

# Gawler Rail Electrification Project

## Barnet Road level crossing temporary closure

The Australian and South Australian governments are jointly funding the \$715 million electrification and modernisation of the Gawler rail line to deliver a faster, cleaner and more reliable service, delivering an electrified network through Adelaide from Gawler to Seaford.

As part of this project, the Barnet Road level crossing will be temporarily closed to complete overhead wiring works.

**Location:** works will be undertaken within the rail corridor between Evanston and Gawler railway stations. To ensure the works can be undertaken safely, the **Barnet Road level crossing** will be temporarily closed to all traffic for several hours while works are carried out.

**When:** in order to minimise the impact to road users, the works will be undertaken each night between 9pm and 7am from Wednesday, 13 October to Saturday, 16 October 2021, weather permitting.

The level crossing will be closed between 5am and 7am on Thursday, 14 October, Friday, 15 October and Saturday, 16 October 2021.

**Traffic management and detours:** to safely undertake these works, detours will be in place to direct motorists to alternative crossing points via Para Road and Hillier Road (refer to map). Please plan ahead, allow extra travel time and take extra care when workers are on site. Observe speed limits, lane restrictions and traffic controllers when travelling through the area.

Access to local businesses and residences in the area will be maintained during these works. Please continue to support the local businesses. Pedestrians and cyclists are advised to take care when travelling through the area. For safety reasons there may be some restricted access. Where required, signage will be in place to direct pedestrians and cyclists to alternative access and/or detours. Every effort will be made to minimise impacts to the community.

of South Australia

**BUILDING  
WHAT MATTERS**

**What you can expect:** construction plant and equipment including wiring trucks, elevated working platforms and other construction vehicles will be used on site. As work crews move along the railway line, some noise disturbance can be expected at times while these works are completed, however the work will be managed to minimise disturbance to nearby residents and businesses as much as is practically possible.

**For more information:** if you have any questions or would like to speak to a member of the project team, please call 1300 080 834, email [dit.gawlerelectrification@sa.gov.au](mailto:dit.gawlerelectrification@sa.gov.au) or visit [www.dit.sa.gov.au/grep](http://www.dit.sa.gov.au/grep)
