (Laffer's Triangle). |

**Mixed Use Subzone**

Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | A mixed use area that includes a range of residential development densities with compatible employment opportunities, delivering an integrated living and working environment. |
| DO 2 | Neighbourhood-scale shopping, business, entertainment and recreation facilities to provide a focus for business and community life. |

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Land Use and Intensity | |
| PO 1.1<br>A mix of employment, retail, commercial, business and residential land uses. | DTS/DPF 1.1<br>Development comprises one or more of the following:<br>(a) Advertisement<br>(b) Bulky goods outlet<br>(c) Carport<br>(d) Child Care Facility<br>(e) Co-living<br>(f) Consulting Room<br>(g) Data centre<br>(h) Dwelling<br>(i) Educational Facility<br>(j) Function venue<br>(k) General Industry<br>(l) Hotel<br>(m) Indoor recreation facility<br>(n) Licensed Premises<br>(o) Light Industry<br>(p) Motor repair station<br>(q) Office<br>(r) Outbuilding<br>(s) Place of worship<br>(t) Research facility<br>(u) Residential Flat Building<br>(v) Retirement Facility<br>(w) Retail fuel outlet<br>(x) Service trade premises<br>(y) Shop<br>(z) Store<br>(aa) Student Accommodation<br>(ab) Supported Accommodation<br>(ac) Tourist Accommodation<br>(ad) Training facility<br>(ae) Warehouse |
| PO 1.2<br>Non-residential uses such as shops, offices, consulting rooms, educational facilities and community facilities of a scale to support the anticipated future growth of the surrounding neighbourhood. | DTS/DPF 1.2<br>None are applicable |
| PO 1.3<br>Development achieves a compatible transition to adjoining zones in terms of land use, scale and intensity. | DTS/DPF 1.3<br>None are applicable. |
| PO 1.4<br>Activity Centres identified within any relevant Concept Plan include a range of non-residential uses such as shops, offices, consulting rooms, educational facilities and community facilities of a scale to support the anticipated future growth of the surrounding neighbourhood. | DTS/DPF 1.4<br>None are applicable. |
| Built Form and Character | |
| PO 2.1<br>Industrial and employment-type buildings facing sensitive receivers, public roads or open spaces may be less than 50% visually permeable at ground level where they incorporate design features that provide visual interest, such as:<br>(a) using a variety of building finishes<br>(b) avoiding elevations that consist solely of metal cladding<br>(c) using materials with a low reflectivity<br>(d) using techniques to add visual interest and reduce large expanses of blank walls including modulation and incorporation of offices and showrooms. | DTS/DPF 2.1<br>None are applicable. |
| Advertising | |
| PO 3.1<br>Freestanding advertisements are of a size that is commensurate with the scale of the associated built form and street frontage, and do not visually dominate the locality. | DTS/DPF 3.1<br>Freestanding advertisements satisfy all of the following:<br>(a) have a maximum height of 8m above natural ground level<br>(b) do not extend above the walls of the principal buildings on or adjoining the site<br>(c) have a maximum sign face of $8m^2$ per side. |

## Urban Renewal Neighbourhood Zone

### Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Housing and other land uses which no longer meet community preferences are replaced with new diverse housing options. Housing density increases, taking advantage of well-located urban land. Employment and community services will improve access to jobs, goods and services without compromising residential amenity. |

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Land Use and Intensity | |
| PO 1.1<br>Predominantly residential development with complementary non-residential uses that support an active, convenient, and walkable urban neighbourhood. | DTS/DPF 1.1<br>Development comprises one or more of the following:<br>(a) Ancillary accommodation<br>(b) Child care facility<br>(c) Co-living<br>(d) Community facility<br>(e) Consulting room<br>(f) Dwelling<br>(g) Educational facility<br>(h) Office<br>(i) Place of Worship<br>(j) Recreation area<br>(k) Residential flat building<br>(l) Retirement facility<br>(m) Shop<br>(n) Student accommodation<br>(o) Supported accommodation. |
| PO 1.2<br>Commercial activities improve community access to services are of a scale and type to maintain residential amenity. | DTS/DPF 1.2<br>A shop, consulting room or office (or any combination thereof) satisfies (a) or (b):<br>(a) it is located on the same allotment and in conjunction with a dwelling where all the following are satisfied:<br>(i) does not exceed $50m^2$ gross leasable floor area<br>(ii) does not involve the display of goods in a window or about the dwelling or its curtilage<br>(b) where located outside of an Activity Centre, does not exceed $250m^2$ in gross leasable floor area. |
| PO 1.3<br>Non-residential development located and designed to improve community accessibility to services, primarily in the form of:<br>(a) small-scale commercial uses such as offices, shops and consulting rooms<br>(b) community services such as educational facilities, community centres, places of worship, child care facilities and other health and welfare services | DTS/DPF 1.3<br>None are applicable. |

| | |
|---|---|
| (c) services and facilities ancillary to the function or operation of supported accommodation or retirement facilities<br>(d) open space and recreation facilities. | |
| PO 1.4<br><br>Expansion of existing community services such as educational facilities, community facilities and child care facilities in a manner which complements the scale of development envisaged by the desired outcome for the neighbourhood. | DTS/DPF 1.4<br><br>Alteration of or addition to existing educational facilities, community facilities or child care facilities satisfy all of the following:<br><br>(a) set back at least 3m from any boundary shared with a residential land use<br>(b) building height not exceeding 1 building level<br>(c) the total floor area of the building does not exceed 150% of the total floor area prior to the addition/alteration<br>(d) development satisfies Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number. |
| PO 1.5<br><br>Non-residential development sited and designed to complement the residential character and amenity of the neighbourhood. | DTS/DPF 1.5<br><br>None are applicable. |
| Building Height | |
| PO 2.1<br><br>Buildings generally 2-3 levels with taller buildings located on sites that are a suitable size and dimension to manage massing and impacts on adjoining residential development. | DTS/DPF 2.1<br><br>Building height (excluding garages, carports and outbuildings) is no greater than:<br><br>(a) the following:<br><br>**Maximum Building Height (Metres)**<br>Maximum building height is 7m<br>Maximum building height is 8m<br>Maximum building height is 8.5m<br>Maximum building height is 9m<br>Maximum building height is 11.5m<br>Maximum building height is 12.5m<br>Maximum building height is 14m<br>Maximum building height is 15m<br>Maximum building height is 16.5m<br>Maximum building height is 18.5m<br>Maximum building height is 22m<br>Maximum building height is 28m<br>Maximum building height is 32.5m<br>Maximum building height is 10.5m<br>Maximum building height is 20.5m<br>Maximum building height is 35m<br>**Maximum Building Height (Levels)**<br>Maximum building height is 2 levels<br>Maximum building height is 3 levels<br>Maximum building height is 4 levels<br>Maximum building height is 5 levels<br>Maximum building height is 6 levels<br>Maximum building height is 8 levels<br>Maximum building height is 9 levels<br>Maximum building height is 10 levels<br><br>(b) in all other cases (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)):<br>(i) 4 building levels and 15m where the site:<br>A. is at least 1200m$^2$ in area<br>and<br>B. has a frontage of 35 metres<br>or<br>(ii) 3 building levels and 12m in all other circumstances.<br><br>In relation to DTS/DPF 2.1, in instances where:<br><br>(c) more than one value is returned in the same field, refer to the *Maximum Building Height (Levels) Technical and Numeric Variation layer and Maximum Building Height (Metres) Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development<br>(d) only one value is returned for DTS/DPF 2.1(a) (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other. |
| PO 2.2<br><br>Buildings on an allotment at the interface with a different neighbourhood-type zone are sited and designed to provide an orderly transition to the built form scale envisaged in that zone to mitigate impacts on adjacent residential uses. | DTS/DPF 2.2<br><br>None are applicable. |
| Primary Street Setback | |
| PO 3.1<br><br>Buildings are set back from primary street boundaries to contribute to the existing/emerging pattern of street setbacks in the streetscape and integrate development with public open space. | DTS/DPF 3.1<br><br>Buildings setback from the primary street boundary in accordance with the following table:<br><br>**Development Context** — **Minimum setback**<br>Where the allotment adjoins a public reserve greater than 2000m$^2$ (including where the allotment would adjoin a reserve if not separated by a public road), the dwelling faces that reserve and access is provided to the rear of the allotment. — 1.5m<br>In all other cases. — 3m<br><br>For the purposes of **DTS/DPF 3.1:**<br><br>(a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback<br>(b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table |
| Secondary Street Setback | |
| PO 4.1<br><br>Buildings are set back from secondary street boundaries to achieve a pattern of separation between building walls and public streets and reinforce a streetscape character. | DTS/DPF 4.1<br><br>Building walls are set back at least 900mm from the boundary of the allotment with the secondary street frontage. |
| Boundary Walls | |
| PO 5.1<br><br>Walls on boundaries are limited in height and length to manage visual and overshadowing impacts on adjoining properties. | DTS/DPF 5.1<br><br>Except where the building is a dwelling and is located on a central site within a row dwelling or terrace arrangement, side boundary walls occur only on one side boundary and satisfy (a) or (b) below:<br><br>(a) side boundary walls adjoin or abut a boundary wall of a building on adjoining land for the same or lesser length and height<br>(b) side boundary walls do not:<br>(i) exceed 3m in wall height<br>(ii) exceed 11.5 metres in length<br>(iii) when combined with other walls on the boundary of the subject development site, exceed a maximum 45% of the length of the boundary<br>(iv) encroach within 3 metres of any other existing or proposed boundary walls on the subject land |
| PO 5.2<br><br>Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings consistent with a suburban streetscape character. | DTS/DPF 5.2<br><br>Dwelling walls in a semi-detached, row or terrace arrangement are setback at least 900mm from side boundaries shared with allotments outside the development site. |
| Side Boundary Setback | |
| PO 6.1<br><br>Buildings are set back from side boundaries to provide:<br><br>(a) separation between buildings to minimise visual impact<br>(b) access to natural light and ventilation for neighbours. | DTS/DPF 6.1<br><br>Building walls not sited on side boundaries are set back from side boundaries in accordance with the following:<br><br>(a) where the wall height does not exceed 3m - at least 900mm<br>(b) where the wall height exceeds 3m - at least 900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings. |
| Rear Boundary Setback | |

PO 7.1

Buildings are set back from rear boundaries to provide:

(a) separation between buildings to minimise visual impact
(b) access to natural light and ventilation for neighbours
(c) open space recreational opportunities
(d) space for landscaping and vegetation.

DTS/DPF 7.1

Building walls are set back from the rear boundary at least:

(a) 3m for the first building level or 0m where the rear boundary abuts a laneway
(b) 5m for any second building level
(c) 5m plus any increase in wall height over 7m for buildings of 3 building levels and above.

Site Dimensions and Land Division

PO 8.1

Allotments/sites created for residential purposes accommodate a diverse range of medium density housing.

DTS/DPF8.1

Development will not result in more than 1 dwelling on an existing allotment

or

Allotments/sites for residential purposes achieve a net density of up to 70 dwellings per hectare.

PO 8.2

High density residential development located on sites of a suitable size and dimension to achieve a high standard of amenity for occupants and neighbours.

DTS/DPF 8.2

Development with a net residential density over 70 dwellings per hectare on sites with a minimum area of 1200m$^2$ and minimum frontage width of 35m.

Concept Plans

PO 9.1

Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.

DTS/DPF 9.1

The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:

| Description |
|---|
| Concept Plan 4 - Minda Incorporated Brighton Campus - North Brighton |
| Concept Plan 89 - Tonsley |
| Concept Plan 97 - Underdale |
| Concept Plan 116 - Everard Park |
| Concept Plan 127 - Kidman Park |
| Concept Plan 141 - West Lakes |
| Concept Plan 121 - Kilkenny |
| Concept Plan 148 - Lockleys |
| Concept Plan 174 - Seaton Urban Renewal |

In relation to DTS/DPF 9.1, in instances where:

(a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.
(b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 9.1 is met.

Ancillary buildings and structures

PO 10.1

Residential ancillary buildings and structures are sited and designed to not detract from the streetscape or appearance of neighbouring properties.

DTS/DPF 10.1

Ancillary buildings and structures satisfy (a) to (k), inclusive:

(a) are ancillary to a dwelling erected on the same site
(b) have a floor area not exceeding 60m$^2$
(c) are not constructed, added to or altered so that any part is situated
  (i) in front of any part of the building line of the dwelling to which it is ancillary
  or
  (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads)
(d) in the case of a garage or carport, the garage or carport:
  (i) is set back at least 5.5m from the boundary of the primary street
  (ii) when facing a primary street or secondary street, has a total door / opening not exceeding:
    A. for dwellings of single building level - 7m in width or 50% of the site frontage, whichever is the lesser
    B. for dwellings comprising two or more building levels at the building line fronting the same public street - 7m in width
(e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless:
  (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and
  (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
(f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary
(g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure
(h) have a wall height or post height not exceeding 3m above natural ground level (and not including a gable end)
(i) have a roof height where no part of the roof is more than 5m above the natural ground level
(j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour
(k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less:
(i) a total area as determined by the following table:

| Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m$^2$) | Minimum percentage of site |
|---|---|
| <150 | 10% |
| 150-200 | 15% |
| 201-450 | 20% |
| >450 | 25% |

(ii) the amount of existing soft landscaping prior to the development occurring.

PO 10.2

Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements or result in over-development of the site.

DTS/DPF 10.2

Ancillary buildings and structures do not result in:

(a) less private open space than specified in Design in Urban Areas Table 1 - Private Open Space
(b) less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.

PO 10.3

Buildings and structures that are ancillary to an existing non-residential use do not detract from the streetscape character, appearance of buildings on the site of the development, or the amenity of neighbouring properties.

DTS/DPF 10.3

Non-residential ancillary buildings and structures satisfy (a) to (j), inclusive:

(a) are ancillary and subordinate to an existing non-residential use on the same site
(b) have a floor area not exceeding the following:

| Allotment size | Floor area |
|---|---|
| ≤500m$^2$ | 60m$^2$ |
| >500m$^2$ | 80m$^2$ |

(c) are not constructed, added to or altered so that any part is situated:
  (i) in front of any part of the building line of the main building to which it is ancillary
  or
  (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads)
(d) in the case of a garage or carport, the garage or carport:
  (i) is set back at least 5.5m from the boundary of the primary street
(e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless:
  (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary
  (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
(f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary
(g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure
(h) have a wall height (or post height) not exceeding 3m (and not including a gable end)
(i) have a roof height where no part of the roof is more than 5m above the natural ground level
(j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour.

**Table 1 - Accepted Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

| Class of Development | Accepted Development Classification Criteria |
|---|---|
| Air handling unit, air conditioning system or exhaust fan<br>Except where any of the following apply:<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The item will be installed on or within an existing building<br>2. The item being installed does not encroach on a public street or affect the ability of the building to resist the spread of fire<br>3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street. |
| Brush fence<br>Except where any of the following apply:<br>• Hazards (Flooding) Overlay<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• Ramsar Wetlands Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The fence is formed (wholly or partially) from brush<br>2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels)<br>3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved)<br>4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas. |
| Building alterations<br>Except where any of the following apply:<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The alteration does not:<br>(a) increase the floor area of the building<br>(b) exceed the existing wall height<br>(c) exceed the existing overall building height<br>(d) alter the roof profile<br>(e) alter an approved privacy screening arrangement or window treatment<br>(f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.<br>2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm. |
| Building work on railway land<br>Except where any of the following apply:<br>• Coastal Areas Overlay<br>• Hazards (Acid Sulfate Soils) Overlay<br>• Local Heritage Place Overlay<br>• Significant Landscape Protection Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. Building work is associated with a railway<br>2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017)<br>3. It is required for the conduct or maintenance of railway activities<br>4. It does not involve the clearance of native vegetation<br>5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas. |
| Carport<br>Except where any of the following apply:<br>• Future Local Road Widening Overlay<br>• Future Road Widening Overlay<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system<br>3. It is ancillary to a dwelling erected on the site<br>4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary<br>5. Total floor area - does not exceed 40m$^2$<br>6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end)<br>7. Building height - does not exceed 5m<br>8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11.5m unless:<br>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and<br>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent<br>9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street):<br>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and<br>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure<br>10. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)<br>11. The carport is located so that vehicle access:<br>(a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or<br>(b) is not obtained from a State Maintained Road, and will use a driveway that:<br>(i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing;<br>(ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;<br>(iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average<br>(iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access<br>(v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site<br>12. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour<br>13. Does not involve the clearance of native vegetation<br>14. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:<br>(a) a total area as determined by the following table:<br>**Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m$^2$)** / **Minimum percentage of site**<br><150 / 10%<br>150-200 / 15%<br>201-450 / 20%<br>>450 / 25%<br>(b) the amount of existing soft landscaping prior to the development occurring. |
| Outbuilding<br>Except where any of the following apply:<br>• Coastal Areas Overlay<br>• Future Local Road Widening Overlay<br>• Future Road Widening Overlay<br>• Hazards (Flooding) Overlay<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• Significant Landscape Protection Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system<br>3. It is detached from and ancillary to a dwelling erected on the site.<br>4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary<br>5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)<br>6. Total floor area - does not exceed 40m$^2$<br>7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)<br>8. Building height - does not exceed 5m<br>9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless:<br>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and<br>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent<br>10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):<br>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and<br>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure<br>11. If the outbuilding is a garage – door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)<br>12. If the outbuilding is a garage, it is located so that vehicle access:<br>(a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or<br>(b) is not obtained from a State Maintained Road, and will use a driveway that:<br>(i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing;<br>(ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;<br>(iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average<br>(iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access<br>(v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site<br>13. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour<br>14. Does not involve- |

| | |
|---|---|
| | (a) excavation exceeding a vertical height of 1m; or<br>(b) filling exceeding a vertical height of 1m,<br>and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m.<br>15. Does not involve the clearance of native vegetation<br>16. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas<br>17. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:<br>(a) a total area as determined by the following table:<br>**Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) ($m^2$)** / **Minimum percentage of site**<br><150 / 10%<br>150-200 / 15%<br>201-450 / 20%<br>>450 / 25%<br>(b) the amount of existing soft landscaping prior to the development occurring. |
| Partial demolition of a building or structure<br>Except where any of the following apply:<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | None |
| Private bushfire shelter<br>Except where any of the following apply:<br>• Coastal Areas Overlay<br>• Future Local Road Widening Overlay<br>• Future Road Widening Overlay<br>• Hazards (Acid Sulfate Soils) Overlay<br>• Hazards (Flooding) Overlay<br>• Local Heritage Place Overlay<br>• River Murray Flood Plain Protection Area Overlay<br>• Significant Landscape Protection Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system<br>3. Primary street setback - at least as far back as the building to which it is ancillary<br>4. Secondary street setback - at least 900mm from the boundary of the allotment<br>5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place)<br>6. Does not involve the clearance of native vegetation. |
| Shade sail<br>Except where any of the following apply:<br>• Future Local Road Widening Overlay<br>• Future Road Widening Overlay<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system<br>3. Shade sail consists of permeable material<br>4. The total area of the sail does not exceed $40m^2$<br>5. No part of the shade sail will be:<br>(a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment<br>(b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment<br>6. Primary street setback - at least as far back as the building line of the building to which it is ancillary<br>7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11.5m<br>8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary<br>9. Does not involve the clearance of native vegetation<br>10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas<br>11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:<br>(a) a total area as determined by the following table:<br>**Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) ($m^2$)** / **Minimum percentage of site**<br><150 / 10%<br>150-200 / 15%<br>201-450 / 20%<br>>450 / 25%<br>(b) the amount of existing soft landscaping prior to the development occurring. |
| Solar photovoltaic panels (roof mounted)<br>Except where any of the following apply:<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*<br>2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof<br>3. Panels and associated components do not overhang any part of the roof<br>4. Does not apply to a system with a generating capacity of more than 5MW that is to be connected to the State's power system<br>5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street. |
| Swimming pool or spa pool and associated swimming pool safety features<br>Except where any of the following apply:<br>• Future Local Road Widening Overlay<br>• Future Road Widening Overlay<br>• Hazards (Flooding) Overlay<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system<br>3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted;<br>4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature).<br>5. Primary street setback - at least as far back as the building line of the building to which it is ancillary<br>6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment:<br>(a) not less than 5m where the filtration system is located inside a solid acoustic structure; or<br>(b) not less than 12m in any other case.<br>7. Does not involve the clearance of native vegetation<br>8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas<br>9. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:<br>(a) a total area as determined by the following table:<br>**Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) ($m^2$)** / **Minimum percentage of site**<br><150 / 10%<br>150-200 / 15%<br>201-450 / 20%<br>>450 / 25%<br>(b) the amount of existing soft landscaping prior to the development occurring. |
| Verandah<br>Except where any of the following apply:<br>• Future Local Road Widening Overlay<br>• Future Road Widening Overlay<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system<br>3. It is ancillary to a dwelling erected on the site<br>4. Primary street setback - as far back as the building line of the building to which it is ancillary<br>5. Total floor area - does not exceed $40m^2$<br>6. Post height - does not exceed 3m measured from natural ground level<br>7. Building height - does not exceed 5m<br>8. Length - does not exceed 11.5m if any part of the structure abuts or is situated on a boundary of the allotment<br>9. Does not involve the clearance of native vegetation<br>10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:<br>(a) a total area as determined by the following table:<br>**Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) ($m^2$)** / **Minimum percentage of site** |

| | |
|---|---|
| | <table><tr><td><150</td><td>10%</td></tr><tr><td>150-200</td><td>15%</td></tr><tr><td>201-450</td><td>20%</td></tr><tr><td>>450</td><td>25%</td></tr></table><br>(b) the amount of existing soft landscaping prior to the development occurring. |
| Water tank (above ground)<br>Except where any of the following apply:<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• Ramsar Wetlands Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system<br>3. The tank is part of a roof drainage system<br>4. Total floor area - not exceeding 15m$^2$<br>5. The tank is located wholly above ground<br>6. Tank height - does not exceed 4m above natural ground level<br>7. Primary street setback - at least as far back as the building line of the building to which it is ancillary<br>8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour<br>9. Does not involve the clearance of native vegetation<br>10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:<br>(a) a total area as determined by the following table:<br><table><tr><th>Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m$^2$)</th><th>Minimum percentage of site</th></tr><tr><td><150</td><td>10%</td></tr><tr><td>150-200</td><td>15%</td></tr><tr><td>201-450</td><td>20%</td></tr><tr><td>>450</td><td>25%</td></tr></table><br>(b) the amount of existing soft landscaping prior to the development occurring. |
| Water tank (underground)<br>Except where any of the following apply:<br>• Coastal Areas Overlay<br>• Hazards (Acid Sulfate Soils) Overlay<br>• Ramsar Wetlands Overlay | 1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system<br>2. The tank (including any associated pump) is located wholly below the level of the ground<br>3. Does not involve the clearance of native vegetation. |

**Table 2 - Deemed-to-Satisfy Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

| Class of Development | Deemed-to-Satisfy Development Classification Criteria | | | |
|---|---|---|---|---|
| | Zone | General Development Policies | Subzone<br>(applies only in the area affected by the Subzone) | Overlay<br>(applies only in the area affected by the Overlay) |

**Table 3 - Applicable Policies for Performance Assessed Development**

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

| Class of Development | Applicable Policies | | | |
|---|---|---|---|---|
| | Zone | General Development Policies | Subzone<br>(applies only in the area affected by the Subzone) | Overlay<br>(applies only in the area affected by the Overlay) |

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Landscapes and Natural Features]
PO 4.1

Native Vegetation Overlay [Environmental Protection]
PO 1.1, PO 1.2, PO 1.4

Non-Stop Corridors Overlay [Non-Stop Corridor Overlay]
PO 1.1

Resource Extraction Protection Area Overlay [Protection of Strategic Resources]
PO 1.1

River Murray Flood Plain Protection Area Overlay [Wastewater]
PO 2.1

River Murray Flood Plain Protection Area Overlay [Built Form and Character]
PO 5.1, PO 5.3

River Murray Flood Plain Protection Area Overlay [Flood Resilience]
PO 6.1, PO 6.2, PO 6.3

River Murray Flood Plain Protection Area Overlay [Environmental Protection]
PO 7.1, PO 7.2, PO 7.3

River Murray Flood Plain Protection Area Overlay [Access]
PO 8.1, PO 8.2, PO 8.3

Scenic Quality Overlay [Land Use and Intensity]
PO 1.1

Scenic Quality Overlay [Built Form and Character]
PO 2.1

Scenic Quality Overlay [Landscaping]
PO 3.1

Scenic Quality Overlay [Earthworks]
PO 4.1

Significant Interface Management Overlay [Land Use and Intensity]
PO 1.1

Significant Landscape Protection Overlay [Land Use and Intensity]
PO 1.1

Significant Landscape Protection Overlay [Built Form and Character]
PO 2.1, PO 2.2

Significant Landscape Protection Overlay [Landscaping]
PO 3.1

Significant Landscape Protection Overlay [Earthworks]
PO 4.1

State Heritage Area Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5

State Heritage Area Overlay [Alterations and Additions]
PO 2.1, PO 2.2

State Heritage Area Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

State Heritage Area Overlay [Conservation Works]
PO 7.1

State Heritage Place Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7

State Heritage Place Overlay [Alterations and Additions]
PO 2.1, PO 2.2

State Heritage Place Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

State Heritage Place Overlay [Conservation Works]
PO 7.1

State Significant Native Vegetation Areas Overlay [Environmental Protection]
PO 1.1

Stormwater Management Overlay
PO 1.1

Traffic Generating Development Overlay [Traffic Generating Development]
PO 1.1, PO 1.2, PO 1.3

Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Urban Transport Routes Overlay [Access - On-Site Queuing]
PO 2.1

Urban Transport Routes Overlay [Access - (Location Spacing) - Existing Access Point]
PO 3.1

Urban Transport Routes Overlay [Access – Location (Spacing) – New Access Points]
PO 4.1

Urban Transport Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Urban Transport Routes Overlay [Access – Mud and Debris]
PO 6.1

Urban Transport Routes Overlay [Access - Stormwater]
PO 7.1

PO 2.1, PO 2.2, PO 2.3, PO 2.4, PO 2.5

Coastal Areas Overlay [Coast Protection Works]
PO 3.1, PO 3.2

Coastal Areas Overlay [Environment Protection]
PO 4.1, PO 4.2, PO 4.3, PO 4.4, PO 4.5, PO 4.6, PO 4.7

Coastal Areas Overlay [Access]
PO 5.1, PO 5.2, PO 5.4

Coastal Flooding Overlay
PO 1.1

Defence Aviation Area Overlay [Built Form]
PO 1.1

Design Overlay [General]
PO 1.1

Future Local Road Widening Overlay [Future Road Widening]
PO 1.1

Future Road Widening Overlay [Future Road Widening]
PO 1.1

Gas and Liquid Petroleum Pipelines Overlay [Land Use and Intensity]
PO 1.1

Gas and Liquid Petroleum Pipelines (Facilities) Overlay [Safety]
PO 1.1

Gateway Overlay [Built Form and Character]
PO 1.1, PO 1.2, PO 1.3

Gateway Overlay [Landscaping]
PO 3.1, PO 3.2, PO 3.3, PO 3.4

Hazards (Acid Sulfate Soils) Overlay [Land Use and Intensity]
PO 1.1

Hazards (Bushfire - General Risk) Overlay [Siting]
PO 1.1

Hazards (Bushfire - General Risk) Overlay [Built Form]
PO 2.1

Hazards (Bushfire - General Risk) Overlay [Habitable Buildings]
PO 3.1, PO 3.2, PO 3.3

Hazards (Bushfire - General Risk) Overlay [Vehicle Access – Roads, Driveways and Fire Tracks]
PO 5.2, PO 5.3

Hazards (Bushfire - High Risk) Overlay [Land Use]
PO 1.1

Hazards (Bushfire - High Risk) Overlay [Siting]
PO 2.1

Hazards (Bushfire - High Risk) Overlay [Built Form]
PO 3.1

Hazards (Bushfire - High Risk) Overlay [Habitable Buildings]
PO 4.1, PO 4.2, PO 4.3

Hazards (Bushfire - High Risk) Overlay [Vehicle Access – Roads, Driveways and Fire Tracks]
PO 6.2, PO 6.3

Hazards (Bushfire - Medium Risk) Overlay [Siting]
PO 1.1

Hazards (Bushfire - Medium Risk) Overlay [Built Form]
PO 2.1

Hazards (Bushfire - Medium Risk) Overlay [Habitable Buildings]
PO 3.1, PO 3.2, PO 3.3

Hazards (Bushfire - Medium Risk) Overlay [Vehicle Access - Roads, Driveways and Fire Tracks]
PO 5.2, PO 5.3

Hazards (Bushfire - Outback) Overlay [Habitable Buildings]
PO 1.1

Hazards (Bushfire - Outback) Overlay [Vehicle Access - Roads and Driveways]
PO 2.2

Infrastructure and Renewable Energy Facilities [Water Supply]
PO 11.2

Infrastructure and Renewable Energy Facilities [Wastewater Services]
PO 12.1, PO 12.2

Interface between Land Uses [General Land Use Compatibility]
PO 1.1

Interface between Land Uses [Overshadowing]
PO 3.1, PO 3.2, PO 3.3

Site Contamination
PO 1.1

Transport, Access and Parking [Vehicle Access]
PO 3.1, PO 3.5

Transport, Access and Parking [Vehicle Parking Rates]
PO 5.1

Transport, Access and Parking [Corner Cut-Offs]
PO 10.1

Hazards (Bushfire - Regional) Overlay [Siting]
PO 1.1

Hazards (Bushfire - Regional) Overlay [Built Form]
PO 2.1

Hazards (Bushfire - Regional) Overlay [Habitable Buildings]
PO 3.1, PO 3.2, PO 3.3

Hazards (Bushfire - Regional) Overlay [Vehicle Access -Roads and Driveways]
PO 5.2, PO 5.3

Hazards (Flooding) Overlay [Flood Resilience]
PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.5

Hazards (Flooding) Overlay [Environmental Protection]
PO 4.2

Hazards (Flooding) Overlay [Site Earthworks]
PO 5.1, PO 5.2

Hazards (Flooding) Overlay [Access]
PO 6.1, PO 6.2

Hazards (Flooding – General) Overlay [Flood Resilience]
PO 2.1

Hazards (Flooding - Evidence Required) Overlay [Flood Resilience]
PO 1.1

Heritage Adjacency Overlay [Built Form]
PO 1.1

Historic Area Overlay [All Development]
PO 1.1

Historic Area Overlay [Built Form]
PO 2.1, PO 2.2, PO 2.3, PO 2.4, PO 2.5

Historic Area Overlay [Context and Streetscape Amenity]
PO 6.1, PO 6.2

Historic Area Overlay [Ruins]
PO 8.1

Historic Shipwrecks Overlay [General]
PO 1.1

Interface Management Overlay [Land Use and Intensity]
PO 1.1

Key Outback and Rural Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Key Outback and Rural Routes Overlay [Access - On-Site Queuing]
PO 2.1

Key Outback and Rural Routes Overlay [Access - Location (Spacing) - Existing Access Points]
PO 3.1

Key Outback and Rural Routes Overlay [Access - Location (Spacing) - New Access Points]
PO 4.1

Key Outback and Rural Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Key Outback and Rural Routes Overlay [Access - Mud and Debris]
PO 6.1

Key Outback and Rural Routes Overlay [Access - Stormwater]
PO 7.1

Key Outback and Rural Routes Overlay [Building on Road Reserve]
PO 8.1

Key Outback and Rural Routes Overlay [Public Road Junctions]
PO 9.1

Key Railway Crossings Overlay [Access, Design and Function]
PO 1.1

Limited Dwelling Overlay
PO 1.1

Local Heritage Place Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7

Local Heritage Place Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

Local Heritage Place Overlay [Conservation Works]
PO 7.1

Major Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Major Urban Transport Routes Overlay [Access - On-Site Queuing]
PO 2.1

Major Urban Transport Routes Overlay [Access – Location (Spacing) - Existing Access Points]
PO 3.1

Major Urban Transport Routes Overlay [Access – Location (Spacing) – New Access Points]
PO 4.1

Major Urban Transport Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Major Urban Transport Routes Overlay [Access - Mud and Debris]
PO 6.1

Major Urban Transport Routes Overlay [Access - Stormwater]
PO 7.1

Major Urban Transport Routes Overlay [Building on Road Reserve]
PO 8.1

Major Urban Transport Routes Overlay [Public Road Junctions]
PO 9.1

Major Urban Transport Routes Overlay [Corner Cut-Offs]
PO 10.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Water Quality]
PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Wastewater]
PO 2.3, PO 2.4

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Landscapes and Natural Features]
PO 4.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Water Quality]
PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Wastewater]
PO 2.4, PO 2.5

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Landscapes and Natural Features]

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

| Class of Development | Exclusions |
|---|---|
| Dwelling | Any of the following:<br><br>(a) dwelling not located in the Kilkenny Subzone or within the area where the following Technical and Numeric Variations (TNVs) apply in Concept Plan 148 – Lockleys:<br>(i) Maximum Building Height (Metres) - Maximum building height is 12.5m<br>(ii) Maximum Building Height (Levels) - Maximum building height is 3 levels<br>(b) dwelling located in the Kilkenny Subzone that does not exceed the maximum building height specified in Urban Renewal Neighbourhood Zone DTS/DPF 2.1 or any relevant Concept Plan<br>(c) dwelling that:<br>(i) is located within the area where the following Technical and Numeric Variations (TNVs) apply in Concept Plan 148 – Lockleys:<br>A. Maximum Building Height (Metres) - Maximum building height is 12.5m<br>B. Maximum Building Height (Levels) - Maximum building height is 3 levels<br>and<br>(ii) does not exceed 3 building levels or 12.5m in building height. |
| Residential flat building | Any of the following:<br><br>(a) residential flat building not located in the Kilkenny Subzone or within the area where the following Technical and Numeric Variations (TNVs) apply in Concept Plan 148 – Lockleys:<br>(i) Maximum Building Height (Metres) - Maximum building height is 12.5m<br>(ii) Maximum Building Height (Levels) - Maximum building height is 3 levels<br>(b) residential flat building located in the Kilkenny Subzone that does not exceed the maximum building height specified in Urban Renewal Neighbourhood Zone DTS/DPF 2.1 or any relevant Concept Plan.<br>(c) residential flat building that:<br>(i) is located within the area where the following Technical and Numeric Variations (TNVs) apply in Concept Plan 148 – Lockleys:<br>A. Maximum Building Height (Metres) - Maximum building height is 12.5m<br>B. Maximum Building Height (Levels) - Maximum building height is 3 levels<br>and<br>(ii) does not exceed 3 building levels or 12.5m in building height. |
| Shop | Any of the following:<br><br>(a) shop with a gross leasable floor area less than 1000m$^2$ that is not within the area where the following Technical and Numeric Variations (TNVs) apply in Concept Plan 148 – Lockleys:<br>(i) Maximum Building Height (Metres) - Maximum building height is 12.5m<br>(ii) Maximum Building Height (Levels) - Maximum building height is 3 levels<br>(b) shop that is a restaurant that is not within the area where the following Technical and Numeric Variations (TNVs) apply in Concept Plan 148 – Lockleys:<br>(i) Maximum Building Height (Metres) - Maximum building height is 12.5m<br>(ii) Maximum Building Height (Levels) - Maximum building height is 3 levels<br>(c) shop that:<br>(i) is located within the area where the following Technical and Numeric Variations (TNVs) apply in Concept Plan 148 – Lockleys:<br>A. Maximum Building Height (Metres) - Maximum building height is 12.5m<br>B. Maximum Building Height (Levels) - Maximum building height is 3 levels<br>and<br>(ii) satisfies all of the following:<br>A. it does not exceed 3 building levels or 12.5m in building height<br>B. has a gross leasable floor area less than 1000m$^2$ or is a restaurant. |

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

| Class of Development<br>(Column A) | Exceptions<br>(Column B) |
|---|---|
| 1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development. | None specified. |
| 2. All development undertaken by:<br>(a) the South Australian Housing Trust either individually or jointly with other persons or bodies<br>or<br>(b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust. | Except development involving any of the following:<br><br>1. residential flat building(s) of 3 or more building levels<br>2. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)<br>3. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).<br>4. a dwelling(s) or residential flat building(s) that is situated within both the Interface Management Overlay and the Kilkenny Subzone. |
| 3. Any development involving any of the following (or of any combination of any of the following) where **not** located in the Kilkenny Subzone:<br>(a) ancillary accommodation<br>(b) co-living<br>(c) dwelling<br>(d) dwelling addition<br>(e) residential flat building<br>(f) retirement facility<br>(g) student accommodation<br>(h) supported accommodation. | Except development that:<br><br>1. exceeds the maximum building height specified in Urban Renewal Neighbourhood Zone DTS/DPF 2.1<br>or<br>2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and:<br>(a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment)<br>or<br>(b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment). |
| 4. Any development involving any of the following (or of any combination of any of the following) where located in the Kilkenny Subzone:<br>(a) ancillary accommodation<br>(b) dwelling<br>(c) dwelling addition<br>(d) residential flat building<br>(e) retirement facility<br>(f) student accommodation | Except development that:<br><br>1. exceeds the maximum building height specified in Urban Renewal Neighbourhood Zone DTS/DPF 2.1<br>or<br>2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and:<br>(a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment)<br>or |

| | |
|---|---|
| (g) supported accommodation. | (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).<br>or<br>3. involves a dwelling(s) or residential flat building(s) that is situated within both the Interface Management Overlay and the Kilkenny Subzone. |
| 5. Any development involving any of the following (or of any combination of any of the following) where located on a significant retirement facility and supported accommodation site:<br>(a) retirement facility<br>(b) supported accommodation. | Except development that:<br>1. exceeds 4 building levels or 15 m in height<br>or<br>2. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2<br>or<br>3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and:<br>(a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment)<br>or<br>(b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment). |
| 6. Alteration of or addition to any of the following (or of any combination of any of the following):<br>(a) child care facility<br>(b) community facility<br>(c) educational facility. | Except development that does not satisfy Urban Renewal Neighbourhood Zone DTS/DPF 1.6. |
| 7. Any development involving any of the following (or of any combination of any of the following):<br>(a) consulting room<br>(b) office<br>(c) shop. | Except development that:<br>1. exceeds the maximum building height specified in Urban Renewal Neighbourhood Zone DTS/DPF 2.1<br>or<br>2. does not satisfy Urban Renewal Neighbourhood Zone DTS/DPF 1.2<br>or<br>3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and:<br>(a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment)<br>or<br>(b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment). |
| 8. Any development involving any of the following (or of any combination of any of the following) where located on a significant retirement facility and supported accommodation site:<br>(a) consulting room<br>(b) office<br>(c) shop. | Except development that:<br>1. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 1.2<br>or<br>2. exceeds 4 building levels or 15 m in height<br>or<br>3. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2<br>or<br>4. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and:<br>(a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment)<br>or<br>(b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment). |
| 9. Any development involving any of the following (or of any combination of any of the following):<br>(a) air handling unit, air conditioning system or exhaust fan<br>(b) carport<br>(c) deck<br>(d) fence<br>(e) internal building works<br>(f) land division<br>(g) outbuilding<br>(h) pergola<br>(i) private bushfire shelter<br>(j) recreation area<br>(k) replacement building<br>(l) retaining wall<br>(m) shade sail<br>(n) solar photovoltaic panels (roof mounted)<br>(o) swimming pool or spa pool and associated swimming pool safety features<br>(p) temporary accommodation in an area affected by bushfire<br>(q) tree damaging activity<br>(r) verandah<br>(s) water tank. | None specified. |
| 10. Demolition. | Except any of the following:<br>1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)<br>2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building). |
| 11. Railway line. | Except where located outside of a rail corridor or rail reserve. |

**Placement of Notices - Exemptions for Performance Assessed Development**

None specified.

**Placement of Notices - Exemptions for Restricted Development**

None specified.

### Mixed Use Transition Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Development accommodating a range of business, commercial, warehousing and light industrial uses enabling the transition of the area to mixed use development, compatible with residential development. |

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Land Use | |
| PO 1.1<br>Redevelopment and transition of the area towards mixed development including, residential, supported by a mix of compatible uses including light industry, service trade, motor repair and other compatible businesses servicing the local community that do not produce objectionable emissions. | DTS/DPF 1.1<br>Development comprises one or more of the following:<br>(a) Dwelling<br>(b) Entertainment venue<br>(c) Licenced premises<br>(d) Hotel<br>(e) Consulting room<br>(f) Indoor recreation facility<br>(g) Light industry<br>(h) Motor repair station |

| | |
|---|---|
| | (i) Office<br>(j) Place of worship<br>(k) Research facility<br>(l) Retail fuel outlet<br>(m) Service trade premises<br>(n) Shop<br>(o) Store<br>(p) Tourist accommodation<br>(q) Training facility |
| PO 1.2<br>Non-residential development involving the expansion, alteration or replacement of an existing industry or activity adjacent to a sensitive receiver or zone, and where current adverse impacts exist, only occur where adverse impacts are minimised in accordance the with *Environment Protection Act 1993* requirements. | DTS/DPF 1.2<br>None are applicable. |
| PO 1.3<br>Residential development and other sensitive development only occur where adverse impacts from nearby industries and activities are minimised in accordance with the *Environment Protection Act 1993* requirements. | DTS/DPF 1.3<br>None are applicable. |
| PO 1.4<br>Shops, other than bulky goods outlets, provide a local convenience service to meet the day to day needs of the local community and surrounding businesses as well as support the sale of products made on-site as a supplement to a business activity to enhance local job opportunities. | DTS/DPF 1.4<br>Shop comprising any of the following:<br>(a) shop with a gross leasable floor area up to 500m$^2$<br>(b) shop in the form of a bulky goods outlet<br>(c) shop that is ancillary to and located on the same allotment as a light industry. |
| Land Division | |
| PO 2.1<br>Sensitive uses and sensitive receivers are:<br>(a) located away from areas which may be subject to unacceptable noise, dust, odour or other emissions<br>or<br>(b) able to adequately mitigate impacts of noise, dust, odour or other emissions through design techniques such as:<br>(i) locating residential accommodation, the greatest distance practicable from the industry<br>(ii) locating buildings containing less non-sensitive receivers between the industry and sensitive receivers<br>(iii) placing rooms more sensitive to air, noise and odour impacts (e.g. bedrooms) further away from the industry<br>or<br>(iv) providing private or common open space adjacent a building facade that shields the space from impacts of the industry. | DTS/DPF 2.1<br>Development does not incorporate any of the following (including alterations and additions which increase the floor area of buildings accommodating the following by 10% or more):<br>(a) land division creating one or more additional allotments for residential purposes<br>(b) dwelling<br>(c) residential flat building<br>(d) tourist accommodation<br>(e) boarding home<br>(f) dormitory style accommodation<br>(g) Workers' accommodation<br>(h) student accommodation<br>(i) child care facility<br>(j) educational facility<br>(k) retirement village<br>(l) supported accommodation<br>(m) residential park<br>(n) hospital. |

**Landscape Transition Subzone**

Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Development in an open landscaped setting. |

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Built Form and Siting | |
| PO 1.1<br>Building footprints consistent with the character and pattern of the prevailing open landscaped character of the neighbourhood. | DTS/DPF 1.1<br>The development does not result in a site coverage exceeding 50%. |
| PO 1.2<br>Development incorporates deep soil zones for the retention or provision of large trees to contribute to a well landscaped setting. | DTS/DPF 1.2<br>At least 15% of a site incorporates deep soil zone areas. |
| Site Dimensions and Land Division | |
| PO 2.1<br>Allotments/sites created for residential purposes primarily accommodating medium density residential development, with lower density at the interface with a different neighbourhood zone. | DTS/DPF 2.1<br>Allotments/sites for residential purposes accord with the following:<br>(a) Site areas (or allotment areas in the case of land division) are not less than:<br>(i) 180m2, or 100m2 on an allotment >2000m2, for a dwelling<br>(ii) 120m2, or 80m2 on an allotment >2000m2, for each dwelling in a residential flat building<br>(iii) 300m2 for a dwelling (including in a residential flat building) in areas where the Maximum Building Height (Levels) Technical and Numeric Variation specifies a maximum building height of 2 levels<br>and<br>(b) Site frontages (or allotment frontage in the case of land division) are not less than):<br>(i) 8m for a dwelling<br>(ii) 20m for a residential flat building |

**Kilkenny Subzone**

Assessment provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Sensitive receivers coexist with and do not undermine the viability of existing state-significant employment generating land uses in the adjacent Strategic Employment Zone. |

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| PO 1.1<br>Sensitive receivers are designed and sited to be shielded from noise emitted by proximate lawfully existing employment generating land uses. | DTS/DPF 1.1<br>None are applicable. |
| PO 1.2<br>Development incorporating a sensitive receiver locates private open space (including ground level courtyards and balconies), common open space and outdoor play areas within education establishments and pre-schools away from noise emitted by proximate lawfully existing employment generating land uses. | DTS/DPF 1.2<br>None are applicable. |

**Waterfront Neighbourhood Zone**

**Assessment Provisions (AP)**

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | A diverse range of housing which takes advantage of waterfront locations. Development enhances public access to waterfront areas. Dual aspect allotments incorporate designs to enhance the streetscape. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Land Use and Intensity | |
| PO 1.1<br><br>Residential development and supporting services and facilities make waterfront neighbourhoods a convenient place to live. | DTS/DPF 1.1<br><br>Development comprises one or more of the following:<br><br>(a) Ancillary accommodation<br>(b) Child care facility<br>(c) Co-living<br>(d) Community facility<br>(e) Dwelling<br>(f) Educational facility<br>(g) Jetty, pontoon or boat berth (or any combination thereof)<br>(h) Marina<br>(i) Office<br>(j) Place of Worship<br>(k) Recreation area<br>(l) Residential flat building<br>(m) Retirement facility<br>(n) Shop<br>(o) Supported accommodation<br>(p) Tourist accommodation |
| PO 1.2<br><br>Marinas include constructed waterways, mooring facilities, pontoons and small jetties to accommodate recreational activities and mooring of small boats associated with residential allotments. | DTS/DPF 1.2<br><br>None are applicable. |
| PO 1.3<br><br>Non-residential development located and designed to improve community accessibility to services, primarily in the form of:<br><br>(a) small-scale commercial uses such as offices, consulting rooms and shops<br>(b) community services such as educational facilities, community centres, places of worship, child care facilities and other health and welfare services<br>(c) services and facilities ancillary to the function or operation of supported accommodation or retirement facilities<br>(d) open space and recreation facilities. | DTS/DPF 1.3<br><br>None are applicable. |
| PO 1.4<br><br>Non-residential development is compatible with the waterfront character and amenity of a neighbourhood. | DTS/DPF 1.4<br><br>None are applicable. |
| PO 1.5<br><br>Commercial activities improve community access to services and activate waterfront areas are of a scale and type to maintain residential amenity. | DTS/DPF 1.5<br><br>A shop, consulting room or office (or any combination thereof) satisfies any one of the following:<br><br>(a) it is located on the same allotment and in conjunction with a dwelling, and all the following are satisfied:<br>(i) does not exceed 50m$^2$ gross leasable floor area<br>(ii) does not involve the display of goods in a window or about the dwelling or its curtilage<br>(b) it reinstates a former shop, consulting room or office in an existing building (or portion of a building) and at least one of the following is satisfied:<br>(i) the building is a State or Local Heritage Place<br>(ii) is in conjunction with a dwelling and there is no increase in the gross leasable floor area previously used for non-residential purposes<br>(c) it is located more than 500m from an Activity Centre and satisfies one of the following:<br>(i) does not exceed 100m$^2$ gross leasable floor area (individually or combined, in a single building) where the site does not have a frontage to a State Maintained Road<br>(ii) does not exceed 200m$^2$ gross leasable floor area (individually or combined, in a single building) where the site has a frontage to a State Maintained Road<br>(d) the development site abuts an Activity Centre and all the following are satisfied:<br>(i) it does not exceed 200m$^2$ gross leasable floor area (in a single building)<br>(ii) the proposed development will not result in the combined gross leasable floor area of all buildings used as a shop, office or consulting room (existing and proposed) or an combination thereof abutting the Activity Centre in this zone exceeding the lesser of the following:<br>A. 50% of the gross leasable floor area within the Activity Centre<br>B. 1000m$^2$.<br>(e) the development is located within the ground level of a mixed use building with frontage to a waterfront or coastal reserve and does not exceed 250m$^2$ gross leasable floor area. |
| PO 1.6<br><br>Expansion of existing community services such as educational facilities, community facilities and child care facilities in a manner which complements the scale of development envisaged by the desired outcome for the neighbourhood. | DTS/DPF 1.6<br><br>Alteration of or addition to existing educational facilities, community facilities or child care facilities satisfy all of the following:<br><br>(a) set back at least 3m from any boundary shared with a residential land use<br>(b) building height not exceeding 1 building level<br>(c) the total floor area of the building not exceeding 150% of the total floor area prior to the addition/alteration<br>(d) off-street vehicular parking exists or will be provided in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number. |
| Site Dimensions and Land Division | |
| PO 2.1<br><br>Allotments/sites created for residential purposes are of suitable size and dimension to accommodate the anticipated dwelling form and remain compatible with the pattern of development in a waterfront neighbourhood. | DTS/DPF 2.1<br><br>Development will not result in more than 1 dwelling on an existing allotment<br><br>or<br><br>Allotments/sites for residential purposes accord with the following:<br><br>(a) site areas (or allotment areas in the case of land division) are not less than the following (average site area per dwelling, including common areas, applies for group dwellings or dwellings within a residential flat building):<br><br>**Minimum Site Area**<br>Minimum site area for a detached dwelling is 250 sqm; semi-detached dwelling is 250 sqm; row dwelling is 200 sqm; group dwelling is 200 sqm; residential flat building is 200 sqm<br>Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 200 sqm; row dwelling is 180 sqm; group dwelling is 200 sqm; residential flat building is 150 sqm<br>Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 220 sqm; row dwelling is 180 sqm; group dwelling is 275 sqm; residential flat building is 200 sqm<br>Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 250 sqm; row dwelling is 200 sqm; group dwelling is 200 sqm; residential flat building is 200 sqm<br>Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 300 sqm; row dwelling is 200 sqm; group dwelling is 300 sqm<br>Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 300 sqm; row dwelling is 300 sqm; group dwelling is 300 sqm; residential flat building is 300 sqm<br>Minimum site area for a detached dwelling is 350 sqm; semi-detached dwelling is 250 sqm; row dwelling is 180 sqm; group dwelling is 250 sqm; residential flat building is 180 sqm<br>Minimum site area for a detached dwelling is 350 sqm; semi-detached dwelling is 350 sqm; row dwelling is 350 sqm; group dwelling is 350 sqm; residential flat building is 350 sqm<br>Minimum site area for a detached dwelling is 390 sqm; semi-detached dwelling is 270 sqm; row dwelling is 200 sqm; group dwelling is 275 sqm; residential flat building is 250 sqm<br>Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 350 sqm; row dwelling is 300 sqm; group dwelling is 400 sqm; residential flat building is 300 sqm<br>Minimum site area is 2,000 sqm<br>Minimum site area is 2 ha<br>Minimum site area is 7,500 sqm<br><br>(b) site frontages (or allotment frontages in the case of land division) are not less than:<br><br>**Minimum Frontage**<br>Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 10m; row dwelling is 10m; group dwelling is 18m; residential flat building is 18m<br>Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 9m; row dwelling is 7m; group dwelling is 18m; residential flat building is 18m<br>Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 9m; row dwelling is 8m; group dwelling is 20m; residential flat building is 20m<br>Minimum frontage for a detached dwelling is 4m; semi-detached dwelling is 4m; row dwelling is 4m; group dwelling is 4m; residential flat building is 6m<br>Minimum frontage for a detached dwelling is 5m; semi-detached dwelling is 5m; row dwelling is 5m; group dwelling is 5m; residential flat building is 5m |

| | |
|---|---|
| | **Minimum Frontage**<br>Minimum frontage for a detached dwelling is 8m; semi-detached dwelling is 8m; row dwelling is 7m; group dwelling is 16m; residential flat building is 16m<br>Minimum frontage for a detached dwelling is 8m; semi-detached dwelling is 8m; row dwelling is 8m; group dwelling is 16m; residential flat building is 16m<br>Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 8m; row dwelling is 7m; group dwelling is 15m; residential flat building is 15m<br>Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 9m; row dwelling is 7m; group dwelling is 15m<br>Minimum frontage is 25m<br><br>In relation to DTS/DPF 2.1, in instances where:<br>(c) more than one value is returned in the same field, refer to the *Minimum Frontage Technical and Numeric Variation layer* or *Minimum Site Area Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development<br>(d) no value is returned in (a) or (b) (i.e. there is a blank field or relevant dwelling type is not listed), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy. |
| PO 2.2<br><br>Development creating new allotments/sites in conjunction with retention of an existing dwelling ensures the site of the existing dwelling remains fit for purpose. | DTS/DPF 2.2<br><br>Where the site of a dwelling does not comprise an entire allotment:<br>(a) the balance of the allotment accords with site area and frontage requirements specified in DTS/DPF 2.1 and<br>(b) if there is an existing dwelling on the allotment that will remain on the allotment after completion of the development, it will not contravene:<br>(i) Private open space requirements specified in Design in Urban Areas Table 1 - Private Open Space<br>(ii) Car parking requirements specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number. |
| Site Coverage | |
| PO 3.1<br><br>Building footprints consistent with the character of a waterfront neighbourhood and limited to:<br>(a) allow sufficient space around buildings to limit visual impact<br>(b) provide an attractive outlook<br>(c) provide access to light and ventilation<br>(d) on sites with a dual frontage, to maximise use of available land. | DTS/DPF 3.1<br><br>The development does not result in site coverage exceeding:<br>(a) on sites 300m$^2$ or less and with a dual frontage to the waterfront and a public street, 80%.<br>(b) in all other cases, 60%. |
| Building Height | |
| PO 4.1<br><br>Building height is consistent with the form expressed in any relevant Maximum Building Height Levels Technical and Numeric Variation and Maximum Building Height Metres Technical and Numeric Variation, and is otherwise generally low rise, or complements the height of nearby buildings. | DTS/DPF 4.1<br><br>Building height (excluding garages, carports and outbuildings) is no greater than:<br>(a) the following:<br><br>**Maximum Building Height (Metres)**<br>Maximum building height is 8m<br>Maximum building height is 8.5m<br>Maximum building height is 9m<br>Maximum building height is 12m<br>Maximum building height is 10.5m<br>**Maximum Building Height (Levels)**<br>Maximum building height is 2 levels<br>Maximum building height is 3 levels<br><br>(b) in all other cases (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)) - 2 building levels up to a height of 9m.<br><br>In relation to DTS/DPF 4.1, in instances where:<br>(c) more than one value is returned in the same field, refer to the *Maximum Building Height (Levels) Technical and Numeric Variation layer and Maximum Building Height (Metres) Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development<br>(d) only one value is returned for DTS/DPF 4.1(a) (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other. |
| Primary Street Setback | |
| PO 5.1<br><br>Buildings are setback from primary street boundaries to contribute to the existing/emerging pattern of street setbacks in the streetscape and the waterfront environment. | DTS/DPF 5.1<br><br>Buildings setback from the primary street boundary in accordance with the following table:<br><br>**Development Context** / **Minimum setback**<br>There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building. — The average setback of the existing buildings.<br>There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site. — The setback of the existing building.<br>There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site. — (a) Where the existing building shares the same primary street frontage – the setback of the existing building; (b) Where the existing building has a different primary street frontage - 5m<br>There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building. — 5m<br><br>For the purposes of **DTS/DPF 5.1:**<br>(a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback<br>(b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table |
| Secondary Street Setback | |
| PO 6.1<br><br>Buildings are set back from secondary street boundaries to achieve separation between building walls and public streets and contribute to a suburban streetscape character. | DTS/DPF 6.1<br><br>Building walls are set back from the boundary of the allotment with a secondary street frontage at least:<br>(a) at least 900mm<br>or<br>(b) if a building (except for ancillary buildings and structures) on any adjoining allotment is closer to the secondary street than 900mm, at least the distance of that building from the boundary with the secondary street.' |
| Boundary Walls | |
| PO 7.1<br><br>Walls on boundaries are limited in height and length to manage visual and overshadowing impacts on adjoining properties. | DTS/DPF 7.1<br><br>Except where the building is a dwelling and is located on a central site within a row dwelling or terrace arrangement, side boundary walls occur only on one side boundary and satisfy (a) or (b) below:<br>(a) side boundary walls adjoin or abut a boundary wall of a building on adjoining land for the same, or lesser length and height<br>(b) side boundary walls do not:<br>(i) exceed 3m in wall height<br>(ii) exceed 11.5m in length<br>(iii) when combined with other walls on the boundary of the subject development site, exceed a maximum 45% of the length of the boundary<br>(iv) encroach within 3 metres of any other existing or proposed boundary walls on the subject land. |
| PO 7.2<br><br>Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings consistent with a suburban streetscape character. | DTS/DPF 7.2<br><br>Dwelling walls in a semi-detached, row or terrace arrangement are setback at least 900mm from side boundaries shared with allotments outside the development site. |
| Side boundary setback | |
| PO 8.1 | DTS/DPF 8.1 |

| | |
|---|---|
| Building walls are set back from side boundaries to provide:<br><br>(a) separation between buildings in a way that contributes to a suburban character and<br>(b) access to natural light and ventilation for neighbours. | Other than walls located on a side boundary, building walls are set back from side boundaries in accordance with the following:<br><br>(a) where the wall height does not exceed 3m - at least 900mm<br>(b) for a wall that is not south facing and the wall height exceeds 3m - at least 900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings<br>(c) for a wall that is south facing and the wall height exceeds 3m - at least 1.9m from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings. |
| Rear boundary setback | |
| PO 9.1<br>Building walls (except for ancillary buildings and structures) are set back from rear boundaries to provide:<br><br>(a) separation between buildings in a way that contributes to a suburban character<br>(b) access to natural light and ventilation for neighbours<br>(c) private open space<br>(d) space for landscaping and vegetation<br>(e) a consistent character when viewed from a waterfront. | DTS/DPF 9.1<br>Building walls (except for ancillary buildings and structures) are set back from the rear boundary at least:<br><br>(a) where the rear boundary fronts a waterfront, no less than the average rear setback of any existing building (except for ancillary buildings and structures) on adjoining allotments.<br>(b) where the rear boundary adjoins a laneway - 0m<br>(c) In all other cases:<br>(i) if the size of the site is less than 301 square metres—<br>A. 3m in relation to the ground floor of the building<br>B. 5m in relation to any other building level of the building<br>(ii) if the size of the site is 301 square metres or more—<br>A. 4m in relation to the ground floor of the building<br>B. 6m in relation to any other building level of the building. |
| Concept Plans | |
| PO 10.1<br>Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure. | DTS/DPF 10.1<br>The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:<br>**Description**<br>Concept Plan 141 - West Lakes<br><br>In relation to DTS/DPF 10.1, in instances where:<br><br>(a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.<br>(b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 10.1 is met. |
| Built form and character | |
| PO 11.1<br>Dwellings on sites with frontages to both a public street and a waterfront designed to address both frontages. | DTS/DPF 11.1<br>Development is not located on a site/allotment with frontage to a waterfront. |
| PO 11.2<br>Service areas associated with dwellings such as open storage and clothes drying screened from public view. | DTS/DPF 11.2<br>None are applicable. |
| PO 11.3<br>Development set back from waterfronts to establish a consistent character that includes soft landscaping along coastal/riverine frontages. | DTS/DPF 11.3<br>None are applicable. |
| Ancillary buildings and structures | |
| PO 12.1<br>Outbuildings designed and sited to mitigate their visibility from the waterfront. | DTS/DPF 12.1<br>Outbuildings are not located between the main building and waterfront boundary on a site/allotment with frontage to a waterfront. |
| PO 12.2<br>Residential ancillary buildings and structures are sited and designed to not detract from the streetscape or appearance of buildings on the site or neighbouring properties. | DTS/DPF 12.2<br>Ancillary buildings satisfy (a) to (k), inclusive:<br><br>(a) are ancillary to a dwelling erected on the same site<br>(b) have a floor area not exceeding 60m$^2$<br>(c) are not constructed, added to or altered so that any part is situated:<br>(i) in front of any part of the building line of the dwelling to which it is ancillary<br>or<br>(ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads)<br>(d) in the case of a garage or carport, the garage or carport:<br>(i) is set back at least 5.5m from the boundary of the primary street<br>(ii) when facing a primary street or secondary street, has a total door / opening not exceeding:<br>A. for dwellings of single building level - 7m in width or 50% of the site frontage, whichever is the lesser<br>B. for dwellings comprising two or more building levels at the building line fronting the same public street - 7m in width<br>(e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless:<br>(i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and<br>(ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent<br>(f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary<br>(g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure<br>(h) have a wall height or post height not exceeding 3m above natural ground level (and not including a gable end)<br>(i) have a roof height where no part of the roof is more than 5m above the natural ground level<br>(j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour<br>(k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less:<br>(i) a total area as determined by the following table:<br>**Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m$^2$)** / **Minimum percentage of site**<br><1510%<br>150-20015%<br>201-45020%<br>>45025%<br><br>(ii) the amount of existing soft landscaping prior to the development occurring. |
| PO 12.3<br>Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements and do not result in over-development of the site. | DTS/DPF 12.3<br>Ancillary buildings and structures do not result in:<br><br>(a) less private open space than specified in Design Table 1 - Private Open Space<br>(b) less car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number. |
| PO 12.4<br>Buildings and structures that are ancillary to an existing non-residential use do not detract from the streetscape character, appearance of buildings on the site of the development, or the amenity of neighbouring properties. | DTS/DPF 12.4<br>Non-residential ancillary buildings and structures satisfy (a) to (j), inclusive:<br><br>(a) are ancillary and subordinate to an existing non-residential use on the same site<br>(b) have a floor area not exceeding the following:<br>Allotment size / Floor area<br>≤500m$^2$ / 60m$^2$<br>>500m$^2$ / 80m$^2$<br>(c) are not constructed, added to or altered so that any part is situated:<br>(i) in front of any part of the building line of the main building to which it is ancillary<br>or<br>(ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads)<br>(d) in the case of a garage or carport, the garage or carport:<br>(i) is set back at least 5.5m from the boundary of the primary street<br>(e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless:<br>(i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary<br>(ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent<br>(f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary |

| | |
|---|---|
| | (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure<br>(h) have a wall height (or post height) not exceeding 3m (and not including a gable end)<br>(i) have a roof height where no part of the roof is more than 5m above the natural ground level<br>(j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour. |
| Advertisements | |
| PO 13.1<br>Advertisements identify the associated business activity, and do not detract from the residential character of the locality. | DTS/DPF 13.1<br>Advertisements relating to a lawful business activity associated with a residential use do not exceed 0.3m2 and mounted flush with a wall or fence. |

**Table 1 - Accepted Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

| Class of Development | Accepted Development Classification Criteria |
|---|---|
| Air handling unit, air conditioning system or exhaust fan<br>Except where any of the following apply:<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The item will be installed on or within an existing dwelling.<br>2. The item being installed does not encroach on a public street.<br>3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street. |
| Brush fence<br>Except where any of the following apply:<br>• Hazards (Flooding) Overlay<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• Ramsar Wetlands Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The fence is formed (wholly or partially) from brush<br>2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels)<br>3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved)<br>4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas. |
| Building alterations<br>Except where any of the following apply:<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The alteration does not:<br>(a) increase the floor area of the building<br>(b) exceed the existing wall height<br>(c) exceed the existing overall building height<br>(d) alter the roof profile<br>(e) alter an approved privacy screening arrangement or window treatment<br>(f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.<br>2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm. |
| Building work on railway land<br>Except where any of the following apply:<br>• Coastal Areas Overlay<br>• Hazards (Acid Sulfate Soils) Overlay<br>• Local Heritage Place Overlay<br>• Significant Landscape Protection Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. Building work is associated with a railway<br>2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017)<br>3. It is required for the conduct or maintenance of railway activities<br>4. It does not involve the clearance of native vegetation<br>5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas. |
| Carport<br>Except where any of the following apply:<br>• Future Local Road Widening Overlay<br>• Future Road Widening Overlay<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system<br>3. It is ancillary to a dwelling erected on the site<br>4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary<br>5. Total floor area - does not exceed 40m$^2$<br>6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end)<br>7. Building height - does not exceed 5m<br>8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11.5m unless:<br>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and<br>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent<br>9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street):<br>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and<br>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure<br>10. Site coverage does not exceed:<br>(a) on sites 300m2 or less and with a dual frontage to the waterfront and a public street, 80%<br>(b) in all other cases, 60%.<br>11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)<br>12. The carport is located so that vehicle access:<br>(a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or<br>(b) is not obtained from a State Maintained Road, and will use a driveway that:<br>(i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing;<br>(ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;<br>(iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average<br>(iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access<br>(v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site<br>13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour<br>14. Does not involve the clearance of native vegetation<br>15. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:<br>(a) a total area as determined by the following table:<br>**Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m$^2$)** / **Minimum percentage of site**<br><150 / 10%<br>150-200 / 15%<br>201-450 / 20%<br>>450 / 25%<br>(b) the amount of existing soft landscaping prior to the development occurring. |
| Outbuilding<br>Except where any of the following apply:<br>• Coastal Areas Overlay<br>• Future Local Road Widening Overlay<br>• Future Road Widening Overlay<br>• Hazards (Flooding) Overlay<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• Significant Landscape Protection Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system<br>3. It is detached from and ancillary to a dwelling erected on the site.<br>4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary<br>5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)<br>6. Total floor area - does not exceed 40m$^2$<br>7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)<br>8. Building height - does not exceed 5m<br>9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless:<br>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and<br>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent<br>10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):<br>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and<br>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure<br>11. Site coverage does not exceed:<br>(a) on sites 300m2 or less and with a dual frontage to the waterfront and a public street, 80%.<br>(b) in all other cases, 60%. |

| | |
|---|---|
| | 12. If the outbuilding is a garage – door opening for vehicle access facing a street frontage – does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)<br>13. If the outbuilding is a garage, it is located so that vehicle access:<br>(a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or<br>(b) is not obtained from a State maintained Road, and will use a driveway that:<br>(i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing;<br>(ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;<br>(iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average<br>(iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access<br>(v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site<br>14. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour<br>15. Does not involve-<br>(a) excavation exceeding a vertical height of 1m; or<br>(b) filling exceeding a vertical height of 1m,<br>and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m.<br>16. Does not involve the clearance of native vegetation<br>17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas<br>18. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:<br>(a) a total area as determined by the following table:<br>**Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) ($m^2$)** / **Minimum percentage of site**<br><150 / 10%<br>150-200 / 15%<br>201-450 / 20%<br>>450 / 25%<br>(b) the amount of existing soft landscaping prior to the development occurring. |
| Partial demolition of a building or structure<br>Except where any of the following apply:<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | None |
| Private bushfire shelter<br>Except where any of the following apply:<br>• Coastal Areas Overlay<br>• Future Local Road Widening Overlay<br>• Future Road Widening Overlay<br>• Hazards (Acid Sulfate Soils) Overlay<br>• Hazards (Flooding) Overlay<br>• Local Heritage Place Overlay<br>• River Murray Flood Plain Protection Area Overlay<br>• Significant Landscape Protection Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system<br>3. Primary street setback - at least as far back as the building to which it is ancillary<br>4. Secondary street setback - at least 900mm from the boundary of the allotment<br>5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place)<br>6. Does not involve the clearance of native vegetation. |
| Shade sail<br>Except where any of the following apply:<br>• Future Local Road Widening Overlay<br>• Future Road Widening Overlay<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• Ramsar Wetlands Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system<br>3. Shade sail consists of permeable material<br>4. The total area of the sail - does not exceed $40m^2$<br>5. No part of the shade sail will be:<br>(a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment<br>(b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment<br>6. Primary street setback - at least as far back as the building line of the building to which it is ancillary<br>7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11.5m<br>8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary<br>9. Does not involve the clearance of native vegetation<br>10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas<br>11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:<br>(a) a total area as determined by the following table:<br>**Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) ($m^2$)** / **Minimum percentage of site**<br><150 / 10%<br>150-200 / 15%<br>201-450 / 20%<br>>450 / 25%<br>(b) the amount of existing soft landscaping prior to the development occurring. |
| Solar photovoltaic panels (roof mounted)<br>Except where any of the following apply:<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*<br>2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof<br>3. Panels and associated components do not overhang any part of the roof<br>4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system<br>5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street. |
| Swimming pool or spa pool and associated swimming pool safety features<br>Except where any of the following apply:<br>• Future Local Road Widening Overlay<br>• Future Road Widening Overlay<br>• Hazards (Flooding) Overlay<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system<br>3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted<br>4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature).<br>5. Primary street setback - at least as far back as the building line of the building to which it is ancillary<br>6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment:<br>(a) not less than 5m where the filtration system is located inside a solid acoustic structure; or<br>(b) not less than 12m in any other case.<br>7. Does not involve the clearance of native vegetation<br>8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas<br>9. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:<br>(a) a total area as determined by the following table:<br>**Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) ($m^2$)** / **Minimum percentage of site**<br><150 / 10%<br>150-200 / 15%<br>201-450 / 20%<br>>450 / 25% |

| | |
|---|---|
| | (b) the amount of existing soft landscaping prior to the development occurring. |
| Verandah<br>Except where any of the following apply:<br>• Future Local Road Widening Overlay<br>• Future Road Widening Overlay<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system<br>3. It is ancillary to a dwelling erected on the site<br>4. Primary street setback - as far back as the building line of the building to which it is ancillary<br>5. Total floor area - does not exceed 40m$^2$<br>6. Post height - does not exceed 3m measured from natural ground level<br>7. Building height - does not exceed 5m<br>8. Length - does not exceed 11.5m if any part of the structure abuts or is situated on a boundary of the allotment<br>9. Site coverage does not exceed:<br>(a) on sites 300m2 or less and with a dual frontage to the waterfront and a public street, 80%<br>(b) in all other cases, 60%.<br>10. Does not involve the clearance of native vegetation<br>11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:<br>(a) a total area as determined by the following table:<br>**Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m$^2$)** / **Minimum percentage of site**<br><150 / 10%<br>150-200 / 15%<br>201-450 / 20%<br>>450 / 25%<br>(b) the amount of existing soft landscaping prior to the development occurring. |
| Water tank (above ground)<br>Except where any of the following apply:<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• Ramsar Wetlands Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system<br>3. The tank is part of a roof drainage system<br>4. Total floor area - not exceeding 15m$^2$<br>5. The tank is located wholly above ground<br>6. Tank height - does not exceed 4m above natural ground level<br>7. Primary street setback - at least as far back as the building line of the building to which it is ancillary<br>8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour<br>9. Does not involve the clearance of native vegetation<br>10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:<br>(a) a total area as determined by the following table:<br>**Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m$^2$)** / **Minimum percentage of site**<br><150 / 10%<br>150-200 / 15%<br>201-450 / 20%<br>>450 / 25%<br>(b) the amount of existing soft landscaping prior to the development occurring. |
| Water tank (underground)<br>Except where any of the following apply:<br>• Coastal Areas Overlay<br>• Hazards (Acid Sulfate Soils) Overlay<br>• Ramsar Wetlands Overlay | 1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system<br>2. The tank (including any associated pump) is located wholly below the level of the ground<br>3. Does not involve the clearance of native vegetation. |

**Table 2 - Deemed-to-Satisfy Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

| Class of Development | Deemed-to-Satisfy Development Classification Criteria | | | |
|---|---|---|---|---|
| | Zone | General Development Policies | Subzone<br>(applies only in the area affected by the Subzone) | Overlay<br>(applies only in the area affected by the Overlay) |

**Table 3 - Applicable Policies for Performance Assessed Development**

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

| Class of Development | Applicable Policies | | | |
|---|---|---|---|---|
| | Zone | General Development Policies | Subzone<br>(applies only in the area affected by the Subzone) | Overlay<br>(applies only in the area affected by the Overlay) |
| Ancillary accommodation | Land Use and Intensity<br>PO 1.1<br><br>Site Coverage<br>PO 3.1<br><br>Built form and character<br>PO 11.1, PO 11.2, PO 11.3<br><br>Ancillary buildings and structures<br>PO 12.1 | Clearance from Overhead Powerlines<br>PO 1.1<br><br>Design in Urban Areas [All Development [Earthworks and sloping land]]<br>PO 8.1<br><br>Design in Urban Areas [All residential development and non-residential development [Ancillary Development]]<br>PO 19.2, PO 19.4<br><br>Infrastructure and Renewable Energy Facilities [Wastewater Services]<br>PO 12.1, PO 12.2<br><br>Transport, Access and Parking [Corner Cut-Offs]<br>PO 10.1 | None | Aircraft Noise Exposure Overlay [Land Use and Intensity]<br>PO 1.1<br><br>Aircraft Noise Exposure Overlay [Built Form]<br>PO 2.1<br><br>Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form]<br>PO 1.1<br><br>Airport Building Heights (Regulated) Overlay [Built Form]<br>PO 1.1<br><br>Building Near Airfields Overlay<br>PO 1.3<br><br>Character Area Overlay [All Development]<br>PO 1.1<br><br>Character Area Overlay [Built Form]<br>PO 2.1, PO 2.2, PO 2.3, PO 2.4, PO 2.5<br><br>Character Area Overlay [Ancillary Development]<br>PO 4.1, PO 4.2<br><br>Character Area Overlay [Context and Streetscape Amenity]<br>PO 6.1, PO 6.2<br><br>Character Preservation District Overlay [Built Form and Character]<br>PO 2.1, PO 2.2, PO 2.3<br><br>Character Preservation District Overlay [Built Form and Character in the Rural Area]<br>PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.5, PO 3.6<br><br>Character Preservation District Overlay [Earthworks]<br>PO 4.1<br><br>Coastal Areas Overlay [Hazard Risk Minimisation]<br>PO 2.1, PO 2.2, PO 2.3, PO 2.4, PO 2.5<br><br>Coastal Areas Overlay [Coast Protection Works]<br>PO 3.1, PO 3.2<br><br>Coastal Areas Overlay [Environment Protection]<br>PO 4.1, PO 4.2, PO 4.3, PO 4.4, PO 4.5, PO 4.6, PO 4.7<br><br>Coastal Areas Overlay [Access]<br>PO 5.1, PO 5.2, PO 5.4<br><br>Defence Aviation Area Overlay [Built Form]<br>PO 1.1<br><br>Future Local Road Widening Overlay [Future Road Widening]<br>PO 1.1<br><br>Future Road Widening Overlay [Future Road Widening]<br>PO 1.1<br><br>Gateway Overlay [Built Form and Character]<br>PO 1.1, PO 1.2<br><br>Gateway Overlay [Landscape Amenity]<br>PO 2.1<br><br>Gateway Overlay [Landscaping]<br>PO 3.1, PO 3.2, PO 3.3, PO 3.4<br><br>Hazards (Acid Sulfate Soils) Overlay [Land Use and Intensity]<br>PO 1.1<br><br>Hazards (Bushfire - General Risk) Overlay [Siting]<br>PO 1.1<br><br>Hazards (Bushfire - General Risk) Overlay [Built Form]<br>PO 2.1, PO 2.2<br><br>Hazards (Bushfire - General Risk) Overlay [Habitable Buildings]<br>PO 3.1, PO 3.2, PO 3.3<br><br>Hazards (Bushfire - General Risk) Overlay [Vehicle Access – Roads, Driveways and Fire Tracks]<br>PO 5.1, PO 5.2, PO 5.3<br><br>Hazards (Bushfire - High Risk) Overlay [Land Use]<br>PO 1.1<br><br>Hazards (Bushfire - High Risk) Overlay [Siting]<br>PO 2.1<br><br>Hazards (Bushfire - High Risk) Overlay [Built Form]<br>PO 3.1, PO 3.2<br><br>Hazards (Bushfire - High Risk) Overlay [Habitable Buildings]<br>PO 4.1, PO 4.2, PO 4.3<br><br>Hazards (Bushfire - High Risk) Overlay [Vehicle Access – Roads, Driveways and Fire Tracks]<br>PO 6.1, PO 6.2, PO 6.3<br><br>Hazards (Bushfire - Medium Risk) Overlay [Siting]<br>PO 1.1<br><br>Hazards (Bushfire - Medium Risk) Overlay [Built Form]<br>PO 2.1, PO 2.2<br><br>Hazards (Bushfire - Medium Risk) Overlay [Habitable Buildings]<br>PO 3.1, PO 3.2, PO 3.3<br><br>Hazards (Bushfire - Medium Risk) Overlay [Vehicle Access - Roads, Driveways and Fire Tracks]<br>PO 5.1, PO 5.2, PO 5.3<br><br>Hazards (Bushfire - Outback) Overlay [Habitable Buildings]<br>PO 1.1 |

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Wastewater]
PO 2.1, PO 2.4, PO 2.5

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Landscapes and Natural Features]
PO 4.1

Native Vegetation Overlay [Environmental Protection]
PO 1.1, PO 1.2, PO 1.4

Non-Stop Corridors Overlay [Non-Stop Corridor Overlay]
PO 1.1

Resource Extraction Protection Area Overlay [Protection of Strategic Resources]
PO 1.1

River Murray Flood Plain Protection Area Overlay [Wastewater]
PO 2.1

River Murray Flood Plain Protection Area Overlay [Built Form and Character]
PO 5.1, PO 5.3

River Murray Flood Plain Protection Area Overlay [Flood Resilience]
PO 6.1, PO 6.2, PO 6.3

River Murray Flood Plain Protection Area Overlay [Environmental Protection]
PO 7.1, PO 7.2, PO 7.3

River Murray Flood Plain Protection Area Overlay [Access]
PO 8.1, PO 8.2, PO 8.3

Scenic Quality Overlay [Land Use and Intensity]
PO 1.1

Scenic Quality Overlay [Built Form and Character]
PO 2.1

Scenic Quality Overlay [Landscaping]
PO 3.1

Scenic Quality Overlay [Earthworks]
PO 4.1

Significant Interface Management Overlay [Land Use and Intensity]
PO 1.1

Significant Landscape Protection Overlay [Land Use and Intensity]
PO 1.1

Significant Landscape Protection Overlay [Built Form and Character]
PO 2.1, PO 2.2

Significant Landscape Protection Overlay [Landscaping]
PO 3.1

Significant Landscape Protection Overlay [Earthworks]
PO 4.1

State Heritage Area Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5

State Heritage Area Overlay [Alterations and Additions]
PO 2.1, PO 2.2

State Heritage Area Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

State Heritage Area Overlay [Conservation Works]
PO 7.1

State Heritage Place Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7

State Heritage Place Overlay [Alterations and Additions]
PO 2.1, PO 2.2

State Heritage Place Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

State Heritage Place Overlay [Conservation Works]
PO 7.1

State Significant Native Vegetation Areas Overlay [Environmental Protection]
PO 1.1

Stormwater Management Overlay
PO 1.1

Traffic Generating Development Overlay [Traffic Generating Development]
PO 1.1, PO 1.2, PO 1.3

Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Urban Transport Routes Overlay [Access - On-Site Queuing]
PO 2.1

Urban Transport Routes Overlay [Access - (Location Spacing) - Existing Access Point]
PO 3.1

Urban Transport Routes Overlay [Access – Location (Spacing) – New Access Points]
PO 4.1

Urban Transport Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Urban Transport Routes Overlay [Access – Mud and Debris]
PO 6.1

Airport Building Heights (Regulated) Overlay [Built Form]
PO 1.1

Building Near Airfields Overlay
PO 1.3

Character Area Overlay [All Development]
PO 1.1

Character Area Overlay [Built Form]
PO 2.1, PO 2.2, PO 2.3, PO 2.4, PO 2.5

Character Area Overlay [Context and Streetscape Amenity]
PO 6.1, PO 6.2

Character Preservation District Overlay [Land Use and Intensity]
PO 1.2

Character Preservation District Overlay [Built Form and Character]
PO 2.1, PO 2.2, PO 2.3

Character Preservation District Overlay [Built Form and Character in the Rural Area]
PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.5, PO 3.6

Character Preservation District Overlay [Earthworks]
PO 4.1

Coastal Areas Overlay [Hazard Risk Minimisation]
PO 2.1, PO 2.2, PO 2.3, PO 2.4, PO 2.5

Coastal Areas Overlay [Coast Protection Works]
PO 3.1, PO 3.2

Coastal Areas Overlay [Environment Protection]
PO 4.1, PO 4.2, PO 4.3, PO 4.4, PO 4.5, PO 4.6, PO 4.7

Coastal Areas Overlay [Access]
PO 5.1, PO 5.2, PO 5.4

Coastal Flooding Overlay
PO 1.1

Defence Aviation Area Overlay [Built Form]
PO 1.1

Future Local Road Widening Overlay [Future Road Widening]
PO 1.1

Future Road Widening Overlay [Future Road Widening]
PO 1.1

Gas and Liquid Petroleum Pipelines Overlay [Land Use and Intensity]
PO 1.1

Gas and Liquid Petroleum Pipelines (Facilities) Overlay [Safety]
PO 1.1

Gateway Overlay [Built Form and Character]
PO 1.1, PO 1.2, PO 1.3

Gateway Overlay [Landscaping]
PO 3.1, PO 3.2, PO 3.3, PO 3.4

Hazards (Acid Sulfate Soils) Overlay [Land Use and Intensity]
PO 1.1

Hazards (Bushfire - General Risk) Overlay [Siting]
PO 1.1

Hazards (Bushfire - General Risk) Overlay [Built Form]
PO 2.1

Hazards (Bushfire - General Risk) Overlay [Habitable Buildings]
PO 3.1, PO 3.2, PO 3.3

Hazards (Bushfire - General Risk) Overlay [Vehicle Access – Roads, Driveways and Fire Tracks]
PO 5.2, PO 5.3

Hazards (Bushfire - High Risk) Overlay [Land Use]
PO 1.1

Hazards (Bushfire - High Risk) Overlay [Siting]
PO 2.1

Hazards (Bushfire - High Risk) Overlay [Built Form]
PO 3.1

Hazards (Bushfire - High Risk) Overlay [Habitable Buildings]
PO 4.1, PO 4.2, PO 4.3

Hazards (Bushfire - High Risk) Overlay [Vehicle Access – Roads, Driveways and Fire Tracks]
PO 6.2, PO 6.3

Hazards (Bushfire - Medium Risk) Overlay [Siting]
PO 1.1

Hazards (Bushfire - Medium Risk) Overlay [Built Form]
PO 2.1

Hazards (Bushfire - Medium Risk) Overlay [Habitable Buildings]
PO 3.1, PO 3.2, PO 3.3

Hazards (Bushfire - Medium Risk) Overlay [Vehicle Access - Roads, Driveways and Fire Tracks]
PO 5.2, PO 5.3

Hazards (Bushfire - Outback) Overlay [Habitable Buildings]
PO 1.1

Hazards (Bushfire - Outback) Overlay [Vehicle Access - Roads and Driveways]
PO 2.2

Hazards (Bushfire - Regional) Overlay [Siting]
PO 1.1

Hazards (Bushfire - Regional) Overlay [Built Form]
PO 2.1

Hazards (Bushfire - Regional) Overlay [Habitable Buildings]
PO 3.1, PO 3.2, PO 3.3

Hazards (Bushfire - Regional) Overlay [Vehicle Access -Roads and Driveways]
PO 5.2, PO 5.3

Hazards (Flooding) Overlay [Flood Resilience]
PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.5

Hazards (Flooding) Overlay [Environmental Protection]
PO 4.2

Hazards (Flooding) Overlay [Site Earthworks]
PO 5.1, PO 5.2

Hazards (Flooding) Overlay [Access]
PO 6.1, PO 6.2

Hazards (Flooding – General) Overlay [Flood Resilience]
PO 2.1

Hazards (Flooding - Evidence Required) Overlay [Flood Resilience]
PO 1.1

Heritage Adjacency Overlay [Built Form]
PO 1.1

Historic Area Overlay [All Development]
PO 1.1

Historic Area Overlay [Built Form]
PO 2.1, PO 2.2, PO 2.3, PO 2.4, PO 2.5

Historic Area Overlay [Context and Streetscape Amenity]
PO 6.1, PO 6.2

Historic Area Overlay [Ruins]
PO 8.1

Historic Shipwrecks Overlay [General]
PO 1.1

Interface Management Overlay [Land Use and Intensity]
PO 1.1

Key Outback and Rural Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Key Outback and Rural Routes Overlay [Access - On-Site Queuing]
PO 2.1

Key Outback and Rural Routes Overlay [Access - Location (Spacing) - Existing Access Points]
PO 3.1

Key Outback and Rural Routes Overlay [Access - Location (Spacing) - New Access Points]
PO 4.1

Key Outback and Rural Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Key Outback and Rural Routes Overlay [Access - Mud and Debris]
PO 6.1

Key Outback and Rural Routes Overlay [Access - Stormwater]
PO 7.1

Key Outback and Rural Routes Overlay [Building on Road Reserve]
PO 8.1

Key Outback and Rural Routes Overlay [Public Road Junctions]
PO 9.1

Key Railway Crossings Overlay [Access, Design and Function]
PO 1.1

Limited Dwelling Overlay
PO 1.1

Local Heritage Place Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7

Local Heritage Place Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

Local Heritage Place Overlay [Conservation Works]
PO 7.1

Major Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Major Urban Transport Routes Overlay [Access - On-Site Queuing]
PO 2.1

Major Urban Transport Routes Overlay [Access – Location (Spacing) - Existing Access Points]
PO 3.1

Major Urban Transport Routes Overlay [Access – Location (Spacing) – New Access Points]
PO 4.1

