

South Eastern Freeway Upgrade Project

Works update – Heysen Tunnels night works

We're continuing works on the Heysen Tunnels, in preparation for upgrades to the overhead traffic management and messaging system.

What's happening:

Works to address current tunnel elements nearing the end of their service life, improve safety and provide improved traffic management and incident response capabilities are occurring.

How this affects you:

The works will be located before the Adelaide bound Heysen Tunnel (see map).

The Adelaide bound left lane and middle lane will both be closed to all traffic for a short distance before the tunnel.

The speed on the remaining Adelaide bound open lane will be reduced to 40km/h.

In the event of a bushfire, other emergency, or on catastrophic fire days, all lanes will be open in both tunnels.

For further information:
