**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
<b>Industry</b>	Light industry
<b>Shop</b>	Any of the following:  (a) shop with a gross leasable floor area less than 1000m <sup>2</sup> (b) shop that is a restaurant.

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification, subject to any 'Exceptions'. The table also identifies any exemptions to the placement of notices when notification is required.

Class of Development	Exceptions
<p>1. A kind of development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.</p>	
<p>2. All development undertaken by:</p> <ul style="list-style-type: none"> <li>(a) the South Australian Housing Trust either individually or jointly with other persons or bodies</li> <li>or</li> <li>(b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust.</li> </ul>	<p>Except (where relevant):</p> <ul style="list-style-type: none"> <li>1. development that exceeds the building height specified in DTS/DPF 3.1.</li> <li>2. demolition of a State or Local Heritage Place.</li> </ul>
<p>3. Subject to (1) and (2) any of the following:</p> <ul style="list-style-type: none"> <li>(a) classes of development listed in Suburban Business Neighbourhood Zone Table 1 - Accepted Development Classification where the proposed development is unable to satisfy the relevant criteria set out in that table</li> <li>(b) classes of development listed in Suburban Business Neighbourhood Zone Table 2 - Deemed-to-Satisfy Development Classification where the proposed development is unable to satisfy the relevant criteria set out in that table</li> <li>(c) advertisement</li> <li>(d) community facility</li> <li>(e) consulting room</li> <li>(f) demolition</li> <li>(g) land division</li> <li>(h) office</li> <li>(i) residential development comprising any of the following (or any combination thereof): <ul style="list-style-type: none"> <li>(i) dwelling</li> <li>(ii) residential flat building</li> <li>(iii) student accommodation</li> </ul> </li> <li>(j) retaining wall</li> <li>(k) shop</li> <li>(l) tree damaging activity.</li> </ul>	<p>Except (where relevant):</p> <ul style="list-style-type: none"> <li>1. development that is unable to satisfy Suburban Business Neighbourhood Zone DTS/DPF 1.2</li> <li>2. development that exceeds the building height specified in Suburban Business Neighbourhood Zone DTS/DPF 3.1</li> <li>3. demolition of a State or Local Heritage Place.</li> </ul>

**Placement of Notices - Exemptions for Performance Assessed Development**

None specified.

**Placement of Notices - Exemptions for Restricted Development**

None specified.

**Assessment Provisions (AP)**

Desired Outcome (DO)

<b>Desired Outcome</b>	
DO 1	A mix of land uses including retail, office, commercial, community, civic and medium density residential development that supports the local area.
DO 2	A high degree of pedestrian activity and main street activity with well-lit and visually engaging shop fronts and business displays including alfresco seating and dining facilities.
DO 3	An intimate public realm with active streets created by integrated mixed use buildings.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
<p>PO 1.1</p> <p>Retail, office, entertainment and recreation uses are supplemented by other businesses that provide a range of goods and services to the local community.</p>	<p>DTS/DPF 1.1</p> <p>Development comprises one or more of the following land uses:</p> <ul style="list-style-type: none"> <li>(a) Cinema</li> <li>(b) Community facility</li> <li>(c) Consulting room</li> <li>(d) Dwelling above ground level</li> <li>(e) Health facility</li> <li>(f) Hotel</li> <li>(g) Indoor recreation facility</li> <li>(h) Library</li> <li>(i) Office</li> <li>(j) Place of worship</li> <li>(k) Pre-school</li> <li>(l) Restaurant</li> <li>(m) Shop</li> <li>(n) Tourist accommodation.</li> </ul>
<p>PO 1.2</p> <p>Land uses promote movement and activity during daylight and evening hours, including restaurants, educational, community and cultural facilities, and accommodation for visitors and residents.</p>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
<p>PO 1.3</p> <p>Ground floor uses contribute to an active and vibrant main street.</p>	<p>DTS/DPF 1.3</p> <p>Shop, restaurant, office, or consulting room uses are located on the ground floor level of buildings.</p>
<p>PO 1.4</p> <p>Dwellings developed in conjunction with non-residential uses to support business, entertainment and recreational activities contribute to making the main street precinct and pedestrian thoroughfares pleasant and lively places.</p>	<p>DTS/DPF 1.4</p> <p>Dwellings developed in conjunction with non-residential uses are sited:</p> <ul style="list-style-type: none"> <li>(a) at upper levels of buildings with non-residential uses located at ground level or</li> <li>(b) behind non-residential uses on the same allotment.</li> </ul>
<p>PO 1.5</p> <p>Tourist accommodation and visitor attractions support the visiting public and holiday makers.</p>	<p>DTS/DPF 1.5</p> <p>None are applicable.</p>
<p>PO 1.6</p> <p>Bulky goods outlets are sited and designed to achieve or maintain a vibrant and interesting streetscape within retail areas.</p>	<p>DTS/DPF 1.6</p> <p>Bulky goods outlets with a gross leasable area of 500m<sup>2</sup> or more are located towards the periphery of the zone.</p>

<p>PO 1.7</p> <p>Change in the use of land provides for land uses primarily envisaged within the zone is compatible with the surrounding locality.</p>	<p>DTS/DPF 1.7</p> <p>A change of use to a shop, office, consulting room or any combination of these uses where all of the following are achieved:</p> <ul style="list-style-type: none"> <li>(a) the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses</li> <li>(b) if the proposed change of use is for a shop that primarily involves the handling and sale of foodstuffs, areas used for the storage and collection of refuse are sited at least 10 metres from the site of a dwelling (other than a dwelling directly associated with the proposed shop)</li> <li>(c) if the proposed change of use is for a shop that primarily involves heating and cooking of foodstuffs in a commercial kitchen and is within 30 metres of any Neighbourhood zone boundary or a dwelling (other than a dwelling directly associated with the proposed shop), an exhaust duct and stack (chimney) exists or is capable of being installed for discharging exhaust emissions</li> <li>(d) if the change in use involves a gross leasable floor area greater than 250m<sup>2</sup> and has direct frontage to an arterial road, it achieves:             <ul style="list-style-type: none"> <li>the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) is from a road that is not an arterial road</li> <li>or</li> <li>the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared</li> </ul> </li> <li>(e) off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking [Vehicle Parking Rates]: DTS 5.1 to the nearest whole number, except where:             <ul style="list-style-type: none"> <li>(i) the building is a local heritage place</li> <li>or</li> <li>(ii) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made)</li> <li>or</li> <li>(iii) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse.</li> </ul> </li> </ul>
--	---

Built Form and Character

<p>PO 2.1</p> <p>Buildings sensitively frame the main street and public spaces and provide overall visual relief from building height and mass.</p>	<p>DTS/DPF 2.1</p> <p>Buildings:</p> <ul style="list-style-type: none"> <li>(a) include a clearly defined podium or street wall with a maximum building height of 1 building level or 4m in height</li> <li>(b) have levels above the defined podium or street wall setback a minimum of 2m from that wall.</li> </ul>
---	--

<p>PO 2.2</p> <p>Buildings preserve the main street appearance by complementing the key shop-front elements such narrow buildings and tenancy footprint with frequently repeated frontages and clear-glazed narrow shop front</p>	<p>DTS/DPF 2.2</p> <p>None are applicable.</p>
---	--

repeated montages, and clear glazed narrow shop front displays above raised display levels (base stall boards) and recessed entries.

<p>PO 2.3</p> <p>Pedestrian shelter and shade is provided over footpaths through the use of structures such as awnings, canopies and verandas.</p>	<p>DTS/DPF 2.3</p> <p>None are applicable.</p>
<p>PO 2.4</p> <p>Buildings are adaptable and flexible to accommodate a range of land uses, including retail, office and residential without the need for significant change to the building.</p>	<p>DTS/DPF 2.4</p> <p>Ground floor levels of buildings incorporate a minimum ceiling height of 3.5m.</p>
<p>PO 2.5</p> <p>Buildings create visual interest, promote an active interface with the main street frontage and maximise passive surveillance.</p>	<p>DTS/DPF 2.5</p> <p>Not less than 50% of the ground floor primary frontage of buildings is visually permeable, transparent or clear glazed.</p>
<p>PO 2.6</p> <p>Outbuildings, carports and garages located behind the primary building facing the main street ensure vibrancy and activity along the main street.</p>	<p>DTS/DPF 2.6</p> <p>None are applicable.</p>
<p>PO 2.7</p> <p>Development creates an efficient and convenient pedestrian network establishing linkages within the main street and to adjoining zones.</p>	<p>DTS/DPF 2.7</p> <p>None are applicable.</p>

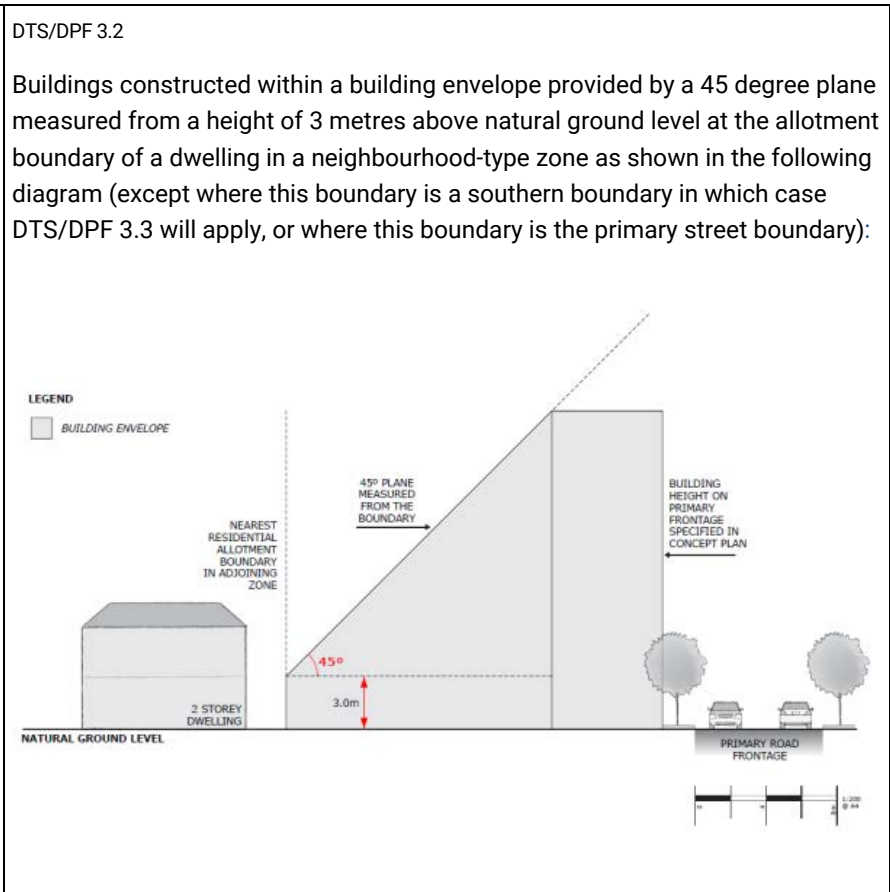

Building height and setbacks

<p>PO 3.1</p> <p>Building height consistent with the form expressed in any relevant <i>Maximum Building Height Levels Technical and Numeric Variation</i> and <i>Maximum Building Height Metres Technical and Numeric Variation</i>, and otherwise low-to-medium rise, where the height is commensurate with the development site's frontage and depth as well as the main street width, so that the impacts of building mass on adjoining properties and the streetscape can be minimised.</p>	<p>DTS/DPF 3.1</p> <p>Building height is:</p> <p>(a) where provided:</p> <p>(i) not greater than either of the following:</p> <table border="1" data-bbox="673 1621 1548 1787"> <tr> <td style="text-align: center;"><b>Maximum Building Height (Metres)</b></td> </tr> <tr> <td>Maximum building height is 8m</td> </tr> <tr> <td style="text-align: center;"><b>Maximum Building Height (Levels)</b></td> </tr> <tr> <td>Maximum building height is 2 levels</td> </tr> </table> <p>and</p> <p>(ii) not less than</p> <table border="1" data-bbox="673 1890 1548 1921"> <tr> <td style="text-align: center;"><b>Minimum Building Height (Levels)</b></td> </tr> </table> <p>or</p> <p>(b) where the site has a frontage of at least 25m and depth of at least 50m – not greater than 4 building levels (up to a height of 15m)</p> <p>or</p> <p>(c) in all other cases - not greater than 3 building levels (up to a height of 12m).</p> <p>In instances where:</p> <p>(d) more than one value is returned:</p>	<b>Maximum Building Height (Metres)</b>	Maximum building height is 8m	<b>Maximum Building Height (Levels)</b>	Maximum building height is 2 levels	<b>Minimum Building Height (Levels)</b>
<b>Maximum Building Height (Metres)</b>						
Maximum building height is 8m						
<b>Maximum Building Height (Levels)</b>						
Maximum building height is 2 levels						
<b>Minimum Building Height (Levels)</b>						

- (d) more than one value is returned:
  - (i) for the purpose of DTS/DPF 3.1(a)(i), refer to the *Maximum Building Height (Metres) Technical and Numeric Variation layer* or *Maximum Building Height (Levels) layer* in the SA planning database to determine the applicable value relevant to the site of the proposed development
  - (ii) for the purpose of DTS/DPF 3.1(a)(ii) refer to the *Minimum Building Height (Levels) Numeric Variation layer* in the SA planning database to determine the applicable value relevant to the site of the proposed development
- (e) no value is returned (ie there is a blank field), then:
  - (i) for the purpose of DTS/DPF 3.1(a)(i), it is taken that no DTS/DPF is applicable
  - (ii) for the purpose of DTS/DPF 3.1(a)(ii), it is taken that the DTS/DPF is met.

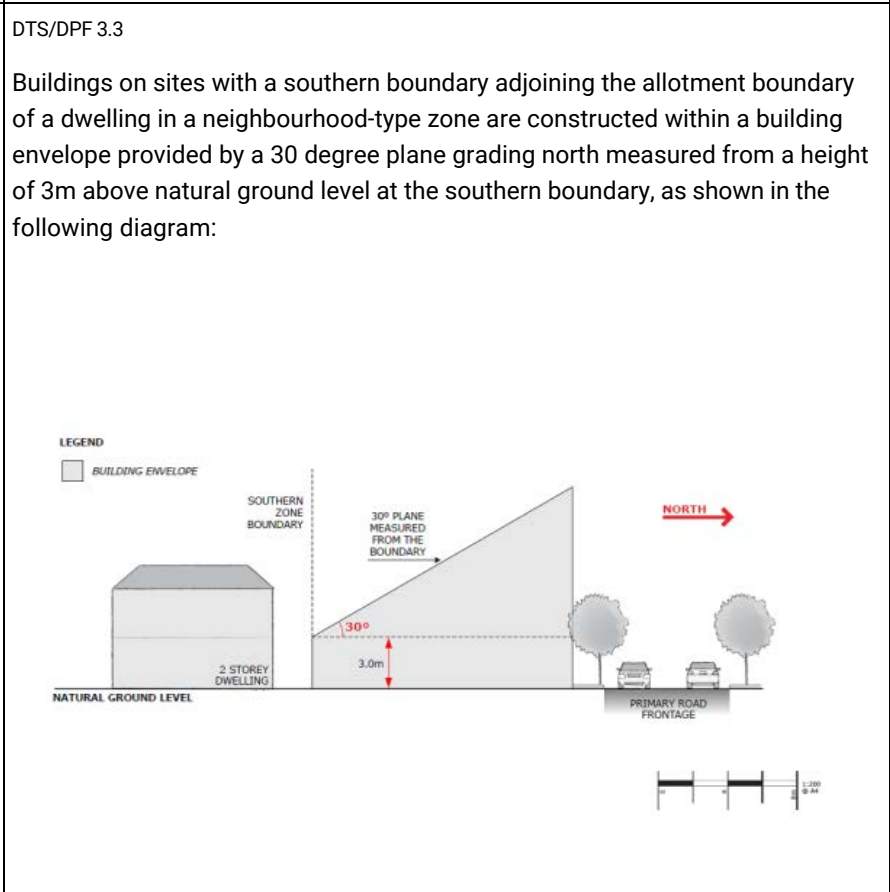

PO 3.2

Buildings mitigate visual impacts of building massing on residential development within a neighbourhood-type zone.

PO 3.3

Buildings mitigate overshadowing of residential development within a neighbourhood-type zone.

PO 3.4

Buildings with no setbacks from road boundaries achieve a continuity of street façade to the main street, but with sections of building set back to create outdoor dining areas, visually interesting building entrances and intimate, active spaces.

DTS/DPF 3.4

None are applicable.

PO 3.5

DTS/DPF 3.5

2672

Buildings with no setback from side boundaries achieve a continuity of street façade to the main street.

Except where contrary to DTS/DPF 3.2 or 3.3, building walls located on the site's side boundaries, with the front wall set back in line with neighbouring buildings.

<p>PO 3.6</p> <p>Buildings that are set back from rear boundaries (other than street boundaries) minimise impacts on neighbouring properties, including access to natural light and ventilation.</p>	<p>DTS/DPF 3.6</p> <p>Buildings are set back a minimum 3 metres from rear boundaries where the subject land directly abuts an allotment of a different zone, except where the development abuts the wall of an existing or simultaneously constructed building on the adjoining land.</p>
<p>PO 3.7</p> <p>Buildings are set back from street boundaries (in the case of rear access ways) to provide adequate manoeuvrability for vehicles.</p>	<p>DTS/DPF 3.7</p> <p>Buildings are set back from the rear access way have:</p> <ul style="list-style-type: none"> <li>(a) no requirement where the access way is not less than 6.5m wide or</li> <li>(b) where the access way is less than 6.5m wide, the distance equal to the additional width required to make the access way at least 6.5m wide.</li> </ul>
Traffic, parking and access	
<p>PO 4.1</p> <p>Development minimises the need for vehicle crossovers on the main street to reduce conflicts with pedestrians and avoid disruption to the continuity of built form.</p>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>
<p>PO 4.2</p> <p>Vehicle parking is located behind buildings away from the primary main street frontage and is designed to minimise its impacts on residential amenity.</p>	<p>DTS/DPF 4.2</p> <p>Vehicle parking areas are located behind the building line of the associated building.</p>
Advertisements	
<p>PO 5.1</p> <p>Freestanding advertisements identify the associated business without creating a visually dominant element within the streetscape.</p>	<p>DTS/DPF 5.1</p> <p>Freestanding advertisements:</p> <ul style="list-style-type: none"> <li>(a) do not exceed 8m in height</li> <li>(b) do not have a sign face that exceeds 6m<sup>2</sup> per side</li> </ul>
Land Division	
<p>PO 6.1</p> <p>Land division and site amalgamation creates allotments that vary in size and are suitable for a variety of residential and commercial activities and improve the level of development integration.</p>	<p>DTS/DPF 6.1</p> <p>None are applicable.</p>
Concept Plans	
<p>PO 7.1</p> <p>Development is compatible with the outcomes sought by any relevant Concept Plan contained within the <i>Concept Plans Technical and Numeric Variation Overlay</i>. The following Concept Plans are relevant:</p>	<p>DTS/DPF 7.1</p> <p>The site of the development is wholly located outside the Concept Plan boundary.</p>

Note: if no Concept Plan is returned then none apply to the site.

### Table 1 - Accepted Development Classification

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'.

Class of Development	Accepted Development Classification Criteria
<p><b>Air handling unit, air conditioning system or exhaust fan including any components or alterations incidental to its installation</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Local Heritage Place Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The item will be installed on or within an existing building</li> <li>2. The item being installed does not encroach on a public street or affect the ability of the building to resist the spread of fire</li> <li>3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street</li> </ol>
<p><b>Brush fence</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Hazards (Acid Sulfate Soils) Overlay</li> <li>● Hazards (Flooding) Overlay</li> <li>● Historic Area Overlay</li> <li>● Local Heritage Place Overlay</li> <li>● Ramsar Wetlands Overlay</li> <li>● River Murray Flood Plain Protection Area Overlay</li> <li>● Significant Landscape Protection Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The fence is formed (wholly or partially) from brush</li> <li>2. The fence does not exceed 2.1 metres in height (measured from the lower of the 2 adjoining finished ground levels)</li> <li>3. The fence does not exceed 1 m in height within 6 m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved)</li> </ol>
<p><b>Building work on railway land</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Coastal Areas Overlay</li> <li>● Hazards (Acid Sulfate Soils) Overlay</li> <li>● Local Heritage Place Overlay</li> <li>● Mount Lofty Ranges Catchment (Area 1) Overlay</li> <li>● Mount Lofty Ranges Catchment (Area 2) Overlay</li> <li>● River Murray Flood Plain Protection Area Overlay</li> <li>● Significant Landscape Protection Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. Building work is associated with a railway</li> <li>2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017)</li> <li>3. It is required for the conduct or maintenance of railway activities</li> <li>4. It does not involve the clearance of native vegetation.</li> </ol>
<p><b>Internal building work</b></p> <p>Except where any of the following apply:</p>	<ol style="list-style-type: none"> <li>1. There will be no increase in the total floor area of the building</li> <li>2. There will be no alteration to the external appearance of the building.</li> </ol>

- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

<p><b>Partial demolition of a building or structure</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Historic Area Overlay</li> <li>● Local Heritage Place Overlay</li> <li>● State Heritage Place Overlay</li> <li>● State Heritage Area Overlay</li> </ul>	<p>None</p>
<p><b>Shade sail</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Coastal Areas Overlay</li> <li>● Future Road Widening Overlay</li> <li>● Hazards (Acid Sulfate Soils) Overlay</li> <li>● Historic Area Overlay</li> <li>● Local Heritage Place Overlay</li> <li>● River Murray Flood Plain Protection Area Overlay</li> <li>● Ramsar Wetlands Overlay</li> <li>● Significant Landscape Protection Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i></li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</li> <li>3. Shade sail consists of permeable material</li> <li>4. The total area of the sail - does not exceed 40m<sup>2</sup></li> <li>5. No part of the shade sail will be:             <ol style="list-style-type: none"> <li>(a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment</li> <li>(b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment</li> </ol> </li> <li>6. Primary street setback - at least as far back as the building line of the building to which it is ancillary</li> <li>7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m</li> <li>8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.</li> <li>9. Does not involve the clearance of native vegetation.</li> </ol>
<p><b>Solar photovoltaic panels (roof mounted)</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Local Heritage Place Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i></li> <li>2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof</li> <li>3. Panels and associated components do not overhang any part of the roof</li> <li>4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.</li> <li>5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.</li> </ol>

The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</li> <li>3. The tank is part of a roof drainage system</li> <li>4. Total floor area - not exceeding 15m<sup>2</sup></li> <li>5. The tank is located wholly above ground</li> <li>6. Tank height - does not exceed 4m above natural ground level</li> <li>7. Primary street setback - at least as far back as the building line of the building to which it is ancillary</li> <li>8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour.</li> <li>9. Does not involve the clearance of native vegetation.</li> </ol>
<p><b>Water tank (underground)</b></p>	<ol style="list-style-type: none"> <li>1. The development will not be built, or encroach, on an area that is, or will be, required</li> </ol>

**water tank (underground)**

Except where any of the following apply:

- Coastal Areas Overlay
- Hazards (Acid Sulfate Soils) Overlay
- Ramsar Wetlands Overlay

for a sewerage system or waste control system

2. The tank (including any associated pump) is located wholly below the level of the ground.
3. Does not involve the clearance of native vegetation.

## Table 2 - Deemed-to-Satisfy Development Classification

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
<p>Advertisement Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>Advertising Near Signalised Intersections Overlay</li> <li>Character Preservation District Overlay</li> <li>Heritage Adjacency Overlay</li> <li>Historic Area Overlay</li> <li>Local Heritage Place Overlay</li> <li>Non-stop Corridor Overlay</li> <li>Significant Landscape Protection Overlay</li> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	<p>Advertisements DTS/DPF 5.1</p>	<p>Advertisements [Appearance] DTS/DPF 1.1, DTS/DPF 1.3, DTS/DPF 1.4</p> <p>Advertisements [Proliferation of Advertisements] DTS/DPF 2.1, DTS/DPF 2.2</p> <p>Advertisements [Advertising Content] DTS/DPF 3.1</p> <p>Advertisements [Amenity Impacts] DTS/DPF 4.1</p> <p>Advertisements [Safety] DTS/DPF 5.1, DTS/DPF 5.2, DTS/DPF 5.3, DTS/DPF 5.4, DTS/DPF 5.5</p> <p>Clearance from Overhead Powerlines DTS/DPF 1.1</p> <p>Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.2</p>	<p>None</p>	<p>Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1</p> <p>Airport Building Heights (Regulated) Overlay [Built Form] DTS/DPF 1.1, DTS/DPF 1.2</p> <p>Defence Aviation Area Overlay [Built Form] DTS/DPF 1.1, DTS/DPF 1.3</p> <p>Gateway Overlay [Advertisements] DTS/DPF 4.1</p> <p>Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1</p> <p>State Significant Native Vegetation Areas Overlay [Environmental Protection] DTS/DPF 1.1</p>

**Table 3 - Applicable Policies for Performance Assessed Development**

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Industry	None Specified

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification, subject to any 'Exceptions'. The table also identifies any exemptions to the placement of notices when notification is required.

Class of Development	Exceptions
1. A kind of development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None
2. Any kind of development that is <b>not</b> located adjacent to a dwelling in a neighbourhood-type zone.	Except the demolition of a State or Local Heritage Place
3. Subject to (1) and (2), any of the following: <ul style="list-style-type: none"> <li>(a) classes of development listed in Suburban Main Street Zone Table 1 - Accepted Development Classification where the proposed development is unable to satisfy the relevant criteria set out in that table</li> <li>(b) classes of development listed in Suburban Main Street Zone Table 2 - Deemed-to-Satisfy Development Classification where the proposed development is unable to satisfy the relevant criteria set out in that table</li> <li>(c) cinema</li> <li>(d) community facility</li> <li>(e) consulting room</li> <li>(f) demolition</li> <li>(g) dwelling above ground level</li> <li>(h) indoor recreation facility</li> <li>(i) land division</li> <li>(j) library</li> <li>(k) office</li> <li>(l) Place of worship</li> <li>(m) pre-school</li> <li>(n) recreation area</li> <li>(o) retaining wall</li> <li>(p) shop</li> <li>(q) tourist accommodation</li> <li>(r) tree damaging activity.</li> </ul>	Except (where relevant): <ul style="list-style-type: none"> <li>1. development that exceeds the maximum building height specified in Suburban Main Street Zone DTS/DPF 3.1</li> <li>2. development that is unable to satisfy Suburban Main Street Zone DTS/DPF 3.2 or 3.3</li> <li>3. demolition of a State or Local Heritage Place.</li> </ul>

#### Placement of Notices - Exemptions for Performance Assessed Development

None specified.

#### Placement of Notices - Exemptions for Restricted Development

None specified.

## Tourism Development Zone

**Assessment Provisions (AP)**

Desired Outcome (DO)

<b>Desired Outcome</b>	
<b>DO 1</b>	A range of tourist accommodation and associated services and facilities that enhance visitor experiences and enjoyment.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
<p>PO 1.1</p> <p>Tourist accommodation and a range of complementary entertainment, recreation and service activities catering to the needs and enjoyment of travellers.</p>	<p>DTS/DPF1.1</p> <p>Development comprises one or more of the following land uses:</p> <ul style="list-style-type: none"> <li>(a) Advertisement</li> <li>(b) Amenity block, including shower, toilet and laundry facilities</li> <li>(c) Caravan and tourist park</li> <li>(d) Coast protection works</li> <li>(e) Dwelling ancillary to tourist accommodation</li> <li>(f) Indoor recreation facility</li> <li>(g) Office ancillary to tourist accommodation</li> <li>(h) Recreation facility</li> <li>(i) Retail fuel outlet</li> <li>(j) Shop</li> <li>(k) Spa pool</li> <li>(l) Swimming pool</li> <li>(m) Tourist accommodation</li> <li>(n) Tourist information centre.</li> </ul>
<p>PO 1.2</p> <p>Shops complement tourist accommodation and recreational activities to provide services and amenities to travellers at a scale that maintains the tourism values at the relevant location.</p>	<p>DTS/DPF1.2</p> <p>Shop is not a bulky goods outlet and:</p> <ul style="list-style-type: none"> <li>(a) is in the form of a restaurant ancillary to and in association with tourist accommodation on the same allotment or</li> <li>(b) has a gross leasable floor area not exceeding 250m<sup>2</sup> and is ancillary to another building used for non-residential purposes on the same allotment.</li> </ul>
<p>PO 1.3</p> <p>Offices associated with and ancillary to tourist accommodation or non-residential development support the management and operational aspects of tourist development.</p>	<p>DTS/DPF1.3</p> <p>Office:</p> <ul style="list-style-type: none"> <li>(a) is ancillary to and located on the same allotment as tourist accommodation</li> <li>(b) has a gross leasable floor area not exceeding 50m<sup>2</sup>.</li> </ul>
<p>PO 1.4</p> <p>Dwellings in the form of manager or caretaker residence support the efficient management and maintenance of tourist accommodation and related facilities.</p>	<p>DTS/DPF1.4</p> <p>Dwelling:</p> <ul style="list-style-type: none"> <li>(a) is ancillary to and located on the same allotment as tourist accommodation</li> <li>(b) will not result in more than one dwelling on an allotment.</li> </ul>
Land Division	
<p>PO 2.1</p> <p>Land division, including boundary realignments, support:</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>

<p>(a) a range of tourist accommodation, recreation, entertainment and community activities</p> <p>(b) pedestrian and bicycle access between attractions within and adjacent to the zone.</p>	
<p>Advertisements</p>	
<p>PO 3.1</p> <p>Freestanding advertisements are not visually dominant within the locality.</p>	<p>DTS/DPF 3.1</p> <p>Freestanding advertisements:</p> <p>(a) do not exceed 2m in height above natural ground level and do not have a face that exceeds 2m<sup>2</sup> where:</p> <ul style="list-style-type: none"> <li>(i) located adjacent to a road that is not an arterial road</li> <li>or</li> <li>(ii) associated with tourist accommodation comprising up to 10 guest suites</li> <li>or</li> <li>(iii) associated with a non-residential use, other than tourist accommodation, with a gross leasable floor area up to 150m<sup>2</sup></li> </ul> <p>(b) in any other case, do not exceed 4m in height above natural ground level and do not have a face that exceeds 4m<sup>2</sup></p>
<p>Concept Plans</p>	
<p>PO 4.1</p> <p>Development is compatible with the outcomes sought by any relevant Concept Plan contained within the Concept Plans Technical and Numeric Variation Overlay. The following Concept Plans are relevant:</p> <p>Note: if no Concept Plan is returned then none apply to the site.</p>	<p>DTS/DPF 4.1</p> <p>The site of the development is wholly located outside the Concept Plan boundary.</p>

**Table 1 - Accepted Development Classification**

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'.

Class of Development	Accepted Development Classification Criteria
<p><b>Air handling unit, air conditioning system or exhaust fan including any components or alterations incidental to its installation</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Local Heritage Place Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The item will be installed on or within an existing building.</li> <li>2. The item being installed does not encroach on a public street or affect the ability of the building to resist the spread of fire.</li> <li>3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.</li> </ol>
<p><b>Brush fence</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Hazards (Acid Sulfate Soils) Overlay</li> <li>● Hazards (Flooding) Overlay</li> <li>● Historic Area Overlay</li> <li>● Local Heritage Place Overlay</li> <li>● Ramsar Wetlands Overlay</li> <li>● River Murray Flood Plain Protection Area Overlay</li> <li>● Significant Landscape Protection Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The fence is formed (wholly or partially) from brush.</li> <li>2. The fence does not exceed 2.1 metres in height (measured from the lower of the 2 adjoining finished ground levels).</li> <li>3. The fence does not exceed 1 m in height within 6 m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved).</li> </ol>
<p><b>Building work on railway land</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Coastal Areas Overlay</li> <li>● Hazards (Acid Sulfate Soils) Overlay</li> <li>● Local Heritage Place Overlay</li> <li>● Mount Lofty Ranges Catchment (Area 1) Overlay</li> <li>● Mount Lofty Ranges Catchment (Area 2) Overlay</li> <li>● River Murray Flood Plain Protection Area Overlay</li> <li>● Significant Landscape Protection Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. Building work is associated with a railway.</li> <li>2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017).</li> <li>3. It is required for the conduct or maintenance of railway activities.</li> <li>4. It does not involve the clearance of native vegetation.</li> </ol>
<p><b>Carport</b></p> <p>Except where any of the following apply:</p>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>3. It is ancillary to a dwelling erected on the site.</li> </ol>

- Coastal Areas Overlay

  - Significant Landscape Protection Overlay
  - State Heritage Area Overlay
  - State Heritage Place Overlay
  - Urban Transport Routes Overlay
4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary.
  5. Total floor area - does not exceed 40m<sup>2</sup> (60m<sup>2</sup> in the Rural Zone, Rural Horticulture Zone, Rural Intensive Enterprise Zone).
  6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end).
  7. Building height - does not exceed 5m.
  8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11m unless:
    - (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
    - (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.
  9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street):
    - (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
    - (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.
  10. The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment.
  11. Door opening for vehicle access - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser).
  12. The carport is located so that vehicle access:
    - (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
    - (b) will use a driveway that:
      - (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;
      - (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;
      - (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
      - (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access
      - (v) is located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site.
  13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour.
  14. Does not involve the clearance of native vegetation.

**Internal building work**

Except where any of the following apply:

- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. There will be no increase in the total floor area of the building.
2. There will be no alteration to the external appearance of the building.

**Outbuilding (in the form of a garage)**

Except where any of the following apply:

- Coastal Areas Overlay
- Future Road Widening Overlay
- Hazards (Acid Sulfate Soils) Overlay
- Hazards (Flooding) Overlay
- Historic Area Overlay
- Key Outback and Rural Routes Overlay
- Key Railway Crossings Overlay
- Local Heritage Place Overlay
- Major Urban Transport Routes Overlay
- Mount Lofty Ranges Catchment (Area 1) Overlay
- Mount Lofty Ranges Catchment (Area 2) Overlay
- Non-Stop Corridors Overlay
- River Murray Flood Plain Protection Area Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay
- Urban Transport Routes Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. It is detached from and ancillary to a dwelling erected on the site.
4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary.
5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads).
6. Total floor area - does not exceed 40m<sup>2</sup> (60m<sup>2</sup> in the Rural Zone, Rural Horticulture Zone, Rural Living Zone, Rural Intensive Enterprise Zone).
7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end).
8. Building height - does not exceed 5m.
9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless:
  - (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
  - (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.
10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):
  - (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
  - (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.
11. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%.
12. Door opening for vehicle access - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser).
13. The garage located so that vehicle access:
  - (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
  - (b) will use a driveway that:
    - (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;
    - (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;
    - (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
    - (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of

- the covered car parking space for which it provides vehicle access
- (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site.

14. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour.

15. Does not involve-

- (a) excavation exceeding a vertical height of 1 metre; or
- (b) filling exceeding a vertical height of 1 metre,

and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres.

16. Does not involve the clearance of native vegetation.

**Outbuilding (not being a garage)**

Except where any of the following apply:

- Coastal Areas Overlay
- Future Road Widening Overlay
- Hazards (Acid Sulfate Soils) Overlay
- Hazards (Flooding) Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- Mount Lofty Ranges Catchment (Area 1) Overlay
- Mount Lofty Ranges Catchment (Area 2) Overlay
- River Murray Flood Plain Protection Area Overlay
- Significant Landscape Protection Overlay
- State Heritage Place Overlay
- State Heritage Area Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. It is detached from and ancillary to a dwelling erected on the site.
4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary.
5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads).
6. Total floor area - does not exceed 40m<sup>2</sup> (60m<sup>2</sup> in the Rural Zone, Rural Horticulture Zone, Rural Living Zone, Rural Intensive Enterprise Zone).
7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end).
8. Building height - does not exceed 5m.
9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11m unless:
  - (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
  - (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.
10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):
  - (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
  - (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.
11. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%.
12. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour.
13. Does not involve-
  - (a) excavation exceeding a vertical height of 1 metre; or
  - (b) filling exceeding a vertical height of 1 metre,

and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres.
14. Does not involve the clearance of native vegetation.

**Partial demolition of a building or structure**

Except where any of the following apply:

- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Place Overlay
- State Heritage Area Overlay

None

**Private bushfire shelters**

Except where any of the following apply:

- Coastal Areas Overlay
- Future Road Widening Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. Primary street setback - at least as far back as the building to which it is ancillary.
4. Secondary street setback - at least 900mm from the boundary of the allotment.
5. At least 6m from the corner of an allotment which abuts the intersection of two of

- Hazards (Acid Sulfate Soils) Overlay
- Hazards (Flooding) Overlay
- Local Heritage Place Overlay
- River Murray Flood Plain Protection Area Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay
- State Significant Native Vegetation Overlay

more roads (other than where a 4m x 4m allotment cut-off is already in place).

<p><b>Shade sail</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Coastal Areas Overlay</li> <li>● Future Road Widening Overlay</li> <li>● Hazards (Acid Sulfate Soils) Overlay</li> <li>● Historic Area Overlay</li> <li>● Local Heritage Place Overlay</li> <li>● River Murray Flood Plain Protection Area Overlay</li> <li>● Ramsar Wetlands Overlay</li> <li>● Significant Landscape Protection Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. **Table 2 - Deemed-to-Satisfy Development Classification**

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
<p>Advertisement Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>Advertising Near Signalised Intersections Overlay</li> <li>Character Preservation District Overlay</li> <li>Heritage Adjacency Overlay</li> <li>Historic Area Overlay</li> <li>Local Heritage Place Overlay</li> <li>Non-stop Corridor Overlay</li> <li>Significant Landscape Protection Overlay</li> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	<p>Advertisements DTS/DPF 3.1</p>	<p>Advertisements [Appearance] DTS/DPF 1.1, DTS/DPF 1.3, DTS/DPF 1.4</p> <p>Advertisements [Proliferation of Advertisements] DTS/DPF 2.1, DTS/DPF 2.2</p> <p>Advertisements [Advertising Content] DTS/DPF 3.1</p> <p>Advertisements [Amenity Impacts] DTS/DPF 4.1</p> <p>Advertisements [Safety] DTS/DPF 5.1, DTS/DPF 5.2, DTS/DPF 5.3, DTS/DPF 5.4, DTS/DPF 5.5</p> <p>Clearance from Overhead Powerlines DTS/DPF 1.1</p> <p>Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.2</p>	<p>None</p>	<p>Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1</p> <p>Airport Building Heights (Regulated) Overlay [Built Form] DTS/DPF 1.1, DTS/DPF 1.2</p> <p>Defence Aviation Area Overlay [Built Form] DTS/DPF 1.1, DTS/DPF 1.3</p> <p>Gateway Overlay [Advertisements] DTS/DPF 4.1</p> <p>Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1</p> <p>State Significant Native Vegetation Areas Overlay [Environmental Protection] DTS/DPF 1.1</p>

**Table 4 -Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Industry	Light industry
Shop	Any of the following: <ul style="list-style-type: none"> <li>(a) shop with a gross leasable floor area less than 1000m<sup>2</sup></li> <li>(b) shop that is a restaurant.</li> </ul>

### Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification, subject to any 'Exceptions'. The table also identifies any exemptions to the placement of notices when notification is required.

Class of Development	Exceptions
<p>1. A kind of development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.</p>	<p>None</p>
<p>2. Subject to (1) any of the following:</p> <ul style="list-style-type: none"> <li>(a) classes of development listed in Tourism Development Zone Table 1 - Accepted Development Classification where the proposed development is unable to satisfy the relevant criteria set out in that table</li> <li>(b) classes of development listed in Tourism Development Zone Table 2 - Deemed-to-Satisfy Development Classification where the proposed development is unable to satisfy the relevant criteria set out in that table</li> <li>(c) advertisement</li> <li>(d) coast protection works</li> <li>(e) dwelling</li> <li>(f) land division</li> <li>(g) tree damaging activity</li> <li>(h) retaining wall.</li> </ul>	<p>Except (where relevant):</p> <ul style="list-style-type: none"> <li>1. development that is unable to satisfy Tourism Development Zone DTS/DPF 1.4</li> <li>2. development that is unable to satisfy Tourism Development Zone DTS/DPF 3.1</li> <li>3. demolition of a State or Local Heritage Place.</li> </ul>
<p>3. Subject to (1), any of the following:</p> <ul style="list-style-type: none"> <li>(a) amenity block, shower, toilet and laundry facilities (or any combination thereof)</li> <li>(b) caravan and tourist park</li> <li>(c) indoor recreation facility</li> <li>(d) office</li> <li>(e) recreation facility</li> <li>(f) shop</li> <li>(g) telecommunications facility not exceeding 30m in height</li> <li>(h) tourist accommodation</li> <li>(i) tourist information centre.</li> </ul>	<p>Except where the site of the development is located adjacent to a dwelling in a neighbourhood-type zone.</p>

**Placement of Notices - Exemptions for Performance Assessed Development**

None specified.

**Placement of Notices - Exemptions for Restricted Development**

None specified.

**Township Zone**

**Assessment Provisions (AP)**

## Desired Outcome (DO)

**Desired Outcome**

DO 1	A township supporting a range of residential, community, retail, business, commercial and light industry uses and facilities to serve the local community, businesses and visitors.
DO 2	Development contributes to and enhances streetscapes and the settlement patterns comprising the township.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
<p>PO 1.1</p> <p>A range of development types that complement local built form and the surrounding township context.</p>	<p>DTS/DPF 1.1</p> <p>Development comprises one or more of the following uses:</p> <ul style="list-style-type: none"> <li>(a) advertisement</li> <li>(b) carport</li> <li>(c) consulting room</li> <li>(d) detached dwelling</li> <li>(e) dwelling addition</li> <li>(f) light industry</li> <li>(g) office</li> <li>(h) outbuilding</li> <li>(i) semi-detached dwelling</li> <li>(j) shop</li> <li>(k) tourist accommodation</li> <li>(l) verandah</li> <li>(m) warehouse</li> </ul>
<p>PO 1.2</p> <p>Small-scale retail, business and commercial development that provide a range of goods and services to the local community, the surrounding district and visitors.</p>	<p>DTS/DPF 1.2</p> <p>Shops, offices and consulting rooms (or any combination thereof) do not exceed 250m<sup>2</sup> in gross leasable floor area.</p>
<p>PO 1.3</p> <p>Small-scale light industry and warehousing activities that supply a local service to the community and business activities.</p>	<p>DTS/DPF 1.3</p> <p>The gross leasable floor area of a building plus any outdoor space used for a light industry, warehouse or store (or any combination thereof) does not exceed 250m<sup>2</sup>.</p>
<p>PO 1.4</p> <p>Small-scale tourist accommodation that supports the visiting public and holiday makers.</p>	<p>DTS/DPF 1.4</p> <p>None are applicable.</p>
<p>PO 1.5</p> <p>Development of a business, commercial or light industrial nature is grouped together or in close proximity to establish identifiable service centres or reinforce traditional main streets.</p>	<p>DTS/DPF 1.5</p> <p>Development is located adjacent to a site containing an existing non-residential use with the same primary street frontage.</p>
Built Form and Character	
<p>PO 2.1</p> <p>Buildings are of a scale and design to complement the surrounding built form, streetscape and character.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
<p>PO 2.2</p> <p>Buildings contribute to a low-rise character and complement the height of nearby buildings.</p>	<p>DTS/DPF 2.2</p> <p>Building height (excluding garages, carports and outbuildings) is no greater than 2 building levels and 9m and wall height that is no</p>

<p>height of nearby buildings.</p>	<p>greater than 2 building levels and 9m and wall height that is no greater than 6m.</p>
<p>PO 2.3</p> <p>Buildings are set back from the primary street boundary to complement the existing streetscape character.</p>	<p>DTS/DPF 2.3</p> <p>Buildings are no closer to the primary street boundary than:</p> <ul style="list-style-type: none"> <li>(a) the average of existing buildings on adjoining sites with the same primary street frontage and, if there is only one such building, the setback of that building or</li> <li>(b) 6m if no building exists on an adjoining site with the same primary street frontage.</li> </ul>
<p>PO 2.4</p> <p>Buildings are set back from a secondary street boundary to maintain a consistent pattern of separation between building walls and public thoroughfares on corner sites within the locality.</p>	<p>DTS/DPF 2.4</p> <p>Buildings are no closer than 900mm to the secondary street boundary.</p>
<p>PO 2.5</p> <p>Dwellings are set back from rear boundaries to provide:</p> <ul style="list-style-type: none"> <li>(a) access to natural light and ventilation for neighbours</li> <li>(b) open space recreational opportunities</li> <li>(c) space for landscaping and vegetation.</li> </ul>	<p>DTS/DPF 2.5</p> <p>Dwellings are no closer to the rear boundary of the site than:</p> <ul style="list-style-type: none"> <li>(a) 4m for the ground floor of a building</li> <li>(b) 6m for the upper floor of a building.</li> </ul>
<p>PO 2.6</p> <p>Buildings are set back from side boundaries to:</p> <ul style="list-style-type: none"> <li>(a) establish separation between buildings to complement the established character within a locality</li> <li>(b) provide access to natural light and ventilation for neighbours.</li> </ul>	<p>DTS/DPF 2.6</p> <p>Other than walls located on a side boundary, buildings are set back from side boundaries:</p> <ul style="list-style-type: none"> <li>(a) at least 900mm where the wall height is up to 3m</li> <li>(b) other than for a wall facing a southern side boundary, at least 900mm plus 1/3 of the wall height above 3m</li> <li>(c) at least 1.9m plus 1/3 of the wall height above 3m for walls facing a southern side boundary.</li> </ul>
<p>PO 2.7</p> <p>Boundary walls are limited in height and length to mitigate adverse impacts on the amenity of adjoining land users, including through an unreasonable loss of natural light and ventilation.</p>	<p>DTS/DPF 2.7</p> <p>For buildings that do not have a common wall, any wall sited on or abutting a side allotment boundary:</p> <ul style="list-style-type: none"> <li>(a) does not exceed 3m in height from the top of the footings</li> <li>(b) does not exceed 8m in length</li> <li>(c) when combined with other walls on the boundary, does not exceed 45% of the length of the boundary</li> <li>(d) is set back at least 3 metres from any existing or proposed boundary walls.</li> </ul>

Site Dimensions and Land Division

<p>PO 3.1</p> <p>Allotments for residential purposes are of a suitable size and dimension to contribute to a housing pattern consistent with the locality.</p>	<p>DTS/DPF 3.1</p> <p>Development will not result in more than 1 dwelling on an existing allotment</p>
--	--

or

Allotments/sites for residential purposes accord with the following:

- (a) where allotments/sites are connected to mains sewer or a Community Wastewater Management System site areas (or allotment areas in the case of land division) are not less than:

<b>Minimum Site Area</b>
Minimum site area is 500 sqm
Minimum site area is 600 sqm
Minimum site area is 800 sqm
Minimum site area is 900 sqm
Minimum site area is 1,000 sqm
Minimum site area is 1,200 sqm
Minimum site area is 1,500 sqm
Minimum site area is 3,000 sqm
Minimum site area is 5,000 sqm
Minimum site area is 850 sqm

- (b) where allotments/sites are not connected to mains sewer or an approved common waste water disposal service site areas are not less than the greater of:
  - (i) 1200m<sup>2</sup>
  - (ii) the following:

<b>Minimum Site Area</b>
Minimum site area is 500 sqm
Minimum site area is 600 sqm
Minimum site area is 800 sqm
Minimum site area is 900 sqm
Minimum site area is 1,000 sqm
Minimum site area is 1,200 sqm
Minimum site area is 1,500 sqm
Minimum site area is 3,000 sqm
Minimum site area is 5,000 sqm
Minimum site area is 850 sqm

- (c) site frontages are not less than 20m

In instances where:

- (d) more than one value is returned in the same field, refer to the *Minimum Site Area Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development
- (e) no value is returned (i.e. there is a blank field), then:
  - (i) for the purpose of DTS/DPF 3.1(a), it is taken that the development does not satisfy this DTS/DPF
  - (ii) for the purpose of DTS/DPF 3.1(b)(ii), the value is zero.

Advertisements	
<p>PO 4.1</p> <p>Freestanding advertisements that identify the associated business without creating a visually dominant element within the locality.</p>	<p>DTS/DPF 4.1</p> <p>Freestanding advertisements:</p> <ul style="list-style-type: none"> <li>(a) do not exceed 2m in height</li> <li>(b) do not have a sign face that exceeds 2m<sup>2</sup> per side.</li> </ul>
Concept Plans	
<p>PO 5.1</p> <p>Development is compatible with the outcomes sought by any relevant Concept Plan contained within the Concept Plans Technical and Numeric Variation Overlay. The following Concept Plans are relevant:</p> <p>Note: if no Concept Plan is returned then none apply to the site.</p>	<p>DTS/DPF 5.1</p> <p>The site of the development is wholly located outside the Concept Plan boundary.</p>

**Table 1 - Accepted Development Classification**

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'.

Class of Development	Accepted Development Classification Criteria
<p><b>Air handling unit, air conditioning system or exhaust fan including any components or alterations incidental to its installation</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Local Heritage Place Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The item will be installed on or within an existing building.</li> <li>2. The item being installed does not encroach on a public street or affect the ability of the building to resist the spread of fire.</li> <li>3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.</li> </ol>
<p><b>Brush fence</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Hazards (Acid Sulfate Soils) Overlay</li> <li>● Hazards (Flooding) Overlay</li> <li>● Historic Area Overlay</li> <li>● Local Heritage Place Overlay</li> <li>● Ramsar Wetlands Overlay</li> <li>● River Murray Flood Plain Protection Area Overlay</li> <li>● Significant Landscape Protection Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The fence is formed (wholly or partially) from brush.</li> <li>2. The fence does not exceed 2.1 metres in height (measured from the lower of the 2 adjoining finished ground levels).</li> <li>3. The fence does not exceed 1 m in height within 6 m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved).</li> </ol>
<p><b>Building work on railway land</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Coastal Areas Overlay</li> <li>● Hazards (Acid Sulfate Soils) Overlay</li> <li>● Local Heritage Place Overlay</li> <li>● Mount Lofty Ranges Catchment (Area 1) Overlay</li> <li>● Mount Lofty Ranges Catchment (Area 2) Overlay</li> <li>● River Murray Flood Plain Protection Area Overlay</li> <li>● Significant Landscape Protection Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. Building work is associated with a railway.</li> <li>2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017).</li> <li>3. It is required for the conduct or maintenance of railway activities.</li> <li>4. It does not involve the clearance of native vegetation.</li> </ol>
<p><b>Carport</b></p> <p>Except where any of the following apply:</p>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996.</li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>3. It is ancillary to a dwelling erected on the site.</li> </ol>

- Nairne Redevelopment Subzone
  - Coastal Areas Overlay
  - Future Road Widening Overlay
  - Hazards (Acid Sulfate Soils) Overlay
  - Historic Area Overlay
  - Key Outback and Rural Routes Overlay
  - Key Railway Crossings Overlay
  - Local Heritage Place Overlay
  - Major Urban Transport Routes Overlay
  - Mount Lofty Ranges Catchment (Area 1) Overlay
  - Mount Lofty Ranges Catchment (Area 2) Overlay
  - Non-Stop Corridors Overlay
  - Significant Landscape Protection Overlay
  - State Heritage Area Overlay
  - State Heritage Place Overlay
  - Urban Transport Routes Overlay
4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary.
  5. Total floor area - does not exceed 40m<sup>2</sup>.
  6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end).
  7. Building height - does not exceed 5m.
  8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11m unless:
    - (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
    - (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.
  9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street):
    - (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
    - (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.
  10. The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment.
  11. Door opening for vehicle access - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser).
  12. The carport is located so that vehicle access:
    - (a) provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
    - (b) will use a driveway that:
      - (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;
      - (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;
      - (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
      - (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access
      - (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site.
  13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour.
  14. Does not involve the clearance of native vegetation.

**Internal building work**

Except where any of the following apply:

- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. There will be no increase in the total floor area of the building.
2. There will be no alteration to the external appearance of the building.

**Outbuilding (in the form of a garage)**

Except where any of the following apply:

- Nairne Redevelopment Subzone
- Coastal Areas Overlay
- Future Road Widening Overlay
- Hazards (Acid Sulfate Soils) Overlay
- Hazards (Flooding) Overlay
- Historic Area Overlay
- Key Outback and Rural Routes Overlay
- Key Railway Crossings Overlay
- Local Heritage Place Overlay
- Major Urban Transport Routes Overlay
- Mount Lofty Ranges Catchment (Area 1) Overlay
- Mount Lofty Ranges Catchment (Area 2) Overlay
- Non-Stop Corridors Overlay
- River Murray Flood Plain Protection Area Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay
- Urban Transport Routes Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996.
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. It is detached from and ancillary to a dwelling erected on the site.
4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary.
5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads).
6. Total floor area - does not exceed 40m<sup>2</sup>.
7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end).
8. Building height - does not exceed 5m.
9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless:
  - (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
  - (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.
10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):
  - (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
  - (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.
11. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%.
12. Door opening for vehicle access - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser).
13. The garage located so that vehicle access:
  - (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
  - (b) will use a driveway that:
    - (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;
    - (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;
    - (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
    - (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access

- (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site

14. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour.

15. Does not involve-

- (a) excavation exceeding a vertical height of 1 metre; or
- (b) filling exceeding a vertical height of 1 metre,

and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres.

16. Does not involve the clearance of native vegetation.

<p><b>Outbuilding (not being a garage)</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Nairne Redevelopment Subzone</li> <li>● Coastal Areas Overlay</li> <li>● Future Road Widening Overlay</li> <li>● Hazards (Acid Sulfate Soils) Overlay</li> <li>● Hazards (Flooding) Overlay</li> <li>● Historic Area Overlay</li> <li>● Local Heritage Place Overlay</li> <li>● Mount Lofty Ranges Catchment (Area 1) Overlay</li> <li>● Mount Lofty Ranges Catchment (Area 2) Overlay</li> <li>● River Murray Flood Plain Protection Area Overlay</li> <li>● Significant Landscape Protection Overlay</li> <li>● State Heritage Place Overlay</li> <li>● State Heritage Area Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>2. Primary street setback - at least as far back as the building to which it is ancillary.</li> <li>4. Secondary street setback - at least 900mm from the boundary of the allotment.</li> </ol>

- Future Road Widening Overlay
  - Hazards (Acid Sulfate Soils) Overlay
  - Hazards (Flooding) Overlay
  - Local Heritage Place Overlay
  - River Murray Flood Plain Protection Area Overlay
  - Significant Landscape Protection Overlay
  - State Heritage Area Overlay
  - State Heritage Place Overlay
  - State Significant Native Vegetation Overlay
5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place).

<p><b>Shade sail</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Coastal Areas Overlay</li> <li>● Future Road Widening Overlay</li> <li>● Hazards (Acid Sulfate Soils) Overlay</li> <li>● Historic Area Overlay</li> <li>● Local Heritage Place Overlay</li> <li>● River Murray Flood Plain Protection Area Overlay</li> <li>● Ramsar Wetlands Overlay</li> <li>● Significant Landscape Protection Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996.</li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>3. Shade sail consists of permeable material.</li> <li>4. The total area of the sail - does not exceed 40m<sup>2</sup>.</li> <li>5. No part of the shade sail will be:             <ol style="list-style-type: none"> <li>(a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment</li> <li>(b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment.</li> </ol> </li> <li>6. Primary street setback - at least as far back as the building line of the building to which it is ancillary.</li> <li>7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m.</li> <li>8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.</li> <li>9. Does not involve the clearance of native vegetation.</li> </ol>
<p><b>Solar photovoltaic panels (roof mounted)</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Local Heritage Place Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996.</li> <li>2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof.</li> <li>3. Panels and associated components do not overhang any part of the roof.</li> <li>4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.</li> <li>5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.</li> </ol>
<p><b>Swimming pool or spa pool, including an associated safety fence or barrier</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Coastal Areas Overlay</li> <li>● Future Road Widening Overlay</li> <li>● Hazards (Acid Sulfate Soils) Overlay</li> <li>● Hazards (Flooding) Overlay</li> <li>● Historic Area Overlay</li> <li>● Local Heritage Place Overlay</li> <li>● River Murray Flood Plain Protection Area Overlay</li> <li>● Significant Landscape Protection Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay</li> <li>● Water Resources Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996.</li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted.</li> <li>4. Allotment boundary setback - not less than 1m.</li> <li>5. Primary street setback - at least as far back as the building line of the building to which it is ancillary.</li> <li>6. Location of filtration system from a dwelling on an adjoining allotment:             <ol style="list-style-type: none"> <li>(a) not less than 5m where the filtration system is located inside a solid structure that will have material impact on the transmission of noise; or</li> <li>(b) not less than 12m in any other case.</li> </ol> </li> <li>7. Does not involve the clearance of native vegetation.</li> </ol>
<p><b>Verandah</b></p> <p>Except where any of the following</p>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996.</li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> </ol>

<p>apply:</p> <ul style="list-style-type: none"> <li>● Nairne Redevelopment Subzone</li> <li>● Coastal Areas Overlay</li> <li>● Future Road Widening Overlay</li> <li>● Historic Area Overlay</li> <li>● Local Heritage Place Overlay</li> <li>● Mount Lofty Ranges Catchment (Area 1) Overlay</li> <li>● Mount Lofty Ranges Catchment (Area 2) Overlay</li> <li>● Significant Landscape Protection Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay</li> </ul>	<p>for a sewerage system or waste control system.</p> <ol style="list-style-type: none"> <li>3. It is ancillary to a dwelling erected on the site.</li> <li>4. Primary street setback - as far back as the building line of the building to which it is ancillary.</li> <li>5. Total floor area - does not exceed 40m<sup>2</sup>.</li> <li>6. Post height - does not exceed 3m measured from natural ground level.</li> <li>7. Building height - does not exceed 5m.</li> <li>8. Length - does not exceed 11m if any part of the structure abuts or is situated on a boundary of the allotment.</li> <li>9. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%.</li> <li>10. Does not involve the clearance of native vegetation.</li> </ol>
<p><b>Water tank (above ground)</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Historic Area Overlay</li> <li>● Local Heritage Place Overlay</li> <li>● Ramsar Wetlands Overlay</li> <li>● Significant Landscape Protection Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the Electricity Act 1996.</li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>3. The tank is part of a roof drainage system.</li> <li>4. Total floor area - not exceeding 15m<sup>2</sup>.</li> <li>5. The tank is located wholly above ground.</li> <li>6. Tank height - does not exceed 4m above natural ground level.</li> <li>7. Primary street setback - at least as far back as the building line of the building to which it is ancillary.</li> <li>8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour.</li> <li>9. Does not involve the clearance of native vegetation.</li> </ol>
<p><b>Water tank (underground)</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Coastal Areas Overlay</li> <li>● Hazards (Acid Sulfate Soils) Overlay</li> <li>● Ramsar Wetlands Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>2. The tank (including any associated pump) is located wholly below the level of the ground.</li> <li>3. Does not involve the clearance of native vegetation.</li> </ol>

**Table 2 - Deemed-to-Satisfy Development Classification**

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
<p>Advertisement Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>Advertising Near Signalised Intersections Overlay</li> <li>Character Preservation District Overlay</li> <li>Heritage Adjacency Overlay</li> <li>Historic Area Overlay</li> <li>Local Heritage Place Overlay</li> <li>Nairne Redevelopment Subzone</li> <li>Non-stop Corridor Overlay</li> <li>Significant Landscape Protection Overlay</li> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	<p>Advertisements DTS/DPF 4.1</p>	<p>Advertisements [Appearance] DTS/DPF 1.1, DTS/DPF 1.3, DTS/DPF 1.4</p> <p>Advertisements [Proliferation of Advertisements] DTS/DPF 2.1, DTS/DPF 2.2</p> <p>Advertisements [Advertising Content] DTS/DPF 3.1</p> <p>Advertisements [Amenity Impacts] DTS/DPF 4.1</p> <p>Advertisements [Safety] DTS/DPF 5.1, DTS/DPF 5.2, DTS/DPF 5.3, DTS/DPF 5.4, DTS/DPF 5.5</p> <p>Clearance from Overhead Powerlines DTS/DPF 1.1</p> <p>Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.2</p>	<p>None</p>	<p>Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1</p> <p>Airport Building Heights (Regulated) Overlay [Built Form] DTS/DPF 1.1, DTS/DPF 1.2</p> <p>Defence Aviation Area Overlay [Built Form] DTS/DPF 1.1, DTS/DPF 1.3</p> <p>Gateway Overlay [Advertisements] DTS/DPF 4.1</p> <p>Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1</p> <p>State Significant Native Vegetation Areas Overlay [Environmental Protection] DTS/DPF 1.1</p>

**Table 3 - Applicable Policies for Performance Assessed Development**

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone <small>(applies only in the area affected by the Subzone)</small>	Overlay <small>(applies only in the area affected by the Overlay)</small>

All other Code Assessed Development	All	All	All	Any relevant Overlay: All

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
None specified	None specified

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification, subject to any 'Exceptions'. The table also identifies any exemptions to the placement of notices when notification is required.

Class of Development	Exceptions
1. A kind of development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None.
2. Subject to (1) any of the following: (a) classes of development listed in Township Zone Table 1 - Accepted Development Classification where the proposed development is unable to satisfy the relevant criteria set out in that table (b) classes of development listed in Township Zone Table 2 - Deemed-to-Satisfy Development Classification where the proposed development is unable to satisfy the relevant criteria set out in that table (c) buildings not exceeding 2 building levels or over 9 metres in height (d) consulting room (e) demolition (f) development involving the creation of less than 4 additional dwellings or allotments (g) farming (h) land division (i) light industry (j) office (k) shop (l) store (m) retaining wall (n) warehouse.	Except (where relevant): 1. development that is unable to satisfy Township Zone DTS/DPF 1.2 2. development that is unable to satisfy Township Zone DTS/DPF 1.3 3. demolition of a State or Local Heritage Place.

None specified.

**Placement of Notices - Exemptions for Restricted Development**

None specified.

**Township Activity Centre Zone**

**Assessment Provisions (AP)**

Desired Outcome (DO)

<b>Desired Outcome</b>	
DO 1	A cohesive, active, accessible and welcoming centre for local residents and visitors to shop, work, meet, entertain and relax in an attractive and safe environment.
DO 2	The range of land uses that occur in the centre provide important services to town residents, rural hinterland and the broader region.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

<b>Performance Outcome</b>	<b>Deemed-to-Satisfy Criteria / Designated Performance Feature</b>
Land Use and Intensity	

<p>PO 1.1</p> <p>Retail, office, entertainment, health and recreation related uses are supplemented by other businesses that provide a range of goods and services to the local community and the surrounding district.</p>	<p>DTS/DPF 1.1</p> <p>Development comprises one or more of the following land uses:</p> <ul style="list-style-type: none"> <li>(a) Cinema</li> <li>(b) Community facility</li> <li>(c) Consulting room</li> <li>(d) Dwelling above ground level</li> <li>(e) Educational establishment</li> <li>(f) Emergency services facility</li> <li>(g) Hospital</li> <li>(h) Hotel</li> <li>(i) Indoor recreation facility</li> <li>(j) Library</li> <li>(k) Office</li> <li>(l) Place of worship</li> <li>(m) Pre-school</li> <li>(n) Public transport terminal</li> <li>(o) Recreation area</li> <li>(p) Restaurant</li> <li>(q) Retail fuel outlet</li> <li>(r) Service trade premises</li> <li>(s) Shop</li> <li>(t) Tourist accommodation.</li> </ul>
<p>PO 1.2</p> <p>Residential development does not prejudice the operation of existing or future retail, office, entertainment or recreation related activity within the zone.</p>	<p>DTS/DPF 1.2</p> <p>Dwellings are:</p> <ul style="list-style-type: none"> <li>(a) developed in conjunction with non-residential uses</li> <li>(b) sited either behind or above non-residential uses on the same allotment</li> </ul>
<p>PO 1.3</p> <p>Tourist accommodation and visitor attractions support the visiting public and holiday makers.</p>	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>
<p>PO 1.4</p> <p>Bulky goods outlets are sited and designed to achieve or maintain a vibrant and interesting streetscape within retail areas.</p>	<p>DTS/DPF 1.4</p> <p>Bulky goods outlets with a gross leasable area of 500m<sup>2</sup> or more are located towards the periphery of the zone.</p>

<p>PO 1.5</p> <p>Change in the use of land provides for land uses primarily envisaged within the zone and is compatible with the surrounding locality.</p>	<p>DTS/DPF 1.5</p> <p>A change of use to a shop, office, consulting room or any combination of these uses where all of the following are achieved:</p> <ul style="list-style-type: none"> <li>(a) the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses</li> <li>(b) if the proposed change of use is for a shop that primarily involves the handling and sale of foodstuffs, areas used for the storage and collection of refuse are sited at least 10 metres from the site of a dwelling (other than a dwelling directly associated with the proposed shop)</li> <li>(c) if the proposed change of use is for a shop that primarily involves heating and cooking of foodstuffs in a commercial kitchen and is within 30 metres of any neighbourhood-type zone boundary or a dwelling (other than a dwelling directly associated with the proposed shop), an exhaust duct and stack (chimney) exists or is capable of being installed for discharging exhaust emissions</li> <li>(d) if the change in use involves a gross leasable floor area greater than 250m<sup>2</sup> and has direct frontage to an arterial road, it achieves: <ul style="list-style-type: none"> <li>(i) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road</li> <li>or</li> <li>(ii) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared</li> </ul> </li> <li>(e) off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking [Vehicle Parking Rates]: DTS 5.1 to the nearest whole number, except where: <ul style="list-style-type: none"> <li>(i) the building is a local heritage place</li> <li>or</li> <li>(ii) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made)</li> <li>or</li> <li>(iii) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.</li> </ul> </li> </ul>
--	---

<p>PO 2.1</p> <p>Buildings are sited and designed to create pedestrian, vehicular and visual linkages between the various built-form elements within the zone and adjoining main roads.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
<p>PO 2.2</p> <p>Buildings are sited and designed to create streetscapes and spaces that encourage social interaction.</p>	<p>DTS/DPF 2.2</p> <p>None are applicable.</p>
<p>Building height and setbacks</p>	
<p>PO 3.1</p> <p>Buildings are set back from primary and secondary street boundaries to contribute to the consistent established streetscape.</p>	<p>DTS/DPF 3.1</p> <p>Buildings are set back from road boundaries to align with buildings on adjoining land.</p>

PO 3.2  
 Building height is consistent with the form expressed in any relevant *Maximum Building Height Levels Technical and Numeric Variation* and *Maximum Building Height Metres Technical and Numeric Variation*, and otherwise generally of a low rise that complements the established streetscape and local character.

DTS/DPF 3.2

Building height is:

- (a) where provided:
  - (i) not greater than either of the following:

<b>Maximum Building Height (Metres)</b>
Maximum building height is 6m
Maximum building height is 8m
<b>Maximum Building Height (Levels)</b>
Maximum building height is 1 level
Maximum building height is 3 levels

- and
- (ii) not less than

<b>Minimum Building Height (Levels)</b>
---

or

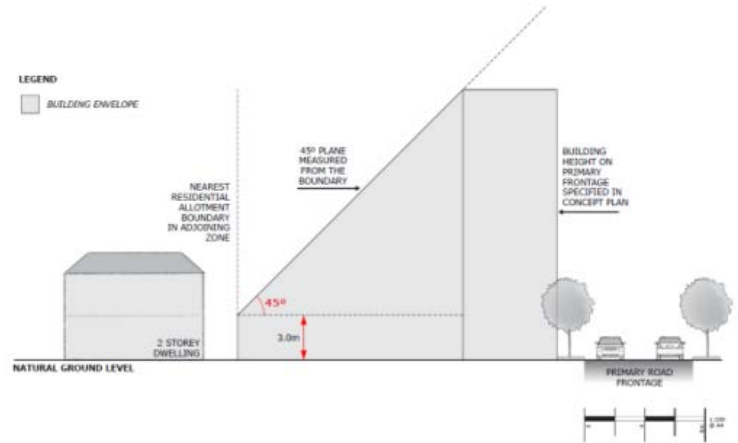

- (b) in all other cases - not greater than 3 building levels (up to a height of 12m).

In instances where:

- (c) more than one value is returned:
  - (i) for the purpose of DTS/DPF 3.2(a)(i), refer to the *Maximum Building Height (Metres) Technical and Numeric Variation layer* or *Maximum Building Height (Levels) layer* in the SA planning database to determine the applicable value relevant to the site of the proposed development
  - (ii) for the purpose of DTS/DPF 3.2(a)(ii) refer to the *Minimum Building Height (Levels) Numeric Variation layer* in the SA planning database to determine the applicable value relevant to the site of the proposed development
- (d) no value is returned (ie there is a blank field), then:
  - (i) for the purpose of DTS/DPF 3.2(a)(i), it is taken that no DTS/DPF is applicable
  - (ii) for the purpose of DTS/DPF 3.2(a)(ii), it is taken that the DTS/DPF is met.

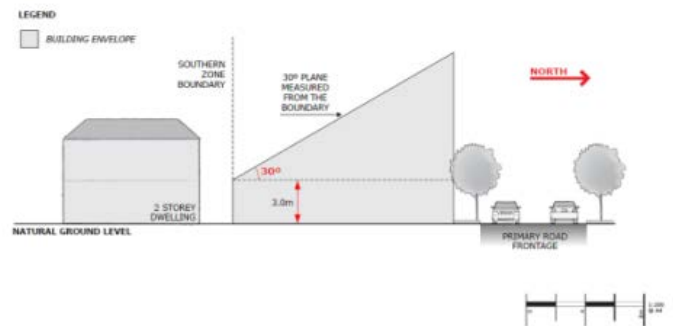

**PO 3.3**  
Buildings mitigate visual impacts of massing on residential development within a neighbourhood zone.

**DTS/DPF 3.3**  
Buildings are constructed within a building envelope provided by a 45 degree plane measured from a height of 3 metres above natural ground level at the allotment boundary of a dwelling in a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary in which case DTS/DPF 3.4 will apply, or where this boundary is the primary street boundary):

**PO 3.4**  
Buildings mitigate overshadowing of residential development within a neighbourhood zone.

**DTS/DPF 3.4**  
Buildings on sites with a southern boundary adjoining the allotment boundary of a dwelling in a neighbourhood-type zone are constructed within a building envelope provided by a 30 degree plane grading north measured from a height of 3m above natural ground level at the southern boundary, as shown in the following diagram:

Land division

**PO 4.1**  
Land division creates allotments that vary in size and are suitable for a variety of business and community facilities.

**DTS/DPF 4.1**  
None are applicable.

Advertisements

<p>PO 5.1</p> <p>Freestanding advertisements identify the associated business without creating a visually dominant element within the locality.</p>	<p>DTS/DPF 5.1</p> <p>Freestanding advertisements:</p> <p>(a) do not exceed 8m in height</p> <p>(b) do not have a sign face that exceeds 6m<sup>2</sup> per side.</p>			
<p>Concept Plans</p>				
<p>PO 6.1</p> <p>Development is compatible with the outcomes sought by any relevant Concept Plan contained within the <i>Concept Plans Technical and Numeric Variation Overlay</i>. The following Concept Plans are relevant:</p> <table border="1" data-bbox="49 669 788 831"> <thead> <tr> <th data-bbox="49 669 788 703" style="text-align: center;">Description</th> </tr> </thead> <tbody> <tr> <td data-bbox="49 703 788 750">Concept Plan 73 - Port Vincent</td> </tr> <tr> <td data-bbox="49 750 788 831">Concept Plan 75 - Warrengie Development Area Land Form / Building Module Cross Section - Warrengie</td> </tr> </tbody> </table> <p>Note: if no Concept Plan is returned then none apply to the site.</p>	Description	Concept Plan 73 - Port Vincent	Concept Plan 75 - Warrengie Development Area Land Form / Building Module Cross Section - Warrengie	<p>DTS/DPF 6.1</p> <p>The site of the development is wholly located outside the Concept Plan boundary.</p>
Description				
Concept Plan 73 - Port Vincent				
Concept Plan 75 - Warrengie Development Area Land Form / Building Module Cross Section - Warrengie				

**Table 1 - Accepted Development Classification**

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'.

Class of Development	Accepted Development Classification Criteria
<p><b>Air handling unit, air conditioning system or exhaust fan including any components or alterations incidental to its installation</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Local Heritage Place Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay.</li> </ul>	<ol style="list-style-type: none"> <li>1. The item will be installed on or within an existing building</li> <li>2. The item being installed does not encroach on a public street or affect the ability of the building to resist the spread of fire</li> <li>3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.</li> </ol>

<p><b>Brush fence</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Hazards (Acid Sulfate Soils) Overlay</li> <li>● Hazards (Flooding) Overlay</li> <li>● Historic Area Overlay</li> <li>● Local Heritage Place Overlay</li> <li>● Ramsar Wetlands Overlay</li> <li>● River Murray Flood Plain Protection Area Overlay</li> <li>● Significant Landscape Protection Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay.</li> </ul>	<ol style="list-style-type: none"> <li>1. The fence is formed (wholly or partially) from brush</li> <li>2. The fence does not exceed 2.1 metres in height (measured from the lower of the 2 adjoining finished ground levels)</li> <li>3. The fence does not exceed 1 m in height within 6 m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved).</li> </ol>
<p><b>Building work on railway land</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Coastal Areas Overlay</li> <li>● Hazards (Acid Sulfate Soils) Overlay</li> <li>● Local Heritage Place Overlay</li> <li>● Mount Lofty Ranges Catchment (Area 1) Overlay</li> <li>● Mount Lofty Ranges Catchment (Area 2) Overlay</li> <li>● River Murray Flood Plain Protection Area Overlay</li> <li>● Significant Landscape Protection Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay.</li> </ul>	<ol style="list-style-type: none"> <li>1. Building work is associated with a railway</li> <li>2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017)</li> <li>3. It is required for the conduct or maintenance of railway activities</li> <li>4. Does not involve the clearance of native vegetation.</li> </ol>
<p><b>Internal building work</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Local Heritage Place Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay.</li> </ul>	<ol style="list-style-type: none"> <li>1. There will be no increase in the total floor area of the building</li> <li>2. There will be no alteration to the external appearance of the building.</li> </ol>

<p><b>Partial demolition of a building or structure</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Historic Area Overlay</li> <li>● Local Heritage Place Overlay</li> <li>● State Heritage Place Overlay</li> <li>● State Heritage Area Overlay</li> </ul>	<p>None</p>
<p><b>Shade sail</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Coastal Areas Overlay</li> <li>● Future Road Widening Overlay</li> <li>● Hazards (Acid Sulfate Soils) Overlay</li> <li>● Historic Area Overlay</li> <li>● Local Heritage Place Overlay</li> <li>● Mount Lofty Ranges Catchment (Area 1) Overlay</li> <li>● Mount Lofty Ranges Catchment (Area 2) Overlay</li> <li>● River Murray Flood Plain Protection Area Overlay</li> <li>● Ramsar Wetlands Overlay</li> <li>● Significant Landscape Protection Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay.</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i></li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</li> <li>3. Shade sail consists of permeable material</li> <li>4. The total area of the sail - does not exceed 40m<sup>2</sup></li> <li>5. No part of the shade sail will be:             <ol style="list-style-type: none"> <li>(a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment</li> <li>(b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment</li> </ol> </li> <li>6. Primary street setback - at least as far back as the building line of the building to which it is ancillary</li> <li>7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m</li> <li>8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.</li> <li>9. Does not involve the clearance of native vegetation.</li> </ol>
<p><b>Solar photovoltaic panels (roof mounted)</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Local Heritage Place Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay.</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i></li> <li>2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof</li> <li>3. Panels and associated components do not overhang any part of the roof</li> <li>4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.</li> <li>5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.</li> </ol>

<p><b>Water tank (above ground)</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Historic Area Overlay</li> <li>● Local Heritage Place Overlay</li> <li>● Mount Lofty Ranges Catchment (Area 1) Overlay</li> <li>● Mount Lofty Ranges Catchment (Area 2) Overlay</li> <li>● Ramsar Wetlands Overlay</li> <li>● Significant Landscape Protection Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay.</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i></li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</li> <li>3. The tank is part of a roof drainage system</li> <li>4. Total floor area - not exceeding 15m<sup>2</sup></li> <li>5. The tank is located wholly above ground</li> <li>6. Tank height - does not exceed 4m above natural ground level</li> <li>7. Primary street setback - at least as far back as the building line of the building to which it is ancillary</li> <li>8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour.</li> <li>9. Does not involve the clearance of native vegetation.</li> </ol>
<p><b>Water tank (underground)</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Coastal Areas Overlay</li> <li>● Hazards (Acid Sulfate Soils) Overlay</li> <li>● Mount Lofty Ranges Catchment (Area 1) Overlay</li> <li>● Mount Lofty Ranges Catchment (Area 2) Overlay</li> <li>● Ramsar Wetlands Overlay.</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</li> <li>2. The tank (including any associated pump) is located wholly below the level of the ground.</li> <li>3. Does not involve the clearance of native vegetation.</li> </ol>

**Table 2 - Deemed-to-Satisfy Development Classification**

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone <small>(applies only in the area affected by the Subzone)</small>	Overlay <small>(applies only in the area affected by the Overlay)</small>

**Table 3 - Applicable Policies for Performance Assessed Development**

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Industry	Light industry

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification, subject to any 'Exceptions'. The table also identifies any exemptions to the placement of notices when notification is required.

Class of Development	Exceptions
1. A kind of development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None
2. Any kind of development that is <b>not</b> located adjacent to a dwelling in a neighbourhood-type zone	Except the demolition of a State or Local Heritage Place.
3. Subject to (1) and (2), any of the following: <ul style="list-style-type: none"> <li>(a) classes of development listed in Township Activity Centre Zone Table 1 - Accepted Development Classification where the proposed development is unable to satisfy the relevant criteria set out in that table</li> <li>(b) classes of development listed in Township Activity Centre Zone Table 2 - Deemed-to-Satisfy Development Classification where the proposed development is unable to satisfy the relevant criteria set out in that table</li> <li>(c) cinema</li> <li>(d) community facility</li> <li>(e) consulting room</li> <li>(f) demolition</li> <li>(g) dwelling above ground level</li> <li>(h) indoor recreation facility</li> <li>(i) land division</li> <li>(j) library</li> <li>(k) office</li> <li>(l) place of worship</li> <li>(m) pre-school</li> <li>(n) recreation area</li> <li>(o) retaining wall</li> <li>(p) service trade premises</li> <li>(q) shop</li> <li>(r) tourist accommodation</li> <li>(s) tree damaging activity.</li> </ul>	Except (where relevant): <ol style="list-style-type: none"> <li>1. development that exceeds the maximum building height specified in Township Activity Centre Zone DTS/DPF 3.2</li> <li>2. development that is unable to satisfy Township Activity Centre Zone DTS/DPF 3.3 or 3.4</li> <li>3. demolition of a State or Local Heritage Place.</li> </ol>

#### Placement of Notices - Exemptions for Performance Assessed Development

None specified.

#### Placement of Notices - Exemptions for Restricted Development

None specified.

## Township Main Street Zone

**Assessment Provisions (AP)**

Desired Outcome (DO)

<b>Desired Outcome</b>	
DO 1	A cohesive, active, accessible and welcoming main street environment for residents and visitors to shop, work, meet, entertain and relax.
DO 2	Development contributes to the vibrancy and activity of public spaces and reinforces the traditional main street character.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

<b>Performance Outcome</b>	<b>Deemed-to-Satisfy Criteria / Designated Performance Feature</b>
Land Use and Intensity	
<p>PO 1.1</p> <p>Retail, office, entertainment and recreation related uses are supplemented by other businesses that provide a range of goods and services to the local community and the surrounding district.</p>	<p>DTS/DPF 1.1</p> <p>Development comprises one or more of the following land uses:</p> <ul style="list-style-type: none"> <li>(a) Cinema</li> <li>(b) Community facility</li> <li>(c) Consulting room</li> <li>(d) Dwelling above ground level</li> <li>(e) Hotel</li> <li>(f) Indoor recreation facility</li> <li>(g) Library</li> <li>(h) Office</li> <li>(i) Place of worship</li> <li>(j) Pre-school</li> <li>(k) Restaurant</li> <li>(l) Shop</li> <li>(m) Tourist accommodation.</li> </ul>
<p>PO 1.2</p> <p>Ground floor uses contribute to an active and vibrant main street.</p>	<p>DTS/DPF 1.2</p> <p>Shop, restaurant, office, or consulting room uses are located on the ground floor level of buildings.</p>
<p>PO 1.3</p> <p>Residential development does not prejudice the operation of non-residential development and the long-term provision of services and facilities for wider community benefit.</p>	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>

<p>PO 1.4</p> <p>Dwellings are developed in conjunction with non-residential uses to support business, entertainment and recreational activities.</p>	<p>DTS/DPF 1.4</p> <p>Dwellings are developed in conjunction with non-residential uses and sited:</p> <ul style="list-style-type: none"><li>(a) at upper levels of buildings with non-residential uses located at ground level</li><li>or</li><li>(b) behind non-residential uses on the same allotment.</li></ul>
<p>PO 1.5</p> <p>Bulky goods outlets are sited and designed to achieve or maintain a vibrant and interesting streetscape within retail areas.</p>	<p>DTS/DPF 1.5</p> <p>Bulky goods outlets have a gross leasable area not exceeding 500m<sup>2</sup>.</p>

<p>PO 1.6</p> <p>Change in the use of land provides for land uses primarily envisaged within the zone and is compatible with the surrounding locality.</p>	<p>DTS/DPF 1.6</p> <p>A change of use to a shop, office, consulting room or any combination of these uses where all of the following are achieved:</p> <ul style="list-style-type: none"> <li>(a) the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses</li> <li>(b) if the proposed change of use is for a shop that primarily involves the handling and sale of foodstuffs, areas used for the storage and collection of refuse are sited at least 10 metres from the site of a dwelling (other than a dwelling directly associated with the proposed shop)</li> <li>(c) if the proposed change of use is for a shop that primarily involves heating and cooking of foodstuffs in a commercial kitchen and is within 30 metres of any neighbourhood-type zone boundary or a dwelling (other than a dwelling directly associated with the proposed shop), an exhaust duct and stack (chimney) exists or is capable of being installed for discharging exhaust emissions</li> <li>(d) if the change in use involves a gross leasable floor area greater than 250m<sup>2</sup> and has direct frontage to an arterial road, it achieves: <ul style="list-style-type: none"> <li>(i) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) is from a road that is not an arterial road</li> <li>or</li> <li>(ii) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared</li> </ul> </li> <li>(e) off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking [Vehicle Parking Rates]: DTS 5.1 to the nearest whole number, except where: <ul style="list-style-type: none"> <li>(i) the building is a local heritage place</li> <li>or</li> <li>(ii) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made)</li> <li>or</li> <li>(iii) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse.</li> </ul> </li> </ul>
--	---

Built Form and Character

<p>PO 2.1</p> <p>Buildings and structures are designed to complement the traditional low-scale main street built form by ensuring wall, parapet and roof height, verandah profile, and materials of construction are consistent with adjacent traditional main street buildings.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
<p>PO 2.2</p> <p>Buildings preserve main street character by complementing key traditional shop-front elements such as narrow building and tenancy footprint with frequently repeated frontages, clear-glazed narrow shop front displays above raised display levels (base stall boards) and recessed entries.</p>	<p>DTS/DPF 2.2</p> <p>None are applicable.</p>
<p>PO 2.3</p> <p>Buildings are adaptable and flexible to accommodate a range of land uses, including shops, offices, consulting rooms and residential land uses.</p>	<p>DTS/DPF 2.3</p> <p>Ground floor levels of buildings incorporate a minimum ceiling height of 3.5m.</p>
<p>PO 2.4</p> <p>Buildings create visual interest and an active interface with the main street frontage and maximise passive surveillance.</p>	<p>DTS/DPF 2.4</p> <p>Not less than 50% of the ground floor primary frontage of buildings are visually permeable, transparent or clear glazed.</p>
<p>PO 2.5</p> <p>Pedestrian shelter and shade are provided over footpaths through the use of structures such as awnings, canopies and verandas.</p>	<p>DTS/DPF 2.5</p> <p>None are applicable.</p>
<p>PO 2.6</p> <p>Dwellings are generally sited behind or above non-residential uses on the same site to maintain vibrancy and activity along the main street.</p>	<p>DTS/DPF 2.6</p> <p>None are applicable.</p>
<p>PO 2.7</p> <p>Outbuildings, carports and garages are located behind the primary building facing the main street to ensure vibrancy and activity along the main street.</p>	<p>DTS/DPF 2.7</p> <p>None are applicable.</p>
<p>PO 2.8</p> <p>Development contributes to and does not interfere with provision of an efficient and convenient pedestrian network linking the main street to adjoining zones.</p>	<p>DTS/DPF 2.8</p> <p>None are applicable.</p>

Building height and setbacks

PO 3.1  
 Building height is consistent with the form expressed in any relevant *Maximum Building Height Levels Technical and Numeric Variation* and *Maximum Building Height Metres Technical and Numeric Variation*, and otherwise low rise, with height commensurate with the development site’s frontage and depth as well as the main street width, so that the impacts of building mass on adjoining properties and the streetscape are minimised.

DTS/DPF 3.1

Building height is:

- (a) where provided:
  - (i) not greater than either of the following:
 

<b>Maximum Building Height (Metres)</b>
Maximum building height is 8m
<b>Maximum Building Height (Levels)</b>
Maximum building height is 2 levels

    - and
    - (ii) not less than
 

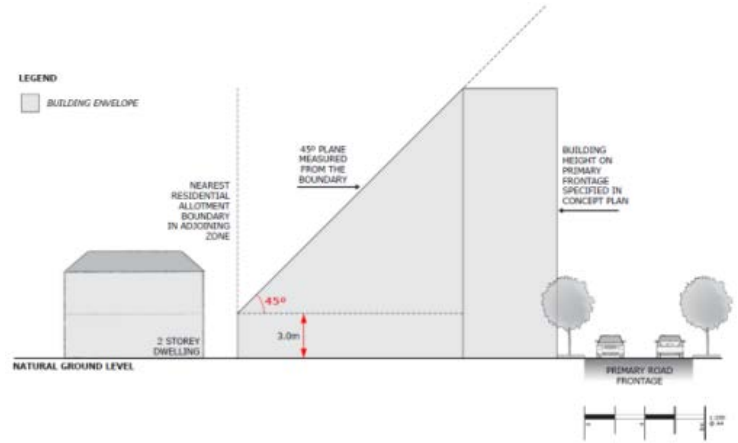

<b>Minimum Building Height (Levels)</b>
---
- or
- (b) where the site has a frontage of at least 25m and depth of at least 50m – not greater than 3 building levels (up to a height of 12m)
  - or
  - (c) in all other cases - not greater than 2 building levels (up to a height of 9m).

In instances where:

- (d) more than one value is returned:
  - (i) for the purpose of DTS/DPF 3.1(a)(i), refer to the *Maximum Building Height (Metres) Technical and Numeric Variation layer* or *Maximum Building Height (Levels) layer* in the SA planning database to determine the applicable value relevant to the site of the proposed development
  - (ii) for the purpose of DTS/DPF 3.1(a)(ii) refer to the *Minimum Building Height (Levels) Numeric Variation layer* in the SA planning database to determine the applicable value relevant to the site of the proposed development
- (e) no value is returned (ie there is a blank field), then:
  - (i) for the purpose of DTS/DPF 3.1(a)(i), it is taken that no DTS/DPF is applicable
  - (ii) for the purpose of DTS/DPF 3.1(a)(ii), it is taken that the DTS/DPF is met.

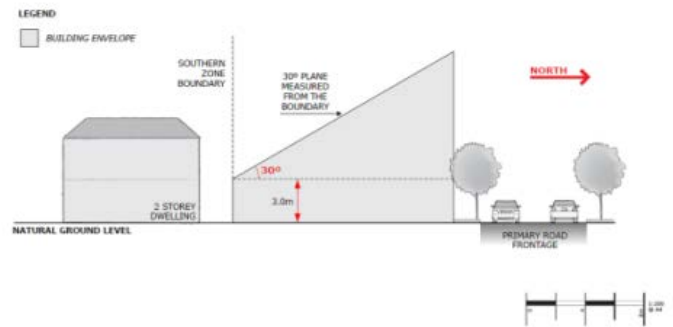

**PO 3.2**  
Buildings mitigate the visual impacts of massing on residential development within a neighbourhood zone.

**DTS/DPF 3.2**  
Buildings constructed within a building envelope provided by a 45 degree plane measured from a height of 3 metres above natural ground level at the allotment boundary of a dwelling in a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary in which case DTS/DPF 3.3 will apply, or where this boundary is the primary street boundary):

**PO 3.3**  
Buildings mitigate overshadowing of residential development within a neighbourhood zone.

**DTS/DPF 3.3**  
Buildings on sites with a southern boundary adjoining the allotment boundary of a dwelling in a neighbourhood-type zone are constructed within a building envelope provided by a 30 degree plane grading north measured from a height of 3m above natural ground level at the southern boundary, as shown in the following diagram:

**PO 3.4**  
Buildings are constructed to the front boundary to achieve a continuity of street façade to the main street, with the occasional section of building set back to create outdoor dining areas, visually interesting building entrances and intimate, active spaces.

**DTS/DPF 3.4**  
None are applicable.

<p>PO 3.5</p> <p>Buildings are constructed to side boundaries to achieve a continuity of street façade to the main street.</p>	<p>DTS/DPF 3.5</p> <p>Building walls are located on side boundaries.</p>		
<p>PO 3.6</p> <p>Buildings are set back from rear boundaries (other than where these are also street boundaries) to minimise impacts on neighbouring properties, including access to natural light and ventilation.</p>	<p>DTS/DPF 3.6</p> <p>Buildings are set back 3m or more from rear boundaries where the subject land directly abuts an allotment of a different zone, except where the development abuts the wall of an existing or simultaneously constructed building on the adjoining land.</p>		
<p>PO 3.7</p> <p>Buildings are set back from rear access ways to provide adequate manoeuvrability for vehicles.</p>	<p>DTS/DPF 3.7</p> <p>Buildings are set back from rear access ways in accordance with the following:</p> <ul style="list-style-type: none"> <li>(a) where the access way is 6.5m or more wide, no minimum requirement</li> <li>(b) where the access way is less than 6.5m wide, the distance equal to the additional width required to make the access way at 6.5m wide.</li> </ul>		
<p>Traffic, parking and access</p>			
<p>PO 4.1</p> <p>Development minimises the need for vehicle crossovers on the main street to reduce conflicts with pedestrians and avoid disruption to the continuity of built form.</p>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>		
<p>PO 4.2</p> <p>Vehicle parking is located behind buildings away from the primary main street frontage and designed to minimise impacts on residential amenity.</p>	<p>DTS/DPF 4.2</p> <p>Vehicle parking areas are located behind the building line of the associated building.</p>		
<p>Advertisements</p>

<p>PO 6.1</p> <p>Development is compatible with the outcomes sought by any relevant Concept Plan contained within the Concept Plans Technical and Numeric Variation layer. The following Concept Plans are relevant:</p> <table border="1" data-bbox="49 2033 790 2114"> <thead> <tr> <th style="text-align: center;">Description</th> </tr> </thead> <tbody> <tr> <td>Concept Plan 71 - Hamley Bridge</td> </tr> </tbody> </table> <p>Note: if no Concept Plan is returned then none apply to the site.</p>	Description	Concept Plan 71 - Hamley Bridge	<p>DTS/DPF 6.1</p> <p>The site of the development is wholly located outside the Concept Plan boundary.</p>
Description			
Concept Plan 71 - Hamley Bridge			

**Table 1 - Accepted Development Classification**

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'.

Class of Development	Accepted Development Classification Criteria
<p><b>Air handling unit, air conditioning system or exhaust fan including any components or alterations incidental to its installation</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Local Heritage Place Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The item will be installed on or within an existing building.</li> <li>2. The item being installed does not encroach on a public street or affect the ability of the building to resist the spread of fire.</li> <li>3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.</li> </ol>
<p><b>Brush fence</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Hazards (Acid Sulfate Soils) Overlay</li> <li>● Hazards (Flooding) Overlay</li> <li>● Historic Area Overlay</li> <li>● Local Heritage Place Overlay</li> <li>● Ramsar Wetlands Overlay</li> <li>● River Murray Flood Plain Protection Area Overlay</li> <li>● Significant Landscape Protection Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The fence is formed (wholly or partially) from brush.</li> <li>2. The fence does not exceed 2.1 metres in height (measured from the lower of the 2 adjoining finished ground levels).</li> <li>3. The fence does not exceed 1 m in height within 6 m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved).</li> </ol>
<p><b>Building work on railway land</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Coastal Areas Overlay</li> <li>● Hazards (Acid Sulfate Soils) Overlay</li> <li>● Local Heritage Place Overlay</li> <li>● Mount Lofty Ranges Catchment (Area 1) Overlay</li> <li>● Mount Lofty Ranges Catchment (Area 2) Overlay</li> <li>● River Murray Flood Plain Protection Area Overlay</li> <li>● Significant Landscape Protection Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. Building work is associated with a railway.</li> <li>2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017).</li> <li>3. It is required for the conduct or maintenance of railway activities.</li> <li>4. Does not involve the clearance of native vegetation.</li> </ol>

<p><b>Internal building work</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● State Heritage Place Overlay</li> <li>● State Heritage Area Overlay</li> <li>● Local Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. There will be no increase in the total floor area of the building.</li> <li>2. There will be no alteration to the external appearance of the building.</li> </ol>
<p><b>Partial demolition of a building or structure</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Historic Area Overlay</li> <li>● Local Heritage Place Overlay</li> <li>● State Heritage Place Overlay</li> <li>● State Heritage Area Overlay</li> </ul>	<p>None</p>
<p><b>Shade sail</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Coastal Areas Overlay</li> <li>● Future Road Widening Overlay</li> <li>● Hazards (Acid Sulfate Soils) Overlay</li> <li>● Historic Area Overlay</li> <li>● Local Heritage Place Overlay</li> <li>● Mount Lofty Ranges Catchment (Area 1) Overlay</li> <li>● Mount Lofty Ranges Catchment (Area 2) Overlay</li> <li>● River Murray Flood Plain Protection Area Overlay</li> <li>● Ramsar Wetlands Overlay</li> <li>● Significant Landscape Protection Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>3. Shade sail consists of permeable material.</li> <li>4. The total area of the sail - does not exceed 40m<sup>2</sup>.</li> <li>5. No part of the shade sail will be: <ol style="list-style-type: none"> <li>(a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment</li> <li>(b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment.</li> </ol> </li> <li>6. Primary street setback - at least as far back as the building line of the building to which it is ancillary.</li> <li>7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m.</li> <li>8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.</li> <li>9. Does not involve the clearance of native vegetation.</li> </ol>
<p><b>Solar photovoltaic panels (roof mounted)</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Local Heritage Place Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof.</li> <li>3. Panels and associated components do not overhang any part of the roof.</li> <li>4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.</li> <li>5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.</li> </ol>

<p><b>Water tank (above ground)</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Historic Area Overlay</li> <li>● Local Heritage Place Overlay</li> <li>● Mount Lofty Ranges Catchment (Area 1) Overlay</li> <li>● Mount Lofty Ranges Catchment (Area 2) Overlay</li> <li>● Ramsar Wetlands Overlay</li> <li>● Significant Landscape Protection Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>3. The tank is part of a roof drainage system.</li> <li>4. Total floor area - not exceeding 15m<sup>2</sup>.</li> <li>5. The tank is located wholly above ground.</li> <li>6. Tank height - does not exceed 4m above natural ground level.</li> <li>7. Primary street setback - at least as far back as the building line of the building to which it is ancillary.</li> <li>8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour.</li> <li>9. Does not involve the clearance of native vegetation.</li> </ol>
<p><b>Water tank (underground)</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Coastal Areas Overlay</li> <li>● Hazards (Acid Sulfate Soils) Overlay</li> <li>● Mount Lofty Ranges Catchment (Area 1) Overlay</li> <li>● Mount Lofty Ranges Catchment (Area 2) Overlay</li> <li>● Ramsar Wetlands Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>2. The tank (including any associated pump) is located wholly below the level of the ground.</li> <li>3. Does not involve the clearance of native vegetation.</li> </ol>

**Table 2 - Deemed-to-Satisfy Development Classification**

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone <small>(applies only in the area affected by the Subzone)</small>	Overlay <small>(applies only in the area affected by the Overlay)</small>

<p>Advertisement Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>Advertising Near Signalised Intersections Overlay</li> <li>Character Preservation District Overlay</li> <li>Heritage Adjacency Overlay</li> <li>Historic Area Overlay</li> <li>Local Heritage Place Overlay</li> <li>Non-stop Corridor Overlay</li> <li>Significant Landscape Protection Overlay</li> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	<p>Advertisements DTS/DPF 5.1</p>	<p>Advertisements [Appearance] DTS/DPF 1.1, DTS/DPF 1.3, DTS/DPF 1.4</p> <p>Advertisements [Proliferation of Advertisements] DTS/DPF 2.1, DTS/DPF 2.2</p> <p>Advertisements [Advertising Content] DTS/DPF 3.1</p> <p>Advertisements [Amenity Impacts] DTS/DPF 4.1</p> <p>Advertisements [Safety] DTS/DPF 5.1, DTS/DPF 5.2, DTS/DPF 5.3, DTS/DPF 5.4, DTS/DPF 5.5</p> <p>Clearance from Overhead Powerlines DTS/DPF 1.1</p> <p>Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.2</p>	<p>None</p>	<p>Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1</p> <p>Airport Building Heights (Regulated) Overlay [Built Form] DTS/DPF 1.1, DTS/DPF 1.2</p> <p>Defence Aviation Area Overlay [Built Form] DTS/DPF 1.1, DTS/DPF 1.3</p> <p>Gateway Overlay [Advertisements] DTS/DPF 4.1</p> <p>Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1</p> <p>State Significant Native Vegetation Areas Overlay [Environmental Protection] DTS/DPF 1.1</p>
<p>Change of use Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	<p>Land Use and Intensity DTS/DPF 1.6</p>	<p>None</p>	<p>None</p>	<p>None</p>
<p>Replacement building Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>Historic Area Overlay</li> <li>Local Heritage Place Overlay</li> <li>River Murray Flood Plain Protection Area Overlay</li> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	<p>None</p>	<p>None</p>	<p>None</p>	<p>None</p>
<p>Temporary accommodation in an area affected by bushfire</p>	<p>None</p>	<p>None</p>	<p>None</p>	<p>None</p>

**Table 3 - Applicable Policies for Performance Assessed Development**

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Class of Development	Applicable Policies

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Industry	None Specified

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification, subject to any 'Exceptions'. The table also identifies any exemptions to the placement of notices when notification is required.

Class of Development	Exceptions
1. A kind of development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None
2. Any kind of development that is <b>not</b> located adjacent to a dwelling in a neighbourhood-type zone.	Except the demolition of a State or Local Heritage Place.
3. Subject to (1) and (2), any of the following: <ul style="list-style-type: none"> <li>(a) classes of development listed in Township Main Street Zone Table 1 - Accepted Development Classification where the proposed development is unable to satisfy the relevant criteria set out in that table</li> <li>(b) classes of development listed in Township Main Street Zone Table 2 - Deemed-to-Satisfy Development Classification where the proposed development is unable to satisfy the relevant criteria set out in that table</li> <li>(c) cinema</li> <li>(d) community facility</li> <li>(e) consulting room</li> <li>(f) demolition</li> <li>(g) dwelling above ground level</li> <li>(h) indoor recreation facility</li> <li>(i) land division</li> <li>(j) library</li> <li>(k) office</li> <li>(l) place of worship</li> <li>(m) pre-school</li> <li>(n) recreation area</li> <li>(o) retaining wall</li> <li>(p) shop</li> <li>(q) tourist accommodation</li> <li>(r) tree damaging activity.</li> </ul>	Except (where relevant): <ul style="list-style-type: none"> <li>1. development that exceeds the maximum building height specified in Township Main Street Zone DTS/DPF 3.1</li> <li>2. development that is unable to satisfy Township Main Street Zone DTS/DPF 3.2 or 3.3</li> <li>3. demolition of a State or Local Heritage Place.</li> </ul>

#### Placement of Notices - Exemptions for Performance Assessed Development

None specified.

#### Placement of Notices - Exemptions for Restricted Development

None specified.

## Workers' Settlement Zone

**Assessment Provisions (AP)**

Desired Outcome (DO)

<b>Desired Outcome</b>	
DO 1	Appropriately designed and located accommodation for seasonal and short-term workers in rural areas that minimises environmental and social impacts.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

<b>Performance Outcome</b>	<b>Deemed-to-Satisfy Criteria / Designated Performance Feature</b>
Land Use and Intensity	
<p>PO 1.1</p> <p>Development is limited to Workers' accommodation and ancillary land uses that support the day to day needs of workers.</p>	<p>DTS/DPF 1.1</p> <p>Development comprises one or more of the following land uses:</p> <ul style="list-style-type: none"> <li>(a) a dwelling (manager's house)</li> <li>(b) amenity block (including shower, toilet and laundry facilities) in association with and ancillary to the workers' accommodation</li> <li>(c) dwelling addition</li> <li>(d) recreational facility in association with and ancillary to the workers' accommodation</li> <li>(e) office in association with and ancillary to the workers' accommodation</li> <li>(f) shop in association with and ancillary to the workers' accommodation</li> <li>(g) workers' accommodation.</li> </ul>
<p>PO 1.2</p> <p>Shops, primarily in the form of a restaurant, associated with and ancillary to Workers' accommodation enhance the amenity of the zone for those workers.</p>	<p>DTS/DPF 1.2</p> <p>Shops located on the same site as workers' accommodation meets one of the following:</p> <ul style="list-style-type: none"> <li>(a) it has a gross leasable floor area not exceeding 100m<sup>2</sup></li> <li>(b) it is a restaurant.</li> </ul>
<p>PO 1.3</p> <p>Office associated with and ancillary to Workers' accommodation supports the management and administrative aspects of the accommodation.</p>	<p>DTS/DPF 1.3</p> <p>Office is ancillary to and located on the same site as Workers' accommodation.</p>

<p>PO 1.4</p> <p>Development provides space adjacent to and around habitable buildings to accommodate areas for parking of vehicles, storage of waste, landscaping, recreation areas, swimming pool/spa and similar facilities to enhance the amenity for resident workers.</p>	<p>DTS/DPF 1.4</p> <p>The total roofed area of all existing and proposed buildings on the site will not exceed 60%.</p>
<p>PO 1.5</p> <p>Workers' accommodation is established in association with major industrial, mining, agricultural and business activities to support and facilitate economic activity.</p>	<p>DTS/DPF 1.5</p> <p>Workers' accommodation is constructed by the principal operator of the relevant business or authorised agent thereof.</p>
<p>PO 1.6</p> <p>A dwelling in the form of a manager or caretaker residence associated with and ancillary to Workers' accommodation provides for the efficient management, maintenance and support of residents.</p>	<p>DTS/DPF 1.6</p> <p>A dwelling is:</p> <ul style="list-style-type: none"> <li>(a) ancillary to and located on the same allotment or within the same lease area as the workers' accommodation</li> <li>(b) has a demonstrated connection with workers' accommodation</li> <li>(c) will not result in more than one dwelling being located on an allotment or lease area used for workers' accommodation.</li> </ul>
<p>Land Division</p>	
<p>PO 2.1</p> <p>Land division is designed to:</p> <ul style="list-style-type: none"> <li>(a) minimise fire risk danger to occupants of buildings and firefighting personnel</li> <li>(b) minimise the potential risk of damage to buildings and other property during a bushfire</li> <li>(c) ensure each allotment contains a suitable building envelope that is located away from any vegetation that would pose an unacceptable risk in the event of bushfire.</li> </ul>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
<p>Built Form and Character</p>	
<p>PO 3.1</p> <p>Buildings and recreational facilities are set back from internal roads to accommodate vehicular movements and contribute to the safety of workers and visitors.</p>	<p>DTS/DPF 3.1</p> <p>Buildings and recreational facilities are set back at least 1 metre from an internal road.</p>
<p>PO 3.2</p> <p>Buildings are set back from public roads to mitigate impacts on the streetscape.</p>	<p>DTS/DPF 3.2</p> <p>Buildings are set back at least 2m from a public road.</p>
<p>PO 3.3</p> <p>Buildings and recreational areas are set back from the boundary of the zone to minimise impacts on neighbouring properties and enhance local amenity.</p>	<p>DTS/DPF 3.3</p> <p>Buildings are set back at least 2 metres from the zone boundary.</p>

<p>PO 3.4</p> <p>Buildings use materials and finishes to complement the landscape and mitigate the effects of glare on adjacent land users.</p>	<p>DTS/DPF 3.4</p> <p>Buildings are clad in, or a combination of:</p> <ul style="list-style-type: none"> <li>(a) materials other than sheet metal</li> <li>(b) sheet metal pre-colour treated or painted in a non-reflective colour.</li> </ul>
<p>Landscaping</p>	
<p>PO 4.1</p> <p>Landscaping is provided along public roads and thoroughfares, zone boundaries and the perimeter of common vehicle parking areas to enhance the visual appearance of development.</p>	<p>DTS/DPF 4.1</p> <p>Other than to accommodate a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land, a landscaped area is provided within the development site in accordance with the following:</p> <ul style="list-style-type: none"> <li>(a) at least 1.5m wide along any boundary on the perimeter of the zone fronting a public road or thoroughfare</li> <li>(b) at least 1m wide around the perimeter of any shared vehicle parking area.</li> </ul>
<p>PO 4.2</p> <p>Development incorporates areas for landscaping to enhance the overall amenity of the site and locality.</p>	<p>DTS/DPF 4.2</p> <p>Landscape areas comprise:</p> <ul style="list-style-type: none"> <li>(a) not less than 10 percent of the site area</li> <li>(b) a dimension of at least 1m.</li> </ul>
<p>Concept Plans</p>	
<p>PO 5.1</p> <p>Development is compatible with the outcomes sought by any relevant Concept Plan contained within the <i>Concept Plans Technical and Numeric Variation</i>. The following Concept Plans are relevant:</p> <p>Note: if no Concept Plan is returned then none apply to the site.</p>	<p>DTS/DPF 5.1</p> <p>The site of the development is wholly located outside the Concept Plan boundary.</p>

**Table 1 - Accepted Development Classification**

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the 'Accepted Development Classification Criteria'.

Class of Development	Accepted Development Classification Criteria
----------------------	--

**Air handling unit, air conditioning system or exhaust fan including any components or alterations incidental to its installation**

Except where any of the following apply:

- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The item will be installed on or within an existing building.
2. The item being installed does not encroach on a public street or affect the ability of the building to resist the spread of fire.
3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.

**Building work on railway land**

Except where any of the following apply:

- None

1. Building work is associated with a railway.
2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017).
3. It is required for the conduct or maintenance of railway activities.
4. It does not involve the clearance of native vegetation.

**Carport**

Except where any of the following apply:

- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay
- Key Outback and Rural Routes Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. It is ancillary to workers' accommodation or a dwelling erected on the site.
4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary.
5. Total floor area - does not exceed 40m<sup>2</sup>.
6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end)
7. Building height - does not exceed 5m.
8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11m unless:
  - (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
  - (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.
9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street):
  - (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
  - (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.
10. The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment.
11. Door opening for vehicle access - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser).
12. The carport is located so that vehicle access:
  - (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
  - (b) will use a driveway that:
    - (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;
    - (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;
    - (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
    - (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access
    - (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / sit.
13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour.
14. Does not involve the clearance of native vegetation.

**Internal building work**

Except where any of the following apply:

- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. There will be no increase in the total floor area of the building.
2. There will be no alteration to the external appearance of the building.

**Outbuilding (in the form of a garage)**

Except where any of the following apply:

- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay
- Key Outback and Rural Routes Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. It is detached from and ancillary to workers' accommodation or a dwelling erected on the site.
4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary.
5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads).
6. Total floor area - does not exceed 40m<sup>2</sup>.
7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end).
8. Building height - does not exceed 5m.
9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless:
  - (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
  - (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.
10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):
  - (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
  - (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.
11. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%.
12. Door opening for vehicle access - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser).
13. The garage located so that vehicle access:
  - (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
  - (b) will use a driveway that:
    - (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;
    - (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree
    - (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
    - (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of

- the covered car parking space for which it provides vehicle access
- (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site

14. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour.
15. Does not involve-
- (a) excavation exceeding a vertical height of 1 metre; or
  - (b) filling exceeding a vertical height of 1 metre,

and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres.

16. Does not involve the clearance of native vegetation.

### Outbuilding (not being a garage)

Except where any of the following apply:

- Local Heritage Place Overlay
- State Heritage Place Overlay
- State Heritage Area Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. It is detached from and ancillary to workers' accommodation or a dwelling erected on the site.
4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary.
5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads).
6. Total floor area - does not exceed 40m<sup>2</sup>.
7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end).
8. Building height - does not exceed 5m.
9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11m unless:
  - (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
  - (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.
10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):
  - (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
  - (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.
11. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%.
12. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour.
13. Does not involve-
  - (a) excavation exceeding a vertical height of 1 metre; or
  - (b) filling exceeding a vertical height of 1 metre,

and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres.
14. Does not involve the clearance of native vegetation.

<p><b>Partial demolition of a building or structure</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Historic Area Overlay</li> <li>● Local Heritage Place Overlay</li> <li>● State Heritage Place Overlay</li> <li>● State Heritage Area Overlay</li> </ul>	<p>None</p>
<p><b>Private bushfire shelter</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Local Heritage Place Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i></li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</li> <li>3. Primary street setback – at least as far back as the building to which it is ancillary</li> <li>4. Secondary street setback – at least 900mm from the boundary of the allotment</li> <li>5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place).</li> </ol>
<p><b>Shade sail</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Local Heritage Place Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>3. Shade sail consists of permeable material.</li> <li>4. The total area of the sail - does not exceed 40m<sup>2</sup>.</li> <li>5. No part of the shade sail will be:             <ol style="list-style-type: none"> <li>(a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment</li> <li>(b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment.</li> </ol> </li> <li>6. Primary street setback - at least as far back as the building line of the building to which it is ancillary.</li> <li>7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m.</li> <li>8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.</li> <li>9. Does not involve the clearance of native vegetation.</li> </ol>
<p><b>Solar photovoltaic panels (roof mounted)</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>● Local Heritage Place Overlay</li> <li>● State Heritage Area Overlay</li> <li>● State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof.</li> <li>3. Panels and associated components do not overhang any part of the roof.</li> <li>4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.</li> <li>5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.</li> </ol>

<p><b>Swimming pool or spa pool, including an associated safety fence or barrier</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>Local Heritage Place Overlay</li> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>It is ancillary to workers' accommodation erected on the site or workers' accommodation to be erected on the site in accordance with a development authorisation which has been granted.</li> <li>Allotment boundary setback - not less than 1m.</li> <li>Primary street setback - at least as far back as the building line of the building to which it is ancillary.</li> <li>Location of filtration system from a dwelling on an adjoining allotment:             <ol style="list-style-type: none"> <li>not less than 5m where the filtration system is located inside a solid structure that will have material impact on the transmission of noise; or</li> <li>not less than 12m in any other case.</li> </ol> </li> <li>Does not involve the clearance of native vegetation.</li> </ol>
<p><b>Water tank (above ground)</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>Local Heritage Place Overlay</li> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>The tank is part of a roof drainage system.</li> <li>Total floor area - not exceeding 15m<sup>2</sup>.</li> <li>The tank is located wholly above ground.</li> <li>Tank height - does not exceed 4m above natural ground level.</li> <li>Primary street setback - at least as far back as the building line of the building to which it is ancillary.</li> <li>In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour.</li> <li>Does not involve the clearance of native vegetation.</li> </ol>
<p><b>Water tank (underground)</b></p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>None</li> </ul>	<ol style="list-style-type: none"> <li>The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>The tank (including any associated pump) is located wholly below the level of the ground.</li> <li>Does not involve the clearance of native vegetation.</li> </ol>

**Table 2 - Deemed-to-Satisfy Development Classification**

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone <small>(applies only in the area affected by the Subzone)</small>	Overlay <small>(applies only in the area affected by the Overlay)</small>

<p>Amenities block</p>	<p>Land Use and Intensity DTS/DPF 1.1, DTS/DPF 1.4</p> <p>Built Form and Character DTS/DPF 3.1, DTS/DPF 3.2, DTS/DPF 3.3, DTS/DPF 3.4</p> <p>Landscaping DTS/DPF 4.1, DTS/DPF 4.2</p> <p>Concept Plans DTS/DPF 5.1</p>	<p>Clearance from Overhead Powerlines DTS/DPF 1.1</p> <p>Design [All development [Earthworks and sloping land]] DTS/DPF 8.1</p> <p>Infrastructure and Renewable Energy Facilities [Water Supply] DTS/DPF 11.1</p> <p>Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.1, DTS/DPF 12.2</p>	<p>None</p>	<p>Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1</p> <p>Building Near Airfields Overlay DTS/DPF 1.1</p> <p>Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1</p>
------------------------	--	--	-------------	--

**Table 3 - Applicable Policies for Performance Assessed Development**

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Class of	Applicable Policies
----------	---------------------

<b>Development</b>	<b>Zone</b>	<b>General Development Policies</b>	<b>Subzone</b> (applies only in the area affected by the Subzone)	<b>Overlay</b> (applies only in the area affected by the Overlay)

All other Code Assessed Development	All	All	All	Any relevant Overlay: All

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	<p>Any of the following:</p> <ul style="list-style-type: none"> <li>(a) shop with a gross leasable floor area less than 1000m<sup>2</sup></li> <li>(b) shop that is a restaurant.</li> </ul>

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification, subject to any 'Exceptions'. The table also identifies any exemptions to the placement of notices when notification is required.

Class of Development	Exceptions
1. A kind of development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None.
2. Subject to (1) any of the following: (a) classes of development listed in Workers' Settlement Zone Table 1 - Accepted Development Classification where the proposed development is unable to satisfy the relevant criteria set out in that table (b) classes of development listed in Workers' Settlement Zone Table 2 - Deemed-to-Satisfy Development Classification where the proposed development is unable to satisfy the relevant criteria set out in that table (c) demolition.	Except the demolition of a State or Local Heritage Place.

**Placement of Notices - Exemptions for Performance Assessed Development**

None specified

**Placement of Notices - Exemptions for Restricted Development**

None specified

**Part 3 - Overlays****Advertising Near Signalised Intersections Overlay****Assessment Provisions (AP)**

Desired Outcome (DO)

<b>Desired Outcome</b>	
DO 1	Provision of a safe road environment by reducing driver distraction at key points of conflict on the road.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Advertisements Near Signalised Intersections	
PO 1.1 Advertising near signalised intersections does not cause unreasonable distraction to road users through illumination, flashing lights, or moving or changing displays or messages.	DTS/DPF 1.1 Advertising: <ul style="list-style-type: none"> <li>(a) is not illuminated</li> <li>(b) does not incorporate a moving or changing display or message</li> <li>(c) does not incorporate a flashing light(s).</li> </ul>

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Advertisement or advertising hoarding that: <ul style="list-style-type: none"> <li>(a) is within 100m of a:                             <ul style="list-style-type: none"> <li>(i) signalised intersection or</li> <li>(ii) signalised pedestrian crossing and</li> </ul> </li> <li>(b) will:                             <ul style="list-style-type: none"> <li>(i) be internally illuminated or</li> <li>(ii) incorporate a moving or changing display or message or</li> <li>(iii) incorporate a flashing light.</li> </ul> </li> </ul>	Commissioner of Highways.	To provide expert technical assessment on potential risks relating to pedestrian and road safety which may arise from advertisements near intersections.	Development of a class to which Schedule 9 clause 3 item 21 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

**Affordable Housing Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Affordable housing is integrated with residential and mixed use development.

DO 2	Affordable housing caters for a variety of household structures.
------	--

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Division	
PO 1.1 Development comprising 20 or more dwellings / allotments incorporates affordable housing.	DTS/DPF 1.1 Development results in 0-19 additional allotments / dwellings.
PO 1.2 Development comprising 20 or more dwellings provides housing suited to a range of incomes including households with low to moderate incomes.	DTS/DPF 1.2 Development comprising 20 or more dwellings or residential allotments includes a minimum of 15% affordable housing except where: <ul style="list-style-type: none"> <li>(a) it can be demonstrated that any shortfall in affordable housing has been provided in a previous stage of development</li> <li>or</li> <li>(b) it can be demonstrated that any shortfall in affordable housing will be accommodated in a subsequent stage or stages of development.</li> </ul>
PO 1.3 Affordable housing is distributed throughout the development to avoid an overconcentration.	DTS/DPF 1.3 None are applicable.
Built Form and Character	
PO 2.1 Affordable housing is designed to complement the design and character of residential development within the development area.	DTS/DPF 2.1 None are applicable.
Affordable Housing Incentives	
PO 3.1 To support the provision of affordable housing, minimum allotment sizes may be reduced below the minimum allotment size specified in a zone or relevant <i>Minimum Allotment Size Technical and Numeric Variation</i> while providing allotments of a suitable size and dimension to accommodate dwellings with a high standard of occupant amenity.	DTS/DPF 3.1 The minimum site area specified for a dwelling can be reduced by up to 20% where it is to be used to accommodate affordable housing.

<p>PO 3.2</p> <p>To support the provision of affordable housing, building heights may be increased above the maximum specified in a zone or based on the <i>Building Heights Technical and Numeric Variation Overlay</i>.</p>	<p>DTS/DPF 3.2</p> <p>Where a mixed use development or apartment building includes at least 15% affordable housing, the maximum building height specified in any relevant zone policy or in the <i>Building Height Technical and Numeric Variation Overlay</i> can be increased by 1 storey in the:</p> <ul style="list-style-type: none"> <li>(a) City Living Zone</li> <li>(b) General Neighbourhood Zone</li> <li>(c) Greenfield Neighbourhood Zone</li> <li>(d) Housing Diversity Neighbourhood Zone</li> <li>(e) Neighbourhood Zone</li> <li>(f) Suburban Masterplanned Neighbourhood Zone</li> <li>(g) Suburban Neighbourhood Zone</li> </ul> <p>and up to 30% in any other zone.</p>
Movement and Car Parking	
<p>PO 4.1</p> <p>Sufficient car parking is provided to meet the needs of occupants of affordable housing.</p>	<p>DTS/DPF 4.1</p> <p>Dwellings constituting affordable housing are provided with car parking in accordance with the following:</p> <ul style="list-style-type: none"> <li>(a) 0 carparks for an apartment</li> <li>(b) 1 carpark per dwelling for any other dwelling.</li> </ul>

### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Development for the purposes of the provision of affordable housing (applying the criteria determined under regulation 4 of the <i>South Australian Housing Trust Regulations 2010</i>).</p>	<p>Minister responsible for administering the <i>South Australian Housing Trust Act 1995</i>.</p>	<p>To provide direction on the conditions required to secure the provision of dwellings or allotments for affordable housing.</p>	<p>Development of a class to which Schedule 9 clause 3 item 20 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>

### Aircraft Noise Exposure Overlay

#### Assessment Provisions (AP)

Desired Outcome (DO)

<b>Desired Outcome</b>	
DO 1	Development sensitive to aircraft noise is designed and located to manage noise intrusion to reduce land use conflict and protect human health.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

<b>Performance Outcome</b>	<b>Deemed-to-Satisfy Criteria / Designated Performance Feature</b>
PO 1.1 Buildings that accommodate activities sensitive to aircraft noise are designed and located to minimise aircraft noise intrusion and provide appropriate interior acoustic amenity.	DTS/DPF 1.1 None are applicable.

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Airport Building Heights (Aircraft Landing Areas) Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

<b>Desired Outcome</b>	
DO 1	Management of potential impacts of buildings on the operational and safety requirements of aircraft landing areas.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

<b>Performance Outcome</b>	<b>Deemed-to-Satisfy Criteria / Designated Performance Feature</b>
	Built Form

<p>PO 1.1</p> <p>Building height does not pose a hazard to the operation of an aircraft landing area.</p>	<p>DTS/DPF 1.1</p> <p>The distance from any part of a runway centreline to the closest point of the building is greater than 30 times building height.</p>
---	--

**Airport Building Heights (Regulated) Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Management of potential impacts of buildings on the operational and safety requirements of registered and certified commercial and military airfields, airports, airstrips and helicopter landing sites.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Built Form	
<p>PO 1.1</p> <p>Building height does not pose a hazard to the operation of a certified or registered aerodrome.</p>	<p>DTS/DPF 1.1</p> <p>Building height does not exceed the Obstacle Limitations Surface (OLS) in the <i>Airport Building Heights (Regulated) Overlay</i>.</p>
<p>PO 1.2</p> <p>Development is adequately separated from runways and other operational facilities within certified or registered aerodromes to minimise the potential for building-generated turbulence and windshear.</p>	<p>DTS/DPF 1.2</p> <p>The distance from any part of a runway centreline to the closest point of the building is 35 times the building height or more.</p>

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body.<sup>3169</sup>

sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Building with a height that exceeds the Obstacle Limitation Surface.	The airport-operator company for the relevant airport within the meaning of the <i>Airports Act 1996</i> of the Commonwealth or, if there is no airport-operator company, the Secretary of the Minister responsible for the administration of the <i>Airports Act 1996</i> of the Commonwealth.	To provide expert assessment and direction to the relevant authority on potential impacts on the safety and operation of aviation activities.	Development of a class to which Schedule 9 clause 3 item 1 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

## Building Near Airfields Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Management of non-residential lighting and wildlife attraction impacts on the operational and safety requirements of certified commercial and military airfields, airports, airstrips and helicopter landing sites.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
PO 1.1 Outdoor lighting associated with a non-residential use does not pose a hazard to commercial or military aircraft operations.	DTS/DPF 1.1 Non-residential development does not include outdoor floodlighting.

<p>PO 1.2</p> <p>Development likely to attract wildlife is adequately separated from airfields to minimise the potential for aircraft wildlife strike.</p>	<p>DTS/DPF 1.2</p> <p>Development incorporating one or more of the following land uses is located not less than 3km from the boundaries of an airport used by commercial or military aircraft:</p> <ul style="list-style-type: none"> <li>(a) food packing/processing plant</li> <li>(b) horticulture</li> <li>(c) intensive animal husbandry</li> <li>(d) showground</li> <li>(e) waste management facility</li> <li>(f) waste transfer station</li> <li>(g) wetland</li> <li>(h) wildlife sanctuary.</li> </ul>

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Character Area Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

<b>Desired Outcome</b>	
DO 1	Valued streetscape characteristics are reinforced through contextually responsive development, design and adaptive reuse that responds to the attributes expressed in the Character Area Statement.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

<b>Performance Outcome</b>	<b>Deemed-to-Satisfy Criteria / Designated Performance Feature</b>
All Development	

<p>PO 1.1</p> <p>All development is undertaken having consideration to the valued attributes expressed in the Character Area Statement.</p>	<p>DTS/DPF 1.1</p> <p>None are applicable.</p>
Built Form	
<p>PO 2.1</p> <p>The form of new buildings and structures that are visible from the public realm are consistent with the valued streetscape characteristics of the character area.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
<p>PO 2.2</p> <p>Development is consistent with the prevailing building and wall heights in the character area.</p>	<p>DTS/DPF 2.2</p> <p>None are applicable.</p>
<p>PO 2.3</p> <p>Design and architectural detailing of street-facing buildings are consistent with the prevailing characteristics in the character area.</p>	<p>DTS/DPF 2.3</p> <p>None are applicable.</p>
<p>PO 2.4</p> <p>Development is consistent with the prevailing front and side boundary setback pattern in the character area.</p>	<p>DTS/DPF 2.4</p> <p>None are applicable.</p>
<p>PO 2.5</p> <p>Materials are either consistent with or complement those within the character area.</p>	<p>DTS/DPF 2.5</p> <p>None are applicable.</p>
Alterations and Additions	
<p>PO 3.1</p> <p>Additions and alterations do not adversely impact on the streetscape character.</p>	<p>DTS/DPF 3.1</p> <p>Additions and alterations:</p> <ul style="list-style-type: none"> <li>(a) are fully contained within the roof space of a building with no external alterations made to the building elevation facing the primary street or</li> <li>(b) do not include any development forward of the front façade building line and</li> <li>(c) any side or rear extensions are no closer to the side boundary than the existing building and are not visible from the primary street and</li> <li>(d) where including a second storey addition, the additions are not visible from the primary street assuming a 45 degree view angle measured from the primary frontage allotment boundary.</li> </ul>

PO 3.2 Encourage the adaptive reuse of buildings that complements the prevailing characteristics of the locality, by enabling complementary changes to buildings to accommodate new land uses.	DTS/DPF 3.2 None are applicable.
Ancillary Development	
PO 4.1 Ancillary development, including carports, outbuildings and garages, complements the character of the area and associated building(s).	DTS/DPF 4.1 None are applicable.
PO 4.2 Ancillary development, including carports, outbuildings and garages, is located behind the building line of the principal building(s).	DTS/DPF 4.2 None are applicable.
PO 4.3 Advertising and advertising hoardings are located and designed to complement the building, be unobtrusive, not conceal or obstruct significant architectural elements and detailing, or dominate the building or its setting.	DTS/DPF 4.3 None are applicable.
PO 4.4 Front fencing and gates are consistent with the traditional period, style and form of the associated built form.	DTS/DPF 4.4 None are applicable.
Land Division	
PO 5.1 Land division creates allotments that are capable of accommodating buildings of a bulk and scale that reflect existing buildings and setbacks in the character area.	DTS/DPF 5.1 None are applicable.
Context and Streetscape Amenity	
PO 6.1 The width of driveways and other vehicle access ways are consistent with the prevalent width of existing driveways in the character area.	DTS/DPF 6.1 None are applicable.
PO 6.2 Development maintains the valued landscape pattern and characteristics that contribute to the character area, except where they compromise safety, create nuisance, or impact adversely on existing buildings or infrastructure.	DTS/DPF 6.2 None are applicable.

**Character Area Statements**

Statement#	Statement		
TatC1	<p><b>Mundulla Character Area Statement (TatC1)</b></p> <p>Character Area Overlays identify localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis Report can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
	<table border="1"> <tr> <td data-bbox="193 584 719 674">Eras and themes</td> <td data-bbox="719 584 1546 674">Pre-1950.</td> </tr> </table>	Eras and themes	Pre-1950.

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Coastal Areas Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

## Desired Outcome

DO 1	The natural coastal environment (including environmentally important features such as mangroves, wetlands, saltmarsh, sand dunes, cliff tops, native vegetation, wildlife habitat, shore and estuarine areas) is conserved and enhanced; provision is made for natural coastal processes; and recognition is given to current and future coastal hazards including sea level rise, flooding erosion and dune drift to avoid the need, now and in the future, for public expenditure on protection of the environment and development.
------	---

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature	
Land Division		
PO 1.1 Land is divided only if it or the subsequent development and use of the land will not adversely affect the environmental values or ability of the land or adjoining land to adapt to changing coastal processes.	DTS/DPF 1.1 Land division for minor adjustment of allotment boundaries removes an anomaly in the current boundaries with respect to the location of buildings or structures.	
PO 1.2 Land is not divided unless a layout is achieved whereby roads, parking areas and development sites for each allotment are at least 0.3m above the standard sea flood risk level, unless the land has, or can be provided with, appropriate and acceptable coastal protection measures.	DTS/DPF 1.2 None are applicable.	
PO 1.3 Other than small-scale infill land division in a predominantly urban zone, land division adjacent to the coast incorporates an existing or proposed public reserve (not including a road or erosion buffer) of a size adequate to provide for natural coastal processes, public access and recreation.	DTS/DPF 1.3 None are applicable.	
Hazard Risk Minimisation		
PO 2.1 Buildings sited over tidal water or that are not capable of being raised or protected by flood protection measures in the future are protected against the standard sea flood risk level and 1m of sea level rise.	DTS/DPF 2.1 Building floor levels are at least 1.25m above the standard sea flood risk level.	
PO 2.2 Development, including associated roads and parking areas, but not minor structures unlikely to be adversely affected by flooding, is protected from the standard sea flood risk level and 1m of sea level rise.	DTS/DPF 2.2 Development incorporates finished ground and floor levels not less than: <table border="1" style="margin-left: auto; margin-right: auto;"> <tr> <td style="text-align: center;"><b>Finished Ground and Floor Levels</b></td> </tr> </table>	<b>Finished Ground and Floor Levels</b>
<b>Finished Ground and Floor Levels</b>

	Minimum finished ground level is 2.2m AHD; Minimum finished floor level is 2.45m AHD
	Minimum finished ground level is 1.75m AHD; Minimum finished floor level is 2m AHD
	In instances where no value is specified (i.e. there is a blank field): <ul style="list-style-type: none"> <li>(a) finished ground levels allow for sea level rise by being raised 0.3m or more above the standard sea flood risk level</li> <li>(b) finished floor levels are 0.55m or more above the standard sea flood risk level</li> <li>(c) practical measures can be implemented to provide future protection against an additional sea level rise of 0.7m plus an allowance to accommodate 100 years of land subsidence.</li> </ul>
PO 2.3 Development will not create or aggravate coastal erosion or require coast protection works that cause or aggravate coastal erosion.	DTS/DPF 2.3 None are applicable.

<p>PO 2.4</p> <p>Development is set back a sufficient distance from the coast to provide an erosion buffer in addition to a public reserve that will allow for at least 100 years of coastal retreat for single buildings or small-scale developments, or 200 years of coastal retreat for large scale developments unless:</p> <ul style="list-style-type: none"> <li>(a) the development incorporates appropriate private coastal protection measures to protect it from anticipated erosion</li> <li>or</li> <li>(b) there are formal commitments to protect the existing or proposed public reserve and development from anticipated coastal erosion.</li> </ul>	<p>DTS/DPF 2.4</p> <p>None are applicable.</p>
<p>PO 2.5</p> <p>Additions or alterations to, or replacement of, a dwelling do not increase the risk of effects from natural coastal processes such as flooding, sea-level rise, sand drift and erosion.</p>	<p>DTS/DPF 2.5</p> <p>None are applicable.</p>
<p>Coast Protection Works</p>	
<p>PO 3.1</p> <p>Development avoids the need for coast protection works through measures such as setbacks to protect development from coastal erosion, sea or stormwater flooding, sand drift or other coastal processes.</p>	<p>DTS/DPF 3.1</p> <p>None are applicable.</p>
<p>PO 3.2</p> <p>Development does not compromise the structural integrity of any sea wall or levee bank or the ability to maintain, modify or upgrade any sea wall or levee bank.</p>	<p>DTS/DPF 3.2</p> <p>None are applicable.</p>
<p>PO 3.3</p> <p>Unavoidable coast protection works are the subject of binding agreements to cover the cost of future construction, operation, maintenance and management measures and will not:</p> <ul style="list-style-type: none"> <li>(a) have an adverse effect on coastal ecology, processes, conservation, public access and amenity</li> <li>(b) require commitment of public resources including land</li> <li>(c) present an unacceptable risk of failure relative to potential hazard resulting from failure.</li> </ul>	<p>DTS/DPF 3.3</p> <p>None are applicable.</p>
<p>Environment Protection</p>	

<p>PO 4.1</p> <p>Development will not unreasonably affect the marine and onshore coastal environment by pollution, erosion, damage or depletion of physical or biological resources; interference with natural coastal processes; or the introduction of and spread of marine pests or any other means.</p>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>
<p>PO 4.2</p> <p>Development avoids delicate or environmentally sensitive coastal areas such as sand dunes, cliff tops, estuaries, wetlands or substantially intact strata of native vegetation.</p>	<p>DTS/DPF 4.2</p> <p>None are applicable.</p>
<p>PO 4.3</p> <p>Development allows for ecological and natural landform adjustment to changing climatic conditions and sea levels, by allowing landward migration of dunes, coastal wetlands, mangrove and samphire areas.</p>	<p>DTS/DPF 4.3</p> <p>None are applicable.</p>
<p>PO 4.4</p> <p>Development avoids, or in built up areas minimises, impacts on important habitat areas that support the nesting, breeding and movement/migration patterns of fauna, including threatened shorebirds.</p>	<p>DTS/DPF 4.4</p> <p>None are applicable.</p>
<p>PO 4.5</p> <p>Development is designed so that solid and fluid wastes are disposed of in a manner that avoids pollution or other detrimental impacts on the marine and on-shore environment of coastal areas.</p>	<p>DTS/DPF 4.5</p> <p>On-site wastewater systems are set back a minimum of 100m from the Mean High Water Mark at spring tide.</p>
<p>PO 4.6</p> <p>Development is designed so that stormwater runoff is disposed of in a manner that avoids pollution or other detrimental impacts on the marine and on-shore environment of coastal areas.</p>	<p>DTS/DPF 4.6</p> <p>None are applicable.</p>
<p>PO 4.7</p> <p>Development involving the removal of shell grit, cobbles or sand, other than for coastal protection works purposes, is not undertaken.</p>	<p>DTS/DPF 4.7</p> <p>Development does not involve the removal of shell grit or sand.</p>
Access	
<p>PO 5.1</p> <p>Development maintains or enhances appropriate public access to and along the foreshore.</p>	<p>DTS/DPF 5.1</p> <p>None are applicable.</p>

<p>PO 5.2</p> <p>Public access through sensitive coastal landforms, particularly sand dunes, wetlands and cliffs, is restricted to defined pedestrian paths and constructed to minimise adverse environmental impact.</p>	<p>DTS/DPF 5.2</p> <p>None are applicable.</p>
<p>PO 5.3</p> <p>Access roads to the coast, lookouts and places of interest:</p> <ul style="list-style-type: none"> <li>(a) do not detract from the amenity or the environment</li> <li>(b) are designed for slow-moving traffic</li> <li>(c) are minimised in number.</li> </ul>	<p>DTS/DPF 5.3</p> <p>None are applicable.</p>
<p>PO 5.4</p> <p>Development on land adjoining a coastal reserve is sited and designed to be compatible with the purpose, management and amenity of the reserve and to prevent inappropriate access to or use of the reserve.</p>	<p>DTS/DPF 5.4</p> <p>None are applicable.</p>

### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
---------------------------------	---------------	---------------------	---------------------

<p>Except where the development is, in the opinion of the relevant authority, minor in nature and would not warrant a referral when considering the purpose of the referral, the following:</p> <ul style="list-style-type: none"> <li>(a) excavation and/or filling where the total volume of material excavated and/or filled exceeds 9m<sup>3</sup></li> <li>(b) dwellings and habitable buildings that:             <ul style="list-style-type: none"> <li>(i) do not meet DTS/DPF 2.2 or</li> <li>(ii) are within 100m of the mean high water mark</li> </ul> </li> <li>(c) other than within a Rural Settlement Zone:             <ul style="list-style-type: none"> <li>(i) buildings with a floor area greater than 60m<sup>2</sup> or</li> <li>(ii) tourist accommodation, including a caravan park or</li> <li>(iii) division of land that would create 1 or more additional allotments</li> </ul> </li> <li>(d) off-shore structures</li> <li>(e) coast protection works</li> <li>(f) infrastructure within 100m landward of the mean high water mark.</li> </ul>	<p>Coast Protection Board.</p>	<p>To provide expert assessment and direction to the relevant authority on:</p> <ul style="list-style-type: none"> <li>• the risk to development from current and future coastal hazards (including sea-level rise, coastal flooding, erosion, dune drift and acid sulfate soils);</li> <li>• coast protection works;</li> <li>• potential impacts from development on public access and the coastal environment (including important coastal features).</li> </ul>	<p>Development of a class to which Schedule 9 clause 3 item 3 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>
--	--------------------------------	---	---

## Defence Aviation Area Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Management of potential impacts of buildings on the operational and safety requirements of Defence Aviation Areas.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Built Form	
<p>PO 1.1</p> <p>Building height does not pose a hazard to the operations of Defence Aviation Areas.</p>	<p>DTS/DPF 1.1</p> <p>Building height does not exceed the relevant height specified by the <i>Defence Aviation Area Overlay</i>.</p>

<p>PO 1.2</p> <p>Exhaust stacks are designed and sited to minimise plume impacts on the operations of Defence Aviation Areas.</p>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
<p>PO 1.3</p> <p>Buildings are adequately separated from airfields to minimise the potential for building-generated turbulence and windshear.</p>	<p>DTS/DPF 1.3</p> <p>The distance from any part of the runway centreline to the closest point of the building is greater than 35 times building height.</p>

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Procedural Matters (PM)**

Referrals			
Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Except where the development comprises a variation to an application that has previously:</p> <ul style="list-style-type: none"> <li>(a) been referred to the Government Architect or</li> <li>(b) been given development authorisation under the <i>Planning, Design and Infrastructure Act 2016</i> or <i>Development Act 1993</i>.</li> </ul> <p>any of the following classes of development:</p> <ul style="list-style-type: none"> <li>(a) development within the area of the overlay located within the Corporation of the City of Adelaide where the total amount to be applied to any work, when all stages of the development are completed, exceeds \$10,000,000</li> <li>(b) development within the area of the overlay located within the City of Port Adelaide Enfield where the total amount to be applied to any work, when all stages of the development are completed, exceeds \$3 000 000</li> <li>(c) development within all other areas of the overlay that involves the erection or construction of a building that exceeds 4 building levels.</li> </ul>	Government Architect.	<p>To provide expert design advice to the relevant authority on how the development:</p> <ul style="list-style-type: none"> <li>• responds to its surrounding context and contributes to the quality and character of a place</li> <li>• contributes to inclusiveness, connectivity, and universal design of the built environment</li> <li>• enables buildings and places that are fit for purpose, adaptable and long-lasting</li> <li>• contributes to desirable places and communities that promote investment</li> <li>• optimises performance and public benefit</li> <li>• supports sustainable and environmentally responsible development.</li> </ul>	<p>Development of a class to which Schedule 9 clause 3 item 22 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>

## Dwelling Excision Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

<b>Desired Outcome</b>	
DO 1	Creation of allotments to accommodate existing habitable dwellings in primary production areas is limited to avoid undermining primary production.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

<b>Performance Outcome</b>	<b>Deemed-to-Satisfy Criteria / Designated Performance Feature</b>
Land Division	
<p>PO 1.1</p> <p>Land division to create an additional allotment to accommodate an existing dwelling is limited to where it can be demonstrated that:</p> <ul style="list-style-type: none"> <li>(a) the dwelling is surplus to a productive land use</li> <li>(b) continuation of primary production land use will not be undermined</li> <li>(c) the dwelling existed prior to 1 December 2011</li> </ul>	<p>DTS/DPF 1.1</p> <p>No additional allotments are created.</p>
<p>PO 1.2</p> <p>Land division to create an allotment to accommodate a surplus dwelling:</p> <ul style="list-style-type: none"> <li>(a) results in an allotment that supports rural living for the surplus dwelling</li> <li>(b) ensures that all other allotments are of a size to support primary production.</li> </ul>	<p>DTS/DPF 1.2</p> <p>Land division creates no more than two allotments of which:</p> <ul style="list-style-type: none"> <li>(a) one allotment:                             <ul style="list-style-type: none"> <li>(i) is no less than 1 hectare and no greater than 4 hectares in area</li> <li>(ii) has no boundary that is closer than 40m to an existing dwelling</li> <li>(iii) has a driveway 'handle' of no more than 50 metres in length if it is of a battle-axe configuration</li> </ul> </li> <li>(b) the other allotment has an area not less than that identified in the Minimum Site Area Technical and Numeric Variation Overlay.</li> </ul>

### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

## Gateway Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	The visual amenity and streetscape appeal along prominent entrances into towns, tourist and historic precincts, activity centres and main streets is maintained and improved through the careful siting of buildings and other activities in a well landscaped setting.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Built Form and Character	
PO 1.1 Buildings are set back from main roads to support a consistent high-quality streetscape character where the prominence of larger buildings is appropriately mitigated.	DTS/DPF 1.1 Buildings are set back at least the height of the building and no less than 10m from arterial and main roads and highways, whichever is the greater.
PO 1.2 Building are set back from side boundaries to moderate the appearance of buildings and enhance the outlook from arterial and main roads and highways.	DTS/DPF 1.2 None are applicable.
PO 1.3 The main facade of principal buildings facing arterial and main roads and highways incorporate articulation and various materials to promote a high standard of building design and external appearance.	DTS/DPF 1.3 None are applicable.
Landscape Amenity	

<p>PO 2.1</p> <p>Ancillary buildings including carports, outbuildings and garages, other minor structures, waste storage bins and outdoor storage areas are sited to reduce visual clutter and untidiness from arterial and main roads and highways.</p>	<p>DTS/DPF 2.1</p> <p>Ancillary buildings including carports, outbuildings and garages, other minor structures, waste storage bins and outdoor storage areas are located:</p> <ul style="list-style-type: none"> <li>(a) behind principal building(s) facing arterial and main roads and highways or</li> <li>(b) behind the building line of principal building(s) and obscured from public view from arterial and main roads and highways by solid fencing or landscaping.</li> </ul>
<p>Landscaping</p>	
<p>PO 3.1</p> <p>Development incorporates generous landscaping areas along the frontage to arterial roads and highways to enhance visual amenity and complement associated buildings.</p>	<p>DTS/DPF 3.1</p> <p>None are applicable.</p>
<p>PO 3.2</p> <p>Existing mature on-site vegetation is retained and incorporated into landscape and parking areas to enhance the appearance of land and buildings.</p>	<p>DTS/DPF 3.2</p> <p>None are applicable.</p>
<p>PO 3.3</p> <p>Development incorporates generous landscaping areas along the frontage to arterial roads and landscaped using a combination of high crown evergreen trees, low shrubs and groundcovers to enhance visual amenity and complement the associated buildings.</p>	<p>DTS/DPF 3.3</p> <p>None are applicable.</p>
<p>PO 3.4</p> <p>Vehicle parking areas are located and designed to enhance the streetscape setting by:</p> <ul style="list-style-type: none"> <li>(a) being located to the side or rear of buildings facing arterial and main roads and highways</li> <li>(b) incorporating landscaping, including trees, to break up large parking areas.</li> </ul>	<p>DTS/DPF 3.4</p> <p>None are applicable.</p>
<p>Advertisements</p>	
<p>PO 4.1</p> <p>Advertisements along arterial and main roads, and highways are consistent in height, size and design to support a cohesive and uniform appearance in gateway locations without dominating the streetscape.</p>	<p>DTS/DPF 4.1</p> <p>Advertisements meet all of the following:</p> <ul style="list-style-type: none"> <li>(a) will not result in more than 1 advertisement per allotment</li> <li>(b) will not exceed 5 metres in height</li> <li>(c) do not exceed 3m<sup>2</sup> per advertising face</li> <li>(d) are not internally illuminated</li> <li>(e) are not animated, flash or move in any way.</li> </ul>

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

## Hazards (Acid Sulfate Soils) Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development is located and undertaken to minimise disturbance of potential or actual acid sulfate soils and / or the release of acid drainage.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development that involves excavation or a change to a water table where potential or actual acid sulfate soils are present is undertaken to minimise soil disturbance or drainage; prevent or minimise oxidation; and contain and treat any acid drainage to prevent harm or damage to the environment, primary production, buildings, structures and infrastructure or public health.	DTS/DPF 1.1 Development does not involve or cause:  (a) excavation of land (b) change to a water table.

### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

## Hazards (Bushfire - General Risk) Overlay

**Assessment Provisions (AP)**

Desired Outcome (DO)

<b>Desired Outcome</b>	
DO 1	Development, including land division responds to the general level of bushfire risk by siting and designing buildings in a manner that mitigates the threat and impact of bushfires on life and property taking into account the increased frequency and intensity of bushfires as a result of climate change.
DO 2	To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

<b>Performance Outcome</b>	<b>Deemed-to-Satisfy Criteria / Designated Performance Feature</b>
Siting	
PO 1.1 Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of:  (a) vegetation cover comprising trees and/or shrubs and/or unmanaged grasslands (b) poor access (c) rugged terrain (d) isolated location (e.g. more than 600m from a public road) (e) inability to provide an adequate asset protection zone (f) inability to provide a suitable site for an adequate supply of water for firefighting purposes.	DTS/DPF 1.1  None are applicable.
Built Form	
PO 2.1 Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts.	DTS/DPF 2.1  None are applicable.

