

Golden Grove Road Upgrade Project – Stage One

Project update notification – May 2020

Dear Residents/Businesses

The Department of Planning, Transport and Infrastructure (DPTI) wishes to provide the following update regarding Stage One works of the Golden Grove Road Upgrade Project.

Night works:

All planned night works have been completed. Advance notice will be provided to the community and road users by Variable Message Signs should any further night works be required.

Pedestrian Access:

Pedestrian detours and path closures are in place. In the interest of safety, pedestrians are advised to follow directional signage and advised not to enter fenced off areas under construction while these important works are undertaken (*Refer: Golden Grove Road Upgrade Project – Stage One: Pedestrian Access Maps 1 and 2*).

General works:

Earthworks and asphalt works: will continue on Golden Grove Road during May and June 2020, at the following locations:

- between Kunzea Way and Einstein Drive;
- Hancock Road / Golden Grove Road roundabout; and
- between Hancock Road and Ross Road.

Culvert works: construction of a new major culvert crossing commenced on Golden Grove Road on 12 May 2020, at the following location:

- Hancock Road and John Road.

Road drainage works: will continue on Golden Grove Road at the following locations:

- Hancock Road / Golden Grove Road roundabout (western side); and
- between John Road and One Tree Hill Road.

Bus Stops:

Bus Stop 54 and Bus Stop 56 (both west and east side of Golden Grove Road) will continue to be closed until further notice. All other bus stops within the vicinity of the construction area will remain open (*Refer: Golden Grove Road Upgrade Project – Stage One: Pedestrian Access Maps 1 and 2*).

For further information regarding the changes to bus stops and timetables, please visit www.adelaidemetro.com.au.

Property access:

There are no planned access restrictions to property or business driveways. Advance notice will be provided if there is a need to temporarily restrict driveway access.

Traffic management:

In order to safely maintain traffic through the existing junction of Golden Grove Road and Hancock Road during construction of the new roundabout, road users will be directed around the partially constructed roundabout, with barriers in place to separate traffic from construction zones.

The following traffic management will be in place from mid-May 2020:

- southbound traffic to be diverted through the new roundabout; and
- northbound traffic will continue along the existing road.

There will be no change to existing Hancock Road traffic management to and from Golden Grove Road (*Refer: Golden Grove Road Upgrade – Traffic movement at Golden Grove Road / Hancock Road roundabout*).

Sections of Golden Grove Road and Hancock Road within the project construction site, will remain open to traffic with a 25km/h speed restriction in place while workers are onsite. Lane closures and other speed restrictions may apply, subject to onsite conditions.

Please plan ahead and take extra care when workers are on site. Observe speed limits, lane restrictions and traffic controllers when travelling through the area.

For real time roadwork information, download the AddInsight app for Apple or Android or visit: www.traffic.sa.gov.au.

DPTI appreciates your co-operation and patience while these important works are undertaken.

For any enquiries or information, please call **1300 794 880** or email dpti.ggrup@sa.gov.au

