

Tram Grade Separation Projects

Marion Road and Cross Road Level Crossing Removals

Upcoming night works

The Australian and South Australian governments have jointly (50:50) funded \$400 million to remove the level crossings from the Glenelg tram line at Marion Road and Cross Road, Plympton. These works form part of the Tram Grade Separation Projects.

To assist with project planning, service location works will be undertaken at the Marion Road and Cross Road intersection, Marion Road and Anzac Highway intersection, on Marion Road and at various locations along the tram line (see map overleaf).

Night works will be undertaken **between the hours of 7pm and 6am, from Sunday, 24 September to Friday, 6 October 2023**, weather permitting.

Night works are required to ensure the works can be undertaken safely and efficiently. Works occurring in local side streets will be completed by 11pm.

These investigations will provide a further understanding of underground services and their location and will help inform the project's detailed design.

The roads will remain open to traffic at all times. Speed and lane restrictions will be in place in the vicinity of the works, during working hours only. Please take extra care when workers are on site and observe speed limits, lane restrictions and traffic controllers when travelling through the area.

Some noise disturbance can be expected at times while these works are completed, however the work will be managed to minimise disturbance to nearby residents and businesses as much as practically possible. The project team will contact individual property owners and businesses if access to their properties is to be impacted by these works.

Pedestrians and cyclists are advised to take care when travelling through the area. For safety reasons there may be some restricted access. Where required, signage will be in place to direct pedestrians and cyclists to alternative access and/or detours.

The Department appreciates your cooperation whilst these important works are undertaken.

Further information

For more information on the project, to register for project updates, please contact the project team via the details below:
