

Torrens to Darlington

Ground Investigation Works

The Torrens to Darlington (T2D) Project is the final 10.5 km section of South Australia's world-class multi-billion dollar North-South Corridor. In the coming weeks the Department for Transport and Infrastructure will be undertaking ground investigations in your area as part of the early works for the next stage of the Project. This will help us to develop a comprehensive picture of the underlying soil and ground water conditions along the South Road corridor.

Location and timing

We will be carrying out investigations at Celtic Avenue, Clovelly Park.

Investigations works are expected to commence from **7 September** for approximately **two days** and will be carried out between **7am** and **5pm**.

In the event that these works need to be rescheduled due to weather conditions or other circumstances outside of our control, we will advise you as soon as we have details.

Traffic restrictions

- **Celtic Avenue** will be closed **eastbound** at the corner of **York Avenue**.
- Temporary traffic and speed restrictions will apply in the vicinity of the works. Local access will be maintained via a detour to **York Avenue** or **Janet Street**.
- Signage will be in place to alert road users to the changes in traffic conditions. Road users are advised to take care when travelling through the area.
- Driveway access at locations adjacent to the works will be maintained for the duration.

What to expect

During works you may notice additional ground and traffic management personnel and equipment within the area. Some disturbances can be expected such as noise, dust and vibration.

Keeping you informed

If you have any questions or concerns and would like to speak to a member of our project team, please don't hesitate to contact us on 1300 951 145 or northsouthcorridor@sa.gov.au
