

Cross Road and Fullarton Road Intersection Upgrade

Stormwater installation – weekend works

The Australian and South Australian governments have jointly funded (50:50) \$61 million to upgrade the Cross Road and Fullarton Road intersection. Once complete, the upgrade will improve travel times and road safety, increase intersection capacity and enhance network reliability.

Continuous works, including the installation of new drainage along Cross Road, will be undertaken from **7pm Friday, 2 September until 6am Monday, 5 September 2022**.

Undertaking these works while traffic volumes are lower will allow work to be completed in a shorter timeframe, minimising the duration of construction impacts to traffic and the surrounding community.

Temporary changes to traffic conditions

To safely facilitate these works, **the westbound lanes of Cross Road will be closed around the two work sites, between Jenkins Avenue and Hampstead Avenue. Traffic will be reduced to one lane in each direction with both directions of traffic using the eastbound lanes.**

From 7pm Saturday, 3 September until 7am Sunday, 4 September 2022, a small section of the southbound lanes of Fullarton Road, immediately south of Cross Road, will be closed to facilitate works in this location. Traffic will be reduced to one lane in each direction with both directions of traffic using the northbound lanes. During these works, the left turn from Cross Road to Fullarton Road will be via the intersection as the left turn slip lane will be closed. Refer to the map overleaf for details.

The intersection will remain open to traffic at all times. Please plan ahead, allow extra travel time and take extra care when workers are on site. Observe speed limits, lane restrictions and traffic controllers when travelling through the area.

Pedestrians and cyclists are advised to take care when travelling through the area. For safety reasons there may be some restricted access. Where required, signage will be in place to direct pedestrians and cyclists to alternative access and/or detours. We appreciate your patience and cooperation whilst these important works are undertaken.

Bus stop 165 (south) on Cross Road will be temporarily closed during the works.

Some noise disturbances can be expected at times while these works are completed, however, the work will be managed to minimise disturbance to nearby residents as much as practically possible. This includes scheduling intrusive works during the day or early evening where possible. Access to properties will be maintained and every effort will be made to minimise impacts to surrounding properties and road users.