Major Urban Transport Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Major Urban Transport Routes Overlay [Access - Mud and Debris]
PO 6.1

Major Urban Transport Routes Overlay [Access - Stormwater]
PO 7.1

Major Urban Transport Routes Overlay [Building on Road Reserve]
PO 8.1

Major Urban Transport Routes Overlay [Public Road Junctions]
PO 9.1

Major Urban Transport Routes Overlay [Corner Cut-Offs]
PO 10.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Water Quality]
PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Wastewater]
PO 2.2, PO 2.3, PO 2.4

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Landscapes and Natural Features]
PO 4.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Water Quality]
PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Wastewater]
PO 2.1, PO 2.4, PO 2.5

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Landscapes and Natural Features]
PO 4.1

Native Vegetation Overlay [Environmental Protection]
PO 1.1, PO 1.2, PO 1.4

Noise and Air Emissions Overlay [Siting and Design]
PO 1.1, PO 1.2, PO 1.3

Non-Stop Corridors Overlay [Non-Stop Corridor Overlay]
PO 1.1

Resource Extraction Protection Area Overlay [Protection of Strategic Resources]
PO 1.1

River Murray Flood Plain Protection Area Overlay [Wastewater]
PO 2.1

River Murray Flood Plain Protection Area Overlay [Built Form and Character]
PO 5.1, PO 5.3

River Murray Flood Plain Protection Area Overlay [Flood Resilience]
PO 6.1, PO 6.2, PO 6.3

River Murray Flood Plain Protection Area Overlay [Environmental Protection]
PO 7.1, PO 7.2, PO 7.3

River Murray Flood Plain Protection Area Overlay [Access]
PO 8.1, PO 8.2, PO 8.3

Scenic Quality Overlay [Land Use and Intensity]
PO 1.1

Scenic Quality Overlay [Built Form and Character]
PO 2.1

Scenic Quality Overlay [Landscaping]
PO 3.1

Scenic Quality Overlay [Earthworks]
PO 4.1

Significant Interface Management Overlay [Land Use and Intensity]
PO 1.1

Significant Landscape Protection Overlay [Land Use and Intensity]
PO 1.1

Significant Landscape Protection Overlay [Built Form and Character]
PO 2.1, PO 2.2

Significant Landscape Protection Overlay [Landscaping]
PO 3.1

Significant Landscape Protection Overlay [Earthworks]
PO 4.1

State Heritage Area Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5

State Heritage Area Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

State Heritage Area Overlay [Conservation Works]
PO 7.1

State Heritage Place Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7

State Heritage Place Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

State Heritage Place Overlay [Conservation Works]
PO 7.1

State Significant Native Vegetation Areas Overlay [Environmental Protection]
PO 1.1

Stormwater Management Overlay
PO 1.1

Traffic Generating Development Overlay [Traffic Generating Development]
PO 1.1, PO 1.2, PO 1.3

Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Urban Transport Routes Overlay [Access - On-Site Queuing]
PO 2.1

Urban Transport Routes Overlay [Access - (Location Spacing) - Existing Access Point]
PO 3.1

Urban Transport Routes Overlay [Access – Location (Spacing) – New Access Points]
PO 4.1

Urban Transport Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Urban Transport Routes Overlay [Access – Mud and Debris]
PO 6.1

Urban Transport Routes Overlay [Access - Stormwater]
PO 7.1

Urban Transport Routes Overlay [Building on Road Reserve]
PO 8.1

Urban Transport Routes Overlay [Public Road Junctions]
PO 9.1

Urban Transport Routes Overlay [Corner Cut-Offs]
PO 10.1

Urban Tree Canopy Overlay
PO 1.1

Water Resources Overlay [Water Catchment]
PO 1.1, PO 1.2, PO 1.5, PO 1.6, PO 1.7, PO 1.8

PO 1.2

Character Preservation District Overlay [Built Form and Character]
PO 2.1, PO 2.2, PO 2.3

Character Preservation District Overlay [Built Form and Character in the Rural Area]
PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.5, PO 3.6

Character Preservation District Overlay [Earthworks]
PO 4.1

Coastal Areas Overlay [Hazard Risk Minimisation]
PO 2.1, PO 2.2, PO 2.3, PO 2.4, PO 2.5

Coastal Areas Overlay [Coast Protection Works]
PO 3.1, PO 3.2

Coastal Areas Overlay [Environment Protection]
PO 4.1, PO 4.2, PO 4.3, PO 4.4, PO 4.5, PO 4.6, PO 4.7

Coastal Areas Overlay [Access]
PO 5.1, PO 5.2, PO 5.4

Coastal Flooding Overlay
PO 1.1

Defence Aviation Area Overlay [Built Form]
PO 1.1

Design Overlay [General]
PO 1.1

Future Local Road Widening Overlay [Future Road Widening]
PO 1.1

Future Road Widening Overlay [Future Road Widening]
PO 1.1

Gas and Liquid Petroleum Pipelines (Facilities) Overlay [Safety]
PO 1.1

Gateway Overlay [Built Form and Character]
PO 1.1, PO 1.2, PO 1.3

Gateway Overlay [Landscaping]
PO 3.1, PO 3.2, PO 3.3, PO 3.4

Hazards (Acid Sulfate Soils) Overlay [Land Use and Intensity]
PO 1.1

Hazards (Bushfire - General Risk) Overlay [Siting]
PO 1.1

Hazards (Bushfire - General Risk) Overlay [Built Form]
PO 2.1

Hazards (Bushfire - General Risk) Overlay [Habitable Buildings]
PO 3.1, PO 3.2, PO 3.3

Hazards (Bushfire - General Risk) Overlay [Vehicle Access – Roads, Driveways and Fire Tracks]
PO 5.2, PO 5.3

Hazards (Bushfire - High Risk) Overlay [Land Use]
PO 1.1

Hazards (Bushfire - High Risk) Overlay [Siting]
PO 2.1

Hazards (Bushfire - High Risk) Overlay [Built Form]
PO 3.1

Hazards (Bushfire - High Risk) Overlay [Habitable Buildings]
PO 4.1, PO 4.2, PO 4.3

Hazards (Bushfire - High Risk) Overlay [Vehicle Access – Roads, Driveways and Fire Tracks]
PO 6.2, PO 6.3

Hazards (Bushfire - Medium Risk) Overlay [Siting]
PO 1.1

Hazards (Bushfire - Medium Risk) Overlay [Built Form]
PO 2.1

Hazards (Bushfire - Medium Risk) Overlay [Habitable Buildings]
PO 3.1, PO 3.2, PO 3.3

Hazards (Bushfire - Medium Risk) Overlay [Vehicle Access - Roads, Driveways and Fire Tracks]
PO 5.2, PO 5.3

Hazards (Bushfire - Outback) Overlay [Habitable Buildings]
PO 1.1

Hazards (Bushfire - Outback) Overlay [Vehicle Access - Roads and Driveways]
PO 2.2

Hazards (Bushfire - Regional) Overlay [Siting]
PO 1.1

Hazards (Bushfire - Regional) Overlay [Built Form]
PO 2.1

Hazards (Bushfire - Regional) Overlay [Habitable Buildings]
PO 3.1, PO 3.2, PO 3.3

Hazards (Bushfire - Regional) Overlay [Vehicle Access -Roads and Driveways]
PO 5.2, PO 5.3

Hazards (Flooding) Overlay [Flood Resilience]
PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.5

Hazards (Flooding) Overlay [Environmental Protection]
PO 4.2

Hazards (Flooding) Overlay [Site Earthworks]
PO 5.1, PO 5.2

Hazards (Flooding) Overlay [Access]
PO 6.1, PO 6.2

Hazards (Flooding – General) Overlay [Flood Resilience]
PO 2.1

Hazards (Flooding - Evidence Required) Overlay [Flood Resilience]
PO 1.1

Heritage Adjacency Overlay [Built Form]
PO 1.1

Historic Area Overlay [All Development]
PO 1.1

Historic Area Overlay [Built Form]
PO 2.1, PO 2.2, PO 2.3, PO 2.4, PO 2.5

Historic Area Overlay [Context and Streetscape Amenity]
PO 6.1, PO 6.2

Historic Area Overlay [Ruins]
PO 8.1

Historic Shipwrecks Overlay [General]
PO 1.1

Interface Management Overlay [Land Use and Intensity]
PO 1.1

Key Outback and Rural Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Key Outback and Rural Routes Overlay [Access - On-Site Queuing]
PO 2.1

Key Outback and Rural Routes Overlay [Access - Location (Spacing) - Existing Access Points]
PO 3.1

Key Outback and Rural Routes Overlay [Access - Location (Spacing) - New Access Points]
PO 4.1

Key Outback and Rural Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Key Outback and Rural Routes Overlay [Access - Mud and Debris]
PO 6.1

Key Outback and Rural Routes Overlay [Access - Stormwater]
PO 7.1

Key Outback and Rural Routes Overlay [Building on Road Reserve]
PO 8.1

Key Outback and Rural Routes Overlay [Public Road Junctions]
PO 9.1

Key Railway Crossings Overlay [Access, Design and Function]
PO 1.1

Limited Dwelling Overlay
PO 1.1

Local Heritage Place Overlay [Built Form]
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7

Local Heritage Place Overlay [Landscape Context and Streetscape Amenity]
PO 5.1

Local Heritage Place Overlay [Conservation Works]
PO 7.1

Major Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Major Urban Transport Routes Overlay [Access - On-Site Queuing]
PO 2.1

Major Urban Transport Routes Overlay [Access – Location (Spacing) - Existing Access Points]
PO 3.1

Major Urban Transport Routes Overlay [Access – Location (Spacing) – New Access Points]
PO 4.1

Major Urban Transport Routes Overlay [Access - Location (Sight Lines)]
PO 5.1

Major Urban Transport Routes Overlay [Access - Mud and Debris]
PO 6.1

Major Urban Transport Routes Overlay [Access - Stormwater]
PO 7.1

Major Urban Transport Routes Overlay [Building on Road Reserve]
PO 8.1

Major Urban Transport Routes Overlay [Public Road Junctions]
PO 9.1

Major Urban Transport Routes Overlay [Corner Cut-Offs]
PO 10.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Water Quality]
PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Wastewater]
PO 2.2, PO 2.3, PO 2.4

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Landscapes and Natural Features]
PO 4.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Water Quality]
PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Wastewater]
PO 2.1, PO 2.4, PO 2.5

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Stormwater]
PO 3.1, PO 3.2, PO 3.3, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Landscapes and Natural Features]
PO 4.1

Native Vegetation Overlay [Environmental Protection]
PO 1.1, PO 1.2, PO 1.4

Noise and Air Emissions Overlay [Siting and Design]
PO 1.1, PO 1.2, PO 1.3

Non-Stop Corridors Overlay [Non-Stop Corridor Overlay]
PO 1.1

Resource Extraction Protection Area Overlay [Protection of Strategic Resources]
PO 1.1

River Murray Flood Plain Protection Area Overlay [Wastewater]
PO 2.1

River Murray Flood Plain Protection Area Overlay [Built Form and Character]
PO 5.1, PO 5.3

River Murray Flood Plain Protection Area Overlay [Flood Resilience]
PO 6.1, PO 6.2, PO 6.3

River Murray Flood Plain Protection Area Overlay [Environmental Protection]
PO 7.1, PO 7.2, PO 7.3

River Murray Flood Plain Protection Area Overlay [Access]
PO 8.1, PO 8.2, PO 8.3

Scenic Quality Overlay [Land Use and Intensity]

| All other Code Assessed Development | All | All | All | Any relevant Overlay: All |

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

| Class of Development | Exclusions |
|---|---|
| Shop | Any of the following:<br><br>(a) shop with a gross leasable floor area less than 1000m$^2$<br>(b) shop that is a restaurant. |

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

| Class of Development<br>(Column A) | Exceptions<br>(Column B) |
|---|---|
| 1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development. | None specified. |
| 2. All development undertaken by:<br>(a) the South Australian Housing Trust either individually or jointly with other persons or bodies<br>or<br>(b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust. | Except development involving any of the following:<br><br>1. residential flat building(s) of 3 or more building levels<br>2. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)<br>3. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building). |
| 3. Any development involving any of the following (or of any combination of any of the following):<br>(a) ancillary accommodation<br>(b) co-living<br>(c) dwelling<br>(d) dwelling addition<br>(e) jetty, pontoon or boat berth (or any combination thereof)<br>(f) residential flat building. | Except development that:<br><br>1. exceeds the maximum building height specified in Waterfront Neighbourhood Zone DTS/DPF 4.1<br>or<br>2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and:<br>(a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment)<br>or<br>(b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment). |
| 4. Any development involving any of the following (or of any combination of any of the following) where located on a significant retirement facility and supported accommodation site:<br>(a) retirement facility<br>(b) supported accommodation. | Except development that:<br><br>1. exceeds 4 building levels or 15 m in height<br>or<br>2. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2<br>or<br>3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and:<br>(a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment)<br>or<br>(b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment). |
| 5. Any development involving any of the following (or of any combination of any of the following):<br>(a) consulting room<br>(b) office<br>(c) shop. | Except development that:<br><br>1. exceeds the maximum building height specified in Waterfront Neighbourhood Zone DTS/DPF 4.1<br>or<br>2. does not satisfy Waterfront Neighbourhood Zone DTS/DPF 1.5<br>or<br>3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and:<br>(a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment)<br>or<br>(b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment). |
| 6. Any development involving any of the following (or of any combination of any of the following) where located on a significant retirement facility and supported accommodation site:<br>(a) consulting room<br>(b) office<br>(c) shop | Except development that:<br><br>1. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 1.2<br>or<br>2. exceeds 4 building levels or 15 m in height<br>or<br>3. does not satisfy Significant Retirement Facility and Supported Accommodation Sites Overlay DTS/DPF 2.2<br>or<br>4. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and:<br>(a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment)<br>or<br>(b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment). |
| 7. Any development involving any of the following (or of any combination of any of the following):<br>(a) air handling unit, air conditioning system or exhaust fan<br>(b) carport<br>(c) deck<br>(d) fence<br>(e) internal building works<br>(f) land division<br>(g) outbuilding<br>(h) pergola<br>(i) private bushfire shelter<br>(j) recreation area<br>(k) replacement building<br>(l) retaining wall<br>(m) shade sail<br>(n) solar photovoltaic panels (roof mounted)<br>(o) swimming pool or spa pool and associated swimming pool safety features<br>(p) temporary accommodation in an area affected by bushfire<br>(q) tree damaging activity<br>(r) verandah | None specified. |

| | |
|---|---|
| (s) water tank. | |
| 8. Demolition. | Except any of the following:<br>1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)<br>2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building). |
| 9. Railway line. | Except where located outside of a rail corridor or rail reserve. |

**Placement of Notices - Exemptions for Performance Assessed Development**

None specified.

**Placement of Notices - Exemptions for Restricted Development**

None specified.

## Workers' Settlement Zone

### Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Appropriately designed and located accommodation for seasonal and short-term workers in rural areas that minimises environmental and social impacts. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Land Use and Intensity | |
| PO 1.1<br>Development is limited to workers' accommodation and ancillary land uses that support the day to day needs of workers. | DTS/DPF 1.1<br>Development comprises one or more of the following:<br>(a) a dwelling (manager's house)<br>(b) amenity block (including shower, toilet and laundry facilities) in association with and ancillary to the workers' accommodation<br>(c) dwelling addition<br>(d) recreational facility in association with and ancillary to the workers' accommodation<br>(e) office in association with and ancillary to the workers' accommodation<br>(f) shop in association with and ancillary to the workers' accommodation<br>(g) workers' accommodation. |
| PO 1.2<br>Shops, primarily in the form of a restaurant, associated with and ancillary to Workers' accommodation enhance the amenity of the zone for those workers. | DTS/DPF 1.2<br>Shops located on the same site as workers' accommodation meets one of the following:<br>(a) it has a gross leasable floor area not exceeding 100m$^2$<br>(b) it is a restaurant. |
| PO 1.3<br>Office associated with and ancillary to Workers' accommodation supports the management and administrative aspects of the accommodation. | DTS/DPF 1.3<br>Office is ancillary to and located on the same site as Workers' accommodation. |
| PO 1.4<br>Development provides space adjacent to and around habitable buildings to accommodate areas for parking of vehicles, storage of waste, landscaping, recreation areas, swimming pool/spa and similar facilities to enhance the amenity for resident workers. | DTS/DPF 1.4<br>The total roofed area of all existing and proposed buildings on the site will not exceed 60%. |
| PO 1.5<br>Workers' accommodation is established in association with major industrial, mining, agricultural and business activities to support and facilitate economic activity. | DTS/DPF 1.5<br>Workers' accommodation is constructed by the principal operator of the relevant business or authorised agent thereof. |
| PO 1.6<br>A dwelling in the form of a manager or caretaker residence associated with and ancillary to Workers' accommodation provides for the efficient management, maintenance and support of residents. | DTS/DPF 1.6<br>Dwelling is in the form of a manager or caretaker residence and satisfies all of the following:<br>(a) ancillary to and located on the same allotment or within the same lease area as the workers' accommodation<br>(b) has a demonstrated connection with workers' accommodation<br>(c) will not result in more than one dwelling being located on an allotment or lease area used for workers' accommodation. |
| Land Division | |
| PO 2.1<br>Land division is designed to:<br>(a) minimise fire risk danger to occupants of buildings and firefighting personnel<br>(b) minimise the potential risk of damage to buildings and other property during a bushfire<br>(c) ensure each allotment contains a suitable building envelope that is located away from any vegetation that would pose an unacceptable risk in the event of bushfire. | DTS/DPF 2.1<br>None are applicable. |
| Built Form and Character | |
| PO 3.1<br>Buildings and recreational facilities are set back from internal roads to accommodate vehicular movements and contribute to the safety of workers and visitors. | DTS/DPF 3.1<br>Buildings and recreational facilities are set back at least 1 metre from an internal road. |
| PO 3.2<br>Buildings are set back from public roads to mitigate impacts on the streetscape. | DTS/DPF 3.2<br>Buildings are set back at least 2m from a public road. |
| PO 3.3<br>Buildings and recreational areas are set back from the boundary of the zone to minimise impacts on neighbouring properties and enhance local amenity. | DTS/DPF 3.3<br>Buildings are set back at least 2 metres from the zone boundary. |
| PO 3.4<br>Buildings use materials and finishes to complement the landscape and mitigate the effects of glare on adjacent land users. | DTS/DPF 3.4<br>Buildings are clad in, or a combination of:<br>(a) materials other than sheet metal<br>(b) sheet metal pre-colour treated or painted in a non-reflective colour. |
| Landscaping | |
| PO 4.1<br>Landscaping is provided along public roads and thoroughfares, zone boundaries and the perimeter of common vehicle parking areas to enhance the visual appearance of development. | DTS/DPF 4.1<br>Other than to accommodate a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land, a landscaped area is provided within the development site in accordance with the following:<br>(a) at least 1.5m wide along any boundary on the perimeter of the zone fronting a public road or thoroughfare<br>(b) at least 1m wide around the perimeter of any shared vehicle parking area. |
| PO 4.2<br>Development incorporates areas for landscaping to enhance the overall amenity of the site and locality. | DTS/DPF 4.2<br>Landscape areas comprise:<br>(a) not less than 10 percent of the site area<br>(b) a dimension of at least 1m. |
| Concept Plans | |
| PO 5.1 | DTS/DPF 5.1 |

| | |
|---|---|
| Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure. | The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:<br><br>In relation to DTS/DPF 5.1, in instances where:<br><br>(a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.<br>(b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 5.1 is met. |

**Table 1 - Accepted Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

| Class of Development | Accepted Development Classification Criteria |
|---|---|
| Air handling unit, air conditioning system or exhaust fan<br>Except where any of the following apply:<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The item will be installed on or within an existing dwelling.<br>2. The item being installed does not encroach on a public street.<br>3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street. |
| Building alterations<br>Except where any of the following apply:<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The alteration does not:<br>(a) increase the floor area of the building<br>(b) exceed the existing wall height<br>(c) exceed the existing overall building height<br>(d) alter the roof profile<br>(e) alter an approved privacy screening arrangement or window treatment<br>(f) result in less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.<br>2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm. |
| Building work on railway land<br>Except where any of the following apply:<br>• Coastal Areas Overlay<br>• Hazards (Acid Sulfate Soils) Overlay<br>• Local Heritage Place Overlay<br>• Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay<br>• Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay<br>• Significant Landscape Protection Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. Building work is associated with a railway.<br>2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017).<br>3. It is required for the conduct or maintenance of railway activities.<br>4. It does not involve the clearance of native vegetation. |
| Carport<br>Except where any of the following apply:<br>• Future Local Road Widening Overlay<br>• Future Road Widening Overlay<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.<br>3. It is ancillary to a dwelling erected on the site.<br>4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary.<br>5. Total floor area - does not exceed 40$m^2$.<br>6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end).<br>7. Building height - does not exceed 5m.<br>8. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11m unless:<br>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and<br>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.<br>9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):<br>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and<br>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.<br>10. The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment.<br>11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser).<br>12. The carport is located so that vehicle access:<br>(a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or<br>(b) is not obtained from a State maintained road, and will use a driveway that:<br>(i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;<br>(ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;<br>(iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average<br>(iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access<br>(v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site.<br>13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour.<br>14. Does not involve the clearance of native vegetation. |
| Outbuilding<br>Except where any of the following apply:<br>• Coastal Areas Overlay<br>• Future Road Widening Overlay<br>• Hazards (Flooding) Overlay<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• Significant Landscape Protection Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.<br>3. It is detached from and ancillary to a dwelling erected on the site.<br>4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary.<br>5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads).<br>6. Total floor area - does not exceed 40$m^2$.<br>7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end).<br>8. Building height - does not exceed 5m.<br>9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless:<br>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and<br>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.<br>10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):<br>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and<br>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.<br>11. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%.<br>12. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):<br>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and<br>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.<br>13. If the outbuilding is a garage, it is located so that vehicle access:<br>(a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or<br>(b) is not obtained from a State Maintained Road, and will use a driveway that:<br>(i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;<br>(ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;<br>(iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average<br>(iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access<br>(v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site<br>14. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour.<br>15. Does not involve-<br>(a) excavation exceeding a vertical height of 1 metre; or<br>(b) filling exceeding a vertical height of 1 metre,<br>and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres.<br>16. Does not involve the clearance of native vegetation. |
| Partial demolition of a building or structure<br>Except where any of the following apply: | None |

| | |
|---|---|
| • Historic Area Overlay<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | |
| Shade sail<br>Except where any of the following apply:<br>• Future Local Road Widening Overlay<br>• Future Road Widening Overlay<br>• Historic Area Overlay<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.<br>3. Shade sail consists of permeable material.<br>4. The total area of the sail - does not exceed 40m$^2$.<br>5. No part of the shade sail will be:<br>(a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment<br>(b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment.<br>6. Primary street setback - at least as far back as the building line of the building to which it is ancillary.<br>7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m.<br>8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.<br>9. Does not involve the clearance of native vegetation. |
| Solar photovoltaic panels (roof mounted)<br>Except where any of the following apply:<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.<br>2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof.<br>3. Panels and associated components do not overhang any part of the roof.<br>4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.<br>5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street. |
| Swimming pool or spa pool and associated swimming pool safety features<br>Except where any of the following apply:<br>• Future Local Road Widening Overlay<br>• Future Road Widening Overlay<br>• Hazards (Flooding) Overlay<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.<br>3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted.<br>4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature).<br>5. Primary street setback - at least as far back as the building line of the building to which it is ancillary.<br>6. Location of pumps and/or filtration systems from a dwelling on an adjoining allotment:<br>(a) not less than 5m where the filtration system is located inside a solid acoustic structure; or<br>(b) not less than 12m in any other case.<br>7. Does not involve the clearance of native vegetation. |
| Water tank (above ground)<br>Except where any of the following apply:<br>• Local Heritage Place Overlay<br>• State Heritage Area Overlay<br>• State Heritage Place Overlay | 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.<br>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.<br>3. The tank is part of a roof drainage system.<br>4. Total floor area - not exceeding 15m$^2$.<br>5. The tank is located wholly above ground.<br>6. Tank height - does not exceed 4m above natural ground level.<br>7. Primary street setback - at least as far back as the building line of the building to which it is ancillary.<br>8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour.<br>9. Does not involve the clearance of native vegetation |
| Water tank (underground) | 1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.<br>2. The tank (including any associated pump) is located wholly below the level of the ground.<br>3. Does not involve the clearance of native vegetation. |

**Table 2 - Deemed-to-Satisfy Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

| Class of Development | Deemed-to-Satisfy Development Classification Criteria | | | |
|---|---|---|---|---|

**Table 3 - Applicable Policies for Performance Assessed Development**

The following table identifies the policies that are applicable to the assessment of the identified Class of Development to the exclusion of all other policies within the Code. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

In the case of 'All Other Code Assessed Development', all policies from the zone subzone and overlays that have application to the spatial location of the development, and all general development policies, apply for the purpose of assessment.

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

| Class of Development | Applicable Policies | | | |
|---|---|---|---|---|

| All other Code Assessed Development | All | All | All | Any relevant Overlay: All |

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

| Class of Development | Exclusions |
|---|---|
| Shop | Any of the following:<br><br>(a) shop with a gross leasable floor area less than 1000m$^2$<br>(b) shop that is a restaurant. |

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

| Class of Development<br>(Column A) | Exceptions<br>(Column B) |
|---|---|
| 1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development. | None specified. |
| 2. Any development involving any of the following (or of any combination of any of the following):<br>(a) air handling unit, air conditioning system or exhaust fan<br>(b) amenities block<br>(c) carport<br>(d) deck<br>(e) dwelling | None specified. |

| | |
|---|---|
| (f) dwelling addition<br>(g) fence<br>(h) internal building works<br>(i) land division<br>(j) office<br>(k) outbuilding<br>(l) pergola<br>(m) private bushfire shelter<br>(n) replacement building<br>(o) retaining wall<br>(p) shade sail<br>(q) shop<br>(r) solar photovoltaic panels (roof mounted)<br>(s) swimming pool or spa pool and associated swimming pool safety features<br>(t) temporary accommodation in an area affected by bushfire<br>(u) tree damaging activity<br>(v) verandah<br>(w) workers accommodation<br>(x) water tank. | |
| 3. Demolition. | Except any of the following:<br>1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)<br>2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building). |
| 4. Railway line. | Except where located outside of a rail corridor or rail reserve. |

| Placement of Notices - Exemptions for Performance Assessed Development |
|---|
| None specified |

| Placement of Notices - Exemptions for Restricted Development |
|---|
| None specified |

## Part 3 - Overlays

### Adelaide Dolphin Sanctuary Overlay

#### Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Protection of the Adelaide Dolphin Sanctuary dolphin population and their habitat. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Land Use | |
| PO 1.1<br>Development avoids or minimises harm to habitat, and the functioning of ecosystems that support the dolphin population. | DTS/DPF 1.1<br>None are applicable. |
| PO 1.2<br>Development does not result in the disruption of critical dolphin behaviours such as breeding, feeding, resting and movement. | DTS/DPF 1.2<br>None are applicable. |
| PO 1.3<br>Stormwater runoff is disposed of in a manner that avoids pollution or other detrimental impacts to the Adelaide Dolphin Sanctuary. | DTS/DPF 1.3<br>None are applicable. |

#### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Note: Additional referrals are also found in Part 9 - Referrals of the Planning and Design Code.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---|---|---|
| None | None | None | None |

### Advertising Near Signalised Intersections Overlay

#### Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Provision of a safe road environment by reducing driver distraction at key points of conflict on the road. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Advertisements Near Signalised Intersections | |
| PO 1.1<br>Advertising near signalised intersections does not cause unreasonable distraction to road users through illumination, flashing lights, or moving or changing displays or messages. | DTS/DPF 1.1<br>Advertising satisfies all of the following:<br>(a) is not illuminated<br>(b) does not incorporate a moving or changing display or message<br>(c) does not incorporate a flashing light(s). |

#### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Note: Additional referrals are also found in Part 9 - Referrals of the Planning and Design Code.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---|---|---|
| Advertisement or advertising hoarding that: | Commissioner of Highways. | To provide expert technical assessment on potential risks relating to pedestrian and road safety which may arise from | Development of a class to which |

| | | | |
|---|---|---|---|
| (a) is within 100m of a:<br>(i) signalised intersection<br>or<br>(ii) signalised pedestrian crossing<br>and<br>(b) will:<br>(i) be internally illuminated<br>or<br>(ii) incorporate a moving or changing display or message<br>or<br>(iii) incorporate a flashing light. | | advertisements near intersections. | Schedule 9 clause 3 item 21 of the Planning, Development and Infrastructure (General) Regulations 2017 applies. |

## Affordable Housing Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Affordable housing is integrated with residential and mixed use development. |
| DO 2 | Affordable housing caters for a variety of household structures. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Land Division | |
| PO 1.1<br>Development comprising 20 or more dwellings / allotments incorporates affordable housing. | DTS/DPF 1.1<br>Development results in 0-19 additional allotments / dwellings. |
| PO 1.2<br>Development comprising 20 or more dwellings or residential allotments provides housing suited to a range of incomes including households with low to moderate incomes. | DTS/DPF 1.2<br>Development comprising 20 or more dwellings / or residential allotments includes a minimum of 15% affordable housing except where:<br>(a) it can be demonstrated that any shortfall in affordable housing has been provided in a previous stage of development<br>or<br>(b) it can be demonstrated that any shortfall in affordable housing will be accommodated in a subsequent stage or stages of development. |
| PO 1.3<br>Affordable housing is distributed throughout the development to avoid an overconcentration. | DTS/DPF 1.3<br>None are applicable. |
| Built Form and Character | |
| PO 2.1<br>Affordable housing is designed to complement the design and character of residential development within the locality. | DTS/DPF 2.1<br>None are applicable. |
| Affordable Housing Incentives | |
| PO 3.1<br>To support the provision of affordable housing, minimum allotment sizes may be reduced below the minimum allotment size specified in a zone while providing allotments of a suitable size and dimension to accommodate dwellings with a high standard of occupant amenity. | DTS/DPF 3.1<br>The minimum site area specified for a dwelling can be reduced by up to 20%, or the maximum density per hectare increased by up to 20%, where it is to be used to accommodate affordable housing except where the development is located within the Character Area Overlay or Historic Area Overlay. |
| PO 3.2<br>To support the provision of affordable housing, building heights may be increased above the maximum specified in a zone. | DTS/DPF 3.2<br>Where a building incorporates dwellings above ground level and includes at least 15% affordable housing, the maximum building height specified in any relevant zone policy can be increased by 1 building level in the:<br>(a) Business Neighbourhood Zone<br>(b) City Living Zone<br>(c) Established Neighbourhood Zone<br>(d) General Neighbourhood Zone<br>(e) Hills Neighbourhood Zone<br>(f) Housing Diversity Neighbourhood Zone<br>(g) Neighbourhood Zone<br>(h) Master Planned Neighbourhood Zone<br>(i) Master Planned Renewal Zone<br>(j) Master Planned Township Zone<br>(k) Rural Neighbourhood Zone<br>(l) Suburban Business Zone<br>(m) Suburban Neighbourhood Zone<br>(n) Township Neighbourhood Zone<br>(o) Township Zone<br>(p) Urban Renewal Neighbourhood Zone<br>(q) Waterfront Neighbourhood Zone<br>and up to 30% in any other zone, except where:<br>(a) the development is located within the Character Area Overlay or Historic Area Overlay<br>or<br>(b) other height incentives already apply to the development. |
| Movement and Car Parking | |
| PO 4.1<br>Sufficient car parking is provided to meet the needs of occupants of affordable housing. | DTS/DPF 4.1<br>Dwellings constituting affordable housing are provided with car parking in accordance with the following:<br>(a) 0.3 carparks per dwelling within a building which incorporates dwellings located above ground level within either:<br>(i) 200 metres of any section of road reserve along which a bus service operates as a high frequency public transit service(2)<br>(ii) is within 400 metres of a bus interchange(1)<br>(iii) is within 400 metres of an O-Bahn interchange(1)<br>(iv) is within 400 metres of a passenger rail station(1)<br>(v) is within 400 metres of a passenger tram station(1)<br>(vi) is within 400 metres of the Adelaide Parklands.<br>or<br>(b) 1 carpark per dwelling for any other dwelling.<br>[NOTE(S): (1) Measured from an area that contains any platform(s), shelter(s) or stop(s) where people congregate for the purpose waiting to board a bus, tram or train, but does not include areas used for the parking of vehicles. (2) A high frequency public transit service is a route serviced every 15 minutes between 7.30am and 6.30pm Monday to Friday and every 30 minutes at night, Saturday, Sunday and public holidays until 10pm.] |

### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Note: Additional referrals are also found in Part 9 - Referrals of the Planning and Design Code.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---|---|---|
| Except where the applicant for the development is the South Australian Housing Authority (or an agent acting on behalf of the South Australian Housing Authority), residential development or land division (other than an excluded land division): | Minister responsible for administering the *South Australian Housing Trust Act 1995*. | To provide direction on the conditions required to secure the provision of dwellings or allotments for affordable | Development of a class to which |

| | | | |
|---|---|---|---|
| (a) that comprises 20 or more dwellings or residential allotments and is described in the application documentation as intending to provide affordable housing<br>or<br>(b) that is described in the application documentation as intending to provide affordable housing and the applicant is seeking to access one or more of the planning concessions outlined in the Affordable Housing Overlay DTS/DPF 3.1, 3.2 or 4.1<br>or<br>(c) that is described in the application documentation as intending to include affordable housing of any number of dwellings or residential allotments | | housing. | Schedule 9 clause 3 item 20 of the Planning, Development and Infrastructure (General) Regulations 2017 applies. |

## Aircraft Noise Exposure Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Development sensitive to aircraft noise is designed and located to manage noise intrusion to reduce land use conflict and protect human health. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Land Use and Intensity | |
| PO 1.1<br>Buildings that accommodate activities sensitive to aircraft noise are designed and located to minimise aircraft noise intrusion and provide appropriate interior acoustic amenity. | DTS/DPF 1.1<br>Buildings accommodating sensitive receivers are not located within an area having an ANEF value of 30 or more. |
| Built Form | |
| PO 2.1<br>Additions to buildings involving the addition or extension of habitable rooms are designed and located to minimise aircraft noise intrusion and provide appropriate interior acoustic amenity. | DTS/DPF 2.1<br>Dwelling additions involving the addition or extension of habitable rooms:<br>(a) do not result in an increase in the total floor area of the existing dwelling by greater than 50 percent<br>and<br>(b) do not occur in areas having an ANEF value of 30 or more. |
| Land Division | |
| PO 3.1<br>Land division does not increase the number of allotments used for sensitive receivers in areas adversely affected by aircraft noise to mitigate community exposure to potential adverse environmental and amenity impacts generated by aircraft movements. | DTS/DPF 3.1<br>Land division:<br>(a) within an area having an ANEF value of less than 30<br>or<br>(b) within an area having an ANEF value of 30 or more and:<br>(i) does not result in any additional allotments<br>or<br>(ii) none of the allotments will accommodate a sensitive receiver. |

### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Note: Additional referrals are also found in Part 9 - Referrals of the Planning and Design Code.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---|---|---|
| None | None | None | None |

## Airport Building Heights (Aircraft Landing Areas) Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Management of potential impacts of buildings on the operational and safety requirements of aircraft landing areas. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Built Form | |
| PO 1.1<br>Building height does not pose a hazard to the operation of an aircraft landing area. | DTS/DPF 1.1<br>The distance from any part of a runway centreline to the closest point of the building is greater than 30 times building height. |

### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Note: Additional referrals are also found in Part 9 - Referrals of the Planning and Design Code.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---|---|---|
| None | None | None | None |

## Airport Building Heights (Regulated) Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Management of potential impacts of buildings and generated emissions to maintain operational and safety requirements of registered and certified commercial and military airfields, airports, airstrips and helicopter landing sites. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Built Form | |
| PO 1.1 | DTS/DPF 1.1 |

| | |
|---|---|
| Building height does not pose a hazard to the operation of a certified or registered aerodrome. | Buildings are located outside the area identified as 'All structures' (no height limit is prescribed) and do not exceed the height specified in the Airport Building Heights (Regulated) Overlay which applies to the subject site as shown on the SA Property and Planning Atlas.<br><br>In instances where more than one value applies to the site, the lowest value relevant to the site of the proposed development is applicable. |
| PO 1.2<br><br>Exhaust stacks are designed and sited to minimise plume impacts on aircraft movements associated with a certified or registered aerodrome. | DTS/DPF 1.2<br><br>Development does not include exhaust stacks. |

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Note: Additional referrals are also found in Part 9 - Referrals of the Planning and Design Code.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---|---|---|
| Any of the following classes of development:<br><br>(a) building located in an area identified as 'All structures' (no height limit is prescribed) or will exceed the height specified in the *Airport Building Heights (Regulated) Overlay*<br>(b) building comprising exhaust stacks that generates plumes, or may cause plumes to be generated, above a height specified in the *Airport Building Heights (Regulated) Overlay.* | The airport-operator company for the relevant airport within the meaning of the *Airports Act 1996* of the Commonwealth or, if there is no airport-operator company, the Secretary of the Minister responsible for the administration of the *Airports Act 1996* of the Commonwealth. | To provide expert assessment and direction to the relevant authority on potential impacts on the safety and operation of aviation activities. | Development of a class to which Schedule 9 clause 3 item 1 of the Planning, Development and Infrastructure (General) Regulations 2017 applies. |

## Building Near Airfields Overlay

**Assessment Provisions (AP)**

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Maintain the operational and safety requirements of certified commercial and military airfields, airports, airstrips and helicopter landing sites through management of non-residential lighting, turbulence and activities that may attract or result in the congregation of wildlife. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| PO 1.1<br><br>Outdoor lighting associated with a non-residential use does not pose a hazard to commercial or military aircraft operations. | DTS/DPF 1.1<br><br>Development:<br><br>(a) primarily or wholly for residential purposes<br>or<br>(b) for non-residential purposes that does not incorporate outdoor floodlighting. |
| PO 1.2<br><br>Development likely to attract or result in the congregation of wildlife is adequately separated from airfields to minimise the potential for aircraft wildlife strike. | DTS/DPF 1.2<br><br>All development except where it comprises one or more of the following located not less than 3km from the boundaries of an airport used by commercial or military aircraft:<br><br>(a) food packing/processing plant<br>(b) horticulture<br>(c) intensive animal husbandry<br>(d) showground<br>(e) waste management facility<br>(f) waste transfer station<br>(g) wetland<br>(h) wildlife sanctuary. |
| PO 1.3<br><br>Buildings are adequately separated from runways and other take-off and landing facilities within certified or registered aerodromes to minimise the potential for building-generated turbulence and windshear that may pose a safety hazard to aircraft flight movement. | DTS/DPF 1.3<br><br>The distance from any part of a runway centreline to the closest point of the building is not less than 35 times the building height. |

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Note: Additional referrals are also found in Part 9 - Referrals of the Planning and Design Code.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---|---|---|
| None | None | None | None |

## Character Area Overlay

**Assessment Provisions (AP)**

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Valued streetscape characteristics and development patterns are reinforced through contextually responsive development, design and adaptive reuse that responds to the attributes expressed in the Character Area Statement. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| All Development | |
| PO 1.1<br><br>All development is undertaken having consideration to the valued attributes expressed in the Character Area Statement. | DTS/DPF 1.1<br><br>None are applicable. |
| Built Form | |
| PO 2.1<br><br>The form of new buildings and structures that are visible from the public realm are consistent with the valued streetscape characteristics of the character area. | DTS/DPF 2.1<br><br>None are applicable. |
| PO 2.2<br><br>Development is consistent with the prevailing building and wall heights in the character area. | DTS/DPF 2.2<br><br>None are applicable. |
| PO 2.3<br><br>Design and architectural detailing of street-facing buildings (including but not limited to roof pitch and form, openings, chimneys and verandahs) are consistent with the prevailing characteristics in the character area. | DTS/DPF 2.3<br><br>None are applicable. |
| PO 2.4<br><br>Development is consistent with the prevailing front and side boundary setback pattern in the character area. | DTS/DPF 2.4<br><br>None are applicable. |
| PO 2.5<br><br>Materials are either consistent with or complement those within the character area. | DTS/DPF 2.5<br><br>None are applicable. |
| Alterations and Additions | |
| PO 3.1 | DTS/DPF 3.1 |

| | |
|---|---|
| Additions and alterations do not adversely impact on the streetscape character. | Additions and alterations:<br>(a) are fully contained within the roof space of a building with no external alterations made to the building elevation facing the primary street or<br>(b) meet all of the following:<br>(i) do not include any development forward of the front façade building line<br>(ii) any side or rear extensions are no closer to the side boundary than the existing building<br>(iii) do not involve the construction or alteration of a second or subsequent building level. |
| PO 3.2<br>Adaptive reuse and revitalisation of buildings to retain local character consistent with the Character Area Statement. | DTS/DPF 3.2<br>None are applicable. |
| Ancillary Development | |
| PO 4.1<br>Ancillary development, including carports, outbuildings and garages, complements the character of the area and associated building(s). | DTS/DPF 4.1<br>None are applicable. |
| PO 4.2<br>Ancillary development, including carports, outbuildings and garages, is located behind the building line of the principal building(s). | DTS/DPF 4.2<br>None are applicable. |
| PO 4.3<br>Advertising and advertising hoardings are located and designed to complement the building, be unobtrusive, be below the parapet line, not conceal or obstruct significant architectural elements and detailing, or dominate the building or its setting. | DTS/DPF 4.3<br>None are applicable. |
| PO 4.4<br>Fencing and gates closer to a street boundary (other than a laneway) than the elevation of the associated building are consistent with the traditional period, style and form of the of the associated building. | DTS/DPF 4.4<br>None are applicable. |
| Land Division | |
| PO 5.1<br>Land division creates allotments that are:<br>(a) compatible with the surrounding pattern of subdivision in the character area<br>(b) of a dimension to accommodate buildings of a bulk and scale that reflect existing buildings and setbacks in the character area. | DTS/DPF 5.1<br>None are applicable. |
| Context and Streetscape Amenity | |
| PO 6.1<br>The width of driveways and other vehicle access ways are consistent with the prevalent width of existing driveways in the character area. | DTS/DPF 6.1<br>None are applicable. |
| PO 6.2<br>Development maintains the valued landscape pattern and characteristics that contribute to the character area, except where they compromise safety, create nuisance, or impact adversely on existing buildings or infrastructure. | DTS/DPF 6.2<br>None are applicable. |

### Character Area Statements

| Statement# | Statement |
|---|---|
| **Character Areas affecting Alexandrina Council** | |
| AlexC1 | **Milang Character Area Statement (Alex-C1)**<br>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.<br>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.<br>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table. |

| | |
|---|---|
| Eras, themes and context | Small scale shops.<br>Daranda Terrace comprises tourism and waterfront recreation activities. |
| Allotments, subdivision and built form patterns | Buildings typically of square or rectangular floor plans.<br>Front and side boundary setbacks are generally consistent. |
| Architectural styles, detailing and built form features | Gable, hipped or pitches roofs and verandahs.<br>Advertisements comprise small signs under verandahs and bellow parapets. |
| Building height | Predominantly single storey. |
| Materials | Stone.<br>Slate.<br>Rendered masonry walling.<br>Brick and stone quoins.<br>Corrugated iron.<br>Shingle and slate roofing. |
| Fencing | *[Not stated]* |
| Setting, landscaping, streetscape and public realm features | Car parking and service areas are to the rear of buildings or screened by fencing or landscaping. |
| Representative Buildings | *[Not identified]* |

| | |
|---|---|
| **Character Areas affecting The Barossa Council** | |
| BaroC1 | **Eden Valley Character Area Statement (Baro-C1)**<br>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.<br>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.<br>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table. |

| | |
|---|---|
| Eras, themes and context | Pre-1950. |
| Allotments, subdivision and built form patterns | Grid/organic street pattern. |
| Architectural styles, detailing and built form features | Mixture of housing styles. |
| Building height | *[Not stated]* |
| Materials | *[Not stated]* |
| Fencing | *[Not stated]* |
| Setting, landscaping, streetscape and public realm features | 'Traditional' verge treatments exist in the main street (front boundary, footpath, street trees and gutter). |
| Representative Buildings | *[Not identified]* |

| | |
|---|---|
| | **Springton Character Area Statement (Baro-C2)**<br>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.<br>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.<br>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table. |

| | |
|---|---|
| Eras, themes and context | Pre-1950. |
| Allotments, subdivision and built form patterns | Grid pattern. |

| Statement# | Statement | |
|---|---|---|
| BaroC2 | Architectural styles, detailing and built form features | Mixture of housing styles of relatively modern design. |
| | Building height | Generally single storey detached dwellings. |
| | Materials | *[Not stated]* |
| | Fencing | *[Not stated]* |
| | Setting, landscaping, streetscape and public realm features | 'Traditional' verge treatments exist in the main street (front boundary, footpath, street trees and gutter). |
| | Representative Buildings | *[Not identified]* |

**Angaston Character Area Statement (Baro-C3)**

The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.

