Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Industry	Light industry

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development	Exceptions

(Column A)	(Column B)
<p>1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.</p>	<p>None specified.</p>
<p>2. Any kind of development where the site of the development is not adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.</p>	<p>Except any of the following:</p> <ol style="list-style-type: none"> 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
<p>3. Any development involving any of the following (or of any combination of any of the following):</p> <ol style="list-style-type: none"> (a) advertisement (b) dwelling (c) office (d) residential flat building (e) shop. 	<p>Except development that:</p> <ol style="list-style-type: none"> 1. exceeds the maximum building height specified in Urban Corridor (Main Street) DTS/DPF 3.1 or 2. does not satisfy Urban Corridor (Main Street) DTS/DPF 4.1 or 3. involves the construction of a building of 4 or more building levels and the site of the development is: <ol style="list-style-type: none"> (a) adjacent land to a neighbourhood-type zone and (b) adjoins an allotment containing an existing low-rise building used for residential purposes.
<p>4. Any development involving any of the following (or of any combination of any of the following):</p> <ol style="list-style-type: none"> (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) replacement building (k) retaining wall (l) shade sail (m) solar photovoltaic panels (roof mounted) (n) swimming pool or spa pool and associated swimming pool safety features (o) tree damaging activity (p) verandah (q) water tank. 	<p>None specified.</p>
<p>5. Demolition.</p>	<p>Except any of the following:</p> <ol style="list-style-type: none"> 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
<p>6. Railway line.</p>	<p>Except where located outside of a rail corridor or rail reserve.</p>

Placement of Notices - Exemptions for Performance Assessed Development

None specified.

Placement of Notices - Exemptions for Restricted Development

None specified.

Urban Neighbourhood Zone

Desired Outcome (DO)

Desired Outcome	
DO 1	<p>A mixed use area that:</p> <ul style="list-style-type: none"> (a) provides a flexible policy framework for the redevelopment of urban areas in close proximity to high frequency public transport corridors or adjacent primary road corridors that have the potential to become activity generators (b) provides for the high-quality design and integration of buildings and public realm in mixed use areas with walkable urban form, excellent provision for walking and cycling and active street frontages that encourage social interaction, positively contribute to public safety and vibrancy and promote active movement and public transport use (c) provides a concentration of mixed use activity close to community focal points, such as a high frequency fixed transit stop, activity centre or high quality open space (d) provides adaptable and flexible buildings that can accommodate changes in land use and respond to changing economic and social conditions and advances in technology (e) transitions to a reduced scale and intensity at the zone boundary to maintain the amenity of residential properties located within adjoining zones.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
<p>PO 1.1</p> <p>Development of medium and high density accommodation types for living, including dwellings, supported accommodation, student accommodation, short term accommodation, either as part of a mixed use development or wholly residential development.</p>	<p>DTS/DPF 1.1</p> <p>Development comprises one or more of the following:</p> <ul style="list-style-type: none"> (a) Advertisement (b) Carport (c) Child Care Facility (d) Consulting Room (e) Dwelling (f) Educational Facility (g) Hotel (h) Licensed Premises (i) Light Industry (j) Office (k) Outbuilding (l) Residential Flat Building (m) Retirement Facility (n) Shop (o) Student Accommodation (p) Supported Accommodation (q) Tourist Accommodation
<p>PO 1.2</p> <p>Development of diverse medium density accommodation, and high density accommodation in specified locations (locations where 7 or more building levels is envisaged), either as part of a mixed use development or wholly residential development.</p>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
<p>PO 1.3</p> <p>Light industrial and commercial uses (including high technology and research based activity) where compatible with adjoining uses.</p>	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>
<p>PO 1.4</p> <p>Co-locate close to public transport land uses that generate high levels of pedestrian activity, encourage public transport use and provide opportunities for multi-purpose trips.</p>	<p>DTS/DPF 1.4</p> <p>None are applicable.</p>
<p>PO 1.5</p> <p>In clusters of non-residential development, provide high-quality, inclusive and integrated public realm, including open spaces, sport and recreation facilities, and places that serve as hubs for communal activity.</p>	<p>DTS/DPF 1.5</p> <p>None are applicable.</p>
<p>PO 1.6</p> <p>Shops, offices and consulting rooms services and facilities to meet the needs of the local community.</p>	<p>DTS/DPF 1.6</p> <p>Except where a Main Street Subzone or Urban Neighbourhood Retail Subzone applies, shops, offices or consulting room uses not exceeding a maximum gross leasable floor area of 500m² for individual tenancies and 1000m² in a single building.</p>
<p>PO 1.7</p> <p>Larger scale shops, offices, and consulting rooms primarily clustered together to provide a focus for services and facilities.</p>	<p>DTS/DPF 1.7</p> <p>None are applicable.</p>

<p>PO 2.1</p> <p>Development positively contributes to creating activity nodes around high-frequency public transport stops/stations and multi-modal transport interchanges, encourages public transport use and positively contributes to a fine-grain streetscape that provides a safe, comfortable, vibrant and walkable public realm at ground level.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>																							
<p>PO 2.2</p> <p>Building height is consistent with the form expressed in the <i>Maximum Building Height (Levels) Technical and Numeric Variation layer</i> and the <i>Maximum Building Height (Metres) Technical and Numeric Variation layer</i> or positively responds to the local context including the site's frontage, depth, and adjacent primary street width.</p>	<p>DTS/DPF 2.2</p> <p>Except where a Concept Plan specifies otherwise, development does not exceed the following building height(s):</p> <table border="1" data-bbox="805 369 1548 1064"> <thead> <tr> <th colspan="2">Maximum Building Height (Levels)</th> </tr> </thead> <tbody> <tr><td>Maximum building height is 3 levels</td></tr> <tr><td>Maximum building height is 4 levels</td></tr> <tr><td>Maximum building height is 5 levels</td></tr> <tr><td>Maximum building height is 6 levels</td></tr> <tr><td>Maximum building height is 8 levels</td></tr> <tr><td>Maximum building height is 10 levels</td></tr> <tr><td>Maximum building height is 12 levels</td></tr> <tr> <th colspan="2">Maximum Building Height (Metres)</th> </tr> <tr><td>Maximum building height is 12m</td></tr> <tr><td>Maximum building height is 12.5m</td></tr> <tr><td>Maximum building height is 13.5m</td></tr> <tr><td>Maximum building height is 16.5m</td></tr> <tr><td>Maximum building height is 18.5m</td></tr> <tr><td>Maximum building height is 24.5m</td></tr> <tr><td>Maximum building height is 32.5m</td></tr> <tr><td>Maximum building height is 43m</td></tr> <tr><td>Maximum building height is 20.5m</td></tr> <tr><td>Maximum building height is 28.5m</td></tr> <tr><td>Maximum building height is 40.5m</td></tr> <tr><td>Maximum building height is 48.5m</td></tr> </tbody> </table> <p>In relation to DTS/DPF 2.2, in instances where:</p> <ul style="list-style-type: none"> (a) more than one value is returned in the same field, refer to the <i>Maximum Building Height (Levels) Technical and Numeric Variation layer</i> or <i>Maximum Building Height (Metres) Technical and Numeric Variation layer</i> in the SA planning database to determine the applicable value relevant to the site of the proposed development (b) only one value is returned (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other (c) no value is returned (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy. 	Maximum Building Height (Levels)		Maximum building height is 3 levels	Maximum building height is 4 levels	Maximum building height is 5 levels	Maximum building height is 6 levels	Maximum building height is 8 levels	Maximum building height is 10 levels	Maximum building height is 12 levels	Maximum Building Height (Metres)		Maximum building height is 12m	Maximum building height is 12.5m	Maximum building height is 13.5m	Maximum building height is 16.5m	Maximum building height is 18.5m	Maximum building height is 24.5m	Maximum building height is 32.5m	Maximum building height is 43m	Maximum building height is 20.5m	Maximum building height is 28.5m	Maximum building height is 40.5m	Maximum building height is 48.5m

<p>PO 2.9</p> <p>Buildings set back from street boundaries (in the case of rear access ways) to provide adequate manoeuvrability for vehicles.</p>	<p>DTS/DPF 2.9</p> <p>Building walls setback from the rear access way:</p> <ul style="list-style-type: none"> (a) no requirement where the access way is not less than 6.5m wide or (b) where the access way is less than 6.5m wide, the distance equal to the additional width required to make the access way at least 6.5m wide.

Interface Height

PO 3.1

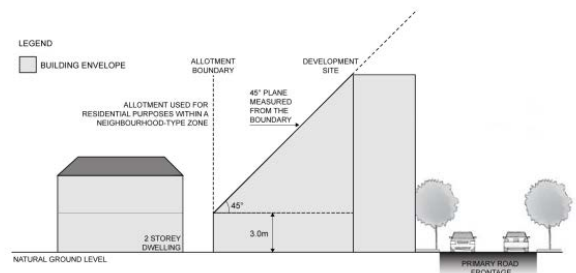

Buildings mitigate visual impacts of building massing on residential development within a neighbourhood-type zone.

DTS/DPF 3.1

Interface Height

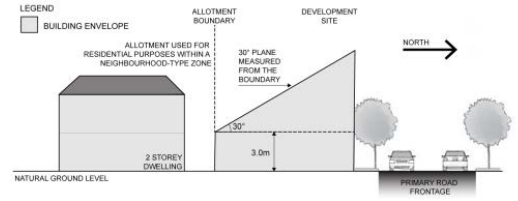

Buildings constructed within a building envelope provided by a:

- (a) 45 degree plane measured from a height of 3 metres above natural ground level at the boundary of the allotment where abutting a residential use, or where the allotment is separated by a road less than 6.5 metres in width measured from the residential allotment boundary, within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary):

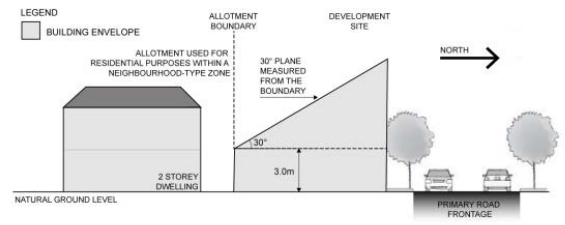

- (b) in relation to a southern boundary, 30 degree plane grading north, measured from a height of 3m above natural ground at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a street boundary):

Interface Height

Buildings constructed within a building envelope provided by a 30 degree plane measured from a height of 3m above natural ground level at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a street boundary):

PO 3.2
Development that manages the interface with a low-rise neighbourhood-type zone by incorporating less dense, low-rise residential land uses at the interface, and avoiding land uses or intensity of land uses that adversely affect residential amenity.

DTS/DPF 3.2
None are applicable.

Site Dimensions and Land Division

PO 4.1
Where appropriate, a street grid pattern is provided in mixed use areas to maintain clear sightlines, improve public safety and legibility within the public realm, and ensure walkability and connectivity are maximised.

DTS/DPF 4.1
None are applicable.

Movement, parking and access

PO 5.1
Where practicable, buildings provide vehicle access via a side street or rear lane access way that is designed to:

- (a) provide space between buildings that reduces building mass and creates a more visually diverse public realm
- (b) minimises conflicts with pedestrians and cyclists
- (c) achieve active frontages at a lower intensity than the primary street frontage.

DTS/DPF 5.1
Vehicular access to be provided:

- (a) via side streets or rear lanes provided there is no negative impact on residential amenity within the zone and in adjacent zones or
- (b) where it consolidates or replaces existing crossovers.

Concept Plans

PO 6.1
Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code.

DTS/DPF 6.1
The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:

Description
Concept Plan 5 - Bowden Urban Village
Concept Plan 34 - Bowden-Brompton
Concept Plan 3 - Mount Barker and Littlehampton
Concept Plan 89 - Tonsley

Description
Concept Plan 86 - Edwardstown
Concept Plan 94 - Old Reynella
Concept Plan 112 - West Lakes
Concept Plan 111 - St Clair
Concept Plan 109 - Seaton
Concept Plan 115 - Morphetteville
In relation to DTS/DPF 6.1, in instances where: <ul style="list-style-type: none"> (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 6.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: <ul style="list-style-type: none"> • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay 	<ol style="list-style-type: none"> 1. The item will be installed on or within an existing building 2. The item being installed does not encroach on a public street or affect the ability of the building to resist the spread of fire 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Building alterations Except where any of the following apply: <ul style="list-style-type: none"> • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay 	<ol style="list-style-type: none"> 1. The alteration does not: <ul style="list-style-type: none"> (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Excavation	<ol style="list-style-type: none"> 1. It does not involve excavation more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
Filling of land	<ol style="list-style-type: none"> 1. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay.
Ground intruding activity	<ol style="list-style-type: none"> 1. It does not involve ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay. 2. It does not involve ground intruding activity involving an underground drain, pipe, cable, conduit, tunnel, underground passageway or adit.
Partial demolition of a building or structure Except where any of the following apply: <ul style="list-style-type: none"> • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay 	None
Shade sail Except where any of the following apply: <ul style="list-style-type: none"> • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay 	<ol style="list-style-type: none"> 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. Shade sail consists of permeable material. 4. The total area of the sail does not exceed 40m². 5. No part of the shade sail will be: <ul style="list-style-type: none"> (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment. 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m. 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.

	<ol style="list-style-type: none"> 9. Does not involve the clearance of native vegetation. 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 11. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 12. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
<p>Solar photovoltaic panels (roof mounted) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay 	<ol style="list-style-type: none"> 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>. 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof. 3. Panels and associated components do not overhang any part of the roof. 4. Does not apply to a system with a generating capacity of more than 5MW that is to be connected to the State's power system. 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
<p>Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply:</p> <ul style="list-style-type: none"> • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay 	<ol style="list-style-type: none"> 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted. 4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature). 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 6. Location of filtration system from a dwelling on an adjoining allotment: <ol style="list-style-type: none"> (a) not less than 5m where the filtration system is located inside a solid structure that will have material impact on the transmission of noise; or (b) not less than 12m in any other case. 7. Does not involve the clearance of native vegetation. 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 9. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 10. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.
<p>Water tank (underground) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Ramsar Wetlands Overlay 	<ol style="list-style-type: none"> 1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation 4. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay 5. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone <small>(applies only in the area affected by the Subzone)</small>	Overlay <small>(applies only in the area affected by the Overlay)</small>
<p>Advertisement</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> • Character Preservation District Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Local Heritage Place Overlay • Non-stop Corridor Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay 	None	<p>Advertisements [Appearance] DTS/DPF 1.1, DTS/DPF 1.2, DTS/DPF 1.3, DTS/DPF 1.4</p> <p>Advertisements [Proliferation of Advertisements] DTS/DPF 2.3</p> <p>Advertisements [Advertising Content] DTS/DPF 3.1</p> <p>Advertisements [Amenity Impacts] DTS/DPF 4.1</p> <p>Advertisements [Safety] DTS/DPF 5.1, DTS/DPF 5.2, DTS/DPF 5.3, DTS/DPF 5.4, DTS/DPF 5.5, DTS/DPF 5.6</p> <p>Clearance from Overhead Powerlines DTS/DPF 1.1</p> <p>Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.2</p>	None	<p>Advertising Near Signalised Intersections Overlay [Advertisements Near Signalised Intersections] DTS/DPF 1.1</p> <p>Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1</p> <p>Airport Building Heights (Regulated) Overlay [Built Form] DTS/DPF 1.1</p> <p>Building Near Airfields Overlay DTS/DPF 1.3</p> <p>Defence Aviation Area Overlay [Built Form] DTS/DPF 1.1</p> <p>Future Road Widening Overlay [Future Road Widening] DTS/DPF 1.1</p> <p>Gateway Overlay [Advertisements] DTS/DPF 4.1</p> <p>Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1</p> <p>State Significant Native Vegetation Areas Overlay [Environmental Protection] DTS/DPF 1.1</p> <p>Tunnel Protection Overlay [Land Use and Intensity] DTS/DPF 1.1</p> <p>Tunnel Protection Overlay [Excavation and Ground Intruding Activity] DTS/DPF 2.1</p>

Table 3 - Applicable Policies for Performance Assessed Development

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone <small>(applies only in the area affected by the Subzone)</small>	Overlay <small>(applies only in the area affected by the Overlay)</small>

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Industry	Light industry
Shop	Any of the following: (a) shop located in the Main Street Subzone (b) shop located in the Urban Neighbourhood Retail Subzone (c) shop with a gross leasable floor area less than 2000m ² (d) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any kind of development where the site of the development is not adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.	Except any of the following: <ol style="list-style-type: none"> 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following): <ol style="list-style-type: none"> (a) advertisement (b) child care facility (c) dwelling (d) dwelling addition (e) residential flat building (f) retirement facility (g) student accommodation (h) supported accommodation (i) tourist accommodation. 	Except development that exceeds the maximum building height specified in Urban Neighbourhood DTS/DPF 2.2 or does not satisfy Urban Neighbourhood DTS/DPF 3.1.
4. Any development involving any of the following (or of any combination of any of the following): <ol style="list-style-type: none"> (a) consulting room (b) office (c) shop. 	Except development that exceeds the maximum building height specified in Urban Neighbourhood DTS/DPF 2.2 or does not satisfy any of the following: <ol style="list-style-type: none"> 1. Urban Neighbourhood DTS/DPF 1.6 2. Urban Neighbourhood DTS/DPF 3.1.
5. Any development involving any of the following (or of any combination of any of the following): <ol style="list-style-type: none"> (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) replacement building (k) retaining wall (l) shade sail (m) solar photovoltaic panels (roof mounted) (n) swimming pool or spa pool and associated swimming pool safety features (o) temporary accommodation in an area affected by bushfire (p) tree damaging activity (q) verandah (r) water tank. 	None specified.
6. Demolition.	Except any of the following: <ol style="list-style-type: none"> 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
7. Railway line.	Except where located outside of a rail corridor or rail reserve.

Placement of Notices - Exemptions for Performance Assessed Development

None specified.

Placement of Notices - Exemptions for Restricted Development

None specified.

Main Street Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome

DO 1	A shopping, entertainment and commercial main street supported by medium to high density residential development.
DO 2	A fine-grained public realm with safe, walkable and vibrant streets created by mixed use buildings with non-residential uses at ground level and a visually consistent street rhythm informed by local context and narrow tenancy footprints.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Retail, office, entertainment and recreation related uses supplemented by other businesses providing a range of goods and services to the local community and the surrounding district.	DTS/DPF 1.1 None are applicable
PO 1.2 Land uses promote movement and activity during daytime and evening hours, including shops, restaurants, small scale licensed premises, educational, community and cultural facilities, and visitor and residential accommodation.	DTS/DPF 1.2 None are applicable.
PO 1.3 Dwellings developed in conjunction with non-residential uses to support business, entertainment and recreational activities and positively contribute to making the main street locality and pedestrian thoroughfares safe, walkable, comfortable, pleasant and lively places.	DTS/DPF 1.3 Dwellings developed in conjunction with non-residential uses sited: (a) at upper levels of buildings with non-residential uses located at ground level or (b) behind non-residential uses on the same allotment.
PO 1.4 Development of well-designed diverse medium to high density accommodation options, including dwellings, supported accommodation, student accommodation, and short term accommodation, either as part of a mixed use development or wholly residential development.	DTS/DPF 1.4 None are applicable.
Built Form and Character	
PO 2.1 Ground level uses contribute to a safe, walkable and vibrant main street.	DTS/DPF 2.1 Shop, office, or consulting room uses located on the ground floor level of buildings.
PO 2.2 Buildings designed to create visual connection between the public realm and ground level interior, positively contribute to passive surveillance of the public realm, have an active interface with the main street and contribute to the fine-grain character and retail function of the street.	DTS/DPF 2.2 The ground floor primary frontage of buildings provides at least 60% of the street frontage as an entry / foyer or display window to a shop or other community or commercial use that provides pedestrian interest and activation.
PO 2.3 Buildings are adaptable and flexible to suit a range of residential and non-residential land uses.	DTS/DPF 2.3 The ground floor of buildings contains a minimum floor to ceiling height of 3.5m.
PO 2.4 Buildings with no set-backs from the main street boundary to achieve a continuity of built form frontage to the main street, with the occasional section of building set back to create outdoor dining areas, visually interesting building entrances and intimate but vibrant spaces.	DTS/DPF 2.4 None are applicable.
PO 2.5	DTS/DPF 2.5

Vehicle parking and ancillary buildings and structures (including garages, carports and outbuildings) located behind buildings away from the primary main street frontage and designed to minimise negative impacts on the main street rhythm and activation.

None are applicable.

Urban Neighbourhood Retail Subzone

Assessment Provisions (AP)

Desired Outcomes (DO)

Desired Outcome	
DO 1	Additional neighbourhood-scale shopping, business, entertainment and recreation facilities to provide a focus for business and community life and most daily and weekly shopping needs of the community.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Retail, office, entertainment and recreation related uses supplemented by other businesses providing a range of goods and services to the community.	DTS/DPF 1.1 Shops not exceeding a maximum gross leasable floor area of: (a) 5500m ² within the whole subzone area in West Lakes (b) 2000m ² within the whole subzone area in Bedford Park (Laffer's Triangle).

Urban Renewal Neighbourhood Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Housing and other land uses which no longer meet community preferences are replaced with new diverse housing options. Housing density increases, taking advantage of well-located urban land. Employment and community services will improve access to jobs, goods and services without compromising residential amenity.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Predominantly residential development with complementary non-residential uses that support an active, convenient, and walkable urban neighbourhood.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Ancillary accommodation (b) Child care facility (c) Community facility (d) Consulting room (e) Dwelling (f) Educational facility (g) Office (h) Place of Worship (i) Recreation area (j) Residential flat building (k) Retirement facility (l) Shop (m) Student accommodation (n) Supported accommodation.
PO 1.2 Commercial activities improve community access to services are of a scale and type to	DTS/DPF 1.2 A shop, consulting room or office (or any combination thereof) satisfies (a) or (b): 4330

<p>maintain residential amenity.</p>	<p>(a) it is located on the same allotment and in conjunction with a dwelling where all the following are satisfied:</p> <ul style="list-style-type: none"> (i) does not exceed 50m² gross leasable floor area (ii) does not involve the display of goods in a window or about the dwelling or its curtilage <p>(b) where located outside of an Activity Centre, does not exceed 250m² in gross leasable floor area.</p>																		
<p>PO 1.3</p> <p>Non-residential development located and designed to improve community accessibility to services, primarily in the form of:</p> <ul style="list-style-type: none"> (a) small-scale commercial uses such as offices, shops and consulting rooms (b) community services such as educational facilities, community centres, places of worship, child care facilities and other health and welfare services (c) services and facilities ancillary to the function or operation of supported accommodation or retirement facilities (d) open space and recreation facilities. 	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>																		
<p>PO 1.4</p> <p>Expansion of existing community services such as educational facilities, community facilities and child care facilities in a manner which complements the scale of development envisaged by the desired outcome for the neighbourhood.</p>	<p>DTS/DPF 1.4</p> <p>Alteration of or addition to existing educational facilities, community facilities or child care facilities where:</p> <ul style="list-style-type: none"> (a) set back at least 3m from any boundary shared with a residential land use (b) building height not exceeding 1 building level (c) the total floor area of the building does not exceed 150% of the total floor area prior to the addition/alteration (d) development satisfies Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas. 																		
<p>PO 1.5</p> <p>Non-residential development sited and designed to complement the residential character and amenity of the neighbourhood.</p>	<p>DTS/DPF 1.5</p> <p>None are applicable.</p>																		
<p>PO 1.6</p> <p>Expansion of existing community services such as educational facilities, community facilities and child care facilities in a manner which complements the scale of development envisaged by the desired outcome for the neighbourhood.</p>	<p>DTS/DPF 1.6</p> <p>Alteration of or addition to existing educational facilities, community facilities or child care facilities where:</p> <ul style="list-style-type: none"> (a) set back at least 3m from any boundary shared with a residential land use (b) building height not exceeding 1 building level (c) the total floor area of the building not exceeding 150% of the total floor area prior to the addition/alteration (d) off-street vehicular parking exists or will be provided in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number. 																		
<p>Building Height</p>																			
<p>PO 2.1</p> <p>Buildings generally 2-3 levels with taller buildings located on sites that are a suitable size and dimension to manage massing and impacts on adjoining residential development.</p>	<p>DTS/DPF 2.1</p> <p>Building height (excluding garages, carports and outbuildings) is no greater than:</p> <p>(a) the following:</p> <table border="1" data-bbox="802 1621 1552 2208"> <thead> <tr> <th style="text-align: center;">Maximum Building Height (Metres)</th> </tr> </thead> <tbody> <tr><td>Maximum building height is 7m</td></tr> <tr><td>Maximum building height is 8m</td></tr> <tr><td>Maximum building height is 8.5m</td></tr> <tr><td>Maximum building height is 9m</td></tr> <tr><td>Maximum building height is 11.5m</td></tr> <tr><td>Maximum building height is 12.5m</td></tr> <tr><td>Maximum building height is 14m</td></tr> <tr><td>Maximum building height is 15m</td></tr> <tr><td>Maximum building height is 16.5m</td></tr> <tr><td>Maximum building height is 18.5m</td></tr> <tr><td>Maximum building height is 22m</td></tr> <tr><td>Maximum building height is 32.5m</td></tr> <tr><td>Maximum building height is 10.5m</td></tr> <tr><td>Maximum building height is 20.5m</td></tr> <tr> <th style="text-align: center;">Maximum Building Height (Levels)</th> </tr> <tr><td>Maximum building height is 2 levels</td></tr> <tr><td>Maximum building height is 3 levels</td></tr> </tbody> </table>	Maximum Building Height (Metres)	Maximum building height is 7m	Maximum building height is 8m	Maximum building height is 8.5m	Maximum building height is 9m	Maximum building height is 11.5m	Maximum building height is 12.5m	Maximum building height is 14m	Maximum building height is 15m	Maximum building height is 16.5m	Maximum building height is 18.5m	Maximum building height is 22m	Maximum building height is 32.5m	Maximum building height is 10.5m	Maximum building height is 20.5m	Maximum Building Height (Levels)	Maximum building height is 2 levels	Maximum building height is 3 levels
Maximum Building Height (Metres)																			
Maximum building height is 7m																			
Maximum building height is 8m																			
Maximum building height is 8.5m																			
Maximum building height is 9m																			
Maximum building height is 11.5m																			
Maximum building height is 12.5m																			
Maximum building height is 14m																			
Maximum building height is 15m																			
Maximum building height is 16.5m																			
Maximum building height is 18.5m																			
Maximum building height is 22m																			
Maximum building height is 32.5m																			
Maximum building height is 10.5m																			
Maximum building height is 20.5m																			
Maximum Building Height (Levels)																			
Maximum building height is 2 levels																			
Maximum building height is 3 levels																			

Maximum Building Height (Levels)
Maximum building height is 4 levels
Maximum building height is 5 levels
Maximum building height is 6 levels
Maximum building height is 9 levels
Maximum building height is 10 levels

(b) in all other cases (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)):

- (i) 4 building levels and 15m where the site:
 - A. is at least 1200m² in area and
 - B. has a frontage of 35 metres
- or
- (ii) 3 building levels and 12m in all other circumstances.

In relation to DTS/DPF 2.1, in instances where:

- (c) more than one value is returned in the same field, refer to the *Maximum Building Height (Levels) Technical and Numeric Variation layer and Maximum Building Height (Metres) Technical and Numeric Variation layer* in the SA planning database to determine the applicable value relevant to the site of the proposed development
- (d) only one value is returned for DTS/DPF 2.1(a) (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other.

PO 2.2
Buildings on an allotment at the interface with a different neighbourhood-type zone are sited and designed to provide an orderly transition to the built form scale envisaged in that zone to mitigate impacts on adjacent residential uses.

DTS/DPF 2.2
None are applicable.

Primary Street Setback

PO 3.1
Buildings are set back from primary street boundaries to contribute to the existing/emerging pattern of street setbacks in the streetscape and integrate development with public open space.

DTS/DPF 3.1
Buildings setback from the primary street boundary in accordance with the following table:

Development Context	Minimum setback
Where the allotment adjoins a public reserve greater than 2000m ² (including where the allotment would adjoin a reserve if not separated by a public road), the dwelling faces that reserve and access is provided to the rear of the allotment.	1.5m
In all other cases.	3m

For the purposes of **DTS/DPF 3.1**:

- (a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback
- (b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table

Secondary Street Setback

PO 4.1
Buildings are set back from secondary street boundaries to achieve a pattern of separation between building walls and public streets and reinforce a streetscape character.

DTS/DPF 4.1
Building walls are set back at least 900mm from the boundary of the allotment with the secondary street frontage.

Boundary Walls

PO 5.1
Walls on boundaries are limited in height and length to manage visual and overshadowing impacts on adjoining properties.

DTS/DPF 5.1
Except where the building is a dwelling and is located on a central site within a row dwelling or terrace arrangement, side boundary walls occur only on one side boundary and satisfy (a) or (b) below:

- (a) side boundary walls adjoin or abut a boundary wall of a building on adjoining land for the same or lesser length and height
- (b) side boundary walls do not:
 - (i) exceed 3m in wall height
 - (ii) exceed 11.5 metres in length
 - (iii) when combined with other walls on the boundary of the subject development site, exceed a maximum 45% of the length of the boundary
 - (iv) encroach within 3 metres of any other existing or proposed boundary walls on the subject land

PO 5.2
Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings consistent with a suburban streetscape character.

DTS/DPF 5.2
Dwelling walls in a semi-detached, row or terrace arrangement are setback at least 900mm from side boundaries shared with allotments outside the development site.

Side Boundary Setback								
<p>PO 6.1</p> <p>Buildings are set back from side boundaries to provide:</p> <ul style="list-style-type: none"> (a) separation between buildings to minimise visual impact (b) access to natural light and ventilation for neighbours. 	<p>DTS/DPF 6.1</p> <p>Building walls not sited on side boundaries are set back from side boundaries in accordance with the following:</p> <ul style="list-style-type: none"> (a) where the wall height does not exceed 3m - at least 900mm (b) where the wall height exceeds 3m - at least 900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings. 							
Rear Boundary Setback								
<p>PO 7.1</p> <p>Buildings are set back from rear boundaries to provide:</p> <ul style="list-style-type: none"> (a) separation between buildings to minimise visual impact (b) access to natural light and ventilation for neighbours (c) open space recreational opportunities (d) space for landscaping and vegetation. 	<p>DTS/DPF 7.1</p> <p>Building walls are set back from the rear boundary at least:</p> <ul style="list-style-type: none"> (a) 3m for the first building level or 0m where the rear boundary abuts a laneway (b) 5m for any second building level (c) 5m plus any increase in wall height over 7m for buildings of 3 building levels and above. 							
Site Dimensions and Land Division								
<p>PO 8.1</p> <p>Allotments/sites created for residential purposes accommodate a diverse range of medium density housing.</p>	<p>DTS/DPF8.1</p> <p>Development will not result in more than 1 dwelling on an existing allotment</p> <p>or</p> <p>Allotments/sites for residential purposes achieve a net density of up to 70 dwellings per hectare.</p>							
<p>PO 8.2</p> <p>High density residential development located on sites of a suitable size and dimension to achieve a high standard of amenity for occupants and neighbours.</p>	<p>DTS/DPF 8.2</p> <p>Development with a net residential density over 70 dwellings per hectare on sites with a minimum area of 1200m² and minimum frontage width of 35m.</p>							
Concept Plans								
<p>PO 9.1</p> <p>Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.</p>	<p>DTS/DPF 9.1</p> <p>The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:</p> <table border="1"> <thead> <tr> <th>Description</th> </tr> </thead> <tbody> <tr> <td>Concept Plan 4 - Minda Incorporated Brighton Campus - North Brighton</td> </tr> <tr> <td>Concept Plan 89 - Tonsley</td> </tr> <tr> <td>Concept Plan 97 - Underdale</td> </tr> <tr> <td>Concept Plan 116 - Everard Park</td> </tr> <tr> <td>Concept Plan 127 - Kidman Park</td> </tr> <tr> <td>Concept Plan 141 - West Lakes</td> </tr> </tbody> </table> <p>In relation to DTS/DPF 9.1, in instances where:</p> <ul style="list-style-type: none"> (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 9.1 is met. 	Description	Concept Plan 4 - Minda Incorporated Brighton Campus - North Brighton	Concept Plan 89 - Tonsley	Concept Plan 97 - Underdale	Concept Plan 116 - Everard Park	Concept Plan 127 - Kidman Park	Concept Plan 141 - West Lakes

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
<p>Air handling unit, air conditioning system or exhaust fan Except where any of the following apply:</p> <ul style="list-style-type: none"> • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay 	<ol style="list-style-type: none"> 1. The item will be installed on or within an existing building 2. The item being installed does not encroach on a public street or affect the ability of the building to resist the spread of fire 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
<p>Brush fence Except where any of the following apply:</p> <ul style="list-style-type: none"> • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Ramsar Wetlands Overlay • State Heritage Area Overlay • State Heritage Place Overlay 	<ol style="list-style-type: none"> 1. The fence is formed (wholly or partially) from brush 2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) 3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) 4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
<p>Building alterations Except where any of the following apply:</p> <ul style="list-style-type: none"> • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay 	<ol style="list-style-type: none"> 1. The alteration does not: <ol style="list-style-type: none"> (a) increase the floor area of the building (b) exceed the existing wall height (c) exceed the existing overall building height (d) alter the roof profile (e) alter an approved privacy screening arrangement or window treatment 2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
<p>Building work on railway land Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay 	<ol style="list-style-type: none"> 1. Building work is associated with a railway 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) 3. It is required for the conduct or maintenance of railway activities 4. It does not involve the clearance of native vegetation 5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
<p>Carport Except where any of the following apply:</p> <ul style="list-style-type: none"> • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay 	<ol style="list-style-type: none"> 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i> 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary 5. Total floor area - does not exceed 40m² 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end) 7. Building height - does not exceed 5m 8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11.5m unless: <ol style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent 9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street): <ol style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure 10. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) 11. The carport is located so that vehicle access: <ol style="list-style-type: none"> (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: <ol style="list-style-type: none"> (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;

- (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
- (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access
- (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site

- 12. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour
- 13. Does not involve the clearance of native vegetation
- 14. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
 - (a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m ²)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

- (b) the amount of existing soft landscaping prior to the development occurring.

Outbuilding
 Except where any of the following apply:

- Coastal Areas Overlay
- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Flooding) Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

- 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
- 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
- 3. It is detached from and ancillary to a dwelling erected on the site.
- 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary
- 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)
- 6. Total floor area - does not exceed 40m²
- 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)
- 8. Building height - does not exceed 5m
- 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless:
 - (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
 - (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
- 10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):
 - (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
 - (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure
- 11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)
- 12. If the outbuilding is a garage, it is located so that vehicle access:
 - (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
 - (b) is not obtained from a State Maintained Road, and will use a driveway that:
 - (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing;
 - (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;
 - (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
 - (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access

	<p>(v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site</p> <p>13. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour</p> <p>14. Does not involve-</p> <ul style="list-style-type: none"> (a) excavation exceeding a vertical height of 1m; or (b) filling exceeding a vertical height of 1m, <p>and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m.</p> <p>15. Does not involve the clearance of native vegetation</p> <p>16. Primary street setback - at least as far back as the building to which it is ancillary 4. Secondary street setback - at least 900mm from the boundary of the allotment 5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place) 6. Does not involve the clearance of native vegetation.
---	--

<p>Shade sail Except where any of the following apply:</p> <ul style="list-style-type: none"> • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay 	<ol style="list-style-type: none"> 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i> 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. Shade sail consists of permeable material 4. The total area of the sail does not exceed 40m² 5. No part of the shade sail will be: <ul style="list-style-type: none"> (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11.5m 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary 9. Does not involve the clearance of native vegetation 10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less: (a) a total area as determined by the following table: <table border="1" data-bbox="869 2110 1551 2206"> <thead> <tr> <th>Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m²)</th> <th>Minimum percentage of site</th> </tr> </thead> <tbody> <tr> <td></td> <td>4337</td> </tr> </tbody> </table>	Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m ²)	Minimum percentage of site		4337
Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m ²)	Minimum percentage of site				
	4337				

<150	10%
150-200	15%
201-450	20%
>450	25%

(b) the amount of existing soft landscaping prior to the development occurring.

Solar photovoltaic panels (roof mounted)
Except where any of the following apply:

- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof
3. Panels and associated components do not overhang any part of the roof
4. Does not apply to a system with a generating capacity of more than 5MW that is to be connected to the State's power system
5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.

Swimming pool or spa pool and associated swimming pool safety features
Except where any of the following apply:

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Flooding) Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted;
4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature).
5. Primary street setback - at least as far back as the building line of the building to which it is ancillary
6. Location of filtration system from a dwelling on an adjoining allotment:
 - (a) not less than 5m where the filtration system is located inside a solid structure that will have material impact on the transmission of noise
 - (b) not less than 12m in any other case.
7. Does not involve the clearance of native vegetation
8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
9. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m ²)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(b) the amount of existing soft landscaping prior to the development occurring.

Verandah
Except where any of the following apply:

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
3. It is ancillary to a dwelling erected on the site
4. Primary street setback - as far back as the building line of the building to which it is ancillary
5. Total floor area - does not exceed 40m²
6. Post height - does not exceed 3m measured from natural ground level
7. Building height - does not exceed 5m
8. Length - does not exceed 11.5m if any part of the structure abuts or is situated on a boundary of the allotment
9. Does not involve the clearance of native vegetation
10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m ²)	Minimum percentage of site

The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation. 										

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
<p>Ancillary accommodation Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Bushfire - General) Overlay • Hazards (Bushfire - High Risk) Overlay • Hazards (Bushfire - Medium Risk) Overlay • Hazards (Bushfire - Regional) Overlay • Hazards (Flooding) Overlay • Heritage Adjacency Overlay • Historic Area Overlay • Interface Management Overlay • Local Heritage Place Overlay • Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay • Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay • Ramsar Wetlands Overlay • River Murray Flood Plain Protection Area Overlay • River Murray Tributaries Protection Area Overlay • Significant Interface Management Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay 	<p>Land Use and Intensity DTS/DPF 1.1</p> <p>Ancillary buildings and structures DTS/DPF 10.1, DTS/DPF 10.2</p>	<p>Clearance from Overhead Powerlines DTS/DPF 1.1</p> <p>Design in Urban Areas [All Development [Earthworks and sloping land]] DTS/DPF 8.1</p> <p>Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.2</p> <p>Transport, Access and Parking [Corner Cut-Offs] DTS/DPF 10.1</p>	<p>Landscape Transition Subzone [Built Form and Siting] DTS/DPF 1.1, DTS/DPF 1.2</p>	<p>Aircraft Noise Exposure Overlay [Land Use and Intensity] DTS/DPF 1.1</p> <p>Aircraft Noise Exposure Overlay [Built Form] DTS/DPF 2.1</p> <p>Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1</p> <p>Airport Building Heights (Regulated) Overlay [Built Form] DTS/DPF 1.1</p> <p>Building Near Airfields Overlay DTS/DPF 1.1, DTS/DPF 1.2, DTS/DPF 1.3</p> <p>Defence Aviation Area Overlay [Built Form] DTS/DPF 1.1</p> <p>Future Local Road Widening Overlay [Future Road Widening] DTS/DPF 1.1</p> <p>Future Road Widening Overlay [Future Road Widening] DTS/DPF 1.1</p> <p>Gateway Overlay [Landscape Amenity] DTS/DPF 2.1</p> <p>Hazards (Acid Sulfate Soils) Overlay [Land Use and Intensity] DTS/DPF 1.1</p> <p>Hazards (Bushfire - Outback) Overlay [Habitable Buildings] DTS/DPF 1.1</p> <p>Hazards (Bushfire - Outback) Overlay [Vehicle Access - Roads and Driveways] DTS/DPF 2.2</p> <p>Hazards (Flooding - General) Overlay [Flood Resilience] DTS/DPF 2.1</p> <p>Hazards (Flooding - Evidence Required) Overlay [Flood Resilience] DTS/DPF 1.1</p> <p>Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1</p> <p>Resource Extraction Protection Area Overlay [Protection of Strategic Resources] DTS/DPF 1.1</p> <p>Scenic Quality Overlay [Earthworks] DTS/DPF 4.1</p> <p>State Significant Native Vegetation Areas Overlay [Environmental Protection] DTS/DPF 1.1</p> <p>Water Resources Overlay [Water Catchment] DTS/DPF 1.5</p>

Table 3 - Applicable Policies for Performance Assessed Development

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m2 (b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. All development undertaken by: (a) the South Australian Housing Trust either individually or jointly with other persons or bodies or (b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust.	Except development involving any of the following: 1. residential flat building(s) of 3 or more building levels 2. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 3. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).

<p>3. Any development involving any of the following (or of any combination of any of the following):</p> <ul style="list-style-type: none"> (a) ancillary accommodation (b) dwelling (c) dwelling addition (d) residential flat building (e) retirement facility (f) student accommodation (g) supported accommodation. 	<p>Except development that:</p> <ul style="list-style-type: none"> 1. exceeds the maximum building height specified in Urban Renewal Neighbourhood Zone DTS/DPF 2.1 or 2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: <ul style="list-style-type: none"> (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
<p>4. Alteration of or addition to any of the following (or of any combination of any of the following):</p> <ul style="list-style-type: none"> (a) child care facility (b) community facility (c) educational facility. 	<p>Except development that does not satisfy Urban Renewal Neighbourhood Zone DTS/DPF 1.6.</p>
<p>5. Any development involving any of the following (or of any combination of any of the following):</p> <ul style="list-style-type: none"> (a) consulting room (b) office (c) shop. 	<p>Except development that:</p> <ul style="list-style-type: none"> 1. exceeds the maximum building height specified in Urban Renewal Neighbourhood Zone DTS/DPF 2.1 or 2. does not satisfy Urban Renewal Neighbourhood Zone DTS/DPF 1.2 or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: <ul style="list-style-type: none"> (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
<p>6. Any development involving any of the following (or of any combination of any of the following):</p> <ul style="list-style-type: none"> (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) recreation area (k) replacement building (l) retaining wall (m) shade sail (n) solar photovoltaic panels (roof mounted) (o) swimming pool or spa pool and associated swimming pool safety features (p) temporary accommodation in an area affected by bushfire (q) tree damaging activity (r) verandah (s) water tank. 	<p>None specified.</p>
<p>7. Demolition.</p>	<p>Except any of the following:</p> <ul style="list-style-type: none"> 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
<p>8. Railway line.</p>	<p>Except where located outside of a rail corridor or rail reserve.</p>

None specified.

Placement of Notices - Exemptions for Restricted Development

None specified.

Mixed Use Transition Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development accommodating a range of business, commercial, warehousing and light industrial uses enabling the transition of the area to mixed use development, compatible with residential development.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
<p>PO 1.1</p> <p>Redevelopment and transition of the area towards mixed development including, residential, supported by a mix of compatible uses including light industry, service trade, motor repair and other compatible businesses servicing the local community that do not produce objectionable emissions.</p>	<p>DTS/DPF 1.1</p> <p>Development comprises one or more of the following:</p> <ul style="list-style-type: none"> (a) Dwelling (b) Entertainment venue (c) Licenced premises (d) Hotel (e) Consulting room (f) Indoor recreation facility (g) Light industry (h) Motor repair station (i) Office (j) Place of worship (k) Research facility (l) Retail fuel outlet (m) Service trade premises (n) Shop (o) Store (p) Tourist accommodation (q) Training facility
<p>PO 1.2</p> <p>Non-residential development involving the expansion, alteration or replacement of an existing industry or activity adjacent to a sensitive receiver or zone, and where current adverse impacts exist, only occur where adverse impacts are minimised in accordance with the <i>Environment Protection Act 1993</i> requirements.</p>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
<p>PO 1.3</p> <p>Residential development and other sensitive development only occur where adverse impacts from nearby industries and activities are minimised in accordance with the <i>Environment Protection Act 1993</i> requirements.</p>	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>
<p>PO 1.4</p> <p>Shops, other than bulky goods outlets, provide a local convenience service to meet the day to day needs of the local community and surrounding businesses as well as support the sale of products made on-site as a supplement to a business activity to enhance local job opportunities.</p>	<p>DTS/DPF 1.4</p> <p>Shop comprising any of the following:</p> <ul style="list-style-type: none"> (a) shop with a gross leasable floor area up to 500m² (b) shop in the form of a bulky goods outlet (c) shop that is ancillary to and located on the same allotment as a light industry.
Land Division	
<p>PO 2.1</p> <p>Sensitive uses and sensitive receivers are:</p>	<p>DTS/DPF 2.1</p> <p>Development does not incorporate any of the following (including alterations and additions</p>

<p>(a) located away from areas which may be subject to unacceptable noise, dust, odour or other emissions</p> <p>or</p> <p>(b) able to adequately mitigate impacts of noise, dust, odour or other emissions through design techniques such as:</p> <ul style="list-style-type: none"> (i) locating residential accommodation, the greatest distance practicable from the industry (ii) locating buildings containing less non-sensitive receivers between the industry and sensitive receivers (iii) placing rooms more sensitive to air, noise and odour impacts (e.g. bedrooms) further away from the industry or (iv) providing private or common open space adjacent a building facade that shields the space from impacts of the industry. 	<p>which increase the floor area of buildings accommodating the following by 10% or more):</p> <ul style="list-style-type: none"> (a) land division creating one or more additional allotments for residential purposes (b) dwelling (c) residential flat building (d) tourist accommodation (e) boarding home (f) dormitory style accommodation (g) Workers' accommodation (h) student accommodation (i) child care facility (j) educational facility (k) retirement village (l) supported accommodation (m) residential park (n) hospital.

Landscape Transition Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development in an open landscaped setting.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
<i>Built Form and Siting</i>	
<p>PO 1.1</p> <p>Building footprints consistent with the character and pattern of the prevailing open landscaped character of the neighbourhood.</p>	<p>DTS/DPF 1.1</p> <p>The development does not result in a site coverage exceeding 50%.</p>
<p>PO 1.2</p> <p>Development incorporates deep soil zones for the retention or provision of large trees to contribute to a well landscaped setting.</p>	<p>DTS/DPF 1.2</p> <p>At least 15% of a site incorporates deep soil zone areas.</p>
<i>Site Dimensions and Land Division</i>	
<p>PO 2.1</p> <p>Allotments/sites created for residential purposes primarily accommodating medium density residential development, with lower density at the interface with a different neighbourhood zone.</p>	<p>DTS/DPF 2.1</p> <p>Allotments/sites for residential purposes accord with the following:</p> <ul style="list-style-type: none"> (a) Site areas (or allotment areas in the case of land division) are not less than: <ul style="list-style-type: none"> (i) 180m², or 100m² on an allotment >2000m², for a dwelling (ii) 120m², or 80m² on an allotment >2000m², for each dwelling in a residential flat building (iii) 300m² for a dwelling (including in a residential flat building) in areas where the Maximum Building Height (Levels) Technical and Numeric Variation specifies a maximum building height of 2 levels. (b) Site frontages (or allotment frontage in the case of land division) are not less than): <ul style="list-style-type: none"> (i) 8m for a dwelling (ii) 20m for a residential flat building

Waterfront Neighbourhood Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A diverse range of housing which takes advantage of waterfront locations. Development enhances public access to waterfront areas. Dual aspect allotments incorporate designs to enhance the streetscape.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
<p>PO 1.1</p> <p>Residential development and supporting services and facilities make waterfront neighbourhoods a convenient place to live.</p>	<p>DTS/DPF 1.1</p> <p>Development comprises one or more of the following:</p> <ul style="list-style-type: none"> (a) Ancillary accommodation (b) Child care facility (c) Community facility (d) Dwelling (e) Educational facility (f) Jetty, pontoon or boat berth (or any combination thereof) (g) Marina (h) Office (i) Place of Worship (j) Recreation area (k) Residential flat building (l) Retirement facility (m) Shop (n) Supported accommodation (o) Tourist accommodation
<p>PO 1.2</p> <p>Marinas include constructed waterways, mooring facilities, pontoons and small jetties to accommodate recreational activities and mooring of small boats associated with residential allotments.</p>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
<p>PO 1.3</p> <p>Non-residential development located and designed to improve community accessibility to services, primarily in the form of:</p> <ul style="list-style-type: none"> (a) small-scale commercial uses such as offices, consulting rooms and shops (b) community services such as educational facilities, community centres, places of worship, child care facilities and other health and welfare services (c) services and facilities ancillary to the function or operation of supported accommodation or retirement facilities (d) open space and recreation facilities. 	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>
<p>PO 1.4</p> <p>Non-residential development is compatible with the waterfront character and amenity of a neighbourhood.</p>	<p>DTS/DPF 1.4</p> <p>None are applicable.</p>
<p>PO 1.5</p> <p>Commercial activities improve community access to services and activate waterfront areas are of a scale and type to maintain residential amenity.</p>	<p>DTS/DPF 1.5</p> <p>A shop, consulting room or office (or any combination thereof) satisfies any one of the following:</p> <ul style="list-style-type: none"> (a) it is located on the same allotment and in conjunction with a dwelling, and all the following are satisfied: <ul style="list-style-type: none"> (i) does not exceed 50m² gross leasable floor area (ii) does not involve the display of goods in a window or about the dwelling or its curtilage (b) it reinstates a former shop, consulting room or office in an existing building (or portion of a building) and at least one of the following is satisfied: <ul style="list-style-type: none"> (i) the building is a State or Local Heritage Place (ii) is in conjunction with a dwelling and there is no increase in the gross leasable floor area previously used for non-residential purposes (c) it is located more than 500m from an Activity Centre and satisfies one of the following: <ul style="list-style-type: none"> (i) does not exceed 100m² gross leasable floor area (individually or combined, in a single building) where the site does not have a frontage to a State Maintained Road (ii) does not exceed 200m² gross leasable floor area (individually or combined, in a single building) where the site has a frontage to a State Maintained Road (d) the development site abuts an Activity Centre and all the following are satisfied: <ul style="list-style-type: none"> (i) it does not exceed 200m² gross leasable floor area (in a single building) (ii) the proposed development will not result in the combined gross leasable floor area of all buildings used as a shop, office or consulting room (existing and proposed) or an combination thereof abutting the Activity Centre in this zone exceeding the lesser of the following: <ul style="list-style-type: none"> A. 50% of the gross leasable floor area within the Activity Centre B. 1000m².

	<p>(e) the development is located within the ground level of a mixed use building with frontage to a waterfront or coastal reserve and does not exceed 250m² gross leasable floor area.</p>
<p>PO 1.6 Expansion of existing community services such as educational facilities, community facilities and child care facilities in a manner which complements the scale of development envisaged by the desired outcome for the neighbourhood.</p>	<p>DTS/DPF 1.6 Alteration of or addition to existing educational facilities, community facilities or child care facilities where:</p> <ul style="list-style-type: none"> (a) set back at least 3m from any boundary shared with a residential land use (b) building height not exceeding 1 building level (c) the total floor area of the building not exceeding 150% of the total floor area prior to the addition/alteration (d) off-street vehicular parking exists or will be provided in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.

Site Dimensions and Land Division

<p>PO 2.1 Allotments/sites created for residential purposes are of suitable size and dimension to accommodate the anticipated dwelling form and remain compatible with the pattern of development in a waterfront neighbourhood.</p>	<p>DTS/DPF 2.1 Development will not result in more than 1 dwelling on an existing allotment or Allotments/sites for residential purposes accord with the following:</p> <ul style="list-style-type: none"> (a) site areas (or allotment areas in the case of land division) are not less than the following (average site area per dwelling, including common areas, applies for group dwellings or dwellings within a residential flat building): <table border="1" data-bbox="802 831 1552 1525"> <thead> <tr> <th style="text-align: center;">Minimum Site Area</th> </tr> </thead> <tbody> <tr> <td>Minimum site area for a detached dwelling is 250 sqm; Maximum Building Height (Levels)										
Maximum building height is 2 levels										
Maximum building height is 3 levels										

Primary Street Setback

<p>PO 5.1</p> <p>Buildings are setback from primary street boundaries to contribute to the existing/emerging pattern of street setbacks in the streetscape and the waterfront environment.</p>	<p>DTS/DPF 5.1</p> <p>Buildings setback from the primary street boundary in accordance with the following table:</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: left;">Development Context</th> <th style="text-align: left;">Minimum setback</th> </tr> </thead> <tbody> <tr> <td>There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building.</td> <td>The average setback of the existing buildings.</td> </tr> <tr> <td>There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site.</td> <td>The setback of the existing building.</td> </tr> <tr> <td>There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site.</td> <td>(a) Where the existing building shares the same primary street frontage - the setback of the existing building 4454</td> </tr> </tbody> </table>	Development Context	Minimum setback	There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building.	The average setback of the existing buildings.	There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site.	The setback of the existing building.	There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site.	(a) Where the existing building shares the same primary street frontage - the setback of the existing building 4454
Development Context	Minimum setback								
There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building.	The average setback of the existing buildings.								
There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site.	The setback of the existing building.								
There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site.	(a) Where the existing building shares the same primary street frontage - the setback of the existing building 4454								

		(b) Where the existing building has a different primary street frontage - 5m
	There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building.	5m
<p>For the purposes of DTS/DPF 5.1:</p> <ul style="list-style-type: none"> (a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback (b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table 		
Secondary Street Setback		
<p>PO 6.1</p> <p>Buildings are set back from secondary street boundaries to achieve separation between building walls and public streets and contribute to a suburban streetscape character.</p>	<p>DTS/DPF 6.1</p> <p>Building walls are set back from the boundary of the allotment with a secondary street frontage at least:</p> <ul style="list-style-type: none"> (a) at least 900mm or (b) if a building (except for ancillary buildings and structures) on any adjoining allotment is closer to the secondary street than 900mm, at least the distance of that building from the boundary with the secondary street.' 	
Boundary Walls		
<p>PO 7.1</p> <p>Walls on boundaries are limited in height and length to manage visual and overshadowing impacts on adjoining properties.</p>	<p>DTS/DPF 7.1</p> <p>Except where the building is a dwelling and is located on a central site within a row dwelling or terrace arrangement, side boundary walls occur only on one side boundary and satisfy (a) or (b) below:</p> <ul style="list-style-type: none"> (a) side boundary walls adjoin or abut a boundary wall of a building on adjoining land for the same, or lesser length and height (b) side boundary walls do not: <ul style="list-style-type: none"> (i) exceed 3m in wall height (ii) exceed 11.5m in length (iii) when combined with other walls on the boundary of the subject development site, exceed a maximum 45% of the length of the boundary (iv) encroach within 3 metres of any other existing or proposed boundary walls on the subject land. 	
<p>PO 7.2</p> <p>Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings consistent with a suburban streetscape character.</p>	<p>DTS/DPF 7.2</p> <p>Dwelling walls in a semi-detached, row or terrace arrangement are setback at least 900mm from side boundaries shared with allotments outside the development site.</p>	
Side boundary setback		
<p>PO 8.1</p> <p>Building walls are set back from side boundaries to provide:</p> <ul style="list-style-type: none"> (a) separation between buildings in a way that contributes to a suburban character and (b) access to natural light and ventilation for neighbours. 	<p>DTS/DPF 8.1</p> <p>Other than walls located on a side boundary, building walls are set back from side boundaries in accordance with the following:</p> <ul style="list-style-type: none"> (a) where the wall height does not exceed 3m - at least 900mm (b) for a wall that is not south facing and the wall height exceeds 3m - at least 900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings (c) for a wall that is south facing and the wall height exceeds 3m - at least 1.9m from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings. 	
Rear boundary setback		
<p>PO 9.1</p> <p>Building walls (except for ancillary buildings and structures) are set back from rear boundaries to provide:</p> <ul style="list-style-type: none"> (a) separation between buildings in a way that contributes to a suburban character (b) access to natural light and ventilation for neighbours (c) private open space (d) space for landscaping and vegetation (e) a consistent character when viewed from a waterfront. 	<p>DTS/DPF 9.1</p> <p>Building walls (except for ancillary buildings and structures) are set back from the rear boundary at least:</p> <ul style="list-style-type: none"> (a) where the rear boundary fronts a waterfront, no less than the average rear setback of any existing building (except for ancillary buildings and structures) on adjoining allotments. (b) where the rear boundary adjoins a laneway - 0m (c) In all other cases: <ul style="list-style-type: none"> (i) if the size of the site is less than 301 square metres— <ul style="list-style-type: none"> A. 3m in relation to the ground floor of the building B. 5m in relation to any other building level of the building 	

- (ii) if the size of the site is 301 square metres or more—
 - A. 4m in relation to the ground floor of the building
 - B. 6m in relation to any other building level of the building.

Concept Plans

<p>PO 10.1</p> <p>Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.</p>	<p>DTS/DPF 10.1</p> <p>The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:</p> <table border="1" style="width: 100%;"> <thead> <tr> <th style="text-align: center;">Description</th> </tr> </thead> <tbody> <tr> <td>Concept Plan 141 - West Lakes</td> </tr> </tbody> </table> <p>In relation to DTS/DPF 10.1, in instances where:</p> <ul style="list-style-type: none"> (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 10.1 is met. 	Description	Concept Plan 141 - West Lakes

Advertisements											
<p>PO 13.1</p> <p>Advertisements identify the associated business activity, and do not detract from the residential character of the locality.</p>	<p>DTS/DPF 13.1</p> <p>Advertisements relating to a lawful business activity associated with a residential use do not exceed 0.3m² and mounted flush with a wall or fence.</p>										

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
<p>Air handling unit, air conditioning system or exhaust fan</p> <p>Except where any of the following apply:</p>	<p>1. The item will be installed on or within an existing dwelling.</p> <p>2. The item being installed does not encroach on a public street.</p>

<ul style="list-style-type: none"> Local Heritage Place Overlay State Heritage Area Overlay State Heritage Place Overlay 	<p>3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.</p>
<p>Brush fence Except where any of the following apply:</p> <ul style="list-style-type: none"> Hazards (Flooding) Overlay Historic Area Overlay Local Heritage Place Overlay Ramsar Wetlands Overlay State Heritage Area Overlay State Heritage Place Overlay 	<ol style="list-style-type: none"> The fence is formed (wholly or partially) from brush The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
<p>Building alterations Except where any of the following apply:</p> <ul style="list-style-type: none"> Local Heritage Place Overlay State Heritage Area Overlay State Heritage Place Overlay 	<ol style="list-style-type: none"> The alteration does not: <ol style="list-style-type: none"> increase the floor area of the building exceed the existing wall height exceed the existing overall building height alter the roof profile alter an approved privacy screening arrangement or window treatment Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
<p>Building work on railway land Except where any of the following apply:</p> <ul style="list-style-type: none"> Coastal Areas Overlay Hazards (Acid Sulfate Soils) Overlay Local Heritage Place Overlay Significant Landscape Protection Overlay State Heritage Area Overlay State Heritage Place Overlay 	<ol style="list-style-type: none"> Building work is associated with a railway It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) It is required for the conduct or maintenance of railway activities It does not involve the clearance of native vegetation The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
<p>Carport Except where any of the following apply:</p> <ul style="list-style-type: none"> Future Local Road Widening Overlay Future Road Widening Overlay Historic Area Overlay Local Heritage Place Overlay State Heritage Area Overlay State Heritage Place Overlay 	<ol style="list-style-type: none"> The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i> The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system It is ancillary to a dwelling erected on the site Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary Total floor area - does not exceed 40m² Post height - does not exceed 3m measured from natural ground level (and not including a gable end) Building height - does not exceed 5m If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11.5m unless: <ol style="list-style-type: none"> a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street): <ol style="list-style-type: none"> it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure Site coverage does not exceed: <ol style="list-style-type: none"> on sites 300m² or less and with a dual frontage to the waterfront and a public street, 80% in all other cases, 60%. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser) The carport is located so that vehicle access: <ol style="list-style-type: none"> is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or is not obtained from a State Maintained Road, and will use a driveway that: <ol style="list-style-type: none"> is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing; will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access

(v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site

- 13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour
- 14. Does not involve the clearance of native vegetation
- 15. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m ²)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(b) the amount of existing soft landscaping prior to the development occurring.

Outbuilding
Except where any of the following apply:

- Coastal Areas Overlay
- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Flooding) Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

- 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
- 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
- 3. It is detached from and ancillary to a dwelling erected on the site.
- 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary
- 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)
- 6. Total floor area - does not exceed 40m²
- 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)
- 8. Building height - does not exceed 5m
- 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless:
 - (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
 - (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
- 10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):
 - (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
 - (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure
- 11. Site coverage does not exceed:
 - (a) on sites 300m² or less and with a dual frontage to the waterfront and a public street, 80%.
 - (b) in all other cases, 60%.
- 12. Door opening for vehicle access facing a street frontage - does not exceed, in total 7m in width or 50% of the width of the allotment frontage (whichever lesser)
- 13. If the outbuilding is a garage, it is located so that vehicle access:
 - (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
 - (b) is not obtained from a State maintained Road, and will use a driveway that:
 - (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing;
 - (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;
 - (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
 - (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access
 - (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site

	<p>14. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour</p> <p>15. Does not involve-</p> <ul style="list-style-type: none"> (a) excavation exceeding a vertical height of 1m; or (b) filling exceeding a vertical height of 1m, <p>and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m.</p> <p>16. (b) the amount of existing soft landscaping prior to the development occurring.

Solar photovoltaic panels (roof mounted)
Except where any of the following apply:

- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof
3. Panels and associated components do not overhang any part of the roof
4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system
5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.

Swimming pool or spa pool and associated swimming pool safety features
Except where any of the following apply:

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Flooding) Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted
4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature).
5. Primary street setback - at least as far back as the building line of the building to which it is ancillary
6. Location of filtration system from a dwelling on an adjoining allotment:
 - (a) not less than 5m where the filtration system is located inside a solid structure that will have material impact on the transmission of noise; or
 - (b) not less than 12m in any other case.
7. Does not involve the clearance of native vegetation
8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
9. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m ²)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(b) the amount of existing soft landscaping prior to the development occurring.

Verandah
Except where any of the following apply:

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
3. It is ancillary to a dwelling erected on the site
4. Primary street setback - as far back as the building line of the building to which it is ancillary
5. Total floor area - does not exceed 40m²
6. Post height - does not exceed 3m measured from natural ground level
7. Building height - does not exceed 5m
8. Length - does not exceed 11.5m if any part of the structure abuts or is situated on a boundary of the allotment
9. Site coverage does not exceed:
 - (a) on sites 300m² or less and with a dual frontage to the waterfront and a public street, 80%
 - (b) in all other cases, 60%.
10. Does not involve the clearance of native vegetation
11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area)	Minimum percentage of site

The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 2. The tank (including any associated pump) is located wholly below the level of the ground 3. Does not involve the clearance of native vegetation. 										

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria

Table 3 - Applicable Policies for Performance Assessed Development

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Class of Development	Applicable Policies

Limited Land Division Overlay [General]
PO 1.1, PO 1.2

Local Heritage Place Overlay [Land Division]
PO 4.1

Major Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]
PO 1.1

Major Urban Transport Routes Overlay [Access - On-Site Queuing]
PO 2.1

Major Urban Transport Routes Overlay [Access - Location (Spacing) - Existing Access Points]
PO 3.1

Major Urban Transport Routes Overlay [Access - Location (Spacing) - New Access Points]
PO 4.1

Major Urban Transport Routes Overlay [Access - Location (Sight Lines)] PO 5.1
Major Urban Transport Routes Overlay [Access - Mud and Debris] PO 6.1
Major Urban Transport Routes Overlay [Access - Stormwater] PO 7.1
Major Urban Transport Routes Overlay [Building on Road Reserve] PO 8.1
Major Urban Transport Routes Overlay [Public Road Junctions] PO 9.1
Marine Parks (Managed Use) Overlay [Land Use] PO 1.1
Marine Parks (Restricted Use) Overlay [Land Use] PO 1.1
Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Water Quality] PO 1.1
Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Wastewater] PO 2.1, PO 2.2, PO 2.3, PO 2.4
Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Stormwater] PO 3.1, PO 3.3, PO 3.9
Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Landscapes and Natural Features] PO 4.1
Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Land Division] PO 5.1, PO 5.2
Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Water Quality] PO 1.1
Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Wastewater] PO 2.1, PO 2.3, PO 2.4, PO 2.5
Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Stormwater] PO 3.1, PO 3.2, PO 3.3, PO 3.9
Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Landscapes and Natural Features] PO 4.1
Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Land Division] PO 5.1, PO 5.2
Native Vegetation Overlay [Land division] PO 2.1
Non-Stop Corridors Overlay [Non-Stop Corridor Overlay] PO 1.1
Ramsar Wetlands Overlay [Land Division] PO 2.1
Regulated and Significant Tree Overlay [Land Division] PO 3.1

				<p>Resource Extraction Protection Area Overlay [Protection of Strategic Resources] PO 1.1</p> <p>River Murray Flood Plain Protection Area Overlay [Land Division] PO 4.1, PO 4.2</p> <p>River Murray Flood Plain Protection Area Overlay [Access] PO 8.1, PO 8.2, PO 8.3</p> <p>River Murray Tributaries Protection Area Overlay [Land Division] PO 2.1, PO 2.2</p> <p>Significant Interface Management Overlay [Land Use and Intensity] PO 1.1</p> <p>State Heritage Area Overlay [Land Division] PO 4.1</p> <p>State Heritage Place Overlay [Land Division] PO 4.1</p> <p>State Significant Native Vegetation Areas Overlay [Land division] PO 2.1</p> <p>Traffic Generating Development Overlay [Traffic Generating Development] PO 1.1, PO 1.2, PO 1.3</p> <p>Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)] PO 1.1</p> <p>Urban Transport Routes Overlay [Access - On-Site Queuing] PO 2.1</p> <p>Urban Transport Routes Overlay [Access - (Location Spacing) - Existing Access Point] PO 3.1</p> <p>Urban Transport Routes Overlay [Access - Location (Spacing) - New Access Points] PO 4.1</p> <p>Urban Transport Routes Overlay [Access - Location (Sight Lines)] PO 5.1</p> <p>Urban Transport Routes Overlay [Access - Mud and Debris] PO 6.1</p> <p>Urban Transport Routes Overlay [Access - Stormwater] PO 7.1</p> <p>Urban Transport Routes Overlay [Building on Road Reserve] PO 8.1</p> <p>Urban Transport Routes Overlay [Public Road Junctions] PO 9.1</p>
Outbuilding	<p>Site Coverage PO 3.1</p> <p>Ancillary buildings and structures PO 12.1, PO 12.2, PO 12.3, PO 12.4</p>	<p>Clearance from Overhead Powerlines PO 1.1</p> <p>Design in Urban Areas [All Development [Earthworks and sloping land]] PO 8.1, PO 8.2, PO 8.3, PO 8.4</p> <p>Design in Urban Areas [Residential Development - Low Rise [Car parking, access and manoeuvrability]] PO 23.1, PO 23.3, PO 23.4, PO 23.5</p>	None	<p>Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] PO 1.1</p> <p>Airport Building Heights (Regulated) Overlay [Built Form] PO 1.1</p> <p>Building Near Airfields Overlay PO 1.3</p> <p>Character Area Overlay [All Development] PO 1.1</p>

Infrastructure and Renewable Energy Facilities [Wastewater Services]
PO 12.2

Character Area Overlay [Built Form] PO 2.1, PO 2.2, PO 2.3, PO 2.4, PO 2.5

Character Area Overlay [Ancillary Development] PO 4.1, PO 4.2

Character Area Overlay [Context and Streetscape Amenity] PO 6.1, PO 6.2

Character Preservation District Overlay [Built Form and Character] PO 2.1, PO 2.2

Character Preservation District Overlay [Built Form and Character in the Rural Area] PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.5, PO 3.6

Character Preservation District Overlay [Earthworks] PO 4.1

Coastal Areas Overlay [Hazard Risk Minimisation] PO 2.1, PO 2.2, PO 2.3, PO 2.4, PO 2.5

Coastal Areas Overlay [Coast Protection Works] PO 3.1, PO 3.2

Coastal Areas Overlay [Environment Protection] PO 4.1, PO 4.2, PO 4.3, PO 4.4, PO 4.6, PO 4.7

Coastal Areas Overlay [Access] PO 5.1, PO 5.2, PO 5.4

Coastal Flooding Overlay PO 1.1

Defence Aviation Area Overlay [Built Form] PO 1.1

Future Local Road Widening Overlay [Future Road Widening] PO 1.1

Future Road Widening Overlay [Future Road Widening] PO 1.1

Gateway Overlay [Built Form and Character] PO 1.1, PO 1.2

Gateway Overlay [Landscape Amenity] PO 2.1

Gateway Overlay [Landscaping] PO 3.1, PO 3.2, PO 3.3, PO 3.4

Hazards (Acid Sulfate Soils) Overlay [Land Use and Intensity] PO 1.1

Hazards (Bushfire - General Risk) Overlay [Siting] PO 1.1

Hazards (Bushfire - General Risk) Overlay [Built Form] PO 2.1, PO 2.2

Hazards (Bushfire - General Risk) Overlay [Vehicle Access – Roads, Driveways and Fire Tracks] PO 5.2, PO 5.3

Hazards (Bushfire - High Risk) Overlay [Land Use] PO 1.1

Hazards (Bushfire - High Risk) Overlay [Siting] PO 2.1

Hazards (Bushfire - High Risk) Overlay [Built Form] PO 3.1, PO 3.2
Hazards (Bushfire - High Risk) Overlay [Vehicle Access –Roads, Driveways and Fire Tracks] PO 6.2, PO 6.3
Hazards (Bushfire - Medium Risk) Overlay [Siting] PO 1.1
Hazards (Bushfire - Medium Risk) Overlay [Built Form] PO 2.1, PO 2.2
Hazards (Bushfire - Medium Risk) Overlay [Vehicle Access - Roads, Driveways and Fire Tracks] PO 5.2, PO 5.3
Hazards (Bushfire - Outback) Overlay [Vehicle Access - Roads and Driveways] PO 2.2
Hazards (Bushfire - Regional) Overlay [Siting] PO 1.1
Hazards (Bushfire - Regional) Overlay [Built Form] PO 2.1, PO 2.2
Hazards (Bushfire - Regional) Overlay [Vehicle Access -Roads and Driveways] PO 5.2, PO 5.3
Hazards (Flooding) Overlay [Flood Resilience] PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.5
Hazards (Flooding) Overlay [Environmental Protection] PO 4.1, PO 4.2
Hazards (Flooding) Overlay [Site Earthworks] PO 5.1, PO 5.2
Hazards (Flooding) Overlay [Access] PO 6.1, PO 6.2
Heritage Adjacency Overlay [Built Form] PO 1.1
Historic Area Overlay [All Development] PO 1.1
Historic Area Overlay [Built Form] PO 2.1, PO 2.2, PO 2.3, PO 2.4, PO 2.5
Historic Area Overlay [Ancillary development] PO 4.1, PO 4.2
Historic Area Overlay [Context and Streetscape Amenity] PO 6.1, PO 6.2
Historic Area Overlay [Ruins] PO 8.1
Historic Shipwrecks Overlay [General] PO 1.1
Key Outback and Rural Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)] PO 1.1
Key Outback and Rural Routes Overlay [Access - On-Site Queuing] PO 2.1

Key Outback and Rural Routes Overlay [Access - Location (Spacing) - Existing Access Points] PO 3.1

Key Outback and Rural Routes Overlay [Access - Location (Spacing) - New Access Points] PO 4.1

Key Outback and Rural Routes Overlay [Access - Location (Sight Lines)] PO 5.1

Key Outback and Rural Routes Overlay [Access - Mud and Debris] PO 6.1

Key Outback and Rural Routes Overlay [Access - Stormwater] PO 7.1

Key Outback and Rural Routes Overlay [Building on Road Reserve] PO 8.1

Key Outback and Rural Routes Overlay [Public Road Junctions] PO 9.1

Key Railway Crossings Overlay [Access, Design and Function] PO 1.1

Local Heritage Place Overlay [Built Form] PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7

Local Heritage Place Overlay [Ancillary Development] PO 3.1, PO 3.2

Local Heritage Place Overlay [Landscape Context and Streetscape Amenity] PO 5.1

Local Heritage Place Overlay [Conservation Works] PO 7.1

Major Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)] PO 1.1

Major Urban Transport Routes Overlay [Access - On-Site Queuing] PO 2.1

Major Urban Transport Routes Overlay [Access - Location (Spacing) - Existing Access Points] PO 3.1

Major Urban Transport Routes Overlay [Access - Location (Spacing) - New Access Points] PO 4.1

Major Urban Transport Routes Overlay [Access - Location (Sight Lines)] PO 5.1

Major Urban Transport Routes Overlay [Access - Mud and Debris] PO 6.1

Major Urban Transport Routes Overlay [Access - Stormwater] PO 7.1

Major Urban Transport Routes Overlay [Building on Road Reserve] PO 8.1

Major Urban Transport Routes Overlay [Public Road Junctions] PO 9.1

Major Urban Transport Routes Overlay [Corner Cut-Offs] PO 10.1
Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Water Quality] PO 1.1
Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Stormwater] PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.9
Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Landscapes and Natural Features] PO 4.1
Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Water Quality] PO 1.1
Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Stormwater] PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.9
Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Landscapes and Natural Features] PO 4.1
Native Vegetation Overlay [Environmental Protection] PO 1.1, PO 1.2, PO 1.4
Non-Stop Corridors Overlay [Non-Stop Corridor Overlay] PO 1.1
River Murray Flood Plain Protection Area Overlay [Wastewater] PO 2.1
River Murray Flood Plain Protection Area Overlay [Built Form and Character] PO 5.1, PO 5.2, PO 5.3, PO 5.4
River Murray Flood Plain Protection Area Overlay [Flood Resilience] PO 6.1, PO 6.3, PO 6.4
River Murray Flood Plain Protection Area Overlay [Environmental Protection] PO 7.1, PO 7.2, PO 7.3, PO 7.4
River Murray Flood Plain Protection Area Overlay [Access] PO 8.1, PO 8.2, PO 8.3
Scenic Quality Overlay [Land Use and Intensity] PO 1.1
Scenic Quality Overlay [Built Form and Character] PO 2.1
Scenic Quality Overlay [Earthworks] PO 4.1
Significant Landscape Protection Overlay [Built Form and Character] PO 2.1, PO 2.2
Significant Landscape Protection Overlay [Landscaping] PO 3.1
Significant Landscape Protection Overlay [Earthworks] PO 4.1
State Heritage Area Overlay [Built Form] PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5

	State Heritage Area Overlay [Ancillary Development] PO 3.1, PO 3.2
	State Heritage Area Overlay [Landscape Context and Streetscape Amenity] PO 5.1
	State Heritage Area Overlay [Conservation Works] PO 7.1
	State Heritage Place Overlay [Built Form] PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7
	State Heritage Place Overlay [Ancillary Development] PO 3.1, PO 3.2
	State Heritage Place Overlay [Landscape Context and Streetscape Amenity] PO 5.1
	State Heritage Place Overlay [Conservation Works] PO 7.1
	State Significant Native Vegetation Areas Overlay [Environmental Protection] PO 1.1
	Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)] PO 1.1
	Urban Transport Routes Overlay [Access - On-Site Queuing] PO 2.1
	Urban Transport Routes Overlay [Access - (Location Spacing) - Existing Access Point] PO 3.1
	Urban Transport Routes Overlay [Access - Location (Spacing) - New Access Points] PO 4.1
	Urban Transport Routes Overlay [Access - Location (Sight Lines)] PO 5.1
	Urban Transport Routes Overlay [Access - Mud and Debris] PO 6.1
	Urban Transport Routes Overlay [Access - Stormwater] PO 7.1
	Urban Transport Routes Overlay [Building on Road Reserve] PO 8.1
	Urban Transport Routes Overlay [Public Road Junctions] PO 9.1
	Urban Transport Routes Overlay [Corner Cut-Offs] PO 10.1
	Water Resources Overlay [Water Catchment] PO 1.1, PO 1.2, PO 1.5, PO 1.6, PO 1.7, PO 1.8

All other Code Assessed Development	All	All	All	Any relevant Overlay: All

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: <ul style="list-style-type: none"> (a) shop with a gross leasable floor area less than 1000m² (b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. All development undertaken by: <ul style="list-style-type: none"> (a) the South Australian Housing Trust either individually or jointly with other persons or bodies or (b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust. 	Except development involving any of the following: <ul style="list-style-type: none"> 1. residential flat building(s) of 3 or more building levels 2. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 3. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
3. Any development involving any of the following (or of any combination of any of the following): <ul style="list-style-type: none"> (a) ancillary accommodation (b) dwelling (c) dwelling addition (d) jetty, pontoon or boat berth (or any combination thereof) (e) residential flat building. 	Except development that: <ul style="list-style-type: none"> 1. exceeds the maximum building height specified in Waterfront Neighbourhood Zone DTS/DPF 4.1 or 2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: <ul style="list-style-type: none"> (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).

<p>4. Any development involving any of the following (or of any combination of any of the following):</p> <ul style="list-style-type: none"> (a) consulting room (b) office (c) shop. 	<p>Except development that:</p> <ul style="list-style-type: none"> 1. exceeds the maximum building height specified in Waterfront Neighbourhood Zone DTS/DPF 4.1 or 2. does not satisfy Waterfront Neighbourhood Zone DTS/DPF 1.5 or 3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and: <ul style="list-style-type: none"> (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
<p>5. Any development involving any of the following (or of any combination of any of the following):</p> <ul style="list-style-type: none"> (a) air handling unit, air conditioning system or exhaust fan (b) carport (c) deck (d) fence (e) internal building works (f) land division (g) outbuilding (h) pergola (i) private bushfire shelter (j) recreation area (k) replacement building (l) retaining wall (m) shade sail (n) solar photovoltaic panels (roof mounted) (o) swimming pool or spa pool and associated swimming pool safety features (p) temporary accommodation in an area affected by bushfire (q) tree damaging activity (r) verandah (s) water tank. 	<p>None specified.</p>
<p>6. <p>7. Railway line.</p>	<p>Except where located outside of a rail corridor or rail reserve.</p>

Placement of Notices - Exemptions for Performance Assessed Development

None specified.

Placement of Notices - Exemptions for Restricted Development

None specified.

Workers' Settlement Zone

Assessment Provisions (AP)

Desired Outcome (DO)

<p style="text-align: center;">Desired Outcome</p>	
<p>DO 1</p>	<p>Appropriately designed and located accommodation for seasonal and short-term workers in rural areas that minimises environmental and social impacts.</p>

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
<p>PO 1.1</p> <p>Development is limited to workers' accommodation and ancillary land uses that support the day to day needs of workers.</p>	<p>DTS/DPF 1.1</p> <p>Development comprises one or more of the following:</p> <ul style="list-style-type: none"> (a) a dwelling (manager's house) (b) amenity block (including shower, toilet and laundry facilities) in association with and ancillary to the workers' accommodation (c) dwelling addition (d) recreational facility in association with and ancillary to the workers' accommodation (e) office in association with and ancillary to the workers' accommodation (f) shop in association with and ancillary to the workers' accommodation (g) workers' accommodation.
<p>PO 1.2</p> <p>Shops, primarily in the form of a restaurant, associated with and ancillary to Workers' accommodation enhance the amenity of the zone for those workers.</p>	<p>DTS/DPF 1.2</p> <p>Shops located on the same site as workers' accommodation meets one of the following:</p> <ul style="list-style-type: none"> (a) it has a gross leasable floor area not exceeding 100m² (b) it is a restaurant.
<p>PO 1.3</p> <p>Office associated with and ancillary to Workers' accommodation supports the management and administrative aspects of the accommodation.</p>	<p>DTS/DPF 1.3</p> <p>Office is ancillary to and located on the same site as Workers' accommodation.</p>
<p>PO 1.4</p> <p>Development provides space adjacent to and around habitable buildings to accommodate areas for parking of vehicles, storage of waste, landscaping, recreation areas, swimming pool/spa and similar facilities to enhance the amenity for resident workers.</p>	<p>DTS/DPF 1.4</p> <p>The total roofed area of all existing and proposed buildings on the site will not exceed 60%.</p>
<p>PO 1.5</p> <p>Workers' accommodation is established in association with major industrial, mining, agricultural and business activities to support and facilitate economic activity.</p>	<p>DTS/DPF 1.5</p> <p>Workers' accommodation is constructed by the principal operator of the relevant business or authorised agent thereof.</p>
<p>PO 1.6</p> <p>A dwelling in the form of a manager or caretaker residence associated with and ancillary to Workers' accommodation provides for the efficient management, maintenance and support of residents.</p>	<p>DTS/DPF 1.6</p> <p>A dwelling is:</p> <ul style="list-style-type: none"> (a) ancillary to and located on the same allotment or within the same lease area as the workers' accommodation (b) has a demonstrated connection with workers' accommodation (c) will not result in more than one dwelling being located on an allotment or lease area used for workers' accommodation.
Land Division	
<p>PO 2.1</p> <p>Land division is designed to:</p> <ul style="list-style-type: none"> (a) minimise fire risk danger to occupants of buildings and firefighting personnel (b) minimise the potential risk of damage to buildings and other property during a bushfire (c) ensure each allotment contains a suitable building envelope that is located away from any vegetation that would pose an unacceptable risk in the event of bushfire. 	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
Built Form and Character	
<p>PO 3.1</p> <p>Buildings and recreational facilities are set back from internal roads to accommodate vehicular movements and contribute to the safety of workers and visitors.</p>	<p>DTS/DPF 3.1</p> <p>Buildings and recreational facilities are set back at least 1 metre from an internal road.</p>
<p>PO 3.2</p> <p>Buildings are set back from public roads to mitigate impacts on the streetscape.</p>	<p>DTS/DPF 3.2</p> <p>Buildings are set back at least 2m from a public road.</p>
<p>PO 3.3</p> <p>Buildings and recreational areas are set back from the boundary of the zone to minimise impacts on neighbouring properties and enhance local amenity.</p>	<p>DTS/DPF 3.3</p> <p>Buildings are set back at least 2 metres from the zone boundary.</p>
<p>PO 3.4</p> <p>Buildings use materials and finishes to complement the landscape and mitigate the effects of</p>	<p>DTS/DPF 3.4</p> <p>Buildings are clad in, or a combination of:</p>

glare on adjacent land users.	(a) materials other than sheet metal (b) sheet metal pre-colour treated or painted in a non-reflective colour.
Landscaping	
PO 4.1 Landscaping is provided along public roads and thoroughfares, zone boundaries and the perimeter of common vehicle parking areas to enhance the visual appearance of development.	DTS/DPF 4.1 Other than to accommodate a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land, a landscaped area is provided within the development site in accordance with the following: (a) at least 1.5m wide along any boundary on the perimeter of the zone fronting a public road or thoroughfare (b) at least 1m wide around the perimeter of any shared vehicle parking area.
PO 4.2 Development incorporates areas for landscaping to enhance the overall amenity of the site and locality.	DTS/DPF 4.2 Landscape areas comprise: (a) not less than 10 percent of the site area (b) a dimension of at least 1m.
Concept Plans	
PO 5.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 5.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: In relation to DTS/DPF 5.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 5.1 is met.

Table 1 - Accepted Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: <ul style="list-style-type: none">Local Heritage Place OverlayState Heritage Area OverlayState Heritage Place Overlay	<ol style="list-style-type: none"> The item will be installed on or within an existing dwelling. The item being installed does not encroach on a public street. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Building alterations Except where any of the following apply: <ul style="list-style-type: none">Local Heritage Place OverlayState Heritage Area OverlayState Heritage Place Overlay	<ol style="list-style-type: none"> The alteration does not: <ol style="list-style-type: none"> increase the floor area of the building exceed the existing wall height exceed the existing overall building height alter the roof profile alter an approved privacy screening arrangement or window treatment Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.
Building work on railway land Except where any of the following apply: <ul style="list-style-type: none">Coastal Areas OverlayHazards (Acid Sulfate Soils) OverlayLocal Heritage Place OverlayMount Lofty Ranges Water Supply Catchment (Area 1) OverlayMount Lofty Ranges Water Supply Catchment (Area 2) OverlaySignificant Landscape Protection OverlayState Heritage Area OverlayState Heritage Place Overlay	<ol style="list-style-type: none"> Building work is associated with a railway. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017). It is required for the conduct or maintenance of railway activities. It does not involve the clearance of native vegetation.
Carport Except where any of the following apply: <ul style="list-style-type: none">Future Local Road Widening OverlayFuture Road Widening OverlayHistoric Area OverlayLocal Heritage Place OverlayState Heritage Area OverlayState Heritage Place Overlay	<ol style="list-style-type: none"> The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. It is ancillary to a dwelling erected on the site. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. Total floor area - does not exceed 40m².

6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end).
7. Building height - does not exceed 5m.
8. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11m unless:
 - (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
 - (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.
9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):
 - (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
 - (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.
10. The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment.
11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser).
12. The carport is located so that vehicle access:
 - (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
 - (b) is not obtained from a State maintained road, and will use a driveway that:
 - (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;
 - (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;
 - (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
 - (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access
 - (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site.
13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour.
14. Does not involve the clearance of native vegetation.

Outbuilding
 Except where any of the following apply:

- Coastal Areas Overlay
- Future Road Widening Overlay
- Hazards (Flooding) Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.
3. It is detached from and ancillary to a dwelling erected on the site.
4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary.
5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads).
6. Total floor area - does not exceed 40m².
7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end).
8. Building height - does not exceed 5m.
9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless:
 - (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
 - (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.
10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):
 - (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
 - (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.
11. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%.
12. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):
 - (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and

	<p>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.</p> <p>13. If the outbuilding is a garage, it is located so that vehicle access:</p> <p>(a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or</p> <p>(b) is not obtained from a State Maintained Road, and will use a driveway that:</p> <p>(i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;</p> <p>(ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;</p> <p>(iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average</p> <p>(iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access</p> <p>(v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site</p> <p>14. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour.</p> <p>15. Does not involve-</p> <p>(a) excavation exceeding a vertical height of 1 metre; or</p> <p>(b) filling exceeding a vertical height of 1 metre,</p> <p>and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres.</p> <p>16. Does not involve the clearance of native vegetation.</p>
<p>Partial demolition of a building or structure Except where any of the following apply:</p> <ul style="list-style-type: none"> • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay 	<p>None</p>
<p>Shade sail Except where any of the following apply:</p> <ul style="list-style-type: none"> • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay 	<ol style="list-style-type: none"> The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. Shade sail consists of permeable material. The total area of the sail - does not exceed 40m². No part of the shade sail will be: <ol style="list-style-type: none"> 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment 5m above ground or floor level (depending on where it is situated) within any other part of the allotment. Primary street setback - at least as far back as the building line of the building to which it is ancillary. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary. Does not involve the clearance of native vegetation.
<p>Solar photovoltaic panels (roof mounted) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay 	<ol style="list-style-type: none"> The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof. Panels and associated components do not overhang any part of the roof. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
<p>Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply:</p> <ul style="list-style-type: none"> • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay 	<ol style="list-style-type: none"> The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature). Primary street setback - at least as far back as the building line of the building to which it is ancillary.

	<p>6. Location of filtration system from a dwelling on an adjoining allotment:</p> <p>(a) not less than 5m where the filtration system is located inside a solid structure that will have material impact on the transmission of noise; or</p> <p>(b) not less than 12m in any other case.</p> <p>7. Does not involve the clearance of native vegetation.</p>
<p>Water tank (above ground)</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> Local Heritage Place Overlay State Heritage Area Overlay State Heritage Place Overlay 	<p>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</p> <p>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</p> <p>3. The tank is part of a roof drainage system.</p> <p>4. Total floor area - not exceeding 15m².</p> <p>5. The tank is located wholly above ground.</p> <p>6. Tank height - does not exceed 4m above natural ground level.</p> <p>7. Primary street setback - at least as far back as the building line of the building to which it is ancillary.</p> <p>8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour.</p> <p>9. Does not involve the clearance of native vegetation</p>
<p>Water tank (underground)</p>	<p>1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</p> <p>2. The tank (including any associated pump) is located wholly below the level of the ground.</p> <p>3. Does not involve the clearance of native vegetation.</p>

Table 2 - Deemed-to-Satisfy Development Classification

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)
Amenities block	<p>Land Use and Intensity DTS/DPF 1.1, DTS/DPF 1.4</p> <p>Built Form and Character DTS/DPF 3.1, DTS/DPF 3.2, DTS/DPF 3.3, DTS/DPF 3.4</p> <p>Landscaping DTS/DPF 4.1, DTS/DPF 4.2</p> <p>Concept Plans DTS/DPF 5.1</p>	<p>Clearance from Overhead Powerlines DTS/DPF 1.1</p> <p>Design [All development [Earthworks and sloping land]] DTS/DPF 8.1</p> <p>Infrastructure and Renewable Energy Facilities [Water Supply] DTS/DPF 11.1</p> <p>Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.1, DTS/DPF 12.2</p>	None	<p>Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1</p> <p>Building Near Airfields Overlay DTS/DPF 1.1</p> <p>Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1</p>

Table 3 - Applicable Policies for Performance Assessed Development

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone (applies only in the area affected by the Subzone)	Overlay (applies only in the area affected by the Overlay)

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m ² (b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) amenities block (c) carport (d) deck (e) dwelling (f) dwelling addition (g) fence (h) internal building works (i) land division (j) office (k) outbuilding (l) pergola (m) private bushfire shelter (n) replacement building (o) retaining wall (p) shade sail (q) shop (r) solar photovoltaic panels (roof mounted) (s) swimming pool or spa pool and associated swimming pool safety features (t) temporary accommodation in an area affected by bushfire (u) tree damaging activity (v) verandah (w) workers accommodation (x) water tank.	None specified.
3. Demolition.	Except any of the following: 1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)

	2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
4. Railway line.	Except where located outside of a rail corridor or rail reserve.

Placement of Notices - Exemptions for Performance Assessed Development

None specified

Placement of Notices - Exemptions for Restricted Development

None specified

Part 3 - Overlays

Adelaide Dolphin Sanctuary Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Protection of the Adelaide Dolphin Sanctuary dolphin population and their habitat.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
PO 1.1 Development avoids or minimises harm to habitat, and the functioning of ecosystems that support the dolphin population.	DTS/DPF 1.1 None are applicable.
PO 1.2 Development does not result in the disruption of critical dolphin behaviours such as breeding, feeding, resting and movement.	DTS/DPF 1.2 None are applicable.
PO 1.3 Stormwater runoff is disposed of in a manner that avoids pollution or other detrimental impacts to the Adelaide Dolphin Sanctuary.	DTS/DPF 1.3 None are applicable.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Advertising Near Signalised Intersections Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Provision of a safe road environment by reducing driver distraction at key points of conflict on the road.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Advertisements Near Signalised Intersections	
PO 1.1 Advertising near signalised intersections does not cause unreasonable distraction to road users through illumination, flashing lights, or moving or changing displays or messages.	DTS/DPF 1.1 Advertising: <ul style="list-style-type: none"> (a) is not illuminated (b) does not incorporate a moving or changing display or message (c) does not incorporate a flashing light(s).

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Advertisement or advertising hoarding that: <ul style="list-style-type: none"> (a) is within 100m of a: <ul style="list-style-type: none"> (i) signalised intersection or (ii) signalised pedestrian crossing and (b) will: <ul style="list-style-type: none"> (i) be internally illuminated or (ii) incorporate a moving or changing display or message or (iii) incorporate a flashing light. 	Commissioner of Highways.	To provide expert technical assessment on potential risks relating to pedestrian and road safety which may arise from advertisements near intersections.	Development of a class to which Schedule 9 clause 3 item 21 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

Affordable Housing Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Affordable housing is integrated with residential and mixed use development.
DO 2	Affordable housing caters for a variety of household structures.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Division	
PO 1.1	DTS/DPF 1.1

Development comprising 20 or more dwellings / allotments incorporates affordable housing.	Development results in 0-19 additional allotments / dwellings.
<p>PO 1.2</p> <p>Development comprising 20 or more dwellings or residential allotments provides housing suited to a range of incomes including households with low to moderate incomes.</p>	<p>DTS/DPF 1.2</p> <p>Development comprising 20 or more dwellings / or residential allotments includes a minimum of 15% affordable housing except where:</p> <ul style="list-style-type: none"> (a) it can be demonstrated that any shortfall in affordable housing has been provided in a previous stage of development or (b) it can be demonstrated that any shortfall in affordable housing will be accommodated in a subsequent stage or stages of development.
<p>PO 1.3</p> <p>Affordable housing is distributed throughout the development to avoid an overconcentration.</p>	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>
Built Form and Character	
<p>PO 2.1</p> <p>Affordable housing is designed to complement the design and character of residential development within the locality.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
Affordable Housing Incentives	
<p>PO 3.1</p> <p>To support the provision of affordable housing, minimum allotment sizes may be reduced below the minimum allotment size specified in a zone while providing allotments of a suitable size and dimension to accommodate dwellings with a high standard of occupant amenity.</p>	<p>DTS/DPF 3.1</p> <p>The minimum site area specified for a dwelling can be reduced by up to 20%, or the maximum density per hectare increased by up to 20%, where it is to be used to accommodate affordable housing except where the development is located within the Character Area Overlay or Historic Area Overlay.</p>
<p>PO 3.2</p> <p>To support the provision of affordable housing, building heights may be increased above the maximum specified in a zone.</p>	<p>DTS/DPF 3.2</p> <p>Where a building incorporates dwellings above ground level and includes at least 15% affordable housing, the maximum building height specified in any relevant zone policy can be increased by 1 building level in the:</p> <ul style="list-style-type: none"> (a) Business Neighbourhood Zone (b) City Living Zone (c) Established Neighbourhood Zone (d) General Neighbourhood Zone (e) Hills Neighbourhood Zone (f) Housing Diversity Neighbourhood Zone (g) Neighbourhood Zone (h) Master Planned Neighbourhood Zone (i) Master Planned Renewal Zone (j) Master Planned Township Zone (k) Rural Neighbourhood Zone (l) Suburban Business Zone (m) Suburban Neighbourhood Zone (n) Township Neighbourhood Zone (o) Township Zone (p) Urban Renewal Neighbourhood Zone (q) Waterfront Neighbourhood Zone <p>and up to 30% in any other zone, except where:</p> <ul style="list-style-type: none"> (a) the development is located within the Character Area Overlay or Historic Area Overlay or (b) other height incentives already apply to the development.
Movement and Car Parking	
<p>PO 4.1</p> <p>Sufficient car parking is provided to meet the needs of occupants of affordable housing.</p>	<p>DTS/DPF 4.1</p> <p>Dwellings constituting affordable housing are provided with car parking in accordance with the following:</p> <ul style="list-style-type: none"> (a) 0.3 carparks per dwelling within a building which incorporates dwellings located above ground level within either: <ul style="list-style-type: none"> (i) 200 metres of any section of road reserve along which a bus service operates as a high frequency public transit service⁽²⁾ (ii) is within 400 metres of a bus interchange⁽¹⁾ (iii) is within 400 metres of an O-Bahn interchange⁽¹⁾ (iv) is within 400 metres of a passenger rail station⁽¹⁾ (v) is within 400 metres of a passenger tram station⁽¹⁾ (vi) is within 400 metres of the Adelaide Parklands. or (b) 1 carpark per dwelling for any other dwelling.

[NOTE(S): (1) Measured from an area that contains any platform(s), shelter(s) or stop(s) where people congregate for the purpose waiting to board a bus, tram or train, but does not include areas used for the parking of vehicles. (2) A high frequency public transit service is a route serviced every 15 minutes between 7.30am and 6.30pm Monday to Friday and every 30 minutes at night, Saturday, Sunday and public holidays until 10pm.]

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Except where the applicant for the development is the South Australian Housing Authority (or an agent acting on behalf of the South Australian Housing Authority), residential development or land division (other than an excluded land division):</p> <ul style="list-style-type: none"> (a) that comprises 20 or more dwellings or residential allotments and is described in the application documentation as intending to provide affordable housing or (b) that is described in the application documentation as intending to provide affordable housing and the applicant is seeking to access one or more of the planning concessions outlined in the Affordable Housing Overlay DTS/DPF 3.1, 3.2 or 4.1 or (c) that is described in the application documentation as intending to include affordable housing of any number of dwellings or residential allotments 	Minister responsible for administering the <i>South Australian Housing Trust Act 1995</i> .	To provide direction on the conditions required to secure the provision of dwellings or allotments for affordable housing.	Development of a class to which Schedule 9 clause 3 item 20 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

Aircraft Noise Exposure Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development sensitive to aircraft noise is designed and located to manage noise intrusion to reduce land use conflict and protect human health.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
<p>PO 1.1</p> <p>Buildings that accommodate activities sensitive to aircraft noise are designed and located to minimise aircraft noise intrusion and provide appropriate interior acoustic amenity.</p>	<p>DTS/DPF 1.1</p> <p>Buildings accommodating sensitive receivers are not located within an area having an ANEF value of 30 or more.</p>
Built Form	
<p>PO 2.1</p> <p>Additions to buildings involving the addition or extension of habitable rooms are designed and located to minimise aircraft noise intrusion and provide appropriate interior acoustic amenity.</p>	<p>DTS/DPF 2.1</p> <p>Dwelling additions involving the addition or extension of habitable rooms:</p> <ul style="list-style-type: none"> (a) do not result in an increase in the total floor area of the existing dwelling by greater than 50 percent (b) do not occur in areas having an ANEF value of 30 or more.
Land Division	
<p>PO 3.1</p> <p>Land division does not increase the number of allotments used for sensitive receivers in areas adversely affected by aircraft noise to mitigate community exposure to potential adverse environmental and amenity impacts generated by aircraft movements.</p>	<p>DTS/DPF 3.1</p> <p>Land division:</p> <ul style="list-style-type: none"> (a) within an area having an ANEF value of less than 30 or (b) within an area having an ANEF value of 30 or more and:

- (i) does not result in any additional allotments
or
- (ii) none of the allotments will accommodate a sensitive receiver.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Airport Building Heights (Aircraft Landing Areas) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Management of potential impacts of buildings on the operational and safety requirements of aircraft landing areas.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Built Form	
PO 1.1 Building height does not pose a hazard to the operation of an aircraft landing area.	DTS/DPF 1.1 The distance from any part of a runway centreline to the closest point of the building is greater than 30 times building height.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Airport Building Heights (Regulated) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Management of potential impacts of buildings and generated emissions to maintain operational and safety requirements of registered and certified commercial and military airfields, airports, airstrips and helicopter landing sites.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Built Form	
PO 1.1 Building height does not pose a hazard to the operation of a certified or registered aerodrome.	DTS/DPF 1.1 Buildings are located outside the area identified as 'All structures' (no height limit is prescribed) and do not exceed the height specified in the Airport Building Heights (Regulated) Overlay which applies to the subject site as shown on the SA Property and Planning Atlas. In instances where more than one value applies to the site, the lowest value relevant to the site of the proposed development is applicable.
PO 1.2 Exhaust stacks are designed and sited to minimise plume impacts on aircraft movements associated with a certified or registered aerodrome.	DTS/DPF 1.2 Development does not include exhaust stacks.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Any of the following classes of development: (a) building located in an area identified as 'All structures' (no height limit is prescribed) or will exceed the height specified in the <i>Airport Building Heights (Regulated) Overlay</i> (b) building comprising exhaust stacks that generates plumes, or may cause plumes to be generated, above a height specified in the <i>Airport Building Heights (Regulated) Overlay</i> .	The airport-operator company for the relevant airport within the meaning of the <i>Airports Act 1996</i> of the Commonwealth or, if there is no airport-operator company, the Secretary of the Minister responsible for the administration of the <i>Airports Act 1996</i> of the Commonwealth.	To provide expert assessment and direction to the relevant authority on potential impacts on the safety and operation of aviation activities.	Development of a class to which Schedule 9 clause 3 item 1 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

Building Near Airfields Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Maintain the operational and safety requirements of certified commercial and military airfields, airports, airstrips and helicopter landing sites through management of non-residential lighting, turbulence and activities that may attract or result in the congregation of wildlife.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
PO 1.1 Outdoor lighting associated with a non-residential use does not pose a hazard to commercial or military aircraft operations.	DTS/DPF 1.1 Development: (a) primarily or wholly for residential purposes (b) for non-residential purposes that does not incorporate outdoor floodlighting.
PO 1.2 Development likely to attract or result in the congregation of wildlife is adequately separated from airfields to minimise the potential for aircraft wildlife strike.	DTS/DPF 1.2 All development except where it comprises one or more of the following located not less than 3km from the boundaries of an airport used by commercial or military aircraft: (a) food packing/processing plant (b) horticulture (c) intensive animal husbandry (d) showground

	(e) waste management facility (f) waste transfer station (g) wetland (h) wildlife sanctuary.
PO 1.3 Buildings are adequately separated from runways and other take-off and landing facilities within certified or registered aerodromes to minimise the potential for building-generated turbulence and windshear that may pose a safety hazard to aircraft flight movement.	DTS/DPF 1.3 The distance from any part of a runway centreline to the closest point of the building is not less than 35 times the building height.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Character Area Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Valued streetscape characteristics and development patterns are reinforced through contextually responsive development, design and adaptive reuse that responds to the attributes expressed in the Character Area Statement.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
All Development	
PO 1.1 All development is undertaken having consideration to the valued attributes expressed in the Character Area Statement.	DTS/DPF 1.1 None are applicable.
Built Form	
PO 2.1 The form of new buildings and structures that are visible from the public realm are consistent with the valued streetscape characteristics of the character area.	DTS/DPF 2.1 None are applicable.
PO 2.2 Development is consistent with the prevailing building and wall heights in the character area.	DTS/DPF 2.2 None are applicable.
PO 2.3 Design and architectural detailing of street-facing buildings (including but not limited to roof pitch and form, openings, chimneys and verandahs) are consistent with the prevailing characteristics in the character area.	DTS/DPF 2.3 None are applicable.
PO 2.4 Development is consistent with the prevailing front and side boundary setback pattern in the character area.	DTS/DPF 2.4 None are applicable.
PO 2.5 Materials are either consistent with or complement those within the character area.	DTS/DPF 2.5 None are applicable.
Alterations and Additions	
PO 3.1	DTS/DPF 3.1

<p>Additions and alterations do not adversely impact on the streetscape character.</p>	<p>Additions and alterations:</p> <ul style="list-style-type: none"> (a) are fully contained within the roof space of a building with no external alterations made to the building elevation facing the primary street or (b) meet all of the following: <ul style="list-style-type: none"> (i) do not include any development forward of the front façade building line (ii) any side or rear extensions are no closer to the side boundary than the existing building (iii) do not involve the construction or alteration of a second or subsequent building level.
<p>PO 3.2 Adaptive reuse and revitalisation of buildings to retain local character consistent with the Character Area Statement.</p>	<p>DTS/DPF 3.2 None are applicable.</p>
<p>Ancillary Development</p>	
<p>PO 4.1 Ancillary development, including carports, outbuildings and garages, complements the character of the area and associated building(s).</p>	<p>DTS/DPF 4.1 None are applicable.</p>
<p>PO 4.2 Ancillary development, including carports, outbuildings and garages, is located behind the building line of the principal building(s).</p>	<p>DTS/DPF 4.2 None are applicable.</p>
<p>PO 4.3 Advertising and advertising hoardings are located and designed to complement the building, be unobtrusive, be below the parapet line, not conceal or obstruct significant architectural elements and detailing, or dominate the building or its setting.</p>	<p>DTS/DPF 4.3 None are applicable.</p>
<p>PO 4.4 Fencing and gates closer to a street boundary (other than a laneway) than the elevation of the associated building are consistent with the traditional period, style and form of the of the associated building.</p>	<p>DTS/DPF 4.4 None are applicable.</p>
<p>Land Division</p>	
<p>PO 5.1 Land division creates allotments that are:</p> <ul style="list-style-type: none"> (a) compatible with the surrounding pattern of subdivision in the character area (b) of a dimension to accommodate buildings of a bulk and scale that reflect existing buildings and setbacks in the character area. 	<p>DTS/DPF 5.1 None are applicable.</p>
<p>Context and Streetscape Amenity</p>	
<p>PO 6.1 The width of driveways and other vehicle access ways are consistent with the prevalent width of existing driveways in the character area.</p>	<p>DTS/DPF 6.1 None are applicable.</p>
<p>PO 6.2 Development maintains the valued landscape pattern and characteristics that contribute to the character area, except where they compromise safety, create nuisance, or impact adversely on existing buildings or infrastructure.</p>	<p>DTS/DPF 6.2 None are applicable.</p>

Character Area Statements

Statement#	Statement						
<p>Character Areas affecting Alexandrina Council</p>							
	<p>Milang Character Area Statement (Alex-C1)</p> <p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. Cyclone wire and steel or timber frame.</p> <p>Brush fencing up to 1.4m in height with either rolled or metal capping.</p>
	Setting, landscaping, streetscape and public realm	<p>Centred around Da Costa Park historic area, and its associated built form and open space.</p> <p>Gleneig Tramway and linear reserve between Maxwell and Dunbar Terraces.</p>

Statement#	Statement	
	features	Norfolk Island pines and other mature street trees throughout.
	Representative Buildings	<i>[Not identified]</i>
HoBC4	Glenelg Character Area Statement (HoB-C4)	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>	
	<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	<p>1840s - 1930s.</p> <p>Earliest period of settlement of South Australia.</p> <p>Subdivision in 1839 by Light Finnis and Co.</p> <p>Growth period in 1920s associated with increase in holidaymaking and leisure pursuits.</p>
Allotments, subdivision and built form patterns	<p>Uniform street layout, an extension of the original Glenelg Village set out in 1839 by Colonel William Light.</p> <p>Rear laneways to service dwellings on Gordon and Rose Streets, and buildings on Brighton Road.</p> <p>Range allotment sizes.</p> <p>Medium to very large frontages.</p> <p>Small setbacks.</p> <p>Side setbacks provide visual spacing between dwellings.</p> <p>Consistency of setbacks in streetscapes.</p>	
Architectural styles, detailing and built form features	<p>Early symmetrical and asymmetrical cottages of low scale and simple form with restrained detailing.</p> <p>Mid-Victorian Period cottages and villas (symmetrical and asymmetrical), semi-detached cottages and row dwellings with detailing typical of the era including verandahs, cast iron lacework, hipped and gable roof forms, plaster and render mouldings.</p> <p>Inter-War buildings, mostly Bungalows.</p> <p>Low scale to medium, relatively small dimensions and basic building details.</p> <p>Many dwellings without vehicle garaging.</p> <p>Garages, carports and outbuildings, where they exist, are low in scale and simple in form. They are located unobtrusively, to the rear of dwellings or the principal building on the site or, alternatively to the side and well-setback from the front façade.</p> <p>Rectilinear plan forms.</p> <p>High degree of modulation and articulation.</p> <p>Low scale.</p> <p>Steep roof pitches in the order of 30 to 40 degrees (slightly lower on Inter-War buildings).</p> <p>Short roof spans.</p> <p>Hip and gable roof forms.</p> <p>Concave, bullnose and straight-pitched verandahs.</p> <p>Fine-grain detail in elements such as plinths, string courses, projecting sills.</p> <p>High solid to void ratio.</p> <p>Vertical proportions in windows and doors.</p> <p>Garages, carports and outbuildings are low in scale and generally located unobtrusively to the rear of dwellings or to the side, well set back from the front facade.</p>	
Building height	Predominantly single storey but some two storey.	
Materials	<p>Consistent with the materials used in the 1840s to 1930s period. Bluestone or sandstone walls (unpainted).</p> <p>Some brick.</p> <p>Brick or rendered quoin work and plinths.</p> <p>Corrugated iron roofing.</p> <p>Timber joinery including verandah posts and framing, fascia, barges, window frames, door frames and doors.</p>	

Statement#	Statement	
	Fencing	Fencing associated with the era and style of the building, and providing views to the building. Timber picket, timber dowel, timber paling. Hedging. Low masonry plinth with cast iron or wrought iron in a traditional arrangement. Woven wire or low masonry with or without geometric steel for Inter-war buildings. Cyclone wire and steel or timber frame.
	Setting, landscaping, streetscape and public realm features	Clearly defined setbacks and uniform front landscaping.
	Representative Buildings	<i>[Not identified]</i>

HoBC5	Glennelg North (West of Tapleys Hill Road) Character Area Statement (HoB-C5)	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>	
	<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	1850s to 1920s.
Allotments, subdivision and built form patterns	<p>Rectangular allotment shapes in varying sizes.</p> <p>Some allotments have been amalgamated to make way for residential flat buildings and units.</p> <p>Mix of front setback patterns, with older dwellings having small front setbacks, and later dwellings set further back from the street.</p> <p>Generally small front setbacks.</p> <p>Side setbacks provide visual spacing between dwellings.</p>	
Architectural styles, detailing and built form features	<p>Small scale, simplified building forms.</p> <p>Single storey detached and semi-detached villas.</p> <p>Single storey detached cottages.</p> <p>Early symmetrical and asymmetrical cottages of low scale and simple form with restrained detailing.</p> <p>Mid-Victorian Period cottages and villas (symmetrical and asymmetrical), semi-detached cottages and row dwellings with detailing typical of the era including verandahs, cast iron lacework, hipped and gable roof forms, plaster and render mouldings.</p> <p>Some Inter-War buildings, mostly Tudor style.</p> <p>Many dwellings without vehicle garaging.</p> <p>Garages, carports and outbuildings, where they exist, are low in scale and simple in form. They are located unobtrusively, to the rear of dwellings or the principal building on the site or, alternatively to the side and well-setback from the front façade.</p> <p>Rectilinear plan forms.</p> <p>High degree of modulation and articulation.</p> <p>Low scale.</p> <p>Steep roof pitches in the order of 30 to 40 degrees (slightly lower on Inter-War buildings).</p> <p>Short roof spans.</p> <p>Hip and gable roof forms.</p> <p>Concave, bullnose and straight-pitched verandahs.</p> <p>Fine-grain detail in elements such as plinths, string courses, projecting sills.</p> <p>High solid to void ratio.</p> <p>Vertical proportions in windows and doors.</p>	
Building height	Predominantly single storey but some two storey.	
Materials	Consistent with the materials used in the 1840s to 1920s period. Bluestone or sandstone walls. Corrugated iron roofing. Timber joinery including verandah posts and framing, fascia, barges, window frames, door frames and doors.	

Statement#	Statement	
	Fencing	Fencing associated with the era and style of the building, and providing views to the building. Timber picket, timber dowel, timber paling. Hedging. Low masonry plinth with cast iron or wrought iron in a traditional arrangement. Woven wire or low masonry with or without geometric steel for Inter-war buildings.
	Setting, landscaping, streetscape and public realm features	Small suburban feel, within proximity to the open spaces of the Patawalonga Reserve. Strong sense of uniformity of buildings in some areas.
	Representative Buildings	<i>[Not identified]</i>

HoBC6	Glennelg North (East of Tapleys Hill Road) Character Area Statement (HoB-C6)	
	The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	
	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	1880s to 1920s.
	Allotments, subdivision and built form patterns	Orderly subdivision pattern. Originally subdivided in 1841. Range of allotment sizes with wide frontages. Smaller allotment sizes with rear laneways between Alison and Bagshaw Streets. Medium front setbacks. Side setbacks provide visual spacing between dwellings.
Architectural styles, detailing and built form features	Larger scale single storey detached dwellings. Bungalow style dwellings with large front and side boundary setbacks. Examples of smaller scale dwellings between Alison and Bagshaw Streets. Early symmetrical and asymmetrical cottages of low scale and simple form with restrained detailing. Mid-Victorian Period cottages and villas (symmetrical and asymmetrical), semi-detached cottages and row dwellings with detailing typical of the era including verandahs, cast iron lacework, hipped and gable roof forms, plaster and render mouldings. Some Inter-War buildings, mostly Tudor style. Many dwellings without vehicle garaging. Rectilinear plan forms. High degree of modulation and articulation. Low scale. Steep roof pitches in the order of 30 to 40 degrees (slightly lower on Inter-War buildings). Short roof spans. Hip and gable roof forms. Concave, bullnose and straight-pitched verandahs. Fine-grain detail in elements such as plinths, string courses, projecting sills. High solid to void ratio. Vertical proportions in windows and doors. Garages, carports and outbuildings, where they exist, are low in scale and simple in form. They are located unobtrusively, to the rear of dwellings or the principal building on the site or, alternatively to the side and well-setback from the front façade.	
Building height	Predominantly single storey but some two storey.	
Materials	Consistent with the materials used in the 1840s to 1920s period. Sandstone and red brick facades. Corrugated iron roofing.	

Statement#	Statement	
		Timber joinery including verandah posts and framing, fascia, barges, window frames, door frames and doors.
	Fencing	Fencing associated with the era and style of the building, and providing views to the building. Timber picket, timber dowel, timber paling. Hedging. Low masonry plinth with cast iron or wrought iron in a traditional arrangement. Woven wire or low masonry with or without geometric steel for Inter-war buildings.
	Setting, landscaping, streetscape and public realm features	Combination of wide, open streetscapes, and more relatively narrow laneways. Frontages on MacFarlane and Bagshaw Streets facing the Old Gum Tree Reserve. St Leonard's Primary School is a significant presence to the locality.
	Representative Buildings	<i>[Not identified]</i>

Character Areas affecting City of Marion

MarC1	Edwardstown, Glandore, Glengowrie and Plympton Park Character Area Statement (Mar-C1)	
	The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	
	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	1920s to 1950.
	Allotments, subdivision and built form patterns	Conventional grid type pattern of streets. Large allotments. Predominantly detached dwellings. Some examples of semi-detached dwellings in Glandore and Glengowrie.
	Architectural styles, detailing and built form features	Single storey detached dwellings. Occasional single storey semi-detached dwellings. Mixture of Bungalow, Art Deco, Spanish Mission, Tudor. Articulated roof forms (gable, Dutch gable, hips). Chimneys, projecting front verandahs, porches, porticos. Garages and carports located behind main face of dwelling.
	Building height	Single storey. 2nd storey in roofline.
	Materials	Timber frame windows. External walls constructed of mixture of red brick, painted brick, stone and rendered masonry. Roofing - galvanised iron/replaced with colorbond, terracotta tiles.
	Fencing	Low height - rendered masonry, timber picket, post and wire, tubular.
Setting, landscaping, streetscape and public realm features	Tree lined streets. Well maintained traditional gardens. Mature vegetation in private properties. Low scale dwellings. Housing well setback from street.	
Representative Buildings	<i>[Not identified]</i>	

Marion Character Area Statement (Mar-C2)

Statement#	Statement		
MarC2	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
	<table border="1"> <tr> <td data-bbox="148 280 336 376">Eras, themes and context</td> <td data-bbox="336 280 1562 376"> Original housing stock - predominantly 1950s to 1970s. More recent infill scattered throughout. </td> </tr> </table>	Eras, themes and context	Original housing stock - predominantly 1950s to 1970s. More recent infill scattered throughout.
	Eras, themes and context	Original housing stock - predominantly 1950s to 1970s. More recent infill scattered throughout.	
	Allotments, subdivision and built form patterns	Grid type pattern of streets, partly angular due to diagonal alignment of railway resulting in some irregular shaped allotments. Large allotments. Detached dwellings.	
	Architectural styles, detailing and built form features	Predominantly single storey detached dwellings. Small number of 2 storey dwellings. Original housing stock - mixture of austerity, conventional 1950s. Roof forms (gable, hips).	
	Building height	Original housing stock is generally single storey. Recent dwellings are predominantly single storey however there are more examples of 2 storey.	
	Materials	External walls predominantly a mixture of brick (variety of colours) and rendered masonry. Roofing - original housing has terracotta tiles. More recent replacement housing has colorbond.	
	Fencing	No dominant fencing style or material. Mixed with open front yards.	
	Setting, landscaping, streetscape and public realm features	Tree lined streets. Well maintained leafy garden character. Mature vegetation in private properties. Low scale dwellings. Housing well setback from street. Visual separation between houses.

<p>Hills Character Area Statement (Mit-C3)</p>		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>		
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>		
<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
MitC3	Eras, themes and context	<p>Low density spacious setting with detached dwellings on large sites within natural vegetated settings with very few other housing types.</p>
	Allotments, subdivision and built form patterns	<p>Variations in land forms, including some steeply sloping locations, produce curvilinear road patterns and irregular shaped allotments in terms of size and frontage widths.</p> <p>Land slope leads to a variety of front setbacks and informs dwelling orientation and height relative to the street. Side setbacks are generally larger on one side of allotments.</p> <p>Simple housing forms of a single and two storey nature (including split level) that respond to land form.</p> <p>Garaging typically to side of dwelling or as an undercroft structure. Garaging is only forward of dwellings on steeply sloping sites and is in the form of standalone simple open structures.</p> <p>Row dwellings, group dwellings and residential flat buildings are not representative of the predominant built form in the area.</p>
	Architectural styles, detailing and built form features	<p>The area's built form exhibits a sense of spaciousness due to limited site coverage and generous front and side setbacks.</p> <p>Development responds to land form and does so in a way that blends with landscape character by minimising cut and fill and vegetation clearance.</p> <p>Where visible to the street, large differences in levels between dwellings and roadways are battered and landscaped.</p> <p>Where parking structures are forward of building lines, they are of an open form and low roof profile.</p>
	Building height	<p>Low profile roof forms and pitches reflect the land form are a common feature.</p> <p>One and two storeys typically responding to the land form.</p>
	Materials	<p>Building materials, colours and finishes assist in blending and receding buildings into the natural landscape character rather than openly contrasting and drawing attention to buildings.</p> <p>Predominantly darker subdued natural earthy tones for wall and roof materials. Lighter or paler colour complement</p>

Statement#	Statement	
		surrounding landscape in their tone. Highly reflective and bright, vivid colour finishes to walls and roof materials, such as stark white or similar are rarely found in the area.
Fencing		No presence of front fencing forward of the building line is a characteristic of the area, and in limited cases where front fencing is present, it is low or open in nature. The area features retaining walls that are mostly screened or are natural in form using mainly stone or natural rock, with walls being low in height, terraced and set well back from boundaries and providing landscaped space. High concrete sleeper walls are not a part of the built form streetscape.
Setting, landscaping, streetscape and public realm features		Strong landscape character attributes derive from extensive retention of native vegetation on sites, between buildings and within informal road verges. The presence of vegetation on sites, is a defining feature of the area. Streets retain an open, often spacious setting characterised by spaces between buildings which contain landscaping. Driveways on sloping sites meander within front yards of dwellings, with minimal cut and fill of the land surface, and feature landscaping on their edges.

Character Areas affecting City of Norwood, Payneham and St Peters

NPSPC1	<p>Evandale/Maylands/Stepney Character Area Statement (NPSP-C1)</p>	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>	
	<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	Pre-1940. Primarily low-scale and low density residential. Detached (including battleaxe in Maylands, Evandale and Payneham), semi-detached and group dwellings.
	Allotments, subdivision and built form patterns	Original, pre-1940s land division patterns. Setbacks from boundaries creating space between dwellings.
	Architectural styles, detailing and built form features	Traditional pre-1940s roof forms, eaves, front verandah treatments, window proportions. Semi-detached dwellings often presenting as single dwellings.
	Building height	Single storey, with some two storey to the rear of buildings (with single storey appearance to primary street frontage).
	Materials	Varied, traditional materials.
Fencing	Low, open-style fencing that allows connectivity to the street. Front fencing and side fencing (between the front of a dwelling and the street) and landscaping are important components of streetscape character. Some more solid forms of fencing along arterial roads.	
Setting, landscaping, streetscape and public realm features	Vehicle garaging, driveways and front fences are not dominant streetscape elements. In most areas mature street tree plantings provide an overall visual coherence to the streets. Soft front landscaping, including trees. Some limited advertising and signage which complements scale and architecture of associated buildings.	
Representative Buildings	<i>[Not identified]</i>	

	<p>Hackney Character Area Statement (NPSP-C2)</p>

NPSPC2		buildings.
	Allotments, subdivision and built form patterns	Original, pre-1940s land division patterns. Small areas of Hackney located along the southern side of Richmond Street and between Hackney Road and St Peters College. Existing development comprises a mix of compact and large allotments with a number of Local Heritage Places, pre-1940s dwellings and multi-unit sites.
	Architectural styles, detailing and built form features	Traditional pre-1940s roof forms, eaves, front verandah treatments, window proportions. Semi-detached dwellings often presenting as single dwellings.
	Building height	Two storey along Hackney Road. In other locations, single storey, with some two storey to the rear of buildings (with single storey appearance to primary street frontage).
	Materials	Varied, traditional materials.
	Fencing	Low, open-style fencing that allows connectivity to the street. Front fencing and side fencing (between the front of a dwelling and the street) and landscaping are important components of streetscape character. Some more solid forms of fencing along arterial roads.
	Setting, landscaping, streetscape and public realm features	Vehicle garaging, driveways and front fences are not dominant streetscape elements. In most areas mature street tree plantings provide an overall visual coherence to the streets. Soft front landscaping, including trees. Some limited advertising and signage which complements scale and architecture of associated buildings.

In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
NPSPC3	Eras, themes and context	Pre-1940. Primarily low-scale and low density residential. Detached (including battleaxe in Marryatville east and west of Clapton Road), semi-detached and group dwellings. Residential flat buildings in Marryatville east and west of Clapton Road.
	Allotments, subdivision and built form patterns	Original, pre-1940s land division patterns.
	Architectural styles, detailing and built form features	Traditional pre-1940s roof forms, eaves, front verandah treatments, window proportions. Semi-detached dwellings often presenting as single dwellings.
	Building height	Single storey, with some two storey to the rear of buildings (with single storey appearance to primary street frontage).
	Materials	Varied, traditional materials.
	Fencing	Low, open-style fencing that allows connectivity to the street. Front fencing and side fencing (between the front of a dwelling and the street) and landscaping are important components of streetscape character. Some more solid forms of fencing along arterial roads.
	Setting, landscaping, streetscape and public realm features	Vehicle garaging, driveways and front fences are not dominant streetscape elements. In most areas mature street tree plantings provide an overall visual coherence to the streets. Soft front landscaping, including trees. Some limited advertising and signage which complements scale and architecture of associated buildings.

Character Areas affecting City of Port Adelaide Enfield

PAdEC1	Enfield Character Area Statement (PAdE-C1)	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	1900s - 1950s built development.
	Allotments, subdivision and built form patterns	"Garden suburb" street pattern and modified grid. Generous allotment sizes with wide frontages and substantial rear gardens. Consistent front setbacks.
	Architectural styles, detailing and built form features	<p>The area is large and features a wide variety of housing styles including bungalows, villas, Tudors, art deco, inter-war, cottages and mansions generally built before the 1940s.</p> <p>There is also a significant stock of quality dwellings built between 1940 and 1950 that augment the pre 1940s dwellings and make an important contribution to the character of the area.</p> <p>There is a notable concentration of bungalows in the western portion of the area and this style is a defining feature in this part of the area.</p>
	Building height	Single storey.
	Materials	Materials consistent with the style of building and era of its original construction.
	Fencing	<p>Low and/or open consistent with the style and era of construction of the building it is associated with.</p> <p>Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms.</p> <p>Fences associated with houses from the 1920s including capped timber palings, post and wire or woven wire fences.</p>
	Setting, landscaping, streetscape and public realm features	<p>The 1920s street pattern in this area is distinctive and reflects the garden suburb approach to town planning and subdivision.</p> <p>It results in wide nature strips and reserves that together with mature, well landscaped gardens create road verges which contribute to an open and high quality residential character.</p>
	Representative Buildings	[Not identified]

PAdEC2	Glanville (East of Carlisle) Character Area Statement (PAdE-C2)	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	1860s - 1920s built development.
	Allotments, subdivision and built form patterns	The allotment pattern is shaped to accommodate the alignments of Carlisle Street and Causeway Road. Small allotment sizes with narrow frontages. Dwellings are built close to streets.
	Architectural styles, detailing and built form features	Housing styles include cottages, villas, inter-war and bungalows with cottages being the predominant and key defining feature in the area.
	Building height	Single storey.
	Materials	Materials consistent with the style of building and era of its original construction.
Fencing	Low and/or open consistent with the style and era of construction of the building it is associated with.	

Statement#	Statement		
		Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms. Fences associated with houses from the 1920s including capped timber palings, post and wire or woven wire fences.	
	Setting, landscaping, streetscape and public realm features	<p>The area is nestled in to the north west of the Jervois Street bridge and contains many old workers' cottages. These are particularly prevalent in the area bound by Sutherland Street, Connor Street, Hart Street and Carlisle Street.</p> <p>The area's simple low rise housing is strongly counterpointed by the modern, multi -storey Port Adelaide waterfront development to the east of the Outer Harbour rail line and provides an important representation of the early settlement and historical development of Port Adelaide.</p>	
	Representative Buildings	<i>[Not identified]</i>	
PAdEC3	<p>Largs / Largs North Character Area Statement (PAdE-C3)</p>		
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>		
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>		
	<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
	Eras, themes and context	1900s - 1960s built development.	
	Allotments, subdivision and built form patterns	<p>Grid pattern with predominately east -west running streets with the long axes of allotments running north-south. Allotments fronting Lady Gowrie Drive and Military Road configured with their long axes running east-west so that buildings address these roads. A high degree of consistency in front setbacks.</p> <p>Regular and generous rectangular allotments with wide frontages.</p>	
	Architectural styles, detailing and built form features	Wide range of housing styles including bungalows, villas, inter-war, Tudors, cottages and art deco. There is a strong concentration of pre 1940s built form.	
	Building height	Predominately single storey but some two storey along parts of the Lady Gowrie Drive frontage.	
	Materials	Materials consistent with the style of building and era of its original construction.	
	Fencing	<p>Low and/or open consistent with the style and era of construction of the building it is associated with.</p> <p>Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms. Fences associated with houses from the 1920s including capped timber palings, post and wire or woven wire fences.</p> <p>Original hedges retained, restored and where appropriate, extended, (utilizing the same species of planting currently in existence) as an alternative to constructed fences.</p>	
Setting, landscaping, streetscape and public realm features	<p>The southern boundary of this area adjoins the Semaphore/Largs Historic Area. It abuts the coast and contains a significant number of dwellings built during the period from 1915-1940.</p> <p>It has a strong relationship with the coast and features tree lined streets with footpaths on both sides that provide vistas and ready walking access to the foreshore and beach.</p> <p>Wide allotment frontages with generous spacing between driveways make a significant contribution to the walkability of these footpaths and the character of the area.</p> <p>An imposing stand of Norfolk Island pines along Lady Gowrie Drive is a key feature of the area.</p>		
Representative Buildings	<i>[Not identified]</i>		
	<p>Rosewater Character Area Statement (PAdE-C4)</p>		
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>		
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>		
	<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
Eras, themes and context	1900s - 1940s built development.		
Allotments, subdivision and built form patterns	Grid pattern distorted by the alignment of Newcastle Street. Small allotments with narrow frontages. Front setbacks are consistent on a street by street basis.		
Architectural styles, detailing and built form features	A variety of housing styles but cottages, villas and bungalows are the principle styles.		

Statement#	Statement	
PAdeC4	Building height	Single storey.
	Materials	Materials of existing buildings retained where practicable and missing elements reinstated consistent with the style of building and era of its original construction.
	Fencing	Low and/or open consistent with the style and era of construction of the building it is associated with. Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms. Fences associated with houses from the 1920s including capped timber palings, post and wire or woven wire fences.
	Setting, landscaping, streetscape and public realm features	Newcastle Street is a well landscaped road that provides the main access into this area. It features well established avenue tree planting that includes plane trees and jacarandas. Simple, single storey, historic detached dwellings built on allotments with consistent widths laid out in a grid pattern, and the adjacent Mt Carmel school and the reserve to the north west, combine to establish a country town like character.
	Representative Buildings	<i>[Not identified]</i>

Character Areas affecting City of Prospect

PrC1	Suburban Neighbourhood 1 Character Area Statement (Pr-C1)	
	The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	
	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	Late 19th and Early 20th centuries residential. Limited post-1950s residential. Very low density and primarily detached dwellings.
	Allotments, subdivision and built form patterns	Original land division patterns following grid type street pattern and displaying rectangular, rectilinear allotments. Spacious allotments. Large allotment frontages. Large front setbacks. Street facing front dwelling facades. Large spaces around and between dwellings including generous and asymmetrical (one side larger than the other) side setbacks between dwellings. Typically two storey dwellings display consistent side boundary setbacks between building levels.
	Architectural styles, detailing and built form features	Majority bungalows and villas of a significant scale. Pitched roofs with their vertical proportion similar to wall height and typically around 25 to 49 degree pitch. Prominent front verandahs of bull-nose or concave design. Moderate front façade detailing and articulation (wall off-sets, verandahs and deep eaves) with walls with a solid to void ratio of greater than 1:1 and fenestrations showing a vertical prominence.
	Building height	Primarily single storey presentation to the street with two storey components sited behind. 1 to 2 storey dwellings with vertical proportions consistent with traditional dwellings (wall height at least 3 metres and no more than 3.6 metres for single storey and up to 7 metres for two storeys. Large scale buildings in context with large to very large allotments and frontages.
	Materials	Stone, brick and rendered finishes. Detailing around doors, windows, wall edges and gables. Limited colour palette for the majority of building façade (sandstone to reds; bluestone and grey tones) with colour highlights in the detailing.
	Fencing	Front fences forward of the building are of an open style and low in height (to 1.2 metres high). Fencing style associated with dwelling style and era of development. Some more solid fencing of standard height along major roads.
Setting, landscaping, streetscape and public realm features	Leafy public realm that visually dominates or supports the built form. Extensively landscaped front yards with mature vegetation/tree canopy. Minimal hard and artificial surfaces. Mature vegetation in public realm. Garages and carports are designed and sited to be subordinate to the main dwelling. Access points are narrow and consolidated.	
Representative Buildings	<i>[Not identified]</i>	

Suburban Neighbourhood 2 Character Area Statement (Pr-C2)

The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	
The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	

Eras, themes and	Late 19th and Early 20th centuries residential. Limited post-1950s infill residential. Primarily low density and low scale residential, including
------------------	---

Statement#	Statement	
PrC2	context	detached, semi-detached and row dwellings.
	Allotments, subdivision and built form patterns	Original land division patterns following grid type street pattern and displaying rectangular, rectilinear allotments. Large allotments. Large allotment frontages. Large front setbacks along with reasonable side setbacks. Street facing front dwelling facades. Moderate spaces around dwellings including asymmetrical (one side larger than the other) side setbacks between dwellings. Typically two storey dwellings to display consistent side boundary setbacks between building levels.
	Architectural styles, detailing and built form features	Mainly single storey detached bungalows, cottages and villas. Pitched roofs with the vertical proportion similar to wall height and typically around 25 to 49 degree pitch. Front verandahs (with bull-nose or concave design) with façade detailing and moderate articulation. Moderate front façade detailing and articulation (wall off-sets, verandahs and deep eaves) with walls with a solid to void ratio of greater than 1:1 and fenestrations showing a vertical prominence.
	Building height	Primarily single storey presentation to the street with any two storey components sited behind. Predominantly 1 storey dwellings with vertical proportions consistent with traditional dwellings at least 3 metres and no more than 3.6 metres in wall height for single storey and up to 7 metres for two storeys. Moderate scale in context with low rise development, allotment size and frontages.
	Materials	Stone, brick and rendered finishes. Detailing around doors, windows, wall edges and gables Limited colour palette for the majority of building façade and roof areas (sandstone to reds; bluestone and grey tones) with complementary colour highlights in the detailing.
	Fencing	Front fences forward of the building are of an open style and low in height (to 1.2 metres high). Style associated with dwelling style and era of development. Some more solid fencing of standard height along major roads.
	Setting, landscaping, streetscape and public realm features	Leafy public realm that supports the built form. Garages and carports are designed and sited to be subordinate to the main dwelling. Access points are narrow and consolidated. Well landscaped front yards with mature vegetation/tree canopy. Minimal hard and artificial surfaces. Front and side garden landscaping. Leafy, garden suburb character and visual separation between houses.

PrC3	Suburban Neighbourhood 3 Character Area Statement (Pr-C3)	
	The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	
	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	Early 20th century residential. Some examples of residential infill comprising units, conventional and recent dwellings. Primarily low density and low scale residential including various dwelling types.
	Allotments, subdivision and built form patterns	Original land division patterns following grid type street pattern and displaying rectangular, rectilinear allotments. Moderate sized allotments. Moderate to compact allotment frontages. Street facing front dwelling facades. Moderate to compact asymmetrical spaces between dwellings providing physical and visual separation between dwellings. Typically two storey dwellings to display consistent side boundary setbacks between building levels.
	Architectural styles, detailing and built form features	Many bungalows with some cottages, Tudor and art deco housing. Pitched roofs with the vertical proportion similar to wall height and typically around 25 to 49 degree pitch. Front verandahs with façade detailing and moderate articulation (wall off-sets, verandahs and deep eaves) walls with a solid to void ratio of greater than 1:1 and fenestrations showing a vertical prominence.
Building height	Primarily single storey presentation to the street with two storey components sited behind. Predominantly 1 storey dwellings with vertical proportions consistent with traditional dwellings (at least 3 metres and no more than 3.6 metres in wall height). Moderate to compact scale in context with low rise development, allotment size and frontages.	
Materials	Stone, brick and rendered finishes and durable materials. Detailing around doors, windows, wall edges and gables. Limited palette for the majority of building façade and roof areas with colour highlights in the detailing (sandstone to reds; bluestone and grey tones) with complementary colour highlights in the detailing.	
Fencing	Front fences forward of the building are of an open style and low in height (to 1.2 metres high). Style associated with dwelling style and era of development. Some more solid fencing of standard height along major roads.	

Statement#	Statement	
	Setting, landscaping, streetscape and public realm features	Leafy public realm that supports the built form. Landscaped front yards with mature vegetation/tree canopy. Minimal hard and artificial surfaces. Leafy garden suburb character and maintaining visual separation between houses. Garages and carports are designed and sited to be subordinate to the main dwelling. Access points are narrow and consolidated.

Character Area affecting District Council of Tatiara

TatC1	Mundulla Character Area Statement (TatC1)	
	The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
	These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	
	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	Pre-1950.
	Allotments, subdivision and built form patterns	Original land division, large allotments. Buildings sited regularly and facing towards street frontages.
	Architectural styles, detailing and built form features	Consistent roof pitches. Unity of design and scale.
	Building height	Consistent, low scale.
	Materials	Earthen colours. Materials consistent with pre-1950s buildings.
Fencing	Informal fencing.	
Setting, landscaping, streetscape and public realm features	Individual and stands of trees, stone culverts, drainage and footpath system add to character of townscape. Informal street furniture, lighting, footpaths, road surface treatments, kerbing and guttering. Surrounded by well vegetated parklands and grazing land. Uncluttered appearance. Advertisements of traditional styles and scale consistent with the era.

Character Areas affecting City of Victor Harbor

ViHC1	Burke Street Character Area Statement (ViH-C1)	
	The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	
	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	Consistent low scale detached dwellings, primarily constructed after World War 1 to the later part of the 19th Century (mid 1800s to 1930s). Early settlement, consolidation and growth of residential development.
	Allotments, subdivision and built form patterns	Original street layout including rear access lanes and local roads. Curvilinear street with relatively large allotments roughly perpendicular to the street, most with rear laneway access.
	Architectural styles, detailing and built form features	Mix of small mid-1800s detached cottages of early Vernacular style, symmetrical and asymmetrical cottages and villas of the mid to late 1800s with Victorian stylistic influences, early 1900s cottages and villas with Federation stylistic influences, Inter-War bungalows. Church and Hall with late Victorian Gothic stylistic influences located at the bend in the road are landmarks. Adjacent to the Church is a Manse built in the Inter-War period with Georgian Revival stylistic influences.. Rectilinear plan form. Buildings are typically two or more pavilions rather than a single mass. Steeply-pitched roof forms, typically 35 to 40 degrees on 1800s and early 1900s era buildings and slightly lower on Inter-War buildings, reflecting traditional architectural styles and building methods. Short roof spans, minimising roof bulk. Concave, bullnose and straight-pitched verandahs on front and sometimes side facades reduce the bulk and scale and add visual interest. Lean-to forms are common. Fine-grain detail in elements such as plinths, string courses, projecting sills. High solid to void ratio. Vertical proportions in windows and doors.
Building height	Single storey, low scale and simple in form.	
Materials	Limestone walls. Red brick or rendered quoin work and details. Timber joinery including window frames, door frames, doors, fascias, bargeboards and verandah posts. Corrugated iron or corrugated steel roofing. Variation in materials assists in breaking down bulk and scale and adds visual interest.	
Fencing	Low, open style construction front fencing (1.2 metres or less) associated with the traditional period and style of building, and providing views to the building. Low timber pickets, post and rails, pier and plinth masonry or wrought iron. Rear and side fencing behind building line up to 1.8 metres, corrugated iron.	

Statement#	Statement	
	Setting, landscaping, streetscape and public realm features	Established garden settings. Varied, small front and side setbacks. Landscaped verges. Garages and carports are sited behind dwellings, accessed from rear laneways or well set back from the front of dwellings.

Character Areas affecting Town of Walkerville

Gilberton Character Area Statement (Walk-C1)		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
Eras, themes and context	Various eras of development that map out the developmental progress of the Walkerville Township, from the late 1870s to early 1900s.	
Allotments, subdivision and built form patterns	Predominantly low density detached dwellings on allotments that are medium in width and of a range of sizes. Some semi-detached and group dwellings on larger allotments.	
Architectural styles, detailing and built form features	The historic built form exhibits a mixture of architectural styles from the late 1800s and early 1900s. Edwardian villas alongside Victorian cottages pepper the locality providing a significant narrative that reflects the contemporaneous construction styles.	
Building height	Predominantly single storey. Two storey additions to the rear of buildings or within the roof space.	
Materials	Residences within this area vary in material application. Residences mostly constructed in locally sourced sandstone or bluestone, corrugated galvanised iron roofs and verandahs with cast iron lacework.	
Fencing	Original fencing with bluestone plinths and cast iron fence railings above. Low front fencing.	
Setting, landscaping, streetscape and public realm features	There is a reasonably well established pattern of development, with regular spacing between buildings, front setbacks and roof pitches. The landscape setting is an important element of the area, with generally open, well vegetated streetscapes through a combination of public and private plantings and low fencing forward each dwelling.	
Representative Buildings	[Not identified]	

Character Areas affecting City of West Torrens

Ashford Character Area Statement (WeTo-C1)		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
Eras, themes and context	1920s - 1940s	
Allotments, subdivision and built form patterns	Strong uniformity of allotment pattern. Low to very low density site areas. Wide street frontages. Medium sized detached dwellings on substantial allotments.	
Architectural styles, detailing and built form features	Predominantly Tudor and Bungalow dwellings. Articulated hip and gable roofs. Verandahs / porticos. Verandahs as continuation of main roof structure. Additions are generally located to the rear of the dwelling.	
Building height	Generally single storey. Second storey within the roof space.	
Materials	Brick. Painted brick. Stone. Rendered masonry. Corrugated pre-coloured or galvanised iron sheeting. Tiled roofs. Timber windows.	
Fencing	Low fencing facilitating views of the dwelling. Post and rail with woven wire. Low level stone or masonry. Timber picket.	
Setting, landscaping, streetscape and public realm features	Strong uniformity of layout and buildings. Carports and garages are behind the main face of dwellings. Consistent side and rear setbacks, large private yards. Generous traditional well-maintained gardens. Tree lined streets.

Character Areas affecting Whyalla City Council

Whyalla Character Area Statement (Wh-C1)		
The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.		
These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.		
The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.		
WhC1	Eras, themes and context	1900 - 1940. Developed in the first 40 years of Whyalla up until the 1940's. Illustrates the increasing prosperity of the city from the small corrugated or rendered masonry cottages to the substantial stone bungalow dwellings constructed by BHP for their senior staff at the steelworks.
	Allotments, subdivision and built form patterns	Pattern of division in predominantly quarter acre lots, generous roads and road reserves with ample provision for on street parking and street planting.
	Architectural styles, detailing and built form features	Colonial Cottages with half-hipped roofs, rendered masonry walls with open verandahs the width of the dwelling, symmetrical fronted dwellings with return verandahs and Bungalow dwellings dominate the architectural style of the dwellings.
	Building height	<i>[Not stated]</i>
	Materials	Corrugated iron, rendered masonry and BHP stone (including stone coins) and BHP brick are the predominant construction materials with

Statement#	Statement	
		corrugated iron roofs.
	Fencing	Simple low picket or low rendered masonry, low open fencing or hedging.
	Setting, landscaping, streetscape and public realm features	Pedestrian and cycle connection to the foreshore, Ada Ryan Gardens and Hummock Hill.
	Representative Buildings	[Not identified]

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Character Preservation District Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Recognise, protect and enhance the special character of Character Preservation Districts.
DO 2	The long term use of land outside of townships for primary production and associated value adding enterprises is assured and promoted.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Land division is undertaken in accordance with Section 8 of the <i>Character Preservation (Barossa Valley) Act 2012</i> and Section 8 of the <i>Character Preservation (McLaren Vale) Act 2012</i> .	DTS/DPF 1.1 None are applicable.
PO 1.2 Residential development located in townships to reinforce settlement patterns within the district and support the continuation of primary production on land outside townships.	DTS/DPF 1.2 Residential development located within designated township areas of the Character Preservation District Overlay.
Built Form and Character	
PO 2.1 Development occurring at the edge of townships is sympathetic to the rural landscape and reinforces a clear transition between townships and rural landscape through measures including: (a) being of a low scale (b) orientating residential development towards the rural area (c) ensuring visual separation from the rural area through landscaping and road reserves.	DTS/DPF 2.1 None are applicable.
PO 2.2 Development contributes to and maintains the historic identity and character of townships through appropriate: (a) form (b) scale	DTS/DPF 2.2 None are applicable.

(c) siting (d) design (e) landscaping.	
PO 2.3 Adaptive re-use of rural structures and historic and/or character buildings supports their preservation and ongoing contribution to the landscape.	DTS/DPF 2.3 None are applicable.
Built Form and Character in the Rural Area	
PO 3.1 Preservation of existing natural features including topography, watercourses and mature trees.	DTS/DPF 3.1 None are applicable.
PO 3.2 Buildings and structures do not interrupt views of the skyline through measures including being sited below ridge lines.	DTS/DPF 3.2 None are applicable.
PO 3.3 Buildings and structures harmonise with the natural features of the landscape and reinforce the rural character through the use of muted, neutral, non-reflective landscape colours on external surfaces.	DTS/DPF 3.3 None are applicable.
PO 3.4 Large buildings and structures are sited and oriented to minimise their visual bulk, particularly if close to roads or in open settings where there are no other buildings or mature trees in close proximity.	DTS/DPF 3.4 None are applicable.
PO 3.5 Buildings and structures are grouped to create compact clusters well set back from public roads.	DTS/DPF 3.5 None are applicable.
PO 3.6 Development mitigates the need for long, steep access roads that require excessive grading or removal of vegetation.	DTS/DPF 3.6 None are applicable.
Earthworks	
PO 4.1 Excavation and filling of land is limited to that associated with: (a) minimising the visual impact of buildings or structures or (a) construction of water storage facilities.	DTS/DPF 4.1 Excavation and/or filling of land is: (a) no greater than 1.5 metres from natural ground level (b) only undertaken in order to reduce the visual impact of buildings or structures or to construct water storage facilities.

Procedural Matters (PM)

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Coastal Areas Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	The natural coastal environment (including environmentally important features such as mangroves, wetlands, saltmarsh, sand dunes, cliff tops, native vegetation, wildlife habitat, shore and estuarine areas) is conserved and enhanced.

DO 2	Provision is made for natural coastal processes; and recognition is given to current and future coastal hazards including sea level rise, flooding, erosion and dune drift to avoid the need, now and in the future, for public expenditure on protection of the environment and development.
------	---

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature																															
Land Division																																
<p>PO 1.1</p> <p>Land is divided only if it or the subsequent development and use of the land will not adversely affect the environmental values or ability of the land or adjoining land to adapt to changing coastal processes.</p>	<p>DTS/DPF 1.1</p> <p>Land division for minor adjustment of allotment boundaries removes an anomaly in the current boundaries with respect to the location of buildings or structures.</p>																															
<p>PO 1.2</p> <p>Land is not divided unless a layout is achieved whereby roads, parking areas and development sites for each allotment are at least 0.3m above the standard sea flood risk level, unless the land has, or can be provided with, appropriate and acceptable coastal protection measures.</p>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>																															
<p>PO 1.3</p> <p>Other than small-scale infill land division in a predominantly urban zone, land division adjacent to the coast incorporates an existing or proposed public reserve (not including a road or erosion buffer) of a size adequate to provide for natural coastal processes, public access and recreation.</p>	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>																															
Hazard Risk Minimisation																																
<p>PO 2.1</p> <p>Buildings sited over tidal water or that are not capable of being raised or protected by flood protection measures in the future are protected against the standard sea flood risk level and 1m of sea level rise.</p>	<p>DTS/DPF 2.1</p> <p>Building floor levels are at least 1.25m above the standard sea flood risk level.</p>																															
<p>PO 2.2</p> <p>Development, including associated roads and parking areas, but not minor structures unlikely to be adversely affected by flooding, is protected from the standard sea flood risk level and 1m of sea level rise.</p>	<p>DTS/DPF 2.2</p> <p>Development incorporates finished ground and floor levels not less than:</p> <table border="1" style="width: 100%; Minimum finished floor level is 9.85m AHD	
Minimum finished floor level is 4.64m AHD	
In instances where no value is specified (i.e. there is a blank field):	<ul style="list-style-type: none"> (a) finished ground levels allow for sea level rise by being raised 0.3m or more above the standard sea flood risk level (b) finished floor levels are 0.55m or more above the standard sea flood risk level (c) practical measures can be implemented to provide future protection against an additional sea level rise of 0.7m plus an allowance to accommodate 100 years of land subsidence.
PO 2.3 Development will not create or aggravate coastal erosion or require coast protection works that cause or aggravate coastal erosion.	DTS/DPF 2.3 None are applicable.
PO 2.4 Development is set back a sufficient distance from the coast to provide an erosion buffer in addition to a public reserve that will allow for at least 100 years of coastal retreat for single buildings or small-scale developments, or 200 years of coastal retreat for large scale developments unless:	DTS/DPF 2.4 None are applicable.

<p>(a) the development incorporates appropriate private coastal protection measures to protect it from anticipated erosion or (b) there are formal commitments to protect the existing or proposed public reserve and development from anticipated coastal erosion.</p>	
<p>PO 2.5 Additions or alterations to, or replacement of, a dwelling do not increase the risk of effects from natural coastal processes such as flooding, sea-level rise, sand drift and erosion.</p>	<p>DTS/DPF 2.5 None are applicable.</p>
<p>Coast Protection Works</p>	
<p>PO 3.1 Development avoids the need for coast protection works through measures such as setbacks to protect development from coastal erosion, sea or stormwater flooding, sand drift or other coastal processes.</p>	<p>DTS/DPF 3.1 None are applicable.</p>
<p>PO 3.2 Development does not compromise the structural integrity of any sea wall or levee bank or the ability to maintain, modify or upgrade any sea wall or levee bank.</p>	<p>DTS/DPF 3.2 None are applicable.</p>
<p>PO 3.3 Unavoidable coast protection works are the subject of binding agreements to cover the cost of future construction, operation, maintenance and management measures and will not:</p> <ul style="list-style-type: none"> (a) have an adverse effect on coastal ecology, processes, conservation, public access and amenity (b) require commitment of public resources including land (c) present an unacceptable risk of failure relative to potential hazard resulting from failure. 	<p>DTS/DPF 3.3 None are applicable.</p>
<p>Environment Protection</p>	
<p>PO 4.1 Development will not unreasonably affect the marine and onshore coastal environment by pollution, erosion, damage or depletion of physical or biological resources; interference with natural coastal processes; or the introduction of and spread of marine pests and diseases or any other means.</p>	<p>DTS/DPF 4.1 None are applicable.</p>
<p>PO 4.2 Development avoids delicate or environmentally sensitive coastal areas such as sand dunes, cliff tops, estuaries, wetlands or substantially intact strata of native vegetation.</p>	<p>DTS/DPF 4.2 None are applicable.</p>
<p>PO 4.3 Development allows for ecological and natural landform adjustment to changing climatic conditions and sea levels, by allowing landward migration of dunes, coastal wetlands, mangrove and samphire areas.</p>	<p>DTS/DPF 4.3 None are applicable.</p>
<p>PO 4.4 Development avoids, or in built up areas minimises, impacts on important habitat areas that support the nesting, breeding and movement/migration patterns of fauna, including threatened shorebirds.</p>	<p>DTS/DPF 4.4 None are applicable.</p>
<p>PO 4.5 Development is designed so that wastewater is disposed of in a manner that avoids pollution or other detrimental impacts on the marine and on-shore environment of coastal areas.</p>	<p>DTS/DPF 4.5 Development is connected, or will be connected, to an approved common wastewater disposal service with the capacity to meet the requirements of the development or on-site wastewater systems set back a minimum of 100m from the Mean High Water Mark at spring tide.</p>
<p>PO 4.6 Development is designed so that stormwater runoff is disposed of in a manner that avoids pollution or other detrimental impacts on the marine and on-shore environment of coastal areas.</p>	<p>DTS/DPF 4.6 None are applicable.</p>
<p>PO 4.7 Development involving the removal of shell grit, cobbles or sand, other than for coastal protection works purposes, is not undertaken.</p>	<p>DTS/DPF 4.7 Development does not involve the removal of shell grit, cobbles or sand.</p>
<p>Access</p>	
<p>PO 5.1 Development maintains or enhances appropriate public access to and along the foreshore.</p>	<p>DTS/DPF 5.1 None are applicable.</p>
<p>PO 5.2 Public access through sensitive coastal landforms, particularly sand dunes, wetlands and cliffs, is restricted to defined pedestrian paths and constructed to minimise adverse environmental impact.</p>	<p>DTS/DPF 5.2 None are applicable.</p>
<p>PO 5.3</p>	<p>DTS/DPF 5.3</p>

<p>Access roads to the coast, lookouts and places of interest:</p> <p>(a) do not detract from the amenity or the environment</p> <p>(b) are designed for slow-moving traffic</p> <p>(c) are minimised in number.</p>	<p>None are applicable.</p>
<p>PO 5.4</p> <p>Development on land adjoining a coastal reserve is sited and designed to be compatible with the purpose, management and amenity of the reserve and to prevent inappropriate access to or use of the reserve.</p>	<p>DTS/DPF 5.4</p> <p>None are applicable.</p>

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Except where the development is, in the opinion of the relevant authority, minor in nature and would not warrant a referral when considering the purpose of the referral, the following:</p> <p>(a) excavation and/or filling where the total volume of material excavated and/or filled exceeds 9m³</p> <p>(b) dwellings and habitable buildings that:</p> <p>(i) do not meet DTS/DPF 2.2 or</p> <p>(ii) are within 100m of the mean high water mark</p> <p>(c) other than within a Rural Settlement Zone:</p> <p>(i) buildings with a floor area greater than 60m² or</p> <p>(ii) tourist accommodation, including a caravan park or</p> <p>(iii) division of land that would create 1 or more additional allotments</p> <p>(d) off-shore structures</p> <p>(e) coast protection works</p> <p>(f) infrastructure within 100m landward of the mean high water mark.</p>	<p>Coast Protection Board.</p>	<p>To provide expert assessment and direction to the relevant authority on:</p> <ul style="list-style-type: none"> the risk to development from current and future coastal hazards (including sea-level rise, coastal flooding, erosion, dune drift and acid sulfate soils); coast protection works; potential impacts from development on public access and the coastal environment (including important coastal features). 	<p>Development of a class to which Schedule 9 clause 3 item 3 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>

Coastal Flooding Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Recognition of coastal flood hazards to avoid the need, now and in the future, for public expenditure on protection of the environment and development.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature											
<p>PO 1.1</p> <p>Development, including associated roads and parking areas, but not minor structures unlikely to be adversely affected by flooding, is protected from the standard sea flood risk level and 1m of sea level rise.</p>	<p>DTS/DPF 1.1</p> <p>Development incorporates finished ground and floor levels not less than:</p> <table border="1" data-bbox="798 1848 1560 2208"> <thead> <tr> <th data-bbox="798 1848 1560 1877">Finished Ground and Floor Levels</th> </tr> </thead> <tbody> <tr> <td data-bbox="798 1877 1560 1906">Minimum finished floor level is 2.6m AHD</td> </tr> <tr> <td data-bbox="798 1906 1560 1935">Minimum finished floor level is 20.4m AHD</td> </tr> <tr> <td data-bbox="798 1935 1560 1964">Minimum finished floor level is 3m AHD</td> </tr> <tr> <td data-bbox="798 1964 1560 1993">Minimum finished floor level is 3.45m AHD</td> </tr> <tr> <td data-bbox="798 1993 1560 2022">Minimum finished floor level is 4.15m AHD</td> </tr> <tr> <td data-bbox="798 2022 1560 2051">Minimum finished floor level is 4.35m AHD</td> </tr> <tr> <td data-bbox="798 2051 1560 2080">Minimum finished floor level is 5.3m AHD</td> </tr> <tr> <td data-bbox="798 2080 1560 2110">Minimum finished ground level is 1.7m AHD; Minimum finished floor level is 1.95m AHD</td> </tr> <tr> <td data-bbox="798 2110 1560 2139">Minimum finished ground level is 1.75m AHD; Minimum finished floor level is 2m AHD</td> </tr> <tr> <td data-bbox="798 2139 1560 2168">Minimum finished ground level is 1.85m AHD; Minimum finished floor level is 2.1m AHD</td> </tr> </tbody> </table>	Finished Ground and Floor Levels	Minimum finished floor level is 2.6m AHD	Minimum finished floor level is 20.4m AHD	Minimum finished floor level is 3m AHD	Minimum finished floor level is 3.45m AHD	Minimum finished floor level is 4.15m AHD	Minimum finished floor level is 4.35m AHD	Minimum finished floor level is 5.3m AHD	Minimum finished ground level is 1.7m AHD; Minimum finished floor level is 1.95m AHD	Minimum finished ground level is 1.75m AHD; Minimum finished floor level is 2m AHD	Minimum finished ground level is 1.85m AHD; Minimum finished floor level is 2.1m AHD

In instances where no value is specified (i.e. there is a blank field):
(a) finished ground levels allow for sea level rise by being raised 300mm or more above the standard sea flood risk level
(b) finished floor levels are 550mm or more above the standard sea flood risk level
(c) practical measures can be implemented to provide future protection against an additional sea level rise of 700mm plus an allowance to accommodate 100 years of land subsidence.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Defence Aviation Area Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Management of potential impacts of buildings on the operational and safety requirements of Defence Aviation Areas.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Built Form	
PO 1.1 Building height does not pose a hazard to the operations of Defence Aviation Areas.	DTS/DPF 1.1 Building height does not exceed the relevant height specified by the <i>Defence Aviation Area Overlay</i> .
PO 1.2 Exhaust stacks are designed and sited to minimise plume impacts on aircraft movements associated with Defence Aviation Areas.	DTS/DPF 1.2 Development does not include exhaust stacks.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Design Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development positively contributes to the liveability, durability and sustainability of the built environment through high-quality design.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
General	
PO 1.1 Medium to high rise buildings and state significant development demonstrate high quality design.	DTS/DPF 1.1 None are applicable.

Procedural Matters (PM)

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Except where the development comprises a variation to an application that has either been:</p> <ul style="list-style-type: none"> (a) previously referred to the Government Architect or Associate Government Architect or (b) given development authorisation under the <i>Planning, Development and Infrastructure Act 2016</i> or <i>Development Act 1993</i> and (c) the variation to that application is, in the opinion of the relevant authority, minor in nature or would not warrant a referral when considering the purpose of the referral <p>any of the following classes of development:</p> <ul style="list-style-type: none"> (a) development within the area of the overlay located within the Corporation of the City of Adelaide where the total amount to be applied to any work, when all stages of the development are completed, exceeds \$10,000,000 (b) development within the area of the overlay located within the City of Port Adelaide Enfield where the total amount to be applied to any work, when all stages of the development are completed, exceeds \$3 000 000 (c) development within all other areas of the overlay that involves the erection or construction of a building that exceeds 4 building levels. 	Government Architect or Associate Government Architect	<p>To provide expert design advice to the relevant authority on how the development:</p> <ul style="list-style-type: none"> (a) responds to its surrounding context and contributes to the quality and character of a place (b) contributes to inclusiveness, connectivity, and universal design of the built environment (c) enables buildings and places that are fit for purpose, adaptable and long-lasting (d) adds value by positively contributing to places and communities (e) optimises performance and public benefit (f) supports sustainable and environmentally responsible development. 	Development of a class to which Schedule 9 clause 3 item 22 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

Dwelling Excision Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Creation of allotments to accommodate existing habitable dwellings in primary production areas is limited to avoid undermining primary production.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Division	
<p>PO 1.1</p> <p>Land division creating an additional allotment to accommodate an existing dwelling does not undermine the role of primary production areas by being limited and designed to achieve the following:</p> <ul style="list-style-type: none"> (a) accommodate a dwelling that has had a long term association with primary production on the same allotment (b) contain the excised dwelling within an allotment capable of providing a suitable rural residential amenity (c) maintain all other land (ie land outside the allotment containing the excised dwelling) in suitably sized allotments to support primary production (d) no other dwelling has been excised from the primary production allotment. 	<p>DTS/DPF 1.1</p> <p>Land division satisfies all the following:</p> <ul style="list-style-type: none"> (a) no other dwelling has previously been excised from the allotment by creating an additional allotment (b) it does not create more than one additional allotment where the resultant allotments satisfy (i) and (ii): <ul style="list-style-type: none"> (i) one allotment will contain a single existing lawful dwelling that existed prior to 1 December 2011 and meets all of the following: <ul style="list-style-type: none"> A. no allotment boundary is closer than 40m to an existing dwelling B. the allotment is no less than 1 hectare and no greater than 4 hectares in area C. if the allotment is of a battle-axe configuration, the driveway 'handle' is no more than 50 metres in length (ii) any other allotment has an area not less than that identified in the Minimum Site Area Technical and Numeric Variation layer in the SA planning database.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Environment and Food Production Areas Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Protection of valuable rural, landscape, environmental and food production areas from urban encroachment.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
<p>PO 1.1</p> <p>Land division undertaken in accordance with Section 7 of the <i>Planning, Development and Infrastructure Act 2016</i>.</p>	<p>DTS/DPF 1.1</p> <p>None are applicable.</p>

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Future Road Widening Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development which is consistent with and will not compromise efficient delivery of future road widening requirements.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Future Road Widening	
PO 1.1 Development does not compromise or is located and designed to minimise its impact on future road widening requirements.	DTS/DPF 1.1 Development does not involve building work, or building work is located wholly outside the land subject to the 6m Consent Area, the C Type Requirement or the Strip Requirement of the Metropolitan Adelaide Road Widening Plan.

Procedural Matters (PM)

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Other than where all deemed-to-satisfy criteria for all policies relevant to this referral are met, development (including the division of land) that is within or may encroach within a Future Road Widening Area.	Commissioner of Highways.	To provide expert technical assessment and direction to the relevant authority on the safe and efficient operation and management of all roads relevant to the Commissioner of Highways as described in the Planning and Design Code.	Development of a class to which Schedule 9 clause 3 item 4 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

Gas and Liquid Petroleum Pipelines Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Management of risk to public safety, the environment and security of energy supply from the encroachment of development on strategic gas and liquid petroleum pipelines.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Community exposure to a potential hazard from the failure of a gas or liquid petroleum pipeline is mitigated by locating development that may accommodate or result in large congregations of people, buildings for housing and / or caring for vulnerable people and community facilities outside areas that pose an unacceptable risk to protect life.	DTS/DPF 1.1 Development satisfies one of the following: <ul style="list-style-type: none"> (a) it does not comprise: <ul style="list-style-type: none"> (i) child care facility (ii) caravan and tourist park (iii) educational facility (iv) buildings comprising 3 or more building levels (v) land division creating allotments under 1ha for residential purposes (except where the existing allotment is less than 1ha) (vi) prison (vii) residential park (viii) retirement facility (ix) student accommodation (x) supported accommodation (xi) shop or shops with a gross leasable floor area of 1000m² or greater (xii) tourist accommodation

	(xiii) stadium (b) a class of development referred to in part (a), or any combination thereof, which will occur in accordance with an agreement under section 123 of the <i>Planning, Development and Infrastructure Act, 2016</i>
PO 1.2 Emergency service and major community health related facilities are located outside areas where a gas or liquid petroleum pipeline failure may disrupt ongoing operations to maintain the response capacity in the event of an emergency.	DTS/DPF 1.2 Development does not comprise any of the following: (a) emergency services facility (b) hospital.
PO 1.3 Development involving the manufacture, collection, handling or bulk storage of flammable, explosive, or otherwise hazardous materials is located and designed to avoid escalating the potential for and effects of a gas or liquid petroleum pipeline failure.	DTS/DPF 1.3 Development satisfies one of the following: (a) it does not comprise: (i) general industry (ii) special industry (iii) landfill (iv) renewable energy facility (v) electricity substation (vi) fuel depot (vii) retail fuel outlet (viii) store (ix) warehouse (x) waste treatment facility (b) a class of development referred to in part (a), or any combination thereof, which will occur in accordance with an agreement under section 123 of the <i>Planning, Development and Infrastructure Act, 2016</i>

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Except where the development is, in the opinion of the relevant authority, minor in nature and would not warrant a referral when considering the purpose of the referral, a class of development that does not satisfy Gas and Liquid Petroleum Pipelines Overlay DTS/DPF 1.1, 1.2 and 1.3.	The Chief Executive of the Department of the Minister responsible for administering the <i>Petroleum and Geothermal Energy Act 2000</i> .	To provide expert assessment and direction to the relevant authority in relation to: (a) potential safety issues relating to development or (b) the potential for development to adversely impact upon the lawful continued operation of strategic infrastructure (gas and liquid petroleum pipelines).	Development of a class to which Schedule 9 clause 3 item 9B of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

Gas and Liquid Petroleum Pipelines (Facilities) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Management of risk to public safety, the environment and security of energy supply from the encroachment of development on gas and liquid petroleum pipeline facilities.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
	Safety
PO 1.1	DTS/DPF 1.1

<p>Development (including land division) does not present a risk to public health and safety due to any of the following:</p> <ul style="list-style-type: none"> (a) continuous noise associated with pipeline facilities used for energy transportation that exceeds the Environment Protection (Noise) Policy (b) potential for occasional noise associated with high pressure venting. 	<p>Development (including land division creating additional allotments for such purposes) comprises one or more of the following:</p> <ul style="list-style-type: none"> (a) open space (b) roadways (c) a class of development that will occur in accordance with an agreement under section 123 of the <i>Planning, Development and Infrastructure Act, 2016</i> (d) a dwelling or ancillary building/structure on an allotment approved for residential purposes.
---	--

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Except where the development is, in the opinion of the relevant authority, minor in nature and would not warrant a referral when considering the purpose of the referral, a class of development that does not satisfy Overlay DTS/DPF 1.1.	The Chief Executive of the Department of the Minister responsible for administering the Petroleum and Geothermal Energy Act 2000.	To provide expert assessment and direction to the relevant authority in relation to: <ul style="list-style-type: none"> (a) potential safety issues relating to development or (b) the potential for development to adversely impact upon the lawful continued operation of strategic infrastructure (gas and liquid petroleum pipelines). 	Development of a class to which Schedule 9 clause 3 item 9B of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

Gateway Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	The visual amenity and streetscape appeal along prominent entrances into towns, tourist and historic precincts, activity centres and main streets is maintained and improved through the careful siting of buildings and other activities in a well landscaped setting.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Built Form and Character	
PO 1.1 Buildings are set back from main roads to support a consistent high-quality streetscape character where the prominence of larger buildings is appropriately mitigated.	DTS/DPF 1.1 Buildings are set back at least the height of the building and no less than 10m from arterial and main roads and highways, whichever is the greater.
PO 1.2 Building are set back from side boundaries to moderate the appearance of buildings and enhance the outlook from arterial and main roads and highways.	DTS/DPF 1.2 None are applicable.
PO 1.3 The main facade of principal buildings facing arterial and main roads and highways incorporate articulation and various materials to promote a high standard of building design and external appearance.	DTS/DPF 1.3 None are applicable.
Landscape Amenity	
PO 2.1	DTS/DPF 2.1

Ancillary buildings including carports, outbuildings and garages, other minor structures, waste storage bins and outdoor storage areas are sited to reduce visual clutter and untidiness from arterial and main roads and highways.	Ancillary buildings including carports, outbuildings and garages, other minor structures, waste storage bins and outdoor storage areas are located in a manner to satisfy one of the following: (a) behind principal building(s) facing arterial and main roads and highways (b) behind the building line of principal building(s) and obscured from public view from arterial and main roads and highways by solid fencing or landscaping.
Landscaping	
PO 3.1 Development incorporates generous landscaping areas along the frontage to arterial roads and highways to enhance visual amenity and complement associated buildings.	DTS/DPF 3.1 None are applicable.
PO 3.2 Existing mature on-site vegetation is retained and incorporated into landscape and parking areas to enhance the appearance of land and buildings.	DTS/DPF 3.2 None are applicable.
PO 3.3 Development incorporates generous landscaping areas along the frontage to arterial roads and landscaped using a combination of high crown evergreen trees, low shrubs and groundcovers to enhance visual amenity and complement the associated buildings.	DTS/DPF 3.3 None are applicable.
PO 3.4 Vehicle parking areas are located and designed to enhance the streetscape setting by: (a) being located to the side or rear of buildings facing arterial and main roads and highways (b) incorporating landscaping, including trees, to break up large parking areas.	DTS/DPF 3.4 None are applicable.
Advertisements	
PO 4.1 Advertisements along arterial and main roads, and highways are consistent in height, size and design to support a cohesive and uniform appearance in gateway locations without dominating the streetscape.	DTS/DPF 4.1 Advertisements meet all the following: (a) will not result in more than 1 advertisement per allotment (b) will not exceed 5m in height (c) do not exceed 3m ² per advertising face (d) are not internally illuminated (e) are not animated, flash or move in any way.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Hazards (Acid Sulfate Soils) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development is located and undertaken to minimise disturbance of potential or actual acid sulfate soils and / or the release of acid drainage.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
---------------------	---

Land Use and Intensity

<p>PO 1.1</p> <p>Development that involves excavation or a change to a water table where potential or actual acid sulfate soils are present is undertaken to minimise soil disturbance or drainage; prevent or minimise oxidation; and contain and treat any acid drainage to prevent harm or damage to the environment, primary production, buildings, structures and infrastructure or public health.</p>	<p>DTS/DPF 1.1</p> <p>Development does not involve or cause:</p> <ul style="list-style-type: none"> (a) excavation of land (b) change to a water table.

Hazards (Bushfire - General Risk) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development, including land division responds to the general level of bushfire risk by siting and designing buildings in a manner that mitigates the threat and impact of bushfires on life and property taking into account the increased frequency and intensity of bushfires as a result of climate change.
DO 2	To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Siting	
PO 1.1 Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain.	DTS/DPF 1.1 None are applicable.
Built Form	
PO 2.1 Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts.	DTS/DPF 2.1 None are applicable.
PO 2.2 Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and Workers' accommodation) in the event of bushfire.	DTS/DPF 2.2 Outbuildings and other ancillary structures are sited no closer than 6m from the habitable building.
Habitable Buildings	
PO 3.1 To minimise the threat, impact and exposure to bushfires on life and property, residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments away from steep slopes.	DTS/DPF 3.1 None are applicable.
PO 3.2	DTS/DPF 3.2

<p>Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited away from vegetated areas that pose an unacceptable bushfire risk.</p>	<p>Residential and tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zone(s) in accordance with (a) and (b):</p> <ul style="list-style-type: none"> (a) the asset protection zone has a minimum width of at least: <ul style="list-style-type: none"> (i) 50 metres to unmanaged grasslands (ii) 100 metres to hazardous bushland vegetation (b) the asset protection zone is contained wholly within the allotment of the development.
<p>PO 3.3 Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) has a dedicated area available that is capable of accommodating a bushfire protection system comprising firefighting equipment and water supply in accordance with <i>Ministerial Building Standard MBS 008 - Designated bushfire prone areas - additional requirements</i>.</p>	<p>DTS/DPF 3.3 None are applicable.</p>
<p>Land Division</p>	
<p>PO 4.1 Land division is designed and incorporates measures to minimise the danger of fire hazard to residents and occupants of buildings, and to protect buildings and property from physical damage in the event of a bushfire.</p>	<p>DTS/DPF 4.1 None are applicable.</p>
<p>PO 4.2 Land division is designed to provide a continuous street pattern to facilitate the safe movement and evacuation of emergency vehicles, residents, occupants and visitors.</p>	<p>DTS/DPF 4.2 None are applicable.</p>
<p>PO 4.3 Where 10 or more new allotments are proposed, land division includes at least two separate and safe exit points to enable multiple avenues of evacuation in the event of a bushfire.</p>	<p>DTS/DPF 4.3 None are applicable.</p>
<p>PO 4.4 Land division incorporates perimeter roads of adequate design in conjunction with bushfire buffer zones to achieve adequate separation between residential allotments and areas of unacceptable bushfire risk and to support safe access for the purposes of fire-fighting.</p>	<p>DTS/DPF 4.4 None are applicable.</p>
<p>Vehicle Access – Roads, Driveways and Fire Tracks</p>	
<p>PO 5.1 Roads are designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> (a) access, operation and evacuation of fire-fighting vehicles and emergency personnel (b) evacuation of residents, occupants and visitors. 	<p>DTS/DPF 5.1 Roads:</p> <ul style="list-style-type: none"> (a) are constructed with a formed, all-weather surface (b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road (c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road (d) have a minimum formed road width of 6m (e) provide overhead clearance of not less than 4m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1) (f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2) (g) incorporating cul-de-sac endings or dead end roads do not exceed 200m in length and the end of the road has either: <ul style="list-style-type: none"> (i) a turning area with a minimum formed surface radius of 12.5m (Figure 3) or (ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 4) (h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.
<p>PO 5.2 Access to habitable buildings is designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> (a) access, operation and evacuation of fire-fighting vehicles and emergency personnel (b) evacuation of residents, occupants and visitors 	<p>DTS/DPF 5.2 Access is in accordance with (a) or (b):</p> <ul style="list-style-type: none"> (a) a clear and unobstructed vehicle or pedestrian pathway of not greater than 60 metres in length is available between the most distant part of the habitable building and the nearest part of a formed public access road (b) driveways: <ul style="list-style-type: none"> (i) do not exceed 600m in length (ii) are constructed with a formed, all-weather surface (iii) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8) (iv) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway (v) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the driveway (vi) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 1)

	<ul style="list-style-type: none"> (vii) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 5) (viii) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 1) (ix) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 2) (x) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by using a 'U' shaped drive through design or by incorporating at the end of the driveway either: <ul style="list-style-type: none"> A. a loop road around the building B. a turning area with a minimum radius of 12.5m (Figure 3) C. a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 4) (xi) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.
<p>PO 5.3 Development does not rely on fire tracks as means of evacuation or access for fire-fighting purposes unless there are no safe alternatives available.</p>	<p>DTS/DPF 5.3 None are applicable.</p>

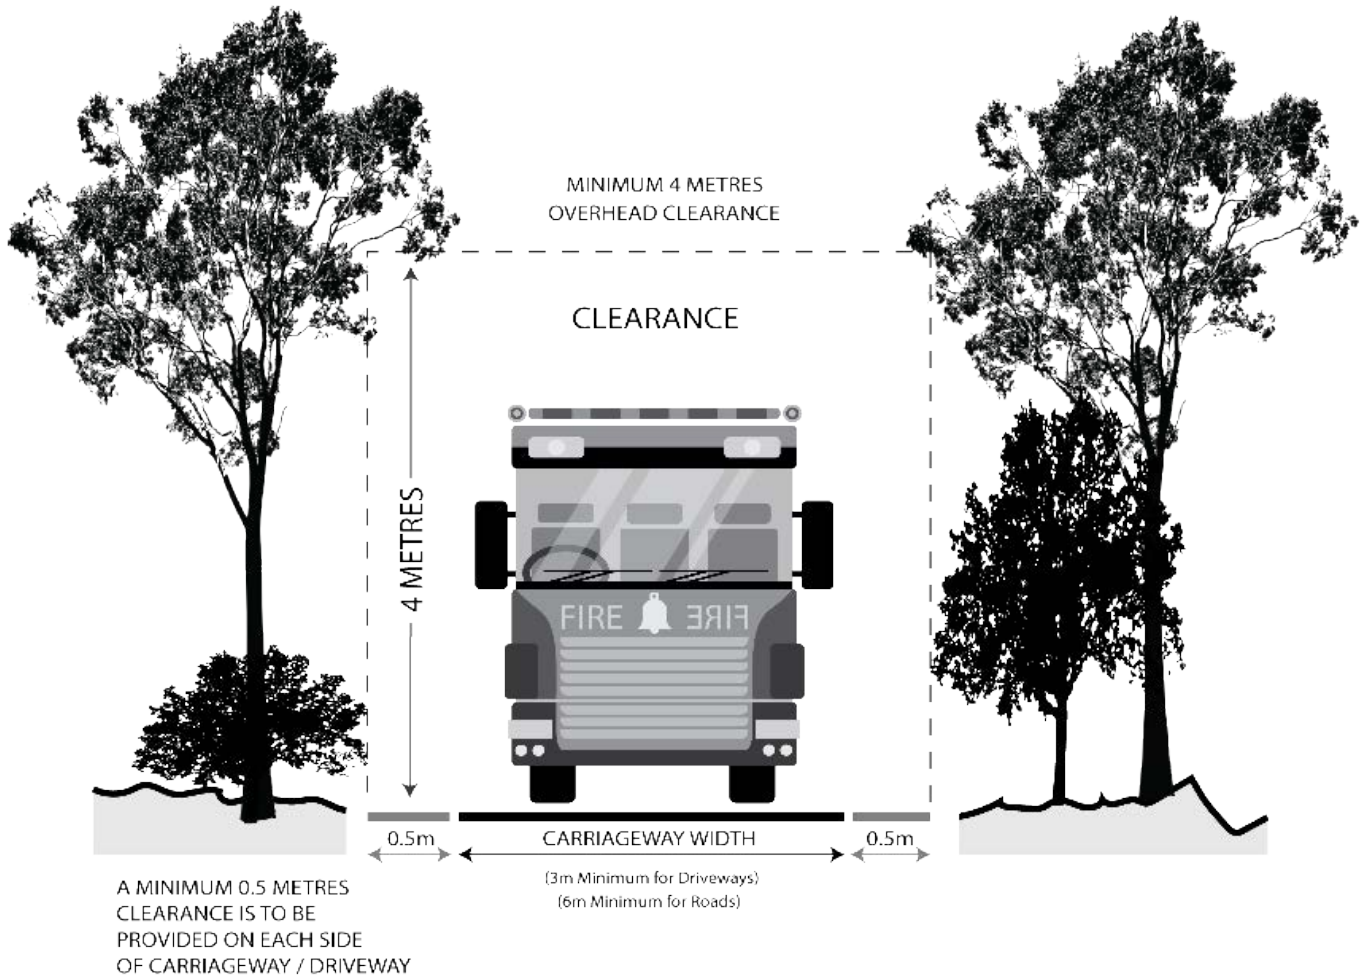

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference

Passing bay for fire trucks - minimum width 6 metres, minimum length 17 metres.

Hazards (Bushfire - High Risk) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	<p>Development, including land division is sited and designed to minimise the threat and impact of bushfires on life and property with regard to the following risks:</p> <ul style="list-style-type: none"> (a) potential for uncontrolled bushfire events taking into account the increased frequency and intensity of bushfires as a result of climate change (b) high levels and exposure to ember attack (c) impact from burning debris (d) radiant heat (e) likelihood and direct exposure to flames from a fire front.
DO 2	Activities that increase the number of people living and working in the area or where evacuation would be difficult is sited away from areas of unacceptable bushfire risk.
DO 3	To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
<p>PO 1.1</p> <p>Development that significantly increases the potential for fire outbreak as a result of the spontaneous combustion of materials, spark generation or through the magnification and reflection of light is not located in areas of unacceptable bushfire risk.</p>	<p>DTS/DPF 1.1</p> <p>None are applicable.</p>
<p>PO 1.2</p> <p>Child care facilities, educational facilities, hospitals, retirement and supported accommodation are sited away from areas of unacceptable bushfire risk and locations that:</p> <ul style="list-style-type: none"> (a) are remote from or require extended periods of travel to reach safer locations (b) don't have a safe path of travel to safer locations. 	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
Siting	
<p>PO 2.1</p> <p>Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
Built Form	
<p>PO 3.1</p> <p>Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts.</p>	<p>DTS/DPF 3.1</p> <p>None are applicable.</p>
<p>PO 3.2</p> <p>Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and Workers' accommodation) in the event of bushfire.</p>	<p>DTS/DPF 3.2</p> <p>Outbuildings and other ancillary structures are sited no closer than 6m from the habitable building.</p>
Habitable Buildings	
<p>PO 4.1</p> <p>To minimise the threat, impact and potential exposure to bushfires on life and property, residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments away from steep slopes.</p>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>
<p>PO 4.2</p> <p>Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited away from vegetated areas that pose an unacceptable bushfire risk.</p>	<p>DTS/DPF 4.2</p> <p>Residential and tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zone(s) in accordance with (a) and (b):</p> <ul style="list-style-type: none"> (a) the asset protection zone has a minimum width of at least: <ul style="list-style-type: none"> (i) 50 metres to unmanaged grasslands (ii) 100 metres to hazardous bushland vegetation

	(b) the asset protection zone is contained wholly within the allotment of the development.
<p>PO 4.3</p> <p>Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) has a dedicated area available that:</p> <p>(a) is capable of accommodating a bushfire protection system comprising firefighting equipment and water supply in accordance with <i>Ministerial Building Standard MBS 008 - Designated bushfire prone areas - additional requirements</i></p> <p>(b) includes the provision of an all-weather hardstand area in a location that:</p> <p>(i) allows fire-fighting vehicles to safely access the dedicated water supply and exit the site in a forward direction</p> <p>(ii) is no further than 6 metres from the dedicated water supply outlet(s) where required.</p>	<p>DTS/DPF 4.3</p> <p>None are applicable.</p>
Land Division	
<p>PO 5.1</p> <p>Land division for residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is limited to those areas specifically set aside for these uses.</p>	<p>DTS/DPF 5.1</p> <p>None are applicable.</p>
<p>PO 5.2</p> <p>Land division is designed and incorporates measures to minimise the danger of fire hazard to residents and occupants of buildings, and to protect buildings and property from physical damage in the event of a bushfire.</p>	<p>DTS/DPF 5.2</p> <p>None are applicable.</p>
<p>PO 5.3</p> <p>Land division is designed to provide a continuous street pattern (avoiding the use of dead end roads/cul-de-sac road design) to facilitate the safe movement and evacuation of emergency vehicles, residents, occupants and visitors. Where cul-de-sac / dead end roads are proposed, an alternative emergency evacuation route is provided.</p>	<p>DTS/DPF 5.3</p> <p>None are applicable.</p>
<p>PO 5.4</p> <p>Where 10 or more new allotments are proposed, land division includes at least two separate and safe exit points to enable multiple avenues of evacuation in the event of a bushfire.</p>	<p>DTS/DPF 5.4</p> <p>None are applicable.</p>
<p>PO 5.5</p> <p>Land division provides sufficient space for future asset protection zones and incorporates perimeter roads of adequate design in conjunction with bushfire buffer zones to achieve adequate separation between residential allotments and areas of unacceptable bushfire risk and to support safe access for the purposes of fire-fighting.</p>	<p>DTS/DPF 5.5</p> <p>None are applicable.</p>
Vehicle Access –Roads, Driveways and Fire Tracks	
<p>PO 6.1</p> <p>Roads are designed and constructed to facilitate the safe and effective:</p> <p>(a) access, operation and evacuation of fire-fighting vehicles and emergency personnel</p> <p>(b) evacuation of residents, occupants and visitors.</p>	<p>DTS/DPF 6.1</p> <p>Roads:</p> <p>(a) are constructed with a formed, all-weather surface</p> <p>(b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road</p> <p>(c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road</p> <p>(d) have a minimum formed road width of 6m</p> <p>(e) provide overhead clearance of not less than 4.0m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1)</p> <p>(f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)</p> <p>(g) incorporating cul-de-sac endings or dead end roads are provided within an alternative evacuation route and do not exceed 200m in length and the end of the road has either:</p> <p>(i) a turning area with a minimum formed surface radius of 12.5m (Figure 3) or</p> <p>(ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 4)</p> <p>(h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</p>
<p>PO 6.2</p> <p>Access to habitable buildings is designed and constructed to facilitate the safe and effective:</p> <p>(a) use, operation and evacuation of fire-fighting and emergency personnel</p> <p>(b) evacuation of residents, occupants and visitors.</p>	<p>DTS/DPF 6.2</p> <p>Access is in accordance with (a) or (b):</p> <p>(a) a clear and unobstructed vehicle or pedestrian pathway of not greater than 60 metres in length is available between the most distant part of the habitable building and the nearest part of a formed public access road</p> <p>(b) driveways:</p> <p>(i) do not exceed 600m in length</p>

	<ul style="list-style-type: none"> (ii) are constructed with a formed, all-weather surface (iii) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8) (iv) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway (v) have a crossfall of not more than 6 degrees (1-in-9.5) at any point along the driveway (vi) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 1) (vii) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 5) (viii) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 1) (ix) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 2) (x) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by using a 'U' shaped drive through design or by incorporating at the end of the driveway either: <ul style="list-style-type: none"> A. a loop road around the building or B. a turning area with a minimum radius of 12.5m (Figure 3) or C. a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 4) (xi) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.
<p>PO 6.3</p> <p>Development does not rely on fire tracks as means of evacuation or access for fire-fighting purposes unless there are no safe alternatives available.</p>	<p>DTS/DPF 6.3</p> <p>None are applicable.</p>

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Except if a relevant certificate accompanies the application for planning consent in respect of the development, any of the following classes of development (including alterations and additions which increase the floor area of such buildings by 10% or more):</p> <ul style="list-style-type: none"> (a) land division creating one or more additional allotments (b) dwelling (c) ancillary accommodation (d) residential flat building (e) tourist accommodation (f) boarding home (g) dormitory style accommodation (h) workers' accommodation (i) student accommodation (j) child care facility (k) educational facility (l) retirement village (m) supported accommodation (n) residential park (o) hospital (p) camp ground. 	<p>South Australian Country Fire Service.</p>	<p>To provide expert assessment and direction to the relevant authority on the potential impacts of bushfire on the development.</p>	<p>Development of a class to which Schedule 9 clause 3 item 2 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>

Hazards (Bushfire - Medium Risk) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development, including land division responds to the medium level of bushfire risk and potential for ember attack and radiant heat by siting and designing buildings in a manner that mitigates the threat and impact of bushfires on life and property taking into account the increased frequency and intensity of bushfires as a result of climate change.
DO 2	To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Siting	
PO 1.1 Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain.	DTS/DPF 1.1 None are applicable.
Built Form	
PO 2.1 Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts.	DTS/DPF 2.1 None are applicable.
PO 2.2 Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and Workers' accommodation) in the event of bushfire.	DTS/DPF 2.2 Outbuildings and other ancillary structures are sited no closer than 6m from the habitable building.
Habitable Buildings	
PO 3.1 To minimise the threat, impact and potential exposure to bushfires on life and property, residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments away from steep slopes.	DTS/DPF 3.1 None are applicable.
PO 3.2 Residential, tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited away from vegetated areas that pose an unacceptable bushfire risk.	DTS/DPF 3.2 Residential, tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zone(s) in accordance with (a) and (b): (a) the asset protection zone has a minimum width of at least: (i) 50 metres to unmanaged grasslands (ii) 100 metres to hazardous bushland vegetation (b) the asset protection zone is contained wholly within the allotment of the development.
PO 3.3 Residential, tourist accommodation and habitable buildings for vulnerable communities, (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation), has a dedicated area available that is capable of accommodating a bushfire protection system comprising firefighting equipment and water supply in accordance with <i>Ministerial Building Standard MBS 008 - Designated bushfire prone areas - additional requirements</i> .	DTS/DPF 3.3 None are applicable.
Land Division	
PO 4.1 Land division is designed and incorporates measures to minimise the danger of fire hazard to residents and occupants of buildings, and to protect buildings and property from physical damage in the event of a bushfire.	DTS/DPF 4.1 None are applicable.
PO 4.2 Land division is designed to provide a continuous street pattern to facilitate the safe movement and evacuation of emergency vehicles, residents, occupants and visitors.	DTS/DPF 4.2 None are applicable.

<p>PO 4.3</p> <p>Where 10 or more new allotments are proposed, land division includes at least two separate and safe exit points to enable multiple avenues of evacuation in the event of a bushfire.</p>	<p>DTS/DPF 4.3</p> <p>None are applicable.</p>
<p>PO 4.4</p> <p>Land division incorporates perimeter roads of adequate design in conjunction with bushfire buffer zones to achieve adequate separation between residential allotments and areas of unacceptable bushfire risk and to support safe access for the purposes of fire-fighting.</p>	<p>DTS/DPF 4.4</p> <p>None are applicable.</p>
<p>Vehicle Access - Roads, Driveways and Fire Tracks</p>	
<p>PO 5.1</p> <p>Roads are designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> (a) access, operation and evacuation of fire-fighting vehicles and emergency personnel (b) evacuation of residents, occupants and visitors. 	<p>DTS/DPF 5.1</p> <p>Roads:</p> <ul style="list-style-type: none"> (a) are constructed with a formed, all-weather surface (b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road (c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road (d) have a minimum formed road width of 6m (e) provide overhead clearance of not less than 4.0m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1) (f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2) (g) incorporating cul-de-sac endings or dead end roads do not exceed 200m in length and the end of the road has either: <ul style="list-style-type: none"> (i) a turning area with a minimum formed surface radius of 12.5m (Figure 3) or (ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 4) (h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.
<p>PO 5.2</p> <p>Access to habitable buildings is designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> (a) access, operation and evacuation of fire-fighting vehicles and emergency personnel (b) evacuation of residents, occupants and visitors. 	<p>DTS/DPF 5.2</p> <p>Access is in accordance with (a) or (b):</p> <ul style="list-style-type: none"> (a) a clear and unobstructed vehicle or pedestrian pathway of not greater than 60 metres in length is available between the most distant part of the habitable building and the nearest part of a formed public access road (b) driveways: <ul style="list-style-type: none"> (i) do not exceed 600m in length (ii) are constructed with a formed, all-weather surface (iii) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8) (iv) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway (v) have a crossfall of not more than 6 degrees (1-in-9.5) at any point along the driveway (vi) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 1) (vii) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 5) (viii) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 1) (ix) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 2) (x) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by using a 'U' shaped drive through design or by incorporating at the end of the driveway either: <ul style="list-style-type: none"> A. a loop road around the building or B. a turning area with a minimum radius of 12.5m (Figure 3) or C. a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 4) (xi) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.
<p>PO 5.3</p> <p>Development does not rely on fire tracks as means of evacuation or access for fire-fighting purposes unless there are no safe alternatives available.</p>	<p>DTS/DPF 5.3</p> <p>None are applicable.</p>

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Hazards (Bushfire - Outback) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development is located to minimise the threat and impact of bushfires on life and property taking into account the increased frequency and intensity of bushfires as a result of climate change.
DO 2	To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Habitable Buildings	
<p>PO 1.1</p> <p>Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain.</p>	<p>DTS/DPF 1.1</p> <p>Residential and tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zones(s) in accordance with (a) and (b):</p> <ul style="list-style-type: none"> (a) the asset protection zone has a minimum width of at least 50 metres (b) the asset protection zone is contained wholly within the allotment of the development.
Vehicle Access - Roads and Driveways	
<p>PO 2.1</p> <p>Roads are designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> (a) access, operation and evacuation of fire-fighting vehicles and emergency personnel (b) evacuation of residents, occupants and visitors 	<p>DTS/DPF 2.1</p> <p>Roads:</p> <ul style="list-style-type: none"> (a) are constructed with a formed, all-weather surface (b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road (c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road (d) have a minimum formed road width of 6m

	<ul style="list-style-type: none"> (e) provide overhead clearance of not less than 4m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1) (f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2) (g) incorporating cul-de-sac endings or dead end roads do not exceed 200m in length and the end of the road has either: <ul style="list-style-type: none"> (i) a turning area with a minimum formed surface radius of 12.5m (Figure 3) or (ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 4) (h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.
<p>PO 2.2</p> <p>Access to habitable buildings is designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> (a) access, operation and evacuation of fire-fighting and emergency personnel (b) evacuation of residents, occupants and visitors. 	<p>DTS/DPF 2.2</p> <p>Access is in accordance with (a) or (b):</p> <ul style="list-style-type: none"> (a) a clear and unobstructed vehicle or pedestrian pathway of not greater than 60 metres in length is available between the most distant part of the habitable building and the nearest part of a formed public access road (b) driveways: <ul style="list-style-type: none"> (i) do not exceed 600m in length (ii) are constructed with a formed, all-weather surface (iii) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8) (iv) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway (v) have a crossfall of not more than 6 degrees (1-in-9.5) at any point along the driveway (vi) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 1) (vii) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 5) (viii) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 1) (ix) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 2) (x) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by using a 'U' shaped drive through design or by incorporating at the end of the driveway either: <ul style="list-style-type: none"> A. a loop road around the building or B. a turning area with a minimum radius of 12.5m (Figure 3) or C. a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 4) (xi) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.

Hazards (Bushfire - Regional) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development, including land division responds to the relevant level of bushfire risk and is sited and designed to mitigate the threat and impact of bushfires on life and property taking into account the increased frequency and intensity of bushfires as a result of climate change.
DO 2	To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Siting	
PO 1.1 Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain.	DTS/DPF 1.1 None are applicable.
Built Form	
PO 2.1 Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts.	DTS/DPF 2.1 None are applicable.
PO 2.2 Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) in the event of bushfire.	DTS/DPF 2.2 Outbuildings and other ancillary structures are sited no closer than 6m from the habitable building.
Habitable Buildings	
PO 3.1 To minimise the threat, impact and exposure to bushfires on life and property, residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments away from steep slopes.	DTS/DPF 3.1 None are applicable.
PO 3.2 Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited away from vegetated areas that pose an unacceptable bushfire risk.	DTS/DPF 3.2 Residential and tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zone(s) in accordance with (a) and (b): (a) the asset protection zone has a minimum width of at least: (i) 50 metres to unmanaged grasslands (ii) 100 metres to hazardous bushland vegetation (b) the asset protection zone is contained wholly within the allotment of the development.
PO 3.3 Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) has a dedicated and accessible water supply available at all times for fire-fighting purposes.	DTS/DPF 3.3 Development has a dedicated water supply available at all times for fire-fighting purposes: (a) comprising a minimum of 5000 litres (b) positioned in an accessible location and accompanied with necessary equipment to allow occupants to minimise the spread of bushfire to the habitable building(s).
Land Division	
PO 4.1 Land division is designed to and incorporates measures to minimise the danger of fire hazard to residents and occupants of buildings, and to protect buildings and property from physical damage in the event of a bushfire.	DTS/DPF 4.1 None are applicable.
PO 4.2 Land division designed to provide a continuous street pattern to facilitate the safe movement and evacuation of emergency vehicles, residents, occupants and visitors.	DTS/DPF 4.2 None are applicable.

<p>PO 4.3</p> <p>Where 10 or more new allotments are proposed, land division includes at least two separate and safe exit points to enable multiple avenues of evacuation in the event of a bushfire.</p>	<p>DTS/DPF 4.3</p> <p>None are applicable.</p>
<p>PO 4.4</p> <p>Land division incorporates perimeter roads of adequate design in conjunction with bushfire buffer zones to achieve adequate separation between residential allotments and areas of unacceptable bushfire risk and to support safe access for the purposes of fire-fighting.</p>	<p>DTS/DPF 4.4</p> <p>None are applicable.</p>
<p>Vehicle Access -Roads and Driveways</p>	
<p>PO 5.1</p> <p>Roads are designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> (a) access, operation and evacuation of fire-fighting vehicles and emergency personnel (b) evacuation of residents, occupants and visitors. 	<p>DTS/DPF 5.1</p> <p>Roads:</p> <ul style="list-style-type: none"> (a) are constructed with a formed, all-weather surface (b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road (c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road (d) have a minimum formed road width of 6m (e) provide overhead clearance of not less than 4.0m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1) (f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2) (g) incorporating cul-de-sac endings or dead end roads do not exceed 200m in length and the end of the road has either: <ul style="list-style-type: none"> (i) a turning area with a minimum formed surface radius of 12.5m (Figure 3) or (ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 4) (h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.
<p>PO 5.2</p> <p>Access to habitable buildings is designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> (a) access, operation and evacuation of fire-fighting vehicles and emergency personnel (b) evacuation of residents, occupants and visitors. 	<p>DTS/DPF 5.2</p> <p>Access is in accordance with (a) or (b):</p> <ul style="list-style-type: none"> (a) a clear and unobstructed vehicle or pedestrian pathway of not greater than 60 metres in length is available between the most distant part of the habitable building and the nearest part of a formed public access road (b) driveways: <ul style="list-style-type: none"> (i) do not exceed 600m in length (ii) are constructed with a formed, all-weather surface (iii) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8) (iv) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway (v) have a crossfall of not more than 6 degrees (1-in-9.5) at any point along the driveway (vi) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 1) (vii) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 5) (viii) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 1) (ix) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 2) (x) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by using a 'U' shaped drive through design or by incorporating at the end of the driveway either: <ul style="list-style-type: none"> A. a loop road around the building or B. a turning area with a minimum radius of 12.5m (Figure 3) or C. a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 4) (xi) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.
<p>PO 5.3</p> <p>Development does not rely on fire tracks as means of evacuation or access for fire-fighting purposes unless there are no safe alternatives available.</p>	<p>DTS/DPF 5.3</p> <p>None are applicable.</p>

Hazards (Flooding) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Impacts on people, property, infrastructure and the environment from high flood risk are minimised by retaining areas free from development, and minimising intensification where development has occurred.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Division	
PO 1.1 Land division is limited to areas where the consequences to buildings and safety are low and can be readily managed or overcome.	DTS/DPF 1.1 None are applicable.
Land Use	
PO 2.1 Development sited and designed to minimise exposure of people and property to unacceptable flood risk.	DTS/DPF 2.1 None are applicable.
PO 2.2 Buildings housing vulnerable people, community services facilities, key infrastructure and emergency services are sited away from flood prone areas to enable uninterrupted operation of services and reduce likelihood of entrapment.	DTS/DPF 2.2 Child care facilities, educational facilities, retirement and supported accommodation, emergency services facilities, hospitals and prisons are not located within the Overlay area.
Flood Resilience	
PO 3.1 Development avoids the need for flood protection works.	DTS/DPF 3.1 None are applicable.
PO 3.2 Development does not cause unacceptable impacts on any adjoining property by the	DTS/DPF 3.2 None are applicable.

diversion of flood waters or an increase in flood velocity or flood level.	
PO 3.3 Development does not impede the flow of floodwaters through the allotment or the surrounding land, or cause an unacceptable loss of flood storage.	DTS/DPF 3.3 None are applicable.
PO 3.4 Development avoids frequently flooded or high velocity areas, other than where it is part of a flood mitigation scheme to reduce flood impact.	DTS/DPF 3.4 Other than a recreation area, development is located outside of the 5% AEP principal flow path.
PO 3.5 Buildings are sited, designed and constructed to prevent the entry of floodwaters in a 1% AEP flood event where the entry of floodwaters is likely to result in undue damage to, or compromise ongoing activities within, buildings.	DTS/DPF 3.5 Buildings comprise one of the following: (a) a porch or portico with at least 2 open sides (b) a verandah with at least 3 open sides (c) a carport or outbuilding with at least 2 open sides (whichever elevations face the direction of the flow) (d) any post construction with open sides (e) a building with a finished floor level that is at least 300mm above the height of a 1% AEP flood event.
PO 3.6 Fences do not unreasonably impede floodwaters.	DTS/DPF 3.6 A post and wire fence (other than a chain mesh fence).
Environmental Protection	
PO 4.1 Buildings and structures used either partly or wholly to contain or store hazardous materials are designed to prevent spills or leaks leaving the confines of the building during a 1% AEP flood event to avoid potential environmental harm.	DTS/DPF 4.1 Development involving the storage or disposal of hazardous materials is wholly located outside of the 1% AEP flood plain or flow path.
PO 4.2 Development does not create or aggravate the potential for erosion or siltation or lead to the destruction of vegetation during a flood.	DTS/DPF 4.2 None are applicable.
Site Earthworks	
PO 5.1 The depth and extent of filling required to raise the finished floor level of a building does not cause unacceptable impact on any adjoining property by diversion of flood waters, an increase in flood velocity or flood level, or an unacceptable loss of flood storage.	DTS/DPF 5.1 None are applicable.
PO 5.2 Driveways, access tracks and parking areas are designed and constructed to minimise excavation and filling.	DTS/DPF 5.2 Filling for ancillary purposes: (a) does not exceed 300mm above existing ground level (b) is no more than 5m wide.
Access	
PO 6.1 Development does not occur on land: (a) from which evacuation to areas not vulnerable to flood risk is not possible during a 1% AEP flood event (b) which cannot be accessed by emergency services vehicles or essential utility service vehicles during a 1% AEP flood event.	DTS/DPF 6.1 None are applicable.
PO 6.2 Access driveways and tracks to significant development (i.e. dwellings, places of work, etc.) consist of a safe, all-weather trafficable surface that is accessible during a 1% AEP flood event.	DTS/DPF 6.2 None are applicable.

Hazards (Flooding – General) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Impacts on people, property, infrastructure and the environment from general flood risk are minimised through the appropriate siting and design of development.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature																																						
Land Use																																							
<p>PO 1.1</p> <p>Buildings housing vulnerable people, community services facilities, key infrastructure and emergency services are sited away from flood areas enable uninterrupted operation of services and reduce likelihood of entrapment.</p>	<p>DTS/DPF 1.1</p> <p>Child care facilities, educational facilities, retirement and supported accommodation, emergency services facilities, hospitals and prisons located outside the 1% AEP flood event.</p>																																						
Flood Resilience																																							
<p>PO 2.1</p> <p>Development is sited, designed and constructed to prevent the entry of floodwaters where the entry of flood waters is likely to result in undue damage to or compromise ongoing activities within buildings.</p>	<p>DTS/DPF 2.1</p> <p>Habitable buildings, commercial and industrial buildings, and buildings used for animal keeping incorporate a finished ground and floor level not less than:</p> <table border="1" style="width: 100%; Minimum finished floor level is 9.85m AHD	
Minimum finished floor level is 4.64m AHD	
In instances where no finished floor level value is specified, a building incorporates a finished floor level at least 300mm above the height of a 1% AEP flood event.	

Environmental Protection	
PO 3.1 Buildings and structures used either partly or wholly to contain or store hazardous materials are designed to prevent spills or leaks leaving the confines of the building during a 1% AEP flood event to avoid potential environmental harm.	DTS/DPF 3.1 Development involving the storage or disposal of hazardous materials is wholly located outside of the 1% AEP flood plain or flow path.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development adopts a precautionary approach to mitigate potential impacts on people, property, infrastructure and the environment from potential flood risk through the appropriate siting and design of development.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Flood Resilience	
PO 1.1 Development is sited, designed and constructed to minimise the risk of entry of potential floodwaters where the entry of flood waters is likely to result in undue damage to or compromise ongoing activities within buildings.	DTS/DPF 1.1 Habitable buildings, commercial and industrial buildings, and buildings used for animal keeping incorporate a finished floor level at least 300mm above: <ul style="list-style-type: none"> (a) the highest point of top of kerb of the primary street or (b) the highest point of natural ground level at the primary street boundary where there is no kerb
Environmental Protection	
PO 2.1 Buildings and structures used either partly or wholly to contain or store hazardous materials are designed to prevent spills or leaks leaving the confines of the building.	DTS/DPF 2.1 Development does not involve the storage of hazardous materials.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Heritage Adjacency Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development adjacent to State and Local Heritage Places maintains the heritage and cultural values of those Places.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Built Form	
PO 1.1 Development adjacent to a State or Local Heritage Place does not dominate, encroach on or unduly impact on the setting of the Place.	DTS/DPF 1.1 None are applicable.
Land Division	
PO 2.1 Land division adjacent to a State or Local Heritage Place creates allotments that are of a size and dimension that enables the siting and setbacks of new buildings from allotment	DTS/DPF 2.1 None are applicable.

boundaries so that they do not dominate, encroach or unduly impact on the setting of the Place.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Development which in the opinion of the relevant authority materially affects the context within which the State Heritage Place is situated.	Minister responsible for the administration of the <i>Heritage Places Act 1993</i> .	To provide expert assessment and direction to the relevant authority on the potential impacts of development adjacent State Heritage Places.	Development of a class to which Schedule 9 clause 3 item 17 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

Historic Area Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Historic themes and characteristics are reinforced through conservation and contextually responsive development, design and adaptive reuse that responds to existing coherent patterns of land division, site configuration, streetscapes, building siting and built scale, form and features as exhibited in the Historic Area and expressed in the Historic Area Statement.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
All Development	
PO 1.1 All development is undertaken having consideration to the historic streetscapes and built form as expressed in the Historic Area Statement.	DTS/DPF 1.1 None are applicable.
Built Form	
PO 2.1 The form and scale of new buildings and structures that are visible from the public realm are consistent with the prevailing historic characteristics of the historic area.	DTS/DPF 2.1 None are applicable.
PO 2.2 Development is consistent with the prevailing building and wall heights in the historic area.	DTS/DPF 2.2 None are applicable.
PO 2.3 Design and architectural detailing of street-facing buildings (including but not limited to roof pitch and form, openings, chimneys and verandahs) complement the prevailing characteristics in the historic area.	DTS/DPF 2.3 None are applicable.
PO 2.4 Development is consistent with the prevailing front and side boundary setback pattern in the historic area.	DTS/DPF 2.4 None are applicable.
PO 2.5	DTS/DPF 2.5

Materials are either consistent with or complement those within the historic area.	None are applicable.
Alterations and additions	
PO 3.1 Alterations and additions complement the subject building, employ a contextual design approach and are sited to ensure they do not dominate the primary façade.	DTS/DPF 3.1 Alterations and additions are fully contained within the roof space of an existing building with no external alterations made to the building elevation facing the primary street.
PO 3.2 Adaptive reuse and revitalisation of buildings to support retention consistent with the Historic Area Statement.	DTS/DPF 3.2 None are applicable.
Ancillary development	
PO 4.1 Ancillary development, including carports, outbuildings and garages, complements the historic character of the area and associated buildings.	DTS/DPF 4.1 None are applicable.
PO 4.2 Ancillary development, including carports, outbuildings and garages, is located behind the building line of the principal building(s) and does not dominate the building or its setting.	DTS/DPF 4.2 None are applicable.
PO 4.3 Advertising and advertising hoardings are located and designed to complement the building, be unobtrusive, be below the parapet line, not conceal or obstruct significant architectural elements and detailing, or dominate the building or its setting.	DTS/DPF 4.3 None are applicable.
PO 4.4 Fencing and gates closer to a street boundary (other than a laneway) than the elevation of the associated building are consistent with the traditional period, style and form of the associated building.	DTS/DPF 4.4 None are applicable.
Land Division	
PO 5.1 Land division creates allotments that are: (a) compatible with the surrounding pattern of subdivision in the historic area (b) of a dimension to accommodate buildings of a bulk and scale that reflect existing buildings and setbacks in the historic area	DTS/DPF 5.1 None are applicable.
Context and Streetscape Amenity	
PO 6.1 The width of driveways and other vehicle access ways are consistent with the prevailing width of existing driveways of the historic area.	DTS/DPF 6.1 None are applicable.
PO 6.2 Development maintains the valued landscape patterns and characteristics that contribute to the historic area, except where they compromise safety, create nuisance, or impact adversely on buildings or infrastructure.	DTS/DPF 6.2 None are applicable.
Demolition	
PO 7.1 Buildings and structures, or features thereof, that demonstrate the historic characteristics as expressed in the Historic Area Statement are not demolished, unless: (a) the front elevation of the building has been substantially altered and cannot be reasonably restored in a manner consistent with the building's original style or (b) the structural integrity or safe condition of the original building is beyond reasonable repair.	DTS/DPF 7.1 None are applicable.
PO 7.2 Partial demolition of a building where that portion to be demolished does not contribute to the historic character of the streetscape.	DTS/DPF 7.2 None are applicable.
PO 7.3 Buildings or elements of buildings that do not conform with the values described in the Historic Area Statement may be demolished.	DTS/DPF 7.3 None are applicable.
Ruins	
PO 8.1 Development conserves and complements features and ruins associated with former activities of significance.	DTS/DPF 8.1 None are applicable.