<p>PO 2.2</p> <p>Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and Workers' accommodation) in the event of bushfire.</p>	<p>DTS/DPF 2.2</p> <p>None are applicable.</p>
<p>Habitable Buildings</p>	
<p>PO 3.1</p> <p>To minimise the threat, impact and exposure to bushfires on life and property, residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments and avoids steep slopes, especially:</p> <ul style="list-style-type: none"> <li>(a) upper slopes</li> <li>(b) narrow ridge crests and the tops of narrow gullies</li> <li>(c) slopes with a northerly or westerly aspect.</li> </ul>	<p>DTS/DPF 3.1</p> <p>None are applicable.</p>
<p>PO 3.2</p> <p>Residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation):</p> <ul style="list-style-type: none"> <li>(a) is sited away from vegetated areas that pose an unacceptable bushfire risk</li> <li>(b) minimises the need to clear native vegetation.</li> </ul>	<p>DTS/DPF 3.2</p> <p>Development meets the following requirements:</p> <ul style="list-style-type: none"> <li>(a) an asset protection zone with a minimum width of 50m already exists and can continue to be maintained around the accommodation</li> <li>(b) the asset protection zone is contained wholly within the allotment of the development.</li> </ul>
<p>PO 3.3</p> <p>Residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) has a dedicated area available that is capable of accommodating a bushfire protection system comprising firefighting equipment and water supply in accordance with <i>Ministerial Building Standard MBS 008 – Designated bushfire prone areas – additional requirements</i>.</p>	<p>DTS/DPF 3.3</p> <p>None are applicable.</p>
<p>Land Division</p>	
<p>PO 4.1</p> <p>Land division is designed to:</p> <ul style="list-style-type: none"> <li>(a) minimise fire risk danger to residents, other occupants of buildings and firefighting personnel</li> <li>(b) minimise the potential risk of damage to buildings and other property during a bushfire</li> <li>(c) ensure each allotment contains a suitable building envelope that is located away from any vegetation that would pose an unacceptable risk in the event of bushfire.</li> </ul>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>

<p>PO 4.2</p> <p>Land division is designed in accordance with Figure 1 to:</p> <ul style="list-style-type: none"> <li>(a) facilitate the movement of emergency vehicles through, within and out of bushfire risk areas</li> <li>(b) provide a mainly continuous street pattern serving new allotments that eliminates the use of cul-de-sacs or dead end roads. Where cul-de-sacs/dead end roads are proposed an alternative emergency evacuation route is provided</li> <li>(c) facilitate the safe and efficient evacuation of residents, visitors and other personnel during a bushfire event and do not rely on fire tracks as means of evacuation</li> <li>(d) include at least two separate entry/exit points where 10 or more allotments are proposed.</li> </ul>	<p>DTS/DPF 4.2</p> <p>None are applicable.</p>
<p>PO 4.3</p> <p>Land division ensures the provision of a bushfire buffer zone that isolates residential allotments from areas that pose an unacceptable bushfire risk by containing the allotments within a perimeter road and other means such as open parks and sporting areas that achieve adequate separation (Figure 1).</p>	<p>DTS/DPF 4.3</p> <p>None are applicable.</p>

Vehicle Access -Roads and Driveways

<p>PO 5.1</p> <p>Roads are designed and constructed to:</p> <ul style="list-style-type: none"> <li>(a) facilitate the safe and effective:             <ul style="list-style-type: none"> <li>(i) use, operation and evacuation of fire-fighting and emergency personnel</li> <li>(ii) evacuation of residents</li> </ul> </li> <li>(b) avoid the unnecessary clearance of native vegetation.</li> </ul>	<p>DTS/DPF 5.1</p> <p>Roads:</p> <ul style="list-style-type: none"> <li>(a) do not require the clearance of native vegetation</li> <li>(b) are constructed with a formed, all-weather surface</li> <li>(c) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road</li> <li>(d) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road</li> <li>(e) have a minimum formed road width of 6m</li> <li>(f) provide overhead clearance of not less than 4m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 2)</li> <li>(g) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 3)</li> <li>(h) incorporating cul-de-sac endings or dead end roads do not exceed 200m in length and the end of the road has either:             <ul style="list-style-type: none"> <li>(i) a turning area with a minimum formed surface radius of 12.5m (Figure 4)</li> <li>or</li> <li>(ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 5)</li> </ul> </li> <li>(i) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</li> </ul>
---	---

<p>PO 5.2</p> <p>Where the furthest point of the building from the nearest public road is greater than 30m, driveways are designed and constructed to:</p> <ul style="list-style-type: none"> <li>(a) facilitate the safe and effective:             <ul style="list-style-type: none"> <li>(i) use, operation and evacuation of fire-fighting and emergency personnel</li> <li>(ii) evacuation of residents</li> </ul> </li> <li>(b) avoid the unnecessary clearance of native vegetation.</li> </ul>	<p>DTS/DPF 5.2</p> <p>Driveways:</p> <ul style="list-style-type: none"> <li>(a) do not require the clearance of native vegetation</li> <li>(b) do not exceed 600m in length</li> <li>(c) are constructed with a formed, all-weather surface</li> <li>(d) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8)</li> <li>(e) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway</li> <li>(f) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the driveway</li> <li>(g) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 2)</li> <li>(h) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 6)</li> <li>(i) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 2)</li> <li>(j) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 3)</li> <li>(k) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by incorporating at the end of the driveway either:             <ul style="list-style-type: none"> <li>(i) a loop road around the building or</li> <li>(ii) a turning area with a minimum radius of 12.5m (Figure 4) or</li> <li>(iii) a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 5)</li> </ul> </li> <li>(l) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</li> </ul>

**Hazards (Bushfire - High Risk) Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

**Desired Outcome**

DO 1	<p>Development, including land division is sited and designed to minimise the threat and impact of bushfires on life and property with regard to the following risks:</p> <ul style="list-style-type: none"> <li>(a) potential for uncontrolled bushfire events taking into account the increased frequency and intensity of bushfires as a result of climate change</li> <li>(b) high levels and exposure to ember attack</li> <li>(c) impact from burning debris</li> <li>(d) radiant heat</li> <li>(e) likelihood and direct exposure to flames from a fire front.</li> </ul>
DO 2	<p>Activities that increase the number of people living and working in the area or where evacuation would be difficult is sited away from areas of unacceptable bushfire risk.</p>
DO 3	<p>To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger.</p>

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
<p>PO 1.1</p> <p>Development that significantly increases the potential for fire outbreak as a result of the spontaneous combustion of materials, spark generation or through the magnification and reflection of light is not located in areas of unacceptable bushfire risk.</p>	<p>DTS/DPF 1.1</p> <p>None are applicable.</p>
<p>PO 1.2</p> <p>Pre-schools, educational establishments, hospitals, retirement and supported accommodation are sited away from:</p> <ul style="list-style-type: none"> <li>(a) areas of unacceptable bushfire risk</li> <li>(b) locations where staff, children, students, residents and the public cannot be safely evacuated in the event of a bushfire.</li> </ul>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
Siting	

<p>PO 2.1</p> <p>Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of:</p> <ul style="list-style-type: none"> <li>(a) vegetation cover comprising trees and/or shrubs and/or unmanaged grasslands</li> <li>(b) poor access</li> <li>(c) rugged terrain</li> <li>(d) isolated location (more than 600m from a public road)</li> <li>(e) inability to provide an adequate asset protection zone</li> <li>(f) inability to provide a suitable site for an adequate supply of water for firefighting purpose</li> </ul>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
<p>Built Form</p>	
<p>PO 3.1</p> <p>Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts.</p>	<p>DTS/DPF 3.1</p> <p>None are applicable.</p>
<p>PO 3.2</p> <p>Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and Workers' accommodation) in the event of bushfire.</p>	<p>DTS/DPF 3.2</p> <p>None are applicable.</p>
<p>Habitable Buildings</p>	
<p>PO 4.1</p> <p>To minimise the threat, impact and potential exposure to bushfires on life and property, residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments and avoids steep slopes, especially:</p> <ul style="list-style-type: none"> <li>(a) upper slopes</li> <li>(b) narrow ridge crests and the tops of narrow gullies</li> <li>(c) slopes with a northerly or westerly aspect.</li> </ul>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>

<p>PO 4.2</p> <p>Residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation):</p> <ul style="list-style-type: none"> <li>(a) is sited away from vegetated areas that pose an unacceptable bushfire risk</li> <li>(b) minimises the need to clear native vegetation.</li> </ul>	<p>DTS/DPF 4.2</p> <p>Development meets the following requirements:</p> <ul style="list-style-type: none"> <li>(a) an asset protection zone with a minimum width of 100m already exists and can be maintained around the accommodation</li> <li>(b) the asset protection zone is contained wholly within the allotment of the development.</li> </ul>
<p>PO 4.3</p> <p>Residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) has a dedicated area available that:</p> <ul style="list-style-type: none"> <li>(a) is capable of accommodating a bushfire protection system comprising firefighting equipment and water supply in accordance with <i>Ministerial Building Standard MBS 008 – Designated bushfire prone areas – additional requirements</i></li> <li>(b) includes the provision of an all-weather hardstand area in a location that: <ul style="list-style-type: none"> <li>(i) allows fire-fighting vehicles to safely access the dedicated water supply and exit the site in a forward direction</li> <li>(ii) is no further than 6 metres from the dedicated water supply outlet(s).</li> </ul> </li> </ul>	<p>DTS/DPF 4.3</p> <p>None are applicable.</p>
<p>Land Division</p>	
<p>PO 5.1</p> <p>Land division for residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation):</p> <ul style="list-style-type: none"> <li>(a) is limited to those areas specifically set aside for these uses</li> <li>(b) ensures provision of a bushfire buffer zone that isolates residential allotments from areas that pose an unacceptable bushfire risk by containing the allotments within a perimeter road and use of other means such as open parks and sporting areas that achieve adequate separation (Figure 1).</li> </ul>	<p>DTS/DPF 5.1</p> <p>None are applicable.</p>
<p>PO 5.2</p> <p>Land division is designed to:</p> <ul style="list-style-type: none"> <li>(a) minimise fire risk danger to residents, other occupants of buildings and firefighting personnel</li> <li>(b) minimise the potential risk of damage to buildings and other property during a bushfire</li> <li>(c) ensure each allotment contains a suitable building envelope that is located away from any vegetation that would pose an unacceptable risk in the event of bushfire.</li> </ul>	<p>DTS/DPF 5.2</p> <p>None are applicable.</p>

<p>PO 5.3</p> <p>Land division is designed in accordance with Figure 1 to:</p> <ul style="list-style-type: none"> <li>(a) facilitate the movement of emergency vehicles through, within and out of bushfire risk areas</li> <li>(b) provide a mainly continuous street pattern serving new allotments that eliminates the use of cul-de-sacs or dead end roads. Where cul-de-sacs/dead end roads are proposed an alternative emergency evacuation route is provided</li> <li>(c) facilitate the safe and efficient evacuation of residents, visitors and other personnel during a bushfire event and not rely on fire tracks as a means of evacuation</li> <li>(d) include at least two separate entry/exit points where 10 or more allotments are proposed.</li> </ul>	<p>DTS/DPF 5.3</p> <p>None are applicable.</p>
<p>Vehicle Access -Roads and Driveways</p>	
<p>PO 6.1</p> <p>Roads are designed and constructed to:</p> <ul style="list-style-type: none"> <li>(a) facilitate the safe and effective: <ul style="list-style-type: none"> <li>(i) use, operation and evacuation of fire-fighting and emergency personnel</li> <li>(ii) evacuation of residents</li> </ul> </li> <li>(b) avoid the unnecessary clearance of native vegetation.</li> </ul>	<p>DTS/DPF 6.1</p> <p>Roads:</p> <ul style="list-style-type: none"> <li>(a) do not require the clearance of native vegetation</li> <li>(b) are constructed with a formed, all-weather surface</li> <li>(c) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road</li> <li>(d) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road</li> <li>(e) have a minimum formed road width of 6m</li> <li>(f) provide overhead clearance of not less than 4.0m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 2)</li> <li>(g) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 3)</li> <li>(h) incorporating cul-de-sac endings or dead end roads do not exceed 200m in length and the end of the road has either: <ul style="list-style-type: none"> <li>(i) a turning area with a minimum formed surface radius of 12.5m (Figure 4)</li> <li>or</li> <li>(ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 5)</li> </ul> </li> <li>(i) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</li> </ul>

<p>PO 6.2</p> <p>Where the furthest point of the building from the nearest public road is greater than 30m, driveways are designed and constructed to:</p> <ul style="list-style-type: none"> <li>(a) facilitate the safe and effective:             <ul style="list-style-type: none"> <li>(i) use, operation and evacuation of fire-fighting and emergency personnel</li> <li>(ii) evacuation of residents</li> </ul> </li> <li>(b) avoid the unnecessary clearance of native vegetation.</li> </ul>	<p>DTS/DPF 6.2</p> <p>Driveways:</p> <ul style="list-style-type: none"> <li>(a) do not require the clearance of native vegetation</li> <li>(b) do not exceed 600m in length</li> <li>(c) are constructed with a formed, all-weather surface</li> <li>(d) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8)</li> <li>(e) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway</li> <li>(f) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the driveway</li> <li>(g) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 2)</li> <li>(h) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 6)</li> <li>(i) provide overhead clearance of not less than 4m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 2)</li> <li>(j) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 3)</li> <li>(k) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by incorporating at the end of the driveway either:             <ul style="list-style-type: none"> <li>(i) a loop road around the building or</li> <li>(ii) a turning area with a minimum radius of 12.5m (Figure 4) or</li> <li>(iii) a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 5)</li> </ul> </li> <li>(l) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</li> </ul>

**Hazards (Bushfire - Medium Risk) Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

**Desired Outcome**

DO 1	Development, including land division responds to the medium level of bushfire risk and potential for ember attack and radiant heat by siting and designing buildings in a manner that mitigates the threat and impact of bushfires on life and property taking into account the increased frequency and intensity of bushfires as a result of climate change.
DO 2	To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

<b>Performance Outcome</b>	<b>Deemed-to-Satisfy Criteria / Designated Performance Feature</b>
Siting	
<p>PO 1.1</p> <p>Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of:</p> <ul style="list-style-type: none"> <li>(a) vegetation cover comprising trees and/or shrubs and/or unmanaged grasslands</li> <li>(b) poor access</li> <li>(c) rugged terrain</li> <li>(d) isolated location (e.g. more than 600m from a public road)</li> <li>(e) inability to provide an adequate asset protection zone</li> <li>(f) inability to provide a suitable site for an adequate supply of water for firefighting purposes.</li> </ul>	<p>DTS/DPF 1.1</p> <p>None are applicable.</p>
Built Form	
<p>PO 2.1</p> <p>Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
<p>PO 2.2</p> <p>Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and Workers' accommodation) in the event of bushfire.</p>	<p>DTS/DPF 2.2</p> <p>None are applicable.</p>
Habitable Buildings	

<p>PO 3.1</p> <p>To minimise the threat, impact and potential exposure to bushfires on life and property, residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments and avoids steep slopes, especially:</p> <ul style="list-style-type: none"> <li>(a) upper slopes</li> <li>(b) narrow ridge crests and the tops of narrow gullies</li> <li>(c) slopes with a northerly or westerly aspect.</li> </ul>	<p>DTS/DPF 3.1</p> <p>None are applicable.</p>
<p>PO 3.2</p> <p>Residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation):</p> <ul style="list-style-type: none"> <li>(a) is sited away from vegetated areas that pose an unacceptable bushfire risk</li> <li>(b) minimises the need to clear native vegetation.</li> </ul>	<p>DTS/DPF 3.2</p> <p>Development meets the following requirements:</p> <ul style="list-style-type: none"> <li>(a) an asset protection zone with a minimum width of 50m already exists and can continue to be maintained around the accommodation</li> <li>(b) the asset protection zone is contained wholly within the allotment of the development</li> </ul>
<p>PO 3.3</p> <p>Residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) has a dedicated area available that is capable of accommodating a bushfire protection system comprising firefighting equipment and water supply in accordance with <i>Ministerial Building Standard MBS 008 – Designated bushfire prone areas – additional requirements</i>.</p>	<p>DTS/DPF 3.3</p> <p>None are applicable.</p>
<p>Land Division</p>	
<p>PO 4.1</p> <p>Land division is designed to:</p> <ul style="list-style-type: none"> <li>(a) minimise fire risk danger to residents, other occupants of buildings and firefighting personnel</li> <li>(b) minimise the potential risk of damage to buildings and other property during a bushfire</li> <li>(c) ensure each allotment contains a suitable building envelope that is located away from any vegetation that would pose an unacceptable risk in the event of bushfire.</li> </ul>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>

<p>PO 4.2</p> <p>Land division designed in accordance with Figure 1 to:</p> <ul style="list-style-type: none"> <li>(a) facilitate the movement of emergency vehicles through, within and out of bushfire risk areas</li> <li>(b) provide a mainly continuous street pattern serving new allotments that eliminates the use of cul-de-sacs or dead end roads. Where cul-de-sacs/dead end roads are proposed an alternative emergency evacuation route is provided</li> <li>(c) facilitate the safe and efficient evacuation of residents, visitors and other personnel during a bushfire event and not rely on fire tracks as means of evacuation</li> <li>(d) include at least two separate entry/exit points where 10 or more allotments are proposed.</li> </ul>	<p>DTS/DPF 4.2</p> <p>None are applicable.</p>
<p>PO 4.3</p> <p>Land division will ensure provision of a bushfire buffer zone that isolates residential allotments from areas that pose an unacceptable bushfire risk by containing the allotments within a perimeter road and other means such as open parks and sporting areas that achieve adequate separation (Figure 1).</p>	<p>DTS/DPF 4.3</p> <p>None are applicable.</p>

Vehicle Access - Roads and Driveways

<p>PO 5.1</p> <p>Roads are designed and constructed to:</p> <ul style="list-style-type: none"> <li>a. facilitate the safe and effective:             <ul style="list-style-type: none"> <li>i. use, operation and evacuation of fire-fighting and emergency personnel</li> <li>ii. evacuation of residents                 <ul style="list-style-type: none"> <li>a. avoid the unnecessary clearance of native vegetation.</li> </ul> </li> </ul> </li> </ul>	<p>DTS/DPF 5.1</p> <p>Roads:</p> <ul style="list-style-type: none"> <li>(a) do not require the clearance of native vegetation</li> <li>(b) are constructed with a formed, all-weather surface</li> <li>(c) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road</li> <li>(d) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road</li> <li>(e) have a minimum formed road width of 6m</li> <li>(f) provide overhead clearance of not less than 4.0m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 2)</li> <li>(g) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 3)</li> <li>(h) incorporating cul-de-sac endings or dead end roads do not exceed 200m in length and the end of the road has either:             <ul style="list-style-type: none"> <li>(i) a turning area with a minimum formed surface radius of 12.5m (Figure 4)</li> <li>or</li> <li>(ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 5)</li> </ul> </li> <li>(i) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</li> </ul>
---	---

<p>PO 5.2</p> <p>Where the furthest point of the building from the nearest public road is greater than 30m, driveways are designed and constructed to:</p> <ul style="list-style-type: none"> <li>(a) facilitate the safe and effective:             <ul style="list-style-type: none"> <li>(i) use, operation and evacuation of fire-fighting and emergency personnel</li> <li>(ii) evacuation of residents</li> </ul> </li> <li>(b) avoid the unnecessary clearance of native vegetation.</li> </ul>	<p>DTS/DPF 5.2</p> <p>Driveways:</p> <ul style="list-style-type: none"> <li>(a) do not require the clearance of native vegetation</li> <li>(b) do not exceed 600m in length</li> <li>(c) are constructed with a formed, all-weather surface</li> <li>(d) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8)</li> <li>(e) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway</li> <li>(f) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the driveway</li> <li>(g) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 2)</li> <li>(h) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 6)</li> <li>(i) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 2)</li> <li>(j) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 3)</li> <li>(k) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by incorporating at the end of the driveway either:             <ul style="list-style-type: none"> <li>(i) a loop road around the building or</li> <li>(ii) a turning area with a minimum radius of 12.5m (Figure 4) or</li> <li>(iii) a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 5)</li> </ul> </li> <li>(l) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</li> </ul>

Built Form	
<p>PO 2.1</p> <p>Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
<p>PO 2.2</p> <p>Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) in the event of bushfire.</p>	<p>DTS/DPF 2.2</p> <p>None are applicable.</p>
Habitable Buildings	

<p>PO 3.1</p> <p>To minimise the threat, impact and exposure to bushfires on life and property, residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments and avoids steep slopes, especially:</p> <ul style="list-style-type: none"> <li>(a) upper slopes</li> <li>(b) narrow ridge crests and the tops of narrow gullies</li> <li>(c) slopes with a northerly or westerly aspect.</li> </ul>	<p>DTS/DPF 3.1</p> <p>None are applicable.</p>
<p>PO 3.2</p> <p>Residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers accommodation):</p> <ul style="list-style-type: none"> <li>(a) is sited away from vegetated areas that pose an unacceptable bushfire risk</li> <li>(b) minimises the need to clear native vegetation.</li> </ul>	<p>DTS/DPF 3.2</p> <p>Development meets the following requirements:</p> <ul style="list-style-type: none"> <li>(a) an asset protection zone with a minimum width of 50m already exists and can continue to be maintained around the accommodation</li> <li>(b) the asset protection zone is contained wholly within the allotment of the development.</li> </ul>
<p>PO 3.3</p> <p>Residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and Workers' accommodation) has a dedicated and accessible water supply available at all times for fire-fighting purposes.</p>	<p>DTS/DPF 3.3</p> <p>Development has a dedicated water supply available at all times for fire-fighting purposes:</p> <ul style="list-style-type: none"> <li>(a) comprising a minimum of 5000 litres</li> <li>(b) positioned in an accessible location and accompanied with necessary equipment to allow occupants to minimise the spread of bushfire to the accommodation.</li> </ul>
<p>Land Division</p>	
<p>PO 4.1</p> <p>Land division is designed to:</p> <ul style="list-style-type: none"> <li>(a) minimise fire risk danger to residents, other occupants of buildings and firefighting personnel</li> <li>(b) minimise the potential risk of damage to buildings and other property during a bushfire</li> <li>(c) ensure each allotment contains a suitable building envelope that is located away from any vegetation that would pose an unacceptable risk in the event of bushfire.</li> </ul>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>

<p>PO 4.2</p> <p>Land division designed in accordance with Figure 1 to:</p> <ul style="list-style-type: none"> <li>(a) facilitate the movement of emergency vehicles through, within and out of bushfire risk areas</li> <li>(b) provide a mainly continuous street pattern serving new allotments that eliminates the use of cul-de-sacs or dead end roads. Where cul-de-sacs/dead end roads are proposed an alternative emergency evacuation route is provided</li> <li>(c) facilitate the safe and efficient evacuation of residents, visitors and other personnel during a bushfire event and not rely on fire tracks as means of evacuation</li> <li>(d) include at least two separate entry/exit points where 10 or more allotments are proposed.</li> </ul>	<p>DTS/DPF 4.2</p> <p>None are applicable.</p>
<p>PO 4.3</p> <p>Land division will ensure provision of a bushfire buffer zone that isolates residential allotments from areas that pose an unacceptable bushfire risk by containing the allotments within a perimeter road and other means such as open parks and sporting areas that achieve adequate separation (Figure 1).</p>	<p>DTS/DPF 4.3</p> <p>None are applicable.</p>

Vehicle Access -Roads and Driveways

<p>PO 5.1</p> <p>Roads are designed and constructed to:</p> <ul style="list-style-type: none"> <li>(a) facilitate the safe and effective:             <ul style="list-style-type: none"> <li>(i) use, operation and evacuation of fire-fighting and emergency personnel</li> <li>(ii) evacuation of residents</li> </ul> </li> <li>(b) avoid the unnecessary clearance of native vegetation.</li> </ul>	<p>DTS/DPF 5.1</p> <p>Roads:</p> <ul style="list-style-type: none"> <li>(a) do not require the clearance of native vegetation</li> <li>(b) are constructed with a formed, all-weather surface</li> <li>(c) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road</li> <li>(d) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road</li> <li>(e) have a minimum formed road width of 6m</li> <li>(f) provide overhead clearance of not less than 4.0m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 2)</li> <li>(g) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 3)</li> <li>(h) incorporating cul-de-sac endings or dead end roads do not exceed 200m in length and the end of the road has either:             <ul style="list-style-type: none"> <li>(i) a turning area with a minimum formed surface radius of 12.5m (Figure 4)</li> <li>or</li> <li>(ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 5)</li> </ul> </li> <li>(i) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</li> </ul>
---	---

<p>PO 5.2</p> <p>Where the furthest point of the building from the nearest public road is greater than 30m, driveways are designed and constructed to:</p> <ul style="list-style-type: none"> <li>(a) facilitate the safe and effective:             <ul style="list-style-type: none"> <li>(i) use, operation and evacuation of fire-fighting and emergency personnel and</li> <li>(ii) evacuation of residents</li> </ul> </li> <li>(b) avoid the unnecessary clearance of native vegetation.</li> </ul>	<p>DTS/DPF 5.2</p> <p>Driveways:</p> <ul style="list-style-type: none"> <li>(a) do not require the clearance of native vegetation</li> <li>(b) do not exceed 600m in length</li> <li>(c) are constructed with a formed, all-weather surface</li> <li>(d) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8)</li> <li>(e) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway</li> <li>(f) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the driveway</li> <li>(g) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 2)</li> <li>(h) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 6)</li> <li>(i) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 2)</li> <li>(j) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 3)</li> <li>(k) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by incorporating at the end of the driveway either:             <ul style="list-style-type: none"> <li>(i) a loop road around the building or</li> <li>(ii) a turning area with a minimum radius of 12.5m (Figure 4) or</li> <li>(iii) a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 5)</li> </ul> </li> <li>(l) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</li> </ul>

## Hazards (Flooding) Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Impacts on people, property, infrastructure and the environment are minimised from exposure to flood hazard risk through the limitation of development intensification.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Division	
PO 1.1 Land division is limited to areas where the consequences to buildings and safety are low and can be readily managed or overcome.	DTS/DPF 1.1 Land division resulting in the creation of new allotments occurs outside of areas where flood depth would exceed 0.3m above natural ground level and flood velocity would exceed 0.3m per second during a 1% AEP flood event.
PO 1.2 Allotments can be connected to a public stormwater system capable of catering for a 1% AEP flood event.	DTS/DPF 1.2 None are applicable.
PO 1.3 Land is not divided unless a layout is achieved whereby roads, parking areas and development sites for each allotment are at least 0.3m above the 1% AEP flood event level, unless the land has, or can be provided with, flood protection measures that are appropriate and acceptable for the intended future land use.	DTS/DPF 1.3 None are applicable.
Land Use	

PO 2.1 Buildings housing vulnerable people, community services facilities, key infrastructure and emergency services are sited away from areas of unacceptable flood risk.	DTS/DPF 2.1 Pre-schools, educational establishments, retirement and supported accommodation, emergency services facilities, hospitals and prisons are located outside of the 1% AEP flood area.
Flood Resilience	
PO 3.1 Development avoids the need for flood protection works.	DTS/DPF 3.1 None are applicable.
PO 3.2 Development does not cause unacceptable impacts on any adjoining property by the diversion of flood waters or an increase in flood velocity or flood level, or cause an unacceptable loss of flood storage.	DTS/DPF 3.2 None are applicable.
PO 3.3 Development does not impede the flow of floodwaters through the allotment or the surrounding land.	DTS/DPF 3.3 Other than a recreation area or flood protection works associated with a regional flood mitigation scheme, development is located outside of the 5% AEP principal flow path.
PO 3.4 Buildings are sited, designed and constructed to prevent the entry of floodwaters in a 1% AEP flood event where the entry of floodwaters is likely to result in undue damage to, or compromise ongoing activities within, buildings.	DTS/DPF 3.4 Buildings comprise one of the following:  <ul style="list-style-type: none"> <li>(a) a porch or portico with at least 2 open sides</li> <li>(b) a verandah with at least 3 open sides</li> <li>(c) a carport or outbuilding with at least 2 open sides (whichever elevations face the direction of the flow)</li> <li>(d) any post construction with open sides</li> <li>(e) a building with a finished floor level that is at least 300mm above the height of a 1% AEP flood event.</li> </ul>
PO 3.5 Fences do not unreasonably impede floodwaters.	DTS/DPF 3.5 None are applicable.
Environmental Protection	
PO 4.1 Buildings and structures used either partly or wholly to contain or store hazardous materials are designed to prevent spills or leaks leaving the confines of the building during a 1% AEP flood event to avoid potential environmental harm.	DTS/DPF 4.1 Development involving the storage or disposal of hazardous materials is wholly located outside of the 1% AEP flood level.

PO 4.2 Development does not create or aggravate the potential for erosion or siltation or lead to the destruction of vegetation during a flood.	DTS/DPF 4.2 None are applicable.
Site Earthworks	
PO 5.1 The depth and extent of filling required to raise the finished floor level of a building does not cause unacceptable impact on any adjoining property by diversion of flood waters, an increase in flood velocity or flood level, or an unacceptable loss of flood storage.	DTS/DPF 5.1 None are applicable.
PO 5.2 Driveways, access tracks and parking areas are designed and constructed to minimise excavation and filling.	DTS/DPF 5.2 Filling for ancillary purposes:  (a) does not exceed 100mm above existing ground level (b) is no more than 5m wide.
Access	
PO 6.1 Development does not occur on land:  (a) from which evacuation to areas not vulnerable to flood risk is not possible during a 1% AEP flood event (b) which cannot be accessed by emergency services vehicles or essential utility service vehicles during a 1% AEP flood event.	DTS/DPF 6.1 None are applicable.
PO 6.2 Access driveways and tracks to significant development (i.e. dwellings, places of work, etc.) consist of a safe, all-weather trafficable surface that is accessible during a 1% AEP flood event.	DTS/DPF 6.2 None are applicable.

### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

### Heritage Adjacency Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development adjacent to State and Local Heritage Places maintains the heritage and cultural values of those Places.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Built Form	
PO 1.1 Development adjacent to a State or Local Heritage Place does not dominate, encroach on or unduly impact on the setting of the Place.	DTS/DPF 1.1 None are applicable.
Land Division	
PO 2.1 Land division adjacent to a State or Local Heritage Place creates allotments that are of a size and dimension that enables the siting and setbacks of new buildings from allotment boundaries so that they do not dominate, encroach or unduly impact on the setting of the Place.	DTS/DPF 2.1 None are applicable.

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Development that may materially affect the context of a State Heritage Place.	Minister responsible for the administration of the <i>Heritage Places Act 1993</i> .	To provide expert assessment and direction to the relevant authority on the potential impacts of development adjacent State Heritage Places.	Development of a class to which Schedule 9 clause 3 item 17 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

**Assessment Provisions (AP)**

Desired Outcome (DO)

<b>Desired Outcome</b>	
<b>DO 1</b>	Historic themes and characteristics are reinforced through conservation and contextually responsive development, design and adaptive reuse that responds to existing coherent patterns in streetscapes and built form as expressed in the Historic Area Statement.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

<b>Performance Outcome</b>	<b>Deemed-to-Satisfy Criteria / Designated Performance Feature</b>
All Development	
<b>PO 1.1</b> All development is undertaken having consideration to the historic streetscapes and built form as expressed in the Historic Area Statement.	<b>DTS/DPF 1.1</b> None are applicable.
Built Form	
<b>PO 2.1</b> The form of new buildings and structures that are visible from the public realm are consistent with the prevailing historic attributes and characteristics of the historic area.	<b>DTS/DPF 2.1</b> None are applicable.
<b>PO 2.2</b> Development is consistent with the prevailing building and wall heights in the historic area.	<b>DTS/DPF 2.2</b> None are applicable.
<b>PO 2.3</b> Design and architectural detailing of street-facing buildings complement the prevailing characteristics in the historic area.	<b>DTS/DPF 2.3</b> None are applicable.
<b>PO 2.4</b> Development is consistent with the prevailing front and side boundary setback pattern in the historic area.	<b>DTS/DPF 2.4</b> None are applicable.

<p>PO 2.5</p> <p>Materials are consistent with or complement those within the historic area.</p>	<p>DTS/DPF 2.5</p> <p>None are applicable.</p>
<p>Alterations and additions</p>	
<p>PO 3.1</p> <p>Alterations and additions complement the subject building, employ a contextual design approach and are sited to ensure they do not dominate the primary façade.</p>	<p>DTS/DPF 3.1</p> <p>Alterations and additions are fully contained within the roof space of an existing building with no external alterations made to the building elevation facing the primary street.</p>
<p>PO 3.2</p> <p>The adaptive reuse of buildings that complement the prevailing historic values and character of the locality is encouraged by enabling complementary changes to buildings to accommodate new land uses.</p>	<p>DTS/DPF 3.2</p> <p>None are applicable.</p>
<p>Ancillary development</p>	
<p>PO 4.1</p> <p>Ancillary development, including carports, outbuildings and garages, complements the historic character of the area and associated buildings.</p>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>
<p>PO 4.2</p> <p>Ancillary development, including carports, outbuildings and garages, is located behind the building line of the principal building(s) and does not dominate the building or its setting.</p>	<p>DTS/DPF 4.2</p> <p>None are applicable.</p>
<p>PO 4.3</p> <p>Advertising and advertising hoardings are located and designed to complement the building, be unobtrusive, not conceal or obstruct significant architectural elements and detailing, or dominate the building or its setting.</p>	<p>DTS/DPF 4.3</p> <p>None are applicable.</p>
<p>PO 4.4</p> <p>Front fencing and gates are consistent with the traditional period, style and form of the associated built form.</p>	<p>DTS/DPF 4.4</p> <p>None are applicable.</p>
<p>Land Division</p>	
<p>PO 5.1</p> <p>Land division creates allotments that are capable of accommodating buildings of a bulk and scale that reflect existing buildings and setbacks in the historic area.</p>	<p>DTS/DPF 5.1</p> <p>None are applicable.</p>
<p>Context and Streetscape Amenity</p>	

<p>PO 6.1</p> <p>The width of driveways and other vehicle access ways are consistent with the prevailing width of existing driveways of the historic area.</p>	<p>DTS/DPF 6.1</p> <p>None are applicable.</p>
<p>PO 6.2</p> <p>Development maintains the valued landscape patterns and characteristics that contribute to the historic area, except where they compromise safety, create nuisance, or impact adversely on buildings or infrastructure.</p>	<p>DTS/DPF 6.2</p> <p>None are applicable.</p>
<p>Demolition</p>	
<p>PO 7.1</p> <p>Buildings and structures that demonstrate the historic characteristics as expressed in the Historic Area Statement are not demolished, unless:</p> <ul style="list-style-type: none"> <li>(a) the front elevation of the building has been substantially altered and cannot be reasonably, economically restored in a manner consistent with the building's original style or</li> <li>(b) the building façade does not contribute to the historic character of the streetscape or</li> <li>(c) the structural integrity or condition of the building is beyond economic repair.</li> </ul>	<p>DTS/DPF 7.1</p> <p>None are applicable.</p>
<p>PO 7.2</p> <p>Partial demolition of a building where that portion to be demolished does not contribute to the historic character of the streetscape.</p>	<p>DTS/DPF 7.2</p> <p>None are applicable.</p>
<p>PO 7.3</p> <p>Buildings or elements of buildings that do not conform with the values described in the historic area statement may be demolished.</p>	<p>DTS/DPF 7.3</p> <p>None are applicable.</p>
<p>Ruins</p>	
<p>PO 8.1</p> <p>Development conserves and complements features and ruins associated with former activities of significance, including those associated with mining, farming and industry.</p>	<p>DTS/DPF 8.1</p> <p>None are applicable.</p>

**Historic Area Statements**

Statement#	Statement
------------	-----------

Mar1

**Worthing Mine Historic Area Statement (Mar1)**

Historic Area Overlays identify localities that comprise unified, consistent characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of a Heritage Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

Eras and themes	1850/51.  Structures and workings associated with Worthing Mine site.
Allotments and subdivision patterns	Sited in the steep valley of the Field River.
Architectural features	Mine, Chimney and Pumphouse/Enginehouse associated with copper mining. (Oldest surviving Cornish enginehouse in Australia).
Building height	<i>[Not stated]</i>
Materials	Random rubble with timber lintels.
Fencing	<i>[Not stated]</i>
Setting and public realm features	Sited in the steep valley of the Field River amongst undulating grassland.  Recent housing development is located to the north, west and east of the site (200m plus in distance).  Views to the Worthing Mine are available from parts of the adjacent residential areas.

RO1	Allotments and subdivision patterns	<p>Topography shapes the setting of Robe and land division pattern. Royal Circus is a low knoll. It is a commemorative landmarks and a distinct road feature. There is a legible connection between Royal Circus, the sea wall / jetty abutment, the Customs House and the Post and Telegraph Office. Main Road, Victoria Street and Mundy Street form the main line of road to the port and the main street. The traditional street grid pattern extends either side of Victoria Street, to the coastal fore-dune and across the ridge to the south which overlooks and forms the backdrop to the township.</p> <p>Most of the original large square allotments have been subdivided but the pattern of historic buildings remains legible.</p>
	Architectural features	<p>Traditional stone commercial buildings with shopfronts, parapets and verandahs within the town centre. The variety rather than the consistency of traditional building forms is a distinct characteristic of Robe. Small workers' cottages on large allotments, often with low walls, hipped roofs spanning one or two rooms, casement windows and lime-washed or natural stone walls. Heritage listed community buildings (the primary school, churches and the Institute) are on prominent sites and remain as strong landmarks. Heritage-listed government buildings (the Post and Telegraph Office, Customs House and Court House) dominate Royal Circus. Massive stone chimneys are a characteristic feature of the historic buildings. Stone outbuildings are visible from public streets. Roof pitches between 25-35 degrees. Roofs with a high degree of articulation, steep pitches and small spans, provide a unique roofscape across Robe to Guichen Bay. Older buildings have casement windows. Later buildings have double-hung timber sash windows.</p>
	Building height	<p>Two storey buildings along small section of Smillie Street, and hotels. Their built form combines double and single storey elements and verandahs, articulating their bulk and scale. Adjacent buildings differ in style, creating a varied rather than a consistent skyline. Other historic buildings generally single storey, with small span hipped roofs. Building floor levels are close to, step with or are built into, the slope of the land.</p>
	Materials	<p>Local stone, limestone, rendered and bagged masonry with painted or lime wash finish. Painted timber weatherboard, painted timber joinery, trims, verandahs, barges and fascias. Galvanised and painted corrugated iron roofing. Some examples of slate and traditional flat metal roof tiles. Driveway materials are neutral in colour and pattern with natural finishes.</p>
	Fencing	<p>Local stone, hardwood palings and pickets, hardwood and woven wire, brush with round hardwood posts and hedges not exceeding 1.2m.</p>
	Setting and public realm features	<p>Views and vistas of the entrance to the town centre along Main Road past Lake Fellmongery and Lake Charra. Views of the foreshore area adjacent Town Beach and streetscapes of historic buildings of Smillie Street and Mundy Terrace. Views across the area illustrate the importance of native vegetation and the distinct character of the roof designs of historic buildings. Historic buildings square to and often close to street alignments, particularly on Smillie Street. Minimal breaks between buildings except where access to the rear of a site is provided. Streets, verges and reserves in the public realm characterised by Lakestone kerbing, limestone cuttings, landmark trees (Norfolk Island Pines in particular) and native vegetation. Important public open space reserves that frame the township at Lannum Reserve, the Institute / Town Beach Foreshore, Royal Circus and the southern edge of Lake Butler. Each has a distinct landscape structure, planting character and historic quality.</p>

Desired Outcome (DO)

**Desired Outcome**

DO 1	Historic shipwrecks and historic relics are protected from encroaching development.
------	---

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
General	
PO 1.1 Development is located and designed to avoid potential impacts on historic shipwrecks and historic relics.	DTS/DPF 1.1 Development involving impact to the surface or subsoil of land or sea/river floor is not located: <ul style="list-style-type: none"> <li>(a) seaward of the mean high water mark</li> <li>or</li> <li>(b) within 15m landward of the banks of the River Murray.</li> </ul>

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Development that may involve impact to the surface or subsoil of land or the floor of a sea, lake or river.	Minister responsible for the administration of the <i>Historic Shipwrecks Act 1981</i> .	To provide expert assessment and direction to the relevant authority on the potential impacts of development on, or in proximity to, historic shipwrecks or relics protected under the relevant Act.	Development of a class to which Schedule 9 clause 3 item 5 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

<p>Development that may involve impact to the surface or subsoil of land or sea floor, where located partly or fully within the 'adjacent area' of a historic shipwreck or historic relic within the meaning of the <i>Underwater Cultural Heritage Act 2018</i> (Commonwealth) as shown on the Historic Shipwrecks Overlay.</p>	<p>Commonwealth Minister responsible for the administration of the <i>Underwater Cultural Heritage Act 2018 of the Commonwealth</i>.</p>	<p>To provide expert assessment and direction to the relevant authority on the potential impacts of development on, or in proximity to, historic shipwrecks or relics protected under the relevant Act.</p>	<p>Development of a class to which Schedule 9 clause 3 item 6 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>
--	--	---	---

## Key Outback and Rural Routes Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

<h2 style="text-align: center;">Desired Outcome</h2>	
DO 1	Safe and efficient movement of vehicle and freight traffic on key outback and rural routes.
DO 2	Provision of safe and efficient vehicular access to and from key outback and rural routes.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

<h2 style="text-align: center;">Performance Outcome</h2>	<h2 style="text-align: center;">Deemed-to-Satisfy Criteria / Designated Performance Feature</h2>
<p>Access - Safe Entry and Exit (Traffic Flow)</p>	

<p>PO 1.1</p> <p>Access points are designed to allow safe entry and exit to and from a site to meet the needs of development, to ensure traffic flow interference associated with access movements is minimised.</p>	<p>DTS/DPF 1.1</p> <p>Access points:</p> <ul style="list-style-type: none"> <li>(a) are designed to ensure, for the largest vehicles expected to access the site:             <ul style="list-style-type: none"> <li>(i) the entry and exit movements:                 <ul style="list-style-type: none"> <li>A. are left turns only</li> <li>or</li> <li>B. will comprise no greater than 5 right turn vehicle entry movements per hour</li> </ul> </li> <li>(ii) access to and from the site is in a forward direction, with on-site manoeuvring available through circulation around the site requiring no more than a 3-point turn</li> <li>(iii) vehicles cross the property boundary at an angle between 70 and 90 degrees</li> <li>(iv) access to and from the site using the kerbside lane of the road</li> </ul> </li> <li>(b) have a width of:             <ul style="list-style-type: none"> <li>(i) no more than 4m and no less than 3m (measured at the site boundary) where the access point services is intended to service a single dwelling</li> <li>(ii) at least 6m (measured at the site boundary) where vehicles 12.5m or less in length are expected to access the site and where the access point services or is intended to service development other than a single dwelling</li> <li>(iii) at least 8m (measured at the site boundary) where vehicles over 12.5m in length are expected to access the site and where the access point services or is intended to service development other than a single dwelling</li> </ul> </li> <li>(c) are located 10m or more from any roadside infrastructure or trees.</li> </ul>
--	---

Access - On-Site Queuing

<p>PO 2.1</p> <p>Sufficient accessible on-site queuing adjacent to access points is provided to meet the needs of development so that all vehicle queues when entering the site are contained fully within the boundaries of the development site to minimise interruption of the functional performance of the road and safe vehicle movement.</p>	<p>DTS/DPF 2.1</p> <p>An access point:</p> <ul style="list-style-type: none"> <li>(a) will be used by vehicles no greater than 12.5m in length and is not connected to internal intersections, car parking spaces, car park isles or any internal obstructions within 20m of the access point</li> <li>or</li> <li>(b) will serve a single dwelling and there are no internal driveway intersections, car parking spaces or gates within 6m of the access point.</li> </ul>
---	---

Access - Existing Access Points

<p>PO 3.1</p> <p>Existing access points are designed to accommodate the type and volume of traffic likely to be generated by development.</p>	<p>DTS/DPF 3.1</p> <p>An existing access point:</p> <ul style="list-style-type: none"> <li>(a) will not service and is not intended to service more than 6 dwellings</li> <li>(b) will not service:             <ul style="list-style-type: none"> <li>(i) an increase in traffic that is greater than 150% of the traffic volumes using the existing access prior to the development or 60 vehicles per day (whichever is the lesser) or</li> <li>(ii) a larger class of vehicle expected to access the site using the existing access.</li> </ul> </li> </ul>
---	---

Access - Location (Spacing)

<p>PO 4.1</p> <p>New access points are appropriately spaced apart from any existing access point or public road junction to not impede traffic flow and ensure safe and efficient road operating conditions.</p>	<p>DTS/DPF 4.1</p> <p>Where access from an alternative road at least 25m from a key outback and rural route is not available, a new access point is:</p> <ul style="list-style-type: none"> <li>(a) not located on a section affected by double barrier lines between either edge of the access point</li> <li>(b) at least the following distance from a public road junction or railway, or terminating / merging lane or another access point:             <ul style="list-style-type: none"> <li>(i) 110 km/h road - 325m</li> <li>(ii) 100 km/h road - 280m</li> <li>(iii) 90 km/h road - 240m</li> <li>(iv) 80 km/h road - 200m</li> <li>(v) 70 km/h road - 165m</li> <li>(vi) 60 km/h road - 135m</li> <li>(vii) 50km/h or less road - 105m.</li> </ul> </li> </ul>
--	--

Access - Location (Sight Lines)

<p>PO 5.1</p> <p>Access points are located and designed to ensure appropriate sight distances are provided so that drivers:</p> <ul style="list-style-type: none"> <li>(a) on the road approaching the access point are able to recognise the presence of the access point and/or see a vehicle turning into or out of the access point in time to slow down or stop in a safe and controlled manner</li> <li>(b) exiting the access point onto the road can see approaching vehicles.</li> </ul>	<p>DTS/DPF 5.1</p> <p>Lines of sight to and from a new access point for drivers approaching and exiting the site of the development are unobstructed in accordance with the following distances:</p> <ul style="list-style-type: none"> <li>(a) 110 km/h road - 325m</li> <li>(b) 100 km/h road - 280m</li> <li>(c) 90 km/h road - 240m</li> <li>(d) 80 km/h road - 200m</li> <li>(e) 70 km/h road - 165m</li> <li>(f) 60 km/h road - 135m</li> <li>(g) 50km/h or less road - 105m.</li> </ul>
<p>Access - Mud and Debris</p>	
<p>PO 6.1</p> <p>Access points are constructed to minimise mud or other debris being carried or transferred onto roads to ensure safe road operating conditions.</p>	<p>DTS/DPF 6.1</p> <p>An access point:</p> <ul style="list-style-type: none"> <li>(a) intersects with an unsealed length of a key outback and rural route or</li> <li>(b) will service a single dwelling or</li> <li>(c) is spray sealed from the key outback and rural route to a point not less than 10m into the site.</li> </ul>
<p>Access - Stormwater</p>	
<p>PO 7.1</p> <p>Access points are designed to minimise negative impact on roadside drainage of water.</p>	<p>DTS/DPF 7.1</p> <p>Development does not:</p> <ul style="list-style-type: none"> <li>(a) decrease the capacity of an existing drainage point</li> <li>(b) restrict or prevent the flow of stormwater to an existing drainage point and system.</li> </ul>
<p>Public Road Junctions</p>	
<p>PO 8.1</p> <p>New junctions with a public road (including the opening of unmade public road junctions) or modifications to existing road junctions are located and designed to ensure safe operating conditions are maintained on Key Outback and Rural Routes.</p>	<p>DTS/DPF 8.1</p> <p>Development does not involve the creation of a new junction with a public road, opening of an unmade public road junction, or modification to an existing public road junction.</p>

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Except where all of the relevant deemed-to-satisfy criteria are met, development (including the division of land) that involves any of the following to/on a Key Outback or Rural Routes Road or within 25 metres of an intersection with any such road:</p> <ul style="list-style-type: none"> <li>(a) creation of a new access or junction</li> <li>(b) alterations to an existing access or public road junction (except where deemed to be minor in the opinion of the relevant authority)</li> <li>(c) development that changes the nature of vehicular movements or increase the number or frequency of movements through an existing access (except where deemed to be minor in the opinion of the relevant authority).</li> </ul>	<p>Commissioner of Highways.</p>	<p>To provide expert technical assessment and direction to the Relevant Authority on the safe and efficient operation and management of all roads relevant to the Commissioner of Highways as described in the Planning and Design Code.</p>	<p>Development of a class to which Schedule 9 clause 3 item 7 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>

## Key Railway Crossings Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Safe, efficient and uninterrupted operation of key railway crossings.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Access, Design and Function	

<p>PO 1.1</p> <p>Site access does not interfere or impact on the safe operation of a railway crossing.</p>	<p>DTS/DPF 1.1</p> <p>Development does not involve a new or modified access or an increase in traffic through an existing access that is located within the following distance from a railway crossing:</p> <ul style="list-style-type: none"> <li>(a) 110 km/h road - 190m</li> <li>(b) 100 km/h road - 165m</li> <li>(c) 90 km/h road - 140m</li> <li>(d) 80 km/h road - 110m</li> <li>(e) 70 km/h road - 90m</li> <li>(f) 60 km/h road - 70m</li> <li>(g) 50km/h or less road - 50m</li> </ul>
--	---

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Limited Dwelling Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Establishment of additional dwellings in primary production areas is limited to avoid undermining primary production.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
<p>PO 1.1</p> <p>Development does not result in the establishment of an additional dwelling.</p>	<p>DTS/DPF 1.1</p> <p>A new dwelling replaces an existing dwelling within the same allotment.</p>

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

## Limited Land Division Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	The intensification of development is limited by constraining opportunities for the division of land.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
General	
PO 1.1 Land division does not result in the creation of an additional allotment.	DTS/DPF 1.1 No additional allotments are created.
PO 1.2 Land division involving boundary realignments occurs only where the number of resulting allotments with a site area less than that specified in the relevant Zone is not greater than the number that existed prior to the realignment.	DTS/DPF 1.2 None are applicable.

### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

## Local Heritage Place Overlay

**Assessment Provisions (AP)**

Desired Outcome (DO)

<b>Desired Outcome</b>	
<b>DO 1</b>	Development maintains the heritage and cultural values of Local Heritage Places through conservation, ongoing use and adaptive reuse.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

<b>Performance Outcome</b>	<b>Deemed-to-Satisfy Criteria / Designated Performance Feature</b>
Built Form	
PO 1.1 The form of new buildings and structures maintains the heritage values of the Place.	DTS/DPF 1.1 None are applicable.
PO 1.2 Massing and scale of development maintains the heritage values of the Place.	DTS/DPF 1.2 None are applicable.
PO 1.3 Design and architectural detailing maintains the heritage values of the Place.	DTS/DPF 1.3 None are applicable.
PO 1.4 Development is consistent with boundary setbacks and setting.	DTS/DPF 1.4 None are applicable.
PO 1.5 Materials and colours are consistent with or complement the heritage values of the Place.	DTS/DPF 1.5 None are applicable.
PO 1.6 New buildings are not placed or erected between the front street boundary and the façade of a Local Heritage Place.	DTS/DPF 1.6 None are applicable.

PO 1.7 Development of a Local Heritage Place retains elements contributing to its heritage value.	DTS/DPF 1.7 None are applicable.
Alterations and Additions	
PO 2.1 Alterations and additions complement the subject building and are sited to be unobtrusive, not conceal or obstruct heritage elements and detailing, or dominate the Place or its setting.	DTS/DPF 2.1 None are applicable.
PO 2.2 The adaptive reuse of Local Heritage Places is encouraged by enabling compatible changes to buildings to accommodate new land uses.	DTS/DPF 2.2 None are applicable.
Ancillary Development	
PO 3.1 Ancillary development, including carports, outbuildings and garages, complements the heritage values of the Place.	DTS/DPF 3.1 None are applicable.
PO 3.2 Ancillary development, including carports, outbuildings and garages, is located behind the building line of the principle building(s).	DTS/DPF 3.2 None are applicable.
PO 3.3 Advertising and advertising hoardings are designed to complement the Local Heritage Place, be unobtrusive, not conceal or obstruct heritage elements and detailing, or dominate the building or its setting.	DTS/DPF 3.3 None are applicable.
Land Division	
PO 4.1 Land division creates allotments that:  (a) are compatible with the surrounding pattern of subdivision of the Local Heritage Place  (b) are of a dimension to accommodate new development that reinforces and is compatible with the heritage values of the Local Heritage Place.	DTS/DPF 4.1 None are applicable.
Landscape Context and Streetscape Amenity	

<p>PO 5.1</p> <p>Individually heritage listed trees, parks, historic gardens and memorial avenues are retained unless:</p> <p>(a) trees / plantings are, or have the potential to be, a danger to life or property or</p> <p>(b) trees / plantings are significantly diseased and their life expectancy is short.</p>	<p>DTS/DPF 5.1</p> <p>None are applicable.</p>
<p>Demolition</p>	
<p>PO 6.1</p> <p>Local Heritage Places are not demolished, destroyed or removed in total or in part unless:</p> <p>(a) the portion of the Place to be demolished, destroyed or removed is excluded from the extent of listing that is of heritage value or</p> <p>(b) the structural integrity or condition of the building represents an unacceptable risk to public or private safety and is irredeemably beyond repair.</p>	<p>DTS/DPF 6.1</p> <p>None are applicable.</p>
<p>PO 6.2</p> <p>The demolition, destruction or removal of a building, portion of a building or other feature or attribute is appropriate where it does not contribute to the heritage values of the Place.</p>	<p>DTS/DPF 6.2</p> <p>None are applicable.</p>
<p>Conservation Works</p>	
<p>PO 7.1</p> <p>Conservation works to the exterior of a Place (and other features identified in the extent of listing) match existing materials to be repaired and utilise traditional work methods.</p>	<p>DTS/DPF 7.1</p> <p>None are applicable.</p>

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Marine Parks (Managed Use) Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

<b>Desired Outcome</b>	
DO 1	Marine habitats and biodiversity are protected through limiting development to coastal infrastructure (jetties, marinas, pontoons), aquaculture, tourism, recreation and renewable energy facilities.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

<b>Performance Outcome</b>	<b>Deemed-to-Satisfy Criteria / Designated Performance Feature</b>
Land Use	
PO 1.1 Development avoids or minimises harm to marine habitats, biodiversity or the functioning of ecosystems.	DTS/DPF 1.1 None are applicable.

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Marine Parks (Restricted Use) Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

<b>Desired Outcome</b>	
DO 1	High value marine habitats and biological diversity are protected.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

<b>Performance Outcome</b>	<b>Deemed-to-Satisfy Criteria / Designated Performance Feature</b>
----------------------------	--

Land Use	
PO 1.1 Development is limited to that required to support the ongoing operation of ports and harbours.	DTS/DPF 1.1 None are applicable.

### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

## Murray-Darling Basin Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Sustainable water use in the Murray-Darling Basin area.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
PO 1.1 All development, but in particular development involving:  <ul style="list-style-type: none"> <li>(a) horticulture</li> <li>(b) activities requiring irrigation</li> <li>(c) aquaculture</li> <li>(d) industry</li> <li>(e) intensive animal husbandry</li> <li>(f) horse keeping</li> <li>(g) commercial forestry</li> </ul> has a lawful, sustainable and reliable water supply that does not place undue strain on water resources in the Murray-Darling Basin.	DTS/DPF 1.1 None are applicable.

### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It

sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Any of the following classes of development that require, or may require water to be taken from the River Murray within the meaning of the <i>River Murray Act 2003</i> under a water licence required under the <i>Landscape South Australia Act 2019</i>:</p> <ul style="list-style-type: none"> <li>(a) horticulture</li> <li>(b) activities requiring irrigation</li> <li>(c) aquaculture</li> <li>(d) industry</li> <li>(e) intensive animal husbandry</li> <li>(f) horse keeping</li> <li>(g) commercial forestry.</li> </ul>	<p>Minister responsible for the administration of the <i>River Murray Act 2003</i>.</p>	<p>To provide expert technical assessment and direction to the relevant authority on matters regarding the taking of water, to ensure development is undertaken sustainably in the Murray-Darling Basin.</p>	<p>Development of a class to which Schedule 9 clause 3 item 10 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>

## Native Vegetation Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Areas of native vegetation are protected, retained and restored.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Environmental Protection	

<p>PO 1.1</p> <p>Development avoids, or where it cannot be practically avoided, minimises the clearance of native vegetation taking into account the siting of buildings, access points, bushfire protection measures and building maintenance.</p>	<p>DTS/DPF 1.1</p> <p>An application is accompanied by:</p> <ul style="list-style-type: none"> <li>(a) a declaration stating that the proposal will not, or would not, involve clearance of native vegetation under the Native Vegetation Act 1991, including any clearance that may occur: <ul style="list-style-type: none"> <li>(i) in connection with a relevant access point and / or driveway</li> <li>(ii) within 10m of a building (other than a residential building or tourist accommodation)</li> <li>(iii) within 20m of a dwelling or addition to an existing dwelling for fire prevention and control</li> <li>(iv) within 50m of residential or tourist accommodation in connection with a requirement under a relevant overlay to establish an asset protection zone in a bushfire prone area</li> </ul> </li> <p style="text-align: center;">or</p> <li>(b) a report prepared in accordance with Regulation 18(2)(a) of the Native Vegetation Regulations 2017 that establishes that the clearance is categorised as 'Level 1 clearance'.</li> </ul>
<p>PO 1.2</p> <p>Native vegetation clearance in association with development avoids the following:</p> <ul style="list-style-type: none"> <li>(a) significant wildlife habitat and movement corridors</li> <li>(b) rare, vulnerable or endangered plants species</li> <li>(c) native vegetation that is significant because it is located in an area which has been extensively cleared</li> <li>(d) native vegetation that is growing in, or in association with, a wetland environment.</li> </ul>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
<p>PO 1.3</p> <p>Intensive animal husbandry and agricultural activities are sited, set back and designed to minimise impacts on native vegetation, including impacts on native vegetation in an adjacent State Significant Native Vegetation Area, from:</p> <ul style="list-style-type: none"> <li>(a) the spread of pest plants and phytophthora</li> <li>(b) the spread of non-indigenous plants species</li> <li>(c) excessive nutrient loading of the soil or loading arising from surface water runoff</li> <li>(d) soil compaction</li> <li>(e) chemical spray drift.</li> </ul>	<p>DTS/DPF 1.3</p> <p>Development within 500 metres of a boundary of a State Significant Native Vegetation Area does not involve any of the following:</p> <ul style="list-style-type: none"> <li>(a) horticulture</li> <li>(b) intensive animal husbandry</li> <li>(c) dairy</li> <li>(d) commercial forestry</li> <li>(e) aquaculture.</li> </ul>
<p>PO 1.4</p> <p>Development enhances biodiversity and habitat values through revegetation.</p>	<p>DTS/DPF 1.4</p> <p>None are applicable.</p>

<p>PO 2.1</p> <p>Land division does not result in the fragmentation of land containing native vegetation, or necessitate the clearance of native vegetation, unless such clearance is considered minor, taking into account the location of allotment boundaries, access ways, fire breaks, boundary fencing and potential building siting or the like.</p>	<p>DTS/DPF 2.1</p> <p>Land division where:</p> <ul style="list-style-type: none"> <li>(a) an application is accompanied by one of the following:                             <ul style="list-style-type: none"> <li>(i) a declaration stating that none of the allotments in the proposed plan of division contain native vegetation under the <i>Native Vegetation Act 1991</i></li> <li>(ii) a declaration stating that no native vegetation clearance under the <i>Native Vegetation Act 1991</i> will be required as a result of the division of land</li> <li>(iii) a report prepared in accordance with Regulation 18(2)(a) of the <i>Native Vegetation Regulations 2017</i> that establishes that the vegetation to be cleared is categorised as 'Level 1 clearance'</li> </ul> </li> <li>or</li> <li>(b) an application for land division which is being considered concurrently with a proposal to develop each allotment which will satisfy, or would satisfy, the requirements of DTS/DPF 1.1, including any clearance that may occur</li> <li>or</li> <li>(c) the division is to support a Heritage Agreement under the <i>Native Vegetation Act 1991</i> or the <i>Heritage Places Act 1993</i>.</li> </ul>
---	--

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Development that is the subject of a report prepared in accordance with Regulation 18(2)(a) of the <i>Native Vegetation Regulations 2017</i> that categorises the clearance, or potential clearance, as 'Level 3 clearance' or 'Level 4 clearance'.</p>	<p>Native Vegetation Council</p>	<p>To provide expert assessment and direction to the relevant authority on the potential impacts of development on native vegetation.</p>	<p>Development of a class to which Schedule 9 clause 3 item 11 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>

Desired Outcome (DO)

Desired Outcome	
DO 1	Community health and amenity is protected from adverse impacts of noise and air emissions.

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Siting and Design	
<p>PO 1.1</p> <p>Noise and air quality sensitive development located adjacent to high noise and/or air pollution sources is designed and sited to shield sensitive receivers from the emission source using measures such as:</p> <ul style="list-style-type: none"> <li>(a) placing buildings containing non-sensitive receivers (such as retail and commercial) between the emission source and sensitive receivers</li> <li>(b) within individual buildings, placing rooms more sensitive to air quality and noise impacts (such as living rooms and bedrooms) further away from the emission source</li> <li>(c) providing appropriate separation or erecting noise attenuation barriers, provided the requirements for safety, urban design and access can be met</li> <li>(d) the use of building design elements such as podiums and jutting, deep or enclosed balconies (including with solid balustrades), provided the requirements for safety, urban design and access can be met.</li> </ul>	<p>DTS/DPF 1.1</p> <p>None are applicable.</p>
<p>PO 1.2</p> <p>Air quality sensitive development located adjacent to high air pollution sources uses building design elements such as varying building heights, widths, articulation, setbacks and shapes to increase wind turbulence and the dispersion of air pollutants, provided wind impacts on pedestrian amenity are acceptable.</p>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
<p>PO 1.3</p> <p>Noise and air quality sensitive development located adjacent to high noise and/or air pollution sources locates private open space (including ground level courtyards and balconies), common open space and outdoor play areas within educational establishments and pre-schools away from the emission source.</p>	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>

### Prescribed Surface Water Areas Overlay

#### Assessment Provisions (AP)

Desired Outcome (DO)

## Desired Outcome

DO 1	Sustainable water use in prescribed surface water areas that maintains the health and natural flow paths of watercourses.
------	---

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
<p>PO 1.1</p> <p>Development comprising the erection, construction, modification, enlargement or removal of a dam, wall or other structure that will collect or divert surface water flowing over land is undertaken in a manner that maintains the quality and quantity of flows required to meet the needs of the environment as well as downstream users.</p>	<p>DTS/DPF 1.1</p> <p>None are applicable.</p>
<p>PO 1.2</p> <p>All development, but in particular development involving any of the following:</p> <ul style="list-style-type: none"> <li>(a) horticulture</li> <li>(b) activities requiring irrigation</li> <li>(c) aquaculture</li> <li>(d) industry</li> <li>(e) intensive animal husbandry</li> <li>(f) commercial forestry</li> </ul> <p>have a lawful, sustainable and reliable water supply that does not place undue strain on water resources in prescribed surface water areas.</p>	<p>DTS/DPF 1.2</p> <p>Development satisfies either of the following:</p> <ul style="list-style-type: none"> <li>(a) the applicant has a current water licence in which sufficient spare capacity exists to accommodate the water needs of the proposed use or</li> <li>(b) the proposal does not involve the taking of water for which a licence would be required under the <i>Landscape South Australia Act 2019</i>.</li> </ul>

### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Development that comprises the erection, construction, modification, enlargement or removal of a dam, wall or other structure that will collect or divert, or collects or diverts surface water flowing over land.	Relevant authority under the <i>Landscape South Australia Act 2019</i> that would, if it were not for the operation of section 106(1)(e) of that Act, have the authority under that Act to grant or refuse a permit to undertake the subject development.	To provide expert assessment and direction to the relevant authority on potential impacts from development on the health, sustainability and/or natural flow paths of water resources in accordance with the provisions of the relevant water allocation plan or regional landscape plan or equivalent.	Development of a class to which Schedule 9 clause 3 item 12 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

<p>Any of the following classes of development that require or may require water to be taken over and above any allocation that has already been granted under the <i>Landscape South Australia Act 2019</i></p> <ul style="list-style-type: none"> <li>(a) horticulture</li> <li>(b) activities requiring irrigation</li> <li>(c) aquaculture</li> <li>(d) industry</li> <li>(e) intensive animal husbandry.</li> </ul>	<p>The Chief Executive of the Department of the Minister responsible for the administration of the <i>Landscape South Australia Act 2019</i>.</p>	<p>To provide expert technical assessment and direction to the relevant authority on the taking of water to ensure development is undertaken sustainably and maintains the health and natural flow paths of water resources.</p>	<p>Development of a class to which Schedule 9 clause 3 item 13 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>
<p>Commercial forestry that requires a forest water licence under Part 8 Division 6 of the <i>Landscape South Australia Act 2019</i>.</p>			

## Prescribed Watercourses Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

<h2 style="text-align: center; margin: 0;">Desired Outcome</h2>	
<p>DO 1</p>	<p>Prescribed watercourses are protected by ensuring the taking of water from such watercourses is avoided or is undertaken in a sustainable manner that maintains the health and natural flow paths of the watercourses.</p>

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

<h2 style="text-align: center; margin: 0;">Performance Outcome</h2>	<h2 style="text-align: center; margin: 0;">Deemed-to-Satisfy Criteria / Designated Performance Feature</h2>
<p>PO 1.1</p> <p>All development, but in particular development involving any of the following:</p> <ul style="list-style-type: none"> <li>(a) horticulture</li> <li>(b) activities requiring irrigation</li> <li>(c) aquaculture</li> <li>(d) industry</li> <li>(e) intensive animal husbandry</li> <li>(f) commercial forestry</li> </ul> <p>has a lawful, sustainable and reliable water supply that does not place undue strain on prescribed watercourses.</p>	<p>DTS/DPF 1.1</p> <p>Development satisfies either of the following:</p> <ul style="list-style-type: none"> <li>(a) the applicant has a current water licence in which sufficient spare capacity exists to accommodate the water needs of the proposed use or</li> <li>(b) the proposal does not involve the taking of water for which a licence would be required under the <i>Landscape South Australia Act 2019</i>.</li> </ul>

<p>PO 1.2</p> <p>Development comprising the erection, construction, modification, enlargement or removal of a dam, wall or other structure that will collect or divert surface water flowing in a prescribed watercourse is undertaken in a manner that maintains the quality and quantity of flows required to meet the needs of the environment as well as downstream users.</p>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
--	--

### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Development comprising the erection, construction, modification, enlargement or removal of a dam, wall or other structure that will collect or divert, or collects or diverts water flowing in a prescribed watercourse.</p>	<p>Relevant authority under the <i>Landscape South Australia Act 2019</i> that would, if it were not for the operation of section 106(1)(e) of that Act, have the authority under that Act to grant or refuse a permit to undertake the subject development.</p>	<p>To provide expert assessment and direction to the relevant authority on potential impacts from development on the health, sustainability and/or natural flow paths of water resources in accordance with the provisions of the relevant water allocation plan or regional landscape plan or equivalent.</p>	<p>Development of a class to which Schedule 9 clause 3 item 12 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>
<p>Any of the following classes of development that require or may require water to be taken in addition to any allocation that has already been granted under the <i>Landscape South Australia Act 2019</i>:</p> <ul style="list-style-type: none"> <li>(a) horticulture</li> <li>(b) activities requiring irrigation</li> <li>(c) aquaculture</li> <li>(d) industry</li> <li>(e) intensive animal husbandry.</li> </ul>	<p>The Chief Executive of the Department of the Minister responsible for the administration of the <i>Landscape South Australia Act 2019</i>.</p>	<p>To provide expert technical assessment and direction to the relevant authority on the taking of water to ensure development is undertaken sustainably.</p>	<p>Development of a class to which Schedule 9 clause 3 item 13 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>
<p>Commercial forestry that requires a forest water licence under Part 8 Division 6 of the <i>Landscape South Australia Act 2019</i>.</p>

<p>PO 1.1</p> <p>All development, but in particular involving any of the following:</p> <ul style="list-style-type: none"> <li>(a) horticulture</li> <li>(b) activities requiring irrigation</li> <li>(c) aquaculture</li> <li>(d) industry</li> <li>(e) intensive animal husbandry</li> <li>(f) commercial forestry</li> </ul> <p>has a lawful, sustainable and reliable water supply that does not place undue strain on water resources in prescribed wells areas.</p>	<p>DTS/DPF 1.1</p> <p>Development satisfies either of the following:</p> <ul style="list-style-type: none"> <li>(a) the applicant has a current water licence in which sufficient spare capacity exists to accommodate the water needs of the proposed use or</li> <li>(b) the proposal does not involve the taking of water for which a licence would be required under the <i>Landscape South Australia Act 2019</i>.</li> </ul>
---	--

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Any of the following classes of development that require or may require water to be taken in addition to any allocation that has already been granted under the <i>Landscape South Australia Act 2019</i>:</p> <ul style="list-style-type: none"> <li>(a) horticulture</li> <li>(b) activities requiring irrigation</li> <li>(c) aquaculture</li> <li>(d) industry</li> <li>(e) intensive animal husbandry.</li> </ul>	<p>The Chief Executive of the Department of the Minister responsible for the administration of the <i>Landscape South Australia Act 2019</i>.</p>	<p>To provide expert technical assessment and direction to the relevant authority on the taking of water to ensure development is undertaken sustainably.</p>	<p>Development of a class to which Schedule 9 clause 3 item 13 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>
<p>Commercial forestry that requires a forest water licence under Part 8 Division 6 of the <i>Landscape South Australia Act 2019</i>.</p>			

**Ramsar Wetlands Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Protection of recognised Ramsar Wetlands.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
General	
PO 1.1 Development does not lead to significant negative impacts on Ramsar wetlands habitat.	DTS/DPF 1.1 None are applicable.
PO 1.2 Development adjacent to Ramsar wetlands maintains or establishes landform and vegetated corridor links between Ramsar areas where possible.	DTS/DPF 1.2 None are applicable.
PO 1.3 Development does not cause a significant change in the hydrological regime of Ramsar wetlands, including: <ul style="list-style-type: none"> <li>(a) a change in volume, timing, duration and frequency of ground and surface water flows to and within the wetland</li> <li>(b) a change in the level of salinity, pollutants, nutrients or water temperature.</li> </ul>	DTS/DPF 1.3 None are applicable.
PO 1.4 Development is designed to minimise the cumulative impacts on Ramsar wetlands from frequent jetties, vegetation clearance and dredging.	DTS/DPF 1.4 None are applicable.
PO 1.5 Development does not result in the disruption of the breeding, feeding, migration or resting behaviour of an ecologically significant proportion of the population of a migratory or resident species.	DTS/DPF 1.5 None are applicable.
Land Division	
PO 2.1 Land division supports the management or improvement of the natural environment and does not result in any additional allotments within a Ramsar wetland.	DTS/DPF 2.1 None are applicable.

### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

## Resource Extraction Protection Area Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Protection of current and future state significant resource extraction activities by ensuring development has regard to potential environmental and amenity impacts generated by the lawful operation of proximate mines and quarries.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Protection of Strategic Resources	
<p>PO 1.1</p> <p>Long-term availability of and ability to extract resources is maintained by ensuring development involving sensitive receivers is:</p> <ul style="list-style-type: none"> <li>(a) located away from areas which may be subject to unacceptable noise, dust or vibration emissions generated by current or future resource extraction activities or</li> <li>(b) able to adequately mitigate impacts of noise, dust or vibration emissions through design techniques such as:                             <ul style="list-style-type: none"> <li>(i) locating residential accommodation the greatest distance practicable from the resource extraction activity</li> <li>(ii) placing buildings containing non-sensitive receivers between the resource extraction activity and sensitive receivers</li> <li>(iii) placing rooms more sensitive to air, noise and vibration impacts (e.g. bedrooms) further away from the resource extraction activity</li> <li>(iv) providing private or common open space adjacent a building facade that shields the space from impacts of the resource extraction activity.</li> </ul> </li> </ul>	<p>DTS/DPF 1.1</p> <p>Development does not incorporate:</p> <ul style="list-style-type: none"> <li>(a) a sensitive receiver or</li> <li>(b) alterations or additions to a sensitive receiver which increase the floor area of such buildings by 10% or more or</li> <li>(c) land division for the purposes of accommodating a sensitive receiver.</li> </ul>

### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Where located within the area of the Resource Extraction Zone, all forms of development except:</p> <ul style="list-style-type: none"> <li>(a) where the development is deemed-to-satisfy or</li> <li>(b) where the development is, in the opinion of the relevant authority, minor in nature and would not warrant a referral when considering the purpose of the referral or</li> <li>(c) any of the following classes of development <ul style="list-style-type: none"> <li>(i) agricultural building</li> <li>(ii) land division for the purpose of a boundary realignment where no additional allotments are created</li> <li>(iii) farming</li> <li>(iv) fence</li> <li>(v) horse keeping</li> <li>(vi) horticulture</li> <li>(vii) mushroom production</li> <li>(viii) protective tree netting structure.</li> </ul> </li> </ul>	<p>Minister responsible for administering the Mining Acts.</p>	<p>To provide expert assessment and direction to the relevant authority on the potential for development to adversely impact upon the lawful continued operation of resource extraction operations.</p>	<p>Development of a class to which Schedule 9 clause 3 item 14 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>
<p>Where located outside of the Resource Extraction Zone, the following forms of development (including land division creating additional allotments for such uses and alterations and additions which increase the floor area of buildings accommodating the following by 10% or more):</p> <ul style="list-style-type: none"> <li>(a) dwelling</li> <li>(b) residential flat building</li> <li>(c) tourist accommodation</li> <li>(d) boarding home</li> <li>(e) dormitory style accommodation</li> <li>(f) workers' accommodation</li> <li>(g) student accommodation</li> <li>(h) pre-school</li> <li>(i) educational establishment</li> <li>(j) retirement village</li> <li>(k) supported accommodation</li> <li>(l) residential park</li> <li>(m) hospital.</li> </ul>			

## River Murray Flood Plain Protection Area Overlay

### Assessment Provisions (AP)

<b>Desired Outcome</b>	
<b>DO 1</b>	Conservation and protection of water quality and the riverine environment, provision for environmental water flows, the protection of life and property against flood risk, and recognition of the riverine environment as an important ecological, tourist and recreational resource.
<b>DO 2</b>	Development for the purpose of recreation (e.g. landings, jetties, houseboat moorings) water extraction, wetland management and irrigation management (e.g. channel, pumping stand, flood gate).