The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.

| | | |
|---|---|---|
| BaroC3 | Eras, themes and context | Late 1800s.<br>1920s, second wave of prosperity for Angaston in the 20th Century. |
| | Allotments, subdivision and built form patterns | *[Not stated]* |
| | Architectural styles, detailing and built form features | Residences in 1879-80.<br>Residences of the 1920s. |
| | Building height | *[Not stated]* |
| | Materials | Local stone. |
| | Fencing | *[Not stated]* |
| | Setting, landscaping, streetscape and public realm features | Tree lined streets, attractive gardens, varied topography, coprosma hedges in front of some houses (retaining early post and wire fence structures), mature gums along the creek, and cypress hedges to many 1920s dwellings. |
| | Representative Buildings | Identified - refer to SA planning database. |

**Character Areas affecting City of Campbelltown**

**Poet's Corner, Tranmere Character Area Statement (Cam-C1)**

The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.

The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.

| | | |
|---|---|---|
| CamC1 | Eras, themes and context | Residential. |
| | Allotments, subdivision and built form patterns | Low site coverage, large front and side building set-backs from property boundaries. Substantial allotment widths, consistent pattern of driveway access from the street to garaging and large landscaped open spaces.<br>Detached dwellings at low densities. |
| | Architectural styles, detailing and built form features | Villas and inter-war bungalows on large allotments with wide frontages, set within well-established landscaped gardens and streets.<br>Consistent roof forms and pitches.<br>Garages, carports and outbuildings are low in scale and generally located to the rear of dwellings or to the side, well set back from the front facade. |
| | Building height | Predominantly one storey buildings, with attic or loft spaces contained within the roof form, or two storey additions to the rear of dwellings. |
| | Materials | Red brick, stone and masonry building materials. Roofs of terracotta tiles or red painted corrugated iron. |
| | Fencing | Low, open fencing to 1 metre in height, providing views to the built form. Low picket fencing, solid brush fencing, stone or masonry materials, wire and creepers, and hedges.<br>Some high masonry fences specifically along Magill and Glynburn Roads. |
| | Setting, landscaping, streetscape and public realm features | Avenues of street tree planting make an important contribution to the landscape character and visual amenity. Generally single width driveways, located to protect mature street trees.<br>Lawns and vegetated gardens. |
| | Representative Buildings | Identified - refer to SA planning database. |

**Character Areas affecting Clare and Gilbert Valleys Council**

**Auburn Character Area Statement (CGV-C1)**

The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.

The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.

| | | |
|---|---|---|
| CGVC1 | Eras, themes and context | Buildings constructed in the 19th century. |
| | Allotments, subdivision and built form patterns | Original land division pattern, street layout and setback patterns. |
| | Architectural styles, detailing and built form features | Verandahs. Original architectural styles. |
| | Building height | 1-2 storeys, with 2 storey buildings generally for retail and civic uses. |
| | Materials | *[Not stated]* |
| | Fencing | Front fences and gates of timber pickets, pier and plinth masonry, wrought iron, brush or masonry not exceeding 1.2m. |
| | Setting, landscaping, streetscape and public realm features | Established trees. Residential amenity. |
| | Representative Buildings | Identified - refer to SA planning database. |

**Character Areas affecting City of Holdfast Bay**

**Seacliff Character Area Statement (HoB-C1)**

The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.

The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.

| | | |
|---|---|---|
| | Eras, themes and context | 1880s to 1920s west of the railway line.<br>1930s to 1960s east of the railway line. |
| | Allotments, subdivision and built form patterns | 19th century rectilinear road pattern, with small allotment sizes.<br>Large allotments and frontages. |

| Statement# | | Statement |
|---|---|---|
| HoBC1 | | Narrow streets, limited street trees.<br>Reduced setbacks.<br>Varied front setbacks.<br>Side setbacks provide visual spacing between dwellings. |
| | Architectural styles, detailing and built form features | Range of architectural styles.<br>Still some remaining examples of bungalows west of the railway line.<br>Influence of Spanish Mission style architecture.<br>Rectilinear plan forms.<br>High degree of modulation and articulation.<br>Low scale.<br>Steep roof pitches in the order of 25 to 35 degrees.<br>Short roof spans.<br>Hip and gable roof forms.<br>Deep verandahs and porches.<br>Fine-grain detail in elements such as plinths, string courses, projecting sills.<br>High solid to void ratio.<br>Vertical proportions in windows and doors. |
| | Building height | Single storey. |
| | Materials | Red and cream brick.<br>Stone.<br>Render.<br>Corrugated iron roofing.<br>Terra cotta tile roofing.<br>Varied building materials across the area. |
| | Fencing | Fencing associated with the era and style of the building, and providing views to the building. |
| | Setting, landscaping, streetscape and public realm features | Railway line is a significant feature, with associated landscape corridor. Sloping landform.<br>Coastal views. |
| | Representative Buildings | *[Not identified]* |
| HoBC2 | **Brighton Character Area Statement (HoB-C2)**<br>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.<br>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.<br>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table. | |
| | Eras, themes and context | 1900s to 1930s. |
| | Allotments, subdivision and built form patterns | Medium to large sized allotments.<br>Linear and curvilinear street layout adjacent Dunluce Castle.<br>Large allotment sizes and frontages.<br>Large front setbacks.<br>Small side setbacks, including driveway access down one side of the site and a small setback from the non-driveway side boundary. |
| | Architectural styles, detailing and built form features | Federation style dwellings.<br>Inter-War style dwellings including: Tudor Revival, Californian bungalow, Art Deco, Some Spanish mission.<br>Some Post-War Austerity and Conventional style dwellings.<br>Rectilinear plan forms.<br>High degree of modulation and articulation.<br>Low scale.<br>Steep roof pitches in the order of 25 to 35 degrees.<br>Short roof spans.<br>Hip and gable roof forms.<br>Deep verandahs and porches.<br>Fine-grain detail in elements such as plinths, string courses, projecting sills.<br>High solid to void ratio.<br>Vertical proportions in windows and doors.<br>Garages, carports and outbuildings are low in scale and generally located unobtrusively to the rear of dwellings or to the side, well set back from the front facade. |
| | Building height | Single storey. |
| | Materials | Corrugated iron or terracotta tile roofing.<br>Brick, stone, timber and part-rendered finishes.<br>Fenestration, doorways, windows, eaves and roof forms generally dark in colour. |
| | Fencing | Fencing associated with the era and style of the building, and providing views to the building. Woven wire. Low masonry with geometric steel. Low masonry (stepped). Brush fencing up to 1.4m in height with either rolled or metal capping. |
| | Setting, landscaping, streetscape and public realm features | Heavily landscaped settings, mature trees.<br>Mature and uniform street tree settings on Linwood and Athelney Streets.<br>Outlook toward a row of heritage listed Eucalyptus trees on Alfreda Street.<br>Heritage listed Dunluce Castle. |
| | Representative Buildings | *[Not identified]* |
| | **Glenelg East Character Area Statement (HoB-C3)**<br>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.<br>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.<br>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table. | |

| Statement# | | Statement |
|---|---|---|
| HoBC3 | Eras, themes and context | 1900s to 1930s. |
| | Allotments, subdivision and built form patterns | Medium to large sized allotments.<br>Garden suburb street layout, centred around Da Costa Park in the area south of the tramway, and Sandison reserve north of the tramway.<br>Original subdivisions of Helmsdale, Grovene and Dunleath.<br>Predominantly large allotment sizes and frontages south of the tramway, larger allotment sizes and frontages north of the tramway.<br>Large front setbacks.<br>Small side setbacks on one side, smaller on the other. |
| | Architectural styles, detailing and built form features | Federation style dwellings.<br>Inter-War style dwellings including: Tudor Revival, Californian bungalow, Art Deco, Some Spanish mission.<br>Some Post-War Austerity and Conventional style dwellings.<br>Rectilinear plan forms.<br>High degree of modulation and articulation.<br>Low scale.<br>Steep roof pitches in the order of 25 to 35 degrees.<br>Short roof spans.<br>Hip and gable roof forms.<br>Deep verandahs and porches.<br>Fine-grain detail in elements such as plinths, string courses, projecting sills.<br>High solid to void ratio.<br>Vertical proportions in windows and doors.<br>Garages, carports and outbuildings are low in scale and generally located unobtrusively to the rear of dwellings or to the side, well set back from the front facade. |
| | Building height | Single storey. |
| | Materials | Consistent with the materials used in the 1920s to 1930s period.<br>Corrugated iron or terracotta tile roofing. Brick, sandstone, and stucco and part-rendered finishes.<br>Roofing, facades and fenestration in natural red brick and terracotta colouration.<br>Timber joinery including fascia, barges, window frames, door frames and doors.<br>Timber strapping on Inter-War dwelling gables. |
| | Fencing | Fencing associated with the era and style of the building, and providing views to the building.<br>Woven wire. Low masonry with geometric steel. Low masonry (stepped). Cyclone wire and steel or timber frame.<br>Brush fencing up to 1.4m in height with either rolled or metal capping. |
| | Setting, landscaping, streetscape and public realm features | Centred around Da Costa Park historic area, and its associated built form and open space.<br>Glenelg Tramway and linear reserve between Maxwell and Dunbar Terraces.<br>Norfolk Island pines and other mature street trees throughout. |
| | Representative Buildings | *[Not identified]* |
| HoBC4 | **Glenelg Character Area Statement (HoB-C4)**<br>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.<br>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.<br>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table. | |
| | Eras, themes and context | 1840s - 1930s.<br>Earliest period of settlement of South Australia.<br>Subdivision in 1839 by Light Finnis and Co.<br>Growth period in 1920s associated with increase in holidaymaking and leisure pursuits. |
| | Allotments, subdivision and built form patterns | Uniform street layout, an extension of the original Glenelg Village set out in 1839 by Colonel William Light.<br>Rear laneways to service dwellings on Gordon and Rose Streets, and buildings on Brighton Road.<br>Range allotment sizes.<br>Medium to very large frontages.<br>Small setbacks.<br>Side setbacks provide visual spacing between dwellings.<br>Consistency of setbacks in streetscapes. |
| | Architectural styles, detailing and built form features | Early symmetrical and asymmetrical cottages of low scale and simple form with restrained detailing.<br>Mid-Victorian Period cottages and villas (symmetrical and asymmetrical), semi-detached cottages and row dwellings with detailing typical of the era including verandahs, cast iron lacework, hipped and gable roof forms, plaster and render mouldings.<br>Inter-War buildings, mostly Bungalows.<br>Low scale to medium, relatively small dimensions and basic building details.<br>Many dwellings without vehicle garaging.<br>Garages, carports and outbuildings, where they exist, are low in scale and simple in form. They are located unobtrusively, to the rear of dwellings or the principal building on the site or, alternatively to the side and well-setback from the front façade.<br>Rectilinear plan forms.<br>High degree of modulation and articulation.<br>Low scale.<br>Steep roof pitches in the order of 30 to 40 degrees (slightly lower on Inter-War buildings).<br>Short roof spans.<br>Hip and gable roof forms.<br>Concave, bullnose and straight-pitched verandahs.<br>Fine-grain detail in elements such as plinths, string courses, projecting sills.<br>High solid to void ratio.<br>Vertical proportions in windows and doors.<br>Garages, carports and outbuildings are low in scale and generally located unobtrusively to the rear of dwellings or to the side, well set back from the front facade. |
| | Building height | Predominantly single storey but some two storey. |
| | Materials | Consistent with the materials used in the 1840s to 1930s period.·Bluestone or sandstone walls (unpainted). |

| Statement# | | Statement |
|---|---|---|
| | | Some brick.<br>Brick or rendered quoin work and plinths.<br>Corrugated iron roofing.<br>Timber joinery including verandah posts and framing, fascia, barges, window frames, door frames and doors. |
| | Fencing | Fencing associated with the era and style of the building, and providing views to the building.<br>Timber picket, timber dowel, timber paling.<br>Hedging.<br>Low masonry plinth with cast iron or wrought iron in a traditional arrangement.<br>Woven wire or low masonry with or without geometric steel for Inter-war buildings.<br>Cyclone wire and steel or timber frame. |
| | Setting, landscaping, streetscape and public realm features | Clearly defined setbacks and uniform front landscaping. |
| | Representative Buildings | *[Not identified]* |
| HoBC5 | **Glenelg North (West of Tapleys Hill Road) Character Area Statement (HoB-C5)**<br>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.<br>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.<br>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table. | |
| | Eras, themes and context | 1850s to 1920s. |
| | Allotments, subdivision and built form patterns | Rectangular allotment shapes in varying sizes.<br>Some allotments have been amalgamated to make way for residential flat buildings and units.<br>Mix of front setback patterns, with older dwellings having small front setbacks, and later dwellings set further back from the street.<br>Generally small front setbacks.<br>Side setbacks provide visual spacing between dwellings. |
| | Architectural styles, detailing and built form features | Small scale, simplified building forms.<br>Single storey detached and semi-detached villas.<br>Single storey detached cottages.<br>Early symmetrical and asymmetrical cottages of low scale and simple form with restrained detailing.<br>Mid-Victorian Period cottages and villas (symmetrical and asymmetrical), semi-detached cottages and row dwellings with detailing typical of the era including verandahs, cast iron lacework, hipped and gable roof forms, plaster and render mouldings.<br>Some Inter-War buildings, mostly Tudor style.<br>Many dwellings without vehicle garaging.<br>Garages, carports and outbuildings, where they exist, are low in scale and simple in form. They are located unobtrusively, to the rear of dwellings or the principal building on the site or, alternatively to the side and well-setback from the front façade.<br>Rectilinear plan forms.<br>High degree of modulation and articulation.<br>Low scale.<br>Steep roof pitches in the order of 30 to 40 degrees (slightly lower on Inter-War buildings).<br>Short roof spans.<br>Hip and gable roof forms.<br>Concave, bullnose and straight-pitched verandahs.<br>Fine-grain detail in elements such as plinths, string courses, projecting sills.<br>High solid to void ratio.<br>Vertical proportions in windows and doors. |
| | Building height | Predominantly single storey but some two storey. |
| | Materials | Consistent with the materials used in the 1840s to 1920s period.·Bluestone or sandstone walls. Corrugated iron roofing. Timber joinery including verandah posts and framing, fascia, barges, window frames, door frames and doors. |
| | Fencing | Fencing associated with the era and style of the building, and providing views to the building. Timber picket, timber dowel, timber paling.<br>Hedging.<br>Low masonry plinth with cast iron or wrought iron in a traditional arrangement.<br>Woven wire or low masonry with or without geometric steel for Inter-war buildings. |
| | Setting, landscaping, streetscape and public realm features | Small suburban feel, within proximity to the open spaces of the Patawalonga Reserve.<br>Strong sense of uniformity of buildings in some areas. |
| | Representative Buildings | *[Not identified]* |
| | **Glenelg North (East of Tapleys Hill Road) Character Area Statement (HoB-C6)**<br>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.<br>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.<br>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table. | |
| | Eras, themes and context | 1880s to 1920s. |
| | Allotments, subdivision and built form patterns | Orderly subdivision pattern.<br>Originally subdivided in 1841.<br>Range of allotment sizes with wide frontages.<br>Smaller allotment sizes with rear laneways between Alison and Bagshaw Streets.<br>Medium front setbacks.<br>Side setbacks provide visual spacing between dwellings. |
| | Architectural styles, detailing and built form features | Larger scale single storey detached dwellings.<br>Bungalow style dwellings with large front and side boundary setbacks.<br>Examples of smaller scale dwellings between Alison and Bagshaw Streets.<br>Early symmetrical and asymmetrical cottages of low scale and simple form with restrained detailing. |

| Statement# | | Statement |
|---|---|---|
| HoBC6 | | Mid-Victorian Period cottages and villas (symmetrical and asymmetrical), semi-detached cottages and row dwellings with detailing typical of the era including verandahs, cast iron lacework, hipped and gable roof forms, plaster and render mouldings.<br>Some Inter-War buildings, mostly Tudor style.<br>Many dwellings without vehicle garaging.<br>Rectilinear plan forms.<br>High degree of modulation and articulation.<br>Low scale.<br>Steep roof pitches in the order of 30 to 40 degrees (slightly lower on Inter-War buildings).<br>Short roof spans.<br>Hip and gable roof forms.<br>Concave, bullnose and straight-pitched verandahs.<br>Fine-grain detail in elements such as plinths, string courses, projecting sills.<br>High solid to void ratio.<br>Vertical proportions in windows and doors.<br>Garages, carports and outbuildings, where they exist, are low in scale and simple in form. They are located unobtrusively, to the rear of dwellings or the principal building on the site or, alternatively to the side and well-setback from the front façade. |
| | Building height | Predominantly single storey but some two storey. |
| | Materials | Consistent with the materials used in the 1840s to 1920s period.<br>Sandstone and red brick facades.<br>Corrugated iron roofing.<br>Timber joinery including verandah posts and framing, fascia, barges, window frames, door frames and doors. |
| | Fencing | Fencing associated with the era and style of the building, and providing views to the building.<br>Timber picket, timber dowel, timber paling.<br>Hedging.<br>Low masonry plinth with cast iron or wrought iron in a traditional arrangement.<br>Woven wire or low masonry with or without geometric steel for Inter-war buildings. |
| | Setting, landscaping, streetscape and public realm features | Combination of wide, open streetscapes, and more relatively narrow laneways.<br>Frontages on MacFarlane and Bagshaw Streets facing the Old Gum Tree Reserve.<br>St Leonard's Primary School is a significant presence to the locality. |
| | Representative Buildings | *[Not identified]* |

**Character Areas affecting City of Marion**

MarC1

**Edwardstown, Glandore, Glengowrie and Plympton Park Character Area Statement (Mar-C1)**

The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.

The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.

| | |
|---|---|
| Eras, themes and context | 1920s to 1950. |
| Allotments, subdivision and built form patterns | Conventional grid type pattern of streets.<br>Large allotments.<br>Predominantly detached dwellings.<br>Some examples of semi-detached dwellings in Glandore and Glengowrie. |
| Architectural styles, detailing and built form features | Single storey detached dwellings.<br>Occasional single storey semi-detached dwellings.<br>Mixture of Bungalow, Art Deco, Spanish Mission, Tudor.<br>Articulated roof forms (gable, Dutch gable, hips).<br>Chimneys, projecting front verandahs, porches, porticos.<br>Garages and carports located behind main face of dwelling. |
| Building height | Single storey.<br>2nd storey in roofline. |
| Materials | Timber frame windows.<br>External walls constructed of mixture of red brick, painted brick, stone and rendered masonry.<br>Roofing - galvanised iron/replaced with colorbond, terracotta tiles. |
| Fencing | Low height - rendered masonry, timber picket, post and wire, tubular. |
| Setting, landscaping, streetscape and public realm features | Tree lined streets.<br>Well maintained traditional gardens.<br>Mature vegetation in private properties.<br>Low scale dwellings.<br>Housing well setback from street. |
| Representative Buildings | *[Not identified]* |

**Marion Character Area Statement (Mar-C2)**

The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.

The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.

| | |
|---|---|
| Eras, themes and context | Original housing stock - predominantly 1950s to 1970s.<br>More recent infill scattered throughout. |
| Allotments, subdivision and built form patterns | Grid type pattern of streets, partly angular due to diagonal alignment of railway resulting in some irregular shaped allotments.<br>Large allotments.<br>Detached dwellings. |
| Architectural styles, | Predominantly single storey detached dwellings. |

| Statement# | | Statement |
|---|---|---|
| | detailing and built form features | Small number of 2 storey dwellings.<br>Original housing stock - mixture of austerity, conventional 1950s.<br>Roof forms (gable, hips). |
| MarC2 | Building height | Original housing stock is generally single storey.<br>Recent dwellings are predominantly single storey however there are more examples of 2 storey. |
| | Materials | External walls predominantly a mixture of brick (variety of colours) and rendered masonry.<br>Roofing - original housing has terracotta tiles. More recent replacement housing has colorbond. |
| | Fencing | No dominant fencing style or material.<br>Mixed with open front yards. |
| | Setting, landscaping, streetscape and public realm features | Tree lined streets.<br>Well maintained leafy garden character.<br>Mature vegetation in private properties.<br>Low scale dwellings.<br>Housing well setback from street.<br>Visual separation between houses. |
| | Representative Buildings | *[Not identified]* |

**Character Areas affecting Mid Murray Council**

**Residential Character Area Statement (MiMu-C1)**

The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.

The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.

| | | |
|---|---|---|
| MiMuC1 | Eras, themes and context | Buildings of interest reflecting the original development of the town. |
| | Allotments, subdivision and built form patterns | Early subdivision south of Victoria Street, between the cliff face and east of Walker and Berryman Avenue.<br>Larger allotments reflecting the original subdivision pattern. Wide street frontages and generous setbacks to boundaries. |
| | Architectural styles, detailing and built form features | Provision of mainly detached dwellings with some semi-detached dwellings. |
| | Building height | Buildings up to two storeys in height. |
| | Materials | Original or otherwise complementary materials, colours and finishes. |
| | Fencing | *[Not stated]* |
| | Setting, landscaping, streetscape and public realm features | Landscaping to soften development. |
| | Representative Buildings | [Not identified] |

**Character Areas affecting City of Mitcham**

**Plains Character Area Statement (Mit-C1)**

The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.

The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.

| | | |
|---|---|---|
| MitC1 | Eras, themes and context | Mix of pre-war, inter-war and post-war housing of a low density detached nature comprising symmetrical cottages, villas, bungalows, Tudor, art deco and austerity. |
| | Allotments, subdivision and built form patterns | Established traditional grid neighbourhoods, with a high presence of pre-1940s housing stock.<br>Consistent allotment pattern, frontage widths and setbacks of buildings to streets and to each other creating a strong rhythm and pattern of development. Consistent pattern of side setbacks, which are generally larger on one side of allotments.<br>Low site coverage supporting strong landscaped settings and space that frame and give context to dwelling forms.<br>Absence of row dwellings and residential flat buildings. |
| | Architectural styles, detailing and built form features | Single storey detached dwellings at low densities with regular large front and side setbacks.<br>Intact pattern of setbacks and spacings between buildings.<br>Prominence of gables and verandahs which are reflective of the building types in these areas. The use of parapets to front facades are a rarely visible built form element in the area's established streetscape character.<br>Roof forms consist of gabled, hipped and Dutch gable at pitches that reflect the prevailing building size, style and era.<br>High solid to void ratios within building facades.<br>Garaging is a minor built form element and subordinate to the principal dwelling form when viewed from the streetscape.<br>Garaging is in the form of single garages situated to the side of dwellings, setback behind the front building line and comprising wall heights and roof forms that are lower than the associated dwelling. |
| | Building height | Single storey appearance with second storeys typically not visible from the street and characteristically integrated within the roof form or behind roof ridges. |
| | Materials | Building materials consist of traditional housing materials such as brick, stone and rendered masonry finishes to walls and tile or corrugated metal roofs.<br>Dwelling facades display a range of materiality and finishes producing a richness of textures and colour schemes. |
| | Fencing | Low and open fencing styles consisting of timber picket, post and wire, low stone or brick structures or hedges.<br>Limited use of high solid fencing except along railway or arterial road alignments. |
| | Setting, landscaping, streetscape and public realm features | Important contribution of front yards, landscaping and street trees to overall character of the area.<br>Front yards are generously landscaped spaces with a high proportion of vegetation to paved surfaces.<br>Driveways are aligned to side boundaries and are of single width.<br>Existing street trees and road verges form important streetscape features that contribute to the public realm appearance producing a pattern of plantings protected by isolating driveway entranceway and crossover locations. |
| | Representative Buildings | *[Not identified]* |

**Springfield Character Area Statement (Mit-C2)**

The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.

The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.

| | | |
|---|---|---|
| | Eras, themes and context | 1930s to present.<br>Pre and post war housing stock as well as contemporary housing styles. |

| Statement# | | Statement |
|---|---|---|
| | | Sense of grandeur and spaciousness. |
| | Allotments, subdivision and built form patterns | Intact original subdivision pattern.<br>Winding road network that follows land form and results in irregular shaped allotments.<br>Detached dwellings on very large allotments and very wide frontages which contribute to sense of spaciousness and scale.<br>Absence of row dwellings and residential flat buildings.<br>Buildings are set back very large distances from street frontages and side boundaries. Consistent pattern of side setbacks, which are generally larger on one side of allotments.<br>Low site coverage of buildings across large sites.<br>Strong landscape setting for buildings, particularly in front yards and between buildings, contributes to sense of grandeur. |
| MitC2 | Architectural styles, detailing and built form features | Eclectic mix of housing stock, styles and architectural features.<br>High quality materials, finishes and detailing associated with grand homes and mansions.<br>Increasing gradient of slopes to the east of the Area promotes split level designs and undercroft garaging formats. |
| | Building height | Predominantly buildings of up to two storeys, with three storeys where cut into sloping sites (incorporating undercroft garaging). |
| | Materials | Brick, stone, rendered masonry finishes to walls.<br>Tiles or metal roofing.<br>High solid to void ratio to facades.<br>Visible retaining walls typically stone or rendered in material. |
| | Fencing | Diversity of fencing treatments and styles.<br>Solid fencing above 1 metre and walls screened with dense landscaping along the street frontage. |
| | Setting, landscaping, streetscape and public realm features | A mixture of mature Eucalypt and exotic street trees provide an overall visual coherence to the public realm.<br>Retaining walls to street frontages on high side of street, with raised front gardens above.<br>Formal garden settings with mature trees are an important element in established character. |
| | Representative Buildings | *[Not identified]* |

**Hills Character Area Statement (Mit-C3)**

The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.

The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.

| | | |
|---|---|---|
| MitC3 | Eras, themes and context | Low density spacious setting with detached dwellings on large sites within natural vegetated settings with very few other housing types. |
| | Allotments, subdivision and built form patterns | Variations in land forms, including some steeply sloping locations, produce curvilinear road patterns and irregular shaped allotments in terms of size and frontage widths.<br>Land slope leads to a variety of front setbacks and informs dwelling orientation and height relative to the street. Side setbacks are generally larger on one side of allotments.<br>Simple housing forms of a single and two storey nature (including spilt level) that respond to land form.<br>Garaging typically to side of dwelling or as an undercroft structure. Garaging is only forward of dwellings on steeply sloping sites and is in the form of standalone simple open structures.<br>Row dwellings, group dwellings and residential flat buildings are not representative of the predominant built form in the area. |
| | Architectural styles, detailing and built form features | The area's built form exhibits a sense of spaciousness due to limited site coverage and generous front and side setbacks.<br>Development responds to land form and does so in a way that blends with landscape character by minimising cut and fill and vegetation clearance.<br>Where visible to the street, large differences in levels between dwellings and roadways are battered and landscaped.<br>Where parking structures are forward of building lines, they are of an open form and low roof profile. |
| | Building height | Low profile roof forms and pitches reflect the land form are a common feature.<br>One and two storeys typically responding to the land form. |
| | Materials | Building materials, colours and finishes assist in blending and receding buildings into the natural landscape character rather than openly contrasting and drawing attention to buildings.<br>Predominantly darker subdued natural earthy tones for wall and roof materials. Lighter or paler colour complement the surrounding landscape in their tone.<br>Highly reflective and bright, vivid colour finishes to walls and roof materials, such as stark white or similar are rarely found in the area. |
| | Fencing | No presence of front fencing forward of the building line is a characteristic of the area, and in limited cases where front fencing is present, it is low or open in nature.<br>The area features retaining walls that are mostly screened or are natural in form using mainly stone or natural rock, with walls being low in height, terraced and set well back from boundaries and providing landscaped space.<br>High concrete sleeper walls are not a part of the built form streetscape. |
| | Setting, landscaping, streetscape and public realm features | Strong landscape character attributes derive from extensive retention of native vegetation on sites, between buildings and within informal road verges. The presence of vegetation on sites, is a defining feature of the area.<br>Streets retain an open, often spacious setting characterised by spaces between buildings which contain landscaping.<br>Driveways on sloping sites meander within front yards of dwellings, with minimal cut and fill of the land surface, and feature landscaping on their edges. |
| | Representative Buildings | *[Not identified]* |

**Character Areas affecting City of Norwood, Payneham and St Peters**

**Evandale/Maylands/Stepney Character Area Statement (NPSP-C1)**

The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.

The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.

| | | |
|---|---|---|
| NPSPC1 | Eras, themes and context | Pre-1940.<br>Primarily low-scale and low density residential. Detached (including battleaxe in Maylands, Evandale and Payneham), semi-detached and group dwellings. |
| | Allotments, subdivision and built form patterns | Original, pre-1940s land division patterns.<br>Setbacks from boundaries creating space between dwellings. |
| | Architectural styles, detailing and built form features | Traditional pre-1940s roof forms, eaves, front verandah treatments, window proportions.<br>Semi-detached dwellings often presenting as single dwellings. |
| | Building height | Single storey, with some two storey to the rear of buildings (with single storey appearance to primary street frontage). |
| | Materials | Varied, traditional materials. |
| | Fencing | Low, open-style fencing that allows connectivity to the street.<br>Front fencing and side fencing (between the front of a dwelling and the street) and landscaping are important components of streetscape character.<br>Some more solid forms of fencing along arterial roads. |

| Statement# | Statement | |
|---|---|---|
| | Setting, landscaping, streetscape and public realm features | Vehicle garaging, driveways and front fences are not dominant streetscape elements.<br>In most areas mature street tree plantings provide an overall visual coherence to the streets.<br>Soft front landscaping, including trees.<br>Some limited advertising and signage which complements scale and architecture of associated buildings. |
| | Representative Buildings | *[Not identified]* |
| NPSPC2 | **Hackney Character Area Statement (NPSP-C2)**<br>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.<br>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.<br>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table. | |
| | Eras, themes and context | Pre- 1940.<br>Primarily low-scale and low density residential. Detached, semi-detached, group and row dwellings. Residential flat buildings. |
| | Allotments, subdivision and built form patterns | Original, pre-1940s land division patterns.<br>Small areas of Hackney located along the southern side of Richmond Street and between Hackney Road and St Peters College. Existing development comprises a mix of compact and large allotments with a number of Local Heritage Places, pre-1940s dwellings and multi-unit sites. |
| | Architectural styles, detailing and built form features | Traditional pre-1940s roof forms, eaves, front verandah treatments, window proportions.<br>Semi-detached dwellings often presenting as single dwellings. |
| | Building height | Two storey along Hackney Road.<br>In other locations, single storey, with some two storey to the rear of buildings (with single storey appearance to primary street frontage). |
| | Materials | Varied, traditional materials. |
| | Fencing | Low, open-style fencing that allows connectivity to the street.<br>Front fencing and side fencing (between the front of a dwelling and the street) and landscaping are important components of streetscape character.<br>Some more solid forms of fencing along arterial roads. |
| | Setting, landscaping, streetscape and public realm features | Vehicle garaging, driveways and front fences are not dominant streetscape elements.<br>In most areas mature street tree plantings provide an overall visual coherence to the streets.<br>Soft front landscaping, including trees.<br>Some limited advertising and signage which complements scale and architecture of associated buildings. |
| | Representative Buildings | *[Not identified]* |
| NPSPC3 | **Heathpool/Marryatville Character Area Statement (NPSP-C3)**<br>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.<br>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.<br>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table. | |
| | Eras, themes and context | Pre-1940.<br>Primarily low-scale and low density residential. Detached (including battleaxe in Marryatville east and west of Clapton Road), semi-detached and group dwellings. Residential flat buildings in Marryatville east and west of Clapton Road. |
| | Allotments, subdivision and built form patterns | Original, pre-1940s land division patterns. |
| | Architectural styles, detailing and built form features | Traditional pre-1940s roof forms, eaves, front verandah treatments, window proportions.<br>Semi-detached dwellings often presenting as single dwellings. |
| | Building height | Single storey, with some two storey to the rear of buildings (with single storey appearance to primary street frontage). |
| | Materials | Varied, traditional materials. |
| | Fencing | Low, open-style fencing that allows connectivity to the street.<br>Front fencing and side fencing (between the front of a dwelling and the street) and landscaping are important components of streetscape character.<br>Some more solid forms of fencing along arterial roads. |

NPSPC6

**Residential Character (Norwood) Area Statement (NPSP-C6)**

The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.

The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.

| | |
|---|---|
| Eras, themes and context | Residential. Detached (including battleaxe), semi-detached, row and group dwellings. Residential flat buildings.<br>Although the built form character throughout Norwood is relatively varied, there remains a strong theme associated with the original built form, which includes a significant number of Local Heritage Places and buildings constructed before 1940. |
| Allotments, subdivision and built form patterns | Rectilinear pattern of wide tree-lined major streets, intersected by narrow minor streets, with various eras of development overlaid. Broad mix of allotment sizes and a diversity of residential accommodation options.<br>The regular street grid pattern and the high level of vegetation, including mature street trees and landscaped gardens, are elements that assist in unifying the various eras of built form development in Norwood. |
| Architectural styles, detailing and built form features | Traditional pre-1940s roof forms, eaves, front verandah treatments, window proportions.<br>A mix of housing styles, including workers cottages, bungalows and villas and a variety of post war dwellings, including walk-up flats, townhouses and a range of contemporary detached, attached and group housing styles. This has, over the years, established a broad mix of allotment sizes and provided a diversity of residential accommodation options, including affordable housing.<br>Some undercroft or underground garages along western side of Osmond Terrace.<br>Semi-detached dwellings often presenting as single dwellings. |
| Building height | Generally single storey streetscape appearance. |
| Materials | Varied, traditional materials. |
| Fencing | Low, open-style fencing that allows connectivity to the street.<br>Front fencing and side fencing (between the front of a dwelling and the street) and landscaping are important components of streetscape character.<br>Some more solid forms of fencing along arterial roads. |
| Setting, landscaping, streetscape and public realm features | Distinct rectilinear pattern of wide tree-lined major streets, intersected by narrow minor streets.<br>Some limited advertising and signage which complements scale and architecture of associated buildings. |
| Representative Buildings | *[Not identified]* |

**Character Areas affecting City of Playford**

PlayC1

**Elizabeth South Character Area Statement (Play-C1)**

The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.

The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.

| | |
|---|---|
| Eras, themes and context | Late 1950s to early 1960s. |
| Allotments, subdivision and built form patterns | First stage of the post war planned Garden City north of Adelaide.<br>Layout and land division pattern involving irregular allotment shapes and curvilinear street pattern, typical of the planning and construction of Trust development in the late 1950s and early 1960s.<br>Large proportion of open space as parks and gardens.<br>Parks and mature trees in the landscape road reserve make a significant contribution to the character and amenity of the area.<br>Rectangular allotment shapes in varying sizes. Some allotments have been amalgamated to make way for residential flat buildings and units. Generally large front setbacks. Side setbacks provide visual spacing between dwellings. |
| Architectural styles, detailing and built form features | Small scale, simplified building forms consistent with South Australian Housing Trust development of the late 1950s early 1960s.<br>Single storey semi-detached and detached buildings. Dwellings being of brick and concrete block construction with varying stylistic treatments. Many dwellings without vehicle garaging.<br>Garages, carports and outbuildings, where they exist, are low in scale and simple in form. Rectilinear plan forms. Low scale. Hipped roof forms. |
| Building heights | Predominantly single storey. |
| Materials | Consistent with the materials used in the late 1950s to early 1960s period. Brick or rendered finishes. Corrugated iron roofing. Consistent, original windows dimensions facing the street. Main entrance incorporated into front elevation. |
| Fencing | Where fencing exits, it is predominantly in the form of low style open fencing along the primary road frontage. Corrugated iron fencing evident to side and rear boundaries. |
| Setting, landscaping, streetscape and public realm features | Low scale suburban feel, within proximity to the open spaces.<br>Strong sense of uniformity of buildings. |
| Representative Buildings | *[Not identified]* |

**Character Areas affecting City of Port Adelaide Enfield**

**Enfield Character Area Statement (PAdE-C1)**

The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.

The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.

| | |
|---|---|
| Eras, themes and | 1900s - 1950s built development. |

| Statement# | Statement | |
|---|---|---|
| | context | |
| | Allotments, subdivision and built form patterns | 'Garden suburb' street pattern and modified grid. Generous allotment sizes with wide frontages and substantial rear gardens. Consistent front set-backs. |
| PAdEC1 | Architectural styles, detailing and built form features | The area is large and features a wide variety of housing styles including bungalows, villas, Tudors, art deco, inter-war, cottages and mansions generally built before the 1940s.<br>There is also a significant stock of quality dwellings built between 1940 and 1950 that augment the pre 1940s dwellings and make an important contribution to the character of the area.<br>There is a notable concentration of bungalows in the western portion of the area and this style is a defining feature in this part of the area. |
| | Building height | Single storey. |
| | Materials | Materials consistent with the style of building and era of its original construction. |
| | Fencing | Low and/or open consistent with the style and era of construction of the building it is associated with.<br>Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms.<br>Fences associated with houses from the 1920s including capped timber palings, post and wire or woven wire fences. |
| | Setting, landscaping, streetscape and public realm features | The 1920s street pattern in this area is distinctive and reflects the garden suburb approach to town planning and subdivision.<br>It results in wide nature strips and reserves that together with mature, well landscaped gardens create road verges which contribute to an open and high quality residential character. |
| | Representative Buildings | *[Not identified]* |
| PAdEC2 | **Glanville (East of Carlisle) Character Area Statement (PAdE-C2)**<br>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.<br>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.<br>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table. | |
| | Eras, themes and context | 1860s - 1920s built development. |
| | Allotments, subdivision and built form patterns | The allotment pattern is shaped to accommodate the alignments of Carlisle Street and Causeway Road. Small allotment sizes with narrow frontages. Dwellings are built close to streets. |
| | Architectural styles, detailing and built form features | Housing styles include cottages, villas, inter-war and bungalows with cottages being the predominant and key defining feature in the area. |
| | Building height | Single storey. |
| | Materials | Materials consistent with the style of building and era of its original construction. |
| | Fencing | Low and/or open consistent with the style and era of construction of the building it is associated with.<br>Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms. Fences associated with houses from the 1920s including capped timber palings, post and wire or woven wire fences. |
| | Setting, landscaping, streetscape and public realm features | The area is nestled in to the north west of the Jervois Street bridge and contains many old workers' cottages. These are particularly prevalent in the area bound by Sutherland Street, Connor Street, Hart Street and Carlisle Street.<br>The area's simple low rise housing is strongly counterpointed by the modern, multi -storey Port Adelaide waterfront development to the east of the Outer Harbour rail line and provides an important representation of the early settlement and historical development of Port Adelaide. |
| | Representative Buildings | *[Not identified]* |
| PAdEC3 | **Largs / Largs North Character Area Statement (PAdE-C3)**<br>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.<br>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.<br>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table. | |
| | Eras, themes and context | 1900s - 1960s built development. |
| | Allotments, subdivision and built form patterns | Grid pattern with predominately east -west running streets with the long axes of allotments running north-south. Allotments fronting Lady Gowrie Drive and Military Road configured with their long axes running east-west so that buildings address these roads. A high degree of consistency in front setbacks.<br>Regular and generous rectangular allotments with wide frontages. |
| | Architectural styles, detailing and built form features | Wide range of housing styles including bungalows, villas, inter-war, Tudors, cottages and art deco. There is a strong concentration of pre 1940s built form. |
| | Building height | Predominately single storey but some two storey along parts of the Lady Gowrie Drive frontage. |
| | Materials | Materials consistent with the style of building and era of its original construction. |
| | Fencing | Low and/or open consistent with the style and era of construction of the building it is associated with.<br>Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms. Fences associated with houses from the 1920s including capped timber palings, post and wire or woven wire fences.<br>Original hedges retained, restored and where appropriate, extended, (utilizing the same species of planting currently in existence) as an alternative to constructed fences. |
| | Setting, landscaping, streetscape and public realm features | The southern boundary of this area adjoins the Semaphore/Largs Historic Area. It abuts the coast and contains a significant number of dwellings built during the period from 1915-1940.<br>It has a strong relationship with the coast and features tree lined streets with footpaths on both sides that provide vistas and ready walking access to the foreshore and beach.<br>Wide allotment frontages with generous spacing between driveways make a significant contribution to the walkability of these footpaths and the character of the area.<br>An imposing stand of Norfolk Island pines along Lady Gowrie Drive is a key feature of the area. |
| | Representative Buildings | *[Not identified]* |
| PAdEC4 | **Rosewater Character Area Statement (PAdE-C4)**<br>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.<br>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.<br>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table. | |
| | Eras, themes and context | 1900s - 1940s built development. |
| | Allotments, subdivision and built form patterns | Grid pattern distorted by the alignment of Newcastle Street. Small allotments with narrow frontages. Front setbacks are consistent on a street by street basis. |
| | Architectural styles, detailing and built form features | A variety of housing styles but cottages, villas and bungalows are the principle styles. |
| | Building height | Single storey. |
| | Materials | Materials of existing buildings retained where practicable and missing elements reinstated consistent with the style of building and era of its original construction. |

| Statement# | | Statement |
|---|---|---|
| | Fencing | Low and/or open consistent with the style and era of construction of the building it is associated with. Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms. Fences associated with houses from the 1920s including capped timber palings, post and wire or woven wire fences. |
| | Setting, landscaping, streetscape and public realm features | Newcastle Street is a well landscaped road that provides the main access into this area. It features well established avenue tree planting that includes plane trees and jacarandas. Simple, single storey, historic detached dwellings built on allotments with consistent widths laid out in a grid pattern, and the adjacent Mt Carmel school and the reserve to the north west, combine to establish a country town like character. |

**Character Areas affecting City of Prospect**

**Suburban Neighbourhood 1 Character Area Statement (Pr-C1)**

The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.

The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.

| | | |
|---|---|---|
| PrC1 | Eras, themes and context | Late 19th and Early 20th centuries residential. Limited post-1950s residential. Very low density and primarily detached dwellings. |
| | Allotments, subdivision and built form patterns | Original land division patterns following grid type street pattern and displaying rectangular, rectilinear allotments. Spacious allotments. Large allotment frontages. Large front setbacks. Street facing front dwelling facades. Large spaces around and between dwellings including generous and asymmetrical (one side larger than the other) side setbacks between dwellings. Typically two storey dwellings display consistent side boundary setbacks between building levels. |
| | Architectural styles, detailing and built form features | Majority bungalows and villas of a significant scale.<br>Pitched roofs with their vertical proportion similar to wall height and typically around 25 to 49 degree pitch.<br>Prominent front verandahs of bull-nose or concave design.<br>Moderate front façade detailing and articulation (wall off-sets, verandahs and deep eaves) with walls with a solid to void ratio of greater than 1:1 and fenestrations showing a vertical prominence. |
| | Building height | Primarily single storey presentation to the street with two storey components sited behind.<br>1 to 2 storey dwellings with vertical proportions consistent with traditional dwellings (wall height at least 3 metres and no more than 3.6 metres for single storey and up to 7 metres for two storeys.<br>Large scale buildings in context with large to very large allotments and frontages. |
| | Materials | Stone, brick and rendered finishes.<br>Detailing around doors, windows, wall edges and gables.<br>Limited colour palette for the majority of building façade (sandstone to reds; bluestone and grey tones) with colour highlights in the detailing. |
| | Fencing | Front fences forward of the building are of an open style and low in height (to 1.2 metres high). Fencing style associated with dwelling style and era of development. Some more solid fencing of standard height along major roads. |
| | Setting, landscaping, streetscape and public realm features | Leafy public realm that visually dominates or supports the built form.<br>Extensively landscaped front yards with mature vegetation/tree canopy. Minimal hard and artificial surfaces. Mature vegetation in public realm. Garages and carports are designed and sited to be subordinate to the main dwelling. Access points are narrow and consolidated. |
| | Representative Buildings | *[Not identified]* |

**Suburban Neighbourhood 2 Character Area Statement (Pr-C2)**

The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.

The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.

| | | |
|---|---|---|
| PrC2 | Eras, themes and context | Late 19th and Early 20th centuries residential. Limited post-1950s infill residential. Primarily low density and low scale residential, including detached, semi-detached and row dwellings. |
| | Allotments, subdivision and built form patterns | Original land division patterns following grid type street pattern and displaying rectangular, rectilinear allotments. Large allotments. Large allotment frontages. Large front setbacks along with reasonable side setbacks. Street facing front dwelling facades.<br>Moderate spaces around dwellings including asymmetrical (one side larger than the other) side setbacks between dwellings. Typically two storey dwellings to display consistent side boundary setbacks between building levels. |
| | Architectural styles, detailing and built form features | Mainly single storey detached bungalows, cottages and villas.<br>Pitched roofs with the vertical proportion similar to wall height and typically around 25 to 49 degree pitch.<br>Front verandahs (with bull-nose or concave design) with façade detailing and moderate articulation. Moderate front façade detailing and articulation (wall off-sets, verandahs and deep eaves) with walls with a solid to void ratio of greater than 1:1 and fenestrations showing a vertical prominence. |
| | Building height | Primarily single storey presentation to the street with any two storey components sited behind.<br>Predominantly 1 storey dwellings with vertical proportions consistent with traditional dwellings at least 3 metres and no more than 3.6 metres in wall height for single storey and up to 7 metres for two storeys.<br>Moderate scale in context with low rise development, allotment size and frontages. |
| | Materials | Stone, brick and rendered finishes.<br>Detailing around doors, windows, wall edges and gables<br>Limited colour palette for the majority of building façade and roof areas (sandstone to reds; bluestone and grey tones) with complementary colour highlights in the detailing. |
| | Fencing | Front fences forward of the building are of an open style and low in height (to 1.2 metres high). Style associated with dwelling style and era of development. Some more solid fencing of standard height along major roads. |
| | Setting, landscaping, streetscape and public realm features | Leafy public realm that supports the built form. Garages and carports are designed and sited to be subordinate to the main dwelling. Access points are narrow and consolidated.<br>Well landscaped front yards with mature vegetation/tree canopy. Minimal hard and artificial surfaces. Front and side garden landscaping. Leafy, garden suburb character and visual separation between houses. |
| | Representative Buildings | *[Not identified]* |

**Suburban Neighbourhood 3 Character Area Statement (Pr-C3)**

The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.

The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.

| | | |
|---|---|---|
| PrC3 | Eras, themes and context | Early 20th century residential. Some examples of residential infill comprising units, conventional and recent dwellings. Primarily low density and low scale residential including various dwelling types. |
| | Allotments, subdivision and built form patterns | Original land division patterns following grid type street pattern and displaying rectangular, rectilinear allotments. Moderate sized allotments. Moderate to compact allotment frontages. Street facing front dwelling facades.<br>Moderate to compact asymmetrical spaces between dwellings providing physical and visual separation between dwellings. Typically two storey dwellings to display consistent side boundary setbacks between building levels. |
| | Architectural styles, detailing and built form features | Many bungalows with some cottages, Tudor and art deco housing.<br>Pitched roofs with the vertical proportion similar to wall height and typically around 25 to 49 degree pitch.<br>Front verandahs with façade detailing and moderate articulation (wall off-sets, verandahs and deep eaves) walls with a solid to void ratio of greater than 1:1 and fenestrations showing a vertical prominence. |
| | Building height | Primarily single storey presentation to the street with two storey components sited behind.<br>Predominantly 1 storey dwellings with vertical proportions consistent with traditional dwellings (at least 3 metres and no more than 3.6 metres in wall height).<br>Moderate to compact scale in context with low rise development, allotment size and frontages. |
| | Materials | Stone, brick and rendered finishes and durable materials.<br>Detailing around doors, windows, wall edges and gables. |

| Statement# | | Statement |
|---|---|---|
| | | Limited palette for the majority of building façade and roof areas with colour highlights in the detailing (sandstone to reds; bluestone and grey tones) with complementary colour highlights in the detailing. |
| | Fencing | Front fences forward of the building are of an open style and low in height (to 1.2 metres high). Style associated with dwelling style and era of development. Some more solid fencing of standard height along major roads. |
| | Setting, landscaping, streetscape and public realm features | Leafy public realm that supports the built form.<br><br>Landscaped front yards with mature vegetation/tree canopy. Minimal hard and artificial surfaces. Leafy garden suburb character and maintaining visual separation between houses. Garages and carports are designed and sited to be subordinate to the main dwelling. Access points are narrow and consolidated. |
| | Representative Buildings | *[Not identified]* |

**Character Area affecting District Council of Tatiara**

**Mundulla Character Area Statement (TatC1)**

The Character Area Overlays identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.

These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.

The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.

| | | |
|---|---|---|
| TatC1 | Eras, themes and context | Pre-1950. |
| | Allotments, subdivision and built form patterns | Original land division, large allotments. Buildings sited regularly and facing towards street frontages. |
| | Architectural styles, detailing and built form features | Consistent roof pitches. Unity of design and scale. |
| | Building height | Consistent, low scale. |
| | Materials | Earthen colours. Materials consistent with pre-1950s buildings. |
| | Fencing | Informal fencing. |
| | Setting, landscaping, streetscape and public realm features | Individual and stands of trees, stone culverts, drainage and footpath system add to character of townscape. Informal street furniture, lighting, footpaths, road surface treatments, kerbing and guttering. Surrounded by well vegetated parklands and grazing land. Uncluttered appearance. Advertisements of traditional styles and scale consistent with the era. |
| | Representative Buildings | [Not identified] |

**Character Areas affecting City of Victor Harbor**

**Burke Street Character Area Statement (VIH-C1)**

The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.

The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.

| | | |
|---|---|---|
| ViHC1 | Eras, themes and context | Consistent low scale detached dwellings, primarily constructed after World War 1 to the later part of the 19th Century (mid 1800s to 1930s). Early settlement, consolidation and growth of residential development. |
| | Allotments, subdivision and built form patterns | Original street layout including rear access lanes and local roads. Curvilinear street with relatively large allotments roughly perpendicular to the street, most with rear laneway access. |
| | Architectural styles, detailing and built form features | Mix of small mid-1800s detached cottages of early Vernacular style, symmetrical and asymmetrical cottages and villas of the mid to late 1800s with Victorian stylistic influences, early 1900s cottages and villas with Federation stylistic influences, Inter-War bungalows. Church and Hall with late Victorian Gothic stylistic influences located at the bend in the road are landmarks. Adjacent to the Church is a Manse built in the Inter-War period with Georgian Revival stylistic influences.. Rectilinear plan form. Buildings are typically two or more pavilions rather than a single mass. Steeply-pitched roof forms, typically 35 to 40 degrees on 1800s and early 1900s era buildings and slightly lower on Inter-War buildings, reflecting traditional architectural styles and building methods. Short roof spans, minimising roof bulk. Concave, bullnose and straight-pitched verandahs on front and sometimes side facades reduce the bulk and scale and add visual interest. Lean-to forms are common. Fine-grain detail in elements such as plinths, string courses, projecting sills. High solid to void ratio. Vertical proportions in windows and doors. |
| | Building height | Single storey, low scale and simple in form. |
| | Materials | Limestone walls. Red brick or rendered quoin work and details. Timber joinery including window frames, door frames, doors, fascias, bargeboards and verandah posts. Corrugated iron or corrugated steel roofing. Variation in materials assists in breaking down bulk and scale and adds visual interest. |
| | Fencing | Low, open style construction front fencing (1.2 metres or less) associated with the traditional period and style of building, and providing views to the building. Low timber pickets, post and rails, pier and plinth masonry or wrought iron. Rear and side fencing behind building line up to 1.8 metres, corrugated iron. |
| | Setting, landscaping, streetscape and public realm features | Established garden settings. Varied, small front and side setbacks. Landscaped verges.<br><br>Garages and carports are sited behind dwellings, accessed from rear laneways or well set back from the front of dwellings. |
| | Representative Buildings | *[Not identified]* |

**Character Areas affecting Town of Walkerville**

**Gilberton Character Area Statement (Walk-C1)**

The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.

The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.

| | | |
|---|---|---|
| WalkC1 | Eras, themes and context | Various eras of development that map out the developmental progress of the Walkerville Township, from the late 1870s to early 1900s. |
| | Allotments, subdivision and built form patterns | Predominantly low density detached dwellings on allotments that are medium in width and of a range of sizes.<br><br>Some semi-detached and group dwellings on larger allotments. |
| | Architectural styles, detailing and built form features | The historic built form exhibits a mixture of architectural styles from the late 1800s and early 1900s. Edwardian villas alongside Victorian cottages pepper the locality providing a significant narrative that reflects the contemporaneous construction styles. |
| | Building height | Predominantly single storey. Two storey additions to the rear of buildings or within the roof space. |
| | Materials | Residences within this area vary in material application. Residences mostly constructed in locally sourced sandstone or bluestone, corrugated galvanised iron roofs and verandahs with cast iron lacework. |
| | Fencing | Original fencing with bluestone plinths and cast iron fence railings above. Low front fencing. |
| | Setting, landscaping, streetscape and public realm features | There is a reasonably well established pattern of development, with regular spacing between buildings, front setbacks and roof pitches.<br><br>The landscape setting is an important element of the area, with generally open, well vegetated streetscapes through a combination of public and private plantings and low fencing forward each dwelling. |
| | Representative Buildings | *[Not identified]* |

**Character Areas affecting City of West Torrens**

**Ashford Character Area Statement (WeTo-C1)**

The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.

The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.

| | | |
|---|---|---|
| | Eras, themes and context | 1920s - 1940s |

| Statement# | | Statement |
|---|---|---|
| WeToC1 | Allotments, subdivision and built form patterns | Strong uniformity of allotment pattern. Low to very low density site areas. Wide street frontages. Medium sized detached dwellings on substantial allotments. |
| | Architectural styles, detailing and built form features | Predominantly Tudor and Bungalow dwellings. Articulated hip and gable roofs. Verandahs / porticos. Verandahs as continuation of main roof structure. Additions are generally located to the rear of the dwelling. |
| | Building height | Generally single storey. Second storey within the roof space. |
| | Materials | Brick. Painted brick. Stone. Rendered masonry. Corrugated pre-coloured or galvanised iron sheeting. Tiled roofs. Timber windows. |
| | Fencing | Low fencing facilitating views of the dwelling. Post and rail with woven wire. Low level stone or masonry. Timber picket. |
| | Setting, landscaping, streetscape and public realm features | Strong uniformity of layout and buildings. Carports and garages are behind the main face of dwellings. Consistent side and rear setbacks, large private yards. Generous traditional well-maintained gardens. Tree lined streets. |
| | Representative Buildings | *[Not identified]* |
| | **Cowandilla / Mile End West Character Area Statement (WeTo-C2)** | |
| | The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements. | |
| | These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area. | |
| | The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table. | |
| WeToC2 | Eras, themes and context | 1920s - 1940.'s |
| | Allotments, subdivision and built form patterns | Strong uniformity of allotment pattern. Low to very low density site areas. Narrow and deep allotments. Detached and semi-detached dwellings on substantial allotments. |
| | Architectural styles, detailing and built form features | Predominantly Californian and State Bank Bungalows with some examples of Spanish Mission; Dutch Colonial dwellings; Detached and semi-detached federation cottages/villas; Victorian era cottages/villas; and Early inter-war dwellings. Gable and Dutch gable roofs with hips. Verandahs / porticos. Additions are generally located to the rear of the dwelling. |
| | Building height | Generally single storey. Second storey generally within the roof space or otherwise designed to complement single storey character. |
| | Materials | Brick. Painted brick. Stone. Rendered masonry. Corrugated pre-coloured or galvanised iron sheeting. Timber windows. Brick/red brick chimneys. |
| | Fencing | Low fencing facilitating views of the dwelling. Post and rail with woven wire. Low level stone or masonry. Timber picket. |
| | Setting, landscaping, streetscape and public realm features | Strong uniformity of layout and buildings. Consistent side and rear setbacks, large private yards. Carports and garages are behind the main face of dwellings. Generous traditional well-maintained gardens. Tree lined streets. |
| | Representative Buildings | *[Not identified]* |

| Desired Outcome | |
|---|---|
| DO 1 | Recognise, protect and enhance the special character of Character Preservation Districts. |
| DO 2 | The long term use of land outside of townships for primary production and associated value adding enterprises is assured and promoted. |

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Land Use and Intensity | |
| PO 1.1<br>Land division is undertaken in accordance with Section 8 of the *Character Preservation (Barossa Valley) Act 2012* and Section 8 of the *Character Preservation (McLaren Vale) Act 2012.* | DTS/DPF 1.1<br>None are applicable. |
| PO 1.2<br>Residential development located in townships to reinforce settlement patterns within the district and support the continuation of primary production on land outside townships. | DTS/DPF 1.2<br>Residential development located within designated township areas of the Character Preservation District Overlay. |
| Built Form and Character | |
| PO 2.1<br>Development occurring at the edge of townships is sympathetic to the rural landscape and reinforces a clear transition between townships and rural landscape through measures including:<br>(a) being of a low scale<br>(b) orientating residential development towards the rural area<br>(c) ensuring visual separation from the rural area through landscaping and road reserves. | DTS/DPF 2.1<br>None are applicable. |
| PO 2.2<br>Development contributes to and maintains the historic identity and character of townships through appropriate:<br>(a) form<br>(b) scale<br>(c) siting<br>(d) design<br>(e) landscaping. | DTS/DPF 2.2<br>None are applicable. |
| PO 2.3<br>Adaptive re-use of rural structures and historic and/or character buildings supports their preservation and ongoing contribution to the landscape. | DTS/DPF 2.3<br>None are applicable. |
| Built Form and Character in the Rural Area | |
| PO 3.1<br>Preservation of existing natural features including topography, watercourses and mature trees. | DTS/DPF 3.1<br>None are applicable. |
| PO 3.2<br>Buildings and structures do not interrupt views of the skyline through measures including being sited below ridge lines. | DTS/DPF 3.2<br>None are applicable. |
| PO 3.3<br>Buildings and structures harmonise with the natural features of the landscape and reinforce the rural character through the use of muted, neutral, non-reflective landscape colours on external surfaces. | DTS/DPF 3.3<br>None are applicable. |
| PO 3.4<br>Large buildings and structures are sited and oriented to minimise their visual bulk, particularly if close to roads or in open settings where there are no other buildings or mature trees in close proximity. | DTS/DPF 3.4<br>None are applicable. |
| PO 3.5<br>Buildings and structures are grouped to create compact clusters well set back from public roads. | DTS/DPF 3.5<br>None are applicable. |
| PO 3.6<br>Development mitigates the need for long, steep access roads that require excessive grading or removal of vegetation. | DTS/DPF 3.6<br>None are applicable. |
| Earthworks | |
| PO 4.1<br>Excavation and filling of land is limited to that associated with:<br>(a) minimising the visual impact of buildings or structures<br>or<br>(a) construction of water storage facilities. | DTS/DPF 4.1<br>Excavation and/or filling of land is:<br>(a) no greater than 1.5 metres from natural ground level and<br>(b) only undertaken in order to reduce the visual impact of buildings or structures or to construct water storage facilities. |

**Procedural Matters (PM)**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Note: Additional referrals are also found in Part 9 - Referrals of the Planning and Design Code.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---|---|---|
| None | None | None | None |

## Coastal Areas Overlay

**Assessment Provisions (AP)**

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | The natural coastal environment (including environmentally important features such as mangroves, wetlands, saltmarsh, sand dunes, cliff tops, native vegetation, wildlife habitat, shore and estuarine areas) is conserved and enhanced. |
| DO 2 | Provision is made for natural coastal processes; and recognition is given to current and future coastal hazards including sea level rise, flooding, erosion and dune drift to avoid the need, now and in the future, for public expenditure on protection of the environment and development. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Land Division | |
| PO 1.1<br>Land is divided only if it or the subsequent development and use of the land will not adversely affect the environmental values or ability of the land or adjoining land to adapt to changing coastal processes. | DTS/DPF 1.1<br>Land division for minor adjustment of allotment boundaries removes an anomaly in the current boundaries with respect to the location of buildings or structures. |
| PO 1.2<br>Land is not divided unless a layout is achieved whereby roads, parking areas and development sites for each allotment are at least 0.3m above the standard sea flood risk level, unless the land has, or can be provided with, appropriate and acceptable coastal protection measures. | DTS/DPF 1.2<br>None are applicable. |
| PO 1.3<br>Other than small-scale infill land division in a predominantly urban zone, land division adjacent to the coast incorporates an existing or proposed public reserve (not including a road or erosion buffer) of a size adequate to provide for natural coastal processes, public access and recreation. | DTS/DPF 1.3<br>None are applicable. |
| Hazard Risk Minimisation | |
| PO 2.1<br>Buildings sited over tidal water or that are not capable of being raised or protected by flood protection measures in the future are protected against the standard sea flood risk level and 1m of sea level rise. | DTS/DPF 2.1<br>Building floor levels are at least 1.25m above the standard sea flood risk level. |
| PO 2.2<br>Development, including associated roads and parking areas, but not minor structures unlikely to be adversely affected by flooding, is protected from the standard sea flood risk level and 1m of sea level rise. | DTS/DPF 2.2<br>Development incorporates finished ground and floor levels not less than: |

| Finished Ground and Floor Levels |
|---|
| Minimum finished floor level is 2.6m AHD |

| | Minimum finished floor level is 9.55m AHD |
| | Minimum finished floor level is 9.68m AHD |
| | Minimum finished floor level is 9.77m AHD |
| | Minimum finished floor level is 9.85m AHD |
| | Minimum finished floor level is 4.64m AHD |
| | In instances where no value is specified (i.e. there is a blank field):<br>(a) finished ground levels allow for sea level rise by being raised 0.3m or more above the standard sea flood risk level<br>(b) finished floor levels are 0.55m or more above the standard sea flood risk level<br>(c) practical measures can be implemented to provide future protection against an additional sea level rise of 0.7m plus an allowance to accommodate 100 years of land subsidence. |
| PO 2.3<br>Development will not create or aggravate coastal erosion or require coast protection works that cause or aggravate coastal erosion. | DTS/DPF 2.3<br>None are applicable. |
| PO 2.4<br>Development is set back a sufficient distance from the coast to provide an erosion buffer in addition to a public reserve that will allow for at least 100 years of coastal retreat for single buildings or small-scale developments, or 200 years of coastal retreat for large scale developments unless:<br>(a) the development incorporates appropriate private coastal protection measures to protect it from anticipated erosion<br>or<br>(b) there are formal commitments to protect the existing or proposed public reserve and development from anticipated coastal erosion. | DTS/DPF 2.4<br>None are applicable. |
| PO 2.5<br>Additions or alterations to, or replacement of, a dwelling do not increase the risk of effects from natural coastal processes such as flooding, sea-level rise, sand drift and erosion. | DTS/DPF 2.5<br>None are applicable. |
| Coast Protection Works | |
| PO 3.1<br>Development avoids the need for coast protection works through measures such as setbacks to protect development from coastal erosion, sea or stormwater flooding, sand drift or other coastal processes. | DTS/DPF 3.1<br>None are applicable. |
| PO 3.2<br>Development does not compromise the structural integrity of any sea wall or levee bank or the ability to maintain, modify or upgrade any sea wall or levee bank. | DTS/DPF 3.2<br>None are applicable. |
| PO 3.3<br>Unavoidable coast protection works are the subject of binding agreements to cover the cost of future construction, operation, maintenance and management measures and will not:<br>(a) have an adverse effect on coastal ecology, processes, conservation, public access and amenity<br>(b) require commitment of public resources including land<br>(c) present an unacceptable risk of failure relative to potential hazard resulting from failure. | DTS/DPF 3.3<br>None are applicable. |
| Environment Protection | |

| | |
|---|---|
| PO 4.1<br>Development will not unreasonably affect the marine and onshore coastal environment by pollution, erosion, damage or depletion of physical or biological resources; interference with natural coastal processes; or the introduction of and spread of marine pests and diseases or any other means. | DTS/DPF 4.1<br>None are applicable. |
| PO 4.2<br>Development avoids delicate or environmentally sensitive coastal areas such as sand dunes, cliff tops, estuaries, wetlands or substantially intact strata of native vegetation. | DTS/DPF 4.2<br>None are applicable. |
| PO 4.3<br>Development allows for ecological and natural landform adjustment to changing climatic conditions and sea levels, by allowing landward migration of dunes, coastal wetlands, mangrove and samphire areas. | DTS/DPF 4.3<br>None are applicable. |
| PO 4.4<br>Development avoids, or in built up areas minimises, impacts on important habitat areas that support the nesting, breeding and movement/migration patterns of fauna, including threatened shorebirds. | DTS/DPF 4.4<br>None are applicable. |
| PO 4.5<br>Development is designed so that wastewater is disposed of in a manner that avoids pollution or other detrimental impacts on the marine and on-shore environment of coastal areas. | DTS/DPF 4.5<br>Development is connected, or will be connected, to an approved common wastewater disposal service with the capacity to meet the requirements of the development or on-site wastewater systems set back a minimum of 100m from the Mean High Water Mark at spring tide. |
| PO 4.6<br>Development is designed so that stormwater runoff is disposed of in a manner that avoids pollution or other detrimental impacts on the marine and on-shore environment of coastal areas. | DTS/DPF 4.6<br>None are applicable. |
| PO 4.7<br>Development involving the removal of shell grit, cobbles or sand, other than for coastal protection works purposes, is not undertaken. | DTS/DPF 4.7<br>Development does not involve the removal of shell grit, cobbles or sand. |
| Access | |
| PO 5.1<br>Development maintains or enhances appropriate public access to and along the foreshore. | DTS/DPF 5.1<br>None are applicable. |
| PO 5.2<br>Public access through sensitive coastal landforms, particularly sand dunes, wetlands and cliffs, is restricted to defined pedestrian paths and constructed to minimise adverse environmental impact. | DTS/DPF 5.2<br>None are applicable. |
| PO 5.3<br>Access roads to the coast, lookouts and places of interest:<br>(a) do not detract from the amenity or the environment<br>(b) are designed for slow-moving traffic<br>(c) are minimised in number. | DTS/DPF 5.3<br>None are applicable. |
| PO 5.4<br>Development on land adjoining a coastal reserve is sited and designed to be compatible with the purpose, management and amenity of the reserve and to prevent inappropriate access to or use of the reserve. | DTS/DPF 5.4<br>None are applicable. |

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Note: Additional referrals are also found in Part 9 - Referrals of the Planning and Design Code.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---|---|---|
| Except where the development is, in the opinion of the relevant authority, minor in nature and would not warrant a referral when considering the purpose of the referral, the following:<br>(a) excavation and/or filling where the total volume of material excavated and/or filled exceeds $9m^3$<br>(b) dwellings and habitable buildings that:<br>(i) do not meet DTS/DPF 2.2<br>or<br>(ii) are within 100m of the mean high water mark<br>(c) other than within a Rural Settlement Zone:<br>(i) buildings with a floor area greater than $60m^2$<br>or<br>(ii) tourist accommodation, including a caravan park<br>or<br>(iii) division of land that would create 1 or more additional allotments<br>(d) off-shore structures<br>(e) coast protection works<br>(f) infrastructure within 100m landward of the mean high water mark. | Coast Protection Board. | To provide expert assessment and direction to the relevant authority on:<br>• the risk to development from current and future coastal hazards (including sea-level rise, coastal flooding, erosion, dune drift and acid sulfate soils);<br>• coast protection works;<br>• potential impacts from development on public access and the coastal environment (including important coastal features). | Development of a class to which Schedule 9 clause 3 item 3 of the Planning, Development and Infrastructure (General) Regulations 2017 applies. |

## Coastal Flooding Overlay

**Assessment Provisions (AP)**

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Recognition of coastal flood hazards to avoid the need, now and in the future, for public expenditure on protection of the environment and development. |

In instances where no value is specified (i.e. there is a blank field):

(a) finished ground levels allow for sea level rise by being raised 300mm or more above the standard sea flood risk level
(b) finished floor levels are 550mm or more above the standard sea flood risk level
(c) practical measures can be implemented to provide future protection against an additional sea level rise of 700mm plus an allowance to accommodate 100 years of land subsidence.

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Note: Additional referrals are also found in Part 9 - Referrals of the Planning and Design Code.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---|---|---|
| None | None | None | None |

## Co-located Housing Overlay

**Assessment Provisions (AP)**

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Co-located housing integrated within and amongst existing housing stock to cater for a variety of household structures, including aging in place, whilst maintaining existing dwellings, streetscape character, and neighbourhood amenity. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Land Use and Intensity | |
| PO 1.1<br>Co-located housing established to support variety in housing options. | DTS/DPF 1.1<br>None are applicable. |
| Site Dimensions and Land Division | |
| PO 2.1<br>Sites for co-located housing are of a suitable size to accommodate the intended number of dwellings, common facilities for shared use (which may include a kitchen, dining / living room and laundry), shared car parking, communal open space, soft landscaping areas and retention of existing mature vegetation. | DTS/DPF 2.1<br>None are applicable. |
| PO 2.2<br>Co-located housing includes (as part of the application) a community title land division with a community scheme description and by-laws that address the tenure, access, functional and operational management matters of co-located housing. | DTS/DPF 2.2<br>None are applicable. |
| PO 2.3<br>Amalgamation of sites (including the retention of all existing dwellings) is encouraged to achieve improved design outcomes for co-located housing including improved solar orientation of housing, increased soft landscaping and greater retention of tree canopy. | DTS/DPF 2.3<br>None are applicable. |
| Built form and Character | |
| PO 3.1<br>Co-located housing features dwellings behind or integrated with one or more established dwellings which faces a street in a manner which preserves the existing streetscape pattern and character. | DTS/DPF 3.1<br>None are applicable. |
| PO 3.2<br>Co-located housing incorporates form, height, scale, spacing and design that complements the prevailing streetscape character of the locality and minimises the visual impacts to neighbouring properties. | DTS/DPF3.2<br>None are applicable. |
| PO 3.3<br>Established dwelling(s) on the site of a co-located housing development are retained to accommodate co-located housing, and may include sensitive alterations, additions and/or partial demolition. | DTS/DPF 3.3<br>None are applicable. |
| PO 3.4<br>New building(s) accommodating dwelling(s) for co-located housing have footprint(s) which minimise bulk and scale impacts on adjoining residential properties and retains areas for landscaping and communal open space. | DTS/DPF 3.4<br>None are applicable. |
| PO 3.5<br>Co-located housing dwellings are separated from other buildings and boundaries within the site to facilitate the provision of open space, retention of deep root zones for trees, reduce the visual impact of buildings, and provide an attractive outlook and access to light and ventilation from both within and external to the development site. | DTS/DPF 3.5<br>None are applicable. |
| PO 3.6<br>Co-located housing boundary walls are limited in height and length to manage visual and overshadowing impacts on adjoining residential properties. | DTS/DPF 3.6<br>Side boundary walls for co-located housing occur only on one side boundary and satisfy (a) or (b) below:<br>(a) side boundary walls adjoin or abut a boundary wall of a building on adjoining land for the same or lesser length and height<br>(b) side boundary walls do not:<br>(i) exceed 3.2m in height from the lower of the natural or finished ground level<br>(ii) exceed 8m in length<br>(iii) when combined with other walls on the boundary of the subject development site, exceed a maximum 45% of the length of the boundary<br>(iv) encroach within 3m of any other existing or proposed boundary walls on the subject land. |
| Open Space | |
| PO 4.1<br>Communal open space is provided to meet the needs of co-located housing occupants, in a manner that encourages interaction between occupants and provides privacy from public view while complementing streetscape character. | DTS/DPF 4.1<br>Communal open space for co-located housing satisfies all of the following:<br>(a) a minimum of 24m$^2$ of communal open space is provided per co-located housing dwelling for shared use by all occupants<br>(b) 80% of the total of communal open space is provided in a single location that is overlooked by a minimum of two dwellings and has a minimum dimension of 5m<br>(c) is obscured or screened from public view (external to the site) by siting or the use of vegetation, buildings, or other similar structures with a minimum height of 1.8m above ground level and a maximum transparency of 20%<br>(d) may include verandahs, alfrescos, terraces, decks where not enclosed on all sides<br>(e) does not include areas used for bin storage, laundry drying, rainwater tanks, utilities, driveways, or vehicle parking areas. |
| Internal Privacy and Overlooking | |

| | |
|---|---|
| PO 5.1<br>Co-located housing encourages positive interaction between residents with the living areas of dwellings strategically placed off communal open space to create strong connections between inside and out and to provide passive surveillance across the site. | DTS/DPF 5.1<br>None are applicable. |
| PO 5.2<br>Co-located housing developments provide visibility between living areas and communal open space, avoiding internal fencing and other obstructions to promote passive surveillance across the site. | DTS/DPF 5.2<br>None are applicable. |
| PO 5.3<br>Bedrooms of co-located housing are oriented away from communal open space and are instead provided with views of, and access to smaller areas of outdoor private open space. | DTS/DPF 5.3<br>None are applicable. |
| PO 5.4<br>Internal fencing within a co-located housing development is limited in height and visually permeable to maintain visibility, outlook and passive surveillance of common areas. | DTS/DPF 5.4<br>Fencing within the site of a co-located housing development (where not located along the perimeter boundary) is no more than 1.2m in height and constructed of a material with a minimum transparency of 50%. |
| Parking and Access | |
| PO 6.1<br>Car parking for co-located housing satisfies all of the following:<br>(a) is shared with car parks accessible to occupants and visitors at all times<br>(b) is established in a manner that maintains the existing primary streetscape<br>(c) maintains or reduces the number of existing driveway access points. | DTS/DPF 6.1<br>None are applicable. |
| PO 6.2<br>Existing driveways and manoeuvring areas are maintained or reduced to maximise the amount of landscaping and communal open space provided. | DTS/DPF 6.2<br>None are applicable. |
| Pedestrian Access | |
| PO 7.1<br>Pedestrian access to co-located housing from the primary street frontage is convenient, safe and minimises disruption to the occupants of other co-located housing by providing all of the following:<br>(a) a single common pathway accessible throughout the development site<br>(b) controlled lighting to mitigate artificial light intrusion while maintaining safety<br>(c) appropriate separation from bedrooms or any private open space areas. | DTS/DPF 7.1<br>None are applicable. |
| PO 7.2<br>Co-located housing developments are designed to support safe and convenient access and movement for residents throughout the site by avoiding steps in pathways, parking areas and common areas, where practicable. | DTS/DPF 7.2<br>None are applicable. |
| Landscaping | |
| PO 8.1<br>Co-located housing retains mature landscaping throughout the site in order to maintain the existing character of the locality and enhance resident amenity. | DTS/DPF 8.1<br>None are applicable. |
| PO 8.2<br>Landscaping is used to soften the bulk, scale and visual appearance of new buildings for co-located housing and to minimise hard, impermeable on-site surface treatments. | DTS/DPF 8.2<br>None are applicable. |

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Note: Additional referrals are also found in Part 9 - Referrals of the Planning and Design Code.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---|---|---|
| None | None | None | None |

## Coordinated Development Overlay

**Assessment Provisions (AP)**

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Urban development is deferred until land is suitable for the intended land uses, taking into account infrastructure delivery mechanisms and other constraints to urban development. |
| DO 2 | Infrastructure and community services are provided in a timely and coordinated manner to facilitate planned urban growth and ensure the delivery of essential services to future communities. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Land Use | |
| PO 1.1<br>Development is limited to that which satisfies one of the following:<br>(a) does not prejudice the orderly and efficient servicing and conversion of land for future urban development<br>(b) is ancillary to and necessary for the continuation of an existing lawful use<br>(c) accommodates essential infrastructure or community services that are compatible with the relevant zone or sub zone, including any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code. | DTS/DPF 1.1<br>None are applicable. |
| Land Division | |
| PO 2.1<br>Land division is limited to that which satisfies one of the following:<br>(a) corrects anomalies in the placement of allotment boundaries with respect to the location of existing buildings, structures or land uses<br>(b) facilitates the provision of essential infrastructure, community services or public open space that are compatible with the relevant zone or subzone, including any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code<br>(c) results in the creation of 'super lots' or balance allotments that do not result in a form of division which would prejudice the orderly and efficient development of land for future urban development. | DTS/DPF 2.1<br>None are applicable. |

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Note: Additional referrals are also found in Part 9 - Referrals of the Planning and Design Code.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---|---|---|
| None | None | None | None |

## Defence Aviation Area Overlay

**Assessment Provisions (AP)**

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Management of potential impacts of buildings on the operational and safety requirements of Defence Aviation Areas. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Built Form | |
| PO 1.1<br>Building height does not pose a hazard to the operations of Defence Aviation Areas. | DTS/DPF 1.1<br>Building height does not exceed the relevant height specified by the *Defence Aviation Area Overlay*. |
| PO 1.2<br>Exhaust stacks are designed and sited to minimise plume impacts on aircraft movements associated with Defence Aviation Areas. | DTS/DPF 1.2<br>Development does not include exhaust stacks. |

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Note: Additional referrals are also found in Part 9 - Referrals of the Planning and Design Code.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---|---|---|
| None | None | None | None |

## Design Overlay

**Assessment Provisions (AP)**

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Development positively contributes to the liveability, durability and sustainability of the built environment through high-quality design. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| General | |
| PO 1.1<br>Medium to high rise buildings and state significant development demonstrate high quality design. | DTS/DPF 1.1<br>None are applicable. |

**Procedural Matters (PM)**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Note: Additional referrals are also found in Part 9 - Referrals of the Planning and Design Code.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---|---|---|
| Except where the development comprises a variation to an application that is, in the opinion of the relevant authority, minor in nature or would not warrant a referral when considering the purpose of the referral, any of the following classes of development:<br>(a) development within the area of the overlay located within the Corporation of the City of Adelaide where the total amount to be applied to any work, when all stages of the development are completed, exceeds $10,000,000<br>(b) development within the area of the overlay located within the City of Port Adelaide Enfield where the total amount to be applied to any work, when all stages of the development are completed, exceeds $3 000 000<br>(c) development within all other areas of the overlay that involves the erection or construction of a building that exceeds 4 building levels. | Government Architect or Associate Government Architect | To provide expert design advice to the relevant authority on how the development:<br>(a) responds to its surrounding context and contributes to the quality and character of a place<br>(b) contributes to inclusiveness, connectivity, and universal design of the built environment<br>(c) enables buildings and places that are fit for purpose, adaptable and long-lasting<br>(d) adds value by positively contributing to places and communities<br>(e) optimises performance and public benefit<br>(f) supports sustainable and environmentally responsible development. | Development of a class to which Schedule 9 clause 3 item 22 of the Planning, Development and Infrastructure (General) Regulations 2017 applies. |

## Dwelling Excision Overlay

**Assessment Provisions (AP)**

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Creation of allotments to accommodate existing habitable dwellings in primary production areas is limited to avoid undermining primary production. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Land Division | |
| PO 1.1<br>Land division creating an additional allotment to accommodate an existing dwelling does not undermine the role of primary production areas by being limited and designed to achieve the following:<br>(a) accommodate a dwelling that has had a long term association with primary production on the same allotment<br>(b) contain the excised dwelling within an allotment capable of providing a suitable rural residential amenity<br>(c) maintain all other land (ie land outside the allotment containing the excised dwelling) in suitably sized allotments to support primary production<br>(d) no other dwelling has been excised from the primary production allotment. | DTS/DPF 1.1<br>Land division satisfies all the following:<br>(a) no other dwelling has previously been excised from the allotment by creating an additional allotment<br>(b) it does not create more than one additional allotment where the resultant allotments satisfy (i) and (ii):<br>(i) one allotment will contain a single existing lawful dwelling that existed prior to 1 December 2011 and meets all of the following:<br>A. no allotment boundary is closer than 40m to an existing dwelling<br>B. the allotment is no less than 1 hectare and no greater than 4 hectares in area<br>C. if the allotment is of a battle-axe configuration, the driveway 'handle' is no more than 50 metres in length<br>(ii) any other allotment has an area not less than that identified in the Minimum Site Area Technical and Numeric Variation layer in the SA planning database. |

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Note: Additional referrals are also found in Part 9 - Referrals of the Planning and Design Code.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---|---|---|
| None | None | None | None |

## Environment and Food Production Areas Overlay

**Assessment Provisions (AP)**

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Protection of valuable rural, landscape, environmental and food production areas from urban encroachment. |

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| PO 1.1<br>Land division undertaken in accordance with Section 7 of the *Planning, Development and Infrastructure Act 2016.* | DTS/DPF 1.1<br>None are applicable. |

**Procedural Matters (PM)**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Note: Additional referrals are also found in Part 9 - Referrals of the Planning and Design Code.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---|---|---|
| None | None | None | None |

## Future Local Road Widening Overlay

**Assessment Provisions (AP)**

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Development consistent with and will not compromise efficient delivery of future road widening requirements of local roads. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| | Future Road Widening |
| PO 1.1<br>Development does not compromise or is located and designed to minimise its impact on future road widening requirements. | DTS/DPF 1.1<br>Development does not involve building work, or building work is located wholly outside land within the following distance from the primary street frontage.<br>**Minimum Future Local Road Widening Setback**<br>Minimum future local road widening setback is 10.5m<br>Minimum future local road widening setback is 11m<br>Minimum future local road widening setback is 12.5m<br>Minimum future local road widening setback is 12.9m<br>Minimum future local road widening setback is 13m<br>Minimum future local road widening setback is 14m<br>Minimum future local road widening setback is 16.5m<br>Minimum future local road widening setback is 18m<br>Minimum future local road widening setback is 5m<br>Minimum future local road widening setback is 8m<br>Minimum future local road widening setback is 9.5m<br>Minimum future local road widening setback is 7m<br>Minimum future local road widening setback is 2.5m<br>Minimum future local road widening setback is 6m |

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Note: Additional referrals are also found in Part 9 - Referrals of the Planning and Design Code.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---|---|---|
| None | None | None | None |

## Future Road Widening Overlay

**Assessment Provisions (AP)**

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Development which is consistent with and will not compromise efficient delivery of future road widening requirements. |

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| | Future Road Widening |
| PO 1.1<br>Development does not compromise or is located and designed to minimise its impact on future road widening requirements. | DTS/DPF 1.1<br>Development does not involve building work, or building work is located wholly outside the land subject to the 6m Consent Area, the C Type Requirement or the Strip Requirement of the Metropolitan Adelaide Road Widening Plan. |

**Procedural Matters (PM)**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Note: Additional referrals are also found in Part 9 - Referrals of the Planning and Design Code.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---|---|---|
| Other than where all deemed-to-satisfy criteria for all policies relevant to this referral are met, development (including the division of land) that is within or may encroach within a Future Road Widening Area. | Commissioner of Highways. | To provide expert technical assessment and direction to the relevant authority on the safe and efficient operation and management of all roads relevant to the Commissioner of Highways as described in the Planning and Design Code. | Development of a class to which Schedule 9 clause 3 item 4 of the Planning, Development |

| | | | |
|---|---|---|---|
| | | | and Infrastructure (General) Regulations 2017 applies. |