Historic Area Statements

Statement#	Statement
Historic Areas affecting City of Adelaide	
North Adelaide Hill Street Historic Area Statement (Adel1)	
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context	<p>1837 to 1901 - Victorian period.</p> <p>1901 to 1920s - Edwardian period.</p> <p>1920s to 1942 - Inter-war period.</p> <p>Low and medium density cottages. Villas and terrace houses. Historically intact residential areas. Long established institutions.</p>
Allotments, subdivision and built form patterns	<p>Large allotments together with low and medium density residential. Building set-back and subdivision pattern established by Heritage Places.</p> <p><u>Hill Street</u></p> <p>Regular setbacks from primary street frontage and regular pattern and siting of Heritage Places.</p> <p>Buildings setback from the side and street frontages of the Church of Perpetual Adoration retain the views and vistas of the Church.</p> <p><u>Jeffcott Street</u></p> <p>Buildings on corner site set on or close to the primary street frontage.</p> <p><u>Barton Terrace West</u></p> <p>Buildings reinforce the setback and orientation to the Park Lands established by Heritage Places.</p>
Architectural styles, detailing and built form features	<p>Victorian housing consisting of single fronted, symmetrically fronted, and asymmetrically fronted houses, some with bay fronted projections; contains vertically proportioned window and door surrounds highlighted with moulded render or brick dressings with roofs that are generally hipped in form, with the asymmetrical style, gable ended or hipped roof to the projecting bay, concave or convex verandah roof and four panelled doors with fanlights and often sidelights.</p> <p>Edwardian housing with prominent strapped gables and detailing, tall brick chimneys, verandahs incorporated under the main pitch of the roof verandahs with a convex (or bullnose) profile.</p> <p>Inter-War Housing consisting of bungalows incorporating a broad spreading roof and verandah with typical masonry columns supporting verandah elements and the expansive two storey version was often known as a Gentlemen's Bungalow; and Tudor Revival style displaying steeply pitched roofs with half-timber gable ends and variations of the verandah porch treatments.</p> <p>Finely detailed mansions; Cottages, villas and terraces; aged care, health care, consulting rooms and educational. Victorian Italianate villas, detached and semi-detached dwellings.</p> <p>Institutions are part of the historic fabric of North Adelaide.</p> <p><u>Mills Terrace and Strangways Terrace (west of Hill Street)</u></p> <p>Victorian, Edwardian and Inter-War Housing.</p> <p>Detached dwellings, group dwellings and residential flat buildings of one or two storeys incorporating articulation, bay windows, hip or hip - gable roof profiles, verandahs, balconies and porches, set within landscaped grounds.</p> <p>Imposing townscape character of Park Lands frontages established by various styles of detached dwellings of identified heritage value.</p> <p><u>Gibbon Lane</u></p> <p>Attached and detached two storey dwellings and single storey detached dwellings of Local Heritage value.</p> <p>Roofs are pitched and the design and composition of facades reflect traditional proportions of Heritage Places. <u>Hill Street</u></p> <p>One and two storey Victorian, Edwardian and Inter-war detached and semi-detached Local and State Heritage Places.</p> <p>Prominent corner sites containing St Lawrence's Church and Calvary Hospital.</p> <p><u>Buxton Street</u></p> <p>Highly cohesive frontages of single storey detached Victorian and Edwardian Local Heritage Places and one and two storey State Heritage Places.</p> <p>Finely detailed Italianate villas.</p> <p>Traditional corner shop to north-west corner of Buxton and Jeffcott Streets.</p>

North Adelaide Wellington Square Historic Area Statement (Adel3)

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

Eras, themes and context	<p>1837 to 1901 - Victorian period.</p> <p>1920's to 1942 - Inter-war period.</p> <p>Residential development. Important historical public space.</p>
Allotments, subdivision and built form patterns	<p>Cohesive built form edge to the Square. Buildings sited close to side boundaries. Building set-back and subdivision pattern established by Heritage Places.</p>
Architectural styles, detailing and built form features	<p>Victorian housing consisting of single fronted, symmetrically fronted, and asymmetrically fronted houses, some with bay fronted projections; contains vertically proportioned window and door surrounds highlighted with moulded render or brick dressings with roofs that are generally hipped in form, with the asymmetrical style, gable ended or hipped roof to the projecting bay, concave or convex verandah roof and four panelled doors with fanlights and often sidelights.</p> <p>Inter-War Housing consisting of Bungalows incorporating a broad spreading roof and verandah with typical masonry columns supporting verandah elements and the expansive two storey version was often known as a Gentlemen's Bungalow; and Tudor Revival style displaying steeply pitched roofs with half-timber gable ends and variations of the verandah porch treatments.</p> <p>Historic built form comprising large, single storey Local Heritage places and one or two storey State Heritage places. Townscape is contiguous with and complementary to the townscape character of the major</p>

Statement#	Statement	
Adel3		<p>streets which lead into the Square.</p> <p>Detached and semi-detached Victorian and Inter-war housing.</p> <p>Balconies over footpaths are not characteristic to the square.</p>
	Building height	Single and two storey.
	Materials	<p><u>Victorian Houses</u></p> <p>Bluestone, limestone or sandstone, with brick or rubble side and rear walls.</p> <p>Timber framed windows and doors.</p> <p>Cast iron or timber posts to the verandahs elaborated with moulded capitals and trim, and widely used cast iron brackets and frieze decoration.</p> <p>Fencing consisting of masonry base and piers with cast iron panels or railings, timber railing, timber picket fencing for smaller houses.</p> <p><u>Inter-War Houses</u></p> <p>Australian-made Wunderlich roof tiles, face brick and rendered masonry.</p> <p>Timber joinery with some use of metal framed windows.</p>
	Fencing	<p>Low, open front fencing (including secondary streets to the main façade of the building) associated with the traditional period and style of the building up to 1.2 metres, allowing views to the building. Rear and side boundary fences (behind main building façade) to 2 metres, and 1.8 metres on corner sites.</p> <p>Front fences of stone and cast iron, brick, stone or rendered pillars and plinths, timber or well detailed masonry.</p> <p>Brick, rendered masonry and timber side fences on secondary street frontages.</p> <p>Rear and side fences (behind main face of building) of corrugated metal sheeting.</p>
	Setting, landscaping, streetscape and public realm features	<p>Landscaping, paving, planting lighting and street furniture contribute to the informal character and unity of Wellington Square. Pedestrian paths and informal recreation areas provide attractive and safe shelter and seating. Predominantly no vehicle access on the Wellington Square frontage.</p>

Adel10	<p>North Adelaide Women's and Children's Historic Area Statement (Adel10)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context	<p>Traditional institutional buildings including Angus Building and Alan Campbell Building at the Women's and Children's Hospital, the Anglican Church Offices, Former dwellings at Memorial Hospital ('The Avenues' and 'Leahurst') and the Cathedral Hotel.</p> <p>North Adelaide retains strong physical evidence of the historical stages of the development of the colony, most particularly the typical 1850s to 1880s village type settlement pattern, with shops and other services. Until 1856, Kermode Street was the 'High Street' of North Adelaide.</p>	
Allotments, subdivision and built form patterns	<p><u>King William Street</u></p> <p>Cohesive buildings reinforce the setback pattern established by Heritage Places.</p> <p><u>Sir Edwin Smith Drive (South of Kermode) and Pennington Terrace.</u></p> <p>Buildings reinforce the setback pattern established by Heritage Places.</p> <p><u>Kermode Street</u></p> <p>Buildings that reinforce one of the first local main streets of North Adelaide.</p>	
Architectural styles, detailing and built form features	Traditional institutional architecture, including State Heritage Places.	
Building height	<p>Low scale Heritage Places on King William Street, Sir Edwin Smith Drive (South of Kermode) and Pennington Terrace.</p> <p>Buildings enable the visual prominence of the St Peter's Anglican Cathedral to be seen from the Adelaide Park Lands (Park 11, Park 12, and Park 25).</p>	
Materials	<p>Traditional materials reflecting the architectural styles of the Heritage Places.</p> <p>Cast iron fence and stone walling along Sir Edwin Smith Avenue and Pennington Terrace</p>	
Fencing	Low, open front fencing (including secondary streets to the main façade of the building) associated with the traditional period and style of the building up to 1.2 metres, allowing views to the building. Rear and side boundary fences (behind main building façade) to 2 metres, and 1.8 metres on corner sites.	
Setting, landscaping, streetscape and public realm features	<p>St Peter's Cathedral, dating from 1869, is a major landmark and visually dominates this area which is characterised by large institutional buildings.</p> <p>High degree of pedestrian amenity and shelter provided by street trees and on-site landscaping.</p> <p>Visually interesting streetscapes.</p> <p><u>High quality urban realm that supports cultural and community services within the locality.</u> Landscaping and open space breaks up building mass <u>and provides amenity.</u></p> <p>Pedestrian comfort is supported by a high quality public realm and limited vehicle access from King William Road and Sir Edwin Smith Drive and Kermode Street.</p> <p>Park Land frontages including to the Cross of Sacrifice, Brougham Gardens and Peace Park.</p>	
Representative Buildings	<i>[Not identified]</i>	
	<p>North Adelaide Stanley Historic Area Statement (Adel11)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context	<p>Low density residential with a distinctive and cohesive character derived from large nineteenth and early twentieth century dwellings and other low density detached and semi-detached dwellings in a variety of forms and styles.</p> <p>Brougham Place Uniting Church has visual prominence.</p>	

Statement#	Statement	
	<p>Allotments, subdivision and built form patterns</p>	<p>Built form edge to Brougham Gardens and the Park Lands along Brougham Place.</p> <p><u>Stanley Street (southern side) and Brougham Place (where it is a visual continuation of Stanley Street)</u></p> <p>Close subdivision pattern west of New Street.</p> <p><u>Kingston Terrace</u></p> <p>Consistent setbacks established by Heritage Places.</p>
	<p>Architectural styles, detailing and built form features</p>	<p>Victorian housing that is single fronted, symmetrically fronted, and asymmetrically fronted houses, some with bay fronted projections; contains vertically proportioned window and door surrounds highlighted with moulded render or brick dressings with roofs that are generally hipped in form, with the asymmetrical style, gable ended or hipped roof to the projecting bay, concave or convex form verandah roof and four panelled doors with fanlights and often sidelights.</p> <p>Edwardian housing with prominent strapped gables and detailing, tall brick chimneys, verandahs incorporated under the main pitch of the roof verandahs with a convex (or bullnose) profile.</p> <p>Georgian Revival housing displays symmetrical elevation with rendered or brick walls, fanlight above central entrance door, hipped roof form and generally classically derived proportions and details. This style had no verandah but often displayed an entrance portico.</p> <p>Large nineteenth and early twentieth century dwellings comprising more substantial Victorian, Edwardian and Georgian Revival villas, and other low density detached and semi-detached dwellings in a variety of forms and styles.</p> <p>Buildings on Stanley Street, Kingston Terrace and Brougham Place are defined by the landfall and escarpment. Development takes advantage of the landfall by providing semi-basement floors.</p> <p><u>Kingston Terrace</u></p> <p>Victorian and Inter-war housing.</p> <p>Large one and two storey detached residences on individual allotments set close to the street with a Park Lands frontage.</p> <p>Towards Lefevre Terrace: Imposing rear elevations of two storey mansions with frontages to Stanley Street.</p> <p>Modelled and articulated, constructed of masonry, with a high proportion of solid to void in the composition of facades and often feature verandahs and balconies.</p> <p><u>Stanley Street (northern side)</u></p> <p>Victorian, Edwardian and Inter-war.</p> <p>Two large mansions set well back from the northern frontage on elevated ground above Stanley Street and large detached and semi-detached residences.</p> <p><u>Stanley Street (southern side) and Brougham Place (where it is a visual continuation of Stanley Street)</u></p> <p>Victorian, Edwardian and Inter-war.</p> <p>Two-storey residences on the southern frontage presenting a single-storey appearance to Stanley Street and Brougham Place due to sloping topography.</p> <p>Consistent set-back of stone Victorian villas typified by rich detailing and cast-iron ornamentation west of New Street.</p> <p>Detached or semi-detached dwellings presenting as single storey to the street frontage.</p> <p><u>Brougham Place (western boundary)</u></p>

Statement#	Statement	
Adel11		<p>Imposing and finely detailed Brougham Place Uniting Church with its dominant central tower.</p> <p>Low scaled St Ann's College buildings which step down the Brougham Place frontage reflecting the topography of the locality.</p>
	Building height	<p>Low scale dwellings and buildings that enable views of the City from Stanley Street and Brougham Place.</p> <p><u>Stanley Street (southern side) and Brougham Place (where it is a visual continuation of Stanley Street)</u></p> <p>Single storey to the street frontage.</p>
	Materials	<p><u>Stanley Street (southern side) and Brougham Place (where it is a visual continuation of Stanley Street)</u></p> <p>Stone with rich detailing and cast iron west of New Street.</p> <p><u>Victorian Houses</u></p> <p>Bluestone, limestone or sandstone, with brick or rubble side and rear walls.</p> <p>Timber framed windows and doors.</p> <p>Cast iron or timber posts to the verandahs elaborated with moulded capitals and trim, and widely used cast iron brackets and frieze decoration.</p> <p>Masonry base and piers with cast iron panels or railings, timber railing, timber picket fencing for smaller houses.</p> <p><u>Edwardian Houses</u></p> <p>Face brick walling with decorative brick detailing, ashlar stone with brick dressings or moulded render or 'rock face' sandstone (or freestone) for wall material.</p> <p>Unglazed terracotta Marseilles roof tiles, corrugated iron roof cladding.</p> <p>Timber framed windows and doors. Windows often grouped and doors often divided into three or four horizontal panels.</p> <p>Masonry fencing with cast or wrought iron palisade, or timber.</p> <p><u>Georgian Revival Houses</u></p> <p>The Georgian Revival style displays symmetrical elevation with rendered or brick walls, fanlight above central entrance door, hipped roof form and generally classically derived proportions and details. This style had no verandah but often displayed an entrance portico.</p> <p>Masonry fencing (brick and /or dressed stone or rendered) and may include cast or wrought iron palisade and gates.</p>
	Fencing	<p>Low, open front fencing (including secondary streets to the main façade of the building) associated with the traditional period and style of the building up to 1.2 metres, allowing views to the building. Rear and side boundary fences (behind main building façade) to 2 metres, and 1.8 metres on corner sites.</p> <p><u>Stanley Street (southern side) and Brougham Place (where it is a visual continuation of Stanley Street).</u></p> <p>Stone and cast iron ornamental boundary fencing along street frontage west of New Street.</p>
Setting, landscaping, streetscape and public realm features	<p>Views of the City from Stanley Street and Brougham Place.</p> <p>Landscape qualities of public and private open space.</p> <p>Vistas to the Park Lands, Brougham Place and the eastern end of Stanley Street.</p>	

Statement#	Statement	
		<p>Street trees, avenue planting and other landscaping and a high standard of paving to the public realm.</p> <p>Landmark significance of the Brougham Place Uniting Church.</p> <p>The topography is characterised by the North Adelaide scarp, a steep rise from Melbourne Street to Stanley Street, below which the area is relatively flat, towards the River Torrens. The ridge of the scarp along Kingston Terrace/Stanley Street and the frontages to the Park Lands provided for prestigious residential addresses. The higher concentration of small cottages in the lower section below the scarp reflects the early subdivision of these Town Acres into estates providing workers housing following the establishment of local manufacturing industries such as the Lion Brewery. The creation of the road through Brougham Place in the 1860s and the introduction of horse drawn trams along Melbourne Street in 1878 gave this section of North Adelaide closer links with the rest of the City and made the area an attractive location for workers to live.</p> <p>Vehicle access is via minor streets, side and rear lanes. Vehicle access points have been designed and located to maintain historic kerbing and trees.</p>

Adelaide Historic Area Statement (Adel14)

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

Eras, themes and context	Cultural and historic evidence of the creation of the colony and the consolidation of early settlement in Adelaide. 1837 to 1901 - Victorian period. 1901 to 1920s - Edwardian period. 1920's to 1942 - Inter-war period. Broad range of residential stock, from nearby grand villas / mansions on South and East Terraces overlooking the Park Lands (1870-1880) to humble cottages lining the smaller street.
Allotments, subdivision and built form patterns	Subdivision of town acres in the south-east into a network of streets and lanes. <u>Ada Street</u> Close development pattern of residences. <u>Carrington Street (east of Marion Street)</u> Consistent setback of Heritage Places. <u>Carrington Street (west of Marion Street)</u> Close siting. <u>Corryton Street (north of Halifax Street)</u> -Single-storey semi-detached and detached cottages sited close to the street frontage. <u>Castle Street</u> Closely sited to the street with narrow frontages. <u>Gilles Street</u> Close pattern of development. East of St John Street is a more open subdivision pattern. <u>Gladstone Street</u> Sited close to the street frontage. <u>Halifax Street (east of Hutt Street)</u> -Single-storey detached and semi-detached cottages of a consistent built form character and the occasional terrace house. -St John's Church is a prominent landmark. <u>Halifax Street (west of Hutt Street)</u> -Single-storey attached and detached cottages, a large bay window residence and a two-storey Victorian former corner shop. <u>Kate Court</u>

Statement#	Statement
	<p>-Dwellings sited close to the street frontage.</p> <p><u>Marion Street</u>-Close grouping of 19th century small semi-detached and detached cottages and row cottages.</p> <p><u>McLaren Street and Regent Street South</u></p> <p>-Closely sited, single-storey cottages and row houses.</p> <p><u>Royal Avenue</u></p> <p>Close pattern of development.</p> <p><u>St. John Street</u></p> <p>-The north east townscape is dominated by the substantial scale and richly detailed character of St John's Church, Meeting Hall and Rectory. Western frontage - group of consistently sited dwellings. Eastern frontage - small group of narrow fronted cottages.</p> <p><u>Tomsey Street</u></p> <p>Single-storey semi-detached and detached cottages.</p>
Adel14	<p>Architectural styles, detailing and built form features</p> <p><u>Ada Street</u></p> <p>A variety of dwellings, including row cottages, small semi-detached cottages and detached bay window cottages make up this historic townscape.</p> <p>A sense of intimacy and enclosure is derived from the narrowness of the street.</p> <p>Consistent pitched roof profiles, verandahs, fenestration and material.</p> <p><u>Carrington Street (east of Marion Street)</u></p> <p>Comprises single-storey detached, semi-detached and row cottages, terrace houses and contemporary attached dwellings.</p> <p>Vertically proportioned openings, pitched roofs and verandahs.</p> <p><u>Carrington Street (west of Marion Street)</u></p> <p>Single-storey cottages, row cottages, and terrace houses with historic window proportions, pitched roof profiles, verandah.</p> <p><u>Castle Street</u></p> <p>Small semi-detached and detached cottages and the single terrace with verandahs along the street and pitched roofs.</p> <p><u>Corryton Street (north of Halifax Street)</u></p> <p>Single-storey semi-detached and detached cottages sited close to the street frontage establishing a rhythm of narrow dwelling facades, fenestration, pitched roof profiles and verandahs.</p> <p><u>Corryton Street (south of Halifax Street)</u></p> <p>Long single-storey row of cottages, with a horizontal emphasis created by the common roof, verandah profiles.</p> <p><u>Gilles Street</u></p> <p>Intimate attached and detached cottages with consistent fenestration, pitched roof profiles and verandah styles.</p> <p>Large detached residences set in landscaped ground east of John Street.</p> <p>Variety of architectural forms.</p> <p><u>Gladstone Street</u></p> <p>Single-storey row and semi-detached cottages sited close to the street frontage. Intimacy and sense of enclosure from horizontal form of dwellings.</p> <p><u>Halifax Street (east of Hutt Street)</u></p> <p>Detached and semi-detached cottages and the occasional terrace house, sited close to the street frontage with minimal side boundary set-backs and having consistency of window proportions, the high proportion of solid to void, pitched roof profiles and verandahs.</p> <p>St John's Church is a prominent landmark.</p> <p><u>Halifax Street (west of Hutt Street)</u></p> <p>Attached and detached cottages, a large bay window residence and a two-storey Victorian former corner shop.</p> <p><u>Kate Court</u></p> <p>Semi-detached cottages, detached gable-fronted cottages and terrace house sited close to the street frontage, with consistent window proportions, roof forms and verandah styles.</p> <p><u>Marion Street</u></p> <p>Close grouping of 19th century small semi-detached and detached cottages and row cottages with low front parapet line and consistent roof and verandah forms.</p>

Statement#	Statement
	<p><u>McLaren Street and Regent Street South</u></p> <p>Closely sited cottages and row houses with vertically proportioned openings and the consistent form of pitched roofs and verandahs.</p> <p><u>Royal Avenue</u></p> <p>Cottages and villas.</p> <p><u>St. John Street</u></p> <p>Substantial scale and richly detailed character of St John's Church, Meeting Hall and Rectory.</p> <p>Consistently sited, gable-fronted villas to western frontage.</p> <p>Small group of narrow fronted cottages on the eastern frontage.</p> <p><u>Tomsey Street</u></p> <p>Semi-detached and detached cottages.</p>
Building height	Low scale.
Materials	<p><u>Victorian Houses</u></p> <p>Bluestone, limestone or sandstone, with brick or rubble side and rear walls.</p> <p>Timber framed windows and doors.</p> <p>Cast iron or timber posts to the verandahs elaborated with moulded capitals and trim, and widely used cast iron brackets and frieze decoration.</p> <p>Masonry base and piers with cast iron panels or railings, timber railing, timber picket fencing for smaller houses.</p> <p><u>Edwardian Houses</u></p> <p>Face brick walling with decorative brick detailing, ashlar stone with brick dressings or moulded render or 'rock face' sandstone (or freestone) for wall material.</p> <p>Unglazed terracotta Marseilles roof tiles, corrugated iron roof cladding.</p> <p>Timber framed windows and doors. Windows often grouped and doors often divided into three or four horizontal panels.</p> <p>Masonry fencing with cast iron palisade, or timber.</p> <p><u>Inter-War Houses</u></p> <p>Australian-made Wunderlich roof tiles.</p> <p>Timber joinery with some use of metal framed windows.</p> <p>Typically low masonry fencing, built from materials matching the main building.</p>
Fencing	<p>Low, open front fencing (including secondary streets to the main façade of the building) associated with the traditional period and style of the building up to 1.2 metres, allowing views to the building. Rear and side boundary fences (behind main building façade) to 2 metres, and 1.8 metres on corner sites.</p> <p>Front fences of stone and cast iron, brick, stone or rendered pillars and plinths, timber or well detailed masonry.</p> <p>Brick, rendered masonry and timber side fences on secondary street frontages.</p> <p>Rear and side fences (behind main face of building) of corrugated metal sheeting.</p> <p><u>Corryton Street (south of Halifax Street)</u></p> <p>Continuous picket fencing.</p>
Setting, landscaping, streetscape and public realm features	<p>A sense of intimacy and enclosure to Ada, Gladstone, McLaren, Streets, and Regent Street South.</p> <p>Landmark qualities of St John's Church, Meeting Hall and Rectory.</p> <p>Landscaped open space with significant vegetation. Public and private open spaces incorporating landscaping to street frontages. Vehicle access is via minor streets, side and rear lanes. Vehicle access points have been designed and located to maintain historic kerbing and significant trees.</p>

Strathalbyn Centre - Township Main Street and Community Facilities Historic Area Statement (Alex2)

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

Eras, themes and context	<p>1860s - 1910s settlement period. Residential, small commercial, institutional and civic buildings.</p> <p><u>Dawson (Commercial Road / Dawson Street, Catherine Street, Rankine Street, South Terrace, Donald Terrace, Albyn Terrace)</u></p> <p>The River Angas and the associated Soldiers Memorial Gardens is a key element within this area, reflecting the rising civic consciousness of the residents of Strathalbyn as the town prospered through the 1870's-90's. Dawson Street and Albyn Terrace contain many notable early examples of commercial buildings which reflect the enterprise and success of these residents.</p> <p><u>High Street (High Street, Grey Street, Swale Street, Sunter Street, Alfred Place)</u></p> <p>An historic predominantly commercial area with buildings ranging from early settlement, through a period of expansion in the late 1860's to about 1910.</p>
Allotments, subdivision and built form patterns	<p><u>Dawson</u></p> <p>Large, rectangular allotments with large frontage. No front setback to commercial properties. Typically small front setback to residential properties. Buildings parallel to street. Minimal side setbacks often with no driveways or vehicle access.</p> <p><u>High Street</u></p>

Statement#	Statement	
Alex2		Large, rectangular allotments with large frontage. No front setback to commercial properties. Typically minimal to no front setback to residential properties. Buildings parallel to street. Minimal side setbacks often with no driveways or vehicle access.
	Architectural styles, detailing and built form features	High solid to void (window & door opening) ratio. Commercial properties typically parapeted or hipped and gabled with verandahs overhanging footpaths. Residential properties simple double fronted early settler residences and homesteads hipped and gabled roofs of 27-35 degrees pitch with separate verandah. Carports and garages generally to the rear of allotments and not attached to dwellings.
	Building height	Commercial and residential single storey with external wall heights 3.8-4.1m and ceilings of at least 3m. Two storey grand, civic or historic commercial activities.
	Materials	Sandstone and limestone with red brick quoins predominantly. Corrugated (mostly galvanised) roofing. Institutional and grand civic buildings rendered quoins and features. Distinct absence of contemporary materials.
	Fencing	Timber post and rail (local variation diamond style), timber post and cyclone mesh up to 1.2m in height at front and 1.8m on side boundaries. Pickets to verandahs at street line.
	Setting, landscaping, streetscape and public realm features	Rural open streetscape character. Some early stone and terracotta kerbing remain. Traditional street tree planting such as Ash trees. Wide streets in original layout connecting to traditional parks/gardens reinforcing rural character and scenic views. Limited use of signage, where present it incorporates simple fonts consistent with the era with no internal illumination.
	Representative Buildings	Identified - refer to SA planning database.

Alex3	Middleton Historic Area Statement (Alex3)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1855 - Flour Mill established, Middleton township 1856 - from mid 19 th century era of grain production and local milling for export.
	Allotments, subdivision and built form patterns	Irregular angled large allotments containing former mill and ancillary dwellings and smaller lots.
	Architectural styles, detailing and built form features	Symmetrical structures with a high solid to void (window & door opening) ratio. Gabled and hipped roofs of 27-35 degree pitch.
	Building height	Single storey dwellings.
	Materials	Local stone, brick, corrugated iron, rendered walling or rammed earth walling. Corrugated galvanised roofing.
	Fencing	Fencing reflective of the architectural style of the subject building in terms of building material, including post and wire and open fencing up to 1.2m to the front alignment, side boundary fences up to 1.8m.
	Setting, landscaping, streetscape and public realm features	Existing mature vegetation and boundary structures, such as walls and fences form an important landscape element. Open landscape surrounding the mill complex. Limited use of signage, where present it incorporates simple fonts consistent with the era with no internal illumination.
	Representative Buildings	<i>[Not identified]</i>

Alex4	Goolwa Historic Area Statement (Alex4)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	<p>Between the 1850s and 1880s Goolwa developed as one of Australia's most important river ports. Dwindling after the Morgan to Port Adelaide railway opened in 1878.</p> <p>Australia's first railway, a single-track horse powered tramway (1854) extended from Goolwa to Victor Harbor in 1864 and later converted to steam and rail, now forms part of a major tourist attraction, the 'Cockle Train' trip.</p> <p>Residential development commenced with the settlement of Goolwa. From the late 19th century to the present day, Goolwa's main focus has been as a tourist township, but the industrial historic legacy of earlier times which includes former breweries, sawmill, shipyards, the wharf area, the Goolwa Patent Slip and iron works and flour mill.</p>

Statement#	Statement	
Alex4		The Goolwa Historic Area is a residential area known as 'Little Scotland' adjoining the State Heritage Area to the north and bounded by the railway line to the south.
	Allotments, subdivision and built form patterns	Small narrow allotments, with many dwellings built over two allotments giving appearance of larger frontages. Buildings parallel to street. Minimal side setbacks, often no driveways or vehicle access.
	Architectural styles, detailing and built form features	Small humble workers' cottages. Gabled, hipped and parapeted roofs at 30-40 degree pitches. Separate verandah roof across frontage typical. High solid to void (window and door opening) ratio. Carports and garages generally to the rear of allotments and not attached to dwellings.
	Building height	Single storey with external wall heights 3.8 - 4.1m and ceilings of at least 3m.
	Materials	Stone, rendered masonry, weatherboard walls. Corrugated roofing. Distinct absence of contemporary materials.
	Fencing	Low picket fences or timber post and rails often at verandah line, up to 1.2m high.
	Setting, landscaping, streetscape and public realm features	Intimate village, narrow streets with minimal or no footpaths. Limited use of signage, where present it incorporates simple fonts consistent with the era with no internal illumination.

Port Elliot Township Main Street and Suburban Neighbourhood Historic Area Statement (Alex5)

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

Eras, themes and context	<p>1850s-1920s.</p> <p><u>The Strand</u></p> <p>Residential and Small Commercial.</p> <p>Early commercial, civic and institutional buildings underpin the historic street. A compact commercial and shopping core towards North Terrace, with holiday houses and cottages concentrated towards Freeman's Lookout to the south. A pedestrian-friendly environment, preserving the backdrop to streetscapes on Charteris Street, Murray Terrace and Horseshoe Bay.</p> <p><u>Horseshoe Bay</u></p> <p>Former Port, Leisure.</p> <p>The focal point of the township and centre for leisure activities is Horseshoe Bay. It remains largely undeveloped, with landscape and natural elements prioritised.</p> <p><u>Murray Terrace</u></p> <p>Residential.</p> <p>The Murray Terrace section contains both historically significant buildings of the 19th Century and more recent dwellings which give the area a unique character, particularly the bungalow style dwellings located south of the railway line.</p> <p><u>North Terrace</u></p> <p>Commercial and Residential.</p> <p>This area provides the entrance to the historic Port Elliot township.</p>
Allotments, subdivision and built form patterns	<p><u>The Strand</u></p> <p>Large allotment sizes and frontages. Minimal front setbacks to residential buildings, often no front setback to commercial buildings. Buildings parallel to street. Small to medium side setbacks.</p> <p><u>Murray Terrace</u></p> <p>Large allotment sizes and frontages. Minimal front setbacks south of the train line, significantly large front setbacks north of the train line. Buildings parallel to the street. Small to medium side setbacks.</p> <p><u>North Terrace</u></p> <p>Large allotment sizes and frontages. Medium to large front setbacks to residential buildings, typically no setback to commercial buildings. Buildings parallel to the street. Medium to large side setbacks to residential buildings, minimal setbacks to commercial buildings.</p>
Architectural styles, detailing and built form features	<p><u>The Strand</u></p> <p>Square or rectangular ground plans with hipped and gabled roofs and mostly separate verandahs. Symmetrical facades common. High solid to void (door and window openings) ratio.</p> <p>Carports and garages generally to the rear of allotments and not attached to dwellings.</p>

Statement#	Statement
Alex5	<p><u>Horseshoe Bay</u></p> <p>Significant natural landscape with historic shipping remnants (timber jetty, breakwater and quarry). Existing structures are generally unobtrusive.</p> <p><u>Murray Terrace</u></p> <p>Square or rectangular ground plans with hipped and gabled roofs and continuous verandahs in Bungalow styles. High solid to void (door and window openings) ratio.</p> <p>Carports and garages generally to the rear of allotments and not attached to dwellings.</p> <p><u>North Terrace</u></p> <p>Square or rectangular ground plans with hipped and gabled roofs. Separate verandahs, extending over footpaths for commercial buildings. High solid to void (window and door opening) ratio.</p> <p>Carports and garages generally to the rear of allotments and not attached to dwellings.</p>
Building height	<p><u>The Strand and North Terrace</u></p> <p>Predominantly single storey residential external wall heights 3.8-4.1m and ceilings of at least 3m. Two-storey historic landmark civic, religious and commercial structures.</p> <p><u>Horseshoe Bay</u></p> <p>Predominantly single storey and sited well below the cliff face.</p> <p><u>Murray Terrace</u></p> <p>Single storey external wall heights 3.8-4.1m and ceilings of at least 3m.</p>
Materials	<p><u>The Strand</u></p> <p>Walls unpainted limestone and bluestone with redbrick quoins. Some rendered masonry. Corrugated roofs. Distinct absence of contemporary materials.</p> <p><u>Horseshoe Bay</u></p> <p>Natural materials dominate. Stone, rendered masonry, unpainted timber, corrugated roofs.</p> <p><u>Murray Terrace</u></p> <p>Walls unpainted limestone redbrick quoins and side walls.</p> <p>Some rendered masonry. Corrugated and terracotta tiled roofs. Distinct absence of contemporary materials.</p> <p><u>North Terrace</u></p> <p>Bluestone, limestone and rendered masonry. Corrugated roofs. Distinct absence of contemporary materials.</p>
Fencing	<p><u>The Strand</u></p> <p>Low, open fencing including post and wire, post and rail, picket, hedges and vegetation, masonry reflecting the dwelling behind. Front fencing up to 1.2m.</p> <p><u>Horseshoe Bay</u></p> <p>Fencing that enables views.</p> <p><u>Murray Street</u></p> <p>Low fencing including pickets and masonry (reflecting style of dwelling behind), some hedges. Front fencing up to 1.2m.</p> <p><u>North Terrace</u></p> <p>Low masonry fencing most common. Some brush, timber and hedging. Front fencing up to 1.2m.</p>
Setting, landscaping, streetscape and public realm features	<p>Limited use of signage, where present it incorporates simple fonts consistent with the era with no internal illumination.</p> <p><u>The Strand</u></p> <p>Intimate village character, street trees and verandahs over footpath. Prominent public parks and railway precinct directly connected to street.</p> <p><u>Horseshoe Bay</u></p> <p>Significant natural landscape with historic shipping remnants.</p> <p><u>Murray Street</u></p> <p>Wide footpaths with planted verges including street trees and shrubs.</p> <p><u>North Terrace</u></p> <p>Rural open streetscape character with minimal signage and no illuminated signage. Paved and bituminised footpaths with some street trees. Street lamps and significant pine tree prominent features.</p>

Historic Areas affecting The Barossa Council			
Baro1	Angaston Centre Historic Area Statement (Baro1)		
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>		
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>		
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
	Eras, themes and context	Early settlement in 1850s and 1860s. 19th and early 20th Century buildings and streetscapes.	
	Allotments, subdivision and built form patterns	Original development and subdivision pattern, especially in the vicinity of Hannay Crescent including the cemetery allotment.	
	Architectural styles, detailing and built form features	Banks, churches and hotels along Murray Street. Early post-supported verandas along sections of Murray Street.	
	Building height	Two storeys.	
Materials	<i>[Not stated]</i>		
Fencing	<i>[Not stated]</i>		
Setting, landscaping, streetscape and public realm features	<p>Significant visual backdrop formed by the hills, cemetery and stone walling when viewed from the Hannay Crescent area and Murray Street.</p> <p>The configuration of Murray Street with a bend at the Sturt Street junction provides interesting vistas east and west along the street.</p> <p>A vista is evident along Washington Street towards the Town Hall. Marble walling in front of the former Station Masters Residence, and former animal pound walls on the railway land.</p> <p>Along Murray Street, the paddock like nature of the land adjoining the creek bank links with the residential surrounds and, in association with the Murray Street park and rural backdrop, creates an attractive setting.</p> <p>Mature landscaping, deciduous street trees, Moreton Bay Fig trees, English Elm and the grouping of deciduous trees adjacent to the Laucke Mill on Murray Street.</p>		
Representative Buildings	Identified - refer to SA planning database.		
Baro2	Angaston Residential Historic Area Statement (Baro2)		
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>		
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>		
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
	Eras, themes and context	<p>Late 1800s.</p> <p>1920s, second wave of prosperity for Angaston in the 20th Century.</p>	
	Allotments, subdivision and built form patterns	<i>[Not stated]</i>	
	Architectural styles, detailing and built form features	<p>Substantial residences in 1879-80.</p> <p>Residences of the 1920s.</p>	
	Building height	<i>[Not stated]</i>	
Materials	Local stone.		
Fencing	<i>[Not stated]</i>		
Setting, landscaping, streetscape and public realm features	<p>Tree lined streets, attractive gardens, varied topography, mature white cedars along Schilling Street, coprosma hedges in front of some houses (retaining early post and wire fence structures), mature ficus at the base of Dean Street, mature gums along the creek, and cypress hedges to many 1920s dwellings.</p> <p>Angas Recreation Park forms an important element located within the residential area. The park between Dean Street and Hill Street and Angaston Children's Reserve provides an open area for community use.</p>		
Representative Buildings	Identified - refer to SA planning database.		

Statement#	Statement		
Baro3	<p>Bethany Historic Area Statement (Baro3)</p>		
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>		
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>		
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
	Eras, themes and context	Established in 1842 - one of the earliest substantial German settlements in the Barossa.	
	Allotments, subdivision and built form patterns	Subdivided according to the hufendorf principle of long strips. Houses built close to the road with long narrow allotments stretching out behind, together with significant timber structures, particularly farm buildings either close to the road or behind the farm houses.	
	Architectural styles, detailing and built form features	Early houses dating from the 1850s and the 1860s, many of which retain layouts and construction techniques clearly indicating their German origin.	
	Building height	<i>[Not stated]</i>	
	Materials	<i>[Not stated]</i>	
Fencing	<i>[Not stated]</i>		
Setting, landscaping, streetscape and public realm features	<p>The Herberge Christi Lutheran Church and the cemetery in the eastern end of the settlement form a dominant element.</p> <p>Vegetation and landscaping located within the public realm and mature street tree plantings lining the road, together with the mature gardens associated with the early dwellings. The Tanunda Creek, the Bethany Reserve and the creek crossing at Bethany Road are also important to the character of the settlement.</p>		
Representative Buildings	Identified - refer to SA planning database.		
Baro4	<p>Krondorf Historic Area Statement (Baro4)</p>		
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>		
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>		
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
	Eras, themes and context	Established in 1847. First plan of division 1877.	
	Allotments, subdivision and built form patterns	Division of land undertaken to the hufendorf arrangement. Linear nature.	
	Architectural styles, detailing and built form features	Early farm complexes and buildings indicative of its early date of settlement.	
	Building height	<i>[Not stated]</i>	
	Materials	Pioneer building techniques and specifically German traditions in construction. Significant stone and timber structures, particularly farm sheds.	
Fencing	<i>[Not stated]</i>		
Setting, landscaping, streetscape and public realm features	Buildings close to the road alignment. Zum Kripplein Christi Church ("Manger of Christ") forms a dominant building in the middle of the settlement.		
Representative Buildings	Identified - refer to SA planning database.		
	<p>Moculta Historic Area Statement (Baro5)</p>		
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>		
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>		
Eras, themes and context	Early service town in the northern agricultural plains comprising small scale development.		
Allotments, subdivision and built form	Simple linear nature.		

Statement#	Statement	
Baro5	patterns	
	Architectural styles, detailing and built form features	Early residential and commercial buildings along Truro Road.
	Building height	<i>[Not stated]</i>
	Materials	<i>[Not stated]</i>
	Fencing	<i>[Not stated]</i>
	Setting, landscaping, streetscape and public realm features	Row of mature Carob street trees lining Truro Road.
	Representative Buildings	Identified - refer to SA planning database.

Baro6	Mount Pleasant Centre Historic Area Statement (Baro6)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Service centre for the surrounding pastoral area.
	Allotments, subdivision and built form patterns	Linear nature of settlement along Melrose Street.
	Architectural styles, detailing and built form features	Consistent early dwellings, the former bank building at the pivotal junction of Melrose Street and Saleyards Road, the ruins of the Henry Giles' early flour mill on the corner of Glen Devon Road and Melrose Street.
	Building height	<i>[Not stated]</i>
Materials	<i>[Not stated]</i>	
Fencing	<i>[Not stated]</i>	
Setting, landscaping, streetscape and public realm features	Substantial buildings including the two hotels. Mature street planting.	
Representative Buildings	Identified - refer to SA planning database.	

Baro7	Stockwell Historic Area Statement (Baro7)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	A rural character that highlights the early agricultural development of the district.
	Allotments, subdivision and built form patterns	Reflects the earliest periods of subdivision and also the later expansion of the town.
	Architectural styles, detailing and built form features	Significant public and private buildings located along Duckponds Road. Former steam powered flour mill.
	Building height	Low scale.
Materials	<i>[Not stated]</i>	
Fencing	<i>[Not stated]</i>	
Setting, landscaping, streetscape and public realm features	Central concentration of public and residential buildings with the prominence of the St Thomas Lutheran Church.	
Representative Buildings	Identified - refer to SA planning database.	

Statement#	Statement	
Baro8	<p>Williamstown Historic Area Statement (Baro8)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1860s and 1870s.
	Allotments, subdivision and built form patterns	Original street pattern including the junctions of the main roads in and out of town. Grid structure.
	Architectural styles, detailing and built form features	<p>Forrester’s Lodge, the Institute, the Post Office and the Hotel at the northern end of Queen Street, the small stone commercial structures at the south end of Queen Street, the small, but representative Churches located within the town, including the Uniting Church, the Anglican Church and the Church of Christ, and the notable cluster of early residences in George Street close to the junction of Queen Street.</p> <p>Indicative of the early building types and structural materials</p>
	Building height	<i>[Not stated]</i>
	Materials	<i>[Not stated]</i>
	Fencing	<i>[Not stated]</i>
	Setting, landscaping, streetscape and public realm features	<p>Collections of historic buildings.</p> <p>Vistas to important historic buildings from surrounding areas. Notable Moreton Bay Fig tree at the corner of George Street and Little Eva Street creates a focal landmark element that is visible from Queen Street.</p>
Representative Buildings	Identified - refer to SA planning database.	
Baro9	<p>Murray Street Tanunda Historic Area Statement (Baro9)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	<i>[Not stated]</i>
	Allotments, subdivision and built form patterns	<i>[Not stated]</i>
	Architectural styles, detailing and built form features	Combination of domestic and commercial buildings. Significant and substantial public buildings which give a sense of civic importance.
	Building height	Low scale.
	Materials	<i>[Not stated]</i>
	Building height	Low scale.
	Setting, landscaping, streetscape and public realm features	<p>Varied alignment of buildings in Murray Street, with commercial buildings aligned with the pavement and residential buildings setback to allow for front gardens.</p> <p>Early plantings of Moreton Bay Figs and Carob trees which retain their broad canopies and mature trunks form an attractive tree lined setting.</p>
Representative Buildings	Identified - refer to SA planning database.	
	<p>Goat Square Tanunda Historic Area Statement (Baro10)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Low scale and open character of Goat Square and surrounding land.

Statement#	Statement	
Baro10	Allotments, subdivision and built form patterns	Original subdivision pattern maintained, particularly of the square itself.
	Architectural styles, detailing and built form features	Early residences located around the central square.
	Building height	<i>[Not stated]</i>
	Materials	Early residences constructed of early original materials.
	Fencing	<i>[Not stated]</i>
	Setting, landscaping, streetscape and public realm features	Buildings located around the central square, together with the open space and informal nature of the surface materials of the central square, which was originally used as a market area. Mature Carob trees and Kurrajong trees planted as groups located within the square.
	Representative Buildings	Identified - refer to SA planning database.

Basedow Road, Tanunda Historic Area Statement (Baro11)		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>		
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>		
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Baro11	Eras, themes and context	Nineteenth century development. 1890 to 1910.
	Allotments, subdivision and built form patterns	<i>[Not stated]</i>
	Architectural styles, detailing and built form features	Low-scale, low density residential development, in particular, dwellings and other buildings from 1890 to 1910.
	Building height	<i>[Not stated]</i>
	Materials	<i>[Not stated]</i>
	Fencing	<i>[Not stated]</i>
	Setting, landscaping, streetscape and public realm features	<i>[Not stated]</i>
	Representative Buildings	<i>[Not identified]</i>

Tanunda Crayford Historic Area Statement (Baro12)		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>		
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>		
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Baro12	Eras, themes and context	Nineteenth century development. 1900 to 1920.
	Allotments, subdivision and built form patterns	<i>[Not stated]</i>
	Architectural styles, detailing and built form features	Low-scale, low density residential development, in particular, dwellings and other historic buildings from 1890 to 1910.
	Building height	<i>[Not stated]</i>
	Materials	<i>[Not stated]</i>
	Fencing	<i>[Not stated]</i>
	Setting, landscaping, streetscape and public realm features	Row of houses forms part of the entrance to Tanunda at the junction of Bethany Road and the southern end of Murray Street. These houses form a consistent group opposite the State Heritage Registered St John's Cemetery.
	Representative Buildings	<i>[Not identified]</i>

Historic Areas affecting City of Burnside

Rose Park Historic Area Statement (Bur1)		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Bur1	Eras, themes and context	1880 - 1917 Victorian and Federation. 1918 - 1940 Post WW1.
	Allotments, subdivision and built form patterns	Traditional rectangular grid pattern. Generally large site areas. Generally large street frontage widths large. Large front of dwelling set-back. Vehicular access from rear lanes of many dwellings.
	Architectural styles, detailing and built form features	Late 19th Century and early 20th Century dwellings with forms, scale and detailing reflective of the era Villas and cottages in bluestone, freestone and/or brick. Many substantial dwellings as well as some more modest, unornamented dwellings . Brick quoinwork common. Hip and gable roof forms with pitches above 25 degrees. Various porch and verandah styles including return verandahs ranging from modest to generous proportions either projecting or as a continuation of the main roof structure. Garages and carports are located behind the main façade of dwellings. Visible chimneys.
	Building height	Predominantly single storey. Upper storey elements are integrated sympathetically into the dwelling design and generally not visible from street.
	Materials	Wall materials consistent with era of original construction including bluestone, freestone, sandstone and brickwork. Pitched roofs in galvanised iron sheet or terracotta tiles. Some original slate tiles.

Statement#	Statement	
		Retention of original materials and finishes and unpainted masonry.
Fencing		Typical of the era of historic development. Low and/or open fencing forward of the main building façade. Maximum height to 1.2m. Timber picket or dowelling. Masonry and cast iron palisade. Some substantial hedging.
Setting, landscaping, streetscape and public realm features		Substantial avenues, trees and gardens. Significant front landscaped gardens. Modest verges containing single line of streets trees. Double row of mature trees planted along Alexandra Avenue and Prescott Terrace as a war memorial. Area includes school, churches, mews cottages and other community facilities.
Representative Buildings		Identified - refer to SA planning database.

Bur2	Eastwood Historic Area Statement (Bur2)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context		Majority 1870 - 1917 Victorian and Federation. Few 1917 - 1940 Post WW1.
Allotments, subdivision and built form patterns		Narrow allotments of varying widths. Closely spaced small early dwellings and narrow streets. Minimal front set-backs. Many with front verandah built to front boundary. Minimal side set-backs.
Architectural styles, detailing and built form features		Late 19th Century single fronted cottages, semi-detached and row dwellings. Modest double fronted detached cottages and villas. Few Interwar dwellings. Forms, scale and detailing reflective of the era. Hip and gable roof forms with pitches above 25 degrees.
Building height		Single storey.
Materials		Wall materials consistent with era of original construction including bluestone, freestone, sandstone and brickwork. Pitched roofs in galvanised iron sheet. Retention of original materials and finishes and unpainted masonry.
Fencing		Typical of the era of historic development. Low and/or open fencing forward of the main building façade. Maximum height to 1.2m. Timber picket or dowelling. Simple masonry and cast iron palisade, or simple wrought iron. Corrugated iron or mini orb within timber framing.
Setting, landscaping, streetscape and public realm features		Narrow streets. Boundaries positioned close to street with narrow footpaths. Street trees penetrating footpath adjacent kerb. Pocket park.
Representative Buildings		Identified - refer to SA planning database.

	Wootoona Terrace Historic Area Statement (Bur3)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context		Majority 1918 - 1940 Post WW1. Few 1912 - 1914 Federation.

Statement#	Statement	
Bur3	Allotments, subdivision and built form patterns	Single street intersected by side streets at 90 degree. Large site areas. Large street frontage widths. Generous front set-backs. Consistent side set-backs.
	Architectural styles, detailing and built form features	A range of early 20th Century international styles including Bungalows, Tudors and early English residential architecture. Large dwellings of generous proportions. Forms, scale and detailing reflective of the era. Hip and gable roof forms with pitches above 25 degrees. Various porch and verandah styles including return verandahs, usually of generous proportions, either projecting or as a continuation of the main roof structure.
	Building height	Mix of single storey and double story. Two storeys associated with grand residences. Upper storey elements are integrated sympathetically into the dwelling design.
	Materials	Wall materials consistent with era of original construction including bluestone, freestone, sandstone and brickwork. Roofs in galvanised iron sheet or terracotta tiles. Retention of original materials and finishes and unpainted masonry.
	Fencing	Typical of the era of historic development. Low and/or open fencing forward of the main building façade. Maximum height to 1.2m. Often including masonry pillars as entry statements constructed in stone or brick matching dwelling façade. Heavily vegetated. Some substantial hedging.
	Setting, landscaping, streetscape and public realm features	Wide verges. Substantial trees on public and private land. Expansive allotments, street frontages and gardens. Significant front landscaped gardens.
	Representative Buildings	Identified - refer to SA planning database.
Bur4	Beulah Park Historic Area Statement (Bur4)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Majority 1880 - 1917 Victorian and Federation. Few 1918 - 1940 Interwar.
Allotments, subdivision and built form patterns	Traditional rectangular grid pattern with narrow streets. Narrow allotments of varying widths with closely spaced small early dwellings. Minimal front set-backs to single fronted cottages. Larger setbacks for larger allotments, in context with prevailing historic street pattern.	
Architectural styles, detailing and built form features	Predominantly late 19th Century villas and cottages and some early 20th Century villas and bungalows. Single fronted workers cottages, row housing and semidetached dwellings. Modest double fronted villas, cottages and bungalows. Forms, scale and detailing reflective of the era. Hip and gable roof forms with pitches above 25 degrees.	
Building height	Single storey.	
Materials	Wall materials consistent with era of original construction including brickwork and stone.	

Statement#	Statement	
		Pitched roofs in galvanised iron sheet. Some original terracotta or slate tiles. Retention of original materials and finishes and unpainted masonry.
Fencing		Typical of the era of historic development. Low and/or open front fences. Maximum height to 1.2. Timber picket or dowelling. Simple masonry and cast iron palisade. Corrugated iron or mini orb within timber framing.
Setting, landscaping, streetscape and public realm features		Narrow streets. Boundaries positioned close to street with narrow footpaths. Street trees penetrating footpath adjacent kerb.
Representative Buildings		Identified - refer to SA planning database.
Bur5	Tusmore Historic Area Statement (Bur5)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Majority 1918 - 1950 Post WW1. Few 1900 - 1918 Federation.
	Allotments, subdivision and built form patterns	Traditional rectangular grid pattern. Large site areas. Large street frontages Large front set-backs.
	Architectural styles, detailing and built form features	Interwar styles including Bungalows and Tudors of varying designs. Forms, scale and detailing reflective of the era. Hip and gable roof forms with pitches above 25 degrees. Various porch and verandah styles ranging from modest to generous proportions either projecting or as a continuation of the main roof structure. Garages and carports are located behind the main façade of dwellings. Visible chimneys.
	Building height	Single storey.
	Materials	Wall materials consistent with era of original construction including sandstone and brickwork. Pitched roofs in galvanised iron sheet. Few terracotta tiles. Retention of original materials and finishes and unpainted masonry.
	Fencing	Typical of the era of historic development. Low and/or open fencing forward of the main building facade. Maximum height to 1.2m. Woven crimped wire. Wire mesh with timber or galvanised tube framing. Masonry with galvanised steel ribbon. Low masonry wall under 900mm in brick matching dwelling. Masonry base with wrought iron steel top rail. Timber paling with timber top rail not exceeding 1m high. Some substantial hedging.
	Setting, landscaping, streetscape and public realm features	Tree lined streets. Buildings square to and on street alignments. Established vegetated gardens.
Representative Buildings	Identified - refer to SA planning database.

Historic Areas affecting City of Charles Sturt

ChSt1	Bowden / Brompton Historic Area Statement (ChSt1)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1850s to early 1900s. Victorian era with an intimate and small-scale character.
	Allotments, subdivision and built form patterns	Small, long narrow allotments.
	Architectural styles, detailing and built form features	Single storey, detached and attached, single and double fronted workers' cottages. Some parapet walling to street with visible side return. Shop and dwelling typically on street corners. Early commercial and industrial buildings. Detached and semi-detached bungalow dwellings with wide verandahs, austerity and later townhouses.
	Building height	Single storey with ceiling heights at least 3m. Industrial scale walls of up to 5m.
	Materials	Red brick and bluestone walls and piers. Render to verandah piers, banding and parapets. Corrugated steel roofing in galvanised or paint finish. OG guttering in galvanised or paint finish. Painted timber to window frames, doors and roof trim. Chimneys; brick or painted render. Typically, small span steeply pitched gable and hipped 'M' roofs facing the street with ridge perpendicular or parallel to the street. Separate verandah to higher front wall or parapet.
	Fencing	Low front fencing, typically picket fencing and low masonry walls or combination thereof.
	Setting, landscaping, streetscape and public realm features	Small setbacks from the street. Narrow streets with minimal on site car parking. Original shopfronts to street corners. Industrial buildings constructed to street frontages.
	Representative Buildings	Identified - refer to SA planning database.

	Ovingham Historic Area Statement (ChSt2)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1850s to 1900s. 1930s to 1940s. 1970s to 1980s (SA Housing Trust).
Allotments, subdivision and built form patterns	Small narrow lots, often on strongly sloping sites. Allotment shape and size variable and angled to suit strongly sloping sites and street pattern including Albert Turnbull Reserve.	

Statement#	Statement	
ChSt2	Architectural styles, detailing and built form features	Single storey, detached and attached, single and double fronted workers' cottages. Bungalows and Austerity houses. Some early SA Housing Trust stock. Typically gable and hipped roofs facing the street, with separate verandah form. Generous roof planes and eaves overhangs to bungalows. Low wide bungalow style overhang verandah or gable.
	Building height	Single storey with ceiling heights at least 3m.
	Materials	Bluestone, sandstone and pressed metal/corrugated walls. Chimneys; brick or painted render. Red brick walls, chimneys and piers. Render to verandah piers, chimneys and banding. Corrugated steel roofing in galvanised or paint finish. OG guttering in galvanised or paint finish. Painted timber to window frames, doors and roof trim.
	Fencing	Low front fencing, typically picket fencing and low masonry walls or combination thereof.
	Setting, landscaping, streetscape and public realm features	Small to some generous variable setbacks from the street. Some dwellings parallel with angled side boundaries.
	Representative Buildings	Identified - refer to SA planning database.

ChSt3	Brompton Park Historic Area Statement (ChSt3)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1870s to 1890s. Victorian era.
	Allotments, subdivision and built form patterns	Very narrow, long allotments.
	Architectural styles, detailing and built form features	Single storey, detached and attached, single and double fronted workers' cottages. Typically, small span steeply pitched gable and hipped 'M' roofs facing the street with ridge perpendicular or parallel to the street. Separate verandah to higher front wall or parapet.
	Building height	Single storey with ceiling heights at least 3m.
	Materials	Bluestone and sandstone front walls, and red brick sidewalls. Render to verandah piers, banding and parapets. Corrugated steel roofing in galvanised or paint finish. OG guttering in galvanised or paint finish. Painted timber to window frames, doors and roof trim. Chimneys; brick or painted render.
	Fencing	Low front fencing, typically picket fencing and low masonry walls or combination thereof.
Setting, landscaping, streetscape and public realm features	Small setbacks from the street. Narrow streets with minimal on-site car parking. Original shopfronts and hotels to street corners. Some industrial buildings constructed to street frontages.	
Representative Buildings	Identified - refer to SA planning database.

	Some projecting hipped roofs. Shallow roof pitch of 20 degrees maximum.
Building height	Single storey with ceiling heights around 2.7m - 3m.
Materials	Red brick walls with protruding courses, painted and rendered sections, generally at high level to walls. Corrugated steel roofing and terracotta tile roofing (Bell Street). Porches either corrugated steel or curved flat concrete canopies. Timber framed sunshade awnings with corrugated iron sheet roof. Red brick chimneys. Painted timber framed window frames, doors and roof trim.
Fencing	Low open cyclone wire fencing or low tubular steel fencing.
Setting, landscaping, streetscape and public realm features	Medium to large front setbacks. Generous setting to each side of duplex.
Representative Buildings	Identified - refer to SA planning database.

Croydon / West Croydon (North east of the railway line) Historic Area Statement (ChSt6)

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

ChSt6

Eras, themes and context	1890s - 1910s. 1910s - 1940s (west of Brown Street, north of Herbert Road).
Allotments, subdivision and built form patterns	Very regular, consistent and long, rectangular allotments, with generous widths. Some combined shops and dwelling buildings to Rosetta and Elizabeth Street. Generous allotments facing Railway line.
Architectural styles, detailing and built form features	Detached dwellings on generous allotments. Edwardian to early Federation. Post-Edwardian villas along Day Terrace. Early bungalow styles, including some Queen Anne, Tudor and Art Deco styles in latter period areas. A number of more substantial buildings, particularly fronting the railway line. Combined shop/dwellings and rows of shops (Elizabeth Street, Rosetta Street). Hipped, gable and Dutch-gable (gambrel) roofs, 'M' roofs with ridge parallel to street and separate verandahs. Some verandahs continuous with main roof line. Typical bungalow verandahs as low height gable frontage. Generous roof planes and eaves overhangs to bungalows.
Building height	Single storey with generous ceiling and external wall heights of at least 3m.
Materials	Bluestone, sandstone and redbrick, quoins and window surrounds. Red brick and rendered chimneys. Bungalows have rendered or brick piers and low walling to verandahs with some tapered piers. Corrugated steel and terracotta (latter period) roofing. Painted timber window frames, doors and roof trim. Vertical proportioned timber windows with double sliding sashes. Some elaborate decorative elements including painted timber fretwork, cast iron lacework to verandahs, finials, cover battens to gables and decorative barges.
Fencing	Woven wire fences with painted timber posts.

Statement#	Statement	
		Painted timber picket fencing reflecting era of associated dwelling. Low masonry fencing with simple masonry piers, sometimes with simple iron and steel infill panels (from hume iron to tubular steel variations).
	Setting, landscaping, streetscape and public realm features	Medium to large front setbacks, typically set in mature gardens Typically tree lined streets particularly Day Terrace with railway line in treed setting. Generous side setbacks.
	Representative Buildings	Identified - refer to SA planning database.

ChSt7	Croydon / West Croydon (South west of the railway line) Historic Area Statement (ChSt7)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1890s - 1910s. 1940's bungalow style.
	Allotments, subdivision and built form patterns	Very regular and consistent rectangular allotments, with large widths.
	Architectural styles, detailing and built form features	Villas and symmetrical cottages, with some later, intrusive infill. Some worker's cottages of earlier periods. Some bungalow style. Hipped and gable roofs, and separate verandahs.
	Building height	Single storey with ceiling heights at least 3m.
	Materials	Bluestone, sandstone and redbrick. Corrugated steel roofing. Ornate render surrounds to window. Red brick and rendered chimneys. Bungalows have rendered or brick piers and low walling to verandahs with some tapered piers. Corrugated steel and terracotta (latter period) roofing. Painted timber window frames, doors and roof trim. Vertical proportioned timber windows with double sliding sashes. Some ornate decorative elements including painted timber fretwork, cast iron lacework to verandahs, finials, cover battens to gables and decorative barges.
	Fencing	Low masonry and original cast-iron and hume metal fencing. Woven wire fences with painted timber posts. Painted timber picket fencing reflecting era of associated dwelling.
	Setting, landscaping, streetscape and public realm features	Medium front setbacks. Plane Trees to Euston Terrace.
	Representative Buildings	Identified - refer to SA planning database.

	Allenby Gardens Historic Area Statement (ChSt8)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1920s - 1930s.
Allotments, subdivision and built form	Very regular and consistent rectangular allotments, with large widths.	

Statement#	Statement	
ChSt8	patterns	Some angular allotments due to street pattern and subdivision layout between main roads abounding area.
	Architectural styles, detailing and built form features	Late Edwardian, Federation and bungalow styles. Smaller number of Queen Anne and Tudor style houses. Mainly detached housing. Hipped, gable and Dutch gable roofs with decorative gable panelling and timber trim. Ridge lines that are mainly perpendicular or parallel to street frontage. Federation verandahs continuous with main roof. Some projecting gable forms to street. Low height bungalow style gables.
	Building height	Single storey with ceiling heights at least 3m.
	Materials	Terracotta tiles and corrugated steel roofing. Red brick and sandstone walls; some render. Red brick and render chimney.
	Fencing	Typically, low masonry fencing, sometimes with steel inserts. Woven wire fences with painted timber posts. Painted timber picket fencing reflecting era of associated dwelling.
	Setting, landscaping, streetscape and public realm features	Cohesive pattern of established detached dwellings with garden settings Medium front setbacks. Tree lined streets. Coombe Road is the natural focus of the area, and includes a school complex of a similar period to surrounding housing.
	Representative Buildings	Identified - refer to SA planning database.