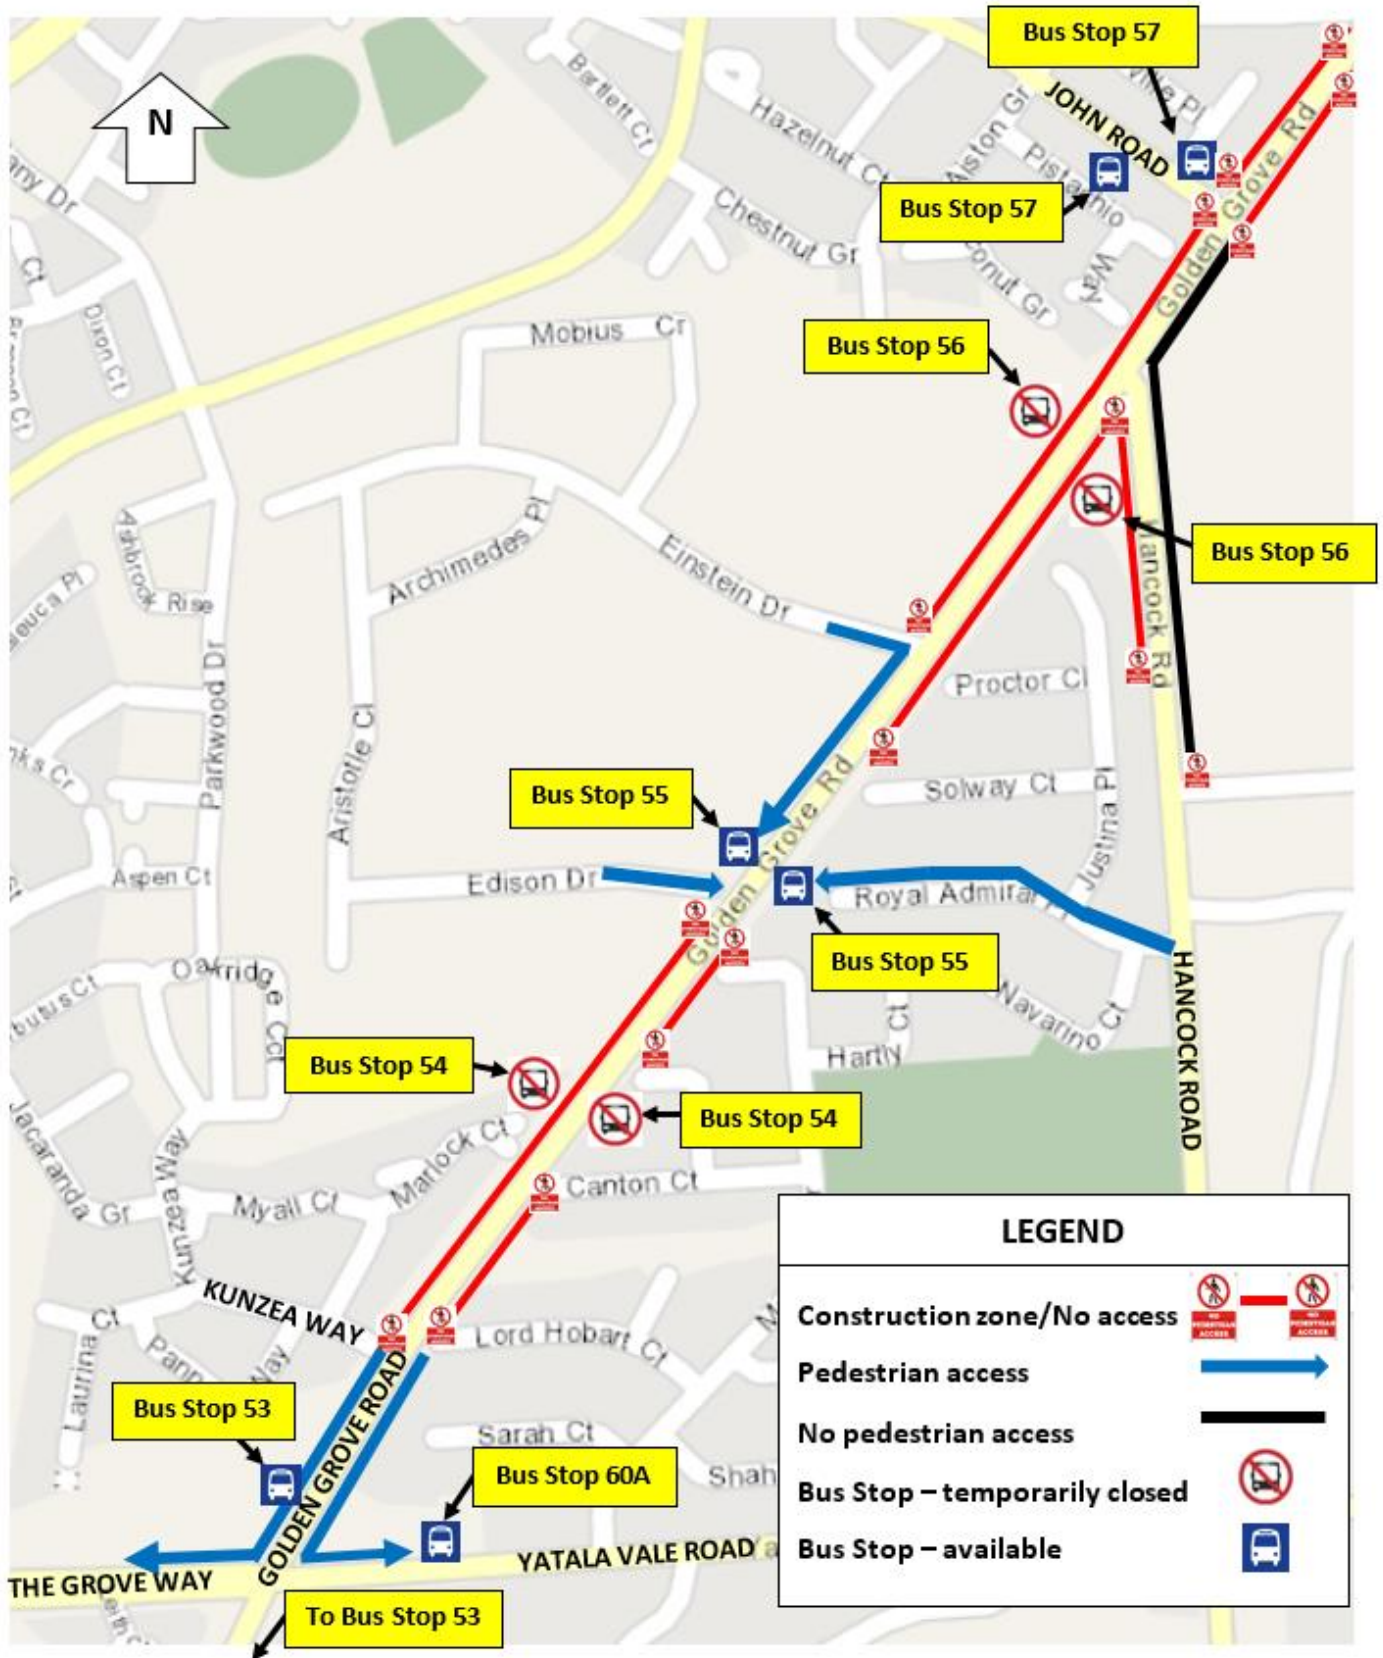

Further information is available on the project website at:

www.dpti.sa.gov.au/infrastructure/road_projects/golden_grove_road_upgrade.