## Gas and Liquid Petroleum Pipelines Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Management of risk to public safety, the environment and security of energy supply from the encroachment of development on strategic gas and liquid petroleum pipelines. |
| Note | Guidance documents to support an agreement under section 123 of the *Planning, Development and Infrastructure Act 2016* for the purposes of development applications in the vicinity of pipelines, as prepared and published by the administrative unit of the Public Service responsible for assisting a Minister in the administration of the *Energy Resources Act 2000* can be found here. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Land Use and Intensity | |
| PO 1.1<br>Community exposure to a potential hazard from the failure of a gas or liquid petroleum pipeline is mitigated by locating development that may accommodate or result in large congregations of people, buildings for housing and / or caring for vulnerable people and community facilities outside areas that pose an unacceptable risk to protect life. | DTS/DPF 1.1<br>Development satisfies one of the following:<br>(a) it does not comprise:<br>(i) child care facility<br>(ii) caravan and tourist park<br>(iii) educational facility<br>(iv) buildings comprising 3 or more building levels<br>(v) land division creating allotments under 1ha for residential purposes (except where the existing allotment is less than 1ha)<br>(vi) prison<br>(vii) residential park<br>(viii) retirement facility<br>(ix) student accommodation<br>(x) supported accommodation<br>(xi) shop or shops with a gross leasable floor area of 1000m$^2$ or greater<br>(xii) tourist accommodation<br>(xiii) stadium<br>(b) a class of development referred to in part (a), or any combination thereof, which will occur in accordance with an agreement under section 123 of the *Planning, Development and Infrastructure Act, 2016* |
| PO 1.2<br>Emergency service and major community health related facilities are located outside areas where a gas or liquid petroleum pipeline failure may disrupt ongoing operations to maintain the response capacity in the event of an emergency. | DTS/DPF 1.2<br>Development does not comprise any of the following:<br>(a) emergency services facility<br>(b) hospital. |
| PO 1.3<br>Development involving the manufacture, collection, handling or bulk storage of flammable, explosive, or otherwise hazardous materials is located and designed to avoid escalating the potential for and effects of a gas or liquid petroleum pipeline failure. | DTS/DPF 1.3<br>Development satisfies one of the following:<br>(a) it does not comprise:<br>(i) general industry<br>(ii) special industry<br>(iii) landfill<br>(iv) renewable energy facility<br>(v) electricity substation<br>(vi) fuel depot<br>(vii) retail fuel outlet<br>(viii) store<br>(ix) warehouse<br>(x) waste treatment facility<br>(b) a class of development referred to in part (a), or any combination thereof, which will occur in accordance with an agreement under section 123 of the *Planning, Development and Infrastructure Act, 2016* |

### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Note: Additional referrals are also found in Part 9 - Referrals of the Planning and Design Code.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---|---|---|
| Except where the development is, in the opinion of the relevant authority, minor in nature and would not warrant a referral when considering the purpose of the referral, a class of development that does not satisfy Gas and Liquid Petroleum Pipelines Overlay DTS/DPF 1.1, 1.2 and 1.3. | The Chief Executive of the Department of the Minister responsible for administering the *Petroleum and Geothermal Energy Act 2000*. | To provide expert assessment and direction to the relevant authority in relation to:<br>(a) potential safety issues relating to development or<br>(b) the potential for development to adversely impact upon the lawful continued operation of strategic infrastructure (gas and liquid petroleum pipelines). | Development of a class to which Schedule 9 clause 3 item 9B of the Planning, Development and Infrastructure (General) Regulations 2017 applies. |

## Gas and Liquid Petroleum Pipelines (Facilities) Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Management of risk to public safety, the environment and security of energy supply from the encroachment of development on gas and liquid petroleum pipeline facilities. |
| Note | Guidance documents to support an agreement under section 123 of the *Planning, Development and Infrastructure Act 2016* for the purposes of development applications in the vicinity of pipelines, as prepared and published by the administrative unit of the Public Service responsible for assisting a Minister in the administration of the *Energy Resources Act 2000* can be found here. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Safety | |
| PO 1.1<br>Development (including land division) does not present a risk to public health and safety due to any of the following:<br>(a) continuous noise associated with pipeline facilities used for energy transportation that exceeds the Environment Protection (Commercial and Industrial Noise) Policy<br>(b) potential for occasional noise associated with high pressure venting. | DTS/DPF 1.1<br>Development (including land division creating additional allotments for such purposes) comprises one or more of the following:<br>(a) open space<br>(b) roadways<br>(c) a class of development that will occur in accordance with an agreement under section 123 of the *Planning, Development and Infrastructure Act, 2016* |

| | |
|---|---|
| | (d) a dwelling or ancillary building/structure on an allotment approved for residential purposes under the Planning and Development and Infrastructure Act 2016. |

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Note: Additional referrals are also found in Part 9 - Referrals of the Planning and Design Code.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---|---|---|
| Except where the development is, in the opinion of the relevant authority, minor in nature and would not warrant a referral when considering the purpose of the referral, a class of development that does not satisfy Overlay DTS/DPF 1.1. | The Chief Executive of the Department of the Minister responsible for administering the Petroleum and Geothermal Energy Act 2000. | To provide expert assessment and direction to the relevant authority in relation to:<br>(a) potential safety issues relating to development or<br>(b) the potential for development to adversely impact upon the lawful continued operation of strategic infrastructure (gas and liquid petroleum pipelines). | Development of a class to which Schedule 9 clause 3 item 9B of the Planning, Development and Infrastructure (General) Regulations 2017 applies. |

## Gateway Overlay

**Assessment Provisions (AP)**

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | The visual amenity and streetscape appeal along prominent entrances into towns, tourist and historic precincts, activity centres and main streets is maintained and improved through the careful siting of buildings and other activities in a well landscaped setting. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Built Form and Character | |
| PO 1.1<br>Buildings are set back from main roads to support a consistent high-quality streetscape character where the prominence of larger buildings is appropriately mitigated. | DTS/DPF 1.1<br>Buildings are set back at least the height of the building and no less than 10m from arterial and main roads and highways, whichever is the greater. |
| PO 1.2<br>Building are set back from side boundaries to moderate the appearance of buildings and enhance the outlook from arterial and main roads and highways. | DTS/DPF 1.2<br>None are applicable. |
| PO 1.3<br>The main facade of principal buildings facing arterial and main roads and highways incorporate articulation and various materials to promote a high standard of building design and external appearance. | DTS/DPF 1.3<br>None are applicable. |
| Landscape Amenity | |
| PO 2.1<br>Ancillary buildings including carports, outbuildings and garages, other minor structures, waste storage bins and outdoor storage areas are sited to reduce visual clutter and untidiness from arterial and main roads and highways. | DTS/DPF 2.1<br>Ancillary buildings including carports, outbuildings and garages, other minor structures, waste storage bins and outdoor storage areas are located in a manner to satisfy one of the following:<br>(a) behind principal building(s) facing arterial and main roads and highways<br>(b) behind the building line of principal building(s) and obscured from public view from arterial and main roads and highways by solid fencing or landscaping. |
| Landscaping | |
| PO 3.1<br>Development incorporates generous landscaping areas along the frontage to arterial roads and highways to enhance visual amenity and complement associated buildings. | DTS/DPF 3.1<br>None are applicable. |
| PO 3.2<br>Existing mature on-site vegetation is retained and incorporated into landscape and parking areas to enhance the appearance of land and buildings. | DTS/DPF 3.2<br>None are applicable. |
| PO 3.3<br>Development incorporates generous landscaping areas along the frontage to arterial roads and landscaped using a combination of high crown evergreen trees, low shrubs and groundcovers to enhance visual amenity and complement the associated buildings. | DTS/DPF 3.3<br>None are applicable. |
| PO 3.4<br>Vehicle parking areas are located and designed to enhance the streetscape setting by:<br>(a) being located to the side or rear of buildings facing arterial and main roads and highways<br>(b) incorporating landscaping, including trees, to break up large parking areas. | DTS/DPF 3.4<br>None are applicable. |
| Advertisements | |
| PO 4.1<br>Advertisements along arterial and main roads, and highways are consistent in height, size and design to support a cohesive and uniform appearance in gateway locations without dominating the streetscape. | DTS/DPF 4.1<br>Advertisements satisfy all of the following:<br>(a) will not result in more than 1 advertisement per allotment<br>(b) will not exceed 5m in height<br>(c) do not exceed $3m^2$ per advertising face<br>(d) are not internally illuminated<br>(e) are not animated, flash or move in any way. |

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Note: Additional referrals are also found in Part 9 - Referrals of the Planning and Design Code.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---|---|---|
| None | None | None | None |

## Hazards (Acid Sulfate Soils) Overlay

**Assessment Provisions (AP)**

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Development is located and undertaken to minimise disturbance of potential or actual acid sulfate soils and / or the release of acid drainage. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Land Use and Intensity | |
| PO 1.1<br>Development that involves excavation or a change to a water table where potential or actual acid sulfate soils are present is undertaken to minimise soil disturbance or drainage; prevent or minimise oxidation; and contain and treat any acid drainage to prevent harm or damage to the environment, primary production, buildings, structures and infrastructure or public health. | DTS/DPF 1.1<br>Development does not involve or cause:<br>(a) excavation of land<br>or<br>(b) change to a water table. |

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Note: Additional referrals are also found in Part 9 - Referrals of the Planning and Design Code.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---|---|---|
| None | None | None | None |

## Hazards (Bushfire - General Risk) Overlay

**Assessment Provisions (AP)**

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Development, including land division responds to the general level of bushfire risk by siting and designing buildings in a manner that mitigates the threat and impact of bushfires on life and property taking into account the increased frequency and intensity of bushfires as a result of climate change. |
| DO 2 | To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

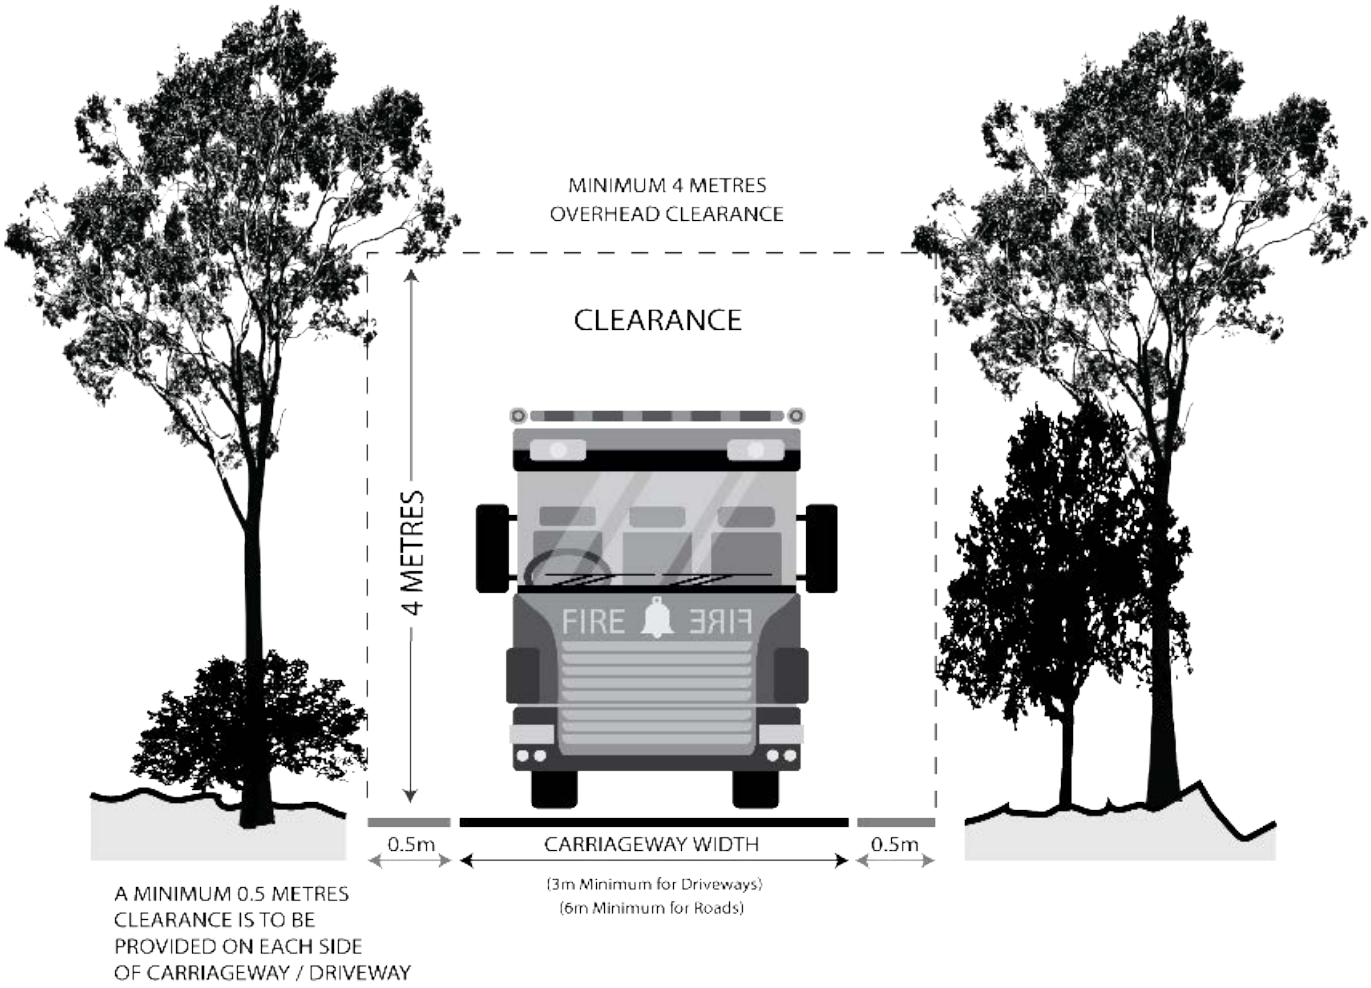
| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Siting | |
| PO 1.1<br>Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain. | DTS/DPF 1.1<br>None are applicable. |
| Built Form | |
| PO 2.1<br>Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts. | DTS/DPF 2.1<br>None are applicable. |
| PO 2.2<br>Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and Workers' accommodation) in the event of bushfire. | DTS/DPF 2.2<br>Outbuildings and other ancillary structures are sited no closer than 6m from the habitable building. |
| Habitable Buildings | |
| PO 3.1<br>To minimise the threat, impact and exposure to bushfires on life and property, residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments away from steep slopes. | DTS/DPF 3.1<br>None are applicable. |
| PO 3.2<br>Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited away from vegetated areas that pose an unacceptable bushfire risk. | DTS/DPF 3.2<br>Residential and tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zone(s) in accordance with (a) and (b):<br>(a) the asset protection zone has a minimum width of at least:<br>(i) 50 metres to unmanaged grasslands<br>(ii) 100 metres to hazardous bushland vegetation<br>(b) the asset protection zone is contained wholly within the allotment of the development. |
| PO 3.3<br>Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) has a dedicated area available that is capable of accommodating a bushfire protection system comprising firefighting equipment and water supply in accordance with *Ministerial Building Standard MBS 008 - Designated bushfire prone areas - additional requirements*. | DTS/DPF 3.3<br>None are applicable. |
| Land Division | |
| PO 4.1<br>Land division is designed and incorporates measures to minimise the danger of fire hazard to residents and occupants of buildings, and to protect buildings and property from physical damage in the event of a bushfire. | DTS/DPF 4.1<br>None are applicable. |
| PO 4.2<br>Land division is designed to provide a continuous street pattern to facilitate the safe movement and evacuation of emergency vehicles, residents, occupants and visitors. | DTS/DPF 4.2<br>None are applicable. |
| PO 4.3<br>Where 10 or more new allotments are proposed, land division includes at least two separate and safe exit points to enable multiple avenues of evacuation in the event of a bushfire. | DTS/DPF 4.3<br>None are applicable. |
| PO 4.4<br>Land division incorporates perimeter roads of adequate design in conjunction with bushfire buffer zones to achieve adequate separation between residential allotments and areas of unacceptable bushfire risk and to support safe access for the purposes of fire-fighting. | DTS/DPF 4.4<br>None are applicable. |
| Vehicle Access – Roads, Driveways and Fire Tracks | |
| PO 5.1<br>Roads are designed and constructed to facilitate the safe and effective:<br>(a) access, operation and evacuation of fire-fighting vehicles and emergency personnel<br>(b) evacuation of residents, occupants and visitors. | DTS/DPF 5.1<br>Roads:<br>(a) are constructed with a formed, all-weather surface<br>(b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road<br>(c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road<br>(d) have a minimum formed road width of 6m<br>(e) provide overhead clearance of not less than 4m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1)<br>(f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)<br>(g) incorporating cul-de-sac endings or dead end roads do not exceed 200m in length and the end of the road has either: |

| | |
|---|---|
| | (i) a turning area with a minimum formed surface radius of 12.5m (Figure 3) or<br>(ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 4)<br>(h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes. |
| PO 5.2<br>Access to habitable buildings is designed and constructed to facilitate the safe and effective:<br>(a) access, operation and evacuation of fire-fighting vehicles and emergency personnel<br>(b) evacuation of residents, occupants and visitors | DTS/DPF 5.2<br>Access is in accordance with (a) or (b):<br>(a) a clear and unobstructed vehicle or pedestrian pathway of not greater than 60 metres in length is available between the most distant part of the habitable building and the nearest part of a formed public access road<br>(b) driveways:<br>(i) do not exceed 600m in length<br>(ii) are constructed with a formed, all-weather surface<br>(iii) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8)<br>(iv) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway<br>(v) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the driveway<br>(vi) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 1)<br>(vii) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 5)<br>(viii) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 1)<br>(ix) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)<br>(x) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by using a 'U' shaped drive through design or by incorporating at the end of the driveway either:<br>A. a loop road around the building<br>B. a turning area with a minimum radius of 12.5m (Figure 3)<br>C. a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 4)<br>(xi) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes. |
| PO 5.3<br>Development does not rely on fire tracks as means of evacuation or access for fire-fighting purposes unless there are no safe alternatives available. | DTS/DPF 5.3<br>None are applicable. |

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Note: Additional referrals are also found in Part 9 - Referrals of the Planning and Design Code.



| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |

**Hazards (Bushfire - High Risk) Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

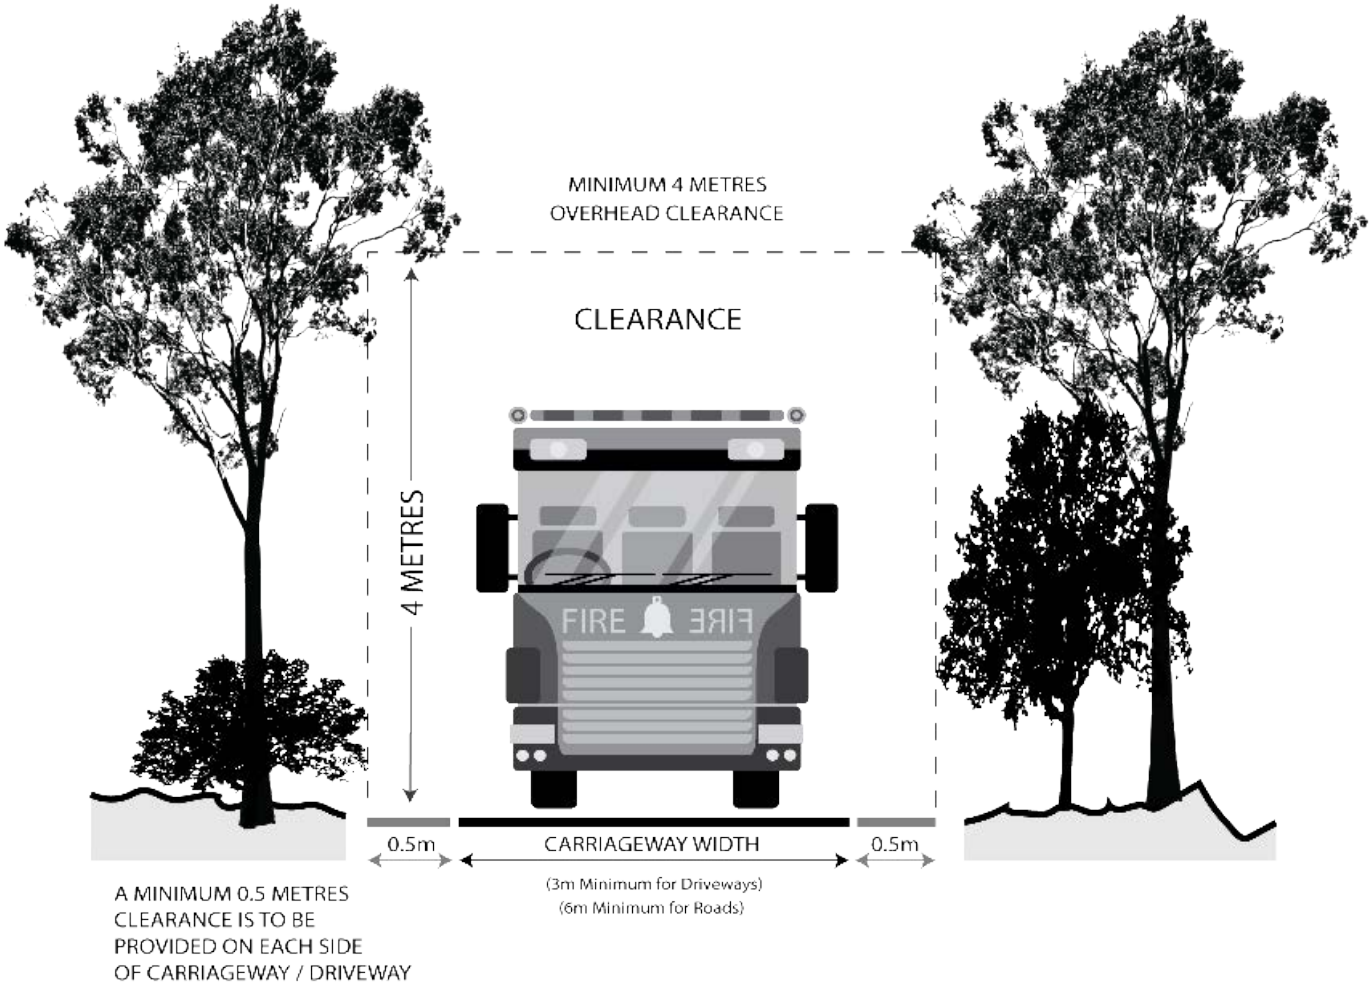
| Desired Outcome | |
|---|---|
| DO 1 | Development, including land division is sited and designed to minimise the threat and impact of bushfires on life and property with regard to the following risks:<br>(a) potential for uncontrolled bushfire events taking into account the increased frequency and intensity of bushfires as a result of climate change<br>(b) high levels and exposure to ember attack<br>(c) impact from burning debris<br>(d) radiant heat<br>(e) likelihood and direct exposure to flames from a fire front. |
| DO 2 | Activities that increase the number of people living and working in the area or where evacuation would be difficult is sited away from areas of unacceptable bushfire risk. |
| DO 3 | To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Land Use | |
| PO 1.1<br>Development that significantly increases the potential for fire outbreak as a result of the spontaneous combustion of materials, spark generation or through the magnification and reflection of light is not located in areas of unacceptable bushfire risk. | DTS/DPF 1.1<br>None are applicable. |
| PO 1.2<br>Child care facilities, educational facilities, hospitals, retirement and supported accommodation are sited away from areas of unacceptable bushfire risk and locations that:<br>(a) are remote from or require extended periods of travel to reach safer locations<br>(b) don't have a safe path of travel to safer locations. | DTS/DPF 1.2<br>None are applicable. |
| Siting | |
| PO 2.1<br>Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain. | DTS/DPF 2.1<br>None are applicable. |
| Built Form | |
| PO 3.1<br>Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts. | DTS/DPF 3.1<br>None are applicable. |
| PO 3.2<br>Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and Workers' accommodation) in the event of bushfire. | DTS/DPF 3.2<br>Outbuildings and other ancillary structures are sited no closer than 6m from the habitable building. |
| Habitable Buildings | |
| PO 4.1<br>To minimise the threat, impact and potential exposure to bushfires on life and property, residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments away from steep slopes. | DTS/DPF 4.1<br>None are applicable. |
| PO 4.2<br>Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited away from vegetated areas that pose an unacceptable bushfire risk. | DTS/DPF 4.2<br>Residential and tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zone(s) in accordance with (a) and (b):<br>(a) the asset protection zone has a minimum width of at least:<br>(i) 50 metres to unmanaged grasslands<br>(ii) 100 metres to hazardous bushland vegetation<br>(b) the asset protection zone is contained wholly within the allotment of the development. |
| PO 4.3<br>Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) has a dedicated area available that:<br>(a) is capable of accommodating a bushfire protection system comprising firefighting equipment and water supply in accordance with *Ministerial Building Standard MBS 008 - Designated bushfire prone areas - additional requirements*<br>(b) includes the provision of an all-weather hardstand area in a location that:<br>(i) allows fire-fighting vehicles to safely access the dedicated water supply and exit the site in a forward direction<br>(ii) is no further than 6 metres from the dedicated water supply outlet(s) where required. | DTS/DPF 4.3<br>None are applicable. |
| Land Division | |
| PO 5.1<br>Land division for residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is limited to those areas specifically set aside for these uses. | DTS/DPF 5.1<br>None are applicable. |
| PO 5.2<br>Land division is designed and incorporates measures to minimise the danger of fire hazard to residents and occupants of buildings, and to protect buildings and property from physical damage in the event of a bushfire. | DTS/DPF 5.2<br>None are applicable. |
| PO 5.3<br>Land division is designed to provide a continuous street pattern (avoiding the use of dead end roads/cul-de-sac road design) to facilitate the safe movement and evacuation of emergency vehicles, residents, occupants and visitors. Where cul-de-sac / dead end roads are proposed, an alternative emergency evacuation route is provided. | DTS/DPF 5.3<br>None are applicable. |
| PO 5.4<br>Where 10 or more new allotments are proposed, land division includes at least two separate and safe exit points to enable multiple avenues of evacuation in the event of a bushfire. | DTS/DPF 5.4<br>None are applicable. |
| PO 5.5<br>Land division provides sufficient space for future asset protection zones and incorporates perimeter roads of adequate design in conjunction with bushfire buffer zones to achieve adequate separation between residential allotments and areas of unacceptable bushfire risk and to support safe access for the purposes of fire-fighting. | DTS/DPF 5.5<br>None are applicable. |
| Vehicle Access -Roads, Driveways and Fire Tracks | |
| PO 6.1<br>Roads are designed and constructed to facilitate the safe and effective:<br>(a) access, operation and evacuation of fire-fighting vehicles and emergency personnel<br>(b) evacuation of residents, occupants and visitors. | DTS/DPF 6.1<br>Roads:<br>(a) are constructed with a formed, all-weather surface<br>(b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road<br>(c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road<br>(d) have a minimum formed road width of 6m<br>(e) provide overhead clearance of not less than 4.0m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1)<br>(f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)<br>(g) incorporating cul-de-sac endings or dead end roads are provided within an alternative evacuation route and do not exceed 200m in length and the end of the road has either:<br>(i) a turning area with a minimum formed surface radius of 12.5m (Figure 3)<br>or<br>(ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 4)<br>(h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes. |
| PO 6.2 | DTS/DPF 6.2 |

| | |
|---|---|
| Access to habitable buildings is designed and constructed to facilitate the safe and effective:<br><br>(a) use, operation and evacuation of fire-fighting and emergency personnel<br>(b) evacuation of residents, occupants and visitors. | Access is in accordance with (a) or (b):<br><br>(a) a clear and unobstructed vehicle or pedestrian pathway of not greater than 60 metres in length is available between the most distant part of the habitable building and the nearest part of a formed public access road<br>(b) driveways:<br>(i) do not exceed 600m in length<br>(ii) are constructed with a formed, all-weather surface<br>(iii) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8)<br>(iv) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway<br>(v) have a crossfall of not more than 6 degrees (1-in-9.5) at any point along the driveway<br>(vi) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 1)<br>(vii) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 5)<br>(viii) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 1)<br>(ix) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)<br>(x) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by using a 'U' shaped drive through design or by incorporating at the end of the driveway either:<br>A. a loop road around the building<br>or<br>B. a turning area with a minimum radius of 12.5m (Figure 3)<br>or<br>C. a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 4)<br>(xi) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes. |
| PO 6.3<br><br>Development does not rely on fire tracks as means of evacuation or access for fire-fighting purposes unless there are no safe alternatives available. | DTS/DPF 6.3<br><br>None are applicable. |

### Procedural Matters (PM) - Referrals



The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Note: Additional referrals are also found in Part 9 - Referrals of the Planning and Design Code.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---|---|---|
| Except if a ***relevant certificate*** accompanies the application for planning consent in respect of the development, any of the following classes of development (including alterations and additions which increase the floor area of such buildings by 10% or more):<br><br>(a) land division creating one or more additional allotments<br>(b) dwelling<br>(c) ancillary accommodation<br>(d) residential flat building<br>(e) tourist accommodation<br>(f) boarding home<br>(g) dormitory style accommodation<br>(h) workers' accommodation<br>(i) student accommodation<br>(j) child care facility<br>(k) educational facility<br>(l) retirement village<br>(m) supported accommodation<br>(n) residential park<br>(o) hospital<br>(p) camp ground. | South Australian Country Fire Service. | To provide expert assessment and direction to the relevant authority on the potential impacts of bushfire on the development. | Development of a class to which Schedule 9 clause 3 item 2 of the Planning, Development and Infrastructure (General) Regulations 2017 applies. |

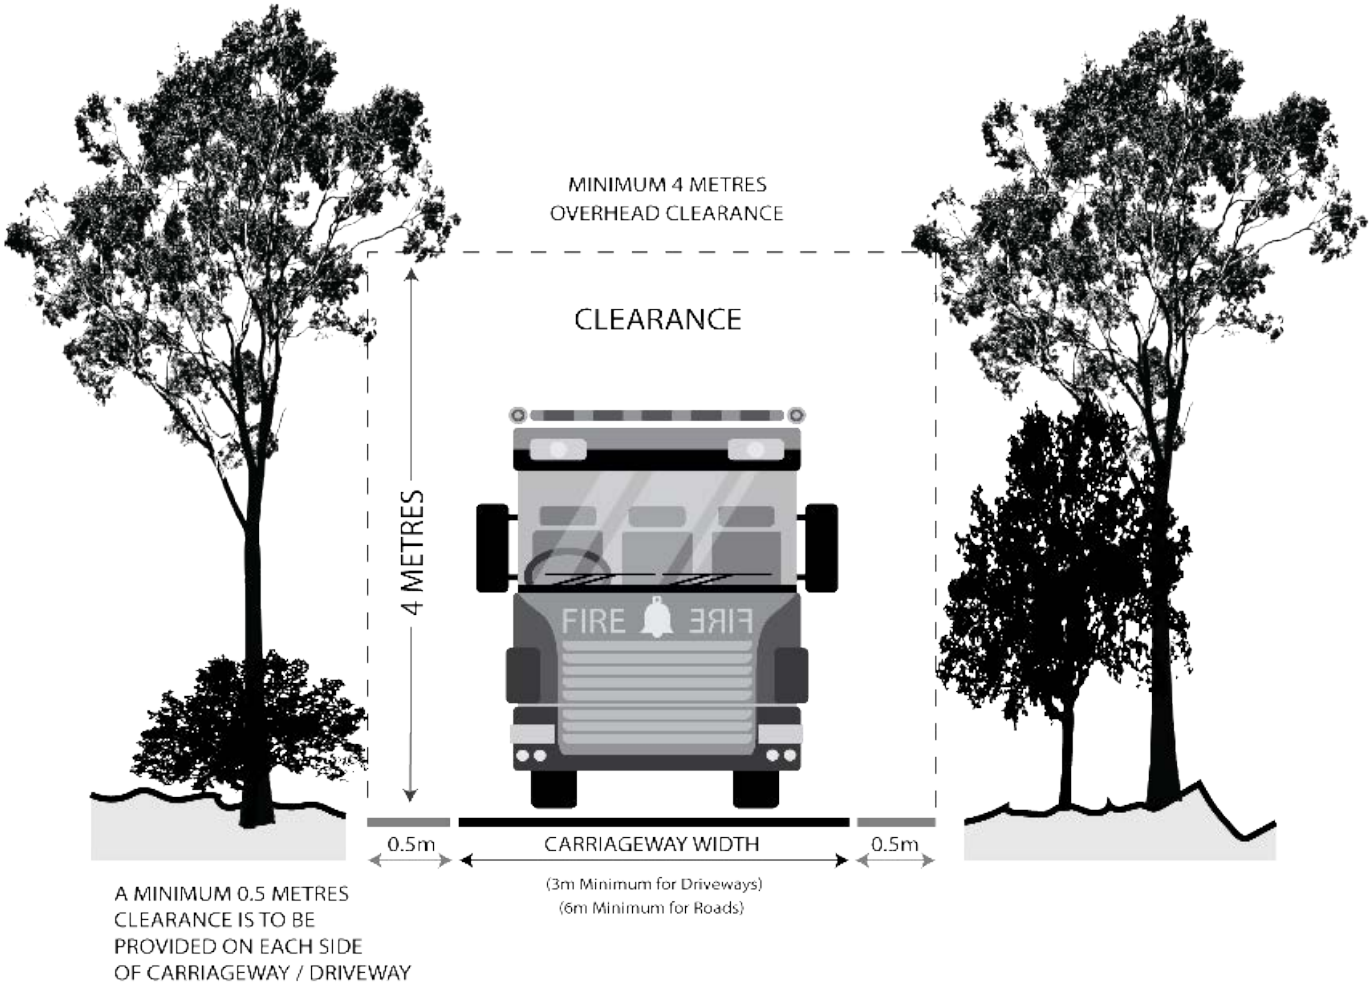
| Siting | |
| PO 1.1<br>Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain. | DTS/DPF 1.1<br>None are applicable. |
| Built Form | |
| PO 2.1<br>Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts. | DTS/DPF 2.1<br>None are applicable. |
| PO 2.2<br>Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and Workers' accommodation) in the event of bushfire. | DTS/DPF 2.2<br>Outbuildings and other ancillary structures are sited no closer than 6m from the habitable building. |
| Habitable Buildings | |
| PO 3.1<br>To minimise the threat, impact and potential exposure to bushfires on life and property, residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments away from steep slopes. | DTS/DPF 3.1<br>None are applicable. |
| PO 3.2<br>Residential, tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited away from vegetated areas that pose an unacceptable bushfire risk. | DTS/DPF 3.2<br>Residential, tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zone(s) in accordance with (a) and (b):<br>(a) the asset protection zone has a minimum width of at least:<br>(i) 50 metres to unmanaged grasslands<br>(ii) 100 metres to hazardous bushland vegetation<br>(b) the asset protection zone is contained wholly within the allotment of the development. |
| PO 3.3<br>Residential, tourist accommodation and habitable buildings for vulnerable communities, (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation), has a dedicated area available that is capable of accommodating a bushfire protection system comprising firefighting equipment and water supply in accordance with *Ministerial Building Standard MBS 008 - Designated bushfire prone areas - additional requirements*. | DTS/DPF 3.3<br>None are applicable. |
| Land Division | |
| PO 4.1<br>Land division is designed and incorporates measures to minimise the danger of fire hazard to residents and occupants of buildings, and to protect buildings and property from physical damage in the event of a bushfire. | DTS/DPF 4.1<br>None are applicable. |
| PO 4.2<br>Land division is designed to provide a continuous street pattern to facilitate the safe movement and evacuation of emergency vehicles, residents, occupants and visitors. | DTS/DPF 4.2<br>None are applicable. |
| PO 4.3<br>Where 10 or more new allotments are proposed, land division includes at least two separate and safe exit points to enable multiple avenues of evacuation in the event of a bushfire. | DTS/DPF 4.3<br>None are applicable. |
| PO 4.4<br>Land division incorporates perimeter roads of adequate design in conjunction with bushfire buffer zones to achieve adequate separation between residential allotments and areas of unacceptable bushfire risk and to support safe access for the purposes of fire-fighting. | DTS/DPF 4.4<br>None are applicable. |
| Vehicle Access - Roads, Driveways and Fire Tracks | |
| PO 5.1<br>Roads are designed and constructed to facilitate the safe and effective:<br>(a) access, operation and evacuation of fire-fighting vehicles and emergency personnel<br>(b) evacuation of residents, occupants and visitors. | DTS/DPF 5.1<br>Roads:<br>(a) are constructed with a formed, all-weather surface<br>(b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road<br>(c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road<br>(d) have a minimum formed road width of 6m<br>(e) provide overhead clearance of not less than 4.0m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1)<br>(f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)<br>(g) incorporating cul-de-sac endings or dead end roads do not exceed 200m in length and the end of the road has either:<br>(i) a turning area with a minimum formed surface radius of 12.5m (Figure 3)<br>or<br>(ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 4)<br>(h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes. |
| PO 5.2<br>Access to habitable buildings is designed and constructed to facilitate the safe and effective:<br>(a) access, operation and evacuation of fire-fighting vehicles and emergency personnel<br>(b) evacuation of residents, occupants and visitors. | DTS/DPF 5.2<br>Access is in accordance with (a) or (b):<br>(a) a clear and unobstructed vehicle or pedestrian pathway of not greater than 60 metres in length is available between the most distant part of the habitable building and the nearest part of a formed public access road<br>(b) driveways:<br>(i) do not exceed 600m in length<br>(ii) are constructed with a formed, all-weather surface<br>(iii) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8)<br>(iv) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway<br>(v) have a crossfall of not more than 6 degrees (1-in-9.5) at any point along the driveway<br>(vi) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 1)<br>(vii) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 5)<br>(viii) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 1)<br>(ix) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)<br>(x) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by using a 'U' shaped drive through design or by incorporating at the end of the driveway either:<br>A. a loop road around the building<br>or<br>B. a turning area with a minimum radius of 12.5m (Figure 3)<br>or<br>C. a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 4)<br>(xi) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes. |
| PO 5.3<br>Development does not rely on fire tracks as means of evacuation or access for fire-fighting purposes unless there are no safe alternatives available. | DTS/DPF 5.3<br>None are applicable. |

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.



Note: Additional referrals are also found in Part 9 - Referrals of the Planning and Design Code.