Pre-World War One Pennington West Historic Area Statement (ChSt9)		
The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.		
These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.		
The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.		
Eras, themes and context	1900s to 1920s, some 1940s/50s eastern side. Edwardian/Federation/early Bungalow.	
Allotments, subdivision and built form patterns	Uniform allotment size and street layout. Typically large frontages with deep allotments.	
Architectural styles, detailing and built form features	Edwardian, Federation and early bungalows. Predominantly detached. Typical symmetrical frontage with return verandahs on corner allotments. Vertical proportion windows to earlier housing with typical wider and lower bungalow proportion windows. Steeply pitched Hipped, gable and Dutch gable (gambrel). Some 'M' Roof with ridge parallel to street. Some verandahs continuous with main roof. Some detached verandahs with typically bullnose profile. Generous simple roof planes to bungalow style with less steep roof. Low height wide bungalow verandahs.	
Building height	Single storey with ceiling heights and external walls to at least 3.5m.	
Materials	Red brick, sandstone and render walling. Render or brick chimneys. Some pressed metal wall cladding on the fronts. Some corrugated iron or small fluted iron cladding on the side walls.	

Statement#	Statement
	<p>Terracotta tile and corrugated iron roofing and verandahs.</p> <p>Painted timber window frames, doors and roof trim.</p> <p>Ornate cast iron to verandahs. Turned painted timber verandah posts.</p>
Fencing	<p>Typically, low masonry, timber picket or wire mesh with timber post fencing.</p> <p>Woven wire fences with painted timber posts.</p> <p>Painted timber picket fencing reflecting era of associated dwelling.</p> <p>Low small fluted metal fencing with painted timber trim.</p>
Setting, landscaping, streetscape and public realm features	<p>Medium to large front setbacks.</p> <p>Helen Street with Mt Carmel School as strong focal point.</p>
Representative Buildings	<p>Identified - refer to SA planning database.</p>

	Eras, themes and context	1910s to 1940s.
	Allotments, subdivision and built form patterns	Very regular and consistent rectangular allotments, typically very wide. Narrow deep allotments to Frederick Street.
	Architectural styles, detailing and built form features	Late-Edwardian and Federation housing styles. Predominantly detached with some early semi-detached housing, some designed to look like one dwelling (Frederick Street). Early bungalows and 1940s Austerity houses. Some bungalow makeovers to earlier symmetrical dwellings. Hipped, gable and louvre roofs. Separate bull nose verandah typically to earlier dwellings. 'M' roof forms with ridge parallel to street frontage. Generous simple bungalow roof planes at shallower pitch to earlier housing with lower height generous width verandah. Some verandahs continuous with main roof.
	Building height	Single storey with ceiling and external wall heights at least 3m - 3.5m.
	Materials	Red brick, bluestone and sandstone walls. Terracotta tiles, corrugated iron and decorative timber trim roofs. Painted metal gutters. Wall vents at high level between top of verandah and underside of gutter Red brick or render finish chimneys. Flat Cantilever concrete canopy sunshades with steel suspension. Ornate cast iron to some verandahs. Ornate decorative painted timber to some verandahs. Painted timber to window and door frames and timber roof trim.
	Fencing	Typically, low masonry sometimes with steel inserts, timber picket or wire mesh with timber post fencing.
	Setting, landscaping, streetscape and public realm features	Tree-lined streets. Large front setbacks.
	Representative Buildings	Identified - refer to SA planning database.

<p>Woodville South Historic Area Statement (ChSt12)</p>		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Eras, themes and context	1910s to 1940s.	
Allotments, subdivision and built form patterns	Substantial allotments with uniformity of layout and buildings, particularly in the 'Glen' Streets and Angus Street. Predominantly large frontages.	
Architectural styles, detailing and built form features	Predominantly bungalows with one wide verandah and Tudors with two main gables and central porch. Some Spanish Mission, Dutch Gable and Art Deco houses. Predominantly detached. Steep pitched gables associated with Tudor housing and Dutch Gables. Some villa/bungalow hybrid gables.	

Statement#	Statement	
ChSt12		<p>Gable porches.</p> <p>Bungalow style verandahs with low height pitching point.</p> <p>Some verandah roofs continuous with main roof (bungalow and Spanish Mission).</p> <p>Some flat roofed verandahs set behind arched parapet verandah (Spanish Mission).</p> <p>Tall chimneys.</p>
	Building height	<p>Single storey with ceiling heights at least 3m.</p> <p>Bungalow and Spanish Mission typically of lower wall appearance to the street, with broad frontage.</p>
	Materials	<p>Freestone, red brick, stucco and baked or glazed brick.</p> <p>Exposed ornate timber work.</p> <p>Terracotta tiles and some galvanised corrugated iron roofs.</p> <p>Tapered and straight masonry piers and low walls to verandahs of bungalows, some with rendered capping to brickwork or rendered masonry.</p> <p>Painted timber battens (Tudor curved) to painted panel gables of Tudor and Bungalow.</p> <p>Painted timber framed window frames, door frames and roof trim.</p>
	Fencing	<p>Fencing generally low brick, stucco or wire and mostly integral with the design of the house.</p> <p>Some painted timber fencing with pickets or woven wire.</p>
	Setting, landscaping, streetscape and public realm features	<p>Tree lined streets, well maintained gardens, abundant with mature vegetation.</p> <p>Main-focus the landscaped Woodville Oval complex.</p> <p>Buildings fronting Woodville Oval on Oval Avenue and Cedar Avenue are of a larger scale with wider allotments, particularly on corner allotments with 'Glen' Streets.</p>
	Representative Buildings	<p>Identified - refer to SA planning database.</p>

ChSt13	Kilkenny Historic Area Statement (ChSt13)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. 	Eras, themes and context	<p>1850s to 1950s.</p> <p>Predominant era is 1920s to 1930s in the north and 1910s to 1920s in the south.</p>
Allotments, subdivision and built form patterns	<p>Typically regular and consistent rectangular allotments, typically very wide.</p> <p>Narrow allotments to Wilpena Terrace, Arkaba Road and Mundulla Street.</p>	
Architectural styles, detailing and built form features	<p>Single front cottages.</p> <p>Edwardian and post-Edwardian cottages in the south.</p> <p>Federation and bungalow houses in the north.</p> <p>Small group of Victorian former shops located at the southern end of Wilpena Terrace reflecting the original main street of Kilkenny.</p> <p>High-quality 1930s houses on large allotments at the northern end</p> <p>Predominantly detached and some attached housing.</p> <p>Semi-Detached dwellings to Wilpena Terrace west of Mundulla Street.</p> <p>Small scale hipped, gable and louvre roofs typically with ridge line perpendicular to the street.</p> <p>Some 'M' roofs with ridge line parallel to the street.</p> <p>Relatively steeper roof pitch.</p> <p>Generous Bungalow roofing with simple roof plane and generous overhangs.</p> <p>Some federation verandahs continuous with main roof.</p> <p>Some separate bullnose verandahs lower than main wall height.</p> <p>Some central gable to verandah with finial.</p>	
Building height	<p>Single storey with ceiling heights at least 3m.</p>	

Statement#	Statement	
		Some traditional two storey.
	Materials	Freestone and red brick side walls. Red brick quoins. Rendered walling, tapered piers to bungalow verandahs and parapets. Corrugated iron and terracotta tile roofs. Brick or render chimneys with some decoration. Painted timber frame windows and doors with painted timber roof trim.
	Fencing	Typically, low masonry sometimes with steel inserts, timber picket or wire mesh with timber post fencing.
	Setting, landscaping, streetscape and public realm features	Medium to large front setbacks. Shop and attached dwelling a strong characteristic in Wilpena Terrace with corner shops and verandahs over footpaths. Some dwellings and former shops constructed closer to front boundaries, especially if located on a corner allotment.
	Representative Buildings	Identified - refer to SA planning database.
ChSt14	Woodville Park Historic Area Statement (ChSt14)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1900s to 1950s.
	Allotments, subdivision and built form patterns	Very regular and consistent rectangular, deep allotments, to both sides of the railway line typically very wide with some narrow allotments to Belmore and Russell Terraces.
	Architectural styles, detailing and built form features	Generally detached, later symmetrical cottages, Villas, Federation, Queen Anne, occasional Austerity and bungalow styles with some attached housing to suit narrow allotments. Hipped, gable and louvre roofs with verandahs. Separate verandahs, typically bullnose, across frontages of symmetrical cottages, with many return verandahs not always on corner allotments. Separate verandahs to suit Villa style. Steeper roof pitches to earlier styles and Tudor with shallower pitched bungalow roofing. Wide low height verandah frontages to bungalows with gable and half gable styles with masonry piers and low plinth walls. Simple generous roof planes and eaves overhangs to bungalows with main ridge generally parallel to the street. Steeply pitched Tudor gables and verandah gables facing the street.
	Building height	Single storey with ceiling heights at least 3m.
	Materials	Red brick and freestone walls. Galvanised corrugated iron and terracotta roofs. Painted timber window frames, doors, roof trim and cover battens to gable panels. Some ornate painted timber fretwork and posts to verandahs. Brick or rendered masonry chimneys.
	Fencing	Typically, low masonry sometimes with steel inserts, timber picket or wire mesh with timber post fencing.
Setting, landscaping, streetscape and public realm features	Fences and front gardens are strong elements. Medium to large front setbacks.	
Representative Buildings	Identified - refer to SA planning database.	
	Woodville Historic Area Statement (ChSt15)	
The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.		
These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.		

Statement#	Statement	
ChSt15	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1880s to 1940s.
	Allotments, subdivision and built form patterns	Large, deep allotments typically very wide with slightly smaller scale housing south of the railway line. The Stanley Street change in direction results in allotments of lesser depth. Large corner allotments to Woodville Road. Some narrow allotments to Hughes Street North.
	Architectural styles, detailing and built form features	Generally large single-storey detached houses, bluestone Victorian villas, large Federation, Queen Anne and elaborate, large bungalow dwellings. Significantly larger mansions to Woodville Road. Smaller symmetrical cottages with some return verandah and smaller, simple bungalows to Russell Terrace. Semi-detached houses designed to look like one dwelling on Hughes Street North. Hipped, gable and louvre roofs. Relatively more complex hipped, gable and louvre roofs with verandahs. Separate verandahs, typically bullnose, across frontages of symmetrical cottages, with many return verandahs not always on corner allotments. Separate verandahs to suit Villa style. Federation style verandahs continuous with main roof. Steeper roof pitches to earlier styles with shallower pitched bungalow roofing. Wide low height verandah frontages to bungalows with gable and half gable styles with masonry piers and low plinth walls. Simple, multiple generous roof planes and eaves overhangs to bungalows with main ridge generally parallel to the street.
	Building height	Single storey with ceiling heights at least 3m - 3.5m.
	Materials	Bluestone, red brick and freestone walls. Galvanised corrugated iron and tiled roofs. Painted timber window frames, doors, roof trim and cover battens to gable panels. Some ornate painted timber fretwork and posts to verandahs. Brick or rendered masonry chimneys.
	Fencing	Typically, low masonry sometimes with steel inserts, timber picket or wire mesh with timber post fencing.
	Setting, landscaping, streetscape and public realm features	Wide, tree-lined streets and large established gardens. Large front setbacks.
Representative Buildings	Identified - refer to SA planning database.	

<p>Cheltenham East Historic Area Statement (ChSt16)</p>		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>		
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>		
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Eras, themes and context	1880 -1940. Small early cottages, Federation through to Bungalow.	
Allotments, subdivision and built form patterns	Small and variable allotment sizes, typically wide. Some substantial corner allotments remain.	
Architectural styles, detailing and built form features	Villas and symmetrical cottages, Federation and bungalow styles. Predominantly detached. Simple steeply pitched hipped, gable, louvre roof forms and verandas. Some separate and bullnose generally symmetrical with occasional return verandahs not always on corner allotments.	

Statement#	Statement	
ChSt16		<p>Bungalow roof forms with simple generous roof planes and eaves overhangs.</p> <p>Some verandahs continuous with main roof.</p> <p>Low height street facing bungalow verandahs with tapered masonry piers and low plinth walls.</p>
	Building height	Single storey with ceiling heights at least 3m - 3.5m.
	Materials	<p>Pressed metal, 'stone' front, metal or weatherboard clad, red brick, freestone and sandstone walls.</p> <p>Corrugated iron and terracotta tiled roofs.</p> <p>Red brick and rendered finish to chimneys.</p> <p>Painted timber window frames, doors, roof trim and cover battens to gable panels.</p> <p>Generally, less ornate painted timber fretwork and posts to verandahs.</p> <p>Some cast iron lacework to verandahs.</p>
	Fencing	Typically, low masonry sometimes with steel inserts, timber picket or wire mesh with timber post fencing.
	Setting, landscaping, streetscape and public realm features	Varied, small to medium front setbacks.
	Representative Buildings	Identified - refer to SA planning database.
	ChSt17	<p>Cheltenham West Historic Area Statement (ChSt17)</p>
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>		
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>		
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Eras, themes and context		1910s to 1950s.
Allotments, subdivision and built form patterns		Typically, wide streets, with large allotments typically very wide.
Architectural styles, detailing and built form features		<p>Villas, Post-Edwardian, Federation, Tudor and bungalow and Post War style.</p> <p>West of Stroud Street, occasional Tudor or 1940s dwellings.</p> <p>Housing close to Torrens Road and south of the railway line more 'mixed' in character.</p> <p>Hipped, gable and louvre roof forms and verandas.</p> <p>Simple steeply pitched hipped, gable, louvre roof forms and verandas.</p> <p>Some separate and bullnose generally symmetrical with occasional return verandahs not always on corner allotments.</p> <p>Bungalow roof forms with simple generous roof planes and eaves overhangs.</p> <p>Shallower roof pitches to Post War housing.</p> <p>Some verandahs continuous with main roof.</p> <p>Low height street facing bungalow verandahs with tapered masonry piers and low plinth walls.</p>
Building height		Single storey with ceiling heights at least 3m - 3.5m.
Materials	<p>Pressed metal, 'stone' front, metal or weatherboard clad, red brick, freestone and sandstone walls.</p> <p>Corrugated iron and terracotta tiled roofs.</p> <p>Red brick and rendered finish to chimneys.</p> <p>Painted timber window frames, doors, roof trim and cover battens to gable panels. Generally, less ornate painted timber fretwork and posts to verandahs. Some cast iron lacework to verandahs.</p>	
Fencing	Typically, low masonry sometimes with steel inserts, timber picket or wire mesh with timber post fencing.	
Setting, landscaping, streetscape and public realm features	Residual shops attached to dwellings and community facilities centred around 'main streets' in Buller Terrace, Stroud Street (north and south) and Railway Terrace. Medium to large front setbacks.

Decorative parapets to street frontages and returns.		

Statement#	Statement	
ChSt21		Steeply pitched hipped roofs visible behind parapets, with separate, wide verandahs across frontage. Some gable forms including simple cottage form to Milner Street.
Building height		Single and two-storey built form with ceiling heights that vary from 3m through to substantial church buildings.
Materials		Limestone, bluestone, sandstone, face red brick walls and rendered walls. Use of brick and rendered quoins. Corrugated galvanised steel roofing. Decorative cast iron posts and balustrades. Painted timber posts and fascia elements.
Fencing		Built form typically to the street with verandahs over public realm. Some rendered masonry fencing with cast iron infill.
Setting, landscaping, streetscape and public realm features		Historic heart of the Hindmarsh Village and the principal area for a range of retail, business, ecclesiastic and office uses.
Representative Buildings		Identified - refer to SA planning database.

ChSt22	Henley Square Historic Area Statement (ChSt22)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1840s to 1920s.
	Allotments, subdivision and built form patterns	Traditional patterns of development incorporating verandahs, balconies and parapets clustered around Henley Square.
	Architectural styles, detailing and built form features	Substantial two-storey buildings with wide balconies and verandahs, some over footpaths. Traditional single storey buildings with verandahs over footpaths. Modern development including large expansive verandahs on the square. Decorative parapets to the street and Henley Square facades. Steeply pitched hipped and gable roof forms, with attached balconies and verandahs across frontage. Skillion and curved (bull nose) verandah roof forms.
	Building height	Single and double storey buildings with ceiling heights at least 4.5m per floor giving an imposing character.
	Materials	Bluestone, sandstone, red brick walls and rendered walls. Some corrugated iron walling. Use of brick and rendered quoins, brick banding and other traditional decoration. Imposing masonry pediments and gables with brick banding. Corrugated steel roofing. Decorative cast iron and painted timber verandahs and balconies.
Fencing	Some low masonry walling. Typically, open shop fronts with verandahs over public realm.	
Setting, landscaping, streetscape and public realm features	Historic heart of Henley Beach and the principal area for a range of retail, business and entertainment uses.	
Representative Buildings	Identified - refer to SA planning database.

ChSt23	<p>Eighth Street, Bowden Historic Area Statement (ChSt23)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1860s - 1890s.
	Allotments, subdivision and built form patterns	Intimate scaled narrow fronted and regular rectangular allotment containing three pairs of semi-detached dwellings and one detached dwelling.
	Architectural styles, detailing and built form features	Single storey semi-detached dwellings and detached dwelling. Gable facing the street defining each semi-detached dwelling. Steeply pitched gable roofs facing the street. Skillion verandah roof forms or variable pitch.
	Building height	Single storey with ceiling heights around 3m. High solid to void ratio and vertically proportioned openings.
	Materials	Rendered masonry walls with attached front verandahs. Brick capping to parapets with some decoration. Corrugated steel roofing.
	Fencing	Traditional and some non-original low rendered masonry and timber picket fencing with occasional tubular-steel.
	Setting, landscaping, streetscape and public realm features	Small front wall setbacks with verandah forward of front wall.
	Representative Buildings	Identified - refer to SA planning database.

Historic Areas affecting Clare and Gilbert Valleys

CGV1	<p>Auburn Historic Area Statement (CGV1)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. Historic Areas affecting The Flinders Ranges Council

	<p>Quorn Historic Area Statement (FIRa1)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>
--	--

Statement#	Statement	
FLRA1	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Turn of the 19 th century. Civic, commercial and retail. Railway.
	Allotments, subdivision and built form patterns	Traditional grid.
	Architectural styles, detailing and built form features	Villas and double fronted cottages. Railway buildings and railway architecture. Verandahs provided over footpaths. Heritage-style signage.
	Building height	Single storey. Two storeys associated with grand, civic or commercial activities.
	Materials	Local stone, masonry and corrugated iron.
	Fencing	Open fencing no more than 1.2m.
	Setting, landscaping, streetscape and public realm features	Buildings square to and on the street alignment. Buildings not on street alignment surrounded by gardens/landscaping. Minimal breaks between buildings other than where there has been an existing access to the rear of the site. Wide streets and verges, grassed median strips and tree lined streets.

Historic Areas affecting Town of Gawler

Ga1	Gawler East Historic Area Statement (Ga1)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1850-1940; residential and local scale retail.
	Allotments, subdivision and built form patterns	The Area is divided into two sections by Lyndoch Road. Large allotments with large dwellings and gardens exist along High Street and Duffield Street. Smaller allotments exist along Lyndoch Road. Traditional grid north of Lyndoch Road. Allotments typically are of consistent width and depth, rectangular in shape orthogonal to the street layout apart from some dwellings facing Lyndoch Road on the north side, which have an angled front boundary. The pattern of streets stem from orthogonal junctions with Lyndoch Road and rising ground.
	Architectural styles, detailing and built form features	Victorian and Turn-of-the-Century Villas/Mansions. Nineteenth century double fronted symmetrical cottages; parapet end gables a feature. Bungalows with some Inter War. Roof pitches in the order of 27 degrees and 35 degrees. Stone walls and stone outbuildings. Steeply pitched hipped and simple gable roofs of small and large scale. Large roofs typically gambrel in form with additional central gables and villa style projecting gable. Smaller early roof forms with ridge parallel to the street. Separate, generous verandahs to the street of bullnose, straight and concave form. Some return verandahs and some central entrance gable. Some verandahs continuous with main roof. Shallower pitched bungalow roof forms with simple generous roof planes and overhangs. Wide bungalow style verandahs with masonry supports and low plinth walls.
	Materials	Sandstone/Limestone with red brick quoins. Ornate render. Corrugated profile roofing. Vertically proportioned painted timber window frames and doors. Painted timber cover battens. Decorative brick, stone or rendered chimneys. Cast iron decoration and painted timber detailing to verandahs.
	Building height	Single storey forms generally influenced by site topography. Buildings on low side of streets appear as single storey with double level to rear, particularly in north west of area. Buildings on high side of street appear as double storey or elevated single storey with verandahs occurring on high plinth and central access steps.
	Fencing	Low open style fencing which includes masonry pier and plinth fence with decorative open infill. Low masonry walls up to 1.2 metres. Timber picket fences. Hedges. Stone walls on front boundaries are important features.
Setting, landscaping, streetscape and public realm features	Important entrance to Gawler from east with significant north to south connecting streets such as Duffield and East. Unique angled street layout north of Lyndoch Road with Edith and Blanch Street connected by Short Street. North western edge defined by Railway Line. A portion of the west side faces Pioneer Park; some small scale mixed use to Union Street. North to south streets generally run with contours of land with high and low side. Generous front and side setbacks. Landscaped setting derived from generous gardens with substantial trees and wide tree-lined streets. Surfaces consistent with the footpaths and streets. Views to and from the area.	
Representative Buildings	Identified - refer to SA planning database.	
Gawler South Historic Area Statement (Ga2)		

Statement#	Statement		
Ga2	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
	<table border="1"> <tr> <td data-bbox="148 280 338 358">Eras, themes and context</td> <td data-bbox="338 280 1562 358">1860 to 1950 including bungalows and Austerity.</td> </tr> </table>	Eras, themes and context	1860 to 1950 including bungalows and Austerity.
	Eras, themes and context	1860 to 1950 including bungalows and Austerity.	
	Allotments, subdivision and built form patterns	Generous allotments typically on flat land with some variations in topography towards Dead Man's Pass and river. Grid pattern intersected by Twelfth Street that shifts direction at Adelaide Road. Oblique street intersections and prominent irregular corner allotments as follows: Unique and variable Street pattern defined by Railway line, Adelaide Road, Racecourse, Gawler River and Town Centre. Eighteenth to twenty second street run east to west. First, Second and Fourth Streets run parallel with the northern Adelaide Road and join with Adelaide Road at an angle. Fifth, Seventh, Third and Sixth Streets connect to each side of Adelaide Road. Thirteenth, Fourteenth and Fifteenth Street and Eighth Streets angled to River. Smaller allotments to Ninth and Tenth Streets. Gawler Terrace defined by Dead Man's Pass.	
	Architectural styles, detailing and built form features	<p>Detached double-fronted villas. Semi-detached and row cottages. Some Federation and Bungalow style dwellings. Some Inter War and Austerity. Verandahs and parapets. Substantial stone or masonry villas surrounded by generous gardens and landscaping.</p> <p>Traditional railway structures associated with the Gawler Railway Station including workshops, stores and industrial buildings and small.</p> <p>Roof pitches in the order of 27 degrees and 35 degrees. 'M' Roof form and gambrel roof found in 13th and 14th street vicinity. Gambrel roof forms to villas. Simple, small span cottage style roofs generally evident. Parapets to cottages.</p> <p>Separate verandahs including but not limited to generous sweeping concave style. Some verandahs continuous with main roof.</p>	
	Building Height	Single storey with some elevated housing in Eighth Street and Gawler Terrace, featuring substantial setbacks and elevated verandahs. Wall heights in the order of 3.6 metres above floor level.	
	Materials	Stone and limestone walling with red brick quoins. Some bluestone. Corrugated iron roof sheeting to verandahs and roofs. Red brick or render chimneys. Ornate brick detailing to gables and gable vents. Cast iron lacework to verandahs; typically simple timber details. Painted timber window frames, doors, roof trim and modest decorative treatments such as finials.	
	Fencing	Low masonry walling. Low open style fencing which includes masonry pier and plinth fence with decorative open sections of up to 1.2 metres in total height. Painted timber picket fencing. Some woven wire fencing with painted timber posts.	
Setting, landscaping, streetscape and public realm features	Detached dwellings on generous wide and deep allotments. Generous front and side setbacks. Some early cottages with very substantial setbacks. The strong visual axis to the Railway Station buildings provided by Nineteenth Street. Boulevard style and character of Nineteenth Street derived from buildings positioned close to and square to the road frontage and designed to directly address the street. Corner sites where the grid is interrupted accommodating prominent buildings whose built form and side elevations are of equal importance to the façade. Established gardens with substantial front and side setbacks. Wide tree lined streets particularly Eighteenth Street, which incorporates gravel verges and remnant bluestone/slate kerbing to define bitumen. Night Cart lanes alignment and widths.		
Representative Buildings	Identified - refer to SA planning database.		

Ga3	<p>Light Historic Area Statement (Ga3)</p>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Residential, commercial, public and ecclesiastical buildings developed predominantly between 1850 to 1940, with some later Federation and Bungalows (Jerningham Street).
	Allotments, subdivision and built form patterns	Allotments, streets, squares and other elements which comprise the original 1839 grid layout of Light, Finniss and Co. Large allotments of original plan, with some limited subdivision generally on the perimeter of the State Heritage Area.
	Architectural styles, detailing and built form features	<p>Simple symmetrical double fronted cottages and villas surrounding the Church Hill State Heritage Area. Early small cottages and more substantial dwellings that retain simple symmetrical features, with vertically proportioned window openings and doors. Some parapet walling to early cottages.</p> <p>Roof pitches in the order of 27 degrees to 35 degrees. Variety of roof forms including simple small span gable and hipped to early cottages; 'M' roof forms; villa with typical projecting gable; larger span and higher Gambrel roof.</p> <p>Separate verandah forms with bullnose, straight pitch and concave verandahs of generous width. Some verandahs continuous with main roof.</p>
	Building Height	<p>Single storey facing street with double storey to rear due to escarpment.</p> <p>External wall heights to frontage and sides in the order of 3.6 metres.</p>
	Materials	Bluestone, sandstone and limestone external walling with typically red brick trim and features including quoins and plinth. Some external front and side walling entirely in red brick. Corrugated iron roofing generally with roof tiling rarely found on older buildings and only on more recent buildings. Prominent chimneys in brick, stone or render finish. Some elaborate brick detailing to gable vents and parapets.
	Fencing	Low masonry front walls. Significant stone retaining walls to edge of Church Hill escarpment. Low open style fencing which includes masonry pier and plinth fence with decorative open sections, painted timber picket and woven wire. Stone walls and retaining walls are important features.

Statement#	Statement																	
	Setting, landscaping, streetscape and public realm features	Subdivision retains planning undertaken by Light, Finniss and Co in 1839. Low lying areas that rise from surrounding rivers to Church Hill State Heritage Area. King Street is located on a ridge so dwellings on both sides appear as single story to the street with double storey to rear. Wide streets with slate kerbs and substantial trees. Gardens in scale with the buildings and large allotments. Front setbacks to streets such as King, Queen, Howard and Cameron Streets outside of Church Hill State Heritage Area have lesser front setbacks and generous side setbacks; notable exception is Jerningham Street that exhibits generous setbacks.																
	Representative Buildings	Identified - refer to SA planning database.

Materials	Sandstone and limestone external walls of modest detail Corrugated iron roof sheeting. Painted timber window frames and doors, verandah posts and roof trim with modest embellishment. Red brick or rendered masonry chimneys.																	

Statement#	Statement	
	Fencing	Low stone walls and other open style fencing which includes woven wire with timber posts, picket and masonry pier and plinth fence with decorative open sections of up to 1.2 metres in total height. Stone walls and retaining walls due to rising ground.
	Setting, landscaping, streetscape and public realm features	Redbanks Road defined by walling and fending to street boundary with substantial gardens and street trees on the low (southern) side. Dwellings typically set back substantially from street frontage with generous spaces between Princess Park provides angled open space at angled junction of Redbanks Road with Princess Street. Slate kerbs.
	Representative Buildings	Identified - refer to SA planning database.
Ga6	<p>Special Uses Historic Area Statement (Ga6)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1850 to 1910.
	Allotments, subdivision and built form patterns	Open space surrounded by grid layout adapted to the topography of the rising ground and confluence of rivers and railway line.
	Architectural styles, detailing and built form features	Some historic structures such as Gasworks, monuments, railway, showgrounds and bridges. Some more recent structures including recreation centre and smaller clubroom buildings associated with courts and pool. Gasworks has distinctive curved roof.
	Building height	Approximately 6 metres for larger structures.
	Materials	Sandstone and limestone external walls of modest detail. Corrugated iron roof sheeting. Bridge of steel and cast iron.
	Fencing	Typically no fencing or open fencing. Some solid metal fencing to Railway line at Showgrounds.
	Setting, landscaping, streetscape and public realm features	The topography and natural features of the locality including the path of the North and South Para Rivers. Public squares around the churches; terraces and parklands bordering the rivers.
	Representative Buildings	Identified - refer to SA planning database.
Ga7	<p>Town Centre Gawler South Historic Area Statement (Ga7)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1860 to 1910. Important residential area at change in direction of Adelaide Road from north to north east, interspersed with smaller shops that herald the southern entrance to Gawler with historic monument, park and church and former hall to each sides and former Council offices at Twelfth Street. Recent developments include the change of use for commercial or consulting purpose typically without alteration to the residential character.
	Allotments, subdivision and built form patterns	Wide and deep allotments orthogonal to Adelaide Road. Rear lane to south east side parallel to Adelaide Road typically used to access rear car parking areas.
	Architectural styles, detailing and built form features	Victorian and turn-of-the-century detached and semi-detached villas and double fronted cottages. Some semi-detached dwellings and detached villas incorporate distinctive ornate render and brick detailing to gables and verandahs. Other semi-detached dwellings, cottages and detached vials incorporate modest detailing. Few intrusive modern infill buildings. Semi-detached residential buildings with short span hipped or gable roof forms and rear lean-to roofs; ridge typically parallel to Adelaide Road with many projecting gables as paired bookends to each building. Larger span (front 4 rooms) hipped roof with gambrel or 'M' roof with ridge parallel to the street. Variety of separate verandahs including bullnose, double curve, concave and straight mono pitch. Roof pitch typically steep (27 to 35 degrees).
	Building height	Single storey with wall heights in the order of 3.5-4.0 metres.
	Materials	Sandstone and bluestone external walls. Red brick quoins, parapets, vents and parapets. Some decorative render. Painted timber window frames and doors. Chimneys in brick or render.
	Fencing	Low stone or rendered masonry walling. Open style fencing with masonry pier and plinth fence with decorative open sections of up to 1.2 metres in total height.

Statement#	Statement																	
	Setting, landscaping, streetscape and public realm features	Generous front garden settings set behind low masonry walling with substantial trees and wide tree-lined streets. Slate kerbs. Car parking is generally to the rear.																
	Representative Buildings	Identified - refer to SA planning database.

Historic Areas affecting City of Holdfast Bay

Glenelg Village Historic Area Statement (HoB1)		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Eras, themes and context	1840s-1860s. 1870s - 1900s. 1910s - 1930s. Subdivision in 1839. Growth period in 1920s associated with increase in holidaymaking and leisure pursuits.	
Allotments, subdivision and built form patterns	Orderly street layout, centred around the St Peters Anglican Church in Torrens Square. Grid pattern of large allotments. Subject to further land division over time but legibility of original pattern remains. Consistent small front setbacks. Small side setbacks.	
Architectural styles, detailing and built form features	Early symmetrical and asymmetrical cottages of low scale and simple form with restrained detailing. Mid-Victorian Period cottages and villas (symmetrical and asymmetrical), semi-detached cottages and row dwellings with detailing typical of the era including verandahs, cast iron lacework, hipped and gable roof forms, plaster and render mouldings. Inter-War buildings, mostly Bungalows. Low scale to medium, relatively small dimensions and basic building details. Many dwellings without vehicle garaging. Garages, carports and outbuildings, where they exist, are low in scale and simple in form. They are located unobtrusively, to the rear of dwellings or the principal building on the site or, alternatively to the side and well-setback from the front façade. Rectilinear plan forms. High degree of modulation and articulation. Low scale. Steep roof pitches in the order of 30 to 40 degrees (slightly lower on Inter-War buildings). Short roof spans. Hip and gable roof forms. Concave, bullnose and straight-pitched verandahs. Fine-grain detail in elements such as plinths, string courses, projecting sills. High solid to void ratio. Vertical proportions in windows and doors.	
Building height	Predominantly single storey but some two storey.	
Materials	Consistent with the materials used in the 1840s to 1930s period. Bluestone, sandstone, walls (unpainted). Some brick. Brick or rendered quoin work and plinths. Corrugated iron roofing.	

HoB1

Statement#	Statement	
		Timber joinery including verandah posts and framing, fascia, barges, window frames, door frames and doors.
	Fencing	Fencing associated with the era and style of the building, and providing views to the building. Timber picket, timber dowel, timber paling. Hedging. Low masonry plinth with cast iron or wrought iron in a traditional arrangement. Woven wire or low masonry with or without geometric steel for Inter-war buildings.
	Setting, landscaping, streetscape and public realm features	Well established streetscape character, with clearly defined setbacks and uniform front landscaping. Substantial Norfolk Island Pines along Augusta Street and Fig trees at Torrens Square. Vistas toward St Peters Anglican Church from Augusta and Nile Streets.
	Representative Buildings	Identified - refer to SA planning database.

Maturin Road Historic Area Statement (HoB2)	
The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
Eras, themes and context	1920s or 30s.
Allotments, subdivision and built form patterns	Original subdivision of The Olives and Bromley. Allotments on southwest end were subdivided in 1886 and 1912. Mixed allotment sizes with large frontages. Substantial building setbacks. Large front setbacks. Side setbacks provide visual spacing between dwellings.
Architectural styles, detailing and built form features	Typical 1890s to early 20th Century dwellings. Victorian dwellings. Inter-War dwelling styles including Bungalow, Tudor, Art Deco and Mediterranean. Rectilinear plan forms. High degree of modulation and articulation. Low scale. Steep roof pitches in the order of 30 to 40 degrees (slightly lower on Inter-War buildings). Short roof spans. Hip and gable roof forms. Deep verandahs and porches. Fine-grain detail in elements such as plinths, string courses, projecting sills. High solid to void ratio. Vertical proportions in windows and doors. Garages, carports and outbuildings, where they exist, are low in scale and simple in form. They are located unobtrusively, to the rear of dwellings or the principal building on the site or, alternatively to the side and well-setback from the front façade.
Building height	Single storey and two storey (some in-roof or partly in-roof).
Materials	Consistent with the materials used in the 1880s to 1930s period. Sandstone, red brick, rendered facades. Corrugated iron and terracotta tiled roofing. Timber joinery including verandah posts and framing, fascia, barges, window frames, door frames and doors. Timber strapping on Inter-War dwelling gables.

HoB2

Statement#	Statement	
	Fencing	Fencing associated with the era and style of the building, and providing views to the building. Timber picket, timber dowel, timber paling. Hedging. Low masonry plinth with cast iron or wrought iron in a traditional arrangement. Woven wire or low masonry with or without geometric steel for Inter-war buildings.
	Setting, landscaping, streetscape and public realm features	Narrow street. Well-established garden settings. Lack of street planting due to the narrow width of Maturin Road. The Olives is a significant State Heritage Place on Olive Street.
	Representative Buildings	Identified - refer to SA planning database.

HoB3	Da Costa Park Historic Area Statement (HoB3)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1923 subdivision. 1920s - 1930s dwellings.
	Allotments, subdivision and built form patterns	Subdivision is indicative of 1920s town planning with angled, diagonal streets centred radially around a central park or reserve. Garden city theory in practice. The pattern of the subdivision and the arrangement and size of individual allotments remains largely unaltered. Large allotments with large frontages. Consistent, large front setbacks. Side setbacks provide visual spacing between dwellings.
	Architectural styles, detailing and built form features	Inter-War style dwellings including Tudor Revival, Californian bungalow, Art Deco, and some Spanish mission. Rectilinear plan forms. High degree of modulation and articulation. Low scale. Steep roof pitches in the order of 25 to 35 degrees. Short roof spans. Hip and gable roof forms. Deep verandahs and porches. Fine-grain detail in elements such as plinths, string courses, projecting sills. High solid to void ratio. Vertical proportions in windows and doors. Garages, carports and outbuildings, where they exist, are low in scale and simple in form. They are located unobtrusively, to the rear of dwellings or the principal building on the site or, alternatively to the side and well-setback from the front façade.
	Building height	Single storey.
	Materials	Consistent with the materials used in the 1920s to 1930s period. Terracotta tiled and corrugated iron roofing. Brick, sandstone, and stucco and part-rendered finishes. Roofing, facades and fenestration in natural red brick and terracotta colouration. Timber joinery including fascia, barges, window frames, door frames and doors. Timber strapping on Inter-War dwelling gables.

Statement#	Statement	
	Fencing	Fencing associated with the era and style of the building, and providing views to the building. Woven wire. Low masonry with geometric steel. Low masonry (stepped). Low masonry fencing (often stepped). Low Rock face sandstone. Hedging.
	Setting, landscaping, streetscape and public realm features	Centred around Da Costa Park, with its triangular landscaped area and mature trees. Relatively wide streets.
	Representative Buildings	Identified - refer to SA planning database.

HoB4	New Glenelg Historic Area Statement (HoB4)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Subdivided in 1850. Buildings 1860s - 1900s and 1920s - 1930s. Most intense development occurred in 1870s and 1880s. Further development in 1920s - 1930s (Interwar period).
	Allotments, subdivision and built form patterns	Varying allotment sizes and street width. Larger allotment sizes in some areas to the west along Broadway, Robert Street and South Esplanade. Smaller allotment sizes are predominant throughout the Bath Street area, and between Hastings and Moseley Streets. Uniform, large allotment sizes and large frontages along Penzance and Partridge Streets. Front setbacks vary from street to street across the area. Front setbacks are however consistent along individual streetscapes. Side setbacks provide visual spacing between dwellings.
	Architectural styles, detailing and built form features	All domestic architectural types from the 1870s to 1880s, from the largest of seaside mansions (e.g. South Esplanade) to the humblest of workers cottages (e.g. John Street). Late Victorian to early 20 th Century Period architecture. Early symmetrical and asymmetrical cottages of low scale and simple form with restrained detailing. Mid-Victorian Period cottages and villas (symmetrical and asymmetrical), semi-detached cottages and row dwellings with detailing typical of the era including verandahs, cast iron lacework, hipped and gable roof forms, plaster and render mouldings. Inter-War buildings, mostly Bungalows. Many dwellings without vehicle garaging. Garages, carports and outbuildings, where they exist, are low in scale and simple in form. They are located unobtrusively, to the rear of dwellings or the principal building on the site or, alternatively to the side and well-setback from the front façade. Rectilinear plan forms. High degree of modulation and articulation. Low scale. Steep roof pitches in the order of 30 to 40 degrees (slightly lower on Inter-War buildings). Short roof spans. Hip and gable roof forms. Concave, bullnose and straight-pitched verandahs. Fine-grain detail in elements such as plinths, string courses, projecting sills. High solid to void ratio. Vertical proportions in windows and doors.
	Building height	Predominantly single storey.
	Materials	Consistent with the materials used in the 1840s to 1920s period.

Statement#	Statement	
		Sandstone, bluestone and brick. Corrugated iron and tiled roofing. Timber joinery including verandah posts and framing, fascia, barges, window frames, door frames and doors. Timber strapping on Inter-War dwelling gables.
	Fencing	Fencing associated with the era and style of the building, and providing views to the building. Timber picket, timber dowel, timber paling. Hedging. Low masonry plinth with cast iron or wrought iron in a traditional arrangement. Woven wire or low masonry with or without geometric steel for Inter-war buildings.
	Setting, landscaping, streetscape and public realm features	Norfolk Island pines throughout. Mature oak street trees along Moseley Street. Vistas over the ocean to the west of the Historic Area.
	Representative Buildings	Identified - refer to SA planning database.

Historic Areas affecting Kangaroo Island

K11	<p>Penneshaw Historic Area Statement (K11)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Coastal village.

Historic Areas affecting Light Regional Council

Lig1	<p>Daveyston Historic Area Statement (Lig1)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Early development C1850's in support of mining and trade and later development (C1870's) in support of agricultural pursuits.
	Allotments, subdivision and built form patterns	Large allotments characteristic of their rural setting and focused along the Old Sturt Highway.
	Architectural styles, detailing and built form features	A mix of both large and smaller homes of typical construction representing a range of periods.
	Building height	Single storey built scale to the streetscape.
	Materials	Consistent with the materials associated with the architectural styles of the subject building and streetscape.

Statement#	Statement	
	Fencing	Low, open fencing reflective of the architectural style of the subject building.
	Setting, landscaping, streetscape and public realm features	Rural setting with the presence of large mature trees and minimal front boundary setback commensurate to the undulating nature of the township.
	Representative Buildings	Identified - refer to SA planning database.
Lig2	<p>Freeling Historic Area Statement (Lig2)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Mixed era and style of development comprising early buildings dating from 1880's - 1920's aligned with early farming settlement and the townships reliance on the railway and later grand villas (C1910).
	Allotments, subdivision and built form patterns	Conventional land division pattern with a mix of allotment sizes.
	Architectural styles, detailing and built form features	<p>A mix of building types including stately and modest villas, single and double fronted cottages, interwar bungalows, galvanised iron homes, and symmetrical cottages representing a range of periods.</p> <p>Numerous prominent church buildings used for a range of worship and residential purposes.</p>
	Building height	Single storey built scale to the streetscape.
	Materials	Consistent with the materials associated with the architectural styles of the subject building and streetscape.
	Fencing	Low, open fencing reflective of the architectural style of the subject building.
	Setting, landscaping, streetscape and public realm features	<p>Wide streets and expansive allotments, generous siting characteristics and substantial gardens and trees.</p> <p>Areas of narrow streets and laneways and compact allotment layout.</p>
	Representative Buildings	Identified - refer to SA planning database.
Lig3	<p>Greenock Historic Area Statement (Lig3)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Early development dating from C1847 onwards and predominance of masonry residential structures.
	Allotments, subdivision and built form patterns	Mixed allotment sizes with a dominance of deep allotments.
	Architectural styles, detailing and built form features	A mix of building types with a predominance of stone residential structures however presence of other types including corrugated iron.
	Building height	Single storey built scale to the streetscape.
	Materials	Consistent with the materials associated with the architectural styles of the subject building and streetscape.
	Fencing	Low, open fencing reflective of the architectural style of the subject building.
	Setting, landscaping, streetscape and public realm features	Areas of wide streets and narrow laneways adding to the village feel and focused around the Greenock Creek.
	Representative Buildings	Identified - refer to SA planning database.

Historic Areas affecting City of Mitcham

Residential (Central Plains) Historic Area Statement (Mit1)		
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Early 20th century dwellings.
	Allotments, subdivision and built form patterns	Substantial rectangular blocks. Substantial consistently wide and deep rectangular blocks that retains the historic pattern of land division. Consistent generous spacing between dwellings.
Architectural styles, detailing and built form features	Predominance of Queen Anne style villas and bungalow style dwellings. A number of early villas. Steeply pitched hipped and gable roof forms including smaller scale corner gable to return verandah villas. Separate typically bull nose verandah with some a continuation of the main roof form. Return verandahs particularly at corner allotments. Bungalows with slightly shallower roof pitch, simple generous roof plane facing the street with main ridge typically parallel to street. Wide Bungalow verandahs with tapered or upright masonry support piers and low infill walling. Timber framed and iron clad awnings to windows.	

Statement#	Statement	
Mit1		Tudor roof forms generally steeper with two main projecting gables and smaller gable porch over main entrance.
	Building height	Predominately single storey with external wall height of 3-3.5 metres. Second storey development located within the roof space or to rear of dwellings.
	Materials	Original materials, finishes and profiles of building elements. External walls of sandstone, rendered masonry, face brick Decorative wall treatments such as rendered, or brick quoins and low plinths defined by cant brick set out. Painted timber cover battens to gables and roof trim. Painted decorative timber to verandahs and finials to gables. Verandahs supported on timber posts with some on painted masonry pillars. Roofs of corrugated galvanised iron cladding or terracotta tiles. Original unpainted plaster, brickwork, stonework or other masonry preserved unpainted. Decorated face brick or rendered masonry chimneys. Painted metal gutters to D or OG profile and round painted metal downpipes. Painted timber window frames and doors.
	Fencing	Typically fences reflect the era of the dwelling. Low masonry plinth and post, wrought iron, brush, timber woven with wire, painted timber picket. Height of 1.2m. Rear and side boundary fences located behind the front dwelling alignment 1.8m in height in corrugated profile metal.
	Setting, landscaping, streetscape and public realm features	Regularly planted tree lined verges. Established front gardens. Consistent setback of buildings.
	Representative Buildings	Identified - refer to SA planning database.
	Mit2	Adey Road Historic Area Statement (Mit2)
The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.		
These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.		
The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.		
Eras, themes and context		1879 subdivision with predominance of buildings built between 1881-1920.
Allotments, subdivision and built form patterns		Traditional pattern and scale of low density, rectangular allotments associated with the original subdivision for the purpose of detached dwellings. Variable width to allotments. East side is orthogonal to Adey Road. West side has angled side boundaries to Adey Road.
Architectural styles, detailing and built form features		Detached dwellings of simple, modest, small scale with symmetrical early stone and brick villas. Victorian Regency and Edwardian to smaller and later bungalows. Gambrel roof typically with short ridge parallel to street, with projecting gable. Simple 'M' Roof with ridge parallel to street. Federation style verandahs continuous with main roof. Separate verandahs attached to main wall of varying profiles. Some bungalow influence roof forms and verandahs with masonry support piers and low plinth wall.
Building height	Predominantly single storey with external wall height of 3 - 3.5 metres. Second storey development located within the roof space or to rear of dwellings behind ridgeline of roof. Second storey windows with total length less than 30 percent of total roof length along each elevation.	
Materials	Original materials, finishes and profiles of building elements. External walls incorporating sandstone, red brick, render. Roof in corrugated metal cladding. Render with some ornate detail to window surrounds.	

Statement#	Statement
	<p>Simple painted timber detail and roof trim.</p> <p>Painted timber window frames and doors.</p> <p>Simple and modestly detailed timber posts to verandah.</p> <p>Red brick or render chimneys, some tapered in height with some ornate detailing.</p> <p>Some ornate painted timber barge boards and finials.</p> <p>Most original unpainted plaster, brickwork, stonework or other masonry is preserved unpainted.</p>
Fencing	<p>Low and/or open fencing, typically in the form of hedges, woven wire, timber picket or low stone walls reflecting and the traditional period, style and form of the associated building.</p> <p>Generally, no more than 1.2m in height.</p> <p>Rear and side boundary fences located behind the front dwelling alignment no more than 1.8 metres in height.</p>
Setting, landscaping, streetscape and public realm features	<p>Minimal driveway widths with established front gardens dominant, including mature vegetation.</p> <p>Sense of space between buildings.</p> <p>Sloping land with minimal alteration to the land form.</p> <p>Bowling Club provides focal point and sense of Place.</p> <p>Traditional dwelling pattern located parallel to front boundaries.</p>
Representative Buildings	<p><i>[Not identified]</i></p>

Eras, themes and context	1857. Small scale, single storeyed, detached and semi-detached built form of early European settlements.		

Statement#	Statement	
MtB2		Structures reflecting early local production and value adding industries. Small cottages and outbuildings on large allotments.
	Allotments, subdivision and built form patterns	Long narrow allotments typically orthogonal to the street. Mostly to each side of Donald Street and Hawthorn street. Varying allotment sizes and shapes to the streets that rise from Donald including Bower and Bremer. Variety of setbacks from street frontage.
	Architectural styles, detailing and built form features	Cottages. Some adaptation of early industrial or rural structures to dwellings. Steeply pitched (27 to 35 degrees) small span hipped and gable roofs. Separate verandahs with bullnose, concave or monopitch form. Some verandahs continuous with main roof or adopting change in pitch. Painted timber roof trim, verandah posts.
	Building height	External wall height of 3.3 to 3.8m.
	Materials	Building techniques and materials including external walls of local stone, smelter slag and early manufactured bricks. Corrugated galvanised iron roofing. OG or D painted or galvanised steel gutters.
	Fencing	Unpainted hardwood timber posts with wire or wire mesh infill, low hedges or stone walling.
	Setting, landscaping, streetscape and public realm features	Open landscaped/rural setting character. Unique entrance to Dawesley from Princess Highway coinciding with former post office.
	Representative Buildings	Identified - refer to SA planning database.

Druids Avenue, Mount Barker Historic Area Statement (MtB3)		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>		
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>		
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
MtB3	Eras, themes and context	19th and early 20th Century. Buildings and structures predominantly dating from the 19 th Century. Small, compact workers cottages and larger residential buildings.
	Allotments, subdivision and built form patterns	Allotment pattern reflective of the original land division pattern.
Architectural styles, detailing and built form features	Early stone dwellings. Compact, intact collection of small scale detached and semi-detached buildings dating predominantly from the 19 th and 20 th century. Symmetrical frontages and separate verandahs. Hipped and gabled roof forms with ridge typically parallel to the street Some parapet walling.	
Building height	Single storey. External wall height varies from 3 to 4 metres.	
Materials	Stone external walls. Brick quoins. Corrugated profile sheet roofing. Painted timber window frames and doors. Painted timber verandah posts with some ornate decoration. Brick or rendered chimneys.	

Statement#	Statement	
Fencing	Some timber picket fencing. Hedges. Low stone walling to front boundary. Hardwood post and wire mesh or cyclone mesh.	
Setting, landscaping, streetscape and public realm features	Mature street trees. Street hedging. Some red brick pavers to footpath.	
Representative Buildings	Identified - refer to SA planning database.

Paddys Hill, Mount Barker Historic Area Statement (MtB13)

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

Eras, themes and context	<p>1848.</p> <p>Detached dwellings of early European settlements.</p> <p>A visual landmark of the eastern landscaped boundary of the town.</p> <p>Area represents religious beliefs including places of study, worship and burial in a landscaped setting.</p>
Allotments, subdivision and built form patterns	<p>Open landscape.</p> <p>Varying allotment sizes.</p>

Statement#	Statement	
MtB13	Architectural styles, detailing and built form features	Early stone dwellings. Single and double storeyed detached villas dating predominantly from the late 19 th and early 20 th century. Symmetrical frontages. Separate verandahs or as continuation of main roof. Hipped and gable roof forms with ridge typically parallel to the street. Verandahs with bullnose, concave or monopitch form.
	Building height	Single storeyed dwellings external wall height varies from 3 to 4 metres. Double storeyed dwellings external wall height varies from 6 to 8 metres.
	Materials	Stone external walls. Brick quoins. Corrugated profile sheet roofing. Painted timber window frames and doors. Painted timber verandah posts with some ornate decoration. Brick, render or stone chimneys.
	Fencing	Timber post and rail. Timber posts and woven wire mesh.
	Setting, landscaping, streetscape and public realm features	Vegetated landscape setting. Mature eucalypts along Paddys Hill Road, Springs Road, Dutton Road, Railway Place and Daddow Road.
	Representative Buildings	Identified - refer to SA planning database.

Hahndorf, North Approaches Historic Area Statement (MtB14)		
The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.		
These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.		
The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.		
MtB14	Eras, themes and context	Mid to late 19 th and early 20 th Century. Dwellings associated with pioneer families and development of the district. Indicative of boom period from late 1880's to early 1900's. Adjacent to the Hahndorf State Heritage Area.
	Allotments, subdivision and built form patterns	Large detached dwellings. Substantial gardens with interspersed view to the rural hinterland Generous setbacks of building from the main road. Linear residential development along the main arterial road to Adelaide.
	Architectural styles, detailing and built form features	Late 19 th and early 20 th century stone villas, cottages and bungalows. Some early Germanic influence buildings. Predominantly single storeyed, detached and semidetached buildings and structures. Some double storeyed buildings. Symmetrical frontages to villas and cottages. Asymmetrical frontages to bungalows and some villas. Pioneer building techniques and materials. Parapet walls to end gables.
	Building height	External wall heights varies from 3 to 8 metres.
	Materials	Stone external walls.

