

Adelaide Hills Productivity and Road Safety Package. Kangarilla Road, Safety Upgrade.

Project update

We are delivering the Adelaide Hills Productivity and Road Safety Package to upgrade key strategic arterial roads in the region

The \$150 million initiative is jointly funded by the Australian Government (80%) and South Australian Government (20%) over five years.

Major construction and important productivity and road safety upgrades are now complete on Kangarilla Road between Clarendon and Kangarilla.

The completed works included:

- Installation of new road surface.
- Installation of new safety barriers.
- New pavement marking.
- Road widening works.
- New signage.
- Culvert extensions to improve drainage.

We are delivering improved and safer roads across the Adelaide Hills

Road and curve widening will ensure road safe manoeuvres for drivers

Some minor finishing works will be completed by late November 2026 (weather permitting), with speed restrictions in place when required.

We would like to thank the community for their patience and understanding while we completed these important productivity and road safety upgrades.
