

AGFMA – COVID-19

Bulletin 8

AGFMA provides updates to Facilities Management Governance Group (FMGG) Members and Agency Representatives on the COVID-19 Pandemic as it relates to the Facilities Management (FM) Services.

Below is an update on the recent changes since the last Bulletin:

New Site Entry Form – COVID-19

Site Access Entry Form – COVID-19

The Site Access Entry Form has been updated to reflect the recent State Emergency Directive which removes the requirement for travellers from Victoria to self-isolate on arrival in SA.

As the Emergency Directions change to reflect the current status within other jurisdictions, the form has been revised to enable it to be adaptable to the requirements of the current Directions, for example the Northern Beaches/Greater Sydney restrictions.

As previously advised for the duration of the COVID-19 Outbreak, Agencies that receive facilities management services via the AGFMA should assess and implement the Site Access protocols for FM Service Providers' and sub-contractors entering designated locations.

A revised [Site Entry Form – COVID-19](#) should be distributed to your network for implementation within your existing site induction processes.

Further updates of the Site Entry Form – COVID-19 may be issued as State Emergency Directives are announced.
