

Main Road, Cherry Gardens

Audio Tactile Line Marking removal works

We are delivering upgrades to key strategic arterial roads in the Adelaide Hills region.

What's happening

Audio Tactile Line Marking (ATLM) along Main Road, Cherry Gardens was installed in 2025 to provide vibratory (tactile) warning to road users who have strayed from the road lane.

Following extensive noise monitoring and a review of the ATLM locations, it has been determined that ATLM can safely be removed between Black Road and Chandlers Hill Road, Cherry Gardens to reduce road noise for local residents.

How this affects you

Works will be undertaken from Monday 26 October for approximately one week, weather permitting.

To keep everyone safe while these works are undertaken, speed and lane restrictions will be in place during work hours. Traffic restrictions will move progressively along Main Road as works progress. Outside of work hours all restrictions will be lifted.

Please plan your trips, observe signage and follow the direction of onsite traffic controllers.

Access to properties and businesses will be maintained. Advance notice will be provided if temporary access restrictions are required.

Access for emergency vehicles will be maintained at all times during works.

Thank you for your patience and understanding while these works are undertaken.

When

From Monday 26 October 2026 for approximately one week, weather permitting

Hours of work

9am to 5pm

Where

Main Road between Black Road and Chandlers Hill Road, Cherry Gardens