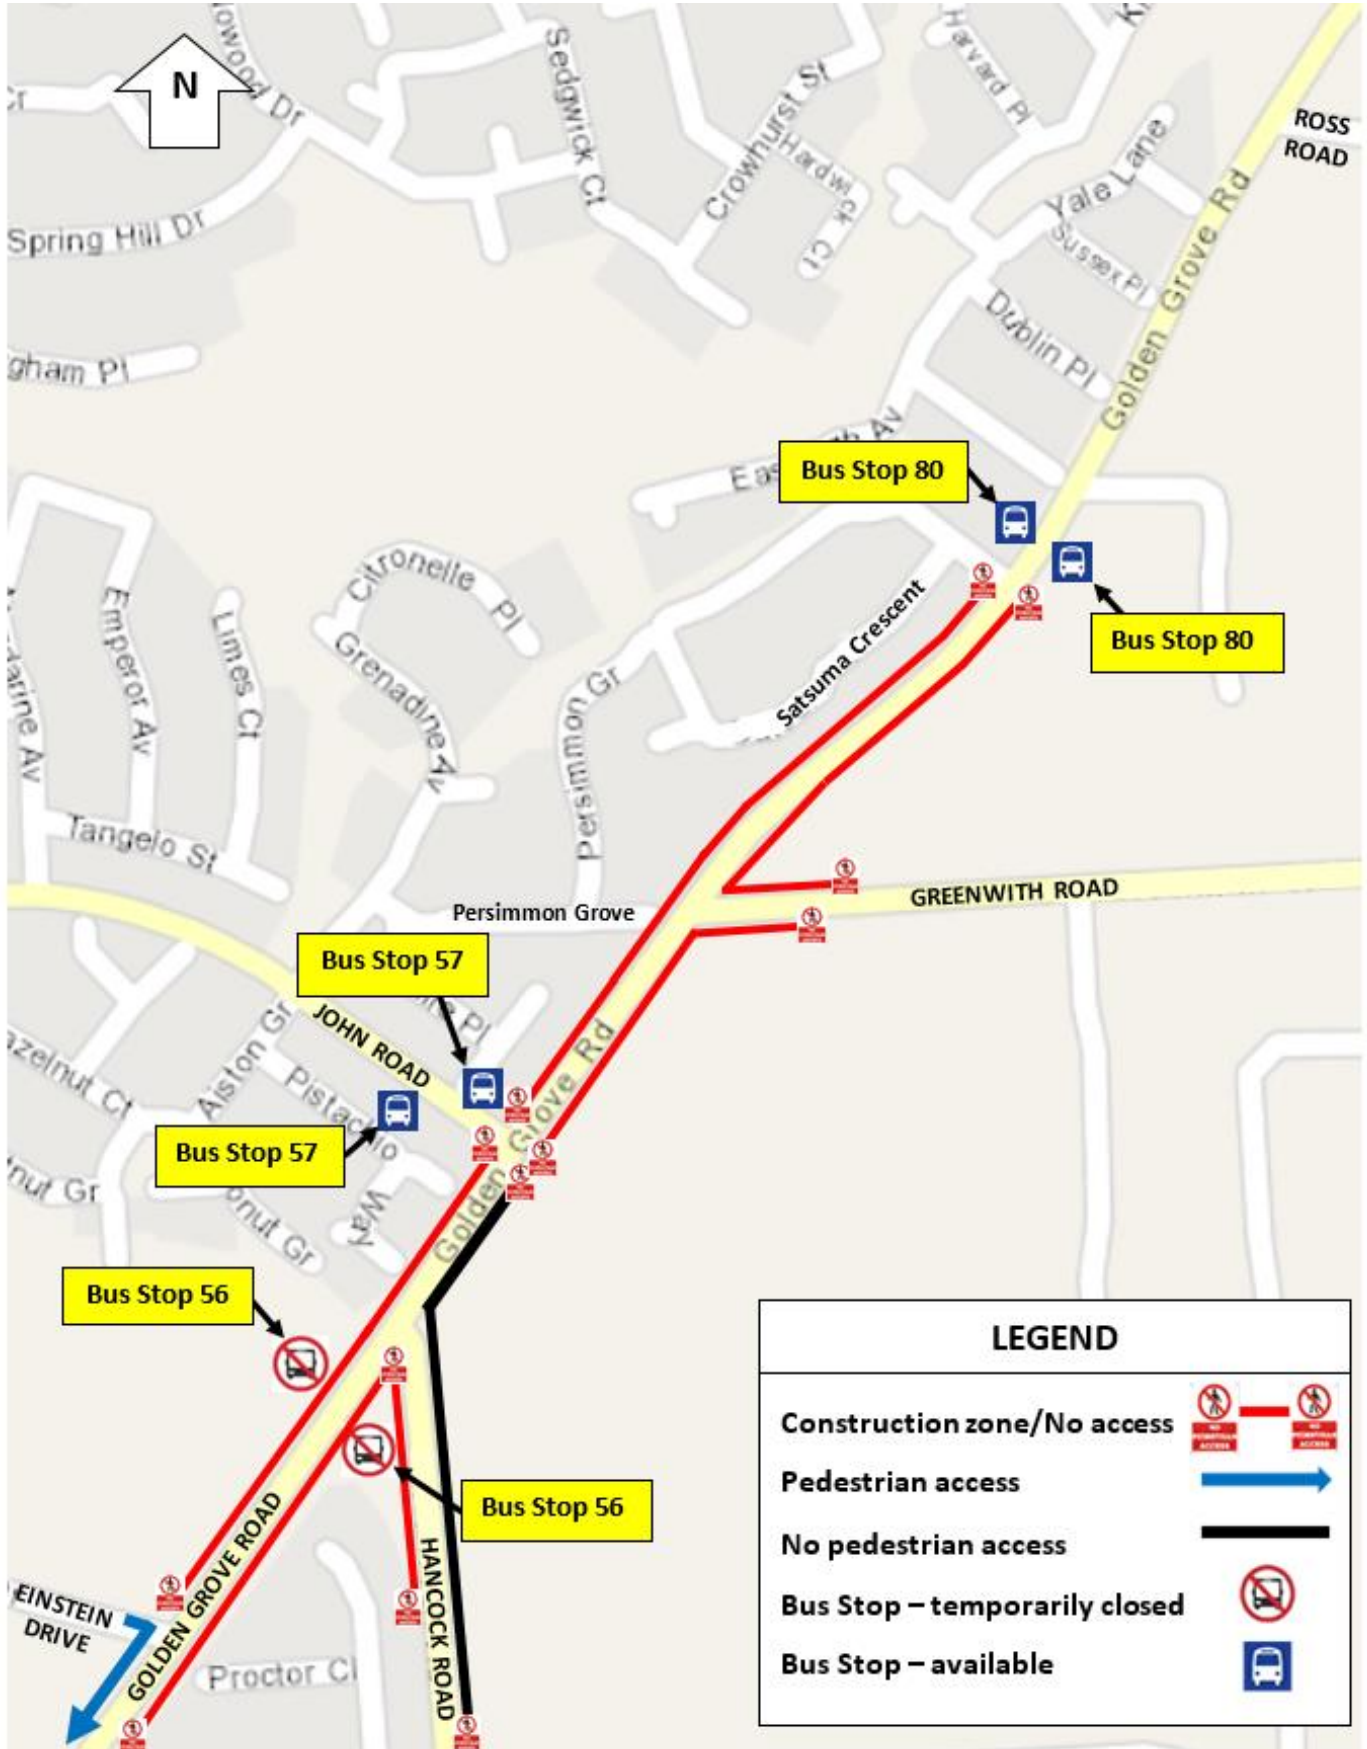

Kind regards,
Golden Grove Road Upgrade Project Team
Department of Planning, Transport and Infrastructure