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Development, including land division responds to the relevant level of bushfire risk and is sited and designed to mitigate the threat and impact of bushfires on life and property taking into account the increased frequency and intensity of bushfires as a result of climate change. |
| DO 2 | To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Siting | |
| PO 1.1<br>Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain. | DTS/DPF 1.1<br>None are applicable. |
| Built Form | |
| PO 2.1<br>Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts. | DTS/DPF 2.1<br>None are applicable. |
| PO 2.2<br>Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers', accommodation) in the event of bushfire. | DTS/DPF 2.2<br>Outbuildings and other ancillary structures are sited no closer than 6m from the habitable building. |
| Habitable Buildings | |
| PO 3.1<br>To minimise the threat, impact and exposure to bushfires on life and property, residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments away from steep slopes. | DTS/DPF 3.1<br>None are applicable. |
| PO 3.2<br>Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers accommodation) is sited away from vegetated areas that pose an unacceptable bushfire risk. | DTS/DPF 3.2<br>Residential and tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zone(s) in accordance with (a) and (b):<br>(a) the asset protection zone has a minimum width of at least:<br>(i) 50 metres to unmanaged grasslands<br>(ii) 100 metres to hazardous bushland vegetation<br>(b) the asset protection zone is contained wholly within the allotment of the development. |
| PO 3.3<br>Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) has a dedicated and accessible water supply available at all times for fire-fighting purposes. | DTS/DPF 3.3<br>Development has a dedicated water supply available at all times for fire-fighting purposes:<br>(a) comprising a minimum of 5000 litres<br>(b) positioned in an accessible location and accompanied with necessary equipment to allow occupants to minimise the spread of bushfire to the habitable building(s). |
| Land Division | |
| PO 4.1<br>Land division is designed to and incorporates measures to minimise the danger of fire hazard to residents and occupants of buildings, and to protect buildings and property from physical damage in the event of a bushfire. | DTS/DPF 4.1<br>None are applicable. |
| PO 4.2<br>Land division designed to provide a continuous street pattern to facilitate the safe movement and evacuation of emergency vehicles, residents, occupants and visitors. | DTS/DPF 4.2<br>None are applicable. |
| PO 4.3<br>Where 10 or more new allotments are proposed, land division includes at least two separate and safe exit points to enable multiple avenues of evacuation in the event of a bushfire. | DTS/DPF 4.3<br>None are applicable. |
| PO 4.4<br>Land division incorporates perimeter roads of adequate design in conjunction with bushfire buffer zones to achieve adequate separation between residential allotments and areas of unacceptable bushfire risk and to support safe access for the purposes of fire-fighting. | DTS/DPF 4.4<br>None are applicable. |
| Vehicle Access -Roads and Driveways | |
| PO 5.1<br>Roads are designed and constructed to facilitate the safe and effective:<br>(a) access, operation and evacuation of fire-fighting vehicles and emergency personnel<br>(b) evacuation of residents, occupants and visitors. | DTS/DPF 5.1<br>Roads:<br>(a) are constructed with a formed, all-weather surface<br>(b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road<br>(c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road<br>(d) have a minimum formed road width of 6m<br>(e) provide overhead clearance of not less than 4.0m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1)<br>(f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)<br>(g) incorporating cul-de-sac endings or dead end roads do not exceed 200m in length and the end of the road has either:<br>(i) a turning area with a minimum formed surface radius of 12.5m (Figure 3)<br>or<br>(ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 4)<br>(h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes. |
| PO 5.2<br>Access to habitable buildings is designed and constructed to facilitate the safe and effective:<br>(a) access, operation and evacuation of fire-fighting vehicles and emergency personnel<br>(b) evacuation of residents, occupants and visitors. | DTS/DPF 5.2<br>Access is in accordance with (a) or (b):<br>(a) a clear and unobstructed vehicle or pedestrian pathway of not greater than 60 metres in length is available between the most distant part of the habitable building and the nearest part of a formed public access road<br>(b) driveways:<br>(i) do not exceed 600m in length<br>(ii) are constructed with a formed, all-weather surface<br>(iii) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8)<br>(iv) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway<br>(v) have a crossfall of not more than 6 degrees (1-in-9.5) at any point along the driveway<br>(vi) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 1)<br>(vii) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 5)<br>(viii) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 1)<br>(ix) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)<br>(x) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by using a 'U' shaped drive through design or by incorporating at the end of the driveway either:<br>A. a loop road around the building<br>or<br>B. a turning area with a minimum radius of 12.5m (Figure 3)<br>or<br>C. a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 4)<br>(xi) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes. |
| PO 5.3<br>Development does not rely on fire tracks as means of evacuation or access for fire-fighting purposes unless there are no safe alternatives available. | DTS/DPF 5.3<br>None are applicable. |

**Procedural Matters (PM) - Referrals**

## Hazards (Flooding) Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Impacts on people, property, infrastructure and the environment from high flood risk are minimised by retaining areas free from development, and minimising intensification where development has occurred. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Land Division | |
| PO 1.1<br>Land division is limited to areas where the consequences to buildings and safety are low and can be readily managed or overcome. | DTS/DPF 1.1<br>None are applicable. |
| Land Use | |
| PO 2.1<br>Development sited and designed to minimise exposure of people and property to unacceptable flood risk. | DTS/DPF 2.1<br>None are applicable. |
| PO 2.2<br>Buildings housing vulnerable people, community services facilities, key infrastructure and emergency services are sited away from flood prone areas to enable uninterrupted operation of services and reduce likelihood of entrapment. | DTS/DPF 2.2<br>Child care facilities, educational facilities, retirement and supported accommodation, emergency services facilities, hospitals and prisons are not located within the Overlay area. |
| Flood Resilience | |
| PO 3.1<br>Development avoids the need for flood protection works. | DTS/DPF 3.1<br>None are applicable. |
| PO 3.2<br>Development does not cause unacceptable impacts on any adjoining property by the diversion of flood waters or an increase in flood velocity or flood level. | DTS/DPF 3.2<br>None are applicable. |
| PO 3.3<br>Development does not impede the flow of floodwaters through the allotment or the surrounding land, or cause an unacceptable loss of flood storage. | DTS/DPF 3.3<br>None are applicable. |
| PO 3.4<br>Development avoids frequently flooded or high velocity areas, other than where it is part of a flood mitigation scheme to reduce flood impact. | DTS/DPF 3.4<br>Other than a recreation area, development is located outside of the 5% AEP principal flow path. |
| PO 3.5<br>Buildings are sited, designed and constructed to prevent the entry of floodwaters in a 1% AEP flood event where the entry of floodwaters is likely to result in undue damage to, or compromise ongoing activities within, buildings. | DTS/DPF 3.5<br>Buildings comprise one of the following:<br>(a) a porch or portico with at least 2 open sides<br>(b) a verandah with at least 3 open sides<br>(c) a carport or outbuilding with at least 2 open sides (whichever elevations face the direction of the flow)<br>(d) any post construction with open sides<br>(e) a building with a finished floor level that is at least 300mm above the height of a 1% AEP flood event. |
| PO 3.6<br>Fences do not unreasonably impede floodwaters. | DTS/DPF 3.6<br>A post and wire fence (other than a chain mesh fence). |
| Environmental Protection | |
| PO 4.1<br>Buildings and structures used either partly or wholly to contain or store hazardous materials are designed to prevent spills or leaks leaving the confines of the building during a 1% AEP flood event to avoid potential environmental harm. | DTS/DPF 4.1<br>Development involving the storage or disposal of hazardous materials is wholly located outside of the 1% AEP flood plain or flow path. |
| PO 4.2<br>Development does not create or aggravate the potential for erosion or siltation or lead to the destruction of vegetation during a flood. | DTS/DPF 4.2<br>None are applicable. |
| Site Earthworks | |
| PO 5.1<br>The depth and extent of filling required to raise the finished floor level of a building does not cause unacceptable impact on any adjoining property by diversion of flood waters, an increase in flood velocity or flood level, or an unacceptable loss of flood storage. | DTS/DPF 5.1<br>None are applicable. |
| PO 5.2<br>Driveways, access tracks and parking areas are designed and constructed to minimise excavation and filling. | DTS/DPF 5.2<br>Filling for ancillary purposes:<br>(a) does not exceed 300mm above existing ground level and<br>(b) is no more than 5m wide. |
| Access | |
| PO 6.1<br>Development does not occur on land:<br>(a) from which evacuation to areas not vulnerable to flood risk is not possible during a 1% AEP flood event<br>(b) which cannot be accessed by emergency services vehicles or essential utility service vehicles during a 1% AEP flood event. | DTS/DPF 6.1<br>None are applicable. |
| PO 6.2<br>Access driveways and tracks to significant development (i.e. dwellings, places of work, etc.) consist of a safe, all-weather trafficable surface that is accessible during a 1% AEP flood event. | DTS/DPF 6.2<br>None are applicable. |

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Note: Additional referrals are also found in Part 9 - Referrals of the Planning and Design Code.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---|---|---|
| None | None | None | None |

## Hazards (Flooding – General) Overlay

**Assessment Provisions (AP)**

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Impacts on people, property, infrastructure and the environment from general flood risk are minimised through the appropriate siting and design of development. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Land Use | |
| PO 1.1<br>Buildings housing vulnerable people, community services facilities, key infrastructure and emergency services are sited away from flood areas enable uninterrupted operation of services and reduce likelihood of entrapment. | DTS/DPF 1.1<br>Child care facilities, educational facilities, retirement and supported accommodation, emergency services facilities, hospitals and prisons located outside the 1% AEP flood event. |
| Flood Resilience | |
| PO 2.1<br>Development is sited, designed and constructed to prevent the entry of floodwaters where the entry of flood waters is likely to result in undue damage to or compromise ongoing activities within buildings. | DTS/DPF 2.1<br>Habitable buildings, commercial and industrial buildings, and buildings used for animal keeping incorporate a finished ground and floor level not less than: |

| Finished Ground and Floor Levels |
|---|
| Minimum finished floor level is 2.6m AHD |
| Minimum finished floor level is 20.4m AHD |
| Minimum finished floor level is 3m AHD |
| Minimum finished floor level is 3.45m AHD |
| Minimum finished floor level is 4.15m AHD |
| Minimum finished floor level is 4.35m AHD |
| Minimum finished floor level is 5.3m AHD |
| Minimum finished ground level is 1.7m AHD; Minimum finished floor level is 1.95m AHD |
| Minimum finished ground level is 1.75m AHD; Minimum finished floor level is 2m AHD |
| Minimum finished ground level is 1.85m AHD; Minimum finished floor level is 2.1m AHD |
| Minimum finished ground level is 1.9m AHD; Minimum finished floor level is 2.15m AHD |

| Minimum finished floor level is 4.33m AHD |
| Minimum finished floor level is 4.43m AHD |
| Minimum finished floor level is 4.48m AHD |
| Minimum finished floor level is 4.5m AHD |
| Minimum finished floor level is 4.58m AHD |
| Minimum finished floor level is 4.71m AHD |
| Minimum finished floor level is 4.73m AHD |
| Minimum finished floor level is 4.75m AHD |
| Minimum finished floor level is 4.8m AHD |
| Minimum finished floor level is 4.88m AHD |
| Minimum finished floor level is 5.04m AHD |
| Minimum finished floor level is 5.12m AHD |
| Minimum finished floor level is 5.27m AHD |
| Minimum finished floor level is 5.59m AHD |
| Minimum finished floor level is 5.62m AHD |
| Minimum finished floor level is 5.71m AHD |
| Minimum finished floor level is 5.98m AHD |
| Minimum finished floor level is 6.06m AHD |
| Minimum finished floor level is 6.16m AHD |
| Minimum finished floor level is 6.26m AHD |
| Minimum finished floor level is 6.4m AHD |
| Minimum finished floor level is 6.48m AHD |
| Minimum finished floor level is 6.68m AHD |
| Minimum finished floor level is 6.73m AHD |
| Minimum finished floor level is 7.32m AHD |
| Minimum finished floor level is 7.33m AHD |
| Minimum finished floor level is 7.36m AHD |
| Minimum finished floor level is 7.39m AHD |
| Minimum finished floor level is 7.41m AHD |
| Minimum finished floor level is 7.46m AHD |
| Minimum finished floor level is 8.56m AHD |
| Minimum finished floor level is 8.59m AHD |
| Minimum finished floor level is 8.71m AHD |
| Minimum finished floor level is 8.93m AHD |
| Minimum finished floor level is 9.02m AHD |
| Minimum finished floor level is 9.51m AHD |
| Minimum finished floor level is 9.55m AHD |
| Minimum finished floor level is 9.68m AHD |
| Minimum finished floor level is 9.77m AHD |
| Minimum finished floor level is 9.85m AHD |
| Minimum finished floor level is 4.64m AHD |

In instances where no finished floor level value is specified, a building incorporates a finished floor level at least 300mm above the height of a 1% AEP flood event.

| Environmental Protection | |
|---|---|
| PO 3.1 | DTS/DPF 3.1 |
| Buildings and structures used either partly or wholly to contain or store hazardous materials are designed to prevent spills or leaks leaving the confines of the building during a 1% AEP flood event to avoid potential environmental harm. | Development involving the storage or disposal of hazardous materials is wholly located outside of the 1% AEP flood plain or flow path. |

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Note: Additional referrals are also found in Part 9 - Referrals of the Planning and Design Code.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---|---|---|
| None | None | None | None |

## Hazards (Flooding - Evidence Required) Overlay

**Assessment Provisions (AP)**

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Development adopts a precautionary approach to mitigate potential impacts on people, property, infrastructure and the environment from potential flood risk through the appropriate siting and design of development. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Flood Resilience | |
| PO 1.1<br>Development is sited, designed and constructed to minimise the risk of entry of potential floodwaters where the entry of flood waters is likely to result in undue damage to or compromise ongoing activities within buildings. | DTS/DPF 1.1<br>Habitable buildings, commercial and industrial buildings, and buildings used for animal keeping incorporate a finished floor level at least 300mm above:<br>(a) the highest point of top of kerb of the primary street<br>or<br>(b) the highest point of natural ground level at the primary street boundary where there is no kerb |
| Environmental Protection | |
| PO 2.1<br>Buildings and structures used either partly or wholly to contain or store hazardous materials are designed to prevent spills or leaks leaving the confines of the building. | DTS/DPF 2.1<br>Development does not involve the storage of hazardous materials. |

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Note: Additional referrals are also found in Part 9 - Referrals of the Planning and Design Code.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---|---|---|
| None | None | None | None |

## Heritage Adjacency Overlay

**Assessment Provisions (AP)**

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Development adjacent to State and Local Heritage Places maintains the heritage and cultural values of those Places. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| Built Form | |
| PO 1.1<br>Development adjacent to a State or Local Heritage Place does not dominate, encroach on or unduly impact on the setting of the Place. | DTS/DPF 1.1<br>None are applicable. |
| Land Division | |
| PO 2.1<br>Land division adjacent to a State or Local Heritage Place creates allotments that are of a size and dimension that enables the siting and setbacks of new buildings from allotment boundaries so that they do not dominate, encroach or unduly impact on the setting of the Place. | DTS/DPF 2.1<br>None are applicable. |

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Note: Additional referrals are also found in Part 9 - Referrals of the Planning and Design Code.

| Class of Development / Activity | Referral Body | Purpose of Referral | Statutory Reference |
|---|---|---|---|
| Development which in the opinion of the relevant authority materially affects the context within which the **State Heritage Place** is situated.<br><br>Note - Referrals are not required where the Overlay relates to a **Local Heritage Place** | Minister responsible for the administration of the *Heritage Places Act 1993*. | To provide expert assessment and direction to the relevant authority on the potential impacts of development adjacent State Heritage Places. | Development of a class to which Schedule 9 clause 3 item 17 of the Planning, Development and Infrastructure (General) Regulations 2017 applies. |

## Historic Area Overlay

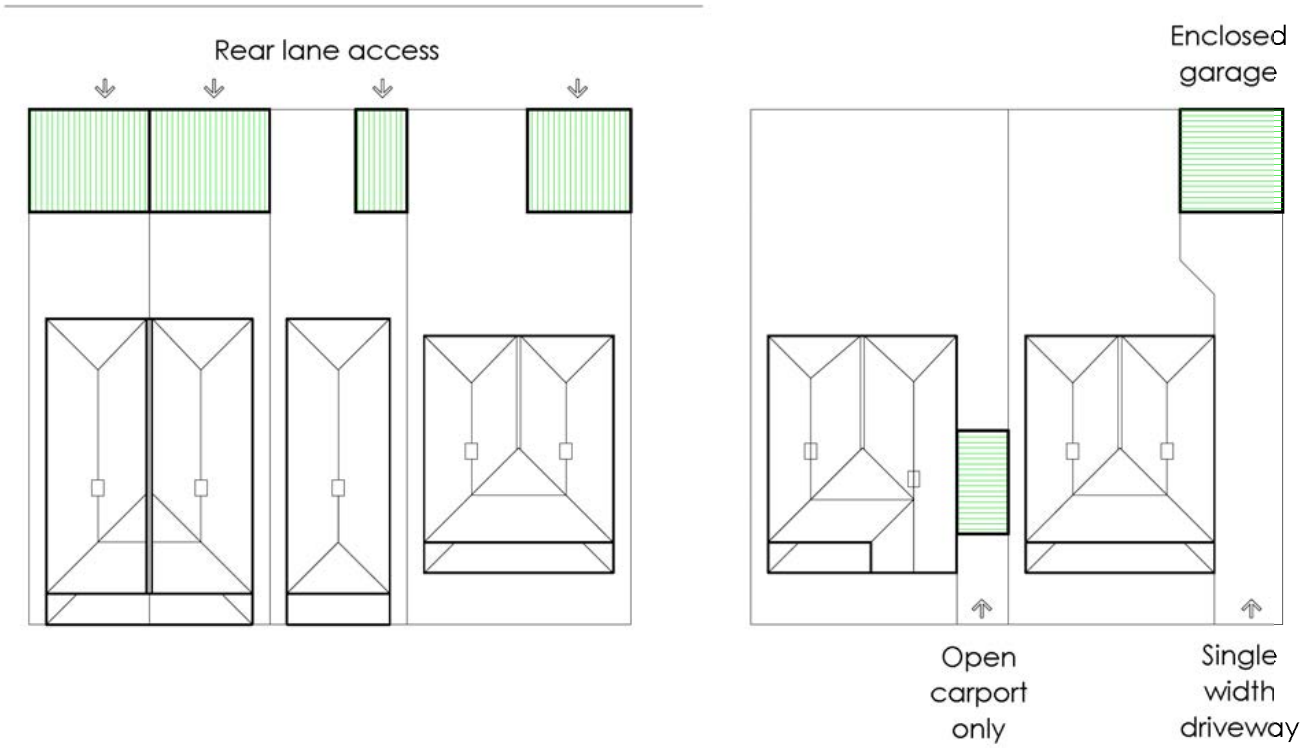
**Assessment Provisions (AP)**

Desired Outcome (DO)

| Desired Outcome | |
|---|---|
| DO 1 | Historic themes and characteristics are reinforced through conservation and contextually responsive development, design and adaptive reuse that responds to existing coherent patterns of land division, site configuration, streetscapes, building siting and built scale, form and features as exhibited in the Historic Area and expressed in the Historic Area Statement. |

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

| Performance Outcome | Deemed-to-Satisfy Criteria / Designated Performance Feature |
|---|---|
| All Development | |
| PO 1.1<br>All development is undertaken having consideration to the historic streetscapes and built form as expressed in the Historic Area Statement. | DTS/DPF 1.1<br>None are applicable. |
| Built Form | |
| PO 2.1<br>The form and scale of new buildings and structures that are visible from the public realm are consistent with the prevailing historic characteristics of the historic area. | DTS/DPF 2.1<br>None are applicable. |
| PO 2.2<br>Development is consistent with the prevailing building and wall heights in the historic area. | DTS/DPF 2.2<br>None are applicable. |
| PO 2.3 | DTS/DPF 2.3 |



| | |
|---|---|
| Design and architectural detailing of street-facing buildings (including but not limited to roof pitch and form, openings, chimneys and verandahs) complement the prevailing characteristics in the historic area. | None are applicable. |
| PO 2.4<br>Development is consistent with the prevailing front and side boundary setback pattern in the historic area. | DTS/DPF 2.4<br>None are applicable. |
| PO 2.5<br>Materials are either consistent with or complement those within the historic area. | DTS/DPF 2.5<br>None are applicable. |
| Alterations and additions | |
| PO 3.1<br>Alterations and additions complement the subject building, employ a contextual design approach and are sited to ensure they do not dominate the primary façade. | DTS/DPF 3.1<br>Alterations and additions are fully contained within the roof space of an existing building with no external alterations made to the building elevation facing the primary street. |
| PO 3.2<br>Adaptive reuse and revitalisation of buildings to support retention consistent with the Historic Area Statement. | DTS/DPF 3.2<br>None are applicable. |
| Ancillary development | |
| PO 4.1<br>Ancillary development, including carports, outbuildings and garages, complements the historic character of the area and associated buildings. | DTS/DPF 4.1<br>None are applicable. |
| PO 4.2<br>Ancillary development, including carports, outbuildings and garages, is located behind the building line of the principal building(s) and does not dominate the building or its setting. | DTS/DPF 4.2<br>None are applicable. |
| PO 4.3<br>Advertising and advertising hoardings are located and designed to complement the building, be unobtrusive, be below the parapet line, not conceal or obstruct significant architectural elements and detailing, or dominate the building or its setting. | DTS/DPF 4.3<br>None are applicable. |
| PO 4.4<br>Fencing and gates closer to a street boundary (other than a laneway) than the elevation of the associated building are consistent with the traditional period, style and form of the associated building. | DTS/DPF 4.4<br>None are applicable. |
| Land Division | |
| PO 5.1<br>Land division creates allotments that are:<br>(a) compatible with the surrounding pattern of subdivision in the historic area<br>(b) of a dimension to accommodate buildings of a bulk and scale that reflect existing buildings and setbacks in the historic area | DTS/DPF 5.1<br>None are applicable. |
| Context and Streetscape Amenity | |
| PO 6.1<br>The width of driveways and other vehicle access ways are consistent with the prevailing width of existing driveways of the historic area. | DTS/DPF 6.1<br>None are applicable. |
| PO 6.2<br>Development maintains the valued landscape patterns and characteristics that contribute to the historic area, except where they compromise safety, create nuisance, or impact adversely on buildings or infrastructure. | DTS/DPF 6.2<br>None are applicable. |
| Demolition | |
| PO 7.1<br>Buildings and structures, or features thereof, that demonstrate the historic characteristics as expressed in the Historic Area Statement are not demolished, unless:<br>(a) the front elevation of the building has been substantially altered and cannot be reasonably restored in a manner consistent with the building's original style<br>or<br>(b) the structural integrity or safe condition of the original building is beyond reasonable repair. | DTS/DPF 7.1<br>None are applicable. |
| PO 7.2<br>Partial demolition of a building where that portion to be demolished does not contribute to the historic character of the streetscape. | DTS/DPF 7.2<br>None are applicable. |
| PO 7.3<br>Buildings or elements of buildings that do not conform with the values described in the Historic Area Statement may be demolished. | DTS/DPF 7.3<br>None are applicable. |
| Ruins | |
| PO 8.1<br>Development conserves and complements features and ruins associated with former activities of significance. | DTS/DPF 8.1<br>None are applicable. |

**Historic Area Statements**

| Statement# | Statement |
|---|---|
| **Historic Areas affecting City of Adelaide** | |
| | **North Adelaide Hill Street Historic Area Statement (Adel 1)**<br><br>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.<br><br>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.<br><br>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table. |
| | Eras, themes and context: Themes and Context<br><br>Adelaide's identity is shaped by its unique grid pattern and hierarchy of streets. Its rectangular geometry contrasts with the natural setting provided by the Adelaide Park Lands and views to the Adelaide Hills. The pattern of Squares reinforces the city's geometry. Colonel Light's visionary layout of Adelaide and its Park Lands was recognised through its National Heritage listing in 2008.<br><br>North Adelaide is an integral part of the historic plan of the City of Adelaide. The historic character of North Adelaide provides strong cultural and historic evidence of the creation of the colony, the establishment and consolidation of early settlement and the subsequent development of South Australia's capital city over time.<br><br>Significant features include the natural and cultural landscape which creates the physical setting for North Adelaide, the hierarchy of wide and narrow streets, Squares and gardens, and the differing orientation of upper and lower North Adelaide. The arrangement of the plan had the effect of creating interest in development facing the Adelaide Park Lands, resulting in characteristic housing of substantial scale along many frontages. Pockets of North Adelaide developed compactly with small cottages and worker housing, providing evidence of a different way of life to that experienced by the residents of the more substantial villas.<br><br>The Hill Street Historic Area demonstrates the layout and settlement patterns of the City of Adelaide from the 1830s, namely the original 'Town Acre' pattern grid, the further development of North Adelaide character as a residential village (particularly the typical 1850s to 1880s village type settlement pattern, with shops and other services), and the settling of major religious and institutional organisations and their buildings. It exhibits residential architecture from all periods of the city's historical development and includes the residences of many notable Adelaide community members.<br><br>The 1883-4 City Land Investment Company subdivision of Town Acres along Barnard Street and Molesworth Street resulted in a sequence of large residences which form an important part of the physical character of upper North Adelaide. A number of these remain as State Heritage Places between Hill Street and Wellington Square.<br><br>Several religious orders were established west of Wellington Square during a period of economic recession when land prices were low, including St Laurence's in Buxton Street in 1867 and St Dominic's Priory in Molesworth Street in 1893.<br>The topography of the City of Adelaide explains many of its patterns of development. Elevated land was selected to avoid flooding, but was also prestigious and offered the best views. This was the case with the allotments that were created around the high points of Strangways Terrace and Mills Terrace, where some of the city's finest buildings are located.<br><br>Eras<br><br>1837 to 1899 - Victorian period.<br><br>1900 to 1915 - Edwardian period.<br><br>1916 to 1942 - Inter-war period.<br><br>1943 plus - Post-War period. |
| | Allotments, subdivision and built form: This Area is one of the lowest density areas in Upper North Adelaide. Historically, it is one of the most important and representative residential areas of high integrity in South Australia. It also contains a range of large institutions, providing contrast in built form to the housing development around them. |

| Statement# | | Statement |
|---|---|---|
| | patterns | The Town Acre layout and later patterns of subdivision and development create large allotments, and a low-density residential character derived from generous building setbacks, orientation and patterns established by the prevailing Heritage Places and Representative Buildings.<br><br>The building setbacks from front, side and rear allotment boundaries are established by the prevailing Heritage Places and Representative Buildings. Buildings do not project forward of Heritage Places or Representative Buildings, including on adjacent sites, nor do buildings extend to side boundaries other than for party walls in semi-detached and row dwellings.<br><br>Generally, buildings are set within landscaped grounds and extensive gardens, which typically cover 50 percent of the site.<br><br>The historic built-form character of the Area is established by State and Local Heritage Places and Representative Buildings, reinforcing the character of the historic built form, allotments and subdivision patterns as described below:<br><br>Barnard Street<br><br>The historic residential streetscape is formed by the moderate street width and the one and two-storey detached and semi-detached dwellings that are almost exclusively Local and State Heritage Places, and the Local Heritage listed Sunningdale Apartments at 2-20 Barnard Street.<br><br>The dwellings have landscaped front gardens and are well setback from the northern street frontage and sited closer to the southern street frontage. There is only a slight variation in the primary frontage setbacks, which form a coherent building line. The regular pattern and siting is established by the Heritage Places and Representative Buildings. The allotments are generally of consistent size and pattern.<br><br>Barton Terrace West<br><br>The high amenity streetscape is formed by the wide street setting and the Adelaide Park Lands frontage. The historic character comprises of single-storey detached and semi-detached dwellings that are almost exclusively State and Local Heritage Places. The landscaped gardens make an important contribution to the streetscape setting.<br><br>There is a slight variation in setbacks, but when viewed from the street, it is coherent. The pattern, siting and setback of dwellings is established by the Heritage Places.<br><br>Buxton Street<br><br>The high amenity value of the historic streetscape is derived from the moderate street width and the highly cohesive frontages of single storey detached dwellings of Local Heritage value, one and two storey detached dwellings of State Heritage value and the Representative Building on large allotments of predominantly consistent size and pattern.<br><br>The dwellings have landscaped gardens with generous front setbacks, and the side setbacks are established by the regular pattern and siting of Heritage Places and Representative Buildings on individual allotments. The setbacks of dwellings are closer to the street frontage towards Jeffcott Street.<br><br>A traditional corner shop abutting the frontages at the north-western corner of Buxton Street and Jeffcott Street is an exception to the prevailing building setbacks but complements the scale and character of the adjoining group of detached cottages on the northern frontage of Buxton Street.<br><br>The imposing St Laurence's Church and Priory is enhanced by its steeply pitched roof profile and the low scale and setback of surrounding development.<br><br>Childers Street<br><br>The historic streetscape is formed by the wide street setting and comprises single-storey detached dwellings and two-storey dwellings that are almost exclusively Local and State Heritage Places with modest front gardens on primarily regular allotments of consistent size and pattern. The Heritage Places and Representative Building establish the side and front setback pattern.<br><br>Gibbon Lane<br><br>The historic streetscape character is derived from the narrow street setting and the compact residential buildings comprising one and two-storey detached dwellings and two-storey terrace housing of Local Heritage value on allotments of predominantly consistent size and pattern.<br><br>The dwellings have shallow front setbacks with small garden areas and are either built on the side property boundaries or have 1 to 3 metre side setbacks.<br><br>Hill Street<br><br>The historic streetscape is formed by the wide street setting and the one and two-storey dwellings of Local and State Heritage value with single-width vehicle access from the street.<br><br>The dwellings on the eastern side are sited close to the street with small garden areas.<br><br>The dwellings on the western side have more generous setbacks with front gardens and are generally consistently setback from the primary street frontage, except for the apartments at 103 Strangways Terrace, which are uncharacteristic to the Area.<br><br>The built form pattern is established by the regular pattern and siting of Heritage Places on individual allotments.<br><br>The prominence of St Laurence's Church is enhanced by its steeply pitched roof profile and the low scale and setback of surrounding development.<br><br>Jeffcott Street<br><br>The historic streetscape is formed by the wide street setting and the large traditional single-story detached dwellings that generally have a consistent building rhythm and pattern when viewed from the street and are of predominantly Local Heritage value.<br><br>The buildings have modest setbacks with small garden areas established by the Heritage Places. Some corner sites comprise buildings set on or close to the primary street frontage. The allotments are consistent in size and pattern.<br><br>Mills Terrace<br><br>The residential streetscape is of high quality, and the historic character is derived from the Adelaide Park Lands frontage and the low-density one and two-storey detached grand residences on large allotments set within a spacious garden setting, including landscaped front gardens.<br><br>The historic dwellings are well setback from the street frontage, and the rhythm and pattern of their siting contribute to their historic character.<br><br>Molesworth Street:<br><br>The historic streetscape is formed by the wide street setting and the one and two-storey detached and semi-detached dwellings.<br><br>The dwellings are predominantly setback from side boundaries and well setback from front boundaries with generous garden settings or front garden areas established by the regular pattern and siting of Heritage Places and Representative Buildings on individual allotments. The allotments are of a consistent size, pattern and rhythm.<br><br>The Church of Perpetual Adoration within the St Dominic's Priory College site makes a valuable contribution to the streetscape quality and the historic character of the Area that is enhanced by the low scale and setback of surrounding development.<br><br>Ward Street and Strangways Terrace<br><br>The high amenity streetscape is formed by the wide street setting and the Adelaide Park Lands frontage along Strangways Terrace. The historic character comprises one and two-storey detached dwellings of State and Local Heritage value. The generous landscaped front gardens and garden settings make an important contribution to the streetscape setting.<br><br>The primary frontage setbacks only slightly vary, but when viewed from the street, they present as a coherent building line. The Heritage Places establish the side and front setback pattern.<br><br>Calvary Hospital is an important element of built form on a prominent corner site that contributes to the area's character.<br><br>Queens Close, Tormore Place, Glandfield Court, Figtree Court, Strangways Place and Alder Place<br><br>Minor streets with consistent building setbacks and side and rear laneway access to carports and garaging for residences fronting another street.<br><br>Cardiff Street, McKay Mew, Munks Place, Priory Lane, Barnard Lane, Steuart Place and Makin Place<br><br>Minor streets providing rear laneway access to carports and garaging for residences fronting another street. |
| | Architectural styles, detailing and built form features | Characterised by a range of quality design and architectural styles relating to North Adelaide's development as a residential village from the 1830s to the 1940s, with varying concentrations of styles localised to areas established by the prevailing patterns set by Heritage Places and Representative Buildings.<br><br>The Heritage Places include nineteenth and early twentieth century elegant and finely detailed mansions and large villas set on large allotments, intermingled with areas containing low-density cottages, villas, and terrace houses of one and two storeys.<br><br>The prevailing built form features of the area includes pitched roofs (hipped and/or gable-ended), tall brick chimneys, pitched verandahs, vertically proportioned windows, panelled doors, and decorative mouldings and dressings to masonry. Cohesion is derived from the pattern of detached houses, the consistency of masonry facades, vertically proportioned windows, pitched roofs, verandahs and porches.<br><br>The pitch and form of the roof, and the design, form and composition of facades reflect traditional proportions of Heritage Places and Representative Buildings.<br><br>Buildings address the street frontages.<br><br>Design elements of a Heritage Place and Representative Buildings, such as verandahs, roof forms or historic detailing, maintain historic proportions and are not extended at the same alignment as the main face of the Heritage Places.<br><br>Building additions incorporate materials and proportions that reflect the character of the Heritage Place or Representative Building and are materially compatible with the building.<br><br>Second storey development located within the roof space or to the rear of the dwelling behind the ridgeline of the roof and not readily visible from the street.<br><br>Carports, garages, and side additions are located behind the main face of the building and facade and do not dominate the street frontage or significantly alter the historic character of the Heritage Places and Representative Buildings. The illustration below illustrates the typical and appropriate siting of carports and garages. |

Undercroft parking is inconsistent with the historic character and value of the Area.

The Area is characterised by a variety of architectural styles, including but not limited to:

**Early Victorian Houses (1837 to 1869)**

In the initial period of settlement, corresponding with the early Victorian period, houses were typically small, low-scale and of a simple form. Small houses such as this were built on or close to the street alignment and were constructed of rubble walling of limestone and bluestone, or of locally fired bricks. Generally, these small cottages were straight fronted with a symmetrical arrangement of a central door and windows on either side. Variations in form included a front wall built up as a parapet, with a low hipped roof behind, or end gable walls, with a simple ridged roof line between the gable ends. Verandahs were sometimes added later, but the low scale of these buildings often made this difficult.

**Victorian Houses (1870 to 1899)**

During this period of intensive development in North Adelaide, solid masonry houses of a range of forms and scales were constructed in large numbers. The detail on these houses is specifically derived from 'classical' Italianate sources, but the forms were varied, and included single-fronted, symmetrically fronted, and asymmetrically fronted houses, some with bay-fronted projections. Each of these forms could be single or two-storey, and all were built in a variety of sizes and scales. Houses in this period characteristically had verandahs with the roof most commonly of concave or convex form, and were typically constructed of bluestone, limestone or sandstone, often with side and rear walls of brick or rubble. Roofs were generally hipped in form, but with the asymmetrical style, the roof to the projecting bay could be gable-ended or hipped. The vertically proportioned window and door surrounds were highlighted with either moulded render or brick dressings. The cast iron or timber posts to the verandahs were elaborated with moulded capitals and trim. Cast iron brackets and frieze decoration were used widely. Windows and doors were timber-framed, and doors were typically four-panelled, with fanlights and often sidelights.

**Edwardian Houses (1900 to 1915)**

Houses of this period reflected new sources of design and architectural approach current in Britain, Europe and to some degree, North America. The emphasis on a straightforward, often symmetrical, form was overwhelmed by a more picturesque approach to roof forms and elevations. Sources of styles for this period included Queen Anne, Arts & Crafts and Art Nouveau styles, which were often transmuted into a particularly Australian style as this period coincided with the Federation era. The earlier houses in this period continued with some transitional use of materials such as ashlar stone with brick dressings or moulded render, but with verandahs with convex (or bullnose) profile. Later in the period, distinctive 'rock face' sandstone (or freestone) was used in the wall material. Houses with face brick walling and decorative brick detailing were also constructed during this period. Other characteristic features of houses of this period include prominent strapped gables and detailing, tall brick chimneys, and verandahs that were often incorporated under the main pitch of the roof. During this period, imported unglazed terracotta Marseilles roof tiles were introduced, although corrugated iron also continued to be used for roof cladding. Windows and doors continued to be constructed of timber, but windows were often grouped, and doors were often divided into three or four horizontal panels.

**Inter-War Houses (1916 to 1942)**

In the period between the First World War and the Second World War, new styles developed, particularly the Bungalow (based on the Californian version) and Tudor Revival styles. Bungalows incorporated a broad spreading roof and verandah with typical masonry columns supporting verandah elements, and the expansive two-storey version was often known as a Gentlemen's Bungalow. The roof tiles used were Australian-made Wunderlich tiles of the same profile as earlier Marseilles tiles. The Tudor Revival style displayed steeply pitched roofs with half timber gable ends and variations of the verandah porch treatment. Other styles which were built in North Adelaide during this period included Spanish Mission (or more often 'Mediterranean') and Art Deco/Moderne, although these are not as common. During this period, timber joinery remained characteristic of the housing styles, but there was some use of metal-framed windows.

Housing development essentially stopped in North Adelaide from 1942 to 1950 because of the materials shortages caused by the Second World War.

**Post War Housing (1943 plus)**

During this period, a range of new styles became popular. The styles constructed in North Adelaide included Old English and Georgian Revival. Houses in these styles were constructed both before and after the Second World War and were either infills or replaced earlier houses.

The Old English Revival style used elements that reference Elizabethan/Tudor architectural details, including brick or white rendered walls to simulate limewash, steeply pitched roof form and tall chimneys.

The Georgian Revival style was based on an interpretation of English Georgian architecture, using a symmetrical elevation with rendered or brick walls, a fanlight above the central entrance door, a hipped roof form and generally classically derived proportions and details. This style had no verandah but often displayed an entrance portico.

Some later notable architecturally designed residences, which were based on the post-war International Style, illustrate the avant-garde trend of domestic architecture in the 1960s. These houses were generally cubiform and were constructed with flat roofs, with large areas of glass in smooth masonry walls. Cantilevered elements and recessed porch areas were typical of the style.

Barnard Street

Victorian and Inter-war periods.

Exhibits a diverse collection of architectural styles, including, but not limited to, Inter-war Mediterranean, Tudor Bungalow, Mediterranean, Inter-war Mediterranean, Old English, Georgian Revival, Victorian Gothic, Victorian villas, Victorian cottages, and row cottages.

Distinctive Calvary Hospital Chapel.

Barton Terrace West

Victorian and Edwardian periods.

Architectural styles include but are not limited to Victorian villas and Queen Anne.

Buxton Street

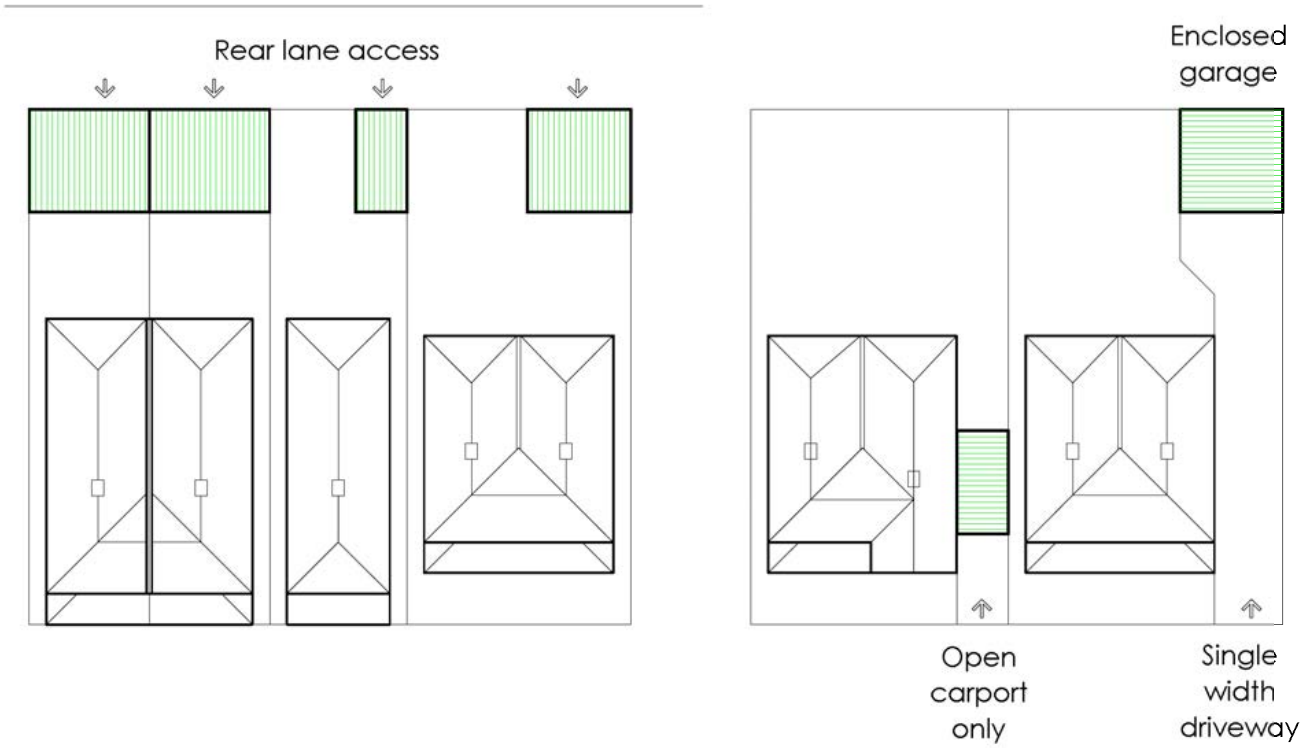
Victorian, Edwardian, Inter-war and Post-War periods.

Exhibits a diverse collection of architectural styles, including but not limited to a Victorian villa, a Queen Anne villa, Tudor Gothic, Old English Revival, Inter-War Bungalow, and single and double-fronted Victorian cottages.

The traditional corner shop to the north-west corner of Buxton Street and Jeffcott Street.

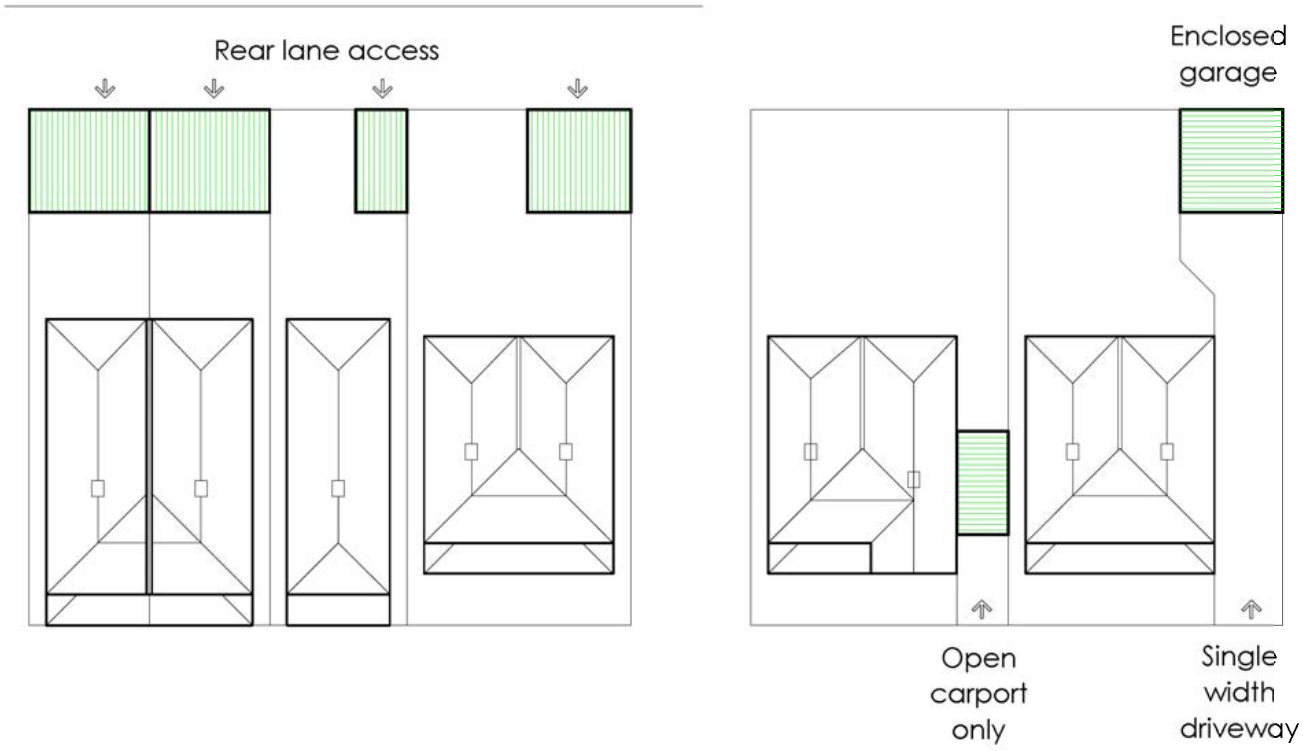
Childers Street

Victorian, Edwardian and Inter-war periods.



Exhibits a collection of architectural styles, including but not limited to Victorian detached and semi-detached Victorian villas, Old English Revival, a Bungalow and Victorian cottages.

Gibbon Lane



Victorian period.