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

<b>Performance Outcome</b>	<b>Deemed-to-Satisfy Criteria / Designated Performance Feature</b>
Dredging	
<b>PO 1.1</b> Development is designed and sited in a manner that limits the need for dredging.	<b>DTS/DPF 1.1</b> None are applicable.
Land Division	
<b>PO 2.1</b> Land division does not lead to intensification of development.	<b>DTS/DPF 2.1</b> Land division is: <ul style="list-style-type: none"> <li>(a) limited to the creation of a public road or a public reserve or</li> <li>(b) for adjustment of allotment boundaries to remove an anomaly in the current boundaries with respect to the location of existing buildings or structures and does not result in an additional allotment.</li> </ul>
<b>PO 2.2</b> Boundary realignment for residential purposes preserves the integrity of public waterfront reserves.	<b>DTS/DPF 2.2</b> Boundary realignment for residential purposes: <ul style="list-style-type: none"> <li>(a) locates any new roads on the landward side of an existing dwelling (rather than between an existing dwelling and the public waterfront reserve)</li> <li>(b) provides a reserve 50m or more in width above pool level along the water frontage.</li> </ul>
Built Form and Character	

<p>PO 3.1</p> <p>Buildings and structures are sited and designed to be unobtrusive when viewed from the River Murray and nearby public roads.</p>	<p>DTS/DPF 3.1</p> <p>Buildings / structures:</p> <ul style="list-style-type: none"> <li>(a) do not exceed one building level in height (excluding elevation to minimise the potential for personal or property damage as a result of a flood)</li> <li>(b) have no floor level elevated 2.5m or more above ground level</li> <li>(c) are not closer than 50m to the waterfront</li> <li>(d) have associated electricity and telecommunications lines installed underground</li> <li>(e) in relation to outbuildings and agricultural buildings clad in sheet metal - are pre-colour treated or painted in a non-reflective colour.</li> </ul>
<p>PO 3.2</p> <p>Retaining walls avoided in the 1956 River Murray Flood Plain and in highly visible locations that can be viewed from public roads or the main channel of the River Murray.</p>	<p>DTS/DPF 3.2</p> <p>Retaining walls are:</p> <ul style="list-style-type: none"> <li>(a) for the repair or replacement of a lawful retaining wall</li> <li>(b) essential to provide safe public access to the waterfront on public land</li> <li>(c) necessary to protect structures and buildings of historic significance</li> <li>(d) necessary for the purpose of protecting waterfront vegetation</li> <li>(e) ancillary to a dwelling and are essential for safe access to the waterfront from that dwelling</li> <li>(f) necessary to protect a dwelling from material risk presented by erosion.</li> </ul>

Flood Resilience

<p>PO 4.1</p> <p>Development is not unduly subject to damage by floodwaters and fluctuating pool levels.</p>	<p>DTS/DPF 4.1</p> <p>Development incorporates finished ground and floor levels not less than:</p> <table border="1" data-bbox="807 1482 1548 2145"> <thead> <tr> <th style="text-align: center;"><b>Finished Ground and Floor Levels</b></th> </tr> </thead> <tbody> <tr> <td>Minimum finished ground level is 2.65m AHD; Minimum finished floor level is 2.9m AHD</td> </tr> <tr> <td>Minimum finished ground level is 2.7m AHD; Minimum finished floor level is 2.95m AHD</td> </tr> <tr> <td>Minimum finished ground level is 2.9m AHD; Minimum finished floor level is 3.15m AHD</td> </tr> <tr> <td>Minimum finished ground level is 2.95m AHD; Minimum finished floor level is 3.2m AHD</td> </tr> <tr> <td>Minimum finished ground level is 3.05m AHD; Minimum finished floor level is 3.3m AHD</td> </tr> <tr> <td>Minimum finished ground level is 3.15m AHD; Minimum finished floor level is 3.4m AHD</td> </tr> <tr> <td>Minimum finished ground level is 3.2m AHD; Minimum finished floor level is 3.45m AHD</td> </tr> <tr> <td>Minimum finished ground level is 3.25m AHD; Minimum finished floor level is 3.5m AHD</td> </tr> </tbody> </table>	<b>Finished Ground and Floor Levels</b>	Minimum finished ground level is 2.65m AHD; Minimum finished floor level is 2.9m AHD	Minimum finished ground level is 2.7m AHD; Minimum finished floor level is 2.95m AHD	Minimum finished ground level is 2.9m AHD; Minimum finished floor level is 3.15m AHD	Minimum finished ground level is 2.95m AHD; Minimum finished floor level is 3.2m AHD	Minimum finished ground level is 3.05m AHD; Minimum finished floor level is 3.3m AHD	Minimum finished ground level is 3.15m AHD; Minimum finished floor level is 3.4m AHD	Minimum finished ground level is 3.2m AHD; Minimum finished floor level is 3.45m AHD	Minimum finished ground level is 3.25m AHD; Minimum finished floor level is 3.5m AHD

	Minimum finished ground level is 1.9m AHD; Minimum finished floor level is 2.15m AHD
	Minimum finished ground level is 2.2m AHD; Minimum finished floor level is 2.45m AHD
	Minimum finished ground level is 1.75m AHD; Minimum finished floor level is 2m AHD
	<p>In instances where no finished floor level value is specified, development incorporates a finished floor level at least 300mm above:</p> <ul style="list-style-type: none"> <li>(a) the top of the kerb level of the primary street or</li> <li>(b) natural ground level where there is no kerb or</li> <li>(c) the height of a 1% AEP flood event</li> </ul> <p>whichever is the greater.</p>
<p>PO 4.2</p> <p>Development avoids the need for coast protection works through measures such as setbacks to protect development from coastal erosion, sea or stormwater flooding, sand drift or other coastal processes.</p>	<p>DTS/DPF 4.2</p> <p>None are applicable.</p>
<p>PO 4.3</p> <p>Dwellings do not impede floodwaters and fluctuating pool levels.</p>	<p>DTS/DPF 4.3</p> <p>Undercroft areas of elevated dwellings:</p> <ul style="list-style-type: none"> <li>(a) when enclosed, are enclosed using roller doors, removable panels or other material that can be easily opened or removed during times of flood</li> <li>(b) are not used for habitable rooms</li> <li>(c) have enclosed areas for a toilet, shower or laundry facilities not exceeding a combined maximum floor area of 10m<sup>2</sup>.</li> </ul>

<p>PO 4.4</p> <p>Outbuildings do not impede floodwaters and fluctuating pool levels.</p>	<p>DTS/DPF 4.4</p> <p>Outbuildings are:</p> <ul style="list-style-type: none"> <li>(a) fitted with roller doors, removable panels or similar on two ends or sides (whichever elevations face the direction of the river flow)</li> <li>(b) constructed at natural ground level.</li> </ul>
<p>PO 4.5</p> <p>Fencing does not impede floodwaters and fluctuating pool levels.</p>	<p>DTS/DPF 4.5</p> <p>Fencing is of an open design such as post and wire strand construction.</p>
<p>Environmental Protection</p>	
<p>PO 5.1</p> <p>Adverse impacts on the natural features and stability of the waterfront are minimised.</p>	<p>DTS/DPF 5.1</p> <p>None are applicable.</p>
<p>PO 5.2</p> <p>Development incorporates buffer areas to protect the river and associated natural features such as wetlands and native vegetation.</p>	<p>DTS/DPF 5.2</p> <p>None are applicable.</p>
<p>PO 5.3</p> <p>Modification to the natural landform, including land reclamation, is avoided or minimised to prevent impacts on natural features, natural flow paths, floodwaters and the stability of the waterfront.</p>	<p>DTS/DPF 5.3</p> <p>None are applicable.</p>
<p>PO 5.4</p> <p>Fuel storage facilities and areas, including areas for the storage of mobile fuel trailers, are sited and designed to prevent environmental harm.</p>	<p>DTS/DPF 5.4</p> <p>Fuel storage facilities and areas, including areas for the storage of mobile fuel trailers, are located:</p> <ul style="list-style-type: none"> <li>(a) outside the 1956 River Murray Flood Plain</li> <li>(b) wholly within a bund that has storage capacity of 133% or more of the volume of the largest fuel storage tank.</li> </ul>
<p>PO 5.5</p> <p>Facilities for the collection of effluent from moored vessels are sited and designed to prevent environmental harm.</p>	<p>DTS/DPF 5.5</p> <p>None are applicable.</p>
<p>Access</p>	
<p>PO 6.1</p> <p>Waterfront reserve areas between buildings and the water are maximised to preserve the amenity of view corridors along the riverine environment.</p>	<p>DTS/DPF 6.1</p> <p>None are applicable.</p>

<p>PO 6.2</p> <p>Public access routes to waterfront reserves are provided and maintained.</p>	<p>DTS/DPF 6.2</p> <p>None are applicable.</p>
<p>PO 6.3</p> <p>Driveways, access tracks and parking areas are designed and constructed to minimise excavation and filling.</p>	<p>DTS/DPF 6.3</p> <p>No more than 100mm excavation and 100mm of fill is required in association with the construction of a driveway, access track or parking area.</p>
<p>River Structures</p>	
<p>PO 7.1</p> <p>River structures are located where they do not cause a hazard to safe navigation.</p>	<p>DTS/DPF 7.1</p> <p>River structures are located:</p> <ul style="list-style-type: none"> <li>(a) wholly outside navigation channels as defined by navigational signs</li> <li>(b) 100m or more from either side of a ferry crossing</li> <li>(c) 150m or more from a lock.</li> </ul>
<p>PO 7.2</p> <p>River structures are located where they do not cause a hazard to a designated recreation area for water skiing and swimming.</p>	<p>DTS/DPF 7.2</p> <p>River structures are located wholly outside designated recreation areas for water skiing and swimming.</p>
<p>PO 7.3</p> <p>Proliferation of water pumps is avoided to limit impact on the riverine environment.</p>	<p>DTS/DPF 7.3</p> <p>None are applicable.</p>
<p>PO 7.4</p> <p>Water pumping infrastructure is designed and constructed to limit impact on the riverine environment.</p>	<p>DTS/DPF 7.4</p> <p>Water pumping infrastructure is designed and constructed in accordance with Figure 1.</p>
<p>PO 7.5</p> <p>Proliferation of jetties and floating pontoons is avoided to minimise impact on the riverine environment.</p>	<p>DTS/DPF 7.5</p> <p>Jetties and floating pontoons are:</p> <ul style="list-style-type: none"> <li>(a) ancillary to a dwelling</li> <li>(b) limited to one jetty or floating pontoon per dwelling</li> <li>(c) located on the same allotment as the associated dwelling or</li> <li>(d) are separated from the allotment (or lease site) accommodating the associated dwelling by a public reserve or a public road (but not both) or</li> <li>(e) are for the repair, maintenance or replacement of an existing licensed river structure.</li> </ul>

<p>PO 7.6</p> <p>Jetties and floating pontoons are designed and constructed to limit impact on the riverine environment.</p>	<p>DTS/DPF 7.6</p> <p>Jetties and floating pontoons:</p> <ul style="list-style-type: none"> <li>(a) extend not more than 8m into the river measured from the riverbank at normal pool level</li> <li>(b) have a width of not more than 1.4m in the case of a jetty (or gangway width in the case of a floating pontoon)</li> <li>(c) in the case of floating pontoons, do not exceed the dimensions 3m by 6m</li> <li>(d) maintain a minimum of 3m between river structures including other jetties and pontoons.</li> </ul>
<p>PO 7.7</p> <p>A proliferation of boat ramps is avoided to minimise impact on the riverine environment.</p>	<p>DTS/DPF 7.7</p> <p>The repair, maintenance or replacement of an existing licensed boat ramp.</p>
<p>PO 7.8</p> <p>On-river mooring facilities are developed only where:</p> <ul style="list-style-type: none"> <li>(a) the mooring facility will not result in a mooring capacity exceeding one vessel per allotment</li> <li>(b) where the allotment has a direct frontage to the river (or is only separated by a public road or public reserve, but not both) and the allotment contains an existing dwelling</li> <li>(c) the width of the river is greater than 100m at normal pool level.</li> </ul>	<p>DTS/DPF 7.8</p> <p>None are applicable.</p>
<p>PO 7.9</p> <p>Moorings for vessels are located to avoid interfering with the operation or function of a ferry crossing, lock or major pumping station.</p>	<p>DTS/DPF 7.9</p> <p>Moorings for vessels not located within:</p> <ul style="list-style-type: none"> <li>(a) 100m of either side of a ferry crossing</li> <li>(b) 150m of a lock</li> <li>(c) 400m of a major pumping station.</li> </ul>
<p>PO 7.10</p> <p>Development of structures designed for the mooring of more than one vessel are located off-channel in a marina.</p>	<p>DTS/DPF 7.10</p> <p>None are applicable.</p>

### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Any of the following classes of development, except where the development is, in the opinion of the relevant authority, minor in nature and would not warrant a referral when considering the purpose of the referral:	Minister responsible for administration of the <i>River Murray Act 2003</i> .	To provide expert assessment and direction to the relevant authority on potential impacts from	Development of a class to which Schedule 9

- (a) development comprising the erection, construction, modification, enlargement or removal of a dam, wall or other structure that will collect or divert, or collects or diverts water flowing in a watercourse or surface water flowing over land
- (b) horticulture
- (c) activities requiring irrigation, other than irrigation used for domestic purposes
- (d) aquaculture
- (e) industry
- (f) intensive animal husbandry
- (g) horse keeping
- (h) commercial forestry
- (i) development that is within the ambit of clause 7 of Schedule 3 of the *Planning, Development and Infrastructure (General) Regulations 2017*
- (j) the construction of a building, or the undertaking of an act or activity specified in clause 3 of Schedule 3 of the *Planning, Development and Infrastructure (General) Regulations 2017*, other than where the development:-
  - (i) is the construction of a fence not exceeding 2m in height  
or
  - (ii) is the construction of a carport, verandah, balcony, porch or other similar structure  
or
  - (iii) is the construction of an enclosed shed, garage or similar outbuilding-
    - A. that is ancillary to an existing building
    - B. that will not have a total floor area of more than 60m<sup>2</sup>
    - C. that is located outside the 1956 River Murray Flood Plain or will have on opposite sides either removable panels or at least 2 doors so as not to impede flood waters
    - D. that will not be located closer to the River Murray than an existing dwelling
- or
- (iv) comprises an alteration or extension of an existing dwelling that in the opinion of the relevant authority is minor and where any extension of the dwelling will not result in a part of the dwelling being closer to the River Murray  
or
- (v) is the construction of an aboveground or inflatable swimming pool, or a spa pool, or an in-ground swimming pool located outside the 1956 River Murray Flood Plain
- (k) land division classified as restricted by the

development on the health of the River Murray system, its natural flow regime (including floodwaters), water quality, and cultural heritage.

clause 3 item 15 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

<p>Planning and Design Code</p> <p>(l) land division that results in:</p> <ul style="list-style-type: none"> <li>(i) 4 or more additional allotments</li> <li>(ii) 4 or more additional grants of occupancy (by the conferral or exercise of a right to occupy part only of an allotment)</li> <li>or</li> <li>(iii) a mix of 4 or more additional allotments and separate grants of occupancy</li> </ul> <p>(m) land division that involves the creation of a new allotment or grant of occupancy where any part of the boundary of the new allotment or occupancy will have a frontage to a part of the River Murray system</p> <p>(n) alteration of the boundaries of an allotment so as to result in:</p> <ul style="list-style-type: none"> <li>(i) the allotment having a frontage to a part of the River Murray system</li> <li>or</li> <li>(ii) the allotment having an increase in its frontage to a part of the River Murray system.</li> </ul>			
<p>Development that generates human wastewater from a peak loading capacity of more than 40 persons or more than 6000 litres/day and is not connected to a community wastewater management system or sewerage infrastructure.</p>	<p>Environment Protection Authority</p>	<p>To prioritise the protection of drinking water quality by ensuring pollutants are not discharged into any waters or onto land in a place in which it is reasonably likely to enter any waters within a water protection area.</p>	<p>Development of a class to which Schedule 9 clause 3 item 9 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>
<p>Any pontoons, jetties, piers or other structures (whether on water or land) designed or used to provide moorings or dry storage for 5 or more vessels at any 1 time</p>			
<p>Vessel refuelling facility</p>			
<p>Vessel sewage pump-out facility.</p>

## River Murray Tributaries Protection Area Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Sustainable water use and conservation of riverine environments within the River Murray Tributaries area.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
<p>PO 1.1</p> <p>Development comprising the erection, construction, modification, enlargement or removal of a dam, wall or other structure that will collect or divert surface water flowing over land is undertaken in a manner that maintains the quality and quantity of flows required to meet the needs of the environment and downstream users.</p>	<p>DTS/DPF 1.1</p> <p>None are applicable.</p>
<p>PO 1.2</p> <p>All development, but in particular development involving any of the following:</p> <ul style="list-style-type: none"> <li>(a) activities requiring irrigation</li> <li>(b) aquaculture</li> <li>(c) commercial forestry</li> <li>(d) horticulture</li> <li>(e) industry</li> <li>(f) intensive animal husbandry</li> </ul> <p>has a lawful, sustainable and reliable water supply that does not place undue strain on water resources in prescribed surface water areas.</p>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
Land Division	

<p>PO 2.1</p> <p>Land division does not lead to the intensification of development to a level that would have a negative impact on the health or natural flow paths of the River Murray Tributaries.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
<p>PO 2.2</p> <p>Land division, including boundary realignment, preserves the integrity of the public waterfront of the River Murray system by limiting the number of allotments having a frontage (or extent of frontage) to that system.</p>	<p>DTS/DPF 2.2</p> <p>Land division does not result in:</p> <ul style="list-style-type: none"> <li>(a) an increase in allotments having a frontage to a part of the River Murray system</li> <li>or</li> <li>(b) an increase in the frontage of an allotment or allotments to a part of the River Murray system.</li> </ul>

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
---------------------------------	---------------	---------------------	---------------------

<p>Any of the following classes of development, except where the development is, in the opinion of the relevant authority, minor in nature and would not warrant a referral when considering the purpose of the referral:</p> <ul style="list-style-type: none"> <li>(a) development that comprises the erection, construction, modification, enlargement or removal of a dam, wall or other structure that will collect or divert, or collects or diverts water flowing in a watercourse or surface water flowing over land</li> <li>(b) horticulture</li> <li>(c) activities requiring irrigation, other than irrigation used for domestic purposes</li> <li>(d) aquaculture</li> <li>(e) intensive animal husbandry</li> <li>(f) horse keeping</li> <li>(g) commercial forestry</li> <li>(h) land division classified as <i>restricted</i> by the Planning and Design Code</li> <li>(i) land division that results in:             <ul style="list-style-type: none"> <li>(i) 4 or more additional allotments or</li> <li>(ii) 4 or more additional grants of occupancy (by the conferral or exercise of a right to occupy part only of an allotment) or</li> <li>(iii) a mix of 4 or more additional allotments and separate grants of occupancy</li> </ul> </li> <li>(j) land division that involves the creation of a new allotment or grant of occupancy where any part of the boundary of the new allotment or occupancy will have a frontage to a part of the River Murray system</li> <li>(k) alteration of the boundaries of an existing allotment so as to result in:             <ul style="list-style-type: none"> <li>(i) the allotment having a frontage to a part of the River Murray system or</li> <li>(ii) the allotment having an increase in its frontage to a part of the River Murray system.</li> </ul> </li> </ul>	<p>Minister responsible for the administration of the <i>River Murray Act 2003</i>.</p>	<p>To provide expert assessment and direction to the relevant authority on potential impacts from development on the health of the River Murray system, its natural flow regime (including floodwaters), water quality and cultural heritage.</p>	<p>Development of a class to which Schedule 9 clause 3 item 16 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>

## Significant Industry Interface Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

DO 1	State significant industrial activities are protected through the siting and design of development having regard to potential hazards and environmental and amenity impacts generated by the lawful operation of proximate industry.
------	--

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
General	
<p>PO 1.1</p> <p>Sensitive uses and sensitive receivers are:</p> <ul style="list-style-type: none"> <li>(a) located away from areas which may be subject to unacceptable hazard, noise, dust, odour or other emissions or</li> <li>(b) able to adequately mitigate impacts of hazards, noise, dust, odour or other dour emissions through design techniques such as:                             <ul style="list-style-type: none"> <li>(i) locating residential accommodation the greatest distance practicable from the industry</li> <li>(ii) locating buildings containing non-sensitive receivers between the industry and sensitive receivers</li> <li>(iii) placing rooms more sensitive to air, noise and odour impacts (e.g. bedrooms) further away from the industry</li> <li>(iv) providing private or common open space adjacent a building facade that shields the space from impacts of the industry.</li> </ul> </li> </ul>	<p>DTS/DPF 1.1</p> <p>Development does not incorporate any of the following (including alterations and additions which increase the floor area of buildings accommodating the following by 10% or more):</p> <ul style="list-style-type: none"> <li>(a) land division creating one or more additional allotments for residential purposes</li> <li>(b) dwelling</li> <li>(c) residential flat building</li> <li>(d) tourist accommodation</li> <li>(e) boarding home</li> <li>(f) dormitory style accommodation</li> <li>(g) workers' accommodation</li> <li>(h) student accommodation</li> <li>(i) pre-school</li> <li>(j) educational establishment</li> <li>(k) retirement village</li> <li>(l) supported accommodation</li> <li>(m) residential park</li> <li>(n) hospital.</li> </ul>

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Significant Landscape Protection Overlay**

**Assessment Provisions (AP)**

## Desired Outcome

<b>DO 1</b>	Conservation of the natural and rural character and scenic and cultural qualities of significant landscapes.
-------------	--

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

<b>Performance Outcome</b>	<b>Deemed-to-Satisfy Criteria / Designated Performance Feature</b>
Land Use and Intensity	
<p><b>PO 1.1</b></p> <p>Land use intensity is restrained to conserve and enhance natural and rural character.</p>	<p><b>DTS/DPF 1.1</b></p> <p>None are applicable</p>
<p><b>PO 1.2</b></p> <p>Development in the form of any of the following is not undertaken:</p> <ul style="list-style-type: none"> <li>(a) renewable energy facilities</li> <li>(b) large-scale industry, storage, distribution, warehousing</li> <li>(c) intensive animal husbandry.</li> </ul>	<p><b>DTS/DPF 1.2</b></p> <p>None are applicable</p>
Built Form and Character	
<p><b>PO 2.1</b></p> <p>Development is carefully sited and designed to:</p> <ul style="list-style-type: none"> <li>(a) complement rural or natural character</li> <li>(b) minimise disruption to natural landform</li> <li>(c) integrate existing natural environmental features, including native vegetation</li> <li>(d) minimise impacts on wildlife habitat</li> <li>(e) be low-scale</li> <li>(f) be visually unobtrusive and blend in with the surrounding area</li> <li>(g) be located below ridge lines.</li> </ul>	<p><b>DTS/DPF 2.1</b></p> <p>None are applicable.</p>

<p>PO 2.2</p> <p>Buildings and structures are limited to those that:</p> <ul style="list-style-type: none"> <li>(a) are ancillary, adjacent to, and of the same or lesser scale as existing buildings</li> <li>(b) support desired outcomes of the relevant zone or subzone</li> <li>(c) are used for the ancillary sale of produce associated with a pastoral or rural activity</li> <li>(d) are in the form of high-quality, nature-based tourist accommodation</li> <li>(e) are for rainwater storage</li> <li>(f) are for research or education purposes</li> <li>(g) support conservation or the interpretation of the environment or cultural features.</li> </ul>	<p>DTS/DPF 2.2</p> <p>None are applicable.</p>
<p>Landscaping</p>	
<p>PO 3.1</p> <p>Landscaping comprises locally indigenous species to enhance landscape quality and habitat restoration.</p>	<p>DTS/DPF 3.1</p> <p>Landscaping plantings exclusively constitute locally indigenous plant species.</p>
<p>Earthworks</p>	
<p>PO 4.1</p> <p>Excavation and filling of land is limited to that associated with:</p> <ul style="list-style-type: none"> <li>(a) minimising the visual impact of buildings</li> <li>(b) construction of water storage facilities.</li> </ul>	<p>DTS/DPF 4.1</p> <p>Excavation and/or filling meets the following:</p> <ul style="list-style-type: none"> <li>(a) it is in connection with a building or water storage facility</li> <li>(b) does not involve excavation exceeding a vertical height of 0.75m</li> <li>(c) does not involve filling exceeding a vertical height of 0.75m</li> <li>(d) does not involve a total combined excavation and filling vertical height of 1.5m</li> <li>(e) any scree slope is covered in topsoil and landscaped with locally indigenous plant species.</li> </ul>

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**State Heritage Area Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

<b>Desired Outcome</b>	
DO 1	Development maintains the heritage and cultural values of State Heritage Areas through conservation, ongoing use and adaptive reuse.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

<b>Performance Outcome</b>	<b>Deemed-to-Satisfy Criteria / Designated Performance Feature</b>
Built Form	
PO 1.1 The form of new buildings and structures that are visible from the public realm are consistent with the heritage values and characteristics of the State Heritage Area.	DTS/DPF 1.1 None are applicable.
PO 1.2 Development is consistent with the prevailing building and ceiling heights in the State Heritage Area.	DTS/DPF 1.2 None are applicable.
PO 1.3 Design and architectural detailing of street facing buildings is consistent with the prevailing characteristics expressed in the State Heritage Area.	DTS/DPF 1.3 None are applicable.
PO 1.4 Development is consistent with the prevailing front and side boundary setback pattern in the State Heritage Area.	DTS/DPF 1.4 None are applicable.
PO 1.5 Materials are consistent with or complement those within the State Heritage Area.	DTS/DPF 1.5 None are applicable.
Alterations and Additions	
PO 2.1 Alterations and additions complement the subject building and are sited to ensure they do not dominate the primary façade or streetscape and employ a contextual design approach.	DTS/DPF 2.1 None are applicable.
Ancillary Development	

<p>PO 3.1</p> <p>Ancillary development, including carports, outbuildings and garages, complements the heritage values of the Area.</p>	<p>DTS/DPF 3.1</p> <p>None are applicable.</p>
<p>PO 3.2</p> <p>Ancillary development, including carports, outbuildings and garages, is located behind the building line of the principal building(s).</p>	<p>DTS/DPF 3.2</p> <p>None are applicable.</p>
<p>PO 3.3</p> <p>Advertising and advertising hoardings are designed to complement the State Heritage Area, be unobtrusive, not conceal or obstruct heritage elements and detailing, or dominate the building or the setting of the area.</p>	<p>DTS/DPF 3.3</p> <p>None are applicable</p>
<p>Land Division</p>	
<p>PO 4.1</p> <p>Land division creates allotments that:</p> <ul style="list-style-type: none"> <li>(a) are compatible with the surrounding pattern of subdivision of the State Heritage Area</li> <li>(b) are of a dimension to accommodate new development that reinforces and is compatible with the heritage values of the State Heritage Area.</li> </ul>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>
<p>Landscape Context and Streetscape Amenity</p>	
<p>PO 5.1</p> <p>Individually heritage listed trees, parks, historic gardens and memorial avenues within the State Heritage Area are retained unless:</p> <ul style="list-style-type: none"> <li>(a) trees / plantings are, or have the potential to be, a danger to life or property</li> <li>or</li> <li>(b) trees / plantings are significantly diseased and their life expectancy is short.</li> </ul>	<p>DTS/DPF 5.1</p> <p>None are applicable.</p>
<p>Demolition</p>	

<p>PO 6.1</p> <p>Buildings and other features of identified heritage value within a State Heritage Area are not demolished, destroyed or removed in total or in part unless:</p> <p>(a) the portion of any building or other feature is determined to not contribute to the heritage value of the State Heritage Area or</p> <p>(b) the structural condition of the building represents an unacceptable risk to public or private safety and results from actions and unforeseen events beyond the control of the owner and is irredeemably beyond repair.</p>	<p>DTS/DPF 6.1</p> <p>None are applicable.</p>
<p>Conservation Works</p>	
<p>PO 7.1</p> <p>Conservation works to the exterior of buildings and other features of identified heritage value match existing materials to be repaired and utilise traditional work methods.</p>	<p>DTS/DPF 7.1</p> <p>Conservation works involving:</p> <p>(a) replacement of roof materials, guttering or downpipes with the same or substantially the same materials and detailing</p> <p>(b) replacement of timber building elements (structural or decorative) with the same or substantially the same material, dimension and detailing; or brick and stone repair/ repointing to match original.</p>

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
---------------------------------	---------------	---------------------	---------------------

<p>Except where:</p> <ul style="list-style-type: none"> <li>(a) the development is to be undertaken in accordance with a Heritage Agreement under the Heritage Places Act 1993 or</li> <li>(b) the development is, in the opinion of the relevant authority, minor in nature or like for like maintenance and would not warrant a referral when considering the purpose of the referral</li> </ul> <p>any of the following classes of development:</p> <ul style="list-style-type: none"> <li>(a) demolition of external building fabric and other features of identified heritage value within the State Heritage Area</li> <li>(b) freestanding advertisements, signs and associated structures that are visible from a public street, road or thoroughfare within the State Heritage Area</li> <li>(c) alterations or additions to buildings and other features of identified heritage value that:             <ul style="list-style-type: none"> <li>(i) are visible from a public street, road or thoroughfare within the State Heritage Area or</li> <li>(ii) are visually dominant within the State Heritage Area or</li> <li>(iii) involve substantive physical impact to the fabric of significant buildings</li> </ul> </li> <li>(d) new buildings that:             <ul style="list-style-type: none"> <li>(i) are visible from a public street, road or thoroughfare within the State Heritage Area or</li> <li>(ii) are visually dominant within the State Heritage Area</li> </ul> </li> <li>(e) conservation repair works that are not representative of 'like for like' maintenance</li> <li>(f) solar panels that are visible from a public street, road or thoroughfare within the State Heritage Area</li> <li>(g) land division</li> <li>(h) the removal, alteration or installation of fencing where visible from a public street, road or thoroughfare within the State Heritage Area</li> <li>(i) the removal of an individual tree or a tree within a garden or park of identified heritage significance within the State Heritage Area.</li> </ul>	<p>Minister responsible for the administration of the <i>Heritage Places Act 1993</i>.</p>	<p>To provide expert assessment and direction to the relevant authority on the potential impacts of development on State Heritage Areas.</p>	<p>Development of a class to which Schedule 9 clause 3 item 17 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>
---	--	--	--

## State Heritage Place Overlay

Desired Outcome (DO)

<b>Desired Outcome</b>	
DO 1	Development maintains the heritage and cultural values of State Heritage Places through conservation, ongoing use and adaptive reuse.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

<b>Performance Outcome</b>	<b>Deemed-to-Satisfy Criteria / Designated Performance Feature</b>
Built Form	
PO 1.1 The form of new buildings and structures maintains the heritage values of the Place.	DTS/DPF 1.1 None are applicable.
PO 1.2 Massing and scale of development maintains the heritage values of the Place.	DTS/DPF 1.2 None are applicable.
PO 1.3 Design and architectural detailing maintains the heritage values of the Place.	DTS/DPF 1.3 None are applicable.
PO 1.4 Development is consistent with boundary setbacks and setting.	DTS/DPF 1.4 None are applicable.
PO 1.5 Materials and colours are consistent with or complement the heritage values of the Place.	DTS/DPF 1.5 None are applicable.
PO 1.6 New buildings are not placed or erected between the front street boundary and the façade of a State Heritage Place.	DTS/DPF 1.6 None are applicable.
PO 1.7 Development of a State Heritage Place retains elements contributing to its heritage value.	DTS/DPF 1.7 None are applicable.

Alterations and Additions

<p>PO 2.1</p> <p>Alterations and additions complement the subject building and are sited to be unobtrusive, not conceal or obstruct heritage elements and detailing, or dominate the Place or its setting.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
Ancillary Development	
<p>PO 3.1</p> <p>Ancillary development, including carports, outbuildings and garages, complement the heritage values of the Place.</p>	<p>DTS/DPF 3.1</p> <p>None are applicable.</p>
<p>PO 3.2</p> <p>Ancillary development, including carports, outbuildings and garages, is located behind the building line of the principal building(s).</p>	<p>DTS/DPF 3.2</p> <p>None are applicable.</p>
<p>PO 3.3</p> <p>Advertising and advertising hoardings are designed and located to complement the State Heritage Place, be unobtrusive, not conceal or obstruct heritage elements and detailing, or dominate the building or the setting.</p>	<p>DTS/DPF 3.3</p> <p>None are applicable.</p>
Land Division	
<p>PO 4.1</p> <p>Land division creates allotments that:</p> <ul style="list-style-type: none"> <li>(a) are compatible with the surrounding pattern of subdivision of the State Heritage Place</li> <li>(b) are of a dimension to accommodate new development that reinforces and is compatible with the heritage values of the State Heritage Place.</li> </ul>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>
Landscape Context and Streetscape Amenity	
<p>PO 5.1</p> <p>Individually heritage listed trees, parks, historic gardens and memorial avenues retained unless:</p> <ul style="list-style-type: none"> <li>(a) trees / plantings are, or have the potential to be, a danger to life or property or</li> <li>(b) trees / plantings are significantly diseased and their life expectancy is short.</li> </ul>	<p>DTS/DPF 5.1</p> <p>None are applicable.</p>
Demolition	

<p>PO 6.1</p> <p>State Heritage Places are not demolished, destroyed or removed in total or in part unless either of the following apply:</p> <p>(a) the portion of the Place to be demolished, destroyed or removed is excluded from the extent of listing that is of heritage value or</p> <p>(b) the structural condition of the Place represents an unacceptable risk to public or private safety and results from actions and unforeseen events beyond the control of the owner and is irredeemably beyond repair.</p>	<p>DTS/DPF 6.1</p> <p>None are applicable.</p>
<p>Conservation Works</p>	
<p>PO 7.1</p> <p>Conservation works to the exterior of a Place and other features of identified heritage value match existing materials to be repaired and utilise traditional work methods.</p>	<p>DTS/DPF 7.1</p> <p>None are applicable.</p>

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
---------------------------------	---------------	---------------------	---------------------

<p>Except where:</p> <ul style="list-style-type: none"> <li>(a) the development is to be undertaken in accordance with a Heritage Agreement under the <i>Heritage Places Act 1993</i> or</li> <li>(b) the development is, in the opinion of the relevant authority, minor in nature or like for like maintenance and would not warrant a referral when considering the purpose of the referral</li> </ul> <p>any of the following classes of development:</p> <ul style="list-style-type: none"> <li>(a) demolition of internal or external significant building fabric</li> <li>(b) freestanding advertisements, signs and associated structures that are visible from a public street, road or thoroughfare that abuts the State Heritage Place</li> <li>(c) alterations or additions to buildings that: <ul style="list-style-type: none"> <li>(i) are visible from a public street, road or thoroughfare that abuts the State Heritage Place or</li> <li>(ii) may materially affect the context of a State Heritage Place or</li> <li>(iii) involve substantive physical impact to the fabric of significant buildings;</li> </ul> </li> <li>(d) new buildings that: <ul style="list-style-type: none"> <li>(i) are visible from a public street, road or thoroughfare that abuts the State Heritage Place or</li> <li>(ii) may materially affect the context of the State Heritage Place</li> </ul> </li> <li>(e) conservation repair works that are not representative of 'like for like' maintenance</li> <li>(f) solar panels that are visible from a public street, road or thoroughfare that abuts the State Heritage Place</li> <li>(g) land division</li> <li>(h) the removal, alteration or installation of fencing where visible from a public street, road or thoroughfare that abuts the State Heritage Place</li> <li>(i) the removal of an individual tree or a tree within a garden or park of identified heritage significance.</li> </ul>	<p>Minister responsible for the administration of the <i>Heritage Places Act 1993</i>.</p>	<p>To provide expert assessment and direction to the relevant authority on the potential impacts of development on State Heritage Places.</p>	<p>Development of a class to which Schedule 9 clause 3 item 17 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>

## State Significant Native Vegetation Areas Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

<b>Desired Outcome</b>	
DO 1	Protect, retain and restore significant areas of native vegetation.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

<b>Performance Outcome</b>	<b>Deemed-to-Satisfy Criteria / Designated Performance Feature</b>
Environmental Protection	
<p>PO 1.1</p> <p>Development enhances biodiversity and habitat values through revegetation and avoiding native vegetation clearance except to promote an appreciation and awareness of wildlife areas, including visitor parking and amenities, or for the administration and management of a reserve or park established for the protection and conservation of wildlife.</p>	<p>DTS/DPF 1.1</p> <p>An application is accompanied by:</p> <ul style="list-style-type: none"> <li>(a) a declaration stating that the proposal will not , or would not, involve clearance of native vegetation under the <i>Native Vegetation Act 1991</i>, including any clearance that may occur:                             <ul style="list-style-type: none"> <li>(i) in connection with a relevant access point and / or driveway</li> <li>(ii) within 10m of a building (other than a residential building or tourist accommodation)</li> <li>(iii) within 20m of a dwelling or addition to an existing dwelling for fire prevention and control</li> <li>(iv) within 50m of residential or tourist accommodation in connection with a requirement under a relevant overlay to establish an asset protection zone in a bushfire prone area</li> </ul> </li> <li>or</li> <li>(b) a report prepared in accordance with Regulation 18(2)(a) of the <i>Native Vegetation Regulations 2017</i> that confirms that the clearance is categorised as 'Level 1 clearance'.</li> </ul>
Land division	
<p>PO 2.1</p> <p>Land division that contributes to the conservation, protection and enhancement of native vegetation.</p>	<p>DTS/DPF 2.1</p> <p>Land division to:</p> <ul style="list-style-type: none"> <li>(a) create a public road or a public reserve where the application is accompanied by a report prepared in accordance with Regulation 18(2)(a) of the <i>Native Vegetation Regulations 2017</i> in which the extent of native vegetation clearance proposed to be undertaken in connection with the division is categorised as 'Level 1 clearance'</li> <li>or</li> <li>(b) realign allotment boundaries to incorporate land into a park or reserve established under the <i>National Parks and Wildlife Act 1972</i>.</li> </ul>

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>The following classes of development:</p> <ul style="list-style-type: none"> <li>(a) land division where a report prepared in accordance with Regulation 18(2)(a) of the <i>Native Vegetation Regulations 2017</i> in connection with a development application categorises the clearance, or potential clearance, as 'Level 2 clearance', 'Level 3 clearance' or 'Level 4 clearance'</li> <li>(b) all other classes of development other than where DTS/DPF 1.1(a) is achieved.</li> </ul>	Native Vegetation Council	To provide expert assessment and direction to the relevant authority on the potential impacts of development on native vegetation.	Development of a class to which Schedule 9 clause 3 item 11 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

## Strategic Infrastructure Gas Pipelines Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Safe operation of high-pressure gas transmission pipelines and associated infrastructure.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Division	
PO 1.1 Land division preserves access to high-pressure gas transmission pipelines for maintenance and emergency response purposes.	DTS/DPF 1.1 None are applicable.
Land Use	

<p>PO 2.1</p> <p>Development maintains the safe operation of high pressure gas transmission pipelines.</p>	<p>DTS/DPF 2.1</p> <p>Development does not incorporate any of the following land uses:</p> <ul style="list-style-type: none"> <li>(a) educational establishment</li> <li>(b) emergency services facility</li> <li>(c) hospital</li> <li>(d) industry</li> <li>(e) pre-school</li> <li>(f) retirement facility</li> <li>(g) supported accommodation.</li> </ul>
--	--

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Urban Transport Routes Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Safe and efficient operation of urban transport routes for all road users.
DO 2	Provision of safe and efficient access to and from urban transport routes.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Access - Safe Entry and Exit (Traffic Flow)	

<p>PO 1.1</p> <p>Access points are designed to allow safe entry and exit to and from a site to meet the needs of development to ensure traffic flow interference associated with access movements is minimised.</p>	<p>DTS/DPF 1.1</p> <p>Access points:</p> <ul style="list-style-type: none"> <li>(a) are designed to ensure, for the largest vehicles expected to access the site:             <ul style="list-style-type: none"> <li>(i) the entry and exit points are left turn only</li> <li>(ii) access to and from the site is in a forward direction, with on-site manoeuvring available through circulation around the site requiring no more than a 3-point turn</li> <li>(iii) vehicles cross the property boundary at an angle between 70 and 90 degrees</li> <li>(iv) access to and from the site using the kerbside lane of the road</li> </ul> </li> <li>(b) have a width of:             <ul style="list-style-type: none"> <li>(i) no more than 4m and no less than 3m (measured at the site boundary) where the access point services is intended to service a single dwelling</li> <li>(ii) no more than 7m and no less than 6m (measured at the site boundary) where the access point is intended to service between 2 and 6 dwellings</li> <li>(iii) where the access point is intended to service 7 or more dwellings or any other non-residential land use, then:                 <ul style="list-style-type: none"> <li>A. the access point has a width of no more than 10m and no less than 7m (measured at the site boundary), where vehicles 6.4m in length or less are expected to access the site</li> <li>B. the access point has a width of no more than 16m and no less than 12m (measured at the site boundary), where vehicles greater than 6.4m in length up to 8.8m in length are expected to access the site</li> <li>C. the access point has a width of no more than 22m and no less than 16m (measured at the site boundary), where vehicles greater than 8.8m in length up to 12.5m in length are expected to access the site.</li> </ul> </li> </ul> </li> </ul>
---	--

Access - On-Site Queuing

<p>PO 2.1</p> <p>Sufficient accessible on-site queuing adjacent to access points is provided to meet the needs of development so that all vehicle queues when entering the site are contained fully within the boundaries of the development site to minimise interruption of the functional performance of the road and safe vehicle movement.</p>	<p>DTS/DPF 2.1</p> <p>An access point:</p> <ul style="list-style-type: none"> <li>(a) will not service, or is not intended to service, more than 6 dwellings and there are no internal driveways, intersections, car parking spaces or gates within 6m of the access point or</li> <li>(b) intended to service vehicles less than 12.5m in length and development generating less than 60 vehicle movements per day will meet the following:             <ul style="list-style-type: none"> <li>(i) where vehicles no greater than 6.4m in length are expected to enter the site, there are no internal driveways, intersections, car parking spaces, car park isles or any other internal obstructions within 10.5m of the access point</li> <li>(ii) where vehicles greater than 6.4m in length up to 8.8m in length are expected to enter the site, there are no internal driveways, intersections, car parking spaces, car park isles or any other internal obstructions within 14.5m of the access point</li> <li>(iii) where vehicles greater than 8.8m in length up to 12.5m in length are expected to enter the site, there are no internal driveways, intersections, car parking spaces, car park isles or any internal obstructions within 20m of the access point.</li> </ul> </li> </ul>
---	--

Access - Existing Access Point

<p>PO 3.1</p> <p>Existing access points are designed to accommodate the type and volume of traffic likely to be generated by the development.</p>	<p>DTS/DPF 3.1</p> <p>An existing access point:</p> <ul style="list-style-type: none"> <li>(a) will not service and is not intended to service more than 6 dwellings</li> <li>(b) will not service:             <ul style="list-style-type: none"> <li>(i) an increase in traffic that is greater than 200% of the traffic volumes using the existing access prior to the development or 200 vehicles per day (whichever is the lesser) or</li> <li>(ii) a larger class of vehicle expected to access the site using the existing access.</li> </ul> </li> </ul>
---	--

Access - Location (Spacing)

<p>PO 4.1</p> <p>New access points are appropriately spaced from any existing access point or public road junction to not impede traffic flow and ensure safe and efficient road operating conditions.</p>	<p>DTS/DPF 4.1</p> <p>Where access from an alternative local road at least 25m from the Urban Route is not available and the access is not located on a Controlled Access Road, a new access point is:</p> <ul style="list-style-type: none"> <li>(a) not located on a section affected by double barrier lines between either edge of the access point</li> <li>(b) at least the following distance from a public road junction or railway, or terminating / merging lane on a public road: <ul style="list-style-type: none"> <li>(i) 110 km/h road - 190m</li> <li>(ii) 100 km/h road - 165m</li> <li>(iii) 90 km/h road - 140m</li> <li>(iv) 80 km/h road - 110m</li> <li>(v) 70 km/h road - 90m</li> <li>(vi) 60 km/h road - 70m</li> <li>(vii) 50km/h or less road - 50m</li> </ul> </li> <li>(c) at least the following distance from another private (non-public road) access point: <ul style="list-style-type: none"> <li>(i) 110 km/h road - 130m</li> <li>(ii) 100 km/h road - 105m</li> <li>(iii) 90 km/h road - 85m</li> <li>(iv) 80 km/h road - 70m</li> <li>(v) 70 km/h road - 55m</li> <li>(vi) 60 km/h road - 40m</li> <li>(vii) 50km/h or less road - 30m.</li> </ul> </li> </ul>
--	--

Access - Location (Sight Lines)

<p>PO 5.1</p> <p>Access points are located and designed to ensure appropriate sight distances are provided so that drivers:</p> <ul style="list-style-type: none"> <li>(a) on the road approaching the access point are able to recognise the presence of the access point and/or see a vehicle turning into or out of the access point in time to slow down or stop in a safe and controlled manner</li> <li>(b) exiting the access point onto the road can see approaching vehicles.</li> </ul>	<p>DTS/DPF 5.1</p> <p>Lines of sight to and from a new access point for drivers approaching and exiting the site of the development are unobstructed in accordance with the following distances:</p> <ul style="list-style-type: none"> <li>(a) 110 km/h road - 325m</li> <li>(b) 100 km/h road - 280m</li> <li>(c) 90 km/h road - 240m</li> <li>(d) 80 km/h road - 200m</li> <li>(e) 70 km/h road - 165m</li> <li>(f) 60 km/h road - 135m</li> <li>(g) 50km/h or less road - 105m.</li> </ul>
---	--

Access - Stormwater

<p>PO 6.1</p> <p>Access points are designed to minimise negative impact on roadside drainage of water.</p>	<p>DTS/DPF 6.1</p> <p>Development does not:</p> <ul style="list-style-type: none"> <li>(a) decrease the capacity of an existing drainage point</li> <li>(b) restrict or prevent the flow of stormwater through an existing drainage point and system.</li> </ul>
--	--

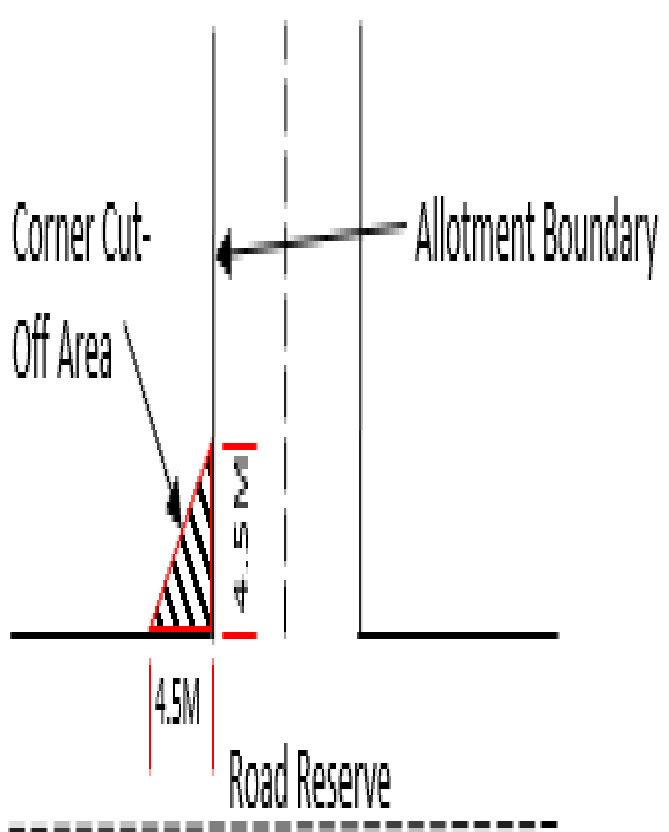

Building on Road Reserve

<p>PO 7.1</p> <p>Buildings or structures that encroach onto, above or below road reserves are designed and sited to minimise impact on safe movements by all road users.</p>	<p>DTS/DPF 7.1</p> <p>Buildings or structures are not located on, above or below the road reserve.</p>
--	--

Public Road Junctions

<p>PO 8.1</p> <p>New junctions with a public road (including the opening of unmade public road junctions) or modifications to existing road junctions are located and designed to ensure safe operating conditions are maintained on the Urban Transport Routes.</p>	<p>DTS/DPF 8.1</p> <p>Development does not involve the creation of a new junction with a public road, opening of an unmade public road junction or modification to an existing public road junction.</p>
--	--

Corner Cut-Offs

<p>PO 9.1</p> <p>Development is located and designed to ensure drivers can safely turn into and out of public road junctions.</p>	<p>DTS/DPF 9.1</p> <p>Development does not involve building work, or building work is located wholly outside the land shown as 'Corner Cut-Off Area' in the following diagram:</p> 
---	--

### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Except where all of the relevant deemed-to-satisfy criteria are met, development (including the division of land) that involves any of the following to/on an Urban Traffic Routes Road or within 25 metres of an intersection with any such road:</p> <ul style="list-style-type: none"> <li>(a) creation of a new access or junction</li> <li>(b) alterations to an existing access or public road junction (except where deemed to be minor in the opinion of the relevant authority)</li> <li>(c) development that changes the nature of vehicular movements or increase the number or frequency of movements through an existing access (except where deemed to be minor in the opinion of the relevant authority).</li> </ul>	<p>Commissioner of Highways</p>	<p>To provide expert technical assessment and direction to the Relevant Authority on the safe and efficient operation and management of all roads relevant to the Commissioner of Highways as described in the Planning and Design Code.</p>	<p>Development of a class to which Schedule 9 clause 3 item 7 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>

### Water Protection Area Overlay

#### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Safeguard South Australia’s public water supplies by protecting regionally and locally significant surface and underground water resources from pollution in ecologically significant Water Protection Areas. This includes considering adverse water quality impacts associated with projected reductions in rainfall and warmer air temperatures as a result of climate change.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	

<p>PO 1.1</p> <p>Development in the form of any of the following is not undertaken:</p> <ul style="list-style-type: none"> <li>(a) fuel depot</li> <li>(b) large scale industry, storage, distribution, warehousing</li> <li>(c) intensive animal husbandry</li> <li>(d) special industry.</li> </ul>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
<p>Groundwater</p>	
<p>PO 2.1</p> <p>Groundwater resources are protected from pollution by ensuring development does not:</p> <ul style="list-style-type: none"> <li>(a) generate or dispose of waste in a manner that would pollute water resources</li> <li>(b) involve the storage or disposal of chemicals or hazardous substances in a manner that would pose a risk to water supplies.</li> </ul>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
<p>PO 2.2</p> <p>Groundwater catchment and recharge characteristics are safeguarded by ensuring development:</p> <ul style="list-style-type: none"> <li>(a) retains and protects areas of native vegetation</li> <li>(b) does not inhibit the potential of an aquifer to recharge.</li> </ul>	<p>DTS/DPF 2.2</p> <p>None are applicable.</p>
<p>Farming and Horticulture</p>	
<p>PO 3.1</p> <p>Farming or horticulture operations occur only where:</p> <ul style="list-style-type: none"> <li>(a) the activity will not result in any increase in the salinity levels of groundwater</li> <li>(b) the land and soil structure is capable of supporting the proposed activity and the likelihood of soil erosion is minimised</li> <li>(c) the depth to the water table is greater than 2 metres from the ground.</li> </ul>	<p>DTS/DPF 3.1</p> <p>None are applicable.</p>
<p>Irrigation</p>	
<p>PO 4.1</p> <p>Irrigated areas are sited to ensure they:</p> <ul style="list-style-type: none"> <li>(a) avoid any land prone to waterlogging or subject to flooding through irrigation</li> <li>(b) avoid the risk of the water table falling or rising significantly as a result of irrigation practices</li> <li>(c) do not increase the salinity levels of groundwater</li> <li>(d) minimise the risk of polluting surface and groundwater resources where wastewater is used to irrigate the land.</li> </ul>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>
<p>Wastewater</p>	

<p>PO 5.1</p> <p>Wastewater-generating development utilises existing communal wastewater management infrastructure to avoid on-site disposal.</p>	<p>DTS/DPF 5.1</p> <p>Development (including land division) that generates wastewater is connected to sewerage or community wastewater management systems with sufficient hydraulic capacity to accept the inflow.</p>
<p>PO 5.2</p> <p>Development that generates wastewater which cannot be disposed of via sewerage or community wastewater management systems, is designed and of a scale that will enable on-site wastewater treatment and disposal in accordance with relevant health and environmental requirements.</p>	<p>DTS/DPF 5.2</p> <p>On-site wastewater treatment systems comply with:</p> <ul style="list-style-type: none"> <li>(a) the 'On-site Wastewater Systems Code' or</li> <li>(b) AS/NZS 1547: On-site domestic wastewater management and the South Australian amendments to AS/NSZ 1547 as outlined in section 9.2 of the 'On-site Wastewater Systems Code'.</li> </ul>

### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Composting works (excluding a prescribed approved activity) - being a depot, facility or works with the capacity to treat, during a 12 month period more than 200 tonnes of organic waste or matter. (EPA Licence)</p>	<p>Environment Protection Authority.</p>	<p>To provide expert Technical assessment and direction to the Relevant authority on the assessment of the potential harm from pollution and waste aspects arising from activities of environmental significance and other activities that have the potential to cause serious environmental harm.</p>	<p>Development of a class to which Schedule 9 clause 3 item 9 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>
<p>Wastewater treatment works - being sewage treatment works, a community wastewater management system, winery wastewater treatment works or any other wastewater treatment works with the capacity to treat, during a 12 month period, more than 2.5ML of wastewater. (EPA Licence required at more than 5 ML)</p>			
<p>Feedlots - being carrying on an operation for holding in confined yard or area and feeding principally by mechanical means or by hand not less than an average of 200 cattle (EPA Licence) or 1,600 sheep or goats per day over any period of 12 months, but excluding any such operation carried on at an abattoir, slaughterhouse or saleyard or for the purpose only of drought or other emergency feeding.</p>			

<p>Piggeries - being the conduct of a piggery (being premises having confined or roofed structures for keeping pigs) with a capacity of 130 or more standard pig units. (EPA licence required at 650 or more standard pig units)</p>		
<p>Dairies - being the carrying on of a dairy with a total processing capacity exceeding more than 100 milking animals at any 1 time.</p>		

## Water Resources Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

<b>Desired Outcome</b>	
DO 1	Protection of the quality of surface waters taking into account the projected reductions in rainfall and warmer air temperatures as a result of climate change.
DO 2	Maintain the conveyance function and natural flow paths of watercourses to assist in the management of flood waters and stormwater runoff.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

<b>Performance Outcome</b>	<b>Deemed-to-Satisfy Criteria / Designated Performance Feature</b>
Water Catchment	
<p>PO 1.1</p> <p>Watercourses and their beds, banks, wetlands and floodplains (1:100 AEP flood extent) are not damaged or modified and are retained in their natural state, except where modification is required for essential access or maintenance purposes.</p>	<p>DTS/DPF 1.1</p> <p>None are applicable.</p>
<p>PO 1.2</p> <p>Development avoids interfering with the hydrology or water regime of swamps and wetlands.</p>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>

<p>PO 1.3</p> <p>Wetlands and low-lying areas providing habitat for native flora and fauna are not drained, except temporarily for essential management purposes to enhance environmental values.</p>	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>
<p>PO 1.4</p> <p>Watercourses, areas of remnant native vegetation, or areas prone to erosion that are capable of natural regeneration are fenced off to limit stock access.</p>	<p>DTS/DPF 1.4</p> <p>None are applicable.</p>
<p>PO 1.5</p> <p>Development that increases surface water run-off includes a suitably sized strip of vegetated land on each side of a watercourse to filter runoff to:</p> <ul style="list-style-type: none"> <li>(a) reduce the impacts on native aquatic ecosystems</li> <li>(b) minimise soil loss eroding into the watercourse.</li> </ul>	<p>DTS/DPF 1.5</p> <p>A strip of land 20m or more wide measured from the top of existing banks on each side of the watercourse is free from development, livestock use and revegetated with locally indigenous vegetation.</p>
<p>PO 1.6</p> <p>Development resulting in the depositing or placing of an object or solid material in a watercourse or lake occurs only where it involves any of the following:</p> <ul style="list-style-type: none"> <li>(a) the construction of an erosion control structure</li> <li>(b) devices or structures used to extract or regulate water flowing in a watercourse</li> <li>(c) devices used for scientific purposes</li> <li>(d) the rehabilitation of watercourses.</li> </ul>	<p>DTS/DPF 1.6</p> <p>None are applicable.</p>
<p>PO 1.7</p> <p>Watercourses, floodplains (1:100 AEP flood extent) and wetlands protected and enhanced by retaining and protecting existing native vegetation.</p>	<p>DTS/DPF 1.7</p> <p>None are applicable.</p>
<p>PO 1.8</p> <p>Watercourses, floodplains (1:100 AEP flood extent) and wetlands are protected and enhanced by stabilising watercourse banks and reducing sediments and nutrients entering the watercourse.</p>	<p>DTS/DPF 1.8</p> <p>None are applicable.</p>
<p>PO 1.9</p> <p>Dams, water tanks and diversion drains are located and constructed to maintain the quality and quantity of flows required to meet environmental and downstream needs.</p>	<p>DTS/DPF 1.9</p> <p>None are applicable.</p>

### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

## Part 4 - General Development Policies

### Advertisements

#### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Advertisements and advertising hoardings are appropriate to context, efficient and effective in communicating with the public, limited in number to avoid clutter, and do not create hazard.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Appearance	
PO 1.1 Advertisements are compatible and integrated with the design of the building and/or land they are located on.	DTS/DPF 1.1 Advertisements attached to a building: <ul style="list-style-type: none"> <li>(a) if located below canopy level, are flush with a wall</li> <li>(b) if located at canopy level, are in the form of a fascia sign</li> <li>(c) if located above a canopy:                             <ul style="list-style-type: none"> <li>(i) are flush with a wall</li> <li>(ii) do not have any part rising above parapet height</li> <li>(iii) are not attached to the roof of the building.</li> </ul> </li> <li>(d) if attached to a verandah, no part of the advertisement protrudes beyond the outer limits of the verandah structure</li> <li>(e) if attached to a two-storey building, have no part located above the finished floor level of the second storey of the building</li> <li>(f) where they are flush with a wall, do not, in combination with any other existing sign, cover more than 15% of the building facade to which they are attached.</li> </ul>

<p>PO 1.2</p> <p>Advertisements conceal their supporting structure.</p>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
<p>PO 1.3</p> <p>Advertising does not encroach on public land or the land of an adjacent allotment.</p>	<p>DTS/DPF 1.3</p> <p>Advertisements and/or advertising hoardings are contained within the boundaries of the site.</p>
<p>PO 1.4</p> <p>Where possible, advertisements on public land are integrated with existing structures and infrastructure.</p>	<p>DTS/DPF 1.4</p> <p>Advertisements on public land:</p> <ul style="list-style-type: none"> <li>(a) achieves Advertisements DTS/DPF 1.1</li> <li>or</li> <li>(b) are integrated with a bus shelter.</li> </ul>
<p>PO 1.5</p> <p>Advertisements and/or advertising hoardings are of a scale and size appropriate to the character of the locality.</p>	<p>DTS/DPF 1.5</p> <p>None are applicable.</p>
<p>Proliferation of Advertisements</p>	
<p>PO 2.1</p> <p>Proliferation of advertisements is minimised to avoid visual clutter and untidiness.</p>	<p>DTS/DPF 2.1</p> <p>No more than one freestanding advertisement is displayed per occupancy.</p>
<p>PO 2.2</p> <p>Multiple business or activity advertisements are co-located and coordinated to avoid visual clutter and untidiness.</p>	<p>DTS/DPF 2.2</p> <p>Advertising of a multiple business or activity complex is located on a single advertisement fixture or structure.</p>
<p>Advertising Content</p>	
<p>PO 3.1</p> <p>Advertisements are primarily limited to information relating to the lawful use of land they are located on to assist is the ready identification of the activity or activities on the land and have limited unrelated content that contributes to visual clutter and untidiness.</p>	<p>DTS/DPF 3.1</p> <p>Advertisements contain information limited to a lawful existing or proposed activity or activities on the same site as the advertisement.</p>
<p>Amenity Impacts</p>	
<p>PO 4.1</p> <p>Light spill from advertisement illumination does not unreasonably compromise the amenity of sensitive receivers.</p>	<p>DTS/DPF 4.1</p> <p>Advertisements do not incorporate any illumination.</p>
<p>Safety</p>	

<p>PO 5.1</p> <p>Advertisements and/or advertising hoardings erected on a verandah or projecting from a building wall are designed and located to allow for safe and convenient pedestrian access.</p>	<p>DTS/DPF 5.1</p> <p>Advertisements have a minimum clearance of 2.5m between the top of the footpath and base of the underside of the sign.</p>
<p>PO 5.2</p> <p>Advertisements and/or advertising hoardings do not distract or create a hazard to drivers through excessive illumination.</p>	<p>DTS/DPF 5.2</p> <p>No advertisement illumination is proposed.</p>
<p>PO 5.3</p> <p>Advertisements and/or advertising hoardings do not create a hazard to drivers by:</p> <ul style="list-style-type: none"> <li>(a) being liable to interpretation by drivers as an official traffic sign or signal</li> <li>(b) obscuring or impairing drivers' view of official traffic signs or signals</li> <li>(c) obscuring or impairing drivers' view of features of a road that are potentially hazardous (such as junctions, bends, changes in width and traffic control devices) or other road or rail vehicles at/or approaching level crossings.</li> </ul>	<p>DTS/DPF 5.3</p> <p>Advertisements are:</p> <ul style="list-style-type: none"> <li>(a) not located in a public road or rail reserve</li> <li>(b) located wholly outside the land shown as 'Corner Cut-Off Area' in the following diagram</li> </ul>  <p>The diagram illustrates a road corner. A dashed line represents the 'Allotment Boundary'. A solid line represents the 'Road Reserve', which is 4.5M wide. A shaded triangular area at the corner is labeled 'Corner Cut-Off Area', also 4.5M wide. The road reserve is shown as a dashed line extending from the corner cut-off area.</p>
<p>PO 5.4</p> <p>Advertisements and/or advertising hoardings do not create a hazard by distracting drivers from the primary driving task at a location where the demands on driver concentration are high.</p>	<p>DTS/DPF 5.4</p> <p>Advertisements and/or advertising hoardings are not located along or adjacent to a road having a speed limit of 80km/h or more.</p>
<p>PO 5.5</p> <p>Advertisements and/or advertising hoardings provide sufficient clearance from the road carriageway to allow for safe and convenient movement by all road users.</p>	<p>DTS/DPF 5.5</p> <p>Where the advertisement or advertising hoarding is:</p> <ul style="list-style-type: none"> <li>(a) on a kerbed road with a speed zone of 60km/h or less, the advertisement or advertising hoarding is located at least 0.6m from the roadside edge of the kerb</li> <li>(b) on an unkerbed road with a speed zone of 60km/h or less, the advertisement or advertising hoarding is located at least 5.5m from the edge of the seal</li> <li>(c) on any other kerbed or unkerbed road, the advertisement or advertising hoarding is located a minimum of the following distance from the roadside edge of the kerb or the seal: <ul style="list-style-type: none"> <li>(a) 10 km/h road - 14m</li> <li>(b) 100 km/h road - 13m</li> <li>(c) 90 km/h road - 10m</li> <li>(d) 70 or 80 km/h road - 8.5m.</li> </ul> </li> </ul>

**Assessment Provisions (AP)**

Desired Outcome (DO)

<b>Desired Outcome</b>	
<b>DO 1</b>	Animals are kept at a density that is not beyond the carrying capacity of the land and in a manner that minimises their adverse effects on the environment, local amenity and surrounding development.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

<b>Performance Outcome</b>	<b>Deemed-to-Satisfy Criteria / Designated Performance Feature</b>
Siting and Design	
PO 1.1 Animal keeping, horse keeping and associated activities do not create adverse impacts on the environment or the amenity of the locality.	DTS/DPF 1.1 None are applicable.
PO 1.2 Animal keeping and horse keeping is located and managed to minimise the potential transmission of disease to other operations where animals are kept.	DTS/DPF 1.2 None are applicable.
Horse Keeping	
PO 2.1 Water from stable wash-down areas is directed to appropriate absorption areas and/or drainage pits to minimise pollution of land and water.	DTS/DPF 2.1 None are applicable.
PO 2.2 Stables, horse shelters or associated yards are sited appropriate distances away from sensitive receivers and/or allotments in other ownership to avoid adverse impacts from dust, erosion and odour.	DTS/DPF 2.2 Stables, horse shelters and associated yards are sited in accordance with the following: <ul style="list-style-type: none"> <li>(a) 30m or more from any sensitive receivers (existing or approved) on land in other ownership</li> <li>(b) where an adjacent allotment is vacant and in other ownership, 30m or more from the boundary of that allotment.</li> </ul>

<p>PO 2.3</p> <p>All areas accessible to horses are separated from septic tank effluent disposal areas to protect the integrity of that system. Stable flooring is constructed with an impervious material to facilitate regular cleaning.</p>	<p>DTS/DPF 2.3</p> <p>Septic tank effluent disposal areas are enclosed with a horse-proof barrier such as a fence to exclude horses from this area.</p>
<p>PO 2.4</p> <p>To minimise environmental harm and adverse impacts on water resources, stables, horse shelters and associated yards are appropriately set back from a watercourse.</p>	<p>DTS/DPF 2.4</p> <p>Stables, horse shelters and associated yards are set back 50m or more from a watercourse.</p>
<p>PO 2.5</p> <p>Stables, horse shelters and associated yards are located on slopes that are stable to minimise the risk of soil erosion and water runoff.</p>	<p>DTS/DPF 2.5</p> <p>Stables, horse shelters and associated yards are not located on land with a slope greater than 10% (1-in-10).</p>
<p>Kennels</p>	
<p>PO 3.1</p> <p>Kennel flooring is constructed with an impervious material to facilitate regular cleaning.</p>	<p>DTS/DPF 3.1</p> <p>The floors of kennels are:</p> <ul style="list-style-type: none"> <li>(a) constructed of impervious concrete</li> <li>(b) designed to be self-draining when washed down.</li> </ul>
<p>PO 3.2</p> <p>Kennels and exercise yards are designed and sited to minimise noise nuisance to neighbours through measures such as:</p> <ul style="list-style-type: none"> <li>(a) adopting appropriate separation distances</li> <li>(b) orientating openings away from sensitive receivers.</li> </ul>	<p>DTS/DPF 3.2</p> <p>Kennels are sited 500m or more from the nearest sensitive receiver on land in other ownership.</p>
<p>PO 3.3</p> <p>Dogs are regularly observed and managed to minimise nuisance impact on adjoining sensitive receivers from animal behaviour.</p>	<p>DTS/DPF 3.3</p> <p>Kennels are sited in association with a permanent dwelling on the land.</p>
<p>Wastes</p>	
<p>PO 4.1</p> <p>Storage of manure, used litter and other wastes (other than wastewater lagoons) is sited, designed, constructed and managed to:</p> <ul style="list-style-type: none"> <li>(a) avoid attracting and harbouring vermin</li> <li>(b) avoid polluting water resources</li> <li>(c) be located outside 1% AEP flood event areas.</li> </ul>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>

**Assessment Provisions (AP)**

Desired Outcome (DO)

<b>Desired Outcome</b>	
<b>DO 1</b>	Aquaculture facilities are developed in an ecologically, economically and socially sustainable manner to support an equitable sharing of marine, coastal and inland resources and mitigate conflict with other water-based and land-based uses.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

<b>Performance Outcome</b>	<b>Deemed-to-Satisfy Criteria / Designated Performance Feature</b>
Land-based Aquaculture	
<b>PO 1.1</b> Land-based aquaculture and associated components are sited and designed to mitigate adverse impacts on nearby sensitive receivers.	<b>DTS/DPF 1.1</b> Land-based aquaculture and associated components are located: <ul style="list-style-type: none"> <li>(a) 200m or more from a sensitive receiver in other ownership</li> <li>(b) 500m or more from the boundary of a zone primarily intended to accommodate sensitive receivers.</li> </ul>
<b>PO 1.2</b> Land-based aquaculture and associated components are sited and designed to prevent surface flows from entering ponds in a 1% AEP sea flood level event.	<b>DTS/DPF 1.2</b> None are applicable.
<b>PO 1.3</b> Land-based aquaculture and associated components are sited and designed to prevent pond leakage that would pollute groundwater.	<b>DTS/DPF 1.3</b> None are applicable.
<b>PO 1.4</b> Land-based aquaculture and associated components are sited and designed to prevent farmed species escaping and entering into any waters.	<b>DTS/DPF 1.4</b> None are applicable.
<b>PO 1.5</b> Land-based aquaculture and associated components, including intake and discharge pipes, are designed to minimise the need to traverse sensitive areas to minimise impact on the natural environment.	<b>DTS/DPF 1.5</b> None are applicable.

<p>PO 1.6</p> <p>Pipe inlets and outlets associated with land-based aquaculture are sited and designed to minimise the risk of disease transmission.</p>	<p>DTS/DPF 1.6</p> <p>None are applicable.</p>
<p>PO 1.7</p> <p>Storage areas associated with aquaculture activity are integrated with the use of the land and sited and designed to minimise their visual impact on the surrounding environment.</p>	<p>DTS/DPF 1.7</p> <p>None are applicable.</p>
<p>Marine Based Aquaculture</p>	
<p>PO 2.1</p> <p>Marine aquaculture is sited and designed to minimise its adverse impacts on sensitive ecological areas including:</p> <ul style="list-style-type: none"> <li>(a) creeks and estuaries</li> <li>(b) wetlands</li> <li>(c) significant seagrass and mangrove communities</li> <li>(d) marine habitats and ecosystems.</li> </ul>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
<p>PO 2.2</p> <p>Marine aquaculture is sited in areas with adequate water current to disperse sediments and dissolve particulate wastes to prevent the build-up of waste that may cause environmental harm.</p>	<p>DTS/DPF 2.2</p> <p>None are applicable.</p>
<p>PO 2.3</p> <p>Marine aquaculture is designed to not involve discharge of human waste on the site, on any adjacent land or into nearby waters.</p>	<p>DTS/DPF 2.3</p> <p>None are applicable.</p>
<p>PO 2.4</p> <p>Marine aquaculture (other than inter-tidal aquaculture) is located an appropriate distance seaward of the high water mark.</p>	<p>DTS/DPF 2.4</p> <p>Marine aquaculture development is located 100m or more seaward of the high water mark.</p>
<p>PO 2.5</p> <p>Marine aquaculture is sited and designed to not obstruct or interfere with:</p> <ul style="list-style-type: none"> <li>(a) areas of high public use</li> <li>(b) areas, including beaches, used for recreational activities such as swimming, fishing, skiing, sailing and other water sports</li> <li>(c) areas of outstanding visual or environmental value</li> <li>(d) areas of high tourism value</li> <li>(e) areas of important regional or state economic activity, including commercial ports, wharfs and jetties</li> <li>(f) the operation of infrastructure facilities including inlet and outlet pipes associated with the desalination of sea water.</li> </ul>	<p>DTS/DPF 2.5</p> <p>None are applicable.</p>

<p>PO 2.6</p> <p>Marine aquaculture is sited and designed to minimise interference and obstruction to the natural processes of the coastal and marine environment.</p>	<p>DTS/DPF 2.6</p> <p>None are applicable.</p>
<p>PO 2.7</p> <p>Marine aquaculture is designed to be as unobtrusive as practicable by incorporating measures such as:</p> <ul style="list-style-type: none"> <li>(a) using feed hoppers that are painted in subdued colours and suspended as close as possible to the water surface</li> <li>(b) positioning structures to protrude the minimum distance practicable above the water surface</li> <li>(c) avoiding the use of shelters and structures above cages and platforms unless necessary to exclude predators and protected species from interacting with the farming structures and/or stock inside the cages, or for safety reasons</li> <li>(d) positioning racks, floats and other farm structures in unobtrusive locations from the shoreline.</li> </ul>	<p>DTS/DPF 2.7</p> <p>None are applicable.</p>
<p>PO 2.8</p> <p>Access, launching and maintenance facilities utilise existing established roads, tracks, ramps and paths to or from the sea where possible.</p>	<p>DTS/DPF 2.8</p> <p>None are applicable.</p>
<p>PO 2.9</p> <p>Access, launching and maintenance facilities are developed as common user facilities and are co-located where practicable to mitigate adverse impacts on coastal areas.</p>	<p>DTS/DPF 2.9</p> <p>None are applicable.</p>
<p>PO 2.10</p> <p>Marine aquaculture is sited to minimise potential impacts on, and to protect the integrity of, reserves under the <i>National Parks and Wildlife Act 1972</i>.</p>	<p>DTS/DPF 2.10</p> <p>Marine aquaculture is located 1000m or more seaward of the boundary of any reserve under the <i>National Parks and Wildlife Act 1972</i>.</p>
<p>PO 2.11</p> <p>Onshore storage, cooling and processing facilities do not impair the coastline and its visual amenity and are:</p> <ul style="list-style-type: none"> <li>(a) sited, designed, landscaped and developed at a scale that minimise any adverse visual impact on the coastal landscape</li> <li>(b) sited and designed with appropriate vehicular access arrangements</li> <li>(c) incorporate appropriate waste treatment and disposal.</li> </ul>	<p>DTS/DPF 2.11</p> <p>None are applicable.</p>

<p>PO 3.1</p> <p>Marine aquaculture sites are suitably marked to maintain navigational safety.</p>	<p>DTS/DPF 3.1</p> <p>None are applicable.</p>
<p>PO 3.2</p> <p>Marine aquaculture is sited to provide adequate separation between farms for safe navigation.</p>	<p>DTS/DPF 3.2</p> <p>None are applicable.</p>
<p>Environmental Management</p>	
<p>PO 4.1</p> <p>Marine aquaculture is maintained to prevent hazards to people and wildlife, including breeding grounds and habitats of native marine mammals and terrestrial fauna, especially migratory species.</p>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>
<p>PO 4.2</p> <p>Marine aquaculture is designed to facilitate the relocation or removal of structures in the case of emergency such as oil spills, algal blooms and altered water flows.</p>	<p>DTS/DPF 4.2</p> <p>None are applicable.</p>
<p>PO 4.3</p> <p>Marine aquaculture provides for progressive or future reclamation of disturbed areas ahead of, or upon, decommissioning.</p>	<p>DTS/DPF 4.3</p> <p>None are applicable.</p>
<p>PO 4.4</p> <p>Aquaculture operations incorporate measures to ensure satisfactory removal and disposal of litter, disused material, shells, debris, detritus, dead animals and animal waste to prevent pollution of waters, wetlands, or the nearby coastline.</p>	<p>DTS/DPF 4.4</p> <p>None are applicable.</p>

## Beverage Production in Rural Areas

### Assessment Provisions (AP)

Desired Outcome (DO)

<h2>Desired Outcome</h2>	
<p>DO 1</p>	<p>Mitigation of potential amenity and environmental impacts of value-adding beverage production facilities such as wineries, distilleries, cideries and breweries.</p>

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

<b>Performance Outcome</b>	<b>Deemed-to-Satisfy Criteria / Designated Performance Feature</b>
Odour and Noise	
PO 1.1 Beverage production activities are designed and sited to minimise odour impacts on rural amenity.	DTS/DPF 1.1 None are applicable.
PO 1.2 Beverage production activities are designed and sited to minimise noise impacts on sensitive receivers.	DTS/DPF 1.2 None are applicable.
PO 1.3 Fermentation, distillation, manufacturing, storage, packaging and bottling activities occur within enclosed buildings.	DTS/DPF 1.3 None are applicable.
PO 1.4 Breweries are designed to minimise odours emitted during boiling and fermentation stages of production.	DTS/DPF 1.4 Brew kettles are fitted with a vapour condenser.
PO 1.5 Beverage production solid wastes are stored in a manner that minimises odour impacts on sensitive receivers in other ownership.	DTS/DPF 1.5 Solid waste from beverage production is collected and stored in sealed containers and removed from the site within 48 hours.
Water Quality	
PO 2.1 Beverage production wastewater management systems (including wastewater irrigation) are set back from watercourses to minimise adverse impacts on water resources.	DTS/DPF 2.1 Wastewater management systems are set back 50m or more from the banks of watercourses and bores.
PO 2.2 Water resources are protected from pollution by ensuring development does not involve the storage or disposal of chemicals or hazardous substances in a manner that would pose a water pollution risk.	DTS/DPF 2.2 None are applicable.
PO 2.3 Stormwater runoff from areas subject to contamination by beverage production activities (including vehicle movements and machinery operations) is drained to an onsite stormwater treatment system.	DTS/DPF 2.3 None are applicable.

