

Torrens to Darlington

Ground Investigation Works

The Torrens to Darlington (T2D) Project is the final 10.5 km section of South Australia's world-class multi-billion dollar North-South Corridor. In the coming weeks the Department for Transport and Infrastructure will be undertaking ground investigations in your area. These investigations are a key part of the early works we are undertaking for the next stage of the T2D Project and will help us to develop a comprehensive picture of the underlying soil and ground water conditions along the South Road corridor.

Location and timing

We will be carrying out investigations at Nottingham Crescent, Glandore.

Investigations works are expected to commence from **Monday 19 July** for approximately **14 business days** and will be carried out between **7am** and **5pm**.

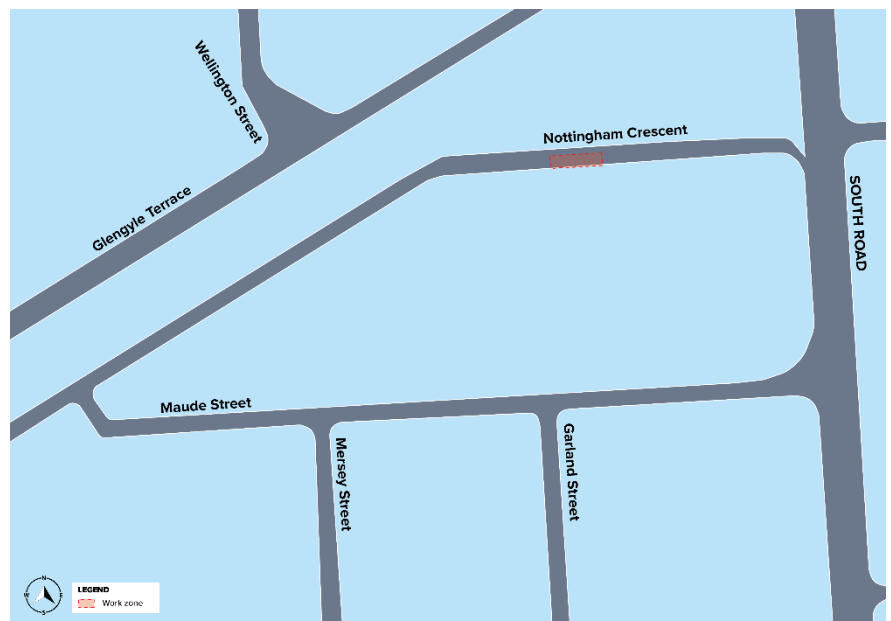

In the event that these works need to be rescheduled due to weather conditions or other circumstances outside of our control, we will advise you as soon as we have details.

Traffic restrictions

- **Nottingham Crescent** will be subject to temporary traffic and speed restrictions in the vicinity of the works.
- Signage will be in place to alert road users to the changes in traffic conditions. Road users are advised to take care when travelling through the area.
- Driveway access at locations adjacent to the works will be maintained for the duration.

What to expect

During works you may notice additional ground and traffic management personnel and equipment within the area. Some disturbances can be expected such as noise, dust and vibration.

Keeping you informed

If you have any questions or concerns and would like to speak to a member of our project team, please don't hesitate to contact us on 1300 951 145 or northsouthcorridor@sa.gov.au
