Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m ² (b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

A class of development listed in Column A is excluded from notification provided that it does not fall within a corresponding exclusion prescribed in Column B. In instances where development falls within multiple classes within Column A, each clause is to be read independently such that if a development is excluded from notification by any clause, it is, for the purposes of notification excluded irrespective of any other clause.

Class of Development (Column A)	Exceptions (Column B)
1. A kind of development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. All development undertaken by: (a) the South Australian Housing Trust either individually or jointly with other persons or bodies or (b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust.	Except development involving any of the following: 1. residential flat building(s) of 3 storeys or greater 2. the demolition of a State or Local Heritage Place 3. the demolition of a building (except an ancillary building) in a Historic Area Overlay.
3. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) ancillary accommodation (c) building work on railway land (d) carport (e) deck (f) dwelling	Except development that: 1. exceeds the maximum building height specified in Urban Renewal Neighbourhood Zone DTS/DPF 2.1 or 2. involves a building wall (or structure) that is proposed to be situated on a side boundary (not being a boundary with a primary street or secondary street) and: (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the

<ul style="list-style-type: none"> (g) dwelling addition (h) fence (i) outbuilding (j) pergola (k) private bushfire shelter (l) residential flat building (m) retaining wall (n) retirement facility (o) shade sail (p) solar photovoltaic panels (roof mounted) (q) student accommodation (r) supported accommodation (s) swimming pool or spa pool (t) verandah (u) water tank. 	<p>proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or</p> <p>(b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).</p>
<p>4. Alteration of or addition to any of the following (or of any combination of any of the following):</p> <ul style="list-style-type: none"> (a) community facility (b) educational establishment (c) pre-school. 	<p>Except development that does not satisfy Urban Renewal Neighbourhood Zone DTS/DPF 1.6.</p>
<p>5. Any development involving any of the following (or of any combination of any of the following):</p> <ul style="list-style-type: none"> (a) consulting room (b) office (c) shop. 	<p>Except development that:</p> <ol style="list-style-type: none"> 1. exceeds the maximum building height specified in Urban Renewal Neighbourhood Zone DTS/DPF 2.1 or 2. does not satisfy Urban Renewal Neighbourhood Zone DTS/DPF 1.2 or 3. involves a building wall (or structure) that is proposed to be situated on a side boundary (not being a boundary with a primary street or secondary street) and: <ul style="list-style-type: none"> (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
<p>6. Any development involving any of the following (or of any combination of any of the following):</p> <ul style="list-style-type: none"> (a) internal building works (b) land division (c) recreation area (d) replacement building (e) temporary accommodation in an area affected by bushfire (f) tree damaging activity. 	<p>None specified.</p>
<p>7. Demolition.</p>	<p>Except any of the following:</p> <ol style="list-style-type: none"> 1. the demolition of a State or Local Heritage Place 2. the demolition of a building (except an ancillary building) in a Historic Area Overlay.

Mixed Use Transition Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome

DO 1

Development accommodating a range of business, commercial, warehousing and light industrial uses enabling the transition of the area to mixed use development, compatible with residential development. 4086

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
<p>PO 1.1</p> <p>Redevelopment and transition of the area towards mixed development including, residential, supported by a mix of compatible uses including light industry, service trade, motor repair and other compatible businesses servicing the local community that do not produce objectionable emissions.</p>	<p>DTS/DPF 1.1</p> <p>Development comprises one or more of the following:</p> <ul style="list-style-type: none"> (a) Dwelling (b) Entertainment venue (c) Licenced premises (d) Hotel (e) Consulting room (f) Indoor recreation facility (g) Light industry (h) Motor repair station (i) Office (j) Place of worship (k) Research facility (l) Retail fuel outlet (m) Service trade premises (n) Shop (o) Store (p) Tourist accommodation (q) Training facility
<p>PO 1.2</p> <p>Non-residential development involving the expansion, alteration or replacement of an existing industry or activity adjacent to a sensitive receiver or zone, and where current adverse impacts exist, only occur where adverse impacts are minimised in accordance the with <i>Environment Protection Act 1993</i> requirements.</p>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
<p>PO 1.3</p> <p>Residential development and other sensitive development only occur where adverse impacts from nearby industries and activities are minimised in accordance with the <i>Environment Protection Act 1993</i> requirements.</p>	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>
<p>PO 1.4</p> <p>Shops, other than bulky goods outlets, provide a local convenience service to meet the day to day needs of the local community and surrounding businesses as well as support the sale of products made on-site as a supplement to a business activity to enhance local job opportunities.</p>	<p>DTS/DPF 1.4</p> <p>Shop comprising any of the following:</p> <ul style="list-style-type: none"> (a) shop with a gross leasable floor area up to 500m² (b) shop in the form of a bulky goods outlet (c) shop that is ancillary to and located on the same allotment as a light industry.
Land Division	
<p>PO 2.1</p> <p>Sensitive uses and sensitive receivers are:</p> <ul style="list-style-type: none"> (a) located away from areas which may be subject to unacceptable noise, dust, odour or other emissions <p>or</p> <ul style="list-style-type: none"> (b) able to adequately mitigate impacts of noise, dust, odour or other emissions through design techniques such as: <ul style="list-style-type: none"> (i) locating residential accommodation, the greatest distance practicable from the industry (ii) locating buildings containing less non-sensitive receivers between the industry and sensitive receivers (iii) placing rooms more sensitive to air, noise and odour impacts (e.g. bedrooms) further away from the industry <p>or</p> <ul style="list-style-type: none"> (iv) providing private or common open space adjacent a building facade that shields the space from impacts of the industry. 	<p>DTS/DPF 2.1</p> <p>Development does not incorporate any of the following (including alterations and additions which increase the floor area of buildings accommodating the following by 10% or more):</p> <ul style="list-style-type: none"> (a) land division creating one or more additional allotments for residential purposes (b) dwelling (c) residential flat building (d) tourist accommodation (e) boarding home (f) dormitory style accommodation (g) Workers' accommodation (h) student accommodation (i) pre-school (j) educational establishment (k) retirement village (l) supported accommodation (m) residential park (n) hospital.

Landscape Transition Subzone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome

DO 1	Development in an open landscaped setting.
------	--

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Built Form and Siting	
PO 1.1 Building footprints consistent with the character and pattern of the prevailing open landscaped character of the neighbourhood.	DTS/DPF 1.1 The development does not result in a site coverage exceeding 50%.
PO 1.2 Development incorporates deep soil zones for the retention or provision of large trees to contribute to a well landscaped setting.	DTS/DPF 1.2 At least 15% of a site incorporates deep soil zone areas.
Site Dimensions and Land Division	
PO 2.1 Allotments/sites created for residential purposes primarily accommodating medium density residential development, with lower density at the interface with a different neighbourhood zone.	DTS/DPF 2.1 Allotments/sites for residential purposes accord with the following: (a) Site areas (or allotment areas in the case of land division) are not less than: (i) 180m ² , or 100m ² on an allotment >2000m ² , for a dwelling (ii) 120m ² , or 80m ² on an allotment >2000m ² , for each dwelling in a residential flat building (iii) 300m ² for a dwelling (including in a residential flat building) in areas where the Maximum Building Height (Levels) Technical and Numeric Variation specifies a maximum building height of 2 levels. (b) Site frontages (or allotment frontage in the case of land division) are not less than: (i) 8m for a dwelling (ii) 20m for a residential flat building

Waterfront Neighbourhood Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome

DO 1	A diverse range of housing which takes advantage of waterfront locations. Development enhances public access to waterfront areas. Dual aspect allotments incorporate designs to enhance the streetscape.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Residential development and supporting services and facilities make waterfront neighbourhoods a convenient place to live.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Ancillary accommodation (b) Community facility (c) Dwelling (d) Educational establishment (e) Jetty, pontoon or boat berth (or any combination thereof) (f) Marina (g) Office (h) Place of Worship (i) Pre-school (j) Recreation area (k) Residential flat building (l) Retirement facility (m) Shop (n) Supported accommodation (o) Tourist accommodation
PO 1.2 Marinas include constructed waterways, mooring facilities, pontoons and small jetties to accommodate recreational activities and mooring of small boats associated with residential allotments.	DTS/DPF 1.2 None are applicable.
PO 1.3 Non-residential development located and designed to improve community accessibility to services, primarily in the form of:	DTS/DPF 1.3 None are applicable.

<ul style="list-style-type: none"> (a) small-scale commercial uses such as offices, consulting rooms and shops (b) community services such as educational establishments, community centres, places of worship, pre-schools, and other health and welfare services (c) services and facilities ancillary to the function or operation of supported accommodation or retirement facilities (d) open space and recreation facilities. 					
<p>PO 1.4</p> <p>Non-residential development is compatible with the waterfront character and amenity of a neighbourhood.</p>	<p>DTS/DPF 1.4</p> <p>None are applicable.</p>				
<p>PO 1.5</p> <p>Commercial activities improve community access to services and activate waterfront areas of a scale and type to maintain residential amenity.</p>	<p>DTS/DPF 1.5</p> <p>A shop, consulting room or office (or any combination thereof) satisfies any one of the following:</p> <ul style="list-style-type: none"> (a) it is located on the same allotment and in conjunction with a dwelling, and all the following are satisfied: <ul style="list-style-type: none"> (i) does not exceed 50m² gross leasable floor area (ii) does not involve the display of goods in a window or about the dwelling or its curtilage (b) it reinstates a former shop, consulting room or office in an existing building (or portion of a building) and at least one of the following is satisfied: <ul style="list-style-type: none"> (i) the building is a State or Local Heritage Place (ii) is in conjunction with a dwelling and there is no increase in the gross leasable floor area previously used for non-residential purposes (c) it is located more than 500m from an Activity Centre and satisfies one of the following: <ul style="list-style-type: none"> (i) does not exceed 100m² gross leasable floor area (individually or combined, in a single building) where the site does not have a frontage to a State Maintained Road (ii) does not exceed 200m² gross leasable floor area (individually or combined, in a single building) where the site has a frontage to a State Maintained Road (d) the development site abuts an Activity Centre and all the following are satisfied: <ul style="list-style-type: none"> (i) it does not exceed 200m² gross leasable floor area (in a single building) (ii) the proposed development will not result in the combined gross leasable floor area of all buildings used as a shop, office or consulting room (existing and proposed) or an combination thereof abutting the Activity Centre in this zone exceeding the lesser of the following: <ul style="list-style-type: none"> A. 50% of the gross leasable floor area within the Activity Centre B. 1000m². (e) the development is located within the ground level of a mixed use building with frontage to a waterfront or coastal reserve and does not exceed 250m² gross leasable floor area. 				
<p>PO 1.6</p> <p>Expansion of existing community services such as educational establishments, community facilities and pre-schools in a manner which complements the scale of development envisaged by the desired outcome for the neighbourhood.</p>	<p>DTS/DPF 1.6</p> <p>Alteration of or addition to existing educational establishments, community facilities or pre-schools where:</p> <ul style="list-style-type: none"> (a) set back at least 3m from any boundary shared with a residential land use (b) building height not exceeding 1 building level (c) the total floor area of the building not exceeding 150% of the total floor area prior to the addition/alteration (d) off-street vehicular parking exists or will be provided in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number. 				
<p>Site Dimensions and Land Division</p>					
<p>PO 2.1</p> <p>Allotments/sites created for residential purposes are of suitable size and dimension to accommodate the anticipated dwelling form and remain compatible with the pattern of development in a waterfront neighbourhood.</p>	<p>DTS/DPF 2.1</p> <p>Development will not result in more than 1 dwelling on an existing allotment</p> <p>or</p> <p>Allotments/sites for residential purposes accord with the following:</p> <ul style="list-style-type: none"> (a) site areas (or allotment areas in the case of land division) are not less than the following (average site area per dwelling, including common areas, applies for group dwellings or dwellings within a residential flat building): <table border="1" data-bbox="805 1998 1551 2195"> <thead> <tr> <th style="text-align: center;">Minimum Site Area</th> </tr> </thead> <tbody> <tr> <td>Minimum site area for a detached dwelling is 250 sqm; semi-detached dwelling is 250 sqm; row dwelling is 200 sqm; group dwelling is 200 sqm; residential flat building is 200 sqm</td> </tr> <tr> <td>Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 200 sqm; row dwelling is 180 sqm; group dwelling is 200 sqm; residential flat building is 150 sqm</td> </tr> <tr> <td>Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 220 sqm; row dwelling is 180 sqm; group dwelling is 275 sqm; residential flat building is 200 sqm</td> </tr> </tbody> </table>	Minimum Site Area	Minimum site area for a detached dwelling is 250 sqm; semi-detached dwelling is 250 sqm; row dwelling is 200 sqm; group dwelling is 200 sqm; residential flat building is 200 sqm	Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 200 sqm; row dwelling is 180 sqm; group dwelling is 200 sqm; residential flat building is 150 sqm	Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 220 sqm; row dwelling is 180 sqm; group dwelling is 275 sqm; residential flat building is 200 sqm
Minimum Site Area					
Minimum site area for a detached dwelling is 250 sqm; semi-detached dwelling is 250 sqm; row dwelling is 200 sqm; group dwelling is 200 sqm; residential flat building is 200 sqm					
Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 200 sqm; row dwelling is 180 sqm; group dwelling is 200 sqm; residential flat building is 150 sqm					
Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 220 sqm; row dwelling is 180 sqm; group dwelling is 275 sqm; residential flat building is 200 sqm					

	<p style="text-align: center;">Minimum Site Area</p> <p>Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 250 sqm; row dwelling is 200 sqm; group dwelling is 200 sqm; residential flat building is 200 sqm</p> <p>Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 300 sqm; row dwelling is 200 sqm; group dwelling is 300 sqm</p> <p>Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 300 sqm; row dwelling is 300 sqm; group dwelling is 300 sqm; residential flat building is 300 sqm</p> <p>Minimum site area for a detached dwelling is 350 sqm; semi-detached dwelling is 250 sqm; row dwelling is 180 sqm; group dwelling is 250 sqm; residential flat building is 180 sqm</p> <p>Minimum site area for a detached dwelling is 350 sqm; semi-detached dwelling is 350 sqm; row dwelling is 350 sqm; group dwelling is 350 sqm; residential flat building is 350 sqm</p> <p>Minimum site area for a detached dwelling is 390 sqm; semi-detached dwelling is 270 sqm; row dwelling is 200 sqm; group dwelling is 275 sqm; residential flat building is 250 sqm</p> <p>Minimum site area for a detached dwelling is 450 sqm; semi-detached dwelling is 350 sqm; row dwelling is 300 sqm; group dwelling is 400 sqm; residential flat building is 300 sqm</p> <p>Minimum site area is 2,000 sqm</p> <p>Minimum site area is 2 ha</p> <p>(b) site frontages (or allotment frontages in the case of land division) are not less than:</p> <p style="text-align: center;">Minimum Frontage</p> <p>Minimum frontage for a detached dwelling is 10m; semi-detached dwelling is 10m; row dwelling is 10m; group dwelling is 18m; residential flat building is 18m</p> <p>Minimum frontage for a detached dwelling is 12m; semi-detached dwelling is 9m; row dwelling is 7m; group dwelling is 18m; residential flat building is 18m</p> <p>Minimum frontage for a detached dwelling is 15m; semi-detached dwelling is 9m; row dwelling is 8m; group dwelling is 20m; residential flat building is 20m</p> <p>Minimum frontage for a detached dwelling is 4m; semi-detached dwelling is 4m; row dwelling is 4m; group dwelling is 4m; residential flat building is 6m</p> <p>Minimum frontage for a detached dwelling is 5m; semi-detached dwelling is 5m; row dwelling is 5m; group dwelling is 5m; residential flat building is 5m</p> <p>Minimum frontage for a detached dwelling is 8m; semi-detached dwelling is 8m; row dwelling is 7m; group dwelling is 16m; residential flat building is 16m</p> <p>Minimum frontage for a detached dwelling is 8m; semi-detached dwelling is 8m; row dwelling is 8m; group dwelling is 16m; residential flat building is 16m</p> <p>Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 8m; row dwelling is 7m; group dwelling is 15m; residential flat building is 15m</p> <p>Minimum frontage for a detached dwelling is 9m; semi-detached dwelling is 9m; row dwelling is 7m; group dwelling is 15m</p> <p>Minimum frontage is 25m</p> <p>In relation to DTS/DPF 2.1, in instances where:</p> <p>(c) more than one value is returned in the same field, refer to the <i>Minimum Frontage Technical and Numeric Variation layer</i> or <i>Minimum Site Area Technical and Numeric Variation layer</i> in the SA planning database to determine the applicable value relevant to the site of the proposed development</p> <p>(d) no value is returned in (a) or (b) (i.e. there is a blank field or relevant dwelling type is not listed), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy.</p>
<p>PO 2.2</p> <p>Development creating new allotments/sites in conjunction with retention of an existing dwelling ensures the site of the existing dwelling remains fit for purpose.</p>	<p>DTS/DPF 2.2</p> <p>Where the site of a dwelling does not comprise an entire allotment:</p> <p>(a) The balance of the allotment accords with site area and frontage requirements specified in DTS/DPF 2.1</p> <p>(b) If there is an existing dwelling on the allotment that will remain on the allotment after completion of the development, it will not contravene:</p> <p>(i) Private open space requirements specified in Design in Urban Areas Table 1 - Private Open Space</p> <p>(ii) Car parking requirements specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.</p>
Site Coverage	
<p>PO 3.1</p> <p>Building footprints consistent with the character of a waterfront neighbourhood and limited to:</p> <p>(a) allow sufficient space around buildings to limit visual impact</p> <p>(b) provide an attractive outlook</p> <p>(c) provide access to light and ventilation</p> <p>(d) on sites with a dual frontage, to maximise use of available land.</p>	<p>DTS/DPF 3.1</p> <p>The development does not result in site coverage exceeding:</p> <p>(a) on sites 300m² or less and with a dual frontage to the waterfront and a public street, 80%.</p> <p>(b) in all other cases, 60%.</p>
Building Height	
<p>PO 4.1</p> <p>Building height is consistent with the form expressed in any relevant Maximum Building Height Levels Technical and Numeric Variation and Maximum Building Height Metres Technical and</p>	<p>DTS/DPF 4.1</p> <p>Building height (excluding garages, carports and outbuildings) is no greater than: 4090</p>

Numeric Variation, and is otherwise generally low rise, or complements the height of nearby buildings.

(a) the following:

Maximum Building Height (Metres)
Maximum building height is 8m
Maximum building height is 8.5m
Maximum building height is 9m
Maximum building height is 12m
Maximum building height is 7.5m
Maximum building height is 10.5m
Maximum Building Height (Levels)
Maximum building height is 2 levels
Maximum building height is 3 levels

(b) in all other cases (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)) - 2 building levels up to a height of 9m.

In relation to DTS/DPF 4.1, in instances where:

(c) more than one value is returned in the same field, refer to the *Maximum Building Height (Levels) Technical and Numeric Variation layer* and *Maximum Building Height (Metres) Technical and Numeric Variation layer* in the SA planning database to determine the applicable value relevant to the site of the proposed development

(d) only one value is returned for DTS/DPF 4.1(a) (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other.

Primary Street Setback

PO 5.1
Buildings are setback from primary street boundaries to contribute to the existing/emerging pattern of street setbacks in the streetscape and the waterfront environment.

DTS/DPF 5.1
Other than development on allotments/sites with dual frontage to both a waterfront and a public road, the building line of buildings set back from the primary street boundary:

- (a) at least the average setback to the building line of existing buildings on adjoining sites which face the same primary street (including those buildings that would adjoin the site if not separated by a public road or a vacant allotment)
- (b) where there is only one existing building on adjoining sites which face the same primary street (including those that would adjoin if not separated by a public road or a vacant allotment), not less than the setback to the building line of that building or
- (c) not less than 5m where no building exists on an adjoining site with the same primary street frontage.

Secondary Street Setback

PO 6.1
Buildings are set back from secondary street boundaries to achieve separation between building walls and public streets and contribute to a suburban streetscape character.

DTS/DPF 6.1
Building walls are set back from the boundary of the allotment with a secondary street frontage at least:

- (a) at least 900mm

or

- (b) if a dwelling on any adjoining allotment is closer to the secondary street than 900mm, at least the distance of that dwelling from the boundary with the secondary street

whichever is less.

Boundary Walls

PO 7.1
Dwelling boundary walls are limited in height and length to manage visual and overshadowing impacts on adjoining properties.

DTS/DPF 7.1
Except where the dwelling is located on a central site within a row dwelling or terrace arrangement, side boundary walls occur only on one side boundary and satisfy (a) or (b):

- (a) side boundary walls adjoin or abut a boundary wall of a building on adjoining land for the same, or lesser length and height
- (b) side boundary walls do not:
 - (i) exceed 3m in height from the top of footings
 - (ii) exceed 11.5m in length
 - (iii) when combined with other walls on the boundary of the subject development site, exceed a maximum 45% of the length of the boundary
 - (iv) encroach within 3 metres of any other existing or proposed boundary walls on the subject land.

PO 7.2
Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings consistent with a suburban streetscape character.

DTS/DPF 7.2
Dwelling walls in a semi-detached, row or terrace arrangement are setback at least 900mm from side boundaries shared with allotments outside the development site.

Side boundary setback

PO 8.1
Building walls are set back from side boundaries to provide:

DTS/DPF 8.1
Other than walls located on a side boundary, building walls are set back from side boundaries:

<p>(a) separation between dwellings in a way that contributes to a suburban character</p> <p>and</p> <p>(b) access to natural light and ventilation for neighbours.</p>	<p>(a) at least 900mm where the wall height is up to 3m</p> <p>(b) other than for a wall facing a southern side boundary, at least 900mm plus 1/3 of the wall height above 3m</p> <p>and</p> <p>(c) at least 1900mm plus 1/3 of the wall height above 3m for walls facing a southern side boundary.</p>
<p>Rear boundary setback</p>	
<p>PO 9.1</p> <p>Dwelling walls are set back from rear boundaries to provide:</p> <p>(a) separation between dwellings in a way that contributes to a suburban character</p> <p>(b) access to natural light and ventilation for neighbours</p> <p>(c) private open space</p> <p>(d) space for landscaping and vegetation</p> <p>(e) a consistent character when viewed from a waterfront.</p>	<p>DTS/DPF 9.1</p> <p>Dwelling walls are set back from the rear boundary at least:</p> <p>(a) where the rear boundary fronts a waterfront, no less than the average rear setback of any existing dwellings on adjoining allotments.</p> <p>(b) where the rear boundary adjoins a laneway - 0m</p> <p>(c) In all other cases:</p> <p>(i) if the size of the site is less than 301 square metres—</p> <p>A. 3m in relation to the ground floor of the dwelling</p> <p>B. 5m in relation to any other building level of the dwelling</p> <p>(ii) if the size of the site is 301 square metres or more—</p> <p>A. 4m in relation to the ground floor of the dwelling</p> <p>B. 6m in relation to any other building level of the dwelling.</p>
<p>Concept Plans</p>	
<p>PO 10.1</p> <p>Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.</p>	<p>DTS/DPF 10.1</p> <p>The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:</p> <p>In relation to DTS/DPF 10.1, in instances where:</p> <p>(a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.</p> <p>(b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 10.1 is met.</p>
<p>Built form and character</p>	
<p>PO 11.1</p> <p>Dwellings on sites with frontages to both a public street and a waterfront designed to address both frontages.</p>	<p>DTS/DPF 11.1</p> <p>Development is not located on a site/allotment with frontage to a waterfront.</p>
<p>PO 11.2</p> <p>Service areas associated with dwellings such as open storage and clothes drying screened from public view.</p>	<p>DTS/DPF 11.2</p> <p>None are applicable.</p>
<p>PO 11.3</p> <p>Development set back from waterfronts to establish a consistent character that includes soft landscaping along coastal/riverine frontages.</p>	<p>DTS/DPF 11.3</p> <p>None are applicable.</p>
<p>Ancillary buildings and structures</p>	
<p>PO 12.1</p> <p>Outbuildings designed and sited to mitigate their visibility from the waterfront.</p>	<p>DTS/DPF 12.1</p> <p>Outbuildings are not located between the main building and waterfront boundary on a site/allotment with frontage to a waterfront.</p>
<p>PO 12.2</p> <p>Residential ancillary buildings and structures are sited and designed to not detract from the streetscape or appearance of buildings on the site or neighbouring properties.</p>	<p>DTS/DPF 12.2</p> <p>Ancillary buildings:</p> <p>(a) are ancillary to a dwelling erected on the same site</p> <p>(b) have a floor area not exceeding 60m²</p> <p>(c) are not constructed, added to or altered so that any part is situated:</p> <p>(i) in front of any part of the building line of the dwelling to which it is ancillary or</p> <p>(ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads)</p> <p>(d) in the case of a garage or carport, the garage or carport:</p> <p>(i) is set back at least 5.5m from the boundary of the primary street</p> <p>(ii) when facing a primary street or secondary street, has a total door / opening not exceeding:</p> <p>A. for dwellings of single building level - 7m in width or 50% of the site frontage, whichever is the lesser</p> <p>B. for dwellings comprising two or more building levels at the building line fronting the same public street - 7m in width</p> <p>(e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless:</p> <p>(i) a longer wall or structure exists on the adjacent site and is situated on the</p>

	<p>same allotment boundary and</p> <p>(ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</p> <p>(f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary</p> <p>(g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure</p> <p>(h) have a wall height (or post height) not exceeding 3m</p> <p>(i) have a roof height where no part of the roof is more than 5m above the natural ground level</p> <p>(j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour</p> <p>(k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less: a total area as determined by the following table:</p> <table border="1" data-bbox="868 488 1551 797"> <thead> <tr> <th>Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m²)</th> <th>Minimum percentage of site</th> </tr> </thead> <tbody> <tr> <td><150</td> <td>10%</td> </tr> <tr> <td>150-200</td> <td>15%</td> </tr> <tr> <td>201-450</td> <td>20%</td> </tr> <tr> <td>>450</td> <td>25%</td> </tr> </tbody> </table> <p>(l) the amount of existing soft landscaping prior to the development occurring.</p>	Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m ²)	Minimum percentage of site	<150	10%	150-200	15%	201-450	20%	>450	25%
Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m ²)	Minimum percentage of site										
<150	10%										
150-200	15%										
201-450	20%										
>450	25%										
<p>PO 12.3</p> <p>Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements and do not result in over-development of the site.</p>	<p>DTS/DPF 12.3</p> <p>Ancillary buildings and structures do not result in:</p> <p>(a) less private open space than specified in Design Table 1 - Private Open Space</p> <p>(b) less car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.</p>										
Advertisements											
<p>PO 13.1</p> <p>Advertisements identify the associated business activity, and do not detract from the residential character of the locality.</p>	<p>DTS/DPF 13.1</p> <p>Advertisements relating to a lawful business activity associated with a residential use do not exceed 0.3m² and mounted flush with a wall or fence.</p>										

Table 1 - Accepted Development Classification

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
<p>Air handling unit, air conditioning system or exhaust fan</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> Local Heritage Place Overlay State Heritage Area Overlay State Heritage Place Overlay 	<ol style="list-style-type: none"> The item will be installed on or within an existing dwelling. The item being installed does not encroach on a public street. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
<p>Brush fence</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> Hazards (Flooding) Overlay Historic Area Overlay Local Heritage Place Overlay Ramsar Wetlands Overlay State Heritage Area Overlay State Heritage Place Overlay 	<ol style="list-style-type: none"> The fence is formed (wholly or partially) from brush The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels) The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved) The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
<p>Building work on railway land</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> Coastal Areas Overlay Hazards (Acid Sulfate Soils) Overlay Local Heritage Place Overlay Significant Landscape Protection Overlay State Heritage Area Overlay State Heritage Place Overlay 	<ol style="list-style-type: none"> Building work is associated with a railway It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017) It is required for the conduct or maintenance of railway activities It does not involve the clearance of native vegetation The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.
<p>Carport</p> <p>Except where any of the following apply:</p> <ul style="list-style-type: none"> Future Local Road Widening Overlay Future Road Widening Overlay Historic Area Overlay Local Heritage Place Overlay State Heritage Area Overlay State Heritage Place Overlay 	<ol style="list-style-type: none"> The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i> The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system It is ancillary to a dwelling erected on the site Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary Total floor area - does not exceed 40m² Post height - does not exceed 3m measured from natural ground level (and not 4093

- including a gable end)
- 7. Building height - does not exceed 5m
- 8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11.5m unless:
 - (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
 - (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
- 9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street):
 - (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
 - (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure
- 10. Site coverage does not exceed:
 - (a) on sites 300m² or less and with a dual frontage to the waterfront and a public street, 80%
 - (b) in all other cases, 60%.
- 11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)
- 12. The carport is located so that vehicle access:
 - (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
 - (b) is not obtained from a State Maintained Road, and will use a driveway that:
 - (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing;
 - (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;
 - (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
 - (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access
 - (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site
- 13. If any part involves cladding in sheet metal will have cladding which is pre-colour treated or painted in a non-reflective colour
- 14. Does not involve the clearance of native vegetation
- 15. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
 - (a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m ²)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

- (b) the amount of existing soft landscaping prior to the development occurring.

Internal building work
Except where any of the following apply:

- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

- 1. There will be no increase in the total floor area of the building
- 2. Other than where located within the Historic Area Overlay there will be no alteration to the external appearance of the building to any significant degree
- 3. There will be no alteration to the external appearance of the building where located within the Historic Area Overlay.

Outbuilding
Except where any of the following apply:

- Coastal Areas Overlay
- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Flooding) Overlay
- Historic Area Overlay

- 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
- 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
- 3. It is detached from and ancillary to a dwelling erected on the site.
- 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary

- Local Heritage Place Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

- Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)
- Total floor area - does not exceed 40m²
- Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)
- Building height - does not exceed 5m
- If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless:
 - a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
 - the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
- If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):
 - it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
 - it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure
- Site coverage does not exceed:
 - on sites 300m² or less and with a dual frontage to the waterfront and a public street, 80%.
 - in all other cases, 60%.
- Door opening for vehicle access facing a street frontage - does not exceed, in total 7m in width or 50% of the width of the allotment frontage (whichever lesser)
- If the outbuilding is a garage, it is located so that vehicle access:
 - is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
 - is not obtained from a State maintained Road, and will use a driveway that:
 - is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing;
 - will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;
 - is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
 - is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access
 - if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site
- If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour
- Does not involve-
 - excavation exceeding a vertical height of 1m; or
 - filling exceeding a vertical height of 1m,

and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m.

- Does not involve the clearance of native vegetation
- The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
- Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
 - a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m ²)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

- the amount of existing soft landscaping prior to the development occurring.

Partial demolition of a building or structure
Except where any of the following apply:

- Historic Area Overlay
- Local Heritage Place Overlay

None

<ul style="list-style-type: none"> • State Heritage Area Overlay • State Heritage Place Overlay 											
<p>Private bushfire shelter Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Local Heritage Place Overlay • River Murray Flood Plain Protection Area Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay 	<ol style="list-style-type: none"> 1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted 4. Allotment boundary setback - not less than 1m 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary 6. Location of filtration system from a dwelling on an adjoining allotment: <ol style="list-style-type: none"> (a) not less than 5m where the filtration system is located inside a solid structure that will have material impact on the transmission of noise; or (b) not less than 12m in any other case. 7. Does not involve the clearance of native vegetation 8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas 										

9. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m ²)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(b) the amount of existing soft landscaping prior to the development occurring.

Verandah
Except where any of the following apply:

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
3. It is ancillary to a dwelling erected on the site
4. Primary street setback - as far back as the building line of the building to which it is ancillary
5. Total floor area - does not exceed 40m²
6. Post height - does not exceed 3m measured from natural ground level
7. Building height - does not exceed 5m
8. Length - does not exceed 11.5m if any part of the structure abuts or is situated on a boundary of the allotment
9. Site coverage does not exceed:
 - (a) on sites 300m² or less and with a dual frontage to the waterfront and a public street, 80%
 - (b) in all other cases, 60%.

10. Does not involve the clearance of native vegetation

11. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m ²)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(b) the amount of existing soft landscaping prior to the development occurring.

Water tank (above ground)
Except where any of the following apply:

- Historic Area Overlay
- Local Heritage Place Overlay
- Ramsar Wetlands Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
3. The tank is part of a roof drainage system
4. Total floor area - not exceeding 15m²
5. The tank is located wholly above ground
6. Tank height - does not exceed 4m above natural ground level
7. Primary street setback - at least as far back as the building line of the building to which it is ancillary
8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour
9. Does not involve the clearance of native vegetation
10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m ²)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%

	>450	25%
	(b) the amount of existing soft landscaping prior to the development occurring.	
Water tank (underground) Except where any of the following apply:	<ol style="list-style-type: none"> The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system The tank (including any associated pump) is located wholly below the level of the ground Does not involve the clearance of native vegetation. 	

Table 2 - Deemed-to-Satisfy Development Classification

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone <small>(applies only in the area affected by the Subzone)</small>	Overlay <small>(applies only in the area affected by the Overlay)</small>

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Class of Development	Applicable Policies

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m ² (b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

A class of development listed in Column A is excluded from notification provided that it does not fall within a corresponding exclusion prescribed in Column B. In instances where development falls within multiple classes within Column A, each clause is to be read independently such that if a development is excluded from notification by any clause, it is, for the purposes of notification excluded irrespective of any other clause.

Class of Development	Exceptions	4181
----------------------	------------	------

(Column A)	(Column B)
<p>1. A kind of development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.</p>	<p>None specified.</p>
<p>2. All development undertaken by:</p> <ul style="list-style-type: none"> (a) the South Australian Housing Trust either individually or jointly with other persons or bodies or (b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust. 	<p>Except development involving any of the following:</p> <ul style="list-style-type: none"> 1. residential flat building(s) of 3 or more building levels 2. the demolition of a State or Local Heritage Place 3. the demolition of a building (except an ancillary building) in a Historic Area Overlay.
<p>3. Any development involving any of the following (or of any combination of any of the following):</p> <ul style="list-style-type: none"> (a) air handling unit, air conditioning system or exhaust fan (b) ancillary accommodation (c) building work on railway land (d) carport (e) deck (f) dwelling (g) dwelling addition (h) fence (i) jetty, pontoon or boat berth (or any combination thereof) (j) outbuilding (k) pergola (l) private bushfire shelter (m) residential flat building (n) retaining wall (o) shade sail (p) solar photovoltaic panels (roof mounted) (q) swimming pool or spa pool (r) verandah (s) water tank. 	<p>Except development that:</p> <ul style="list-style-type: none"> 1. exceeds the maximum building height specified in Waterfront Neighbourhood Zone DTS/DPF 4.1 or 2. involves a building wall (or structure) that is proposed to be situated on a side boundary (not being a boundary with a primary street or secondary street) and: <ul style="list-style-type: none"> (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
<p>4. Any development involving any of the following (or of any combination of any of the following):</p> <ul style="list-style-type: none"> (a) consulting room (b) office (c) shop. 	<p>Except development that:</p> <ul style="list-style-type: none"> 1. exceeds the maximum building height specified in Waterfront Neighbourhood Zone DTS/DPF 4.1 or 2. does not satisfy Waterfront Neighbourhood Zone DTS/DPF 1.5 or 3. involves a building wall (or structure) that is proposed to be situated on a side boundary (not being a boundary with a primary street or secondary street) and: <ul style="list-style-type: none"> (a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or (b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).
<p>5. Any development involving any of the following (or of any combination of any of the following):</p> <ul style="list-style-type: none"> (a) internal building works (b) land division (c) recreation area (d) replacement building (e) temporary accommodation in an area affected by bushfire (f) tree damaging activity. 	<p>None specified.</p>
<p>6. Demolition.</p>	<p>Except any of the following:</p> <ul style="list-style-type: none"> 1. the demolition of a State or Local Heritage Place 2. the demolition of a building (except an ancillary building) in a Historic Area Overlay.

Placement of Notices - Exemptions for Performance Assessed Development

None specified.

Placement of Notices - Exemptions for Restricted Development

None specified.

Workers' Settlement Zone

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Appropriately designed and located accommodation for seasonal and short-term workers in rural areas that minimises environmental and social impacts.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
<p>PO 1.1</p> <p>Development is limited to workers' accommodation and ancillary land uses that support the day to day needs of workers.</p>	<p>DTS/DPF 1.1</p> <p>Development comprises one or more of the following:</p> <ul style="list-style-type: none"> (a) a dwelling (manager's house) (b) amenity block (including shower, toilet and laundry facilities) in association with and ancillary to the workers' accommodation (c) dwelling addition (d) recreational facility in association with and ancillary to the workers' accommodation (e) office in association with and ancillary to the workers' accommodation (f) shop in association with and ancillary to the workers' accommodation (g) workers' accommodation.
<p>PO 1.2</p> <p>Shops, primarily in the form of a restaurant, associated with and ancillary to Workers' accommodation enhance the amenity of the zone for those workers.</p>	<p>DTS/DPF 1.2</p> <p>Shops located on the same site as workers' accommodation meets one of the following:</p> <ul style="list-style-type: none"> (a) it has a gross leasable floor area not exceeding 100m² (b) it is a restaurant.
<p>PO 1.3</p> <p>Office associated with and ancillary to Workers' accommodation supports the management and administrative aspects of the accommodation.</p>	<p>DTS/DPF 1.3</p> <p>Office is ancillary to and located on the same site as Workers' accommodation.</p>
<p>PO 1.4</p> <p>Development provides space adjacent to and around habitable buildings to accommodate areas for parking of vehicles, storage of waste, landscaping, recreation areas, swimming pool/spa and similar facilities to enhance the amenity for resident workers.</p>	<p>DTS/DPF 1.4</p> <p>The total roofed area of all existing and proposed buildings on the site will not exceed 60%.</p>
<p>PO 1.5</p> <p>Workers' accommodation is established in association with major industrial, mining, agricultural and business activities to support and facilitate economic activity.</p>	<p>DTS/DPF 1.5</p> <p>Workers' accommodation is constructed by the principal operator of the relevant business or authorised agent thereof.</p>
<p>PO 1.6</p> <p>A dwelling in the form of a manager or caretaker residence associated with and ancillary to Workers' accommodation provides for the efficient management, maintenance and support of residents.</p>	<p>DTS/DPF 1.6</p> <p>A dwelling is:</p> <ul style="list-style-type: none"> (a) ancillary to and located on the same allotment or within the same lease area as the workers' accommodation (b) has a demonstrated connection with workers' accommodation (c) will not result in more than one dwelling being located on an allotment or lease area used for workers' accommodation.
Land Division	
<p>PO 2.1</p> <p>Land division is designed to:</p> <ul style="list-style-type: none"> (a) minimise fire risk danger to occupants of buildings and firefighting personnel (b) minimise the potential risk of damage to buildings and other property during a bushfire (c) ensure each allotment contains a suitable building envelope that is located away from any vegetation that would pose an unacceptable risk in the event of bushfire. 	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
Built Form and Character	
<p>PO 3.1</p> <p>Buildings and recreational facilities are set back from internal roads to accommodate vehicular movements and contribute to the safety of workers and visitors.</p>	<p>DTS/DPF 3.1</p> <p>Buildings and recreational facilities are set back at least 1 metre from an internal road.</p>

PO 3.2 Buildings are set back from public roads to mitigate impacts on the streetscape.	DTS/DPF 3.2 Buildings are set back at least 2m from a public road.
PO 3.3 Buildings and recreational areas are set back from the boundary of the zone to minimise impacts on neighbouring properties and enhance local amenity.	DTS/DPF 3.3 Buildings are set back at least 2 metres from the zone boundary.
PO 3.4 Buildings use materials and finishes to complement the landscape and mitigate the effects of glare on adjacent land users.	DTS/DPF 3.4 Buildings are clad in, or a combination of: (a) materials other than sheet metal (b) sheet metal pre-colour treated or painted in a non-reflective colour.
Landscaping	
PO 4.1 Landscaping is provided along public roads and thoroughfares, zone boundaries and the perimeter of common vehicle parking areas to enhance the visual appearance of development.	DTS/DPF 4.1 Other than to accommodate a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land, a landscaped area is provided within the development site in accordance with the following: (a) at least 1.5m wide along any boundary on the perimeter of the zone fronting a public road or thoroughfare (b) at least 1m wide around the perimeter of any shared vehicle parking area.
PO 4.2 Development incorporates areas for landscaping to enhance the overall amenity of the site and locality.	DTS/DPF 4.2 Landscape areas comprise: (a) not less than 10 percent of the site area (b) a dimension of at least 1m.
Concept Plans	
PO 5.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 5.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: In relation to DTS/DPF 5.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 5.1 is met.

Table 1 - Accepted Development Classification

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: <ul style="list-style-type: none"> • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay 	<ol style="list-style-type: none"> 1. The item will be installed on or within an existing dwelling. 2. The item being installed does not encroach on a public street. 3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.
Building work on railway land Except where any of the following apply: <ul style="list-style-type: none"> • Coastal Areas Overlay • Hazards (Acid Sulfate Soils) Overlay • Local Heritage Place Overlay • Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay • Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay 	<ol style="list-style-type: none"> 1. Building work is associated with a railway. 2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017). 3. It is required for the conduct or maintenance of railway activities. 4. It does not involve the clearance of native vegetation.
Carport Except where any of the following apply: <ul style="list-style-type: none"> • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay 	<ol style="list-style-type: none"> 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Total floor area - does not exceed 40m². 6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end). 7. Building height - does not exceed 5m. 8. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11m unless:

	<ul style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. <p>9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):</p> <ul style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure. <p>10. The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment.</p> <p>11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser).</p> <p>12. The carport is located so that vehicle access:</p> <ul style="list-style-type: none"> (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State maintained road, and will use a driveway that: <ul style="list-style-type: none"> (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site. <p>13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour.</p> <p>14. Does not involve the clearance of native vegetation.</p>
<p>Internal building work Except where any of the following apply:</p> <ul style="list-style-type: none"> • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay 	<ul style="list-style-type: none"> 1. There will be no increase in the total floor area of the building 2. Other than where located within the Historic Area Overlay there will be no alteration to the external appearance of the building to any significant degree. 3. There will be no alteration to the external appearance of the building where located within the Historic Area overlay.
<p>Outbuilding Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Future Road Widening Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • Significant Landscape Protection Overlay • State Heritage Area Overlay • State Heritage Place Overlay 	<ul style="list-style-type: none"> 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is detached from and ancillary to a dwelling erected on the site. 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary. 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads). 6. Total floor area - does not exceed 40m². 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end). 8. Building height - does not exceed 5m. 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless: <ul style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): <ul style="list-style-type: none"> (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent. 11. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%. 12. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street): <ul style="list-style-type: none"> (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a

	<p>building that would be adjacent to or abut the proposed wall or structure.</p> <p>13. If the outbuilding is a garage, it is located so that vehicle access:</p> <ul style="list-style-type: none"> (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or (b) is not obtained from a State Maintained Road, and will use a driveway that: <ul style="list-style-type: none"> (i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing; (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree; (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site <p>14. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour.</p> <p>15. Does not involve-</p> <ul style="list-style-type: none"> (a) excavation exceeding a vertical height of 1 metre; or (b) filling exceeding a vertical height of 1 metre, <p>and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres.</p> <p>16. Does not involve the clearance of native vegetation.</p>
<p>Partial demolition of a building or structure Except where any of the following apply:</p> <ul style="list-style-type: none"> • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay 	<p>None</p>
<p>Shade sail Except where any of the following apply:</p> <ul style="list-style-type: none"> • Future Local Road Widening Overlay • Future Road Widening Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay 	<ol style="list-style-type: none"> 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. Shade sail consists of permeable material. 4. The total area of the sail - does not exceed 40m². 5. No part of the shade sail will be: <ul style="list-style-type: none"> (a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment (b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment. 6. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m. 8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary. 9. Does not involve the clearance of native vegetation.
<p>Solar photovoltaic panels (roof mounted) Except where any of the following apply:</p> <ul style="list-style-type: none"> • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay 	<ol style="list-style-type: none"> 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>. 2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof. 3. Panels and associated components do not overhang any part of the roof. 4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system. 5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.
<p>Swimming pool or spa pool Except where any of the following apply:</p> <ul style="list-style-type: none"> • Coastal Areas Overlay • Future Local Road Widening Overlay • Future Road Widening Overlay • Hazards (Acid Sulfate Soils) Overlay • Hazards (Flooding) Overlay • Historic Area Overlay • Local Heritage Place Overlay • State Heritage Area Overlay • State Heritage Place Overlay 	<ol style="list-style-type: none"> 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>. 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. 3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted. 4. Allotment boundary setback - not less than 1m. 5. Primary street setback - at least as far back as the building line of the building to which it is ancillary. 6. Location of filtration system from a dwelling on an adjoining allotment: <ul style="list-style-type: none"> (a) not less than 5m where the filtration system is located inside a solid structure that will have material impact on the transmission of noise; or

	(b) not less than 12m in any other case.
	7. Does not involve the clearance of native vegetation.
Water tank (above ground) Except where any of the following apply: <ul style="list-style-type: none">Local Heritage Place OverlayState Heritage Area OverlayState Heritage Place Overlay	<ol style="list-style-type: none"> The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. The tank is part of a roof drainage system. Total floor area - not exceeding 15m². The tank is located wholly above ground. Tank height - does not exceed 4m above natural ground level. Primary street setback - at least as far back as the building line of the building to which it is ancillary. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour. Does not involve the clearance of native vegetation
Water tank (underground)	<ol style="list-style-type: none"> The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system. The tank (including any associated pump) is located wholly below the level of the ground. Does not involve the clearance of native vegetation.

Table 2 - Deemed-to-Satisfy Development Classification

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone <small>(applies only in the area affected by the Subzone)</small>	Overlay <small>(applies only in the area affected by the Overlay)</small>
Amenities block	Land Use and Intensity DTS/DPF 1.1, DTS/DPF 1.4 Built Form and Character DTS/DPF 3.1, DTS/DPF 3.2, DTS/DPF 3.3, DTS/DPF 3.4 Landscaping DTS/DPF 4.1, DTS/DPF 4.2 Concept Plans DTS/DPF 5.1	Clearance from Overhead Powerlines DTS/DPF 1.1 Design [All development [Earthworks and sloping land]] DTS/DPF 8.1 Infrastructure and Renewable Energy Facilities [Water Supply] DTS/DPF 11.1 Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.1, DTS/DPF 12.2	None	Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1 Building Near Airfields Overlay DTS/DPF 1.1 Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1
Carport	Land Use and Intensity DTS/DPF 1.4 Built Form and Character DTS/DPF 3.1, DTS/DPF 3.2, DTS/DPF 3.3, DTS/DPF 3.4	Clearance from Overhead Powerlines DTS/DPF 1.1 Design [All development [Earthworks and sloping land]] DTS/DPF 8.1 Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.2 Transport, Access and Parking [Vehicle Access] DTS/DPF 3.1, DTS/DPF 3.5	None	Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1 Key Outback and Rural Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)] DTS/DPF 1.1 Key Outback and Rural Routes Overlay [Access - On-Site Queuing] DTS/DPF 2.1 Key Outback and Rural Routes Overlay [Access - Existing Access Points] DTS/DPF 3.1 Key Outback and Rural Routes Overlay [Access - Location (Spacing)] DTS/DPF 4.1 Key Outback and Rural Routes Overlay [Access - Location (Sight Lines)] DTS/DPF 5.1 Key Outback and Rural Routes Overlay [Access - Mud and Debris] DTS/DPF 6.1 Key Outback and Rural Routes Overlay [Access - Stormwater] DTS/DPF 7.1 Key Outback and Rural Routes Overlay [Public Road Junctions] DTS/DPF 8.1

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone <small>(applies only in the area affected by the Subzone)</small>	Overlay <small>(applies only in the area affected by the Overlay)</small>

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m ² (b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

A class of development listed in Column A is excluded from notification provided that it does not fall within a corresponding exclusion prescribed in Column B. In instances where development falls within multiple classes within Column A, each clause is to be read independently such that if a development is excluded from notification by any clause, it is, for the purposes of notification excluded irrespective of any other clause.

Class of Development (Column A)	Exceptions (Column B)
1. A kind of development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following): (a) air handling unit, air conditioning system or exhaust fan (b) amenities block (c) building work on railway land (d) internal building works (e) carport (f) deck (g) dwelling (h) dwelling addition (i) office (j) outbuilding (k) pergola (l) replacement building (m) shade sail (n) shop (o) solar photovoltaic panels (roof mounted) (p) swimming pool or spa pool (q) temporary accommodation in an area affected by bushfire (r) tree damaging activity (s) workers accommodation (t) water tank.	None specified.
3. Demolition.	Except any of the following: 1. the demolition of a State or Local Heritage Place 2. the demolition of a building (except an ancillary building) in a Historic Area Overlay.

Placement of Notices - Exemptions for Performance Assessed Development

None specified

Placement of Notices - Exemptions for Restricted Development

None specified

Adelaide Dolphin Sanctuary Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Protection of the Adelaide Dolphin Sanctuary dolphin population and their habitat.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
PO 1.1 Development avoids or minimises harm to habitat, and the functioning of ecosystems that support the dolphin population.	DTS/DPF 1.1 None are applicable.
PO 1.2 Development does not result in the disruption of critical dolphin behaviours such as breeding, feeding, resting and movement.	DTS/DPF 1.2 None are applicable.
PO 1.3 Stormwater runoff is disposed of in a manner that avoids pollution or other detrimental impacts to the Adelaide Dolphin Sanctuary.	DTS/DPF 1.3 None are applicable.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Advertising Near Signalised Intersections Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Provision of a safe road environment by reducing driver distraction at key points of conflict on the road.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Advertisements Near Signalised Intersections	
PO 1.1 Advertising near signalised intersections does not cause unreasonable distraction to road users through illumination, flashing lights, or moving or changing displays or messages.	DTS/DPF 1.1 Advertising: (a) is not illuminated (b) does not incorporate a moving or changing display or message (c) does not incorporate a flashing light(s).

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference

<p>Advertisement or advertising hoarding that:</p> <p>(a) is within 100m of a:</p> <ul style="list-style-type: none"> (i) signalised intersection or (ii) signalised pedestrian crossing and <p>(b) will:</p> <ul style="list-style-type: none"> (i) be internally illuminated or (ii) incorporate a moving or changing display or message or (iii) incorporate a flashing light. 	<p>Commissioner of Highways.</p>	<p>To provide expert technical assessment on potential risks relating to pedestrian and road safety which may arise from advertisements near intersections.</p>	<p>Development of a class to which Schedule 9 clause 3 item 21 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>
--	----------------------------------	---	--

Affordable Housing Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Affordable housing is integrated with residential and mixed use development.
DO 2	Affordable housing caters for a variety of household structures.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Division	
<p>PO 1.1</p> <p>Development comprising 20 or more dwellings / allotments incorporates affordable housing.</p>	<p>DTS/DPF 1.1</p> <p>Development results in 0-19 additional allotments / dwellings.</p>
<p>PO 1.2</p> <p>Development comprising 20 or more dwellings or residential allotments provides housing suited to a range of incomes including households with low to moderate incomes.</p>	<p>DTS/DPF 1.2</p> <p>Development comprising 20 or more dwellings / or residential allotments includes a minimum of 15% affordable housing except where:</p> <ul style="list-style-type: none"> (a) it can be demonstrated that any shortfall in affordable housing has been provided in a previous stage of development or (b) it can be demonstrated that any shortfall in affordable housing will be accommodated in a subsequent stage or stages of development.
<p>PO 1.3</p> <p>Affordable housing is distributed throughout the development to avoid an overconcentration.</p>	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>
Built Form and Character	
<p>PO 2.1</p> <p>Affordable housing is designed to complement the design and character of residential development within the locality.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
Affordable Housing Incentives	
<p>PO 3.1</p> <p>To support the provision of affordable housing, minimum allotment sizes may be reduced below the minimum allotment size specified in a zone while providing allotments of a suitable size and dimension to accommodate dwellings with a high standard of occupant amenity.</p>	<p>DTS/DPF 3.1</p> <p>The minimum site area specified for a dwelling can be reduced by up to 20%, or the maximum density per hectare increased by up to 20%, where it is to be used to accommodate affordable housing except where the development is located within the Character Area Overlay or Historic Area Overlay.</p>
<p>PO 3.2</p> <p>To support the provision of affordable housing, building heights may be increased above the maximum specified in a zone.</p>	<p>DTS/DPF 3.2</p> <p>Where a building incorporates dwellings above ground level and includes at least 15% affordable housing, the maximum building height specified in any relevant zone policy can be increased by 1 building level in the:</p> <ul style="list-style-type: none"> (a) Business Neighbourhood Zone (b) City Living Zone (c) Established Neighbourhood Zone (d) General Neighbourhood Zone

	<ul style="list-style-type: none"> (e) Hills Neighbourhood Zone (f) Housing Diversity Neighbourhood Zone (g) Neighbourhood Zone (h) Master Planned Neighbourhood Zone (i) Master Planned Renewal Zone (j) Master Planned Township Zone (k) Rural Neighbourhood Zone (l) Suburban Business Zone (m) Suburban Neighbourhood Zone (n) Township Neighbourhood Zone (o) Township Zone (p) Urban Renewal Neighbourhood Zone (q) Waterfront Neighbourhood Zone <p>and up to 30% in any other zone, except where:</p> <ul style="list-style-type: none"> (a) the development is located within the Character Area Overlay or Historic Area Overlay or (b) other height incentives already apply to the development.
--	--

Movement and Car Parking

<p>PO 4.1</p> <p>Sufficient car parking is provided to meet the needs of occupants of affordable housing.</p>	<p>DTS/DPF 4.1</p> <p>Dwellings constituting affordable housing are provided with car parking in accordance with the following:</p> <ul style="list-style-type: none"> (a) 0.3 carpark per dwelling within a building which incorporates dwellings located above ground level within either: <ul style="list-style-type: none"> (i) 200 metres of any section of road reserve along which a bus service operates as a high frequency public transit service⁽²⁾ (ii) is within 400 metres of a bus interchange⁽¹⁾ (iii) is within 400 metres of an O-Bahn interchange⁽¹⁾ (iv) is within 400 metres of a passenger rail station⁽¹⁾ (v) is within 400 metres of a passenger tram station⁽¹⁾ (vi) is within 400 metres of the Adelaide Parklands. or (b) 1 carpark per dwelling for any other dwelling. <p>[NOTE(S): (1) Measured from an area that contains any platform(s), shelter(s) or stop(s) where people congregate for the purpose waiting to board a bus, tram or train, but does not include areas used for the parking of vehicles. (2) A high frequency public transit service is a route serviced every 15 minutes between 7.30am and 6.30pm Monday to Friday and every 30 minutes at night, Saturday, Sunday and public holidays until 10pm.]</p>

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Development for the purposes of the provision of affordable housing (applying the criteria determined under regulation 4 of the <i>South Australian Housing Trust Regulations 2010</i>).	Minister responsible for administering the <i>South Australian Housing Trust Act 1995</i> .	To provide direction on the conditions required to secure the provision of dwellings or allotments for affordable housing.	Development of a class to which Schedule 9 clause 3 item 20 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

Aircraft Noise Exposure Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome		
DO 1	Development sensitive to aircraft noise is designed and located to manage noise intrusion to reduce land use conflict and protect human health.	4197

Performance Outcome		Deemed-to-Satisfy Criteria / Designated Performance Feature	
Land Use and Intensity			
PO 1.1	Buildings that accommodate activities sensitive to aircraft noise are designed and located to minimise aircraft noise intrusion and provide appropriate interior acoustic amenity.	DTS/DPF 1.1	Buildings accommodating sensitive receivers are not located within an area having an ANEF value of 30 or more.
Built Form			
PO 2.1	Additions to buildings involving the addition or extension of habitable rooms are designed and located to minimise aircraft noise intrusion and provide appropriate interior acoustic amenity.	DTS/DPF 2.1	Dwelling additions involving the addition or extension of habitable rooms: <ul style="list-style-type: none"> (a) do not result in an increase in the total floor area of the existing dwelling by greater than 50 percent (b) do not occur in areas having an ANEF value of 30 or more.
Land Division			
PO 3.1	Land division does not increase the number of allotments used for sensitive receivers in areas adversely affected by aircraft noise to mitigate community exposure to potential adverse environmental and amenity impacts generated by aircraft movements.	DTS/DPF 3.1	Land division: <ul style="list-style-type: none"> (a) within an area having an ANEF value of less than 30 or (b) within an area having an ANEF value of 30 or more and: <ul style="list-style-type: none"> (i) does not result in any additional allotments or (ii) none of the allotments will accommodate a sensitive receiver.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Airport Building Heights (Aircraft Landing Areas) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Management of potential impacts of buildings on the operational and safety requirements of aircraft landing areas.

Performance Outcome		Deemed-to-Satisfy Criteria / Designated Performance Feature	
Built Form			
PO 1.1	Building height does not pose a hazard to the operation of an aircraft landing area.	DTS/DPF 1.1	The distance from any part of a runway centreline to the closest point of the building is greater than 30 times building height.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Airport Building Heights (Regulated) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Management of potential impacts of buildings and generated emissions to maintain operational and safety requirements of registered and certified commercial and military airfields, airports, airstrips and helicopter landing sites.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Built Form	
PO 1.1 Building height does not pose a hazard to the operation of a certified or registered aerodrome.	DTS/DPF 1.1 Buildings are located outside the area identified as 'All structures' (no height limit is prescribed) and do not exceed the height specified in the Airport Building Heights (Regulated) Overlay which applies to the subject site as shown on the SA Property and Planning Atlas. In instances where more than one value applies to the site, the lowest value relevant to the site of the proposed development is applicable.
PO 1.2 Exhaust stacks are designed and sited to minimise plume impacts on aircraft movements associated with a certified or registered aerodrome.	DTS/DPF 1.2 Development does not include exhaust stacks.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Any of the following classes of development: (a) building located in an area identified as 'All structures' (no height limit is prescribed) or will exceed the height specified in the <i>Airport Building Heights (Regulated) Overlay</i> (b) building comprising exhaust stacks that generates plumes, or may cause plumes to be generated, above a height specified in the <i>Airport Building Heights (Regulated) Overlay</i> .	The airport-operator company for the relevant airport within the meaning of the <i>Airports Act 1996</i> of the Commonwealth or, if there is no airport-operator company, the Secretary of the Minister responsible for the administration of the <i>Airports Act 1996</i> of the Commonwealth.	To provide expert assessment and direction to the relevant authority on potential impacts on the safety and operation of aviation activities.	Development of a class to which Schedule 9 clause 3 item 1 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

Building Near Airfields Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Maintain the operational and safety requirements of certified commercial and military airfields, airports, airstrips and helicopter landing sites through management of non-residential lighting, turbulence and activities that may attract or result in the congregation of wildlife.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
PO 1.1 Outdoor lighting associated with a non-residential use does not pose a hazard to commercial or military aircraft operations.	DTS/DPF 1.1 Development: (a) primarily or wholly for residential purposes (b) for non-residential purposes that does not incorporate outdoor floodlighting.

<p>PO 1.2 Development likely to attract or result in the congregation of wildlife is adequately separated from airfields to minimise the potential for aircraft wildlife strike.</p>	<p>DTS/DPF 1.2 All development except where it comprises one or more of the following located not less than 3km from the boundaries of an airport used by commercial or military aircraft:</p> <ul style="list-style-type: none"> (a) food packing/processing plant (b) horticulture (c) intensive animal husbandry (d) showground (e) waste management facility (f) waste transfer station (g) wetland (h) wildlife sanctuary.
<p>PO 1.3 Buildings are adequately separated from runways and other take-off and landing facilities within certified or registered aerodromes to minimise the potential for building-generated turbulence and windshear that may pose a safety hazard to aircraft flight movement.</p>	<p>DTS/DPF 1.3 The distance from any part of a runway centreline to the closest point of the building is not less than 35 times the building height.</p>

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. Character Area Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Valued streetscape characteristics and development patterns are reinforced through contextually responsive development, design and adaptive reuse that responds to the attributes expressed in the Character Area Statement.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
All Development	
<p>PO 1.1 All development is undertaken having consideration to the valued attributes expressed in the Character Area Statement.</p>	<p>DTS/DPF 1.1 None are applicable.</p>
Built Form	
<p>PO 2.1 The form of new buildings and structures that are visible from the public realm are consistent with the valued streetscape characteristics of the character area.</p>	<p>DTS/DPF 2.1 None are applicable.</p>
<p>PO 2.2 Development is consistent with the prevailing building and wall heights in the character area.</p>	<p>DTS/DPF 2.2 None are applicable.</p>
<p>PO 2.3 Design and architectural detailing of street-facing buildings (including but not limited to roof pitch and form, openings, chimneys and verandahs) are consistent with the prevailing characteristics in the character area.</p>	<p>DTS/DPF 2.3 None are applicable.</p>
<p>PO 2.4 Development is consistent with the prevailing front and side boundary setback pattern in the character area.</p>	<p>DTS/DPF 2.4 None are applicable.</p>

PO 2.5 Materials are either consistent with or complement those within the character area.	DTS/DPF 2.5 None are applicable.
Alterations and Additions	
PO 3.1 Additions and alterations do not adversely impact on the streetscape character.	DTS/DPF 3.1 Additions and alterations: (a) are fully contained within the roof space of a building with no external alterations made to the building elevation facing the primary street or (b) meet all of the following: (i) do not include any development forward of the front façade building line (ii) any side or rear extensions are no closer to the side boundary than the existing building (iii) do not involve the construction or alteration of a second or subsequent building level.
PO 3.2 Adaptive reuse and revitalisation of buildings to retain local character consistent with the Character Area Statement.	DTS/DPF 3.2 None are applicable.
Ancillary Development	
PO 4.1 Ancillary development, including carports, outbuildings and garages, complements the character of the area and associated building(s).	DTS/DPF 4.1 None are applicable.
PO 4.2 Ancillary development, including carports, outbuildings and garages, is located behind the building line of the principal building(s).	DTS/DPF 4.2 None are applicable.
PO 4.3 Advertising and advertising hoardings are located and designed to complement the building, be unobtrusive, be below the parapet line, not conceal or obstruct significant architectural elements and detailing, or dominate the building or its setting.	DTS/DPF 4.3 None are applicable.
PO 4.4 Fencing and gates closer to a street boundary (other than a laneway) than the elevation of the associated building are consistent with the traditional period, style and form of the of the associated building.	DTS/DPF 4.4 None are applicable.
Land Division	
PO 5.1 Land division creates allotments that are: (a) compatible with the surrounding pattern of subdivision in the character area (b) of a dimension to accommodate buildings of a bulk and scale that reflect existing buildings and setbacks in the character area.	DTS/DPF 5.1 None are applicable.
Context and Streetscape Amenity	
PO 6.1 The width of driveways and other vehicle access ways are consistent with the prevalent width of existing driveways in the character area.	DTS/DPF 6.1 None are applicable.
PO 6.2 Development maintains the valued landscape pattern and characteristics that contribute to the character area, except where they compromise safety, create nuisance, or impact adversely on existing buildings or infrastructure.	DTS/DPF 6.2 None are applicable.

Character Area Statements

Statement#	Statement		
Character Areas affecting Alexandrina Council			
	<p>Milang Character Area Statement (Alex-C1)</p> <p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 50%; padding: 5px;">Eras, themes and context</td> <td style="width: 50%; padding: 5px;">Small scale shops. Daranda Terrace comprises tourism and waterfront recreation activities.</td> </tr> </table>	Eras, themes and context	Small scale shops. Daranda Terrace comprises tourism and waterfront recreation activities.
Eras, themes and context	Small scale shops. Daranda Terrace comprises tourism and waterfront recreation activities.		

Statement#	Statement	
AlexC1	Allotments, subdivision and built form patterns	Buildings typically of square or rectangular floor plans. Front and side boundary setbacks are generally consistent.
	Architectural styles, detailing and built form features	Gable, hipped or pitches roofs and verandahs. Advertisements comprise small signs under verandahs and below parapets.
	Building height	Predominantly single storey.
	Materials	Stone. Slate. Rendered masonry walling. Brick and stone quoins. Corrugated iron. Shingle and slate roofing.
	Fencing	[Not stated]
	Setting, landscaping, streetscape and public realm features	Car parking and service areas are to the rear of buildings or screened by fencing or landscaping.
	Representative Buildings	[Not identified]

Character Areas affecting The Barossa Council

Eden Valley Character Area Statement (Baro-C1)		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
Eras, themes and context	Pre-1950.	
Allotments, subdivision and built form patterns	Grid/organic street pattern.	
Architectural styles, detailing and built form features	Mixture of housing styles.	
Building height	[Not stated]	
Materials	[Not stated]	
Fencing	[Not stated]	
Setting, landscaping, streetscape and public realm features	"Traditional" verge treatments exist in the main street (front boundary, footpath, street trees and gutter).	
Representative Buildings	[Not identified]	

Springton Character Area Statement (Baro-C2)		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
Eras, themes and context	Pre-1950.	
Allotments, subdivision and built form patterns	Grid pattern.	
Architectural styles, detailing and built form features	Mixture of housing styles of relatively modern design.	
Building height	Generally single storey detached dwellings.	
Materials	[Not stated]	
Fencing	[Not stated]	

Statement#	Statement	
	Setting, landscaping, streetscape and public realm features	"Traditional" verge treatments exist in the main street (front boundary, footpath, street trees and gutter).
	Representative Buildings	[Not identified]

BaroC3	Angaston Character Area Statement (Baro-C3)	
	The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	
	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	Late 1800s. 1920s, second wave of prosperity for Angaston in the 20th Century.
	Allotments, subdivision and built form patterns	[Not stated]
	Architectural styles, detailing and built form features	Residences in 1879-80. Residences of the 1920s.
	Building height	[Not stated]
	Materials	Local stone.
Fencing	[Not stated]	
Setting, landscaping, streetscape and public realm features	Tree lined streets, attractive gardens, varied topography, coprosma hedges in front of some houses (retaining early post and wire fence structures), mature gums along the creek, and cypress hedges to many 1920s dwellings.	
Representative Buildings	Identified - refer to SA planning database.	

Character Areas affecting City of Campbelltown

CamC1	Poet's Corner, Tranmere Character Area Statement (Cam-C1)	
	The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	
	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	Residential.
	Allotments, subdivision and built form patterns	Low site coverage, large front and side building set-backs from property boundaries. Substantial allotment widths, consistent pattern of driveway access from the street to garaging and large landscaped open spaces. Detached dwellings at low densities.
	Architectural styles, detailing and built form features	Villas and inter-war bungalows on large allotments with wide frontages, set within well-established landscaped gardens and streets. Consistent roof forms and pitches. Garages, carports and outbuildings are low in scale and generally located to the rear of dwellings or to the side, well set back from the front facade.
	Building height	Predominantly one storey buildings, with attic or loft spaces contained within the roof form, or two storey additions to the rear of dwellings.
	Materials	Red brick, stone and masonry building materials. Roofs of terracotta tiles or red painted corrugated iron.
Fencing	Low, open fencing to 1 metre in height, providing views to the built form. Low picket fencing, solid brush fencing, stone or masonry materials, wire and creepers, and hedges. Some high masonry fences specifically along Magill and Glynburn Roads.	
Setting, landscaping, streetscape and public realm features	Avenues of street tree planting make an important contribution to the landscape character and visual amenity. Generally single width driveways, located to protect mature street trees. Lawns and vegetated gardens.	
Representative Buildings	Identified - refer to SA planning database.

HoBC2	Brighton Character Area Statement (HoB-C2)	
	The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	
	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	1900s to 1930s.
	Allotments, subdivision and built form patterns	Medium to large sized allotments. Linear and curvilinear street layout adjacent Dunluce Castle. Large allotment sizes and frontages. Large front setbacks. Small side setbacks, including driveway access down one side of the site and a small setback from the non-driveway side boundary.
	Architectural styles, detailing and built form features	Federation style dwellings. Inter-War style dwellings including: Tudor Revival, Californian bungalow, Art Deco, Some Spanish mission. Some Post-War Austerity and Conventional style dwellings. Rectilinear plan forms. High degree of modulation and articulation. Low scale. Steep roof pitches in the order of 25 to 35 degrees. Short roof spans. Hip and gable roof forms. Deep verandahs and porches. Fine-grain detail in elements such as plinths, string courses, projecting sills. High solid to void ratio. Vertical proportions in windows and doors. Garages, carports and outbuildings are low in scale and generally located unobtrusively to the rear of dwellings or to the side, well set back from the front facade.
	Building height	Single storey.
Materials	Corrugated iron or terracotta tile roofing. Brick, stone, timber and part-rendered finishes. Fenestration, doorways, windows, eaves and roof forms generally dark in colour.	
Fencing	Fencing associated with the era and style of the building, and providing views to the building. Woven wire. Low masonry with geometric steel. Low masonry (stepped). Brush fencing up to 1.4m in height with either rolled or metal capping.	
Setting, landscaping,	Heavily landscaped settings, mature trees.	

Statement#	Statement		
	streetscape and public realm features	<p>Mature and uniform street tree settings on Linwood and Athelney Streets.</p> <p>Outlook toward a row of heritage listed Eucalyptus trees on Alfreda Street.</p> <p>Heritage listed Dunluce Castle.</p>

Statement#	Statement	
	Fencing	Fencing associated with the era and style of the building, and providing views to the building. Timber picket, timber dowel, timber paling. Hedging. Low masonry plinth with cast iron or wrought iron in a traditional arrangement. Woven wire or low masonry with or without geometric steel for Inter-war buildings. Cyclone wire and steel or timber frame.
	Setting, landscaping, streetscape and public realm features	Clearly defined setbacks and uniform front landscaping.
	Representative Buildings	<i>[Not identified]</i>

Statement#	Glennelg North (West of Tapleys Hill Road) Character Area Statement (HoB-C5)	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	1850s to 1920s.
	Allotments, subdivision and built form patterns	Rectangular allotment shapes in varying sizes. Some allotments have been amalgamated to make way for residential flat buildings and units. Mix of front setback patterns, with older dwellings having small front setbacks, and later dwellings set further back from the street. Generally small front setbacks. Side setbacks provide visual spacing between dwellings.
HoBC5	Architectural styles, detailing and built form features	Small scale, simplified building forms. Single storey detached and semi-detached villas. Single storey detached cottages. Early symmetrical and asymmetrical cottages of low scale and simple form with restrained detailing. Mid-Victorian Period cottages and villas (symmetrical and asymmetrical), semi-detached cottages and row dwellings with detailing typical of the era including verandahs, cast iron lacework, hipped and gable roof forms, plaster and render mouldings. Some Inter-War buildings, mostly Tudor style. Many dwellings without vehicle garaging. Garages, carports and outbuildings, where they exist, are low in scale and simple in form. They are located unobtrusively, to the rear of dwellings or the principal building on the site or, alternatively to the side and well-setback from the front façade. Rectilinear plan forms. High degree of modulation and articulation. Low scale. Steep roof pitches in the order of 30 to 40 degrees (slightly lower on Inter-War buildings). Short roof spans. Hip and gable roof forms. Concave, bullnose and straight-pitched verandahs. Fine-grain detail in elements such as plinths, string courses, projecting sills. High solid to void ratio. Vertical proportions in windows and doors.
	Building height	Predominantly single storey but some two storey.
	Materials	Consistent with the materials used in the 1840s to 1920s period. Bluestone or sandstone walls. Corrugated iron roofing. Timber joinery including verandah posts and framing, fascia, barges, window frames, door frames and doors.
	Fencing	Fencing associated with the era and style of the building, and providing views to the building. Timber picket, timber dowel, timber paling.

Character Areas affecting City of Marion

Edwardstown, Glandore, Glengowrie and Plympton Park Character Area Statement (Mar-C1)		
The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.		
These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.		
The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.		
MarC1	Eras, themes and context	1920s to 1950.
	Allotments, subdivision and built form patterns	Conventional grid type pattern of streets. Large allotments. Predominantly detached dwellings. Some examples of semi-detached dwellings in Glandore and Glengowrie.
	Architectural styles, detailing and built form features	Single storey detached dwellings. Occasional single storey semi-detached dwellings. Mixture of Bungalow, Art Deco, Spanish Mission, Tudor. Articulated roof forms (gable, Dutch gable, hips). Chimneys, projecting front verandahs, porches, porticos. Garages and carports located behind main face of dwelling.
	Building height	Single storey. 2nd storey in roofline.
	Materials	Timber frame windows. External walls constructed of mixture of red brick, painted brick, stone and rendered masonry. Roofing - galvanised iron/replaced with colorbond, terracotta tiles.
	Fencing	Low height - rendered masonry, timber picket, post and wire, tubular.
	Setting, landscaping, streetscape and public realm features	Tree lined streets. Well maintained traditional gardens. Mature vegetation in private properties. Low scale dwellings. Housing well setback from street.
	Representative Buildings	<i>[Not identified]</i>

Marion Character Area Statement (Mar-C2)

NPSPC3	Heathpool/Marryatville Character Area Statement (NPSP-C3)	
	The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	
	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	Pre-1940. Primarily low-scale and low density residential. Detached (including battleaxe in Marryatville east and west of Clapton Road), semi-detached and group dwellings. Residential flat buildings in Marryatville east and west of Clapton Road.
	Allotments, subdivision and built form patterns	Original, pre-1940s land division patterns.
	Architectural styles, detailing and built form features	Traditional pre-1940s roof forms, eaves, front verandah treatments, window proportions. Semi-detached dwellings often presenting as single dwellings.
	Building height	Single storey, with some two storey to the rear of buildings (with single storey appearance to primary street frontage).
Materials	Varied, traditional materials.	
Fencing	Low, open-style fencing that allows connectivity to the street. Front fencing and side fencing (between the front of a dwelling and the street) and landscaping are important components of streetscape character. Some more solid forms of fencing along arterial roads.	
Setting, landscaping, streetscape and public realm features	Vehicle garaging, driveways and front fences are not dominant streetscape elements. In most areas mature street tree plantings provide an overall visual coherence to the streets. Soft front landscaping, including trees. Some limited advertising and signage which complements scale and architecture of associated buildings.	
Representative Buildings	<i>[Not identified]</i>	
NPSPC4	St Peters/Joslin/Royston Park Character Area Statement (NPSP-C4)	
	The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	
	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	Pre-1940. Primarily low-scale and low density residential. Detached dwellings. Semi-detached dwellings in St Peters and College Park.
	Allotments, subdivision and built form patterns	Original, pre-1940s land division patterns.
	Architectural styles, detailing and built form features	Traditional pre-1940s roof forms, eaves, front verandah treatments, window proportions. Semi-detached dwellings often presenting as single dwellings.
	Building height	Single storey, with some two storey to the rear of buildings (with single storey appearance to primary street frontage).
Materials	Varied, traditional materials.	
Fencing	Low, open-style fencing that allows connectivity to the street. Front fencing and side fencing (between the front of a dwelling and the street) and landscaping are important components of streetscape character. Some more solid forms of fencing along arterial roads.	
Setting, landscaping, streetscape and public realm features	Vehicle garaging, driveways and front fences are not dominant streetscape elements. In most areas mature street tree plantings provide an overall visual coherence to the streets. Soft front landscaping, including trees.

Character Areas affecting City of Playford

Elizabeth South Character Area Statement (Play-C1)		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
PlayC1	Eras, themes and context	Late 1950s to early 1960s.
	Allotments, subdivision and built form patterns	<p>First stage of the post war planned Garden City north of Adelaide.</p> <p>Layout and land division pattern involving irregular allotment shapes and curvilinear street pattern, typical of the planning and construction of Trust development in the late 1950s and early 1960s.</p> <p>Large proportion of open space as parks and gardens.</p> <p>Parks and mature trees in the landscape road reserve make a significant contribution to the character and amenity of the area.</p> <p>Rectangular allotment shapes in varying sizes. Some allotments have been amalgamated to make way for residential flat buildings and units. Generally large front setbacks. Side setbacks provide visual spacing between dwellings.</p>
	Architectural styles, detailing and built form features	<p>Small scale, simplified building forms consistent with South Australian Housing Trust development of the late 1950s early 1960s.</p> <p>Single storey semi-detached and detached buildings. Dwellings being of brick and concrete block construction with varying stylistic treatments. Many dwellings without vehicle garaging.</p> <p>Garages, carports and outbuildings, where they exist, are low in scale and simple in form. Rectilinear plan forms. Low scale. Hipped roof forms.</p>
	Building heights	Predominantly single storey.
	Materials	Consistent with the materials used in the late 1950s to early 1960s period. Brick or rendered finishes. Corrugated iron roofing. Consistent, original windows dimensions facing the street. Main entrance incorporated into front elevation.
	Fencing	Where fencing exists, it is predominantly in the form of low style open fencing along the primary road frontage. Corrugated iron fencing evident to side and rear boundaries.
	Setting, landscaping, streetscape and public realm features	<p>Low scale suburban feel, within proximity to the open spaces.</p> <p>Strong sense of uniformity of buildings.</p>
	Representative Buildings	[Not identified]

Character Areas affecting City of Port Adelaide Enfield

Enfield Character Area Statement (PAE-C1)		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
Eras, themes and context	1900s - 1950s built development.	
Allotments, subdivision and built form patterns	"Garden suburb" street pattern and modified grid. Generous allotment sizes with wide frontages and substantial rear gardens. Consistent front set-backs.	
Architectural styles, detailing and built	The area is large and features a wide variety of housing styles including bungalows, villas, Tudors, art deco, inter-war, cottages and mansions generally built before the 1940s.	

