

Cross Road and Fullarton Road Intersection Upgrade

Hampstead Avenue temporary closure and nightworks

The Australian and South Australian governments have jointly funded (50:50) \$61 million to upgrade the Cross Road and Fullarton Road intersection. Once complete, the upgrade will improve travel times and road safety, increase intersection capacity and enhance network reliability.

As part of this project, paving works will be undertaken shortly on Hampstead Avenue, at the junction with Cross Road, Highgate.

What to expect

Works will occur during the day and at night. To safely facilitate these works, **Hampstead Avenue will be closed at Cross Road from 7pm Sunday, 30 April until 5pm Tuesday, 2 May 2023, weather permitting.**

During this time, motorists will need to detour either via Highgate Street and Avenue Road or Fullarton Road and Euston Avenue. Refer to the map overleaf for details. Please follow local detour signage and traffic controller instructions.

Access to properties will be maintained throughout the works wherever possible, with advance notice provided if there is a need to temporarily restrict driveway access.

Some noise disturbances can be expected at times while these works are completed, however, the work will be managed to minimise disturbance to nearby residents as much as practically possible.

Please plan ahead, allow extra travel time and take extra care when workers are on site. Observe speed limits, lane restrictions and traffic controllers when travelling through the area.

Pedestrians and cyclists are advised to take care when travelling through the area. For safety reasons there may be some restricted access. Where required, signage will be in place to direct pedestrians and cyclists to alternative access and/or detours. Every effort will be made to minimise impacts to the community.

We appreciate your patience and cooperation whilst these important works are undertaken.

Further information

For more information, or to register for project updates please contact the project team via the details below:
