

Tram Grade Separation Projects

Morphett Road Level Crossing

Upcoming night works

The Australian and South Australian governments have committed funding towards a planning study to investigate the removal of the level crossing where the Glenelg tram line crosses Morphett Road, Morphettville. These works form part of the Tram Grade Separation Projects.

To help inform our planning further service location works will be undertaken on Morphett Road, Anzac Highway and at various locations adjacent the tram line (see map overleaf).

Night works are required to ensure the works can be undertaken safely and efficiently and will occur **between the hours of 7pm and 6am, from Sunday, 29 October to late November 2023**, weather permitting. Works will not be undertaken on Friday and Saturday nights.

Works occurring in local side streets will be completed by 11pm.

These investigations will help inform a further understanding of underground services and their location.

Some noise disturbance can be expected at times while these works are completed, however the work will be managed to minimise disturbance to nearby residents and businesses as much as practically possible.

The roads will remain open to traffic at all times. Speed and lane restrictions will be in place in the vicinity of the works, during working hours only. Please take extra care when workers are on site and observe speed limits, lane restrictions and traffic controllers when travelling through the area.

Outside of work hours, all speed and lane restrictions will be removed.

The project team will contact individual property owners if access to your property is affected by the works. Every effort will be made to minimise impacts to surrounding properties and road users, as much as practically possible.

Pedestrians and cyclists are advised to take care when travelling through the area. For safety reasons there may be some temporary restricted access. Where required, signage will be in place to direct pedestrians and cyclists to alternative access and/or detours.

The Department appreciates your cooperation whilst these important works are undertaken.