Statement#	Statement	
PADEC1	form features	<p>There is also a significant stock of quality dwellings built between 1940 and 1950 that augment the pre 1940s dwellings and make an important contribution to the character of the area.</p> <p>There is a notable concentration of bungalows in the western portion of the area and this style is a defining feature in this part of the area.</p>
	Building height	Single storey.
	Materials	Materials consistent with the style of building and era of its original construction.
	Fencing	<p>Low and/or open consistent with the style and era of construction of the building it is associated with.</p> <p>Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms.</p> <p>Fences associated with houses from the 1920s including capped timber palings, post and wire or woven wire fences.</p>
	Setting, landscaping, streetscape and public realm features	<p>The 1920s street pattern in this area is distinctive and reflects the garden suburb approach to town planning and subdivision.</p> <p>It results in wide nature strips and reserves that together with mature, well landscaped gardens create road verges which contribute to an open and high quality residential character.</p>
	Representative Buildings	[Not identified]

PADEC2	Glanville (East of Carlisle) Character Area Statement (PADE-C2)	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	1860s - 1920s built development.
	Allotments, subdivision and built form patterns	The allotment pattern is shaped to accommodate the alignments of Carlisle Street and Causeway Road. Small allotment sizes with narrow frontages. Dwellings are built close to streets.
	Architectural styles, detailing and built form features	Housing styles include cottages, villas, inter-war and bungalows with cottages being the predominant and key defining feature in the area.
	Building height	Single storey.
	Materials	Materials consistent with the style of building and era of its original construction.
	Fencing	<p>Low and/or open consistent with the style and era of construction of the building it is associated with.</p> <p>Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms. Fences associated with houses from the 1920s including capped timber palings, post and wire or woven wire fences.</p>
	Setting, landscaping, streetscape and public realm features	<p>The area is nestled in to the north west of the Jervois Street bridge and contains many old workers' cottages. These are particularly prevalent in the area bound by Sutherland Street, Connor Street, Hart Street and Carlisle Street.</p> <p>The area's simple low rise housing is strongly counterpointed by the modern, multi -storey Port Adelaide waterfront development to the east of the Outer Harbour rail line and provides an important representation of the early settlement and historical development of Port Adelaide.</p>
	Representative Buildings	[Not identified]

	Largs / Largs North Character Area Statement (PADE-C3)	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	1900s - 1960s built development.
	Allotments, subdivision and built form patterns	<p>Grid pattern with predominately east -west running streets with the long axes of allotments running north-south. Allotments fronting Lady Gowrie Drive and Military Road configured with their long axes running east-west so that buildings address these roads. A high degree of consistency in front setbacks.</p> <p>Regular and generous rectangular allotments with wide frontages.</p>
Architectural styles,	Wide range of housing styles including bungalows, villas, inter-war, Tudors, cottages and art deco. There is a strong concentration of pre 1940s built form.	

Statement#	Statement	
PAdeC3	detailing and built form features	
	Building height	Predominately single storey but some two storey along parts of the Lady Gowrie Drive frontage.
	Materials	Materials consistent with the style of building and era of its original construction.
	Fencing	<p>Low and/or open consistent with the style and era of construction of the building it is associated with.</p> <p>Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms. Fences associated with houses from the 1920s including capped timber palings, post and wire or woven wire fences.</p> <p>Original hedges retained, restored and where appropriate, extended, (utilizing the same species of planting currently in existence) as an alternative to constructed fences.</p>
	Setting, landscaping, streetscape and public realm features	<p>The southern boundary of this area adjoins the Semaphore/Largs Historic Area. It abuts the coast and contains a significant number of dwellings built during the period from 1915-1940.</p> <p>It has a strong relationship with the coast and features tree lined streets with footpaths on both sides that provide vistas and ready walking access to the foreshore and beach.</p> <p>Wide allotment frontages with generous spacing between driveways make a significant contribution to the walkability of these footpaths and the character of the area.</p> <p>An imposing stand of Norfolk Island pines along Lady Gowrie Drive is a key feature of the area.</p>
	Representative Buildings	<i>[Not identified]</i>

Rosewater Character Area Statement (PAde-C4)		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>		
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>		
<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
Eras, themes and context	1900s - 1940s built development.	
Allotments, subdivision and built form patterns	Grid pattern distorted by the alignment of Newcastle Street. Small allotments with narrow frontages. Front setbacks are consistent on a street by street basis.	
Architectural styles, detailing and built form features	A variety of housing styles but cottages, villas and bungalows are the principle styles.	
Building height	Single storey.	
Materials	Materials of existing buildings retained where practicable and missing elements reinstated consistent with the style of building and era of its original construction.	
Fencing	Low and/or open consistent with the style and era of construction of the building it is associated with. Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms. Fences associated with houses from the 1920s including capped timber palings, post and wire or woven wire fences.	
Setting, landscaping, streetscape and public realm features	Newcastle Street is a well landscaped road that provides the main access into this area. It features well established avenue tree planting that includes plane trees and jacarandas. Simple, single storey, historic detached dwellings built on allotments with consistent widths laid out in a grid pattern, and the adjacent Mt Carmel school and the reserve to the north west, combine to establish a country town like character.

Character Areas affecting City of Prospect

Suburban Neighbourhood 1 Character Area Statement (Pr-C1)		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>		
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>		
<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
Eras, themes and context	Late 19th and Early 20th centuries residential. Limited post-1950s residential. Very low density and primarily detached dwellings.	
Allotments,	Original land division patterns following grid type street pattern and displaying rectangular, rectilinear allotments. Spacious allotments. Large allotment	

Statement#	Statement	
PrC1	subdivision and built form patterns	frontages. Large front setbacks. Street facing front dwelling facades. Large spaces around and between dwellings including generous and asymmetrical (one side larger than the other) side setbacks between dwellings. Typically two storey dwellings display consistent side boundary setbacks between building levels.
	Architectural styles, detailing and built form features	Majority bungalows and villas of a significant scale. Pitched roofs with their vertical proportion similar to wall height and typically around 25 to 49 degree pitch. Prominent front verandahs of bull-nose or concave design. Moderate front façade detailing and articulation (wall off-sets, verandahs and deep eaves) with walls with a solid to void ratio of greater than 1:1 and fenestrations showing a vertical prominence.
	Building height	Primarily single storey presentation to the street with two storey components sited behind. 1 to 2 storey dwellings with vertical proportions consistent with traditional dwellings (wall height at least 3 metres and no more than 3.6 metres for single storey and up to 7 metres for two storeys. Large scale buildings in context with large to very large allotments and frontages.
	Materials	Stone, brick and rendered finishes. Detailing around doors, windows, wall edges and gables. Limited colour palette for the majority of building façade (sandstone to reds; bluestone and grey tones) with colour highlights in the detailing.
	Fencing	Front fences forward of the building are of an open style and low in height (to 1.2 metres high). Fencing style associated with dwelling style and era of development. Some more solid fencing of standard height along major roads.
	Setting, landscaping, streetscape and public realm features	Leafy public realm that visually dominates or supports the built form. Extensively landscaped front yards with mature vegetation/tree canopy. Minimal hard and artificial surfaces. Mature vegetation in public realm. Garages and carports are designed and sited to be subordinate to the main dwelling. Access points are narrow and consolidated.
	Representative Buildings	<i>[Not identified]</i>

PrC2	Suburban Neighbourhood 2 Character Area Statement (Pr-C2)	
	The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	
	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	Late 19th and Early 20th centuries residential. Limited post-1950s infill residential. Primarily low density and low scale residential, including detached, semi-detached and row dwellings.
	Allotments, subdivision and built form patterns	Original land division patterns following grid type street pattern and displaying rectangular, rectilinear allotments. Large allotments. Large allotment frontages. Large front setbacks along with reasonable side setbacks. Street facing front dwelling facades. Moderate spaces around dwellings including asymmetrical (one side larger than the other) side setbacks between dwellings. Typically two storey dwellings to display consistent side boundary setbacks between building levels.
	Architectural styles, detailing and built form features	Mainly single storey detached bungalows, cottages and villas. Pitched roofs with the vertical proportion similar to wall height and typically around 25 to 49 degree pitch. Front verandahs (with bull-nose or concave design) with façade detailing and moderate articulation. Moderate front façade detailing and articulation (wall off-sets, verandahs and deep eaves) with walls with a solid to void ratio of greater than 1:1 and fenestrations showing a vertical prominence.
	Building height	Primarily single storey presentation to the street with any two storey components sited behind. Predominantly 1 storey dwellings with vertical proportions consistent with traditional dwellings at least 3 metres and no more than 3.6 metres in wall height for single storey and up to 7 metres for two storeys. Moderate scale in context with low rise development, allotment size and frontages.
Materials	Stone, brick and rendered finishes. Detailing around doors, windows, wall edges and gables Limited colour palette for the majority of building façade and roof areas (sandstone to reds; bluestone and grey tones) with complementary colour highlights in the detailing.	
Fencing	Front fences forward of the building are of an open style and low in height (to 1.2 metres high). Style associated with dwelling style and era of development. Some more solid fencing of standard height along major roads.	
Setting, landscaping, streetscape and public realm features	Leafy public realm that supports the built form. Garages and carports are designed and sited to be subordinate to the main dwelling. Access points are narrow and consolidated. Well landscaped front yards with mature vegetation/tree canopy. Minimal hard and artificial surfaces. Front and side garden landscaping. Leafy, garden

Character Areas affecting City of Victor Harbor

Character Areas affecting City of Victor Harbor		
ViHC1	Burke Street Character Area Statement (ViH-C1)	
	The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	
	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	Consistent low scale detached dwellings, primarily constructed after World War 1 to the later part of the 19th Century (mid 1800s to 1930s). Early settlement, consolidation and growth of residential development.
	Allotments, subdivision and built form patterns	Original street layout including rear access lanes and local roads. Curvilinear street with relatively large allotments roughly perpendicular to the street, most with rear laneway access.
	Architectural styles, detailing and built form features	Mix of small mid-1800s detached cottages of early Vernacular style, symmetrical and asymmetrical cottages and villas of the mid to late 1800s with Victorian stylistic influences, early 1900s cottages and villas with Federation stylistic influences, Inter-War bungalows. Church and Hall with late Victorian Gothic stylistic influences located at the bend in the road are landmarks. Adjacent to the Church is a Manse built in the Inter-War period with Georgian Revival stylistic influences. Rectilinear plan form. Buildings are typically two or more pavilions rather than a single mass. Steeply-pitched roof forms, typically 35 to 40 degrees on 1800s and early 1900s era buildings and slightly lower on Inter-War buildings, reflecting traditional architectural styles and building methods. Short roof spans, minimising roof bulk. Concave, bullnose and straight-pitched verandahs on front and sometimes side facades reduce the bulk and scale and add visual interest. Lean-to forms are common. Fine-grain detail in elements such as plinths, string courses, projecting sills. High solid to void ratio. Vertical proportions in windows and doors.
	Building height	Single storey, low scale and simple in form.
	Materials	Limestone walls. Red brick or rendered quoin work and details. Timber joinery including window frames, door frames, doors, fascias, bargeboards and verandah posts. Corrugated iron or corrugated steel roofing. Variation in materials assists in breaking down bulk and scale and adds visual interest.
	Fencing	Low, open style construction front fencing (1.2 metres or less) associated with the traditional period and style of building, and providing views to the building. Low timber pickets, post and rails, pier and plinth masonry or wrought iron. Rear and side fencing behind building line up to 1.8 metres, corrugated iron.
Setting, landscaping, streetscape and public realm features	Established garden settings. Varied, small front and side setbacks. Landscaped verges. Garages and carports are sited behind dwellings, accessed from rear laneways or well set back from the front of dwellings.	
Representative Buildings	[Not identified]	

Character Areas affecting Town of Walkerville

Character Areas affecting Town of Walkerville		
WalkC1	Gilberton Character Area Statement (Walk-C1)	
	The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	
	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	Various eras of development that map out the developmental progress of the Walkerville Township, from the late 1870s to early 1900s.
	Allotments, subdivision and built form patterns	Predominantly low density detached dwellings on allotments that are medium in width and of a range of sizes. Some semi-detached and group dwellings on larger allotments.
	Architectural styles, detailing and built form features	The historic built form exhibits a mixture of architectural styles from the late 1800s and early 1900s. Edwardian villas alongside Victorian cottages pepper the locality providing a significant narrative that reflects the contemporaneous construction styles.
	Building height	Predominantly single storey. Two storey additions to the rear of buildings or within the roof space.
Materials	Residences within this area vary in material application. Residences mostly constructed in locally sourced sandstone or bluestone, corrugated galvanised iron roofs and verandahs with cast iron lacework.	
Fencing	Original fencing with bluestone plinths and cast iron fence railings above. Low front fencing.	
		4220

Statement#	Statement	
	Setting, landscaping, streetscape and public realm features	There is a reasonably well established pattern of development, with regular spacing between buildings, front setbacks and roof pitches. The landscape setting is an important element of the area, with generally open, well vegetated streetscapes through a combination of public and private plantings and low fencing forward each dwelling.
	Representative Buildings	[Not identified]

Character Areas affecting City of West Torrens

Ashford Character Area Statement (WeTo-C1)		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
Eras, themes and context	1920s - 1940s	
Allotments, subdivision and built form patterns	Strong uniformity of allotment pattern. Low to very low density site areas. Wide street frontages. Medium sized detached dwellings on substantial allotments.	
Architectural styles, detailing and built form features	Predominantly Tudor and Bungalow dwellings. Articulated hip and gable roofs. Verandahs / porticos. Verandahs as continuation of main roof structure. Additions are generally located to the rear of the dwelling.	
Building height	Generally single storey. Second storey within the roof space.	
Materials	Brick. Painted brick. Stone. Rendered masonry. Corrugated pre-coloured or galvanised iron sheeting. Tiled roofs. Timber windows.	
Fencing	Low fencing facilitating views of the dwelling. Post and rail with woven wire. Low level stone or masonry. Timber picket.	
Setting, landscaping, streetscape and public realm features	Strong uniformity of layout and buildings. Carports and garages are behind the main face of dwellings. Consistent side and rear setbacks, large private yards. Generous traditional well-maintained gardens. Tree lined streets.	
Representative Buildings	[Not identified]	

Cowandilla / Mile End West Character Area Statement (WeTo-C2)		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
Eras, themes and context	1920s - 1940.'s	
Allotments, subdivision and built form patterns	Strong uniformity of allotment pattern. Low to very low density site areas. Narrow and deep allotments. Detached and semi-detached dwellings on substantial allotments.	
Architectural styles, detailing and built form features	Predominantly Californian and State Bank Bungalows with some examples of Spanish Mission; Dutch Colonial dwellings; Detached and semi-detached federation cottages/villas; Victorian era cottages/villas; and Early inter-war dwellings. Gable and Dutch gable roofs with hips. Verandahs / porticos. Additions are generally located to the rear of the dwelling.	
Building height	Generally single storey. Second storey generally within the roof space or otherwise designed to complement single storey character.	
Materials	Brick. Painted brick. Stone. Rendered masonry. Corrugated pre-coloured or galvanised iron sheeting. Timber windows. Brick/red brick chimneys.	
Fencing	Low fencing facilitating views of the dwelling. Post and rail with woven wire. Low level stone or masonry. Timber picket.	
Setting, landscaping, streetscape and public realm features	Strong uniformity of layout and buildings. Consistent side and rear setbacks, large private yards. Carports and garages are behind the main face of dwellings. Generous traditional well-maintained gardens. Tree lined streets.

WeToC6	Thebarton Character Area Statement (WeTo-C6)	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>	
	<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	1890s - 1940s.
	Allotments, subdivision and built form patterns	Medium to very low density site areas. Subdivision consistent with allotment pattern in the immediate locality. Detached, semi-detached and row dwellings on substantial allotments.
	Architectural styles, detailing and built form features	Predominantly detached and semi-detached Victorian and Federation villas/cottages and Bungalow style dwellings with examples of Single fronted cottages; Row dwellings; and Tudor style dwellings. Hip, gable and Dutch gable roofs. Verandahs / porticos. Additions are generally located to the rear of the dwelling.
	Building height	Generally single storey. Second storey within the roof space.
	Materials	Brick. Painted brick. Stone. Corrugated pre-coloured or galvanised iron sheeting. Timber windows. Timber verandah posts. Timber filigree. Red brick chimneys.
Fencing	Low fencing facilitating views of the dwelling. Post and rail with woven wire. Low level stone or masonry. Timber picket.	
Setting, landscaping, streetscape and public realm features	Front setbacks small to medium front and side setbacks. Large rear setbacks provide sense of space. Low site coverage. Carports and garages are behind the main face of dwellings. Well established tree lined streets. Narrow frontages (east of South Road). Vehicle access generally via rear laneways.

Character Areas affecting Whyalla City Council

Whyalla Character Area Statement (Wh-C1)		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
Eras, themes and context	1900 - 1940. Developed in the first 40 years of Whyalla up until the 1940's. Illustrates the increasing prosperity of the city from the small corrugated or rendered masonry cottages to the substantial stone bungalow dwellings constructed by BHP for their senior staff at the steelworks.	
Allotments, subdivision and built form patterns	Pattern of division in predominantly quarter acre lots, generous roads and road reserves with ample provision for on street parking and street planting.	
Architectural styles, detailing and built form features	Colonial Cottages with half-hipped roofs, rendered masonry walls with open verandahs the width of the dwelling, symmetrical fronted dwellings with return verandahs and Bungalow dwellings dominate the architectural style of the dwellings.	
Building height	[Not stated]	
Materials	Corrugated iron, rendered masonry and BHP stone (including stone coins) and BHP brick are the predominant construction materials with corrugated iron roofs.	
Fencing	Simple low picket or low rendered masonry, low open fencing or hedging.	
Setting, landscaping, streetscape and public realm features	Pedestrian and cycle connection to the foreshore, Ada Ryan Gardens and Hummock Hill.	
Representative Buildings	[Not identified]	

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Character Preservation District Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Recognise, protect and enhance the special character of Character Preservation Districts.
DO 2	The long term use of land outside of townships for primary production and associated value adding enterprises is assured and promoted.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated
---------------------	---

		Performance Feature
Land Use and Intensity		
PO 1.1 Land division is undertaken in accordance with Section 8 of the <i>Character Preservation (Barossa Valley) Act 2012</i> and Section 8 of the <i>Character Preservation (McLaren Vale) Act 2012</i> .	DTS/DPF 1.1 None are applicable.	
PO 1.2 Residential development located in townships to reinforce settlement patterns within the district and support the continuation of primary production on land outside townships.	DTS/DPF 1.2 Residential development located within designated township areas of the Character Preservation District Overlay.	
Built Form and Character		
PO 2.1 Development occurring at the edge of townships is sympathetic to the rural landscape and reinforces a clear transition between townships and rural landscape through measures including: (a) being of a low scale (b) orientating residential development towards the rural area (c) ensuring visual separation from the rural area through landscaping and road reserves.	DTS/DPF 2.1 None are applicable.	
PO 2.2 Development contributes to and maintains the historic identity and character of townships through appropriate: (a) form (b) scale (c) siting (d) design (e) landscaping.	DTS/DPF 2.2 None are applicable.	
PO 2.3 Adaptive re-use of rural structures and historic and/or character buildings supports their preservation and ongoing contribution to the landscape.	DTS/DPF 2.3 None are applicable.	
Built Form and Character in the Rural Area		
PO 3.1 Preservation of existing natural features including topography, watercourses and mature trees.	DTS/DPF 3.1 None are applicable.	
PO 3.2 Buildings and structures do not interrupt views of the skyline through measures including being sited below ridge lines.	DTS/DPF 3.2 None are applicable.	
PO 3.3 Buildings and structures harmonise with the natural features of the landscape and reinforce the rural character through the use of muted, neutral, non-reflective landscape colours on external surfaces.	DTS/DPF 3.3 None are applicable.	
PO 3.4 Large buildings and structures are sited and oriented to minimise their visual bulk, particularly if close to roads or in open settings where there are no other buildings or mature trees in close proximity.	DTS/DPF 3.4 None are applicable.	
PO 3.5 Buildings and structures are grouped to create compact clusters well set back from public roads.	DTS/DPF 3.5 None are applicable.	
PO 3.6 Development mitigates the need for long, steep access roads that require excessive grading or removal of vegetation.	DTS/DPF 3.6 None are applicable.	
Earthworks		
PO 4.1 Excavation and filling of land is limited to that associated with: (a) minimising the visual impact of buildings or structures or (a) construction of water storage facilities.	DTS/DPF 4.1 Excavation and/or filling of land is: (a) no greater than 1.5 metres from natural ground level (b) only undertaken in order to reduce the visual impact of buildings or structures or to construct water storage facilities.	

Procedural Matters (PM)

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Coastal Areas Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	The natural coastal environment (including environmentally important features such as mangroves, wetlands, saltmarsh, sand dunes, cliff tops, native vegetation, wildlife habitat, shore and estuarine areas) is conserved and enhanced.
DO 2	Provision is made for natural coastal processes; and recognition is given to current and future coastal hazards including sea level rise, flooding, erosion and dune drift to avoid the need, now and in the future, for public expenditure on protection of the environment and development.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature																	
Land Division																		
<p>PO 1.1</p> <p>Land is divided only if it or the subsequent development and use of the land will not adversely affect the environmental values or ability of the land or adjoining land to adapt to changing coastal processes.</p>	<p>DTS/DPF 1.1</p> <p>Land division for minor adjustment of allotment boundaries removes an anomaly in the current boundaries with respect to the location of buildings or structures.</p>																	
<p>PO 1.2</p> <p>Land is not divided unless a layout is achieved whereby roads, parking areas and development sites for each allotment are at least 0.3m above the standard sea flood risk level, unless the land has, or can be provided with, appropriate and acceptable coastal protection measures.</p>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>																	
<p>PO 1.3</p> <p>Other than small-scale infill land division in a predominantly urban zone, land division adjacent to the coast incorporates an existing or proposed public reserve (not including a road or erosion buffer) of a size adequate to provide for natural coastal processes, public access and recreation.</p>	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>																	
Hazard Risk Minimisation																		
<p>PO 2.1</p> <p>Buildings sited over tidal water or that are not capable of being raised or protected by flood protection measures in the future are protected against the standard sea flood risk level and 1m of sea level rise.</p>	<p>DTS/DPF 2.1</p> <p>Building floor levels are at least 1.25m above the standard sea flood risk level.</p>																	
<p>PO 2.2</p> <p>Development, including associated roads and parking areas, but not minor structures unlikely to be adversely affected by flooding, is protected from the standard sea flood risk level and 1m of sea level rise.</p>	<p>DTS/DPF 2.2</p> <p>Development incorporates finished ground and floor levels not less than:</p> <table border="1" style="width: 100%;"> <thead> <tr> <th>Finished Ground and Floor Levels</th> </tr> </thead> <tbody> <tr><td>Minimum finished floor level is 2.6m AHD</td></tr> <tr><td>Minimum finished floor level is 2.0.4m AHD</td></tr> <tr><td>Minimum finished floor level is 3m AHD</td></tr> <tr><td>Minimum finished floor level is 3.45m AHD</td></tr> <tr><td>Minimum finished floor level is 4.15m AHD</td></tr> <tr><td>Minimum finished floor level is 4.35m AHD</td></tr> <tr><td>Minimum finished floor level is 5.3m AHD</td></tr> <tr><td>Minimum finished ground level is 1.7m AHD; Minimum finished floor level is 1.95m AHD</td></tr> <tr><td>Minimum finished ground level is 1.75m AHD; Minimum finished floor level is 2m AHD</td></tr> <tr><td>Minimum finished ground level is 1.85m AHD; Minimum finished floor level is 2.1m AHD</td></tr> <tr><td>Minimum finished ground level is 1.9m AHD; Minimum finished floor level is 2.15m AHD</td></tr> <tr><td>Minimum finished ground level is 2.2m AHD; Minimum finished floor level is 2.45m AHD</td></tr> <tr><td>Minimum finished ground level is 2.3m AHD; Minimum finished floor level is 2.55m AHD</td></tr> <tr><td>Minimum finished ground level is 2.3m AHD; Minimum finished floor level is 2.6m AHD</td></tr> <tr><td>Minimum finished ground level is 2.4m AHD</td></tr> <tr><td>Minimum finished ground level is 2.4m AHD; Minimum finished floor level is 2.65m AHD</td></tr> </tbody> </table>	Finished Ground and Floor Levels	Minimum finished floor level is 2.6m AHD	Minimum finished floor level is 2.0.4m AHD	Minimum finished floor level is 3m AHD	Minimum finished floor level is 3.45m AHD	Minimum finished floor level is 4.15m AHD	Minimum finished floor level is 4.35m AHD	Minimum finished floor level is 5.3m AHD	Minimum finished ground level is 1.7m AHD; Minimum finished floor level is 1.95m AHD	Minimum finished ground level is 1.75m AHD; Minimum finished floor level is 2m AHD	Minimum finished ground level is 1.85m AHD; Minimum finished floor level is 2.1m AHD	Minimum finished ground level is 1.9m AHD; Minimum finished floor level is 2.15m AHD	Minimum finished ground level is 2.2m AHD; Minimum finished floor level is 2.45m AHD	Minimum finished ground level is 2.3m AHD; Minimum finished floor level is 2.55m AHD	Minimum finished ground level is 2.3m AHD; Minimum finished floor level is 2.6m AHD	Minimum finished ground level is 2.4m AHD	Minimum finished ground level is 2.4m AHD; Minimum finished floor level is 2.65m AHD

	In instances where no value is specified (i.e. there is a blank field): <ul style="list-style-type: none"> (a) finished ground levels allow for sea level rise by being raised 0.3m or more above the standard sea flood risk level (b) finished floor levels are 0.55m or more above the standard sea flood risk level (c) practical measures can be implemented to provide future protection against an additional sea level rise of 0.7m plus an allowance to accommodate 100 years of land subsidence.
PO 2.3 Development will not create or aggravate coastal erosion or require coast protection works that cause or aggravate coastal erosion.	DTS/DPF 2.3 None are applicable.
PO 2.4 Development is set back a sufficient distance from the coast to provide an erosion buffer in addition to a public reserve that will allow for at least 100 years of coastal retreat for single buildings or small-scale developments, or 200 years of coastal retreat for large scale developments unless: <ul style="list-style-type: none"> (a) the development incorporates appropriate private coastal protection measures to protect it from anticipated erosion or (b) there are formal commitments to protect the existing or proposed public reserve and development from anticipated coastal erosion. 	DTS/DPF 2.4 None are applicable.
PO 2.5 Additions or alterations to, or replacement of, a dwelling do not increase the risk of effects from natural coastal processes such as flooding, sea-level rise, sand drift and erosion.	DTS/DPF 2.5 None are applicable.
Coast Protection Works	
PO 3.1 Development avoids the need for coast protection works through measures such as setbacks to protect development from coastal erosion, sea or stormwater flooding, sand drift or other	DTS/DPF 3.1 None are applicable.

coastal processes.	
PO 3.2 Development does not compromise the structural integrity of any sea wall or levee bank or the ability to maintain, modify or upgrade any sea wall or levee bank.	DTS/DPF 3.2 None are applicable.
PO 3.3 Unavoidable coast protection works are the subject of binding agreements to cover the cost of future construction, operation, maintenance and management measures and will not: (a) have an adverse effect on coastal ecology, processes, conservation, public access and amenity (b) require commitment of public resources including land (c) present an unacceptable risk of failure relative to potential hazard resulting from failure.	DTS/DPF 3.3 None are applicable.
Environment Protection	
PO 4.1 Development will not unreasonably affect the marine and onshore coastal environment by pollution, erosion, damage or depletion of physical or biological resources; interference with natural coastal processes; or the introduction of and spread of marine pests or any other means.	DTS/DPF 4.1 None are applicable.
PO 4.2 Development avoids delicate or environmentally sensitive coastal areas such as sand dunes, cliff tops, estuaries, wetlands or substantially intact strata of native vegetation.	DTS/DPF 4.2 None are applicable.
PO 4.3 Development allows for ecological and natural landform adjustment to changing climatic conditions and sea levels, by allowing landward migration of dunes, coastal wetlands, mangrove and samphire areas.	DTS/DPF 4.3 None are applicable.
PO 4.4 Development avoids, or in built up areas minimises, impacts on important habitat areas that support the nesting, breeding and movement/migration patterns of fauna, including threatened shorebirds.	DTS/DPF 4.4 None are applicable.
PO 4.5 Development is designed so that wastewater is disposed of in a manner that avoids pollution or other detrimental impacts on the marine and on-shore environment of coastal areas.	DTS/DPF 4.5 Development is connected, or will be connected, to an approved common wastewater disposal service with the capacity to meet the requirements of the development or on-site wastewater systems set back a minimum of 100m from the Mean High Water Mark at spring tide.
PO 4.6 Development is designed so that stormwater runoff is disposed of in a manner that avoids pollution or other detrimental impacts on the marine and on-shore environment of coastal areas.	DTS/DPF 4.6 None are applicable.
PO 4.7 Development involving the removal of shell grit, cobbles or sand, other than for coastal protection works purposes, is not undertaken.	DTS/DPF 4.7 Development does not involve the removal of shell grit or sand.
Access	
PO 5.1 Development maintains or enhances appropriate public access to and along the foreshore.	DTS/DPF 5.1 None are applicable.
PO 5.2 Public access through sensitive coastal landforms, particularly sand dunes, wetlands and cliffs, is restricted to defined pedestrian paths and constructed to minimise adverse environmental impact.	DTS/DPF 5.2 None are applicable.
PO 5.3 Access roads to the coast, lookouts and places of interest: (a) do not detract from the amenity or the environment (b) are designed for slow-moving traffic (c) are minimised in number.	DTS/DPF 5.3 None are applicable.
PO 5.4 Development on land adjoining a coastal reserve is sited and designed to be compatible with the purpose, management and amenity of the reserve and to prevent inappropriate access to or use of the reserve.	DTS/DPF 5.4 None are applicable.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Except where the development is, in the opinion of the relevant authority, minor in nature and would not warrant a referral when considering the purpose of the referral, the following:</p> <ul style="list-style-type: none"> (a) excavation and/or filling where the total volume of material excavated and/or filled exceeds 9m³ (b) dwellings and habitable buildings that: <ul style="list-style-type: none"> (i) do not meet DTS/DPF 2.2 or (ii) are within 100m of the mean high water mark (c) other than within a Rural Settlement Zone: <ul style="list-style-type: none"> (i) buildings with a floor area greater than 60m² or (ii) tourist accommodation, including a caravan park or (iii) division of land that would create 1 or more additional allotments (d) off-shore structures (e) coast protection works (f) infrastructure within 100m landward of the mean high water mark. 	Coast Protection Board.	<p>To provide expert assessment and direction to the relevant authority on:</p> <ul style="list-style-type: none"> • the risk to development from current and future coastal hazards (including sea-level rise, coastal flooding, erosion, dune drift and acid sulfate soils); • coast protection works; • potential impacts from development on public access and the coastal environment (including important coastal features). 	Development of a class to which Schedule 9 clause 3 item 3 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

Coastal Flooding Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Recognition of coastal flood hazards to avoid the need, now and in the future, for public expenditure on protection of the environment and development.

Desired Outcome (DO)

Desired Outcome	
DO 1	Management of risk to public safety, the environment and security of energy supply from the encroachment of development on strategic gas and liquid petroleum pipelines.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
<p>PO 1.1</p> <p>Community exposure to a potential hazard from the failure of a gas or liquid petroleum pipeline is mitigated by locating development that may accommodate or result in large congregations of people, buildings for housing and / or caring for vulnerable people and community facilities outside areas that pose an unacceptable risk to protect life.</p>	<p>DTS/DPF 1.1</p> <p>Development satisfies one of the following:</p> <p>(a) it does not comprise:</p> <ul style="list-style-type: none"> (i) caravan and tourist park (ii) educational establishment (iii) buildings comprising 3 or more building levels (iv) land division creating allotments under 1ha for residential purposes (except where the existing allotment is less than 1ha) (v) prison (vi) pre-school (vii) residential park (viii) retirement facility (ix) student accommodation (x) supported accommodation (xi) shop or shops with a gross leasable floor area of 1000m² or greater (xii) tourist accommodation (xiii) stadium <p>(b) a class of development referred to in part (a), or any combination thereof, which will occur in accordance with an agreement under section 123 of the <i>Planning, Development and Infrastructure Act, 2016</i></p>
<p>PO 1.2</p> <p>Emergency service and major community health related facilities are located outside areas where a gas or liquid petroleum pipeline failure may disrupt ongoing operations to maintain the response capacity in the event of an emergency.</p>	<p>DTS/DPF 1.2</p> <p>Development does not comprise any of the following:</p> <ul style="list-style-type: none"> (a) emergency services facility (b) hospital.
<p>PO 1.3</p> <p>Development involving the manufacture, collection, handling or bulk storage of flammable, explosive, or otherwise hazardous materials is located and designed to avoid escalating the potential for and effects of a gas or liquid petroleum pipeline failure.</p>	<p>DTS/DPF 1.3</p> <p>Development satisfies one of the following:</p> <p>(a) it does not comprise:</p> <ul style="list-style-type: none"> (i) general industry (ii) special industry (iii) landfill (iv) renewable energy facility (v) electricity substation (vi) fuel depot (vii) retail fuel outlet (viii) store (ix) warehouse (x) waste treatment facility

(b) a class of development referred to in part (a), or any combination thereof, which will occur in accordance with an agreement under section 123 of the *Planning, Development and Infrastructure Act, 2016*

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Except where the development is, in the opinion of the relevant authority, minor in nature and would not warrant a referral when considering the purpose of the referral, a class of development that does not satisfy Gas and Liquid Petroleum Pipelines Overlay DTS/DPF 1.1, 1.2 and 1.3.	The Chief Executive of the Department of the Minister responsible for administering the <i>Petroleum and Geothermal Energy Act 2000</i> .	To provide expert assessment and direction to the relevant authority in relation to: (a) potential safety issues relating to development or (b) the potential for development to adversely impact upon the lawful continued operation of strategic infrastructure (gas and liquid petroleum pipelines).	Development of a class to which Schedule 9 clause 3 item 9B of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

Gas and Liquid Petroleum Pipelines (Facilities) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Management of risk to public safety, the environment and security of energy supply from the encroachment of development on gas and liquid petroleum pipeline facilities.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Safety	
PO 1.1 Development (including land division) does not present a risk to public health and safety due to any of the following: (a) continuous noise associated with pipeline facilities used for energy transportation that exceeds the Environment Protection (Noise) Policy (b) potential for occasional noise associated with high pressure venting.	DTS/DPF 1.1 Development (including land division creating additional allotments for such purposes) comprises one or more of the following: (a) open space (b) roadways (c) a class of development that will occur in accordance with an agreement under section 123 of the <i>Planning, Development and Infrastructure Act, 2016</i> (d) a dwelling or ancillary building/structure on an allotment approved for residential purposes.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Except where the development is, in the opinion of the relevant authority, minor in nature and would not warrant a referral when considering the purpose of the referral, a class of development that does not satisfy Overlay DTS/DPF 1.1.	The Chief Executive of the Department of the Minister responsible for administering the <i>Petroleum and Geothermal Energy Act 2000</i> .	To provide expert assessment and direction to the relevant authority in relation to: (a) potential safety issues relating to development or (b) the potential for development to adversely impact upon the lawful continued operation of strategic infrastructure (gas and liquid petroleum pipelines).	Development of a class to which Schedule 9 clause 3 item 9B of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	The visual amenity and streetscape appeal along prominent entrances into towns, tourist and historic precincts, activity centres and main streets is maintained and improved through the careful siting of buildings and other activities in a well landscaped setting.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Built Form and Character	
PO 1.1 Buildings are set back from main roads to support a consistent high-quality streetscape character where the prominence of larger buildings is appropriately mitigated.	DTS/DPF 1.1 Buildings are set back at least the height of the building and no less than 10m from arterial and main roads and highways, whichever is the greater.
PO 1.2 Building are set back from side boundaries to moderate the appearance of buildings and enhance the outlook from arterial and main roads and highways.	DTS/DPF 1.2 None are applicable.
PO 1.3 The main facade of principal buildings facing arterial and main roads and highways incorporate articulation and various materials to promote a high standard of building design and external appearance.	DTS/DPF 1.3 None are applicable.
Landscape Amenity	
PO 2.1 Ancillary buildings including carports, outbuildings and garages, other minor structures, waste storage bins and outdoor storage areas are sited to reduce visual clutter and untidiness from arterial and main roads and highways.	DTS/DPF 2.1 Ancillary buildings including carports, outbuildings and garages, other minor structures, waste storage bins and outdoor storage areas are located in a manner to satisfy one of the following: (a) behind principal building(s) facing arterial and main roads and highways (b) behind the building line of principal building(s) and obscured from public view from arterial and main roads and highways by solid fencing or landscaping.
Landscaping	
PO 3.1 Development incorporates generous landscaping areas along the frontage to arterial roads and highways to enhance visual amenity and complement associated buildings.	DTS/DPF 3.1 None are applicable.
PO 3.2 Existing mature on-site vegetation is retained and incorporated into landscape and parking areas to enhance the appearance of land and buildings.	DTS/DPF 3.2 None are applicable.
PO 3.3 Development incorporates generous landscaping areas along the frontage to arterial roads and landscaped using a combination of high crown evergreen trees, low shrubs and groundcovers to enhance visual amenity and complement the associated buildings.	DTS/DPF 3.3 None are applicable.
PO 3.4 Vehicle parking areas are located and designed to enhance the streetscape setting by: (a) being located to the side or rear of buildings facing arterial and main roads and highways (b) incorporating landscaping, including trees, to break up large parking areas.	DTS/DPF 3.4 None are applicable.
Advertisements	
PO 4.1 Advertisements along arterial and main roads, and highways are consistent in height, size and design to support a cohesive and uniform appearance in gateway locations without dominating the streetscape.	DTS/DPF 4.1 Advertisements meet all the following: (a) will not result in more than 1 advertisement per allotment (b) will not exceed 5m in height (c) do not exceed 3m ² per advertising face (d) are not internally illuminated (e) are not animated, flash or move in any way.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Hazards (Acid Sulfate Soils) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development is located and undertaken to minimise disturbance of potential or actual acid sulfate soils and / or the release of acid drainage.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development that involves excavation or a change to a water table where potential or actual acid sulfate soils are present is undertaken to minimise soil disturbance or drainage; prevent or minimise oxidation; and contain and treat any acid drainage to prevent harm or damage to the environment, primary production, buildings, structures and infrastructure or public health.	DTS/DPF 1.1 Development does not involve or cause: (a) excavation of land (b) change to a water table.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Hazards (Bushfire - General Risk) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development, including land division responds to the general level of bushfire risk by siting and designing buildings in a manner that mitigates the threat and impact of bushfires on life and property taking into account the increased frequency and intensity of bushfires as a result of climate change.
DO 2	To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Siting	
PO 1.1 Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain.	DTS/DPF 1.1 None are applicable. 4237

Built Form	
<p>PO 2.1</p> <p>Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
<p>PO 2.2</p> <p>Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and Workers' accommodation) in the event of bushfire.</p>	<p>DTS/DPF 2.2</p> <p>Outbuildings and other ancillary structures are sited no closer than 6m from the habitable building.</p>
Habitable Buildings	
<p>PO 3.1</p> <p>To minimise the threat, impact and exposure to bushfires on life and property, residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments away from steep slopes.</p>	<p>DTS/DPF 3.1</p> <p>None are applicable.</p>
<p>PO 3.2</p> <p>Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited away from vegetated areas that pose an unacceptable bushfire risk.</p>	<p>DTS/DPF 3.2</p> <p>Residential and tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zone(s) in accordance with (a) and (b):</p> <p>(a) the asset protection zone has a minimum width of at least:</p> <ul style="list-style-type: none"> (i) 50 metres to unmanaged grasslands (ii) 100 metres to hazardous bushland vegetation <p>(b) the asset protection zone is contained wholly within the allotment of the development.</p>
<p>PO 3.3</p> <p>Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) has a dedicated area available that is capable of accommodating a bushfire protection system comprising firefighting equipment and water supply in accordance with <i>Ministerial Building Standard MBS 008 - Designated bushfire prone areas - additional requirements</i>.</p>	<p>DTS/DPF 3.3</p> <p>None are applicable.</p>
Land Division	
<p>PO 4.1</p> <p>Land division is designed and incorporates measures to minimise the danger of fire hazard to residents and occupants of buildings, and to protect buildings and property from physical damage in the event of a bushfire.</p>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>
<p>PO 4.2</p> <p>Land division is designed to provide a continuous street pattern to facilitate the safe movement and evacuation of emergency vehicles, residents, occupants and visitors.</p>	<p>DTS/DPF 4.2</p> <p>None are applicable.</p>
<p>PO 4.3</p> <p>Where 10 or more new allotments are proposed, land division includes at least two separate and safe exit points to enable multiple avenues of evacuation in the event of a bushfire.</p>	<p>DTS/DPF 4.3</p> <p>None are applicable.</p>
<p>PO 4.4</p> <p>Land division incorporates perimeter roads of adequate design in conjunction with bushfire buffer zones to achieve adequate separation between residential allotments and areas of unacceptable bushfire risk and to support safe access for the purposes of fire-fighting.</p>	<p>DTS/DPF 4.4</p> <p>None are applicable.</p>
Vehicle Access – Roads, Driveways and Fire Tracks	
<p>PO 5.1</p> <p>Roads are designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> (a) access, operation and evacuation of fire-fighting vehicles and emergency personnel (b) evacuation of residents, occupants and visitors. 	<p>DTS/DPF 5.1</p> <p>Roads:</p> <ul style="list-style-type: none"> (a) are constructed with a formed, all-weather surface (b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road (c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road (d) have a minimum formed road width of 6m (e) provide overhead clearance of not less than 4m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1) (f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2) (g) incorporating cul-de-sac endings or dead end roads do not exceed 200m in length and the end of the road has either: <ul style="list-style-type: none"> (i) a turning area with a minimum formed surface radius of 12.5m (Figure 3) or (ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length 4236m

	and minimum internal radii of 9.5m (Figure 4)
	(h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.
<p>PO 5.2</p> <p>Access to habitable buildings is designed and constructed to facilitate the safe and effective:</p> <p>(a) access, operation and evacuation of fire-fighting vehicles and emergency personnel</p> <p>(b) evacuation of residents, occupants and visitors</p>	<p>DTS/DPF 5.2</p> <p>Access is in accordance with (a) or (b):</p> <p>(a) a clear and unobstructed vehicle or pedestrian pathway of not greater than 60 metres in length is available between the most distant part of the habitable building and the nearest part of a formed public access road</p> <p>(b) driveways:</p> <p>(i) do not exceed 600m in length</p> <p>(ii) are constructed with a formed, all-weather surface</p> <p>(iii) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8)</p> <p>(iv) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway</p> <p>(v) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the driveway</p> <p>(vi) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 1)</p> <p>(vii) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 5)</p> <p>(viii) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 1)</p> <p>(ix) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)</p> <p>(x) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by using a 'U' shaped drive through design or by incorporating at the end of the driveway either:</p> <p>A. a loop road around the building</p> <p>B. a turning area with a minimum radius of 12.5m (Figure 3)</p> <p>C. a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 4)</p> <p>(xi) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</p>
<p>PO 5.3</p> <p>Development does not rely on fire tracks as means of evacuation or access for fire-fighting purposes unless there are no safe alternatives available.</p>	<p>DTS/DPF 5.3</p> <p>None are applicable.</p>

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

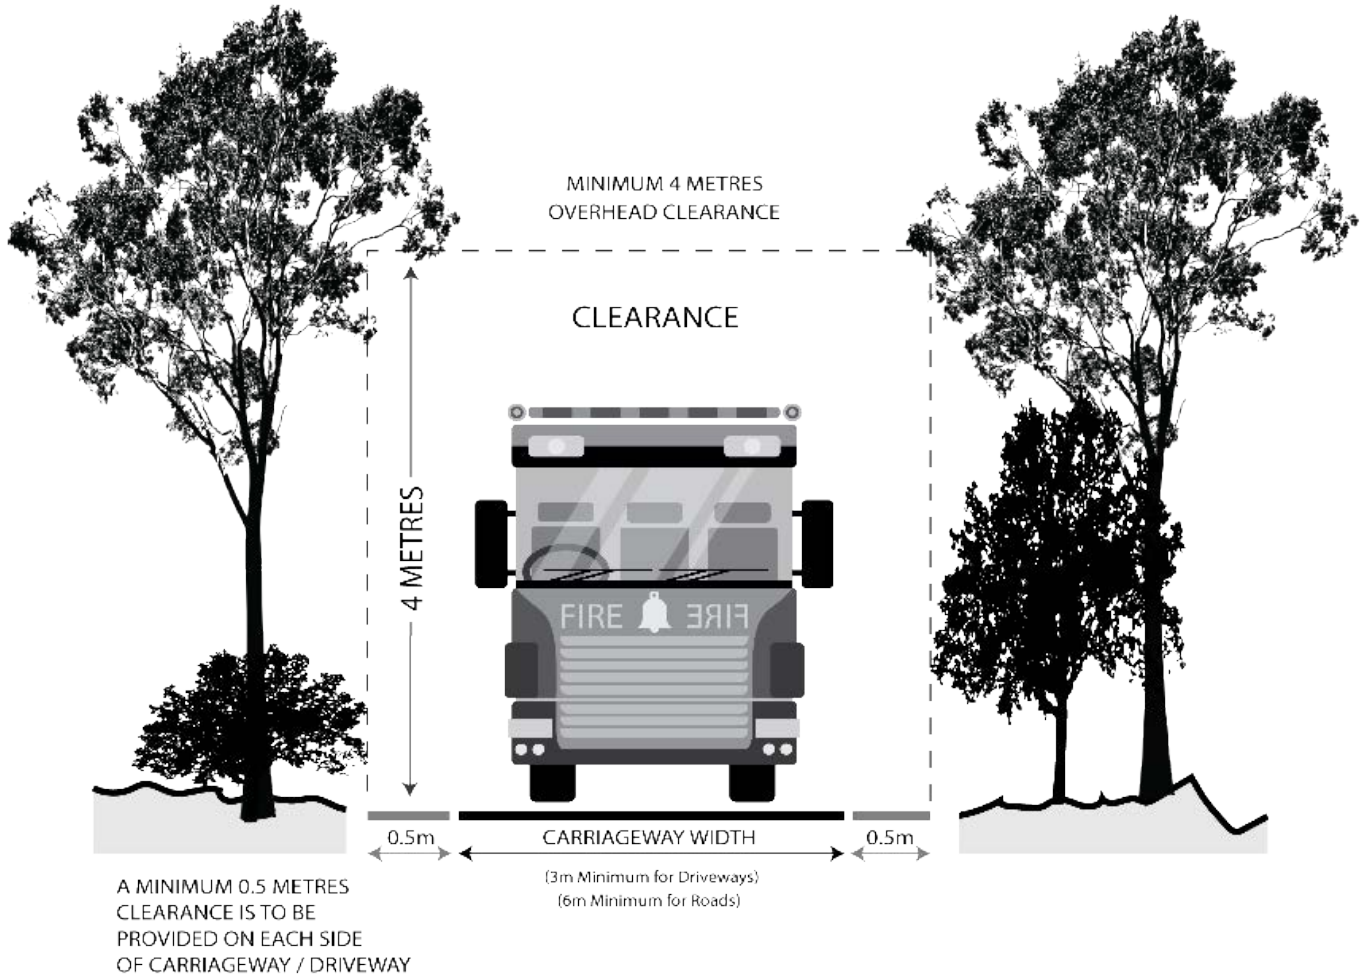

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference

Passing bay for fire trucks - minimum width
6 metres, minimum length 17 metres.

Hazards (Bushfire - High Risk) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome

DO 1	Development, including land division is sited and designed to minimise the threat and impact of bushfires on life and property with regard to the following risks: <ul style="list-style-type: none"> (a) potential for uncontrolled bushfire events taking into account the increased frequency and intensity of bushfires as a result of climate change (b) high levels and exposure to ember attack (c) impact from burning debris (d) radiant heat (e) likelihood and direct exposure to flames from a fire front.
DO 2	Activities that increase the number of people living and working in the area or where evacuation would be difficult is sited away from areas of unacceptable bushfire risk.
DO 3	To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
PO 1.1 Development that significantly increases the potential for fire outbreak as a result of the spontaneous combustion of materials, spark generation or through the magnification and reflection of light is not located in areas of unacceptable bushfire risk.	DTS/DPF 1.1 None are applicable.
PO 1.2 Pre-schools, educational establishments, hospitals, retirement and supported accommodation are sited away from areas of unacceptable bushfire risk and locations that: <ul style="list-style-type: none"> (a) are remote from or require extended periods of travel to reach safer locations (b) don't have a safe path of travel to safer locations. 	DTS/DPF 1.2 None are applicable.
Siting	
PO 2.1 Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain.	DTS/DPF 2.1 None are applicable.
Built Form	
PO 3.1 Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts.	DTS/DPF 3.1 None are applicable.
PO 3.2 Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and Workers' accommodation) in the event of bushfire.	DTS/DPF 3.2 Outbuildings and other ancillary structures are sited no closer than 6m from the habitable building.
Habitable Buildings	
PO 4.1 To minimise the threat, impact and potential exposure to bushfires on life and property, residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments away from steep slopes.	DTS/DPF 4.1 None are applicable.
PO 4.2 Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited away from vegetated areas that pose an unacceptable bushfire risk.	DTS/DPF 4.2 Residential and tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zone(s) in accordance with (a) and (b): <ul style="list-style-type: none"> (a) the asset protection zone has a minimum width of at least: <ul style="list-style-type: none"> (i) 50 metres to unmanaged grasslands (ii) 100 metres to hazardous bushland vegetation (b) the asset protection zone is contained wholly within the allotment of the development.
PO 4.3 Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) has a dedicated area available that:	DTS/DPF 4.3 None are applicable.

<p>(a) is capable of accommodating a bushfire protection system comprising firefighting equipment and water supply in accordance with <i>Ministerial Building Standard MBS 008 - Designated bushfire prone areas - additional requirements</i></p> <p>(b) includes the provision of an all-weather hardstand area in a location that:</p> <ul style="list-style-type: none"> (i) allows fire-fighting vehicles to safely access the dedicated water supply and exit the site in a forward direction (ii) is no further than 6 metres from the dedicated water supply outlet(s) where required. 	
Land Division	
<p>PO 5.1</p> <p>Land division for residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is limited to those areas specifically set aside for these uses.</p>	<p>DTS/DPF 5.1</p> <p>None are applicable.</p>
<p>PO 5.2</p> <p>Land division is designed and incorporates measures to minimise the danger of fire hazard to residents and occupants of buildings, and to protect buildings and property from physical damage in the event of a bushfire.</p>	<p>DTS/DPF 5.2</p> <p>None are applicable.</p>
<p>PO 5.3</p> <p>Land division is designed to provide a continuous street pattern (avoiding the use of dead end roads/cul-de-sac road design) to facilitate the safe movement and evacuation of emergency vehicles, residents, occupants and visitors. Where cul-de-sac / dead end roads are proposed, an alternative emergency evacuation route is provided.</p>	<p>DTS/DPF 5.3</p> <p>None are applicable.</p>
<p>PO 5.4</p> <p>Where 10 or more new allotments are proposed, land division includes at least two separate and safe exit points to enable multiple avenues of evacuation in the event of a bushfire.</p>	<p>DTS/DPF 5.4</p> <p>None are applicable.</p>
<p>PO 5.5</p> <p>Land division provides sufficient space for future asset protection zones and incorporates perimeter roads of adequate design in conjunction with bushfire buffer zones to achieve adequate separation between residential allotments and areas of unacceptable bushfire risk and to support safe access for the purposes of fire-fighting.</p>	<p>DTS/DPF 5.5</p> <p>None are applicable.</p>
Vehicle Access – Roads, Driveways and Fire Tracks	
<p>PO 6.1</p> <p>Roads are designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> (a) access, operation and evacuation of fire-fighting vehicles and emergency personnel (b) evacuation of residents, occupants and visitors. 	<p>DTS/DPF 6.1</p> <p>Roads:</p> <ul style="list-style-type: none"> (a) are constructed with a formed, all-weather surface (b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road (c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road (d) have a minimum formed road width of 6m (e) provide overhead clearance of not less than 4.0m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1) (f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2) (g) incorporating cul-de-sac endings or dead end roads are provided within an alternative evacuation route and do not exceed 200m in length and the end of the road has either: <ul style="list-style-type: none"> (i) a turning area with a minimum formed surface radius of 12.5m (Figure 3) or (ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 4) (h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.
<p>PO 6.2</p> <p>Access to habitable buildings is designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> (a) use, operation and evacuation of fire-fighting and emergency personnel (b) evacuation of residents, occupants and visitors. 	<p>DTS/DPF 6.2</p> <p>Access is in accordance with (a) or (b):</p> <ul style="list-style-type: none"> (a) a clear and unobstructed vehicle or pedestrian pathway of not greater than 60 metres in length is available between the most distant part of the habitable building and the nearest part of a formed public access road (b) driveways: <ul style="list-style-type: none"> (i) do not exceed 600m in length (ii) are constructed with a formed, all-weather surface (iii) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8) (iv) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway (v) have a crossfall of not more than 6 degrees (1-in-9.5) at any point along the driveway

	<ul style="list-style-type: none"> (vi) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 1) (vii) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 5) (viii) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 1) (ix) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 2) (x) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by using a 'U' shaped drive through design or by incorporating at the end of the driveway either: <ul style="list-style-type: none"> A. a loop road around the building or B. a turning area with a minimum radius of 12.5m (Figure 3) or C. a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 4) (xi) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.
<p>PO 6.3</p> <p>Development does not rely on fire tracks as means of evacuation or access for fire-fighting purposes unless there are no safe alternatives available.</p>	<p>DTS/DPF 6.3</p> <p>None are applicable.</p>

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Except if a relevant certificate accompanies the application for planning consent in respect of the development, any of the following classes of development (including alterations and additions which increase the floor area of such buildings by 10% or more):</p> <ul style="list-style-type: none"> (a) land division creating one or more additional allotments (b) dwelling (c) ancillary accommodation (d) residential flat building (e) tourist accommodation (f) boarding home (g) dormitory style accommodation (h) workers' accommodation (i) student accommodation (j) pre-school (k) educational establishment (l) retirement village (m) supported accommodation (n) residential park (o) hospital (p) camp ground. 	<p>South Australian Country Fire Service.</p>	<p>To provide expert assessment and direction to the relevant authority on the potential impacts of bushfire on the development.</p>	<p>Development of a class to which Schedule 9 clause 3 item 2 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>

6 metres, minimum length 17 metres.

Hazards (Bushfire - Medium Risk) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome

DO 1	Development, including land division responds to the medium level of bushfire risk and potential for ember attack and radiant heat by siting and designing buildings in a manner that mitigates the threat and impact of bushfires on life and property taking into account the increased frequency and intensity of bushfires as a result of climate change.
DO 2	To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Siting	
PO 1.1 Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain.	DTS/DPF 1.1 None are applicable.
Built Form	
PO 2.1 Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts.	DTS/DPF 2.1 None are applicable.
PO 2.2 Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and Workers' accommodation) in the event of bushfire.	DTS/DPF 2.2 Outbuildings and other ancillary structures are sited no closer than 6m from the habitable building.
Habitable Buildings	
PO 3.1 To minimise the threat, impact and potential exposure to bushfires on life and property, residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments away from steep slopes.	DTS/DPF 3.1 None are applicable.
PO 3.2 Residential, tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited away from vegetated areas that pose an unacceptable bushfire risk.	DTS/DPF 3.2 Residential, tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zone(s) in accordance with (a) and (b): (a) the asset protection zone has a minimum width of at least: (i) 50 metres to unmanaged grasslands (ii) 100 metres to hazardous bushland vegetation (b) the asset protection zone is contained wholly within the allotment of the development.
PO 3.3 Residential, tourist accommodation and habitable buildings for vulnerable communities, (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation), has a dedicated area available that is capable of accommodating a bushfire protection system comprising firefighting equipment and water supply in accordance with <i>Ministerial Building Standard MBS 008 - Designated bushfire prone areas - additional requirements</i> .	DTS/DPF 3.3 None are applicable.
Land Division	
PO 4.1 Land division is designed and incorporates measures to minimise the danger of fire hazard to residents and occupants of buildings, and to protect buildings and property from physical damage in the event of a bushfire.	DTS/DPF 4.1 None are applicable.
PO 4.2 Land division is designed to provide a continuous street pattern to facilitate the safe movement and evacuation of emergency vehicles, residents, occupants and visitors.	DTS/DPF 4.2 None are applicable.
PO 4.3 Where 10 or more new allotments are proposed, land division includes at least two separate and safe exit points to enable multiple avenues of evacuation in the event of a bushfire.	DTS/DPF 4.3 None are applicable.
PO 4.4	DTS/DPF 4.4

<p>Land division incorporates perimeter roads of adequate design in conjunction with bushfire buffer zones to achieve adequate separation between residential allotments and areas of unacceptable bushfire risk and to support safe access for the purposes of fire-fighting.</p>	<p>None are applicable.</p>
<p>Vehicle Access - Roads, Driveways and Fire Tracks</p>	
<p>PO 5.1</p> <p>Roads are designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> (a) access, operation and evacuation of fire-fighting vehicles and emergency personnel (b) evacuation of residents, occupants and visitors. 	<p>DTS/DPF 5.1</p> <p>Roads:</p> <ul style="list-style-type: none"> (a) are constructed with a formed, all-weather surface (b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road (c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road (d) have a minimum formed road width of 6m (e) provide overhead clearance of not less than 4.0m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1) (f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2) (g) incorporating cul-de-sac endings or dead end roads do not exceed 200m in length and the end of the road has either: <ul style="list-style-type: none"> (i) a turning area with a minimum formed surface radius of 12.5m (Figure 3) or (ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 4) (h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.
<p>PO 5.2</p> <p>Access to habitable buildings is designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> (a) access, operation and evacuation of fire-fighting vehicles and emergency personnel (b) evacuation of residents, occupants and visitors. 	<p>DTS/DPF 5.2</p> <p>Access is in accordance with (a) or (b):</p> <ul style="list-style-type: none"> (a) a clear and unobstructed vehicle or pedestrian pathway of not greater than 60 metres in length is available between the most distant part of the habitable building and the nearest part of a formed public access road (b) driveways: <ul style="list-style-type: none"> (i) do not exceed 600m in length (ii) are constructed with a formed, all-weather surface (iii) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8) (iv) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway (v) have a crossfall of not more than 6 degrees (1-in-9.5) at any point along the driveway (vi) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 1) (vii) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 5) (viii) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 1) (ix) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 2) (x) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by using a 'U' shaped drive through design or by incorporating at the end of the driveway either: <ul style="list-style-type: none"> A. a loop road around the building or B. a turning area with a minimum radius of 12.5m (Figure 3) or C. a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 4) (xi) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.
<p>PO 5.3</p> <p>Development does not rely on fire tracks as means of evacuation or access for fire-fighting purposes unless there are no safe alternatives available.</p>	<p>DTS/DPF 5.3</p> <p>None are applicable.</p>

Procedural Matters (PM) - Referrals

Hazards (Bushfire - Regional) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome

DO 1	Development, including land division responds to the relevant level of bushfire risk and is sited and designed to mitigate the threat and impact of bushfires on life and property taking into account the increased frequency and intensity of bushfires as a result of climate change.
DO 2	To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Siting	
PO 1.1 Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain.	DTS/DPF 1.1 None are applicable.
Built Form	
PO 2.1 Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts.	DTS/DPF 2.1 None are applicable.
PO 2.2 Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) in the event of bushfire.	DTS/DPF 2.2 Outbuildings and other ancillary structures are sited no closer than 6m from the habitable building.
Habitable Buildings	
PO 3.1 To minimise the threat, impact and exposure to bushfires on life and property, residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments away from steep slopes.	DTS/DPF 3.1 None are applicable.
PO 3.2 Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited away from vegetated areas that pose an unacceptable bushfire risk.	DTS/DPF 3.2 Residential and tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zone(s) in accordance with (a) and (b): (a) the asset protection zone has a minimum width of at least: (i) 50 metres to unmanaged grasslands (ii) 100 metres to hazardous bushland vegetation (b) the asset protection zone is contained wholly within the allotment of the development.
PO 3.3 Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) has a dedicated and accessible water supply available at all times for fire-fighting purposes.	DTS/DPF 3.3 Development has a dedicated water supply available at all times for fire-fighting purposes: (a) comprising a minimum of 5000 litres (b) positioned in an accessible location and accompanied with necessary equipment to allow occupants to minimise the spread of bushfire to the habitable building(s).
Land Division	
PO 4.1 Land division is designed to and incorporates measures to minimise the danger of fire hazard to residents and occupants of buildings, and to protect buildings and property from physical damage in the event of a bushfire.	DTS/DPF 4.1 None are applicable.
PO 4.2 Land division designed to provide a continuous street pattern to facilitate the safe movement and evacuation of emergency vehicles, residents, occupants and visitors.	DTS/DPF 4.2 None are applicable.
PO 4.3 Where 10 or more new allotments are proposed, land division includes at least two separate and safe exit points to enable multiple avenues of evacuation in the event of a bushfire.	DTS/DPF 4.3 None are applicable.
PO 4.4 Land division incorporates perimeter roads of adequate design in conjunction with bushfire buffer zones to achieve adequate separation between residential allotments and areas of	DTS/DPF 4.4 None are applicable.

unacceptable bushfire risk and to support safe access for the purposes of fire-fighting.	
Vehicle Access -Roads and Driveways	
<p>PO 5.1</p> <p>Roads are designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> (a) access, operation and evacuation of fire-fighting vehicles and emergency personnel (b) evacuation of residents, occupants and visitors. 	<p>DTS/DPF 5.1</p> <p>Roads:</p> <ul style="list-style-type: none"> (a) are constructed with a formed, all-weather surface (b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road (c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road (d) have a minimum formed road width of 6m (e) provide overhead clearance of not less than 4.0m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1) (f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2) (g) incorporating cul-de-sac endings or dead end roads do not exceed 200m in length and the end of the road has either: <ul style="list-style-type: none"> (i) a turning area with a minimum formed surface radius of 12.5m (Figure 3) or (ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 4) (h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.
<p>PO 5.2</p> <p>Access to habitable buildings is designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> (a) access, operation and evacuation of fire-fighting vehicles and emergency personnel (b) evacuation of residents, occupants and visitors. 	<p>DTS/DPF 5.2</p> <p>Access is in accordance with (a) or (b):</p> <ul style="list-style-type: none"> (a) a clear and unobstructed vehicle or pedestrian pathway of not greater than 60 metres in length is available between the most distant part of the habitable building and the nearest part of a formed public access road (b) driveways: <ul style="list-style-type: none"> (i) do not exceed 600m in length (ii) are constructed with a formed, all-weather surface (iii) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8) (iv) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway (v) have a crossfall of not more than 6 degrees (1-in-9.5) at any point along the driveway (vi) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 1) (vii) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 5) (viii) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 1) (ix) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 2) (x) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by using a 'U' shaped drive through design or by incorporating at the end of the driveway either: <ul style="list-style-type: none"> A. a loop road around the building or B. a turning area with a minimum radius of 12.5m (Figure 3) or C. a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 4) (xi) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.

<p>PO 1.6</p> <p>Land division resulting in 10 or more new allotments and within 100m a Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire - Medium Risk) Overlay or Hazards (Bushfire - High Risk) Overlay is designed and incorporates measures to minimise the danger of fire hazard to residents and occupants of buildings, and to protect buildings and property from physical damage in the event of a bushfire.</p>	<p>DTS/DPF1.6</p> <p>Land division is not located within 100m of a Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire - Medium Risk) Overlay or Hazards (Bushfire - High Risk) Overlay or does not create 10 or more new allotments.</p>
Vehicle Access - Roads, Driveways and Fire Tracks	
<p>PO 2.1</p> <p>Roads that are within 100 metres of a Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire - Medium Risk) Overlay or Hazards (Bushfire - High Risk) Overlay are designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> (a) access, operation and evacuation of fire-fighting vehicles and emergency personnel (b) evacuation of residents, occupants and visitors. 	<p>DTS/DPF 2.1</p> <p>Any proposed new roads are not within 100m of a Hazards (Bushfire - General Risk) Overlay, Hazards (Bushfire - Medium Risk) Overlay or Hazards (Bushfire - High Risk) Overlay or</p> <ul style="list-style-type: none"> (a) are constructed with a formed, all-weather surface (b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road (c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road (d) have a minimum formed road width of 6m (e) provide overhead clearance of not less than 4.0m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1) (f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2) (g) incorporating cul-de-sac endings or dead end roads do not exceed 200m in length and the end of the road has either: <ul style="list-style-type: none"> (i) a turning area with a minimum formed surface radius of 12.5m (Figure 3) or (ii) a "T" or "Y" shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 4) (h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.

Procedural Matters (PM) - Referrals

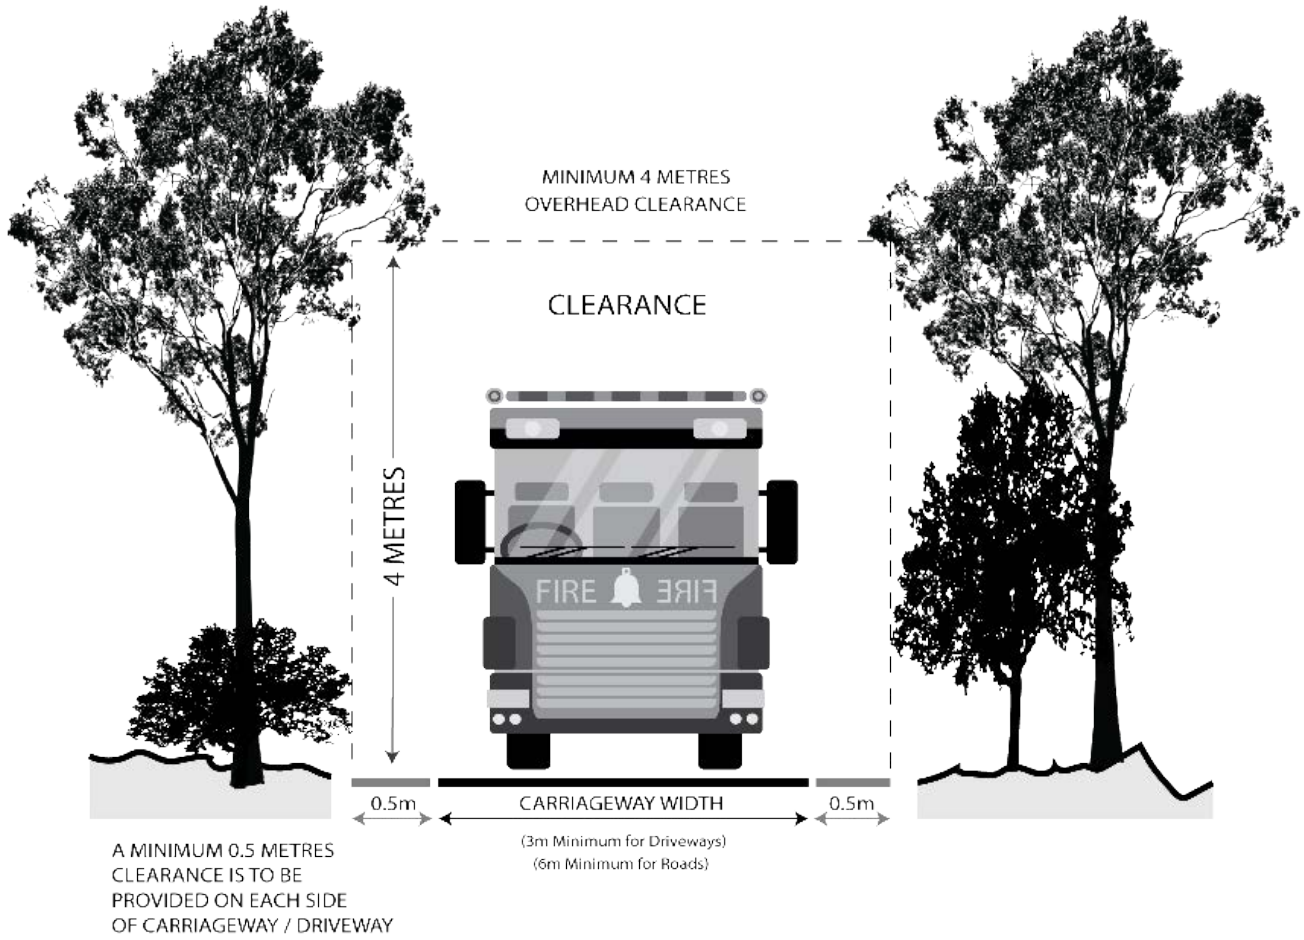

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
			4263

Figures and Diagrams

Fire Engine and Appliance Clearances

Figure 1 - Overhead and Side Clearances

Roads and Driveway Design

Figure 2 - Road and Driveway Curves

Curves to allow fire trucks to turn into the track without having to back-up several times - minimum external radius of 12.5m.

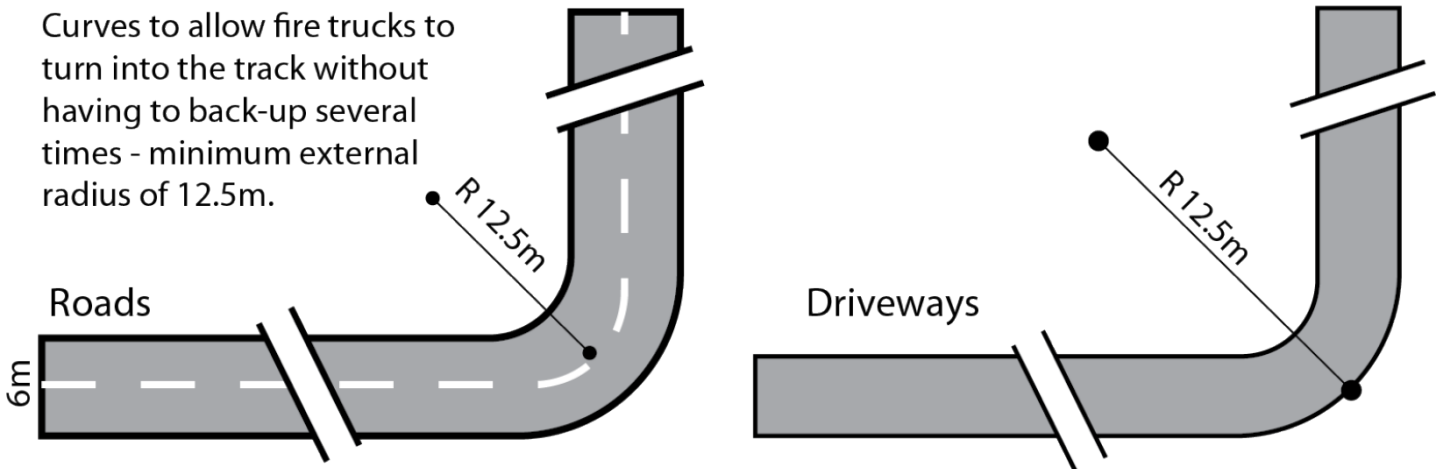

Figure 3 - Full Circle Turning Area

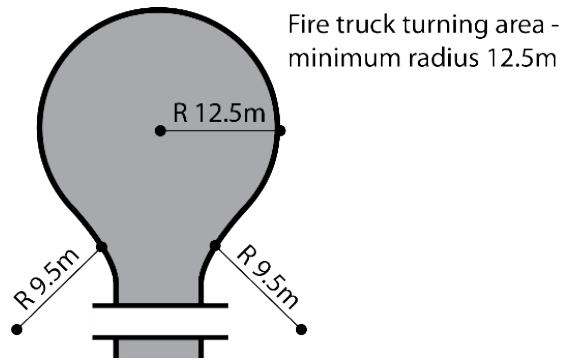

Figure 4 - 'T' or 'Y' Shaped Turning Head

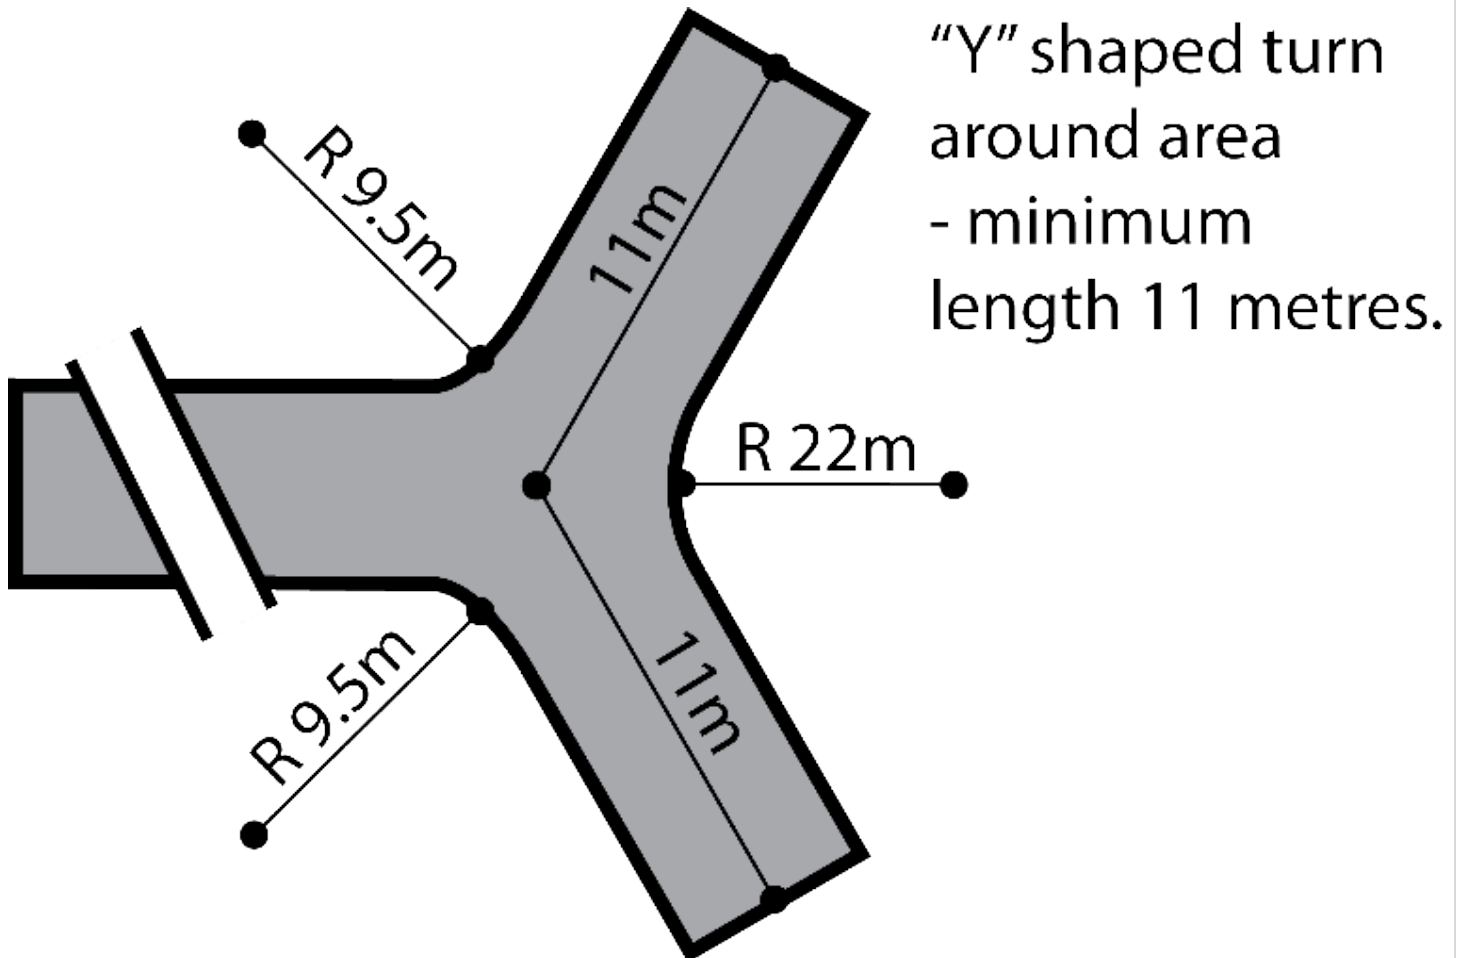

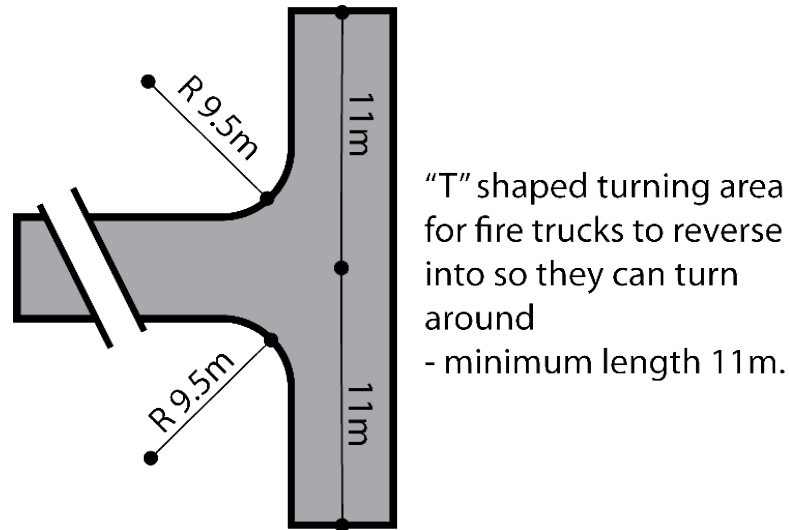

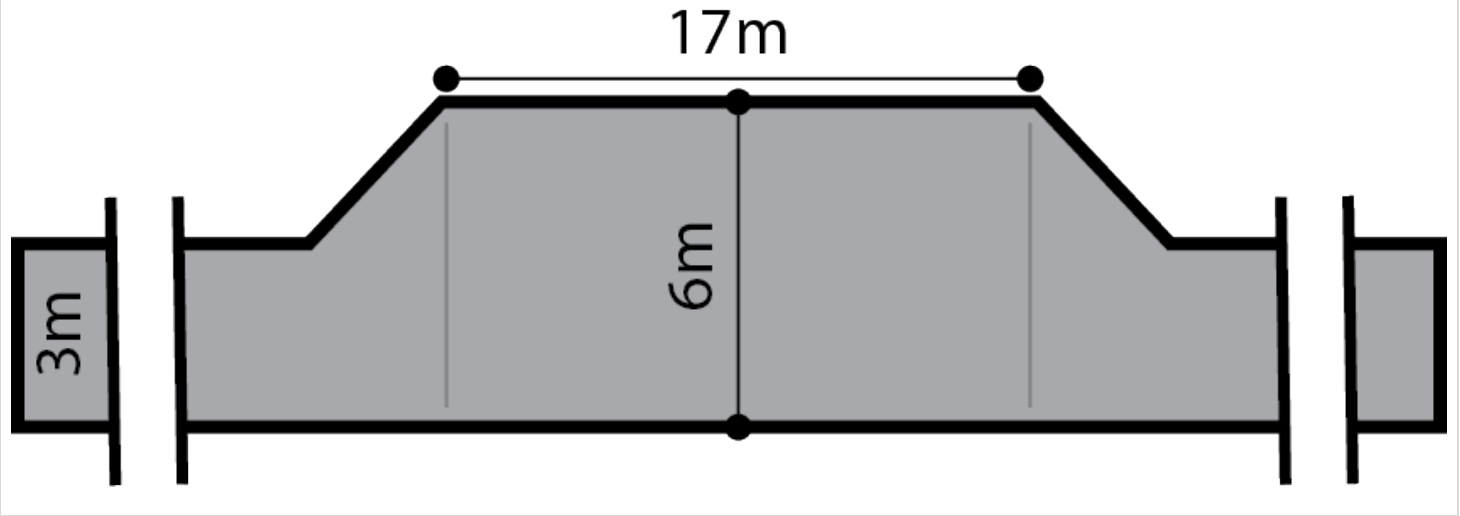

Figure 5 - Driveway Passing Bays

Passing bay for fire trucks - minimum width 6 metres, minimum length 17 metres.

