

Grand Junction, Hampstead and Briens Road Intersection Upgrade

Construction Update

The Department for Infrastructure and Transport (the Department) is upgrading the intersection of Grand Junction, Hampstead and Briens Road to improve travel times, connectivity, capacity and safety for all users. The \$19 million project is jointly funded (50:50) by the South Australian and Australian governments.

As part of the project, the Department has undertaken property demolition and some services relocations, including APA Gas works, SA Power Networks 66kV & 11kV infrastructure, and telecommunications infrastructure.

Major construction works will commence **Monday, 12 April 2021** with the installation of new drainage, excavation, concrete works, and relocation of remaining underground services. Removal of existing stobie poles and street lighting will also commence and be replaced with temporary lighting towers until the new street lighting is installed. Further updates will be provided as the works progress.

Project completion is expected in early 2022, weather permitting.

Time of Works

The majority of the works will be undertaken **Monday to Saturday, between 7am and 6pm**.

Speed restrictions will be in place during the works, with lane restrictions to be implemented as required to ensure the safety of workers and road users.

Night works will be required on several occasions during major construction, and are expected to commence in May 2021. Advance notice of the night works will be provided as works progress.

Please take extra care when workers are on site. Observe speed limits, lane restrictions, and traffic controllers when travelling through the area.

Access for properties will be maintained throughout the works, and every effort will be made to minimise impacts to surrounding properties and road users as much as practically possible. Where works will restrict property access, the project team will contact affected property owners.

Pedestrians and cyclists are advised to take care when travelling through the area. For safety reasons there may be a need to restrict some access. Where required, signage will be in place to direct pedestrians and cyclists to alternative access and/or detours.

**BUILDING
WHAT MATTERS**

Public transport services will remain operational however, bus stops may require temporary relocation. Advance notice of any temporary changes will be provided at the bus stops and on the Adelaide Metro website www.adelaidemetro.com.au.

The Department appreciates your patience and cooperation whilst these important works are undertaken.
