

Victoria Street, Victor Harbor Pedestrian Refuge Upgrade

Works notice

We are making it safer and more convenient for pedestrians and cyclists to cross Victoria Street in Victor Harbor.

We are delivering critical road safety upgrades and improvements on remote, regional, urban roads, footpaths and cycle paths around South Australia. This \$168 million Road Safety Program is jointly funded by the Australian (50%) and South Australian (50%) Governments over three years.

What's happening

A new pedestrian crossing is being installed at the existing pedestrian crossing on Victoria Street, at the junction with Oval Road, Victor Harbor. Works include:

- relocation of the existing crossing westward and upgrade it to a pedestrian refuge with a handrail
- extension of the kerb line with a standard kerb extension and ramp, along with the extension of the existing median island.

How this affects you

To keep everyone safe, speed and lane restrictions will be in place. Please plan your trips, observe signage and follow the direction of onsite traffic controllers.

Outside of work hours, lane restrictions will be removed with speed limits remaining in place until all works are completed in December 2025.

Access to properties will be maintained at all times. Should temporary property access restrictions be required, impacted residents will be contacted directly in advance.

Thank you for your patience while we undertake this important work.

When

Monday 15 October 2025 to
Thursday 4 December
2025, weather permitting

Hours of work

Monday to Friday
7am – 5 pm
Some Saturday work may
be required

Where

Victoria Street at the
junction with Oval Road,
Victor Harbor