Hazards (Flooding) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Impacts on people, property, infrastructure and the environment from high flood risk are minimised by retaining areas free from development, and minimising intensification where development has occurred.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Division	
PO 1.1 Land division is limited to areas where the consequences to buildings and safety are low and can be readily managed or overcome.	DTS/DPF 1.1 None are applicable.
Land Use	
PO 2.1 Development sited and designed to minimise exposure of people and property to unacceptable flood risk.	DTS/DPF 2.1 None are applicable.
PO 2.2 Buildings housing vulnerable people, community services facilities, key infrastructure and emergency services are sited away from flood prone areas to enable uninterrupted operation of services and reduce likelihood of entrapment.	DTS/DPF 2.2 Pre-schools, educational establishments, retirement and supported accommodation, emergency services facilities, hospitals and prisons are not located within the Overlay area.
Flood Resilience	
PO 3.1 Development avoids the need for flood protection works.	DTS/DPF 3.1 None are applicable.
PO 3.2 Development does not cause unacceptable impacts on any adjoining property by the diversion of flood waters or an increase in flood velocity or flood level.	DTS/DPF 3.2 None are applicable.
PO 3.3 Development does not impede the flow of floodwaters through the allotment or the	DTS/DPF 3.3 None are applicable.

surrounding land, or cause an unacceptable loss of flood storage.	
PO 3.4 Development avoids frequently flooded or high velocity areas, other than where it is part of a flood mitigation scheme to reduce flood impact.	DTS/DPF 3.4 Other than a recreation area, development is located outside of the 5% AEP principal flow path.
PO 3.5 Buildings are sited, designed and constructed to prevent the entry of floodwaters in a 1% AEP flood event where the entry of floodwaters is likely to result in undue damage to, or compromise ongoing activities within, buildings.	DTS/DPF 3.5 Buildings comprise one of the following: (a) a porch or portico with at least 2 open sides (b) a verandah with at least 3 open sides (c) a carport or outbuilding with at least 2 open sides (whichever elevations face the direction of the flow) (d) any post construction with open sides (e) a building with a finished floor level that is at least 300mm above the height of a 1% AEP flood event.
PO 3.6 Fences do not unreasonably impede floodwaters.	DTS/DPF 3.6 A post and wire fence (other than a chain mesh fence).
Environmental Protection	
PO 4.1 Buildings and structures used either partly or wholly to contain or store hazardous materials are designed to prevent spills or leaks leaving the confines of the building during a 1% AEP flood event to avoid potential environmental harm.	DTS/DPF 4.1 Development involving the storage or disposal of hazardous materials is wholly located outside of the 1% AEP flood plain or flow path.
PO 4.2 Development does not create or aggravate the potential for erosion or siltation or lead to the destruction of vegetation during a flood.	DTS/DPF 4.2 None are applicable.
Site Earthworks	
PO 5.1 The depth and extent of filling required to raise the finished floor level of a building does not cause unacceptable impact on any adjoining property by diversion of flood waters, an increase in flood velocity or flood level, or an unacceptable loss of flood storage.	DTS/DPF 5.1 None are applicable.
PO 5.2 Driveways, access tracks and parking areas are designed and constructed to minimise excavation and filling.	DTS/DPF 5.2 Filling for ancillary purposes: (a) does not exceed 300mm above existing ground level (b) is no more than 5m wide.
Access	
PO 6.1 Development does not occur on land: (a) from which evacuation to areas not vulnerable to flood risk is not possible during a 1% AEP flood event (b) which cannot be accessed by emergency services vehicles or essential utility service vehicles during a 1% AEP flood event.	DTS/DPF 6.1 None are applicable.
PO 6.2 Access driveways and tracks to significant development (i.e. dwellings, places of work, etc.) consist of a safe, all-weather trafficable surface that is accessible during a 1% AEP flood event.	DTS/DPF 6.2 None are applicable.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. Finished Ground and Floor Levels	
	Minimum finished ground level is 3m AHD; Minimum finished floor level is 3.25m AHD
	Minimum finished ground level is 4m AHD; Minimum finished floor level is 4.25m AHD
	Minimum finished ground level is 2.05m AHD; Minimum finished floor level is 2.3m AHD
	Minimum finished ground level is 2.8m AHD; Minimum finished floor level is 3.05m AHD
	Minimum finished ground level is 3.05m AHD; Minimum finished floor level is 3.3m AHD
	Minimum finished ground level is 3.8m AHD; Minimum finished floor level is 4.05m AHD
In instances where no finished floor level value is specified, a building incorporates a finished floor level at least 300mm above the height of a 1% AEP flood event.	

Environmental Protection	
PO 3.1 Buildings and structures used either partly or wholly to contain or store hazardous materials are designed to prevent spills or leaks leaving the confines of the building during a 1% AEP flood event to avoid potential environmental harm.	DTS/DPF 3.1 Development involving the storage or disposal of hazardous materials is wholly located outside of the 1% AEP flood plain or flow path.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Hazards (Flooding - Evidence Required) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development adopts a precautionary approach to mitigate potential impacts on people, property, infrastructure and the environment from potential flood risk through the appropriate siting and design of development.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Flood Resilience	
PO 1.1 Development is sited, designed and constructed to minimise the risk of entry of potential floodwaters where the entry of flood waters is likely to result in undue damage to or compromise ongoing activities within buildings.	DTS/DPF 1.1 Habitable buildings, commercial and industrial buildings, and buildings used for animal keeping incorporate a finished floor level at least 300mm above: (a) the highest point of top of kerb of the primary street or (b) the highest point of natural ground level at the primary street boundary where there is no kerb
Environmental Protection	
PO 2.1 Buildings and structures used either partly or wholly to contain or store hazardous materials are designed to prevent spills or leaks leaving the confines of the building.	DTS/DPF 2.1 Development does not involve the storage of hazardous materials.

Procedural Matters (PM) - Referrals

Desired Outcome (DO)

Desired Outcome

DO 1	Development adjacent to State and Local Heritage Places maintains the heritage and cultural values of those Places.
------	---

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome

Deemed-to-Satisfy Criteria / Designated Performance Feature

Built Form	
PO 1.1 Development adjacent to a State or Local Heritage Place does not dominate, encroach on or unduly impact on the setting of the Place.	DTS/DPF 1.1 None are applicable.
Land Division	
PO 2.1 Land division adjacent to a State or Local Heritage Place creates allotments that are of a size and dimension that enables the siting and setbacks of new buildings from allotment boundaries so that they do not dominate, encroach or unduly impact on the setting of the Place.	DTS/DPF 2.1 None are applicable.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Development that may materially affect the context of a State Heritage Place.	Minister responsible for the administration of the <i>Heritage Places Act 1993</i> .	To provide expert assessment and direction to the relevant authority on the potential impacts of development adjacent State Heritage Places.	Development of a class to which Schedule 9 clause 3 item 17 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

Historic Area Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome

DO 1	Historic themes and characteristics are reinforced through conservation and contextually responsive development, design and adaptive reuse that responds to existing coherent patterns of land division, site configuration, streetscapes, building siting and built scale, form and features as exhibited in the Historic Area and expressed in the Historic Area Statement.
------	---

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome

Deemed-to-Satisfy Criteria / Designated Performance Feature

All Development	
PO 1.1 All development is undertaken having consideration to the historic streetscapes and built form as expressed in the Historic Area Statement.	DTS/DPF 1.1 None are applicable.
Built Form	
PO 2.1	DTS/DPF 2.1

The form and scale of new buildings and structures that are visible from the public realm are consistent with the prevailing historic characteristics of the historic area.	None are applicable.
PO 2.2 Development is consistent with the prevailing building and wall heights in the historic area.	DTS/DPF 2.2 None are applicable.
PO 2.3 Design and architectural detailing of street-facing buildings (including but not limited to roof pitch and form, openings, chimneys and verandahs) complement the prevailing characteristics in the historic area.	DTS/DPF 2.3 None are applicable.
PO 2.4 Development is consistent with the prevailing front and side boundary setback pattern in the historic area.	DTS/DPF 2.4 None are applicable.
PO 2.5 Materials are either consistent with or complement those within the historic area.	DTS/DPF 2.5 None are applicable.
Alterations and additions	
PO 3.1 Alterations and additions complement the subject building, employ a contextual design approach and are sited to ensure they do not dominate the primary façade.	DTS/DPF 3.1 Alterations and additions are fully contained within the roof space of an existing building with no external alterations made to the building elevation facing the primary street.
PO 3.2 Adaptive reuse and revitalisation of buildings to support retention consistent with the Historic Area Statement.	DTS/DPF 3.2 None are applicable.
Ancillary development	
PO 4.1 Ancillary development, including carports, outbuildings and garages, complements the historic character of the area and associated buildings.	DTS/DPF 4.1 None are applicable.
PO 4.2 Ancillary development, including carports, outbuildings and garages, is located behind the building line of the principal building(s) and does not dominate the building or its setting.	DTS/DPF 4.2 None are applicable.
PO 4.3 Advertising and advertising hoardings are located and designed to complement the building, be unobtrusive, be below the parapet line, not conceal or obstruct significant architectural elements and detailing, or dominate the building or its setting.	DTS/DPF 4.3 None are applicable.
PO 4.4 Fencing and gates closer to a street boundary (other than a laneway) than the elevation of the associated building are consistent with the traditional period, style and form of the associated building.	DTS/DPF 4.4 None are applicable.
Land Division	
PO 5.1 Land division creates allotments that are: (a) compatible with the surrounding pattern of subdivision in the historic area (b) of a dimension to accommodate buildings of a bulk and scale that reflect existing buildings and setbacks in the historic area	DTS/DPF 5.1 None are applicable.
Context and Streetscape Amenity	
PO 6.1 The width of driveways and other vehicle access ways are consistent with the prevailing width of existing driveways of the historic area.	DTS/DPF 6.1 None are applicable.
PO 6.2 Development maintains the valued landscape patterns and characteristics that contribute to the historic area, except where they compromise safety, create nuisance, or impact adversely on buildings or infrastructure.	DTS/DPF 6.2 None are applicable.
Demolition	
PO 7.1 Buildings and structures, or features thereof, that demonstrate the historic characteristics as expressed in the Historic Area Statement are not demolished, unless: (a) the front elevation of the building has been substantially altered and cannot be reasonably restored in a manner consistent with the building's original style or (b) the structural integrity or safe condition of the original building is beyond reasonable repair.	DTS/DPF 7.1 None are applicable.

PO 7.2 Partial demolition of a building where that portion to be demolished does not contribute to the historic character of the streetscape.	DTS/DPF 7.2 None are applicable.
PO 7.3 Buildings or elements of buildings that do not conform with the values described in the Historic Area Statement may be demolished.	DTS/DPF 7.3 None are applicable.
Ruins	
PO 8.1 Development conserves and complements features and ruins associated with former activities of significance.	DTS/DPF 8.1 None are applicable.

Historic Area Statements

Historic Areas affecting City of Adelaide	
North Adelaide Hill Street Historic Area Statement (Adel1)	
<p>The Historic Area Overlays identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context	<p>1837 to 1901 - Victorian period.</p> <p>1901 to 1920s - Edwardian period.</p> <p>1920s to 1942 - Inter-war period.</p> <p>Low and medium density cottages. Villas and terrace houses. Historically intact residential areas. Long established institutions.</p>
Allotments, subdivision and built form patterns	<p>Large allotments together with low and medium density residential. Building set-back and subdivision pattern established by Heritage Places.</p> <p><u>Hill Street</u></p> <p>Regular setbacks from primary street frontage and regular pattern and siting of Heritage Places.</p> <p>Buildings setback from the side and street frontages of the Church of Perpetual Adoration retain the views and vistas of the Church.</p> <p><u>Jeffcott Street</u></p> <p>Buildings on corner site set on or close to the primary street frontage.</p> <p><u>Barton Terrace West</u></p> <p>Buildings reinforce the setback and orientation to the Park Lands established by Heritage Places.</p>
Architectural styles, detailing and built form features	<p>Victorian housing consisting of single fronted, symmetrically fronted, and asymmetrically fronted houses, some with bay fronted projections; contains vertically proportioned window and door surrounds highlighted with moulded render or brick dressings with roofs that are generally hipped in form, with the asymmetrical style, gable ended or hipped roof to the projecting bay, concave or convex verandah roof and four panelled doors with fanlights and often sidelights.</p> <p>Edwardian housing with prominent strapped gables and detailing, tall brick chimneys, verandahs incorporated under the main pitch of the roof verandahs with a convex (or bullnose) profile.</p> <p>Inter-War Housing consisting of bungalows incorporating a broad spreading roof and verandah with typical masonry columns supporting verandah elements and the expansive two storey version was often known as a Gentlemen’s Bungalow; and Tudor Revival style displaying steeply pitched roofs with half-timber gable ends and variations of the verandah porch treatments.</p> <p>Finely detailed mansions; Cottages, villas and terraces; aged care, health care, consulting rooms and educational. Victorian Italianate villas, detached and semi-detached dwellings.</p> <p>Institutions are part of the historic fabric of North Adelaide.</p> <p><u>Mills Terrace and Strangways Terrace (west of Hill Street)</u></p> <p>Victorian, Edwardian and Inter-War Housing.</p> <p>Detached dwellings, group dwellings and residential flat buildings of one or two storeys incorporating articulation, bay windows, hip or hip - gable roof profiles, verandahs, balconies and porches, set within landscaped grounds.</p> <p>Imposing townscape character of Park Lands frontages established by various styles of detached dwellings of identified heritage value.</p> <p><u>Gibbon Lane</u></p> <p>Attached and detached two storey dwellings and single storey detached dwellings of Local Heritage value.</p>

Statement#	Statement
Adel1	<p>Roofs are pitched and the design and composition of facades reflect traditional proportions of Heritage Places. <u>Hill Street</u></p> <p>One and two storey Victorian, Edwardian and Inter-war detached and semi-detached Local and State Heritage Places.</p> <p>Prominent corner sites containing St Lawrence's Church and Calvary Hospital.</p> <p><u>Buxton Street</u></p> <p>Highly cohesive frontages of single storey detached Victorian and Edwardian Local Heritage Places and one and two storey State Heritage Places.</p> <p>Finely detailed Italianate villas.</p> <p>Traditional corner shop to north-west corner of Buxton and Jeffcott Streets.</p> <p><u>Molesworth Street</u></p> <p>Victorian, Edwardian and Inter-war housing.</p> <p>Similar semi-detached dwellings of similar architectural design to southern side and detached Victorian Italianate houses and other Local Heritage places to the northern side.</p> <p>Visual prominence of the Church of Perpetual Adoration makes a valuable contribution to the historic character of the area.</p> <p><u>Barnard Street</u></p> <p>Victorian and Inter-war housing.</p> <p>Detached and semi-detached one and two storey Heritage Places of consistent setback.</p> <p>Visual prominence of Calvary Hospital Chapel forms an important part of the street character.</p> <p><u>Jeffcott Street</u></p> <p>Victorian, Edwardian and Inter-war housing.</p> <p>Diversity of large, traditional, single storey Local Heritage Places of consistent character.</p> <p><u>Childers Street</u></p> <p>Victorian, Edwardian and Inter-war housing.</p> <p>Large, low density detached single storey Local Heritage places.</p> <p><u>Barton Terrace West</u></p> <p>Victorian and Edwardian housing.</p> <p>Detached, semi-detached and group dwellings, and residential flat buildings.</p> <p>Heritage Places with orientation of dwellings to the Park Lands.</p> <p><u>Ward Street and Strangways Terrace (east of Hill Street)</u></p> <p>Calvary Hospital is visually prominent on corner site.</p> <p>Victorian single storey detached residences of consistent architectural style, form and siting to the east of Calvary Hospital.</p>
Building height	<p>Single and two storey residential.</p> <p><i>Note: Concept Plan.</i></p>
Materials	<p><u>Victorian Houses</u></p> <p>Bluestone, limestone or sandstone, with brick or rubble side and rear walls.</p> <p>Timber framed windows and doors.</p> <p>Cast iron or timber posts to the verandahs elaborated with moulded capitals and trim, and widely used cast iron brackets and frieze decoration.</p> <p>Fencing consisting of masonry base and piers with cast iron panels or railings, timber railing, timber picket fencing for smaller houses.</p> <p><u>Edwardian Houses</u></p> <p>Face brick walls with decorative brick detailing, ashlar stone with brick dressings or moulded render or 'rock face' sandstone (or freestone) for wall material.</p> <p>Unglazed terracotta Marseilles roof tiles, corrugated iron roof cladding.</p> <p>Timber framed windows and doors. Windows often grouped and doors often divided into three or four horizontal panels.</p> <p>Masonry fencing with cast iron palisade, or timber (picket).</p> <p><u>Inter-War Houses</u></p> <p>Australian-made Wunderlich roof tiles.</p>

Statement#	Statement
	<p>Timber joinery with some use of metal framed windows.</p> <p>Typically low masonry walls, built from materials matching the main building.</p> <p>Stone and cast-iron fencing.</p>
Fencing	<p>Low, open front fencing (including secondary streets to the main façade of the building) associated with the traditional period and style of the building up to 1.2 metres, allowing views to the building. Rear and side boundary fences (behind main building façade) to 2 metres, and 1.8 metres on corner sites.</p> <p>Solid pillars and plinths and similar fencing styles.</p> <p>Cast iron fencing to Buxton Street.</p>
Setting, landscaping, streetscape and public realm features	Views and vistas of the Church of Perpetual Adoration, Calvary Hospital and Calvary Hospital Chapel. Landscaped grounds.
Representative Buildings	[Not identified]

North Adelaide Childers East Historic Area Statement (Adel2)

The Historic Area Overlays identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

Eras, themes and context	<p>1837 to 1901 - Victorian period.</p> <p>1901 to 1910 - Edwardian period.</p> <p>1920's to 1942 - Inter-war period.</p> <p>Mansions; historic low and medium density detached and semi-detached residential development such as typical cottages and terrace houses.</p>
Allotments, subdivision and built form patterns	<p>Range of subdivision patterns including large allotments together with low and medium density residential development on narrow frontages.</p> <p><u>Childers Street</u></p> <p>Consistently sited row cottages on north side. Varying setbacks on south side.</p> <p><u>Gover Street</u></p> <p>Generous scale and siting of heritage placed on south side (west of Mansfield Street).</p> <p><u>Jeffcott Street</u></p> <p>North of Childers Street, consistent and intensive built form edge to the eastern frontage sited on or close to the primary street frontage. South of Childers Street, buildings sited close to the primary street frontage.</p> <p><u>Barton Terrace West</u></p> <p>Cohesive edge along Barton Terrace West.</p>
Architectural styles, detailing and built form features	<p>Victorian housing consisting of single fronted, symmetrically fronted, and asymmetrically fronted houses, some with bay fronted projections; contains vertically proportioned window and door surrounds highlighted with moulded render or brick dressings with roofs that are generally hipped in form, with the asymmetrical style, gable ended or hipped roof to the projecting bay, concave or convex verandah roof and four panelled doors with fanlights and often sidelights.</p> <p>Edwardian housing with prominent strapped gables and detailing, tall brick chimneys, verandahs incorporated under the main pitch of the roof verandahs with a convex (or bullnose) profile.</p> <p>Inter-War Housing consisting of bungalows incorporating a broad spreading roof and verandah with typical masonry columns supporting verandah elements and the expansive two storey version was often known as a Gentlemen's Bungalow; and Tudor Revival style displaying</p>

Statement#	Statement
Adel2	<p>steeply pitched roofs with half-timber gable ends and variations of the verandah porch treatments.</p> <p>Elegant and finely detailed mansions; Large Villas set on large allotments.</p> <p><u>Childers Street</u></p> <p>Victorian, Edwardian and Inter-war housing.</p> <p>Single storey Local Heritage Places, including consistently sited single-storey row cottages, detached cottages and the occasional terrace house with narrow frontages on the northern side and on the southern side, detached and attached cottages with varying set-backs.</p> <p>Continuity of verandahs and parapets and roof profiles.</p> <p>Single storey detached or semi-detached cottages on the southern side.</p> <p><u>Gover Street</u></p> <p>Victorian and Edwardian housing.</p> <p>Primarily single storey detached dwellings.</p> <p>Generous scale and siting patterns of Heritage Places to the southern side of street west of Mansfield Street.</p> <p><u>Jeffcott Street</u></p> <p>Diversity of traditional dwelling types reflecting the different stages of early Victorian residential development.</p> <p>Low scale row dwellings (north of Childers Street).</p> <p>Larger detached bay window and gable-fronted villas on individual sites</p> <p>Continuity of roof and verandah profiles north of Childers Street.</p> <p><u>Barton Terrace West</u></p> <p>Highly modified character.</p> <p>Victorian and Edwardian housing.</p> <p>One or two storey detached or semi-detached dwellings.</p> <p><u>Hack Street</u></p> <p>Intimate character derived from Victorian single storey detached cottages.</p> <p>Single width car parking.</p> <p><u>Mansfield Street</u></p> <p>Single storey detached, semi-detached and row cottages.</p>
Building height	<p>Low scale, one and two storey residential.</p> <p>Single storey in appearance along the Childers Street, Gover Street, Jeffcott Street, Hack Street and Mansfield Street frontages.</p>
Materials	<p><u>Victorian Houses</u></p> <p>Bluestone, limestone or sandstone, with brick or rubble side and rear walls.</p> <p>Timber framed windows and doors.</p> <p>Cast iron or timber posts to the verandahs elaborated with moulded capitals and trim, and widely used cast iron brackets and frieze decoration.</p> <p>Fencing consisting of masonry base and piers with cast iron panels or railings, timber railing, timber picket fencing for smaller houses.</p> <p><u>Edwardian Houses</u></p> <p>Face brick walling with decorative brick detailing, ashlar stone with brick dressings or moulded render or render</p>

Statement#	Statement	
		<p>face' sandstone (or freestone) for wall material.</p> <p>Unglazed terracotta Marseilles roof tiles, corrugated iron roof cladding.</p> <p>Timber framed windows and doors. Windows often grouped and doors often divided into three or four horizontal panels.</p> <p>Masonry fencing with cast iron palisade, or timber (picket).</p> <p><u>Inter-War Houses</u></p> <p>Australian-made Wunderlich roof tiles.</p> <p>Timber joinery with some use of metal framed windows.</p> <p>Typically low masonry walls, built from materials matching the main building.</p>
Fencing		<p>Low, open front fencing (including secondary streets to the main façade of the building) associated with the traditional period and style of the building up to 1.2 metres, allowing views to the building. Rear and side boundary fences (behind main building façade) to 2 metres, and 1.8 metres on corner sites.</p> <p>Front fences of stone and cast iron, brick, stone or rendered pillars and plinths, timber or well detailed masonry.</p> <p>Brick, rendered masonry and timber side fences on secondary street frontages.</p> <p>Rear and side fences (behind main face of building) of corrugated metal sheeting.</p>
Setting, landscaping, streetscape and public realm features		<p>Tall trees at the intersection of Barton Terrace West and Jeffcott Street create an imposing 'gateway' to this major entrance to North Adelaide and complement the character of existing street tree planting.</p> <p>Street trees and high quality paving and landscaping.</p> <p>Existing vehicle access points along Barton Terrace West.</p> <p><u>Hack Street</u></p> <p>Intimate character of narrow streets.</p>
Representative Buildings		<i>[Not identified]</i>

<p>North Adelaide Wellington Square Historic Area Statement (Adel3)</p>		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>		
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>		
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Eras, themes and context		<p>1837 to 1901 - Victorian period.</p> <p>1920's to 1942 - Inter-war period.</p> <p>Residential development. Important historical public space.</p>
Allotments, subdivision and built form patterns		<p>Cohesive built form edge to the Square. Buildings sited close to side boundaries. Building set-back and subdivision pattern established by Heritage Places.</p>
Architectural styles, detailing and built form features		<p>Victorian housing consisting of single fronted, symmetrically fronted, and asymmetrically fronted houses, some with bay fronted projections; contains vertically proportioned window and door surrounds highlighted with moulded render or brick dressings with roofs that are generally hipped in form, with the asymmetrical style, gable ended or hipped roof to the projecting bay, concave or convex verandah roof and four panelled doors with fanlights and often sidelights.</p>

Statement#	Statement	
Adel3	<p>Inter-War Housing consisting of Bungalows incorporating a broad spreading roof and verandah with typical masonry columns supporting verandah elements and the expansive two storey version was often known as a Gentlemen's Bungalow; and Tudor Revival style displaying steeply pitched roofs with half-timber gable ends and variations of the verandah porch treatments.</p> <p>Historic built form comprising large, single storey Local Heritage places and one or two storey State Heritage places. Townscape is contiguous with and complementary to the townscape character of the major streets which lead into the Square.</p> <p>Detached and semi-detached Victorian and Inter-war housing.</p> <p>Balconies over footpaths are not characteristic to the square.</p>	
	Building height	Single and two storey.
	Materials	<p><u>Victorian Houses</u></p> <p>Bluestone, limestone or sandstone, with brick or rubble side and rear walls.</p> <p>Timber framed windows and doors.</p> <p>Cast iron or timber posts to the verandahs elaborated with moulded capitals and trim, and widely used cast iron brackets and frieze decoration.</p> <p>Fencing consisting of masonry base and piers with cast iron panels or railings, timber railing, timber picket fencing for smaller houses.</p> <p><u>Inter-War Houses</u></p> <p>Australian-made Wunderlich roof tiles, face brick and rendered masonry.</p> <p>Timber joinery with some use of metal framed windows.</p>
	Fencing	<p>Low, open front fencing (including secondary streets to the main façade of the building) associated with the traditional period and style of the building up to 1.2 metres, allowing views to the building. Rear and side boundary fences (behind main building façade) to 2 metres, and 1.8 metres on corner sites.</p> <p>Front fences of stone and cast iron, brick, stone or rendered pillars and plinths, timber or well detailed masonry.</p> <p>Brick, rendered masonry and timber side fences on secondary street frontages.</p> <p>Rear and side fences (behind main face of building) of corrugated metal sheeting.</p>
	Setting, landscaping, streetscape and public realm features	<p>Landscaping, paving, planting lighting and street furniture contribute to the informal character and unity of Wellington Square. Pedestrian paths and informal recreation areas provide attractive and safe shelter and seating. Predominantly no vehicle access on the Wellington Square frontage.</p>
	Representative Buildings	<i>[Not identified]</i>
<p>North Adelaide Tynte Historic Area Statement (Adel4)</p>		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. North Adelaide Kentish Arms Historic Area Statement (Adel12)

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

Eras, themes and context	<p>Residential area reflecting the townscapes of large nineteenth and early twentieth century.</p> <p>1837 to 1901 - Victorian period.</p> <p>1901 to 1920s - Edwardian period.</p>
Allotments, subdivision and built form patterns	<p>Strong residential built form edge to the Park Lands and Mann Terrace with regular siting and pattern of building addressing principal road frontage.</p> <p><u>Stanley Street (south side), East and West Pallant Streets</u></p> <p>Closely sited single-storey buildings.</p> <p><u>Stanley Street (north side)</u></p> <p>Close siting of buildings.</p>
Architectural styles, detailing and built form features	<p><u>Victorian Dwellings</u></p> <p>Single or two storey houses built in a variety of sizes and scale.</p> <p>Single fronted, symmetrically fronted, and asymmetrically fronted houses, some with bay fronted projections.</p> <p>Vertically proportioned window and door surrounds highlighted with moulded render or brick dressings.</p> <p>Roofs generally hipped in form, with the asymmetrical style, gable ended or hipped roof to the projecting bay.</p> <p>Concave or convex form verandah roof</p> <p>Four panelled doors with fanlights and often sidelights.</p> <p>Fencing consisting of masonry base and piers with cast iron panels or railings, timber railing, timber picket fencing for smaller houses.</p> <p><u>Edwardian dwellings</u></p> <p>Prominent strapped gables and detailing, tall brick chimneys, and verandahs incorporated under the main pitch of the roof.</p> <p>Verandahs with convex (or bullnose) profile.</p> <p>Masonry fencing with cast iron palisade, or timber.</p> <p><u>Stanley Street (south side), East and West Pallant Streets - Victorian and Inter-war dwellings.</u></p> <p>Adelaide's earliest residential buildings.</p>

Statement#	Statement
Adel12	<p><u>Stanley Street (north side)</u></p> <p>Victorian and Edwardian dwellings.</p> <p>Cohesive, single-storey detached, semi-detached and row housing of the Victorian and Edwardian periods with verandahs along the street frontages and hipped roofs or parapets to front facades.</p> <p><u>Sussex Street</u></p> <p>Victorian and Edwardian dwellings.</p> <p>Early German settler cottages and Victorian row dwellings.</p> <p>Sections of small scale, closely sited and cohesive development to the eastern and western end.</p> <p>Early settler cottages on the northern side and Victorian row houses on the southern side.</p> <p><u>Kingston Terrace</u></p> <p>Victorian dwellings.</p> <p>A mixture of single-storey row housing and detached and semi-detached houses of the late Victorian to Edwardian periods from Jerningham Street to Francis Street (west), with more recent detached houses and contemporary three storey town houses.</p> <p>A diversity of architectural styles and housing types which present a cohesive townscape.</p> <p><u>Jerningham Street</u></p> <p>Victorian dwellings.</p> <p>Single storey nineteenth century detached and semi-detached dwellings.</p> <p><u>MacKinnon Parade</u></p> <p>East of Dunn Street has detached and semi-detached houses of similar scale and design that are of identified heritage value.</p> <p>West of Dunn Street has eroded streetscape pattern.</p> <p><u>Mann Terrace</u></p> <p>Victorian dwellings.</p> <p>A group of identical villas. The articulated and gabled facades, pitched roof profiles and verandahs create a highly cohesive character.</p> <p>South of Melbourne Street the townscape comprises a group of identical villas, all of local heritage value. The articulated and gabled facades, pitched roof profiles and verandahs create a highly cohesive character.</p> <p>North of Melbourne Street there is also a cohesive townscape established by closely developed detached and semi-detached dwellings most of which have local heritage value and a regular building set-back from the street.</p> <p><u>Hart Street</u></p> <p>Victorian dwellings.</p> <p>Cohesive and intense built form consisting of detached stone cottages of a consistent scale, built form character and siting with masonry construction, fenestration, pitched roofs and verandahs.</p> <p><u>Bower Street/Provost Street</u></p> <p>Victorian dwellings.</p> <p>Small detached cottages and row dwellings set on or close to the street.</p> <p><u>Arthur Street</u></p>

Statement#	Statement

Historic Areas Affecting Adelaide Hills Council

AdHi1	Mylor Historic Area Statement (AdHi1)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1880 to late 1890s. Commercial centre. Workingmen's Block movement.
	Allotments, subdivision and built form patterns	Uniform rectangular allotments fronting the main street. Large site areas. Large street frontages. Varying front setbacks (residential development has generous setbacks with commercial/retail development located closer to the front boundary to address the main street). Varying side setbacks, with limited boundary development.
	Architectural styles, detailing and built form features	1890s commercial buildings interspersed with a variety of civic and residential buildings.
Building height	Generally small scale, single storey construction with the exception of the larger public buildings such as the Uniting Church and the former Institute building.	
Materials	Consistent with the materials associated with the architectural styles of the subject building and streetscape. Random coursed and rubble stone. Rendered stone. Brick and rendered quoins. Hipped and gabled roofs. Raked and bullnose verandahs 4299	

Statement#	Statement	
		supported with timber posts and masonry pillars. Corrugated iron roofs. External finishes non-reflective incorporating a natural autumnal palate.
	Fencing	Front fences of pickets, post and wire and masonry (exposed or rendered brickwork or stonework) often obscured by hedges or other plantings, to a height of 1200 millimetres.
	Setting, landscaping, streetscape and public realm features	<p>Rustic character. The township is enclosed on three sides by highly valued remnant vegetation within the Mylor Parklands. Leslie Creek and Aldgate Creek meander through the township before joining up with the Onkaparinga River to the south. The main entrance to Mylor from the north is marked by bridge crossings over Leslie and Aldgate Creeks, the war memorial and views to an avenue of deciduous trees which define the centre of the township. Views of the historic building within the primary school.</p> <p>Other important views along Strathalbyn Road include the heritage buildings containing the general store and rural supplies establishment which defines the southern entry to the township. Wide landscaped verge that incorporates an avenue of trees along Strathalbyn road accentuates the historic built form.</p> <p>Vehicular access at the rear of allotments fronting Strathalbyn Road.</p>

AdHi2	Stirling - Ayres Hill Road Historic Area Statement (AdHi2)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Mid to late 1880s residential.
	Allotments, subdivision and built form patterns	Large blocks of land. Larger houses on large, well vegetated grounds. Dwellings set well back from the street boundary. Smaller subordinate buildings located closer to the street boundary.
	Architectural styles, detailing and built form features	The architectural style of the buildings varies with their date of construction.
	Building height	Building height to 9 metres. Original scale of buildings.
	Materials	Consistent with the materials associated with the architectural style of the subject building. Random, coursed and dressed stone. Rendered stone. Brick, stone and rendered quoins. String courses. Hipped and gabled roofs. Dormer windows. Raked verandahs supported with timber posts and masonry pillars. Corrugated iron roofs. Decorative cast iron features. Brick and stone chimneys. Stone Porticos. Decorative and ornate timber bargeboards. External finishes non-reflective and utilise natural colours.
	Fencing	Front fencing of pickets, post and wire and masonry (exposed or rendered brickwork or stonework) often obscured by hedges or other plantings, with varying heights to between 1200-1800 millimetres.
	Setting, landscaping, streetscape and public realm features	<p>'Secluded' nature of houses, in most cases set well back on their blocks, hidden behind the gardens and hedges.</p> <p>Streetscape is dominated by tree plantings and fencing behind which can be seen the larger trees and shrubs of the gardens. The lower section of the road (from Laurel Road to the roundabout near St Catherine's) is winding and bordered by hedges and trees. The upper portion of the road is straight and reveals a wider footpath margin than the lower section, adding to the feeling of privacy of the houses.</p> <p>Wide footpath verges which are of a rustic nature.</p> <p>Row and avenue plantings of exotic trees in the road verges.</p>

AdHi3	Woodside Historic Area Statement (AdHi3)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Late 1880s.
	Allotments, subdivision and built form patterns	Original grid subdivision pattern. Uniform rectangular allotments.
	Architectural styles, detailing and built form features	The predominant character is single storey detached dwellings with an eclectic mix of European architecture set in large landscaped surrounds, interspersed with buildings including workers cottages and churches, at times built to the front boundary. The architectural style of the buildings varies with their date of construction.
Building height	Primarily single storey detached buildings.	

Statement#	Statement	
	Materials	Consistent with the materials associated with the architectural styles of the subject building and streetscape. Random coursed and rubble stone. Rendered stone. Brick and rendered quoins. Hipped and gabled roofs. Raked verandahs supported with timber posts and masonry pillars. Corrugated iron roofs. External finishes non-reflective and utilise natural colours.
	Fencing	Front fencing of pickets, post and wire, and masonry (exposed or rendered brickwork or stonework), with maximum heights ranging from 1000 of 1200 millimetres.
	Setting, landscaping, streetscape and public realm features	Relatively narrow streets, typically featuring box-style kerb and gutters, do not often have footpaths.

Historic Areas affecting Alexandrina Council

Strathalbyn Suburban Neighbourhood Historic Area Statement (Alex1)		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>		
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>		
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Eras, themes and context	<p><u>Northern (Manse Road, Melville Lane, Taylors Lane, Melville Street, Harriet Street and North Parade)</u></p> <p>1860s-1910s. Symmetrical double-fronted early settler cottages and simple workers accommodation.</p> <p>Centred on North Parade, the area was initially subdivided in 1856 and was developed to contain a mixture of functions ranging from an early butcher's shop, to a school, a hospital and a Rechabite Hall and residences.</p> <p>The early commercial and institutional functions have declined over time and the area is now mainly residential.</p> <p><u>Western (Sandegrove Road, King Street, Coronation Road)</u></p> <p>1910s. Symmetrical double-fronted cottages and early Bungalow era dwellings.</p> <p>The Western area is important in the overall character of Strathalbyn as it reflects the period at the turn of the century which was one of consolidation and prosperity for the town. The specific residential character of the area derives from the consistent character of the circa 1910 residences, which display typical characteristics of domestic architecture at the time.</p> <p><u>Central (East Terrace, Murray Street, North Parade, Grey Street, Chapel Street, Rowe Street, Commercial Road, West Terrace, Jeff Street, Wallbank Street, Mill Street)</u></p> <p>1860s - 1950.s. Symmetrical double-fronted cottages and early Bungalow era dwellings.</p> <p>The Central area represents the predominantly residential area within the bounds of the original town boundary following, North Parade, East Terrace, South Terrace and West Terrace. The area also includes church landmarks to the east of the town centre on Murray and Chapel Streets.</p>	
Allotments, subdivision and built form patterns	<p><u>Northern</u></p> <p>Large allotments and setbacks. Medium- to large front setbacks. Buildings parallel to street. Buildings typically located asymmetrically on allotments, allowing for access to rear of blocks on one side. This subdivision has a less regular layout, in part due to path of Middle Creek which borders the area on the north and east.</p> <p><u>Western</u></p> <p>Large allotments and setbacks. Consistent medium- to large front setbacks. Buildings parallel to street. Buildings typically located symmetrically on allotments with very wide side setbacks.</p> <p><u>Central</u></p> <p>Large allotments and setbacks. Buildings parallel to street. Buildings typically located asymmetrically on allotments, allowing for access to rear of blocks on one side.</p>	
Architectural styles, detailing and built form features	<p><u>Western and Northern</u></p> <p>Symmetrical stone double fronted cottages with some early bungalow styles. Predominantly hipped roofs of 27-35 degree pitch with detached verandah (concave, convex and bullnosed) set 300mm below main building gutter. High solid to void (window & door opening) ratio.</p> <p>Carports and sheds generally to the rear of allotments and not attached to dwellings.</p> <p><u>Central</u></p> <p>Stone double fronted cottages with some early bungalow styles. Predominantly hipped roofs of 27-35 degree pitch with verandahs. High solid to void (window & door opening) ratio.</p> <p>Carports and sheds generally to the rear of allotments and not attached to dwellings.</p>	
Building height	Single storey with external wall heights generally 3.8-4.1m and ceilings at least 3.	
Materials	Sandstone and limestone with red brick quoins predominantly. Corrugated (mostly galvanised) roofing.	4301

Historic Areas affecting The Barossa Council

Baro1	<p>Angaston Centre Historic Area Statement (Baro1)</p>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Early settlement in 1850s and 1860s. 19th and early 20th Century buildings and streetscapes.
	Allotments, subdivision and built form patterns	Original development and subdivision pattern, especially in the vicinity of Hannay Crescent including the cemetery allotment.
	Architectural styles, detailing and built form features	Banks, churches and hotels along Murray Street. Early post-supported verandas along sections of Murray Street.
	Building height	Two storeys.
	Materials	<i>[Not stated]</i>
Fencing	<i>[Not stated]</i>	

Statement#	Statement
	<p>Setting, landscaping, streetscape and public realm features</p> <p>Significant visual backdrop formed by the hills, cemetery and stone walling when viewed from the Hannay Crescent area and Murray Street.</p> <p>The configuration of Murray Street with a bend at the Sturt Street junction provides interesting vistas east and west along the street.</p> <p>A vista is evident along Washington Street towards the Town Hall. Marble walling in front of the former Station Masters Residence, and former animal pound walls on the railway land.</p> <p>Along Murray Street, the paddock like nature of the land adjoining the creek bank links with the residential surrounds and, in association with the Murray Street park and rural backdrop, creates an attractive setting.</p> <p>Mature landscaping, deciduous street trees, Moreton Bay Fig trees, English Elm and the grouping of deciduous trees adjacent to the Laucke Mill on Murray Street.</p>
Representative Buildings	Identified - refer to SA planning database.

Baro2	Angaston Residential Historic Area Statement (Baro2)
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>
Eras, themes and context	<p>Late 1800s.</p> <p>1920s, second wave of prosperity for Angaston in the 20th Century.</p>
Allotments, subdivision and built form patterns	[Not stated]
Architectural styles, detailing and built form features	<p>Substantial residences in 1879-80.</p> <p>Residences of the 1920s.</p>
Building height	[Not stated]
Materials	Local stone.
Fencing	[Not stated]
Setting, landscaping, streetscape and public realm features	<p>Tree lined streets, attractive gardens, varied topography, mature white cedars along Schilling Street, coprosma hedges in front of some houses (retaining early post and wire fence structures), mature ficus at the base of Dean Street, mature gums along the creek, and cypress hedges to many 1920s dwellings.</p> <p>Angas Recreation Park forms an important element located within the residential area. The park between Dean Street and Hill Street and Angaston Children's Reserve provides an open area for community use.</p>
Representative Buildings	Identified - refer to SA planning database.

Baro3	Bethany Historic Area Statement (Baro3)
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>
Eras, themes and context	Established in 1842 - one of the earliest substantial German settlements in the Barossa.
Allotments, subdivision and built form patterns	Subdivided according to the hufendorf principle of long strips. Houses built close to the road with long narrow allotments stretching out behind, together with significant timber structures, particularly farm buildings either close to the road or behind the farm houses.
Architectural styles, detailing and built form features	Early houses dating from the 1850s and the 1860s, many of which retain layouts and construction techniques clearly indicating their German origin.
Building height	[Not stated]
Materials	[Not stated]
Fencing	[Not stated]
Setting, landscaping, streetscape and public realm features	<p>The Herberge Christi Lutheran Church and the cemetery in the eastern end of the settlement form a dominant element.</p> <p>Vegetation and landscaping located within the public realm and mature street tree plantings lining the road, together with the mature gardens associated with the early dwellings. The Tanunda Creek, the Bethany Reserve and the creek crossing at Bethany</p>

Statement#	Statement	
		Road are also important to the character of the settlement.
	Representative Buildings	Identified - refer to SA planning database.
Baro4	Krondorf Historic Area Statement (Baro4)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Established in 1847. First plan of division 1877.
	Allotments, subdivision and built form patterns	Division of land undertaken to the hufendorf arrangement. Linear nature.
	Architectural styles, detailing and built form features	Early farm complexes and buildings indicative of its early date of settlement.
	Building height	<i>[Not stated]</i>
	Materials	Pioneer building techniques and specifically German traditions in construction. Significant stone and timber structures, particularly farm sheds.
	Fencing	<i>[Not stated]</i>
	Setting, landscaping, streetscape and public realm features	Buildings close to the road alignment. Zum Kripplein Christi Church ("Manger of Christ") forms a dominant building in the middle of the settlement.
Representative Buildings	Identified - refer to SA planning database.	
Baro5	Moculta Historic Area Statement (Baro5)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Early service town in the northern agricultural plains comprising small scale development.
	Allotments, subdivision and built form patterns	Simple linear nature.
	Architectural styles, detailing and built form features	Early residential and commercial buildings along Truro Road.
	Building height	<i>[Not stated]</i>
	Materials	<i>[Not stated]</i>
	Fencing	<i>[Not stated]</i>
	Setting, landscaping, streetscape and public realm features	Row of mature Carob street trees lining Truro Road.
Representative Buildings	Identified - refer to SA planning database.	
	Mount Pleasant Centre Historic Area Statement (Baro6)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Service centre for the surrounding pastoral area.
Allotments,	Linear nature of settlement along Melrose Street.	

Statement#	Statement	
Baro6	subdivision and built form patterns	
	Architectural styles, detailing and built form features	Consistent early dwellings, the former bank building at the pivotal junction of Melrose Street and Saleyards Road, the ruins of the Henry Giles' early flour mill on the corner of Glen Devon Road and Melrose Street.
	Building height	[Not stated]
	Materials	[Not stated]
	Fencing	[Not stated]
	Setting, landscaping, streetscape and public realm features	Substantial buildings including the two hotels. Mature street planting.
	Representative Buildings	Identified - refer to SA planning database.
Baro7	<p>Stockwell Historic Area Statement (Baro7)</p>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	A rural character that highlights the early agricultural development of the district.
	Allotments, subdivision and built form patterns	Reflects the earliest periods of subdivision and also the later expansion of the town.
	Architectural styles, detailing and built form features	Significant public and private buildings located along Duckponds Road. Former steam powered flour mill.
	Building height	Low scale.
	Materials	[Not stated]
Fencing	[Not stated]	
Setting, landscaping, streetscape and public realm features	Central concentration of public and residential buildings with the prominence of the St Thomas Lutheran Church.	
Representative Buildings	Identified - refer to SA planning database.	
Baro8	<p>Williamstown Historic Area Statement (Baro8)</p>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1860s and 1870s.
	Allotments, subdivision and built form patterns	Original street pattern including the junctions of the main roads in and out of town. Grid structure.
	Architectural styles, detailing and built form features	<p>Forrester's Lodge, the Institute, the Post Office and the Hotel at the northern end of Queen Street, the small stone commercial structures at the south end of Queen Street, the small, but representative Churches located within the town, including the Uniting Church, the Anglican Church and the Church of Christ, and the notable cluster of early residences in George Street close to the junction of Queen Street.</p> <p>Indicative of the early building types and structural materials</p>
	Building height	[Not stated]
Materials	[Not stated]	
Fencing	[Not stated]	
Setting, landscaping, streetscape and public realm features	<p>Collections of historic buildings.</p> <p>Vistas to important historic buildings from surrounding areas. Notable Moreton Bay Fig tree at the corner of George Street and Little Eva Street creates a focal landmark element that is visible from Queen Street.</p>

Historic Areas affecting City of Burnside

Bur1	<p>Rose Park Historic Area Statement (Bur1)</p>		
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>		
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>		
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
	<p>Eras, themes and context</p>	<p>1880 - 1917 Victorian and Federation. 1918 - 1940 Post WW1.</p>	
	<p>Allotments, subdivision and built form patterns</p>	<p>Traditional rectangular grid pattern. Generally large site areas. Generally large street frontage widths large. Large front of dwelling set-back. Vehicular access from rear lanes of many dwellings.</p>	
	<p>Architectural styles, detailing and built form features</p>	<p>Late 19th Century and early 20th Century dwellings with forms, scale and detailing reflective of the era Villas and cottages in bluestone, freestone and/or brick. Many substantial dwellings as well as some more modest, unornamented dwellings . Brick quoinwork common. Hip and gable roof forms with pitches above 25 degrees. Various porch and verandah styles including return verandahs ranging from modest to generous proportions either projecting or as a continuation of the main roof structure. Garages and carports are located behind the main façade of dwellings. Visible chimneys.</p>	
	<p>Building height</p>	<p>Predominantly single storey. Upper storey elements are integrated sympathetically into the dwelling design and generally not visible from street.</p>	
	<p>Materials</p>	<p>Wall materials consistent with era of original construction including bluestone, freestone, sandstone and brickwork. Pitched roofs in galvanised iron sheet or terracotta tiles. Some original slate tiles. Retention of original materials and finishes and unpainted masonry.</p>	
<p>Fencing</p>	<p>Typical of the era of historic development. Low and/or open fencing forward of the main building façade. Maximum height to 1.2m. Timber picket or dowelling. Masonry and cast iron palisade. Some substantial hedging.</p>		
<p>Setting, landscaping, streetscape and public realm features</p>	<p>Substantial avenues, trees and gardens. Significant front landscaped gardens. Modest verges containing single line of streets trees. Double row of mature trees planted along Alexandra Avenue and Prescott Terrace as a war memorial. Area includes school, churches, mews cottages and other community facilities.</p>		
<p>Representative Buildings</p>	<p>Identified - refer to SA planning database.</p>		

	<p>Eastwood Historic Area Statement (Bur2)</p>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
<p>Eras, themes and context</p>	<p>Majority 1870 - 1917 Victorian and Federation. Few 1917 - 1940 Post WW1.</p>	
<p>Allotments, subdivision and built form patterns</p>	<p>Narrow allotments of varying widths. Closely spaced small early dwellings and narrow streets. Minimal front set-backs. Many with front verandah built to front boundary. Minimal side set-backs.</p>	
<p>Architectural styles, detailing and built form features</p>	<p>Late 19th Century single fronted cottages, semi-detached and row dwellings. Modest double fronted detached cottages and villas. Few Interwar dwellings. Forms, scale and detailing reflective of the era.</p>	

Statement#	Statement	
Bur2		Hip and gable roof forms with pitches above 25 degrees.
	Building height	Single storey.
	Materials	Wall materials consistent with era of original construction including bluestone, freestone, sandstone and brickwork. Pitched roofs in galvanised iron sheet. Retention of original materials and finishes and unpainted masonry.
	Fencing	Typical of the era of historic development. Low and/or open fencing forward of the main building façade. Maximum height to 1.2m. Timber picket or dowelling. Simple masonry and cast iron palisade, or simple wrought iron. Corrugated iron or mini orb within timber framing.
	Setting, landscaping, streetscape and public realm features	Narrow streets. Boundaries positioned close to street with narrow footpaths. Street trees penetrating footpath adjacent kerb. Pocket park.
	Representative Buildings	Identified - refer to SA planning database.

Bur3	Wootoona Terrace Historic Area Statement (Bur3)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Majority 1918 - 1940 Post WW1. Few 1912 - 1914 Federation.
	Allotments, subdivision and built form patterns	Single street intersected by side streets at 90 degree. Large site areas. Large street frontage widths. Generous front set-backs. Consistent side set-backs.
	Architectural styles, detailing and built form features	A range of early 20th Century international styles including Bungalows, Tudors and early English residential architecture. Large dwellings of generous proportions. Forms, scale and detailing reflective of the era. Hip and gable roof forms with pitches above 25 degrees. Various porch and verandah styles including return verandahs, usually of generous proportions, either projecting or as a continuation of the main roof structure.
	Building height	Mix of single storey and double story. Two storeys associated with grand residences. Upper storey elements are integrated sympathetically into the dwelling design.
Materials	Wall materials consistent with era of original construction including bluestone, freestone, sandstone and brickwork. Roofs in galvanised iron sheet or terracotta tiles. Retention of original materials and finishes and unpainted masonry.	
Fencing	Typical of the era of historic development. Low and/or open fencing forward of the main building façade. Maximum height to 1.2m. Often including masonry pillars as entry statements constructed in stone or brick matching dwelling façade. Heavily vegetated. Some substantial hedging.	

Statement#	Statement																	
	Setting, landscaping, streetscape and public realm features	Wide verges. Substantial trees on public and private land. Expansive allotments, street frontages and gardens. Significant front landscaped gardens.																
	Representative Buildings	Identified - refer to SA planning database.

	<p>Brompton Park Historic Area Statement (ChSt3)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>

Statement#	Statement	
ChSt3	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1870s to 1890s. Victorian era.
	Allotments, subdivision and built form patterns	Very narrow, long allotments.
	Architectural styles, detailing and built form features	Single storey, detached and attached, single and double fronted workers' cottages. Typically, small span steeply pitched gable and hipped 'M' roofs facing the street with ridge perpendicular or parallel to the street. Separate verandah to higher front wall or parapet.
	Building height	Single storey with ceiling heights at least 3m.
	Materials	Bluestone and sandstone front walls, and red brick sidewalls. Render to verandah piers, banding and parapets. Corrugated steel roofing in galvanised or paint finish. OG guttering in galvanised or paint finish. Painted timber to window frames, doors and roof trim. Chimneys; brick or painted render.
	Fencing	Low front fencing, typically picket fencing and low masonry walls or combination thereof.
	Setting, landscaping, streetscape and public realm features	Small setbacks from the street. Narrow streets with minimal on-site car parking. Original shopfronts and hotels to street corners. Some industrial buildings constructed to street frontages.
Representative Buildings	Identified - refer to SA planning database.	
ChSt4	Blight Street, Ridleyton Historic Area Statement (ChSt4)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	From 1939. Early SA Housing Trust.
	Allotments, subdivision and built form patterns	Regular rectangular allotments with generous frontage and depth, central shared boundary and small side boundary setbacks for driveways.
Architectural styles, detailing and built form features	Single storey, 'early modern' style, typically semi-detached (duplex). Symmetrical frontage to duplex. Variable pattern of duplexes in street. Vertical proportions to windows. Hipped and gabled roofs, with porch a continuation of main roof or separate and awnings over front door and windows. Some projecting hipped roofs. Shallow roof pitch of 20 degrees maximum.	
Building height	Single storey with ceiling heights around 2.7m - 3m.	
Materials	Red brick, protruding courses, painted and rendered sections, generally ay high level to walls. Corrugated steel and tiled roofing. Porches either corrugated steel or curved flat concrete canopies. Timber framed sunshade awnings with corrugated iron sheet roof. Red brick chimneys.	

Statement#	Statement
	Painted timber framed window frames, doors and roof trim.
Fencing	Low open cyclone wire fencing or low tubular steel fencing.
Setting, landscaping, streetscape and public realm features	Medium to large front setbacks. Generous setting to each side of duplex.
Representative Buildings	Identified - refer to SA planning database.

Ornate cast iron to some verandahs.
Éras, themes and context	1910s to 1940s.											
Allotments, subdivision and built form patterns	Very regular and consistent rectangular allotments, typically very wide. Narrow deep allotments to Frederick Street.											
Architectural styles, detailing and built form features	Late-Edwardian and Federation housing styles. Predominantly detached with some early semi-detached housing, some designed to look like one dwelling (Frederick Street). Early bungalows and 1940s Austerity houses. Some bungalow makeovers to earlier symmetrical dwellings. Hipped, gable and louvre roofs. Separate bull nose verandah typically to earlier dwellings. 'M' roof forms with ridge parallel to street frontage. Generous simple bungalow roof planes at shallower pitch to earlier housing with lower height generous width verandah. Some verandahs continuous with main roof.											
Building height	Single storey with ceiling and external wall heights at least 3m - 3.5m.											
Materials	Red brick, bluestone and sandstone walls. Terracotta tiles, corrugated iron and decorative timber trim roofs. Painted metal gutters. Wall vents at high level between top of verandah and underside of gutter Red brick or render finish chimneys. Flat Cantilever concrete canopy sunshades with steel suspension. Ornate cast iron to some verandahs.											

Statement#	Statement	
		Ornate decorative painted timber to some verandahs. Painted timber to window and door frames and timber roof trim.
Fencing		Typically, low masonry sometimes with steel inserts, timber picket or wire mesh with timber post fencing.
Setting, landscaping, streetscape and public realm features		Tree-lined streets. Large front setbacks.
Representative Buildings		Identified - refer to SA planning database.
ChSt12	Woodville South Historic Area Statement (ChSt12)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1910s to 1940s.
	Allotments, subdivision and built form patterns	Substantial allotments with uniformity of layout and buildings, particularly in the 'Glen' Streets and Angus Street. Predominantly large frontages.
	Architectural styles, detailing and built form features	Predominantly bungalows with one wide verandah and Tudors with two main gables and central porch. Some Spanish Mission, Dutch Gable and Art Deco houses. Predominantly detached. Steep pitched gables associated with Tudor housing and Dutch Gables. Some villa/bungalow hybrid gables. Gable porches. Bungalow style verandahs with low height pitching point. Some verandah roofs continuous with main roof (bungalow and Spanish Mission). Some flat roofed verandahs set behind arched parapet verandah (Spanish Mission). Tall chimneys.
	Building height	Single storey with ceiling heights at least 3m. Bungalow and Spanish Mission typically of lower wall appearance to the street, with broad frontage.
	Materials	Freestone, red brick, stucco and baked or glazed brick. Exposed ornate timber work. Terracotta tiles and some galvanised corrugated iron roofs. Tapered and straight masonry piers and low walls to verandahs of bungalows, some with rendered capping to brickwork or rendered masonry. Painted timber battens (Tudor curved) to painted panel gables of Tudor and Bungalow. Painted timber framed window frames, door frames and roof trim.
	Fencing	Fencing generally low brick, stucco or wire and mostly integral with the design of the house. Some painted timber fencing with pickets or woven wire.
Setting, landscaping, streetscape and public realm features	Tree lined streets, well maintained gardens, abundant with mature vegetation. Main-focus the landscaped Woodville Oval complex. Buildings fronting Woodville Oval on Oval Avenue and Cedar Avenue are of a larger scale with wider allotments, particularly on corner allotments with 'Glen' Streets.	
Representative Buildings	Identified - refer to SA planning database.	
	Kilkenny Historic Area Statement (ChSt13)	
The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. Woodville Historic Area Statement (ChSt15)		
The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.		
These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.		
The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.		
Eras, themes and context	1880s to 1940s.	
Allotments, subdivision and built form patterns	Large, deep allotments typically very wide with slightly smaller scale housing south of the railway line. The Stanley Street change in direction results in allotments of lesser depth. Large corner allotments to Woodville Road. Some narrow allotments to Hughes Street North.	
Architectural styles, detailing and built form features	Generally large single-storey detached houses, bluestone Victorian villas, large Federation, Queen Anne and elaborate, large bungalow dwellings. Significantly larger mansions to Woodville Road. Smaller symmetrical cottages with some return verandah and smaller, simple bungalows to Russell Terrace. Semi-detached houses designed to look like one dwelling on Hughes Street North. Hipped, gable and louvre roofs. Relatively more complex hipped, gable and louvre roofs with verandahs. Separate verandahs, typically bullnose, across frontages of symmetrical cottages, with many return verandahs not always on corner allotments. Separate verandahs to suit Villa style. Federation style verandahs continuous with main roof. Steeper roof pitches to earlier styles with shallower pitched bungalow roofing. Wide low height verandah frontages to bungalows with gable and half gable styles with masonry piers and low plinth walls. Simple, multiple generous roof planes and eaves overhangs to bungalows with main ridge generally parallel to the street.	
Building height	Single storey with ceiling heights at least 3m - 3.5m.	
Materials	Bluestone, red brick and freestone walls. Galvanised corrugated iron and tiled roofs. Painted timber window frames, doors, roof trim and cover battens to gable panels. Some ornate painted timber fretwork and posts to verandahs.	

Statement#	Statement	
		Brick or rendered masonry chimneys.
	Fencing	Typically, low masonry sometimes with steel inserts, timber picket or wire mesh with timber post fencing.
	Setting, landscaping, streetscape and public realm features	Wide, tree-lined streets and large established gardens. Large front setbacks.
	Representative Buildings	Identified - refer to SA planning database.
ChSt16	<p>Cheltenham East Historic Area Statement (ChSt16)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1880 -1940. Small early cottages, Federation through to Bungalow.
	Allotments, subdivision and built form patterns	Small and variable allotment sizes, typically wide. Some substantial corner allotments remain.
	Architectural styles, detailing and built form features	Villas and symmetrical cottages, Federation and bungalow styles. Predominantly detached. Simple steeply pitched hipped, gable, louvre roof forms and verandas. Some separate and bullnose generally symmetrical with occasional return verandahs not always on corner allotments. Bungalow roof forms with simple generous roof planes and eaves overhangs. Some verandahs continuous with main roof. Low height street facing bungalow verandahs with tapered masonry piers and low plinth walls.
	Building height	Single storey with ceiling heights at least 3m - 3.5m.
	Materials	Pressed metal, 'stone' front, metal or weatherboard clad, red brick, freestone and sandstone walls. Corrugated iron and terracotta tiled roofs. Red brick and rendered finish to chimneys. Painted timber window frames, doors, roof trim and cover battens to gable panels. Generally, less ornate painted timber fretwork and posts to verandahs. Some cast iron lacework to verandahs.
	Fencing	Typically, low masonry sometimes with steel inserts, timber picket or wire mesh with timber post fencing.
	Setting, landscaping, streetscape and public realm features	Varied, small to medium front setbacks.
	Representative Buildings	Identified - refer to SA planning database.
		<p>Cheltenham West Historic Area Statement (ChSt17)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. Allotments, subdivision and built form patterns	Traditional patterns of development incorporating verandahs, balconies and parapets clustered around Henley Square.																	
Architectural styles, detailing and built form features	Substantial two-storey buildings with wide balconies and verandahs, some over footpaths. Traditional single storey buildings with verandahs over footpaths.																	

Statement#	Statement	
ChSt22		Modern development including large expansive verandahs on the square. Decorative parapets to the street and Henley Square facades. Steeply pitched hipped and gable roof forms, with attached balconies and verandahs across frontage. Skillion and curved (bull nose) verandah roof forms.
	Building height	Single and double storey buildings with ceiling heights at least 4.5m per floor giving an imposing character.
	Materials	Bluestone, sandstone, red brick walls and rendered walls. Some corrugated iron walling. Use of brick and rendered quoins, brick banding and other traditional decoration. Imposing masonry pediments and gables with brick banding. Corrugated steel roofing. Decorative cast iron and painted timber verandahs and balconies.
	Fencing	Some low masonry walling. Typically, open shop fronts with verandahs over public realm.
	Setting, landscaping, streetscape and public realm features	Historic heart of Henley Beach and the principal area for a range of retail, business and entertainment uses.
	Representative Buildings	Identified - refer to SA planning database.

ChSt23	Eighth Street, Bowden Historic Area Statement (ChSt23)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1860s - 1890s.
	Allotments, subdivision and built form patterns	Intimate scaled narrow fronted and regular rectangular allotment containing three pairs of semi-detached dwellings and one detached dwelling.
	Architectural styles, detailing and built form features	Single storey semi-detached dwellings and detached dwelling. Gable facing the street defining each semi-detached dwelling. Steeply pitched gable roofs facing the street. Skillion verandah roof forms or variable pitch.
	Building height	Single storey with ceiling heights around 3m. High solid to void ratio and vertically proportioned openings.
	Materials	Rendered masonry walls with attached front verandahs. Brick capping to parapets with some decoration. Corrugated steel roofing.
	Fencing	Traditional and some non-original low rendered masonry and timber picket fencing with occasional tubular-steel.
Setting, landscaping, streetscape and public realm features	Small front wall setbacks with verandah forward of front wall.	
Representative Buildings	Identified - refer to SA planning database.	

Historic Areas affecting Clare and Gilbert Valleys

	Auburn Historic Area Statement (CGV1)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise	

Statement#	Statement	
CGV1	land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Town centre as the original village of Auburn. Buildings constructed in the 19 th century.
	Allotments, subdivision and built form patterns	Original land division pattern, street layout and setback patterns.
	Architectural styles, detailing and built form features	Verandahs.
	Building height	1-2 storeys, with 2 storey buildings generally for retail and civic uses.
	Materials	[Not stated]
	Fencing	Front fences and gates of timber pickets, pier and plinth masonry, wrought iron, brush or masonry not exceeding 1.2m.
Setting, landscaping, streetscape and public realm features	Wide streets and established trees contribute to a village setting.	
Representative Buildings	Identified – refer to SA planning database.	

Historic Areas affecting Coorong

COOD1	Raukkan Historic Area Statement (CooD1)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	A significant meeting place for the Ngarrindjeri people. Community buildings (including the Raukkan Church, community hall and school) are of particular value.
	Allotments, subdivision and built form patterns	Allotments of 700 to 800m ² .
	Building height	Single storey.
	Materials	Stone and corrugated iron roofing.
Setting, landscaping, streetscape and public realm features	Settlement arranged around the green open space defined by Lealinyeri, Seymour and Taplin streets. Wide streets, large grassed verges and buildings constructed to street frontages.	
Representative Buildings	[Not identified]	

Historic Areas affecting Copper Coast

COCO1	Moonta Mines Buffer Historic Area Statement (CoCo1)

Allotments, subdivision and built form patterns	Traditional grid.				

Statement#	Statement	
COC011	Architectural styles, detailing and built form features	Two-storey stone buildings exhibiting refined detailing, ornate roof elements and a high-level of craftsmanship are of particular value. Extensive glazing and double-hung doors and windows in street facing frontages of non-residential buildings. Windows emphasised by framing. Symmetrical fronted and vertically proportioned dwellings. Hipped roof forms with pitches between 30-45 degrees. Sloping verandahs overhang footpaths to the street and are connected to shops.
	Building height	Predominantly single storey where residential or retail. Two storeys associated with grand, civic or commercial activities (town hall, hotels).
	Materials	Local stone, masonry, corrugated iron roofing, stone and timber-framed windows and doors, timber verandah posts and brick chimneys.
	Fencing	Timber and stone fences not exceeding 1.2m.
	Setting, landscaping, streetscape and public realm features	Wide streets, a prominent central public square framed by significant public buildings and limited landscaping. Buildings square to and on street alignments. Minimal breaks between buildings except where access to the rear of a site is provided. Dwellings are consistently set back further from the street.

Historic Areas affecting The Flinders Ranges Council

FLRA1	Quorn Historic Area Statement (FIRa1)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Turn of the 19 th century. Civic, commercial and retail. Railway.
	Allotments, subdivision and built form patterns	Traditional grid.
	Architectural styles, detailing and built form features	Villas and double fronted cottages. Railway buildings and railway architecture. Verandahs provided over footpaths. Heritage-style signage.
	Building height	Single storey. Two storeys associated with grand, civic or commercial activities.
	Materials	Local stone, masonry and corrugated iron.
	Fencing	Open fencing no more than 1.2m.
Setting, landscaping, streetscape and public realm features	Buildings square to and on the street alignment. Buildings not on street alignment surrounded by gardens/landscaping. Minimal breaks between buildings other than where there has been an existing access to the rear of the site. Wide streets and verges, grassed median strips and tree lined streets.

Historic Areas affecting Town of Gawler

	Gawler East Historic Area Statement (Ga1)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
Eras, themes and context	1850-1940; residential and local scale retail.	
Allotments, subdivision and built form patterns	The Area is divided into two sections by Lyndoch Road. Large allotments with large dwellings and gardens exist along High Street and Duffield Street. Smaller allotments exist along Lyndoch Road. Traditional grid north of Lyndoch Road. Allotments typically are of consistent width and depth, rectangular in shape orthogonal to the street layout apart from some dwellings facing Lyndoch Road on the north side, which have an angled front boundary. The pattern of streets stem from orthogonal junctions with Lyndoch Road and rising ground.	
Architectural styles,	Victorian and Turn-of-the-Century Villas/Mansions. Nineteenth century double fronted symmetrical cottages; parapet end gables a feature. Bungalows	

Statement#	Statement	
Ga1	detailing and built form features	<p>with some Inter War. Roof pitches in the order of 27 degrees and 35 degrees. Stone walls and stone outbuildings.</p> <p>Steeply pitched hipped and simple gable roofs of small and large scale. Large roofs typically gambrel in form with additional central gables and villa style projecting gable. Smaller early roof forms with ridge parallel to the street. Separate, generous verandahs to the street of bullnose, straight and concave form. Some return verandahs and some central entrance gable. Some verandahs continuous with main roof. Shallower pitched bungalow roof forms with simple generous roof planes and overhangs. Wide bungalow style verandahs with masonry supports and low plinth walls.</p>
	Materials	<p>Sandstone/Limestone with red brick quoins. Ornate render. Corrugated profile roofing. Vertically proportioned painted timber window frames and doors. Painted timber cover battens. Decorative brick, stone or rendered chimneys. Cast iron decoration and painted timber detailing to verandahs.</p>
	Building height	<p>Single storey forms generally influenced by site topography.</p> <p>Buildings on low side of streets appear as single storey with double level to rear, particularly in north west of area.</p> <p>Buildings on high side of street appear as double storey or elevated single storey with verandahs occurring on high plinth and central access steps.</p>
	Fencing	<p>Low open style fencing which includes masonry pier and plinth fence with decorative open infill. Low masonry walls up to 1.2 metres. Timber picket fences. Hedges. Stone walls on front boundaries are important features.</p>
	Setting, landscaping, streetscape and public realm features	<p>Important entrance to Gawler from east with significant north to south connecting streets such as Duffield and East. Unique angled street layout north of Lyndoch Road with Edith and Blanch Street connected by Short Street. North western edge defined by Railway Line. A portion of the west side faces Pioneer Park; some small scale mixed use to Union Street. North to south streets generally run with contours of land with high and low side. Generous front and side setbacks. Landscaped setting derived from generous gardens with substantial trees and wide tree-lined streets. Surfaces consistent with the footpaths and streets. Views to and from the area.</p>
	Representative Buildings	<p>Identified - refer to SA planning database.</p>
Ga2	<p>Gawler South Historic Area Statement (Ga2)</p>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	<p>1860 to 1950 including bungalows and Austerity.</p>
	Allotments, subdivision and built form patterns	<p>Generous allotments typically on flat land with some variations in topography towards Dead Man's Pass and river. Grid pattern intersected by Twelfth Street that shifts direction at Adelaide Road. Oblique street intersections and prominent irregular corner allotments as follows: Unique and variable Street pattern defined by Railway line, Adelaide Road, Racecourse, Gawler River and Town Centre. Eighteenth to twenty second street run east to west. First, Second and Fourth Streets run parallel with the northern Adelaide Road and join with Adelaide Road at an angle. Fifth, Seventh, Third and Sixth Streets connect to each side of Adelaide Road. Thirteenth, Fourteenth and Fifteenth Street and Eighth Streets angled to River. Smaller allotments to Ninth and Tenth Streets. Gawler Terrace defined by Dead Man's Pass.</p>
	Architectural styles, detailing and built form features	<p>Detached double-fronted villas. Semi-detached and row cottages. Some Federation and Bungalow style dwellings. Some Inter War and Austerity. Verandahs and parapets. Substantial stone or masonry villas surrounded by generous gardens and landscaping.</p> <p>Traditional railway structures associated with the Gawler Railway Station including workshops, stores and industrial buildings and small.</p> <p>Roof pitches in the order of 27 degrees and 35 degrees. 'M' Roof form and gambrel roof found in 13th and 14th street vicinity. Gambrel roof forms to villas. Simple, small span cottage style roofs generally evident. Parapets to cottages.</p> <p>Separate verandahs including but not limited to generous sweeping concave style. Some verandahs continuous with main roof.</p>
	Building Height	<p>Single storey with some elevated housing in Eighth Street and Gawler Terrace, featuring substantial setbacks and elevated verandahs. Wall heights in the order of 3.6 metres above floor level.</p>
	Materials	<p>Stone and limestone walling with red brick quoins. Some bluestone. Corrugated iron roof sheeting to verandahs and roofs. Red brick or render chimneys. Ornate brick detailing to gables and gable vents. Cast iron lacework to verandahs; typically simple timber details. Painted timber window frames, doors, roof trim and modest decorative treatments such as finials.</p>
	Fencing	<p>Low masonry walling. Low open style fencing which includes masonry pier and plinth fence with decorative open sections of up to 1.2 metres in total height. Painted timber picket fencing. Some woven wire fencing with painted timber posts.</p>
Setting, landscaping, streetscape and public realm features	<p>Detached dwellings on generous wide and deep allotments. Generous front and side setbacks. Some early cottages with very substantial setbacks. The strong visual axis to the Railway Station buildings provided by Nineteenth Street. Boulevard style and character of Nineteenth Street derived from buildings positioned close to and square to the road frontage and designed to directly address the street. Corner sites where the grid is interrupted accommodating prominent buildings whose built form and side elevations are of equal importance to the façade. Established gardens with substantial front and side setbacks. Wide tree lined streets particularly Eighteenth Street, which incorporates gravel verges and remnant bluestone/slate kerbing to define bitumen. Night Cart lanes alignment and widths.</p>

Ga8	<p>Town Centre Light Historic Area Statement (Ga8)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Planning undertaken by Light, Finniss and Co in 1839. Historic civic and commercial heart of Gawler.
	Allotments, subdivision and built form patterns	Long relatively narrow allotments that span between Murray Street and High Street to the east and Julian Terrace to the west (south of Walker Place). Intersection with streets, squares and other elements which comprise the original 1839 grid layout of Light, Finniss and Co. Linear form that is positioned on a strong north/south axis with rising ground from south to the north. Area defined by the angled Adelaide Road entrance and junction with Murray Street, Gawler Mill and bridge on the south and angled road junctions with Lyndoch Road and Cowan Street to the north, the eastern escarpment and the river (Julian Terrace and avenue of Moreton Bay Figs). Area includes Gawler Central Railway Station precinct on the north side and Murray Street south of Bridge Street towards Dead Man's Pass. Pioneer Park and McKinlay's Monument mark the Cowan Street junction.
	Architectural styles, detailing and built form features	<p>Substantial and ornate single and double storey buildings that demonstrate the importance of Gawler in the development of South Australia including civic and bank buildings, former church, hotels, former industrial buildings, terraces of shops, ground floor shop fronts and residential use above. Buildings constructed to the Murray Street frontage, some with generous verandahs and/or balconies to first floor over the footpath. Mostly narrow shopfronts contrasted by Essex House that demonstrates a rare consolidated wider shopfront to a single storey parapeted shop front.</p> <p>Hipped and gable roof forms, some with gambrel typically set behind parapet with some exceptions which feature eaves with ornate corbel supports. Ridges generally run perpendicular to main street with some exceptions.</p>
	Building Height	Two storey up to 8-10 metres.
	Materials	External walls of bluestone, sandstone or render with brick or rendered parapets. Painted timber or cast iron verandah supports. Painted timber shopfronts and window frames. Brick and render or stone chimneys. Corrugated iron roofing and some terracotta tile.
	Fencing	Some low front walling to former Baptist Church. Masonry walls with cast iron to bank buildings and Rudall and Rudall. Cast iron to ANZ bank building.
	Setting, landscaping, streetscape and public realm features	<p>Buildings generally constructed to street frontage with verandahs over footpath. Some exceptions include former Baptist Church and bank buildings set behind front walling. The topography and natural features of the locality including the rising ground at Church Hill and Gawler East (which flank either side of the Town Centre) and the form of the North and South Para Rivers and their confluence.</p> <p>The public squares around the churches and the terraces and parklands bordering the rivers.</p> <p>Views of the Gawler East escarpment from Bridge Street South.</p>

Maturin Road Historic Area Statement (HoB2)

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

Eras, themes and context	1920s or 30s.
Allotments, subdivision and built form patterns	<p>Original subdivision of The Olives and Bromley.</p> <p>Allotments on southwest end were subdivided in 1886 and 1912.</p> <p>Mixed allotment sizes with large frontages.</p> <p>Substantial building setbacks.</p> <p>Large front setbacks.</p> <p>Side setbacks provide visual spacing between dwellings.</p>
Architectural styles, detailing and built form features	<p>Typical 1890s to early 20th Century dwellings.</p> <p>Victorian dwellings.</p> <p>Inter-War dwelling styles including Bungalow, Tudor, Art Deco and Mediterranean.</p> <p>Rectilinear plan forms.</p> <p>High degree of modulation and articulation.</p> <p>Low scale.</p> <p>Steep roof pitches in the order of 30 to 40 degrees (slightly lower on Inter-War buildings).</p> <p>Short roof spans.</p>

Statement#	Statement
HoB2	<p>Hip and gable roof forms.</p> <p>Deep verandahs and porches.</p> <p>Fine-grain detail in elements such as plinths, string courses, projecting sills.</p> <p>High solid to void ratio.</p> <p>Vertical proportions in windows and doors.</p> <p>Garages, carports and outbuildings, where they exist, are low in scale and simple in form. They are located unobtrusively, to the rear of dwellings or the principal building on the site or, alternatively to the side and well-setback from the front façade.</p>
Building height	Single storey and two storey (some in-roof or partly in-roof).
Materials	<p>Consistent with the materials used in the 1880s to 1930s period.</p> <p>Sandstone, red brick, rendered facades.</p> <p>Corrugated iron and terracotta tiled roofing.</p> <p>Timber joinery including verandah posts and framing, fascia, barges, window frames, door frames and doors.</p> <p>Timber strapping on Inter-War dwelling gables.</p>
Fencing	<p>Fencing associated with the era and style of the building, and providing views to the building.</p> <p>Timber picket, timber dowel, timber paling.</p> <p>Hedging.</p> <p>Low masonry plinth with cast iron or wrought iron in a traditional arrangement.</p> <p>Woven wire or low masonry with or without geometric steel for Inter-war buildings.</p>
Setting, landscaping, streetscape and public realm features	<p>Narrow street.</p> <p>Well-established garden settings.</p> <p>Lack of street planting due to the narrow width of Maturin Road.</p> <p>The Olives is a significant State Heritage Place on Olive Street.</p>
Representative Buildings	Identified - refer to SA planning database.