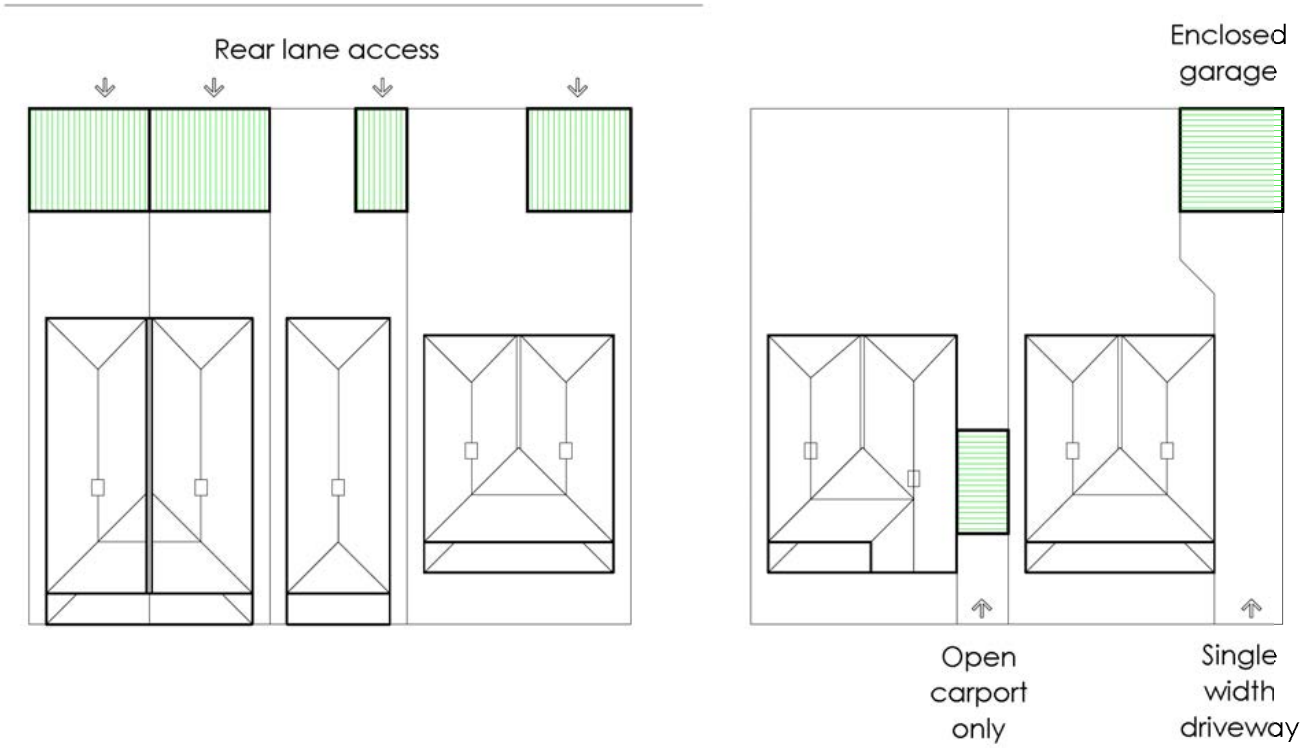
| | **North Adelaide Childers East Historic Area Statement (Adel 2)** | |
| | Eras, themes and context | Themes and Context<br><br>Adelaide's identity is shaped by its unique grid pattern and hierarchy of streets. Its rectangular geometry contrasts with the natural setting provided by the Adelaide Park Lands and views to the Adelaide Hills. The pattern of Squares reinforces the city's geometry. Colonel Light's |



| Statement# | | Statement |
|---|---|---|
| | | visionary layout of Adelaide and its Park Lands was recognised through its National Heritage listing in 2008.<br><br>North Adelaide is part of the historic plan of the City of Adelaide. The historic character of North Adelaide provides strong cultural and historic evidence of the creation of the colony, the establishment and consolidation of early settlement and the subsequent development of South Australia's capital city over time.<br><br>Significant features include the natural and cultural landscape, which creates the physical setting for North Adelaide, the hierarchy of wide and narrow streets, Squares and gardens, and the differing orientation of upper and lower North Adelaide. The arrangement of the plan had the effect of creating interest in development facing the Adelaide Park Lands, resulting in characteristic housing of substantial scale along many frontages. Pockets of North Adelaide developed compactly with small cottages and worker housing provide evidence of a different way of life to that experienced by the residents of the more substantial villas.<br><br>The Childers East Area demonstrates the layout and settlement patterns of the City of Adelaide from the 1830s, namely the original 'Town Acre' pattern grid intersected by a hierarchy of street widths, and the further development of North Adelaide character as a residential village (particularly the typical 1850s to 1880s village type settlement pattern, with shops and other services). It exhibits residential architecture from different periods of the city's development, from early colonial times (workers' cottages) through to and including the Inter-war period.<br><br>Eras<br><br>1837 to 1899 - Victorian period.<br><br>1900 to 1915 - Edwardian period.<br><br>1916 to 1942 - Inter-war period. |
| | Allotments, subdivision and built form patterns | This Area is characterised by low-density residential development on rectangular allotments of varying widths and sizes.<br><br>The Area has retained much of its historic grid pattern with major and minor streets, lanes, and places. The Town-Acre layout and later patterns of subdivision and development create large allotments, and a low-density residential character derived from generous building setbacks, orientation, and patterns established by the prevailing Heritage Places and Representative Buildings.<br><br>The historic built-form character is established by detached and semi-detached dwellings ranging from some large-scale dwellings fronting Barton Terrace West to compact dwellings on smaller, narrower allotments and sometimes on street corners.<br><br>Heritage Places and Representative Buildings create a cohesive pattern of shallow as well as examples of deeper building setbacks from the primary street frontages.<br><br>The building setbacks from front, side and rear allotment boundaries are established by the prevailing Heritage Places. Buildings do not project forward of Heritage Places or Representative Buildings, including on adjacent sites, nor do they extend to side boundaries other than for party walls in semi-detached and row dwellings.<br><br>Generally, buildings are set within landscaped grounds and extensive gardens, which typically cover 40 percent of the site.<br><br>The historic built-form character of the Area is established by State and Local Heritage Places and Representative Buildings, reinforcing the character of the historic built form, allotments and subdivision patterns as described below:<br><br>Barton Terrace West<br><br>The historic streetscape is formed by the wide street setting and attractive outlook to the Adelaide Park Lands, setback with generous front garden areas to the east towards O'Connell Street and buildings on or close to the street frontage to the west by the intersections with Jeffcott Street and Hack Street forming a harder built edge.<br><br>Childers Street<br><br>The historic streetscape is formed by the relatively wide street and the cohesive pattern of dwellings, mostly Heritage Places, set back from the primary street frontage with small front garden areas, with buildings on the street frontage at the two corner sites at the western end.<br><br>Groups of allotments of consistent size and width containing similar buildings (in terms of period, size, style, etc) establish a pattern and rhythm, including single-storey row cottages, detached dwellings, and terrace houses with narrow frontages on the northern side and detached and semi-detached cottages with consistent setbacks on the southern side.<br><br>Gover Street<br><br>The intimate historic streetscape is formed by the narrow street width and the cohesive pattern of dwellings, mostly Heritage Places, set back from the primary street with small front garden areas, with buildings on or close to the street frontage at the two corner sites at the western end, as well as other examples closer to O'Connell Street.<br><br>Generally, close-set single-storey detached or semi-detached dwellings with consistent setbacks, size, patterns and rhythm, and small front gardens are prevalent, but on the southern side west of Mansfield Street, some dwellings have more generous side or front setbacks.<br><br>Hack Street<br><br>The intimate historic character of this narrow street is derived from single-storey detached cottages setback with small front gardens, single-width carparking, and rear access to residences on Jeffcott Street.<br><br>Jeffcott Street (east side)<br><br>The historic streetscape is formed by the wide street and single-storey dwellings typically built on the street frontage, especially north of Gover Street, as is the two-storey 1923 corner hall at 200 Jeffcott Street.<br><br>To the north of Childers Street, the historic streetscape is intact and comprises single-storey row cottages with a consistent and intensive built form edge on or close to the street frontage, with small garden areas.<br><br>Mansfield Street<br><br>The historic character of this narrow street is established by single-storey detached cottages that are primarily Heritage Places and largely intact. The dwellings are consistently setback close to the street with small front garden areas. The allotments and buildings are of a consistent size, pattern and rhythm.<br><br>Travers Place<br><br>Minor street characterised by detached dwellings and row cottages with consistent building setbacks and providing rear laneway access for residences on Barton Terrace West.<br><br>Tynte Place<br><br>Minor street with consistent building setbacks and providing rear access to a dwelling fronting Gover Street.<br><br>The historic character is derived from consistently setback single-storey, single- and double-fronted detached and semi-detached cottages with small front garden areas or verandahs extending to the street frontage. The allotments are of a consistent size, pattern, and rhythm.<br><br>Tower Street North<br><br>Minor street characterised by single-storey detached and semi-detached dwellings and providing rear laneway access for residences fronting another street.<br><br>Fenchurch Street, Glover Place and Gover Place West<br><br>Minor streets providing rear laneway access for non-character and character residences fronting another street.<br><br>Barton Place, Childers Court, Curtin Lane, David Street, Davies Place, Greenock Court, Lombard Street and Tasker Lane<br><br>Minor streets with consistent building setbacks and providing rear laneway access to residences fronting another street.<br><br>With the exception of Barton Place and Taskers Lane, these streets predominantly comprise non-character buildings. |
| | Architectural styles, detailing and built form features | Characterised by a range of architectural styles relating to North Adelaide's development as a residential village from the 1830s to the 1940s, with varying localised concentrations of styles that are exhibited by the Heritage Places and Representative Buildings.<br><br>The variety of dwelling types has been retained by the conservation of Heritage Places, characterised by nineteenth and early twentieth century elegant and finely detailed mansions and other large villas set on large allotments, together with low-density cottages, villas and terrace houses of one and two storeys.<br><br>The prevailing built form features of the Area include pitched roofs (hipped and/or gable-ended), tall brick chimneys, pitched verandahs, vertically proportioned windows, panelled doors, and decorative mouldings and dressings to masonry. Cohesion is derived from the pattern of detached houses, the consistency of masonry facades, vertically proportioned windows, pitched roofs, verandahs and porches.<br><br>The pitch and form of the roof, and the design, form and composition of facades reflect traditional proportions of Heritage Places and Representative Buildings.<br><br>Buildings address the street frontages.<br><br>Design elements of a Heritage Place and Representative Buildings, such as verandahs, roof forms or historic detailing, maintain historic proportions and are not extended at the same alignment as the main face of the Heritage Places.<br><br>Building additions incorporate materials and proportions that reflect the character of the Heritage Place or Representative Building and are materially compatible with the building.<br><br>Second storey development located within the roof space or to the rear of the dwelling behind the ridgeline of the roof and not readily visible from the street.<br><br>Carports, garages and side additions are located behind the main face of the building and facade and do not dominate the street frontage or significantly alter the historic character of the Heritage Places and Representative Buildings. The illustration below illustrates the typical and appropriate siting of carports and garages. |

| | **North Adelaide Wellington Square Historic Area Statement (Adel 3)** | |
| | Eras, themes and context | Themes and Context<br><br>Adelaide's identity is shaped by its unique grid pattern and hierarchy of streets. Its rectangular geometry contrasts with the natural setting provided by the Adelaide Park Lands and views to the Adelaide Hills. The pattern of Squares reinforces the city's geometry. Colonel Light's visionary layout of Adelaide and its Park Lands was recognised through its National Heritage listing in 2008.<br><br>North Adelaide is part of the historic plan of the City of Adelaide. The historic character of North Adelaide provides strong cultural and historic evidence of the creation of the colony, the establishment and consolidation of early settlement and the subsequent development of South Australia's capital city over time.<br><br>Significant features include the natural and cultural landscape, which creates the physical setting for North Adelaide, the hierarchy of wide and narrow streets, Squares and gardens, and the differing orientation of upper and lower North Adelaide. The arrangement of the plan had the effect of creating interest in development facing the Adelaide Park Lands, resulting in characteristic housing of substantial scale along many frontages. Pockets of North Adelaide developed compactly with small cottages and worker housing provide evidence of a different way of life to that experienced by the residents of the more substantial villas.<br><br>North Adelaide formed a distinctive part of the plan for Adelaide drawn up by Colonel William Light; its form and layout were determined by its geography. Upper North Adelaide, in particular, repeats the land division pattern created by Light's Plan in South Adelaide, with the Town Acres disposed in a regular grid layout around Wellington Square, the only Square incorporated within the initial plan for North Adelaide.<br><br>The Area demonstrates the laying out and settlement patterns of the City of Adelaide from the 1830s, namely the original 'Town Acre' pattern grid intersected by a hierarchy of street widths, the further development of North Adelaide character as a residential village (particularly the typical 1850s to 1880s village type settlement pattern, with shops and other services), and the settling of major religious and institutional organisations and their buildings, and for the residences of many notable Adelaide community members.<br><br>Wellington Square, the only Square in North Adelaide, is surrounded by primarily single- and two-story developments with a village character, including a former shop, a former Church, and a hotel.<br><br>Eras<br><br>1837 to 1899 - Victorian period.<br><br>1900 to 1915 - Edwardian period.<br><br>1916 to 1942 - Inter-war period. |
| | Allotments, subdivision and built form patterns | Wellington Square is one of the city's most important and intact historical public spaces and one of the most attractive residential areas in North Adelaide.<br><br>The historic streetscape is contiguous with and complementary to the streetscape character of the major streets that lead into the Square.<br><br>The historic rectilinear grid pattern of streets and allotments around the Square or fronting Jeffcott Street is largely intact.<br><br>Generally, the dwellings are set within generous landscaped grounds which typically cover 50 percent of the site. |

| Statement# | | Statement |
|---|---|---|
| | | The historic built-form character is established by mainly detached and some attached dwellings that are Local or State Heritage Places, along with a church building and a hotel that are State Heritage Places, reinforcing the character of the historic built form, allotments and subdivision patterns as described below:<br><br>Gloucestor Place<br><br>Minor street characterised by single-storey detached cottages located close to the street with verandahs extending to the street frontage and providing rear laneway access for buildings fronting another street.<br><br>Wellington Square and Jeffcott Street<br><br>The historic streetscape is derived from the wide streets that surround Wellington Square and the nineteenth century buildings that are sited on or close to the street frontage with garden areas enclosing the open space of the Square and reinforcing the rectilinear pattern of street spaces.<br><br>The building scale, siting, setbacks and subdivision patterns are established by Heritage Places.<br><br>The former Primitive Methodist Church makes a valuable contribution to the streetscape and historic character of the Area.<br><br>Wellington Court<br><br>Minor street flanked by the side elevation of the Sunningdale Apartments, a Local Heritage Place, and non-character two-storey dwellings setback with small garden areas and providing laneway access for buildings fronting another street. |
| Adel3 | Architectural styles, detailing and built form features | The area surrounding Wellington Square is characterised by a range of architectural styles relating to North Adelaide's development as a residential village from the 1830s to the 1950s.<br><br>The prevailing built form features of the Area include pitched roofs (hipped and/or gable-ended), tall brick chimneys, pitched verandahs, vertically proportioned windows, panelled doors, and decorative mouldings and dressings to masonry. Cohesion is derived from the pattern of detached houses, the consistency of masonry facades, vertically proportioned windows, pitched roofs, verandahs and porches.<br><br>The pitch and form of the roof and the design, form, and composition of facades reflect the traditional proportions of Heritage Places and Representative Buildings.<br><br>Buildings address the street frontages.<br><br>Design elements of a Heritage Place, such as verandahs, roof forms or historic detailing, maintain historic proportions and are not extended at the same alignment as the main face of the Heritage Places.<br><br>Building additions incorporate materials and proportions that reflect the character of the Heritage Place and are materially compatible with the building.<br><br>Second-storey development located within the roof space or to the rear of the dwelling behind the ridgeline of the roof and not readily visible from the street.<br><br>Carports, garages, and side additions are located behind the main face of the building and facade and do not dominate the street frontage or significantly alter the historic character of the Heritage Places. The illustration below illustrates the typical and appropriate siting of carports and garages.<br><br><br><br><br>Undercroft parking is inconsistent with the historic character and value of the Area.<br><br>The Area is characterised by a variety of architectural styles, including but not limited to:<br><br>**Early Victorian Houses (1837 to 1869)**<br><br>In the initial period of settlement, corresponding with the early Victorian period, houses were typically small, low-scale and of a simple form. Small houses such as this were built on or close to the street alignment and were constructed of rubble walling of limestone and bluestone, or of locally fired bricks. Generally, these small cottages were straight fronted with a symmetrical arrangement of a central door and windows on either side. Variations in form included a front wall built up as a parapet, with a low hipped roof behind, or end gable walls, with a simple ridged roof line between the gable ends. Verandahs were sometimes added later, but the low scale of these buildings often made this difficult.<br><br>**Victorian Houses (1870 to 1899)**<br><br>During this period of intensive development in North Adelaide, solid masonry houses of a range of forms and scales were constructed in large numbers. The detail on these houses is specifically derived from 'classical' Italianate sources, but the forms were varied, and included single fronted, symmetrically fronted, and asymmetrically fronted houses, some with bay fronted projections. Each of these forms could be single or two-storey, and all were built in a variety of sizes and scales. Houses in this period characteristically had verandahs with the roof most commonly of concave or convex form, and were typically constructed of bluestone, limestone or sandstone, often with side and rear walls of brick or rubble. Roofs were generally hipped in form, but with the asymmetrical style, the roof to the projecting bay could be gable-ended or hipped. The vertically proportioned window and door surrounds were highlighted with either moulded render or brick dressings. The cast iron or timber posts to the verandahs were elaborated with moulded capitals and trim. Cast iron brackets and frieze decoration were used widely. Windows and doors were timber-framed, and doors were typically four-panelled, with fanlights and often sidelights.<br><br>**Inter-War Houses (1915 to 1942)**<br><br>In the period between the First World War and Second World War, new styles developed, particularly the Bungalow (based on the Californian version) and Tudor Revival styles. Bungalows incorporated a broad spreading roof and verandah with typical masonry columns supporting verandah elements, and the expansive two-storey version was often known as a Gentlemen's Bungalow. The roof tiles used were Australian-made Wunderlich tiles of the same profile as earlier Marseilles tiles. The Tudor Revival style displayed steeply pitched roofs with half timber gable ends and variations of the verandah porch treatment. Other styles which were built in North Adelaide during this period included Spanish Mission (or more often 'Mediterranean') and Art Deco/Moderne, although these are not as common. During this period, timber joinery remained characteristic of the housing styles, but there was some use of metal framed windows.<br><br>Housing development essentially stopped in North Adelaide from 1942 to 1950 because of the materials shortages caused by the Second World War.<br><br>**Post War Housing (1943 plus)**<br><br>During this period, a range of new styles became popular. The styles constructed in North Adelaide included Old English and Georgian Revival. Houses in these styles were constructed both before and after the Second World War and were either infills or replacements for earlier houses.<br><br>The Old English Revival style used elements which made some reference to Elizabethan/Tudor architectural details, including brick or white rendered walls to simulate limewash, steeply pitched roof form and tall chimneys.<br><br>The Georgian Revival style was based on an interpretation of English Georgian architecture, using a symmetrical elevation with rendered or brick walls, a fanlight above the central entrance door, a hipped roof form and generally classically derived proportions and details. This style had no verandah but often displayed an entrance portico.<br><br>Some later notable architecturally designed residences, which were based on the post-war International Style, illustrate the avant-garde trend of domestic architecture in the 1960s. These houses were generally cubiform and were constructed with flat roofs, with large areas of glass in smooth masonry walls. Cantilevered elements and recessed porch areas were typical of the style.<br><br>Eastern side (including northern and southern side) of Wellington Square and Jeffcott Street |

Generally, these small cottages were straight fronted with a symmetrical arrangement of a central door and windows on either side. Variations in form included a front wall built up as a parapet, with a low hipped roof behind, or end gable walls, with a simple ridged roof line between the gable ends. Verandahs were sometimes added later but the low scale of these buildings often made this difficult.<br><br>**Victorian Houses (1870 to 1899)**<br><br>During this period of intensive development in North Adelaide, solid masonry houses of a range of forms and scales were constructed in large numbers. The detail on these houses is specifically derived from 'classical' Italianate sources, but the forms were varied, and included single fronted, symmetrically fronted, and asymmetrically fronted houses, some with bay fronted projections. Each of these forms could be single or two-storey, and all were built in a variety of sizes and scales. Houses in this period characteristically had verandahs with the roof most commonly of concave or convex form, and were typically constructed of bluestone, limestone or sandstone, often with side and rear walls of brick or rubble. Roofs were generally hipped in form, but with the asymmetrical style, the roof to the projecting bay could be gable-ended or hipped. The vertically proportioned window and door surrounds were highlighted with either moulded render or brick dressings. The cast iron or timber posts to the verandahs were elaborated with moulded capitals and trim. Cast iron brackets and frieze decoration were used widely. Windows and doors were timber framed, and doors were typically four panelled, with fanlights and often sidelights.<br><br>**Edwardian Houses (1900 to 1915)**<br><br>Houses of this period reflected new sources of design and architectural approach current in Britain, Europe and to some degree, North America. The emphasis on a straightforward, often symmetrical, form was overwhelmed by a more picturesque approach to roof forms and elevations. Sources of styles for this period included Queen Anne, Arts & Crafts and Art Nouveau styles, which were often transmuted into a particularly Australian style as this period coincided with the Federation era. The earlier houses in this period continued with some transitional use of materials such as ashlar stone with brick dressings or moulded render, but with verandahs with convex (or bullnose) profile. Later in the period, distinctive 'rock face' sandstone (or freestone) was used as the wall material. Houses of face brick walling with decorative brick detailing were also constructed during this period. Other characteristic features of houses of this period include prominent strapped gables and detailing, tall brick chimneys, and verandahs that were often incorporated under the main pitch of the roof. During this period, imported unglazed terracotta Marseilles roof tiles were introduced, although corrugated iron also continued to be used for roof cladding. Windows and doors continued to be constructed of timber, but windows were often grouped, and doors were often divided into three or four horizontal panels.<br><br>**Inter-War Houses (1916 to 1942)**<br><br>In the period between the First World War and Second World War new styles developed, particularly the Bungalow (based on the Californian version) and Tudor Revival styles. Bungalows incorporated a broad spreading roof and verandah with typical masonry columns supporting verandah elements, and the expansive two storey version was often known as a Gentlemen's Bungalow. | | **North Adelaide Carclew Historic Area Statement (Adel 5)** | |
| | Eras, themes and context | Themes and Context<br><br>Adelaide's identity is shaped by its unique grid pattern and hierarchy of streets. Its rectangular geometry contrasts with the natural setting provided by the Adelaide Park Lands and views to the Adelaide Hills. The pattern of Squares reinforces the city's geometry. Colonel Light's visionary layout of Adelaide and its Park Lands was recognised through its National Heritage listing in 2008.<br><br>North Adelaide is an integral part of the historic plan of the City of Adelaide. The historic character of North Adelaide provides strong cultural and historic evidence of the creation of the colony, the establishment and consolidation of early settlement and the subsequent development of South Australia's capital city over time.<br><br>Significant features include the natural and cultural landscape, which creates the physical setting for North Adelaide, the hierarchy of wide and narrow streets, Squares and gardens, and the differing orientation of upper and lower North Adelaide. The arrangement of the plan had the effect of creating interest in development facing the Adelaide Park Lands, resulting in characteristic housing of substantial scale along many frontages. Pockets of North Adelaide developed compactly with small cottages and worker housing provide evidence of a different way of life to that experienced by the residents of the more substantial villas.<br><br>The Area demonstrates the laying out and settlement patterns of the City of Adelaide from the 1830s, namely the original 'Town Acre' pattern grid intersected by a hierarchy of street widths, the further development of North Adelaide character as a residential village (particularly the typical 1850s to 1880s village type settlement pattern, with shops and other services), and the settling of major religious and institutional organisations and their buildings. It exhibits residential architecture from all periods of the city's development and includes the residences of many notable Adelaide community members.<br><br>Following the survey and settlement, the natural landscape was converted to a cultural landscape, which now reflects the divisions of wealth and influence in the early colony. The elevated land adjacent to the Adelaide Park Lands, such as Strangways Terrace, provided prestigious residential addresses. The topography of the City of Adelaide explains many of its patterns of development. Elevated land was selected to avoid flooding, but was also prestigious and offered the best views. This was the case with the allotments that were created around the high points of Montefiore Hill and Strangways Terrace, where some of the city's finest buildings are located, such as Carclew, Aquinas College and Bishop's Court.<br><br>The built form of North Adelaide is indicative of the social divisions and occupations of Adelaide society from early settlement. It retains many buildings and sites of State and Local Heritage value, ranging from large mansions to simple row cottages, corner shops and hotels to major churches and institutional buildings that reflect the different periods of development. The diversity of scale and integrity of the remaining historic built form is a microcosm of development periods and traditional housing styles in the State as a whole.<br><br>Eras<br><br>1837 to 1899 - Victorian period.<br><br>1900 to 1915 - Edwardian period. |

| Statement# | | Statement |

Adel5

Undercroft parking is inconsistent with the historic character and value of the Area.

The Area is characterised by a variety of architectural styles, including but not limited to:

**Early Victorian Houses (1837 to 1869)**

In the initial period of settlement, corresponding with the early Victorian period, houses were typically small, low-scale and of a simple form. Small houses such as this were built on or close to the street alignment and were constructed of rubble walling of limestone and bluestone, or of locally fired bricks. Generally, these small cottages were straight fronted with a symmetrical arrangement of a central door and windows on either side. Variations in form included a front wall built up as a parapet, with a low hipped roof behind, or end gable walls, with a simple ridged roof line between the gable ends. Verandahs were sometimes added later, but the low scale of these buildings often made this difficult.

**Victorian Houses (1870 to 1899)**

During this period of intensive development in North Adelaide, solid masonry houses of a range of forms and scales were constructed in large numbers. The detail on these houses is specifically derived from 'classical' Italianate sources, but the forms were varied, and included single-fronted, symmetrically fronted, and asymmetrically fronted houses, some with bay-fronted projections. Each of these forms could be single or two-storey, and all were built in a variety of sizes and scales. Houses in this period characteristically had verandahs with the roof most commonly of concave or convex form, and were typically constructed of bluestone, limestone or sandstone, often with side and rear walls of brick or rubble. Roofs were generally hipped in form, but with the asymmetrical style, the roof to the projecting bay could be gable-ended or hipped. The vertically proportioned window and door surrounds were highlighted with either moulded render or brick dressings. The cast iron or timber posts to the verandahs were elaborated with moulded capitals and trim. Cast iron brackets and frieze decoration were used widely. Windows and doors were timber framed, and doors were typically four panelled, with fanlights and often sidelights.

**Edwardian Houses (1900 to 1915)**

Houses of this period reflected new sources of design and architectural approach current in Britain, Europe and to some degree, North America. The emphasis on a straightforward, often symmetrical, form was overwhelmed by a more picturesque approach to roof forms and elevations. Sources of styles for this period included Queen Anne, Arts & Crafts and Art Nouveau styles, which were often transmuted into a particularly Australian style as this period coincided with the Federation era. The earlier houses in this period continued with some transitional use of materials such as ashlar stone with brick dressings or moulded render, but with verandahs with convex (or bullnose) profile. Later in the period, distinctive 'rock face' sandstone (or freestone) was used in the wall material. Houses of face brick walling with decorative brick detailing were also constructed during this period. Other characteristic features of houses of this period include prominent strapped gables and detailing, tall brick chimneys, and verandahs that were often incorporated under the main pitch of the roof. During this period, imported unglazed terracotta Marseilles roof tiles were introduced, although corrugated iron also continued to be used for roof cladding. Windows and doors continued to be constructed of timber, but windows were often grouped, and doors were often divided into three or four horizontal panels.

**Inter-War Houses (1916 to 1942)**

In the period between the First World War and the Second World War, new styles developed, particularly the Bungalow (based on the Californian version) and Tudor Revival styles. Bungalows incorporated a broad spreading roof and verandah with typical masonry columns supporting verandah elements, and the expansive two-storey version was often known as a Gentlemen's Bungalow. The roof tiles used were Australian-made Wunderlich tiles of the same profile as earlier Marseilles tiles. The Tudor Revival style displayed steeply pitched roofs with half timber gable ends and variations of the verandah porch treatment. Other styles which were built in North Adelaide during this period included Spanish Mission (or more often 'Mediterranean') and Art Deco/Moderne, although these are not as common. During this period, timber joinery remained characteristic of the housing styles, but there was some use of metal framed windows.

Housing development essentially stopped in North Adelaide from 1942 to 1950 because of the materials shortages caused by the Second World War.

**Post War Housing (1943 plus)**

During this period, a range of new styles became popular. The styles constructed in North Adelaide included Old English and Georgian Revival. Houses in these styles were constructed both before and after the Second World War and were either infills or replacements for earlier houses.

The Old English Revival style used elements which made some reference to Elizabethan/Tudor architectural details, including brick or white rendered walls to simulate limewash, steeply pitched roof form and tall chimneys.

The Georgian Revival style was based on an interpretation of English Georgian architecture, using a symmetrical elevation with rendered or brick walls, a fanlight above the central entrance door, a hipped roof form and generally classically derived proportions and details. This style had no verandah but often displayed an entrance portico.

Some later notable architecturally designed residences, which were based on the post-war International Style, illustrate the avant-garde trend of domestic architecture in the 1960s. These houses were generally cubiform and were constructed with flat roofs, with large areas of glass in smooth masonry walls. Cantilevered elements and recessed porch areas were typical of the style.

Montefiore Hill, Palmer Place and Brougham Place:

Victorian, Edwardian, Inter-war and Post-war periods.

Exhibits a diverse collection of architectural styles, including but not limited to Neo-Georgian, Mediterranean Revival, Inter-War residences, Old English, Georgian Revival, Gothic, Victorian Gothic, Tudor Gothic, Edwardian and Edwardian Gothic.

Strangways Terrace:

Victorian, Edwardian, Inter-war and Post-war periods.

Exhibits a collection of architectural styles, including but not limited to Georgian Revival residences, Victorian villas, Victorian cottages, Arts and Crafts and Tudor Gothic.

Distinctive Carclew, a mansion with Victorian Tudor Gothic transitioning into Queen Anne style.

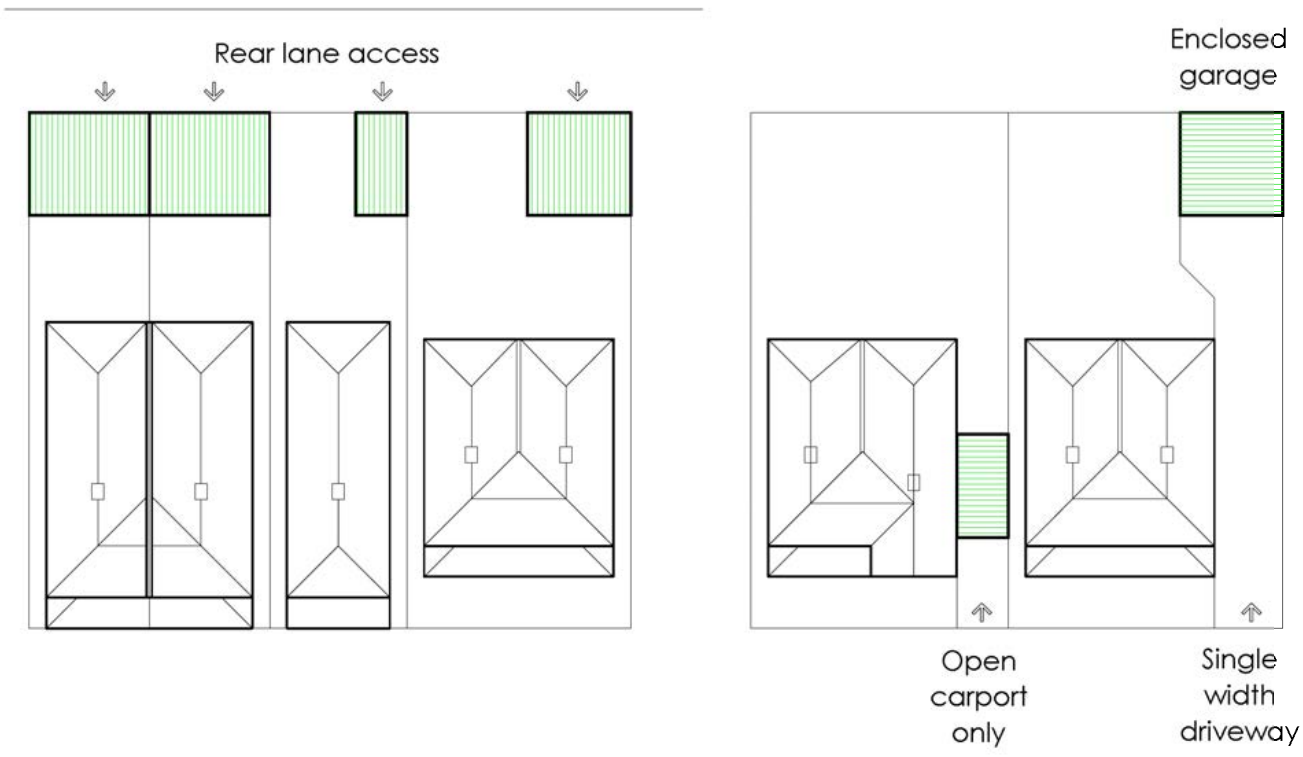
Jeffcott Street

Victorian and Edwardian periods.

Exhibits a diverse collection of architectural styles, including but not limited to Arts and Crafts, Queen Anne and Victorian Terrace housing.
Prominence of early limestone walls and outbuildings.

Distinctive Christ Church and Carclew.

Ward Street (east of Jeffcott Street)



Victorian, Edwardian and Inter-war periods.

Exhibits a collection of architectural styles, including but not limited to Tudor Gothic, Victorian, and Arts and Crafts.

Prominence of early limestone walls and outbuildings.

Distinctive Bishops Court was created by the juxtaposition of steeply pitched roof profiles, gables and tall narrow chimneys.

The Tudor Revival style displayed steeply pitched roofs with half timber gable ends and variations of the verandah porch treatment. Other styles which were built in North Adelaide during this period included Spanish Mission (or more often 'Mediterranean') and Art Deco/Moderne, although these are not as common. During this period, timber joinery remained characteristic of the housing styles, but there was some use of metal framed windows.<br><br>Housing development essentially stopped in North Adelaide from 1942 to 1950 because of the materials shortages caused by the Second World War.<br><br>Archer Street (south side)<br><br>Victorian and Inter-war periods.<br><br>Exhibits a collection of architectural styles, including but not limited to Victorian Villas and an inter-war institutional building.<br><br>Jeffcott Street (east side)<br><br>Victorian period.<br><br>Victorian Tudor architectural style of the Lutheran Seminary buildings of Hebart Hall, including the centre clock tower spire and cast iron and stone walling.<br><br>Walter Street<br><br>Victorian and Edwardian periods.<br><br>Exhibits a collection of architectural styles, including but not limited to Victorian cottages and an Italianate cottage.<br><br>Ward Court<br><br>Victorian period.<br><br>Architectural style includes but is not limited to Victorian Italianate Gymnasium.<br><br>Ward Street (north side)<br><br>Edwardian and Inter-war periods.<br><br>Exhibits a collection of architectural styles, including but not limited to Art Nouveau/ Arts and Crafts and Romanesque.<br><br>Victorian Tudor Lutheran Seminary buildings and cast iron and stone walling. |
| | Building height | Low-scale, one and two-storey residential and other buildings. Established by the prevailing patterns set by Heritage Places and Representative Buildings, except where the following Concept Plan applies:<br>• Concept Plan 26 – Archer West<br>Buildings are single-storey in appearance along Walter Street.<br><br>Building height, including the floor-to-ceiling clearances of each level, references the prevailing floor levels and building heights of Heritage Places and Representative Buildings within the locality. |
| | Materials | Buildings utilise materials relating to their architectural style as described in the various sections of this Statement. The prevailing materials vary between streets but typically include the following:<br><br>Sandstone, bluestone, limestone/freestone and red brick and sometimes rendered.<br><br>Brick or rendered quoin work and plinths.<br><br>Red brick and rendered chimneys.<br><br>Painted timber window frames, doors and roof trim.<br><br>Vertical proportioned timber windows with double sliding sashes.<br><br>Some elaborate decorative elements include painted timber fretwork, cast iron lacework on verandahs, finials, cover battens on gables, and decorative barges.<br><br>Bungalows have rendered or brick piers and low walling to verandahs with some tapered piers.<br><br>Corrugated steel, slate, lead, zinc and terracotta (latter period) roofing.<br><br>Coated surfaces finished in natural render, limewash, cement or mineral paints, not plastic coatings or renders.<br><br>Paint colours consistent or complementary with the era and style of the dwelling as defined by archival sources. |
| | Fencing | Low or open front fencing to the front property boundary line (including secondary streets to the main façade of the building) with the traditional period and style of the building nominally 1.2 metres, allowing views to the building, including simple timber picket styles, timber post and rail styles, and low masonry fences sometimes with piers and cast-iron railings.<br><br>Side and rear boundary fences behind the line of the main building façade rise to a maximum height of 2 metres, and 1.8 metres on corner sites.<br><br>The design of new fencing reflects historically sympathetic fencing styles evident in the streetscape and archival sources.<br><br>Fencing is characterised by a variety of architectural styles, including:<br><br>**Victorian Houses (1870 to 1899)**<br><br>Fences were typically of masonry base and piers with cast iron panels or railings, although evidence of timber railing can still be found. Smaller houses continued to use timber picket fencing.<br><br>**Edwardian Houses (1900 to 1915)**<br><br>Fencing contains elements of Victorian and Inter-war fencing.<br><br>**Inter-War Houses (1916 to 1942)**<br><br>Fencing was typically low masonry walls, built from materials matching the main building. |
| | Setting, landscaping, streetscape and public realm features | Linear grid of tree-lined streets with laneways relating to the subdivision of the original Town Acres.<br><br>Driveways/crossovers of single width with minimal interruption of the primary street frontages and their footpaths, soft landscaped verges, kerbing and guttering.<br><br>Rear lane access, where traditionally vehicle access is not characteristic to the primary street frontage.<br><br>Established views and vistas of the historic Lutheran Seminary buildings of Hebart Hall.<br><br>Former Municipal Tramways Trust Poles along Ward Street.<br><br>Significant avenue of trees along Archer Street.<br><br>Significant vistas along Archer Street between O'Connell Street and Wellington Square.<br><br>Significant vista (long views framed by trees) along Jeffcott Street (between Montefiore Hill and Wellington Square).<br><br>Nature strips of generous proportion along Ward Street. |

| | **North Adelaide Margaret Street Historic Area Statement (Adel 7)** | |
| | Eras, themes and context | Themes and Context<br><br>Adelaide's identity is shaped by its unique grid pattern and hierarchy of streets. Its rectangular geometry contrasts with the natural setting provided by the Adelaide Park Lands and views to the Adelaide Hills. The pattern of Squares reinforces the city's geometry. Colonel Light's visionary layout of Adelaide and its Park Lands was recognised through its National Heritage listing in 2008.<br><br>North Adelaide is part of the historic plan of the City of Adelaide. The historic character of North Adelaide provides strong cultural and historic evidence of the creation of the colony, the establishment and consolidation of early settlement and the subsequent development of South Australia's capital city over time.<br><br>Significant features include the natural and cultural landscape, which creates the physical setting for North Adelaide, the hierarchy of wide and narrow streets, Squares and gardens, and the differing orientation of upper and lower North Adelaide. The arrangement of the plan had the effect of creating interest in development facing the Adelaide Park Lands, resulting in characteristic housing of substantial scale along many frontages. Pockets of North Adelaide developed compactly with small cottages and worker housing provide evidence of a different way of life to that experienced by the residents of the more substantial villas.<br><br>The Area demonstrates the layout and settlement patterns of the City of Adelaide from the 1830s, namely the original 'Town Acre' pattern grid intersected by a hierarchy of street widths, the further development of North Adelaide character as a residential village (particularly the typical 1850s to 1880s village type settlement pattern, with shops and other services), and the settling of major religious and institutional organisations and their buildings, and for the residences of many notable Adelaide community members.<br><br>The Margaret Street Historic Area was established with small and medium scale housing and a range of business and institutional uses, including areas which were subdivided into small lots by developers who held Town Acres in groups, creating a character of small cottages and laneways. This is evident in the sixteen Town Acres owned by the SA Company between Gover, Tynte, O'Connell Streets and LeFevre Terrace.<br><br>Eight Town Acres, originally owned by Governor Hindmarsh, between O'Connell, Margaret, Ward and Archer Streets, was mostly closely settled by 1880. Margaret Street became one of the most densely populated streets in North Adelaide by the 1860s.<br><br>Eras |

| | Allotments, subdivision and built form patterns | This Area is characterised by intact low-density residential development on rectangular allotments of varying widths and sizes, along with non-residential buildings.<br><br>The Area has retained much of its historic grid pattern with major and minor streets, lanes and places.<br><br>The historic built form character is established by detached and attached dwellings, often forming a continuous or near-continuous built edge to the street, interspersed with historic main street (business and institutional) elements in Tynte and Archer Streets.<br><br>Buildings tend to be smaller in scale in minor streets, and more substantial, including terrace housing and institutional buildings, in major (east-west) streets.<br><br>The prevailing Heritage Places establish the building setbacks from front, side, and rear allotment boundaries. Buildings do not project forward of Heritage Places on adjacent sites, nor do they extend to side boundaries other than for party walls in semi-detached and row dwellings.<br><br>Heritage Places and Representative Buildings create a cohesive pattern of shallow setbacks, including buildings on the street frontage.<br><br>Minor streets and lanes provide the majority of crossover locations for access to sites.<br><br>The historic built-form character of the Area is established by State and Local Heritage Places, reinforcing the character of the historic built form, allotments and settlement patterns as described below:<br><br>Archer Street<br><br>The distinctive historic character is formed by the narrow street setting (20 m), and the village's main street pattern of one and two-storey residential and non-residential buildings, including a former hotel, a church, and a church hall, sited on or close to the street frontage with small garden areas.<br><br>The historic character generally comprises detached, semi-detached and row dwellings of low or medium density on allotments of consistent size, pattern, and rhythm.<br><br>The street is characterised by a cohesive, strong building line set behind small garden areas along both sides of the street. The taller institutional buildings on the north side provide some variation in height.<br><br>Beviss, Curtis, Little Archer, Margaret, Murray and Ralston Streets<br><br>The intimate historic character is established by the narrow width of the street and single-storey detached and semi-detached dwellings set close to the street with small front gardens and consistent size, pattern and rhythm.<br><br>Boulton Street<br><br>Minor street with semi-detached dwellings set close to the street frontage with small garden areas.<br><br>Centenary Street<br><br>Minor street connecting Archer and Ward Streets along the western edge of the Historic Area and providing secondary frontages only within the Historic Area.<br><br>George Street<br><br>The intimate historic character is established by the narrow street, which is truncated by the school site at the eastern end, and one and two-storey buildings sited on or close to the street, creating an enclosed streetscape with consistent setbacks.<br><br>The street is characterised by single-storey row cottages on the southern side and the two-storey former sawmill building and masonry outbuildings of State Heritage significance on the northern frontage.<br><br>Minor street providing rear access for residences fronting another street.<br><br>Gover Street<br><br>The intimate historic character is formed by the narrow street setting and the cohesive pattern of dwellings set back from the primary street frontage with small garden areas.<br><br>The historic character generally comprises close-set detached, semi-detached or row dwellings of single storey with consistent setbacks, sizes, patterns and small front gardens. The Heritage Places and Representative Buildings establish the side and front setback pattern.<br><br>The side and front setback pattern is established by the Heritage Places and Representative Buildings.<br><br>Margaret Street North and Margaret Street South<br><br>The historic character is established by the narrow street comprising single-storey detached, semi-detached and row dwellings set predominantly close to the street frontage with small garden areas contributing to the intimate scale of the street.<br><br>The pattern, siting and setback of dwellings are established by the Heritage Places.<br><br>Roneo Place<br><br>A minor street with consistent building setbacks.<br><br>Tynte Street<br><br>The historic character is formed by the relatively wide street and a village main street pattern of residential and non-residential buildings, built on or close to the street frontage. Residential buildings consist of detached, semi-detached and row dwellings. Most have front garden areas. The side and front setback pattern is established by the Heritage Places.<br><br>West of Margaret Street comprises buildings up to two storeys in height set close to or on the street frontage.<br><br>East of Margaret Street comprises dwellings set within more generous landscaped grounds and deeper setbacks.<br><br>Ward Street (north side)<br><br>The historic character is established (on the northern side) by predominantly single-storey detached cottages set close to the street frontage with small front garden areas on allotments of consistent size, pattern and rhythm.<br><br>(The southern side of Ward Street is in the Le Fevre Historic Area.)<br><br>Ashley Street, Boulton Mews, Lohrman Street, Margaret Lane, Peppermint Lane, Pulsford Avenue, Roneo Place, Stephen Street, Watson Street and William Buik Court<br><br>Minor streets with consistent building setbacks and providing rear laneway access to carports and garaging for residences fronting another street. |