Statement#	Statement	
		Some brick external walls. Some rendered walling. Corrugated profile sheet roofing. Painted timber window frames and doors. Painted timber verandah posts with some ornate decoration. Brick, render or stone chimneys.
	Fencing	Timber picket fence. Hedging to street front. Low masonry.
	Setting, landscaping, streetscape and public realm features	Open landscaping indicative of traditional rural entrance to township. Mature deciduous street trees. Predominantly unmade verges and footpaths. Street furniture unadorned.
	Representative Buildings	<i>[Not identified]</i>

MtB15	Pine Avenue, Hahndorf Historic Area Statement (MtB15)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Interwar. Single storeyed, detached built form of Interwar developments. Structures reflect continuing prosperity of the town well into the mid-20 th century. Adjacent to the Hahndorf State Heritage Area.
	Allotments, subdivision and built form patterns	Long allotments typically orthogonal to the street. Substantial curtilage around existing dwellings. Generous setbacks between dwellings and to the street.
	Architectural styles, detailing and built form features	Late 19 th century and late 20 th century stone villas and bungalows. Intact collection of single storeyed, detached and semidetached buildings. Symmetrical and asymmetric frontages. Some sun-rooms within verandah roof. Masonry columns or half columns. Hipped and gable roof forms. Projected front gables. Separate verandahs or as a continuation of the main roof.
	Building height	External wall height varies from 3 to 4 metres.
	Materials	Dressed stone / ashlar. Brick quoins. Corrugated profile sheet roofing. Painted timber window frames and doors. Brick, render or stone chimneys.
	Fencing	Low masonry. Timber picket.
Setting, landscaping,	Mature deciduous street trees.	

Statement#	Statement	
	streetscape and public realm features	Generous setbacks and street trees provide sense of second entrance into rural township.

MtB16	<p>Church Street, Hahndorf Historic Area Statement (MtB16)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	<p>From mid to late 19th Century.</p> <p>Buildings and structures dating from the 19th century reflecting early settlement and prosperity post settlement.</p> <p>Predominantly single story, with some double storey detached built forms.</p> <p>Public and religious buildings.</p> <p>Adjacent to the Hahndorf State Heritage Area.</p>
	Allotments, subdivision and built form patterns	<p>Varying allotment sizes and shapes to the main street.</p> <p>Minimal setback from street.</p>
	Architectural styles, detailing and built form features	<p>Compact, intact and rustic collection of small scale, single and double storeyed, detached buildings and structures dating predominantly from the 19th century. Germanic influence style.</p> <p>Symmetrical frontages and separate verandahs.</p> <p>Parapet walls to shop fronts.</p> <p>Parapet walls to end gables.</p> <p>Hipped and gable roof forms.</p> <p>Half hipped (Germanic influence).</p> <p>Verandahs separate or as a continuation of main roof with concave, bullnose or monopitch profile.</p>
	Building height	<p>External wall height varies from 3 to 8 metres.</p>
	Materials	<p>Stone external walls.</p> <p>Rendered external walls.</p> <p>Some half-timbering / fachwerk.</p> <p>Corrugated profile roof sheeting.</p> <p>Brick quoins.</p> <p>Painted timber window frames and doors.</p> <p>Painted timber verandah posts with some ornate decoration.</p> <p>Brick, render or stone chimneys.</p>
	Fencing	<p>Some low timber picket fencing.</p>
	Setting, landscaping, streetscape and public realm features	<p>Simplistic planter boxes. Street furniture unadorned.</p> <p>Sense of place established by mature deciduous street trees.</p>
	Representative Buildings	<i>[Not identified]</i>

Statement#	Statement	
	<p>Auricht Road, Hahndorf Historic Area Statement (MtB17)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	

Statement#	Statement	
MtB17	Eras, themes and context	From late 19th and early to late 20th Century residential periods. Adjacent to the Hahndorf State Heritage Area.
	Allotments, subdivision and built form patterns	Transition in allotments from historic main street to adjacent 20 th century residential areas. Historic Strassendorf land division pattern remains evident. Regular and repeated long narrow allotments typically orthogonal to the street. Small setbacks from road.
	Architectural styles, detailing and built form features	Single storey detached dwellings. Brick and stone dwellings and outbuildings. Hipped and gable roof forms. Verandahs separate with bullnose profile or as a continuation of the main roof.
	Building height	External wall height varies from 3 to 4 metres.
	Materials	Stone external walls. Brick external walls. Brick quoins. Corrugated profile sheet roofing. Brick, render or stone chimneys.
	Fencing	Low masonry. Timber picket. Hedging to street front.
	Setting, landscaping, streetscape and public realm features	Some street trees. Footpath to eastern side only. Thoroughfare to main road.
Representative Buildings	<i>[Not identified]</i>	

MtB18	Hahndorf Rural Setting Historic Area Statement (MtB18)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	From Late 19 th to 20 th century. Rural landscape. Low intensity agricultural and pastoral lands. Adjacent to the Hahndorf State Heritage Area.
	Allotments, subdivision and built form patterns	Open farmland. Allotments of varying sizes. Some Strassendorf and Hufendorf allotments.
Architectural styles, detailing and built form features	Interwar bungalows. Late 19 th to 20 th century cottages. Small scale, single storeyed detached buildings and structures. Hipped and gable roofs. Separate verandahs with bullnose, concave or monopitch form. Verandahs as a continuation of the main roof.	
Building height	External wall height varies from 3 to 4 meters.	
Materials	Dressed stone external walls.	

Statement#	Statement	
		Brick external walls. Brick quoins. Corrugated profile roof sheeting. Brick or render chimneys.
	Fencing	Hedging to street front. Timber post and rail.
	Setting, landscaping, streetscape and public realm features	Rural backdrop to township of Hahndorf. Paddocks. Native vegetation. Informal landscaped appearance.
	Representative Buildings	<i>[Not identified]</i>

MtB19	Kia-Ora Street, Mount Barker Historic Area Statement (MtB19)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	From early 20th Century to 1950's. Interwar architecture. Small compact dwellings which reflect the continuing prosperity of the town well into the mid-20 th century. Represents a period of housing and streetscaping largely intact. Stone and brick reflective of prominence of masonry and brickworks within the area.
	Allotments, subdivision and built form patterns	Varying allotment sizes orthogonal to the street, becoming deeper towards the creek. Small front setbacks. Reasonably consistent widths to street frontage. Unique no through road.
	Architectural styles, detailing and built form features	Dressed stone and red brick construction. Single storeyed, detached dwellings. Asymmetric frontages.
	Building height	External wall height varies from 3 to 4 metres.
	Materials	Dressed stone and red brick external walls. Brick quoins. Some rendered walling. Corrugated profile roof sheeting. Tiled roofs. Painted timber window frames and doors. Some painted timber verandah posts with ornate decoration. Painted masonry columns and half columns. Brick or render chimneys.
	Fencing	Low masonry. Timber post and woven wire. No fencing.
	Setting, landscaping,	Verges and footpath unmade.

Statement#	Statement	
	streetscape and public realm features	Compact, residential setting character.
	Representative Buildings	<i>[Not identified]</i>

Historic Areas affecting City of Mount Gambier

MtG1	Bay Road Historic Area Statement (MtG1)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Development from period of settlement up to and including the 1920s.
	Allotments, subdivision and built form patterns	Generous allotment sizes. Extensive street and side boundary set-backs.
	Architectural styles, detailing and built form features	Large single storey houses with hipped and gabled galvanised iron roofs; and generous verandahs.
	Building height	Predominantly single storey, with two storey additions within roof space to rear of buildings.
	Materials	Varied building construction but generally comprising dolomite or limestone walling with quoins.
	Fencing	Original fences constructed of Mount Gambier stone, dolomite, scoria, basalt or flint, limestone retaining walls. Front fences forward of the dwelling reflecting the traditional period, style and form of the associated building.
Setting, landscaping, streetscape and public realm features	Well maintained, mature gardens that contribute to a pleasant, open streetscape. Streetscape improvements within the area have particular emphasis on Bay Road as the entry to the Volcanic Complex State Heritage Area.	
Representative Buildings	Identified - refer to SA planning database.	

MtG2	Doughty Street and Wehl Street North Historic Area Statement (MtG2)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Development from period of settlement up to and including the 1920s.
	Allotments, subdivision and built form patterns	Generous allotments dominating the higher slopes, with substantial street and side boundary setbacks. Smaller allotments on the lower slopes.
	Architectural styles, detailing and built form features	Varied building styles from one street to another. Grand houses dominating the higher slopes. On the lower slopes, workman's cottages. Contemporary housing.
	Building height	Predominantly single storey, with two storey additions within roof space to rear of buildings.
	Materials	Varied building construction and materials reflecting traditional period and style. Timber workman's cottages.
	Fencing	Original fences constructed of Mount Gambier stone, dolomite, scoria, basalt or flint, limestone retaining walls. Front fences forward of the dwelling reflecting the traditional period, style and form of the associated building.
Setting, landscaping, streetscape and public realm features	Characterised by steep topography with generous allotments sizes and well-maintained mature gardens.	
Representative Buildings	Identified - refer to SA planning database.	

Railway Historic Area Statement (MtG3)

Statement#	Statement	
MtG3	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Transport and associated commercial history of the railyards, industrial. Development from period of settlement up to and including the 1920s.
	Allotments, subdivision and built form patterns	The railway corridor forms one linear allotment, sited between Bay Road to the east and Wehl Street South to the west. Allotments along Margaret Street vary in size, however are predominantly regular in shape. Street frontages vary, however, are generally one of two large sizes. Allotment depth is consistent across Margaret Street. Large allotments range in size.
	Architectural styles, detailing and built form features	Commercial/industrial in nature. Several buildings have frontage to Margaret Street and the Railway Lands. Railway station with associated platforms still exists.
	Building height	Varying heights - single up to 3 to 4 storey high buildings dependant on their historical use.
	Materials	Buildings are predominantly constructed from corrugated iron, timber or stone.
	Fencing	Open styles of fencing - for example, timber post and rail; post and wire.
	Setting, landscaping, streetscape and public realm features	Expansive, open nature of the railyards and the remnant buildings and structures associated with its use as a passenger and goods terminal. The commercial and industrial buildings along Margaret Street form a strong industrial streetscape fronting the railway yards. Railway track and other elements including ballast, railway iron fences, telegraph poles, platforms and structures. Use of old railway carriages. Temporary, demountable or movable structures and plantings.
Representative Buildings	Identified - refer to SA planning database.	
MtG4	<p>St Andrews Historic Area Statement (MtG4)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Institutional and residential. Development from period of settlement up to and including the 1920s.
	Allotments, subdivision and built form patterns	Generally narrow roads with residential buildings exhibiting minimal street set-backs. Large allotments along Elizabeth Street and Penola Road. Allotment sizes ranging from large to small.
	Architectural styles, detailing and built form features	Significant institutional buildings include the Wesley Church and Hall, both of which are State heritage places, and the St Andrews Church and spire, which is a dominant element of the area.
	Building height	Predominantly single storey, with two storey additions within roof space to rear of buildings.
	Materials	Construction and materials reflecting traditional period and style.
	Fencing	Original fences constructed of Mount Gambier stone, dolomite, scoria, basalt or flint, limestone retaining walls. Front fences forward of the dwelling reflecting the traditional period, style and form of the associated building.
	Setting, landscaping, streetscape and public realm features	Significant Institutional buildings. Many residences are located at the top of the hill, taking advantage of fine views over the city to the south.
Representative Buildings	Identified - refer to SA planning database.	
	<p>Vansittart Park Historic Area Statement (MtG5)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and	1880s-1920s.	

Statement#	Statement	
MtG5	context	
	Allotments, subdivision and built form patterns	Adjoining the St Andrews Historic Area, the Vansittart Park area contains uniform residential allotments on a grid pattern. There has been a small number of infill type developments in the area to date. However, the area remains predominantly dwellings on large regular shaped allotments. Generally large, consistent frontages. Predominantly large, consistent allotments. The Vansittart Park provides a sporting ground (with associated amenities) and large open garden areas.
	Architectural styles, detailing and built form features	Villa, federation and bungalow style dwellings.
	Building height	Predominantly single storey, with two storey additions within roof space to rear of buildings.
	Materials	Construction and materials reflecting traditional period and style.
	Fencing	Original fences constructed of Mount Gambier stone, dolomite, scoria, basalt or flint, limestone retaining walls. Front fences forward of the dwelling reflecting the traditional period, style and form of the associated building.
	Setting, landscaping, streetscape and public realm features	Well landscaped Vansittart Park and the topography of the area adds interest. Streets are not excessively wide by comparison to other areas of Mount Gambier.
	Representative Buildings	Identified - refer to SA planning database.

MtG6	Wehl Street South Historic Area Statement (MtG6)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1860s- mid 1920s.
	Allotments, subdivision and built form patterns	Wide roads with large, deep allotments, although east-west roads are generally narrow with buildings set close to the street. Side setbacks are in some cases small.
	Architectural styles, detailing and built form features	Diverse dwelling styles. Larger residences predominantly along Wehl Street South. Smaller stone or timber-clad workman's cottages close to the railway line. Wehl Street Public School.
	Building height	Predominantly single storey, with two storey additions within roof space to rear of buildings.
	Materials	Stone and timber clad. Construction and materials reflecting traditional period and style.
	Fencing	Original fences constructed of Mount Gambier stone, dolomite, scoria, basalt or flint, limestone retaining walls. Front fences forward of the dwelling reflecting the traditional period, style and form of the associated building.
Setting, landscaping, streetscape and public realm features	Street set-backs in this area vary considerably, and combined with clusters of historical housing, produce an interesting streetscape. Residential streetscape character, including within commercial areas. Unobtrusive advertising. Front fences and garden landscaping. Car parking located to the rear of buildings.	
Representative Buildings	Identified - refer to SA planning database.	

Historic Areas affecting Rural City of Murray Bridge

<p>Adelaide Road Pontoon Historic Area Statement (MuBr1)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>

Statement#	Statement	
MuBr1	Eras, themes and context	Late 19th and early 20th Century.
	Allotments, subdivision and built form patterns	Linear road pattern. Buildings square to the street. Moderate to large allotment sizes.
	Architectural styles, detailing and built form features	Varied built form including stone and brick dwellings with verandahs, Victorian dwellings, larger stone and brick cottages with verandahs.
	Building height	Low scale, single storey built form.
	Materials	Random limestone rubble. Stone and brick. Local limestone. Iron roofs.
	Fencing	Front fences forward of the dwelling reflecting the traditional period, style and form of the associated building.
	Setting, landscaping, streetscape and public realm features	Entrance to the centre of Murray Bridge. Frontages of developments adequately landscaped. Swimming pool complex.
	Representative Buildings	Identified - refer to SA planning database.
MuBr2	Mannum Road Historic Area Statement (MuBr2)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Late 19th and early 20th Century.
	Allotments, subdivision and built form patterns	Linear road pattern. Buildings square to the street. Moderate to large allotment sizes.
	Architectural styles, detailing and built form features	Varied built form including stone and brick dwellings with verandahs, Victorian dwellings, larger stone and brick cottages with verandahs.
	Building height	Low scale, single storey built form.
	Materials	Random limestone rubble. Stone and brick. Local limestone. Iron roofs.
Fencing	Front fences forward of the dwelling reflecting the traditional period, style and form of the associated building.	
Setting, landscaping, streetscape and public realm features	Entrance to the centre of Murray Bridge.	
Representative Buildings	Identified - refer to SA planning database.	
MuBr3	Swanport Road Historic Area Statement (MuBr3)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
Eras, themes and context	Includes land between Mary Terrace and Rachel Street where some of the first subdivisions in Murray Bridge occurred in 1873.	
Allotments, subdivision and built form patterns	Grid like pattern involving a number of narrow lanes and varying street widths. Consistent setback distances to both the front and side of dwellings.	
Architectural styles, detailing and built form features	Dwellings in this locality display a strong repetitive architectural style.	

Statement#	Statement	
	Building height	Low scale, single storey built form.
	Materials	Random limestone rubble. Stone and brick. Local limestone. Iron roofs.
	Fencing	Front fences forward of the dwelling reflecting the traditional period, style and form of the associated building.
	Setting, landscaping, streetscape and public realm features	Entrance to the centre of Murray Bridge. Larger, well established front gardens.
	Representative Buildings	Identified - refer to SA planning database.

Historic Areas affecting Naracoorte Lucindale

NALU1	<p>Livingston Street, Naracoorte Historic Area Statement (NALU1)</p>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1870s to 1890s and turn of the 20 th century.
	Allotments, subdivision and built form patterns	Small allotments.
	Architectural styles, detailing and built form features	Single- and double- fronted detached cottages (typically involving two rooms).
	Building height	Single storey.
	Materials	Local stone, fibro-sheet and weatherboard, corrugated iron and patterned sheet metal.
Fencing	Open fencing predominantly wire and picket style no more than 1.2 metres.	
Setting, landscaping, streetscape and public realm features	Buildings positioned close to street frontages, landscaped front gardens and wide grassed verges.	
Representative Buildings	[Not identified]	

Historic Areas affecting City of Norwood, Payneham and St Peters

NPSP1	<p>College Park Historic Area Statement (NPSP1)</p>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Subdivision during the 1870s with dwellings built between 1870s and 1920s. Detached dwellings.
	Allotments, subdivision and built form patterns	<p>Consistent pattern of prestigious single-storey detached dwellings on very large, spacious allotments fronting wide, tree-lined streets. Very low density.</p> <p>Side and rear setbacks providing large separation distances between dwellings.</p>
	Architectural styles, detailing and built form features	<p>Double fronted, symmetrical and asymmetrical dwellings; East Adelaide Investment Company dwellings; Larger villas and mansions; Victorian villas; Edwardian Queen Anne and Art Nouveau.</p> <p>The double fronted, symmetrical and asymmetrical dwellings in the College Park Policy Area are an elegant larger version of the simple colonial cottage with the addition of a projecting wing (in the case of the asymmetrical dwelling), a more elaborate verandah and increased detailing in plaster and render work around openings. The pitch and size of the roof makes this an important design element. The external walls are generally constructed of bluestone or dressed and coursed sandstone. Verandahs along the front elevation are another important element of both the double fronted symmetrical and asymmetrical dwelling.</p>
Building height	Single storey, two storey in some locations.	
Materials	<p>External walls made of bluestone or dressed and coursed sandstone. Stone, brick and rendered masonry.</p> <p>Traditional colours and materials.</p>	
Fencing	Low, open front fencing (including secondary streets to the main façade of building) associated with the traditional period and style of the building up to	

Statement#	Statement	
		<p>1.2m (masonry), 1.5m (wrought iron, timber and wire) and 2m (masonry pillars) in height, allowing views to dwelling.</p> <p>Timber picket, timber dowelling, masonry and cast iron palisade, or</p> <p>corrugated iron or mini orb within timber framing for cottages, villas and other dwellings built during the Victorian period; or timber picket, timber paling or woven crimped wire; or corrugated iron or mini orb within timber framing for Edwardian dwellings.</p> <p>Side and rear fences are in traditional materials, such as timber, corrugated iron or well detailed masonry. Side fences along street corners continue the detailing of the front fence to the house alignment, solid fencing beyond this point in traditional materials.</p>
Setting, landscaping, streetscape and public realm features		<p>Dwellings have sizeable setbacks from all boundaries and are typically set in large landscaped grounds with front boundaries defined by fencing of various styles.</p> <p>Open landscape character to front garden, which enhances dwelling and streetscape quality.</p> <p>Wide streets lined with mature trees.</p>
Representative Buildings		Identified - refer to SA planning database.

Hackney North Historic Area Statement (NPSP2)		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>		
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>		
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
NPSP2	Eras, themes and context	Predominantly pre 1920s, some pre 1940s dwellings. Detached, semi-detached and row dwellings.
	Allotments, subdivision and built form patterns	Small narrow fronted allotments on narrow streets.
	Architectural styles, detailing and built form features	Humble, mainly double fronted (with some single fronted) single storey cottages, in detached, semi-detached and row dwelling configurations.
	Building height	Single storey.
	Materials	Stone, brick, natural coloured bagged render and/or brick as the main external finish to walls.
	Fencing	<p>Low, open front fencing (including secondary streets to the main façade of building) reflecting the traditional period and style of the associated building up to 0.9m in height, allowing views to building. Rear and side fencing behind the alignment of the main dwelling face to 1.8m.</p> <p>Timber picket, timber dowelling, simple masonry and cast iron palisade.</p> <p>Side and rear fences are in traditional materials, such as timber, corrugated iron or well detailed masonry.</p>
	Setting, landscaping, streetscape and public realm features	Consistent pattern of narrow streets with dwellings built close to street with minimal setbacks and separation distances.
	Representative Buildings	Identified - refer to SA planning database.

Hackney South Historic Area Statement (NPSP3)		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>		
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>		
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
NPSP3	Eras, themes and context	Detached, semi-detached and row dwellings.
	Allotments, subdivision and built form patterns	<p>Closely packed arrangement of buildings built close to the street frontage. Mainly small narrow fronted allotments which generally only allow for dwellings with a single room width, rear service lanes. Some sizeable allotments along parts of Osborne Street.</p> <p>Primary dwelling frontages are to streets, not lanes.</p>
	Architectural styles, detailing and built form features	<p>Small, mainly single-fronted dwellings, in detached, semi-detached and row dwelling configurations. Some elevated dwellings along eastern side of Westbury Street. Verandahs along the primary frontage of dwellings.</p> <p>Dwellings simple in structure and plan.</p>
	Building height	Single-storey.
	Materials	Stone, brick, natural coloured bagged render and/or brick as the main external finish to walls.

Statement#	Statement	
	Fencing	Front fencing (including any secondary street frontage up to the alignment to the fair face of the dwelling) generally low in height up to 1.2m, allowing views to building. Original design and materials, such as timber picket, timber dowelling or simple masonry and cast iron palisade.
	Setting, landscaping, streetscape and public realm features	Consistent pattern of narrow streets and rear service lanes. Rear lanes used for vehicular access and garages. Streets lined with mature exotic street trees. Landscaped gardens to sizeable allotments.
	Representative Buildings	Identified - refer to SA planning database.
NPSP4	<p>Joslin / Royston Park Historic Area Statement (NPSP4)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1900s-1930s. Detached dwellings. Joslin/Royston Park Historic Area is divided into two separate locations: the area around First and Second Avenue, north of Lambert Road, in the suburb of Royston Park, and the area centred around Fourth, Fifth and Sixth Avenues in the suburb of Joslin.
	Allotments, subdivision and built form patterns	Regular pattern of large allotments.
	Architectural styles, detailing and built form features	Single storey detached dwellings. Bungalows. Edwardian (such as Queen Anne) and Federation dwelling styles. Some Tudor style dwellings with a steeper roof pitch, tiled roof and heavy columns.
	Building height	Single-storey, two storeys in some locations.
	Materials	Stone dwelling walls and original joinery.
	Fencing	Front fencing (including any secondary street frontage up to the alignment to the fair face of the dwelling) generally low in height up to 1.2m (masonry), 1.5m (wrought iron, brush or timber and wire) and 2m (masonry pillars), allowing views to dwelling. Original design and materials, such as timber picket, timber dowelling, masonry and cast iron palisade, or corrugated iron or mini orb within timber framing for cottages, villas and other Victorian dwellings. Timber picket, timber paling or woven crimped wire, or corrugated iron or mini orb within timber framing for Edwardian dwellings. Timber paling, wire mesh and timber or tube framing, woven crimped wire, or masonry with galvanised steel ribbon for Bungalow and Tudor house styles. Side and rear fences in traditional materials such as timber, corrugated iron or well-detailed masonry.
	Setting, landscaping, streetscape and public realm features	Area characterised by regularity of the wide, tree lined avenues. Landscaped garden setting, particularly in front of dwelling; Streets lined with distinctive street trees.
	Representative Buildings	Identified - refer to SA planning database.
NPSP5	<p>Kensington 1 Historic Area Statement (NPSP5)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1838-1860; 1861-1880; 1881-1900; 1901-1915; 1916-1939. Residential urban village characterised by buildings, settings street patterns and natural features. Range of dwelling types.
	Allotments, subdivision and built form patterns	Original historic pattern.
	Architectural styles, detailing and built form features	Larger Victorian-style brick and stone buildings, Federation era brick and stone buildings and bungalow-styled buildings of the post-1918 period.

Statement#	Statement																	
		Significant corner buildings contribute to the character.																
	Building height	Up to two storeys.																
	Materials	Pise, stone or brick.																
	Fencing	Generally low, reflecting the traditional period, style and form of the associated building.																
	Setting, landscaping, streetscape and public realm features	The unique diagonal street pattern of Kensington is an important part of its character.																
	Representative Buildings	Identified - refer to SA planning database.

	Kent Town 2 Historic Area Statement (NPSP8)																	

Statement#	Statement	
NPSP8	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Pre-1920s. Range of dwelling types.
	Allotments, subdivision and built form patterns	Original historic pattern. Smaller scale row houses and courtyard-style housing on Dew Street frontage.
	Architectural styles, detailing and built form features	Double and single-fronted cottages.
	Building height	Up to two storeys.
	Materials	Bluestone or sandstone.
	Fencing	Generally low, reflecting the traditional period, style and form of the associated building.
	Setting, landscaping, streetscape and public realm features	Consistency of front set-backs, in particular, the row of double-fronted houses in Grenfell Street.
	Representative Buildings	<i>[Not identified]</i>
NPSP9	<p>Marden (Broad Street / Pollock Avenue) Historic Area Statement (NPSP9)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Small group of dwellings, dating from 1910s. Detached dwellings. Semi-detached dwellings on Broad Street.
	Allotments, subdivision and built form patterns	Original historic pattern. Detached dwellings of modest proportions, set relatively close to Pollock Avenue. Mix of detached and semi-detached dwellings on Broad Street.
	Architectural styles, detailing and built form features	Detached dwellings of modest proportions. Features such as the typical bull-nose verandah and gable ends, which are elaborated with strapping or finials.
	Building height	Single-storey.
	Materials	Unpainted stone, corrugated iron roofing materials and joinery.
	Fencing	Low, open fencing that reflects the period and style of the dwellings. Front fencing (including any secondary street frontage up to the alignment to the fain face of the dwelling) generally low in height up to 1.2m (masonry), 1.5m (wrought iron, timber and wire or woven mesh) and 2m (masonry pillars), allowing views to dwelling. Timber picket and paling, woven crimped wire, or corrugated iron or mini orb within timber framing. Side and rear fences in traditional materials such as timber, corrugated iron or well-detailed masonry.
	Setting, landscaping, streetscape and public realm features	Narrow street width, street plantings and footpath treatments of Pollock Avenue.
	Representative Buildings	Identified - refer to SA planning database.
	<p>Maylands Historic Area Statement (NPSP10)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Late 1800s onwards. Detached and semi-detached dwellings.
	Allotments, subdivision and	Similar to Stepney area but with greater percentage of larger allotments, with proportionately larger homes. Allotments of generous size.

Statement#	Statement	
NPSP10	built form patterns	Original historic pattern.
	Architectural styles, detailing and built form features	Double-fronted detached villas and cottages of modest proportions with substantial established gardens. Single-fronted attached dwellings of sandstone and bluestone construction. Remaining corner shop structures. Verandahs along the primary frontage.
	Building height	Single-storey.
	Materials	Sandstone and bluestone.
	Fencing	Low, open fencing that reflects the period and style of the dwellings. Front fencing (including any secondary street frontage up to the alignment to the fain face of the dwelling) generally low in height up to 1.2m (masonry) or 1.5m (other materials), allowing views to dwelling. Timber picket, timber dowelling, masonry and cast iron palisade, or corrugated iron or mini orb within timber framing. Side and rear fences in traditional materials such as timber, corrugated iron or well-detailed masonry.
	Setting, landscaping, streetscape and public realm features	Relatively wide streets in the original subdivision layout. Landscaping around a dwelling, particularly in the front garden, is an important design element as it enhances the dwelling and adds to the appearance and quality of the streetscape. Street trees are present in most of the streets and make a solid contribution to the overall character.
	Representative Buildings	Identified - refer to SA planning database.

NPSP11	Norwood 1 Historic Area Statement (NPSP11)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Late 19th Century (pre 1920s). Residential. Range of dwelling types.
	Allotments, subdivision and built form patterns	Original historic pattern. Consistent front setback patterns.
	Architectural styles, detailing and built form features	Single-fronted and double-fronted cottages.
	Building height	Up to two storeys.
	Materials	Bluestone, sandstone, pise or brick.
Fencing	Generally low, reflecting the traditional period, style and form of the associated building.	
Setting, landscaping, streetscape and public realm features	<i>[Not stated]</i>	
Representative Buildings	<i>[Not identified]</i>	

NPSP12	Norwood 2 Historic Area Statement (NPSP12)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

	Eras, themes and context	Early 1900s and 1918-30 (State Bank bungalows). Detached dwellings.
	Allotments, subdivision and built form patterns	Medium sized allotments. Large frontages.
	Architectural styles, detailing and built form features	<p>Early 1900s architectural housing styles in Harcourt Road - post Federation Villa style dwellings.</p> <p>State Bank bungalows in Kapunda Terrace.</p> <p>Local shop and attached dwelling at the junction of Harcourt Road and Kapunda Terrace.</p> <p>Original verandahs along the primary frontage.</p> <p>Well preserved housing stock, particularly in Harcourt Road.</p>
	Building height	Single storey.
	Materials	Unpainted stone, corrugated iron roofing materials and joinery.
Fencing	<p>Low, open fencing that reflects the period and style of the dwellings. Front fencing (including any secondary street frontage up to the alignment to the fain face of the dwelling) generally low in height up to 1.2m (masonry), 1.5m (wrought iron, timber and wire or woven mesh) and 2m (masonry pillars), allowing views to dwelling.</p> <p>Timber picket, timber dowelling, masonry and cast iron palisade, or corrugated iron or mini orb within timber framing for villas.</p> <p>Timber picket, timber pailing, woven crimped wire, or corrugated iron or mini orb within timber framing for Edwardian dwellings.</p> <p>Timber pailing, wire mesh and timber or tube framing, woven crimped wire, or masonry with galvanised steel ribbon for bungalows.</p> <p>Side and rear fences in traditional materials such as timber, corrugated iron or well-detailed masonry.</p>	

Statement#	Statement	
	Setting, landscaping, streetscape and public realm features	The consistent early tree planting of mature natives species, including Lilly Pillys and Myrtles, particularly along Harcourt Avenue, will continue to define and unify the historic character of this street. Buildings located in garden setting.
	Representative Buildings	Identified - refer to SA planning database.

NPSP17	Payneham (Henry Street/George Street) Historic Area Statement (NPSP17)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Pre 1890s (Victorian) and 1890s-1910s (Edwardian). Detached and semi-detached dwellings.
	Allotments, subdivision and built form patterns	Historic settlement sections of George Street and Henry Street, Payneham. Dwellings closely set on small, narrow fronted allotments and built close to the street with minimal setbacks and separation distances. Original verandahs.
	Architectural styles, detailing and built form features	Small Victorian and Edwardian / federation cottages in detached and semi-detached configurations which are an important relic of early residential development in this section of Payneham. Dwellings simple in structure and plan.
	Building height	Single storey.
	Materials	Unpainted sandstone and bluestone, corrugated iron roofing materials and joinery.
	Fencing	Low, open fencing that reflects the period and style of the dwellings. Front fencing (including Henry Street / George Street corners and any secondary street frontage up to the alignment to the fain face of the dwelling) generally low in height up to 1.2m, allowing views to dwelling. Timber picket, timber dowelling, simple masonry and cast iron palisade, or corrugated iron or mini orb within timber framing. Side and rear fences in traditional materials such as timber, corrugated iron or well-detailed masonry.
	Setting, landscaping, streetscape and public realm features	Distinctive historic streetscape character established through the pattern of narrow streets and distinctive street trees.
	Representative Buildings	Identified - refer to SA planning database.

NPSP18	St Peters Historic Area Statement (NPSP18)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1870 - 1930s. Detached and semi-detached dwellings.
	Allotments, subdivision and built form patterns	Mix of close-set, single-fronted cottages on narrow allotments and a range of cottages and villas set on larger allotments with more substantial established gardens, in wide streets, often with rear service lanes. Rear lanes used for vehicular access and garages In College Park and along Fifth and Sixth Avenue - small to medium sized allotments. In this section of First Avenue - modest sized allotments.
	Architectural styles, detailing and built form features	In College Park and along Fifth and Sixth Avenue - mainly single-storey double-fronted villas and detached dwellings of modest proportions with some single-fronted dwellings. In this section of First Avenue - reasonably compact single-fronted, double-fronted, and villa-type dwellings.
	Building height	Single storey.
	Materials	Sandstone and bluestone construction.
	Fencing	Low, open fencing that reflects the period and style of the dwellings. Front fencing (including any secondary street frontage up to the alignment to the fain face of the dwelling) generally low in height up to 1.2m (masonry), 1.5m (wrought iron, timber and wire or woven mesh) and 2m (masonry pillars), allowing views to dwelling.

Statement#	Statement
	Timber picket, timber dowelling, masonry and cast iron palisade, or corrugated iron or mini orb within timber. Side and rear fences in traditional materials such as timber, corrugated iron or well-detailed masonry.
Setting, landscaping, streetscape and public realm features	In College Park and along Fifth and Sixth Avenue - Reasonably wide streets are characteristic of this area, with significant street planting and fenced front boundaries. Rear vehicle access lanes. Landscaping around dwellings is an important design element. Streets lined with mature exotic street trees.
Representative Buildings	Identified - refer to SA planning database.

Stepney Historic Area Statement (NPSP19)	
The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
Eras, themes and context	1850 - 1890s. Detached, semi-detached and row dwellings.
Allotments, subdivision and built form patterns	Intricate pattern of development. Dwellings built on small, narrow-fronted allotments, close to the street frontage with minimal setbacks and separation. Primary dwelling frontages to streets, not lanes.
Architectural styles, detailing and built form features	Single and double fronted single storey cottages, in detached, semi-detached and row dwelling configurations, with some modest villas and bungalows. Dwellings simple in structure and plan.
Building height	Single storey.
Materials	Bluestone and sandstone.
Fencing	Low, open fencing that reflects the period and style of the dwellings. Front fencing (including any secondary street frontage up to the alignment to the fain face of the dwelling) generally low in height up to 1.2m, allowing views to dwelling. Timber picket, timber dowelling, masonry and cast iron palisade.
Setting, landscaping, streetscape and public realm features	Street trees feature to a varying degree due to the species selection and age of planting. Rear lanes used for vehicular access and garages
Representative Buildings	Identified - refer to SA planning database.

The Avenues Historic Area Statement (NPSP20)	
The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
Eras, themes and context	Between the late 1870s and 1900, between the 1900s and the 1920s, and inter-war. Detached dwellings.
Allotments, subdivision and built form patterns	Historic streetscape created by the regularity of the avenues and the development patterns that have formed around them. Primary dwelling frontages to streets, not lanes.
Architectural styles, detailing and built form features	Predominantly single-storey, detached, late Victorian Italianate villas of reasonably substantial proportions. Elsewhere - the consistent styles of detached late Victorian Italianate villas of reasonably substantial proportions. Double fronted asymmetrical dwellings are the most common dwelling type, although there are a range of symmetrical dwellings, East Adelaide Company dwellings and some larger villas and mansions. The double fronted symmetrical and asymmetrical dwellings are an elegant, larger version of the simple colonial cottage with the addition of a projecting wing (in the case of the asymmetrical dwelling), a more elaborate verandah and increased detailing in plaster and render work around openings. The pitch and size of the roof makes this an important design element. Verandahs along the front elevation are another important element of both the double fronted symmetrical and asymmetrical dwelling.

Statement#	Statement	
NPSP20		<p>Some Edwardian style housing (such as Queen Anne and Art Nouveau styles), generally located within the later subdivided areas or on blocks which were re-subdivided from larger allotments.</p> <p>Joslin portion of this Policy Area - reflects general character, some of the dwelling stock, particularly towards the Lambert Road boundary, graduates into the 1920s style of housing, introducing with it a component of inter-war housing such as bungalows.</p>
Building height		Predominantly single-storey, up to two storeys in some locations.
Materials		Bluestone or sandstone dressed and coursed.
Fencing		<p>Low, open fencing that reflects the period and style of the dwellings. Front fencing (including any secondary street frontage up to the alignment to the fain face of the dwelling) generally low in height up to 1.2m (masonry), 1.5m (wrought iron, brush, timber and or wire or woven mesh) and 2m (masonry pillars), allowing views to dwelling.</p> <p>Timber picket, timber dowelling, masonry and cast iron palisade, or corrugated iron or mini orb within timber framing for cottages, villas and other dwellings built during the Victorian period.</p> <p>Timber picket, timber pailing, woven crimped wire, or corrugated iron or mini orb within timber framing for Edwardian dwellings.</p> <p>Timber pailing, wire mesh and timber or tube framing, woven crimped wire, or masonry with galvanised steel ribbon for bungalows, Tudors and inter-war dwellings.</p> <p>Side and rear fences in traditional materials such as timber, corrugated iron or well-detailed masonry.</p>
Setting, landscaping, streetscape and public realm features		<p>Landscaping around a dwelling, particularly in the front garden, is an important design element.</p> <p>In St Peters, wide tree lined streets, with mature street trees and rear lanes used for vehicular access and garages</p>
Representative Buildings		Identified - refer to SA planning database.

The Parade / Fullarton Road Historic Area Statement (NPSP25)		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Eras, themes and context		Pre 1890s (Victorian). Offices, consulting rooms and residential dwellings, generally utilising historic buildings, with new residential apartments and townhouses.
Allotments, subdivision and built form patterns		[Not stated]
Architectural styles, detailing and built form features		Victorian villas, large two storey mansion buildings, double-fronted houses and groups of two storey row houses. Consistent set-backs. Buildings which address Fullarton Road and The Parade have deep set-backs.
Building height		Generally up to two storeys.
Materials		Sandstone or bluestone.
Fencing		[Not stated]
Setting, landscaping, streetscape and public realm features		Vehicular movement is dominated by The Parade, Fullarton Road, Rundle Street and Little Dew Street, which provides primary access for delivery, service, visitors' and residents' vehicles, in preference to access via the adjoining residential areas. Well established garden settings. High standard of landscaping incorporating large trees which reinforce the leafy avenue character of these roads.
Representative Buildings		[Not identified]

Historic Areas affecting City of Onkaparinga		
<p>Clarendon Historic Area Statement (Onka1)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Eras, themes and	1840s - 1890s.	

Statement#	Statement	
Onka1	context	Early European survey and settlement in the regional areas around Adelaide; Pastoralism, Agriculture, Viticulture, Tertiary Industries, Communications, Road Transport, Water Catchment and Supply, Social Services, Religion, Education, Law and Order, Local Government.
	Allotments, subdivision and built form patterns	<p>Township allotments set out from the main road (Grants Gully Road) which winds its way along the floor of a valley and Turners Gully Road.</p> <p>Relatively large allotments, typical of a country township. Allotment sizes increase out from the centre of the township, emphasising the semi-rural environment.</p> <p>Substantial space between buildings.</p> <p>Buildings are sited relatively close to front boundaries and each other in the centre of the township but front and side setbacks increase as distance from the town centre increases. This pattern of development contributes to the sense of space and rural/country township character.</p> <p>Building frontages are parallel to streets becoming more random out from the centre of the township.</p> <p>Dwellings with frontage to Turners Gully Road and/or Clarendon Road sited on the lower slopes of hillsides or within the valley floor.</p>
	Architectural styles, detailing and built form features	<p>Double-fronted cottages, villas, asymmetrical cottages and attached shop-dwellings with Victorian stylistic influences.</p> <p>Agriculture and viticulture related structures such as winery buildings, farmhouses and barns.</p> <p>Public buildings such as police station, courthouse, school, former institute building (hall) with Victorian Gothic and similar styles of the Victorian era. Churches and cemeteries. Hotel, general store and shops. Transport related structures such as bridges.</p> <p>War memorial.</p> <p>Roof types: M - shaped, gable, hipped, concave or straight-pitched veranda, steeply-pitched, typically 30 to 40 degrees, reflecting traditional architectural styles and building methods</p> <p>short roof spans</p> <p>Rectilinear plan form. Low-scale. High solid-to-void ratio. Typically two or more pavilions rather than a single mass. Concave and straight-pitched verandas on front and sometimes side facades reduce bulk and scale and add visual interest. Lean-to forms are common and break down bulk and scale. Vertical proportions in windows and doors. Fine-grain detail in elements such as plinths, string courses, projecting sills</p>
	Building height	<p>Predominantly single-storey. Single-storey residential buildings with some two-storey or part two-storey dwellings.</p> <p>Typical proportions of Victorian-era cottages with wall heights of around 3.3 to 3.6 metres and ridge heights of around 5.0 to 5.5 metres.</p> <p>Tall single-storey churches and institutional and public buildings that are generally exceptions and landmarks that punctuate the streetscape and stand out because of their difference in scale.</p>
	Materials	<p>Masonry - random rubble, roughly-coursed stone, unpainted local bluestone, sandstone, some with brick or rendered quoin work</p> <p>Roof - slate or corrugated iron</p> <p>Timber joinery including window frames, door frames, doors, fascias, bargeboards and veranda posts</p> <p>Consistent with the materials used in the 1840s-1890s buildings within the township.</p> <p>Unobtrusive, natural colours.</p>
	Fencing	<p>Picket fence. Woven wire. Timber post-and-rail or post-and-wire</p> <p>Low (approximately 1.2 metres in height) sandstone rubble. Original front fences associated with era and style of building, which maintain views of the building from the public realm. Rear and side boundary fencing often corrugated galvanised iron up to 1.8 metres in height.</p>
	Setting, landscaping, streetscape and public realm features	<p>Lineal township laid out along a narrow valley floor.</p> <p>Township located within a steeply-sided valley and a hillside, rural setting.</p> <p>Narrow streets.</p> <p>The reservoir and the Onkaparinga River.</p> <p>Mature landscape environment where well-established trees and vegetation reinforce the country township character and emphasise the space between buildings.</p> <p>Village or rural township character.</p> <p>Vistas and views into and out of the township are important.</p>
	Representative Buildings	Identified - refer to SA planning database.

Kangarilla Historic Area Statement (Onka2)

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

Statement#	Statement	
Onka2	Eras, themes and context	1840s - early 1900s. Early European survey and settlement in the regional areas around Adelaide; Pastoralism, Agriculture, Tertiary Industries, Communications, Road Transport, Social Services, Religion, Education.
	Allotments, subdivision and built form patterns	Concentrated on McLaren Flat Road. Relatively large allotments, typical of country township. Allotment sizes increase out from the centre of the township, emphasising the semi-rural environment. Substantial space between buildings. Buildings are sited relatively close to front boundaries and each other in the centre of the township but front and side setbacks increase as distance from the town centre increases. Sense of space and country township character. Building frontages parallel to streets.
	Architectural styles, detailing and built form features	Double-fronted cottages, villas, asymmetrical cottages and attached shop-dwellings with Victorian stylistic influences. Agriculture and viticulture related structures such as farmhouses, barns, stables, sheds, outbuildings, and winery. Public buildings such as school, post office, hall. Churches and cemeteries. Hotel, general store and shops. Rectilinear plan form. Low-scale. High solid-to-void ratio. Typically two or more pavilions rather than a single mass. Concave and straight-pitched verandas on front and sometimes side facades reduce bulk and scale and add visual interest. Lean-to forms are common and break down bulk and scale. Vertical proportions in windows and doors. Fine-grain detail in elements such as plinths, string courses, projecting sills. Roof types: M - shaped, gable, hipped. Concave, bullnose or straight-pitched veranda. Steeply-pitched, typically 30 to 40 degrees, reflecting traditional architectural styles and building methods. short roof spans.
	Building height	Predominantly single-storey. Single-storey residential buildings with some two-storey or part two-storey dwellings or shop/dwellings. Typical proportions of Victorian-era cottages with wall heights of around 3.3 to 3.6 metres and ridge heights of around 5.0 to 5.5 metres. Tall single-storey churches and institutional and public buildings that are exceptions
	Materials	Masonry - random rubble, roughly coursed stone, unpainted local bluestone, sandstone, some with brick or rendered quoin work. Roof - corrugated iron, slate, stringy bark shingles. Timber joinery including window frames, door frames, doors, fascias, bargeboards and veranda posts. Consistent with the materials used in the 1840s-1890s buildings within the township.
	Fencing	Post-and-rail. Crude picket. Timber post-and-rail or post-and-wire. Low (approximately 1.2 metres in height) sandstone rubble. Original front fences associated with era and style of building, which maintain views of the building from the public realm. Rear and side boundary fencing often corrugated galvanised iron up to 1.8 metres in height.
	Setting, landscaping, streetscape and public realm features	Positioned at the junction of four main roads. Township confined to small cluster of buildings sited adjacent the major road junction. Presence of reliable creek. Rural township character. Mature landscape environment well-established trees and vegetation emphasise space between buildings. Farmhouses around the township area. Relatively broad road reserves. Informal footpaths and road edges.
	Representative Buildings	<i>[Not identified]</i>

Old Reynella Historic Area Statement (Onka3)

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

Eras, themes and context	1840s - 1920s. Early European survey and settlement in the regional areas around Adelaide; Pastoralism, Agriculture, Viticulture, Tertiary Industries, Communications, Road Transport/Coaching routes, Railway Services, Social Services, Religion, Education.
Allotments, subdivision and built form patterns	Varied allotment sizes and pattern within the township.
Architectural styles,	Symmetrical and asymmetrical cottages with Victorian stylistic influences. Schools, hotel. Transport-related buildings such as horse changing station.

Statement#	Statement	
Onka3	detailing and built form features	<p>Smaller cottages with rectilinear plan form. Low-scale. High solid-to-void ratio. Typically, two or more pavilions rather than a single mass. Concave, bullnose and straight-pitched verandas on front and sometimes side facades reduce bulk and scale and add visual interest. Lean-to forms are common and break down bulk and scale. Vertical proportions in windows and doors. Fine-grain detail in elements such as plinths, string courses, projecting sills.</p> <p>Roof types: gable, hipped. Steeply-pitched, typically 30 to 40 degrees, reflecting traditional architectural styles and building methods Short roof spans.</p>
	Building height	Predominantly single-storey. Typical proportions of Victorian-era cottages with wall heights of around 3.3 to 3.6 metres and ridge heights of around 5.0 to 5.5 metres. Larger hotel and former school building are landmarks. Historic character punctuated by more recent infill and shopping facilities.
	Materials	<p>Masonry - limestone, sandstone (coursed), random rubble, some stucco and rendered finishes.</p> <p>Quoins - rendered, brick.</p> <p>Roof - corrugated iron.</p> <p>Timber joinery including window frames, door frames, doors, fascias, bargeboards and veranda posts.</p>
	Fencing	Picket fencing. Original front fences associated with era and style of building, which maintain views of the building from the public realm. Rear and side boundary fencing often corrugated galvanised iron up to 1.8 metres in height.
	Setting, landscaping, streetscape and public realm features	<p>Narrow residential streets presenting variety in the age and style of buildings.</p> <p>Attractive public open spaces formed around the Field River.</p> <p>Creek line running through the centre of the town.</p>
	Representative Buildings	<i>[Not identified]</i>

<p>Old Noarlunga Historic Area Statement (Onka4)</p>		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>		
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>		
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Onka4	Eras, themes and context	<p>1840s - 1930s.</p> <p>Bungalows and c1920s stage of development.</p> <p>Early European survey and settlement in the regional areas around Adelaide; Agriculture, Flour Milling, Tertiary Industries, Communications, Road Transport, Water Transport, Social Services, Religion, Education, Local Government.</p>
	Allotments, subdivision and built form patterns	Allotments perpendicular to gently curving roads that follow the line of the adjacent Onkaparinga River. Large allotments with large frontages.
	Architectural styles, detailing and built form features	<p>Double-fronted cottages, villas, asymmetrical cottages and attached shop-dwellings with Victorian, Federation and Inter-War Bungalow stylistic influences.</p> <p>Public buildings such as school, former post office, former institute building (hall). Churches and cemeteries. Hotel and shops. Former flour mill. Transport-related structures such as bridges.</p> <p>Rectilinear plan form. Low-scale. High solid-to-void ratio. Typically two or more pavilions rather than a single mass. Concave, bullnose and straight-pitched verandas on front and sometimes side facades reduce bulk and scale and add visual interest. Lean-to forms are common and break down bulk and scale. Vertical proportions in windows and doors. Fine-grain detail in elements such as plinths, string courses, projecting sills.</p> <p>Roof types: gable. Steeply-pitched, typically 30 to 40 degrees, (slightly lower for bungalows), reflecting traditional architectural styles and building methods. Short roof spans</p>
	Building height	<p>Predominantly single-storey, with some 2 storey.</p> <p>Typical proportions of Victorian-era cottages with wall heights of around 3.3 to 3.6 metres and ridge heights of around 5.0 to 5.5 metres. Larger hotel and former school building are landmarks.</p>
	Materials	<p>Masonry - limestone, sandstone, bluestone - random rubble, some rendered elements</p> <p>Quoins - rendered, brick</p> <p>Roof - corrugated iron, gables with timber strapping</p> <p>Timber joinery including window frames, door frames, doors, fascias, bargeboards and veranda posts.</p> <p>Cream, dark green and muted-earth colours.</p>
	Fencing	<p>Randomly-laid stone. Post-and-rail. Timber picket. Woven wire</p> <p>Original front fences associated with era and style of building, which maintain views of the building from the public realm.</p>

Statement#	Statement	
		Rear and side boundary fencing often corrugated galvanised iron up to 1.8 metres in height.
	Setting, landscaping, streetscape and public realm features	Sited in a bend of the Onkaparinga River. Enclosed by prominent steep river embankments. Township edges defined by open space and national park. Self-contained village with a strong 'main street' character. Town square (former Market Square). Horseshoe Park.
	Representative Buildings	<i>[Not identified]</i>

Statement#	Statement	
Onka5	Port Willunga Historic Area Statement (Onka5)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1850s - 1930s. Early European survey and settlement in the regional areas around Adelaide; Agriculture, Tertiary Industries, Road Transport, Water Transport/Shipping, Social Services, Leisure Pursuits/Holidaymaking.
	Allotments, subdivision and built form patterns	Radiating layout from north-easterly point where Mindarie Street meets the original termination of William Street. Traditional grid pattern elsewhere. Based on gridiron pattern. Views of the hills to east down public streets.
	Architectural styles, detailing and built form features	Mid-to-late 1800s stone buildings. Informal inter-war holiday and fishing shacks. Post-war holiday houses. Recent dwellings that draw on the traditional form and scale. Informality in the appearance of many buildings arising from additions over time and variety in use of materials. Rectilinear plan form. Low-scale. Typically two or more pavilions rather than a single mass. High solid-to-void ratio. Concave and straight-pitched verandas on front and sometimes side facades reduce bulk and scale and add visual interest. Lean-to forms are common and break down bulk and scale. Vertical proportions in windows and doors. Fine-grain detail in elements such as plinths, string courses, projecting sills. Roof types: gable. Hipped. Steeply-pitched, typically 30 to 40 degrees, reflecting traditional architectural styles and building methods. Short roof spans.
	Building height	Predominantly single-storey, some two-storey (but well-modulated). Single-storey has typical proportions of Victorian-era cottages with wall heights of around 3.3 to 3.6 metres and ridge heights of around 5.0 to 5.5 metres. Larger former hotel is a landmark.
	Materials	Masonry - limestone, sandstone, weatherboard, some rendered masonry - random rubble. Quoins - rendered, brick. Roof - corrugated iron, slate, dark grey. Timber joinery including window frames, door frames, doors, fascias, bargeboards and veranda posts.
Fencing	Picket. Post-and-rail. Post-and-wire. Hedges. Randomly-laid limestone up to 1.2 metres high. Original front fences associated with era and style of building, which maintain views of the building from the public realm. Rear and side boundary fencing often corrugated galvanised iron up to 1.8 metres in height.	
Setting, landscaping, streetscape and public realm features	Established trees - mature Aleppo Pines, Norfolk Island Pines, Casuarinas. Informal streetscapes often lined with established trees and shrubs.	
Representative Buildings	<i>[Not identified]</i>	

	Aldinga Historic Area Statement (Onka6)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	

Statement#	Statement	
Onka6	Eras, themes and context	1850s - 1920s. Early European survey and settlement in the regional areas around Adelaide; Agriculture, Tertiary Industries, Communications, Road Transport, Social Services, Religion, Leisure Pursuits, Holidaymaking.
	Allotments, subdivision and built form patterns	Village centred on the intersection of Old Coach Road and Port Road. Large allotments perpendicular to the roads. Allotment sizes increase out from the centre of the township, emphasising the semi-rural environment. Substantial space between buildings. Buildings are sited relatively close to front boundaries and each other in the centre of the township but front and side setbacks increase as distance from the town centre increases. This pattern of development contributes to the sense of space and rural/country township character. Building frontages are parallel to streets becoming more random out from the centre of the township. Based on gridiron pattern. Views of the hills to the east down public streets.
	Architectural styles, detailing and built form features	Mid-to-late 1800s stone buildings with Victorian stylistic influences. Double-fronted cottages, villas, asymmetrical cottages and attached shop-dwellings with Victorian stylistic influences. Hotel, former Temperance Inn, former Institute building (hall) and church are landmarks. Rectilinear plan form. Low-scale. High solid-to-void ratio. Typically two or more pavilions rather than a single mass. Concave, bullnose and straight-pitched verandas on front and sometimes side facades reduce bulk and scale and add visual interest. Lean-to forms are common and break down bulk and scale. Vertical proportions in windows and doors. Fine-grain detail in elements such as plinths, string courses, projecting sills. Roof types: gable, hipped. Steeply-pitched, typically 30 to 40 degrees, reflecting traditional architectural styles and building methods. Short roof spans.
	Building height	Predominantly single-storey. Typical proportions of Victorian-era cottages with wall heights of around 3.3 to 3.6 metres and ridge heights of around 5.0 to 5.5 metres. Larger hotel and former school building are landmarks.
	Materials	Masonry - limestone, sandstone - random rubble. Quoins - rendered, brick. Roof - corrugated iron, Willunga slate. Timber joinery including window frames, door frames, doors, fascias, bargeboards and veranda posts.
	Fencing	Picket. Post-and-rail. Post-and-wire. Hedges. Randomly-laid limestone up to 1.2 metres high.
	Setting, landscaping, streetscape and public realm features	Established trees - mature Aleppo Pines, Norfolk Island Pines, Casuarinas.