Da Costa Park Historic Area Statement (HoB3)

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

Eras, themes and context	<p>1923 subdivision.</p> <p>1920s - 1930s dwellings.</p>
Allotments, subdivision and built form patterns	<p>Subdivision is indicative of 1920s town planning with angled, diagonal streets centred radially around a central park or reserve.</p> <p>Garden city theory in practice.</p> <p>The pattern of the subdivision and the arrangement and size of individual allotments remains largely unaltered.</p> <p>Large allotments with large frontages.</p> <p>Consistent, large front setbacks.</p> <p>Side setbacks provide visual spacing between dwellings.</p>
Architectural styles, detailing and built form features	<p>Inter-War style dwellings including Tudor Revival, Californian bungalow, Art Deco, and some Spanish mission.</p> <p>Rectilinear plan forms.</p> <p>High degree of modulation and articulation.</p> <p>Low scale.</p> <p>Steep roof pitches in the order of 25 to 35 degrees.</p> <p>Short roof spans.</p> <p>Hip and gable roof forms.</p> <p>Deep verandahs and porches.</p>

Statement#	Statement	
HoB3		<p>Fine-grain detail in elements such as plinths, string courses, projecting sills.</p> <p>High solid to void ratio.</p> <p>Vertical proportions in windows and doors.</p> <p>Garages, carports and outbuildings, where they exist, are low in scale and simple in form. They are located unobtrusively, to the rear of dwellings or the principal building on the site or, alternatively to the side and well-setback from the front façade.</p>
	Building height	Single storey.
	Materials	<p>Consistent with the materials used in the 1920s to 1930s period.</p> <p>Terracotta tiled and corrugated iron roofing.</p> <p>Brick, sandstone, and stucco and part-rendered finishes.</p> <p>Roofing, facades and fenestration in natural red brick and terracotta colouration.</p> <p>Timber joinery including fascia, barges, window frames, door frames and doors.</p> <p>Timber strapping on Inter-War dwelling gables.</p>
	Fencing	<p>Fencing associated with the era and style of the building, and providing views to the building.</p> <p>Woven wire.</p> <p>Low masonry with geometric steel.</p> <p>Low masonry (stepped).</p> <p>Low masonry fencing (often stepped).</p> <p>Low Rock face sandstone.</p> <p>Hedging.</p>
	Setting, landscaping, streetscape and public realm features	<p>Centred around Da Costa Park, with its triangular landscaped area and mature trees.</p> <p>Relatively wide streets.</p>
	Representative Buildings	Identified - refer to SA planning database.

New Glenelg Historic Area Statement (HoB4)

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

Eras, themes and context	<p>Subdivided in 1850.</p> <p>Buildings 1860s - 1900s and 1920s - 1930s.</p> <p>Most intense development occurred in 1870s and 1880s.</p> <p>Further development in 1920s - 1930s (Interwar period).</p>
Allotments, subdivision and built form patterns	<p>Varying allotment sizes and street width. Larger allotment sizes in some areas to the west along Broadway, Robert Street and South Esplanade. Smaller allotment sizes are predominant throughout the Bath Street area, and between Hastings and Moseley Streets. Uniform, large allotment sizes and large frontages along Penzance and Partridge Streets. Front setbacks vary from street to street across the area. Front setbacks are however consistent along individual streetscapes. Side setbacks provide visual spacing between dwellings.</p>
Architectural styles, detailing and built form features	<p>All domestic architectural types from the 1870s to 1880s, from the largest of seaside mansions (e.g. South Esplanade) to the humblest of workers cottages (e.g. John Street).</p> <p>Late Victorian to early 20th Century Period architecture.</p> <p>Early symmetrical and asymmetrical cottages of low scale and simple form with restrained detailing.</p> <p>Mid-Victorian Period cottages and villas (symmetrical and asymmetrical), semi-detached cottages and row dwellings with detailing typical of the era including verandahs, cast iron lacework, hipped and gable roof forms, plaster and render mouldings.</p> <p>Inter-War buildings, mostly Bungalows.</p> <p>Many dwellings without vehicle garaging.</p> <p>Garages, carports and outbuildings, where they exist, are low in scale and simple in form. They are located unobtrusively, to the rear of dwellings or the principal building on the site or, alternatively to the side and well-setback from the front façade.</p> <p>Rectilinear plan forms.</p>

Statement#	Statement	
HoB4		<p>High degree of modulation and articulation.</p> <p>Low scale.</p> <p>Steep roof pitches in the order of 30 to 40 degrees (slightly lower on Inter-War buildings).</p> <p>Short roof spans.</p> <p>Hip and gable roof forms.</p> <p>Concave, bullnose and straight-pitched verandahs.</p> <p>Fine-grain detail in elements such as plinths, string courses, projecting sills.</p> <p>High solid to void ratio.</p> <p>Vertical proportions in windows and doors.</p>
	Building height	Predominantly single storey.
	Materials	<p>Consistent with the materials used in the 1840s to 1920s period.</p> <p>Sandstone, bluestone and brick. Corrugated iron and tiled roofing. Timber joinery including verandah posts and framing, fascia, barges, window frames, door frames and doors. Timber strapping on Inter-War dwelling gables.</p>
	Fencing	<p>Fencing associated with the era and style of the building, and providing views to the building.</p> <p>Timber picket, timber dowel, timber paling.</p> <p>Hedging.</p> <p>Low masonry plinth with cast iron or wrought iron in a traditional arrangement.</p> <p>Woven wire or low masonry with or without geometric steel for Inter-war buildings.</p>
	Setting, landscaping, streetscape and public realm features	<p>Norfolk Island pines throughout.</p> <p>Mature oak street trees along Moseley Street.</p> <p>Vistas over the ocean to the west of the Historic Area.</p>
	Representative Buildings	Identified - refer to SA planning database.

Historic Areas affecting City of Marion

Mar1	Worthing Mine Historic Area Statement (Mar1)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1850/51. Structures and workings associated with Worthing Mine site.
	Allotments, subdivision and built form patterns	Sited in the steep valley of the Field River.
	Architectural styles, detailing and built form features	Mine, Chimney and Pump House/Engine House associated with copper mining (oldest surviving Cornish Engine House in Australia).
	Building height	[Not stated]
	Materials	Random rubble with timber lintels.
	Fencing	[Not stated]
	Setting, landscaping, streetscape and public realm features	Sited in the steep valley of the Field River amongst undulating grassland. Recent housing development is located to the north, west and east of the site (200m plus in distance). Views to the Worthing Mine are available from parts of the adjacent residential areas.
Representative Buildings	[Not identified]	

Historic Areas affecting City of Mitcham

	Residential (Central Plains) Historic Area Statement (Mit1)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Early 20th century dwellings.
Allotments, subdivision and built form patterns	Substantial rectangular blocks. Substantial consistently wide and deep rectangular blocks that retains the historic pattern of land division.	

Statement#	Statement
Mit1	<p>Consistent generous spacing between dwellings.</p>
	<p>Architectural styles, detailing and built form features</p> <p>Predominance of Queen Anne style villas and bungalow style dwellings. A number of early villas.</p> <p>Steeply pitched hipped and gable roof forms including smaller scale corner gable to return verandah villas.</p> <p>Separate typically bull nose verandah with some a continuation of the main roof form.</p> <p>Return verandahs particularly at corner allotments.</p> <p>Bungalows with slightly shallower roof pitch, simple generous roof plane facing the street with main ridge typically parallel to street.</p> <p>Wide Bungalow verandahs with tapered or upright masonry support piers and low infill walling.</p> <p>Timber framed and iron clad awnings to windows.</p> <p>Tudor roof forms generally steeper with two main projecting gables and smaller gable porch over main entrance.</p>
	<p>Building height</p> <p>Predominately single storey with external wall height of 3-3.5 metres.</p> <p>Second storey development located within the roof space or to rear of dwellings.</p>
	<p>Materials</p> <p>Original materials, finishes and profiles of building elements.</p> <p>External walls of sandstone, rendered masonry, face brick</p> <p>Decorative wall treatments such as rendered, or brick quoins and low plinths defined by cant brick set out.</p> <p>Painted timber cover battens to gables and roof trim.</p> <p>Painted decorative timber to verandahs and finials to gables.</p> <p>Verandahs supported on timber posts with some on painted masonry pillars.</p> <p>Roofs of corrugated galvanised iron cladding or terracotta tiles.</p> <p>Original unpainted plaster, brickwork, stonework or other masonry preserved unpainted.</p> <p>Decorated face brick or rendered masonry chimneys.</p> <p>Painted metal gutters to D or OG profile and round painted metal downpipes.</p> <p>Painted timber window frames and doors.</p>
	<p>Fencing</p> <p>Typically fences reflect the era of the dwelling. Low masonry plinth and post, wrought iron, brush, timber woven with wire, painted timber picket. Height of 1.2m. Rear and side boundary fences located behind the front dwelling alignment 1.8m in height in corrugated profile metal.</p>
	<p>Setting, landscaping, streetscape and public realm features</p> <p>Regularly planted tree lined verges.</p> <p>Established front gardens.</p> <p>Consistent setback of buildings.</p>
	<p>Representative Buildings</p> <p>Identified - refer to SA planning database.</p>

Adey Road Historic Area Statement (Mit2)	
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
<p>Eras, themes and context</p>	<p>1879 subdivision with predominance of buildings built between 1881-1920.</p>
<p>Allotments, subdivision and built form patterns</p>	<p>Traditional pattern and scale of low density, rectangular allotments associated with the original subdivision for the purpose of detached dwellings.</p> <p>Variable width to allotments.</p> <p>East side is orthogonal to Adey Road. West side has angled side boundaries to Adey Road.</p>
<p>Architectural styles, detailing and built form features</p>	<p>Detached dwellings of simple, modest, small scale with symmetrical early stone and brick villas.</p> <p>Victorian Regency and Edwardian to smaller and later bungalows.</p> <p>Gambrel roof typically with short ridge parallel to street, with projecting gable.</p> <p>Simple 'M' Roof with ridge parallel to street.</p> <p>Federation style verandahs continuous with main roof.</p> <p>Separate verandahs attached to main wall of varying profiles.</p>

Statement#	Statement
Mit2	Some bungalow influence roof forms and verandahs with masonry support piers and low plinth wall.
	<p>Building height</p> <p>Predominantly single storey with external wall height of 3 - 3.5 metres.</p> <p>Second storey development located within the roof space or to rear of dwellings behind ridgeline of roof. Second storey windows with total length less than 30 percent of total roof length along each elevation.</p>
	<p>Materials</p> <p>Original materials, finishes and profiles of building elements.</p> <p>External walls incorporating sandstone, red brick, render.</p> <p>Roof in corrugated metal cladding.</p> <p>Render with some ornate detail to window surrounds.</p> <p>Simple painted timber detail and roof trim.</p> <p>Painted timber window frames and doors.</p> <p>Simple and modestly detailed timber posts to verandah.</p> <p>Red brick or render chimneys, some tapered in height with some ornate detailing.</p> <p>Some ornate painted timber barge boards and finials.</p> <p>Most original unpainted plaster, brickwork, stonework or other masonry is preserved unpainted.</p>
	<p>Fencing</p> <p>Low and/or open fencing, typically in the form of hedges, woven wire, timber picket or low stone walls reflecting and the traditional period, style and form of the associated building.</p> <p>Generally, no more than 1.2m in height.</p> <p>Rear and side boundary fences located behind the front dwelling alignment no more than 1.8 metres in height.</p>
	<p>Setting, landscaping, streetscape and public realm features</p> <p>Minimal driveway widths with established front gardens dominant, including mature vegetation.</p> <p>Sense of space between buildings.</p> <p>Sloping land with minimal alteration to the land form.</p> <p>Bowling Club provides focal point and sense of Place.</p> <p>Traditional dwelling pattern located parallel to front boundaries.</p>
	<p>Representative Buildings</p> <p style="text-align: center;"><i>[Not identified]</i></p>

Belair Village Historic Area Statement (Mit3)	
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
<p>Eras, themes and context</p>	<p>1880-1900 (built form) original township of Belair developed around the railway. Village / residential character with an evident railway theme and rural character and the development of an old township.</p>
<p>Allotments, subdivision and built form patterns</p>	<p>Historic land division pattern, demonstrating a diverse array of allotments of varying sizes and shapes resulting from the change to rural character brought about through the introduction of the railway.</p> <p>A diverse mix of residential, education and commercial buildings with a cohesive style and generous setting.</p>
<p>Architectural styles, detailing and built form features</p>	<p>Mix of development including, churches, school, local shop, and concrete water tower. Clusters of substantial villas (4-6 rooms) with return verandahs to both sides of Sheoak Road.</p> <p>Long linear buildings constructed along the Sheoak Road ridge and generally oriented facing Sheoak Road, resulting in a variable but cohesive pattern of buildings.</p> <p>Traditional steeply pitched hipped and gabled roof forms and some projecting gables, typical of the Victorian era.</p> <p>Ridges tend to be parallel to the street.</p> <p>Separate verandahs of bullnose, straight monopitch or concave profile supported on painted timber posts.</p>
<p>Building height</p>	<p>Predominantly single storey with generally substantial external wall height up to 3.5 metres.</p>
<p>Materials</p>	<p>Original or otherwise complementary materials, colours and finishes, including stone, rendered masonry, face brick, corrugated iron and timber board.</p> <p>Original verandah detailing including paving, posts and decoration.</p> <p>External walls of sandstone or limestone.</p>

Statement#	Statement
	<p>Red brick quoins.</p> <p>Corrugated sheet roofing in painted or galvanised finish.</p> <p>Vertically proportioned painted timber window and door frames.</p> <p>Decorative brick and rendered chimneys.</p>
Fencing	<p>Open rural style fencing using timber posts with draw wire.</p> <p>Hedges define property boundaries.</p> <p>Front fences and gates that reflect the traditional period, style and form of the associated building.</p> <p>Open rural style Front fences and gates that are a maximum of 1.2 metres in height to a maximum of 1.5 metres if wrought iron, brush, timber and/or wire or woven mesh style.</p>
Setting, landscaping, streetscape and public realm features	<p>Village character with an evident railway theme and historic Residential character.</p> <p>Historic views of open railway side in a treed setting.</p> <p>The Village area retains much of its original character and integrity, with a railway theme evident in various places of state heritage, local heritage and other buildings of historic character.</p> <p>There are many prominent intact historic buildings and features within it and the streetscapes, townscape and landscapes created by these historic features.</p> <p>Central bitumen roadway with gravel verge and no kerb or guttering Street trees to Sheoak Road.</p> <p>Gravel driveway entrances to properties.</p>
Representative Buildings	<p>Identified - refer to SA planning database.</p>

Mit4	<p>Mitcham Village Historic Area Statement (Mit4)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>
Eras, themes and context	<p>Village Setting - 1840.</p> <p>Core precinct of the village is readily identifiable and exhibits many of the original aspects of its early beginnings, including a range of single and cottage houses, commercial buildings, post office, bakery, shops, hotel and other public buildings.</p> <p>Historic buildings and features that contribute to the historic character including State and Local Heritage Places and other buildings displaying historic architectural features.</p>
Allotments, subdivision and built form patterns	<p>The village was laid out on the lines of an English village and contained traditional elements such as a village green and high street. Further subdivision has occurred since the date, however the majority of the original land division is intact.</p>
Architectural styles, detailing and built form features	<p>Single, semi-detached, row and cottage houses, commercial buildings, post office, bakery, shops, hotel and other public buildings.</p> <p>Intimate small scale and finely grained buildings.</p> <p>Hotel and Institute with tall gabled ornate rendered parapets.</p> <p>Modestly detailed parapet walling above verandahs to shopfronts and shops attached to dwellings, mostly over pavements.</p>
Building height	<p>Single storey with 3 to 3.5 metres ceiling height.</p>
Materials	<p>Consistent with the architectural era of the building.</p> <p>Original unpainted brickwork or stonework.</p> <p>Bluestone walling.</p> <p>Corrugated profile roofing.</p> <p>Painted timber window frames and doors.</p> <p>Modest detailing to verandah posts and roof trim.</p> <p>Brick, stone and rendered masonry chimneys.</p>
Fencing	<p>Front fences and gates reflecting the traditional period, style and form of the associated building.</p> <p>Generally timber picket, brush or wire Fence height typically no more than 1.2m.</p> <p>Rear and side boundary fences located behind the front dwelling alignment no more than 1.8 metres in height with corrugated profile cladding.</p>

Statement#	Statement	
	Setting, landscaping, streetscape and public realm features	Traditional village setting with village green reflecting a mix of uses. Unbuilt land adjoining Brownhill Creek of Aboriginal heritage significance. Regular pattern of street trees. Varied historic townscape views due to plan of village and open space. Consistent building setbacks for dwellings. Shops attached to dwellings, commercial and institutional buildings constructed to the front boundary.
	Representative Buildings	Identified - refer to SA planning database.

Historic Areas affecting Mount Barker District Council

MtB1	Callington Historic Area Statement (MtB1)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1849. Small compact historic mining township defined by the Bremer River. Buildings and structures predominantly dating from the 19 th Century reflecting mining history.
	Allotments, subdivision and built form patterns	Unique often unbuilt grid street layout. Regular and repeated pattern of long narrow allotments arranged to west of Bremer River.
	Architectural styles, detailing and built form features	Early stone dwellings and outbuildings, shops, hotels and churches. Compact, intact and rustic collection of small scale, single storeyed, detached and semi-detached buildings and structures dating predominantly from the 19th century. Pioneer building techniques and materials typical of a former mining settlement. Parapet walls to end gables. Symmetrical frontages and separate verandas. Hipped and gable roof forms with ridge typically parallel to the street. Some simple skillion roof forms set behind a parapet. Barrel vaulted roofs. Separate verandahs with concave profile.
	Building height	External wall height varies from 3 to 4 metres.
	Materials	Stone external walls. Brick quoins. Some rendered walling. Corrugated profile sheet roofing often over original timber shingles. Painted timber window frames and doors. Painted timber verandah posts with some ornate decoration. Brick, render or stone chimneys.
	Fencing	Low stone walling to front and side boundaries. Hardwood post and wire mesh or cyclone mesh. Some timber picket fencing. Metal posts with metal rails, wire or mesh infill varieties evident within the area.
	Setting, landscaping, streetscape and public realm features	Footpaths and verges unmade Street furniture unadorned. Bridge entrance and rise from river provides sense of place.
	Representative Buildings	Identified - refer to SA planning database.

MtB4	Echunga Historic Area Statement (MtB4)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1849 - 1940. Commercial buildings including single storey shops, ecclesiastical, civic, former post office and hotel. Some rural structures including outbuildings. Some former shops being converted to dwelling. Single storeyed detached and semi-detached dwellings. Small cottages on large allotments.
	Allotments, subdivision and built form patterns	Shopfronts close to footpath. Generous setbacks to north-eastern side of Adelaide Road. Consistent, deep allotments.
Architectural styles, detailing and built form features	Verandahs and porches up to and over footpath. Small scale, single storeyed detached and semi-detached built form of early European settlements. Structures reflecting early local production. Parapets to shop fronts. Symmetrical and asymmetric frontages. Separate verandahs. Hipped and gabled roofs. Ridge typically parallel to street for residential dwellings. Parapet ends and gable roof for shops.	
Building height	External wall height of 3 to 4 metres for residential dwellings.	
Materials	Stone external walls. Brick quoins. Corrugated profile roof sheeting. Painted timber window frames and doors. Painted timber verandah posts. Brick, render or stone chimneys.	

Statement#	Statement	
		Fibre cement sheeting to parapets (e.g. Echunga Memorial Institute).
Fencing		Hardwood post and wire mesh or cyclone mesh. Some timber picket fencing. Metal posts with metal rails, wire or mesh infill varieties evident within the area.
Setting, landscaping, streetscape and public realm features		Wide street. Evenly spaced deciduous street trees to north-eastern side. Verandahs and porches to footpath providing shelter for pedestrians.
Representative Buildings		Identified - refer to SA planning database.

MtB5	Exhibition Road, Mount Barker Historic Area Statement (MtB5)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
Eras, themes and context		From mid-19 th and 20 th Century. Public open space. Small cottages on large allotments. Small scale, single storeyed, detached built form.
Allotments, subdivision and built form patterns		Variety of allotment sizes and shapes to Exhibition Road. Aligning setbacks from street frontage. Wellington Road dwellings parallel to side boundary providing angled frontage.
Architectural styles, detailing and built form features		Small scale, intact, single storeyed, detached built form. Cottages. Stone dwellings. Symmetrical frontages and separate verandahs. Hipped roof forms. Roof ridge typically parallel to the street. Separate verandahs with bullnose, concave or monopitch form. Some verandahs continuous with main roof or adopting change in pitch. Painted timber roof trim, verandah posts.
Building height		External wall height varies from 3 to 4 metres.
Materials		Stone external walls. Brick quoins. Some rendered walling. Corrugated profile sheet roofing. Painted timber window frames and doors. Painted timber verandah posts with some ornate decoration. Brick, render or stone chimneys.
Fencing		Low masonry. Brush. Metal picket fence.
Setting, landscaping, streetscape and public realm features		Public open space. Open interface between the public space and residential uses. Stands of densely planted eucalypts and mature deciduous trees.
Representative Buildings		Identified - refer to SA planning database.

Paddys Hill, Mount Barker Historic Area Statement (MtB13)

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

Eras, themes and context	<p>1848.</p> <p>Detached dwellings of early European settlements.</p> <p>A visual landmark of the eastern landscaped boundary of the town.</p> <p>Area represents religious beliefs including places of study, worship and burial in a landscaped setting.</p>
--------------------------	--

Statement#	Statement	
MtB13	Allotments, subdivision and built form patterns	Open landscape. Varying allotment sizes.
	Architectural styles, detailing and built form features	Early stone dwellings. Single and double storeyed detached villas dating predominantly from the late 19 th and early 20 th century. Symmetrical frontages. Separate verandahs or as continuation of main roof. Hipped and gable roof forms with ridge typically parallel to the street. Verandahs with bullnose, concave or monopitch form.
	Building height	Single storeyed dwellings external wall height varies from 3 to 4 metres. Double storeyed dwellings external wall height varies from 6 to 8 metres.
	Materials	Stone external walls. Brick quoins. Corrugated profile sheet roofing. Painted timber window frames and doors. Painted timber verandah posts with some ornate decoration. Brick, render or stone chimneys.
	Fencing	Timber post and rail. Timber posts and woven wire mesh.
	Setting, landscaping, streetscape and public realm features	Vegetated landscape setting. Mature eucalypts along Paddys Hill Road, Springs Road, Dutton Road, Railway Place and Daddow Road.
	Representative Buildings	Identified - refer to SA planning database.

MtB14	Hahndorf, North Approaches Historic Area Statement (MtB14)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Mid to late 19 th and early 20 th Century. Dwellings associated with pioneer families and development of the district. Indicative of boom period from late 1880's to early 1900's. Adjacent to the Hahndorf State Heritage Area.
Allotments, subdivision and built form patterns	Large detached dwellings. Substantial gardens with interspersed view to the rural hinterland Generous setbacks of building from the main road. Linear residential development along the main arterial road to Adelaide.	
Architectural styles, detailing and built form features	Late 19 th and early 20 th century stone villas, cottages and bungalows. Some early Germanic influence buildings. Predominantly single storeyed, detached and semidetached buildings and structures. Some double storeyed buildings. Symmetrical frontages to villas and cottages. Asymmetrical frontages to bungalows and some villas. Pioneer building techniques and materials. Parapet walls to end gables.	
Building height	External wall heights varies from 3 to 8 metres.	

Statement#	Statement	
	Materials	Stone external walls. Some brick external walls. Some rendered walling. Corrugated profile sheet roofing. Painted timber window frames and doors. Painted timber verandah posts with some ornate decoration. Brick, render or stone chimneys.
	Fencing	Timber picket fence. Hedging to street front. Low masonry.
	Setting, landscaping, streetscape and public realm features	Open landscaping indicative of traditional rural entrance to township. Mature deciduous street trees. Predominantly unmade verges and footpaths. Street furniture unadorned.
	Representative Buildings	<i>[Not identified]</i>

MtB15	Pine Avenue, Hahndorf Historic Area Statement (MtB15)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Interwar. Single storeyed, detached built form of Interwar developments. Structures reflect continuing prosperity of the town well into the mid-20 th century. Adjacent to the Hahndorf State Heritage Area.
	Allotments, subdivision and built form patterns	Long allotments typically orthogonal to the street. Substantial curtilage around existing dwellings. Generous setbacks between dwellings and to the street.
	Architectural styles, detailing and built form features	Late 19 th century and late 20 th century stone villas and bungalows. Intact collection of single storeyed, detached and semidetached buildings. Symmetrical and asymmetric frontages. Some sun-rooms within verandah roof. Masonry columns or half columns. Hipped and gable roof forms. Projected front gables. Separate verandahs or as a continuation of the main roof.
Building height	External wall height varies from 3 to 4 metres.	
Materials	Dressed stone / ashlar. Brick quoins. Corrugated profile sheet roofing. Painted timber window frames and doors. Brick, render or stone chimneys.	
Fencing	Low masonry.	

Statement#	Statement	
		Timber picket.
	Setting, landscaping, streetscape and public realm features	Mature deciduous street trees. Generous setbacks and street trees provide sense of second entrance into rural township.
	Representative Buildings	[Not identified]

Historic Areas affecting City of Mount Gambier

MtG1	Bay Road Historic Area Statement (MtG1)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Development from period of settlement up to and including the 1920s.
	Allotments, subdivision and built form patterns	Generous allotment sizes. Extensive street and side boundary set-backs.
	Architectural styles, detailing and built form features	Large single storey houses with hipped and gabled galvanised iron roofs; and generous verandahs.
	Building height	Predominantly single storey, with two storey additions within roof space to rear of buildings.
	Materials	Varied building construction but generally comprising dolomite or limestone walling with quoins.
	Fencing	Original fences constructed of Mount Gambier stone, dolomite, scoria, basalt or flint, limestone retaining walls. Front fences forward of the dwelling reflecting the traditional period, style and form of the associated building.
Setting, landscaping, streetscape and public realm features	Well maintained, mature gardens that contribute to a pleasant, open streetscape. Streetscape improvements within the area have particular emphasis on Bay Road as the entry to the Volcanic Complex State Heritage Area.	
Representative Buildings	Identified - refer to SA planning database.	

MtG2	Doughty Street and Wehl Street North Historic Area Statement (MtG2)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Development from period of settlement up to and including the 1920s.
	Allotments, subdivision and built form patterns	Generous allotments dominating the higher slopes, with substantial street and side boundary setbacks. Smaller allotments on the lower slopes.
	Architectural styles, detailing and built form features	Varied building styles from one street to another. Grand houses dominating the higher slopes. On the lower slopes, workman's cottages. Contemporary housing.
	Building height	Predominantly single storey, with two storey additions within roof space to rear of buildings.
	Materials	Varied building construction and materials reflecting traditional period and style. Timber workman's cottages.
	Fencing	Original fences constructed of Mount Gambier stone, dolomite, scoria, basalt or flint, limestone retaining walls. Front fences forward of the dwelling reflecting the traditional period, style and form of the associated building.
Setting, landscaping, streetscape and public realm features	Characterised by steep topography with generous allotments sizes and well-maintained mature gardens.	
Representative Buildings	Identified - refer to SA planning database.	

Railway Historic Area Statement (MtG3)

Statement#	Statement	
MtG3	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Transport and associated commercial history of the railyards, industrial. Development from period of settlement up to and including the 1920s.
	Allotments, subdivision and built form patterns	The railway corridor forms one linear allotment, sited between Bay Road to the east and Wehl Street South to the west. Allotments along Margaret Street vary in size, however are predominantly regular in shape. Street frontages vary, however, are generally one of two large sizes. Allotment depth is consistent across Margaret Street. Large allotments range in size.
	Architectural styles, detailing and built form features	Commercial/industrial in nature. Several buildings have frontage to Margaret Street and the Railway Lands. Railway station with associated platforms still exists.
	Building height	Varying heights - single up to 3 to 4 storey high buildings dependant on their historical use.
	Materials	Buildings are predominantly constructed from corrugated iron, timber or stone.
	Fencing	Open styles of fencing - for example, timber post and rail; post and wire.
	Setting, landscaping, streetscape and public realm features	Expansive, open nature of the railyards and the remnant buildings and structures associated with its use as a passenger and goods terminal. The commercial and industrial buildings along Margaret Street form a strong industrial streetscape fronting the railway yards. Railway track and other elements including ballast, railway iron fences, telegraph poles, platforms and structures. Use of old railway carriages. Temporary, demountable or movable structures and plantings.
	Representative Buildings	Identified - refer to SA planning database.
MtG4	<p>St Andrews Historic Area Statement (MtG4)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Institutional and residential. Development from period of settlement up to and including the 1920s.
	Allotments, subdivision and built form patterns	Generally narrow roads with residential buildings exhibiting minimal street set-backs. Large allotments along Elizabeth Street and Penola Road. Allotment sizes ranging from large to small.
	Architectural styles, detailing and built form features	Significant institutional buildings include the Wesley Church and Hall, both of which are State heritage places, and the St Andrews Church and spire, which is a dominant element of the area.
	Building height	Predominantly single storey, with two storey additions within roof space to rear of buildings.
	Materials	Construction and materials reflecting traditional period and style.
	Fencing	Original fences constructed of Mount Gambier stone, dolomite, scoria, basalt or flint, limestone retaining walls. Front fences forward of the dwelling reflecting the traditional period, style and form of the associated building.
	Setting, landscaping, streetscape and public realm features	Significant Institutional buildings. Many residences are located at the top of the hill, taking advantage of fine views over the city to the south.
	Representative Buildings	Identified - refer to SA planning database.
MtG5	<p>Vansittart Park Historic Area Statement (MtG5)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1880s-1920s.

Statement#	Statement	
MtG5	Allotments, subdivision and built form patterns	Adjoining the St Andrews Historic Area, the Vansittart Park area contains uniform residential allotments on a grid pattern. There has been a small number of infill type developments in the area to date. However, the area remains predominantly dwellings on large regular shaped allotments. Generally large, consistent frontages. Predominantly large, consistent allotments. The Vansittart Park provides a sporting ground (with associated amenities) and large open garden areas.
	Architectural styles, detailing and built form features	Villa, federation and bungalow style dwellings.
	Building height	Predominantly single storey, with two storey additions within roof space to rear of buildings.
	Materials	Construction and materials reflecting traditional period and style.
	Fencing	Original fences constructed of Mount Gambier stone, dolomite, scoria, basalt or flint, limestone retaining walls. Front fences forward of the dwelling reflecting the traditional period, style and form of the associated building.
	Setting, landscaping, streetscape and public realm features	Well landscaped Vansittart Park and the topography of the area adds interest. Streets are not excessively wide by comparison to other areas of Mount Gambier.
	Representative Buildings	Identified - refer to SA planning database.

<p>Wehl Street South Historic Area Statement (MtG6)</p>		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>		
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>		
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
MtG6	Eras, themes and context	1860s- mid 1920s.
	Allotments, subdivision and built form patterns	Wide roads with large, deep allotments, although east-west roads are generally narrow with buildings set close to the street. Side setbacks are in some cases small.
	Architectural styles, detailing and built form features	Diverse dwelling styles. Larger residences predominantly along Wehl Street South. Smaller stone or timber-clad workman's cottages close to the railway line. Wehl Street Public School.
	Building height	Predominantly single storey, with two storey additions within roof space to rear of buildings.
	Materials	Stone and timber clad. Construction and materials reflecting traditional period and style.
	Fencing	Original fences constructed of Mount Gambier stone, dolomite, scoria, basalt or flint, limestone retaining walls. Front fences forward of the dwelling reflecting the traditional period, style and form of the associated building.
	Setting, landscaping, streetscape and public realm features	Street set-backs in this area vary considerably, and combined with clusters of historical housing, produce an interesting streetscape. Residential streetscape character, including within commercial areas. Unobtrusive advertising. Front fences and garden landscaping. Car parking located to the rear of buildings.
	Representative Buildings	Identified - refer to SA planning database.

Historic Areas affecting Rural City of Murray Bridge

<p>Adelaide Road Pontoon Historic Area Statement (MuBr1)</p>		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>		
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>		
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
	Eras, themes and context	Late 19th and early 20th Century.

Statement#	Statement	
MuBr1	Allotments, subdivision and built form patterns	Linear road pattern. Buildings square to the street. Moderate to large allotment sizes.
	Architectural styles, detailing and built form features	Varied built form including stone and brick dwellings with verandahs, Victorian dwellings, larger stone and brick cottages with verandahs.
	Building height	Low scale, single storey built form.
	Materials	Random limestone rubble. Stone and brick. Local limestone. Iron roofs.
	Fencing	Front fences forward of the dwelling reflecting the traditional period, style and form of the associated building.
	Setting, landscaping, streetscape and public realm features	Entrance to the centre of Murray Bridge. Frontages of developments adequately landscaped. Swimming pool complex.
	Representative Buildings	Identified - refer to SA planning database.
MuBr2	Mannum Road Historic Area Statement (MuBr2)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Late 19th and early 20th Century.
	Allotments, subdivision and built form patterns	Linear road pattern. Buildings square to the street. Moderate to large allotment sizes.
	Architectural styles, detailing and built form features	Varied built form including stone and brick dwellings with verandahs, Victorian dwellings, larger stone and brick cottages with verandahs.
	Building height	Low scale, single storey built form.
	Materials	Random limestone rubble. Stone and brick. Local limestone. Iron roofs.
Fencing	Front fences forward of the dwelling reflecting the traditional period, style and form of the associated building.	
Setting, landscaping, streetscape and public realm features	Entrance to the centre of Murray Bridge.	
Representative Buildings	Identified - refer to SA planning database.	
MuBr3	Swanport Road Historic Area Statement (MuBr3)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Includes land between Mary Terrace and Rachel Street where some of the first subdivisions in Murray Bridge occurred in 1873.
	Allotments, subdivision and built form patterns	Grid like pattern involving a number of narrow lanes and varying street widths. Consistent setback distances to both the front and side of dwellings.
	Architectural styles, detailing and built form features	Dwellings in this locality display a strong repetitive architectural style.
Building height	Low scale, single storey built form.	
Materials	Random limestone rubble. Stone and brick. Local limestone. Iron roofs.	
Fencing	Front fences forward of the dwelling reflecting the traditional period, style and form of the associated building.	

Statement#	Statement	
	Setting, landscaping, streetscape and public realm features	Entrance to the centre of Murray Bridge. Larger, well established front gardens.
	Representative Buildings	Identified - refer to SA planning database.

Historic Areas affecting Naracoorte Lucindale

Historic Areas affecting Naracoorte Lucindale		
NALU1	Livingston Street, Naracoorte Historic Area Statement (NaLu1)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1870s to 1890s and turn of the 20 th century.
	Allotments, subdivision and built form patterns	Small allotments.
	Architectural styles, detailing and built form features	Single- and double- fronted detached cottages (typically involving two rooms).
	Building height	Single storey.
Materials	Local stone, fibro-sheet and weatherboard, corrugated iron and patterned sheet metal.	
Fencing	Open fencing predominantly wire and picket style no more than 1.2 metres.	
Setting, landscaping, streetscape and public realm features	Buildings positioned close to street frontages, landscaped front gardens and wide grassed verges.	
Representative Buildings	[Not identified]	

Historic Areas affecting City of Norwood, Payneham and St Peters

Historic Areas affecting City of Norwood, Payneham and St Peters		
NPSP1	College Park Historic Area Statement (NPSP1)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Subdivision during the 1870s with dwellings built between 1870s and 1920s. Detached dwellings.
	Allotments, subdivision and built form patterns	Consistent pattern of prestigious single-storey detached dwellings on very large, spacious allotments fronting wide, tree-lined streets. Very low density. Side and rear setbacks providing large separation distances between dwellings.
	Architectural styles, detailing and built form features	Double fronted, symmetrical and asymmetrical dwellings; East Adelaide Investment Company dwellings; Larger villas and mansions; Victorian villas; Edwardian Queen Anne and Art Nouveau. The double fronted, symmetrical and asymmetrical dwellings in the College Park Policy Area are an elegant larger version of the simple colonial cottage with the addition of a projecting wing (in the case of the asymmetrical dwelling), a more elaborate verandah and increased detailing in plaster and render work around openings. The pitch and size of the roof makes this an important design element. The external walls are generally constructed of bluestone or dressed and coursed sandstone. Verandahs along the front elevation are another important element of both the double fronted symmetrical and asymmetrical dwelling.
	Building height	Single storey, two storey in some locations.
Materials	External walls made of bluestone or dressed and coursed sandstone. Stone, brick and rendered masonry. Traditional colours and materials.	
Fencing	Low, open front fencing (including secondary streets to the main façade of building) associated with the traditional period and style of the building up to 1.2m (masonry), 1.5m (wrought iron, timber and wire) and 2m (masonry pillars) in height, allowing views to dwelling. Timber picket, timber dowelling, masonry and cast iron palisade, or corrugated iron or mini orb within timber framing for cottages, villas and other dwellings built during the Victorian period; or timber picket, timber paling or woven crimped wire; or corrugated iron or mini orb within timber framing for Edwardian dwellings. Side and rear fences are in traditional materials, such as timber, corrugated iron or well detailed masonry. Side fences along street corners continue the	

Statement#	Statement	
		of the front fence to the house alignment, solid fencing beyond this point in traditional materials.
	Setting, landscaping, streetscape and public realm features	Dwellings have sizeable setbacks from all boundaries and are typically set in large landscaped grounds with front boundaries defined by fencing of various styles. Open landscape character to front garden, which enhances dwelling and streetscape quality. Wide streets lined with mature trees.
	Representative Buildings	Identified - refer to SA planning database.
NPSP2	<p>Hackney North Historic Area Statement (NPSP2)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Predominantly pre 1920s, some pre 1940s dwellings. Detached, semi-detached and row dwellings.
	Allotments, subdivision and built form patterns	Small narrow fronted allotments on narrow streets.
	Architectural styles, detailing and built form features	Humble, mainly double fronted (with some single fronted) single storey cottages, in detached, semi-detached and row dwelling configurations.
	Building height	Single storey.
	Materials	Stone, brick, natural coloured bagged render and/or brick as the main external finish to walls.
	Fencing	Low, open front fencing (including secondary streets to the main façade of building) reflecting the traditional period and style of the associated building up to 0.9m in height, allowing views to building. Rear and side fencing behind the alignment of the main dwelling face to 1.8m. Timber picket, timber dowelling, simple masonry and cast iron palisade. Side and rear fences are in traditional materials, such as timber, corrugated iron or well detailed masonry.
	Setting, landscaping, streetscape and public realm features	Consistent pattern of narrow streets with dwellings built close to street with minimal setbacks and separation distances.
	Representative Buildings	Identified - refer to SA planning database.
NPSP3	<p>Hackney South Historic Area Statement (NPSP3)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Detached, semi-detached and row dwellings.
	Allotments, subdivision and built form patterns	Closely packed arrangement of buildings built close to the street frontage. Mainly small narrow fronted allotments which generally only allow for dwellings with a single room width, rear service lanes. Some sizeable allotments along parts of Osborne Street. Primary dwelling frontages are to streets, not lanes.
	Architectural styles, detailing and built form features	Small, mainly single-fronted dwellings, in detached, semi-detached and row dwelling configurations. Some elevated dwellings along eastern side of Westbury Street. Verandahs along the primary frontage of dwellings. Dwellings simple in structure and plan.
	Building height	Single-storey.
	Materials	Stone, brick, natural coloured bagged render and/or brick as the main external finish to walls.
	Fencing	Front fencing (including any secondary street frontage up to the alignment to the main face of the dwelling) generally low in height up to 1.2m, allowing views to building. Original design and materials, such as timber picket, timber dowelling or simple masonry and cast iron palisade.
	Setting, landscaping, streetscape and public realm features	Consistent pattern of narrow streets and rear service lanes. Rear lanes used for vehicular access and garages. Streets lined with mature exotic street trees. Landscaped gardens to sizeable allotments.
	Representative Buildings	Identified - refer to SA planning database.

Statement#	Statement	
NPSP4	<p>Joslin / Royston Park Historic Area Statement (NPSP4)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	<p>1900s-1930s. Detached dwellings.</p> <p>Joslin/Royston Park Historic Area is divided into two separate locations:</p> <p>the area around First and Second Avenue, north of Lambert Road, in the suburb of Royston Park, and the area centred around Fourth, Fifth and Sixth Avenues in the suburb of Joslin.</p>
	Allotments, subdivision and built form patterns	Regular pattern of large allotments.
	Architectural styles, detailing and built form features	Single storey detached dwellings. Bungalows. Edwardian (such as Queen Anne) and Federation dwelling styles. Some Tudor style dwellings with a steeper roof pitch, tiled roof and heavy columns.
	Building height	Single-storey, two storeys in some locations.
	Materials	Stone dwelling walls and original joinery.
	Fencing	<p>Front fencing (including any secondary street frontage up to the alignment to the main face of the dwelling) generally low in height up to 1.2m (masonry), 1.5m (wrought iron, brush or timber and wire) and 2m (masonry pillars), allowing views to dwelling. Original design and materials, such as timber picket, timber dowelling, masonry and cast iron palisade, or corrugated iron or mini orb within timber framing for cottages, villas and other Victorian dwellings.</p> <p>Timber picket, timber paling or woven crimped wire, or corrugated iron or mini orb within timber framing for Edwardian dwellings.</p> <p>Timber paling, wire mesh and timber or tube framing, woven crimped wire, or masonry with galvanised steel ribbon for Bungalow and Tudor house styles.</p> <p>Side and rear fences in traditional materials such as timber, corrugated iron or well-detailed masonry.</p>
	Setting, landscaping, streetscape and public realm features	<p>Area characterised by regularity of the wide, tree lined avenues.</p> <p>Landscaped garden setting, particularly in front of dwelling; Streets lined with distinctive street trees.</p>
	Representative Buildings	Identified - refer to SA planning database.
NPSP5	<p>Kensington 1 Historic Area Statement (NPSP5)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	<p>1838-1860; 1861-1880; 1881-1900; 1901-1915; 1916-1939.</p> <p>Residential urban village characterised by buildings, settings street patterns and natural features. Range of dwelling types.</p>
	Allotments, subdivision and built form patterns	Original historic pattern.
	Architectural styles, detailing and built form features	<p>Larger Victorian-style brick and stone buildings, Federation era brick and stone buildings and bungalow-styled buildings of the post-1918 period.</p> <p>Significant corner buildings contribute to the character.</p>
	Building height	Up to two storeys.
	Materials	Pise, stone or brick.
	Fencing	Generally low, reflecting the traditional period, style and form of the associated building.
	Setting, landscaping, streetscape and public realm features	The unique diagonal street pattern of Kensington is an important part of its character.
Representative Buildings	Identified - refer to SA planning database.

Eras, themes and context	Pre-1920s. Range of dwelling types.																
Allotments, subdivision and built form patterns	Original historic pattern. Smaller scale row houses and courtyard-style housing on Dew Street frontage.																
Architectural styles, detailing and built form features	Double and single-fronted cottages.																

Statement#	Statement	
	Building height	Up to two storeys.
	Materials	Bluestone or sandstone.
	Fencing	Generally low, reflecting the traditional period, style and form of the associated building.
	Setting, landscaping, streetscape and public realm features	Consistency of front set-backs, in particular, the row of double-fronted houses in Grenfell Street.
	Representative Buildings	[Not identified]
NPSP9	Marden (Broad Street / Pollock Avenue) Historic Area Statement (NPSP9)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Small group of dwellings, dating from 1910s. Detached dwellings. Semi-detached dwellings on Broad Street.
	Allotments, subdivision and built form patterns	Original historic pattern. Detached dwellings of modest proportions, set relatively close to Pollock Avenue. Mix of detached and semi-detached dwellings on Broad Street.
	Architectural styles, detailing and built form features	Detached dwellings of modest proportions. Features such as the typical bull-nose verandah and gable ends, which are elaborated with strapping or finials.
	Building height	Single-storey.
Materials	Unpainted stone, corrugated iron roofing materials and joinery.	
Fencing	Low, open fencing that reflects the period and style of the dwellings. Front fencing (including any secondary street frontage up to the alignment to the main face of the dwelling) generally low in height up to 1.2m (masonry), 1.5m (wrought iron, timber and wire or woven mesh) and 2m (masonry pillars), allowing views to dwelling. Timber picket and paling, woven crimped wire, or corrugated iron or mini orb within timber framing. Side and rear fences in traditional materials such as timber, corrugated iron or well-detailed masonry.	
Setting, landscaping, streetscape and public realm features	Narrow street width, street plantings and footpath treatments of Pollock Avenue.	
Representative Buildings	Identified - refer to SA planning database.	
NPSP10	Maylands Historic Area Statement (NPSP10)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Late 1800s onwards. Detached and semi-detached dwellings.
	Allotments, subdivision and built form patterns	Similar to Stepney area but with greater percentage of larger allotments, with proportionately larger homes. Allotments of generous size. Original historic pattern.
	Architectural styles, detailing and built form features	Double-fronted detached villas and cottages of modest proportions with substantial established gardens. Single-fronted attached dwellings of sandstone and bluestone construction. Remaining corner shop structures. Verandahs along the primary frontage.
Building height	Single-storey.	
Materials	Sandstone and bluestone.	
Fencing	Low, open fencing that reflects the period and style of the dwellings. Front fencing (including any secondary street frontage up to the alignment	

Statement#	Statement																	
		<p>to the fair face of the dwelling) generally low in height up to 1.2m (masonry) or 1.5m (other materials), allowing views to dwelling.</p> <p>Timber picket, timber dowelling, masonry and cast iron palisade, or corrugated iron or mini orb within timber framing.</p> <p>Side and rear fences in traditional materials such as timber, corrugated iron or well-detailed masonry.</p>																
	Setting, landscaping, streetscape and public realm features	<p>Relatively wide streets in the original subdivision layout. Landscaping around a dwelling, particularly in the front garden, is an important design element as it enhances the dwelling and adds to the appearance and quality of the streetscape.</p> <p>Street trees are present in most of the streets and make a solid contribution to the overall character.</p>																
	Representative Buildings	Identified - refer to SA planning database.

Statement#	Statement	
NPSP17	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Pre 1890s (Victorian) and 1890s-1910s (Edwardian). Detached and semi-detached dwellings.
	Allotments, subdivision and built form patterns	Historic settlement sections of George Street and Henry Street, Payneham. Dwellings closely set on small, narrow fronted allotments and built close to the street with minimal setbacks and separation distances. Original verandahs.
	Architectural styles, detailing and built form features	Small Victorian and Edwardian / federation cottages in detached and semi-detached configurations which are an important relic of early residential development in this section of Payneham. Dwellings simple in structure and plan.
	Building height	Single storey.
	Materials	Unpainted sandstone and bluestone, corrugated iron roofing materials and joinery.
	Fencing	Low, open fencing that reflects the period and style of the dwellings. Front fencing (including Henry Street / George Street corners and any secondary street frontage up to the alignment to the main face of the dwelling) generally low in height up to 1.2m, allowing views to dwelling. Timber picket, timber dowelling, simple masonry and cast iron palisade, or corrugated iron or mini orb within timber framing. Side and rear fences in traditional materials such as timber, corrugated iron or well-detailed masonry.
	Setting, landscaping, streetscape and public realm features	Distinctive historic streetscape character established through the pattern of narrow streets and distinctive street trees.
Representative Buildings	Identified - refer to SA planning database.	

NPSP18	St Peters Historic Area Statement (NPSP18)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1870 - 1930s. Detached and semi-detached dwellings.
	Allotments, subdivision and built form patterns	Mix of close-set, single-fronted cottages on narrow allotments and a range of cottages and villas set on larger allotments with more substantial established gardens, in wide streets, often with rear service lanes. Rear lanes used for vehicular access and garages In College Park and along Fifth and Sixth Avenue - small to medium sized allotments. In this section of First Avenue - modest sized allotments.
	Architectural styles, detailing and built form features	In College Park and along Fifth and Sixth Avenue - mainly single-storey double-fronted villas and detached dwellings of modest proportions with some single-fronted dwellings. In this section of First Avenue - reasonably compact single-fronted, double-fronted, and villa-type dwellings.
	Building height	Single storey.
	Materials	Sandstone and bluestone construction.
	Fencing	Low, open fencing that reflects the period and style of the dwellings. Front fencing (including any secondary street frontage up to the alignment to the main face of the dwelling) generally low in height up to 1.2m (masonry), 1.5m (wrought iron, timber and wire or woven mesh) and 2m (masonry pillars), allowing views to dwelling. Timber picket, timber dowelling, masonry and cast iron palisade, or corrugated iron or mini orb within timber. Side and rear fences in traditional materials such as timber, corrugated iron or well-detailed masonry.
Setting, landscaping, streetscape and public realm features	In College Park and along Fifth and Sixth Avenue - Reasonably wide streets are characteristic of this area, with significant street planting and fenced front boundaries. Rear vehicle access lanes. Landscaping around dwellings is an important design element. Streets lined with mature exotic street trees.	
Representative Buildings	Identified - refer to SA planning database.

Dequetteville Terrace Historic Area Statement (NPSP21)	
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context	<p>Late 19th Century and early 20th Century.</p> <p>Buildings primarily originally constructed as dwellings but now used for a range of land uses, including office, consulting rooms, residential, tourist and other accommodation.</p>
Allotments, subdivision and built form patterns	<i>[Not stated]</i>
Architectural styles, detailing and built form features	<p>Grand scale late 19th Century and early 20th Century mansions set well back from the Dequetteville Terrace frontage.</p> <p>Two detached single-storey buildings (large former dwelling and a bungalow-style dwelling) in established garden settings.</p>
Building height	Up to three storeys.
Materials	<i>[Not stated]</i>
Fencing	<i>[Not stated]</i>
Setting, landscaping, streetscape and public realm features	<p>Vehicular movement is dominated by Dequetteville Terrace, which provides primary access for delivery, service, visitors and residents' vehicles, in preference to access via the adjoining residential area.</p> <p>One of the few remaining sections of Adelaide City Parkland frontage developed in the late 19th and early 20th centuries, which is still substantially intact.</p>
Representative Buildings	<i>[Not identified]</i>

Kensington (Mixed Use) Historic Area Statement (NPSP22)	
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context	<p>Pre 1890s, Victorian and post 1918 period.</p> <p>Offices, consulting rooms and residential dwellings generally utilising historic buildings, with new residential apartments and townhouses.</p>
Allotments, subdivision and built form patterns	<i>[Not stated]</i>
Architectural styles, detailing and built form features	<p>Early buildings of pise, stone or brick construction.</p> <p>Larger Victorian-styled brick and stone buildings.</p> <p>Federation era brick and stone buildings.</p>

NPSP21

NPSP22

Statement#	Statement	
		Bungalow-styled buildings of the post-1918 period.
	Building height	Up to two storeys.
	Materials	Pise, stone or brick construction. Unpainted brickwork, stonework and original corrugated iron roofing material.
	Fencing	<i>[Not stated]</i>
	Setting, landscaping, streetscape and public realm features	Existing character created by buildings and settings which reflect the principal historic development periods of the urban village of Kensington. Vehicular movement is dominated by The Parade which abuts the northern edge of the policy area. This frontage provides primary access for delivery, service, visitors' and residents' vehicles, in preference to access via the adjoining residential area, except where vehicular access to sites with frontages to Hill Street, Shipsters Road, Bowen Street and Phillips Street is provided from those streets.
	Representative Buildings	Identified - refer to SA planning database.
NPSP23	<p>Payneham Road Historic Area Statement (NPSP23)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1870s and 1880s, early 1900s, and post-World War II. Offices, consulting rooms and residential dwellings generally utilising historic buildings, with new residential apartments and townhouses. Mixed business strip, shops, administrative, shop/dwellings, civic and institutional buildings. Local commercial activities. Shopping facilities north of St Peters Street.
	Allotments, subdivision and built form patterns	Minimal set back from the Payneham Road frontage.
	Architectural styles, detailing and built form features	Valued architectural elements fronting Payneham Road including verandahs, façade treatments (including windows and entrances), shopfront detailing and roof and parapets. Street-level coherence across signage, canopies, shopfronts and overhanging fabric of buildings such as cornices.
	Building height	Single and two -storey.
	Materials	Original materials and finishes including unpainted brickwork, stonework and corrugated iron roofing.
	Fencing	<i>[Not stated]</i>
	Setting, landscaping, streetscape and public realm features	Vehicular movement is dominated by Payneham Road, which provides primary access for delivery, service and visitors vehicles. Access and car parking is generally shared. Car parking is generally located to the rear of buildings, or otherwise sensitively located.
	Representative Buildings	Identified - refer to SA planning database.
NPSP24	<p>Portrush Road Historic Area Statement (NPSP24)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. NPSP25		
<p>The Parade / Fullarton Road Historic Area Statement (NPSP25)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Eras, themes and context		Pre 1890s (Victorian). Offices, consulting rooms and residential dwellings, generally utilising historic buildings, with new residential apartments and townhouses.
Allotments, subdivision and built form patterns		[Not stated]
Architectural styles, detailing and built form features		Victorian villas, large two storey mansion buildings, double-fronted houses and groups of two storey row houses. Consistent set-backs. Buildings which address Fullarton Road and The Parade have deep set-backs.
Building height		Generally up to two storeys.
Materials		Sandstone or bluestone.
Fencing		[Not stated]
Setting, landscaping, streetscape and public realm features		Vehicular movement is dominated by The Parade, Fullarton Road, Rundle Street and Little Dew Street, which provides primary access for delivery, service, visitors' and residents' vehicles, in preference to access via the adjoining residential areas. Well established garden settings. High standard of landscaping incorporating large trees which reinforce the leafy avenue character of these roads.
Representative Buildings		[Not identified]

Historic Areas affecting City of Onkaparinga

Clarendon Historic Area Statement (Onka1)		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Eras, themes and context	1840s - 1890s. Early European survey and settlement in the regional areas around Adelaide; Pastoralism, Agriculture, Viticulture, Tertiary Industries, Communications, Road Transport, Water Catchment and Supply, Social Services, Religion, Education, Law and Order, Local Government.	
Allotments, subdivision and built form patterns	Township allotments set out from the main road (Grants Gully Road) which winds its way along the floor of a valley and Turners Gully Road. Relatively large allotments, typical of a country township. Allotment sizes increase out from the centre of the township, emphasising the semi-rural environment. Substantial space between buildings. Buildings are sited relatively close to front boundaries and each other in the centre of the township but front and side setbacks increase as distance from the town centre increases. This pattern of development contributes to the sense of space and rural/country township character. Building frontages are parallel to streets becoming more random out from the centre of the township. Dwellings with frontage to Turners Gully Road and/or Clarendon Road sited on the lower slopes of hillsides or within the valley floor.	
Architectural styles,	Double-fronted cottages, villas, asymmetrical cottages and attached shop-dwellings with Victorian stylistic influences.	

Statement#	Statement	
Onka1	detailing and built form features	<p>Agriculture and viticulture related structures such as winery buildings, farmhouses and barns.</p> <p>Public buildings such as police station, courthouse, school, former institute building (hall) with Victorian Gothic and similar styles of the Victorian era. Churches and cemeteries. Hotel, general store and shops. Transport related structures such as bridges.</p> <p>War memorial.</p> <p>Roof types: M - shaped, gable, hipped, concave or straight-pitched veranda, steeply-pitched, typically 30 to 40 degrees, reflecting traditional architectural styles and building methods</p> <p>short roof spans</p> <p>Rectilinear plan form. Low-scale. High solid-to-void ratio. Typically two or more pavilions rather than a single mass. Concave and straight-pitched verandas on front and sometimes side facades reduce bulk and scale and add visual interest. Lean-to forms are common and break down bulk and scale. Vertical proportions in windows and doors. Fine-grain detail in elements such as plinths, string courses, projecting sills</p>
	Building height	<p>Predominantly single-storey. Single-storey residential buildings with some two-storey or part two-storey dwellings.</p> <p>Typical proportions of Victorian-era cottages with wall heights of around 3.3 to 3.6 metres and ridge heights of around 5.0 to 5.5 metres.</p> <p>Tall single-storey churches and institutional and public buildings that are generally exceptions and landmarks that punctuate the streetscape and stand out because of their difference in scale.</p>
	Materials	<p>Masonry - random rubble, roughly-coursed stone, unpainted local bluestone, sandstone, some with brick or rendered quoin work</p> <p>Roof - slate or corrugated iron</p> <p>Timber joinery including window frames, door frames, doors, fascias, bargeboards and veranda posts</p> <p>Consistent with the materials used in the 1840s-1890s buildings within the township.</p> <p>Unobtrusive, natural colours.</p>
	Fencing	<p>Picket fence. Woven wire. Timber post-and-rail or post-and-wire</p> <p>Low (approximately 1.2 metres in height) sandstone rubble. Original front fences associated with era and style of building, which maintain views of the building from the public realm. Rear and side boundary fencing often corrugated galvanised iron up to 1.8 metres in height.</p>
	Setting, landscaping, streetscape and public realm features	<p>Lineal township laid out along a narrow valley floor.</p> <p>Township located within a steeply-sided valley and a hillside, rural setting.</p> <p>Narrow streets.</p> <p>The reservoir and the Onkaparinga River.</p> <p>Mature landscape environment where well-established trees and vegetation reinforce the country township character and emphasise the space between buildings.</p> <p>Village or rural township character.</p> <p>Vistas and views into and out of the township are important.</p>
	Representative Buildings	<p>Identified - refer to SA planning database.</p>

Kangarilla Historic Area Statement (Onka2)

Onka7	Willunga Historic Area Statement (Onka7)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Predominantly 1840s - 1900. Early settlement; Agriculture, Slate Quarrying.
	Allotments, subdivision and built form patterns	<p>Original subdivision in the late 1830s. Second subdivision of southern part of the township in 1857.</p> <p>Laid out around High Street, the main thoroughfare through the town, which cuts diagonally through the original subdivision.</p> <p>Allotments perpendicular to High Street in centre of township.</p> <p>Grid pattern with allotments perpendicular to streets in southern section of township.</p> <p>Original allotments of around half an acre.</p> <p>Subsequent land division has occurred, but allotments remain relatively large.</p> <p>Early buildings line High street and the road out of Willunga to Aldinga and McLaren Vale.</p> <p>Rectilinear.</p> <p>Buildings aligned parallel to boundaries.</p>
Architectural styles, detailing and built form features	<p>Simple, vernacular cottages. Mid-to-late 1800s stone buildings with Victorian stylistic influences. Double-fronted cottages, villas and asymmetrical cottages with Victorian stylistic influences. Shops and shop/dwellings with Victorian stylistic influences. Churches and cemeteries. Public buildings such as police station, courthouse, school, former post and telegraph office, post office, former Institute building (hall). Three hotels. Transport-related structures such as bridges.</p> <p>Rectilinear plan form. Low-scale. High solid-to-void ratio. Typically two or more pavilions rather than a single mass. Concave, bullnose and straight-pitched verandas on front and sometimes side facades reduce bulk and scale and add visual interest. Lean-to forms are common and break down bulk and scale. Vertical proportions in windows and doors. Fine-grain detail in elements such as plinths, string courses, projecting sills.</p> <p>Roof types: hipped. Gable. Steeply-pitched, typically 30 to 40 degrees, reflecting traditional architectural styles and building methods. Short roof spans.</p>	
Building height	<p>Variation in the size and sophistication of buildings, from humble cottages to two-storey dwellings and institutional or public buildings. Predominantly single-storey. Typical proportions of Victorian-era cottages with wall heights of around 3.3 to 3.6 metres and ridge heights of around 5.0 to 5.5 metres.</p> <p>Smaller vernacular cottages. Hotels, former post and telegraph office, former police station and courthouse and former Institute (hall) are landmarks.</p>	
Materials	<p>Masonry - local sandstone, pug-with-lime render, some local brick - random rubble, squared.</p> <p>Quoins - stone, rendered, brick.</p> <p>Roof - corrugated iron, Willunga slate.</p> <p>Timber joinery including window frames, door frames, doors, fascias, bargeboards and veranda posts.</p>	

Statement#	Statement	
		Consistent with the materials used in the 1840s-1900s buildings within the township.
	Fencing	Picket. Post-and-rail. Post-and-wire. Slate post-and-wire. Hedges. Randomly-laid stone up to 1.2 metres high. Original front fences associated with era and style of building, which maintain views of the building from the public realm. Rear and side boundary fencing often corrugated galvanised iron up to 1.8 metres in height.
	Setting, landscaping, streetscape and public realm features	Commercial and residential buildings indicative of the town's early settlement phase in the mid-1800s. Landmark two-storey buildings in High Street. Range of buildings and uses reflecting the composition of the town's community and enterprise. Town's foothill topography features creek lines. Substantial remnant gum trees. High degree of mature landscaping.

Historic Areas affecting Outback Areas (Out of Councils)

Ob1	Blinman Historic Area Statement (Ob1)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Minor service and accommodation centre.
	Allotments, subdivision and built form patterns	Original development patterns.
	Architectural styles, detailing and built form features	Original built form.
	Building heights	Original building heights and scales.
	Materials	Original materials and colours.
	Fencing	[Not stated]
Setting, landscaping, streetscape and public realm features	The mine and grave yard are important historic sites and the mine area is also of scientific importance.	
Representative Buildings	[Not identified]	

Ob2	Beltana Historic Area Statement (Ob2)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Small community and historic centre.
	Allotments, subdivision and built form patterns	Original development patterns.
	Architectural styles, detailing and built form features	A number of buildings in original or well-restored condition.
	Building heights	Original building heights and scales.
	Materials	Original materials and colours.
	Fencing	[Not stated]
Setting, landscaping, streetscape and public realm features	[Not stated]

Historic Areas affecting City of Port Adelaide Enfield

PAdE1	Alberton / Rosewater Historic Area Statement (PAdE1)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1860 - 1950 built development.
	Allotments, subdivision and built form patterns	Squares linked by wide streets. Modified grid pattern. Reasonably consistent allotment depths. Varied front setbacks.
	Architectural styles, detailing and built form features	Wide range of housing styles including villas, bungalows, cottages, terrace and rows.
	Materials	Materials consistent with the style of building and era of its original construction.
	Building height	Single storey.
	Fencing	Low and/or open consistent with the style and era of construction of the building it is associated with. Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms. Fences associated with 1920s including capped timber palings, post and wire or woven wire fences.
Setting, landscaping, streetscape and public realm features	Pockets of important early houses in Queen Street and King Street, dating from the 1860s. Substantial Victorian stone and brick houses grouped around two squares, Company Square and St Patricks Square, with good examples of substantial corner villas. The Alberton station complex is an important feature in the area and contains the earliest railway station in South Australia and shops of a consistent design. The double line of trees along the railway line that divides the area and the established street trees, particularly, Plane trees, Ash trees, Jacarandas, White Cedars and some mature Canary Island Date Palms make an important contribution to the character of the area.	
Representative Buildings	Identified - refer to SA planning database.

Allotments fronting the Esplanade and Military Road configured with their long axes running east-west so that buildings address these roads. Consistent front setbacks for each street but setbacks varying between streets. Varied allotment sizes.																
Architectural styles, detailing and built form features	Wide range of housing styles from all periods of development of Semaphore and Largs including villas, bungalows, workers row cottages, terraces, rows, mansions and Tudors. Early timber and masonry houses.																
Building height	Predominately single storey but scattered two storey and a small amount of three storey along parts of the Esplanade frontage.																
Materials	Materials consistent with the style of building and era of its original construction. Timber and masonry housing.																
Fencing	Low and/or open consistent with the style and era of construction of the building it is associated with. Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms. Fences associated with houses from the 1920s including capped timber palings, post and wire or woven wire fences.																
Setting, landscaping, streetscape and public realm features	A continuous run of high quality residential buildings set among mature Norfolk Island Pines along the Esplanade. The low scale of the Esplanade set against the open view of the sea opposite contains individual houses of historical and architectural importance built as seaside residences. An important sub-precinct along Military Road running from Fort Glanville through to Largs containing high quality public and private buildings. A concentration of early houses around Newman Street and Blackler Street associated with the development of Semaphore during the 1860s. Pockets of mature street planting providing important settings for these early houses, particularly along the Esplanade, Union Street, Clare Street, Hall Street and others.																
Representative Buildings	Identified - refer to SA planning database.

	<p>Semaphore Road Historic Area Statement (PAdE6)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table. 4398</p>		

Statement#	Statement	
PAdE6	Eras, themes and context	1870's - 1920's built development. Semaphore Road developed as a substantial commercial centre after the establishment of a railway line from Port Adelaide to Semaphore Jetty in 1878 and a subsequent increase in residential population in the area requiring goods and services.
	Allotments, subdivision and built form patterns	Semaphore Road is a wide east west road that in this area runs from Causeway Road to the Esplanade. Allotments are orientated so that buildings address Semaphore Road. Allotment sizes vary to accommodate a range of retail and commercial uses. Retail and commercial buildings built to and addressing the Semaphore Road frontage.
	Architectural styles, detailing and built form features	A variety of Government, institutional and commercial buildings including simple single storey shops with verandahs and parapet walls. Many of these shops retain post-supported verandahs over the footpath. There are pockets of well-preserved historic residential development featuring mansions, villas and cottages.
	Building height	Predominately single storey and two storey.
	Materials	Materials consistent with the style of building and era of its original construction.
	Fencing	None for retail and commercial buildings. Low and/or open consistent with the style and era of construction of the building it is associated with. Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms.
	Setting, landscaping, streetscape and public realm features	A popular main street that links Semaphore and Port Adelaide and provides a pleasant environment for both seaside holiday makers and residents. The seaward end of Semaphore Road retains strong evidence of Semaphore's original function as a transport and communications station for the early South Australian colony from 1850 onwards. The Time Ball Tower, Customs Boarding Station and the early Post Office building remain as an indication of these early services. The development of the Semaphore Town Hall, now the Library, and the RSL Hall continued the provision of community facilities, and these developed in association with the commercial areas of Semaphore road further to the east. This area is an important reminder of Semaphore's early prominence in the development of Port Adelaide and the State. A generous public foreshore provides a popular recreation area and the backdrop and view to the western end of Semaphore Road. The road is wide and features pedestrian areas, paving, upper canopy trees and low lying shrubs located in the median and verge, seating and public art. It is a well-established retail and commercial area that provides cafes, restaurants, shops, hotels, churches, a cinema and a range of other facilities. Many well maintained commercial and residential buildings from the 1880s to the 1920s remain in the area. There are many Local Heritage listed places along the length of the road and a number of State Heritage listed places in the western portion of the area.
	Representative Buildings	Identified - refer to SA planning database.
PAdE7	Jetty Road Historic Area Statement (PAdE7)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1870's - 1920's built development. The first subdivision of Largs was in 1873. The Largs Bay Land and Investment Company formed in 1881, constructed the jetty and built the Largs Pier Hotel by December of 1882.
	Allotments, subdivision and built form patterns	Allotments are orientated so that buildings have frontages to and address Jetty Road and the Esplanade. Generous rectangular allotments with wide frontages. Retail and commercial buildings built to and addressing road frontages.
	Building height	Single storey and two storey except at the Jetty Road / Esplanade intersection where development is three storey.
	Architectural styles, detailing and built form features	A mix of architectural styles including simple, single storey shops with over footpath verandahs and parapet walls and a double storey terrace with residential development over ground floor shops.
Materials	Materials consistent with the style of building and era of its original construction.	
Fencing	None for retail and commercial buildings.	
Setting, landscaping, streetscape and public realm features	Located at the seaward end of Jetty Road, this area has strong links to the foreshore and beach and is a popular area for local residents and visitors. The State Heritage listed Largs Pier Hotel of Victorian (Italianate) architecture is a landmark building. Defining the corner of the Esplanade and Jetty Road, the Hotel, with its arcaded facades presents a prominent entry to this area. The area also contains other early commercial and residential buildings including a former Post Office, two storey shops, and early housing. The latter includes a row of double storey terraces with small scale residential development located above shops.

Eras, themes and	Late 19th and Early 20th century mansion style housing.																

Statement#	Statement	
Pr1	context	
	Allotments, subdivision and built form patterns	Very large spacious allotments with wide frontages. Sizable setbacks from all boundaries with sizable spaces between buildings. The established pattern of buildings sited away from allotment boundaries makes a significant contribution to the character.
	Architectural styles, detailing and built form features	Very large mansion style dwellings. Additions to the rear or side of dwellings. Range of designs with homogeneity derived from decorative front facades, pitched roofs, brick chimneys & front verandahs and building placement on allotments.
	Building height	Up to 2 storeys.
	Materials	Variety of materials and colour finishes with additional detailing around windows, doors and edges of walls.
	Fencing	Low open style to 1.2 metres high. Fencing that associated with the period and style of the dwelling.
	Setting, landscaping, streetscape and public realm features	Substantial well landscaped gardens with front yards that complement the style of the dwelling. Landscaping around dwellings. The spacious streetscape character of Fitzroy Terrace is created by the large allotments on which have been built a range of equally large residences. Garages and carports are designed and sited to be subordinate to the main dwelling.
	Representative Buildings	Identified - refer to SA planning database.
Pr2	<p>Clifton Street Historic Area Statement (Pr2)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. 	Éras, themes and context	Late 1870s, late 19th speculative housing by local builder James Trevail for middle class home buyers.
	Allotments, subdivision and built form patterns	Original subdivisions of 1881, 1882 and larger allotments of 1894-95 at western end of street (known as Prospect View at the time of sale). Consistent, large front setbacks. Large and small asymmetrical side setbacks to dwellings. The set-back and pattern of coverage creates a notable streetscape with vistas and views towards the west.
	Architectural styles, detailing and built form features	Consistent front verandahs with highly decorative cast iron and timber trim, hipped and gabled pitched roofs and brick chimneys. 1880s-1890s residential designs along Clifton Street reflecting speculative subdivision. Double fronted cottages with central gable feature and front steps to raised finished floor levels to respond to the falling topography to the west.
	Building height	Single storey, moderate residential scale. Essentially single storey residences which take advantage of the sloping topography to the west.
	Materials	Stone walls and limited external colour palette with detailing around windows, doors and edges of walls.
	Fencing	Low open style to 1.2 metres high with mainly masonry and iron materials.
	Setting, landscaping, streetscape and public realm features	Homogenous streetscape of houses and associated buildings. Substantial well landscaped gardens with front yards that complement the style of the dwelling. Narrow verge with mature street trees. Garages and carports are designed and sited to be subordinate to the main dwelling.
Representative Buildings	Identified - refer to SA planning database.	
	<p>Little Adelaide Historic Area Statement (Pr3)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Eras, themes and context	<p>Late 19th and early 20th centuries residential. Focus of commemoration of war service, civic activities and important sporting events.</p>	
Allotments, subdivision and built	<p>Regular subdivision pattern. Three separate land divisions between 1892 and 1923 - part of the Oxford subdivision of 1892 on south side of the Terrace with, part of St John's Wood South subdivision in 1909 on north side with larger allotments of and part of a 1923 division of the eastern end to the 4402</p>	

Statement#	Statement	
Pr5	form patterns	Memorial Gardens. Consistent setbacks. Large and small asymmetrical side setbacks to dwellings.
	Architectural styles, detailing and built form features	Range of designs with range homogeneity derived from decorative front facades (detailing around windows, doors verandahs & gables), pitched roofs, brick chimneys & front verandahs. Houses display style, form and detail of the relevant periods of historic development - 1892 to the 1920s.
	Building height	Single storey and large residential scale.
	Materials	Face stone and brick walls and corrugated iron or terra cotta roofs.
	Fencing	Low open style to 1.2 metres high. Fencing associated with the period and style of the dwelling.
	Setting, landscaping, streetscape and public realm features	Substantial front gardens. Very leafy streetscape. Civic and residential character. Strong visual axis between the Town Hall and the Memorial Gates to Prospect Oval. Garages and carports are designed and sited to be subordinate to the main dwelling.
	Representative Buildings	Identified - refer to SA planning database.
Pr6	Martin Avenue Historic Area Statement (Pr6)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Inter-War residential.
	Allotments, subdivision and built form patterns	Large allotments. Regular generous front setbacks. Large and small asymmetrical side setbacks to dwellings.
	Architectural styles, detailing and built form features	Mix of bungalows, 'gentleman's residence' and Tudor homes. Range of designs with homogeneity derived from decorative front facades, pitched roofs, brick chimneys & front verandahs. Additions to the side and rear of dwellings.
	Building height	Single to two storey and large residential scale. Two storey additions are within the roof space or to rear of buildings.
	Materials	Face stone and brick walls and terracotta tiled roofs, original finishes.
	Fencing	Low open style to 1.2 metres high. Fences comprising low masonry plinth with regularly spaced columns and iron above to a medium height.
Setting, landscaping, streetscape and public realm features	Large, well landscaped front yards as an extension of a green and leafy streetscape with mature canopy over grassed verges. Street trees and wide grassed verges combine with the generous setbacks to contribute to the spacious appearance of the public realm. Garages and carports are designed and sited to be subordinate to the main dwelling.	
Representative Buildings	Identified - refer to SA planning database.	
	North Ovingham Historic Area Statement (Pr7)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
Eras, themes and context	Late 19th Century housing. 1877 - 1879.	
Allotments,	Small allotments subdivided in 1877 - 1879. Double fronted, narrow, deep allotments between Toronto Street and Cotton Street. Small setbacks from all	

Statement#	Statement	
Pr7	subdivision and built form patterns	boundaries with compact spaces between buildings.
	Architectural styles, detailing and built form features	Coherent pattern of small cottages with common features including pitched roofs, brick chimneys & front verandahs. Primarily double fronted cottages with central gable feature and front steps to raised finished floor levels to respond to the falling topography on individual allotments from east to west. Small symmetrically fronted or attached stone houses remain in Toronto Street and larger examples of similar style fronting Churchill Road.
	Building height	Single storey and small residential scale.
	Materials	Stone walls and steps facing stone and brick houses and attached cottages with verandahs, corrugated iron roofs.
	Fencing	Low open style to 1.2 metres high associated with the design of the dwelling and allows gardens to spill onto the street.
	Setting, landscaping, streetscape and public realm features	Small front yards and limited space between buildings. Public realm characterised by narrow street and verge and moderate canopy cover from semi-mature street trees. Mature gardens which spill onto the street, pleasant green streetscape. Intimate, small residential pocket. Where present, garages and carports are designed and sited to be subordinate to the main dwelling.

Pr8	Prospect Lanes Historic Area Statement (Pr8)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Reflects substantial areas of Prospect that were developed during the turn of the century (1880s to early 1900s) and constructing cottages and villa homes on higher areas overlooking Churchill Road and beyond.
	Allotments, subdivision and built form patterns	Regular subdivision pattern with consistent large frontages and site areas. The series of laneways that link the allotments are distinctive features within the sub division. Regular moderate front setbacks. Large and small asymmetrical side setbacks to dwellings.
	Architectural styles, detailing and built form features	Homogeneity derived from front facades with detailing around windows/doors/verandahs & gables, pitched roofs, brick chimneys & front verandahs. Cottages and villa homes on higher areas overlooking Churchill Road and beyond. Housing in the area displays a consistency of character reflecting the styles of domestic architecture at the turn of the century. Houses incorporate concave or bull-nosed verandahs and other typical detail and generally comprise face stone front walls, with brick or rendered quoins, and window and door dressings.
	Building height	Single storey.
	Materials	Stone walls and limited external colour palette with detailing around windows, doors and edges of walls. Corrugated iron roofs.
Fencing	Low open style to 1.2 metres high. Fencing associated with the period and style of the dwelling.	
Setting, landscaping, streetscape and public realm features	Consistent moderate street setbacks. Large and small asymmetrical side setbacks to dwellings. Rear lane access, with primary streets having no access or access which has been designed and located to be subordinate to the main dwelling.	
Representative Buildings	<i>[Not identified]</i>	
Pr9	Highbury Historic Area Statement (Pr9)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
Eras, themes and context	1882 subdivision. Turn of the century residential development. The area is characterised by primarily detached housing reflecting styles of domestic architecture at the turn of the century.	
Allotments, subdivision and built form patterns	Regular subdivision pattern with consistent large frontages and site areas. Regular moderate front setbacks. Large and small asymmetrical side setbacks to dwellings.	
Architectural styles, detailing and built form features	Homogeneity derived from front facades with detailing around windows/doors/verandahs & gables, pitched roofs, brick chimneys & front verandahs. Characteristic design features such as bull-nosed verandahs, brick quoining, and stone front walls.	

Statement#	Statement	
	Building height	Single storey and moderate residential scale.
	Materials	Stone walls and limited external colour palette with detailing around windows, doors and edges of walls. Corrugated iron roofs.
	Fencing	Low open style to 1.2 metres high, providing visibility to landscaped front yards and dwellings.
	Setting, landscaping, streetscape and public realm features	Well landscaped front yards as an extension of a green leafy streetscape. Garages and carports are designed and sited to be subordinate to the main dwelling.
	Representative Buildings	<i>[Not identified]</i>

They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Inter-War period housing. The area is predominated by bungalows to the east of Corbin Road and Tudor-style houses to the west. The majority of the original dwellings constructed prior to 1930 remain intact, with additions occurring over time either within the roof space or to the rear and side.
	Allotments, subdivision and built form patterns	Regular subdivision pattern of generously sized allotments and wide frontages. Consistent large front and side setbacks. The area retains its original subdivision pattern, with regular sized allotments supporting residential development at a low density.
	Architectural styles, detailing and built form features	Predominantly bungalows to the east of Corbin Road and Tudor-style houses to the west. Homogeneity derived from front facades with detailing around windows/doors/verandahs & gables, pitched roofs, brick chimneys & front verandahs.
	Building height	Single storey and large residential scale. Two storey additions are within the roof space or to rear of buildings.
Materials	Stone and brick walls and limited external colour palette with detailing (including glazed bricks) around windows, doors and edges of walls and corrugated iron or terra cotta roofs. Consistent use of materials including rock faced stone and masonry, face red brick, terracotta roof tiles or corrugated iron, glazed bricks for trim and other details and materials typical of the housing of the Inter-War Period.	
Fencing	Low open style (to 1.2 metres high). Fencing associated with the period and style of the dwelling.	
Setting, landscaping,	Large well landscaped front yards and tree lined streets above grassed verges. Minimal driveway and hard-surfaced areas. Consistent pattern of	

Statement#	Statement	
	streetscape and public realm features	prestigious single storey detached dwellings on generous allotments fronting tree-lined street. Spacious and open feel. Garages and carports are designed and sited to be subordinate to the main dwelling.