<p>PO 2.4</p> <p>Stormwater runoff from areas not likely to be subject to contamination by beverage production and associated activities (such as roof catchments and clean hard-paved surfaces) is diverted away from beverage production areas and wastewater management systems.</p>	<p>DTS/DPF 2.4</p> <p>None are applicable.</p>
<p>Wastewater Irrigation</p>	
<p>PO 3.1</p> <p>Beverage production wastewater irrigation systems are designed and located to not contaminate soil and surface and ground water resources or damage crops.</p>	<p>DTS/DPF 3.1</p> <p>None are applicable.</p>
<p>PO 3.2</p> <p>Beverage production wastewater irrigation systems are designed and located to minimise impact on amenity and avoid spray drift onto adjoining land.</p>	<p>DTS/DPF 3.2</p> <p>Beverage production wastewater is not irrigated within 50m of any dwelling in other ownership.</p>
<p>PO 3.3</p> <p>Beverage production wastewater is not irrigated onto:</p> <ul style="list-style-type: none"> <li>(a) waterlogged areas</li> <li>(b) land within 50m of a creek, swamp or domestic or stock water bore</li> <li>(c) land subject to flooding</li> <li>(d) steeply sloping land</li> <li>(e) rocky or highly permeable soil overlaying an unconfined aquifer.</li> </ul>	<p>DTS/DPF 3.3</p> <p>None are applicable.</p>

## Bulk Handling and Storage Facilities

### Assessment Provisions (AP)

Desired Outcome (DO)

<h2 style="margin: 0;">Desired Outcome</h2>	
<p>DO 1</p>	<p>Facilities for the bulk handling and storage of agricultural, mineral, petroleum, rock, ore or other similar commodities are designed to minimise adverse impacts on transport networks, the landscape and surrounding land uses.</p>

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Siting and Design	
<p>PO 1.1</p> <p>Bulk handling and storage facilities are sited and designed to minimise risks of adverse air quality and noise impacts on sensitive receivers.</p>	<p>DTS/DPF 1.1</p> <p>Facilities for the handling, storage and dispatch of commodities in bulk (excluding processing) meet the following minimum separation distances from sensitive receivers:</p> <ul style="list-style-type: none"> <li>(a) bulk handling of agricultural crop products, rock, ores, minerals, petroleum products or chemicals at a wharf or wharf side facility (including sea-port grain terminals), where the handling of these materials into or from vessels does not exceed 100 tonnes per day: 300m or more from residential premises not associated with the facility</li> <li>(b) bulk handling of agricultural crop products, rock, ores, minerals, petroleum products or chemicals to or from any commercial storage facility: 300m or more from residential premises not associated with the facility</li> <li>(c) bulk petroleum storage involving individual containers with a capacity up to 200 litres and a total on-site storage capacity not exceeding 1,000 cubic metres: 500m or more</li> <li>(d) coal handling with:                             <ul style="list-style-type: none"> <li>a. capacity up to 1 tonne per day or a storage capacity up to 50 tonnes: 500m or more</li> <li>b. capacity exceeding 1 tonne per day but not exceeding 100 tonnes per day or a storage capacity exceeding 50 tonnes but not exceeding 5000 tonnes: 1000m or more.</li> </ul> </li> </ul>
Buffers and Landscaping	
<p>PO 2.1</p> <p>Bulk handling and storage facilities incorporate a buffer area for the establishment of dense landscaping adjacent road frontages.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
<p>PO 2.2</p> <p>Bulk handling and storage facilities incorporate landscaping to assist with screening and dust filtration.</p>	<p>DTS/DPF 2.2</p> <p>None are applicable.</p>
Access and Parking	
<p>PO 3.1</p> <p>Roadways and vehicle parking areas associated with bulk handling and storage facilities are designed and surfaced to control dust emissions and prevent drag out of material from the site.</p>	<p>DTS/DPF 3.1</p> <p>Roadways and vehicle parking areas are sealed with an all-weather surface.</p>
Slipways, Wharves and Pontoons	

<p>PO 4.1</p> <p>Slipways, wharves and pontoons used for the handling of bulk materials (such as fuel, oil, catch, bait and the like) incorporate catchment devices to avoid the release of materials into adjacent waters.</p>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>
---	--

### Clearance from Overhead Powerlines

#### Assessment Provisions (AP)

Desired Outcome (DO)

<h3 style="text-align: center;">Desired Outcome</h3>	
<p>DO 1</p>	<p>Protection of human health and safety when undertaking development in the vicinity of overhead transmission powerlines.</p>

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

<h3 style="text-align: center;">Performance Outcome</h3>	<h3 style="text-align: center;">Deemed-to-Satisfy Criteria / Designated Performance Feature</h3>
<p>PO 1.1</p> <p>Buildings are adequately separated from aboveground powerlines to minimise potential hazard to people and property.</p>	<p>DTS/DPF 1.1</p> <p>One of the following is satisfied:</p> <ul style="list-style-type: none"> <li>(a) a declaration is provided by or on behalf of the applicant to the effect that the proposal would not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i></li> <li style="text-align: center;">or</li> <li>(b) there are no aboveground powerlines adjoining the site that are the subject of the proposed development.</li> </ul>

### Design

#### Assessment Provisions (AP)

Desired Outcome (DO)

<h3 style="text-align: center;">Desired Outcome</h3>
--

DO 1	<p>Development is:</p> <ul style="list-style-type: none"> <li>(a) contextual - responds to its natural surroundings and positively contributes to the character of the immediate area</li> <li>(b) durable - is fit for purpose, adaptable and long lasting</li> <li>(c) inclusive - integrates landscape design to optimise pedestrian and cyclist usability, privacy and equitable access, and also promotes the provision of quality spaces integrated with the public realm that can be used for access and recreation and help optimise security and safety both internally and within the public realm, for occupants and visitors</li> <li>(d) sustainable - integrates sustainable techniques into the design and siting of development and landscaping to improve community health, urban heat, water management, environmental performance, biodiversity and local amenity and to minimise energy consumption.</li> </ul>
------	---

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
All development	
External Appearance	
<p>PO 1.1</p> <p>Buildings reinforce corners through changes in setback, articulation, materials, colour and massing (including height, width, bulk, roof form and slope).</p>	<p>DTS/DPF 1.1</p> <p>None are applicable.</p>
<p>PO 1.2</p> <p>Where zero or minor setbacks are desirable, development provides shelter over footpaths to positively contribute to the walkability and comfort of the public realm.</p>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
<p>PO 1.3</p> <p>Buildings (other than ancillary buildings, group dwellings or buildings on a battle-axe allotment) are designed so that the main façade faces the primary street frontage.</p>	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>
<p>PO 1.4</p> <p>Plant, exhaust and intake vents and other technical equipment is integrated into the building design to minimise visibility from the public realm and negative impacts on residential amenity by:</p> <ul style="list-style-type: none"> <li>(a) positioning plant and equipment in unobtrusive locations viewed from public roads and spaces</li> <li>(b) screening rooftop plant and equipment from view</li> <li>(c) when located on the roof of non-residential development, locating the plant and equipment as far as practicable from adjacent sensitive land uses.</li> </ul>	<p>DTS/DPF 1.4</p> <p>Development does not incorporate any structures that protrude beyond the roofline.</p>

PO 1.5	DTS/DPF 1.5
The negative visual impact of outdoor storage, waste management, loading and service areas is minimised by integrating them into the building design and screening them from public view (such as fencing, landscaping and built form) taking into account the form of development contemplated in the relevant zone.	None are applicable.
<b>Safety</b>	
PO 2.1	DTS/DPF 2.1
Development maximises opportunities for passive surveillance of the public realm by providing clear lines of sight, appropriate lighting and the use of visually permeable screening wherever practicable.	None are applicable.
PO 2.2	DTS/DPF 2.2
Development is designed to differentiate public, communal and private areas.	None are applicable.
PO 2.3	DTS/DPF 2.3
Buildings are designed with safe, perceptible and direct access from public street frontages and vehicle parking areas.	None are applicable.
PO 2.4	DTS/DPF 2.4
Development at street level is designed to maximise opportunities for passive surveillance of adjacent public realm.	None are applicable.
PO 2.5	DTS/DPF 2.5
Common areas and entry points of buildings (such as the foyer areas of residential buildings), and non-residential land uses at street level, maximise passive surveillance from the public realm to the inside of the building at night.	None are applicable.
<b>Landscaping</b>	
PO 3.1	DTS/DPF 3.1
Soft landscaping and tree planting is incorporated to: <ul style="list-style-type: none"> <li>(a) minimise heat absorption and reflection</li> <li>(b) maximise shade and shelter</li> <li>(c) maximise stormwater infiltration</li> <li>(d) enhance the appearance of land and streetscapes.</li> </ul>	None are applicable.
<b>Environmental Performance</b>	

<p>PO 4.1</p> <p>Buildings are sited, oriented and designed to maximise natural sunlight access and ventilation to main activity areas, habitable rooms, common areas and open spaces.</p>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>
<p>PO 4.2</p> <p>Buildings are sited and designed to maximise passive environmental performance and minimise energy consumption and reliance on mechanical systems, such as heating and cooling.</p>	<p>DTS/DPF 4.2</p> <p>None are applicable.</p>
<p>PO 4.3</p> <p>Buildings incorporate climate-responsive techniques and features such as building and window orientation, use of eaves, verandahs and shading structures, water harvesting, at ground landscaping, green walls, green roofs and photovoltaic cells.</p>	<p>DTS/DPF 4.3</p> <p>None are applicable.</p>
<b>Water Sensitive Design</b>	
<p>PO 5.1</p> <p>Development is sited and designed to maintain natural hydrological systems without negatively impacting:</p> <ul style="list-style-type: none"> <li>(a) the quantity and quality of surface and groundwater</li> <li>(b) the depth and directional flow of surface and groundwater</li> <li>(c) the quality and function of natural springs.</li> </ul>	<p>DTS/DPF 5.1</p> <p>None are applicable.</p>
<b>On-site Waste Treatment Systems</b>	
<p>PO 6.1</p> <p>Dedicated on-site effluent disposal areas do not include any areas to be used for, or could be reasonably foreseen to be used for, private open space, driveways or car parking.</p>	<p>DTS/DPF 6.1</p> <p>Effluent disposal drainage areas do not:</p> <ul style="list-style-type: none"> <li>(a) encroach within an area used as private open space or result in less private open space than that specified in Design [Residential Development - Private Open Space] DTS/DPF 15.1</li> <li>(b) use an area also used as a driveway</li> <li>(c) encroach within an area used for on-site car parking or result in less on-site car parking than that specified in Transport, Access and Parking [Vehicle Parking Rates] DTS/DPF 5.1.</li> </ul>
<b>Carparking Appearance</b>	
<p>PO 7.1</p> <p>Development facing the street is designed to minimise the negative impacts of any semi-basement and undercroft car parking on the street scape.</p>	<p>DTS/DPF 7.1</p> <p>The protrusion of undercroft car parks does not exceed 1.2m above finished ground level and is screened through appropriate plantings, except in a location or zone where a continuous ground floor façade aligned with the front property boundary is desired.</p>

<p>PO 7.2</p> <p>Vehicle parking areas are appropriately located, designed and constructed to minimise impacts on adjacent sensitive receivers through measures such as ensuring they are attractively developed and landscaped, and screen fenced.</p>	<p>DTS/DPF 7.2</p> <p>None are applicable.</p>
<p>PO 7.3</p> <p>Pedestrian connections are safe, legible, direct and accessible and are provided between parking areas and the development.</p>	<p>DTS/DPF 7.3</p> <p>None are applicable.</p>
<p>PO 7.4</p> <p>Street level vehicle parking areas incorporate tree planting to provide shade and reduce solar heat absorption and reflection.</p>	<p>DTS/DPF 7.4</p> <p>None are applicable.</p>
<p>PO 7.5</p> <p>Street level parking areas incorporate soft landscaping to improve visual appearance when viewed from within the site and from public places.</p>	<p>DTS/DPF 7.5</p> <p>None are applicable.</p>
<p>PO 7.6</p> <p>Vehicle parking areas and associated driveways are landscaped to shade and positively contribute to amenity.</p>	<p>DTS/DPF 7.6</p> <p>None are applicable.</p>
<p>PO 7.7</p> <p>Vehicle parking areas and access ways incorporate integrated stormwater management techniques such as permeable or porous surfaces, infiltration systems, drainage swales or rain gardens that integrate with soft landscaping.</p>	<p>DTS/DPF 7.7</p> <p>None are applicable.</p>
<p>Earthworks and sloping land</p>	
<p>PO 8.1</p> <p>Development, including any associated driveways and access tracks, minimises the need for earthworks to limit disturbance to natural topography.</p>	<p>DTS/DPF 8.1</p> <p>Development does not involve:</p> <ul style="list-style-type: none"> <li>(a) excavation exceeding a vertical height of 1m or</li> <li>(b) filling exceeding a vertical height of 1m or</li> <li>(c) a total combined excavation and filling vertical height of 2m or more.</li> </ul>

<p>PO 8.2</p> <p>Driveways and access tracks are designed and constructed to allow safe and convenient access on sloping land (with a gradient exceeding 1 in 8).</p>	<p>DTS/DPF 8.2</p> <p>Driveways and access tracks on sloping land (with a gradient exceeding 1 in 8):</p> <ul style="list-style-type: none"> <li>(a) do not have a gradient exceeding 25% (1-in-4) at any point along the driveway</li> <li>(b) are constructed with an all-weather trafficable surface.</li> </ul>
<p>PO 8.3</p> <p>Driveways and access tracks on sloping land (with a gradient exceeding 1 in 8):</p> <ul style="list-style-type: none"> <li>(a) do not contribute to the instability of embankments and cuttings</li> <li>(b) provide level transition areas for the safe movement of people and goods to and from the development</li> <li>(c) are designed to integrate with the natural topography of the land.</li> </ul>	<p>DTS/DPF 8.3</p> <p>None are applicable.</p>
<p>PO 8.4</p> <p>Development on sloping land (with a gradient exceeding 1 in 8) avoids the alteration of natural drainage lines and includes on-site drainage systems to minimise erosion.</p>	<p>DTS/DPF 8.4</p> <p>None are applicable.</p>
<p>PO 8.5</p> <p>Development does not occur on land at risk of landslip or increases the potential for landslip or land surface instability.</p>	<p>DTS/DPF 8.5</p> <p>None are applicable.</p>
<p>Fences and Walls</p>	
<p>PO 9.1</p> <p>Fences, walls and retaining walls are of sufficient height to maintain privacy and security without unreasonably impacting the visual amenity and adjoining land's access to sunlight or the amenity of public places.</p>	<p>DTS/DPF 9.1</p> <p>None are applicable.</p>
<p>PO 9.2</p> <p>Landscaping incorporated on the low side of retaining walls is visible from public roads and public open space to minimise visual impacts.</p>	<p>DTS/DPF 9.2</p> <p>A vegetated landscaped strip 1m wide or more is provided against the low side of a retaining wall.</p>
<p>Residential development</p>	
<p>Fenestration and passive surveillance</p>	

<p>PO 10.1</p> <p>Dwellings incorporate windows along primary street frontages to encourage passive surveillance and make a positive contribution to the streetscape.</p>	<p>DTS/DPF 10.1</p> <p>Each dwelling with a frontage to a public street:</p> <ul style="list-style-type: none"> <li>(a) includes at least one window facing the primary street from a habitable room</li> <li>(b) has an aggregate window area of at least 2m<sup>2</sup> facing the primary street.</li> </ul>
<p>Outlook and amenity</p>	
<p>PO 11.1</p> <p>Living rooms have an external outlook to provide a high standard of amenity for occupants.</p>	<p>DTS/DPF 11.1</p> <p>The primary living room of a dwelling incorporates a window with an outlook towards the street frontage or private open space.</p>
<p>PO 11.2</p> <p>Bedrooms are separated or shielded from active communal recreation areas, common access areas and vehicle parking areas and access ways to mitigate noise and artificial light intrusion.</p>	<p>DTS/DPF 11.2</p> <p>None are applicable.</p>
<p>Ancillary Development</p>	
<p>PO 12.1</p> <p>Residential ancillary buildings and structures are sited and designed to not detract from the streetscape or appearance of buildings on the site or neighbouring properties.</p>	<p>DTS/DPF 12.1</p> <p>None are applicable.</p>
<p>PO 12.2</p> <p>Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision or car parking requirements and do not result in over-development of the site.</p>	<p>DTS/DPF 12.2</p> <p>None are applicable.</p>
<p>PO 12.3</p> <p>Fixed plant and equipment in the form of pumps and/or filtration systems for a swimming pool or spa is positioned and/or housed to not cause unreasonable noise nuisance to adjacent sensitive receivers.</p>	<p>DTS/DPF 12.3</p> <p>The pump and/or filtration system is ancillary to a dwelling erected on the same site and is:</p> <ul style="list-style-type: none"> <li>(a) enclosed in a solid acoustic structure that is located at least 5m from the nearest habitable room located on an adjoining allotment or</li> <li>(b) located at least 12m from the nearest habitable room located on an adjoining allotment.</li> </ul>
<p>Garage appearance</p>	

<p>PO 13.1</p> <p>Garaging is designed to not detract from the streetscape or appearance of a dwelling.</p>	<p>DTS/DPF 13.1</p> <p>Garages and carports facing a street:</p> <ul style="list-style-type: none"> <li>(a) are situated so that no part of the garage or carport is in front of any part of the building line of the dwelling</li> <li>(b) are set back at least 5.5m from the boundary of the primary street</li> <li>(c) have a garage door / opening not exceeding 7m in width</li> <li>(d) have a garage door /opening width not exceeding 50% of the site frontage unless the dwelling has two or more building levels at the building line fronting the same public street.</li> </ul>
<p>Massing</p>	
<p>PO 13.2</p> <p>The visual mass of larger buildings is reduced when viewed from adjoining allotments or public streets.</p>	<p>DTS/DPF 13.2</p> <p>None are applicable</p>
<p>Dwelling additions</p>	

<p>PO 13.3</p> <p>Dwelling additions are sited and designed to not detract from the streetscape or amenity of adjoining properties and do not impede on-site functional requirements.</p>	<p>DTS / DPF 13.3</p> <p>Dwelling additions:</p> <ul style="list-style-type: none"> <li>(a) are not constructed, added to or altered so that any part is situated closer to a public street</li> <li>(b) do not result in:             <ul style="list-style-type: none"> <li>(i) excavation exceeding a vertical height of 1m</li> <li>(ii) filling exceeding a vertical height of 1m</li> <li>(iii) a total combined excavation and filling vertical height of 2m or more</li> <li>(iv) less Private Open Space than specified in Design [Residential Development - Private Open Space] DTS / DPF 15.1</li> <li>(v) less on-site parking than specified in Transport Access and Parking [Vehicle Parking Rates] DTS / DPF 5.1</li> <li>(vi) upper level windows facing side or rear boundaries unless:                 <ul style="list-style-type: none"> <li>A. they are permanently obscured to a height of 1.5m above finished floor level that is fixed or not capable of being opened more than 200mm or</li> <li>B. have sill heights greater than or equal to 1.5m above finished floor level or</li> <li>C. incorporate screening to a height of 1.5m above finished floor level</li> </ul> </li> <li>(vii) balconies or terraces on upper building levels (unless permanently obscured to a height of 1.7m above finished floor level) other than where the longest side of the balcony will face a road (including any road reserve) or reserve (including land held as open space) that is at least 15m wide in all places faced by the balcony.</li> </ul> </li> </ul>
---	--

Overlooking / Visual Privacy

<p>PO 14.1</p> <p>Development mitigates direct overlooking from upper level windows to habitable rooms and private open spaces of other dwellings.</p>	<p>DTS/DPF 14.1</p> <p>Upper level windows facing side or rear boundaries shared with another residential allotment/site:</p> <ul style="list-style-type: none"> <li>(a) are permanently obscured to a height of 1.5m above finished floor level and are fixed or not capable of being opened more than 200mm or</li> <li>(b) have sill heights greater than or equal to 1.5m above finished floor level or</li> <li>(c) incorporate screening to a height of 1.5m above finished floor level.</li> </ul>
--	---

<p>PO 14.2</p> <p>Development mitigates direct overlooking from balconies, terraces and decks to habitable rooms and private open space of other dwellings.</p>	<p>DTS/DPF 14.2</p> <p>All sides of balconies or terraces on upper building levels are permanently obscured to a height of 1.7m above finished floor level, other than where the longest side of the balcony will face a road (including any road reserve) or reserve (including land held as open space) that is at least 15m wide in all places faced by the balcony.</p>
<p>Private Open Space</p>	
<p>PO 15.1</p> <p>Dwellings are provided with suitable sized areas of usable private open space to meet the needs of occupants.</p>	<p>DTS/DPF 15.1</p> <p>Private open space is provided in accordance with Design Table 1 - Private Open Space.</p>
<p>Water Sensitive Design</p>	
<p>PO 16.1</p> <p>Residential development creating a common driveway / access includes stormwater management systems that minimise the discharge of sediment, suspended solids, organic matter, nutrients, bacteria, litter and other contaminants to the stormwater system, watercourses or other water bodies.</p>	<p>DTS/DPF 16.1</p> <p>Residential development creating a common driveway / access achieves the following stormwater runoff outcomes:</p> <ul style="list-style-type: none"> <li>(a) 80 per cent reduction in average annual total suspended solids</li> <li>(b) 60 per cent reduction in average annual total phosphorus</li> <li>(c) 45 per cent reduction in average annual total nitrogen.</li> </ul>
<p>PO 16.2</p> <p>Residential development creating a common driveway / access includes a stormwater management system designed to mitigate peak flows and manage the rate and duration of stormwater discharges from the site to ensure that the development does not increase the peak flows in downstream systems.</p>	<p>DTS/DPF 16.2</p> <p>Development creating a common driveway / access:</p> <ul style="list-style-type: none"> <li>(a) maintains the pre-development peak flow rate from the site based upon a 0.35 runoff coefficient for the 18.1% AEP 30-minute storm and the stormwater runoff time to peak is not increased or captures and retains the difference in pre-development runoff volume (based upon a 0.35 runoff coefficient) vs post development runoff volume from the site for an 18.1% AEP 30-minute storm; and</li> <li>(b) manages site generated stormwater runoff up to and including the 1% AEP flood event to avoid flooding of buildings.</li> </ul>
<p>Car parking, access and manoeuvrability</p>	

<p>PO 17.1</p> <p>Enclosed parking spaces are of a size and dimensions to be functional, accessible and convenient.</p>	<p>DTS/DPF 17.1</p> <p>Covered parking spaces are enclosed by fencing, walls or other obstructions with the following internal dimensions:</p> <ul style="list-style-type: none"> <li>(a) single parking spaces: <ul style="list-style-type: none"> <li>(i) a minimum length of 5.4m</li> <li>(ii) a minimum width of 3.0m</li> <li>(iii) a minimum garage door width of 2.4m</li> </ul> </li> <li>(b) double width parking spaces: <ul style="list-style-type: none"> <li>(i) a minimum length of 5.4m</li> <li>(ii) a minimum width of 5.5m</li> <li>(iii) minimum garage door width of 2.4m per space.</li> </ul> </li> </ul>
<p>PO 17.2</p> <p>Uncovered parking spaces are of a size and dimensions to be functional, accessible and convenient.</p>	<p>DTS/DPF 17.2</p> <p>Uncovered car parking spaces have:</p> <ul style="list-style-type: none"> <li>(a) a minimum length of 5.4m</li> <li>(b) a minimum width of 2.4m</li> <li>(c) a minimum width between the centre line of the space and any fence, wall or other obstruction of 1.5m</li> </ul>
<p>PO 17.3</p> <p>Driveways are located and designed to facilitate safe access and egress while maximising land available for street tree planting, landscaped street frontages, domestic waste collection and on-street parking.</p>	<p>DTS/DPF 17.3</p> <p>Driveways and access points on sites with a frontage to a public road of 12m or less have a single access point with a maximum width of 3.2m measured at the property boundary.</p>
<p>PO 17.4</p> <p>Vehicle access is safe, convenient, minimises interruption to the operation of public roads and does not interfere with street infrastructure or street trees.</p>	<p>DTS/DPF 17.4</p> <p>Vehicle access to designated car parking spaces:</p> <ul style="list-style-type: none"> <li>(a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land or</li> <li>(b) where newly proposed: <ul style="list-style-type: none"> <li>(i) is set back 6m or more from the tangent point of an intersection of 2 or more roads or a pedestrian-actuated crossing</li> <li>(ii) does not involve the removal or relocation of mature street trees, street furniture or utility infrastructure services.</li> </ul> </li> </ul>

<p>PO 17.5</p> <p>Driveways are designed to enable safe and convenient vehicle movements from the public road to on-site parking spaces.</p>	<p>DTS/DPF 17.5</p> <p>Driveways are designed and sited so that:</p> <ul style="list-style-type: none"> <li>(a) the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the garage or carport is not steeper than 1:4 on average</li> <li>(b) they are aligned relative to the street boundary so that there is no more than a 20 degree deviation from 90 degrees between the centreline of any dedicated car parking space to which it provides access (measured from the front of that space) and the street boundary</li> <li>(c) if located to provide access from an alley, lane or right of way - the alley, land or right of way is at least 6.2m wide along the boundary of the allotment / site</li> </ul>
<p>PO 17.6</p> <p>Driveways and access points are designed and distributed to optimise the provision of on-street visitor parking.</p>	<p>DTS/DPF 17.6</p> <p>Where on-street parking is available directly adjacent the site, parking is retained in accordance with the following requirements:</p> <ul style="list-style-type: none"> <li>(a) minimum 0.33 on-street spaces per proposed dwellings (rounded up to the nearest whole number)</li> <li>(b) minimum car park length of 5.5m.</li> </ul>
<p>Waste storage</p>	
<p>PO 18.1</p> <p>Provision is made for the convenient storage of waste bins in a location screened from public view.</p>	<p>DTS/DPF 18.1</p> <p>None are applicable.</p>
<p>Design of Transportable Dwellings</p>	
<p>PO 19.1</p> <p>The sub-floor space beneath transportable buildings is enclosed to give the appearance of a permanent structure.</p>	<p>DTS/DPF 19.1</p> <p>Buildings:</p> <ul style="list-style-type: none"> <li>(a) are not transportable or</li> <li>(b) the sub-floor space between the building and ground level is clad in a material and finish consistent with the building façade.</li> </ul>
<p>Group dwelling, residential flat buildings and battle-axe development</p>	
<p>Amenity</p>	

<p>PO 20.1</p> <p>Dwellings are of a suitable size to accommodate a layout that is well organised and provides a high standard of amenity for occupants.</p>	<p>DTS/DPF 20.1</p> <p>Dwellings have a minimum internal floor area in accordance with the following table:</p> <table border="1" data-bbox="807 241 1548 831"> <thead> <tr> <th data-bbox="807 241 1174 331">Number of bedrooms</th> <th data-bbox="1174 241 1548 331">Minimum internal floor area</th> </tr> </thead> <tbody> <tr> <td data-bbox="807 331 1174 427">Studio</td> <td data-bbox="1174 331 1548 427">35m<sup>2</sup></td> </tr> <tr> <td data-bbox="807 427 1174 524">1 bedroom</td> <td data-bbox="1174 427 1548 524">50m<sup>2</sup></td> </tr> <tr> <td data-bbox="807 524 1174 620">2 bedroom</td> <td data-bbox="1174 524 1548 620">65m<sup>2</sup></td> </tr> <tr> <td data-bbox="807 620 1174 831">3+ bedrooms</td> <td data-bbox="1174 620 1548 831">80m<sup>2</sup> and any dwelling over 3 bedrooms provides and additional 15m<sup>2</sup> for every additional bedroom</td> </tr> </tbody> </table>	Number of bedrooms	Minimum internal floor area	Studio	35m <sup>2</sup>	1 bedroom	50m <sup>2</sup>	2 bedroom	65m <sup>2</sup>	3+ bedrooms	80m <sup>2</sup> and any dwelling over 3 bedrooms provides and additional 15m <sup>2</sup> for every additional bedroom
Number of bedrooms	Minimum internal floor area										
Studio	35m <sup>2</sup>										
1 bedroom	50m <sup>2</sup>										
2 bedroom	65m <sup>2</sup>										
3+ bedrooms	80m <sup>2</sup> and any dwelling over 3 bedrooms provides and additional 15m <sup>2</sup> for every additional bedroom										
<p>PO 20.2</p> <p>The orientation and siting of buildings minimises impacts on the amenity, outlook and privacy of occupants and neighbours.</p>	<p>DTS/DPF 20.2</p> <p>None are applicable.</p>										
<p>PO 20.3</p> <p>Development maximises the number of dwellings that face public open space and public streets and limits dwellings oriented to towards adjoining properties.</p>	<p>DTS/DPF 20.3</p> <p>None are applicable.</p>										
<p>Communal Open Space</p>											
<p>PO 21.1</p> <p>Communal open space is provided where private open space provision is inadequate to meet the needs of occupants or where the nature of the development is such that private open space is not ordinarily provided.</p>	<p>DTS/DPF 21.1</p> <p>None are applicable.</p>										
<p>Carparking, access and manoeuvrability</p>											
<p>PO 22.1</p> <p>Driveways and access points are designed and distributed to optimise the provision of on-street visitor parking.</p>	<p>DTS/DPF 22.1</p> <p>Where on-street parking is available directly adjacent the site, parking is retained in accordance with the following requirements:</p> <ul style="list-style-type: none"> <li>(a) minimum 0.33 on-street car parks per proposed dwellings (rounded up to the nearest whole number)</li> <li>(b) minimum car park length of 6m.</li> </ul>										

<p>PO 22.2</p> <p>The number of vehicular access points onto public roads is minimised to reduce interruption of the footpath and positively contribute to public safety and walkability.</p>	<p>DTS/DPF 22.2</p> <p>Access to group dwellings or dwellings within a residential flat building is provided via a single common driveway.</p>
<p>PO 22.3</p> <p>Residential driveways that service more than one dwelling are designed to allow safe and convenient movement.</p>	<p>DTS/DPF 22.3</p> <p>Driveways that service more than one dwelling:</p> <ul style="list-style-type: none"> <li>(a) have a minimum width of 3m</li> <li>(b) where the driveway length exceeds 30m: <ul style="list-style-type: none"> <li>(i) incorporate at least one passing point with a minimum width of 5.5m and a minimum length of 6m</li> <li>(ii) locate the passing point in DTS/DPF 24.3(b)(i) within 12m of the primary street boundary and incorporate an additional passing point at least every 30m thereafter.</li> </ul> </li> </ul>
<p>PO 22.4</p> <p>Residential driveways in a battle-axe configuration are designed to allow safe and convenient movement.</p>	<p>DTS/DPF 22.4</p> <p>Where in a battle-axe configuration, a driveway servicing one dwelling has a minimum width of 3m.</p>
<p>PO 22.5</p> <p>Residential driveways that service more than one dwelling are designed to allow passenger vehicles to enter and exit the site and manoeuvre within the site in a safe and convenient manner.</p>	<p>DTS/DPF 22.5</p> <p>Driveways providing access to more than one dwelling allow a B85 passenger vehicle to:</p> <ul style="list-style-type: none"> <li>(a) enter and exit the site in a forward direction</li> <li>(b) undertake all manoeuvring through circulation around the site of no more than a 3 point turn.</li> </ul>
<p>PO 22.6</p> <p>Dwellings are adequately separated from common driveways and manoeuvring areas.</p>	<p>DTS/DPF 22.6</p> <p>Vehicle movement paths required to achieve DTS 22.5 are at least 1.5m from habitable room windows of dwellings.</p>

Soft Landscaping

<p>PO 23.1</p> <p>Soft landscaping is provided between dwellings and common driveways to improve the outlook for occupants and appearance of common areas.</p>	<p>DTS/DPF 23.1</p> <p>Other than where located directly in front of a garage or a building entry, soft landscaping with a minimum dimension of 1m is provided between a dwelling and common driveway.</p>
<p>PO 23.2</p> <p>Soft landscaping is provided that improves the appearance of common driveways.</p>	<p>DTS/DPF 23.2</p> <p>Where a common driveway is located directly adjacent the side or rear boundary of the site, soft landscaping with a minimum dimension of 1m is provided between the driveway and site boundary (excluding along the perimeter of a passing point required in DTS 22.3).</p>

PO 24.1 Provision is made for suitable mailbox facilities close to the major pedestrian entry to the site or conveniently located considering the nature of accommodation and mobility of occupants.	DTS/DPF 24.1 None are applicable.
PO 24.2 Provision is made for suitable external clothes drying facilities.	DTS/DPF 24.2 None are applicable.
PO 24.3 Provision is made for suitable household waste and recyclable material storage facilities conveniently located from public view.	DTS/DPF 24.3 None are applicable.
PO 24.4 Waste and recyclable material storage areas are located away from dwellings.	DTS/DPF 24.4 Dedicated waste and recyclable material storage areas are located at least 3m from any habitable room window.
PO 24.5 Provision is made for on-site waste collection where 10 or more bins are to be collected at any one time.	DTS/DPF 24.5 None are applicable.
PO 24.6 Services including gas and water meters are conveniently located and screened from public view.	DTS/DPF 24.6 None are applicable.

## Supported accommodation and retirement facilities

## Siting and Configuration

PO 25.1 Supported accommodation and housing for aged persons and people with disabilities is located where on-site movement of residents is not unduly restricted by the slope of the land.	DTS/DPF 25.1 None are applicable.
--	--------------------------------------

## Movement and Access

PO 26.1 Development is designed to support safe and convenient access and movement for residents by providing:  (a) ground-level access or lifted access to all units (b) level entry porches, ramps, paths, driveways, passenger loading areas and areas adjacent to footpaths that allow for the passing of wheelchairs and resting places (c) car parks with gradients no steeper than 1-in-40 and of sufficient area to provide for wheelchair manoeuvrability (d) kerb ramps at pedestrian crossing points.	DTS/DPF 26.1 None are applicable.
--	--------------------------------------

## Communal Open Space

<p>PO 27.1</p> <p>Development is designed to provide attractive, convenient and comfortable indoor and outdoor communal areas to be used by residents and visitors.</p>	<p>DTS/DPF 27.1</p> <p>None are applicable.</p>
<p>PO 27.2</p> <p>Communal open space is provided where private open space provision is inadequate to meet the needs of occupants or where the nature of the development is such that private open space is not ordinarily provided.</p>	<p>DTS/DPF 27.2</p> <p>None are applicable.</p>
Site Facilities / Waste Storage	
<p>PO 28.1</p> <p>Development is designed to provide storage areas for personal items and specialised equipment such as small electric powered vehicles, including facilities for the recharging of small electric powered vehicles.</p>	<p>DTS/DPF 28.1</p> <p>None are applicable.</p>
<p>PO 28.2</p> <p>Provision is made for suitable mailbox facilities close to the major pedestrian entry to the site or conveniently located considering the nature of accommodation and mobility of occupants.</p>	<p>DTS/DPF 28.2</p> <p>None are applicable.</p>
<p>PO 28.3</p> <p>Provision is made for suitable external clothes drying facilities.</p>	<p>DTS/DPF 28.3</p> <p>None are applicable.</p>
<p>PO 28.4</p> <p>Provision is made for suitable household waste and recyclable material storage facilities conveniently located and screened from public view.</p>	<p>DTS/DPF 28.4</p> <p>None are applicable.</p>
<p>PO 28.5</p> <p>Waste and recyclable material storage areas are located away from dwellings.</p>	<p>DTS/DPF 28.5</p> <p>Dedicated waste and recyclable material storage areas are located at least 3m from any habitable room window.</p>
<p>PO 28.6</p> <p>Provision is made for on-site waste collection where 10 or more bins are to be collected at any one time.</p>	<p>DTS/DPF 28.6</p> <p>None are applicable.</p>
<p>PO 28.7</p> <p>Services including gas and water meters are conveniently located and screened from public view.</p>	<p>DTS/DPF 28.7</p> <p>None are applicable.</p>

All non-residential development

<p>PO 29.1</p> <p>Development likely to result in significant risk of export of litter, oil or grease includes stormwater management systems designed to minimise pollutants entering stormwater.</p>	<p>DTS/DPF 29.1</p> <p>Development likely to result in significant risk of export of litter, oil or grease includes stormwater management systems designed to achieve the following gross pollutant outcomes:</p> <ul style="list-style-type: none"> <li>(a) 90 per cent reduction of litter/gross pollutants compared to untreated stormwater runoff</li> <li>(b) no visible oils/grease for flows up to the 4 EY (exceedances per year).</li> </ul>
<p>PO 29.2</p> <p>Water discharged from a development site is of a physical, chemical and biological condition equivalent to or better than its pre-developed state.</p>	<p>DTS/DPF 29.2</p> <p>None are applicable.</p>

**Wash-down and Waste Loading and Unloading**

<p>PO 30.1</p> <p>Areas for activities including loading and unloading, storage of waste refuse bins in commercial and industrial development or wash-down areas used for the cleaning of vehicles, vessels, plant or equipment are:</p> <ul style="list-style-type: none"> <li>(a) designed to contain all wastewater likely to pollute stormwater within a bunded and roofed area to exclude the entry of external surface stormwater run-off</li> <li>(b) paved with an impervious material to facilitate wastewater collection</li> <li>(c) of sufficient size to prevent 'splash-out' or 'over-spray' of wastewater from the wash-down area</li> <li>(d) designed to drain wastewater to either:             <ul style="list-style-type: none"> <li>(i) a treatment device such as a sediment trap and coalescing plate oil separator with subsequent disposal to a sewer, private or Community Wastewater Management Scheme or</li> <li>(ii) a holding tank and its subsequent removal off-site on a regular basis.</li> </ul> </li> </ul>	<p>DTS/DPF 30.1</p> <p>None are applicable.</p>
--	---

**Flooding**

<p>PO 31.1</p> <p>Development is sited, designed and constructed to prevent the entry of floodwaters where the entry of flood waters is likely to result in undue damage to or compromise ongoing activities within buildings.</p>	<p>DTS/DPF 31.1</p> <p>Development incorporates finished ground and floor levels not less than:</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: center;"><b>Finished Ground and Floor Levels</b></th> </tr> </thead> <tbody> <tr> <td>Minimum finished ground level is 2.65m AHD; Minimum finished floor level is 2.9m AHD</td> </tr> <tr> <td>Minimum finished ground level is 2.7m AHD; Minimum finished floor level is 2.95m AHD</td> </tr> <tr> <td>Minimum finished ground level is 2.9m AHD; Minimum finished floor level is 3.15m AHD</td> </tr> </tbody> </table>	<b>Finished Ground and Floor Levels</b>	Minimum finished ground level is 2.65m AHD; Minimum finished floor level is 2.9m AHD	Minimum finished ground level is 2.7m AHD; Minimum finished floor level is 2.95m AHD	Minimum finished ground level is 2.9m AHD; Minimum finished floor level is 3.15m AHD

	Minimum finished ground level is 3.5m AHD; Minimum finished floor level is 3.7m AHD
	Minimum finished ground level is 3.5m AHD; Minimum finished floor level is 3.75m AHD
	Minimum finished floor level is 20.4m AHD
	Minimum finished ground level is 1.9m AHD; Minimum finished floor level is 2.15m AHD
	Minimum finished ground level is 2.2m AHD; Minimum finished floor level is 2.45m AHD
	Minimum finished ground level is 1.75m AHD; Minimum finished floor level is 2m AHD
	<p>In instances where no finished floor level value is specified, development incorporates a finished floor level at least 300mm above:</p> <ul style="list-style-type: none"> <li>(a) the top of the kerb level of the primary street or</li> <li>(b) natural ground level where there is no kerb or</li> <li>(c) the height of a 1% AEP flood event</li> </ul> <p>whichever is the greater.</p>

**Table 1 - Private Open Space**

Dwelling Type	Minimum Rate
Dwelling (at ground level)	<p>Total area: 24m<sup>2</sup></p> <p>Minimum directly accessible from a living room : 16m<sup>2</sup> with a minimum dimension 3m</p>

Dwelling (above ground level)	Studio: 4m <sup>2</sup> / minimum dimension 1.8m  One bedroom: 8m <sup>2</sup> / minimum dimension 2.1m  Two bedroom dwelling: 11m <sup>2</sup> / minimum dimension 2.4m  Three + bedroom dwelling: 15m <sup>2</sup> / minimum dimension 2.6m
Cabin or caravan (permanently fixed to the ground) in a residential park or a caravan and tourist park	Total area: 16m <sup>2</sup> , which may be used as second car parking space, provided on each site intended for residential occupation.

## Design in Urban Areas

### Assessment Provisions (AP)

Desired Outcome (DO)

<b>Desired Outcome</b>	
DO 1	Development is: <ul style="list-style-type: none"> <li>(a) contextual - by considering, recognising and carefully responding to its natural surroundings and positively contributing to the character of the immediate area</li> <li>(b) durable - fit for purpose, adaptable and long lasting</li> <li>(c) inclusive - by integrating landscape design to optimise pedestrian and cyclist usability, privacy and equitable access and promoting the provision of quality spaces integrated with the public realm that can be used for access and recreation and help optimise security and safety both internally and within the public realm, for occupants and visitors</li> <li>(d) sustainable - by integrating sustainable techniques into the design and siting of development and landscaping to improve community health, urban heat, water management, environmental performance, biodiversity and local amenity and to minimise energy consumption.</li> </ul>

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

<b>Performance Outcome</b>	<b>Deemed-to-Satisfy Criteria / Designated Performance Feature</b>
All Development	
External Appearance	
PO 1.1  Buildings reinforce corners through changes in setback, articulation, materials, colour and massing (including height, width, bulk, roof form and slope).	DTS/DPF 1.1  None are applicable.

<p>PO 1.2</p> <p>Where zero or minor setbacks are desirable, development provides shelter over footpaths to positively contribute to the walkability and comfort of the public realm.</p>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
<p>PO 1.3</p> <p>Buildings (other than ancillary buildings, group dwellings or buildings on a battle-axe allotment) are designed so that the main façade faces the primary street frontage.</p>	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>
<p>PO 1.4</p> <p>Plant, exhaust and intake vents and other technical equipment are integrated into the building design to minimise visibility from the public realm and negative impacts on residential amenity by:</p> <ul style="list-style-type: none"> <li>(a) positioning plant and equipment discretely, in unobtrusive locations as viewed from public roads and spaces</li> <li>(b) screening rooftop plant and equipment from view</li> <li>(c) when located on the roof of non-residential development, locating the plant and equipment as far as practicable from adjacent sensitive land uses.</li> </ul>	<p>DTS/DPF 1.4</p> <p>Development does not incorporate any structures that protrude beyond the roofline.</p>
<p>PO 1.5</p> <p>The negative visual impact of outdoor storage, waste management, loading and service areas is minimised by integrating them into the building design and screening them from public view (such as fencing, landscaping and built form), taking into account the form of development contemplated in the relevant zone.</p>	<p>DTS/DPF 1.5</p> <p>None are applicable.</p>
<b>Safety</b>	
<p>PO 2.1</p> <p>Development maximises opportunities for passive surveillance of the public realm by providing clear lines of sight, appropriate lighting and the use of visually permeable screening wherever practicable.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
<p>PO 2.2</p> <p>Development is designed to differentiate public, communal and private areas.</p>	<p>DTS/DPF 2.2</p> <p>None are applicable.</p>
<p>PO 2.3</p> <p>Buildings are designed with safe, perceptible and direct access from public street frontages and vehicle parking areas.</p>	<p>DTS/DPF 2.3</p> <p>None are applicable.</p>

<p>PO 2.4</p> <p>Development at street level is designed to maximise opportunities for passive surveillance of adjacent public realm.</p>	<p>DTS/DPF 2.4</p> <p>None are applicable.</p>
<p>PO 2.5</p> <p>Common areas and entry points of buildings (such as the foyer areas of residential buildings) and non-residential land uses at street level, maximise passive surveillance from the public realm to the inside of the building at night.</p>	<p>DTS/DPF 2.5</p> <p>None are applicable.</p>
<p>Landscaping</p>	
<p>PO 3.1</p> <p>Soft landscaping and tree planting are incorporated to:</p> <ul style="list-style-type: none"> <li>(a) minimise heat absorption and reflection</li> <li>(b) maximise shade and shelter</li> <li>(c) maximise stormwater infiltration</li> <li>(d) enhance the appearance of land and streetscapes.</li> </ul>	<p>DTS/DPF 3.1</p> <p>None are applicable.</p>
<p>Environmental Performance</p>	
<p>PO 4.1</p> <p>Buildings are sited, oriented and designed to maximise natural sunlight access and ventilation to main activity areas, habitable rooms, common areas and open spaces.</p>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>
<p>PO 4.2</p> <p>Buildings are sited and designed to maximise passive environmental performance and minimise energy consumption and reliance on mechanical systems, such as heating and cooling.</p>	<p>DTS/DPF 4.2</p> <p>None are applicable.</p>
<p>PO 4.3</p> <p>Buildings incorporate climate responsive techniques and features such as building and window orientation, use of eaves, verandahs and shading structures, water harvesting, at ground landscaping, green walls, green roofs and photovoltaic cells.</p>	<p>DTS/DPF 4.3</p> <p>None are applicable.</p>
<p>Water Sensitive Design</p>	
<p>PO 5.1</p> <p>Development is sited and designed to maintain natural hydrological systems without negatively impacting:</p> <ul style="list-style-type: none"> <li>(a) the quantity and quality of surface and groundwater</li> <li>(b) the depth and directional flow of surface and groundwater</li> <li>(c) the quality and function of natural springs.</li> </ul>	<p>DTS/DPF 5.1</p> <p>None are applicable.</p>
<p>Car parking appearance</p>	

<p>PO 6.1</p> <p>Development facing the street is designed to minimise the negative impacts of any semi-basement and undercroft car parking on streetscapes.</p>	<p>DTS/DPF 6.1</p> <p>The protrusion of semi-basement and undercroft car parking structures does not exceed 1.2m above finished ground level and is screened through appropriate plantings, except in a location or zone where a continuous ground floor façade aligned with the front property boundary is desired.</p>
<p>PO 6.2</p> <p>Vehicle parking areas appropriately located, designed and constructed to minimise impacts on adjacent sensitive receivers through measures such as ensuring they are attractively developed and landscaped, screen fenced, and the like.</p>	<p>DTS/DPF 6.2</p> <p>None are applicable.</p>
<p>PO 6.3</p> <p>Safe, legible, direct and accessible pedestrian connections are provided between parking areas and the development.</p>	<p>DTS/DPF 6.3</p> <p>None are applicable.</p>
<p>PO 6.4</p> <p>Street-level vehicle parking areas incorporate tree planting to provide shade, reduce solar heat absorption and reflection.</p>	<p>DTS/DPF 6.4</p> <p>Vehicle parking areas that are open to the sky and comprise 10 or more car parking spaces include a shade tree with a mature canopy of 4m diameter spaced for each 10 car parking spaces provided and a landscaped strip on any road frontage of a minimum dimension of 1m.</p>
<p>PO 6.5</p> <p>Street level parking areas incorporate soft landscaping to improve visual appearance when viewed from within the site and from public places.</p>	<p>DTS/DPF 6.5</p> <p>Vehicle parking areas comprising 10 or more car parking spaces include soft landscaping with a minimum dimension of:</p> <ul style="list-style-type: none"> <li>(a) 1m along all public road frontages and allotment boundaries</li> <li>(b) 1m between double rows of car parking spaces.</li> </ul>
<p>PO 6.6</p> <p>Vehicle parking areas and associated driveways are landscaped to shade and positively contribute to amenity.</p>	<p>DTS/DPF 6.6</p> <p>None are applicable.</p>
<p>PO 6.7</p> <p>Vehicle parking areas and access ways incorporate integrated stormwater management techniques such as permeable or porous surfaces, infiltration systems, drainage swales or rain gardens that integrate with soft landscaping.</p>	<p>DTS/DPF 6.7</p> <p>None are applicable.</p>

<p>PO 7.1</p> <p>Development, including any associated driveways and access tracks, minimises the need for earthworks to limit disturbance to natural topography.</p>	<p>DTS/DPF 7.1</p> <p>Development does not involve:</p> <ul style="list-style-type: none"> <li>(a) excavation exceeding a vertical height of 1m</li> <li>(b) filling exceeding a vertical height of 1m</li> <li>(c) a total combined excavation and filling vertical height of 2m or more.</li> </ul>
<p>PO 7.2</p> <p>Driveways and access tracks designed and constructed to allow safe and convenient access on sloping land (with a gradient greater than 1 in 8).</p>	<p>DTS/DPF 7.2</p> <p>Driveways and access tracks on sloping land (with a gradient exceeding 1 in 8):</p> <ul style="list-style-type: none"> <li>(a) do not have a gradient exceeding 25% (1-in-4) at any point along the driveway</li> <li>(b) are constructed with an all-weather trafficable surface.</li> </ul>
<p>PO 7.3</p> <p>Driveways and access tracks on sloping land (with a gradient exceeding 1 in 8):</p> <ul style="list-style-type: none"> <li>(a) do not contribute to the instability of embankments and cuttings</li> <li>(b) provide level transition areas for the safe movement of people and goods to and from the development</li> <li>(c) are designed to integrate with the natural topography of the land.</li> </ul>	<p>DTS/DPF 7.3</p> <p>None are applicable.</p>
<p>PO 7.4</p> <p>Development on sloping land (with a gradient exceeding 1 in 8) avoids the alteration of natural drainage lines and includes on site drainage systems to minimise erosion.</p>	<p>DTS/DPF 7.4</p> <p>None are applicable.</p>
<p>PO 7.5</p> <p>Development does not occur on land at risk of landslip or increase the potential for landslip or land surface instability.</p>	<p>DTS/DPF 7.5</p> <p>None are applicable.</p>
Fences and walls	
<p>PO 8.1</p> <p>Fences, walls and retaining walls of sufficient height maintain privacy and security without unreasonably impacting visual amenity and adjoining land's access to sunlight.</p>	<p>DTS/DPF 8.1</p> <p>None are applicable.</p>
<p>PO 8.2</p> <p>Landscaping is incorporated on the low side of retaining walls that are visible from public roads and public open space to minimise visual impacts.</p>	<p>DTS/DPF 8.2</p> <p>A vegetated landscaped strip 1m wide or more is provided against the low side of a retaining wall.</p>

External Appearance	
PO 9.1 Buildings positively contribute to the character of the local area by responding to local context.	DTS/DPF 9.1 None are applicable.
PO 9.2 Fine-grain detail at street level and a mixture of materials at lower building levels near the public interface are provided to reinforce a human scale.	DTS/DPF 9.2 None are applicable.
PO 9.3 Buildings are designed to reduce visual mass by breaking up building façades into distinct elements.	DTS/DPF 9.3 None are applicable.
PO 9.4 Boundary walls visible from public land include visually interesting treatments to break up large blank elevations.	DTS/DPF 9.4 None are applicable.
PO 9.5 External materials and finishes are durable and age well to minimise ongoing maintenance requirements.	DTS/DPF 9.5 Buildings utilise a combination of the following external materials and finishes:  <ul style="list-style-type: none"> <li>(a) masonry</li> <li>(b) natural stone</li> <li>(c) pre-finished materials that minimise staining, discolouring or deterioration.</li> </ul>
PO 9.6 Street-facing building elevations are designed to provide attractive, high quality and pedestrian-friendly street frontages.	DTS/DPF 9.6 Building street frontages incorporate:  <ul style="list-style-type: none"> <li>(a) active uses such as shops or offices</li> <li>(b) prominent entry areas for multi-storey buildings (where it is a common entry)</li> <li>(c) habitable rooms of dwellings</li> <li>(d) areas of communal public realm with public art or the like, where consistent with the zone and/or subzone provisions.</li> </ul>

<p>PO 9.7</p> <p>Entrances to multi-storey buildings are safe, attractive, welcoming, functional and contribute to streetscape character.</p>	<p>DTS/DPF 9.7</p> <p>Entrances to multi-storey buildings are:</p> <ul style="list-style-type: none"> <li>(a) oriented towards the street</li> <li>(b) clearly visible and easily identifiable from the street and vehicle parking areas</li> <li>(c) designed to be prominent, accentuated and a welcoming feature if there are no active or occupied ground floor uses</li> <li>(d) provide shelter, a sense of personal address and transitional space around the entry</li> <li>(e) located as close as practicable to the lift and / or lobby access to minimise the need for long access corridors</li> <li>(f) avoid the creation of potential areas of entrapment.</li> </ul>
<p>PO 9.8</p> <p>Building services, plant and mechanical equipment are screened from the public realm.</p>	<p>DTS/DPF 9.8</p> <p>None are applicable.</p>
<p>Landscaping</p>	
<p>PO 10.1</p> <p>Development facing a street provides a well landscaped area that contains a deep soil space to accommodate a tree of a species and size adequate to provide shade, contribute to tree canopy targets and soften the appearance of buildings.</p>	<p>DTS/DPF 10.1</p> <p>Buildings provide a 4m by 4m deep soil space in front of the building to accommodate a medium to large tree, except where no building setback from front property boundaries is desired.</p>

<p>PO 10.2</p> <p>Deep soil zones are provided to retain existing vegetation or provide areas that can accommodate new deep root vegetation, including tall trees with large canopies to provide shade and soften the appearance of multi-storey buildings.</p>	<p>DTS/DPF 10.2</p> <p>Multi-storey development provides deep soil zones and incorporate trees at not less than the following rates, except in a location or zone where full site coverage is desired.</p> <table border="1" data-bbox="807 280 1548 945"> <thead> <tr> <th>Site area</th> <th>Minimum deep soil area</th> <th>Minimum dimension</th> <th>Tree / deep soil zones</th> </tr> </thead> <tbody> <tr> <td>&lt;300 m<sup>2</sup></td> <td>10 m<sup>2</sup></td> <td>1.5m</td> <td>1 small tree / 10 m<sup>2</sup> deep soil</td> </tr> <tr> <td>300-1500 m<sup>2</sup></td> <td>7% site area</td> <td>3m</td> <td>1 medium tree / 30 m<sup>2</sup> deep soil</td> </tr> <tr> <td>&gt;1500 m<sup>2</sup></td> <td>7% site area</td> <td>6m</td> <td>1 large or medium tree / 60 m<sup>2</sup> deep soil</td> </tr> </tbody> </table> <p><b>Tree size and site area definitions</b></p> <table border="1" data-bbox="807 1003 1548 1402"> <tbody> <tr> <td>Small tree</td> <td>4-6m mature height and &lt;4m canopy spread</td> </tr> <tr> <td>Medium tree</td> <td>6-12m mature height and 4-8m canopy spread</td> </tr> <tr> <td>Large tree</td> <td>12m mature height and &gt;8m canopy spread</td> </tr> <tr> <td>Site area</td> <td>The total area for development site, not average area per dwelling</td> </tr> </tbody> </table>	Site area	Minimum deep soil area	Minimum dimension	Tree / deep soil zones	<300 m <sup>2</sup>	10 m <sup>2</sup>	1.5m	1 small tree / 10 m <sup>2</sup> deep soil	300-1500 m <sup>2</sup>	7% site area	3m	1 medium tree / 30 m <sup>2</sup> deep soil	>1500 m <sup>2</sup>	7% site area	6m	1 large or medium tree / 60 m <sup>2</sup> deep soil	Small tree	4-6m mature height and <4m canopy spread	Medium tree	6-12m mature height and 4-8m canopy spread	Large tree	12m mature height and >8m canopy spread	Site area	The total area for development site, not average area per dwelling

Large tree	12m mature height and >8m canopy spread																								
Site area	The total area for development site, not average area per dwelling																								
<p>PO 10.3</p> <p>Deep soil zones with access to natural light are provided to assist in maintaining vegetation health.</p>	<p>DTS/DPF 10.3</p> <p>None are applicable.</p>																								
<p>PO 10.4</p> <p>Unless separated by a public road or reserve, development sites adjacent to any zone that has a primary purpose of accommodating low-rise residential development incorporate a deep soil zone along the common boundary to enable medium to large trees to be retained or established to assist in screening new buildings of 3 or more storeys in height.</p>	<p>DTS/DPF 10.4</p> <p>Building elements of 3 or more storeys in height are set back at least 6m from a zone boundary in which a deep soil zone area is incorporated.</p>																								

<p>PO 11.1</p> <p>Development minimises detrimental micro-climatic impacts on adjacent land and buildings.</p>	<p>DTS/DPF 11.1</p> <p>None are applicable.</p>
<p>PO 11.2</p> <p>Development incorporates sustainable design techniques and features such as window orientation, eaves and shading structures, water harvesting, green walls and roof designs that enable the provision of rain water tanks (where they are not provided elsewhere on site), green roofs and photovoltaic cells.</p>	<p>DTS/DPF 11.2</p> <p>None are applicable.</p>
<p>PO 11.3</p> <p>Development of 5 or more storeys, or 21m or more in height (as measured from natural ground level and excluding roof-mounted mechanical plant and equipment) is designed to minimise the impacts of wind through measures such as:</p> <ul style="list-style-type: none"> <li>(a) a podium at the base of a tall tower and aligned with the street to deflect wind away from the street</li> <li>(b) substantial verandahs around a building to deflect downward travelling wind flows over pedestrian areas</li> <li>(c) the placement of buildings and use of setbacks to deflect the wind at ground level</li> <li>(d) avoiding tall shear facades that create windy conditions at street level.</li> </ul>	<p>DTS/DPF 11.3</p> <p>None are applicable.</p>
<p>Site Facilities / Waste Storage</p>	
<p>PO 12.1</p> <p>Development provides a dedicated area for on-site collection and sorting of recyclable materials and refuse, green organic waste and wash bay facilities for the ongoing maintenance of bins that is adequate in size considering the number and nature of the activities they will serve and the frequency of collection.</p>	<p>DTS/DPF 12.1</p> <p>None are applicable.</p>
<p>PO 12.2</p> <p>Communal waste storage and collection areas are located, enclosed and designed to be screened from view from the public domain, open space and dwellings.</p>	<p>DTS/DPF 12.2</p> <p>None are applicable.</p>
<p>PO 12.3</p> <p>Communal waste storage and collection areas are designed to be well ventilated and located away from habitable rooms.</p>	<p>DTS/DPF 12.3</p> <p>None are applicable.</p>
<p>PO 12.4</p> <p>Communal waste storage and collection areas are designed to allow waste and recycling collection vehicles to enter and leave the site without reversing.</p>	<p>DTS/DPF 12.4</p> <p>None are applicable.</p>

<p>PO 12.5</p> <p>For mixed use developments, non-residential waste and recycling storage areas and access provide opportunities for on-site management of food waste through composting or other waste recovery as appropriate.</p>	<p>DTS/DPF 12.5</p> <p>None are applicable.</p>
<p>Car Parking</p>	
<p>PO 13.1</p> <p>Multi-level vehicle parking structures are designed to contribute to active street frontages and complement neighbouring buildings.</p>	<p>DTS/DPF 13.1</p> <p>Multi-level vehicle parking structures within buildings:</p> <ul style="list-style-type: none"> <li>(a) provide land uses such as commercial, retail or other non-car parking uses along ground floor street frontages</li> <li>(b) incorporate facade treatments along major street frontages that are sufficiently enclosed and detailed to complement adjacent buildings.</li> </ul>
<p>PO 13.2</p> <p>Multi-level vehicle parking structures within buildings complement the surrounding built form in terms of height, massing and scale.</p>	<p>DTS/DPF 13.2</p> <p>None are applicable.</p>
<p>All residential development</p>	
<p>External Appearance</p>	
<p>PO 14.1</p> <p>Dwellings incorporate windows facing primary street frontages to encourage passive surveillance and make a positive contribution to the streetscape.</p>	<p>DTS/DPF 14.1</p> <p>Each dwelling with a frontage to a public street:</p> <ul style="list-style-type: none"> <li>(a) includes at least one window facing the primary street from a habitable room</li> <li>(b) has an aggregate window area of at least 2m<sup>2</sup> facing the primary street.</li> </ul>
<p>PO 14.2</p> <p>Dwellings incorporate entry doors within street frontages to address the street and provide a legible entry point for visitors.</p>	<p>DTS/DPF 14.2</p> <p>Dwellings with a frontage to a public street have an entry door visible from the street boundary.</p>
<p>Outlook and Amenity</p>	
<p>PO 15.1</p> <p>Living rooms have an external outlook to provide a high standard of amenity for occupants.</p>	<p>DTS/DPF 15.1</p> <p>The primary living room of a dwelling incorporates a window with an external outlook towards the street frontage or private open space.</p>
<p>PO 15.2</p> <p>Bedrooms are separated or shielded from active communal recreation areas, common access areas and vehicle parking areas and access ways to mitigate noise and artificial light intrusion.</p>	<p>DTS/DPF 15.2</p> <p>None are applicable.</p>
<p>Ancillary Development</p>	

<p>PO 16.1</p> <p>Residential ancillary buildings and structures are sited and designed to not detract from the streetscape or appearance of buildings on the site or neighbouring properties.</p>	<p>DTS/DPF 16.1</p> <p>Ancillary buildings and structures:</p> <ul style="list-style-type: none"> <li>(a) are ancillary to a dwelling erected on the site</li> <li>(b) have a floor area not exceeding 60m<sup>2</sup></li> <li>(c) are not constructed, added to or altered so that any part is situated: <ul style="list-style-type: none"> <li>(i) in front of any part of the building line of the dwelling to which it is ancillary or</li> <li>(ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads)</li> </ul> </li> <li>(d) in the case of a garage or carport, the garage or carport is set back at least 5.5m from the boundary of the primary street</li> <li>(e) not exceeding 7m or 50% of the site frontage (whichever is the lesser) when facing a primary street or secondary street</li> <li>(f) if situated on a boundary (not being a boundary with a primary street or secondary street), a length not exceeding 11m unless: <ul style="list-style-type: none"> <li>(i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and</li> <li>(ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</li> </ul> </li> <li>(g) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary not exceeding 45% of the length of that boundary</li> <li>(h) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</li> <li>(i) have a wall height or post height not exceeding 3m above natural ground level</li> <li>(j) have a roof height where no part of the roof is more than 5m above the natural ground level</li> <li>(k) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour.</li> </ul>
<p>PO 16.2</p> <p>Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements or result in over-development of the site.</p>	<p>DTS/DPF 16.2</p> <p>Ancillary buildings and structures do not result in:</p> <ul style="list-style-type: none"> <li>(a) less private open space than specified in Design in Urban Areas [Private Open Space] DTS/DPF 20.1</li> <li>(b) less on-site car parking than specified in Transport, Access and Parking [Vehicle Parking Rates] DTS / DPF 5.1</li> </ul>

<p>PO 16.3</p> <p>Fixed plant and equipment in the form of pumps and/or filtration systems for a swimming pool or spa positioned and/or housed to not cause unreasonable noise nuisance to adjacent sensitive receivers.</p>	<p>DTS/DPF 16.3</p> <p>The pump and/or filtration system is ancillary to a dwelling erected on the same site and is:</p> <ul style="list-style-type: none"> <li>(a) enclosed in a solid acoustic structure that is located at least 5m from the nearest habitable room located on an adjoining allotment or</li> <li>(b) located at least 12m from the nearest habitable room located on an adjoining allotment.</li> </ul>

Residential Development - 3 Building Levels or less

External appearance

<p>PO 18.1</p> <p>Garaging is designed to not detract from the streetscape or appearance of a dwelling.</p>	<p>DTS/DPF 18.1</p> <p>Garages and carports facing a street:</p> <ul style="list-style-type: none"> <li>(a) are situated so that no part of the garage or carport will be in front of any part of the building line of the dwelling</li> <li>(b) are set back at least 5.5m from the boundary of the primary street</li> <li>(c) have a garage door / opening width not exceeding 7m in width</li> <li>(d) have a garage door / opening width not exceeding 50% of the site frontage unless the dwelling has two or more building levels at the building line along a public street.</li> </ul>
---	---

<p>PO 18.2</p> <p>Dwelling facades make a positive contribution to streetscapes and common areas by providing variation of light and shadow and creating a sense of depth.</p>	<p>DTS/DPF 18.2</p> <p>Each dwelling includes at least 3 of the following design features within each façade facing a public road or common driveway:</p> <ul style="list-style-type: none"> <li>(a) a minimum of 30% of the façade is set back an additional 300mm from the primary building line</li> <li>(b) a porch or portico that projects at least 1m from the building façade that is open on at least 2 sides</li> <li>(c) a balcony that projects from the building façade</li> <li>(d) a verandah that projects at least 1m from the building façade</li> <li>(e) eaves surrounding the dwelling of a minimum 400mm width</li> <li>(f) a minimum 30% of the upper level projects forward from the lower level primary building line.</li> </ul>
--	--

<p>PO 18.3</p> <p>The visual mass of larger buildings is reduced when viewed from adjoining allotments or public streets.</p>	<p>DTS/DPF 18.3</p> <p>Buildings of 2 or more building levels and a length exceeding 20m adjacent a secondary street or side boundary incorporate a step back of the building façade of more than 300mm for a minimum length of 1m, at least every 10m.</p>
---	---

Overlooking / Visual Privacy

<p>PO 19.1</p> <p>Development mitigates direct overlooking from upper level windows to habitable rooms and private open spaces of other dwellings.</p>	<p>DTS/DPF 19.1</p> <p>Upper level windows facing side or rear boundaries shared with another residential allotment/site:</p> <ul style="list-style-type: none"> <li>(a) are permanently obscured to a height of 1.5m above finished floor level and are fixed or not capable of being opened more than 200mm or</li> <li>(b) have sill heights greater than or equal to 1.5m above finished floor level or</li> <li>(c) incorporate screening to a height of 1.5m above finished floor level.</li> </ul>
<p>PO 19.2</p> <p>Development mitigates direct overlooking from balconies to habitable rooms and private open space of other dwellings.</p>	<p>DTS/DPF 19.2</p> <p>All sides of balconies or terraces on upper building levels are permanently obscured to a height of 1.7m above finished floor level, other than where the longest side of the balcony will face a road (including any road reserve) or reserve (including land held as open space) that is at least 15m wide in all places faced by the balcony.</p>
<p>Private Open Space</p>	
<p>PO 20.1</p> <p>Dwellings are provided with suitable sized areas of usable private open space to meet the needs of occupants.</p>	<p>DTS/DPF 20.1</p> <p>Private open space is provided in accordance with Design in Urban Areas Table 1 - Private Open Space.</p>
<p>PO 20.2</p> <p>Private open space is positioned to provide convenient access from internal living areas.</p>	<p>DTS/DPF 20.2</p> <p>Private open space is directly accessible from a habitable room, other than a bedroom or study.</p>
<p>PO 20.3</p> <p>Private open space is positioned and designed to:</p> <ul style="list-style-type: none"> <li>(a) provide useable outdoor space that suits the needs of occupants</li> <li>(b) take advantage of desirable orientation and vistas</li> <li>(c) animate the street frontage by encouraging activity between buildings and public streets</li> <li>(d) adequately define public and private space when located forward of the building</li> <li>(e) prolong activity along street frontages by protecting against inclement weather.</li> </ul>	<p>DTS/DPF 20.3</p> <p>A portion of the private open space specified in DTS/DPF 20.1 can be provided forward of the primary building line where:</p> <ul style="list-style-type: none"> <li>(a) the area is fenced to a maximum height of 1.8m</li> <li>(b) the area incorporates a verandah with a minimum dimension of 1.5m</li> <li>(c) an area is provided behind the primary building line that has the minimum dimensions identified in DTS/DPF 20.1</li> </ul>
<p>Landscaping</p>	

PO 21.1  
Soft landscaping is incorporated into development to:

- (a) minimise heat absorption and reflection
- (b) contribute shade and shelter
- (c) provide for stormwater infiltration and biodiversity
- (d) enhance the appearance of land and streetscapes.

DTS/DPF 21.1  
Residential development incorporates areas for soft landscaping with a minimum dimension of 0.5m provided in accordance with the following:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Percentage of site
<200	15%
201-450	20%
>450	25%

- (a) and
- (b) 25% of any land between the road boundary and the primary building line is provided for soft landscaping with a minimum dimension of 0.5m.

PO 21.2  
Tree planting is provided to:

- (a) contribute shade and shelter
- (b) improve the outlook for occupants of buildings
- (c) reduce the visual mass of buildings
- (d) contribute to biodiversity
- (e) mitigate urban heat
- (f) improve the amenity and character of streetscapes and contribute to attractive vistas.

DTS/DPF 21.2  
Tree planting is provided in accordance with the following tables:

Allotment size (m <sup>2</sup> )	Tree size* and number required per dwelling
<450	1 small tree
450-800	1 medium tree
>800	1 large tree

- (a) \*refer Table DTS/DPF 21.2 Tree Size

Table DTS/DPF 21.2 Tree Size			
Tree size	Mature height	Mature spread	Minimum soil area
Small	4-6 m	2-4m	10m <sup>2</sup> and min. dimension of 1.5m
Medium	6-12 m	4-8 m	30m <sup>2</sup> and min. dimension of 2m

Large	>12 m	> 8m	60m <sup>2</sup> and min. dimension of 4m
-------	-------	------	---

(b) The following discounts apply where existing trees are retained on the subject land that are not a species identified in Regulation 3F(4)(b):

Retained tree height	Retained tree spread	Retained soil area within development site	Discount applied
4-6m	<4m	10m <sup>2</sup> and min. dimension of 1.5m	2 small
6-12m	4-8m	30m <sup>2</sup> and min. dimension of 3m	2 medium
>12m	>8m	60m <sup>2</sup> and min. dimension of 6m	2 large

(c) Trees can be replaced with smaller trees in accordance with the following rates:

Tree size*	Equivalent planting
Medium tree	2 small trees
Large tree	4 small trees or 2 medium trees

\*refer Table DTS/DPF 21.2 Tree Size

Water Sensitive Design

PO 22.1

Residential development is designed to capture and re-use stormwater to:

- (a) maximise conservation of water resources
- (b) manage peak stormwater runoff flows and volume to ensure the carrying capacities of downstream systems are not overloaded
- (c) manage stormwater runoff quality.

DTS/DPF 22.1

Residential development in the form of:

- (a) detached, semi-detached or row dwellings include a retention rainwater tank storage:
  - (i) connected to at least 80% of the roof area of the dwelling (for row dwellings) or at least 60% of the roof area of the dwelling (for detached and semi-detached dwellings)
  - (ii) connected to all toilets and either the laundry cold water outlets or hot water service
  - (iii) that has a minimum total capacity in accordance with Table 1

- (iv) the roof is at least 80% of the impervious area

Table 1: Retention Rainwater Tank

Allotment size (m <sup>2</sup> )	Minimum site perviousness	Minimum rainwater tank volume (L)	Additional site permeability discount opportunity	
			Minimum site perviousness	Minimum rainwater tank volume (L)
<200	15%	2000	-	-
201-400	20%	3000	30%	2000
401-500	25%	5000	35%	3000

- (b) battle-axe dwellings have driveways and pathways constructed of a minimum of 50% permeable or porous material and include a retention rainwater tank storage:
  - (i) connected to at least 60% of the roof area of the dwelling
  - (ii) connected to all toilets and either the laundry cold water outlets or hot water service
  - (iii) that has a minimum total capacity in accordance with Table 2.