Willunga Historic Area Statement (Onka7)

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

Eras, themes and context	Predominantly 1840s - 1900. Early settlement; Agriculture, Slate Quarrying.
Allotments, subdivision and built form patterns	Original subdivision in the late 1830s. Second subdivision of southern part of the township in 1857. Laid out around High Street, the main thoroughfare through the town, which cuts diagonally through the original subdivision. Allotments perpendicular to High Street in centre of township. Grid pattern with allotments perpendicular to streets in southern section of township. Original allotments of around half an acre. Subsequent land division has occurred, but allotments remain relatively large. Early buildings line High street and the road out of Willunga to Aldinga and McLaren Vale. Rectilinear. Buildings aligned parallel to boundaries.

Statement#	Statement	
Onka7	Architectural styles, detailing and built form features	<p>Simple, vernacular cottages. Mid-to-late 1800s stone buildings with Victorian stylistic influences. Double-fronted cottages, villas and asymmetrical cottages with Victorian stylistic influences. Shops and shop/dwellings with Victorian stylistic influences. Churches and cemeteries. Public buildings such as police station, courthouse, school, former post and telegraph office, post office, former Institute building (hall). Three hotels. Transport-related structures such as bridges.</p> <p>Rectilinear plan form. Low-scale. High solid-to-void ratio. Typically two or more pavilions rather than a single mass. Concave, bullnose and straight-pitched verandas on front and sometimes side facades reduce bulk and scale and add visual interest. Lean-to forms are common and break down bulk and scale. Vertical proportions in windows and doors. Fine-grain detail in elements such as plinths, string courses, projecting sills.</p> <p>Roof types: hipped. Gable. Steeply-pitched, typically 30 to 40 degrees, reflecting traditional architectural styles and building methods. Short roof spans.</p>
	Building height	<p>Variation in the size and sophistication of buildings, from humble cottages to two-storey dwellings and institutional or public buildings. Predominantly single-storey. Typical proportions of Victorian-era cottages with wall heights of around 3.3 to 3.6 metres and ridge heights of around 5.0 to 5.5 metres.</p> <p>Smaller vernacular cottages. Hotels, former post and telegraph office, former police station and courthouse and former Institute (hall) are landmarks.</p>
	Materials	<p>Masonry - local sandstone, pug-with-lime render, some local brick - random rubble, squared.</p> <p>Quoins - stone, rendered, brick.</p> <p>Roof - corrugated iron, Willunga slate.</p> <p>Timber joinery including window frames, door frames, doors, fascias, bargeboards and veranda posts.</p> <p>Consistent with the materials used in the 1840s-1900s buildings within the township.</p>
	Fencing	<p>Picket. Post-and-rail. Post-and-wire. Slate post-and-wire. Hedges. Randomly-laid stone up to 1.2 metres high. Original front fences associated with era and style of building, which maintain views of the building from the public realm. Rear and side boundary fencing often corrugated galvanised iron up to 1.8 metres in height.</p>
	Setting, landscaping, streetscape and public realm features	<p>Commercial and residential buildings indicative of the town's early settlement phase in the mid-1800s. Landmark two-storey buildings in High Street. Range of buildings and uses reflecting the composition of the town's community and enterprise. Town's foothill topography features creek lines. Substantial remnant gum trees. High degree of mature landscaping.</p>
	Representative Buildings	<p><i>[Not identified]</i></p>

Historic Areas affecting Outback Areas (Out of Councils)

Ob1	<p>Blinman Historic Area Statement (Ob1)</p>

Historic Areas affecting Peterborough

PET1	Peterborough Historic Area Statement (Pet1)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	<p>Turn of 20th century.</p> <p>Civic, commercial and retail.</p> <p>Railways.</p>
	Allotments, subdivision and built form patterns	Traditional grid arranged around Main Street and the railway line.
	Architectural styles, detailing and built form features	Along Main Street and within the town centre, commercial buildings with traditional shopfronts, parapets and verandahs. Small, humble workers' accommodation, including single- and double- fronted cottages and row cottages. Villas. Traditional railway architecture including workshops and industrial buildings. Roof pitches between 30-45 degrees.
	Building height	Single storey with the exception of civic and hotel buildings and the Capitol Theatre .
	Materials	Local stone, masonry and corrugated iron.
	Fencing	Open fencing of a rural style not exceeding 1.2m.
	Setting, landscaping, streetscape and public realm features	Along Main Street and within the town centre, consistent setbacks and a strong building line with little interruption. Buildings square to the street. Visibility of the railway line. Dominance of the railways housing and administrative buildings within the railway reserve east of Hurlstone Street. Dominance of railway workshops and industrial buildings at the western end of the railway reserve. Dominance of religious buildings associated with three churches along Kitchener Street. Symmetry given to Main Street by trees where there is no built form. Definition and articulation of four corners created by hotel buildings. Wide streets with stone kerbing. Slate footpaths.
Representative Buildings	Identified – refer to SA planning database.	

PET2	Yongala Township Historic Area Statement (Pet2)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Late 19 th and early 20 th century.
	Allotments, subdivision and built form patterns	Traditional grid land division pattern arranged around Main Street.
Architectural styles, detailing and built form features	Along Main Street, traditional shopfronts with verandahs.	

Statement#	Statement	
	Building height	Single storey with the exception of the Globe Hotel.
	Materials	Local stone, masonry and corrugated iron.
	Fencing	Open fencing of a rural style no more than 1.2m.
	Setting, landscaping, streetscape and public realm features	Silos and the Globe Hotel are landmark features. Consistent building setbacks from street frontages and the central unifying element of the grassed area on Main Street give the area cohesion.
	Representative Buildings	[Not identified]

Historic Areas affecting City of Playford

One Tree Hill Historic Area Statement (Play1)		
Play1	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1860s - Uniting Church & Cemetery, Cottages. 1900s - Institute & War Memorial.
	Allotments, subdivision and built form patterns	Orderly allotment configuration fronting Black Top Road. Varying front setbacks. Generous side setbacks.
	Architectural styles, detailing and built form features	Early symmetrical cottages of low scale and simple form. Institutional/community period buildings featuring simple gable form. Rectilinear plan forms. Moderate degree of modulation and articulation. Steep roof pitches in the order of 30 to 40 degrees (slightly lower on domestic buildings. Short roof spans. Hip roof forms on domestic buildings. Gable roof form on institutional/community buildings. Short straight pitched verandahs on domestic buildings. Vertical proportions in windows and doors.
	Building heights	Low scale single storey domestic buildings. Single storey institutional/community buildings.
	Materials	Consistent with the materials used in the 1860s to 1900s period. Institutional/community buildings featuring local stone face, walls unpainted. Private buildings featuring rendered and painted walls. Corrugated iron roofing. Timber joinery including verandah posts and framing, fascia, barges, window frames, door frames and doors.
	Fencing	Fencing associated with the era and style of the building. Low open style fencing. Low stone fence and iron gate to Uniting Church.
	Setting, landscaping, streetscape and public realm features	Well established streetscape character, with notable landscaping.
	Representative Buildings	[Not identified]

Historic Areas affecting City of Port Adelaide Enfield

Alberton / Rosewater Historic Area Statement (PADE1)		
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1860 - 1950 built development.
Allotments,	Squares linked by wide streets. Modified grid pattern. Reasonably consistent allotment depths. Varied front setbacks.	

Statement#	Statement	
PAdE1	subdivision and built form patterns	
	Architectural styles, detailing and built form features	Wide range of housing styles including villas, bungalows, cottages, terrace and rows.
	Materials	Materials consistent with the style of building and era of its original construction.
	Building height	Single storey.
	Fencing	Low and/or open consistent with the style and era of construction of the building it is associated with. Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms. Fences associated with 1920s including capped timber palings, post and wire or woven wire fences.
	Setting, landscaping, streetscape and public realm features	Pockets of important early houses in Queen Street and King Street, dating from the 1860s. Substantial Victorian stone and brick houses grouped around two squares, Company Square and St Patricks Square, with good examples of substantial corner villas. The Alberton station complex is an important feature in the area and contains the earliest railway station in South Australia and shops of a consistent design. The double line of trees along the railway line that divides the area and the established street trees, particularly, Plane trees, Ash trees, Jacarandas, White Cedars and some mature Canary Island Date Palms make an important contribution to the character of the area.
	Representative Buildings	Identified - refer to SA planning database.

PAdE2	Exeter Historic Area Statement (PAdE2)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1860's - 1940's built development.
	Allotments, subdivision and built form patterns	Grid pattern with narrow north-south running streets with the long axes of allotments running east-west. Allotments fronting Harris St, Exmouth Road and Semaphore Road configured with their long axes running north-south so that buildings address those roads. Generally built close to street with small front setbacks.
	Architectural styles, detailing and built form features	Housing styles consisting of cottages, villas, bungalows, terraces and rows.
	Materials	Materials consistent with the style of building and era of its original construction.
	Building height	Predominately single storey but some scattered two storey.
Fencing	Low and/or open consistent with the style and era of construction of the building it is associated with. Fences associated Victorian and Edwardian houses include pickets, paling, masonry and cast iron and other traditional fence forms. Fences associated with the 1920s including capped timber palings, post and wire or woven wire fences.	
Setting, landscaping, streetscape and public realm features	The early cottages and neighbourhood shops with verandahs extending over the footpath and the Cooperative Building Society in Denman Street provide a reminder of the local village character of this area, catering for the needs of residents whose main means of transport was walking. A collection of intact early buildings characterised by stone and brick residences, early timber houses and later corrugated iron houses all retaining original detailing. A second small residential pocket on the south side of Semaphore Road which also has a local village character with single storey brick and stone cottages and a two storey hotel and paired terrace.	
Representative Buildings	Identified - refer to SA planning database.	

	Semaphore / Largs Historic Area Statement (PAdE3)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.		
Eras, themes and context	1860's - 1940's built development.	
Allotments, subdivision and built form patterns	Grid pattern with predominately east-west running streets with the long axes of allotments running north-south. Allotments fronting the Esplanade and Military Road configured with their long axes running east-west so that buildings address these roads. Consistent front setbacks for each street but setbacks varying between streets. Varied allotment sizes.	

Statement#	Statement	
PAdE3	Architectural styles, detailing and built form features	Wide range of housing styles from all periods of development of Semaphore and Largs including villas, bungalows, workers row cottages, terraces, rows, mansions and Tudors. Early timber and masonry houses.
	Building height	Predominately single storey but scattered two storey and a small amount of three storey along parts of the Esplanade frontage.
	Materials	Materials consistent with the style of building and era of its original construction. Timber and masonry housing.
	Fencing	Low and/or open consistent with the style and era of construction of the building it is associated with. Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms. Fences associated with houses from the 1920s including capped timber palings, post and wire or woven wire fences.
	Setting, landscaping, streetscape and public realm features	A continuous run of high quality residential buildings set among mature Norfolk Island Pines along the Esplanade. The low scale of the Esplanade set against the open view of the sea opposite contains individual houses of historical and architectural importance built as seaside residences. An important sub-precinct along Military Road running from Fort Glanville through to Largs containing high quality public and private buildings. A concentration of early houses around Newman Street and Blackler Street associated with the development of Semaphore during the 1860s. Pockets of mature street planting providing important settings for these early houses, particularly along the Esplanade, Union Street, Clare Street, Hall Street and others.
	Representative Buildings	Identified - refer to SA planning database.
PAdE4	Mainstreet Historic Area Statement (PAdE4)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1850's - 1940's built development.
	Allotments, subdivision and built form patterns	Focused around Commercial Road, St Vincent Street, Dale Street and Church Place. Allotments configured with their long axes running perpendicular to these roads. Allotments sizes vary to accommodate retail and commercial uses. Commercial buildings generally built to road frontages.
	Architectural styles, detailing and built form features	Commercial buildings featuring a fine grain fabric of small scale tenancies with narrow frontages. The extensive use of balconies and verandahs over footpaths.
	Building height	Predominately single and two storey with a small number three and four storey buildings to the east of Commercial Road.
	Materials	Materials consistent with the style of building and era of its original construction.
	Fencing	<i>[Not stated]</i>
	Setting, landscaping, streetscape and public realm features	The area is a commercial and retail focus. It acts as a buffer and an approach area to the Port Adelaide State Heritage Area noting that the boundary around the Port Adelaide State Heritage Area is relatively arbitrary and the Main street Policy Area contains some buildings that are of equal significance to buildings within the Port Adelaide State Heritage Area. It features a large number of early buildings, many of which have housed the same continuous functions since the time of their construction. The State Heritage listed St Paul's Church is a prominent building in the area and provides a land mark along a major view corridor from the Nelson St Bridge. Similarly, the State Heritage listed Uniting Church off Commercial Road is an important landmark and southern gateway to this area. The area contains a number of State Heritage places and many Local Heritage places.
Representative Buildings	Identified - refer to SA planning database.	
	Woolstores Historic Area Statement (PAdE5)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1880's - 1940's built development.
	Allotments, subdivision and built form patterns	Modified grid pattern with St Vincent Street and Bedford Street providing the main access roads into and out of this area. The southern and western boundaries of the grid are radiused by Brock Street and Barlow Street. The northern boundary is defined by Santo Parade, the northern side of which was previously an extension of Dock 1 and provided the woolstores with convenient access to cargo vessels. Woolstores and commercial buildings generally built to road frontages. Cottages close to and facing the road frontage. Medium to large allotment sizes.
Architectural styles, detailing and built	Large purpose designed woolstores and warehouses featuring strong and robust built forms with parapet walls and saw tooth roofs. Simple, single storey workers cottages.	

Statement#	Statement	
PAdE5	form features	
	Building height	Large masonry woolstores buildings ranging from single to four storeys. Single storey former workers cottages.
	Materials	Masonry and corrugated iron feature strongly and are key defining materials. Materials consistent with the style of building and era of its original construction.
	Fencing	<i>[Not stated]</i>
	Setting, landscaping, streetscape and public realm features	A key characteristic of this area is the compact group of large, well detailed warehouses associated with the wool export trade and located close to the dockside. The woolstores buildings are highly visible and prominent from eastern approaches into the Port Adelaide Regional Centre, particularly from Perkins Drive. The unimpeded visibility and prominence of these buildings is important. The area also contains a collection of primarily corrugated iron houses, mainly located between Aberdeen and Crozier Streets south of Brock Street. Some are identified as Local Heritage Places, dating from 1900 to 1920, which served as worker's housing for the nearby woolstores. These surviving houses are a remnant of a more consistent low scale residential area which contrasted visually with the adjacent imposing woolstores.
	Representative Buildings	Identified - refer to SA planning database.
PAdE6	Semaphore Road Historic Area Statement (PAdE6)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1870's - 1920's built development. Semaphore Road developed as a substantial commercial centre after the establishment of a railway line from Port Adelaide to Semaphore Jetty in 1878 and a subsequent increase in residential population in the area requiring goods and services.
	Allotments, subdivision and built form patterns	Semaphore Road is a wide east west road that in this area runs from Causeway Road to the Esplanade. Allotments are orientated so that buildings address Semaphore Road. Allotment sizes vary to accommodate a range of retail and commercial uses. Retail and commercial buildings built to and addressing the Semaphore Road frontage.
	Architectural styles, detailing and built form features	A variety of Government, institutional and commercial buildings including simple single storey shops with verandahs and parapet walls. Many of these shops retain post-supported verandahs over the footpath. There are pockets of well-preserved historic residential development featuring mansions, villas and cottages.
	Building height	Predominately single storey and two storey.
	Materials	Materials consistent with the style of building and era of its original construction.
	Fencing	None for retail and commercial buildings. Low and/or open consistent with the style and era of construction of the building it is associated with. Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms.
	Setting, landscaping, streetscape and public realm features	A popular main street that links Semaphore and Port Adelaide and provides a pleasant environment for both seaside holiday makers and residents. The seaward end of Semaphore Road retains strong evidence of Semaphore's original function as a transport and communications station for the early South Australian colony from 1850 onwards. The Time Ball Tower, Customs Boarding Station and the early Post Office building remain as an indication of these early services. The development of the Semaphore Town Hall, now the Library, and the RSL Hall continued the provision of community facilities, and these developed in association with the commercial areas of Semaphore road further to the east. This area is an important reminder of Semaphore's early prominence in the development of Port Adelaide and the State. A generous public foreshore provides a popular recreation area and the backdrop and view to the western end of Semaphore Road. The road is wide and features pedestrian areas, paving, upper canopy trees and low lying shrubs located in the median and verge, seating and public art. It is a well-established retail and commercial area that provides cafes, restaurants, shops, hotels, churches, a cinema and a range of other facilities. Many well maintained commercial and residential buildings from the 1880s to the 1920s remain in the area. There are many Local Heritage listed places along the length of the road and a number of State Heritage listed places in the western portion of the area.
	Representative Buildings	Identified - refer to SA planning database.
PAdE7	Jetty Road Historic Area Statement (PAdE7)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	

Statement#	Statement	
PAde7	Eras, themes and context	1870's - 1920's built development. The first subdivision of Largs was in 1873. The Largs Bay Land and Investment Company formed in 1881, constructed the jetty and built the Largs Pier Hotel by December of 1882.
	Allotments, subdivision and built form patterns	Allotments are orientated so that buildings have frontages to and address Jetty Road and the Esplanade. Generous rectangular allotments with wide frontages. Retail and commercial buildings built to and addressing road frontages.
	Building height	Single storey and two storey except at the Jetty Road / Esplanade intersection where development is three storey.
	Architectural styles, detailing and built form features	A mix of architectural styles including simple, single storey shops with over footpath verandahs and parapet walls and a double storey terrace with residential development over ground floor shops.
	Materials	Materials consistent with the style of building and era of its original construction.
	Fencing	None for retail and commercial buildings.
	Setting, landscaping, streetscape and public realm features	Located at the seaward end of Jetty Road, this area has strong links to the foreshore and beach and is a popular area for local residents and visitors. The State Heritage listed Largs Pier Hotel of Victorian (Italianate) architecture is a landmark building. Defining the corner of the Esplanade and Jetty Road, the Hotel, with its arcaded facades presents a prominent entry to this area. The area also contains other early commercial and residential buildings including a former Post Office, two storey shops, and early housing. The latter includes a row of double storey terraces with small scale residential development located above shops.

Historic Areas affecting Port Pirie Regional Council

PtPi1	Port Pirie Historic Area Statement (PtPi1)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Integral part of the Port Pirie Regional Centre. 19th and early 20th century.
	Allotments, subdivision and built form patterns	Buildings on Ellen Street and Alexander Street built to the allotment boundary. Traditional allotment pattern, frontages and widths.
	Architectural styles, detailing and built form features	Traditional designs, roof forms and building features such as verandas, awnings and balconies.
	Building height	One and two storeys.
	Materials	Original or otherwise complementary materials, colours and finishes.
	Fencing	Front fences and gates associated with traditional period, style and form of the building, up to 1.2 m in height.
	Setting, landscaping, streetscape and public realm features	The distinctive historic character is created and enhanced by the interaction between built form, spaces, plantings and general street pattern within the area.
Representative Buildings	Identified - refer to SA planning database.	

	Crystal Brook Historic Area Statement (PtPi2)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Integral part of Crystal Brook Town Centre.
Allotments, subdivision and built	Traditional allotment pattern, frontages and widths.	

Statement#	Statement	
PtPi2	form patterns	
	Architectural styles, detailing and built form features	Traditional designs, roof forms and building features such as verandas, awnings and balconies.
	Building height	Predominantly single storey with two storey structures in suitable locations.
	Materials	Original or otherwise complementary materials, colours and finishes.
	Fencing	Front fences and gates associated with traditional period, style and form of the building, up to 1.2 m in height.
	Setting, landscaping, streetscape and public realm features	The distinctive historic character is created and enhanced by the interaction between built form, spaces, plantings and general street pattern within the area.
	Representative Buildings	Identified - refer to SA planning database.

Historic Areas affecting City of Prospect

Pr1	Fitzroy Terrace Historic Area Statement (Pr1)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Late 19th and Early 20th century mansion style housing.
	Allotments, subdivision and built form patterns	Very large spacious allotments with wide frontages. Sizable setbacks from all boundaries with sizable spaces between buildings. The established pattern of buildings sited away from allotment boundaries makes a significant contribution to the character.
	Architectural styles, detailing and built form features	Very large mansion style dwellings. Additions to the rear or side of dwellings. Range of designs with homogeneity derived from decorative front facades, pitched roofs, brick chimneys & front verandahs and building placement on allotments.
	Building height	Up to 2 storeys.
	Materials	Variety of materials and colour finishes with additional detailing around windows, doors and edges of walls.
Fencing	Low open style to 1.2 metres high. Fencing that associated with the period and style of the dwelling.	
Setting, landscaping, streetscape and public realm features	Substantial well landscaped gardens with front yards that complement the style of the dwelling. Landscaping around dwellings. The spacious streetscape character of Fitzroy Terrace is created by the large allotments on which have been built a range of equally large residences. Garages and carports are designed and sited to be subordinate to the main dwelling.	
Representative Buildings	Identified - refer to SA planning database.	

	Clifton Street Historic Area Statement (Pr2)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
Eras, themes and context	Late 1870s, late 19th speculative housing by local builder James Trevail for middle class home buyers.	
Allotments, subdivision and built form patterns	Original subdivisions of 1881, 1882 and larger allotments of 1894-95 at western end of street (known as Prospect View at the time of sale). Consistent, large front setbacks. Large and small asymmetrical side setbacks to dwellings. The set-back and pattern of coverage creates a notable streetscape with vistas and views towards the west.	
Architectural styles, detailing and built	Consistent front verandahs with highly decorative cast iron and timber trim, hipped and gabled pitched roofs and brick chimneys. 1880s-1890s residential designs along Clifton Street reflecting speculative subdivision. Double fronted cottages with central gable feature and front steps to raised	

Statement#	Statement	
Pr2	form features	finished floor levels to respond to the falling topography to the west.
	Building height	Single storey, moderate residential scale. Essentially single storey residences which take advantage of the sloping topography to the west.
	Materials	Stone walls and limited external colour palette with detailing around windows, doors and edges of walls.
	Fencing	Low open style to 1.2 metres high with mainly masonry and iron materials.
	Setting, landscaping, streetscape and public realm features	Homogenous streetscape of houses and associated buildings. Substantial well landscaped gardens with front yards that complement the style of the dwelling. Narrow verge with mature street trees. Garages and carports are designed and sited to be subordinate to the main dwelling.
	Representative Buildings	Identified - refer to SA planning database.

Pr3	Little Adelaide Historic Area Statement (Pr3)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Little Adelaide Village formed in late 1839. The section was bought by John Bradford an agent for Adelaide Mechanics Land Company. Most of the current homes are dated from the 1870s to 1890s.
	Allotments, subdivision and built form patterns	Is centred on a triangle created by Main North Road, Carter Street, Highbury Street and Argyle Street. Narrow allotments of varying widths and narrow streets. Small setbacks from all boundaries with compact spaces between buildings.
	Architectural styles, detailing and built form features	Coherent pattern of small cottages with common features including pitched roofs, brick chimneys & front verandahs. Single fronted and attached cottages are predominant, mainly from 1870-1890s. The village retains a church, corner shops (former) and other buildings typical of early village settlement.
	Building height	Single storey. Compact small single fronted and attached cottages.
	Materials	Stone walls and limited external colour palette with detailing around windows, doors and edges of walls. Corrugated iron roofs.
	Fencing	Low open style to 1.2 metres high. Fencing associated with the period and style of the dwelling.
	Setting, landscaping, streetscape and public realm features	Small front yards and limited space between buildings. Public realm characterised by narrow street and verge with limited room for landscaping. Village atmosphere. Where present, garages and carports are designed and sited to be subordinate to the main dwelling.
	Representative Buildings	Identified - refer to SA planning database.

Pr4	Whinham Street Historic Area Statement (Pr4)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Late 19th century villas.
	Allotments, subdivision and built form patterns	Regular subdivision pattern. Consistent moderate street setbacks. Large and small asymmetrical side setbacks to dwellings.
Architectural styles, detailing and built form features	Consistent front verandahs with highly decorative cast iron and timber trim, hipped and gabled pitched roofs and brick chimneys. 19th century villas with face stone walls and gable ends, verandahs with cast iron or timber trim, steeply pitched corrugated iron roofs and elaborate rendered trim to window surround.	

Statement#	Statement	
Building height	Single storey, moderate residential scale. Additions are at the rear or side dwellings.	
Materials	Bluestone walls and limited external colour palette with detailing around windows, doors and edges of walls.	
Fencing	Low open style to 1.2 metres high which provides views to dwellings. Masonry and iron. Fencing associated with the period and style of the dwelling.	
Setting, landscaping, streetscape and public realm features	Substantial well landscaped gardens with front yards that complement the style of the dwelling. Narrow verge with mature street trees. Relative lack of high, solid fencing enables the principal elevation of the homes to be visible from the public realm. Homogenous streetscape of villas. Garages and carports are designed and sited to be subordinate to the main dwelling.	
Representative Buildings	Identified - refer to SA planning database.	

Pr5	Flora Terrace Historic Area Statement (Pr5)		
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.		
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.		
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.		
	Eras, themes and context	Late 19th and early 20th centuries residential. Focus of commemoration of war service, civic activities and important sporting events.	
	Allotments, subdivision and built form patterns	Regular subdivision pattern. Three separate land divisions between 1892 and 1923 - part of the Oxford subdivision of 1892 on south side of the Terrace with, part of St John's Wood South subdivision in 1909 on north side with larger allotments of and part of a 1923 division of the eastern end to the Memorial Gardens. Consistent setbacks. Large and small asymmetrical side setbacks to dwellings.	
	Architectural styles, detailing and built form features	Range of designs with range homogeneity derived from decorative front facades (detailing around windows, doors verandahs & gables), pitched roofs, brick chimneys & front verandahs. Houses display style, form and detail of the relevant periods of historic development - 1892 to the 1920s.	
	Building height	Single storey and large residential scale.	
	Materials	Face stone and brick walls and corrugated iron or terra cotta roofs.	
Fencing	Low open style to 1.2 metres high. Fencing associated with the period and style of the dwelling.		
Setting, landscaping, streetscape and public realm features	Substantial front gardens. Very leafy streetscape. Civic and residential character. Strong visual axis between the Town Hall and the Memorial Gates to Prospect Oval. Garages and carports are designed and sited to be subordinate to the main dwelling.		
Representative Buildings	Identified - refer to SA planning database.		

	Martin Avenue Historic Area Statement (Pr6)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.		
Eras, themes and context	Inter-War residential.	
Allotments, subdivision and built form patterns	Large allotments. Regular generous front setbacks. Large and small asymmetrical side setbacks to dwellings.	

Statement#	Statement	
Pr6	Architectural styles, detailing and built form features	<p>Mix of bungalows, 'gentleman's residence' and Tudor homes.</p> <p>Range of designs with homogeneity derived from decorative front facades, pitched roofs, brick chimneys & front verandahs. Additions to the side and rear of dwellings.</p>
	Building height	Single to two storey and large residential scale. Two storey additions are within the roof space or to rear of buildings.
	Materials	Face stone and brick walls and terracotta tiled roofs, original finishes.
	Fencing	Low open style to 1.2 metres high. Fences comprising low masonry plinth with regularly spaced columns and iron above to a medium height.
	Setting, landscaping, streetscape and public realm features	<p>Large, well landscaped front yards as an extension of a green and leafy streetscape with mature canopy over grassed verges.</p> <p>Street trees and wide grassed verges combine with the generous setbacks to contribute to the spacious appearance of the public realm.</p> <p>Garages and carports are designed and sited to be subordinate to the main dwelling.</p>
	Representative Buildings	Identified - refer to SA planning database.
Pr7	<p>North Ovingham Historic Area Statement (Pr7)</p>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Late 19th Century housing. 1877 - 1879.
	Allotments, subdivision and built form patterns	Small allotments subdivided in 1877 - 1879. Double fronted, narrow, deep allotments between Toronto Street and Cotton Street. Small setbacks from all boundaries with compact spaces between buildings.
	Architectural styles, detailing and built form features	Coherent pattern of small cottages with common features including pitched roofs, brick chimneys & front verandahs. Primarily double fronted cottages with central gable feature and front steps to raised finished floor levels to respond to the falling topography on individual allotments from east to west. Small symmetrically fronted or attached stone houses remain in Toronto Street and larger examples of similar style fronting Churchill Road.
	Building height	Single storey and small residential scale.
Materials	Stone walls and steps facing stone and brick houses and attached cottages with verandahs, corrugated iron roofs.	
Fencing	Low open style to 1.2 metres high associated with the design of the dwelling and allows gardens to spill onto the street.	
Setting, landscaping, streetscape and public realm features	<p>Small front yards and limited space between buildings. Public realm characterised by narrow street and verge and moderate canopy cover from semi-mature street trees. Mature gardens which spill onto the street, pleasant green streetscape. Intimate, small residential pocket.</p> <p>Where present, garages and carports are designed and sited to be subordinate to the main dwelling.</p>	
Representative Buildings	<i>[Not identified]</i>	
Pr8	<p>Prospect Lanes Historic Area Statement (Pr8)</p>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Reflects substantial areas of Prospect that were developed during the turn of the century (1880s to early 1900s) and constructing cottages and villa homes on higher areas overlooking Churchill Road and beyond.
	Allotments, subdivision and built form patterns	Regular subdivision pattern with consistent large frontages and site areas. The series of laneways that link the allotments are distinctive features within the sub division. Regular moderate front setbacks. Large and small asymmetrical side setbacks to dwellings.
Architectural styles, detailing and built form features	Homogeneity derived from front facades with detailing around windows/doors/verandahs & gables, pitched roofs, brick chimneys & front verandahs. Cottages and villa homes on higher areas overlooking Churchill Road and beyond. Housing in the area displays a consistency of character reflecting the styles of domestic architecture at the turn of the century. Houses incorporate concave or bull-nosed verandahs and other typical detail and generally comprise face stone front walls, with brick or rendered quoins, and window and door dressings.	
Building height	Single storey.	
Materials	Stone walls and limited external colour palette with detailing around windows, doors and edges of walls. Corrugated iron roofs.	

Statement#	Statement	
	Fencing	Low open style to 1.2 metres high. Fencing associated with the period and style of the dwelling.
	Setting, landscaping, streetscape and public realm features	Consistent moderate street setbacks. Large and small asymmetrical side setbacks to dwellings. Rear lane access, with primary streets having no access or access which has been designed and located to be subordinate to the main dwelling.
	Representative Buildings	<i>[Not identified]</i>
Pr9	Highbury Historic Area Statement (Pr9)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1882 subdivision. Turn of the century residential development. The area is characterised by primarily detached housing reflecting styles of domestic architecture at the turn of the century.
	Allotments, subdivision and built form patterns	Regular subdivision pattern with consistent large frontages and site areas. Regular moderate front setbacks. Large and small asymmetrical side setbacks to dwellings.
	Architectural styles, detailing and built form features	Homogeneity derived from front facades with detailing around windows/doors/verandahs & gables, pitched roofs, brick chimneys & front verandahs. Characteristic design features such as bull-nosed verandahs, brick quoining, and stone front walls.
	Building height	Single storey and moderate residential scale.
	Materials	Stone walls and limited external colour palette with detailing around windows, doors and edges of walls. Corrugated iron roofs.
Fencing	Low open style to 1.2 metres high, providing visibility to landscaped front yards and dwellings.	
Setting, landscaping, streetscape and public realm features	Well landscaped front yards as an extension of a green leafy streetscape. Garages and carports are designed and sited to be subordinate to the main dwelling.	
Representative Buildings	<i>[Not identified]</i>	
Pr10	Ballville/Gloucester Historic Area Statement (Pr10)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Subdivided in 1878 by Henry Ball. Turn of century residential development. The area is characterised by primarily detached housing reflecting styles of domestic architecture at the turn of the century.
	Allotments, subdivision and built form patterns	Original subdivision with modest allotments with large frontages. Consistent moderate street setbacks. Large and small asymmetrical side setbacks to dwellings.
	Architectural styles, detailing and built form features	Primarily detached housing reflecting styles of domestic architecture at the turn of the century. Homogeneity derived from front facades with detailing around windows/doors/verandahs & gables, pitched roofs, brick chimneys & front verandahs.
	Building height	Single storey and moderate residential scale.
Materials	Stone walls and limited external colour palette with detailing around windows, doors and edges of walls. Corrugated iron roofs.	
Fencing	Low open style to 1.2 metres high. Fencing associated with the period and style of the dwelling.	
Setting, landscaping, streetscape and public realm features	Limited landscaping and dominant built form from small front yards and narrow road verges. Gloucester Street has greener front yards and public realm. St Cuthbert's Anglican Church and its adjacent manse are prominent landmarks.	

Statement#	Statement
	Garages and carports are designed and sited to be subordinate to the main dwelling.
Representative Buildings	[Not identified]

Pr11	Medindie Gardens Historic Area Statement (Pr11)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Inter-War period housing. The area is predominated by bungalows to the east of Corbin Road and Tudor-style houses to the west. The majority of the original dwellings constructed prior to 1930 remain intact, with additions occurring over time either within the roof space or to the rear and side.
	Allotments, subdivision and built form patterns	Regular subdivision pattern of generously sized allotments and wide frontages. Consistent large front and side setbacks. The area retains its original subdivision pattern, with regular sized allotments supporting residential development at a low density.
	Architectural styles, detailing and built form features	Predominantly bungalows to the east of Corbin Road and Tudor-style houses to the west. Homogeneity derived from front facades with detailing around windows/doors/verandahs & gables, pitched roofs, brick chimneys & front verandahs.
	Building height	Single storey and large residential scale. Two storey additions are within the roof space or to rear of buildings.
	Materials	Stone and brick walls and limited external colour palette with detailing (including glazed bricks) around windows, doors and edges of walls and corrugated iron or terra cotta roofs. Consistent use of materials including rock faced stone and masonry, face red brick, terracotta roof tiles or corrugated iron, glazed bricks for trim and other details and materials typical of the housing of the Inter-War Period.
	Fencing	Low open style (to 1.2 metres high). Fencing associated with the period and style of the dwelling.
	Setting, landscaping, streetscape and public realm features	Large well landscaped front yards and tree lined streets above grassed verges. Minimal driveway and hard-surfaced areas. Consistent pattern of prestigious single storey detached dwellings on generous allotments fronting tree-lined street. Spacious and open feel. Garages and carports are designed and sited to be subordinate to the main dwelling.
Representative Buildings	[Not identified]	

Historic Areas affecting Robe		
RO1	Robe Historic Area Statement (Ro1)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	19 th century and early decades of 20 th century. Shipping port, communication and administration township servicing pastoral development of the South East.
	Allotments, subdivision and built form patterns	Topography shapes the setting of Robe and land division pattern. Royal Circus is a low knoll. It is a commemorative landmarks and a distinct road feature. There is a legible connection between Royal Circus, the sea wall / jetty abutment, the Customs House and the Post and Telegraph Office. Main Road, Victoria Street and Mundy Street form the main line of road to the port and the main street. The traditional street grid pattern extends either side of Victoria Street, to the coastal fore-dune and across the ridge to the south which overlooks and forms the backdrop to the township. Most of the original large square allotments have been subdivided but the pattern of historic buildings remains legible.
Architectural styles, detailing and built form features	Traditional stone commercial buildings with shopfronts, parapets and verandahs within the town centre. The variety rather than the consistency of traditional building forms is a distinct characteristic of Robe. Small workers' cottages on large allotments, often with low walls, hipped roofs spanning one or two rooms, casement windows and lime-washed or natural stone walls. Heritage listed community buildings (the primary school, churches and the Institute) are on prominent sites and remain as strong landmarks. Heritage-listed government buildings (the Post and Telegraph Office, Customs House and Court House) dominate Royal Circus. Massive stone chimneys are a characteristic feature of the historic buildings. Stone outbuildings are visible from public streets. Roof pitches between 25-35 degrees. Roofs with a high degree of articulation, steep pitches and small spans, provide a unique roofscape across Robe to Guichen Bay. Older buildings have casement windows. Later buildings have double-hung timber sash windows.	

Statement#	Statement
Building height	Two storey buildings along small section of Smillie Street, and hotels. Their built form combines double and single storey elements and verandahs, articulating their bulk and scale. Adjacent buildings differ in style, creating a varied rather than a consistent skyline. Other historic buildings generally single storey, with small span hipped roofs. Building floor levels are close to, step with or are built into, the slope of the land.
Materials	Local stone, limestone, rendered and bagged masonry with painted or lime wash finish. Painted timber weatherboard, painted timber joinery, trims, verandahs, barges and fascias. Galvanised and painted corrugated iron roofing. Some examples of slate and traditional flat metal roof tiles. Driveway materials are neutral in colour and pattern with natural finishes.
Fencing	Local stone, hardwood palings and pickets, hardwood and woven wire, brush with round hardwood posts and hedges not exceeding 1.2m.
Setting, landscaping, streetscape and public realm features	Views and vistas of the entrance to the town centre along Main Road past Lake Fellmongery and Lake Charra. Views of the foreshore area adjacent Town Beach and streetscapes of historic buildings of Smillie Street and Mundy Terrace. Views across the area illustrate the importance of native vegetation and the distinct character of the roof designs of historic buildings. Historic buildings square to and often close to street alignments, particularly on Smillie Street. Minimal breaks between buildings except where access to the rear of a site is provided. Streets, verges and reserves in the public realm characterised by Lakestone kerbing, limestone cuttings, landmark trees (Norfolk Island Pines in particular) and native vegetation. Important public open space reserves that frame the township at Lannum Reserve, the Institute / Town Beach Foreshore, Royal Circus and the southern edge of Lake Butler. Each has a distinct landscape structure, planting character and historic quality.

Historic Areas affecting Tatiara

Bordertown Historic Area Statement (Tat1)	
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context	1910-1930.
Allotments, subdivision and built form patterns	Traditional grid. Large allotments.
Architectural styles, detailing and built form features	Federation-style houses with asymmetrical plans and multiple decorative gables. California bungalows with veranda pylons and gables extending to the veranda perimeter. Low-pitched roofs.
Building height	Single storey.
Materials	Rock-faced sandstone walls and terracotta tiled roofs.
Fencing	No fencing or open front fencing no more than 1.2m.
Setting, landscaping, streetscape and public realm features	Rural setting. Landscaping surrounding dwellings.
Representative Buildings	Identified - refer to SA planning database.

Historic Areas affecting City of Tea Tree Gully

Tea Tree Gully Township Historic Area Statement (TTG1)	
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context	The village core of Tea Tree Gully. Mid to late 19th Century to early 20th Century.
Allotments, subdivision and built form patterns	Traditional subdivision layout focussed on North East Road as the major approach route to the township in both directions. Allotments are varied in size and shape. Regular moderate front setbacks and small setbacks from side boundaries. Generally consistent siting and space between buildings. Sites address North East Road.
Architectural styles, detailing and built form features	Colonial style flat facades articulated with post-supported verandas. Symmetrical designs with simple footprints. Roof forms are generally hipped or gable roofs with pitches between 30-40 degrees. A mix of buildings including detached dwellings, churches, row shops, a war memorial, former police station, institute building, hotel, former bakehouses, flour mill and winery. Tea Tree Gully museum and former council chambers building as State Heritage Places. Historic homestead relics and a stone retaining wall in Pine Park.

Statement#	Statement	
TTG1	Building Height	Single storey, with the exception of the Old Flour Mill and Tea Tree Gully Museum.
	Materials	A combination of sandstone and bluestone construction with corners and window and door reveals formed with quoin work. Generally, all dwellings include corrugated roofs in galvanised or light to mid-tone greys, green or red. Unpainted stone / brick. Modern dwellings are consistent with the above materials, but also include a combination of raw brick, painted brick and rendered brick in natural, earthy colours. Timber windows.
	Fencing	Low, open fencing forward of the building line to height of 900mm. Associated with the traditional period, style and form of building. Hedges, timber picket, post and rail with woven wire, pailing or railing, stone, rendered brick or block.
	Setting, landscaping, streetscape and public realm features	<p>Undulating and natural setting with minimal cut and fill, and extensive planting and landscaping.</p> <p>The Township provides for a visual transition between the rural landscape of the hills to the east and the suburban plains to the west.</p> <p>Angove's tower and cellar are recognised as landmark buildings and are important elements of the western gateway, including vistas of the tower.</p> <p>The North East Road entrance to Anstey Hill Recreation Park is also an important gateway and features historic building relics that line the entrance walk inside the park.</p> <p>The communal focal point is Haines Memorial Park, which features a European landscape theme surrounded by native street tree planting which illustrates the history of European settlement. Views to and from Haines Memorial park.</p> <p>Strong landscape setting dominated by undulating topography. Significant stands of native trees and intensively landscaped watercourse of Tea Tree Creek</p> <p>Discreet, low scale advertising comprising typefaces, colours, sizes and forms associated with the clear and simple styles used on the 19th and early 20th centuries, generally not illuminated.</p>
	Representative Buildings	Identified - refer to SA planning database.

Historic Areas affecting City of Unley

Un1	<p>Centres Conservation - Goodwood, King William and Fullarton Roads Historic Area Statement (Un1)</p>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1880 to 1940's built development.
	Allotments, subdivision and built form patterns	<p>Goodwood Road - prominent original imposing buildings, homogeneous historic nature and intrinsic features formed by the close-knit development to the street alignment, open balconies and verandahs extending over the footpath.</p> <p>King William Road - early era buildings and quaint unique close-knit character formed by the parade of buildings of narrow fronted shops to the street alignment, with simple continuous series of ornate parapet facades and verandahs over the footpath and some open balconies above.</p> <p>Fullarton Road - significant and early era residential forms of buildings with appropriate setbacks, low-key commercial uses adaptation and substantial landscaped frontages north of Cheltenham Street and small scale simple straight facade shopfronts to south.</p> <p>Prevailing and coherent rhythm of building siting, street setbacks, side boundary setbacks and spacing between buildings and garden landscape setting.</p>
	Architectural styles, detailing and built form features	Victorian. Turn-of-Century. Inter-War. Complementary main street shopfronts, parapet walls and verandahs over footpaths and residential forms.
	Building height	Maximum two storey street presentation.
Fencing	Fencing forward of the front façade of the building on Fullarton Road, of a form associated with the building and generally of low masonry pier and plinth, cast iron, brush, timber or similar nature.	
Setting, landscaping, streetscape and public realm features	<p>Limited street trees, except Fullarton Road with dominant, well-established street trees.</p> <p>Goodwood Road - early commercial centre from the late nineteenth century comprising large imposing buildings, including landmark two-storey State Heritage Place, two-storey Local Heritage Place and Church buildings, and smaller narrow fronted premises.</p> <p>King William Road - early commercial centre from the late nineteenth century comprising some larger buildings and primarily small narrow fronted premises.</p> <p>Fullarton Road - residential buildings, some converted to community and commercial uses, and low-key, well landscaped gardens and State Heritage significant mansion 'Hughes Estate'.</p>	
Representative Buildings	Identified - refer to SA planning database.

Verandahs in the order of 2.1 metre fascia height and 3.0 metre pitching height. Consistent and recognisable pattern of traditional building proportions including wall heights and widths of facades, and roof height, volumes and shapes associated with the identified architectural styles.		Materials	Sandstone. Bluestone. Timber joinery including window frames, door frames, doors, fascias, bargeboards and verandah posts. Brick quoins, occasionally rendered, around windows and doors. Brick or rendered string courses and plinths. Rendered masonry. Corrugated iron roof cladding. Tiled roof cladding on some post 1900s buildings.		Fencing	Typical of the historic character of the area, street and architectural style and materials of the associated building. Where forward of the front façade of the principle building, low in height, typically less than 1.0 metre but up to 1.2 metres. Larger sites and of more than 16 metres street frontage may include vertical elements up to 1.8 metres in total height. Open, see-through and maintaining an open streetscape presence of the associated building, including typical styles comprising: Timber picket, dowel or paling with top rail; Corrugated iron or mini orb or steel strap panels within timber framing and posts; Woven crimped wire, wire mesh on timber or galvanised steel tube framing; Simple masonry plinth (500mm) and widely spaced minimum numbers of piers with decorative see-through iron palisade or steel bar inserts; Stone, brick and/or stucco masonry low in height with wrought iron or steel bar inserts (typically geometric pattern); hedges, with or without fencing.		Setting, landscaping, streetscape and public realm features	Compact streetscape character. Simple grid of short and narrow streets. Narrow verges. Modest street trees.		Representative Buildings	<i>[Not identified]</i>	
Eras, themes and context	1880 to 1930 built development.																									
Allotments, subdivision and built form patterns	Simple grid layout pattern of roads, with longitudinal axis perpendicular to narrow roads. Regular large allotments and site frontages. Prevailing and coherent rhythm of building siting, street setbacks, side boundary setbacks, spacing between buildings and garden landscape setting.																									
Architectural styles, detailing and built form features	Victorian and Turn-of-the-Century double-fronted, single-fronted as well as attached cottages. Victorian and Turn-of-the-Century symmetrical and asymmetrical villas. Inter-War Bungalows. Hipped and gable roof forms, chimneys, open verandahs, feature ornamentation (plasterwork, ironwork and timberwork), lattice work and associated front fences. Carports, garages and side additions are separate and recessed from the main building and façade, and are a minor, unobtrusive presence in the streetscape.																									
Building height	Wall Height in the order of 3.5 metres. Total Roof Height in the order of 5.7 metres; and Roof Pitch in the order of 27 degrees and 35 degrees. Verandahs in the order of 2.1 metre fascia height and 3.0 metre pitching height. Consistent and recognisable pattern of traditional building proportions including wall heights and widths of facades, and roof height, volumes and shapes associated with the identified architectural styles.

Residential Compact Parkside North Historic Area Statement (Un6)		
The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.		
These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.		
The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.		
Eras, themes and context		1880 to 1930 built development.
Allotments, subdivision and built form patterns		Simple grid layout pattern of roads, with longitudinal axis perpendicular to narrow roads. Regular modest allotments and wide site frontages. Prevailing and coherent rhythm of building siting, street setbacks, side boundary setbacks, spacing between buildings and garden landscape setting.
Architectural styles, detailing and built form features		Victorian and Turn-of-the-Century double-fronted, single-fronted as well as attached cottages. Victorian and Turn-of-the-Century symmetrical and asymmetrical villas. Inter-War Bungalows. Hipped and gable roof forms, chimneys, open verandahs, feature ornamentation (plasterwork, ironwork and timberwork), lattice work and associated front fences. Carports, garages and side additions are separate and recessed from the main building and façade, and are a minor, unobtrusive presence in the streetscape.
Building height		Wall Height in the order of 3.5 metres, total Roof Height in the order of 5.7 metres; and Roof Pitch in the order of 27 degrees and 35 degrees. Verandahs in the order of 2.1 metre fascia height and 3.0 metre pitching height. Consistent and recognisable pattern of traditional building proportions including wall heights and widths of facades, and roof height, volumes and shapes associated with the identified architectural styles.
Materials		Sandstone. Bluestone. Timber joinery including window frames, door frames, doors, fascias, bargeboards and verandah posts. Brick quoins, occasionally rendered, around windows and doors. Brick or rendered string courses and plinths. Rendered masonry. Corrugated iron roof cladding. Tiled roof cladding on some post 1900s buildings.
Fencing		Typical of the historic character of the area, street and architectural style and materials of the associated building. Where forward of the front façade of the principle building, low in height, typically less than 1.0 metre but up to 1.2 metres. Un11	Residential Spacious Millswood Page Estate Historic Area Statement (Un11)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1900 to 1930's built development.
	Allotments, subdivision and built form patterns	<p>Basic grid street layout around the central recreation feature of Goodwood Oval, but with long curvilinear and some truncated streets around the bisecting train lines previously laid in the 1870's. Spacious streetscape character of long, short and curved, wide, tree-lined streets.</p> <p>Generous allotments and site frontages. Prevailing and coherent rhythm of building siting, street setbacks, side boundary setbacks, spacing between buildings and garden landscape setting.</p>
	Architectural styles, detailing and built form features	<p>Victorian and Turn-of-the-Century villa styles. Primarily distinctive Inter-War period bungalows, art deco, Tudor and complementary later styles. Hipped and gable roof forms, roof louvres, chimneys, open bullnose, concave or straight-pitch verandahs, feature ornamentation (plasterwork and ironwork), lattice work and associated front fences. Carports, garages and side additions are separate and recessed from the main building and façade, and are a minor, unobtrusive presence in the streetscape.</p>
	Building height	<p>Wall Height in the order of 3.6 metres. Total Roof Height in the order of 5.6 metres; and Roof Pitch in the order of 27 degrees and 35 degrees.- Verandahs, on earlier styles in the order of 2.1 metre fascia height and 3.0 metre pitching height, and on later styles incorporated as part of principle building main roof extension.</p>
	Materials	<p>Sandstone. Bluestone. Brick, including glazed brick, and stucco painted finishes. Rendered masonry. Timber joinery including window frames, door frames, doors, fascias, barges and verandah posts. Brick quoins, occasionally rendered, around windows and doors. Corrugated Iron roof cladding. Tiled roof cladding on later style buildings.</p>
	Fencing	<p>Typical of the historic character of the area, street and architectural style and materials of the associated building. Where forward of the front façade of the principle building, low in height, typically less than 1.0 metre but up to 1.2 metres. Larger sites and of more than 16 metres street frontage may include vertical elements up to 1.8 metres in total height. Open, see-through and maintaining an open streetscape presence of the associated building, including typical styles comprising: Timber picket, dowel or paling with top rail; Corrugated iron or mini orb or steel strap panels within timber framing and posts; Woven crimped wire, wire mesh on timber or galvanised steel tube framing; Simple masonry plinth (500mm) and widely spaced minimum numbers of piers with decorative see-through iron palisade or steel bar inserts; Stone, brick and/or stucco masonry low in height with wrought iron or steel bar inserts (typically geometric pattern); hedges, with or without fencing.</p>
	Setting, landscaping, streetscape and public realm features	<p>Spacious streetscape character. Simple grid of long, short and curved, wide, tree-lined streets. Large front gardens. Wide verges. Large street trees.</p>

Un13	Residential Spacious Unley and Malvern Trimmer Estate Historic Area Statement (Un13)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1880 to 1920 built development.
	Allotments, subdivision and built form patterns	Spacious streetscape character of regular grid layout (with axial views focussed on the central oval feature) of wide, tree-lined streets. Generous allotments and site frontages. Prevailing and coherent rhythm of building siting, street setbacks, side boundary setbacks, spacing between buildings and garden landscape setting.
	Architectural styles, detailing and built form features	Victorian and Turn-of-the-Century villas (asymmetrical and symmetrical), double-fronted cottages and limited complementary, Inter-war era, styles. More affluent, original owners developed some larger, amalgamated allotments in the southern areas of Malvern establishing grander residences and gardens. Hipped and gable roof forms, roof louvres, chimneys, open bullnose, concave or straight-pitch verandahs, feature ornamentation (plasterwork and ironwork), lattice work and associated front fences. Carports, garages and side additions are separate and recessed from the main building and façade, and are a minor, unobtrusive presence in the streetscape.
	Building height	Wall Height in the order of 3.6 metres. Total Roof Height in the order of 5.6 metres; and Roof Pitch in the order of 27 degrees and 35 degrees. Verandahs, on earlier styles in the order of 2.1 metre fascia height and 3.0 metre pitching height, and on later styles incorporated as part of principle building main roof extension.
Materials	Sandstone. Bluestone. Timber joinery including window frames, door frames, doors, fascias, bargeboards and verandah posts. Brick quoins, occasionally rendered, around windows and doors. Brick or rendered string courses and plinths. Corrugated iron roof cladding. Tiled roof cladding on some post 1900s buildings.	
Fencing	Typical of the historic character of the area, street and architectural style and materials of the associated building. Where forward of the front façade of the principle building, low in height, typically less than 1.0 metre but up to 1.2 metres. Larger sites and of more than 16 metres street frontage may include vertical elements up to 1.8 metres in total height. Open, see-through and maintaining an open streetscape presence of the associated building, including typical styles comprising: Timber picket, dowel or paling with top rail; Corrugated iron or mini orb or steel strap panels within timber framing and posts; Woven crimped wire, wire mesh on timber or galvanised steel tube framing; Simple masonry plinth (500mm) and widely spaced minimum numbers of piers with decorative see-through iron palisade or steel bar inserts; Stone, brick and/or stucco masonry low in height with wrought iron or steel bar inserts (typically geometric pattern); hedges, with or without fencing.	
Setting, landscaping, streetscape and public realm features	Spacious streetscape character. Regular grid layout of wide tree-lined streets, with axial views along wide, tree-lined Cambridge Terrace and Oxford Street focussed on the central Unley Oval feature. Large front gardens. Wide verges. Large street trees.