Historic Areas affecting Robe

RO1	Robe Historic Area Statement (Ro1)	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	<p>19th century and early decades of 20th century.</p> <p>Shipping port, communication and administration township servicing pastoral development of the South East.</p>
	Allotments, subdivision and built form patterns	<p>Topography shapes the setting of Robe and land division pattern. Royal Circus is a low knoll. It is a commemorative landmarks and a distinct road feature. There is a legible connection between Royal Circus, the sea wall / jetty abutment, the Customs House and the Post and Telegraph Office. Main Road, Victoria Street and Mundy Street form the main line of road to the port and the main street. The traditional street grid pattern extends either side of Victoria Street, to the coastal fore-dune and across the ridge to the south which overlooks and forms the backdrop to the township.</p> <p>Most of the original large square allotments have been subdivided but the pattern of historic buildings remains legible.</p>
	Architectural styles, detailing and built form features	<p>Traditional stone commercial buildings with shopfronts, parapets and verandahs within the town centre. The variety rather than the consistency of traditional building forms is a distinct characteristic of Robe. Small workers' cottages on large allotments, often with low walls, hipped roofs spanning one or two rooms, casement windows and lime-washed or natural stone walls. Heritage listed community buildings (the primary school, churches and the Institute) are on prominent sites and remain as strong landmarks. Heritage-listed government buildings (the Post and Telegraph Office, Customs House and Court House) dominate Royal Circus. Massive stone chimneys are a characteristic feature of the historic buildings. Stone outbuildings are visible from public streets. Roof pitches between 25-35 degrees. Roofs with a high degree of articulation, steep pitches and small spans, provide a unique roofscape across Robe to Guichen Bay. Older buildings have casement windows. Later buildings have double-hung timber sash windows.</p>
	Building height	<p>Two storey buildings along small section of Smillie Street, and hotels. Their built form combines double and single storey elements and verandahs, articulating their bulk and scale. Adjacent buildings differ in style, creating a varied rather than a consistent skyline. Other historic buildings generally single storey, with small span hipped roofs. Building floor levels are close to, step with or are built into, the slope of the land.</p>
	Materials	<p>Local stone, limestone, rendered and bagged masonry with painted or lime wash finish. Painted timber weatherboard, painted timber joinery, trims, verandahs, barges and fascias. Galvanised and painted corrugated iron roofing. Some examples of slate and traditional flat metal roof tiles. Driveway materials are neutral in colour and pattern with natural finishes.</p>
	Fencing	<p>Local stone, hardwood palings and pickets, hardwood and woven wire, brush with round hardwood posts and hedges not exceeding 1.2m.</p>
	Setting, landscaping, streetscape and public realm features	<p>Views and vistas of the entrance to the town centre along Main Road past Lake Fellmongery and Lake Charra. Views of the foreshore area adjacent Town Beach and streetscapes of historic buildings of Smillie Street and Mundy Terrace. Views across the area illustrate the importance of native vegetation and the distinct character of the roof designs of historic buildings. Historic buildings square to and often close to street alignments, particularly on Smillie Street. Minimal breaks between buildings except where access to the rear of a site is provided. Streets, verges and reserves in the public realm characterised by Lakestone kerbing, limestone cuttings, landmark trees (Norfolk Island Pines in particular) and native vegetation. Important public open space reserves that frame the township at Lannum Reserve, the Institute / Town Beach Foreshore, Royal Circus and the southern edge of Lake Butler. Each has a distinct landscape structure, planting character and historic quality.</p>

Historic Areas affecting City of Tea Tree Gully

Tea Tree Gully Township Historic Area Statement (TTG1)		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Eras, themes and context	The village core of Tea Tree Gully. Mid to late 19th Century to early 20th Century.	
Allotments, subdivision and built form patterns	Traditional subdivision layout focussed on North East Road as the major approach route to the township in both directions. Allotments are varied in size and shape. Regular moderate front setbacks and small setbacks from side boundaries. Generally consistent siting and space between buildings. Sites address North East Road.	
Architectural styles, detailing and built form features	Colonial style flat facades articulated with post-supported verandas. Symmetrical designs with simple footprints. Roof forms are generally hipped or gable roofs with pitches between 30-40 degrees. A mix of buildings including detached dwellings, churches, row shops, a war memorial, former police station, institute building, hotel, former bakehouses, flour mill and winery. Tea Tree Gully museum and former council chambers building as State Heritage Places. Historic homestead relics and a stone retaining wall in Pine Park.	
Building Height	Single storey, with the exception of the Old Flour Mill and Tea Tree Gully Museum.	
Materials	A combination of sandstone and bluestone construction with corners and window and door reveals formed with quoin work. Generally, all dwellings include corrugated roofs in galvanised or light to mid-tone greys, green or red. Unpainted stone / brick. Modern dwellings are consistent with the above materials, but also include a combination of raw brick, painted brick and rendered brick in natural, earthy colours. Timber windows.	
Fencing	Low, open fencing forward of the building line to height of 900mm. Associated with the traditional period, style and form of building. Hedges, timber picket, post and rail with woven wire, paling or railing, stone, rendered brick or block.	
Setting, landscaping, streetscape and public realm features	<p>Undulating and natural setting with minimal cut and fill, and extensive planting and landscaping.</p> <p>The Township provides for a visual transition between the rural landscape of the hills to the east and the suburban plains to the west.</p> <p>Angove's tower and cellar are recognised as landmark buildings and are important elements of the western gateway, including vistas of the tower.</p> <p>The North East Road entrance to Anstey Hill Recreation Park is also an important gateway and features historic building relics that line the entrance walk inside the park.</p> <p>The communal focal point is Haines Memorial Park, which features a European landscape theme surrounded by native street tree planting which illustrates the history of European settlement. Views to and from Haines Memorial park.</p> <p>Strong landscape setting dominated by undulating topography. Significant stands of native trees and intensively landscaped watercourse of Tea Tree Creek</p> <p>Discreet, low scale advertising comprising typefaces, colours, sizes and forms associated with the clear and simple styles used on the 19th and early 20th centuries, generally not illuminated.</p>	
Representative Buildings	Identified - refer to SA planning database.

Statement#	Statement	
Un1	Eras, themes and context	1880 to 1940's built development.
	Allotments, subdivision and built form patterns	<p>Goodwood Road - prominent original imposing buildings, homogeneous historic nature and intrinsic features formed by the close-knit development to the street alignment, open balconies and verandahs extending over the footpath.</p> <p>King William Road - early era buildings and quaint unique close-knit character formed by the parade of buildings of narrow fronted shops to the street alignment, with simple continuous series of ornate parapet facades and verandahs over the footpath and some open balconies above.</p> <p>Fullarton Road - significant and early era residential forms of buildings with appropriate setbacks, low-key commercial uses adaptation and substantial landscaped frontages north of Cheltenham Street and small scale simple straight facade shopfronts to south.</p> <p>Prevailing and coherent rhythm of building siting, street setbacks, side boundary setbacks and spacing between buildings and garden landscape setting.</p>
	Architectural styles, detailing and built form features	Victorian. Turn-of-Century. Inter-War. Complementary main street shopfronts, parapet walls and verandahs over footpaths and residential forms.
	Building height	Maximum two storey street presentation.
	Fencing	Fencing forward of the front façade of the building on Fullarton Road, of a form associated with the building and generally of low masonry pier and plinth, cast iron, brush, timber or similar nature.
	Setting, landscaping, streetscape and public realm features	<p>Limited street trees, except Fullarton Road with dominant, well-established street trees.</p> <p>Goodwood Road - early commercial centre from the late nineteenth century comprising large imposing buildings, including landmark two-storey State Heritage Place, two-storey Local Heritage Place and Church buildings, and smaller narrow fronted premises.</p> <p>King William Road - early commercial centre from the late nineteenth century comprising some larger buildings and primarily small narrow fronted premises.</p> <p>Fullarton Road - residential buildings, some converted to community and commercial uses, and low-key, well landscaped gardens and State Heritage significant mansion 'Hughes Estate'.</p>
	Representative Buildings	Identified - refer to SA planning database.

Un2	Residential Compact Goodwood Estate Historic Area Statement (Un2)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1870 to 1900 built development.
	Allotments, subdivision and built form patterns	Simple grid layout pattern, with longitudinal axis perpendicular to narrow roads. Regular modest allotments and wide site frontages. Prevailing and coherent rhythm of building siting, street setbacks, side boundary setbacks, spacing between buildings and garden landscape setting.
	Architectural styles, detailing and built form features	Victorian double fronted, symmetrical and asymmetrical cottages. Complementary Victorian corner shops that are landmarks and features of the area. Hipped and gable roof forms, roof louvres, chimneys, open bullnose, concave or straight-pitch verandahs, feature ornamentation (plasterwork and ironwork), lattice work and associated front fences. Carports, garages and side additions are separate and recessed from the main building and façade, and are a minor, unobtrusive presence in the streetscape.
	Building height	Wall Height in the order of 3.5 metres. Total Roof Height in the order of 5.7 metres; and Roof Pitch in the order of 27 degrees and 35 degrees. Verandahs in the order of 2.1 metre fascia height and 3.0 metre pitching height.
Materials	Sandstone. Bluestone. Timber joinery including window frames, door frames, doors, fascias, bargeboards and verandah posts. Brick quoins, occasionally rendered, around windows and doors. Brick or rendered string courses and plinths. Corrugated Iron roof cladding.	
Fencing	Typical of the historic character of the area, street and architectural style and materials of the associated building. Where forward of the front façade of the principle building, low in height, typically less than 1.0 metre but up to 1.2 metres. Larger sites and of more than 16 metres street frontage may include vertical elements up to 1.8 metres in total height. Open, see-through and maintaining an open streetscape presence of the associated building, including typical styles comprising: Timber picket, dowel or paling with top rail; Corrugated iron or mini orb or steel strap panels within timber framing and posts; Woven crimped wire, wire mesh on timber or galvanised steel tube framing; Simple masonry plinth (500mm) and widely spaced minimum numbers of piers with decorative see-through iron palisade or steel bar inserts; Stone, brick and/or stucco masonry low in height with wrought iron or steel bar inserts (typically geometric pattern); Hedges, with or without fencing.	
Setting, landscaping, streetscape and public realm features	Compact streetscape character, simple grid of short and narrow streets, narrow verges, modest street trees. Goodwood Estate of 1875 a rectangular section of 30 acres (12.1 hectares) with regular layout of standard modest properties, some local corner shops, adjacent to facilities and services along Goodwood Road and the notable bisection in north by tramway corridor.	
Representative Buildings	Identified - refer to SA planning database.

Un9	Residential Grand Unley Park Heywood Estate Historic Area Statement (Un9)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1860 to 1940's built development.
	Allotments, subdivision and built form patterns	Regular, very generous allotments and site frontages. Prevailing rhythm of building siting, street setbacks, side boundary setbacks, spacing between buildings and grand garden landscape setting.
	Architectural styles, detailing and built form features	Victorian Villas and Mansions. Turn-of-the-Century Villas and Mansions. Inter-War period Bungalows, particularly Gentleman's Bungalows. Tudor, particularly Gentleman's Tudors. Old English, Georgian Revival and other International Styles. Individualised by original architectural inspirations. Carports, garages and side additions are separate and recessed from the main building and façade, and are a minor, unobtrusive presence in the streetscape.
	Building height	Grand built scale and form of existing historic buildings.
Materials	Consistent with the materials typically associated with the style and era of the dwelling. For example (but not limited to): stone with brick or rendered embellishments, iron roof and timber joinery for Victorian and Turn-of-the-Century; stone with brick embellishments, tiled roof and timber joinery for Bungalows; brick with rendered embellishments, tiled roof and timber joinery and gable details for Tudors, brick or render with restrained detailing, flat roof forms and timber, steel and/or concrete features for International Styles.	
Fencing	Typical of the historic character of the area, street and architectural style and materials of the associated building. Where forward of the front façade of the principle building, low in height, typically less than 1.0 metre but up to 1.2 metres. Larger sites and of more than 16 metres street frontage may include vertical elements up to 1.8 metres in total height. Open, see-through and maintaining an open streetscape presence of the associated building, including typical styles comprising: Timber picket, dowel or paling with top rail; Corrugated iron or mini orb or steel strap panels within timber framing and posts; Woven crimped wire, wire mesh on timber or galvanised steel tube framing; Simple masonry plinth (500mm) and widely spaced minimum numbers of piers with decorative see-through iron palisade or steel bar inserts; Stone, brick and/or stucco masonry low in height with wrought iron or steel bar inserts (typically geometric pattern); hedges, with or without fencing.	
Setting, landscaping, streetscape and public realm features	Wide streets and verges. Avenues of substantial street trees. Expansive allotments, street frontages with substantial well landscaped gardens including trees. Heywood Park a key feature at junction of key axis of King William Road and Northgate Street.

	Residential Grand Myrtle Bank Historic Area Statement (Un10)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.		

Statement#	Statement	
Un10	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1880 to 1940 built development.
	Allotments, subdivision and built form patterns	Generous, wide, long street. Regular, very generous allotments and site frontages. Prevailing and coherent rhythm of building siting, street setbacks, side boundary setbacks, spacing between buildings and garden landscape setting.
	Architectural styles, detailing and built form features	Victorian and Turn-of-the-Century grand villas. Inter-War era, primarily Bungalow but also Tudor, Art Deco, Mediterranean and complementary styles. Hipped and gable roof forms, chimneys, open verandahs, feature ornamentation (plasterwork, ironwork and timberwork), lattice work and associated front fences. Carports, garages and side additions are separate and recessed from the main building and façade, and are a minor, unobtrusive presence in the streetscape.
	Building height	Consistent and recognisable pattern of traditional building proportions including wall heights and widths of facades, and roof height, volumes and shapes, and verandahs associated with the identified architectural styles.
	Materials	Sandstone. Bluestone. Brick, including glazed brick, and stucco painted finishes. Rendered masonry. Timber joinery including window frames, door frames, doors, fascias, bargeboards and verandah posts. Brick quoins, occasionally rendered, around windows and doors. Brick or rendered string courses and plinths. Corrugated iron roof cladding. Tiled roof cladding on some post 1900s buildings.
	Fencing	Typical of the historic character of the area, street and architectural style and materials of the associated building. Where forward of the front façade of the principle building, low in height, typically less than 1.0 metre but up to 1.2 metres. Larger sites and of more than 16 metres street frontage may include vertical elements up to 1.8 metres in total height. Open, see-through and maintaining an open streetscape presence of the associated building, including typical styles comprising: Timber picket, dowel or paling with top rail; Corrugated iron or mini orb or steel strap panels within timber framing and posts; Woven crimped wire, wire mesh on timber or galvanised steel tube framing; Simple masonry plinth (500mm) and widely spaced minimum numbers of piers with decorative see-through iron palisade or steel bar inserts; Stone, brick and/or stucco masonry low in height with wrought iron or steel bar inserts (typically geometric pattern); hedges, with or without fencing.
	Setting, landscaping, streetscape and public realm features	Grand streetscape character. Generous wide street. Wide verges. Large street trees.

Un11	Residential Spacious Millswood Page Estate Historic Area Statement (Un11)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1900 to 1930's built development.
	Allotments, subdivision and built form patterns	Basic grid street layout around the central recreation feature of Goodwood Oval, but with long curvilinear and some truncated streets around the bisecting train lines previously laid in the 1870's. Spacious streetscape character of long, short and curved, wide, tree-lined streets. Generous allotments and site frontages. Prevailing and coherent rhythm of building siting, street setbacks, side boundary setbacks, spacing between buildings and garden landscape setting.
	Architectural styles, detailing and built form features	Victorian and Turn-of-the-Century villa styles. Primarily distinctive Inter-War period bungalows, art deco, Tudor and complementary later styles. Hipped and gable roof forms, roof louvres, chimneys, open bullnose, concave or straight-pitch verandahs, feature ornamentation (plasterwork and ironwork), lattice work and associated front fences. Carports, garages and side additions are separate and recessed from the main building and façade, and are a minor, unobtrusive presence in the streetscape.
	Building height	Wall Height in the order of 3.6 metres. Total Roof Height in the order of 5.6 metres; and Roof Pitch in the order of 27 degrees and 35 degrees.- Verandahs, on earlier styles in the order of 2.1 metre fascia height and 3.0 metre pitching height, and on later styles incorporated as part of principle building main roof extension.
Materials	Sandstone. Bluestone. Brick, including glazed brick, and stucco painted finishes. Rendered masonry. Timber joinery including window frames, door frames, doors, fascias, barges and verandah posts. Brick quoins, occasionally rendered, around windows and doors. Corrugated Iron roof cladding. Tiled roof cladding on later style buildings.	
Fencing	Typical of the historic character of the area, street and architectural style and materials of the associated building. Where forward of the front façade of the principle building, low in height, typically less than 1.0 metre but up to 1.2 metres. Un27	Residential Compact Parkside (South) Historic Area Statement (Un27)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1880 to 1930 built development.
	Allotments, subdivision and built form patterns	Simple grid layout pattern of roads, with longitudinal axis perpendicular to narrow roads. Regular large allotment sizes and site frontages. Prevailing and coherent rhythm of building siting, street setbacks, side boundary setbacks, spacing between buildings and garden landscape setting.
	Architectural styles, detailing and built form features	Victorian and Turn-of-the-Century double-fronted, single-fronted as well as attached cottages. Victorian and Turn-of-the-Century symmetrical and asymmetrical villas. Inter-War Bungalows. Hipped and gable roof forms, chimneys, open verandahs, feature ornamentation (plasterwork, ironwork and timberwork), lattice work and associated front fences. Carports, garages and side additions are separate and recessed from the main building and façade, and are a minor, unobtrusive presence in the streetscape.
	Building height	Wall Height in the order of 3.5 metres. Total Roof Height in the order of 5.7 metres; and Roof Pitch in the order of 27 degrees and 35 degrees. Verandahs in the order of 2.1 metre fascia height and 3.0 metre pitching height. Consistent and recognisable pattern of traditional building proportions including wall heights and widths of facades, and roof height, volumes and shapes associated with the identified architectural styles.
Materials	Sandstone. Bluestone. Timber joinery including window frames, door frames, doors, fascias, bargeboards and verandah posts. Brick quoins, occasionally rendered, around windows and doors. Brick or rendered string courses and plinths. Rendered masonry. Corrugated iron roof cladding. Tiled roof cladding on some post 1900s buildings.	
Fencing	Typical of the historic character of the area, street and architectural style and materials of the associated building. Where forward of the front façade of the principle building, low in height, typically less than 1.0 metre but up to 1.2 metres. Larger sites and of more than 16 metres street frontage may include vertical elements up to 1.8 metres in total height. Open, see-through and maintaining an open streetscape presence of the associated building, including typical styles comprising: Timber picket, dowel or paling with top rail; Corrugated iron or mini orb or steel strap panels within timber framing and posts; Woven crimped wire, wire mesh on timber or galvanised steel tube framing; Simple masonry plinth (500mm) and widely spaced minimum numbers of piers with decorative see-through iron palisade or steel bar inserts; Stone, brick and/or stucco masonry low in height with wrought iron or steel bar inserts (typically geometric pattern); hedges, with or without fencing.	
Setting, landscaping, streetscape and public realm features	Compact streetscape character. Simple grid of short and narrow streets. Narrow verges. Modest street trees.

Building height	<p>Prevailing one to two storeys. One or two three storey buildings on Coral Street and Flinders Parade.</p> <p style="text-align: right;">4423</p>		

Statement#	Statement	
	Materials	Limestone walls, some rendered masonry. Red brick or rendered quoin work and detail. Timber joinery including window frames, door frames, doors, fascias, bargeboards and verandah posts. Corrugated iron or corrugated steel roofing. Variation in materials which assists in breaking down bulk and scale, adding visual interest.
	Fencing	Some timber picket fencing and corrugated iron fencing.
	Setting, landscaping, streetscape and public realm features	Commercial properties provide the main built form and are characteristically single or two-storey buildings aligning with the street boundary. Typically buildings are symmetrical in design with parapets, verandas and balconies over the footpath to further define the pedestrian nature of the area. The railway corridor with its associated buildings and infrastructure is a prominent landscape element.

Historic Areas affecting Wakefield

WAKR1	<p>Edith Terrace / Wallace Street, Balaklava Historic Area Statement (WakR1)</p>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1875-1930.
	Allotments, subdivision and built form patterns	[Not stated]
	Architectural styles, detailing and built form features	Face stone walls dressed with quoins; stuccoed raised parapets and stucco 'neoclassical' styled decoration/ elements to commercial premises. Framed shopfront windows and doors. Steeply pitched roof forms. Verandahs provided over footpaths.
	Building height	Single storey.
	Materials	Local stone, masonry, stucco, red brick quoins, corrugated iron, timber framed windows and doors and brick chimneys.
Fencing	[Not stated]	
Setting, landscaping, streetscape and public realm features	Remnant 'Silent Cop' in intersection of two streets, locating the commercial centre of the town. Buildings square to and consistently set back from the street, creating a strong building line with little interruption. Minimal breaks between buildings except where access to the rear of a site is provided.	
Representative Buildings	[Not identified]

Historic Areas affecting Town of Walkerville																		
	<p>Church Terrace Locality Historic Area Statement (Walk1)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>																	

Statement#	Statement	
Walk1	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Various eras of development that map out the developmental progress of the Walkerville Township, from the late 1870s to late 1920s.
	Allotments, subdivision and built form patterns	Very-low density and low-density residential development, with predominantly detached dwellings on wide allotments. Detached dwellings on hammerhead allotments or group dwellings with shared access at the rear with wide street frontage. Very large allotments fronting Church Terrace and St Andrews Street, slightly smaller allotments within the remaining parts of the area.
	Architectural styles, detailing and built form features	Built form is varied, covering a range of architectural periods including early stone villas and brick cottages such as those in the Lansdowne Terrace, together with Victorian and Edwardian architecture and later bungalows and Tudor houses. This historic character has been partially eroded through the development of semi-detached dwellings and other dwellings of uncomplimentary design and siting, reducing the areas available for landscaping to along the front and side of dwellings.
	Building height	Generally single storey. Two storey additions to the rear of buildings or within the roof space and on larger sites with setbacks.
	Materials	Residences within this area vary in material application. Residences mostly constructed in locally sourced sandstone or bluestone, corrugated galvanised iron roofs and verandahs with cast iron lacework.
	Fencing	Examples of original fencing with bluestone plinths and cast iron fence railings above remains. Low front fencing which provides some visibility to the historic built form, although brush fencing or solid pillars and plinths with open style inserts and gates appears in some locations.
	Setting, landscaping, streetscape and public realm features	Vegetation in private yards contributes positively to the overall visual amenity and street tree planting which includes Jacarandas, Golden Rain and Ash trees, particularly in Church Terrace and Devonshire Street also contributes positively to residential amenity.
Representative Buildings	Identified - refer to SA planning database.	
Walk2	<p>Medindie Historic Area Statement (Walk2)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Very-low and low density residential. 19th Century and early 20th Century.
	Allotments, subdivision and built form patterns	Predominantly detached dwellings on large, wide allotments. Allotment sizes and building setbacks vary throughout the policy area, although there are patterns established in individual streets.
	Architectural styles, detailing and built form features	Range of architectural styles and dwelling types from the late 19th Century and early 20th Century periods including early Victorian, high Victorian, Edwardian, Classic Revival and large bungalows, all set within large landscaped garden settings that enhance the presentation of the dwellings.
	Building height	Predominantly single storey. Two storey additions to the rear of buildings or within the roof space with single storey appearance at the street. Two storey dwellings found on Robe Terrace and on larger sites with setbacks.
	Materials	Residences within this area vary in material application. Residences mostly constructed in locally sourced sandstone or bluestone, corrugated galvanised iron roofs and verandahs with cast iron lacework. Consistent early stone and brick dwellings on large sites with wide frontages to public roads.
	Fencing	There is a distinctive lack of high, solid fencing and/or the use of open design of large gates to access long driveways has enabled the principal elevation of the historic homes and landscaped grounds to be visible from the public roads.
	Setting, landscaping, streetscape and public realm features	Reasonably well established pattern of development, with regular spacing between buildings, front setbacks and roof pitches. Low-density residential development, with predominantly detached dwellings on allotments that are generous in width. Regular spacing between residential buildings that is primarily achieved through consistent setbacks from each side boundary. Formal avenues and regular spacing of street trees along road verges also make a positive contribution to the amenity of the area.
Representative Buildings	Identified - refer to SA planning database.	
Walk3	<p>Walkerville Terrace Historic Area Statement (Walk3)</p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Low-density residential development with predominantly detached dwellings. 19th Century and early 20th Century.

Statement#	Statement	
Walk3	Allotments, subdivision and built form patterns	<p>Closely sited pattern of development, small allotments with narrow-to-medium frontages and intact historic character throughout the majority of the streets.</p> <p>Large frontages to Church Terrace (northern side) and Stephen Terrace, slightly smaller frontages elsewhere.</p>
	Architectural styles, detailing and built form features	Range of architectural styles and dwelling types from the late 19th Century and early 20th Century. Existing dwellings are typically double or single fronted cottages, with simple detailing and modest sized rooms.
	Building height	Predominantly single storey. Two storey additions to the rear of buildings or within the roof space.
	Materials	Residences within this area vary in material application. Residences were constructed in locally sourced sandstone or bluestone, corrugated galvanised iron roofs and verandahs with cast iron lacework. The locality exhibits consistent early stone and brick dwellings on large sites with wide frontages to public roads.
	Fencing	Low front fencing, such as picket fencing, or no front fencing at all. High solid fencing up to 2 metres in height on Stephen Terrace.
	Setting, landscaping, streetscape and public realm features	The locality exhibits regular spacing between residential buildings that is primarily achieved through consistent setbacks from each side boundary.
	Representative Buildings	Identified - refer to SA planning database.
Walk4	<p>Gilberton North Historic Area Statement (Walk4)</p>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Various eras of development that map out the developmental progress of the Walkerville Township, from the late 1870s to late 1920s. Proximity to Walkerville Terrace generally dictates more modest dwellings while grander architecturally designed residences exist on Walkerville Hill, capitalising on views to the Adelaide Hills.
	Allotments, subdivision and built form patterns	Predominantly low density detached dwellings on wide allotments of a range of sizes.
	Architectural styles, detailing and built form features	Mixture of architectural styles from turn of the century to early 1900s. Established character of large detached dwellings on spacious allotments, well setback from all allotment boundaries. Pitched roofs and articulated roof forms are an important characteristic of the area.
	Building height	Predominantly single storey. Two storey additions to the rear of buildings or within the roof space.
	Materials	Residences within this area vary in material application. Residences mostly constructed in locally sourced sandstone or bluestone, corrugated galvanised iron roofs and verandahs with cast iron lacework.
Fencing	Front boundary fencing is open in design (including gates) with solid components limited to the base and pillars so as to provide views of the principle dwelling facade. Traditional materials, heights and designs.	
Setting, landscaping, streetscape and public realm features	<p>There is a reasonably well established pattern of development, with regular spacing between buildings, front setbacks and roof pitches.</p> <p>Large street trees and generous garden settings visible from the primary street frontage.</p>	
Representative Buildings	Identified - refer to SA planning database.	
	<p>Gilberton South Historic Area Statement (Walk5)</p>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context	Turn of the century to early 1900s. Modest, single storey cottages.	
Allotments, subdivision and built form patterns	Predominantly low density detached dwellings on wide allotments. Range of allotment sizes. Cottages on small allotments with narrow frontages adjacent the narrow residential streets.	
Architectural styles,	Mixture of architectural styles from turn of the century to early 1900s. Larger Victorian-era villas, bungalows and Tudor dwellings on the more spacious	

Statement#	Statement	
Walk5	detailing and built form features	allotments with frontage to Walkerville Terrace, Park Terrace and Stephen Terrace.
	Building height	Predominantly single storey. Two storey additions to the rear of buildings or within the roof space.
	Materials	Residences within this area vary in material application. Residences mostly constructed in locally sourced sandstone or bluestone, corrugated galvanised iron roofs and verandahs with cast iron lacework.
	Fencing	Low fences allowing view to houses, except on Walkerville and Stephen Terraces where there are higher fences.
	Setting, landscaping, streetscape and public realm features	There is a reasonably well established pattern of development, with regular spacing between buildings, front setbacks and roof pitches. Large street trees and generous garden settings visible from the primary street frontage.
	Representative Buildings	Identified - refer to SA planning database.

Historic Areas affecting Wattle Range

WATR1	Penola - Riddoch Street, Penola (Town Centre) Historic Area Statement (WatR 1)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Civic, commercial and retail.
	Allotments, subdivision and built form patterns	Traditional grid.
	Architectural styles, detailing and built form features	[Not stated]
	Building height	Single and two storey.
	Materials	Local stone and masonry.
Fencing	Open front fencing not exceeding 1.2m.	
Setting, landscaping, streetscape and public realm features	The connection and approach to the State heritage area of Petticoat Lane and the vista towards the Catholic Church at the eastern end of Riddoch Street. Stone paving. Wide streets in original layout. Consistent setbacks and strong building line with little interruption. Buildings square to the street.	
Representative Buildings	[Not identified]	

WATR2	Riddoch Street, Penola (Residential) Historic Area Statement (WatR 2)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. Historic Areas affecting District Council of Yankalilla

Rapid Bay Historic Area Statement (Ya1)		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Eras, themes and context	Rapid Bay is historically significant because of its connection with the first mainland landing by Colonel Light and his survey team in 1836 and has very strong connections and cultural significance for Aboriginal descendants being a popular fishing and summer occupation site, burial ground and Tjilbruke Dreaming site. 1948-1949 (School added in 1950). Encompasses housing established by BHP as part of mining/quarrying operations to the west as well as historic buildings and items at the southern end of the town. Rapid Bay's built character and landscape setting reflects the influence of BHP's extractive industry, which was established during the 1940s with the establishment of a limestone quarry, crushers and loading jetty. Houses were built for employees. At the peak of construction homes were built for BHP by Fricker Bros using local stone and Wattle Flat bricks. A further 16 houses were built during 1949/50 on the eastern side of the township and the	

Statement#	Statement	
Ya1		primary school officially opened in 1950. BHP stopped operations in June, 1962, and sold houses on the eastern side of Rapid Bay for private ownership. Adelaide Brighton Cement recommenced quarry operations in 1982, providing local jobs and stone products for the Highways Department, local councils and private contractors amounting to 12,000 tonnes annually. The operations have resulted in moving the shore line westward, as 30% of screenings were deposited in the area. Consequently the setting of the township with company housing divided by the Yattogolina Creek and school oval, has a unique landscape setting and character.
	Allotments, subdivision and built form patterns	Rapid Bay has two residential enclaves which are divided by Yattogolina River and the town oval. The western section of the town is laid out around the main entrance road and comprises eighteen houses, a former general store and meeting hall. These are without individual subdivision allotments. The eastern section includes fifteen houses either side of Cygnet Place and the primary school. They are constructed on allotments of approximately the same size and are set back the same distance from the road. Allotment sizes provide narrower frontages at the end of the cul-de-sac.
	Architectural styles, detailing and built form features	Semi bungalow in design with painted hipped corrugated roofs, simple and return verandahs, windows surrounds comprising painted concrete lintels and window sills. The 15 houses in Cygnet Place were designed using one of six house plans prepared by BHP Limited. They are either five or six room dwellings and some have sleep-outs attached. On the western side, company dwellings range from simple detached, hipped or gable roof designs to a row of larger stone and brick houses with expansive verandahs facing the sea and overlooking the coastal area.
	Building height	All buildings in the township are of single storey, low scale character on generous allotments.
	Materials	Materials used in housing construction include varying combinations of red brick, concrete brick and stone or limestone.
	Fencing	There is a row of low rendered walls along the front of one group of allotments in Cygnet Place which overlook the sea, but all other allotments have wire mesh front fences and corrugated iron side and rear fences.
	Setting, landscaping, streetscape and public realm features	The streets are well treed, and although Norfolk Island pines are not the only species, they are the most dominant. The extension of the main entrance road which leads through the western residential area and then branches off towards the quarry is divided by a wide median strip in which Norfolk Island pines and pyramid trees have been planted alternately. About a third of the way along this street a road branches off towards the beach to provide access to the jetty, the foreshore caravan park and camping area and the eastern residential area. Trees have been planted along all these routes and the embankments along the roads have been planted with shrubs, flowers and ground cover. The mouth of the Yattogolina River, which is located near the junction of these three routes, is shallow and filled with reeds. The jetty and the quarry works dominate the western end of the beach.
	Representative Buildings	<i>[Not identified]</i>

Ya2	Randalsea Historic Area Statement (Ya2)	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Established during the first phase of settlement (1836-1861). A sharp distinction is evident between the unformed groupings of buildings set within the township proper, and the bare hillsides surrounding the town. Randalsea comprises a small rural village founded in the 1836-1861 settlement period of SA around two industries- a steam mill and sawmilling. The historic significance of the village lies in the integrity, age and condition of the original buildings and landscape setting. The settlement's corner setting in Second Valley has been described as 'aesthetically one of the most pleasing heritage environments in South Australia'.
	Allotments, subdivision and built form patterns	Historic division pattern is maintained around the intersection of Main South Road and Finnis Vale Drive. A range of allotments of various configurations and sizes east and west of Main South Road.
	Architectural styles, detailing and built form features	A compact group of small scale, single storey cottages and buildings with randomly aligned frontages to the original road (Gamlen Place), with Randall's cottage and Palm House a former boarding house located west at a distance from the group. The Institute building, school house, school, and Florence's Guest House are higher set on the southern side of Finnis Vale Road. Leonard's Mill, with ancillary buildings is a visually dominant building on the eastern side of Main South Road. The former Mill is State Heritage listed.
	Building height	Predominantly single storey heights, in small scale buildings. The State Heritage listed Leonard's Mill provides a dominant element on the south-eastern side of Main South Road opposite Gamlen Place. Palm House presents a single storey appearance to Finnis Vale Drive but is two storey given the building is cut into the side of the slope that falls away from the road to the creek like north of the road.
	Materials	Dominant materials include stone walling, timber fenestration and entrances, slate flooring and corrugated iron roofing. More recent materials include colorbond roofing, mini-orb iron sheeting, brick and rendered surfaces. Evidence of early gum slab construction noted in outbuilding.
Fencing	Minimal fencing retaining an open feel to the shared spatial arrangements of buildings and gardens. A section of existing stone walling on the southern side of the road intersection and some post and wire fencing maintains the informal and open spatial character of the village.	
Setting, landscaping, streetscape and public realm features	Randalsea is nestled at the bottom of the Parananacooka River at its junction with a smaller tributary. A scattered collection of buildings are located along the valley floor, with trees and grazing land rising steeply behind to the ridge lines which form a contrasting rural backdrop. The public realm includes a creek side reserve and higher level park with walkway in the vicinity of a fenced War Memorial set higher than the Finnis Vale Road.	
Representative Buildings	<i>[Not identified]</i>	

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Historic Shipwrecks Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Historic shipwrecks and historic relics are protected from encroaching development.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
General	
PO 1.1 Development is located and designed to avoid potential impacts on historic shipwrecks and historic relics.	DTS/DPF 1.1 Development involving impact to the surface or subsoil of land or sea/river floor is not located: (a) seaward of the mean high water mark or (b) within 15m landward of the banks of the River Murray.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Development that may involve impact to the surface or subsoil of land or the floor of a sea, lake or river.	Minister responsible for the administration of the <i>Historic Shipwrecks Act 1981</i> .	To provide expert assessment and direction to the relevant authority on the potential impacts of development on, or in proximity to, historic shipwrecks or relics protected under the relevant Act.	Development of a class to which Schedule 9 clause 3 item 5 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.
Development that may involve impact to the surface or subsoil of land or sea floor, where located partly or fully within the 'adjacent area' of a historic shipwreck or historic relic within the meaning of the <i>Underwater Cultural Heritage Act 2018</i> (Commonwealth) as shown on the Historic Shipwrecks Overlay.	Commonwealth Minister responsible for the administration of the <i>Underwater Cultural Heritage Act 2018</i> (Commonwealth).	To provide expert assessment and direction to the relevant authority on the potential impacts of development on, or in proximity to, historic shipwrecks or relics protected under the relevant Act.	Development of a class to which Schedule 9 clause 3 item 6 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development of sensitive receivers in a manner that mitigates potential adverse environmental and amenity impacts generated by the lawful operation of neighbouring and proximate land uses.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Sensitive receivers are carefully sited and designed to mitigate adverse impacts of hazards, noise, dust, odour, light spill or other emissions from existing legally operating land uses through design techniques such as: (a) locating residential accommodation the greatest distance practicable from the source of the impacts (b) locating buildings containing non-sensitive receivers between the source of the impacts and sensitive receivers (c) placing rooms more sensitive to air, noise and odour impacts (e.g. bedrooms) further away from the source of the impacts (d) providing private or common open space adjacent a building elevation that shields the space from the source of the impacts.	DTS/DPF 1.1 None are applicable.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Key Outback and Rural Routes Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Safe and efficient movement of vehicle and freight traffic on Key Outback and Rural Routes.
DO 2	Provision of safe and efficient vehicular access to and from Key Outback and Rural Routes.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Access - Safe Entry and Exit (Traffic Flow)	
PO 1.1 Access is designed to allow safe entry and exit to and from a site to meet the needs of development, and minimise traffic flow interference associated with access movements along adjacent State maintained roads.	DTS/DPF 1.1 Access points: (a) are designed to accommodate the largest vehicles expected to access the site in accordance with all of the following: (i) the entry and exit movements: A. are left turns only or B. will comprise no greater than 5 right turn vehicle entry movements per hour (ii) access to and from the site is in a forward direction, with on-site manoeuvring available through circulation around the site requiring no more than a 3-point turn (iii) vehicles can cross the property boundary at an angle between 70 and 90 degrees

	<ul style="list-style-type: none"> (iv) access to and from the site can occur wholly within the kerbside lane of the road (b) where the access point services or is intended to service a single dwelling, have a width of no more than 4m and no less than 3m (measured at the site boundary) (c) where the access point services or is intended to service development other than a single dwelling: <ul style="list-style-type: none"> (i) at least 6m (measured at the site boundary) where vehicles 12.5m or less in length are expected to access the site (ii) at least 8m (measured at the site boundary) where vehicles over 12.5m in length are expected to access the site (d) are located 10m or more from any roadside infrastructure or trees.
Access - On-Site Queuing	
<p>PO 2.1</p> <p>Sufficient accessible on-site queuing adjacent to access points is provided to meet the needs of development so that all vehicle queues are contained fully within the boundaries of the development site to minimise interruption of the functional performance of the road and maintain safe vehicle movements.</p>	<p>DTS/DPF 2.1</p> <p>An access point in accordance with one of the following:</p> <ul style="list-style-type: none"> (a) it is expected to service vehicles no greater than 12.5m in length and there are no internal intersections, car parking spaces, car park isles or any internal obstructions within 20m of the access point (measured from the site boundary into the site) (b) it is expected to service a single dwelling and there are no internal driveway intersections, car parking spaces or gates within 6m of the access point (measured from the site boundary into the site).
Access - Existing Access Points	
<p>PO 3.1</p> <p>Existing access points are designed to accommodate the type and volume of traffic likely to be generated by development.</p>	<p>DTS/DPF 3.1</p> <p>An existing access point satisfied (a) or (b):</p> <ul style="list-style-type: none"> (a) it will not service, or is not intended to service, more than 6 dwellings (b) it will not service or is not intended to service: <ul style="list-style-type: none"> (i) an increase in traffic that is greater than 150% of the traffic volumes using the existing access prior to the development or 60 vehicles per day (whichever is the lesser) or (ii) a larger class of vehicle expected to access the site using the existing access.
Access - Location (Spacing)	
<p>PO 4.1</p> <p>New access points are spaced apart from any existing access point or public road junction to manage impediments to traffic flow and maintain safe and efficient operating conditions on the road.</p>	<p>DTS/DPF 4.1</p> <p>A new access point satisfies (a) or (b):</p> <ul style="list-style-type: none"> (a) it is not located on a section of road affected by double barrier lines between either edge of the access point (b) it is at least the following distance from a public road junction or railway, or terminating / merging lane or another access point: <ul style="list-style-type: none"> (i) 110 km/h road - 325m (ii) 100 km/h road - 280m (iii) 90 km/h road - 240m (iv) 80 km/h road - 200m (v) 70 km/h road - 165m (vi) 60 km/h road - 135m (vii) 50km/h or less road - 105m.
Access - Location (Sight Lines)	
<p>PO 5.1</p> <p>Access points are located and designed to accommodate sight lines that enable drivers to navigate potential conflict points with roads in a controlled and safe manner.</p>	<p>DTS/DPF 5.1</p> <p>Lines of sight to and from a new access point for drivers approaching and exiting the site of the development (measured at a height of 1.1m above the surface of the road) are unobstructed in accordance with the following distances:</p> <ul style="list-style-type: none"> (a) 110 km/h road - 325m (b) 100 km/h road - 280m (c) 90 km/h road - 240m (d) 80 km/h road - 200m (e) 70 km/h road - 165m (f) 60 km/h road - 135m (g) 50km/h or less road - 105m.
Access - Mud and Debris	
<p>PO 6.1</p> <p>Access points are constructed to minimise mud or other debris being carried or transferred onto roads to ensure safe road operating conditions.</p>	<p>DTS/DPF 6.1</p> <p>An access point satisfies (a), (b) or (c):</p> <ul style="list-style-type: none"> (a) it intersects with an unsealed length of a State Maintained Road (b) it will service a single dwelling (c) it is spray sealed from the edge of the seal on the State Maintained Road for a 4441 minimum of 10m or to the property boundary (whichever is closer).

Access - Stormwater	
<p>PO 7.1</p> <p>Access points are designed to minimise negative impact on roadside drainage of water.</p>	<p>DTS/DPF 7.1</p> <p>Development does not:</p> <ul style="list-style-type: none"> (a) decrease the capacity of an existing drainage point (b) restrict or prevent the flow of stormwater to an existing drainage point and system.
Public Road Junctions	
<p>PO 8.1</p> <p>New junctions with a public road (including the opening of unmade public road junctions) or modifications to existing road junctions are located and designed to ensure safe operating conditions are maintained on the State Maintained Road.</p>	<p>DTS/DPF 8.1</p> <p>Development does not comprise any of the following:</p> <ul style="list-style-type: none"> (a) creating a new junction with a public road (b) opening an unmade public road junction (c) modifying an existing public road junction.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Except where all of the relevant deemed-to-satisfy criteria are met, development (including the division of land) that involves any of the following to/on a State Maintained Road or within 25 metres of an intersection with any such road:</p> <ul style="list-style-type: none"> (a) creation of a new access or junction (b) alterations to an existing access or public road junction (except where deemed to be minor in the opinion of the relevant authority) (c) development that changes the nature of vehicular movements or increase the number or frequency of movements through an existing access (except where deemed to be minor in the opinion of the relevant authority). 	Commissioner of Highways.	To provide expert technical assessment and direction to the Relevant Authority on the safe and efficient operation and management of all roads relevant to the Commissioner of Highways as described in the Planning and Design Code.	Development of a class to which Schedule 9 clause 3 item 7 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

Key Railway Crossings Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Safe, efficient and uninterrupted operation of key railway crossings.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Access, Design and Function	
<p>PO 1.1</p> <p>Site access does not interfere or impact on the safe operation of a railway crossing.</p>	<p>DTS/DPF 1.1</p> <p>Development does not involve a new or modified access or cause an increase in traffic through an existing access that is located within the following distance from a railway crossing:</p> <ul style="list-style-type: none"> (a) 110 km/h road - 190m (b) 100 km/h road - 165m (c) 90 km/h road - 140m (d) 80 km/h road - 110m (e) 70 km/h road - 90m (f) 60 km/h road - 70m (g) 50km/h or less road - 50m

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Limited Dwelling Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Establishment of additional dwellings in primary production areas is limited to avoid undermining primary production.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
PO 1.1 Development does not result in the establishment of an additional dwelling.	DTS/DPF 1.1 A new dwelling replaces an existing dwelling within the same allotment.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Limited Land Division Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	The long term use of land for primary production is maintained by minimising fragmentation through division of land.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
General	
PO 1.1 Land division does not result in the creation of an additional allotment.	DTS/DPF 1.1 No additional allotments are created.
PO 1.2 Land division involving boundary realignments occurs only where the number of resulting allotments with a site area less than that specified in the relevant Zone is not greater than the number that existed prior to the realignment.	DTS/DPF 1.2 None are applicable.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Local Heritage Place Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development maintains the heritage and cultural values of Local Heritage Places through conservation, ongoing use and adaptive reuse.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Built Form	
PO 1.1 The form of new buildings and structures maintains the heritage values of the Local Heritage Place.	DTS/DPF 1.1 None are applicable.
PO 1.2 Massing, scale and siting of development maintains the heritage values of the Local Heritage Place.	DTS/DPF 1.2 None are applicable.
PO 1.3 Design and architectural detailing (including but not limited to roof pitch and form, openings, chimneys and verandahs) maintains the heritage values of the Local Heritage Place.	DTS/DPF 1.3 None are applicable.
PO 1.4 Development is consistent with boundary setbacks and setting.	DTS/DPF 1.4 None are applicable.
PO 1.5 Materials and colours are either consistent with or complement the heritage values of the Local Heritage Place.	DTS/DPF 1.5 None are applicable.
PO 1.6 New buildings and structures are not placed or erected between the primary or secondary street boundaries and the façade of a Local Heritage Place.	DTS/DPF 1.6 None are applicable.
PO 1.7 Development of a Local Heritage Place retains features contributing to its heritage value.	DTS/DPF 1.7 None are applicable.
Alterations and Additions	
PO 2.1 Alterations and additions complement the subject building and are sited to be unobtrusive, not conceal or obstruct heritage elements and detailing, or dominate the Local Heritage Place or its setting.	DTS/DPF 2.1 None are applicable.
PO 2.2 Adaptive reuse and revitalisation of Local Heritage Places to support their retention in a manner that respects and references the original use of the Local Heritage Place.	DTS/DPF 2.2 None are applicable.
Ancillary Development	
PO 3.1 Ancillary development, including carports, outbuildings and garages, complements the heritage values of the Local Heritage Place.	DTS/DPF 3.1 None are applicable.
PO 3.2 Ancillary development, including carports, outbuildings and garages, is located behind the building line and does not dominate the Local Heritage Place or its setting.	DTS/DPF 3.2 None are applicable.
PO 3.3	DTS/DPF 3.3

Advertising and advertising hoardings are designed to complement the Local Heritage Place, be unobtrusive, be below the parapet line, not conceal or obstruct heritage elements and detailing, or dominate the building or its setting.	None are applicable.
PO 3.4 Fencing and gates closer to a street boundary (other than a laneway) than the street elevation of the associated building are consistent with the traditional period, style and form of the Local Heritage Place.	DTS/DPF 3.4 None are applicable.
Land Division	
PO 4.1 Land division creates allotments that: (a) maintain the heritage values of the Local Heritage Place, including setting (b) are of a dimension to accommodate new development that reinforces and is compatible with the heritage values of the Local Heritage Place.	DTS/DPF 4.1 None are applicable.
Landscape Context and Streetscape Amenity	
PO 5.1 Individually heritage listed trees, parks, historic gardens and memorial avenues are retained unless: (a) trees / plantings are, or have the potential to be, a danger to life or property or (b) trees / plantings are significantly diseased and their life expectancy is short.	DTS/DPF 5.1 None are applicable.
Demolition	
PO 6.1 Local Heritage Places are not demolished, destroyed or removed in total or in part unless: (a) the portion of the Local Heritage Place to be demolished, destroyed or removed is excluded from the extent of listing that is of heritage value or (b) the structural integrity or condition of the Local Heritage Place represents an unacceptable risk to public or private safety and is irredeemably beyond repair.	DTS/DPF 6.1 None are applicable.
PO 6.2 The demolition, destruction or removal of a building, portion of a building or other feature or attribute is appropriate where it does not contribute to the heritage values of the Local Heritage Place.	DTS/DPF 6.2 None are applicable.
Conservation Works	
PO 7.1 Conservation works to the exterior of a Local Heritage Place (and other features identified in the extent of listing) match original materials to be repaired and utilise traditional work methods.	DTS/DPF 7.1 None are applicable.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Major Urban Transport Routes Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Safe and efficient operation of Major Urban Transport Routes for all road users.
DO 2	Provision of safe and efficient access to and from Major Urban Transport Routes.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
---------------------	---

Access - Safe Entry and Exit (Traffic Flow)

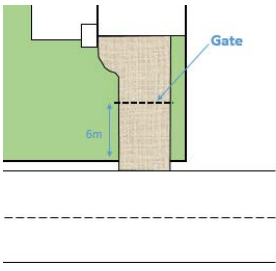

PO 1.1
 Access is designed to allow safe entry and exit to and from a site to meet the needs of development and minimise traffic flow interference associated with access movements along adjacent State Maintained Roads.

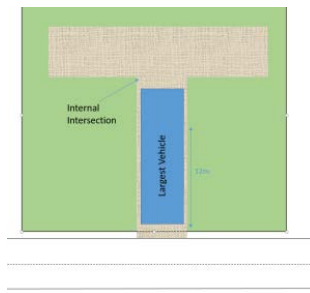

- DTS/DPF 1.1**
 An access point satisfies (a), (b) or (c):
- (a) where servicing a single (1) residential dwelling / residential allotment:
 - (i) it will not result in more than one access point
 - (ii) vehicles can enter and exit the site in a forward direction
 - (iii) vehicles can cross the property boundary at an angle between 70 degrees and 90 degrees
 - (iv) passenger vehicles (with a length up to 5.2m) can enter and exit the site wholly within the kerbside lane of the road
 - (v) have a width of between 3m and 4m (measured at the site boundary).
 - (b) where the development will result in 2 and up to 6 dwellings:
 - (i) it will not result in more than one access point servicing the development site
 - (ii) entry and exit movements are left turn only
 - (iii) vehicles can enter and exit the site in a forward direction
 - (iv) vehicles can cross the property boundary at an angle between 70 degrees and 90 degrees;
 - (v) passenger vehicles (with a length up to 5.2m) can enter and exit the site wholly within the kerbside lane of the road
 - (vi) have a width of between 5.8m to 6m (measured at the site boundary) and an access depth of 6m (measured from the site boundary into the site).
 - (c) where the development will result in over 7 dwellings, or is a non-residential land use:
 - (i) it will not result in more than one access point servicing the development site
 - (ii) vehicles can enter and exit the site using left turn only movements
 - (iii) vehicles can enter and exit the site in a forward direction
 - (iv) vehicles can cross the property boundary at an angle between 70 degrees and 90 degrees
 - (v) have a width of between 6m and 7m (measured at the site boundary), where the development is expected to accommodate vehicles with a length of 6.4m or less
 - (vi) have a width of between 6m and 9m (measured at the site boundary), where the development is expected to accommodate vehicles with a length from 6.4m to 8.8m
 - (vii) have a width of between 9m and 12m (measured at the site boundary), where the development is expected to accommodate vehicles with a length from 8.8m to 12.5m
 - (viii) provides for simultaneous two-way vehicle movements at the access;
 - A. with entry and exit movements for vehicles with a length up to 5.2m vehicles being fully within the kerbside lane of the road
 - and
 - B. with entry movements of 8.8m vehicles (where relevant) being fully within the kerbside lane of the road and the exit movements of 8.8m vehicles do not cross the centreline of the road.

Access - On-Site Queuing

PO 2.1
 Sufficient accessible on-site queuing adjacent to access points is provided to meet the needs of development so that all vehicle queues can be contained fully within the boundaries of the development site, to minimise interruption of the functional performance of the road and maintain safe vehicle movements.

- DTS/DPF 2.1**
 An access point in accordance with one of the following:
- (a) will not service, or is not intended to service, more than 6 dwellings and there are no internal driveways, intersections, car parking spaces or gates within 6.0m of the access point (measured from the site boundary into the site) as shown in the following diagram:

 - (b) will service, or is intended to service, development that will generate less than 60 vehicle movements per day and:
 - (i) is expected to be serviced by vehicles with a length no greater than 6.4m
 - (ii) there are no internal driveways, intersections, parking spaces or gates within 6.0m of the access point (measured from the site boundary into the site).
 - (c) will service, or is intended to service, development that will generate less than 60 vehicle movements per day and:
 - (i) is expected to be serviced by vehicles with a length greater than a 6.4m small rigid vehicle
 - (ii) there are no internal driveways, intersections, parking spaces or gates within 6.0m of the access point (measured from the site boundary into the site)
 - (iii) any termination of, or change in priority of movement within the main car park aisle is located far enough into the site so that the largest vehicle expected on-site can store fully within the site before being required to stop
 - (iv) all parking or manoeuvring areas for commercial vehicles are located a minimum of 12m or the length of the largest vehicle expected on site from the access (measured from the site boundary into the site) as shown in the following diagram:

Access - Location (Spacing) - Existing Access Points

PO 3.1

Existing access points designed to accommodate the type and volume of traffic likely to be generated by the development.

DTS/DPF 3.1

An existing access point satisfies (a), (b) or (c):

- (a) it will not service, or is not intended to service, more than 6 dwellings
- (b) it is not located on a Controlled Access Road and will not service development that will result in a larger class of vehicle expected to access the site using the existing access
- (c) it is not located on a Controlled Access Road and development constitutes:
 - (i) change of use between an office less than 500m² gross leasable floor area and a consulting room less than 500m² gross leasable floor area or vice versa
 - (ii) change in use from a shop to an office, consulting room or personal or domestic services establishment
 - (iii) change of use from a consulting room or office less than 250m² gross leasable floor area to shop less than 250m² gross leasable floor area
 - (iv) change of use from a shop less than 500m² gross leasable floor area to a warehouse less than 500m² gross leasable floor area
 - (v) an office or consulting room with a gross leasable floor area less than 500m².

Access - Location (Spacing) - New Access Points

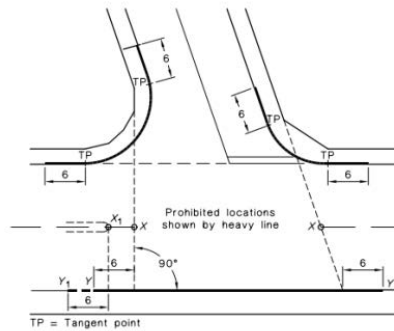

PO 4.1

New access points are spaced apart from any existing access point or public road junction to manage impediments to traffic flow and maintain safe and efficient operating conditions on the road.

DTS/DPF 4.1

A new access point satisfies (a), (b) or (c):

- (a) where a development site is intended to serve between 1 and 6 dwellings and has frontage to a local road (not being a Controlled Access Road) with a speed environment of 60km/h or less, the new access point is provided on the local road and located a minimum of 6.0m from the tangent point as shown in the following diagram:

NOTE:

The points marked X₁ and X₂ are respectively at the median end on a divided road and at the intersection of the main road centre-line and the extensions of the side road property lines shown as dotted lines, on an undivided road. On a divided road, dimension T-Y extends to Point Y₁.

- (b) where the development site is intended to serve between 1 and 6 dwellings and access from a local road (being a road that is not a State Maintained Road) is not available, the new access:
 - (i) is not located on a Controlled Access Road
 - (ii) is not located on a section of road affected by double barrier lines
 - (iii) will be on a road with a speed environment of 70km/h or less
 - (iv) is located outside of the bold lines on the diagram shown in the diagram following part (a)
 - (v) located minimum of 6m from a median opening or pedestrian crossing.
- (c) where DTS/DPF 4.1 part (a) and (b) do not apply and access from an alternative local road at least 25m from the State Maintained Road is not available, and the access is not located on a Controlled Access Road, the new access is separated in accordance with the following:

Speed Limit	Separation between access points	Separation from public road junctions and merging/terminating lanes
50 km/h or less	No spacing requirement	20m
60 km/h	40m	123m
70 km/h	55m	151m
80 km/h	70m	181m
90 km/h	90m	214m
100 km/h	110m	248m
110 km/h	135m	285m

P0 5.1

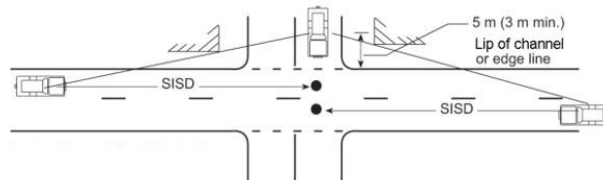

Access points are located and designed to accommodate sight lines that enable drivers and pedestrians to navigate potential conflict points with roads in a controlled and safe manner.

DTS/DPF 5.1

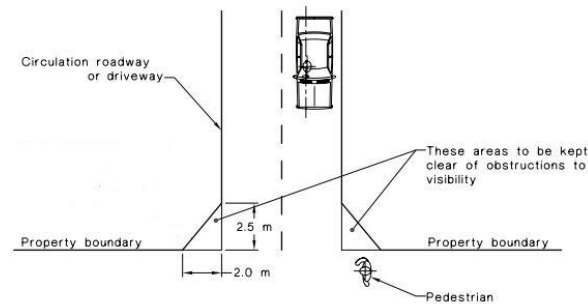

An access point satisfies (a) or (b):

- (a) drivers approaching or exiting an access point have an unobstructed line of sight in accordance with the following (measured at a height of 1.1m above the surface of the road):

Speed Limit	Separation between access points	Separation from public road junctions and merging/terminating lanes
40 km/h or less	40m	73m
50 km/h	55m	97m
60 km/h	73m	123m
70 km/h	92m	151m
80 km/h	114m	181m
90 km/h	139m	214m
100 km/h	165m	248m
110km/h	193m	285m

- (b) pedestrian sightlines in accordance with the following diagram:

Access - Mud and Debris

P0 6.1

Access points constructed to minimise mud or other debris being carried or transferred onto the road to ensure safe road operating conditions.

DTS/DPF 6.1

Where the road has an unsealed shoulder and the road is not kerbed the access way is sealed from the edge of seal on the road for a minimum of 10m or to the property boundary (whichever is closer)

Access - Stormwater

P0 7.1

Access points designed to minimise negative impact on roadside drainage of water.

DTS/DPF 7.1

Development does not:

- (a) decrease the capacity of an existing drainage point
- (b) restrict or prevent the flow of stormwater to an existing drainage point and system.

Building on Road Reserve

P0 8.1

Buildings or structures that encroach onto, above or below road reserves designed and sited to minimise impact on safe movements by all road users.

DTS/DPF 8.1

No encroachment of buildings or structures onto, above or below the road reserve.

Public Road Junctions

P0 9.1

New junctions with public roads (including the opening of unmade public road junctions) or modifications to existing road junctions located and designed to ensure safe and efficient road operating conditions are maintained on the State Maintained Road.

DTS/DPF 9.1

Development does not comprise any of the following:

- (a) creating a new junction with a public road
- (b) opening an unmade public road junction
- (c) modifying an existing public road junction.

Corner Cut-Offs

P0 10.1

Development is located and designed to maintain sightlines for drivers turning into and out of public road junctions to contribute to

DTS/DPF 10.1

Development does not involve building work, or building work is located wholly outside the land shown as 'Corner Cut-Off Area' in the following diagram:

driver safety.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Except where all of the relevant deemed-to-satisfy criteria are met, development (including the division of land) that involves any of the following to/on a State Maintained Road or within 25 metres of an intersection with any such road:</p> <ul style="list-style-type: none"> (a) creation of a new access or junction (b) alterations to an existing access or public road junction (except where deemed to be minor in the opinion of the relevant authority) (c) development that changes the nature of vehicular movements or increase the number or frequency of movements through an existing access (except where deemed to be minor in the opinion of the relevant authority). 	Commissioner of Highways.	To provide expert technical assessment and direction to the Relevant Authority on the safe and efficient operation and management of all roads relevant to the Commissioner of Highways as described in the Planning and Design Code.	Development of a class to which Schedule 9 clause 3 item 7 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

Marine Parks (Managed Use) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Marine habitats and biodiversity are protected through limiting development to coastal infrastructure (jetties, marinas, pontoons), aquaculture, tourism, recreation and renewable energy facilities.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
PO 1.1 Development avoids or minimises harm to marine habitats, biodiversity or the functioning of ecosystems.	DTS/DPF 1.1 None are applicable.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Marine Parks (Restricted Use) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome
4449

DO 1	High value marine habitats and biological diversity are protected.
------	--

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
PO 1.1 Development is limited to that required to support the ongoing operation of ports and harbours.	DTS/DPF 1.1 None are applicable.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Safeguard Greater Adelaide's public water supply by ensuring development has a neutral or beneficial effect on the quality of water harvested from primary reservoirs or diversion weir catchments from the Mount Lofty Ranges.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Water Quality	
PO 1.1 Development results in a neutral or beneficial effect on the quality of water draining from the site to maintain and enhance the role of the catchment as a water supply.	DTS/DPF 1.1 None are applicable.
PO 1.2 Development does not include land uses that have the potential to cause adverse impacts on the quality of water draining into primary public water supply reservoirs and weirs.	DTS/DPF 1.2 Development does not involve any one or combination of the following: (a) aquaculture involving husbandry or supplementary feeding in a water flow through system (b) dairy except if a replacement dairy (c) organic waste processing facility (d) fuel depot (e) horticulture involving only market gardening or commercial turf growing (f) intensive animal husbandry (g) landfill (h) retail fuel outlet (i) special industry (j) stock sales yard (k) stock slaughter works (l) timber preservation works (m) waste recycling, storage or treatment facility (n) wrecking yard.
Wastewater	
PO 2.1 Development that generates trade or industrial wastewater is designed to ensure wastewater disposal avoids adverse water quality impacts on the quality of water draining into primary public water supply reservoirs and weirs.	DTS/DPF 2.1 Development that generates trade or industrial wastewater is connected to a: (a) sewer or community wastewater management system with sufficient hydraulic and treatment capacity to accept the inflow, or (b) wastewater holding tank which has storage capacity of more than four days to 4450w

	during peak operations and is contained within an impervious, bunded area with a total liquid holding capacity of more than 120 percent of the total holding tank capacity, prior to transporting for off-site disposal.
<p>PO 2.2</p> <p>Development that generates human wastewater, including alterations and additions, are established at an intensity and in a manner to minimise potential adverse impact on water quality within primary reservoir and weir catchment areas.</p>	<p>DTS/DPF 2.2</p> <p>Development, including alterations and additions, in combination with existing built form and activities within an allotment:</p> <ul style="list-style-type: none"> (a) does not generate a combined total of more than 900 litres of wastewater per day, and (b) will be connected to the same on-site wastewater system that is compliant with relevant South Australian standards <p>or is otherwise connected to a sewerage or community wastewater management system.</p>
<p>PO 2.3</p> <p>Wastewater management systems result in a neutral or beneficial effect on the quality of water draining from the site.</p>	<p>DTS/DPF 2.3</p> <p>Development results in:</p> <ul style="list-style-type: none"> (a) a building or land use that is currently connected to an existing on-site wastewater system that is non-compliant with relevant South Australian standards being connected to a new or upgraded system that complies with such standards <p>or</p> <ul style="list-style-type: none"> (a) an existing on-site wastewater system being decommissioned and wastewater being disposed of to a sewer or community wastewater management system that complies with relevant South Australian standards.
<p>PO 2.4</p> <p>Surface and groundwater protected from wastewater discharge pollution.</p>	<p>DTS/DPF 2.4</p> <p>All components of an effluent disposal area are:</p> <ul style="list-style-type: none"> (a) set back 50 metres or more from a watercourse (b) set back 100 metres or more from a public water supply reservoir (c) located on land with a slope no greater than 1-in-5 (20%) (d) located on land with 1.2m or more depth to bedrock or a seasonal or permanent water table (e) above the 10% AEP flood level.
Stormwater	
<p>PO 3.1</p> <p>Post-development peak stormwater discharge quantities and rates do not exceed pre-development quantities and rates to maintain water quality leaving the site.</p>	<p>DTS/DPF 3.1</p> <p>None are applicable.</p>
<p>PO 3.2</p> <p>Stormwater run-off from areas not likely to be subject to pollution diverted away from areas that could cause pollution.</p>	<p>DTS/DPF 3.2</p> <p>None are applicable.</p>
<p>PO 3.3</p> <p>Polluted stormwater is treated prior to discharge from the site.</p>	<p>DTS/DPF 3.3</p> <p>None are applicable.</p>
<p>PO 3.4</p> <p>Stormwater from carports, verandahs, outbuildings and agricultural buildings captured to protect water quality.</p>	<p>DTS/DPF 3.4</p> <p>Development includes:</p> <ul style="list-style-type: none"> (a) rainwater tanks with a minimum capacity of 1,000L connected to carports, verandahs and outbuildings or (b) rainwater tanks with a minimum capacity of 4,500L connected to agricultural buildings exceeding 100m².
<p>PO 3.5</p> <p>Stormwater from dwelling additions captured to protect water quality.</p>	<p>DTS/DPF 3.5</p> <p>Dwelling additions are connected to a rainwater tank with a minimum capacity of 1,000L.</p>
<p>PO 3.6</p> <p>Stormwater from shops and tourist accommodation is managed to protect water quality.</p>	<p>DTS/DPF 3.6</p> <p>Shops and tourist accommodation satisfy all the following:</p> <ul style="list-style-type: none"> (a) are located 50m or more from watercourses, wetlands, land prone to waterlogging and bores (b) are located 100m or more from public water supply reservoirs and diversion weirs (c) are located on land with a slope not exceeding 20% (d) includes buildings connected to rainwater tanks with a minimum capacity of 1,000L (e) includes swales that divert clean stormwater away from areas where it could be polluted.
<p>PO 3.7</p> <p>Stormwater from horse keeping and low intensity animal husbandry is managed to protect water quality.</p>	<p>DTS/DPF 3.7</p> <p>Horse keeping and low intensity animal husbandry satisfy all the following:</p> <ul style="list-style-type: none"> (a) is located 50m or more from watercourses, wetlands, land prone to waterlogging and bores (b) is located on land with a slope not exceeding 10% (c) includes stables, shelters or other roofed structures connected to rainwater

	(d) tanks with a minimum capacity of 1,000L includes swales that divert clean stormwater away from areas (including yards, manure storage areas, and watering points) within which it could be polluted.
PO 3.8 Stormwater from horticulture is managed to protect water quality.	DTS/DPF 3.8 Horticulture satisfies all the following : (a) is located 50m or more from watercourses, wetlands, land prone to waterlogging and bores (b) is located 100m or more from public water supply reservoirs and diversion weirs (c) is located on land with a slope not exceeding 10% (d) includes swales or other structures that divert clean stormwater away from areas (including plant growing areas, chemical storage areas and plant waste storage areas) within which it could be polluted.
PO 3.9 Stormwater from excavated and filled areas is managed to protect water quality.	DTS/DPF 3.9 Excavation and/or filling satisfy all the following: (a) is located 50m or more from watercourses (b) is located 100m or more from public water supply reservoirs and diversion weirs (c) does not involve excavation exceeding a vertical height of 0.75m (d) does not involve filling exceeding a vertical height of 0.75m (e) does not involve a total combined excavation and filling vertical height of 1.5m.
Landscapes and Natural Features	
PO 4.1 Development minimises the need to modify landscapes and natural features.	DTS/DPF 4.1 None are applicable.
Land Division	
PO 5.1 Land division does not result in an increased risk of pollution to surface or underground water.	DTS/DPF 5.1 Land division does not create additional allotments and satisfies (a) and/or (b): (a) is for realignment of allotment boundaries to correct an anomaly in the placement of those boundaries with respect to the location of existing buildings or structures (b) is for realignment of allotment boundaries to improve management of the land for primary production and/or conservation of natural features.
PO 5.2 Realignment of allotment boundaries does not create development potential for a dwelling and associated onsite wastewater management system where no such potential currently exists.	DTS/DPF 5.2 None are applicable.

Procedural Matters (PM)

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Any of the following classes of development that are not connected (or not proposed to be connected) to a community wastewater management system or sewerage infrastructure: (a) land division creating one or more additional allotments, either partly or wholly within the area of the overlay (b) function centre with more than 75 seats for customer dining purposes (c) restaurant with more than 40 seats for customer dining purposes (d) restaurant with more than 30 seats for customer dining purposes in association with a cellar door (e) dwelling where a habitable dwelling or tourist accommodation already exists on the same allotment (including where a valid planning authorisation exists to erect a dwelling or tourist accommodation on the same allotment) (f) tourist accommodation where a habitable dwelling or tourist accommodation already exists on the same allotment (including where a valid planning authorisation exists to erect a habitable dwelling or tourist accommodation on the same allotment) (g) workers' accommodation where a habitable dwelling or tourist accommodation already exists on the same allotment (including where a valid planning authorisation exists to erect a habitable dwelling or tourist accommodation on the same allotment) (h) any other development that generates human wastewater from a peak loading capacity of more than 40 persons (or more than 6,000 litres/day).	Environment Protection Authority.	To provide expert technical assessment and direction to the relevant authority on whether a proposed development will have a neutral or beneficial impact on water quality.	Development of a class to which Schedule 9 clause 3 item 9 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.
Composting works (excluding a prescribed approved activity) - being a depot, facility or works with the capacity to treat, during a 12 month period more than 200 tonnes of organic waste or matter (EPA Licence)			4452

<p>Wastewater treatment works - being sewage treatment works, a community wastewater management system, winery wastewater treatment works or any other wastewater treatment works with the capacity to treat, during a 12 month period more than 2.5 ML of wastewater (EPA Licence required at more than 5ML)</p>		
<p>Feedlots - being carrying on an operation for holding in confined yard or area and feeding principally by mechanical means or by hand not less than an average of 200 cattle (EPA Licence) or 1,600 sheep or goats per day over any period of 12 months, but excluding any such operation carried on at an abattoir, slaughterhouse or saleyard or for the purpose only of drought or other emergency feeding</p>		
<p>Piggeries - being the conduct of a piggery (being premises having confined or roofed structures for keeping pigs) with a capacity of 130 or more standard pig units (EPA Licence required at 650 or more standard pig units)</p>		
<p>Dairies - carrying on of a dairy with a total processing capacity exceeding 100 milking animals at any one time.</p>		

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Safeguard Greater Adelaide's public water supply by ensuring development has a neutral or beneficial effect on the quality of water harvested from secondary reservoirs or diversion weir catchments from the Mount Lofty Ranges.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Water Quality	
<p>PO 1.1</p> <p>Development results in a neutral or beneficial effect on the quality of water draining from the site to maintain and enhance the role of the catchment as a water supply.</p>	<p>DTS/DPF 1.1</p> <p>None are applicable.</p>
<p>PO 1.2</p> <p>Development does not include land uses that have the potential to cause adverse impacts on the quality of water draining into secondary public water supply reservoirs and weirs.</p>	<p>DTS/DPF 1.2</p> <p>Development does not involve any one or combination of the following:</p> <ul style="list-style-type: none"> (a) landfill (b) special industry.
Wastewater	
<p>PO 2.1</p> <p>Development that generates human wastewater, including alterations and additions, are established at an intensity and in a manner to minimise potential adverse impact on water quality within secondary reservoir and weir catchment areas.</p>	<p>DTS/DPF 2.1</p> <p>Development including alterations and additions, in combination with existing built form and activities within an allotment:</p> <ul style="list-style-type: none"> (a) do not generate a combined total of more than 1500 litres of wastewater per day and (b) will be connected to the same on-site wastewater system that is compliant with relevant South Australian standards <p>or is otherwise connected to a sewer or community wastewater management system.</p>
<p>PO 2.2</p> <p>Dairy development is of a scale and design that will avoid adverse water quality impacts.</p>	<p>DTS/DPF 2.2</p> <p>Dairy development satisfies all of the following:</p> <ul style="list-style-type: none"> (a) is located at least 100 metres from any watercourse, dam, bore or well (b) is connected to a wastewater management system that is located 200 metres from any watercourse, dam, bore or well and is designed and constructed to avoid leakage to groundwater or overflow under extreme rainfall conditions (c) treated wastewater irrigation areas: <ul style="list-style-type: none"> (i) have a slope of less than 1-in-5 (20 percent)

	<p>(ii) are greater than 100 metres from any watercourse, dam, bore or well</p> <p>are suitable to provide for seasonal wastewater irrigation without causing pollution of surface or groundwater.</p>
<p>PO 2.3</p> <p>Development that generates trade or industrial wastewater is of a scale and design to ensure wastewater is managed to avoid adverse water quality impacts is of a scale and design that will avoid adverse water quality impacts.</p>	<p>DTS/DPF 2.3</p> <p>Development that generates trade or industrial wastewater with a peak biological oxygen demand (BOD) of greater than 100 milligrams per litre satisfies the following:</p> <p>(a) disposes of all wastewater to a sewerage or community wastewater management system,</p> <p>or</p> <p>(b) operates at a scale that generates less than 5 million litres of wastewater per year, and</p> <p>(i) is located greater than 300 metres from a watercourse, dam, bore or well, except where a spill retention basin is constructed, in which case, the minimum setback to a watercourse, dam, bore or well is 50 metres, and</p> <p>(ii) a development that incorporates a spill retention basin(s) for the purpose of reducing the setback to a watercourse, dam, bore or well, has basins designed and located:</p> <p>A. to minimise the risk of spills entering a downgradient watercourse, dam, bore of well</p> <p>B. in close proximity to wine making, wine storage and wastewater treatment facilities</p> <p>C. to capture 120% of the maximum aggregate volume of liquid raw materials, product and untreated wastewater which can be contained or produced at any one time during the peak of operation</p> <p>D. to be impervious; and</p> <p>E. to minimise the interception of any natural or artificial stormwater flow.</p>
<p>PO 2.4</p> <p>Wastewater management systems result in a neutral or beneficial effect on the quality of water draining from the site.</p>	<p>DTS/DPF 2.4</p> <p>Development results in:</p> <p>(a) a building or land use that is currently connected to an existing on-site wastewater system that is non-compliant with relevant South Australian standards being connected to a new or upgraded system that complies with such standards</p> <p>or</p> <p>(b) an existing on-site wastewater system being decommissioned and wastewater being disposed of to a sewer or community wastewater management system that complies with relevant South Australian standards.</p>
<p>PO 2.5</p> <p>Surface and groundwater protected from wastewater discharge pollution.</p>	<p>DTS/DPF 2.5</p> <p>All components of an effluent disposal area are:</p> <p>(a) setback 50 metres or more from a watercourse</p> <p>(b) setback 100 metres or more from a public water supply reservoir</p> <p>(c) located on land with a slope no greater than 1-in-5 (20%)</p> <p>(d) located on land with 1.2m or more depth to bedrock or a seasonal or permanent water table</p> <p>(e) above the 10% AEP flood level.</p>
Stormwater	
<p>PO 3.1</p> <p>Post-development peak stormwater discharge quantities and rates do not exceed pre-development quantities and rates to maintain water quality leaving the site.</p>	<p>DTS/DPF 3.1</p> <p>None are applicable.</p>
<p>PO 3.2</p> <p>Stormwater run-off from areas not likely to be subject to pollution diverted away from areas that could cause pollution.</p>	<p>DTS/DPF 3.2</p> <p>None are applicable.</p>
<p>PO 3.3</p> <p>Polluted stormwater is treated prior to discharge from the site.</p>	<p>DTS/DPF 3.3</p> <p>None are applicable.</p>
<p>PO 3.4</p> <p>Stormwater from carports, verandahs, outbuildings and agricultural buildings captured to protect water quality.</p>	<p>DTS/DPF 3.4</p> <p>Development includes:</p> <p>(a) rainwater tanks with a minimum capacity of 1,000L connected to carports, verandahs and outbuildings</p> <p>or</p> <p>(b) rainwater tanks with a minimum capacity of 4,500L connected to agricultural buildings exceeding 100m².</p>
<p>PO 3.5</p> <p>Stormwater from dwelling additions captured to protect water quality.</p>	<p>DTS/DPF 3.5</p> <p>Dwelling additions are connected to a rainwater tank with a minimum capacity of 1,000L.</p>
<p>PO 3.6</p> <p>Stormwater from shops and tourist accommodation is managed to protect water quality.</p>	<p>DTS/DPF 3.6</p> <p>Shops and tourist accommodation satisfy all the following:</p> <p>(a) are located 50m or more from watercourses, wetlands, land prone to waterlogging and</p>

	<p>bores</p> <p>(b) are located 100m or more from public water supply reservoirs and diversion weirs</p> <p>(c) are located on land with a slope not exceeding 20%</p> <p>(d) includes buildings connected to rainwater tanks with a minimum capacity of 1,000L</p> <p>(e) includes swales that divert clean stormwater away from areas where it could be polluted.</p>
<p>PO 3.7</p> <p>Stormwater from horse keeping and low intensity animal husbandry is managed to protect water quality.</p>	<p>DTS/DPF 3.7</p> <p>Horse keeping and low intensity animal husbandry satisfy all the following:</p> <p>(a) is located 50m or more from watercourses, wetlands, land prone to waterlogging and bores</p> <p>(b) is located on land with a slope not exceeding 10%</p> <p>(c) includes stables, shelters or other roofed structures connected to rainwater tanks with a minimum capacity of 1,000L</p> <p>(d) includes swales that divert clean stormwater away from areas (including yards, manure storage areas, and watering points) within which it could be polluted.</p>
<p>PO 3.8</p> <p>Stormwater from horticulture is managed to protect water quality.</p>	<p>DTS/DPF 3.8</p> <p>Horticulture satisfies all the following:</p> <p>(a) is located 50m or more from watercourses, wetlands, land prone to waterlogging and bores</p> <p>(b) is located 100m or more from public water supply reservoirs and diversion weirs</p> <p>(c) is located on land with a slope not exceeding 10%</p> <p>(d) includes swales or other structures that divert clean stormwater away from areas (including plant growing areas, chemical storage areas and plant waste storage areas) within which it could be polluted.</p>
<p>PO 3.9</p> <p>Stormwater from excavated and filled areas is managed to protect water quality.</p>	<p>DTS/DPF 3.9</p> <p>Excavation and/or filling satisfy all the following:</p> <p>(a) is located 50m or more from watercourses</p> <p>(b) is located 100m or more from public water supply reservoirs and diversion weirs</p> <p>(c) does not involve excavation exceeding a vertical height of 0.75m</p> <p>(d) does not involve filling exceeding a vertical height of 0.75m</p> <p>(e) does not involve a total combined excavation and filling vertical height of 1.5m.</p>
Landscapes and Natural Features	
<p>PO 4.1</p> <p>Development minimises the need to modify landscapes and natural features.</p>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>
Land Division	
<p>PO 5.1</p> <p>Land division does not result in an increased risk of pollution to surface or underground water.</p>	<p>DTS/DPF 5.1</p> <p>Land division does not create additional allotments and satisfies (a) and/or (b):</p> <p>(a) is for realignment of allotment boundaries to correct an anomaly in the placement of those boundaries with respect to the location of existing buildings or structures or</p> <p>(b) is for realignment of allotment boundaries in order to improve management of the land for primary production and/or conservation of natural features.</p>
<p>PO 5.2</p> <p>Realignment of allotment boundaries does not create development potential for a dwelling and associated onsite wastewater management system where no such potential currently exists.</p>	<p>DTS/DPF 5.2</p> <p>None are applicable.</p>

Procedural Matters (PM)

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Any of the following classes of development that are not connected (or not proposed to be connected) to a community wastewater management system or sewerage infrastructure:</p> <p>(a) land division creating one or more additional allotments, either partly or wholly within the area of the overlay</p> <p>(b) function centre with more than 75 seats for customer dining purposes</p> <p>(c) restaurant with more than 40 seats for customer dining purposes</p> <p>(d) restaurant with more than 30 seats for customer dining purposes in association with a cellar door</p> <p>(e) dwelling where a habitable dwelling or tourist accommodation</p>	<p>Environment Protection Authority.</p>	<p>To provide expert technical assessment and direction to the relevant authority on whether a proposed development will have a neutral or beneficial impact on water quality.</p>	<p>Development of a class to which Schedule 9 clause 3 item 9 of the Planning, Development and Infrastructure (General) Regulations</p>

<p>already exists on the same allotment (including where a valid planning authorisation exists to erect a dwelling or tourist accommodation on the same allotment)</p> <p>(f) tourist accommodation where a habitable dwelling or tourist accommodation already exists on the same allotment (including where a valid planning authorisation exists to erect a habitable dwelling or tourist accommodation on the same allotment)</p> <p>(g) workers' accommodation where a habitable dwelling or tourist accommodation already exists on the same allotment (including where a valid planning authorisation exists to erect a habitable dwelling or tourist accommodation on the same allotment)</p> <p>(h) any other development that generates human wastewater from a peak loading capacity of more than 40 persons (or more than 6,000 litres/day)</p>			2017 applies.
Composting works (excluding a prescribed approved activity) - being a depot, facility or works with the capacity to treat, during a 12 month period more than 200 tonnes of organic waste or matter (EPA Licence)			
Wastewater treatment works - being sewage treatment works, a community wastewater management system, winery wastewater treatment works or any other wastewater treatment works with the capacity to treat, during a 12 month period more than 2.5 ML of wastewater (EPA Licence required at more than 5ML)			
Feedlots - being carrying on an operation for holding in confined yard or area and feeding principally by mechanical means or by hand not less than an average of 200 cattle (EPA Licence) or 1,600 sheep or goats per day over any period of 12 months, but excluding any such operation carried on at an abattoir, slaughterhouse or saleyard or for the purpose only of drought or other emergency feeding			
Piggeries - being the conduct of a piggery (being premises having confined or roofed structures for keeping pigs) with a capacity of 130 or more standard pig units (EPA Licence required at 650 or more standard pig units)			
Dairies - carrying on of a dairy with a total processing capacity exceeding 100 milking animals at any one time.			

Murray-Darling Basin Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome

DO 1	Sustainable water use in the Murray-Darling Basin area.
------	---

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
<p>PO 1.1</p> <p>All development, but in particular development involving:</p> <ul style="list-style-type: none"> (a) horticulture (b) activities requiring irrigation (c) aquaculture (d) industry (e) intensive animal husbandry (f) horse keeping (g) commercial forestry <p>has a lawful, sustainable and reliable water supply that does not place undue strain on water resources in the Murray-Darling Basin.</p>	<p>DTS/DPF 1.1</p> <p>None are applicable.</p>

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory
---------------------------------	---------------	---------------------	-----------

			Reference
<p>Any of the following classes of development that require, or may require water to be taken from the River Murray within the meaning of the <i>River Murray Act 2003</i> under a water licence required under the <i>Landscape South Australia Act 2019</i>:</p> <ul style="list-style-type: none"> (a) horticulture (b) activities requiring irrigation (c) aquaculture (d) industry (e) intensive animal husbandry (f) horse keeping (g) commercial forestry. 	Minister responsible for the administration of the <i>River Murray Act 2003</i> .	To provide expert technical assessment and direction to the relevant authority on matters regarding the taking of water, to ensure development is undertaken sustainably in the Murray-Darling Basin.	Development of a class to which Schedule 9 clause 3 item 10 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

Native Vegetation Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Areas of native vegetation are protected, retained and restored in order to sustain biodiversity, threatened species and vegetation communities, fauna habitat, ecosystem services, carbon storage and amenity values.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Environmental Protection	
<p>PO 1.1</p> <p>Development avoids, or where it cannot be practically avoided, minimises the clearance of native vegetation taking into account the siting of buildings, access points, bushfire protection measures and building maintenance.</p>	<p>DTS/DPF 1.1</p> <p>An application is accompanied by:</p> <ul style="list-style-type: none"> (a) a declaration stating that the proposal will not, or would not, involve clearance of native vegetation under the Native Vegetation Act 1991, including any clearance that may occur: <ul style="list-style-type: none"> (i) in connection with a relevant access point and / or driveway (ii) within 10m of a building (other than a residential building or tourist accommodation) (iii) within 20m of a dwelling or addition to an existing dwelling for fire prevention and control (iv) within 50m of residential or tourist accommodation in connection with a requirement under a relevant overlay to establish an asset protection zone in a bushfire prone area or (b) a report prepared in accordance with Regulation 18(2)(a) of the Native Vegetation Regulations 2017 that establishes that the clearance is categorised as 'Level 1 clearance'.
<p>PO 1.2</p> <p>Native vegetation clearance in association with development avoids the following:</p> <ul style="list-style-type: none"> (a) significant wildlife habitat and movement corridors (b) rare, vulnerable or endangered plants species (c) native vegetation that is significant because it is located in an area which has been extensively cleared (d) native vegetation that is growing in, or in association with, a wetland environment. 	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
<p>PO 1.3</p> <p>Intensive animal husbandry and agricultural activities are sited, set back and designed to minimise impacts on native vegetation, including impacts on native vegetation in an adjacent State Significant Native Vegetation Area, from:</p> <ul style="list-style-type: none"> (a) the spread of pest plants and phytophthora (b) the spread of non-indigenous plants species (c) excessive nutrient loading of the soil or loading arising from surface water runoff (d) soil compaction (e) chemical spray drift. 	<p>DTS/DPF 1.3</p> <p>Development within 500 metres of a boundary of a State Significant Native Vegetation Area does not involve any of the following:</p> <ul style="list-style-type: none"> (a) horticulture (b) intensive animal husbandry (c) dairy (d) commercial forestry (e) aquaculture.

<p>PO 1.4</p> <p>Development restores and enhances biodiversity and habitat values through revegetation using locally indigenous plant species.</p>	<p>DTS/DPF 1.4</p> <p>None are applicable.</p>
<p>Land division</p>	
<p>PO 2.1</p> <p>Land division does not result in the fragmentation of land containing native vegetation, or necessitate the clearance of native vegetation, unless such clearance is considered minor, taking into account the location of allotment boundaries, access ways, fire breaks, boundary fencing and potential building siting or the like.</p>	<p>DTS/DPF 2.1</p> <p>Land division where:</p> <ul style="list-style-type: none"> (a) an application is accompanied by one of the following: <ul style="list-style-type: none"> (i) a declaration stating that none of the allotments in the proposed plan of division contain native vegetation under the <i>Native Vegetation Act 1991</i> (ii) a declaration stating that no native vegetation clearance under the <i>Native Vegetation Act 1991</i> will be required as a result of the division of land (iii) a report prepared in accordance with Regulation 18(2)(a) of the <i>Native Vegetation Regulations 2017</i> that establishes that the vegetation to be cleared is categorised as 'Level 1 clearance' or (b) an application for land division which is being considered concurrently with a proposal to develop each allotment which will satisfy, or would satisfy, the requirements of DTS/DPF 1.1, including any clearance that may occur or (c) the division is to support a Heritage Agreement under the <i>Native Vegetation Act 1991</i> or the <i>Heritage Places Act 1993</i>.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Development that is the subject of a report prepared in accordance with Regulation 18(2)(a) of the <i>Native Vegetation Regulations 2017</i> that categorises the clearance, or potential clearance, as 'Level 3 clearance' or 'Level 4 clearance'.</p>	<p>Native Vegetation Council</p>	<p>To provide expert assessment and direction to the relevant authority on the potential impacts of development on native vegetation.</p>	<p>Development of a class to which Schedule 9 clause 3 item 11 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>

Noise and Air Emissions Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

<p>Desired Outcome</p>	
<p>DO 1</p>	<p>Community health and amenity is protected from adverse impacts of noise and air emissions.</p>

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

<p>Performance Outcome</p>	<p>Deemed-to-Satisfy Criteria / Designated Performance Feature</p>
<p>Siting and Design</p>	
<p>PO 1.1</p> <p>Sensitive receivers adjoining high noise and/or air pollution sources are designed and sited to shield sensitive receivers from the emission source using measures such as:</p> <ul style="list-style-type: none"> (a) placing buildings containing non-sensitive receivers (such as retail and commercial) between the emission source and sensitive receivers (b) within individual buildings, placing rooms more sensitive to air quality and noise impacts (such as living rooms and bedrooms) further away from the emission source (c) providing appropriate separation or erecting noise attenuation barriers, provided the requirements for safety, urban design and access can be met 	<p>DTS/DPF 1.1</p> <p>Sensitive receivers satisfy all of the following:</p> <ul style="list-style-type: none"> (a) do not adjoin a: <ul style="list-style-type: none"> (i) Designated Road: Type A (ii) Designated Road Corridor: Type B (iii) Designated Road: Type R (iv) Train Corridor

<p>(d) the use of building design elements such as podiums and jutting, deep or enclosed balconies (including with solid balustrades).</p>	<p>(v) Tram Corridor</p> <p>(b) adjoining development incorporating music includes noise attenuation measures to achieve a noise level in any bedroom exposed to music noise (L10) less than:</p> <p>(i) 8 dB above the level of background noise (L90,15 min) in any octave band of the sound spectrum;</p> <p>and</p> <p>(ii) 5 dB(A) above the level of background noise (LA90,15 min) for the overall (sum of all octave bands) A-weighted levels.</p>
<p>PO 1.2</p> <p>Development incorporating a sensitive receiver adjoining high air pollution sources use building design elements such as varying building heights, widths, articulation, setbacks and shapes to increase wind turbulence and the dispersion of air pollutants.</p>	<p>DTS/DPF 1.2</p> <p>Sensitive receivers do not adjoin any of the following:</p> <p>(a) Designated Road: Type A</p> <p>(b) Designated Road: Type B</p> <p>(c) Designated Road: Type R</p> <p>(d) Train Corridor</p> <p>(e) Tram Corridor.</p>
<p>PO 1.3</p> <p>Development incorporating a sensitive receiver adjoining high noise and/or air pollution sources locates private open space (including ground level courtyards and balconies), common open space and outdoor play areas within educational establishments and pre-schools away from the emission source.</p>	<p>DTS/DPF 1.3</p> <p>Open space associated with a sensitive receiver is not adjoining any of the following:</p> <p>(a) Designated Road: Type A</p> <p>(b) Designated Road: Type B</p> <p>(c) Designated Road: Type R</p> <p>(d) Train Corridor</p> <p>(e) Tram Corridor</p> <p>(f) Development incorporating music.</p>

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. Non-Stop Corridors Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Safe and efficient operation of non-stop corridors, where free-flowing traffic movement is prioritised.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Non-Stop Corridor Overlay	
<p>PO 1.1</p> <p>The safety, efficiency and functional performance of non-stop corridors is maintained.</p>	<p>DTS/DPF 1.1</p> <p>None are applicable.</p>

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Except where all of the relevant deemed-to-satisfy criteria are met, development	Commissioner of Highways.	To provide expert technical assessment and	Development

<p>(including the division of land) that involves any of the following to/on a Non-Stop Corridor Road or within 25 metres of an intersection with any such road:</p> <ul style="list-style-type: none"> (a) creation of a new access or junction (b) alterations to an existing access or public road junction (except where deemed to be minor in the opinion of the relevant authority) (c) development that changes the nature of vehicular movements or increase the number or frequency of movements through an existing access (except where deemed to be minor in the opinion of the relevant authority). 		<p>direction to the Relevant Authority on the safe and efficient operation and management of all roads relevant to the Commissioner of Highways as described in the Planning and Design Code.</p>	<p>of a class to which Schedule 9 clause 3 item 7 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>
<p>Except where all of the relevant deemed-to-satisfy criteria are met, an advertisement or advertising hoarding that is on a Non-Stop Corridor Road or is on land abutting a Non-Stop Corridor Road and:</p> <ul style="list-style-type: none"> (a) is within 100m of an on or off ramp to a Non-Stop Corridor Road as shown in the Non-Stop Corridors Overlay and (b) will: <ul style="list-style-type: none"> (i) be internally illuminated or (ii) incorporate a moving or changing display or message or (iii) incorporate a flashing light. 	<p>Commissioner of Highways.</p>	<p>To provide expert technical assessment and direction to the Relevant Authority on the safe and efficient operation and management of all roads relevant to the Commissioner of Highways as described in the Planning and Design Code.</p>	<p>Development of a class to which Schedule 9 clause 3 item 7 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>

Prescribed Surface Water Areas Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Sustainable water use in prescribed surface water areas that maintains the health and natural flow paths of watercourses.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
<p>PO 1.1</p> <p>Development comprising the erection, construction, modification, enlargement or removal of a dam, wall or other structure that will collect or divert surface water flowing over land is undertaken in a manner that maintains the quality and quantity of flows required to meet the needs of the environment as well as downstream users.</p>	<p>DTS/DPF 1.1</p> <p>None are applicable.</p>
<p>PO 1.2</p> <p>All development, but in particular development involving any of the following:</p> <ul style="list-style-type: none"> (a) horticulture (b) activities requiring irrigation (c) aquaculture (d) industry (e) intensive animal husbandry (f) commercial forestry <p>have a lawful, sustainable and reliable water supply that does not place undue strain on water resources in prescribed surface water areas.</p>	<p>DTS/DPF 1.2</p> <p>Development satisfies either of the following:</p> <ul style="list-style-type: none"> (a) the applicant has a current water licence in which sufficient spare capacity exists to accommodate the water needs of the proposed use or (b) the proposal does not involve the taking of water for which a licence would be required under the <i>Landscape South Australia Act 2019</i>.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Development that comprises the erection, construction, modification, enlargement or removal of a dam, wall or other structure that will collect or divert, or collects or diverts surface water flowing over land.</p>	<p>Relevant authority under the <i>Landscape South Australia Act 2019</i> that would, if it were not for the operation of section 106(1)(e) of that Act, have the authority under that Act to grant or refuse a permit to undertake the subject development.</p>	<p>To provide expert assessment and direction to the relevant authority on potential impacts from development on the health, sustainability and/or natural flow paths of water resources in accordance with the provisions of the relevant water allocation plan or regional landscape plan</p>	<p>Development of a class to which Schedule 9 clause 3 item 12 of the</p>

		or equivalent.	Planning, Development and Infrastructure (General) Regulations 2017 applies.
Any of the following classes of development that require or may require water to be taken over and above any allocation that has already been granted under the <i>Landscape South Australia Act 2019</i>	The Chief Executive of the Department of the Minister responsible for the administration of the <i>Landscape South Australia Act 2019</i> .	To provide expert technical assessment and direction to the relevant authority on the taking of water to ensure development is undertaken sustainably and maintains the health and natural flow paths of water resources.	Development of a class to which Schedule 9 clause 3 item 13 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.
(a) horticulture (b) activities requiring irrigation (c) aquaculture (d) industry (e) intensive animal husbandry (f) commercial forestry.			
Commercial forestry that requires a forest water licence under Part 8 Division 6 of the <i>Landscape South Australia Act 2019</i> .			

Prescribed Watercourses Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Prescribed watercourses are protected by ensuring the taking of water from such watercourses is avoided or is undertaken in a sustainable manner that maintains the health and natural flow paths of the watercourses.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
<p>PO 1.1</p> <p>All development, but in particular development involving any of the following:</p> <p>(a) horticulture (b) activities requiring irrigation (c) aquaculture (d) industry (e) intensive animal husbandry (f) commercial forestry</p> <p>has a lawful, sustainable and reliable water supply that does not place undue strain on prescribed watercourses.</p>	<p>DTS/DPF 1.1</p> <p>Development satisfies either of the following:</p> <p>(a) the applicant has a current water licence in which sufficient spare capacity exists to accommodate the water needs of the proposed use or (b) the proposal does not involve the taking of water for which a licence would be required under the <i>Landscape South Australia Act 2019</i>.</p>
<p>PO 1.2</p> <p>Development comprising the erection, construction, modification, enlargement or removal of a dam, wall or other structure that will collect or divert surface water flowing in a prescribed watercourse is undertaken in a manner that maintains the quality and quantity of flows required to meet the needs of the environment as well as downstream users.</p>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Development comprising the erection, construction, modification, enlargement or removal of a dam, wall or other structure that will collect or divert, or collects or diverts water flowing in a prescribed watercourse.	Relevant authority under the <i>Landscape South Australia Act 2019</i> that would, if it were not for the operation of section 106(1)(e) of that Act, have the authority under that Act to grant or refuse a permit to undertake the subject development.	To provide expert assessment and direction to the relevant authority on potential impacts from development on the health, sustainability and/or natural flow paths of water resources in accordance with the provisions of the relevant water allocation plan or regional landscape plan or equivalent.	Development of a class to which Schedule 9 clause 3 item 12 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

			Infrastructure (General) Regulations 2017 applies.
Any of the following classes of development that require or may require water to be taken in addition to any allocation that has already been granted under the <i>Landscape South Australia Act 2019</i> : (a) horticulture (b) activities requiring irrigation (c) aquaculture (d) industry (e) intensive animal husbandry (f) commercial forestry.	The Chief Executive of the Department of the Minister responsible for the administration of the <i>Landscape South Australia Act 2019</i> .	To provide expert technical assessment and direction to the relevant authority on the taking of water to ensure development is undertaken sustainably.	Development of a class to which Schedule 9 clause 3 item 13 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.
Commercial forestry that requires a forest water licence under Part 8 Division 6 of the <i>Landscape South Australia Act 2019</i> .

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Development that comprises the erection, construction, modification, enlargement or removal of a dam, wall or other structure that will collect or divert, or collects or diverts surface water flowing over land.	Relevant authority under the <i>Landscape South Australia Act 2019</i> that would, if it were not for the operation of section 106(1)(e) of that Act, have the authority under that Act to grant or refuse a permit to undertake the subject development.	To provide expert assessment and direction to the relevant authority on potential impacts from development on the health, sustainability and/or natural flow paths of water resources in accordance with the provisions of the relevant water allocation plan or regional landscape plan or equivalent.	Development of a class to which Schedule 9 clause 3 item 12 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

			2017 applies.
Any of the following classes of development: (a) horticulture (b) activities requiring irrigation (c) aquaculture (d) industry (e) intensive animal husbandry (f) commercial forestry	The Chief Executive of the Department of the Minister responsible for the administration of the <i>Landscape South Australia Act 2019</i> .	To provide expert technical assessment and direction to the relevant authority on the taking of water to ensure development is undertaken sustainably and maintains the health and natural flow paths of water resources.	Development of a class to which Schedule 9 clause 3 item 13 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.
Commercial forestry that requires a forest water licence under Part 8 Division 6 of the <i>Landscape South Australia Act 2019</i> .			2017 applies.

Prescribed Wells Area Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Sustainable water use in prescribed wells areas.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
<p>PO 1.1</p> <p>All development, but in particular involving any of the following:</p> <p>(a) horticulture (b) activities requiring irrigation (c) aquaculture (d) industry (e) intensive animal husbandry (f) commercial forestry</p> <p>has a lawful, sustainable and reliable water supply that does not place undue strain on water resources in prescribed wells areas.</p>	<p>DTS/DPF 1.1</p> <p>Development satisfies either of the following:</p> <p>(a) the applicant has a current water licence in which sufficient spare capacity exists to accommodate the water needs of the proposed use or (b) the proposal does not involve the taking of water for which a licence would be required under the <i>Landscape South Australia Act 2019</i>.</p>

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Any of the following classes of development that require or may require water to be taken in addition to any allocation that has already been granted under the <i>Landscape South Australia Act 2019</i> : (a) horticulture (b) activities requiring irrigation (c) aquaculture (d) industry (e) intensive animal husbandry (f) commercial forestry.	The Chief Executive of the Department of the Minister responsible for the administration of the <i>Landscape South Australia Act 2019</i> .	To provide expert technical assessment and direction to the relevant authority on the taking of water to ensure development is undertaken sustainably.	Development of a class to which Schedule 9 clause 3 item 13 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.
Commercial forestry that requires a forest water licence under Part 8 Division 6 of the <i>Landscape South Australia Act 2019</i> .			2017 applies.

Ramsar Wetlands Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome

DO 1	Protection and restoration of Ramsar wetlands.
------	--

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
General	
PO 1.1 Development provides for the restoration and/or sustainable management of wetlands habitat.	DTS/DPF 1.1 None are applicable.
PO 1.2 Development does not lead to significant negative impacts on Ramsar wetland habitat and its carbon capture and storage potential.	DTS/DPF 1.2 None are applicable.
PO 1.3 Development adjacent to Ramsar wetlands maintains or establishes landform and vegetated corridor links between Ramsar areas where possible.	DTS/DPF 1.3 None are applicable.
PO 1.4 Development is not detrimental to the hydrological regime of Ramsar wetlands taking into account the effects of climate change on rainfall and air temperature, including: (a) a change in volume, timing, duration and frequency of ground and surface water flows to and within the wetland (b) a change in the level of salinity, pollutants, nutrients or water temperature.	DTS/DPF 1.4 None are applicable.
PO 1.5 Development is designed to minimise the cumulative impacts on Ramsar wetlands from jetties, vegetation clearance and dredging.	DTS/DPF 1.5 None are applicable.
PO 1.6 Development does not result in the disruption of the breeding, feeding, migration or resting behaviour of an ecologically significant proportion of the population of a migratory or resident species.	DTS/DPF 1.6 None are applicable.
Land Division	
PO 2.1 Land division supports the management or improvement of the natural environment and does not result in any additional allotments within a Ramsar wetland.	DTS/DPF 2.1 None are applicable.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Regulated and Significant Tree Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome

DO 1	Conservation of regulated and significant trees to provide aesthetic and environmental benefits and mitigate tree loss.
------	---

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Tree Retention and Health	

<p>PO 1.1</p> <p>Regulated trees are retained where they:</p> <ul style="list-style-type: none"> (a) make an important visual contribution to local character and amenity (b) are indigenous to the local area and listed under the <i>National Parks and Wildlife Act 1972</i> as a rare or endangered native species and / or (c) provide an important habitat for native fauna. 	<p>DTS/DPF 1.1</p> <p>None are applicable.</p>
<p>PO 1.2</p> <p>Significant trees are retained where they:</p> <ul style="list-style-type: none"> (a) make an important contribution to the character or amenity of the local area (b) are indigenous to the local area and are listed under the <i>National Parks and Wildlife Act 1972</i> as a rare or endangered native species (c) represent an important habitat for native fauna (d) are part of a wildlife corridor of a remnant area of native vegetation (e) are important to the maintenance of biodiversity in the local environment and / or (f) form a notable visual element to the landscape of the local area. 	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
<p>PO 1.3</p> <p>A tree damaging activity not in connection with other development satisfies (a) and (b):</p> <ul style="list-style-type: none"> (a) tree damaging activity is only undertaken to: <ul style="list-style-type: none"> (i) remove a diseased tree where its life expectancy is short (ii) mitigate an unacceptable risk to public or private safety due to limb drop or the like (iii) rectify or prevent extensive damage to a building of value as comprising any of the following: <ul style="list-style-type: none"> A. a Local Heritage Place B. a State Heritage Place C. a substantial building of value <p>and there is no reasonable alternative to rectify or prevent such damage other than to undertake a tree damaging activity</p> (iv) reduce an unacceptable hazard associated with a tree within 20m of an existing residential, tourist accommodation or other habitable building from bushfire (v) treat disease or otherwise in the general interests of the health of the tree and / or (vi) maintain the aesthetic appearance and structural integrity of the tree <ul style="list-style-type: none"> (b) in relation to a significant tree, tree-damaging activity is avoided unless all reasonable remedial treatments and measures have been determined to be ineffective. 	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>
<p>PO 1.4</p> <p>A tree-damaging activity in connection with other development satisfies all the following:</p> <ul style="list-style-type: none"> (a) it accommodates the reasonable development of land in accordance with the relevant zone or subzone where such development might not otherwise be possible (b) in the case of a significant tree, all reasonable development options and design solutions have been considered to prevent substantial tree-damaging activity occurring. 	<p>DTS/DPF 1.4</p> <p>None are applicable.</p>
<p>Ground work affecting trees</p>	
<p>PO 2.1</p> <p>Regulated and significant trees, including their root systems, are not unduly compromised by excavation and / or filling of land, or the sealing of surfaces within the vicinity of the tree to support their retention and health.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
<p>Land Division</p>	
<p>PO 3.1</p> <p>Land division results in an allotment configuration that enables its subsequent development and the retention of regulated and significant trees as far as is reasonably practicable.</p>	<p>DTS/DPF 3.1</p> <p>Land division where:</p> <ul style="list-style-type: none"> (a) there are no regulated or significant trees located within or adjacent to the plan of division or (b) the application demonstrates that an area exists to accommodate subsequent development of proposed allotments after an allowance has been made for a tree protection zone around any regulated tree within and adjacent to the plan of division.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Resource Extraction Protection Area Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Protection of current and future state significant resource extraction activities by ensuring development has regard to potential environmental and amenity impacts generated by the lawful operation of proximate mines and quarries.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Protection of Strategic Resources	
<p>PO 1.1</p> <p>Long-term availability of and ability to extract resources is maintained by ensuring development involving sensitive receivers is:</p> <ul style="list-style-type: none"> (a) located away from areas which may be subject to unacceptable noise, dust or vibration emissions generated by current or future resource extraction activities or (b) able to adequately mitigate impacts of noise, dust or vibration emissions through design techniques such as: <ul style="list-style-type: none"> (i) locating residential accommodation the greatest distance practicable from the resource extraction activity (ii) placing buildings containing non-sensitive receivers between the resource extraction activity and sensitive receivers (iii) placing rooms more sensitive to air, noise and vibration impacts (e.g. bedrooms) further away from the resource extraction activity (iv) providing private or common open space adjacent a building facade that shields the space from impacts of the resource extraction activity. 	<p>DTS/DPF 1.1</p> <p>Development does not incorporate:</p> <ul style="list-style-type: none"> (a) a sensitive receiver or (b) alterations or additions to a sensitive receiver which increase the floor area of such buildings by 10% or more or (c) land division for the purposes of accommodating a sensitive receiver.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Where located within the area of the Resource Extraction Zone, all forms of development except:</p> <ul style="list-style-type: none"> (a) where the development is deemed-to-satisfy or (b) where the development is, in the opinion of the relevant authority, minor in nature and would not warrant a referral when considering the purpose of the referral or (c) any of the following classes of development <ul style="list-style-type: none"> (i) agricultural building (ii) land division for the purpose of a boundary realignment where no additional allotments are created (iii) farming (iv) fence (v) horse keeping (vi) horticulture (vii) mushroom production (viii) protective tree netting structure. 	Minister responsible for administering the Mining Acts.	To provide expert assessment and direction to the relevant authority on the potential for development to adversely impact upon the lawful continued operation of resource extraction operations.	Development of a class to which Schedule 9 clause 3 item 14 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.
<p>Where located outside of the Resource Extraction Zone, the following forms of development (including land division creating additional allotments for such uses and alterations and additions which increase the floor area of buildings accommodating the following by 10% or more):</p> <ul style="list-style-type: none"> (a) dwelling (b) residential flat building 			

- (c) tourist accommodation
- (d) boarding home
- (e) dormitory style accommodation
- (f) workers' accommodation
- (g) student accommodation
- (h) pre-school
- (i) educational establishment
- (j) retirement facility
- (k) supported accommodation
- (l) residential park
- (m) hospital.

River Murray Flood Plain Protection Area Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Conservation and protection of water quality and the riverine environment, provision for environmental water flows, the protection of life and property against flood risk, and recognition of the riverine environment as an important ecological, tourist and recreational resource.
DO 2	Development for the purpose of recreation (e.g. landings, jetties, houseboat moorings) water extraction, wetland management and irrigation management (e.g. channel, pumping stand, flood gate).

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Wastewater	
PO 1.1 Wastewater management systems result in a neutral or beneficial effect on the quality of water draining from the site.	DTS/DPF 1.1 Development results in: <ul style="list-style-type: none"> (a) a building or land use that is currently connected to an existing on-site wastewater system that is non-compliant with relevant South Australian standards being connected to a new or upgraded system that complies with such standards or (b) an existing on-site wastewater system being decommissioned and wastewater being disposed of to a sewer or community wastewater management system that complies with relevant South Australian standards.
Dredging	
PO 2.1 Development is designed and sited in a manner that limits the need for dredging.	DTS/DPF 2.1 None are applicable.
Land Division	
PO 3.1 Land division does not lead to intensification of development.	DTS/DPF 3.1 Land division is: <ul style="list-style-type: none"> (a) limited to the creation of a public road or a public reserve or (b) for adjustment of allotment boundaries to remove an anomaly in the current boundaries with respect to the location of existing buildings or structures and does not result in an additional allotment.
PO 3.2 Boundary realignment for residential purposes preserves the integrity of public waterfront reserves.	DTS/DPF 3.2 Boundary realignment for residential purposes: <ul style="list-style-type: none"> (a) locates any new roads on the landward side of an existing dwelling (rather than between an existing dwelling and the public waterfront reserve) (b) provides a reserve 50m or more in width above pool level along the water frontage.
Built Form and Character	
PO 4.1 Buildings and structures are sited and designed to be unobtrusive when viewed from the River Murray and nearby public roads.	DTS/DPF 4.1 Buildings / structures: <ul style="list-style-type: none"> (a) do not exceed one building level in height (excluding elevation to minimise the potential for personal or property damage as a result of a flood)

	<ul style="list-style-type: none"> (b) have no floor level elevated 2.5m or more above ground level (c) are not closer than 50m to the waterfront (d) have associated electricity and telecommunications lines installed underground (e) in relation to outbuildings and agricultural buildings clad in sheet metal - are pre-colour treated or painted in a non-reflective colour.
PO 4.2 Outbuildings designed and sited to minimise their visibility from the waterfront and do not dominate the appearance of public places.	DTS/DPF 4.2 None are applicable.
PO 4.3 Development setback from canals to establish a consistent character along a river front.	DTS/DPF 4.3 None are applicable.
PO 4.4 Limited use of retaining walls in the 1956 River Murray Flood Plain and in highly visible locations that can be viewed from public roads or the main channel of the River Murray to maintain the natural amenity and character along the river.	DTS/DPF 4.4 A retaining wall for one or more of the following purposes: <ul style="list-style-type: none"> (a) for the repair or replacement of a lawful retaining wall (b) to provide safe public access to the waterfront on public land (c) to protect structures and buildings of historic significance (d) to protect waterfront vegetation (e) is ancillary to a dwelling and will provide safe access to the waterfront from that dwelling (f) to protect a dwelling from material risk presented by erosion.

Flood Resilience

PO 5.1 Habitable and other valuable buildings that may be adversely affected by floodwaters and fluctuating pool levels are elevated to protect property from damage.	<p>DTS/DPF 5.1 Development incorporates finished ground and floor levels not less than:</p> <table border="1"> <thead> <tr> <th>Finished Ground and Floor Levels</th> </tr> </thead> <tbody> <tr><td>Minimum finished floor level is 2.6m AHD</td></tr> <tr><td>Minimum finished floor level is 2.0.4m AHD</td></tr> <tr><td>Minimum finished floor level is 3m AHD</td></tr> <tr><td>Minimum finished floor level is 3.45m AHD</td></tr> <tr><td>Minimum finished floor level is 4.15m AHD</td></tr> <tr><td>Minimum finished floor level is 4.35m AHD</td></tr> <tr><td>Minimum finished floor level is 5.3m AHD</td></tr> <tr><td>Minimum finished ground level is 1.7m AHD; 	Minimum finished ground level is 3.7m AHD; Minimum finished floor level is 3.95m AHD
	Minimum finished ground level is 3.75m AHD; Minimum finished floor level is 4m AHD
	Minimum finished ground level is 3m AHD; Minimum finished floor level is 3.25m AHD
	Minimum finished ground level is 4m AHD; Minimum finished floor level is 4.25m AHD
	Minimum finished ground level is 2.05m AHD; Minimum finished floor level is 2.3m AHD
	Minimum finished ground level is 2.8m AHD; Minimum finished floor level is 3.05m AHD
	Minimum finished ground level is 3.05m AHD; Minimum finished floor level is 3.3m AHD
	Minimum finished ground level is 3.8m AHD; Minimum finished floor level is 4.05m AHD
	In instances where no finished floor level value is specified, development incorporates a finished floor level at least 300mm above: <ul style="list-style-type: none"> (a) the top of the kerb level of the primary street or (b) natural ground level where there is no kerb or (c) the height of a 1% AEP flood event whichever is the greater.
PO 5.2 Development avoids the need for coast protection works through measures such as setbacks to protect development from coastal erosion, sea or stormwater flooding, sand drift or other coastal processes.	DTS/DPF 5.2 None are applicable.
PO 5.3 Dwellings and dwelling additions or alterations do not impede floodwaters and fluctuating pool levels.	DTS/DPF 5.3 Dwellings and additions or alterations to dwellings satisfy (a) or (b): <ul style="list-style-type: none"> (a) are located outside the 1956 River Murray Flood Plain (b) are elevated and the undercroft area: <ul style="list-style-type: none"> (i) is wholly open (there are no enclosures) or <ul style="list-style-type: none"> (ii) incorporates an enclosure within the undercroft in accordance with all the following: <ul style="list-style-type: none"> A. there are no habitable rooms B. each enclosed space is formed by roller doors, removable panels or other measures that can be easily opened or removed during times of flood C. the total combined enclosed area does not or will not exceed 15m²
PO 5.4 Outbuildings do not impede floodwaters and fluctuating pool levels.	DTS/DPF 5.4 Outbuildings are: <ul style="list-style-type: none"> (a) fitted with roller doors, removable panels or similar on two ends or sides (whichever elevations face the direction of the river flow) (b) constructed at natural ground level.
PO 5.5 Fencing does not impede floodwaters and fluctuating pool levels.	DTS/DPF 5.5 Fencing is of an open design such as post and wire strand construction.
Environmental Protection	
PO 6.1 Adverse impacts on the natural features and stability of the waterfront are minimised.	DTS/DPF 6.1 None are applicable.
PO 6.2 Development incorporates buffer areas to protect the river and associated natural features such as wetlands and native vegetation.	DTS/DPF 6.2 None are applicable.
PO 6.3 Modification to the natural landform, including land reclamation, is avoided or minimised to prevent impacts on natural features, natural flow paths, floodwaters and the stability of the waterfront.	DTS/DPF 6.3 None are applicable.
PO 6.4 Fuel storage facilities and areas, including areas for the storage of mobile fuel trailers, are sited and designed to prevent environmental harm.	DTS/DPF 6.4 Fuel storage facilities and areas, including areas for the storage of mobile fuel trailers, are located: 4469

	<ul style="list-style-type: none"> (a) outside the 1956 River Murray Flood Plain (b) wholly within a bund that has storage capacity of 133% or more of the volume of the largest fuel storage tank.
PO 6.5 Facilities for the collection of effluent from moored vessels are sited and designed to prevent environmental harm.	DTS/DPF 6.5 None are applicable.
Access	
PO 7.1 Waterfront reserve areas between buildings and the water are maximised to preserve the amenity of view corridors along the riverine environment.	DTS/DPF 7.1 None are applicable.
PO 7.2 Public access routes to waterfront reserves are provided and maintained.	DTS/DPF 7.2 None are applicable.
PO 7.3 Driveways, access tracks and parking areas are designed and constructed to minimise excavation and filling.	DTS/DPF 7.3 No more than 100mm excavation and 100mm of fill is required in association with the construction of a driveway, access track or parking area.
River Structures	
PO 8.1 River structures are located where they do not cause a hazard to safe navigation.	DTS/DPF 8.1 River structures are located: <ul style="list-style-type: none"> (a) wholly outside navigation channels as defined by navigational signs (b) 100m or more from either side of a ferry crossing (c) 150m or more from a lock.
PO 8.2 River structures are located where they do not cause a hazard to a designated recreation area for water skiing and swimming.	DTS/DPF 8.2 River structures are located wholly outside designated recreation areas for water skiing and swimming.
PO 8.3 Proliferation of water pumps is avoided to limit impact on the riverine environment.	DTS/DPF 8.3 None are applicable.
PO 8.4 Water pumping infrastructure is designed and constructed to limit impact on the riverine environment.	DTS/DPF 8.4 Water pumping infrastructure is designed and constructed in accordance with Figure 1.
PO 8.5 Proliferation of jetties and floating pontoons is avoided to minimise impact on the riverine environment.	DTS/DPF 8.5 Jetties and floating pontoons are: <ul style="list-style-type: none"> (a) ancillary to a dwelling (b) limited to one jetty or floating pontoon per dwelling (c) located on the same allotment as the associated dwelling or (d) are separated from the allotment (or lease site) accommodating the associated dwelling by a public reserve or a public road (but not both) or (e) are for the repair, maintenance or replacement of an existing licensed river structure.
PO 8.6 Jetties and floating pontoons are designed and constructed to limit impact on the riverine environment.	DTS/DPF 8.6 Jetties and floating pontoons: <ul style="list-style-type: none"> (a) extend not more than 8m into the river measured from the riverbank at normal pool level (b) have a width of not more than 1.4m in the case of a jetty (or gangway width in the case of a floating pontoon) (c) in the case of floating pontoons, do not exceed the dimensions 3m by 6m (d) maintain a minimum of 3m between river structures including other jetties and pontoons.
PO 8.7 A proliferation of boat ramps is avoided to minimise impact on the riverine environment.	DTS/DPF 8.7 The repair, maintenance or replacement of an existing licensed boat ramp.
PO 8.8 On-river mooring facilities are developed only where: <ul style="list-style-type: none"> (a) the mooring facility will not result in a mooring capacity exceeding one vessel per allotment (b) where the allotment has a direct frontage to the river (or is only separated by a public road or public reserve, but not both) and the allotment contains an existing dwelling (c) the width of the river is greater than 100m at normal pool level. 	DTS/DPF 8.8 None are applicable.
PO 8.9	DTS/DPF 8.9

<p>Moorings for vessels are located to avoid interfering with the operation or function of a ferry crossing, lock or major pumping station.</p>	<p>Moorings for vessels not located within:</p> <ul style="list-style-type: none"> (a) 100m of either side of a ferry crossing (b) 150m of a lock (c) 400m of a major pumping station.
<p>PO 8.10 Development of structures designed for the mooring of more than one vessel are located off-channel in a marina.</p>	<p>DTS/DPF 8.10 None are applicable.</p>

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Any of the following classes of development, except where the development is, in the opinion of the relevant authority, minor in nature and would not warrant a referral when considering the purpose of the referral:</p> <ul style="list-style-type: none"> (a) development comprising the erection, construction, modification, enlargement or removal of a dam, wall or other structure that will collect or divert, or collects or diverts water flowing in a watercourse or surface water flowing over land (b) horticulture (c) activities requiring irrigation, other than irrigation used for domestic purposes (d) aquaculture (e) industry (f) intensive animal husbandry (g) horse keeping (h) commercial forestry (i) development that is within the ambit of clause 7 of Schedule 3 of the <i>Planning, Development and Infrastructure (General) Regulations 2017</i> (j) the construction of a building, or the undertaking of an act or activity specified in clause 3 of Schedule 3 of the <i>Planning, Development and Infrastructure (General) Regulations 2017</i>, other than where the development:- <ul style="list-style-type: none"> (i) is the construction of a fence not exceeding 2m in height or (ii) is the construction of a carport, verandah, balcony, porch or other similar structure or (iii) is the construction of an agricultural building, enclosed shed, garage or similar outbuilding- <ul style="list-style-type: none"> A. that is ancillary to an existing building B. that will not have a total floor area of more than 100m² C. that is located outside the 1956 River Murray Flood Plain or will have on opposite sides either removable panels or at least 2 doors so as not to impede flood waters D. that will not be located closer to the River Murray than an existing dwelling or (iv) comprises an alteration or extension of an existing dwelling that in the opinion of the relevant authority is minor and where any extension of the dwelling will not result in a part of the dwelling being closer to the River Murray or (v) is the construction of an aboveground or inflatable swimming pool, or a spa pool, or an in-ground swimming pool located outside the 1956 River Murray Flood Plain (k) land division classified as restricted by the Planning and Design Code (l) land division that results in: <ul style="list-style-type: none"> (i) 4 or more additional allotments (ii) 4 or more additional grants of occupancy (by the conferral or exercise of a right to occupy part only of an allotment) or (iii) a mix of 4 or more additional allotments and separate grants of occupancy (m) land division that involves the creation of a new allotment or grant of occupancy where any part of the boundary of the new allotment or occupancy will have a frontage to a part of the River Murray system (n) alteration of the boundaries of an allotment so as to result in: <ul style="list-style-type: none"> (i) the allotment having a frontage to a part of the River Murray system or (ii) the allotment having an increase in its frontage to a part of the River Murray system. 	<p>Minister responsible for administration of the <i>River Murray Act 2003</i>.</p>	<p>To provide expert assessment and direction to the relevant authority on potential impacts from development on the health of the River Murray system, its natural flow regime (including floodwaters), water quality, and cultural heritage.</p>	<p>Development of a class to which Schedule 9 clause 3 item 15 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>

<p>Development that generates human wastewater from a peak loading capacity of more than 40 persons or more than 6000 litres/day and is not connected to a community wastewater management system or sewerage infrastructure.</p>	<p>Environment Protection Authority</p> <p>To provide expert assessment and direction to the relevant authority on potential impacts to water quality in the River Murray system from pollutants discharged into any waters or onto land in a place that is reasonably likely to impact the quality of drinking water.</p>	<p>Development of a class to which Schedule 9 clause 3 item 9 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>
<p>Any pontoons, jetties, piers or other structures (whether on water or land) designed or used to provide moorings or dry storage for 5 or more vessels at any 1 time</p>		
<p>Vessel refuelling facility</p>		
<p>Vessel sewage pump-out facility.</p>		
<p>Composting works (excluding a prescribed approved activity) - being a depot, facility or works with the capacity to treat, during a 12 month period more than 200 tonnes of organic waste or matter. (EPA Licence)</p>		
<p>Wastewater treatment works - being sewage treatment works, a community wastewater management system, winery wastewater treatment works or any other wastewater treatment works with the capacity to treat, during a 12 month period, more than 2.5ML of wastewater. (EPA Licence required at more than 5 ML)</p>		
<p>Feedlots - being carrying on an operation for holding in confined yard or area and feeding principally by mechanical means or by hand not less than an average of 200 cattle (EPA Licence) or 1,600 sheep or goats per day over any period of 12 months, but excluding any such operation carried on at an abattoir, slaughterhouse or saleyard or for the purpose only of drought or other emergency feeding.</p>		
<p>Piggeries - being the conduct of a piggery (being premises having confined or roofed structures for keeping pigs) with a capacity of 130 or more standard pig units. (EPA licence required at 650 or more standard pig units)</p>		
<p>Dairies - being the carrying on of a dairy with a total processing capacity exceeding more than 100 milking animals at any 1 time.</p>

River Murray Tributaries Protection Area Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Sustainable water use and conservation of riverine environments within the River Murray Tributaries area.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
PO 1.1 Development comprising the erection, construction, modification, enlargement or removal of a dam, wall or other structure that will collect or divert surface water flowing over land is undertaken in a manner that maintains the quality and quantity of flows required to meet the needs of the environment and downstream users.	DTS/DPF 1.1 None are applicable.
PO 1.2 All development, but in particular development involving any of the following:	DTS/DPF 1.2 None are applicable.

<ul style="list-style-type: none"> (a) activities requiring irrigation (b) aquaculture (c) commercial forestry (d) horticulture (e) industry (f) intensive animal husbandry <p>has a lawful, sustainable and reliable water supply that does not place undue strain on water resources in prescribed surface water areas.</p>	
Land Division	
<p>PO 2.1</p> <p>Land division does not lead to the intensification of development to a level that would have a negative impact on the health or natural flow paths of the River Murray Tributaries.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
<p>PO 2.2</p> <p>Land division, including boundary realignment, preserves the integrity of the public waterfront of the River Murray system by limiting the number of allotments having a frontage (or extent of frontage) to that system.</p>	<p>DTS/DPF 2.2</p> <p>Land division does not result in any of the following:</p> <ul style="list-style-type: none"> (a) an increase in allotments having a frontage to a part of the River Murray system (b) an increase in the frontage of an allotment or allotments to a part of the River Murray system.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Any of the following classes of development, except where the development is, in the opinion of the relevant authority, minor in nature and would not warrant a referral when considering the purpose of the referral:</p> <ul style="list-style-type: none"> (a) development that comprises the erection, construction, modification, enlargement or removal of a dam, wall or other structure that will collect or divert, or collects or diverts water flowing in a watercourse or surface water flowing over land (b) horticulture (c) activities requiring irrigation, other than irrigation used for domestic purposes (d) aquaculture (e) intensive animal husbandry (f) horse keeping (g) commercial forestry (h) land division classified as <i>restricted</i> by the Planning and Design Code (i) land division that results in: <ul style="list-style-type: none"> (i) 4 or more additional allotments or (ii) 4 or more additional grants of occupancy (by the conferral or exercise of a right to occupy part only of an allotment) or (iii) a mix of 4 or more additional allotments and separate grants of occupancy (j) land division that involves the creation of a new allotment or grant of occupancy where any part of the boundary of the new allotment or occupancy will have a frontage to a part of the River Murray system (k) alteration of the boundaries of an existing allotment so as to result in: <ul style="list-style-type: none"> (i) the allotment having a frontage to a part of the River Murray system or (ii) the allotment having an increase in its frontage to a part of the River Murray system. 	<p>Minister responsible for the administration of the <i>River Murray Act 2003</i>.</p>	<p>To provide expert assessment and direction to the relevant authority on potential impacts from development on the health of the River Murray system, its natural flow regime (including floodwaters), water quality and cultural heritage.</p>	<p>Development of a class to which Schedule 9 clause 3 item 16 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>

Scenic Quality Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development complements natural and rural character, and areas of scenic value.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Feature	
Land Use and Intensity	
PO 1.1 Land uses that complement and enhance the natural and rural character.	DTS/DPF 1.1 None are applicable.
Built Form and Character	
PO 2.1 Development is carefully sited and designed to: (a) complement rural or natural character (b) minimise disruption to natural landform (c) integrate existing natural environmental features (d) minimise impacts on scenic features (e) be low-scale (f) be visually unobtrusive and blend in with the surrounding area	DTS/DPF 2.1 None are applicable.
Landscaping	
PO 3.1 Landscaping comprises locally indigenous species to enhance landscape quality and habitat restoration.	DTS/DPF 3.1 Landscaping plantings exclusively constitute locally indigenous plant species.
Earthworks	
PO 4.1 Excavation and filling of land is limited to that required to reduce the visual prominence of buildings and make provision for water storage facilities to maintain natural landforms and landscapes.	DTS/DPF 4.1 Excavation and/or filling is associated with a building or water storage facility and satisfies all of the following: (a) does not involve excavation exceeding a vertical height of 750mm (b) does not involve filling exceeding a vertical height of 750mm (c) does not involve a total combined excavation and filling vertical height of 1.5m (d) any scree slope is covered in topsoil and landscaped.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Significant Interface Management Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	The prevention of the establishment of new, and intensification of sensitive receivers to mitigate community exposure to potential adverse hazards and environmental and amenity impacts generated by the lawful operation of proximate significant activities.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Intensification of sensitive uses and / or sensitive receivers is not undertaken to avoid increasing resident or community exposure to potential adverse hazards or emissions unless: (a) each source of adverse hazard or emission has ceased operation or (b) it can be demonstrated that the site of the proposed development is not unreasonably impacted by the hazard or emissions from a relevant source, including as a result of	DTS/DPF 1.1 Development does not comprise a sensitive use and / or sensitive receiver unless: (a) it is a replacement dwelling where the total floor area is no greater than the existing or previous dwelling (b) each source of hazard and /or emissions has ceased to operate or has been superseded by another use such that it cannot be revived.

environmental or operational improvements that have been or will be made to reduce the hazard or emissions from each source to an acceptable level.	
PO 1.2 Alterations and additions to sensitive receivers support ongoing activity without leading to an increase in resident or community exposure to unacceptable levels of hazard, noise, dust, odour or other emissions.	DTS/DPF 1.2 Alterations and additions where: (a) associated with a dwelling, do not increase the total floor area by more than 10% taking into account any previous alteration or addition (b) associated with any other sensitive receivers, do not increase the on-site capacity of the service or facility.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Significant Landscape Protection Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Conservation of the natural and rural character and scenic and cultural qualities of significant landscapes.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Land use intensity is restrained to conserve and enhance natural and rural character.	DTS/DPF 1.1 None are applicable.
PO 1.2 Development inconsistent with conserving significant natural and rural landscapes is not undertaken.	DTS/DPF 1.2 Development does not include any of the following (or any combination of any of the following): (a) renewable energy facility (other than roof mounted solar photovoltaic panels) (b) large-scale industry, storage, distribution, warehousing (c) intensive animal husbandry.
Built Form and Character	
PO 2.1 Development is carefully sited and designed to: (a) complement rural or natural character (b) minimise disruption to natural landform (c) integrate existing natural environmental features, including native vegetation (d) minimise impacts on wildlife habitat (e) be low-scale (f) be visually unobtrusive and blend in with the surrounding area (g) be located below ridge lines.	DTS/DPF 2.1 None are applicable.
PO 2.2 Buildings and structures are limited to those that: (a) are ancillary, adjacent to, and of the same or lesser scale as existing buildings (b) support desired outcomes of the relevant zone or subzone (c) are used for the ancillary sale of produce associated with a pastoral or rural activity (d) are in the form of high-quality, nature-based tourist accommodation (e) are for rainwater storage (f) are for research or education purposes (g) support conservation or the interpretation of the environment or cultural features.	DTS/DPF 2.2 None are applicable.
Landscaping	
PO 3.1	DTS/DPF 3.1

Landscaping comprises locally indigenous species to enhance landscape quality and habitat restoration.	Landscaping plantings exclusively constitute locally indigenous plant species.
Earthworks	
<p>PO 4.1</p> <p>Excavation and filling of land is limited to that associated with:</p> <ul style="list-style-type: none"> (a) minimising the visual impact of buildings (b) construction of water storage facilities. 	<p>DTS/DPF 4.1</p> <p>Excavation and/or filling meets the following:</p> <ul style="list-style-type: none"> (a) it is in connection with a building or water storage facility (b) does not involve excavation exceeding a vertical height of 0.75m (c) does not involve filling exceeding a vertical height of 0.75m (d) does not involve a total combined excavation and filling vertical height of 1.5m (e) any scree slope is covered in topsoil and landscaped with locally indigenous plant species.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

State Heritage Area Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development maintains the heritage and cultural values of State Heritage Areas through conservation, ongoing use and adaptive reuse consistent with Statements of Significance and other relevant documents prepared and published by the administrative unit of the Public Service that is responsible for assisting a Minister in the administration of the <i>Heritage Places Act 1993</i> .

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Built Form	
<p>PO 1.1</p> <p>The form of new buildings and structures that are visible from the public realm are consistent with the heritage values and characteristics of the State Heritage Area.</p>	<p>DTS/DPF 1.1</p> <p>None are applicable.</p>
<p>PO 1.2</p> <p>Development is consistent with the prevailing building and ceiling heights in the State Heritage Area.</p>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
<p>PO 1.3</p> <p>Design and architectural detailing of street facing buildings is consistent with the prevailing characteristics expressed in the State Heritage Area.</p>	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>
<p>PO 1.4</p> <p>Development is consistent with the prevailing front and side boundary setback pattern in the State Heritage Area.</p>	<p>DTS/DPF 1.4</p> <p>None are applicable.</p>
<p>PO 1.5</p> <p>Materials are consistent with or complement those within the State Heritage Area.</p>	<p>DTS/DPF 1.5</p> <p>None are applicable.</p>
Alterations and Additions	
<p>PO 2.1</p> <p>Alterations and additions complement the subject building and are sited to ensure they do not dominate the primary façade or streetscape and employ a contextual design approach.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
<p>PO 2.2</p> <p>Adaptive reuse and revitalisation of heritage buildings and places to support their retention in a manner that respects and references the heritage values of the State Heritage Area.</p>	<p>DTS/DPF 2.2</p> <p>None are applicable.</p>

Ancillary Development	
PO 3.1 Ancillary development, including carports, outbuildings and garages, complements the heritage values of the State Heritage Area.	DTS/DPF 3.1 None are applicable.
PO 3.2 Ancillary development, including carports, outbuildings and garages, is located behind the building line of the principal building(s).	DTS/DPF 3.2 None are applicable.
PO 3.3 Advertising and advertising hoardings are designed to complement the State Heritage Area, be unobtrusive, be below the parapet line, not conceal or obstruct heritage elements and detailing, or dominate the building or the setting of the State Heritage Area.	DTS/DPF 3.3 None are applicable
PO 3.4 Fencing and gates are consistent with the heritage values of the State Heritage Area.	DTS/DPF 3.4 None are applicable.
Land Division	
PO 4.1 Land division creates allotments that: (a) are compatible with the surrounding pattern of subdivision of the State Heritage Area (b) are of a dimension to accommodate new development that reinforces and is compatible with the heritage values of the State Heritage Area.	DTS/DPF 4.1 None are applicable.
Landscape Context and Streetscape Amenity	
PO 5.1 Street trees, kerbing, footpaths and other features that contribute to the historic value of the State Heritage Area are maintained unless: (a) trees / plantings are, or have the potential to be, a danger to life or property or (b) trees / plantings are significantly diseased and their life expectancy is short.	DTS/DPF 5.1 None are applicable.
Demolition	
PO 6.1 Buildings and other features of identified heritage value within a State Heritage Area are not demolished, destroyed or removed in total or in part unless: (a) the portion of any building or other feature is determined to not contribute to the heritage value of the State Heritage Area or (b) the structural condition of the building represents an unacceptable risk to public or private safety and results from actions and unforeseen events beyond the control of the owner and is irredeemably beyond repair.	DTS/DPF 6.1 None are applicable.
Conservation Works	
PO 7.1 Conservation works to the exterior of buildings and other features of identified heritage value match original materials to be repaired and utilise traditional work methods.	DTS/DPF 7.1 Conservation works involving: (a) replacement of roof materials, guttering or downpipes with the same or substantially the same materials and detailing (b) replacement of timber building elements (structural or decorative) with the same or substantially the same material, dimension and detailing; or brick and stone repair/ repointing to match original.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Except where:</p> <p>(a) the development is to be undertaken in accordance with a Heritage Agreement under the Heritage Places Act 1993 or</p> <p>(b) the development is, in the opinion of the relevant authority, minor in nature or like for like maintenance and would not warrant a referral when considering the purpose of the referral</p> <p>any of the following classes of development:</p> <p>(a) demolition of external building fabric and other features of identified heritage value within the State Heritage Area</p> <p>(b) freestanding advertisements, signs and associated structures that are</p>	<p>Minister responsible for the administration of the <i>Heritage Places Act 1993</i>.</p>	<p>To provide expert assessment and direction to the relevant authority on the potential impacts of development on State Heritage Areas.</p>	<p>Development of a class to which Schedule 9 clause 3 item 17 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>

<p>visible from a public street, road or thoroughfare within the State Heritage Area</p> <p>(c) alterations or additions to buildings and other features of identified heritage value that:</p> <ul style="list-style-type: none"> (i) are visible from a public street, road or thoroughfare within the State Heritage Area or (ii) are visually dominant within the State Heritage Area or (iii) involve substantive physical impact to the fabric of significant buildings <p>(d) new buildings that:</p> <ul style="list-style-type: none"> (i) are visible from a public street, road or thoroughfare within the State Heritage Area or (ii) are visually dominant within the State Heritage Area <p>(e) conservation repair works that are not representative of 'like for like' maintenance</p> <p>(f) solar panels that are visible from a public street, road or thoroughfare within the State Heritage Area</p> <p>(g) land division</p> <p>(h) the removal, alteration or installation of fencing where visible from a public street, road or thoroughfare within the State Heritage Area</p> <p>(i) the removal of an individual tree or a tree within a garden or park of identified heritage significance within the State Heritage Area.</p>

State Heritage Place Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development maintains the heritage and cultural values of State Heritage Places through conservation, ongoing use and adaptive reuse consistent with Statements of Significance and other relevant documents prepared and published by the administrative unit of the Public Service that is responsible for assisting a Minister in the administration of the <i>Heritage Places Act 1993</i> .

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Built Form	
PO 1.1 The form of new buildings and structures maintains the heritage values of the State Heritage Place.	DTS/DPF 1.1 None are applicable.
PO 1.2 Massing, scale and siting of development maintains the heritage values of the State Heritage Place.	DTS/DPF 1.2 None are applicable.
PO 1.3 Design and architectural detailing (including but not limited to roof pitch and form, openings, chimneys and verandahs) maintains the heritage values of the State Heritage Place.	DTS/DPF 1.3 None are applicable.
PO 1.4 Development is consistent with boundary setbacks and setting.	DTS/DPF 1.4 None are applicable.
PO 1.5 Materials and colours are either consistent with or complement the heritage values of the State Heritage Place.	DTS/DPF 1.5 None are applicable.
PO 1.6 New buildings and structures are not placed or erected between the primary and secondary street boundaries and the façade of a State Heritage Place.	DTS/DPF 1.6 None are applicable.
PO 1.7 Development of a State Heritage Place retains elements contributing to its heritage value.	DTS/DPF 1.7 None are applicable.

Alterations and Additions	
<p>PO 2.1</p> <p>Alterations and additions complement the State Heritage Place and are sited to be unobtrusive, not conceal or obstruct heritage features and detailing, or dominate the State Heritage Place or its setting.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
<p>PO 2.2</p> <p>Adaptive reuse and revitalisation of State Heritage Places to support their retention in a manner that respects and references the original use of the State Heritage Place.</p>	<p>DTS/DPF 2.2</p> <p>None are applicable.</p>
Ancillary Development	
<p>PO 3.1</p> <p>Ancillary development, including carports, outbuildings and garages, complement the heritage values of the State Heritage Place.</p>	<p>DTS/DPF 3.1</p> <p>None are applicable.</p>
<p>PO 3.2</p> <p>Ancillary development, including carports, outbuildings and garages, is located behind the building line of the State Heritage Place.</p>	<p>DTS/DPF 3.2</p> <p>None are applicable.</p>
<p>PO 3.3</p> <p>Advertising and advertising hoardings are designed and located to complement the State Heritage Place, be unobtrusive, be below the parapet line, not conceal or obstruct heritage elements and detailing, or dominate the building or the setting.</p>	<p>DTS/DPF 3.3</p> <p>None are applicable.</p>
<p>PO 3.4</p> <p>Fencing and gates closer to a street boundary (other than a laneway) than the street elevation of the associated building are consistent with the traditional period, style and form of the State Heritage Place.</p>	<p>DTS/DPF 3.4</p> <p>None are applicable.</p>
Land Division	
<p>PO 4.1</p> <p>Land division creates allotments that:</p> <ul style="list-style-type: none"> (a) maintain the heritage values of the State Heritage Place, including setting (b) are of a dimension to accommodate new development that reinforces and is compatible with the heritage values of the State Heritage Place. 	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>
Landscape Context and Streetscape Amenity	
<p>PO 5.1</p> <p>Individually heritage listed trees, parks, historic gardens and memorial avenues retained unless:</p> <ul style="list-style-type: none"> (a) trees / plantings are, or have the potential to be, a danger to life or property or (b) trees / plantings are significantly diseased and their life expectancy is short. 	<p>DTS/DPF 5.1</p> <p>None are applicable.</p>
Demolition	
<p>PO 6.1</p> <p>State Heritage Places are not demolished, destroyed or removed in total or in part unless either of the following apply:</p> <ul style="list-style-type: none"> (a) the portion of the State Heritage Place to be demolished, destroyed or removed is excluded from the extent of listing that is of heritage value or (b) the structural condition of the State Heritage Place represents an unacceptable risk to public or private safety and results from actions and unforeseen events beyond the control of the owner and is irredeemably beyond repair. 	<p>DTS/DPF 6.1</p> <p>None are applicable.</p>
Conservation Works	
<p>PO 7.1</p> <p>Conservation works to the exterior and interior of a State Heritage Place and other features of identified heritage value match original materials to be repaired and utilise traditional work methods.</p>	<p>DTS/DPF 7.1</p> <p>None are applicable.</p>

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Except where:</p> <ul style="list-style-type: none"> (a) the development is to be undertaken in accordance with a Heritage Agreement under the <i>Heritage Places Act 1993</i> or 	<p>Minister responsible for the administration of the <i>Heritage Places Act 1993</i>.</p>	<p>To provide expert assessment and direction to the relevant authority on the potential impacts of development on State Heritage Places.</p>	<p>Development of a class to which Schedule 9 clause 3 item</p>

<p>(b) the development is, in the opinion of the relevant authority, minor in nature or like for like maintenance and would not warrant a referral when considering the purpose of the referral</p> <p>any of the following classes of development:</p> <p>(a) demolition of internal or external significant building fabric</p> <p>(b) freestanding advertisements, signs and associated structures that are visible from a public street, road or thoroughfare that abuts the State Heritage Place</p> <p>(c) alterations or additions to buildings that:</p> <p>(i) are visible from a public street, road or thoroughfare that abuts the State Heritage Place or</p> <p>(ii) may materially affect the context of a State Heritage Place or</p> <p>(iii) involve substantive physical impact to the fabric of significant buildings;</p> <p>(d) new buildings that:</p> <p>(i) are visible from a public street, road or thoroughfare that abuts the State Heritage Place or</p> <p>(ii) may materially affect the context of the State Heritage Place</p> <p>(e) conservation repair works that are not representative of 'like for like' maintenance</p> <p>(f) solar panels that are visible from a public street, road or thoroughfare that abuts the State Heritage Place</p> <p>(g) land division</p> <p>(h) the removal, alteration or installation of fencing where visible from a public street, road or thoroughfare that abuts the State Heritage Place</p> <p>(i) the removal of an individual tree or a tree within a garden or park of identified heritage significance.</p>		<p>17 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>

State Significant Native Vegetation Areas Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Protect, retain and restore significant areas of native vegetation.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Environmental Protection	
<p>PO 1.1</p> <p>Development enhances biodiversity and habitat values through revegetation and avoiding native vegetation clearance except to promote an appreciation and awareness of wildlife areas, including visitor parking and amenities, or for the administration and management of a reserve or park established for the protection and conservation of wildlife.</p>	<p>DTS/DPF 1.1</p> <p>An application is accompanied by either (a) or (b):</p> <p>(a) a declaration stating that the proposal will not, or would not, involve clearance of native vegetation under the <i>Native Vegetation Act 1991</i>, including any clearance that may occur:</p> <p>(i) in connection with a relevant access point and / or driveway</p> <p>(ii) within 10m of a building (other than a residential building or tourist accommodation)</p> <p>(iii) within 20m of a dwelling or addition to an existing dwelling for fire prevention and control</p> <p>(iv) within 50m of residential or tourist accommodation in connection with a requirement under a relevant overlay to establish an asset protection zone in a bushfire prone area</p> <p>(b) a report prepared in accordance with Regulation 18(2)(a) of the <i>Native Vegetation Regulations 2017</i> that confirms that the clearance is categorised as 'Level 1 clearance'.</p>
Land division	
<p>PO 2.1</p> <p>Land division that contributes to the conservation, protection and enhancement of native vegetation.</p>	<p>DTS/DPF 2.1</p> <p>Land division satisfies one of the following:</p> <p>(a) to create a public road or a public reserve where the application is accompanied by a report prepared in accordance with Regulation 18(2)(a) of the <i>Native Vegetation Regulations 2017</i>.</p>

Regulations 2017 in which the extent of native vegetation clearance proposed to be undertaken in connection with the division is categorised as 'Level 1 clearance'
 (b) to realign allotment boundaries to incorporate land into a park or reserve established under the *National Parks and Wildlife Act 1972*.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
The following classes of development: (a) land division where a report prepared in accordance with Regulation 18(2)(a) of the <i>Native Vegetation Regulations 2017</i> in connection with a development application categorises the clearance, or potential clearance, as 'Level 2 clearance', 'Level 3 clearance' or 'Level 4 clearance' (b) all other classes of development other than where DTS/DPF 1.1(a) is achieved.	Native Vegetation Council	To provide expert assessment and direction to the relevant authority on the potential impacts of development on native vegetation.	Development of a class to which Schedule 9 clause 3 item 11 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

Stormwater Management Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development incorporates water sensitive urban design techniques to capture and re-use stormwater.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature												
PO 1.1 Residential development is designed to capture and re-use stormwater to: (a) maximise conservation of water resources (b) manage peak stormwater runoff flows and volume to ensure the carrying capacities of downstream systems are not overloaded (c) manage stormwater runoff quality.	DTS/DPF 1.1 Residential development comprising detached, semi-detached or row dwellings, or less than 5 group dwellings or dwellings within a residential flat building: (a) includes rainwater tank storage: (i) connected to at least: A. in relation to a detached dwelling (not in a battle-axe arrangement), semi-detached dwelling or row dwelling, 60% of the roof area B. in all other cases, 80% of the roof area (ii) connected to either a toilet, laundry cold water outlets or hot water service for sites less than 200m ² (iii) connected to one toilet and either the laundry cold water outlets or hot water service for sites of 200m ² or greater (iv) with a minimum total capacity in accordance with Table 1 (v) where detention is required, includes a 20-25 mm diameter slow release orifice at the bottom of the detention component of the tank (b) incorporates dwelling roof area comprising at least 80% of the site's impervious area Table 1: Rainwater Tank <table border="1"> <thead> <tr> <th>Site size (m²)</th> <th>Minimum retention volume (Litres)</th> <th>Minimum detention volume (Litres)</th> </tr> </thead> <tbody> <tr> <td><200</td> <td>1000</td> <td>1000</td> </tr> <tr> <td>200-400</td> <td>2000</td> <td>Site perviousness <30%: 1000 Site perviousness ≥30%: N/A</td> </tr> <tr> <td>>401</td> <td>4000</td> <td>Site perviousness <35%: 1000</td> </tr> </tbody> </table>	Site size (m ²)	Minimum retention volume (Litres)	Minimum detention volume (Litres)	<200	1000	1000	200-400	2000	Site perviousness <30%: 1000 Site perviousness ≥30%: N/A	>401	4000	Site perviousness <35%: 1000
Site size (m ²)	Minimum retention volume (Litres)	Minimum detention volume (Litres)											
<200	1000	1000											
200-400	2000	Site perviousness <30%: 1000 Site perviousness ≥30%: N/A											
>401	4000	Site perviousness <35%: 1000											

Site perviousness ≥35%: N/A

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Traffic Generating Development Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Safe and efficient operation of Urban Transport Routes and Major Urban Transport Routes for all road users.
DO 2	Provision of safe and efficient access to and from urban transport routes and major urban transport routes.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Traffic Generating Development	
<p>PO 1.1</p> <p>Development designed to minimise its potential impact on the safety, efficiency and functional performance of the State Maintained Road network.</p>	<p>DTS/DPF 1.1</p> <p>Access is obtained directly from a State Maintained Road where it involves any of the following types of development:</p> <ul style="list-style-type: none"> (a) land division creating 50 or more additional allotments (b) commercial development with a gross floor area of 10,000m2 or more (c) retail development with a gross floor area of 2,000m2 or more (d) a warehouse or transport depot with a gross leasable floor area of 8,000m2 or more (e) industry with a gross floor area of 20,000m2 or more (f) educational facilities with a capacity of 250 students or more.
<p>PO 1.2</p> <p>Access points sited and designed to accommodate the type and volume of traffic likely to be generated by development.</p>	<p>DTS/DPF 1.2</p> <p>Access is obtained directly from a State Maintained Road where it involves any of the following types of development:</p> <ul style="list-style-type: none"> (a) land division creating 50 or more additional allotments (b) commercial development with a gross floor area of 10,000m2 or more (c) retail development with a gross floor area of 2,000m2 or more (d) a warehouse or transport depot with a gross leasable floor area of 8,000m2 or more (e) industry with a gross floor area of 20,000m2 or more (f) educational facilities with a capacity of 250 students or more.
<p>PO 1.3</p> <p>Sufficient accessible on-site queuing provided to meet the needs of the development so that queues do not impact on the State Maintained Road network.</p>	<p>DTS/DPF 1.3</p> <p>Access is obtained directly from a State Maintained Road where it involves any of the following types of development:</p> <ul style="list-style-type: none"> (a) land division creating 50 or more additional allotments (b) commercial development with a gross floor area of 10,000m2 or more (c) retail development with a gross floor area of 2,000m2 or more (d) a warehouse or transport depot with a gross leasable floor area of 8,000m2 or more (e) industry with a gross floor area of 20,000m2 or more (f) educational facilities with a capacity of 250 students or more.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Except where all of the relevant deemed-to-satisfy criteria are met, any of the following classes of development that are proposed within 250m of a State Maintained Road:</p> <ul style="list-style-type: none"> (a) land division creating 50 or more additional allotments (b) commercial development with a gross floor area of 10,000m² or more (c) retail development with a gross floor area of 2,000m² or more (d) a warehouse or transport depot with a gross leasable floor area of 8,000m² or more (e) industry with a gross floor area of 20,000m² or more (f) educational facilities with a capacity of 250 students or more. 	Commissioner of Highways.	To provide expert technical assessment and direction to the Relevant Authority on the safe and efficient operation and management of all roads relevant to the Commissioner of Highways as described in the Planning and Design Code.	Development of a class to which Schedule 9 clause 3 item 7 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

Urban Transport Routes Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Safe and efficient operation of Urban Transport Routes for all road users.
DO 2	Provision of safe and efficient access to and from Urban Transport Routes.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Access - Safe Entry and Exit (Traffic Flow)	
<p>PO 1.1</p> <p>Access is designed to allow safe entry and exit to and from a site to meet the needs of development and minimise traffic flow interference associated with access movements along adjacent State maintained roads.</p>	<p>DTS/DPF 1.1</p> <p>An access point satisfies (a), (b) or (c):</p> <ul style="list-style-type: none"> (a) where servicing a single (1) dwelling / residential allotment: <ul style="list-style-type: none"> (i) it will not result in more than one access point (ii) vehicles can enter and exit the site in a forward direction (iii) vehicles can cross the property boundary at an angle between 70 degrees and 90 degrees (iv) passenger vehicles (with a length up to 5.2m) can enter and exit the site wholly within the kerbside lane of the road (v) it will have a width of between 3m and 4m (measured at the site boundary) (b) where the development will result in 2 and up to 6 dwellings: <ul style="list-style-type: none"> (i) (j) it will not result in more than one access point servicing the development site (ii) vehicles can enter and exit the site in a forward direction (iii) vehicles can cross the property boundary at an angle between 70 degrees and 90 degrees (iv) passenger vehicles (with a length up to 5.2m) can enter and exit the site wholly within the kerbside lane of the road (v) it will have a width of between 5.8m to 6m (measured at the site boundary) and an access depth of 6m (measured from the site boundary into the site) (c) where the development will result in 7 or more dwellings, or is a non-residential land use: <ul style="list-style-type: none"> (i) it will not result in more than one access point servicing the development site (ii) vehicles can enter and exit the site using left turn only movements (iii) vehicles can enter and exit the site in a forward direction (iv) vehicles can cross the property boundary at an angle between 70 degrees and 90 degrees (v) it will have a width of between 6m and 7m (measured at the site boundary), where the development is expected to accommodate vehicles with a length of 6.4m or less (vi) it will have a width of between 6m and 9m (measured at the site boundary), where the development is expected to accommodate vehicles with a length from 6.4m to 8.8m (vii) it will have a width of between 9m and 12m (measured at the site boundary), where the development is expected to accommodate vehicles with a length from 8.8m to 12.5m (viii) provides for simultaneous two-way vehicle movements at the access.

- A. with entry and exit movements for vehicles with a length up to 5.2m vehicles being fully within the kerbside lane of the road
- and
- B. with entry movements of 8.8m vehicles (where relevant) being fully within the kerbside lane of the road and the exit movements of 8.8m vehicles do not cross the centreline of the road.

Access - On-Site Queuing

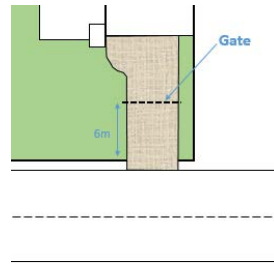

PO 2.1

Sufficient accessible on-site queuing adjacent to access points is provided to meet the needs of development so that all vehicle queues can be contained fully within the boundaries of the development site, to minimise interruption on the functional performance of the road and maintain safe vehicle movements.

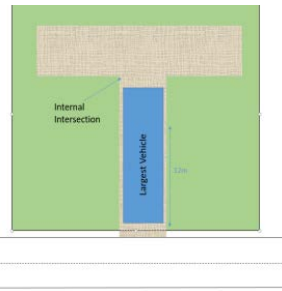

DTS/DPF 2.1

An access point in accordance with one of the following:

- (a) will not service, or is not intended to service, more than 6 dwellings and there are no internal driveways, intersections, car parking spaces or gates within 6.0m of the access point (measured from the site boundary into the site) as shown in the following diagram:

- (b) will service, or is intended to service, development that will generate less than 60 vehicle movements per day, and:
 - (i) is expected to be serviced by vehicles with a length no greater than 6.4m
 - (ii) there are no internal driveways, intersections, parking spaces or gates within 6.0m of the access point (measured from the site boundary into the site)
- (c) will service, or is intended to service, development that will generate less than 60 vehicle movements per day, and:
 - (i) is expected to be serviced by vehicles with a length greater than a 6.4m small rigid vehicle
 - (ii) there are no internal driveways, intersections, parking spaces or gates within 6.0m of the access point (measured from the site boundary into the site)
 - (iii) any termination of or change in priority of movement within the main car park aisle is located far enough into the site so that the largest vehicle expected on-site can store fully within the site before being required to stop
 - (iv) all parking or manoeuvring areas for commercial vehicles are located a minimum of 12m or the length of the longest vehicle expected on site from the access (measured from the site boundary into the site) as shown in the following diagram:

Access - (Location Spacing) - Existing Access Point

PO 3.1

Existing access points are designed to accommodate the type and volume of traffic likely to be generated by the development.

DTS/DPF 3.1

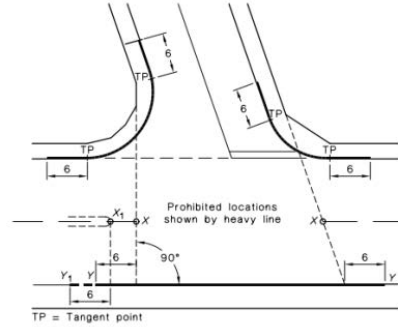

An existing access point satisfies (a), (b) or (c):

- (a) it will not service, or is not intended to service, more than 6 dwellings
- (b) it is not located on a Controlled Access Road and will not service development that will result in (b) a larger class of vehicle expected to access the site using the existing access
- (c) is not located on a Controlled Access Road and development constitutes:
 - (i) a change of use between an office <500m² gross leasable floor area and a consulting room <500m² gross leasable floor area or vice versa
 - (ii) a change in use from a shop to an office, consulting room or personal or domestic services establishment
 - (iii) a change of use from a consulting room or office <250m² gross leasable floor area to shop <250m² gross leasable floor area
 - (iv) a change of use from a shop <500m² gross leasable floor area to a warehouse <500m² gross leasable floor area
 - (v) an office or consulting room with a <500m² gross leasable floor area.

PO 4.1
 New access points are spaced apart from any existing access point or public road junction to manage impediments to traffic flow and maintain safe and efficient operating conditions on the road.

DTS/DPF 4.1
 A new access point satisfies (a), (b) or (c):

- (a) where a development site is intended to serve between 1 and 6 dwellings and has frontage to a local road (not being a Controlled Access Road) with a speed environment of 60km/h or less, the new access point is provided on the local road and located a minimum of 6.0m from the tangent point as shown in the following diagram:

NOTE:
 The points marked X₁ and X₂ are respectively at the median end on a divided road and at the intersection of the main road centre-line and the extensions of the side road property lines shown as dotted lines, on an undivided road. On a divided road, dimension Y-Y' extends to Point Y₁.

- (b) where the development site is intended to serve between 1 and 6 dwellings and access from a local road (being a road that is not a State Maintained Road) is not available, the new access:
 - (i) is not located on a Controlled Access Road
 - (ii) is not located on a section of road affected by double barrier lines
 - (iii) will be on a road with a speed environment of 70km/h or less
 - (iv) is located outside of the bold lines on the diagram shown in the diagram following part (a)
 - (v) located minimum of 6m from a median opening or pedestrian crossing
- (c) where DTS/DPF 4.1 part (a) and (b) do not apply and access from an alternative local road at least 25m from the State Maintained Road is not available, and the access is not located on a Controlled Access Road, the new access is separated in accordance with the following:

Speed Limit	Separation between access points	Separation from public road junctions and merging/terminating lanes
50 km/h or less	No spacing requirement	20m
60 km/h	30m	73m
70 km/h	40m	92m
80 km/h	50m	114m
90 km/h	65m	139m
100 km/h	80m	165m
110 km/h	100m	193m

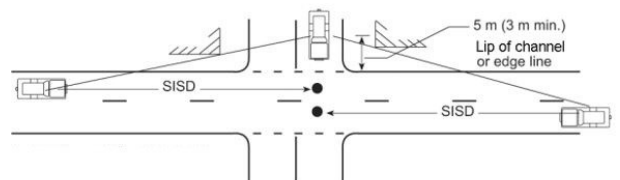

Access - Location (Sight Lines)

PO 5.1
 Access points are located and designed to accommodate sight lines that enable drivers and pedestrians to navigate potential conflict points with roads in a controlled and safe manner.

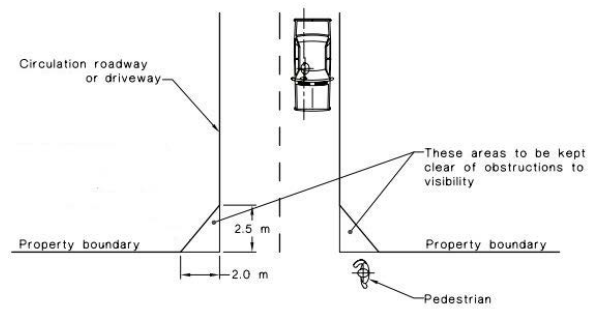

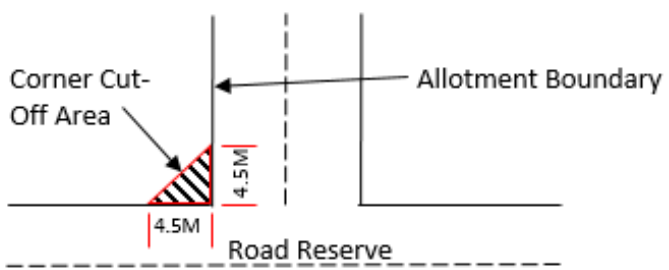

DTS/DPF 5.1
 An access point satisfies (a) or (b):

- (a) drivers approaching or exiting an access point have an unobstructed line of sight in accordance with the following (measured at a height of 1.1m above the surface of the road):

Speed Limit	Separation between access points	Separation from public road junctions and merging/terminating lanes
40 km/h or less	40m	73m
50 km/h	55m	97m
60 km/h	73m	123m
70 km/h	92m	151m
80 km/h	114m	181m
90 km/h	139m	214m
100 km/h	165m	248m
110km/h	193m	285m

- (b) pedestrian sightlines in accordance with the following diagram:

	
Access – Mud and Debris	
<p>PO 6.1</p> <p>Access points constructed to minimise mud or other debris being carried or transferred onto the road to ensure safe road operating conditions.</p>	<p>DTS/DPF 6.1</p> <p>Where the road has an unsealed shoulder and the road is not kerbed, the access way is sealed from the edge of seal on the road for a minimum of 10m or to the property boundary (whichever is closer).</p>
Access - Stormwater	
<p>PO 7.1</p> <p>Access points are designed to minimise negative impact on roadside drainage of water.</p>	<p>DTS/DPF 7.1</p> <p>Development does not:</p> <ul style="list-style-type: none"> (a) decrease the capacity of an existing drainage point (b) restrict or prevent the flow of stormwater through an existing drainage point and system.
Building on Road Reserve	
<p>PO 8.1</p> <p>Buildings or structures that encroach onto, above or below road reserves are designed and sited to minimise impact on safe movements by all road users.</p>	<p>DTS/DPF 8.1</p> <p>Buildings or structures are not located on, above or below the road reserve.</p>
Public Road Junctions	
<p>PO 9.1</p> <p>New junctions with a public road (including the opening of unmade public road junctions) or modifications to existing road junctions are located and designed to ensure safe operating conditions are maintained on the State Maintained Road.</p>	<p>DTS/DPF 9.1</p> <p>Development does not comprise any of the following:</p> <ul style="list-style-type: none"> (a) creating a new junction with a public road (b) opening an unmade public road junction (c) modifying an existing public road junction.
Corner Cut-Offs	
<p>PO 10.1</p> <p>Development is located and designed to maintain sightlines for drivers turning into and out of public road junctions to contribute to driver safety.</p>	<p>DTS/DPF 10.1</p> <p>Development does not involve building work, or building work is located wholly outside the land shown as 'Corner Cut-Off Area' in the following diagram:</p> 

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Except where all of the relevant deemed-to-satisfy criteria are met, development (including the division of land) that involves any of the following to/on a State Maintained Road or within 25 metres of an intersection with any such road:</p> <ul style="list-style-type: none"> (a) creation of a new access or junction 	<p>Commissioner of Highways.</p>	<p>To provide expert technical assessment and direction to the Relevant Authority on the safe and efficient operation and management of all roads relevant to the Commissioner of Highways as described in the Planning and Design Code.</p>	<p>Development of a class to which Schedule 9 clause 3 item 7 of the</p>

- (b) alterations to an existing access or public road junction (except where deemed to be minor in the opinion of the relevant authority)
- (c) development that changes the nature of vehicular movements or increase the number or frequency of movements through an existing access (except where deemed to be minor in the opinion of the relevant authority).

Planning, Development and Infrastructure (General) Regulations 2017 applies.

Urban Tree Canopy Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome

DO 1 Residential development preserves and enhances urban tree canopy through the planting of new trees and retention of existing mature trees where practicable.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature																																																
<p>PO 1.1</p> <p>Trees are planted or retained to contribute to an urban tree canopy.</p>	<p>DTS/DPF 1.1</p> <p>Tree planting is provided in accordance with the following:</p> <table border="1" style="width: 100%; border-collapse: collapse; margin-bottom: 10px;"> <thead> <tr style="background-color: #d9ead3;"> <th style="width: 50%;">Site size per dwelling (m²)</th> <th style="width: 50%;">Tree size* and number required per dwelling</th> </tr> </thead> <tbody> <tr> <td style="text-align: center;"><450</td> <td>1 small tree</td> </tr> <tr> <td style="text-align: center;">450-800</td> <td>1 medium tree or 2 small trees</td> </tr> <tr> <td style="text-align: center;">>800</td> <td>1 large tree or 2 medium trees or 4 small trees</td> </tr> </tbody> </table> <p>*refer Table 1 Tree Size</p> <table border="1" style="width: 100%; border-collapse: collapse; margin-bottom: 10px;"> <thead> <tr style="background-color: #d9ead3;"> <th colspan="4">Table 1 Tree Size</th> </tr> <tr style="background-color: #d9ead3;"> <th style="width: 15%;">Tree size</th> <th style="width: 15%;">Mature height (minimum)</th> <th style="width: 15%;">Mature spread (minimum)</th> <th style="width: 55%;">Soil area around tree within development site (minimum)</th> </tr> </thead> <tbody> <tr> <td style="text-align: center;">Small</td> <td style="text-align: center;">4 m</td> <td style="text-align: center;">2m</td> <td>10m² and min. dimension of 1.5m</td> </tr> <tr> <td style="text-align: center;">Medium</td> <td style="text-align: center;">6 m</td> <td style="text-align: center;">4 m</td> <td>30m² and min. dimension of 2m</td> </tr> <tr> <td style="text-align: center;">Large</td> <td style="text-align: center;">12 m</td> <td style="text-align: center;">8m</td> <td>60m² and min. dimension of 4m</td> </tr> </tbody> </table> <p>The discount in Column D of Table 2 discounts the number of trees required to be planted in DTS/DPF 1.1 where existing tree(s) are retained on the subject land that meet the criteria in Columns A, B and C of Table 2, and are not a species identified in Regulation 3F(4)(b) of the Planning Development and Infrastructure (General) Regulations 2017.</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr style="background-color: #d9ead3;"> <th colspan="4">Table 2 Tree Discounts</th> </tr> <tr style="background-color: #d9ead3;"> <th style="width: 15%;">Retained tree height (Column A)</th> <th style="width: 15%;">Retained tree spread (Column B)</th> <th style="width: 15%;">Retained soil area around tree within development site (Column C)</th> <th style="width: 55%;">Discount applied (Column D)</th> </tr> </thead> <tbody> <tr> <td style="text-align: center;">4-6m</td> <td style="text-align: center;">2-4m</td> <td>10m² and min. dimension of 1.5m</td> <td>2 small trees (or 1 medium tree)</td> </tr> <tr> <td style="text-align: center;">6-12m</td> <td style="text-align: center;">4-8m</td> <td>30m² and min. dimension of 3m</td> <td>2 medium trees (or 4 small trees)</td> </tr> <tr> <td style="text-align: center;">>12m</td> <td style="text-align: center;">>8m</td> <td>60m² and min. dimension of 6m</td> <td>2 large trees (or 4 medium trees, or 8 small trees)</td> </tr> </tbody> </table>	Site size per dwelling (m ²)	Tree size* and number required per dwelling	<450	1 small tree	450-800	1 medium tree or 2 small trees	>800	1 large tree or 2 medium trees or 4 small trees	Table 1 Tree Size				Tree size	Mature height (minimum)	Mature spread (minimum)	Soil area around tree within development site (minimum)	Small	4 m	2m	10m ² and min. dimension of 1.5m	Medium	6 m	4 m	30m ² and min. dimension of 2m	Large	12 m	8m	60m ² and min. dimension of 4m	Table 2 Tree Discounts				Retained tree height (Column A)	Retained tree spread (Column B)	Retained soil area around tree within development site (Column C)	Discount applied (Column D)	4-6m	2-4m	10m ² and min. dimension of 1.5m	2 small trees (or 1 medium tree)	6-12m	4-8m	30m ² and min. dimension of 3m	2 medium trees (or 4 small trees)	>12m	>8m	60m ² and min. dimension of 6m	2 large trees (or 4 medium trees, or 8 small trees)

set scheme established by the Minister under section 197 of the Planning, Development and Infrastructure Act 2016, provided the provisions and requirements of that scheme are satisfied. For the purposes of section 102(4) of the Planning, Development and Infrastructure Act 2016, an applicant may elect for any of the matters in DTS/DPF 1.1 to be reserved.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Water Protection Area Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Safeguard South Australia's public water supplies and ecologically significant areas by protecting regionally and locally significant surface and underground water resources in Water Protection Areas from pollution. This includes considering adverse water quality impacts associated with projected reductions in rainfall and warmer air temperatures as a result of climate change.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
PO 1.1 Development with potential to expose the water supply role of the Water Protection Area to significant adverse water quality risk is avoided to maintain the long term function of the Water Protection Area.	DTS/DPF 1.1 Development does not involve any one or combination of the following: (a) fuel depot (b) intensive animal husbandry (c) special industry (d) stock slaughter works (e) timber preservation works.
Groundwater	
PO 2.1 Groundwater resources are protected from pollution by ensuring development does not: (a) generate or dispose of waste in a manner that would pollute water resources (b) involve the storage or disposal of chemicals or hazardous substances in a manner that would pose a risk to water supplies.	DTS/DPF 2.1 None are applicable.
PO 2.2 Groundwater catchment and recharge characteristics are safeguarded by ensuring development: (a) retains and protects areas of native vegetation (b) does not inhibit the potential of an aquifer to recharge.	DTS/DPF 2.2 None are applicable.
Farming and Horticulture	
PO 3.1 Farming or horticulture operations occur only where: (a) the activity will not result in any increase in the salinity levels of groundwater (b) the land and soil structure is capable of supporting the proposed activity and the likelihood of soil erosion is minimised (c) the depth to the water table is greater than 2 metres from the ground.	DTS/DPF 3.1 None are applicable.
Irrigation	
PO 4.1 Irrigated areas are sited to ensure they: (a) avoid any land prone to waterlogging or subject to flooding through irrigation	DTS/DPF 4.1 None are applicable.

<ul style="list-style-type: none"> (b) avoid the risk of the water table falling or rising significantly as a result of irrigation practices (c) do not increase the salinity levels of groundwater (d) minimise the risk of polluting surface and groundwater resources where wastewater is used to irrigate the land. 	
Wastewater	
<p>PO 5.1</p> <p>Wastewater-generating development utilises existing communal wastewater management infrastructure to avoid on-site disposal.</p>	<p>DTS/DPF 5.1</p> <p>Development (including land division) that generates wastewater is connected to sewerage or community wastewater management systems with sufficient hydraulic capacity to accept the inflow.</p>
<p>PO 5.2</p> <p>Development that generates wastewater which cannot be disposed of via sewerage or community wastewater management systems, is designed and of a scale that will enable on-site wastewater treatment and disposal in accordance with relevant health and environmental requirements.</p>	<p>DTS/DPF 5.2</p> <p>On-site wastewater treatment systems comply with:</p> <ul style="list-style-type: none"> (a) the 'On-site Wastewater Systems Code' or (b) AS/NZS 1547: On-site domestic wastewater management and the South Australian amendments to AS/NSZ 1547 as outlined in section 9.2 of the 'On-site Wastewater Systems Code'.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Composting works (excluding a prescribed approved activity) - being a depot, facility or works with the capacity to treat, during a 12 month period, more than 200 tonnes of organic waste or matter. (EPA Licence)</p>	<p>Environment Protection Authority.</p>	<p>To provide expert Technical assessment and direction to the Relevant authority on the assessment of the potential harm from pollution and waste aspects arising from activities of environmental significance and other activities that have the potential to cause serious environmental harm.</p>	<p>Development of a class to which Schedule 9 clause 3 item 9 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>
<p>Wastewater treatment works - being sewage treatment works, a community wastewater management system, winery wastewater treatment works or any other wastewater treatment works with the capacity to treat, during a 12 month period, more than 2.5ML of wastewater.</p> <p>(EPA Licence required at more than 5 ML)</p>			
<p>Feedlots - being carrying on an operation for holding in confined yard or area and feeding principally by mechanical means or by hand not less than an average of 200 cattle (EPA Licence) or 1,600 sheep or goats per day over any period of 12 months, but excluding any such operation carried on at an abattoir, slaughterhouse or saleyard or for the purpose only of drought or other emergency feeding.</p>			
<p>Piggeries - being the conduct of a piggery (being premises having confined or roofed structures for keeping pigs) with a capacity of 130 or more standard pig units. (EPA licence required at 650 or more standard pig units)</p>			
<p>Dairies - being the carrying on of a dairy with a total processing capacity exceeding more than 100 milking animals at any 1 time.</p>			

Water Resources Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Protection of the quality of surface waters considering adverse water quality impacts associated with projected reductions in rainfall and warmer air temperatures as a result of climate change.
DO 2	Maintain the conveyance function and natural flow paths of watercourses to assist in the management of flood waters and stormwater runoff.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

		Performance Feature
Water Catchment		
PO 1.1	Watercourses and their beds, banks, wetlands and floodplains (1% AEP flood extent) are not damaged or modified and are retained in their natural state, except where modification is required for essential access or maintenance purposes.	DTS/DPF 1.1 None are applicable.
PO 1.2	Development avoids interfering with the existing hydrology or water regime of swamps and wetlands other than to improve the existing conditions to enhance environmental values.	DTS/DPF 1.2 None are applicable.
PO 1.3	Wetlands and low-lying areas providing habitat for native flora and fauna are not drained, except temporarily for essential management purposes to enhance environmental values.	DTS/DPF 1.3 None are applicable.
PO 1.4	Watercourses, areas of remnant native vegetation, or areas prone to erosion that are capable of natural regeneration are fenced off to limit stock access.	DTS/DPF 1.4 None are applicable.
PO 1.5	Development that increases surface water run-off includes a suitably sized strip of vegetated land on each side of a watercourse to filter runoff to: (a) reduce the impacts on native aquatic ecosystems (b) minimise soil loss eroding into the watercourse.	DTS/DPF 1.5 A strip of land 20m or more wide measured from the top of existing banks on each side of the watercourse is free from development, livestock use and revegetated with locally indigenous vegetation.
PO 1.6	Development resulting in the depositing or placing of an object or solid material in a watercourse or lake occurs only where it involves any of the following: (a) the construction of an erosion control structure (b) devices or structures used to extract or regulate water flowing in a watercourse (c) devices used for scientific purposes (d) the rehabilitation of watercourses.	DTS/DPF 1.6 None are applicable.
PO 1.7	Watercourses, floodplains (1% AEP flood extent) and wetlands protected and enhanced by retaining and protecting existing native vegetation.	DTS/DPF 1.7 None are applicable.
PO 1.8	Watercourses, floodplains (1% AEP flood extent) and wetlands are protected and enhanced by stabilising watercourse banks and reducing sediments and nutrients entering the watercourse.	DTS/DPF 1.8 None are applicable.
PO 1.9	Dams, water tanks and diversion drains are located and constructed to maintain the quality and quantity of flows required to meet environmental and downstream needs.	DTS/DPF 1.9 None are applicable.

Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

Part 4 - General Development Policies

Advertisements

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Advertisements and advertising hoardings are appropriate to context, efficient and effective in communicating with the public, limited in number to avoid clutter, and do not create hazard.

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Appearance	
<p>PO 1.1</p> <p>Advertisements are compatible and integrated with the design of the building and/or land they are located on.</p>	<p>DTS/DPF 1.1</p> <p>Advertisements attached to a building satisfy all of the following:</p> <ul style="list-style-type: none"> (a) are not located in a Neighbourhood-type zone (b) where they are flush with a wall: <ul style="list-style-type: none"> (i) if located at canopy level, are in the form of a fascia sign (ii) if located above canopy level: <ul style="list-style-type: none"> A. do not have any part rising above parapet height B. are not attached to the roof of the building (c) where they are not flush with a wall: <ul style="list-style-type: none"> (i) if attached to a verandah, no part of the advertisement protrudes beyond the outer limits of the verandah structure (ii) if attached to a two-storey building: <ul style="list-style-type: none"> A. has no part located above the finished floor level of the second storey of the building B. does not protrude beyond the outer limits of any verandah structure below C. does not have a sign face that exceeds 1m² per side. (d) if located below canopy level, are flush with a wall (e) if located at canopy level, are in the form of a fascia sign (f) if located above a canopy: <ul style="list-style-type: none"> (i) are flush with a wall (ii) do not have any part rising above parapet height (iii) are not attached to the roof of the building. (g) if attached to a verandah, no part of the advertisement protrudes beyond the outer limits of the verandah structure (h) if attached to a two-storey building, have no part located above the finished floor level of the second storey of the building (i) where they are flush with a wall, do not, in combination with any other existing sign, cover more than 15% of the building facade to which they are attached.
<p>PO 1.2</p> <p>Advertising hoardings do not disfigure the appearance of the land upon which they are situated or the character of the locality.</p>	<p>DTS/DPF 1.2</p> <p>Where development comprises an advertising hoarding, the supporting structure is:</p> <ul style="list-style-type: none"> (a) concealed by the associated advertisement and decorative detailing or (b) not visible from an adjacent public street or thoroughfare, other than a support structure in the form of a single or dual post design.
<p>PO 1.3</p> <p>Advertising does not encroach on public land or the land of an adjacent allotment.</p>	<p>DTS/DPF 1.3</p> <p>Advertisements and/or advertising hoardings are contained within the boundaries of the site.</p>
<p>PO 1.4</p> <p>Where possible, advertisements on public land are integrated with existing structures and infrastructure.</p>	<p>DTS/DPF 1.4</p> <p>Advertisements on public land that meet at least one of the following:</p> <ul style="list-style-type: none"> (a) achieves Advertisements DTS/DPF 1.1 (b) are integrated with a bus shelter.
<p>PO 1.5</p> <p>Advertisements and/or advertising hoardings are of a scale and size appropriate to the character of the locality.</p>	<p>DTS/DPF 1.5</p> <p>None are applicable.</p>
Proliferation of Advertisements	
<p>PO 2.1</p> <p>Proliferation of advertisements is minimised to avoid visual clutter and untidiness.</p>	<p>DTS/DPF 2.1</p> <p>No more than one freestanding advertisement is displayed per occupancy.</p>
<p>PO 2.2</p> <p>Multiple business or activity advertisements are co-located and coordinated to avoid visual clutter and untidiness.</p>	<p>DTS/DPF 2.2</p> <p>Advertising of a multiple business or activity complex is located on a single advertisement fixture or structure.</p>
<p>PO 2.3</p> <p>Proliferation of advertisements attached to buildings is minimised to avoid visual clutter and untidiness.</p>	<p>DTS/DPF 2.3</p> <p>Advertisements satisfy all of the following:</p> <ul style="list-style-type: none"> (a) are attached to a building

	<ul style="list-style-type: none"> (b) other than in a Neighbourhood-type zone, where they are flush with a wall, cover no more than 15% of the building facade to which they are attached (c) do not result in more than one sign per occupancy that is not flush with a wall.
Advertising Content	
<p>PO 3.1</p> <p>Advertisements are limited to information relating to the lawful use of land they are located on to assist is the ready identification of the activity or activities on the land and avoids unrelated content that contributes to visual clutter and untidiness.</p>	<p>DTS/DPF 3.1</p> <p>Advertisements contain information limited to a lawful existing or proposed activity or activities on the same site as the advertisement.</p>
Amenity Impacts	
<p>PO 4.1</p> <p>Light spill from advertisement illumination does not unreasonably compromise the amenity of sensitive receivers.</p>	<p>DTS/DPF 4.1</p> <p>Advertisements do not incorporate any illumination.</p>
Safety	
<p>PO 5.1</p> <p>Advertisements and/or advertising hoardings erected on a verandah or projecting from a building wall are designed and located to allow for safe and convenient pedestrian access.</p>	<p>DTS/DPF 5.1</p> <p>Advertisements have a minimum clearance of 2.5m between the top of the footpath and base of the underside of the sign.</p>
<p>PO 5.2</p> <p>Advertisements and/or advertising hoardings do not distract or create a hazard to drivers through excessive illumination.</p>	<p>DTS/DPF 5.2</p> <p>No advertisement illumination is proposed.</p>
<p>PO 5.3</p> <p>Advertisements and/or advertising hoardings do not create a hazard to drivers by:</p> <ul style="list-style-type: none"> (a) being liable to interpretation by drivers as an official traffic sign or signal (b) obscuring or impairing drivers' view of official traffic signs or signals (c) obscuring or impairing drivers' view of features of a road that are potentially hazardous (such as junctions, bends, changes in width and traffic control devices) or other road or rail vehicles at/or approaching level crossings. 	<p>DTS/DPF 5.3</p> <p>Advertisements satisfy all of the following:</p> <ul style="list-style-type: none"> (a) are not located in a public road or rail reserve (b) are located wholly outside the land shown as 'Corner Cut-Off Area' in the following diagram <div style="text-align: center;"> <p>diagram</p> </div>
<p>PO 5.4</p> <p>Advertisements and/or advertising hoardings do not create a hazard by distracting drivers from the primary driving task at a location where the demands on driver concentration are high.</p>	<p>DTS/DPF 5.4</p> <p>Advertisements and/or advertising hoardings are not located along or adjacent to a road having a speed limit of 80km/h or more.</p>
<p>PO 5.5</p> <p>Advertisements and/or advertising hoardings provide sufficient clearance from the road carriageway to allow for safe and convenient movement by all road users.</p>	<p>DTS/DPF 5.5</p> <p>Where the advertisement or advertising hoarding is:</p> <ul style="list-style-type: none"> (a) on a kerbed road with a speed zone of 60km/h or less, the advertisement or advertising hoarding is located at least 0.6m from the roadside edge of the kerb (b) on an unkerbed road with a speed zone of 60km/h or less, the advertisement or advertising hoarding is located at least 5.5m from the edge of the seal (c) on any other kerbed or unkerbed road, the advertisement or advertising hoarding is located a minimum of the following distance from the roadside edge of the kerb or the seal: <ul style="list-style-type: none"> (a) 110 km/h road - 14m (b) 100 km/h road - 13m (c) 90 km/h road - 10m (d) 70 or 80 km/h road - 8.5m.
<p>PO 5.6</p> <p>Advertising near signalised intersections does not cause unreasonable distraction to road users through illumination, flashing lights, or moving or changing displays or messages.</p>	<p>DTS/DPF 5.6</p> <p>Advertising:</p> <ul style="list-style-type: none"> (a) is not illuminated (b) does not incorporate a moving or changing display or message (c) does not incorporate a flashing light(s).

Animal Keeping and Horse Keeping

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome

DO 1	Animals are kept at a density that is not beyond the carrying capacity of the land and in a manner that minimises their adverse effects on the environment, local amenity and surrounding development.
------	--

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Siting and Design	
PO 1.1 Animal keeping, horse keeping and associated activities do not create adverse impacts on the environment or the amenity of the locality.	DTS/DPF 1.1 None are applicable.
PO 1.2 Animal keeping and horse keeping is located and managed to minimise the potential transmission of disease to other operations where animals are kept.	DTS/DPF 1.2 None are applicable.
Horse Keeping	
PO 2.1 Water from stable wash-down areas is directed to appropriate absorption areas and/or drainage pits to minimise pollution of land and water.	DTS/DPF 2.1 None are applicable.
PO 2.2 Stables, horse shelters or associated yards are sited appropriate distances away from sensitive receivers and/or allotments in other ownership to avoid adverse impacts from dust, erosion and odour.	DTS/DPF 2.2 Stables, horse shelters and associated yards are sited in accordance with all of the following: (a) 30m or more from any sensitive receivers (existing or approved) on land in other ownership (b) where an adjacent allotment is vacant and in other ownership, 30m or more from the boundary of that allotment.
PO 2.3 All areas accessible to horses are separated from septic tank effluent disposal areas to protect the integrity of that system. Stable flooring is constructed with an impervious material to facilitate regular cleaning.	DTS/DPF 2.3 Septic tank effluent disposal areas are enclosed with a horse-proof barrier such as a fence to exclude horses from this area.
PO 2.4 To minimise environmental harm and adverse impacts on water resources, stables, horse shelters and associated yards are appropriately set back from a watercourse.	DTS/DPF 2.4 Stables, horse shelters and associated yards are set back 50m or more from a watercourse.
PO 2.5 Stables, horse shelters and associated yards are located on slopes that are stable to minimise the risk of soil erosion and water runoff.	DTS/DPF 2.5 Stables, horse shelters and associated yards are not located on land with a slope greater than 10% (1-in-10).
Kennels	
PO 3.1 Kennel flooring is constructed with an impervious material to facilitate regular cleaning.	DTS/DPF 3.1 The floors of kennels satisfy all of the following: (a) are constructed of impervious concrete (b) are designed to be self-draining when washed down.
PO 3.2 Kennels and exercise yards are designed and sited to minimise noise nuisance to neighbours through measures such as: (a) adopting appropriate separation distances (b) orientating openings away from sensitive receivers.	DTS/DPF 3.2 Kennels are sited 500m or more from the nearest sensitive receiver on land in other ownership.
PO 3.3 Dogs are regularly observed and managed to minimise nuisance impact on adjoining sensitive receivers from animal behaviour.	DTS/DPF 3.3 Kennels are sited in association with a permanent dwelling on the land.
Wastes	
PO 4.1 Storage of manure, used litter and other wastes (other than wastewater lagoons) is designed, constructed and managed to minimise attracting and harbouring vermin.	DTS/DPF 4.1 None are applicable.
PO 4.2 Facilities for the storage of manure, used litter and other wastes (other than wastewater lagoons) are located to minimise the potential for polluting water resources.	DTS/DPF 4.2 Waste storage facilities (other than wastewater lagoons) are located outside the 1% AEP flood event areas.

Aquaculture

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Aquaculture facilities are developed in an ecologically, economically and socially sustainable manner to support an equitable sharing of marine, coastal and inland resources and mitigate conflict with other water-based and land-based uses.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land-based Aquaculture	
PO 1.1 Land-based aquaculture and associated components are sited and designed to mitigate adverse impacts on nearby sensitive receivers.	DTS/DPF 1.1 Land-based aquaculture and associated components are located to satisfy all of the following: (a) 200m or more from a sensitive receiver in other ownership (b) 500m or more from the boundary of a zone primarily intended to accommodate sensitive receivers.
PO 1.2 Land-based aquaculture and associated components are sited and designed to prevent surface flows from entering ponds in a 1% AEP sea flood level event.	DTS/DPF 1.2 None are applicable.
PO 1.3 Land-based aquaculture and associated components are sited and designed to prevent pond leakage that would pollute groundwater.	DTS/DPF 1.3 None are applicable.
PO 1.4 Land-based aquaculture and associated components are sited and designed to prevent farmed species escaping and entering into any waters.	DTS/DPF 1.4 None are applicable.
PO 1.5 Land-based aquaculture and associated components, including intake and discharge pipes, are designed to minimise the need to traverse sensitive areas to minimise impact on the natural environment.	DTS/DPF 1.5 None are applicable.
PO 1.6 Pipe inlets and outlets associated with land-based aquaculture are sited and designed to minimise the risk of disease transmission.	DTS/DPF 1.6 None are applicable.
PO 1.7 Storage areas associated with aquaculture activity are integrated with the use of the land and sited and designed to minimise their visual impact on the surrounding environment.	DTS/DPF 1.7 None are applicable.
Marine Based Aquaculture	
PO 2.1 Marine aquaculture is sited and designed to minimise its adverse impacts on sensitive ecological areas including: (a) creeks and estuaries (b) wetlands (c) significant seagrass and mangrove communities (d) marine habitats and ecosystems.	DTS/DPF 2.1 None are applicable.
PO 2.2 Marine aquaculture is sited in areas with adequate water current to disperse sediments and dissolve particulate wastes to prevent the build-up of waste that may cause environmental harm.	DTS/DPF 2.2 None are applicable.
PO 2.3 Marine aquaculture is designed to not involve discharge of human waste on the site, on any adjacent land or into nearby waters.	DTS/DPF 2.3 None are applicable.
PO 2.4	DTS/DPF 2.4

Marine aquaculture (other than inter-tidal aquaculture) is located an appropriate distance seaward of the high water mark.	Marine aquaculture development is located 100m or more seaward of the high water mark.
<p>PO 2.5</p> <p>Marine aquaculture is sited and designed to not obstruct or interfere with:</p> <ul style="list-style-type: none"> (a) areas of high public use (b) areas, including beaches, used for recreational activities such as swimming, fishing, skiing, sailing and other water sports (c) areas of outstanding visual or environmental value (d) areas of high tourism value (e) areas of important regional or state economic activity, including commercial ports, wharfs and jetties (f) the operation of infrastructure facilities including inlet and outlet pipes associated with the desalination of sea water. 	<p>DTS/DPF 2.5</p> <p>None are applicable.</p>
<p>PO 2.6</p> <p>Marine aquaculture is sited and designed to minimise interference and obstruction to the natural processes of the coastal and marine environment.</p>	<p>DTS/DPF 2.6</p> <p>None are applicable.</p>
<p>PO 2.7</p> <p>Marine aquaculture is designed to be as unobtrusive as practicable by incorporating measures such as:</p> <ul style="list-style-type: none"> (a) using feed hoppers painted in subdued colours and suspending them as close as possible to the surface of the water (b) positioning structures to protrude the minimum distance practicable above the surface of the water (c) avoiding the use of shelters and structures above cages and platforms unless necessary to exclude predators and protected species from interacting with the farming structures and/or stock inside the cages, or for safety reasons (d) positioning racks, floats and other farm structures in unobtrusive locations landward from the shoreline. 	<p>DTS/DPF 2.7</p> <p>None are applicable.</p>
<p>PO 2.8</p> <p>Access, launching and maintenance facilities utilise existing established roads, tracks, ramps and paths to or from the sea where possible to minimise environmental and amenity impacts.</p>	<p>DTS/DPF 2.8</p> <p>None are applicable.</p>
<p>PO 2.9</p> <p>Access, launching and maintenance facilities are developed as common user facilities and are co-located where practicable to mitigate adverse impacts on coastal areas.</p>	<p>DTS/DPF 2.9</p> <p>None are applicable.</p>
<p>PO 2.10</p> <p>Marine aquaculture is sited to minimise potential impacts on, and to protect the integrity of, reserves under the <i>National Parks and Wildlife Act 1972</i>.</p>	<p>DTS/DPF 2.10</p> <p>Marine aquaculture is located 1000m or more seaward of the boundary of any reserve under the <i>National Parks and Wildlife Act 1972</i>.</p>
<p>PO 2.11</p> <p>Onshore storage, cooling and processing facilities do not impair the coastline and its visual amenity by:</p> <ul style="list-style-type: none"> (a) being sited, designed, landscaped and of a scale to reduce the overall bulk and appearance of buildings and complement the coastal landscape (b) making provision for appropriately sited and designed vehicular access arrangements, including using existing vehicular access arrangements as far as practicable (c) incorporating appropriate waste treatment and disposal. 	<p>DTS/DPF 2.11</p> <p>None are applicable.</p>
Navigation and Safety	
<p>PO 3.1</p> <p>Marine aquaculture sites are suitably marked to maintain navigational safety.</p>	<p>DTS/DPF 3.1</p> <p>None are applicable.</p>
<p>PO 3.2</p> <p>Marine aquaculture is sited to provide adequate separation between farms for safe navigation.</p>	<p>DTS/DPF 3.2</p> <p>None are applicable.</p>
Environmental Management	
<p>PO 4.1</p> <p>Marine aquaculture is maintained to prevent hazards to people and wildlife, including breeding grounds and habitats of native marine mammals and terrestrial fauna, especially migratory species.</p>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>
<p>PO 4.2</p> <p>Marine aquaculture is designed to facilitate the relocation or removal of structures in the case of emergency such as oil spills, algal blooms and altered water flows.</p>	<p>DTS/DPF 4.2</p> <p>None are applicable.</p>
<p>PO 4.3</p> <p>Marine aquaculture provides for progressive or future reclamation of disturbed areas ahead of, or upon, decommissioning.</p>	<p>DTS/DPF 4.3</p> <p>None are applicable.</p>

<p>PO 4.4</p> <p>Aquaculture operations incorporate measures for the removal and disposal of litter, disused material, shells, debris, detritus, dead animals and animal waste to prevent pollution of waters, wetlands, or the nearby coastline.</p>	<p>DTS/DPF 4.4</p> <p>None are applicable.</p>
---	--

Beverage Production in Rural Areas

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Mitigation of potential amenity and environmental impacts of value-adding beverage production facilities such as wineries, distilleries, cideries and breweries.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Odour and Noise	
<p>PO 1.1</p> <p>Beverage production activities are designed and sited to minimise odour impacts on rural amenity.</p>	<p>DTS/DPF 1.1</p> <p>None are applicable.</p>
<p>PO 1.2</p> <p>Beverage production activities are designed and sited to minimise noise impacts on sensitive receivers.</p>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
<p>PO 1.3</p> <p>Fermentation, distillation, manufacturing, storage, packaging and bottling activities occur within enclosed buildings to improve the visual appearance within a locality and manage noise associated with these activities.</p>	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>
<p>PO 1.4</p> <p>Breweries are designed to minimise odours emitted during boiling and fermentation stages of production.</p>	<p>DTS/DPF 1.4</p> <p>Brew kettles are fitted with a vapour condenser.</p>
<p>PO 1.5</p> <p>Beverage production solid wastes are stored in a manner that minimises odour impacts on sensitive receivers in other ownership.</p>	<p>DTS/DPF 1.5</p> <p>Solid waste from beverage production is collected and stored in sealed containers and removed from the site within 48 hours.</p>
Water Quality	
<p>PO 2.1</p> <p>Beverage production wastewater management systems (including wastewater irrigation) are set back from watercourses to minimise adverse impacts on water resources.</p>	<p>DTS/DPF 2.1</p> <p>Wastewater management systems are set back 50m or more from the banks of watercourses and bores.</p>
<p>PO 2.2</p> <p>The storage or disposal of chemicals or hazardous substances is undertaken in a manner to prevent pollution of water resources.</p>	<p>DTS/DPF 2.2</p> <p>None are applicable.</p>
<p>PO 2.3</p> <p>Stormwater runoff from areas that may cause contamination due to beverage production activities (including vehicle movements and machinery operations) is drained to an onsite stormwater treatment system to manage potential environmental impacts.</p>	<p>DTS/DPF 2.3</p> <p>None are applicable.</p>
<p>PO 2.4</p> <p>Stormwater runoff from areas unlikely to cause contamination by beverage production and associated activities (such as roof catchments and clean hard-paved surfaces) is diverted away from beverage production areas and wastewater management systems.</p>	<p>DTS/DPF 2.4</p> <p>None are applicable.</p>
Wastewater Irrigation	
<p>PO 3.1</p> <p>Beverage production wastewater irrigation systems are designed and located to not contaminate soil and surface and ground water resources or damage crops.</p>	<p>DTS/DPF 3.1</p> <p>None are applicable.</p>
<p>PO 3.2</p>	<p>DTS/DPF 3.2</p> <p style="text-align: right;">4498</p>

Beverage production wastewater irrigation systems are designed and located to minimise impact on amenity and avoid spray drift onto adjoining land.	Beverage production wastewater is not irrigated within 50m of any dwelling in other ownership.
<p>PO 3.3</p> <p>Beverage production wastewater is not irrigated onto areas that pose an undue risk to the environment or amenity such as:</p> <ul style="list-style-type: none"> (a) waterlogged areas (b) land within 50m of a creek, swamp or domestic or stock water bore (c) land subject to flooding (d) steeply sloping land (e) rocky or highly permeable soil overlaying an unconfined aquifer. 	<p>DTS/DPF 3.3</p> <p>None are applicable.</p>

Bulk Handling and Storage Facilities

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Facilities for the bulk handling and storage of agricultural, mineral, petroleum, rock, ore or other similar commodities are designed to minimise adverse impacts on transport networks, the landscape and surrounding land uses.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Siting and Design	
<p>PO 1.1</p> <p>Bulk handling and storage facilities are sited and designed to minimise risks of adverse air quality and noise impacts on sensitive receivers.</p>	<p>DTS/DPF 1.1</p> <p>Facilities for the handling, storage and dispatch of commodities in bulk (excluding processing) meet the following minimum separation distances from sensitive receivers:</p> <ul style="list-style-type: none"> (a) bulk handling of agricultural crop products, rock, ores, minerals, petroleum products or chemicals at a wharf or wharf side facility (including sea-port grain terminals), where the handling of these materials into or from vessels does not exceed 100 tonnes per day: 300m or more from residential premises not associated with the facility (b) bulk handling of agricultural crop products, rock, ores, minerals, petroleum products or chemicals to or from any commercial storage facility: 300m or more from residential premises not associated with the facility (c) bulk petroleum storage involving individual containers with a capacity up to 200 litres and a total on-site storage capacity not exceeding 1,000 cubic metres: 500m or more (d) coal handling with: <ul style="list-style-type: none"> a. capacity up to 1 tonne per day or a storage capacity up to 50 tonnes: 500m or more b. capacity exceeding 1 tonne per day but not exceeding 100 tonnes per day or a storage capacity exceeding 50 tonnes but not exceeding 5000 tonnes: 1000m or more.
Buffers and Landscaping	
<p>PO 2.1</p> <p>Bulk handling and storage facilities incorporate a buffer area for the establishment of dense landscaping adjacent road frontages to enhance the appearance of land and buildings from public thoroughfares.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
<p>PO 2.2</p> <p>Bulk handling and storage facilities incorporate landscaping to assist with screening and dust filtration.</p>	<p>DTS/DPF 2.2</p> <p>None are applicable.</p>
Access and Parking	
<p>PO 3.1</p> <p>Roadways and vehicle parking areas associated with bulk handling and storage facilities are designed and surfaced to control dust emissions and prevent drag out of material from the site.</p>	<p>DTS/DPF 3.1</p> <p>Roadways and vehicle parking areas are sealed with an all-weather surface.</p>
Slipways, Wharves and Pontoons	
<p>PO 4.1</p> <p>Slipways, wharves and pontoons used for the handling of bulk materials (such as fuel, oil, catch, bait and the like) incorporate catchment devices to avoid the release of materials into adjacent waters.</p>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>

Clearance from Overhead Powerlines

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Protection of human health and safety when undertaking development in the vicinity of overhead transmission powerlines.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
<p>PO 1.1</p> <p>Buildings are adequately separated from aboveground powerlines to minimise potential hazard to people and property.</p>	<p>DTS/DPF 1.1</p> <p>One of the following is satisfied:</p> <ul style="list-style-type: none"> (a) a declaration is provided by or on behalf of the applicant to the effect that the proposal would not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i> (b) there are no aboveground powerlines adjoining the site that are the subject of the proposed development.

Design

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	<p>Development is:</p> <ul style="list-style-type: none"> (a) contextual - by considering, recognising and carefully responding to its natural surroundings or built environment and positively contributes to the character of the immediate area (b) durable - fit for purpose, adaptable and long lasting (c) inclusive - by integrating landscape design to optimise pedestrian and cyclist usability, privacy and equitable access, and promoting the provision of quality spaces integrated with the public realm that can be used for access and recreation and help optimise security and safety both internally and within the public realm, for occupants and visitors (d) sustainable - by integrating sustainable techniques into the design and siting of development and landscaping to improve community health, urban heat, water management, environmental performance, biodiversity and local amenity and to minimise energy consumption.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
All development	
External Appearance	
<p>PO 1.1</p> <p>Buildings reinforce corners through changes in setback, articulation, materials, colour and massing (including height, width, bulk, roof form and slope).</p>	<p>DTS/DPF 1.1</p> <p>None are applicable.</p>
<p>PO 1.2</p> <p>Where zero or minor setbacks are desirable, development provides shelter over footpaths (in the form of verandahs, awnings, canopies and the like, with adequate lighting) to positively contribute to the walkability, comfort and safety of the public realm.</p>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
<p>PO 1.3</p> <p>Building elevations facing the primary street (other than ancillary buildings) are designed and detailed to convey purpose, identify main access points and complement the streetscape.</p>	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>
<p>PO 1.4</p> <p>Plant, exhaust and intake vents and other technical equipment is integrated into the building design to minimise visibility from the public realm and negative impacts on residential amenity by:</p> <ul style="list-style-type: none"> (a) positioning plant and equipment in unobtrusive locations viewed from public roads and spaces 	<p>DTS/DPF 1.4</p> <p>Development does not incorporate any structures that protrude beyond the roofline.</p>

<p>(b) screening rooftop plant and equipment from view</p> <p>(c) when located on the roof of non-residential development, locating the plant and equipment as far as practicable from adjacent sensitive land uses.</p>	
<p>PO 1.5</p> <p>The negative visual impact of outdoor storage, waste management, loading and service areas is minimised by integrating them into the building design and screening them from public view (such as fencing, landscaping and built form) taking into account the form of development contemplated in the relevant zone.</p>	<p>DTS/DPF 1.5</p> <p>None are applicable.</p>
<p>Safety</p>	
<p>PO 2.1</p> <p>Development maximises opportunities for passive surveillance of the public realm by providing clear lines of sight, appropriate lighting and the use of visually permeable screening wherever practicable.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
<p>PO 2.2</p> <p>Development is designed to differentiate public, communal and private areas.</p>	<p>DTS/DPF 2.2</p> <p>None are applicable.</p>
<p>PO 2.3</p> <p>Buildings are designed with safe, perceptible and direct access from public street frontages and vehicle parking areas.</p>	<p>DTS/DPF 2.3</p> <p>None are applicable.</p>
<p>PO 2.4</p> <p>Development at street level is designed to maximise opportunities for passive surveillance of the adjacent public realm.</p>	<p>DTS/DPF 2.4</p> <p>None are applicable.</p>
<p>PO 2.5</p> <p>Common areas and entry points of buildings (such as the foyer areas of residential buildings), and non-residential land uses at street level, maximise passive surveillance from the public realm to the inside of the building at night.</p>	<p>DTS/DPF 2.5</p> <p>None are applicable.</p>
<p>Landscaping</p>	
<p>PO 3.1</p> <p>Soft landscaping and tree planting is incorporated to:</p> <ul style="list-style-type: none"> (a) minimise heat absorption and reflection (b) maximise shade and shelter (c) maximise stormwater infiltration (d) enhance the appearance of land and streetscapes (e) contribute to biodiversity. 	<p>DTS/DPF 3.1</p> <p>None are applicable.</p>
<p>PO 3.2</p> <p>Soft landscaping and tree planting maximises the use of locally indigenous plant species, incorporates plant species best suited to current and future climate conditions and avoids pest plant and weed species.</p>	<p>DTS/DPF 3.2</p> <p>None are applicable.</p>
<p>Environmental Performance</p>	
<p>PO 4.1</p> <p>Buildings are sited, oriented and designed to maximise natural sunlight access and ventilation to main activity areas, habitable rooms, common areas and open spaces.</p>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>
<p>PO 4.2</p> <p>Buildings are sited and designed to maximise passive environmental performance and minimise energy consumption and reliance on mechanical systems, such as heating and cooling.</p>	<p>DTS/DPF 4.2</p> <p>None are applicable.</p>
<p>PO 4.3</p> <p>Buildings incorporate climate-responsive techniques and features such as building and window orientation, use of eaves, verandahs and shading structures, water harvesting, at ground landscaping, green walls, green roofs and photovoltaic cells.</p>	<p>DTS/DPF 4.3</p> <p>None are applicable.</p>
<p>Water Sensitive Design</p>	
<p>PO 5.1</p> <p>Development is sited and designed to maintain natural hydrological systems without negatively impacting:</p> <ul style="list-style-type: none"> (a) the quantity and quality of surface water and groundwater (b) the depth and directional flow of surface water and groundwater (c) the quality and function of natural springs. 	<p>DTS/DPF 5.1</p> <p>None are applicable.</p>
<p>On-site Waste Treatment Systems</p>	
<p>PO 6.1</p>	<p>DTS/DPF 6.1</p>

<p>Dedicated on-site effluent disposal areas do not include any areas to be used for, or could be reasonably foreseen to be used for, private open space, driveways or car parking.</p>	<p>Effluent disposal drainage areas do not:</p> <ul style="list-style-type: none"> (a) encroach within an area used as private open space or result in less private open space than that specified in Design Table 1 - Private Open Space (b) use an area also used as a driveway (c) encroach within an area used for on-site car parking or result in less on-site car parking than that specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.
---	--

Carparking Appearance

<p>PO 7.1</p> <p>Development facing the street is designed to minimise the negative impacts of any semi-basement and undercroft car parking on the streetscapes through techniques such as:</p> <ul style="list-style-type: none"> (a) limiting protrusion above finished ground level (b) screening through appropriate planting, fencing and mounding (c) limiting the width of openings and integrating them into the building structure. 	<p>DTS/DPF 7.1</p> <p>None are applicable.</p>
<p>PO 7.2</p> <p>Vehicle parking areas are appropriately located, designed and constructed to minimise impacts on adjacent sensitive receivers through measures such as ensuring they are attractively developed and landscaped, screen fenced and the like.</p>	<p>DTS/DPF 7.2</p> <p>None are applicable.</p>
<p>PO 7.3</p> <p>Safe, legible, direct and accessible pedestrian connections are provided between parking areas and the development.</p>	<p>DTS/DPF 7.3</p> <p>None are applicable.</p>
<p>PO 7.4</p> <p>Street level vehicle parking areas incorporate tree planting to provide shade and reduce solar heat absorption and reflection.</p>	<p>DTS/DPF 7.4</p> <p>None are applicable.</p>
<p>PO 7.5</p> <p>Street level parking areas incorporate soft landscaping to improve visual appearance when viewed from within the site and from public places.</p>	<p>DTS/DPF 7.5</p> <p>None are applicable.</p>
<p>PO 7.6</p> <p>Vehicle parking areas and associated driveways are landscaped to provide shade and positively contribute to amenity.</p>	<p>DTS/DPF 7.6</p> <p>None are applicable.</p>
<p>PO 7.7</p> <p>Vehicle parking areas and access ways incorporate integrated stormwater management techniques such as permeable or porous surfaces, infiltration systems, drainage swales or rain gardens that integrate with soft landscaping.</p>	<p>DTS/DPF 7.7</p> <p>None are applicable.</p>

Earthworks and sloping land

<p>PO 8.1</p> <p>Development, including any associated driveways and access tracks, minimises the need for earthworks to limit disturbance to natural topography.</p>	<p>DTS/DPF 8.1</p> <p>Development does not involve any of the following:</p> <ul style="list-style-type: none"> (a) excavation exceeding a vertical height of 1m (b) filling exceeding a vertical height of 1m (c) a total combined excavation and filling vertical height of 2m or more.
<p>PO 8.2</p> <p>Driveways and access tracks are designed and constructed to allow safe and convenient access on sloping land (with a gradient exceeding 1 in 8).</p>	<p>DTS/DPF 8.2</p> <p>Driveways and access tracks on sloping land (with a gradient exceeding 1 in 8) satisfy (a) and (b):</p> <ul style="list-style-type: none"> (a) do not have a gradient exceeding 25% (1-in-4) at any point along the driveway (b) are constructed with an all-weather trafficable surface.
<p>PO 8.3</p> <p>Driveways and access tracks on sloping land (with a gradient exceeding 1 in 8):</p> <ul style="list-style-type: none"> (a) do not contribute to the instability of embankments and cuttings (b) provide level transition areas for the safe movement of people and goods to and from the development (c) are designed to integrate with the natural topography of the land. 	<p>DTS/DPF 8.3</p> <p>None are applicable.</p>
<p>PO 8.4</p> <p>Development on sloping land (with a gradient exceeding 1 in 8) avoids the alteration of natural drainage lines and includes on-site drainage systems to minimise erosion.</p>	<p>DTS/DPF 8.4</p> <p>None are applicable.</p>
<p>PO 8.5</p> <p>Development does not occur on land at risk of landslip nor increases the potential for landslip</p>	<p>DTS/DPF 8.5</p> <p>None are applicable.</p>

or land surface instability.	
Fences and Walls	
PO 9.1 Fences, walls and retaining walls are of sufficient height to maintain privacy and security without unreasonably impacting the visual amenity and adjoining land's access to sunlight or the amenity of public places.	DTS/DPF 9.1 None are applicable.
PO 9.2 Landscaping incorporated on the low side of retaining walls is visible from public roads and public open space to minimise visual impacts.	DTS/DPF 9.2 A vegetated landscaped strip 1m wide or more is provided against the low side of a retaining wall.
Overlooking / Visual Privacy (in building 3 storeys or less)	
PO 10.1 Development mitigates direct overlooking from upper level windows to habitable rooms and private open spaces of adjoining residential uses.	DTS/DPF 10.1 Upper level windows facing side or rear boundaries shared with a residential allotment/site satisfy one of the following: (a) are permanently obscured to a height of 1.5m above finished floor level and are fixed or not capable of being opened more than 200mm (b) have sill heights greater than or equal to 1.5m above finished floor level (c) incorporate screening with a maximum of 25% openings, permanently fixed no more than 500mm from the window surface and sited adjacent to any part of the window less than 1.5 m above the finished floor level.
PO 10.2 Development mitigates direct overlooking from balconies, terraces and decks to habitable rooms and private open space of adjoining residential uses.	DTS/DPF 10.2 One of the following is satisfied: (a) the longest side of the balcony or terrace will face a public road, public road reserve or public reserve that is at least 15m wide in all places faced by the balcony or terrace or (b) all sides of balconies or terraces on upper building levels are permanently obscured by screening with a maximum 25% transparency/openings fixed to a minimum height of: (i) 1.5m above finished floor level where the balcony is located at least 15 metres from the nearest habitable window of a dwelling on adjacent land or (ii) 1.7m above finished floor level in all other cases
All Residential development	
Front elevations and passive surveillance	
PO 11.1 Dwellings incorporate windows along primary street frontages to encourage passive surveillance and make a positive contribution to the streetscape.	DTS/DPF 11.1 Each dwelling with a frontage to a public street: (a) includes at least one window facing the primary street from a habitable room that has a minimum internal room dimension of 2.4m (b) has an aggregate window area of at least 2m ² facing the primary street.
PO 11.2 Dwellings incorporate entry doors within street frontages to address the street and provide a legible entry point for visitors.	DTS/DPF 11.2 Dwellings with a frontage to a public street have an entry door visible from the primary street boundary.
Outlook and amenity	
PO 12.1 Living rooms have an external outlook to provide a high standard of amenity for occupants.	DTS/DPF 12.1 A living room of a dwelling incorporates a window with an outlook towards the street frontage or private open space, public open space, or waterfront areas.
PO 12.2 Bedrooms are separated or shielded from active communal recreation areas, common access areas and vehicle parking areas and access ways to mitigate noise and artificial light intrusion.	DTS/DPF 12.2 None are applicable.
Ancillary Development	
PO 13.1 Residential ancillary buildings and structures are sited and designed to not detract from the streetscape or appearance of buildings on the site or neighbouring properties.	DTS/DPF 13.1 Ancillary buildings: (a) are ancillary to a dwelling erected on the same site (b) have a floor area not exceeding 60m ² (c) are not constructed, added to or altered so that any part is situated: (i) in front of any part of the building line of the dwelling to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: (i) is set back at least 5.5m from the boundary of the primary street (ii) when facing a primary street or secondary street, has a total door / opening not exceeding:

- A. for dwellings of single building level - 7m in width or 50% of the site frontage, whichever is the lesser
- B. for dwellings comprising two or more building levels at the building line fronting the same public street - 7m in width

- (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless:
 - (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and
 - (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
- (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary
- (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure
- (h) have a wall height or post height not exceeding 3m above natural ground level
- (i) have a roof height where no part of the roof is more than 5m above the natural ground level
- (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour
- (k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less:
 - (i) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m ²)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

- (ii) the amount of existing soft landscaping prior to the development occurring.

PO 13.2
Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision or car parking requirements and do not result in over-development of the site.

DTS/DPF 13.2
Ancillary buildings and structures do not result in:

- (a) less private open space than specified in Design in Urban Areas Table 1 - Private Open Space
- (b) less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.

PO 13.3
Fixed plant and equipment in the form of pumps and/or filtration systems for a swimming pool or spa is positioned and/or housed to not cause unreasonable noise nuisance to adjacent sensitive receivers.

DTS/DPF 13.3
The pump and/or filtration system is ancillary to a dwelling erected on the same site and is:

- (a) enclosed in a solid acoustic structure that is located at least 5m from the nearest habitable room located on an adjoining allotment or
- (b) located at least 12m from the nearest habitable room located on an adjoining allotment.

Garage appearance

PO 14.1
Garaging is designed to not detract from the streetscape or appearance of a dwelling.

DTS/DPF 14.1
Garages and carports facing a street:

- (a) are situated so that no part of the garage or carport is in front of any part of the building line of the dwelling
- (b) are set back at least 5.5m from the boundary of the primary street
- (c) have a garage door / opening not exceeding 7m in width
- (d) have a garage door / opening width not exceeding 50% of the site frontage unless the dwelling has two or more building levels at the building line fronting the same public street.

Massing

PO 15.1
The visual mass of larger buildings is reduced when viewed from adjoining allotments or public streets.

DTS/DPF 15.1
None are applicable

Dwelling additions

PO 16.1
Dwelling additions are sited and designed to not detract from the streetscape or amenity of

DTS / DPF 16.1
Dwelling additions:

adjoining properties and do not impede on-site functional requirements.

- (a) are not constructed, added to or altered so that any part is situated closer to a public street
- (b) do not result in:
 - (i) excavation exceeding a vertical height of 1m
 - (ii) filling exceeding a vertical height of 1m
 - (iii) a total combined excavation and filling vertical height of 2m or more
 - (iv) less Private Open Space than specified in Design Table 1 - Private Open Space
 - (v) less on-site parking than specified in Transport Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas
 - (vi) upper level windows facing side or rear boundaries unless:
 - A. they are permanently obscured to a height of 1.5m above finished floor level that is fixed or not capable of being opened more than 200mm or
 - B. have sill heights greater than or equal to 1.5m above finished floor level or
 - C. incorporate screening to a height of 1.5m above finished floor level
 - (vii) all sides of balconies or terraces on upper building levels are permanently obscured by screening with a maximum 25% transparency/openings fixed to a minimum height of:
 - A. 1.5m above finished floor level where the balcony is located at least 15 metres from the nearest habitable window of a dwelling on adjacent land
 - B. 1.7m above finished floor level in all other cases.

Private Open Space

PO 17.1
Dwellings are provided with suitable sized areas of usable private open space to meet the needs of occupants.

DTS/DPF 17.1
Private open space is provided in accordance with Design Table 1 - Private Open Space.

Water Sensitive Design

PO 18.1
Residential development creating a common driveway / access includes stormwater management systems that minimise the discharge of sediment, suspended solids, organic matter, nutrients, bacteria, litter and other contaminants to the stormwater system, watercourses or other water bodies.

DTS/DPF 18.1
Residential development creating a common driveway / access that services 5 or more dwellings achieves the following stormwater runoff outcomes:

- (a) 80 per cent reduction in average annual total suspended solids
- (b) 60 per cent reduction in average annual total phosphorus
- (c) 45 per cent reduction in average annual total nitrogen.

PO 18.2
Residential development creating a common driveway / access includes a stormwater management system designed to mitigate peak flows and manage the rate and duration of stormwater discharges from the site to ensure that the development does not increase the peak flows in downstream systems.

DTS/DPF 18.2
Development creating a common driveway / access that services 5 or more dwellings:

- (a) maintains the pre-development peak flow rate from the site based upon a 0.35 runoff coefficient for the 18.1% AEP 30-minute storm and the stormwater runoff time to peak is not increased or captures and retains the difference in pre-development runoff volume (based upon a 0.35 runoff coefficient) vs post development runoff volume from the site for an 18.1% AEP 30-minute storm; and
- (b) manages site generated stormwater runoff up to and including the 1% AEP flood event to avoid flooding of buildings.

Car parking, access and manoeuvrability

PO 19.1
Enclosed parking spaces are of a size and dimensions to be functional, accessible and convenient.

DTS/DPF 19.1
Residential car parking spaces enclosed by fencing, walls or other structures have the following internal dimensions (separate from any waste storage area):

- (a) single width car parking spaces:
 - (i) a minimum length of 5.4m per space
 - (ii) a minimum width of 3.0m
 - (iii) a minimum garage door width of 2.4m
- (b) double width car parking spaces (side by side):
 - (i) a minimum length of 5.4m
 - (ii) a minimum width of 5.4m
 - (iii) minimum garage door width of 2.4m per space.

PO 19.2
Uncovered parking spaces are of a size and dimensions to be functional, accessible and convenient.

DTS/DPF 19.2
Uncovered car parking spaces have:

- (a) a minimum length of 5.4m
- (b) a minimum width of 2.4m
- (c) a minimum width between the centre line of the space and any fence, wall or other

	obstruction of 1.5m
PO 19.3 Driveways are located and designed to facilitate safe access and egress while maximising land available for street tree planting, landscaped street frontages, domestic waste collection and on-street parking.	DTS/DPF 19.3 Driveways and access points on sites with a frontage to a public road of 10m or less have a width between 3.0 and 3.2 metres measured at the property boundary and are the only access point provided on the site.
PO 19.4 Vehicle access is safe, convenient, minimises interruption to the operation of public roads and does not interfere with street infrastructure or street trees.	DTS/DPF 19.4 Vehicle access to designated car parking spaces satisfy (a) or (b): (a) is provided via a lawfully existing or authorised access point or an access point for which consent has been granted as part of an application for the division of land (b) where newly proposed: (i) is set back 6m or more from the tangent point of an intersection of 2 or more roads (ii) is set back outside of the marked lines or infrastructure dedicating a pedestrian crossing (iii) does not involve the removal, relocation or damage to of mature street trees, street furniture or utility infrastructure services.
PO 19.5 Driveways are designed to enable safe and convenient vehicle movements from the public road to on-site parking spaces.	DTS/DPF 19.5 Driveways are designed and sited so that: (a) the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the garage or carport is not steeper than 1:4 on average (b) they are aligned relative to the street boundary so that there is no more than a 20 degree deviation from 90 degrees between the centreline of any dedicated car parking space to which it provides access (measured from the front of that space) and the street boundary (c) if located to provide access from an alley, lane or right of way - the alley, land or right or way is at least 6.2m wide along the boundary of the allotment / site
PO 19.6 Driveways and access points are designed and distributed to optimise the provision of on-street visitor parking.	DTS/DPF 19.6 Where on-street parking is available abutting the site's street frontage, on-street parking is retained in accordance with the following requirements: (a) minimum 0.33 on-street spaces per dwelling on the site (rounded up to the nearest whole number) (b) minimum car park length of 5.4m where a vehicle can enter or exit a space directly (c) minimum carpark length of 6m for an intermediate space located between two other parking spaces or to an end obstruction where the parking is indented.

Waste storage

PO 20.1 Provision is made for the adequate and convenient storage of waste bins in a location screened from public view.	DTS/DPF 20.1 None are applicable.
---	--------------------------------------

Design of Transportable Dwellings

PO 21.1 The sub-floor space beneath transportable buildings is enclosed to give the appearance of a permanent structure.	DTS/DPF 21.1 Buildings satisfy (a) or (b): (a) are not transportable or (b) the sub-floor space between the building and ground level is clad in a material and finish consistent with the building.
---	--

Group dwelling, residential flat buildings and battle-axe development

Amenity

PO 22.1 Dwellings are of a suitable size to accommodate a layout that is well organised and provides a high standard of amenity for occupants.	DTS/DPF 22.1 Dwellings have a minimum internal floor area in accordance with the following table: <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: left;">Number of bedrooms</th> <th style="text-align: left;">Minimum internal floor area</th> </tr> </thead> <tbody> <tr> <td>Studio</td> <td>35m²</td> </tr> <tr> <td>1 bedroom</td> <td>50m²</td> </tr> <tr> <td>2 bedroom</td> <td>65m²</td> </tr> <tr> <td>3+ bedrooms</td> <td>80m² and any dwelling over 3 bedrooms provides an additional 15m² for every additional bedroom</td> </tr> </tbody> </table>	Number of bedrooms	Minimum internal floor area	Studio	35m ²	1 bedroom	50m ²	2 bedroom	65m ²	3+ bedrooms	80m ² and any dwelling over 3 bedrooms provides an additional 15m ² for every additional bedroom
Number of bedrooms	Minimum internal floor area										
Studio	35m ²										
1 bedroom	50m ²										
2 bedroom	65m ²										
3+ bedrooms	80m ² and any dwelling over 3 bedrooms provides an additional 15m ² for every additional bedroom										

PO 22.2	DTS/DPF 22.2
The orientation and siting of buildings minimises impacts on the amenity, outlook and privacy of occupants and neighbours.	None are applicable.
PO 22.3	DTS/DPF 22.3
Development maximises the number of dwellings that face public open space and public streets and limits dwellings oriented towards adjoining properties.	None are applicable.
PO 22.4	DTS/DPF 22.4
Battle-axe development is appropriately sited and designed to respond to the existing neighbourhood context.	Dwelling sites/allotments are not in the form of a battle-axe arrangement.
Communal Open Space	
PO 23.1	DTS/DPF 23.1
Private open space provision may be substituted for communal open space which is designed and sited to meet the recreation and amenity needs of residents.	None are applicable.
PO 23.2	DTS/DPF 23.2
Communal open space is of sufficient size and dimensions to cater for group recreation.	Communal open space incorporates a minimum dimension of 5 metres.
PO 23.3	DTS/DPF 23.3
Communal open space is designed and sited to: (a) be conveniently accessed by the dwellings which it services (b) have regard to acoustic, safety, security and wind effects.	None are applicable.
PO 23.4	DTS/DPF 23.4
Communal open space contains landscaping and facilities that are functional, attractive and encourage recreational use.	None are applicable.
PO 23.5	DTS/DPF 23.5
Communal open space is designed and sited to: (a) in relation to rooftop or elevated gardens, minimise overlooking into habitable room windows or onto the useable private open space of other dwellings (b) in relation to ground floor communal space, be overlooked by habitable rooms to facilitate passive surveillance.	None are applicable.
Carparking, access and manoeuvrability	
PO 24.1	DTS/DPF 24.1
Driveways and access points are designed and distributed to optimise the provision of on-street visitor parking.	Where on-street parking is available directly adjacent the site, on-street parking is retained adjacent the subject site in accordance with the following requirements: (a) minimum 0.33 on-street car parks per proposed dwellings (rounded up to the nearest whole number) (b) minimum car park length of 5.4m where a vehicle can enter or exit a space directly (c) minimum carpark length of 6m for an intermediate space located between two other parking spaces or to an end obstruction where the parking is indented.
PO 24.2	DTS/DPF 24.2
The number of vehicular access points onto public roads is minimised to reduce interruption of the footpath and positively contribute to public safety and walkability.	Access to group dwellings or dwellings within a residential flat building is provided via a single common driveway.
PO 24.3	DTS/DPF 24.3
Residential driveways that service more than one dwelling are designed to allow safe and convenient movement.	Driveways that service more than 1 dwelling or a dwelling on a battle-axe site: (a) have a minimum width of 3m (b) for driveways servicing more than 3 dwellings: (i) have a width of 5.5m or more and a length of 6m or more at the kerb of the primary street (ii) where the driveway length exceeds 30m, incorporate a passing point at least every 30 metres with a minimum width of 5.5m and a minimum length of 6m.
PO 24.4	DTS/DPF 24.4
Residential driveways in a battle-axe configuration are designed to allow safe and convenient movement.	Where in a battle-axe configuration, a driveway servicing one dwelling has a minimum width of 3m.
PO 24.5	DTS/DPF 24.5
Residential driveways that service more than one dwelling are designed to allow passenger vehicles to enter and exit the site and manoeuvre within the site in a safe and convenient manner.	Driveways providing access to more than one dwelling, or a dwelling on a battle-axe site, allow a B85 passenger vehicle to enter and exit the garages or parking spaces in no more than a three-point turn manoeuvre.
PO 24.6	DTS/DPF 24.6
Dwellings are adequately separated from common driveways and manoeuvring areas.	Dwelling walls with entry doors or ground level habitable room windows are set back at least

	1.5m from any driveway or area designated for the movement and manoeuvring of vehicles.
Soft Landscaping	
PO 25.1 Soft landscaping is provided between dwellings and common driveways to improve the outlook for occupants and appearance of common areas.	DTS/DPF 25.1 Other than where located directly in front of a garage or a building entry, soft landscaping with a minimum dimension of 1m is provided between a dwelling and common driveway.
PO 25.2 Soft landscaping is provided that improves the appearance of common driveways.	DTS/DPF 25.2 Where a common driveway is located directly adjacent the side or rear boundary of the site, soft landscaping with a minimum dimension of 1m is provided between the driveway and site boundary (excluding along the perimeter of a passing point).
Site Facilities / Waste Storage	
PO 26.1 Provision is made for suitable mailbox facilities close to the major pedestrian entry to the site or conveniently located considering the nature of accommodation and mobility of occupants.	DTS/DPF 26.1 None are applicable.
PO 26.2 Provision is made for suitable external clothes drying facilities.	DTS/DPF 26.2 None are applicable.
PO 26.3 Provision is made for suitable household waste and recyclable material storage facilities which are: (a) located away, or screened, from public view, and (b) conveniently located in proximity to dwellings and the waste collection point.	DTS/DPF 26.3 None are applicable.
PO 26.4 Waste and recyclable material storage areas are located away from dwellings.	DTS/DPF 26.4 Dedicated waste and recyclable material storage areas are located at least 3m from any habitable room window.
PO 26.5 Where waste bins cannot be conveniently collected from the street, provision is made for on-site waste collection, designed to accommodate the safe and convenient access, egress and movement of waste collection vehicles.	DTS/DPF 26.5 None are applicable.
PO 26.6 Services including gas and water meters are conveniently located and screened from public view.	DTS/DPF 26.6 None are applicable.
Supported accommodation and retirement facilities	
Siting and Configuration	
PO 27.1 Supported accommodation and housing for aged persons and people with disabilities is located where on-site movement of residents is not unduly restricted by the slope of the land.	DTS/DPF 27.1 None are applicable.
Movement and Access	
PO 28.1 Development is designed to support safe and convenient access and movement for residents by providing: (a) ground-level access or lifted access to all units (b) level entry porches, ramps, paths, driveways, passenger loading areas and areas adjacent to footpaths that allow for the passing of wheelchairs and resting places (c) car parks with gradients no steeper than 1-in-40 and of sufficient area to provide for wheelchair manoeuvrability (d) kerb ramps at pedestrian crossing points.	DTS/DPF 28.1 None are applicable.
Communal Open Space	
PO 29.1 Development is designed to provide attractive, convenient and comfortable indoor and outdoor communal areas to be used by residents and visitors.	DTS/DPF 29.1 None are applicable.
PO 29.2 Private open space provision may be substituted for communal open space which is designed and sited to meet the recreation and amenity needs of residents.	DTS/DPF 29.2 None are applicable.
PO 29.3 Communal open space is of sufficient size and dimensions to cater for group recreation.	DTS/DPF 29.3 Communal open space incorporates a minimum dimension of 5 metres.
PO 29.4 Communal open space is designed and sited to:	DTS/DPF 29.4 None are applicable.

<p>(a) be conveniently accessed by the dwellings which it services (b) have regard to acoustic, safety, security and wind effects.</p>	
<p>PO 29.5 Communal open space contains landscaping and facilities that are functional, attractive and encourage recreational use.</p>	<p>DTS/DPF 29.5 None are applicable.</p>
<p>PO 29.6 Communal open space is designed and sited to:</p> <p>(a) in relation to rooftop or elevated gardens, minimise overlooking into habitable room windows or onto the useable private open space of other dwellings (b) in relation to ground floor communal space, be overlooked by habitable rooms to facilitate passive surveillance.</p>	<p>DTS/DPF 29.6 None are applicable.</p>
<p>Site Facilities / Waste Storage</p>	
<p>PO 30.1 Development is designed to provide storage areas for personal items and specialised equipment such as small electric powered vehicles, including facilities for the recharging of small electric powered vehicles.</p>	<p>DTS/DPF 30.1 None are applicable.</p>
<p>PO 30.2 Provision is made for suitable mailbox facilities close to the major pedestrian entry to the site or conveniently located considering the nature of accommodation and mobility of occupants.</p>	<p>DTS/DPF 30.2 None are applicable.</p>
<p>PO 30.3 Provision is made for suitable external clothes drying facilities.</p>	<p>DTS/DPF 28.3 None are applicable.</p>
<p>PO 30.4 Provision is made for suitable household waste and recyclable material storage facilities conveniently located and screened from public view.</p>	<p>DTS/DPF 30.4 None are applicable.</p>
<p>PO 30.5 Waste and recyclable material storage areas are located away from dwellings.</p>	<p>DTS/DPF 30.5 Dedicated waste and recyclable material storage areas are located at least 3m from any habitable room window.</p>
<p>PO 30.6 Provision is made for on-site waste collection where 10 or more bins are to be collected at any one time.</p>	<p>DTS/DPF 30.6 None are applicable.</p>
<p>PO 30.7 Services including gas and water meters are conveniently located and screened from public view.</p>	<p>DTS/DPF 30.7 None are applicable.</p>
<p>All non-residential development</p>	
<p>Water Sensitive Design</p>	
<p>PO 31.1 Development likely to result in significant risk of export of litter, oil or grease includes stormwater management systems designed to minimise pollutants entering stormwater.</p>	<p>DTS/DPF 31.1 None are applicable.</p>
<p>PO 31.2 Water discharged from a development site is of a physical, chemical and biological condition equivalent to or better than its pre-developed state.</p>	<p>DTS/DPF 31.2 None are applicable.</p>
<p>Wash-down and Waste Loading and Unloading</p>	
<p>PO 32.1 Areas for activities including loading and unloading, storage of waste refuse bins in commercial and industrial development or wash-down areas used for the cleaning of vehicles, vessels, plant or equipment are:</p> <p>(a) designed to contain all wastewater likely to pollute stormwater within a bunded and roofed area to exclude the entry of external surface stormwater run-off (b) paved with an impervious material to facilitate wastewater collection (c) of sufficient size to prevent 'splash-out' or 'over-spray' of wastewater from the wash-down area (d) designed to drain wastewater to either:</p> <p>(i) a treatment device such as a sediment trap and coalescing plate oil separator with subsequent disposal to a sewer, private or Community Wastewater Management Scheme or (ii) a holding tank and its subsequent removal off-site on a regular basis.</p>	<p>DTS/DPF 32.1 None are applicable.</p>

Dwelling Type	Minimum Rate
Dwelling (at ground level)	<p>Total private open space area:</p> <p>(a) Site area <301m²: 24m² located behind the building line.</p> <p>(b) Site area ≥ 301m²: 60m² located behind the building line.</p> <p>Minimum directly accessible from a living room: 16m² / with a minimum dimension 3m.</p>
Dwelling (above ground level)	<p>Studio (no separate bedroom): 4m² with a minimum dimension 1.8m</p> <p>One bedroom: 8m² with a minimum dimension 2.1m</p> <p>Two bedroom dwelling: 11m² with a minimum dimension 2.4m</p> <p>Three + bedroom dwelling: 15m² with a minimum dimension 2.6m</p>
Cabin or caravan (permanently fixed to the ground) in a residential park or a caravan and tourist park	Total area: 16m ² , which may be used as second car parking space, provided on each site intended for residential occupation.

Design in Urban Areas

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	<p>Development is:</p> <p>(a) contextual - by considering, recognising and carefully responding to its natural surroundings or built environment and positively contributing to the character of the locality</p> <p>(b) durable - fit for purpose, adaptable and long lasting</p> <p>(c) inclusive - by integrating landscape design to optimise pedestrian and cyclist usability, privacy and equitable access and promoting the provision of quality spaces integrated with the public realm that can be used for access and recreation and help optimise security and safety both internally and within the public realm, for occupants and visitors</p> <p>(d) sustainable - by integrating sustainable techniques into the design and siting of development and landscaping to improve community health, urban heat, water management, environmental performance, biodiversity and local amenity and to minimise energy consumption.</p>

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
All Development	
External Appearance	
PO 1.1 Buildings reinforce corners through changes in setback, articulation, materials, colour and massing (including height, width, bulk, roof form and slope).	DTS/DPF 1.1 None are applicable.
PO 1.2 Where zero or minor setbacks are desirable, development provides shelter over footpaths (in the form of verandahs, awnings, canopies and the like, with adequate lighting) to positively contribute to the walkability, comfort and safety of the public realm.	DTS/DPF 1.2 None are applicable.
PO 1.3 Building elevations facing the primary street (other than ancillary buildings) are designed and detailed to convey purpose, identify main access points and complement the streetscape.	DTS/DPF 1.3 None are applicable.
PO 1.4 Plant, exhaust and intake vents and other technical equipment are integrated into the building design to minimise visibility from the public realm and negative impacts on residential amenity by: (a) positioning plant and equipment discretely, in unobtrusive locations as viewed from public roads and spaces (b) screening rooftop plant and equipment from view (c) when located on the roof of non-residential development, locating the plant and equipment as far as practicable from adjacent sensitive land uses.	DTS/DPF 1.4 Development does not incorporate any structures that protrude beyond the roofline.
PO 1.5 The negative visual impact of outdoor storage, waste management, loading and service areas is	DTS/DPF 1.5 None are applicable.

<p>minimised by integrating them into the building design and screening them from public view (such as fencing, landscaping and built form), taking into account the form of development contemplated in the relevant zone.</p>	
Safety	
<p>PO 2.1 Development maximises opportunities for passive surveillance of the public realm by providing clear lines of sight, appropriate lighting and the use of visually permeable screening wherever practicable.</p>	<p>DTS/DPF 2.1 None are applicable.</p>
<p>PO 2.2 Development is designed to differentiate public, communal and private areas.</p>	<p>DTS/DPF 2.2 None are applicable.</p>
<p>PO 2.3 Buildings are designed with safe, perceptible and direct access from public street frontages and vehicle parking areas.</p>	<p>DTS/DPF 2.3 None are applicable.</p>
<p>PO 2.4 Development at street level is designed to maximise opportunities for passive surveillance of the adjacent public realm.</p>	<p>DTS/DPF 2.4 None are applicable.</p>
<p>PO 2.5 Common areas and entry points of buildings (such as the foyer areas of residential buildings) and non-residential land uses at street level, maximise passive surveillance from the public realm to the inside of the building at night.</p>	<p>DTS/DPF 2.5 None are applicable.</p>
Landscaping	
<p>PO 3.1 Soft landscaping and tree planting are incorporated to:</p> <ul style="list-style-type: none"> (a) minimise heat absorption and reflection (b) maximise shade and shelter (c) maximise stormwater infiltration (d) enhance the appearance of land and streetscapes. 	<p>DTS/DPF 3.1 None are applicable.</p>
Environmental Performance	
<p>PO 4.1 Buildings are sited, oriented and designed to maximise natural sunlight access and ventilation to main activity areas, habitable rooms, common areas and open spaces.</p>	<p>DTS/DPF 4.1 None are applicable.</p>
<p>PO 4.2 Buildings are sited and designed to maximise passive environmental performance and minimise energy consumption and reliance on mechanical systems, such as heating and cooling.</p>	<p>DTS/DPF 4.2 None are applicable.</p>
<p>PO 4.3 Buildings incorporate climate responsive techniques and features such as building and window orientation, use of eaves, verandahs and shading structures, water harvesting, at ground landscaping, green walls, green roofs and photovoltaic cells.</p>	<p>DTS/DPF 4.3 None are applicable.</p>
Water Sensitive Design	
<p>PO 5.1 Development is sited and designed to maintain natural hydrological systems without negatively impacting:</p> <ul style="list-style-type: none"> (a) the quantity and quality of surface water and groundwater (b) the depth and directional flow of surface water and groundwater (c) the quality and function of natural springs. 	<p>DTS/DPF 5.1 None are applicable.</p>
On-site Waste Treatment Systems	
<p>PO 6.1 Dedicated on-site effluent disposal areas do not include any areas to be used for, or could be reasonably foreseen to be used for, private open space, driveways or car parking.</p>	<p>DTS/DPF 6.1 Effluent disposal drainage areas do not:</p> <ul style="list-style-type: none"> (a) encroach within an area used as private open space or result in less private open space than that specified in Design in Urban Areas Table 1 - Private Open Space (b) use an area also used as a driveway (c) encroach within an area used for on-site car parking or result in less on-site car parking than that specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.
Car parking appearance	
<p>PO 7.1</p>	<p>DTS/DPF 7.1</p>

<p>Development facing the street is designed to minimise the negative impacts of any semi-basement and undercroft car parking on streetscapes through techniques such as:</p> <ul style="list-style-type: none"> (a) limiting protrusion above finished ground level (b) screening through appropriate planting, fencing and mounding (c) limiting the width of openings and integrating them into the building structure. 	<p>None are applicable.</p>
<p>PO 7.2</p> <p>Vehicle parking areas appropriately located, designed and constructed to minimise impacts on adjacent sensitive receivers through measures such as ensuring they are attractively developed and landscaped, screen fenced and the like.</p>	<p>DTS/DPF 7.2</p> <p>None are applicable.</p>
<p>PO 7.3</p> <p>Safe, legible, direct and accessible pedestrian connections are provided between parking areas and the development.</p>	<p>DTS/DPF 7.3</p> <p>None are applicable.</p>
<p>PO 7.4</p> <p>Street-level vehicle parking areas incorporate tree planting to provide shade, reduce solar heat absorption and reflection.</p>	<p>DTS/DPF 7.4</p> <p>Vehicle parking areas that are open to the sky and comprise 10 or more car parking spaces include a shade tree with a mature canopy of 4m diameter spaced for each 10 car parking spaces provided and a landscaped strip on any road frontage of a minimum dimension of 1m.</p>
<p>PO 7.5</p> <p>Street level parking areas incorporate soft landscaping to improve visual appearance when viewed from within the site and from public places.</p>	<p>DTS/DPF 7.5</p> <p>Vehicle parking areas comprising 10 or more car parking spaces include soft landscaping with a minimum dimension of:</p> <ul style="list-style-type: none"> (a) 1m along all public road frontages and allotment boundaries (b) 1m between double rows of car parking spaces.
<p>PO 7.6</p> <p>Vehicle parking areas and associated driveways are landscaped to provide shade and positively contribute to amenity.</p>	<p>DTS/DPF 7.6</p> <p>None are applicable.</p>
<p>PO 7.7</p> <p>Vehicle parking areas and access ways incorporate integrated stormwater management techniques such as permeable or porous surfaces, infiltration systems, drainage swales or rain gardens that integrate with soft landscaping.</p>	<p>DTS/DPF 7.7</p> <p>None are applicable.</p>
<p>Earthworks and sloping land</p>	
<p>PO 8.1</p> <p>Development, including any associated driveways and access tracks, minimises the need for earthworks to limit disturbance to natural topography.</p>	<p>DTS/DPF 8.1</p> <p>Development does not involve any of the following:</p> <ul style="list-style-type: none"> (a) excavation exceeding a vertical height of 1m (b) filling exceeding a vertical height of 1m (c) a total combined excavation and filling vertical height of 2m or more.
<p>PO 8.2</p> <p>Driveways and access tracks designed and constructed to allow safe and convenient access on sloping land.</p>	<p>DTS/DPF 8.2</p> <p>Driveways and access tracks on sloping land (with a gradient exceeding 1 in 8) satisfy (a) and (b):</p> <ul style="list-style-type: none"> (a) do not have a gradient exceeding 25% (1-in-4) at any point along the driveway (b) are constructed with an all-weather trafficable surface.
<p>PO 8.3</p> <p>Driveways and access tracks on sloping land (with a gradient exceeding 1 in 8):</p> <ul style="list-style-type: none"> (a) do not contribute to the instability of embankments and cuttings (b) provide level transition areas for the safe movement of people and goods to and from the development (c) are designed to integrate with the natural topography of the land. 	<p>DTS/DPF 8.3</p> <p>None are applicable.</p>
<p>PO 8.4</p> <p>Development on sloping land (with a gradient exceeding 1 in 8) avoids the alteration of natural drainage lines and includes on site drainage systems to minimise erosion.</p>	<p>DTS/DPF 8.4</p> <p>None are applicable.</p>
<p>PO 8.5</p> <p>Development does not occur on land at risk of landslip or increase the potential for landslip or land surface instability.</p>	<p>DTS/DPF 8.5</p> <p>None are applicable.</p>
<p>Fences and walls</p>	
<p>PO 9.1</p> <p>Fences, walls and retaining walls of sufficient height maintain privacy and security without unreasonably impacting visual amenity and adjoining land's access to sunlight or the amenity of public places.</p>	<p>DTS/DPF 9.1</p> <p>None are applicable.</p>
<p>PO 9.2</p> <p>Landscaping is incorporated on the low side of retaining walls that are visible from public roads</p>	<p>DTS/DPF 9.2</p> <p>A vegetated landscaped strip 1m wide or more is provided against the low side of a retaining</p>

and public open space to minimise visual impacts.	wall.
Overlooking / Visual Privacy (low rise buildings)	
PO 10.1 Development mitigates direct overlooking from upper level windows to habitable rooms and private open spaces of adjoining residential uses in neighbourhood-type zones.	DTS/DPF 10.1 Upper level windows facing side or rear boundaries shared with a residential use in a neighbourhood-type zone: (a) are permanently obscured to a height of 1.5m above finished floor level and are fixed or not capable of being opened more than 125mm (b) have sill heights greater than or equal to 1.5m above finished floor level (c) incorporate screening with a maximum of 25% openings, permanently fixed no more than 500mm from the window surface and sited adjacent to any part of the window less than 1.5 m above the finished floor level.
PO 10.2 Development mitigates direct overlooking from balconies to habitable rooms and private open space of adjoining residential uses in neighbourhood type zones.	DTS/DPF 10.2 One of the following is satisfied: (a) the longest side of the balcony or terrace will face a public road, public road reserve or public reserve that is at least 15m wide in all places faced by the balcony or terrace or (b) all sides of balconies or terraces on upper building levels are permanently obscured by screening with a maximum 25% transparency/openings fixed to a minimum height of: (i) 1.5m above finished floor level where the balcony is located at least 15 metres from the nearest habitable window of a dwelling on adjacent land or (ii) 1.7m above finished floor level in all other cases
Site Facilities / Waste Storage (excluding low rise residential development)	
PO 11.1 Development provides a dedicated area for on-site collection and sorting of recyclable materials and refuse, green organic waste and wash bay facilities for the ongoing maintenance of bins that is adequate in size considering the number and nature of the activities they will serve and the frequency of collection.	DTS/DPF 11.1 None are applicable.
PO 11.2 Communal waste storage and collection areas are located, enclosed and designed to be screened from view from the public domain, open space and dwellings.	DTS/DPF 11.2 None are applicable.
PO 11.3 Communal waste storage and collection areas are designed to be well ventilated and located away from habitable rooms.	DTS/DPF 11.3 None are applicable.
PO 11.4 Communal waste storage and collection areas are designed to allow waste and recycling collection vehicles to enter and leave the site without reversing.	DTS/DPF 11.4 None are applicable.
PO 11.5 For mixed use developments, non-residential waste and recycling storage areas and access provide opportunities for on-site management of food waste through composting or other waste recovery as appropriate.	DTS/DPF 11.5 None are applicable.
All Development - Medium and High Rise	
External Appearance	
PO 12.1 Buildings positively contribute to the character of the local area by responding to local context.	DTS/DPF 12.1 None are applicable.
PO 12.2 Architectural detail at street level and a mixture of materials at lower building levels near the public interface are provided to reinforce a human scale.	DTS/DPF 12.2 None are applicable.
PO 12.3 Buildings are designed to reduce visual mass by breaking up building elevations into distinct elements.	DTS/DPF 12.3 None are applicable.
PO 12.4 Boundary walls visible from public land include visually interesting treatments to break up large blank elevations.	DTS/DPF 12.4 None are applicable.
PO 12.5 External materials and finishes are durable and age well to minimise ongoing maintenance requirements.	DTS/DPF 12.5 Buildings utilise a combination of the following external materials and finishes: (a) masonry (b) natural stone (c) pre-finished materials that minimise staining, discolouring or deterioration.
PO 12.6 Street-facing building elevations are designed to provide attractive, high quality and pedestrian-friendly street frontages.	DTS/DPF 12.6 Building street frontages incorporate: (a) active uses such as shops or offices (b) prominent entry areas for multi-storey buildings (where it is a common entry) (c) habitable rooms of dwellings (d) areas of communal public realm with public art or the like, where consistent with the

	zone and/or subzone provisions.
<p>PO 12.7</p> <p>Entrances to multi-storey buildings are safe, attractive, welcoming, functional and contribute to streetscape character.</p>	<p>DTS/DPF 12.7</p> <p>Entrances to multi-storey buildings are:</p> <ul style="list-style-type: none"> (a) oriented towards the street (b) clearly visible and easily identifiable from the street and vehicle parking areas (c) designed to be prominent, accentuated and a welcoming feature if there are no active or occupied ground floor uses (d) designed to provide shelter, a sense of personal address and transitional space around the entry (e) located as close as practicable to the lift and / or lobby access to minimise the need for long access corridors (f) designed to avoid the creation of potential areas of entrapment.
<p>PO 12.8</p> <p>Building services, plant and mechanical equipment are screened from the public realm.</p>	<p>DTS/DPF 12.8</p> <p>None are applicable.</p>

Landscaping

<p>PO 13.1</p> <p>Development facing a street provides a well landscaped area that contains a deep soil space to accommodate a tree of a species and size adequate to provide shade, contribute to tree canopy targets and soften the appearance of buildings.</p>	<p>DTS/DPF 13.1</p> <p>Buildings provide a 4m by 4m deep soil space in front of the building that accommodates a medium to large tree, except where no building setback from front property boundaries is desired.</p>																								
<p>PO 13.2</p> <p>Deep soil zones are provided to retain existing vegetation or provide areas that can accommodate new deep root vegetation, including tall trees with large canopies to provide shade and soften the appearance of multi-storey buildings.</p>	<p>DTS/DPF 13.2</p> <p>Multi-storey development provides deep soil zones and incorporates trees at not less than the following rates, except in a location or zone where full site coverage is desired.</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr style="background-color: #2c5e8c; color: white;"> <th>Site area</th> <th>Minimum deep soil area</th> <th>Minimum dimension</th> <th>Tree / deep soil zones</th> </tr> </thead> <tbody> <tr> <td><300 m²</td> <td>10 m²</td> <td>1.5m</td> <td>1 small tree / 10 m²</td> </tr> <tr> <td>300-1500 m²</td> <td>7% site area</td> <td>3m</td> <td>1 medium tree / 30 m²</td> </tr> <tr> <td>>1500 m²</td> <td>7% site area</td> <td>6m</td> <td>1 large or medium tree / 60 m²</td> </tr> </tbody> </table> <p>Tree size and site area definitions</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td>Small tree</td> <td>4-6m mature height and 2-4m canopy spread</td> </tr> <tr> <td>Medium tree</td> <td>6-12m mature height and 4-8m canopy spread</td> </tr> <tr> <td>Large tree</td> <td>12m mature height and >8m canopy spread</td> </tr> <tr> <td>Site area</td> <td>The total area for development site, not average area per dwelling</td> </tr> </table>	Site area	Minimum deep soil area	Minimum dimension	Tree / deep soil zones	<300 m ²	10 m ²	1.5m	1 small tree / 10 m ²	300-1500 m ²	7% site area	3m	1 medium tree / 30 m ²	>1500 m ²	7% site area	6m	1 large or medium tree / 60 m ²	Small tree	4-6m mature height and 2-4m canopy spread	Medium tree	6-12m mature height and 4-8m canopy spread	Large tree	12m mature height and >8m canopy spread	Site area	The total area for development site, not average area per dwelling

Medium tree	6-12m mature height and 4-8m canopy spread																								
Large tree	12m mature height and >8m canopy spread																								
Site area	The total area for development site, not average area per dwelling																								
<p>PO 13.3</p> <p>Deep soil zones with access to natural light are provided to assist in maintaining vegetation health.</p>	<p>DTS/DPF 13.3</p> <p>None are applicable.</p>																								
<p>PO 13.4</p> <p>Unless separated by a public road or reserve, development sites adjacent to any zone that has a primary purpose of accommodating low-rise residential development incorporate a deep soil zone along the common boundary to enable medium to large trees to be retained or established to assist in screening new buildings of 3 or more building levels in height.</p>	<p>DTS/DPF 13.4</p> <p>Building elements of 3 or more building levels in height are set back at least 6m from a zone boundary in which a deep soil zone area is incorporated.</p>																								

Environmental

<p>PO 14.1</p> <p>Development minimises detrimental micro-climatic impacts on adjacent land and buildings.</p>	<p>DTS/DPF 14.1</p> <p>None are applicable.</p>
<p>PO 14.2</p> <p>Development incorporates sustainable design techniques and features such as window orientation, eaves and shading structures, water harvesting and use, green walls and roof designs that enable the provision of rain water tanks (where they are not provided elsewhere on site), green roofs and photovoltaic cells.</p>	<p>DTS/DPF 14.2</p> <p>None are applicable.</p>
<p>PO 14.3</p> <p>Development of 5 or more building levels, or 21m or more in height (as measured from natural ground level and excluding roof-mounted mechanical plant and equipment) is designed to</p>	<p>DTS/DPF 14.3</p> <p>None are applicable.</p>

minimise the impacts of wind through measures such as:	
<ul style="list-style-type: none"> (a) a podium at the base of a tall tower and aligned with the street to deflect wind away from the street (b) substantial verandahs around a building to deflect downward travelling wind flows over pedestrian areas (c) the placement of buildings and use of setbacks to deflect the wind at ground level (d) avoiding tall shear elevations that create windy conditions at street level. 	
Car Parking	
<p>PO 15.1</p> <p>Multi-level vehicle parking structures are designed to contribute to active street frontages and complement neighbouring buildings.</p>	<p>DTS/DPF 15.1</p> <p>Multi-level vehicle parking structures within buildings:</p> <ul style="list-style-type: none"> (a) provide land uses such as commercial, retail or other non-car parking uses along ground floor street frontages (b) incorporate facade treatments in building elevations facing along major street frontages that are sufficiently enclosed and detailed to complement adjacent buildings.
<p>PO 15.2</p> <p>Multi-level vehicle parking structures within buildings complement the surrounding built form in terms of height, massing and scale.</p>	<p>DTS/DPF 15.2</p> <p>None are applicable.</p>
Overlooking/Visual Privacy	
<p>PO 16.1</p> <p>Development mitigates direct overlooking of habitable rooms and private open spaces of adjacent residential uses in neighbourhood-type zones through measures such as:</p> <ul style="list-style-type: none"> (a) appropriate site layout and building orientation (b) off-setting the location of balconies and windows of habitable rooms or areas with those of other buildings so that views are oblique rather than direct to avoid direct line of sight (c) building setbacks from boundaries (including building boundary to boundary where appropriate) that interrupt views or that provide a spatial separation between balconies or windows of habitable rooms (d) screening devices that are integrated into the building design and have minimal negative effect on residents' or neighbours' amenity. 	<p>DTS/DPF 16.1</p> <p>None are applicable.</p>
All residential development	
Front elevations and passive surveillance	
<p>PO 17.1</p> <p>Dwellings incorporate windows facing primary street frontages to encourage passive surveillance and make a positive contribution to the streetscape.</p>	<p>DTS/DPF 17.1</p> <p>Each dwelling with a frontage to a public street:</p> <ul style="list-style-type: none"> (a) includes at least one window facing the primary street from a habitable room that has a minimum internal room dimension of 2.4m (b) has an aggregate window area of at least 2m² facing the primary street.
<p>PO 17.2</p> <p>Dwellings incorporate entry doors within street frontages to address the street and provide a legible entry point for visitors.</p>	<p>DTS/DPF 17.2</p> <p>Dwellings with a frontage to a public street have an entry door visible from the primary street boundary.</p>
Outlook and Amenity	
<p>PO 18.1</p> <p>Living rooms have an external outlook to provide a high standard of amenity for occupants.</p>	<p>DTS/DPF 18.1</p> <p>A living room of a dwelling incorporates a window with an external outlook of the street frontage, private open space, public open space, or waterfront areas.</p>
<p>PO 18.2</p> <p>Bedrooms are separated or shielded from active communal recreation areas, common access areas and vehicle parking areas and access ways to mitigate noise and artificial light intrusion.</p>	<p>DTS/DPF 18.2</p> <p>None are applicable.</p>
Ancillary Development	
<p>PO 19.1</p> <p>Residential ancillary buildings are sited and designed to not detract from the streetscape or appearance of primary residential buildings on the site or neighbouring properties.</p>	<p>DTS/DPF 19.1</p> <p>Ancillary buildings:</p> <ul style="list-style-type: none"> (a) are ancillary to a dwelling erected on the same site (b) have a floor area not exceeding 60m² (c) are not constructed, added to or altered so that any part is situated: <ul style="list-style-type: none"> (i) in front of any part of the building line of the dwelling to which it is ancillary or (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads) (d) in the case of a garage or carport, the garage or carport: <ul style="list-style-type: none"> (i) is set back at least 5.5m from the boundary of the primary street (ii) when facing a primary street or secondary street, has a total door / opening not exceeding: <ul style="list-style-type: none"> A. for dwellings of single building level - 7m in width or 50% of the site frontage, whichever is the lesser

B. for dwellings comprising two or more building levels at the building line fronting the same public street - 7m in width

- (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless:
 - (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and
 - (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
- (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary
- (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure
- (h) have a wall height or post height not exceeding 3m above natural ground level
- (i) have a roof height where no part of the roof is more than 5m above the natural ground level
- (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour
- (k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less:
 - (i) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m ²)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

- (ii) the amount of existing soft landscaping prior to the development occurring.

PO 19.2
Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements or result in over-development of the site.

DTS/DPF 19.2
Ancillary buildings and structures do not result in:

- (a) less private open space than specified in Design in Urban Areas Table 1 - Private Open Space
- (b) less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.

PO 19.3
Fixed plant and equipment in the form of pumps and/or filtration systems for a swimming pool or spa positioned and/or housed to not cause unreasonable noise nuisance to adjacent sensitive receivers.

DTS/DPF 19.3
The pump and/or filtration system is ancillary to a dwelling erected on the same site and is:

- (a) enclosed in a solid acoustic structure that is located at least 5m from the nearest habitable room located on an adjoining allotment or
- (b) located at least 12m from the nearest habitable room located on an adjoining allotment.

Residential Development - Low Rise

External appearance

PO 20.1
Garaging is designed to not detract from the streetscape or appearance of a dwelling.

DTS/DPF 20.1
Garages and carports facing a street:

- (a) are situated so that no part of the garage or carport will be in front of any part of the building line of the dwelling
- (b) are set back at least 5.5m from the boundary of the primary street
- (c) have a garage door / opening width not exceeding 7m
- (d) have a garage door / opening width not exceeding 50% of the site frontage unless the dwelling has two or more building levels at the building line fronting the same public street.

PO 20.2
Dwelling elevations facing public streets and common driveways make a positive contribution to the streetscape and the appearance of common driveway areas.

DTS/DPF 20.2
Each dwelling includes at least 3 of the following design features within the building elevation facing a primary street, and at least 2 of the following design features within the building elevation facing any other public road (other than a laneway) or a common driveway:

- (a) a minimum of 30% of the building wall is set back an additional 300mm from the building line
- (b) a porch or portico projects at least 1m from the building wall
- (c) a balcony projects from the building wall

	<ul style="list-style-type: none"> (d) a verandah projects at least 1m from the building wall (e) eaves of a minimum 400mm width extend along the width of the front elevation (f) a minimum 30% of the width of the upper level projects forward from the lower level primary building line by at least 300mm (g) a minimum of two different materials or finishes are incorporated on the walls of the front building elevation, with a maximum of 80% of the building elevation in a single material or finish.
--	--

PO 20.3 The visual mass of larger buildings is reduced when viewed from adjoining allotments or public streets.	DTS/DPF 20.3 None are applicable
--	-------------------------------------

Private Open Space

PO 21.1 Dwellings are provided with suitable sized areas of usable private open space to meet the needs of occupants.	DTS/DPF 21.1 Private open space is provided in accordance with Design in Urban Areas Table 1 - Private Open Space.
--	---

PO 21.2 Private open space is positioned to provide convenient access from internal living areas.	DTS/DPF 21.2 Private open space is directly accessible from a habitable room.
--	--

Landscaping

PO 22.1 Soft landscaping is incorporated into development to: <ul style="list-style-type: none"> (a) minimise heat absorption and reflection (b) contribute shade and shelter (c) provide for stormwater infiltration and biodiversity (d) enhance the appearance of land and streetscapes. 	DTS/DPF 22.1 Residential development incorporates soft landscaping with a minimum dimension of 700mm provided in accordance with (a) and (b): <ul style="list-style-type: none"> (a) a total area as determined by the following table: <table border="1" style="margin-left: 20px;"> <thead> <tr> <th style="background-color: #0056b3; color: white;">Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m²)</th> <th style="background-color: #0056b3; color: white;">Minimum percentage of site</th> </tr> </thead> <tbody> <tr> <td><150</td> <td>10%</td> </tr> <tr> <td>150-200</td> <td>15%</td> </tr> <tr> <td>>200-450</td> <td>20%</td> </tr> <tr> <td>>450</td> <td>25%</td> </tr> </tbody> </table> (b) at least 30% of any land between the primary street boundary and the primary building line. 	Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m ²)	Minimum percentage of site	<150	10%	150-200	15%	>200-450	20%	>450	25%
Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m ²)	Minimum percentage of site										
<150	10%										
150-200	15%										
>200-450	20%										
>450	25%										

Car parking, access and manoeuvrability

PO 23.1 Enclosed car parking spaces are of dimensions to be functional, accessible and convenient.	DTS/DPF 23.1 Residential car parking spaces enclosed by fencing, walls or other structures have the following internal dimensions (separate from any waste storage area): <ul style="list-style-type: none"> (a) single width car parking spaces: <ul style="list-style-type: none"> (i) a minimum length of 5.4m per space (ii) a minimum width of 3.0m (iii) a minimum garage door width of 2.4m (b) double width car parking spaces (side by side): <ul style="list-style-type: none"> (i) a minimum length of 5.4m (ii) a minimum width of 5.4m (iii) minimum garage door width of 2.4m per space.
---	---

PO 23.2 Uncovered car parking space are of dimensions to be functional, accessible and convenient.	DTS/DPF 23.2 Uncovered car parking spaces have: <ul style="list-style-type: none"> (a) a minimum length of 5.4m (b) a minimum width of 2.4m (c) a minimum width between the centre line of the space and any fence, wall or other obstruction of 1.5m.
---	--

PO 23.3 Driveways and access points are located and designed to facilitate safe access and egress while maximising land available for street tree planting, domestic waste collection, landscaped street frontages and on-street parking.	DTS/DPF 23.3 Driveways and access points satisfy (a) or (b): <ul style="list-style-type: none"> (a) sites with a frontage to a public road of 10m or less, have a width between 3.0 and 3.2 metres measured at the property boundary and are the only access point provided on
--	--

	<p>the site</p> <p>(b) sites with a frontage to a public road greater than 10m:</p> <p>(i) have a maximum width of 5m measured at the property boundary and are the only access point provided on the site;</p> <p>(ii) have a width between 3.0 metres and 3.2 metres measured at the property boundary and no more than two access points are provided on site, separated by no less than 1m.</p>
<p>PO 23.4</p> <p>Vehicle access is safe, convenient, minimises interruption to the operation of public roads and does not interfere with street infrastructure or street trees.</p>	<p>DTS/DPF 23.4</p> <p>Vehicle access to designated car parking spaces satisfy (a) or (b):</p> <p>(a) is provided via a lawfully existing or authorised access point or an access point for which consent has been granted as part of an application for the division of land</p> <p>(b) where newly proposed, is set back:</p> <p>(i) 0.5m or more from any street furniture, street pole, infrastructure services pit, or other stormwater or utility infrastructure unless consent is provided from the asset owner</p> <p>(ii) 2m or more from the base of the trunk of a street tree unless consent is provided from the tree owner for a lesser distance</p> <p>(iii) 6m or more from the tangent point of an intersection of 2 or more roads</p> <p>(iv) outside of the marked lines or infrastructure dedicating a pedestrian crossing.</p>
<p>PO 23.5</p> <p>Driveways are designed to enable safe and convenient vehicle movements from the public road to on-site parking spaces.</p>	<p>DTS/DPF 23.5</p> <p>Driveways are designed and sited so that:</p> <p>(a) the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the garage or carport is not steeper than 1-in-4 on average</p> <p>(b) they are aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of any dedicated car parking space to which it provides access (measured from the front of that space) and the road boundary.</p> <p>(c) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site</p>
<p>PO 23.6</p> <p>Driveways and access points are designed and distributed to optimise the provision of on-street visitor parking.</p>	<p>DTS/DPF 23.6</p> <p>Where on-street parking is available abutting the site's street frontage, on-street parking is retained in accordance with the following requirements:</p> <p>(a) minimum 0.33 on-street spaces per dwelling on the site (rounded up to the nearest whole number)</p> <p>(b) minimum car park length of 5.4m where a vehicle can enter or exit a space directly</p> <p>(c) minimum carpark length of 6m for an intermediate space located between two other parking spaces or to an end obstruction where the parking is indented.</p>
Waste storage	
<p>PO 24.1</p> <p>Provision is made for the convenient storage of waste bins in a location screened from public view.</p>	<p>DTS/DPF 24.1</p> <p>Where dwellings abut both side boundaries a waste bin storage area is provided behind the building line of each dwelling that:</p> <p>(a) has a minimum area of 2m² with a minimum dimension of 900mm (separate from any designated car parking spaces or private open space); and</p> <p>(b) has a continuous unobstructed path of travel (excluding moveable objects like gates, vehicles and roller doors) with a minimum width of 800mm between the waste bin storage area and the street.</p>
Design of Transportable Buildings	
<p>PO 25.1</p> <p>The sub-floor space beneath transportable buildings is enclosed to give the appearance of a permanent structure.</p>	<p>DTS/DPF 25.1</p> <p>Buildings satisfy (a) or (b):</p> <p>(a) are not transportable</p> <p>(b) the sub-floor space between the building and ground level is clad in a material and finish consistent with the building.</p>
Residential Development - Medium and High Rise (including serviced apartments)	
Outlook and Visual Privacy	
<p>PO 26.1</p> <p>Ground level dwellings have a satisfactory short range visual outlook to public, communal or private open space.</p>	<p>DTS/DPF 26.1</p> <p>Buildings:</p> <p>(a) provide a habitable room at ground or first level with a window facing toward the street</p> <p>(b) limit the height / extent of solid walls or fences facing the street to 1.2m high above the footpath level or, where higher, to 50% of the site frontage.</p>
<p>PO 26.2</p> <p>The visual privacy of ground level dwellings within multi-level buildings is protected.</p>	<p>DTS/DPF 26.2</p> <p>The finished floor level of ground level dwellings in multi-storey developments is raised by up to 1.2m.</p>
Private Open Space	

<p>PO 27.1</p> <p>Dwellings are provided with suitable sized areas of usable private open space to meet the needs of occupants.</p>	<p>DTS/DPF 27.1</p> <p>Private open space provided in accordance with Design in Urban Areas Table 1 - Private Open Space.</p>
<p>Residential amenity in multi-level buildings</p>	
<p>PO 28.1</p> <p>Residential accommodation within multi-level buildings have habitable rooms, windows and balconies designed and positioned to be separated from those of other dwellings and accommodation to provide visual and acoustic privacy and allow for natural ventilation and the infiltration of daylight into interior and outdoor spaces.</p>	<p>DTS/DPF 28.1</p> <p>Habitable rooms and balconies of independent dwellings and accommodation are separated by at least 6m from one another where there is a direct line of sight between them and 3m or more from a side or rear property boundary.</p>
<p>PO 28.2</p> <p>Balconies are designed, positioned and integrated into the overall architectural form and detail of the development to:</p> <ul style="list-style-type: none"> (a) respond to daylight, wind, and acoustic conditions to maximise comfort and provide visual privacy (b) allow views and casual surveillance of the street while providing for safety and visual privacy of nearby living spaces and private outdoor areas. 	<p>DTS/DPF 28.2</p> <p>Balconies utilise one or a combination of the following design elements:</p> <ul style="list-style-type: none"> (a) sun screens (b) pergolas (c) louvres (d) green facades (e) openable walls.
<p>PO 28.3</p> <p>Balconies are of sufficient size and depth to accommodate outdoor seating and promote indoor / outdoor living.</p>	<p>DTS/DPF 28.3</p> <p>Balconies open directly from a habitable room and incorporate a minimum dimension of 2m.</p>
<p>PO 28.4</p> <p>Dwellings are provided with sufficient space for storage to meet likely occupant needs.</p>	<p>DTS/DPF 28.4</p> <p>Dwellings (not including student accommodation or serviced apartments) are provided with storage at the following rates with at least 50% or more of the storage volume to be provided within the dwelling:</p> <ul style="list-style-type: none"> (a) studio: not less than 6m³ (b) 1 bedroom dwelling / apartment: not less than 8m³ (c) 2 bedroom dwelling / apartment: not less than 10m³ (d) 3+ bedroom dwelling / apartment: not less than 12m³.
<p>PO 28.5</p> <p>Dwellings that use light wells for access to daylight, outlook and ventilation for habitable rooms, are designed to ensure a reasonable living amenity is provided.</p>	<p>DTS/DPF 28.5</p> <p>Light wells:</p> <ul style="list-style-type: none"> (a) are not used as the primary source of outlook for living rooms (b) up to 18m in height have a minimum horizontal dimension of 3m, or 6m if overlooked by bedrooms (c) above 18m in height have a minimum horizontal dimension of 6m, or 9m if overlooked by bedrooms.
<p>PO 28.6</p> <p>Attached or abutting dwellings are designed to minimise the transmission of sound between dwellings and, in particular, to protect bedrooms from possible noise intrusions.</p>	<p>DTS/DPF 28.6</p> <p>None are applicable.</p>
<p>PO 28.7</p> <p>Dwellings are designed so that internal structural columns correspond with the position of internal walls to ensure that the space within the dwelling/apartment is useable.</p>	<p>DTS/DPF 28.7</p> <p>None are applicable.</p>
<p>Dwelling Configuration</p>	
<p>PO 29.1</p> <p>Buildings containing in excess of 10 dwellings provide a variety of dwelling sizes and a range in the number of bedrooms per dwelling to contribute to housing diversity.</p>	<p>DTS/DPF 29.1</p> <p>Buildings containing in excess of 10 dwellings provide at least one of each of the following:</p> <ul style="list-style-type: none"> (a) studio (where there is no separate bedroom) (b) 1 bedroom dwelling / apartment with a floor area of at least 50m² (c) 2 bedroom dwelling / apartment with a floor area of at least 65m² (d) 3+ bedroom dwelling / apartment with a floor area of at least 80m², and any dwelling over 3 bedrooms provides an additional 15m² for every additional bedroom.
<p>PO 29.2</p> <p>Dwellings located on the ground floor of multi-level buildings with 3 or more bedrooms have the windows of their habitable rooms overlooking internal courtyard space or other public space, where possible.</p>	<p>DTS/DPF 29.2</p> <p>None are applicable.</p>
<p>Common Areas</p>	
<p>PO 30.1</p> <p>The size of lifts, lobbies and corridors is sufficient to accommodate movement of bicycles, strollers, mobility aids and visitor waiting areas.</p>	<p>DTS/DPF 30.1</p> <p>Common corridor or circulation areas:</p> <ul style="list-style-type: none"> (a) have a minimum ceiling height of 2.7m (b) provide access to no more than 8 dwellings (c) incorporate a wider section at apartment entries where the corridors exceed 12m in length from a core.

Amenity											
<p>PO 31.1</p> <p>Dwellings are of a suitable size to provide a high standard of amenity for occupants.</p>	<p>DTS/DPF 31.1</p> <p>Dwellings have a minimum internal floor area in accordance with the following table:</p> <table border="1"> <thead> <tr> <th>Number of bedrooms</th> <th>Minimum internal floor area</th> </tr> </thead> <tbody> <tr> <td>Studio</td> <td>35m²</td> </tr> <tr> <td>1 bedroom</td> <td>50m²</td> </tr> <tr> <td>2 bedroom</td> <td>65m²</td> </tr> <tr> <td>3+ bedrooms</td> <td>80m² and any dwelling over 3 bedrooms provides an additional 15m² for every additional bedroom</td> </tr> </tbody> </table>	Number of bedrooms	Minimum internal floor area	Studio	35m ²	1 bedroom	50m ²	2 bedroom	65m ²	3+ bedrooms	80m ² and any dwelling over 3 bedrooms provides an additional 15m ² for every additional bedroom
Number of bedrooms	Minimum internal floor area										
Studio	35m ²										
1 bedroom	50m ²										
2 bedroom	65m ²										
3+ bedrooms	80m ² and any dwelling over 3 bedrooms provides an additional 15m ² for every additional bedroom										
<p>PO 31.2</p> <p>The orientation and siting of buildings minimises impacts on the amenity, outlook and privacy of occupants and neighbours.</p>	<p>DTS/DPF 31.2</p> <p>None are applicable.</p>										
<p>PO 31.3</p> <p>Development maximises the number of dwellings that face public open space and public streets and limits dwellings oriented towards adjoining properties.</p>	<p>DTS/DPF 31.3</p> <p>None are applicable.</p>										
<p>PO 31.4</p> <p>Battle-axe development is appropriately sited and designed to respond to the existing neighbourhood context.</p>	<p>DTS/DPF 31.4</p> <p>Dwelling sites/allotments are not in the form of a battle-axe arrangement.</p>										

Communal Open Space	
<p>PO 32.1</p> <p>Private open space provision may be substituted for communal open space which is designed and sited to meet the recreation and amenity needs of residents.</p>	<p>DTS/DPF 32.1</p> <p>None are applicable.</p>
<p>PO 32.2</p> <p>Communal open space is of sufficient size and dimensions to cater for group recreation.</p>	<p>DTS/DPF 32.2</p> <p>Communal open space incorporates a minimum dimension of 5 metres.</p>
<p>PO 32.3</p> <p>Communal open space is designed and sited to:</p> <ul style="list-style-type: none"> (a) be conveniently accessed by the dwellings which it services (b) have regard to acoustic, safety, security and wind effects. 	<p>DTS/DPF 32.3</p> <p>None are applicable.</p>
<p>PO 32.4</p> <p>Communal open space contains landscaping and facilities that are functional, attractive and encourage recreational use.</p>	<p>DTS/DPF 32.4</p> <p>None are applicable.</p>
<p>PO 32.5</p> <p>Communal open space is designed and sited to:</p> <ul style="list-style-type: none"> (a) in relation to rooftop or elevated gardens, minimise overlooking into habitable room windows or onto the useable private open space of other dwellings (b) in relation to ground floor communal space, be overlooked by habitable rooms to facilitate passive surveillance. 	<p>DTS/DPF 32.5</p> <p>None are applicable.</p>

Car parking, access and manoeuvrability	
<p>PO 33.1</p> <p>Driveways and access points are designed and distributed to optimise the provision of on-street visitor parking.</p>	<p>DTS/DPF 33.1</p> <p>Where on-street parking is available directly adjacent the site, on-street parking is retained adjacent the subject site in accordance with the following requirements:</p> <ul style="list-style-type: none"> (a) minimum 0.33 on-street car parks per proposed dwelling (rounded up to the nearest whole number) (b) minimum car park length of 5.4m where a vehicle can enter or exit a space directly (c) minimum carpark length of 6m for an intermediate space located between two other parking spaces or to an end obstruction where the parking is indented.
<p>PO 33.2</p> <p>The number of vehicular access points onto public roads is minimised to reduce interruption of the footpath and positively contribute to public safety and walkability.</p>	<p>DTS/DPF 33.2</p> <p>Access to group dwellings or dwellings within a residential flat building is provided via a single common driveway.</p>
<p>PO 33.3</p> <p>Residential driveways that service more than one dwelling are designed to allow safe and convenient movement.</p>	<p>DTS/DPF 33.3</p> <p>Driveways that service more than 1 dwelling or a dwelling on a battle-axe site:</p> <ul style="list-style-type: none"> (a) have a minimum width of 3m (b) for driveways servicing more than 3 dwellings: <ul style="list-style-type: none"> (i) have a width of 5.5m or more and a length of 6m or more at the kerb of the

	<p>primary street</p> <p>(ii) where the driveway length exceeds 30m, incorporate a passing point at least every 30 metres with a minimum width of 5.5m and a minimum length of 6m.</p>
<p>PO 33.4</p> <p>Residential driveways that service more than one dwelling or a dwelling on a battle-axe site are designed to allow passenger vehicles to enter and exit and manoeuvre within the site in a safe and convenient manner.</p>	<p>DTS/DPF 33.4</p> <p>Driveways providing access to more than one dwelling, or a dwelling on a battle-axe site, allow a B85 passenger vehicle to enter and exit the garages or parking spaces in no more than a three-point turn manoeuvre.</p>
<p>PO 33.5</p> <p>Dwellings are adequately separated from common driveways and manoeuvring areas.</p>	<p>DTS/DPF 33.5</p> <p>Dwelling walls with entry doors or ground level habitable room windows are set back at least 1.5m from any driveway or area designated for the movement and manoeuvring of vehicles.</p>
Soft landscaping	
<p>PO 34.1</p> <p>Soft landscaping is provided between dwellings and common driveways to improve the outlook for occupants and appearance of common areas.</p>	<p>DTS/DPF 34.1</p> <p>Other than where located directly in front of a garage or building entry, soft landscaping with a minimum dimension of 1m is provided between a dwelling and common driveway.</p>
<p>PO 34.2</p> <p>Battle-axe or common driveways incorporate landscaping and permeability to improve appearance and assist in stormwater management.</p>	<p>DTS/DPF 34.2</p> <p>Battle-axe or common driveways satisfy (a) and (b):</p> <p>(a) are constructed of a minimum of 50% permeable or porous material</p> <p>(b) where the driveway is located directly adjacent the side or rear boundary of the site, soft landscaping with a minimum dimension of 1m is provided between the driveway and site boundary (excluding along the perimeter of a passing point).</p>
Site Facilities / Waste Storage	
<p>PO 35.1</p> <p>Provision is made for suitable mailbox facilities close to the major pedestrian entry to the site or conveniently located considering the nature of accommodation and mobility of occupants.</p>	<p>DTS/DPF 35.1</p> <p>None are applicable.</p>
<p>PO 35.2</p> <p>Provision is made for suitable external clothes drying facilities.</p>	<p>DTS/DPF 35.2</p> <p>None are applicable.</p>
<p>PO 35.3</p> <p>Provision is made for suitable household waste and recyclable material storage facilities which are:</p> <p>(a) located away, or screened, from public view, and</p> <p>(b) conveniently located in proximity to dwellings and the waste collection point.</p>	<p>DTS/DPF 35.3</p> <p>None are applicable.</p>
<p>PO 35.4</p> <p>Waste and recyclable material storage areas are located away from dwellings.</p>	<p>DTS/DPF 35.4</p> <p>Dedicated waste and recyclable material storage areas are located at least 3m from any habitable room window.</p>
<p>PO 35.5</p> <p>Where waste bins cannot be conveniently collected from the street, provision is made for on-site waste collection, designed to accommodate the safe and convenient access, egress and movement of waste collection vehicles.</p>	<p>DTS/DPF 35.5</p> <p>None are applicable.</p>
<p>PO 35.6</p> <p>Services including gas and water meters are conveniently located and screened from public view.</p>	<p>DTS/DPF 35.6</p> <p>None are applicable.</p>
Water sensitive urban design	
<p>PO 36.1</p> <p>Residential development creating a common driveway / access includes stormwater management systems that minimise the discharge of sediment, suspended solids, organic matter, nutrients, bacteria, litter and other contaminants to the stormwater system, watercourses or other water bodies.</p>	<p>DTS/DPF 36.1</p> <p>None are applicable.</p>
<p>PO 36.2</p> <p>Residential development creating a common driveway / access includes a stormwater management system designed to mitigate peak flows and manage the rate and duration of stormwater discharges from the site to ensure that the development does not increase the peak flows in downstream systems.</p>	<p>DTS/DPF 36.2</p> <p>None are applicable.</p>
Supported Accommodation and retirement facilities	
Siting, Configuration and Design	
<p>PO 37.1</p> <p>Supported accommodation and housing for aged persons and people with disabilities is located where on-site movement of residents is not unduly restricted by the slope of the land.</p>	<p>DTS/DPF 37.1</p> <p>None are applicable.</p>

PO 37.2 Universal design features are incorporated to provide options for people living with disabilities or limited mobility and / or to facilitate ageing in place.	DTS/DPF 37.2 None are applicable.
Movement and Access	
PO 38.1 Development is designed to support safe and convenient access and movement for residents by providing: (a) ground-level access or lifted access to all units (b) level entry porches, ramps, paths, driveways, passenger loading areas and areas adjacent to footpaths that allow for the passing of wheelchairs and resting places (c) car parks with gradients no steeper than 1-in-40, and of sufficient area to provide for wheelchair manoeuvrability (d) kerb ramps at pedestrian crossing points.	DTS/DPF 38.1 None are applicable.
Communal Open Space	
PO 39.1 Development is designed to provide attractive, convenient and comfortable indoor and outdoor communal areas to be used by residents and visitors.	DTS/DPF 39.1 None are applicable.
PO 39.2 Private open space provision may be substituted for communal open space which is designed and sited to meet the recreation and amenity needs of residents.	DTS/DPF 39.2 None are applicable.
PO 39.3 Communal open space is of sufficient size and dimensions to cater for group recreation.	DTS/DPF 39.3 Communal open space incorporates a minimum dimension of 5 metres.
PO 39.4 Communal open space is designed and sited to: (a) be conveniently accessed by the dwellings which it services (b) have regard to acoustic, safety, security and wind effects.	DTS/DPF 39.4 None are applicable.
PO 39.5 Communal open space contains landscaping and facilities that are functional, attractive and encourage recreational use.	DTS/DPF 39.5 None are applicable.
PO 39.6 Communal open space is designed and sited to: (a) in relation to rooftop or elevated gardens, minimise overlooking into habitable room windows or onto the useable private open space of other dwellings (b) in relation to ground floor communal space, be overlooked by habitable rooms to facilitate passive surveillance.	DTS/DPF 39.6 None are applicable.
Site Facilities / Waste Storage	
PO 40.1 Development is designed to provide storage areas for personal items and specialised equipment such as small electric powered vehicles, including facilities for the recharging of small electric-powered vehicles.	DTS/DPF 40.1 None are applicable.
PO 40.2 Provision is made for suitable mailbox facilities close to the major pedestrian entry to the site or conveniently located considering the nature of accommodation and mobility of occupants.	DTS/DPF 40.2 None are applicable.
PO 40.3 Provision is made for suitable external clothes drying facilities.	DTS/DPF 40.3 None are applicable.
PO 40.4 Provision is made for suitable household waste and recyclable material storage facilities conveniently located away, or screened, from view.	DTS/DPF 40.4 None are applicable.
PO 40.5 Waste and recyclable material storage areas are located away from dwellings.	DTS/DPF 40.5 Dedicated waste and recyclable material storage areas are located at least 3m from any habitable room window.
PO 40.6 Provision is made for on-site waste collection where 10 or more bins are to be collected at any one time.	DTS/DPF 40.6 None are applicable.
PO 40.7 Services, including gas and water meters, are conveniently located and screened from public view.	DTS/DPF 40.7 None are applicable.

Student Accommodation	
<p>PO 41.1</p> <p>Student accommodation is designed to provide safe, secure, attractive, convenient and comfortable living conditions for residents, including an internal layout and facilities that are designed to provide sufficient space and amenity for the requirements of student life and promote social interaction.</p>	<p>DTS/DPF 41.1</p> <p>Student accommodation provides:</p> <ul style="list-style-type: none"> (a) a range of living options to meet a variety of accommodation needs, such as one-bedroom, two-bedroom and disability access units (b) common or shared facilities to enable a more efficient use of space, including: <ul style="list-style-type: none"> (i) shared cooking, laundry and external drying facilities (ii) internal and external communal and private open space provided in accordance with Design in Urban Areas Table 1 - Private Open Space (iii) common storage facilities at the rate of 8m³ for every 2 dwellings or students (iv) common on-site parking in accordance with Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas (v) bicycle parking at the rate of one space for every 2 students.
<p>PO 41.2</p> <p>Student accommodation is designed to provide easy adaptation of the building to accommodate an alternative use of the building in the event it is no longer required for student housing.</p>	<p>DTS/DPF 41.2</p> <p>None are applicable.</p>
All non-residential development	
Water Sensitive Design	
<p>PO 42.1</p> <p>Development likely to result in risk of export of sediment, suspended solids, organic matter, nutrients, oil and grease include stormwater management systems designed to minimise pollutants entering stormwater.</p>	<p>DTS/DPF 42.1</p> <p>None are applicable.</p>
<p>PO 42.2</p> <p>Water discharged from a development site is of a physical, chemical and biological condition equivalent to or better than its pre-developed state.</p>	<p>DTS/DPF 42.2</p> <p>None are applicable.</p>
<p>PO 42.3</p> <p>Development includes stormwater management systems to mitigate peak flows and manage the rate and duration of stormwater discharges from the site to ensure that development does not increase peak flows in downstream systems.</p>	<p>DTS/DPF 42.3</p> <p>None are applicable.</p>
Wash-down and Waste Loading and Unloading	
<p>PO 43.1</p> <p>Areas for activities including loading and unloading, storage of waste refuse bins in commercial and industrial development or wash-down areas used for the cleaning of vehicles, plant or equipment are:</p> <ul style="list-style-type: none"> (a) designed to contain all wastewater likely to pollute stormwater within a bunded and roofed area to exclude the entry of external surface stormwater run-off (b) paved with an impervious material to facilitate wastewater collection (c) of sufficient size to prevent 'splash-out' or 'over-spray' of wastewater from the wash-down area (d) are designed to drain wastewater to either: <ul style="list-style-type: none"> (i) a treatment device such as a sediment trap and coalescing plate oil separator with subsequent disposal to a sewer, private or Community Wastewater Management Scheme or (ii) a holding tank and its subsequent removal off-site on a regular basis. 	<p>DTS/DPF 43.1</p> <p>None are applicable.</p>
Laneway Development	
Infrastructure and Access	
<p>PO 44.1</p> <p>Development with a primary street comprising a laneway, alley, lane, right of way or similar minor thoroughfare only occurs where:</p> <ul style="list-style-type: none"> (a) existing utility infrastructure and services are capable of accommodating the development (b) the primary street can support access by emergency and regular service vehicles (such as waste collection) (c) it does not require the provision or upgrading of infrastructure on public land (such as footpaths and stormwater management systems) (d) safety of pedestrians or vehicle movement is maintained (e) any necessary grade transition is accommodated within the site of the development to support an appropriate development intensity and orderly development of land fronting minor thoroughfares. 	<p>DTS/DPF 44.1</p> <p>Development with a primary street frontage that is not an alley, lane, right of way or similar public thoroughfare.</p>

Table 1 - Private Open Space

Dwelling Type	Dwelling / Site Configuration	Minimum Rate
Dwelling (at ground level, other than a residential flat building that includes above ground dwellings)		Total private open space area: (a) Site area <301m ² : 24m ² located behind the building line. (b) Site area ≥ 301m ² : 60m ² located behind the building line. Minimum directly accessible from a living room: 16m ² / with a minimum dimension 3m.
Cabin or caravan (permanently fixed to the ground) in a residential park or caravan and tourist park		Total area: 16m ² , which may be used as second car parking space, provided on each site intended for residential occupation.
Dwelling in a residential flat building or mixed use building which incorporate above ground level dwellings	Dwellings at ground level:	15m ² / minimum dimension 3m
	Dwellings above ground level:	
	Studio (no separate bedroom)	4m ² / minimum dimension 1.8m
	One bedroom dwelling	8m ² / minimum dimension 2.1m
	Two bedroom dwelling	11m ² / minimum dimension 2.4m
	Three + bedroom dwelling	15 m ² / minimum dimension 2.6m

Forestry

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Commercial forestry is designed and sited to maximise economic benefits whilst managing potential negative impacts on the environment, transport networks, surrounding land uses and landscapes.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Siting	
PO 1.1 Commercial forestry plantations are established where there is no detrimental effect on the physical environment or scenic quality of the rural landscape.	DTS/DPF 1.1 None are applicable.
PO 1.2 Commercial forestry plantations are established on slopes that are stable to minimise the risk of soil erosion.	DTS/DPF 1.2 Commercial forestry plantations are not located on land with a slope exceeding 20% (1-in-5).
PO 1.3 Commercial forestry plantations and operations associated with their establishment, management and harvesting are appropriately set back from any sensitive receiver to minimise fire risk and noise disturbance.	DTS/DPF 1.3 Commercial forestry plantations and operations associated with their establishment, management and harvesting are set back 50m or more from any sensitive receiver.
PO 1.4 Commercial forestry plantations are separated from reserves gazetted under the <i>National Parks and Wildlife Act 1972</i> and/or <i>Wilderness Protection Act 1992</i> to minimise fire risk and potential for weed infestation.	DTS/DPF 1.4 Commercial forestry plantations and operations associated with their establishment, management and harvesting are set back 50m or more from a reserve gazetted under the <i>National Parks and Wildlife Act 1972</i> and/or <i>Wilderness Protection Act 1992</i> .
Water Protection	
PO 2.1 Commercial forestry plantations incorporate artificial drainage lines (i.e. culverts, runoffs and constructed drains) integrated with natural drainage lines to minimise concentrated water flows onto or from plantation areas.	DTS/DPF 2.1 None are applicable.
PO 2.2	DTS/DPF 2.2

Appropriate siting, layout and design measures are adopted to minimise the impact of commercial forestry plantations on surface water resources.

Commercial forestry plantations:

- (a) do not involve cultivation (excluding spot cultivation) in drainage lines
- (b) are set back 20m or more from the banks of any major watercourse (a third order or higher watercourse), lake, reservoir, wetland or sinkhole (with direct connection to an aquifer)
- (c) are set back 10m or more from the banks of any first or second order watercourse or sinkhole (with no direct connection to an aquifer).

Fire Management

PO 3.1
Commercial forestry plantations incorporate appropriate firebreaks and fire management design elements.

DTS/DPF 3.1
Commercial forestry plantations provide:

- (a) 7m or more wide external boundary firebreaks for plantations of 40ha or less
- (b) 10m or more wide external boundary firebreaks for plantations of between 40ha and 100ha
- (c) 20m or more wide external boundary firebreaks, or 10m with an additional 10m or more of fuel-reduced plantation, for plantations of 100ha or greater.

PO 3.2
Commercial forestry plantations incorporate appropriate fire management access tracks.

DTS/DPF 3.2
Commercial forestry plantation fire management access tracks:

- (a) are incorporated within all firebreaks
- (b) are 7m or more wide with a vertical clearance of 4m or more
- (c) are aligned to provide straight through access at junctions, or if they are a no through access track are appropriately signposted and provide suitable turnaround areas for fire-fighting vehicles
- (d) partition the plantation into units of 40ha or less in area.

Power-line Clearances

PO 4.1
Commercial forestry plantations achieve and maintain appropriate clearances from aboveground powerlines.

DTS/DPF 4.1
Commercial forestry plantations incorporating trees with an expected mature height of greater than 6m meet the clearance requirements listed in the following table:

Voltage of transmission line	Tower or Pole	Minimum horizontal clearance distance between plantings and transmission lines
500 kV	Tower	38m
275 kV	Tower	25m
132 kV	Tower	30m
132 kV	Pole	20m
66 kV	Pole	20m
Less than 66 kV	Pole	20m

Housing Renewal

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome

DO 1	Renewed residential environments replace older social housing and provide new social housing infrastructure and other housing options and tenures to enhance the residential amenity of the local area.
------	---

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome

Deemed-to-Satisfy Criteria / Designated Performance Feature

Land Use and Intensity

PO 1.1	DTS/DPF 1.1
--------	-------------

<p>Residential development provides a range of housing choices.</p>	<p>Development comprises one or more of the following:</p> <ul style="list-style-type: none"> (a) detached dwellings (b) semi-detached dwellings (c) row dwellings (d) group dwellings (e) residential flat buildings.
<p>PO 1.2 Medium-density housing options or higher are located in close proximity to public transit, open space and/or activity centres.</p>	<p>DTS/DPF 1.2 None are applicable.</p>
<p>Building Height</p>	
<p>PO 2.1 Buildings generally do not exceed 3 building levels unless in locations close to public transport, centres and/or open space.</p>	<p>DTS/DPF 2.1 Building height (excluding garages, carports and outbuildings) does not exceed 3 building levels and 12m and wall height does not exceed 9m (not including a gable end).</p>
<p>PO 2.2 Medium or high rise residential flat buildings located within or at the interface with zones which restrict heights to a maximum of 2 building levels transition down in scale and height towards the boundary of that zone, other than where it is a street boundary.</p>	<p>DTS/DPF 2.2 None are applicable.</p>
<p>Primary Street Setback</p>	
<p>PO 3.1 Buildings are set back from the primary street boundary to contribute to an attractive streetscape character.</p>	<p>DTS/DPF 3.1 Buildings are no closer to the primary street (excluding any balcony, verandah, porch, awning or similar structure) than 3m.</p>
<p>Secondary Street Setback</p>	
<p>PO 4.1 Buildings are set back from secondary street boundaries to maintain separation between building walls and public streets and contribute to a suburban streetscape character.</p>	<p>DTS/DPF 4.1 Buildings are set back at least 900mm from the boundary of the allotment with a secondary street frontage.</p>
<p>Boundary Walls</p>	
<p>PO 5.1 Boundary walls are limited in height and length to manage visual impacts and access to natural light and ventilation.</p>	<p>DTS/DPF 5.1 Except where the dwelling is located on a central site within a row dwelling or terrace arrangement, dwellings with side boundary walls are sited on only one side boundary and satisfy (a) or (b):</p> <ul style="list-style-type: none"> (a) adjoin or abut a boundary wall of a building on adjoining land for the same length and height (b) do not: <ul style="list-style-type: none"> (i) exceed 3.2m in height from the lower of the natural or finished ground level (ii) exceed 11.5m in length (iii) when combined with other walls on the boundary of the subject development site, a maximum 45% of the length of the boundary (iv) encroach within 3 metres of any other existing or proposed boundary walls on the subject land.
<p>PO 5.2 Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings consistent with a suburban streetscape character.</p>	<p>DTS/DPF 5.2 Dwellings in a semi-detached or row arrangement are set back 900mm or more from side boundaries shared with allotments outside the development site, except for a carport or garage.</p>
<p>Side Boundary Setback</p>	
<p>PO 6.1 Buildings are set back from side boundaries to provide:</p> <ul style="list-style-type: none"> (a) separation between dwellings in a way that contributes to a suburban character (b) access to natural light and ventilation for neighbours. 	<p>DTS/DPF 6.1 Other than walls located on a side boundary, buildings are set back from side boundaries:</p> <ul style="list-style-type: none"> (a) at least 900mm where the wall height is up to 3m (b) other than for a wall facing a southern side boundary, at least 900mm plus 1/3 of the wall height above 3m (c) at least 1.9m plus 1/3 of the wall height above 3m for walls facing a southern side boundary.
<p>Rear Boundary Setback</p>	
<p>PO 7.1 Buildings are set back from rear boundaries to provide:</p> <ul style="list-style-type: none"> (a) separation between dwellings in a way that contributes to a suburban character (b) access to natural light and ventilation for neighbours (c) private open space (d) space for landscaping and vegetation. 	<p>DTS/DPF 7.1 Dwellings are set back from the rear boundary:</p> <ul style="list-style-type: none"> (a) 3m or more for the first building level (b) 5m or more for any subsequent building level.

Buildings elevation design

<p>PO 8.1</p> <p>Dwelling elevations facing public streets and common driveways make a positive contribution to the streetscape and common driveway areas.</p>	<p>DTS/DPF 8.1</p> <p>Each dwelling includes at least 3 of the following design features within the building elevation facing a primary street, and at least 2 of the following design features within the building elevation facing any other public road (other than a laneway) or a common driveway:</p> <ul style="list-style-type: none"> (a) a minimum of 30% of the building elevation is set back an additional 300mm from the building line (b) a porch or portico projects at least 1m from the building elevation (c) a balcony projects from the building elevation (d) a verandah projects at least 1m from the building elevation (e) eaves of a minimum 400mm width extend along the width of the front elevation (f) a minimum 30% of the width of the upper level projects forward from the lower level primary building line by at least 300mm. (g) a minimum of two different materials or finishes are incorporated on the walls of the building elevation, with a maximum of 80% of the building elevation in a single material or finish.
<p>PO 8.2</p> <p>Dwellings incorporate windows along primary street frontages to encourage passive surveillance and make a positive contribution to the streetscape.</p>	<p>DTS/DPF 8.2</p> <p>Each dwelling with a frontage to a public street:</p> <ul style="list-style-type: none"> (a) includes at least one window facing the primary street from a habitable room that has a minimum internal room dimension of 2.4m (b) has an aggregate window area of at least 2m² facing the primary street
<p>PO 8.3</p> <p>The visual mass of larger buildings is reduced when viewed from adjoining allotments or public streets.</p>	<p>DTS/DPF 8.3</p> <p>None are applicable.</p>
<p>PO 8.4</p> <p>Built form considers local context and provides a quality design response through scale, massing, materials, colours and architectural expression.</p>	<p>DTS/DPF 8.4</p> <p>None are applicable.</p>
<p>PO 8.5</p> <p>Entrances to multi-storey buildings are:</p> <ul style="list-style-type: none"> (a) oriented towards the street (b) visible and easily identifiable from the street (c) designed to include a common mail box structure. 	<p>DTS/DPF 8.5</p> <p>None are applicable.</p>

Outlook and amenity

<p>PO 9.1</p> <p>Living rooms have an external outlook to provide a high standard of amenity for occupants.</p>	<p>DTS/DPF 9.1</p> <p>A living room of a dwelling incorporates a window with an external outlook towards the street frontage or private open space.</p>
<p>PO 9.2</p> <p>Bedrooms are separated or shielded from active communal recreation areas, common access areas and vehicle parking areas and access ways to mitigate noise and artificial light intrusion.</p>	<p>DTS/DPF 9.2</p> <p>None are applicable.</p>

Private Open Space

<p>PO 10.1</p> <p>Dwellings are provided with suitable sized areas of usable private open space to meet the needs of occupants.</p>	<p>DTS/DPF 10.1</p> <p>Private open space is provided in accordance with the following table:</p> <table border="1" data-bbox="801 1572 1554 2141"> <thead> <tr> <th>Dwelling Type</th> <th>Dwelling / Site Configuration</th> <th>Minimum Rate</th> </tr> </thead> <tbody> <tr> <td>Dwelling (at ground level)</td> <td></td> <td>Total area: 24m² located behind the building line Minimum adjacent to a living room: 16m² with a minimum dimension 3m</td> </tr> <tr> <td rowspan="4">Dwelling (above ground level)</td> <td>Studio</td> <td>4m² / minimum dimension 1.8m</td> </tr> <tr> <td>One bedroom dwelling</td> <td>8m² / minimum dimension 2.1m</td> </tr> <tr> <td>Two bedroom dwelling</td> <td>11m² / minimum dimension 2.4m</td> </tr> <tr> <td>Three + bedroom dwelling</td> <td>15 m² / minimum dimension 2.6m</td> </tr> </tbody> </table>	Dwelling Type	Dwelling / Site Configuration	Minimum Rate	Dwelling (at ground level)		Total area: 24m ² located behind the building line Minimum adjacent to a living room: 16m ² with a minimum dimension 3m	Dwelling (above ground level)	Studio	4m ² / minimum dimension 1.8m	One bedroom dwelling	8m ² / minimum dimension 2.1m	Two bedroom dwelling	11m ² / minimum dimension 2.4m	Three + bedroom dwelling	15 m ² / minimum dimension 2.6m
Dwelling Type	Dwelling / Site Configuration	Minimum Rate														
Dwelling (at ground level)		Total area: 24m ² located behind the building line Minimum adjacent to a living room: 16m ² with a minimum dimension 3m														
Dwelling (above ground level)	Studio	4m ² / minimum dimension 1.8m														
	One bedroom dwelling	8m ² / minimum dimension 2.1m														
	Two bedroom dwelling	11m ² / minimum dimension 2.4m														
	Three + bedroom dwelling	15 m ² / minimum dimension 2.6m														
<p>PO 10.2</p>	<p>DTS/DPF 10.2</p>															

Private open space positioned to provide convenient access from internal living areas.	At least 50% of the required area of private open space is accessible from a habitable room.										
<p>PO 10.3</p> <p>Private open space is positioned and designed to:</p> <ul style="list-style-type: none"> (a) provide useable outdoor space that suits the needs of occupants; (b) take advantage of desirable orientation and vistas; and (c) adequately define public and private space. 	<p>DTS/DPF 10.3</p> <p>None are applicable.</p>										
Visual privacy											
<p>PO 11.1</p> <p>Development mitigates direct overlooking from upper level windows to habitable rooms and private open spaces of adjoining residential uses.</p>	<p>DTS/DPF 11.1</p> <p>Upper level windows facing side or rear boundaries shared with another residential allotment/site satisfy one of the following:</p> <ul style="list-style-type: none"> (a) are permanently obscured to a height of 1.5m above finished floor level and are fixed or not capable of being opened more than 200mm (b) have sill heights greater than or equal to 1.5m above finished floor level (c) incorporate screening with a maximum of 25% openings, permanently fixed no more than 500mm from the window surface and sited adjacent to any part of the window less than 1.5m above the finished floor. 										
<p>PO 11.2</p> <p>Development mitigates direct overlooking from upper level balconies and terraces to habitable rooms and private open space of adjoining residential uses.</p>	<p>DTS/DPF 11.2</p> <p>One of the following is satisfied:</p> <ul style="list-style-type: none"> (a) the longest side of the balcony or terrace will face a public road, public road reserve or public reserve that is at least 15m wide in all places faced by the balcony or terrace or (b) all sides of balconies or terraces on upper building levels are permanently obscured by screening with a maximum 25% transparency/openings fixed to a minimum height of: <ul style="list-style-type: none"> (i) 1.5m above finished floor level where the balcony is located at least 15 metres from the nearest habitable window of a dwelling on adjacent land or (ii) 1.7m above finished floor level in all other cases 										
Landscaping											
<p>PO 12.1</p> <p>Soft landscaping is incorporated into development to:</p> <ul style="list-style-type: none"> (a) minimise heat absorption and reflection (b) maximise shade and shelter (c) maximise stormwater infiltration and biodiversity (d) enhance the appearance of land and streetscapes. 	<p>DTS/DPF 12.1</p> <p>Residential development incorporates pervious areas for soft landscaping with a minimum dimension of 700mm provided in accordance with (a) and (b):</p> <ul style="list-style-type: none"> (a) a total area as determined by the following table: <table border="1" data-bbox="804 1249 1554 1417"> <thead> <tr> <th>Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m²)</th> <th>Minimum percentage of site</th> </tr> </thead> <tbody> <tr> <td><150</td> <td>10%</td> </tr> <tr> <td><200</td> <td>15%</td> </tr> <tr> <td>200-450</td> <td>20%</td> </tr> <tr> <td>>450</td> <td>25%</td> </tr> </tbody> </table> <ul style="list-style-type: none"> (b) at least 30% of land between the road boundary and the building line. 	Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m ²)	Minimum percentage of site	<150	10%	<200	15%	200-450	20%	>450	25%
Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m ²)	Minimum percentage of site										
<150	10%										
<200	15%										
200-450	20%										
>450	25%										
Water Sensitive Design											
<p>PO 13.1</p> <p>Residential development is designed to capture and use stormwater to:</p> <ul style="list-style-type: none"> (a) maximise efficient use of water resources (b) manage peak stormwater runoff flows and volume to ensure the carrying capacities of downstream systems are not overloaded (c) manage runoff quality to maintain, as close as practical, pre-development conditions. 	<p>DTS/DPF 13.1</p> <p>None are applicable.</p>										
Car Parking											
<p>PO 14.1</p> <p>On-site car parking is provided to meet the anticipated demand of residents, with less on-site parking in areas in close proximity to public transport.</p>	<p>DTS/DPF 14.1</p> <p>On-site car parking is provided at the following rates per dwelling:</p> <ul style="list-style-type: none"> (a) 2 or fewer bedrooms - 1 car parking space (b) 3 or more bedrooms - 2 car parking spaces. 										
<p>PO 14.2</p> <p>Enclosed car parking spaces are of dimensions to be functional, accessible and convenient.</p>	<p>DTS/DPF 14.2</p> <p>Residential parking spaces enclosed by fencing, walls or other obstructions with the following internal dimensions (separate from any waste storage area):</p> <ul style="list-style-type: none"> (a) single parking spaces: <ul style="list-style-type: none"> (i) a minimum length of 5.4m (ii) a minimum width of 3.0m (iii) a minimum garage door width of 2.4m (b) double parking spaces (side by side): 										

	<ul style="list-style-type: none"> (i) a minimum length of 5.4m (ii) a minimum width of 5.5m (iii) minimum garage door width of 2.4m per space.
<p>PO 14.3</p> <p>Uncovered car parking spaces are of dimensions to be functional, accessible and convenient.</p>	<p>DTS/DPF 14.3</p> <p>Uncovered car parking spaces have:</p> <ul style="list-style-type: none"> (a) a minimum length of 5.4m (b) a minimum width of 2.4m (c) a minimum width between the centre line of the space and any fence, wall or other obstruction of 1.5m.
<p>PO 14.4</p> <p>Residential flat buildings and group dwelling developments provide sufficient on-site visitor car parking to cater for anticipated demand.</p>	<p>DTS/DPF 14.4</p> <p>Visitor car parking for group and residential flat buildings incorporating 4 or more dwellings is provided on-site at a minimum ratio of 0.25 car parking spaces per dwelling.</p>
<p>PO 14.5</p> <p>Residential flat buildings provide dedicated areas for bicycle parking.</p>	<p>DTS/DPF 14.5</p> <p>Residential flat buildings provide one bicycle parking space per dwelling.</p>
Overshadowing	
<p>PO 15.1</p> <p>Development minimises overshadowing of the private open spaces of adjoining land by ensuring that ground level open space associated with residential buildings receive direct sunlight for a minimum of 2 hours between 9am and 3pm on 21 June.</p>	<p>DTS/DPF 15.1</p> <p>None are applicable.</p>
Waste	
<p>PO 16.1</p> <p>Provision is made for the convenient storage of waste bins in a location screened from public view.</p>	<p>DTS/DPF 16.1</p> <p>A waste bin storage area is provided behind the primary building line that:</p> <ul style="list-style-type: none"> (a) has a minimum area of 2m² with a minimum dimension of 900mm (separate from any designated car parking spaces or private open space); and (b) has a continuous unobstructed path of travel (excluding moveable objects like gates, vehicles and roller doors) with a minimum width of 800mm between the waste bin storage area and the street.
<p>PO 16.2</p> <p>Residential flat buildings provide a dedicated area for the on-site storage of waste which is:</p> <ul style="list-style-type: none"> (a) easily and safely accessible for residents and for collection vehicles (b) screened from adjoining land and public roads (c) of sufficient dimensions to be able to accommodate the waste storage needs of the development considering the intensity and nature of the development and the frequency of collection. 	<p>DTS/DPF 16.2</p> <p>None are applicable.</p>
Vehicle Access	
<p>PO 17.1</p> <p>Driveways are located and designed to facilitate safe access and egress while maximising land available for street tree planting, landscaped street frontages and on-street parking.</p>	<p>DTS/DPF 17.1</p> <p>None are applicable.</p>
<p>PO 17.2</p> <p>Vehicle access is safe, convenient, minimises interruption to the operation of public roads and does not interfere with street infrastructure or street trees.</p>	<p>DTS/DPF 17.2</p> <p>Vehicle access to designated car parking spaces satisfy (a) or (b):</p> <ul style="list-style-type: none"> (a) is provided via a lawfully existing or authorised access point or an access point for which consent has been granted as part of an application for the division of land (b) where newly proposed, is set back: <ul style="list-style-type: none"> (i) 0.5m or more from any street furniture, street pole, infrastructure services pit, or other stormwater or utility infrastructure unless consent is provided from the asset owner (ii) 2m or more from the base of the trunk of a street tree unless consent is provided from the tree owner for a lesser distance (iii) 6m or more from the tangent point of an intersection of 2 or more roads (iv) outside of the marked lines or infrastructure dedicating a pedestrian crossing.
<p>PO 17.3</p> <p>Driveways are designed to enable safe and convenient vehicle movements from the public road to on-site parking spaces.</p>	<p>DTS/DPF 17.3</p> <p>Driveways are designed and sited so that:</p> <ul style="list-style-type: none"> (a) the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the garage or carport is not more than 1-in-4 on average (b) they are aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of any dedicated car parking space to which it provides access (measured from the front of that space) and the road boundary. (c) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site.
<p>PO 17.4</p>	<p>DTS/DPF 17.4</p>

<p>Driveways and access points are designed and distributed to optimise the provision of on-street parking.</p>	<p>Where on-street parking is available abutting the site's street frontage, on-street parking is retained in accordance with the following requirements:</p> <ol style="list-style-type: none"> 1. minimum 0.33 on-street spaces per dwelling on the site (rounded up to the nearest whole number) 2. Minimum car park length of 5.4m where a vehicle can enter or exit a space directly 3. minimum car park length of 6m for an intermediate space located between two other parking spaces.
<p>PO 17.5 Residential driveways that service more than one dwelling of a dimension to allow safe and convenient movement.</p>	<p>DTS/DPF 17.5 Where on-street parking is available abutting the site's street frontage, on-street parking is retained in accordance with the following requirements:</p> <ol style="list-style-type: none"> (a) minimum 0.33 on-street spaces per dwelling on the site (rounded up to the nearest whole number) (b) minimum car park length of 5.4m where a vehicle can enter or exit a space directly (c) minimum carpark length of 6m for an intermediate space located between two other parking spaces or to an end obstruction where the parking is indented.
<p>PO 17.6 Residential driveways that service more than one dwelling are designed to allow passenger vehicles to enter and exit the site and manoeuvre within the site in a safe and convenient manner.</p>	<p>DTS/DPF 17.6 Driveways providing access to more than one dwelling, or a dwelling on a battle-axe site, allow a B85 passenger vehicle to enter and exit the garages or parking spaces in no more than a three-point turn manoeuvre</p>
<p>PO 17.7 Dwellings are adequately separated from common driveways and manoeuvring areas.</p>	<p>DTS/DPF 17.7 Dwelling walls with entry doors or ground level habitable room windows are set back at least 1.5m from any driveway or area designated for the movement and manoeuvring of vehicles.</p>
<p>Storage</p>	
<p>PO 18.1 Dwellings are provided with sufficient and accessible space for storage to meet likely occupant needs.</p>	<p>DTS/DPF 18.1 Dwellings are provided with storage at the following rates and 50% or more of the storage volume is provided within the dwelling:</p> <ol style="list-style-type: none"> (a) studio: not less than 6m³ (b) 1 bedroom dwelling / apartment: not less than 8m³ (c) 2 bedroom dwelling / apartment: not less than 10m³ (d) 3+ bedroom dwelling / apartment: not less than 12m³.
<p>Earthworks</p>	
<p>PO 19.1 Development, including any associated driveways and access tracks, minimises the need for earthworks to limit disturbance to natural topography.</p>	<p>DTS/DPF 19.1 The development does not involve:</p> <ol style="list-style-type: none"> (a) excavation exceeding a vertical height of 1m or (b) filling exceeding a vertical height of 1m or (c) a total combined excavation and filling vertical height exceeding 2m.
<p>Service connections and infrastructure</p>	
<p>PO 20.1 Dwellings are provided with appropriate service connections and infrastructure.</p>	<p>DTS/DPF 20.1 The site and building:</p> <ol style="list-style-type: none"> (a) have the ability to be connected to a permanent potable water supply (b) have the ability to be connected to a sewerage system, or a wastewater system approved under the <i>South Australian Public Health Act 2011</i> (c) have the ability to be connected to electricity supply (d) have the ability to be connected to an adequate water supply (and pressure) for fire-fighting purposes (e) would not be contrary to the Regulations prescribed for the purposes of Section 86 of the <i>Electricity Act 1996</i>.
<p>Site contamination</p>	
<p>PO 21.1 Land that is suitable for sensitive land uses to provide a safe environment.</p>	<p>DTS/DPF 21.1 Development satisfies (a), (b), (c) or (d):</p> <ol style="list-style-type: none"> (a) does not involve a change in the use of land (b) involves a change in the use of land that does not constitute a change to a <u>more sensitive use</u> (c) involves a change in the use of land to a <u>more sensitive use</u> on land at which <u>site contamination</u> does not exist (as demonstrated in a <u>site contamination declaration form</u>) (d) involves a change in the use of land to a <u>more sensitive use</u> on land at which <u>site contamination</u> exists, or may exist (as demonstrated in a site contamination declaration form), and satisfies both of the following: <ol style="list-style-type: none"> (i) a <u>site contamination audit report</u> has been prepared under Part 10A of the <i>Environment Protection Act 1993</i> in relation to the land within the previous 5 years which states that

	<p>A. <u>site contamination</u> does not exist (or no longer exists) at the land or</p> <p>B. the land is suitable for the proposed use or range of uses (without the need for any further <u>remediation</u>) or</p> <p>C. where <u>remediation</u> is, or remains, necessary for the proposed use (or range of uses), <u>remediation work</u> has been carried out or will be carried out (and the applicant has provided a written undertaking that the remediation works will be implemented in association with the development)</p> <p>and</p> <p>(ii) no other <u>class 1 activity</u> or <u>class 2 activity</u> has taken place at the land since the preparation of the site contamination audit report (as demonstrated in a <u>site contamination declaration form</u>).</p>

Infrastructure and Renewable Energy Facilities

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Efficient provision of infrastructure networks and services, renewable energy facilities and ancillary development in a manner that minimises hazard, is environmentally and culturally sensitive and manages adverse visual impacts on natural and rural landscapes and residential amenity.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
General	
PO 1.1 Development is located and designed to minimise hazard or nuisance to adjacent development and land uses.	DTS/DPF 1.1 None are applicable.
Visual Amenity	
PO 2.1 The visual impact of above-ground infrastructure networks and services (excluding high voltage transmission lines), renewable energy facilities (excluding wind farms), energy storage facilities and ancillary development is minimised from townships, scenic routes and public roads by: (a) utilising features of the natural landscape to obscure views where practicable (b) siting development below ridgelines where practicable (c) avoiding visually sensitive and significant landscapes (d) using materials and finishes with low-reflectivity and colours that complement the surroundings (e) using existing vegetation to screen buildings (f) incorporating landscaping or landscaped mounding around the perimeter of a site and between adjacent allotments accommodating or zoned to primarily accommodate sensitive receivers.	DTS/DPF 2.1 None are applicable.
PO 2.2 Pumping stations, battery storage facilities, maintenance sheds and other ancillary structures incorporate vegetation buffers to reduce adverse visual impacts on adjacent land.	DTS/DPF 2.2 None are applicable.
PO 2.3 Surfaces exposed by earthworks associated with the installation of storage facilities, pipework, penstock, substations and other ancillary plant are reinstated and revegetated to reduce adverse visual impacts on adjacent land.	DTS/DPF 2.3 None are applicable.
Rehabilitation	
PO 3.1 Progressive rehabilitation (incorporating revegetation) of disturbed areas, ahead of or upon decommissioning of areas used for renewable energy facilities and transmission corridors.	DTS/DPF 3.1 None are applicable.
Hazard Management	
PO 4.1 Infrastructure and renewable energy facilities and ancillary development located and operated	DTS/DPF 4.1 None are applicable.

<p>to not adversely impact maritime or air transport safety, including the operation of ports, airfields and landing strips.</p>	
<p>PO 4.2 Facilities for energy generation, power storage and transmission are separated as far as practicable from dwellings, tourist accommodation and frequently visited public places (such as viewing platforms / lookouts) to reduce risks to public safety from fire or equipment malfunction.</p>	<p>DTS/DPF 4.2 None are applicable.</p>
<p>PO 4.3 Bushfire hazard risk is minimised for renewable energy facilities by providing appropriate access tracks, safety equipment and water tanks and establishing cleared areas around substations, battery storage and operations compounds.</p>	<p>DTS/DPF 4.3 None are applicable.</p>
<p>Electricity Infrastructure and Battery Storage Facilities</p>	
<p>PO 5.1 Electricity infrastructure is located to minimise visual impacts through techniques including:</p> <ul style="list-style-type: none"> (a) siting utilities and services: <ul style="list-style-type: none"> (i) on areas already cleared of native vegetation (ii) where there is minimal interference or disturbance to existing native vegetation or biodiversity (b) grouping utility buildings and structures with non-residential development, where practicable. 	<p>DTS/DPF 5.1 None are applicable.</p>
<p>PO 5.2 Electricity supply (excluding transmission lines) serving new development in urban areas and townships installed underground, excluding lines having a capacity exceeding or equal to 33kV.</p>	<p>DTS/DPF 5.2 None are applicable.</p>
<p>PO 5.3 Battery storage facilities are co-located with substation infrastructure where practicable to minimise the development footprint and reduce environmental impacts.</p>	<p>DTS/DPF 5.3 None are applicable.</p>
<p>Telecommunication Facilities</p>	
<p>PO 6.1 The proliferation of telecommunications facilities in the form of towers/monopoles in any one locality is managed, where technically feasible, by co-locating a facility with other communications facilities to mitigate impacts from clutter on visual amenity.</p>	<p>DTS/DPF 6.1 None are applicable.</p>