Table 2: Retention Rainwater Tank Option

Allotment size (m <sup>2</sup> )	Site perviousness	Rainwater tank volume (L)
<200	15%	2000
201-400	20%	3000
401-500	25%	5000

<p>PO 22.2</p> <p>Residential development creating a common driveway / access includes stormwater management systems that minimise the discharge of sediment, suspended solids, organic matter, nutrients, bacteria, litter and other contaminants to the stormwater system, watercourses or other water bodies.</p>	<p>DTS/DPF 22.2</p> <p>Residential development creating a common driveway / access achieves the following stormwater runoff outcomes:</p> <ul style="list-style-type: none"> <li>(a) 80 per cent reduction in average annual total suspended solids</li> <li>(b) 60 per cent reduction in average annual total phosphorus</li> <li>(c) 45 per cent reduction in average annual total nitrogen.</li> </ul>
<p>PO 22.3</p> <p>Residential development creating a common driveway / access includes a stormwater management system designed to mitigate peak flows and manage the rate and duration of stormwater discharges from the site to ensure that the development does not increase the peak flows in downstream systems.</p>	<p>DTS/DPF 22.3</p> <p>Development creating a common driveway / access:</p> <ul style="list-style-type: none"> <li>(a) maintains a pre-development peak flow rate from the site based upon a 0.35 runoff coefficient for the 18.1% AEP 30-minute storm and the stormwater runoff time to peak is not increased or</li> <li>(b) captures and retains the difference in pre-development runoff volume (based upon a 0.35 runoff coefficient) vs post development runoff volume from the site for a 18.1% AEP 30-minute storm and</li> <li>(c) manages up to and including the 1% AEP flood event to avoid flooding of buildings.</li> </ul>
<p>Car parking, access and manoeuvrability</p>	
<p>PO 23.1</p> <p>Enclosed car parking spaces are of dimensions to be functional, accessible and convenient.</p>	<p>DTS/DPF 23.1</p> <p>Residential parking spaces are enclosed by fencing, walls or other obstructions with the following internal dimensions:</p> <ul style="list-style-type: none"> <li>(a) single parking spaces: <ul style="list-style-type: none"> <li>(i) a minimum length of 5.4m</li> <li>(ii) a minimum width of 3.0m</li> <li>(iii) a minimum garage door width of 2.4m</li> </ul> </li> <li>(b) double parking spaces (side by side): <ul style="list-style-type: none"> <li>(i) a minimum length of 5.4m</li> <li>(ii) a minimum width of 5.5m</li> <li>(iii) minimum garage door width of 2.4m per space.</li> </ul> </li> </ul>
<p>PO 23.2</p> <p>Uncovered car parking space are of dimensions to be functional, accessible and convenient.</p>	<p>DTS/DPF 23.2</p> <p>Uncovered car parking spaces have:</p> <ul style="list-style-type: none"> <li>(a) a minimum length of 5.4m</li> <li>(b) a minimum width of 2.4m</li> <li>(c) a minimum width between the centre line of the space and any fence, wall or other obstruction of 1.5m.</li> </ul>

<p>PO 23.3</p> <p>Driveways and access points are located and designed to facilitate safe access and egress while maximising land available for street tree planting, domestic waste collection, landscaped street frontages and on-street parking.</p>	<p>DTS/DPF 23.3</p> <p>Driveways and access points on sites with a frontage to a public road of 12m or less have a single access point with a maximum width of 3.2m measured at the property boundary.</p>
<p>PO 23.4</p> <p>Vehicle access is safe, convenient, minimises interruption to the operation of public roads and does not interfere with street infrastructure or street trees.</p>	<p>DTS/DPF 23.4</p> <p>Vehicle access to designated car parking spaces:</p> <ul style="list-style-type: none"> <li>(a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land</li> <li>(b) where newly proposed, is set back: <ul style="list-style-type: none"> <li>(i) 0.5m or more from any street furniture, street pole, infrastructure services pit, or other stormwater or utility infrastructure unless consent is provided from the asset owner</li> <li>(ii) 2m or more from a street tree unless consent is provided from the tree owner</li> <li>(iii) 6m or more from the tangent point of an intersection of 2 or more roads or a pedestrian-actuated crossing.</li> </ul> </li> </ul>
<p>PO 23.5</p> <p>Driveways are designed to enable safe and convenient vehicle movements from the public road to on-site parking spaces.</p>	<p>DTS/DPF 23.5</p> <p>Driveways are designed and sited so that:</p> <ul style="list-style-type: none"> <li>(a) the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the garage or carport is not steeper than 1:4 on average</li> <li>(b) they are aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of any dedicated car parking space to which it provides access (measured from the front of that space) and the road boundary.</li> <li>(c) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site</li> </ul>
<p>PO 23.6</p> <p>Driveways and access points are designed and distributed to optimise the provision of on-street visitor parking.</p>	<p>DTS/DPF 23.6</p> <p>Where on-street parking is available directly adjacent the site, parking is retained in accordance with the following requirements:</p> <ul style="list-style-type: none"> <li>(a) minimum 0.33 on-street spaces per proposed dwellings (rounded up to the nearest whole number)</li> <li>(b) minimum car park length of 6m.</li> </ul>

<p>PO 24.1</p> <p>Provision is made for the convenient storage of waste bins in a location screened from public view.</p>	<p>DTS/DPF 24.1</p> <p>A waste bin storage area is provided behind the primary building line that:</p> <ul style="list-style-type: none"> <li>(a) is capable of accommodating the domestic waste bins associated with the waste and recycling collection service for the site</li> <li>(b) can be accessed from the street for the purpose of moving waste bins from the storage location to the street for collection.</li> </ul>
<p>Design of Transportable Buildings</p>	
<p>PO 25.1</p> <p>The sub-floor space beneath transportable buildings is enclosed to give the appearance of a permanent structure.</p>	<p>DTS/DPF 25.1</p> <p>Buildings:</p> <ul style="list-style-type: none"> <li>(a) are not transportable or</li> <li>(b) the sub-floor space between the building and ground level is clad in a material and finish consistent with the building façade.</li> </ul>
<p>Residential Development - 4 or more Building Levels (including serviced apartments)</p>	
<p>Outlook and Visual Privacy</p>	
<p>PO 26.1</p> <p>Ground level dwellings have a satisfactory short range visual outlook to public, communal or private open space.</p>	<p>DTS/DPF 26.1</p> <p>Buildings:</p> <ul style="list-style-type: none"> <li>(a) provide a habitable room at ground or first level with a window facing toward the street</li> <li>(b) limit the height / extent of solid walls or fences facing the street to 1.2m high above the footpath level or, where higher, to 50% of the site frontage.</li> </ul>
<p>PO 26.2</p> <p>The visual privacy of ground level dwellings within multi-level buildings is protected.</p>	<p>DTS/DPF 26.2</p> <p>The finished floor level of ground level dwellings in multi-storey developments is raised by up to 1.2m.</p>
<p>Private Open Space</p>	
<p>PO 27.1</p> <p>Dwellings are provided with suitable sized areas of usable private open space to meet the needs of occupants.</p>	<p>DTS/DPF 27.1</p> <p>Private open space provided in accordance with Design in Urban Areas Table 1 - Private Open Space.</p>
<p>Apartment Amenity</p>	

<p>PO 28.1</p> <p>Residential accommodation within multi-level buildings have habitable rooms, windows and balconies designed and positioned to be separated from those of other dwellings and accommodation to provide visual and acoustic privacy and allow for natural ventilation and the infiltration of daylight into interior and outdoor spaces.</p>	<p>DTS/DPF 28.1</p> <p>Habitable rooms and balconies of independent dwellings and accommodation are separated by at least 6m from one another where there is a direct line of sight between them and 3m or more from a side or rear property boundary.</p>
<p>PO 28.2</p> <p>Balconies are designed, positioned and integrated into the overall architectural form and detail of the development to:</p> <ul style="list-style-type: none"> <li>(a) respond to daylight, wind, and acoustic conditions to maximise comfort and provide visual privacy</li> <li>(b) allow views and casual surveillance of the street while providing for safety and visual privacy of nearby living spaces and private outdoor areas.</li> </ul>	<p>DTS/DPF 28.2</p> <p>Balconies utilise a combination (or thereof) of the following design elements:</p> <ul style="list-style-type: none"> <li>(a) sun screens</li> <li>(b) pergolas</li> <li>(c) louvres</li> <li>(d) green facades</li> <li>(e) openable walls.</li> </ul>
<p>PO 28.3</p> <p>Balconies are of sufficient size and depth to accommodate outdoor seating and promote indoor / outdoor living.</p>	<p>DTS/DPF 28.3</p> <p>Balconies open directly from a habitable room and incorporate:</p> <ul style="list-style-type: none"> <li>(a) a minimum dimension of 2m or more and are well proportioned to accommodate a table and 2 chairs or</li> <li>(b) a minimum dimension of 2.4m and are well proportioned to accommodate a table and 4 chairs.</li> </ul>
<p>PO 28.4</p> <p>Dwellings are provided with sufficient space for storage to meet likely occupant needs.</p>	<p>DTS/DPF 28.4</p> <p>Dwellings (not including student accommodation or serviced apartments) are provided with storage at the following rates with at least 50% or more of the storage volume to be provided within the dwelling:</p> <ul style="list-style-type: none"> <li>(a) studio: not less than 6m<sup>3</sup></li> <li>(b) 1 bedroom dwelling / apartment: not less than 8m<sup>3</sup></li> <li>(c) 2 bedroom dwelling / apartment: not less than 10m<sup>3</sup></li> <li>(d) 3+ bedroom dwelling / apartment: not less than 12m<sup>3</sup>.</li> </ul>
<p>PO 28.5</p> <p>Universal design features are incorporated to provide options for people living with disabilities or limited mobility and / or to facilitate ageing in place.</p>	<p>DTS/DPF 28.5</p> <p>None are applicable.</p>

<p>PO 29.1</p> <p>Buildings containing in excess of 10 dwellings provide a variety of dwelling sizes and a range in the number of bedrooms per dwelling to contribute to housing diversity.</p>	<p>DTS/DPF 29.1</p> <p>Buildings containing in excess of 10 dwellings provide at least one of each of the following:</p> <ul style="list-style-type: none"> <li>(a) studio (where there is no separate bedroom)</li> <li>(b) 1 bedroom dwelling / apartment with a floor area of at least 50m<sup>2</sup></li> <li>(c) 2 bedroom dwelling / apartment with a floor area of at least 65m<sup>2</sup></li> <li>(d) 3+ bedroom dwelling / apartment with a floor area of at least 80m<sup>2</sup>, and any dwelling over 3 bedrooms provides an additional 15m<sup>2</sup> for every additional bedroom.</li> </ul>
---	--

<p>PO 29.2</p> <p>Dwellings located on the ground floor of multi-level buildings with 3 or more bedrooms have the windows of their habitable rooms overlooking internal courtyard space or other public space, where possible.</p>	<p>DTS/DPF 29.2</p> <p>None are applicable.</p>
--	---

**Common Areas**

<p>PO 30.1</p> <p>The size of lifts, lobbies and corridors is sufficient to accommodate movement of bicycles, strollers, mobility aids and visitor waiting areas.</p>	<p>DTS/DPF 30.1</p> <p>Common corridor or circulation areas:</p> <ul style="list-style-type: none"> <li>(a) have a minimum ceiling height of 2.7m</li> <li>(b) provide access to no more than 8 dwellings</li> <li>(c) incorporate a wider section of apartment entries where the corridors exceed 12m in length from a core.</li> </ul>
---	--

**Group Dwellings, Residential Flat Buildings and Battle axe Development**

**Amenity**

<p>PO 31.1</p> <p>Dwellings are of a suitable size to provide high standard of amenity for occupants.</p>	<p>DTS/DPF 31.1</p> <p>Dwellings have a minimum internal floor area in accordance with the following table:</p> <table border="1" data-bbox="805 1525 1549 2112"> <thead> <tr> <th style="background-color: #d9ead3;">Number of bedrooms</th> <th style="background-color: #d9ead3;">Minimum internal floor area</th> </tr> </thead> <tbody> <tr> <td>Studio</td> <td>35m<sup>2</sup></td> </tr> <tr> <td>1 bedroom</td> <td>50m<sup>2</sup></td> </tr> <tr> <td>2 bedroom</td> <td>65m<sup>2</sup></td> </tr> <tr> <td>3+ bedrooms</td> <td>80m<sup>2</sup> and any dwelling over 3 bedrooms provides and additional 15m<sup>2</sup> for every additional bedroom</td> </tr> </tbody> </table>	Number of bedrooms	Minimum internal floor area	Studio	35m <sup>2</sup>	1 bedroom	50m <sup>2</sup>	2 bedroom	65m <sup>2</sup>	3+ bedrooms	80m <sup>2</sup> and any dwelling over 3 bedrooms provides and additional 15m <sup>2</sup> for every additional bedroom
Number of bedrooms	Minimum internal floor area										
Studio	35m <sup>2</sup>										
1 bedroom	50m <sup>2</sup>										
2 bedroom	65m <sup>2</sup>										
3+ bedrooms	80m <sup>2</sup> and any dwelling over 3 bedrooms provides and additional 15m <sup>2</sup> for every additional bedroom										

<p>PO 31.2</p> <p>The orientation and siting of buildings minimises impacts on the amenity, outlook and privacy of occupants and neighbours.</p>	<p>DTS/DPF 31.2</p> <p>None are applicable.</p>
<p>PO 31.3</p> <p>Development maximises the number of dwellings that face public open space and public streets and limits dwellings oriented towards adjoining properties.</p>	<p>DTS/DPF 31.3</p> <p>None are applicable.</p>
Communal Open Space	
<p>PO 32.1</p> <p>Communal open space is provided where private open space provision is inadequate to meet the needs of occupants or where the nature of the development is such that private open space is not ordinarily provided.</p>	<p>DTS/DPF 32.1</p> <p>None are applicable.</p>
Car parking, access and manoeuvrability	
<p>PO 33.1</p> <p>Driveways and access points are designed and distributed to optimise the provision of on-street visitor parking.</p>	<p>DTS/DPF 33.1</p> <p>Where on-street parking is available directly adjacent the site, parking is retained in accordance with the following requirements:</p> <ul style="list-style-type: none"> <li>(a) 0.33 on-street car parks per proposed dwelling (rounded up to the nearest whole number)</li> <li>(b) minimum car park length of 5.5m.</li> </ul>
<p>PO 33.2</p> <p>The number of vehicular access points onto public roads is minimised to reduce interruption of the footpath and positively contribute to public safety and walkability.</p>	<p>DTS/DPF 33.2</p> <p>Access to group dwellings or dwellings within a residential flat building is provided via a single common driveway.</p>
<p>PO 33.3</p> <p>Residential driveways that service more than one dwelling of a dimension allow safe and convenient movement.</p>	<p>DTS/DPF 33.3</p> <p>Driveways that service more than one dwelling:</p> <ul style="list-style-type: none"> <li>(a) have a minimum width of 3m</li> <li>(b) where the driveway length exceeds 30m: <ul style="list-style-type: none"> <li>(i) incorporate at least one passing point with a minimum width of 5.5m and a minimum length of 6m</li> <li>(ii) locate the passing point in DTS/DPF 33.3(b)(i) within 12m of the primary street boundary and incorporate an additional passing point at least every 30m thereafter.</li> </ul> </li> </ul>

<p>PO 33.4</p> <p>Residential driveways that service more than one dwelling are designed to allow passenger vehicles to enter and exit and manoeuvre within the site in a safe and convenient manner.</p>	<p>DTS/DPF 33.4</p> <p>Driveways providing access to more than one dwelling allow a B85 passenger vehicle to:</p> <ul style="list-style-type: none"> <li>(a) enter and exit the site in a forward direction</li> <li>(b) undertake all manoeuvring through circulation within the site of no more than a 3 point turn.</li> </ul>
<p>PO 33.5</p> <p>Dwellings are adequately separated from common driveways and manoeuvring areas.</p>	<p>DTS/DPF 33.5</p> <p>Vehicle movement paths required to achieve DTS/DPF 33.4 are at least 1.5m from habitable room windows of dwellings.</p>
Soft landscaping	
<p>PO 34.1</p> <p>Soft landscaping is provided between dwellings and common driveways to improve the outlook for occupants and appearance of common areas.</p>	<p>DTS/DPF 34.1</p> <p>Other than where located directly in front of a garage or building entry, soft landscaping with a minimum dimension of 1m is provided between a dwelling and common driveway.</p>
<p>PO 34.2</p> <p>Soft landscaping is provided that improves the appearance of common driveways.</p>	<p>DTS/DPF 34.2</p> <p>Where a common driveway is located directly adjacent the side or rear boundary of the site, soft landscaping with a minimum dimension of 1m is provided between the driveway and site boundary (excluding along the perimeter of a passing point required in DTS 34.3).</p>
Site Facilities / Waste Storage	
<p>PO 35.1</p> <p>Provision is made for suitable mailbox facilities close to the major pedestrian entry to the site or conveniently located considering the nature of accommodation and mobility of occupants.</p>	<p>DTS/DPF 35.1</p> <p>None are applicable.</p>
<p>PO 35.2</p> <p>Provision is made for suitable external clothes drying facilities.</p>	<p>DTS/DPF 35.2</p> <p>None are applicable.</p>
<p>PO 35.3</p> <p>Provision is made for suitable household waste and recyclable material storage facilities conveniently located away, or screened, from public view.</p>	<p>DTS/DPF 35.3</p> <p>None are applicable.</p>
<p>PO 35.4</p> <p>Waste and recyclable material storage areas are located away from dwellings.</p>	<p>DTS/DPF 35.4</p> <p>Dedicated waste and recyclable material storage areas are located at least 3m from any habitable room window.</p>

<p>PO 35.5</p> <p>Provision is made for on-site waste collection where 10 or more bins are to be collected at any one time.</p>	<p>DTS/DPF 35.5</p> <p>None are applicable.</p>
<p>PO 35.6</p> <p>Services including gas and water meters are conveniently located and screened from public view.</p>	<p>DTS/DPF 35.6</p> <p>None are applicable.</p>
<p>Supported Accommodation and retirement facilities</p>	
<p>Siting and Configuration</p>	
<p>PO 36.1</p> <p>Supported accommodation and housing for aged persons and people with disabilities is located where on-site movement of residents is not unduly restricted by the slope of the land.</p>	<p>DTS/DPF 36.1</p> <p>None are applicable.</p>
<p>Movement and Access</p>	
<p>PO 37.1</p> <p>Development is designed to support safe and convenient access and movement for residents by providing:</p> <ul style="list-style-type: none"> <li>(a) ground-level access or lifted access to all units</li> <li>(b) level entry porches, ramps, paths, driveways, passenger loading areas and areas adjacent to footpaths that allow for the passing of wheelchairs and resting places</li> <li>(c) car parks with gradients no steeper than 1-in-40, and of sufficient area to provide for wheelchair manoeuvrability</li> <li>(d) kerb ramps at pedestrian crossing points.</li> </ul>	<p>DTS/DPF 37.1</p> <p>None are applicable.</p>
<p>Communal Open Space</p>	
<p>PO 38.1</p> <p>Development is designed to provide attractive, convenient and comfortable indoor and outdoor communal areas to be used by residents and visitors.</p>	<p>DTS/DPF 38.1</p> <p>None are applicable.</p>
<p>PO 38.2</p> <p>Communal open space is provided where private open space provision is inadequate to meet the needs of occupants or where the nature of the development is such that private open space is not ordinarily provided.</p>	<p>DTS/DPF 38.2</p> <p>None are applicable.</p>
<p>Site Facilities / Waste Storage</p>	
<p>PO 39.1</p> <p>Development is designed to provide storage areas for personal items and specialised equipment such as small electric powered vehicles, including facilities for the recharging of small electric-powered vehicles.</p>	<p>DTS/DPF 39.1</p> <p>None are applicable.</p>

<p>PO 39.2</p> <p>Provision is made for suitable mailbox facilities close to the major pedestrian entry to the site or conveniently located considering the nature of accommodation and mobility of occupants.</p>	<p>DTS/DPF 39.2</p> <p>None are applicable.</p>
<p>PO 39.3</p> <p>Provision is made for suitable external clothes drying facilities.</p>	<p>DTS/DPF 39.3</p> <p>None are applicable.</p>
<p>PO 39.4</p> <p>Provision is made for suitable household waste and recyclable material storage facilities conveniently located away, or screened, from view.</p>	<p>DTS/DPF 39.4</p> <p>None are applicable.</p>
<p>PO 39.5</p> <p>Waste and recyclable material storage areas are located away from dwellings.</p>	<p>DTS/DPF 39.5</p> <p>Dedicated waste and recyclable material storage areas are located at least 3m from any habitable room window.</p>
<p>PO 39.6</p> <p>Provision is made for on-site waste collection where 10 or more bins are to be collected at any one time.</p>	<p>DTS/DPF 39.6</p> <p>None are applicable.</p>
<p>PO 39.7</p> <p>Services, including gas and water meters, are conveniently located and screened from public view.</p>	<p>DTS/DPF 39.7</p> <p>None are applicable.</p>

Student Accommodation

<p>PO 40.1</p> <p>Student accommodation is designed to provide safe, secure, attractive, convenient and comfortable living conditions for residents, including an internal layout and facilities that are designed to provide sufficient space and amenity for the requirements of student life and promote social interaction.</p>	<p>DTS/DPF 40.1</p> <p>Student accommodation provides:</p> <ul style="list-style-type: none"> <li>(a) a range of living options meet a variety of accommodation needs, such as one-bedroom, two-bedroom and disability access units</li> <li>(b) common or shared facilities enable a more efficient use of space, including: <ul style="list-style-type: none"> <li>(i) shared cooking, laundry and external drying facilities</li> <li>(ii) internal and external communal and private open space provided in accordance with Design in Urban Areas [Private Open Space] DTS / DPF 22.1</li> <li>(iii) common storage facilities at the rate of 8m<sup>3</sup> for every 2 dwellings or students</li> <li>(iv) common on-site parking to meet anticipated demand in accordance with Transport, Access and Parking [Vehicle Parking Rates] DTS / DPF 5.1</li> <li>(v) secure and sheltered bicycle parking at the rate of one space for every 2 students.</li> </ul> </li> </ul>
---	---

<p>PO 40.2</p> <p>Student accommodation is designed to provide easy adaptation of the building to accommodate an alternative use of the building in the event it is no longer required for student housing.</p>	<p>DTS/DPF 40.2</p> <p>None are applicable.</p>
<p>All non-residential development</p>	
<p>Water Sensitive Design</p>	
<p>PO 41.1</p> <p>Development likely to result in risk of export of sediment, suspended solids, organic matter, nutrients, oil and grease include stormwater management systems is designed to minimise pollutants entering stormwater.</p>	<p>DTS/DPF 41.1</p> <p>Development includes stormwater management systems designed to achieve the following pollutant reduction outcomes:</p> <ul style="list-style-type: none"> <li>(a) 80 per cent reduction in average annual total suspended solids</li> <li>(b) 60 per cent reduction in average annual total phosphorus</li> <li>(c) 45 per cent reduction in average annual total nitrogen</li> <li>(d) 90 per cent reduction of litter/gross pollutants compared to untreated stormwater runoff</li> <li>(e) no visible oils/grease for flows up to the 4 EY (Exceedances per year).</li> </ul>
<p>PO 41.2</p> <p>Water discharged from a development site is of a physical, chemical and biological condition equivalent to or better than its pre-developed state.</p>	<p>DTS/DPF 41.2</p> <p>None are applicable.</p>
<p>PO 41.3</p> <p>Development includes stormwater management systems to mitigate peak flows and manage the rate and duration of stormwater discharges from the site to ensure that development does not increase peak flows in downstream systems.</p>	<p>DTS/DPF 41.3</p> <p>Development includes stormwater management systems that:</p> <ul style="list-style-type: none"> <li>(a) maintain a pre-development peak flow rate from the site, based upon a 0.35 runoff coefficient for the 5% AEP 30 minute storm, unless a lower performance measure is specified in an approved catchment based Stormwater Management Plan</li> <li>(b) maintains the stormwater runoff time to peak to match that of the pre-development</li> <li>(c) manages up to and including the 1% AEP flood event to avoid flooding of buildings.</li> </ul>
<p>Wash-down and Waste Loading and Unloading</p>	

<p>PO 42.1</p> <p>Areas for activities including loading and unloading, storage of waste refuse bins in commercial and industrial development or wash-down areas used for the cleaning of vehicles, plant or equipment are:</p> <ul style="list-style-type: none"> <li>(a) designed to contain all wastewater likely to pollute stormwater within a bunded and roofed area to exclude the entry of external surface stormwater run-off</li> <li>(b) paved with an impervious material to facilitate wastewater collection</li> <li>(c) of sufficient size to prevent 'splash-out' or 'over-spray' of wastewater from the wash-down area</li> <li>(d) are designed to drain wastewater to either:             <ul style="list-style-type: none"> <li>(i) a treatment device such as a sediment trap and coalescing plate oil separator with subsequent disposal to a sewer, private or Community Wastewater Management Scheme or</li> <li>(ii) a holding tank and its subsequent removal off-site on a regular basis.</li> </ul> </li> </ul>	<p>DTS/DPF 42.1</p> <p>None are applicable.</p>
<p>On-site Waste Treatment Systems</p>	
<p>PO 43.1</p> <p>Dedicated on-site effluent disposal areas do not include any areas to be used for, or could be reasonably foreseen to be used for, private open space, driveways or car parking.</p>	<p>DTS/DPF 43.1</p> <p>Effluent disposal drainage areas do not:</p> <ul style="list-style-type: none"> <li>(a) encroach within an area used as private open space or would result in less private open space than that specified in Design in Urban Areas Table 1 - Private Open Space</li> <li>(b) use an area also used as a driveway</li> <li>(c) encroach within an area used for on-site car parking or would result in less on-site car parking than that specified in Transport, Access and Parking [Vehicle Parking Rates] DTS / DPF 5.1.</li> </ul>

**Table 1 - Private Open Space**

Dwelling Type	Dwelling / Site Configuration	Minimum Rate
Dwelling (other than apartment)		Total area: 24m <sup>2</sup>  Minimum directly accessible from a living room: 16m <sup>2</sup> / minimum dimension 3m
Cabin or caravan (permanently fixed to the ground) in a residential park or caravan and tourist park		Total area: 16m <sup>2</sup> , which may be uses as second car parking space, provided on each site intended for residential occupation.
Apartments	Dwellings at ground level:	

	- All types	15m <sup>2</sup> / minimum dimension 3m
	Dwellings located above ground level:	
	- Studio	4m <sup>2</sup> / minimum dimension 1.8m
	- One bedroom dwelling	8m <sup>2</sup> / minimum dimension 2.1m
	- Two bedroom dwelling	11m <sup>2</sup> / minimum dimension 2.4m
	- Three + bedroom dwelling	15 m <sup>2</sup> / minimum dimension 2.6m

## Forestry

### Assessment Provisions (AP)

Desired Outcome (DO)

<b>Desired Outcome</b>	
DO 1	Commercial forestry is designed and sited to maximise economic benefits whilst managing potential negative impacts on the environment, transport networks, surrounding land uses and landscapes.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Siting	
<p>PO 1.1</p> <p>Commercial forestry plantations are established where there is no clearance of valued trees or substantially intact strata of native vegetation, or where there is no detrimental effect on the physical environment or scenic quality of the rural landscape.</p>	<p>DTS/DPF 1.1</p> <p>None are applicable.</p>
<p>PO 1.2</p> <p>Commercial forestry plantations are established on slopes that are stable to minimise the risk of soil erosion.</p>	<p>DTS/DPF 1.2</p> <p>Commercial forestry plantations are not located on land with a slope exceeding 20% (1-in-5).</p>
<p>PO 1.3</p> <p>Commercial forestry plantations and operations associated with their establishment, management and harvesting are appropriately set back from any sensitive receiver to minimise fire risk and noise disturbance.</p>	<p>DTS/DPF 1.3</p> <p>Commercial forestry plantations and operations associated with their establishment, management and harvesting are set back 50m or more from any sensitive receiver.</p>
<p>PO 1.4</p> <p>Commercial forestry plantations are separated from reserves gazetted under the <i>National Parks and Wildlife Act 1972</i> and/or <i>Wilderness Protection Act 1992</i> to minimise fire risk and potential for weed infestation.</p>	<p>DTS/DPF 1.4</p> <p>Commercial forestry plantations and operations associated with their establishment, management and harvesting are set back 50m or more of a reserve gazetted under the <i>National Parks and Wildlife Act 1972</i> and/or <i>Wilderness Protection Act 1992</i>.</p>
Water Protection	
<p>PO 2.1</p> <p>Commercial forestry plantations incorporate artificial drainage lines (i.e. culverts, runoffs and constructed drains) integrated with natural drainage lines to minimise concentrated water flows onto or from plantation areas.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
<p>PO 2.2</p> <p>Appropriate siting, layout and design measures are adopted to minimise the impact of commercial forestry plantations on surface water resources.</p>	<p>DTS/DPF 2.2</p> <p>Commercial forestry plantations:</p> <ul style="list-style-type: none"> <li>(a) do not involve cultivation (excluding spot cultivation) in drainage lines</li> <li>(b) are set back 20m or more from the banks of any major watercourse (a third order or higher watercourse), lake, reservoir, wetland or sinkhole (with direct connection to an aquifer)</li> <li>(c) are set back 10m or more from the banks of any first or second order watercourse or sinkhole ( with no direct connection to an aquifer).</li> </ul>
Fire Management	
<p>PO 3.1</p> <p>Commercial forestry plantations incorporate appropriate</p>	<p>DTS/DPF 3.1</p> <p>Commercial forestry plantations provide</p>

<p>Commercial forestry plantations incorporate appropriate firebreaks and fire management design elements.</p>	<p>Commercial forestry plantations provide:</p> <ul style="list-style-type: none"> <li>(a) 7m or more wide external boundary firebreaks for plantations of 40ha or less</li> <li>(b) 10m or more wide external boundary firebreaks for plantations of between 40ha and 100ha</li> <li>(c) 20m or more wide external boundary firebreaks, or 10m with an additional 10m or more of fuel-reduced plantation, for plantations of 100ha or greater.</li> </ul>
<p>PO 3.2 Commercial forestry plantations incorporate appropriate fire management access tracks.</p>	<p>DTS/DPF 3.2 Commercial forestry plantation fire management access tracks:</p> <ul style="list-style-type: none"> <li>(a) are incorporated within all firebreaks</li> <li>(b) are 7m or more wide with a vertical clearance of 4m or more</li> <li>(c) are aligned to provide straight through access at junctions, or if they are a no through access track are appropriately signposted and provide suitable turnaround areas for fire-fighting vehicles</li> <li>(d) partition the plantation into units of 40ha or less in area.</li> </ul>

Power-line Clearances

<p>PO 4.1 Commercial forestry plantations achieve and maintain appropriate clearances from aboveground powerlines.</p>	<p>DTS/DPF 4.1 Commercial forestry plantations incorporating trees with an expected mature height of greater than 6m meet the clearance requirements listed in the following table:</p> <table border="1" data-bbox="804 1151 1551 1899"> <thead> <tr> <th>Voltage of transmission line</th> <th>Tower or Pole</th> <th>Minimum horizontal clearance distance between plantings and transmission lines</th> </tr> </thead> <tbody> <tr> <td>500 kV</td> <td>Tower</td> <td>38m</td> </tr> <tr> <td>275 kV</td> <td>Tower</td> <td>25m</td> </tr> <tr> <td>132 kV</td> <td>Tower</td> <td>30m</td> </tr> <tr> <td>132 kV</td> <td>Pole</td> <td>20m</td> </tr> <tr> <td>66 kV</td> <td>Pole</td> <td>20m</td> </tr> <tr> <td>Less than 66 kV</td> <td>Pole</td> <td>20m</td> </tr> </tbody> </table>	Voltage of transmission line	Tower or Pole	Minimum horizontal clearance distance between plantings and transmission lines	500 kV	Tower	38m	275 kV	Tower	25m	132 kV	Tower	30m	132 kV	Pole	20m	66 kV	Pole	20m	Less than 66 kV	Pole	20m
Voltage of transmission line	Tower or Pole	Minimum horizontal clearance distance between plantings and transmission lines																				
500 kV	Tower	38m																				
275 kV	Tower	25m																				
132 kV	Tower	30m																				
132 kV	Pole	20m																				
66 kV	Pole	20m																				
Less than 66 kV	Pole	20m																				

**Housing Renewal**

**Assessment Provisions (AP)**

Desired Outcome (DO)

## Desired Outcome

DO 1	Renewed residential environments replace older social housing and provide new social housing infrastructure and other housing options and tenures to enhance the residential amenity of the local area.
------	---

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Residential development provides a range of housing choices.	DTS/DPF 1.1 Development comprises: <ul style="list-style-type: none"> <li>(a) detached dwellings</li> <li>(b) semi-detached dwellings</li> <li>(c) row dwellings</li> <li>(d) group dwellings</li> <li>(e) residential flat buildings.</li> </ul>
PO 1.2 Higher density housing options (such as medium rise residential flat buildings) are provided in close proximity to public transit, open space and/or activity centres.	DTS/DPF 1.2 None are applicable.
Building Height	
PO 2.1 Buildings generally do not exceed 3 building levels unless in locations close to public transport, centres and/or open space.	DTS/DPF 2.1 Building height (excluding garages, carports and outbuildings) does not exceed 3 building levels and 12m and wall height does not exceed 9m (not including a gable end).
PO 2.2 Medium-rise buildings are in locations close to public transport, centres and/or open space.	DTS/DPF 2.2 None are applicable.
PO 2.3 Medium-rise residential flat buildings located within or at the interface with zones which restrict heights to a maximum of 2 storeys, transition down in scale and height towards the the boundary of that zone, other than where it is a street boundary.	DTS/DPF 2.3 None are applicable.
Primary Street Setback	
PO 3.1 Buildings are set back from the primary street boundary to contribute to an attractive streetscape character.	DTS/DPF 3.1 Buildings are no closer to the primary street (excluding any balcony, verandah, porch, awning or similar structure) than 3m.
Secondary Street Setback	
PO 4.1 Buildings are set back from secondary street boundaries to maintain separation between building walls and public streets and contribute to a suburban streetscape character.	DTS/DPF 4.1 Buildings are set back at least 900mm from the boundary of the allotment with the secondary street frontage.
Boundary Walls	

<p>PO 5.1</p> <p>Boundary walls are limited in height and length to manage visual impacts and access to natural light and ventilation.</p>	<p>DTS/DPF 5.1</p> <p>Except where the dwelling is located on a central site within a row dwelling or terrace arrangement, dwellings with side boundary walls are sited on only one side boundary and:</p> <ul style="list-style-type: none"> <li>(a) adjoin or abut a boundary wall of a building on adjoining land for the same length and height or</li> <li>(b) do not exceed the following: <ul style="list-style-type: none"> <li>(i) 3m in height</li> <li>(ii) 11m in length</li> <li>(iii) when combined with other walls on the boundary of the subject development site, a maximum 45% of the length of the boundary</li> <li>(iv) at least 3 metres from any other existing or proposed boundary walls on the subject land.</li> </ul> </li> </ul>
<p>PO 5.2</p> <p>Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings consistent with a suburban streetscape character.</p>	<p>DTS/DPF 5.2</p> <p>Dwellings in a semi-detached or row arrangement are set back .9m or more from side boundaries shared with allotments outside the development site, except for a carport or garage.</p>
<p>Side Boundary Setback</p>	
<p>PO 6.1</p> <p>Buildings are set back from side boundaries to provide:</p> <ul style="list-style-type: none"> <li>(a) separation between dwellings in a way that contributes to a suburban character</li> <li>(b) access to natural light and ventilation for neighbours.</li> </ul>	<p>DTS/DPF 6.1</p> <p>Other than walls located on a side boundary, buildings are set back from side boundaries:</p> <ul style="list-style-type: none"> <li>(a) .9m or more where the wall height is up to 3m</li> <li>(b) other than for a wall facing a southern side boundary, .9m or more plus 1/3 of the wall height above 3m</li> <li>(c) 1.9m or more plus 1/3 of the wall height above 3m for walls facing a southern side boundary.</li> </ul>
<p>Rear Boundary Setback</p>	
<p>PO 7.1</p> <p>Buildings are set back from rear boundaries to provide:</p> <ul style="list-style-type: none"> <li>(a) separation between dwellings in a way that contributes to a suburban character</li> <li>(b) access to natural light and ventilation for neighbours</li> <li>(c) private open space</li> <li>(d) space for landscaping and vegetation.</li> </ul>	<p>DTS/DPF 7.1</p> <p>Dwellings are set back from rear boundary:</p> <ul style="list-style-type: none"> <li>(a) 3m or more for the first building level</li> <li>(b) 5m or more for any subsequent building level.</li> </ul>
<p>Façade design</p>	
<p>PO 8.1</p> <p>Dwelling facades facing public streets and common driveways make a positive contribution to the streetscape.</p>	<p>DTS/DPF 8.1</p> <p>Each dwelling includes at least 2 of the following design features along each façade facing a public road or common driveway:</p> <ul style="list-style-type: none"> <li>(a) a minimum of 25% of the façade is set back an additional 300mm</li> <li>(b) a porch or portico that projects at 1m or more from the</li> </ul>

building façade and is open on least 2 sides

- (c) a balcony that projects 1m or more from the building façade
- (d) a verandah that projects at least 1m from the building façade
- (e) eaves surrounding the dwelling of a minimum 400mm width
- (f) a minimum 50% of the upper level projects forward a minimum of 300mm from the lower level building line.

<p>PO 8.2</p> <p>Dwellings incorporate windows along primary street frontages to encourage passive surveillance and make a positive contribution to the streetscape.</p>	<p>DTS/DPF 8.2</p> <p>Each dwelling with a frontage to a public street:</p> <ul style="list-style-type: none"> <li>(a) includes at least one window facing the primary street from a habitable room</li> <li>(b) has a minimum aggregate window area of at least 2m<sup>2</sup> facing the primary street</li> </ul>						
<p>PO 8.3</p> <p>The visual bulk of large buildings is reduced when viewed from adjoining allotments or public streets, such as through the incorporation of windows, articulation, building materials and textures.</p>	<p>DTS/DPF 8.3</p> <p>None are applicable.</p>						
<p>PO 8.4</p> <p>Built form considers local context and provides a quality design response through scale, massing, materials, colours and architectural expression.</p>	<p>DTS/DPF 8.4</p> <p>None are applicable.</p>						
<p>PO 8.5</p> <p>Entrances to apartment buildings are:</p> <ul style="list-style-type: none"> <li>(a) oriented towards the street</li> <li>(b) visible and easily identifiable from the street</li> <li>(c) designed to include a common mail box structure.</li> </ul>	<p>DTS/DPF 8.5</p> <p>None are applicable.</p>						
<p>Outlook and amenity</p>							
<p>PO 9.1</p> <p>Primary living rooms have an external outlook to provide a high standard of internal amenity for occupants.</p>	<p>DTS/DPF 9.1</p> <p>Living rooms incorporate a window with an outlook towards the street frontage or private open space.</p>						
<p>PO 9.2</p> <p>Ground level bedrooms are separated or shielded from active communal recreation areas, common access areas and vehicle parking areas and access ways to mitigate noise and artificial light intrusion.</p>	<p>DTS/DPF 9.2</p> <p>None are applicable.</p>						
<p>Private Open Space</p>							
<p>PO 10.1</p> <p>Dwellings are provided with suitable sized areas of usable private open space to meet the needs of occupants.</p>	<p>DTS/DPF 10.1</p> <p>Private open space is provided in accordance with the following table:</p> <table border="1" data-bbox="807 1948 1541 2208"> <thead> <tr> <th data-bbox="807 1948 1023 2105">Dwelling Type</th> <th data-bbox="1026 1948 1265 2105">Dwelling / Site Configuration</th> <th data-bbox="1268 1948 1541 2105">Minimum Rate</th> </tr> </thead> <tbody> <tr> <td data-bbox="807 2110 1023 2208">Dwelling (other than apartment)</td> <td data-bbox="1026 2110 1265 2208"></td> <td data-bbox="1268 2110 1541 2208">                     Total area: 24m<sup>2</sup>                      3428                      Minimum adjacent to a                 </td> </tr> </tbody> </table>	Dwelling Type	Dwelling / Site Configuration	Minimum Rate	Dwelling (other than apartment)		Total area: 24m <sup>2</sup> 3428 Minimum adjacent to a
Dwelling Type	Dwelling / Site Configuration	Minimum Rate					
Dwelling (other than apartment)		Total area: 24m <sup>2</sup> 3428 Minimum adjacent to a					

		minimum adjacent to a living room: 16m <sup>2</sup> / minimum dimension 3m
Apartments	Dwellings at ground level:	
	- All types	15m <sup>2</sup> / minimum dimension 3m
	Dwellings located above ground level:	
	- Studio	4m <sup>2</sup> / minimum dimension 1.8m
	- One bedroom dwelling	8m <sup>2</sup> / minimum dimension 2.1m
	- Two bedroom dwelling	11m <sup>2</sup> / minimum dimension 2.4m
	- Three + bedroom dwelling	15 m <sup>2</sup> / minimum dimension 2.6m

Visual privacy	
<p>PO 11.1</p> <p>Development mitigates direct overlooking from upper level windows to habitable rooms and private open spaces of other dwellings.</p>	<p>DTS/DPF 11.1</p> <p>Upper level windows facing side or rear boundaries shared with another residential allotment/site:</p> <ul style="list-style-type: none"> <li>(a) are permanently obscured to a height of 1.5m above finished floor level and are fixed or not capable of being opened more than 200mm or</li> <li>(b) have sill heights greater than or equal to 1.5m above finished floor level or</li> <li>(c) incorporate screening to a height of 1.5m above finished floor level.</li> </ul>
<p>PO 11.2</p> <p>Development mitigates direct overlooking from balconies to habitable rooms and private open space of other dwellings.</p>	<p>DTS/DPF 11.2</p> <p>All sides of balconies or terraces on upper building levels are:</p> <ul style="list-style-type: none"> <li>(a) permanently obscured / screened to a height of 1.7m above finished floor level or</li> <li>(b) the longest side of the balcony faces a road (including any road reserve) or reserve (including land held as open space) that is at least 15m wide in all places faced by the balcony.</li> </ul>

Landscaping

<p>PO 12.1</p> <p>Soft landscaping is incorporated into development to:</p> <ul style="list-style-type: none"> <li>(a) minimise heat absorption and reflection</li> <li>(b) maximise shade and shelter</li> <li>(c) maximise stormwater infiltration and biodiversity</li> <li>(d) enhance the appearance of land and streetscapes.</li> </ul>	<p>DTS/DPF 12.1</p> <p>Residential development incorporates areas for soft landscaping with a minimum dimension of .5m provided in accordance with the following:</p> <table border="1" style="margin-left: auto; margin-right: auto;"> <thead> <tr> <th style="background-color: #d9ead3;">Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m<sup>2</sup>)</th> <th style="background-color: #d9ead3;">Percentage of site</th> </tr> </thead> <tbody> <tr> <td style="text-align: center;">&lt;200</td> <td style="text-align: center;">15%</td> </tr> <tr> <td style="text-align: center;">201-450</td> <td style="text-align: center;">20%</td> </tr> <tr> <td style="text-align: center;">&gt;450</td> <td style="text-align: center;">25%</td> </tr> </tbody> </table> <ul style="list-style-type: none"> <li>(a) and</li> <li>(b) 25% of land between the road boundary and the primary building line is provided for soft landscaping with a minimum dimension of 1.5 metres.</li> </ul>	Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Percentage of site	<200	15%	201-450	20%	>450	25%
Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Percentage of site								
<200	15%								
201-450	20%								
>450	25%								

PO 13.1

Residential development is designed to capture and reuse stormwater to maximise conservation of water resources; manage peak stormwater runoff flows and volume; and manage runoff quality to maintain, as close as practical, pre-development conditions.

DTS/DPF 13.1

None are applicable.

Parking	
<p>PO 14.1</p> <p>On-site car parking is provided to meet the anticipated demand of residents, with less on-site parking in areas in close proximity to public transport.</p>	<p>DTS/DPF 14.1</p> <p>On-site car parking is provided at the following rates per dwelling:</p> <ul style="list-style-type: none"> <li>(a) 2 or fewer bedrooms - 1 car parking space</li> <li>(b) 3 or more bedrooms - 2 car parking spaces.</li> </ul>
<p>PO 14.2</p> <p>Enclosed car parking spaces are of dimensions to be functional, accessible and convenient.</p>	<p>DTS/DPF 14.2</p> <p>Residential parking spaces are enclosed by fencing, walls or other obstructions with the following internal dimensions:</p> <ul style="list-style-type: none"> <li>(a) single parking spaces:                             <ul style="list-style-type: none"> <li>(i) a minimum length of 5.4m</li> <li>(ii) a minimum width of 3.0m</li> <li>(iii) a minimum garage door width of 2.4m</li> </ul> </li> <li>(b) double parking spaces (side by side):                             <ul style="list-style-type: none"> <li>(i) a minimum length of 5.4m</li> <li>(ii) a minimum width of 5.5m</li> <li>(iii) minimum garage door width of 2.4m per space.</li> </ul> </li> </ul>
<p>PO 14.3</p> <p>Uncovered car parking spaces are of dimensions to be functional, accessible and convenient.</p>	<p>DTS/DPF 14.3</p> <p>Uncovered car parking spaces have:</p> <ul style="list-style-type: none"> <li>(a) a minimum length of 5.4m</li> <li>(b) a minimum width of 2.4m</li> <li>(c) a minimum width between the centre line of the space and any fence, wall or other obstruction of 1.5m.</li> </ul>
<p>PO 14.4</p> <p>Residential flat buildings and group dwelling developments provide sufficient on-site visitor car parking to cater for anticipated demand.</p>	<p>DTS/DPF 14.4</p> <p>Visitor car parking for group and residential flat buildings incorporating 4 or more dwellings is provided on-site at a minimum ratio of 0.25 car parking spaces per dwelling.</p>
<p>PO 14.5</p> <p>Residential flat buildings provide dedicated areas for bicycle parking.</p>	<p>DTS/DPF 14.5</p> <p>Residential flat buildings provide one bicycle parking space per dwelling.</p>
Overshadowing	
<p>PO 15.1</p> <p>Development minimises overshadowing of the private open spaces of adjoining land by ensuring that ground level open space associated with residential buildings receive direct sunlight for a minimum of 2 hours between 9am and 3pm on 21 June.</p>	<p>DTS/DPF 15.1</p> <p>None are applicable.</p>
Waste	
<p>PO 16.1</p> <p>Provision is made for the convenient storage of waste bins in a</p>	<p>DTS/DPF 16.1</p> <p>A waste bin storage area is provided behind the primary building</p>

Provision is made for the convenient storage of waste bins in a location screened from public view.

A waste bin storage area is provided behind the primary building line that:

- (a) is capable of accommodating the domestic waste bins associated with the waste and recycling collection service for the site
- (b) can be accessed from the street for the purpose of moving waste bins from the storage location to the street for collection.

<p>PO 16.2</p> <p>Residential apartment buildings provide a dedicated area for the on-site storage of waste which is:</p> <ul style="list-style-type: none"> <li>(a) easily and safely accessible for residents and for collection vehicles</li> <li>(b) screened from adjoining land and public roads</li> <li>(c) of sufficient dimensions to be able to accommodate the waste storage needs of the development considering the intensity and nature of the development and the frequency of collection.</li> </ul>	<p>DTS/DPF 16.2</p> <p>None are applicable.</p>
<p>Vehicle Access</p>	
<p>PO 17.1</p> <p>Driveways are located and designed to facilitate safe access and egress while maximising land available for street tree planting, landscaped street frontages and on-street parking.</p>	<p>DTS/DPF 17.1</p> <p>None are applicable.</p>
<p>PO 17.2</p> <p>Vehicle access is safe, convenient, minimises interruption to the operation of public roads and does not interfere with street infrastructure or street trees.</p>	<p>DTS/DPF 17.2</p> <p>Vehicle access to designated car parking spaces:</p> <ul style="list-style-type: none"> <li>(a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land</li> <li>(b) where newly proposed, is set back: <ul style="list-style-type: none"> <li>(i) 500mm or more from any street furniture, street pole, infrastructure services pit, or other stormwater or utility infrastructure unless consent is provided from the asset owner</li> <li>(ii) 2m or more from a street tree unless consent is provided from the tree owner</li> <li>(iii) 6m or more from the tangent point of an intersection of 2 or more roads or a pedestrian-actuated crossing.</li> </ul> </li> </ul>
<p>PO 17.3</p> <p>Driveways are designed to enable safe and convenient vehicle movements from the public road to on-site parking spaces.</p>	<p>DTS/DPF 17.3</p> <p>Driveways are designed and sited so that:</p> <ul style="list-style-type: none"> <li>(a) the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the garage or carport is not steeper than 1:4 on average</li> <li>(b) they are aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of any dedicated car parking space to which it provides access (measured from the front of that space) and the road boundary.</li> <li>(c) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site.</li> </ul>
<p>PO 17.4</p> <p>Driveways and access points are designed and distributed to optimise the provision of on-street parking</p>	<p>DTS/DPF 17.4</p> <p>Where on-street parking is available directly adjacent the site, parking is retained in accordance with the following requirements:</p>

optimise the provision of on-street parking.

parking is retained in accordance with the following requirements.

1. minimum 0.33 on-street spaces per proposed dwellings (rounded up to the nearest whole number)
2. minimum car park length of 5.5m.

<p>PO 17.5</p> <p>Residential driveways service more than one dwelling of a dimension to allow safe and convenient movement.</p>	<p>DTS/DPF 17.5</p> <p>Driveways that service more than one dwelling:</p> <ul style="list-style-type: none"> <li>(a) have a minimum width of 3m</li> <li>(b) where the driveway length exceeds 30m:                             <ul style="list-style-type: none"> <li>(i) incorporate at least one passing point with a minimum width of 5.5m and a minimum length of 6m</li> <li>(ii) locate the passing point in DTS/DPF 17.5 (b)(i) within 12m of the primary street boundary and incorporate an additional passing point at least every 30m thereafter.</li> </ul> </li> </ul>
<p>PO 17.6</p> <p>Residential driveways that service more than one dwelling are designed to allow passenger vehicles to enter and exit the site and manoeuvre within the site in a safe and convenient manner.</p>	<p>DTS/DPF 17.6</p> <p>Driveways providing access to more than one dwelling allow a B85 passenger vehicle to:</p> <ul style="list-style-type: none"> <li>(a) enter and exit the site in a forward direction</li> <li>(b) undertake all manoeuvring through circulation around the site of no more than a 3 point turn.</li> </ul>
<p>PO 17.7</p> <p>Dwellings are adequately separated from common driveways and manoeuvring areas.</p>	<p>DTS/DPF 17.7</p> <p>Vehicle movement paths required to achieve DTS/DPF 17.6 are at least 1.5m from habitable room windows of dwellings.</p>
<p>Storage</p>	
<p>PO 18.1</p> <p>Apartments are provided with sufficient space for storage to meet likely occupant needs.</p>	<p>DTS/DPF 18.1</p> <p>Apartments are provided with storage at the following rates and 50% or more of the storage volume is provided within the dwelling:</p> <ul style="list-style-type: none"> <li>(a) studio: not less than 6m<sup>3</sup></li> <li>(b) 1 bedroom dwelling / apartment: not less than 8m<sup>3</sup></li> <li>(c) 2 bedroom dwelling / apartment: not less than 10m<sup>3</sup></li> <li>(d) 3+ bedroom dwelling / apartment: not less than 12m<sup>3</sup>.</li> </ul>
<p>Earthworks</p>	
<p>PO 19.1</p> <p>Buildings are designed and sited to minimise the alteration of existing landform.</p>	<p>DTS/DPF 19.1</p> <p>The development does not involve:</p> <ul style="list-style-type: none"> <li>(a) excavation exceeding a vertical height of 1m or</li> <li>(b) filling exceeding a vertical height of 1m or</li> <li>(c) a total combined excavation and filling vertical height exceeding 2m.</li> </ul>
<p>Service connections and infrastructure</p>	
<p>PO 20.1</p> <p>Dwellings are provided with appropriate service connections and infrastructure</p>	<p>DTS/DPF 20.1</p> <p>The site and building:</p>

<p>Infrastructure.</p>	<ul style="list-style-type: none"> <li>(a) have the ability to be connected to a permanent potable water supply</li> <li>(b) have the ability to be connected to a sewerage system, or a waste water control system approved under Public and Environmental Health Act 1987</li> <li>(c) have the ability to be connected to electricity supply</li> <li>(d) have the ability to be connected to an adequate water supply (and pressure) for fire-fighting purposes where located in a Hazard (Bushfire Risk) Overlay</li> <li>(e) would not be contrary to the Regulations prescribed for the purposes of Section 86 of the Electricity Act 1996.</li> </ul>
<p>Site contamination</p>	
<p>PO 21.1</p> <p>Ensure land is suitable for sensitive land use and provides a safe environment.</p>	<p>DTS/DPF 21.1</p> <p>Development where:</p> <ul style="list-style-type: none"> <li>(a) the previous use or activity on the allotment was for residential purposes</li> <li>or</li> <li>(b) the applicant is able to furnish, or the relevant authority is in possession of, a site contamination audit report under Part 10A of the Environment Protection Act 1993 to the effect:             <ul style="list-style-type: none"> <li>(i) that site contamination does not exist (or no longer exists) at the allotment</li> <li>or</li> <li>(ii) that any site contamination at the allotment has been cleared or addressed to the extent necessary to enable the allotment to be suitable for unrestricted residential use</li> </ul> </li> </ul> <p>in circumstances where:</p> <ul style="list-style-type: none"> <li>(i) the applicant has indicated that the allotment is, or may have been, subject to site contamination as a result of a previous use of the land or a previous activity on the land or in the vicinity of the land (other than if the previous use or activity was for residential purposes)</li> <li>or</li> <li>(ii) the relevant authority has reason to believe that the allotment is, or may have been, subject to site contamination as a result of a previous use of the land or a previous activity on the land or in the vicinity of the land (other than if the previous use or activity was for residential purposes)</li> </ul> <p>or</p> <ul style="list-style-type: none"> <li>(c) the allotment was the subject of consent granted under the Development Act 1993 or the Planning Development and Infrastructure Act 2016 on or after 1 September 2009 in relation the division of the land.</li> </ul>

## Infrastructure and Renewable Energy Facilities

Desired Outcome (DO)

<b>Desired Outcome</b>	
DO 1	Efficient provision of infrastructure networks and services, renewable energy facilities and ancillary development in a manner that minimises hazard, is environmentally and culturally sensitive and manages adverse visual impacts on natural and rural landscapes and residential amenity.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
General	
<p>PO 1.1</p> <p>Development is located and designed to minimise hazard or nuisance to adjacent development and land uses.</p>	<p>DTS/DPF 1.1</p> <p>None are applicable.</p>
Visual Amenity	
<p>PO 2.1</p> <p>The visual impact of above-ground infrastructure networks and services, renewable energy facilities (excluding wind farms), energy storage facilities and ancillary development is minimised from townships, scenic routes and public roads by:</p> <ul style="list-style-type: none"> <li>(a) utilising features of the natural landscape to obscure views where practicable</li> <li>(b) siting development below ridgelines where practicable</li> <li>(c) avoiding visually sensitive and significant landscapes</li> <li>(d) using materials and finishes with low-reflectivity and colours that complement the surroundings</li> <li>(e) using existing vegetation to screen buildings</li> <li>(f) incorporating landscaping or landscaped mounding around the perimeter of a site and between adjacent allotments accommodating or zoned to primarily accommodate sensitive receivers.</li> </ul>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
<p>PO 2.2</p> <p>Substations, pumping stations, battery storage facilities, maintenance sheds and other ancillary structures incorporate vegetation buffers to reduce adverse visual impacts on adjacent land.</p>	<p>DTS/DPF 2.2</p> <p>None are applicable.</p>
<p>PO 2.3</p> <p>Surfaces exposed by earthworks associated with the installation of storage facilities, pipework, penstock, substations and other ancillary plant are reinstated and revegetated to reduce adverse visual impacts on adjacent land.</p>	<p>DTS/DPF 2.3</p> <p>None are applicable.</p>
Rehabilitation	
<p>PO 3.1</p> <p>Progressive rehabilitation (incorporating revegetation) of disturbed areas, ahead of or upon decommissioning of areas used for renewable energy facilities and transmission corridors.</p>	<p>DTS/DPF 3.1</p> <p>None are applicable.</p>

<p>PO 4.1</p> <p>Infrastructure and renewable energy facilities and ancillary development located and operated to not adversely impact maritime or air transport safety, including the operation of ports, airfields and landing strips.</p>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>
<p>PO 4.2</p> <p>Facilities for energy generating, power storage and transmission are separated from dwellings, tourist accommodation and frequently visited public places (such as viewing platforms / lookouts) to reduce risks to public safety from fire or equipment malfunction.</p>	<p>DTS/DPF 4.2</p> <p>None are applicable.</p>
<p>PO 4.3</p> <p>Bushfire hazard risk is minimised for renewable energy facilities by providing appropriate access tracks, safety equipment and water tanks and establishing cleared areas around substations, battery storage and operations compounds.</p>	<p>DTS/DPF 4.3</p> <p>None are applicable.</p>
<p>Electricity Infrastructure and Battery Storage Facilities</p>	
<p>PO 5.1</p> <p>Electricity infrastructure is located to minimise visual impacts through techniques including:</p> <ul style="list-style-type: none"> <li>(a) siting utilities and services: <ul style="list-style-type: none"> <li>(i) on areas already cleared of native vegetation</li> <li>(ii) where there is minimal interference or disturbance to existing native vegetation or biodiversity</li> </ul> </li> <li>(b) grouping utility buildings and structures with non-residential development, where practicable.</li> </ul>	<p>DTS/DPF 5.1</p> <p>None are applicable.</p>
<p>PO 5.2</p> <p>Electricity supply (excluding transmission lines) serving new development in urban areas and townships installed underground, excluding lines having a capacity exceeding or equal to 33kV.</p>	<p>DTS/DPF 5.2</p> <p>None are applicable.</p>
<p>PO 5.3</p> <p>Battery storage facilities are co-located with substation infrastructure where practicable to minimise the development footprint and reduce environmental impacts.</p>	<p>DTS/DPF 5.3</p> <p>None are applicable.</p>
<p>Telecommunication Facilities</p>	
<p>PO 6.1</p> <p>The proliferation of telecommunications facilities in the form of towers/mast poles in any one locality is managed</p>	<p>DTS/DPF 6.1</p> <p>None are applicable.</p>

form of towers/monopoles in any one locality is managed, where technically feasible, by co-locating a facility with other communications facilities to mitigate impacts from clutter on visual amenity.

<p>PO 6.2</p> <p>Telecommunications antennae are located as close as practicable to support structures to manage overall bulk and mitigate impacts on visual amenity.</p>	<p>DTS/DPF 6.2</p> <p>None are applicable.</p>
<p>PO 6.3</p> <p>Telecommunications facilities, particularly towers/monopoles, are located and sized to mitigate visual impacts by the following methods:</p> <ul style="list-style-type: none"> <li>(a) where technically feasible, incorporating the facility within an existing structure that may serve another purpose</li> </ul> <p>or all of the following:</p> <ul style="list-style-type: none"> <li>(b) using existing buildings and landscape features to obscure or interrupt views of a facility from nearby public roads, residential areas and places of high public amenity to the extent practical without unduly hindering the effective provision of telecommunications services</li> <li>(c) using materials and finishes that complement the environment</li> <li>(d) screening using landscaping and vegetation, particularly for equipment shelters and huts.</li> </ul>	<p>DTS/DPF 6.3</p> <p>None are applicable.</p>
<p>Renewable Energy Facilities</p>	
<p>PO 7.1</p> <p>Renewable energy facilities are located as close as practicable to existing transmission infrastructure to facilitate connections and minimise environmental impacts as a result of extending transmission infrastructure.</p>	<p>DTS/DPF 7.1</p> <p>None are applicable.</p>
<p>Renewable Energy Facilities (Wind Farm)</p>	
<p>PO 8.1</p> <p>Visual impact of wind turbine generators on the amenity of residential and tourist development is reduced through appropriate separation.</p>	<p>DTS/DPF 8.1</p> <p>Wind turbine generators are:</p> <ul style="list-style-type: none"> <li>(a) set back at least 2000m from the base of a turbine to any of the following zones: <ul style="list-style-type: none"> <li>(i) Rural Settlement Zone</li> <li>(ii) Township Zone</li> <li>(iii) Rural Living Zone</li> <li>(iv) Rural Neighbourhood Zone</li> </ul> </li> </ul> <p>with an additional 10m setback per additional metre over 150m overall turbine height (measured from the base of the turbine).</p> <ul style="list-style-type: none"> <li>(b) set back at least 1500m from the base of the turbine to non-associated (non-stakeholder) dwellings and tourist accommodation</li> </ul>
<p>PO 8.2</p> <p>The visual impact of wind turbine generators on natural</p>	<p>DTS/DPF 8.2</p> <p>None are applicable.</p>

The visual impact of wind turbine generators on natural

views are addressed.

landscapes is managed by:

- (a) designing wind turbine generators to be uniform in colour, size and shape
- (b) coordinating blade rotation and direction
- (c) mounting wind turbine generators on tubular towers as opposed to lattice towers.

<p>PO 8.3</p> <p>Wind turbine generators and ancillary development minimise potential for bird and bat strike.</p>	<p>DTS/DPF 8.3</p> <p>None are applicable.</p>
<p>PO 8.4</p> <p>Wind turbine generators incorporate recognition systems or physical markers to minimise the risk to aircraft operations.</p>	<p>DTS/DPF 8.4</p> <p>No Commonwealth air safety (CASA / ASA) or Defence requirement is applicable.</p>
<p>PO 8.5</p> <p>Meteorological masts and guidewires are identifiable to aircraft through the use of colour bands, marker balls, high visibility sleeves or flashing strobes.</p>	<p>DTS/DPF 8.5</p> <p>None are applicable.</p>

Renewable Energy Facilities (Solar Power)

<p>PO 9.1</p> <p>Solar power facilities generating 5MW or more are not located on land requiring the clearance of areas of intact native vegetation or on land of high environmental, scenic or cultural value.</p>	<p>DTS/DPF 9.1</p> <p>None are applicable.</p>
<p>PO 9.2</p> <p>Solar power facilities allow for movement of wildlife by:</p> <ul style="list-style-type: none"> <li>(a) incorporating wildlife corridors and habitat refuges</li> <li>(b) avoiding the use of extensive security or perimeter fencing or incorporating fencing that enables the passage of small animals without unreasonably compromising the security of the facility.</li> </ul>	<p>DTS/DPF 9.2</p> <p>None are applicable.</p>

<p>PO 9.3</p> <p>Amenity impacts of solar power facilities are minimised through separation from sensitive receivers.</p>	<p>DTS/DPF 9.3</p> <p>Solar power facilities are set back from land boundaries, conservation areas and relevant zones in accordance with the following criteria:</p> <table border="1" data-bbox="727 1547 1548 2201"> <thead> <tr> <th data-bbox="727 1547 903 1892">Generation Capacity</th> <th data-bbox="903 1547 1062 1892">Approximate size of array</th> <th data-bbox="1062 1547 1190 1892">Setback from adjoining land boundary</th> <th data-bbox="1190 1547 1350 1892">Setback from conservation areas</th> <th data-bbox="1350 1547 1548 1892">Setback from Township, Rural Settlement, Rural Neighbourhood and Rural Living Zones</th> </tr> </thead> <tbody> <tr> <td data-bbox="727 1892 903 1984">50MW&gt;</td> <td data-bbox="903 1892 1062 1984">80ha+</td> <td data-bbox="1062 1892 1190 1984">30m</td> <td data-bbox="1190 1892 1350 1984">500m</td> <td data-bbox="1350 1892 1548 1984">2km</td> </tr> <tr> <td data-bbox="727 1984 903 2076">10MW&lt;50MW</td> <td data-bbox="903 1984 1062 2076">16ha-&lt;80ha</td> <td data-bbox="1062 1984 1190 2076">25m</td> <td data-bbox="1190 1984 1350 2076">500m</td> <td data-bbox="1350 1984 1548 2076">1.5km</td> </tr> <tr> <td data-bbox="727 2076 903 2168">5MW&lt;10MW</td> <td data-bbox="903 2076 1062 2168">8ha to &lt;16ha</td> <td data-bbox="1062 2076 1190 2168">20m</td> <td data-bbox="1190 2076 1350 2168">500m</td> <td data-bbox="1350 2076 1548 2168">1km</td> </tr> <tr> <td data-bbox="727 2168 903 2201">1MW&lt;5MW</td> <td data-bbox="903 2168 1062 2201">1.6ha to</td> <td data-bbox="1062 2168 1190 2201">15m</td> <td data-bbox="1190 2168 1350 2201">500m</td> <td data-bbox="1350 2168 1548 2201">500m<sup>3445</sup></td> </tr> </tbody> </table>	Generation Capacity	Approximate size of array	Setback from adjoining land boundary	Setback from conservation areas	Setback from Township, Rural Settlement, Rural Neighbourhood and Rural Living Zones	50MW>	80ha+	30m	500m	2km	10MW<50MW	16ha-<80ha	25m	500m	1.5km	5MW<10MW	8ha to <16ha	20m	500m	1km	1MW<5MW	1.6ha to	15m	500m	500m <sup>3445</sup>

<p>PO 9.4</p> <p>Solar power facilities incorporate landscaping within setbacks from adjacent road frontages and boundaries of adjacent allotments accommodating non-host dwellings, where balanced with infrastructure access and bushfire safety considerations.</p>	<p>DTS/DPF 9.4</p> <p>None are applicable.</p>
<p>Hydropower / Pumped Hydropower Facilities</p>	
<p>PO 10.1</p> <p>Hydropower / pumped hydropower facility storage is designed and operated to minimise the risk of storage dam failure.</p>	<p>DTS/DPF 10.1</p> <p>None are applicable.</p>
<p>PO 10.2</p> <p>Hydropower / pumped hydropower facility storage is designed and operated to minimise water loss through increased evaporation or system leakage, with the incorporation of appropriate liners, dam covers, operational measures or detection systems.</p>	<p>DTS/DPF 10.2</p> <p>None are applicable.</p>
<p>PO 10.3</p> <p>Hydropower / pumped hydropower facilities on existing or former mine sites minimise environmental impacts from site contamination, including from mine operations or water sources subject to such processes, now or in the future.</p>	<p>DTS/DPF 10.3</p> <p>None are applicable.</p>
<p>Water Supply</p>	
<p>PO 11.1</p> <p>Development is connected to an appropriate water supply to meet the ongoing requirements of the intended use.</p>	<p>DTS/DPF 11.1</p> <p>Development is connected, or will be connected, to a reticulated water scheme or mains water supply with the capacity to meet the on-going requirements of the development.</p>
<p>PO 11.2</p> <p>Dwellings are connected to a reticulated water scheme or mains water supply with the capacity to meet the requirements of the intended use. Where this is not available an appropriate rainwater tank or storage system for domestic use is provided.</p>	<p>DTS/DPF 11.2</p> <p>A dwelling is connected, or will be connected, to a reticulated water scheme or mains water supply with the capacity to meet the requirements of the development. Where this is not available it is serviced by a rainwater tank or tanks capable of holding at least 50,000 litres of water which is:</p> <ul style="list-style-type: none"> <li>(a) exclusively for domestic use</li> <li>(b) connected to the roof drainage system of the dwelling.</li> </ul>
<p>Wastewater Services</p>	
<p>PO 12.1</p> <p>Development is connected to an approved common waste water disposal service with the capacity to meet the requirements of the intended use. Where this is not available an appropriate on-site service is provided to meet the ongoing requirements of the intended use in accordance with the following:</p>	<p>DTS/DPF 12.1</p> <p>Development is connected, or will be connected, to an approved common waste water disposal service with the capacity to meet the requirements of the development. Where this is not available it is instead capable of being serviced by an on-site waste water treatment system in accordance with the following:</p>

<p>with the following.</p> <ul style="list-style-type: none"> <li>(a) it is wholly located and contained within the allotment of the development it will service</li> <li>(b) in areas where there is a high risk of contamination of surface, ground, or marine water resources from on-site disposal of liquid wastes, disposal systems are included to minimise the risk of pollution to those water resources</li> <li>(c) septic tank effluent drainage fields and other waste water disposal areas are located away from watercourses and flood prone, sloping, saline or poorly drained land to minimise environmental harm.</li> </ul>	<ul style="list-style-type: none"> <li>(a) the system is wholly located and contained within the allotment of development it will service; and</li> <li>(b) the system will comply with the requirements of the South Australian Public Health Act 2011.</li> </ul>
<p>PO 12.2</p> <p>Effluent drainage fields and other waste water disposal areas are maintained to ensure the effective operation of waste systems and minimise risks to human health and the environment.</p>	<p>DTS/DPF 12.2</p> <p>Development is not built on, or encroaches within, an area that is, or will be, required for a sewerage system or waste control system.</p>
<p>Temporary Facilities</p>	
<p>PO 13.1</p> <p>In rural and remote locations, development that is likely to generate significant waste material during construction, including packaging waste, makes provision for a temporary on-site waste storage enclosure to minimise the incidence of wind-blown litter.</p>	<p>DTS/DPF 13.1</p> <p>A waste collection and disposal service is used to dispose of the volume of waste at the rate it is generated.</p>
<p>PO 13.2</p> <p>Temporary facilities to support the establishment of renewable energy facilities (including borrow pits, concrete batching plants, laydown, storage, access roads and worker amenity areas) are sited and operated to minimise environmental impact.</p>	<p>DTS/DPF 13.2</p> <p>None are applicable.</p>

## Intensive Animal Husbandry and Dairies

### Assessment Provisions (AP)

Desired Outcome (DO)

<h2 style="margin: 0;">Desired Outcome</h2>	
<p>DO 1</p>	<p>Development of intensive animal husbandry and dairies in locations that are protected from encroachment by sensitive receivers and in a manner that minimises their adverse effects on amenity and the environment.</p>

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Siting and Design	
PO 1.1 Intensive animal husbandry, dairies and associated activities are sited, designed, constructed and managed to not unreasonably impact on the environment or amenity of the locality.	DTS/DPF 1.1 None are applicable.
PO 1.2 Intensive animal husbandry, dairies and associated activities are sited, designed, constructed and managed to prevent the potential transmission of disease to other operations where animals are kept.	DTS/DPF 1.2 None are applicable.
PO 1.3 Intensive animal husbandry and associated activities such as wastewater lagoons and liquid/solid waste disposal areas are sited, designed, constructed and managed to not unreasonably impact on sensitive receivers in other ownership in terms of noise and air emissions.	DTS/DPF 1.3 None are applicable.
PO 1.4 Dairies and associated activities such as wastewater lagoons and liquid/solid waste disposal areas are sited, designed, constructed and managed to not unreasonably impact on sensitive receivers in other ownership in terms of noise and air emissions.	DTS/DPF 1.4 Dairies, associated wastewater lagoon(s) and liquid/solid waste storage and disposal facilities are located 500m or more from the nearest sensitive receiver in other ownership.
PO 1.5 Lagoons for the storage or treatment of milking shed effluent is adequately separated from roads to minimise impacts from odour on the general public.	DTS/DPF 1.5 Lagoons for the storage or treatment of milking shed effluent are set back 20m or more from public roads.
Waste	
PO 2.1 Storage of manure, used litter and other wastes (other than waste water lagoons) is sited, designed, constructed and managed to: <ul style="list-style-type: none"> <li>(a) avoid attracting and harbouring vermin</li> <li>(b) avoid polluting water resources</li> <li>(c) be located outside 1% AEP flood event areas.</li> </ul>	DTS/DPF 2.1 None are applicable.
Soil and Water Protection	
PO 3.1 To avoid environmental harm and adverse effects on water resources, intensive animal husbandry operations are appropriately set back from:	DTS/DPF 3.1 Intensive animal husbandry operations are set back: <ul style="list-style-type: none"> <li>(a) 800m or more from a public water supply reservoir</li> <li>(b) 200m or more from a major watercourse (third order or <sup>3450</sup> or</li> </ul>

<ul style="list-style-type: none"> <li>(a) public water supply reservoirs</li> <li>(b) major watercourses (third order or higher stream)</li> <li>(c) any other watercourse, bore or well used for domestic or stock water supplies.</li> </ul>	<ul style="list-style-type: none"> <li>higher stream)</li> <li>(c) 100m or more from any other watercourse, bore or well used for domestic or stock water supplies.</li> </ul>
<p>PO 3.2</p> <p>Intensive animal husbandry operations and dairies incorporate appropriately designed effluent and run-off facilities that:</p> <ul style="list-style-type: none"> <li>(a) have sufficient capacity to hold effluent and runoff from the operations on site</li> <li>(b) ensure effluent does not infiltrate and pollute groundwater, soil or other water resources.</li> </ul>	<p>DTS/DPF 3.2</p> <p>None are applicable.</p>

## Interface between Land Uses

### Assessment Provisions (AP)

Desired Outcome (DO)

<b>Desired Outcome</b>	
DO 1	Development is located and designed to mitigate adverse effects on or from neighbouring and proximate land uses.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature								
General Land Use Compatibility									
<p>PO 1.1</p> <p>Sensitive receivers are designed and sited to protect residents and occupants from adverse impacts generated by lawfully existing land uses and land uses desired in the zone.</p>	<p>DTS/DPF 1.1</p> <p>None are applicable.</p>								
<p>PO 1.2</p> <p>Development adjacent to a site containing a sensitive receiver or zone primarily intended to accommodate sensitive receivers is designed to minimise adverse impacts.</p>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>								
Hours of Operation									
<p>PO 2.1</p> <p>Non-residential development does not unreasonably impact the amenity of sensitive receivers or an adjacent zone primarily for sensitive receivers through its hours of operation having regard to:</p> <ul style="list-style-type: none"> <li>(a) the nature of the development</li> <li>(b) measures to mitigate off-site impacts</li> <li>(c) the extent to which the development is desired in the zone</li> <li>(d) measures that might be taken in an adjacent zone primarily for sensitive receivers that mitigate adverse impacts without unreasonably compromising the intended use of that land.</li> </ul>	<p>DTS/DPF 2.1</p> <p>Development operating within the following hours:</p> <table border="1" data-bbox="805 904 1509 1464"> <thead> <tr> <th data-bbox="805 904 1091 994">Class of Development</th> <th data-bbox="1093 904 1509 994">Hours of operation</th> </tr> </thead> <tbody> <tr> <td data-bbox="805 996 1091 1151">Consulting room</td> <td data-bbox="1093 996 1509 1151">7am to 9pm, Monday to Friday 8am to 5pm, Saturday</td> </tr> <tr> <td data-bbox="805 1153 1091 1308">Office</td> <td data-bbox="1093 1153 1509 1308">7am to 9pm, Monday to Friday 8am to 5pm, Saturday</td> </tr> <tr> <td data-bbox="805 1310 1091 1464">Shop (other than a restaurant)</td> <td data-bbox="1093 1310 1509 1464">7am to 9pm, Monday to Friday 8am to 5pm, Saturday and Sunday</td> </tr> </tbody> </table>	Class of Development	Hours of operation	Consulting room	7am to 9pm, Monday to Friday 8am to 5pm, Saturday	Office	7am to 9pm, Monday to Friday 8am to 5pm, Saturday	Shop (other than a restaurant)	7am to 9pm, Monday to Friday 8am to 5pm, Saturday and Sunday
Class of Development	Hours of operation								
Consulting room	7am to 9pm, Monday to Friday 8am to 5pm, Saturday								
Office	7am to 9pm, Monday to Friday 8am to 5pm, Saturday								
Shop (other than a restaurant)	7am to 9pm, Monday to Friday 8am to 5pm, Saturday and Sunday								
Overshadowing									
<p>PO 3.1</p> <p>Overshadowing of habitable room windows of adjacent residential land uses is minimised to maintain access to direct winter sunlight.</p>	<p>DTS/DPF 3.1</p> <p>North-facing windows of habitable rooms of adjacent residential land uses receive at least 3 hours of direct sunlight between 9.00am and 3.00pm on 21 June.</p>								
<p>PO 3.2</p> <p>Overshadowing of the primary area of private open space or communal open space of adjacent residential land uses is minimised to maintain access to direct winter sunlight.</p>	<p>DTS/DPF 3.2</p> <p>Development maintains 2 hours of direct sunlight between 9.00 am and 3.00 pm on 21 June to adjacent residential land uses in accordance with the following:</p> <ul style="list-style-type: none"> <li>(a) for ground level private open space, the smaller of the following: <ul style="list-style-type: none"> <li>(i) half the existing ground level open space or</li> <li>(ii) 35m<sup>2</sup> of the existing ground level open space (with at least one of the area's dimensions measuring ≥ 5m)</li> </ul> </li> </ul>								

measuring 2.0m)

- (b) for ground level communal open space, at least half of the existing ground level open space.

<p>PO 3.3</p> <p>Development does not unduly reduce the generating capacity of adjacent rooftop solar energy facilities taking into account:</p> <ul style="list-style-type: none"> <li>(a) the form of development contemplated in the zone</li> <li>(b) the orientation of the solar energy facilities</li> <li>(c) the extent to which the solar energy facilities are already overshadowed.</li> </ul>	<p>DTS/DPF 3.3</p> <p>None are applicable.</p>
<p>PO 3.4</p> <p>Development that incorporates moving parts, including windmills and wind farms, are located and operated to not cause unreasonable nuisance to nearby dwellings and tourist accommodation caused by shadow flicker.</p>	<p>DTS/DPF 3.4</p> <p>None are applicable.</p>
<p>Activities Generating Noise or Vibration</p>	
<p>PO 4.1</p> <p>Development that emits noise (other than music) does not unreasonably impact the amenity of sensitive receivers.</p>	<p>DTS/DPF 4.1</p> <p>Noise that might affect sensitive receivers achieves the relevant Environment Protection (Noise) Policy criteria.</p>
<p>PO 4.2</p> <p>Areas for the on-site manoeuvring of service and delivery vehicles, plant and equipment, outdoor work spaces (and the like) are designed and sited to not unreasonably impact the amenity of adjacent sensitive receivers and zones primarily intended to accommodate sensitive receivers due to noise and vibration by adopting techniques including:</p> <ul style="list-style-type: none"> <li>(a) locating openings of buildings and associated services away from the interface with the adjacent sensitive receivers and zones primarily intended to accommodate sensitive receivers</li> <li>(b) when sited outdoors, locating such areas as far as practicable from adjacent sensitive receivers and zones primarily intended to accommodate sensitive receivers</li> <li>(c) housing plant and equipment within an enclosed structure or acoustic enclosure</li> <li>(d) providing a suitable acoustic barrier between the plant and / or equipment and the adjacent sensitive receiver boundary or zone.</li> </ul>	<p>DTS/DPF 4.2</p> <p>None are applicable.</p>
<p>PO 4.3</p> <p>Fixed plant and equipment in the form of pumps and/or filtration systems for a swimming pool or spa are positioned and/or housed to not cause unreasonable noise nuisance to adjacent sensitive receivers.</p>	<p>DTS/DPF 4.3</p> <p>The pump and/or filtration system ancillary to a dwelling erected on the same site is:</p> <ul style="list-style-type: none"> <li>(a) enclosed in a solid acoustic structure located at least 5m from the nearest habitable room located on an adjoining allotment or</li> <li>(b) located at least 12m from the nearest habitable room located on an adjoining allotment.</li> </ul>
<p>PO 4.4</p>	<p>DTS/DPF 4.4</p>

External noise into bedrooms is minimised by separating or shielding these rooms from service equipment areas and fixed noise sources located on the same or an adjoining allotment.

Adjacent land is used for residential purposes.

<p>PO 4.5</p> <p>Outdoor areas associated with licensed premises (such as beer gardens or dining areas) are designed and/or sited to not cause unreasonable noise impact on existing adjacent sensitive receivers.</p>	<p>DTS/DPF 4.5</p> <p>None are applicable.</p>				
<p>PO 4.6</p> <p>Development incorporating music achieves suitable acoustic amenity when measured at the boundary of an adjacent sensitive receiver or zone primarily intended to accommodate sensitive receivers.</p>	<p>DTS/DPF 4.6</p> <p>Development incorporating music includes noise attenuation measures that will achieve the following noise levels:</p> <table border="1" data-bbox="807 479 1513 772"> <thead> <tr> <th data-bbox="807 479 1091 568">Assessment location</th> <th data-bbox="1098 479 1513 568">Music noise level</th> </tr> </thead> <tbody> <tr> <td data-bbox="807 577 1091 772">Externally at the nearest existing noise sensitive location</td> <td data-bbox="1098 577 1513 772">Less than 8dB above the level of background noise (<math>L_{90,15min}</math>) in any octave band of the sound spectrum (<math>LOCT_{10,15} &lt; LOCT_{90,15} + 8dB</math>)</td> </tr> </tbody> </table>	Assessment location	Music noise level	Externally at the nearest existing noise sensitive location	Less than 8dB above the level of background noise ( $L_{90,15min}$ ) in any octave band of the sound spectrum ( $LOCT_{10,15} < LOCT_{90,15} + 8dB$ )
Assessment location	Music noise level				
Externally at the nearest existing noise sensitive location	Less than 8dB above the level of background noise ( $L_{90,15min}$ ) in any octave band of the sound spectrum ( $LOCT_{10,15} < LOCT_{90,15} + 8dB$ )				
<p>Air Quality</p>					
<p>PO 5.1</p> <p>Development with the potential to emit harmful or nuisance-generating air pollution incorporates air pollution control measures to prevent harm to human health or unreasonably impact the amenity of sensitive receivers within the locality and zones primarily intended to accommodate sensitive receivers.</p>	<p>DTS/DPF 5.1</p> <p>None are applicable.</p>				
<p>PO 5.2</p> <p>Development that includes chimneys or exhaust flues (including cafes, restaurants and fast food outlets) is designed to minimise nuisance or adverse health impacts to sensitive receivers by:</p> <ul style="list-style-type: none"> <li>(a) incorporating appropriate treatment technology before exhaust emissions are released</li> <li>(b) locating and designing chimneys or exhaust flues to maximise the dispersion of exhaust emissions, taking into account the location of sensitive receivers.</li> </ul>	<p>DTS/DPF 5.2</p> <p>None are applicable.</p>				
<p>Light Spill</p>					
<p>PO 6.1</p> <p>External lighting is positioned and designed to not cause unreasonable light spill impact on adjacent sensitive receivers.</p>	<p>DTS/DPF 6.1</p> <p>None are applicable.</p>				
<p>PO 6.2</p> <p>External lighting is not hazardous to motorists and cyclists.</p>	<p>DTS/DPF 6.2</p> <p>None are applicable.</p>				
<p>Solar Reflectivity / Glare</p>					
<p>PO 7.1</p> <p>Development is designed and comprised of materials and finishes that do not unreasonably cause a distraction to adjacent road users and pedestrian areas or unreasonably cause heat loading and</p>	<p>DTS/DPF 7.1</p> <p>None are applicable.</p>				

micro-climatic impacts on adjacent buildings and land uses as a result of reflective solar glare.

Electrical Interference	
<p>PO 8.1</p> <p>Development in rural and remote areas does not unreasonably diminish or result in the loss of existing communication services due to electrical interference.</p>	<p>DTS/DPF 8.1</p> <p>The building or structure:</p> <ul style="list-style-type: none"> <li>(a) is no greater than 10m in height, measured from existing ground level or</li> <li>(b) is not within a line of sight between a fixed transmitter and fixed receiver (antenna) other than where an alternative service is available via a different fixed transmitter or cable.</li> </ul>
Interface with Rural Activities	
<p>PO 9.1</p> <p>Sensitive receivers are located and designed to mitigate impacts from lawfully existing horticultural and farming activities, including spray drift and noise and do not prejudice the continued operation of these activities.</p>	<p>DTS/DPF 9.1</p> <p>None are applicable.</p>
<p>PO 9.2</p> <p>Sensitive receivers are located and designed to mitigate potential impacts from lawfully existing intensive animal husbandry activities and do not prejudice the continued operation of these activities.</p>	<p>DTS/DPF 9.2</p> <p>None are applicable.</p>
<p>PO 9.3</p> <p>Sensitive receivers are located and designed to mitigate potential impacts from lawfully existing land-based aquaculture activities and do not prejudice the continued operation of these activities.</p>	<p>DTS/DPF 9.3</p> <p>Sensitive receivers are located at least 200m from the boundary of a site used for land-based aquaculture and associated components in other ownership.</p>
<p>PO 9.4</p> <p>Sensitive receivers are located and designed to mitigate potential impacts from lawfully existing dairies including associated wastewater lagoons and liquid/solid waste storage and disposal facilities and do not prejudice the continued operation of these activities.</p>	<p>DTS/DPF 9.4</p> <p>Sensitive receivers are sited at least 500m from the boundary of a site used for a dairy and associated wastewater lagoon(s) and liquid/solid waste storage and disposal facilities in other ownership.</p>
<p>PO 9.5</p> <p>Sensitive receivers are located and designed to mitigate the potential impacts from lawfully existing facilities used for the handling, transportation and storage of bulk commodities (recognising the potential for extended hours of operation) and do not prejudice the continued operation of these activities.</p>	<p>DTS/DPF 9.5</p> <p>Sensitive receivers are located away from the boundary of a site used for the handling, transportation and/or storage of bulk commodities in other ownership in accordance with the following:</p> <ul style="list-style-type: none"> <li>(a) 300m or more, where it involves the handling of agricultural crop products, rock, ores, minerals, petroleum products or chemicals to or from any commercial storage facility</li> <li>(b) 300m or more, where it involves the handling of agricultural crop products, rock, ores, minerals, petroleum products or chemicals at a wharf or wharf side facility (including sea-port grain terminals) where the handling of these materials into or from vessels does not exceed 100 tonnes per day</li> <li>(c) 500m or more, where it involves the storage of bulk</li> </ul>

	<p>petroleum in individual containers with a capacity up to 200 litres and a total on-site storage capacity not exceeding 1000 cubic metres</p> <p>(d) 500m or more, where it involves the handling of coal with a capacity up to 1 tonne per day or a storage capacity up to 50 tonnes</p> <p>(e) 1000m or more, where it involves the handling of coal with a capacity exceeding 1 tonne per day but not exceeding 100 tonnes per day or a storage capacity exceeding 50 tonnes but not exceeding 5000 tonnes.</p>
<p>PO 9.6</p> <p>Setbacks and vegetation plantings along allotment boundaries should be incorporated to mitigate the potential impacts of spray drift and other impacts associated with agricultural and horticultural activities.</p>	<p>DTS/DPF 9.6</p> <p>None are applicable.</p>
<p>PO 9.7</p> <p>Urban development does not prejudice existing agricultural and horticultural activities through appropriate separation and design techniques.</p>	<p>DTS/DPF 9.7</p> <p>None are applicable.</p>
<p>Interface with Mines and Quarries (Rural and Remote Areas)</p>	
<p>PO 10.1</p> <p>Sensitive receivers are separated from existing mines to minimise the adverse impacts from noise, dust and vibration.</p>	<p>DTS/DPF 10.1</p> <p>Sensitive receivers are located no closer than 500m from the boundary of a Mining Production Tenement under the <i>Mining Act 1971</i>.</p>

## Land Division

### Assessment Provisions (AP)

Desired Outcome (DO)

<h2 style="margin: 0;">Desired Outcome</h2>	
<p>DO 1</p>	<p>Land division:</p> <ul style="list-style-type: none"> <li>(a) creates allotments with the appropriate dimensions and shape for their intended use</li> <li>(b) allows efficient provision of new infrastructure and the optimum use of underutilised infrastructure</li> <li>(c) integrates and allocates adequate and suitable land for the preservation of site features of value, including significant vegetation, watercourses, water bodies and other environmental features</li> <li>(d) facilitates solar access through allotment orientation</li> <li>(e) creates a compact urban form that supports active travel, walkability and the use of public transport</li> <li>(f) avoids areas of high natural hazard risk.</li> </ul>

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
All land division	
Allotment configuration	
PO 1.1 Land division creates allotments suitable for their intended use.	DTS/DPF 1.1 Division of land reflects the site boundaries illustrated and approved in an operative or existing development authorisation under the <i>Development Act 1993</i> or the <i>Planning, Development and Infrastructure Act 2016</i> or proposed as part of a combined application for land division and deemed-to-satisfy dwellings that reflects the sites of those dwellings, where the allotments are used, or are proposed to be used, for residential purposes.
PO 1.2 Land division considers the physical characteristics of the land, preservation of environmental and cultural features of value and the prevailing context of the locality.	DTS/DPF 1.2 None are applicable.
Design and Layout	
PO 2.1 Land division results in a pattern of development that minimises the likelihood of future earthworks and retaining walls.	DTS/DPF 2.1 None are applicable.
PO 2.2 Land division enables the appropriate treatment of the interface between potentially conflicting land uses and/or zones.	DTS/DPF 2.2 None are applicable.
PO 2.3 Land division maximises the number of allotments that face public open space and public streets.	DTS/DPF 2.3 None are applicable.
PO 2.4 Land division is integrated with site features, adjacent land uses, the existing transport network and available infrastructure.	DTS/DPF 2.4 None are applicable.
PO 2.5 Development and infrastructure is provided and staged in a manner that supports an orderly and economic provision of land, infrastructure and services.	DTS/DPF 2.5 None are applicable.
PO 2.6 Land division results in watercourses being retained within open space and development taking place on land not subject to flooding.	DTS/DPF 2.6 None are applicable.

PO 2.7 Land division results in legible street patterns connected to the surrounding street network.	DTS/DPF 2.7 None are applicable.
PO 2.8 Land division is designed to preserve existing vegetation of value including native vegetation and regulated and significant trees.	DTS/DPF 2.8 None are applicable.
<b>Roads and Access</b>	
PO 3.1 Land division provides allotments with access to an all-weather public road.	DTS/DPF 3.1 None are applicable.
PO 3.2 Street patterns and intersections are designed to enable the safe and efficient movement of pedestrian, cycle and vehicular traffic.	DTS/DPF 3.2 None are applicable.
PO 3.3 Land division does not impede access to publicly owned open space and/or recreation facilities.	DTS/DPF 3.3 None are applicable.
PO 3.4 Road reserves provide for safe and convenient movement and parking of projected volumes of vehicles and allow for the efficient movement of service and emergency vehicles.	DTS/DPF 3.4 None are applicable.
PO 3.5 Road reserves provide for pedestrian and cycling infrastructure and accommodate street tree planting, landscaping and street furniture.	DTS/DPF 3.5 None are applicable.
PO 3.6 Road reserves accommodate stormwater drainage and public utilities.	DTS/DPF 3.6 None are applicable.
PO 3.7 Road reserves provide unobstructed vehicular access and egress to and from individual allotments and sites.	DTS/DPF 3.7 None are applicable.
PO 3.8 Street patterns and intersections are designed to enable the safe and efficient movement of pedestrian, cycle and vehicular traffic.	DTS/DPF 3.8 None are applicable.
PO 3.9	DTS/DPF 3.9

Roads, open space and thoroughfares provide safe and convenient linkages to the surrounding open space and transport network.

None are applicable.

<p>PO 3.10</p> <p>Public streets include tree planting to provide shade and enhance the amenity of streetscapes.</p>	<p>DTS/DPF 3.10</p> <p>None are applicable.</p>
<p>PO 3.11</p> <p>Local streets are designed to create low-speed environments that are safe for cyclists and pedestrians.</p>	<p>DTS/DPF 3.11</p> <p>None are applicable.</p>
<b>Infrastructure</b>	
<p>PO 4.1</p> <p>Land division incorporates public utility services within road reserves or dedicated easements.</p>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>
<p>PO 4.2</p> <p>Waste water, sewage and other effluent is capable of being disposed of from each allotment without risk to public health or the environment.</p>	<p>DTS/DPF 4.2</p> <p>Each allotment can be connected to:</p> <ul style="list-style-type: none"> <li>(a) a waste water treatment plant that has the hydraulic volume and pollutant load treatment and disposal capacity for the maximum predicted wastewater volume generated by subsequent development of the proposed allotment or</li> <li>(b) a form of on-site waste water treatment and disposal that meets relevant public health and environmental standards.</li> </ul>
<p>PO 4.3</p> <p>Septic tank effluent drainage fields and other waste water disposal areas are maintained to ensure the effective operation of waste systems and minimise risks to human health and the environment.</p>	<p>DTS/DPF 4.3</p> <p>Development is not built on, or encroaches within, an area that is or will be, required for a sewerage system or waste control system.</p>
<p>PO 4.4</p> <p>Constructed wetland systems, including associated detention and retention basins, are sited and designed to ensure public health and safety is protected, including by minimising potential public health risks arising from the breeding of mosquitoes.</p>	<p>DTS/DPF 4.4</p> <p>None are applicable.</p>
<p>PO 4.5</p> <p>Constructed wetland systems, including associated detention and retention basins, are sited and designed to allow sediments to settle prior to discharge into watercourses or the marine environment.</p>	<p>DTS/DPF 4.5</p> <p>None are applicable.</p>
<p>PO 4.6</p> <p>Constructed wetland systems, including associated detention and retention basins, are sited and designed to function as a landscape feature.</p>	<p>DTS/DPF 4.6</p> <p>None are applicable.</p>

Open Space

<p>PO 5.1</p> <p>Land division proposing an additional allotment under 1 hectare provides or supports the provision of open space.</p>	<p>DTS/DPF 5.1</p> <p>None are applicable.</p>
<p>Solar Orientation</p>	
<p>PO 6.1</p> <p>Land division for residential purposes facilitates solar access through allotment orientation.</p>	<p>DTS/DPF 6.1</p> <p>None are applicable.</p>
<p>Water Sensitive Design</p>	
<p>PO 7.1</p> <p>Land division creating a new road or common driveway includes stormwater management systems that minimise the discharge of sediment, suspended solids, organic matter, nutrients, bacteria, litter and other contaminants to the stormwater system, watercourses or other water bodies.</p>	<p>DTS/DPF 7.1</p> <p>Land division creating a new road or common driveway achieves the following stormwater runoff outcomes:</p> <ul style="list-style-type: none"> <li>(a) 80 per cent reduction in average annual total suspended solids</li> <li>(b) 60 per cent reduction in average annual total phosphorus</li> <li>(c) 45 per cent reduction in average annual total nitrogen.</li> </ul>
<p>PO 7.2</p> <p>Land division designed to mitigate peak flows and manage the rate and duration of stormwater discharges from the site to ensure that the development does not increase the peak flows in downstream systems.</p>	<p>DTS/DPF 7.2</p> <p>Land division creating a new public road or common driveway:</p> <ul style="list-style-type: none"> <li>(a) maintains a pre-development peak flow rate from the site based upon a 0.35 runoff coefficient for the 18.1% AEP 30-minute storm and the stormwater runoff time to peak matches that of the pre-development or</li> <li>(b) captures and retains the difference in pre-development runoff volume (based upon a 0.35 runoff coefficient) vs post development runoff volume from the site for an 18.1% AEP 30-minute storm and manages site generated stormwater runoff up to and including the 1% AEP flood event to avoid flooding of buildings.</li> </ul>
<p>Major Land Division (20+ Allotments)</p>	
<p>Open Space</p>	
<p>PO 8.1</p> <p>Land division allocates or retains evenly distributed, high quality areas of open space to improve residential amenity and provide urban heat amelioration.</p>	<p>DTS/DPF 8.1</p> <p>None are applicable.</p>
<p>PO 8.2</p> <p>Land allocated for open space is suitable for its intended active and passive recreational use considering gradient and potential for inundation.</p>	<p>DTS/DPF 8.2</p> <p>None are applicable.</p>
<p>PO 8.3</p> <p>Land allocated for active recreation has dimensions capable of accommodating a range of active recreational activities.</p>	<p>DTS/DPF 8.3</p> <p>None are applicable.</p>

Water Sensitive Design	
<p>PO 9.1</p> <p>Land division creating 20 or more residential allotments includes a stormwater management system designed to mitigate peak flows and manage the rate and duration of stormwater discharges from the site to ensure that the development does not increase the peak flows in downstream systems.</p>	<p>DTS/DPF 9.1</p> <p>Land division creating 20 or more residential allotments manages up to and including the 1% AEP flood event and:</p> <ul style="list-style-type: none"> <li>(a) maintains pre-development peak 18.1% AEP flow rate from the site and maintains the time to peak to match that of the pre-development or</li> <li>(b) captures and retains the difference in pre-development volume vs post development volume from the site for an 18.1% AEP 30-minute storm or where there is no adequate local drainage scheme to connect to, captures and retains post development volume from the site for an 18.1% AEP 30-minute storm.</li> </ul>
<p>PO 9.2</p> <p>Land division creating 20 or more non-residential allotments includes a stormwater management system designed to mitigate peak flows and manage the rate and duration of stormwater discharges from the site to ensure that the development does not increase the peak flows in downstream systems.</p>	<p>DTS/DPF 9.2</p> <p>Land division creating 20 or more non-residential allotments manages up to and including the 1% AEP flood event to avoid flooding of buildings and:</p> <ul style="list-style-type: none"> <li>(a) maintains pre-development peak 5% AEP flow rate from the site and, maintains the time to peak to match that of the pre-development or</li> <li>(b) captures and retains the difference in pre-development volume vs post development volume from the site for a 5% AEP 30-minute storm or where there is no adequate local drainage scheme to connect to, captures and retains post development volume from the site for a 5% AEP 30-minute storm.</li> </ul>
<p>PO 9.3</p> <p>Land division creating 20 or more allotments includes stormwater management systems that minimise the discharge of sediment, suspended solids, organic matter, nutrients, bacteria, litter and other contaminants to the stormwater system, watercourses or other water bodies.</p>	<p>DTS/DPF 9.3</p> <p>Land division creating 20 or more allotments achieves the following stormwater runoff outcomes:</p> <ul style="list-style-type: none"> <li>(a) 80 per cent reduction in average annual total suspended solids</li> <li>(b) 60 per cent reduction in average annual total phosphorus</li> <li>(c) 45 per cent reduction in average annual total nitrogen</li> </ul>

Solar Orientation
-------------------

<p>PO 10.1</p> <p>Land division creating 20 or more allotments for residential purposes facilitates solar access through allotment orientation and allotment dimensions.</p>	<p>DTS/DPF 10.1</p> <p>Land division for residential purposes results in:</p> <ul style="list-style-type: none"> <li>(a) at least 80% of allotments oriented so that their long axis conforms with the following figure:</li> </ul> <div style="text-align: center;"> </div>
--	--

- (b) 80% of allotments with an east-west orientation having a minimum frontage of 15m
- (c) no more than 20% of allotments are located on the south side of east-west oriented streets
- (d) no more than 20% of allotments are located on the south side of east-west oriented streets.

## Marinas and On-Water Structures

### Assessment Provisions (AP)

Desired Outcome (DO)

<b>Desired Outcome</b>	
DO 1	Marinas and on-water structures are located and designed to minimise the impairment of commercial, recreational and navigational activities and adverse impacts on the environment.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Navigation and Safety	
PO 1.1 Safe public access is provided or maintained to the waterfront, public infrastructure and recreation areas.	DTS/DPF 1.1 None are applicable.
PO 1.2 The operation of wharves is not impaired by marinas and on-water structures.	DTS/DPF 1.2 None are applicable.
PO 1.3 Navigation and access channels are not impaired by marinas and on-water structures.	DTS/DPF 1.3 None are applicable.
PO 1.4 Commercial shipping lanes are not impaired by marinas and on-water structures.	DTS/DPF 1.4 Marinas and on-water structures are set back 250m or more from commercial shipping lanes.
PO 1.5 Marinas and on-water structures are located to avoid interfering with the operation or function of a water supply pumping station.	DTS/DPF 1.5 On-water structures are set back: <ul style="list-style-type: none"> <li>(a) 3km or more from upstream water supply pumping station take-off points</li> <li>(b) 500m or more from downstream water supply pumping station take-off points.</li> </ul>
PO 1.6 Maintenance of on-water infrastructure, including revetment walls, is not impaired by marinas and on-water structures.	DTS/DPF 1.6 None are applicable.
Environmental Protection	
PO 2.1 Development is sited and designed to facilitate water circulation and exchange.	DTS/DPF 2.1 None are applicable.

## Open Space and Recreation

### Assessment Provisions (AP)

Desired Outcome (DO)

# Desired Outcome

DO 1	Pleasant, functional and accessible open space and recreation facilities are provided for active and passive recreation.
------	--

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Recreation facilities are compatible with surrounding land uses and activities.	DTS/DPF 1.1 None are applicable.
Design and Siting	
PO 2.1 Open space and recreation facilities address adjacent public roads to optimise pedestrian access and visibility.	DTS/DPF 2.1 None are applicable.
PO 2.2 Open space and recreation facilities incorporate park furniture, shaded areas and resting places.	DTS/DPF 2.2 None are applicable.
PO 2.3 Open space and recreation facilities link habitats, wildlife corridors and existing open spaces and recreation facilities.	DTS/DPF 2.3 None are applicable.
Pedestrians and Cyclists	
PO 3.1 Open space incorporates: <ul style="list-style-type: none"> <li>(a) pedestrian and cycle linkages to other open spaces, centres, schools and public transport nodes;</li> <li>(b) safe crossing points where pedestrian routes intersect the road network;</li> <li>(c) easily identified access points.</li> </ul>	DTS/DPF 3.1 None are applicable.
Usability	
PO 4.1 Land allocated for open space is suitable for its intended active and passive recreational use taking into consideration its gradient and potential for inundation.	DTS/DPF 4.1 No more than 20% of the open space: <ul style="list-style-type: none"> <li>(a) has a slope in excess of 1 in 4;</li> <li>(b) is comprised of watercourses, wetlands or detention basins.</li> </ul>
Safety and Security	
PO 5.1 Open space is overlooked by housing, commercial or other development to provide casual surveillance where possible.	DTS/DPF 5.1 None are applicable.
PO 5.2 Play equipment is located where it can be casually observed by	DTS/DPF 5.2 None are applicable.

nearby residents and users.

PO 5.3 Landscaping provided in open space and recreation facilities maximises opportunities for casual surveillance throughout the park.	DTS/DPF 5.3 None are applicable.
PO 5.4 Fenced parks and playgrounds have more than one entrance or exit to minimise potential entrapment.	DTS/DPF 5.4 None are applicable.
PO 5.5 Adequate lighting is provided around toilets, telephones, seating, litter bins, bicycle storage, car parks and other such facilities.	DTS/DPF 5.5 None are applicable.
PO 5.6 Pedestrian and bicycle movement after dark is focused along clearly defined, adequately lit routes with observable entries and exits.	DTS/DPF 5.6 None are applicable.
Signage	
PO 6.1 Signage is provided at entrances to and within the open space and recreation facilities to provide clear orientation to major points of interest such as the location of public toilets, telephones, safe routes, park activities and the like.	DTS/DPF 6.1 None are applicable.
Buildings and Structures	
PO 7.1 Buildings and car parking areas in open space areas are designed, located and of a scale to be unobtrusive.	DTS/DPF 7.1 None are applicable.
PO 7.2 Buildings and structures in open space areas are clustered where practical to ensure that the majority of the site remains open.	DTS/DPF 7.2 None are applicable.
PO 7.3 Development in open space is constructed to minimise the extent of hard paved areas.	DTS/DPF 7.3 None are applicable.
PO 7.4 Development that abuts or includes a coastal reserve or Crown land used for scenic, conservation or recreational purposes is located and designed to have regard to the purpose, management and amenity of the reserve.	DTS/DPF 7.4 None are applicable.
Landscaping	

<p>PO 8.1</p> <p>Open space and recreation facilities provide for the planting and retention of large trees and vegetation.</p>	<p>DTS/DPF 8.1</p> <p>None are applicable.</p>
<p>PO 8.2</p> <p>Landscaping in open space and recreation facilities provides shade and windbreaks:</p> <ul style="list-style-type: none"> <li>(a) along cyclist and pedestrian routes;</li> <li>(b) around picnic and barbecue areas;</li> <li>(c) in car parking areas.</li> </ul>	<p>DTS/DPF 8.2</p> <p>None are applicable.</p>
<p>PO 8.3</p> <p>Landscaping in open space facilitates habitat for local fauna and facilitates biodiversity.</p>	<p>DTS/DPF 8.3</p> <p>None are applicable.</p>

## Resource Extraction

### Assessment Provisions (AP)

Desired Outcome (DO)

<h2 style="text-align: center; background-color: #333; color: white; padding: 5px;">Desired Outcome</h2>	
<p>DO 1</p>	<p>Resource extraction activities are developed in a manner that minimises human and environmental impacts.</p>

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

<b>Performance Outcome</b>	<b>Deemed-to-Satisfy Criteria / Designated Performance Feature</b>
Land Use and Intensity	
PO 1.1 Resource extraction activities minimise landscape damage outside of those areas unavoidably disturbed to access and exploit a resource and provide for the progressive reclamation and betterment of disturbed areas.	DTS/DPF 1.1 None are applicable.
PO 1.2 Resource extraction activities avoid damage to cultural sites or artefacts.	DTS/DPF 1.2 None are applicable.
Water Quality	
PO 2.1 Stormwater and/or wastewater from resource extraction activities is diverted into appropriately sized treatment and retention systems to enable reuse on site.	DTS/DPF 2.1 None are applicable.
Separation Treatments, Buffers and Landscaping	
PO 3.1 Resource extraction activities minimise adverse impacts upon sensitive receivers through incorporation of separation distances and/or mounding/vegetation.	DTS/DPF 3.1 None are applicable.
PO 3.2 Resource extraction activities are screened from view from adjacent land by perimeter landscaping and/or mounding.	DTS/DPF 3.2 None are applicable.

## Site Contamination

### Assessment Provisions (AP)

Desired Outcome (DO)

<b>Desired Outcome</b>	
DO 1	Ensure land is suitable for the proposed use in circumstances where it is, or may have been, subject to site contamination.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
<p>PO 1.1</p> <p>Ensure land is suitable for sensitive land use and provides a safe environment.</p>	<p>DTS/DPF 1.1</p> <p>Development where:</p> <ul style="list-style-type: none"> <li>(a) the previous use or activity on the allotment was for residential purposes</li> <li>or</li> <li>(b) the applicant is able to furnish, or the relevant authority is in possession of, a site contamination audit report under Part 10A of the Environment Protection Act 1993 to the effect:                             <ul style="list-style-type: none"> <li>(i) that site contamination does not exist (or no longer exists) at the allotment</li> <li>or</li> <li>(ii) that any site contamination at the allotment has been cleared or addressed to the extent necessary to enable the allotment to be suitable for unrestricted residential use</li> </ul> </li> </ul> <p>in circumstances where:</p> <ul style="list-style-type: none"> <li>(i) the applicant has indicated that the allotment is, or may have been, subject to site contamination as a result of a previous use of the land or a previous activity on the land or in the vicinity of the land (other than if the previous use or activity was for residential purposes)</li> <li>or</li> <li>(ii) the relevant authority has reason to believe that the allotment is, or may have been, subject to site contamination as a result of a previous use of the land or a previous activity on the land or in the vicinity of the land (other than if the previous use or activity was for residential purposes)</li> </ul> <p>or</p> <ul style="list-style-type: none"> <li>(c) the allotment was the subject of consent granted under the Development Act 1993 or the Planning Development and Infrastructure Act 2016 on or after 1 September 2009 in relation the division of the land.</li> </ul>

## Tourism Development

### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	<p>Tourism development is built in locations that cater to the needs of visitors and positively contribute the South Australia's visitor economy.</p>

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
General	
<p>PO 1.1</p> <p>Tourism development complements and contributes to local, natural, cultural or historical context where:</p> <ul style="list-style-type: none"> <li>(a) it supports immersive natural experiences</li> <li>(b) it showcases South Australia’s landscapes and produce</li> <li>(c) its events and functions are connected to local food, wine and nature.</li> </ul>	<p>DTS/DPF 1.1</p> <p>None are applicable.</p>
<p>PO 1.2</p> <p>Tourism development comprising multiple accommodation units (including any facilities and activities for use by guests and visitors) is clustered to minimise environmental and contextual impact.</p>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
Caravan and Tourist Parks	
<p>PO 2.1</p> <p>Potential conflicts between long-term residents and short-term tourists are minimised through suitable siting and design measures.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
<p>PO 2.2</p> <p>Occupants are provided privacy and amenity through landscaping and fencing.</p>	<p>DTS/DPF 2.2</p> <p>None are applicable.</p>
<p>PO 2.3</p> <p>Communal open space and centrally located recreation facilities are provided for guests and visitors.</p>	<p>DTS/DPF 2.3</p> <p>12.5% or more of a caravan park comprises clearly defined communal open space, landscaped areas and areas for recreation.</p>
<p>PO 2.4</p> <p>Perimeter landscaping is used to enhance the amenity of the locality.</p>	<p>DTS/DPF 2.4</p> <p>None are applicable.</p>
<p>PO 2.5</p> <p>Amenity blocks (showers, toilets, laundry and kitchen facilities) are sufficient to serve the full occupancy of the development.</p>	<p>DTS/DPF 2.5</p> <p>None are applicable.</p>
<p>PO 2.6</p> <p>Long-term occupation does not displace tourist accommodation, particularly in important tourist destinations such as coastal and riverine locations.</p>	<p>DTS/DPF 2.6</p> <p>None are applicable.</p>

<p>PO 3.1</p> <p>Tourist accommodation avoids delicate or environmentally sensitive areas such as sand dunes, cliff tops, estuaries, wetlands or substantially intact strata of native vegetation (including regenerated areas of native vegetation lost through bushfire).</p>	<p>DTS/DPF 3.1</p> <p>None are applicable.</p>
<p>PO 3.2</p> <p>Tourist accommodation is sited and designed in a manner that is subservient to the natural environment and where adverse impacts on natural features, landscapes, habitats and cultural assets are avoided.</p>	<p>DTS/DPF 3.2</p> <p>None are applicable.</p>
<p>PO 3.3</p> <p>Tourist accommodation and recreational facilities, including associated access ways and ancillary structures, are located on cleared (other than where cleared as a result of bushfire) or degraded areas or where environmental improvements can be achieved.</p>	<p>DTS/DPF 3.3</p> <p>None are applicable.</p>
<p>PO 3.4</p> <p>Tourist accommodation is designed to prevent conversion to private dwellings through:</p> <ul style="list-style-type: none"> <li>(a) comprising a minimum of 10 accommodation units</li> <li>(b) clustering separated individual accommodation units</li> <li>(c) being of a size unsuitable for a private dwelling</li> <li>(d) ensuring functional areas that are generally associated with a private dwelling such as kitchens and laundries are excluded from, or physically separated from individual accommodation units, or are of a size unsuitable for a private dwelling.</li> </ul>	<p>DTS/DPF 3.4</p> <p>None are applicable.</p>

## Transport, Access and Parking

### Assessment Provisions (AP)

Desired Outcome (DO)

<h2 style="text-align: center; background-color: #334d5d; color: white; padding: 5px;">Desired Outcome</h2>	
<p>DO 1</p>	<p>A comprehensive, integrated and connected transport system that is safe, sustainable, efficient, convenient and accessible to all users.</p>

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Movement Systems	
PO 1.1 Development is integrated with the existing transport system and designed to minimise its potential impact on the functional performance of the transport system.	DTS/DPF 1.1 None are applicable.
PO 1.2 Development is designed to discourage commercial and industrial vehicle movements through residential streets and adjacent other sensitive receivers.	DTS/DPF 1.2 None are applicable.
PO 1.3 Industrial, commercial and service vehicle movements, loading areas and designated parking spaces are separated from passenger vehicle car parking areas to ensure efficient and safe movement and minimise potential conflict.	DTS/DPF 1.3 None are applicable.
PO 1.4 Development is sited and designed so that loading, unloading and turning of all traffic avoids interrupting the operation of and queuing on public roads and pedestrian paths.	DTS/DPF 1.4 All vehicle manoeuvring occurs onsite.
Sightlines	
PO 2.1 Sightlines at intersections, pedestrian and cycle crossings, and crossovers to allotments for motorists, cyclists and pedestrians are maintained or enhanced to ensure safety for all road users and pedestrians.	DTS/DPF 2.1 None are applicable.
PO 2.2 Walls, fencing and landscaping adjacent to driveways and corner sites are designed to provide adequate sightlines between vehicles and pedestrians.	DTS/DPF 2.2 None are applicable.
Vehicle Access	
PO 3.1 Safe and convenient access minimises impact or interruption on the operation of public roads.	DTS/DPF 3.1 The access is: <ul style="list-style-type: none"> <li>(a) provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land</li> <li>or</li> <li>(b) not located within 6m of an intersection of 2 or more roads or a pedestrian activated crossing.</li> </ul>

<p>PO 3.2</p> <p>Development incorporating vehicular access ramps ensures vehicles can enter and exit a site safely and without creating a hazard to pedestrians and other vehicular traffic.</p>	<p>DTS/DPF 3.2</p> <p>None are applicable.</p>
<p>PO 3.3</p> <p>Access points are sited and designed to accommodate the type and volume of traffic likely to be generated by the development or land use.</p>	<p>DTS/DPF 3.3</p> <p>None are applicable.</p>
<p>PO 3.4</p> <p>Access points are sited and designed to minimise any adverse impacts on neighbouring properties.</p>	<p>DTS/DPF 3.4</p> <p>None are applicable.</p>
<p>PO 3.5</p> <p>Access points are located so as not to interfere with mature street trees, existing street furniture (including directional signs, lighting, seating and weather shelters) or infrastructure services to maintain the appearance of the streetscape, preserve local amenity and minimise disruption to utility infrastructure assets.</p>	<p>DTS/DPF 3.5</p> <p>Access points do not involve the removal or relocation of mature street trees, street furniture or utility infrastructure services.</p>
<p>PO 3.6</p> <p>Driveways and access points are separated and minimised in number to optimise the provision of on-street visitor parking (where on-street parking is appropriate).</p>	<p>DTS/DPF 3.6</p> <p>Driveways and access points:</p> <ul style="list-style-type: none"> <li>(a) for sites with a frontage to a public road of 20m or less, one access point no greater than 3.5m in width is provided</li> <li>(b) for sites with a frontage to a public road greater than 20m: <ul style="list-style-type: none"> <li>(i) a single access point no greater than 6m in width is provided</li> <li>or</li> <li>(ii) not more than two access points with a width of 3.5m each are provided.</li> </ul> </li> </ul>
<p>PO 3.7</p> <p>Access points are appropriately separated from level crossings to avoid interference and ensure their safe ongoing operation.</p>	<p>DTS/DPF 3.7</p> <p>None are applicable.</p>
<p>PO 3.8</p> <p>Driveways, access points, access tracks and parking areas are designed and constructed to allow adequate movement and manoeuvrability having regard to the types of vehicles that are reasonably anticipated.</p>	<p>DTS/DPF 3.8</p> <p>None are applicable.</p>
<p>PO 3.9</p> <p>Development is designed to ensure vehicle circulation between activity areas occurs within the site without the need to use public roads.</p>	<p>DTS/DPF 3.9</p> <p>None are applicable.</p>

Access for People with Disabilities	
<p>PO 4.1</p> <p>Development is sited and designed to provide safe, dignified and convenient access for people with a disability.</p>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>
Vehicle Parking Rates	
<p>PO 5.1</p> <p>Sufficient on-site vehicle parking and specifically marked accessible car parking places are provided to meet the needs of the development or land use having regard to factors that may support a reduced on-site rate such as:</p> <ul style="list-style-type: none"> <li>(a) availability of on-street car parking</li> <li>(b) shared use of other parking areas</li> <li>(c) in relation to a mixed-use development, where the hours of operation of commercial activities complement the residential use of the site the provision of vehicle parking may be shared.</li> </ul>	<p>DTS/DPF 5.1</p> <p>Development provides a number of car parking spaces on-site at a rate no less than the amount calculated using Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Transport, Access and Parking Table 2 - Off-Street Vehicle Parking Requirements in Designated Areas, whichever is relevant.</p>
Vehicle Parking Areas	
<p>PO 6.1</p> <p>Vehicle parking areas are sited and designed to minimise impact on the operation of public roads by avoiding the use of public roads when moving from one part of a parking area to another.</p>	<p>DTS/DPF 6.1</p> <p>Movement between vehicle parking areas within the site can occur without the need to use a public road.</p>
<p>PO 6.2</p> <p>Vehicle parking areas are appropriately located, designed and constructed to minimise impacts on adjacent sensitive receivers through measures such as ensuring they are attractively developed and landscaped, screen fenced, and the like.</p>	<p>DTS/DPF 6.2</p> <p>None are applicable.</p>
<p>PO 6.3</p> <p>Vehicle parking areas are designed to provide opportunity for integration and shared-use of adjacent car parking areas to reduce the total extent of vehicle parking areas and access points.</p>	<p>DTS/DPF 6.3</p> <p>None are applicable.</p>
<p>PO 6.4</p> <p>Pedestrian linkages between parking areas and the development are provided and are safe and convenient.</p>	<p>DTS/DPF 6.4</p> <p>None are applicable.</p>
<p>PO 6.5</p> <p>Vehicle parking areas that are likely to be used during non-daylight hours are provided with floodlit entry and exit points to ensure clear visibility to users.</p>	<p>DTS/DPF 6.5</p> <p>None are applicable.</p>
<p>PO 6.6</p> <p>Loading areas and designated parking spaces for service vehicles are provided within the boundary of the site.</p>	<p>DTS/DPF 6.6</p> <p>Loading areas and designated parking spaces are wholly located within the site.</p>

are provided within the boundary of the site.	within the site.
PO 6.7 On-site visitor parking spaces are sited and designed to be accessible to all visitors at all times.	DTS/DPF 6.7 None are applicable.
Undercroft and Below Ground Garaging and Parking of Vehicles	
PO 7.1 Undercroft and below ground garaging of vehicles is designed to enable safe entry and exit from the site without compromising pedestrian or cyclist safety or causing conflict with other vehicles.	DTS/DPF 7.1 None are applicable.
Internal Roads and Parking Areas in Residential Parks and Caravan and Tourist Parks	
PO 8.1 Internal road and vehicle parking areas are surfaced to prevent dust becoming a nuisance to park residents and occupants.	DTS/DPF 8.1 None are applicable.
PO 8.2 Traffic circulation and movement within the park is pedestrian friendly and promotes low speed vehicle movement.	DTS/DPF 8.2 None are applicable.
Bicycle Parking in Designated Areas	
PO 9.1 The provision of adequately sized on-site bicycle parking facilities encourages cycling as an active transport mode.	DTS/DPF 9.1 Areas and / or fixtures are provided for the parking and storage of bicycles at a rate not less than the amount calculated using Transport, Access and Parking Table 3 - Off Street Bicycle Parking Requirements.
PO 9.2 Bicycle parking facilities provide for the secure storage and tethering of bicycles in a place where casual surveillance is possible, is well lit and signed for the safety and convenience of cyclists and deters property theft.	DTS/DPF 9.2 None are applicable.
PO 9.3 Non-residential development incorporates end-of-journey facilities for employees such as showers, changing facilities and secure lockers, and signage indicating the location of the facilities to encourage cycling as a mode of journey-to-work transport.	DTS/DPF 9.3 None are applicable.

**Table 1 - General Off-Street Car Parking Requirements**

Class of Development	Car Parking Rate (unless varied by Table 3 onwards)  Where a development comprises more than one development type, then the overall car parking rate will be taken to be the sum of the car parking rates for each development type.
<b>Residential Development</b>	
<b>Detached Dwelling</b>	1 or 2 bedroom dwelling - 1 space per dwelling.  3 or more bedroom dwelling - 2 spaces per dwelling.
<b>Group Dwelling</b>	1 or 2 bedroom dwelling - 1 space per dwelling.  3 or more bedroom dwelling - 2 spaces per dwelling.  0.33 spaces per dwelling for visitor parking where development involves 3 or more dwellings.
<b>Residential Flat Building</b>	1 or 2 bedroom dwelling - 1 space per dwelling.  3 or more bedroom dwelling - 2 spaces per dwelling.  0.33 spaces per dwelling for visitor parking where development involves 3 or more dwellings.
<b>Row Dwelling</b>	1 or 2 bedroom dwelling - 1 space per dwelling.  3 or more bedroom dwelling - 2 spaces per dwelling.
<b>Semi-Detached Dwelling</b>	1 or 2 bedroom dwelling - 1 space per dwelling.  3 or more bedroom dwelling - 2 spaces per dwelling.
<b>Aged / Supported Accommodation</b>	
<b>Aged person's accommodation</b>	0.3 spaces per bed.
<b>Nursing home</b>	0.3 spaces per bed.
<b>Retirement village</b>	1 or 2 bedroom dwelling - 1 space per dwelling.  3 or more bedroom dwelling - 2 spaces per dwelling.  0.2 spaces per dwelling for visitor parking.
<b>Supported accommodation</b>	0.3 spaces per bed.
<b>Residential Development (Other)</b>	
<b>Ancillary accommodation</b>	No additional requirements beyond those associated with the main dwelling.
<b>Residential park</b>	1 or 2 bedroom dwelling - 1 space per dwelling.

3 or more bedroom dwelling - 2 spaces per dwelling.

0.2 spaces per dwelling for visitor parking.

<b>Workers' accommodation</b>	0.5 spaces per bed plus 0.25 spaces per bed for visitor parking.
<b>Tourist</b>	
<b>Caravan park / tourist park</b>	<p>Parks with 100 sites or less - a minimum of 1 space per 10 sites to be used for accommodation.</p> <p>Parks with more than 100 sites - a minimum of 1 space per 15 sites used for accommodation.</p> <p>A minimum of 1 space for every caravan (permanently fixed to the ground) or cabin.</p>
<b>Tourist accommodation</b>	1 car parking space per accommodation unit / guest room.
<b>Commercial Uses</b>	
<b>Auction room/ depot</b>	1 space per 100m <sup>2</sup> of building floor area plus an additional 2 spaces.
<b>Automotive collision repair</b>	3 spaces per 100m <sup>2</sup> of gross leasable floor area plus 1 space for each vehicle being serviced, repaired or fitted with accessories, including vehicles waiting to be repaired, fitted with accessories or collected by owners.
<b>Bulky goods outlet</b>	3 spaces per 100m <sup>2</sup> of gross leasable floor area.
<b>Call centre</b>	8 spaces per 100m <sup>2</sup> of gross leasable floor area.
<b>Motor repair station</b>	3 spaces per 100m <sup>2</sup> of gross leasable floor area plus 1 space for each vehicle being serviced, repaired or fitted with accessories, including vehicles waiting to be repaired, fitted with accessories or collected by owners.
<b>Office</b>	4 spaces per 100m <sup>2</sup> of gross leasable floor area.
<b>Retail fuel outlet</b>	6 spaces per service bay, plus 50% of the spaces calculated to be provided for ancillary uses
<b>Service trade premises</b>	<p>4 spaces per 100m<sup>2</sup> of gross leasable floor area</p> <p>1 space per 100m<sup>2</sup> of outdoor area used for display purposes.</p>
<b>Shop</b> other than a bulky goods outlet or restaurant	<p>7 spaces per 100m<sup>2</sup> of gross leasable floor area where not located in an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.</p> <p>6 spaces per 100m<sup>2</sup> of gross leasable floor area where located in an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.</p>
<b>Community and Civic Uses</b>	

**Childcare centre**

0.25 spaces per child

<b>Library</b>	4 spaces per 100m <sup>2</sup> of total floor area.
<b>Community facility</b>	10 spaces per 100m <sup>2</sup> of total floor area.
<b>Hall / meeting hall</b>	0.2 spaces per seat.
<b>Place of worship</b>	1 space for every 3 visitor seats.
<b>Pre-school</b>	1 per employee plus 0.25 per child (drop off/pick up bays)
<b>Educational establishment</b>	<p>For a primary school - 1.1 space per full time equivalent employee plus 0.25 spaces per student.</p> <p>For a secondary school - 1.1 per full time equivalent employee plus 0.16 spaces per student</p> <p>For a tertiary institution - 0.8 per student based on the maximum number of students on the site at any time.</p>
<b>Health Related Uses</b>	
<b>Hospital</b>	5 spaces per bed.
<b>Consulting room</b>	4 spaces per 100m <sup>2</sup> of gross leasable floor area.
<b>Recreational and Entertainment Uses</b>	
<b>Amusement machine centre</b>	1 space per 10m <sup>2</sup> of total floor area.
<b>Bowling club</b>	10 spaces per bowling green.
<b>Cinema complex</b>	0.33 spaces per seat.
<b>Concert hall / theatre</b>	0.33 spaces per seat.
<b>Hotel</b>	1 space for every 2m <sup>2</sup> of total floor area in a public bar plus 1 space for every 6m <sup>2</sup> of total floor area available to the public in a lounge, beer garden or other licensed area.
<b>Indoor recreation facility</b>	<p>7 spaces per 100m<sup>2</sup> of total floor area</p> <p>For a squash court or tennis court - 4 spaces per court.</p>
<b>Restaurant</b>	<p>Premises with a dine-in service only - 0.4 spaces per seat.</p> <p>Premises with a dine-in and take-away services - 0.55 spaces per seat.</p> <p>[Note: requirements associated with a drive-through service are to be considered separately to the parking rates mentioned herein]</p>
<b>Industry/Employment Uses</b>	

<b>Industry/Employment Uses</b>	
<b>Fuel depot</b>	<p>If employee numbers are known - 1 space per employee with a minimum of 2 spaces per premises.</p> <p>If employee numbers are unknown - 1.85 spaces per 100m<sup>2</sup> of total floor area with a minimum of 2 spaces per premises.</p>
<b>Industry</b>	<p>If employee numbers are known - 1 space per employee with a minimum of 2 spaces per premises.</p> <p>If employee numbers are unknown - 1.85 spaces per 100m<sup>2</sup> of total floor area with a minimum of 2 spaces per premises.</p>
<b>Store</b>	<p>If employee numbers and known - 1 space per employee with a minimum of 2 spaces per premises.</p> <p>If employee numbers are unknown - 1.85 spaces per 100m<sup>2</sup> of total building floor area with a minimum of 2 spaces per premises.</p>
<b>Timber yard</b>	<p>If employee numbers are known - 1 space per employee with a minimum of 2 spaces per premises.</p> <p>If employee numbers are unknown - 1.85 spaces per 100m<sup>2</sup> of total floor area with a minimum of 2 spaces per premises.</p>
<b>Warehouse</b>	<p>If employee numbers are known - 1 space per employee with a minimum of 2 spaces per premises.</p> <p>If employee numbers are unknown - 1.85 spaces per 100m<sup>2</sup> of total floor area with a minimum of 2 spaces per premises.</p>
<b>Other Uses</b>	
<b>Funeral Parlour</b>	1 space per 5 seats in the chapel plus 1 space for each vehicle operated by the parlour.
<b>Radio or Television Station</b>	5 spaces per 100m <sup>2</sup> of total building floor area.

**Table 2 - Off-Street Vehicle Parking Requirements in Designated Areas**

Class of Development	Car Parking Rate		Designated Areas
	Minimum number of spaces	Maximum number of spaces	
<p><b>Where a development comprises more than one development type, then the overall car parking rate will be taken to be the sum of the car parking rates for each development type.</b></p>			
<b>Development generally</b>			
<b>All classes of development</b>	No minimum.	No maximum.	Capital City Zone City Main Street Zone
<b>Non-residential development</b>			
<b>Non-residential development</b> excluding tourist accommodation	3 spaces per 100m <sup>2</sup> of gross leasable floor area.	5 spaces per 100m <sup>2</sup> of gross leasable floor area.	Urban Activity Centre Zone Urban Corridor (Boulevard) Zone Urban Corridor (Business) Zone Urban Corridor (Living) Zone Urban Corridor (Main Street ) Zone Urban Neighbourhood Zone
<b>Non-residential development</b> excluding tourist accommodation	3 spaces per 100m <sup>2</sup> of gross leasable floor area.	6 spaces per 100m <sup>2</sup> of gross leasable floor area.	Where located in accordance with the Table 2 - Criteria:  Innovation Zone  Suburban Activity Centre Zone  Suburban Business and Innovation Zone  Suburban Business Neighbourhood Zone  Suburban Main Street Zone  Urban Activity Centre Zone
<b>Tourist accommodation</b>	1 space for every 4 bedrooms up to 100 bedrooms plus 1 space for every 5 bedrooms over 100 bedrooms	1 space per 2 bedrooms up to 100 bedrooms and 1 space per 4 bedrooms over 100 bedrooms	Urban Activity Centre Zone Urban Corridor (Boulevard) Zone Urban Corridor (Business) Zone Urban Corridor (Living) Zone Urban Corridor (Main Street ) Zone Urban Neighbourhood Zone
<b>Residential development</b>			
<b>Residential component</b>	Dwelling with no separate	None specified.	Urban Activity Centre Zone 3494

<b>of a multi-storey building</b>	bedroom -0.25 spaces per dwelling  1 bedroom dwelling - 0.75 spaces per dwelling  2 bedroom dwelling - 1 space per dwelling  3 or more bedroom dwelling - 1.25 spaces per dwelling  0.25 spaces per dwelling for visitor parking.		Urban Corridor (Boulevard) Zone  Urban Corridor (Business) Zone  Urban Corridor (Living) Zone  Urban Corridor (Main Street ) Zone  Urban Neighbourhood Zone
<b>Residential flat building</b>	Dwelling with no separate bedroom -0.25 spaces per dwelling  1 bedroom dwelling - 0.75 spaces per dwelling  2 bedroom dwelling - 1 space per dwelling  3 or more bedroom dwelling - 1.25 spaces per dwelling  0.25 spaces per dwelling for visitor parking.	None specified.	Urban Activity Centre Zone  Urban Corridor (Boulevard) Zone  Urban Corridor (Business) Zone  Urban Corridor (Living) Zone  Urban Corridor (Main Street ) Zone  Urban Neighbourhood Zone

Table 2 - Criteria:

The designated area is wholly located within Metropolitan Adelaide and any part of the area satisfies one of the following:

- (a) is within 400 metres of a bus interchange<sup>(1)</sup>
- (b) is within 400 metres of an O-Bahn interchange<sup>(1)</sup>
- (c) is within 400 metres of a passenger rail station<sup>(1)</sup>
- (d) is within 400 metres of a passenger tram station<sup>(1)</sup>
- (e) is within 400 metres of the Adelaide Parklands.

[NOTE(S): (1) Measured from an area that contains any platform(s), shelter(s) or stop(s) where people congregate for the purpose waiting to board a bus, tram or train, but does not include areas used for the parking of vehicles.]

### Table 3 - Off-Street Bicycle Parking Requirements

The bicycle parking rates apply within designated areas located within parts of the State identified in the Schedule to Table 3.

<b>Class of Development</b>	<b>Bicycle Parking Rate</b>
	<b>Where a development comprises more than one development type, then the overall bicycle parking rate will be taken to be the sum of the bicycle parking rates for each development type.</b>
<b>Consulting Room</b>	1 space per 20 employees plus 1 space per 20 consulting rooms for customers.
<b>Educational establishment</b>	For a secondary school - 1 space per 20 full-time time employees plus 10 percent of the total number of employee spaces for visitors.  For tertiary education - 1 space per 20 employees plus 1 space per 10 full time students.
<b>Hospital</b>	1 space per 15 beds plus 1 space per 30 beds for visitors.
<b>Indoor recreation facility</b>	1 space per 4 employees plus 1 space per 200m <sup>2</sup> of gross leasable floor area for visitors.
<b>Office</b>	1 space for every 200m <sup>2</sup> of gross leasable floor area plus 2 spaces plus 1 space per 1000m <sup>2</sup> of gross leasable floor area for visitors.
<b>Residential flat building</b>	1 space for every 4 dwellings for residents plus 1 for every 10 dwellings for visitors.
<b>Residential component of a multi-storey building</b>	1 space for every 4 dwellings for residents plus 1 space for every 10 dwellings for visitors.
<b>Shop</b>	1 space for every 300m <sup>2</sup> of gross leasable floor area plus 1 space for every 600m <sup>2</sup> of gross leasable floor area for customers.
<b>Tourist accommodation</b>	1 space for every 20 employees plus 2 for the first 40 rooms and 1 for every additional 40 rooms for visitors.

**Schedule to Table 3**

<b>Designated Area</b>	<b>Relevant part of the State</b>
	<b>The bicycle parking rate applies to a designated area located in a relevant part of the State described below.</b>
All zones	City of Adelaide

## Waste Treatment and Management Facilities

### Assessment Provisions (AP)

Desired Outcome (DO)

### Desired Outcome

DO 1

Mitigation of the potential environmental and amenity impacts of waste treatment and management facilities.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Siting	
PO 1.1 Waste treatment and management facilities incorporate separation distances and attenuation measures within the site between waste operations areas (including all closed, operating and future cells) and sensitive receivers and sensitive environmental features to mitigate off-site impacts from noise, air and dust emissions.	DTS/DPF 1.1 None are applicable.
Soil and Water Protection	
PO 2.1 Soil, groundwater and surface water are protected from contamination from waste treatment and management facilities through measures such as: <ul style="list-style-type: none"> <li>(a) containing potential groundwater and surface water contaminants within waste operations areas</li> <li>(b) diverting clean stormwater away from waste operations areas and potentially contaminated areas</li> <li>(c) providing a leachate barrier between waste operations areas and underlying soil and groundwater.</li> </ul>	DTS/DPF 2.1 None are applicable.
PO 2.2 Wastewater lagoons are set back from watercourses to minimise environmental harm and adverse effects on water resources.	DTS/DPF 2.2 Wastewater lagoons are set back 50m or more from watercourse banks.
PO 2.3 Wastewater lagoons are designed and sited to: <ul style="list-style-type: none"> <li>(a) avoid intersecting underground waters;</li> <li>(b) avoid inundation by flood waters;</li> <li>(c) ensure lagoon contents do not overflow;</li> <li>(d) include a liner designed to prevent leakage.</li> </ul>	DTS/DPF 2.3 None are applicable.
PO 2.4 Waste operations areas of landfills and organic waste processing facilities are set back from watercourses to minimise adverse impacts on water resources.	DTS/DPF 2.4 Waste operations areas are set back 100m or more from watercourse banks.
Amenity	
PO 3.1 Waste treatment and management facilities are screened, located and designed to minimise adverse visual impacts on amenity.	DTS/DPF 3.1 None are applicable.
PO 3.2 Access routes to waste treatment and management facilities via	DTS/DPF 3.2 None are applicable.

residential streets is avoided.

PO 3.3 Litter control measures minimise the incidence of windblown litter.	DTS/DPF 3.3 None are applicable.
PO 3.4 Waste treatment and management facilities are designed to minimise adverse impacts on both the site and surrounding areas from weed and vermin infestation.	DTS/DPF 3.4 None are applicable.
Access	
PO 4.1 Traffic circulation movements within any waste treatment or management site are designed to enable vehicles to enter and exit the site in a forward direction.	DTS/DPF 4.1 None are applicable.
PO 4.2 Suitable access for emergency vehicles is provided to and within waste treatment or management sites.	DTS/DPF 4.2 None are applicable.
Fencing and Security	
PO 5.1 Security fencing provided around waste treatment and management facilities prevents unauthorised access to operations and potential hazard to the public.	DTS/DPF 5.1 Chain wire mesh or pre-coated painted metal fencing 2m or more in height is erected along the perimeter of the waste treatment or waste management facility site.
Landfill	
PO 6.1 Landfill gas emissions are managed in an environmentally acceptable manner.	DTS/DPF 6.1 None are applicable.
PO 6.2 Landfill facilities are separated from areas of environmental significance and land used for public recreation and enjoyment.	DTS/DPF 6.2 Landfill facilities are set back 250m or more from a public open space reserve, forest reserve, national park or Conservation Zone.
PO 6.3 Landfill facilities are located on land that is not subject to land slip.	DTS/DPF 6.3 None are applicable.
PO 6.4 Landfill facilities are separated from areas subject to flooding.	DTS/DPF 6.4 Landfill facilities are set back 500m or more from land inundated in a 1% AEP flood event.
Organic Waste Processing Facilities	
PO 7.1 Organic waste processing facilities are separated from the coast to avoid potential environment harm.	DTS/DPF 7.1 Organic waste processing facilities are set back 500m or more from the coastal high water mark.

<p>PO 7.2</p> <p>Organic waste processing facilities are not located on land where the interface of the engineered liner and natural soils would be within any of the following:</p> <ul style="list-style-type: none"> <li>(a) 15m of unconfined aquifers bearing groundwater with less than 3000mg per litre total dissolved salts;</li> <li>(b) 5m of groundwater with a water quality of 3000mg to 12,000mg per litre total dissolved salts;</li> <li>(c) 2m of groundwater with a water quality exceeding 12,000mg per litre total dissolved salts.</li> </ul>	<p>DTS/DPF 7.2</p> <p>None are applicable.</p>
<p>PO 7.3</p> <p>Organic waste processing facilities are sited away from areas of environmental significance and land used for public recreation and enjoyment.</p>	<p>DTS/DPF 7.3</p> <p>Organic waste processing facilities are set back 250m or more from a public open space reserve, forest reserve, national park or a Conservation Zone.</p>
<p>PO 7.4</p> <p>Organic waste processing facilities are located on land that is not subject to land slip.</p>	<p>DTS/DPF 7.4</p> <p>None are applicable.</p>
<p>PO 7.5</p> <p>Organic waste processing facilities separated from areas subject to flooding.</p>	<p>DTS/DPF 7.5</p> <p>Organic waste processing facilities are set back 500m or more from land inundated in a 1% AEP flood event.</p>
Major Wastewater Treatment Facilities	
<p>PO 8.1</p> <p>Major wastewater treatment and disposal systems, including lagoons, are designed to minimise potential adverse odour impacts on sensitive receivers.</p>	<p>DTS/DPF 8.1</p> <p>None are applicable.</p>
<p>PO 8.2</p> <p>Artificial wetland systems for the storage of treated wastewater are designed and sited to minimise potential public health risks arising from the breeding of mosquitoes.</p>	<p>DTS/DPF 8.2</p> <p>None are applicable.</p>

## Workers' accommodation and Settlements

### Assessment Provisions (AP)

Desired Outcome (DO)

## Desired Outcome

DO 1	Appropriately designed and located accommodation for seasonal and short-term workers in rural areas that minimises environmental and social impacts.
------	--

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
PO 1.1 Workers' accommodation and settlements sited and designed to minimise impacts on views from scenic routes, tourist destinations and areas of conservation significance.	DTS/DPF 1.1 None are applicable.
PO 1.2 Workers' accommodation and settlements are sited and designed to minimise nuisance impacts on the amenity of adjacent users of land.	DTS/DPF 1.2 None are applicable.
PO 1.3 Workers' accommodation and settlements are built with materials and colours that blend with the landscape.	DTS/DPF 1.3 None are applicable.
PO 1.4 Workers' accommodation and settlements are supplied with service infrastructure such as power, water and effluent disposal sufficient to satisfy the living requirements of workers.	DTS/DPF 1.4 None are applicable.

## Part 5 - Designated Areas

The *Planning, Development and Infrastructure Act 2016* and the *Planning, Development and Infrastructure (General) Regulations 2017* allow the Planning and Design Code to designate areas for certain purposes. Column A identifies the purpose of a designated area and Column B identifies the relevant zone, subzone or overlay in the Planning and Design Code or other area designated for that purpose, including limits to the extent of a designated area.

Where the extent of a designated area is limited in Column B by a figure, the figure is provided in Schedule 1 of this Part.

### Table 1 - Designated Areas under the Planning, Development and Infrastructure (General) Regulations 2017

Introduction (Column A)	Designated Area(s) (Column B)
Interpretation	
Areas identified as 'designated airport building heights area' for the purposes of clause 3(1) of the Regulations - Interpretation	Airport Building Heights (Aircraft Landing Areas) Overlay Airport Building Heights (Regulated) Overlay Defence Aviation Area Overlay
Areas identified as 'designated environmental zone, subzone or overlay' for the purposes of clause 3(1) of the Regulations - Interpretation	None specified
Areas identified as 'designated flood zone, subzone or overlay' for the purposes of clause 3(1) of the Regulations - Interpretation	Coastal Areas Overlay Hazards (Flooding) Overlay River Murray Flood Plain Protection Area Overlay
Areas identified as 'designated regulated tree overlay' for the purposes of clause 3(1) of the Regulations - Interpretation	Regulated Tree Overlay
Building Rules: bushfire prone areas	
Areas identified as 'designated bushfire prone areas' for the purposes of clause 98(b) of the Regulations - Building Rules: bushfire prone areas	Refer to <i>Ministerial Building Standard MBS 008 - Designated bushfire prone areas - additional requirements</i>
Additions to definition of development	
Areas identified for the purposes of clause 1 of Schedule 3 under the Regulations - Excavating or filling in identified zones or areas	Hills Face Zone Significant Landscape Protection Overlay Hazard (Acid Sulfate Soils) Overlay
Areas identified for the purposes of clause 3 of Schedule 3 under the Regulations - Excavation or filling in identified zones or areas subject to inundation or flooding	In addition to a 'designated flood zone, subzone or overlay', the following:  None specified
Exclusions from definition of development - general	
Areas identified as 'environmental areas' for the purposes of clause 2(1)(d)(i) of Schedule 4 under the Regulations - Council works	Conservation Zone Significant Landscape Protection Overlay
Areas identified as 'environmental areas' for the purposes of clause 2(1)(d)(ii)(A) of Schedule 4 under the Regulations - Council works	Coastal Areas Overlay
Areas identified for the purposes of clause 4 (1)(a) of Schedule 4 under the Regulations - Outbuilding	In addition to a 'designated flood zone, subzone or overlay', the following:  Hills Face Zone Significant Landscape Protection Overlay

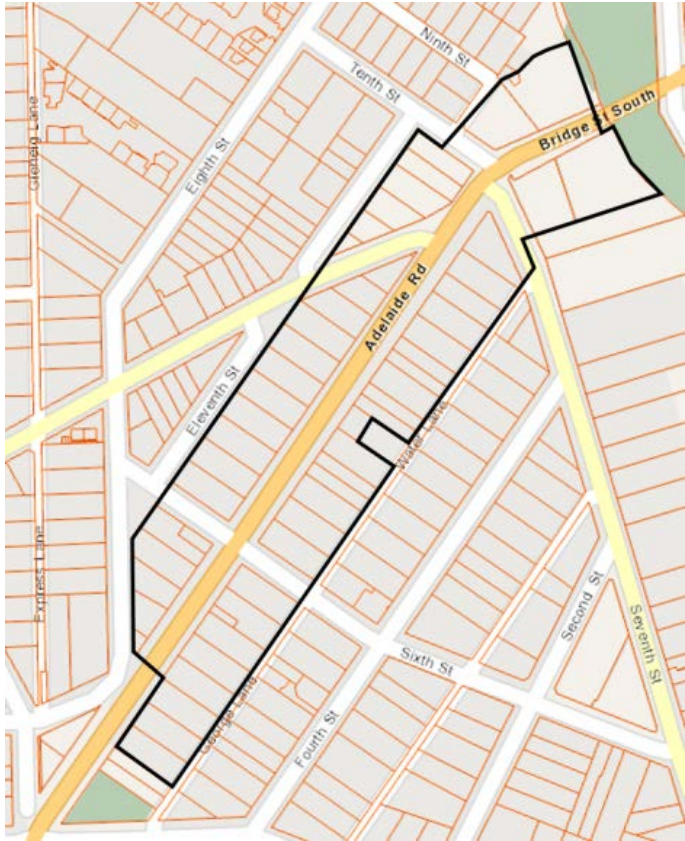

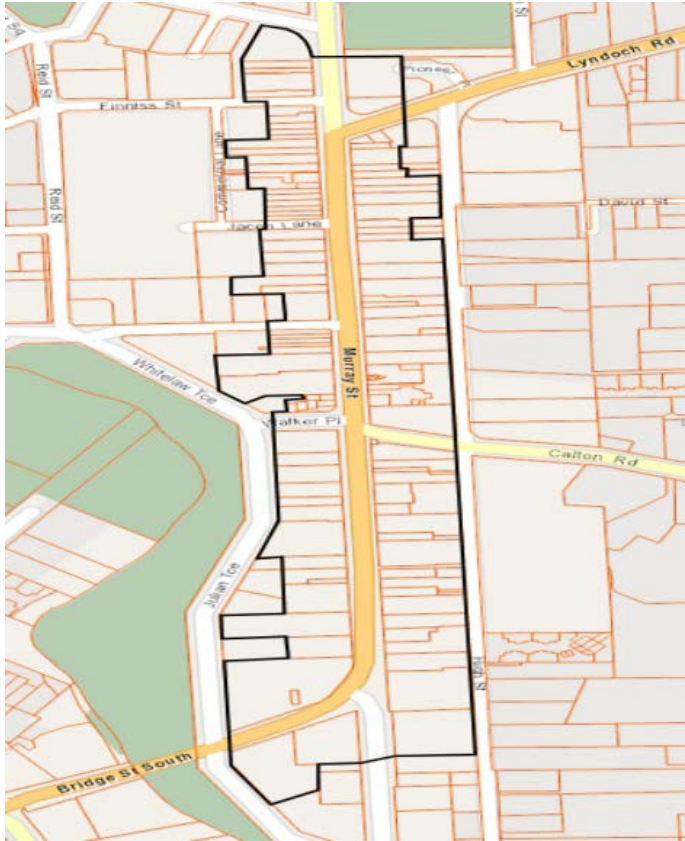

Areas identified for the purposes of clause 4(1)(c) of Schedule 4 under the Regulations - Swimming pool	In addition to a 'designated flood zone, subzone or overlay', the following:  Hills Face Zone
Areas identified for the purposes of clause 4(1)(d)(i)(B) of Schedule 4 under the Regulations - Fence not exceeding 2.1m in height	In addition to a 'designated flood zone, subzone or overlay', the following:  Hills Face Zone Significant Landscape Protection Overlay
Areas identified for the purposes of clause 4(1)(i) of Schedule 4 under the Regulations - Deck	In addition to a 'designated bushfire prone area', the following:  Coastal Areas Overlay Hills Face Zone Significant Landscape Protection Overlay
Areas identified for the purposes of clause 10 of Schedule 4 under the Regulations - Demolition of the whole of a building	Historic Area Overlay
Areas identified for the purposes of clause 11 of Schedule 4 under the Regulations - Dams	In addition to a 'designated flood zone, subzone or overlay', the following:  Hills Face Zone Significant Landscape Protection Overlay
Areas identified for the purposes of clause 13 of Schedule 4 under the Regulations - Aerials, towers	In addition to a 'designated flood zone, subzone or overlay', the following:  Hills Face Zone Significant Landscape Protection Overlay
Areas identified for the purposes of subclause 13(2) of Schedule 4 under the Regulations - Aerials, towers in the Hills Face Zone	Hills Face Zone
Relevant authority - Commission	
Areas identified for the purposes of clause 4(1) of Schedule 6 of the Regulations - Buildings exceeding 4 storeys	Those parts of the Design Overlay within the following areas:  City of Burnside The Corporation of the City of Norwood Payneham and St Peters City of Prospect The Corporation of the City of Unley City of West Torrens City of Holdfast Bay
Areas identified for the purposes of clause 5(1) of Schedule 6 of the Regulations - Developments over \$3m in the City of Port Adelaide	Design Overlay
Areas identified for the purposes of clause 8(1) of Schedule 6 of the Regulations - Developments over \$3m in the City of Charles Sturt	That part of the Urban Neighbourhood Zone identified as 'Bowden Urban Village' in the <i>Concept Plan Technical and Numeric Variation layer</i>

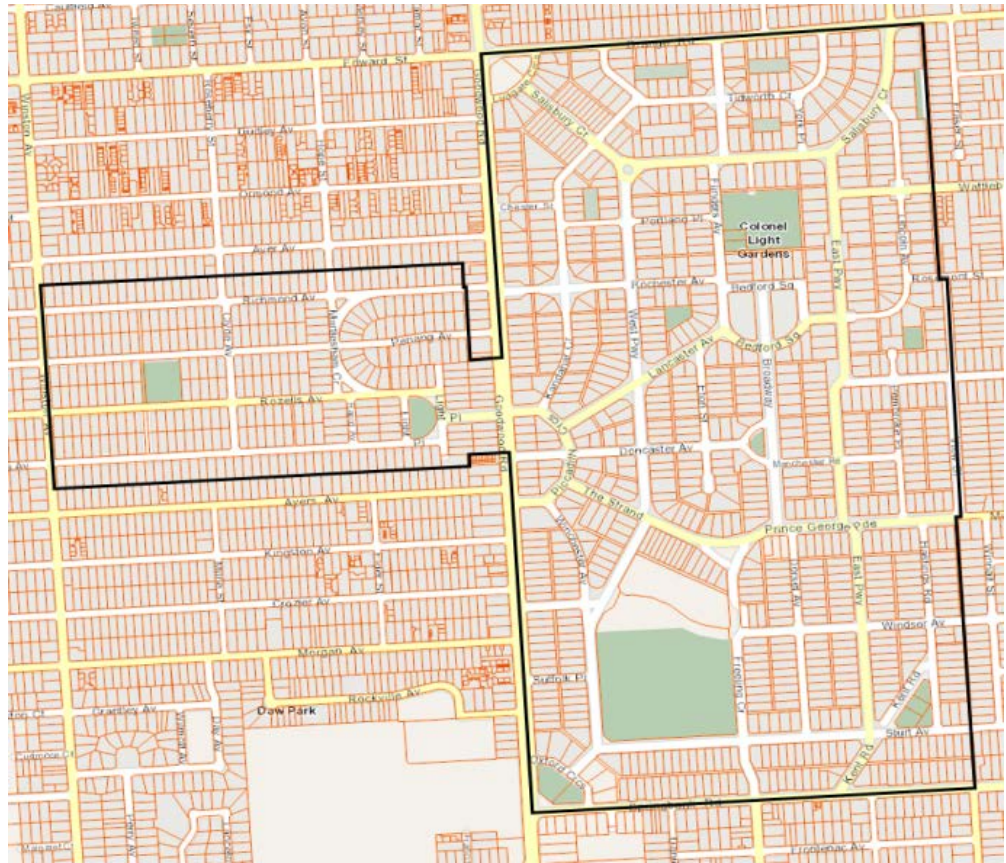

Areas identified for the purposes of clause 11 of Schedule 6 of the Regulations - Developments in the show grounds	That part of the Recreation Zone in the City of Unley shown in Figure Un/1 of Schedule 1.
State agency development exempt from approval	
Areas identified for the purposes of clause 3 of Schedule 13 of the Regulations - Certain development in part of City of Mitcham	The area identified in Figure Mit/1 of Schedule 1

**Table 2 – Designated Areas under the Planning, Development and Infrastructure Act 2016**

<b>Introduction (Column A)</b>	<b>Designated Area(s) (Column B)</b>
For the purposes of paragraph (g) of the definition of development under section 3(1) of the Act - External painting of a building	Any building located within the area identified in Figure Ga/1 or Figure Ga/2 of Schedule 1.
Land identified as an infrastructure reserve for the purposes of section 129 (1)(a)	Land within the Infrastructure (Airfield) Zone located on the Andamooka Road (11km east of the eastern most boundary of Roxby Downs [Municipality]) and / or the site of Olympic Dam mining settlement (as per the approved Olympic Dam mining lease), within 150m north, and 50m south, of the existing road alignment of Andamooka Road, between the eastern boundary of the Roxby Downs (Municipality) and the eastern zone boundary of the Infrastructure (Airfield) Zone is land identified as having a land use that is suitable for infrastructure.

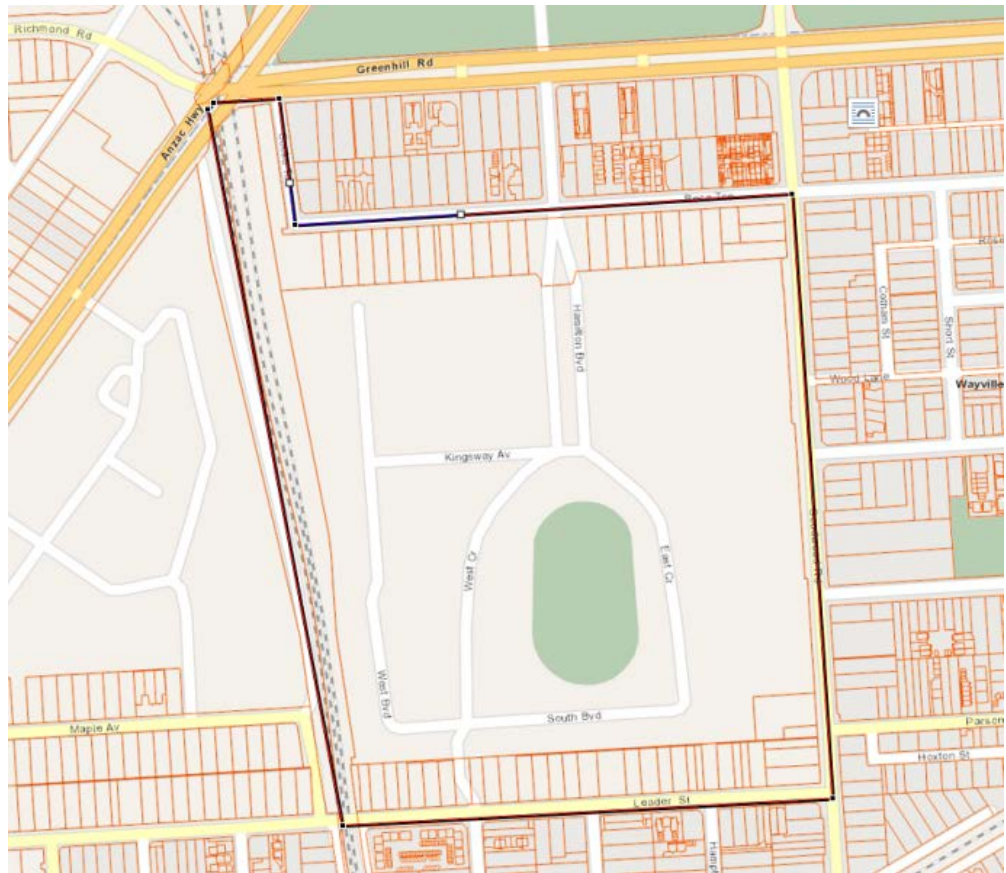

**Schedule 1 - Figures for Designated Areas**

Location	Figures	
<p>Corporation of the Town of Gawler</p>	<p>Figure Ga/1</p>  <p>The map shows a street grid in Gawler. A black outline highlights a specific area. Adelaide Rd runs diagonally from the bottom-left to the top-right. Bridge St South runs horizontally across the top. Other streets shown include Eighth St, Tenth St, Ninth St, Eleventh St, Fourth St, Sixth St, Second St, Seventh St, and Woodbine St. A yellow highlight is visible along Adelaide Rd.</p>	
	<p>Figure Ga/2</p>  <p>This map shows a different section of Gawler. A black outline highlights a large area. Lyndoch Rd runs horizontally across the top. Caron Rd runs horizontally across the middle. A vertical road, likely Adelaide Rd, runs through the center. Other streets include Farnham St, Lyndoch St, Walker Pl, and Bridge St South. A yellow highlight is visible along the central vertical road.</p>	
<p>City of Mitcham - Colonel Light Gardens</p>	<p>Figure Mit/1</p>  <p>A partial map showing the start of a highlighted area, likely continuing from the previous map. A yellow highlight is visible along a road.</p>	

City of Unley

Minimum site area is 4 ha
Minimum site area is 5 ha
Minimum site area is 8 ha
Minimum site area is 10 ha
Minimum site area is 30 ha
Minimum site area is 40 ha
Minimum site area is 100 ha
Minimum site area is 200 ha
Minimum site area for a detached dwelling is 1,200 sqm; semi-detached dwelling is 450 sqm; row dwelling is 350 sqm; group dwelling is 350 sqm; residential flat building is 350 sqm
Minimum site area for a detached dwelling is 700 sqm; semi-detached dwelling is 450 sqm; row dwelling is 350 sqm; group dwelling is 350 sqm; residential flat building is 350 sqm
Minimum site area for a detached dwelling is 270 sqm; semi-detached dwelling is 220 sqm; row dwelling is 180 sqm; group dwelling is 250 sqm; residential flat building is 200 sqm
Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 250 sqm; row dwelling is 200 sqm; group dwelling is 200 sqm; residential flat building is 200 sqm
Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 270 sqm; row dwelling is 210 sqm; group dwelling is 300 sqm; residential flat building is 300 sqm
Minimum site area for a detached dwelling is 350 sqm; semi-detached dwelling is 300 sqm; row dwelling is 250 sqm; group dwelling is 300 sqm; residential flat building is 300 sqm
Minimum site area for a detached dwelling is 350 sqm; semi-detached dwelling is 350 sqm
Minimum site area for a detached dwelling is 350 sqm; semi-detached dwelling is 350 sqm; row dwelling is 300 sqm; group dwelling is 300 sqm; residential flat building is 250 sqm
Minimum site area for a detached dwelling is 400 sqm; semi-detached dwelling is 300 sqm; row dwelling is 200 sqm; group dwelling is 300 sqm; residential flat building is 300 sqm
Minimum site area for a detached dwelling is 400 sqm; semi-detached dwelling is 300 sqm; row dwelling is 300 sqm; group dwelling is 300 sqm; residential flat building is 250 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 420 sqm
Minimum site area for a detached dwelling is 500 sqm; semi-detached dwelling is 420 sqm; row dwelling is 370 sqm; group dwelling is 370 sqm; residential flat building is 370 sqm
Minimum site area is 1.7 ha
Minimum site area is 850 sqm
Minimum site area is 7,000 sqm
Minimum site area is 15 ha

## Part 6.2 Minimum Allotment Frontage Sizes

<b>Minimum Frontage</b>
Minimum frontage for a detached dwelling is 10m
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 10m; row dwelling is 10m; group dwelling is 10m; residential flat building is 10m
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 9m; row dwelling is 6m; group dwelling is 10m; residential flat building is 10m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 10m; row dwelling is 8m; group dwelling is 12m; residential flat building is 12m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 12m; row dwelling is 12m
Minimum frontage for a detached dwelling is 15m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 10m; row dwelling is 10m; group dwelling is 10m; residential flat building is 10m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 10m; row dwelling is 10m; group dwelling is 20m; residential flat building is 20m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 12m; group dwelling is 15m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 15m; row dwelling is 10m; group dwelling is 10m; residential flat building is 10m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 8m; row dwelling is 8m; group dwelling is 20m; residential flat building is 20m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 9m; row dwelling is 8m; residential flat building is 28m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 9m; row dwelling is 8m; group dwelling is 18m; residential flat building is 8m
Minimum frontage for a detached dwelling is 18m; semi-detached dwelling is 12m; row dwelling is 10m; group dwelling is 24m; residential flat building is 20m
Minimum frontage for a detached dwelling is 18m; semi-detached dwelling is 15m; row dwelling is 10m; group dwelling is 20m
Minimum frontage for a detached dwelling is 20m
Minimum frontage for a detached dwelling is 30m
Minimum frontage for a detached dwelling is 5m; semi-detached dwelling is 5m; group dwelling is 5m
Minimum frontage for a detached dwelling is 50m
Minimum frontage for a detached dwelling is 6m; semi-detached dwelling is 6m; row dwelling is 6m; group dwelling is 6m; residential flat building is 6m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 13m; row dwelling is 10m; group dwelling is 10m; residential flat building is 10m
Minimum frontage for a detached dwelling is 20m; semi-detached dwelling is 13m; row dwelling is 10m; group dwelling is 10m; residential flat building is 10m
Minimum frontage for a detached dwelling is 100m
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 10m; row dwelling is 7m; group dwelling is 25m; residential flat building is 25m
Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 8m; row dwelling is 8m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 10m; row dwelling is 9m
Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 10m; row dwelling is 7m; group dwelling is 18m; residential flat building is 18m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 10m; row dwelling is 10m; group dwelling is 20m; residential flat building is 10m
Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 12m; row dwelling is 12m; group dwelling is 20m; residential flat building is 15m
Minimum frontage for a detached dwelling is 5m; semi-detached dwelling is 5m; row dwelling is 5m; group dwelling is 5m; residential flat building is 5m
Minimum frontage for a detached dwelling is 6m; semi-detached dwelling is 6m
Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 9m

### Part 6.3 Building Heights (Metres)

<b>Maximum Building Height (Metres)</b>
Maximum building height is 4m
Maximum building height is 5m
Maximum building height is 6m
Maximum building height is 6.5m
Maximum building height is 7m
Maximum building height is 8m
Maximum building height is 8.2m
Maximum building height is 8.5m
Maximum building height is 9m
Maximum building height is 10m

### Part 6.4 Building Heights (Levels)

#### Minimum Building Height (Levels)

<b>Minimum Building Height (Levels)</b>

#### Maximum Building Height (Levels)

<b>Maximum Building Height (Levels)</b>
Maximum building height is 1 level
Maximum building height is 2 levels
Maximum building height is 3 levels

### Part 6.5 Flooding Site and Floor Level

<b>Finished Ground and Floor Levels</b>
Minimum finished ground level is 2.65m AHD; Minimum finished floor level is 2.9m AHD
Minimum finished ground level is 2.7m AHD; Minimum finished floor level is 2.95m AHD
Minimum finished ground level is 2.9m AHD; Minimum finished floor level is 3.15m AHD

## Part 7 - Land Use Definitions

### Land Use Terms

The following table lists terms which may be used in this Planning and Design Code in relation to the use of land.

### Meaning of Terms

A term listed in Column A has the meaning set out beside that term in Column B.

### Inclusions and Exclusions

Land uses and activities set out in Column C are to be taken as being **included** in the meaning of the land use term set out in Column A.

Land uses and activities set out in Column D are to be taken as being **excluded** from the meaning of the land use term set out in Column A.

In the event of any inconsistency Column D prevails over Column C.

### Ancillary and Subordinate

Unless stated to the contrary, a term set out in the following table which purports to define a form of land use will be taken to include a use which is ancillary and subordinate to that defined use.

### No Definition

A term not defined in the following table will have its ordinary meaning unless the term is defined in the *Planning, Development and Infrastructure Act 2016* or its Regulations (or any relevant practice direction or practice guideline issued by the State Planning Commission) in which case that meaning will apply.

### Land Use Definitions Table

Land Use Term (Column A)	Definition (Column B)	Includes (Column C)	Excludes (Column D)
Agricultural building	Means a building used wholly or partly for purposes associated with farming, commercial forestry or horticulture, or to support the operations of that use, but is not used wholly or partly for the processing or packaging of commodities.	Farm shed; Farm silo; Frost fan; Horticultural shed; Hay shed; Implement shed; Pump shed	Dairy; Dwelling; Industry; Intensive animal husbandry; Office; Outbuilding; Shop
Ancillary accommodation	Means accommodation that: <ul style="list-style-type: none"> <li>(a) is located on the same allotment as an existing dwelling;</li> <li>(b) contains no more than 2 bedrooms or rooms or areas capable of being used as a bedroom; and</li> <li>(c) is subordinate to and shares the same utilities of the existing dwelling.</li> </ul>		Dwelling
Animal keeping	Means the boarding (short or long term), keeping, breeding or training of animals, except horses and/or commercially kept livestock.	Dog kennelling Catteries	Aquaculture; Farming; Horse keeping; Intensive animal husbandry; Low intensity animal husbandry
Aquaculture	Has the same meaning as in the Aquaculture Act 2001.		Intensive animal husbandry.
Automotive collision repair	Means repairs to motor vehicles involving structural repairs, panel beating, replacement of vehicle body parts or spray painting.		Motor repair station
Bulky goods outlet	Means premises used primarily for the sale, rental, display or offer by retail of goods, other than foodstuffs, clothing, footwear or personal effects goods, unless the sale, rental, display or offer by retail of the foodstuffs, clothing, footwear or personal effects goods is incidental to the sale, rental, display or offer by retail of other goods. Examples— The following are examples of goods that may be available or on display at bulky goods outlets or retail showrooms: <ul style="list-style-type: none"> <li>(a) automotive parts and accessories;</li> <li>(b) furniture;</li> <li>(c) floor coverings;</li> <li>(d) window coverings;</li> <li>(e) appliances or electronic equipment;</li> <li>(f) home entertainment goods;</li> <li>(g) lighting and electric light fittings;</li> <li>(h) curtains and fabric;</li> <li>(i) bedding and manchester;</li> <li>(j) party supplies;</li> <li>(k) animal and pet supplies;</li> <li>(l) camping and outdoor recreation supplies;</li> <li>(m) hardware;</li> <li>(n) garden plants (primarily in an indoor setting);</li> <li>(o) office equipment and stationery supplies;</li> <li>(p) baby equipment and accessories;</li> <li>(q) sporting, fitness and recreational equipment</li> </ul>		

- and accessories;
- (r) homewares;
- (s) children's play equipment.

Caravan and tourist park	Means land used to provide short-term accommodation in caravans, recreational vehicles (RVs), cabins, tents and other similar demountable forms of shelter in a managed setting.		Residential park
Commercial forestry	Means the practice of planting, managing, and caring for forests that are to be harvested (or intended to be harvested) or used for commercial purposes (including through the commercial exploitation of the carbon absorption capacity of the forest).		
Consulting room	Means a building or part of a building (not being a hospital) used in the practice of a profession by a medical, veterinary or dental practitioner, or a practitioner in any curative science, in the provision of medical services, mental, moral or family guidance, but does not involve any overnight accommodation other than for animals that are recovering from treatment or in for observation as part of a veterinary practice.		
Cropping	Means propagating, cultivating and/or harvesting of grains, cereals, oilseeds, lupins, legumes, hops, hemp, hay, lucerne or other similar plants or plant products for commercial production.		Commercial forestry; Horticulture; Mushroom production.
Dairy	Means a building or part of a building used for all or any of the operations of commercial milk production (whether mechanical or otherwise) and includes a milking shed, milk room, wash room or engine room.		
Detached dwelling	Means a detached building comprising 1 dwelling on its own site and has a frontage to a public road, or to a road proposed in a plan of land division that is the subject of a current development authorisation		
Dwelling	Means a building or part of a building used as a self-contained residence.		Ancillary accommodation
Educational establishment	Means a primary school, secondary school, reception to year 12 school, college, university or technical institute, and includes an associated pre-school or institution for the care and maintenance of children.		
Electricity substation	Means: <ul style="list-style-type: none"> <li>(a) works for the conversion, transformation or control of electricity by 1 or more transformers, or by any switchgear or other equipment; or</li> <li>(b) any equipment, building, structure or other works ancillary to or associated with works referred to in paragraph (a), other than any such works: <ul style="list-style-type: none"> <li>(i) that are mounted on a pole; or</li> <li>(ii) that are wholly enclosed in a weather-proof enclosure not exceeding 8.5m<sup>3</sup>; or</li> <li>(iii) that are incidental to any lawful use of the land which the works are situated.</li> </ul> </li> </ul>		
Farming	Means cropping, grazing or low intensity animal husbandry.	Cropping; Grazing; Low intensity animal husbandry.	Animal keeping; Commercial forestry; Horse keeping; Horticulture; Intensive animal husbandry; 3518 Mushroom

Fuel depot	Means land used primarily for the storage of petrol, gas, oils or other petroleum products and within or upon which no retail trade is conducted.		
General industry	Means any industry other than a light industry or special industry.		
Group dwelling	Means 1 of a group of 2 or more detached buildings, each of which is used as a dwelling and 1 or more of which has a site without a frontage to a public road or to a road proposed in a plan of land division that is the subject of a current development authorisation.		
Horse keeping	Means the keeping or husbandry of horses where more than 1 horse is kept per 3ha of land used for such purposes.		
Horticulture	Means the use of land for market gardening, viticulture, floriculture, orchards, wholesale plant nurseries or commercial turf growing.		Commercial forestry; Mushroom production.
Hotel	Means premises licensed, or proposed to be licensed as a general and hotel licence under the <i>Liquor Licensing Act 1997</i> .		
Indoor recreation facility	Means a building designed or adapted primarily for recreation or fitness pursuits.	Bowling alley; Squash courts; Fitness centre; Gymnasium; Pilates studio; Yoga studio; Dance studio; Indoor swimming centre; Indoor trampoline centre; Indoor rock climbing centre; Indoor children's play centre.	
Industry	Means the carrying on, in the course of a trade or business, of any process (other than the generation of electricity using a renewable energy source or a process in the course of farming or mining) for, or incidental to: <ul style="list-style-type: none"> <li>(a) the making of any article, ship or vessel, or of part of any article, ship or vessel; or</li> <li>(b) the altering, repairing, ornamenting, finishing, assembling, cleaning, washing, packing, bottling, canning or adapting for sale, or the breaking up or demolition, of any article, ship or vessel; or</li> <li>(c) the getting, dressing or treatment of materials.</li> </ul> The use may include: <ul style="list-style-type: none"> <li>(d) selling by wholesale of goods manufactured on site</li> <li>(e) selling by retail of goods manufactured on site, provided the total floor area occupied for such sale does not exceed 250m<sup>2</sup> (and industrial will be construed accordingly).</li> </ul>	General industry; Light industry; Special industry	
Intensive animal husbandry	Means the commercial production of animals or animal products where the animals are kept in enclosures or other confinement and their main food source is introduced from outside the enclosures or area of confinement in which they are kept.	Broiler shed; Feedlot; Poultry hatchery; Piggery; Poultry battery.	Animal keeping; Apiculture; Aquaculture; Horse keeping; Low intensity animal husbandry; 3520 Stock sales yard

Landfill	Land used for the receipt and controlled disposal of refuse through burial and/or spreading over land.		
Light industry	Means an industry where the process carried on, the materials and machinery used, the transport of materials, goods or commodities to and from the land on or in which (wholly or in part) the industry is conducted and the scale of the industry does not: <ul style="list-style-type: none"> <li>(a) detrimentally affect the amenity of the locality or the amenity within the vicinity of the locality by reason of the establishment or the bulk of any building or structure, the emission of noise, vibration, smell, fumes, smoke, vapour, steam, soot, ash, dust, waste water, waste products, grit, oil, spilled light, or otherwise howsoever;</li> <li>or</li> <li>(b) directly or indirectly cause dangerous or congested traffic conditions in any nearby road.</li> </ul>		
Low intensity animal husbandry	Means the commercial production of animals or animal products (eg meat, wool) on either native or improved pastures or vegetation where the animal's main food source is obtained by grazing or foraging.	Grazing;	Animal keeping; Aquaculture; Horse keeping; Intensive animal husbandry.
Motor repair station	Means any land or building used for carrying out repairs, servicing and/or maintenance (other than panel beating or spray painting) to motor vehicles and / or farm machinery.		Automotive collision repair
Mushroom production	Means the commercial production of mushrooms or any other type of fungi.		
Office	Means any building used for administration or the practice of a profession.		Consulting room.
Organic waste processing facility	Means the commercial processing of organic waste by composting, mulching, shredding, grinding or similar process into organic material for use as mulch, soil improver, growing medium or the like.		
Outbuilding	Means a non-habitable detached building on the same site as a main building which is ancillary and subordinate to the main building and has a use and function which relates to the main building.		Private bushfire shelter.
Personal or domestic services establishment	Means premises used for the provision of services catering to the personal or domestic needs of customers. Examples- The following are examples of services that may be available at personal and domestic services establishments: <ul style="list-style-type: none"> <li>(a) clothing repair and alterations;</li> <li>(b) cutting, trimming and styling hair;</li> <li>(c) domestic pet grooming;</li> <li>(d) manicures and pedicures;</li> <li>(e) non-surgical cosmetic treatments;</li> <li>(f) personal care treatments;</li> <li>(g) self-service clothes laundering;</li> <li>(h) shoe repair;</li> <li>(i) watch repair.</li> </ul>		Consulting room; Office; Financial institute.
Place of worship	Means premises used by an organised group for worship and religious activities. The use may include facilities for social, educational and charitable activities associated with the congregation.	Chapel; Church; Mosque; Synagogue; Temple.	Funeral parlour.
Pre-school	Means a place primarily for the care or instruction of children of less than primary school age not resident	Child care centre; Early learning centre;	3522

| on the site.

| Kindergarten;  
| Nursery. |

Protective tree netting structure	Means netting and any associated structure that: <ul style="list-style-type: none"> <li>(a) is designed to protect trees or plants grown for the purpose of commercial horticulture; and</li> <li>(b) consists of a netting canopy attached to a structure (such as poles and cables).</li> </ul>		
Public service depot	Means land used for storage and operations connected with the provision of public services (including gas, electricity, water supply, sewerage, drainage, roadworks or telecommunication services) by a body responsible for the provision of those services.		
Recreation area	Means any park, garden, children's playground or sports ground that is under the care, control and management of the Crown or a council, and is open to the public without payment of a charge.	Outdoor public sports courts; Public ovals and fields.	Golf course.
Renewable energy facility	Means land and/or water used to generate electricity from a renewable source such as wind, solar, tidal, hydropower, biomass and/or geothermal. This use may also include: <ul style="list-style-type: none"> <li>(a) any associated facility for the storage and/or transmission of the generated electricity;</li> <li>(b) any building or structure used in connection with the generation of electricity.</li> </ul> <p>The use does not include a renewable energy facility principally used to supply and/or store electricity to an existing use of land that has a generating capacity less than 5MW (e.g. domestic solar panels, domestic wind generators, domestic battery storage).</p>	Battery storage facility; Hydropower or pumped hydropower facility; Solar power facility; Wave power generator; Wind farm	
Replacement building	The construction of a new building in the same, or substantially the same, position as a building which was demolished within the previous 3 years and has the same, or substantially the same, layout and external appearance as the previous building.		
Residential flat building	Means a single building in which there are 2 or more dwellings.		Group dwelling; Row dwelling; Semi-detached dwelling;
Residential park	Means a residential park operating under the regulatory framework of the <i>Residential Parks Act 2007</i> .		Caravan and tourist park;
Restaurant	Means land used primarily for the consumption of meals on the site.		
Retail fuel outlet	Means land used for: <ul style="list-style-type: none"> <li>(a) the fuelling of motor vehicles involving the sale by retail of petrol, oil, liquid petroleum gas, automotive distillate and any other fuels; and</li> <li>(b) the sale by retail of food, drinks and other convenience goods for consumption on or off the land; and both are operated as and constitute one integrated facility where on-site facilities, systems and processes, car parking and access and egress are all shared.</li> <li>(c) the washing and cleaning of motor vehicles;</li> <li>(d) the washing of other equipment or things including dogs and other pets;</li> <li>(e) the provision (on a paid or free basis) of facilities for charging electric vehicles;</li> <li>(f) the hiring of trailers;</li> <li>(g) selling of motor vehicle accessories and/or</li> </ul>		Fuel depot; Motor repair station.

(h) parts; and  
the installation of motor vehicle accessories  
and/or parts.

Retirement facility	Means a facility operating under the regulatory framework of the <i>Retirement Villages Act 2016</i> .		
Row dwelling	Means a dwelling: <ul style="list-style-type: none"> <li>(a) occupying its own site and has a frontage to a public road, or to a road proposed in a plan of land division that is the subject of a current development authorisation; and</li> <li>(b) comprising 1 of 3 or more dwellings erected side by side, joined together and forming, by themselves, a single building.</li> </ul>		
Sales office	Means the use of an existing building or premises for a temporary period of no more than 2 years to display land parcels or buildings that are for sale, proposed to be sold, or can be won as a prize in a competition.		Office
Semi-detached dwelling	Means a dwelling: <ul style="list-style-type: none"> <li>(a) occupying its own site and has a frontage to a public road or to a road proposed in a plan of land division that is the subject of a current planning authorisation; and</li> <li>(b) comprising 1 of 2 dwellings erected side by side, joined together and forming, by themselves, a single building.</li> </ul>		
Service trade premises	Means premises used primarily for the sale, rental or display of any of the following: <ul style="list-style-type: none"> <li>(a) basic plant, equipment or machinery used in agriculture or industry; or</li> <li>(b) boats; or</li> <li>(c) caravans and recreational vehicles (RVs); or</li> <li>(d) domestic garages; or</li> <li>(e) sheds; or</li> <li>(f) outbuildings; or</li> <li>(g) motor vehicles; or</li> <li>(h) marquees; or</li> <li>(i) trailers; or</li> <li>(j) swimming pools, equipment and accessories; or</li> <li>(k) building materials in bulk supply; or</li> <li>(l) landscaping materials; or</li> <li>(m) garden plants (primarily in an outdoor setting); or</li> <li>(n) agricultural supplies such as agricultural chemicals, fertilisers, seed and animal feed; or</li> <li>(o) rainwater tanks and irrigation supplies;</li> </ul> or similar articles or merchandise.  The use may also include the servicing and repair of any of the listed items (but not vehicle panel beating or spray painting).	Motor vehicle showroom; Used car yard.	Bulky goods outlet.
Shop	Means: <ul style="list-style-type: none"> <li>(a) premises used primarily for the sale by retail, rental or display of goods, foodstuffs, merchandise or materials; or</li> <li>(b) a personal or domestic services establishment.</li> </ul>	Bulky goods outlet; Personal or domestic services establishment; Restaurant	Hotel; Motor repair station; Retail fuel outlet; Service trade premises; Wholesale plant nursery

Special industry	<p>Means an industry where the processes carried on, the methods of manufacture adopted or the particular materials or goods used, produced or stored, are likely to:</p> <ul style="list-style-type: none"><li>(a) cause or create dust, fumes, vapours, smells or gases; or</li><li>(b) discharge foul liquid or blood or other substance or impurities liable to become foul, and thereby:</li><li>(c) endanger, injure or detrimentally affect the life, health or property of any person (other than any person employed or engaged in the industry); or</li><li>(d) produce conditions which are, or may become, offensive or repugnant to the occupiers or users of land in the locality of or within the vicinity of the locality of the land on which (whether wholly or partly) the industry is conducted.</li></ul>		
------------------	--	--	--

Stock sales yard	Means land or premises used for the commercial conduct of buying and selling of livestock.		Stock slaughter works.
Stock slaughter works	Means a building or part of a building, or land used primarily for slaughter of stock (including camels, goats and deer) or poultry, This use may also include: (a) the keeping of animals prior to slaughter on site (b) processing of animal products for human or animal consumption.		Retail butcher.
Store	Means a building or enclosed land used for the storage of goods and within or upon which no trade (whether wholesale or retail) or industry is carried on.		Junk yard; Outbuilding; Public service depot.
Student accommodation	Mean premises used to accommodate students in room or dormitory style accommodation that is not self-contained and that includes common facilities for shared use by student occupants such as: (a) shared cooking facilities and/or the provision of meals; (b) common rooms and recreation areas; (c) shared laundry facilities or a laundry service; or (d) shared bathroom facilities.		Dwelling; Residential flat building.
Supported accommodation	Means premises in which residential accommodation is provided to persons requiring/together with regular medical and/or personal care assistance.		Hospital; Retirement facility.
Telecommunications facility	Means a facility within the meaning of the <i>Commonwealth Telecommunications Act 1997</i> .		
Temporary accommodation in an area affected by bushfire	Means the construction or placement of a building or structure on land on which a dwelling, or part of a dwelling, has been destroyed or significantly damaged by a bushfire if: (a) the building or structure is to be used as accommodation by the owner of the land and (b) the building or structure is a minimum of 20 metres from any remaining or regenerating cluster of vegetation (whether that vegetation is on the land or on adjoining land) and (c) the owner of the land complies with any requirements of the South Australian Country Fire Service relating to the maintenance of a clearance area between the temporary accommodation and any remaining or regenerating cluster of vegetation and (d) the building or structure is to be used as accommodation: (i) for a period not exceeding 2 years or (ii) until a Class 1a building on the land is able to be occupied in accordance with regulation 83A,  whichever occurs first.		
Tourist accommodation	Means premises in which temporary or short-term accommodation is provided to travellers on a		Campground 3528

	commercial basis.		
Warehouse	Means a building or enclosed land used for the storage of goods and the carrying out of commercial transactions involving the sale of such goods, but does not include any land or building used for sale by retail.		Store
Wind farm	Means land used to generate electricity from wind force with wind turbine generators. This use may also include: (a) any associated facility for the storage and/or transmission of the generated electricity; (b) any building or structure used in connection with the generation of electricity including a wind turbine, substation, maintenance shed, access road or wind monitoring mast.  The use does not include a wind farm principally used to supply and/or store electricity to an existing use of land (e.g., domestic wind generator).		
Workers' accommodation	Means premises used to accommodate workers on a temporary basis while they carry out employment: (a) on the same site as the workers' accommodation; (b) in mining or petroleum extraction. (c) in seasonally intensive rural activities such as fruit picking, pruning, animal shearing, meat processing or similar; or (d) in transport infrastructure construction.	Mining camp; Road workers camp; Shearing quarters; Railway workers camp	Tourist accommodation.

## Part 8 - Administrative Definitions

The following table lists terms which may be used to assist with the interpretation of policy used in the Planning and Design Code.

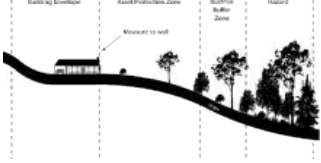

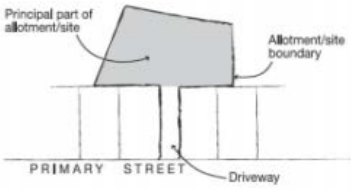

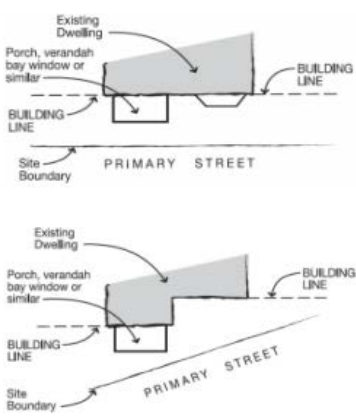

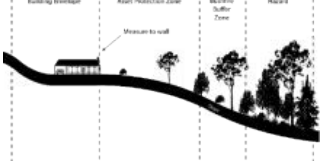

### Meaning of Terms

A term listed in Column A has the meaning set out beside that term in Column B. Column C contains, where applicable, illustrations to assist with the interpretation of the meaning provided in Column B.

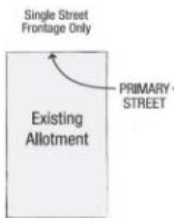

### No Definition

A term not defined in the following table will have its ordinary meaning unless the term is defined in the *Planning, Development and Infrastructure Act 2016* or its Regulations (or any relevant practice direction or practice guideline issued by the State Planning Commission) in which case that meaning will apply.

### Administrative Definitions Table

Term (Column A)	Definition (Column B)	Illustrations (Column C)
AEP	Means annual exceedance probability	
AHD	Means Australian Height Datum.	
Asset protection zone	In relation to bushfire protection, means an area generally clear of vegetation that is maintained to minimise the spread of fire between areas of hazardous vegetation and habitable buildings. Asset protection zones may incorporate features such as driveways, vegetable gardens or landscaped gardens incorporating deciduous trees and fire-retardant plant species.	
Battle-axe allotment	Means an allotment or site that comprises: <ul style="list-style-type: none"> <li>(a) a driveway or 'handle' (and any related open space) that leads back from a road to the balance of the allotment or site; and</li> <li>(b) a balance of the allotment or site that is the principal part of the allotment or site and that does not have a boundary with a road.</li> </ul>	 <p>Note: Battle-axe allotments are often referred to as 'hammerhead' or 'flagpole' allotments.</p>
Building height	Means the maximum vertical distance between the lower of the natural or finished ground level at any point of any part of a building and the finished roof height at its highest point, ignoring any antenna, aerial, chimney, flagpole or the like.	
Building level	Means that portion of a building which is situated between the top of any floor and the top of the next floor above it, and if there is no floor above it, that portion between the top of the floor and the ceiling above it. It does not include a floor located 1.5 metres below finished ground level or any mezzanine.	
Building line	In relation to a building on a site, means a line drawn parallel to the wall on the building closest to the boundary of the site that faces the primary street (and any existing projection from the building such as a carport, verandah, porch or bay window is not to be taken to form part of the building for the purposes of determining the relevant wall of the building).	
Bushfire buffer zone	In relation to bushfire protection, means an area of land designed to isolate residential allotments from areas that pose a bushfire risk such as areas with rugged terrain or hazardous vegetation.	
Defence aviation area	Has the same meaning as in the Commonwealth <i>Defence Act 1903</i> .	
Density	In relation to residential development, means the number of dwelling units in a given area. It is calculated by dividing the total number of dwellings by the area of residential land that they occupy (excluding other land uses, roads, public open space, and services).	
EPA Licence	Means an activity requiring a licence under the <i>Environment Protection Act 1993</i> (and this will	3530

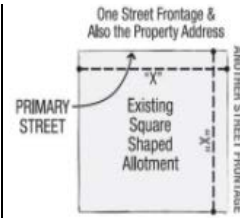

determine the applicable referral fee under the 'Chief Executive Schemes and Requirements as to the Payment and Distribution of Fees under the Planning, Development and Infrastructure (Fees, Charges and Contributions) Regulations 2019')

Exceedances per year (EY)	Means the number of times an event is likely to occur or be exceeded within any given year.	
FFL	Means finished floor level.	
Gross leasable floor area	Means the total floor area of a building excluding public or common tenancy areas such as malls, hallways, verandahs, public or shared tenancy toilets, common storage areas and loading docks.	
Groundwater	Means water that is naturally contained beneath the surface of the ground.	
Habitable room	Means any room used for domestic purposes other than a bathroom, laundry, toilet, pantry, walk-in wardrobe, corridor, stair, hallway, lobby, clothes drying room or other space of a specialised nature occupied neither frequently nor for extended periods.	
Heritage agreement	In relation to State Heritage, is an agreement that is registered under section 34 of the <i>Heritage Places Act 1993</i> .	
High-density	Means greater than 70 dwelling units per hectare.	
High-rise	In relation to development, means 7 building levels and above.	
Hours of operation	Means the hours that a land use is open to the public or conducting activities related to the land use, not including administration or routine activities normally associated with opening and closing or start up and shut down.	
Human wastewater	Has the same meaning as in the <i>Environment Protection (Water Quality) Policy 2015</i> .	
Low-density	Means less than 35 dwelling units per hectare.	
Low-rise	In relation to development, means up to and including 2 building levels.	
Medium-density	Means 35 to 70 dwelling units per hectare.	
Medium-rise	In relation to development, means 3 to 6 building levels.	
Mezzanine	Means an intermediate floor within a building between building levels that is open to the floor below and does not extend over the whole floor space.	
Native vegetation	Has the same meaning as in the <i>Native Vegetation Act 1991</i> .	
Neighbourhood-type zone	Means any of the following: Golf Course Estate Zone Greenfield Neighbourhood Zone Neighbourhood Zone Residential Park Zone Rural Living Rural Neighbourhood Zone Rural Settlement Zone Rural Shack Settlement Zone	
Non-sensitive use	Means use of land other than sensitive use.	
Power system	Has the same meaning as in the <i>Electricity Act 1996</i> .	
Primary street	In relation to an existing or proposed building on a site is:  (a) in the case of a site that has a frontage to only 1 road - that road;  (b) in the case of a site that has a frontage to 2 roads:  (i) if the frontages are identical in length - the road that forms part of the street address of the building as	 <p>Example of (a)</p>

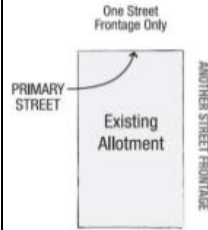

the street address of the building, as determined by the council for the relevant area when it is allocating numbers to building and allotments under section 220 of the *Local Government Act 1999*; or

(ii) in any other case, the road in relation to which the site has a shorter frontage; or

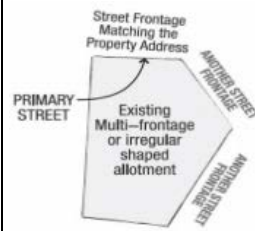

(c) in any other case, the road that forms part of the street address of the building as determined by the council for the relevant area when it is allocated numbers to buildings and allotments under section 220 of the *Local Government Act 1999*.

Example of (b)(i)

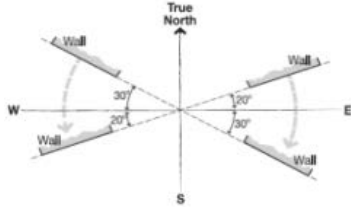

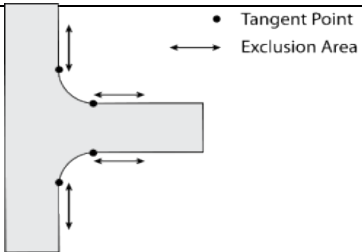

Example of (b)(ii)

Example of (c)

Private open space	<p>Means an outdoor area associated with a dwelling that:</p> <ul style="list-style-type: none"> <li>(a) is for the exclusive use of the occupants of that dwelling;</li> <li>(b) has a minimum dimension of 1.8 metres; and</li> <li>(c) is not fully enclosed.</li> </ul> <p>Private open space may include balconies, terraces, decks and areas between the dwelling and side boundaries but does not include areas used for bin storage, laundry drying, rainwater tanks, utilities, driveways or vehicle parking areas.</p>	
Proclaimed shipwreck	<p>Means:</p> <ul style="list-style-type: none"> <li>(a) a historic shipwreck or historic relic within the meaning of the <i>Historic Shipwrecks Act 1981</i>;</li> <li>or</li> <li>(b) a historic shipwreck or historic relic within the meaning of the <i>Commonwealth Underwater Cultural Heritage Act 2018</i>.</li> </ul>	
Relevant certificate	<p>Means a certificate by, or on behalf of, the South Australian Country Fire Service certifying that:</p> <ul style="list-style-type: none"> <li>(a) a Bushfire Attack Level assessment of the development has been undertaken within 3 months prior to lodgement of the application for planning consent in respect of the development and</li> <li>(b) the Bushfire Attack Level is –19 range.</li> </ul>	
Secondary street	<p>In relation to a building is any road, other than the primary street, that shares a boundary with the allotment on which the building is situated (or to be situated).</p>	
Sensitive receiver	<p>Means:</p> <ul style="list-style-type: none"> <li>(a) any use for residential purposes or land zoned primarily for residential purposes;</li> <li>(b) pre-school;</li> <li>(c) educational establishment;</li> <li>(d) hospital;</li> <li>(e) supported accommodation;</li> <li>(f) tourist accommodation</li> </ul>	
Sensitive use	<p>Has the same meaning as in the <i>Environment Protection Act 1993</i>.</p>	
Sewerage infrastructure	<p>Has the same meaning as in the <i>Water Industry Act 2012</i></p>	
Site	<p>Means the area of land (whether or not comprising a separate or entire allotment) on which a building is built, or proposed to be built, including the curtilage of the building, or in the case of a building comprising more than 1 separate occupancy, the area of land (whether or not comprising a separate or entire allotment) on which each occupancy is built. or</p>	

	proposed to be built, together with its curtilage.	
Site contamination	Has the same meaning as in the <i>Environment Protection Act 1993</i> .	
Soft landscaping	Means landscaped areas that are pervious and capable of supporting the growth of plant species. It does not include any form of pervious paving or paved/hardstand areas used for pedestrian and/or vehicle movement.	
South	Means true south.	
South facing	In relation to building orientation, a side wall is south facing if the wall is orientated anywhere between E20°N/W20°S and E30°S/W30°N.	 <p>Example of south facing walls.</p>
Standard sea flood risk level	Means the 1% AEP sea flood level (tide, stormwater and associated wave effects combined) plus an allowance to accommodate 100 years of land subsidence.	
Tangent point	Means the end point of a road's curve at the point of intersection, measured at the kerb.	
Terrace arrangement	Means a group of 3 or more detached dwellings erected side by side and abutting each other but not joined by way of a party wall or party walls.	
Total floor area	Means the sum of the superficies of horizontal sections of a building or other roofed area made at the level of each floor, inclusive of all roofed areas and of the external walls and of such portions of any party walls as belong to the building.	
Wall height	Means the height of the wall measured from the top of its footings but excluding any part of the wall that is concealed behind an eave or similar roof structure and not visible external to the land.	
Waste	Means waste within the meaning of the <i>Environment Protection Act 1993</i> .	

## Part 9 - Referrals

### Notes: Additional Referrals

Additional referrals to those specified below are contained within Overlays within the Planning and Design Code.

### Part 9.1 Referral Body: Environment Protection Authority

In relation to Part 9.1:

**Community wastewater management system (CWMS)** means a system for the collection and management of wastewater generated in a town, regional or other community.

**Liquid waste** means waste classified as liquid waste in accordance with the assessment process set out in the guideline Liquid waste classification test, re-issued by the Environment Protection Authority in September 2003; as defined in Schedule 1 of the *Environment*

*Protection Act 1993.*

**Listed waste** means a substance or thing listed in Part B of Schedule 1 of the *Environment Protection Act 1993*.

**Medical waste** has the same meaning as in the *Environment Protection (Waste to Resources) Policy 2010*.

**Prescribed approved activity** means any of the following:

- (a) the on-site storage or disposal of domestic waste
- (b) a regulated beverage container activity
- (c) a regulated drop-off station for e-waste
- (d) the temporary on-site storage of waste (other than tyre waste) while awaiting transport to another place
- (e) incineration by way of thermal oxidation using fuel burning equipment for the disposal of solid trade waste with a processing capacity not exceeding 100 kilograms per hour
- (f) the storage or disposal of tyre waste in a manner approved by the Environment Protection Authority
- (g) the disposal of human wastewater or sewage to land in a manner approved by the Environment Protection Authority.

**Quarantine waste** means waste that is subject to quarantine under the *Quarantine Act 1908* of the Commonwealth.

**River Murray Protection Area** means a River Murray Protection Area under the *River Murray Act 2003*.

**Treatment** is taken to have the same meaning as defined in section 3(1) as in the *Environment Protection Act 1993*.

**Waste** has the same meaning as in the *Environment Protection Act 1993*.

**Wastewater** means waste principally consisting of water and includes:re

- (a) human wastewater
- (b) sewage
- (c) water containing food or beverage waste
- (d) wash down water or cooling water
- (e) irrigation runoff or contaminated stormwater
- (f) water containing any other trade waste or industrial waste
- (g) any other water that has been used in any form of human activity
- (h) a combination of any 1 or more of the above.

**Water protection area** has the same meaning as in the *Environment Protection Act 1993*.

## **Referral Body: Environment Protection Authority**

Class of Development / Activity		Policies Relevant to the Referral	Purpose of Referral	Statutory Reference
Energy generation and storage facilities	Wind farms	Development that involves the establishment of a wind farm where 1 or more wind turbine generators (whether or not located on the same site) are used to generate electricity that is then supplied to another person for use at another place.	To provide expert technical assessment and direction to the relevant authority on the assessment of the potential harm from pollution and waste aspects arising from activities of environmental significance and other activities that have the potential to cause serious environmental harm.	Activity of environmental significance to which Schedule 9 clause 3 item 9 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.
	Energy recovery from waste	<p>Development involving energy recovery from <i>waste</i>, including <i>anaerobic digestion</i> and thermal activities such as <i>direct combustion</i>, <i>pyrolysis</i> and <i>gasification</i> used to generate gas, heat, electricity or a combination.</p> <p>In this class of development / activity:</p> <p><b>anaerobic digestion</b> involves a series of processes in which microorganisms break down biodegradable material to biogas in the absence of oxygen</p> <p><b>direct combustion</b> involves burning in excess oxygen (from air) to produce heat or release energy contained in the fuel</p> <p><b>pyrolysis</b> involves the thermo-chemical decomposition of organic or inorganic material- for example synthetic tyres - at elevated temperatures in the absence of oxygen</p> <p><b>gasification</b> of waste is a process that converts organic or fossilised organic material such as coal, at elevated temperatures and with controlled amounts of oxygen, into a synthetic gas (syngas).</p>		
	Energy generation	<p>Development involving an <i>electricity generating plant</i> (other than a <i>battery storage facility</i>) using any other energy source (excluding <i>fuel burning</i> and solar photovoltaic) with a capacity to generate or store 30 megawatts (MW) or more.</p> <p>In this class of development / activity:</p>		

**battery storage facility** means a facility for the purpose of 1 or more batteries that are capable of being charged, storing energy and discharging in into the State's power system

**electricity generating plant** means electricity generating plant within the ambit of paragraph (a) of the definition of electricity infrastructure in section 4(1) of the *Electricity Act 1996*.

<p>Petroleum and chemical</p>	<p>Chemical storage and warehousing facilities</p>	<p>The storage or warehousing of chemicals or chemical products that are, or are to be, stored or kept in bulk or in containers having a capacity exceeding 200 litres at facilities with a total storage capacity exceeding 1,000 cubic metres. (EPA Licence)</p>			
	<p>Chemical works</p>	<p>The conduct of:</p> <ul style="list-style-type: none"> <li>(a) works with a total processing capacity exceeding 10 tonnes per year (EPA Licence required at processing capacity exceeding 100 tonnes per year), involving either or both of the following operations:                             <ul style="list-style-type: none"> <li>(i) manufacture (through chemical reaction) of any inorganic chemical, including sulphuric acid, inorganic fertilisers, soap, sodium silicate, lime or other calcium compound</li> <li>(ii) manufacture (through chemical reaction) or processing of any organic chemical or chemical product or petrochemical, including the separation of such materials into different products by distillation or other means</li> </ul> </li> <p style="text-align: center;">or</p> <li>(b) works with a total processing capacity exceeding 5,000 tonnes per year involving operations for salt production. (EPA Licence)</li> </ul>			
	<p>Coke works</p>	<p>The production, quenching, cutting, crushing and grading of coke. (EPA Licence)</p>			
	<p>Hydrocarbon storage or production works</p>	<p>The conduct of works or a facility:</p> <ul style="list-style-type: none"> <li>(a) for the storage of hydrocarbon or hydrocarbon products in tanks that, in aggregate, have a storage</li> </ul>			

capacity exceeding 100m<sup>3</sup>  
(EPA Licence required at  
more than 2000m<sup>3</sup>) or  
(b) for the production of  
hydrocarbon or hydrocarbon  
products, being works  
having a total capacity  
exceeding 20 tonnes per  
hour. (EPA Licence)

	<p>Petrol stations</p>	<p>The conduct of a petrol station, being a facility for the storage and retail sale of petroleum products or other liquid organic chemical substances. (EPA Licence)</p> <p>In this class of development / activity:</p> <p><b>petroleum product</b> has the same meaning as in the <i>Petroleum Products Regulation Act 1995</i>.</p>			
	<p>Timber preservation works</p>	<p>The conduct of works for the preservation of timber by chemicals, but excluding the preservation by a primary producer of timber for use in the course of primary production carried on by the producer. (EPA Licence)</p>			
<p>Manufacturing and mineral processing</p>	<p>Abrasive blasting</p>	<p>The cleaning of materials by the abrasive action of any metal shot or mineral particulate propelled in a gaseous or liquid medium (otherwise than solely by using blast cleaning cabinets less than 5m<sup>3</sup> in volume or totally enclosed automatic blast cleaning units). (EPA Licence)</p>			
	<p>Hot mix asphalt preparation</p>	<p>The conduct of works at which crushed or ground rock aggregates are mixed with bituminous or asphaltic materials (by heating in a furnace, kiln or other fuel fired plant) for the purposes of producing road building mixtures. (EPA Licence)</p>			
	<p>Cement works</p>	<p>The conduct of works for the use of <i>argillaceous</i> and <i>calcareous</i> materials in the production of cement clinker or the grinding of cement clinker. (EPA Licence)</p> <p>In this class of development / activity:</p> <p><b>argillaceous</b> means having to do with or resembling clay</p> <p><b>calcareous</b> means having to do with calcium carbonate</p>			
	<p>Ceramic works</p>	<p>The conduct of works for the production of any products such as bricks, tiles, pipes, pottery goods,</p>			

refractories, or glass that are manufactured or are capable of being manufactured in furnaces or kilns fired by any fuel, being works with a total capacity for the production of such products exceeding 100 tonnes per year. (EPA Licence)

Concrete batching works	The conduct of works for the production of concrete or concrete products that are manufactured or are capable of being manufactured by the mixing of cement, sand, rock, aggregate or other similar materials, being works with a total capacity for production of such products exceeding 0.5m <sup>3</sup> per production cycle. (EPA Licence)
Drum reconditioning or treatment works	The conduct of works for the cleaning, repairing, reconditioning or other treatment of metal or plastic drums or containers for the purposes of their reuse, including any associated storage facility. (EPA Licence)
Ferrous and non-ferrous metal melting	The melting of ferrous or non-ferrous metal in a furnace or furnaces that alone or in aggregate have the capacity to melt: <ul style="list-style-type: none"> <li>(a) in excess of 50 but not in excess of 500 kilograms of metal during the normal cycle of operation but excluding facilities more than 500m from residential premises not associated with the works</li> <li>or</li> <li>(b) in excess of 500 kilograms of metal during the normal cycle of operation. (EPA Licence)</li> </ul>
Metallurgical works	The conduct of works at which ores are smelted or reduced to produce metal. (EPA Licence)
Mineral works	The conduct of works for processing mineral ores, sands or earths to produce mineral concentrates. (EPA Licence)
Pulp or paper works	The conduct of works at which paper pulp or paper is manufactured or is capable of being manufactured, being works with a total capacity for production of such products exceeding 10 tonnes per year. (EPA Licence required at production exceeding 100 tonnes per year)

Surface coating

The conduct of:

- (a) works for metal finishing, in which metal surfaces are prepared or finished by means of electroplating, electrolyse plating, anodising (chromating, phosphating and colouring), chemical etching or milling, or printed circuit board manufacture, being works producing more than 5 kilolitres per day of effluent or
- (b) works for hot dip galvanising or
- (c) works for spray painting or powder coating with a capacity to use more than 100 litres per day of paint or 10kg per day of dry powder. (EPA Licence)

	<p>Timber processing works</p>	<p>The conduct of works (other than works at a builders supply yard or a home improvement centre) at which timber is sawn, cut, chipped, compressed, milled or machined, being works with a total processing capacity exceeding 4,000m<sup>3</sup> per year. (EPA Licence)</p>			
	<p>Maritime construction works</p>	<p>The conduct of works for the construction or repair of ships, vessels or floating platforms or structures, being works with the capacity to construct or repair ships, vessels or floating platforms or structures of a mass exceeding 80 tonnes. (EPA Licence)</p>			
	<p>Vehicle production</p>	<p>The conduct of works for the production of motor vehicles, being works with a production capacity exceeding 2,000 motor vehicles per year. (EPA Licence)</p>			
	<p>Fibre-reinforced plastic manufacturing</p>	<p>The conduct of facilities for the purposes of manufacturing fibre-reinforced plastic products, but excluding facilities more than 300m from residential premises not associated with the facility.</p>			
<p>Resource recovery, waste disposal and related activities</p>	<p>Waste recovery (<i>excluding a prescribed approved activity</i>)</p>	<p>The conduct of a <i>waste recovery facility</i>, being a depot, works or facility (including, but not limited to, a transfer station or material recovery facility) that, during a 12 month period, receives for <i>preliminary treatment</i>, or has the capacity for the <i>preliminary treatment</i> of:</p> <ul style="list-style-type: none"> <li>(a) more than 100 tonnes of solid waste or matter or</li> <li>(b) more than 100 kilolitres of liquid waste or matter</li> </ul> <p>prior to its transfer elsewhere for lawful reuse, further treatment or disposal but excluding a prescribed approved activity or an activity in respect of which the Environment Protection Authority is satisfied, having regard to prescribed factors, that a referral is not necessary and</p>			

that a referral is not necessary and has provided written confirmation of this to the relevant authority. (EPA Licence)

In this class of development / activity:

**preliminary treatment** of waste or matter, includes sorting, aggregating, compacting, baling or packaging the waste or matter as defined in Schedule 1 of the *Environment Protection Act 1993*.

Waste reprocessing ( <i>excluding a prescribed approved activity</i> )	
Composting works	<p>Being a depot, facility or works with the capacity to treat, during a 12 month period:</p> <ul style="list-style-type: none"> <li>(a) in the case of works located wholly or partly within a water protection area - more than 200 tonnes of organic waste or matter</li> <li>or</li> <li>(b) in the case of works located wholly outside of a water protection area - more than 1,000 tonnes of organic waste or matter</li> </ul> <p>for the production of compost, but excluding an activity in respect of which the Environment Protection Authority is satisfied, having regard to the prescribed factors, that a referral is not necessary and has provided written confirmation of this to the relevant authority. (EPA Licence)</p>
Scrap metal treatment works	<p>Being a depot, facility or works for the treatment of scrap metal (by processes involving electrically heated furnaces or other fuel burning equipment or by mechanical processes), but excluding an activity in respect of which the Environment Protection Authority is satisfied, having regard to the prescribed factors, that a referral is not necessary and has provided written confirmation of this to the relevant authority. (EPA Licence)</p>
Tyre waste treatment works	<p>Being a depot, facility or works with the capacity to treat more than 5 tonnes of tyre waste during a 12 month period, but excluding an activity in respect of which the Environment Protection Authority is satisfied, having regard to the prescribed factors, that a referral is not necessary and has provided written confirmation of this to the relevant authority. (EPA Licence)</p> <p>In this class of development / activity:</p>

**tyre waste** means waste comprised of tyres or tyre pieces as defined in Schedule 1 of the *Environment Protection Act 1993*.

<p>Waste lead acid battery treatment works</p>	<p>Being a depot, facility or works with the capacity to treat more than 500 waste lead acid batteries during a 12 month period, but excluding an activity in respect of which the Environment Protection Authority is satisfied, having regard to the prescribed factors, that a referral is not necessary and has provided written confirmation of this to the relevant authority. (EPA Licence)</p>
<p>Other waste reprocessing facility</p>	<p>Being a depot, works or facility (other than a waste processing facility specified above) that, during a 12 month period, receives or has the capacity to treat:</p> <ul style="list-style-type: none"> <li>(a) more than 100 tonnes of solid waste or matter or</li> <li>(b) more than 100 kilolitres of liquid waste or matter</li> </ul> <p>for the production of energy or materials that are ready for use (without requiring further treatment), but excluding an activity in respect of which the Environment Protection Authority is satisfied, having regard to the prescribed factors, that a referral is not necessary and has provided written confirmation of this to the relevant authority. (EPA Licence)</p>
<p>Waste disposal (<i>excluding a prescribed approved activity</i>)</p>	
<p>Landfill depot</p>	<p>Being a depot, facility or works for the disposal of waste to land, but excluding an activity in respect of which the Environment Protection Authority is satisfied, having regard to the prescribed factors, that a referral is not necessary and has provided written confirmation of this to the relevant authority. (EPA Licence)</p>
<p>Liquid waste depot</p>	<p>Being a depot, facility or works for the reception and disposal of liquid waste, or the reception, treatment and disposal of liquid waste, but excluding an activity in respect of which the Environment Protection Authority is satisfied, having regard to the prescribed factors, that a</p>

to the prescribed factors, that a referral is not necessary and has provided written confirmation of this to the relevant authority. (EPA Licence)

<p>Incineration depot</p>	<p>Being a depot, facility or works for the disposal, by incineration, pyrolysis or gasification by high temperature chemical decomposition, or thermal oxidation using fuel burning equipment, of solid waste, a listed waste or quarantine waste, but excluding:</p> <ul style="list-style-type: none"> <li>(a) facilities with a processing capacity not exceeding 100 kilograms per hour and more than 500m from residential premises not associated with the facility or</li> <li>(b) an activity in respect of which the Environment Protection Authority is satisfied, having regard to the prescribed factors, that a referral is not necessary and has provided written confirmation of this to the relevant authority.</li> </ul>
<p>Wastewater treatment</p>	
<p>Wastewater treatment works</p>	<p>Being sewage treatment works, a CWMS, winery wastewater treatment works or any other wastewater treatment works with the capacity to treat, during a 12 month period:</p> <ul style="list-style-type: none"> <li>(a) in the case of works located wholly or partly within a water protection area - more than 2.5 ML of wastewater (EPA Licence required at more than 5 ML)</li> <li>or</li> <li>(b) in the case of works located wholly outside of a water protection area - more than 12.5 ML of wastewater (EPA Licence required at more than 50 ML)</li> </ul> <p>but excluding an activity in respect of which the Environment Protection Authority is satisfied, having regard to the prescribed factors, that a referral is not necessary and has provided written confirmation of this to the relevant authority.</p>
<p>Activities involving listed wastes</p>	
<p>Activity producing</p>	<p>The conduct of an activity in which a</p>

## listed waste

*listed waste* is produced as waste or becomes waste, but excluding any of the following:

- (a) a domestic activity
- (b) retail pharmacy
- (c) medical practice (other than the practice of pathology)
- (d) nursing practice
- (e) dental practice
- (f) veterinary practice
- (g) the conduct of a nursing home or other residential aged care facility
- (h) the conduct of an immunisation clinic
- (i) the conduct of a hospital with capacity of fewer than 40 beds
- (j) a *prescribed industrial activity*
- (k) an activity in which the waste produced is lawfully disposed of to a sewer
- (l) an activity in respect of which the Environment Protection Authority is satisfied, having regard to the prescribed factors, that a referral is not necessary and has provided written confirmation of this to the relevant authority.  
(EPA Licence)

In this class of development / activity:

***prescribed industrial activity*** - means any of the following:

- (a) building work
- (b) carpentry or joinery
- (c) film processing
- (d) plumbing or gas fitting
- (e) dry cleaning
- (f) primary or secondary school education
- (g) agriculture or horticulture
- (h) french polishing
- (i) manufacturing jewellery
- (j) painting or decorating
- (k) panel beating and associated spray painting
- (l) an activity that results in the production of less than 50 000 litres of waste oil per year
- (m) an activity authorised by a lease or licence under the

		<p><i>Mining Act 1971, the Petroleum and Geothermal Energy Act 2000 or the Roxby Downs (Indenture Ratification) Act 1982</i> where the waste is lawfully disposed of to land and contained within the area of the lease or licence</p> <p>(n) an activity authorised by a lease under the <i>Mining Act 1971</i> where the waste is lawfully disposed of to land and contained within the area of a miscellaneous purposes licence under that Act adjacent to the area of the lease.</p>			
	<p>Reception or storage of listed waste</p>	<p>The conduct of a depot, facility or works for the reception or storage of a <i>listed waste</i>, but excluding the following:</p> <ul style="list-style-type: none"> <li>(a) the temporary on-site storage of such waste while awaiting transport to another place</li> <li>(b) an activity consisting only of storing or distributing goods, in respect of which the Environment Protection Authority is satisfied, having regard to prescribed factors, that a referral is not necessary and has provided written confirmation of this to the relevant authority</li> <li>(c) the reception or storage by a council or hospital of medical waste produced in the course of a <i>prescribed medical activity</i></li> <li>(d) the reception or storage by a retail pharmacy of <i>personal sharps waste, pharmaceutical waste</i> or other medical waste, in connection with a return system for such waste. (EPA Licence)</li> </ul> <p>In this class of development / activity:</p> <p><b>personal sharps waste</b> means medical sharps that have been used in a domestic situation for medical purposes</p> <p><b>pharmaceutical waste</b> means waste comprised of medicines or other pharmaceutical products</p>			

***prescribed medical activity*** - means  
any of the following:

- (a) a medical practice other than:
  - (i) medical practice at a hospital  
or
  - (ii) the practice of pathology
- (b) nursing practice other than at a hospital
- (c) dental practice other than at a hospital
- (d) operating a nursing home
- (e) veterinary practice
- (f) operating a hospital with a capacity of less than 40 beds
- (g) operating an immunisation clinic.

	<p>Treatment of listed waste</p>	<p>The conduct of a depot, facility or works for the treatment of a <i>listed waste</i>, or <i>wastewater</i> containing a listed waste, by immobilising, stabilising or sterilising the waste by any process (before its further treatment or disposal), but excluding an activity in respect of which the Environment Protection Authority is satisfied, having regard to the prescribed factors that a referral is not necessary and has provided written confirmation of this to the relevant authority. (EPA Licence)</p>			
<p>Activities in specified areas</p>	<p>Brukungu Mine Site</p>	<p>The management of the abandoned Brukungu mine site and associated acid neutralisation plant situated adjacent to Dawesley Creek in the Mount Lofty Ranges. (EPA Licence)</p>			
	<p>Discharge of stormwater to underground aquifer</p>	<p>Discharge of stormwater from a catchment area exceeding 1 hectare to an underground aquifer by way of a well or other direct means where the stormwater drains to the aquifer from:</p> <ul style="list-style-type: none"> <li>(a) land or premises on which a business is carried on in the council area of the City of Mount Gambier or</li> <li>(b) a stormwater drainage system in the council area of the City of Mount Gambier or</li> <li>(c) a stormwater drainage system in Metropolitan Adelaide. (EPA Licence)</li> </ul>			
<p>Animal husbandry, aquaculture and other activities</p>	<p>Feedlots</p>	<p>Carrying on an operation for holding in a confined yard or area and feeding principally by mechanical means or by hand:</p> <ul style="list-style-type: none"> <li>(a) not less than an average of 500 cattle (EPA Licence), or 4,000 sheep or goats per day over any period of 12 months or</li> <li>(b) where the yard or area is situated in a water protection area - not less than an average of 200 cattle (EPA Licence), or 1.600 sheep or goats per</li> </ul>			

1,000 sheep or goats per  
day over any period of 12  
months

but excluding any such operation  
carried on at an abattoir,  
slaughterhouse or saleyard or for the  
purpose only of drought or other  
emergency feeding.

<p>Aquaculture or Fish Farming</p>	<p>The land based propagation or rearing of marine, estuarine or fresh water fish or other marine or freshwater organisms that involves the discharge of wastewater into marine or inland waters, or onto land but excluding where wastewater is discharged to an approved wastewater management system.</p>
<p>Saleyards</p>	<p>The commercial conduct of yards at which cattle, sheep or other animals are gathered or confined for the purpose of their sale, auction or exchange, including associated transport loading facilities, being yards with a throughput exceeding 50,000 sheep equivalent units per year [sheep equivalent units: 1 sheep or goat = 1 unit, 1 pig (&lt; 40kg) = 1 unit, 1 pig (&gt; 40kg) = 4 units, 1 cattle (&lt; 40kg) = 3 units, 1 cattle (40-400kg) = 6 units, 1 cattle (&gt; 400kg) = 8 units]. (EPA Licence)</p>
<p>Piggeries</p>	<p>The conduct of a piggery (being premises having confined or roofed structures for keeping pigs) with a capacity of:</p> <ul style="list-style-type: none"> <li>(a) in the case of a piggery located wholly outside of a water protection area - 1,300 or more <i>standard pig units</i> (EPA Licence required at 6500 or more standard pig units)</li> <li>or</li> <li>(b) in the case of a piggery located wholly or partly within a <i>water protection area</i> - 130 or more <i>standard pig units</i>. (EPA Licence required at 650 or more standard pig units)</li> </ul> <p>In this class of development / activity:</p> <p><b>standard pig units</b> is a unit of measurement of pigs determined:</p> <ul style="list-style-type: none"> <li>(a) by reference to clause 4.3 of the <i>National Environmental Guidelines for Piggeries 2010</i> (second edition (revised)) prepared by Australian Pork Limited</li> <li>or</li> <li>(b) in a manner approved by the</li> </ul>

... as determined by the Environment Protection Authority and published on a website determined by the Environment Protection Authority.

	<p>Poultry farms</p>	<p>The keeping of poultry in confined or roofed structure(s) exceeding 1,000m<sup>2</sup>.</p>			
<p>Food production and animal and plant product processing</p>	<p>Meat processing works</p>	<p>The conduct of slaughtering works for commercial purposes for the production of meat or meat products for human or animal consumption, being:</p> <ul style="list-style-type: none"> <li>(a) in the case of poultry or poultry meat products - works with a rate of production exceeding 100 tonnes per year (EPA Licence required at rate of production exceeding 200 tonnes per year) or</li> <li>(b) in the case of any other animal meat or animal meat products - works with a rate of production exceeding 50 tonnes per year. (EPA Licence required at rate of production exceeding 100 tonnes per year)</li> </ul>			
	<p>Breweries and cideries</p>	<p>The conduct of works for the production of beer (EPA Licence only for beer production), cider or any other alcoholic beverage (excluding wine and spirits) by infusion, boiling or fermentation, being works with a production capacity exceeding 5,000 litres per day.</p>			
	<p>Fish processing</p>	<p>The conduct of works for scaling, gilling, gutting, filleting or otherwise <i>processing fish</i> for sale, but excluding:</p> <ul style="list-style-type: none"> <li>(a) works with a processing output of less than 100 tonnes per year where wastewater is disposed of to a sewer or CWMS (EPA Licence) or</li> <li>(b) works with a processing output of less than 2 tonnes per year where wastewater is disposed of otherwise than to a sewer or CWMS</li> </ul>			

...  
(EPA Licence)  
or

- (c) processing of *fish* only in the course of a business of selling *fish* by retail. (EPA Licence)

In this class of development / activity:

***fish*** has the same meaning as in the *Fisheries Management Act 2007*

***processing fish*** does not include freezing, chilling or packing the fish.

<p>Milk processing works</p>	<p>The conduct of works at which milk is separated, evaporated or otherwise processed for the manufacture of evaporated or condensed milk, cheese, butter, ice cream or other similar dairy products, being works at which milk is processed at a rate exceeding 5ML per year. (EPA Licence)</p>
<p>Produce processing works</p>	<p>The conduct of works for processing any agricultural crop material being:</p> <ul style="list-style-type: none"> <li>(a) works for the processing of agricultural crop material by deep fat frying, roasting or drying through the application of heat with a processing capacity exceeding 30kg per hour (EPA Licence)</li> <li>or</li> <li>(b) works at which more than 10ML of wastewater is generated per year and disposed of otherwise than to a sewer or CWMS. (EPA Licence)</li> </ul>
<p>Rendering and fat extraction works</p>	<p>The conduct of works at which animal, fish or grease trap wastes or other matter is processed or is capable of being processed by rendering or extraction or by some other means to produce tallow or fat or their derivatives or proteinaceous matter, being works with a total processing capacity exceeding 25 kg per hour. (EPA Licence required at processing capacity exceeding 250 kilograms per hour)</p>
<p>Curing or drying works</p>	<p>The conduct of works at which meat, fish or other edible products are smoked, dried or cured by the application of heat or smoke:</p> <ul style="list-style-type: none"> <li>(a) with a total processing capacity of between 25kg and 250kg per hour but excluding works that are more than 200m from residential premises not associated with the works or</li> <li>(b) with a total processing capacity exceeding 250kg per hour. (EPA Licence)</li> </ul>

Tanneries or  
fellmongeries

The conduct of works for the commercial preservation or treatment of animal skins or hides being works processing more than 5 tonnes of skins or hides per year, but excluding:

- (a) the processing of skins or hides by primary producers in the course of primary production activities outside township areas  
or
- (b) the processing of skins or hides in the course of taxidermy.  
(EPA Licence)

	<p>Woolscouring or wool carbonising works</p>	<p>The conduct of works for the commercial cleaning or carbonising of wool, but excluding cleaning or carbonising of wool in the course of handicraft activities where the wool is further processed for sale by retail. (EPA Licence)</p>			
	<p>Wineries or Distilleries</p>	<p>The conduct of works for the processing of grapes or other produce to make wine or spirits, being works at which more than 50 tonnes of grapes or other produce are processed per year, but excluding works for bottling only. (EPA Licence required for wineries or distilleries processing more than 50 tonnes of grapes or other produce per year in the Mt Lofty Ranges Water Protection Area or processing more than 500 tonnes of grapes or other produce per year outside of the Mt Lofty Ranges Water Protection Area)</p>			
<p>Materials handling and transportation</p>	<p>Bulk shipping facilities</p>	<p>The conduct of facilities for bulk handling of agricultural crop products, rock, ores, minerals, petroleum products or chemicals to or from any wharf or wharf side facility (including sea-port grain terminals), being facilities handling or capable of handling these materials into or from vessels at a rate:</p> <ul style="list-style-type: none"> <li>(a) of between 10 tonnes and 100 tonnes per day, excluding facilities that are more than 300m from residential premises not associated with the facility or</li> <li>(b) exceeding 100 tonnes per day. (EPA Licence)</li> </ul>			
	<p>Bulk storage</p>	<p>The conduct of facilities for bulk handling of agricultural crop products, rock, ores, minerals, petroleum products or chemicals to or from any commercial storage facility at a rate exceeding 100 tonnes per day, excluding facilities more than 300m from residential premises not associated with the facility.</p>			
	<p>Railway operations</p>	<p>The conduct of any of the following</p>			

activities associated with a *railway*:

- (a) the construction or operation of *rail infrastructure*
- (b) the operation of *rolling stock* on a *railway*
- (c) other activities conducted on *railway land* (EPA Licence required for the above activities but not the following exclusions)

but excluding:

- (d) any activities associated with any of the following:
  - (i) a *railway* with a track gauge that is less than 600mm
  - (ii) a *railway* in a mine which is underground or predominantly underground and used in connection with the performance of mining operations
  - (iii) a slipway
  - (iv) a crane-type runway
  - (v) a *railway* used solely for the purposes of horse-drawn trams
  - (vi) a *railway* used solely for the purposes of static displays
  - (vii) a *railway* at an amusement park used solely for the purposes of an amusement structure
  - (viii) the transfer of freight into or onto, and unloading of freight from, *rolling stock*
  - (ix) an activity in respect of which the Environment Protection Authority is satisfied, having regard to the prescribed factors, that a referral is not necessary and has provided written confirmation of this to the relevant authority.

In this class of development / activity:

**rail infrastructure** means infrastructure associated with the operation of a railway and includes (but is not limited to) railway track, associated track structures, over or under track structures, supports, tunnels, bridges, stations, platforms, train control systems, signalling systems, communication systems, electric traction infrastructure and buildings, but does not include any workshop or repair facility

**railway** means a guided system designed for the movement of rolling stock which has the capability of transporting passengers, freight or both on a railway track, together with its infrastructure and associated sidings or crossing, or passing loops, and includes a railway in a marshalling yard or a passenger or freight terminal

**railway land** means any of the following:

- (a) land within a rail corridor or rail reserve, including any associated sidings
- (b) railway yards
- (c) other land over which a railway track passes

**rolling stock** means a vehicle (whether or not self-propelled) that operates on or uses a railway track, but does not include a vehicle designed to operate both on and off a railway track when the vehicle is not operating on a railway track

Examples of rolling stock - A locomotive, carriage, rail car, rail motor, light rail vehicle, train, tram, light inspection vehicle, road/rail vehicle, trolley, wagon.

<p>Crushing, grinding or milling</p>	<p>Processing (by crushing, grinding, milling or separating into different sizes by sieving, air elutriation or in any other manner) of any of the following:</p> <ul style="list-style-type: none"> <li>(a) chemicals or rubber at a rate:                             <ul style="list-style-type: none"> <li>(i) of between 1 tonne and 100 tonnes per year, excluding facilities that are more than 500m from residential premises not associated with the facility</li> <li>or</li> <li>(ii) in excess of 100 tonnes per year (EPA Licence)</li> </ul> </li> <li>(b) agricultural crop products at a rate:                             <ul style="list-style-type: none"> <li>(i) of between 50 tonnes and 500 tonnes per year, excluding facilities that are more than 300m from residential premises not associated with the facility</li> <li>or</li> <li>(ii) in excess of 500 tonnes per year (EPA Licence)</li> </ul> <p>but excluding non-commercial processing for on farm use</p> </li> <li>(c) rock, ores or minerals at a rate:                             <ul style="list-style-type: none"> <li>(i) of between 100 tonnes and 1,000 tonnes per year, excluding facilities that are more than 500m from residential premises not associated with the facility</li> <li>or</li> <li>(ii) in excess of 1,000 tonnes per year (EPA Licence)</li> </ul> <p>but excluding processing of wet sand.</p> </li> </ul>			
<p>Dredaina</p>	<p>The conduct of capital dredaina</p>			<p>3566</p>

being the excavation of more than 10m<sup>3</sup> of material from the bed of any marine or inland waters by any digging, cutting, suction or any other means and any associated disposal of dredged material to land or waters (EPA Licence), but excluding any of the following:

- (a) *maintenance dredging*
- (b) works associated with the establishment of a visual aid
- (c) any lawful fishing or recreational activity

In this class of development / activity:

**marine waters** has the same meaning as in Section 3 of *Environment Protection Act 1993*.

**maintenance dredging** means the excavation of material from the bed of any marine or inland waters by any digging, cutting, suction or any other means for the purpose of maintaining a previously dredged (approved) depth, width and area in marine or inland waters.

	<p>Coal handling and storage</p>	<p>The handling of coal or carbonaceous material by any means or the storage of coal, coke or carbonaceous reject material at facilities with a total handling capacity exceeding 100 tonnes per day or a storage capacity exceeding 5,000 tonnes. (EPA Licence)</p>			
	<p>Extractive industries</p>	<p>The conduct of operations involving extraction, or extraction and processing (by crushing, grinding, milling or separating into different sizes by sieving, air elutriation or any other manner), of sand, gravel, stone, shell, shale, clay or soil, being operations with an extraction production rate exceeding 100,000 tonnes per year. (EPA Licence)</p>			
<p>Other</p>	<p>Aerodromes</p>	<p>The conduct of facilities for commercial or charter aircraft take-off and landing, being facilities estimated to be used for:</p> <ul style="list-style-type: none"> <li>(a) more than 200 flight movements per year, excluding facilities more than 3km from residential premises not associated with the facilities</li> <li>or</li> <li>(b) more than 2000 flight movements per year in any case. (EPA Licence for aerodromes used for more than 20000 flight movements per year)</li> </ul>			
	<p>Fuel burning</p>	<p>The conduct of works or facilities involving the use of fuel burning equipment, including flaring (other than flaring at hydrocarbon storage or production works that do not have a total storage capacity or total production rate exceeding the levels respectively specified in 'Hydrocarbon storage or production works' above) or incineration, where the equipment alone or in aggregate is capable of burning combustible matter:</p> <ul style="list-style-type: none"> <li>(a) a rate of heat release exceeding 5MW (EPA Licence)</li> <li>or</li> <li>(b) at a rate of heat release</li> </ul>			

exceeding 500KW and the products of combustion are used:

- (i) to stove enamel (EPA Licence)  
or
- (ii) to bake or dry any substance that on heating releases dust or air impurities. (EPA Licence)

<p>Helicopter landing facilities</p>	<p>The conduct of facilities designed for the arrival and departure of helicopters, but excluding:</p> <ul style="list-style-type: none"> <li>(a) facilities that are more than 3km from residential premises not associated with the facilities (EPA Licence required for helicopter landing facilities situated within 1km of residential premises not associated with the facilities)</li> <li>or</li> <li>(b) facilities at the site of an activity authorised under the <i>Mining Act 1971</i>, the <i>Petroleum and Geothermal Energy Act 2000</i>, the <i>Petroleum (Submerged Lands) Act 1982</i> or the <i>Roxby Downs (Indenture Ratification) Act 1982</i>.</li> </ul>
<p>Marinas and boating facilities</p>	<p>The conduct of facilities comprising pontoons, jetties, piers or other structures (whether on water or land) designed or used to provide moorings or dry storage for:</p> <ul style="list-style-type: none"> <li>(a) 50 or more powered vessels at any 1 time</li> <li>or</li> <li>(b) works for the repair or maintenance of vessels with the capacity to handle 5 or more vessels at any one time or vessels 12m or more in length. (EPA Licence)</li> </ul>
<p>Motor racing or testing venues</p>	<p>The conduct of facilities designed and used for motor vehicle competitions or motor vehicle speed or performance trials, but excluding facilities that are situated more than 3km from residential premises not associated with the facilities. (EPA Licence required for facilities that are situated 200 metres or less from residential premises not associated with the facilities)</p>
<p>Shooting ranges</p>	<p>The conduct of facilities for shooting competitions, practice or instruction (being shooting involving the propulsion of projectiles by means of explosion), but excluding facilities that are more than 3km from residential premises not associated</p>

residential premises not associated with the facilities. (EPA Licence required for outdoor facilities only that are situated 200 metres or less from residential premises not associated with the facilities)

<p>Desalination plants</p>	<p>The conduct of a desalination plant.</p> <p>In this class of development / activity:</p> <p><b>desalination plant</b> means a plant for the production of desalinated water that has a production capacity exceeding 200 kilolitres of desalinated water per day, and includes:</p> <ul style="list-style-type: none"> <li>(a) an <i>underground desalination plant</i></li> <li>(b) a number of <i>underground desalination plants</i> within any 1 square kilometre area that, in aggregate, have a production capacity exceeding 200 kilolitres of desalinated water per day</li> </ul> <p>but does not include:</p> <ul style="list-style-type: none"> <li>(c) a plant that disposes of all of its wastewater to a wastewater management system that is the subject of a licence or</li> <li>(d) a plant that produces 2 megalitres or less of wastewater per year (EPA Licence)</li> </ul> <p><b>underground desalination plant</b> means a plant having a system comprised of a borehole, submersible pump and associated equipment for the desalination below the ground of underground water;</p> <p><b>underground water</b> means water occurring naturally under the ground or introduced to an aquifer or other area under the ground.</p>
----------------------------	---

<p>Discharges to marine or inland waters</p>	<p>The conduct of operations (other than a desalination plant referred to above) involving discharges into marine waters or inland waters where:</p> <ul style="list-style-type: none"> <li>(a) the discharges:             <ul style="list-style-type: none"> <li>(i) raise the temperature of the receiving waters by more than 2 degrees Celsius at any time at a distance of 10m or more from the point</li> </ul> </li> </ul>
--	--

- of discharge  
or
- (ii) contain antibiotic or  
chemical water  
treatments
  
- and
- (b) the total volume of the  
discharges exceeds 50kl per  
day. (EPA Licence)

<p>Saline water discharge</p>	<p>An activity involving the discharge to land, surface water or underground water of more than 0.5ML of water per day containing more than 1500mg of total dissolved solids per litre.</p>			
<p>Cremation or incineration of human or animal remains</p>	<p>The conduct of a facility for the cremation or incineration of <i>human or animal remains</i> by means of thermal oxidation using fuel burning equipment. (EPA Licence)</p> <p>In this class of development / activity:</p> <p><b>human or animal remains</b> does not include any of the following:</p> <ul style="list-style-type: none"> <li>(a) medical waste</li> <li>(b) cytotoxic wastes</li> <li>(c) quarantine waste</li> </ul> <p><b>Cytotoxic wastes</b> means waste that is toxic to living things.</p>			
<p>Land Division</p>	<p>Land division creating 1 or more additional allotments for residential purposes wWaste recoveryithin 500 metres of land used as a landfill waste depot.</p>	<p>Section 57 of <i>Environment Protection Act 1993</i> sets out criteria to be considered by the EPA in relation to the assessment of development applications. This head power also links to other statutory criteria in the <i>Environment Protection (Air Quality) Policy 2016</i>, <i>Environment Protection (Noise) Policy 2007</i>, <i>Environment Protection (Waste to Resources) Policy 2010</i> and the <i>Environment Protection (Water Quality) Policy 2015</i>.</p>	<p>To provide expert technical assessment and advice to the relevant authority on the appropriateness of further residential opportunities being established within close proximity to landfill waste depots, due to potential health and safety impacts.</p>	<p>Development of a class to which Schedule 9 clause 3 item 23 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>

**Part 9.2 Referral Body: Relevant authority under the Landscape South Australia Act 2019.**

**Referral Body: Relevant authority under the *Landscape South Australia Act 2019* that would, if it were not for the operation of section 106(1)(e) of that Act, have the authority under that Act to grant or refuse a permit to undertake the subject development.**

Class of Development / Activity	Purpose of Referral	Statutory Reference
<p>Dams</p> <p>Except where located within the River Murray Flood Plain Protection Area Overlay, River Murray Tributaries Protection Area, Prescribed Surface Water Overlay, Prescribed Watercourse Overlay, Prescribed Water Resources Area Overlay, Mount Lofty Ranges Catchment (Area 1) Overlay or the Mount Lofty Ranges Catchment (Area 2) Overlay, development comprising the erection, construction, modification, enlargement or removal of a dam, wall or other structure that:</p> <p>(a) will collect or divert, or collects or diverts water flowing:</p> <p>(i) over land or</p> <p>(ii) in a watercourse that is not prescribed</p> <p>and</p> <p>(b) is contrary to a regional landscape plan applying in the region of the development site.</p>	<p>To provide expert assessment and direction to the relevant authority on potential impacts from development on the health, sustainability and/or natural flow paths of water resources in accordance with the provisions of the relevant water allocation plan or regional landscape plan or equivalent.</p>	<p>Development of a class to which Schedule 9 clause 3 item 12 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>
<p>Commercial Forestry</p> <p>Development that involves a change in use of land for the purposes of undertaking commercial forestry for which a permit would be required under section 104(4)(k) of the <i>Landscape South Australia Act 2019</i>.</p>	<p>To provide expert assessment and direction to the relevant authority on potential impacts from such development on water resources.</p>	<p>Development of a class to which Schedule 9 clause 3 item 12 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>

### Part 9.3 Referral Body: Technical Regulator

#### Referral Body: Technical Regulator

Class of Development / Activity		Purpose of Referral	Statutory Reference
Building near powerlines	<p>Development that involves the construction of a building where a declaration has not been given under Schedule 8 clause 6 of the <i>Planning, Development and Infrastructure (General) Regulations 2017</i>, other than where the development is a building that is intended only to house, or that constitutes, electricity infrastructure (within the meaning of the <i>Electricity Act 1996</i>) or is limited to:</p> <p>(a) an internal alteration of a building or</p> <p>(b) an alteration to the walls of a building but not so as to alter the shape of the building.</p>	<p>To provide expert technical assessment and direction to the relevant authority on:</p> <ul style="list-style-type: none"> <li>potential impacts of development on electricity infrastructure</li> <li>potential safety issues relating to development in close proximity to electricity infrastructure.</li> </ul>	Development of a class to which Schedule 9 clause 3 item 18 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

## Part 9.4 Referral Body: Minister responsible for the administration of the Aquaculture Act 2001

### Referral Body: Minister responsible for the administration of the *Aquaculture Act 2001*

Class of Development / Activity		Purpose of Referral	Statutory Reference
Aquaculture development	Aquaculture development, other than development which involves an alteration to an existing or approved development which in the opinion of the relevant authority is minor in nature.	To provide expert technical assessment and direction to the relevant authority on matters which may impact upon the associated aquaculture leases and/or licences, and any other existing aquaculture leases and/or licences within the region, and aquaculture zone policies under the <i>Aquaculture Act 2001</i> .	Development of a class to which Schedule 9 clause 3 item 19 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

## Part 10 - Significant Trees

### Notes: Declared Trees

Pursuant to Section 68 of the *Planning, Development and Infrastructure Act 2016*, no trees or stand of trees have been declared as significant by the Planning and Design Code.

## Part 11 - Local Heritage Places

### Clare and Gilbert Valleys

Property Address	Description and/or Extent of Listed Place	Section 67(1) Criteria	Heritage NR
Blyth Road ARMAGH	Norfolk house		14519
